Why Preserve Farms and Forests in North Carolina?

The NC ADFP Trust Fund Saves the Family Farm for Future Generations

-Agriculture and agribusiness is North Carolina's top industry, accounting for almost one-sixth of the state's economy and employees.

-Agriculture and agribusiness amounts for more than 17 percent, or \$84 billion, of the \$482 billion gross state product.

-Working lands provide fresh, local foods to North Carolina residents and quality products to the agriculture, forestry and fiber industries.

-Agriculture is a compatible industry with the military and military training, which is second in economic importance in the state at \$66 billion.

-Working lands provide scenic rural landscapes for tourism, the third largest economic sector in North Carolina.

-Farms and forests are critical in providing a healthy environment. Working lands are actively managed by farmers, providing key benefits like erosion control, carbon sequestration and waterway buffers.

-Cost of community services studies in the state show that agricultural lands use less tax dollars than are collected. Working lands are a net provider of local tax dollars.

Voluntary Agricultural Districts

The Voluntary Agricultural Districts (VAD) program encourages the preservation and protection of farmland by allowing landowners to publicly recognize their farms. The VAD program is a county-level ordinance that establishes an Agricultural Advisory Board that provides a voice for farm, forestry and horticultural interests in local government. Farms enrolled in the VAD program may reduce the threat of nuisance conflicts, may allow for waivers for water and sewer assessment and may provide public hearings for proposed condemnations. Program provisions vary by county. Enhanced VAD (EVAD) member benefits are the same as VAD, plus: May receive up to 25% of its gross sales from the sale of nonfarm products and still qualify as a bona fide farm and are eligible to receive a higher percentage of cost share funds under the Agriculture Cost Share Program. The EVAD conservation agreement is irrevocable for 10 years. The conservation agreement is automatically renewed for three (3) years absent a written notice to the county revoking the conservation agreements.

Farms Enrolled in the VAD Program Statewide	9,103
Acres of Farmland Enrolled in the VAD Program Statewide	784,316
Farms Enrolled in the Enhanced VAD Program Statewide	517
Acres of Farmland Enrolled in the Enhanced VAD Program Statewide	124,911
Total Farms Enrolled in the VAD and EVAD Program Statewide	9,620
Total Acres of Farmland Enrolled in the VAD and EVAD Program Statewide	909,227
Total Acres Enrolled in the VAD and EVAD Program Statewide Increased by 101,556 Acres, or 12.57%, since 2015.	
Total Farms Enrolled in the VAD and EVAD Program Statewide Decreased by 228 farms, or 2.32%, since 2015.	

Guiding Counties to a Viable Agricultural Future

These plans describe existing agricultural activity in a county, list challenges to continued family farming in the county, list opportunities for enhancing the local agricultural economy, create a schedule for implementing the plan and identify possible funding sources for long-term support of the plan.

Farmland Protection Plans are approved by the North Carolina Department of Agriculture and Consumer Services and endorsed by the county Board of Commissioners.
