MEMORANDUM

TO: ENVIRONMENTAL REVIEW COMMISSION
The Honorable David Rouzer, Chair
The Honorable Mitch Gillespie, Co-Chair
The Honorable Ruth Samuelson, Co-Chair

FISCAL RESEARCH
Mr. Mark Trogon, Acting Director, Fiscal Research Division

FROM: Kari Barsness *KKB*
Director of Legislative and Intergovernmental Affairs

SUBJECT: Report on Individually Permitted Discharging Systems
Beginning July 1, 2010, and Ending June 30, 2011
Fiscal Year 2010-2011

DATE: September 28, 2011

Pursuant to 143-215.9A, the Department of Environment and Natural Resources shall submit to the Environmental Review Commission and the Fiscal Research Division a report on the status of facilities discharging into surface waters during the previous fiscal year by October 1st of each year. Please consider the 2011 Individually Permitted Discharging Systems Report attached as the formal submission of this report.

If you have any questions or need additional information, please contact me by phone at (919) 715-4189 or via e-mail at Kari.Barsness@ncdenr.gov.

cc: Assistant Secretary Robin Smith
Coleen Sullins, Director, Division of Water Quality
Kristin Walker, Fiscal Research Division
Lanier McRee, Fiscal Research Division
Claire Hester, Fiscal Research Division
Mariah Matheson, Research Division

Department of Environment and Natural Resources
Annual Status Report on Individually Permitted Discharging Systems per N.C.G.S. 143-215.9A
For the Period Beginning July 1, 2010 and Ending June 30, 2011.

Summary

North Carolina General Statute (G.S.) 143-215.9A requires the Department of Environment and Natural Resources to report to the Environmental Review Commission and the Fiscal Research Division on the status of facilities discharging into surface waters during the previous fiscal year. Facilities discharging into surface waters are required by G.S. 143-215.1 to first apply for and secure a permit from the Environmental Management Commission. As a result, the data provided within this fiscal report is captured for those facilities individually permitted with National Pollutant Discharge Elimination System (NPDES) permits.

The following tables are enclosed summarizing activities for July 1, 2010 through June 30, 2011 per the general statute:

- **Table 1. Status of Civil Penalty Assessments.** A summary of the number of enforcement actions taken, civil penalties assessed and collected, and remissions requested. Due to the lengthy assessment process, total civil penalties assessed and total civil penalties collected will not coincide in the same fiscal year.
The Division of Water Quality's current data management system cannot track information on the number of violations found during each inspection, the date of the violation, or the nature of the violation. Funding has been allocated for the initial development phase to allow entry and summarization of this information; however, completion of the update will require further funding.
Since July 1, 1998, each regional office water quality supervisor has had the authority, through delegation by the Director of the Division of Water Quality (DWQ) to sign all Civil Penalty Assessments for fast-track enforcement actions for violations of NPDES Permit effluent limits and/or monitoring frequencies in accordance with G.S. 143-215.6A .
Most enforcement actions are based on violations of permit limits or monitoring requirements. However, there are other enforcement actions that may be generated due to other permit condition violations including, but not limited to, discharge violations (resulting from collection system overflows), late submission of Discharge Monitoring Reports, late submission of Toxicity Test results, violations of pre-treatment program requirements, improper operation & maintenance of treatment works, or by-pass of treatment works.
- **Table 2. Status of Individually Permitted Facilities.** A summary of the number and types of permits issued by each regional office along with the numbers of compliance and other inspections. Other inspections include:
 - Audit Inspections: a comprehensive review of all elements of a municipal's pretreatment program including a records review & an inspection of an industrial facility conducted once every 5 years;
 - Bioassay Compliance Inspections: evaluates the biological effect of a permittee's effluent discharge on test organisms using acute and chronic toxicity testing;
 - Compliance Sampling Inspections: a sampling inspection designed to verify the permittee's compliance with applicable permit self-monitoring requirements - analytical results from representative samples collected during the inspection are used to evaluate the permittee's compliance;
 - Diagnostic Inspections: focuses on Publicly Owned Treatment Works that have not achieved permit compliance – the purpose is to identify the causes of noncompliance, suggest immediate remedies, and support current or future enforcement action;
 - Operation & Maintenance Inspections: focuses on the operation and maintenance aspect of a facility;
 - Performance Audit Inspections: inspections that include actual observation of the permittee performing the self-monitoring process from sample collection and flow measurements through laboratory analyses, data work-up and reporting;
 - Pre-Treatment Inspections: an annual inspection of a municipal's pretreatment program; and
 - Toxicity Sampling Inspections: same as Compliance Sampling Inspections – however, increased emphasis is placed on toxic substances regulated by the NPDES permit.
- **Table 3. Status of Special Orders by Consent (SOCs).** Special Orders by Consent are a mutually (between the state and the permittee) agreed order that establishes timelines and relaxed permit limits to correct a problem of noncompliance while minimizing costs and damage to human health and the environment.
- **Table 4. Names and Locations of Individually Permitted Discharging Systems.** The names and locations of the individually permitted discharging facilities by Regional Office. The Regional Offices are abbreviated as follows:
 - ARO – Asheville Regional Office
 - FRO – Fayetteville Regional Office
 - MRO – Mooresville Regional Office
 - RRO – Raleigh Regional Office
 - WARO – Washington Regional Office
 - WIRO – Wilmington Regional Office
 - WSRO – Winston-Salem Regional Office

If any additional information or clarification is needed, please contact Vanessa Manuel at 919-807-6392.
