Dear Speaker Tillis and President Pro Tempore Berger:

North Carolina General Statute 122C-142.1 requires the NC Department of Health and Human Services to submit an annual report providing an overview of substance abuse services provided to individuals convicted of driving while impaired offenses. This report is a summary of data from the DWI substance abuse services Certificates of Completion submitted within the last state fiscal year ending on June 30, 2013.

If you have additional questions or if further information is needed regarding the content of this report, please contact Dave Richard, Director of the Division of Mental Health, Developmental Disabilities and Substance Abuse Services. Mr. Richard can be reached at (919) 733-7011.

Sincerely,

Adam Sholar

INTRODUCTION

This report is a summary of data from the DWI substance abuse services Certificates of Completion (DMH-508-R) submitted within the fiscal year ending June 30, 2013.

G.S. 122C – 142.1 (i) defines the information to be included in this report on substance abuse services for those convicted of Driving While Impaired or Driving While Less Than 21 Years Old After Consuming Alcohol Or Other Drugs. That information is as follows:

(1) The number of persons required to obtain a certificate of completion during the previous fiscal year as a condition of restoring the person's driver's license under G.S. 20-17.6.

The following data was obtained from the NC Judicial Branch - Administrative Office of the Courts Management and Information Services - for individuals convicted of impaired driving offenses during SFY 2012-2013. There were 61,425 impaired driving charges reported. Of those, the total number of convictions for an impaired driving offense was 37,946. The percentage of impaired driving cases resulting in conviction in this report is about 62%. The remaining 23,479 cases, or about 38%, were not convicted either by being found not guilty; no probable cause; voluntary dismissal by the prosecutor; voluntary dismissal with leave; or guilty of a charge other than impaired driving.

CONVICTIONS SFY 2012-2013	
DWI (Levels 1-2)	8,449
DWI (Levels 3-5)	26,420
DWI (aid and abet)	17
Driving after consuming under age 21	2,704
DWI (commercial vehicle)	20
Habitual DWI*	336
TOTAL	37,946

* Certificates of Completion (DMH-508-R) are not required for these cases because until recently, Certificates of Completion were not required for habitual convictions as those individuals were not eligible to apply for relicensure with DMV. A recent statutory change allows for those individuals to have a hearing at DMV if they have a clean driving record for 10 years following the conviction. As a result, these forms may be required in the future.

(2) The number of substance abuse assessments conducted during the previous fiscal year for the purpose of obtaining a certificate of completion.

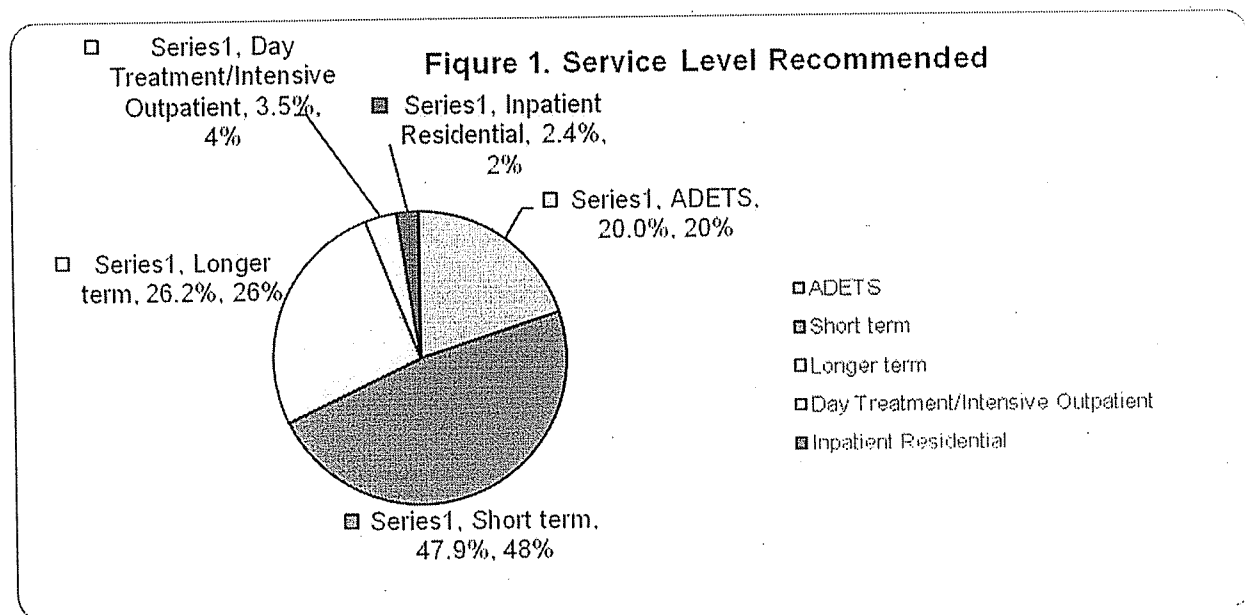

During this report period, 51,778 Certificates of Completion (DMH-508-R) were submitted to verify that a clinical substance abuse assessment was completed as required by law.

(3) Of the number of assessments reported under subdivision (2) of this subsection, the number recommending attendance at an Alcohol Drug Education Training (ADET) school, the number recommending treatment for a substance use disorder, and for those recommending treatment, the level of treatment recommended.

Of the 51,778 assessments reported, 10,355 or 20% recommended an ADETS program and the remaining 80% recommended treatment (**Figure 1**).

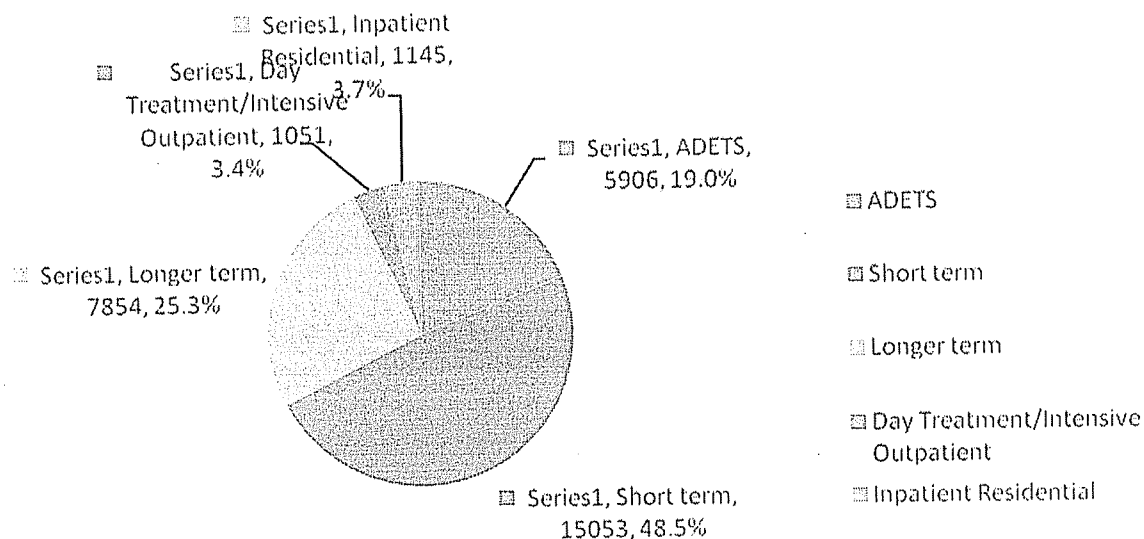

Approximately 30% of individuals assessed had a diagnosis of substance dependence. The majority of diagnoses were alcohol abuse and alcohol dependence at 68% of the total. The most common substance identified after alcohol was cannabis. Other common substances included: cocaine, opiates, and sedatives.

Approximately 34% had prior convictions with an average of 2 priors. The average blood alcohol concentration (BAC) was .18 and 13% refused the breathalyzer. The underage group accounted for 27% of assessments.

(4) Of the number of persons recommended for an ADET School or treatment for a substance use disorder, under subdivision (3) of this subsection, the number who completed the school or treatment. Of the individuals who were assessed, 31,009 or about 60%, completed treatment or education (Figure 2).

Figure 2. Service Level Completed

(5) The number of substance abuse assessments conducted by each facility and, of these assessments, the number that recommended attendance at an ADET school and the number that recommended treatment for a substance use disorder.

Attachment A is an accounting of DWI assessments conducted by each authorized facility in SFY 2012-2013 and their recommendations to ADETS or treatment for a substance use disorder.

(6) The fees paid to a facility for providing services for persons to obtain a certificate of completion and the facility's costs in providing those services.

The DWI substance abuse assessment fee is \$100.00. The fee for the standardized ADETS program is \$160.00. Both fees are set by NC General Statute and are paid to the facility providing the service. For those attending treatment for a substance use disorder, a minimum payment of \$75.00 is also required by statute. Service providers typically charge additional fees for treatment. The average cost for short term outpatient treatment for substance use disorders is about \$360.00 at \$18.00 per hour; this service is a minimum of 20 hours of counseling. The average cost for longer term

treatment is about \$630.00 for a minimum of 40 hours of counseling; this reflects a rate of \$16.00 per hour. Day treatment is provided at an average of \$8.00 an hour.
