SECTION 32.33.(a) G.S. 135-5(l) reads as rewritten:

"(l) Death Benefit Plan. – There is hereby created a Group Life Insurance Plan (hereinafter called the "Plan") which is established as an employee welfare benefit plan that is separate and apart from the Retirement System and under which the members of the Retirement System shall participate and be eligible for group life insurance benefits. Upon receipt of proof, satisfactory to the Board of Trustees in their capacity as trustees under the Group Life Insurance Plan, of the death, in service, of a member who had completed at least one full calendar year of membership in the Retirement System, there shall be paid to such person as he shall have nominated by written designation duly acknowledged and filed with the Board of Trustees, if such person is living at the time of the member's death, otherwise to the member's legal representatives, a death benefit. Such death benefit shall be equal to the greater of:

(1) The compensation on which contributions were made by the member during the calendar year preceding the year in which his death occurs, or

(2) The greatest compensation on which contributions were made by the member during a 12-month period of service within the 24-month period of service ending on the last day of the month preceding the month in which his last day of actual service occurs;

(3), (4) Repealed by Session Laws 1983 (Regular Session, 1984), c. 1049, s. 2.

subject to a minimum of twenty-five thousand dollars ($25,000) and to a maximum of fifty thousand dollars ($50,000). Such death benefit shall be payable apart and separate from the payment of the member's accumulated contributions under the System on his death pursuant to the provisions of subsection (f) of this section. For the purpose of the Plan, a member shall be deemed to be in service at the date of his death if his death occurs within 180 days from the last day of his actual service.

The death benefit provided in this subsection (l) shall not be payable, notwithstanding the member's compliance with all the conditions set forth in the preceding paragraph, if his death occurs

(1) After December 31, 1968 and after he has attained age 70; or
(2) After December 31, 1969 and after he has attained age 69; or
(3) After December 31, 1970 and after he has attained age 68; or
(4) After December 31, 1971 and after he has attained age 67; or
(5) After December 31, 1972 and after he has attained age 66; or
(6) After December 31, 1973 and after he has attained age 65; or
(7) After December 31, 1978, but before January 1, 1987, and after he has attained age 70.

Notwithstanding the above provisions, the death benefit shall be payable on account of the death of any member who died or dies on or after January 1, 1974, but before January 1, 1979, after attaining age 65, if he or she had not yet attained age 65, if he or

she had not yet attained age 66, was at the time of death completing the work year for those individuals under specific contract, or during the fiscal year for those individuals not under specific contract, in which he or she attained 65, and otherwise met all conditions for payment of the death benefit.

Notwithstanding the above provisions, the Board of Trustees may and is specifically authorized to provide the death benefit according to the terms and conditions otherwise appearing in this Plan in the form of group life insurance, either (i) by purchasing a contract or contracts of group life insurance with any life insurance company or companies licensed and authorized to transact business in this State for the purpose of insuring the lives of members in service, or (ii) by establishing a separate trust fund qualified under Section 501(c)(9) of the Internal Revenue Code of 1954, as amended, for such purpose. To that end the Board of Trustees is authorized, empowered and directed to investigate the desirability of utilizing group life insurance by either of the foregoing methods for the purpose of providing the death benefit. If a separate trust fund is established, it shall be operated in accordance with rules and regulations adopted by the Board of Trustees and all investment earnings on the trust fund shall be credited to such fund.

In administration of the death benefit the following shall apply:

(1) For the purpose of determining eligibility only, in this subsection "calendar year" shall mean any period of 12 consecutive months or, if less, the period covered by an annual contract of employment. For all other purposes in this subsection "calendar year" shall mean the 12 months beginning January 1 and ending December 31.

(2) Last day of actual service shall be:

a. When employment has been terminated, the last day the member actually worked.

b. When employment has not been terminated, the date on which an absent member's sick and annual leave expire, unless he is on approved leave of absence and is in service under the provisions of G.S. 135-4(h).

(3) For a period when a member is on leave of absence, his status with respect to the death benefit will be determined by the provisions of G.S. 135-4(h).

(4) A member on leave of absence from his position as a teacher or State employee for the purpose of serving as a member or officer of the General Assembly shall be deemed to be in service during sessions of the General Assembly and thereby covered by the provisions of the death benefit. The amount of the death benefit for such member shall be the equivalent of the salary to which the member would have been entitled as a teacher or State employee during the 12-month period immediately prior to the month in which death occurred, not to be less than twenty-five thousand dollars ($25,000) nor to exceed fifty thousand dollars ($50,000).

The provisions of the Retirement System pertaining to Administration, G.S. 135-6, and management of funds, G.S. 135-7, are hereby made applicable to the Plan.

A member who is a beneficiary of the Disability Income Plan provided for in Article 6 of this Chapter shall be eligible for group life insurance benefits as provided in this subsection, notwithstanding that the member is no longer an employee or teacher or that the member's death occurs after the eligibility period after active service. The basis of the death benefit payable hereunder shall be the higher of the death benefit computed as above or a death benefit based on compensation used in computing the benefit payable under G.S. 135-105 and G.S. 135-106, as may be adjusted for percentage post-disability increases, all subject to the maximum dollar limitation as provided above. A member in

receipt of benefits from the Disability Income Plan under the provisions of G.S. 135-112 whose right to a benefit accrued under the former Disability Salary Continuation Plan shall not be covered under the provisions of this paragraph.

This death benefit shall be a lump-sum payment in the amount of five thousand dollars ($5,000) upon the completion of twenty-four months of contributions required under this subsection. Should death occur before the completion of twenty-four months of contributions required under this subsection, the deceased retired member's surviving spouse or legal representative if not survived by a spouse shall be paid the sum of the retired member's contributions required by this subsection plus interest to be determined by the Board of Trustees.

This death benefit shall be a lump-sum payment in the amount of six thousand dollars ($6,000) upon the completion of 24 months of contributions required under this subsection. Should death occur before the completion of 24 months of contributions required under this subsection, the deceased retired member's surviving spouse or legal representative if not survived by a spouse shall be paid the sum of the retired member's contributions required by this subsection plus interest to be determined by the Board of Trustees. Payment of this lump-sum amount shall be made to the deceased retired member's surviving spouse or to the member's legal representative if the member is not survived by a spouse, provided the deceased retired member had not, prior to the member's death, instructed the Board of Trustees in writing that the member did not want the lump-sum payment made to the member's surviving spouse, and that payment should be paid to the member's legal representative as if the member were not survived by a spouse."

SECTION 32.33.(b) G.S. 135-64(h) reads as rewritten:

"(h) Upon the death of a retired member on or after January 1, 1999, there shall be paid a death benefit to the surviving spouse of a deceased retired member or to the deceased retired member's legal representative if not survived by a spouse; provided the retired member has elected, when first eligible, to make, and has continuously made, in advance of his death required contributions as determined by the Board of Trustees on a fully contributory basis, through retirement allowance deductions or other methods adopted by the Board of Trustees, to a group death benefit trust fund administered by the Board of Trustees separate and apart from the Retirement System's Annuity Savings Fund and Pension Accumulation Fund. The expenditure of funds for fixed and movable equipment and furnishings shall be reviewed and approved by the Director of the Budget prior to commitment of funds.

Capital improvement projects authorized by the 2001 General Assembly shall be completed, including fixed and movable equipment and furnishings, within the limits of the amounts of the direct or self-liquidating appropriations provided, except as otherwise provided in this act. Capital improvement projects authorized by the 2001 General Assembly for the design phase only shall be designed within the scope of the project as defined by the approved cost estimate filed with the Director of the Budget, including costs associated with site preparation, demolition, and movable and fixed equipment.

ENCUMBERED APPROPRIATIONS AND PROJECT RESERVE FUNDS

SECTION 33.5. When each capital improvement project appropriated by the 2001 General Assembly, other than those projects under the Board of Governors of The University of North Carolina, is placed under a construction contract, direct appropriations shall be encumbered to include all costs for construction, design, investigation, administration, movable equipment, and a reasonable contingency. Unencumbered direct appropriations remaining in the project budget shall be placed in a project reserve fund credited to the Office of State Budget and Management. Funds in the project reserve may be used for emergency repair and renovation projects at State facilities with the approval of the Director of the Budget. The project reserve fund may be used, at the discretion of the Director of the Budget, to allow for award of contracts where bids exceed appropriated funds, if those projects supplemented were designed within the scope intended by the applicable appropriation or any authorized change in it, and if, in the opinion of the Director of the Budget, all means to award contracts within the appropriation were reasonably attempted. At the discretion of the Director of the Budget, any balances in the project reserve fund shall revert to the original source.

Requested by: Representatives Easterling, Oldham, Redwine, Thompson

EXPENDITURES OF FUNDS FROM THE RESERVE FOR REPAIRS AND RENOVATIONS

SECTION 33.6. Of the funds in the Reserve for Repairs and Renovations for the 2001-2002 fiscal year, forty-six percent (46%) shall be allocated to the Board of Governors of The University of North Carolina for repairs and renovations pursuant to G.S. 143-15.3A, in accordance with guidelines developed in The University of North Carolina Funding Allocation Model for Reserve for Repairs and Renovations, as approved by the Board of Governors of The University of North Carolina, and fifty-four percent (54%) shall be allocated to the Office of State Budget and Management for repairs and renovations pursuant to G.S. 143-15.3A.

Notwithstanding G.S. 143-15.3A, the Board of Governors may allocate funds for the repair and renovation of facilities not supported from the General Fund if the Board determines that sufficient funds are not available from other sources and that conditions warrant General Fund assistance. Any such finding shall be included in the Board's submission to the Joint Legislative Commission on Governmental Operations on the proposed allocation of funds.

The Board of Governors and the Office of State Budget and Management shall submit to the Joint Legislative Commission on Governmental Operations and to the Fiscal Research Division of the Legislative Services Office, for their review, the proposed allocations of these funds. Subsequent changes in the proposed allocations shall be reported prior to expenditure to the Joint Legislative Commission on Governmental Operations and to the Fiscal Research Division of the Legislative Services Office.

CAPITAL IMPROVEMENT PROJECTS/SUPPLEMENTAL FUNDING APPROVAL/REPORTING REQUIREMENT

SECTION 33.7. Each department receiving capital improvement appropriations from the Highway Fund under this act shall report quarterly to the Director of the Budget on the status of those capital projects. The reporting procedure to be followed shall be developed by the Director of the Budget.

Highway Fund capital improvement projects authorized in this act that have not been placed under contract for construction due to insufficient funds may be supplemented with funds identified by the Director of the Budget, provided:

(1) That the project was designed and bid within the scope as authorized by the General Assembly;

(2) That the funds to supplement the project are from the same source as authorized for the original project;

(3) That the department to which the project was authorized has unsuccessfully pursued all statutory authorizations to award the contract; and

(4) That the action be reported to the Fiscal Research Division of the Legislative Services Office.

Requested by: Representatives Easterling, Oldham, Redwine, Thompson

PROJECT COST INCREASE

SECTION 33.8. Upon the request of the administration of a State agency, department, or institution, the Director of the Budget may, when in the Director's opinion it is in the best interest of the State to do so, increase the cost of a capital improvement project. Provided, however, that if the Director of the Budget increases the cost of a project, the Director shall report that action to the Joint Legislative Commission on Governmental Operations at its next meeting. The increase may be funded from gifts, federal or private grants, special fund receipts, excess patient receipts

above those budgeted at the University of North Carolina Hospitals at Chapel Hill, or direct capital improvement appropriations to that department or institution.

Requested by: Representatives Easterling, Oldham, Redwine, Thompson

NEW PROJECT AUTHORIZATION

SECTION 33.9. Upon the request of the administration of any State agency, department, or institution, the Director of the Budget may authorize the construction of a capital improvement project not specifically authorized by the General Assembly if such project is to be funded by gifts, federal or private grants, special fund receipts, excess patient receipts above those budgeted at the University of North Carolina Hospitals at Chapel Hill, or self-liquidating indebtedness. Prior to authorizing the construction of a capital improvement project pursuant to this section, the Director shall consult with the Joint Legislative Commission on Governmental Operations.

Requested by: Representatives Easterling, Oldham, Redwine, Thompson

ADVANCE PLANNING OF CAPITAL IMPROVEMENT PROJECTS

SECTION 33.10. Funds that become available by gifts, excess patient receipts above those budgeted at the University of North Carolina Hospitals at Chapel Hill, federal or private grants, receipts becoming a part of special funds by act of the General Assembly, or any other funds available to a State department or institution may be utilized for advance planning through the working drawing phase of capital improvement projects, upon approval of the Director of the Budget. The Director of the Budget may make allocations from the Advance Planning Fund for advance planning through the working drawing phase of capital improvement projects, except that this revolving fund shall not be utilized by the Board of Governors of The University of North Carolina or the State Board of Community Colleges.

Requested by: Representatives Easterling, Oldham, Redwine, Thompson

APPROPRIATIONS LIMITS/REVERSION OR LAPSE

SECTION 33.11. Except as permitted in previous sections of this act, the appropriations for capital improvements made by the 2001 General Assembly may be expended only for specific projects set out by the 2001 General Assembly and for no other purpose. Construction of all capital improvement projects enumerated by the 2001 General Assembly shall be commenced, or self-liquidating indebtedness with respect to them shall be incurred, within 12 months following the first day of the fiscal year in which the funds are available. If construction contracts on those projects have not been awarded or self-liquidating indebtedness has not been incurred within that period, the direct appropriation for those projects shall revert to the original source, and the self-liquidating appropriation shall lapse; except that direct appropriations may be placed in a reserve fund as authorized in this act. This deadline with respect to both direct and self-liquidating appropriations may be extended with the approval of the Director of the Budget up to an additional 12 months if circumstances and conditions warrant such extension.

COMMITTEE REPORT

SECTION 36.2.(a) The House Appropriations Committee Report on the Continuation, Expansion and Capital Budgets, dated June 25, 2001, which was distributed in the Senate and House of Representatives and used to explain this act, shall indicate action by the General Assembly on this act and shall therefore be used to construe this act, as provided in G.S. 143-15 of the Executive Budget Act, and for these purposes shall be considered a part of this act and as such shall be printed as a part of the Session Laws.

SECTION 36.2.(b) The budget enacted by the General Assembly for the maintenance of the various departments, institutions, and other spending agencies of the State for the 2001-2003 fiscal biennium is a line item budget, in accordance with the Budget Code Structure and the State Accounting System Uniform Chart of Accounts set out in the Administrative Policies and Procedures Manual of the Office of the State Controller. This budget includes the appropriations made from all sources including the General Fund, Highway Fund, special funds, cash balances, federal receipts, and departmental receipts.

The Director of the Budget submitted the itemized budget requests to the General Assembly on March 12, 2001, in the document, "The North Carolina State Budget, Summary of Recommendations for 2001-2003". The beginning appropriation for the 2001-2002 fiscal year and the 2002-2003 fiscal year for the various departments, institutions, and other spending agencies of the State is referenced in this document as the recurring baseline budget. The recurring baseline budget was derived from the December 31, 2000, authorized budget by applying adjustments for nonrecurring items, building reserves, enrollment and entitlement changes, and transfers between budget codes.

The General Assembly revised the recurring baseline budget for the 2001-2002 fiscal year and the 2002-2003 fiscal year submitted by the Director of the Budget, in accordance with the steps that follow, and the line item detail in the budget enacted by the General Assembly may be derived accordingly:

(1) The recurring baseline budget was revised in accordance with reductions and additions that were set out in the House Appropriations Committee Report on the Continuation, Expansion and Capital Budget, dated June 25, 2001, together with any accompanying correction sheets.

(2) Transfers of funds supporting programs were made in accordance with the House Appropriations Committee Report on the Continuation, Expansion and Capital Budget, dated June 25, 2001, together with any accompanying correction sheets.

SECTION 36.2.(c) The budget enacted by the General Assembly shall also be interpreted in accordance with the special provisions in this act and in accordance with other appropriate legislation.

In the event that there is a conflict between the line item budget certified by the Director of the Budget and the budget enacted by the General Assembly, the budget enacted by the General Assembly shall prevail.

NC DARE uses all of the federal funds for SE regional training and none of these funds are passed through to local law enforcement agenices. With the termination of NC DARE as SE Regional Trainers, state funding and resources are redirected to provide training to NC local law enforcement officers only, 40% of the current workload. This redirection and changes in the methods of providing State training make it possible to reduce six state positions, effective October 1, 2001. The SBI would retain three positions and shall continue to administer the program, but shall provide the training in a more cost-efficient manner by collaborating with the Criminal Justice Standards Division so as to utilize the resources of the Justice Training Academies. 31 Transfer Operating Budget ($5,006,407) R ($5,006,407) R

Transfer the operating budget for the Investment and Banking Division from appropriation-support to receipt-support. Currently, the Division receives a General Fund appropriation for its operations and the General Fund is reimbursed from non-tax revenue -- the management fees assessed against the interest earnings on the investment pool. With the transfer of the operating budget to receipt-support, the management fee will be a direct receipt to the Investment and Banking Division.

The transfer is net of an operating budget reduction of $610,190. Thus, the General Fund appropriation will decrease by $5,006,407. Non-tax revenue to the General Fund will be reduced by a corresponding amount. Departmental receipts will increase by $4,396,217.

(6) After December 31, 1973 and after he has attained age 65; or
(7) After December 31, 1978, but before January 1, 1987, and after he has attained age 70.

Notwithstanding the above provisions, the death benefit shall be payable on account of the death of any member who died or dies on or after January 1, 1974, but before January 1, 1979, after attaining age 65, if he or she had not yet attained age 65, if he or she had not yet attained age 66, was at the time of death completing the work year for those individuals under specific contract, or during the fiscal year for those individuals

not under specific contract, in which he or she attained 65, and otherwise met all conditions for payment of the death benefit.

Notwithstanding the above provisions, the Board of Trustees may and is specifically authorized to provide the death benefit according to the terms and conditions otherwise appearing in this Plan in the form of group life insurance, either (i) by purchasing a contract or contracts of group life insurance with any life insurance company or companies licensed and authorized to transact business in this State for the purpose of insuring the lives of members in service, or (ii) by establishing a separate trust fund qualified under Section 501(c)(9) of the Internal Revenue Code of 1954, as amended, for such purpose. To that end the Board of Trustees is authorized, empowered and directed to investigate the desirability of utilizing group life insurance by either of the foregoing methods for the purpose of providing the death benefit. If a separate trust fund is established, it shall be operated in accordance with rules and regulations adopted by the Board of Trustees and all investment earnings on the trust fund shall be credited to such fund.

In administration of the death benefit the following shall apply:

(1) For the purpose of determining eligibility only, in this subsection "calendar year" shall mean any period of 12 consecutive months or, if less, the period covered by an annual contract of employment. For all other purposes in this subsection "calendar year" shall mean the 12 months beginning January 1 and ending December 31.

(2) Last day of actual service shall be:

a. When employment has been terminated, the last day the member actually worked.

b. When employment has not been terminated, the date on which an absent member's sick and annual leave expire, unless he is on approved leave of absence and is in service under the provisions of G.S. 135-4(h).

(3) For a period when a member is on leave of absence, his status with respect to the death benefit will be determined by the provisions of G.S. 135-4(h).

(4) A member on leave of absence from his position as a teacher or State employee for the purpose of serving as a member or officer of the General Assembly shall be deemed to be in service during sessions of the General Assembly and thereby covered by the provisions of the death benefit. The amount of the death benefit for such member shall be the equivalent of the salary to which the member would have been entitled as a teacher or State employee during the 12-month period immediately prior to the month in which death occurred, not to be less than twenty-five thousand dollars ($25,000) nor to exceed fifty thousand dollars ($50,000).

The provisions of the Retirement System pertaining to Administration, G.S. 135-6, and management of funds, G.S. 135-7, are hereby made applicable to the Plan.

A member who is a beneficiary of the Disability Income Plan provided for in Article 6 of this Chapter shall be eligible for group life insurance benefits as provided in this subsection, notwithstanding that the member is no longer an employee or teacher or that the member's death occurs after the eligibility period after active service. The basis of the death benefit payable hereunder shall be the higher of the death benefit computed as above or a death benefit based on compensation used in computing the benefit payable under G.S. 135-105 and G.S. 135-106, as may be adjusted for percentage post-disability increases, all subject to the maximum dollar limitation as provided above. A member in receipt of benefits from the Disability Income Plan under the provisions of G.S. 135-112 whose right to a benefit accrued under the former Disability Salary Continuation Plan shall not be covered under the provisions of this paragraph.

This death benefit shall be a lump-sum payment in the amount of five thousand dollars ($5,000) upon the completion of twenty-four months of contributions required under this subsection. PRINCIPAL DEPARTMENT(S) & PROGRAM(S) AFFECTED: Department of Revenue; North Carolina State Ports Authority

EFFECTIVE DATE: This act is effective for taxable years beginning on or after March 2, 2000.

BILL SUMMARY: The bill removes the sunset on the North Carolina State Ports Authority tax credit for wharfage, handling, and throughput charges and makes wood chips ineligible for the credit.

BACKGROUND:

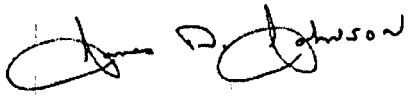
The 1992 General Assembly enacted the State Ports Authority income tax credit to encourage exporters to use the two State-owned port terminals at Wilmington and Morehead City. The amount of the tax credit is equal to the amount of wharfage, handling, and throughput charges paid to the North Carolina State Ports Authority in the taxable year that exceeds the average amount of charges paid to the Authority for the current tax year and the two previous tax years. The credit is limited to 50% of the tax imposed on the taxpayer for the taxable year. Any excess credit may be carried forward and applied to the taxpayer's income tax liability for the next five years. The maximum cumulative credit that one taxpayer may claim is $2 million. Originally scheduled to sunset in 1996, the sunset was extended by the General Assembly in 1995 and again in 1997. The tax credit ended on February 28, 2001.

ASSUMPTIONS AND METHODOLOGY: The North Carolina State Ports Authority makes an annual report to the General Assembly detailing the annual increase in cargo tons, cargo fees, and the amount of tax credit taken in the previous year. The income tax credits reported in these annual statements since the program's inception are as follows:

1993	$ 26,867
1994	$512,003
1995	$643,965
1996	$854,645
1997	$515,977
1998	$814,986
1999	$656,134
2000	$741,836 (preliminary report by phone)

The average tax credit for the seven years 1994 through 2000 is $677,078 and the median tax credit for the same period is $656,134. This fiscal note will use the median credit amount rounded up to the nearest thousand, thus extending the State Ports Authority tax credit will cost the state General Fund $657,000 per year over the next five years. The Ports Authority staff reports that no company has reached the $2 million maximum cumulative credit and there are no companies close to the maximum amount of credits.

Since 1996-97, the two companies that ship wood chips through Morehead City have earned the following tax credits:



1996-97	$47,900
1997-98	$150,300
1998-99	$90,000
1999-00	0
2000-01	0

A Deputy Executive Director with the State Ports Authority said the volume of wood chip shipments did not qualify for a tax credit in the last two fiscal years. Without projections of wood chip shipments over the next five years, this fiscal analysis assumes an average tax credit of $96,000 based on actual credits received from 1996 to 1999. By excluding wood chips from tax credit eligibility, $96,000 can be subtracted from the $657,000 estimated credit each year. The net cost of extending the credit will be $561,000 each fiscal year.

SENATE BILL 394:
Revise Advisory Members of SBE

BILL ANALYSIS

Committee:	House Education	**Introduced by:**	Senator Miller
Date:	July 10, 2001	**Summary by:**	Shirley Iorio, Ph D
Version:	Second Edition		Education Policy Analyst

SUMMARY: ***Senate Bill 394 would add the State Principal of the Year and a local superintendent as advisors to the State Board of Education (Board), and would reduce to one the number of student advisors on the Board.***

CURRENT LAW: Section 4(1) of Article IX of the NC Constitution directs the Governor to appoint 11 members to the State Board of Education for overlapping terms of eight years. Eight members represent the eight educational districts set out in G.S. 115C-65 and three members are at-large. These appointments are subject to confirmation by the General Assembly in joint session. G.S. 115C-10 requires the Governor to submit the names of his appointees to the presiding officers of each chamber on or before the 60th legislative day, and the General Assembly, pursuant to joint resolution, to meet in joint session to consider the appointments.

The State Board of Education shall consist of the following members:

- The Lieutenant Governor
- The State Treasurer
- Eleven members appointed by the Governor, subject to confirmation by the General Assembly in joint session:
    - Of the appointive members, one shall be appointed from each of the eight educational districts (see attachment) and three shall be appointed as members at large.
    - Not more than one public school employee paid from State or local funds may serve as an appointive member.
    - No spouse of any public school employee paid from State or local funds may serve as an appointive member.
    - No employee of the Department of Public Instruction may serve as an appointive member.
    - No spouse of an employee of the Department of Public Instruction may serve as an appointive member.
- Four advisory members:
    - 2 high school students appointed by the Governor for two-year terms; and
    - 2 State Teachers of the Year, as designated by the Department of Public Instruction, for two-year terms by virtue of receiving that honor.

(Summary is continued on the back of this page.)

BILL ANALYSIS: The proposed changes to the State Board of Education (Board) would increase by one the number of advisory members on the Board.

All advisory members would receive per diem, travel and subsistence expenses according to G.S. 138-5 and G.S. 138-6

The State Board would have the discretion to exclude any of the advisory members from executive sessions.

Section 1. There would be one student advisor on the Board. The Governor would appoint a high school senior for one year beginning June 15 of each year. If the student is no longer enrolled in a North Carolina public school, or if a vacancy otherwise occurs, the Governor would appoint a student advisor for the remainder of the unexpired term.

Currently, there are two student advisors. The Governor appoints a high school junior for a two-year term, and a high school senior for a one-year term.

This section is effective June 15, 2001, and would apply to terms of high school student advisors beginning on or after that date.

NORTH CAROLINA GENERAL ASSEMBLY

LEGISLATIVE FISCAL NOTE

BILL NUMBER: SB 247 (Second Edition)

SHORT TITLE: Reallocate Clean Water Bond Fund

FISCAL IMPACT ($MILLION)

Yes (X) **No ( )** **No Estimate Available ( )**

	FY 2001-02	FY 2002-03	FY 2003-04	FY 2004-05	FY 2005-06
EXPENDITURES					
State General Fund	-0-	$2.6	$5.4	$8.0	$7.9

PRINCIPAL DEPARTMENT AFFECTED: The Department of Natural and Economic Resources and the Rural Economic Development Center administer the loans and grants affected. The enactment of the bill will not affect the budget requirements of either entity.

EFFECTIVE DATE: When the bill becomes law.

BILL SUMMARY: The 1998 Clean Water Bond Act allocated $300 million to pass-through loans to local government units whose debt service would be fully repaid by the units applying for the loans. The General Assembly reallocated $200 million of the remaining $285.2 million of the uncommitted loans to grants during the 2000 session.

SB 247 makes the following changes to the authorized bonds: (1) shifts the still-remaining $75 million of the loan portion of the bonds to grants; (2) allocates $37.4 million of the $75 million to Unsewered Community Grants, $37.4 million to Supplemental Grants and $.2 million to administrative costs of the Rural Economic Development Center; and (3) provides that no Clean Water Bonds for Unsewered Community Grants and Supplemental Grants may be issued between July 1, 2001 and January, 1, 2002.

ASSUMPTIONS AND METHODOLOGY: The State's debt service on the clean water loans would be offset by loan repayments from local units under the 1998 authorization. The Office of State Budget Planning and Management, in theory, should schedule the loan repayments so that they would completely offset the State's debt service requirements for a particular year. By converting the loans to grants, the local government repayment would be eliminated and the State's net debt service would increase in the same fashion as $75 million of new bonds issued by the State.

The starting point for the calculation was a May 8, 2001 debt service simulation of the Office of State Treasurer. This schedule showed the annual principal and interest requirements under the planned issuance schedule for the remaining $695 million ofClean

Water Bonds and the remaining public school and higher education bonds. Interest rate assumptions ranged from 5.75% for the near-term issues and 6.25% for the issuance dates that are farther out.

It was assumed for the purpose of analysis that the $75 million of converted Clean Water loan bonds would have been sold over the next three years as part of the $695 million of total Clean Water bonds. The provision in the bill that prohibits the Fall 2001 sale would likely move the $250 million issuance of planned Clean Water Bonds from September 1, 2001 to March 1, 2002. Under the revised planning schedule, the next $250 million of Clean Water Bonds would be sold on March 1, 2003 and the final $195 million would be sold on March 1, 2004.

The effect of this scheduling assumption is that $27.0 million of the converted bonds would be included in the March 1, 2002 sale of bonds, $27.0 million would be part of the March 1, 2003 sale, and the remaining $21.0 million would be part of the March 1, 2004 sale.

The annual debt service requirements for these issues were then calculated by prorating the debt service requirements for the general obligation bonds that are to be sold on these planned issuance dates.

Reallocate Clean Water Bonds/Defer Bond Issue

BILL ANALYSIS

Version:	S247-CSLH-31		Staff Attorney
		Revised by:	Emily Johnson

SUMMARY: SL 1998-132 authorized the issuance of $800 million in Clean Water Bonds, which was subsequently approved by the State's voters. In 2000, the General Assembly reallocated $200 million in Clean Water Bonds proceeds from a loan program in DENR to related grant programs. This bill would reallocate the remaining $71.4 million in the DENR loan programs for grant programs administered by the Rural Economic Development Center and for related administrative expenses. Converting loan funds to grant funds will reduce loan repayments that would have otherwise been credited to the General Fund.

This bill also provides that the remaining Clean Water Bonds, Natural Gas Bonds, and Public School Building Bonds may not be issued until January 1, 2002, or afterwards. At the discretion of the Governor, payments to local governments and to match federal funds that would have been made from Clean Water Bond proceeds may be made from General Fund cash balances. After the Clean Water Bonds are issued the General Fund must be repaid from the bond proceeds for any Clean Water Bond costs covered by General Fund cash balances.

BACKGROUND: S.L. 1998-132 authorized the issuance of $800 million in Clean Water Bonds. The bonds were approved by the voters in November 1998. Of the $800 million, $300 million was designated for loans to local governments, administered by DENR, to be used for water supply systems, water conservation projects, water reuse projects, wastewater collection systems, and wastewater treatment works. Repayments of the loans are credited to the General Fund. The remaining $500 million of Clean Water Bond proceeds was allocated for various grant programs and to match federal wastewater or water assistance funds. S.L. 1998-132 provided that the $800 in Clean Water Bonds could be reallocated by the General Assembly between the various loan and grant programs designated in the act.

S.L. 2000-156 withdrew $200 million of the $300 million loan funds and reallocated the funds for four grant programs that were established in the Clean Water Bonds Act: High Unit Cost grants administered by DENR and Unsewered Community, Supplemental, and Capacity grants, administered by the Rural Economic Development Center. The

2000 legislation also adjusted the annual caps on the amount of Supplemental and Capacity grants that can be issued each year.

ANALYSIS: This bill withdraws the remaining, uncommitted $75 million of the $300 million loan funds and reallocates the funds as follows:

- $35.6 million for Unsewered Community Grants. Unsewered Community Grants are grants administered by the Rural Economic Development Center for units of local government serving small, rural communities not served by centralized sewer systems for wastewater collection and treatment. These funds are expected to be granted over four years, with two grant cycles each year.
- $35.6 million for Supplemental Grants. Supplemental Grants are grants administered by the Rural Economic Development Center to help local governments match other grant or loan funds. The bill also makes a conforming change to the annual cap on these Supplemental grants, so that the additional $35.6 will be granted over four years, with two grant cycles each year.
- $200,000 for administrative expenses of the Rural Economic Development Center in making grants of bond funds. The funds are to be remitted to the Center as soon as possible after July 1, 2001. The bill requires the Rural Center to include with its annual reports to Gov Ops details on how these funds have been spent.

The bill also provides that the Rural Center may change the allocation of funds between Unsewered Community grants and Supplemental grants if it determines that there has been a change in the relative needs for the two types of grants.

The bill requires the Rural Center to include in its annual report to Gov Ops a description of the criteria and point system it uses to award grants, and requires the Rural Center to report to Gov Ops at least 60 days before changing the criteria or point system for awarding grants.

Finally, the bill provides that no Clean Water Bonds, Natural Gas Bonds, or Public School Building Bonds may be issued until January 1, 2002, or afterwards. These bonds are scheduled to be issued in September 2001. Those bonds will increase General Fund debt service requirements. In addition, changing some of the uses of the Clean Water Bonds from loans to grants would further increase debt service. Delaying issuance of the bonds until January 1, 2002, or a later date would move this fiscal impact into the 2002-2003 fiscal year.

The bill allows payments to be made from General Fund cash balances, at the Governor's discretion, to be made to local government units scheduled to receive Clean Water Bond payments and to match federal clean water funds. The General Fund must be repaid

from the Clean Water Bond proceeds after the Clean Water Bonds are issued for any costs covered with General Fund cash balances.

SECTION 6. Reallocation by Rural Economic Development Center. – Notwithstanding the provisions of S.L. 1998-132, S.L. 2000-156, and Sections 3 and 4 of this act, if the Rural Economic Development Center determines that there has been a change in any fiscal year in the relative needs between the purposes provided in Section 3 of this act and the purposes provided in Section 4 of this act, the Rural Economic Development Center may reallocate funds from Section 3 purposes to Section 4 purposes or from Section 4 purposes to Section 3 purposes. The Board of Directors of the Rural Economic Development Center must approve in advance any reallocation under this section. At least 30 days before making a reallocation under this section, the Rural Economic Development Center must consult with the Joint Legislative Commission on Governmental Operations.

SECTION 7.(a) Reallocation for Administrative Expenses. – Of the funds withdrawn pursuant to this act from allocation under Section 5.1(h) of S.L. 1998-132, the sum of two hundred thousand dollars ($200,000) is reallocated to the Rural Economic Development Center to be used in the 2001-2002 fiscal year to administer bond funds allocated for grants pursuant to S.L. 1998-132, S.L. 2000-156, and this act. This amount shall be remitted to the Rural Economic Development Center as soon as possible after July 1, 2001.

Representative Hall made a motion to give the bill a favorable report. By a Division vote 29/15 the bill was favorably reported.

Next, Representative Frank Mitchell was recognized to explain H 635, Regulate Body Piercing. He referred the membership to the (attached) bill summary and the fiscal note and stated that the bill provides for regulation of body piercing by the Department of Environment and Natural Resources in accordance with rules adopted by the Commission of Health Services. The General Assembly of North Carolina enacts:

SECTION 1. G.S. 105-164.13(28) reads as rewritten:

"(28) Sales of newspapers by newspaper street ~~vendors and~~vendors, by newspaper carriers making door-to-door ~~deliveries~~ deliveries, and by means of vending machines and sales of magazines by magazine vendors making door-to-door sales."

SECTION 2. G.S. 105-164.13 is amended by adding a new subdivision to read:

"(39) Sales of paper, ink, and other tangible personal property to commercial printers and commercial publishers for use as ingredient or component parts of free circulation publications, and sales by printers of free circulation publications to the publishers of these publications. As used in this subdivision, the term "free circulation publications" means publications that meet each of the following conditions:

a. Are published on a periodic basis at recurring intervals.

b. Are mailed or are distributed house-to-house, by street distributors, in racks, or in any other manner at other locations without charge to the recipient.

The ratio of news to advertising in a publication is not a factor in determining whether the publication is a free circulation publication."

- *Exempts from the sales and use tax the sales of paper, ink, and other tangible personal property to commercial printers and publishers for use in free circulation publications and the sales by printers of the free circulation publications to the publishers. (This part of the bill is identical to HB 975, introduced by Rep. Nesbitt, Blue, and Morris.)*
- *Places a two year sunset on the above two proposed sales tax exemptions*
- *Directs the Revenue Laws Study Committee to study the sales and use tax exemptions that apply to publications and to make a final report no later than the 2003 Regular Session.*

The tax exemptions in this act become effective October 1, 2001. The remainder of the act becomes effective when it becomes law.

CURRENT LAW REGARDING SECTION 1 OF SB 400

Taxable sales of newspapers and magazines: Retail sales of newspapers, magazines, and other publications are subject to the 4% state sales and use tax under G.S. 105-164.4 and any applicable local tax unless the sales are exempt under G.S. 105-164.13.

Exempt sales of newspapers and magazines: Under G.S. 105-164.13(28) the following sales of newspapers and magazines are exempt from sales and use tax:

- Sales of newspapers by newspaper street vendors
- Sales of newspapers by newspaper carriers making door-to-door deliveries
- Sales of magazines by magazine vendors making door-to-door sales

The Secretary of Revenue has interpreted the sales tax statutes as they apply to newspapers and magazines as follows:

A. Taxable sales of newspapers and magazines:

1. Retail sales by newspaper publishers located inside or outside NC and engaged in business in NC if the sales are (a) over the counter, (b) by subscription delivered

through the mail to subscribers in NC, or (c) through newspaper vending racks located on the premises of the publisher.

2. Retail sales made by retailers such as newsstands, grocery stores, restaurants, drug stores, etc, if the sales are over the counter sales or sales through newspaper vending racks located on the premises of the retailer.
3. Sales of gift subscriptions by publishers who have nexus in NC are taxable in the following examples:
   a. Sales of gift subscriptions by publishers located in NC to donors in NC when delivery is made by mail to donees located inside or outside of NC;
   b. Sales of gift subscriptions by publishers located in NC to donors located outside NC when delivery is made by mail to donees located in NC.
4. Subscription sales delivered through the mail to subscribers located in NC by a publisher located outside NC who does not have nexus in this State are taxable. The publisher is not liable for collecting tax; however, the subscriber is liable for remitting use tax directly to the Department of Revenue.
5. Sales through newspaper vending racks located inside or on the premises of a store or business are taxable whether such sales are made by the owner of the business or another vendor. Such sales are not considered to be sales made by street vendors.
6. Over the counter sales of magazines.

B. Exempt sales of newspapers and magazines:

1. The following retail sales by newspaper publishers located inside or outside NC and engaged in business in NC are exempt:
   a. Sales by subscription delivered through the mail to subscribers outside NC;
   b. Sales by subscription delivered door-to-door by employees or contract carriers of the publisher;
   c. Sales through newspaper vending racks located off the premises of the publisher as a newspaper street vendor.
2. Sales by persons physically selling newspapers as newspaper street vendors are exempt from tax.
3. Retail sales made through vending racks located off the premises of the retailer are exempt as sales by a newspaper street vendor.
4. Sales by independent newspaper carriers making door-to-door deliveries are exempt from tax.
5. Sales of gift subscriptions by publishers who have nexus in NC are exempt in the following examples:
   a. Sales of gift subscriptions by publishers located in NC to donors located outside of NC when delivery is made by mail to donees located outside of NC.
   b. Sales of gift subscriptions by publishers located outside of NC to donors located in NC when delivery is made by mail to donees located inside or outside of NC.
6. Sales through newspaper vending racks which are not located on the street but are in public areas such as shopping centers and malls, airport terminals, train

stations, bus stations and other similar locations or facilities, but not inside or on the premises of a store or business, are considered to be sales by street vendors and are exempt from sales tax.

7. Retail sales of magazines by subscription delivered through the mail to subscribers inside or outside NC are exempt from tax.

CURRENT LAW REGARDING SECTION 2 OF SB 400

Under current law, supplies (paper, ink, and other tangible personal property) sold for free publications are subject to sales and use tax. Prior to October 1, 1999, a sales tax exemption was given for sales of paper, ink, and other tangible personal property to commercial printers and publishers for use as component parts in free circulation publications that contained advertising of a general nature. The exemption applied to general shoppers guides, but not to more specialized guides, such as real estate guides. (The statute specifically required that the free circulation publication contain advertising of a general nature.) The exemption was repealed because it was believed to be unconstitutional. The first amendment of the US Constitution generally does not allow a state to discriminate between publications based on content. Also, based on a 1987 U.S. Supreme Court decision, this exemption was arguably unconstitutional.[1] To be constitutional, the exemption needed to be expanded to include all free circulation publications or it needed to be repealed. The first amendment of the United States Constitution does not allow a state to discriminate between publications based on content. Therefore since the prior law clearly violated this rule by exempting guides with general content but not those with narrower content, the 1999 General Assembly repealed this sales tax exemption, effective October 1, 1999. The result was that supplies sold for all free publications became subject to sales tax on a uniform basis.

BILL ANALYSIS: Section 1 of SB 400 exempts all sales of newspapers through vending machines from sales and use tax.

Section 2 of SB 400 reinstates the sales tax exemption on the supplies sold for free circulation publications, but does not base the exemption on the content of the publication. Instead, a free circulation publication would be defined as a publication that meets the following conditions:

- Is published on a periodic basis at recurring intervals.
- Is mailed or is distributed house-to-house, by street distributors, in racks, or in any other manner at other locations without the charge to the recipient.

The ratio of news to advertising a publication would not be a factor in determining whether the publication is a free circulation publication.

Section 3 of the bill directs the Revenue Laws Study Committee to study the sales and use tax exemptions that apply to publications.

---

[1] In *Arkansas Writer's Project, Inc. v. Ragland*, 481 US 221, the US Supreme Court invalidated an Arkansas sales tax scheme that taxed general interest magazines but exempted single topic printed material. The NC tax exemption operated just the opposite: it taxed component parts used in single topic advertising publications but exempted component parts used in advertising publications that contained advertising of a general nature. Constitutionally, these distinctions appear meaningless.

Section 4 of the bill sets out the effective date and also includes a sunset provision. The tax exemptions set out in sections one and two of the bill become effective October 1, 2001, apply to sales made on or after that date, and sunset on October 1, 2003. The remainder of the bill is effective when it becomes law.

PRINCIPAL DEPARTMENT(S) & PROGRAM(S) AFFECTED: North Carolina Department of Revenue, Local Governments.

EFFECTIVE DATE: This act becomes effective October 1, 2001, and applies to sales made on or after that date. The exemptions in section 1 and 2 of the bill expire on October 1, 2003.

BILL SUMMARY: Under current law newspapers sold by street vendors and newspaper carriers making door-to-door deliveries are exempt from sales tax. The bill extends that exemption specifically to newspapers sold through all vending machines. This bill also exempts the paper, ink, and other ingredients used to produce free circulation publications from the state and local sales and use tax. Both exemptions expire on October 1, 2003. The Revenue Laws Study Committee is directed to study the sales and use tax exemptions that apply to publications and report to the 2002 Session of the General Assembly.

ASSUMPTIONS AND METHODOLOGY:

Newspapers in Vending Machines

Currently the 6% state and local sales tax is due on newspapers sold over the counter. Newspapers sold by traditional street vendors and door-to-door carriers are exempt from the tax. All taxable vending machine sales are subject to only 50% of the existing tax rate for that item.

In the past few years confusion has arisen about the tax status of newspapers sold through vending machines at convenience stores, shopping areas, and malls. The Department of Revenue's interpretation of the law is that newspapers sold through vending machines in public areas are a form of "street vendor" and are exempt.

"Newspapers sold in or near a stand-alone convenience store are not considered a street vendor sale, and are subject to tax. Sales through newspaper vending racks located inside or on the premises of a store or business are taxable whether such sales are made by the owner of the business or another vendor. Such sales are not considered to be sales made by street vendors. Sales through newspaper vending racks which are not located on the street but are in public areas such as shopping centers and malls, airport terminals, train stations, bus stations and other similar locations or facilities, but not inside or on the premises of a store or business, are considered to be sales by street vendors and are exempt from sales tax". (Technical Bulletins, Section 7-16-B.10 & 11).

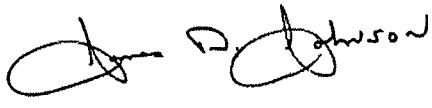
Because of the confusion over this provision, the Department of Revenue agreed to not pursue any of these taxes before April 1, 2001, and to not attempt to collect back taxes previous to this date. The Department has indicated, however, that they consider these non-vendor sales to be taxable, and believe these taxes are now due. They also plan to include these taxes in audit considerations (after the April 1, 2001 date).

Because this item is not recorded separately on the sales tax returns, and since this item has not been considered in most recent audits, no estimate is available from the Department. The Press Association believes that most independent carriers are not currently collecting or remitting the tax. Because there is no good data available, no fiscal estimate is possible. However, it is expected the impact of this bill will be relatively small given the limited number of papers sold through stand alone machines, and the fact that all vending machine sales that are taxable are only subject to 50% of the current tax rate (6%) or 3%.

Free Publications

Prior law granted a sales tax exemption for sales of paper, ink, and other tangible personal property to commercial printers and publishers for use as component parts in free circulation publications that contained advertising of a general nature. The exemption applied to general shoppers guides but not to more specialized publications such as real estate guides. The First Amendment of the United States Constitution does not allow a state to discriminate between publications based on their content. The prior law exemption clearly violated this rule by exempting guides with general content but not those with narrower content. Section 10 of Senate Bill 1112 (S.L. 1999-438) repealed the exemption, effective October 1, 1999, so that supplies sold for all free publications are now subject to tax on a uniform basis.

Prior to the 2000 Session of the General Assembly, Department of Revenue field auditors were asked to collect free publications from their regions and forward them by courier mail to the central office in Raleigh. These documents were used to estimate the annual statewide sales volumes of free publications. The Tax Research Division of the Department of Revenue used the estimated sales data for free publications, as well as sales and use tax collections data and information from the North Carolina Press Association to estimate the fiscal impact of this proposed tax exemption. In a memo dated June 6, 2000, the Tax



Research Division estimated that the exemption proposed in this bill will reduce General Fund revenues by $4.6 million per year and will reduce local sales tax revenues by $2.3 million per year. No growth rate was assumed for future years due to the lack of market information for free publications. The first year impact is adjusted for the October 1, 2001 effective date (9 months minus 1 month lag). The third year estimate is adjusted for the October 1, 2003 expiration date. (3 months plus 1 month lag)

NOTE: To exempt just those free publications that were exempt prior to October 1, 1999 would cost $2.1 million in state revenues and $1.05 million in local revenues. However, returning to the prior law revives the constitutionality question.

HOUSE BILL 635:
Regulate Body Piercing

BILL ANALYSIS

Committee:	House Appropriations	**Sponsor:**	Rep. Mitchell
Date:	September 12, 2001	**Analysis by:**	Martha Walston*
Version:	2nd Edition		Finance Committee Counsel
			Revised by Emily Johnson

SUMMARY: House Bill 635 provides for regulation of body piercing by the Department of Environment and Natural Resources in accordance with rules adopted by the Commission of Health Services. The Bill incorporates the regulatory scheme for body piercing into Part 11 of Chapter 130A of the General Statutes which currently regulates tattooing. The Bill also requires that the materials used to perform tattooing and body piercing be disposed of in accordance with the laws governing the disposal of medical waste. The current version of the bill was given a favorable report in House Finance. The act becomes effective October 1, 2001.

CURRENT LAW: The business of body piercing currently is unregulated, but in 1993 legislation was enacted to authorize the Department of Environment and Natural Resources (DENR) to regulate the business of tattooing. Under Part 11 of Chapter 130 of the General Statutes, a person must obtain a permit from DENR to engage in the business of tattooing. Once a permit application is received, the local health department must inspect the premises of the applicant and determine whether the applicant meets the requirements for a tattooing permit. The Commission for Health Services has established requirements for a tattooing permit which include provisions for posting the permit, maintaining appropriate water and sewer, disposing of materials used in tattooing in accordance with the rules governing disposal of medical waste, maintaining records for two years, prohibiting tattooing of persons with visible skin problems, maintaining a tattooing room that is separate from other areas of the establishment, maintaining sterilization procedures, and keeping the premises clean and free of vermin.

G.S. 14-400 makes it unlawful to tattoo a person under age 18. In 1998, this statute was amended to make it unlawful to pierce any part of the body, other than ears of a person under 18 for the purpose of allowing the insertion of earrings, jewelry, or similar objects, unless the prior consent of a custodial parent or guardian is obtained. A violation of G.S. 14-400 is a Class 2 misdemeanor, punishable by up to 60 days' community service, intermediate, or active punishment.

HOUSE BILL 635: House Bill 635 would duplicate the current statutory regulatory scheme for tattooing and make it applicable to body piercing.

Section 1 requires the Commission for Health Services to adopt rules establishing permit requirements for the sanitation of premises, utensils, equipment, and procedures to be used by persons engaged in body piercing if this bill is enacted.

Section 2 authorizes a local board of health to impose cost-related fees for services performed under the bill's proposed regulatory scheme for body piercing. Current law gives this authority for services performed under the tattooing statute. Fees are based upon a plan recommended by the local health director and approved by the local board of health and the appropriate county board of commissioners. The fees are deposited to the account of the local health department for public health purposes.

Section 3 amends the tattooing statute to include the regulation of body piercing. The new statutes under Part 11 of Chapter 130 do the following:

- Definition of Body Piercing. Body piercing is the creation of an opening in the body of a human being so as to create a permanent hole for the purpose of inserting jewelry or other decoration. Body piercing does not include piercing an ear lobe with a disposable, single-use stud or solid needle that is applied using a mechanical device to force the needle or stud through the ear lobe.
- Permit Requirements and Exemptions. Requires a permit from DENR to engage in body piercing. Licensed physicians, and physician assistants and nurse practitioners supervised by a licensed physician are exempt. The permit must be renewed annually.
- Permit Application Requirements. Upon receipt of a permit application, DENR, acting through the local health department must inspect the premises, instruments, utensils, equipment and procedures of the applicant to see if the applicant meets the requirements of a permit set by the Commission for Health Services.
- Violations. DENR may deny a permit if the applicant does not meet the permit requirements. DENR may suspend, revoke, or refuse to renew a permit if it learns that body piercing is being performed in violation of the statute or if materials are not being disposed of as provided for medical waste.
- Compliance Does Not Bar Criminal Prosecution. Compliance with body piercing and tattooing statutes does not bar criminal prosecution under G.S. 14-400.
- Medical Waste Rules Apply. Materials used by person engaged in tattooing and body piercing must be disposed of in accordance with medical waste rules.
- APA Governs Appeals. The Administrative Procedure Act will govern appeals concerning enforcement of the tattooing and body piercing statutes.

PRINCIPAL DEPARTMENT(S) & PROGRAM(S) AFFECTED: Department of Environment and Natural Resources (DENR), Division of Environmental Health; Commission for Health Services; Local Health Departments

EFFECTIVE DATE: October 1, 2001

BILL SUMMARY:

The House committee substitute substantially changes the 1st edition of the bill. The committee substitute mandates the Commission for Health Services (Commission) to regulate body piercing in the same manner as it does tattooing. The Commission is charged with establishing the requirements for a body-piercing permit required of each person engaged in the practice of body piercing. The bill requires DENR, acting through the local health departments, to inspect the premises, instruments, utensils, equipment and procedures of the applicant to determine whether the applicant meets the permit requirements set by the Commission before a permit can be issued. Amends G.S.130A-39 to allow local boards of health to assess fees to recover costs for inspection of persons engaged in body piercing. The bill also requires materials used by persons in body piercing be disposed of in accordance with the law governing the disposal of medical waste. The definition of body piercing included in the bill does not include certain ear lobe piercing.

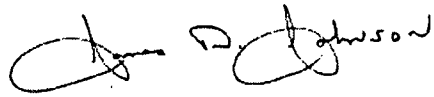
ASSUMPTIONS AND METHODOLOGY:

Revenue:

A precise count of the number body piercing technicians and the number of body piercing facilities in North Carolina is not available. However, based on its experience permitting tattoo artists, DENR's Division of Environmental Health estimates that statewide there are between 200 to 300 body-piercing technicians and between 150 and 200 facilities that provide body-piercing services. Since county health departments are allowed to set the permit fee based on their cost to administer the body-piercing permit, there is no estimate available on the amount of revenue that will be raised from permit fees.

Expenditures:

Local Health Departments: This bill makes use of the existing work force at county health departments to inspect and permit body-piercing technicians and allows county boards of health to charge permit fees to recover local costs. Consequently, county health departments will need no appropriation to regulate body piercing.



Division of Environmental Health: This bill duplicates the current regulatory scheme for tattooing and makes it applicable to body piercing. As a result, this fiscal note assumes that the rules, training and supervision of the body-piercing program will be based largely on the existing the tattooing program. These rules and training will need to be revised to include sections specific to body piercing; however, no new staff will be needed to make these revisions. This note also assumes that the body-piercing portion of the training for local environmental health specialist can be combined with the tattoo portion of the training to minimize additional training costs to the Division.

Before a local environmental health specialist is authorized to conduct an inspection on behalf of the Department, that specialist must be evaluated on-site by a Regional Environmental Health Specialist employed by the Division of Environmental Health. The number of on-site evaluations that will need to be completed is estimated to be 100. This estimate is based upon the assumption that each county will employ at least one local environmental health specialist responsible for inspecting and permitting body piercing technicians practicing in their respective county. To complete these on-site evaluations, the Department will need the equivalent of one part time regional environmental health specialist. The cost of this employee with benefits and operating costs is estimated to be $38,000, plus one-time computer and furniture expenses of $7,500.

HOUSE BILL 1245:
NCDL/Selective Service Registration

BILL ANALYSIS

Committee:	House Appropriations	**Introduced by:**	Rep. Baddour
Date:	September 12, 2001	**Summary by:**	Jeff Hudson
Version:	2nd		Phyllis Pickett

SUMMARY: House Bill 1245 would provide that any male United States citizen or immigrant who is at least 18 years of age but less than 26 years of age must be registered with the Selective Service System when applying for the issuance, renewal, or duplication of a drivers license, a commercial drivers license, or an identification card.

CURRENT LAW: Under current federal law, it is the duty of every male citizen of and immigrant to the United States who is between the ages of eighteen and twenty-six to register with the Selective Service System. Also under federal law, failure to comply with this requirement may affect eligibility for federal student aid, job training, federal employment, and citizenship, if an immigrant.

Under current State law, there is no provision that links obtaining a drivers license or identification card with registration with the Selective Service System. However, under State law, failure to comply with the federal Selective Service System registration requirement may affect eligibility for State-supported scholarship and financial assistance programs for postsecondary education as well as employment by the State and its political subdivisions.

BILL ANALYSIS: House Bill 1245 would provide that any male United States citizen or immigrant who is at least 18 years of age but less than 26 years of age must be registered with the Selective Service System when applying for the issuance, renewal, or duplication of a drivers license, a commercial drivers license, or an identification card. House Bill 1245 would also provide that the Division of Motor Vehicles will electronically forward the personal information necessary to register with the Selective Service System when a person required to be registered applies for a license or identification card. Application for a license or identification card indicates that the applicant has already complied with the registration requirements or that he authorizes the Division to forward the necessary information to the Selective Service for registration.

EFFECTIVE DATE: House Bill 1245 would become effective October 1, 2001.

- Addition of indicators for Selective Service notification.
- Addition of logic to handle the queuering of indicatiors for applicants aged 18 to 26 programmactically within the Certification process.
- Creation of new business rules for handling new process/indicators
- Change of Customer Merge Process to handle new business rules

ASSUMPTIONS AND METHODOLOGY: Based on the version of the bill read, every male customer, age 18 through 25, will have to be queried to determine if they have registered with the Selective Service System or if they consent to do so. Some customers may not understand the inquiry, especially those from another country, so in one out of ten cases, the examiner will have to explain the nature of the question. It is estimated that about 500,000 customers fall into this category. It is estimated that they will visit the driver license once every three years, or that on average 167,000 customers will have to be queried annually, at least during the first years until a customer has been seen at least once and a history built on their response to the question.

It is assumed that a certain portion of the customers will refuse to give consent, either willfully or out of confusion over the request.

SOURCES OF DATA: State Automated Driver License System

TECHNICAL CONSIDERATIONS: SADLS will have to be changed to provide a field to document that the eligible customer has applied for a driver license or ID card and, consequently, has given consent for registration with the Selective Service. DOT IT will then have to provide the Selective Service Administration with the information on a routine basis in an electronic format..

SECTION POSITION: Neutral, although the Section has concerns over legislation that would deny a driver license to a customer. Based on conversations with Donald Shaw, state director of the Selective Service System, they will support a change in the bill that would make applying for a license automatically registration for the Selective Service. **If this change were enacted, the bill would not significantly increase the amount of time spent with customers. However, there would still be programming charges involved for IT.**

House Appropriations Committee Meeting

643 LOB

House Appropriations Co-Chair Representative David Redwine called the Appropriations Committee meeting to order for the purposes of considering:

H 1245, NCDL/Selective Service Registration, Rep. Baddour
S 879, NC School of Science & Math/Budget Flexibility, Rep. Michaux
H 644, Toll Road and Bridge Authority Created, Rep. Crawford
H1299, Underground Storage Tank Program Funds, Rep. Gibson

The Co-Chair stated that H1245 with a pending amendment by Rep. Howard was before the committee. In the absence of Rep. Howard the presiding Chair recognized the bill sponsor, Representative Baddour to explain the bill.

Rep. Shubert and Rep. Justus requested information regarding facts and figures in the Attorney General's decision or ruling on the social security issue Representative Redwine informed the members that the budget bill, which had passed, addressed the issue and could be found on page 205 of the bill. The language states the requirement of a taxpayer identification number or social security number to obtain a drivers license.

Rep. Kiser asked that Mr. Wayne Hurder, Director of the Drivers License Certification Division of the Department of Motor Vehicles to be recognized to explain the DMV procedure for issuing drivers license. He explained that the law requiring a social security number be provided for issuance of a drivers license passed by the General Assembly in August, '97 with a October, 97 implementation date. It was part of a bill involving the collection of child support monies. The Attorney General's office interpreted the intent of the requirement in the bill for a social security number was for the purpose of tracking people who were delinquent in child support. It was not a written advisory opinion but there are documents pertaining to that matter. Rep. Shubert requested documentation. Mr. Hurder, when asked, supplied the membership with the fact that 388,000 applicants since October '97 did not have a number. Rep. Justus stating that one of the individuals who highjacked the planes on September 11, 2001 had a NC driver's license with out a social security number.

Rep. Baddour was then recognized to offer a technical amendment changing the date to April 1, 2002 and was adopted by voice vote on a motion by Representative Easterling. Co-Chair Redwine stated that the Rep. Howard amendment is displaced in her absence. Representative Easterling moved give the committee substitute a favorable report unfavorable as to committee substitute bill #1.

Representative Redwine thanked DMV and asked them to provided documents requested by some of the members.

Rep. Michaux was recognized to explain S. 879, NC School of Science & Math/Budget Flexibility. This bill adds a new section giving the school budget flexibility.

A motion by Representative Owens passed by voice vote giving S 879 a favorable report.

H 644,Toll Road and Bridge Authority Created was the next bill on the agenda and Representative Crawford was recognized and explained the bill sets up a toll authority for the state of North Carolina. He stated this bill comes from a blue ribbon study, which determined transportation needs of the state total 556 million a year. NC does not have the dollars to build these roads. There are five areas in the state that could use a toll road to help the control of traffic and address environmental problems. This bill came from the department to the Transportation Committee and passed Finance Committee and passed the first reading on the floor. Some amendments were added that changed other areas in the bill and it went back to the Transportation Committee. He stopped there to take questions from the memberships. Rep. Rogers asked and Rep. Crawford responded that the Transportation Board as well as the Transportation Oversight Committee in the General Assembly has to approve everything that the Authority does. The issues Rep. Owens had regarding the Bridge Authority that had been appealed has been put back in the bill. The issues that Rep. Blue had regarding turnpikes have been addressed as well as the concerns of other members. Rep. Blue expressed concerns with the language pertaining to the outer loop in Wake County. Mr. David King with DOT was recognized to make a statement in that regard.

Representative Cole's motion to adopt the proposed committee substitute for discussion and his motion for a favorable report as to committee substitute bill #2, unfavorable as to committee substitute bill #2 was passed by voice vote.

Bill Sponsor Representative Gibson was recognized to explain H1299, Underground Storage Tank Program Funds. Co-Chair Representative Oldham moved to adopt the proposed committee substitute for the purpose of discussion. The motion was adopted by voice vote. Then Representative explained that the Department of Environment and Natural Resources is requesting from leaking underground storage tank funds, 495 thousand or 2.4% per year for 6 years. Farm Bureau requested section 2 of the bill and no opposition to this language has been expressed. Dexter Matthews, Acting Director of the Division of Waster Management was recognized to address the committee and explained the money would be used for operating cost. George Givens, Research Division stated that Part 2A of the General Statute is the clean up program and Part 2B is the regulatory portion.

Rep. Baker moved to give the proposed committee substitute, which changes the title, a favorable report. The motion passed and the meeting was adjourned at 9:50 am.

HOUSE BILL 1245:
NCDL/Selective Service Registration

BILL ANALYSIS

Committee: House Appropriations
Date: September 12, 2001
Version: 2nd

Introduced by: Rep. Baddour
Summary by: Jeff Hudson
Phyllis Pickett

SUMMARY: House Bill 1245 would provide that any male United States citizen or immigrant who is at least 18 years of age but less than 26 years of age must be registered with the Selective Service System when applying for the issuance, renewal, or duplication of a drivers license, a commercial drivers license, or an identification card.

CURRENT LAW: Under current federal law, it is the duty of every male citizen of and immigrant to the United States who is between the ages of eighteen and twenty-six to register with the Selective Service System. Also under federal law, failure to comply with this requirement may affect eligibility for federal student aid, job training, federal employment, and citizenship, if an immigrant.

Under current State law, there is no provision that links obtaining a drivers license or identification card with registration with the Selective Service System. However, under State law, failure to comply with the federal Selective Service System registration requirement may affect eligibility for State-supported scholarship and financial assistance programs for postsecondary education as well as employment by the State and its political subdivisions.

BILL ANALYSIS: House Bill 1245 would provide that any male United States citizen or immigrant who is at least 18 years of age but less than 26 years of age must be registered with the Selective Service System when applying for the issuance, renewal, or duplication of a drivers license, a commercial drivers license, or an identification card. House Bill 1245 would also provide that the Division of Motor Vehicles will electronically forward the personal information necessary to register with the Selective Service System when a person required to be registered applies for a license or identification card. Application for a license or identification card indicates that the applicant has already complied with the registration requirements or that he authorizes the Division to forward the necessary information to the Selective Service for registration.

EFFECTIVE DATE: House Bill 1245 would become effective October 1, 2001.

Technical Considerations

SADLS (State Automated Driver License System) will require modifications to implement the Selective Service Registration process for Driver License Applicants. The following changes will be required:

- Modification of Driver License On Line Certification process to prompt the applicant of the Selective Serivce requirement and the fact that issuance of a license or id card serves as his consent to be registered.
- Addition of indicators for Selective Service notification.
- Addition of logic to handle the queuering of indicatiors for applicants aged 18 to 26 programmactically within the Certification process.
- Creation of new business rules for handling new process/indicators
- Change of Customer Merge Process to handle new business rules
- Create new table to hold necessary personal information to be sent to Selective Service System
- New batch process to physically send information to the Selective Service System.

Technical Level of Effort - Complex

SUBJECT Social Security Numbers on Drivers Licenses

Evan has gotten me a copy of a Popular Government (from the Institute of Government) article from Spring 1999 that relates the whole history of this. After the law was passed, DMV attempted to enforce this strictly, but "backed away from that position after complaints from the Hispanic community", citing a Ruth Sheehan Article "DMV out to get it right for Hispanic customers", N&O page 1, December 19, 1997. The problem is that there are some ineligible (such as illegals, and even spouses of legal immigrants) to get Social Security numbers. Campbell's article said DMV attempted to avoid requiring the impossible.

Interestingly, the same requirement was put on marriage licenses, and the General Assembly came back in 1999 and enacted some new language, which might show intent as we did not do this for DMV:
old language in G.S. 51-8:
Each applicant for a marriage license shall provide on the application the applicant's social security number

added in 1999 by S.L. 1999-375:
If an applicant does not have a social security number and is ineligible to obtain one, the applicant shall present a statement to that effect, sworn to or affirmed before an officer authorized to administer oaths. Upon presentation of a sworn or affirmed statement, the register of deeds shall issue the license, provided all other requirements are met, and retain the statement with the register's copy of the license.

Campbells' comments on the DMV decision (which was supported by an AG opinion that the impossible was not required) "An equally plausible interpretation of the federal and state statutes is that they mean exactly what they say: unless an license applicant enters on the form a social security number -- no license may be issued. The General Assembly could revisit this issue and include specific provisions in G.S. 20-7 and G.S. 51-8 to deal with applicants who have no social security number and cannot obtain them."

Just like we did in 51-8, we could amend the statute.

My suggestion would be to EITHER do one of the following four actions:

1) amend 20-7 like we did in 51-8 and validate what DMV is doing
2) amend 20-7 to allow an alternate number, requiring applicants to get an IRS taxpayer ID number, which is available to anyone willing to contact the IRS
3) amend 20-7 to make it clear that those without SSN's can NOT get licenses
4) ask that administrative action be taken similar to #3, that is, no licenses to those without SSN's

http://ftp.fedworld.gov/pub/irs-pdf/fw7.pdf
An ITIN (Individual Taxpayer Identification Number) is a nine-digit number issued by the IRS to individuals who are required to have a US Taxpayer Identification Number but do not have and are unable to obtain a social security number SSN.
My personal suggestion would be to go with #2.

The chief of the state Division of Motor Vehicles announced Thursday the formation of a special task force to improve service to recent immigrants.

Acknowledging problems with the way the division has handled Spanish-speaking customers, **DMV** Commissioner Janice Faulkner pledged to clarify and expand the list of identification forms that customers may use and to beef up training for driver's license examiners.

In addition, she said at a meeting of **DMV** officials and public advocates that Wayne Hurder, head of the driver's license section, has been relieved of administrative duties so he can concentrate solely on field operations, with a particular focus on **DMV**'s dealings with the Hispanic community.

"This is not a downgrading of Mr. Hurder," said his supervisor, assistant commissioner Ed Carr. "It's a recognition of a need to be filled."

The News & Observer reported recently that some recent immigrants, particularly those who speak Spanish, have been turned away when applying for driver's licenses because they do not have valid Social Security numbers.

A new law aimed at deadbeat parents, which went into effect Oct. 1, requires all license applicants who have Social Security numbers to give them. Having a Social Security number is not, however, a prerequisite for getting a driver's license.

DMV officials initially played down complaints about their administration of the new law, citing misunderstandings on the part of some examiners and miscommunication due

to the language barrier. But Hispanic immigrants and their advocates say the Social Security rule is used by some license examiners as a tool for discriminating against Spanish-speaking customers.

Katie Pomerans, who works in the citizens affairs office of the state Department of Health and Human Services, told Faulkner on Thursday that she has fielded hundreds of telephone calls from Spanish-speaking people who were denied licenses because they do not have Social Security numbers or for other reasons.

Pomerans said that no matter how clearly the new law is understood in Raleigh, the message does not seem to be getting **out to** all **DMV** offices.

"I think there's a tendency not to believe people who come from a foreign culture or country," said Pomerans, a native of Uruguay. "Coming from another country and culture myself, I know how that feels."

Faulkner agreed with Pomerans' assessment.

"We are aware of the problem," the commissioner said. "We cannot disavow the situation you describe."

In recent years, partly in response to a discrimination lawsuit, the division has taken several steps to improve its service to Spanish-speakers. These include hiring translators, requiring diversity training for examiners and providing Spanish versions of the driver's license handbook and the written test.

Starting in 1998, the 20 largest driver's license offices in the state will employ a new system that will make it easier for Hispanic customers to take the test orally. And all the offices soon will be online with the Social Security Administration, allowing examiners to check the validity of Social Security numbers on the spot.

But Hispanic advocates said Thursday that recent immigrants are still experiencing problems at some **DMV** offices.

Wayne Cooper, honorary consul for the Mexican government in Charlotte, pointed to the agency's refusal to acknowledge Mexican passports as an acceptable form of identification.

Cooper and others said they have received reports that many **DMV** offices have run **out** of the Spanish version of the driver's license handbook.

Mitzi Powell, **DMV** public information director, said that the handbook is scheduled to be retranslated within two weeks and that a new printing will be sent to offices statewide a few months later.

In the meantime, Hurder promised that all offices will have at least a few copies on hand for license applicants to study on the spot.

Elaine Perkinson, a **DMV** customer affairs representative, said a telephone system for channeling complaints, including those from Spanish-speakers, will also be up and running in early 1998.

Faulkner noted that the state's Hispanic population has grown rapidly in recent years, to 4 percent of the total. That number is only going to **get** bigger, she said. She vowed to move quickly on the Mexican passport issue, and to improve the training for all examiners.

"The customer requirement for **DMV** is going to keep expanding," Faulkner said. "We're going to work on it until we **get it right**.

House Bill 1245
NCDL/Selective Service Registration
Fiscal Notes

Technical Considerations

SADLS (State Automated Driver License System) will require modifications to implement the Selective Service Registration process for Driver License Applicants. The following changes will be required:

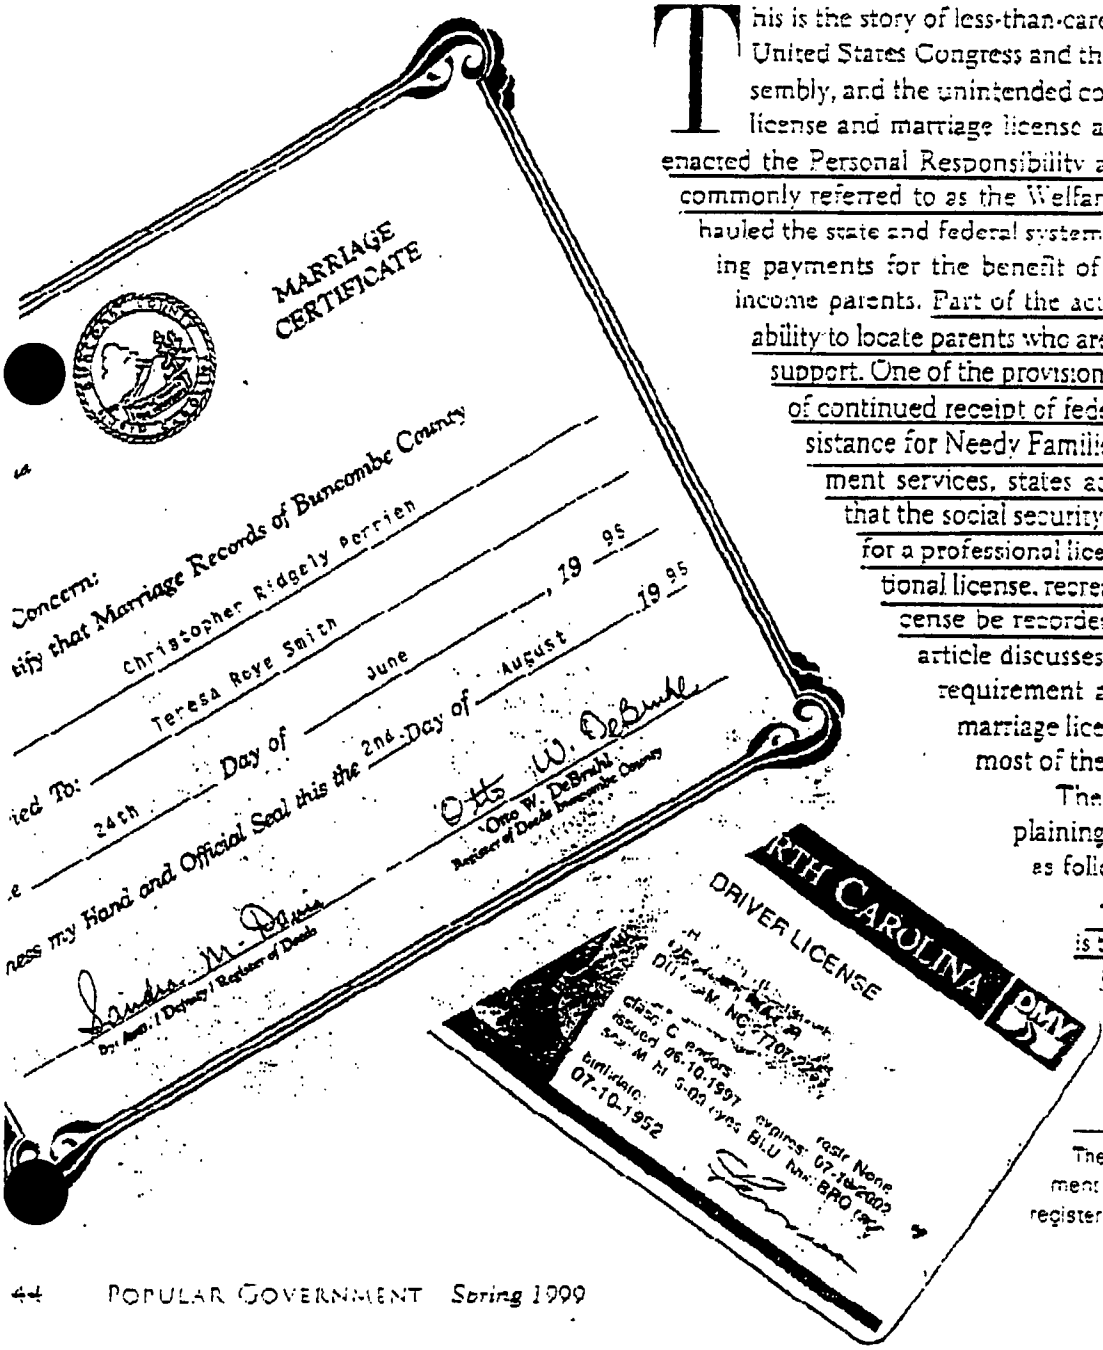
- Modification of Driver License On Line Certification process to prompt the applicant of the Selective Serivce requirement and the fact that issuance of a license or id card serves as his consent to be registered.
- Addition of indicators for Selective Service notification.
- Addition of logic to handle the queuering of indicatiors for applicants aged 18 to 26 programmactically within the Certification process.
- Creation of new business rules for handling new process/indicators
- Change of Customer Merge Process to handle new business rules
- Create new table to hold necessary personal information to be sent to Selective Service System
- New batch process to physically send information to the Selective Service System.

Technical Level of Effort - Complex

Detailed Cost Justifications:

Activity	Estimated Hours
Analysis	120
Design	150
Programming/Testing	200
System Testing	75
Client Testing	80
Implementation	40
Post Implementation	40
	705 x $80/hr = $56,400

ITS Charges = (15% of Programming & testing & implementation hours) x $80 = .15 x 705 hrs x $80 hour =$8,460



Total Estimate (including Programming & ITS charges) = $64,860

TECHNICAL CONSIDERATIONS: SADLS will have to be changed to provide a field to document that the eligible customer has applied for a driver license or ID card and, consequently, has given consent for registration with the Selective Service. DOT IT will then have to provide the Selective Service Administration with the information on a routine basis in an electronic format..

SECTION POSITION: Neutral, although the Section has concerns over legislation that would deny a driver license to a customer. Based on conversations with Donald Shaw, state director of the Selective Service System, they will support a change in the bill that would make applying for a license automatically registration for the Selective Service. **If this change were enacted, the bill would not significantly increase the amount of time spent with customers. However, there would still be programming charges involved for IT.**

No Social Security Number? No License

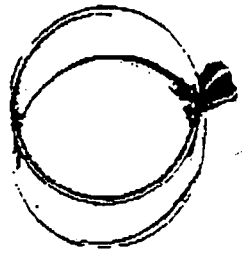
WILLIAM A. CAMPBELL

This is the story of less-than-careful legislative drafting by the United States Congress and the North Carolina General Assembly, and the unintended consequences for many driver's license and marriage license applicants. In 1996, Congress enacted the Personal Responsibility and Work Opportunity Act,[1] commonly referred to as the Welfare Reform Act. The act overhauled the state and federal system of welfare payments, including payments for the benefit of dependent children of low-income parents. Part of the act attempts to improve states' ability to locate parents who are legally obligated to pay child support. One of the provisions requires that, as a condition of continued receipt of federal funds for Temporary Assistance for Needy Families and child-support enforcement services, states adopt "[p]rocedures requiring that the social security number of . . . any applicant for a professional license, driver's license, occupational license, recreational license, or marriage license be recorded on the application."[2] This article discusses the Social Security number requirement as it applies to driver's and marriage licenses, the two areas in which most of the problems have arisen.

The act's legislative history explaining this new requirement reads as follows:

> The Social Security number is the key piece of information around which the child support information system is constructed. Not only are

The author is an Institute of Government faculty member who advises registers of deeds.



new hire and support order matches at the State and Federal level based on Social Security numbers, but so too are most data searches aimed at locating non-paying parents. Thus, giving child support offices access to new sources for obtaining Social Security numbers is important to successful functioning of several other components of the committee proposal. To promote privacy in keeping Social Security numbers confidential, the provision does not require States to place the numbers directly on the face of the licenses, decrees, or orders. Rather, the number must simply be kept in applications and records that, in most cases, are stored in computer files.[3]

The act makes no allowance for a license applicant who does not have a Social Security number. The legislative history also is silent on this point.

Effective October 1, 1997, the 1997 North Carolina General Assembly made the necessary changes in the state statutes concerning applications for driver's and marriage licenses.[4] In Section 20-7(b1) of the North Carolina General Statutes (hereinafter G.S.), North Carolina already required the application form for a driver's license to request the applicant's Social Security number.[5] The 1997 amendment to G.S. 20-7(b1) added the following language: "The Division shall not issue a license to an applicant who fails to provide the applicant's social security number." G.S. 51-8 was amended to require applicants for a marriage license to furnish their Social Security numbers. In neither G.S. 20-7 nor G.S. 51-8 was provision made for license applicants who do not have Social Security numbers. Indeed, one can argue that the amendment to G.S. 20-7(b1) expresses the legislature's clear intention that if an applicant cannot furnish a Social Security number, no driver's license should be issued.

The unintended consequences of the two legislatures not providing for applicants who have no Social Security number were that, at least temporarily, hundreds of applicants for driver's and marriage licenses could not obtain them. Who were they? Most were foreign nationals residing in or visiting North Carolina. There is no requirement that a person be a United States citizen to obtain a driver's or marriage license. Before enactment of the Social Security number requirement, many foreign nationals routinely obtained both types of licenses. The Social Security number requirement changed this situation dramatically because only two categories of foreign nationals are eligible for Social Security numbers: those who are admitted to the United States to establish permanent residence and those who are admitted for purposes of employment.[6] Those who are in this country for other purposes[7] or who are here illegally are not eligible. Problems quickly arose with these groups.

The North Carolina Division of Motor Vehicles (DMV) at first attempted to enforce the new requirement as written but backed away from that position after complaints from the Hispanic community.[8] DMV then made an administrative decision that G.S. 20-7(b1), as amended in 1997, was not intended to require the impossible and that if an applicant did not have a Social Security number, he or she could certify to that fact and be issued a license.[9]

"The register of deeds shall not issue a marriage license unless all of the requirements of this section have been met."

—G.S. 51-8

The situation with regard to marriage licenses was more complicated. Marriage licenses are issued by the registers of deeds in each of the state's 100 counties,[10] and a register can be held personally liable for issuing a license to an applicant who does not meet the statutory requirements for the license.[11] Many registers were—and are—reluctant to issue a license to an applicant without a Social Security number, especially in light of the last sentence of G.S. 51-8: "The register of deeds shall not issue a marriage license unless all of the requirements of this section have been met."[12] In summer 1998 an especially troublesome case in Guilford County caused the register to seek an opinion from the attorney general. One of the applicants was a foreign national who was in this country solely to get married and had no Social Security number. In an advisory opinion to Katherine Lee Payne, Guilford County register of deeds, dated August 14, 1998, Andrew A. Vanore, Jr., general counsel to the North Carolina Department of Justice, concluded that neither the federal statute requiring states to obtain Social Security numbers nor G.S. 51-8 was intended to prevent a foreign national who

is ineligible for a Social Security number from obtaining a marriage license. The general counsel stated that if a foreign national is ineligible for a Social Security number, signs an affidavit to that effect, and provides proof of foreign citizenship, he or she should be issued a marriage license, assuming all the other license requirements are met. Most registers of deeds have conformed their practices to this opinion, although they are not required to do so.

So, by means of an administrative decision in the one instance and an attorney general's opinion in the other, North Carolina has avoided the unfortunate effects on certain foreign nationals, including illegal immigrants, that could have resulted from a poorly thought through federal statute implemented by an unquestioning state legislative response.

But DMV's decision and the attorney general's advisory opinion may be wrong. An equally plausible interpretation of the federal and state statutes is that they mean exactly what they say: unless a license applicant enters on the application form a Social Security number—or a standardized identification number issued by a federal or state agency—no license may be issued. The General Assembly could revisit this issue and include specific provisions in G.S. 20-7 and G.S. 51-8 to deal with applicants who have no Social Security numbers and cannot obtain them. As one possibility, North Carolina might follow Virginia's example and provide that DMV shall issue a control number for license applicants without a Social Security number and that this number shall be used on all license applications in lieu of a Social Security number.[13] Another possibility is simply to require an affidavit from an applicant with no Social Security number that he or she is ineligible to obtain one. Either alternative would place DMV's decision on a firmer legal footing and bring uniformity to the issuance of marriage licenses.

Briefing from DMV

Social Security Requirements for Driver Licenses

- NC GS 20-7(b1) states "the application form [for a driver license] must request...(5) The applicant's social security number. The Division shall not issue a license to an applicant who fails to provide the applicant's social security number."
- From the beginning, the Attorney General's office has told us that the requirement only applies to those persons who have a Social Security number, and that it was not a requirement that all applicants have a Social Security Number.
- The law results from HB301, which was introduced on behalf of the Social Service Division of DHHS for purposes of improving collection of child support from "deadbeat" parents. Federal legislation in 1996 created incentives for states to initiate improved efforts for child support collection.
- HB301 was designed "to enhance child support enforcement and paternity establishments in conformance with federal welfare reform requirements."
- In discussions with DSS in 1996 and 1997, HB301 was never presented as changing requirements for eligibility for a driver license.
- HB301 was intended to collect SSNs from customers with driver licenses (and not ID cards) in order to make it easier for DSS agencies to track customers and, if necessary, suspend their driving license in order to compel payment of overdue child support.
- The bill did not require collection of SSNs for ID cards, presumably because you cannot suspend a person's ID, and therefore there was no need to be concerned with them.
- The law passed August 19, 1997 and took effect October 1, 1997.
- At request of Social Security Administration, when a person indicates they do not have a social security number the examiner enters a series of "9s" in the SSN field.
- Since October 1, 1997, the Driver License Section has collected SSNs for 5,798,972 customers, out of a total of 6,685,204 active driver license records.
- In that period, we have had 388,195 cases where the customer said they did not have an SSN. This is 5.8% of the total licensed drivers.
- The ethnic breakdown for those is:
    - Hispanic 266,222
    - Caucasian 48,730
    - African American 36,099
    - Other 32,069
    - Asian 3,822
    - American Indian 1,253

- The fact that a person does not have a Social Security number does not necessarily mean they are in the country illegally. For instance, a computer programmer from India would have a work visa and an SSN; but the spouse might have a non-work visa and would not have to have a SSN in the country, since the spouse wouldn't be working.
- Realistically, probably most of our customers without an SSN are in the country without appropriate INS documents.

SENATE BILL 879:
School of Science/Math Flexibility.

BILL ANALYSIS

Committee:	House Appropriations	**Introduced by:**	Senator Lucas
Date:	September 26, 2001	**Summary by:**	Sara Kamprath
Version:	Third Edition		Committee Staff, House Education Committee

SUMMARY: ***This bill would provide greater budget flexibility for the North Carolina School of Science and Mathematics (School). It would take effect July 1, 2001.***

BACKGROUND: Beginning in 1991, the General Assembly has authorized the Board of Governors (upon the President's recommendation and after consultation with the State Auditor) to specify certain constituent institutions as Special Responsibility Constituent Institutions (SRCI). Sixteen institutions are now given greater discretionary authority over certain aspects of their budgeting, purchasing, and personnel. These institutions are also permitted to retain a designated percent of their reversions at the end of each fiscal year for one-time expenditures. The Board of Governors is required to direct each SRCI to include in its institutional effectiveness plan assessment measures of student learning and development in general undergraduate education. The Board also must report annually to the Joint Legislative Education Oversight Committee. The reports are to include the impact on undergraduate student learning, fiscal savings, management initiatives, increased efficiency and effectiveness, and other outcomes made possible by the flexibility.

BILL ANALYSIS: This bill would add a new subsection (b) to G.S. 116-30.2, currently applicable to the SRCIs. This new subsection would provide the following:

- The School may be designated as an SRCI after the Board of Governors finds that the School has the management staff and internal fiscal controls to administer the additional management authority and discretion delegated to it.
- The School is subject to the same rules, adopted by the Board of Governors, as the other SRCIs to receive and maintain that designation. These rules include procedures for reviewing the required financial audits and procedures for handling any financial problems.
- The Director would have greater flexibility in creating and abolishing positions when that would maintain and advance the School's programs and services.
- The Board of Governors shall direct the School to assess how this flexibility impacts on student learning. The Board will collect this assessment and include it as a part of the annual report to the Joint Legislative Education Oversight Committee on the impact on student learning, fiscal savings, management initiatives, increased efficiency and effectiveness, and other outcomes made possible by the flexibility given to all the SRCIs.
- The Board of Governors shall set the School's bid value benchmark, with regard to competitive bidding procedures, at an amount no greater than $250,000. The benchmark for the School shall be based on available staff resources, reviews of purchasing compliance, and audit results.
- All General Fund appropriations for continuing operations of the School would be made in a single sum to each budget code for each year of the fiscal period.

- The School would be permitted to expend monies from the General Fund and from the overhead receipts special fund in a manner that the Director calculates would maintain and advance the School's programs and services, consistent with the policies of the board of trustees.
- The School may transfer these funds, including funds for salaries, among line items.
- The quarterly allotment procedure would apply to the General Fund appropriations made for current operations of the School.
- The General Fund monies must be recorded, reported, and audited in the same way as the other SRCIs.
- Unlike the SRCIs, the School would NOT be allowed to retain reversions.

Robin Johnson contributed significantly to this summary.

A BILL TO BE ENTITLED

AN ACT TO AUTHORIZE PUBLIC TOLL ROADS AND BRIDGES IN NORTH CAROLINA AND THE CREATION OF A TURNPIKE AUTHORITY.

The General Assembly of North Carolina enacts:

SECTION 1. Chapter 136 of the General Statutes is amended by adding a new Article to read:

"Article 6H.

"Public Toll Roads and Bridges.

"**§ 136-89.180. Legislative findings.**

The General Assembly finds that the existing State road system is becoming increasingly congested and overburdened with traffic in many areas of the State; that the sharp surge of vehicle miles traveled is overwhelming the State's ability to build and pay for adequate road improvements; and that an adequate answer to this challenge will require the State to be innovative and utilize several new approaches to transportation improvements in North Carolina.

Toll funding of highway construction is feasible in North Carolina and can contribute to addressing the critical transportation needs of the State. A toll program can speed the implementation of needed transportation improvements by funding some projects with tolls.

"**§ 136-89.181. Definitions.**

The following definitions apply to this Article:

(1) "Turnpike Authority" means the public agency created by this Article.

(2) "Turnpike Authority Board" means the governing board of the Turnpike Authority.

(3) "Turnpike Project" means any primary or secondary road, bridge, or tunnel project that is included in the Transportation Improvement

Program prior to construction; and is planned and constructed in accordance with the provisions of this Article.

(4) "Turnpike System" means collectively all Turnpike Projects developed in accordance with the provisions of this Article.

"**§ 136-89.182. North Carolina Turnpike Authority.**

(a) Creation. – There is created a body politic and corporate to be known as the "North Carolina Turnpike Authority." EFFECTIVE DATE: When bill becomes law.

BILL SUMMARY: House Bill 644 authorizes the creation of a public agency, the "North Carolina Turnpike Authority," to construct, operate and maintain toll roads in the State.

A seven member Board of Directors, consisting of six members appointed by the Governor and one designated by the Secretary of Transportation would govern the Authority. The Board would be authorized to adopt and revise bylaws. Prior to adoption, bylaws would be subject to review and comment by the Board of Transportation and the Joint Legislative Transportation Oversight Committee. The Authority would have the authority to hire only administrative personnel. The Authority would be authorized to contract for the services of other needed personnel, and utilize personnel of the Department of Transportation (DOT). The Authority would have the power to condemn property, to issue revenue bonds, and to enter into partnership agreements. Revenue bonds would be subject to the approval of the Local Government Commission; for the purposes of issuing them, the authority would be considered a "municipality."

The Authority would be subject to limits on the use of revenue derived from toll projects. Revenue could only be used for the following purposes: Turnpike administration; Turnpike Project development, construction, operation, and maintenance; and Turnpike project debt service. Spending on administration would be limited to 10% of Turnpike project revenue. DOT would be authorized to participate in the cost of preconstruction, construction, maintenance, or operation of a turnpike project. Turnpike projects would be subject to the equity distribution formula for State Highway Funds only to the extent that the project is funded from Highway Fund, Highway Trust Fund, or federal-aid funds that would otherwise be subject to the formula. Operation and project development costs of the Authority would be eligible administrative expenses of the Highway Trust Fund. These expenses are to be repaid to the Highway Trust Fund. The act would require tolls to be removed from Turnpike projects when all agreements in connection with the issuance of revenue bonds have been fulfilled.

ASSUMPTIONS AND METHODOLOGY:

Administrative Costs

The bill would allow administrative costs associated with staffing and operating the Turnpike Authority to be covered by the Highway Trust Fund. Our estimates of administrative costs are based on the assumptions listed below:

1. For the first two years, the Authority would require a chief executive officer ($125,000 salary) and an administrative assistant ($40,000 salary). Benefits for both positions would equal roughly $35,000. Board expenses would be roughly $5,000, and office and other expenses would be roughly $25,000.
2. Starting with FY 2003-04, a chief financial officer would be added to the staff at a salary of $94,000, and with benefits of roughly $17,000.

These costs would be funded out of existing revenues, and would not require an appropriation. The bill requires funds used for these purposes to be repaid to the Highway Trust Fund, but does not specify a time frame for repayment.

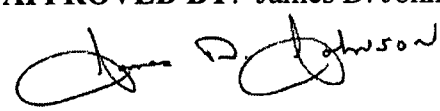
Project Development Costs

The development of road and bridge projects will require funding for design, preliminary engineering, environmental impact statements and right-of-way acquisition. The Department of Transportation estimates that these costs would total roughly $3 million in FY 2003-04 and roughly $20 million by FY 2005-06.

The Fiscal Research Division believes the development costs of these projects would be incurred by DOT whether the Turnpike Authority is created or not. Furthermore, although these costs may be incurred sooner with the creation of the Turnpike Authority, these costs would not require additional funding; rather, DOT would fund these projects by reallocating funds within its project budgets. The bill requires funds from the Highway Trust Fund used for these purposes to be repaid, but does not specify a time frame for repayment.

Construction Costs

Until the Turnpike Authority has toll revenue adequate to fully fund its projects, the Authority will require some participation by the State in the funding of project construction.



The bill allows DOT to participate in this construction. Although this participation, in a sense, would represent a cost to the State, we believe the construction costs associated with Turnpike projects would be incurred by DOT whether the Turnpike Authority is created or not. Furthermore, Turnpike project construction will be funded only partially with State funds; the balance of project costs will be funded with revenue bonds and toll revenues. Thus Turnpike projects will cost the State less to build than if these projects were built solely with State funds. Ultimately, by leveraging State construction funds with toll revenues, the Turnpike Authority will allow the State to stretch those funds farther.

Tolls

Eventually toll revenues would be generated by Turnpike Authority projects. However, these toll revenues would not be collected within the five-year time frame of this fiscal note.

SENATE BILL 968:
UNC Nonappropriated Capital Projects

BILL ANALYSIS

Committee:	House Appropriations	**Introduced by:**	Sen. Kerr
Date:	October 18, 2001	**Summary by:**	Cindy Avrette
Version:	S968-PCS9361-LR-15		Revised by Emily Johnson

SUMMARY: Senate Bill 968 authorizes the construction of several projects by The University of North Carolina. The projects will be financed through revenue bonds and special obligation bonds, not appropriations from the General Fund. It also authorizes the construction and financing of two capital projects at NCSU through lease arrangements with nonprofit corporations. In addition, Senate Bill 968 sets the maximum amount of special obligation bonds that can be issued and clarifies the amount of public financing of the projects constructed through lease arrangements with nonprofit corporations by referring to the projects in Section 2 of the bill.

The proposed committee substitute differs from Senate Bill 968 (2nd Ed.) by: (i) amending the list of capital projects authorized by Section 2 of the bill to include the baseball stadium at East Carolina University, which was included originally in the list of projects authorized by Senate Bill 968; and (ii) increasing the maximum amount of additional related costs that may be spent on the projects authorized in Section 2 of the bill from $6 million to $6.3 million.

CURRENT LAW: There are two types of self-liquidating bonds that may be issued by the Board of Governors of the University of North Carolina. Article 21 of Chapter 116 of the General Statutes authorizes the Board of Governors to issue revenue bonds for the types of projects enumerated in the article. The types of projects for which revenue bonds may be issued include educational buildings, dormitories, recreational facilities, dining facilities, student centers, health care buildings, parking decks, etc. The revenue bonds are payable from rentals, charges, fees, and other revenues such as gifts. The bonds are not payable from tax revenues.

Article 3 of Chapter 116D of the General Statutes, enacted last session by S.L. 2000-3, authorizes the Board of Governors to issue special obligation bonds payable with any sources of income or receipts of the Board of Governors or a constituent or affiliated institution, but not including tuition payments or appropriations from the General Fund from State revenues. The bond proceeds could be used for construction, improvement, and acquisition of any capital facilities located at UNC constituent and affiliated institutions. The bonds are not payable from tax revenues.

BILL ANALYSIS: **Sections 1 through 3** of the bill set forth the self-liquidating projects the Board of Governors plans to finance with revenue and/or self-liquidating bonds. Although the UNC revenue bond act in Chapter 116 does not require the enactment of an appropriation bill, the customary practice for UNC system revenue bond issues has been legislation that lists the specific projects to be financed and their costs.

Section 4 authorizes special obligation bond financing for the projects listed in the bill. Unlike the UNC revenue bond act, the UNC special obligation bond act requires that the specific projects and their costs be set forth in legislation approved by the General Assembly and that the maximum amount of special obligation bonds to be issued to finance the specific projects listed be stated. Section 2 sets forth the specific projects and their costs. Section 4 expressly states that the maximum principal amount of special obligation bonds to be issued includes not only the amounts listed in Section 2 but also an additional amount equal to approximately 3% of the total projects costs ($6.3 million) for related additional costs for which bond proceeds are routinely used, such as issuance expenses, funding of reserve funds, and capitalized interest.

Section 5 authorizes the financing of two projects at NCSU through lease arrangements with nonprofit corporations. Over the years, the University system has used lease arrangements with nonprofit corporations to construct facilities necessary to academic life, student support services, physical education and recreation, athletics, and other programs when the facilities are financed by major gifts. The process followed by the State is as follows:

- The State, following guidelines established by the Department of Administration and with Council of State approval, leases land to the nonprofit corporation for the period of time required for the construction of the facility.
- The nonprofit corporation, after review and approval of construction plans by the State Construction Office, builds the facility. All the projects are subject to the Department of Insurance review to ensure that they meet State Building Code requirements.
- When construction is completed and the facility has been deemed acceptable to the State, the lease expires and the land returns to the State's control, along with the newly constructed facility.

The difference between the two projects named in **Section 5** of the bill and the other projects constructed in this manner is that the bill authorizes the University to issue long-term debt for up to 50% of the total value of the gift. The two projects named in this section are the Alumni Center and the Carter Finley Stadium Improvements. The Alumni Center will be constructed on the Centennial Campus near the Executive Conference Center. The University plans to lease land to The North Carolina State University Alumni Association, Inc. for the period of time required for the Association to construct the facility. When the facility is completed the University plans to acquire the facility from the Association. The Carter Finley Stadium Improvements include the construction of an operations center, practice fields, additional stadium seating, new press facilities, and expanded box facilities. The University plans to lease land to the North Carolina State University Student Aid Association, Inc. for the period of time required for the Association to make the improvements. When the improvements are completed, the lease would expire.

Allows the Department of Correction to reallocate unspent or unclaimed funds distributed to counties participating in the Criminal Justice Partnership Programs in an effort to maintain prior year service levels.

Part II: Education

Section 3 – State Board of Education Membership

Makes several changes to the Board's membership that include: 1) adding a principal to serve a one-year term, 2) appointing a superintendent to serve as an advisor to the Board, 3) reducing the number of student advisors to the Board, and 4) reducing the term for Teacher of the Year Advisor from two years to one year. The total number of members on the Board would not change.

Section 4 – Photonics / Optoelectronics Funds

Clarifies the legislative intent of a $1,375,000 appropriation included in the Budget Bill. Specifically, it earmarks $350,000 for photonics research and $250,000 for optoelectronics research.

Section 5 – Clarify Community College Fees

Provides the State Board of Community Colleges the authority to adopt temporary rules in accordance with the temporary rule process outlined in G.S.150B. The Community Colleges have requested this authority in order to clarify the definitions of certain types of fees. The permanent rule making process could take up to 18 months. This provision is a procedural fix that allows them to get the rule in place quickly. It does not alter their statutory authority to implement fees; it only allows them to adopt a temporary rule where they would otherwise have to go through the permanent rule making process.

Part III: Tax Matters

Section 6 – Economic Development Board Membership

Adds the Secretary of Revenue as an ex officio, nonvoting member of the Board.

Section 7 – Delinquent Tax Enforcement

HB 108 authorizes local boards of county commissioners to require that the Register of Deeds not accept any deed for registration unless the county tax collector has certified that no delinquent ad valorem taxes are owed on the property. This includes county and municipal taxes, as well as taxes that are a lien against the property on the deed. A specific list of counties was included in the original bill. This section merely adds additional counties to the list.

Section 8 – Disposition of Tax Proceeds

Clarifies that the transfer from the Trust Fund to the General Fund includes both the original $170 million and the new amount expected from closing the vehicle tax loophole. This was always assumed in the fiscal analysis, but the Department would like this clarified in statute.

Part IV: General Assembly

Section 9 – Journal Publication Change

Reduces the number of publications provided to agencies and institutions throughout State government. Also limits the number of hardbound copies of publications to one per agency or institution unless otherwise requested.

Part V: Health and Human Services

Section 10 – Comprehensive Services / Foster Care

Adds the words "foster care" to the provision in order to correct an omission from the Budget Bill.

Section 11 – Report Date Change

Corrects a reporting date from 2001 to 2002.

Section 12 – Circumcision Funds

Restores funding for elective circumcisions paid for by Medicaid.

Section 13 – Prescription Drugs

This section clarifies how the Medicaid program will pay for prescription drugs. The payment for prescription drugs would be the lesser of the following options:

(1) 90% of the Average Wholesale Price plus the dispensing fee;
(2) The Centers for Medicare and Medicaid Services Upper Limit plus the dispensing fee;
(3) The Maximum Allowable Cost pricing established by the Department of Health and Human Services plus the dispensing fee; or
(4) The provider's charge to the general public.

This provision has no fiscal impact.

Section 14 – Coordination of Access to Pharmaceutical Company Prescription Drug Programs

Clarifies that funds will be used to set up local "programs" that will assist in the completion of company applications, check eligibility, and ensure the proper signatures are appropriately placed on the applications. The funds would also be used to purchase software and/or computer equipment.

These entities would be located in free health clinics, local health departments, and medical centers. The funds will augment foundation money that the Department of Health and Human Services has also secured.

Part VI: Retirement and Health Plan

Section 15 – Retirement Payment

States the General Assembly's intent to appropriate funds to the Retirement System that were withheld because of the fiscal emergency declared in FY 2000-01. The appropriations may be made over a five-year period.

Section 16 – Health Plan Co-Payment

The first section repeals the $15 co-payment paid by members of the State Employee Health Benefit Plan for home intravenous therapy retroactive to July 1, 2001. The co-payment was first suggested by Blue Cross & Blue Shield of North Carolina, the Plan's claims processor, and was subsequently enacted by the General Assembly in Session Law 2001-253. Blue Cross & Blue Shield now suggests that the co-payment be eliminated for home IV therapy since some cancer patients are being unduly penalized by the recurring nature of the co-payment. The elimination of the co-payment is expected to cost the Plan $50,000 annually. The Plan's funded financial projections for the 2001-2003 biennium are sufficient to cover the loss of savings.

The second section repeals the co-payment against cardiac rehabilitation visits that was implemented by the Health Plan's Executive Director. These visits can occur daily for up to 6-8 weeks. There is no additional fiscal impact to the Plan since cardiac rehabilitation visits were not included in the episode of care counts used to estimate the Plan savings from the $15 co-payments.

Section 17 – Military Leave

Extends the Governor's authority to set State military leave benefit policies for State and public school employees who are called to serve federal military duty in the National Guard and other reserve components of the U.S. Armed Forces.

Section 18 – Optional Retirement System

Changes the effective date of the Optional Retirement System for Community College Presidents from January 1, 2002 to January 1, 2003 in order to give them more time to implement the program.

Part VII: Environment and Natural Resources

Section 19 – Floodplain Mapping

Authorizes the Department of Crime Control and Public Safety to use up to $6,000,000 from the Reserve for Disaster Relief to complete mapping for the Cape Fear River Basin if federal funds are insufficient to complete the project. Also authorizes the Department to use up to $3 million from the Reserve for Disaster Relief to begin mapping for the Catawba and Yadkin River Basins.

Part VIII: General Matters

Section 20 – Turf Grass Revenue Reallocations

HB 688 would tax the sale of fertilizers and seed to nonfarmers. This section would appropriate funds to the following programs if the bill were enacted:

(1) $460,000 to the Sickle Cell Program in order to maintain existing services,

(2) $2,100,000 to support child care subsidy vouchers for needy families,

(3) $100,000 to the Department of Agriculture and Consumer Services, Markets Division, to promote the specialty foods business through trades shows, retail promotions, print materials, and maintenance of an E-commerce web site.

Section 21 -- Cultural Resources / Digital Archives

Clarifies that the department shall use the $50,000 appropriation to complete planning for the IT expansion project as in the initial version and to aid in computerizing certain State archival records for access via the Internet.

Section 22 – E Procurement

Clarifies that procurement cards do not have to be utilized exclusively through the North Carolina E Procurement Service. Also eliminates $250 purchase limit set on cards used by NC State University and UNC-Chapel Hill.

Section 23 – Cherokee Compact

This section clarifies the Governor's authority to enter into tribal-state compacts. The clarification is necessary because of recent court cases in other states.

Section 24 – Advance Health Care Directive Registry Funds

Provides start-up funding for the design, construction, and implementation of a web-based central registry established under Article 21 of Chapter 130A.

Section 25 – DMV Advertising Ban

States that the Commissioner of Motor Vehicles shall not contract for the sale of advertising to be placed in official mailings of the Division.

Section 26 – Effective Dates

Section 16 (Health Plan Co-payment) is effective July 1, 2001.
Section 20 (Turf Grass Reallocations) is effective December 1, 2001.
Section 23 (Cherokee Compact) is August 1, 1994.
The remainder of the bill is effective when it becomes law.

Advertising Inserts

- DMV mails approximately 6,000,000 registration renewal notices per year.
- Postage is 26.9¢ for each notice – totaling approximately $1,614,000. (Postage cost would not increase with addition of inserts)
- Potential revenue from inserts is based upon number of inserts per notice and total number of notices mailed.
- In first year, DMV would receive 40% of net revenue, 50% in the second year and 60% in the third and subsequent years.
- This chart gives an estimated idea of projected revenue

*Gross revenue based on an average of 3 advertisements per renewal notice mailing

Ad Year	Renewal Notices	*Gross Revenue to Ad Agency at $30/thousand (M)	Ad Agency Material Cost @ $18.18M	Ad Agency Net Revenue	Rate of Compensation to DMV	Estimated Revenue
1st Year	6,000,000	$540,000	$109,080	$430,920	40% of Net Ad Revenue	$172,368
2nd Year	6,000,000	$540,000	$109,080	$430,920	50% of Net Ad Revenue	$215,460
3rd Year	6,000,000	$540,000	$109,080	$430,920	60% of Net Ad Revenue	$258,552
4th Year	6,000,000	$540,000	$109,080	$430,920	60% of Net Ad Revenue	$258,552

- DMV has full control of the advertising marketing plan and must review and approve each ad to ensure appropriateness. No ad will be used without prior written approval of DMV. Products and services advertised and the layout of the advertisements will be related to and harmonious with DMV and will be consistent with the professionalism, integrity, public safety mission and law enforcement responsibilities of DMV.

  For example, ads featuring automobile manufacturers, Insurance Companies, and Triple A would be acceptable. Ads for alcoholic beverages, political campaigns and adult entertainment would not.

Ref. to Appropriations	APPROP

Summary of House Committee Substitute for Senate Bill 841

Part I: Justice and Public Safety

Section 1 – Dobbs Center

DOT is acquiring a parcel of land from the Dobbs Youth Development Center (Juvenile Justice) for a highway right-of-way. DOT usually repays the General Fund for the lost value of property acquired in this manner. This provision allows Juvenile Justice to use the $172,050 payment (rather than the General Fund) in order to replace the maintenance shops, offices, and storage facilities that are currently on this parcel of land.

Section 2 – Criminal Justice Partnership Program

Allows the Department of Correction to reallocate unspent or unclaimed funds distributed to counties participating in the Criminal Justice Partnership Programs in an effort to maintain prior year service levels.

Part II: Education

Section 3 – State Board of Education Membership

Makes several changes to the Board's membership that include: 1) adding a principal to serve a one-year term, 2) appointing a superintendent to serve as an advisor to the Board, 3) reducing the number of student advisors to the Board, and 4) reducing the term for Teacher of the Year Advisor from two years to one year. The total number of members on the Board would not change.

Section 4 – Photonics / Optoelectronics Funds

Clarifies the legislative intent of a $1,375,000 appropriation included in the Budget Bill. Specifically, it earmarks $350,000 for photonics research and $250,000 for optoelectronics research.

Section 5 – Clarify Community College Fees

Provides the State Board of Community Colleges the authority to adopt temporary rules in accordance with the temporary rule process outlined in G.S.150B. The Community Colleges have requested this authority in order to clarify the definitions of certain types of fees. The permanent rule making process could take up to 18 months. This provision is a procedural fix that allows them to get the rule in place quickly. It does not alter their statutory authority to implement fees; it only allows them to adopt a temporary rule where they would otherwise have to go through the permanent rule making process.

Part III: Tax Matters

Section 6 – Economic Development Board Membership

Adds the Secretary of Revenue as an ex officio, nonvoting member of the Board.

Section 7 – Delinquent Tax Enforcement

HB 108 authorizes local boards of county commissioners to require that the Register of Deeds not accept any deed for registration unless the county tax collector has certified that no delinquent ad valorem taxes are owed on the property. This includes county and municipal taxes, as well as taxes that are a lien against the property on the deed. A specific list of counties was included in the original bill. This section merely adds additional counties to the list.

Section 8 – Disposition of Tax Proceeds

Clarifies that the transfer from the Trust Fund to the General Fund includes both the original $170 million and the new amount expected from closing the vehicle tax loophole. This was always assumed in the fiscal analysis, but the Department would like this clarified in statute.

Part IV: General Assembly

Section 9 – Journal Publication Change

Reduces the number of publications provided to agencies and institutions throughout State government. Also limits the number of hardbound copies of publications to one per agency or institution unless otherwise requested.

Part V: Health and Human Services

Section 10 – Comprehensive Services / Foster Care

Adds the words "foster care" to the provision in order to correct an omission from the Budget Bill.

Section 11 – Report Date Change

Corrects a reporting date from 2001 to 2002.

Section 12 – Circumcision Funds

Restores funding for elective circumcisions paid for by Medicaid.

Section 13 – Prescription Drugs

This section clarifies how the Medicaid program will pay for prescription drugs. The payment for prescription drugs would be the lesser of the following options:

(1) 90% of the Average Wholesale Price plus the dispensing fee;
(2) The Centers for Medicare and Medicaid Services Upper Limit plus the dispensing fee;
(3) The Maximum Allowable Cost pricing established by the Department of Health and Human Services plus the dispensing fee; or
(4) The provider's charge to the general public.

This provision has no fiscal impact.

Section 14 – Coordination of Access to Pharmaceutical Company Prescription Drug Programs

Clarifies that funds will be used to set up local "programs" that will assist in the completion of company applications, check eligibility, and ensure the proper signatures are appropriately placed on the applications. The funds would also be used to purchase software and/or computer equipment.

These entities would be located in free health clinics, local health departments, and medical centers. The funds will augment foundation money that the Department of Health and Human Services has also secured.

Part VI: Retirement and Health Plan

Section 15 – Retirement Payment

States the General Assembly's intent to appropriate funds to the Retirement System that were withheld because of the fiscal emergency declared in FY 2000-01. The appropriations may be made over a five-year period.

Section 16 – Health Plan Co-Payment

The first section repeals the $15 co-payment paid by members of the State Employee Health Benefit Plan for home intravenous therapy retroactive to July 1, 2001. The co-payment was first suggested by Blue Cross & Blue Shield of North Carolina, the Plan's claims processor, and was subsequently enacted by the General Assembly in Session Law 2001-253. Blue Cross & Blue Shield now suggests that the co-payment be eliminated for home IV therapy since some cancer patients are being unduly penalized by the recurring nature of the co-payment. The elimination of the co-payment is expected to cost the Plan $50,000 annually. The Plan's funded financial projections for the 2001-2003 biennium are sufficient to cover the loss of savings.

The second section repeals the co-payment against cardiac rehabilitation visits that was implemented by the Health Plan's Executive Director. These visits can occur daily for up to 6-8 weeks. There is no additional fiscal impact to the Plan since cardiac rehabilitation visits were not included in the episode of care counts used to estimate the Plan savings from the $15 co-payments.

Section 17 – Military Leave

Extends the Governor's authority to set State military leave benefit policies for State and public school employees who are called to serve federal military duty in the National Guard and other reserve components of the U.S. Armed Forces.

Section 18 – Optional Retirement System

Changes the effective date of the Optional Retirement System for Community College Presidents from January 1, 2002 to January 1, 2003 in order to give them more time to implement the program.

Part VII: Environment and Natural Resources

Section 19 – Floodplain Mapping

Authorizes the Department of Crime Control and Public Safety to use up to $6,000,000 from the Reserve for Disaster Relief to complete mapping for the Cape Fear River Basin if federal funds are insufficient to complete the project. Also authorizes the Department to use up to $3 million from the Reserve for Disaster Relief to begin mapping for the Catawba and Yadkin River Basins.

Part VIII: General Matters

Section 20 – Turf Grass Revenue Reallocations

HB 688 would tax the sale of fertilizers and seed to nonfarmers. This section would appropriate funds to the following programs if the bill were enacted:

(1) $460,000 to the Sickle Cell Program in order to maintain existing services,

(2) $2,100,000 to support child care subsidy vouchers for needy families,

(3) $100,000 to the Department of Agriculture and Consumer Services, Markets Division, to promote the specialty foods business through trades shows, retail promotions, print materials, and maintenance of an E-commerce web site.

Section 21 -- Cultural Resources / Digital Archives

Clarifies that the department shall use the $50,000 appropriation to complete planning for the IT expansion project as in the initial version and to aid in computerizing certain State archival records for access via the Internet.

Section 22 – E Procurement

Clarifies that procurement cards do not have to be utilized exclusively through the North Carolina E Procurement Service. Also eliminates $250 purchase limit set on cards used by NC State University and UNC-Chapel Hill.

Section 23 – Cherokee Compact

This section clarifies the Governor's authority to enter into tribal-state compacts. The clarification is necessary because of recent court cases in other states.

Section 24 – Advance Health Care Directive Registry Funds

Provides start-up funding for the design, construction, and implementation of a web-based central registry established under Article 21 of Chapter 130A.

Section 25 – DMV Advertising Ban

States that the Commissioner of Motor Vehicles shall not contract for the sale of advertising to be placed in official mailings of the Division.

Section 26 – Effective Dates

Section 16 (Health Plan Co-payment) is effective July 1, 2001.
Section 20 (Turf Grass Reallocations) is effective December 1, 2001.
Section 23 (Cherokee Compact) is August 1, 1994.
The remainder of the bill is effective when it becomes law.

PRINCIPAL DEPARTMENT(S) & PROGRAM(S) AFFECTED: North Carolina Department of Revenue, Sales Tax Division, North Carolina State University, North Carolina A&T State University, Rural Economic Development Center, Department of Health and Human Services.

EFFECTIVE DATE: December 1, 2001.

BILL SUMMARY: Currently the sale of seed and fertilizer is exempt from sales tax. This legislation removes that general exemption, but continues to exempt the sale of these items to farmers. The bill also creates an annual appropriation of most of the sales tax revenues. Of the appropriated amount $600,000 must be forwarded to the University Board of Governors for North Carolina State University (NCSU). NCSU must use the funds for the Center for Turfgrass Environmental Research and Education at North Carolina State University (NCSU), and research proposals from both NCSU and North Carolina A&T State University. The Commissioner of Agriculture is also given $100,000 to educate the public on the results of the research conducted by the Center. An additional $200,000 shall be allocated annually to the Rural Economic Development Center, which must use all of the funds for Agricultural Advancement Consortium research initiatives. In FY 2001-02

$2,000,000 must be allocated to the Mental Health Trust Fund. In FY 2002-03 this amount increases to $4,000,000.

ASSUMPTIONS AND METHODOLOGY:

Revenue: In 1994 the North Carolina Department of Agriculture and Consumer Service conducted a statewide survey of non-agricultural turfgrass use and maintenance. The results were published in the 1994 North Carolina Turfgrass Survey. In 1999 the Department again conducted this statewide survey, but was unable to analyze and formally publish the results due to budget constraints. The date includes information by major consumer category on expenditures on seed, fertilizer, lime, sod, and sprigs (sprigs are considered a seed by the Department of Revenue and are therefore exempt under current law).

When available, the 1999 data was used to determine potential sales tax revenue. This data was available on sales to single family dwellings and golf courses. In order to develop a reasonable estimate of turfgrass and seed sales to the remaining consumers, Fiscal Research used the 1994 data to determine what proportion of sales were made in each major category, and applied that to the total 1999 sales figures. These new numbers were used as a proxy for 1999 sales. The resulting major category expenditures are as follows:

Category	1999 Sales
Single Family	108,105,000
Roadsides	3,665,172
Parks*** (50% refundable)	660,404
Commercial Properties	5,128,553
Churches (Exempt)	2,115,852
Golf Courses	16,190,038
Schools (Refund)	4,104,313

As the chart above suggests, many of these sales would continue to be exempt under the legislation because those organizations are generally exempt from sales taxes. Others would receive a refund because of their tax status. Once the 4.5% state sales tax is applied, and adjustments are made for refunds and exemptions, the following year one and year two estimates are possible.

These numbers are adjusted for growth and the ½ cent state tax sunset in 2003, creating the following revenue stream.

Fiscal Year	State Revenue

2000-01	6,026,625
2001-02	6,149,164

2006-07	6,112,655

The estimate in the Fiscal Impact box is adjusted for the December 1, 2001 effective date.

Expenditures: This portion of the bill appropriates a portion of the new revenue to several items. The exact amount appropriated is listed below.

EXPENDITURES	FY 2001-02	FY 2002-03	FY 2003-04	FY 2004-05	FY 2005-06
NC Dept. of Agricul.	$100,000	$100,000	$100,000	$100,000	$100,000
NCSU	$600,000	$600,000	$600,000	$600,000	$600,000

Mental Health	$2,000,000	$4,000,000	$4,000,000	$4,000,000	$4,000,000
Total Appropriation	$2,900,000	$4,900,000	$4,900,000	$4,900,000	$4,900,000

The appropriation to NCSU must be directed to the Center for Turfgrass Environmental Research and Education. That Center is to use the money to fund research initiatives, including funding research proposals from NCSU and North Carolina A&T State University. The North Carolina Department of Agriculture and Consumer Services must use their $100,000 annual appropriation to educate the public on the results of research conducted by the Center. The bill also appropriates $200,000 annually to the Rural Economic Development Center to fund Agricultural Advancement Consortium research initiatives. Finally, the bill allocates $2,000,000 in FY 2001-02 for The Trust Fund for Mental Health, Developmental Disabilities, and Substance Abuse Services and Bridge Funding Needs. In FY 2002-03 the appropriation is increased to $4,000,000.

Note: The fiscal note assumes that the appropriations are recurring. As such, the appropriated amounts are shown as fiscal impacts beyond the biennium.

A gift made in accordance with G.S. 130A-406 shall be sufficient legal authority for procurement without additional authority from the donor or the donor's family or estate. The gift shall take effect upon death. A gift made by the donor in accordance with G.S. 130A-406 may not be revoked upon the donor's death, and neither the donor's family nor the donor's health care agent appointed pursuant to Article 3 of Chapter 32A of the General Statutes may refuse to honor the gift or thwart the procurement of the donation.

(e) A gift of all or part of a body authorizes any examination necessary to assure medical acceptability of the gift for the purposes intended.

(f) The rights of the donee created by the gift are paramount to the rights of others except as provided by G.S. 130A-409(d)."

Committee:	House Appropriations	**Introduced by:**	Senator Lee

Version:	S907-PCS9376-LN-45		Committee Counsel

SUMMARY:

CURRENT LAW:

G.S. 130A-402, et seq. provides for anatomical gifts.

BILL ANALYSIS: Proposed House Committee Substitute for S907 does 3 things:

(1) Directs the Department of Health and Human Services, in consultation with the Department of Transportation and the Office of the Secretary of State to conduct a study of the establishment of a statewide organ, eye, and tissue donor registry. The purpose of the study is to determine the feasibility and potential benefits of maintaining a statewide registry of persons who have indicated a willingness to donate organs, eyes, and tissue for transplantation or research. The bill requires the study to address specified issues.

(2) Amends G.S. 130A-404 to clarify that a gift made in accordance with G.S. 130A-406 (see below for summary) is sufficient legal authority for procurement of the organ donation without additional authority from the donor or the donor's family or estate.

(3) Directs DMV to make donor cards available to interested individuals in each office authorized to issue drivers licenses or special identification cards. DMV shall obtain the cards from qualified procurement organizations or tissue banks. DMV must offer a donor card to each applicant for a drivers license.

OTHER INFORMATION: Under G.S. 130A-406, a person may make an anatomical gift in the following manner:

1. By will
2. By document, including a card designed to be carried on the person
3. Gift becomes effective upon death of donor
4. Document must be signed by donor in the presence of 2 witnesses
5. Witnesses must sign the document in the donor's presence
6. If donor cannot sign, donor may designate person to sign in presence of donor and witnesses
7. Gift may be to a specified donee, or not.
8. Donor may designate certain procedures in the document.
9. If the gift is made by one of the persons authorized under G.S. 130A-404, then the gift must be made by a document signed by the donor or made by the donor's telegraphic, recorded telephonic, or other recorded message. Except if the donor is a guardian and the gift is made prior to ward's death, then the gift is made by a document filed with clerk of court having jurisdiction over the guardian.

G.S. 130A-409(c) provides that a person who acts with due care in accord with the terms of this Part of the anatomical gift laws of another state is not liable for damages in any civil action or subject to prosecution in any criminal proceedings for the act. A person may rely upon a document registered with the Advanced Health Care Registry to the same extent as the person relied on the original document. The Health Care Registry statute permits a person to file a document of an anatomical gift made pursuant to the State's anatomical gift act.

DHHS and DOT may use funds available to conduct the study.

Sections 2 and 3 of the act become effective January 1, 2002. Remainder effective upon becoming law.

House Appropriations Co-Chair Representative David Redwine called the Appropriations Committee meeting to order at 5 pm for the purposes of considering S.B. 914 (4th Edition) Public Construction Law Changes. He recognized the House Pages in attendance.

The Co-Chair recognized the bill sponsor, Senator Dalton, who explained that the bill would make changes in the public construction laws to permit greater flexibility and efficiencies in public building design, construction and plan review, primarily through the concept of construction managers at risk. It would increase the mandatory performance and payment bond threshold for public construction projects, and would make changes intended to enhance and improve good faith efforts to recruit and select minority businesses for participation in public construction contracts. The bill would also change the law to provide for construction and design supervisory authority for projects up to $2 million for the University of North Carolina until December 31, 2006. It would promote greater energy efficiency in State buildings and make clarifying changes to the scope of practice for landscape architecture. Co-Chair Representative Easterling moved to adopt the proposed committee substitute for the purpose of discussion. The motion passed by a voice vote. Senator Dalton explained that the bill would cost $728,054 in non-recurring money and referred the members to the Legislative Fiscal Note (attached).

Representative Redwine's an amendment, which amends the title and technically corrects language (attached) was adopted by voice vote. The second amendment, offered by Representative Easterling and perfected by Representative Michaux (attached), was adopted by voice vote (attached). Representative Easterling then moved to favorably report House committee substitute #2, which changes the title. The meeting was adjourned at 6:05 PM.

Respectfully,

Representative Ruth Easterling

A BILL TO BE ENTITLED

AN ACT TO PROVIDE FOR CONSTRUCTION FLEXIBILITY FOR PUBLIC ENTITIES BY ALLOWING THE USE, WITHOUT LIMITATION, OF SEPARATE-PRIME CONTRACTING, SINGLE-PRIME CONTRACTING, DUAL BIDDING, CONSTRUCTION MANAGER AT RISK, AND ALTERNATIVE CONTRACTING METHODS AUTHORIZED BY THE STATE BUILDING COMMISSION; TO ENHANCE AND IMPROVE GOOD FAITH EFFORTS TO RECRUIT AND SELECT MINORITY BUSINESSES FOR PARTICIPATION IN PUBLIC CONSTRUCTION CONTRACTS; TO INCREASE THE MANDATORY PERFORMANCE AND PAYMENT BOND THRESHOLD FOR PUBLIC CONSTRUCTION PROJECTS; TO PROVIDE FOR CONSTRUCTION AND DESIGN SUPERVISORY AUTHORITY FOR PROJECTS UP TO TWO MILLION DOLLARS FOR THE UNIVERSITY OF NORTH CAROLINA UNTIL DECEMBER 31, 2006; TO PROVIDE FOR EFFICIENCIES IN THE PLAN REVIEW PROCESS FOR PUBLIC BUILDINGS; TO AMEND THE LAW GOVERNING LANDSCAPE ARCHITECTURE; AND TO APPROPRIATE FUNDS TO IMPLEMENT THE PUBLIC CONSTRUCTION LAW CHANGES.

The General Assembly of North Carolina enacts:

PART I. CONSTRUCTION CHANGES

SECTION 1. G.S. 143-64.31 reads as rewritten:

"**§ 143-64.31. Declaration of public policy.**

It is the public policy of this State and all public subdivisions and Local Governmental Units thereof, except in cases of special emergency involving the health and safety of the people or their property, to announce all requirements for architectural, engineering, ~~and~~ surveying and construction management at risk services, to select

firms qualified to provide such services on the basis of demonstrated competence and qualification for the type of professional services required without regard to fee other than unit price information at this stage, and thereafter to negotiate a contract for ~~architectural, engineering, or surveying~~ those services at a fair and reasonable fee with the best qualified firm. If a contract cannot be negotiated with the best qualified firm, negotiations with that firm shall be terminated and initiated with the next best qualified firm. Selection of a firm under this Article shall include the use of good faith efforts by the public entity to notify minority firms of the opportunity to submit qualifications for consideration by the public entity."

SECTION 2. Article 8 of Chapter 143 of the General Statutes is amended by adding the following new section to read:

"**§ 143-128.1. Construction management at risk contracts.**

(a) For purposes of this section and G.S. 143-64.31:

(1) "Construction management services" means services provided by a construction manager, which may include preparation and coordination of bid packages, scheduling, cost control, value engineering, evaluation, preconstruction services, and construction administration.

(2) "Construction management at risk services" means services provided by a person, corporation, or entity that (i) provides construction management services for a project throughout the preconstruction and construction phases, (ii) who is licensed as a general contractor, and (iii) who guarantees the cost of the project.

(3) "Construction manager at risk" means a person, corporation, or entity that provides construction management at risk services.

(4) "First-tier subcontractor" means a subcontractor who contracts directly with the construction manager at risk.

(b) The construction manager at risk shall be selected in accordance with Article 3D of this Chapter. Design services for a project shall be performed by a licensed architect or engineer. The public owner shall contract directly with the architect or engineer.

(c) The construction manager at risk shall contract directly with the public entity for all construction; shall publicly advertise as prescribed in G.S. 143-129; and shall prequalify and accept bids from first-tier subcontractors for all construction work under this section. The prequalification criteria shall be determined by the public entity and the construction manager at risk to address quality, performance, the time specified in the bids for performance of the contract, the cost of construction oversight, time for completion, capacity to perform, and other factors deemed appropriate by the public entity. The public entity shall require the construction manager at risk to submit its plan for compliance with G.S. 143-128.2 for approval by the public entity prior to soliciting bids for the project's first-tier subcontractors. A construction manager at risk and first-tier subcontractors shall make a good faith effort to recruit and select minority

businesses for participation in contracts pursuant to G.S. 143-128.2. A construction manager at risk may perform a portion of the work only if (i) bidding produces no responsible, responsive bidder for that portion of the work, the lowest responsible, responsive bidder will not execute a contract for the bid portion of the work, or the subcontractor defaults and a prequalified replacement cannot be obtained in a timely manner, and (ii) the public entity approves of the construction manager at risk's performance of the work. All bids shall be opened publicly and shall be public records under Chapter 132 of the General Statutes. The construction manager at risk shall act as the fiduciary of the public entity in handling and opening bids. The construction manager at risk shall award the contract to the lowest responsible, responsive bidder, taking into consideration quality, performance, the time specified in the bids for performance of the contract, the cost of construction oversight, time for completion, compliance with G.S. 143-128.2, and other factors deemed appropriate by the public entity and advertised as part of the bid solicitation. The public entity may require the selection of a different first-tier subcontractor for any portion of the work, consistent with this section, provided that the construction manager at risk is compensated for any additional cost incurred.

When contracts are awarded pursuant to this section, the public entity shall provide for a dispute resolution procedure as provided in G.S. 143-128(g).

(d) The construction manager at risk shall provide a performance and payment bond to the public entity in accordance with the provisions of Article 3 of Chapter 44A of the General Statutes."

SECTION 3. G.S. 143-128 reads as rewritten:

"**§ 143-128. Requirements for certain building contracts.**

(a) Preparation of specifications. – Every officer, board, department, commission or commissions charged with responsibility of preparation of specifications or awarding or entering into contracts for the erection, construction, alteration or repair of any buildings for the State, or for any county, municipality, or other public body, ~~must~~ shall have prepared separate specifications for each of the following subdivisions or branches of work to be performed:

(1) Heating, ventilating, air conditioning and accessories (separately or combined into one conductive ~~system) and/or~~system), refrigeration for cold storage (where the cold storage cooling load is 15 tons or more of refrigeration), and all ~~work kindred thereto.~~related work.

~~All such specifications must~~ Specifications for contracts that will be bid under the separate-prime system or dual bidding system shall be ~~so~~ drawn as to permit separate and independent bidding upon each of the subdivisions ~~or branches~~ of work enumerated ~~above.~~ in this subsection. The above enumeration of subdivisions or branches of work shall not be construed to prevent any officer, board, department, commission or commissions from preparing additional separate specifications for any other category of work.

(a1) Construction methods. – The State, a county, municipality, or other public body shall award contracts to erect, construct, alter, or repair buildings pursuant to any of the following methods:

(1) Separate-prime bidding.
(2) Single-prime bidding.

(b) ~~Building projects over five hundred thousand dollars ($500,000); separate prime contracts.~~ Separate-prime contracts. – ~~Except as provided in subsection (d) of this section, when the entire cost of the erection, construction, alteration, or repair of a building exceeds five hundred thousand dollars ($500,000),~~ When the State, county, municipality, or other public body uses the separate-prime contract system, it shall accept bids for each subdivision ~~or branch~~ of work for which specifications are required to be prepared under subsection (a) of this section and shall award the respective work specified separately to responsible and reliable persons, firms or corporations regularly engaged in their respective lines of work. ~~When the estimated cost of work to be performed in any single subdivision or branch for which separate bids are required by this subsection is less than twenty-five thousand dollars ($25,000), the same may be included in the contract for one of the other subdivisions or branches of the work, irrespective of total project cost.~~The contracts shall be awarded to the lowest responsible, responsive bidders, taking into consideration quality, performance, the time specified in the bids for performance of the contract, and compliance with G.S. 143-128.2. Bids may also be accepted from and awards made to separate contractors for other categories of work.

Each separate contractor shall be directly liable to the State of North Carolina, or to the ~~county or municipality,~~ county, municipality, or other public body and to the other separate contractors for the full performance of all duties and obligations due respectively under the terms of the separate contracts and in accordance with the plans and specifications, which shall specifically set forth the duties and obligations of each separate contractor. For the purpose of this section, "separate contractor" means any person, firm or corporation who shall enter into a contract with the State, or with any county, municipality, or other public ~~body,~~ entity ~~for the erection, construction,~~

~~(c) Building projects five hundred thousand dollars ($500,000) or less. When the entire cost of the erection, construction, alteration, or repair of a building is five hundred thousand dollars ($500,000) or less, the State, county, municipality, or other public body may accept bids under the single prime contract system, the separate prime contract system, or both. The provisions of subsection (b) of this section apply to the use of the separate prime contract system under this subsection. The provisions of subsection (d) of this section apply to the use of the single prime contract system under this section, except that bidding in the alternative between the single prime and separate prime systems is not required. Contracts bid in the alternative between the single prime and separate prime systems under this subsection must be awarded to the lowest responsible bidder or bidders, as provided in subsection (d) of this section.~~

(d) Single-prime ~~and alternative~~ contracts. – ~~The State, a county, municipality, or other public body may accept bids under the single prime contract system or a contracting method approved by the State Building Commission under G.S. 143-135.26.~~

~~If the State, county, municipality, or other public body accepts bids under the single prime contract system, it must also seek bids for the project under the separate prime contract system, except as otherwise authorized under G.S. 143-135.26, and award the contract to the lowest responsible bidder or bidders for the total project, taking into consideration quality, performance and the time specified in the bids for the performance of the contract.~~

~~When bids are accepted under the single prime contract system all~~All bidders ~~must~~ in a single-prime project shall identify on their bid the contractors they have selected for the subdivisions or branches of work for:

(1) Heating, ventilating, and air conditioning;
(2) Plumbing;
(3) Electrical; and
(4) General.

~~No contractor whose bid is accepted~~The contract shall be awarded to the lowest responsible, responsive bidder, taking into consideration quality, performance, the time specified in the bids for performance of the contract, and compliance with G.S. 143-128.2. A contractor whose bid is accepted shall not substitute any person as subcontractor in the place of the subcontractor listed in the original bid, except (i) if the listed subcontractor's bid is later determined by the contractor to be nonresponsible or nonresponsive or the listed subcontractor refuses to enter into a contract for the complete performance of the bid work, or (ii) with the approval of the awarding authority for good cause shown by the contractor. The terms, conditions, and requirements of each contract between the contractor and a subcontractor performing work under a subdivision or branch of work listed in this subsection shall ~~be substantially the same as~~incorporate by reference the terms, conditions, and

requirements of the contract between the contractor and the State, county, municipality, or other public body.

~~The requirements of this subsection governing the identification of bidders, substitution of contractors,and the terms and conditions of subcontractor's contracts apply to all single-prime bidding and single-prime contracts, regardless of whether bidding in the alternative between the single-prime and separate-prime systems has been waived by the State Building Commission.~~When contracts are awarded pursuant to this section, the public body shall make available to subcontractors the dispute resolution process as provided for in subsection (g) of this section.

(d1) ~~Local school administrative units; building projects over five hundred thousand dollars ($500,000).~~ Dual bidding. – ~~When the entire cost of the building project is more than five hundred thousand dollars ($500,000), a local school administrative unit shall seek bids as provided in subsection (b) or (d) of this section or this subsection. The local school administrative unit~~ The State, a county, municipality, or other public entity may accept bids to erect, construct, alter, or repair a building under both the single-prime and separate-prime contracting systems and shall award the contract to the lowest ~~responsible~~ responsible, responsive bidder under the single-prime system or to the lowest ~~responsible~~ responsible, responsive bidder under the separate-prime system, taking into consideration quality, performance, compliance with G.S. 143-128.2, and time specified in the bids ~~for performance of~~to perform the contract. In determining the system under which the contract will be awarded to the lowest ~~responsible~~ responsible, responsive bidder, the ~~local school administrative unit~~ public entity may consider cost of construction oversight, time for completion, and other factors it ~~deems~~ considers appropriate. ~~The local school administrative unit shall not open any bid solicited under subsection (d) of this section unless the unit receives at least three competitive bids from reputable and qualified contractors regularly engaged in their respective lines of endeavor and unless the unit receives a bid from at least one general contractor under the separate-prime system.~~ The bids received as separate-prime bids shall be ~~submitted three hours~~ received, but not opened, one hour prior to the deadline for the submission of single-prime bids. The amount of a bid submitted by a subcontractor to the general contractor under the single-prime system shall not exceed the amount bid, if any, for the same work by that subcontractor to the ~~local school administrative unit~~ public entity under the separate-prime system. ~~Each single-prime bid that identifies the contractors selected to perform the three major subdivisions or branches of work described in subsection (d) of this section and that lists the contractors' respective bid prices for those branches of work shall constitute a single competitive bid, and each full set of separate-prime bids for all of the branches of work described in subsection (d) of this section shall constitute a single competitive bid. If after advertisement as required by G.S. 143-129, the local school administrative unit has not received the minimum number of competitive bids as required by this subsection, the unit shall again advertise for bids. If the required minimum number of bids is not received as a result of the second advertisement, the unit may let the contract to the~~

~~lowest responsible bidder that submitted a bid for the project, even though the unit received only one bid. A contractor must provide an affidavit to the local school administrative unit that it has made the good faith effort required pursuant to G.S. 143-128(f), and failure to file the affidavit is grounds for rejection of the bid. All provisions of Article 8 of Chapter 143 of the General Statutes that are not inconsistent with this subsection shall apply to local school administrative units.~~ The provisions of subsection (b) of this section shall apply to separate-prime contracts awarded pursuant to this section and the provisions of subsection (d) of this section shall apply to single-prime contracts awarded pursuant to this section.

(e) Project expediter; scheduling; public body to resolve project disputes. – The State, county, municipality, or other public body may, if specified in the bid documents, provide for assignment of responsibility for expediting the work on ~~the~~ a project to a single responsible and reliable person, firm or corporation, which may be a prime contractor. In executing this responsibility, the designated project expediter may recommend to the State, county, municipality, or other public body whether payment to a contractor should be approved. The project expediter, if required by the contract documents, shall be responsible for ~~the preparation of~~preparing the project schedule and shall allow all contractors and subcontractors performing any of the branches of work listed in subsection (d) of this section equal input into the preparation of the initial schedule. Whenever separate contracts are awarded and separate contractors engaged for a project pursuant to this section, the public body may provide in the contract documents for resolution of project disputes through alternative dispute resolution processes ~~such as mediation or arbitration.~~as provided for in subsection (g) of this section.

~~(f) Minority goals. The State shall have a verifiable ten percent (10%) goal for participation by minority businesses in the total value of work for each building project. Each city, county, or other public body shall adopt, after a notice and public hearing, an appropriate verifiable percentage goal for participation by minority businesses in the total value of work for each building~~As ~~used in this subsection:~~

~~(1) The term "minority business" means a business:~~

~~b. Of which the management and daily business operations are controlled by one or more of the minority persons who own it.~~

~~(2) The term "minority person" means a person who is a citizen or lawful permanent resident of the United States and who is:~~

~~a. Black, that is, a person having origins in any of the black racial groups in Africa;~~

~~b. Hispanic, that is, a person of Spanish or Portuguese culture with origins in Mexico, South or Central America, or the Caribbean Islands, regardless of race;~~

~~c. Asian American, that is, a person having origins in any of the original peoples of the Far East, Southeast Asia and Asia, the Indian subcontinent, the Pacific Islands;~~

~~d. American Indian or Alaskan Native, that is, a person having origins in any of the original peoples of North America; or~~

~~e. Female.~~

~~(3) The term "verifiable goal" means:~~

For purposes of the separate prime contract system, that the awarding authority has adopted written guidelines specifying the actions that will be taken to ensure a good faith effort in the recruitment and selection of minority businesses for participation in contracts awarded under this section.~~

~~b. For purposes of the single prime contract system, that the awarding authority has adopted written guidelines specifying the actions that the prime contractor must take to ensure a good faith effort in the recruitment and selection of minority businesses for participation in contracts awarded under this section; the required actions must be documented in writing by the contractor to the appropriate awarding authority.~~

~~c. For purposes of an alternative contracting system authorized by the State Building Commission under G.S. 143-135.26(9), that the awarding authority has adopted written guidelines specifying the action to be taken to ensure a good faith effort in the recruitment and selection of minority businesses for participation in contracts awarded under this section.The State, counties, municipalities, and all other public bodies shall award public building contracts without regard to race, religion, color, creed, national origin, sex, age, or handicapping condition, as defined in G.S. 168A-3. Nothing in this section shall be construed to require contractors or awarding authorities to award contracts or subcontracts to or to make purchases of materials or equipment from minority business contractors or minority business subcontractors who do not submit the lowest responsible bid or bids.~~

(g) Dispute resolution. – A public entity shall use the dispute resolution process adopted by the State Building Commission pursuant to G.S. 143-135.26(12), or shall adopt another dispute resolution process, which shall include mediation, to be used as an alterative to the dispute resolution process adopted by the State Building Commission. This dispute resolution process will be available to all the parties involved

in the public entity's construction project including the public entity, the architect, the construction manager, the contractors, and the first-tier and lower-tier subcontractors and shall be available for any issues arising out of the contract or construction process. The public entity may set a reasonable threshold, not to exceed fifteen thousand dollars ($15,000), concerning the amount in controversy that must be at issue before a party may require other parties to participate in the dispute resolution process. The public entity may require that the costs of the process be divided between the parties to the dispute with at least one-third of the cost to be paid by the public entity, if the public entity is a party to the dispute. The public entity may require in its contracts that a party participate in mediation concerning a dispute as a precondition to initiating litigation concerning the dispute.

~~(g)~~(h) Exceptions. – This section shall not apply to:

(1) The purchase and erection of prefabricated or relocatable buildings or portions thereof, except that portion of the work which must be performed at the construction site.

(2) The erection, construction, alteration, or repair of a building when the cost thereof is ~~one hundred thousand dollars ($100,000) or less.~~ three hundred thousand dollars ($300,000) or less.

Notwithstanding the other provisions of this subsection, subsection (g) of this section shall apply to any erection, construction, alteration, or repair of a building by a public entity."

SECTION 3.1. Article 8 of Chapter 143 is amended by adding a new section to read:

"**§ 143-128.2. Minority business participation goals.**

(a) The State shall have a verifiable ten percent (10%) goal for participation by minority businesses in the total value of work for each State building project, including building projects done by a private entity on a facility to be leased or purchased by the State. A local government unit or other public or private entity that receives State appropriations for a building project or other State grant funds for a building project, including a building project done by a private entity on a facility to be leased or purchased by the local government unit, where the project cost is one hundred thousand dollars ($100,000) or more, shall have a verifiable ten percent (10%) goal for participation by minority businesses in the total value of the work; provided, however, a local government unit may apply a different verifiable goal that was adopted prior to December 1, 2001, if the local government unit had and continues to have a sufficiently strong basis in evidence to justify the use of that goal. On State building projects and building projects subject to the State goal requirement, the Secretary shall identify the appropriate percentage goal, based on adequate data, for each category of minority business as defined in G.S. 143-128.2(g)(1) based on the specific contract type.

Except as otherwise provided for in this subsection, each city, county, or other local public entity shall adopt, after a notice and public hearing, an appropriate verifiable percentage goal for participation by minority businesses in the total value of work for

building projects to include water, sewer, and landscape projects where no buildings are erected or repaired in accordance with this subsection.

Each entity required to have verifiable percentage goals under this subsection shall make a good faith effort to recruit minority participation in accordance with this section or G.S. 143-131(b), as applicable.

(b) A public entity shall establish prior to solicitation of bids the good faith efforts that it will take to make it feasible for minority businesses to submit successful bids or proposals for the contracts for building projects. Public entities shall make good faith efforts as set forth in subsection (e) of this section. Public entities shall require contractors to make good faith efforts pursuant to subsection (f) of this section. Each first-tier subcontractor on a construction management at risk project shall comply with the requirements applicable to contractors under this subsection.

(c) Each bidder, which shall mean first-tier subcontractor for construction manager at risk projects for purposes of this subsection, on a project bid under any of the methods authorized under G.S. 143-128(a1) shall identify on its bid the minority businesses that it will use on the project and good faith documentation required pursuant to this subsection. A contractor, including a first-tier subcontractor on a construction manager at risk project, that performs all of the work under a contract with its own workforce may submit an affidavit to that effect in lieu of documentation otherwise required under this section. Documentation of its good faith effort shall be submitted by each bidder with the bid and a minority utilization plan shall be submitted in each proposal for construction managers at risk and alternative bidding projects. The documentation must include evidence of all good faith efforts that were implemented, including any advertisements, solicitations, and evidence of other specific actions demonstrating recruitment and selection of minority businesses for participation in the contract. Within 30 days after award of the contract, the apparent lowest responsible responsive bidder shall also file a list of all identified subcontractors that the contractor will use on the project.

Failure to file a required affidavit or documentation that demonstrates that the contractor made the required good faith effort is grounds for rejection of the bid.

(d) No subcontractor who is identified and listed pursuant to subsection (c) of this section may be replaced with a different subcontractor except:

(1) If the subcontractor's bid is later determined by the contractor or construction manager at risk to be nonresponsible or nonresponsive, or the listed subcontractor refuses to enter into a contract for the complete performance of the bid work, or

(2) With the approval of the public entity for good cause.

Good faith efforts as set forth in G.S. 143-131(b) shall apply to the selection of a substitute subcontractor. Prior to substituting a subcontractor, the contractor shall identify the substitute subcontractor and inform the public entity of its good faith efforts pursuant to G.S. 143-131(b).

(e) Before awarding a contract, a public entity shall do the following:

(1) Develop and implement a minority business participation outreach plan to identify minority businesses that can perform public building projects and to implement outreach efforts to encourage minority business participation in these projects to include education, recruitment, and interaction between minority businesses and nonminority businesses.

(2) Attend the scheduled prebid conference.

(3) At least 10 days prior to the scheduled day of bid opening, notify minority businesses that have requested notices from the public entity for public construction or repair work and minority businesses that otherwise indicated to the Office of Historically Underutilized Businesses an interest in the type of work being bid or the potential contracting opportunities listed in the proposal. The notification shall include the following:

a. A description of the work for which the bid is being solicited.

b. The date, time, and location where bids are to be submitted.

c. The name of the individual within the public entity who will be available to answer questions about the project.

d. Where bid documents may be reviewed.

e. Any special requirements that may exist.

(4) Utilize other media, as appropriate, likely to inform potential minority businesses of the bid being sought.

(f) A public entity shall require bidders to undertake the following good faith efforts to the extent required by the Secretary on projects subject to this section. The Secretary shall adopt rules establishing points to be awarded for taking each effort and the minimum number of points required, depending on project size, cost, type, and other factors considered relevant by the Secretary. The public entity may require that additional good faith efforts be taken, as indicated in its bid specifications. Good faith efforts include:

(1) Contacting minority businesses that reasonably could have been expected to submit a quote and that were known to the contractor or available on State or local government maintained lists at least 10 days before the bid or proposal date and notifying them of the nature and scope of the work to be performed.

(2) Making the construction plans, specifications and requirements available for review by prospective minority businesses, or providing these documents to them at least 10 days before the bid or proposals are due.

(3) Breaking down or combining elements of work into economically feasible units to facilitate minority participation.

(4) Working with minority trade, community, or contractor organizations identified by the Office of Historically Underutilized Businesses and

The General Assembly of North Carolina enacts:

PART I. CONSTRUCTION CHANGES

SECTION 1. G.S. 143-64.31 reads as rewritten:

"**§ 143-64.31. Declaration of public policy.**

It is the public policy of this State and all public subdivisions and Local Governmental Units thereof, except in cases of special emergency involving the health and safety of the people or their property, to announce all requirements for architectural, engineering, ~~and~~ surveying and construction management at risk services, to select firms qualified to provide such services on the basis of demonstrated competence and

qualification for the type of professional services required without regard to fee other than unit price information at this stage, and thereafter to negotiate a contract for ~~architectural, engineering, or surveying~~ those services at a fair and reasonable fee with the best qualified firm. If a contract cannot be negotiated with the best qualified firm, negotiations with that firm shall be terminated and initiated with the next best qualified firm. Selection of a firm under this Article shall include the use of good faith efforts by the public entity to notify minority firms of the opportunity to submit qualifications for consideration by the public entity."

SECTION 2. Article 8 of Chapter 143 of the General Statutes is amended by adding the following new section to read:

"**§ 143-128.1. Construction management at risk contracts.**

(a) For purposes of this section and G.S. 143-64.31:

(1) "Construction management services" means services provided by a construction manager, which may include preparation and coordination of bid packages, scheduling, cost control, value engineering, evaluation, preconstruction services, and construction administration.

(2) "Construction management at risk services" means services provided by a person, corporation, or entity that (i) provides construction management services for a project throughout the preconstruction and construction phases, (ii) who is licensed as a general contractor, and (iii) who guarantees the cost of the project.

(3) "Construction manager at risk" means a person, corporation, or entity that provides construction management at risk services.

(4) "First-tier subcontractor" means a subcontractor who contracts directly with the construction manager at risk.

(b) The construction manager at risk shall be selected in accordance with Article 3D of this Chapter. Design services for a project shall be performed by a licensed architect or engineer. The public owner shall contract directly with the architect or engineer.

(c) The construction manager at risk shall contract directly with the public entity for all construction; shall publicly advertise as prescribed in G.S. 143-129; and shall prequalify and accept bids from first-tier subcontractors for all construction work under this section. The prequalification criteria shall be determined by the public entity and the construction manager at risk to address quality, performance, the time specified in the bids for performance of the contract, the cost of construction oversight, time for completion, capacity to perform, and other factors deemed appropriate by the public entity. The public entity shall require the construction manager at risk to submit its plan for compliance with G.S. 143-128.2 for approval by the public entity prior to soliciting bids for the project's first-tier subcontractors. A construction manager at risk and first-tier subcontractors shall make a good faith effort to recruit and select minority businesses for participation in contracts pursuant to G.S. 143-128.2. A construction

manager at risk may perform a portion of the work only if (i) bidding produces no responsible, responsive bidder for that portion of the work, the lowest responsible, responsive bidder will not execute a contract for the bid portion of the work, or the subcontractor defaults and a prequalified replacement cannot be obtained in a timely manner, and (ii) the public entity approves of the construction manager at risk's performance of the work. All bids shall be opened publicly and shall be public records under Chapter 132 of the General Statutes. The construction manager at risk shall act as the fiduciary of the public entity in handling and opening bids. The construction manager at risk shall award the contract to the lowest responsible, responsive bidder, taking into consideration quality, performance, the time specified in the bids for performance of the contract, the cost of construction oversight, time for completion, compliance with G.S. 143-128.2, and other factors deemed appropriate by the public entity and advertised as part of the bid solicitation. The public entity may require the selection of a different first-tier subcontractor for any portion of the work, consistent with this section, provided that the construction manager at risk is compensated for any additional cost incurred.

When contracts are awarded pursuant to this section, the public entity shall provide for a dispute resolution procedure as provided in G.S. 143-128(g).

(d) The construction manager at risk shall provide a performance and payment bond to the public entity in accordance with the provisions of Article 3 of Chapter 44A of the General Statutes."

The terms, conditions, and requirements of each contract between the contractor and a subcontractor performing work under a subdivision or branch of work listed in this subsection shall ~~be substantially the same as~~incorporate by reference the terms, conditions, and

requirements of the contract between the contractor and the State, county, municipality, or other public body.

(d1) ~~Local school administrative units; building projects over five hundred thousand dollars ($500,000).~~ Dual bidding. – ~~When the entire cost of the building project is more than five hundred thousand dollars ($500,000), a local school administrative unit shall seek bids as provided in subsection (b) or (d) of this section or this subsection. The amount of a bid submitted by a subcontractor to the general contractor under the single-prime system shall not exceed the amount bid, if any, for the same work by that subcontractor to the ~~local school administrative unit~~ public entity under the separate-prime system. ~~Each single prime bid that identifies the contractors selected to perform the three major subdivisions or branches of work described in subsection (d) of this section and that lists the contractors' respective bid prices for those branches of work shall constitute a single competitive bid, and each full set of separate prime bids for all of the branches of work described in subsection (d) of this section shall constitute a single competitive bid. If after advertisement as required by G.S. 143-129, the local school administrative unit has not received the minimum number of competitive bids as required by this subsection, the unit shall again advertise for bids. If the required minimum number of bids is not received as a result of the second advertisement, the unit may let the contract to the~~

A contractor must provide an affidavit to the local school administrative unit that it has made the good faith effort required pursuant to G.S. 143-128(f), and failure to file the affidavit is grounds for rejection of the bid. All provisions of Article 8 of Chapter 143 of the General Statutes that are not inconsistent with this subsection shall apply to local school administrative units.~~ The provisions of subsection (b) of this section shall apply to separate-prime contracts awarded pursuant to this section and the provisions of subsection (d) of this section shall apply to single-prime contracts awarded pursuant to this section.

BILL SUMMARY:

SUMMARY[1]: Senate Bill 914 would make changes in the public construction laws to permit greater flexibility and efficiencies in public building design, construction and plan

[1] From Research Division Committee Counsel.

review, primarily through the concept of construction managers at risk, would increase the mandatory performance and payment bond threshold for public construction projects, and would make changes intended to enhance and improve good faith efforts to recruit and select minority businesses for participation in public construction contracts. The bill would also change the law to provide for construction and design supervisory authority for projects up to $2 million for the University of North Carolina until December 31, 2006, promote greater energy efficiency in State buildings and make clarifying changes to the scope of practice for landscape architecture.

BILL ANALYSIS: The bill would make the following changes to current law:

Construction Flexibility for Public Entities (Part I, Sections 1, 2, 3, 5)

The bill would permit public entities to utilize the services of a construction manager at risk as an alternative construction method. The construction manager, a licensed general contractor, would contract directly with the public entity. The construction manager generally would not perform work on the project, but would provide services to the public entity in preparing and coordinating bid packages, scheduling, controlling costs, value engineering, evaluation, pre-construction services, and administering the construction of the project. The construction manager would guarantee the cost of the project and would be required to provide a performance and payment bond to the public entity.

Contracts by a public entity with a construction management would be excepted from the provisions of Article 8 of Chapter 143 (Procedure for Letting of Public Contracts).

The bill would also make various construction bidding methods available to all levels of government, not just local school administrative units, including the State, counties, cities and other public bodies. These construction-bidding methods would include separate-prime, single-prime, dual bidding, construction management services, and alternative contracting methods. The bill would raise the size of the contracts covered by the formal bid requirements from $100,000 to $300,000.

These changes would become effective January 1, 2002 and apply to construction projects for which bids or proposals are solicited on or after that date.

Dispute Resolution in Public Construction Contracts (Part I, Section 3; Part II, Section 11)

The bill would require the State Building Commission to develop dispute resolution procedures, including mediation, for subcontractors on State capital improvement projects (Part II, Section 11, G.S. 143-135.26(12)). For all construction and repair projects, public entities would be required to use the Commission's dispute resolution process or adopt another dispute resolution process, and would have to make this process available to all the parties involved in the public entity's construction project. The public entity could set a reasonable threshold, not to exceed $15,000, concerning the amount in controversy that must be at issue before a party may require other parties to participate in the dispute resolution process. The public entity would determine how the costs of the dispute resolution process would be divided, but at least one-third of the cost would be paid by the public entity if the public entity were a party to the dispute. Finally, the public entity could require by contract that a party participate in mediation as a precondition to initiating litigation concerning a dispute. (Part I, Section 3, G.S. 143-128(g)). These changes would become effective January 1, 2002.

Minority Participation in Public Construction Contracts (Part I, Sections 1, 3.1, 3.6, and 5.1)

Current law requires the State to have a verifiable ten percent (10%) goal for participation by minority businesses in the total value of work for each building project, and requires cities, counties, and other public bodies to set verifiable percentage goals for minority participation in building projects.

The bill is intended to enhance and improve minority business participation in public construction contracts by providing for the following:

- In addition to original construction, minority business participation goals (which would remain at 10%) would apply to repair work and work done by a private entity on a facility to be leased or purchased by the State. On State projects, the Secretary of the Department of Administration would identify the appropriate percentage goal for each category of minority business as defined in statute based on the particular contract type.
- Local governmental units or other public or private entities that receive State funds for construction work for projects costing more than $100,000 (including project work done by a private entity on a facility to be leased or purchased by a local government unit) shall be subject to the 10% goal. However, local governments would be permitted to apply for a different verifiable goal that was adopted prior to December 1, 2001 if the local government had and continues to have a sufficiently strong basis in evidence to justify the use of that goal.
- Each entity required to have a verifiable percentage goal would have to make a "good faith effort" to recruit minority participation. Public entities would have to establish the good faith efforts that it will take prior to soliciting bids on a project, and shall require its contractors to made good faith efforts. First tier subcontractors would likewise have to comply with the requirements applicable to contractors as to good faith efforts, and good faith efforts would apply to the selection of a substitute subcontractor.
- All bidders on any construction or repair project would have to identify good faith efforts made to ensure minority business participation, documented as prescribed by statute.
- Before awarding a contract, a public entity would be required to develop and implement a minority business participation outreach plan, attend the scheduled pre-bid conference, notify minority businesses of potential contracting opportunities, and utilize other media likely to inform potential minority businesses of the bid.
- Public entities would have to require bidders to undertake good faith efforts, which would include 1) contacting minority businesses, 2) making the construction plans available for review by prospective minority businesses, 3) breaking down or combining elements of work into economically feasible units to facilitate minority participation, 4) working with minority trade, community or contractor organizations, 5) attending any pre-bid meetings, 6) providing assistance in getting required bonding or insurance or providing alternative to bonding, 7) negotiating in good faith with interested minority businesses, 8) providing assistance to an otherwise qualified minority business in need of equipment or funds to secure

financial assistance or supplies, 9) negotiating joint venture and partnership arrangements with minority businesses, and 10) providing quick pay agreements and policies to enable minority contractors and suppliers to meet cash-flow demands. No later than June 30, 2002, the Secretary would be required to adopt rules establishing points to be awarded for taking each effort and the minimum number of points required. Prior to July 1, 2002 (when the rules will be in place), a bidder must show compliance with at least five of these ten efforts.

- The term "minority business" would be expanded to include businesses owned by socially and economically disadvantaged individuals (as defined by federal law governing federal procurement contracts).
- Public entities would have to report to the Office of Historically Underutilized Business information concerning minority business utilization. Public entities that fail to comply with this requirement would be required to develop a corrective plan. Failure to file a corrective plan or to implement the plan could result in the loss of authority to enter into construction or repair contracts without prior review by the Department of Administration.
- An advisory board would be appointed by the Secretary of the Department of Administration to develop recommendations to improve the recruitment and utilization of minority businesses. These recommendations would be presented to the General Assembly, the State Construction Office, the University of North Carolina, and the community college system.
- For construction or repair work subject to the informal bidding process, public entities would be required to solicit minority business participation, maintain a record of contractors solicited and document efforts to recruit minority business participation, and report information and provide documentation concerning efforts to recruit minority business participation to the Office for Historically Underutilized Business upon the completion of the project.

These changes would become effective January 1, 2002 and apply to construction projects for which bids or proposals are solicited on or after that date.

Construction And Design Administration (Part II, Sections 11, 11.1)

The bill would make changes to the powers and duties of the State Building Commission, including exemption from plan review for certain projects, expeditious plan review, agency evaluation of energy contracts, open-end design agreements, and dispute resolution procedures. The bill would change the vote by which an alternative contracting method may be approved from 2/3 to a majority. These changes would become effective January 1, 2002. The bill would, beginning March 1, 2002, provide an alternative to begin construction if fire safety reviews of public building specifications are not completed by the Insurance Department within 60 days.

Energy Efficiency in State Buildings (Part III, Sections 12(a)-(g) and 13)

The bill changes the Guaranteed Energy Savings Contract law to make to applicable to State agencies in addition to local governments as is currently allowed. These changes would become effective when the act becomes law.

Changes in Landscape Architecture Law (Part IV, Sections 13.1(a)-(d))

The bill would amend the Landscape Architecture statutes to clarify what construction design matters may be performed by landscape architects. This change is to clarify a conflicting overlap of responsibilities with licensed engineers. The bill would also require engineers and landscape architects to enter into a Memorandum of Understanding regarding their respective responsibilities and authorize an LRC study on the subject. These provisions would become effective when the act becomes law.

Miscellaneous

Section 4 would raise the limit for public bidding from $100,000 to $300,000 for construction projects and from $50,000 to $90,000 for purchases of apparatus, supplies, materials, or equipment. **Section 4.1** would repeal a local act for Greensboro that had allowed Greensboro a $70,000 limit for purchases of materials and equipment (less than the proposed limit). **Section 5.2** would add language to G.S. 143-135.5 that would make it the State's policy not to accept bids or proposals from or engage in business with firms that discriminates on the basis or race, gender, religion, national origin, age, physical disability, or any other form of unlawful discrimination in its solicitation, selection, hiring or treatment of another business. **Section 6** would raises the level of contracts for which architectural plans are required for public projects by varying amounts depending on the type of work being done.

Section 7 would raise the threshold for which performance and payment bonds are required on government projects from $100,000 to $300,000. This change is consistent with the changes being made in the competitive bidding laws in elsewhere in the bill.

Sections 8(a) through (e) restores The University of North Carolina's exemption from State Construction Office oversight and raises the cap for the exemption from $500,000 to $2 million, and continues other construction law exceptions applicable to UNC construction that had expired July 1, 2001. This change would become effective July 1, 2001 and would expire December 31, 2006.

All of Section 10 involves local provisions involving construction law exceptions. **Sections 10. (a) and (b)** would remove the sunset on Johnston County School Board to use the Unitary System Approach model school plan. **Section 10. (c)** would repeal the sunset on the Charlotte-Mecklenburg School Board's authority to use design-built construction for school projects. **Section 10. (d)** would authorize the use of force account by the New Hanover Regional Medical Center. This section would expire December 31, 2007.

Section 14 would require the University of North Carolina and all other public entities to report annually to the Department of Administration (beginning April 1, 2003) on the effectiveness and cost-benefit of utilization of each of the authorized construction methods used by the public entity.

Except for Sections 8(a) through (e), the above miscellaneous provisions would become effective when the act becomes law.

Note: Sections 3.2, 3.3, 3.4, 3.5, and 9 contain conforming changes.

ASSUMPTIONS AND METHODOLOGY:

Department of Administration:

The Department estimates that this bill will have a fiscal impact on the Office of the Secretary, the State Construction Office and the Office for Historically Underutilized Businesses. The additional costs are primarily related to the implementation of the minority business participation requirements of the bill. The discussion for each of the three divisions follows.

Office of the Secretary:

The Secretary estimates that DOA will need one Attorney II (salary grade 82) at a cost of $60,944 to provide the legal and policy assistance in drafting rules and implementing statutory requirements set forth in the G.S. §§ 143-128.2, 143-128.3, and 143-135.5 as revised by the bill. These provisions require the Secretary to draft rules establishing points to be awarded for a public entity's good faith efforts at minority business participation and to adopt guidelines for local government units to implement the provisions of G.S. § 143-128.2.

The drafting of rules is a responsibility of the Secretary's legal counsel. However, per the Department, it currently has a significant backlog of rules to be drafted for the 26 divisions within the Department. Thus, it cannot meet the requirements of the bill with existing resources. In addition to drafting the rules, the attorney would also provide assistance with the implementation of the minority business participation goals required by the bill in that the attorney would be responsible for providing guidance to the public entities in developing the minority participation outreach plans, assisting in the corrective action required for those agencies that fail to comply with G.S. § 143-128.2, providing any legal advice required by the implementation of the point system.

Fiscal Research believes the Department's need for an additional attorney is a reasonable one. However, we have adjusted their estimate from $60,944 to $64,711, annually, based on the minimum salary for the position and benefits at 15.66 percent for social security and retirement and $2,932 for medical. The recurring cost for fiscal year 2001-02 would be $32,355, assuming a January 1, 2002 effective date for the position.

State Construction Office:

The State Construction Office expects this bill to increase the responsibilities in historically underutilized business (HUB) reporting requirements, energy conservation reporting, reporting requirements relating to the effectiveness and cost of alternative contracting methods, establishment of administrative rules and in providing additional support and service to the State Building Commission. To meet these additional responsibilities, SCO estimates that it will need 3 additional Building Systems Engineers (salary grade 80) at a cost of $236,715.

One of these positions would be responsible for monitoring minority business participation goals as directed in § 3.1 of the bill. As the administrator of the state construction contracts, SCO would be responsible for implementing the minority participation requirements for the construction contracts that it administers to ensure the State's compliance with G.S. § 143.128.2. This will require an additional review in the award of contracts to ensure that the State's good faith efforts are incorporated and to ensure that bidders on state contracts have met the good faith requirements.

Another engineer would be responsible for drafting the administrative rules for the State Building Commission as directed in § 11 of the bill. Specifically, the State Building Commission has been given additional responsibility for drafting of administrative rules related to the State's Capital Facilities program. These rules govern the review of plans and specifications and types of projects to be reviewed. In addition, rules for evaluation of energy savings contracts and dispute resolution procedures must be developed. These are all new issues and responsibilities that must be researched and studied by individuals with technical expertise to assure proper drafting of the rules. In addition, as provided for in § 11.1 of the bill, the State Building Commission may become involved in Department of Insurance responsibilities for review of plans if DOI fails to act on plans within 60 days of submission. This is an expansion of the SBC's duties and powers.

The third position would evaluate the use of energy savings contracts and implement energy efficiency goals for all state buildings as directed in § 12.(f) of the bill. Currently only local governments have the authority to enter into guaranteed energy savings contracts. Under the bill, all state government entities will be able to enter into these arrangements. As part of the SCO's responsibility under G.S. § 143-341, proposals and contracts will have to be reviewed from both a technical and contractual standpoint. This is a new responsibility which will require a technically proficient individual to be involved and dedicated to this new process. Their review would include verification that the plans are in compliance with existing building codes as well as verification that the project realized the savings as guaranteed by the contractor.

In addition to the additional personnel, the SCO estimates that it will need $387,832 in nonrecurring funding for equipment and system upgrades. Specifically, it estimates that it will need 20 new computers at a cost of $35,700 and a new server and additional server ports at a cost of $14,194. The computers would replace the existing computers which do not contain enough memory, RAM, or operating space to run the web-based application efficiently. Replacing the server would provide additional capacity and prevent loss of data due to the increased demands on the system. SCO also estimates that it will need $300,000 to upgrade Interscope, the SCO's web-based application, to allow public access for tracking of project status. The bill requires SCO to track minority participation statistics by category. Point system data would also be collected. Additionally, all entities are required to report on the effectiveness and cost-benefit of utilization of each of the construction methods authorized in G.S. 143-128(a1). SCO believes the increased requirements of tracking and monitoring alternative contracting methods and minority business participation reporting requirements mandates the enhancements to the system. Finally, SCO estimates that it will need a new copier at a cost of $37,938 for the printing and distribution of reports, guidelines and information on the changes in the administrative rules and construction statutes to the design and construction community.

Based on our review of the bill, FRD believes that the estimate of $236,715 for personnel provided by SCO is reasonable. The cost for each of the three Building Systems Engineers includes recurring cost $65,754 ($54,316 SER + $8,506 SS/Retirement + $2,932 Medical) for salaries and benefits based on the special entry rate approved by the Office of State Personnel and operating cost of $9,151 for travel, supplies, continuing education. The nonrecurring cost for each position is $4,000 for equipment and office furniture. The total recurring cost for the three positions is $224,715 and the nonrecurring is $12,000.

Additionally, though we believe the computer and equipment needs are existing needs within SCO and are not mandated by the bill, we believe the additional requirements of the bill make their need for these items more crucial. Thus, our estimate includes the nonrecurring cost of $349,894 for computers, equipment and system upgrades. We have not included their estimated cost for a copier. The recurring cost for fiscal year 2001-02 would be $112,358 assuming a January 1, 2002 effective date for the positions.

The State Construction Office notes that this bill does not in any significant matter decrease the current workload of the SCO staff. The only duty it eliminates is the review of University projects less than $2,000,000. Review of projects since 1988 indicates that this equates to less than 30 per year on average. Currently under $500,000 projects are not reviewed by the SCO. Current projects in house are approximately 1,500. All claims associated with the University projects would continue to be heard by the SCO. The new mediation process does not eliminate the SCO from the claims process. One of the reasons stated by the University system to us in their request to increase the threshold from $500,000 to $2,000,000 was so the SCO could concentrate on the larger projects (over $2million) and enhance their reviews and improve turnaround times. Under Part I of the legislation, the CM at Risk construction method will not eliminate the SCO under GS 143-341 in contract negotiation preparation or oversight. The SCO will still be involved with bid protest and claims from subcontracts.

Office of Historically Underutilized Businesses.

This bill will require HUB to identify a new category of minority contractors (i.e. socially and economically disadvantaged). Also, all public entities are required to submit quarterly or semiannual reports to HUB on their minority participation efforts. Currently HUB is receiving reports from the 230 state agencies, community colleges, universities and local educational authorities. This bill will also require the municipalities (approximately 500) and the 100 counties to report to HUB semi annually. Further, though not explicitly stated in the bill, the Secretary would be responsible for reviewing the reports for the entities' compliance with G.S. 143-128.2 and to take corrective action.

To meet these additional responsibilities, HUB estimates that it will need five additional positions at a total cost of $229,877 as well as $30,000 for position upgrades. These positions include an administrative support position (grade 63), two statisticians (grade 73 and 76), a business officer III (grade 77) and an auditor III (grade 78). The statistician would be responsible for assisting with the design of the report database and analyzing the data submitted by the public entities. The business officer III would be responsible for certification and verification efforts with minority contractors including the new category. The auditor would be responsible for reviewing the reports for compliance and consulting with the entities on their corrective action plans. The administrative support position would provide clerical assistance with the processing the additional report and staffing the HUB Advisory Board.

The HUB Office received a nonrecurring appropriation for fiscal year 2001-2002. It believes that this funding will allow it to also meet the outreach requirements of the bill. However, on a recurring basis, it believes it will need $40,000 to continue the outreach efforts.

The HUB Office also estimates that it would need $366,160 nonrecurring to enhance VendorLink to include those minority contractors that would not register through e-procurement and to develop a web-based application for the minority participation reports. It would also need $14,000 recurring for the annual maintenance of the web-server. The web-based application would provide for the electronic receipt of the required reports from the public entities, more accurate and efficient reporting, and tracking and monitoring of compliance with the minority participation requirements.

The HUB Office estimates that it would need $50,000 recurring for the expenses of the HUB Advisory Board.

The Fiscal Research Division believes the identified needs are reasonable. The estimate would include the following personnel cost:

Position	Grade	Salary	SS/Ret	Medical	Total
Administrative Support	63	$22,921	$3,589	$2,932	$29,442
Statistician II	73	$34,452	$5,395	$2,932	$42,779
Statistician II	76	$39,338	$6,160	$2,932	$48,430
HUB Certification Specialist (B/O III)	77	$37,665	$5,898	$2,932	$46,495
HUB Compliance Officer (Auditor III)	78	$43,055	$6,742	$2,932	$52,729
Total Salaries and Benefits					$219,877
Operating Cost					$10,000
Total Recurring Position Cost					$229,877

Our estimate does not include the requested funding for position upgrades as this is an existing need that is not mandated by this bill. The first year recurring cost would be $114,938 assuming a January 1, 2002 effective date for the positions.

Also, we believe the requested funding for the advisory council, the system upgrades and the outreach efforts are also reasonable. These costs are summarized below:

	FY 2001-02		**FY 2002-03**
	NR	**Recurring**	**Recurring**
Upgrade IT System			
3 contractors for 6 mos	$336,960		
Web Server	$20,000		
4 PC	$9,200		
Annual Web Server Maintenance			$14,000
HUB Advisory Board			
Travel/Operating Expenses		$25,000	$50,000
Outreach/Training		$0	$40,000
Total	**$366,160**	**$25,000**	**$104,000**

Department of Insurance:
Section 11.1 requires the Commissioner of Insurance to review plans subject to G.S. 58-31-40 within 30 days of submission. It also allows an additional 30-day extension if necessary to complete the review. The turnaround time for completing reviews depends on the number of plans as well as on whether the plans have been submitted accurately and completely. Currently, the DOI has 7 reviewers for plans submitted by the community colleges and for private structures and the turnaround time is approximately 28 days. There are 6 reviewers for state projects and the turnaround time is approximately 20 days. Substantial increases in the number of plans may increase the turnaround time for reviewing plans. However, without an estimate of the number of plans that will be submitted, the Department cannot provide an estimate of the extent of the additional resources, if any, it may need to continue to review plans within 30 days of submission.

Attorney General's Office, Department of Justice

Section 3.6

Background: Section 3.6 in the fourth edition of SB 914 adds new responsibilities for the Attorney General in the administration of G.S. 143-128.2, "Minority business participation goals." These responsibilities are set out in Section 3.6 which establishes new G.S. 143-128.3, "Minority business participation administration" in subsections (b) and (f). The primary responsibilities for administration are assigned to the Department of Administration (DOA), while the role of the A.G. is at the secondary review level.

G.S. 143-28.3 requires all public entities to report certain information and data on minority business participation for each building project to DOA, Office of Historically Underutilized Businesses. DOA is also required to follow up with agencies that have not complied with minority business goals as set out in 143-128.2. and direct the development of a "corrective plan."

Under G.S. 143-128.3, the A.G. does not get involved unless the public entity has failed to comply with DOA's directive to prepare a "corrective plan." Specifically, if after notification from the Secretary of DOA, a public entity does not file a corrective plan or does not file a plan in accordance with DOA terms, both the DOA and the Attorney General are charged to do *one or both* of the following:

(1) approve new corrective plans once the public entity has consulted with HUB and/or
(2) Prevent the public entity from bidding another contract without prior review by the A.G. and DOA of a good faith compliance plan.

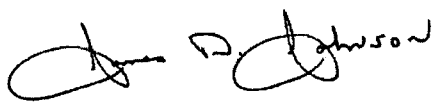
Section 3.6 also requires the Secretary of DOA to provide additional information to the A.G. including information on the failure of an entity to report data in accordance with Section 3.6 and any false statements, documents or other information relating to minority business participation (G.S. 143-128.3 (f)).

Fiscal Impact: Given that the A.G. is assigned new responsibilities by this bill, some fiscal impact is anticipated. T*he fiscal impact is difficult to determine since one cannot predict the number of public entities that will be non-compliant.* However, the Attorney General's

Office believes that one Attorney III is needed to carry out the new role assigned to the A.G. based on the following:

- Currently, State Construction indicates there are 1,216 projects worth $4 billion in the pipeline and normally over 1000 projects are ongoing at any one time. Given the volume of ongoing projects, there is the "potential" for a certain number of cases to reach the stage requiring A.G. review of a corrective plan.

- The A.G.'s Office indicates that one intent of G.S. 143-128.3 (b) is to provide an additional level of review over that provided by DOA. Assigning current attorneys in the Office that work with DOA may not provide adequate independence.



If the volume of cases forwarded to the A.G.'s Office is small it is likely that existing resources could handle new cases. However, given the "potential" for new work and the need for an additional level of review of corrective plans, Fiscal Research believes the need for one attorney is reasonable.

However, we do not believe a position is needed at an Attorney III level. The legal work is not likely to involve litigation. If a position is established, it should be at the Attorney I or II level. The cost of an Attorney II is $64,791. Because this section of the bill is effective January 1, 2002 and since the A.G. is only involved in a review if DOA requirements are not met, any cost for an Attorney would not begin until July 1, 2002.

Subject: Position of CEC/NC on Senate Bill 914 - Message from the Presiden t of CEC/NC

To Honorable members of the North Carolina Legislature:

As final consideration of Senate Bill 914 approaches, I would like to reiterate the position of the Consulting Engineers Council of North Carolina (CEC/NC) on this legislation. Our position is as follows:

1. The leadership and membership of CEC/NC are strongly opposed to any expansion of the practice Landscape Architecture to include engineering design without first verifying that the individuals responsible for the design have the appropriate education, experience, and licensing. In addition, there should be a reliable process in place to assure compliance with all competency requirements prior to making any changes to existing regulations.

2. CEC/NC realizes that there are many parties interested in the passage of the remaining portions of Senate Bill 914. In the interest of securing passage of the bill, CEC/NC has agreed not to oppose the proposed legislation as long as the compromise language of 10/5/01 is included in the legislation. It should be understood that this is not an endorsement of the bill or the compromise language, it is merely an agreement not to oppose it in the interest of moving remaining portions of the legislation forward.

3. CEC/NC is aware of efforts by PENC to revise the current compromise language. CEC/NC is in support of language acceptable to PENC membership which clarifies the compromise language.

4. CEC/NC is generally in support of the portions of the bill dealing with construction management at risk and single prime contracting.

We appreciate your consideration of our position on these issues. Please do not hesitate to call me if you have any questions.

S 346 Amend Stalking/Domestic Violence Laws

Minutes
House Appropriations Committee Meeting
Friday, December 7, 2001
10:30 AM
643 LOB

House Appropriations Co-Chair Representative David Redwine called the Appropriations Committee meeting to order at 10:40 AM for the purposes of considering S 346, a bill to be entitled an act amending the law regarding the criminal offense of stalking and certain domestic violence laws. He recognized the House Pages in attendance.

The Co-Chair recognized Senator Rand and Representative Goodwin to explain the bill. Rep. Goodwin stated that S 346 would amend the stalking law to prohibit a broader category of behavior, increase the criminal penalties of a violation and define "harassment." It would make other changes to the domestic violence bail and pretrial release stature and increase the punishment of felonies committed after a domestic violence protective order is in pace as listed in the attached Bill Analysis. The fiscal impact would total $36, 342 for FY '01-'02 and the membership was referred to the legislative fiscal note attached.

Anne Winner with the NC Coalition Against Domestic Violence was recognized for her expertise on the language in the bill.

A technical amendment by Rep. Goodwin, which changes the date from December 1 2001 to March 1, 2002 on page 4, line 21 passed by a voice vote. A second technical amendment offered by Rep. Sutton to delete the word "annoys," on page 2, line 1 passed by voice vote. Representative Sherrill moved to give the bill a favorable report as amended. The motion passed by a voice vote and the meeting adjourned at 11:25 am.

A BILL TO BE ENTITLED

AN ACT AMENDING THE LAW REGARDING THE CRIMINAL OFFENSE OF STALKING AND CERTAIN DOMESTIC VIOLENCE LAWS.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 14-277.3 reads as rewritten:

"**§ 14-277.3. Stalking.**

(a) Offense. – A person commits the offense of stalking if the person willfully on more than one occasion follows or is in the presence ~~of~~ of, or otherwise harasses, another person without legal purpose and with the intent to ~~cause death or bodily injury or with the intent to cause emotional distress by placing that person in reasonable fear of death or bodily injury.~~ do any of the following:

(1) Place that person in reasonable fear either for the person's safety or the safety of the person's immediate family or close personal associates.

(2) Cause that person to suffer substantial emotional distress by placing that person in fear of death, bodily injury, or continued harassment, and that in fact causes that person substantial emotional distress.

(b) Classification. – A violation of this section is a Class ~~1~~A1 misdemeanor. A person who commits the offense of stalking when there is a court order in effect prohibiting similar behavior by that person is guilty of a Class ~~A1 misdemeanor. A second or subsequent conviction for stalking occurring within five years of a prior conviction of the same defendant is punishable as a Class I felony.~~ H felony. A person who commits the offense of stalking after having been previously convicted of a stalking offense is guilty of a Class F felony.

(c) Definition. – For the purposes of this section, the term 'harasses' or 'harassment' means knowing conduct, including written or printed communication or transmission, telephone or cellular or other wireless telephonic communication, facsimile transmission, pager messages or transmissions, answering machine or voice mail messages or transmissions, and electronic mail messages or other computerized or

electronic transmissions, directed at a specific person that annoys, torments, terrorizes, or terrifies that person and that serves no legitimate purpose."

SECTION 2. G.S. 15A-534.1(a) reads as rewritten:

"(a) In all cases in which the defendant is charged with assault ~~on or~~ on, communicating a threat ~~to~~ to, or committing a felony provided in Articles 7A, 8, 10, or 15 of Chapter 14 of the General Statutes upon a spouse or former spouse or a person with whom the defendant lives or has lived as if married, with domestic criminal trespass, or with violation of an order entered pursuant to Chapter 50B, Domestic Violence, of the General Statutes, the judicial official who determines the conditions of pretrial release shall be a judge, and the following provisions shall apply in addition to the provisions of G.S. 15A-534:

(1) Upon a determination by the judge that the immediate release of the defendant will pose a danger of injury to the alleged victim or to any other person or is likely to result in intimidation of the alleged victim and upon a determination that the execution of an appearance bond as required by G.S. 15A-534 will not reasonably assure that such injury or intimidation will not occur, a judge may retain the defendant in custody for a reasonable period of time while determining the conditions of pretrial release.

(2) A judge may impose the following conditions on pretrial release:

a. That the defendant stay away from the home, school, business or place of employment of the alleged victim;

b. That the defendant refrain from assaulting, beating, molesting, or wounding the alleged victim;

c. That the defendant refrain from removing, damaging or injuring specifically identified property;

d. That the defendant may visit his or her child or children at times and places provided by the terms of any existing order entered by a judge.

The conditions set forth above may be imposed in addition to requiring that the defendant execute a secured appearance bond.

(3) Should the defendant be mentally ill and dangerous to himself or others or a substance abuser and dangerous to himself or others, the provisions of Article 5 of Chapter 122C of the General Statutes shall apply."

SECTION 3. G.S. 50B-1(a) reads as rewritten:

"(a) Domestic violence means the commission of one or more of the following acts upon an aggrieved party or upon a minor child residing with or in the custody of the aggrieved party by a person with whom the aggrieved party has or has had a personal relationship, but does not include acts of self-defense:

(1) Attempting to cause bodily injury, or intentionally causing bodily injury; or

(2) Placing the aggrieved party or a member of the aggrieved party's family or household in fear of imminent serious bodily ~~injury;~~ injury or continued harassment, as defined in G.S. 14-277.3, that rises to such a level as to inflict substantial emotional distress; or

(3) Committing any act defined in G.S. 14-27.2 through G.S. 14-27.7."

SECTION 4. G.S. 50B-2(c1) reads as rewritten:

"(c1) Ex Parte Orders by Authorized Magistrate. – The chief district court judge may authorize a magistrate or magistrates to hear any motions for emergency relief ex parte. Prior to the hearing, if the magistrate determines that at the time the party is seeking emergency relief ex parte the district court is not in session and a district court judge is not and will not be available to hear the motion for a period of four or more hours, the motion may be heard by the magistrate. If it clearly appears to the magistrate from specific facts shown that there is a danger of acts of domestic violence against the aggrieved party or a minor child, the magistrate may enter such orders as it deems necessary to protect the aggrieved party or minor children from such acts, except that a temporary order for custody ex parte and prior to service of process and notice shall not be entered unless the magistrate finds that the child is exposed to a substantial risk of bodily injury or sexual abuse. An ex parte order entered under this subsection shall expire and the magistrate shall schedule an ex parte hearing before a district court judge ~~within 72 hours of the filing for relief under this subsection, or~~ by the end of the next day on which the district court is in session in the county in which the action was ~~filed, whichever occurs first.~~filed. ~~A party who has paid court costs due for seeking an order from the magistrate under this subsection shall not be liable for court costs for a hearing before the district court judge scheduled and heard pursuant to an order entered by the magistrate under this subsection.~~ Ex parte orders entered by the district court judge pursuant to this subsection shall be entered and scheduled in accordance with subsection (c) of this section."

SECTION 5. G.S. 50B-4.1 reads as rewritten:

"**§ 50B-4.1. Violation of valid protective ~~order a misdemeanor.~~ order.**

(a) ~~A~~ Except as otherwise provided by law, a person who knowingly violates a valid protective order entered pursuant to this Chapter or who knowingly violates a valid protective order entered by the courts of another state or the courts of an Indian tribe shall be guilty of a Class A1 misdemeanor.

(b) A law enforcement officer shall arrest and take a person into custody without a warrant or other process if the officer has probable cause to believe that the person knowingly has violated a valid protective order excluding the person from the residence or household occupied by a victim of domestic violence or directing the person to refrain from doing any or all of the acts specified in G.S. 50B-3(a)(9).

(c) When a law enforcement officer makes an arrest under this section without a warrant, and the party arrested contests that the out-of-state order or the order issued by an Indian court remains in full force and effect, the party arrested shall be promptly provided with a copy of the information applicable to the party which appears on the

National Crime Information Center registry by the sheriff of the county in which the arrest occurs.

(d) Unless covered under some other provision of law providing greater punishment, a person who commits a felony at a time when the person knows the behavior is prohibited by a valid protective order as provided in subsection (a) of this section shall be guilty of a felony one class higher than the principal felony described in the charging document. This subsection shall not apply to a person who is charged with or convicted of a Class A or B1 felony or to a person charged under subsection (f) of this section.

(e) An indictment or information that charges a person with committing felonious conduct as described in subsection (d) of this section shall also allege that the person knowingly violated a valid protective order as described in subsection (a) of this section in the course of the conduct constituting the underlying felony. In order for a person to be punished as described in subsection (d) of this section, a finding shall be made that the person knowingly violated the protective order in the course of conduct constituting the underlying felony.

(f) Unless covered under some other provision of law providing greater punishment, any person who knowingly violates a valid protective order as provided in subsection (a) of this section, after having been previously convicted of three offenses under this Chapter, shall be guilty of a Class H felony."

SECTION 6. This act becomes effective December 1, 2001, and applies to offenses committed on or after that date.

Section 1 (G.S. 14-277.3): For new stalking misdemeanor offenses, impact on county jails is expected but no estimate is available; fiscal impact on Judicial Branch can be absorbed with existing resources. For felony stalking offenses, Judicial Branch is expected to incur costs as shown above; and impact on the Department of Correction is expected but cannot be determined.

Section 2 (G.S. 15A-534.1(a)): Pretrial release conditions are expected to have a fiscal impact on the Judicial Branch, but cannot be estimated.

Section 3 (G.S. 50B-1 (a)): Fiscal impact on the Judicial Branch expected but cannot be estimated.

Section 4 (G.S. 50B-4.1): A fiscal impact is expected on the Judicial Branch and DOC as a result of a new felony offense for repeat violations of protective orders (G.S. 50B-4.1(f)). However, it cannot be estimated at this time.
The enhanced felony class for felonies that violate a protective order (G.S. 50B-4.1(d)) is expected to have a fiscal impact on the Department of Correction as shown above; an impact on the Judicial Branch is expected but not available.

POSITIONS: It is anticipated that approximately 1 position would be needed to supervise the additional inmates housed under this bill by the year 2005-06. This is based on inmate to employee ratios, provided by the Division of Prisons, for close, medium, and minimum custody facilities. For the five-year fiscal note horizon, it is recommended that a ratio of 2.5 inmates to one employee be used for each custody level.

PRINCIPAL DEPARTMENT (S) & PROGRAM (S) AFFECTED: Dept. of Correction: Judicial Branch, County Jails

EFFECTIVE DATE: This act becomes effective December 1, 2001, and applies to offenses committed on or after that date.

NOTE: *This fiscal analysis is independent of the impact of other criminal penalty bills being considered by the General Assembly, which could also increase the projected prison population and thus the availability of prison beds in future years. The Fiscal Research Division is tracking the cumulative effect of all criminal penalty bills on the prison system as well as the Judicial Department.*

BILL SUMMARY:

Section 1 of the proposed bill revises G.S. 14-277.3 by broadening the definition of stalking and enhancing the penalty. Under the bill, a person commits the offense of stalking if the person willfully on more than one occasion follows or is in the presence of, *or otherwise harasses*, another person, without legal purpose and with the intent to place the person in reasonable fear either for the person's safety or the safety of their immediate family or close personal associates. It further enhances violation of this section to a Class A1 misdemeanor from a Class 1, and to Class H felony from a Class I felony if done when there is a court order in effect prohibiting similar behavior. The bill also provides that a person who commits the offense of stalking after having been previously convicted of a stalking offense is guilty of a Class F felony.

Section 2 revises GS 15A-534.1(a) to add that a judge must determine pretrial release conditions in all cases in which the defendant is charged with committing a felony under a variety of specified offenses (including rape and sexual offenses, assault, kidnapping, and arson) upon current or past domestic partners.

Section 3 revises GS 50B-1(a) to include continued harassment that inflicts substantial emotional distress within the definition of domestic violence. Under Section 4, GS 50B-4.1 is amended to provide that a person committing a felony while knowingly violating a valid protective order shall be guilty of a felony one class higher than the principal felony (unless that is a Class A or B1 felony or the multiple offense felony created by this law) and makes fourth offense of violation of a valid protective order a Class H felony.

ASSUMPTIONS AND METHODOLOGY: Department of Correction and the Judicial Branch

Stalking Offenses (Misdemeanor Offenses, G.S. 14-277.3)

The proposed bill expands the scope of the stalking offense to cover harassing conduct and enhances violation of G.S. 14-277.3 to a Class A1 misdemeanor. The bill defines harass or harassment as knowing conduct communicated by any means (written, printed, telephonic, or electronic) directed at a specific person that annoys, torments, terrorizes, or terrifies that person and that serves no legitimate purpose. Consequently, additional charges and jail sentences may result since some people would be charged with the broader stalking offense created by this bill that might not otherwise be charged with any offense under the current law, and offenders currently charged with Class 1 would be upgraded to Class AI

There were 86 Class 1 misdemeanor convictions for stalking and 14 Class A1 misdemeanor convictions for stalking during FY 1999/2000, according to the NC Sentencing Commission. In addition, the Administrative Office of the Courts (AOC) reports that for a similar period (CY 2000) data indicate that 830 defendants were charged with misdemeanor stalking (Class 1 and Class A1 misdemeanors).

While it is not known how many additional sentences will result from broadening the definition of stalking, Fiscal Research does not expect the expansion of scope and reclassification of Class 1 misdemeanor convictions to Class A1 misdemeanor convictions to have an impact on the prison population. However, the reclassification and the expansion of scope could have an impact on local jail populations. In FY 1999/2000, 19% of Class A1 misdemeanor convictions resulted in active sentences. The average sentence length imposed was 69 days. Offenders serving active sentences of 90 days or less are housed in county jails.

AOC cannot provide an estimate on the increase in district court workload that would result from the enhancement of the misdemeanor offenses from Class 1 to Class A1, or from the expansion of scope. But, given the number of offenders currently charged and that any expected increase in Judicial Branch workload is spread statewide, Fiscal Research estimates the impact from this section of the bill can be absorbed with existing resources.

Stalking Offenses (Felony Offenses, G.S. 14-277.3)

The proposed bill enhances violation of this section to a Class H felony from a misdemeanor if done when there is a court order in effect prohibiting similar behavior. The bill also provides that a person who commits the offense of stalking after having been previously convicted of a stalking offense is guilty of a Class F felony. Given these penalty upgrades and the expansion of scope, some defendants would face longer sentences, and in some cases, be ineligible for community sanctions. It also can be expected that the defense and prosecution would be more vigorous, resulting in more time and cost to the courts.

During CY 1999/2000 there were 15 defendants charged with felony stalking (Class I), according to the AOC. The Sentencing Commission reports that for a similar period (FY 1999/2000) there were no Class I felony convictions for stalking.

While it cannot be assumed that the 14 Class A1 convictions for stalking in FY 1999/2000 were committed while a court order was in place, the Sentencing Commission can estimate the impact on the prison population under various scenarios. If, for example, there are 15 convictions for stalking with a court order in place that move from Class A1 to Class H, this would result in the need for four additional prison beds the first year and eight additional prison beds the second year.

If there are five convictions for repeated stalking that move from Class I to Class F, this would result in the need for three additional prison beds the first year and five additional prison beds the second year.

While it is not known how many offenders will be sentenced as a result of the penalty enhancements, Fiscal Research assumes there may be an impact on the Department of Correction since there are no surplus prison beds available for the five year Fiscal Note horizon and beyond, and each active sentence would create the need for an additional prison bed.

AOC is unable to provide at this time an estimate on the impact to the court system from the Class F felony enhancement, but has provided analysis on the Class H felony enhancement if done when there is a court order in effect prohibiting similar behavior. Although they do not have data on the exact number of such defendants, they note the percentage could be very high given the very large number of Chapter 50B protective order cases. In calendar year 2000, there 25,766 protective order cases under Chapter 50B. They, therefore, estimate conservatively that a minimum of 7% (between 5% and 10%) of the CY1999/2000 misdemeanor stalking charges, or 58 defendants would be charged under the bill with the Class H felony.

In addition, they estimate that 7% of defendants charged with harassing/threatening telephone calls (Class 2 misdemeanor) and those charged with communicating threats (Class 1 misdemeanor) could be charged under the broad language of the bill. There were 6,154 and 24,097 defendants charged in CY 2000, respectively. Thus, they estimate 430 of the defendants charged with harassing/threatening telephone calls and 1,686 defendants charged with communicating threats would be charged with the Class H felony under the bill, for a total of 2,116 defendants. Added to the 58 defendants, AOC would estimate 2,174 defendants would be charged with felonies under the bill instead of misdemeanor under current law.

Assuming that 2% of these defendants would go to trial, 43 felony trials at 2 days (12 hours) in superior court is estimated. The jury fees associated with the new superior court trials are estimated at $22,704 for the 43 trials ($528 for each 2-day trial).

Along with jury fees, these new superior court trials would be associated with personnel costs and indigent defense costs. However, Fiscal Research does not include personnel costs in its calculation if the workload increase is less than 3,600 (3,600 = 2 fulltime positions). With this particular amendment, workload is only estimated to increase by 1,494 hours.

In addition to those defendants going to trial, AOC estimates that 60%, or 1,304 defendants, would plead guilty. AOC estimates that about 60% of these defendants, or 26 defendants with felony trials and 782 defendants with guilty pleas, would be found indigent and receive court-appointed counsel. For trials, AOC estimates 12 in-court hours and 5 additional hours of preparation time would be need for a total of 17 hours. At a cost of $60 per hour, AOC estimates indigent costs for trials at $26,520 (26 trials x 17 hours x $60). For guilty pleas, AOC expects an additional half hour of preparation time would be needed. At a cost of $60 per hour, AOC estimates indigent costs for guilty pleas at $23,460 (782 pleas x .5 hours x $60). Indigent cost for a full year would total $49,980. AOC, further, estimates that indigency cost would increase by 10% each year, during the five-year Fiscal Note horizon.

Pretrial Release Conditions Under Chapter 50B

This bill amends GS 15A-534.1(a) to add that a judge must determine pretrial release conditions in all cases in which the defendant is charged with committing a felony under Articles 7A (Rape and Other Sex Offenses), 8 (Assaults), 10 (Kidnapping and Abduction), or 15 (Arson and Other Burnings), upon a spouse or former spouse or a person with whom the defendant lives or has lived as if married. Current G.S. 15A-534 provides that a judicial official (not only a judge) must determine pretrial release conditions for a defendant not covered under current G.S. 15A-534.1(a). Thus, magistrates would no longer be able to determine pretrial release conditions for defendants charged with various sex offenses (including rape and sexual offenses, assault, kidnapping, and arson) that involve domestic relationships defined under the bill.

AOC cannot provide an estimate on the impact to the court system as a result of this provision. Nevertheless, they note that there are numerous offenses covered under the specified articles to which the bill would apply. For example, one such offense is first-degree and second degree kidnapping, in which AOC data for calendar year 2000 indicates that 1,447 defendants were charged with this offense. Thus, given the number of new offenses to which this provision could apply, Fiscal Research and AOC would anticipate a fiscal impact on the courts.

Expanded Definition of Domestic Violence (G.S. 50B-1(a))

Similar to the expanded scope of stalking offenses under the bill (discussed previously), the bill adds harassing conduct to the definition of domestic violence. The broad definition for harassment can be expected to result in new charges being filed, more protective orders being sought and entered by the court, and thus, additional violations of protective orders. However AOC has no data from which to estimate the extent of this impact on the courts. Given that this change affects the definition of domestic violence for the entire Chapter, Fiscal Research and AOC assumes it could have a very substantial impact on court workload.

New Felony for Repeat Violations of Protective Orders (G.S. 50B-4.1(f))

Fiscal Research anticipates a fiscal impact on the courts and the prison population from this section of the bill. In FY 1999/2000 there were 929 convictions for violation of a protective order, with 331 having three or more prior conviction points. In addition, the AOC data indicate there were 3,274 defendants charged with a misdemeanor violation of a domestic violence protective order under G.S. 50B-4.1. While the AOC database contains information on the number of prior conviction points, it does not contain information about the specific offenses that are used to calculate the number of points. Therefore, it is not known how many offenders have knowingly violated a valid protective order and have previously been convicted of three Chapter 50B offenses.

The Sentencing Commission notes if, for example, there were three convictions that moved from a Class A1 misdemeanor to a Class H felony, the combination of active sentences and probation revocations would result in the need for one prison bed the first year and two prisons beds the second year. If, for example, there were 100 convictions that moved from a Class A1 misdemeanor to a Class H felony, the combination of active sentences and probation revocations would result in the need for 22 prison beds the first year and 50 prison beds the second year.

According to AOC, the number of cases that may result is unknown and there is no estimate available of the fiscal impact on the Judicial Branch. Notwithstanding, Fiscal Research assumes there will be a fiscal impact on the Judicial Branch.

Enhanced Felony Class for Felonies that Violate a Protective Order (G.S. 50B-4.1(d))

As indicated earlier, the section of the bill amends G.S. 50B-4.1 to punish a person who commits any felony at the time the person knows the behavior is prohibited by a valid protective order with a felony one class higher than the principal felony.

AOC is unable to provide an estimate on the Judicial Branch as a result of this provision. Fiscal Research assumes there will be a fiscal impact given the felony enhancement.

During FY 1999/2000 there were 19 felony convictions associated with the violation of a valid protective order. Since the conditions of the protective order are not computerized, it is not known whether all of these convictions would increase one felony offense class as proposed. For purposes of simulation, it was assumed that all 19 felony convictions would increase by one offense class.

The chart below compares the projected inmate population to prison bed capacity and shows whether there is adequate bed capacity for any population increases caused by a specific bill. Based on the most recent population projections and estimated available prison bed capacity, *there are no surplus prison beds available for the five*

year Fiscal Note horizon and beyond. That means the number of beds needed (Row 5) is always equal to the projected additional inmates due to a bill (Row 4).

Rows 4 and 5 in the chart show the impact of this specific Bill. As shown in bold in the chart below, the Sentencing Commission estimates this specific legislation will add 3 inmates to the prison system by the end of FY 2005-06.

5. No. of Additional Beds Needed Each Fiscal Year Due to this Bill[3]	0	1	1	2	3

OTHER ASSUMPTIONS:

1. The assumptions for number of active sentences and number of probation revocations assume the same percentage as found for Class E offenders in FY 1999/2000. Assumes no changes in judicial or prosecutorial behavior regarding convictions for this offense.
2. Assumes no deterrent effects as a result of the bill.

[1] The Sentencing and Policy Advisory Commission prepares inmate population projections annually. The projections used for incarceration fiscal notes are based on January, 2001 projections. These projections are based on historical information on incarceration and release rates under Structured Sentencing, crime rates forecast by a technical advisory board, probation and revocation rates, and the decline (parole and maxouts) of the stock prison population sentenced under previous sentencing acts.

[2] Projected number of prison beds is based on beds completed or funded and under construction as of 1/11/01. The number of beds assumes the Department of Correction will operate at an Expanded Operating Capacity (EOC), which is the number of beds above 100% or Standard Operating Capacity. The EOC is authorized by previous court consent decrees or departmental policy. ***These bed capacity figures do not include the 3,000 new beds proposed by the Department of Correction for operation in 2003 and 04 nor the potential loss in bed capacity due to any proposals in the 2001 Session to eliminate prison beds or close prisons.***

[3]Criminal Penalty bills effective December 1, 2001 will only affect inmate population for one month -- June of FY 2001-02 – due to lag time between when an offense is committed and an offender is sentenced.

FISCAL IMPACT BEYOND FIVE YEARS -- Fiscal Notes look at the impact of a bill through the year 2006. However, there is information available on the impact of this bill in later years. The chart below shows the additional inmates due to this bill, the projected available beds, and required beds due only to this bill each year.

	2006-07	2007-08	2008-09	2009-10
Inmates Due to This Bill	4	5	6	7
Available Beds	-4,848	-5,771	-6,688	-7,597
New Beds Needed	4	5	6	7

DISTRIBUTION OF BEDS: After analyzing the proposed legislation, the Department of Correction estimates the following distribution of beds as needed under this bill:

Close Custody – 29%
Medium Custody –44%
Minimum Custody –27%

NOTE: *The Department of Correction indicates that the prison system is under capacity in close custody beds only. However, in assigning the true cost of this bill, the Fiscal Research Division considered the number of beds needed at each custody level due to this bill.*

OPERATING: Operating costs are based on actual 1999-2000 costs for each custody level as provided by the Department of Correction on November 1, 2000. A 3% per year inflationary rate has been added to these 99-00 costs to determine the five-year recurring costs estimated in the Fiscal Impact Table on Page 1.

DAILY INMATE OPERATING COST 99-2000

Custody Level	Minimum	Medium	Close	Statewide Average
Daily Cost Per Inmate (99-2000)	$52.52	$68.13	$75.32	$63.65

These costs include security, inmate costs (food, medical etc.) and administrative overhead costs for the Department and the Division of Prisons.

NOTE: *Operating costs will be calculated as follows: number of offenders times daily cost per inmate for each custody level = total operating costs. For bills that increase inmate population in 2002 or 2003, only operating costs are included in the estimate of fiscal impact. This methodology is based on the following assumption. It is not practical to assume that Correction can build prisons quickly enough to house additional offenders before 2003-04. In practice, DOC will have to purchase additional beds out of state or in county jails or establish temporary beds until construction can be completed. Based on previous contract costs for purchasing beds, the DOC statewide average cost for 99-2000 will be the base cost of buying a prison bed.*

METHODOLOGY FOR CALCULATING PRISON BED COSTS: Sentencing Commission projections and DOC estimates of custody levels and operating costs (illustrated previously) were the basis for calculating the number of beds needed each year. Due to the gap between the time a felony offense is committed and the offender is sentenced, the effective date for prison impact is estimated to be 6/1/2002. Therefore, fiscal impact

for FY 2002 is for the month of June only, or 1/12 of the annual bed operating cost. Fiscal Year 2003 represents the first full year, and in this case the first year in which a prison bed is needed.

TECHNICAL CONSIDERATIONS: The bill's change of felony level will require a change in how stalking is cited in the Victim's Rights Act (Article 46 of Chapter 15A) if stalking is still to be covered. The current law defines a *victim* as a person against whom there is probable cause to believe that one of the crimes listed has been committed. Stalking is one of the offenses specifically listed for Class I felony violations. Under the bill, the felony offense of stalking is a Class H or Class F felony and not a Class I felony, as provided under current law. If it is the intent of the General Assembly that stalking continue to be covered under the Victim's Rights Act, then it should amend the specific listing of this section among Class H or Class F felonies pursuant to the change in the bill, instead of a Class I felony.

SENATE BILL 346:
Amend Stalking/Domestic Violence Laws

BILL ANALYSIS

Committee:	House Judiciary III	**Introduced by:**	Senator Rand
Date:	May 15, 2001	**Summary by:**	Dianna Jessup
Version:	PCS S346-CSRV-18[v.3]		Committee Counsel

SUMMARY: ***The PCS for Senate Bill 346 would amend the stalking law to prohibit a broader category of behavior, to increase the criminal penalties for a violation, and to define "harassment." The bill would make other changes to the domestic violence bail and pretrial release statute and increase the punishment for felonies committed after a domestic violence protective order is in place.***

The PCS differs from the second edition in that Section 4 was added, which would amend the statute regarding ex parte orders entered by magistrates in domestic violence cases so that the orders would expire and hearings would be scheduled before a judge by the end of the next day on which the district court is in session.

This bill would become effective December 1, 2001, and apply to offenses committed on or after that date.

CURRENT LAW: **Stalking.** North Carolina's anti-stalking law was first enacted in June 1992. The statute was last amended in 1997, when the offense was raised from a Class 2 to a Class 1 misdemeanor (maximum 120 days' punishment), and the commission of the offense while a court order is in effect prohibiting similar conduct was raised from a Class 1 to a Class A1 misdemeanor (maximum 150 days' punishment).

Currently, a person commits the offense of stalking when the person:

- Willfully and on more than one occasion
- Follows, *or* is in the presence
- Of another person
- Without legal purpose
- With the intent to cause death or bodily injury *or* with the intent to cause emotional distress by placing that person in reasonable fear of death or bodily injury.

In 1999, the General Assembly expanded the telephone harassment statute to prohibit threatening e-mail communications (G.S. 14-196). Violation of the telephone harassment statute is a Class 2 misdemeanor. Other offenses related to stalking include: communicating threats (G.S. 14-277.1 - Class 1 misdemeanor), domestic criminal trespass (G.S. 14-134.3 - Class 1 misdemeanor), assault on a female (G.S. 14-33(c)(2) - Class A1 misdemeanor), simple assault (G.S. 14-33 - Class 2 misdemeanor)

Domestic Violence: State law permits a person to file a civil action to obtain a protective order or other relief to protect against acts of domestic violence. "Domestic violence" is defined to mean the commission upon an aggrieved party by a person with whom the aggrieved party has or has had a personal relationship of the following acts: attempting to cause or causing bodily injury; placing the aggrieved party or a member of the aggrieved party's family or household in fear of imminent serious bodily injury; or rape. Currently, an aggrieved party may seek an ex parte order from an authorized

magistrate. An ex parte order entered by a magistrate expires, and a magistrate must schedule an ex parte hearing before a district court judge within 72 hours of the filing for relief or by the end of the next day on which the district court is in session in the county in which the action was filed, whichever occurs first.

BILL ANALYSIS: Section 1 of the bill would amend the stalking statute to broaden the category of behavior prohibited by G.S. 14-277.3 to include harassment and acts designed to place a victim in reasonable fear either for the victim's safety or that of the victim's immediate family or close personal associates. The bill would also prohibit harassment that is intended to cause, and does cause, substantial emotional distress by placing the victim in fear of bodily harm. The terms "harasses" and "harassment" would be added as defined terms and would include most types of communications that annoy, torment, terrorize or terrify a victim.

The bill would also increase the class of the offense of stalking to a Class A1 misdemeanor, punishable by a maximum of 150 days' community/intermediate/active punishment. Where a court order is in effect prohibiting similar behavior, a violator would be punished as a Class H felon (currently, Class A1 misdemeanor), and may be sentenced to a maximum of 30 months. A recidivist would be punished as a Class F felon, with a maximum punishment of 59 months.

Section 2 would amend G.S. 15A-534.1(a) to add to the list of domestic violence crimes drawing special conditions of bail and pretrial release, the following categories of felonies when committed upon a victim group: Rape/Sex Offenses (Article 7A), Assaults (Article 8), Kidnapping/Abduction (Article 10), or Arson (Article 15).

Section 3 would make a conforming change to the domestic violence definition from Chapter 50B. If the bill were enacted, domestic violence would include acts that place a victim group in fear of continued harassment to a level that inflicts substantial emotional distress.

Section 4 would amend the statute governing the expiration of ex parte orders by magistrates in a domestic violence case so that the orders would no longer expire within 72 hours. Instead, the order's expiration and the ex parte hearing before the district court judge would be scheduled for the next day on which the district court is in session. This change would eliminate the need for the aggrieved party to return to court every 72 hours, even if there is not a district court judge available.

Section 5 would expand the punishment for violating a domestic violence protective order (50B order). A person committing felonious acts prohibited by a known existing 50B order would be punished at one higher felony class, unless the felonious act is punishable as a Class A or B1 felony. Any person who knowingly violates a 50B order after having been previously convicted of three Chapter 50 offenses would be guilty of a Class H felony, with a maximum punishment of 30 months.

643 LOB

House Appropriations Co-Chair Representative Greg Thompson called the Appropriations Committee meeting to order at 8:30 am for the purposes of considering **S 1111, CERTAIN 2001 APPROPRIATIONS ACT MODIFICATIONS**. He recognized the House Pages in attendance. Co-Chair Representative Ruth Easterling made opening remarks.

The Co-Chair recognized Representative David Redwine to explain the bill as listed in the Bill Analysis (attached). Chairman Redwine stated that Senate Bill 1111 continues the directives and imitations enacted last session in the 2001 Appropriations Act and certain other legislation affecting the state budget. The bill authorizes the use of the Savings Reserve Account to balance the budget. The bill provides tat no automatic step increases shall be paid to State employees and public school employees. The bill sets the contribution rate for the State Teachers' and State Employees Retirement System. Further, the bill addresses the health and human services block grants, the natural and economic resources block grants, appropriations for Worker Training Trust Fund programs, and maintains participation levels in the AIDS Drug Assistance Program.

After debate on the bill the following amendments were offered:

An amendment by Rep. Carolyn Russell, to delete language using the Savings Reserve Account to balance the budget, was defeated on a roll call vote of 40/38.

An amendment by Rep. Marge Carpenter, to open the title to allow floor amendments, was defeated on a roll call vote of 43/35.

An amendment by Rep. Mitchell was withdrawn.

SUMMARY: ***Senate Bill 1nues the directives and limitations enacted last session in the 2001 Appropriations Act and certain other legislation affecting the State budget. The bill authorizes the use of the Savings Reserve Account to balance the budget. The bill provides that no automatic step increases shall be paid to State employees and public school employees. The bill sets the contribution rate for the State Teachers' and State Employees Retirement System. Further, the bill addresses the health and human services block grants, the natural and economic resources block grants, appropriations for Worker Training Trust Fund programs, and maintaining participation levels in the AIDS Drug Assistance Program.***

BILL ANALYSIS:

Section 1: Directions and Limitations on Expenditures of State Funds

Boilerplate language to provide for the continuation of directions and limitations set out in the 2001 Appropriations Act, the 2001 Appropriations Modifications bill (i.e. the budget technical corrections bill) and other budget related legislation enacted in the 2001 session. Acknowledges that a subsequent final budget bill may be enacted that changes items and directs the Governor to adjust budget allocations when the final budget bill is enacted to give effect to the final budget bill.

Section 2: Use of Savings Reserve Account to Balance Budget

Authorizes the use of and appropriates funds from the Savings Reserve Account (i.e. the Rainy Day Fund), if necessary, to balance the 2001-02 fiscal year budget.

Section 3: No Automatic Step Increases for State Employees

Continues specific salaries currently in effect for the 2001-02 fiscal year for state and public school employees. Prohibits employees subject to statutory pay plans and the teachers/school-based administrators salary schedules from moving up on the schedules and/or receiving an automatic or step increase.

Section 4: Retirement Contribution Rate

Sets out the State's employer contribution rates for retirement and related benefits for the period covered by the bill.

- Reduces the contribution rate for the teachers' and state employees' retirement system to zero. Reduces the contribution rate for the legislative retirement system to zero. Reduces the contribution rate for the judicial retirement system to the extent allowed by actuarial gains.

Section 5: DHHS Block Grants

Appropriates the various federal block grants within DHHS.

- Federal block grants are appropriated each Session, and funds must be appropriated for the 2002-03 fiscal year in order for services to continue after June 30,2002.
- Block grants to be funded at same level provided for the current 2001-02 fiscal year: Community Services Block Grant, Low-Income Energy Block Grant, Substance Abuse
- Prevention and Treatment Block Grant, and the Mental Health Services Block Grant.
- Only ***core services*** are funded in the Temporary Assistance for Needy Families Block Grant, Social Services Block Grant, Child Care and Development Block Grant, Maternal and Child Health Block Grant, and the Preventative Health Services Block Grant.
- Language is also included to clarify that the final budget bill may change the funding of these block grants.

Section 6: Maintain Aids Drug Assistance Program (ADAP)

Continues eligibility requirements for the Aids Drug Assistance Program at level in effect for the 2001-02 fiscal year.

- The ADAP program serves individuals at or below 125% of the federal poverty level (FPL).
- Current law, sets this eligibility as part of an incremental increase plan which allows eligibility to increase to 150% FPL then increase to 175% FPL during FY 2001-02; then requires the Department to increase eligibility to serve individuals at or below the 200% level beginning July 1, 2002.
- There is not enough money available to serve individuals at the level required on July 1, 2002. The program has been closed to new enrollees since December due to increased program utilization during FY02.
- This provision changes the effective date for the 200% increase from July 1, 2002 to August 1, 2002.

Section 7: NER Block Grants

Authorizes the allocation of the federal Community Development Block Grant (CDBG) at the same level provided for the current 2001-02 fiscal year.

Section 8: Worker Training Trust Fund Appropriations

Appropriates funds from the Worker Training Trust Fund at the same level provided for the current 2001-02 fiscal year. Also provides for reduced funding across all programs if funds available for the 2002-03 fiscal year are less than currently available for the 2001-02 fiscal year.

Section 9: Effective Date

Specifies an effective date of July 1, 2002 and an expiration date of July 31, 2002.

Minutes
House Appropriations Committee Meeting

8:50 AM
643 LOB

House Appropriations Co-Chair Representative David Redwine called the meeting to order at 8:50 am to consider **S 1115, Modify Appropriations Act of 2001**. Rep Redwine explained that the committee would proceed to explain the budget situation.

He recognized Dr. Lynn Muchmore, Fiscal Division to explain the handout entitled **House Availability Analysis – 2002 session.**

The presiding Chair then recognized members for discussion. Rep. Bowie requested a list of Cash from Trust and Special Funds on line 10 of the document, which Dr. Muchmore stated is listed in the senate budget.

Rep Redwine announced the Appropriations subcommittees would begin meeting at 1:30 pm today to brief the Appropriations Subcommittee membership.

In this budget there is no money/raises for state employees but included is a one time $500. bonus at a cost of 78 million. Severance applies to all state employees who would be riffed and is not discretionary.

Rep. Justus asked the Appropriations Chair to explain line 7 of the handout and was told that the 152 million figure equals 32m from the Tobacco Trust, 40 million was taken from the Health and Wellness Trust Fund and 80 million from Golden Leaf. 8 million was left because the Governor took money earlier this year.

Rep. Daughtry requested and was told the nonrecurring figure the senate had in the budget was approximately 800 million and the house budget uses approximately 500-600 in non-recurring dollars.

The Chair stated that this meeting was for informational purposes only and upon no other request for information the meeting was adjourned at 10:20 am.

Respectfully,

Representative Ruth Easterling

BILL ANALYSIS

Committee:	House Appropriations	**Introduced by:**	Sen. Odom
Date:	**July 25, 2002**	**Summary by:**	Legal Counsel & Budget Development Staff

SUMMARY: *Re-enacting the provisions of Senate Bill 1111 -- Senate Bill 1112 continues the directives and limitations passed last session in the 2001 Appropriations Act and certain other legislation affecting the State budget. The bill authorizes the use of the Savings Reserve Account to balance the budget. The bill provides that no automatic step increases shall be paid to State employees and public school employees. The bill sets the contribution rate for the State Teachers' and State Employees Retirement System. Further, the bill addresses the health and human services block grants, the natural and economic resources block grants, appropriations for Worker Training Trust Fund programs, and maintaining participation levels in the AIDS Drug Assistance Program. The act remains effective until August 31, 2002.*

BILL ANALYSIS:

Section 1: Directions and Limitations on Expenditures of State Funds

Boilerplate language to provide for the continuation of directions and limitations set out in the 2001 Appropriations Act, the 2001 Appropriations Modifications bill (i.e. the budget technical corrections bill) and other budget related legislation enacted in the 2001 session. Acknowledges that a subsequent final budget bill may be enacted that changes items and directs the Governor to adjust budget allocations when the final budget bill is enacted to give effect to the final budget bill.

Section 2: Use of Savings Reserve Account to Balance Budget

Authorizes the use of and appropriates funds from the Savings Reserve Account (i.e. the Rainy Day Fund), if necessary, to balance the 2001-02 fiscal year budget.

Section 3: No Automatic Step Increases for State Employees

Continues specific salaries currently in effect for the 2001-02 fiscal year for state and public school employees. Prohibits employees subject to statutory pay plans and the teachers/school-based administrators salary schedules from moving up on the schedules and/or receiving an automatic or step increase.

Section 4: Retirement Contribution Rate

Sets out the State's employer contribution rates for retirement and related benefits for the period covered by the bill.

- Reduces the contribution rate for the teachers' and state employees' retirement system to zero. Reduces the contribution rate for the legislative retirement system to zero. Reduces the contribution rate for the judicial retirement system to the extent allowed by actuarial gains.

Section 5: DHHS Block Grants

Appropriates the various federal block grants within DHHS.

- Federal block grants are appropriated each Session, and funds must be appropriated for the 2002-03 fiscal year in order for services to continue after June 30,2002.
- Block grants to be funded at same level provided for the current 2001-02 fiscal year: Community Services Block Grant, Low-Income Energy Block Grant, Substance Abuse
- Prevention and Treatment Block Grant, and the Mental Health Services Block Grant.
- Only ***core services*** are funded in the Temporary Assistance for Needy Families Block Grant, Social Services Block Grant, Child Care and Development Block Grant, Maternal and Child Health Block Grant, and the Preventative Health Services Block Grant.
- Language is also included to clarify that the final budget bill may change the funding of these block grants.

Section 6: Maintain Aids Drug Assistance Program (ADAP)

Continues eligibility requirements for the Aids Drug Assistance Program at level in effect for the 2001-02 fiscal year.

- The ADAP program serves individuals at or below 125% of the federal poverty level (FPL).
- Current law, sets this eligibility as part of an incremental increase plan which allows eligibility to increase to 150% FPL then increase to 175% FPL during FY 2001-02; then requires the Department to increase eligibility to serve individuals at or below the 200% level beginning July 1, 2002.
- There is not enough money available to serve individuals at the level required on July 1, 2002. The program has been closed to new enrollees since December due to increased program utilization during FY02.
- This provision changes the effective date for the 200% increase from July 1, 2002 to August 1, 2002.

Section 7: NER Block Grants

Authorizes the allocation of the federal Community Development Block Grant (CDBG) at the same level provided for the current 2001-02 fiscal year.

Section 8: Worker Training Trust Fund Appropriations

Appropriates funds from the Worker Training Trust Fund at the same level provided for the current 2001-02 fiscal year. Also provides for reduced funding across all programs if funds available for the 2002-03 fiscal year are less than currently available for the 2001-02 fiscal year.

Section 9: Effective Date

Specifies an effective date of July 1, 2002 and an expiration date of August 31, 2002

The Department shall not include transfers from TANF for specified purposes in any calculations of reductions to the Social Services Block Grant.

If the United States Congress reduces the amount of TANF funds below the amounts appropriated in this section after the effective date of this act, then the Department shall allocate the decrease in funds after considering any underutilization of the budget and the effectiveness of the current level of services. Any TANF Block Grant fund changes shall be reported to the Senate Appropriations Committee on Health and Human Services, the House of Representatives Appropriations Subcommittee on Health and Human Services, and the Fiscal Research Division.

Decreases in federal fund availability shall be allocated for the Maternal and Child Health and Preventive Health Services federal block grants by the Department of Health and Human Services after considering the effectiveness of the current level of services.

SECTION 5.(c) Changes to the budgeted allocations to the block grants appropriated in this act and new allocations from the block grants not specified in this act shall be submitted to the Joint Legislative Commission on Governmental Operations for review prior to the change and shall be reported immediately to the Senate Appropriations Committee on Health and Human Services, the House of Representatives Appropriations Subcommittee on Health and Human Services, and the Fiscal Research Division.

SECTION 5.(d) The appropriations and the authorizations to allocate and spend funds, which are set out in this section, shall remain in effect until the Current Operations and Capital Improvements Appropriations Act of 2002 becomes law, at which time that act shall become effective and shall govern appropriations and expenditures. When the Current Operations and Capital Improvements Appropriations Act of 2002 becomes law, the Director of the Budget shall adjust allocations to give effect to that act from July 1, 2002.

MAINTAIN AIDS DRUG ASSISTANCE PROGRAM (ADAP)

SECTION 6. Notwithstanding Section 21.90 of S.L. 2001-424, eligibility for participation in the Aids Drug Assistance Program between July 1, 2002, and August 1, 2002, shall continue at the levels established for the 2001-2002 fiscal year in S.L. 2001-424.

NER BLOCK GRANT PROVISIONS

SECTION 7. The Director of the Budget shall continue to allocate federal block grant funds at the levels provided in Section 5.2 of S.L. 2001-424 and as otherwise provided by law, and appropriations from federal block grants are hereby made.

WORKER TRAINING TRUST FUND APPROPRIATIONS

SECTION 8. The Director of the Budget shall appropriate funds from the Worker Training Trust Fund at the levels provided in Section 20.6 of S.L. 2001-424 and

as otherwise provided by law. If the funds available for appropriation from the Worker Training Trust Fund in the 2002-2003 fiscal year are less than those appropriated from the Fund in the 2001-2002 fiscal year, then every program receiving an appropriation from the Fund in the 2001-2002 fiscal year shall receive an appropriation in the 2002-2003 fiscal year that is reduced by the same percentage as the reduction availability in the Fund.

EFFECTIVE DATE

SECTION 9. Except as otherwise provided in this act, this act becomes effective July 1, 2002, and expires July 31, 2002.

In the General Assembly read three times and ratified this the 27th day of June, 2002.

Version:	Finance PCS as amended		Staff Attorney

SUMMARY: ***There are two main components to this bill: changes to the Bill Lee Act and the establishment of a new economic development grant program. There are different effective dates for the various parts of the bill.***

BACKGROUND: The William S. Lee Quality Jobs and Business Expansion Act (hereinafter Bill Lee Act) was enacted in 1996, effective beginning with the 1996 tax year with a 2002 sunset. The Act is a package of State tax incentives and has been modified in each subsequent year. The incentives are primarily in the form of tax credits for investment in machinery and equipment and real property, for job creation, for worker training, and for research and development. Counties are divided into five economic distress tiers based on the unemployment rate, per capita income, and population growth of the county. For many of the credits, the lower the tier of a county, the more favorable the incentive. The Act requires the Department of Commerce and the Department of Revenue to report periodically on the credits allowed by the Act.

Before 1996, North Carolina had made little use of tax incentives to lure businesses to the State. Even without incentives, North Carolina was consistently one of the top states in attracting industry. The array of credits authorized by the Bill Lee Act was viewed as an experiment, to be evaluated in five years to determine whether the incentives were cost effective and actually affected behavior, or merely provided tax reductions to businesses that would have located or expanded in any case. In 1999, the General Assembly extended the 2002 sunset to 2006.

ANALYSIS: Bill Lee Act Changes. Sections 1 through 3 of this bill make significant changes to the Bill Lee Act. These changes affect the credit for investing in machinery and equipment, the eligibility of a taxpayer who has received a notice of final assessment, the wage standard, and the definition of a development zone.

Machinery and Equipment. Under current law, a taxpayer is allowed a credit for the cost of machinery and equipment placed into service during a taxable year that exceeds the applicable threshold based on the location where the machinery and equipment is placed into service. The amount of the credit is equal to 7% of the cost of the machinery and equipment in excess of the applicable threshold. Section 1 of this act makes two changes to this credit. First, the amount of the credit is reduced in enterprise tiers three, four, and five. In those areas, the amount of the credit is reduced to 6%, 5%, and 4%, respectively, of the cost of the machinery and equipment in excess of the applicable threshold. Second, the amount of the threshold is increased in enterprise tiers four and five. In enterprise tier four, the threshold is increased from $500,000 to $1,000,000. In enterprise tier five, the threshold is increased from $1,000,000 to $2,000,000.

Notice of Final Assessment. Under current law, if the Secretary of Revenue discovers that any tax is due from a taxpayer, the Secretary must notify the taxpayer in writing of the Secretary's intent to assess the

taxpayer for the tax. The notice must describe the basis for the assessment, the amount of tax to be assessed and any interest and penalties due. If the taxpayer disagrees with the assessment, the taxpayer has thirty days to request a hearing before the Secretary. The Secretary must then schedule a hearing to occur within 90 days of the request. Within 90 days after the hearing, the Secretary must issue a decision on the hearing. If the taxpayer does not request a hearing within the 30 days allowed, or if the Secretary finds that the tax is due after the hearing, the proposed assessment becomes a final assessment. Payment of a final assessment is not an admission of liability and does not affect the right of the taxpayer to pursue further administrative or judicial review. Section 1.1 of this act would make a taxpayer who has received notice of a final assessment and who has not satisfied that assessment ineligible for the credits under the Bill Lee Act.

Wage standard. Under current law, a taxpayer is eligible for a credit under the Bill Lee Act only if the jobs provided by the taxpayer meet a wage standard. The wage standard is 110% (100% in an enterprise tier one area) of the applicable average weekly wage. The jobs that are included in calculating the wage standard vary depending on the particular credit.

Section 2 of this bill makes three substantive changes to the wage standard. First, this section eliminates the wage standard in enterprise tier one and two areas.

Second, this act eliminates the wage standard for the credit for worker training. In order to be eligible for the credit for worker training, the employee who is being retrained must either (i) occupy a job for which the taxpayer is eligible to claim a credit for creating jobs, or (ii) be trained to operate machinery and equipment for which a taxpayer is eligible to claim a credit for investing in machinery and equipment. Thus, the jobs for which the credit for worker training may be claimed have already been included in a larger group of jobs that has met the wage standard. Often the specific jobs for which worker training is required are lower-paying jobs that could not themselves meet the wage standard. This change allows the credit for worker training to be taken by more taxpayers.

Third, this act makes an allowance for a taxpayer that has a taxable year other than a calendar year. To perform the wage standard test, the taxpayer compares the average weekly wage of certain jobs to the wage standard determined on an annual basis. The test is performed for the calendar year that jobs are created or for which worker training is provided. However, performing a wage standard test based on a calendar year is not feasible because many companies have taxable years that do not coincide with the calendar year. Consequently, the taxpayer can engage in activity that qualifies for a credit during a taxable year that spans two calendar years. If the taxpayer creates jobs in different calendar years, it must compute the combined average weekly wage of the jobs created during its taxable year and compare this average to the county wage standard to determine if it qualifies for a tax credit. It cannot however, compute this average "for the calendar year the jobs are created" as required by the current statute because the jobs are created over the course of two calendar years. Under this bill, the wage standard test would be based on the taxpayer's taxable year and not the calendar year. When a taxable year spans two calendar years, the applicable wage standard is that of the earlier calendar year. In addition to correcting a practical problem, this change generally will be favorable for taxpayers because county wage standards generally trend upward.

Development zones. In 1998, the General Assembly amended the Bill Lee Act to provide additional incentives for businesses that locate or expand in development zones, which are economically distressed areas located within cities. The statutory conditions for qualifying as a development zone were designed to target only these relatively small, economically distressed areas. The statutory conditions contained

loopholes, however, that allowed large areas outside of cities to qualify, even if they were not economically distressed throughout. In 1999, the General Assembly moved to close those loopholes.

Current law defines a development zone as an area that meets all of the following conditions: (1) consists of one or more contiguous census tracts, block groups, or both, (2) has a population of 1,000 or more, at least 20% of whom are below the poverty level, (3) is located at least partly in a city with a population over 5,000, (4) every census tract and census block group in the zone must be located in whole or in part within the primary corporate limits of the city, (5) every census tract and census block group in the zone must have more than 10% of its population below the poverty level, or must be immediately adjacent to a tract or group that has more than 20% of its population below the poverty level, and (6) none of the census tracts or census block groups may be located in another development zone.

This act amends the definition of development zone to include all of a parcel of land that is located partially within the zone if all of the following conditions are met:

- At least 50% of the parcel is located within the zone.
- The parcel was in existence and under common ownership prior to the previous decennial federal census.
- The parcel is a portion of land made up of one or more tracts or tax parcels of land that is surrounded by a continuous perimeter boundary.

The following enhanced incentives apply in development zones: If a business locates in a development zone, the wage standard it has to meet is the same as for tier one counties -- slightly lower than the standard for other counties under current law and eliminated entirely under Section 2 of this act. In addition, if a business locates in a development zone, its maximum worker training credit is $1,000 rather than $500, it receives an additional $4,000 per job on its jobs tax credit, and the credit for investing in machinery and equipment is calculated as if the zone were in a tier one county.

Jobs Development Investment Grant Program. Section 5 of this act creates a new economic development tool for new and expanding businesses in North Carolina. This tool would be used to attract businesses to the State by allowing a three-member committee to award grants to businesses. The amount of the grants would be based on income tax withholdings from new jobs created by the businesses.

Which projects are eligible for a grant? In order to be eligible for a grant under this Part, the business must create a minimum number of new jobs. The number of new jobs that must be created varies based on the enterprise tier designation of the location where the jobs will be located. For projects located in enterprise tiers one through three, the project must create at least 10 new full-time positions. For projects located in enterprise tiers four and five, the project must create at least 20 new full-time positions. If a project is located in more than one location, the enterprise tier designation of the location in the highest enterprise tier area determines the number of new jobs that must be created.

As with the Bill Lee Act, a business must provide health insurance for all full-time jobs associated with the project in order to be eligible for this new program. The test is the same as under the Bill Lee Act – the business must, for all full-time employees of the project, pay at least 50% of the premiums for health insurance that meets at least the minimum provisions of the basic health care plan of coverage recommended by the Small Employer Carrier Committee. In addition, the average wage of all jobs at the location with respect to which a grant is sought must meet the Bill Lee wage standard, as amended by this bill. Finally, as with the Bill Lee Act, as amended by this bill, in order to be eligible for a grant the business and its related members must not have any outstanding final tax assessments against it.

Unlike under the Bill Lee Act, there are few restrictions based on the industry in which the business is engaged. All facilities other than retail facilities are eligible for a grant under this Part.

More generally, the project must satisfy the following conditions in order to be eligible for a grant:

- The project will result in net new employment in the State by the business.
- The project will benefit the people of the State by increasing employment opportunities and strengthening the State's economy.
- The project is consistent with economic development goals for the State.
- A grant is needed in order to secure the project for the State
- The total benefits of the project to the State outweigh the costs associated with the project.

How a grant is obtained? In order to obtain a grant under this Part, the business must apply to the Economic Investment Committee for consideration. The Economic Investment Committee is a three-member committee consisting of the Secretary of Commerce, the Secretary of Revenue, and the Director of the Office of State Budget and Management. The Committee may only act upon unanimous consent. The Committee is subject to the open meetings law and the public records law. Members of the Committee are forbidden to work for a business that receives a grant under this program for at least two years after the member is no longer on the Committee.

The application for a grant must be under oath, be on a form prescribed by the Committee, and contain any information required by the Committee. At a minimum, the application must contain the following information:

- The name of the business, the proposed location of the project, and the type of activity in which the business will engage at the project site.
- The names and addresses of the principals or management of the business, and the nature of the business, and the form of business organization under which the business is operated.
- The most recent audited financial statements of the business.
- The number of new jobs proposed to be created by the project.
- An estimate of the withholdings of personal income tax of employees of the project.
- Information concerning other possible locations of the project, and the benefits, including tax benefits or grants, associated with locating the project at that other location.
- Information concerning other State grants for which the business is applying or that it expects to receive.
- Certification that the project will not be undertaken in the State without the grant.

A group of related business involved in a project may submit a joint application for a grant under this Part.

Any application for a grant must be accompanied by a fee in the amount of $5,000. This fee will be allocated among the agencies responsible for evaluating the application (Department of Commerce, Department of Revenue, and the Office of State Budget and Management) in the discretion of the Committee.

The Committee will evaluate applications to determine which businesses shall receive grants under this Part. The awarding of a grant is solely in the discretion of the Committee. The Committee shall develop criteria for evaluating applications. These criteria shall take into consideration the economic impact of the project, the strategic importance of the project to the State, region, or locality, the quality of the jobs to be

created, the quality of the industry and the project, and the environmental impact of the projects. The Committee is exempt from the rulemaking process in developing these criteria.

The Committee is required to be somewhat selective in which projects with which it chooses to enter into an agreement. The Committee may not enter into more than 25 agreements in any fiscal year. However, there may be significantly more than 25 agreements outstanding at any time because the term of an agreement may be as long as 15 years.

How is the amount of a grant determined? If the Committee approves a business's application, the Committee will then negotiate and enter into a community economic development agreement with the business. The agreement is a binding commitment on the part of the State to provide the grant for a set number of years, subject to the Committee's right to amend or terminate the agreement under certain limited circumstances. Each agreement shall include a description of the project, the term of the agreement, the number of positions expected to be subject to the grant and a method for determining the number of positions that are subject to the grant, and the amount of the grant as a percentage of the withholdings of personal income tax from eligible positions. The Committee has wide discretion in determining the percentage that determines the amount of a grant under an agreement. The Committee shall develop criteria to be used when negotiating the appropriate percentage. The Committee is exempt from the rulemaking process in developing these criteria. However, at a minimum, the following conditions apply:

- The amount of the grant may not be less than ten percent (10%) or more than eighty percent (80%) of the withholdings associated with new jobs at the project.
- The term of the grant shall not exceed 15 years.
- The percentage used to determine the amount of the grant shall be reduced by one-fourth for any eligible position located in an enterprise tier four or five area.
- Unless the Committee makes a specific determination that the grant should be calculated based on eligible positions created in any year during the term of the agreement, the amount of the grant shall be calculated based only on eligible positions created during the base years, the first two years, of the agreement.
- Unless the Committee makes an explicit finding otherwise, the total amount of all grants provided by the State may not exceed 80% of the withholding of eligible positions.

In addition, the Committee must consider at least the following factors when negotiating an percentage to be used in determining the amount of a grant:

- The number of eligible positions to be created.
- The expected duration of those positions.
- The type of contribution the business can make to the long-term growth of the State's economy.
- The amount of other financial assistance the project will receive from the State or local governments.
- The total dollar investment the business is making in the project.
- Whether the project utilizes existing infrastructure.
- Whether the project is located in a development zone.
- The number of eligible positions that will be filled by residents of a development zone.

Use of funds? There are no restrictions on the use of the grant fund by the business. South Carolina has a similar grant program. Under the South Carolina program, grant funds may be used for certain specific

purposes only, such as worker training, worker relocation, purchase or construction of real property, and construction or repairs to certain transportation-related real property.

The withholdings retained by the State shall be used in two different ways. First, the withholdings in excess of the percentage negotiated in the agreement shall flow to the General Fund.[1] Second, the withholdings that are included in the agreement, but that are excluded from the grant because the percentage was reduced by one-fourth because the eligible position is located in an enterprise tier four or five area, will be transferred to the Utility Account of the Industrial Development Fund.[2] Under current law, funds in the Utility Account may be used to assist local governments in tiers one and two in constructing or improving utility lines or equipment (amendments to the law regarding the Industrial Development Fund and the Utility Account are discussed later in this summary).

Follow-up on grantee businesses? This bill provides for monitoring of grantee businesses in several ways and allows the Committee to amend or terminate agreements if the business fails to live up to the terms of the agreement or the requirements of this new Part.

The business must submit annual reports to the Committee. In addition, the Committee may audit at any time a business receiving a grant. At a minimum, the business must submit a copy of its federal and State income tax returns which show business and nonbusiness income, a report that shows withholdings, and a payroll report. This annual submission must also include any additional information the Committee considers necessary to implement the grant program. Finally, this annual submission must include a report on the amount of tonnage of any freight moved in ocean borne commerce that passes through State ports in North Carolina and other United States ports. The report must contain an explanation of why any other U.S. was used rather than the State ports of North Carolina.

This annual submission must be accompanied by a fee of $1,500. The Committee shall allocate the fee among the agencies responsible for evaluating the submission.

The Committee must also obtain information from the Department of Revenue before the disbursement of a grant. The Department of Revenue must certify the amount of withholdings from the eligible business and that the business has no outstanding final assessments against it.

The Committee has a right to amend or terminate the agreement and to recapture all or part of a grant made in previous years under certain circumstances. If the business fails to meet or comply with any term of the agreement or with criteria developed by the Committee, the Committee, in it discretion, may amend the agreement. This amendment may take the form of a lower percentage being used to determine the amount of the grant or of a shorter term for the agreement. If the business fails to meet or comply with any term of the agreement or with criteria developed by the Committee for two consecutive years, the Committee, in its discretion, may terminate the agreement. In addition, in each agreement the Committee must include a provision describing the conditions that will lead to recapture of a grant made in an earlier

---

1 Even though the maximum percentage that may be used to determine the amount of a grant is 80%, there may be no additional revenue from these positions that would flow to the General Fund. This is because most taxpayers over-withhold, meaning that more taxes are withheld than are actually due, resulting in a refund to the taxpayer. Because of this, a grant based on the maximum percentage of 80% could result in a net loss to the General Fund.

2 The following example will clarify this. Assume a project that is located in an enterprise tier five area is allowed a grant based on 80% of the withholdings of the eligible positions. Because those positions are located in an enterprise tier five area, that percentage is reduced by one-fourth, so that the business is allowed a grant equal to 60% of the withholdings of eligible positions. (80% multiplied by ¾ equals 60%.) Twenty percent of the withholdings of eligible positions would flow to the General Fund, 60% would be given to the business in the form of a grant, and 20% would be transferred to the Utility Account of the Industrial Development Fund.

year. The statute mandates that all agreements contain a provision allowing recapture if the business does not maintain operations at the project location or another location approved by the Committee for at least 150% of the term of the grant agreement.

Program evaluation. This bill would require the Committee to make annual reports regarding the program and the funding needed to implement the program. By October 31 of each year, the Committee must publish the following information:

- A listing of each agreement entered into during the previous fiscal year, the cost/benefit analysis conducted with respect to each agreement, a description of each project, and the amount of the initial grant.
- An update on the status of projects under agreements entered into in earlier fiscal years.
- The number, enterprise tier levels, and wage levels of eligible positions created by projects with respect to which grants were awarded.
- The amount of new income tax revenue received by the State related to the projects.
- The criteria developed by the Committee to implement the grant program and in changes in those criteria over the previous year.
- The effectiveness of the program in recruiting new and expanding businesses.
- The environmental impact of businesses that have received grants.
- The geographic distribution of grants, by number and amount.

In addition, the Committee shall conduct a study annually to determine the amount of funding needed to successfully implement the grant program. The results of that study must be reported to the House of Representatives Finance Committee, the Senate Finance Committee, the House of Representatives Appropriations Subcommittee on Natural and Economic Resources, the Senate Appropriations Committee on Natural and Economic Resources, and the Fiscal Research Division no later than March 1 of each year.

Finally, the authority of the Committee to enter into additional agreements expires as of January 1, 2006. This will allow the General Assembly an opportunity to review the program after it has been in effect for a few years in order to determine if the program is meeting its objectives.

Miscellaneous changes associated with the program. Sections 7 and 8 of this bill provide exceptions to current law needed to implement the provision of the grant program.

Section 7 allows an exemption from the confidentiality requirements of the Department of Revenue. Generally, the Department of Revenue must keep confidential all information it receives in the course of administering the tax laws. There are numerous, specific exceptions to this requirement. This bill would allow the Department of Revenue to share information with the Economic Investment Committee relating to businesses that are applying for a grant or that are subject to an agreement.

Section 8 allows the Committee an exemption from the rulemaking process.

Industrial Development Fund changes. Section 6 of this bill makes two significant changes to the Industrial Development Fund and to the Utility Account, which is part of that Fund. The Industrial Development Fund provides assistance to local governments for improvements to infrastructure to enable the locality to attract new businesses. Usually, this assistance is provided to make general improvements, such as improvements to or development of industrial parks, and is not tied to luring a specific project.

First, the purposes for which funds in both the Fund and the Account may be used are expanded to allow expenditures for telecommunications and high-speed broadband lines and equipment. Currently funds under both the Fund and the Account may be used for construction of and improvements to water, sewer,

gas, and electricity lines and equipment. This change recognizes the growing importance to industry of telecommunications and high-speed broadband.

Second, under current law, funds in the Utility Account may be used to assist local governments located in enterprise tiers one and two only. This bill would expand the focus of the Account to allow funds in the Account to be used to assist local governments in enterprise tier three as well.

Property Tax Technical Correction. Section 9 of this bill would correct a statutory reference in two laws dealing with the purposes for which a local government may levy a property tax.

Revenue Laws Study. Section 9.1 of this bill requires the Revenue Laws Study Committee to study the use, the effectiveness, and the cost versus benefit of the Job Development Investment Grant Program, the Bill Lee Act, and the Industrial Recruitment Competitive Fund. Given that the Job Development Investment Grant Program is just starting up, the time frame for the study is longer than usual. Revenue Laws may report to the 2004 Regular Session of the General Assembly and a final report is due by March 15, 2005, to the 2005 General Assembly.

A BILL TO BE ENTITLED

AN ACT TO RAISE THE INVESTMENT THRESHOLD FOR THE CREDIT FOR INVESTING IN MACHINERY AND EQUIPMENT; TO ESTABLISH TIERED RATES FOR THE CREDIT FOR INVESTING IN MACHINERY AND EQUIPMENT; TO REQUIRE A TAXPAYER AND ITS RELATED ENTITIES TO SATISFY ANY OUTSTANDING STATE TAX ASSESSMENTS BEFORE RECEIVING A BILL LEE ACT CREDIT; TO MODIFY THE WAGE STANDARD FOR THE CREDIT FOR WORKER TRAINING; TO MODIFY THE WAGE STANDARD FOR ENTERPRISE TIER ONE AND TWO COUNTIES; TO MODIFY THE WAGE STANDARD FOR TAXPAYERS WITH A TAX YEAR OTHER THAN A CALENDAR YEAR; TO TREAT CERTAIN PARCELS OF LAND PARTIALLY LOCATED IN A DEVELOPMENT ZONE AS IF THE ENTIRE PARCEL WERE LOCATED WITHIN THE DEVELOPMENT ZONE; TO ENACT A JOB DEVELOPMENT INVESTMENT GRANT PROGRAM TO PROVIDE ECONOMIC STIMULUS, TO CREATE JOBS, AND TO AID IN THE DEVELOPMENT OF BUSINESS AND INDUSTRIAL PROJECTS AND EXPANSIONS IN NORTH CAROLINA; TO MODIFY THE INDUSTRIAL DEVELOPMENT FUND TO ALLOW FOR EXPENDITURES RELATED TO TELECOMMUNICATIONS AND BROADBAND LINES AND EQUIPMENT AND TO ALLOW FOR EXPENDITURES FROM THE UTILITY ACCOUNT IN ENTERPRISE TIER THREE AREAS; AND TO MAKE A TECHNICAL CORRECTION REGARDING THE AUTHORITY OF A LOCAL GOVERNMENT TO LEVY A PROPERTY TAX FOR ECONOMIC DEVELOPMENT.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 105-129.9(a) and (c) read as rewritten:

"(a) General Credit. – If a taxpayer that has purchased or leased eligible machinery and equipment places them in service in this State during the taxable year,

the taxpayer is allowed a credit equal to ~~seven percent (7%)~~ the applicable percentage of the excess of the eligible investment amount over the applicable threshold. Machinery and equipment are eligible if they are capitalized by the taxpayer for tax purposes under the Code and not leased to another party. In addition, in the case of a large investment, machinery and equipment that are not capitalized by the taxpayer are eligible if the taxpayer leases them from another party. The credit may not be taken for the taxable year in which the machinery and equipment are placed in service but shall be taken in equal installments over the seven years following the taxable year in which they are placed in service. The applicable percentage is as follows:

Area Enterprise Tier	Applicable Percentage
Tier One	7%
Tier Two	7%
Tier Three	6%
Tier Four	5%
Tier Five	4%

...

(c) Threshold. – The applicable threshold is the appropriate amount set out in the following table based on the enterprise tier where the eligible machinery and equipment are placed in service during the taxable year. If the taxpayer places eligible machinery and equipment in service at more than one establishment in an enterprise tier during the taxable year, the threshold applies separately to the eligible machinery and equipment placed in service at each establishment. If the taxpayer places eligible machinery and equipment in service at an establishment over the course of a two-year period, the applicable threshold for the second taxable year is reduced by the eligible investment amount for the previous taxable year.

Area Enterprise Tier	Threshold
Tier One	$ -0-
Tier Two	100,000
Tier Three	200,000

SECTION 4. In addition to heightening the incentive effect of the William S. Lee Quality Jobs and Business Expansion Act in lower-tiered counties, the changes in Section 1 of this act are intended to reduce the cost of the Act and make more revenues available to the State of North Carolina in future years. It is the intent of the General Assembly in making these changes to provide a source of funds that could be used in future years to support other, more targeted economic development programs aimed at helping create new jobs in North Carolina.

SECTION 5.(a) Article 10 of Chapter 143B of the General Statutes is amended by adding a new Part to read:

"Part 2F.

"Job Development Investment Grant Program.

"**§ 143B-437.44. Legislative findings and purpose.**

The General Assembly finds that:

(1) It is the policy of the State of North Carolina to stimulate economic activity and to create new jobs for the citizens of the State by encouraging and promoting the expansion of existing business and industry within the State and by recruiting and attracting new business and industry to the State.

(2) Both short-term and long-term economic trends at the State, national, and international levels have made the successful implementation of the State's economic development policy and programs both more critical and more challenging; and the decline in the State's traditional industries, and the resulting adverse impact upon the State and its citizens, have been exacerbated in recent years by adverse national and State economic trends that contribute to the reduction in the State's industrial base and that inhibit the State's ability to sustain or attract new and expanding businesses.

(3) The economic condition of the State is not static and recent changes in the State's economic condition have created economic distress that requires a reevaluation of certain existing State programs and the enactment of a new program as provided in this Part that are designed to stimulate new economic activity and to create new jobs within the State.

(4) The enactment of this Part is necessary to stimulate the economy, facilitate economic recovery, and create new jobs in North Carolina; and this Part will promote the general welfare and confer, as its primary purpose and effect, benefits on citizens throughout the State through the creation of new jobs, an enlargement of the overall tax base, an expansion and diversification of the State's industrial base, and an increase in revenue to the State and its political subdivisions.

(5) The purpose of this Part is to stimulate economic activity and to create new jobs within the State.

(6) It is not the intent of the General Assembly that grants provided through this Part be used as venture capital funds, business incubator

funds, or business start-up funds or to otherwise fund the initial capitalization needs of new businesses.

(7) Nothing in this Part shall be construed to constitute a guarantee or assumption by the State of any debt of any business or to authorize the taxing power or the full faith and credit of the State to be pledged.

"**§ 143B-437.45. Definitions.**

The following definitions apply in this Part:

(1) Agreement. – A community economic development agreement under G.S. 143B-437.51.

(2) Base years. – The first two complete calendar years following the effective date of an agreement.

(3) Business. – A corporation, sole proprietorship, cooperative association, partnership, S corporation, limited liability company, nonprofit corporation, or other form of business organization, located either within or outside this State.

(4) Committee. – The Economic Investment Committee established pursuant to G.S. 143B-437.48.

(5) Eligible position. – A position created by a business and filled by a new full-time employee in this State during the base years or in subsequent years of a grant.

(6) Full-time employee. – A person who is employed for consideration for at least 35 hours a week, whose wages are subject to withholding under Article 4A of Chapter 105 of the General Statutes, and who is determined by the Committee to be employed in a permanent position according to criteria it develops. The term does not include any person who works as an independent contractor or on a consulting basis for the business.

(7) New employee. – A full-time employee who represents a net increase in the number of the business's employees statewide and who is first employed on the project that is the subject of an agreement. The term includes an employee rehired or called back from a layoff that occurs during or following the base years to a vacant position previously held by that employee or to a new position established during or following the base years.

(8) Related member. – Defined in G.S. 105-130.7A.

(9) Withholdings. – The amount withheld by a business from the wages of employees in eligible positions under Article 4A of Chapter 105 of the General Statutes.

"**§ 143B-437.46. Job Development Investment Grant Program.**

(a) Program. – There is established the Job Development Investment Grant Program to be administered by the Economic Investment Committee. In order to foster job creation and investment in the economy of this State, the Committee may enter into negotiated agreements with businesses to provide grants in accordance with the provisions of this Part. The Committee shall develop criteria to be used in determining

whether the conditions of this section are satisfied and whether the project described in the application is otherwise consistent with the purposes of this Part. Before entering into an agreement, the Committee must find that all the following conditions are met:

(1) The project proposed by the business will create, during the term of the agreement, a net increase in employment in this State by the business.

(2) The project will benefit the people of this State by increasing opportunities for employment and by strengthening this State's economy by, for example, providing worker training opportunities, constructing and enhancing critical infrastructure, increasing development in strategically important industries, or increasing the State and local tax base.

(3) The project is consistent with economic development goals for the State and for the area where it will be located.

(4) A grant under this Part is necessary for the completion of the project in this State.

(5) The total benefits of the project to the State outweigh its costs and render the grant appropriate for the project.

(b) Cap. – The maximum number of agreements the Committee may enter into each fiscal year is 25.

"**§ 143B-437.47. Eligible projects.**

(a) Minimum Number of Eligible Positions. – A business may apply to the Committee for a grant for any project that creates the minimum number of eligible positions as set out in the table below. If the project will be located in more than one enterprise tier area, the location with the highest enterprise tier area designation determines the minimum number of eligible positions that must be created.

Enterprise Tier Area	Number of Eligible Positions
Tier One	10
Tier Two	10
Tier Three	10
Tier Four	20
Tier Five	20

(b) Nonretail Facilities. – A project that consists solely of retail facilities is not eligible for a grant under this Part. If a project consists of both retail facilities and nonretail facilities, only the portion of the project consisting of nonretail facilities is eligible for a grant, and only the withholdings from employees in eligible positions that are employed exclusively in the portion of the project that represents nonretail facilities may be used to determine the amount of the grant. If a warehouse facility is part of a retail facility and supplies only that retail facility, the warehouse facility is not eligible for a grant. For the purposes of this Part, catalog distribution centers are not retail facilities.

(c) Health Insurance. – A business is eligible for a grant under this Part only if the business provides health insurance for all of the full-time employees of the project with respect to which the grant is made. For the purposes of this subsection, a business provides health insurance if it pays at least fifty percent (50%) of the premiums for

health care coverage that equals or exceeds the minimum provisions of the basic health care plan of coverage recommended by the Small Employer Carrier Committee pursuant to G.S. 58-50-125.

Each year that a business receives a grant under this Part, the business must provide with the submission required under G.S. 143B-437.52 a certification that the business continues to provide health insurance for all full-time employees of the project with respect to which the grant is made. If the business ceases to provide health insurance to all full-time employees of the project with respect to which a grant is made, the Committee may amend or terminate the agreement as provided in G.S. 143B-437.53.

(d) Wage Standard. – In order for a business to be eligible for a grant under this Part, the average wage of all jobs at the location with respect to which a grant is made must meet the wage standard set out in G.S. 105-129.4(b). If a project is to be located at more than one location, the average wage of all jobs at a location must meet the wage standard set out in G.S. 105-129.4(b) in order for that location to be included in the agreement.

"**§ 143B-437.48. Economic Investment Committee established.**

(a) Membership. – The Economic Investment Committee is established. The Committee consists of the following members:

(1) The Secretary of Commerce.

(2) The Secretary of Revenue.

(3) The Director of the Office of State Budget and Management.

(b) Unanimous Decision Required. – The Committee may act only upon a unanimous decision of its members.

(c) Conflict of Interest. – It is unlawful for a former member of the Committee to, within two years after the end of service on the Committee, provide services for compensation, as an employee, consultant, or otherwise, to any business or a related member of the business that was awarded a grant under this Part while the former member was serving on the Committee. Violation of this subsection is a Class 1 misdemeanor.

(d) Sunshine. – Meetings of the Committee are subject to the open meetings requirements of Article 33C of Chapter 143 of the General Statutes. All documents of the Committee, including applications for grants, are public records governed by Chapter 132 of the General Statutes, including applicable provisions of that Chapter protecting confidential information.

"**§ 143B-437.49. Applications; fees; reports; study.**

(a) Application. – A business shall apply, under oath, to the Committee for a grant on a form prescribed by the Committee that includes at least all of the following:

(5) An estimate of the total withholdings.
(6) Certification that the business will provide health insurance to all full-time employees of the project.
(7) Information concerning other locations, including locations in other states and countries, being considered for the project and the nature of any benefits that would accrue to the business if the project were to be located in one of those locations.
(8) Information concerning any other State or local government incentives for which the business is applying or that it has an expectation of receiving.
(9) Any other information necessary for the Committee to evaluate the application.
(10) Certification that the project will not be undertaken in North Carolina unless the applicant is awarded a grant.

A business may apply, in one consolidated application in a form and manner determined by the Committee, for a grant on its own behalf as a business and for grants on behalf of the related members of the business who may qualify under this Part.

The Committee will consider an application by a business for grants on behalf of its related members only if the related members for whom the application is submitted have assigned to the business any claim of right the related members may have under this Part to apply for grants individually during the term of the agreement and have agreed to cooperate with the business in providing to the Committee all the information required for the initial application and the agreement, and any other information the Committee may require for the purposes of this Part. The applicant business is responsible for providing to the Committee all the information required under this Part.

If a business applies for a grant on behalf of its related members, the related members included in the application may be permitted to meet the qualifications for a grant collectively by participating in a project that meets the requirements of this Part. The amount of a grant may be calculated under the terms of this Part as if the related members were all collectively one business entity. Any conditions for a grant, other than the number of eligible positions created, apply to each related member who is listed in the application as participating in the project. The grants awarded shall be paid to the applicant business. A grant received under this Part by a business may be apportioned to the related members in a manner determined by the business. In order for an agreement to be executed, each related member included in the application must sign the agreement and agree to abide by its terms.

(b) Application Fee. – When filing an application under this section, the business must pay the Committee a fee of five thousand dollars ($5,000). The fee is due at the time the application is filed. The Committee shall determine the allocation of the fee

imposed by this section among the agencies whose heads make up the Committee. The proceeds of the fee are receipts of the agency to which they are credited.

(c) Reports. – The Committee shall publish a report on the Job Development Investment Grant Program on or before October 31 of each year. The report shall include the following:

(1) A listing of each community economic development agreement negotiated and entered into during the preceding fiscal year, including the cost/benefit analysis conducted by the Committee during the application process, a description of the project, and the amount of the grant made under the agreement during that year.

(3) The number and enterprise tier area of eligible positions created by projects with respect to which grants were awarded.

(4) The wage levels of eligible positions created by projects with respect to which grants were awarded.

(5) The amount of new income tax revenue received from withholdings related to the projects for which grants were awarded.

(7) The effectiveness of the program in recruiting new and expanding businesses.

(8) The environmental impact of businesses that have received grants under the program.

(9) The geographic distribution of grants, by number and amount, awarded under the program.

(d) Study. – The Committee shall conduct a study to determine the minimum funding level required to implement the Job Development Investment Grant Program successfully. The Committee shall report the results of this study to the House of Representatives Finance Committee, the Senate Finance Committee, the House of Representatives Appropriations Subcommittee on Natural and Economic Resources, the Senate Appropriations Committee on Natural and Economic Resources, and the Fiscal Research Division no later than March 1 of each year.

"**§ 143B-437.50. Calculation of minimum and maximum grants; factors considered.**

(a) Subject to the limitations of subsection (d) of this section, the amount of the grant awarded in each case shall be a percentage of the withholdings of eligible positions. The percentage shall be no less than ten percent (10%) and no more than eighty percent (80%) of the withholdings of the eligible positions for a period of years. The percentage used to determine the amount of the grant shall be based on criteria developed by the Committee after considering at least the following:

(1) The number of eligible positions to be created.

(2) The expected duration of those positions.

(3) The type of contribution the business can make to the long-term growth of the State's economy.

(4) The amount of other financial assistance the project will receive from the State or local governments.
(5) The total dollar investment the business is making in the project.
(6) Whether the project utilizes existing infrastructure and resources in the community.
(7) Whether the project is located in a development zone.
(8) The number of eligible positions that would be filled by residents of a development zone.

(d) The percentage established in the agreement shall be reduced by one-fourth for any eligible position that is located in an enterprise tier four or five area.

(e) A business that is receiving any other grant by operation of State law may not receive an amount as a grant pursuant to this Part that, when combined with any other grants, exceeds eighty percent (80%) of the withholdings of the business, unless the Committee makes an explicit finding that the additional grant is necessary to secure the project.

"**§ 143B-437.51. Community economic development agreement.**

Each community economic development agreement shall include at least the following:

(9) A provision that permits the Committee to amend an agreement pursuant to G.S. 143B-437.53.

(10) A provision that requires the business to maintain operations at the project location or another location approved by the Committee for at least one hundred fifty percent (150%) of the term of the grant and a provision to permit the Committee to recapture all or part of the grant at its discretion if the business does not remain at the site for the required term.

(11) A provision that requires the business to maintain employment levels in this State at the level of the year immediately preceding the base years.

(12) A provision establishing the conditions under which the grant agreement may be terminated, in addition to those under G.S. 143B-437.53, and under which grant funds may be recaptured by the Committee.

(13) A provision stating that unless the agreement is amended or terminated pursuant to G.S. 143B-437.53, the agreement is binding and constitutes a pledge and a continuing appropriation of the amount of the grant.

(14) A provision setting out any allowed variation in the terms of the agreement that will not subject the business to amendment or termination of the agreement under G.S. 143B-437.53.

"**§ 143B-437.52. Grant recipient to submit records.**

(a) No later than February 1 of each year, for the preceding grant year, every business that is awarded a grant under this Part shall submit to the Committee a copy of its State and federal tax returns showing business and nonbusiness income and a report showing withholdings as a condition of its continuation in the grant program. In addition, the business shall submit to the Committee an annual payroll report showing the eligible positions that are created during the base years and the new eligible positions created during each subsequent year of the grant. When making a submission under this section, the business must pay the Committee a fee of one thousand five hundred dollars ($1,500). The fee is due at the time the submission is made. The Committee shall determine the allocation of the fee imposed by this section among the agencies whose heads make up the Committee. The proceeds of the fee are receipts of the agency to which they are credited.

(b) The Committee may require any information that it considers necessary to effectuate the provisions of this Part.

(c) The Committee may require any business receiving a grant to submit to an audit at any time.

(d) Grant recipients are encouraged to use the State ports of North Carolina and must include in the report required by subsection (a) of this section a report on the tonnage of any freight moved in ocean-borne commerce through the State ports and through any other United States port. If freight is moved through a United States port other than the State ports, then the report must disclose the reasons for using that port.

"**§ 143B-437.53. Failure to comply with agreement.**

(a) If the business receiving a grant fails to meet or comply with any condition or requirement set forth in an agreement or with criteria developed by the Committee, the Committee may amend the agreement to reduce the amount of the grant or the term of the agreement. Any reduction of the grant is applicable to the grant year immediately following the grant year in which the Committee amends the agreement.

(b) If a business fails to maintain employment at the levels stipulated in the agreement or otherwise fails to comply with any condition of the agreement for any two consecutive years, the Committee may terminate the agreement.

"**§ 143B-437.54. Disbursement of grant.**

A business may not receive an annual disbursement of a grant if, at the time of disbursement, the business or a related member of the business has received a notice of final assessment of State tax due and that assessment has not been satisfied or otherwise resolved. The Committee shall verify this information and certify to the State Controller that the terms of the agreement have been met. The Committee shall further certify to the State Controller the amount of a grant for which the business is eligible under the agreement and the amount of a grant for which the business would be eligible under the agreement without regard to G.S. 143B-437.50(d). At the time the State Controller remits a check to a business under G.S. 143B-437.54, the State Controller shall transfer to the Utility Account of the Industrial Development Fund an amount equal to the amount certified by the Committee as the difference between the amount of the grant and the amount of the grant for which the business would be eligible without regard to G.S. 143B-437.50(d).

"**§ 143B-437.56. Sunset.**

The authority of the Committee to enter into new agreements expires January 1, 2006."

Job hunting

The collapse of North Carolina's manufacturing economy forces new consideration for corporate recruiting incentives.

Nobody likes a shakedown, unless it's the shaker. That's what economic development incentives smell like when they change nothing beyond some company's bottom line. Incentives are particularly galling when the competition driving them ever higher is provoked by corporations themselves.

Now corporate interests and their relocation consultants have convinced Governor Easley and the Department of Commerce that it's going to take cash grants to bring employers here with new jobs. On top of that, North Carolina has watched its film industry head for Canada since the government there started paying U.S. producers 11 percent of their labor costs in cash. "We may not like incentives, but it's a fact of life," state Commerce Secretary Jim Fain told The N&O.

Another fact is that thousands of North Carolinians need jobs to support their families in the wake of 60,000 layoffs last year. Unemployment has changed the economic-development equation enough to justify giving the new incentive proposals a fair hearing.

Two-thirds of last year's layoffs were in manufacturing, mostly textiles because fabrics can be made more cheaply where people work for less money than in the United States. Few expect those jobs to return. In fact, many expect the losses to continue. Not only has rising unemployment devastated individual families, it has proved devastating to the state, too, in lost revenue and added demand for Medicaid and other services. North Carolina has no choice other than to build a new economy atop the ruins of the old one.

The state has long been, and still is, fortunate to have leaders who appreciate the value of a well-trained workforce in recruiting employers and the necessity of spending for higher education. Universities, community colleges and public schools remain the state's ace. Universities also are the prime source of new

schools remain the state's ace. Universities also are the prime source of new technology, which can be transferred to entrepreneurs and used to build more jobs. Financial incentives are most worthwhile when they are used to amplify the strength of North Carolina's work force.

Under the program envisioned by Fain and Governor Easley, the state would refund to eligible companies up to 80 percent of the personal income taxes paid by new job holders. Meanwhile, amounts that can be spent bringing jobs to urban areas would be reduced from what is allowed under the present law. The number of jobs that must be created would be increased and the jobs themselves must represent economic progress.

The General Assembly bears a heavy responsibility for due diligence on this program. Money for incentives won't be there to help the economy in other ways. And businesses whose profits and losses rest on tax breaks and cash from recruiters are not the right foundation for North Carolina's economic future.

Yet a Honeywell aerospace plant expansion that would bring well-paying technical jobs to Rocky Mount, as well as galvanize a new field of learning called mechatronics at N.C. State University, is an example of the kinds of enterprises that could well be worth courting. With the state's highest unemployment rate, the Rocky Mount area surely is an ideal place to plant a new-economy seed.

Companies that have shown a capacity to help improve their communities and their workers deserve an extra measure of consideration when incentives are on the table. Corporate citizenship should count. But in all cases, legislators must convince themselves that the proposed incentives would bring good jobs to North Carolina that wouldn't be offered any other way, and that there is a net benefit to be derived. Even taxpayers weary of corporate shakedowns can support investments in a healthy economy for the future.

Easley putting more Floyd money into escrow account

By MARTHA WAGGONER, Associated Press Writer
August 5, 2002 4:16 pm

BURGAW, N.C. -- Gov. Mike Easley appealed to legislators' better natures Monday, saying he has protected almost $300 million in money meant for Hurricane Floyd relief.

Easley said he put $176 million of Hurricane Floyd money into an escrow account that already holds $120 million. That $120 million is part of the $150 million in Floyd relief money that Easley took to meet a $1.6 billion budget shortfall in the 2001-02 fiscal year.

It was unclear whether Easley's action would have any practical effect on lawmakers writing a budget for the current fiscal year. The Legislature can appropriate any money it deems necessary to balance the budget.

"I don't think there will be an effort to take the money once they realize the needs and obligations have not been fulfilled," Easley told The Associated Press on Monday.

Last week, House budget writers plugged the $120 million already in the account into their proposed state spending plan.

Easley said he controls that money, which can either be used to balance to budget or go back to the original agencies from which he took it.

Some legislators outside the eastern part of the state believe the state has recovered from the hurricane, which struck Sept. 16, 1999, Easley said.

"I'm trying to remind people that the problem is not fixed, that the recovery is still in process," Easley said during a visit to flood-stricken communities in Burgaw and Greenville. "We owe it not only to the victims, but also to our reputation as a state to meet our promises and obligations."

Some progress has been made, he said. When he came into office two years ago, 6 percent of the Floyd projects were finished. That figure is now more than 60 percent. The recovery initiative that once involved 38 state agencies is now one, Easley said.

Easley said his move is not an effort to force legislators to approve a lottery to balance the budget. Legislators can balance the budget however they like, he said, "but they're not going to balance the budget in North Carolina on the backs of the most vulnerable citizens."

Count Cynthia Bivens among those who hopes Easley's plan works. Water stood six feet deep in her yard and more than 3 feet deep in her house in Burgaw. Bivens' home still has no kitchen cabinets. A bedroom has boards for floors, no closets and no walls, only insulation. An exposed bathtub sits to the side.

"It's kind of hard for a housewife to cook with no cabinets," she said.

The $6,000 she received from the Federal Emergency Management Agency was not nearly enough to repair her home, she said.

In Greenville, the governor spoke at Pinecrest Mobile Home Park, with the shells of about 250 gutted mobile homes for a backdrop. Greenville officials said the city council is expected to approve a contract next month to demolish the park.

Vanessa Daniels of Greenville told the governor that she's still owned $16,890 from a rental relocation fund. Curtis Battle said he has lived with his aunt since he escaped the floodwaters.

Battle said Easley's visit and move to protect the Floyd money would make a difference. "The money is there now so it should speed up the process," he said.

Rep. Thomas Wright, D-New Hanover, whose district includes Floyd-afflicted areas, said Easley's decision would have "tough sledding" in the Legislature.

"But there's clear evidence that the job hasn't been completed. ... That will certainly influence their decision," he said outside Sand Hill AME Zion Church where Easley spoke to about 150 Pender County residents. "I think he's done the right thing."

SECTION 2.2.(c) Notwithstanding G.S. 113-36(d), two hundred twenty thousand dollars ($220,000) of the cash balance remaining in the Bladen Lakes State Forest Fund (Budget Code 24300, Fund Code 2221) on July 1, 2002, shall be transferred to the State Controller to be deposited in Nontax Budget Code 19978 (Intra State Transfers). An additional two hundred twenty thousand dollars ($220,000) shall

be transferred on April 1, 2003. These funds shall be used to support General Fund appropriations for the 2002-2003 fiscal year.

SECTION 2.2.(d) Section 2.2(f) of S.L. 2001-424 reads as rewritten:

"**SECTION 2.2.(f)** The transfer of cash from Department of Correction, Budget Code 74500, Fund Code 7100 (Prison Enterprises) to Nontax Budget Code 19978 (Intra State Transfers) shall be increased by one million dollars ($1,000,000), effective July 1, 2001, for the 2001-2002 fiscal year.

The transfer of cash from Department of Correction, Budget Code 74500, Fund Code 7100 (Prison Enterprises) to Nontax Budget Code 19978 (Intra State Transfers) shall be increased by ~~five hundred thousand dollars ($500,000), effective July 1, 2002, for the 2002-2003 fiscal year and for subsequent fiscal years.~~ two million five hundred thousand dollars ($2,500,000), effective July 1, 2002, for the 2002-2003 fiscal year. Of the two million five hundred thousand dollar ($2,500,000) increase for the 2002-2003 fiscal year, five hundred thousand dollars ($500,000) is recurring."

SECTION 2.2.(e) When the Highway Trust Fund was created in 1989, the revenue from the sales tax on motor vehicles was transferred from the General Fund to the Highway Trust Fund. To offset this loss of revenue from the General Fund, the Highway Trust Fund was required to transfer one hundred seventy million dollars ($170,000,000) to the General Fund each year, an amount equal to the revenue in 1989 from the sales tax on motor vehicles. This transfer did not, however, make the General Fund whole after the transfer of the sales tax revenue because no provision has been made to adjust the amount for the increased volume of transactions and increased vehicle prices. The additional eighty million dollars ($80,000,000) transferred from the Highway Trust Fund to the General Fund by this act is an effort to recover a portion of the sales tax revenues that would have gone to the General Fund over the last 13 years.

SECTION 2.2.(f) Notwithstanding G.S. 105-187.9(b)(1), the sum to be transferred under that subdivision for the 2002-2003 fiscal year and for the 2003-2004 fiscal year is two hundred fifty million dollars ($250,000,000).

SECTION 2.2.(g) There is transferred from the Highway Trust Fund to the General Fund the sum of one hundred twenty-five million dollars ($125,000,000) for the 2002-2003 fiscal year. It is the intent of the General Assembly that the Highway Trust Fund shall be held harmless because of this transfer. The General Assembly shall transfer funds from the General Fund back to the Highway Trust Fund during the next five years including interest at the net rate of return generated by the State Treasurer's Short Term Investment Fund.

SECTION 2.2.(h) The General Assembly finds that over the last two fiscal years, the cost of the Medicaid program has increased over a billion dollars. The downturn in the economy has caused an unforeseeable increase in the number of persons eligible for the program. Even with the significant expansion funds appropriated for the increased costs, transfers of funds to meet obligations for the 2001-2002 fiscal year, and significant cost-savings measures imposed by the General Assembly and the Department of Health and Human Services, Medicaid will still need additional State funds next year to cover increased costs.

The General Assembly further finds that due to the downturn in the economy and the loss of jobs in various sectors of the economy, the State must undertake various economic initiatives.

Funds transferred pursuant to this section shall be used only for Medicaid and for economic initiatives.

Notwithstanding G.S. 143-16.4(a2), of the funds credited to the Tobacco Trust Account from the Master Settlement Agreement pursuant to Section 6(2) of S.L. 1999-2 during the 2002-2003 fiscal year, the sum of thirty-two million dollars ($32,000,000) shall be transferred from the Department of Agriculture and Consumer Services, Budget Code 23703 (Tobacco Trust Fund) to the State Controller to be deposited in Nontax Budget Code 19978 (Intra State Transfers) to support General Fund appropriations for the 2002-2003 fiscal year.

Notwithstanding G.S. 143-16.4(a1), of the funds credited to the Health Trust Account from the Master Settlement Agreement pursuant to Section 6(2) of S.L. 1999-2 during the 2002-2003 fiscal year, the sum of forty million dollars ($40,000,000) shall be transferred from the Department of State Treasurer, Budget Code 23460 (Health and Wellness Trust Fund) to the State Controller to be deposited in Nontax Budget Code 19978 (Intra State Transfers) to support General Fund appropriations for the 2002-2003 fiscal year.

Notwithstanding G.S. 143-86.30(c), the Health and Wellness Trust Fund Commission may transfer up to eighteen million dollars ($18,000,000) from the Fund Reserve created in G.S. 143-86.30 to the Health and Wellness Trust Fund nonreserved funds to be expended in accordance with G.S. 143-86.30(d) during the 2002-2003 fiscal year.

Pursuant to Section 2(b) of S.L. 1999-2, eighty million dollars ($80,000,000) of the fifty percent (50%) of the annual installment payment to the North Carolina State Specific Account otherwise transferred and assigned to The Golden L.E.A.F. (Long-Term Economic Advancement Foundation), Inc., during the 2002-2003 fiscal year is transferred to the State Controller to be deposited in Nontax Budget Code 19978 (Intra State Transfers) to support General Fund appropriations for the 2002-2003 fiscal year. The Attorney General shall take all necessary actions to notify the court in the action entitled State of North Carolina v. Philip Morris Incorporated, et al., 98 CVS 14377, in the General Court of Justice, Superior Court Division, Wake County, North Carolina, and the administrators of the State Specific Account established under the Master Settlement Agreement of this action by the General Assembly redirecting this payment.

SECTION 2.2.(i) The funds appropriated in this act from the Insurance Regulatory Fund include an increase of six hundred thousand dollars ($600,000) in recurring funds from the amount appropriated in S.L. 2001-424. These funds shall be used to pay for the costs and expenses incurred by the Department of Justice in the 2002-2003 fiscal year and subsequent fiscal years in representing the Department of Insurance in its regulation of the insurance industry and other related programs and industries in this State that fall under the jurisdiction of the Department of Insurance.

SECTION 2.2.(j) G.S. 7A-11 reads as rewritten:

"**§ 7A-11. Clerk of the Supreme Court; salary; bond; fees; oath.**

The clerk of the Supreme Court shall be appointed by the Supreme Court to serve at its pleasure. The annual salary of the clerk shall be fixed by the Administrative Officer of the Courts, subject to the approval of the Supreme Court. The clerk may appoint assistants in the number and at the salaries fixed by the Administrative Officer of the Courts. The clerk shall perform such duties as the Supreme Court may assign, and shall be bonded to the State, for faithful performance of duty, in the same manner as the clerk of the superior court, and in such amount as the Administrative Officer of the Courts shall determine. He shall adopt a seal of office, to be approved by the Supreme Court. A fee bill for services rendered by the clerk shall be fixed by rules of the Supreme Court, and all such fees shall be remitted to the State ~~treasury, except that charges to litigants for the reproduction of appellate records and briefs shall be fixed and administered as provided by rule of the Supreme Court.~~ treasury. Before entering upon the duties of his office, the clerk shall take the oath of office prescribed by law."

SECTION 2.2.(k) G.S. 7A-20(b) reads as rewritten:

"**§ 7A-20. Clerk; oath; bond; salary; assistants; fees.**

(b) Subject to approval of the Supreme Court, the Court of Appeals shall promulgate from time to time a fee bill for services rendered by the clerk, and such fees shall be remitted to the State ~~Treasurer, except that charges to litigants for the reproduction of appellate records and briefs shall be fixed and administered as provided by rule of the Supreme Court.~~ Treasurer. SECTION 2.2.(l) Of the cash balance of any funds not remitted to the State Treasurer pursuant to G.S. 7A-11 and G.S. 7A-20(b) prior to the effective date of this act, only funds necessary for payroll and existing contractual obligations may be expended. The cash balance of these funds shall be transferred to the General Fund on July 1, 2002.

SECTION 2.2.(m) General Fund availability generated by subsections (j) and (k) of this section is shown in special funds transfers made in subsection (b) of this section.

SECTION 5.1.(b) Decreases in Federal Fund Availability. – If the United States Congress reduces federal fund availability in the Social Services Block Grant below the amounts appropriated in this section, then the Department of Health and Human Services shall allocate these decreases giving priority first to those direct services mandated by State or federal law, then to those programs providing direct services that have demonstrated effectiveness in meeting the federally and State-mandated services goals established for the Social Services Block Grant. The Department shall not include transfers from TANF for specified purposes in any calculations of reductions to the Social Services Block Grant.

If the United States Congress reduces the amount of TANF funds below the amounts appropriated in this section after the effective date of this act, then the Department shall allocate the decrease in funds after considering any underutilization of the budget and the effectiveness of the current level of services. Any TANF Block Grant fund changes shall be reported to the Senate Appropriations Committee on Health and Human Services, the House of Representatives Appropriations Subcommittee on Health and Human Services, and the Fiscal Research Division.

Decreases in federal fund availability shall be allocated for the Maternal and Child Health and Preventive Health Services federal block grants by the Department of Health and Human Services after considering the effectiveness of the current level of services.

SECTION 5.1.(c) Increases in Federal Fund Availability. – Any block grant funds appropriated by the United States Congress in addition to the funds specified in this act shall be expended by the Department of Health and Human Services, with the approval of the Office of State Budget and Management, provided the resultant increases are in accordance with federal block grant requirements and are within the scope of the block grant plan approved by the General Assembly.

SECTION 5.1.(d) Changes to the budgeted allocations to the block grants appropriated in this act and new allocations from the block grants not specified in this act shall be submitted to the Joint Legislative Commission on Governmental Operations for review prior to the change and shall be reported immediately to the Senate Appropriations Committee on Health and Human Services, the House of Representatives Appropriations Subcommittee on Health and Human Services, and the Fiscal Research Division.

SECTION 5.1.(e) The Department of Health and Human Services may allow no-cost contract extensions for up to six months for nongovernmental grant recipients under the TANF Block Grant.

SECTION 5.1.(f) Limitations on Preventive Health Services Block Grant Funds. – Twenty-five percent (25%) of funds allocated for Rape Prevention and Rape Education shall be allocated as grants to nonprofit organizations to provide rape prevention and education programs targeted for middle, junior high, and high school students.

If federal funds are received under the Maternal and Child Health Block Grant for abstinence education, pursuant to section 912 of Public Law 104-193 (42 U.S.C. § 710), for the 2002-2003 fiscal year, then those funds shall be transferred to the State Board of Education to be administered by the Department of Public Instruction. The Department of Public Instruction shall use the funds to establish an Abstinence Until Marriage Education Program and shall delegate to one or more persons the responsibility of implementing the program and G.S. 115C-81(e1)(4). The Department of Public Instruction shall carefully and strictly follow federal guidelines in implementing and administering the abstinence education grant funds.

The Department of Health and Human Services shall contract for the follow-up testing involved with the Newborn Screening Program. The Department may contract for these services with an entity within or outside of the State; however, the Department may only contract with an out-of-state entity if it can be demonstrated that there is a cost-savings associated with contracting with the out-of-state entity. The contract amount shall not exceed twenty-five thousand dollars ($25,000). The amount of the contract shall be covered by funds in the Maternal and Child Health Block Grant.

SECTION 5.1.(g) The Department of Health and Human Services, Division of Social Services, shall do the following:

The Division of Social Services may use up to two hundred fifty thousand dollars ($250,000) in TANF funds to complete the evaluation of Work First.

SENIOR PRESCRIPTION DRUG ACCESS PROGRAM

SECTION 6.8.(a) Notwithstanding G.S. 147-86.30, the Health and Wellness Trust Fund Commission may for the fiscal year 2002-2003 expend not more than three million dollars ($3,000,000) of the funds reserved pursuant to G.S. 147-86.30(c) to develop and implement a Senior Prescription Drug Access Program. As used in this section, the term "senior" means an individual age 65 years and older. The purpose of the Program is to reduce costs of and improve access to and use of prescription drugs by:

(1) Providing one-on-one assistance to seniors and low-income citizens in accessing public and private prescription drug assistance programs.

(2) Making available pharmacist evaluators to review all prescriptions and to provide face-to-face counseling for seniors to promote compliance and identify potential adverse effects from interactions among the prescribed drugs.

(3) Utilizing software currently licensed by the Department of Health and Human Services to guide patients through the complexities of all drug coverage options, including drug acquisition through low-cost or discount drug programs provided through manufacturer's card programs, and by government programs.

Drug acquisition services under the Program shall be available to senior citizens and to low-income citizens eligible for assistance under these public and private prescription drug programs. Counseling services provided by the Program shall be available to senior citizens age 65 and older. There shall be no fee for Program medication counseling services to seniors who are Medicaid recipients and seniors enrolled in Carolina CARxES. The Commission may authorize a reasonable fee to be charged by the pharmacist evaluator to other seniors using medication counseling services,

provided that the fee is charged on a sliding scale based on individual or family income. In no event may the fee exceed the actual cost of the service provided. The Commission shall consult with other State agencies and public and private entities to avoid duplication and enhance cooperation and collaboration in providing Program services. In allocating funds under the Program, the Commission shall consider diversity of populations served, geographic representation, and increasing community capacity to respond to health needs. The Commission may phase in the availability of services such that initially all geographic regions of the State have services available.

SECTION 6.8.(b) In developing and implementing the Senior Prescription Drug Access Program, the Commission may do the following:

(1) Establish a centralized database with linkages to Medicaid databases to enable review of each participant's prescription drug regimen and to ensure quality of services, quality of care, and cost-effectiveness. The database shall comply with all State and federal privacy protection requirements and shall be accessible only to participating pharmacists, primary care physicians, and case managers.

(2) Use reserved funds authorized under this section to contract with public and private entities to provide prescription drug assistance services.

(3) Use reserved funds authorized under this section to award grants to applicants eligible under G.S. 147-86.31 to receive grant funds. Grant funds may be used to subsidize costs of hiring and training staff to operate drug acquisition software.

SECTION 6.8.(c) The Commission shall provide for ongoing evaluation of the Program to measure its usage and effectiveness. The Commission shall include in its annual report required under G.S. 147-86.35 the use of funds for and activities of the Senior Prescription Drug Access Program and the results of its Program evaluation. The report shall include data on the number of persons who received services, fees authorized, and the geographic distribution of Program services.

"**SECTION 28.17.(i)** The Joint Legislative Education Oversight Committee shall study the State's testing program. As part of this study, the Committee shall consider:

(1) The number of tests currently mandated at the State level and the process and cost of developing, validating, and scoring them.

(2) Whether the State should consider the use of nationally developed tests as a substitute to State-developed testing. In particular, the Committee shall determine whether this use would (i) affect the ABCs Program, (ii) adequately measure student achievement and performance, (iii) provide more than minimum levels of achievement, (iv) provide a better comparison to student achievement and performance in other states, (v) be practical for high school courses or higher level courses, (vi) reduce the need for field testing, and (vii) offer any cost savings to the State.

(3) The number of grades in which State tests are given. (4) The high school courses for which State tests are given and whether there is an appropriate distribution of tests across grades nine through 12 and that test an appropriate array of the minimum courses required for admission to the constituent institutions of The University of North Carolina. In addition, the Committee shall examine whether students who take higher level courses and students in 12th grade are held accountable for their academic growth and performance.

(5) The advantages and disadvantages of using a composite of end-of-course tests or other tests such as the SAT, AP tests, or other nationally standardized tests in high school rather than developing a high school exit exam. If the Committee finds a high school exit exam is preferable, then it shall determine whether it must be administered to all students or limited to certain students, for example, those who do

not take the SAT or a certain number of courses for which there are end-of-course tests.

(6) The extent to which additional testing, including field testing, practice testing, and locally mandated testing, is occurring and whether this should be limited or prohibited.

(7) Evaluate alternative schools to determine how educational achievement is being advanced in these alternative school programs and that placement in these programs is to improve student performance rather than improve the performance of the school in which the student originally was assigned.

(8) Any other issue the Committee considers relevant.

The Committee shall report its findings and any recommendations, including recommended legislation, to the ~~2002 Regular Session of the 2001 General Assembly.~~2003 General Assembly."

ALL COUNTIES TRANSFERRING SAFEKEEPERS TO THE DEPARTMENT OF CORRECTION TO REIMBURSE DEPARTMENT REGARDLESS OF SAFEKEEPERS' RESIDENCY

SECTION 17.1. G.S. 162-39(c) reads as rewritten:

"(c) The sheriff of the county from which the prisoner is removed shall be responsible for conveying the prisoner to the jail or prison unit where he is to be held, and for returning him to the common jail of the county from which he was transferred. The return shall be made at the expiration of the time designated in the court order directing the transfer unless the judge, by appropriate order, shall direct otherwise. The sheriff or keeper of the jail of the county designated in the court order, or the officer in charge of the prison unit designated by the Secretary of Correction, shall receive and release custody of the prisoner in accordance with the terms of the court order. If a prisoner is transferred to a unit of the State prison system, the county from which the prisoner is transferred shall pay the Department of Correction for maintaining the prisoner for the time designated by the court at the per day, per inmate rate at which the Department of Correction pays a local jail for maintaining a prisoner. The county shall also pay the Department of Correction for the costs of extraordinary medical care incurred while the prisoner was in the custody of the Department of Correction, defined as follows:

(1) Medical expenses incurred as a result of providing health care to a prisoner as an inpatient (hospitalized);

(2) Other medical expenses when the total cost exceeds thirty-five dollars ($35.00) per occurrence or illness as a result of providing health care to a prisoner as an outpatient (nonhospitalized); and

(3) Cost of replacement of eyeglasses and dental prosthetic devices if those eyeglasses or devices are broken while the prisoner is incarcerated, provided the prisoner was using the eyeglasses or devices at the time of his commitment and then only if prior written consent of the county is obtained by the Department.

~~However, a county is not required to reimburse the State for maintaining a prisoner who was a resident of another state or county at the time he committed the crime for which he is imprisoned.~~ If the prisoner is transferred to a jail in some other county, the county from which the prisoner is transferred shall pay to the county receiving the prisoner in its jail the actual cost of maintaining the prisoner for the time designated by the court. Counties are hereby authorized to enter into contractual agreements with other counties to provide jail facilities to which prisoners may be transferred as deemed necessary under this section.

Whenever prisoners are arrested in such numbers that county jail facilities are insufficient and inadequate for the safekeeping of such prisoners, the resident judge of the superior court or any superior or district court judge holding court in the district may order the prisoners transferred to a unit of the State Department of Correction designated by the Secretary of Correction or his authorized representative, where the prisoners may be held for such length of time as the judge may direct, such detention to be in cell separate from that used for imprisonment of persons already convicted of crimes, except when admission to an inpatient prison medical or mental health unit is required to provide services deemed necessary by a prison health care clinician. The sheriff of the county from which the prisoners are removed shall be responsible for conveying the prisoners to the prison unit or units where they are to be held, and for returning them to the common jail of the county from which they were transferred. However, if due to the number of prisoners to be conveyed the sheriff is unable to provide adequate transportation, he may request the assistance of the Department of Correction, and the Department of Correction is hereby authorized and directed to cooperate with the sheriff and provide whatever assistance is available, both in vehicles and manpower, to accomplish the conveying of the prisoners to and from the county to the designated prison unit or units. The officer in charge of the prison unit designated by the Secretary of Correction or his authorized representative shall receive and release the custody of the prisoners in accordance with the terms of the court order. The county from which the prisoners are transferred shall pay to the Department of Correction the actual cost of transporting the prisoners and the cost of maintaining the prisoners at the per day, per inmate rate at which the Department of Correction pays a local jail for maintaining a prisoner, provided, however, that a county is not required to reimburse the State for transporting or maintaining a prisoner who was a resident of another state or county at the time he was arrested. However, if the county commissioners shall certify to the Governor that the county is unable to pay the bill submitted by the State Department of Correction to the county for the services rendered, either in whole or in part, the Governor may recommend to the Council of State that the State of North Carolina assume and pay, in whole or in part, the obligation of the county to the Department of Correction, and upon approval of the Council of State the amount so approved shall be paid from Contingency and Emergency Fund to the Department of Correction.

When, due to an emergency, it is not feasible to obtain from a judge of the superior or district court a prior order of transfer, the sheriff of the county and the Department of Correction may exercise the authority hereinafter conferred; provided, however, that the

sheriff shall, as soon as possible after the emergency, obtain an order from the judge authorizing the prisoners to be held in the designated place of confinement for such period as the judge may direct. All provisions of this subsection shall be applicable to municipalities whenever prisoners are arrested in such numbers that the municipal jail facilities and the county jail facilities are insufficient and inadequate for the safekeeping of the prisoners. The chief of police is hereby authorized to exercise the authority herein conferred upon the sheriff, and the municipality shall be liable for the cost of transporting and maintaining the prisoners to the same extent as a county would be unless action is taken by the Governor and Council of State as herein provided for counties which are unable to pay such costs."

WATER RESOURCES DEVELOPMENT PROJECTS/USE DREDGE SPOILS TO NOURISH BEACH

SECTION 29.2.(a) The General Assembly finds that North Carolina is the tenth largest exporting state in the nation and that water resources development projects are vital to the economy of the State. North Carolina State Ports facilities, notably those in Wilmington, provide gateways to the global marketplace for North Carolina's importers and exporters. The State's ports annually generate thousands of jobs and millions of dollars in State and local taxes.

The General Assembly further finds that the ports are also invaluable assets to the communities that each serves. For example, according to the North Carolina State Ports Authority, nearly seven billion dollars ($7,000,000,000) worth of goods, or nineteen million dollars ($19,000,000) a day, were handled at the Port of Wilmington in 1997. The harbor improvements in Wilmington, provided for in subsection (b) of this section, are projected to add thirty-four million dollars ($34,000,000) in annual regional benefits.

The General Assembly also finds that particularly in times of heightened national and local security, the water resources projects provide strategic mobilization benefits to the Port of Wilmington and to the Military Ocean Terminal at Sunny Point.

SECTION 29.2.(b) The Department of Environment and Natural Resources shall allocate the funds appropriated in this act for water resources development projects to the following projects whose costs are as indicated:

Name of Project	**2002-2003**

(23)	Planning Assistance to Communities	150,000
TOTAL		**$31,248,000**

SECTION 29.2.(c) Where the actual costs are different from the estimated costs under subsection (b) of this section, the Department may adjust the allocations among projects as needed. If any projects listed in subsection (b) of this section are delayed and the budgeted State funds cannot be used during the 2002-2003 fiscal year, or if the projects listed in subsection (b) of this section are accomplished at a lower cost, the Department may use the resulting fund availability to fund any of the following:

(1) Corps of Engineers project feasibility studies.

(2) Corps of Engineers projects whose schedules have advanced and require State-matching funds in fiscal year 2002-2003.

(3) State-local water resources development projects.

Funds not expended or encumbered for these purposes shall revert to the General Fund at the end of the 2003-2004 fiscal year.

SECTION 29.2.(d) The Department shall make quarterly reports on the use of these funds to the Joint Legislative Commission on Governmental Operations, the Fiscal Research Division, and the Office of State Budget and Management. Each report shall include all of the following:

(1) All projects that receive funding.

(2) The estimated cost of each project.
(3) The date that work on each project began or is expected to begin.
(4) The date that work on each project was completed or is expected to be completed.
(5) The actual cost of each project.

The quarterly reports shall also show those projects advanced in schedule, those projects delayed in schedule, and an estimate of the amount of funds expected to revert to the General Fund.

SECTION 29.2.(e) Notwithstanding G.S. 143-23, if additional federal funds that require a State match are received for water resources projects or for beach nourishment projects for the 2002-2003 fiscal year, the Director of the Budget may, after consultation with the Joint Legislative Commission on Governmental Operations, transfer funds from General Fund appropriations to match the federal funds.

SECTION 29.2.(f) G.S. 113A-118.1 is amended by adding a new subsection to read:

"(e) The Commission shall allow the use of riprap in the construction of groins in estuarine and public trust waters on the same basis as the Commission allows the use of wood."

SECTION 29.2.(g) The Coastal Resources Commission shall not enforce any provision of any rule that is inconsistent with G.S. 113A-118.1(e), as enacted by this act, and the Commission shall amend its rules as may be required to conform with G.S. 113A-118.1(e), as enacted by this act.

SECTION 29.2.(h) G.S. 113-229(h1) reads as rewritten:

"(h1) ~~All~~ Except as provided in subsection (h2) of this section, all construction and maintenance dredgings of beach-quality sand may be placed on the affected downdrift ocean beaches or, if placed elsewhere, an equivalent quality and quantity of sand from another location shall be placed on the downdrift ocean beaches."

SECTION 29.2.(i) G.S. 113-229 is amended by adding a new section to read:

"(h2) Clean, beach quality material dredged from navigational channels within the active nearshore, beach or inlet shoal systems shall not be removed permanently from the active nearshore, beach or inlet shoal system. This dredged material shall be disposed of on the ocean beach or shallow active nearshore area where it is environmentally acceptable and compatible with other uses of the beach."

SECTION 29.2.(j) G.S. 113-229(i) reads as rewritten:

"(i) Subject to ~~subsection (h1)~~ subsections (h1) and (h2) of this section, all materials excavated pursuant to such permit, regardless of where placed, shall be encased or entrapped in such a manner as to minimize their moving back into the affected water."

Re: Special Provision: Contributions to Registers of Deeds' Supplemental Pension Fund

Dear Mr. Moore:

This provision provides that notwithstanding G.S. 161-50.2, each County Commission may suspend making monthly payments to the Registers of Deeds' Supplemental Pension Fund for the 2002-03 fiscal year. Currently, each County Commission remits monthly an amount equal to 4.5% of the receipts collected pursuant to Article 1 of Chapter 161 of the General Statues.

Each register of deeds who retires from the Local Governmental Employees' Retirement System (LGERS) with at least 10 years of eligible service as a register of deeds receives a supplemental benefit from this Fund. The amount of benefit is based on a pro rata share of plan assets for each year of eligible service. The Fund provides a maximum benefit equal to 75% of a register of deed's final salary less the LGERS benefit, but in no case will the Fund provide a benefit exceeding $1,200 per month.

Based on the information you provided, current contributions to the Fund are $2.2 million per year. Fund assets are approximately $14 million, and the Fund is providing benefits of approximately $63,000 per month to retirees. Elimination of contributions for the next fiscal year is not expected to adversely impact the Fund or the beneficiaries.

If you have any questions, let me know.

Sincerely,

Mark Hartman

Proposed Amendment

Dear Mr. Williamson:

We have received your email of August 7 regarding a proposed amendment which affects the Registers of Deeds' Supplemental Pension Fund.

This proposed amendment appears to allow each county commission in the state to suspend making payments to the Registers of Deeds' Pension Fund for the 2002-2003 fiscal year.

The suspension of contributions to the Fund for the 2002-2003 fiscal year will not impact the Fund's ability to make benefit payments to retired registers of deeds for the 2002-2003 fiscal year. However, these contributions will need to be repaid with interest, through increased contributions to the Fund in the future.

If we can be of further assistance with regard to this legislation, please do not hesitate to contact us.

Sincerely,

Edward A. Macdonald

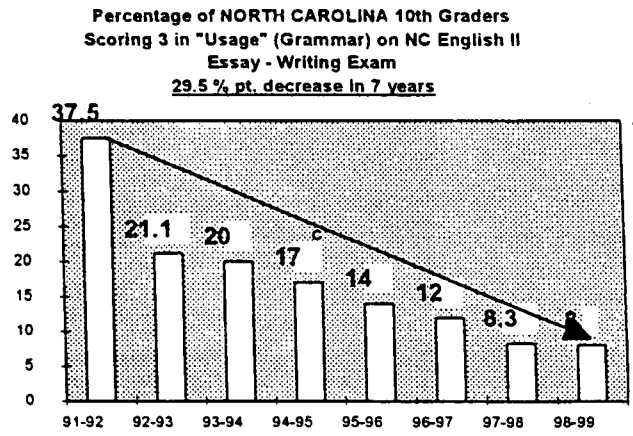
CHARLOTTE-MECKLENBURG PTA COUNCIL, EDUCATION COMMITTEE

Education Issues *Brief*

How Well Are NC Students Learning To Write?

Every year North Carolina tests students in grades 4, 7 and 10 to determine whether or not their writing is improving. There are two elements of all the tests: the essay and a combination of grammar, mechanics, and spelling. Test scores suggest that for 8 years NC students have been making steady small improvements in the quality of their compositions. However, their tenth grade scores have been going downhill on "the conventions" — grammar, mechanics, spelling and sentence formation; and it is difficult for anyone to know either what they do well or what they do poorly on the 4th and 7th grade test.

In grades four and seven, students write an essay in response to a prompt — a set of instructions for responding to a suggested topic. The state scores the essay on a four-point scale based on how well the essay demonstrates the presence of a main idea, supporting details, organization, and coherence. However, all that a parent or teacher sees about grammar, mechanics, and spelling for a fourth or seventh grader is a plus (+) indicating "reasonable control" in this area or a "minus " (-) supposedly indicating inadequate control.



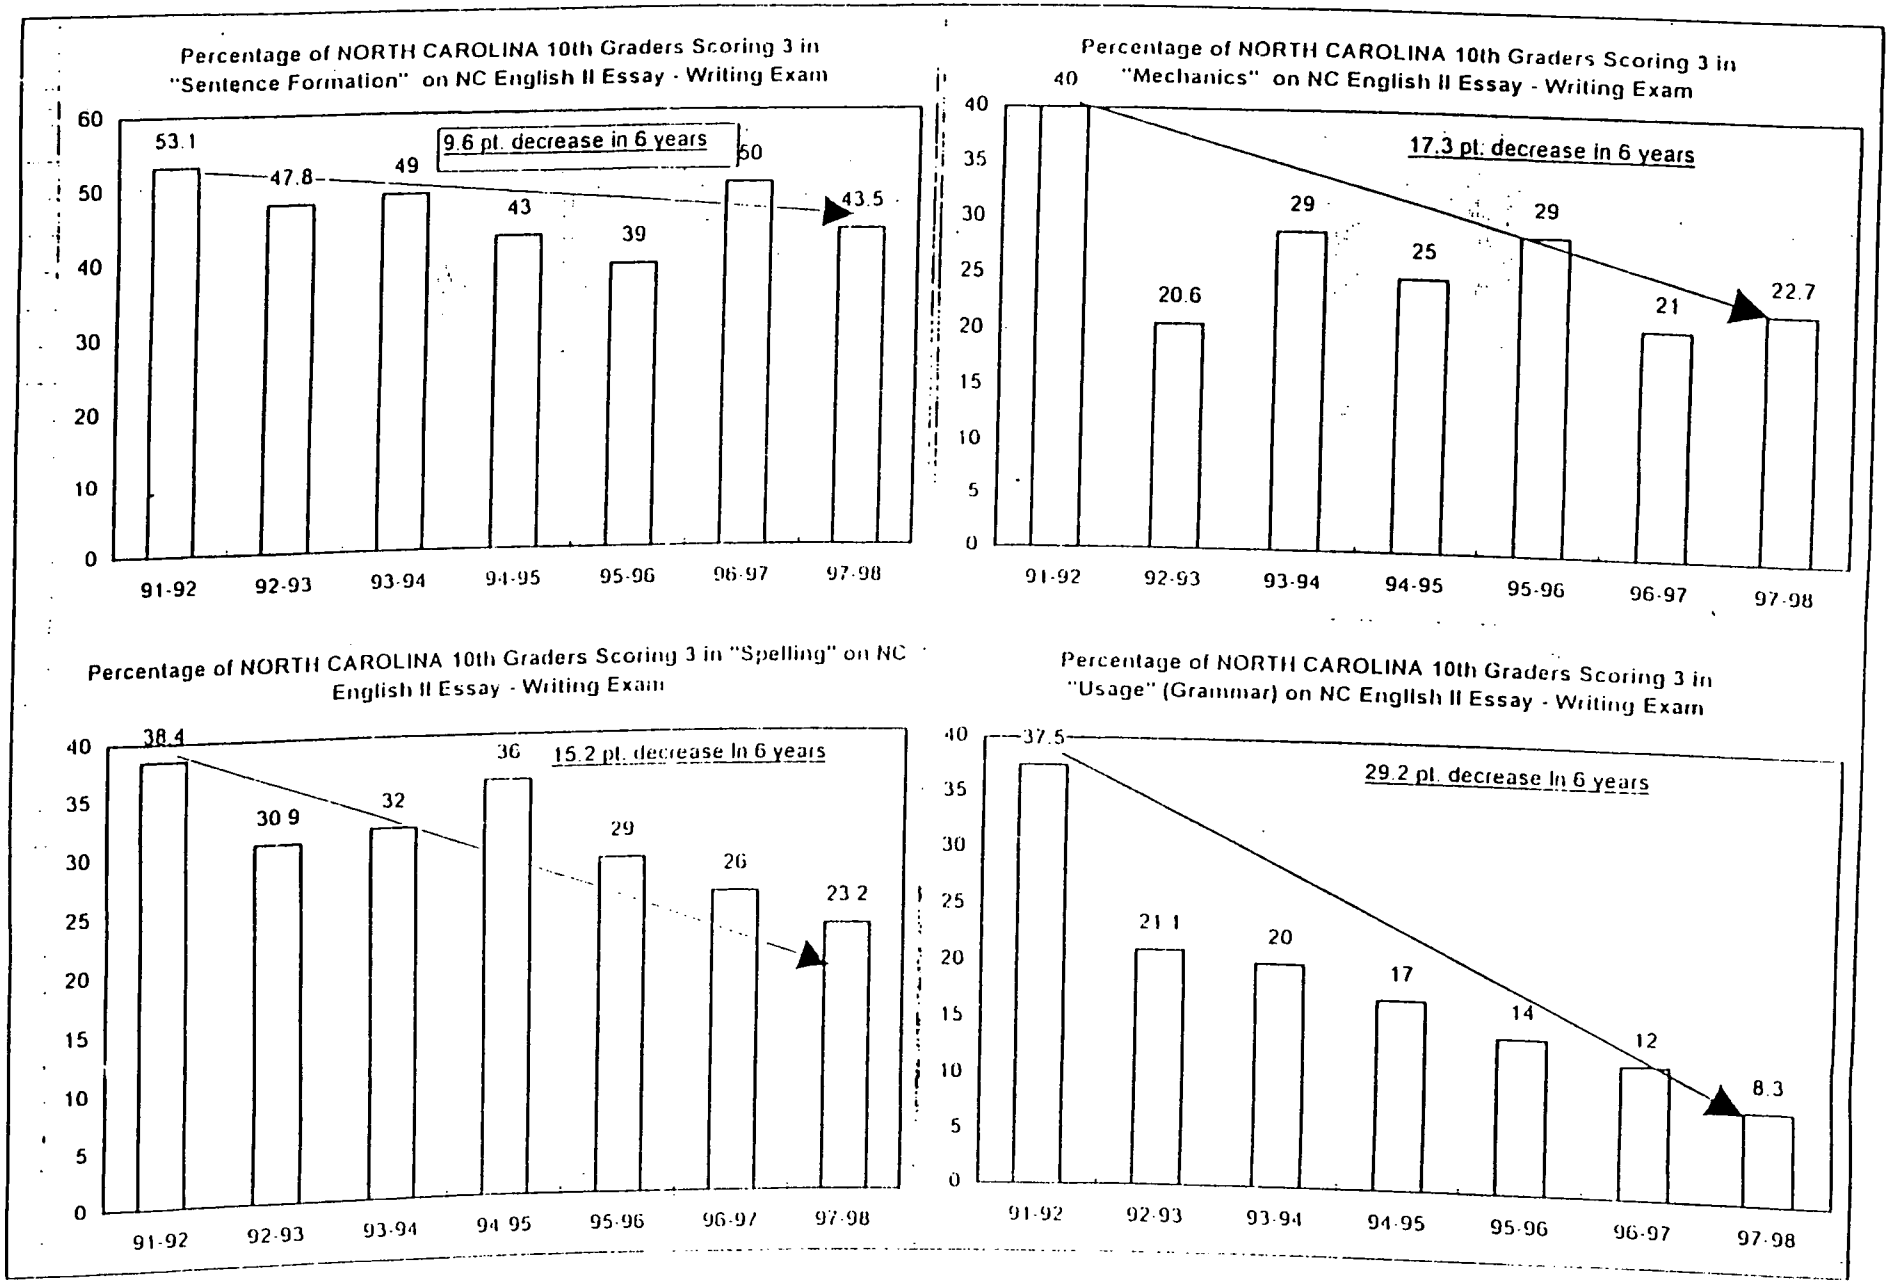
For the tenth grade writing test, the state requires students to respond to a prompt with an essay about a piece of literature they have read. The essay itself is scored on a six-point scale. Tenth grade essays are also scored more formally on a three-point scale in spelling, grammar, mechanics and sentence formation. *(Continued on page 3)*

Grammar Usage

For several years, many parents and teachers have expressed concern about grammar instruction and what students are learning. Parents frequently ask if students are taught the "parts of speech" anymore.

It appears that the concerns expressed have been well-founded. Student achievement in usage on the tenth grade writing test indicates an alarming 30 **percentage point decline in seven years.**

92% of North Carolina's tenth grade students appear to lack these most basic and expected grammar usage skills after eleven years of formal education.

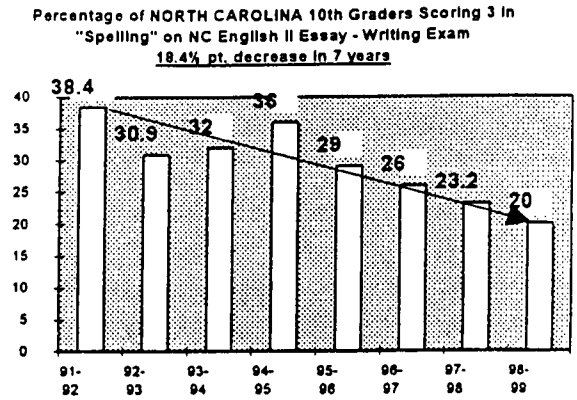


Major Errors

- "Everyone, no matter how many obstacles occur, want to succeed."
- "He has went to school."
- "He called Mary hisself."
- "He didn't do nothing to ac complish the task."
- "Their going to town."
- "We can help the one's in prison."

From the NC DPI Scoring Guide

Tenth Grade NC Student Performance In Basic Conventions From 1992 Through 1998



Data compiled by Margaret W. Carnes, CMPTA Council, 704 545 4719

Spelling Performance in Tenth Grade

Prior to the early 1990s, most students in North Carolina were taught spelling as a separate subject . Students had assigned spelling books for each grade level. Spelling "rules" and "patterns" were taught in an organized, systematic fashion.

In the early 90s, the North Carolina reading and language arts curriculum was changed and reflected a very different philosophy and approach to spelling instruction.

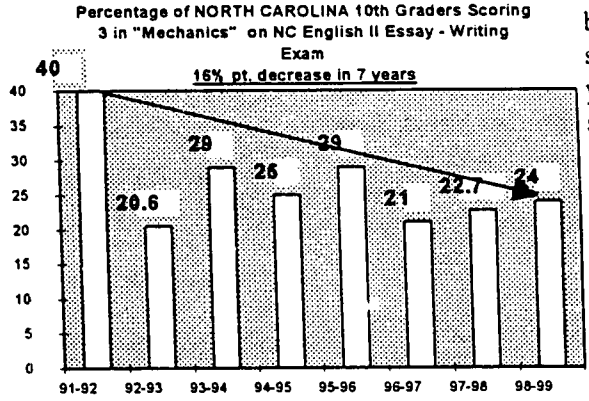
Spelling books were removed from most classrooms and teachers were instructed not to teach spelling as a separate subject. The intention was that spelling instruction would be integrated into writing and other areas of instruction with extra focus provided through the editing process.

Unfortunately, **80% of the tenth graders in North Carolina have reached high school without mastering the ability to spell familiar words** they use in daily conversations and writing.

Major Errors

Major errors include patterns of misspellings of common words, frequent misspellings of advanced words or incorrect pluralization.

- "freind" for friend or "radioes" for radios



From the NC DPI Scoring Guide

Student achievement in 'usage' on the tenth grade writing test indicates an alarming 30 percentage point decline in 7 years."

Mechanics

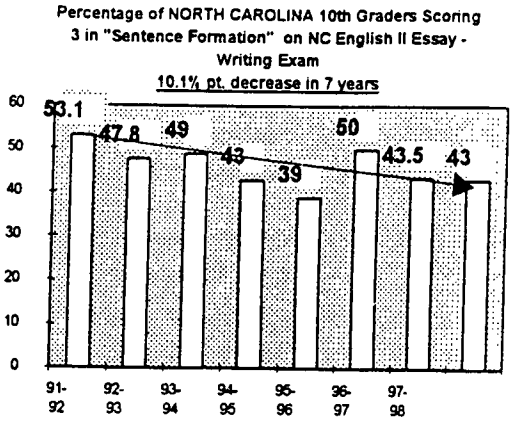
Mechanics skills include capitalization of proper nouns and the first word in a sentence, end punctuation, internal punctuation (commas, quotation marks, semi-colon, colon, hyphens), paragraph indentation and formatting.

The basic skills measured under the "mechanics" heading, should be automatic and second nature to tenth grade students. Instruction in these basics usually begins in the first or second grade. If students are expected to apply what they learn in their daily writing at each grade level, scoring a 3 by their sophomore year in high school is a reasonable expectation.

1998-99 test data indicate **76% of NC 10th graders failed to score a 3** in the application of basic mechanics in their writing products.

In addition, there has been a **16 percentage point decline in students earning a three in this area over the past 7 years**.

Major Errors



- George eats Apples and Bananas every day.
- John went to play golf with his cousin, and me.
- Tom said go to the store".
- My sister is tall; thin; and pretty.
- I like my bed-room.

Taken from the NC DPI Scoring Guide.

How About Sentence Formation?

Student essays written for the NC Tenth Grade Writing Test are graded for correct sentence formation. As with the other three scored "convention" areas, learning to write a complete sentence is one of the earliest writing skills students are taught.

While a 10 percentage point decline in students scoring three in this area is noted, more students demonstrate success in writing correct and complete sentences when compared to performance in other conventions.

Major Errors

- After we got home. (Fragment)
- After eating lunch, the train left the station. (Misplaced or dangling modifier)
- It is too cold, and I go to school. (Incorrect subordination or coordination.)
- They supported purchasing the house, to destroy the building, and reconstructing an office. (Non-parallel structure)

From the NC DPI Scoring Guide

How Well Are NC Students Learning the Mechanics of Writing?

Continued from the front page

"One of the most troubling aspects...is the lack of information reported to parents about their child's performance in this area of state testing."

Expectations in spelling, grammar usage, punctuation, and capitalization reflect basic skills which are typically taught in elementary school. Performance on the tenth grade writing test is actually a reflection of what students have learned about writing in all their years of schooling.

Tenth grade student writing products receive a score of 1, 2, or 3 in each of the "conventions" areas. Most people agree that it is reasonable to expect high school students to score a 3 in spelling, grammar usage, punctuation and sentence formation after eleven years of formal education.

Unfortunately, the majority of the NC tenth graders have not mastered these "basic skills," and they are only a few years away from college or employment. Employers indicate this is a problem. Many students that go on to college find it necessary to take non-credit "grammar slammer" remediation courses to fill in basic skill gaps.

One of the most troubling aspects of this student achievement issue is the lack of information reported to parents about their child's performance in this area of state testing.

A plus (+) or minus (-) on the fourth and seventh grade Writing Test Report doesn't tell parents if their child's writing demonstrates subject-verb agreement or understands the "double the final consonant rule" in spelling.

As it stands today, high school parents do not receive a formal report to explain their child's performance on the tenth grade writing test. The information is available if requested.

NC Writing Test scores may show some degree of improvement in composition over the years but the disturbing downhill trend in grammar usage, spelling , sentence formation and mechanics is cause for concern and needs to be addressed.

Composing with vivid details and elaboration is important. Writing that demonstrates creative thought and "paints a mental picture" for the reader is certainly desirable. However, in the everyday world, the technical skills that support effective written and oral communication can make-or-break our young people.

moves to amend the bill on page 71, line 33,
by adding the following on the line:
"Requested by: Representative Baker
BOG PAY REIMBURSEMENT TO LOCAL GOVERNMENTS

SECTION 9.16.(a) Of the funds appropriated in this act to the Board of Governors of The University of North Carolina for university institutional programs for the 2002-2003 fiscal year, the Board of Governors shall reduce by one hundred twelve million dollars ($112,000,000) the amount allocated to the constituent institutions. This reduction shall be allocated among the constituent institutions in proportion to the amount of overhead receipts each institution is projected to receive in the 2002-2003 fiscal year. Each constituent institution shall budget this amount of overhead receipts to support operation of its physical plant in its General Fund budget codes. The Board of Governors shall distribute this sum of one hundred twelve million dollars ($112,000,000) in General Fund appropriations among local governments in accordance with the list of local governments and distribution amounts provided to it by the Secretary of Revenue pursuant to subsection (b) of this section. The Board of Governors shall make the distribution as soon as practicable after receiving the list from the Secretary of Revenue.

SECTION 9.16.(b) The definitions provided in G.S. 105-521 apply in this section. As soon as practicable after September 15, 2002, the Secretary of Revenue must provide the Board of Governors of The University of North Carolina a list of local

governments and distribution amounts calculated as provided in this section. The Secretary of Revenue must determine for each local government the product of its local sales tax share multiplied by the estimated amount that all local governments would be expected to receive during the 2002-2003 fiscal year if every county levied the tax under G.S. 105-517 effective January 1, 2003. The Secretary must then add to this estimated tax amount for each local government the amount the local government is entitled to receive under Section 1.16 of Senate Bill 1292, 2001 General Assembly. The result is the estimated potential income for each local government under Senate Bill 1292. The Secretary must then compare this estimated potential income for each local government to the local government's repealed reimbursement amount. If the repealed reimbursement amount is more than the estimated potential income amount for a local government, the excess is that local government's potential loss amount under Senate Bill 1292. The Secretary must calculate a distribution amount for each local government that has a potential loss amount under Senate Bill 1292 by allocating the sum of one hundred twelve million dollars ($112,000,000) among these local governments in proportion to each local government's potential loss amount. The Secretary must then provide to the Board of Governors of The University of North Carolina a list of each local government that has a potential loss amount under Senate Bill 1292 and the distribution amount for that local government."

House Appropriations Co-Chair Representative David Redwine called the Appropriations Committee meeting to order at 8:40 am for the purposes of considering **S 1232, Fire and Rescue Amendment; H 1040, Temporary Extended Unemployment Benefits; H 1766, Mounted Horse/Caisson Patrol Unit; and S 1238, Withdrawn Retirement Service.**

Co-Chair Redwine recognized bill sponsor Senator John Kerr to explain **S 1232, Fire and Rescue Amendment** and a copy of the Legislative Actuarial Note prepared by Stanley Moore of the Fiscal Research Division was made available to the membership (attached). Senator Kerr explained the bill allows present members of the Firemen's and Rescue Squad Workers' Pension Fund with ten or more years of service to continue membership by making contributions of $10 per month in the event that the volunteer department is taken over by a city or county. Representative Julia Howard moved to give the bill a favorable report and was unanimous by voice vote.

Co-Chair Representative Gregg Thompson recognized Representative Redwine to explain **H 1040, Temporary Extended Unemployment Benefits**. He moved the adoption of the proposed committee substitute (PCS) and motion passed by voice vote. He then explained that the proposed committee substitute would amend state law to provide the necessary "on indicator" thus making workers eligible for an additional 13 weeks of federally funded unemployment benefits. Federal legislation was signed in to law March 9, 2002 due to national economic conditions. By voice vote the motion by Representative Joe Tolson to give the house committee substitute bill a favorable report passed.

Co-Chair Redwine recognized bill sponsor Representative Martin Nesbitt to explain **H 1766, Mounted Horse/Caisson Patrol Unit**. He moved to adopt the proposed committee substitute for purposes of discussion and the motion carried by voice vote. Representative Nesbitt explained the unit would be established in Marshall, NC and the unit would be under the command of the Special Operations Section of the State Highway Patrol to function as a horse-drawn caisson procession at the funeral services of certain law enforcement personnel and other fallen heroes. Crime Control and Public Safety would have the authority to accept grants, contributions and gifts and shall be used to fund the operations of the unit. The bill would take effect July 2003 in order to get the funds needed. Representative Verla Insko offered an amendment to add the words "and heroines", which passed by voice vote. Representative Larry Justus' motion to favorably report the house committee substitute passed by voice vote.

Co-Chair Redwine recognized bill sponsor Senator Dalton to explain **S 1238, Withdrawn Retirement Service**. Senator Dalton stated that the bill would allow any member of the Local Governmental Employees' Retirement system with five or more years of service to purchase the withdrawn service by paying the amount withdrawn plus 6 1/25 interest compounded annually from year of withdrawal to year of repayment. He referred the members of the committee to the Legislative Actuarial Note (attached) prepared by Stanley Moore of the Fiscal Research Division. Representative Russell Tucker asked to handle the bill on the floor. Representative Bill Owens moved to favorably report the bill. By a voice vote the motion passed and the meeting was adjourned at 10:40 am.

LEGISLATIVE ACTUARIAL NOTE

BILL NUMBER: Senate Bill 1232

SHORT TITLE: Firemen and Rescue Workers Pension Fund

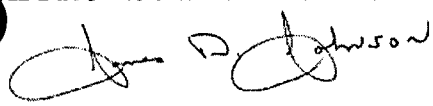
SPONSOR(S): Senator Kerr

SYSTEM OR PROGRAM AFFECTED: Firemen's and Rescue Squad Worker's Pension Fund

FUNDS AFFECTED: General Fund

BILL SUMMARY: Allows present members of the Firemen's and Rescue Squad Workers' Pension Fund with ten or more years of service to continue membership by making contributions of $10 per month in the event that the volunteer department is taken over by a city or county.

EFFECTIVE DATE: January 1, 2002



ESTIMATED IMPACT ON STATE: Buck Consultants estimates the cost to be a loss of saving that would otherwise occur. The General Assembly's actuary, Hartman & Associates, estimates the cost to be the normal cost ($152) per year for each impacted member and this is not expected to have a material financial impact on the Pension Fund.

ASSUMPTIONS AND METHODOLOGY: **Firemen's and Rescue Squad Workers' Pension Fund**. The cost estimates of the System's Actuary are based on the employee data, actuarial assumptions and actuarial methods used to prepare the June 30, 2001, actuarial valuation of the fund. The data included 30,514 active members and 8,093 retired members in receipt of annual pensions totaling $14.7 million. Significant actuarial assumptions used include (a) an investment return rate of 7.25%, (b) the 1974 George B. Buck Mortality Table for deaths after retirement and (c) rates of separation from active service based on Fund experience. The actuarial cost method used was the entry age method with open-end unfunded accrued liability and a frozen unfunded liquidation period of nine years. Detailed information concerning these assumptions and methods is shown in the actuary's report, which is available upon request from Stanley Moore.

A BILL TO BE ENTITLED

AN ACT TO ALLOW MEMBERS OF THE NORTH CAROLINA FIREMEN'S AND RESCUE SQUAD WORKERS' PENSION FUND WITH AT LEAST TEN YEARS OF SERVICE TO CONTINUE AS MEMBERS AFTER THE TAKEOVER OF A VOLUNTEER DEPARTMENT BY A CITY OR COUNTY; AND TO EXEMPT VOLUNTEER FIREFIGHTERS, EMERGENCY MEDICAL SERVICES PERSONNEL AND RESCUE SQUAD WORKERS FROM OVERTIME AND MINIMUM WAGE LAWS.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 58-86-55 reads as rewritten:

"**§ 58-86-55. Monthly pensions upon retirement.**

Any member who has served 20 years as an "eligible fireman" or "eligible rescue squad worker" in the State of North Carolina, as provided in G.S. 58-86-25 and G.S. 58-86-30, and who has attained the age of 55 years is entitled to be paid a monthly pension from this fund. The monthly pension shall be in the amount of one hundred fifty-one dollars ($151.00) per month. Any retired fireman receiving a pension shall, effective July 1, 2000, receive a pension of one hundred fifty-one dollars ($151.00) per month.

Members shall pay ten dollars ($10.00) per month as required by G.S. 58-86-35 and G.S. 58-86-40 for a period of no longer than 20 years. No "eligible rescue squad member" shall receive a pension prior to July 1, 1983. No member shall be entitled to a pension hereunder until the member's official duties as a fireman or rescue squad worker for which the member is paid compensation shall have been terminated and the member shall have retired as such according to standards or rules fixed by the board of trustees.

A member who is totally and permanently disabled while in the discharge of the member's official duties as a result of bodily injuries sustained or as a result of extreme exercise or extreme activity experienced in the course and scope of those official duties and who leaves the fire or rescue squad service because of this disability shall be

entitled to be paid from the fund a monthly benefit in an amount of one hundred fifty-one dollars ($151.00) per month beginning the first month after the member's fifty-fifth birthday. All applications for disability are subject to the approval of the board who may appoint physicians to examine and evaluate the disabled member prior to approval of the application, and annually thereafter. Any disabled member shall not be required to make the monthly payment of ten dollars ($10.00) as required by G.S. 58-86-35 and G.S. 58-86-40.

A member who is totally and permanently disabled for any cause, other than line of duty, who leaves the fire or rescue squad service because of this disability and who has at least 10 years of service with the pension fund, may be permitted to continue making a monthly contribution of ten dollars ($10.00) to the fund until the member has made contributions for a total of 240 months. The member shall upon attaining the age of 55 years be entitled to receive a pension as provided by this section. All applications for disability are subject to the approval of the board who may appoint physicians to examine and evaluate the disabled member prior to approval of the application and annually thereafter.

A member who, because his residence is annexed by a city under Part 2 or Part 3 of Article 4 of Chapter 160A of the General Statutes, or whose department is closed because of an annexation by a city under Part 2 or Part 3 of Article 4 of Chapter 160A of the General Statutes, or whose volunteer department is taken over by a city or county, and because of such annexation or takeover is unable to perform as a fireman or rescue squad worker of any status, and if the member has at least 10 years of service with the pension fund, may be permitted to continue making a monthly contribution of ten dollars ($10.00) to the fund until the member has made contributions for a total of 240 months. The member upon attaining the age of 55 years and completion of such contributions shall be entitled to receive a pension as provided by this section. Any application to make monthly contributions under this section shall be subject to a finding of eligibility by the Board of Trustees upon application of the member.

The pensions provided shall be in addition to all other pensions or benefits under any other statutes of the State of North Carolina or the United States, notwithstanding any exclusionary provisions of other pensions or retirement systems provided by law."

SECTION 2. G.S. 95-25.14 is amended by adding a new subsection to read:

"(b1) The provisions of G.S. 95-25.3 (Minimum Wage) and G.S. 95-25.4 (Overtime), and the provisions of G.S. 95-25.15(b) (Record Keeping) as they relate to the exemptions provided for in this subsection, do not apply to any of the following:

(2) Hours worked as a bona fide volunteer rescue and emergency medical services personnel in an incorporated, nonprofit volunteer or community fire department, or an incorporated, nonprofit rescue squad.

Hours worked in accordance with this subsection shall not be considered hours worked for purposes of G.S. 95-25.3 or G.S. 95-25.4."

SECTION 3. This act is effective when it becomes law, with Section 1 applying to members of the Firemen's and Rescue Squad Workers' Pension Fund with at least 10 years of service on or after January 1, 2002, and Section 2 applying to hours worked on or after July 31, 2002.

PCS FOR HOUSE BILL 1040:
Temporary Extended Unemployment Benefits

BILL ANALYSIS

Committee: House Appropriations
Date: August 15, 2002
Version: PCS H1040-CSLR-19[v6]

Introduced by:
Summary by: Committee Counsel

SUMMARY: Some North Carolina workers may soon exhaust certain federal unemployment compensation benefits. Under federal law, those benefits can be extended for a 13-week period of time if State law includes provisions to "trigger" the extended federal benefits. The "trigger" is known as an "on indicator". This proposed committee substitute amends State law to provide the necessary "on indicator" thus making workers eligible for an additional 13 weeks of federally funded unemployment benefits, if necessary.

Federal Law:

Federal legislation (Temporary Extended Unemployment Compensation Act of 2002, Public Law 107-147, signed March 9, 2002) provides Temporary Extended Unemployment Compensation benefits (TEUC) to workers who had a benefit year in progress on March 15, 2001. These benefits extend for a maximum of 13 weeks.

The TEUC legislation provides that if a state has legislation to provide for an "on" indicator for the payment of state-funded extended benefits and the "on indicator" triggers payment, then a program known as TEUC II will provide up to an additional 13 weeks of benefits. The Governor of the state must request these benefits to be paid 100% with federal monies.

In the event that a state has a state extended benefits trigger, once the additional 13 weeks is over, the state must continue the extended benefits program until the economic indicator triggers "off." This payment is 50% state trust fund and 50% federally funded.

Bill Analysis

Section 1. G.S. 96-12.01 provides for State extended benefits. G.S. 96-12.01(a1)(4) establishes the "on indicator" for this State that triggers the eligibility for the extended federal unemployment compensation benefits discussed above. Under current State law, the conditions to trigger the "on indicator" have not occurred. This section amends G.S. 96-12.01(a1)(4) to include as an "on indicator" circumstances in which the total unemployment rate exceeds 6.5% for a rolling three-month period, and the unemployment rate is 100% of the two-year average. The section further provides when the new "on

indicator" triggers "off" and sets out the total extended benefit amount payable to an eligible worker.

Section 2. Provides that the bill is effective when it becomes law.

Background

North Carolina has had over 25,000 workers exhaust their regular benefits (up to 26 weeks) and their TEUC benefits (up to 13 weeks). This bill will allow 25,000 North Carolina workers who have exhausted all benefits to receive an additional 13 weeks of benefits, and possibly more, if the state's economy remains in recession.

TEUC benefits are 100% federally funded. North Carolina's unemployment rate is around 6.7% and the Employment Security Commission is paying over $100 million in benefits per month.)

The Employment Security Commission has been assured that the Governor would request 100% federal payment of TEUC II benefits. This will be approximately a $100 million infusion of federally funded benefits into North Carolina. There will be no cost to the State Trust Fund for TECU II until January 1, 2003. The Employment Security Commission estimates that 5,000 individuals will not qualify for TEUC II, but will qualify for State Extended Benefits only. The potential cost to the State Trust Fund to cover the cost of 50% of the Extended Benefit payments, if required, is estimated to be $2 million.

Employment Security Commission provided this information.

SECTION 1. G.S. 96-12.01(a1)(4) reads as rewritten:

"(4) There is an "on indicator" for this State for a week if the Commission determines, in accordance with the regulations of the United States Secretary of Labor, that for the period consisting of such week and the immediate preceding 12 weeks, the rate of insured unemployment (not seasonally adjusted) under this Chapter:

b. Equalled or exceeded six percent ~~(6%).~~(6%), or

c. With respect to benefits for weeks of unemployment in North Carolina beginning after May 1, 2002.

1. d. There is a State "off indicator" for a week with respect to sub-subdivision c. of this subdivision, only if, for the period consisting of such week and the immediately preceding twelve weeks, the option specified in sub-subdivision c. does not result in an "on indicator."

e. Total extended benefit amount.

1. The total extended benefit amount payment to any eligible individual with respect to the applicable benefit year shall be the least of the following amounts:

I. Fifty percent (50%) of the total amount of regular benefits which were payable to the individual under this Chapter in the individual's applicable benefit year; or

II. Thirteen times the individual's weekly benefit amount that was payable to the individual under this Chapter for a week of total unemployment in the applicable benefit year.

2. I. Effective with respect to weeks beginning in a high unemployment period, sub-subdivision e.1. of this subdivision shall be applied by substituting:

NORTH CAROLINA GENERAL ASSEMBLY
LEGISLATIVE ACTUARIAL NOTE
RETIREMENT

BILL NUMBER: Senate Bill 1238 (Revised)

SHORT TITLE: Withdrawn Retirement Service

SPONSOR(S): Senators Dalton, Gulley & Harris

SYSTEM OR PROGRAM AFFECTED: Local Governmental Employees' Retirement System and Teachers' & State Employees' Retirement System

FUNDS AFFECTED: Local Funds

BILL SUMMARY: The bill allows any member of the Local Governmental Employees' Retirement System with five or more years of service to purchase the withdrawn service by paying the amount withdrawn plus 6 1/2% interest compounded annually from year of withdrawal to year of repayment. The bill allows the purchase by repealing the existing law, which allows members to purchase withdrawn service after they have returned and worked for 10 years. It also repeals the requirement that the purchase of withdrawn service must be made within three years and repeals the "full cost" method of calculating withdrawn service for member who withdrew after July 1, 1975, and repeals the provision for the "full actuarial cost" for members beyond the three year window and those with more than five years and less than ten years. The bill makes some technical clarifying changes to the Teachers' & State Employees' Retirement System but no cost to these changes.

EFFECTIVE DATE: January 1, 2003

ESTIMATED IMPACT ON LOCAL GOVERNMENTS: Buck Consultants estimates the annual cost to be $9 million based on an estimated 900 members making the purchase. They also estimate the cost will be approximately $10 million per year for every additional 1,000 members who purchase service. These cost estimates are based on experience of Teachers' and State Employees' Retirement System since similar legislation was enacted during the 2001 Session.

Hartman & Associates estimates the annual cost to be $8.9 million based on experience of Teachers' and State Employees' Retirement System since similar legislation was enacted during the 2001 Session.

There are actuarial gains within the System to fund this increase.

ASSUMPTIONS AND METHODOLOGY:

Local Governmental Employees' Retirement System

The cost estimates of the System's Actuary are based on the employee data, actuarial assumptions and actuarial methods used to prepare the December 31, 2000, actuarial valuation of the fund. The data included 116,240 active members with an annual payroll of $3.34 billion and 30,061 retired members in receipt of annual pensions totaling $356.8 million. Significant actuarial assumptions used include (a) an investment return rate of 7.25%, (b) salary increase rate of 6.25%, (c) the 1979 George B. Buck Mortality Tables for deaths in service and after retirement, and (d) rates of separation from active service based on System experience. The actuarial cost method used was the projected benefit method with aggregate level normal cost and frozen accrued liability. Detailed information concerning these assumptions and methods is shown in the actuary's report, which is available upon request from Stanley Moore.

A BILL TO BE ENTITLED

AN ACT TO ALLOW THE PURCHASE OF WITHDRAWN SERVICE IN THE LOCAL GOVERNMENTAL EMPLOYEES' RETIREMENT SYSTEM, TO CORRECT THE CALCULATION OF BENEFITS FOR MEMBERS OF THE TEACHERS' AND STATE EMPLOYEES' RETIREMENT SYSTEM WHO PURCHASE WITHDRAWN SERVICE, AND TO INCREASE APPROPRIATIONS TO THE RETIREMENT SYSTEMS DIVISION.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 128-26(i) reads as rewritten:

"(i) Notwithstanding any other provision of this Chapter, any person who withdrew his contributions in accordance with the provisions of G.S. 128-27(f) or 135-5(f) or the rules and regulations of the Law Enforcement Officers' Retirement System and who subsequently returns to service may, upon completion of ~~10~~ five years of prior and current membership service, repay in a total lump sum any and all of the accumulated contributions previously withdrawn with ~~sufficient interest added thereto to cover one half of the cost of providing such additional credit plus a fee to cover expense of handling which shall be determined by the Board of Trustees and receive credit for the service forfeited at time of withdrawal(s), provided that he left service prior to July 1, 1975.~~ interest compounded annually at the rate of six and one-half percent (6.5%) for each calendar year from the year of withdrawal to the year of repayment plus a fee to cover expense of handling which shall be determined by the Board of Trustees, and receive credit for the service forfeited at time of withdrawal(s). ~~Any person who leaves service after June 30, 1975, and who withdraws his contributions in accordance with G.S. 128-27(f) or 135-5(f) or the rules and regulations of the Law Enforcement Officers' Retirement System and who subsequently returns to service may, upon completion of 10 years of prior and current membership service, repay in a total lump sum any and all of the accumulated contributions previously withdrawn with sufficient interest added thereto to cover the full cost of providing such~~

~~additional credit plus a fee to cover expense of handling which shall be determined by the Board of Trustees and receive credit for the service forfeited at time of withdrawal(s).~~ These provisions shall apply equally to retired members who had attained ~~10~~ five years of prior and current membership service prior to retirement. ~~Cost as used in this subsection shall mean the amount of money required to provide additional retirement benefits based on service credit allowed at the time any adjustment to the service credit of a member is made.~~ The retirement allowance of a retired member who restores service under this subsection shall be increased the month following the month payment is received. The increase in the retirement allowance shall be the difference between the initial retirement allowance, under any optional allowance elected at the time of retirement, and the amount of the retirement allowance, under any optional allowance elected at the time of retirement, to which the retired member would have been entitled had the service not been previously forfeited, adjusted by any increases in the retirement accrual rate occurring between the member's date of retirement and the date of payment. The increase in the retirement allowance shall not include any adjustment for cost-of-living increases granted since the date of retirement."

SECTION 2. G.S. 128-26(k) reads as rewritten:

"(k) Notwithstanding any language to the contrary of any provision of this section, or of any repealed provision of this section that was repealed with the inchoate and accrued rights preserved, all repayments and purchases of service credits, allowed under the provisions of this section or of any repealed provision of this section that was repealed with inchoate and accrued rights preserved, must be made within three years after the member first becomes eligible to make such repayments and purchases. Any member who does not repay or purchase service credits within said three years after first eligibility to make such repayments and purchases may, under the same conditions as are otherwise required, repay or purchase service credits provided that the repayment or purchase equals the full cost of the service credits calculated on the basis of the assumptions used for purchases of the actuarial valuation of the System's liabilities and shall take into account the additional retirement allowance arising on account of such additional service credit commencing at the earliest age at which such member could retire on an unreduced retirement allowance as determined by the Board of Trustees upon the advice of the consulting actuary. Notwithstanding the foregoing provisions of this subsection that provide for the purchase of service credits, the terms "full cost", "full liability", and "full actuarial cost" include assumed annual post-retirement allowance increases, as determined by the Board of Trustees, from the earliest age at which a member could retire on an unreduced service allowance. Notwithstanding the foregoing, on and after January 1, 2003, the provisions of this subsection shall not apply to the repayment of contributions withdrawn pursuant to subsection (i) of this section."

SECTION 3. G.S. 128-26(n) is repealed.

SECTION 4. G.S. 135-4(k) reads as rewritten:

"(k) Notwithstanding any other provision of this Chapter, any person who withdrew his contributions in accordance with the provisions of G.S. 128-27(f) or G.S. 135-5(f) or the rules and regulations of the Law-Enforcement Officers' Retirement System and who subsequently returns to service may, upon completion of five years of

membership service, repay in a total lump sum any and all of the accumulated contributions previously withdrawn with interest compounded annually at the rate of six and one-half percent (6.5%) for each calendar year from the year of withdrawal to the year of repayment plus a fee to cover expense of handling which shall be determined by the Board of Trustees, and receive credit for the service forfeited at time of withdrawal. These provisions shall apply equally to retired members who had attained five years of membership service prior to retirement. ~~The retirement benefit shall be increased the month following the receipt of payment. The retirement benefit shall not include any benefit as a result of retirement adjustments or cost-of-living increases granted since the date of retirement. The retirement benefit will be calculated based in the accrual rate at the time of purchase.~~ The retirement allowance of a retired member who restores service under this subsection shall be increased the month following the month payment is received. The increase in the retirement allowance shall be the difference between the initial retirement allowance, under any optional allowance elected at the time of retirement, and the amount of the retirement allowance, under any optional allowance elected at the time of retirement, to which the retired member would have been entitled had the service not been previously forfeited, adjusted by any increases in the retirement accrual rate occurring between the member's date of retirement and the date of payment. The increase in the retirement allowance shall not include any adjustment for cost-of-living increases granted since the date of retirement.

Notwithstanding any provision to the contrary, a law enforcement officer who was transferred from the Law Enforcement Officers' Retirement System to this Retirement System pursuant to Article 12C of Chapter 143 of the General Statutes and withdrew his accumulated contributions prior to January 1, 1985, in accordance with G.S. 128-27(f) or G.S. 135-5(f) for non-law enforcement service and who has five years or more of membership service standing to his credit may repay in a total lump sum the accumulated contributions previously withdrawn with interest compounded annually at the rate of six and one-half percent (6.5%) for each calendar year from the year of withdrawal to the year of repayment plus a fee to cover expense of handling which shall be determined by the Board of Trustees, and receive credit for the service forfeited at time of ~~withdrawal. The retirement benefit shall be increased the month following the receipt of payment. The retirement benefit shall not include any benefit as a result of retirement adjustments or cost-of-living increases granted since the date of retirement. The retirement benefit will be calculated based in the accrual rate at the time of purchase.~~withdrawal(s). The retirement allowance of a retired member who restores service under this subsection shall be increased the month following the month payment is received. The increase in the retirement allowance shall be the difference between the initial retirement allowance, under any optional allowance elected at the time of retirement, and the amount of the retirement allowance, under any optional allowance elected at the time of retirement, to which the retired member would have been entitled had the service not been previously forfeited, adjusted by any increases in the retirement accrual rate occurring between the member's date of retirement and the date of payment. The increase in the retirement allowance shall not include any adjustment for cost-of-living increases granted since the date of retirement."

SECTION 4.1. The appropriation to the Department of State Treasurer, Retirement Systems Division, is increased in the amount of two hundred forty-seven thousand seven hundred thirteen dollars ($247,713) to fund eight two-year time-limited positions to implement the provisions of this act.

REGIONAL ECONOMIC MODELS, INC. and REMI Policy Insight

Regional Economic Models, Inc. (REMI®), provides REMI Policy Insight®, the leading forecasting and policy analysis model. Since 1980, REMI has developed models that answer "what if" questions about the effect of policy initiatives on the economy of local regions. The model is based on past and current research and development, which is subject to peer review and published in academic journals. REMI Policy Insight is currently used by hundreds of governmental agencies, universities, and others.

REMI's founder, Dr. George I. Treyz, developed the methodology used in REMI's socioeconomic modeling system in order to improve the quality of research-based decision making in the public and private sectors. A research team currently led by Drs. George and Frederick Treyz continues to enrich and deepen REMI's powerful dynamic analytic engine. The latest version is based in part on a REMI prototype set forth in the November 2000 issue of the *Journal of Regional Science*. It is designed for regional areas of varying sizes in the U.S., the E.U., and Canada.

The forecasting and policy analysis system includes key econometric estimates and integrates inter-industry transactions, long run equilibrium features, and the new economic geography. It includes: substitution among factors of production in response to changes in relative factor costs; migration responses to changes in expected income; labor participation rate responses to changes in real wage and employment conditions; wage rate responses to labor market changes; consumer consumption responses to changes in real disposable income and commodity prices; and local, regional, and market shares responses to changes in regional production costs and agglomeration economics.

The REMI Policy Insight's unique power is to generate realistic year-by-year estimates of the total regional effects of any specific policy initiative. A wide range of policy variables allows the user to represent the policy to be evaluated while the explicit structure in the model helps the user to interpret the predicted economic and demographic effects. The model is calibrated to many sub-national areas for policy analysis and forecasting, and is available in single- and multi-area configurations. Each calibrated area (or region) has economic and demographic variables, as well as policy variables so that any policy that affects a local economy can be tested.

REMI Policy Insight® is used by government agencies (including a vast majority of state governments), consulting firms, nonprofit institutions, universities, and public utilities. REMI model simulations estimate comprehensive economic and demographic effects in wide-ranging initiatives such as: economic impact analysis; policies and programs for economic development, transportation, infrastructure, environment, energy and natural resources; and state and local tax changes. Articles about the model equations and research findings have been published in professional journals such as the *American Economic Review*, *The Review of Economic Statistics*, the *Journal of Regional Science*, and the *International Regional Science Review*.

Easley encouraged

Easley, meanwhile, walked reporters through the four-page letter sent out Monday by Moody's — and found a good deal to be optimistic about.

The agency is encouraged by the underlying soundness of both the state's economy and the government's budget, and its analysts assured Easley in a meeting three weeks ago that they understand that the economic downturn is hitting North Carolina particularly hard.

The underlying message from Moody's, Easley said, is that the state must stop spending more money than it brings in. That means no more program expansion — and no more borrowing — without new sources of revenue.

The latter could affect the progress of a $3.1 billion university bond package approved by voters two years go on the promise that it could be paid for without raising taxes.

Easley said he has no plans to call for a slowdown of the state university system's borrowing schedule. Moody's mentioned borrowing simply to illustrate the state's recent pattern of taking on more and more spending without finding more and more money to pay for it all.

Citing the immediate need not only to balance the budget but to begin the long process of building back the state's reserves, Easley said, "We need to take in a dollar and a nickel for every dollar that we spend."

views speak for themselves. This year, he asked campaign adviser Carter Wrenn to speak on his behalf.

"He supported education when he thought it was justified," Wrenn said. "And he's opposed to increasing taxes because it hurts the economy."

Carrington has introduced two bills since 1997, according to the nonpartisan N.C. Center for Public Policy Research. Neither was adopted. Last year, he was ranked 49th out of 50 senators in effectiveness in a center survey.

Wrenn said Carrington focuses on defeating legislation proposed by the majority Democrats, rather than on introducing his own bills.

"That's just a fact of life of being in the minority," Wrenn said.

Mackie promises to be a hometown voice for the district.

He said he wants to keep a lid on state spending while pushing transportation and education, both big issues in growing northern Wake, to the top of the priority list. He said his district is plagued by traffic jams and local schools don't get enough money.

"I see the traffic congestion; I see the problems with the schools; I see the money problems," Mackie said. "But I don't see a lot of activity on his part."

Mackie made headlines when he was mayor of Wake Forest by criticizing town leaders and alleging corruption and incompetence in several town departments. He aided in a private investigation into drug activity in Wake Forest's quaint downtown, because he said the police department was not addressing the problem. The investigation yielded no arrests.

THE N

DETERMINING REVENUE GROWTH AND COSTS AND BENEFITS OF PROJECTS THROUGH THE USE OF ECONOMIC MODELING

When evaluating the impact of particular economic development projects, economic modeling programs are frequently used to project likely costs and benefits as well as impact to local and regional economies.

The State of North Carolina has licenses to use such programs (e.g. the REMI and IMPLAN programs) and works with the state universities in running simulations and projections of economic and revenue impacts.

These programs consider a variety of inputs and outputs in the economy associated with a new investment and new jobs. They are frequently used to project likely tax receipts associated with new jobs. They can also be used to project the circulation of new money through the economy as well as the creation of indirect jobs or jobs created through collateral activity such as construction.

Economic modeling programs can also be used to estimate the cost of government services associated with the jobs, as well as the impact on the economy when jobs leave the state.

Attached is an actual hypothetical for a currently active project in a Tier 4 rural county for which the state is competing internationally as well as nationally. This hypothetical shows revenues, cost of incentives, projections of state expenditures associated with job growth, and the bottom line benefit to the state.

Also attached are a synopsis conducted by Kenan Flagler Institute of a similar analysis of a project that considered expanding in the state or leaving the state, an example of the potential revenue impact of 1100 office jobs prepared by a local economic developer, and a report prepared by South Carolina detailing the incentives being offered by that state for a project.

The Department of Commerce has examples of other analyses available for persons wishing to see them.

RE: Scenarios for an insecticides/chemical products company staying in or moving from Greensboro

---

As per your request, we have used the REMI model to simulate several scenarios for an insecticides/chemical products company in Greensboro: one in which they add 110 new jobs in the Piedmont Triad, and another in which they eliminate 450 jobs in the region and state. I summarize our findings in this memo, and explain the assumptions we have made that drive those results.

As with any analysis of this type, the results may be sensitive to the assumptions that are embedded in the REMI model and that the modelers make for convenience. If time had permitted, we could have run the REMI model in many different ways to test the sensitivity of our results to a wide range of assumptions. Given the short time we were given, we chose to use what we believed to be the most plausible set of assumptions, and generated results from those. Based on my knowledge of the REMI model, the data, and the operation of labor and capital markets in North Carolina, I am confident that the results would not change much (say more than 20 percent in any direction) for any other reasonable assumptions we might have employed.

SCENARIO 1:

Company stays in Greensboro and adds 110 new jobs. We assume that 40 percent (44 jobs) would be transferred into North Carolina from Wilmington, Delaware, and that 10 percent of the jobs filled from applicants in North Carolina would go to currently unemployed or out-of-the-workforce individuals. Therefore, of the 110 "new" jobs, 51 can be counted as net new employment in the state. We assume that the remaining 59 jobs would go to applicants already employed, but at a lower wage (assumed to be the weighted average of manufacturing, construction, and extractive employment in the Triad).

The University of North Carolina at Chapel Hill Campus Box 3440, The Kenan Center, Chapel Hill, NC 27599-3440

The economic impact in this scenario comes from the multiplier associated with (direct and indirect) jobs and income from the 51 net new jobs, and from the added income (plus multiplier) from the 59 workers now employed at a higher wage. We expect the difference in spending for transferred workers to be significant since the company under study pays $85,000 in salary and benefits per year, compared to a weighted average salary and benefits for all other employment of $30,000. To account for the possibility that skill requirements are such that the only workers earning $60,000 could move into the 51 new jobs, we also ran a scenario using that as a base. In all cases, we assumed a 3 percent annual increase in compensation, and projected forward to 2010.

SCENARIO 2:

Company moves its headquarters from Greensboro to Delaware, and eliminates 450 jobs in the Triad. We assume that 40 percent of those jobs would be moved to Delaware (90 jobs), and that 75 percent of the remaining displaced workers would relatively quickly find alternative employment in the Triad, but at a lower rate of compensation (to be consistent with the foregoing scenario, we used $30,000 and $60,000 as the alternative salary plus benefits package). The direct job loss to North Carolina would be 180 positions (90 moved out of state and 90 remaining displaced). The other 270 workers are assumed to be reemployed at the lower compensation level.

We were told that the company would purchase $3 million less in airline tickets. That consequence is embedded in the model.

RESULTS

The accompanying tables show the results of the simulations. The key results are as follows:

Scenario	Employment (2001)		Employment (2009)		GRP (92$mil) (2001)		Tax rev. generated ($92) (2001)

Summary of Potential Incentives Available to [redacted]

South Carolina offers an impressive array of incentives that reduces the cost of doing business in the state. The potential incentives available to [redacted] in Chester County are based on the following assumptions:

- $31 million capital investment over five years — $9 million in real property (land and building) and $22 million in personal property (machinery and equipment); and
- 225 new jobs over 5 years with the following average wage rates:
  - 8 Admin at $15/hr,
  - 8 Warehouse workers at $9.88/hr (Chester County's average wage),
  - 195 Plant workers at $12/hr,
  - 12 Managers at $30/hr, and
  - 2 Executives at $120/hr.

The total amount of applicable incentives is estimated at $13.8 million. The following table summarizes the applicable incentives for which [redacted] may be eligible.

A BILL TO BE ENTITLED

AN ACT TO RAISE THE INVESTMENT THRESHOLD FOR THE CREDIT FOR INVESTING IN MACHINERY AND EQUIPMENT; TO ESTABLISH TIERED RATES FOR THE CREDIT FOR INVESTING IN MACHINERY AND EQUIPMENT; TO REQUIRE A TAXPAYER AND ITS RELATED ENTITIES TO SATISFY ANY OUTSTANDING STATE TAX ASSESSMENTS BEFORE RECEIVING A BILL LEE ACT CREDIT; TO MODIFY THE WAGE STANDARD FOR THE CREDIT FOR WORKER TRAINING; TO MODIFY THE WAGE STANDARD FOR ENTERPRISE TIER ONE AND TWO COUNTIES; TO MODIFY THE WAGE STANDARD FOR TAXPAYERS WITH A TAX YEAR OTHER THAN A CALENDAR YEAR; TO TREAT CERTAIN PARCELS OF LAND PARTIALLY LOCATED IN A DEVELOPMENT ZONE AS IF THE ENTIRE PARCEL WERE LOCATED WITHIN THE DEVELOPMENT ZONE; TO ENACT A JOB DEVELOPMENT INVESTMENT GRANT PROGRAM TO PROVIDE ECONOMIC STIMULUS, TO CREATE JOBS, AND TO AID IN THE DEVELOPMENT OF BUSINESS AND INDUSTRIAL PROJECTS AND EXPANSIONS IN NORTH CAROLINA; TO MODIFY THE INDUSTRIAL DEVELOPMENT FUND TO ALLOW FOR EXPENDITURES RELATED TO TELECOMMUNICATIONS AND BROADBAND LINES AND EQUIPMENT AND TO ALLOW FOR EXPENDITURES FROM THE UTILITY ACCOUNT IN ENTERPRISE TIER THREE AREAS; AND TO MAKE A TECHNICAL CORRECTION REGARDING THE AUTHORITY OF A LOCAL GOVERNMENT TO LEVY A PROPERTY TAX FOR ECONOMIC DEVELOPMENT.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 105-129.9(a) and (c) read as rewritten:

"(a) General Credit. – If a taxpayer that has purchased or leased eligible machinery and equipment places them in service in this State during the taxable year, the taxpayer is allowed a credit equal to ~~seven percent (7%)~~ the applicable percentage of

the excess of the eligible investment amount over the applicable threshold. Machinery and equipment are eligible if they are capitalized by the taxpayer for tax purposes under the Code and not leased to another party. In addition, in the case of a large investment, machinery and equipment that are not capitalized by the taxpayer are eligible if the taxpayer leases them from another party. The credit may not be taken for the taxable year in which the machinery and equipment are placed in service but shall be taken in equal installments over the seven years following the taxable year in which they are placed in service. The applicable percentage is as follows:

Area Enterprise Tier	Applicable Percentage
Tier One	7%
Tier Two	7%
Tier Three	6%
Tier Four	5%
Tier Five	4%

...

(c) Threshold. – The applicable threshold is the appropriate amount set out in the following table based on the enterprise tier where the eligible machinery and equipment are placed in service during the taxable year. If the taxpayer places eligible machinery and equipment in service at more than one establishment in an enterprise tier during the taxable year, the threshold applies separately to the eligible machinery and equipment placed in service at each establishment. If the taxpayer places eligible machinery and equipment in service at an establishment over the course of a two-year period, the applicable threshold for the second taxable year is reduced by the eligible investment amount for the previous taxable year.

Area Enterprise Tier	Threshold
Tier One	$ -0-
Tier Two	100,000
Tier Three	200,000
Tier Four	~~500,000~~1,000,000
Tier Five	~~1,000,000~~2,000,000"

SECTION 1.1. G.S. 105-129.4 is amended by adding a new subsection to read:

"(b6) Final Assessments. – A taxpayer is not eligible for a credit allowed under this Article if, at the time the taxpayer claims an installment or carryforward of the credit, the taxpayer or a related entity of the taxpayer has received a notice of final assessment and that assessment has not been satisfied or otherwise resolved."

SECTION 2. G.S. 105-129.4(b) reads as rewritten:

"(b) Wage Standard. – A taxpayer is eligible for the credit for creating jobs ~~or the credit for worker training~~ in an enterprise tier three, four, or five area if, for the calendar year the jobs are ~~created or the worker training is provided,~~created, the average wage of the jobs for which the credit is claimed meets the wage standard and the average wage of all jobs at the location with respect to which the credit is claimed meets the wage standard. No credit is allowed for jobs not included in the wage calculation. A taxpayer is eligible for the credit for investing in machinery and equipment, the credit for

research and development, or the credit for investing in real property for a central office or aircraft ~~facility, or the credit for substantial investment in other property~~facility in a tier three, four, or five area if, for the calendar year the taxpayer engages in the activity that qualifies for the credit, the average wage of all jobs at the location with respect to which the credit is claimed meets the wage standard. In making the wage calculation, the taxpayer must include any positions that were filled for at least 1,600 hours during the calendar year the taxpayer engages in the activity that qualifies for the credit even if those positions are not filled at the time the taxpayer claims the credit. For a taxpayer with a taxable year other than a calendar year, the taxpayer must use the wage standard for the calendar year in which the taxable year begins. No wage standard applies to credits for activities in an enterprise tier one or two area.

Jobs meet the wage standard if they pay an average weekly wage that is at least equal to ~~the applicable percentage times~~one hundred ten percent (110%) of the applicable average weekly wage for the county in which the jobs will be located, as computed by the Secretary of Commerce from data compiled by the Employment Security Commission for the most recent period for which data are available. ~~The applicable percentage for jobs located in an enterprise tier one area is one hundred percent (100%). The applicable percentage for all other jobs is one hundred ten percent (110%).~~ The applicable average weekly wage is the lowest of the following: (i) the average wage for all insured private employers in the county, (ii) the average wage for all insured private employers in the State, and (iii) the average wage for all insured private employers in the county multiplied by the county income/wage adjustment factor. The county income/wage adjustment factor is the county income/wage ratio divided by the State income/wage ratio. The county income/wage ratio is average per capita income in the county divided by the annualized average wage for all insured private employers in the county. The State income/wage ratio is the average per capita income in the State divided by the annualized average wage for all insured private employers in the State. The Department of Commerce must annually publish the wage standard for each county."

SECTION 3. G.S. 105-129.3A is amended by adding a new subsection to read:

"(d) Parcel of Property Partially in a Development Zone. – For the purposes of this section, a parcel of property that is located partially within a development zone is considered entirely within the development zone if all of the following conditions are satisfied:

(1) At least fifty percent (50%) of the parcel is located within the development zone.

(2) The parcel was in existence and under common ownership prior to the most recent federal decennial census.

(3) The parcel is a portion of land made up of one or more tracts or tax parcels of land that is surrounded by a continuous perimeter boundary."

SECTION 4. In addition to heightening the incentive effect of the William S. Lee Quality Jobs and Business Expansion Act in lower-tiered counties, the changes

Intent Gen Fund

in Section 1 of this act are intended to reduce the cost of the Act and make more revenues available to the State of North Carolina in future years. It is the intent of the General Assembly in making these changes to provide a source of funds that could be used in future years to support other, more targeted economic development programs aimed at helping create new jobs in North Carolina.

SECTION 5.(a) Article 10 of Chapter 143B of the General Statutes is amended by adding a new Part to read:

"Part 2F.

"Job Development Investment Grant Program.

"**§ 143B-437.44. Legislative findings and purpose.**

The General Assembly finds that:

(1) It is the policy of the State of North Carolina to stimulate economic activity and to create new jobs for the citizens of the State by encouraging and promoting the expansion of existing business and industry within the State and by recruiting and attracting new business and industry to the State.

(2) Both short-term and long-term economic trends at the State, national, and international levels have made the successful implementation of the State's economic development policy and programs both more critical and more challenging; and the decline in the State's traditional industries, and the resulting adverse impact upon the State and its citizens, have been exacerbated in recent years by adverse national and State economic trends that contribute to the reduction in the State's industrial base and that inhibit the State's ability to sustain or attract new and expanding businesses.

(3) The economic condition of the State is not static and recent changes in the State's economic condition have created economic distress that requires a reevaluation of certain existing State programs and the enactment of a new program as provided in this Part that are designed to stimulate new economic activity and to create new jobs within the State.

(4) The enactment of this Part is necessary to stimulate the economy, facilitate economic recovery, and create new jobs in North Carolina; and this Part will promote the general welfare and confer, as its primary purpose and effect, benefits on citizens throughout the State through the creation of new jobs, an enlargement of the overall tax base, an expansion and diversification of the State's industrial base, and an increase in revenue to the State and its political subdivisions.

(5) The purpose of this Part is to stimulate economic activity and to create new jobs within the State.

(6) It is not the intent of the General Assembly that grants provided through this Part be used as venture capital funds, business incubator funds, or business start-up funds or to otherwise fund the initial capitalization needs of new businesses.

(7) Nothing in this Part shall be construed to constitute a guarantee or assumption by the State of any debt of any business or to authorize the taxing power or the full faith and credit of the State to be pledged.

"**§ 143B-437.45. Definitions.**

The following definitions apply in this Part:

(1) Agreement. – A community economic development agreement under G.S. 143B-437.51.

(2) Base years. – The first two complete calendar years following the effective date of an agreement.

(3) Business. – A corporation, sole proprietorship, cooperative association, partnership, S corporation, limited liability company, nonprofit corporation, or other form of business organization, located either within or outside this State.

(4) Committee. – The Economic Investment Committee established pursuant to G.S. 143B-437.48.

(5) Eligible position. – A position created by a business and filled by a new full-time employee in this State during the base years or in subsequent years of a grant.

(6) Full-time employee. – A person who is employed for consideration for at least 35 hours a week, whose wages are subject to withholding under Article 4A of Chapter 105 of the General Statutes, and who is determined by the Committee to be employed in a permanent position according to criteria it develops. The term does not include any person who works as an independent contractor or on a consulting basis for the business.

(7) New employee. – A full-time employee who represents a net increase in the number of the business's employees statewide and who is first employed on the project that is the subject of an agreement. The term includes an employee rehired or called back from a layoff that occurs during or following the base years to a vacant position previously held by that employee or to a new position established during or following the base years.

(8) Related member. – Defined in G.S. 105-130.7A.

(9) Withholdings. – The amount withheld by a business from the wages of employees in eligible positions under Article 4A of Chapter 105 of the General Statutes.

"**§ 143B-437.46. Job Development Investment Grant Program.**

(a) Program. – There is established the Job Development Investment Grant Program to be administered by the Economic Investment Committee. In order to foster job creation and investment in the economy of this State, the Committee may enter into negotiated agreements with businesses to provide grants in accordance with the provisions of this Part. The Committee shall develop criteria to be used in determining whether the conditions of this section are satisfied and whether the project described in

the application is otherwise consistent with the purposes of this Part. Before entering into an agreement, the Committee must find that all the following conditions are met:

(1) The project proposed by the business will create, during the term of the agreement, a net increase in employment in this State by the business.

(2) The project will benefit the people of this State by increasing opportunities for employment and by strengthening this State's economy by, for example, providing worker training opportunities, constructing and enhancing critical infrastructure, increasing development in strategically important industries, or increasing the State and local tax base.

(3) The project is consistent with economic development goals for the State and for the area where it will be located.

(4) A grant under this Part is necessary for the completion of the project in this State.

(5) The total benefits of the project to the State outweigh its costs and render the grant appropriate for the project.

(b) Cap. – The maximum number of agreements the Committee may enter into each fiscal year is 25.

"**§ 143B-437.47. Eligible projects.**

(a) Minimum Number of Eligible Positions. – A business may apply to the Committee for a grant for any project that creates the minimum number of eligible positions as set out in the table below. If the project will be located in more than one enterprise tier area, the location with the highest enterprise tier area designation determines the minimum number of eligible positions that must be created.

Enterprise Tier Area	Number of Eligible Positions
Tier One	10
Tier Two	10
Tier Three	10
Tier Four	20
Tier Five	20

(b) Nonretail Facilities. – A project that consists solely of retail facilities is not eligible for a grant under this Part. If a project consists of both retail facilities and nonretail facilities, only the portion of the project consisting of nonretail facilities is eligible for a grant, and only the withholdings from employees in eligible positions that are employed exclusively in the portion of the project that represents nonretail facilities may be used to determine the amount of the grant. If a warehouse facility is part of a retail facility and supplies only that retail facility, the warehouse facility is not eligible for a grant. For the purposes of this Part, catalog distribution centers are not retail facilities.

(c) Health Insurance. – A business is eligible for a grant under this Part only if the business provides health insurance for all of the full-time employees of the project with respect to which the grant is made. For the purposes of this subsection, a business provides health insurance if it pays at least fifty percent (50%) of the premiums for health care coverage that equals or exceeds the minimum provisions of the basic health

care plan of coverage recommended by the Small Employer Carrier Committee pursuant to G.S. 58-50-125.

Each year that a business receives a grant under this Part, the business must provide with the submission required under G.S. 143B-437.52 a certification that the business continues to provide health insurance for all full-time employees of the project with respect to which the grant is made. If the business ceases to provide health insurance to all full-time employees of the project with respect to which a grant is made, the Committee may amend or terminate the agreement as provided in G.S. 143B-437.53.

(d) Wage Standard. – In order for a business to be eligible for a grant under this Part, the average wage of all jobs at the location with respect to which a grant is made must meet the wage standard set out in G.S. 105-129.4(b). If a project is to be located at more than one location, the average wage of all jobs at a location must meet the wage standard set out in G.S. 105-129.4(b) in order for that location to be included in the agreement.

"**§ 143B-437.48. Economic Investment Committee established.**

(a) Membership. – The Economic Investment Committee is established. The Committee consists of the following members:

(1) The Secretary of Commerce.

(2) The Secretary of Revenue.

(3) The Director of the Office of State Budget and Management.

(b) Unanimous Decision Required. – The Committee may act only upon a unanimous decision of its members.

(c) Conflict of Interest. – It is unlawful for a former member of the Committee to, within two years after the end of service on the Committee, provide services for compensation, as an employee, consultant, or otherwise, to any business or a related member of the business that was awarded a grant under this Part while the former member was serving on the Committee. Violation of this subsection is a Class 1 misdemeanor.

(d) Sunshine. – Meetings of the Committee are subject to the open meetings requirements of Article 33C of Chapter 143 of the General Statutes. All documents of the Committee, including applications for grants, are public records governed by Chapter 132 of the General Statutes, including applicable provisions of that Chapter protecting confidential information.

"**§ 143B-437.49. Applications; fees; reports; study.**

(a) Application. – A business shall apply, under oath, to the Committee for a grant on a form prescribed by the Committee that includes at least all of the following:

(1) The name of the business, the proposed location of the project, and the type of activity in which the business will engage at the project site or sites.

(2) The names and addresses of the principals or management of the business, the nature of the business, and the form of business organization under which it is operated.

(3) The most recent audited financial statements of the business and any other financial information the Committee considers necessary.

(4) The number of eligible positions proposed to be created during the base years and thereafter and the salaries for these positions.
(5) An estimate of the total withholdings.
(6) Certification that the business will provide health insurance to all full-time employees of the project.
(7) Information concerning other locations, including locations in other states and countries, being considered for the project and the nature of any benefits that would accrue to the business if the project were to be located in one of those locations.
(8) Information concerning any other State or local government incentives for which the business is applying or that it has an expectation of receiving.
(9) Any other information necessary for the Committee to evaluate the application.
(10) Certification that the project will not be undertaken in North Carolina unless the applicant is awarded a grant.

A business may apply, in one consolidated application in a form and manner determined by the Committee, for a grant on its own behalf as a business and for grants on behalf of the related members of the business who may qualify under this Part.

The Committee will consider an application by a business for grants on behalf of its related members only if the related members for whom the application is submitted have assigned to the business any claim of right the related members may have under this Part to apply for grants individually during the term of the agreement and have agreed to cooperate with the business in providing to the Committee all the information required for the initial application and the agreement, and any other information the Committee may require for the purposes of this Part. The applicant business is responsible for providing to the Committee all the information required under this Part.

If a business applies for a grant on behalf of its related members, the related members included in the application may be permitted to meet the qualifications for a grant collectively by participating in a project that meets the requirements of this Part. The amount of a grant may be calculated under the terms of this Part as if the related members were all collectively one business entity. Any conditions for a grant, other than the number of eligible positions created, apply to each related member who is listed in the application as participating in the project. The grants awarded shall be paid to the applicant business. A grant received under this Part by a business may be apportioned to the related members in a manner determined by the business. In order for an agreement to be executed, each related member included in the application must sign the agreement and agree to abide by its terms.

(b) Application Fee. – When filing an application under this section, the business must pay the Committee a fee of five thousand dollars ($5,000). The fee is due at the time the application is filed. The Committee shall determine the allocation of the fee imposed by this section among the agencies whose heads make up the Committee. The proceeds of the fee are receipts of the agency to which they are credited.

(c) Reports. – The Committee shall publish a report on the Job Development Investment Grant Program on or before October 31 of each year. The report shall include the following:

(1) A listing of each community economic development agreement negotiated and entered into during the preceding fiscal year, including the cost/benefit analysis conducted by the Committee during the application process, a description of the project, and the amount of the grant made under the agreement during that year.

(2) An update on the status of projects under agreements entered into before the preceding fiscal year.

(3) The number and enterprise tier area of eligible positions created by projects with respect to which grants were awarded.

(4) The wage levels of eligible positions created by projects with respect to which grants were awarded.

(5) The amount of new income tax revenue received from withholdings related to the projects for which grants were awarded.

(6) The criteria developed by the Committee to implement this Part and any changes in those criteria from the previous fiscal year.

(7) The effectiveness of the program in recruiting new and expanding businesses.

(8) The environmental impact of businesses that have received grants under the program.

(9) The geographic distribution of grants, by number and amount, awarded under the program.

(d) Study. – The Committee shall conduct a study to determine the minimum funding level required to implement the Job Development Investment Grant Program successfully. The Committee shall report the results of this study to the House of Representatives Finance Committee, the Senate Finance Committee, the House of Representatives Appropriations Subcommittee on Natural and Economic Resources, the Senate Appropriations Committee on Natural and Economic Resources, and the Fiscal Research Division no later than March 1 of each year.

"**§ 143B-437.50. Calculation of minimum and maximum grants; factors considered.**

(a) Subject to the limitations of subsection (d) of this section, the amount of the grant awarded in each case shall be a percentage of the withholdings of eligible positions. The percentage shall be no less than ten percent (10%) and no more than eighty percent (80%) of the withholdings of the eligible positions for a period of years. The percentage used to determine the amount of the grant shall be based on criteria developed by the Committee after considering at least the following:

(1) The number of eligible positions to be created.

(2) The expected duration of those positions.

(3) The type of contribution the business can make to the long-term growth of the State's economy.

(4) The amount of other financial assistance the project will receive from the State or local governments.

(5) The total dollar investment the business is making in the project.
(6) Whether the project utilizes existing infrastructure and resources in the community.
(7) Whether the project is located in a development zone.
(8) The number of eligible positions that would be filled by residents of a development zone.

(b) The term of the grant shall not exceed 15 years starting with the first year a grant is made.

(c) The grant may be based only on eligible positions created during the base years, unless the Committee makes an explicit determination that the grant shall also be based on additional eligible positions created during the remainder of the term of the grant.

(d) The percentage established in the agreement shall be reduced by one-fourth for any eligible position that is located in an enterprise tier four or five area.

(e) A business that is receiving any other grant by operation of State law may not receive an amount as a grant pursuant to this Part that, when combined with any other grants, exceeds eighty percent (80%) of the withholdings of the business, unless the Committee makes an explicit finding that the additional grant is necessary to secure the project.

"**§ 143B-437.51. Community economic development agreement.**

Each community economic development agreement shall include at least the following:

(1) A detailed description of the proposed project that will result in job creation and the number of new employees to be hired in the base years and later years.
(2) The term of the grant and the criteria used to determine the first year for which the grant may be claimed.
(3) The number of eligible positions that are subjects of the grant and a description of those positions and the location of those positions.
(4) The amount of the grant based on a percentage of withholdings.
(5) A method for determining the number of new employees hired during a grant year.
(6) A method for the business to report annually to the Committee the number of eligible positions for which the grant is to be made.
(7) A requirement that the business report to the Committee annually the aggregate amount of withholdings during the grant year.
(8) A provision permitting an audit of the payroll records of the business by the Committee from time to time as the Committee considers necessary.
(9) A provision that permits the Committee to amend an agreement pursuant to G.S. 143B-437.53.
(10) A provision that requires the business to maintain operations at the project location or another location approved by the Committee for at least one hundred fifty percent (150%) of the term of the grant and a

provision to permit the Committee to recapture all or part of the grant at its discretion if the business does not remain at the site for the required term.

(11) A provision that requires the business to maintain employment levels in this State at the level of the year immediately preceding the base years.

(12) A provision establishing the conditions under which the grant agreement may be terminated, in addition to those under G.S. 143B-437.53, and under which grant funds may be recaptured by the Committee.

(13) A provision stating that unless the agreement is amended or terminated pursuant to G.S. 143B-437.53, the agreement is binding and constitutes a pledge and a continuing appropriation of the amount of the grant.

(14) A provision setting out any allowed variation in the terms of the agreement that will not subject the business to amendment or termination of the agreement under G.S. 143B-437.53.

"**§ 143B-437.52. Grant recipient to submit records.**

(a) No later than February 1 of each year, for the preceding grant year, every business that is awarded a grant under this Part shall submit to the Committee a copy of its State and federal tax returns showing business and nonbusiness income and a report showing withholdings as a condition of its continuation in the grant program. In addition, the business shall submit to the Committee an annual payroll report showing the eligible positions that are created during the base years and the new eligible positions created during each subsequent year of the grant. When making a submission under this section, the business must pay the Committee a fee of one thousand five hundred dollars ($1,500). The fee is due at the time the submission is made. The Committee shall determine the allocation of the fee imposed by this section among the agencies whose heads make up the Committee. The proceeds of the fee are receipts of the agency to which they are credited.

(b) The Committee may require any information that it considers necessary to effectuate the provisions of this Part.

(c) The Committee may require any business receiving a grant to submit to an audit at any time.

(d) Grant recipients are encouraged to use the State ports of North Carolina and must include in the report required by subsection (a) of this section a report on the tonnage of any freight moved in ocean-borne commerce through the State ports and through any other United States port. If freight is moved through a United States port other than the State ports, then the report must disclose the reasons for using that port.

"**§ 143B-437.53. Failure to comply with agreement.**

(a) If the business receiving a grant fails to meet or comply with any condition or requirement set forth in an agreement or with criteria developed by the Committee, the Committee may amend the agreement to reduce the amount of the grant or the term of

the agreement. Any reduction of the grant is applicable to the grant year immediately following the grant year in which the Committee amends the agreement.

(b) If a business fails to maintain employment at the levels stipulated in the agreement or otherwise fails to comply with any condition of the agreement for any two consecutive years, the Committee may terminate the agreement.

"**§ 143B-437.54. Disbursement of grant.**

A business may not receive an annual disbursement of a grant if, at the time of disbursement, the business or a related member of the business has received a notice of final assessment of State tax due and that assessment has not been satisfied or otherwise resolved. A business may receive an annual disbursement of a grant only after the Committee has certified to the State Controller that there are no outstanding final assessments of State tax due and that the business has met the terms and conditions of the agreement. No amount shall be disbursed to a business as a grant under this Part in any year until the Secretary of Revenue has certified to the Committee (i) that there are no outstanding final assessments of State tax due against the business or a related member of the business and (ii) the amount of withholdings received in that year by the Department of Revenue from the business. A business that has met the terms of the agreement shall make an annual certification of this to the Committee. The Committee shall verify this information and certify to the State Controller that the terms of the agreement have been met. The Committee shall further certify to the State Controller the amount of a grant for which the business is eligible under the agreement and the amount of a grant for which the business would be eligible under the agreement without regard to G.S. 143B-437.50(d). The State Controller shall remit a check to the business in the amount of the certified grant amount within 90 days of receiving the certification of the Committee.

"**§ 143B-437.55. Transfer to Industrial Development Fund.**

At the time the State Controller remits a check to a business under G.S. 143B-437.54, the State Controller shall transfer to the Utility Account of the Industrial Development Fund an amount equal to the amount certified by the Committee as the difference between the amount of the grant and the amount of the grant for which the business would be eligible without regard to G.S. 143B-437.50(d).

"**§ 143B-437.56. Sunset.**

The authority of the Committee to enter into new agreements expires January 1, 2006."

House Bill 1734:
NC Economic Stimulus and Job Creation Act

BILL ANALYSIS

Committee:	House Finance	**Sponsor:**	Reps. Owens and Allen
Date:	August 5, 2002	**Analysis by:**	Y. Canaan Huie
Version:	Finance PCS as amended		Staff Attorney

SUMMARY: ***There are two main components to this bill: changes to the Bill Lee Act and the establishment of a new economic development grant program. There are different effective dates for the various parts of the bill.***

BACKGROUND: The William S. Lee Quality Jobs and Business Expansion Act (hereinafter Bill Lee Act) was enacted in 1996, effective beginning with the 1996 tax year with a 2002 sunset. The Act is a package of State tax incentives and has been modified in each subsequent year. The incentives are primarily in the form of tax credits for investment in machinery and equipment and real property, for job creation, for worker training, and for research and development. Counties are divided into five economic distress tiers based on the unemployment rate, per capita income, and population growth of the county. For many of the credits, the lower the tier of a county, the more favorable the incentive. The Act requires the Department of Commerce and the Department of Revenue to report periodically on the credits allowed by the Act.

Before 1996, North Carolina had made little use of tax incentives to lure businesses to the State. Even without incentives, North Carolina was consistently one of the top states in attracting industry. The array of credits authorized by the Bill Lee Act was viewed as an experiment, to be evaluated in five years to determine whether the incentives were cost effective and actually affected behavior, or merely provided tax reductions to businesses that would have located or expanded in any case. In 1999, the General Assembly extended the 2002 sunset to 2006.

ANALYSIS: Bill Lee Act Changes. Sections 1 through 3 of this bill make significant changes to the Bill Lee Act. These changes affect the credit for investing in machinery and equipment, the eligiblity of a taxpayer who has received a notice of final assessment, the wage standard, and the definition of a development zone.

Machinery and Equipment. Under current law, a taxpayer is allowed a credit for the cost of machinery and equipment placed into service during a taxable year that exceeds the applicable threshold based on the location where the machinery and equipment is placed into service. The amount of the credit is equal to 7% of the cost of the machinery and equipment in excess of the applicable threshold. Section 1 of this act makes two changes to this credit. First, the amount of the credit is reduced in enterprise tiers three, four, and five. In those areas, the amount of the credit is reduced to 6%, 5%, and 4%, respectively, of the cost of the machinery and equipment in excess of the applicable threshold. Second, the amount of the threshold is increased in enterprise tiers four and five. In enterprise tier four, the threshold is increased from $500,000 to $1,000,000. In enterprise tier five, the threshold is increased from $1,000,000 to $2,000,000.

Notice of Final Assessment. Under current law, if the Secretary of Revenue discovers that any tax is due from a taxpayer, the Secretary must notify the taxpayer in writing of the Secretary's intent to assess the taxpayer for the tax. The notice must describe the basis for the assessment, the amount of tax to be

assessed and any interest and penalties due. If the taxpayer disagrees with the assessment, the taxpayer has thirty days to request a hearing before the Secretary. The Secretary must then schedule a hearing to occur within 90 days of the request. Within 90 days after the hearing, the Secretary must issue a decision on the hearing. If the taxpayer does not request a hearing within the 30 days allowed, or if the Secretary finds that the tax is due after the hearing, the proposed assessment becomes a final assessment. Payment of a final assessment is not an admission of liability and does not affect the right of the taxpayer to pursue further administrative or judicial review. Section 1.1 of this act would make a taxpayer who has received notice of a final assessment and who has not satisfied that assessment ineligible for the credits under the Bill Lee Act.

Wage standard. Under current law, a taxpayer is eligible for a credit under the Bill Lee Act only if the jobs provided by the taxpayer meet a wage standard. The wage standard is 110% (100% in an enterprise tier one area) of the applicable average weekly wage. The jobs that are included in calculating the wage standard vary depending on the particular credit.

Section 2 of this bill makes three substantive changes to the wage standard. First, this section eliminates the wage standard in enterprise tier one and two areas.

Second, this act eliminates the wage standard for the credit for worker training. In order to be eligible for the credit for worker training, the employee who is being retrained must either (i) occupy a job for which the taxpayer is eligible to claim a credit for creating jobs, or (ii) be trained to operate machinery and equipment for which a taxpayer is eligible to claim a credit for investing in machinery and equipment. Thus, the jobs for which the credit for worker training may be claimed have already been included in a larger group of jobs that has met the wage standard. Often the specific jobs for which worker training is required are lower-paying jobs that could not themselves meet the wage standard. This change allows the credit for worker training to be taken by more taxpayers.

Third, this act makes an allowance for a taxpayer that has a taxable year other than a calendar year. To perform the wage standard test, the taxpayer compares the average weekly wage of certain jobs to the wage standard determined on an annual basis. The test is performed for the calendar year that jobs are created or for which worker training is provided. However, performing a wage standard test based on a calendar year is not feasible because many companies have taxable years that do not coincide with the calendar year. Consequently, the taxpayer can engage in activity that qualifies for a credit during a taxable year that spans two calendar years. If the taxpayer creates jobs in different calendar years, it must compute the combined average weekly wage of the jobs created during its taxable year and compare this average to the county wage standard to determine if it qualifies for a tax credit. It cannot however, compute this average "for the calendar year the jobs are created" as required by the current statute because the jobs are created over the course of two calendar years. Under this bill, the wage standard test would be based on the taxpayer's taxable year and not the calendar year. When a taxable year spans two calendar years, the applicable wage standard is that of the earlier calendar year. In addition to correcting a practical problem, this change generally will be favorable for taxpayers because county wage standards generally trend upward.

Development zones. In 1998, the General Assembly amended the Bill Lee Act to provide additional incentives for businesses that locate or expand in development zones, which are economically distressed areas located within cities. The statutory conditions for qualifying as a development zone were designed to target only these relatively small, economically distressed areas. The statutory conditions contained loopholes, however, that allowed large areas outside of cities to qualify, even if they were not economically distressed throughout. In 1999, the General Assembly moved to close those loopholes.

Current law defines a development zone as an area that meets all of the following conditions: (1) consists of one or more contiguous census tracts, block groups, or both, (2) has a population of 1,000 or more, at least 20% of whom are below the poverty level, (3) is located at least partly in a city with a population over 5,000, (4) every census tract and census block group in the zone must be located in whole or in part within the primary corporate limits of the city, (5) every census tract and census block group in the zone must have more than 10% of its population below the poverty level, or must be immediately adjacent to a tract or group that has more than 20% of its population below the poverty level, and (6) none of the census tracts or census block groups may be located in another development zone.

This act amends the definition of development zone to include all of a parcel of land that is located partially within the zone if all of the following conditions are met:

- At least 50% of the parcel is located within the zone.
- The parcel was in existence and under common ownership prior to the previous decennial federal census.
- The parcel is a portion of land made up of one or more tracts or tax parcels of land that is surrounded by a continuous perimeter boundary.

The following enhanced incentives apply in development zones: If a business locates in a development zone, the wage standard it has to meet is the same as for tier one counties -- slightly lower than the standard for other counties under current law and eliminated entirely under Section 2 of this act. In addition, if a business locates in a development zone, its maximum worker training credit is $1,000 rather than $500, it receives an additional $4,000 per job on its jobs tax credit, and the credit for investing in machinery and equipment is calculated as if the zone were in a tier one county.

Jobs Development Investment Grant Program. Section 5 of this act creates a new economic development tool for new and expanding businesses in North Carolina. This tool would be used to attract businesses to the State by allowing a three-member committee to award grants to businesses. The amount of the grants would be based on income tax withholdings from new jobs created by the businesses.

Which projects are eligible for a grant? In order to be eligible for a grant under this Part, the business must create a minimum number of new jobs. The number of new jobs that must be created varies based on the enterprise tier designation of the location where the jobs will be located. For projects located in enterprise tiers one through three, the project must create at least 10 new full-time positions. For projects located in enterprise tiers four and five, the project must create at least 20 new full-time positions. If a project is located in more than one location, the enterprise tier designation of the location in the highest enterprise tier area determines the number of new jobs that must be created.

As with the Bill Lee Act, a business must provide health insurance for all full-time jobs associated with the project in order to be eligible for this new program. The test is the same as under the Bill Lee Act – the business must, for all full-time employees of the project, pay at least 50% of the premiums for health insurance that meets at least the minimum provisions of the basic health care plan of coverage recommended by the Small Employer Carrier Committee. In addition, the average wage of all jobs at the location with respect to which a grant is sought must meet the Bill Lee wage standard, as amended by this bill. Finally, as with the Bill Lee Act, as amended by this bill, in order to be eligible for a grant the business and its related members must not have any outstanding final tax assessments against it.

Unlike under the Bill Lee Act, there are few restrictions based on the industry in which the business is engaged. All facilities other than retail facilities are eligible for a grant under this Part.

More generally, the project must satisfy the following conditions in order to be eligible for a grant:

- The project will result in net new employment in the State by the business.
- The project will benefit the people of the State by increasing employment opportunities and strengthening the State's economy.
- The project is consistent with economic development goals for the State.
- A grant is needed in order to secure the project for the State
- The total benefits of the project to the State outweigh the costs associated with the project.

How a grant is obtained? In order to obtain a grant under this Part, the business must apply to the Economic Investment Committee for consideration. The Economic Investment Committee is a three-member committee consisting of the Secretary of Commerce, the Secretary of Revenue, and the Director of the Office of State Budget and Management. The Committee may only act upon unanimous consent. The Committee is subject to the open meetings law and the public records law. Members of the Committee are forbidden to work for a business that receives a grant under this program for at least two years after the member is no longer on the Committee.

The application for a grant must be under oath, be on a form prescribed by the Committee, and contain any information required by the Committee. At a minimum, the application must contain the following information:

- The name of the business, the proposed location of the project, and the type of activity in which the business will engage at the project site.
- The names and addresses of the principals or management of the business, and the nature of the business, and the form of business organization under which the business is operated.
- The most recent audited financial statements of the business.
- The number of new jobs proposed to be created by the project.
- An estimate of the withholdings of personal income tax of employees of the project.
- Information concerning other possible locations of the project, and the benefits, including tax benefits or grants, associated with locating the project at that other location.
- Information concerning other State grants for which the business is applying or that it expects to receive.
- Certification that the project will not be undertaken in the State without the grant.

A group of related business involved in a project may submit a joint application for a grant under this Part.

Any application for a grant must be accompanied by a fee in the amount of $5,000. This fee will be allocated among the agencies responsible for evaluating the application (Department of Commerce, Department of Revenue, and the Office of State Budget and Management) in the discretion of the Committee.

The Committee will evaluate applications to determine which businesses shall receive grants under this Part. The awarding of a grant is solely in the discretion of the Committee. The Committee shall develop criteria for evaluating applications. These criteria shall take into consideration the economic impact of the project, the strategic importance of the project to the State, region, or locality, the quality of the jobs to be created, the quality of the industry and the project, and the environmental impact of the projects. The Committee is exempt from the rulemaking process in developing these criteria.

The Committee is required to be somewhat selective in which projects with which it chooses to enter into an agreement. The Committee may not enter into more than 25 agreements in any fiscal year. However,

there may be significantly more than 25 agreements outstanding at any time because the term of an agreement may be as long as 15 years.

How is the amount of a grant determined? If the Committee approves a business's application, the Committee will then negotiate and enter into a community economic development agreement with the business. The agreement is a binding commitment on the part of the State to provide the grant for a set number of years, subject to the Committee's right to amend or terminate the agreement under certain limited circumstances. Each agreement shall include a description of the project, the term of the agreement, the number of positions expected to be subject to the grant and a method for determining the number of positions that are subject to the grant, and the amount of the grant as a percentage of the withholdings of personal income tax from eligible positions. The Committee has wide discretion in determining the percentage that determines the amount of a grant under an agreement. The Committee shall develop criteria to be used when negotiating the appropriate percentage. The Committee is exempt from the rulemaking process in developing these criteria. However, at a minimum, the following conditions apply:

- The amount of the grant may not be less than ten percent (10%) or more than eighty percent (80%) of the withholdings associated with new jobs at the project.
- The term of the grant shall not exceed 15 years.
- The percentage used to determine the amount of the grant shall be reduced by one-fourth for any eligible position located in an enterprise tier four or five area.
- Unless the Committee makes a specific determination that the grant should be calculated based on eligible positions created in any year during the term of the agreement, the amount of the grant shall be calculated based only on eligible positions created during the base years, the first two years, of the agreement.
- Unless the Committee makes an explicit finding otherwise, the total amount of all grants provided by the State may not exceed 80% of the withholding of eligible positions.

In addition, the Committee must consider at least the following factors when negotiating an percentage to be used in determining the amount of a grant:

- The number of eligible positions to be created.
- The expected duration of those positions.
- The type of contribution the business can make to the long-term growth of the State's economy.
- The amount of other financial assistance the project will receive from the State or local governments.
- The total dollar investment the business is making in the project.
- Whether the project utilizes existing infrastructure.
- Whether the project is located in a development zone.
- The number of eligible positions that will be filled by residents of a development zone.

Use of funds? There are no restrictions on the use of the grant fund by the business. South Carolina has a similar grant program. Under the South Carolina program, grant funds may be used for certain specific purposes only, such as worker training, worker relocation, purchase or construction of real property, and construction or repairs to certain transportation-related real property.

The withholdings retained by the State shall be used in two different ways. First, the withholdings in excess of the percentage negotiated in the agreement shall flow to the General Fund.[1] Second, the withholdings that are included in the agreement, but that are excluded from the grant because the percentage was reduced by one-fourth because the eligible position is located in an enterprise tier four or five area, will be transferred to the Utility Account of the Industrial Development Fund.[2] Under current law, funds in the Utility Account may be used to assist local governments in tiers one and two in constructing or improving utility lines or equipment (amendments to the law regarding the Industrial Development Fund and the Utility Account are discussed later in this summary).

Follow-up on grantee businesses? This bill provides for monitoring of grantee businesses in several ways and allows the Committee to amend or terminate agreements if the business fails to live up to the terms of the agreement or the requirements of this new Part.

The business must submit annual reports to the Committee. In addition, the Committee may audit at any time a business receiving a grant. At a minimum, the business must submit a copy of its federal and State income tax returns which show business and nonbusiness income, a report that shows withholdings, and a payroll report. This annual submission must also include any additional information the Committee considers necessary to implement the grant program. Finally, this annual submission must include a report on the amount of tonnage of any freight moved in ocean borne commerce that passes through State ports in North Carolina and other United States ports. The report must contain an explanation of why any other U.S. was used rather than the State ports of North Carolina.

This annual submission must be accompanied by a fee of $1,500. The Committee shall allocate the fee among the agencies responsible for evaluating the submission.

The Committee must also obtain information from the Department of Revenue before the disbursement of a grant. The Department of Revenue must certify the amount of withholdings from the eligible business and that the business has no outstanding final assessments against it.

The Committee has a right to amend or terminate the agreement and to recapture all or part of a grant made in previous years under certain circumstances. If the business fails to meet or comply with any term of the agreement or with criteria developed by the Committee, the Committee, in it discretion, may amend the agreement. This amendment may take the form of a lower percentage being used to determine the amount of the grant or of a shorter term for the agreement. If the business fails to meet or comply with any term of the agreement or with criteria developed by the Committee for two consecutive years, the Committee, in its discretion, may terminate the agreement. In addition, in each agreement the Committee must include a provision describing the conditions that will lead to recapture of a grant made in an earlier year. The statute mandates that all agreements contain a provision allowing recapture if the business does

---

1 Even though the maximum percentage that may be used to determine the amount of a grant is 80%, there may be no additional revenue from these positions that would flow to the General Fund. This is because most taxpayers over-withhold, meaning that more taxes are withheld than are actually due, resulting in a refund to the taxpayer. Because of this, a grant based on the maximum percentage of 80% could result in a net loss to the General Fund.

2 The following example will clarify this. Assume a project that is located in an enterprise tier five area is allowed a grant based on 80% of the withholdings of the eligible positions. Because those positions are located in an enterprise tier five area, that percentage is reduced by one-fourth, so that the business is allowed a grant equal to 60% of the withholdings of eligible positions. (80% multiplied by ¾ equals 60%.) Twenty percent of the withholdings of eligible positions would flow to the General Fund, 60% would be given to the business in the form of a grant, and 20% would be transferred to the Utility Account of the Industrial Development Fund.

not maintain operations at the project location or another location approved by the Committee for at least 150% of the term of the grant agreement.

Program evaluation. This bill would require the Committee to make annual reports regarding the program and the funding needed to implement the program. By October 31 of each year, the Committee must publish the following information:

- A listing of each agreement entered into during the previous fiscal year, the cost/benefit analysis conducted with respect to each agreement, a description of each project, and the amount of the initial grant.
- An update on the status of projects under agreements entered into in earlier fiscal years.
- The number, enterprise tier levels, and wage levels of eligible positions created by projects with respect to which grants were awarded.
- The amount of new income tax revenue received by the State related to the projects.
- The criteria developed by the Committee to implement the grant program and in changes in those criteria over the previous year.
- The effectiveness of the program in recruiting new and expanding businesses.
- The environmental impact of businesses that have received grants.
- The geographic distribution of grants, by number and amount.

In addition, the Committee shall conduct a study annually to determine the amount of funding needed to successfully implement the grant program. The results of that study must be reported to the House of Representatives Finance Committee, the Senate Finance Committee, the House of Representatives Appropriations Subcommittee on Natural and Economic Resources, the Senate Appropriations Committee on Natural and Economic Resources, and the Fiscal Research Division no later than March 1 of each year.

Finally, the authority of the Committee to enter into additional agreements expires as of January 1, 2006. This will allow the General Assembly an opportunity to review the program after it has been in effect for a few years in order to determine if the program is meeting its objectives.

Miscellaneous changes associated with the program. Sections 7 and 8 of this bill provide exceptions to current law needed to implement the provision of the grant program.

Section 7 allows an exemption from the confidentiality requirements of the Department of Revenue. Generally, the Department of Revenue must keep confidential all information it receives in the course of administering the tax laws. There are numerous, specific exceptions to this requirement. This bill would allow the Department of Revenue to share information with the Economic Investment Committee relating to businesses that are applying for a grant or that are subject to an agreement.

Section 8 allows the Committee an exemption from the rulemaking process.

Industrial Development Fund changes. Section 6 of this bill makes two significant changes to the Industrial Development Fund and to the Utility Account, which is part of that Fund. The Industrial Development Fund provides assistance to local governments for improvements to infrastructure to enable the locality to attract new businesses. Usually, this assistance is provided to make general improvements, such as improvements to or development of industrial parks, and is not tied to luring a specific project.

First, the purposes for which funds in both the Fund and the Account may be used are expanded to allow expenditures for telecommunications and high-speed broadband lines and equipment. Currently funds under both the Fund and the Account may be used for construction of and improvements to water, sewer,

gas, and electricity lines and equipment. This change recognizes the growing importance to industry of telecommunications and high-speed broadband.

Second, under current law, funds in the Utility Account may be used to assist local governments located in enterprise tiers one and two only. This bill would expand the focus of the Account to allow funds in the Account to be used to assist local governments in enterprise tier three as well.

Property Tax Technical Correction. Section 9 of this bill would correct a statutory reference in two laws dealing with the purposes for which a local government may levy a property tax.

Revenue Laws Study. Section 9.1 of this bill requires the Revenue Laws Study Committee to study the use, the effectiveness, and the cost versus benefit of the Job Development Investment Grant Program, the Bill Lee Act, and the Industrial Recruitment Competitive Fund. Given that the Job Development Investment Grant Program is just starting up, the time frame for the study is longer than usual. Revenue Laws may report to the 2004 Regular Session of the General Assembly and a final report is due by March 15, 2005, to the 2005 General Assembly.

Job Creation Grant Program "See Assumptions and Methodology"

EXPENDITURES: The enactment of the bill is not expected to affect budget requirements of any of the affected agencies.

PRINCIPAL DEPARTMENTS AFFECTED: Department of Revenue, Department of Commerce, Office of State Budget and Management

ISSUE BACKGROUND: The Bill Lee Act is the package of state tax incentives that was first adopted in 1996 and has been modified in each subsequent year. The incentives are primarily in the form of tax credits for investment in machinery and equipment, job creation, worker training, and research/development. The credits apply to activities undertaken by specifically named industrial classifications. For many of the credits, the counties of the State are divided into five economic distress tiers based on the unemployment rate, per capita income, and population growth. In general, the lower the tier of a county, the more favorable the incentive.

BILL SUMMARY:

Restructure Machinery and Equipment Credits. Under current law, the targeted statewide investment tax credit is equal to 7% of eligible investment in machinery and equipment. The credit is taken over seven years and applies to the investment that exceeds a certain threshold. The threshold amount varies by tier as follows:

Tier	Threshold	Credit
1	0	7%
2	100,000	7%
3	200,000	7%
4	500,000	7%
5	1,000,000	7%

The threshold is used first to determine eligibility. In addition, the credit is based on the amount of the investment in machinery and equipment that exceeds the threshold amount. The bill restructures the credit rate and threshold by increasing the minimum investment threshold in Tiers 4 and 5 and lowers the credit percentage in Tiers 3 through 5. The new credit schedule would be as follows:

Tier	Threshold	Credit
1	0	7%
2	100,000	7%
3	200,000	6%
4	1,000,000	5%
5	2,000,000	4%

The change is effective for business activities that occur on or after January 1, 2003, but not for those activities occurring on or after that date that are subject to a letter of commitment signed before the date.

Worker Training Credit Wage Test. In order to be eligible for Lee Act credits, taxpayers must meet certain wage tests. These tests are based on the average wage of the company's jobs, calculated based on all jobs at an establishment. The bill eliminates the wage test for the worker training credit. The change is effective for tax years beginning on or after January 1, 2003.

Eliminate Wage Test for Tiers 1 and 2. Under current law, taxpayers applying for the Lee Act credits must meet 100% of the wage standard in Tier 1 and exceed 110% of the wage standard in

the remaining tiers. The bill eliminates the wage standard for Tiers 1 and 2. The change is effective for tax years beginning on or after January 1, 2003.

Development Zone Technical Change. Enhanced Lee Act credits are allowed for projects in development zones (high poverty areas). The bill indicates that a parcel of property partially located in a development zone is considered entirely within the zone if all of the following conditions are met: (1) at least 50% of the parcel is located within the zone; (2) the parcel was in existence and under common ownership prior to the most recent population census; and (3) the parcel is a portion of land made up of one or more tracts or tax parcels of land that is surrounded by a continuous perimeter boundary. This change becomes effective July 1, 2002.

Job Development Investment Grant Program. Establishes the Job Development Investment Grant Program to be administered by the Economic Investment Committee. Under the program, the Committee may enter into agreements with businesses to provide grants in the form of withholding tax payment givebacks. Before entering into an agreement, the Committee must find that all the following conditions are met:

(1) The project proposed by the business will create, during the term of the agreement, a net increase in employment in this State.
(2) The project will benefit the people of the state by increasing employment opportunities and by strengthening the state's economy.
(3) The project is consistent with economic development goals for the State and for the area where it will be located.
(4) A grand is necessary for the completion of the project in North Carolina.
(5) The total benefits of the project to the State outweigh its costs and render the grant appropriate for the project.

The number of agreements the Committee may enter into during a state fiscal year is limited to 25.

A business may apply to the Committee for a grant for any project that creates the minimum number of eligible positions as set out in the table below. If the project will be located in more than one enterprise tier area, the location with the highest enterprise tier area designation determines the minimum number of eligible positions that must be created.

Enterprise Tier Area	Number of Eligible Positions
Tier One	10
Tier Two	10
Tier Three	10
Tier Four	20
Tier Five	20

A project that consists solely of retail facilities is not eligible for a grant. If a project consists of both retail facilities and non-retail facilities, only the portion of the project consisting of non-retail facilities is eligible for a grant, and only the withholdings from employees in eligible positions that are employed exclusively in the portion of the project that represents non-retail facilities may be used to determine the amount of the grant. If a warehouse facility is part of a

retail facility and supplies only that retail facility, the warehouse facility is not eligible for a grant. Catalog distribution centers are not considered retail facilities.

Just like the Bill Lee Act, a business must provide health insurance for all of the full-time employees of the project for which the grant is made. In addition, the average wage for all jobs at the location with respect to which the grant is sought must meet the Lee Act wage standard and the business and related members must not have any outstanding final state tax assessments against it.

The Economic Investment Committee will consist of the following members:

(1) The Secretary of Commerce.
(2) The Secretary of Revenue.
(3) The Director of the Office of State Budget and Management.

The Committee may act only upon the unanimous consent of the members. A business shall apply, under oath, to the Committee for a grant on a form prescribed by the Committee that includes at least all the following:

(1) The name of the business, the proposed location of the project, and the type of activity in which the business will engage at the project site or sites.
(2) The names and addresses of the principals or management of the business, the nature of the business, and the form of business organization under which it is operated.
(3) The most recent audited financial statements of the business and any other financial information the Committee considers necessary.
(4) The number of eligible positions proposed to be created during the base years and thereafter, and the salaries for these positions.
(5) An estimate of the total withholdings.
(6) Information concerning other states being considered for the project and the nature of any benefits the company would enjoy as a result of locating in those states.
(7) Certification that the business will provide health insurance to all full-time employees of the project.
(8) Information concerning any other state or local government incentives for which the business is applying or that it has an expectation of receiving.
(9) Certification that the project will not be undertaken in North Carolina unless the applicant is awarded a grant.
(10) Any other information necessary for the Committee to evaluate the application.

A business may apply, in one consolidated application in a form and manner determined by the Committee, for a grant on its own behalf as a business and for grants on behalf of the related members of the business who may qualify.

The Committee will consider a application by a business for grants on behalf of its related members only if the related members for whom the application is submitted have assigned to the business any claim of right the related members may have under this program to apply for grants individually during the term of the agreement and have agreed to cooperate with the business in providing to the Committee all the information required for the initial application and the agreement, and any other information the Committee may require. The applicant business is responsible for providing to the Committee all the information required.

If a business applies for a grant on behalf of its related members, the related members included in the application may be permitted to meet the qualifications for a grant collectively by participating in a project that meets the requirements of the program. The amount of a grant may be calculated as if the related members were all collectively one business entity. Any conditions for a grant, other than the number of eligible positions created, apply to each related member who is listed in the application as participating in the project. The grants awarded shall be paid to the applicant business. A grant received by a business may be apportioned to the related members in a manner determined by the business. In order for an agreement to be executed, each related member included in the application must sign the agreement and agree to abide by its terms.

When filing an application under this section the business must pay the Committee a fee of $5,000. The fee is due at the time the application is filed. The Committee shall determine the allocation of the fee imposed by this section among the agencies responsible for evaluating the application. The proceeds of the fee are receipts of the agency to which they are credited.

The bill establishes extensive reporting requirements for the Committee.

The Committee is required to conduct a study to determine the minimum funding level required to implement the program successfully and to report the results of this study no later than March 1 of each year.

The amount of the grant awarded in each case shall be a percentage of the withholdings of eligible positions. The percentage shall be no less than 10% and no more than 80% of the withholdings of the eligible positions for a period of years. The percentage used to determine the amount of the grant shall be based on criteria developed by the Committee after considering the following:

(1) The number of eligible positions to be created.
(2) The expected duration of those positions.
(3) The type of contribution the business can make to the long-term growth of the State's economy.
(4) The amount of other financial assistance the business will receive from the State for the project.
(5) The total dollar investment the business is making in the project.
(6) Whether the project uses existing infrastructure and resources in the community
(7) Whether the project is located in a development zone

(8) The number of eligible positions that would be filled by residents of a development zone.

The term of the grant shall not exceed 15 years starting with the first year a grant is made.

The grant percentage may be based only on eligible positions created during the base years (first two years of program) unless the Committee makes an explicit determination that the grant shall also be based on additional eligible positions created during the remainder of the term of the grant.

The percentage established in the agreement shall be reduced by 25% for any eligible position that is located in an enterprise tier four or five area.

A business that is receiving any other grant by operation of State law may not receive grant monies under this program if the total state grants exceed (80%) of the withholdings of the business, unless the Committee makes an explicit finding that the additional grant is necessary to secure the project.

Each community economic development agreement shall include the following:

(1) A detailed description of the proposed project that will result in job creation and the number of new employees to be hired in the base years and later years.
(2) The term of the grant and the criteria used to determine the first year for which the grant may be claimed.
(3) The number of eligible positions that are subjects of the grant and a description of those positions and the location of those positions.
(4) The amount of the grant based on a percentage of withholdings.
(5) A method for determining the number of new employees hired during a grant year.
(6) A method for the business to report annually to the Committee the number of eligible positions for which the grant is to be made.
(7) A requirement that the business report to the Committee annually the aggregate amount of withholdings during the grant year.
(8) A provision permitting an audit of the payroll records of the business by the Committee from time to time as the Committee considers necessary.
(9) A provision that permits the Committee to amend an agreement pursuant to certain guidelines.
(10) A provision that requires the business to maintain operations at the project location or another location approved by the Committee for at least 150% of the term of the grant and a provision to permit the Committee to recapture all or part of the grant at its discretion if the business does not remain at the site for the required term.
(11) A provision that requires the business to maintain employment levels in this State at the level of the year immediately preceding the base years.
(12) A provision establishing the conditions under which the grant agreement may be terminated and grant funds recaptured by the Committee.
(13) A provision stating that unless the agreement is amended or terminated the agreement is binding and constitutes a pledge and a continuing appropriation of the amount of the grant.
(14) A provision setting out any allowed variation in terms of the agreement that will not subject the business the business to amendment or termination of the agreement.

A community economic development agreement may contain the following:

(1) A provision setting out allowed variation in the terms of the agreement that will not subject the business to amendment or termination of the agreement
(2) A provision that allows the Committee to consider entering into an additional agreement with the business within five years after the execution of the agreement regardless of whether the program is still in effect at that time if all of the following conditions are met:

a. The business's decision to locate in North Carolina is contingent upon the ability to have a later project considered for a grant.

b. The later project is described in detail in the agreement. This description must include the nature of the additional project, the anticipated investment and new jobs associated with the later project, the anticipated location of the later project, the anticipated wage of the new jobs, and the relationship of the later project to the business's current project.

c. The later project will create at least 75 new jobs in counties currently designated as enterprise tier one, two, or three areas, or 150 new jobs in counties currently designated as enterprise tier four and five areas.

If the current program is still in effect at the time the business applies for a grant for the later project, the business must apply for a grant as it exists at that time. If the current grant program is no longer in effect at the time the business applies for a grant for the later project, the business must apply for a grant according to the provisions of the grant program as it existed immediately before it was repealed or otherwise became ineffective.

No later than February 1 of each year, for the preceding grant year, every business that is awarded a grant shall submit to the Committee a copy of its State and federal tax returns showing business and nonbusiness income and a report showing withholdings as a condition of its continuation in the grant program. In addition, the business shall submit to the Committee an annual payroll report showing the eligible positions that are created during the base years and the new eligible positions created during each subsequent year of the grant. When making a submission under this section the business must pay the Committee a fee of $1,500. The fee is due at the time the submission is made. The Committee shall determine the allocation of the fee imposed by this section among the agencies responsible for evaluating the submission. The proceeds of the fee are receipts of the agency to which they are credited.

The Committee may require any information that it considers necessary to effectuate the provisions of this program. The Committee may audit any business receiving a grant at any time.

If the business receiving a grant fails to meet or comply with any condition or requirement set forth in an agreement or with criteria developed by the Committee, the Committee may amend the agreement to reduce the amount of the grant or the term of the agreement. The reduction of the grant is applicable to the grant year immediately following the grant year in which the Committee amends the agreement.

If a business fails to maintain employment at the levels stipulated in the agreement or otherwise fails to comply with any condition of the agreement for any two consecutive years, the Committee may terminate the agreement.

A qualifying business may receive an annual disbursement of a grant only after the Committee has certified to the State Controller that the business has met the terms and conditions of the agreement. No amount shall be disbursed to a business as a grant under this program in any year until the Secretary of Revenue has certified to the Committee the amount of withholdings

received in that year by the Department of Revenue from the business. A qualifying business that has met the terms of the agreement shall make an annual certification of this to the Committee. The Committee shall verify this information and certify to the State Controller that the terms of the agreement have been met. The Committee shall further certify to the State Controller the amount of a grant for which the business is eligible under the agreement and the amount of a grant for which the business would be eligible under the agreement without regard to the 25% grant reduction in Tiers 4 and 5. The State Controller shall remit a check to the business in the amount of the certified grant amount within 90 days of receiving the certification of the Committee.

At the time the State Controller remits a check to a business, the State Controller shall transfer to the Utility Account of the Industrial Development Fund an amount equal to the amount certified by the Committee as the difference between the amount of the grant and the amount of the grant for which the business would be eligible without regard to the 25% reduction for Tiers 4 and 5.

In developing criteria for the awarding of grants and for determining the percentage upon which the amount of a grant is based, the Economic Investment Committee shall consider criteria that address the following:

(1) Economic impact of the project.
   a. Impact on gross regional product and gross State product.
   b. Costs and benefits of the project to the State, including the expected return on investment made in the project by the State.
   c. Number of direct jobs that will be created by the project, the wages of those jobs, and the total payroll for the project.
   d. Number of induced short-term, project-related jobs expected to be generated by the project as well as the number of long-term permanent jobs expected to be generated indirectly in the economy as a result of the project.
   e. Dollar value of the investment, including the size of the investment in real versus personal property and expected depreciation rates.
   f. Economic circumstances of the county and region, including the extent to which the project will serve to mitigate unemployment.
   g. The expected time frame during which the project is expected to pay back in State tax revenues the amount of any grants to be paid out.
   h. The economic demands the project is expected to place upon the community or communities in which it will locate.
   i. The number of eligible positions that would be filled by residents of development zones.

(2) Strategic importance of the project to the State, region, or locality.
   a. The extent to which the project builds or enhances an industrial cluster.
   b. The extent to which the project falls within a classification of business and industry that the Department of Commerce regards as a target for growth and expansion in the State.

c. The ability of the project to attract follow-on investment in the State by suppliers and vendors.
d. The extent to which the project serves to maintain and grow jobs in the State in a business undergoing an internal restructuring or rationalization process.
e. The extent to which the project can be expected to contribute significantly to and support the local community.

(3) Quality of jobs.
a. The wage level and status of the jobs to be created.
b. The quality and value of benefits offered by the company.
c. The potential for employee advancement.
d. The extent of training programs offered by the company.
e. The sustainability of the jobs in the future.
f. The workplace safety record of the company.

(4) Quality of the industry and the project.
a. The nature of the project and the projects' relationship to the larger business of the company.
b. The nature of the industrial classification of the project and the nature of the business of the company undertaking it.
c. The long-term prospects for growth at the project site or sites.
d. The long-term prospects for growth of the company and the industry within the United States.
e. The financial stability of the company associated with the project.

(5) Environmental impact of the project.
a. The nature of the business to be conducted.
b. The ability of the project to satisfy State, federal, and local environmental law and regulations.

The bill also makes two changes to the Industrial Development Fund (IDF) and to the Utility Account, which is part of that Fund. The IDF provides assistance to local governments for improvements to infrastructure to enable the locality to attract new businesses. Usually, this assistance is provided to make general improvements, such as improvements to or development of industrial parks, and is not tied to luring a specific project.

The first change is to expand the purposes for which funds in both the Fund and the Account may be used to allow expenditures for telecommunications and high-speed broadband lines and equipment. In addition, the bill would expand the focus of the Utility Account to allow funds to be used to assist local governments in enterprise Tier 3 as well as Tiers 1 and 2 (current law).

The provisions dealing with the job development investment grant are effective when the bill becomes law.

ASSUMPTIONS AND METHODOLOGY:

Bill Lee Act Changes. The fiscal impact estimates for the proposals modifying the Bill Lee Act are based on a sampling of 1999 tax returns filed by businesses reporting or claiming Lee Act credits. The sampling was carried out by the Department of Commerce, based on a universe of 566 firms claiming credits, and was based on scientific methodology. The actual sample size represented 39% of the firms. Since some firms in the sample had facilities at two or more sites, there were a total of 260 locations included in the sample.

Job Development Investment Grant. This initiative represents a significant change from the structure of the Bill Lee Act incentives. Eligibility language in the bill leaves the determination to the Economic Investment Committee. This committee will have broad discretion to negotiate the terms of an agreement, including the amount of the grant and the number of years for which the grant is provided. This makes it impossible to determine the dollar cost of the grant program, even with the limitation of 25 projects during any state fiscal year.

In lieu of an actual projection, the Department of Commerce developed a simulation of the impacts under a specific set of assumptions. The first step in the model was a discussion with industrial recruitment personnel within Commerce. This discussion suggested approximately 140 prospects per year. Of this amount it was assumed that about 70 would be new projects of interest under the program. The next step was to assume 30 would qualify for a grant, with 22 of the projects resulting in an actual agreement. Of this total, 10 units would be located in Tiers 4 and 5 and the remaining 12 projects would be allocated equally to Tiers 1 through 3. For the new jobs in Tiers 4 and 5, an average salary of $40,000 was used. The salary amount for Tiers 1 through 3 was $30,000. The model assumed that withholding taxes would amount to 6% of total salary. Each project was based on 200 employees. Annual salary growth of 4% was use by Fiscal Research in lieu of the 3% rate in the Commerce simulation. Finally, the term of the grant was assumed to be 10 years.

A BILL TO BE ENTITLED

AN ACT TO RAISE THE INVESTMENT THRESHOLD FOR THE CREDIT FOR INVESTING IN MACHINERY AND EQUIPMENT; TO ESTABLISH TIERED RATES FOR THE CREDIT FOR INVESTING IN MACHINERY AND EQUIPMENT; TO REQUIRE A TAXPAYER AND ITS RELATED ENTITIES TO SATISFY ANY OUTSTANDING STATE TAX ASSESSMENTS BEFORE RECEIVING A BILL LEE ACT CREDIT; TO MODIFY THE WAGE STANDARD FOR THE CREDIT FOR WORKER TRAINING; TO MODIFY THE WAGE STANDARD FOR ENTERPRISE TIER ONE AND TWO COUNTIES; TO MODIFY THE WAGE STANDARD FOR TAXPAYERS WITH A TAX YEAR OTHER THAN A CALENDAR YEAR; TO TREAT CERTAIN PARCELS OF LAND PARTIALLY LOCATED IN A DEVELOPMENT ZONE AS IF THE ENTIRE PARCEL WERE LOCATED WITHIN THE DEVELOPMENT ZONE; TO ENACT A JOB DEVELOPMENT INVESTMENT GRANT PROGRAM TO PROVIDE ECONOMIC STIMULUS, TO CREATE JOBS, AND TO AID IN THE DEVELOPMENT OF BUSINESS AND INDUSTRIAL PROJECTS AND EXPANSIONS IN NORTH CAROLINA; TO MODIFY THE INDUSTRIAL DEVELOPMENT FUND TO ALLOW FOR EXPENDITURES RELATED TO TELECOMMUNICATIONS AND BROADBAND LINES AND EQUIPMENT AND TO ALLOW FOR EXPENDITURES FROM THE UTILITY ACCOUNT IN ENTERPRISE TIER THREE AREAS; AND TO MAKE A TECHNICAL CORRECTION REGARDING THE AUTHORITY OF A LOCAL GOVERNMENT TO LEVY A PROPERTY TAX FOR ECONOMIC DEVELOPMENT.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 105-129.9(a) and (c) read as rewritten:

"(a) General Credit. – If a taxpayer that has purchased or leased eligible machinery and equipment places them in service in this State during the taxable year, the taxpayer is allowed a credit equal to ~~seven percent (7%)~~ the applicable percentage of

the excess of the eligible investment amount over the applicable threshold. Machinery and equipment are eligible if they are capitalized by the taxpayer for tax purposes under the Code and not leased to another party. In addition, in the case of a large investment, machinery and equipment that are not capitalized by the taxpayer are eligible if the taxpayer leases them from another party. The credit may not be taken for the taxable year in which the machinery and equipment are placed in service but shall be taken in equal installments over the seven years following the taxable year in which they are placed in service. The applicable percentage is as follows:

Area Enterprise Tier	Applicable Percentage
Tier One	7%
Tier Two	7%
Tier Three	6%
Tier Four	5%
Tier Five	4%

...

(c) Threshold. – The applicable threshold is the appropriate amount set out in the following table based on the enterprise tier where the eligible machinery and equipment are placed in service during the taxable year. If the taxpayer places eligible machinery and equipment in service at more than one establishment in an enterprise tier during the taxable year, the threshold applies separately to the eligible machinery and equipment placed in service at each establishment. If the taxpayer places eligible machinery and equipment in service at an establishment over the course of a two-year period, the applicable threshold for the second taxable year is reduced by the eligible investment amount for the previous taxable year.

Area Enterprise Tier	Threshold
Tier One	$ -0-
Tier Two	100,000
Tier Three	200,000
Tier Four	~~500,000~~1,000,000
Tier Five	~~1,000,000~~2,000,000"

SECTION 1.1. G.S. 105-129.4 is amended by adding a new subsection to read:

"(b6) Final Assessments. – A taxpayer is not eligible for a credit allowed under this Article if, at the time the taxpayer claims an installment or carryforward of the credit, the taxpayer or a related entity of the taxpayer has received a notice of final assessment and that assessment has not been satisfied or otherwise resolved."

SECTION 2. G.S. 105-129.4(b) reads as rewritten:

"(b) Wage Standard. – A taxpayer is eligible for the credit for creating jobs ~~or the credit for worker training~~ in an enterprise tier three, four, or five area if, for the calendar year the jobs are ~~created or the worker training is provided,~~created, the average wage of the jobs for which the credit is claimed meets the wage standard and the average wage of all jobs at the location with respect to which the credit is claimed meets the wage standard. No credit is allowed for jobs not included in the wage calculation. A taxpayer is eligible for the credit for investing in machinery and equipment, the credit for

research and development, or the credit for investing in real property for a central office or aircraft ~~facility, or the credit for substantial investment in other property~~facility in a tier three, four, or five area if, for the calendar year the taxpayer engages in the activity that qualifies for the credit, the average wage of all jobs at the location with respect to which the credit is claimed meets the wage standard. In making the wage calculation, the taxpayer must include any positions that were filled for at least 1,600 hours during the calendar year the taxpayer engages in the activity that qualifies for the credit even if those positions are not filled at the time the taxpayer claims the credit. For a taxpayer with a taxable year other than a calendar year, the taxpayer must use the wage standard for the calendar year in which the taxable year begins. No wage standard applies to credits for activities in an enterprise tier one or two area.

Jobs meet the wage standard if they pay an average weekly wage that is at least equal to ~~the applicable percentage times~~one hundred ten percent (110%) of the applicable average weekly wage for the county in which the jobs will be located, as computed by the Secretary of Commerce from data compiled by the Employment Security Commission for the most recent period for which data are available. ~~The applicable percentage for jobs located in an enterprise tier one area is one hundred percent (100%). The applicable percentage for all other jobs is one hundred ten percent (110%).~~ The applicable average weekly wage is the lowest of the following: (i) the average wage for all insured private employers in the county, (ii) the average wage for all insured private employers in the State, and (iii) the average wage for all insured private employers in the county multiplied by the county income/wage adjustment factor. The county income/wage adjustment factor is the county income/wage ratio divided by the State income/wage ratio. The county income/wage ratio is average per capita income in the county divided by the annualized average wage for all insured private employers in the county. The State income/wage ratio is the average per capita income in the State divided by the annualized average wage for all insured private employers in the State. The Department of Commerce must annually publish the wage standard for each county."

SECTION 3. G.S. 105-129.3A is amended by adding a new subsection to read:

"(d) Parcel of Property Partially in a Development Zone. – For the purposes of this section, a parcel of property that is located partially within a development zone is considered entirely within the development zone if all of the following conditions are satisfied:

(1) At least fifty percent (50%) of the parcel is located within the development zone.

(2) The parcel was in existence and under common ownership prior to the most recent federal decennial census.

(3) The parcel is a portion of land made up of one or more tracts or tax parcels of land that is surrounded by a continuous perimeter boundary."

SECTION 4. In addition to heightening the incentive effect of the William S. Lee Quality Jobs and Business Expansion Act in lower-tiered counties, the changes

in Section 1 of this act are intended to reduce the cost of the Act and make more revenues available to the State of North Carolina in future years. It is the intent of the General Assembly in making these changes to provide a source of funds that could be used in future years to support other, more targeted economic development programs aimed at helping create new jobs in North Carolina.

SECTION 5.(a) Article 10 of Chapter 143B of the General Statutes is amended by adding a new Part to read:

"Part 2F.

"Job Development Investment Grant Program.

"**§ 143B-437.44. Legislative findings and purpose.**

The General Assembly finds that:

(1) It is the policy of the State of North Carolina to stimulate economic activity and to create new jobs for the citizens of the State by encouraging and promoting the expansion of existing business and industry within the State and by recruiting and attracting new business and industry to the State.

(2) Both short-term and long-term economic trends at the State, national, and international levels have made the successful implementation of the State's economic development policy and programs both more critical and more challenging; and the decline in the State's traditional industries, and the resulting adverse impact upon the State and its citizens, have been exacerbated in recent years by adverse national and State economic trends that contribute to the reduction in the State's industrial base and that inhibit the State's ability to sustain or attract new and expanding businesses.

(3) The economic condition of the State is not static and recent changes in the State's economic condition have created economic distress that requires a reevaluation of certain existing State programs and the enactment of a new program as provided in this Part that are designed to stimulate new economic activity and to create new jobs within the State.

(4) The enactment of this Part is necessary to stimulate the economy, facilitate economic recovery, and create new jobs in North Carolina; and this Part will promote the general welfare and confer, as its primary purpose and effect, benefits on citizens throughout the State through the creation of new jobs, an enlargement of the overall tax base, an expansion and diversification of the State's industrial base, and an increase in revenue to the State and its political subdivisions.

(5) The purpose of this Part is to stimulate economic activity and to create new jobs within the State.

(6) It is not the intent of the General Assembly that grants provided through this Part be used as venture capital funds, business incubator funds, or business start-up funds or to otherwise fund the initial capitalization needs of new businesses.

(7) Nothing in this Part shall be construed to constitute a guarantee or assumption by the State of any debt of any business or to authorize the taxing power or the full faith and credit of the State to be pledged.

"**§ 143B-437.45. Definitions.**

The following definitions apply in this Part:

(1) Agreement. – A community economic development agreement under G.S. 143B-437.51.

(2) Base years. – The first two complete calendar years following the effective date of an agreement.

(3) Business. – A corporation, sole proprietorship, cooperative association, partnership, S corporation, limited liability company, nonprofit corporation, or other form of business organization, located either within or outside this State.

(4) Committee. – The Economic Investment Committee established pursuant to G.S. 143B-437.48.

(5) Eligible position. – A position created by a business and filled by a new full-time employee in this State during the base years or in subsequent years of a grant.

(6) Full-time employee. – A person who is employed for consideration for at least 35 hours a week, whose wages are subject to withholding under Article 4A of Chapter 105 of the General Statutes, and who is determined by the Committee to be employed in a permanent position according to criteria it develops. The term does not include any person who works as an independent contractor or on a consulting basis for the business.

(7) New employee. – A full-time employee who represents a net increase in the number of the business's employees statewide and who is first employed on the project that is the subject of an agreement. The term includes an employee rehired or called back from a layoff that occurs during or following the base years to a vacant position previously held by that employee or to a new position established during or following the base years.

(8) Related member. – Defined in G.S. 105-130.7A.

(9) Withholdings. – The amount withheld by a business from the wages of employees in eligible positions under Article 4A of Chapter 105 of the General Statutes.

"**§ 143B-437.46. Job Development Investment Grant Program.**

(a) Program. – There is established the Job Development Investment Grant Program to be administered by the Economic Investment Committee. In order to foster job creation and investment in the economy of this State, the Committee may enter into negotiated agreements with businesses to provide grants in accordance with the provisions of this Part. The Committee shall develop criteria to be used in determining whether the conditions of this section are satisfied and whether the project described in

the application is otherwise consistent with the purposes of this Part. Before entering into an agreement, the Committee must find that all the following conditions are met:

(1) The project proposed by the business will create, during the term of the agreement, a net increase in employment in this State by the business.

(2) The project will benefit the people of this State by increasing opportunities for employment and by strengthening this State's economy by, for example, providing worker training opportunities, constructing and enhancing critical infrastructure, increasing development in strategically important industries, or increasing the State and local tax base.

(3) The project is consistent with economic development goals for the State and for the area where it will be located.

(4) A grant under this Part is necessary for the completion of the project in this State.

(5) The total benefits of the project to the State outweigh its costs and render the grant appropriate for the project.

(b) Cap. – The maximum number of agreements the Committee may enter into each fiscal year is 25.

"**§ 143B-437.47. Eligible projects.**

(a) Minimum Number of Eligible Positions. – A business may apply to the Committee for a grant for any project that creates the minimum number of eligible positions as set out in the table below. If the project will be located in more than one enterprise tier area, the location with the highest enterprise tier area designation determines the minimum number of eligible positions that must be created.

Enterprise Tier Area	Number of Eligible Positions
Tier One	10
Tier Two	10
Tier Three	10
Tier Four	20
Tier Five	20

(b) Nonretail Facilities. – A project that consists solely of retail facilities is not eligible for a grant under this Part. If a project consists of both retail facilities and nonretail facilities, only the portion of the project consisting of nonretail facilities is eligible for a grant, and only the withholdings from employees in eligible positions that are employed exclusively in the portion of the project that represents nonretail facilities may be used to determine the amount of the grant. If a warehouse facility is part of a retail facility and supplies only that retail facility, the warehouse facility is not eligible for a grant. For the purposes of this Part, catalog distribution centers are not retail facilities.

(c) Health Insurance. – A business is eligible for a grant under this Part only if the business provides health insurance for all of the full-time employees of the project with respect to which the grant is made. For the purposes of this subsection, a business provides health insurance if it pays at least fifty percent (50%) of the premiums for health care coverage that equals or exceeds the minimum provisions of the basic health

care plan of coverage recommended by the Small Employer Carrier Committee pursuant to G.S. 58-50-125.

Each year that a business receives a grant under this Part, the business must provide with the submission required under G.S. 143B-437.52 a certification that the business continues to provide health insurance for all full-time employees of the project with respect to which the grant is made. If the business ceases to provide health insurance to all full-time employees of the project with respect to which a grant is made, the Committee may amend or terminate the agreement as provided in G.S. 143B-437.53.

(d) Wage Standard. – In order for a business to be eligible for a grant under this Part, the average wage of all jobs at the location with respect to which a grant is made must meet the wage standard set out in G.S. 105-129.4(b). If a project is to be located at more than one location, the average wage of all jobs at a location must meet the wage standard set out in G.S. 105-129.4(b) in order for that location to be included in the agreement.

"**§ 143B-437.48. Economic Investment Committee established.**

(a) Membership. – The Economic Investment Committee is established. The Committee consists of the following members:

(1) The Secretary of Commerce.

(2) The Secretary of Revenue.

(3) The Director of the Office of State Budget and Management.

(b) Unanimous Decision Required. – The Committee may act only upon a unanimous decision of its members.

(c) Conflict of Interest. – It is unlawful for a former member of the Committee to, within two years after the end of service on the Committee, provide services for compensation, as an employee, consultant, or otherwise, to any business or a related member of the business that was awarded a grant under this Part while the former member was serving on the Committee. Violation of this subsection is a Class 1 misdemeanor.

(d) Sunshine. – Meetings of the Committee are subject to the open meetings requirements of Article 33C of Chapter 143 of the General Statutes. All documents of the Committee, including applications for grants, are public records governed by Chapter 132 of the General Statutes, including applicable provisions of that Chapter protecting confidential information.

"**§ 143B-437.49. Applications; fees; reports; study.**

(a) Application. – A business shall apply, under oath, to the Committee for a grant on a form prescribed by the Committee that includes at least all of the following:

(1) The name of the business, the proposed location of the project, and the type of activity in which the business will engage at the project site or sites.

(3) The most recent audited financial statements of the business and any other financial information the Committee considers necessary.

(4) The number of eligible positions proposed to be created during the base years and thereafter and the salaries for these positions.
(5) An estimate of the total withholdings.
(6) Certification that the business will provide health insurance to all full-time employees of the project.
(7) Information concerning other locations, including locations in other states and countries, being considered for the project and the nature of any benefits that would accrue to the business if the project were to be located in one of those locations.
(8) Information concerning any other State or local government incentives for which the business is applying or that it has an expectation of receiving.
(9) Any other information necessary for the Committee to evaluate the application.
(10) Certification that the project will not be undertaken in North Carolina unless the applicant is awarded a grant.

A business may apply, in one consolidated application in a form and manner determined by the Committee, for a grant on its own behalf as a business and for grants on behalf of the related members of the business who may qualify under this Part.

The Committee will consider an application by a business for grants on behalf of its related members only if the related members for whom the application is submitted have assigned to the business any claim of right the related members may have under this Part to apply for grants individually during the term of the agreement and have agreed to cooperate with the business in providing to the Committee all the information required for the initial application and the agreement, and any other information the Committee may require for the purposes of this Part. The applicant business is responsible for providing to the Committee all the information required under this Part.

If a business applies for a grant on behalf of its related members, the related members included in the application may be permitted to meet the qualifications for a grant collectively by participating in a project that meets the requirements of this Part. The amount of a grant may be calculated under the terms of this Part as if the related members were all collectively one business entity. Any conditions for a grant, other than the number of eligible positions created, apply to each related member who is listed in the application as participating in the project. The grants awarded shall be paid to the applicant business. A grant received under this Part by a business may be apportioned to the related members in a manner determined by the business. In order for an agreement to be executed, each related member included in the application must sign the agreement and agree to abide by its terms.

(b) Application Fee. – When filing an application under this section, the business must pay the Committee a fee of five thousand dollars ($5,000). The fee is due at the time the application is filed. The Committee shall determine the allocation of the fee imposed by this section among the agencies whose heads make up the Committee. The proceeds of the fee are receipts of the agency to which they are credited.

(c) Reports. – The Committee shall publish a report on the Job Development Investment Grant Program on or before October 31 of each year. The report shall include the following:

(1) A listing of each community economic development agreement negotiated and entered into during the preceding fiscal year, including the cost/benefit analysis conducted by the Committee during the application process, a description of the project, and the amount of the grant made under the agreement during that year.

(2) An update on the status of projects under agreements entered into before the preceding fiscal year.

(3) The number and enterprise tier area of eligible positions created by projects with respect to which grants were awarded.

(4) The wage levels of eligible positions created by projects with respect to which grants were awarded.

(5) The amount of new income tax revenue received from withholdings related to the projects for which grants were awarded.

(6) The criteria developed by the Committee to implement this Part and any changes in those criteria from the previous fiscal year.

(7) The effectiveness of the program in recruiting new and expanding businesses.

(8) The environmental impact of businesses that have received grants under the program.

(9) The geographic distribution of grants, by number and amount, awarded under the program.

(d) Study. – The Committee shall conduct a study to determine the minimum funding level required to implement the Job Development Investment Grant Program successfully. The Committee shall report the results of this study to the House of Representatives Finance Committee, the Senate Finance Committee, the House of Representatives Appropriations Subcommittee on Natural and Economic Resources, the Senate Appropriations Committee on Natural and Economic Resources, and the Fiscal Research Division no later than March 1 of each year.

"**§ 143B-437.50. Calculation of minimum and maximum grants; factors considered.**

(a) Subject to the limitations of subsection (d) of this section, the amount of the grant awarded in each case shall be a percentage of the withholdings of eligible positions. The percentage shall be no less than ten percent (10%) and no more than eighty percent (80%) of the withholdings of the eligible positions for a period of years. The percentage used to determine the amount of the grant shall be based on criteria developed by the Committee after considering at least the following:

(1) The number of eligible positions to be created.

(2) The expected duration of those positions.

(3) The type of contribution the business can make to the long-term growth of the State's economy.

(4) The amount of other financial assistance the project will receive from the State or local governments.

(5) The total dollar investment the business is making in the project.
(6) Whether the project utilizes existing infrastructure and resources in the community.
(7) Whether the project is located in a development zone.
(8) The number of eligible positions that would be filled by residents of a development zone.

(b) The term of the grant shall not exceed 15 years starting with the first year a grant is made.

(d) The percentage established in the agreement shall be reduced by one-fourth for any eligible position that is located in an enterprise tier four or five area.

(e) A business that is receiving any other grant by operation of State law may not receive an amount as a grant pursuant to this Part that, when combined with any other grants, exceeds eighty percent (80%) of the withholdings of the business, unless the Committee makes an explicit finding that the additional grant is necessary to secure the project.

"**§ 143B-437.51. Community economic development agreement.**

Each community economic development agreement shall include at least the following:

(1) A detailed description of the proposed project that will result in job creation and the number of new employees to be hired in the base years and later years.

(7) A requirement that the business report to the Committee annually the aggregate amount of withholdings during the grant year.
(8) A provision permitting an audit of the payroll records of the business by the Committee from time to time as the Committee considers necessary.
(9) A provision that permits the Committee to amend an agreement pursuant to G.S. 143B-437.53.
(10) A provision that requires the business to maintain operations at the project location or another location approved by the Committee for at least one hundred fifty percent (150%) of the term of the grant and a

provision to permit the Committee to recapture all or part of the grant at its discretion if the business does not remain at the site for the required term.

(11) A provision that requires the business to maintain employment levels in this State at the level of the year immediately preceding the base years.

(12) A provision establishing the conditions under which the grant agreement may be terminated, in addition to those under G.S. 143B-437.53, and under which grant funds may be recaptured by the Committee.

(13) A provision stating that unless the agreement is amended or terminated pursuant to G.S. 143B-437.53, the agreement is binding and constitutes a pledge and a continuing appropriation of the amount of the grant.

(14) A provision setting out any allowed variation in the terms of the agreement that will not subject the business to amendment or termination of the agreement under G.S. 143B-437.53.

"**§ 143B-437.52. Grant recipient to submit records.**

(a) No later than February 1 of each year, for the preceding grant year, every business that is awarded a grant under this Part shall submit to the Committee a copy of its State and federal tax returns showing business and nonbusiness income and a report showing withholdings as a condition of its continuation in the grant program. In addition, the business shall submit to the Committee an annual payroll report showing the eligible positions that are created during the base years and the new eligible positions created during each subsequent year of the grant. When making a submission under this section, the business must pay the Committee a fee of one thousand five hundred dollars ($1,500). The fee is due at the time the submission is made. The Committee shall determine the allocation of the fee imposed by this section among the agencies whose heads make up the Committee. The proceeds of the fee are receipts of the agency to which they are credited.

(b) The Committee may require any information that it considers necessary to effectuate the provisions of this Part.

(c) The Committee may require any business receiving a grant to submit to an audit at any time.

(d) Grant recipients are encouraged to use the State ports of North Carolina and must include in the report required by subsection (a) of this section a report on the tonnage of any freight moved in ocean-borne commerce through the State ports and through any other United States port. If freight is moved through a United States port other than the State ports, then the report must disclose the reasons for using that port.

"**§ 143B-437.53. Failure to comply with agreement.**

(a) If the business receiving a grant fails to meet or comply with any condition or requirement set forth in an agreement or with criteria developed by the Committee, the Committee may amend the agreement to reduce the amount of the grant or the term of

the agreement. Any reduction of the grant is applicable to the grant year immediately following the grant year in which the Committee amends the agreement.

(b) If a business fails to maintain employment at the levels stipulated in the agreement or otherwise fails to comply with any condition of the agreement for any two consecutive years, the Committee may terminate the agreement.

"**§ 143B-437.54. Disbursement of grant.**

A business may not receive an annual disbursement of a grant if, at the time of disbursement, the business or a related member of the business has received a notice of final assessment of State tax due and that assessment has not been satisfied or otherwise resolved. A business may receive an annual disbursement of a grant only after the Committee has certified to the State Controller that there are no outstanding final assessments of State tax due and that the business has met the terms and conditions of the agreement. No amount shall be disbursed to a business as a grant under this Part in any year until the Secretary of Revenue has certified to the Committee (i) that there are no outstanding final assessments of State tax due against the business or a related member of the business and (ii) the amount of withholdings received in that year by the Department of Revenue from the business. A business that has met the terms of the agreement shall make an annual certification of this to the Committee. The Committee shall verify this information and certify to the State Controller that the terms of the agreement have been met. The Committee shall further certify to the State Controller the amount of a grant for which the business is eligible under the agreement and the amount of a grant for which the business would be eligible under the agreement without regard to G.S. 143B-437.50(d). At the time the State Controller remits a check to a business under G.S. 143B-437.54, the State Controller shall transfer to the Utility Account of the Industrial Development Fund an amount equal to the amount certified by the Committee as the difference between the amount of the grant and the amount of the grant for which the business would be eligible without regard to G.S. 143B-437.50(d).

"**§ 143B-437.56. Sunset.**

The authority of the Committee to enter into new agreements expires January 1, 2006."

HOUSE BILL 1726:
UNC Nonappropriated Capital

BILL ANALYSIS

Committee:	House Appropriations	**Introduced by:**	Rep. Allen
Date:	August 27, 2002	**Summary by:**	Emily Johnson and Phyllis Pickett Committee Counsel
Version:	First Edition		

SUMMARY: ***House Bill 1726 authorizes the construction of numerous projects by The University of North Carolina. The projects will be financed through revenue bonds and special obligation bonds, not appropriations from the General Fund.***

CURRENT LAW: There are two types of self-liquidating bonds that may be issued by the Board of Governors of the University of North Carolina. Article 21 of Chapter 116 of the General Statutes authorizes the Board of Governors to issue revenue bonds for the types of projects enumerated in the article. The types of projects for which revenue bonds may be issued include educational buildings, dormitories, recreational facilities, dining facilities, student centers, health care buildings, parking decks, etc. The revenue bonds are payable from rentals, charges, fees, and other revenues generated by the facility. The bonds are not payable from tax revenues.

Article 3 of Chapter 116D of the General Statutes authorizes the Board of Governors to issue special obligation bonds payable with any sources of income or receipts of the Board of Governors or a constituent or affiliated institution, but not including tuition payments or appropriations from the General Fund from State revenues. The bond proceeds could be used for construction, improvement, and acquisition of any capital facilities located at UNC constituent and affiliated institutions. The bonds are not payable from tax revenues.

BILL ANALYSIS:

Section 1. States the purpose of the act to authorize the construction and financing of the capital improvements projects at various constituent institutions of The University of North Carolina. The projects authorized by the bill would not be financed with funds appropriated from the State's General Fund; but may be financed with gifts, grants, receipts, self-liquidating indebtedness, other funds available to the constituent institutions, or a combination of any of those financing methods.

Section 2. Sets out the self-liquidating projects the Board of Governors plans to finance with revenue and/or self-liquidating bonds. Although the UNC revenue bond act in Chapter 116 does not require the enactment of an appropriation bill, the customary practice for UNC system revenue bond issues has been legislation that lists the specific projects to be financed and their costs.

Section 3. Sets out seven additional capital improvements projects and authorizes the financing of some of the costs of those projects with revenue and/or self-liquidating bonds. The seven

projects set out in this section were previously authorized for construction in S.L. 2000-3 as part of the earlier, general obligation bond program.

Section 4. Authorizes the Director of the Budget, at the request of the Board of Governors, to authorize cost increases or decreases, or changes in the method of financing for the projects authorized by the bill. The Director of the Budget may consult with the Joint Legislative Commission on Governmental Operations, but consultation is not required.

Section 5. The UNC special obligation bond act requires that the specific projects and their costs be set forth in legislation approved by the General Assembly and that the maximum amount of special obligation bonds to be issued to finance the specific projects listed be stated. Sections 2 and 3 set forth the specific projects and their costs. This section expressly states that the maximum principal amount of special obligation bonds to be issued shall not exceed the amounts listed in Sections 2 and 3 plus $6 million for related additional costs for which bond proceeds are routinely used, such as issuance expenses, funding of reserve funds, and capitalized interest.

Section 6. The bill is effective when it becomes law.

BILL SUMMARY: The bill authorizes the construction and financing, without appropriations from the General Fund, of capital improvement projects of the constituent institutions of the University of North Carolina.

ASSUMPTIONS AND METHODOLOGY: The chart on the following pages was compiled with the assistance of the Associate Vice President for Finance for the UNC Office of the President. The chart shows the cost to construct and operate the proposed campus buildings and the source of funds for each facility. All projects are scheduled to begin construction in 2003 and have been approved by the Boards of Trustees of the campuses and the UNC Board of Governors. The effect of the bond debt on students is also shown.

The seven projects in Section 3 of the bill were previously authorized by the 2000 General Assembly as part of the $3.1 billion bond program in SB 912 (S.L. 2000, Chapter 3). These projects have received the following General Obligation bond funding:

Eight projects in the bill will require a General Fund appropriation to fund annual operating expenses. UNC-Chapel Hill's School of Medicine Research Facilities is the first to require operating money in FY 2002-03. Three more facilities require General Fund support in FY 2003-04, two more in FY 2004-05, and two more in FY 2005-06. The average operating cost for these eight buildings is $11.9 million over the next twenty years.

SENATE BILL 901

Transportation Committee Substitute Adopted 6/18/01

A BILL TO BE ENTITLED

AN ACT TO IMPLEMENT THE RECOMMENDATIONS OF THE JOINT LEGISLATIVE TRANSPORTATION OVERSIGHT COMMITTEE STUDY OF DOT CASH MANAGEMENT.

The General Assembly of North Carolina enacts:

Whereas, at the end of fiscal year 1999-2000, the Highway Trust Fund had a cash balance of $858 million and the Highway Fund had a cash balance of $270 million; and

Whereas, Section 25.14 of S.L. 2000-67 directed the Joint Legislative Oversight Committee to contract for a study of these cash balances to determine if DOT could more effectively use its cash balances to meet the transportation needs of the State; and

Whereas, the study produced numerous recommendations to improve DOT's management of these cash balances; Now, therefore,

The General Assembly of North Carolina enacts:

SECTION 1. DOT Directed to Use Cash Flow Financing. – The Department of Transportation is directed to reorganize its cash management procedures consistent with the March 2001 Joint Legislative Transportation Oversight Committee Cash Management Study final report. The Department is directed to:

(1) Utilize cash flow financing to the maximum extent possible to fund highway construction projects, with the goal of reducing the combined average daily cash balance of the Highway Trust Fund and the Highway Fund to an amount equal to twelve percent (12%) of the combined estimate of the yearly receipts of the Funds, exclusive of municipal aid funds.

(2) Establish necessary management controls to facilitate use of cash flow financing, such as establishment of a financial planning committee, development of a monthly financial report, establishment of

appropriate fund cash level targets, review of revenue forecasting procedures, and reduction of accrued unbilled costs.

(3) Strengthen the project delivery process by reorganization of preconstruction functions in order to expedite project delivery and maximize use of cash flow financing of projects. The Department shall designate one person responsible for project delivery, develop project delivery reports, and continually assess which projects can be accelerated using cash flow financing.

(4) Report quarterly for a period of two years, beginning in September 2001, to the Joint Legislative Transportation Oversight Committee on its efforts to reorganize the cash management and project delivery process and the results of those efforts.

SECTION 2. Article 6A of the General Statutes is amended by adding a new section to read:

"**§ 147-86.15. Cash management of the Highway Fund and the Highway Trust Fund.**

The State Treasurer is authorized to combine the balances of the Highway Fund and the Highway Trust Fund for cash management purposes. The State Treasurer is authorized to make short-term loans between the Funds to accomplish the purposes of this section."

SECTION 3. Study of Short-Term Borrowing to Facilitate Cash Flow Financing. – The Department of Transportation and the State Treasurer are directed to jointly:

(1) Evaluate the recommendations of the March 2001 Joint Legislative Transportation Oversight Committee Cash Management Study final report concerning authorization for the State Treasurer to borrow funds on a short-term basis in order to allow the Department of Transportation to maintain lower target cash balances and expedite highway construction projects;

(2) Develop recommendations concerning short-term borrowing for cash management purposes, including any needed legislation; and

(3) Submit findings and recommendations to the Joint Legislative Transportation Oversight Committee by February 1, 2002.

SECTION 4. G.S. 136-176 is amended by adding a new subsection to read:

"(a1) The Department is authorized to use one hundred fifty million dollars ($150,000,000) per year of the cash balance of the Highway Trust Fund, in fiscal years 2001-2002, 2002-2003, and 2003-2004 only, for primary route pavement preservation. The Department shall certify to the Joint Legislative Transportation Oversight Committee each year, on or before November 1, that use of the cash balances of the Highway Trust Fund for this purpose will not affect the delivery schedule of Highway Trust Fund projects in the 2002-2008 Transportation Improvement Program."

SECTION 5. G.S. 136-176 is amended by adding a new subsection to read:

"(a2) The Department is authorized to use fifteen million dollars ($15,000,000) per year of the cash balance of the Highway Trust Fund, in fiscal years 2001-2002, 2002-2003, and 2003-2004 only, to fund preliminary engineering costs for projects not included in the current year Transportation Improvement Plan. The Department shall certify to the Joint Legislative Transportation Oversight Committee each year, on or before November 1, that use of the cash balances of the Highway Trust Fund for this purpose will not affect the delivery schedule of Highway Trust Fund projects."

SECTION 6. G.S. 136-176 is amended by adding a new subsection to read:

"(b1) The Secretary may authorize the transfer of funds allocated under subdivisions (b)(1) through (b)(4) of this section to other projects that are ready to be let and were to be funded from allocations to subdivisions (b)(1) through (b)(4) of this section. The Secretary shall ensure that any funds transferred pursuant to this subsection are repaid promptly and in any event in no more than four years. The Secretary shall certify, prior to making any transfer pursuant to this subsection, that the transfer will not affect the delivery schedule of Highway Trust Fund projects in the current Transportation Improvement Program. No transfers shall be allowed that do not conform to the applicable provisions of the equity formula for distribution of funds, G.S. 136-17.2A. If the Secretary authorizes a transfer pursuant to this subsection, the Secretary shall report that decision to the next regularly scheduled meetings of the Joint Legislative Commission on Governmental Operations, the Joint Legislative Transportation Oversight Committee and to the Fiscal Research Division."

SECTION 7. This act is effective when it becomes law.

HOUSE BILL 1751:
NC Tourism Development Act

BILL ANALYSIS

Committee: House Appropriations
Date: September 23, 2002
Version: 2nd Edition

Sponsor: Rep. Earle, McMahan, McComas, and Barefoot
Analysis by: Martha Walston
Committee Counsel

BILL ANALYSIS: House Bill 1751 creates the Travel and Tourism Capital Incentive Grant Program. The act becomes effective January 1, 2003, and expires for grant applications filed on or after July 1, 2005.

Grant recipient - Grants may be awarded to a unit of local government that owns a qualified project in whole or in at least 50% partnership with a private individual or entity. Grant proceeds may not be distributed to any private individual or entity. A "unit of local government" is defined in the bill as a county or municipality in the State.

Qualified project - A qualified project is a newly created travel and tourism project or expansion or renovation of a travel and tourism project that the Travel and Tourism Grant Committee determines, pursuant to a feasibility study funded by the applicant, meets the following conditions:

1. At least half of the project will be financed and owned by a unit of local government in which it is located
2. The project will target at least 35% of its visitors from among persons who reside outside the State or more than 50 miles from the project.
3. The project has a business plan that demonstrates a positive economic impact on the community in which the project is located.
4. The applicant has provided impact projections regarding estimated State and local tax revenues with respect to the project.
5. The project will have a significant and positive economic impact on the community in which the project is located, considering among other factors, the extent to which the tourism project will compete directly with existing tourism attractions in the area and the amount by which tax revenues from the tourism project will exceed the amount of the grant provided.
6. The applicant has provided a cost-benefit analysis of the project.
7. The applicant has provided an economic impact analysis, certified by a CPA, which demonstrates the employment, gross state product, and personal income effects of the project over a 10-year period.
8. The project will be available to the public for a minimum of 100 days per year.
9. The project will generate at least 10 new jobs in the community in which the project is located.
10. The project will have the following minimum cost based on the enterprise tier in which it is located:

Enterprise Tier	Minimum Cost

1 and 2	$ 1,000,000
3 and 4	$ 5,000,000
5	$10,000,000

11. The governing body of the unit of local government has passed a resolution stating the need for and positive economic impact and enhancement of travel and tourism revenues from the project.
12. The applicant has demonstrated by clear and convincing evidence all of the following:
    a. The project will not result in unnecessary duplication of existing services.
    b. The project will generate new visitors to the area rather than drawing visitors away from other existing tourism attractions.
13. The applicant has certified that the project will not be created, expanded, or renovated unless the applicant is awarded a grant.

Amount of the grant - The amount of the grant is determined by multiplying the sum of the total amount of sales taxes collected on sales by or within the qualified project and the net privilege taxes paid by the qualifying project times a percentage not to exceed the following enterprise tier percentage:

Enterprise Tier	Percentage
1 and 2	35
3 and 4	30
5	25

These same percentages are used to calculate the cumulative maximum amount of a grant determined by the applicable percentage of the total project cost.

Maximum term. – The maximum term of the grant is ten years. No project may receive any grant proceeds for a year that is more than ten years beyond the date of the initial grant award.

Use of grant proceeds. - The proceeds of the grant may be used only for capital costs, including debt service, with respect to the qualified project.

Cap on number of projects and amount of projects awarded each year - No more than 10 projects may be awarded grants each fiscal year. No more than $20,000,000 in grants shall be awarded each fiscal year. For purpose of the $20 million maximum, the amount awarded is calculated as the cumulative maximum amount of the grant divided by the number of years in its term.

Travel and Tourism Grant Committee - The Travel and Tourism Grant Committee shall consist of six members: the Secretary of Commerce, the Secretary of Revenue, the Director of the Office of State Budget and Management, and three elected local government officials who will serve two-year terms. The Speaker of the House will appoint an official who represents the Mountains, the President Pro Tem of the Senate will appoint an official who represents the Coastal Plain, and the Governor will appoint an official who represents the Piedmont. The elected local government officials may not be associated with or employed by the travel and tourism industry or an entertainment enterprise, or be in any contractual relationship regarding the qualified project. The Committee may only act upon unanimous consent. The Committee is

subject to the open meetings law and the public records law. Members of the Committee are forbidden to work for a business that receives a grant under this program, or to provide services for compensation to any person or entity who contracts with the project, for a period of two years after the member's service on the Committee ends.

Fees. - Each applicant must pay the Committee a $5,000 application fee.

Information provided by the Committee. Upon awarding a grant, the Committee must provide the Department of Revenue with specific information.

Disbursement of grants by the Department of Revenue - The Department of Revenue must annually disburse the grants by October 1 for the preceding fiscal year, based on information provided to the Department by the owner of the qualified project. In order to pay for the Grant Program, the Department will draw from State sales and use tax collections an amount equal to the grant funds disbursed and the Department's costs of administering the grants.

Exemption from rule making. – The Travel and Tourism Grant Committee is exempt from the rule making provisions under the Administrative Procedure Act when developing guidelines for the Grant Program.

EFFECTIVE DATE: January 1, 2003

BILL SUMMARY: The bill creates the Travel and Tourism Capital Incentive Grant program to be administered by the Travel and Tourism Grant Committee. The program offers grants to counties and municipalities who own "qualifying projects" that meet the following criteria: 1) the project is financed and owned (in whole or at least in 50% partnership) by the unit of local government in which it is located, 2) the project will target 35% or more of its visitors from at least 50 miles away or out of state, 3) the project has a business plan that indicates that project will be profitable, 4) the applicant provides tax impact projections, 5) the project will have a significant and positive impact on the community, 6) the project will be open at least 100 days per year, 7) the project will generate at least ten new jobs in the local area, 8) the projects will meet a minimum cost criteria based on the North Carolina enterprise tier in which it is located, 9) the governing body of the local government passes a resolution stating the need for, positive economic impact of, and the enhanced travel and tourism opportunities created by the project,

10) the applicant demonstrates that the project will not duplicate services and will draw new visitors to the area, and 11) the applicant guarantees, in writing, that the project would not happen "but for" this grant. Grant funds can be used to fund new projects or the renovation and expansion of existing facilities. The grant amount is determined by multiplying the total amount of sales taxes and entertainment taxes collected by or within the qualified program and the net privilege taxes paid by the qualifying project by an enterprise tier based percentage, with maximum percentages outlined in the bill (35% tier 1 and 2, 30% tier 3 and 4, and 25% for tier 5). These same percentages apply to the maximum amounts of the total project cost that can be funded through this grant program. Projects must meet minimum cost requirements, which differ by tier, to be eligible. The Travel and Tourism Grant Committee is charged with determining if all project criteria are met and the percentages used to calculate the grant amount. Grant funds can only be used for capital costs, including debt service. To receive a grant disbursement, the project owner must provide the Department of Revenue with periodic, verified accounting of the tax collections. Annual disbursements based on this information must be made by the Department of Revenue by October 1 of each year and should reflect tax collections from that project for the previous fiscal year. The Department is only required to distribute funds based on data provided by the owner. If appropriate data is not provided to justify a complete payment, a partial payment can be made to reflect the information provided. Applicants must fund a feasibility study coordinated and directed by the Travel and Tourism Grant Committee and pay a $5,000 application fee. The funds to pay for the grants and the associated departmental costs are drawn from State sales and use tax revenues. The grant application period for the bill sunsets July 1, 2005, although payments for grants authorized before that date will continue to be made up to ten years after the initial award. Only ten (10) grants can be awarded per year. Annual awards are limited to $20 million.

ASSUMPTIONS AND METHODOLOGY:

Impact on Revenue

The bill effectively earmarks a proportion of state tax revenue drawn from a particular qualifying project and returns that funding to the institution to fund capital costs and debt service. The proportion returned varies by location and other factors. The bill would allow funding for ten projects a year, with a maximum of thirty grants awarded before the July 1, 2005 sunset. At present Fiscal Research is aware of several potential projects that have already reach the planning stages, primarily arenas, convention centers and athletic facilities, that could easily qualify for these grants, although local government officials indicate that many local units would likely be interested applying for these grants. Fiscal Research is also not aware of any other state that uses a similar funding mechanism, so no data is available from other states to suggest a fiscal cost. (Kentucky has a state sales tax incentive program for tourism development, which has funded seven (7) projects to date. However, because of substantial differences in the Kentucky plan and this bill, that state's experience cannot be used as a proxy for estimating purposes). Because there is no good data on the type, size and location of qualifying projects or potentially qualifying projects, the fiscal note assumes the committee awards the maximum annual amount of $20 million. Because the bill allows three grant cycle before the sunset, the maximum annual impact is reached in 2004-05 of $60 million ($20 million from each year of awards). Because all economic activity, in total, is considered in determining the state's baseline revenue projections, all grants awarded under this program would be shown as a loss of state revenue. However, none of that loss would appear in FY 2002-03, as the first payment would not be made for any project until October 2003.

Impact on Expenditures

Travel and Tourism Grant Committee: The bill charges the Travel and Tourism Grant Committee (the Committee) with carrying out the following activities in order to administer the grant program:

1. Adopt rules for the administration of the program.

2. Coordinate and direct feasibility studies funded by the applicants. This coordination function includes selection by the Department of qualified, independent consultants and prescription of the scope of each study.

3. Analyze applications to ensure they contain all necessary information regarding the nature and cost of the proposed tourism project, the estimated revenues to be generated by the project, the estimated economic benefit to the community, and the purposes for which the applicant will use grant funds.

Each of these activities will involve a cost to the Committee. The bill allows the Committee itself to determine how the fee revenue and associated responsibilities will be distributed. Since the bill does not specify the financial structure of the Committee, how the Committee will operate, or how the Committee will utilize the $5,000 fee per application, it is not possible to estimate the fiscal impact on the Committee.

Department of Revenue: According to the Department of Revenue, the anticipated responsibilities from the enactment of the bill will not justify any positions being assigned to handle the work and, therefore, no employee costs will be incurred. There will only be very minimal costs for printing and mailings of forms and possibly some other minor administrative costs. The Department's assumption is that there will be a relatively small number of projects that will qualify, at least initially. Therefore, on the basis of this assumption, taxes eligible for grants will not be generated until a project is completed and business performed in the project. The first fiscal year for which grants could be issued would most likely be FY 2003-2004. This should provide the department with ample time to get procedures in place.

A BILL TO BE ENTITLED

AN ACT TO CREATE A TRAVEL AND TOURISM CAPITAL INCENTIVE GRANT PROGRAM.

The General Assembly of North Carolina enacts:

SECTION 1. Part 2 of Article 10 of Chapter 143B of the General Statutes is amended by adding a new section to read:

"**§ 143B-434.4. Travel and Tourism Capital Incentive Grant Program.**

(a) Program Established. – There is established the Travel and Tourism Capital Incentive Grant Program. Under the program, the Travel and Tourism Grant Committee established in subsection (d) of this section may award grants to the owners of qualified projects for the purpose of inducing the creation of new or the expansion or renovation of existing travel and tourism projects. Grant proceeds may not be distributed to any private individual or entity. The Committee shall develop guidelines to be used in determining whether the conditions in this section are satisfied and whether the project described in the application is consistent with the grant program.

(b) Owner Defined. – For the purpose of the Travel and Tourism Capital Incentive Grant Program, the owner of a qualified project is the unit of local government that will own the qualified project in whole or in at least fifty percent (50%) partnership with a private individual or entity.

(c) Unit of Local Government Defined. – For the purpose of the Travel and Tourism Capital Incentive Grant Program, a unit of local government means a county or municipality in the State.

(d) Committee. – The Travel and Tourism Grant Committee shall consist of the Secretary of Commerce, the Secretary of Revenue, the Director of the Office of State Budget and Management, and three elected local government officials. One elected local government official shall represent the Mountains and shall be appointed by the General Assembly upon the recommendation of the Speaker of the House of Representatives. One elected local government official shall represent the Piedmont and shall be appointed by the Governor. One elected local government official shall

represent the Coastal Plain and shall be appointed by the General Assembly upon the recommendation of the President Pro Tempore of the Senate. The elected local government officials may not be associated with or employed by the travel and tourism industry or an entertainment enterprise, or be in any contractual relationship regarding the qualified project. The General Assembly and Governor appointees shall serve two-year terms. The Committee may act only upon a unanimous decision of its members.

It is unlawful for a member of the Committee to, within two years after the end of service on the Committee, provide services for compensation, as an employee, consultant, or otherwise, to any project that was awarded a grant under this section while the former member was serving on the Committee, or to provide services for compensation to any person or entity that contracts with the project. Violation of this subsection is a Class 1 misdemeanor.

Meetings of the Committee are subject to the open meetings requirements of Article 33C of Chapter 143 of the General Statutes. All documents of the Committee, including applications for grants, are public records governed by Chapter 132 of the General Statutes, including applicable provisions of that Chapter protecting confidential information.

(e) Application and Fee. – The owner of a qualified project may apply for a grant no later than one year after the qualified project is opened to the public. When filing an application under this section, the applicant must pay the Committee a fee of five thousand dollars ($5,000). The fee is due at the time the application is filed. The Committee shall determine the allocation of the fee imposed by this subsection among the agencies whose heads make up the Committee. The proceeds of the fee are receipts of the agency to which they are credited.

The application must contain all information required by the Committee, including a certification of the nature and cost of the tourism project, the estimated revenues to be generated by the project, the estimated economic benefit to the community, and the purposes for which the applicant will use the grant funds. If the tourism project is the result of a public-private partnership, the grant application must set forth in detail the respective rights and obligations of the parties and the specific terms of the agreement. The application must be signed by the finance officer and the chair of the governing body of the owner.

(f) Qualification. – A qualified project is a newly created travel and tourism project or expansion or renovation of a travel and tourism project that the Committee determines, pursuant to a feasibility study under this section, meets all of the following conditions:

(1) At least half of the project will be financed and owned by a unit of local government in which it is located.

(2) The project will target at least thirty-five percent (35%) of its visitors from among persons who reside outside the State or more than 50 miles from the project.

(3) The project has a business plan that demonstrates a positive economic impact on the community in which the project is located.

(4) The applicant has provided impact projections regarding estimated State and local tax revenues with respect to the project.

(5) The project will have a significant and positive economic impact on the community in which the project is located, considering among other factors, the extent to which the tourism project will compete directly with existing tourism attractions in the area and the amount by which tax revenues from the tourism project will exceed the amount of the grant provided.

(6) The applicant has provided a cost-benefit analysis of the project.

(7) The applicant has provided an economic impact analysis, certified by a certified public accountant, which demonstrates the employment, gross State product, and personal income effects of the project over a 10-year period.

(8) The project will be available to the public for a minimum of 100 days per year.

(9) The project will generate at least 10 new jobs in the community in which the project is located.

(10) The project will have the following minimum cost based on the enterprise tier in which it is located:

Enterprise Tier	**Minimum Cost**
1 and 2	$ 1,000,000
3 and 4	$ 5,000,000
5	$10,000,000

(11) The governing body of the unit of local government has passed a resolution stating the need for and positive economic impact and enhancement of travel and tourism revenues from the project.

(12) The applicant has demonstrated by clear and convincing evidence all of the following:

a. The project will not result in unnecessary duplication of existing services.

b. The project will generate new visitors to the area rather than drawing visitors away from other existing tourism attractions.

(13) The applicant has certified that the project will not be created, expanded, or renovated unless the applicant is awarded a grant.

(g) Feasibility Study. – The applicant must fund a feasibility study, certified by a certified public accountant, and coordinated solely by the Committee. The Committee shall develop a list of qualified firms to conduct the study. The Committee shall prescribe the scope of the study to cover all of the qualifications established in this section.

(h) Amount. – Subject to the maximums provided in this section, the amount of a grant with respect to a qualified project is calculated as a percentage of the total amount of the following taxes collected and retained by the State each year:

(1) The net State sales tax collected on sales by or within the qualified project, as determined by the Department of Revenue.

(2) The net privilege tax paid by the qualified project under G.S. 105-37.1, as determined by the Department of Revenue.

(i) Maximums. – The maximum term of a grant is 10 years. No project may receive any grant proceeds for a year that is more than 10 years beyond the date of the initial grant award.

The Committee shall set the grant percentage at the time it awards the grant. The percentage used to calculate a grant may not exceed the applicable percentage provided in the table below based on the enterprise tier, as defined in G.S. 105-129.3, in which the qualified project is located. In addition, the cumulative maximum amount of a grant may not exceed the applicable percentage of the total project cost provided in the table below based on the enterprise tier in which the qualified project is located.

Enterprise Tier	Percentage
1 and 2	35
3 and 4	30
5	25

(j) Use. – The proceeds of a grant may be used only for capital costs, including debt service, with respect to the qualified project for which the grant was awarded.

(k) Disbursement. – In order to receive grant disbursements under this section, the owner of the qualified project must provide the Department of Revenue with periodic, verified accountings of the tax collections provided in subsection (h) of this section. These reports must be made at the times and in the form prescribed by the Department of Revenue. Each report must include the name, address, and tax identification number of every taxpayer whose collections are included in the report and any other information required by the Department of Revenue.

The Department of Revenue must disburse grants awarded under this section in accordance with G.S. 105-269.16. Upon awarding a grant under this section, the Committee must provide the following information to the Department of Revenue:

(1) The name, address, and other identifying information of the owner to whom the grant was awarded.

(2) The name and address of any lessee or individual or entity who has entered into a contract with the owner of the qualified project.

(3) The address and other identifying information of each facility that is part of the qualified project for which the grant was awarded.

(4) The applicable percentage and the maximum cumulative amount of the grant as determined in accordance with this section.

(5) Any other information included in the application, if required by the Department of Revenue.

(l) Reports. – The Committee must report annually to the Revenue Laws Study Committee concerning the applications made for grants and the grants awarded under this section.

(m) Cap. – The maximum number of projects that may be awarded grants each fiscal year is 10. No more than twenty million dollars ($20,000,000) in grants shall be awarded each fiscal year. For the purpose of this maximum, the amount awarded is

calculated as the cumulative maximum amount of the grant divided by the number of years in its term."

SECTION 2. Article 9 of Chapter 105 of the General Statutes is amended by adding a new section to read:

"**§ 105-269.16. Travel and tourism grants.**

The Department must annually disburse the travel and tourism grants awarded under G.S. 143B-434.4. Each annual disbursement must be made by October 1 for the preceding fiscal year. The amount of each grant must be calculated in accordance with G.S. 143B-434.4 based on information provided to the Department by the owner of the qualified project. If information necessary to calculate a portion of a grant is not available, the Department must disburse only that portion for which information is available. To pay for this program, the Department must draw from State sales and use tax collections under Article 5 of this Chapter an amount equal to the grant funds disbursed and the Department's costs of administering the grants. The Department must provide the Committee an annual accounting of grant funds disbursed under this section."

SECTION 3. G.S. 150B-1(d) is amended by adding a new subdivision to read:

"(d) Exemptions from Rule Making. – Article 2A of this Chapter does not apply to the following:

...

(10) The Travel and Tourism Grant Committee in developing guidelines for the Travel and Tourism Capital Incentive Grant Program under G.S. 143B-434.4 of the General Statutes."

SECTION 4. This act becomes effective January 1, 2003, and expires for grant applications filed on or after July 1, 2005.

SUBJ.: NC Tourism Development Act

I am writing in response to your request for potential projects that could be funded under HB 1751.

As I read the bill, a broad array of projects could qualify for the tourism grants. These include arenas, convention centers, museums, raceways, amusement parks, shopping facilities, hotels, and golf courses to name a few. Given the range of potential projects, it is impossible to provide you with a comprehensive listing of projects that could be in the development process statewide. Conversations with the editor of Trade Week magazine, the primary trade magazine for trade shows, indicate that out the convention center in Concord has moved far along enough in the development process to reach their "radar screen". Communication with travel and tourism officials at the Department of Commerce indicate that they have no listing of potential, under development, or in progress facilities. The County Commissioners Association does not have a listing of potential facilities, although they felt certain that most if not all of their members would be interested. The list of facilities and communities that have shown an interest in this bill to myself, the bill advocates, or both, are as follows:

Ashville – Minor League Baseball
Charlotte – Afro-American Cultural Center
Charlotte – Arena
Charlotte – Minor League Baseball
Charlotte – Motor Sports Museum
Charlotte – Riverwalk
Concord – Convention Center
Durham – Performing Arts Center
Fayetteville – Minor League Baseball
Gastonia – Convention Center
Jacksonville – Convention Center
Jacksonville – Marine Museum
Raleigh – Civic Center

AN EQUAL OPPORTUNITY/AFFIRMATIVE ACTION EMPLOYER

Wilmington – Civic Center
Wilmington - Ampatheater
Swain County – Great Smokey Mountains Railroad
Union County – Convention Center
Washington—Water Park

It should be noted that this list is clearly not exhaustive and could grow quickly as existing potential projects are modified. As an example, it would not be a far stretch to allow the proposed Durham Tobacco warehouse project highlighted recently in the News and Observer to compete for this grant funding.

Of course, all of these projects are only potential projects. The final decisions about what projects would actually be funded would rest with the committee.

I hope this is of assistance.

PRINCIPAL DEPARTMENT(S) & PROGRAM(S) AFFECTED: Travel and Tourism Grant Committee, NC Department of Revenue, and local governments.

EFFECTIVE DATE: January 1, 2003

BILL SUMMARY: The bill creates the Travel and Tourism Capital Incentive Grant program to be administered by the Travel and Tourism Grant Committee. The program offers grants to counties and municipalities who own "qualifying projects" that meet the following criteria: 1) the project is financed and owned (in whole or at least in 50% partnership) by the unit of local government in which it is located, 2) the project will target 35% or more of its visitors from at least 50 miles away or out of state, 3) the project has a business plan that indicates that project will be profitable, 4) the applicant provides tax impact projections, 5) the project will have a significant and positive impact on the community, 6) the project will be open at least 100 days per year, 7) the project will generate at least ten new jobs in the local area, 8) the projects will meet a minimum cost criteria based on the North Carolina enterprise tier in which it is located, 9) the governing body of the local government passes a resolution stating the need for, positive economic impact of, and the enhanced travel and tourism opportunities created by the project,

10) the applicant demonstrates that the project will not duplicate services and will draw new visitors to the area, and 11) the applicant guarantees, in writing, that the project would not happen "but for" this grant. Grant funds can be used to fund new projects or the renovation and expansion of existing facilities. The grant amount is determined by multiplying the total amount of sales taxes and entertainment taxes collected by or within the qualified program and the net privilege taxes paid by the qualifying project by an enterprise tier based percentage, with maximum percentages outlined in the bill (35% tier 1 and 2, 30% tier 3 and 4, and 25% for tier 5). These same percentages apply to the maximum amounts of the total project cost that can be funded through this grant program. Projects must meet minimum cost requirements, which differ by tier, to be eligible. The Travel and Tourism Grant Committee is charged with determining if all project criteria are met and the percentages used to calculate the grant amount. Grant funds can only be used for capital costs, including debt service. To receive a grant disbursement, the project owner must provide the Department of Revenue with periodic, verified accounting of the tax collections. Annual disbursements based on this information must be made by the Department of Revenue by October 1 of each year and should reflect tax collections from that project for the previous fiscal year. The Department is only required to distribute funds based on data provided by the owner. If appropriate data is not provided to justify a complete payment, a partial payment can be made to reflect the information provided. Applicants must fund a feasibility study coordinated and directed by the Travel and Tourism Grant Committee and pay a $5,000 application fee. The funds to pay for the grants and the associated departmental costs are drawn from State sales and use tax revenues. The grant application period for the bill sunsets July 1, 2005, although payments for grants authorized before that date will continue to be made up to ten years after the initial award. Only ten (10) grants can be awarded per year. Annual awards are limited to $20 million.

ASSUMPTIONS AND METHODOLOGY:

Impact on Revenue

The bill effectively earmarks a proportion of state tax revenue drawn from a particular qualifying project and returns that funding to the institution to fund capital costs and debt service. The proportion returned varies by location and other factors. The bill would allow funding for ten projects a year, with a maximum of thirty grants awarded before the July 1, 2005 sunset. At present Fiscal Research is aware of several potential projects that have already reach the planning stages, primarily arenas, convention centers and athletic facilities, that could easily qualify for these grants, although local government officials indicate that many local units would likely be interested applying for these grants. Fiscal Research is also not aware of any other state that uses a similar funding mechanism, so no data is available from other states to suggest a fiscal cost. (Kentucky has a state sales tax incentive program for tourism development, which has funded seven (7) projects to date. However, because of substantial differences in the Kentucky plan and this bill, that state's experience cannot be used as a proxy for estimating purposes). Because there is no good data on the type, size and location of qualifying projects or potentially qualifying projects, the fiscal note assumes the committee awards the maximum annual amount of $20 million. Because the bill allows three grant cycle before the sunset, the maximum annual impact is reached in 2004-05 of $60 million ($20 million from each year of awards). Because all economic activity, in total, is considered in determining the state's baseline revenue projections, all grants awarded under this program would be shown as a loss of state revenue. However, none of that loss would appear in FY 2002-03, as the first payment would not be made for any project until October 2003.

Impact on Expenditures

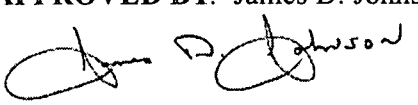
Travel and Tourism Grant Committee: The bill charges the Travel and Tourism Grant Committee (the Committee) with carrying out the following activities in order to administer the grant program:

1. Adopt rules for the administration of the program.

2. Coordinate and direct feasibility studies funded by the applicants. This coordination function includes selection by the Department of qualified, independent consultants and prescription of the scope of each study.

3. Analyze applications to ensure they contain all necessary information regarding the nature and cost of the proposed tourism project, the estimated revenues to be generated by the project, the estimated economic benefit to the community, and the purposes for which the applicant will use grant funds.

Each of these activities will involve a cost to the Committee. The bill allows the Committee itself to determine how the fee revenue and associated responsibilities will be distributed. Since the bill does not specify the financial structure of the Committee, how the Committee will operate, or how the Committee will utilize the $5,000 fee per application, it is not possible to estimate the fiscal impact on the Committee.



Department of Revenue: According to the Department of Revenue, the anticipated responsibilities from the enactment of the bill will not justify any positions being assigned to handle the work and, therefore, no employee costs will be incurred. There will only be very minimal costs for printing and mailings of forms and possibly some other minor administrative costs. The Department's assumption is that there will be a relatively small number of projects that will qualify, at least initially. Therefore, on the basis of this assumption, taxes eligible for grants will not be generated until a project is completed and business performed in the project. The first fiscal year for which grants could be issued would most likely be FY 2003-2004. This should provide the department with ample time to get procedures in place.

SUBJ.: NC Tourism Development Act

I am writing in response to your request for potential projects that could be funded under HB 1751.

As I read the bill, a broad array of projects could qualify for the tourism grants. These include arenas, convention centers, museums, raceways, amusement parks, shopping facilities, hotels, and golf courses to name a few. Given the range of potential projects, it is impossible to provide you with a comprehensive listing of projects that could be in the development process statewide. Conversations with the editor of Trade Week magazine, the primary trade magazine for trade shows, indicate that out the convention center in Concord has moved far along enough in the development process to reach their "radar screen". Communication with travel and tourism officials at the Department of Commerce indicate that they have no listing of potential, under development, or in progress facilities. The County Commissioners Association does not have a listing of potential facilities, although they felt certain that most if not all of their members would be interested. The list of facilities and communities that have shown an interest in this bill to myself, the bill advocates, or both, are as follows:

Ashville – Minor League Baseball
Charlotte – Afro-American Cultural Center
Charlotte – Arena
Charlotte – Minor League Baseball
Charlotte – Motor Sports Museum
Charlotte – Riverwalk
Concord – Convention Center
Durham – Performing Arts Center
Fayetteville – Minor League Baseball
Gastonia – Convention Center
Jacksonville – Convention Center
Jacksonville – Marine Museum
Raleigh – Civic Center

AN EQUAL OPPORTUNITY/AFFIRMATIVE ACTION EMPLOYER

10 yrs
50m grants
sales tickets tax
200m
25%

Wilmington – Civic Center
Wilmington - Ampatheater
Swain County – Great Smokey Mountains Railroad
Union County – Convention Center
Washington—Water Park

It should be noted that this list is clearly not exhaustive and could grow quickly as existing potential projects are modified. As an example, it would not be a far stretch to allow the proposed Durham Tobacco warehouse project highlighted recently in the News and Observer to compete for this grant funding.

Of course, all of these projects are only potential projects. The final decisions about what projects would actually be funded would rest with the committee.

I hope this is of assistance.

A BILL TO BE ENTITLED

AN ACT TO CREATE A TRAVEL AND TOURISM CAPITAL INCENTIVE GRANT PROGRAM.

The General Assembly of North Carolina enacts:

SECTION 1. Part 2 of Article 10 of Chapter 143B of the General Statutes is amended by adding a new section to read:

"**§ 143B-434.4. Travel and Tourism Capital Incentive Grant Program.**

(a) Program Established. – There is established the Travel and Tourism Capital Incentive Grant Program. Under the program, the Travel and Tourism Grant Committee established in subsection (d) of this section may award grants to the owners of qualified projects for the purpose of inducing the creation of new or the expansion or renovation of existing travel and tourism projects. Grant proceeds may not be distributed to any private individual or entity. The Committee shall develop guidelines to be used in determining whether the conditions in this section are satisfied and whether the project described in the application is consistent with the grant program.

(b) Owner Defined. – For the purpose of the Travel and Tourism Capital Incentive Grant Program, the owner of a qualified project is the unit of local government that will own the qualified project in whole or in at least fifty percent (50%) partnership with a private individual or entity.

(c) Unit of Local Government Defined. – For the purpose of the Travel and Tourism Capital Incentive Grant Program, a unit of local government means a county or municipality in the State.

(d) Committee. – The Travel and Tourism Grant Committee shall consist of the Secretary of Commerce, the Secretary of Revenue, the Director of the Office of State Budget and Management, and three elected local government officials. One elected local government official shall represent the Mountains and shall be appointed by the General Assembly upon the recommendation of the Speaker of the House of Representatives. One elected local government official shall represent the Piedmont and shall be appointed by the Governor. One elected local government official shall

represent the Coastal Plain and shall be appointed by the General Assembly upon the recommendation of the President Pro Tempore of the Senate. The elected local government officials may not be associated with or employed by the travel and tourism industry or an entertainment enterprise, or be in any contractual relationship regarding the qualified project. The General Assembly and Governor appointees shall serve two-year terms. The Committee may act only upon a unanimous decision of its members.

It is unlawful for a member of the Committee to, within two years after the end of service on the Committee, provide services for compensation, as an employee, consultant, or otherwise, to any project that was awarded a grant under this section while the former member was serving on the Committee, or to provide services for compensation to any person or entity that contracts with the project. Violation of this subsection is a Class 1 misdemeanor.

Meetings of the Committee are subject to the open meetings requirements of Article 33C of Chapter 143 of the General Statutes. All documents of the Committee, including applications for grants, are public records governed by Chapter 132 of the General Statutes, including applicable provisions of that Chapter protecting confidential information.

(e) Application and Fee. – The owner of a qualified project may apply for a grant no later than one year after the qualified project is opened to the public. When filing an application under this section, the applicant must pay the Committee a fee of five thousand dollars ($5,000). The fee is due at the time the application is filed. The Committee shall determine the allocation of the fee imposed by this subsection among the agencies whose heads make up the Committee. The proceeds of the fee are receipts of the agency to which they are credited.

The application must contain all information required by the Committee, including a certification of the nature and cost of the tourism project, the estimated revenues to be generated by the project, the estimated economic benefit to the community, and the purposes for which the applicant will use the grant funds. If the tourism project is the result of a public-private partnership, the grant application must set forth in detail the respective rights and obligations of the parties and the specific terms of the agreement. The application must be signed by the finance officer and the chair of the governing body of the owner.

(f) Qualification. – A qualified project is a newly created travel and tourism project or expansion or renovation of a travel and tourism project that the Committee determines, pursuant to a feasibility study under this section, meets all of the following conditions:

(1) At least half of the project will be financed and owned by a unit of local government in which it is located.

(2) The project will target at least thirty-five percent (35%) of its visitors from among persons who reside outside the State or more than 50 miles from the project.

(3) The project has a business plan that demonstrates a positive economic impact on the community in which the project is located.

(4) The applicant has provided impact projections regarding estimated State and local tax revenues with respect to the project.

(5) The project will have a significant and positive economic impact on the community in which the project is located, considering among other factors, the extent to which the tourism project will compete directly with existing tourism attractions in the area and the amount by which tax revenues from the tourism project will exceed the amount of the grant provided.

(6) The applicant has provided a cost-benefit analysis of the project.

(7) The applicant has provided an economic impact analysis, certified by a certified public accountant, which demonstrates the employment, gross State product, and personal income effects of the project over a 10-year period.

(8) The project will be available to the public for a minimum of 100 days per year.

(9) The project will generate at least 10 new jobs in the community in which the project is located.

(10) The project will have the following minimum cost based on the enterprise tier in which it is located:

Enterprise Tier	**Minimum Cost**
1 and 2	$ 1,000,000
3 and 4	$ 5,000,000
5	$10,000,000

(11) The governing body of the unit of local government has passed a resolution stating the need for and positive economic impact and enhancement of travel and tourism revenues from the project.

(12) The applicant has demonstrated by clear and convincing evidence all of the following:

a. The project will not result in unnecessary duplication of existing services.

b. The project will generate new visitors to the area rather than drawing visitors away from other existing tourism attractions.

(13) The applicant has certified that the project will not be created, expanded, or renovated unless the applicant is awarded a grant.

(g) Feasibility Study. – The applicant must fund a feasibility study, certified by a certified public accountant, and coordinated solely by the Committee. The Committee shall develop a list of qualified firms to conduct the study. The Committee shall prescribe the scope of the study to cover all of the qualifications established in this section.

(h) Amount. – Subject to the maximums provided in this section, the amount of a grant with respect to a qualified project is calculated as a percentage of the total amount of the following taxes collected and retained by the State each year:

(1) The net State sales tax collected on sales by or within the qualified project, as determined by the Department of Revenue.

(2) The net privilege tax paid by the qualified project under G.S. 105-37.1, as determined by the Department of Revenue.

(i) Maximums. – The maximum term of a grant is 10 years. No project may receive any grant proceeds for a year that is more than 10 years beyond the date of the initial grant award.

The Committee shall set the grant percentage at the time it awards the grant. The percentage used to calculate a grant may not exceed the applicable percentage provided in the table below based on the enterprise tier, as defined in G.S. 105-129.3, in which the qualified project is located. In addition, the cumulative maximum amount of a grant may not exceed the applicable percentage of the total project cost provided in the table below based on the enterprise tier in which the qualified project is located.

Enterprise Tier	Percentage
1 and 2	35
3 and 4	30
5	25

(j) Use. – The proceeds of a grant may be used only for capital costs, including debt service, with respect to the qualified project for which the grant was awarded.

(k) Disbursement. – In order to receive grant disbursements under this section, the owner of the qualified project must provide the Department of Revenue with periodic, verified accountings of the tax collections provided in subsection (h) of this section. These reports must be made at the times and in the form prescribed by the Department of Revenue. Each report must include the name, address, and tax identification number of every taxpayer whose collections are included in the report and any other information required by the Department of Revenue.

The Department of Revenue must disburse grants awarded under this section in accordance with G.S. 105-269.16. Upon awarding a grant under this section, the Committee must provide the following information to the Department of Revenue:

(1) The name, address, and other identifying information of the owner to whom the grant was awarded.

(2) The name and address of any lessee or individual or entity who has entered into a contract with the owner of the qualified project.

(3) The address and other identifying information of each facility that is part of the qualified project for which the grant was awarded.

(4) The applicable percentage and the maximum cumulative amount of the grant as determined in accordance with this section.

(5) Any other information included in the application, if required by the Department of Revenue.

(l) Reports. – The Committee must report annually to the Revenue Laws Study Committee concerning the applications made for grants and the grants awarded under this section.

(m) Cap. – The maximum number of projects that may be awarded grants each fiscal year is 10. No more than twenty million dollars ($20,000,000) in grants shall be awarded each fiscal year. For the purpose of this maximum, the amount awarded is

calculated as the cumulative maximum amount of the grant divided by the number of years in its term." Gillespie - 50% total grants go to Tier 1,2,3 co.

SECTION 2. Article 9 of Chapter 105 of the General Statutes is amended by adding a new section to read:

"**§ 105-269.16. Travel and tourism grants.**

The Department must annually disburse the travel and tourism grants awarded under G.S. 143B-434.4. Each annual disbursement must be made by October 1 for the preceding fiscal year. The amount of each grant must be calculated in accordance with G.S. 143B-434.4 based on information provided to the Department by the owner of the qualified project. If information necessary to calculate a portion of a grant is not available, the Department must disburse only that portion for which information is available. To pay for this program, the Department must draw from State sales and use tax collections under Article 5 of this Chapter an amount equal to the grant funds disbursed and the Department's costs of administering the grants. The Department must provide the Committee an annual accounting of grant funds disbursed under this section."

SECTION 3. G.S. 150B-1(d) is amended by adding a new subdivision to read:

"(d) Exemptions from Rule Making. – Article 2A of this Chapter does not apply to the following:

...

(10) The Travel and Tourism Grant Committee in developing guidelines for the Travel and Tourism Capital Incentive Grant Program under G.S. 143B-434.4 of the General Statutes."

SECTION 4. This act becomes effective January 1, 2003, and expires for grant applications filed on or after July 1, 2005.

He stated that this meeting was for explanation purposes only and no committee action would be taken.

The Co-Chair recognized Representative Bill Owens who explained that earlier this session the House passed House Bill 1734, the NC Economic Stimulus and Job Creation Act. The Senate changed the House bill by adding various provisions. The Proposed Committee Substitute for House Bill **1753** contains the various provisions added by the Senate to House Bill **1734** as listed in the Bill Analysis (attached) which include: changes to the film industry incentives, the condemnation authority of a railroad company, the corporate tax rate structure, and the industrial and pollution control facilities financing law. It gives the Health and Wellness Trust Fund Commission the one-time authority to direct the State Treasurer in invest 3 million of the reserved funds in the Health and wellness Trust Fund. It also authorized the issuance of special obligation settlement bonds for a biopharmaceutical training center and six regional training centers and for a cancer treatment center. The bonds would be secured by future payments under the master settlement agreement for the health and wellness trust fund and the tobacco trust fund.

Co-Chairman Redwine recognized Canaan Huie, Counsel with Bill Drafting Division to explain the handout **Outline of Difference between 4th Edition (House) and 5th Edition (current Senate) of H 1734.** The Appropriations Committee did not report the bill at this meeting.

Chairman Luebke announced that the Finance Committee would meet on Monday, September 30th at 3:30pm in the Finance Hearing Room 544 LOB to continue consideration of H 1753.

The bonds would be secured by future payments under the Master Settlement Agreement to the Settlement Reserve Fund for the Health and Wellness Trust Fund and the Tobacco Trust Fund.***

Title I. Business and Economic Incentives

Part 1A. Film Industry Incentives.

Section 1A.1 of this bill amends the Film Industry Development Account to require a minimum expenditure in North Carolina before a project may be eligible for a grant from the Account. The Film Industry Development Account was established in 2000 with the intent of providing economic incentives to production companies for operations in North Carolina. Under the account, a production company is eligible for a grant based on expenditures made in the State. The grant may not exceed fifteen percent of those expenditures. The grant is not available for political or issue advertising or for any production that is considered obscene under G.S. 14-190.1. The amount of the grant may not exceed $200,000. This section adds an additional requirement that the production company have expenditures of at least $1 million in the State. This more narrowly targets this incentive to large productions.

Section 1A.2 of this bill provides for a refund of the State sales tax on certain rentals of transient accommodations. Transient accommodations include such things as motel and hotel rooms, tourist camps, and private residences and cottages rented on a short-term basis. Under this bill, a production company that rents a transient accommodation for a period in excess of 30 days, but less than 90 days[1], is eligible for a refund of the State sales tax paid on the rental. This refund does not apply to the local sales tax or to any local occupancy tax.

Section 1A.3 directs the Revenue Laws Study Committee to study other incentives for the film industry and to report to the 2003 General Assembly.

[1] The sales tax does not apply to rentals of 90 or more continuous days.

Part 1B. North Carolina Railroad Condemnation Authority.

Section 1B.1 makes a technical correction to the condemnation authority of a railroad. In 1998, State responsibility for railroad regulation was moved from the Utilities Commission to the Department of Transportation. At that time, G.S. 62-232 was repealed. This section deletes a cross-reference to that statute. This does not appear to have any substantive affect on the power of a railroad to condemn property.

Part 1C. Corporate Income Tax Rate Change.

Part 1C of this bill would establish a graduated tax rate for corporate income tax. Under current law, all C corporations are subject to a flat rate of tax of 6.9% on their State net income. For at least the last twenty years, North Carolina has had a flat corporate income tax rate. Under this bill, income taxes would be lower for all corporate taxpayers but particularly so for corporations with less State net income. The last time the corporate income tax rate was modified was in 1996 when the rate was reduced from 7.75% to 6.9% over a four-year period beginning in 1997.

Part 1D. Industrial and Pollution Control Facilities Financing.

The Department of Commerce hopes to reinstate a program begun in the late 1980's that would permit small companies to take advantage of industrial development bond financing by grouping several small loans into a single bond issue. In order to make that program workable, the process needs to be as streamlined as much as possible. As currently written, bonds issued under Article 1 of Chapter 159D (for industrial projects) require a public hearing at the local level - that is, by the county commissioners of the county in which the facility will be located. In addition, for those bonds the federal tax exemption rules require a hearing at the state level by the agency, with the result that there would be two public hearings. Bonds issued under Article 2 of Chapter 159D (which are special purpose projects and educational facilities) require a public hearing by the North Carolina Capital Facilities Finance Agency (NCCFFA), with notice to the governing bodies of the localities in which the facilities will be located.

Section 1D.2 would modify Part 1 of Chapter 159D so that the public hearing for a bond issue dealing with multiple projects would take place at a location determined by the NCCFFA – most likely at its headquarters in Raleigh. This change simply removes the requirement of multiple public hearings throughout the State for one bond issue. The local government would still have to approve the project in its jurisdiction under a different section of the statute. This change would not affect bond issues involving a single project.

Section 1D.3 is a conforming change. In both Chapter 159C (relating to industrial development bonds through local authorities) and Chapter 159D, Article 2 (relating to special purpose projects and educational facilities) the Local Government Commission is permitted to take into consideration credit enhancement when determining whether a project is feasible. That language was omitted from Article 1 of Chapter 159D. There appears to be no reason to treat an industrial development project differently when it comes through a local authority rather than the NCCFFA.

Part 1E. One-Time Investment by the Health and Wellness Trust Fund Commission.

Section 1E.1 allows the Health and Wellness Trust Fund Commission to direct the State Treasurer to invest up to $3,000,000 in reserved funds. The Commission may direct the State Treasurer to invest in preferred or common stock issued by a health related company incorporated or otherwise created or located in the State. This authority of the Commission to direct the State Treasurer to make such an investment expires as of July 1, 2003.

Title II. Special Obligation Settlement Bonds

Title II of the bill authorizes the State to issue special obligation bonds, which would be secured solely by, and payable solely from, a part of the expected receipts from the Master Settlement Agreement. Currently, the receipts from the Master Settlement Agreement are divided as follows: One-half goes to The Golden L.E.A.F., Inc., one-fourth goes to the Tobacco Trust Fund, and one-fourth goes to the Health and Wellness Trust Fund. The special obligation bonds would be secured by up to $25 million a year that would otherwise go to the Tobacco Trust Fund and the Health and Wellness Trust Fund. The precise amount pledged would be specified in the bond documents. These annual amounts would be intercepted in the Settlement Reserve Fund and used to pay the debt service on the bonds until the bonds are retired.

A maximum of $175 million in special obligation bonds could be issued, up to $130 million for construction of a new cancer rehabilitation and treatment center to be located at U.N.C. Hospitals and up to $45 million for construction of a new biopharmaceutical/bioprocess manufacturing training center to be located at North Carolina State University.

Special obligation bonds are not general obligation bonds and thus are not required to be approved by the voters. Neither the faith and credit nor the taxing power of the State would secure them and a statement to this effect would appear on the face of the bonds. Property could not be pledged to secure the bonds. The sole security and source of repayment would be up to $25 million a year of that part of the receipts from the Master Settlement Receipts otherwise designated to be divided evenly between the Tobacco Trust Fund and the Health and Wellness Trust Fund. The part of the settlement receipts designated for The Golden L.E.A.F., Inc. is not affected by this bill. Although the part of the annual receipts designated for the two trust funds is currently estimated at about $70 to $80 million a year, if it were to fall to a lower level, the pledged amount for repaying the bonds each year would have priority over the funds going to the two trust funds.

If the Master Settlement Agreement receipts designated to the two trust funds fell to a point where they were insufficient to pay debt service on the bonds, the bill provides that no other source of funds may be used to pay the bonds. The State would not be obligated to pay the debt from other sources and a default not within the State's control would not be expected to affect its credit rating. The General Assembly could choose, however, to amend the legislation at that time to authorize the use of other State revenues to pay the debt service. Such a provision is not in the bill at this point because it could make the proposed bonds a liability of the State, which could affect the State's existing bond rating, rather than a liability solely of the pledged settlement receipts.

Cancer Center. The UNC Health Care System provides the most advanced, cutting edge services for patients with cancer in the Gravely Building, a building that opened in 1953 as a tuberculosis sanitarium. This nearly 50-year-old facility has been remodeled, adjusted, and renovated to its fullest extent, and can no longer meet the needs of modern-day programs and services required to treat patients with cancer. The Gravely Building is also inadequate for the support of UNC's clinical research mission for clinical trials and for testing new medications that are essential for enhancing treatment options and increasing the knowledge base for new treatment opportunities. The UNC Health Care System proposes a replacement to the North Carolina Clinical Cancer Center to address these deficiencies and to provide a more appropriate environment for patients with cancer. The North Carolina Clinical Cancer Center will be approximately 272,000 gross square feet at a projected cost of $130 million.

Training Center. The State has invested greatly through the North Carolina Biotechnology Center to bring close to 150 biotechnology companies to the State over the past 15 years. The biopharmaceutical and bioprocessing industry anticipates the need for 3,000 to 5,000 new employees each year for the

foreseeable future. These workers will require training and education at a variety of levels in biotechnology, bioprocessing, and biomanufacturing. An Alliance Council, representing the universities, community colleges, and biomanufacturing companies, will develop a comprehensive training and education program capable of training 3,000 to 5,000 people for the industry annually through a combination of large-scale equipment training and academic programs at the Central Training Center and programs at the Regional Training Centers.

The Central Training Center would house small and large-scale equipment to prepare trainees at all levels with large-scale, realistic experience. The Center would accommodate approximately 2,500 trainees each year. The opportunity to train in the Center would be open to qualified students in both the UNC system and the NC Community Colleges system. The Center will enhance the existing training facilities for the NC State Biotechnology Program and relevant programs at other UNC campuses. It will also provide contract research and project laboratories for pilot scale experimentation and validation as a service to newly emerging biotechnology companies in the State. The projected cost for construction, equipment, and up-fitting, along with the associated infrastructural costs, bring the project costs to approximately $35 million.

The Central Training Center will be complemented with six Regional Community College Training Centers. The regional centers will offer specialized short courses/training programs, support new and expanding industry training, and provide related certificate and associate degree programs. The six regional centers will be selected through a Request for Proposal process. The Partnership for Biotechnology Workforce Training Industrial Advisory Committee, established in 1998, will screen the RFPs and make recommendations to the State Board of Community Colleges. The projected cost for funding these regional centers is $10 million.

History of the Master Settlement Agreement. On November 23, 1998, forty-six states, including North Carolina, and four tobacco manufacturers signed a Master Settlement Agreement that settled existing and potential claims of the states against the manufacturers for damages arising from the tobacco products of the manufacturers.[2] This settlement agreement is also known as "Phase I."[3] The manufacturers agreed to make payments to the states totaling $206 billion through the year 2025. Pursuant to the terms of the Master Settlement Agreement, North Carolina and the four tobacco manufacturers entered into a consent decree, filed in Wake County Superior Court on December 21, 1998. State of North Carolina v. Phillip Morris, Incorporated, et al., 98 CVS 14377. As part of the North Carolina consent decree, the judge (at the request of the Attorney General) awarded 50% of the settlement funds to the State's Settlement Reserve Fund and 50% to a nonprofit corporation that will assist tobacco-dependent and economically affected communities. The Settlement Reserve Fund is essentially a "holding tank" within the General Fund for tobacco settlement monies.

The consent decree directed the Attorney General to create a nonprofit corporation for purposes of receipt and expenditure of 50% of the funds allocated to North Carolina under the Master Settlement Agreement, and required that the creation of the corporation be approved by the General Assembly. On March 16, 1999, the General Assembly in S.L. 1999-2 approved the creation of the nonprofit corporation, The Golden L.E.A.F., Inc., and directed that its portion of the settlement funds be used for the public charitable purposes of providing economic impact assistance to economically affected or

tobacco-dependent regions of the State. S.L. 1999-2 further stated the intent of the General Assembly to divide the remaining 50% of the settlement funds evenly between:

1. A trust fund to be established by the General Assembly for the benefit of tobacco producers, tobacco allotment holders, and persons engaged in tobacco-related businesses; and
2. A trust fund to be established by the General Assembly for the benefit of health.

These two trust funds were created the following year, in S.L. 2000-147. The purpose of the Health and Wellness Trust Fund is to improve the health and wellness of North Carolinians. S.L. 2000-147 created an 18-member Health and Wellness Trust Fund Commission to administer the trust fund. In order to build up a fund reserve for future projects, the Commission may spend only half of each annual settlement payment effective beginning in 2001. The Commission may spend unreserved funds and investment earnings in the reserve to award grants to state and local agencies and to nonprofit corporations.

The purpose of the Tobacco Trust Fund is to assist tobacco producers, tobacco allotment holders, and persons engaged in tobacco related businesses. S.L. 2000-147 created an 18-member Tobacco Trust Fund Commission to administer the fund. Both the Health and Wellness Commission and the Tobacco Commission must report annually to the Joint Legislative Commission on Governmental Operations on the details of its expenditures.

Outline of Difference between 4th Edition (House) and 5th Edition (current Senate) of H 1734.

Prepared by: Y. Canaan Huie, Bill Drafting Division

I. Bill Lee Act changes.

A. Eligibility of a taxpayer for the credits under the Act.

1. The House version would not allow a taxpayer to claim a credit under the Act if the taxpayer or a related entity of the taxpayer had an outstanding final assessment of tax that had not been satisfied.
2. The current Senate version would not allow a taxpayer to claim a credit under the Act if the taxpayer had an overdue tax debt that had not been satisfied.
3. The Senate version differs in two key ways. First, the Senate version refers to an overdue tax debt whereas the House version refers to a final assessment. An overdue tax debt is a final assessment once all opportunities for appeal have been exhausted. Second, the Senate version makes no reference to a related entity of the taxpayer.

B. Wage standard.

1. The House version eliminated the wage standard in tiers one and two. This had the effect of eliminating the wage standard in development zones.
2. The current Senate version eliminates the wage standard in tiers one and two, but retains the wage standard in development zones.
3. Currently, the wage standard for a location in a development zone (100% of the applicable average weekly wage of the county) is equivalent to the wage standard applicable in tier one counties. The Senate version decouples the wage standard for development zones from the wage standard for tier one counties. In effect, the Senate version makes no change from current law to the wage standard for development zones located in tier three through five counties.

II. Job Development Investment Grant Program. There were numerous changes made to this program. This outline will highlight the major changes.

A. Limitations on program.

1. Sunset.
   a) The House version sunsetted the program 1/1/06.
   b) The current Senate version sunsets the program 1/1/05.
2. Annual cap on agreements.
   a) The House version limited the Committee to 25 agreements in a fiscal year.

b) The current Senate version limits the Committee to 15 agreements in a calendar year.

3. Ceiling on grant amounts.
   a) The House Version limited the total cost of agreements entered into during one fiscal year to $15 million in any fiscal year.
   b) The current Senate version limits the total cost of agreements entered into during one calendar year to $10 million in any fiscal year.
4. The cumulative effect of these changes was to reduce the maximum cost of the program from $540 million over 15 years to $240 million over 14 years.

B. Committee membership.
1. The House version had a seven-member committee made up of the Secretary of Commerce, the Secretary of Revenue, the Co-Chair of the North Carolina Partnership for Economic Development, the Commissioner of Labor, the President of the Community College System, and two members appointed by the General Assembly.
2. The current Senate version has a five- member committee made up of the Secretary of Commerce, the Secretary of Revenue, the Director of the Office of State Budget and Management, and two members appointed by the General Assembly.

C. Effect of failure to comply with agreement.
1. The House version allowed, but did not require the Committee to amend the agreement if one of its terms was violated in a single year and to terminate the agreement if a term was violated in two consecutive years.
2. The current Senate version requires the Committee to amend and allows the Committee to terminate the agreement if one of its terms is violated in single year and requires the Committee to terminate the agreement if a term is violated in two consecutive years.

D. Reporting requirements.
1. The House version required reports on the use of State Ports and efforts to use minority contractors.
2. The Senate version encourages business to use the State Ports and minority contractors, but does not require reports.

E. Rulemaking exemption.
1. The House version allowed the Committee an exemption from the APA rulemaking procedures.
2. The Senate version did not allow this exemption.

F. Amount of individual agreements.
1. The House version had no cap on the amount of an agreement that could be related to a specific position.

2. The current Senate version places a $6,500 cap per year on the amount of a grant that may be based on any specific position.

G. Review by Attorney General
   1. The House version was silent on this issue.
   2. The current Senate version requires the Attorney General to review all proposed agreement and to personally sign them.

H. Binding arbitration.
   1. The House version was silent on this issue.
   2. The current Senate version requires any dispute involving the agreements to be submitted to binding arbitration.

I. Congressional encouragement.
   1. The House version contained a section encouraging to Congress to prohibit the use of tax and other incentives to attract business.
   2. The Senate version eliminated this section.
   3. It was discovered upon further research that a provision such as the one included in the House bill might affect the constitutionality of the act.

(3) A grant may not exceed two hundred thousand dollars ($200,000) per production."

SECTION 1A.2. G.S. 105-164.14 is amended by adding a new subsection to read:

"(j) Production Companies. – A production company is allowed an annual refund of part of the State sales tax it pays under G.S. 105-164.4(a)(3) on the rental of transient accommodations for occupancy by its employees. If an employee of the production company occupies a transient accommodation for a continuous period of more than 30 days but less than 90 days, the production company is allowed a refund of the State sales tax it paid on the rental for the entire rental period. Notwithstanding any other provision of law, the refund allowed in this subsection does not apply to general local sales and use taxes levied under Subchapter VIII of this Chapter, Chapter 1069 of the 1967 Session Laws, or any other local act.

A request for a refund must be in writing and must include any information and documentation required by the Secretary. A request for a refund is due within six months after the end of the State's fiscal year. Refunds applied for after the due date are barred."

SECTION 1A.3. The Revenue Laws Study Committee created in Article 12L of Chapter 120 of the General Statutes shall study options for additional economic incentives for the film industry and shall make a report to the 2003 General Assembly on its findings, including any recommendations for legislative action.

SECTION 1A.4. Section 1C.2 becomes effective January 1, 2003, and applies to rentals of transient accommodations that begin on or after that date. The remainder of this part is effective when it becomes law.

PART 1B. NORTH CAROLINA RAILROAD CONDEMNATION AUTHORITY

SECTION 1B.1. G.S. 40A-3(a)(4) reads as rewritten:

"(a) Private Condemnors. – For the public use or benefit, the persons or organizations listed below shall have the power of eminent domain and may acquire by purchase or condemnation property for the stated purposes and other works which are authorized by law.

...

(4) Any railroad company has the power of eminent domain for the purposes of: constructing union depots; maintaining, operating, improving or straightening lines or of altering its location; constructing double tracks; constructing and maintaining new yards and terminal facilities or enlarging its yard or terminal facilities; connecting two of its lines already in operation not more than six miles apart; or constructing an industrial ~~siding ordered by the Utilities Commission as provided in G.S. 62-232.~~siding."

SECTION 1B.2. This part is effective when it becomes law.

PART 1C. CORPORATE INCOME TAX RATE CHANGE

SECTION 1C.1. G.S. 105-130.3 reads as rewritten:

"**§ 105-130.3. Corporations.**

A tax is imposed on the State net income of every C Corporation doing business in this State. An S Corporation is not subject to the tax levied in this section. The tax is a percentage of the taxpayer's State net income computed as follows:

~~Income Years Beginning~~ ~~Tax~~
~~In 1997~~ ~~7.5%~~
~~In 1998~~ ~~7.25%~~
~~In 1999~~ ~~7%~~
~~After 1999~~ ~~6.9%.~~

(1) On State net income up to three thousand dollars ($3,000), one percent (1%).

(2) On State net income over three thousand dollars ($3,000) and up to six thousand dollars ($6,000), two percent (2%).

(3) On State net income over six thousand dollars ($6,000) and up to nine thousand dollars ($9,000), three percent (3%).

(4) On State net income over nine thousand dollars ($9,000) and up to twelve thousand dollars ($12,000), four percent (4%).

(5) On State net income over twelve thousand dollars ($12,000) and up to fifteen thousand dollars ($15,000), five percent (5%).

(6) On State net income over fifteen thousand dollars ($15,000) and up to thirty thousand dollars ($30,000), six percent (6%).

(7) On State net income over thirty thousand dollars ($30,000), six and nine-tenths percent (6.9%)."

SECTION 1C.2. This part is effective for taxable years beginning on or after January 1, 2004.

PART 1D. INDUSTRIAL AND POLLUTION CONTROL FACILITIES FINANCING

SECTION 1D.1. The General Assembly finds that there are small manufacturing companies in the State that are eligible for industrial development bond financing for capital improvements and expansions, but are not able to take advantage of that financing because of the administrative costs involved. This problem can be addressed by reviving the composite bond program under Chapter 159D of the General Statutes, under which the North Carolina Capital Facilities Finance Agency could combine several series of bonds into a single bond offering, thereby reducing transaction costs and permitting eligible small manufacturers to access tax exempt financing for capital investments. The composite bond program would be facilitated by the changes proposed to Chapter 159D in this part that will streamline the procedures

for composite issues by requiring only one public hearing and align the review standard for bonds issued as part of a composite bond program with the standard for bonds issued by county industrial development projects.

SECTION 1D.2. G.S. 159D-7(d) reads as rewritten:

"(d) Public ~~Hearing.~~Hearing, Generally. – The Secretary of Commerce shall not approve any proposed project pursuant to this section unless the governing body of the county in which the project is located has first conducted a public hearing and, at or after the public hearing, approved in principle the issuance of bonds under this Article for the purpose of paying all or part of the cost of the proposed project. Notice of the public hearing shall be published at least once in at least one newspaper of general circulation in the county not less than 14 days before the public hearing. The notice shall describe generally the bonds proposed to be issued and the proposed project, including its general location, and any other information the governing body considers appropriate or the Secretary of Commerce prescribes for the purpose of providing the Secretary with the views of the community. The notice shall also state that following the public hearing the agency intends to file an application for approval of the proposed project with the Secretary of Commerce.

(d1) Public Hearing, Multiple Projects. – Notwithstanding subsection (d) of this section, in the event the bonds proposed to be issued are to finance more than one project, the public hearing shall be conducted by the agency or by a hearing officer designated by the agency to conduct public hearings. The public hearing may be held at any location designated by the agency. Notice of the public hearing shall be published at least once in at least one newspaper of general circulation in each county in which a proposed project is to be located not less than 14 days before the public hearing. The notice shall describe generally the bonds proposed to be issued and any proposed project in that county, including its general location, and any other information the agency considers appropriate or the Secretary of Commerce prescribes for the purpose of providing the Secretary with the views of the community. A copy of the notice of public hearing must be mailed to the board of county commissioners of any county in which a proposed project is to be located and to the governing body of any municipality in which a proposed project is to be located."

SECTION 1D.3. G.S. 159D-8(b) reads as rewritten:

"(b) In determining whether a proposed bond issue should be approved, the Local Government Commission may consider, without limitation, the following:

(1) Whether the proposed operator and obligor have demonstrated or can demonstrate the financial responsibility and capability to fulfill their obligations with respect to the financing agreement. In making such determination, the commission may consider the operator's experience and the obligor's ratio of current assets to current liabilities, net worth, earnings trends and coverage of fixed charges, the nature of the industry or business involved and its stability and any additional security such as credit enhancement, insurance, guaranties or property to be pledged or secure such bonds.

(2) Whether the political subdivisions in or near which the proposed project is to be located have the ability to cope satisfactorily with the impact of such project and to provide, or cause to be provided, the public facilities and services, including utilities, that will be necessary for such project and on account of any increase in population which are expected to result therefrom.

(3) Whether the proposed date and manner of sale will have an adverse effect upon any scheduled or anticipated sale of obligations by the State or any political subdivision or any agency of either of them."

SECTION 1D.4. This part becomes effective January 1, 2003.

PART 1E. ONE-TIME INVESTMENT BY THE HEALTH AND WELLNESS TRUST FUND COMMISSION

SECTION 1E.1. G.S. 147-86.30(c) reads as rewritten:

"(c) Creation of Fund Reserve. – The Commission shall reserve, and shall not expend, fifty percent (50%) of each annual payment allocated to the Health and Wellness Trust Fund pursuant to G.S. 143-16.4 during years 2001 through 2025 to create and build the Fund Reserve. During years 2001 through 2025, the Commission may expend any investment earnings on the reserved funds. Beginning in year 2026, and thereafter, the Commission shall not expend the reserved funds but may continue to expend any investment earnings on the reserved funds.

Notwithstanding G.S. 147-69.2, the State Treasurer shall invest up to three million dollars ($3,000,000) of the reserved funds in fiscal year 2002-2003 as directed by the Commission. The Commission may direct the State Treasurer to invest the funds in preferred or common stocks issued by a health related company incorporated or otherwise created or located within North Carolina."

SECTION 1E.2. This part is effective when it becomes law and expires on July 1, 2003.

TITLE II. SPECIAL OBLIGATION SETTLEMENT BONDS

SECTION 2.1. Title. – This title shall be known and may be cited as the "Special Obligation Settlement Bonds Act of 2002".

SECTION 2.2. Findings. – The General Assembly finds:

(1) The State, together with 46 other states, has entered into the Master Settlement Agreement, pursuant to which the State expects to receive compensation for damages to the State on account of tobacco-related illnesses as more fully described in the Master Settlement Agreement. Amounts received by the State under the Master Settlement Agreement will be available to fund various State programs for the health, safety, and prosperity of the people of the State.

(2) Payments under the Master Settlement Agreement will be received by the State over a period of years. While many of the projects and

programs that the State will fund from payments received under the Master Settlement Agreement can be effectively funded as the payments are received under the Master Settlement Agreement, more immediate funding is required to finance a cancer treatment center for the health and wellness of the people of the State and to finance a biopharmaceutical training center to assist in the State's transition from a tobacco-based economy to other industries.

(3) For these projects, it is possible for the State to access funds through the issuance of bonds secured solely by, and payable solely from, future payments under the Master Settlement Agreement to be credited to the Settlement Reserve Fund for the Health and Wellness Trust Fund and the Tobacco Trust Fund.

SECTION 2.3. Definitions. – The following definitions apply in this title:

b. The cost of engineering, architectural, and other consulting services in connection with the project as may be required.

c. Finance charges, reserves for debt service, and other types of reserves required pursuant to the terms of the trust agreement or resolution or related documents, interest before and during construction or acquisition of the project and, if considered advisable by the State Treasurer, for a period not exceeding two years after the estimated date of completion of construction or acquisition.

d. Administrative expenses and charges.

e. The cost of bond insurance, investment contracts, credit facilities and liquidity facilities, interest rate swap agreements or other derivative products, financial and legal consultants, and related costs of the incurrence or issuance of the bonds.

f. The cost of reimbursing the State for any payments made for any cost described above.

g. Any other costs and expenses necessary or incidental to the purposes of this title.

(5) Credit facility. – An agreement that:

a. Is entered into by the State with a bank, savings and loan association, or other banking institution, an insurance company, reinsurance company, surety company or other insurance institution, a corporation, investment banking firm or other investment institution, or any financial institution or other similar provider of a credit facility, which provider may be located within or without the United States of America; and

b. Provides for prompt payment of all or any part of the principal or purchase price (whether at maturity, presentment or tender for purchase, redemption, or acceleration), redemption premium, if any, and interest with respect to the bonds payable on demand or tender by the owner in consideration of the State agreeing to repay the provider of the credit facility in accordance with the terms and provisions of the agreement.

(8) Par formula. – A provision or formula adopted by the State to provide for the adjustment, from time to time, of the interest rate or rates borne or provided for by any bonds including any of the following:

a. A provision providing for an adjustment so that the purchase price of the bonds in the open market would be as close to par as possible.

b. A provision providing for an adjustment based upon a percentage or percentages of a prime rate or base rate, which percentages may vary or be applied for different periods of time.

c. Any provision that the State Treasurer determines is consistent with this title and will not materially and adversely affect the financial position of the State and the marketing of bonds at a reasonable interest cost to the State.

(9) Pledged settlement receipts. – The portion of the settlement receipts credited periodically to the Settlement Reserve Fund, but in no event more than twenty-five million dollars ($25,000,000) per fiscal year,

that have been pledged under the resolution or trust agreement authorizing and securing any bonds, all as authorized by this title.

(16) Trust agreement. – Any trust agreement or similar instrument or agreement authorizing and securing bonds issued under this title.

SECTION 2.4. Authorization. – The State Treasurer may, by and with the consent of the Council of State, issue and sell special obligation bonds of the State to pay the cost of the project, in a total principal amount not to exceed one hundred seventy-five million dollars ($175,000,000). In addition, no more than one hundred thirty million dollars ($130,000,000) aggregate principal amount of bonds may be issued to fund costs of the cancer treatment center and no more than forty-five million dollars ($45,000,000) aggregate principal amount of bonds may be issued to fund costs of the biopharmaceutical training center. The principal of, premium, if any, and interest on the bonds shall be payable solely from the pledged settlement receipts in accordance with the terms of the resolution or trust agreement authorizing and securing the bonds.

SECTION 2.5. Terms and conditions. – The bonds may be issued from time to time in one or more series. The bonds shall be dated, and may be made redeemable before maturity at the option of the State at any price or prices and upon any terms and conditions, as may be determined by the State Treasurer at the time of sale of the bonds. The bonds also may be made payable from time to time on demand or tender for purchase by the owner upon any terms and conditions as may be determined by the State Treasurer. The bonds shall bear interest at any rate or rates (whether fixed or variable, or any combination thereof, and including, without limitation, any variations as may be permitted pursuant to a par formula) as may be determined by the State Treasurer. Bonds shall mature at any time or times not exceeding 40 years from their date or dates, as may be determined by the Council of State, subject to the limitations provided in this title. The Council of State shall determine the form and manner of execution of the bonds, and shall fix the denominations and the places of payment of principal and interest, which may be any bank or trust company within or without the State. If an officer whose signature or a facsimile of whose signature appears on any

bonds ceases to be that officer before the delivery of the bonds, the signature or facsimile is nevertheless valid for all purposes as if the officer had remained in office until the delivery. The Council of State may also provide for the authentication of the bonds by a trustee or fiscal agent. The Council of State may also provide for any other terms, conditions, or matters not inconsistent with the provisions of this title.

Bonds may be sold in any manner, either at public or private sale, and for any price as the State Treasurer determines to be for the best interests of the State and to effectuate best the purposes of this title as long as the sale has been approved by the Council of State. The State Treasurer may authorize, execute, obtain, or otherwise provide for bond insurance, investment agreements, credit and liquidity facilities, interest rate swap agreements and other derivative products, and any other related instruments as the State Treasurer determines are desirable in connection with the issuance of bonds under this title. The State Treasurer is authorized to employ and designate any financial consultants, underwriters, and bond attorneys to be associated with any bond issue under this title. The proceeds of any bonds shall be used solely for the purposes for which they are issued and shall be disbursed in any manner and under any restrictions the Council of State may provide in the resolution authorizing the issuance of, or any trust agreement securing, the bonds.

Except as otherwise expressly provided in this title, bonds may be issued under this title without obtaining the consent of any department, division, commission, board, body, bureau, or agency of the State, and without any other proceedings or the happening of any conditions or things other than those proceedings, conditions, or things that are specifically required by this title and the provisions of the resolution authorizing the issuance of, or any trust agreement securing, the bonds.

SECTION 2.6. Trust agreement or resolution. – Any bonds issued under the provisions of this title may be secured by a trust agreement by and between the State and a corporate trustee, which may be any trust company or bank having the powers of a trust company within or without the State. The resolution or trust agreement authorizing and securing the bonds shall, subject to the limitations set forth in this title, specify the pledged settlement receipts and shall pledge or assign these pledged settlement receipts to pay the principal of, premium, if any, or interest on the bonds in the manner provided by this title. The resolution or trust agreement may contain any provisions for protecting and enforcing the rights and remedies of the holders of any bonds as may be reasonable and proper and not in violation of law, including covenants setting forth the duties of the State in relation to the purposes to which bond proceeds may be applied, the disposition or pledging of the pledged settlement receipts, the terms and conditions for the issuance of additional bonds, and the custody, safeguarding, and application of all moneys.

Any resolution or trust agreement may restrict the individual right of action by an individual owner of bonds. In addition to the foregoing, any resolution or trust agreement may contain any other provisions as the Council of State considers reasonable and proper for the security of the holders of any bonds. Expenses incurred by the State in carrying out the provisions of the resolution or trust agreement may be paid from the pledged settlement receipts as provided for in the resolution or trust agreement.

SECTION 2.7. Pledge of settlement receipts; limited obligations. – The State is authorized to pledge a portion of the settlement receipts credited periodically to the Settlement Reserve Fund to the payment of the principal of, premium, if any, and interest on bonds issued under this title as they become due and payable, and to create and maintain any reserves therefor, and to fulfill the terms of any agreements made with the holders of bonds issued under this title. The maximum amount that may be so pledged is twenty-five million dollars ($25,000,000) per fiscal year. Notwithstanding the foregoing, any pledged settlement receipts not required to pay the principal of, premium, if any, and interest on the bonds secured by the pledged settlement receipts as they become due and payable, or to create and maintain any reserves for them, or to fulfill the terms of any agreements made with the holders of bonds issued under this title, shall be available to the State for expenditure for any lawful purpose, subject to the terms and provisions of any resolution or trust agreement authorizing and securing the bonds.

Any pledge of the settlement receipts credited to the Settlement Reserve Fund made by the State under the provisions of this title shall be set forth in the resolution or trust agreement authorizing the issuance of the bonds. The pledge of these settlement receipts made by the State shall be valid and binding from the time when the pledge is made. All settlement receipts so pledged and thereafter received by the State are immediately subject to the lien of the pledge without any physical delivery or further act, and the lien of the pledge is valid and binding as against all parties having claims of any kind in tort, contract, or otherwise against the State, irrespective of whether the parties have notice of the lien. The resolution or trust agreement by which a pledge is created need not be filed or recorded except in the records of the Council of State.

All bonds issued under this title shall be equally and ratably secured by a pledge, charge, and lien upon the pledged settlement receipts pledged to the payment of those bonds, without priority by reason of number, or of dates of bonds, execution, or delivery, in accordance with the provisions of this title and of the resolution or trust agreement authorizing and securing the bonds; except that the State may provide in the resolution or trust agreement that the bonds shall, to the extent and in the manner prescribed in the resolution or trust agreement, be subordinated and junior in standing with respect to the payment of principal of, premium, if any, and interest on any other bonds.

All bonds issued under this title shall be special obligations of the State. The principal of, premium, if any, and interest on the bonds shall not be payable from the general funds of the State, nor shall they constitute a legal or equitable pledge, charge, lien, or encumbrance upon any of its property or upon any of its income, receipts, or revenues, except the pledged settlement receipts. Neither the credit nor the taxing power of the State is pledged for the payment of the principal of, premium, if any, or interest on the bonds, and no holder of bonds has the right to compel the exercise of the taxing power by the State or the forfeiture of any of its property in connection with any default on the bonds, except for the pledged settlement receipts. Every bond issued under this title shall recite in substance that the principal of, premium, if any, and interest on the bond is payable solely from the pledged settlement receipts and that the State is not

obligated to pay the principal, premium, or interest, except from these settlement receipts so pledged.

SECTION 2.8. Agreement of the State. – The State pledges to and agrees with the holders of any bonds issued by the State pursuant to this title that as long as any of the bonds are outstanding and unpaid, the State will not limit or alter the rights vested in the State at the time of issuance of the bonds to collect and apply the pledged settlement receipts in the manner provided in the resolution or trust agreement authorizing and securing the bonds to pay the principal of, premium, if any, and interest on the bonds as they become due and payable, and to create and maintain any reserves for payment, and to fulfill the terms of any agreements made with the holders of the bonds. The State will not in any way impair the rights and remedies of the holders of the bonds until the bonds and all costs and expenses in connection with any action or proceedings by or on behalf of the holders of the bonds are fully paid, met, and discharged.

SECTION 2.9. Trust funds. – Notwithstanding any other provisions of law to the contrary, all moneys received pursuant to the authority of this title, including proceeds of the bonds and the pledged settlement receipts, are trust funds to be held and applied solely as provided in this title. The resolution authorizing the issuance of, or any trust agreement securing, any bonds issued under this title may provide that any of these moneys may be temporarily invested pending their disbursement and shall provide that any officer with whom, or any bank or trust company with which, the moneys are deposited shall act as trustee of the moneys and shall hold and apply them for the purposes of this title, subject to any limitations this title and the resolution or trust agreement provide. These moneys may be invested in any investment authorized by law for investment of trust funds held by the State Treasurer.

SECTION 2.10. Remedies. – Any holder of bonds issued under the provisions of this title, and the trustee under any resolution or trust agreement authorizing and securing the bonds, except to the extent the rights given in this title may be restricted by the resolution or trust agreement, may, either at law or in equity, by suit, action, mandamus, or other proceeding, protect and enforce any and all rights under the laws of the State or granted under this title or under the resolution or trust agreement, or under any other contract executed by the Council of State or the State Treasurer pursuant to this title, and may enforce and compel the performance of all duties required by this title or by the resolution or trust agreement to be performed by the State or by any officer of the State.

SECTION 2.11. Investment securities. – All bonds and interest coupons appertaining to them issued under this title are investment securities within the meaning of and for all the purposes of Article 8 of Chapter 25 of the General Statutes, whether or not they are of the form and character as to be investment securities under that act, subject only to the provisions of the bonds pertaining to registration.

SECTION 2.12. Bonds eligible for investment. – Bonds issued under the provisions of this title are securities or obligations in which all of the following may invest, including capital in their control or belonging to them: public officers, agencies, and public bodies of the State and its political subdivisions; insurance companies, trust

companies, investment companies, banks, savings banks, savings and loan associations, credit unions, pension or retirement funds, and other financial institutions engaged in business in the State; and executors, administrators, trustees, and other fiduciaries. Bonds issued under the provisions of this title are securities or obligations that may properly and legally be deposited with and received by any officer or agency of the State or political subdivision of the State for any purpose for which the deposit of bonds, notes, or obligations of the State or any political subdivision is now or may later be authorized by law.

SECTION 2.13. Refunding bonds. – By and with the consent of the Council of State, the State Treasurer is authorized to issue and sell refunding bonds for the purpose of refunding any bonds issued under this title and then outstanding, including the payment of any redemption premium on them and any interest accrued or to accrue to the date of redemption of the refunded bonds. Refunding bonds may be issued at any time prior to the final maturity of the debt or obligation to be refunded. The principal of, premium, if any, and interest on the refunding bonds shall be payable solely from funds provided under this title for payment of bonds.

The proceeds from the sale of any refunding bonds shall be applied to the immediate payment and retirement of the obligations being refunded or, if not required for the immediate payment of the obligations being refunded, the proceeds shall be deposited in trust to provide for the payment and retirement of the obligations being refunded and to pay any expenses incurred in connection with the refunding. Money in a trust fund may be invested in (i) direct obligations of the United States government, (ii) obligations the principal of and interest on which are guaranteed by the United States government, (iii) to the extent then permitted by law, obligations of any agency or instrumentality of the United States government, or (iv) certificates of deposit issued by a bank or trust company located in the State if the certificates are secured by a pledge of the obligations described in (i), (ii), or (iii) above having an aggregate market value, exclusive of accrued interest, equal at least to the principal amount of the certificates so secured. This section does not limit the duration of any deposit in trust for the retirement of obligations being refunded but that have not matured and are not presently redeemable or, if presently redeemable, have not been called for redemption.

The issuance of refunding bonds, their maturities and other details, the rights of their holders, and the rights, duties, and obligations of the State in respect of them, shall be governed by the provisions of this title that relate to the issuance of bonds, insofar as those provisions are appropriate.

SECTION 2.14. Officers and employees not liable. – No member of the Council of State or officer or employee of the State shall be subject to any personal liability or accountability by reason of the execution or issuance of any bonds under this title.

SECTION 2.15. Tax exemption. – Any bonds issued by the State under the provisions of this title shall at all times be free from taxation by the State or any political subdivision or any of their agencies, excepting estate, inheritance, and gift taxes; income taxes on the gain from the transfer of the bonds; and franchise taxes. Interest on the bonds is not subject to taxation as income.

SECTION 2.16. Allocation of funds. – G.S. 143-16.4 reads as rewritten:

"**§ 143-16.4. Settlement Reserve Fund.**

BILL ANALYSIS

Committee:	House Appropriations	**Introduced by:**	Representative Redwine
Date:	October 1, 2002	**Summary by:**	Frank W. Folger
Version:	S822-CSSO-84 [v.17]		Staff Attorney

SUMMARY: ***This bill would: (1) transfer administration of the State Health Plan's long term care benefits program to the State Treasurer and (2) provide for competitive selection of supplemental insurance products for eligible members of the State-administered retirement systems (State and local government employee retirees) and long term disability beneficiaries of the Disability Income Plan of North Carolina. Sections 1.1 –1.6 of the act would become effective January 1, 2004. The remainder of the act would become effective January 1, 2003.***

BILL ANALYSIS:

Sections 1.1 through 1.6 Long-Term Care Benefits Program Transfer would transfer, from the State Health Plan, to the State Treasurer authority over the long-term care benefits offered optionally to qualified employees, retired employees, and dependents of those employees. It would repeal the existing statutes found in Part 4 of Article 3 of Chapter 135 and create a new Article 7 within the same Chapter to provide for establishment of the "Long-Term Care Plan of North Carolina" to be administered by the State Treasurer in accordance with rules and regulations adopted by the Treasurer. Benefits would be available to those qualified employees and retired employees voluntarily electing to provide those benefits for themselves and their qualified dependents. Payroll deduction would be available, subject to approval by the State Treasurer, from employee salary and disability benefit payments and from retired employee benefit payments for fully contributory payment of premiums. Participants would in the alternative be permitted (or required in some cases) to pay for the benefits by check, money order, electronic funds, or in accordance with any other payment method deemed acceptable by the Plan. Persons enrolled in the long term benefits program currently offered through the State Health Plan would be entitled to equal or greater coverage under an individual policy offered by the State Health Plan's contractor upon termination of the group plan offered by the State Health Plan.

Section 2 Supplemental Insurance Products for Members of the State-Administered Retirement Systems and Long-Term Disability Beneficiaries of the Disability Income Plan would create a new statute requiring the Board of Trustees of the Teachers' and State Employees' Retirement System and the Board of Trustees of the Local Governmental Employees' Retirement System meeting jointly (the Boards) to competitively select supplemental insurance products for eligible members a third party administrator (TPA) to provide and administer those products, or both.

The Boards would be charged with assessing the insurance products presently offered through benefit payment deduction to eligible members; selecting the types of insurance products reflecting eligible members' needs and desires; and competitively selecting the best insurance products determined to reflect the eligible members' needs and desires, a TPA to arrange for and administer those products, or both. The Boards, using a sealed bid process, would competitively select the supplemental insurance products or TPA.

Subject to approval by the State Treasurer, an eligible member selecting a product or products could have the premiums deducted from the members benefit payment. In the alternative, the eligible member could

elect, at signup (or following 30 days written notice) to submit payment by check, money order, EFT, or any other method allowed for other policyholders of the insurer.

A committee of at least 5 constituent members of the Boards would be allowed to complete the selection process but the full Boards would have to approve the committee's decision before the product would be considered selected. At the direction of the Chair of the Board of Trustees of the Teachers' and State Employees' Retirement System, the Department of State Treasurer would assist in carrying out the Boards duties, make recommendations to the Boards, including the selection of the insurance products or TPAs, and be permitted to employ clerical and professional staff necessary to assist the Department in carrying out its responsibilities.

The Boards would be autonomous and free from conflict of interest. Violation of the conflict of interest provisions would be a Class 3 misdemeanor.

The Department of State Treasurer would be able to pass on administrative costs it bears in carrying out the provisions by charging it to participants on a non-discriminatory basis.

SECTION 1.6. Chapter 135 of the General Statutes is amended by adding a new Article to read:

"Article 7.

"Long-Term Care Plan.

"**§ 135-120. Short title and purpose.**

(a) This Article shall be known and may be cited as the "Long-Term Care Plan of North Carolina".

(b) The purpose of the Article is to attract and hold qualified employees and officials of the State of North Carolina and its political subdivisions by making available an optional program of long-term care benefits for the benefit of its qualified employees, retired employees, and their dependents which will pay benefits in accordance with the terms hereof and rules and regulations promulgated by the State Treasurer pursuant to this Article. Retired employees of the Local Governmental Employees' Retirement System pursuant to Article 3 of Chapter 128 of the General Statutes and their dependents are also eligible to be qualified for the benefits provided by this Article. Except as otherwise provided in this Article, the terms "employee" and

"retired employee", as used in this Article, shall mean the terms as defined, respectively, in G.S. 135-40.1(5) and G.S. 135-40.1(17).

"**§ 135-121. Administration.**

(a) The provisions of this Article shall be administered by the Department of State Treasurer.

(b) The Long-Term Care Plan shall have the powers and privileges of a corporation and shall be known as the "Long-Term Care Plan of North Carolina" and by this name all of its business shall be transacted. For purposes of this Article only, "Plan" refers to the Long-Term Care Plan of North Carolina.

(c) The Department of State Treasurer shall have full power and authority to adopt rules and regulations for the administration of the Plan, provided they are not inconsistent with the provisions of this Article. The Department of State Treasurer may appoint those agents, contractors, employees, and committees as they deem advisable to carry out the terms and conditions of the Plan. The Department of State Treasurer may employ clerical and professional staff and such other assistance as may be necessary to assist the Department of State Treasurer in carrying out its duties and responsibilities under this Article. The benefits provided by this Article may be offered by the Plan on a self-insured basis, in which case a third-party claims processor shall be chosen through competitive bids in accordance with State law, or through a contract of insurance, in which case a carrier licensed to do business in North Carolina shall be selected on a competitive bid basis in accordance with State law.

(d) The Department of State Treasurer shall be charged with a fiduciary responsibility for managing all aspects of the Plan, including the receipt, maintenance, investment, and disposition of all Plan assets.

(e) The benefits authorized by this Article are available only to qualified employees and retired employees who voluntarily elect to provide such benefits for themselves and their qualified dependents. Except as provided in this subsection, deductions shall be available from employee salary and employer paid disability benefit payments and from retired employee retirement benefit payments for fully contributory premium amounts. Availability of payroll or benefit payment deduction for each participant is subject to approval by the State Treasurer. If payroll or benefit payment deduction is denied by the State Treasurer, the participant shall pay any premiums due in accordance with the alternative premium payment methods provided in subsection (f) of this section. When payroll or benefit payment deduction is no longer available, the Plan's administrator may not terminate benefits under the Plan without the participant's specific written consent solely because the premium is no longer deducted from payroll or benefit payments.

(f) If a participant chooses, the participant may, in lieu of payment of the premium by payroll or benefit payment deduction, pay the monthly premium for the Plan benefits by submitting payment by check, money order, or electronic funds transfer, or in accordance with any other methods for payment of premiums deemed acceptable by the Plan. Subject to availability as provided in subsection (e) of this section, a participant shall be deemed to have authorized benefit payment deduction for payment of the premiums unless the participant, no later than the time of enrollment for

Plan benefits, chooses a method of payment other than payroll or benefit payment deduction and notifies the Plan of the selected method of payment.. A participant who, after enrolling in Plan benefits, chooses to pay the premium by a method other than by monthly payroll or benefit payment deduction shall provide written notice to the Plan, on a form promulgated and approved by the State Treasurer, at least 30 days prior to using the payment method other than payroll or benefit payment deduction.

(g) The State Treasurer shall ensure insofar as possible that the long-term care benefits provided by this Part shall be tax-qualified under federal law.

(h) The administrative costs of the Plan to the Department of State Treasurer may be charged to participants or deducted from participants' accounts in accordance with nondiscriminatory procedures established by the Department of State Treasurer.

"**§ 135-122. Right to alter, amend, or repeal.**

The General Assembly reserves the right to alter, amend, or repeal this Article."

SECTION 2. Article 31 of Chapter 58 of the General Statutes is amended by adding a new section to read:

"**§ 58-31-61. Competitive selection of supplemental insurance products paid for by eligible beneficiaries of the State-administered retirement systems and Disability Income Plan of North Carolina.**

(a) Definitions. – The following definitions apply in this section only:

(1) "Boards of Trustees" or "Boards" means the Board of Trustees of the Teachers' and State Employees' Retirement System and the Board of Trustees of the Local Governmental Employees' Retirement System meeting jointly.

(2) "Eligible members" means beneficiaries of the Teachers' and State Employees' Retirement System, beneficiaries of the Local Governmental Employees' Retirement System, and eligible beneficiaries of the Disability Income Plan of North Carolina who receive long-term disability benefits pursuant to G.S. 135-106.

(3) "Participants" means eligible members selecting insurance products made available pursuant to this section.

(b) Duties of the Boards of Trustees. –The Boards of Trustees shall:

(1) Review insurance products currently offered through benefit payment deduction to eligible members to determine if those products meet the needs and desires of eligible members.

(2) Select the types of insurance products that reflect the needs and desires of eligible members.

(3) Competitively select the best insurance products of the types determined by the Boards to reflect the needs and desires of eligible members, a third party administrator to select and administer a program of insurance products of the types determined by the Boards to reflect the needs and desires of eligible members, or both.

As used in this section, "insurance product" includes a prepaid legal services plan registered under G.S. 84-23.1.

(c) Procedure for Selection of Insurance Product Proposals. – All proposals, whether for the offering of insurance products or for the offering to serve as a third party administrator, shall be sealed. The Boards of Trustees shall open all proposals in public and record them in the minutes of the Boards, at which time the proposals become public records open to public inspection.

After the public opening, the Boards shall review the proposals, examining the cost and quality of the products or service, the reputation and capabilities of the insurance companies or third party administrators submitting the proposals, and other appropriate criteria. The Boards shall determine which proposal, if any, would meet the needs and desires of the eligible members and shall award a benefit payment deduction to the company submitting the proposal that meets those needs and desires or a contract to the third party administrator submitting the proposal that meets those needs and desires. The Boards may reject any or all proposals.

A company or third party administrator may seek to modify or withdraw a proposal only after the public opening and only on the basis that the proposal contains an unintentional clerical error as opposed to an error in judgment. A company or third party administrator seeking to modify or withdraw a proposal shall submit to the Boards a written request, with facts and evidence in support of its position, prior to the award of the benefit payment deduction , but not later than two days after the public opening of the proposals. The Boards shall promptly review the request, examine the nature of the error, and determine whether to permit or deny the request.

(d) Committee of the Boards. – The Chairman of the Board of Trustees of the Teachers' and State Employees' Retirement System may designate a committee consisting of not less than five members of the Boards to carry out the duties of the full Boards set forth in this section. If a committee is designated to carry out the full Boards' duties, it shall comply with all the provisions of this section and its determination on the award of benefit payment deductions to companies submitting proposals or the award of contracts to third party administrators submitting proposals shall constitute a recommendation to the full Boards rather than a final decision on the award. The full Boards shall either adopt or reject each of the recommendations offered by the committee. The Boards' adoption of a recommendation of the committee constitutes an award of a benefit payment deduction or contract for purposes of this section.

(e) Conflicts of Interest. – The Boards shall be autonomous in their selection of insurance products, insurance companies, and third party administrators and no member of the Boards having a conflict of interest in the selection of insurance products, insurance companies or third party administrators shall participate in the discussion or selection of the insurance products, insurance companies, or third party administrators. Any decision rendered pursuant to this section by the Boards where the autonomy of the Boards or a conflict of interest is questioned shall be subject to appeal to the State Treasurer's Office pursuant to the Administrative Procedure Act.

(f) Criminal Penalty. – It shall be a Class 3 misdemeanor for any member of the Boards having a conflict of interest in the selection of insurance products, insurance companies, or third party administrators to attempt to influence the Boards in the selection of insurance products, insurance companies, or third party administrators

knowing or having reason to know that the Boards member has a conflict of interest in the selection of insurance products, insurance companies, or third party administrators, or for anyone to open a sealed insurance product or third party administrator proposal or disclose or exhibit the contents of a sealed insurance product or third party administrator proposal, prior to the public opening of the proposal. The Commissioner of Insurance shall have the authority to investigate complaints alleging acts subject to the criminal penalty and shall report the Commissioner's findings to the Attorney General of North Carolina.

(g) Benefit Payment Deductions. – For a company the insurance product of which has been selected by the Boards of Trustees, the awarding by the Boards of a benefit payment deduction shall be for a period of not less than two years unless the insurance company shall be in violation of the terms of the written agreement specified in this subsection. The insurance company awarded a benefit payment deduction shall, pursuant to a written agreement setting out the rights and duties of the insurance company, be afforded an adequate opportunity to solicit eligible members by making such eligible members aware that a representative of the company will be available at a specified time and at a location convenient to the eligible members. For a third party administrator selected by the Boards, the terms of the contract between the third party administrator and the Boards shall determine the rights and responsibilities of each party, except as otherwise provided in this section or other applicable law.

(h) Availability of and Removal from Benefit Payment Deduction and Termination of Insurance Products – Availability of benefit payment deduction for a participant is subject to approval by the State Treasurer. If benefit payment deduction for a participant is denied by the State Treasurer, the participant shall pay any premiums due in accordance with the alternative premium payment methods provided in subsection (i) of this section. When benefit payment deduction is no longer available, the insurance company may not terminate insurance products purchased under the benefit payment deduction plan without the participant's specific written consent solely because the premium is no longer deducted from benefit payments.

(i) Alternative Premium Payment Methods - If a participant chooses, the participant may, in lieu of paying the premium by benefit payment deduction, submit the premium by check, money order, or electronic funds transfer, or in accordance with any other methods for payment of premiums provided to other policyholders of the insurance company. Subject to availability as provided in subsection (h) of this section, a participant shall be deemed to have authorized benefit payment deduction for payment of the premiums unless the participant, no later than the time of purchasing coverage, chooses a method of payment other than payroll or benefit payment deduction and notifies the insurance company and the Department of State Treasurer of the selected method of payment. A participant who, after purchasing coverage, chooses to pay the premium by a method other than by monthly benefit payment deduction shall provide written notice, on a form promulgated and approved by the State Treasurer, to the insurance company offering or providing the insurance product and the Department of State Treasurer at least 30 days prior to using the alternative premium payment method.

(j) At the request and direction of the Chairman of the Board of Trustees of the Teachers' and State Employees' Retirement System, the Department of State Treasurer shall:

(1) assist the Boards in carrying out their duties and responsibilities under this section;

(2) make recommendations to the Boards, the Committee of the Boards or both, on all relevant matters, including the selection of insurance insurance products and third party admistrators; and

(3) be authorized to employ clerical and professional staff and such other assistance as may be necessary to assist it.

(k) The administrative costs to the Department of State Treasurer of carrying out its duties and responsibilities under this section may be charged to participants or deducted from participants' accounts in accordance with nondiscriminatory procedures established by the Department of State Treasurer."

SECTION 3. Sections 1.1 through 1.6 of the act become effective January 1, 2004. The remainder of the act becomes effective January 1, 2003.

BILL ANALYSIS

Committee:		**Introduced by:**	
Date:	October 3, 2002	**Summary by:**	Trina Griffin
Version:	Committee Substitute for 5th Edition		Staff Attorney

SUMMARY: The Committee Substitute for the 5th edition of Senate Bill 1455 does the following:

- *It authorizes the General Statutes Commission and other interested parties to study the provisions of SB 1455, 4th edition, Strengthen Securities Fraud Enforcement Laws, and make recommendations to the 2003 Regular Session of the 2003 General Assembly.*
- *It increases registration fees for investment advisers and increases the annual renewal fee for renewing a registration statement relating to redeemable securities.*
- *It authorizes three additional securities investigators in the Securities Division.*
- *It prohibits the State from contracting with businesses that have any officers or directors who have been convicted of securities fraud within the past 10 years.*
- *It prohibits the State from contracting with vendors that are incorporated in a tax haven country after December 31, 2001 but the United States is the principal market for the public trading of their corporations stock.*
- *It directs the State Treasurer, in consultation with the Secretary of State, to study the best methods for creating, funding, and paying claims from a "Pension Assurance Fund" designed to protect the retirement savings and investments of the citizens of North Carolina and report their recommendations to the 2003 General Assembly. It also authorizes the Legislative Research Commission to study this issue.*

BILL ANALYSIS:

Section 1 of the bill authorizes the General Statutes Commission to study the provisions of Senate Bill 1455, 4th Edition, Strengthen Securities Fraud Enforcement Laws, in consultation with the Secretary of State, the Securities Industry Association, the North Carolina Bar Association, and other interested parties, and to make recommendations to the 2003 Regular Session of the 2003 General Assembly.

Section 2 increases from $200 to $300 the filing fee for the initial or renewal registration of an investment adviser.

Section 3 increases from $200 to $300 the filing fee for the initial or renewal registration of an investment adviser covered under federal law.

Section 4 increases from $200 to $250 the annual renewal fee for renewing a registration statement relating to redeemable securities to be offered for a period in excess of one year, other than securities covered under federal law.

Section 5 prohibits a vendor from entering into a contract with the State if any officer, director, or owner of the vendor has been convicted of a state or federal securities fraud violation within the 10 years immediately prior to the bid solicitation. This section requires vendors submitting a bid or contract to

certify that none of its officers, directors, or owners has been convicted of any such violation. The submission of a false certification is a Class I felony. This section also provides that a contract with an ineligible vendor is void. However, the contract may continue in effect until an alternative can be arranged when (i) immediate termination would result in harm to the public health and welfare, and (ii) the Secretary of Administration approves the continuation.

Section 6 prohibits the Secretary of Administration from entering into a contract with a vendor or an affiliate of a vendor if the vendor or affiliate is incorporated in a tax haven country after December 31, 2001, but the United States is the principal market for the public trading of the corporation's stock. The vendor is required to certify, upon submitting a bid or contract, that it does not violate the provisions of this section. The definition of "tax haven country" is identical to the definition of the same term found in federal legislation currently before Congress that would prohibit the federal government from using defense-spending funds as payment on any new contracts with "corporate expatriates."

Section 7 directs the State Treasurer, in consultation with the Secretary of State, to study the best methods for creating, funding, and paying claims from a "Pension Assurance Fund" designed to protect the retirement savings and investments of employees in private industry who, through no fault of their own, have suffered significant losses due to securities fraud violations. The State Treasurer and the Secretary of State shall develop legislative recommendations and report them to the General Assembly by March 1, 2003.

Section 8 appropriates $151,125 for recurring expenses and $15, 990 for nonrecurring expenses for three additional unsworn securities investigators in the Secretary of State's Securities Division. The increase revenue arising from increases in the fees in Sections 2, 3, and 4 approximates the amount of this appropriation.

EFFECTIVE DATE: The appropriation section and the revenue sections are effective November 1, 2002. The State contract provisions are effective December 1, 2002 and apply to contracts entered into on or after that date. The remainder of the bill is effective when it becomes law.

BILL SUMMARY: (Provided in part by the Research Division of the NC General Assembly.) Securities fraud committed in North Carolina by any person or any company is subject to both criminal and civil actions, whether or not the company is chartered in North Carolina, and whether or not the security is registered in North Carolina. Criminal violations of the securities fraud laws are punished as Class H felonies, regardless of the amount involved. In civil actions, the statute of limitations for securities fraud is two years and punitive damages are not allowed to be imposed. The fourth edition of this bill included provisions to strengthen various laws prohibiting fraud in securities transactions and dealings by increasing criminal punishment for large-scale securities fraud, expanding civil remedies to recover damages arising from securities fraud, and strengthening administrative and criminal powers of securities administrators. The fifth edition of this bill directs the General Statutes Commission to study those provisions. The fifth edition also increases several securities-related registration and renewal fees and funds three additional investigative positions in the Securities Division of the Office of the Secretary of State.

Additionally, the fifth edition prohibits the State from contracting with businesses that have any officers or directors who have been convicted of securities fraud within the past 10 years, prohibits the State from contracting with vendors that are incorporated in a tax haven country after December 31, 2002 but the United States is the principal market for the public trading of their corporations stock, and creates a pension assurance fund to protect some of the retirement savings and investments of the citizens of North Carolina.

ASSUMPTIONS AND METHODOLOGY:

Secretary of State

General Fund Revenue. Sections 2, 3 and 4 of this bill would increase certain fees that are now charged by the Securities Division of the Secretary of State. The estimated additional revenue is $271,000 annually.

Specifically, Sections 2 and 3 would amend G.S. 78C-17(b) and G.S. 78C-17(b1) to increase the annual registration and notice filing fees for investment and adviser firms from $200 to $300. This will affect approximately 1,100 firms, which equates to $110,000 in additional revenue annually.

Section 4 would amend G.S. 78A-31(a)(4) to increase the annual renewal fee for mutual company notice filings from $200 to $250. This will impact 3,220 mutual funds and is expected to generate an additional $161,000 annually.

General Fund Operating Budget. The Department estimates that the Securities Division would need three additional unsworn securities investigators at a pay grade of 71 with annual salary of $33,284 to investigate complaints and to significantly enhance the enforcement of the securities fraud provisions. The positions are effective November 1, 2002 with a cost the first year per investigator as follows:

Cost per Securities Investigator (Unsworn)

Recurring		Nonrecurring	
Salary	$22,189	Furniture/Equipment	$2,130
Benefits	$4,762	Computers	$3,200
Travel	$19,090		
Communication	$867		
Education/Other Expenses	$3,467		
Total Recurring	**$50,375**	**Total Nonrecurring**	**$5,330**

The total recurring cost for the three investigators is expected to be $151,125. The nonrecurring cost is expected to be $15,990. For the front-page box, recurring costs are adjusted for annual inflation.

Judicial Branch

For most criminal penalty bills, the Administrative Office of the Courts (AOC) provides Fiscal Research with an analysis of the fiscal impact of the specific bill. For these bills, fiscal impact is typically based on the assumption that court time will increase due to an expected increase in trials and a corresponding increase in the hours of work for judges, clerks and prosecutors. This increased court time is also expected to result in greater expenditures for jury fees and indigent defense. The AOC relies on offense code data to project the court costs of a bill; the lack of data for these offenses prevents the AOC from estimating the court impact.

Sections 5 and 6 prohibit certain vendors from contracting with the State, and make false certification by unauthorized vendors a Class I felony. AOC staff reports that neither the Securities Unit in the Office of the Secretary of State nor the Purchasing and Contract Division of the Department of Administration (DOA) are aware of the number of vendors doing business with the State that have an officer, director, or owner of an unincorporated business entity, who within 10 years immediately prior to the date of the bid solicitation, has been convicted of securities violations under Chapter 78A or the Securities Act of 1933 or the Securities Exchange Act of 1934. Under Section 5 of the bill, these vendors are not authorized to do business with the State. However, the bill does not impose a duty on State entities to investigate the vendor's information. While the DOA plans to make vendors aware of the new law, it does not intend to investigate the information supplied by vendors. AOC also reports that the provisions in these sections would prevent DOA from contracting with some of the suppliers with whom they currently do business. To the extent that vendors are charged with providing false certification under Section 5 or 6 of the bill, the courts will be impacted.

Correction

To project the impact of a bill on the prison population, the Sentencing Commission uses data based on offense codes from the Administrative Office of the Courts (AOC). This bill would create two new Class I felonies. Without historical data from the AOC, the Sentencing Commission cannot project the impact of these new offenses on prison beds. As mentioned above, the bill does not impose a duty on State entities to investigate the vendor's information. As a

result, it is unlikely that there will be a large number of convictions resulting from this bill. However, if there were 5 convictions each year under this bill, there would be the need for 1 additional prison bed in the first year and 1 additional bed in the second year. In FY 2000-01, approximately 37 percent of Class I felons received intermediate punishments, and approximately 54 percent received community punishments. Also in FY 2000-01, the average daily operating cost of a prison bed was $65.29, the average daily cost of an intermediate punishment was $12.69/offender, and the average daily cost of a community punishment was $1.87/offender.

Office of the State Treasurer

This act creates the Pension Assurance Fund in the Office of the State Treasurer to protect the retirement savings and investments by citizens of North Carolina. The purpose of the Fund is to compensate private citizens who lose a significant portion of their retirement saving that were invested in 401(k) plans or other pension plans that were funded in whole or in part with employer stock. The State Treasurer and the Secretary of State are to develop recommendations for funding; including the use of punitive damages and treble damages involving settlements of suits involving securities fraud brought by the State or by private individuals. The State Treasurer and the Secretary of State are to make their recommendations to the General Assembly by March 1, 2003.

Several questions relating to this Fund are:

- Role of the Attorney General's office?
- How will citizens receive settlement funds?
- Why not include public employees?
- Are IRAs covered?
- Will payment be made to plan members or to plan sponsors?
- Staff to take claims and determine loss of citizens?

TECHNICAL CONSIDERATIONS: Sections 5 and 6, which contain criminal penalties, become effective November 1, 2002. Generally, provisions with criminal penalties are written to become effective December 1, 2002, to give the court system time to prepare.

MEMORANDUM

TO: House Committee on Appropriations

FROM: General Statutes Commission

DATE: October 2, 2002

RE: Senate Bill (2002 Technical Corrections)

General Comments

The committee substitute for Senate Bill 1217 (2002 Technical Corrections) contains two parts that are recommended by the General Statutes Commission. Part I makes corrections of a technical nature to various sections of the General Statutes. These amendments correct typographical, redlining and other obvious drafting errors, conform terminology, make technical conforming changes, and update or correct statutory references, obsolete terms, and proper names. In addition, there is one amendment that makes a recodification in order to correct internal numbering problems and another that adds a statement of already-existing law to Chapter 48. Part II corrects what appears to have been an obvious drafting error in a 1995 session law.

Specific Comments

Part I

Section 1. This section makes a conforming amendment to G.S. 7A-273(2) by adding a reference to G.S. 14-399(c1), enacted last year.

In S.L. 2001-512, the General Assembly amended G.S. 14-399, on littering, to add the offense of unintentional littering (also called strict liability littering), and in doing so it closely paralleled the existing provisions on intentional littering, including the punishment structure. For both the intentional and the unintentional offenses, there are three punishment levels, the lowest for amounts not exceeding 15 pounds, a mid-range level for amounts over 15 pounds but not exceeding 500 pounds, and the highest for amounts exceeding 500 pounds. The punishment

range authorized for the unintentional offense is less severe at each level than for the comparable level intentional offense.

G.S. 7A-273(2) contains a list of misdemeanors for which a magistrate may accept a waiver of trial and a plea of guilty in accordance with the schedule promulgated by the Conference of Chief District Court Judges under G.S. 7A-148. The intentional littering offense at the lowest punishment level under G.S. 14-399 is included in G.S. 7A-273's list. When the unintentional littering offense was created last year, however, no conforming change was made to G.S. 7A-273 to add the new lowest level unintentional littering offense to this list. The result is that a person charged with intentionally littering in amounts not exceeding 15 pounds may sign the waiver of trial on the back of his or her citation and mail it to the clerk with a check for the fine, while a person charged with unintentionally littering in amounts not exceeding 15 pounds must actually come to court on one of the arresting officer's court days. The amendment in this section corrects the situation.

Section 2. This section amends G.S. 14-27.1 to update the obsolete term "mentally defective" to the more modern "mentally disabled" and to make conforming amendments in G.S. 14-27.3, 14-27.5, 15-144.1, and 15-144.2.

Second-degree rape (G.S. 14-27.3) includes vaginal intercourse with a person who is "mentally defective;" second-degree sexual offense (G.S. 14-27.5) includes the same term in a similar provision. "Mentally defective" is defined in G.S. 14-27.1 and, broadly speaking, refers to a person who is either mentally retarded or has a mental disorder and, as a result of the retardation or disorder, is incapable of (i) understanding what is being done to him or her, (ii) resisting, or (iii) communicating a refusal. In the time since 1979, when G.S. 14-27.1, 14-27.3, and 14-27.5 were enacted, society in general has become more sensitive to the effect of such labels as "mentally defective" on the persons to whom they are applied. "Mentally defective" is not only a derogatory term in itself, it is being applied in these statutes to victims of serious crimes. The term is outdated and should be modernized. The General Statutes Commission was requested by the Victims with Disabilities Task Force to recommend updating the term to the more modern, nonderogatory, "mentally disabled." The Task Force is composed of several organizations and agencies including the Administrative Office of the Courts, law enforcement and law related groups, and groups that deal with various disabilities and victim services. Please note that the only change is to the term itself; the substance of the law is not being changed.

The change in terminology requires conforming changes in G.S. 14-27.3, 14-27.5, 15-144.1, and 15-144.2. Because the latter two contain requirements for indictments for rape and sex offense, the effective date is postponed to give district attorneys adequate time to have notice of the terminology change.

Sections 3 and 4. These sections make a conforming amendment to G.S. 14-309.7 and G.S. 14-309.11. In S.L. 1999-237, s. 11.18, the General Assembly transferred the bingo program from the Department of Health and Human Services to the Department of Crime Control and

Public Safety, but conforming amendments to change the department name were not made to the codified statutes dealing with the program. These sections make those conforming amendments.

Section 5. This section amends G.S. 14-313(b) to correct a redlining error. G.S. 14-313, which puts restrictions on the purchase of tobacco products by minors, was extensively amended in 1995. In subsection (b), the word "to" was simply dropped rather than being redlined out. The amendment in this section deletes the word "to."

Section 6. This section amends G.S. 20-28(a1) to conform the time limits to those actually set out in G.S. 20-6.5.

Section 7. This section amends G.S. 25-3-118(h) to correct a typographical error. The reference to a "seal" instrument should read "sealed."

Sections 8 and 9. These sections amend G.S. 28A-13-3(c) and G.S. 28A-15-1(c) to correct an obvious drafting error.

In the 2001 Regular Session, the North Carolina Bar Association recommended, inter alia, amending these sections to make it clear that if a personal representative files a special proceeding to petition the court for an order authorizing the personal representative to take possession, custody, or control of a decedent's real property, and then later needs to petition to sell the real property, or vice versa, the personal representative may include the later request as part of the existing special proceeding and does not need to institute a separate special proceeding. The amendments were introduced in one bill but moved to a different bill during the legislative process and were enacted as part of the second bill (S.L. 2001-413). As enacted, however, the language added to each section was "flipped," so that the language that should have been added to G.S. 28A-13-3(c) was added to G.S. 28A-15-1(c), and vice versa, resulting in amendments that have essentially no effect. Sections 8 and 9 together put the correct language in the correct section.

Section 10. This section amends G.S. 47A-17 to insert the actual citation to the "preceding section" in place of the phrase "preceding section" to comply with current drafting standards.

Section 11. This section updates a citation. G.S. 1-272 has been repealed and replaced by G.S. 1-301.2.

Section 12. This section amends G.S. 48-2-601 to insert an explicit provision in Chapter 48 of the General Statutes (on adoptions) alerting any user of the chapter to the fact that transfers from the clerk of court go to a district court judge. Since 1995, adoptions have been special proceedings filed in district court and heard before the clerk of superior court. As made clear by various sections in Chapter 7A of the General Statutes, transfers of adoption proceedings due to contested factual issues, equitable defenses, or requests for equitable relief are to the district

court, and appeals from the clerk lie to a district court judge. Chapter 48 itself contains an explicit provision in G.S. 48-2-607 naming the district court as the proper court for appeals from the clerk of court, but the chapter has no similar provision for transfers. The absence of such a provision in Chapter 48 is reportedly confusing to some clerks of court and others using Chapter 48, and an explicit provision on transfers somewhere in that Chapter would apparently be helpful. The provision being inserted merely states the current law and follows closely the language of G.S. 1-301.2. A conforming addition is also being made to the catchline.

Section 13. This section amends G.S. 51-1 to correct a redlining error. In the 2001 Regular Session (S.L. 2001-62), the General Assembly substantially amended Chapter 51 dealing with marriages, including amending G.S. 51-1. However, certain words deleted from G.S. 51-1(1)a. and reinserted in G.S. 51-1(1)b. were not underlined in G.S. 51-1(1)b. and so were technically not actually reinserted. This section corrects that error and includes a validating provision for marriages between the effective date of the 2001 act and the effective date of this bill.

Section 14. This section amends G.S. 51-8 to remove a reference to birth registration cards, which are no longer provided for in the General Statutes.

Section 15. This section amends G.S. 55-1-20 to correct an obvious drafting error and repeal subsection (j). S.L. 2001-358 recodified much of G.S. 55-1-20 into G.S. 55D-10, which replaced G.S. 55-1-20 for purposes of the recodified provisions. In the process, the substance of subsection (j) was added to new G.S. 55D-10(6). Subsection (j) thereby become obsolete and should have been deleted from G.S. 55-1-20. Instead, rather than being lined out or specifically repealed, it was simply dropped and was therefore technically not actually deleted.

Section 16. This section amends G.S. 78C-20 to conform the catchline to the substance of the section. The amendment changes the catchline from "Alternate methods of registration" to "Methods of registration." Until last year, G.S. 78C-20 included a subsection (b) that dealt with alternate methods of registering investment advisors. S.L. 2001-273 revised the section, and it now refers only to a single method of registration. The catchline, however, was not amended to conform to the revision.

Section 17. This section amends G.S. 59-73.33(b)(2) to correct a citation. G.S. "59-35.1(c)" should be G.S. "59-35.2."

Section 18. This section amends G.S. 114-10 by recodifying subdivision (2a) as a new G.S. 114-10.01 in order to correct a problem with the internal numbering and to replace one long section with two shorter ones (G.S. 114-10 is an extremely long section).

Section 19. This section amends G.S. 116-209.25(c1)(2) to correct a proper name. "Security" and Exchange Commission should be "Securities" and Exchange Commission.

Section 20. This section makes a conforming amendment to G.S. 143-640. In the 2001 Regular Session, the General Assembly increased the membership of the First Flight Centennial Commission to add the Mayor of the Town of Kitty Hawk as an ex officio member. However, the sentence in G.S. 143-640(c) that states the total number of members was not increased to reflect the new member. This amendment makes that change.

Section 21. This section contains various amendments to Chapter 163 of the General Statutes, dealing with elections.

Subsection (a) amends G.S. 163-119 to update a citation. G.S. 163-150(a) has been repealed, and the reference should now be to G.S. 163-166.7(a).

Subsection (b) amends G.S. 163-122(b) (on nominating unaffiliated candidates) to require that the petition wording include the name of the office sought. In the statute's current form, a candidate could possibly mislead a voter if the candidate states that he or she is running for one office and then uses the petition to file for another office.

Subsection (c) makes a conforming change to G.S. 163-276. In the 2001 Regular Session, the General Assembly replaced former Articles 13 and 14 with a new article. This section updates the reference.

Subsection (d) amends G.S. 163-278.9(4a) to replace a reference to reporting money received "after the last preelection report but before an election" to reporting receipt "before an election but after the period covered by the last report due before that election." The change is needed because a former report specifically called the "preelection report" has been repealed.

Subsection (e) makes essentially the same amendment as in subsection (d) to G.S. 163-278.9A(a)(2a), and for the same reason. Although this amendment was not reviewed and approved by the General Statutes Commission, it is added to the bill in proximity to subsection (d) to avoid the repetitious duplicate explanations that would be necessary if the subsection were included in Part III..

Subsection (f) amends G.S. 163-278.33 to replace the reference to G.S. 163-269 with a reference to G.S. 163-271, G.S. 163-169 and G.S. 163-270 having been repealed.

Subsection (g) amends G.S. 163-323(d) to update the term from "supervisor of elections" to "director of elections."

Subsection (h) renumbers Article 13A of Chapter 163 to Article 14A. In the 2001 Regular Session, the General Assembly repealed Articles 13 and 14 of Chapter 163 and replaced them with a new article, designated "13A." However, the G.S. numbers assigned to the new article begin after the numbers used in former Article 14. As a result, either the article number order or the G.S. section number order cannot be maintained in printing the new article. This

amendment recodifies the article so that the article order number matches the G.S. section numbers used in it.

Section 22. In 1967, the General Assembly amended subsection (a) of G.S. 20-126 to its current form to require inside rearview mirrors in motor vehicles that conformed to a certain standard. The same session law contains an uncodified sentence specifying that factory-installed inside mirrors are deemed to comply. Because this sentence is general and permanent law, and not a transitional applications provision, the sentence should have been included in the codified provision. Section 20 recodifies the sentence into G.S. 20-126(a) and conforms the terminology ("subsection" for "act").

Section 23. This section repeals Section 8 of S.L. 2001-390, effective January 1, 2002. Section 8 of that act amended G.S. 55-4-01(g) to preserve the name of a dissolved corporation for five years in case the corporation is reinstated. This was part of a larger change that allowed a corporation that is administratively dissolved (usually for failure to file an annual report) to be reinstated at any time; previously, there was a five-year limit for becoming reinstated. However, there needs to be a limit on the length of time the name of a defunct corporation must continue to be preserved for it, and Section 8 set that time at five years. Section 8 applied retroactively to applications for reinstatement on or after December 1, 1999. Effective January 1, 2002, much of G.S. 55-4-01 was recodified as G.S. 55D-21, which replaces it with respect to the recodified provisions and which was amended effective January 1, 2002, to include the same provisions added by Section 8 to G.S. 55-4-01. Thus, the amendment by Section 8 was not needed after January 1, 2002, when it was superceded by G.S. 55D-21. Section 8 should accordingly have been repealed as of that date.

Part II

Section 24. This section amends G.S. 168-21(1) to correct an apparent error in the definition of "family care home" in Article 3 of Chapter 168, dealing with the handicapped.

Article 3 of Chapter 168 essentially deems family care homes, as defined in G.S. 168-21, to be residential use for zoning purposes and declares void provisions in restrictive covenants and similar instruments that would allow residential use but prohibit family care homes, as defined in G.S. 168-21. This definition was amended in 1995 by Chapter 535 of the 1995 Session Laws, to add "adult care" in front of the word "home." The result arguably may deprive family care homes for handicapped minors of the protections of Article 3.

The 1995 amendment to the definition of "family care home" in G.S. 168-21(1) appears to have been an error. Chapter 535 of the 1995 Session Laws dealt with facilities licensing laws. One of its purposes was to replace some older terms, principally "domiciliary" care, with the term "adult" care. The facilities licensing laws also use the term "family care home" and define it for those laws; the definition of "family care home" in the facilities licensing laws was therefore properly amended to change the references from "domiciliary" to "adult" care.

However, the definition of "family care home" in G.S. 168-21, although similar to that in the facilities licensing laws, was not identical, and Article 3 of Chapter 168 is not a part of any licensing law. The definition of "family care home" in G.S. 168-21 did not use the term "domiciliary." Nothing in the title of Chapter 535 indicates any intention to narrow the application of Article 3 of Chapter 168 and exclude protection for minors. Neither in Chapter 535 nor at any time since has the General Assembly amended the public policy statement in G.S. 168-20, which states, "[I]t is the public policy of this State to provide handicapped persons with the opportunity to live in a normal residential environment." N.C.Gen.Stat. § 168-20 (2001). This statement still refers to "persons," not just to "adults." The inclusion in Chapter 545 of the amendment to the definition of "family care home" in G.S. 168-21 appears to be case of overactive conforming amendments.

In addition, the General Statutes Commission was informed by persons involved in the passage of Chapter 535 of the 1995 Session Laws that this amendment was in fact an error and was never intended.

The General Statutes Commission concluded that the addition of "adult care" to the definition of "family care home" in G.S. 168-21 was an error that should be corrected, but in view of the passage of time and the subject area, the Commission believed it should not be grouped with its other technical corrections but set out in a part by itself.

SENATE BILL 1217:
2002 Technical Corrections

BILL ANALYSIS

Committee:	House Appropriations	**Introduced by:**	Senator Hartsell
Date:	October 3, 2002	**Summary by:**	Wendy Graf Ray
Version:	Proposed Committee Substitute S1217-CSSU-67[v.10]		

SUMMARY: ***The Proposed Committee Substitute for Senate Bill 1217 makes technical corrections and other changes to various statutes and session laws. Parts I and II of the PCS (Sections 1 through 24) were recommended by the General Statutes Commission and have been summarized in a separate document by the Commission's staff. This summary will cover Part III (all remaining sections of the PCS), which contains changes identified by legislative staff, agency staff, and others.***

BILL ANALYSIS:

Sections 1-24. Pages 1-12.

- Please see the separate summary on these sections, which are recommended by the General Statutes Commission.

Section 25. Page 12.

- Makes a change to G.S. 7A-39.3(b), which sets out compensation for emergency justices and judges of the Supreme Court and Court of Appeals. The amount of compensation for emergency judges of the district court and superior court was increased in 1998 (S.L. 1998-212) to $300 for each day of active service, but this change for emergency justices and judges of the Supreme Court and Court of Appeals, to make the compensation consistent, was overlooked at that time.

Section 26. Page 12.

- Amends G.S. 7B-3000, which deals with juvenile court records. The statute currently authorizes the Department of Juvenile Justice and Delinquency Prevention to adopt rules governing the destruction of juvenile court records. It is believed that this authority given to the Department was a mistake made when the Department was created and former AOC functions were transferred. This section would amend the statute to authorize the Administrative Office of the Courts, rather than the Department of Juvenile Justice and Delinquency Prevention, to adopt rules governing the destruction of juvenile court records, as AOC does for all other court records.

Section 27. Page 12.

- Extends application of the curative statute for notarial acts that contain errors, making those acts valid if they were performed on or before July 1, 2002.

Section 28. Page 13.

- Corrects incorrect statutory reference.

Section 28.5. Page 13.

- Amends a provision in House Bill 1402 (Address Confidentiality Program) that limits the liability of the State as it implements the program. This section deletes language that says the Attorney General will determine whether an employee's actions resulting in harm were within the scope of his duties.

Section 29. Page 13.

- Amends the list of powers of the North Carolina Criminal Justice Education and Training Standards Commission to include the power to regulate school directors in order to ensure that the Commission can continue to certify and oversee the directors of Basic Law Enforcement Training schools and other training programs.

Section 29.5. Page 14.

- Amends the definition of "sports club" in Chapter 18B of the General Statutes, which deals with the regulation of alcoholic beverages. This section would expand the definition of a sports club to include a food business within 100 yards of a sports club that is in direct competition with the sports club for the sale of food, beverages or tobacco products, and that was in existence prior to the sports club being established. Under this provision the food business could get on-premises and off-premises malt beverages permits and off-premises unfortified and fortified wine permits only.

Section 30. Page 15.

- Adds a five-day period for which a limited learner's permit or limited provisional license will be valid after it expires. Under the current law, limited learner's permits and limited provisional licenses expire on the permit or license holder's

18th birthday, and a person is not eligible to apply for a regular license until his or her 18th birthday. This would prevent those individuals from having to go unlicensed over a weekend or holiday if their birthday falls on one of those days.

Section 31. Page 15.

- Deletes apostrophe from the term "drivers license" to make consistent with other motor vehicle statutes, and corrects a grammatical error.

Section 31.1. Page 15.

- Amends G.S. 20-63(b) to exempt Rocky Mountain Elk Foundation special registration plates from being "First in Flight" plates.

Section 32. Page 16.

- Changes incorrect reference from "consumer" to "customer" to conform to related statutes. The term "customer" is used throughout the Article and is a defined term.

Section 33. Page 16.

- Recodifies the Asset Backed Securities Facilitation Article enacted this year for more appropriate placement in the General Statutes.

Section 33.5. Page 16.

- Clarifies that, in an equitable distribution action, "divisible property" includes decreases in marital debt as well as increases.

Sections 34.(a) and 34.(b). Page 17.

- Makes technical corrections to statutes enacted last year in Senate Bill 842 (Business Entity Changes).

Sections 35.(a) through 35.(n). Page 18.

- Makes conforming changes to the General Statutes to reflect the reorganization of the North Carolina Department of Cultural Resources.

Section 36.(a) and 36.(b). Page 27.

- Clarifies that the provisions regarding licensing of plumbing and heating contractors do not apply to sales of goods and associated installation services where the seller arranges for someone who is appropriately licensed to install the good.

Section 37. Page 27.

- Corrects incorrect statutory references.

Section 37.2. Page 28.

- Makes optometry, chiropractic, and podiatry mandated, rather than optional, forms of health care under the Medical Assistance Program.

Section 37.5.(a) and 37.5.(b). Page 28.

- Allows teachers and school employees to use up to 30 days of sick leave as parental leave to care for an adopted child or foster child, as well as a newborn.

Section 38. Page 29.

- Amends the definition of "student" to include those enrolled in and attending an institution located in the State, but not to specify that they be attending the institution's "main permanent campus", for those students eligible for scholarships at private colleges and universities from the State Education Assistance Authority.

Section 39. Page 29.

- Adds dollar signs that were inadvertently omitted in numerical dollar amounts.

Sections 40.(a) and 40.(b). Page 29.

- Corrects incomplete and incorrect statutory references.

Section 41. Page 30.

- Makes a clarifying change to a provision enacted in last year's budget bill (S.L. 2001-424, Sec. 25.19). The provision is a cross-reference in G.S. 131E-184 to a substantive exemption provided to the Department of Correction in G.S. 148-19.1. G.S. 148-19.1 exempts chemical dependency and substance abuse facilities that provide services exclusively to inmates from certificate of need review. This change clarifies that the reference in G.S. 131E-184(d) does not broaden the exemption in any way.

Section 42. Page 30.

- Corrects an incorrect statutory reference and adds language that was previously in the statute but was stricken in Senate Bill 914 (Public Construction Law Changes) last year.

Section 43. Page 31.

- Amends G.S. 143-299.4, which sets up a mechanism for payment of State tort claims in excess of $150,000. Each agency transfers lapsed salaries to the Office of State Budget Management, and those transferred funds are used to pay claims in

excess of $150,000. This section gives the Director of the Budget the authority to require the agency liable for the claim to pay the excess if the Director determines that the agency has the resources.

Section 44. Page 31.

- Amends the statute that sets out the membership of the First Flight Centennial Commission to reflect the appropriate number of members. A member was added to the list last year, but the actual number was not changed at the time.

Section 45. Page 31.

- Adds a subsection to G.S. 143-730 (Managed Care Patient Assistance Program) that provides for the confidentiality of individual's health information in the possession of the Program. S.L. 2001-446 (Managed Care Patients' Bill of Rights) was enacted last year, establishing the Program to provide information and assistance to individuals enrolled in managed care plans, but it did not include a provision for protecting the confidentiality of health information that might be obtained by the Program.

Section 46. Page 32.

- Amends statute regarding the use of entrance fees by North Carolina Aquariums held in the North Carolina Aquarium Fund. This section would require that all fee receipts be used for expansion and operation of the North Carolina Aquariums.

Section 47. Page 32.

- Amends a provision in the 2002 Budget Bill that amended the NC statute for determining eligibility for the Victim's Assistance Program to comply with the federal Violence Against Women Act. This section changes an "or" to an "and" so that a victim is required to both report the assault to law enforcement and get a forensic medical exam, rather than one or the other.

Section 48. Page 32.

- Makes a conforming change to G.S. 147-64.6, which sets out the duties and responsibilities of the State Auditor. The 2002 Budget Bill authorizes State agencies to contract with an outside source for assessment of network vulnerability when the State Auditor determines that his office cannot perform the assessment. In those cases, the State agency must provide detailed reports of the results of the assessment to the State Chief Information Officer, in addition to the State Auditor. This section amends G.S. 177-64.6 to require that the State Auditor also provide the State Chief Information Officer with detailed reports on the results of the assessment when the State Auditor performs the assessment.

Section 49. Page 33.

- Includes Parts 4 (Long-Term Care Benefits) and 5 (Health Insurance Program for Children) of Article 3 of Chapter 135 in the rulemaking exemption for the State Health Plan. Currently only Parts 2 and 3 of that article are included. When the exemption for the State Health Plan was enacted, on the recommendation of the Joint Legislative Administrative Oversight Procedure Oversight Committee, Parts 4 and 5 did not exist. Those Parts were enacted later and refer to administration pursuant to parts 2 and 3, but the exemption in Chapter 150B was not expanded at that time.

Section 50.(a) and 50.(b). Page 33.

- Corrects a statutory cross-reference in two laws dealing with the purposes for which a local government may levy a property tax for economic development.

Section 51. Page 33.

- Corrects incorrect reference in G.S. 153A-250, which authorizes counties and cities to franchise ambulance services. The statute currently refers to an article of the General Statutes (Regulation of Ambulance Services) that was repealed. This section would replace that reference with a reference to a new article enacted last year (Regulation of Emergency Medical Services).

Section 52. Page 35.

- Updates the date referenced in a statute pertaining to the timing of local elected officials taking office. The reference in the current law contemplated a May primary.

Section 53. Page 36.

- Exempts the national standard Uniform Commercial Code forms, required under Chapter 25 of the General Statutes, from the requirements set out in G.S. 161-14 for instruments presented to registers of deeds for registration. Under the current law, a register of deeds collects an additional fee for registering documents that don't meet those requirements.

Section 54. Page 36.

- Clarifies that G.S. 162-58, which authorizes counties to work prisoners on projects to benefit the State or local government, applies to prisoners convicted of misdemeanors and felonies. The statute currently refers to persons convicted of crimes, but it does not distinguish between misdemeanors and felonies.

Sections 55. (a) through 55.(p). Page 36.

- Section 55.(a) allows a candidate to file notice of candidacy by commercial carrier (e.g. FedEx or UPS), as well as mail.

- Section 55.(b) updates the statute to reflect a 1988 court opinion and 14-year practice. It allows new parties to nominate candidates for all State and local offices, and also provides that the State Board of Elections shall tell county boards about new-party local candidates.
- Sections 55.(c) and 55.(d) update statutes that require legislative candidates to file Economic Interest Statements to spell out treatment of new party candidates. Provides for county board of elections to notify the new-party legislative candidates who are running in that county. Provides for new-party candidates the same consequence of not filing an EIS that other candidates have: not having certification and not being on the general election ballot.
- Section 55.(e) updates the presidential primary statute to reflect a 1995 court opinion that says nickel-a-name fee for petition signatures are unconstitutional. The fee is no longer collected and has been removed from parallel petition statutes.
- Sections 55.(f) and 55.(g) give a county tax office, not the county board of elections, the duty to check the freeholder status of petitioners. This affects petitions for incorporating a sanitary district and for imposing a fire-district tax.
- Section 55.(h) provides an opening date for the candidate-filing period for soil and water supervisors. The current statute only has a closing date.
- Section 55.(i) changes an absentee ballot statute to reflect the 2001 election rewrite's scheme as to the different State Board and county board duties regarding providing ballots.
- Section 55.(j) repeals a statute regarding providing primary ballots that is inconsistent with and subsumed by the 2001 election rewrite.
- Section 55.(k) allows contributions over $100 to be made by credit card or other non-cash method that can be subject to written verification.
- Section 55.(l) provides that a federal candidate's duty to give the State Board of Elections that candidate's federal reports is satisfied by the State Board's arrangement with the Federal Election Commission for transfer of those reports.
- Section 55.(m) makes clear that a written request for an absentee ballot must be signed by the requester.
- Section 55.(n) makes the law reflect the current pattern of filing campaign reports. State, legislative, and judicial candidates file with the State Board of Elections in Raleigh, and county and municipal candidates file locally.
- Section 55.(o) makes clear that voted ballots are not public records.
- Section 55.(p) make the section effective January 1, 2003 and applicable to primaries and elections held on or after that date, except for subsection 55.(o), which is effective when the act becomes law.

Section 56. Page 44.

- Prohibits county boards of elections from changing precinct lines through 2003 in anticipation of upcoming redistricting except under limited circumstances.

Sections 57.(a) and 57.(b). Page 44.

- Adds a new section to Chapter 163 of the General Statutes that sets out the method for making absentee ballot requests.

Section 57.1.(a) and 57.1(b). Page 44.

- Requires the State Board of Elections to keep account numbers confidential when those numbers are reported, as required by G.S. 163-278.7, by candidates, political committees, and referendum committees.

Section 57.3.(a) through 57.3.(c). Page 46.

- Allows political committees to incorporate for liability purposes and still be able to accept contributions and spend money to influence elections, as long as accepting contributions and spending money to influence elections is their only purpose.

Section 57.5. Page 47.

- Makes a change to the statute regarding State disaster assistance to conform our deadlines to deadlines established by the Federal Emergency Management Agency.

Section 58. Page 48.

- Restores prior law amended in 2001 to clarify that a vacancy in the office of the district judge will be filled for the unexpired term by a member of the same political party as the vacating judge, if the vacating judge was elected as the nominee of a political party.

Section 58.5. Page 48.

- Amends a provision in the 2001 Budget Bill. The provision requires State departments, agencies, and institutions to provide detailed reports to the Office of State Personnel and the Office of State Budget and Management on its utilization of personal contracts. This section would require them to provide those reports only on contracts that have an annual value of $5,000 or more.

Section 59. Page 48.

- Amends a budget provision to eliminate a conflict between the bill and an item in the Joint Conference Committee Report regarding transfer of assets policy.

Section 60. Page 48.

- Rewords sentence to make meaning clearer.

Section 61. Page 48.

- Corrects incorrect statutory cite in the introductory language of Section 12 of S.L. 2002-16.

Section 61.5. Page 48.

- Makes the new law allowing removal of DD Form 214 from the county register of deeds offices effective immediately in Craven, Nash, and Pamlico counties, and July 1, 2003 in all other counties to allow counties the time necessary to implement this law.

Section 62. Page 49.

- Deletes a reference to a taxing district that was never created. An early version of Senate Bill 1195 (Seven Devils Occupancy Tax), passed this year, created a new taxing district and added that new district to the list of cities and towns set out in G.S. 160A-215 that are subject to the uniform provisions for room occupancy taxes. The bill was eventually amended so that it did not create the new taxing district, but the reference in G.S. 160A-215 was inadvertently left in the bill. This section would delete the reference to a non-existent district.

Section 63. Page 49.

- Corrects an incorrect statutory reference in the introductory language of a section of S.L. 2002-103.

Section 64.(a) through 64.(d). Page 49.

- Amends the effective date of S.L. 2002-107, which deals with bidding on public contracts. This section makes clear that it applies to bidding opportunities advertised on or after the effective date.
- Restores language that was deleted in S.L. 2002-107 that allows an architect, designer, draftsman, or owner to bid preferred brands of materials as an alternate to the base bid, but also adds a new requirement that alternates be selected from a pre-approved list.

Section 65. Page 50.

- Clarifies that sections 1 through 7 of House Bill 1490 (Secure Local Revenues), passed this session, applies prospectively only.

Section 66. Page 50.

- Transfers a Community Service Consultant position from the Department of Administration to the Office of State Personnel.

Section 66.5. Page 50.

- Corrects a numbering error in a statute caused by two bills that created the same new subdivision in the same statute.

Section 67. Page 50.

- Clarifies that only Section 1 of House Bill 1245, which sets out selective service registration requirements, is to be implemented by the Division of Motor Vehicles by a certain date.

Section 68. Page 50.

- Corrects introductory language in House Bill 1745 that says two subdivisions are being added, when three subdivisions were added.

Section 69. Page 50.

- Clarifies that funds transferred from the Tobacco Trust Account and the Health Trust Account in the 2002 Budget Bill are limited to incoming funds during the 2002-2003 fiscal year and not carryover principal.

Section 69.5. Page 51.

- Corrects the program year in the Community Development Block Grant provision in the 2002 Budget Bill.

Sections 69.6.(a) and 69.6.(b). Page 51.

- Amends the Community Development Block Grant provision in the 2002 Budget Bill, and allows up to $4 million of funds appropriated last year to be used for drought recovery.

Section 70. Page 52.

- Delays the effective date of a provision of the 2002 Budget Bill that establishes an October 1 deadline for notification of field test sites by the Department of Public Instruction to local boards of education. Because the bill passed so late, the deadline cannot be met this year. This section makes the provision effective the first of next year.

Section 70.5. Page 52.

- Authorizes the Department of Public Instruction to administer standardized tests to the extent necessary to receive funds as part of the federal Reading First Grant.

Section 71. Page 52.

- Adds a section to the 2002 Budget Bill that was inadvertently omitted from the bill. The provision transfers a position from the Community College System to the Department of Public Instruction.

Section 72. Page 52.

- Delays by one month the date by which the UNC Board of Governors must report to the Fiscal Research Division on reductions made by campuses to their General Fund budget codes. The section currently requires the report by October 31, 2002, but the Board meets on October 11, and it is not possible for campuses to have the reductions decided and reported by that time.

Section 73. Page 52.

- Delays the reporting date for the Department of Health and Human Services on its review of staffing requirements of Adult Day Care Programs and Adult Day Health Programs. The review is required by a provision in the 2002 Budget Bill, which only recently passed, and the Department will need more time to conduct the review than is currently allotted.

Section 74. Page 53.

- Makes a clarifying change to a provision in the 2002 Budget Bill dealing with Medicaid eligibility. This section specifies that the equity value of life estate interests in real property and tenancy in common interests shall continue to be exempt when using the SSI method for determining eligibility.

Section 75. Page 53.

- Clarifies the authority of the Secretary of Health and Human Services with regard to requests for supplemental rebates from pharmaceutical manufacturers.

Section 75.5. Page 53.

- Corrects the reporting dates in the Worker Training Trust Fund provision in the 2002 Budget Bill to reflect the appropriate fiscal years.

Section 76.(a) and 76.(b). Page 54.

- Section 76.(a) restores the Regional Economic Development Commission reporting requirements to what was set out in the 2001 Budget Bill.
- Section 76.(b) amends a provision of the 2002 Budget Bill that requires the Kenan-Flagler Business School of UNC to study the effectiveness of economic development activities. This section eliminates the requirement in the provision that the study include a "scorecard" to measure the extent to which the Department of Commerce and the Regional Economic Development Commissions have achieved their goals. The provision directs the Business School to report to various entities and the House Full Appropriations Chairs were inadvertently left off of the list, and this section also corrects that mistake.

Section 77. Page 54.

- Makes a clarifying change to the 2001 Budget Bill pertaining to eligibility of inmates to receive earned time when they are physically unable to perform work release or other rehabilitative activities.

Section 78. Page 54.

- Amends effective date of the provision in the 2002 Budget Bill that amends our statutes to comply with the Federal Violence Against Women Act.

Section 79. Page 55.

- Amends the "Requested by" language leading into Section 18.7 of the 2002 Budget Bill to delete a sponsor of the provision.

Section 80. Page 55.

- Extends the regional office consolidation study report date for the State Property Office, as required in the 2002 Budget Bill, from November 1, 2002 to February 1, 2003.

Section 81. Page 55.

- Extends the report date for the Office of State Budget and Management on the museum admission fees study from November 1, 2002 to February 1, 2003.

Section 82. Page 55.

- Clarifies that the annual leave bonus for State employees only applies to teachers and principals at the top of their respective salary schedules who do not receive a salary increment.

Section 83. Page 55.

- Corrects a provision in the 2002 Budget Bill that appropriates funds to the Department of the State Treasurer for two positions. The positions should be funded out of Retirement System receipts.

Section 84. Page 56.

- Modifies Department of Health and Human Services budget reductions provided in the Joint Conference Committee Report.

Section 85. Page 57.

- Changes two position numbers in the Office of State Personnel as shown in the budget conference report.

Section 86. Page 57.

- Directs the Department of Health and Human Services to expend $2 million in available funds to plan and design replacement hospitals for Cherry and Broughton psychiatric hospitals.

Section 87. Page 57.

- Clarifies the employment status of State employees who were subject to a reduction in force action pursuant to Executive Order Number 22 but whose positions were ultimately funded in the 2002 Budget Bill.

Section 88. Page 57.

- Allows the Locksmith Licensing Board to adopt its initial fees without prior consultation with the Joint Legislative Commission on Governmental Operations. Under current law, the Board cannot adopt its temporary rules establishing its initial fees without first consulting with the Commission on Governmental Operations, but it may not meet before the Board's recently extended temporary rulemaking authority expires on January 1, 2003.

Section 89. Page 57.

- Authorizes the General Assembly to pay from its reserves for one year of dues to the Southern Legislative Conference and other associated organizations that have previously been paid from the Governor's budget.

Section 90. Page 57.

- Designates the official locations of the NC Aviation Hall of Fame, the NC Aviation Museum, and the Airborne Military Museum of NC.

Section 91. Page 58.

- Requires the Secretary of DHHS to maintain the existing educational and research programs in psychology and psychiatry conducted by the UNC Medical School and Psychology Department at Dix and Umstead Hospitals, with authority over the program retained by UNC. The Secretary is required to consult with UNC on planning for the new psychiatric hospital.

Section 92. Page 58.

- Unless otherwise specified in the section, the bill will be effective when it becomes law.

As soon as practicable after October 15, 2002, the Secretary of Revenue must determine for each local government the product of its local sales tax share multiplied by the estimated amount that all local governments would be expected to receive during the 2002-2003 fiscal year if every county levied the tax under G.S. 105-517 effective December 1, 2002. PROCEDURES FOR DISBURSEMENT OF CAPITAL FUNDS

SECTION 33.4. The appropriations made by the 2001 General Assembly for capital improvements shall be disbursed for the purposes provided by this act. Expenditure of funds shall not be made by any State department, institution, or agency until an allotment has been approved by the Governor as Director of the Budget. The allotment shall be approved only after full compliance with the Executive Budget Act, Article 1 of Chapter 143 of the General Statutes. Prior to the award of construction contracts for projects to be financed in whole or in part with self-liquidating appropriations, the Director of the Budget shall approve the elements of the method of financing of those projects including the source of funds, interest rate, and liquidation period. Provided, however, that if the Director of the Budget approves the method of financing a project, the Director shall report that action to the Joint Legislative Commission on Governmental Operations at its next meeting.

Where direct capital improvement appropriations include the purpose of furnishing fixed and movable equipment for any project, those funds for equipment shall not be subject to transfer into construction accounts except as authorized by the Director of the Budget. The expenditure of funds for fixed and movable equipment and furnishings shall be reviewed and approved by the Director of the Budget prior to commitment of funds.

Capital improvement projects authorized by the 2001 General Assembly shall be completed, including fixed and movable equipment and furnishings, within the limits of the amounts of the direct or self-liquidating appropriations provided, except as otherwise provided in this act. Capital improvement projects authorized by the 2001 General Assembly for the design phase only shall be designed within the scope of the project as defined by the approved cost estimate filed with the Director of the Budget, including costs associated with site preparation, demolition, and movable and fixed equipment.

When each capital improvement project appropriated by the 2001 General Assembly, other than those projects under the Board of Governors of The University of North Carolina, is placed under a construction contract, direct appropriations shall be encumbered to include all costs for construction, design, investigation, administration, movable equipment, and a reasonable contingency. Unencumbered direct appropriations remaining in the project budget shall be placed in a project reserve fund credited to the Office of State Budget and Management. Funds in the project reserve may be used for emergency repair and renovation projects at State facilities with the approval of the Director of the Budget. The project reserve fund may be used, at the discretion of the Director of the Budget, to allow for award of contracts where bids exceed appropriated funds, if those projects supplemented were designed within the scope intended by the applicable appropriation or any authorized change in it, and if, in the opinion of the Director of the Budget, all means to award contracts within the appropriation were reasonably attempted. At the discretion of the Director of the Budget, any balances in the project reserve fund shall revert to the original source.

EXPENDITURES OF FUNDS FROM THE RESERVE FOR REPAIRS AND RENOVATIONS

SECTION 33.6. Notwithstanding G.S. 143-15.3A, the Board of Governors may allocate funds for the repair and renovation of facilities not supported from the General Fund if the Board determines that sufficient funds are not available from other sources and that conditions warrant General Fund assistance. Any such finding shall be included in the Board's submission to the Joint Legislative Commission on Governmental Operations on the proposed allocation of funds.

The Board of Governors and the Office of State Budget and Management shall submit to the Joint Legislative Commission on Governmental Operations and to the Fiscal Research Division of the Legislative Services Office, for their review, the proposed allocations of these funds. Subsequent changes in the proposed allocations shall be reported prior to expenditure to the Joint Legislative Commission on Governmental Operations and to the Fiscal Research Division of the Legislative Services Office.

Requested by: Representatives Easterling, Oldham, Redwine, Thompson

CAPITAL IMPROVEMENT PROJECTS/SUPPLEMENTAL FUNDING APPROVAL/REPORTING REQUIREMENT

SECTION 33.7. Each department receiving capital improvement appropriations from the Highway Fund under this act shall report quarterly to the Director of the Budget on the status of those capital projects. The reporting procedure to be followed shall be developed by the Director of the Budget.

Highway Fund capital improvement projects authorized in this act that have not been placed under contract for construction due to insufficient funds may be supplemented with funds identified by the Director of the Budget, provided:

The increase may be funded from gifts, federal or private grants, special fund receipts, excess patient receipts above those budgeted at the University of North Carolina Hospitals at Chapel Hill, or direct capital improvement appropriations to that department or institution.

Requested by: Representatives Easterling, Oldham, Redwine, Thompson

NEW PROJECT AUTHORIZATION

SECTION 33.9. Upon the request of the administration of any State agency, department, or institution, the Director of the Budget may authorize the construction of

Prior to authorizing the construction of a capital improvement project pursuant to this section, the Director shall consult with the Joint Legislative Commission on Governmental Operations.

Construction of all capital improvement projects enumerated by the 2001 General Assembly shall be commenced, or self-liquidating indebtedness with respect to them shall be incurred, within 12 months following the first day of the fiscal year in which the funds are available. If construction contracts on those projects have not been awarded or self-liquidating indebtedness has not been incurred within that period, the direct appropriation for those projects shall revert to the original source, and the self-liquidating appropriation shall lapse; except that direct appropriations may be placed in a reserve fund as authorized in this act.
