

# **Legislative Research Commission House Life Cycle Cost Analysis Committee**

## **Committee Authorization**

From the Legislative Research Commission authorization letter of the Speaker of House, Thom Tillis, dated September 1, 2011:

The Committee **"may study the implementation of revised policies on life cycle cost analysis including material cost indexing, open bidding for alternate pavement designs for all TIP projects that exceed \$500,000 in pavement costs, and the 30 year design periods and 45 year analysis periods based upon actual historic schedules and costs."**
