1. Per DHHS Controller's Office, limited fund balance (less than 8% recommended by the Local Government Commission) puts LME at risk of financial failure. If June 30, 2008 audited numbers show increased fund balance, will be approved.
2. DHHS has assumed financial control of program due to imminent risk of financial failure. Will reconsider Single Stream Funding when financial situation improves and financial control has been returned to management and Board of Directors.

Eligibility

As of the 3rd quarter performance report (4th quarter data is not yet finalized), two LMEs (Eastpointe and OPC) that have not requested Single Stream Funding Status had met all qualifications. The remaining LMEs fell into the following categories:
