2016-17 Credentialing Data

North Carolina Career and Technical Education

September 2017

Prepared by
Kimberly M. MacDonald, NBCT, PMP
Senior Analyst, CTE State and Federal Accountability
NC Career and Technical Education
North Carolina Department of Public Instruction

Special thanks to all CTE consultants and local teachers and administrators who provided the data used in this report.

EXECUTIVE SUMMARY

CREDENTIALS EARNED BY SECONDARY NC CTE STUDENTS EXCEED GOALS

Credentials earned by secondary North Carolina Career and Technical Education (CTE) students have increased steadily since 2010-2011, the first-year data were collected in the state. Students earned 160,224 credentials, making this the first year the total number of credentials earned by CTE students has exceeded the State Board of Education's goal of 144,700.

Credentials are endorsed by business and industry and document student mastery of skills required for employment and advancement in a career. The 160,224 credentials earned by NC CTE students this year represents a one year growth of 14% from the previous school year, and a five-year growth of 53% from the 104,375 credentials reported in 2012-2013. In 2016-2017, student results were collected for 96 different credentials that include all NC CTE program areas and career clusters. Individual students may report more than one credential earned.

TOP CREDENTIALS

Career Readiness Certificates, which are available in four different levels, were earned by 39,614 students. Microsoft Office Specialist PowerPoint (22,628) and Word (21,221) were also among the most frequently earned credentials.

Students in Wake County report the highest number of credentials earned at 10,063. The school systems with the highest percentage of credentials earned based on enrollment in CTE courses that offered a credential were Bladen County Schools, Montgomery County Schools, and Perquimans. Harnett County Schools is the only system who appeared in the top rankings for number of student credentials met and percentage of students who passed a credential for the CTE course offerings that offered a credential. As such, 81% of students who were enrolled in a CTE course that offered an industry recognized credential earned the credential.

HOW THE DATA WAS COLLECTED

Educators and business and industry representatives recommend credentials each year that are aligned to the CTE curriculum and valued by employers. Proposed credentials are investigated to ensure they meet requirements for reporting.

Credentials earned data is collected for each student and matched to enrollment information. The majority of the NC CTE credentials earned data was collected directly from the credentialing agency. Additional results were collected from students using third-party software. Care was taken to protect the confidentiality of student information during the collection and analysis process.

MORE INFORMATION

The 2016-2017 NC CTE Credentialing Data report provides a more detailed analysis of credentials earned by secondary NC CTE students. It includes statewide, regional, and individual school district information disaggregated by student demographic information when available.

For more information about this report or credentialing data in North Carolina, contact NC CTE Director John Kirkman (919-807-3764 or john.kirkman@dpi.nc.gov).

INTRODUCTION

Since 2010-2011, when North Carolina Career and Technical Education (CTE) began collecting data on credential attainment by secondary students, 766,723 credentials have been earned – 160,224 in 2016-2017 alone!

For the purpose of this report, credentials are defined as certifications issued by professional associations, vendors, or employers. Credentials demonstrate that the student or employee “has acquired the designated knowledge, skills and abilities to perform a specific job” (Bielick, Cronen, Stone, Montaquila & Roth, 2013). A credential can be based on a written, oral or performance-based examination, or some combination of the three, and may require a prescribed period of supervised practice after successfully passing the exam.

Credentials differ from licenses, which are generally issued by a governmental entity. Licenses frequently are required for a practitioner to enter a field, while credentials help potential employees get hired or qualify them for a higher pay level but are not legally mandated.

A 2014 report from the U.S. Census Bureau found nearly a quarter of adults, 11.2 million people, had some sort of non-degree credential, and these workers were more likely to be employed and earned more than their counterparts without credentials (Ewert & Kominski, 2014). Writing about the Census Bureau findings, Massie (2014) reported that credentials often give employees a leg up on the competition. “In this shifting economy, one way that job seekers, students and workers may improve their opportunities is by earning credentials.”

Earnings of workers with credentials can outpace those of workers who have degrees. In fact, “17% of people with post-secondary licenses or certificates – credentials short of an associate’s degree – earn more than the average bachelor’s degree recipient” (Austin, Mellow, Rosin & Seltzer, 2012). The best long-term scenario is expansion of credentials that are **portable**, meaning they are accepted anywhere around the country, and **stackable**, meaning they can be combined with other, related credentials to create a portfolio of workers’ skills, they wrote.

Secondary students benefit from earning credentials in a number of ways, including the following:

- Credentials provide an advantage to students seeking entry-level employment as they document student proficiency in required skills against a state or national standard.
- Employees with credentials may start at a higher pay rate or be eligible for a pay raise or promotion more quickly than employees without a credential.
- Because the cost of the credential is usually covered by local or state sources, students can save considerable money as they prepare for their future careers.
- As credentialed employees, students can earn money for postsecondary education through employment that is well paid and often provides experience in their chosen field.
- Preparing for the credential examination educates students about what it takes to be successful in their field and exposes them to networking opportunities that can smooth their transition to the world of work.

This document provides further details on credentials earned by NC CTE students.

STATEWIDE RESULTS OVERVIEW

Over 99,000 students earned the 160,224 statewide credentials in 2016-2017. The 96 different credentials available to students included those that measured workplace readiness skills (for example, the Career Readiness Credential from ACT WorkKeys), general job skills applicable to many different careers (for example, Microsoft Office Specialist certifications in Word, Excel, PowerPoint and Access), and specific job-related proficiency (for example, Nurse Aide).

CAREER READINESS CREDENTIAL

The ACT WorkKeys examination is administered each year to CTE Concentrators, students who earned four related technical credits, at least one of which was at the second level.

WorkKeys measures students' employability skills in three areas – Applied Mathematics, Locating Information, and Reading for Information. Test-takers who score high enough on the assessment receive a Career Readiness Credential, which is available at four levels – Platinum, Gold, Silver and Bronze. Employers use Career Readiness Credentials as a screen to improve the quality of their workforce and to help potential employees understand the level of performance necessary to be successful in a particular field.

MICROSOFT OFFICE SPECIALIST CERTIFICATIONS

Through an agreement with Microsoft Corp., Certiport, and NC Department of Public Instruction, students can take Microsoft Office Specialist (MOS) and other Microsoft certification examinations at no charge. During 2016-2017, almost 57,000 MOS credentials were earned by NC CTE students.

As part of the MOS certification process, three North Carolina students from Green Hope High School were recognized at the Certiport 2017 Microsoft Office Specialist U.S. National Championship held in Orlando, FL on June 20-22. Dheya Madhani placed first in Microsoft PowerPoint 2016, Forrest Liu placed first in Microsoft Word 2013 and Ryan Catalfu placed third in Microsoft Excel 2016. Dheya and Forrest went on to compete at the worldwide championships in Anaheim, CA on July 30 – August 2, 2017 and placed in their respective divisions as follows: Dheya Madhani placed second in Microsoft PowerPoint 2016 and Forrest Liu placed fourth in Microsoft Word 2013.

Microsoft Office Specialist is a widely recognized certification that ensures students are highly skilled in the use of Microsoft Office products. Many North Carolina students and teachers demonstrated an even deeper level of skills needed to proficiently use Office programs by earning a Microsoft Office Specialist Master certification. This requires earning certifications in four or more applications with an expert level in at least one. In 2015-2016, 397 students earned the MOS Master certification. In 2016- 2017, students earned 438 MOS Master certifications! In addition, 14 teachers from across the state earned the Master certification, enhancing their personal professional development. North Carolina's Certiport partners recognize the state as a pioneer and worldwide leader for this accomplishment.

OTHER CREDENTIALS

In addition to the Career Readiness Credential and the MOS certifications, the highest number of credentials earned were the following:

- NCCER, 10,981
- EverFi, 7,727
- CPR Health Care Provider, 6,688
- Workplace Readiness Soft Skills, 3,390
- OSHA 10-Hour Construction Industry Certification, 2,451

The complete list of credentials earned by NC CTE students begins on the following page.

STATEWIDE REGIONAL RESULTS

Using the State Board of Education regions, the North Central District has the highest number of credentials – 24,018. The Northeast District held the highest credential earned percentage. As such, 49% of students in the Northeast District that were enrolled in a CTE course that offers an industry recognized credential earned the credential.

Using the six CTE service regions, the Central Region has the highest number of credentials earned – 35,009. The Northwest Region held the highest credential earned percentage. As such, 48% of students in the Northwest Region that were enrolled in a CTE course that offers an industry recognized credential earned the credential.

LOCAL EDUCATION AGENCY RESULTS OVERVIEW

Students in all 115 Local Education Agencies and seven charter and special schools earned credentials in 2016-2017. The ten Local Education Agencies with the highest number of credentials earned are shown in the chart below.

Local Education Agency		Credentials
920	Wake County Schools	10,063
260	Cumberland County Schools	5,884
900	Union County Public Schools	4,469
360	Gaston County Schools	4,285

410	Guilford County Schools	4,113
430	Harnett County Schools	3,487
510	Johnston County Schools	3,019
670	Onslow County Schools	2,931
290	Davidson County Schools	2,827
740	Pitt County Schools	2,741

Based on the number of credentials earned as a percentage of CTE course enrollment for courses aligned to a credential, the top Local Education Agencies and charters are shown in the chart below. Please note that for some CTE courses, students can earn multiple credentials for the same course. An example is the CTE course 'BM10: Microsoft Word and Power Point', which is aligned to the Microsoft Word credential and the Microsoft Power Point credential. Students enrolled in the 'BM10: Microsoft Word and Power Point' could earn both credentials and so the counts reflect each credential earned.

Local Education Agency/Charter		% Earned
90	Bladen County Schools	137%
620	Montgomery County Schools	107%
720	Perquimans County Schools	99%
200	Cherokee County Schools	90%
550	Lincoln County Schools	88%
300	Davie County Schools	87%
120	Burke County Schools	86%
181	Hickory City Schools	85%
430	Harnett County Schools	81%
140	Caldwell County Schools	75%

During 2016-2017, enrollments in North Carolina CTE courses that were aligned to a credential was 292,999. 41.2% of those students earned industry recognized credentials state wide for a total of 120,610. Detailed information on the total credentials earned and percent based on enrollment for each Local Education Agency appear in the chart beginning on the following page.

LOCAL EDUCATION AGENCY RESULTS

LEA	LEA Name	Credential Course Enrollment	Credentials Earned	% Earned
10	Alamance-Burlington Schools	5723	2427	42.4%
20	Alexander County Schools	1427	307	21.5%
30	Alleghany County Schools	502	204	40.6%
40	Anson County Schools	984	257	26.1%
50	Ashe County Schools	960	268	27.9%

CONCLUSIONS

Since 2010-2011, secondary North Carolina Career and Technical Education students have benefitted from the ability to earn business and industry-recognized credentials, often at no cost to the student. Students have entered the workforce or further education better able to demonstrate proficiency in skills that are important to employers.

Priorities for the coming year include the following:

- The list of credentials will be further expanded.
- NC CTE will continue to focus on developing better ways to collect and report on credential data.
- NC CTE will work with other Divisions to list student credentials earned on the student transcript.
- The state will continue to refine a process to comply with the NC General Assembly's law that provides for bonuses for teachers of students who earn selected credentials.
- NC CTE will begin to develop a mechanism to report on secondary students' credential attainment to the Office of Career, Technical and Adult Education of the U.S. Education Department. Reporting directly on credential attainment of secondary CTE students is anticipated to be required under the upcoming reauthorization of the Carl Perkins Career and Technical Education Act.
