The **2015-2016 North Carolina Virtual Public School Annual Report** highlights the "big data" of the division and uses business intelligence techniques to deliver easy interpretation and analysis of the impact NCVPS has had on teaching and learning across the state.

Below is an explanation of the data highlighted in each "tab" of the data visualization.

A Year in NCVPS
- A Year in NCVPS tab provides notable enrollment and programmatic highlights of the 2015-2016 academic year

NCVPS Scorecard
- The scorecard tab is designed to highlight the successful statewide use of NCVPS. Critical metrics show student performance, top enrolling districts as well as the most popular courses.

Enrollment History
- The Enrollment History tab charts the enrollment for 2015-2016 and allows the user to search historical enrollment by district.

Academic Results
- The Academic Results table displays End-of-Course and Advanced Placement test data.

NCVPS Teachers
- The NCVPS teachers tab highlights the NCVPS teacher salaries, number of teachers employed along with the number of teachers completing the NCVPS teacher induction program.

Impact on District
- The Impact on District tab maps the proportional impact of NCVPS enrollments based on 6-12 ADM of each district. One map reports multiple enrollments by unique students while the other map displays enrollments by unique student.

Projected vs. Actual Enrollment
- The Projects vs. Actual Enrollment tab depicts the NCVPS projection for each district and charter alongside the actual enrollment. This tab also shows the reconciliation of projected vs. actual enrollment.
