MEMORANDUM

TO: Members of the General Assembly

FROM: Terrence D. Sullivan
Director of Research

RE: Non-Revenue and Non-Appropriations Bills Crossover List

House Rule 31.1 (d) requires that, in order to be eligible for consideration in the rest of this year's Regular Session in the House, any Senate bill or resolution must have been received from the Senate and read on the floor of the House by June 2, 2005. The following legislation is excepted from this House crossover deadline:

1. an adjournment resolution; or
2. a measure that:
 - o must be referred to the appropriations or finance committee;
 - o would establish districts for Congress or State or local entities (see Rule 31.1(e)), or
 - o would ratify amendments to the U.S. Constitution (see Rule 31.1(e)).

Senate Rule 41 requires that, in order to be eligible for consideration in the Senate in the rest of this year's and next year's regular sessions, any House bill or resolution other than a measure that must be referred to the appropriations or finance committees OR an adjournment resolution must have been received from the House and read on the floor of the Senate by June 2, 2005.

A bill or resolution that passed one chamber by June 2, 2005 and is being engrossed complies with the crossover rule if a message to that effect is received in the receiving chamber by the next legislative day.

Attached is a copy of a list, prepared by the Legislative Information Systems Division, containing those measures that by June 2, 2005 have passed one chamber and have been received by or ordered sent to the other chamber.

Appropriations and revenue measures, exempt from the crossover deadline, are not included in the attached list unless that measure has passed from one chamber to the other by June 2, 2005. Individual analysis of the particular measure not "crossing over" is necessary to determine whether it is subject to the crossover deadline.
