Mr Gannon:

I wanted to e-mail my support for the proposed run-off restrictions for Jordan Lake. It is more than obvious to many of us that steps must be taken to ensure the future water quality of this valuable resource.

As our local towns of Apex, Cary and those around Chapel Hill sprawl closer and closer towards the lake, the pressures on the water quality will only get tougher. We need to take the appropriate steps now and not let development dictate to us how we will proceed.

Sincerely,  
Richard Nowak  
Apex, NC
