

Temporary Emergency Route between Ocracoke Village and Hatteras Island Ferry Terminal Aid in Dorian Relief Efforts

Routes to Swan Quarter and Cedar Island were in service and the primary routes used for volunteers, residents, supplies, emergency responders, etc.

The emergency route from Hatteras to Silver Lake was established to provide an additional route to the Ocracoke Island for volunteers, residents, property owners, gas and supply trucks as re-entry restrictions were lifted.

Ocracoke Island is only accessible by water transportation or air. The Ferry Division serves as the primary source of access.
