2016 - 2017 4th Quarter Health Services Legislative Report

To ensure that correct information relative to Section 17C.2A.(c) is reported, the Department clarified with the Fiscal Research Division that the volumes of services referenced are for hospitalization and hospital services data.

This report is for hospitalizations or hospital services of inmates which occurred from April 1, 2017 – June 30, 2017.

1) The number of total inmates and juvenile offenders requiring hospitalization or hospital services who receive that treatment at each hospital.

During this time period, there were 2,249 episodes that required treatment at a community hospital. Of these episodes, 473 were emergent admissions, 307 to contract facilities and 166 to non-contract facilities. Of the remaining episodes at community hospitals, 1,777 required emergency room visits only, 810 to contract facilities and 967 to non-contract facilities. Of these episodes, 46 were scheduled admissions, 43 to contract facilities and 3 to non-contract facilities. Please refer to Attachment A for more detailed information.

(2) The volume of scheduled and emergent services listed by hospital and, of that volume, the number of those services that are provided by contracted and non-contracted providers.

Figure 1 below shows the distribution of emergent/emergency in contracted and non-contracted facilities from April 1, 2017 through June 30, 2017. Please refer to Attachment A for more detailed information regarding hospital utilization.

Figure 1

June 30, 2017	ER	Total	Percentage
CONTRACT HOSPITALS	810	810	46
NON-CONTRACT HOSPITALS	967	967	54
Grand Total	1777	1777	100%

(3) The volume of scheduled and emergent admissions listed by hospital and, of that volume, the percentage of those services that are provided by contracted and non-contracted providers.

Figure 2 below shows the distribution of emergent and scheduled admissions in contracted and non-contracted facilities from April 1, 2017 through June 30, 2017. Please refer to Attachment A for more detailed information.

Figure 2

June 30, 2017	Emergent	Admissions	Total	Percentage
CONTRACT FACILITIES	307	43	350	67
NON-CONTRACTED FACILITIES	166	3	169	33
Grand Total	473	46	519	100%

(4) The volume of inpatient medical services provided to Medicaid-eligible inmates and juvenile offenders, the cost of treatment, the estimated savings of paying the nonfederal portion of Medicaid for the services, and the length of time between the date the claim was filed and the date the claim was paid.

From April 1, 2017 – June 30, 2017, 105 cases were identified as eligible for Medicaid. Based upon the *State Auditor's May 2012 Financial Related Audit Report*, the average savings of each case would be \$18,181.81. Using the methods applied in the audit, the estimated savings from April 1, 2017 through June 30, 2017 would be approximately \$ 1,909,090.05. Information regarding the length of time between the date the claim was filed and the date the claim was paid is not available to DPS. Once the application is completed, it is processed at the county level and then to DHHS for payment.

(5) The status of the implementation of the claims processing system and efforts to address the backlog of unpaid claims.

Medical claims with a date of service August 1, 2016 or later continue to be directed to PGBA for processing. Feedback received from our providers continues to be very positive and encouraging. Providers are pleased with the processing time and report PGBA staff is very prompt and professional in responding to inquiries. The number of providers submitting claims using the electronic portal increases each month. Providers utilizing this feature are very pleased with the efficiency.

The chart on the following page summarizes PGBA's performance history for the months of January through June 2017. PGBA is currently processing and paying over 99% of clean claims within 10 and 15 days, respectively.

(7) The total cost and volume for the previous fiscal quarter for emergency room visits originating from Central Prison and NCCIW Hospitals to UNC Hospital, UNC Rex Healthcare, and WakeMed Hospital.

Figure 3a displays the total volume for the previous quarter for emergency room visits originating from Central Prison and NCCIW Hospitals to UNC Hospitals, Rex Healthcare and WakeMed Hospital. This data is derived from approved Utilization Review authorizations maintained by DPS.

Figure 3a

	Central Prison	NCCIW
	Episodes/Paid to date	Episodes/Paid to date
UNC	64	15
Rex Healthcare	56	72
WakeMed	46	35
Total	166	122

Figure 3b displays the number of events and total costs based on the actual emergency rooms claims processed and paid by PGBA.

Figure 3b

Volume of Claims	Originating Facility	Provider TIN	Provider Facility	Total Charge	Amount Paid
10	CENTRAL PRISON	561509260	NC HEART AND VASCULAR	\$3,262.00	\$1,137.34
8	NC CI WOMEN	561509260	NC HEART AND VASCULAR	\$2,618.00	\$1,911.14
18				\$5,880.00	\$3,048.48

The difference is primarily the result of the time lag in receiving and processing claims as opposed to UR authorization. That is, the service is authorized but the hospital has not submitted the bill or PGBA has not yet processed the claim.

(8) The total payments for Medicaid and non-Medicaid eligible inmates to UNC Hospitals, UNC Rex Healthcare, and WakeMed Hospital, including the number of days between the date the claim was filed and the date the claim was paid.

Data with respect to the Rex Hospital and WakeMed claims processing timeframe requires further clarification. The budget request called for information detailing “the number of days between the date the claim was filed and the date the claim was paid.” The information keyed into MOMS includes the date of service, but does not include the date the claim was generated by the provider or the date it was sent to DPS. If the provider did not generate or submit the claim in a timely manner, such a delay will be reflected in these numbers. While the DPS medical claims staff date stamps the claim when received, this date is not entered into MOMS. When extracting data responsive to this request, the date of service and date paid fields were utilized and compared. Additionally, the column entitled days from service may include claims that have been previously denied, pended or referred for Medicaid determination. In general terms, claims

may be denied when the claim form has not been fully and accurately completed, no authorization for the procedure is on file or the service is otherwise ineligible. In accordance with policy, inpatient stays exceeding 24 hours are referred to Medicaid for an eligibility determination. It typically takes several months to a year before receiving a final answer on Medicaid coverage. While this determination is being made, the claim will be carried in a pending status.

The follow chart depicts the payment history with respect to Rex, University of NC Hospitals and WakeMed for claims processed internally using MOMS.

VENDOR	CLMS	PAID	DAYS_FM_BATCH	DAYS_FM_SVC
REX HEALTHCARE	6	\$ 11,911.24	120.33	354.83

Claims Paid 4/1/2017-06/30/2017

Days_FM_Batch - This is the average number of days from the claim being entered into MOMS and payment being issued.

Days_FM_SVC- This is the average number of days from date of service and the date the claim was paid. This includes any delay in data entry into MOMS and delays caused awaiting determination of Medicaid eligibility as explained above.

The above chart reflects an increase in the average number of days for Rex, UNC and WakeMed claims from the prior quarter. The reason for this increase is twofold. First, subsequent to August 1, 2016, all new Rex and UNC claims have been processed and paid by PGBA. Therefore, the average number of days calculation excludes UNC and Rex claims which had been previously processed by DPS within 30 days in accordance with contractual terms. The impact of excluding current claims data from the calculation materially impacts the average making a direct comparison misleading. Second, the claims paid for these providers are claims which had been previously pended for Medicaid eligibility determination or corrected submissions. As previously reported, it is not uncommon for a Medicaid eligibility determination to take up to one year.

The following chart summarizes claims processed by PGBA for these providers during the 2nd quarter of calendar 2017. Please note PGBA has pended a number of claims for Medicaid eligibility determination for which they are awaiting a response. This chart contains data with respect to both clean and unclean claims which have subsequently been adjudicated and paid.

Juvenile Justice:

2016 – 2017 4th Quarter Health Services Legislative Report

The following data is based on available information for the period starting April 1, 2017 and ending June 30, 2017.

1) The number of total inmates and juvenile offenders requiring hospitalization or hospital services who receive that treatment at each hospital.

During this time period, there were 11 Youth Development Center juveniles that required treatment or diagnostics at a community hospital. There were 30 total services provided at hospital related facilities. All hospitals comply with the mandated rates of two times Medicaid rate or seventy percent of prevailing rates.

(2) The volume of scheduled and emergent services listed by hospital and, of that volume, the number of those services that are provided by contracted and non-contracted providers.

Figure 1 below indicates the number of juveniles requiring hospital emergent services and observational services during the defined cycle- January 1, 2017-March 31, 2017

Figure 1

1-1-2017 thru 3-31-2017	Emergent/ER	Scheduled	Total	Percentage
CONTRACT HOSPITALS	28	2	30	100%
NON-CONTRACT HOSPITALS	0	0	0	0
Grand Total	28	2	30	100%

(3) The volume of scheduled and emergent admissions listed by hospital and, of that volume, the percentage of those services that are provided by contracted and non-contracted providers.

Juvenile Justice had one hospital admission during the quarter. Of the 30 visits, one was an inpatient admission. 100% of these services were provided by contracted providers.

(4) The volume of inpatient medical services provided to Medicaid-eligible inmates and juvenile offenders, the cost of treatment, the estimated savings of paying the nonfederal portion of Medicaid for the services, and the length of time between the date the claim was filed and the date the claim was paid.

As reported in question (3), there was one unique juvenile receiving a total of 1 hospital related visit of greater than 24 hours. The claims were paid at the legislatively mandated rate to Carolina Healthcare System.

Figure (2) shows claims submitted and the adjusted payment for all claims received during the defined cycle.

Figure 2

4-1-2017 thru 6-30-2017	Amount Billed	Amount Paid	Adjustment
Carolinas Healthcare System	\$ 17,086.20	\$ 11,960.34	\$ 5,125.86
Total	\$ 17,086.20	\$ 11,960.34	\$ 5,125.86

(5) The status of the implementation of the claims processing system and efforts to address the backlog of unpaid claims.

Juvenile Justice participates in the Medical Claims contract with Adult Corrections and PGBA. All claims effective August 1, 2016 or later are submitted to PGBA for processing.

The Controller's Office is providing on-going updates regarding the resolution of backlogged claims in the Adult Corrections section of the report.

(6) The hospital utilization, including the amount paid to individual hospitals, the number of inmates and juvenile offenders served the number of claims, and whether the hospital was a contracted or non-contracted facility.

1-1-2017 thru 3-31-2017	Amount Billed	Amount Paid	Adjustment

As reported in item (4), there were 11 unique juveniles who required medical care totaling 29 hospital related services of less than 24 hours resulting in \$ 13,176.56 costs paid. Of the 30 visits, 29 were for emergent services. All services were conducted by contracted providers.

- To note- Due to the size and staff structure of Juvenile Justice there is not a comparable MOM, Opus system or Utilization Review Section. All medical claims are processed via paper claims by business officers at each Youth Development Center location. PGBA has created a workflow to accommodate the submission of hard copy claims.

(7) The total cost and volume for the previous fiscal quarter for emergency room visits originating from Central Prison and NCCIW Hospitals to UNC Hospital, UNC Rex Healthcare, and WakeMed Hospital

This item does not apply to Juvenile Justice.

(8) The total payments for Medicaid and non-Medicaid eligible inmates to UNC Hospitals, UNC Rex Healthcare, and WakeMed Hospital, including the number of days between the date the claim was filed and the date the claim was paid.

The single claim for Wake Med Hospital was processed on 5/18/17 for \$ 278.72. There were eleven days between claim posting and resolution.

There were no other Juvenile Justice claims for the above institutions for this quarter.

(9) A list of hospitals under contract.

Juvenile Justice is continuing to work with Purchasing and Contracts to join the existing UNC Healthcare System contract via amendment.
