

Request for Remote Public Input for House Select Committee on COVID-19 Public Comments Report - LINC

Date Submitted	Category	Name	Comments
05/04/2020 09:20 PM	Continuity of State Operations (Emergency Services, Elections & Public Safety) Working Group	Ms. Amy Heath	I request that North Carolina protect the vote by promoting absentee vote-by-mail and providing postage-paid return envelopes for ballots, expanding flexibility of early voting, and enhancing recruitment of poll workers.
05/04/2020 09:23 PM	Health Care Working Group	Ms. Amy Heath	I urge NC lawmakers to expand Medicaid to cover 500,000 additional North Carolinians. Doing so would cover the workers who are the backbone of our current economy, protect families from bankruptcy, and help struggling rural hospitals stay afloat. This would be a great benefit to workers impacted by job loss from the pandemic.
05/04/2020 11:40 PM	Continuity of State Operations (Emergency Services, Elections & Public Safety) Working Group	Mary Skov	I do not want voter protections weakened.
05/04/2020 11:42 PM	Health Care Working Group	Ms. Billie Jo Cockman	My mother is at Brian Center Health and Rehabilitation/Goldsboro for long term physical therapy. There are currently no covid patients in this facility. However, today our family was notified that there is an covid patient arriving tomorrow. This seems like intentional covid introduction into an uncontaminated facility. If the goal in NC is vigilant protection of nursing home patients, this seems counterintuitive, if not reckless. It is simply not logical to put more people at risk for yet another rest home outbreak. Please help me understand. There has to be a better system created so more lives are not endangered. Billie Jo Cockman cockmanb@meredith.edu 919-812-3818

05/05/2020 12:56 AM	Continuity of State Operations (Emergency Services, Elections & Public Safety) Working Group	Mrs. Jane Shelton	I do NOT want ANY changes to our State's election laws.
05/05/2020 07:08 AM	Health Care Working Group	Stephanie Brown	Pass #HB1040. Expanding Medicaid in NC for Working Families would 1) save rural hospitals, 2) create new jobs, and 3) save lives.
05/05/2020 11:59 AM	Health Care Working Group	Flora Frantz	thank you. expand medicaid
05/05/2020 01:44 PM	Health Care Working Group	Alice Snell	Expand Medicaid!
05/05/2020 01:45 PM	Continuity of State Operations (Emergency Services, Elections & Public Safety) Working Group	Alice Snell	Protect the vote: provide absentee vote-by-mail and postage-paid return envelopes for ballots.
05/05/2020 03:30 PM	Continuity of State Operations (Emergency Services, Elections & Public Safety) Working Group	Leah	Please keep the state closed - it's far too soon to open & the deaths will not make it worth it
05/05/2020 04:36 PM	Economic Support Working Group	Mrs. Racheal Shaddeau	I am a Nurse Practitioner in Eastern NC where we have very low levels of COVID 19. Due to an overwhelming drop in the hospital and Emergency department census in our hospital and nationwide, my company (Envision Physician Services), has cut my contracted hours by 50%. This reduction is for all advance practice providers on the inpatient service at our location and company wide there has been a 25% reduction called for to include practicing clinicians. This has placed me in a difficult financial position since my husband is disabled and I carry the burden of our household. I have applied for unemployment benefits for partial unemployment but that is pending and I doubt I will be assisted due to my annual salary. What is amazing is that Envision has received funding under the COVID emergency funding as well as the hospital at which I work. but this is not making it down to my level. It seems I am caught in the middle. Envision says they only got enough funding to keep them operating for 6 days. I am not sure how much Sentara Albemarle Medical Center will receive.

Date Submitted	Category	Name	Comments
			<p>What is in place to help someone like myself?</p> <p>I would appreciate any assistance you can give.</p> <p>Thank you,</p> <p>Racheal E. Shaddeau, FNP C</p>
05/05/2020 10:06 PM	Health Care Working Group	Mrs Esther Cartwright	Medicaid expansion will bring jobs and federal dollars to our local economies, support low-income employees who have lost their jobs and provide a safety-net health care program for low income people.
05/07/2020 04:02 AM	Continuity of State Operations (Emergency Services, Elections & Public Safety) Working Group	Terry Landers	Actions must be taken now to ensure that the November Elections can proceed safely and without disruption. Expand ONLINE VOTER REGISTRATION, keep polling places open and SAFE, Expand mail-in voting: EASE of REQUESTING [email, on-line, phone] and RETURN [pre-paid envelop] of mail-in ballot.
05/07/2020 09:51 AM	Health Care Working Group	V tight gel Arpita patel	<p>Hi there,</p> <p>Firstly, a bunch of thanks for sharing such an amazing blog post with us. Actually I was doing the research on latest update from NCLEG And I get landed over your article is so informative.</p> <p>Thank you</p> <p>Source: https://myeveschoice.com/</p>
05/07/2020 03:21 PM	Economic Support Working Group	Mr. Johnny Rafidi	OPEN NC IMMEDIATELY! Our freedom has been stripped and it's time to have no government control us any longer.
05/07/2020 03:30 PM	Continuity of State Operations (Emergency Services, Elections & Public Safety) Working Group	Lisa Bennett	Please I'm begging you open up NC now! We are not NYC. My business as well as many friends businesses are going to make it. They will not make it another week. It doesn't make sense that the doggie spa can be open and a hair salon can not or the liquor store is open by the small mom & pop cafe is not or that Lowes, Home Depot, Costco etc is open by the small owner retail store is not. Let's get the kids back in school by May 15th and the parents back to work by May 16th. Do not delay. Do you job and take care of all the people of NC not just the elderly.
05/07/2020 03:30 PM	Continuity of State Operations (Emergency Services, Elections & Public Safety) Working Group	Chad Long	<p>Let me first say thank you for your service to our state and that I understand there are more pressing issues than mine. However to my son who turns 16 today and had a driving test to get his licenses today at 11:00 is crushed. It is certainly a big milestone for all 16 year olds. Our son Christian had plans on starting work either at a grocery store or with his grand father in the building business. So now not only does he not have a drivers license he can't go to what is deemed an essential job to begin earning money as many teenagers desire.</p> <p>We were told that it could be August before driving test resume and like all other things that have stopped during COVID-19 there is sure to be a back long. In addition he plays sports and it will create an additional burden on our family as it will delay his nines being removed.</p> <p>We have family in Georgia and they just advised that GA said since 80% of those who have taken the driving test in the past pass it they have past legislation that states if you have</p>

Date Submitted	Category	Name	Comments
			<p>had your learners permit for a minimum of a year then you can get your license without the driving test.</p> <p>I believe there are ways that the state can pass a similar bill. I think you can take things into consideration like how long have they had a permit, what is their GPA, Christians is a 4.25 or even the parents driving record. My point is there are ways to prove if you are ready without there state test that is at best 5 min. If a parent is willing to put their teenage driver on their insurance I think we need to let parents who are with them more than the 5 min driving test be the judge with this unprecedented pandemic. Another option is allow them to record a video doing the road test with their parents and show it to the local DMV along with their driving log?</p> <p>Our ask is to please put this at the top of your list as it is an easy fix to getting NC back open and 16 year olds across the state a privilage that they have waited so long for.</p> <p>Thanks for your time!</p>
05/07/2020 03:34 PM	Continuity of State Operations (Emergency Services, Elections & Public Safety) Working Group	Mr. Aaron Fore	<p>As a veteran, I am deeply saddened that my brothers and sisters sacrificed in vain for the freedoms and liberties that so many willingly are throwing away.</p> <p>When I hear that those who swore an oath to uphold the constitution, willingly betray their oath and enforce unlawful actions.</p> <p>I am dismayed, when a partial restoration of some of your freedoms are announced for a future date and people seem happy for this small permission given.</p> <p>I only served for 35 years but my brothers and sisters already paid for ALL of your freedoms with their lives.</p>
05/07/2020 03:34 PM	Continuity of State Operations (Emergency Services, Elections & Public Safety) Working Group	Dr. Sarah Boyce	<p>Open the state back up. Stop giving Cooper unlimited power and decision making. This is not longer an emergency. Hospitals are not overrun and never would've been. We don't need testing or tracking. The large box stores have been packed for 8 weeks and the numbers are not soaring because of it.</p>
05/07/2020 03:37 PM	Continuity of State Operations (Emergency Services, Elections & Public Safety) Working Group	M Green	<p>I am very disturbed at how long this stay at home order is lasted with all the different phases. It is too long. There are many facets that we need to consider. The first is the Covid patient, and then we must consider the Economic Patient. People are suffering because of the lost of their businesses. The number of deaths with a poluation of NC does not justified a 1 million job loss and counting. You should also consider the problem with mental illness, and rise of domestic violence. Please stop this.</p>
05/07/2020 03:40 PM	Economic Support Working Group	Mr Jeff Horsky	<p>Open the state up now! We should have never and do not need to shut down. To hell with some new normal, our old normal was just fine. Stop this nonsense and let's all get back to work.</p>
05/07/2020 03:42 PM	Continuity of State Operations (Emergency Services, Elections &	Mr Joel Cooper	<p>As data continues to come in, it is clear that the COVID-19 "pandemic" is anything but one. The virus is more wide spread and less virulent than was originally believed. The emergency actions taken to "flatten" the curve are, for the most part still in place. With</p>

	Public Safety) Working Group		relatively low numbers of North Carolinians (~0.05%) actually "infected and a even lower number (0.004%) dying, it is high time this State revoke the executive orders of the Governor and return us to an open society. It is clear the Governor has no plan, other than to delay, delay, delay and no vision for the future. It is time for the Legislature to stand up, do their jobs and demonstrate leadership that we are sorely lacking.
05/07/2020 03:44 PM	Economic Support Working Group	Reopening Kayla Pace	It's funny, my home state Ohio has more cases than we do, yet they are opening up salon and restaurants next Friday. Why are we not opening up? what is preventing it?
05/07/2020 03:44 PM	Continuity of State Operations (Emergency Services, Elections & Public Safety) Working Group	Rachel Mills	We need some kind of statute where the legislature automatically comes in for an emergency session if a state of emergency is called or if the governor suspends the constitution (in effect) for more than say 14 days. He did NOT have the concurrence of the council of state. Why did this proceed at all without that? And then we went nearly two months without any kind of oversight from the people's representatives. The governor basically ruled by decree for 2 months and that is NOT the American way. Maybe you think he did a great job and are a big fan of the governor. What about the next governor that you DON'T like? Is this a precedent you want in place for all future governors? I don't.
05/07/2020 03:49 PM	Continuity of State Operations (Emergency Services, Elections & Public Safety) Working Group	mrs chelsea le chatelier	why is it walmart can be trusted to practice social distancing but small businesses can't?
05/07/2020 03:54 PM	Education Working Group	mrs chelsea le chatelier	why does gov cooper ignore the ongoing protests from north carolinians who have lost their businesses and can't feed their families?
05/07/2020 03:55 PM	Education Working Group	Mrs Doreen Foxwell	I own a children business that services schools. Since the governor ordered the shut downs, I have been unable to get unemployment as the online system has glitches, the phone system is overloaded, and no one calls me back! No unemployment for two months now! Shame on you NC!
05/07/2020 03:56 PM	Continuity of State Operations (Emergency Services, Elections & Public Safety) Working Group	Nicole Conder	I respectfully demand our state to be FULLY reopened immediately. I also demand that our public school system fully reopen for ON CAMPUS learning for the 20/21 school year.
05/07/2020 04:02 PM	Continuity of State Operations (Emergency Services, Elections & Public Safety) Working Group	Julie Savage	Dear sir/Ma'am, We are a family of six. My husband is a veteran. 22 1/2 years of service to our country. He served as the Deputy State Surgeon of the N.C. National Guard. He has served N.C. and our country well and proudly. He is currently on unpaid furlough with his clinic where we works as a Physician Assistant. At what point can he go back to work? At what point are you going to allow "elective" surgeries. Are you waiting until the tracing system is up and running to continue to further our forced home imprisonments or will we get out on good behavior before hand? Unemployment has only filled 44% of their applications. We are part of the 56% that have not even been acknowledged. Would you please also explain to our 6 and 4 year old children why you are not allowing their daddy to work and why they are not even allowed to play at the park with their daddy while he is home 24/7 with us. Sincerely, Julie Savage

05/07/2020 04:05 PM	Continuity of State Operations (Emergency Services, Elections & Public Safety) Working Group	Mr. Michael Atwood	Please immediately lift state of emergency and investigate Roy Cooper and NCDHHS for misconduct and manipulation of the state of emergency declaration and failure to get agreement with the council of state, their actions have been proven to be based on false data and models and have caused irreparable damage to the people and economy of the state. This must be pursued with all means necessary. Also investigate local governments like Wake County who likewise did their own version of unconstitutional actions and violations of the public trust.
05/07/2020 04:06 PM	Economic Support Working Group	Frances Cheek	ReopenNC. It's contradictory that I can go to my dentist (talk about personal space!) and can't get a haircut from my hair dresser who is a single owner and operator with a private room and only 1 customer at a time. The restrictions are inconsistent and punitive for small businesses.
05/07/2020 04:22 PM	Economic Support Working Group	Ms Mary Kimbro	The governor should no longer have the right to shut-down a state for any reason. The Emergency Management office should not have responded to this crisis in any way, shape or form; it didn't fall under their jurisdiction. I demand an impeachment of governor Cooper immediately.
05/07/2020 04:24 PM	Continuity of State Operations (Emergency Services, Elections & Public Safety) Working Group	Mr. Ryan Lane	The state of N.C. is causing way too much damage to our citizens and our economy by this forced quarantine measure on all citizens. By its very definition, quarantine is for sick people. In the case of COVID-19 it makes sense for immune compromised people and the elderly to be cautious and wear a mask but for some reason you have all of us locked in our homes. Look to Sweden, Arkansas and other areas in the world as examples and relax this mandatory quarantine.
05/07/2020 04:57 PM	Economic Support Working Group	COVID RESPONSE Olivia Stritzinger	<p>We are being forced into an economic depression- at the hands of our own elected government. Suffocating the constituents who elected you to the point of closing their small businesses.</p> <p>You are not helping us at all- you are killing us. The outrageous continuation of restrictions on the state combined with the new senate bill 704 will not go unnoticed.</p> <p>We have the right to work, and do not have to beg the government to let us do so. The "data" does not justify any of this- and people are starting to notice. Do the right thing for the people who voted for you to represent them.</p> <p>You work for us, not the other way around! Push to reopen our state and give us our economy back!!!</p>
05/07/2020 04:59 PM	Economic Support Working Group	Mrs. Kaylie Halbrook	I am very concerned about the economic impact this shutdown is having. My greater concern is the fact that Governor Cooper circumvented North Carolina law to enact his stay at home order, and ignore the denial of consent from the Council of State for the restaurant closure order. I understand he claimed authority under another statute which did not require the consent of the Council of State; yet his order is exercising powers specifically named and delineated under the statute which requires him to receive consent. Somehow, this has not mattered in the order's enforcement. Why is there no avenue to complain about this? It is wrong, yet it is still in force. Are we under the rule of law, or do we serve at the governor's pleasure? I request some emendation to the laws that will prevent our state from ever falling under one-man rule again.

Date Submitted	Category	Name	Comments
			<p>Further, I ask that business and income taxes and fees be reduced or eliminated for this year. I ask for a full restructuring or repeals of our state's onerous occupational licensing and other burdensome regulations, such as the distribution caps on breweries. I ask for reduction or elimination in funding for unexplained earmarks. The budget will have to be characterized by great restraint given the coming shortfalls. Please spend the money wisely, on measures that increase economic activity, not dampen it. Please spend on the enumerated purposes of government, and not on pet projects.</p> <p>Thank you.</p>
05/07/2020 05:06 PM	Continuity of State Operations (Emergency Services, Elections & Public Safety) Working Group		We need to reopen the state. I applied for unemployment 7 weeks ago. Denied. Can't get through to anyone.
05/07/2020 05:07 PM	Continuity of State Operations (Emergency Services, Elections & Public Safety) Working Group	Ms Linda Coombs	We need to end this lockdown now there is no new normal only reinstatement of our constitutional rights, no forced mask and no changes to our voter laws. We are a free nation who can make our choices for our health on our own. Stop the government overreach!
05/07/2020 05:23 PM	Economic Support Working Group	Mr Matthew Myers	<p>My name is Matthew Myers, by now I'm sure you have heard of me. I was the one arrested in protest at my shop in Apex, NC. I want to address the fact that as I am essential to that business and am allowed to come and go from it, why no one see's fault in me being arrested for opening the door,,, like literally opening the door? Further more, I'd like to know in what realm of logical thinking does it make sense not to redirect funding or federal resources and support to the higher at risk of Covid-19? Why do 1,000,000 people have to be out of work when the solution involves antibodies from the infected? And lastly when do you plan to stand up for the constitutional rights of the constituents that elected you? This whole thing has felt like a test from God that we must pass and I refuse to believe that no one in this room has the intestinal fortitude to stand and speak out publicly on the matter! I plead to you today to make your stand before the damage is so great that it cannot be fixed.</p>
05/07/2020 05:27 PM	Economic Support Working Group	Mr. David Andersen	<p>No one wants to see anyone die, of course: every death is someone's mom or dad, someone's grandparent or child.</p> <p>The virus is potentially deadly for anyone who gets infected; definitely serious, and we should be taking precautions. It is definitely very serious for the elderly over 70, and especially those already suffering with co-morbidities.</p> <p>But it is no Ebola: it doesn't kill 40%, 50% of a population it hits. The number looks like it will be less than 1%. Again, no one wants to see anyone die of this virus, but is our response to it going to kill more people than the virus?</p> <p>What do I mean by that? In a deep recession, which we're already in, or worse, a depression, how many people die of suicide, drug overdoses, alcohol abuse? How many seniors lose their life savings, winding up destitute? How many people wind up homeless?</p>

Date Submitted	Category	Name	Comments
			<p>Hopeless? What about the increase in domestic violence; in crime overall? And if the results of this extended shutdown get as bad as many analysts predict—they're saying it could be the worst we've seen since the Great Depression—how many will starve to death, on the streets?</p> <p>Additionally, this state and its programs for the poor and disadvantaged depend upon tax revenues. With so few businesses operating, with over a million North Carolinians unemployed, tax revenue is way down. How can programs to feed the hungry continue to operate, even as the demand for them are increasing exponentially due to the governor's policies?</p> <p>This isn't a question of money vs. lives: it's lives vs. lives.</p> <p>Public policy, which is the job of our governor and of our legislators and of the members of this committee, is a horrible, terrible job and I'd never want to have it. The fact is, the job isn't to make the *best* decision: there is no The Best. The job is to look at all the possible paths forward—each of them involving some level of death and suffering—and to pick the least worst path.</p> <p>The least worst is the best we can ever do.</p> <p>As a nation, we can't afford monochromatic decision making; decisions based only on the most immediate, scariest threat. Yet in state after state, county and city after county and city, that is what we're seeing, exclusively: practically none of the elected officials—our employees—are contemplating, let alone explaining, the entirety of causes and effects that must be weighed.</p> <p>The best that can be done? Choosing the least worst.</p> <p>We need to see past the current threat, the most present fear, to see the longer term potential affects of these usurpations of basic human rights, of personal liberty and the freedom to work for a living.</p> <p>We now have the data, from Sweden, from widespread population testing of narrow groups (Santa Clara County; prison populations; a town in Massachusetts, etc.) that prove the initial models were far from what we're seeing in actual impact. We see that even in the hottest of hot spots, New York City, the hospital ship has left; the field hospitals have been dismantled; Jacob Javits was barely used. Many hospitals even within New York City are now operating below capacity. We are not in danger of widespread overwhelming of our hospitals. In fact, here in North Carolina, in almost every state in the country, hospitals are down to 70%, 60% even 50% of capacity, and health systems are being forced to lay off critical care clinicians.</p> <p>There is no basis in medical, scientific fact for continuing these draconian limits on our individual rights. There was no legal basis for them to have been put in place; and there is clear economic value in dropping them, lest we wind up in a downturn from which we cannot escape.</p>

Date Submitted	Category	Name	Comments
			<p>People need to eat. People need to work and feed their families. Businesses need the chance to try to claw back from the brink, now; before they join the hundreds that have already failed.</p> <p>Open this state back up.</p>

05/07/2020 07:18 PM	Health Care Working Group	Mrs Jennings Wright	<p>We must open our economy NOW! All of the current science and data show this to be minimal for anyone under 70 and not in institutional care. Meanwhile people are desperate - we cannot sacrifice millions of people for the thousands dying of COVID19 - the vast majority of whom were already ill.</p> <p>The people of NC can be trusted to be responsible for their own health AS WE HAVE ALWAYS BEEN. The vulnerable can be safeguarded. We must stop the hysteria and get people and small businesses like ours back to work.</p>
05/07/2020 07:26 PM	Economic Support Working Group	Mrs Anna Deitrich	Let's preserve our economic future and the futures of our children by reopening the state now. The COVID-19 numbers in our great state do not support the drastic, lengthy phases the governor has enacted for the people of North Carolina. Open NC now!
05/07/2020 07:29 PM	Health Care Working Group	Ms. Jennifer Houser	Please do not implement contact tracing - it is an invasion of privacy. Please do not mandate a coronavirus vaccine, especially given how unsafely & rapidly it is being developed.
05/07/2020 07:39 PM	Economic Support Working Group	Bobbi Krause	Yes to the right to work bill!
05/07/2020 07:52 PM	Economic Support Working Group	Mr Russell Scott	The government response to COVID-19 is a multifaceted criminal racket. North Carolina absolutely must be returned to constitutional law immediately. It cannot be stated strongly enough that anything less than a full return to constitutional law is illegal and immoral. 05/07/2020 08:09 PM	Education Working Group	Heather Scott	I have the right to move freely throughout the state and the country without permission from you. You don't have the right to take this freedom from me or my family. I have the right and responsibility to make decisions for my family and our healthcare. I did not attend a rally. I didn't protest. I did not consent to your unlawfully removing my right to freedom. I followed the rules because I believe I was caring for my family. I am appalled at the stripping of our rights and will do everything in my power to make sure we vote leaders into office that protect our freedom. You've ruined so many lives. You should have given business owners the opportunity to create solutions for their businesses (or not) and reaped the benefits or suffered the consequences.
05/07/2020 08:16 PM	Health Care Working Group	Brian Savage	Never in the history of our nation or any other have we isolated and quarantined the healthy. The sick and immunosuppressive should isolate themselves but the remainder of the population needs to get back to living. The longer we remain isolated the more depleted our immune system becomes due to decreased exposure. Our COVID deaths are sad but 502 deaths should not equate to over 500k unemployed. We are in a downward spiral that if we wait any longer we will be unable to ever recover. Follow the facts and science and release us to make our own decisions regarding our health.

05/07/2020 08:30 PM	Economic Support Working Group	Mrs Shirien Patel	Dear All Although I am sure my comments will fall on deaf ears and in an attempt to make this short and sweet: We the people demand that congress ensure life liberty freedom and the pursuit of happiness to all of its citizens. Government doesn't get to choose who lives, who dies, who works, who doesn't. Are we still in MERICA or what! Respectfully Shanaaz Eisenberg
05/07/2020 08:36 PM	Economic Support Working Group	Mr Rob Winger Jr	What makes one man a self appointed dictator? What has our Governor really done for his state? His plan is drawn out and vague at best. This is NOT about him controlling us anymore, it's about Mr. Cooper learning just who he works for. Open the state. Stop punishing Churches.
05/07/2020 08:41 PM	Economic Support Working Group	Stephen Black	The lockdown has already caused far more damage than the virus ever could have. We will be watching the aftermath grow more ugly and deadly for months, even if we open fully right now. Who is going to submit the accounting? Who is going to accept the responsibility? Who is going to pay the cost? Well, at least we know that We the People will shoulder that last burden. I want to see an honest, detailed summary of the anticipated job losses, business closures, and health impacts, along with an estimate of time to full recovery. We have no one to blame but ourselves and our elected representatives!
05/07/2020 09:01 PM	Economic Support Working Group	Mrs. Kaylie Halbrook	In addition to my previous comments, I would like to express my wholehearted support for SB 712. 05/07/2020 10:23 PM	Continuity of State Operations (Emergency Services, Elections & Public Safety) Working Group	Melody Chipley	The government response to COVID-19 is a multifaceted criminal racket. North Carolina absolutely must be returned to constitutional law immediately. It cannot be stated strongly enough that anything less than a full return to constitutional law is illegal and immoral. Restrictions to freedom will not be tolerated! Reopen NC, Reopen the US
05/07/2020 10:47 PM	Economic Support Working Group	Mr. Gerald Tripp, Jr.	The people of this state do not need a nanny government to step in and take control when these types of emergencies take place. The economic damage done to our communities, states, and country will take decades to fully recover and the next time there is an emergency like this, there will be nothing left for the government to do, they have no more money. We can not shut down again, there will be no money to do it. The people who agreed with the shutdown now will then question why we ever did it in the first place. You don't lock down the healthy in a pandemic. You lock down the sick. Once the projected medical numbers from this emergency started to show to be false, the tyrannical actions of this governor should have been halted. You always err on the side of liberty.
05/07/2020 11:24 PM	Continuity of State Operations (Emergency Services, Elections & Public Safety) Working Group	Mrs Bronwyn VanDerwerker	<ol style="list-style-type: none"> 1. Our state needs to be reopened fully. 2. This new Senate Bill 704 is very concerning on a few points. I am shocked at conservatives who let this pass! 3. Gov Cooper has continued to violate the constitution. Why has that been allowed? 4. Anyone arrested or cited for opening their business to support their family should be cleared. 5. Churches need to be opening immediately with their own restrictions and not have to bow to the state. 6. This whole social distancing thing is a joke. The big box stores are packed with people but it's not safe to go to church or to a friends hose? It's laughable! It's about control and it's wrong. 7. What is the general assembly doing to protect the people of NC from ruin due to unconstitutional measures?
05/08/2020 12:17 AM	Economic Support Working Group	John Poshepny	It is time to open up North Carolina much more aggressively then what Governor Cooper wants.
05/08/2020 01:47 AM	Continuity of State Operations (Emergency Services, Elections & Public Safety) Working Group	Mrs. Jeanette Galliher	The government response to COVID-19 is a multifaceted criminal racket and shameful beyond belief. North Carolina absolutely must be returned to constitutional law immediately. It cannot be stated strongly enough that anything less than a full return to constitutional law is illegal and immoral. With all the data, videos, and doctors coming out and speaking the truth, it will only be a matter of time until the deception will be revealed. My hope is that North Carolina will be on the right side of the fight and not be shown to be apart of the corruption that is ruining this fine country. Restrictions to freedom will not be tolerated! Reopen NC, Reopen the US!
05/08/2020 01:47 AM	Continuity of State Operations (Emergency Services, Elections & Public Safety) Working Group	Executive Order Lana Witt	Governor Cooper's Executive Order's gross overreach extending beyond April 29th without local representation of district, regional elected officials grieves me. Local officials know their local citizens, healthcare industry, commerce, physical, mental and spiritual capacity and strengths, ability to collaborate within solution driven mindset. May such dictator style techniques never visit our state again. Free thinking NCarolnians can care about one

	Public Safety) Working Group		Restrictions to freedom will not be tolerated! Reopen the state.
05/08/2020 08:40 AM	Economic Support Working Group	Pamela Overby	(You should explain what 'category' means and why it's even on this form.) If people are afraid, they should stay at home. How could it be more simple? Let the rest of us go on about our business. Cooper is denying his constituents the freedom to run their lives their own way, to earn a living, and to participate in normal, time-honored relationships that make people thrive, not just exist. As it is, Cooper has created an environment in which people wither away. He is a small-minded, petty monster, and he is a shame and embarrassment to this beautiful state. He has: separated dying loved ones from their families, prevented fathers from attending their children's birth, kept new parents from caring for their newly born infants in NICU, sicced his police officers on people legally assembling, called a time-honored right to protest a non-essential activity, stopped homeowners from buying shrubs and paints to beautify their homes during this forced lockdown, removed the ability to earn a living for hundreds of thousands, prevented everybody (except himself) from going to salons, closed our beautiful beaches and mountains. All this, and he keeps his salary. This is a travesty. OPEN THIS STATE NOW.
05/08/2020 08:44 AM	Economic Support Working Group	Reopen NC Kristina Solloway	NC needs to be reopen. There is enough scientific data to show we are ready. So many lives are being destroyed by prolonging business closures. Retirement funds for the elderly who have no other income are losing money. We have the right to work and take care of our families. Just as we have the right to stay home without it being mandated. ALL people are essential! Parents are essential to their families. ALL jobs are essential as people rely on them! "Feeling safe" is not reality. Pandering to fear is irresponsible, weak and controlling. Controlling the American people is tyranny, not liberty. Taking our choices away on how we live our lives is unconstitutional. Forcing Trump's successful booming economy to fail and blaming him for this mess in order to win an election in November is evil. Reopen NC!
05/08/2020 09:08 AM	Health Care Working Group	Microchip Ken Schultz	The directive in place by Governor Cooper without attaining concurrence of council is an unfairly administered and unnecessary action that hurts the economy of North Carolina and targets specific individuals and businesses. I request the committee move to make the order a suggestion rather than a requirement allowing all businesses to open and operate using their own discretion to adhere to recommendations.
05/08/2020 10:43 AM	Economic Support Working Group	A K	North Carolina has a tremendous opportunity to be pushed to the forefront with a strong and booming economy! If only, we will re open safely and as quickly as possible.
05/08/2020 11:11 AM	Economic Support Working Group	Charles Wright	<p>This shutdown is going to kill far more people over the next 5-10 years from suicide, depression, anxiety, heart attack, stroke, poor nutrition and poor health care - because being broke or bankrupt or unemployed is extremely unhealthy. The vast majority of working age people who contract Covid have little or no symptoms. I've never seen anyone bankrupt who had little or no symptoms. I've never seen anyone who had a dream business ruined who had little or no symptoms. I've never seen a suicide with little or no symptoms....ditto a heart attack, stroke, depression.</p> <p>In addition to the illegality of this lock down, it is idiotic and counter productive. Please don't ask me to take seriously the decisions of anyone who closes beaches and state parks while keeping liquor stores open. Don't even ask me to obey such insanity. Date Submitted	Category	Name	Comments
05/08/2020 11:14 AM	Continuity of State Operations (Emergency Services, Elections & Public Safety) Working Group	Karen Sisk	<p>seriously. Don't keep getting paid and pensioned and ask me to go broke. Its FKN absurd. Thank you.</p> <p>I'm not even sure why I'm bothering at this point. You are the same group that just made it possible for a 16 year old to be freed and receive no adult jail time if they commit a chapter 14 violation, but permit a 16 year old to be jailed in an adult facility if they commit a chapter 20 violation. Not sure what any of you are or aren't doing at this point.</p> <p>I've been told by several senators that there's "nothing" NCGA can do to provide relief under the Governor's order, so exactly what purpose do you serve? It's obvious that most of you are bowing to the wrong king. I find your lack of effort and absence during this entire unconstitutional stay-at-home order to be utterly appalling. Seems you have more of a vested interest in the Governor's illegal actions than you do the constituents who voted you in to office. There are exceptions, such as the ones you let slide in to the vacancy. Just what we needed on the NCGA. One one champion for criminals.</p> <p>I hear a lot of talk coming from you all, but I've yet to see action. The number of people you're hurting in the name of trying to accomplish government dependency is disgusting. This has never been about a virus. It's about control and it seems the majority of you are enjoying the power. I hope you sleep well at night because there are many who can't.</p> <p>There were 47,000 suicides in the US in 2017. I shudder to think what they'll be in 2020. Probably zero since they'll all be directly related to COVID. 2020. The year of perfect vision, but for most, they were blinded by fear and they couldn't see the forest or the trees.</p>
05/08/2020 11:23 AM	Health Care Working Group	Dr Sarah Sanchez	"North Carolina needs to take immediate steps to expand Medicaid in order to protect our residents from COVID-19. Closing the coverage gap right now will make sure that people who lose?jobs can still get affordable health coverage to stay healthy and?be ready to work again after the crisis is over.??I call on you to expand medicaid, today!"
05/08/2020 11:25 AM	Continuity of State Operations (Emergency Services, Elections & Public Safety) Working Group	Ms Allison Mahaley	"North Carolina needs to take immediate steps to expand Medicaid in order to protect our residents from COVID-19. 05/08/2020 11:36 AM	Health Care Working Group	Mrs. Nancy Moxley	work again after the crisis is ove It is essential workers have the essential services they need to do their jobs. .??I call on you to expand medicaid, today!
05/08/2020 11:43 AM	Economic Support Working Group	Betty Bass	North Carolina needs to expand medicaid coverage now! People who had coverage have lost it in the COVID-19 crisis. People who work still have not been able to qualify for medicaid and now need the coverage more than ever. There are federal dollars available for the coverage. Expand coverage today!
05/08/2020 01:06 PM	Economic Support Working Group	Mr Thomas Anderson	North Carolina needs to be reopened all the way. There will be more suicides, domestic violence, child abuse, drug usage, and more alcoholics than ever as well as breaking and entering to loot businesses and homes. Also, small businesses will not survive this shutdown any longer. PLEASE REOPEN NORTH CAROLINA FOR THE HEALTH AND SAFETY OF OUR CITIZENS!!!! THANK YOU!!!
05/08/2020 01:07 PM	Continuity of State Operations (Emergency Services, Elections & Public Safety) Working Group		It is clear that the Governor's Executive Order and the subsequent expansions of that order has visited irreparable damage on the economy of North Carolina in general and certain targeted small businesses in specific. It is also evident that the authority on which the Governor based his initial order, GS 116A-19.30 required concurrence of the Council of State which was not given. The Governor, of course, maintains that he has the authority to do what he has done under other section and provisions of the General Statutes. His authority and the validity of his order is therefore, at best, in question. The authority granted under GS 166A -19.30 was never intended for such a long term event as this shut down but was clearly for response to natural disasters such as hurricanes and/or the flooding that accompanies them. No Governor regardless of party or any other single individual should ever again have the power to shut down private businesses without the express vote of the General Assembly . GS 166A-19.30 ,and such other sections and provisions of the General Statutes of North Carolina as may be necessary, must be amended to prevent the level of power currently granted to the Governor by current Statutes from continuing in force. Additionally, the General Statutes must also be amended to prohibit the citizens of North Carolina from being fined and imprisoned for trying to keep their businesses operation and providing the livelihoods that they provide.
05/08/2020 01:12 PM	Health Care Working Group	Mr Michael Beech	Reopen the state!!!! No restrictions!!!!
05/08/2020 01:19 PM	Continuity of State Operations (Emergency Services, Elections & Public Safety) Working Group	Mrs Lisa Kammerdiener	NC must expand Medicaid under the ACA to begin to assure that every citizen has access to healthcare. 05/08/2020 01:50 PM	Continuity of State Operations (Emergency	Sharon Cece	No business should have been closed. The stay at home order should have never been put in place. Cowering over 1 virus is ludicrous. If that's the case, people would stay inside during flu season. Diseases and viruses have been around since the beginning of time. People cannot build immunity staying inside. Yes people will get sick and some will die, just like other diseases and viruses. Open the State of North Carolina back up 100%
			The purpose of this lockdown was to slow the spread (not eliminate) the virus and put in place surge capacity for the health care system. Both of these goals have been achieved.

Date Submitted	Category	Name	Comments
	Services, Elections & Public Safety) Working Group		<p>The purpose was never to eradicate new cases, and any attempt to move the goalposts in that direction should be rejected. Many of these ultra-strict directives have absolutely nothing to do with flattening the curve at this point.</p> <p>Recent data, some collected from the CDC, John Hopkins, and NCDHHS, as well as a number of independent studies, shows that we can reopen right away. Those who are immune-compromised or high risk should continue to self-isolate. We can implement common sense measures that will get us back to work and still shelter our vulnerable. Shutting down the state and the country has never been the answer before. It didn't happen with influenza, H1N1, or the Swine flu in any year prior. As a data analyst, I can provide an enormous amount, including one to show that in 2018-19, more sadly passed away from the flu than CV19, with the exception of NY, who is now including "untested" in their totals, making the data spurious.</p> <p>There is another very important clarification that should be considered regarding this topic. There is a direct relationship between the state of our economy and lives lost. All the predictive models (particularly that of Epidemiologist Neil Ferguson, who created the highly-cited Imperial College London coronavirus model used to base the shutdown on) not only were erroneous, they were looking at a single vector: the spread of, and deaths associated with, the virus. None of these models have accounted for deaths caused by an economic shutdown (severe blood shortages, increased suicide, increased domestic violence, elimination of the early detection of cancer and other diseases...added to destroyed business, hungry families who do not have the luxury of working from home, increased depression) and many more. Going forward, starting today, NC needs to consider these deaths along with overwhelming destruction caused by the economic shutdown.</p>
05/08/2020 02:05 PM	Continuity of State Operations (Emergency Services, Elections & Public Safety) Working Group	Ms. Laura Sealey	The people of NC are growing weary of being held hostage and having our constitutional freedoms taken away/ and or infringed upon. I moved to NC 20 years ago to be in a place that shared my values and valued my opinions. This place has changed for the worse. I am appalled by Governor Cooper and his over reach. Other officials seem like nothing more then power hungry tyrants. People need to work, we need to resume our lives, and we don't need nor do we want a nanny state. November is fast approaching, we are watching. Are you listening?
05/08/2020 04:01 PM	Continuity of State Operations (Emergency Services, Elections & Public Safety) Working Group	JENNIFER ACEVEDO	IT'S TIME TO OPEN UP NC. It is against our Constitutional rights to remain closed.
05/08/2020 06:16 PM	Continuity of State Operations (Emergency Services, Elections & Public Safety) Working Group	Ms Carol Miglionico	Reopen NC
05/08/2020 09:23 PM	Economic Support Working Group	Karen Senecal	NC needs to OPEN. Not phased. Not restricted. People are losing businesses and losing their minds, literally. School canceled, sports canceled. No outlets just FEAR. NC does

Date Submitted	Category	Name	Comments
			not have the kind of numbers NY did. Our hospitals are not over flowing. North Carolinian's are turning on each other because of the fear. STOP the madness. calm the fears. let people get back to living. illness will come. flu will come. Are you going to allow the state to go on lock down every flu season?? We are borderline communist at this point. that is NOT who we are!! Please. give us our lives back
05/08/2020 10:47 PM	Economic Support Working Group	Jackie Coley	Reopen NC, abate all penalties against people who violated an UNCONSTITUTIONAL executive order. As representatives you need to make damn sure this closure can never happen again. Americans have a right to live and a right to die. Safety is and has always been the responsibility of individuals. Government could have passed employee protections such that high risk employees could be given accommodations such as work from home without risking losing their job. OR some other type of job protection during the next several months. Instead of CREATIVE SOLUTIONS, our Representatives allowed Dictator Cooper to suspend all freedoms. Cooper and Cohen should both be in jail and ordered to pay restitution to the MILLIONS of North Carolinians that have lost their right to earn an honest days pay.
05/09/2020 11:02 AM	Education Working Group	Mrs. Christie Chadwick	It's mind-boggling that daycare is open, but public schools aren't. One, we have to pay for out of our pockets, and the other we pay for with our taxes - regardless if we use it or not.
05/09/2020 11:08 AM	Health Care Working Group	Mrs. Christie Chadwick	We carry viruses, bacteria and other pathogens with us all the time. We are asymptomatic to dozens of pathogens. Please listen to the doctors who are actually working with patients. Not the ones in their ivory towers who hasn't seen a patient in 30 years. And how about we EDUCATE the people on steps they can take to improve their health WITHOUT medication? We do NOT need a vaccine for a virus that has a 99% RECOVERY rate.
05/09/2020 11:10 AM	Economic Support Working Group	Mrs. Christie Chadwick	Take actual notice how this virus is working. Quarantine the SICK. Allow the high-risk to stay home. And let the healthy earn their money. We carry viruses, bacteria and other pathogens with us all the time. We are asymptomatic to dozens of pathogens. Please listen to the doctors who are actually working with patients. Not the ones in their ivory towers who hasn't seen a patient in 30 years. We don't need masks. We don't need more testing. We don't need a vaccine. We need to get back to work.
05/09/2020 11:18 AM	Economic Support Working Group	Betty Bass	It is really sad that you can't even find frozen vegetables or frozen meals at the Walmart Super store here. Not to mention fresh meats. Also prices are going up and up. With people not working it will be a depression. Not to mention more suicides, domestic violence, and child abuse etc.
05/09/2020 11:38 AM	Economic Support Working Group		Please immediately end the shutdown! Immediately allow churches to resume in buildings! Do not allow tracers!
05/09/2020 12:05 PM	Economic Support Working Group	Compensatory assistance Shane Nantz	Due to the inability of Civil Service Boards/ Commissions and other Disciplinary and Trial Boards being unable to meet due to COVID-19 the ability for workers to return to work, receive back pay or receive a hearing to determine innocence has been stopped and in effect the right to a speedy trial. A provision should be incorporated into a recovery bill that allows the one time pardon of disciplinary matters that do not involve a crime or the abuse of any paid leave policy by the City or County Executive and City Councils/County Commissions. This provision would only be for workers that are essential workers and whose pardon would restore them to full paid status in the interest of public safety and health.
05/09/2020 12:24 PM	Economic Support		I originally found reference to this committee in a post on Facebook, and so here's my

Date Submitted	Category	Name	Comments
	Working Group		<p>opinion on various items which may also cross over multiple work groups. Let me start by referencing the fact that even before Gov. Cooper's reopening plan went into effect on Friday 5/8 a poll that had been running on Facebook where the results were going to Speaker of the House Tim Moore showed that 41% of North Carolinians wanted a reopen with no restrictions. I work in healthcare in a medical records department and am required to wear one of those single ply cotton surgical masks and ended up getting facial scratches and scrapes because of the way that it is worn if you make it form fitting around the nose the one part will start to indirectly without actually coming out of the fabric can actually cause injuries in the first day and continue disintegrating each day after. There are multiple cases in court regarding not being allowed to work or Article I section 13 issues relating to only allowing drive thru/in services at least in phase 1, all of this caused the NC Sheriffs Association to come up with a resolution on the subject especially with the potential of federal charges related to Civil Rights violations(see Washington Times article related to William Barr orders...). Anyway there is a bill in the Senate's Ways and Operations Committee https://webservices.ncleg.gov/ViewBillDocument/2019/7084/0/DRS35378-MM-122B regarding right to work but just like in Congress being in a legislative Committee tends to mean that it is there to die. In employment even though statements like this https://thehill.com/changing-america/well-being/prevention-cures/491725-who-no-evidence-wearing-a-mask-can-protect or www.Medpagetoday.com article entitled study: masks fail to filter virus in coughing COVID-19 patients you risk your job by some form of termination by not providing legitimate MEDICAL reason for not wearing a mask so if you claim wrongful termination or HIPAA protection there is nothing that you can do about it because like most of the US NC is a "willful employment" state so that there is no recourse. The plan in NC is similar to what POTUS Trump had in place but just like what he did with his reopen plan was to provide the keys to the kingdom to the states as described in the 10th and 11th Amendments of the US Constitution even though this https://www.washingtonexaminer.com/news/dershowitz-trump-has-ultimate-authority-to-eliminate-stay-at-home-orders?fbclid=IwAR2-GixUiSxsMsi0KL1KoOwnSUGbL05Lz_JrQOnqn_S5D0bxjcUijvMpKnE says that POTUS Trump could have cancelled them in their entirety. A case out of Pennsylvania was sent to the SCOTUS by conservative groups and small business owners in order to prevent the Pennsylvania phase plan from taking effect due to being unconstitutional and the court said no without comment even though the request was for a review. Here in NC one could say that under: Article I Sections 6,7 and 12-14, parts of NCGS 166A, and Medicaid Law https://medicaidlawnc.com/ the entire stay at home order plan(or at least some of them) and parts of the reopen plan were unconstitutional under the NC Constitution and other laws. Like many with disability issues I also deal a great deal with my own routines and even having LTVS meetings I am having issues with some situations because I am at least three months past the required deadline for updated testing for Long Term services outside of work because no form of referral has been accepted so work not only for the non-disabled but disabled has its problems due to the current situation. Still being a couple of weeks away from even talking about a state budget(hopefully avoiding a second fiscal year without one), causes issues in the workplace all around and with violations of medicaid law in place a review of that along with the medical advice by "Dr." Cohen during this time since March. So a way to allow North Carolinians to work: without restrictions, and risk of jobs due to personal decisions including under https://www.hhs.gov/hipaa/for-professionals/privacy/laws-regulations/index.html, etc. along with allowing Religious</p>

Date Submitted	Category	Name	Comments
			entities of all kinds including churches to meet without restrictions is needed in any form.
05/10/2020 12:00 PM	Economic Support Working Group	Dr. Abir mandal	I am done with the bullshit promoted by this so called governor of ours. He needs to be sued and thrown in prison for the damage he has caused our economy. Any democrats in the legislature should be ashamed of following this charlatan partisan hack to ruin our state. Reopen our bloody economy yesterday, no exceptions. Seriously, what is wrong with you that you ignore the data in front of us and instead rely on the nonsense spouted by the idiot Mandy Cohen, who is not even fit to administer a public toilet let alone public policy?
05/11/2020 10:12 AM	Economic Support Working Group		We have more people out of work in NC than many of the places that major outbreaks of the virus! Florida has a very large retiree population and were able to protect the vulnerable and move on. We need to do the same!
05/11/2020 01:26 PM	Continuity of State Operations (Emergency Services, Elections & Public Safety) Working Group	Mrs Ruth Watson	Why can't the counties that don't have any deaths and low number of cases of the virus open up with social distancing? Why aren't we hearing from our representatives about trying to get the governor to open up the counties that are not having problems with the virus? We need to know if anything is being done to work towards the problem.
