Background of the ADFP Trust Fund

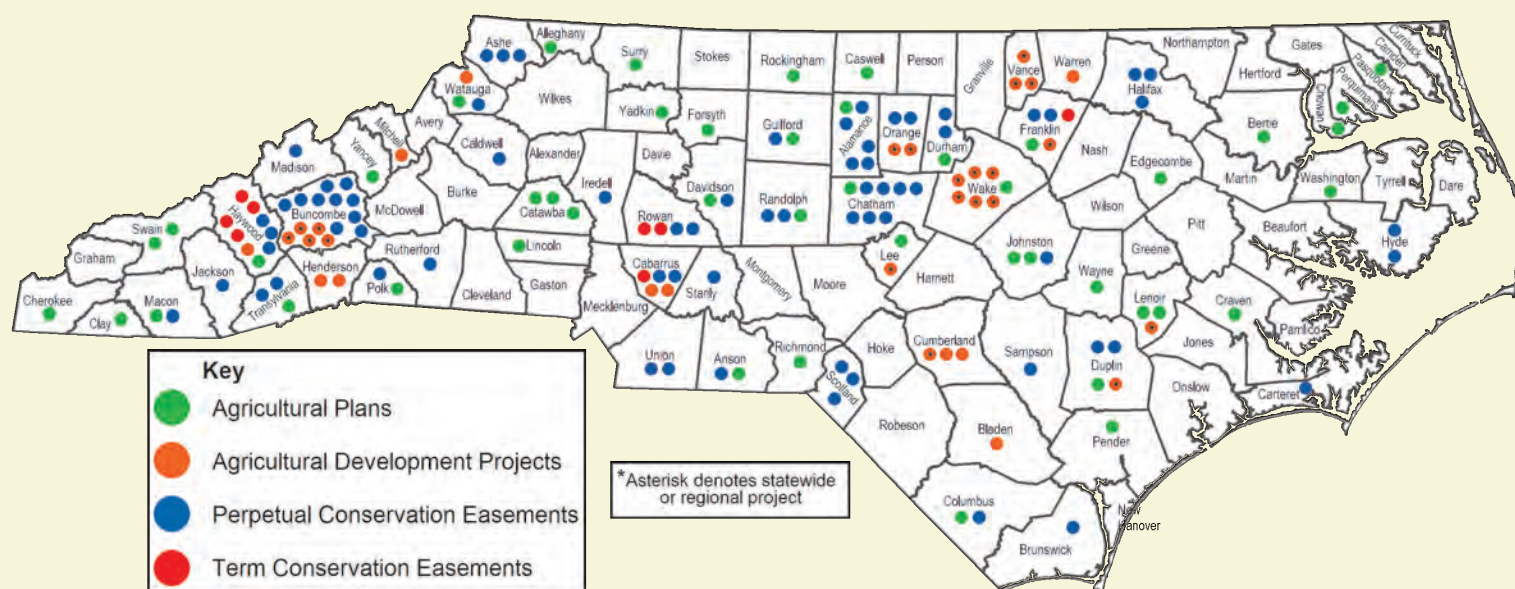

*Preserving working family farms is one of
Agriculture Commissioner Steve Troxler's top priorities.*

In March 2005, Commissioner Troxler delivered his "Agricultural Development and Farmland Preservation Strategy" to the General Assembly. During that legislative session, the General Assembly passed House Bill 607, establishing the Agricultural Development and Farmland Preservation Trust Fund.

The ADFP Trust Fund's mission includes three grant priorities:

- **Conservation Easements:** Deed restrictions that landowners voluntarily place on their property to protect agricultural resources. These include perpetual and term (year limited) easements.
- **Agricultural Plans:** These plans establish a comprehensive guide for counties and local governments to protect and preserve farms, forests and agribusinesses. This includes the formation of Voluntary Agricultural District programs or Farmland Protection Plans.
- **Development Projects:** Agriculturally-based projects geared toward developing a process or facility that will generate income and, in turn, benefit the agricultural community as a whole.

Awarded Grants — Cycles Pilot, I, II, III, IV, V, VI & TVA

Why Preserve Farmland in North Carolina?

Agriculture and Agribusiness is North Carolina's Number One Industry.

According to the 2007 Census of Agriculture, North Carolina is among the leading states in farmland acreage loss at an estimated rate of 10.3% over a 10 year period. North Carolina lost more than 970,000 acres of farmland from 1997 to 2007 or approximately 100,000 annually.

Agriculture and Agribusiness is essential to the North Carolina economy.

\$77 Billion

of North Carolina's \$440 billion gross
state product comes from agriculture and
agribusiness, accounting for

Agriculture and agribusiness,
including the food, fiber, and
forestry industries employ

17.5 Percent

of the total gross state product.

642,000

of North Carolina's 3.8
million employees.

Prepared by Mike Walden, Professor, North Carolina State University. April 2013.

Quality of Life

When farms are kept in agriculture, it maintains the quality of life that each North Carolinian enjoys everyday. Rural working landscapes are an integral part of our agricultural heritage and these areas attract a significant amount of people and industry. Future generations will benefit from measures that we take today to improve and protect farms and forests.

Environment

Farms and forests are critical to providing a healthy environment. Farm soils help to filter out contaminants, serve as a recharge area for water, and help to mitigate the risk associated with flooding. Forests help to filter out carbon dioxide and provide a habitat for wildlife. In addition, farms that provide goods to local communities reduce the amount of fossil fuels associated with transportation.

ADFP Trust Fund Updates

Since 2005, the ADFP Trust Fund has preserved 7,756.69 acres of farm and forest lands

- The ADFP Trust Fund will preserve another **1,917.5 acres** by 2014 based on contract schedules.
- To date, ADFP Trust Fund grant recipients have secured over **\$29 million** in matching funds.
- ADFP Trust Fund grant recipients anticipate over **\$7 million** in matching funds by 2014.

Recent Easement Closings

- Gerringer Farm Easement — Piedmont Land Conservancy — Guilford County — 8/2/2012
- Thompson Farm Easement — Black Family Land Trust — Orange County — 10/25/2012
- Rocky Pee Dee Farm Easement — The Land Trust for Central N.C. — Anson County — 11/6/2012
- Flying Cloud Farm Easement — Southern Appalachian Highlands Conservancy — Buncombe County — 12/4/2012
- Robinson Farm Easement — Southwestern N.C. RC&D Council — Haywood County — 6/14/2013

The Duplin County Livestock Facility's grand opening was on January 15, 2013. This Cycle IV agricultural development project was granted to Duplin County and the Duplin County Cooperative Extension. This facility will allow the Coastal Carolina Cattle Alliance to reach and impact more beef cattle producers through marketing and educational programs. Additionally, this facility provides space for Duplin County, Duplin County Cooperative Extension, and groups like 4-H and the FFA to have hands-on demonstrations and activities. As of June 2013, 959 head of cattle have been sold, bringing in over \$600,000 since March 2013.

All conservation easements are perpetual.

Cycle V Grant Recipient Profiles

Agricultural Plans

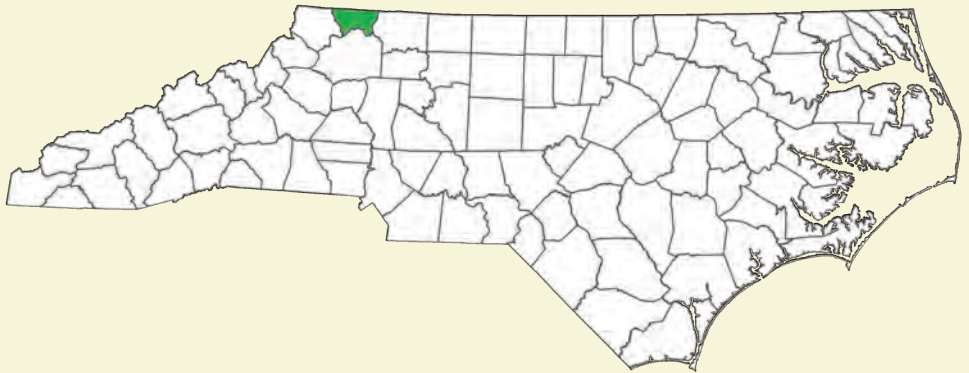

Alleghany County Farmland Protection Plan

Applicant: Alleghany County Soil and Water Conservation District

Proposed Grant: \$15,000

Total Project Value: \$25,826

Purpose & Objectives: Aid the development and adoption of a county farmland protection plan.

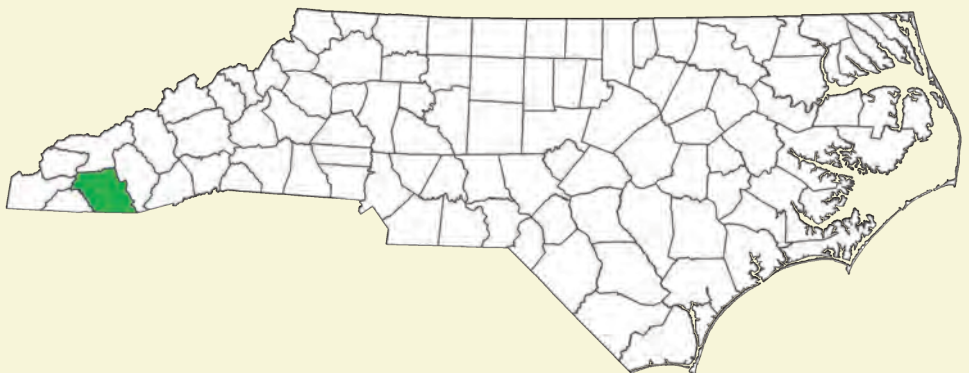

Macon County VAD & EVAD Program — “Taking it Beyond the Signs”

Applicant: Macon County Soil and Water Conservation District

Proposed Grant: \$7,225

Total Project Value: \$26,560

Purpose & Objectives: Implement the VAD and EVAD ordinances in Macon County, including educational meetings, signage and other outreach to farmers and landowners.

Cycle V Grant Recipient Profiles

Agricultural Plans

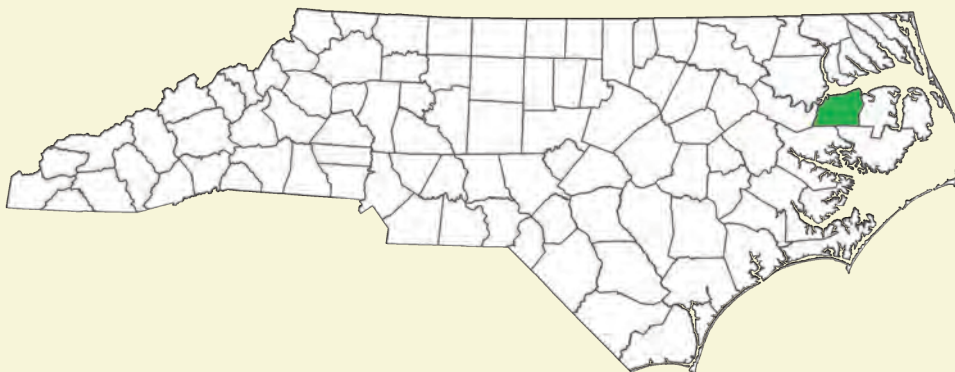

Washington County Voluntary Agricultural District

Applicant: Washington County Cooperative Extension

Proposed Grant: \$4,000

Total Project Value: \$7,345

Purpose & Objectives: Implement the VAD ordinances in Washington County, including educational meetings, signage and other outreach to farmers and landowners.

Agricultural Development Projects

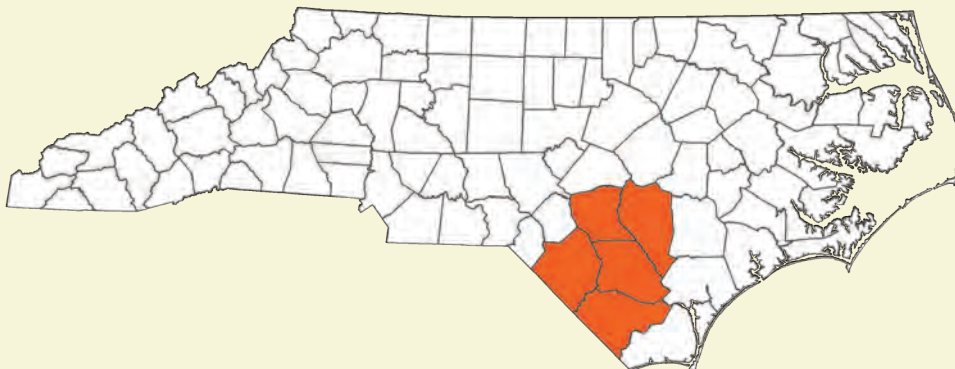

Bladen Conservation Equipment

Applicant: Bladen County Soil and Water Conservation District

Proposed Grant: \$45,500

Total Project Value: \$138,000

Purpose & Objectives: Allow low-income farmers access to grain drills and other tools in order to promote conservation tillage practices.

Cycle V Grant Recipient Profiles

Agricultural Development Projects

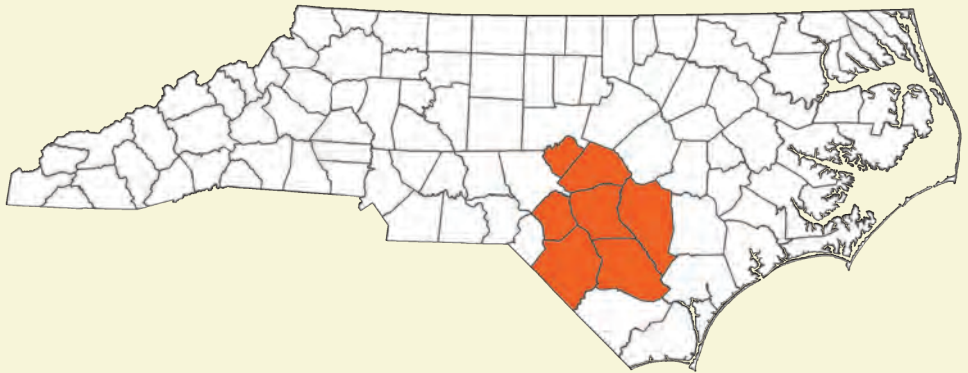

Cumberland County Farmers Market Study

Applicant: Cumberland County Cooperative Extension

Proposed Grant: \$25,000

Total Project Value: \$60,077

Purpose & Objectives: Cumberland County Cooperative Extension will work with a consulting firm to determine the feasibility and ideal location for a local farmers market in the county.

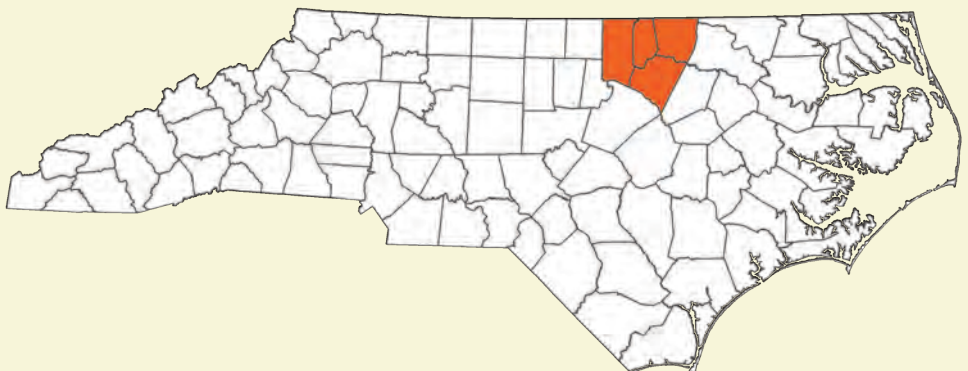

Fostering Bio-Fuel Growth in North Carolina

Applicant: Operation Spring Plant

Proposed Grant: \$36,000

Total Project Value: \$132,700

Purpose & Objectives: Assist an oil seed growers association in the development of an extraction process for biodiesel. The project will identify farmers in former tobacco growing areas and assist in the purchase of extraction equipment.

Cycle V Grant Recipient Profiles

Agricultural Development Projects

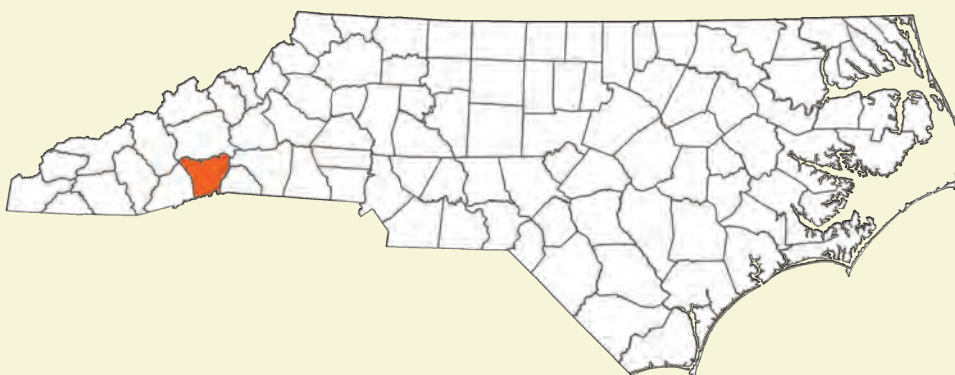

Henderson County Farm Fresh Program

Applicant: Henderson County

Proposed Grant: \$64,000

Total Project Value: \$89,600

Purpose & Objectives: Establish the “Henderson County Farm Fresh” marketing program to promote local products and producers.

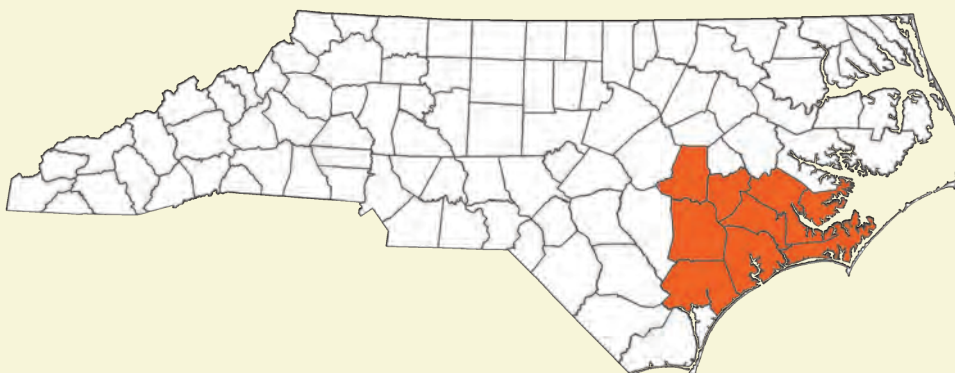

PlanIT East Agricultural Mapping/Analysis Project

Applicant: North Carolina's Eastern Region

Proposed Grant: \$12,000

Total Project Value: \$16,000

Purpose & Objectives: Development of population and farmland maps for planning conferences. These maps will serve as the starting point for PlanIT East's “EnvisionEast-2050” program.

Cycle V Grant Recipient Profiles

Agricultural Development Projects

Sustaining Agriculture Under the “MTR” II

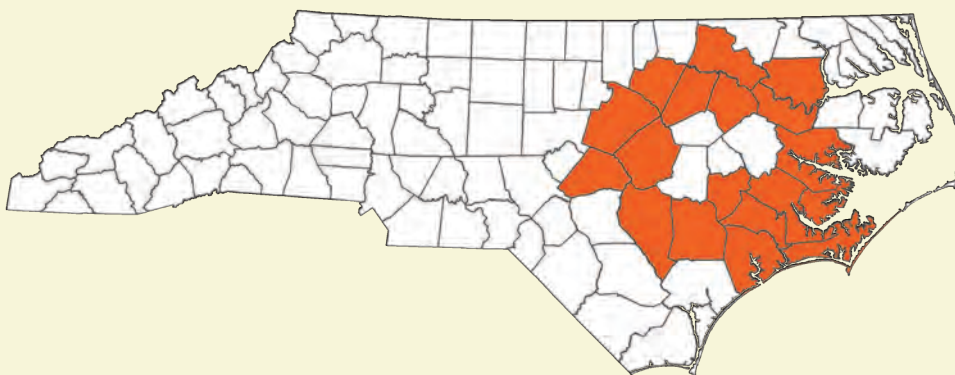

Applicant: North Carolina Foundation for Soil and Water Conservation

Proposed Grant: \$100,000

Total Project Value: \$130,000 + \$6 million in Department of Defense funding

Purpose & Objectives: Second phase of a 30-year landowner agreement program in cooperation with the military for the preservation of working farms and forests under the military training route in Beaufort, Bertie, Duplin, Edgecombe, Franklin, Halifax, Harnett, Johnston, Jones, Lenoir, Martin, Nash, Onslow, Pamlico, Sampson and Wake counties.

**North Carolina Foundation for
Soil & Water Conservation, Inc.**

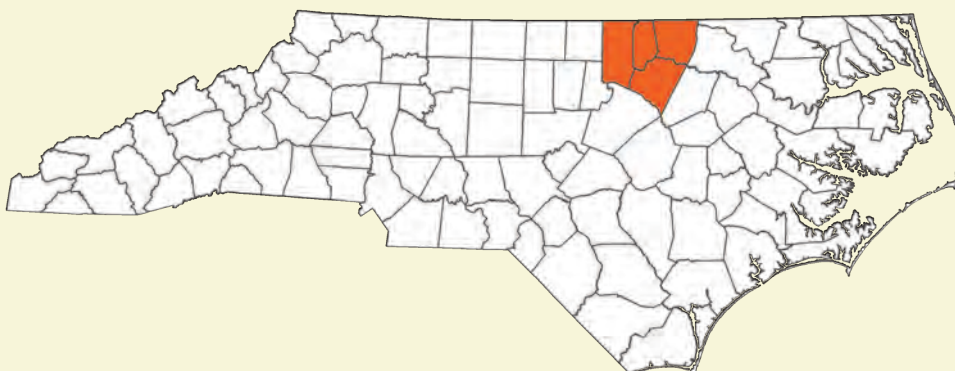

Vance County Regional Farmers Market

Applicant: Vance County

Proposed Grant: \$100,000

Total Project Value: \$400,000

Purpose & Objectives: The construction of a farmers market will enable local farmers to diversify production, increase income of local farmers, provide options for fresh local food and offer a venue for local meetings and events.
