Executive Summary

Background - A Brief History

The history of dropout data collection begins in 1985 when the General Assembly established the state dropout prevention fund as part of the Basic Education Program. The lawmakers' intent was to increase the number and range of services to at-risk students in an effort to reduce the number of students who were dropping out of school. The State Board of Education made dropout prevention a part of the educational program of each school system in North Carolina, and the North Carolina Department of Public Instruction (DPI) was charged with providing guidelines, standards, procedures and information to support this statewide effort.

From that time until present, there has been a concerted effort to account for every student who leaves school prior to graduation. At first, these dropout counts were estimates, but in 1988-89, actual counts of students were collected and reported. These dropout rates in the early years were calculated for grades 9-12 and 7-12.

In 1991-92, the Department of Public Instruction implemented federal guidelines for reporting dropouts: this meant that each event of dropping out was to be counted. If a student dropped out in more than one year, he/she would be reported as a dropout in each of the years, so this came to be called the *duplicated* count. The state continued to count the unduplicated dropouts as well, so there were two reported rates: the state (unduplicated) and the federal (duplicated). The 7-12 dropout rate became the official dropout rate, since it was more inclusive of the students who were actually dropping out of school, and thus more accurate. In 1991-92, grade 9-12 rates were no longer reported.

Then, in 1995, a new accountability program, the ABCs of Public Education, was piloted across North Carolina. The following year it was implemented in elementary and middle schools across the state. When the ABCs were implemented in high schools, the dropout rate was incorporated in the high school model. The rates were included for information only in 1998-99 and 1999-00, but in 2000-01 the dropout rates for grades 9-12 were included in the ABCs as a measure of high school growth/gain. Since then, this rate has become a component in the growth model for all high schools.

Other changes were made in dropout reporting procedures in the late 90's. In 1998 state officials made two significant changes in how dropouts were counted:

1. Students who left school prior to graduating and enrolled in a community college program must be counted as dropouts.
2. There was to be only one dropout rate, based on the duplicated count.

Today, dropout rates are reported using the event (duplicated) count, and students who leave school to obtain a GED are counted as dropouts. Still, many questions remain about the state's ability to accurately track dropouts. Counting students who are no longer in school is not

easy. Dropouts do not behave in ways that make them easy to track. Student movement from school to school, state to state, and even to other countries presents a major challenge.

Lawmakers, school administrators and the public continue to view the dropout rate as a key indicator of school success. The 2001 North Carolina General Assembly passed legislation to improve tracking and reduce the number of dropouts.

Data Collection Process

On a specified date in October of each school year, school systems (LEAs) and charter schools in North Carolina begin dropout data submission through the student information management systems (SIMS and NCWISE). The school system must report each student dropout (grades 1 through 12) as defined by North Carolina's definition of a dropout, which mirrors that of the U.S. Department of Education's National Center for Education Statistics (NCES).

A dropout is a student who

- was enrolled in school at some time during the previous school year, which is the reporting year;
- was not enrolled on Day 20 of the current school year;
- has not graduated from high school or completed a state or district approved educational program; and does not meet any of the following reporting exclusions:
 1. transferred to another public school district, private school, home school or state/district approved educational program,
 2. temporarily absent due to suspension or school approved illness, or
 3. death.

North Carolina's Compulsory Attendance Law (G.S. 115C-378) requires every parent, guardian, or other person in North Carolina having charge or control of a child between the ages of 7 and 16 years of age to cause that child to attend school continuously for a period equal to the time which the public school to which the child is assigned is in session. This means that all students between the ages of 7 and 16 who do not meet exemptions, such as transferring to another school, must be counted as dropouts.

These data are processed at the state agency, reviewed for discrepancies and sent back to the LEAs for verification. Dropout rates are computed at DPI, using the following formula:

$$\frac{\text{Total Number Dropouts}}{[20\text{th Day Memb. } 2003-04 \text{ minus Initial Enrollees (FM20s)} + 20\text{th Day Memb. } 2004-05] \text{ divided by } 2 + \text{Numerator}}$$

Presentation of Results

The dropout data collection results are presented in the Public Schools of North Carolina's *Dropout Data Report, 2003-04*. This report, consisting of an executive summary and three parts, is sent to State Board of Education members and is posted on the agency web site. Part One of the report contains the grades 7-12 and 9-12 numbers and rates of dropout events for six consecutive school years (1998-2004).

Part Two contains charts, graphs and narrative addressing trends, grade levels, gender/ethnicity, reasons for dropping out, accountability and implications. Part Three is

composed of LEA dropout data reported in subgroups by gender and ethnicity for grades 7-12 and grades 9-12. It also includes a table of dropout data by school and LEA by subgroups for grades 1-12.

Later in 2005, portions of this report will be combined with data on suspensions, expulsions and alternative program placements to create a single document for meeting legislative reporting requirements.

Summary of Results for School Year 2003-04

Dropout data from 129 school systems (117 LEAs + charter schools) are included in this report. In the 2003-04 school year, 20,817 dropout events were reported for grades 7-12, at a rate of 3.29%. There were 20,035 dropout events reported for grades 9-12, a rate of 4.86%. Table 1 below shows the rates since 1998 and the percent changes. While both 7-12 and 9-12 rates increased slightly in 2003-04, the 7-12 dropout rate has decreased by 28.5% since 1998 and the 9-12 rate by 28.3%.

Table 1 North Carolina Dropout Event Rates

Year	Grades 7-12	% Change	Grades 9-12	% Change
1998-99	4.60%		6.78%	
1999-00	4.34%	-5.7%	6.43%	-5.2%
2000-01	3.86%	-11.1%	5.72%	-11.0%
2001-02	3.52%	-8.8%	5.25%	-8.2%
2002-03	3.23%	-8.2%	4.78%	-9.0%
2003-04	3.29%	+1.9%	4.86%	+1.7%

In 2003-04, 59% of North Carolina's public school dropouts in grades 1-12 were males, while 41% were females. Male dropout events (12,422) made up 1% of the total student membership in grades 1-12; total dropout events (21,142) represented approximately 1.7% of the student membership.

Table 2 Dropout Events by Gender, Grades 1-12

Gender	# of Dropout Events	% of Total Events	% Membership Grades 1-12
Males	12,422	58.76%	1.00%
Females	8,720	41.24%	.71%
Total	21,142	100%	1.71%

Per Table 3, column F, most of the dropouts in grades 1-12 were White (52.08%), while another 35.05% was Black. In addition, comparisons of dropout rates within ethnic subgroups reveal that ethnic minorities (American Indians, Hispanics, and Blacks) continue to be over-represented in the state's dropout events. According to column D, American Indians have the

highest dropout rates per ethnic population (2.97%), followed by Hispanics (2.14%) and Blacks (1.90%).

Table 3 Dropout Events by Ethnicity, Grades 1-12

Ethnicity (A)	# of Dropout Events (B)	# in Ethnic Membership (C)	Dropout Events as % of Ethnic Membership (D)	Dropout Events as % of 1-12 Membership (n=1,238,287) (E)	Ethnic Dropout Events as % of All Dropout Events (n=21,142) (F)
Am. Indian	534	17,992	2.97%	.04%	2.53%
Asian	227	24,733	.92%	.02%	1.07%
Black	7,411	390,381	1.90%	.60%	35.05%
Hispanic	1,669	77,982	2.14%	.14%	7.90%
Multiracial	290	NA	NA	.02%	1.37%
White	11,011	727,199	1.51%	.89%	52.08%
Total	21,142	1,238,287	1.71%	1.71%	100%

NA - data not available

Further disaggregation of the dropout events in grades 1-12 by ethnicity and gender (Part Two, Table 7) indicates that the highest percentages of dropouts occur among American Indian males (3.52%), American Indian females (2.39%), Hispanic males (2.34%), Black males (2.31%), Hispanic females (1.93%) and White males (1.69%).

According to data in Table 4, students drop out of school most frequently in the ninth grade (7,096 or 33.56% in 2003-04).

Table 4 Dropout Events by Grade Level for Grades 1-12

Grade Level	# Dropout Events	% of Total Dropout Events
Grades 1-6	325	1.54%
Grade 7	194	0.92%
Grade 8	588	2.78%
Grade 9	7,096	33.56%
Grade 10	5,516	26.09%
Grade 11	4,577	21.65%
Grade 12	2,846	13.46%
Total	21,142	100%

At the same time, as Table 5 reveals, the highest numbers and percentages of dropout events (6,366 events and 30.1%) occur at age 17, followed closely by age 16 (6,050 events and 28.6%). A closer examination of ninth graders who drop out (not included in the table) indicates that 20.6% of ninth grade dropouts are below 16 years of age; 46.3% are age 16; 24.7% are age 17 and 8.4% are age 18 or over.

Table 5 Dropout Events by Age for Students in Grades 1-12

Age	# Dropout Events	% of Total Dropout Events
Below 16	2,630	12.44%
Age 16	6,050	28.62%
Age 17	6,366	30.11%
Age 18	4,488	21.23%
Age 19	1,330	6.29%
Over 19	278	1.31%
Total	21,142	100%

¹ Each dropout event is counted; a single student may drop out in more than one school year and be counted more than once.

² 1999-00 data in this table reflect changes that were made after the initial release of data in 2001.

³ 1998-99 data in this table reflect changes that were made after the initial release of data in 2000.

⁴ 2000-01 data in this table reflect changes that were made after the initial release of data in 2002.

⁵ 2001-02 data in this table reflect changes that were made after the initial release of data in 2003.

na Data were unavailable or school was not in operation.

* For 2003-04, Cleveland, Kings Mountain, and Shelby's dropout counts are listed separately; however, the dropout rate of 3.25 percent represents a combined dropout rate for the merged Cleveland County Schools.

NOTE: Dropout data are submitted and verified by the local school systems and charter schools. NCDPI does not conduct audits to determine accuracy.

¹ Each dropout event is counted; a single student may drop out in more than one school year and be counted more than once.

² 1999-00 data in this table reflect changes that were made after the initial release of data in 2001.

³ 1998-99 data in this table reflect changes that were made after the initial release of data in 2000.

⁴ 2000-01 data in this table reflect changes that were made after the initial release of data in 2002.

⁵ 2001-02 data in this table reflect changes that were made after the initial release of data in 2003.

na Data were unavailable or school was not in operation.

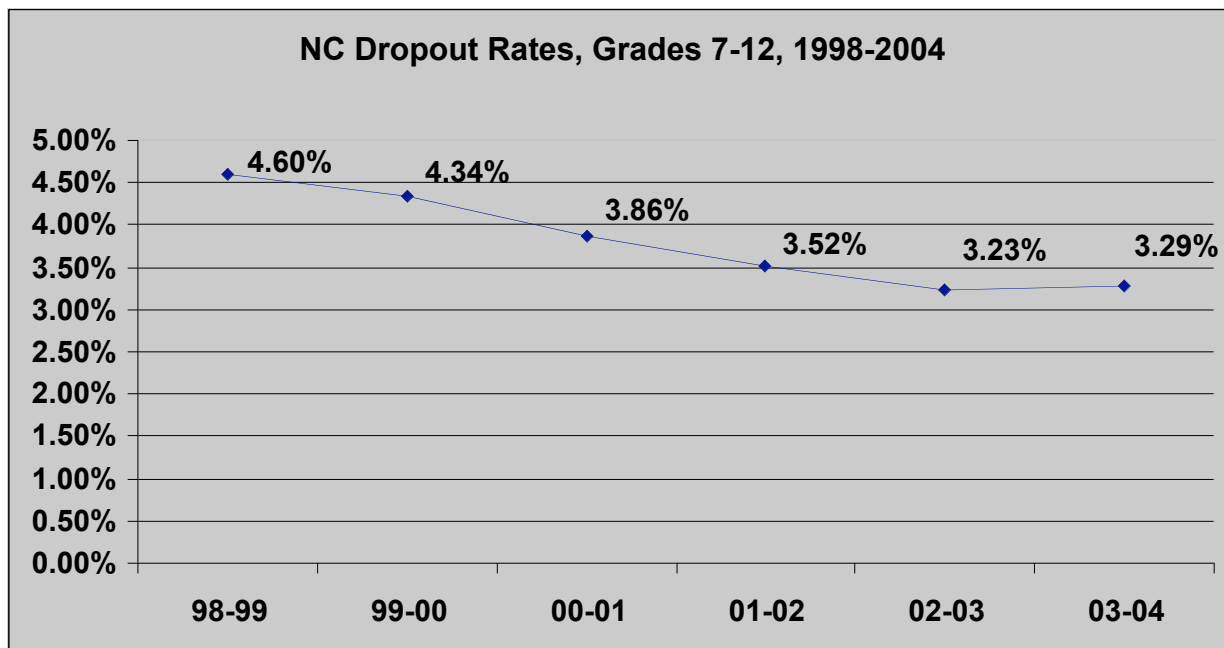

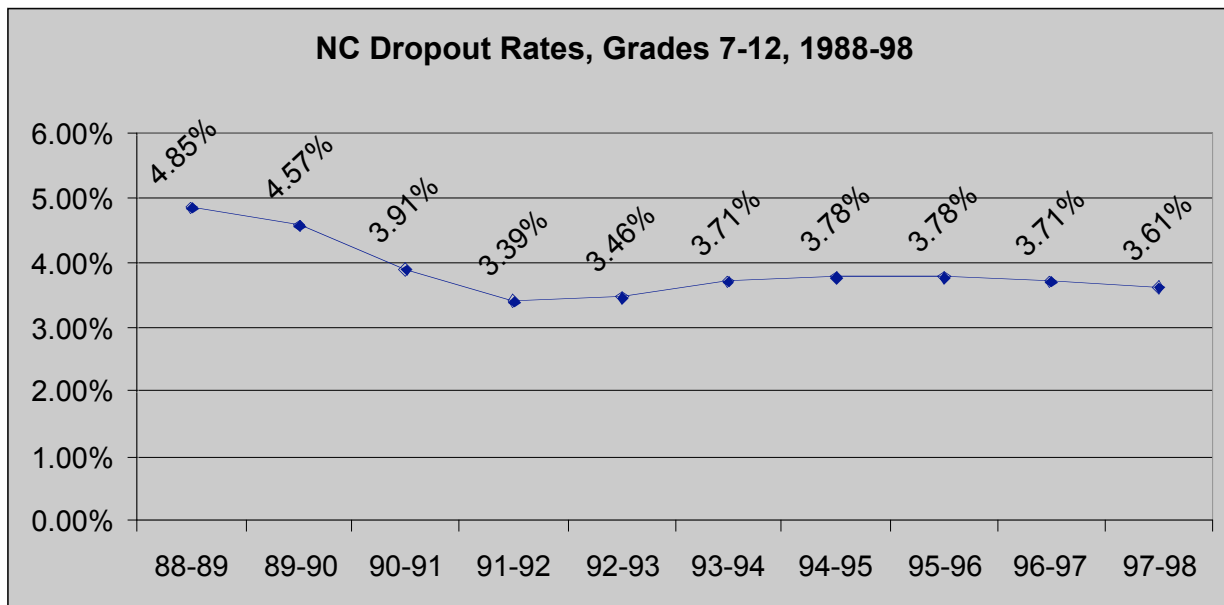

* For 2003-04, Cleveland, Kings Mountain, and Shelby's dropout counts are listed separately; however, the dropout rate of 4.75 percent represents a combined dropout rate for the merged Cleveland County Schools.

NOTE: Dropout data are submitted and verified by the local school systems and charter schools. NCDPI does not conduct audits to determine accuracy.

Part Two

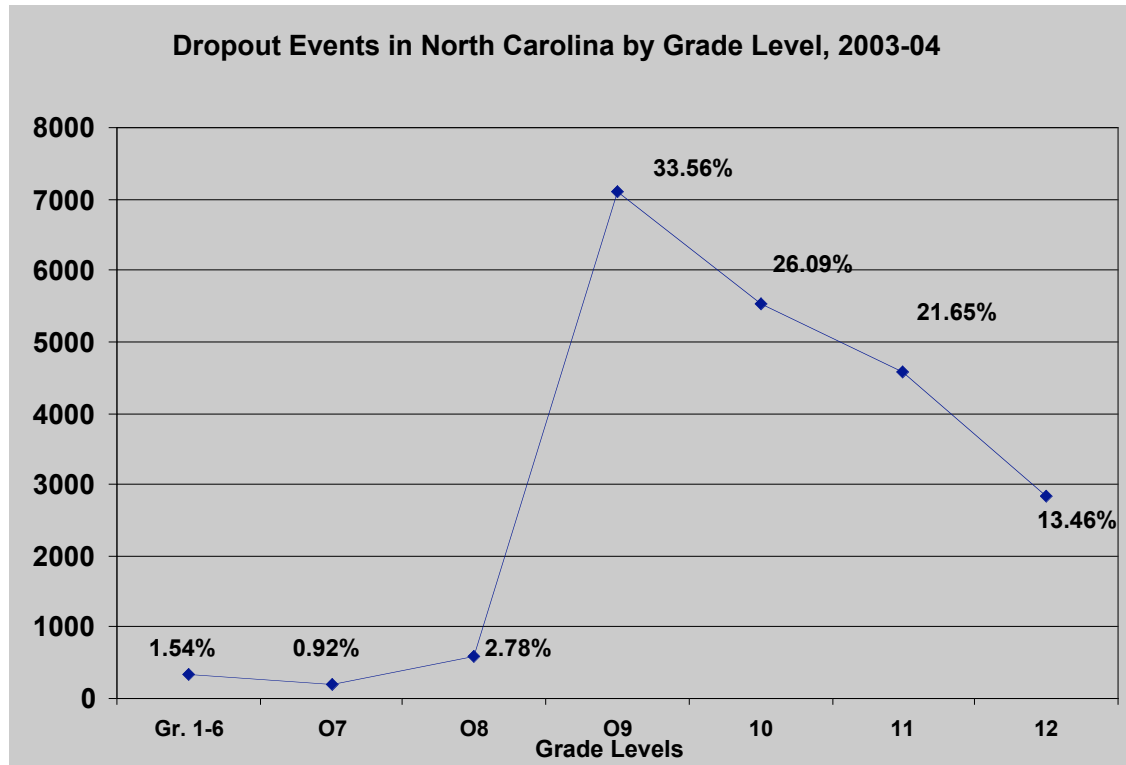

Historical rates

Dropout rates declined steadily between 1998 and 2003; however, the 2003-04 rate increased slightly from the previous year's rate. Line graphs below present historical rates for grades 7-12 since 1988. The data are presented in two separate graphs due to a significant change in dropout data collection in 1998. Beginning in that year, students who left school to attend a community college were counted as dropouts.

Grade Levels

Most dropout events occur at grade 9. The graph below illustrates the numbers of dropouts by grade levels for the 2003-04 school year. There were 325 dropout events reported in North Carolina in grades 1-6 and 7,096 dropout events at grade 9. The Compulsory Attendance Law (G.S. 115C-378) states every parent, guardian, or other person in North Carolina having charge or control of a child between the ages of 7 and 16 shall see to that child's education. Thus most dropout events occur after students reach age 16.

Gender and Race

Minority ethnic groups are over-represented in the state's dropout events. Table 6 indicates this disproportion with shaded cells and bolded text. While American Indians make up nearly 1.5% of the state's student membership in grades 1-12, they account for approximately 2.5% of the state's dropout events. Blacks, who make up 31.5% of the state's membership, account for 35.1% of the state's dropout events. Hispanics comprise 6.3% of the state's total 1-12 membership, yet they account for 7.9% of the total dropout events statewide.

Table 6 Ethnicity, Grades 1-12

Ethnicity	% of Dropout Events, Grades 1-12	% of Total Membership, Grades 1-12
Am. Indian	2.53%	1.45%
Asian	1.07%	2.00%
Black	35.05%	31.53%
Hispanic	7.90%	6.30%
Multiracial	1.37%	NA
White	52.08%	58.73%
	100%	100%

NA - Data not available

Another method of analyzing these data is to compare the dropout events and student membership within each ethnic/gender group. Table 7 depicts these comparisons as percentages of each ethnic/gender group that drops out of public school. According to these data, American Indian males (3.52%) and females (2.39%), Hispanic males (2.34%) and females (1.93%) and Black males (2.31%) drop out at rates that surpass the state average (1.71%). Again, shading and bolding have been used to identify these specific groups.

Table 7 Percentages of Dropouts within Ethnic/Gender Groups, Grades 1-12

Ethnicity/Gender	# of Dropout Events	Total # in Ethnic/Gender Membership	Dropout Events as % of Ethnic/Gender Membership
Am. Indian Male	324	9,210	3.52%
Am. Indian Female	210	8,782	2.39%
Asian Male	132	12,759	1.04%
Asian Female	95	11,974	0.79%
Black Male	4,562	197,600	2.31%
Black Female	2,849	192,781	1.48%
Hispanic Male	944	40,333	2.34%
Hispanic Female	725	37,649	1.93%
Multiracial Male	136	NA	NA
Multiracial Female	154	NA	NA
White Male	6,324	373,198	1.69%
White Female	4,687	354,001	1.32%
Total	21,142	1,238,287	1.71%

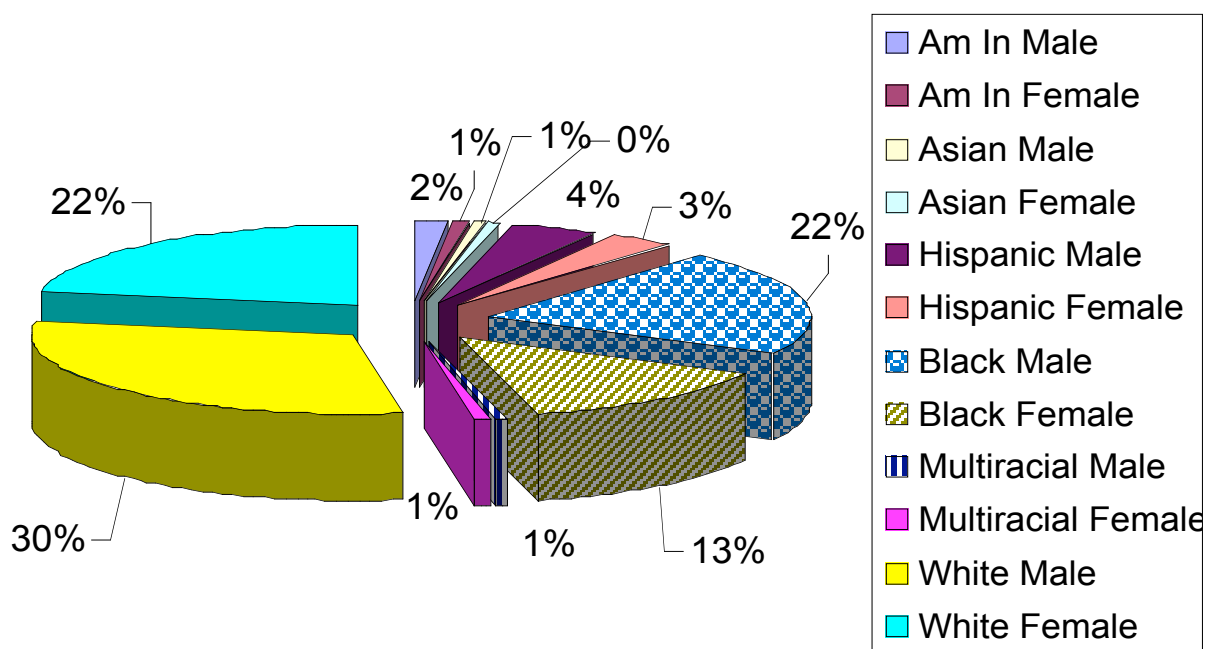

NA - Data not available

In grades 7-12, dropout events mirror the ethnic make-up of North Carolina's student population. White males and females comprise over half of the state's dropout events.

Table 8 Dropout Events by Ethnicity and Gender, Grades 7-12

	# Dropout Events	% of Total Dropout Events
Am. Indian Male	321	1.54%
Am. Indian Female	208	1.00%
Asian Male	126	.61%
Asian Female	83	.40%
Black Male	4,483	21.54%
Black Female	2,779	13.35%
Hispanic Male	911	4.38%
Hispanic Female	697	3.35%
Multiracial Male	133	.64%
Multiracial Female	151	.73%
White Male	6,275	30.14%
White Female	4,650	22.34%
Total	20,817	100%

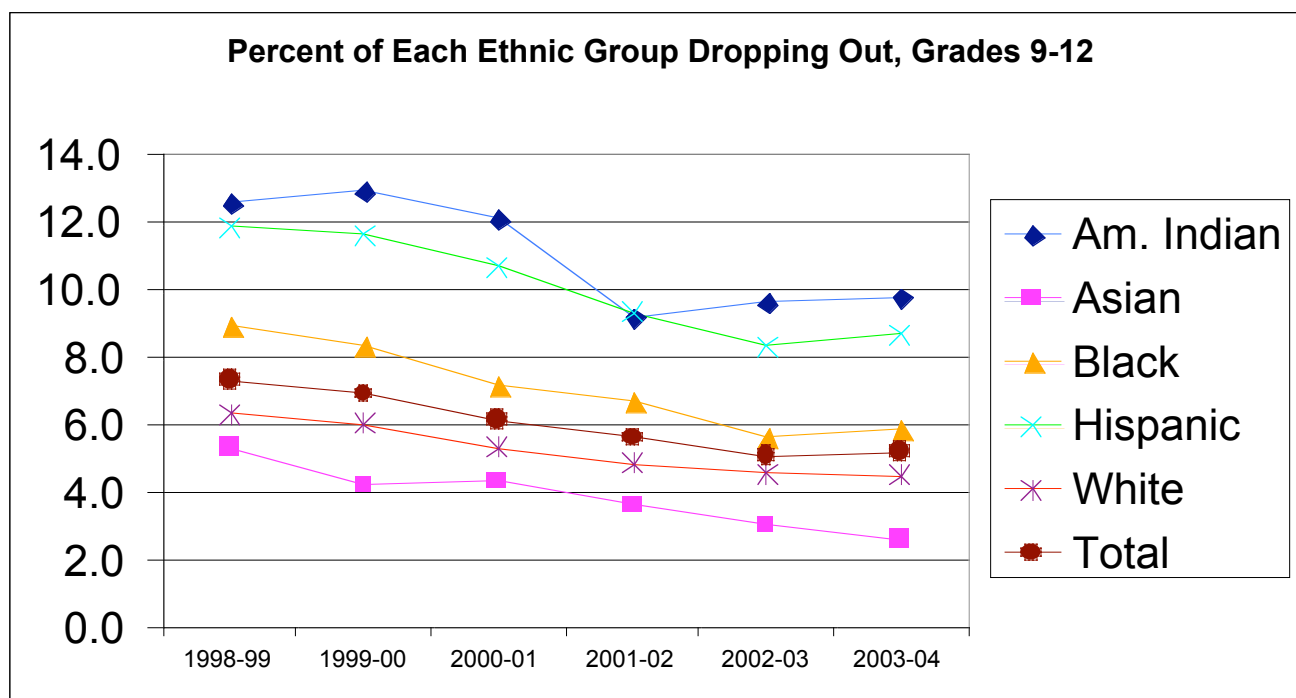

Portion of Total Dropout Events, Grades 7-12, 2003-04

Trend data on the percent of each ethnic group dropping out in grades 9-12 indicate the progress that North Carolina has made in reducing its dropout rates. However, as the following table and graph also reveal, gaps in dropout percentages among the various ethnic groups continue to exist.

Table 9 Percent of Each Ethnic Group Dropping Out, Grades 9-12

	1998-99	1999-00	2000-01	2001-02	2002-03	2003-04

Hispanic	11.86%	11.62%	10.70%	9.31%	8.30%	8.67%
White	6.35%	6.00%	5.31%	4.86%	4.53%	4.46%
Total	7.33%	6.93%	6.15%	5.63%	5.10%	5.20%

Why Students Drop Out

North Carolina law and State Board policy require that schools confer with potential dropouts in order to caution them on the seriousness of their decision to leave school and to refer them to appropriate services, including appropriate educational alternatives. They may be referred to an extended school day program, alternative school or optional school.

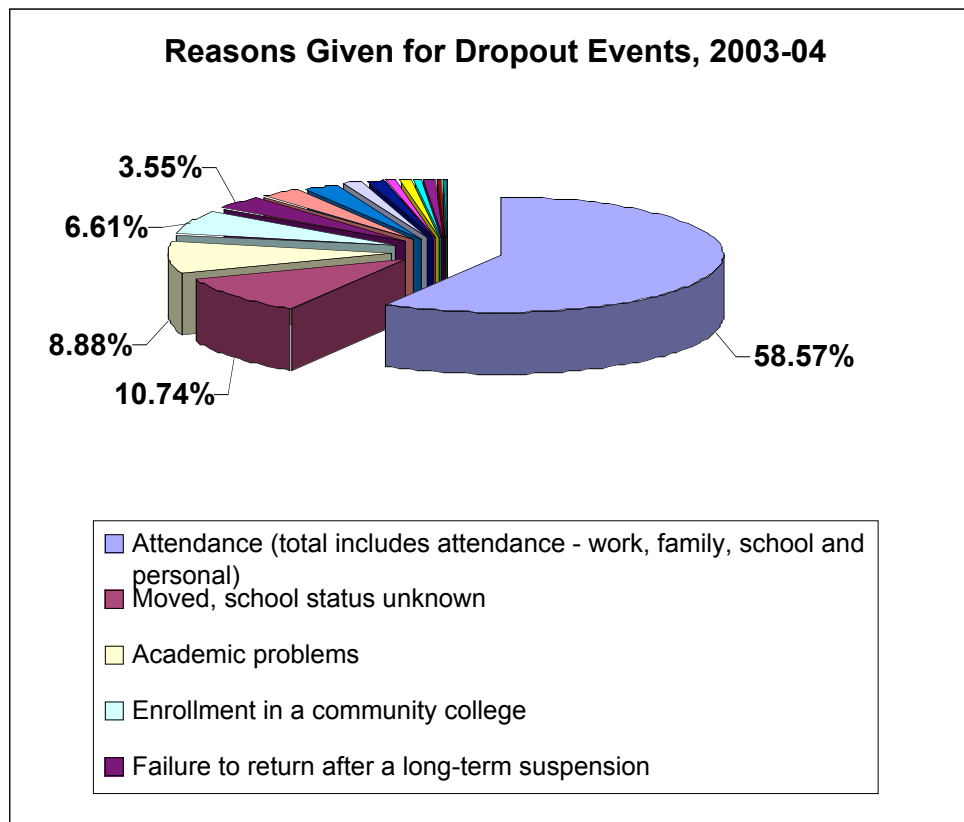

Students who drop out are coded in the student information management system (SIMS and NCWISE) as dropouts, and one of twenty-one reason codes is entered on their student record. Wherever possible, students provide the reasons for their decision to leave school. Unfortunately, students are not always available to cite reasons for the dropout event. In these instances, data managers and dropout prevention coordinators provide reasons.

Table 9 Why Students Drop Out, Grades 1-12

Reason Code Used	Numbers	Percent
Attendance (total includes attendance - work, family, school and personal)	12,382	58.57%
Moved, school status unknown	2,271	10.74%
Academic problems	1,877	8.88%
Enrollment in a community college	1,398	6.61%
Failure to return after a long-term suspension	750	3.55%
Choice of work over school	665	3.15%
Discipline problems	531	2.51%
Pregnancy	254	1.20%
Incarcerated in adult facility	229	1.08%
Runaway	175	.83%
Unstable home environment	174	.82%
Need to care for children	155	.73%
Health problems	150	.71%
Marriage	58	.27%
Employment necessary	44	.21%
Suspected substance abuse	29	.14%
TOTAL (excluding expulsions)	21,142	100%

Note: Expulsions, which numbered 92 in 2003-04, are excluded from the dropout events for grades 1-12.

Attendance, moved, academic problems, enrollment in a community college and failure to return after a long-term suspension are the five most cited reasons for dropout events. These are illustrated as portions of all reasons in the following graph.

Accountability and the Dropout Rate

A recent study from Arizona State University, *High Stakes Testing, Uncertainty, and Student Learning* (2002), pointed out the correlation between high stakes testing in accountability programs and dropout rates. In this study, researchers provided a brief history of high-stakes testing in eighteen states. Their findings included the assertion that an increase in dropout rates was an unintended consequence associated with the high-stakes testing programs.

Dropout rates in North Carolina over the past several years have not supported this contention. A review of the line graphs on page 13 of this report, as well as statewide trend data in Part One, indicates that dropout rates in North Carolina have decreased since the implementation of the high-stakes testing and accountability program (ABCs of Public Education) in 1996-97. For example, the state's 7-12 dropout rate was 4.60% in 1998-99 but 3.29% in 2003-04, representing a decrease of 28.5%. Similarly, in 1998-99 the state's annual dropout rate for grades 9-12 was 6.78 %, and in 2003-04 the rate was 4.86%. This represents a decrease of 28.3 %. The state is aware of the slight increases in 2003-04 dropout rates over the rates for the preceding year (i.e., increases in the 7-12 rate from 3.23% to 3.29% and in the 9-12 rate from 4.78% to 4.86%) and will continue its analysis of these increases.

While overall dropout rates have decreased during the years of the ABCs, there has been an increase in the numbers of students who give "academic problems" as their reason for the dropout event. Table 10 provides data that illustrate this. In 1995-96, the year of the ABCs pilot, slightly more than 7% of the reasons given for dropout events were coded as academic problems. In 2003-04, academic problems represented 8.9% of the total reasons for dropping out.

Table 10 Academic Reasons

"Academic Problems" as Reason for Dropout Events, Grades 1-12			
Year	Total Reasons	# of Reason - "Academic Problems"	%
1995-96*	20,531	1,465	7.14%
1996-97	20,191	1,630	8.07%
1997-98	20,155	1,817	9.02%
1998-99	26,387	2,004	7.59%
1999-00	25,271	1,989	7.87%
2000-01	23,224	1,947	8.38%
2001-02	21,789	2,135	9.80%
2002-03	20,291	1,991	9.81%
2003-04	21,142	1,877	8.88%

*ABCs were piloted in 10 school systems

The state has increased the weight of the dropout rate in its high school accountability formula (beginning in 2004-05) and is focusing on early intervention, resources for at-risk students and high school reform as strategies for dropout prevention.

Implications

While North Carolina has made progress in reducing its dropout rate over the past several years, the state is still losing too much human potential. More than 21,000 students left school in 2003-04 without graduating. The social and personal costs of dropping out are high. Social costs include less tax revenue, loss of productivity and increased expenditures for social welfare programs. Personal costs include the loss of earning potential and likelihood of living in poverty.

The National Research Council, in *Understanding Dropouts: Statistics, Strategies, and High-Stakes Testing* (Beatty, et al., 2001) stresses that for most students, dropping out of school begins in the early years of elementary school, and the disengagement takes place gradually over a number of years. The dropout event is a culmination of missed opportunities and a series of misfortunes. The Council recommends early intervention as a strategy of prevention. It is important to address the needs of struggling students as soon as they become apparent. These students must be given support, remediation and counseling to encourage them to stay in school.

It is important, too, to remember that each student whose life is captured in dropout statistics is an individual reacting to a unique set of circumstances. The circumstances that cause a particular student to separate from school . . . can rarely be summed up easily, and rarely involve only one factor (Beatty, et al., 2001).
