## Number of buildings involved-

- We protect **103** distinct state locations/facilities in the downtown government complex, which includes everything from parking lots and parking decks to buildings. (This does not include the locations to which we respond outside of the downtown area.)
- We staff **27** buildings with assigned personnel, 16 of which are in the downtown government complex.

# Contract Positions: Restrictions and Flexibility

- Receipt-funded (contracted) sites consider the officer to be their assigned employee.
- Contract administrators for various sites often expect distinct duties and responsibilities of designated sworn officers.
- SCP does have the flexibility to utilize the sworn officer at other locations when needed.
- The cost of the officer is not fully covered (*Equipment replacement costs, i.e. \$4,500 radios, turnover, uniforms*). *Receipt functions utilizing state resources are not covered in the service agreements, i.e. vehicles, fuel, supervision.*
- Overtime is not accounted for in every agreement for service. At this time, only 2 agencies pay for 9-hour days of service at 8a-5p buildings.
- Appropriated officers have to fill in for receipt-supported positions (*ex: injury, illness, training and approved leave, which strains our operations, and jeopardizes security and public safety responsibilities*).
- Contract insecurity hinders recruitment and retention.
