

Reducing Off-Season Crossings, Adjusting Fares, and Using Partnerships Can Improve Ferry Division Efficiency

A presentation to the Joint Legislative Program Evaluation Oversight Committee

March 26th, 2018

Chuck Hefren, Principal Program Evaluator

Program Evaluation Division

North Carolina General Assembly

Program Evaluation Division

North Carolina General Assembly

2

Our Charge

- Evaluate the ferry system with a focus on operations, savings, and fee structure optimization
 - Cost savings
 - Revenue enhancements
 - Governance structure alternatives
 - Contribution to the State's strategic transportation goals

Program Evaluation Division

North Carolina General Assembly

3

Summary: Findings

- The Ferry Division can save over \$1.5 million annually by reducing the number of crossings on routes during periods of lower use
- 2. Annual fare collections on currently tolled routes can be increased by \$1.7 million without adversely affecting area commuters
- Using partnerships with other governmental entities and the private sector can reduce state funding requirements and improve the effectiveness of the ferry system
- 4. Development of a long-range plan provides an opportunity to take a systematic approach to identifying the most cost-effective contribution of ferry transportation services toward achievement of the State's strategic transportation goals

Program Evaluation Division

North Carolina General Assembl

Δ

Summary: Recommendations

- 1. Produce a long-range plan for the ferry transportation system to include:
 - Consideration of alternative fare pricing and appropriate governance structures for ferry system activities
 - Utilization of grant from the Golden LEAF Foundation for necessary support services
 - Establishment of an executive team to oversee the process
- 2. Evaluate the schedule of crossings for each ferry route to ensure services cost-effectively meet the needs of both area residents and tourists

Program Evaluation Division North Carolina General Assembly

Background Program Evaluation Division North Carolina General Assembly

Background

DOT Strategic goals:

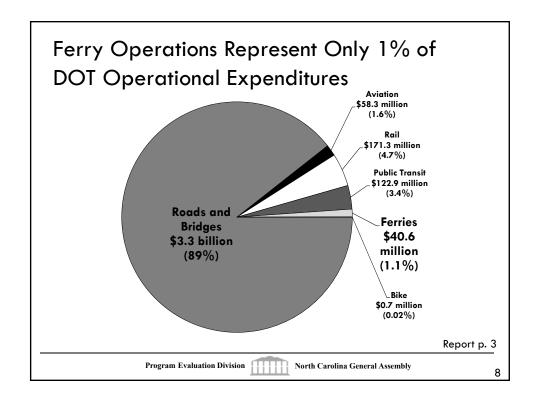

- 1. Increase transportation safety
- 2. Provide great customer service
- 3. Cost-effectively deliver and maintain the transportation infrastructure
- 4. Improve reliability and connectivity of the transportation system
- 5. Promote economic growth
- 6. Improve the reliability of all modes of the transportation network

Report p. 2

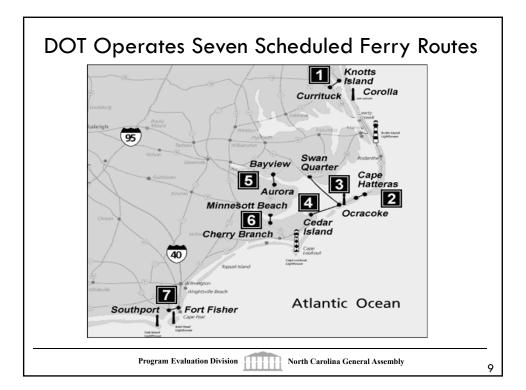

Program Evaluation Division

North Carolina General Assembly

7

Background

The four activities associated with ferry operations include:

- 1. Ferry boat operations
- 2. Terminal operations
- 3. Dock maintenance and repair
- 4. Dredging operations

Report p. 8

Program Evaluation Division North Carolina General Assembly

Findings

Program Evaluation Division

North Carolina General Assembly

Finding 1

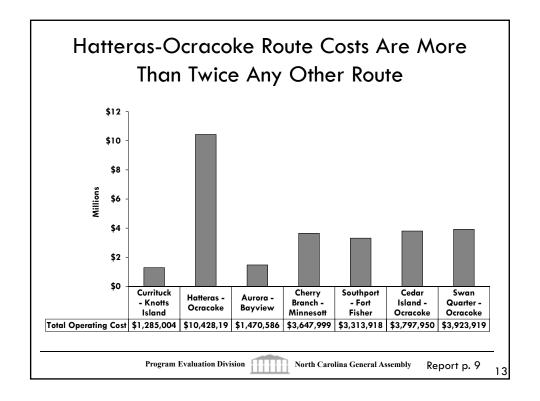

The Ferry Division can save more than \$1.5 million annually by reducing the number of crossings on routes during periods with lower use

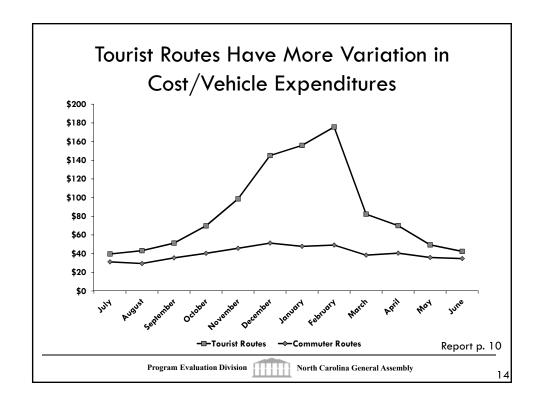

Report p. 7

Program Evaluation Division North Carolina General Assembly

Costs Can Be Reduced by \$1.5M by Limiting Crossings **During Low Utilization**

| Route | Number of Months With Low Average Utilization Rate (45% Or Less) | Number of Scheduled Daily Crossings (FY 2015–16) | Reduction in Daily Crossings (Low Utilization Months Only) | Total Estimated Annual Savings |
|------------------------------|---|---|---|---|
| Currituck - Knotts Island | 12 | 10-12 | 4 | \$ 44,617 |
| Hatteras - Ocracoke | 6 | 36 | 12 | 953,419 |
| Aurora - Bayview | 0 | 14 | 0 | 0 |
| Cherry Branch - Minnesott | 9 | 54 | 18 | 182,508 |
| Southport - Fort Fisher | 3 | 28 | 9 | 91,314 |
| Cedar Island - Ocracoke | 5 | 6 | 2 | 123,863 |
| Swan Quarter - Ocracoke | 6 | 6 | 2 | 167,078 |
| Total Savings (All Ro | \$1,518,799 | | | |

Program Evaluation Division

North Carolina General Assembly Report p. 11

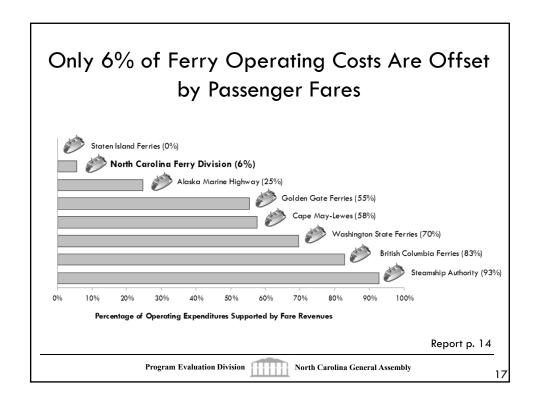

Finding 2

The Ferry Division can increase revenue from annual fare collections by \$1.7 million on its currently tolled routes without adversely impacting area commuters

Report p. 12

Program Evaluation Division North Carolina General Assembly

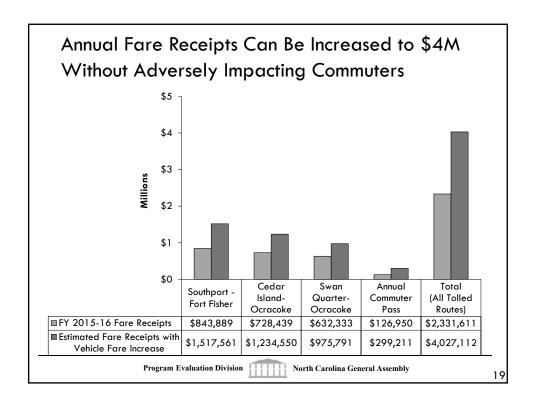

In Fiscal Year 2015–16, DOT Collected \$2.3 Million in Fares From Its Three Tolled Ferry Routes

| Route | Fare Collections | |
|-----------------------------|------------------|--|
| Southport – Ft Fisher | \$843,889 | |
| Cedar Island — Ocracoke | \$728,439 | |
| Swan Quarter – Ocracoke | \$632,333 | |
| System—wide Commuter Passes | \$126,950 | |
| TOTAL | \$2,331,611 | |

Program Evaluation Division North Carolina General Assembly

Finding 3

Using partnerships with other government entities and the private sector can reduce state funding requirements and improve the overall effectiveness of the State's ferry system

Report p. 18

Program Evaluation Division North Carolina General Assembly 2

Finding 3: Public/Private Partnerships

- Partnerships with other public and private entities can contribute to achievement of DOT's strategic goals by:
 - Improving efficiency by leveraging state funds to provide transportation infrastructure
 - Increasing economic development through expanded ferry transportation services
 - Sharing risks and rewards with other entities through a contractual agreement

21

Increased Ferry Utilization by Tourists Will Increase Both State and Local Tax Receipts

| Year | Ocracoke Expenditures per Visitor | Local Tax Receipts per Visitor | State Tax Receipts per Visitor | Total Tax Receipts per Visitor |
|---------------------|---|--------------------------------------|--------------------------------------|--------------------------------------|
| 2014 | \$72.45 | \$3.30 | \$3.91 | \$7.21 |
| 2015 | \$69.57 | \$3.77 | \$3.30 | \$7.07 |
| Two-Year Average | \$70.98 | \$3.54 | \$3.60 | \$7.14 |

Report p. 21

Program Evaluation Division

North Carolina General Assembly

22

Finding 4

Development of a long-range plan provides an opportunity to take a systematic approach to identifying how the Ferry Division can most cost-effectively contribute to the mission of the Department of Transportation and the strategic transportation goals of the State

Report p. 22

Program Evaluation Division

North Carolina General Assembly

23

Finding 4: Long-range plan

A long-range plans serves to:

- Provide an opportunity for an in-depth analysis of the unique opportunities and potential benefits that an effective ferry system can provide
- Evaluate alternatives to stimulate economic activity in the region and achieve a corresponding increase in both state and local tax collections
- Identify other potential sources of revenue including passenger fares and partnerships with other government entities and the private sector

Program Evaluation Division

North Carolina General Assembly

24

Finding 4: Long-range plan

To be effective a long-range plan should include:

- Stakeholder involvement
- Performance measures
- Adequate technical and administrative resources

Program Evaluation Division North Carolina General Assembly

Recommendations

Program Evaluation Division North Carolina General Assembly

Recommendation 1

The General Assembly should direct the Ferry Division to produce a long-range plan for the State's ferry transportation system

Report p. 7

Program Evaluation Division

North Carolina General Assembly

27

Recommendation 1 (cont'd)

The long-range planning process should:

- Evaluate alternative pricing structures that maximize the contribution of fares to DOT strategic goals
- Consider various governance structures including public/private partnerships
- Establish an Executive Team to oversee the process and evaluate results
- Apply for a grant from the Golden LEAF Foundation to procure necessary support services

Report p. 7

Program Evaluation Division

North Carolina General Assembly

28

Recommendation 2

The General Assembly should direct the Department of Transportation to evaluate the schedule of crossings for each ferry route to ensure ferry services cost-effectively meet the needs of both area residents and tourists.

Report p. 7

Program Evaluation Division

North Carolina General Assembly

20

Summary: Findings

- The Ferry Division can save over \$1.5 million annually by reducing the number of crossings on routes during periods of lower use
- 2. Annual fare collections on currently tolled routes can be increased by \$1.7 million without adversely affecting area commuters
- Using partnerships with other governmental entities and the private sector can reduce state funding requirements and improve the effectiveness of the ferry system
- 4. Development of a long-range plan provides an opportunity to take a systematic approach to identifying the most cost-effective contribution of ferry transportation services toward achievement of the state's strategic transportation goals

Program Evaluation Division

North Carolina General Assembly

30

Summary: Recommendations

- 1. Produce a long-range plan for the ferry transportation system to include:
 - Consideration of alternative fare pricing and appropriate governance structures for ferry system activities
 - Utilization of grant from the Golden LEAF Foundation for necessary support services
 - Establishment of an executive team to oversee the process
- 2. Evaluate the schedule of crossings for each ferry route to ensure services cost-effectively meet the needs of both area residents and tourists
