

Worker Misclassification Complaint Flow

1. Primary complaints are filed directly with the Director;
2. Secondary complaints originate at the agency level and are referred to the Director;
3. The Director collects information on all primary and secondary complaints, creates cases for each complaint and refers the cases to every agency;
4. Each agency conducts its own independent review of each case and prosecutes offending businesses under the agency's existing laws;
5. The agencies report outcomes of each case to the Director quarterly; and
6. The Director reports annually to the Office of the Governor.
