The Environmental Review Commission (Commission) will meet at 9:30 a.m. Thursday December 18 2008 in Room 1228 of the Legislative Building in Raleigh.

At this meeting, the Commission will begin or continue studies for which the Commission is responsible, hear reports from State agencies, discuss topics to be considered at future meetings, and attend to other matters. Listed below are potential agenda topics for this meeting and for future meetings. More specific information regarding the agenda for the 18 December meeting of the Commission will be developed at the public staff planning meeting described below. Commission staff may publish a revised notice/draft agenda following the public staff planning meeting if circumstances permit.

(The specific legislative authorization or directive is set out in parentheses.) The list also includes other study topics and issues. (The general powers and duties of the Commission are set out in Article 12D of Chapter 120 of the General Statutes.) The Commission Counsel will, as circumstances permit, discuss the plans for and progress of the study of these topics, including the formation of "605" working groups, at the public staff planning meeting described below.

- 1) Allocation of surface water resources and their availability and maintenance in the State, including issues related to the transfer of water from one river basin to another, the withdrawal of water for consumptive use, and the accuracy and tolerance of equipment used to measure the flow of water transferred from one river basin to another river basin.
