

**CAMPBELL**  
UNIVERSITY

Jerry M. Wallace  
School of Osteopathic Medicine

# **NC General Assembly Committee on Access to Healthcare in Rural North Carolina**

**Monday, January 8, 2018**

A wide-angle photograph of a large, modern academic building with a prominent gabled roof and extensive glass windows. The building is constructed with brick and light-colored siding. It is situated on a green lawn under a blue sky with scattered clouds. The text "Our Mission" is overlaid in white on the center of the image.

# Our Mission

Campbell University Jerry M. Wallace School of Osteopathic Medicine is committed to educating and preparing **community-based osteopathic physicians** in a Christian environment to care for the **rural and underserved populations** in **North Carolina**, the **Southeastern United States** and the **nation**.

# We Value

Teamwork

Leadership

Professionalism

Integrity

Diversity

Ethical treatment  
of all humanity

# The Challenge – Physician Supply

- NC Ranks 29<sup>th</sup> in Active Physicians per 100,000 Population for a total of 249.3 physicians per 100,000. The state Median is 257.6
  - NC Ranks 33<sup>rd</sup> in Primary Care Physicians per 100,000 at 85.2. The state median is 90.8
- 
- 26 counties without an OBGYN
  - 26 counties without a General Surgeon
  - 32 counties without a Psychiatrist
  - 20 counties without a Pediatrician

# Strategy

Recruit North Carolinians Into  
Medical School

Create Residency Positions in  
rural NC so that they can stay in  
the state for further training

We have a 67% chance of  
keeping physician trainees in  
the state to practice if they  
complete medical school and  
residency here

We meet our mission of  
increasing physician supply in  
rural communities by adding  
1,000 + physicians over the next  
20 years which will begin to  
address the physician shortage  
anticipated in our state
