Approved/delegated program subject to reporting requirements:

☐ Sedimentation/erosion control

☒ Stormwater

☐ Water/sewer

☐ Cross-connection

☐ 401 certifications

☒ Other State riparian buffer program

Robert D. Patterson, PE

Signature of report preparer

1/18/2017

Date

*Submit this report electronically to Mariah Matheson, Commission Assistant,
Environmental Review Commission, at Mariah.Matheson@ncleg.net.*

Name of local government unit: Town of Morrisville

Please attach any written procedures that may have been developed to implement the provisions of this law.

☒ Check to indicate that this plan review program implemented procedures whereby plan reviewers distinguish between plan changes that are required by statutory or other legal authority and those that the reviewer offers as suggestions for improvement. Refer to S.L. 2014-120, Section 29.(b)(1) for further details about this requirement.

☒ Check to indicate that this plan review program identifies the statutory or regulatory authority for any revisions or requests for additional information that are required by the program in order to grant the requested plan permit, approval, or license. Refer to S.L. 2014-120, Section 29.(b)(2) for further details about this requirement.

☒ Check to indicate that this plan review program implemented procedures for local governments to follow when (1) a Professional Engineer submits a sealed design or practice that is not in the local government's guidance, manuals, or standard operating procedures, and (2) the submitting Professional Engineer requests additional internal review of that design or practice. Refer to S.L. 2014-120, Section 29.(c)(1) for further details about this requirement.

☒ Check to indicate that this plan review program established a procedure whereby the plan reviewer's supervisor OR the approving/delegating state agency can provide further review and oversight of these design details. Refer to S.L. 2014-120, Section 29.(c)(1) for further details about this requirement.

☒ Check to indicate that this plan review program either employs a Professional Engineer who can conduct further review of these innovative designs, or maintains a list of consulting Professional Engineers of the local government unit's choice that may conduct this review, if requested by and paid for by the submitting Professional Engineer. Refer to S.L. 2014-120, Section 29.(c)(1) for further details about this requirement.

☒ Check to indicate that this plan review program established an informal internal process to address disputes when a plan reviewer identifies a change to the plans as being "required" under a specific, identified legal authority. Refer to S.L. 2014-120, Section 29.(c)(2) for further details about this requirement.

☒ Check to indicate that this plan review program discontinued use of the word "engineer" in the job titles of all program employees whose responsibilities include review of plans in affected programs, *unless* those employees hold Professional Engineer licenses. Refer to S.L. 2014-120, Section 29.(h) for further details about this requirement.

Name of local government unit: Town of Morrisville

☒ Check to indicate that this plan review program reviewed the titles of all employees conducting plan reviews for this program. Refer to S.L. 2014-120, Section 29.(h)(1) for further details about this requirement.

☒ Check to indicate that this plan review program proposed revisions to those employees' job titles in order to eliminate use of the word "engineer" when publicly identifying those employees, if those employees do not hold Professional Engineer licenses. Refer to S.L. 2014-120, Section 29.(h)(2) for further details about this requirement.

Additional information:

The Town of Morrisville currently has 2 Professional Engineers on staff that can/do perform reviews of the approved/delegated programs listed above. There is only one plan review position that is not currently a PE. That position title provided to the public no longer refers to them as a "Stormwater Engineer", but as a "Stormwater Engineering Intern" or "Stormwater Engineering Associate".

The Town's Unified Development Ordinance (UDO) and Administrative Manual include provisions for handling appeals of review decisions/comments. Plan reviewers will review the application for appropriate performance as it relates to the proposed project and applicable Town requirements. In the event the reviewer is not a PE and cannot approve the proposed design, one of the PE's on staff will review the application and make a decision to approve or deny, with supporting justification. The applicant also has the final option to request a review of the application in question by NCDEQ.

There were no innovative design reviews requested this year.

There were no formal disputes about review comments this year.
