#### U.S. Rail Freight Traffic Second-Highest in History in 2007

WASHINGTON, January 3, 2008 — Although down from 2006's record-setting levels, freight traffic on U.S. railroads was the second highest on record, the Association of American Railroads (AAR) reported today.

Full-year 2007 U.S. carloads totaled 16,952,288, down 2.5 percent (426,598 carloads) from 2006. Full-year 2007 U.S. intermodal loadings were 12,026,660 trailers and containers, down 2.1 percent (255,561 units) from 2006. Total volume for the year was estimated at 1.76 trillion ton-miles, although down 1.0 percent from last year.
