General Assembly Of North Carolina Session 2019
" <u>§ 75-151. Right to repair.</u>
(a) For farm equipment sold or used in this State, the original farm equipment
manufacturer shall make available all of the following:
(1) Diagnostic and repair documentation, including repair technical updates and
updates and corrections to embedded software, to any independent repair
provider or owner of farm equipment manufactured by the original farm
equipment manufacturer for no charge or in the same manner as the original
farm equipment manufacturer makes available the diagnostic and repair
documentation to its authorized repair provider.
(2) Farm equipment parts, including any updates to the farm equipment's
embedded software, for purchase by the owner, the owner's agent, or any
independent repair provider on fair and reasonable terms.
(b) An original farm equipment manufacturer that sells to any independent repair
provider or owner any diagnostic, service, or repair documentation in a format that is
standardized with other original farm equipment manufacturers and on terms and conditions
more favorable than those under which the authorized repair provider obtains the same
diagnostic, service, or repair documentation shall be prohibited from requiring an authorized
repair provider to continue purchasing diagnostic, service, or repair documentation in a
proprietary format, unless the proprietary format includes diagnostic, service, or repair
documentation or functionality that is not available in a format that is standardized with other
original farm equipment manufacturers.
(c) An original farm equipment manufacturer of farm equipment sold or used in this State
shall make available for purchase by owners and independent repair providers all diagnostic
repair tools incorporating the same diagnostic, repair and remote communication capabilities that
the original farm equipment manufacturer makes available to any authorized repair provider. An
original farm equipment manufacturer shall offer such tools for sale to any owner or independent
repair provider on fair and reasonable terms.
(d) An original farm equipment manufacturer that provides diagnostic repair
documentation to aftermarket diagnostic tool manufacturers, diagnostic providers or service
information publications and systems shall have fully satisfied its obligations under this section
and thereafter is not responsible for the content and functionality of the aftermarket diagnostic
tools, diagnostics, or service information systems.
(e) Farm equipment manufactured by an original farm equipment manufacturer that is
sold or used in this State for the purpose of providing security-related functions shall include
diagnostic, service, or repair documentation necessary to reset a security-related electronic
function from information provided to an owner or independent repair provider. If necessary for
security purposes, an original farm equipment manufacturer may provide information necessary
to reset an immobilizer system or security-related electronic module to an owner or independent
repair provider through the appropriate secure data release system.
<u>"§ 75-152. No requirement to divulge trade secret.</u>
This Article shall not be interpreted or construed to require an original farm equipment
manufacturer to divulge a trade secret.
<u>"§ 75-153. No abrogation of contract.</u>
(a) This Article shall not be interpreted or construed to abrogate, interfere with,
contradict, or alter the terms of an agreement executed between an authorized repair provider and
an original farm equipment manufacturer, including, but not limited to, performing warranty or
recall repair work by an authorized repair provider on behalf of an original farm equipment
manufacturer pursuant to the authorized repair agreement. Except in the case of a dispute arising
between an original farm equipment manufacturer and its authorized repair provider related to
either party's compliance with an existing repair agreement, an authorized repair provider has all the rights and remedies provided in this section
