House Appropriations Committee Meeting
Thursday, October 18, 2001
8:30 AM
643 LOB

House Appropriations Co-Chair Representative Gregg Thompson called the Appropriations Committee meeting to order at 9 am for the purposes of considering **S 968, UNC Nonappropriated Capital Projects**. He recognized the House Pages in attendance.

The presiding Co-Chair Representative Thompson recognized Co-Chair Representative Redwine to explain the bill. Representative Redwine moved to adopt the proposed committee substitute for the purpose of discussion. The motion passed by a voice vote.

Representative Redwine then explained that Senator Kerr could not be in attendance and had asked the he explain the bill. Therefore, Representative Redwine stated that the bill before the committee authorizes the financing of projects with funds from gifts, grants, self-liquidating indebtedness, or any combination and that there is no cost or does any money come from the general fund. He further informed the committee that the proposed committee substitute differed from the Senate passed and Finance Committee version. He referred the committee to page 1 line 22 item 2 and stated this construction was not in the Senate bill and is in the house proposed committee substitute for consideration.

Representative Redwine also pointed out that Section 5, with respect to two capital projects at North Carolina State University will be done by a lease arrangement to and from nonprofit corporations.

The list of projects received from the Board of Governors was discussed with University System and list before you are what came from that meeting and that's why the amount is diff from the Board of Governors.

On page 3, Section 4 notice that the bill provides $6,300,000 for related additional cost to help with operating cost associated with issuance expenses.

When asked, Representative Redwine stated overhead receipts are not being used to fund any projects.

A motion by Representative Tucker to favorably report the House committee substitute bill, unfavorable as to the Senate committee substitute bill passed by voice vote. Representative Thompson adjourned the meeting at 10:15 am.

HB. 969, Air Quality/Motor Vehicle Inspection Fees Rep. Hackney

Minutes
House Appropriations Committee Meeting

643 LOB

House Appropriations Co-Chair Representative David Redwine called the Appropriations Committee meeting to order for the purposes of considering HB. 969, Air Quality/Motor Vehicle Inspection Fees. He recognized the House Pages in attendance.

The Co-Chair recognized the bill sponsor, Representative Hackney to explain the bill and stated that Co-Chair Representative Easterling moved to adopt the proposed committee substitute for the purpose of discussion. The motion passed by a voice vote. Representative Hackney explained that the bill would make modifications to the motor vehicle safety and emissions inspection program as listed in the Bill Analysis (attached).

Rep. Nesbitt was recognized to request further explanation of the safety and emissions inspection checklist. Ruth Sappie with the Department of Transportation was recognized and stated the the emissions program in the last four years had improved greatly, disagreeing with the statement previously by Rep. Nesbitt that the program was in a mess.

A verbal amendment by Rep. Hensley, explained by Research Division staffer George Givens, eliminating emissions requirements on cars older than 25 years passed by voice vote. Representative Tucker moved to favorably report the committee substitute as amended by Rep. Hensley. By a recorded vote, requested by Rep. Daughtry, of 41 to 27, the motion passed and the meeting was adjourned.

Respectfully,

Representative Ruth Easterling

Representative David Redwine

Representative Warren Oldham

Representative Gregg Thompson

Rita Harris, Committee Asst.

The schedule categorizes safety violations into serious (Type I), minor (Type II), and technical (Type III) violations. A serious violation is a violation of this Part or a rule adopted to implement this Part that directly affects the safety or emissions reduction benefits of the safety inspection program. A minor violation is a violation of this Part or a rule adopted to implement this Part that reflects negligence or carelessness in conducting a safety inspection or complying with the safety inspection requirements but does not directly affect the safety benefits or emission reduction benefits of the safety inspection program. A technical violation is a violation that is not a serious violation, a minor violation, or another type of offense under this Part.

(b) Penalty Schedule. – The Division must take the following action for a violation:

(1) Type I. – For a first or second Type I violation within three years by a safety self-inspector or a safety inspection station, assess a civil penalty of two hundred fifty dollars ($250.00) and suspend the license of the business for six months. For a third or subsequent Type I violation within three years by a safety self-inspector or a safety inspection station, assess a civil penalty of one thousand dollars ($1,000) and revoke the license of the business for two years. For a first or second Type I violation within seven years by a safety inspection mechanic, assess a civil penalty of one hundred dollars ($100.00) and suspend the mechanic's license for six months. HOUSE BILL 969:
Air Quality/Motor Vehicle Inspection Fees.

BILL ANALYSIS

Committee:	House Appropriations	**Introduced by:**	Representative Hackney
Date:	May 29, 2001	**Summary by:**	George Givens, Staff Attorney
Version:	PCS for Second Edition H969*-PCS7240-RT-41		Tim Dodge, Research Assistant

SUMMARY: ***The proposed committee substitute for House Bill 969 would make the following substantive changes to the motor vehicle safety and emissions inspection program:***

- ***Create the nonreverting Telecommunication Account within the Highway Fund to provide equipment and telecommunications services associated with the vehicle emissions inspection program;***
- ***Establish a three-step fee adjustment for the motor vehicle safety and emissions inspection program to accommodate for program expansion and to adjust return to inspection stations;***
- ***Exempt certain motor homes, house cars, classic vehicles, or low-mileage vehicles from emissions inspection requirements;***
- ***Require a vehicle transferred from a non-emissions county to an emissions county to be inspected within sixty (60) days of transfer of the registration;***
- ***Establish a system of civil penalties for violations committed by persons and stations licensed to perform safety inspections or replace windshields;***
- ***Identify additional actions committed in violation of inspection requirements as penalties, infractions, or felonies; and***
- ***Authorize the Environmental Management Commission (EMC) and the Division of Motor Vehicles (DMV) of the Department of Transportation to adopt temporary rules to implement the provisions of the act.***

BACKGROUND: According to the United States Environmental Protection Agency (EPA), mobile sources of emissions (cars, trucks, etc.) collectively are the single greatest contributor in this country to carbon monoxide pollution and to ground-level ozone, the major component of smog.[1] In typical urban areas, vehicles contribute between 35 and 70 percent of ozone-forming emissions and 90 percent or more of carbon monoxide emissions.

The Ambient Air Quality Act of 1999[2] contained a number of provisions designed to improve air quality in the State, including the expansion of the motor vehicle inspections and maintenance (I/M) program from nine (9) to forty-eight (48) counties. The expansion counties are identified in Table I below:

S.L. 2000-134 further modified the I/M program by authorizing the use of on-board diagnostic (OBD) systems in place of other testing requirements. The fees charged for emissions and safety inspections have not been adjusted since they were established in 1993.

BILL ANALYSIS: House Bill 969 would make the following modifications the I/M program:

Create Telecommunications Account *(Section 1):* Currently, stations performing an emissions inspection are required to maintain a dedicated phone line to contact the DMV in order to comply with the DMV registration denial program.[3] The DMV has paid these telecommunications costs to the telecommunications provider with funds allocated for this purpose from the federal Congestion Mitigation and Air Quality (CMAQ) program, but these funds are no longer available. The bill proposes to create the Telecommunications Account as a nonreverting account within the Highway Fund. A portion of the increase in the sticker fee described below would be dedicated to covering these telecommunications costs. The funds would also be used to provide the equipment necessary to perform OBD emissions inspections to current stations and to all expansion stations.

Increase Fees *(Section 2):*

The fee charged for a vehicle inspection consists of two portions: (1) a station fee, which is paid to the station performing the inspection, and (2) a sticker fee, which is allocated among various funds and the State agencies charged with administering the program. The station fees have not been adjusted since 1993.[4] The PCS for House Bill 969 proposes to establish a maximum fee that an inspection station may charge, rather than a flat amount for the station fee. This modification would allow stations to charge any amount *up to the maximum* allowed for the station portion of the fee. The station fee for an emissions inspection would increase from the current flat rate of $17.00 to a maximum cap of $27.70, effective October 1, 2001. The station fee for a safety inspection would increase from the current flat rate of $8.25 to a maximum cap of $13.40, effective October 1, 2001. Table II (page 6) provides a breakdown of the proposed fee changes for the emissions inspection program and Table III (page 6) describes the changes in the safety inspection fee proposed in the bill.

[3] G.S. 20-183.8A.
[4] S.L. 1993-385.

The sticker fee would be adjusted in three steps. The first fee increase would take effect the on the first day of the month that follows by more than 15 days the month in which the act becomes law. The fee increase of $1.75 for emissions inspections would be directed to the Telecommunications Account to cover the costs associated with the DMV registration denial program. The fee increase would also cover the costs of providing the telecommunications equipment necessary for inspection stations to communicate electronically with the DMV and to perform OBD emissions inspections once the program is developed and implemented.

The second increase in the sticker fee would occur in conjunction with the expansion of the emissions program and the transition to the OBD inspection method. The portion of the emissions program sticker fee dedicated to the Emissions Program Account would increase from $1.80 to $3.05, and the portion directed to the Division of Air Quality (DAQ) would increase from $0.35 to $0.65, effective October 1, 2001. In addition, the portion of the sticker fee (from both emissions inspections and safety inspections) designated to the Volunteer Rescue / EMS Fund and the Rescue Squad Workers' Relief Fund would increase by 3 cents and 2 cents per inspection, respectively.

In addition to changing fees, the PCS for House Bill 969 directs the DMV to develop signage for display in inspection stations that provides information on the I/M program and the distribution of the inspection fee.

(Section 3) The third change in the sticker fees would occur on January 1, 2003, and would include the application of the telecommunications fee ($1.75) to also include safety inspections.

The sticker fee would also be adjusted at this time to normalize the revenue flow to the Highway fund from the inspection program. Currently the Highway fund receives $0.75 from the sticker fee for each safety inspection conducted in North Carolina, but the emissions inspection fee does not disburse any portion of the fee to the Highway fund. As the emission program expands, the number of vehicles receiving safety only inspections would decrease, while the number receiving emissions inspections would increase. This would result in a decrease in the funds designated to the Highway fund each year. To stabilize the revenue stream to the Highway fund, House Bill 969 would charge a standard fee of $0.55 for both safety and emissions inspections. This would result in a decrease of $0.20 per safety inspection, and an increase of $0.55 per I/M inspection.

Exempt classic cars and low-mileage vehicles*(Section 3.1):*

Currently, 1975 or later model motor vehicles are exempted from emissions inspection requirements. The PCS for House Bill 969 would expand the exemption to include the following vehicle classifications:

- A motor vehicle more than 25 model years old and insured as a classic car under a stated value contract of insurance for physical damage.
- A motor vehicle that has been driven less than 2,500 mules since the last vehicle inspection.

To qualify for the exemption, the vehicle owner or operator must present to the inspection mechanic the current registration certificate and evidence of insurance, or present a copy of the previous inspection receipt for comparison with the vehicle's current odometer reading (Effective October 1, 2001).

Exempt motor homes *(Section 4):*

Current law requires motor homes or house cars, as defined in G.S. 20-4.01(27)d2, to comply with the emissions inspection program as required in their county of registration. House bill 969 would exempt a vehicle under this definition from emissions inspection requirements, providing that the vehicle:

- Is not part of a fleet;
- Is built on a single chassis;
- Has a gross vehicle weight of more than 10,000 pounds; and
- Is designed primarily for recreational use.

(Effective on the first day of the month that follows by more than 15 days the month in which the act becomes law).

Require inspection of transferred vehicles *(Section 5):*

Under current law, vehicles transferred to North Carolina from another State are required to comply with the inspection requirements required in their county of registration within 60 days. Vehicles transferred within North Carolina from a non-emissions county to an emissions county are not required to have an emissions inspection conducted on the car until the registration is renewed in the new county.

House Bill 969 would require vehicles transferring their registration from a non-emissions county to an emissions county to have a passing emissions inspection performed on the vehicle within sixty days of transfer of the registration (Effective October 1, 2001).

Establish and amend violations and penalty schedules for inspection programs *(Sections 6 to 11):*

Section 6 would establish a schedule of punitive actions for stations and inspectors who violate the *safety* inspection requirements similar to those applying to violations committed by *emissions* inspectors and *emissions* inspection stations under G.S. 20-183.8B (Effective October 1, 2001).

Section 7 establishes that a person found responsible for altering the configuration of the data link connectors on a vehicle in such a way that the OBD inspection method cannot be accurately performed is guilty of an infraction and is liable for a penalty up to $50.00. Section 7 would also find that a person who unlawfully fails a vehicle or a person who solicits or accepts anything of value in exchange for unlawfully passing a vehicle is guilty of a Class I felony (Effective January 1, 2002).

Section 8 would establish that windshield replacement stations or stations performing windshield replacements that cannot account for all the inspection stickers they are issued would result in a civil penalty of $25.00 for each missing sticker (Effective October 1, 2001).

Section 9 would establish that a person who uses the data provided by the OBD equipment of a vehicle other than the one being inspected to achieve a passing result is guilty of a Type I civil violation and is liable for a penalty of $250.00 for the first violation (Effective October 1, 2001).

Section 10 would hold *safety* inspectors that do not perform a full visual inspection of *emissions* control devices as required during all inspections would be subject to a Type II civil violation and a penalty of $100.00 for the first violation (Effective October 1, 2001).

Section 11 would allow the DMV to serve a notice of violation committed by an inspection station, an inspector, or a person engaged in replacing windshields by delivering the notice, statement, or order to the station or place of business where the person is employed (Effective October 1, 2001).

Field Tests of OBD Inspection Method *(Section 12):*

The bill would authorize the DMV and DAQ, prior to the implementation of the OBD inspection method, to perform field tests of the equipment, computer software, and procedures used in connection with the OBD program. Inspection stations would participate in the field trials on a voluntary basis. The field tests would be conducted during the six-month period immediately prior to the implementation of the OBD-based emissions testing in any county (Effective January 1, 2002).

Development of Rules *(Section 13):*

House Bill 969 would also authorize the EMC and DMV to adopt temporary rules to implement the provisions of the act. This authority would become effective when the act becomes law, and would continue in effect until all rules necessary to implement the act were effective as either temporary or permanent rules (Effective when the act becomes law).

Study Emissions Inspection and Maintenance Program *(Section 14):*

Lastly, the PCS for House Bill 969 directs the Environmental Review Commission (ERC) to review the I/M program to determine ways in which the cost of the program to vehicle owners could be reduced, including the option of requiring biennial inspections rather than annual inspections. The ERC is directed to report its findings to the 2003 General Assembly (Effective when the act becomes law).

PRINCIPAL DEPARTMENT(S) & PROGRAM(S) AFFECTED: Department of Environment and Natural Resources, Division of Air Quality; Department of Transportation, Division of Motor Vehicles (DMV); Department of Insurance, Highway Fund.

EFFECTIVE DATE: Sections 1 and 4 on the first day of the month that follows by more than 15 days the month in which this act becomes law. Sections 2,5,6,8,10,11 on October 1, 2001. Sections 7,9,12 on January 1, 2002. Section 3 on January 1, 2003. Sections 13,14 when the bill becomes law.

BILL SUMMARY: Provides for the implementation of the Ambient Air Quality Improvement Act of 1999, as amended by SL 2000-134. The bill creates a telecommunications fee of $1.75 and increases the "safety only" inspection and sticker fee from $9.25 currently to $14.45 on October 1, 2001 and to $16.00 on January 1, 2003 and the "emissions and safety" fee from $19.40 currently to $33.45 on October 1, 2001 and $34.00 on January 1, 2003. **(See page 4, Table 2 for details on these fee changes.)** Adds two new sections establishing a civil penalty schedule for violations of the emissions and safety inspection statutes.

ASSUMPTIONS AND METHODOLOGY:

Background: Currently, a "safety-only" inspection is required in 91 counties and an "emissions and safety" inspection is required in nine counties. In 1999, the General Assembly expanded the Motor Vehicles Emissions Inspection and Maintenance Program (I&M) from the current nine participating counties to an additional 39 counties to be phased in over a three-year schedule beginning in July 2003. At the same time, the General Assembly changed the type of test required for emissions inspections from the tailpipe test to an on-board diagnostic (OBD) test beginning in July 2002. This newer test can only be performed on cars manufactured from 1996 on that are equipped with the OBD technology. During the expansion to the additional counties and transition to the new OBD test, the idle test will be retained in the original nine counties only and will be ended on December 31, 2005.

The following chart lists all the counties and the date they are required to participate in the I&M program.

* Fee increase goes into effect on October 1, 2001

Revenue Impact: The increased revenues resulting from this bill are the result of the increase in the number of vehicles inspected as the program expands from nine to 48 counties and the increase in fees that the Division of Air Quality (DAQ) and the Division of Motor Vehicles (DMV) receive to develop the infrastructure for that expansion. The estimates shown on page 1 for DMV indicate significant negative cash balances in Fiscal Years 2003-04, 2004-05, and 2005-06. These negative cash balances could essentially be eliminated by raising the amount that DMV receives from $3.05 in the bill to $3.20. This would leave a negative cash balance in only one year, FY 2004-05, of $602,786. This change would give the General Assembly time to adjust the program and/or the fee based on actual experience.

Forecasting the number of vehicles inspected and the resulting revenues is complex. In the 39 expansion counties only 1996 and newer vehicles will be tested for emissions, while in the nine current emission counties all vehicles from 1975 will be tested (1975-1995 vehicles with the current tail-pipe test and 1996 and newer with the new OBD test) through the end of the year 2005. At that time the tail-pipe test will be ended in the nine original emission counties and only OBD testing will be used and only 1996 and newer vehicles will be tested. Also, as the number of emissions inspections increases through expansion, the number of safety-only inspections will decrease. The forecast of the number of vehicles by year and category was developed with input from DAQ, DMV, and the Fiscal Research Division and is shown in Table 1.

Division of Air Quality: The Division of Air Quality's (DAQ) primary role in the Motor Vehicles Emissions Inspection and Maintenance Program (I&M) includes developing emissions inspection equipment/analyzer specifications, certifying new and modified analyzers, troubleshooting reported hardware and software problems, answering public inquiries about inspections, and auditing the program to determine its effectiveness. (Note: EPA regulations require that the program auditor, DMV, be audited by an outside entity, a role that DAQ fills.) Currently, the Division of Air Quality receives $0.35 from each emissions and safety inspection sticker issued in the nine participating counties. The revenue generated from the inspection sticker fee supports eleven positions and three outside contracts related to mobile source air pollution.

As the program grows from 9 counties to 48, the number of cars being inspected is estimated to increase from approximately 2 million to 4.5 million cars. The number of inspection stations, inspectors and analyzers will grow proportionally. To assist with the expansion of the motor vehicle emissions program, this bill increases DAQ's portion of the sticker fee to $0.65, an eighty-five percent increase. This increase will support the addition of 7 new positions to be phased in as the program expands. The fee increase will also support a

number of time limited contracts including: 1) a public outreach campaign to raise awareness about the relationship between air pollution, vehicles' emissions and the new OBD technology, 2) car care clinics to familiarize car owners with the OBD technology prior to the implementation of the new test, and 3) auto mechanic training at community colleges to prepare mechanics on how to repair a car that fails the OBD emissions test. Each of these expansion items is explained in more detail below:

New Positions:

The Office of State Personnel has identified Environmental Engineers as a hard to recruit position, so the Environmental Engineer II position is proposed at the midpoint of the salary range. The 6 Environmental Technician positions are proposed at the starting salary.

- *1 Environmental Engineer II* – Duties include oversight of I&M expansion, including the development of emissions program policy, determining the effectiveness of emissions technology and program, technical review of proposed changes in technology, software and hardware, and quality control efforts.
- *6 Regional Environmental Technician III* – These six positions would be identical to one that DAQ's budget currently supports in the Raleigh office. These new positions would be located in each of the regional offices in the expansion counties. Duties include auditing the program for compliance and effectiveness, and serving as the local liaison with testing and repair industries.

New Contracts:

- *Mechanic Training at Community Colleges* – Currently, all vehicle emissions inspectors are required to take an 8-hour continuing education course to become certified to perform an emissions inspection. To help inspectors fulfill this requirement, 11 community colleges currently offer a continuing education course related to emissions testing procedures using the idle test. Because the OBD technology is relatively new and auto mechanics may be unfamiliar with the emission failure codes and the types of repairs necessary to fix an emissions problem, DAQ proposes to add-on to each of these existing courses a new section to train automotive technicians *how to use the OBD technology to diagnose and repair emissions problems*. DAQ also proposes to expand these repair courses to additional community colleges in the expansion counties. The Community College System Office estimates that it would cost approximately $25,000 to update an existing course. This fiscal note assumes that each emissions county with a community college will offer a continuing education emissions course related to the required certification and that the repair portion of the course would always be added-on after the certification course was in place.
- *Car Care Clinics* – As part of a public outreach effort prior to starting the official OBD testing, DAQ, operating through private inspection stations, would perform unofficial tests free of charge and diagnostics for failing cars. DAQ would pay a participating inspection station $25 per car inspected and an hourly fee of $50 to diagnose failing cars and provide repair advice. Total cost estimate is based on testing 13,000 cars with an approximate failure rate of five percent. This fiscal note assumes that car owners in the expansion counties who are unfamiliar with the vehicles emission program will be more likely to take advantage of this service and thus more money is budgeted for this item in the expansion counties.

- *Public Outreach Campaign* – In October 2001, the fee charged for a safety and emissions inspection in the current nine counties will increase 72 percent from $19.40 to $33.45. Beginning in July 2003, car owners in the expansion counties who currently pay $9.25 for a safety inspection will begin to pay $34.00 for the combined safety and emissions inspection for a total fee increase of 268 percent. To prepare the driving public for this fee increase and to help educate them about the relationship between air pollution and their vehicles' emissions, DAQ proposes to conduct an intensive public outreach campaign to begin four months prior to the implementation of the emissions testing with the OBD technology and to continue for a full 12 months in each of the participating counties.

Below is a chart that outlines both DAQ's current I&M Program revenues and expenditures as well as the additional revenue generated by the fee increase and the proposed new expenditures. This fiscal note assumes that DAQ will spend down its existing cash balance to support its expansion efforts.

DAQ's portion of the emission inspection sticker is proposed to increase from $0.35 to $0.65. Using their existing cash balance of $1,051,140 and the additional revenue generated from the fee increase, DAQ is able to cover all of its expenses in each of the next five years.

By fiscal year 2005, DAQ no longer has to spend down its cash balance to cover expenditures. The fee increase times the number of new cars required to be inspected is generating enough revenue to cover expenditures without using its cash balance. In fiscal year 2006, the amount of projected revenue generated exceeds the proposed expenditures by $804,439. In the years after 2006, once the expansion contracts have ended, it is estimated that revenues will exceed expenditures by approximately $1.5 million. DAQ does have the authority to use revenue generated from the I&M sticker fee to support expenditures not related to the I&M Program. Specifically, DAQ has the authority to use I&M fees to support an air pollution control program for mobile sources (G.S. 143-215.3A(b1)).

Division of Motor Vehicles: The Division of Motor Vehicles is responsible for administering the safety inspection and the emissions inspection programs (G.S. 20-183.6A). As the number of emissions counties increases, the Division expects the number of emissions inspection stations to increase by approximately 3,800. The Division's added personnel costs are generally to administer this larger program. Other expansion expenses result from the adoption of the OBD test and related computer hardware and software, advertising and promotion to inform motorists of the new requirements (required by EPA), and letters to additional noncomplying motorists.

The Division plans to add 155 positions over the next four years, as follows:

Position	FY01-02	FY02-03	FY03-04	FY04-05	Total
Pay Grade 73 Captain	1				1
Pay Grade 71 Lieutenant	2	6	1	1	10
Pay Grade 70 Inspector		22	20	18	60
Pay Grade 66 I/M Auditor		26	22	20	68
Pay Grade 57 Processing Assistant		4	3	5	12
Pay Grade 68 Hearing Officer			2		2
Programmer	1				1
Pay Grade 67 Electronic Technician		1			1
Total	4	59	48	44	155

Personnel costs for the 155 additional positions, including recurring and non-recurring office and equipment expenses, plus non-personnel expenses, are summarized below:

	FY01-02	FY02-03	FY03-04	FY04-05	FY05-06
Personnel Expenses	$330,578	$4,811,766	$7,919,601	$11,136,587	$11,016,311

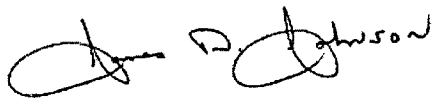
Consultant/Technical Writer	$57,782	$59,515	$61,301	$63,140	$65,034
Converting Existing Mainframe Program to OBD	$170,000				
MCI OBD Conversion (hardware)	$1,000,000				
MCI OBD Conversion (software)	$2,000,000				
MCI Conversion (triggers)		$3,000,000			
Advertising/Promotional	$250,000	$500,000	$500,000	$500,000	$500,000
License Plates and Stickers		$1,747	$37,887	$76,300	$119,826
Safety Investigations		$84,600	$158,460	$227,820	$227,820
Total Non-Personnel	$3,477,782	$4,061,449	$1,299,639	$1,554,280	$1,713,840
GRAND TOTAL	**$3,808,360**	**$8,873,215**	**$9,219,240**	**$12,690,867**	**$12,730,151**

Some of the major items of expenditure include advertising and promotion ($2,250,000), which is required by EPA, and computer expenses ($6,170,000). The computer expenses are for converting the system to the OBD test and for implementing a system of "triggers." The triggers analyze test data by station, mechanic, vehicle model, etc. and alert DMV to patterns that might indicate fraud or other problems (e.g. very high pass rates for particular stations or mechanics given the cars they test, sudden changes in passing rates, etc.).

Telecommunications Fee: In the current program, the cost of computer communications between the stations and the State has been paid by federal funds (which have now run out) or by existing cash balances. The bill creates a Telecommunications Fee of $1.75 as part of the cost of the sticker. This is intended to pay the total cost, including hardware, software, and communications costs, for the stations to interface with the State. Thus, the equipment cost for stations participating in the OBD program in the expansion counties will be significantly lower than for those stations that have been doing tailpipe tests in the existing emissions counties.

Highway Fund: Under current law, the Highway Fund receives $.75 for each safety-only inspection and nothing for emission and safety inspections. Increasing the number of emission and safety inspections and reducing the number of safety-only inspections would reduce receipts of the Highway Fund. The bill holds the Highway Fund harmless by establishing a $.55 fee on both inspection stickers as of January 1, 2003. As a result, no fiscal impact is shown for the Highway Fund.



Department of Insurance – Volunteer Rescue/EMS Fund (G.S. 58-87-5) and Rescue Squad Workers' Relief Fund (G.S. 58-88-1 through 30): The Volunteer Rescue/EMS Fund currently receives $.15 of each vehicle inspection. This would rise to $.18 on October 1, 2001. The Rescue Squad Workers' Relief Fund currently receives $.10 of each vehicle inspection. This would rise to $.12 on October 1, 2001. Each of these funds has generally had more eligible requests for assistance than they have been able to accommodate with available funds.

Civil Penalties: No estimate of the fiscal impact of the bill on the total of civil penalties collected is available.

TECHNICAL CONSIDERATIONS: Given the uncertainty of revenue and expenditure forecasts this far into the future, the General Assembly may wish to reexamine the program's financial status in two years and consider a temporary surcharge if revenues are inadequate and/or phasing out some of the fee increases after start-up expenditures have been paid.

Diesel Fuel Regulation – What Has Been Done About Trucks and Buses?

A Revolutionary Approach:

- The Bush Administration recently announced a historic program aimed at reducing toxic emissions from heavy-duty trucks and buses. Similar in significance to the introduction of the catalytic converter on cars, the **2001 EPA rule** will reduce harmful emissions from trucks and buses by 95 percent.
- Just as removing lead from gasoline enables the use of catalytic converters, this program removes sulfur from diesel fuel and enables the use of advanced emission controls on diesel vehicles.

How do Diesel Trucks and Buses Pollute the Environment?

- Like gasoline engines, diesel engines emit exhaust. Generally, this exhaust is in thick clouds, full of "particulate matter" and nitrous oxide, both harmful pollutants.
- Heavy-duty trucks and buses today account for about one-third of nitrous oxide emissions and one-quarter of "particulate matter" emissions from mobile sources.
- Diesel emissions cause premature deaths, respiratory problems, asthma attacks, and lung cancer.

Preventive Measure

An estimated 8,300 premature deaths, 5,500 cases of chronic bronchitis and 17,600 cases of acute bronchitis in children will be prevented annually.

This rule will help avoid more than 360,000 asthma attacks and 386,000 cases of respiratory symptoms in asthmatic children every year.

In addition, 1.5 million lost workdays, 7,100 hospital visits and 2,400 emergency room visits for asthma will be prevented.

Transition Period: 2006-2009

While the rule requires refiners to begin producing low-sulfur fuel in 2006, it includes provisions such as temporary compliance options and an averaging, banking and trading component in order to ensure a smooth transition for both large and small refiners.

Cost Increase per Vehicle

	Currently	w/Rule (estimate)
Trucks	$150,000	$151,200-151,900
Buses	$250,000	$251,200-251,900

How Does the New Rule Address the Problem?

- The recent EPA rule combines two pollution reduction methods to achieve its goal: (1) reducing sulfur in diesel fuel and (2) requiring the addition of "high-efficiency catalytic exhaust emission control devices or comparably effective advanced technologies" to diesel engines.
- Sulfur levels in diesel fuel must be lowered to enable modern pollution-control technology to be effective on diesel trucks and buses. The rule requires a 97 percent reduction in the sulfur content of highway diesel fuel from its current level of 500 parts per million to 15 parts per million and allows significant lead time for the introduction of the cleaner fuel (effective 2006, phased-in through 2009).
- The introduction of the low-sulfur fuel paves the way for the catalytic exhaust emission control devices (second aspect of rule). The new technologies are rendered ineffective without the low-sulfur fuel; therefore, requiring the untied approach to cleaner diesel engines.

N.C. Clean Air: I/M Program
Support HB 969

- The inspection and maintenance program (I/M) is key to complying with the federal air quality standard for ozone, which is met through the control of nitrogen oxides (NOx).
- N.C.'s economy depends on clean air; the I/M program generates pollution reduction credits that are necessary to allow new sources of NOx to expand or locate in N.C.
- N.C.'s transportation funding depends on clean air; without the I/M program, N.C. will not meet EPA air quality standards. EPA has the authority to withhold our federal transportation funding for areas violating air quality standards.
- N.C.'s tourism depends on clean air; our views are now obstructed by haze.
- Motor vehicles are responsible for 50% of NOx emissions in N.C. This bill is the mechanism to address mobile emissions.
- Stationary sources (utilities, industry) are responsible for the remaining 50% of NOx, which is being addressed through rules. Together the I/M program and the rules addressing stationary sources make up a major part of N.C.'s ozone State Implementation Plan.
- Newer cars, while generally cleaner, emit a large percentage of NOx emissions when the pollution abatement equipment fails. The I/M program will guard against failure.
- Once the I/M program is fully implemented, the 48 counties will represent 82% of N.C.'s registered vehicles.

HOUSE BILL 969:
Air Quality/Motor Vehicle Inspection Fees.

BILL ANALYSIS

Committee:	House Appropriations	**Introduced by:**	Representative Hackney
Date:	May 29, 2001	**Summary by:**	George Givens, Staff Attorney
Version:	PCS for Second Edition H969*-PCS7240-RT-41		Tim Dodge, Research Assistant

SUMMARY: ***The proposed committee substitute for House Bill 969 would make the following substantive changes to the motor vehicle safety and emissions inspection program:***

- ***Create the nonreverting Telecommunication Account within the Highway Fund to provide equipment and telecommunications services associated with the vehicle emissions inspection program;***
- ***Establish a three-step fee adjustment for the motor vehicle safety and emissions inspection program to accommodate for program expansion and to adjust return to inspection stations;***
- ***Exempt certain motor homes, house cars, classic vehicles, or low-mileage vehicles from emissions inspection requirements;***
- ***Require a vehicle transferred from a non-emissions county to an emissions county to be inspected within sixty (60) days of transfer of the registration;***
- ***Establish a system of civil penalties for violations committed by persons and stations licensed to perform safety inspections or replace windshields;***
- ***Identify additional actions committed in violation of inspection requirements as penalties, infractions, or felonies; and***
- ***Authorize the Environmental Management Commission (EMC) and the Division of Motor Vehicles (DMV) of the Department of Transportation to adopt temporary rules to implement the provisions of the act.***

BACKGROUND: According to the United States Environmental Protection Agency (EPA), mobile sources of emissions (cars, trucks, etc.) collectively are the single greatest contributor in this country to carbon monoxide pollution and to ground-level ozone, the major component of smog.[1] In typical urban areas, vehicles contribute between 35 and 70 percent of ozone-forming emissions and 90 percent or more of carbon monoxide emissions.

The Ambient Air Quality Act of 1999[2] contained a number of provisions designed to improve air quality in the State, including the expansion of the motor vehicle inspections and maintenance (I/M) program from nine (9) to forty-eight (48) counties. The expansion counties are identified in Table I below:

January 1, 2006	Brunswick, Carteret, Craven, New Hanover, Onslow

S.L. 2000-134 further modified the I/M program by authorizing the use of on-board diagnostic (OBD) systems in place of other testing requirements. The fees charged for emissions and safety inspections have not been adjusted since they were established in 1993.

BILL ANALYSIS: House Bill 969 would make the following modifications the I/M program:

Create Telecommunications Account *(Section 1):* Currently, stations performing an emissions inspection are required to maintain a dedicated phone line to contact the DMV in order to comply with the DMV registration denial program.[3] The DMV has paid these telecommunications costs to the telecommunications provider with funds allocated for this purpose from the federal Congestion Mitigation and Air Quality (CMAQ) program, but these funds are no longer available. The bill proposes to create the Telecommunications Account as a nonreverting account within the Highway Fund. A portion of the increase in the sticker fee described below would be dedicated to covering these telecommunications costs. The funds would also be used to provide the equipment necessary to perform OBD emissions inspections to current stations and to all expansion stations.

Increase Fees *(Section 2):*

The fee charged for a vehicle inspection consists of two portions: (1) a station fee, which is paid to the station performing the inspection, and (2) a sticker fee, which is allocated among various funds and the State agencies charged with administering the program. The station fees have not been adjusted since 1993.[4] The PCS for House Bill 969 proposes to establish a maximum fee that an inspection station may charge, rather than a flat amount for the station fee. This modification would allow stations to charge any amount *up to the maximum* allowed for the station portion of the fee. The station fee for an emissions inspection would increase from the current flat rate of $17.00 to a maximum cap of $27.70, effective October 1, 2001. The station fee for a safety inspection would increase from the current flat rate of $8.25 to a maximum cap of $13.40, effective October 1, 2001. Table II (page 6) provides a breakdown of the proposed fee changes for the emissions inspection program and Table III (page 6) describes the changes in the safety inspection fee proposed in the bill.

[3] G.S. 20-183.8A.
[4] S.L. 1993-385.

The sticker fee would be adjusted in three steps. The first fee increase would take effect the on the first day of the month that follows by more than 15 days the month in which the act becomes law. The fee increase of $1.75 for emissions inspections would be directed to the Telecommunications Account to cover the costs associated with the DMV registration denial program. The fee increase would also cover the costs of providing the telecommunications equipment necessary for inspection stations to communicate electronically with the DMV and to perform OBD emissions inspections once the program is developed and implemented.

The second increase in the sticker fee would occur in conjunction with the expansion of the emissions program and the transition to the OBD inspection method. The portion of the emissions program sticker fee dedicated to the Emissions Program Account would increase from $1.80 to $3.05, and the portion directed to the Division of Air Quality (DAQ) would increase from $0.35 to $0.65, effective October 1, 2001. In addition, the portion of the sticker fee (from both emissions inspections and safety inspections) designated to the Volunteer Rescue / EMS Fund and the Rescue Squad Workers' Relief Fund would increase by 3 cents and 2 cents per inspection, respectively.

In addition to changing fees, the PCS for House Bill 969 directs the DMV to develop signage for display in inspection stations that provides information on the I/M program and the distribution of the inspection fee.

(Section 3) The third change in the sticker fees would occur on January 1, 2003, and would include the application of the telecommunications fee ($1.75) to also include safety inspections.

The sticker fee would also be adjusted at this time to normalize the revenue flow to the Highway fund from the inspection program. Currently the Highway fund receives $0.75 from the sticker fee for each safety inspection conducted in North Carolina, but the emissions inspection fee does not disburse any portion of the fee to the Highway fund. As the emission program expands, the number of vehicles receiving safety only inspections would decrease, while the number receiving emissions inspections would increase. This would result in a decrease in the funds designated to the Highway fund each year. To stabilize the revenue stream to the Highway fund, House Bill 969 would charge a standard fee of $0.55 for both safety and emissions inspections. This would result in a decrease of $0.20 per safety inspection, and an increase of $0.55 per I/M inspection.

Exempt classic cars and low-mileage vehicles*(Section 3.1)*:

Currently, 1975 or later model motor vehicles are exempted from emissions inspection requirements. The PCS for House Bill 969 would expand the exemption to include the following vehicle classifications:

- A motor vehicle more than 25 model years old and insured as a classic car under a stated value contract of insurance for physical damage.
- A motor vehicle that has been driven less than 2,500 mules since the last vehicle inspection.

To qualify for the exemption, the vehicle owner or operator must present to the inspection mechanic the current registration certificate and evidence of insurance, or present a copy of the previous inspection receipt for comparison with the vehicle's current odometer reading (Effective October 1, 2001).

Exempt motor homes *(Section 4):*

Current law requires motor homes or house cars, as defined in G.S. 20-4.01(27)d2, to comply with the emissions inspection program as required in their county of registration. House bill 969 would exempt a vehicle under this definition from emissions inspection requirements, providing that the vehicle:

- Is not part of a fleet;
- Is built on a single chassis;
- Has a gross vehicle weight of more than 10,000 pounds; and
- Is designed primarily for recreational use.

(Effective on the first day of the month that follows by more than 15 days the month in which the act becomes law).

Require inspection of transferred vehicles *(Section 5):*

Under current law, vehicles transferred to North Carolina from another State are required to comply with the inspection requirements required in their county of registration within 60 days. Vehicles transferred within North Carolina from a non-emissions county to an emissions county are not required to have an emissions inspection conducted on the car until the registration is renewed in the new county.

House Bill 969 would require vehicles transferring their registration from a non-emissions county to an emissions county to have a passing emissions inspection performed on the vehicle within sixty days of transfer of the registration (Effective October 1, 2001).

Establish and amend violations and penalty schedules for inspection programs *(Sections 6 to 11):*

Section 6 would establish a schedule of punitive actions for stations and inspectors who violate the *safety* inspection requirements similar to those applying to violations committed by *emissions* inspectors and *emissions* inspection stations under G.S. 20-183.8B (Effective October 1, 2001).

Section 7 establishes that a person found responsible for altering the configuration of the data link connectors on a vehicle in such a way that the OBD inspection method cannot be accurately performed is guilty of an infraction and is liable for a penalty up to $50.00. Section 7 would also find that a person who unlawfully fails a vehicle or a person who solicits or accepts anything of value in exchange for unlawfully passing a vehicle is guilty of a Class I felony (Effective January 1, 2002).

Section 8 would establish that windshield replacement stations or stations performing windshield replacements that cannot account for all the inspection stickers they are issued would result in a civil penalty of $25.00 for each missing sticker (Effective October 1, 2001).

Section 9 would establish that a person who uses the data provided by the OBD equipment of a vehicle other than the one being inspected to achieve a passing result is guilty of a Type I civil violation and is liable for a penalty of $250.00 for the first violation (Effective October 1, 2001).

Section 10 would hold *safety* inspectors that do not perform a full visual inspection of *emissions* control devices as required during all inspections would be subject to a Type II civil violation and a penalty of $100.00 for the first violation (Effective October 1, 2001).

Section 11 would allow the DMV to serve a notice of violation committed by an inspection station, an inspector, or a person engaged in replacing windshields by delivering the notice, statement, or order to the station or place of business where the person is employed (Effective October 1, 2001).

Field Tests of OBD Inspection Method *(Section 12):*

The bill would authorize the DMV and DAQ, prior to the implementation of the OBD inspection method, to perform field tests of the equipment, computer software, and procedures used in connection with the OBD program. Inspection stations would participate in the field trials on a voluntary basis. The field tests would be conducted during the six-month period immediately prior to the implementation of the OBD-based emissions testing in any county (Effective January 1, 2002).

Development of Rules *(Section 13):*

House Bill 969 would also authorize the EMC and DMV to adopt temporary rules to implement the provisions of the act. This authority would become effective when the act becomes law, and would continue in effect until all rules necessary to implement the act were effective as either temporary or permanent rules (Effective when the act becomes law).

Study Emissions Inspection and Maintenance Program *(Section 14):*

Lastly, the PCS for House Bill 969 directs the Environmental Review Commission (ERC) to review the I/M program to determine ways in which the cost of the program to vehicle owners could be reduced, including the option of requiring biennial inspections rather than annual inspections. The ERC is directed to report its findings to the 2003 General Assembly (Effective when the act becomes law).

PRINCIPAL DEPARTMENT(S) & PROGRAM(S) AFFECTED: Department of Environment and Natural Resources, Division of Air Quality; Department of Transportation, Division of Motor Vehicles (DMV); Department of Insurance, Highway Fund.

EFFECTIVE DATE: Sections 1 and 4 on the first day of the month that follows by more than 15 days the month in which this act becomes law. Sections 2,5,6,8,10,11 on October 1, 2001. Sections 7,9,12 on January 1, 2002. Section 3 on January 1, 2003. Sections 13,14 when the bill becomes law.

BILL SUMMARY: Provides for the implementation of the Ambient Air Quality Improvement Act of 1999, as amended by SL 2000-134. The bill creates a telecommunications fee of $1.75 and increases the "safety only" inspection and sticker fee from $9.25 currently to $14.45 on October 1, 2001 and to $16.00 on January 1, 2003 and the "emissions and safety" fee from $19.40 currently to $33.45 on October 1, 2001 and $34.00 on January 1, 2003. **(See page 4, Table 2 for details on these fee changes.)** Adds two new sections establishing a civil penalty schedule for violations of the emissions and safety inspection statutes.

ASSUMPTIONS AND METHODOLOGY:

Background: Currently, a "safety-only" inspection is required in 91 counties and an "emissions and safety" inspection is required in nine counties. In 1999, the General Assembly expanded the Motor Vehicles Emissions Inspection and Maintenance Program (I&M) from the current nine participating counties to an additional 39 counties to be phased in over a three-year schedule beginning in July 2003. At the same time, the General Assembly changed the type of test required for emissions inspections from the tailpipe test to an on-board diagnostic (OBD) test beginning in July 2002. This newer test can only be performed on cars manufactured from 1996 on that are equipped with the OBD technology. During the expansion to the additional counties and transition to the new OBD test, the idle test will be retained in the original nine counties only and will be ended on December 31, 2005.

The following chart lists all the counties and the date they are required to participate in the I&M program.

* Fee increase goes into effect on October 1, 2001

Revenue Impact: The increased revenues resulting from this bill are the result of the increase in the number of vehicles inspected as the program expands from nine to 48 counties and the increase in fees that the Division of Air Quality (DAQ) and the Division of Motor Vehicles (DMV) receive to develop the infrastructure for that expansion. The estimates shown on page 1 for DMV indicate significant negative cash balances in Fiscal Years 2003-04, 2004-05, and 2005-06. These negative cash balances could essentially be eliminated by raising the amount that DMV receives from $3.05 in the bill to $3.20. This would leave a negative cash balance in only one year, FY 2004-05, of $602,786. This change would give the General Assembly time to adjust the program and/or the fee based on actual experience.

Forecasting the number of vehicles inspected and the resulting revenues is complex. In the 39 expansion counties only 1996 and newer vehicles will be tested for emissions, while in the nine current emission counties all vehicles from 1975 will be tested (1975-1995 vehicles with the current tail-pipe test and 1996 and newer with the new OBD test) through the end of the year 2005. At that time the tail-pipe test will be ended in the nine original emission counties and only OBD testing will be used and only 1996 and newer vehicles will be tested. Also, as the number of emissions inspections increases through expansion, the number of safety-only inspections will decrease. The forecast of the number of vehicles by year and category was developed with input from DAQ, DMV, and the Fiscal Research Division and is shown in Table 1.

Division of Air Quality: The Division of Air Quality's (DAQ) primary role in the Motor Vehicles Emissions Inspection and Maintenance Program (I&M) includes developing emissions inspection equipment/analyzer specifications, certifying new and modified analyzers, troubleshooting reported hardware and software problems, answering public inquiries about inspections, and auditing the program to determine its effectiveness. (Note: EPA regulations require that the program auditor, DMV, be audited by an outside entity, a role that DAQ fills.) Currently, the Division of Air Quality receives $0.35 from each emissions and safety inspection sticker issued in the nine participating counties. The revenue generated from the inspection sticker fee supports eleven positions and three outside contracts related to mobile source air pollution.

As the program grows from 9 counties to 48, the number of cars being inspected is estimated to increase from approximately 2 million to 4.5 million cars. The number of inspection stations, inspectors and analyzers will grow proportionally. To assist with the expansion of the motor vehicle emissions program, this bill increases DAQ's portion of the sticker fee to $0.65, an eighty-five percent increase. This increase will support the addition of 7 new positions to be phased in as the program expands. The fee increase will also support a number of time limited contracts including: 1) a public outreach campaign to raise awareness about the relationship between air pollution, vehicles' emissions and the new

OBD technology, 2) car care clinics to familiarize car owners with the OBD technology prior to the implementation of the new test, and 3) auto mechanic training at community colleges to prepare mechanics on how to repair a car that fails the OBD emissions test. Each of these expansion items is explained in more detail below:

New Positions:

The Office of State Personnel has identified Environmental Engineers as a hard to recruit position, so the Environmental Engineer II position is proposed at the midpoint of the salary range. The 6 Environmental Technician positions are proposed at the starting salary.

- *1 Environmental Engineer II* – Duties include oversight of I&M expansion, including the development of emissions program policy, determining the effectiveness of emissions technology and program, technical review of proposed changes in technology, software and hardware, and quality control efforts.
- *6 Regional Environmental Technician III* – These six positions would be identical to one that DAQ's budget currently supports in the Raleigh office. These new positions would be located in each of the regional offices in the expansion counties. Duties include auditing the program for compliance and effectiveness, and serving as the local liaison with testing and repair industries.

New Contracts:

- *Mechanic Training at Community Colleges* – Currently, all vehicle emissions inspectors are required to take an 8-hour continuing education course to become certified to perform an emissions inspection. To help inspectors fulfill this requirement, 11 community colleges currently offer a continuing education course related to emissions testing procedures using the idle test. Because the OBD technology is relatively new and auto mechanics may be unfamiliar with the emission failure codes and the types of repairs necessary to fix an emissions problem, DAQ proposes to add-on to each of these existing courses a new section to train automotive technicians *how to use the OBD technology to diagnose and repair emissions problems.* DAQ also proposes to expand these repair courses to additional community colleges in the expansion counties. The Community College System Office estimates that it would cost approximately $25,000 to update an existing course. This fiscal note assumes that each emissions county with a community college will offer a continuing education emissions course related to the required certification and that the repair portion of the course would always be added-on after the certification course was in place.
- *Car Care Clinics* – As part of a public outreach effort prior to starting the official OBD testing, DAQ, operating through private inspection stations, would perform unofficial tests free of charge and diagnostics for failing cars. DAQ would pay a participating inspection station $25 per car inspected and an hourly fee of $50 to diagnose failing cars and provide repair advice. Total cost estimate is based on testing 13,000 cars with an approximate failure rate of five percent. This fiscal note assumes that car owners in the expansion counties who are unfamiliar with the vehicles emission program will be more likely to take advantage of this service and thus more money is budgeted for this item in the expansion counties.
- *Public Outreach Campaign* – In October 2001, the fee charged for a safety and emissions inspection in the current nine counties will increase 72 percent from $19.40 to $33.45. Beginning in July 2003, car owners in the expansion counties who currently pay $9.25 for a safety inspection will begin to pay $34.00 for the combined

safety and emissions inspection for a total fee increase of 268 percent. To prepare the driving public for this fee increase and to help educate them about the relationship between air pollution and their vehicles' emissions, DAQ proposes to conduct an intensive public outreach campaign to begin four months prior to the implementation of the emissions testing with the OBD technology and to continue for a full 12 months in each of the participating counties.

Below is a chart that outlines both DAQ's current I&M Program revenues and expenditures as well as the additional revenue generated by the fee increase and the proposed new expenditures. This fiscal note assumes that DAQ will spend down its existing cash balance to support its expansion efforts.

DAQ's portion of the emission inspection sticker is proposed to increase from $0.35 to $0.65. Using their existing cash balance of $1,051,140 and the additional revenue generated from the fee increase, DAQ is able to cover all of its expenses in each of the next five years.

By fiscal year 2005, DAQ no longer has to spend down its cash balance to cover expenditures. The fee increase times the number of new cars required to be inspected is generating enough revenue to cover expenditures without using its cash balance. In fiscal year 2006, the amount of projected revenue generated exceeds the proposed expenditures by $804,439. In the years after 2006, once the expansion contracts have ended, it is estimated that revenues will exceed expenditures by approximately $1.5 million. DAQ does have the authority to use revenue generated from the I&M sticker fee to support expenditures not related to the I&M Program. Specifically, DAQ has the authority to use I&M fees to support an air pollution control program for mobile sources (G.S. 143-215.3A(b1)).

Division of Motor Vehicles: The Division of Motor Vehicles is responsible for administering the safety inspection and the emissions inspection programs (G.S. 20-183.6A). As the number of emissions counties increases, the Division expects the number of emissions inspection stations to increase by approximately 3,800. The Division's added personnel costs are generally to administer this larger program. Other expansion expenses result from the adoption of the OBD test and related computer hardware and software, advertising and promotion to inform motorists of the new requirements (required by EPA), and letters to additional noncomplying motorists.

The Division plans to add 155 positions over the next four years, as follows:

Position	FY01-02	FY02-03	FY03-04	FY04-05	Total
Pay Grade 73 Captain	1				1
Pay Grade 71 Lieutenant	2	6	1	1	10

Pay Grade 67 Electronic Technician		1			1
Total	4	59	48	44	155

Personnel costs for the 155 additional positions, including recurring and non-recurring office and equipment expenses, plus non-personnel expenses, are summarized below:

	FY01-02	FY02-03	FY03-04	FY04-05	FY05-06

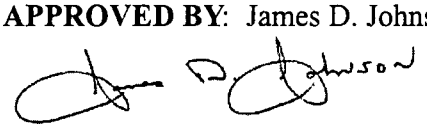
Total Non-Personnel	$3,477,782	$4,061,449	$1,299,639	$1,554,280	$1,713,840
GRAND TOTAL	**$3,808,360**	**$8,873,215**	**$9,219,240**	**$12,690,867**	**$12,730,151**

Some of the major items of expenditure include advertising and promotion ($2,250,000), which is required by EPA, and computer expenses ($6,170,000). The computer expenses are for converting the system to the OBD test and for implementing a system of "triggers." The triggers analyze test data by station, mechanic, vehicle model, etc. and alert DMV to patterns that might indicate fraud or other problems (e.g. very high pass rates for particular stations or mechanics given the cars they test, sudden changes in passing rates, etc.).

Telecommunications Fee: In the current program, the cost of computer communications between the stations and the State has been paid by federal funds (which have now run out) or by existing cash balances. The bill creates a Telecommunications Fee of $1.75 as part of the cost of the sticker. This is intended to pay the total cost, including hardware, software, and communications costs, for the stations to interface with the State. Thus, the equipment cost for stations participating in the OBD program in the expansion counties will be significantly lower than for those stations that have been doing tailpipe tests in the existing emissions counties.

Highway Fund: Under current law, the Highway Fund receives $.75 for each safety-only inspection and nothing for emission and safety inspections. Increasing the number of emission and safety inspections and reducing the number of safety-only inspections would

reduce receipts of the Highway Fund. The bill holds the Highway Fund harmless by establishing a $.55 fee on both inspection stickers as of January 1, 2003. As a result, no fiscal impact is shown for the Highway Fund.



Department of Insurance – Volunteer Rescue/EMS Fund (G.S. 58-87-5) and Rescue Squad Workers' Relief Fund (G.S. 58-88-1 through 30): The Volunteer Rescue/EMS Fund currently receives $.15 of each vehicle inspection. This would rise to $.18 on October 1, 2001. The Rescue Squad Workers' Relief Fund currently receives $.10 of each vehicle inspection. This would rise to $.12 on October 1, 2001. Each of these funds has generally had more eligible requests for assistance than they have been able to accommodate with available funds.

Civil Penalties: No estimate of the fiscal impact of the bill on the total of civil penalties collected is available.

TECHNICAL CONSIDERATIONS: Given the uncertainty of revenue and expenditure forecasts this far into the future, the General Assembly may wish to reexamine the program's financial status in two years and consider a temporary surcharge if revenues are inadequate and/or phasing out some of the fee increases after start-up expenditures have been paid.

36 Redirect DARE Program Approximately 60 percent of the NC DARE workload is in support of its role as the U.S. Southeast Regional Training Center. As of August 31, 2001, NC DARE will no longer perform this SE regional training function and will stop receiving federal funds from DARE America. NC DARE uses all of the federal funds for SE regional training and none of these funds are passed through to local law enforcement agenices. With the termination of NC DARE as SE Regional Trainers, state funding and resources are redirected to provide training to NC local law enforcement officers only, 40% of the current workload. This redirection and changes in the methods of providing State training make it possible to reduce six state positions, effective October 1, 2001. The SBI would retain three positions and shall continue to administer the program, but shall provide the training in a more cost-efficient manner by collaborating with the Criminal Justice Standards Division so as to utilize the resources of the Justice Training Academies. SECTION 5.1.(b) Decreases in Federal Fund Availability. – If the United States Congress reduces federal fund availability in the Social Services Block Grant below the amounts appropriated in this section, then the Department of Health and Human Services shall allocate these decreases giving priority first to those direct services mandated by State or federal law, then to those programs providing direct services that have demonstrated effectiveness in meeting the federally and State-mandated services goals established for the Social Services Block Grant. The Department shall not include transfers from TANF for specified purposes in any calculations of reductions to the Social Services Block Grant.

If the United States Congress reduces the amount of TANF funds below the amounts appropriated in this section after the effective date of this act, then the Department shall allocate the decrease in funds after considering any underutilization of the budget and the effectiveness of the current level of services. Any TANF Block Grant fund changes shall be reported to the Senate Appropriations Committee on Health

and Human Services, the House of Representatives Appropriations Subcommittee on Health and Human Services, and the Fiscal Research Division.

Decreases in federal fund availability shall be allocated for the Maternal and Child Health and Preventive Health Services federal block grants by the Department of Health and Human Services after considering the effectiveness of the current level of services.

SECTION 5.1.(c) Increases in Federal Fund Availability. – Any block grant funds appropriated by the United States Congress in addition to the funds specified in this act shall be expended by the Department of Health and Human Services, with the approval of the Office of State Budget and Management, provided the resultant increases are in accordance with federal block grant requirements and are within the scope of the block grant plan approved by the General Assembly.

If federal funds are received under the Maternal and Child Health Block Grant for abstinence education, pursuant to section 912 of Public Law 104-193 (42 U.S.C. § 710), for the 2001-2002 fiscal year, then those funds shall be transferred to the State Board of Education to be administered by the Department of Public Instruction. The Department of Public Instruction shall use the funds to establish an Abstinence Until Marriage Education Program and shall delegate to one or more persons the responsibility of implementing the program and G.S. 115C-81(e1)(4). The Department of Public Instruction shall carefully and strictly follow federal guidelines in implementing and administering the abstinence education grant funds.

SECTION 5.1.(g) The Department of Health and Human Services, Division of Social Services, shall do the following:

Assessment periods shall include six and 18 months following closure of the case.

(2) Continue the current evaluation of the Work First Program to profile the State's child-only caseload to include indicators of economic and social well-being, academic and behavioral performance, demographic data, description of living arrangements including length of placement out of the home, social and other human services provided to families, and other information needed to assess the needs of the child-only Work First Family Assistance clients and families.

(3) Continue the current evaluation to profile clients and families exempted from federal and State work participation requirements. The

evaluation shall include an assessment of the client and family needs including why clients and families have been exempted.

The Department of Health and Human Services shall make a report on its progress in complying with this subsection to the Senate Appropriations Committee on Health and Human Services, the House of Representatives Appropriations Subcommittee on Health and Human Services, and the Fiscal Research Division no later than September 30, 2001, and shall make a final report no later than September 30, 2002.

It shall be the duty of the executive head of every department of the State government, and of any county, or of any institution or agency of the State, to have painted on every motor vehicle owned by the State, or by any county, or by any institution or agency of the State, a statement that such car belongs to the State or to some county, or institution or agency of the State. Provided, however, that no automobile used by any municipal or county officer or municipal or county official for the purpose of transporting, apprehending or arresting persons charged with violations of the laws of the State of North Carolina, shall be required to be lettered. Provided, further, that in lieu of the above method of marking motor vehicles owned by any agency or department of the State government, it shall be deemed a compliance with the law if such vehicles have imprinted on the license tags thereof, above the license number, the words "State Owned" and that such vehicles have affixed to the front thereof a plate with the statement "State Owned". Provided, further, that in lieu of the above method of marking vehicles owned by any county, it shall be deemed a compliance with the law if such vehicles have painted or affixed on the side thereof a circle not less than eight inches in diameter showing a replica of the seal of such county. Provided, further, that no county-owned motor vehicle used for transporting day or residential facility clients of area mental health, developmental disabilities, and substance abuse authorities established under Article 4 of Chapter 122C of the General Statutes shall be required to be lettered; provided, further, notwithstanding this sentence, each vehicle shall bear the distinctive permanent registration plate pursuant to G.S. 20-84. The General Assembly recognizes the need to allow the limited use of private license plates on publicly owned vehicles, and may authorize exemptions from the provisions of this section for each fiscal year. Each agency shall submit requests for private tags to the Division of Motor Fleet Management of the Department of Administration. The Division shall report the requests to the Appropriations Committees of the General Assembly by June 1. (b) The Commissioner is hereby authorized to adopt and enforce such rules and regulations as may be necessary to carry out the provisions of this Article and any other laws the enforcement and administration of which are vested in the Division.

Failure to comply with the certification requirement or failure to meet the federal standards will subject the manufacturer or distributor to the fee requirements of this subsection.

(g) The Commissioner, notwithstanding any other provision of this Chapter, but subject to the limitations on private license plates established by the General Assembly under G.S. 14-250, may lawfully to the extent necessary provide law-enforcement officers of the Division on special undercover assignments with motor vehicle operator's licenses and motor vehicle registration plates under assumed names using false or fictitious addresses. The Commissioner may direct the immediate return of any operator's license or registration plate issued pursuant to this section.

(h) The Commissioner, notwithstanding any other provision of this Chapter, but subject to the limitations on private license plates established by the General Assembly under G.S. 14-250, may lawfully and to the extent necessary, provide local, State or federal law-enforcement officers on special undercover assignments with motor vehicle drivers licenses and motor vehicle registration plates under assumed names using false or fictitious addresses. Such registration plates shall only be used on publicly owned or leased ~~vehicles.~~ vehicles and shall not be used on privately owned vehicles under any circumstances. Requests for these licenses and registration plates shall be made to the Commissioner by the head of the local, State or federal law-enforcement agency and be accompanied by approval in writing from the Director of the State Bureau of Investigation upon a specific finding by the Director that the request is justified and necessary. The Director shall keep a record of all such licenses, registration plates, assumed names, false or fictitious addresses, and law-enforcement officers using the licenses or registration plates, and shall request the immediate return of any license or registration plate that is no longer necessary. Licenses and registration plates provided under this subsection shall expire six months after initial issuance or subsequent validation after the request for extension has been approved in writing by the Director of the State Bureau of Investigation. The head of the local, State or federal law-enforcement agency shall be responsible for the use of the licenses and registration plates and shall return them immediately to the Commissioner for cancellation upon either (i) their expiration, (ii) request of the Director of the State Bureau of Investigation, or (iii) request of the Commissioner. Failure to return a license or registration plates issued pursuant to this subsection shall be punished as a Class 2 misdemeanor. At no time shall the number of valid licenses and registration plates issued under this act exceed one hundred twenty-five, and those issued shall be strictly monitored by the Director. All of the private registration plates issued to special agents of the State Bureau of Investigation under the Department of Justice and to alcohol law enforcement agents under the Department of Crime Control and Public Safety, pursuant to G.S. 14-250, may be fictitious plates and shall not be counted in the total number of fictitious plates authorized by this subsection.

(i) Notwithstanding the requirements of G.S. 20-7.1 and G.S. 20-67(a), the Commissioner may correct the address records of drivers license and registration plate holders as shown in the files of the Division to that shown on notices and renewal cards returned to the Division with new addresses provided by the United States Postal Service.

(j) The Commissioner shall administer the issuance of private plates to State-owned vehicles under the provisions of G.S. 14-250, G.S. 20-56, and subsections (g) and (h) of this section to ensure that the limitations placed on the issuance of private license plates by the General Assembly are complied with, that confidential and fictitious license plates are not used on private vehicles, that confidential plates are issued only to those persons whose personal safety is demonstrably at risk, and that all other laws governing the issuance of private license plates are strictly complied with."

SECTION 6.14.(f) G.S. 20-56 reads as rewritten:

"**§ 20-56. Registration indexes.**

(a) The Division shall file each application received, and when satisfied as to the genuineness and regularity thereof, and that the applicant is entitled to register such vehicle and to the issuance of a certificate of title, shall register the vehicle therein described and keep a record thereof as follows:

(3) Public officials.

Individuals in the aforementioned categories ~~must provide satisfactory evidence~~ shall demonstrate to the ~~Commissioner~~ Director of the State Bureau of Investigation that their personal safety is at ~~risk.~~ risk and provide details supporting that claim. The Commissioner shall adopt strict verification procedures to ensure the integrity of the registration system. This file shall be confidential for the use of the Division.

Upon the annual renewal of the registration of a vehicle for which a confidential file has been established under this section, the information placed in that file shall lose its confidential status unless the Commissioner is supplied with information demonstrating that the person's safety remains at risk at the time of renewal.

Private tags issued pursuant to this section are subject to the limitations on private license plates established by the General Assembly under G.S. 14-250 and shall not be placed on privately owned vehicles under any circumstances. The number of confidential license plates issued under this section shall not exceed 500 at any time unless the Commissioner finds that exceptional circumstances exist that justify exceeding that number."

SECTION 6.14.(g) The Division of Motor Vehicles shall report to the Joint Legislative Commission on Governmental Operations by January 1 and July 1 of each year on the number of private plates issued to State-owned vehicles. The report shall show the total number of private plates issued to each agency, the total number of confidential plates issued to each agency, the total number of fictitious plates issued to each agency, and any additional information necessary for an assessment of the agency's compliance with G.S. 14-250.

Local partnerships shall monitor qualifying expenses to ensure they have occurred and meet the requirements prescribed in this subsection.

Failure to obtain a twenty percent (20%) match by June 30 of each fiscal year shall result in a dollar-for-dollar reduction in the appropriation for the Program for a subsequent fiscal year. The North Carolina Partnership for Children, Inc., shall be responsible for compiling information on the private cash and in-kind contributions into a report that is submitted to the Joint Legislative Commission on Governmental Operations in a format that allows verification by the Department of Revenue. The same match requirements shall apply to any expansion funds appropriated by the General Assembly.

SECTION 21.72.(d) Counties participating in the Program may use the county's allocation of State and federal child care funds to subsidize child care according to the county's Early Childhood Education and Development Initiatives Plan as approved by the North Carolina Partnership for Children, Inc. SECTION 21.73.(c) The maximum gross annual income for initial eligibility, adjusted biennially, for subsidized child care services shall be seventy-five percent (75%) of the State median income, adjusted for family size.

SECTION 21.73.(d) Fees for families who are required to share in the cost of care shall be established based on a percent of gross family income and adjusted for family size. Effective October 1, 2001, fees shall be determined as follows:

4-5	9%
6 or more	8%.

SECTION 21.73.(e) On or before September 30, 2001, payments for the purchase of child care services for low-income children shall be the same as would have resulted under Section 11.27 of S.L. 2000-67. Effective October 1, 2001, payments for the purchase of child care services for low-income children shall be in accordance with the following requirements:

(1) Religious-sponsored child care facilities operating pursuant to G.S. 110-106 and licensed child care centers and homes that meet the minimum licensing standards that are participating in the subsidized child care program shall be paid the one-star county market rate or the rate they charge privately paying parents, whichever is lower.

These payment rates shall be based upon information collected by market rate surveys.

SECTION 21.73.(f) Provision of payment rates for child care providers in counties that do not have at least 75 children in each age group for center-based and home-based care are as follows:

(1) Payment rates shall be set at the statewide market rate for licensed child care centers and homes.

(2) If it can be demonstrated that the application of the statewide market rate to a county with fewer than 75 children in each age group is lower than the regional market rate and would inhibit the ability of the county to purchase child care for low-income children, then the regional market rate may be applied.

SECTION 21.73.(g) A market rate shall be calculated for child care centers and homes at each rated license level for each county and for each age group or age category of enrollees and shall be representative of fees charged to unsubsidized privately paying parents for each age group of enrollees within the county. The Division of Child Development shall also calculate a statewide rate and regional market rates for each rated license level for each age category.

SECTION 21.73.(h) Facilities licensed pursuant to Article 7 of Chapter 110 of the General Statutes and facilities operated pursuant to G.S. 110-106 may participate in the program that provides for the purchase of care in child care facilities for minor

In addition, child care facilities shall be required to meet any additional applicable requirements of federal law or regulations. Child care arrangements exempt from State regulation pursuant to Article 7 of Chapter 110 of the General Statutes shall meet the requirements established by other State law and by the Social Services Commission.

County departments of social services or other local contracting agencies shall not use a provider's failure to comply with requirements in addition to those specified in this subsection as a condition for reducing the provider's subsidized child care rate.

SECTION 21.73.(j) Noncitizen families who reside in this State legally shall be eligible for child care subsidies if all other conditions of eligibility are met. Consistent with existing law and the future needs of the Department of Correction, the State may provide for the transfer or the lease of any of these units to counties, municipalities, State agencies, or private firms wishing to convert them to other use. The Department of Correction may also consider converting some of the units recommended for closing from medium security to minimum security, where that conversion would be cost-effective. If property has been revalued the year of the most recent sales assessment ratio study, the sales assessment ratio for the year of revaluation shall be used.

SECTION 28.6.(d) Eligibility for Funds. – Except as provided in subsection (h) of this section, the State Board of Education shall allocate these funds to local school administrative units located in whole or in part in counties in which the county wealth as a percentage of the State average wealth is less than one hundred percent (100%).

SECTION 28.6.(e) Allocation of Funds. – Except as provided in subsection (g) of this section, the amount received per average daily membership for a county shall be the difference between the State average current expense appropriations per student

and the current expense appropriations per student that the county could provide given the county's wealth and an average effort to fund public schools. (To derive the current expense appropriations per student that the county could be able to provide given the county's wealth and an average effort to fund public schools, multiply the county wealth as a percentage of State average wealth by the State average current expense appropriations per student.)

SECTION 28.6.(g) Minimum Effort Required. – Counties that had effective tax rates in the 1996-97 fiscal year that were above the State average effective tax rate but that had effective rates below the State average in the 1997-98 fiscal year or thereafter shall receive reduced funding under this section. This reduction in funding shall be determined by subtracting the amount that the county would have received pursuant to Section 17.1(g) of Chapter 507 of the 1995 Session Laws from the amount that the county would have received if qualified for full funding and multiplying the difference by ten percent (10%). This method of calculating reduced funding shall apply one time only.

This method of calculating reduced funding shall not apply in cases in which the effective tax rate fell below the statewide average effective tax rate as a result of a reduction in the actual property tax rate. In these cases, the minimum effort required shall be calculated in accordance with Section 17.1(g) of Chapter 507 of the 1995 Session Laws.

If the county documents that it has increased the per student appropriation to the school current expense fund in the current fiscal year, the State Board of Education shall include this additional per pupil appropriation when calculating minimum effort pursuant to Section 17.1(g) of Chapter 507 of the 1995 Session Laws.

SECTION 28.6.(h) Nonsupplant Requirement. – A county in which a local school administrative unit receives funds under this section shall use the funds to supplement local current expense funds and shall not supplant local current expense funds. For the 2001-2003 fiscal biennium, the State Board of Education shall not allocate funds under this section to a county found to have used these funds to supplant local per student current expense funds. The State Board of Education shall make a finding that a county has used these funds to supplant local current expense funds in the prior year, or the year for which the most recent data are available, if:

(1) The current expense appropriation per student of the county for the current year is less than ninety-five percent (95%) of the average of the local current expense appropriations per student for the three prior fiscal years; and

(2) The county cannot show (i) that it has remedied the deficiency in funding, or (ii) that extraordinary circumstances caused the county to supplant local current expense funds with funds allocated under this section.

The State Board of Education shall adopt rules to implement this section.

SECTION 28.6.(i) Reports. – The State Board of Education shall report to the Joint Legislative Education Oversight Committee prior to May 1, 2002, if it determines that counties have supplanted funds.

SECTION 28.6.(j) Department of Revenue Reports. – The Department of Revenue shall provide to the Department of Public Instruction a preliminary report for the current fiscal year of the assessed value of the property tax base for each county prior to March 1 of each year and a final report prior to May 1 of each year. The reports shall include for each county the annual sales assessment ratio and the taxable values of (i) total real property, (ii) the portion of total real property represented by the present-use value of agricultural land, horticultural land, and forestland as defined in G.S. 105-277.2, (iii) property of public service companies determined in accordance with Article 23 of Chapter 105 of the General Statutes, and (iv) personal property.

SMALL SCHOOL SYSTEM SUPPLEMENTAL FUNDING

SECTION 28.7.(a) Funds for Small School Systems. – Except as provided in subsection (b) of this section, the State Board of Education shall allocate funds appropriated for small school system supplemental funding (i) to each county school administrative unit with an average daily membership of fewer than 3,175 students and (ii) to each county school administrative unit with an average daily membership of from 3,175 to 4,000 students if the county in which the local school administrative unit is located has a county-adjusted property tax base per student that is below the State-adjusted property tax base per student and if the total average daily membership of all local school administrative units located within the county is from 3,175 to 4,000 students. The allocation formula shall:

(1) Round all fractions of positions to the next whole position.

(2) Provide five and one-half additional regular classroom teachers in counties in which the average daily membership per square mile is greater than four, and seven additional regular classroom teachers in counties in which the average daily membership per square mile is four or fewer.

(3) Provide additional program enhancement teachers adequate to offer the standard course of study.

(4) Change the duty-free period allocation to one teacher assistant per 400 average daily membership.

(5) Provide a base for the consolidated funds allotment of at least four hundred sixty-six thousand dollars ($466,000) excluding textbooks.

(6) Allot vocational education funds for grade 6 as well as for grades 7-12.

If funds appropriated for each fiscal year for small school system supplemental funding are not adequate to fund fully the program, the State Board of Education shall reduce the amount allocated to each county school administrative unit on a pro rata basis. This formula is solely a basis for distribution of supplemental funding for certain county school administrative units and is not intended to reflect any measure of the adequacy of the educational program or funding for public schools. The formula is also not intended to reflect any commitment by the General Assembly to appropriate any additional supplemental funds for such county administrative units.

SECTION 28.7.(b) Nonsupplant Requirement. – A county in which a local school administrative unit receives funds under this section shall use the funds to supplement local current expense funds and shall not supplant local current expense funds. For the 2001-2003 fiscal biennium, the State Board of Education shall not allocate funds under this section to a county found to have used these funds to supplant

local per student current expense funds. The State Board of Education shall make a finding that a county has used these funds to supplant local current expense funds in the prior year, or the year for which the most recent data are available, if:

(1) The current expense appropriation per student of the county for the current year is less than ninety-five percent (95%) of the average of the local current expense appropriations per student for the three prior fiscal years; and

(2) The county cannot show (i) that it has remedied the deficiency in funding, or (ii) that extraordinary circumstances caused the county to supplant local current expense funds with funds allocated under this section.

The State Board of Education shall adopt rules to implement this section.

SECTION 28.7.(c) Phase-Out Provisions. – If a local school administrative unit becomes ineligible for funding under this formula solely because of an increase in the county-adjusted property tax base per student of the county in which the local school administrative unit is located, funding for that unit shall be phased out over a two-year period. For the first year of ineligibility, the unit shall receive the same amount it received for the prior fiscal year. For the second year of ineligibility, it shall receive one-half of that amount.

If a local school administrative unit becomes ineligible for funding under this formula solely because of an increase in the population of the county in which the local school administrative unit is located, funding for that unit shall be continued for five years after the unit becomes ineligible.

SECTION 28.7.(d) Definitions. – As used in this section:

(1) "Average daily membership" means within two percent (2%) of the average daily membership as defined in the North Carolina Public Schools Allotment Policy Manual, adopted by the State Board of Education.

(2) "County-adjusted property tax base per student" means the total assessed property valuation for each county, adjusted using a weighted average of the three most recent annual sales assessment ratio studies, divided by the total number of students in average daily membership who reside within the county.

(2a) "Local current expense funds" means the most recent county current expense appropriations to public schools, as reported by local boards of education in the audit report filed with the Secretary of the Local Government Commission pursuant to G.S. 115C-447.

(3) "Sales assessment ratio studies" means sales assessment ratio studies performed by the Department of Revenue under G.S. 105-289(h).

(4) "State adjusted property tax base per student" means the sum of all county adjusted property tax bases divided by the total number of students in average daily membership who reside within the State.

(4a) "Supplant" means to decrease local per student current expense appropriations from one fiscal year to the next fiscal year.

(5) "Weighted average of the three most recent annual sales assessment ratio studies" means the weighted average of the three most recent annual sales assessment ratio studies in the most recent years for which county current expense appropriations and adjusted property tax valuations are available. If real property in a county has been revalued one year prior to the most recent sales assessment ratio study, a weighted average of the two most recent sales assessment ratios shall be used. If property has been revalued during the year of the most

recent sales assessment ratio study, the sales assessment ratio for the year of revaluation shall be used.

SECTION 28.7.(e) Reports. – The State Board of Education shall report to the Joint Legislative Education Oversight Committee prior to May 1, 2002, if it determines that counties have supplanted funds.

SECTION 28.7.(f) Use of Funds. – Local boards of education are encouraged to use at least twenty percent (20%) of the funds they receive pursuant to this section to improve the academic performance of children who are performing at Level I or II on either reading or mathematics end-of-grade tests in grades 3-8 and children who are performing at Level I or II on the writing tests in grades 4 and 7. Local boards of education shall report to the State Board of Education on an annual basis on funds used for this purpose and the State Board shall report this information to the Joint Legislative Education Oversight Committee. A principal or assistant principal shall also continue to receive any additional State-funded percentage increases earned for the 1997-1998, 1998-1999, and the 1999-2000 school year for improvement in student performance or maintaining a safe and orderly school.

SECTION 28.13.(g) Longevity pay for principals and assistant principals shall be as provided for State employees under the State Personnel Act.

(2) If a principal is reassigned to a lower job classification because the principal is transferred to a school within a local school administrative unit with a smaller number of State-allotted teachers, the principal shall be placed on the salary schedule as if the principal had served the principal's entire career as a principal at the lower job classification.

This subdivision applies to all transfers on or after the effective date of this section, except transfers in school systems that have been created, or will be created, by merging two or more school systems. Transfers in these merged systems are exempt from the provisions of this subdivision for one calendar year following the date of the merger.

SECTION 28.17.(b) G.S. 115C-288(a) reads as rewritten:

"(a) To Grade and Classify Pupils. – The principal shall have authority to grade and classify ~~pupils except a~~ pupils. In determining the appropriate grade for a pupil who is already attending a public school, the principal shall consider the pupil's classroom work and grades, the pupil's scores on standardized tests, and the best educational interests of the pupil. The principal shall not make the decision solely on the basis of standardized test scores. If a principal's decision to retain a child in the same grade is partially based on the pupil's scores on standardized tests, those test scores shall be verified as accurate.

A principal shall not require additional testing of a student entering a public school from a school governed under Article 39 of this Chapter if test scores from a nationally standardized test or nationally standardized equivalent measure that are adequate to determine the appropriate placement of the child are available."

SECTION 28.17.(c) G.S. 115C-47 is amended by adding a new subdivision to read:

"**§ 115C-47. Powers and duties generally.**

In addition to the powers and duties designated in G.S. 115C-36, local boards of education shall have the power or duty:

The Board shall also consider the costs of maintaining the integrity and reliability of the tests if such a policy is implemented. The Board shall report the results of this study to the Joint Legislative Education Oversight Committee by March 31, 2002.

SECTION 28.17.(e) Part 3 of Article 8B of Chapter 115C of the General Statutes is amended by adding the following new section to read:

"**§ 115C-105.41. Students who have been placed at risk of academic failure; personal education plans.**

Local school administrative units shall identify students in all grades who have been placed at risk for academic failure and implement a personal education plan for academic improvement with focused intervention and performance benchmarks. Identification shall occur as early as can reasonably be done and can be based on grades, observations, State assessments, and other factors that teachers and administrators consider appropriate, without having to await the results of end-of-grade or end-of-course tests. At the beginning of the school year, a personal education plan shall be developed for any student not performing at least at grade level, as identified by the State end-of-grade test. Focused intervention and acceleration activities may include, among other things, summer school, Saturday school, and extended days. Local school administrative units shall provide these activities and transportation free of charge to students."

SECTION 28.17.(f) G.S. 115C-174.12(a) reads as rewritten:

"(a) ~~The State Board of Education shall review the tests being administered through State and local testing programs and shall select the tests that it believes are necessary to provide the best measures of the levels of academic achievement attained by students in various subject areas.~~ The State Board of Education shall ~~also~~ establish policies and guidelines necessary for minimizing the time students spend taking tests administered through State and local testing programs and for otherwise carrying out the provisions of this Article. The State Board of Education's policies regarding the testing of children with disabilities shall (i) provide broad accommodations and alternate methods of assessment that are consistent with a child's individualized education program and Section 504 plans, (ii) prohibit the use of statewide tests as the sole determinant of decisions about a child's graduation or promotion, and (iii) provide parents with information about the Statewide Testing Program and options for students with disabilities. The State Board shall report its proposed policies and proposed changes in policies to the Joint Legislative Education Oversight Committee prior to adoption."

SECTION 28.17.(g) Schools shall devote no more than two days of instructional time per year to the taking of practice tests that do not have the primary purpose of assessing current student learning.

SECTION 28.17.(h) Students in a local school shall not be subject to field tests or national tests during the two-week period preceding the administration of the end-of-grade tests, end-of-course tests, or the school's regularly scheduled final exams. No school shall participate in more than two field tests at any one grade level during a school year.

SECTION 28.17.(i) The Joint Legislative Education Oversight Committee shall study the State's testing program. As part of this study, the Committee shall consider:

(1) The number of tests currently mandated at the State level and the process and cost of developing, validating, and scoring them.

(2) Whether the State should consider the use of nationally developed tests as a substitute to State-developed testing. In particular, the Committee

shall determine whether this use would (i) affect the ABCs Program, (ii) adequately measure student achievement and performance, (iii) provide more than minimum levels of achievement, (iv) provide a better comparison to student achievement and performance in other states, (v) be practical for high school courses or higher level courses, (vi) reduce the need for field testing, and (vii) offer any cost savings to the State.

(3) The number of grades in which State tests are given. The Committee shall determine the necessity for testing all grades in third through eighth grades, whether a reduction in the grades tested would affect the receipt of federal money, and the extent to which a reduction would impair the State's ability to identify schools under the ABCs Program.

(4) The high school courses for which State tests are given and whether there is an appropriate distribution of tests across grades nine through 12 and that test an appropriate array of the minimum courses required for admission to the constituent institutions of The University of North Carolina. In addition, the Committee shall examine whether students who take higher level courses and students in 12th grade are held accountable for their academic growth and performance.

(5) The advantages and disadvantages of using a composite of end-of-course tests or other tests such as the SAT, AP tests, or other nationally standardized tests in high school rather than developing a high school exit exam. If the Committee finds a high school exit exam is preferable, then it shall determine whether it must be administered to all students or limited to certain students, for example, those who don't take the SAT or a certain number of courses for which there are end-of-course tests.

(6) The extent to which additional testing, including field testing, practice testing, and locally mandated testing, is occurring and whether this should be limited or prohibited.

(7) Any other issue the Committee considers relevant.

The Committee shall report its findings and any recommendations, including recommended legislation, to the 2002 Regular Session of the 2001 General Assembly.

SECTION 28.17.(j) The State Board of Education shall develop and report to the Joint Legislative Education Oversight Committee on its objectives for the Statewide Testing Program and on the implementation of that Program. The report shall include:

(1) A statement of the relationship between these objectives and the tests currently administered under the Program;

(2) An analysis of whether the current tests appropriately achieve these objectives;

(3) A statement of any actions that may be needed to coordinate the objectives and the tests more effectively; and

(4) Strategies for communicating the objectives of the Program, the tests administered under the Program, and the relationship between these objectives and tests to principals, teachers, parents, and students throughout the State.

These funds shall be used only for:

An individual employed solely to serve as a mentor shall receive a payment for each individual, up to 15 individuals, to whom the mentor is assigned. The amount of each such payment shall be the same as the amount of the salary supplement for a mentor.

SECTION 28.18.(b) The Charlotte-Mecklenburg Board of Education, the Forsyth County Board of Education, and the Wake County Board of Education shall report to the State Board of Education on an annual basis on the impact that the mentor program has had on retention of teachers. SECTION 28.20.(a) If a local school administrative unit experiences a loss in projected average daily membership of greater than five percent (5%) due to the opening of a new charter school within the unit, the State Board of Education may use funds from the Reserve for Average Daily Membership Adjustments to assure that the funding loss to the local school administrative unit does not exceed five percent (5%) in the first fiscal year of the charter school's operation.

The State Board of Education shall phase out this special allotment in subsequent fiscal years by decreasing the amount of the special allotment each year by the amount of the prior year's funding loss.

SECTION 28.20.(b) A local school administrative unit that received funds for the 2000-2001 fiscal year pursuant to Section 8.5 of S.L. 2000-67 to reduce the loss of funds due to shifts of enrollment to charter schools shall continue to receive funds for

the 2001-2002 fiscal year in the amount of one hundred percent (100%) of the 2000-2001 allotment and for the 2002-2003 fiscal year in the amount of fifty percent (50%) of the 2000-2001 allotment.

MEDICAID OUTREACH

SECTION 28.21. If a claim for Medicaid outreach reimbursement that was submitted by a local school administrative unit and paid by a federal agency is later found by that agency to be inappropriate, the Department of Public Instruction shall request that the federal agency offset the overpaid amount against the next quarterly reimbursement due to the local school administrative unit. If the federal agency does not allow the offset, the Department of Public Instruction shall request repayment from the local school administrative unit, as provided for in agreements between the Department of Public Instruction and the local school administrative unit or, in the case of a local interagency agreement, agreements among local school administrative units. If the local school administrative unit that received the overpayment fails to repay the overpaid moneys within the time permitted under such agreements, the Department of Public Instruction may withhold the overpaid amount from State funds allocated for the central office of the local school administrative unit.

SECTION 31.2.(a) The Southern Regional Education Board currently operates an Academic Common Market program. Under this program, qualified students from participating states may apply to attend programs at public universities in participating states that are not available in their home state's university system. North Carolina's participation for graduate programs would provide a cost-effective means of offering educational access for North Carolina residents. SECTION 31.2.(b) The Board of Governors of The University of North Carolina may establish a pilot program for participation in the Southern Regional Education Board's Academic Common Market at the graduate program level. The Board of Governors shall examine the graduate programs offered in The University of North Carolina system and select for participation only those graduate programs that are likely to be unique or are not commonly available in other Southern Regional Education Board states. Out-of-state tuition shall be waived for students who are residents of other Southern Regional Education Board states and who are participating in the Academic Common Market program. If accepted into The University of North Carolina graduate programs that are part of the Academic Common Market, these students shall pay in-State tuition and shall be treated for all purposes of The University of North Carolina as residents of North Carolina. Prior to the beginning of this pilot, the Board of Governors shall submit its list of graduate programs selected to be a part of the pilot program to the Joint Legislative Education Oversight Committee.

SECTION 31.2.(c) The pilot programs established under this section shall terminate July 1, 2005. However, once a student is enrolled in The University of North Carolina system under the Academic Common Market program, the student shall be entitled to pay in-State tuition as long as the student is enrolled in that graduate program. The Board of Governors shall report the success of the Academic Common Market program to the Joint Legislative Education Oversight Committee by December 31, 2003, and by January 31, 2005, and the Committee may recommend changes, if any are appropriate, to the pilot program at either of those times.

(d) The Board of Governors shall establish the criteria for determining the eligibility for financial aid of needy North Carolina students who are enrolled in the medical schools and shall review the grants or awards to eligible students. The Board of Governors shall adopt rules for determining which students are residents of North Carolina for the purposes of these programs. The Board of Governors shall also make any regulations as necessary to ensure that these funds are used directly for instruction in the medical programs of the schools and not for religious or other nonpublic purposes. The Board of Governors shall encourage the two schools to orient students toward primary care, consistent with the directives of G.S. 143-613(a). PROCEDURES FOR DISBURSEMENT OF CAPITAL FUNDS

SECTION 33.4. The appropriations made by the 2001 General Assembly for capital improvements shall be disbursed for the purposes provided by this act. Expenditure of funds shall not be made by any State department, institution, or agency until an allotment has been approved by the Governor as Director of the Budget. The allotment shall be approved only after full compliance with the Executive Budget Act, Article 1 of Chapter 143 of the General Statutes. Prior to the award of construction contracts for projects to be financed in whole or in part with self-liquidating appropriations, the Director of the Budget shall approve the elements of the method of financing of those projects including the source of funds, interest rate, and liquidation period. Provided, however, that if the Director of the Budget approves the method of financing a project, the Director shall report that action to the Joint Legislative Commission on Governmental Operations at its next meeting.

Where direct capital improvement appropriations include the purpose of furnishing fixed and movable equipment for any project, those funds for equipment shall not be subject to transfer into construction accounts except as authorized by the Director of the Budget. The expenditure of funds for fixed and movable equipment and furnishings shall be reviewed and approved by the Director of the Budget prior to commitment of funds.

Capital improvement projects authorized by the 2001 General Assembly shall be completed, including fixed and movable equipment and furnishings, within the limits of the amounts of the direct or self-liquidating appropriations provided, except as otherwise provided in this act. Capital improvement projects authorized by the 2001 General Assembly for the design phase only shall be designed within the scope of the project as defined by the approved cost estimate filed with the Director of the Budget, including costs associated with site preparation, demolition, and movable and fixed equipment.

ENCUMBERED APPROPRIATIONS AND PROJECT RESERVE FUNDS

SECTION 33.5. When each capital improvement project appropriated by the 2001 General Assembly, other than those projects under the Board of Governors of The University of North Carolina, is placed under a construction contract, direct appropriations shall be encumbered to include all costs for construction, design, investigation, administration, movable equipment, and a reasonable contingency. Unencumbered direct appropriations remaining in the project budget shall be placed in a project reserve fund credited to the Office of State Budget and Management. Funds in the project reserve may be used for emergency repair and renovation projects at State facilities with the approval of the Director of the Budget. The project reserve fund may be used, at the discretion of the Director of the Budget, to allow for award of contracts where bids exceed appropriated funds, if those projects supplemented were designed within the scope intended by the applicable appropriation or any authorized change in it, and if, in the opinion of the Director of the Budget, all means to award contracts within the appropriation were reasonably attempted. At the discretion of the Director of the Budget, any balances in the project reserve fund shall revert to the original source.

Requested by: Representatives Easterling, Oldham, Redwine, Thompson

EXPENDITURES OF FUNDS FROM THE RESERVE FOR REPAIRS AND RENOVATIONS

SECTION 33.6. Of the funds in the Reserve for Repairs and Renovations for the 2001-2002 fiscal year, forty-six percent (46%) shall be allocated to the Board of Governors of The University of North Carolina for repairs and renovations pursuant to G.S. 143-15.3A, in accordance with guidelines developed in The University of North Carolina Funding Allocation Model for Reserve for Repairs and Renovations, as

approved by the Board of Governors of The University of North Carolina, and fifty-four percent (54%) shall be allocated to the Office of State Budget and Management for repairs and renovations pursuant to G.S. 143-15.3A.

Notwithstanding G.S. 143-15.3A, the Board of Governors may allocate funds for the repair and renovation of facilities not supported from the General Fund if the Board determines that sufficient funds are not available from other sources and that conditions warrant General Fund assistance. Any such finding shall be included in the Board's submission to the Joint Legislative Commission on Governmental Operations on the proposed allocation of funds.

The Board of Governors and the Office of State Budget and Management shall submit to the Joint Legislative Commission on Governmental Operations and to the Fiscal Research Division of the Legislative Services Office, for their review, the proposed allocations of these funds. Subsequent changes in the proposed allocations shall be reported prior to expenditure to the Joint Legislative Commission on Governmental Operations and to the Fiscal Research Division of the Legislative Services Office.

Requested by: Representatives Easterling, Oldham, Redwine, Thompson

CAPITAL IMPROVEMENT PROJECTS/SUPPLEMENTAL FUNDING APPROVAL/REPORTING REQUIREMENT

Highway Fund capital improvement projects authorized in this act that have not been placed under contract for construction due to insufficient funds may be supplemented with funds identified by the Director of the Budget, provided:

Provided, however, that if the Director of the Budget increases the cost of a project, the Director shall report that action to the Joint Legislative Commission on Governmental Operations at its next meeting. The increase may be funded from gifts, federal or private grants, special fund receipts, excess patient receipts above those budgeted at the University of North Carolina Hospitals at Chapel Hill, or direct capital improvement appropriations to that department or institution.

Requested by: Representatives Easterling, Oldham, Redwine, Thompson

NEW PROJECT AUTHORIZATION

SECTION 33.9. Upon the request of the administration of any State agency, department, or institution, the Director of the Budget may authorize the construction of

a capital improvement project not specifically authorized by the General Assembly if such project is to be funded by gifts, federal or private grants, special fund receipts, excess patient receipts above those budgeted at the University of North Carolina Hospitals at Chapel Hill, or self-liquidating indebtedness. Prior to authorizing the construction of a capital improvement project pursuant to this section, the Director shall consult with the Joint Legislative Commission on Governmental Operations.

Funds that become available by gifts, excess patient receipts above those budgeted at the University of North Carolina Hospitals at Chapel Hill, federal or private grants, receipts becoming a part of special funds by act of the General Assembly, or any other funds available to a State department or institution may be utilized for advance planning through the working drawing phase of capital improvement projects, upon approval of the Director of the Budget. The Director of the Budget may make allocations from the Advance Planning Fund for advance planning through the working drawing phase of capital improvement projects, except that this revolving fund shall not be utilized by the Board of Governors of The University of North Carolina or the State Board of Community Colleges.

Requested by: Representatives Easterling, Oldham, Redwine, Thompson

APPROPRIATIONS LIMITS/REVERSION OR LAPSE

SECTION 33.11. Except as permitted in previous sections of this act, the appropriations for capital improvements made by the 2001 General Assembly may be expended only for specific projects set out by the 2001 General Assembly and for no other purpose. Construction of all capital improvement projects enumerated by the 2001 General Assembly shall be commenced, or self-liquidating indebtedness with respect to them shall be incurred, within 12 months following the first day of the fiscal year in which the funds are available. If construction contracts on those projects have not been awarded or self-liquidating indebtedness has not been incurred within that period, the direct appropriation for those projects shall revert to the original source, and the self-liquidating appropriation shall lapse; except that direct appropriations may be placed in a reserve fund as authorized in this act. Any motor vehicle manufacturer or distributor who is required to certify his products under the National Traffic and Motor Vehicle Safety Act of 1966, as from time to time amended, may satisfy the provisions of this section by submitting an annual written certification to the Commissioner attesting to the compliance of his vehicles with applicable federal requirements. Failure to comply with the certification requirement or failure to meet the federal standards will subject the manufacturer or distributor to the fee requirements of this subsection.

(g) The Commissioner, notwithstanding any other provision of this Chapter, but subject to the limitations on private license plates established by the General Assembly under G.S. 14-250, may lawfully to the extent necessary provide law-enforcement officers of the Division on special undercover assignments with motor vehicle operator's licenses and motor vehicle registration plates under assumed names using false or fictitious addresses. Such registration plates shall only be used on publicly owned or leased ~~vehicles.~~ vehicles and shall not be used on privately owned vehicles under any circumstances. Requests for these licenses and registration plates shall be made to the Commissioner by the head of the local, State or federal law-enforcement agency and be accompanied by approval in writing from the Director of the State Bureau of Investigation upon a specific finding by the Director that the request is justified and necessary. The Director shall keep a record of all such licenses, registration plates, assumed names, false or fictitious addresses, and law-enforcement officers using the licenses or registration plates, and shall request the immediate return of any license or registration plate that is no longer necessary. (3) Public officials.

Individuals in the aforementioned categories ~~must provide satisfactory evidence~~ shall demonstrate to the ~~Commissioner~~ Director of the State Bureau of Investigation that their personal safety is at ~~risk.~~ risk and provide details supporting that claim. The fact that a person is a law enforcement officer is not sufficient by itself to establish that the person's safety is at risk. The Commissioner shall adopt strict verification procedures to ensure the integrity of the registration system. This file shall be confidential for the use of the Division.

Upon the annual renewal of the registration of a vehicle for which a confidential file has been established under this section, the information placed in that file shall lose its confidential status unless the Commissioner is supplied with information demonstrating that the person's safety remains at risk at the time of renewal.

Private tags issued pursuant to this section are subject to the limitations on private license plates established by the General Assembly under G.S. 14-250 and shall not be placed on privately owned vehicles under any circumstances. The number of confidential license plates issued under this section shall not exceed 500 at any time unless the Commissioner finds that exceptional circumstances exist that justify exceeding that number."

SECTION 6.14.(g) The Division of Motor Vehicles shall report to the Joint Legislative Commission on Governmental Operations by January 1 and July 1 of each year on the number of private plates issued to State-owned vehicles. The report shall show the total number of private plates issued to each agency, the total number of confidential plates issued to each agency, the total number of fictitious plates issued to each agency, and any additional information necessary for an assessment of the agency's compliance with G.S. 14-250.

The North Carolina Partnership for Children, Inc., may carryforward any amount in excess of the required match for a fiscal year in order to meet the match requirement of the succeeding fiscal year. Only in-kind contributions that are quantifiable shall be applied to the in-kind match requirement. Volunteer services may be treated as an in-kind contribution for the purpose of the match requirement of this subsection. Volunteer services that qualify as professional services shall be valued at the fair market value of those services. All other volunteer service hours shall be valued at the statewide average wage rate as calculated from data compiled by the Employment Security Commission in the Employment and Wages in North Carolina Annual Report for the most recent period for which data are available. The North Carolina Partnership for Children, Inc., shall establish uniform guidelines and reporting format for local partnerships to document the qualifying expenses occurring at the contractor level. Local partnerships shall monitor qualifying expenses to ensure they have occurred and meet the requirements prescribed in this subsection.

Failure to obtain a twenty percent (20%) match by June 30 of each fiscal year shall result in a dollar-for-dollar reduction in the appropriation for the Program for a subsequent fiscal year. The North Carolina Partnership for Children, Inc., shall be responsible for compiling information on the private cash and in-kind contributions into a report that is submitted to the Joint Legislative Commission on Governmental Operations in a format that allows verification by the Department of Revenue. The same match requirements shall apply to any expansion funds appropriated by the General Assembly.

SECTION 21.72.(d) Counties participating in the Program may use the county's allocation of State and federal child care funds to subsidize child care according to the county's Early Childhood Education and Development Initiatives Plan as approved by the North Carolina Partnership for Children, Inc. SECTION 21.73.(e) On or before September 30, 2001, payments for the purchase of child care services for low-income children shall be the same as would have resulted under Section 11.27 of S.L. 2000-67. Effective October 1, 2001, payments for the purchase of child care services for low-income children shall be in accordance with the following requirements:

(1) Religious-sponsored child care facilities operating pursuant to G.S. 110-106 and licensed child care centers and homes that meet the minimum licensing standards that are participating in the subsidized child care program shall be paid the one-star county market rate or the rate they charge privately paying parents, whichever is lower.

(1) Payment rates shall be set at the statewide market rate for licensed child care centers and homes.

(2) If it can be demonstrated that the application of the statewide market rate to a county with fewer than 75 children in each age group is lower than the regional market rate and would inhibit the ability of the county to purchase child care for low-income children, then the regional market rate may be applied.

SECTION 21.73.(g) A market rate shall be calculated for child care centers and homes at each rated license level for each county and for each age group or age category of enrollees and shall be representative of fees charged to unsubsidized privately paying parents for each age group of enrollees within the county. The Division of Child Development shall also calculate a statewide rate and regional market rates for each rated license level for each age category.

SECTION 21.73.(h) Facilities licensed pursuant to Article 7 of Chapter 110 of the General Statutes and facilities operated pursuant to G.S. 110-106 may participate in the program that provides for the purchase of care in child care facilities for minor children of needy families. No separate licensing requirements shall be used to select facilities to participate. In addition, child care facilities shall be required to meet any additional applicable requirements of federal law or regulations. Child care arrangements exempt from State regulation pursuant to Article 7 of Chapter 110 of the General Statutes shall meet the requirements established by other State law and by the Social Services Commission.

County departments of social services or other local contracting agencies shall not use a provider's failure to comply with requirements in addition to those specified in this subsection as a condition for reducing the provider's subsidized child care rate.

SECTION 21.73.(j) Noncitizen families who reside in this State legally shall be eligible for child care subsidies if all other conditions of eligibility are met. The Department of Correction may also consider converting some of the units recommended for closing from medium security to minimum security, where that conversion would be cost-effective. SUPPLEMENTAL FUNDING IN LOW-WEALTH COUNTIES

SECTION 28.6.(a) Funds for Supplemental Funding. – The General Assembly finds that it is appropriate to provide supplemental funds in low-wealth counties to allow those counties to enhance the instructional program and student achievement; therefore, funds are appropriated to State Aid to Local School Administrative Units for the 2001-2002 fiscal year and the 2002-2003 fiscal year to be used for supplemental funds for schools.

Local boards of education are encouraged to use at least twenty-five percent (25%) of the funds received pursuant to this section to improve the academic performance of children who are performing at Level I or II on either reading or

mathematics end-of-grade tests in grades 3-8 and children who are performing at Level I or II on the writing tests in grades 4 and 7. Local boards of education shall report to the State Board of Education on an annual basis on funds used for this purpose, and the State Board shall report this information to the Joint Legislative Education Oversight Committee.    b. Adjust the resulting amount by multiplying by a weighted average of the three most recent annual sales assessment ratio studies,

If real property in a county has been revalued one year prior to the most recent sales assessment ratio study, a weighted average of the two most recent sales assessment ratios shall be used. If property has been revalued the year of the most recent sales

assessment ratio study, the sales assessment ratio for the year of revaluation shall be used.

SECTION 28.6.(d) Eligibility for Funds. – Except as provided in subsection (h) of this section, the State Board of Education shall allocate these funds to local school administrative units located in whole or in part in counties in which the county wealth as a percentage of the State average wealth is less than one hundred percent (100%).

SECTION 28.6.(e) Allocation of Funds. – Except as provided in subsection (g) of this section, the amount received per average daily membership for a county shall be the difference between the State average current expense appropriations per student and the current expense appropriations per student that the county could provide given the county's wealth and an average effort to fund public schools. (To derive the current expense appropriations per student that the county could be able to provide given the county's wealth and an average effort to fund public schools, multiply the county wealth as a percentage of State average wealth by the State average current expense appropriations per student.)

The funds for the local school administrative units located in whole or in part in the county shall be allocated to each local school administrative unit, located in whole or in part in the county, based on the average daily membership of the county's students in the school units.

SECTION 28.6.(f) Formula for Distribution of Supplemental Funding Pursuant to This Section Only. – The formula in this section is solely a basis for distribution of supplemental funding for low-wealth counties and is not intended to reflect any measure of the adequacy of the educational program or funding for public schools. The formula is also not intended to reflect any commitment by the General Assembly to appropriate any additional supplemental funds for low-wealth counties.

SECTION 28.6.(g) Minimum Effort Required. – Counties that had effective tax rates in the 1996-97 fiscal year that were above the State average effective tax rate but that had effective rates below the State average in the 1997-98 fiscal year or thereafter shall receive reduced funding under this section. This reduction in funding shall be determined by subtracting the amount that the county would have received pursuant to Section 17.1(g) of Chapter 507 of the 1995 Session Laws from the amount that the county would have received if qualified for full funding and multiplying the difference by ten percent (10%). This method of calculating reduced funding shall apply one time only.

This method of calculating reduced funding shall not apply in cases in which the effective tax rate fell below the statewide average effective tax rate as a result of a reduction in the actual property tax rate. In these cases, the minimum effort required shall be calculated in accordance with Section 17.1(g) of Chapter 507 of the 1995 Session Laws.

If the county documents that it has increased the per student appropriation to the school current expense fund in the current fiscal year, the State Board of Education shall include this additional per pupil appropriation when calculating minimum effort pursuant to Section 17.1(g) of Chapter 507 of the 1995 Session Laws.

SECTION 28.6.(h) Nonsupplant Requirement. – A county in which a local school administrative unit receives funds under this section shall use the funds to supplement local current expense funds and shall not supplant local current expense funds. For the 2001-2003 fiscal biennium, the State Board of Education shall not allocate funds under this section to a county found to have used these funds to supplant local per student current expense funds. The State Board of Education shall make a

finding that a county has used these funds to supplant local current expense funds in the prior year, or the year for which the most recent data are available, if:

(1) The current expense appropriation per student of the county for the current year is less than ninety-five percent (95%) of the average of the local current expense appropriations per student for the three prior fiscal years; and

(2) The county cannot show (i) that it has remedied the deficiency in funding, or (ii) that extraordinary circumstances caused the county to supplant local current expense funds with funds allocated under this section.

The State Board of Education shall adopt rules to implement this section.

SECTION 28.6.(i) Reports. – The State Board of Education shall report to the Joint Legislative Education Oversight Committee prior to May 1, 2002, if it determines that counties have supplanted funds.

SECTION 28.6.(j) Department of Revenue Reports. – The Department of Revenue shall provide to the Department of Public Instruction a preliminary report for the current fiscal year of the assessed value of the property tax base for each county prior to March 1 of each year and a final report prior to May 1 of each year. The reports shall include for each county the annual sales assessment ratio and the taxable values of (i) total real property, (ii) the portion of total real property represented by the present-use value of agricultural land, horticultural land, and forestland as defined in G.S. 105-277.2, (iii) property of public service companies determined in accordance with Article 23 of Chapter 105 of the General Statutes, and (iv) personal property.

SMALL SCHOOL SYSTEM SUPPLEMENTAL FUNDING

SECTION 28.7.(a) Funds for Small School Systems. – Except as provided in subsection (b) of this section, the State Board of Education shall allocate funds appropriated for small school system supplemental funding (i) to each county school administrative unit with an average daily membership of fewer than 3,175 students and (ii) to each county school administrative unit with an average daily membership of from 3,175 to 4,000 students if the county in which the local school administrative unit is located has a county-adjusted property tax base per student that is below the State-adjusted property tax base per student and if the total average daily membership of all local school administrative units located within the county is from 3,175 to 4,000 students. The allocation formula shall:

(1) Round all fractions of positions to the next whole position.

(2) Provide five and one-half additional regular classroom teachers in counties in which the average daily membership per square mile is greater than four, and seven additional regular classroom teachers in counties in which the average daily membership per square mile is four or fewer.

(3) Provide additional program enhancement teachers adequate to offer the standard course of study.

(4) Change the duty-free period allocation to one teacher assistant per 400 average daily membership.

(5) Provide a base for the consolidated funds allotment of at least four hundred sixty-six thousand dollars ($466,000) excluding textbooks.

(6) Allot vocational education funds for grade 6 as well as for grades 7-12.

If funds appropriated for each fiscal year for small school system supplemental funding are not adequate to fund fully the program, the State Board of Education shall reduce the amount allocated to each county school administrative unit

on a pro rata basis. This formula is solely a basis for distribution of supplemental funding for certain county school administrative units and is not intended to reflect any measure of the adequacy of the educational program or funding for public schools. The formula is also not intended to reflect any commitment by the General Assembly to appropriate any additional supplemental funds for such county administrative units.

SECTION 28.7.(b) Nonsupplant Requirement. – A county in which a local school administrative unit receives funds under this section shall use the funds to supplement local current expense funds and shall not supplant local current expense funds. For the 2001-2003 fiscal biennium, the State Board of Education shall not allocate funds under this section to a county found to have used these funds to supplant local per student current expense funds. The State Board of Education shall make a finding that a county has used these funds to supplant local current expense funds in the prior year, or the year for which the most recent data are available, if:

(1) The current expense appropriation per student of the county for the current year is less than ninety-five percent (95%) of the average of the local current expense appropriations per student for the three prior fiscal years; and

(2) The county cannot show (i) that it has remedied the deficiency in funding, or (ii) that extraordinary circumstances caused the county to supplant local current expense funds with funds allocated under this section.

The State Board of Education shall adopt rules to implement this section.

SECTION 28.7.(c) Phase-Out Provisions. – If a local school administrative unit becomes ineligible for funding under this formula solely because of an increase in the county-adjusted property tax base per student of the county in which the local school administrative unit is located, funding for that unit shall be phased out over a two-year period. For the first year of ineligibility, the unit shall receive the same amount it received for the prior fiscal year. For the second year of ineligibility, it shall receive one-half of that amount.

If a local school administrative unit becomes ineligible for funding under this formula solely because of an increase in the population of the county in which the local school administrative unit is located, funding for that unit shall be continued for five years after the unit becomes ineligible.

SECTION 28.7.(d) Definitions. – As used in this section:

(1) "Average daily membership" means within two percent (2%) of the average daily membership as defined in the North Carolina Public Schools Allotment Policy Manual, adopted by the State Board of Education.

(2) "County-adjusted property tax base per student" means the total assessed property valuation for each county, adjusted using a weighted average of the three most recent annual sales assessment ratio studies, divided by the total number of students in average daily membership who reside within the county.

(2a) "Local current expense funds" means the most recent county current expense appropriations to public schools, as reported by local boards of education in the audit report filed with the Secretary of the Local Government Commission pursuant to G.S. 115C-447.

(3) "Sales assessment ratio studies" means sales assessment ratio studies performed by the Department of Revenue under G.S. 105-289(h).

(4) "State adjusted property tax base per student" means the sum of all county adjusted property tax bases divided by the total number of students in average daily membership who reside within the State.

(5) "Weighted average of the three most recent annual sales assessment ratio studies" means the weighted average of the three most recent annual sales assessment ratio studies in the most recent years for which county current expense appropriations and adjusted property tax valuations are available. If real property in a county has been revalued one year prior to the most recent sales assessment ratio study, a weighted average of the two most recent sales assessment ratios shall be used. If property has been revalued during the year of the most recent sales assessment ratio study, the sales assessment ratio for the year of revaluation shall be used.

SECTION 28.7.(e) Reports. – The State Board of Education shall report to the Joint Legislative Education Oversight Committee prior to May 1, 2002, if it determines that counties have supplanted funds.

SECTION 28.7.(f) Use of Funds. – Local boards of education are encouraged to use at least twenty percent (20%) of the funds they receive pursuant to this section to improve the academic performance of children who are performing at Level I or II on either reading or mathematics end-of-grade tests in grades 3-8 and children who are performing at Level I or II on the writing tests in grades 4 and 7. Local boards of education shall report to the State Board of Education on an annual basis on funds used for this purpose and the State Board shall report this information to the Joint Legislative Education Oversight Committee. STUDENTS WITH LIMITED ENGLISH PROFICIENCY

SECTION 28.9.(a) The State Board of Education shall develop guidelines for identifying and providing services to students with limited proficiency in the English language.

The State Board shall allocate these funds to local school administrative units and to charter schools under a formula that takes into account the average percentage of students in the units or the charters over the past three years who have limited English proficiency. The State Board shall allocate funds to a unit or a charter school only if (i) average daily membership of the unit or the charter school includes at least 20 students with limited English proficiency or (ii) students with limited English proficiency comprise at least two and one-half percent (2 1/2%) of the average daily membership of the unit or charter school. FAIRNESS IN TESTING PROGRAM

SECTION 28.17.(a) The State Board of Education shall provide the Joint Legislative Education Oversight Committee with a detailed analysis of the current resources allocated to meet the needs of all students subject to the Statewide Student Accountability Standards, and in addition, shall submit recommendations regarding other resources that would best assist students in meeting these new standards.

SECTION 28.17.(b) G.S. 115C-288(a) reads as rewritten:

"(a) To Grade and Classify Pupils. – The principal shall have authority to grade and classify ~~pupils except a~~ pupils. In determining the appropriate grade for a pupil who is already attending a public school, the principal shall consider the pupil's classroom work and grades, the pupil's scores on standardized tests, and the best educational interests of the pupil. The principal shall not make the decision solely on the basis of standardized test scores. If a principal's decision to retain a child in the same grade is partially based on the pupil's scores on standardized tests, those test scores shall be verified as accurate.

A principal shall not require additional testing of a student entering a public school from a school governed under Article 39 of this Chapter if test scores from a nationally standardized test or nationally standardized equivalent measure that are adequate to determine the appropriate placement of the child are available."

SECTION 28.17.(c) G.S. 115C-47 is amended by adding a new subdivision to read:

"**§ 115C-47. Powers and duties generally.**

In addition to the powers and duties designated in G.S. 115C-36, local boards of education shall have the power or duty:

...

(39) To Provide a Right to Appeal the Decision to Retain a Child. – If local board policy requires that a child be retained at a grade level or that a child attend summer school, based on the child's standardized test scores, that local policy shall also provide the child's parent or guardian the right to appeal the decision to that local board. SECTION 28.17.(d) The State Board of Education shall study the benefits of providing students' parents or guardians with copies of tests administered to their children under the Statewide Testing Program. The Board shall also consider the costs of maintaining the integrity and reliability of the tests if such a policy is implemented. The Board shall report the results of this study to the Joint Legislative Education Oversight Committee by March 31, 2002.

SECTION 28.17.(e) Part 3 of Article 8B of Chapter 115C of the General Statutes is amended by adding the following new section to read:

"**§ 115C-105.41. Students who have been placed at risk of academic failure; personal education plans.**

Local school administrative units shall identify students in all grades who have been placed at risk for academic failure and implement a personal education plan for academic improvement with focused intervention and performance benchmarks. Identification shall occur as early as can reasonably be done and can be based on grades, observations, State assessments, and other factors that impact student performance that teachers and administrators consider appropriate, without having to await the results of end-of-grade or end-of-course tests. At the beginning of the school year, a personal education plan shall be developed for any student not performing at least at grade level, as identified by the State end-of-grade test. Focused intervention and accelerated activities should include research-based best practices that meet the needs of students and may include coaching, mentoring, tutoring, summer school, Saturday school, and extended days. Local school administrative units shall provide these activities and transportation free of charge to students. Parents should be included in the implementation and ongoing review of personal education plans."

SECTION 28.17.(f) G.S. 115C-174.12(a) reads as rewritten:

"(a) ~~The State Board of Education shall review the tests being administered through State and local testing programs and shall select the tests that it believes are necessary to provide the best measures of the levels of academic achievement attained by students in various subject areas.~~ The State Board of Education shall ~~also~~ establish policies and guidelines necessary for minimizing the time students spend taking tests administered through State and local testing programs and for otherwise carrying out the provisions of this Article. The State Board of Education's policies regarding the testing of children with disabilities shall (i) provide broad accommodations and alternate methods of assessment that are consistent with a child's individualized education program and Section 504 plans, (ii) prohibit the use of statewide tests as the sole determinant of decisions about a child's graduation or promotion, and (iii) provide parents with information about the Statewide Testing Program and options for students with disabilities. The State Board shall report its proposed policies and proposed changes in policies to the Joint Legislative Education Oversight Committee prior to adoption."

SECTION 28.17.(g) Schools shall devote no more than two days of instructional time per year to the taking of practice tests that do not have the primary purpose of assessing current student learning.

SECTION 28.17.(h) Students in a local school shall not be subject to field tests or national tests during the two-week period preceding the administration of the end-of-grade tests, end-of-course tests, or the school's regularly scheduled final exams. No school shall participate in more than two field tests at any one grade level during a school year.

SECTION 28.17.(i) The Joint Legislative Education Oversight Committee shall study the State's testing program. As part of this study, the Committee shall consider:

(1) The number of tests currently mandated at the State level and the process and cost of developing, validating, and scoring them.

(2) The extent to which the provisions of the Excellent Schools Act regarding testing have been implemented, and this shall be reported to the General Assembly. In determining whether the State should consider the use of nationally developed tests as a substitute for State-developed testing, the Committee shall consider the testing provisions of the Excellent Schools Act. In particular, the Committee shall determine whether this use would (i) affect the ABCs Program, (ii) adequately measure student achievement and performance, (iii) provide more than minimum levels of achievement, (iv) provide a better comparison to student achievement and performance in other states, (v) be practical for high school courses or higher level courses, (vi) reduce the need for field testing, and (vii) offer any cost savings to the State.

(3) The number of grades in which State tests are given. The Committee shall determine the necessity for testing all grades in third through eighth grades, whether a reduction in the grades tested would affect the receipt of federal money, and the extent to which a reduction would impair the State's ability to identify schools under the ABCs Program.

(4) The high school courses for which State tests are given and whether there is an appropriate distribution of tests across grades nine through 12 and that test an appropriate array of the minimum courses required for admission to the constituent institutions of The University of North Carolina. In addition, the Committee shall examine whether students who take higher level courses and students in 12th grade are held accountable for their academic growth and performance.

(5) The advantages and disadvantages of using a composite of end-of-course tests or other tests such as the SAT, AP tests, or other nationally standardized tests in high school rather than developing a high school exit exam. If the Committee finds a high school exit exam is preferable, then it shall determine whether it must be administered to all students or limited to certain students, for example, those who don't take the SAT or a certain number of courses for which there are end-of-course tests.

(6) The extent to which additional testing, including field testing, practice testing, and locally mandated testing, is occurring and whether this should be limited or prohibited.

(7) Any other issue the Committee considers relevant.

The Committee shall report its findings and any recommendations, including recommended legislation, to the 2002 Regular Session of the 2001 General Assembly.

SECTION 28.17.(j) The State Board of Education shall develop and report to the Joint Legislative Education Oversight Committee on its objectives for the Statewide Testing Program and on the implementation of that Program. The report shall include:

(1) A statement of the relationship between these objectives and the tests currently administered under the Program;
(2) An analysis of whether the current tests appropriately achieve these objectives;
(3) A statement of any actions that may be needed to coordinate the objectives and the tests more effectively; and
(4) Strategies for communicating the objectives of the Program, the tests administered under the Program, and the relationship between these objectives and tests to principals, teachers, parents, and students throughout the State.

SECTION 28.17.(k) G.S. 115C-105.48 is amended by adding the following new subsection to read:

"(c) When a student is placed in an alternative school or an alternative learning program, the referring school shall continue to be held accountable under Part 3 of Article 8B of this Chapter for that student's educational performance and growth. The alternative school or school in which the alternative learning program is located may also be held accountable under Part 3 of Article 8B of this Chapter for that student's educational performance and growth."

An individual employed solely to serve as a mentor shall receive a payment for each individual, up to 15 individuals, to whom the mentor is assigned. The amount of each such payment shall be the same as the amount of the salary supplement for a mentor.

SECTION 28.18.(b) The Charlotte-Mecklenburg Board of Education, the Forsyth County Board of Education, and the Wake County Board of Education shall report to the State Board of Education on an annual basis on the impact that the mentor program has had on retention of teachers. The State Board shall report on this information to the Joint Legislative Education Oversight Committee.

The State Board of Education shall phase out this special allotment in subsequent fiscal years by decreasing the amount of the special allotment each year by the amount of the prior year's funding loss.

SECTION 28.20.(b) A local school administrative unit that received funds for the 2000-2001 fiscal year pursuant to Section 8.5 of S.L. 2000-67 to reduce the loss of funds due to shifts of enrollment to charter schools shall continue to receive funds for the 2001-2002 fiscal year in the amount of one hundred percent (100%) of the 2000-2001 allotment and for the 2002-2003 fiscal year in the amount of fifty percent (50%) of the 2000-2001 allotment.

SECTION 28.21. If a claim for Medicaid outreach reimbursement that was submitted by a local school administrative unit and paid by a federal agency is later found by that agency to be inappropriate, the Department of Public Instruction shall request that the federal agency offset the overpaid amount against the next quarterly reimbursement due to the local school administrative unit. If the federal agency does not allow the offset, the Department of Public Instruction shall request repayment from the local school administrative unit, as provided for in agreements between the Department of Public Instruction and the local school administrative unit or, in the case of a local interagency agreement, agreements among local school administrative units. If the local school administrative unit that received the overpayment fails to repay the overpaid moneys within the time permitted under such agreements, the Department of Public Instruction may withhold the overpaid amount from State funds allocated for the central office of the local school administrative unit.

ACADEMIC COMMON MARKET PILOT PROGRAM

SECTION 31.2.(a) The Southern Regional Education Board currently operates an Academic Common Market program. Under this program, qualified students from participating states may apply to attend programs at public universities in participating states that are not available in their home state's university system. North Carolina's participation for graduate programs would provide a cost-effective means of offering educational access for North Carolina residents. SECTION 31.2.(b) The Board of Governors of The University of North Carolina may establish a pilot program for participation in the Southern Regional Education Board's Academic Common Market at the graduate program level. The Board of Governors shall examine the graduate programs offered in The University of North Carolina system and select for participation only those graduate programs that are likely to be unique or are not commonly available in other Southern Regional Education Board states. Out-of-state tuition shall be waived for students who are residents of other Southern Regional Education Board states and who are participating in the Academic Common Market program. If accepted into The University of North Carolina graduate programs that are part of the Academic Common Market, these students shall pay in-State tuition and shall be treated for all purposes of The University of North Carolina as residents of North Carolina. Prior to the beginning of this pilot, the Board of Governors shall submit its list of graduate programs selected to be a part of the pilot program to the Joint Legislative Education Oversight Committee.

SECTION 31.2.(c) The pilot programs established under this section shall terminate July 1, 2005. However, once a student is enrolled in The University of North Carolina system under the Academic Common Market program, the student shall be entitled to pay in-State tuition as long as the student is enrolled in that graduate program. The Board of Governors shall report the success of the Academic Common Market program to the Joint Legislative Education Oversight Committee by December 31, 2003, and by January 31, 2005, and the Committee may recommend changes, if any are appropriate, to the pilot program at either of those times.

In addition to this basic disbursement for each year of the biennium, a disbursement of one thousand dollars ($1,000) shall be made for each medical student who is a North Carolina resident in the first-year, second-year, third-year, and fourth-year classes to the extent that enrollment of each of those classes exceeds 30 North Carolina students.

(d) The Board of Governors shall establish the criteria for determining the eligibility for financial aid of needy North Carolina students who are enrolled in the medical schools and shall review the grants or awards to eligible students. The Board of Governors shall adopt rules for determining which students are residents of North Carolina for the purposes of these programs. The Board of Governors shall also make any regulations as necessary to ensure that these funds are used directly for instruction in the medical programs of the schools and not for religious or other nonpublic purposes. The Board of Governors shall encourage the two schools to orient students toward primary care, consistent with the directives of G.S. 143-613(a). The two schools shall supply information necessary for the Board to comply with G.S. 143-613(d).
