Ms. Janet Pruitt
Senate Principal Clerk
North Carolina Senate

September 11, 2007

I am filing my protest to House Bill 4 in the special session due to the fact that debate was deliberately cut short by the majority leader. I protest the bill for the following reason and state that the actions today are injurious to the economic well being of the state.

Article 5. Section 9

The bill would allow refinancing of projects by corporations. This expressly stated in the Section that NC will not refinance a project that is already underway. The plant in Wilson, NC has already begun the process and would be entitled to the benefits in the bill.

Sec. 9. Capital projects for industry

*Notwithstanding any other provision of this Constitution, the General Assembly may enact general laws to authorize counties to create authorities to issue revenue bonds to finance, **but not to refinance, the cost of capital projects consisting of industrial, manufacturing and pollution control facilities for industry and pollution control facilities for public utilities, and to refund such bonds.***

In no event shall such revenue bonds be secured by or payable from any public moneys whatsoever, but such revenue bonds shall be secured by and payable only from revenues or property derived from private parties. All such capital projects and all transactions therefore shall be subject to taxation to the extent such projects and transactions would be subject to taxation if no public body were involved therewith; provided, however, that the General Assembly may provide that the interest on such revenue bonds shall be exempt from income taxes within the State.

The power of eminent domain shall not be exercised to provide any property for any such capital project.
