Why Preserve Farms and Forests in North Carolina?

The NC ADFP Trust Fund Saves the Family Farm for Future Generations

-Agriculture and agribusiness is North Carolina's top industry, accounting for almost one-fifth of the state's economy and employees.

-Agriculture and agribusiness amounts for more than 17 percent, or \$76 billion, of the \$456 billion gross state product.

-Working lands provide fresh, local foods to North Carolina residents and quality products to the agriculture, forestry and fiber industries.

-Agriculture is a compatible industry with the military and military training, which is second in economic importance in the state at \$26 billion.

-Working lands provide scenic rural landscapes for tourism, the third largest economic sector in North Carolina.

-Farms and forests are critical in providing a healthy environment. Working lands are actively managed by farmers, providing key benefits like erosion control, carbon sequestration and waterway buffers.

-Cost of community services studies in the state show that agricultural lands use less tax dollars than they generate. Working lands are a net provider of local tax dollars, rather than a net user.

This Year Marks the 10th Anniversary of the NC ADFP Trust Fund

Join Commissioner Troxler and the ADFP Trust Fund staff in celebrating the 10th anniversary of the ADFP Trust Fund!

In March 2005, Agriculture Commissioner Steve Troxler delivered his "Agricultural Development and Farmland Preservation Strategy" to the General Assembly.

Governor Mike Easley signed House Bill 607 into law on September 13, 2005, establishing the North Carolina Agricultural Development and Farmland Preservation Trust Fund.

Since 2005, the ADFP Trust Fund has preserved **10,321 acres of farms and forestlands**. There have been **90 conservation easement projects awarded**.

The ADFP Trust Fund has provided funding for **47 agricultural development projects**, including farmers markets, livestock facilities, marketing programs, shared-use equipment programs, and other agriculture and agribusiness initiatives.

Additionally, funding from the ADFP Trust Fund has established **15 Voluntary Agricultural Districts programs** and **38 Farmland Protection Plans** for counties throughout the state.

Voluntary Agricultural Districts

The Voluntary Agricultural Districts (VAD) program encourages the preservation and protection of farmland by allowing landowners to publicly recognize their farms.

The VAD program is a county-level ordinance that establishes an Agricultural Advisory Board that provides a voice for farm, forestry and horticultural interests in local government.

Farms enrolled in the VAD program may reduce the threat of nuisance conflicts, may allow for waivers for water and sewer assessment and may provide public hearings for proposed condemnations. Program provisions vary by county.

Enhanced VAD member benefits are the entire above, plus: May receive up to 25% of its gross sales from the sale of nonfarm products and still qualify as a bona fide farm and eligible to receive a higher percentage of cost share funds under the Agriculture Cost Share Program. The EVAD conservation agreement is irrevocable for 10 years. The conservation agreement is automatically renewed for three (3) years absent a written notice to the county revoking the conservation agreements.

Farms Enrolled in the VAD Program Statewide	9,343
Acres of Farmland Enrolled in the VAD Program Statewide	767,105
Farms Enrolled in the Enhanced VAD Program Statewide	505

Total Farms Enrolled in the VAD and EVAD Program Statewide Increased by 1,422 Farms, or 16.9%

Guiding Counties to a Viable Agricultural Future

These plans describe existing agricultural activity in a county, list challenges to continued family farming in the county, list opportunities for enhancing the local agricultural economy, create a schedule for implementing the plan and identify possible funding sources for long-term support of the plan.

Farmland Protection Plans are approved by the North Carolina Department of Agriculture and Consumer Services and endorsed by the county Board of Commissioners.

Protecting Against Military Base Encroachment and Reduction in Airspace

In 2014, the General Assembly appropriated \$1 million in nonrecurring funding to match federal funds for the purchase of development rights from agricultural operations located near military bases in North Carolina. These funds were required to match funding from the federal government for that purpose on at least an equal basis.
