Session Law 2018-33, Section 43**

Report to the

**Joint Legislative Oversight Committee on Health
and Human Services
and
Fiscal Research Division**

By

North Carolina Department of Health and Human Services

October 1, 2020

Introduction

NCGS §122C-255 has mandated biannual reporting to the Division of Mental Health, Developmental Disabilities, and Substance Abuse Services (Division) by certain facilities that provide care to people under involuntary commitment (IVC) orders. A facility is required to submit this reporting if it:

1. Operates as a 24-hour residential facility;
2. Falls under the category of nonhospital medical detoxification, facility-based crisis service, or inpatient hospital treatment;
3. Is not a State facility under the jurisdiction of the Secretary of Health and Human Services; and
4. Is designated by the Secretary of Health and Human Services as a facility for the custody and treatment of individuals under a petition of involuntary commitment pursuant to G.S. 122C-252 and 10A NCAC 26C .0101.

The data those facilities must submit are:

1. The number and primary presenting conditions of individuals receiving treatment from the facility under a petition of involuntary commitment.
2. The number of individuals for whom an involuntary commitment proceeding was initiated at the facility, who were referred to a different facility or program.
3. The reason for referring the individuals described in subdivision (2) of this section to a different facility or program, including the need for more intensive medical supervision.

Session Law 2018-33, Section 43, now requires a report to be submitted annually by revising NC General Statute 122C-294, on *Local plan and data submission.*:

(b) The Department shall provide the data collected by the Division of Mental Health, Developmental Disabilities, and Substance Abuse Services concerning the number of respondents receiving treatment under involuntary commitment in designated facilities to the Fiscal Research Division and the Joint Legislative Oversight Committee for Health and Human Services on October 1, 2019 of each year and any other time upon request.

Currently, there are 72 facilities covered by this reporting requirement for this reporting period. Of these 72, 26 have at least two units designated that serve specific age groups, presenting conditions, or other specialized populations. Not all of the facilities with more than one unit submit reports per unit.

Part A: Reports Submitted

This report covers the information provided by the IVC-designated facilities for SFY 2019-2020 and represents the information received for July-December of 2019 and for January-June of 2020 respectively.

The Division has been actively working with facilities to improve consistency and uniformity in their meeting reporting obligations under this section. The reporting has improved over the course of this reporting year. Reports that do not cover the entire six-month period will be noted accordingly. The Division looks forward to continuing to work with facilities to help them further demonstrate improved reporting in subsequent years.

An asterisk (*) appearing in a report is indicative of no reports being received for that entire six-month reporting period identified. If all zeros (0s) are in the reporting blocks, then that facility submitted monthly reports but did not have any admissions of persons under IVC orders.
