

Joint Legislative Oversight Committee on Information Technology

Jeff Sural

Broadband Infrastructure Office Director

March 8, 2018

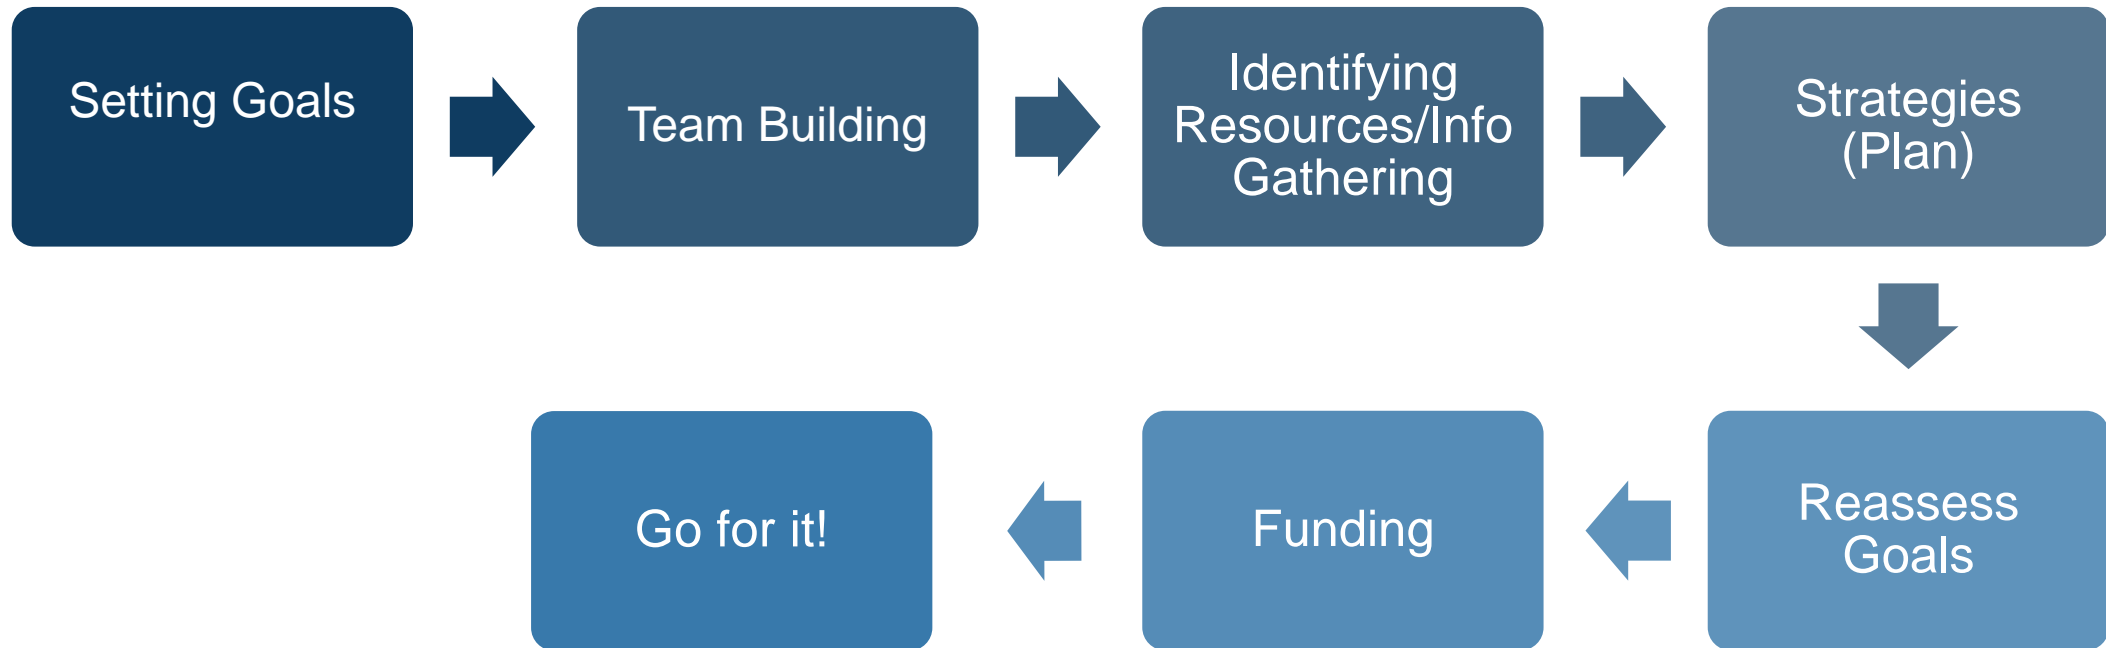

Vision

Every North Carolinian should be able to access affordable high-speed internet anywhere, at any time.

The Broadband Infrastructure Office

PROCESS AND PLANNING

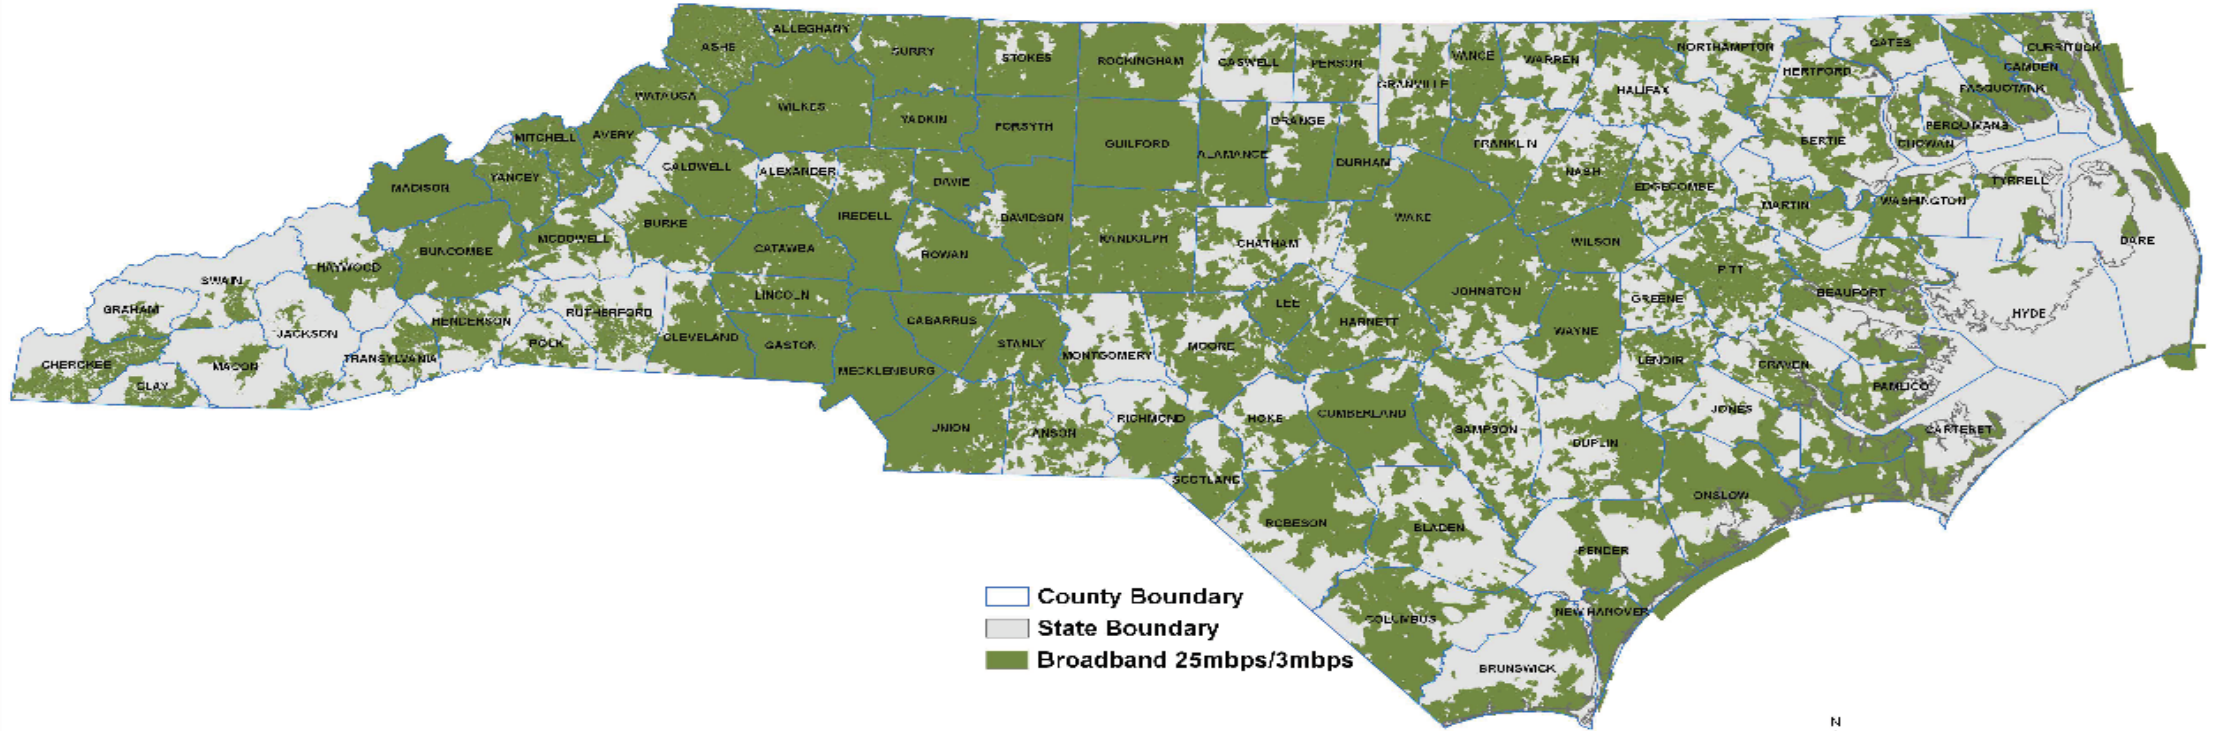

Broadband Availability Challenges

Broadband Service Inventory for North Carolina

Advertised Speeds of at Least 25 Mbps Download and 3 Mbps Upload

Data derived from U.S. Federal Communications Commission Form 477 Data Release Dec. 2016.
Note: A provider that reports deployment of a particular technology and bandwidth
in a census block may not necessarily offer that service everywhere in the block.

IS YOUR AREA REPRESENTED CORRECTLY?

In an effort to identify the pockets of unserved and underserved areas around the state, we have launched a new user-reporting tool. We want to make sure that the information that we have for homes and businesses around the state is as accurate as possible and getting your feedback is critical to that. This helps us develop strategic plans for improving connectivity in your area.

CONNECTING NORTH CAROLINA

- Cherokee, Clay, Graham, Macon, Swain, Haywood, Jackson: ARC grant feasibility grant
- WestNGN: Multi-county initiative; broadband enhancement
- Roanoke Electric Membership Cooperative: Multi-county initiative
- Connect America Fund II Deployments: over 25,000 locations connected through the Universal Service Fund
- RiverStreet Networks/Wilkes Telecommunication Cooperative: 5500 homes in Stokes Co.

The background features a light gray network of lines and nodes. Various icons are scattered throughout, including a downward-pointing arrow inside a triangle, a downward-pointing arrow inside a square, a right-pointing arrow, and a circular arrow. There are also some faint, illegible text elements like '1000101001' and '1001101001'.
