Re: Financing of Public Safety Radio System Upgrade Project by Nash County, North Carolina

Ladies and Gentlemen:

In accordance with Section 120-157.2(a) of the General Statutes of North Carolina, as amended, Nash County, North Carolina (the "County") hereby notifies you of its intent to finance its public safety radio system upgrade project pursuant to the installment purchase method permitted under G.S. 160A-20. The infrastructure improvements and 700/800 mhz subscriber units (radios) are expected to cost about \$4,000,000. The financing for this project is expected to have a term of 5 to 7 years with an interest rate projected to be approximately 2.5%. This project is considered necessary to upgrade the County's aging legacy VHF public radio system to comply with the North Carolina State interoperability plan utilizing the V.I.P.E.R. system.

Nash County anticipates that the North Carolina Local Government Commission will consider approval for the financing of this project at its meeting scheduled for August 7, 2018.

NASH COUNTY, NORTH CAROLINA
