Definitions	and (Completion	Instructions
Dellillinolis	anu	COIIIDIELIOII	แเอน นบนบแอ

Column 1: Enter the name of each county in the catchment area.

Column 2: Enter the amount each county has appropriated in county funds for the entire year.

Column 3: Enter the amount of county funds utilized for capital; capital is defined as funds allocated for the start-up purchase or construction of buildings.

Column 4: Enter the amount of county funds utilized for start-up; start-up is defined as funds allocated for the start-up purchase of equipment (non-capital).

Column 5: Enter the amount of county funds utilized for the start-up of a new service or program to cover cost of operation prior to serving consumers, e.g., training, program set-up.

Column 6: Enter the amount of county funds utilized for the purchase or provision of services, whether on a fee for service or a grant basis. On a separate attachment, please list the top five (5)

services funded by county funds.

Column 7: Enter the amount of county funds utilized for any other purpose; attach an explanation describing the purpose of these funds.

Column 8: No entry needed; total computes automatically.

NOTE: When county funds are utilized for a purpose which benefits multiple counties within the catchment area and it is not possible to allocate the amounts on an individual county basis, enter

the amount(s) on the line titled "Multiple Counties".

Columns 9 - 13: For the amounts entered in columns 3 thru 7, enter the distribution of those funds by the disability categories included in Columns 9 thru 13. If multiple disabilities benefit from the county

funds and cannot be broken out by disability, enter those amounts in Column 12. If county funds are utilized on a non-disability specific basis and cannot be assigned elsewhere in

Columns 9 thru 12, enter such amounts in Column 13.

Columns 14 & 15: No entry needed; total computes automatically.

Total Served: Enter the number of child and adults served with these county funds by the disability classifications in Columns 9 thru 13.

(Children & Adults) To avoid duplicate counting of individuals, do NOT include in the Total Served numbers individuals who have also had services reported for Medicaid or IPRS payment, regardless of

whether payment was made.
