To: Rich.Gannon@ncmail.net

Good Morning Mr. Gannon. I am recovering from a full hip replacement (just two weeks ago). This issue is so important to all of us who depend on Jordan for recreation, esthetic beauty, but most important of all, for our water to drink. There must be a way to fully support clean water for Jordan Lake & the full Cape Fear water system The Haw, The Deep & the Rocky are all source of natural beauty & good water for tens of thousands who live in Chatham. Orange & eastern Wake. Please maintain strict regulations so we can all continue to benefit from these resources.

Thank you very much..... Efrain A. Ramirez 250 Town Lake Dr. Pittsboro
