Subject: Support for robust defense of Jordan Lake water quality
Date: Mon, 13 Aug 2007 16:08:45 -0400

My family lives in the Jordan Lake watershed (Pittsboro, Chatham County) and we want you to know that we feel very strongly that the quality of the water in Jordan Lake is very important for our region at so many levels that it seems silly to list them: recreation, fishing, wildlife, tourism, etc. Please go as far as you possibly can to guarantee that we have the legislative foundation to get Jordan Lake clean and keep it clean as our area is developed. Thank you.
