Executive Summary

Background - A Brief History

The history of dropout data collection begins in 1985 when the General Assembly established the state dropout prevention fund as part of the Basic Education Program. The lawmakers' intent was to increase the number and range of services to at-risk students in an effort to reduce the number of students who were dropping out of school. The State Board of Education made dropout prevention a part of the educational program of each school system in North Carolina and the North Carolina Department of Public Instruction (DPI) was charged with providing guidelines, standards, procedures and information to support this statewide effort.

From that time until present, there has been a concerted effort to account for every student who leaves school prior to graduation. At first, these dropout counts were estimates, but in 1988-89, actual counts of students were collected and reported. These dropout rates in the early years were calculated for grades 9-12 and 7-12.

In 1991-92, the Department of Public Instruction implemented federal guidelines for reporting dropouts: this meant that each event of dropping out was to be counted. If a student dropped out more than once, he/she would be reported more than once, so this came to be called the *duplicated* count. The state continued to count the unduplicated dropouts as well, so there were two reported rates: the state (unduplicated) and the federal (duplicated). The 7-12 dropout rate became the official dropout rate, since it was more inclusive of the students who were actually dropping out of school, and thus more accurate. In the 1991-92, grade 9-12 rates were no longer reported.

Then, in 1995, a new accountability program, the ABCs of Public Education, was piloted across North Carolina. The following year it was implemented in elementary and middle schools across the state. When the ABCs were implemented in high schools, the dropout rate was incorporated in the high school model. The rates were included for information only in 1998-99 and 1999-00, but in 2000-01 the grades 9-12 dropout rates were included in the ABCs as a measures of high school growth/gain. Since then, this rate has become a component in the growth model for all high schools.

Other changes were made in dropout reporting procedures in the late 90's. In 1998 state officials made two significant changes in how dropouts were counted:

1. students who left school prior to graduating and enrolled in a community college program must be counted as dropouts, and
2. there was to be only one dropout rate, based on the duplicated count.

Today, dropout rates are reported using the event (duplicated) count, and students who leave school to obtain a GED are counted as dropouts. Still, many questions remain about the state's ability to accurately track dropouts. Counting students who are no

longer in school is not easy. Dropouts do not behave in ways that make them easy to track. Student movement from school to school, state to state, and even to other countries presents a major challenge.

Lawmakers, school administrators and the public continue to view the dropout rate as a key indicator of school success. The 2001 North Carolina General Assembly passed legislation to improve tracking and reduce the number of dropouts.

Data Collection Process

On a specified date in October of each school year, school systems (LEAs) and charter schools in North Carolina begin dropout data submission through the student information management systems (SIMS and NCWISE). The school system must report each student dropout (grades 1 through 12) as defined by North Carolina's definition of a dropout, which mirrors that of the U.S. Department of Education's National Center for Education Statistics (NCES).

A dropout is a student who

- was enrolled in school at some time during the previous school year, which is the reporting year;
- was not enrolled on Day 20 of the current school year;
- has not graduated from high school or completed a state or district approved educational program; and does not meet any of the following reporting exclusions:
 1. transferred to another public school district, private school, home school or state/district approved educational program,
 2. temporarily absent due to suspension or school approved illness, or
 3. death.

North Carolina's Compulsory Attendance Law (G.S. 115C-378) requires every parent, guardian, or other person in North Carolina having charge or control of a child between the ages of 7 and 16 years of age to cause that child to attend school continuously for a period equal to the time which the public school to which the child is assigned is in session. This means that all students between the ages of 7 and 16 who do not meet exemptions, like transferring to another school, must be counted as dropouts.

These data are processed at the state agency, reviewed for discrepancies, and sent back to the LEAs for verification. Dropout rates are computed at DPI, using the following formula.

$$\frac{\text{Total Number Dropouts}}{[20\text{th Day Memb. } 2001-02 \text{ minus Initial Enrollees (FM20s)} + 20\text{th Day Memb. } 2002-03] \text{ divided by } 2 + \text{Numerator}}$$

Presentation of Results

The dropout data collection results are presented in *Dropout Data Report for North Carolina: School Year 2001-2002*. This report, consisting of an executive summary and three parts, is sent to State Board members and superintendents and is posted on the agency web site. Part One of the report contains the grades 7-12 and 9-12 numbers and rates of dropout events for four consecutive school years (1998-2002).

Part Two contains charts, graphs and narrative addressing trends, grade levels, gender/ethnicity, reasons for dropping out, accountability and implications. Part Three is composed of LEA dropout data reported in subgroups by gender and ethnicity for grades 7-12 and grades 9-12. It also includes a table of dropout data by School and LEA by subgroups for grades 1-12.

Summary of Results for School Year 2001-2002

Dropout data from 132 school systems (117 LEAs + charter schools) are included in this report. In the 2001-02 school year, 21,046 dropout events were reported for grades 7-12, at a rate of 3.52%. There were 20,202 dropout events reported for grades 9-12, a rate of 5.25%. Table 1 below shows the rates since 1998 and the percent decrease from 1998 to 1999 and from 2000 to 2001. The 7-12 dropout rate has decreased by 23.9% since 1998, and the 9-12 rate by 22.6%.

Table 1 North Carolina Dropout Event Rates

Year	Grades 7-12	Change	Grades 9-12	Change
1998-99	4.60%		6.78	
1999-00	4.34%	▼ 6.5%	6.43	▼ 5.2%
2000-01	3.86%		5.72	
2001-02	3.52%	▼ 8.8%	5.25	▼ 8.2%

In 2001-02, most dropouts (nearly 59%) were males, who made up almost 1% of the total average student membership. All dropout events accounted for nearly 2% of the average student membership.

Table 2 Dropout Events by Gender, Grades 1-12

Gender	# of Dropout Events	%	% Average Membership ¹ Grades 1-12
Males	12765	58.58%	.98%
Females	9024	41.40%	.69%
Total	21789	99.98%	1.67%

¹Average student membership of 2001-02 and 2002-03 school years is 1,304,802.

Note: Percentages may not equal 100 due to rounding.

Ethnic minorities (American Indians, Hispanics, and Blacks) continue to be over-represented in the state's dropout events. American Indians have the highest dropout rates per their ethnic population, followed by Hispanics and Blacks.

Table 3 Dropout Events by Ethnicity, Grades 1-12

Ethnicity	# of Events	# in Ethnic Membership ²	Dropout Events as % of Ethnic Membership	Dropout Event as % of Average Student Membership (n=1,304,802)	Ethnic Dropout Event as % of All Dropout Events (n=21789)
American Indians	478	19129	2.50%	.04%	2.19%
Asian	300	24979	1.20%	.02%	1.38%
Black	7696	407761	1.89%	.59%	35.33%
Hispanic	1423	68053	2.09%	.11%	6.53%
Multiracial	217	NA	NA	.02%	1.00%
White	11675	785209	1.49%	.89%	53.58%
Total	21789	1305131	~	1.67%	100.01%

²Membership numbers from fall 2001, 2002/2003 Education Directory, page 295.

NA - data not available

Note: Percentages may not equal 100 due to rounding.

When grades 7-12 dropout events are disaggregated by ethnicity and gender, white males and white females have the highest incidences of dropout events, followed by black males and black females.

Table 4 Dropout Events by Ethnicity and Gender, Grades 7-12

	# Dropout Events	% of Total Dropout Events
Am Indian Male	276	1.31%
Am Indian Female	194	.92%
Asian Male	173	.82%
Asian Female	95	.46%
Hispanic Male	696	3.30%
Hispanic Female	564	2.68%
Black Male	4459	21.19%
Black Female	2900	13.92%
White Male	6666	31.67%
White Female	4815	22.88%
Total	20838	99.15%

Note: Total does not include multiracial

¹ Each dropout event is counted; a single student may drop out in more than one school year and be counted more than once.

² 1999-00 data in this table reflect changes that were made after initial release in 2001.

³ 1998-99 data in this table reflect changes that were made after initial release in 2000.

⁴ 2000-01 data in this table reflect changes that were made after initial release in 2002.

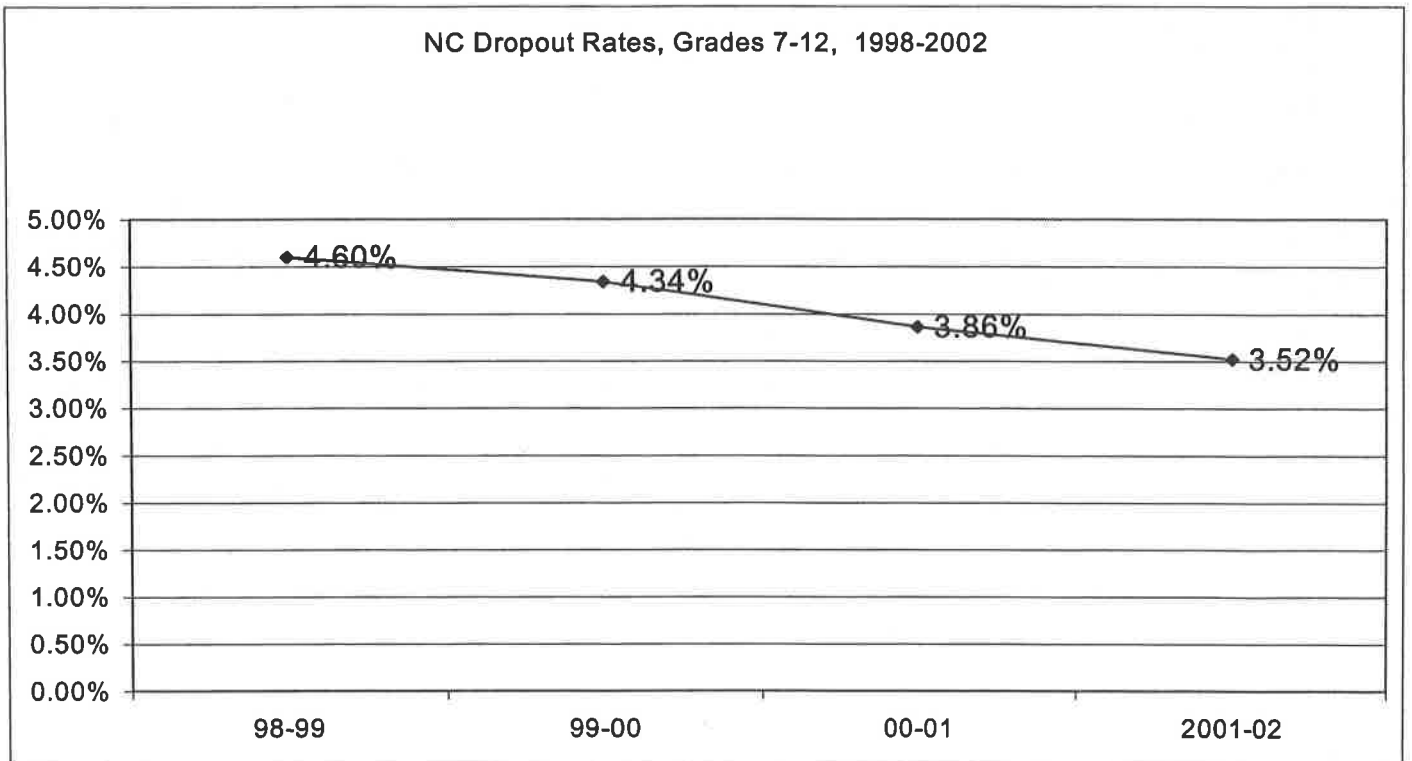

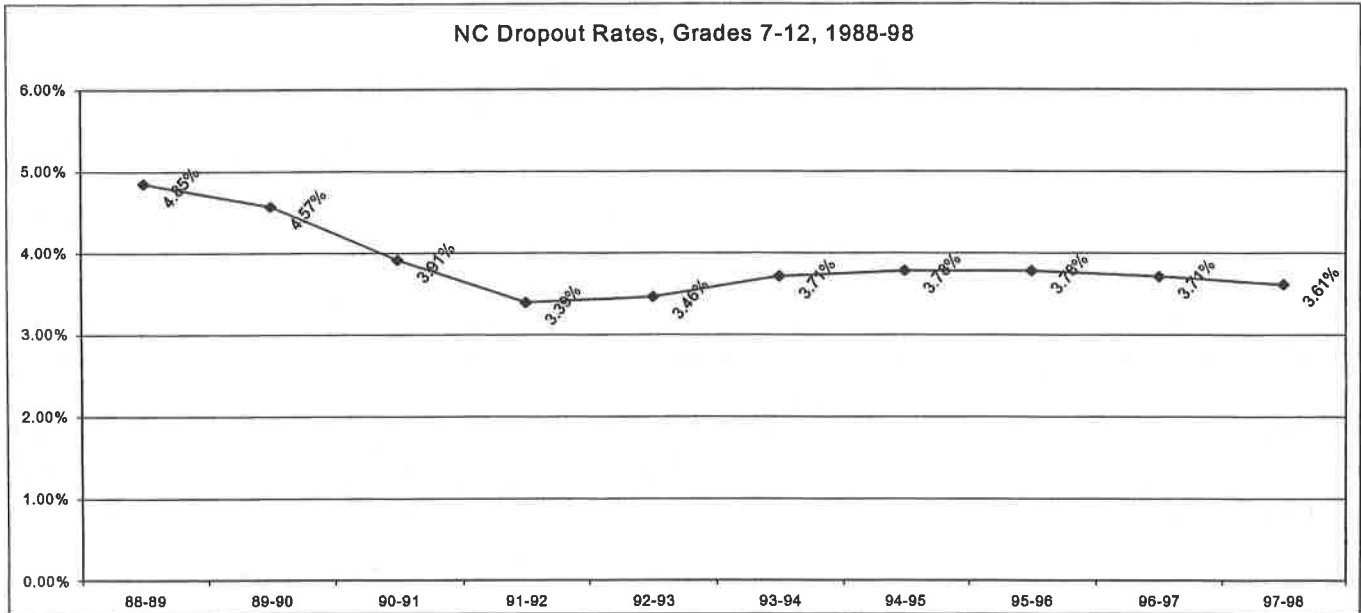

na Data were unavailable or school was not in operation.

NOTE: Dropout data are submitted and verified by the local school systems and charter schools. NCDPI does not conduct audits to determine accuracy.

Part Two

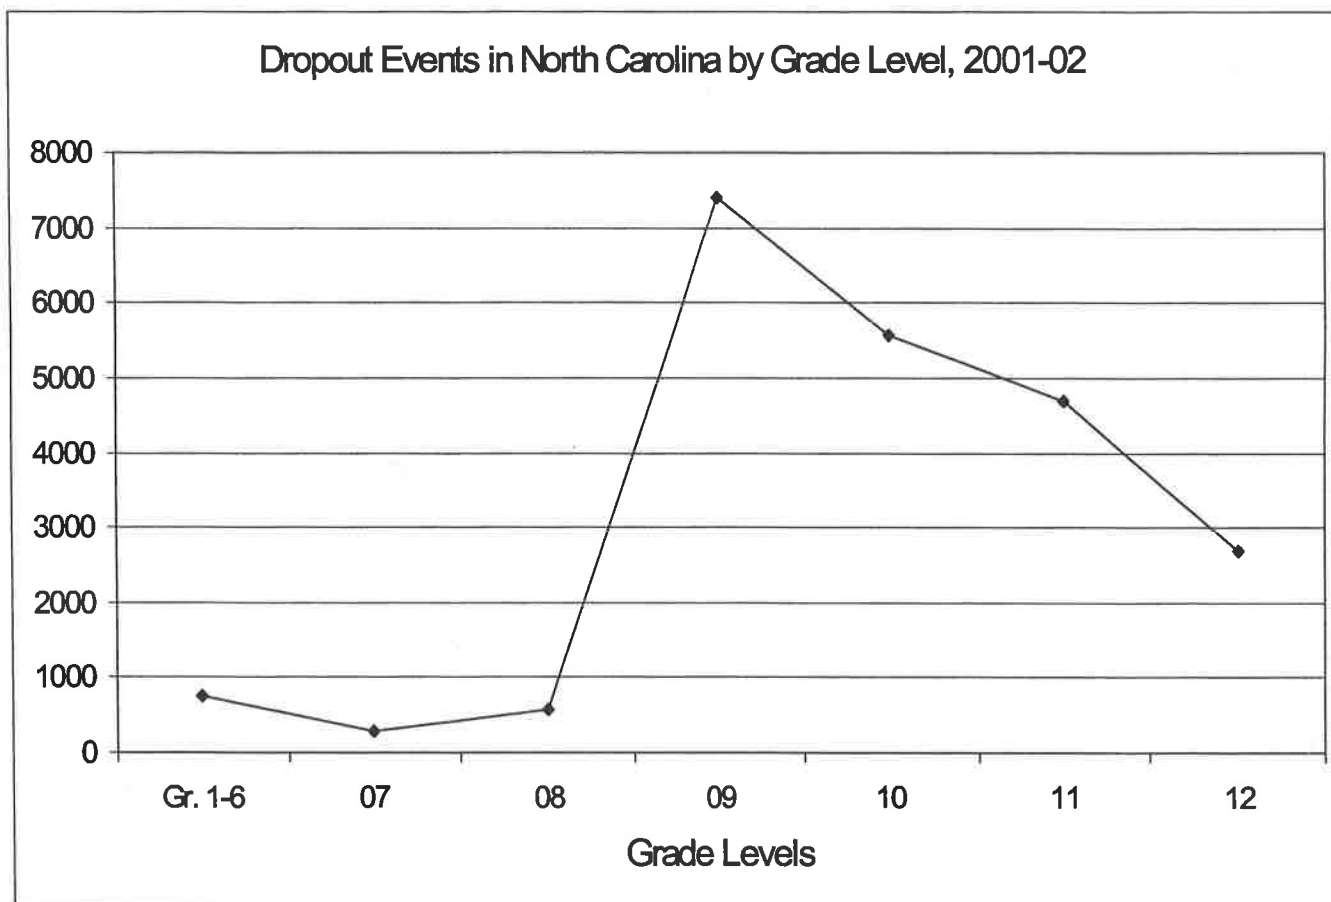

Historical rates

Dropout rates have steadily declined since 1998. Line graphs below present historical rates for grades 7-12 since 1988. The data are presented in two separate graphs due to a significant change in dropout data collection in 1998. Beginning in that year, students who left school to attend a community college were counted as dropouts.

Grade Levels

Most dropout events occur at grade 9. The graph below illustrates the numbers of dropouts by grade levels for the 2001-02 school year. There were 745 dropout events reported in North Carolina in grades 1-6, and 7407 dropout events at grade 9. The Compulsory Attendance Law (G.S. 115C-378) states every parent, guardian, or other person in North Carolina having charge or control of a child between the ages of 7 and 16 shall see to that child's education. Thus most dropout events occur after students reach age 16.

Gender and Race

Minority ethnic groups are over-represented in the state's dropout events. Table 5 indicates this disproportion with shaded cells and bolded text. While American Indians make up nearly 1.5% of the state's average student membership, they account for more than 2 % of the state's dropout events. Blacks, who make up 31 % of the state's membership, account for more than 35 % of the state's dropout events. Hispanics comprise 5 percent of the state's total average membership, yet they account for more than 6.5 % of the total dropout events statewide.

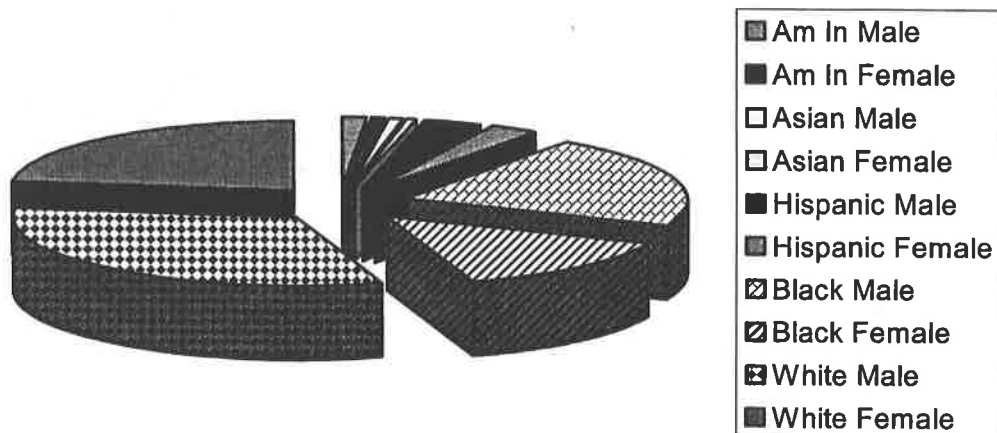

Table 5 Ethnicity, Grades 1-12

Ethnicity	As % of Dropout Events, Grades 1-12	As % of Average Membership, Grades 1-12
American Indians	2.19%	1.47%
Asian	1.38%	1.91%
Black	35.32%	31.25%
Hispanic	6.53%	5.22%
Multiracial	1.00%	NA
White	53.58%	60.18%

NA - Data not available

In grades 7-12, dropout events mirror the ethnic make-up of North Carolina's student population. White males and females comprise over half of the state's dropout events.

Portion of Total Dropout Events, Grades 7-12, 2001-02

Why Students Drop Out

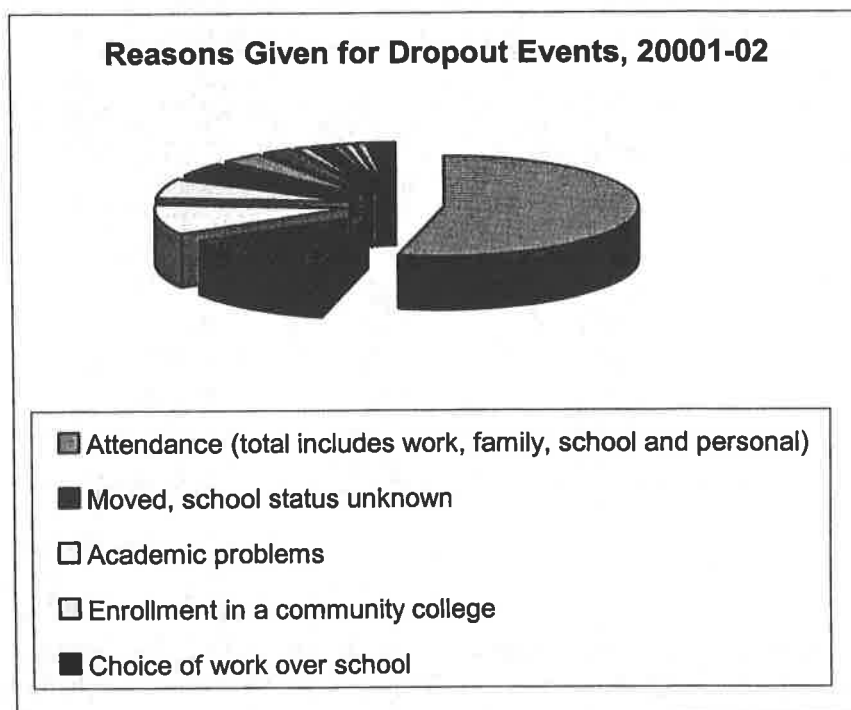

North Carolina law and State Board policy require that schools confer with potential dropouts in order to caution them on the seriousness of their decision to leave school and to refer them to appropriate services, including appropriate educational alternatives. They may be referred to an extended school day program, alternative school, or optional school.

Students who drop out are coded in the student information management system (SIMS and NCWISE) as dropouts, and one of twenty-one reason codes is entered on their student record. Wherever possible, students provide the reasons for their decision to leave school. Unfortunately, students are not always available to cite reasons for the dropout event. Data managers and dropout prevention coordinators provide reasons in these instances.

Table 6 Why Students Drop Out, Grades 1-12

Reason Code Used	Numbers	Percent
Attendance (total includes attendance - work, family, school and personal)	11797	54%
Moved, school status unknown	2796	13%
Academic problems	2135	10%
Enrollment in a community college	1423	7%
Choice of work over school	950	4%
Failure to return after a long-term suspension	749	3%
Discipline problems	540	2%
Pregnancy	274	1%
Incarcerated in adult facility	257	1%
Unstable home environment	224	1%
Runaway	179	1%
<i>Permanent expulsion (not included in official count)</i>	138	1%
Health problems	141	1%
Need to care for children	136	1%
Marriage	67	0%
Suspected substance abuse	64	0%
Employment necessary	38	0%
Uncoded	19	0%
TOTAL (excluding expulsions)	21789	100%

Attendance, moved, academic problems, enrollment in a community college, and choice of work over school are the five most cited reasons for dropout events. These are illustrated as portions of all reasons in the graph below.

Accountability and the Dropout Rate

A recent study from Arizona State University, *High Stakes Testing, Uncertainty, and Student Learning* (2002), pointed out the correlation between high stakes testing in accountability programs and dropout rates. In this study, researchers provided a brief history of high-stakes testing in eighteen states. Their findings included the assertion that an increase in dropout rates was an unintended consequence associated with the high-stakes testing programs.

Dropout rates in North Carolina do not support this contention. A review of the line graphs on page 9 of this report indicates that dropout rates in North Carolina have not increased since the implementation of the high-stakes testing and accountability program (ABCs of Public Education) in 1996-97. The grades 7-12 and 9-12 dropout rates in North Carolina have continued to decline during the years of the ABCs: in 1998-99, the state's annual dropout rate for grades 9-12 was 6.77 % and in 2001-02 the rate was 5.25%. This represents a decrease of 22.5 %.

There has been, however, an increase in the numbers of students who give "academic problems" as their reason for the dropout event during the years of the ABCs. Table 8 provides data that illustrate this. In 1995-96, the year of the ABCs pilot, slightly more than 7% of the reasons given for dropout events were coded as academic problems. In 2001-02 that rate had risen to 9.8%.

Table 7 Academic Reasons

"Academic Problems" as Reason for Dropout Events, Grades 1-12			
Year	Total Reasons	# of Reason - "Academic Problems"	%
1995/96*	20531	1465	7.14%
1996/97	20191	1630	8.07%
1997/98	20155	1817	9.02%
1998/99	26387	2004	7.59%
1999/00	25271	1989	7.87%
2000/01	23224	1947	8.38%
2001/02	21789	2135	9.80%

*ABCs were piloted in 10 school systems

Implications

While the dropout rate in North Carolina continues to decline, the state is still losing too much human potential. More than 20,000 students left school in 2001-02 without graduating. The social and personal costs of dropping out are high. Social costs include less tax revenue, loss of productivity and increased expenditures for social welfare programs. Personal costs include the loss of earning potential and likelihood of living in poverty.

The National Research Council, in *Understanding Dropouts: Statistics, Strategies, and High-Stakes Testing* (Beatty, et. al., 2001) stresses that for most students, dropping out of school begins in the early years of elementary school, and the disengagement takes place gradually over a number of years. The dropout event is a culmination of missed opportunities and a series of misfortunes. The Council recommends early intervention as a strategy of prevention. It is important to address the needs of struggling students as soon as they become apparent. These students must be given support, remediation and counseling to encourage them to stay in school.

It is important, too, to remember that each student whose life is captured in dropout statistics is an individual reacting to a unique set of circumstances. The circumstances that cause a particular student to separate from school . . . can rarely be summed up easily, and rarely involve only one factor. (Beatty et. al., 2001)
