(a) Identification of Low-Performing Local School Administrative Units. – The State Board of Education shall identify low-performing local school administrative units on an annual basis. A low-performing local school administrative unit is a unit in which the majority of the schools in that unit that earned an overall school performance grade and school growth score as provided in G.S. 115C-83.15 have been identified as low-performing schools, as provided in G.S. 115C-105.37.

(1) The superintendent shall proceed under G.S. 115C-105.39.

(2) Within 30 days of the identification of a local school administrative unit as low-performing by the State Board, the superintendent shall submit to the local board of education a preliminary plan for improving both the school performance grade and school growth score of each low-performing school in the unit, including how the superintendent and other central office administrators will work with each low-performing school and monitor the low-performing school's progress and how current local school administrative unit policy should be changed to improve student achievement throughout the local school administrative unit. The plan shall also include specific strategies to improve early childhood learning along with measurable goals.

(3) Within 30 days of its receipt of the preliminary plan, the local board shall vote to approve, modify, or reject this plan.
