--	---	--	---

# Psychiatric Residential Treatment Facility ( PRFT)

- Service available to recipients under the age of 21
- Non- acute inpatient facility care for Mental Health and/or Substance Abuse
- Each PRTF unit serves no more than 12 children or adolescents
- Highly structured 24-hour therapeutic setting (life skills, problem solving & medication mgmt)
- History of multiple hospitalizations with poor adherence to other interventions
- Educational services are provided through a facility based school

# Psychiatric Residential Treatment Facility (PRFT)

- Program is directed by a board-eligible or certified child psychiatrist or general psychiatrist with experience in treating children
- Must be nationally accredited
- Must be licensed by Division of Health Service Regulation
- May be subject to institutional building codes
- Highly medically monitored and supervised
- Facilities require 2 staff for every 6 recipients
- Authorization for 14 days with option for up to 30 days (not intended for long stays)

# Current Status of PRFT's

- Proposed amendment to current rule presented in August to the MHDDSAS Commission
- Proposed amendment to the current rule would allow PRTF's to serve up to 18 children or adolescents per unit
- Allows for expanded component of the treatment continuum
- Service has expanded from 298 Beds (2008) to 405 Beds (2009)

\*\*Commission approved proposed amendment-currently pending for fiscal note and then public comment period
