Preface

The data for this report was collected from local education agencies (LEAs) by the Department of Public Instruction pursuant to Section 8.39(d) of Session Law 2015-241 (HB 97) and is being reported to the Joint Legislative Education Oversight Committee pursuant to Section 8.39(e) of the same law.

The survey data was collected between October and December of 2015, therefore some 2015-16 data was not available to the LEAs at that time. Respondents were asked to project or estimate some of this data. Due to these estimated values of 2015-16 data, this report will focus mainly on data from 2012-13, 2013-14, and 2014-15.

All survey responses for all four years were compiled in a single data set, and that data is available from the Department of Public Instruction and from the General Assembly Program Evaluation Division.

DRIVER EDUCATION MULTI-YEAR SURVEY REPORT

General Findings

Local education agencies (LEAs) submitted Driver Education data on program costs, student usage, instruction and other related areas in a fall, 2015 online survey. The submitted data reveal the following:

- The survey indicates that 115,926 North Carolina students participated in a Driver Education program in 2014-15, and 108,881 students completed it.
- The state total of program costs submitted by the LEAs was \$27,436,106 for 2014-15. Dividing by the 115,926 participants yields an average cost per Driver Education student of \$237.
- In 2014-15, 74 LEAs charged student fees. The average student fee for these 74 LEAs was \$46.91. No student fee was charged in 41 LEAs. The average fee across all 115 LEAs was \$30.18.
- About half of the 115 LEAs directly provided all Driver Education services. The other half contracted out at least some of the Driver Education program.
- LEAs that directly provided Driver Education services and owned their own vehicles had higher per student program costs on average. These LEAs had an average program cost of \$267.46 per Driver Education student in 2014-15 and charged an average student fee of \$39.09. LEAs that contracted out some or all services and leased or contracted for some or all vehicles had an average program cost of \$221.68 per Driver Education student and charged an average fee of \$18.30.
- There is no formal data sharing between Driver Education programs and the Division of Motor Vehicles (DMV). LEAs and schools do not have access to the results of written tests and driving tests taken by their students at the DMV.
- The programs lack objective measures of overall effectiveness. Feedback from the 2015 Driver Education Assessment by NHTSA and the implementation of the Strategic Plan will be instrumental in improving this and other aspects of the state Driver Education program.

Table 1 lists the overall Driver Education program cost and per student cost submitted by the LEAs for 2012-13 and 2013-14. Also displayed is the cost of the DE program per student in the LEA, calculated by dividing the submitted total program cost value by average daily membership (ADM). Table 2 provides the same information for 2014-15.

Information from the survey was used to compare the costs of various ways of operating Driver Education in North Carolina. Respondents were asked whether Driver Education services were provided directly by the LEA or whether at least some services were contracted out. They were also asked whether the cars used for Driver Education were all owned and maintained by the LEA, partly owned and maintained by the LEA, or were leased or provided by a contractor. Responses to these questions allowed for the formation of three groups of LEAs across which to compare costs: A) LEAs who own all cars and provide all services directly; B) LEAs who contract out some or all services but who own all their own cars, and C) LEAs who contract out some or all services and lease or contract for some or all cars. Table 3 displays the group of each LEA for the years 2012-13, 2013-14, and 2014-15. There were few changes in the groups across the surveyed years. The groups for the year 2014-15 are pictured in Figure 1 below.

Figure 1. LEA Groups Used in Cost Comparisons, 2014-15.

Tables 4 through 6 display cost comparisons of average program cost per DE student, average program cost per ADM student, and average Driver Education student fee for the comparison groups in the years 2012-13, 2013-14, and 2014-15. The average program cost per DE student is the average of per student costs submitted by each LEA in that group, while the average program cost per ADM student is the total of all program costs submitted by all LEAs in the group divided by the total ADM of the group.

For each of the three years, the average program cost was highest for LEAs who own all their cars and provide all their services directly--using either the average per DE student cost submitted by the LEAs or using the total program costs submitted by the LEAs divided by ADM. For each of the three years the average program cost was lowest for those LEAs who contract out some or all services and lease or contract out some or all cars.

The average Driver Education student fee was lowest by a wide amount for LEAs who contract out some or all services and lease or contract out some or all cars in 2012-13, 2013-14, and 2014-15. In 2012-13 and 2014-15, the average fee was highest for LEAs who own all their cars and provide all services directly. In 2013-14, the group of 11 LEAs who contract out some or all services but who own all their own cars had an average student fee that was slightly higher than the LEAs who own all their cars and provide all services directly.

Vehicle Fleet Data

LEAs owning vehicles during the survey period were asked to supply the following cost data: the number of vehicles, the average purchase price of the vehicles, the annual maintenance cost, the annual fuel cost, and the average length of time that vehicles in the fleet were owned before replacement. Table 7 displays this data for the year 2012-13. Data for 2013-14 and 2014-15 may be found in Tables 8 and 9.

LEAs have used various sources of funds to pay for vehicles expenses. The breakdowns of these sources were similar over the years surveyed. In 2014-15, 45% of LEAs solely used state Driver Education funds for vehicle expenses, 14% solely used local funds, and 32% used a combination of state Driver Education funds and local funds. The remaining 9% of LEAs used local government funds, other funds, or some other combination of sources.

Section 2. Student Participation in Driver Education

LEAs are responsible for delivering Driver Education services to incoming 9th graders, upper classmen and transfers who have not previously completed it, and students from area private schools, charter schools, and home schools. For the survey LEAs estimated the numbers of students that were eligible for Driver Education services in each survey year. These numbers were submitted along with the actual numbers of participants and the numbers of students completing Driver Education in each survey year.

Table 10 displays the numbers of students eligible for, participating in, and completing Driver Education in 2012-13 and 2013-14. Table 11 provides these numbers for 2014-15. State totals are displayed for each category.

Student Fees and Fee Waivers

LEAs are allowed to charge students fees for Driver Education. The maximum fee allowed by law was \$65 for 2014-15 and 2015-16. The maximum fee for 2013-14 was \$55. Prior to 2013-14, the maximum was \$45. Table 12 displays the student fee by LEA for each of the survey years.

A few LEAs offer fee reductions or waivers. For these LEAs, Table 13 provides the student fee, the amount of the fee reduction or waiver, the number of students eligible for the fee reduction or waiver, and the number of students receiving the fee reduction or waiver for the years 2012-13 and 2013-14. Table 14 provides the same information for the year 2014-15.

There were differences in the ways that LEAs interpreted the eligibility question. Some LEAs used some objective criteria to deem a certain proportion of Driver Education students to be eligible for a fee waiver. For others, a request for the fee waiver was required for a student to be considered eligible.

Section 3. Driver Education Instruction and Administration

Students are required to receive thirty hours of Driver Education classroom instruction and at least six hours of behind-the-wheel (BTW) instruction. LEAs provide both types of instruction to students at various times throughout the year, including before and after school, on weekends, and during school vacations.

Only students who pass the classroom phase of Driver Education and who meet Division of Motor Vehicles (DMV) physical standards may receive BTW instruction. The BTW instruction may or may not be given during the same school year. There is no required maximum time between the classroom and BTW sessions.

The multi-year survey collected information on instruction hours by requesting average and maximum numbers of classroom and BTW instruction hours provided each day in the LEA and divided into portions of instruction delivered on a regular school day and on other days such as on weekends and school vacations. Table 15 presents this information for 2012-13. Data for the years 2013-14 and 2014-15 are displayed in Tables 16 and 17.

The survey also collected data on the average and maximum number of days between the end of classroom instruction and the beginning of BTW instruction. Table 18 displays these values for 2012-13, 2013-14, and 2014-15.

Classroom Instruction Materials

Survey respondents were given a list of eleven instructional materials (and the choice of “Other”) and asked which materials were used in classroom instruction. Respondents from the LEAs selected a number of the materials ranging from one to ten items. Table 19 displays the percentage of LEAs choosing each item for the years 2012-13, 2013-14, and 2014-15. The most frequently used were the DMV Handbook, the Drive Right textbook, and teacher-made materials.

Process for Reviewing Driver Records of Driver Education Instructors

According to the survey data, LEAs typically do not have an established method or frequency of driving record checks for instructors. LEAs that contract services are more likely to have up-to-date driving record checks via the process of annual certification renewal. LEAs that provide all services in-house are more likely to ask instructors to self-report criminal or driving convictions.

Role of Parents and Legal Guardians

Survey results indicate that LEAs have a variety of methods of educating the parents as to their role in the education process. Methods include face-to-face meetings between driver education instructors and parents and handouts with rules and expectations, some requiring signatures. Efforts are made to keep the parents informed of progress through both classroom and driving phases of the program and to transition the parents to their roles in the supervised driving that occurs after licensure.

Process for Filing and Resolving Complaints

LEAs vary in the processes for handling complaints, but typically they receive them at the school or LEA level and follow the established process for other complaints. LEAs that contract driver education services may either have the contractor communicate the complaint to the LEA or require the contractor to resolve the issue.

Survey respondents overwhelmingly reported that they received no complaints, although some reported that parents and students occasionally try to get the scheduled classroom or driving hours modified. The relative lack of complaints can most likely be attributed to LEAs being proactive in providing parents and students the established guidelines in a timely manner.

Data Sharing between Driver Education Programs and DMV

There is no formal data sharing between Driver Education programs and DMV. Upon successful completion of a Driver Education program, students receive a certificate of completion. This certificate is taken to the local DMV as proof of the student's eligibility to take the written test for a learner's permit. LEAs and schools do not have access to the results of written tests and driving tests taken by their students at the DMV. There is no requirement for the student to report the results to the LEA, school, or Driver Education provider.

Assessments and Evaluations of the Driver Education Program

Twenty LEAs reported surveying parents regarding the quality of the driver education program. No parent surveys were mentioned by 95 LEAs. The relative lack of feedback from parents across the state was also indicated as a problem area on the 2015 Driver Education Technical Assessment, a voluntary assessment of the state program by a group put together by the National Highway Transportation Safety Administration (NHTSA). The purpose of this assessment was to improve the state program by comparing it to national standards.

Appendices

APPENDIX 1

Session Law 2015-241, Section 8.39(d), (e)

SECTION 8.39.(d) Local boards of education shall report to the State Board of Education no later than December 15, 2015, on the following related to driver education programs offered by and through the local school administrative unit for the 2012-2013, 2013-2014, 2014-2015, and 2015-2016 school years, by year:

- (1) How driver education is provided. The local board of education shall provide detailed information regarding whether the driver education program is offered by the local school administrative unit or whether it contracts with an outside provider. If the local school administrative unit contracts with an outside provider to provide any portion of the driver education program, such as instruction, materials, or the fleet used for driver training, the unit shall provide a detailed summary of information as to the terms of the contract, what the unit is responsible for providing, and what the outside provider has contracted to provide, and a copy of all contracts related to driver education.
- (2) Total cost for the driver education program and per student cost for the program. The local board shall include a detailed explanation of expenditures of all funds associated with the driver education program, written in plain English.
- (3) How the fleet used for driver training is provided and maintained. If the local school administrative unit maintains its own fleet, information regarding the number of vehicles in the fleet, procurement, maintenance, and fuel cost of those vehicles, replacement cycle for the vehicles, and source of funds for the fleet.
- (4) Numbers of students eligible to participate in the driver education program, number of students participating in the program, and numbers of students successfully completing the program.
- (5) Materials used for instruction of the standardized driver education curriculum.
- (6) Methodology for transfer to agencies of student information related to driver education.
- (7) Role of parents and legal guardians in driver education instruction.
- (8) Process for filing and resolving complaints related to the driver education program. If the local school administrative unit has a process, the unit shall provide information on the numbers, types, and resolutions of filed complaints.
- (9) Assessments and evaluations used to determine quality and success of the driver education program.
- (10) Average and maximum length of time between classroom instruction and behind-the-wheel instruction.
- (11) Average and maximum number of classroom hours taught per day on regular school days and on any other day.
- (12) Average and maximum number of behind-the-wheel hours taught per day on regular school days and on any other day.
- (13) Process, if any, for reviewing driving records for driver education instructors.

- (14) Tracking, if any, of student outcomes when seeking a graduated drivers license. If the local school administrative unit tracks this information, the unit shall provide data on student outcomes, including numbers of students who successfully completed or unsuccessfully completed the written and driving portions of the graduated drivers license examination, respectively.
- (15) If fees are charged for driver education, fee waivers or reductions, if any, provided to students. If fee waivers or reductions are provided, the local school administrative unit should provide data on the policy for fee waivers or reductions, how many students are eligible for and use the waiver or reduction, and the amounts waived or reduced.

SECTION 8.39.(e) The State Board of Education shall report to the Joint Legislative Education Oversight Committee on the information provided by local boards of education on driver education programs under subsection (d) of this section no later than February 15, 2016.

APPENDIX II

Survey Completed by LEAs

LEAs are asked to complete the questions below to comply with Section 8.39 (d) and (e) of the 2015 budget (House Bill 97). Information is requested regarding the driver education program for the 2012-13, 2013-14, 2014-15, and 2015-16 school years. Please use this Survey Monkey instrument make the appropriate short-answer selections and fill in the requested text box information. If you need more space and/or a different format to adequately address the open-ended questions, please send a separate document with those responses to Dr. Ken Gattis at the NC Department of Public Instruction:

Kenneth.gattis@dpi.nc.gov

This survey is due no later than **December 15, 2015**.

1. What is your LEA?
2. Please provide your name, title, and business contact information.
Name:
Title:
Address:
Address2:
City/Town:
ZIP:
Email address:
Phone Number:
3. How was driver education provided in the 2012-13 school year? If you select B, please provide copies of all contracts with provider(s) to Dr. Ken Gattis by emailing him at Kenneth.gattis@dpi.nc.gov or faxing to (919) 807-3558.
A. All was directly provided by the LEA.
B. Some or all was provided under a contract with an outside provider.
4. If you selected B in the item above, provide a detailed summary of the terms of the provider contract(s), what the LEA is responsible for providing, and what the outside provider has contracted to provide. If you choose to provide a separate file for this response, enter "Response sent separately."
If you selected A, leave the box blank.
5. What was the total cost of the driver education program in 2012-13? Round and enter the amount in whole dollars.
6. What was the per student cost of the driver education program in 2012-13? Round and enter the amount in whole dollars.

7. Provide a detailed explanation of all expenditures associated with the driver education program in 2012-13.

8. How was the automobile fleet used for driver training provided and maintained in 2012-13?

A. All of the fleet was owned and maintained by the LEA.

B. Part of the fleet was owned and maintained by the LEA and part was leased or provided through a contract with the driver education provider.

C. All of the fleet was leased or provided through a contract with the driver education provider.

9. If you checked A or B in item 8, provide the following: a) the number of LEA-owned vehicles in the driver education fleet as of June 30, 2013, b) the average purchase price of those vehicles (rounded and in whole dollars), c) the total cost of maintenance for those vehicles in 2012-13 (rounded and in whole dollars), and d) the total fuel cost of those vehicles for 2012-13 (rounded and in whole dollars).

10. If you checked A or B in item 8, what was the average length of time that vehicles in the fleet were owned (as of June 30, 2013) before replacing? Enter time in number of years, e.g., 6.5 or 9.0.

11. If you checked A or B in item 8, select the source of funds used for the fleet (as of June 30, 2013) from the list below. Select all that apply.

State DE funds

LEA local funds

Local government

Trusts or foundations

Other

12. Estimate how many students were eligible to participate in the driver education program in 2012-13.

13. How many students participated in the program in 2012-13?

14. How many students completed the program in 2012-13?

15. Indicate the materials used for instruction of the standardized driver education curriculum in 2012-13. Check all that apply.

16. Provide a description of the methodology used in 2012-13 for transferring to agencies student information related to driver education.
17. Provide a summary of the role of parents and legal guardians in driver education instruction in 2012-13.
18. Did your LEA have a process for filing and resolving complaints related to the driver education program in 2012-13?
19. If you checked Yes in item #18, provide a summary of the process for filing and resolving complaints related to the driver education program in 2012-13.
20. If you checked Yes in item #18, provide information on the numbers, types, and resolutions of filed complaints in 2012-13.
21. Provide a summary of the assessments and evaluations used to determine the quality and success of the driver education program in 2012-13.
22. What was the average length of time between the completion of classroom instruction and the beginning of behind-the-wheel instruction in 2012-13? Express your answer in calendar days, not school days.
23. What was the maximum length of time between the completion of classroom instruction and the beginning of behind-the wheel instruction in 2012-13? Express your answer in calendar days, not school days.
24. What was the average number of driver education classroom hours taught per regular school day in 2012-13? (Add up hours of all classes to get a total for a school day.)
25. What was the maximum number of driver education classroom hours taught per regular school day in 2012-13? (Add up hours of all classes to get a total for a school day.)
26. What was the average number of driver education classroom hours taught per day on other days in 2012-13? (Add up hours of all classes to get a total for a day.)
27. What was the maximum number of driver education classroom hours taught per day on other days in 2012-13? (Add up hours of all classes to get a total for a day.)

28. What was the average number of behind-the wheel (BTW) hours taught per regular school day in 2012-13? (Add up hours of all behind-the-wheel sessions to get a total for a school day.)
29. What was the maximum number of behind-the wheel (BTW) hours taught per regular school day in 2012-13? (Add up hours of all behind-the-wheel sessions to get a total for a school day.)
30. What was the average number of behind-the wheel (BTW) hours taught per day on other days in 2012-13? (Add up hours of all behind-the-wheel sessions to get a total for a day.)
31. What was the maximum number of behind-the wheel (BTW) hours taught per day on other days in 2012-13? (Add up hours of all behind-the-wheel sessions to get a total for a day.)
32. Did your LEA have a process for reviewing driver records for driver education instructors in 2012-13?
33. If you checked Yes in the item above, describe the process for reviewing driving records for driver education instructors in 2012-13.
34. Did your LEA track student outcomes on the written portion of the graduated drivers license examination in 2012-13?
35. If you checked Yes in the item above, provide student outcome data, including numbers of students who successfully completed and unsuccessfully completed the written portion of the graduated drivers license examination in 2012-13.
36. Did your LEA track student outcomes on the driving portion of the graduated drivers license examination in 2012-13?
37. If you checked Yes in the item above, provide student outcome data, including numbers of students who successfully completed and unsuccessfully completed the driving portion of the graduated drivers license examination in 2012-13.
38. Were students charged fees for driver education in 2012-13?
39. What was the standard student fee for driver education in 2012-13? Round and enter the amount in whole dollars. If students were not charged a fee, enter 0.
40. Were fee waivers or reductions available in 2012-13? If students were not charged a fee, skip this question.

41. What was the amount of the waiver or fee reduction in 2012-13? Round and enter the amount in whole dollars. Skip this question if students were not charged a fee or if no waiver or fee reduction was offered.

42. How many driver education students were eligible for waivers or fee reductions in 2012-13? Skip this question if students were not charged a fee or if no waiver or fee reduction was offered.

43. How many driver education students used waivers or fee reductions in 2012-13? Skip this question if students were not charged a fee or if no waiver or fee reduction was offered.

44. How was driver education provided in the 2013-14 school year? If you select B, please provide copies of all contracts with provider(s) to Dr. Ken Gattis by emailing him at kenneth.gattis@dpi.nc.gov or faxing to (919) 807-3558.

A. All was directly provided by the LEA.

B. Some or all was provided under a contract with an outside provider.

45. If you selected B in the item above, provide a detailed summary of the terms of the provider contract(s), what the LEA is responsible for providing, and what the outside provider has contracted to provide. If you selected A, leave the box blank.

46. What was the total cost of the driver education program in 2013-14? Round and enter the amount in whole dollars.

47. What was the per student cost of the driver education program in 2013-14? Round and enter the amount in whole dollars.

48. Provide a detailed explanation of all expenditures associated with the driver education program in 2013-14.

49. How was the automobile fleet used for driver training provided and maintained in 2013-14?

A. All of the fleet was owned and maintained by the LEA.

B. Part of the fleet was owned and maintained by the LEA and part is leased or provided through a contract with the driver education provider.

C. All of the fleet was leased or provided through a contract with the driver education provider.

50. If you checked A or B in item #49, provide the following: a) the number of LEA-owned vehicles in the driver education fleet as of June 30, 2014, b) the average purchase price of those vehicles (rounded and in whole dollars), c) the total cost of maintenance for those vehicles in 2013-14 (rounded and in whole dollars), and d) the total fuel cost of those vehicles for 2013-14 (rounded and in whole dollars).

51. If you checked A or B in item #49, what was the average length of time that vehicles in the fleet were owned (as of June 30, 2014) before replacing? Enter time as decimal value of number of years, e.g., 6.5 or 9.0.

52. If you checked A or B in item #49, select the source of funds used for the fleet (as of June 30, 2014) from the list below. Select all that apply.

73. Did your LEA have a process for reviewing driver records for driver education instructors in 2013-14?

74. If you checked Yes in the item above, describe the process for reviewing driving records for driver education instructors in 2013-14.
75. Did your LEA track student outcomes on the written portion of the graduated drivers license examination in 2013-14?
76. If you checked Yes in the item above, provide student outcome data, including numbers of students who successfully completed and unsuccessfully completed the written portion of the graduated drivers license examination in 2013-14.
77. Did your LEA track student outcomes on the driving portion of the graduated drivers license examination in 2013-14?
78. If you checked Yes in the item above, provide student outcome data, including numbers of students who successfully completed and unsuccessfully completed the driving portion of the graduated drivers license examination in 2013-14.
79. Were students charged fees for driver education in 2013-14?
80. What was the standard student fee for driver education in 2013-14? Round and enter the amount in whole dollars. If students were not charged a fee, enter 0.
81. Were fee waivers or reductions available in 2013-14? If students were not charged a fee, skip this question.
82. What was the amount of the waiver or fee reduction in 2013-14? Round and enter the amount in whole dollars. Skip this question if students were not charged a fee or if no waiver or fee reduction was offered.
83. How many driver education students were eligible for waivers or fee reductions in 2013-14? Skip this question if students were not charged a fee or if no waiver or fee reduction was offered.
84. How many driver education students used waivers or fee reductions in 2013-14? Skip this question if students were not charged a fee or if no waiver or fee reduction was offered.
85. How was driver education provided in the 2014-15 school year? If you select B, please provide copies of all contracts with provider(s) to Dr. Ken Gattis by emailing him at Kenneth.gattis@dpi.nc.gov or faxing to (919) 807-3558.
- A. All was directly provided by the LEA.
- B. Some or all was provided under a contract with an outside provider.
86. If you selected B in the item above, provide a detailed summary of the terms of the provider contract(s), what the LEA is responsible for providing, and what the outside

provider has contracted to provide. If you choose to provide a separate file for this response, enter "Response sent separately." If you selected A in the item above, leave the box blank.

87. What was the total cost of the driver education program in 2014-15? Round and enter the amount in whole dollars.

88. What was the per student cost of the driver education program in 2014-15? Round and enter the amount in whole dollars.

89. Provide a detailed explanation of all expenditures associated with the driver education program in 2014-15.

90. How was the automobile fleet used for driver training provided and maintained in 2014-15?

A. All of the fleet was owned and maintained by the LEA.

B. Part of the fleet was owned and maintained by the LEA and part is leased or provided through a contract with the driver education provider.

C. All of the fleet was leased or provided through a contract with the driver education provider.

91. If you checked A or B in item 90, provide the following: a) the number of LEA-owned vehicles in the driver education fleet as of June 30, 2015, b) the average purchase price of those vehicles (rounded and in whole dollars), c) the total cost of maintenance for those vehicles in 2014-15 (rounded and in whole dollars), and d) the total fuel cost of those vehicles for 2014-15 (rounded and in whole dollars).

92. If you checked A or B in item 90, what was the average length of time that vehicles in the fleet were owned (as of June 30, 2015) before replacing? Enter time as decimal value of number of years, e.g., 6.5 or 9.0.

114. Did your LEA have a process for reviewing driver records for driver education instructors in 2014-15?
115. If you checked Yes for the item above, describe the process for reviewing driving records for driver education instructors in 2014-15.
116. Did your LEA track student outcomes on the written portion of the graduated drivers license examination in 2014-15?
117. If you checked Yes for the item above, provide student outcome data, including numbers of students who successfully completed and unsuccessfully completed the written portion of the graduated drivers license examination in 2014-15.
118. Did your LEA track student outcomes on the driving portion of the graduated drivers license examination in 2014-15?
119. If you checked Yes for the item above, provide student outcome data, including numbers of students who successfully completed and unsuccessfully completed the driving portion of the graduated drivers license examination.
120. Were students charged fees for driver education in 2014-15?
121. What was the standard student fee for driver education in 2014-15? Round and enter the amount as whole dollars. If students were not charged a fee, enter 0.

122. Were fee waivers or reductions available in 2014-15? If students were not charged a fee, skip this question.

123. What was the amount of the waiver or fee reduction in 2014-15? Round and enter the amount in whole dollars. Skip this question if students were not charged a fee or if no waiver or fee reduction was offered.

124. How many driver education students were eligible for waivers or fee reductions in 2014-15? Skip this question if students were not charged a fee or if no waiver or fee reduction was offered.

125. How many driver education students used waivers or fee reductions in 2014-15? Skip this question if students were not charged a fee or if no waiver or fee reduction was offered.

126. How is driver education being provided in the 2015-16 school year? If you select B, please provide copies of all contracts with provider(s) to Dr. Ken Gattis by emailing him at kenneth.gattis@dpi.nc.gov or faxing to (919) 807-3558.

A. All is directly provided by the LEA.

B. Some or all is provided under a contract with an outside provider.

127. If you selected B in the item above, provide a detailed summary of the terms of the provider contract(s), what the LEA is responsible for providing, and what the outside provider has contracted to provide. If you choose to provide a separate file for this response, enter "Response sent separately." If you selected A in the item above, leave the box blank.

128. What is the total projected cost of the driver education program for 2015-16? Round and enter the amount in whole dollars.

129. What is the projected per student cost of the driver education program for 2015-16? Round and enter the amount in whole dollars.

130. Provide a detailed explanation of all expenditures associated with the driver education program for 2015-16.

131. How is the automobile fleet used for driver training provided and maintained?

A. All of the fleet is owned and maintained by the LEA.

B. Part of the fleet is owned and maintained by the LEA and part is leased or provided through a contract with the driver education provider.

C. All of the fleet is leased or provided through a contract with the driver education provider.

132. If you checked A or B in item #131, provide the following: a) the current number of LEA-owned vehicles in the driver education fleet, b) the average purchase price of those vehicles (rounded and in whole dollars), c) the projected total cost of maintenance

for those vehicles for 2015-16 (rounded and in whole dollars), and d) the projected total fuel cost of those vehicles for 2015-16 (rounded and in whole dollars).

133. If you checked A or B in item #131, what was the average length of time that vehicles in the fleet were owned before replacing? Enter time as decimal value of number of years, e.g., 6.5 or 9.0.

134. If you checked A or B in item #131, select the source of funds used for the fleet from the list below. Select all that apply.

State DE funds

LEA local funds

Local government

Trusts or foundations

Other

135. Provide a description of the methodology used for transferring to agencies student information related to driver education.

136. Estimate how many students are eligible to participate in the driver education program in 2015-16.

137. How many students are projected to participate in the program in 2015-16?

138. How many students do you project will complete the program in 2015-16?

139. Indicate the materials used for instruction of the standardized driver education curriculum. Check all that apply.

140. **(Unintentional duplicate of Question # 98)** Provide a description of the methodology used in 2014-15 for transferring to agencies student information related to driver education.

141. Provide a summary of the role of parents and legal guardians in driver education instruction.

142. Does your LEA have a process for filing and resolving complaints related to the driver education program?
143. If you checked Yes in item #142, provide a summary of the process for filing and resolving complaints related to the driver education program.
144. If you checked Yes in item #142, provide information on the numbers, types, and resolutions of filed complaints in 2015-16.
145. Provide a summary of the assessments and evaluations used to determine the quality and success of the driver education program in 2015-16. Skip this question if data is not yet available for 2015-16.
146. What is the average length of time between the completion of classroom instruction and the beginning of behind-the-wheel instruction for 2015-16? Express your answer in calendar days, not school days. Skip this question if data is not yet available for 2015-16.
147. What is the maximum length of time between the completion of classroom instruction and the beginning of behind-the wheel instruction for 2015-16? Express your answer in calendar days, not school days. Skip this question if data is not yet available for 2015-16.
148. What is the average number of driver education classroom hours taught per regular school day for 2015-16? (Add up hours of all classes to get a total for a school day.) Skip this question if data is not yet available for 2015-16.
149. What is the maximum number of driver education classroom hours taught per regular school day for 2015-16? (Add up hours of all classes to get a total for a school days.) Skip this question if data is not yet available for 2015-16.
150. What is the average number of driver education classroom hours taught per day on other days for 2015-16? (Add up hours of all classes to get a total for a day.) Skip this question if data is not yet available for 2015-16.
151. What is the maximum number of driver education classroom hours taught per day on other days for 2015-16? (Add up hours of all classes to get a total for a day.) Skip this question if data is not yet available for 2015-16.
152. What is the average number of behind-the wheel (BTW) hours taught per regular school day for 2015-16? (Add up hours of all behind-the-wheel sessions to get a total for a school day.) Skip this question if data is not yet available for 2015-16.
153. What is the maximum number of behind-the wheel (BTW) hours taught per regular school day for 2015-16? (Add up hours of all behind-the-wheel sessions to get a total for a school day.) Skip this question if data is not yet available for 2015-16.

154. What is the average number of behind-the wheel (BTW) hours taught per day on other days for 2015-16? (Add up hours of all behind-the-wheel sessions to get a total for a day.) Skip this question if data is not yet available for 2015-16.

155. What is the maximum number of behind-the wheel (BTW) hours taught per day on other days for 2015-16? (Add up hours of all behind-the-wheel sessions to get a total for a day.) Skip this question if data is not yet available for 2015-16.

156. Does your LEA have a process for reviewing driver records for driver education instructors?

157. If you checked Yes in the item above, describe the process for reviewing driving records for driver education instructors.

158. Does your LEA track student outcomes on the written portion of the graduated drivers license examination?

159. Does your LEA track student outcomes on the driving portion of the graduated drivers license examination?

160. Are students charged fees for driver education?

161. What is the standard student fee for driver education for 2015-16? Round and enter the amount in whole dollars. If students are not charged a fee, enter 0.

162. Are fee waivers or reductions available for 2015-16? If students are not charged a fee, skip this question.

163. What is the amount of the waiver or fee reduction in 2015-16? Round and enter the amount in whole dollars. Skip this question if students are not charged a fee or if no waiver or fee reduction is offered.
