JOINT APPROPRIATIONS SUBCOMMITTEE

ON

GENERAL GOVERNMENT

Minutes

May 2, 2002

The Joint Appropriations Subcommittee on General Government met Thursday May 2, 2002. The meeting was called to order at 1:00 p.m. in Room 422 of the Legislative Office Building. There were three Senate members present, and Representatives: Adams, Barefoot, Lucas, and Wilson were present.

Senator Ed Warren, Co-Chair, chaired the meeting. Fiscal Staff, Michele Nelson and Marilyn Chism, were present.

Judge Julian Mann from the Office of Administrative Hearings began the meeting. There are three divisions: Civil Rights Division which investigates Title 7 complains filed by State Employees, the Publications Division which publishes the North Carolina Register and the North Carolina Administrative Code, and the rule making process in NC. More recently with the temporary rule making process and review of temporary rules that are filed by State Agencies. And the Hearings Division that consist of the primary responsibility conducting case hearings throughout the state of North Carolina where citizens can seek redress of their grievances against state government.

If a teacher's certification is being sought to be taken away, the teacher is has the right to a hearing in the office of Administrative Hearings.

Specific to the budget, we have a number of vacancies and we are offering them. The primary one is the Administrative Law Judge position. We have nine Administrative Law Judges, there has not been an increase in the number since 1989 or before with a rising case load. There is one vacant position that we are offering and if it is taken it will make North Carolina about the fourth lowest of any state that has a central panel of about 28 jurisdictions. The caseload and administrative duties have made the responsibly too heavy. Trial Court Administrators position is also being offered and Judge Mann's Administrative Assistant is being offered.

The Office of Administrative Hearings Schedule of Budget Cut Options Fiscal Year Ended June 30, 2003 is attached. Attachment # 1

Senator Harris asked what the case load is at the present time and if they are able to handle it. Judge Mann replied that the caseload is about 2200 cases per year and that they have been able to dispose of most of them leaving a backlog of about two hundred.

Representative Jeffus asked about the cost of needed enhancement if the Register was put on the web site? The Deputy Director replied that the Register could be put on the web

site as it is but there would be no search capabilities. The cost of enhancement will be brought back on Tuesday morning.

Representative Sherrell asked if there was a fourth vacancy? There is a Paralegal 1 & 2 and the Paralegal 1 is dominated by tax intercept cases that in most cases are handled on summary judgment and if my Administrative Assistant is cut, the Paralegal would pick up some of the administrative duties.

Representative Sherrill asked if a copy of the bill was available? It will be brought in on Tuesday morning.

Representative Sherrill asked about contracts. Most of the contracts that the Office of Administrative Hearings have been for the Hearing Assistance that reproduce the record by audio cassette tape for all of the hearings all over the state. They provide a valuable service to the public and that expense is roughly less than $40,000 per year. All cases are appealed to an agency and it is absolutely required that we have a record. Permanent employees for these positions would be much more costly.

This was the end of Judge Manning's presentation.

The meeting continued with Mr. Jim Long, Commissioner giving a report from the Department of Insurance.

Mr. Long began by having handouts of the North Carolina Homeowners Rate Increase Breakdown by Territory 2002 distributed. He briefly discussed the handout and offered to answer questions. There were none. Attachment # 2

Mr. Long reminded everyone that the Insurance Department is totally receipt supported except for one item. There is one General Fund appropriation of 4.5 million dollars per year that has been coming in for the past three years to set up a self-insured workman's compensation plan for volunteer fire and volunteer rescue personnel. We are offering that money because if you were not to appropriate it, it would help you with the General Fund. The other items go back into our revolving fund and are used to fund the operation of the department. The 4.5 million dollars meets the gold set for you by the Appropriation Chairs. The fire and rescue community understand the state's budget constraints and are willing to work with the General Assembly as they did last year. The reserves for the workman's compensation for volunteer fire and rescue personnel is probably good for one year. In probably another three years of appropriations, the funds should be at a self-supporting level.

Mr. Long briefly reviewed some points in the handout. He called attention particularly to issues on pages 4, 28, 30, 31, 32, 33, 36, 37, 38, 39, 40, 41, 45, & 47.

Senator Warren asked question about manufactured buildings. The Department in the 1970's set up a public building code and the Federal Government took over and softened the requirements. The Department of Insurance serves as the administrative agency for

the Federal Government. About half of the money comes from the Federal Government and the other half from receipts on the modular units.

Senator Harris asked a question about 9-11-01. Mr. Long responded by saying the annual statements came in around March 1. The 9-11 incident had a major impact on the Insurance Industry of the reinsurance market around the world. There haven't been any major problems to insurance companies in North Carolina related to 9-11-01.

Senator Harris asked if the Insurance Commission was financially sound? The answer is yes.

Mr. Long explained that the Insurance Commission has some vacancies and he said that the teams that are missing a partner need to be filled. He has submitted justification for keeping them.

Mr. Long reviewed the Span of Control page 7. The Processing Assistant IV was the highest paid person in that office and supervised the other staff. This vacant position is being setup for deletion. Mr. Long continued to review and answered questions satisfactorily.

Representative Sherrill asked about receipts. Mr. Long explained that there are some from the Register and some from royalties that are paid from West Publishing Co. for the publication of the Administrative Code.

Senator Kinnard complimented the Insurance Commissioner for the professional job they do.

There being no further business the meeting was adjourned. The next meeting is scheduled for Tuesday at 1:00 p.m.. Representative Jeffus will chair.

Respectfully Submitted

Senator Ed Warren, Chair

Delores Ledford, Clerk

Questions Related to 7% - 11% Reduction Package and Other Agency Operations

1. Education Expense: Is CLE for administrative law judges affected by proposed reductions at any level?

Yes, the proposed reductions in education expense will affect the funding available for CLE for the Administrative Law Judges. The reductions in education expense take affect at the 8 through 11 percent levels.

2. Printing: With the proposed reductions would recipients have to pay for copies of documents?

Yes, however, recipients currently have to pay for copies of documents. OAH is proposing to eliminate some of the savings that will be realized if we are able to eliminate the free printed copies of the NC Register. We did not include 100% of the potential savings due to the fact that we will not be able to eliminate 100% of the free copies and the fact that we were notified April 19 that the Department of Correction plans to increase the cost of printing the Register.

4. Organizational chart: insert the names of employees

Chart has been changed and included in packet of information

5. Contracts: For OAH's list in the Final Report on Information Technology Contracts and Personal Service Contracts in Use in State Government, that was prepared by the Offices of State Budget and Management, State Controller, ITS, and State Personnel, please indicate for each contract the type of service that was provided. The April 19, 2002 memorandum directed agencies to Ann Bander, OSBM Management Analyst at 733-7061 for copies of this information.

This information has been included in the packet of information

Subject: information per your request

Michele ,

In reply to your memo dated April 4, 2002 I an sending the following information;

1. attached to this email is an updated span of control organization chart. The changes made to this chart were those necessary to reflect the positions abolished by the General Assembly in the last session.

2. As he has done in the past years, Julian Mann, Director of OAH, has designated the following persons, in addition to himself, to act as liasion for the Office of Administrative Hearings. Each of these employees does have full time duties and responsibilities to OAH that consume 100% of their time; however, they allocate time as required to answer questions and provide information as requested by members of the General Assembly or by the Legislative Fiscal Staff.

1 NC Register Free copies		July-02	*eliminate free print copies (GS 150B-21.24)	186	0	23257
2 NC Register Cumulative Index		July-02	discontinue print of index to rules currently in rulemaking process in paid subscriptions	210	0	10517
Both publications are available on the internet at no charge. (www.ncoah.com/rules/register)						
*Elimination of free copies requires legislative change in GS 150B.						
It is a long standing goal of the Office of Administrative Hearings to eliminate all hard copies of the NC Register. In order to accomplish this, we would need to enhance our Web site to handle the traffic and develop a rule tracking system that would allow the public to access a rule regardless of its status in the rulemaking process. Our current Web site is not capable of handling this.

Proposed 7-11. [illegible]udget Reduction

(1) (1)The budget reduction will be from the Volunteer Safety Worker's Compensation Fund (Fund 13901). The Fund was organized for the purpose of providing workers' compensation benefits to volunteer safety workers who are members of eligible fire departments and volunteer rescue/EMS units that are not part of a unit of local government. The fund is supported by annual member fees and by state General Fund appropriations. The reductions identified will still allow the fund to continue to meet current cash needs but will not allow the fund to grow making it "self-sufficient" in the time frame targeted by the General Assembly when the fund was established. The proposed reductions were taken from the Volunteer Safety Worker's Compensation Fund since that operation is the only activity within the Department of Insurance which receives General Fund Appropriations.

Memorandum

To: Marilyn M. Chism
Fiscal Research Division

From: Jim Long, Commissioner
Department of Insurance

Subject: Updated Agency Span of Control and Agency Liaison/Lobbyist Information

Attached please find the updated Span of Control information and organizational chart requested per your memorandum dated April 4, 2002. Also, contained in this memorandum is a response to your inquiry regarding the Department's legislative liaisons.

The Department of Insurance has two employees whom perform as legislative liaisons. They are Mr. Bill Hale and Ms. Starla McKenney.

Mr. Hale is an Attorney III (grade 82 / $86285) with the Department. He serves as counsel for legislative issues, presides over Administrative Hearings and performs legal research. Mr. Hale also drafts administrative rules and oversees the rule making process for the Department.

Ms. McKenney is Special Assistant (grade 72 / $49303) to the Chief Deputy. She serves as the primary contact during the appropriation process and works on insurance related legislative issues. Ms. McKenney is the Department's EEO Officer, SEIBP Coordinator , and Regional Office Coordinator. Ms. McKenney also works on industry and consumer related projects.

The time allotted for each of their duties depends greatly on the issues before the legislature as well as other internal and external responsibilities dictated by the Department's statutory obligations.

Please feel free to contact my office if you have any questions.

General Government Team
Revised April 24, 2002

1. New Programs

Program: SB 199 Patient Care Bill of Rights

Description: During the 2001 Legislative Session, the North Carolina General Assembly established the Health Benefit Plan External Review Program within the Department. The enabling legislation provides for the establishment and maintenance of external review procedures by the Department to assure that covered persons have the opportunity for an independent review of an appeal decision or second-level grievance review decision upholding a health plan's noncertification.

Continuation Budget:

Certified 2001-2002	Certified 2002-2003
$170,749	$398,264

Program: Public Protection Classifications

Description: During the 1999 Legislative Session, the North Carolina General Assembly established provided funding to implement House Bill 1696. The funding is for two inspector positions in the Safety Services Division and the necessary operating cost to establish and modify the insurance public protection classifications of fire districts as provided in G.S. 58-36-10(3) and G.S. 58-40-25(4) and as rewritten by the Regular 2000 Session of the 1999 General Assembly. The General Fund will be reimbursed from the Insurance Regulatory Fund for the Total Cost.

Item 11. Supplement for Special Funds

The Special Fund spreadsheet includes all of DOI's special funds as of March 31, 2002. The listing has several funds with deficit balances. Fund 2555 in BC 23901 has a $182,541 deficit balance at March 31, 2002. This is a result of revenues not coming in consistently throughout the fiscal year to cover the expenditures. This deficit is also attributed to the sluggish economy. The bulk of Manufacturing Housing's revenues are received in the last quarter of the fiscal year. Other agency funds are used during the year to provide cash until revenues are received.

There is also a deficit balance in fund 2333 in BC 23903 in the amount of $2,639. This is a result of expenditures being charged to this center that have not been reimbursed by the Department of Transportation yet. This fund previously received advances from the Department of Transportation to operate this program but starting October 1, 2002, the Department of Transportation no longer gives advances for this program. The Dept. of Insurance has to first incur the expenses in this program and then request reimbursement for our expenses. Presently, the Dept. of Transportation is being invoiced once a month for the previous month's expenditures. The Department of Insurance is presently charging the expenditures to this program in center 1500155505 and then transferring those expenditures to center 2333 once we receive reimbursement from the Dept. of Transportation. However, there are a few expenditures that are getting charged initially to center 2333 and that is why there is a current deficit in this fund as of March 31, 2002.

In centers 2333, 2337, and 2339 the revenue to date is a deficit number. This is due to the Department of Insurance receiving funding for these particular programs in a previous fiscal year and in the current year we refunded the unspent money in these funds back to the source since the funding period was over. The refunds were a result of the Department of Insurance not spending all of the initial funds given to the department. When refunds are made of unspent money it is recorded as a refund of revenue, resulting in a deficit number showing up in the revenue-to-date figures.

*Note #1: DOI has just completed a re-design of all our consumer publications. These publications are available in print and on the DOI web site. DOI printed 5,000 copies of each of these 5 publications at an average of $5,000 per publication. The Department will evaluate over the next 2 Fiscal Years the need for printed copies and will base the next 2-year order on that evaluation. It is anticipated that this order to decrease over this period. These are consumer brochures with consumer related information on various kinds of insurance related to consumer demands. Since all consumers do not have access to the internet, the Department must continue to print these publications. GS 58-2-40.

*Note #2: The Department has recently completed a re-design of the Industry Newsletter and it is available on-line. Evaluation will take place to determine reductions in copies to be printed in the future.

JOINT APPROPRIATIONS SUBCOMMITTEE

ON

GENERAL GOVERNMENT

Minutes

May 8, 2002

The Joint Appropriations Subcommittee on General Government met Wednesday , May 8, 2002. The meeting was called to order at 9:15 a.m. in Room 422 of the Legislative Office Building. There were four Senate members present, and Representatives: Jeffus, Sherrill, Adams, Barefoot, Lucas, Wilson, Seltzer, and Michell were present.

Senator Ed Warren Chaired the meeting. Michele Nelson, from fiscal staff was present.

The meeting began with Lisbeth Evans from Cultural Resources. Ms. Evans reviewed each Justification for Retaining Positions in detail. These explanations are attached in detail. (attachment #1). There was some discussion about the individual justifications and the needs of Cultural Resources.

Mr. Thomas A. Wright reviewed the State Personnel Report (Attachment #2). The report contains justifications for retaining positions, options for reduction and the impact of elimination of productivity.

Elaine Marshall, Secretary of State spoke to the 7% -11% proposed budget reduction. A copy of her comments is attached (attachment #3). A copy "Review of FY 2002 – 2003 Budget" is attached (attachment # 4).

There being no further business the committee was adjourned. The joint General Government Appropriations Subcommittee did not schedule another meeting.

Respectfully submitted

Senator Ed Warren, Chair

Delores Ledford, Committee Clerk

Justification for Retaining Position ***(Explain why existing staff cannot continue performing required duties):***

The DCR HR Office only has 3 professional staff members [who are already overloaded with multiple HR program responsibilities] and only 1.75 support staff to serve the needs of 845 permanent positions.

The Department of Cultural Resources Human Resources Office only has one (1) personnel analyst position to perform position analysis and classification under a delegation of authority agreement with OSP for 98% of the positions; this position helps administer the departmental merit based recruitment and selection program; is responsible for conducting position description writing workshops; and analyzing all departmental in-range personnel requests. Position No. 1034 is also responsible for reviewing departmental organizational charts annually.

Position Title: Accountant II

Position Number: 4801-0200-0001-110

Budgeted Salary: $61,401

Fringes: $9,211

Date Position Vacated: 5/1/02

Justification for Retaining Position (Explain why existing staff cannot continue performing required duties): In the midst of the worst budget crisis in the history of the State of North Carolina, the Department of Cultural Resources' Budget Office is woefully understaffed with only 7 accounting positions to manage the department's total $69 million budget. In order to manage the department's limited financial resources during the last quarter, prepare budget reductions the FY 2002-2003 budget, prepare the department's biennial budget this summer and complete the department's annual financial statements in August, it is essential that this position be retained.

Division: Public Affairs
Position Title: Information & Communications Specialist II
Position Number: 4801-0100-0001-041
Budgeted Salary: _$38,507
Fringes: _$5,776
Date Position Vacated: _June 8, 2001

Justification for Retaining Position (Explain why existing staff cannot continue performing required duties): This position is essential to the ability of the Department of Cultural Resources' Public Affairs office to manage its day-to-day communications activities, internally and externally.

This position assists in the planning, design and coordination of all public relations and media relations activities, often involving highly complex and controversial issues.

- Preparing speeches for the Secretary and drafts of remarks or letters for the Governor and other key personnel
- Liaison with governor's press office and other cabinet agencies
- Providing media counsel and advise to the department secretary as well as division and site managers on controversial issues
- Day-to-day responsibility for identifying and writing media stories about department activities as well as daily contacts with media to promote positive coverage
- Planning and implementing special events, including Governor's Business Awards and North Carolina Awards, along with various programs, newsletters and brochures associated with each
- Designing, writing and distribution of internal publications, such as newsletters, Secretary's Letter, to encourage better employee communications and improved morale
- Day-to-day contact with different divisions, e.g., historical sites, to assist and support in their activities
- Assists with crisis communications, damage control and media coaching for managers, and preparation of talking points
- Hands-on work with Web team

This position is critical to carry out certain statutory and contractual responsibilities for the agency. The existing staff is already overburdened in spite of best efforts to combine responsibilities, streamline operations and eliminate many services.

Division/Section: North Carolina Historic Sites

Position Title: Historic Site Manager II

Position Number: 4802-0404-0002-346

Budgeted Salary: $40,352

Fringes: $ 6,053

Date Position Vacated: October 31, 2001

Justification for Retaining Position (Explain why existing staff cannot continue performing required duties):

The Historic Site Manager is the overall leader of this important state historic site. The manager directs the staff in all facets of site preservation and operation and provides liaison with one state commission and one private nonprofit organization supporting the historic site. The manager is one of five positions responsible for preserving six historic buildings and an important assemblage of artifacts, many dating to the colonial period. The small staff also is responsible for educational programming as well as interpreting the historic site seven days a week to the public. The vacant manager position represents 20% of the permanent full-time work force. It has been frozen since November 1, 2001. Primary to the position's function is planning, organizing and directing fundraising activities for the historic site. Working in concert with the Historic Bath Commission (whose members are appointed by the governor) and the nonprofit Friends of Historic Bath, Inc., the Department of Cultural Resources is undertaking a capital campaign to secure funds for a new museum at the site. This facility, if funds were secured in a timely manner, would be a centerpiece in 2005 of the 300th anniversary of the incorporation of Bath. Other highlights of the anniversary celebration will be special programs and events in Bath and throughout the state. The manager is a key staff member, as this employee coordinates the efforts of staff, volunteers, support organizations, and community leaders in the planning and implementation of all the activities described above.

Division/Section: Division of State Historic Sites/Tryon Palace Historic Sites & Gardens

Position Title: Museum Specialist (Horticulturist)

Position Number: 4802-0500-0002-504

Budgeted Salary: $26,930

Fringes: $6,339

Date Position Vacated: 12/12/01

Justification for Retaining Position (Explain why existing staff cannot continue performing required duties):

The Tryon Palace Gardens are a major educational component of the visitors' experience. This position provides professional horticultural care for 11 historic gardens and other landscapes encompassing 22 acres. The position serves as the staff expert on horticultural and environmental management issues. The horticulturist advises the curator of gardens, greenhouse manager, labor crew leader, and gardeners on plant culture and proper horticultural techniques. He/she provides hands-on instruction to the gardens staff on proper gardening techniques and advises them on proper plant culture, which includes instruction on nutrition, pruning, insects, diseases and other horticultural topics. He/she coordinates the propagation and production of plants and seasonal plantings. He/she supervises application of controlled pesticides in the garden and must maintain a North Carolina Department of Agriculture Pesticide Applicators License (Public Operators Classification). He/she creates graphic landscape designs or written project descriptions for landscape improvement projects for existing gardens and the creation of new gardens. He/she presents building and garden plans and designs to the TPHS&G Curatorial Committee, the New Bern Historic Preservation Commission, and the Tryon Palace Commission for review.

This position is involved in garden educational opportunities including: garden workshops, guided garden tours, professional quality lectures and sharing up-to-date horticultural expertise with non-profit organizations in North Carolina including garden clubs, master gardener groups, civic organizations, and other historic sites.

The horticulturist also serves as staff expert and liaison on environmental management issues involving the Coastal Area Management Authority, the Clean Water Management Trust Fund, Department of the Environment and Natural Resources, and the area wide environmental extension agent. He/she provides leadership and directs projects that involve environmental issues; organizes meetings with representatives of environmental agencies and collaborates with experts in the fields of storm water management, wetland restorations, and coastal area permitting as required. This position also serves as TPHS&G representative on the Department of Cultural Resources Environmental Sustainability Task Force.

Presentation of our gardens would be diminished if we did not fill this position. Our ability to deliver educational opportunities, which is a major component of our mission, would weaken. Failure to properly apply pesticides could result in injury to a member of the staff or a visitor. Errors in professional horticultural practices will reduce the quality of educational exhibits resulting in negative feedback from guests and a reduction of visitation. This would negatively impact our ability to earn income generated through receipts.

Position Title: Museum Guard Coordinator

Position Number: 4802-0500-002-515

Budgeted Salary: $28,979

Fringes: $6,598

Date Position Vacated: 2/28/02

Justification for Retaining Position (Explain why existing staff cannot continue performing required duties):

Securing the safekeeping of very valuable state historic property and the wellbeing of visitors at Tryon Palace Historic Sites & Gardens is an essential component of our operation. It is crucial that we fill the position of Museum Guard Coordinator to manage the level of safety required. Since September 11, 2001 we have had a growing awareness of the need to adopt more stringent measures to protect visitors, staff and historic resources. TPHS&G's security recently handled one incident involving a potential threat from an individual affiliated with a paramilitary organization. This incident demonstrated the importance of the Museum Guard Coordinator's ability to coordinate with all local law enforcement agencies. These agencies include the New Bern, Bridgeton, Trent Woods, Havelock and Atlantic Beach Police Departments; Craven County Community Campus Police; Craven County Sheriff's Department; Craven Regional Airport Security; Cherry Point Military Police; Craven County Regional Hospital Police; and SBI personnel. It is important to continue to maintain the relationship we have established with local agencies. The knowledge and support shared by these agencies with the Museum Guard Coordinator is critical in protecting the assets and lives for which our organization is responsible.

The security of over seven thousand objects, thirty-eight buildings (including fourteen major historic buildings) and twenty-two noncontiguous acres of property, requires skillful coordination of staff members by the Museum Guard Coordinator. In addition to providing physical security for a safe and sound environment, security personnel must guarantee the successful transport of thousands of dollars, and provide the means for

safekeeping institutional assets such as computers, audiovisual and office equipment, archival materials, garden equipment and vehicles, etc. Coordination of these duties requires the operational expertise and supervisory skill of a qualified individual and cannot be assumed by other positions in this unit.

Justification for Retaining Position (Explain why existing staff cannot continue performing required duties): An 11% cut can be made without eliminating this crucial position. No one else on staff has the training or experiences to design and produce multimedia projects. Since the death of the previous employee no new projects have been initiated and those planned have been put on hold. This negatively impacts our ability to present outreach programs and provide services to our regional museums. Division/Section: State Library of North Carolina

Position Title: Library Technology & Resource Sharing Programs Manager (Librarian Consultant II)
Position Number: 4804-0200-0004-104
Budgeted Salary: $59,283
Fringes: $10,051
Date Position Vacated: 10/01

Justification for Retaining Position (Explain why existing staff cannot continue performing required duties.) The position has been vacant since October 2001, when the incumbent left to take a position in private industry paying a much higher salary. The position has responsibility for planning and implementing a complex, multifaceted program of statewide services as well as providing general consulting to libraries across the state and assisting in the management of the federal libraries program.

Continuing to hold this position vacant is undermining the State Library's ability to deliver high priority programs for library staff statewide. This position requires knowledge, skills, and abilities that other staff do not have to both manage ongoing programs (OCLC/SOLINET services; NC LIVE support) as well as to plan and implement innovative programs that are essential to meeting the requirements of the federal Library Services and Technology Act. The programs managed by this position actually save libraries (and taxpayers) money because we manage them centrally, saving the vendor the cost of having to deliver the services to a number of different libraries.

The vacancy is creating a hardship for the Division because other staff are trying to carry out the responsibilities of this position as well as their own, and we cannot expect staff to continue to do this. It is not possible to continue to expect staff to carry out the additional responsibilities on top of the existing heavy workloads they are supporting. If this position is not retained, we will be forced to eliminate programs that serve local libraries and save the taxpayers money.

Position Number: 4804-0500-004-812
Budgeted Salary: $46,354
Fringes: $8,797
Date Position Vacated: 07/01
Justification for Retaining Position (Explain why existing staff cannot continue performing required duties.) The position has been vacant since July 2001, when the incumbent passed away. The position has responsibility for planning and implementing a complex, multifaceted program of statewide continuing education as well as providing general consulting to libraries across the state and assisting in the management of the federal libraries program. The programs and workshops managed by this position reach over 5000 library staff and library board members in all 100 counties.

Continuing to hold this position vacant will force the State Library to eliminate most of the high-priority programs this position has responsibilities for. Not hiring at this time force us to decline to accept a pending grant from the Gates Foundation to provide technology training for public library staff members to strengthen public access computing in their libraries.

The vacancy is creating a hardship for the Division because other staff are trying to carry out the responsibilities of this position as well as their own, and it is not possible to continue to expect staff to carry out the additional responsibilities on top of the existing heavy workloads they are supporting. In addition, none of the current staff have the knowledge and skills to carry out this program.

Position Number: 4803-0200-0003-292

Budgeted Salary: 21,359

Fringes: 3,204

Date Position Vacated: May 1, 2002

Justification for Retaining Position (Explain why existing staff cannot continue performing required duties):
This position is one of only 19 Security Guards who must cover 181,000 square feet. The Museum is open to the public 51 hours per week, plus many evenings for educational and special events. The Museum receives between 350,000 and 500,000 visitors per year. To adequately protect these visitors and the State's multi-million dollar art collection, every Guard position is needed. If the Museum is unable to provide adequate security, public safety and valuable State assets are placed at risk, and the institution will be unable to carry out its statutory educational mission.

Justification for Retaining Position (Explain why existing staff cannot continue performing required duties):
This is the Museum's only position devoted to Information Technology support. Loss of this position severely undermines the investment made in recent years to improve the delivery of services through the use of new technology. Other Museum staff do not have the training and expertise to perform this work. Since this position has been vacant, the entire Museum has suffered. We have been plagued with computer viruses, software failures, and equipment breakdowns and no one to adequately address these problems. The Museum desperately needs this position.

Date Position Vacated: 10/16/01

Justification for Retaining Position (Explain why existing staff cannot continue performing required duties):
The Museum was just about to begin interviewing candidates recruited in a national search for this critical position when the hiring freeze was imposed. Curators not only oversee the acquisition, installation, research, and interpretation of the Museum's permanent art collections; they are also in charge of devising and managing an ambitious program of temporary exhibitions. The North Carolina Museum of Art is a growing institution of national renown. A fully staffed curatorial department is essential to maintaining the Museum's collections and exhibition and educational activities.

The size and importance of the institution's growing collection warrants far greater care and attention. In addition, the opening of the Museum Park presents unique opportunities for significant art projects. Much of the future development of the NCMA facilities, collections, and programs is directed towards a dynamic, creative and nationally significant engagement with the art of our own time. However, none of this will happen without strong curatorial leadership. Therefore, this position is not only central but critical to the future of this institution.

Question 1: Need to explain the positions that are designated HR Partner. This will help clarify what it would mean to eliminate an HR Partner at 11% level.

Prior to the 2002 reorganization, all professional and technical staff members functioned as specialists in areas such as compensation, classification, policy administration, employee relations, equal opportunity and safety. Agencies and universities, when seeking assistance from OSP had to deal with different employees depending on the subject. Individual human resources problems often required the involvement of staff from several program areas resulting in inefficiencies in program delivery. With the reorganization, employees are being cross-trained at a basic level in most human resources subject areas and are beginning to serve as generalists in providing services and enforcing human resources laws and policies.

Once organized by program area, OSP is now largely organized into consulting groups that provide consulting services and enforce human resources laws and policies in a variety of functional areas to specific agencies and universities. Consulting groups provide services in recruitment and staffing, safety and industrial hygiene, equal opportunity, work-life, policy administration, classification, competency development, workforce planning, employee relations, and worker's compensation. Likewise, Human Resources Partners are assigned several agencies and/or universities and work in the all of the program areas listed above. Individual agencies and universities can now go to one OSP employee to receive technical assistance. Human Resources Associates provide technical assistance to Human Resources Partners, agency and university staff in the full range of human resources functional areas.

In prior years terminology for the HR Partners had been Personnel Analyst and HR Consultants. The terminology consultants was confusing because the use by some agencies of outside consultants so the terminology was changed.

Question 2: **Provide the Temporary Solutions budget including number of employees. Also provide the number of applicants, number of applicants placed, and the number of hours worked following placement.**

Employee Assistance Program: Purpose is to assist work organizations in addressing productivity issues and employees in identifying and resolving personal concerns.

Period Covered: 7/1/00 through 6/30/01

- Number of OSP Employees 10
- Number of Clients Served

Clients	Type of Service
1711	Assessment and Referral
505	Management Consultation
5739	Training and Orientation
161	Critical Incident Stress Management
49	Organization Consultation*
8165	Total Clients Served

- Recidivism Rate 11% Re-opened Cases

*Organization Consultations are provided to agency/university leadership regarding planning and strategy or policy development on issues such as RIF, workplace trauma, Drug Free Workplace, drug testing initiatives, workplace violence and critical incident stress management.

Question 3B: Explain the industrial hygiene services offered by OSP, and what the elimination of these services would mean at the 10% and 11% levels.

Industrial Hygiene Services are a component of the Workplace Requirements Program established under Article 63 of Chapter 143.

Services:

- Provides consultative and technical services to State agencies/universities in establishing and administering their workplace requirements programs and to monitor compliance with the law.
- Conducts air and water quality surveys
- Conducts asbestos training

Impact of Elimination

- Without these services most agencies/universities will have to contract for these services at significantly higher cost
- Potential for more OSHA fines and job related injuries

Question 4: **Provide the State Personnel Commission Budget**

State Personnel Commission Budget

- Commission Staff $ 57,975 - Salary & Benefits
- Operating Cost $ 9,657

Role of the State Personnel Commission:

- The North Carolina State Personnel Commission is the human resources policy and rulemaking body for all state employees covered under the NCGS 126. The Commission has the final review of OAH cases.

Question 5: Provide a list of the NC Flex program services.

NC Flex Program Services:

- Dependent Day Care Spending Account
- Health Care Spending Account
- Dental High Option (Orthodontia) & Low Option (Preventive)
- Accidental Death & Dismemberment (AD&D)
- Vision

Question 6: On Operations and Support organizational chart to which unit are the four positions at he far left attached? Also, to which unit are the positions attached that are supervised by Support Services Supervisor?

The four positions on the far left of the chart report directly to the Operations and Support Managing Partner. The Support Services Supervisor reports directly to the Operations and Support Managing Partner.

Use of Internet to Eliminate Hard Copies

OSP has developed an extensive website (www.osp.state.nc.us) where we communicate most policies, procedures, reports, job vacancies, etc. Examples of materials on the web are:

- State Personnel Manual - reduced hard copies from 3,000 to approximately 200
- Reports Required by Statute - produce one hard copy and provide diskette
- Memorandums - placed on website then notify HR Directors by e-mail
- Vacancy Listing - available on-line on OSP website
- Leave Tracking - employees can complete leave tracking forms online
- Enrollment - limited on-line enrollment for training classes

Dear Gentlemen:

I am writing to follow up the February 28 request that this Department share with your office ways to generate a net change in the money available in the General Fund as a result of our operations. The designated target amounts range from a high of 11% [$921,000] to a low of 7% [$586,000] of our recurring general fund appropriation. When we were presented these guidelines by your staff, we were also orally admonished as an agency to protect our core services. It has been difficult to develop a plan than can achieve these two goals, but we have worked out a way to reconcile both of the stated objectives. This memo summarizes how we arrived at our suggestions and why we are commending them to you.

Initially, these target percentages seemed to be amounts of such magnitude that, if they were enacted, would cripple our ability to maintain our core services. This belief was due to the combined impact of the 8+% reduction in our authorized staffing that we sustained in the budget passed last October and the postponement of workload since that time in order to meet the newer mandatory 7% reversion for the current fiscal year. Indeed, once we began the analysis and the implications of guideline # 4 began to sink into our thoughts, something akin to catastrophe became clearly visible on the horizon. Guideline #4 reads as follows: "*Cost shifting from one state agency to another and from state to local governments will not be allowed" [emphasis added]*. We fully support the policy behind Guideline #4 and applaud your courage in adopting it. However, approximately 82 of our front line employees, plus those administratively supporting them, come within this "off limits" category. Due to the fact that if we cut their functions, other governmental agencies would be required to somehow provide equivalent service to the public. Even if we were currently fully staffed, there are only 181 positions authorized for this entire Department in this fiscal year.

Therefore we then shifted our analysis to the remainder of the agency, i.e., that portion which if eliminated would not shift the workload or burden to another state agency or local unit of government. There we quickly encountered a stark reality. But at that point, the only units still on

the table pursuant to the written OSBM guidelines, were the Corporations Division, the registration and licensing subunits of the Securities Division, the various document authentication units and those administrative staff members supporting them. These "remaining" employees, plus some of the previously "off limits" employees, are the very same employees who enabled this agency to collect $19,628,000 in fees as of February 28, 2002 while spending only $5,363,000 thus far in costs this fiscal year. So these "remaining" employees are a significant "profit center" for the General Fund of North Carolina. In addition, these "remaining" employees are the heart and soul of our core services for the business community. While many in the general public may be unaware of this office's role in North Carolina's economy, the business, financial and legal communities certainly do understand the vital part we play. Seven days a week, every week this department facilitates the formation and flow of financial capital through North Carolina's commercial life. Clearly, the future operational performance of this office will be either a part of the solution to our economic recovery, or part of the problem, and departmental funding is one of the key determining factors as to which it will be.

Now rather than go through a charade of offering up programs that already more than pay for themselves and pursuant to your guideline # 8 the Department has chosen the step of recommending some adjustments in our fee structure. Guideline # 8 reads as follows: "*Any proposal to recover a portion or the total costs of delivering services by increasing fees must detail the specific increases, who the increases would effect, and give a history of the fees including the last time the fees were increased.*" In compliance with the 'Guidelines for Potential Reductions" document provided on February 28 by OSBM staff, the Department of the Secretary of State thus proposes to modify General Fund revenues by action in the following four areas:

1. $400,000 by Notary Public Commission fee: Chapter 10A of the General Statutes should be amended to increase the notary commission fee, effective July 1, 2002, from $30.00 to $40.00. This $10 increase will generate at least $400,000 in additional revenue during FY02-03. This increase will only affect persons applying to obtain an initial or reappointment Notary Public Commission. These commissions are valid for 5 years, so the increase may be viewed as $2.00 per year. A notary is entitled to charge $3.00 per notarial act, thus if a notary performs only one additional notarial act per year, 150% of the fee increase will be recouped. This fee was increased in October 1999 from $25.00 to $30.00. However, because commissions are valid for 5 years, only those notaries who were (a) initially commissioned before 1997 and (b) re-commissioned between 1999-2002 will perceive two sequential fee increases, *and that event will not occur before 2004.*

2. $425,000 by Securities Division fees: Four Securities Division fees should be adjusted; three regarding types of securities registrations known nationally as Rule 504 and Rule 505 limited placement offerings and Rule 506 federally covered securities offered to accredited investors, and the fourth by increasing the investment adviser representative registration fee. These fees have been unchanged for at least 5 years.

The Rule 504-506 registration fees are currently set by administrative rule with statutory caps. General Statutes sections 78A-17(9,17) and 78A-31(b) should be amended effective July 1, 2002 to set the respective fees at the current statutory caps (all $150.00). The Rule 504 registration fee is currently $25.00; raising this fee should generate approximately $6,625 in additional revenue (53 annual registrants). The Rule 505 registration fee is currently $75.00; raising this fee should

generate approximately $3,300 in additional revenue (44 annual registrants). The Rule 506 registration fee is currently $75.00; raising this fee should generate approximately $283,200 in additional revenue (3,776 annual registrants).

General Statute 78C-17(b) should be amended effective July 1, 2002 to increase the investment adviser representative registration fee from $45.00 to $55.00. This will make the annual investment adviser representative registration fee identical to the GS 78A-37(b) registration fee for securities salesmen. With 13,323 representatives registered in North Carolina, this will generate approximately $133,230 in additional revenue. The securities registration fee increases will affect only those persons desiring to sell either certain limited classes of securities into North Carolina (Rule 504 and 505 offerings) or federally covered securities offered to accredited investors (Rule 506). Increasing the investment adviser representative registration fee will affect those individuals seeking authorization to provide investment adviser services within North Carolina.

3. $175,000 by Corporations Division certified document fees: The Corporations Division will currently provide any requestor with a certified copy of any document on file with the Division for $5.00 per certificate. This includes Certificates of Existence for domestic corporations and Certificates of Authorization for foreign corporations. These certificates are available both on paper and electronically. The $5.00 certificate fees at GS 55-1-22(a)(25), (c)(2), 55A-1-22(a)(26), (c)(2), 57C-1-22(a)(24), (c)(2) and 59-1106(7) should be amended effective July 1, 2002 to $15 for paper certificates and $10 for electronic certificates. Division management estimates this will generate $175,000 in additional revenue during FY2002-03. These fee changes will affect only persons seeking such certificates or certified copies from the Corporations Division. This fee has been unchanged since 1989.

4. ($30,000) by Authentication Section certified document fees (fee reduction): The Authentication Section provides authentication services on North Carolina documents that will be used in foreign countries. The Section issues apostilles, authentications and certificates (herein generically "certificates") relating to a variety of documents, including birth certificates, marriage certificates, statements of marital status, articles of incorporation, corporate bylaws, certificates of merger, powers of attorney, patent applications, trademarks, diplomas, school transcripts, deeds, and assignments of interest.

In recent years, the Authentication Section has experienced tremendous growth in authentication service requests relating to the adoption of foreign-born children. Prospective North Carolina parents must routinely provide foreign governments with authenticated copies of documents establishing identify, residency, education, employment and income. Recently, several countries (notably Russia and Belarus) have begun requiring that duplicate sets of authenticated documents be filed relating to adoptions. The departmental resources required to generate extra certificates relating to a single document are negligible. The current fee for authenticating a document is $10 per certificate (increased from $6.25 effective January 1, 1999). GS 147-37 should be amended effective July 1, 2002 to reduce the certificate fee for second (and further multiple) concurrently requested certificates for foreign adoptions only from $10.00 to $5.00. Section staff estimates that this change will reduce section revenue by approximately $30,000 per year. The persons primarily affected by this change will be North Carolina citizens applying to adopt foreign-born children, who will generally realize a 25% savings on their total document authentication cost.

Summary:

Notary Fee	$400,000
Securities Fees	$425,000
Corporations Fees	$175,000
Authentication Fee	($30,000)

Total Additional Revenue for FY 2002-03 $970,000

This figure at $970,000 actually exceeds the 11 percent reversion mark requested, does not inflict a great hardship on our customers, and most importantly does not further damage this Department's ability to serve the people of North Carolina. We look forward to continuing working with you to meet the challenge of our state's budget crisis while still delivering the services that help fuel our economy. Please call if you have questions or desire to discuss this plan.

Sincerely,

Dear Ms Chism:

I am writing to follow up the request that this Department share with you additional ways to generate a net change in the money available in the General Fund as a result of our operations. The designated target amounts range from a high of 11% [$921,000] to a low of 7% [$586,000] of our recurring general fund appropriation.

Initially, these target percentages seem to be amounts of such magnitude that, if they were enacted, would cripple our ability to maintain our core services. This belief is due to the combined impact of the 8+% reduction in our authorized staffing that we sustained in the budget passed last October and the postponement of workload since that time in order to meet the newer mandatory 7% reversion for the current fiscal year.

To us as administrators with the responsibility to provide specific services in exchange for fees, our current budget already has built into it a reduction in an amount equal to about 2.5%. This results from two different situations as follows: One, the requirement that this Department generate extra revenue from the sale of tapes [account #434390] in the next fiscal year and we anticipate that this will not occur, just like this extra income did not materialize before and will not in this current fiscal year. This shortfall will occur again because of the changes in the customer demand for this information, yet we must somehow offset this debit with other funds. Two, last year the agency was legislatively directed, as a new responsibility, to mail annual report notice forms to Limited Liability Companies. A one time, $100,000.00 appropriation was passed to fund the postage and tempory workers to carry out this annually recurring task. Presently, the agency does not have much expectation that this money will be included in an expansion budget and consequently, the agency will have to take an equal amount from other budget lines in order to produce, mail and process the LLC annual notices next year. To us this means that the current budget already has buried within it a reduction equal to approximately 2.5% and this a reality that the agency must already struggle to handle.

In looking for further possible reductions, we assumed that cost shifting from one state agency to another and from state to local governments should not be pursued, due to the fact that if we cut such functions, other governmental agencies would be required to somehow provide equivalent service to the public and would not result in "actual" savings. We certainly would support such a policy that would prevent the creation of unfunded mandates. Therefore we shifted our analysis to the remainder of the agency, i.e., that portion which if eliminated would not shift the workload or burden to another state agency or local unit of government.

There we quickly encountered a stark reality. Our core mission in the commercial business world is to facilitate the formation of financial capital by the private sector. This mainly transpires in the Corporation, UCC and Securities Units. These units provide the data and enforcement essential to keep the capital formation system healthy in North Carolina. Some smaller units whose functions are to increase the reliability of business documents by providing an extra layer of signature authentication supplement these larger units. So, in order to reduce the agency, we look first at the units whose absence will impair the formation of financial capital the least. Unfortunately, these units all bring into the general fund substantial money. That stark reality is why we encouraged the Office of State Budget to consider the imposition of specific, modest fee increases to satisfy the interest in a net improvement in our impact on the general fund.

We do not recommend the elimination of any or all of the units. However, if the General Assembly chooses to cut rather than impose the fee increases, then under those circumstances we believe that of all the departmental units available for elimination, the elimination of the ones listed on the attached spread sheet will do the least harm to the private sector capital formation activity in NC. Of course deletion of unit funding would eliminate the capacity to deliver various services and consequently it would need to be accompanied by a repeal of the underlying organic legislation.

Please keep in mind that this agency collected $22,534,000 in fees as of March 31, 2002 while spending only $6,012,000 thus far in costs this fiscal year. While many in the general public may be unaware of this office's role in North Carolina's economy, the business, financial and legal communities certainly do understand the vital part we play. Seven days a week, every week this department facilitates the formation and flow of financial capital through North Carolina's commercial life.

Clearly, the future operational performance of this office will be either a part of the solution to our economic recovery, or part of the problem, and departmental funding is one of the key determining factors as to which it will be. We look forward to working with you to meet the challenge of our state's budget crisis while still delivering the services that help fuel our economy. Please call if you have questions or desire to discuss this plan.

Michael Peeler

Memorandum

April 2, 2002

To: Michele T. Nelson
Marilyn N. Chism

From: Michael R. Peeler
Deputy for Administration, NC Department of the Secretary of State

Re: Response to Study of Agency Internet Use

We welcome the opportunity to share what we have learned with regard to web-based publications. We consider amendments to GS 147-54.1, enabling the Department of the Secretary of State to "publish electronically, information permitted or required by this section" to be of material benefit to us in delivering services in the most effective and economic manner. In our on-going efforts to provide ever increasing on-line access, what was forcefully brought to our attention was that while providing materials on-line enables us to reduce the price (cost) of delivery to each citizen-customer, the total number of citizen-customers served continues to grow substantially. Some of this increased demand for publications follows general growth in demand for our services and additional responsibilities delegated by the Legislature. We also experience increases in demand for publications as a result of increased visibility and market penetration generated by our web site.

Our printing budget has not risen substantially in recent years, even though the demand for our services has. Some statutorily required publications are currently un-funded. The Division of Publications takes steps to lower printing costs – careful evaluation of economic order quantity, competitive bidding among private vendors, careful selection of materials on a quality versus cost basis, spot coloring instead of full color reproduction, limiting bleeds and screens and aggressively enforcing quality standards for final product from commercial printers.

As we have discussed in the past, this note is offered as an up date of previous fiscal year responses and as an attachment to our spreadsheet response to the request for agency compliance with S. L. 2001-424, Section 14.1.

Publications Analysis

North Carolina Manual
This publication is not on the web. This department is currently mandated by North Carolina law to print 2,500 copies of this 1200 page book every other year (NCGS 147-54). Estimated printing costs for the 2001 edition total $40,950. There are no plans at this time to place the North Carolina Manual on the web.

Directory of State and County Officials
This publication is on the web. This publication is mandated by law (NCGS 147-54.1). Printing costs for 10,000 copies planned this year are estimated at $18,990. Demand for hard copy versions is still so great that we would like to actually increase the print run to 15,000 per year.

Lobbyist Directory
This publication is on the web. The agency is required by the Legislature to publish a directory of registered lobbyists at the beginning and end of each legislative session, as well as printing updates every 20 days during session. In a long session, the directory may need to be published as many as 8-10 times. Printing costs per edition run about $2,600 and annual cost is estimated at $13,000-15,000. Current demand is approximately 1,000 copies of each edition. The agency could save money by limiting publication to its web site and making hard copies available only on demand. Legislation to reduce the number of times the directory must be printed will reduce costs.

Directory of Boards and Commissions
This publication is not on the web. This book is not currently funded and has not been updated since 1996. Most of the demand for this document could be met via our web site. The 1996 edition of this book was a 2,500-copy run for $6 per book. In comparison, the 1999 edition was a 10,000-copy run for $3.75 per book.

Directory of Permits
This publication is not on the web. This book is compiled and printed by the Business License Information Office. The outside demand for it that the Division of Publications receives is low. We intend to move this publication entirely to the web site.

Women in the General Assembly
This publication is not on the web. This specialty publication has not been updated or re-printed since the early 1990s. This publication is not currently funded.

State Government Organizational Chart
This publication is on the web. This document is very popular in our public schools.

Appointment Reporting (also known as "Gender Equity Reporting")
This report is on the web. Legislation passed in 1999 requires the Secretary of State to gather annually, reports regarding the gender of members of appointed boards and commissions. The Department compiles the data into a report that is made available to the public via the web and delivered to the Governor, the Speaker of the House of Representatives and the President Pro Tempore of the Senate. We do not anticipate much demand for hard copies. Note that this publication requires that we divert temporarily, a full time employee from other duties.

Candidates List
This publication is not on the web currently but will be published on the web in 2002. The agency is required by law to provide a list of candidates for state-level offices prior to each primary and general election.

Division Manuals
Most guides and manuals that are of high demand are on the web. The Division of Publications creates and manages a number of in-depth manuals on topics such as incorporating businesses, forming limited liability companies, securing trademark and service mark protection and training notaries. These items are designed to help guide citizens through the regulatory processes. Only enough copies are printed to meet demand.

Forms
Most of the department's forms are on the web along with instructions for their completion. Users may download the forms, complete and sign them and mail them back to the agency. Users often visit our offices or call and request that we mail them forms, which leaves us with the expense of printing the form and mailing it. Only enough copies are printed in house to meet demand.

Pamphlets
These items are not on the web. The Division of Publications develops and maintains a number of outreach pieces – material designed to educate North Carolina citizens and businesses about what the agency does and how it can assist them. These are printed in bulk at a low cost and distributed at the state fair, at our front counter and by the Secretary of State staff when meeting with business groups outside the office.

Index of Local Legislation
This publication is not on the web. Although the division is mandated by state law (NCGS 147-54.1) to print this index, it is not funded and has not been printed since 1967. Previous indices in the division's possession indicate that this publication is usually published once every 30 years. This publication should be funded and placed on the web.

Explanation of Constitutional Amendments
Before elections in which there will be a proposed amendment to the Constitution, the Secretary of State is to distribute an explanation of the proposal "in simple and commonly used language" pursuant to GS 147-54.10. This will be placed on the web in the future. Currently there are no funds appropriated for this year's proposed amendment explanation.

Session Laws and House and Senate Journals
Starting with this summer's release of the N.C. Session Laws and the House and Senate Journals, we will be shipping CD copies of each book along with at least one copy of the hardbound print edition. This is an initiative of the Secretary of State's Publications Division and the Legislative staff. We intend to put all three books on our web site, as does the General Assembly. We will be the first state, to our knowledge, to offer such transparency in legislative deliberations. This is a highly innovative project that reduces printing costs and makes access to these records more easily available (and free of charge) electronically. Note: We are responsible for distribution of these documents only, we do not publish them.

JOINT APPROPRIATIONS SUBCOMMITTEE
ON
GENERAL GOVERNMENT

May 7, 2002
1:00 P.M.

MINUTES

The Joint Appropriations Subcommittee on General Government met Tuesday, May 7, 2002, at 1:00 P.M. in room 422 of the Legislative Office Building. Four Senate members were present. The following Representatives were in attendance: Chairs Maggie Jeffus and Wilma Sherrill, Alma Adams, Daniel Barefoot, Marvin Lucas, Mitchell Setzer and Gene Wilson.

Representative Jeffus called the meeting to order. She requested that the speakers make their presentations brief and tell them where they can find some money.

OFFICE OF THE STATE CONTROLLER (Attachment 1, 41 Pages)
Robert Powell, State Controller

Mr. Robert Powell, State Controller, introduced the committee to Mr. John Morgan, Chief Financial Officer, Ms. Gwen Canady, Deputy State Controller, Ms. Zeke Partin, Assistant State Controller for Financial Services, and Mr. Don Waugh, Assistant Controller for the State Accounting Division.

Mr. Powell presented an overview of the handout from his office and answered questions as he went along.

Mr. Powell referred the committee to Page 40-41 where they have listed the special funds that were requested by staff. The Office of State Controller is either a clearinghouse or holds special funds from other agencies.

Mr. Powell continued that the other fund that is important for discussion is Budget Code #24172, Page 40. They have a contract with an organization under statutory authority that goes out to audit agencies to determine if there have been duplicates or over payments and under that contract they secure from the vendors whatever duplicate or overpayments have occurred. All the details you see there represent recoveries that have been made as of April 15, 2002. The State Controller's office is allowed to take $200.000 of this a year to help them toward their E-commerce initiative. If the committee will allow them to retain this $200,000, the unencumbered amount on this would be $861.368.00 net. This contract continues through another year. This $200,000 was partially used last year for the budget. He suggested that they review Budget Codes

#64201 and #74170 for additional money. All the other money is designated and could be unlawful to use.

DEPARTMENT OF STATE TREASURER (Attachments 2, 3, 4, & 5) State Treasurer Richard H. Moore

Treasurer Moore presented some points and then turned the presentation+ over to Deputy State Treasurer, Mike Barham. Treasurer Moore explained to the committee the duties and responsibilities of the State Treasurer. (See Attachments 3, 4 and 5) On Attachment 5, Firemen's and Rescue Workers' Pension Fund, Treasurer Moore promised to forward more up-to-date figures in the next couple of days. Senator Warren requested a copy of the states' investments.

Mr. Mike Barham was recognized by Treasurer Moore to begin his report on page 22 through page 54 in Attachment 2, "The Six-Year Analysis of Budget". He moved along quickly explaining each of the following pages and responded to questions as they were asked.

Mr. Joseph Stewart, Chief of Staff, was introduced to present the reduction proposals. He stated that there are some options that the committee might want to consider. There are three primary functions of the department that receive what is a general fund appropriation; that is the local government commission that oversees the operation of state, city and county governments. That money is directed from the Secretary of Revenue from the sales tax refunds from the cities and counties. The investment section and the banking section that now is the financial operation of the department. He presented some options that the committee might want to consider. The primary functions of the department that receives a general fund appropriation is the local government commission that oversees the operation of debt of city and county governments. That money is directed from Secretary of Revenue from the sales tax refunds from the city and county governments. The Investment Section and the Banking Section (now Financial Operations) money source comes from money that they manage. This is reflected on Page 20 at the top. This Committee, in fact, could reduce the General Fund Appropriations for the department by the entire $7.2 million if they chose to make them a direct receipt supported agency. There are the internal service funds that provide for what they refer to as shared services. These internal service funds come from a line item in the budget of each of the divisions that they serve. So in effect, they have two sets of numbers, the amount that they need to run these various operations and the amount that each division contributes towards that necessary total. It appears that the number for the internal service fund has not been adjusted within the division budget for the past several years; therefore, they have an imbalance in their budget between what the division needs to contribute to provide, and what is the authorized budget of these shared services. So in effect, because they have these two parallel budgets operating, if they were made an entirely support agency, they would not need an internal service fund. It would be the utilization of funds exactly to the amount appropriated by the General Assembly. So in effect if the General Assembly decided to take their budget off of the

general fund entirely, it would be a reduction of the entire amount of $7.2 million but clearly would be a reduction in the $7.2 million in receipts that go to the general fund. Mr. Stewart continued with the second reduction proposal of 7-11 percent budget reduction that is recommend on page 21. This would cause the department to use an outside entity but the Secretary would still oversee investments. This is where they found cuts in the amount requested. It is a different direction for the state. The committee was concerned that if the investments were placed in a private organization, they would have a different incentive in their management of investments than the state. Mr. Stewart stated that this is a concern. Senator Harris stated that he thought this would have a negative net, as would the first reduction. Mr. Stewart agreed.

Senator Allran asked about the Unclaimed Property Division's receipts. The proceeds from the Unclaimed Property Trust Fund is approximately $365 million. By Constitutional mandate those proceeds go to the student education assistants agency to provide tuition assistant grants, scholarships to needy and deserving students to the university system and in the community colleges. Last year they received about $18 million in interest off the trust fund.

STATE BOARD OF ELECTIONS (Attachment 6) Mr. Gary O. Barlett, Executive Director

Mr. Bartlett explained the three functional units, page 2, of the State Board of Elections, which are administration, campaign reporting and information systems.

He continued on page 5 with the reduction impact for the Board. As Mr. Bartlett continued to cover the handout page by page he took questions and answered them.

Representative Jeffus stated that Senator Warren will chair on Wednesday, May 8. The joint meetings will end on Thursday and the Senate will continue to meet separately.

The meeting adjourned at 4:00 p.m.

Respectfully submitted,

Rep. Maggie Jeffus

5. **DESCRIPTION OF PROGRAM (INCLUDE POPULATION SERVED):**

The State Controller is the State's Chief Financial Officer. The State Controller's Office ensures proper financial reporting and accounting of all state agencies and institutions by providing leadership, guidance, and consulting in all accounting matters. The OSC prescribes policies and procedures based on proven accounting practices and standards, along with a very effective automated accounting system - the North Carolina Accounting System (NCAS) - to support agency and central management requirements. The OSC is also responsible for a comprehensive cash management program, operation of a centralized payroll system serving a majority of state agencies, and the administration of a statewide appropriation and allotment process.

7. **CHANGE IN G.S. REQUIRED? _____ Yes __X__ No. IF YES, LIST SPECIFIC GENERAL STATUES(S) AND BRIEFLY INDICATE REQUIRED CHANGES.**

8. **IMPACT OF REDUCTION OR ELIMINATION OF PROGRAM:**

Elimination of all current vacant positions results In a (5.43%) reduction in staffing levels for the Office of the State Controller from 92 positions to 87 positions. Total budget reduction is $232,270. Meeting the statutory responsibilities of this office becomes more difficult with fewer resources.

OSC currently pays ITS for a Business and Technical Applications Analyst. This position currently resides at OSC and works solely on the OSC Central Payroll System. This is a critical position for support of our Central Payroll System, but OSC can save money if this position is transferred to OSC. OSC will reclassify a vacant position and fund the increase in salary and fringe benefits from the reduction in ITS billings. Total budget reduction is $79,155.

OSC proposes to cut several budgeted line-items. The total budget reduction is $493,479. While these cuts produce a bare minimum operating budget, with almost no budget flexibility, the major impact of these cuts will affect data processing costs as a result of changing the North Carolina Accounting System (NCAS). Below is listed the impact of the changes to NCAS.

Proposed North Carolina Accounting System (NCAS) Production Changes for Cost Reduction

NCAS Production Change	Effective Date	Estimated Savings	Impact on NCAS Users
1. Change the schedule for running the reports that agencies use to certify their prior month expenditures, revenues, and cash balances. Instead of running them daily, the OSC will now run these reports for the first three weeks of the month following the month being certified.	4/1/02	$4,100/month	Agencies would be responsible for running their own reports from NCAS if they were more than one week late certifying month-end reports. (All agencies are required to certify their month end reports by the tenth business day of each month.)

NCAS Production Change	Effective Date	Estimated Savings	Impact on NCAS Users
2. Change the schedule for running the preliminary reports that agencies use in anticipation of month end certification. These reports will be run by the OSC only during the last week of the month being certified rather than daily during that entire month.	4/1/02	$8,900/month	Agencies would have to run their reports from NCAS if they wish to begin the certification process earlier than the last week of the current month. (Agencies have ten business days into the next month to certify these reports.)
3. Discontinue running all month end trial balance reports. (Trial Balance reports show the beginning and ending balances and monthly activity for all financial accounts.)	4/1/02	$2,000/month	Agencies would have to run reports from NCAS for trial balance data at their expense. Preliminary information indicates that these reports are not widely used at the agency level. (Trial balance reports are not required for the month end certification process.)
4. Information Technology (IT) project accounting reports will be generated only on the last business day of the week instead of daily. The IT reports are used to identify IT project costs for projects that meet the IRMC reporting process.	4/1/02	$1,111/month	The NCAS currently provides other daily production reports that detail information generated for project accounting data. Preliminary information indicates that these reports are not widely used by the agencies on a daily basis. These reports can be run by the agencies as needed at their expense. (Project accounting reports are not currently part of the state's month end financial reporting process.)
5. Run the encumbrance balancing report monthly instead of weekly. The encumbrance report is used to reconcile differences between the NCAS general ledger encumbrance balances and open requisitions, purchase orders and accounts payable invoices in NCAS.	4/1/02	$230/month	The agencies' ability to research discrepancies between the general ledger encumbrance balances and open documents would be more difficult because transactions related to open documents is dynamic and changes continuously. This reconciling process is very labor intensive and not generally performed more often than monthly by the agencies.
6. Implement new Decision Support System software to improve download efficiency from NCAS mainframe to the client server reporting system.	11/1/01	$7,000/month	There is no impact on NCAS users. This change has already occurred and the savings have begun. (Client server processing is a fixed cost; therefore, no additional costs are incurred for data access or reporting.)
7. Provide only a weekly NCAS posting update for the universities except during the months of July and August, which will continue to be daily or on demand.	4/1/02	$6,500/month	Some delays in the month-end certification by universities may occur. The OSC feels that universities will acclimate to the new processing schedule without issue. (The universities are required to post their revenues, expenditures and cash balances to NCAS on a monthly basis. This is achieved through an interface to NCAS.)

8. **IMPACT OF REDUCTION OR ELIMINATION OF PROGRAM:**

Elimination of all current vacant positions results In a (5.43%) reduction in staffing levels for the Office of the State Controller from 92 positions to 87 positions. Total budget reduction is $232,270. Meeting the statutory responsibilities of this office becomes more difficult with fewer resources.

OSC currently pays ITS for a Business and Technical Applications Analyst. This position currently resides at OSC and works solely on the OSC Central Payroll System. This is a critical position for support of our Central Payroll System, but OSC can save money if this position is transferred to OSC. OSC will reclassify a vacant position and fund the increase in salary and fringe benefits from the reduction in ITS billings. Total budget reduction is $79,155.

OSC proposes to cut several budgeted line-items. The total budget reduction is $838,438. While these cuts produce a bare minimum operating budget, with almost no budget flexibility, the major impact of these cuts will affect data processing costs as a result of changing the North Carolina Accounting System (NCAS). Below is listed the impact of the changes to NCAS.

Proposed North Carolina Accounting System (NCAS) Production Changes for Cost Reduction

NCAS Production Change	Effective Date	Estimated Savings	Impact on NCAS Users
1. Change the schedule for running the reports that agencies use to certify their prior month expenditures, revenues, and cash balances. Instead of running them daily, the OSC will now run these reports for the first three weeks of the month following the month being certified.	4/1/02	$4,100/month	Agencies would be responsible for running their own reports from NCAS if they were more than one week late certifying month-end reports. (All agencies are required to certify their month end reports by the tenth business day of each month.)

NCAS Production Change	Effective Date	Estimated Savings	Impact on NCAS Users
2. Change the schedule for running the preliminary reports that agencies use in anticipation of month end certification. These reports will be run by the OSC only during the last week of the month being certified rather than daily during that entire month.	4/1/02	$8,900/month	Agencies would have to run their reports from NCAS if they wish to begin the certification process earlier than the last week of the current month. (Agencies have ten business days into the next month to certify these reports.)
3. Discontinue running all month end trial balance reports. (Trial Balance reports show the beginning and ending balances and monthly activity for all financial accounts.)	4/1/02	$2,000/month	Agencies would have to run reports from NCAS for trial balance data at their expense. Preliminary information indicates that these reports are not widely used at the agency level. (Trial balance reports are not required for the month end certification process.)
4. Information Technology (IT) project accounting reports will be generated only on the last business day of the week instead of daily. The IT reports are used to identify IT project costs for projects that meet the IRMC reporting process.	4/1/02	$1,111/month	The NCAS currently provides other daily production reports that detail information generated for project accounting data. Preliminary information indicates that these reports are not widely used by the agencies on a daily basis. These reports can be run by the agencies as needed at their expense. (Project accounting reports are not currently part of the state's month end financial reporting process.)
5. Run the encumbrance balancing report monthly instead of weekly. The encumbrance report is used to reconcile differences between the NCAS general ledger encumbrance balances and open requisitions, purchase orders and accounts payable invoices in NCAS.	4/1/02	$230/month	The agencies' ability to research discrepancies between the general ledger encumbrance balances and open documents would be more difficult because transactions related to open documents is dynamic and changes continuously. This reconciling process is very labor intensive and not generally performed more often than monthly by the agencies.
6. Implement new Decision Support System software to improve download efficiency from NCAS mainframe to the client server reporting system.	11/1/01	$7,000/month	There is no impact on NCAS users. This change has already occurred and the savings have begun. (Client server processing is a fixed cost; therefore, no additional costs are incurred for data access or reporting.)
7. Provide only a weekly NCAS posting update for the universities except during the months of July and August, which will continue to be daily or on demand.	4/1/02	$6,500/month	Some delays in the month-end certification by universities may occur. The OSC feels that universities will acclimate to the new processing schedule without issue. (The universities are required to post their revenues, expenditures and cash balances to NCAS on a monthly basis. This is achieved through an interface to NCAS.)

NCAS Production Change	Effective Date	Estimated Savings	Impact on NCAS Users
8. Post NCAS transactions only 4 days a week instead of nightly except during the months of June, July and August.	7/1/02	$16,000/month	Financial activity and posting transactions that normally occur during the nightly production run, such as those related to revenues, expenditures, budgetary transactions, and cash balances, would be delayed until the next nightly cycle was run. Other possible impacts include: -Accounts Payable payments (checks and electronic) could be delayed or be generated earlier than the due date to compensate for the lack of processing. -Federal reimbursement requests would be delayed (since expenditures would not be recorded). -The record of funds availability would not be current for budget transfers or expenditures generated from external interfaces. -The interface of new accounting distributions from the NCAS to the E-Procurement system would be delayed.

The State Controller is the State's Chief Financial Officer. The State Controller's Office ensures proper financial reporting and accounting of all state agencies and institutions by providing leadership, guidance, and consulting in all accounting matters. The OSC prescribes policies and procedures based on proven accounting practices and standards, along with a very effective automated accounting system - the North Carolina Accounting System (NCAS) - to support agency and central management requirements. The OSC is also responsible for a comprehensive cash management program, operation of a centralized payroll system serving a majority of state agencies, and the administration of a statewide appropriation and allotment process.

Questions Related to 7% - 11% Reduction Package and Other Agency Operations

1. Positions: Identify both the filled and vacant positions that would be eliminated. **(Answered on previous Page)**

2. 7% -11% Reduction Package: On page 2, item #5 – why move from weekly to monthly run, as savings per month is small? Also in the package, review the changes at the different levels and indicate why amounts for the [individual] NCAS production changes or dates of implementation did not differ as the percentage of reduction increased per the spreadsheet. There was no change in the chart until the 10% and 11% levels when item #8 was introduced. However, on the spreadsheet under "Reduction in Data Processing", there is an increase at each level. What should be associated in the package and on the spreadsheet to understand the increases and where they occurred? (Did we review the correct version of the 7% – 11% reduction package?) **(Answered during 7-11% reduction discussion)**

3. Staffing: Is it possible to anticipate a reduction in personnel due to NCAS production changes? **(No, primary functions of NCAS remain the same. Agency personnel may view or receive data at different times as a result of changes.)**

4. Spreadsheet: Under "Line Item Reductions" – is reduction in telephone service (532811) due to revising statewide contract with telephone company? **No, There was a change in the telecommunication data network for the building occupied by OSC. These costs were share with IRM, the other occupant in our building, which reduced our cost. OSC constantly review the telephone bill to cut any lines not being used and remove voice-mail boxes.**

   What is advertising expenditure (532860) for OSC? **(These funds were used to recruit for technical positions)**

5. Organizational Chart: revise the charts (staff organization charts, only) to include the span of control ratios within each division and respective sections. **(Answered under next topic on Span of Control)**

   Contracts: Explain the sole source contracts that occurred. **(Answered later in presentation with couple of charts and narrative)**

Personal Service –IT Contracts

A primary mission of the OSC is to provide a business infrastructure that supports the financial operations of state government. This business infrastructure, the North Carolina Accounting System (NCAS), is a highly complex, multi-functional business system. This system provides support for purchasing, accounts payable, accounts receivable, fixed assets and the vast monthly and annual reporting requirements of the State. The software to support this system was purchased over 14 years ago and has been highly customized to meet the on-going demands resulting from legal, legislative and statutory mandates of state government. Because of the complexity of the system and the uniqueness of the State's business requirements, these customizations have been developed by these contractors. These IT professionals have highly unique skills and expertise with the NCAS software. They are all former employees of the software company that supports the NCAS and have over 15 years experience with the software and 25 years of IT experience.

IT Contracts

With the evolution of newer technology and the advent of e-commerce, the OSC has been challenged to meet these demands within its operating budget for the North Carolina Accounting System (NCAS). However, blending old and new technology to support e-payments, e-procurement and a data warehouse reporting system is a very difficult and complex process, which requires unique skills not currently available within the OSC organization. Also, the older technology supporting the NCAS is very customized and any new applications must be developed by IT professionals with an in-depth knowledge of the NCAS and multiple technology platforms. The IT professionals providing development in this highly complex environment have unique skills not only with the NCAS software but also with client server and internet technology. Some of these IT professionals are former employees of the software company that supports the NCAS and have over 10 years experience with the software and many years of IT experience within a governmental environment.

Decrease in requirements	(2,019,167)		

From a perception standpoint, this would be this most viable option. It reduces appropriation to the State Treasurer's office and reduces requirements.

Reduction Proposal #2

Department of State Treasurer
Proposed 7-11% Budget Reduction

Budget Code	2002-03 Certified Appropriation	1% Increment	11% Reduction	11% Revised Appropriation	Actual Percentage	# of positions Vac/Filled
13410	7,216,817	72,168	930,552	6,286,265	12.89%	2/13

An 11% reduction in the appropriation to the Department of State Treasurer would necessitate reducing the budget by $793,850. Our proposal is to eliminate all positions in the Investment Management Division. There are 15 positions budgeted at a total salary of $739,541 plus benefits of $191,011 for a total reduction of $930,552. Two positions are currently vacant.

Department of State Treasurer
Justification for travel expenses

General Administration-Fund 1110

The Treasurer travels as part of his obligation as State Treasurer for the State of North Carolina. He travels to conferences and meetings to insure that the state's funds are being invested prudently and wisely. He travels to meet with the rating agencies to insure that the State of North Carolina maintains its AAA rating. The Treasurer's travels are for the benefit of the State of North Carolina.

Escheats and Unclaimed Property-Fund 1130

Travel in the Escheats section consists of two functions. First the Audit Section assists holders with their voluntary compliance and remittance of unclaimed property. Holders audited include banks, insurance companies, manufacturers, retailers, public utilities, hospitals, and governmental entities. This function has become more crucial due to legislative changes made in January 2000. At that time the law was changed to allow for holders to retain funds for their own benefit if they fail to report property which is due, and our office fails to conduct an audit of the property in the five-year holding period.

The second purpose of travel for this section is for Outreach. Our staff is attending large functions, such as the NC State Fair, the NC Mountain State Fair, NASCAR races, and professional baseball games all around the State, and setting up equipment for anyone in attendance to check our databases. They can log in to our system and we can determine what, if any, funds are in our system for them. The Outreach function is designed to reach more people to get these escheated funds and unclaimed properties into the hands of the rightful owners.

Investment Management-Fund 1210

The employees in the investment management division who manage our fixed income portfolio will be monitoring our brokers through on-site due diligence and attending meetings involving credit analysis, especially as it pertains to our new BBB authority. Several of these meeting are anticipated to take place in New York, Atlanta, St. Louis, Boston, or Chicago. Each of the four employees will probably travel this way 2 or 3 times per year.

Local Government Commission-Fund 1310

The accountants in the Local Government Commission have the responsibility of assisting local governments with technical issues and providing education and training to their employees.

Retirement Systems Division-Fund 1410

Retirement counselors travel to local governments and state agencies around the State to educate employees on their retirement options. We have many requests for additional meetings which we must refuse due to limited funding.

Board of Trustee members are reimbursed for their expense to attend quarterly Board meetings.

Select staff members will be visiting retirement systems in other states to learn how to improve the way we manage our services and to improve the customer service we deliver. Also, these funds will be used to attend training and conference opportunities to learn about some of the best ideas for running an efficient and effective retirement system.

Financial Operations Division-Fund 1510

There are some conferences held in this region which bring together members of the banking community. Because of our close association with the banking industry in our Banking Operations section, it is highly beneficial for us to attend these meetings.

Budgeted Salary: $35,428

Fringes: $7,476

Date Position Vacated: 02/01/01

Justification for Retaining Position (Explain why existing staff cannot continue performing required duties):The Retirement Systems Division has experienced substantial increases in work volumes. In fact, the work load has doubled in the last 10 years with no significant increases in staff. These positions are responsible for responding to member inquiries. We currently process 276,000 member telephone calls per year. Abandonment rates have ranged from 17% up to 51%. National abandonment averages are less than 5%. Hold times for members frequently exceed 20 minutes with the longest being 52 minutes. Our response to correspondence and email has taken as long as 2 plus months. Failure to fill these positions will further decrease service levels and increase the number of complaints from retirees to Legislators and our offices.

Date Position Vacated: 08/31/01

Justification for Retaining Position (Explain why existing staff cannot continue performing required duties):Position necessary to process updates to member records. Currently one and one-half months behind in updating member records (post-processing, updates after completion of a process). This is due to increased volumes of retirements, refunds, cost purchase request (related to recent legislation), and increases in daily work. Daily work includes applications for retirement, refunds, enrollments and beneficiary changes. These documents must be updated daily to start electronic work processes.

Justification for Retaining Position: Legislation was enacted last session that reduced significantly the cost to purchase State withdrawn service with no increase in staff. We have received over 6,000 cost requests and are currently processing requests that were received in late December. This position is necessary to address this substantial increase in requests as well as additional job duties. Much interest has been shown relative to a similar statutory change to affect local withdrawn service. We, thus, expect similar legislation in the upcoming session affecting the Local system.

Fringes: $8,975

Date Position Vacated: Newly allocated position

Justification for Retaining Position (Explain why existing staff cannot continue performing required duties): This position was established as part of the Treasurer's reorganization of the Department using an existing vacant position to provide to the Treasurer, at the senior management level, an attorney who serves as primary confidential legal advisor directly to both the Treasurer and to the Deputy Treasurers, and who coordinates with the Attorney General's Office on all legal matters pertaining to or involving the divisions of the Department. A General Counsel position had existed within the Department during the previous administration, but had gone unfilled for some time and was eliminated. The position has been left vacant through this point in time for two reasons: recognizing that other key and critical aspects of the reorganization effort needed to be implemented prior to the filling of the General Counsel position, to best determine the exact qualifications and skills would be needed for the incumbent; further, the extreme lack of salary reserve currently within the Department has all but eliminated the Treasurer's flexibility to offer a competitive compensation package for what would be the experience necessary for an incumbent. It is the Treasurer's intention to try and hire for this position after the start of the new fiscal year.

State, City Pension Funds Seek to Make Up Investment Losses

New York, May 6 (Bloomberg) -- Clarence W. Hawkins, mayor of Bastrop, Louisiana, may have to shorten hours of operation at municipal swimming pools, limit police use of patrol cars, and leave potholes unfilled. The reason: the town of 13,000 has to pay $140,000, about double last year's amount, to make up losses at the state fireman's retirement plan.

New York City estimates it needs to contribute $1.77 billion, almost $1 billion more than forecast two years ago, for its five employee pension funds in the fiscal year that begins July 1. Officials are weighing cuts in care for the elderly and school construction to make up the shortfall.

Across the country, mayors and governors may have to fire teachers, close libraries and raise taxes, in part to cover shortages in public employees' retirement funds. Most of the gaps were caused by the two-year slide in the stock market.

''I don't think the market will recover to the point that it will make up for the shortfall,'' said Hawkins, a four-term mayor who sees no end to pension fund increases. ''This will cause us to have sleepless nights. We are strapped to the max.''

Public pension losses compound municipalities' budget problems. The states have a $27 billion cumulative budget gap for this fiscal year, according to the National Conference of State Legislatures, and that figure is expected to grow in fiscal 2003.

State and local pension funds managed $2.3 trillion at the end of 2001 on behalf of about 15 million public school teachers, police officers, garbage collectors and other municipal workers.

Market Drops

Public funds' assets dropped $370 billion in 2000 and 2001, primarily because of investment losses, according to the Spectrem Group, a pension consultant based in Chicago. The Standard & Poor's 500 Index has fallen 29 percent since its peak in March 2000 and the Nasdaq Composite Index has plummeted 67 percent.

Monthly benefits in the retirement plans are guaranteed, so local governments must make up any shortfall, either by cutting spending or raising taxes.

In order to keep pace with liabilities, which generally grow by about 7 percent a year, funds invest around 65 percent of their assets in domestic and international stocks and private equity,

Copyright 2002 Bloomberg L.P.

with the balance in bonds, real estate and cash.

In the 1990s, this mix of investments produced returns of 12.7 percent a year on average as U.S. stock markets rallied.

Last year, the public pension funds averaged a loss of 4 percent. Bond yields are currently at 5.6 percent, and stock returns are forecast to range between 8 percent and 9 percent annually for the next five to 10 years.

''You almost have to go to 100 percent in equities to meet return targets, and no one is comfortable with that,'' said Steve Nesbitt, senior managing director at Wilshire Associates, a pension consultant based in Santa Monica, California.

No Surplus

Nor can many funds rely on gains they made in the last decade. ''The excess returns have been chewed up by benefit increases and lower contributions. There hasn't been a rainy day fund set aside,'' Nesbitt said.

At the end of 2000, pension funds, on average, had 103 percent of the money they needed to pay current and future retirement checks, the first time this so-called funding ratio was

Copyright 2002 Bloomberg L.P.

above 100, according to the Public Pension Coordinating Council. That surplus is eroding as performance drops.

''We've had two years of a poor investment climate, so we anticipate our funding ratio declining, but we don't know yet to what level,'' said James Voytko, executive director of the $37 billion Oregon Public Employees Retirement System.

In West Virginia, the state funds weren't allowed to invest in stocks until 1997, when the constitution was changed to allow equity investments. Because of low returns and minimal contributions to the pension pools, three of the six pension funds have enough money to pay only about 20 percent of their liabilities.

Extra Contributions

''We have to make extra contributions every year. If returns aren't the 8 percent actuarial assumed rate, they have to put in some more,'' said Craig Slaughter, executive director of the West Virginia Investment Management Board.

Slaughter said pension shortfalls are widespread because so many state and local governments granted cost-of-living benefits

Copyright 2002 Bloomberg L.P.

during the boom years, expecting that double-digit returns would continue indefinitely.

Washington is an exception. Its funds were buoyed by stellar returns from private equity and real estate investments, which together accounted for 22.4 percent of fund assets at the end of the year. Fund managers estimate that contributions by the various state employers to the largest retirement plan will fall to a record low of 1.1 percent of salaries this year, down from 7.5 percent in 1995.

''We were one of the states that didn't increase benefits'' in the boom years, said John Charles, chair of the State Investment Board. ''The legislature has been conservative, to assure we were fully funded.''

Introduction

- The State Board of Elections is the State Agency charged with overall responsibility for administering the elections process in North Carolina. We strive to ensure the fair and equal application of election laws for all participants in the electoral process.

The agency's mission is to promote consistent administration of all elections and campaign finance laws, rules, and regulations. As part of this effort, we provide information to the public, candidates, elected officials and county boards of elections regarding the administration of elections in our State and we enforce the election laws through consultation, investigation and hearings when necessary.

The State Board of Elections is comprised of three functional units:

Administration - including general supervision of 100 county boards of elections and 4 municipal boards of elections in administering elections and related laws, certifying election results, voter outreach, voter investigations/audits, and legal matters.

Campaign Reporting - including public education; oversight of all committees registered in 100 counties, assistance to candidates, political committee treasurers and county/municipal boards of elections and staff; investigating complaints, conducting research and preparing analyses in preparation for the State Board to hold evidentiary hearings, audit all reports for compliance with Article 22A, providing for electronic filing, and conducting training.

Information Systems - Including implementing and maintaining a state election information management system (SEIMS), providing assistance to counties, and statewide election data to the public.

- The State Board of Elections is supported by a 20-member professional staff overseeing day-to-day operations of the State Board office in Raleigh (administration/information services and campaign reporting) including technical support for the 94 (soon to be 96) counties using the State Elections Information Management System. Each county's Board of Elections conducts day-to-day administration of the elections process, including voter registration.

Topics of Discussion

- 7-11% Budget Reductions/Impact
- Organizational Chart/Span of Control/Liaison
- Six-Year Budget Chart
- Modified Zero-Based Budget
- Questions for Response

7-11% Reductions

- The current budget appropriation for the State Board is $3,177,963. A 7-11% reduction in our budget amounts to $222,457 up to $349,576. We propose that these monies be taken from budgeted line items for employee salary and benefits, employee travel, campaign reporting reserves, printing/ binding/duplicating and other administrative supplies.

Reduction Impact

- Reduction in employee salary and benefits will eliminate 4-7 positions from our staff: 3 Processing Assistants, 1 Elections Investigator, 1 Office Assistant, 1 Deputy Director and General Counsel. This will dramatically impact our service to the public and the election process with no assurance for compliance with Article 22A and there will be no direct access of legal advice to boards of elections.
- The Campaign Reporting reserve ($50,000) is used for instructional materials, forms and the cost of a temporary employee needed to enter campaign reporting data and cross-referencing reports. (G.S.§163-278.22; G.S.§163-278.23; G.S.§163-278.24)
- Reduction in Print, Bind, Duplicate for Campaign Reporting ($52,000) will eliminate the production of all required forms.
- Elimination/reduction of our travel budget ($10,000) reduces the ability for audits of County Boards of Elections (wellness checks) and providing assistance in distressed counties, i.e., Duplin, Harnett, Durham, etc (G.S.§163-22)
- Reductions in Other Administrative Supplies ($60,000) will impact education and training with no option for training materials, videos, and manuals as required by law (G.S.§163-82.24). Public information programs through APT will be eliminated. Teleconferences will no longer be a method of training for county boards of election. Software upgrades for State Board staff to support their work will not be possible and there will be no postage reserve for disseminating required material to candidates and others. (G.S.§163-278.21)

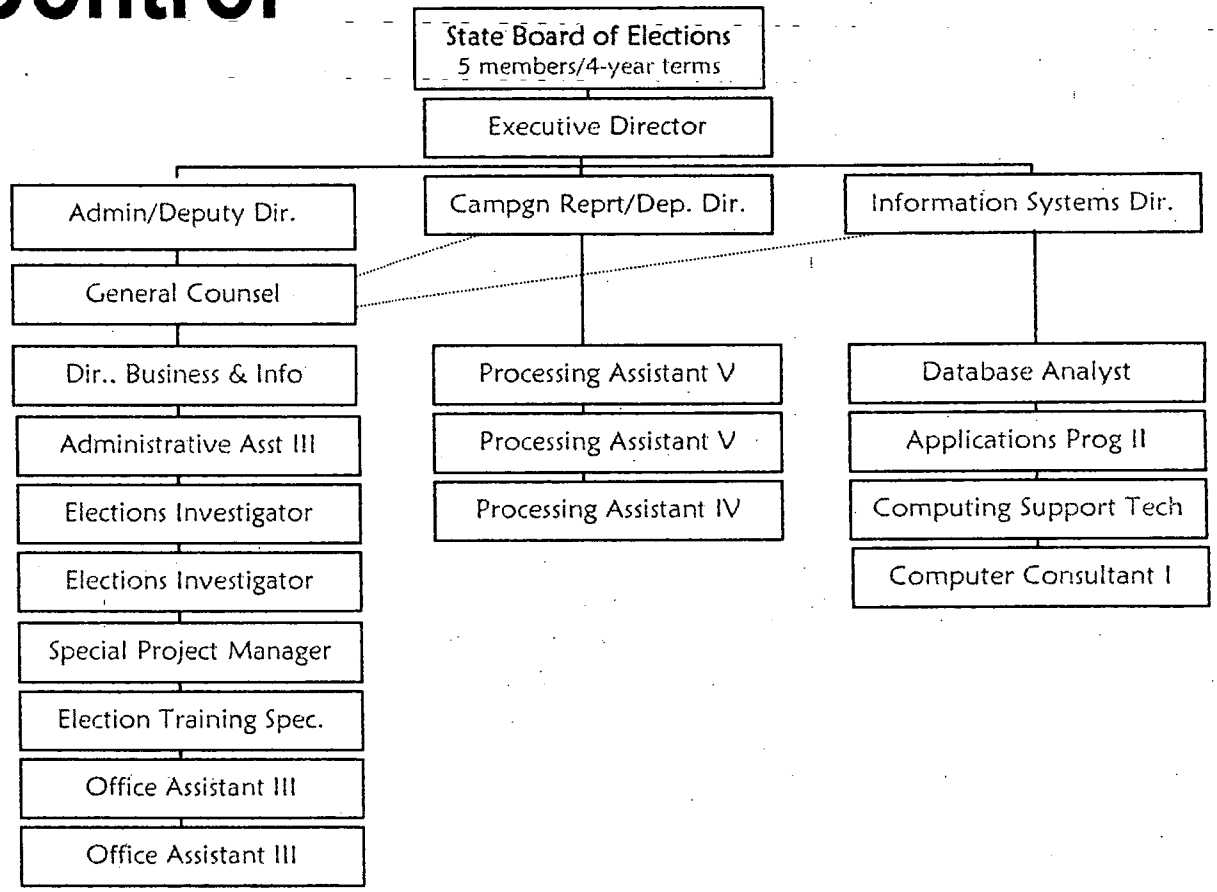
Organizational Chart/Span of Control



SEIMS Support - Introduction

- ✓The state board of elections (SBE) was directed by N.C.G.S. 163-82.11 to develop and implement a computerized statewide elections management system to support efforts of the SBE and county boards of elections to conduct legal and orderly elections.
- ✓The election reform bills in congress call for statewide voter registration systems
- ✓94 counties now use the system for their day to day operations and for managing their elections. Two more are being added.
- ✓All 100 counties input to the state database.
- ✓The state board of elections is responsible for a large part of the IT support for the county board of elections supporting:
  - 94 remote servers (2 more to be added)
  - 2 central DB servers
  - MS SQL server
  - Replication to the state database
  - 17 gigabytes of data
  - 6.5 million plus voter registration records and 11 million voter history records
  - Over 450 workstations
  - State database input from over 1000 campaign committees
  - Electronic filings from over 100 campaign committees

SEIMS Support

✓Basic support - minimum required to keep SEIMS operational.
- Help desk support
- Fixes, county assistance on SEIMS & campaign committee help
- Assist with mass data changes, i.e. redistricting
- State database support
- Telecom (wide area network) support
- Introductory training

✓Additional support
- Updates required to implement new legislation
- Hardware replacements & software upgrades for county servers
- Enhancements & extensions to software
- Special projects & reports
- Additional Training

✓The continuation budget only covers basic support.

SEIMS Support

Work Items Before 2001/2002

- 2001-2002 Fiscal Year Continuation Budget $1.6M
  - Carry Forward of $703K
- Completed Data Conversions of Counties to SEIMS
- Completion of Function
  - DMV Interface
  - Updates to Voter Registration Function
  - State Database NVRA Reporting
  - Voter Registration WEB Search
- Software Changes To Meet Requirements of New Legislation
  - Ethnicity ($82K)
  - Confidentiality ($20K)
  - New Race Codes (5K)
  - One Stop Absentee Support ($32K)
- Redistricting Support for the Counties
- Election Night Returns Updates
- Central Database Upgrade to SQL 2000
- County Support of SEIMS Hardware & Software

Work Items After June 2002

- SQL 2000 Upgrades For Counties ($540K)
- Server Hardware Upgrades
- DMV Electronic Signature Support ($292K)
- Image Scanning To Maintain Facsimiles Of Voter Registration Records & Signatures In The Database
- Ballot Style
- Support To Automate The Processing Of Petitions
- Implement a DOC Interface To Automatically Handle The Removal Of Felons

SEIMS Support - Hardware & Software Upgrades

Database Upgrade to SQL 2000

- ✓The SEIMS Application Was Implemented Using Microsoft SQL/Server Version 6.5.
- ✓The Support for This Version Ended January 31, 2002.
- ✓State Central Databases Is Being Upgraded in 2001-2002
- ✓SEIMS Application Code Must Be Upgraded to Microsoft SQL/Server 2000, Re-tested and the New Version of the Application and SQL/Server Must Be Installed in 94 Counties.
- ✓Failure to Upgrade Creates a Significant Exposure in Our Ability to Support Counties.
- ✓Requires Approximately $540k

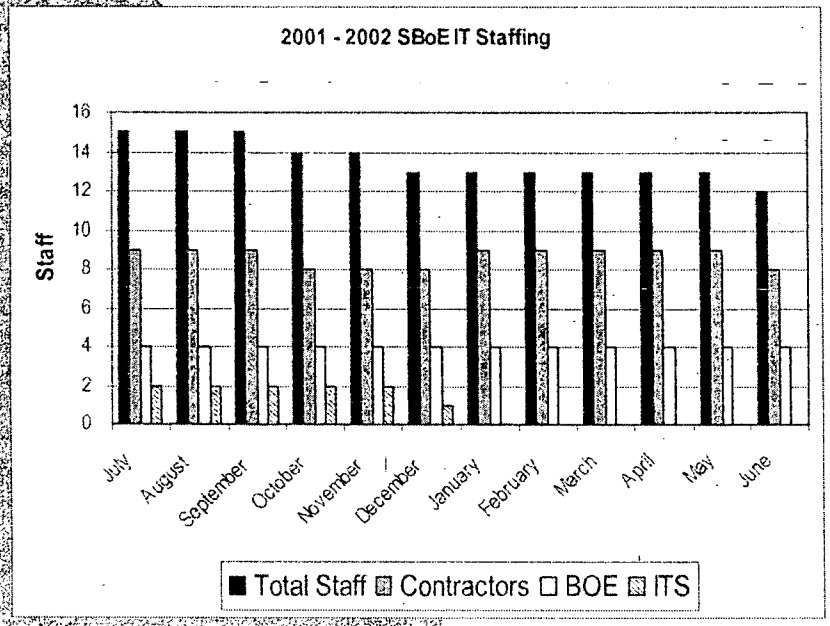
Hardware Replacement

- ✓Server Processors
  - ▪Server Hardware Is Beginning to Fail and We Must Begin to Gradually Replace Them in Each County.
  - ▪Server Hardware No Longer Under Warranty
  - ▪Requires Approximately $95k to Replace One Third of the Servers.
- ✓Batteries for Uninterrupted Power Supplies Are Five Years Old and Gradually Failing. 30 Replacement Batteries Should Be Planned for at $65 Each Or a Total Of $1,950.
- ✓Failure to Replace Creates a High Probability of Failure During Election Processing

SEIMS Support - Staffing

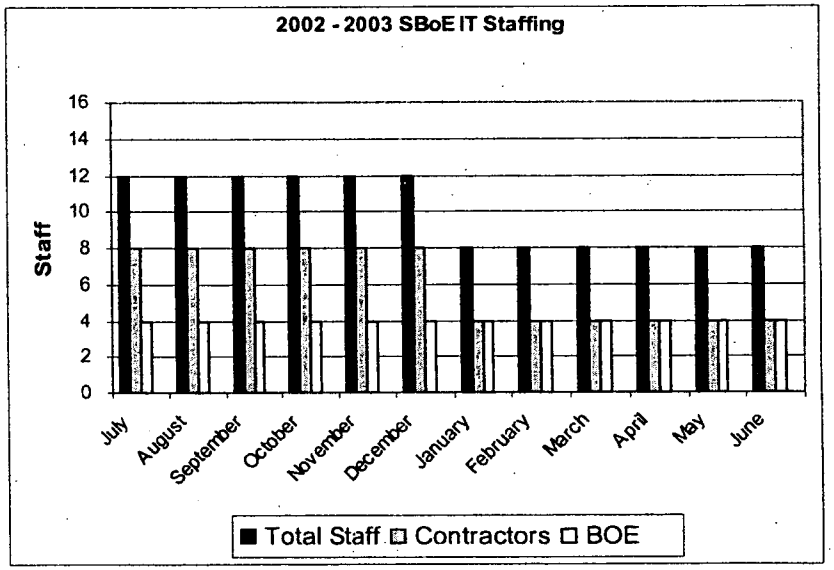
- ✓The State Board of Elections Expected to Transition Software Development & Technical Support to ITS. However, With ITS Downsizing We Must Rely on Contract Employees for These Functions.
- ✓Contract Programmers Have Most of the Historical Knowledge and Technical Knowledge of the Application. Once Lost This Will Be Difficult to Re-acquire.
- ✓Current Plan Requires a Contracting-Staff Reduction Of 50%
  - ▪The Contract Staffing Will Be Reduced by 1 in May 2002, and by 4 in January 2003.
  - ▪Seven of the Contractors Will Reduce Work Hours to 36 Hours Per Week Beginning July 1, 2002.
- ✓Current Information Systems Staffing
  - ▪4 State Board of Elections Staff
    - •Campaign Finance Software Development and Support
    - •Central State Voter Registration Database Development and Support
    - •Help Desk Support for SEIMS & Campaign Finance
    - •Hardware and Systems Support for Central State Systems
    - •Hardware and Systems Support for County Systems
    - •First Level Problem Resolution for SEIMS
    - •SEIMS Training For The County Board of Elections Staffs
    - •Report and Data Generation
    - •WEB Support
  - ▪Contractors
    - •Software Development
    - •Defect Correction
    - •Hardware and Systems Support for County Systems
    - •Database Analyst Support For Counties
    - •Data Corrections and Mass Data Updates
    - •Systems and Procedures Analysis
    - •Application Documentation
    - •Help Desk Analysis
    - •WAN and Firewall Support

SEIMS Support - Contract Employees



- Total IT staffing reduced by almost 50% from 2001- 2002 to 2002-2003

- Contract employees decreased by over 50%



SEIMS Support – Possible Federal Grant Money

- ✓ Both of the Election Reform Bills Pending in Congress Call for Statewide Voter Registration Systems

- ✓ Some Highlights
  - HR 3295
    - $2.65 Billion Total (Implemented over a 4-year Period)
    - Only States Are Eligible.
    - Grants Are Awarded Based on the State's Voting Age Population.
    - States Must Provide 25% Matching Funds.
    - Statewide Registration List: Must Be "Networked" to Every Local Jurisdiction
    - Must Have "Provisions for Sharing Data With Other States."
  - S 565
    - $3.5 Billion Total (Implemented over a 4-year Period)
    - Both States and Localities Are Eligible.
    - Grants Are Competitive, but Each State Is Guaranteed a Minimum Amount of Funding (1/2 of 1%). No Matching Requirement.
    - Statewide Registration List: Must Be "Interactive and Computerized"
    - Must Be "Accessible" to Local Election Officials.

2002 Accomplishments and Plans

The Campaign Reporting Office of the NC State Board of Elections has and continues to implement progressive changes in an effort to provide better service to the public and North Carolina registered committees. Among the changes that have occurred since the beginning of 2002 are:

- The *Campaign Reporting Manual for 2002* is a revised edition of current statutes along with information necessary for committee compliance. The manual was completely revised to provide more detailed information for both the public and those committees and individuals required to adhere to Article 22A of the North Carolina General Statutes.
- *New* Campaign Reporting Disclosure forms have been developed and are currently being utilized by committees registered at both the North Carolina State Board of Elections and all 100 county boards of elections. These *new* forms provide committees more detailed instructions for required disclosure.

2002 Accomplishments and Plans

- Electronic Filing Software is currently being updated to accommodate the new forms and to provide a simplistic option for filing disclosure reports. The new remote reporting software will be provided to all registered committees free of charge and will include numerous new features for committee management and auditing. A few of the features will include:
  - Data entry will be transaction based, rather than form based. The software will determine for the user the appropriate filing form needed for disclosure.
  - Search features will be added to provide the committee with contributor lists, labels, and balance sheet reports to show daily summaries of activity.
  - An audit feature will enable the committee to audit their own report prior to filing. The feature will alert the user of possible discrepancies that are part of our auditing checklist.

2002 Accomplishments and Plans

- The Internal Campaign Software is also being updated to provide more efficient audit processes and to enhance communication with committees and with county offices. Currently, there is no data transfer capabilities with the 100 counties. The only communication between the counties and our office is written or verbal communication. Because the Campaign Reporting Office of the State Board of Elections is tasked with the ultimate responsibility of oversight of county committees, it is crucial to have an electronic link for cross-referencing, assurance of county committee compliance and a standardized system for communication across the State.
- Treasurer Training Workshops have been developed and are being conducted for assistance in complying with all the requirements of Article 22A. Tools have been created to assist treasurers in managing their committees. To date, we have had six workshops with over 200 individuals attending.
- The Campaign Reporting section of the State Board of Elections website is currently being updated to provide the public with more detailed information. The public will be able to download committee disclosure reports, lists of active committees, and disclosure reporting forms.
- Two issues of the *Campaign Reporter* were published and distributed.
- The new IRS requirement that political committees with annual revenue of $25,000 or more, must file tax returns will increase the need for future cross-checking by Campaign Reporting staff.

SENATE APPROPRIATIONS SUBCOMMITTEE

ON

GENERAL GOVERNMENT

Minutes

May 8, 2002

1:00 p.m.

The Senate Appropriations Subcommittee on General Government met Wednesday May 8, 2002. The meeting was called to order at 1:00 p.m. in Room 422 of the Legislative Office Building. There were four Senate members present.

Senator Oscar Harris suggested that they look at the Reductions by Agency document (attachment #1) line by line at the 8% level. He further suggested that for those agencies that can be cut more than 8% be cut further and those funds added to the agencies in the most need. After considerable deliberation and evaluating the attached document line by line, the consensus of the Senate Committee Members was to consider accepting those vacancies offered to be cut but without considering those justified to remain as filled positions.

The deliberations were concluded.

Respectfully submitted

Date Position Vacated: 9-19-01

****

Justification for Retaining Position ***(Explain why existing staff cannot continue performing required duties):***

The DCR HR Office only has 3 professional staff members [who are already overloaded with multiple HR program responsibilities] and only 1.75 support staff to serve the needs of 845 permanent positions.

The Department of Cultural Resources Human Resources Office only has one (1) personnel analyst position to perform position analysis and classification under a delegation of authority agreement with OSP for 98% of the positions; this position helps administer the departmental merit based recruitment and selection program; is responsible for conducting position description writing workshops; and analyzing all departmental in-range personnel requests. Position No. 1034 is also responsible for reviewing departmental organizational charts annually.

Position Number: 4801-0200-0001-110

Budgeted Salary: $61,401

Fringes: $9,211

Date Position Vacated: 5/1/02

Justification for Retaining Position (Explain why existing staff cannot continue performing required duties): In the midst of the worst budget crisis in the history of the State of North Carolina, the Department of Cultural Resources' Budget Office is woefully understaffed with only 7 accounting positions to manage the department's total $69 million budget. In order to manage the department's limited financial resources during the last quarter, prepare budget reductions the FY 2002-2003 budget, prepare the department's biennial budget this summer and complete the department's annual financial statements in August, it is essential that this position be retained.

Position Title: Information & Communications Specialist II
Position Number: 4801-0100-0001-041
Budgeted Salary: _$38,507
Fringes: _$5,776
Date Position Vacated: _June 8, 2001

Justification for Retaining Position (Explain why existing staff cannot continue performing required duties): This position is essential to the ability of the Department of Cultural Resources' Public Affairs office to manage its day-to-day communications activities, internally and externally.

This position assists in the planning, design and coordination of all public relations and media relations activities, often involving highly complex and controversial issues.

- Preparing speeches for the Secretary and drafts of remarks or letters for the Governor and other key personnel
- Liaison with governor's press office and other cabinet agencies
- Providing media counsel and advise to the department secretary as well as division and site managers on controversial issues
- Day-to-day responsibility for identifying and writing media stories about department activities as well as daily contacts with media to promote positive coverage
- Planning and implementing special events, including Governor's Business Awards and North Carolina Awards, along with various programs, newsletters and brochures associated with each
- Designing, writing and distribution of internal publications, such as newsletters, Secretary's Letter, to encourage better employee communications and improved morale
- Day-to-day contact with different divisions, e.g., historical sites, to assist and support in their activities
- Assists with crisis communications, damage control and media coaching for managers, and preparation of talking points
- Hands-on work with Web team

This position is critical to carry out certain statutory and contractual responsibilities for the agency. The existing staff is already overburdened in spite of best efforts to combine responsibilities, streamline operations and eliminate many services.

Division/Section: North Carolina Historic Sites

Position Title: Historic Site Manager II

Position Number: 4802-0404-0002-346

Budgeted Salary: $40,352

Fringes: $ 6,053

Date Position Vacated: October 31, 2001

Justification for Retaining Position (Explain why existing staff cannot continue performing required duties):

The Historic Site Manager is the overall leader of this important state historic site. The manager directs the staff in all facets of site preservation and operation and provides liaison with one state commission and one private nonprofit organization supporting the historic site. The manager is one of five positions responsible for preserving six historic buildings and an important assemblage of artifacts, many dating to the colonial period. The small staff also is responsible for educational programming as well as interpreting the historic site seven days a week to the public. The vacant manager position represents 20% of the permanent full-time work force. It has been frozen since November 1, 2001. Primary to the position's function is planning, organizing and directing fundraising activities for the historic site. Working in concert with the Historic Bath Commission (whose members are appointed by the governor) and the nonprofit Friends of Historic Bath, Inc., the Department of Cultural Resources is undertaking a capital campaign to secure funds for a new museum at the site. This facility, if funds were secured in a timely manner, would be a centerpiece in 2005 of the 300th anniversary of the incorporation of Bath. Other highlights of the anniversary celebration will be special programs and events in Bath and throughout the state. The manager is a key staff member, as this employee coordinates the efforts of staff, volunteers, support organizations, and community leaders in the planning and implementation of all the activities described above.

Division/Section: Division of State Historic Sites/Tryon Palace Historic Sites & Gardens

Position Title: Museum Specialist (Horticulturist)

Position Number: 4802-0500-0002-504

Budgeted Salary: $26,930

Fringes: $6,339

Date Position Vacated: 12/12/01

Justification for Retaining Position (Explain why existing staff cannot continue performing required duties):

The Tryon Palace Gardens are a major educational component of the visitors' experience. This position provides professional horticultural care for 11 historic gardens and other landscapes encompassing 22 acres. The position serves as the staff expert on horticultural and environmental management issues. The horticulturist advises the curator of gardens, greenhouse manager, labor crew leader, and gardeners on plant culture and proper horticultural techniques. He/she provides hands-on instruction to the gardens staff on proper gardening techniques and advises them on proper plant culture, which includes instruction on nutrition, pruning, insects, diseases and other horticultural topics. He/she coordinates the propagation and production of plants and seasonal plantings. He/she supervises application of controlled pesticides in the garden and must maintain a North Carolina Department of Agriculture Pesticide Applicators License (Public Operators Classification). He/she creates graphic landscape designs or written project descriptions for landscape improvement projects for existing gardens and the creation of new gardens. He/she presents building and garden plans and designs to the TPHS&G Curatorial Committee, the New Bern Historic Preservation Commission, and the Tryon Palace Commission for review.

This position is involved in garden educational opportunities including: garden workshops, guided garden tours, professional quality lectures and sharing up-to-date horticultural expertise with non-profit organizations in North Carolina including garden clubs, master gardener groups, civic organizations, and other historic sites.

The horticulturist also serves as staff expert and liaison on environmental management issues involving the Coastal Area Management Authority, the Clean Water Management Trust Fund, Department of the Environment and Natural Resources, and the area wide environmental extension agent. He/she provides leadership and directs projects that involve environmental issues; organizes meetings with representatives of environmental agencies and collaborates with experts in the fields of storm water management, wetland restorations, and coastal area permitting as required. This position also serves as TPHS&G representative on the Department of Cultural Resources Environmental Sustainability Task Force.

Presentation of our gardens would be diminished if we did not fill this position. Our ability to deliver educational opportunities, which is a major component of our mission, would weaken. Failure to properly apply pesticides could result in injury to a member of the staff or a visitor. Errors in professional horticultural practices will reduce the quality of educational exhibits resulting in negative feedback from guests and a reduction of visitation. This would negatively impact our ability to earn income generated through receipts.

Position Title: Museum Guard Coordinator

Position Number: 4802-0500-002-515

Budgeted Salary: $28,979

Fringes: $6,598

Date Position Vacated: 2/28/02

Justification for Retaining Position (Explain why existing staff cannot continue performing required duties):

Securing the safekeeping of very valuable state historic property and the wellbeing of visitors at Tryon Palace Historic Sites & Gardens is an essential component of our operation. It is crucial that we fill the position of Museum Guard Coordinator to manage the level of safety required. Since September 11, 2001 we have had a growing awareness of the need to adopt more stringent measures to protect visitors, staff and historic resources. TPHS&G's security recently handled one incident involving a potential threat from an individual affiliated with a paramilitary organization. This incident demonstrated the importance of the Museum Guard Coordinator's ability to coordinate with all local law enforcement agencies. These agencies include the New Bern, Bridgeton, Trent Woods, Havelock and Atlantic Beach Police Departments; Craven County Community Campus Police; Craven County Sheriff's Department; Craven Regional Airport Security; Cherry Point Military Police; Craven County Regional Hospital Police; and SBI personnel. It is important to continue to maintain the relationship we have established with local agencies. The knowledge and support shared by these agencies with the Museum Guard Coordinator is critical in protecting the assets and lives for which our organization is responsible.

The security of over seven thousand objects, thirty-eight buildings (including fourteen major historic buildings) and twenty-two noncontiguous acres of property, requires skillful coordination of staff members by the Museum Guard Coordinator. In addition to providing physical security for a safe and sound environment, security personnel must guarantee the successful transport of thousands of dollars, and provide the means for

safekeeping institutional assets such as computers, audiovisual and office equipment, archival materials, garden equipment and vehicles, etc. Coordination of these duties requires the operational expertise and supervisory skill of a qualified individual and cannot be assumed by other positions in this unit.

Budgeted Salary: $43,484
Fringes: $8,434
Date Position Vacated: 5/30/02

Justification for Retaining Position (Explain why existing staff cannot continue performing required duties: This position is critical to the ability of the State Library to manage its finances and operations, including purchasing, preparation and maintenance of budget, and other administrative functions for the operations and statewide programs. Budgets include operating budget; $14 million in state aid to libraries; and $4 million in federal grants.

This position serves as administrative officer and financial manager for the State Library. The position is critical to carryout the statutory and contractual responsibilities for the agency, and there is no one else on staff with the skills and knowledge to carry out the responsibilities of this position. The position's responsibilities include:

- Day-to-day responsibility for financial management, including keeping data up-to-date, tracking expenditures, & providing reports as required.
- Serving as the liaison with the department's Business Office for fiscal and purchasing matters;
- Coordinating preparation of state/federal budgets and continuing disbursements; monitors all federal/state budgets, reviewing monthly expenditures and transferring funds as appropriate.
- Coordinating the management of $4 million in federal funds administered by the State Library managed by the State Library, the majority of which are granted to public libraries, school media centers and academic libraries. Federal grants are paid on a reimbursement basis. The position works with the Federal Grants Consultant in approving grant reimbursements, requesting issuance of checks for payment, and maintaining grant payment records.

The position is critical to carryout the statutory and contractual responsibilities for the agency, and there is no one else on staff with the skills and knowledge to carry out the responsibilities of this position. Position Title: Library Technology & Resource Sharing Programs Manager (Librarian Consultant II)
Position Number: 4804-0200-0004-104
Budgeted Salary: $59,283
Fringes: $10,051
Date Position Vacated: 10/01

Justification for Retaining Position (Explain why existing staff cannot continue performing required duties.) The position has been vacant since October 2001, when the incumbent left to take a position in private industry paying a much higher salary. The position has responsibility for planning and implementing a complex, multifaceted program of statewide services as well as providing general consulting to libraries across the state and assisting in the management of the federal libraries program.

Continuing to hold this position vacant is undermining the State Library's ability to deliver high priority programs for library staff statewide. This position requires knowledge, skills, and abilities that other staff do not have to both manage ongoing programs (OCLC/SOLINET services; NC LIVE support) as well as to plan and implement innovative programs that are essential to meeting the requirements of the federal Library Services and Technology Act. The programs managed by this position actually save libraries (and taxpayers) money because we manage them centrally, saving the vendor the cost of having to deliver the services to a number of different libraries.

The vacancy is creating a hardship for the Division because other staff are trying to carry out the responsibilities of this position as well as their own, and we cannot expect staff to continue to do this. It is not possible to continue to expect staff to carry out the additional responsibilities on top of the existing heavy workloads they are supporting. If this position is not retained, we will be forced to eliminate programs that serve local libraries and save the taxpayers money.

Position Number: 4804-0500-004-812
Budgeted Salary: $46,354
Fringes: $8,797
Date Position Vacated: 07/01
Justification for Retaining Position (Explain why existing staff cannot continue performing required duties.) The position has been vacant since July 2001, when the incumbent passed away. The position has responsibility for planning and implementing a complex, multifaceted program of statewide continuing education as well as providing general consulting to libraries across the state and assisting in the management of the federal libraries program. The programs and workshops managed by this position reach over 5000 library staff and library board members in all 100 counties.

Continuing to hold this position vacant will force the State Library to eliminate most of the high-priority programs this position has responsibilities for. Not hiring at this time force us to decline to accept a pending grant from the Gates Foundation to provide technology training for public library staff members to strengthen public access computing in their libraries.

The vacancy is creating a hardship for the Division because other staff are trying to carry out the responsibilities of this position as well as their own, and it is not possible to continue to expect staff to carry out the additional responsibilities on top of the existing heavy workloads they are supporting. In addition, none of the current staff have the knowledge and skills to carry out this program.

Justification for Retaining Position (Explain why existing staff cannot continue performing required duties):
The Museum was just about to begin interviewing candidates recruited in a national search for this critical position when the hiring freeze was imposed. Curators not only oversee the acquisition, installation, research, and interpretation of the Museum's permanent art collections; they are also in charge of devising and managing an ambitious program of temporary exhibitions. The North Carolina Museum of Art is a growing institution of national renown. A fully staffed curatorial department is essential to maintaining the Museum's collections and exhibition and educational activities.

The size and importance of the institution's growing collection warrants far greater care and attention. In addition, the opening of the Museum Park presents unique opportunities for significant art projects. Much of the future development of the NCMA facilities, collections, and programs is directed towards a dynamic, creative and nationally significant engagement with the art of our own time. However, none of this will happen without strong curatorial leadership. Therefore, this position is not only central but critical to the future of this institution.

The Museum facilities cover 181,000 square feet inside and over one hundred acres outside, which must be regularly patrolled. The Museum receives between 350,000 and 500,000 visitors per year. To adequately protect these visitors and the State's multi-million dollar art collection, every Security Officer position is needed. The Museum Security staff is already stretched so thin that frequent mandatory overtime is required to provide necessary security for Museum programs. This has resulted in a number of personnel problems due to staff burnout. If the Museum is unable to provide adequate security, public safety and valuable State assets are placed at risk, and the institution will be unable to carry out its statutory educational mission.

Fringes: _____$ 3,456_____

Date Position Vacated: ___January 11, 2002_____

Justification for Retaining Position (Explain why existing staff cannot continue performing required duties):

This position plays a critical role on a three member marketing team for the North Carolina Symphony responsible for generating earned revenue through ticket sales. The team would be shorthanded without this position, especially considering the volume of ticket sales required for the Symphony to operate. Failing to meet revenue goals would result in budget deficits. The loss of this position will also result in an additional budget deficit of $30,000 (with salary and benefits). This job is crucial for the marketing department. If the department does not perform adequately, if would detrimentally effect the overall operation of the Symphony.

Justification for Retaining Position (Explain why existing staff cannot continue performing required duties):

This position is one of three people who operate the box office for the North Carolina Symphony. Their responsibilities include selling tickets and taking donations essential to the operation of the Symphony. Because each member of the box office team is trained in specific areas of expertise, the team would be rendered unable to perform its duties adequately. This would result in errors in ticketing and unsatisfied patrons who would no longer buy tickets or contribute to the Symphony. In addition, the loss of this position would create a budget deficit of $30,000 (with salary and benefits). All positions in the box office are crucial to the operation of the Symphony.

Question 1: Need to explain the positions that are designated HR Partner. This will help clarify what it would mean to eliminate an HR Partner at 11% level.

Prior to the 2002 reorganization, all professional and technical staff members functioned as specialists in areas such as compensation, classification, policy administration, employee relations, equal opportunity and safety. Agencies and universities, when seeking assistance from OSP had to deal with different employees depending on the subject. Individual human resources problems often required the involvement of staff from several program areas resulting in inefficiencies in program delivery. With the reorganization, employees are being cross-trained at a basic level in most human resources subject areas and are beginning to serve as generalists in providing services and enforcing human resources laws and policies.

Once organized by program area, OSP is now largely organized into consulting groups that provide consulting services and enforce human resources laws and policies in a variety of functional areas to specific agencies and universities. Consulting groups provide services in recruitment and staffing, safety and industrial hygiene, equal opportunity, work-life, policy administration, classification, competency development, workforce planning, employee relations, and worker's compensation. Likewise, Human Resources Partners are assigned several agencies and/or universities and work in the all of the program areas listed above. Individual agencies and universities can now go to one OSP employee to receive technical assistance. Human Resources Associates provide technical assistance to Human Resources Partners, agency and university staff in the full range of human resources functional areas.

In prior years terminology for the HR Partners had been Personnel Analyst and HR Consultants. The terminology consultants was confusing because the use by some agencies of outside consultants so the terminology was changed.

Question 2: **Provide the Temporary Solutions budget including number of employees. Also provide the number of applicants, number of applicants placed, and the number of hours worked following placement.**

Period Covered: **July 1, 2001 to Date (5/1/02)**

- Budget: $9,269,072

  94% - Temporary Employee Salaries
  5% - Temporary Solutions Staff Salary & Benefits
  1% - Operating Cost

- # Temporary Solutions Employees 6
- # Applicants 450
- Job Orders Filled 490
- Total Number Hours Worked 388,595
- Average Rate of Pay $12.58

Question 3A: Provide the Employee Assistance Program number of employees, number of total clients served; and recidivism rate.

Employee Assistance Program: Purpose is to assist work organizations in addressing productivity issues and employees in identifying and resolving personal concerns.

Period Covered: 7/1/00 through 6/30/01

- Number of OSP Employees 10
- Number of Clients Served

Clients	Type of Service
1711	Assessment and Referral
505	Management Consultation
5739	Training and Orientation
161	Critical Incident Stress Management
49	Organization Consultation*
8165	Total Clients Served

- Recidivism Rate 11% Re-opened Cases

*Organization Consultations are provided to agency/university leadership regarding planning and strategy or policy development on issues such as RIF, workplace trauma, Drug Free Workplace, drug testing initiatives, workplace violence and critical incident stress management.

Question 3B: Explain the industrial hygiene services offered by OSP, and what the elimination of these services would mean at the 10% and 11% levels.

Industrial Hygiene Services are a component of the Workplace Requirements Program established under Article 63 of Chapter 143.

Services:

- Provides consultative and technical services to State agencies/universities in establishing and administering their workplace requirements programs and to monitor compliance with the law.
- Conducts air and water quality surveys
- Conducts asbestos training

Impact of Elimination

- Without these services most agencies/universities will have to contract for these services at significantly higher cost
- Potential for more OSHA fines and job related injuries

Question 4: **Provide the State Personnel Commission Budget**

State Personnel Commission Budget

- Commission Staff $ 57,975 - Salary & Benefits
- Operating Cost $ 9,657

Role of the State Personnel Commission:

- The North Carolina State Personnel Commission is the human resources policy and rulemaking body for all state employees covered under the NCGS 126. The Commission has the final review of OAH cases.

Question 5: Provide a list of the NC Flex program services.

NC Flex Program Services:

- Dependent Day Care Spending Account
- Health Care Spending Account
- Dental High Option (Orthodontia) & Low Option (Preventive)
- Accidental Death & Dismemberment (AD&D)
- Vision

Question 6: On Operations and Support organizational chart to which unit are the four positions at he far left attached? Also, to which unit are the positions attached that are supervised by Support Services Supervisor?

The four positions on the far left of the chart report directly to the Operations and Support Managing Partner. The Support Services Supervisor reports directly to the Operations and Support Managing Partner.

Use of Internet to Eliminate Hard Copies

OSP has developed an extensive website (www.osp.state.nc.us) where we communicate most policies, procedures, reports, job vacancies, etc. Examples of materials on the web are:

- State Personnel Manual - reduced hard copies from 3,000 to approximately 200
- Reports Required by Statute - produce one hard copy and provide diskette
- Memorandums - placed on website then notify HR Directors by e-mail
- Vacancy Listing - available on-line on OSP website
- Leave Tracking - employees can complete leave tracking forms online
- Enrollment - limited on-line enrollment for training classes

Budget Points, May 8, 2002

Thank you for having me here today.

As a former Member of the General Assembly myself, I know that you are all facing one of the most difficult times in our state's modern legislative history, given this budget crisis and the recent court decision on redistricting.

Your call to meet these challenges is an incredibly hard task and I certainly respect your willingness to serve the People at this difficult time.

Briefly, I just want to say this afternoon that the North Carolina Department of the Secretary of State is an ally in your budget battle. We are part of the solution, as long as we function well.

- We are a revenue-generating agency and a service agency.
- We generate $30-32 million a year while only costing about $8.4 million to operate.
- We have a plan that provides an impact on the General Fund equivalent to a 7-11

5/8/02

percent departmental budget reduction, but this plan does not involve more cuts for reasons that should become obvious during this meeting.

Now, the Secretary of State's office does now pump in about 30 to 32 MILLION DOLLARS a year to state coffers. Which means you divide say, $31 million by 250 state work days in a year...on the average, we will make the state roughly $124,000 today. We only spend about a quarter of that amount on our own departmental budget.

Perhaps more importantly, we also help to build the state's economy through our work that helps to get businesses organized, get loans made, get documents made into legal contracts, and assist in financial investing.

It is vital that we maintain our ability to make those things happen in a timely manner for two reasons. First, because delays on our end in turn delay business people from doing business.

Secondly, because many of our customers could choose to give some of their business to other states if they felt we were letting them down. After all, you can incorporate in any state and still do business here.

You can loan your investment capital in any state regardless of whether your bank or home office is here.

These major concerns are why, given the latest directive to reduce our departmental budget by 7-11 percent, we have spent a great deal of time carefully crafting a plan that adds small fee increases across our department instead of making more cuts that would surely cripple our ability to serve, and therefore end up costing the state money, not making it any.

Again, we are a daily part of this state's economic recovery effort right now, on both the public and the private sector sides of the coin. Clearly, our future operational performance will continue to be part of the solution, or a slump in our performance levels will turn us into part of the problem. Departmental funding is the one key determining factor as to which way that goes.

- This is why we have shared our fee increase solution with Legislative leaders over two months ago.
- Why we went to State Budget Office seven weeks ago.

- And today, this is why we are saying this is the only workable way to meet that 7 to 11 percent goal.

We believe any further cuts in the Secretary of State's office, and this is detailed more in your packets, will quickly lead to lost revenue. And we are convinced that ratio would be a disastrous one. We project a new cut in that 7-11 percent range could quickly result in around $12 million in lost revenue for the state.

I keep talking about new cuts, and additional cuts, for one simple reason. The Department of the Secretary of State is already coping with several substantial cuts:

- We have had 16 positions eliminated.
- We continue to be required to make up about $112,000 a year in reversions because once upon a time, customers ordered data tapes from us that made the state that much money. Customers now get that information over the Internet and through other means, and they will never use that service again, but we are still required to collect that much money.

- We are already dealing with a current 7 percent cut that has us delaying replacement equipment buys and doing short-term cost savings to squeeze by.

I can't say this enough: we are only right above the point of service breakdown now. We just barely manage to keep our thousands and thousands of customers, most of them business people, happy right now. One more cut will certainly break our back and we will go from being an asset to this state's recovery, to being a drain on it.

Having said that just as plainly as I can, I would like to say again that I know you have tough jobs right now. My staff and I have prepared what information we thought you wanted in your packets.

We are happy to answer any questions you have this afternoon, but please understand, we may need to research some of your questions in order to give you the most complete answer. And now I would like to present Mike Peeler, Scott Templeton and Ann Harris to carry on with the details of our presentation.

Dear Gentlemen:

I am writing to follow up the February 28 request that this Department share with your office ways to generate a net change in the money available in the General Fund as a result of our operations. The designated target amounts range from a high of 11% [$921,000] to a low of 7% [$586,000] of our recurring general fund appropriation. When we were presented these guidelines by your staff, we were also orally admonished as an agency to protect our core services. It has been difficult to develop a plan than can achieve these two goals, but we have worked out a way to reconcile both of the stated objectives. This memo summarizes how we arrived at our suggestions and why we are commending them to you.

Initially, these target percentages seemed to be amounts of such magnitude that, if they were enacted, would cripple our ability to maintain our core services. This belief was due to the combined impact of the 8+% reduction in our authorized staffing that we sustained in the budget passed last October and the postponement of workload since that time in order to meet the newer mandatory 7% reversion for the current fiscal year. Indeed, once we began the analysis and the implications of guideline # 4 began to sink into our thoughts, something akin to catastrophe became clearly visible on the horizon. Guideline #4 reads as follows: "*Cost shifting from one state agency to another and from state to local governments will not be allowed" [emphasis added].* We fully support the policy behind Guideline #4 and applaud your courage in adopting it. However, approximately 82 of our front line employees, plus those administratively supporting them, come within this "off limits" category. Due to the fact that if we cut their functions, other governmental agencies would be required to somehow provide equivalent service to the public. Even if we were currently fully staffed, there are only 181 positions authorized for this entire Department in this fiscal year.

Therefore we then shifted our analysis to the remainder of the agency, i.e., that portion which if eliminated would not shift the workload or burden to another state agency or local unit of government. There we quickly encountered a stark reality. But at that point, the only units still on

the table pursuant to the written OSBM guidelines, were the Corporations Division, the registration and licensing subunits of the Securities Division, the various document authentication units and those administrative staff members supporting them. These "remaining" employees, plus some of the previously "off limits" employees, are the very same employees who enabled this agency to collect $19,628,000 in fees as of February 28, 2002 while spending only $5,363,000 thus far in costs this fiscal year. So these "remaining" employees are a significant "profit center" for the General Fund of North Carolina. In addition, these "remaining" employees are the heart and soul of our core services for the business community. While many in the general public may be unaware of this office's role in North Carolina's economy, the business, financial and legal communities certainly do understand the vital part we play. Seven days a week, every week this department facilitates the formation and flow of financial capital through North Carolina's commercial life. Clearly, the future operational performance of this office will be either a part of the solution to our economic recovery, or part of the problem, and departmental funding is one of the key determining factors as to which it will be.

Now rather than go through a charade of offering up programs that already more than pay for themselves and pursuant to your guideline # 8 the Department has chosen the step of recommending some adjustments in our fee structure. Guideline # 8 reads as follows: "*Any proposal to recover a portion or the total costs of delivering services by increasing fees must detail the specific increases, who the increases would effect, and give a history of the fees including the last time the fees were increased.*" In compliance with the 'Guidelines for Potential Reductions" document provided on February 28 by OSBM staff, the Department of the Secretary of State thus proposes to modify General Fund revenues by action in the following four areas:

1. $400,000 by Notary Public Commission fee: Chapter 10A of the General Statutes should be amended to increase the notary commission fee, effective July 1, 2002, from $30.00 to $40.00. This $10 increase will generate at least $400,000 in additional revenue during FY02-03. This increase will only affect persons applying to obtain an initial or reappointment Notary Public Commission. These commissions are valid for 5 years, so the increase may be viewed as $2.00 per year. A notary is entitled to charge $3.00 per notarial act, thus if a notary performs only one additional notarial act per year, 150% of the fee increase will be recouped. This fee was increased in October 1999 from $25.00 to $30.00. However, because commissions are valid for 5 years, only those notaries who were (a) initially commissioned before 1997 and (b) re-commissioned between 1999-2002 will perceive two sequential fee increases, *and that event will not occur before 2004.*

2. $425,000 by Securities Division fees: Four Securities Division fees should be adjusted; three regarding types of securities registrations known nationally as Rule 504 and Rule 505 limited placement offerings and Rule 506 federally covered securities offered to accredited investors, and the fourth by increasing the investment adviser representative registration fee. These fees have been unchanged for at least 5 years.

The Rule 504-506 registration fees are currently set by administrative rule with statutory caps. General Statutes sections 78A-17(9,17) and 78A-31(b) should be amended effective July 1, 2002 to set the respective fees at the current statutory caps (all $150.00). The Rule 504 registration fee is currently $25.00; raising this fee should generate approximately $6,625 in additional revenue (53 annual registrants). The Rule 505 registration fee is currently $75.00; raising this fee should

generate approximately $3,300 in additional revenue (44 annual registrants). The Rule 506 registration fee is currently $75.00; raising this fee should generate approximately $283,200 in additional revenue (3,776 annual registrants).

General Statute 78C-17(b) should be amended effective July 1, 2002 to increase the investment adviser representative registration fee from $45.00 to $55.00. This will make the annual investment adviser representative registration fee identical to the GS 78A-37(b) registration fee for securities salesmen. With 13,323 representatives registered in North Carolina, this will generate approximately $133,230 in additional revenue. The securities registration fee increases will affect only those persons desiring to sell either certain limited classes of securities into North Carolina (Rule 504 and 505 offerings) or federally covered securities offered to accredited investors (Rule 506). Increasing the investment adviser representative registration fee will affect those individuals seeking authorization to provide investment adviser services within North Carolina.

3. $175,000 by Corporations Division certified document fees: The Corporations Division will currently provide any requestor with a certified copy of any document on file with the Division for $5.00 per certificate. This includes Certificates of Existence for domestic corporations and Certificates of Authorization for foreign corporations. These certificates are available both on paper and electronically. The $5.00 certificate fees at GS 55-1-22(a)(25), (c)(2), 55A-1-22(a)(26), (c)(2), 57C-1-22(a)(24), (c)(2) and 59-1106(7) should be amended effective July 1, 2002 to $15 for paper certificates and $10 for electronic certificates. Division management estimates this will generate $175,000 in additional revenue during FY2002-03. These fee changes will affect only persons seeking such certificates or certified copies from the Corporations Division. This fee has been unchanged since 1989.

4. ($30,000) by Authentication Section certified document fees (fee reduction): The Authentication Section provides authentication services on North Carolina documents that will be used in foreign countries. The Section issues apostilles, authentications and certificates (herein generically "certificates") relating to a variety of documents, including birth certificates, marriage certificates, statements of marital status, articles of incorporation, corporate bylaws, certificates of merger, powers of attorney, patent applications, trademarks, diplomas, school transcripts, deeds, and assignments of interest.

In recent years, the Authentication Section has experienced tremendous growth in authentication service requests relating to the adoption of foreign-born children. Prospective North Carolina parents must routinely provide foreign governments with authenticated copies of documents establishing identify, residency, education, employment and income. Recently, several countries (notably Russia and Belarus) have begun requiring that duplicate sets of authenticated documents be filed relating to adoptions. The departmental resources required to generate extra certificates relating to a single document are negligible. The current fee for authenticating a document is $10 per certificate (increased from $6.25 effective January 1, 1999). GS 147-37 should be amended effective July 1, 2002 to reduce the certificate fee for second (and further multiple) concurrently requested certificates for foreign adoptions only from $10.00 to $5.00. Section staff estimates that this change will reduce section revenue by approximately $30,000 per year. The persons primarily affected by this change will be North Carolina citizens applying to adopt foreign-born children, who will generally realize a 25% savings on their total document authentication cost.

Summary:

Notary Fee	$400,000
Securities Fees	$425,000
Corporations Fees	$175,000
Authentication Fee	($30,000)

Total Additional Revenue for FY 2002-03 $970,000

This figure at $970,000 actually exceeds the 11 percent reversion mark requested, does not inflict a great hardship on our customers, and most importantly does not further damage this Department's ability to serve the people of North Carolina. We look forward to continuing working with you to meet the challenge of our state's budget crisis while still delivering the services that help fuel our economy. Please call if you have questions or desire to discuss this plan.

Sincerely,

Dear Ms Chism:

I am writing to follow up the request that this Department share with you additional ways to generate a net change in the money available in the General Fund as a result of our operations. The designated target amounts range from a high of 11% [$921,000] to a low of 7% [$586,000] of our recurring general fund appropriation.

Initially, these target percentages seem to be amounts of such magnitude that, if they were enacted, would cripple our ability to maintain our core services. This belief is due to the combined impact of the 8+% reduction in our authorized staffing that we sustained in the budget passed last October and the postponement of workload since that time in order to meet the newer mandatory 7% reversion for the current fiscal year.

To us as administrators with the responsibility to provide specific services in exchange for fees, our current budget already has built into it a reduction in an amount equal to about 2.5%. This results from two different situations as follows: One, the requirement that this Department generate extra revenue from the sale of tapes [account #434390] in the next fiscal year and we anticipate that this will not occur, just like this extra income did not materialize before and will not in this current fiscal year. This shortfall will occur again because of the changes in the customer demand for this information, yet we must somehow offset this debit with other funds. Two, last year the agency was legislatively directed, as a new responsibility, to mail annual report notice forms to Limited Liability Companies. A one time, $100,000.00 appropriation was passed to fund the postage and tempory workers to carry out this annually recurring task. Presently, the agency does not have much expectation that this money will be included in an expansion budget and consequently, the agency will have to take an equal amount from other budget lines in order to produce, mail and process the LLC annual notices next year. To us this means that the current budget already has buried within it a reduction equal to approximately 2.5% and this a reality that the agency must already struggle to handle.

In looking for further possible reductions, we assumed that cost shifting from one state agency to another and from state to local governments should not be pursued, due to the fact that if we cut such functions, other governmental agencies would be required to somehow provide equivalent service to the public and would not result in "actual" savings. We certainly would support such a policy that would prevent the creation of unfunded mandates. Therefore we shifted our analysis to the remainder of the agency, i.e., that portion which if eliminated would not shift the workload or burden to another state agency or local unit of government.

There we quickly encountered a stark reality. Our core mission in the commercial business world is to facilitate the formation of financial capital by the private sector. This mainly transpires in the Corporation, UCC and Securities Units. These units provide the data and enforcement essential to keep the capital formation system healthy in North Carolina. Some smaller units whose functions are to increase the reliability of business documents by providing an extra layer of signature authentication supplement these larger units. So, in order to reduce the agency, we look first at the units whose absence will impair the formation of financial capital the least. Unfortunately, these units all bring into the general fund substantial money. That stark reality is why we encouraged the Office of State Budget to consider the imposition of specific, modest fee increases to satisfy the interest in a net improvement in our impact on the general fund.

We do not recommend the elimination of any or all of the units. However, if the General Assembly chooses to cut rather than impose the fee increases, then under those circumstances we believe that of all the departmental units available for elimination, the elimination of the ones listed on the attached spread sheet will do the least harm to the private sector capital formation activity in NC. Of course deletion of unit funding would eliminate the capacity to deliver various services and consequently it would need to be accompanied by a repeal of the underlying organic legislation.

Please keep in mind that this agency collected $22,534,000 in fees as of March 31, 2002 while spending only $6,012,000 thus far in costs this fiscal year. While many in the general public may be unaware of this office's role in North Carolina's economy, the business, financial and legal communities certainly do understand the vital part we play. Seven days a week, every week this department facilitates the formation and flow of financial capital through North Carolina's commercial life.

Clearly, the future operational performance of this office will be either a part of the solution to our economic recovery, or part of the problem, and departmental funding is one of the key determining factors as to which it will be. We look forward to working with you to meet the challenge of our state's budget crisis while still delivering the services that help fuel our economy. 8. IMPACT OF REDUCTION OR ELIMINATION OF PROGRAM:

   Eliminating 9 vacant positions impacts OSPs ability to provide necessary programs, resources, training and consultative services in a timely manner to our client agencies, universities, local governments and to state and local government employees covered by the State Personnel Act and those who adopt State Personnel Commission approved policies.

   Eliminating 1 position that administers the educational assistance and Governor's Fellows Management program. Eliminating 4 positions from Employee Assistance Program reduces our service to agencies, universities and employees in a time when the service will be desperately needed due to impact of reductions. Reduces Employee Assistance Program service capability by 40%. Eliminating 1 position that provides industrial hygiene services to agencies/universities to enable them to provide safe working environments. Eliminate 1 HR Partner position and 1 HR Associate position that provide consultative services to clients.

Memorandum

April 2, 2002

To: Michele T. Nelson
Marilyn N. Chism

From: Michael R. Peeler
Deputy for Administration, NC Department of the Secretary of State

Re: Response to Study of Agency Internet Use

We welcome the opportunity to share what we have learned with regard to web-based publications. We consider amendments to GS 147-54.1, enabling the Department of the Secretary of State to "publish electronically, information permitted or required by this section" to be of material benefit to us in delivering services in the most effective and economic manner. In our on-going efforts to provide ever increasing on-line access, what was forcefully brought to our attention was that while providing materials on-line enables us to reduce the price (cost) of delivery to each citizen-customer, the total number of citizen-customers served continues to grow substantially. Some of this increased demand for publications follows general growth in demand for our services and additional responsibilities delegated by the Legislature. We also experience increases in demand for publications as a result of increased visibility and market penetration generated by our web site.

Our printing budget has not risen substantially in recent years, even though the demand for our services has. Some statutorily required publications are currently un-funded. The Division of Publications takes steps to lower printing costs – careful evaluation of economic order quantity, competitive bidding among private vendors, careful selection of materials on a quality versus cost basis, spot coloring instead of full color reproduction, limiting bleeds and screens and aggressively enforcing quality standards for final product from commercial printers.

As we have discussed in the past, this note is offered as an up date of previous fiscal year responses and as an attachment to our spreadsheet response to the request for agency compliance with S. L. 2001-424, Section 14.1.

Publications Analysis

North Carolina Manual
This publication is not on the web. This department is currently mandated by North Carolina law to print 2,500 copies of this 1200 page book every other year (NCGS 147-54). Estimated printing costs for the 2001 edition total $40,950. There are no plans at this time to place the North Carolina Manual on the web.

Directory of State and County Officials
This publication is on the web. This publication is mandated by law (NCGS 147-54.1). Printing costs for 10,000 copies planned this year are estimated at $18,990. Demand for hard copy versions is still so great that we would like to actually increase the print run to 15,000 per year.

Lobbyist Directory
This publication is on the web. The agency is required by the Legislature to publish a directory of registered lobbyists at the beginning and end of each legislative session, as well as printing updates every 20 days during session. In a long session, the directory may need to be published as many as 8-10 times. Printing costs per edition run about $2,600 and annual cost is estimated at $13,000-15,000. Current demand is approximately 1,000 copies of each edition. The agency could save money by limiting publication to its web site and making hard copies available only on demand. Legislation to reduce the number of times the directory must be printed will reduce costs.

Directory of Boards and Commissions
This publication is not on the web. This book is not currently funded and has not been updated since 1996. Most of the demand for this document could be met via our web site. The 1996 edition of this book was a 2,500-copy run for $6 per book. In comparison, the 1999 edition was a 10,000-copy run for $3.75 per book.

Directory of Permits
This publication is not on the web. This book is compiled and printed by the Business License Information Office. The outside demand for it that the Division of Publications receives is low. We intend to move this publication entirely to the web site.

Women in the General Assembly
This publication is not on the web. This specialty publication has not been updated or re-printed since the early 1990s. This publication is not currently funded.

State Government Organizational Chart
This publication is on the web. This document is very popular in our public schools.

Appointment Reporting (also known as "Gender Equity Reporting")
This report is on the web. Legislation passed in 1999 requires the Secretary of State to gather annually, reports regarding the gender of members of appointed boards and commissions. The Department compiles the data into a report that is made available to the public via the web and delivered to the Governor, the Speaker of the House of Representatives and the President Pro Tempore of the Senate. We do not anticipate much demand for hard copies. Note that this publication requires that we divert temporarily, a full time employee from other duties.

Candidates List
This publication is not on the web currently but will be published on the web in 2002. The agency is required by law to provide a list of candidates for state-level offices prior to each primary and general election.

Division Manuals
Most guides and manuals that are of high demand are on the web. The Division of Publications creates and manages a number of in-depth manuals on topics such as incorporating businesses, forming limited liability companies, securing trademark and service mark protection and training notaries. These items are designed to help guide citizens through the regulatory processes. Only enough copies are printed to meet demand.

Forms
Most of the department's forms are on the web along with instructions for their completion. Users may download the forms, complete and sign them and mail them back to the agency. Users often visit our offices or call and request that we mail them forms, which leaves us with the expense of printing the form and mailing it. Only enough copies are printed in house to meet demand.

Pamphlets
These items are not on the web. The Division of Publications develops and maintains a number of outreach pieces – material designed to educate North Carolina citizens and businesses about what the agency does and how it can assist them. These are printed in bulk at a low cost and distributed at the state fair, at our front counter and by the Secretary of State staff when meeting with business groups outside the office.

Index of Local Legislation
This publication is not on the web. Although the division is mandated by state law (NCGS 147-54.1) to print this index, it is not funded and has not been printed since 1967. Previous indices in the division's possession indicate that this publication is usually published once every 30 years. This publication should be funded and placed on the web.

Explanation of Constitutional Amendments
Before elections in which there will be a proposed amendment to the Constitution, the Secretary of State is to distribute an explanation of the proposal "in simple and commonly used language" pursuant to GS 147-54.10. This will be placed on the web in the future. Currently there are no funds appropriated for this year's proposed amendment explanation.

Session Laws and House and Senate Journals
Starting with this summer's release of the N.C. Session Laws and the House and Senate Journals, we will be shipping CD copies of each book along with at least one copy of the hardbound print edition. This is an initiative of the Secretary of State's Publications Division and the Legislative staff. We intend to put all three books on our web site, as does the General Assembly. We will be the first state, to our knowledge, to offer such transparency in legislative deliberations. This is a highly innovative project that reduces printing costs and makes access to these records more easily available (and free of charge) electronically. Note: We are responsible for distribution of these documents only, we do not publish them.

JOINT APPROPRIATIONS SUBCOMMITTEE ON GENERAL GOVERNMENT

Thursday, May 9, 2002

9:00 A. M.

The JOINT APPROPRIATIONS SUBCOMMITTEE ON GENERAL GOVERNMENT met on Thursday May 9, 2002 at 9:00 a.m. in Room 422 of the Legislative Office Building. House members present were: Representatives Wilma Sherrill, Chair; Maggie Jeffus, Chair; Alma Adams; Daniel Barefoot; Marvin Lucas; Mitchell Setzer; and Gene Wilson. There were three Senators present. Committee Counsel present: Michele Nelson and Marilyn Chism. (Visitor Registration list is attached for the record.)

Representative Wilma Sherrill chaired the meeting. She called the meeting to order and welcomed those in attendance. Representative Sherrill introduced Norris Tolson, Secretary of the Department of Revenue. Mr. Tolson introduced some of the staff in his department. Discussion was heard on the elimination of the project relative to the Sheriffs Association. Secretary Tolson stated this would require a statute change. Senator Allran said he did not think the General Assembly would be interested in doing that.

Keith McCombs, Finance Office for the Department of Revenue was introduced to present the analysis of the zero base budget for the Department of Revenue. (Attachment No. 1) A "Detail of Each Contract By Agency – For Final Review" was given to each member of the Committee for review. (Attachment No. 2)

Senator Warren asked if they had a certain hotel at which the staff of the Department of Revenue stayed when traveling. The answer was "no". They stay at hotels, which give the state rate and must report all this on their travel expense requests for reimbursement.

Representative Sherrill asked if all cellular phones were necessary. Mr. McCombs answered that most of the phones were in the criminal investigation division. They felt these were necessary due to the type of work of this division. These people are on call during the day and night. They need to be able to get in touch with law enforcement and others at a moments notice.

Senator Harris stated that he thought having cellular phones sometimes might save money because it eliminates making so many long distance phone calls.

Data was then passed out showing "Expenditures Related to Debt Collection" for FY 2001-2002. (Attachment No. 3) Secretary Tolson then explained the vacant positions in the Department of Revenue. He stated that several of those vacant positions really needed to be filled in the Security Division. Secretary Tolson then presented the United States Postal increase for FY 2002-2003. The Department of Revenue projects that postage increase for FY 2002-2003 will be $242,192.35. This concluded the presentation by the Department of Revenue.

Represented Sherrill introduced St. Governor Beverly Perdue. Lt. Governor Perdue presented the proposed budget cuts for her department. She stated that the 7%-11% cuts asked for will be met through personnel reductions. She further explained their very simple budget, which is a total amount of $665,999. (Attachment No. 4)

The next item was a presentation of the "Fiscal Year 2002-2003 "Budget Review Follow-Up Items" which were explanations of questions previously asked by the Committee.

Gwyn Swinson, Secretary of the Department of Administration, presented questions which had been asked and follow-up for the Joint Committee. (Attachment No. 5)

Robert Powell, State Controller, presented answers to questions previously asked by the Committee. (Attachment No. 6)

Camille Winston, Deputy Director of the Office of Administrative Hearings, presented additional information requested by the Committee. (Attachment No. 7)

Susan Rabon, Sr. Assistant for Administration in the Office of the Governor presented answers to questions previously asked by the Committee. (Attachment No. 8)

David McCoy, Director of the Office of State Budget and Management, presented answers to questions previously by the Committee relative to his department. (Attachment No. 9)

Mike Peeler, Secretary of State's Office, presented answers from his department previously asked by the Committee. (Attachment No, 10)

Joe Stewart, Chief of Staff, State Treasurer's Office, presented follow-up items for the Committee, which had been previously asked for. (Attachment No. 11)

Starla McKenney, Special Assistant/Legislative Liaison, Department of Insurance, presented answers to follow-up items asked for by the Committee.

Thomas Wright, Director of Office of State Personnel, presented their follow-up items previously asked for by the Committee. (Attachment No. 12)

Lisbeth Evans, Secretary of the Department of Cultural Resources, presented a detail of each contract by agency for final review. (Attachment No. 13.)

The meeting adjourned at 12:40 p.m.

Respectfully submitted,

Representative Wilma Sherrill, Chair

Rosa S. Kelley, Committee Assistant

NORTH CAROLINA DEPARTMENT OF REVENUE

Michael F. Easley
Governor

E. Norris Tolson
Secretary

April 10, 2002

MEMORANDUM

TO: Michele Nelson
Fiscal Research Division

FROM: E. Norris Tolson

SUBJECT: Updated Span of Control and Agency Liaison/Lobbyist Information

In reply to your request on the above subject, please find attached the updated Span of Control chart for the Department of Revenue. The chart reflects the current supervisor to employee ratio by section or unit.

Additionally, the information requested on our department liaisons is noted below:

Willie D. Riddick Legislative Affairs Director $75,370 Grade 78T

Mr. Riddick's primary responsibilities involve the advocacy for and tracking of the department's legislation and working with legislators and staff as necessary. Mr. Riddick also works with the Governor's staff with regards to the administration's legislation. This position serves on the senior staff of the department.

Alan P. Felton Revenue Planning Director $59,081 Grade 75T

Mr. Felton's primary responsibility is to function as the Director of Planning and Training to provide leadership to all departmental planning efforts as well as directing and coordinating departmental and divisional training. This position also serves as a member of the department's senior staff and is responsible for conducting special projects for the Secretary. This position assists in working with the General Assembly as necessary.

If you have questions you may direct those to Keith McCombs at 733-6800.

Total		**$3,694,188**	**$8,537,939**	**$5,834,513**	**$6,397,614**

Note: Year-End Balance is through March 31, 2002.

Unauthorized Substance Tax (Budget Code 24700/2470)
All monies deposited to this special revenue fund are (at a future date) paid out to two sources; 25% to the General Fund and 75% to the law enforcement agencies involved in the arrest of the person who was in possession of unauthorized substances. Distributions to these two sources occurs monthly, but only after all legal appeals have been exhausted.

Federal Retiree Refunds (Budget Code 24701/2000) and Federal Retiree Admin. (24701/2002)
Monies remain from funds that were appropriated to the Department (in 1997) to make refunds with regard to the federal retiree lawsuit. The Department does not anticipate any additional refunds to taxpayers.

Intangibles Tax Refunds (Budget Code 24702/2020) and Intangibles Tax Admin. (24702/2022)
These monies are being used to process the refunds required in the lawsuit *Derrick Close vs. State of North Carolina*. This lawsuit addresses the taxing of beneficial interest with regards to the Intangibles Tax.

Hurricane Floyd Grants (Budget Code 24703/2473)
To administer Hurricane Floyd grants due to loss of property tax revenues in certain counties of North Carolina (House Bill 2 of the 1999 Extra Session of the General Assembly).

Project Collect Tax (Budget Code 24704/2474)
A special revenue fund mandated by Senate Bill 353 (2001 Legislative Session). The legislation requires the Department to deposit the 20% fee collected on overdue tax debts as a result of Project Collect Tax initiatives. The collected fees, after payment of certain operating expenses, can only be expended as directed by the General Assembly.

Tax Distributions (Budget Code 24705/2475)
This special revenue fund allows the Department to make deposits of (1) debt set off monies, and (2) local government tax distributions and to then pay these monies electronically to local entities. The end of the year balance in this fund will always be zero.

Lee Tax Credits (Budget Code 24706/2476)
The Department maintains a special revenue fund for receipt of Bill Lee application monies received from the Department of Commerce. These monies are used to administer the Bill Lee Tax Credit Program.

Transaction Fees (Budget Code 24707/2477)
This special revenue fund allows the Department to properly account for transaction fees charged by the Department when accepting credit cards to pay taxes through the online payment system. Individual income tax returns will be the first tax schedule implemented with the sales and use tax forms to follow. Maintaining a separate budget enables the Department to certify all transaction fees daily to one budget code and to then disburse the funds when an invoice is received by the vendor for credit card services. (The online payment system is anticipated to be available to taxpayers in the current 2002 calendar year.)

RE: Report on Study of Agency Internet Use - DOR

Section 14.1 of S.L. 2001-424, requires agencies under the auspices of the Joint Appropriations Subcommittee on General Government to review printing and publications requirements, develop a plan to reduce cost by using computer technology, particularly the Internet, and to submit a report to the Fiscal Research Division. This is the report for the Department of Revenue.

TAX FORMS

The Department of Revenue (DOR) has been actively using the Internet to communicate with taxpayers and other constituents for many years. Nearly all of the information that would be needed by an individual, business or tax practitioners, related to all taxation requirements, including forms, is available on our web site. Anyone contacting the department requesting forms is encouraged to access the Internet to obtain their forms.

Each year the department attempts to print the minimum number of tax forms necessary. However, our mandate requires that we make the necessary forms available and not everyone has access to the Internet. Therefore it is impossible for us to eliminate the printing of tax forms altogether. With the increased accessibility of the Internet, the increased use of tax preparation software and wide-spread use of electronic filing, we are hoping to see a continual reduction in demand for paper forms. No specific projections are available. This is a yearly analysis and cost reduction on a case by case, tax by tax basis. The cost of printing our more complex forms continue to increase due to the complexity of the personalization of the forms, so much of the cost savings that might be gained from volume reductions are used to cover contract printing costs.

DOR has a Forms Team and a Forms Management and Development Review Team which continually review the effectiveness of our forms, the volume of forms ordered, and the form needs of the taxpayers to ensure that the best balance between cost and service is maintained. Use of the Internet is a primary focus of both teams.

NEWSLETTERS/PUBLICATIONS

The Department has traditionally sent a Order Form for tax forms and publications to a list of libraries, military bases, post offices, tax preparers, businesses and individuals who have, at some time in the past, requested forms to be sent to them. This year, the process was changed. A postcard was mailed to only the libraries, military bases and post offices notifying them that the order form was not being mailed and that forms could be ordered by accessing our web site or by contacting the DOR Forms Line. This change saved the department approximately $1100 in postage, printing and envelop costs.

The Department uses internal email whenever possible to eliminate the need for mass production of memoranda to agency staff. We have also been pursuing the implementation of an intranet site for the department. The availability of funds for the necessary hardware and software procurement have delayed this effort. The implementation of the intranet would enable the sharing of documentation, newsletters, and memoranda without the current associated printing and distribution costs.

Report on Collection of Tax Debt

TO: Joint Legislative Commission on Governmental Operations
Revenue Laws Study Committee

FROM: E. Norris Tolson
Secretary of Revenue

General Statute 105-241.3(f) requires the Department to submit a quarterly report, beginning November 1, 2001 through November 1, 2002 and semiannually thereafter, to the entities listed above on the Department's progress regarding the collection of tax debt. The report must detail the amount and age of tax debt in three categories: tax debt collected by collection agencies, tax debt collected as a result of the 20% collection assistance fee notice, and all other collections of tax debt by the Department. The report must also include a long-term collection plan, a timeline for implementing each step of the plan, a summary of steps taken since the last report and their results, and any other data requested by the Commission or the Committee.

The second quarter report for the period ending December 31, 2001 was previously submitted on January 9, 2002. This report provides an update through March 31, 2002.

Tax Debt Collections for the Nine-Month Period July 1, 2001 Through March 31, 2002

• Tax Debt Collected by Collection Agency	$ 4,971,405
• Tax Debt Collected From Fee Warning Letters	34,127,490
• Other Tax Debt Collected by Departmental Personnel	104,575,129
Total Tax Debt Collected For Nine-Month Period	$ 143,674,024
• Total Collections From Non-Filers	40,783,242
• Total Collections - Nine-Month Period **(Exhibit 1)**	$ 184,457,266
• Less Baseline Collections (Debt Collections 7-1-00/3-31-01)	126,100,575
• Total Tax Debt and Non-Filer Collections from Project Collect	$ ***58,356,691****

- **Total is $444,000 less than previously reported totals due to a detailed verification of the numbers.**

Long Term Collection Plan

In July 2001, the Department implemented an agency-wide initiative called "Project Collect Tax." Through this project, the Department has committed to achieving two primary goals: reduce accounts receivable and collect $150,000,000 in tax debt over and above normal revenue collections by implementing best practices for collecting tax debt.

Reduce Accounts Receivable for Accounts 270 Days or Older:

Accounts Receivable – July 1, 2001	$359 M
Accounts Collected Older than 270 Days	46 M
Balance of 7-01-01 Accounts Receivable	$313 M

We anticipate accounts receivable to decline further as the full impact of "Project Collect Tax" activities are realized.

Generating $150,000,000 of New Revenue

To achieve our $150,000,000 goal, several initiatives are being used. The primary initiatives are as follows:

- Warning Letters – On August 21, 2001, the Department began sending 20% fee warning letters to taxpayers. Notices continue to be issued for accounts over 60 days old. If the taxpayer fails to enter into a payment arrangement or pay the tax, the fee is assessed after 90 days. For the period ending 3-31-02, tax debt collected from these notices totaled $34.1 million.

- Listing Delinquent Taxpayers on the Internet – Since January 7, 2002, four-hundred and eleven accounts (411) have been listed on the Department's website. As of March 31, 2002, three hundred forty-three (343) accounts with tax liabilities totaling $10.8 million were listed. Sixty-eight (68) accounts were removed because the tax was paid or a payment plan was established. The Department continues to add 100 accounts each month. As of March 31, 2002, $130,000 had been collected from this initiative.

- Hire 44 New Collection Division Employees – To date, 40 of the 44 have been hired. These new employees have collected $3.3 million. Future collections could be impacted by failure to fill frozen positions.

- Hire Former Employees as Contract Workers – Ten former revenue officers were hired effective October 15, 2001. As of March 31, 2002, these employees had collected $1 million.

- Civil Enforcement Team – Eight senior revenue officers have conducted operations in Charlotte, Greensboro and Raleigh-Durham. As of March 31, 2002, this team had collected $5.7 million.

- Enhance Bankruptcy Collections – Process improvements in the Bankruptcy Unit have caused current fiscal year collections to exceed collections for the same period in the prior year. Actual collection data will be reported in the July report.

- Develop an RFP for Outsourcing Tax Debt – The Department issued a Request For Proposals for Collection Agency Services on January 22, 2002. Nineteen collection agencies responded to the request. A Selection Committee, comprised of representatives from the Department of Revenue and the Department of Justice evaluated the proposals. Final selections were sent to State Purchasing and Contracts on April 8, 2002 and we expect final approval within the next few days.

- Develop an RFP for a Performance-Based Contract to Collect Tax Debt – This initiative was suspended due to budget reductions.

- Redirect of Existing Personnel – Personnel from the Documents and Payments Processing Division have continued to issue garnishments on individuals owing tax debt. As of March 31, 2002, these employees have reviewed 56,000 accounts and issued 24,000 garnishments.

- The Examination Division identified non-filers from a potential pool of 500,000 cases using Federal abstract information. These non-filers include individuals who filed Federal tax returns but failed to file state tax returns. Total collections from this initiative as of March 31, 2002 totaled $6.9 million.

- Federal Offset Initiative – North Carolina and other states are now authorized to offset Federal tax refunds for state individual income tax debt. As of March 31, 2002, this initiative resulted in state tax debt collections totaling $2.7 million.

Total new revenue generated from all "Project Collect Tax" initiatives for the six-month period ending 3-31-02 totaled $58,356,691. This total includes collections from the initiatives previously mentioned and from a more aggressive collection and enforcement effort.

Lieutenant Governor's Office

Joint Appropriations Subcommittee on
General Government

Beverly E. Perdue, Lieutenant Governor
May 9, 2002

Executive Summary
Office of the Lieutenant Governor

Mission
To develop a thorough knowledge of state government, participate in policy development, perform the many duties required by the state Constitution, and additional duties and responsibilities assigned by the Governor and the General Assembly.

Operations
The state Constitution provides for the Lieutenant Governor to be the President of the Senate and a member of the Council of State. Additionally, the Lieutenant Governor is a member of several commissions and boards. In order that the Lieutenant Governor may carry out her/his duties and responsibilities, the Office of the Lieutenant Governor staff assists the the Lieutenant Governor with responding to citizen inquiries and problems, developing policy initiatives, and working with other state agencies.

Total Personnel:

Total personnel consist of 9 staff members.. The positions include Chief of Staff, Communications Director, Policy Director, Legislative Assistant (part-time), Special Projects, Scheduler, Office Manager and Administrative Assistant.

Budget

The Lieutenant Governor's current budget has been reduced from last year's level.

Topics of Discussion

- 7 – 11% Budget Reductions/Impact
- Organizational Chart/span of Control/Liaison
- Six-Year Budget Chart
- Modified Zero-Based Budget
- Questions for Response

7 – 11% Reductions

Any reductions in this office will be reflected by the Personnel cut.

Since the 7-11% cuts will be met through personnel reduction the following serves in lieu of a spreadsheet. Each percentage cut would require an adjustment to employees.

Percentage	Budget	Reduction
7	$574,541	$46,620 (one position...=16034)
8	568,358	53,280 (one position plus $4,583 salary (and fringe benefit) reserve
9	562,185	59,940 (one position plus $11,243 salary (and fringe benefit) reserve
10	556,002	66,600 (one position plus $17,903 salary (and fringe benefit) reserve
11	549,824	73,260 (one-and-a-half positions plus $2,779 salary) and fringe benefit) reserve

Note: The salary (and fringe benefit) reserve amounts listed above would come from reducing the budgeted amount for positions that are currently vacant.

Organizational Chart/Span of Control

Internet Publications Response

In Response to your memorandum of March 8, 2002 regarding "Study Use of the Internet for Agency Publications" the Office of Lieutenant Governor does not publish or distribute any form of publications. However, this office would distribute electronically publications and/or information pursuant to Section 14.1 of S.L. 2002-424 through the state internet.

Response to additional information requested by committee:

1. Vacant Positions

The Office's authorized appropriation is $665,999 with a current budget for personnel of $617,786. At the present time, there are 2 vacant positions. Two persons were "RIFed" in order to meet the Governor's request this fiscal year. A third position was vacant for six weeks and was filled May 1.

2. Contractual Personnel Services & Miscellaneous Contractual services

The office has no contractual personnel. Maintenance contracts for service are as follows:

Office of the Lt. Governor
Maintenance Contracts
Fiscal Year 2000-2001

DIVISION:_____

Type of Maintenance Contract	Vendor	Annual Contract Amount
Panasonic 770 Fax Machine	Systel Office Automation	$250.00
Konica 2028 Copier	Danka	1, 042.92
Savin 9113 Copier	Ikon Office Solutions	79.00

3. Information Technology

The Office of Information Technology Services notified us last September that the annual amount of charges payable t ITS is $26,439.40. These services have been rendered in the past but covered by funds internal to ITS. Thus far this year we have paid ITS $1323.77 and because funds are not available we have not paid them since January. In 2000-01, ITS was paid by this office $3,029.51.

Our computer services have been less than adequate because of the outdated server, computers and programs. Also, we do not have the monies to pay for update of our web page and other services for this office.

Dept. of Administration Attach. No. 5

Questions and Follow-up for Joint Subcommittee (April 30, 2002)

Agency for Public Telecommunications

Q: Can the division be receipts supported?
A: Yes, with a change in mission and legislation. However, live call-in programs on OPEN/net would cease. The state would no longer have access to the donated cable airtime (estimated value $1 million). Legislation would be needed to require all agencies to use APT for video production projects. Currently, agencies can use any vendor. Additionally, agencies would need to use APT for teleconferencing for the re-defined agency to be viable. The division has stated that they would need appropriated operating funds during a transition period.

Americans w/ Disabilities Act

Q: Would deletion of one or both of these positions negatively affect federal funding?
A: No, as long as the state remains compliant and that someone in state government is designated the point of contact for ADA. Please note that Secretary Swinson is in the process of contacting DHHS and OSP to determine if either of these agencies have ADA resources within their organizations.

Commission of Indian Affairs

Q: What is the total Indian population in N.C.?
A: 99,541

Q: What is the total disabled population?
A: 10% of the NC population.

Q: Is there a duplication of work between "Chore Providers" and CAP Program (DHHS)?
A: Chore providers provide three primary services those being meal delivery (under contract), in-home aid services (level II and III), and transportation to doctor appointments, therapy, and other critical appointments. The CAP program provides these services as well as adult day health care, CAP/DA waiver supplies, home mobility aids, respite care, and emergency telephone response. The Chore provider program could be likened to the first step of care whereas the CAP/DA program is more intensive care. Clients cannot receive assistance from both systems at the same time. Chore providers are often in communities that lack CAP program providers.

Q: Educational Talent Search - Could this be combined with programs in DPI?
A: The Educational Talent Search program is federally funded and aimed at a specific audience (Native Americans). All other grant recipients in North Carolina are specific Universities. Moving the program to DPI would not affect state funding.

Facility Management

Q: Why has this division not yet been reorganized?
A: The division has been functioning in crisis management mode w/ high number of vacancies due to the hiring freeze and depletion of the renovation/repair funds. The OSP has begun management study for DOA with the potential reorganization of Facility Management as one study goal. Additionally, reorganization of facility management is presently under consideration by the Governor's Efficiency Commission.

Q: Could services be outsourced?
A: Yes, the benefits would be reduced employee pay and benefits, however, the costs would be higher hourly and overall cost.

Q: What is the level of housekeeper positions?
A: Salary Grade 54, Salary Range: $17,127 – 25,231

Fiscal Management

Q: Accounting Clerk V, #00336? Currently vacant, why not take?
A: This position is federally funding through the State Energy Office. The position is currently being redesigned.

Governor's Advocacy Council for Persons with Disabilities (GACPD)

Q: Number of clients served in a year?
A: FY 2000 - 944, FY 2001 - 870

Q: What is the total annual case load?
A: FY 2000 - 944, FY 2001 - 870

Q: Could GACPD use "mediation" rather than using Attorneys?
A: Federal requirements dictate the use of mediation when appropriate in that all issues should be resolved at the lowest level possible. However, the GACPD does not use third party mediation. Instead, GACPD, through staff attorneys, mediate directly the other party.

Historically Underutilized Businesses (HUB)

Q: Explain the current vacancies in the HUB office.
A: The status of the vacancies are as follows:

- Administrative Assistant III - new SB914 position, position filled; employee starts on May 15, 2002. Offered April 23, 2002
- HUB Certification Officer - new SB 914 position, offer declined by the applicant; position was re-advertised on April 30, 2002 and closed on May 6, 2002.
- HUB Compliance Officer - new SB914 position awaiting authorization to advertise.
- Statistician II & III - new SB914 position currently working with DOA Human Resource Office to have positions established.

All current vacant positions are needed to carry out the mandates of SB914.

Q: Has consideration been given to making HUB a separate division?
A: Yes, the department is currently consulting with OSBM about establishing the HUB office as a separate division.

Human Resources Management

Q: Which position is the EEO Officer?
A: Personnel Analyst II, #00098

Mail Service Center

Q: Does General Assembly use MSC?
A: No, the General Assembly does not use the MSC for inbound or outbound mail.

Q: Which agencies are not using MSC services?
A: Legislative branch, Judicial Branch, Departments of Treasurer, Justice, Agriculture and Consumer Services, Insurance, Labor, Public Instruction, and the Secretary of State.

Q: Provide specific legislation for requiring all agencies to use the MSC.
A: Attached.

Motor Fleet Management

Q: What is the income generated and expenditures made by Agencies?
A: List of income by agency provided 4/1/02. Expenditures by agency can not be determined without use of substantial staff time.

Non-Public Education

Q: Can this function be transferred back to DPI?
A: The function was originally shifted from DPI due to concerns surrounding conflict of interest. If these concerns were addressed, a shift could be made.

Q: Does this division also monitor charter schools?
A: No.

State and Local Government Affairs

Q: Can you shift the Chief to receipt supported by federal funds?
A: The only administrative funds available for Appalachian program come from a grant to the State. Program staff positions may be funded by grant funds if activities are 100% grant related. Required matching funds are available in Commerce (Division of Community Assistance) through activities authorized by the General Assembly (the other activities within the division meet federal requirements to quality as match)

Q: Can the ARC program be moved to Commerce?
A: The ARC program is located in the commerce department and/or the agency handling the Community Development Block Grant program in 6 of the other 12 ARC states. Although the Appalachian program can aid health, education, and other program areas, the agency mission is economic development. Moving the program should benefit the Commerce Department in carrying out its economic development mission.

State Capitol Police

Q: Why are there so many vacancies?
A: Uncertainty of job security by many employees as well as lower pay than all other state security forces.

Q: Can security functions be outsourced?
A: A private consultant reviewed security needs of complex and determined that, even if the SCP were fully staffed, there is a need for additional personnel. This additional need can be outsourced.

State Construction

- **Flag SB 914 positions for exemption from reduction.**

Q: Is there a duplication of "inspection" work with Department of Insurance?
A: No, DOI deals with inspections regarding life safety and accessibility reviews whereas the statutorily required reviews conducted by State Construction cover areas typically performed by local building inspectors plus a variety of other issues including contract performance.

State Property

Q: Is there a need for a director and a deputy director?
A: The division director responded that "Given the current workload, I believe it would be impossible to carry out the management functions of the division without a deputy director. Existing managers (section heads) are 'working managers' with heavy project workloads and little time for administrative matters such as budget, personnel, HUB

Program, Sustainability Program, special projects, etc, that are now handled by the deputy. Unless additional 'front line' staff is provided to relieve section heads of some of their project workload, a deputy is necessary to carry out routine administrative and management functions."

Veterans Affairs

Q: Why so many district offices (15), some in close proximity to others, i.e. Raleigh and Garner? Justify the current number of District offices.
A: The number of offices has been reviewed and a proposal to decrease the number of offices from 15 to 12 is attached.

Q: What is the lease cost and other office expenses for each District Office.
A:

DISTRICT	LEASE COST	OTHER COST
1	$13,200	$2,181.36
2	10,230	1,400.64
3	13,125	1,465.80
4	925	1,301.88
5	13,539	1,088.28
6	10,500	1,770.60
7	12,064	3,861.72
8	12,909	3,647.76
9	No cost	1,287.12
10	12,000	3,158.76
11	12,000	1,164.84
12	12,000	3,207.96
13	13,500	2,105.04
14	12,000	2,474.28
15	15,700	1,533.48

Lease cost includes: rent, janitorial service, utilities, water, sewer, and parking spaces for employees and clients. The other cost is telephone expense.

Q: Provide details on reducing the number of district offices.
A: The attached detailed state map, which if adopted, would reduce the number of districts from 15 to 12 and would eliminate all current vacancies.

Q: What specific language would you propose for a change in legislation regarding scholarships?
A: Language attached.

Youth Advocacy

Q: What would it cost to hire temporary employees in place of the students in the summer internship program?
A: The Department of Administration is not able to estimate these cost. In order to provide an accurate figure, all agencies that had summer interns would need to be contacted. Those agencies would then need to survey their sites to determine the "open-market" cost of hiring temporary employees rather than the interns. A determination would also need to be made as to if the agency would have actually hired an employee if the summer intern was not available since interns are at no cost to the agency at this time.

CHAPTER 165 (VETERANS), GENERAL STATUTES OF NORTH CAROLINA

ARTICLE 4. SCHOLARSHIPS FOR CHILDREN OF WAR VETERANS

Including 2001 Amendments

Prepared by

North Carolina Department of Administration

DIVISION OF VETERANS AFFAIRS

§165-19. Purpose. In appreciation for the service and sacrifices of North Carolina's war veterans and as evidence of this State's concern for their children, there is hereby continued a revised program of scholarships for said children as set forth in this Article.

§165-20. Definitions. As used in this Article the terms defined in this section shall have the following meaning:

(1) **"Active federal service"** means full-time duty in the armed forces other than active duty for training; however, if disability or death occurs while on active duty for training (i) as a direct result of armed conflict or (ii) while engaged in extra-hazardous service, including such service under conditions simulating war, such active duty for training shall be considered as active federal service.

(2) **"Armed forces"** means the army, navy, marine corps, air force and coast guard, including their reserve components.

(3) **"Child"** means a person: (i) under age 26 years of age at the time of application for such scholarship, ~~(i)~~ (ii) who is a domiciliary of North Carolina and is a resident of North Carolina when applying for a scholarship, and ~~(ii)~~ (iii) ~~who is a senior in high school or its equivalent and who will graduate at the end of the academic year or a person~~ who has completed

high school or its equivalent, prior to receipt of a scholarship as maybe awarded under this article, and ~~(iii)~~ (iv) who has complied with the requirements of the Selective Service System, if applicable, and ~~(iv)~~ (v) who further meets one of the following requirements:

a. A person whose veteran parent was a legal resident of North Carolina at the time of said veteran's entrance into that period of service in the armed forces during which eligibility is established under G.S. 165-22.

b. A veteran's child who was born in North Carolina and has ~~lived in~~ been a resident of North Carolina continuously since birth. ~~Provided, that the requirement in the preceding sentence as to birth in North Carolina may be waived by the Department of Administration if it is shown to the satisfaction of the Department that the child's mother was a native-born resident of North Carolina and was such resident at the time of her marriage to the veteran and was outside the State temporarily at the time of the child's birth, following which the child was returned to North Carolina within a reasonable period of time where said child has since lived continuously.~~

c. A person meeting either of the requirements set forth in subdivision (3) a or b above, and who was legally adopted by the veteran prior to said person's reaching the age of fifteen years.

(4) **"Period of war"** and **"wartime"** shall mean any of the periods of circumstances as defined below:

a. World War I, meaning (i) the period beginning on April 6, 1917, and ending on November 11, 1918, and (ii) in the case of a veteran who served with the United States armed forces in Russia, the period beginning on April 6, 1917, and ending on April 1, 1920.

b. World War II, meaning the period beginning on December 7, 1941, and ending on December 31, 1946.

c. Korean Conflict, meaning the period beginning on June 27, 1950, and ending on January 31, 1955.

d. Vietnam era, meaning the period beginning on August 5, 1964, and ending on May 7, 1975.

d1. Persian Gulf War, meaning the period beginning on August 2, 1990, and ending on the date prescribed by Presidential proclamation or concurrent resolution of the United States Congress.

e. Any period of service in the armed forces during which the veteran parent of an applicant for a scholarship under this Article suffered death or disability (i) as a direct result of armed conflict or (ii) while engaged in extra-hazardous service, including such service under conditions simulating war.

(5) **"Private educational institution"** means any junior college, senior college or university which is operated and governed by private interests not under the control of the federal, State or any local government, which is located within the State of North Carolina, which does not operate for profit, whose curriculum is primarily directed toward the awarding of associate, baccalaureate or graduate degrees, which agrees to the applicable administration and funding provisions of §165-22.1, of this Article, and which is otherwise approved by the Department of Administration.

(6) **"State educational institution"** means any educational institution of higher learning which is owned and operated by the State of North Carolina, or any community college operated under the provisions of Chapter 115A and Article 3 of Chapter 116 of the General Statutes of North Carolina, or the college program of the North Carolina School of the Arts, or any technical institute operated under the provisions of Chapter 115A of the General Statutes of North Carolina.

(7) **"Veteran"** means a person who served as a member of the armed forces of the United States in active federal service during a period of war and who was separated from the armed forces under conditions other than dishonorable. A person who was separated from the armed forces under conditions other than dishonorable and whose death or disability was incurred (i) as a direct result of armed conflict or (ii) while engaged in extra-hazardous service, including such service under conditions simulating war, shall also be deemed a "veteran" and such death or disability shall be considered wartime service-connected.

§165-21. Scholarship.

~~(a)~~A scholarship granted pursuant to this Article shall consist of the following benefits in either a State or private educational institution:

(1) With respect to State educational institutions, unless expressly limited elsewhere in this Article, a scholarship shall consist of:

(a) Tuition,
(b) A room allowance,
(c) A board allowance,
(d) Matriculation and other institutional fees required to be paid as a condition to remaining in said institution and pursuing the course of study selected, excluded charges or fees for books, supplies, tools and clothing.

(2) With respect to private educational institutions, a scholarship shall consist of a monetary allowance as prescribed in G.S. 165-22.1(d).

(3) Only one scholarship may be granted pursuant to this Article with respect to each child and it shall not extend for a longer period than four academic years, which years, however, need not be consecutive.

(4) No educational assistance shall be afforded a child under this Article after the end of a ~~10~~eight (8)-year period beginning on the date the scholarship is first awarded. Those persons who have been granted a scholarship under this Article prior to the effective date of this act shall be entitled to the remainder of their period of scholarship eligibility if used prior to August 1, ~~1999~~2010. Whenever a child is enrolled in an educational institution and the period of entitlement ends while enrolled in a term, quarter or semester, such period shall be extended to the end of such term, quarter or semester, but not beyond the entitlement limitation of four academic years.

~~(b)If a child is awarded a scholarship under this Article and the child is a senior in high school or its equivalent, then the scholarship shall be awarded pending the graduation of the child.~~

§165-22. Classes or Categories of Eligibility Under Which Scholarships May be Awarded. A child, as defined in this Article, who falls within the provisions of any eligibility class described below shall, upon proper application be considered for a scholarship, subject to the provisions and limitations set forth for the class under which he is considered:

(1) **Class I-A:** Under this Class a scholarship shall be awarded to any child whose veteran parent

a. Was killed in action or died from wounds or other causes not due to his own wilful misconduct while a member of the armed forces during a period of war, or

b. Has died of service-connected injuries, wounds, illness or other causes incurred or aggravated during wartime service in the armed forces, as rated by the United States Department of Veterans Affairs.

(2) **Class I-B:** Under this class a limited scholarship providing only those benefits set forth in G.S. 165-21(1) (a) and (d) and G.S. 165-21(2) of this Article, shall be awarded to any child whose veteran parent, at the time of the benefits pursuant to this Article are sought to be availed of, is or was at the time of his death receiving compensation for a wartime service-connected

disability of one hundred percent (100%) as rated by the United States Department of Veterans Affairs. Provided, that if the veteran parent of a recipient under this class should die of his wartime service-connected condition before the recipient shall have utilized all of his scholarship eligibility time, then the North Carolina Department of Administration shall amend the recipient's award from Class I-B to Class I-A for the remainder of the recipient's eligibility time.

The effective date of such an amended award shall be determined by the Department of Administration, but, in no event, shall it predate the date of the veteran parent's death.

(3) **Class II:** Under this class a scholarship may be awarded to not more than 100 children yearly, each of whose veteran parent, at the time the benefits pursuant to this Article are sought to be availed of,

a. Is or was at the time of his death receiving compensation for a wartime service-connected disability of twenty percent (20%) or more, but less than one hundred percent (100%), as rated by the United States Department of Veterans Affairs.

~~b. Is or was at the time of his death receiving wartime compensation for a statutory award for arrested pulmonary tuberculosis, as rated by the United States Department of Veterans Affairs.~~ b. Was awarded the Purple Heart for wounds received as result of an act of any opposing armed force, as a result of an international terrorist attack or as a result of military operations while serving as part of a peacekeeping force.

(4) **Class III:** Under this class a scholarship may be awarded to not more than 100 children yearly, each of whose veteran parent, ~~at the time the benefits pursuant to this Article are sought to be availed of,~~served in the U S Armed Forces during a period of war, as specified by GS 165-20(4) of this article, and who doers not fall within the provisions of any other eligibility class described in G.S. 165-22(1), (2), (3), nor (5)

~~a. Is or was at the time of his death drawing pension for permanent and total disability, nonservice-connected, as rated by the United States Department of Veterans Affairs.~~

~~b. Is deceased and who does not fall within the provisions of any other eligibility class described in G.S. 165-22(1), (2), (3), (4)a., nor (5) provided such child is less than 23 years of age at the time of application for such scholarship~~.

(5) **Class IV:** Under this class a scholarship as defined in G.S. 165-21 shall be awarded to any child whose parent, while serving honorably as a member of the armed forces of the United States in active federal service during a period of war, as defined in G.S. 165-20(4), was listed by the United States Government as (i) missing in action, (ii) captured in line of duty by a hostile force, or (iii) forcibly detained or interned in line of duty by a foreign government or power.

§165-22.1. Administrative and funding. --(a) The administration of the scholarship program shall be vested in the Department of Administration, and the disbursing and accounting activities required shall be a responsibility of the Department of Administration. The Veterans Affairs Commission shall determine the eligibility of applicants, select the scholarship recipients, establish the effective date of scholarships, and may suspend or revoke scholarships if the said Veterans Affairs Commission finds that the recipient does not comply with the registration requirements of the Selective Service System or does not maintain an adequate academic status, or if the recipient engages in riots, unlawful demonstrations, the seizure of educational buildings, or otherwise engages in disorderly conduct, breaches of the peace or unlawful assemblies. The Department of Administration shall maintain the primary and necessary records, and the Veterans Affairs Commission shall promulgate such rules and regulations not inconsistent with the other provisions of this Article as it deems necessary for the orderly administration of the program. It may require of State or private educational institutions, as defined in this Article, such reports and other information as it may need to carry out the provisions of this Article. The Department of Administration shall disburse scholarship payments for recipients certified eligible by the Department of Administration upon certification of enrollment by the enrolling institution.

(b) Funds for the support of this program shall be appropriated to the Department of Administration as a reserve for payment of the allocable costs for room, board, tuition and other

charges, and shall be placed in a separate budget code from which disbursements shall be made. In the event the said appropriation for any year is insufficient to pay the full amounts allocable under the provisions of this Article, such supplemental sums as may be necessary shall be allocated from the Contingency and Emergency Fund. The method of disbursing and accounting for funds allocated for payments under the provisions of this section shall be in accordance with those standards and procedures prescribed by the Director of the Budget, pursuant to the Executive Budget Act.

(c) Allowances for room and board in State educational institutions shall be at such rate as the Director of the Budget may determine to be reasonable.

(d) Scholarship recipients electing to attend a private educational institution shall be granted a monetary allowance for each term or other academic period attended under their respective scholarship awards. All recipients under Class I-B scholarship shall receive an allowance at one rate, irrespective of course or institution; all recipients under Class I-A, II, III and IV shall receive a uniform allowance at a rate higher than for Class I-B, irrespective of course or institution. The amount of said allowances shall be determined by the Director of the Budget and made known prior to the beginning of each fall quarter or semester; provided that the Director of the Budget may change the allowances at intermediate periods when in his judgment such changes are necessary. Disbursements by the State shall be to the private institution concerned, for credit to the account of each recipient attending said institution. The manner of payment to any private institution shall be as prescribed by the Department of Administration. The participation by any private institution in the program shall be subject to the applicable provisions of this Article and to examination by State auditors of the accounts of scholarship recipients attending or having attended private institutions. The Veterans Affairs Commission may defer making an award or may suspend an award in any private institution, which does not comply with the provisions of this Article relating to said institutions.

(e) Irrespective of other provisions of this Article, the Veterans Affairs Commission may prescribe special procedures for adjusting the accounts of scholarship recipients who for reasons of illness, physical inability to attend class or for other valid reasons satisfactory to the Veterans

Affairs Commission may withdraw from State or private educational institutions prior to the completion of the term, semester, quarter or other academic period being attended at the time of withdrawal. Such procedures may include, but shall not be limited to, paying the recipient the dollar value of his unused entitlements for the academic period being attended, with a corresponding deduction of this period from his remaining scholarship eligibility time.

SPECIAL PROVISION REQUIRING AGENCIES TO USE MAIL SERVICE CENTER AS REQUESTED BY GENERAL GOVERNMENT SUBCOMMITTEE:

N.C.G.S. § 143-341(g) shall read as amended:

g. To establish and operate a ~~central mailing system~~ mail service center for all State agencies, and in connection therewith and in the discretion of the Secretary, ~~to make application for and procure a post-office substation for that purpose,~~ to require all State agencies to use the services thereof, and to do all things necessary in connection with the maintenance of the ~~central mailing system~~ mail service center. The Secretary may allocate and charge against the respective departments and agencies their proportionate parts of the cost of the maintenance of the ~~central mailing system~~ mail service center.

Position Justification
Department of Administration

Division/Section: Secretary's Office

Position Title: Chief Assistant To The Secretary (Public Information Officer)

Position Number: 4101-0100-0000-031

Budgeted Salary: $59,247

Fringes: $10,428.00 Total: $69,675

Date Position Vacated: 3-8-02

Justification for Retaining Position (Explain why existing staff cannot continue performing required duties):

The Public Information Officer (PIO) provides vital technical, journalistic and communications resources for DOA. The PIO assists divisions in planning cost-saving publications, including Internet publications, events and publicity, and counsels them on ways to best communicate effectively with the press, the public and other state agencies. This is particularly important given the varied functions and disciplines that are housed at DOA. The PIO functions as senior staff in the Secretary's Office with the primary responsibility for managing and directing the Department's public information and public

affairs component. The PIO acts as an advisor to the Secretary and the Executive Staff in all areas of communications.

Due to the recent departure of our PIO various staff members on an ad hoc basis are currently performing the duties of this position. This creates the potential for an inconsistent message and errors in communicating departmental policy. In particular, public record requests have increased significantly in number as well as in complexity. With the exception of the General Counsel, existing staff does not have the expertise to handle these sensitive matters. The PIO must exercise independent judgement to determine how to respond, advise DOA's staff, and determine when to seek legal guidance. This is also true for cases involving open meetings. The PIO functions as a professional communications liaison for DOA and must have current knowledge and experience I order to carry out these duties in a manner consistent with the Sunshine statutes.

The PIO must be available to communicate with and capable of communicating with the press, legislators, other agency officials and the public. This requires expertise in all areas of the Department's operations as well as and ability to refine the message being given to advantage of the Department, the Secretary and the administration. Given the number of divisions with vocal constituencies and the controversial nature of many of DOA's functions, it is imperative that the Department has an individual with a sophisticated skill set and time available to perform this function which is vital to the success of the Department.

Fringes: $10,606.00 Total: $71,257

Date Position Vacated: 3-24-02

Justification for Retaining Position (Explain why existing staff cannot continue performing required duties):

This position is vital to the operations of the Secretary's Office and all of DOA. Since the departure of our legislative liaison, two members of the Secretary's existing staff with significant other duties are now performing the duties of this position. This position requires an individual with sound understanding of policy issues important to the Department and with exceptional communication skills. The varied divisions and functions housed in DOA, require an individual with broad understanding of issues who can devote his or her time exclusively to policy research and communicating with the various division directors, the Executive Staff and the

Secretary concerning the impact of legislation. Absent a dedicated legislative liaison, DOA will be unable to monitor and analyze fast moving legislation as it progresses through the General Assembly. In addition, the Secretary and department will be unable to respond to inquiries from the members and staff of General Assembly in a timely fashion.

The Legislative Liaison has the day-to-day responsibility requiring monitoring and coordination for the activities of the General Assembly, in and out of session. This effort includes providing opportunities for departmental input in Legislative activities, coordinating the department's interest in Legislation before the General Assembly, making information available as needed to legislators, monitoring the impact of non-departmental legislation on the activities of the department, coordinating departmental responses to requests for information, and keeping the Secretary and other decision-makers aware of legislative activity and its impact on departmental operations, as well as working with State Budget. Without a dedicated liaison, many of these important opportunities will be missed.

Date Position Vacated: 2-1-02 (Never filled)

Justification for Retaining Position (Explain why existing staff cannot continue performing required duties):

This position was funded by SB 914 and is needed to provide legal and policy assistnace in drafting rules and implementing the statutrory requirements set forth in G.S. §§ 143-128.2, 128.3, 135.5 as they relate to minority business enterprises and the mission of the Office of Historically Underutilized Businesses (HUB). These provisions require the Secretary to draft rules estalishing points to be awarded for the public entity's good faith efforts at minority business participation and to adopt guidelines for local government units to implement provisions of G.S. § 143-128.2. The attorney will also provide assistance with the implementation of the minority

business participation goals requried by G.S. § 143-128.2 in that the attorney will be responsible for providing guidance to public entities in developing the minority participation outreach plans, assisting in the corrective actions required for those agencies that fail to comply with G.S. § 143-128.2, and for provindg legal advice required by the implementation of the point system. The attorney will also review cases referred by the HUB office compliance officer.

This position is vital to the successful implementation and coordination of the University bond program. There are no other individuals within the department who can dedicate the time to perform these sensitive duties mandated in SB 914. Hence, the directives under SB 914 may not receive the priority and attention clearly reuqired by the new legislation.

The General Counsel is the only other attorney available. He is supporting 25 other divisions, many of whom have significant administrative rules of their own in addition to requiring significant policy and legal advice on a myriad of issues. He also spends a significant amount of his time advising the Secretary on policy and legal issues. With over 600 public entities requiring support on compliance with SB 914, this position is essential. This position had been posted and the office was about to schedule interviews when instructed not to fill any vacancies.

Memorandum

To: McKinley Wooten, Deputy Secretary

From: S. Tony Jordan, Jr., Director

Subject: Impact of Position loss to Facility Management

During our tenure in Facility Management, we have worked hard to bring sound business practices to on going maintenance of the State Government Complex. This maintenance is performed by a tremendous group of women and men who care a great deal about their work and the government complex. The care of all these fine employees is demonstrated by the fact that most of our technical people could earn much more in the private sector.

It is obvious that all of our people are driven by pride they get in a sense of accomplishment in seeing the average cost per square foot of maintenance go down. This downward move of cost per square foot has been accomplished through a meticulous preventive maintenance program carried out by each of our employees.

Reduction of our workforce any further would be devastating, not only to morale, but would surely force a great rise in cost to keep the complex in good repair. Some would say that outsourcing is the answer. The answer does not lie in outsourcing with the pay of private technicians being twice as much as that of our employees.

Finally, by further reducing our positions we will experience a steady decline in the repair of all our buildings and grounds. With this decline, will come a depreciation of the value of all our property that will cost far more dollars to restore than what will be spent in keeping our positions.

Position Title: Plant Maintenance Supervisor I

Position Number: 4151-0303-0008-101

Budgeted Salary: $44890

Fringes: $8611.15

Date Position Vacated: 8/31/01

Justification for Retaining Position (Explain why existing staff cannot continue performing required duties):

This position has been left vacant due to budget short fall in this fiscal year. The budgeted salary and benefit monies have helped meet the financial short fall for DOA. This in no way should be interpreted to mean that this position or others is not essential to the operation of Facility Management. This position is very important to maintaining the State Government Complex. This position manages, coordinates and directs the work of the Carpenter Shop. The Facility Management Division supports 150 buildings with approximately 5,000,000 square feet of space along with 26 architecturally and histroically significant buildings. These sites require skill and expertise. Organization and scheduling is imperative in order to stay current with work orders.

Preventive maintenance scheduling is of utmost importance to decrease State government spending. It is imperative that this position be filled as soon as possible. Note, a recommendation was made for this position 4/17/02.

Justification for Retaining Position (Explain why existing staff cannot continue performing required duties):

This agency has a legislative mandate to develop an Abuser Treatment Program and in order to meet this mandate funds for a full-time position were allocated by the General Assembly. Over the past three years, the agency has been involved in a rule making process through the Administrative Hearings Office. In order to complete the process and put permanent rules into place that govern the approval of programs, the Joint Legislative Administrative Procedures Committee will introduce legislation granting rule-making

authority to the agency. Following passage, the rule making process will start over and must be closely shepherded by dedicated staff through public hearings, consideration by the Rules Review Commission, and design and implementation of a program. The traditional tasks associated with this position, including ushering through the legislative and administrative approval process, reviewing new program applications, and maintaining communications with the courts, providers, and other interested parties, are currently being shared by the Executive Director and the Grants Administrator. Taking on all of the duties of the Abuser Treatment Coordinator has made it increasingly more difficult for the Exec. Director and Grants Administrator to fulfill their own duties; i.e.- Exec. Dir. supervising a staff of 16 (presently), carrying out the duties of the Domestic Violence Commission and mission of the Council for Women since the agency's recent consolidation; and Grants Administrator administering approximately 165 grants statewide and over $6million in grant funds. In addition, with three other program positions slated for possible elimination due to the budget crisis, the loss of this position may prevent the agency from fulfilling the legislative mandate attached to the position.

Justification for Retaining Position (Explain why existing staff cannot continue performing required duties)

The Police Officer I is responsible for the enforcement of Federal, State, and Local laws applicable to areas of jurisdiction. This position provides security and protection of State property, conducts preliminary investigations of all complaints and provides information and assistance to visitors and state employees. Without this position we can not retain the level of security needed since 9/11/01. It is necessary to fill this position as quickly as possible due to current manpower needs. It is imperative that this position be filled to protect against inadequate staffing problems and to protect lives and state property. The loss of this position from the workforce at this time would grossly hinder the operation, the law enforcement services delivered, and the mission of the division.

SUBJECT: Justification for filling vacancies in Design Review Section
POSITION # 6030 – Building Systems Engineer II (Lic)
Mechanical Review Engineer

The Design Review Section has 12 review positions with 3 licensed professionals in 4 disciplines. Historically the section has averaged a maximum 9-11 positions filled due to consistent "turnover". This was barely sufficient to keep up with capital project demands with a steady inflow and caused critical backlogs when project inflow would increase due to appropriations and construction "seasons".

When the 2000 Education Bond passed, $3,200,000,000 dollars of bond funds were made available to the universities and community colleges until 2006. The 16 universities and 59 community colleges represent two-thirds of our review "customers". The bond program initially represented approximately 330 university projects that have typically broken into 2 or more parts or phases. This represents 600-1000 major projects from the universities alone. Only around 80 projects have completed reviews through 2001. Community colleges started planning and design later but will likely have 60-100 projects. DENR-State Parks uses "deed tax stamp" as capital funds and CCPS National Guard has Federal funding of their projects so much of their work continues to flow. Our workload has not decreased due to the recession and there is actually a desire to *speed up* the process to take advantage of the *reduced* construction costs in the current recession. There has been an increased demand upon us from <u>all</u> public entities for information, interpretation, advice and forms on all statutory changes in the construction thresholds, life cycle costing, bidding methods, contracting options, minority participation, energy conservation and sustainability in the design and construction environment since SB 914 and other statutes became effective.

The consistent question of universities and legislators was, "Can SCO staff appropriately meet the demand for statutory required capital projects review and approval of all State owned buildings and community college buildings?" To satisfy this demand, we worked diligently through 2001 to fill out the staff positions and train them. Since October, the Review Section lost all 3 Mechanical Engineers, 2 to NCSU, due partly to failure to fund a promised salary adjustment, impending workload and better opportunities for pay and advancement elsewhere. This has left a critical gap in the review process and our ability to meet our statutory obligations. We have made offers to several excellent applicants who wanted to work with SCO but not at the salary offered. It is critical to our operation that we receive approval to extend an offer to the recommended applicant.

This position has been posted four times since October 2001. Salary offers were made to two applicants. Both declined due to the low salary offer. One of these applicants was even unemployed and still declined due to the salary offer. One very qualified applicant was offered an interview but declined because he had received a job offer from a private firm that was able to pay him at least $20,000 more than what we would have been able to offer him. We realize that our recommended applicant for this position this time, Mr. Baden, does not have the experience in building systems that would be ideal for an applicant. However, he does have a degree in Mechanical Engineering, his Professional

Engineering License and several years of engineering experience in the private sector that we feel is applicable and could prove as useful to the office. After discussing the duties and responsibilities of this position with Mr. Baden's former supervisor, he stated that this position sounded like it would be a perfect fit for Mr. Baden. He is said to be a very technically competent mechanical engineer with a great aptitude for plan review and attention to detail. Most importantly, Mr. Baden showed a great interest in the position and office. He appeared very friendly and customer oriented. These attributes prove to be very important when filling vacancies in the SCO.

Any reduction in the capacity of SCO to meet its obligation would not be a "sacrifice" to SCO but to the customers we serve. We will not be able to meet our statutory responsibility, which will cause delays and impact the bond projects.

SUBJCET: JUSTIFICATION TO FILL VACANT BUILDING SYSTEMS ENGINEER II (POSITION # 3047) IN CONSTRUCTION ADMIN. SECTION

The Construction Administration Section is staffed with 9 project monitor positions to accomplish the requirements mandated by G.S. 143-341(3)d during construction phase of capital improvements projects. At present, there are 299 projects under construction throughout the State. These projects are painstakingly divided between Project Monitors in nine (9) different areas of State (See the attached map). The magnitude of this office involvement during construction phase of projects and the complexity of these projects make it very difficult to assign too many projects to a project monitor.

Effective March 1, 2002, this section lost a position as a result of Vernon Boykin's retirement. Consequently, the workload of other project monitors increased, whereby making it physically impossible to effectively cover all projects under construction. Based on the volume of projects that is anticipated to be under construction phase in the next few months, it is certain that eight (8) project monitors currently on staff will not be adequate to effectively handle this huge workload increase throughout the State.

It is important to mention that project monitors are required to visit job sites at least once in a month to attend construction meetings, review work in progress, and resolve any construction issues. The project monitors are also responsible for review and approval of change orders, beneficial occupancy and final inspections. acceptance of project, and approval of final report and as-built drawings.

The position referenced above will be responsible for monitoring projects at NCSU, NCCU, NCSSM, Butner, and Kerr Lake area. There are more than 40 projects under construction in this area; and majority of these projects belongs to the University system.

In order to fulfill statutory requirements as mandated by G.S. 143-341(3)d during construction phase of all capital improvement projects under the jurisdiction of State Construction Office, it is absolutely necessary that this vacant position be filled immediately.

MEMORANDUM

TO: Speros J. Fleggas

FROM: Sidney Stone

SUBJECT: Justification for filling vacancy in the Contract Administration Section
POSITION # 6165 – Building Systems Engineer II

The purpose of this memorandum is to request your assistance with filling at least one vacant position in the Contract Administration Section of the State Construction Office. The Contract Administration Section currently consists of 5 professional staff dedicated to the review, negotiation and execution of design and construction contracts, designer interviews, review of contracts for MBE requirements and designer/contractor evaluations. These duties are mandated by G.S. 143-341. At present 3 of these 5 positions are vacant. Currently there are 1,331 projects being administered by the SCO in some phase of construction throughout the State.

The management of all these duties is painstakingly divided between myself and only one other probationary employee. Since I became Acting Assistant Director, I have had to continue with the responsibilities of my former position along with the new responsibilities of managing this section. I am the only person who is familiar with negotiating and processing design contracts. Another staff member for the section is desperately needed to assist in consulting with CPC's, designers and contractors for the successful completion of Capital Improvement Projects in the most efficient and effective manner.

When the 2000 Education Bond passed, $3,200,000,000 dollars of bond funds were made available to the universities and community colleges until 2006. The 16 universities and 59 community colleges represent two-thirds of our "customers". The bond program initially represented approximately 330 university projects that have typically broken into 2 or more parts or phases. This represents 600-1000 major projects from the universities alone. Approximately only 80 projects were submitted to the SCO through 2001. Community colleges started planning and design later but will likely have 60-100 projects. Our workload has not decreased due to the recession and there is actually a desire to *speed up* the process to take advantage of the *reduced* construction costs in the current recession. It is impossible to keep up with the demand with our Section's current staff situation. In fact, I regret to say that we have received inquiries as to the status of a few projects lately.

With the passage of SB 914 at the end of the last Legislative Session, there has been an increased demand upon us from all public entities for information, interpretation, advice and forms on all statutory changes in the construction thresholds, life cycle costing, bidding methods, contracting options, minority participation, energy conservation and sustainability in the design and construction environment.

In addition, another position would allow us to cross-train and enable everyone to be proficient with all aspects of this section. In order to fulfill statutory requirements throughout the entire Capital Improvement Process, under the jurisdiction of State Construction Office, it is critical that this vacant position be filled immediately.

Thank you for your assistance in this matter.

$45,118 (Total)

Date Position Vacated: Newly established position. Candidate selected for position declined offer. Position was re-advertised on April 30, 2002 and closes May 6, 2002.

Justification for Retaining Position (Explain why existing staff cannot continue performing required duties):

This position was appropriated by the General Assembly in the 2001-02 legislative session. Currently, the HUB Office has one (1) HUB Certification position. However, with the enactment of SB914, another category, Disadvantage Business Enterprise (DBE) was added to the minority category under the public contracting law – GS143-128.2. This category requires that firms seeking certification under this category meet socially and economically disadvantaged standards as outlined by the federal government's guidelines.

In addition, because of the enactment of SB914 and the $3.1 Billion Higher Education Bond Program, our office anticipates an increase in minority contractors that will seek to bid on construction projects with the State of North Carolina. Therefore, we anticipate a significant increase of minority businesses seeking to become certified as minority / women owned firms with the State of North Carolina. Also, in order to increase the number of minority contractors that bid on state construction projects and to increase the utilization of these firms, outreach efforts will be needed to inform them of contracting opportunities with the State, the bidding process and to encourage them to bid on State projects.

The HUB Office is also responsible for developing a web based minority contractor's database. The current HUB Certification Officer will serve on the team to help with development of this contractor's database; therefore this additional HUB Certification position will provide continuity in the certification duties. Once, this database is developed this new position will be responsible for augmenting the current position in encouraging minority construction firms to certify in the State's new contractor's database.

The HUB Office is not adequately staffed to handle the increase of certification requests and outreach efforts to minority and women owned firms. The existing current staff of one (1) HUB Certification Officer is not sufficient to certify these firms in a timely, efficient and effective manner.

Position Number: 4101-0000-0000-139

Fringes: $8,100
$51,155 (Total)

Date Position Vacated: Newly established position. Position classification approved by OSP, Budget Authorization approved by OSBM and position set-up and established by DOA Human Resource Division. Currently, in Secretary's Office awaiting approval for advertisement.

Justification for Retaining Position (Explain why existing staff cannot continue performing required duties):

This position was appropriated by the General Assembly in the 2001-02 legislative session. Currently, the HUB Office has one (1) HUB Compliance position. However, with the enactment of SB914, the number of public entities that are mandated to adhere to the minority provisions of the public contracting law, GS143-128 has increased over 200%; approximately 600 plus entities. Prior to SB914 and under Executive Order 150 signed by former Governor Jim Hunt in 1999, approximately 225 state reporting entities report HUB expenditures to the Department of Administration / HUB Office. These state reporting entities include the state agencies, community colleges, state universities and public schools. The state agencies were required to report on formally bid construction projects. However, SB914 now requires reporting of public entities, which in addition to these state entities also include local units of government, towns and municipalities.

We anticipate over 600 reporting entities to report to the HUB Office on their minority business contracting dollars. Public entities are now required to report to the HUB Office on their informally bid projects, which include projects from $5,000 to $300,000. The HUB Office and Secretary of the Department of Administration are tasked with monitoring compliance of state agencies and public entities with this legislation. The current staff of one (1) HUB Compliance Officer is not sufficient to handle this increase of responsibilities and duties. The current HUB Compliance position has been tasked with helping develop the internal process, procedures and implementation of this legislation. With this increase in duties and responsibilities as a result of SB914, the current HUB Compliance Officer will not be able to review, monitor and determine compliance of these 600 plus state agencies and public entities.

Position Title: Statistician II

Position Number: 4101-0000-0000-XXX

Budget Salary: $34,452

Fringes: $7,067
$41,519 (Total)

Date Position Vacated: Currently working with DOA Human Resource department to establish position.

Justification for Retaining Position (Explain why existing staff cannot continue performing required duties):

This position was appropriated by the General Assembly in the 2001-02 legislative session. Currently, the HUB Office does not have any statistician positions. With the enactment of SB914, the number of public entities that are mandated to adhere to the minority provisions of the public contracting law, GS143-128 has increased over 200%; approximately 600 plus entities. Prior to SB914 and under Executive Order 150 signed by former Governor Jim Hunt in 1999, approximately 225 state reporting entities report HUB expenditures to the Department of Administration / HUB Office. The state reporting entities include the state agencies, community colleges, state universities and public schools. The state agencies were required to report on formally bid construction projects. However, SB914 now requires reporting of "public entities", which in addition to these state entities also include local units of government, towns and municipalities.

This statistician position is needed to compile and analyze the report data submitted by the public entities. SB914 requires the community college system and universities to submit quarterly reports and the remaining public entities to submit semi-annual reports. This position will work in concert with the HUB Compliance Officer to generate the HUB Reports that are due to the Secretary's Office, Governor's Office and General Assembly.

In addition, the General Assembly appropriated funds for the HUB Office to develop a web based HUB reporting system. This position will work with the Information Technology team to provide insight and input in developing this reporting system.

Currently, the HUB Office does not have the staff resources to handle and maintain this new and increased scope of work, duties and responsibilities.

Position Title: PURCHASING STANDARDS ENGINEER

Position Number: 6513

Budgeted Salary: $50,212

Fringes: $9,284.82

Date Position Vacated: 09/30/01

Justification for Retaining Position (Explain why existing staff cannot continue performing required duties):

In the fourth quarter of 2001 the Standards engineering section was depleted by the retirement of (2) two long-term experienced engineers (A reduction of 40 % in manpower resources). This position is to replace only one of these engineers.

The workload includes the maintenance of approximately 130 term contract specifications and 80 qualified products lists. To-days products are more complicated. Typically, new materials need closer evaluation (environmental issues), and recyclable content needs more detailed analyses and research.

In addition we are required to support the open market day to day IFB's and the E-procurement initiative.

With the E-procurement project more responsibility is being transferred from the contractor to the State, this is currently having a high impact on our available manpower resources.

A major reduction in these resources would lead to, out of date specifications, inaccurate definitions, errors in developing or revising specifications and Qualified Products Lists may result in non-competitive bidding, unacceptable quality levels, bid protests, litigation, dissatisfaction of state agencies and bidders, and unacceptable price levels, all of which ultimately cost taxpayers' dollars and embarrassment to the Division, Department and Administration.

If this position is not filled the work would need to be prioritized with the realization that some projects or schedules would have to be slipped or cancelled.

Position Title: COMPUTING CONSULTANT I

Position Number: 6894

Budgeted Salary: $31,940

Fringes: $6,973.41

Date Position Vacated: 07/01/01

Justification for Retaining Position (Explain why existing staff cannot continue performing required duties):

This position was approved for a reclassification review, and officially reclassified as a technical position but never filled due to hiring freezes. Position is in the Operations Section and is essential to maintaining excellent Web sites for the Division of Purchase and Contract, State and Federal Surplus Property. There are increasing requirements for web based solutions to activities of these entities. State and Federal Surplus Property do not have a qualified webmaster to assist in their web presence and this new position will fill this void. E-Procurement initiatives are taking precedence in the Division of Purchase and Contract so other web based initiatives have been placed on hold. Some of these initiatives include electronic responses to surveys for term contracts, redesign of web pages to follow the format of the state portal and keeping abreast of new developments in web management. We do not have expertise in JavaScript and dhtml language capability. Not filling this position would curtail our ability to provide more efficient electronic purchasing functions for our customers. Our web pages must be useful, easy to use, interactive, appealing and dynamic. We use web publishing for procedures, administrative codes etc. for state agencies statewide. Highly developed computer and Internet skills are necessary in order to stay current with frequently changing improvements and to conduct research into new software. All of these programs promote sustainability and reduce expenditures by the state in mailing and duplicating costs.

Also, this position will work closely with two other positions that support numerous internal and external applications such as the E-Procurement, Interactive Purchasing System, Vendor Link NC and web site maintenance. We continue to be more technically focused as we support the Division in its dynamic role as a central materials management office. Not filling this position will create delays in moving the three entities ahead in the area of Electronic Commerce.

Date Position Vacated: January 22, 2002

Justification for Retaining Position (Explain why existing staff cannot continue performing required duties):

This position is one of six real property agents handling transactions in the General Real Estate Section. The current workload in this section consists of 418 active acquisition/disposition transactions plus numerous miscellaneous projects such as boundary line disputes, access issues, zoning petitions, municipal assessments, submerged land management issues, etc. In addition to current active projects, this section continues to receive new transactions each month. An agent can be expected to handle about 40 transactions per year in addition to the miscellaneous projects. As a result, we are not meeting the demand for our real estate services with the existing positions. There is a substantial backlog of transactions and miscellaneous projects that is growing rather than decreasing. If this position is not filled, we will not be able to handle land transactions associated with the University bond issue, Clean Water Management Trust Fund, Natural Heritage Trust Fund, State Parks Trust Fund, federal grants, etc. We expect these funding sources to continue at some level, even though direct appropriations for land acquisition may be curtailed.

Impact on NCAS Users:

(1) Financial Activity will be delayed for one business day:

(a) This includes checks (both electronic and paper), federal reimbursements, current budget balances specifically for budget transfers or expenditures generated from external systems being interfaced into NCAS.

(b) New accounting distributions required by E-Procurement from NCAS would be delayed by one business day.

Other pertinent information:

(1) NCAS Transaction volume is approximately 15% less on Fridays.

(2) Payments to vendors from bond receipts are paid on Fridays resulting from Thursday processing, so there is no impact.

(3) Federal drawdowns required daily, however adjustments can be made, based on published dates above, to accommodate changes.

(4) Funds checking for purchasing and accounts payable type transactions are achieved automatically and are not affected by the NCAS posting process .

COST OF ENHANCEMENTS TO OAH WEB SITE

In our budget presentation, OAH identified one option of cost savings by eliminating the free copies of the N.C. Register. The NC Register is currently being put on the OAH Web Site in a text form. OAH began this in August 2000 and we maintain six months of issues on the Site. OAH is proposing eliminating the free copies of the Register (as required by G.B. 150B) and referring these recipients to the Web Site. This will require no enhancements to our Web Site. Recipients can access the Register and print it if desired.

However; the long range goal of OAH has been to eliminate all printing of the Register and having a Rules Tracking System on our Web Site. This system would have search capabilities and enhancements that would let the public know where a proposed rule is in the rulemaking process. This would require enhancements to the Web Site as well as the development of a Rules Tracking System. In 2000, OAH and the General Assembly ITS Division worked with the State Information Technology Service (ITS) to perform a systems analysis for developing this system. Their proposal was cost prohibitive. We are currently talking to representatives of the State of Virginia rules system and they are developing a proposal for adapting the Virginia system for use by North Carolina. They have told us they would have a cost proposal to us by May 15. The funding needs for this project would probably be addressed in the 2003-05 budgetary process.

BILL DRAFT 2001-ROz-11 [v.5] (04/23)

(THIS IS A DRAFT AND IS NOT READY FOR INTRODUCTION)
4/30/2002 10:14:32 AM

Short Title: Conforming APA Amendments. (Public)

Sponsors: Representative.

Referred to:

A BILL TO BE ENTITLED

AN ACT TO IMPLEMENT RECOMMENDATIONS OF THE JOINT LEGISLATIVE ADMINISTRATIVE PROCEDURE OVERSIGHT COMMITTEE TO ALLOW THE OFFICE OF ADMINISTRATIVE HEARINGS TO USE THE INTERNET FOR AGENCY PUBLICATIONS AND TO CONFORM THE APA TO PROVISIONS OF CHAPTER 12 RELATING TO RULES WHICH ESTABLISH OR INCREASE FEES.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 150B-21.24 reads as rewritten:

§ 150B-21.24. ~~Free copies of~~ Access to Register and Code.

(a) Register. – The Codifier of Rules must ~~distribute copies of the North Carolina Register as soon after publication as practical, without charge, to the following:~~

~~(1) A person who receives a free copy of the North Carolina Administrative Code.~~

~~(2) Upon request, one copy to each member of the General Assembly.~~ make available the North Carolina Register on the internet at no charge. The Codifier must provide a free copy of the current volume of the Register to any person who receives a free copy of the North Carolina Administrative Code or any member of the General Assembly, only upon request.

(b) Code. – The Codifier of Rules must make available the North Carolina Administrative Code on the internet at no charge. The Codifier must distribute copies of the North Carolina Administrative Code as soon after publication as practical, without charge, to the following:

(1) One copy to the board of commissioners of each ~~county.~~ county that specifically requests a printed copy, to be placed at the county clerk of court's office or at another place selected by the board of

commissioners. The Codifier of Rules is not required to provide a copy of the Administrative Code to any board of county commissioners unless a request is made.

(2) One copy to the Commission.

(3) One copy to the Clerk of the Supreme Court and to the Clerk of the Court of Appeals of North Carolina.

(4) One copy to the Supreme Court Library and one copy to the library of the Court of Appeals.

(5) One copy to the Administrative Office of the Courts.

(6) One copy to the Governor.

(7) ~~Five copies~~ One copy to the Legislative Services Commission for the use of the General Assembly.

~~(8) Upon request, one copy to each State official or department to whom or to which copies of the appellate division reports are furnished under G.S. 7A-343.1.~~

(9) ~~Five copies~~ One copy to the Division of State Library of the Department of Cultural Resources pursuant to G.S. 125-11.7."

SECTION 2. G.S. 150B-21.1(a) reads as rewritten:

"(a) Adoption. – An agency may adopt a temporary rule without prior notice or hearing or upon any abbreviated notice or hearing the agency finds practical when it finds that adherence to the notice and hearing requirements of this Part would be contrary to the public interest and that the immediate adoption of the rule is required by one or more of the following:

(1) A serious and unforeseen threat to the public health, safety, or welfare.

(2) The effective date of a recent act of the General Assembly or the United States Congress.

(3) A recent change in federal or State budgetary policy.

(4) A federal regulation.

(5) A court order.

(6) The need for the rule to become effective the same date as the State Medical Facilities Plan approved by the Governor, if the rule addresses a matter included in the State Medical Facilities Plan.

An agency must prepare a written statement of its findings of need for a temporary rule. If the temporary rule establishes a new fee or increases an existing fee, the agency shall include in the written statement that it has complied with the requirements of G.S. 12-3.1. The statement must be signed by the head of the agency adopting the rule."

SECTION 3. G.S. 150B-21.1(b) reads as rewritten:

"(b) Review. – When an agency adopts a temporary rule it must submit the rule and the agency's written statement of its findings of the need for the rule to the Codifier of Rules. Within one business day after an agency submits a temporary rule, the Codifier of Rules must review the agency's written statement of findings of need for the rule to determine whether the statement of need meets the criteria listed in subsection (a) or (a1) of this section. In reviewing the statement, the Codifier of Rules may consider any information submitted by the agency or another person. If the Codifier of

Rules finds that the statement meets the criteria, the Codifier of Rules must notify the head of the agency and enter the rule in the North Carolina Administrative Code.

If the Codifier of Rules finds that the statement does not meet the criteria, the Codifier of Rules must immediately notify the head of the agency. The agency may supplement its statement of need with additional findings or submit a new statement. If the agency provides additional findings or submits a new statement, the Codifier of Rules must review the additional findings or new statement within one business day after the agency submits the additional findings or new statement. If the Codifier of Rules again finds that the statement does not meet the criteria listed in subsection (a) or (a1) of this section, the Codifier of Rules must immediately notify the head of the agency.

If an agency decides not to provide additional findings or submit a new statement when notified by the Codifier of Rules that the agency's findings of need for a rule do not meet the required criteria, the agency must notify the Codifier of Rules of its decision. The Codifier of Rules must then enter the rule in the North Carolina Administrative Code on the sixth business day after receiving notice of the agency's decision. Notwithstanding any other provision of this subsection, if the agency has not complied with the provisions of G.S. 12-3.1, the Codifier of Rules shall not enter the rule into the Code. "

SECTION 4. G.S. 150B-21.19 reads as rewritten:

§ 150B-21.19. Requirements for including rule in Code.

To be acceptable for inclusion in the North Carolina Administrative Code, a rule must:

(1) Cite the law under which the rule is adopted.

(2) Be signed by the head of the agency or the rule-making coordinator for the agency that adopted the rule.

(3) Be in the physical form specified by the Codifier of Rules.

(4) Have been approved by the Commission, if the rule is a permanent rule

(5) Have complied with the provisions of G.S. 12-3.1, if the rule establishes a new fee or increases an existing fee."

SECTION 5. G.S. 150B-21.3 is amended by adding a new subsection to read:

"(c1) Fees. – Notwithstanding any other provision of this section, a rule that establishes a new fee or increases an existing fee shall not become effective until the agency has complied with the requirements of G.S. 12-3.1."

SECTION 6. This act is effective when it becomes law.

Justification for Retaining Position (Explain why existing staff cannot continue performing required duties):
In the potential budget cuts identified for f.y. 2002-03, OAH has targeted all vacant positions except for this one. These reductions include the Administrative Assistant to the Director. By keeping this Paralegal II position, OAH would designate duties as Administrative Assistant to the Director in addition to the paralegal duties to the position. The other paralegal position in OAH is utilized 90% of the time in the disposition of Child Support Tax Intercept cases.

Date Position Vacated: 2-01-02

Justification for Retaining Position (Explain why existing staff cannot continue performing required duties):

Existing staff cannot assume additional responsibilities required of this position, because their job duties and responsibilities require their full time commitment. OSBM staff is and has been working at maximum capacity dealing with agency oversight during two consecutive budget crises and the development of two budgets for Governor Easley.

This position manages a staff of four budget analysts responsible for all activities associated with budget development, administration, and execution for the Department of Public Instruction, NC Community College System, the UNC Board of Governors and the constituent institutions of the UNC, the UNC Health Care System, and the NC School of Science and Mathematics. This program area represents the single largest investment of state funds and is a high priority of the Governor and the General Assembly. The section currently has one vacant analyst position. The additional workload resulting from the budget shortfall for the current fiscal year and the projected shortfall for 2002-2003 and the shortage in staff in this section make this position extremely critical. There are currently three other Budget Administrators in OSBM: one assigned to Health and Human Services, one to General Government, and one to Justice and Public Safety, Transportation, and Capital Improvement.

Justification for Retaining Position (Explain why existing staff cannot continue performing required duties.)

Existing staff cannot assume additional responsibilities required of this position, because their job duties and responsibilities require their full time commitment. OSBM staff is and has been working at maximum capacity dealing with agency oversight during two consecutive budget crises and the development of two budgets for Governor Easley.

This position has responsibility for certain delegated assignments in the UNC System in the Education Section. Assignment includes budget development and administration of the agencies/institutions assigned. The position serves as the liaison between the OSBM and the agencies/institutions assigned, as well as the various education-related legislative subcommittees, and other governmental and nongovernmental entities. There are currently three other budget analysts in the Education Section, which is responsible for all activities associated with budget development, administration, and execution for the Department of Public Instruction, NC Community College System, the UNC Board of Governors and the constituent institutions of the UNC, the UNC Health Care System, and the NC School of Science and Mathematics. Re: Publications related statutory changes

Question: What statutory changes are recommended to reduce printing costs?

Lobbyist Directory

This publication is available on the web for free. The agency is required by law to publish a directory of registered lobbyists and their principals every 20 days during the legislative session.

Printing costs for a recent edition were $2,259.00 for 600 copies or $3.77 each. Current demand is estimated at approximately 1,000 copies of each edition.

The web version of this publication is updated daily. The statute requires us to publish an update ever 20 days of the legislative session. The agency recommends amending GS120-47.2 (d) to require publication every 30 days of the legislative session.

Estimates savings in a 120 day legislative session are as follows

20 day publication	30 day publication	
1,000 copies	1000 copies	
@ 3.77 ea	@ $3.77 ea	
$3,770.00	$3,770.00	
x 6	x 4	
= $22,620	= $15,080	Savings= $7,540.00 or a cost reduction of 33 %

SECRETARY OF STATE

Division/Section: Corporation

Position Title: Agency Legal Specialist III

Position Number: 3221-0000-0000-203

Budgeted Salary: $57,003

Fringes: $10,143.00

Date Position Vacated: 02/28/02

Date Position Filled:

Justification for Retaining Position (Explain why existing staff cannot continue performing required duties): The Agency Legal Specialist III position under the Corporations Budget serves as a general counsel to the Department. The position's duties include:

- **Daily advising to Corporations Division regarding complex and unusual incorporation issues;**
- **Daily legal/policy advising to the Secretary of State, deputy secretaries and division directors;**
- **Litigation and rulemaking management for the department.**

This position is a member of the department's senior policy-making team, and provides critical objective legal counsel for the policymaking process. Additionally, this position is responsible for the statutory drafting for the Department, working hand in hand with the General Statute Commission,

the Bar Association and other agencies, representing department to the General Assembly, liaison between the Department and the legal community and other interest groups. Most significant is the responsibility of the position to facilitate complex commercial transactions in which the General Statutes are silent as to how the transaction can be perfected. Generally these issues come with short notice, require a blend of policy background as well as legal expertise, and have the potential to impact the revenue of the state by millions of dollars as in the First Union and Wachovia merger.
There is no other position tasked to perform these specific duties. There is no other daily legal support available to the Corporations Division, and other attorneys working in the department either have full workloads including management responsibilities that conflict them from providing the necessary objective perspective, or otherwise have full workloads in other programs. The department is currently work with OSP to enable the department to extend an offer to an already-identified candidate.

POSITION JUSTIFICATION

SECRETARY OF STATE

Division/Section: Corporations

Position Title: Processing Assistant IV

Position Number: 3221-00000-0000-225

Budgeted Salary: $20,966

Fringes: $5585.00

Date Position Vacated: 03/11/02
Date Position Offered: 04/22/02
Date Position Filled: 05/13/02

Justification for Retaining Position (Explain why existing staff cannot continue performing required duties): This position is a part of the Information Processing Unit that responds to thousand of public inquiries by telephone, fax, email and correspondence each day. Delays in providing the requested information can result in failed business and legal transactions such as loan closings, multi-million dollar mergers, corporate buyouts and relocation of foreign businesses to this state. Additionally, the unit is held to a tough standard of response by the business, legal, law enforcement and banking communities, as well as members of the General Assembly. Failure to retain this position will create an undue burden on the agency in its attempts to timely respond to the needs of the stated communities.

SECRETARY OF STATE

Division/Section: Uniform Commercial Code

Position Title: Processing Assistant V

Position Number: 3222-0000-0000-393

Budgeted Salary: $22,251

Fringes: $5745.00

Date Position Vacated: 02/08/02

Justification for Retaining Position (Explain why existing staff cannot continue performing required duties):
The UCC Section is only 10 months into implementing North Carolina's part of a nationwide revision of secured transaction law and record processing. In North Carolina, the law change resulted in virtually all UCC records formerly filed at county Register of Deeds offices being consolidated into one central office at the Department of the Secretary of State UCC Section. This law affects essentially all commercial and consumer lending activity, and the speed and accuracy of the UCC Section in processing these loan-related records has a direct impact on lending activity in North Carolina. The law changes are still in a transitional phase, and substantial fluctuations in records filing activity are ongoing. While the Section is currently able to manage its workload while holding this position vacant, filing activity continues to increase and filling this position may soon be required in order to ensure that the

UCC Section meets the statutory 72-hour record processing timeframes.

As an additional consideration, this position was vacated by resignation of a 15-year state employee, who has since initiated litigation against the department seeking reinstatement. While the Department expects to prevail in this litigation, it would be unwise to change this position's status while litigation directly relating to it is pending.

SECRETARY OF STATE

Division/Section: Securities

Position Title: Securities Examiner I

Position Number: 3223-00000-0000-418

Budgeted Salary: $33,923

Fringes: $7224.00

Date Position Vacated: 04/10/02
Date Position Offered: 04/22/02
Date Position Filled: 05/01/02

Justification for Retaining Position (Explain why existing staff cannot continue performing required duties): In 1996, Congress enacted sweeping changes in the federal laws regulating investment advisers IA's. These amendments split the regulation of investment advisers between the Securities and Exchange Commission, for IA's managing $25 million or more of client assets, and the various state securities agencies, who were given sole authority for regulating the nation's small IA's. The North Carolina Securities Division has the sole responsibility for auditing the approximately 250 IA's managing under $25 million who have their headquarters in this state, and for ensuring compliance with state laws and regulations governing the business practices of these IA's and the safekeeping of their clients' assets. These field audits are

necessary to ensure that these IA's are dealing honestly with the clients who depend on them for investment advice, and to prevent fraud and conflicts of interest by those IA's who have obtained authorization from their clients to make and carry out investment decisions in the client's name. Because of its increased importance in today's economy, the investment adviser profession must be subject to stringent regulation in order to protect the thousands of ordinary citizens who have placed their financial destiny in an IA's hands. The Securities Division now has only one position devoted to this audit function, and it is critical to the protection of the investing public that this audit function be continued, so that an investment adviser license does not become a license to steal.

Follow-up items for General Government Appropriations Committee:

!. North Carolina Firemen's and Rescue Squad Workers' Pension Fund: Based on the December 30, 2000 valuation, there will be at least enough undistributed gains to provide for an 11%, or $1,331,525, reduction in the appropriation. The Board of Trustees for the Firemen's and Rescue Squad Workers' Pension Fund is scheduled to meet later this month. Based on their recommendations, there may be additional funds available.

-Accountant II/ Assistant Chief Accountant: This position is a reassignment of position #812, Accounting Clerk IV, in the Retirement Division's Accounting Section. This position was assigned to the Division to assist with the processing of monthly employer contributions. The new position will oversee the entire area of employer contributions and work to reduce the 58,000 errors that were submitted last year alone.

-Policy Development Analyst II: This position is currently filled. It was created by reclassifying position # 337, Processing Assistant III and adding Salary Reserve to the position.

-Cell phones: The Treasurer's office pays $630 per month or $7,568 per year for cell phone expense.

General Government Appropriations Committee
Office of State Personnel – Follow-up Questions

1. **Can the Industrial Hygiene Function be transferred to Occupational & Environmental Epidemiology Division in DHHS or Dept of Labor?**

   Contacted DHHS to see if this function would be more effective in their IH services provided. DHHS plans to abolish 4 of 7 positions in that area. Three of the positions to be abolished are industrial hygiene consultants. The indicated that if they were asked to provide the services OSP currently provides they would need the position and associated operating cost transferred to them.

   Dept. of Labor is required to provide technical and consultative services to public agencies. The currently have a backlog of approximately 6 months. Historically they have expressed concerns that this would be a conflict with their primary function of inspecting work-sites and identifying hazards.

2. **Report on any HR training provided to OSBM?**

   Following training provided by OSP to OSBM during 2001-02:

EEOI – 46	Effective Presentation Skills – 17
Empowering Leader – 7	Managing Meetings – 20
Facilitating Change – 7	Delegating for Productivity – 7
Customer Service – 7	Telephone Etiquette - 7

3. **Does OSP keep training records on the type of training provided and what the agency participation levels are?**

   Yes, OSP maintains training records by name of class and # of participants by agency in most courses. In some courses only the total # of participants is maintained. A roster is maintained by class including the name of the participants.

4. **What would the Office of State Personnel recommend to eliminate any duplication of training services?**

   See Attached Information

A Proposal to Consolidate Training and Development in North Carolina State Government

Consolidating training and development in state government will reduce duplication of programs, focus training efforts on critical skill development, and increase efficiency through an integrated approach that combines classroom and e-learning strategies. A consolidated, integrated approach will maximize resources and reduce overall costs. It will also enhance training effectiveness by emphasizing critical skills needed across state government. The following points outline key steps in the consolidation process.

Centralize Training

- OSP becomes the centralized training function for State Government agencies at this time.
- Requires additional staff from agencies.
- Consolidate all training positions from agencies into OSP.
- Assess training needs of agencies.
- Study current staffing levels and reduce as necessary.
- Will need flexibility to balance the need for trainers vs. technology. This requires a portion of the cost savings to be dedicated to developing technology (software, web authoring tools, web development expertise) for delivering state-specific policy training.

Use Enterprise-Wide Approach

- Utilize enterprise-wide approach to developing and delivering both classroom and e-learning to reduce costs through economies of scale.
- Implement enterprise-wide training management system to administer training statewide. This system manages all training processes (such as class registration), creates and updates student records, and tracks costs. The system also provides management information for planing and monitoring purposes.
- The enterprise training management system provides real-time data on training activities across state government. This improves planning and implementation, reduces cost and improves efficiency.

Offer Regional Training

- Centralize staff to provide training on a regional basis for agencies with statewide scope (such as DOC, DOT, DHHS, and DENR).
- Deliver regional training in western and eastern North Carolina to reduce travel costs and increase training accessibility for state employees.
- Identify existing state facilities to use for regional training.
- Create cooperative agreements with community colleges and universities to make training sites available on their campuses.

Standardize Training Curricula

- Standardize training and development curricula across state government.
- Cross-train instructors to deliver critical skills training and facilitate e-learning.
- Implement occupation-specific certificate programs to and increase individual effectiveness. (Example: Human Resource Professional Certificate; Administrative Specialist Certificate; Customer Service Specialist Certificate).

Deliver Critical Skills Training

- Determine critical skills needed by managers, supervisors and employees.
- Develop or revise e-learning and classroom training to teach these skills.
- Conduct statewide needs assessment to identify skills.
- Develop skills assessment tool linked to competencies.
- Implement a required "Basics of Effective Supervision" training program for managers and supervisors.

Implement E-Leaning

- Implement e-learning through the state government portal.
- Develop online courses and resources and make them available to employees at their desktops.
- Use a "blended learning" approach to training delivery. Introduce content through e-learning courses and use classroom instruction for case studies, skill practice, discussion, and demonstrating competency. This approach reduces travel costs, time away from the work site, and classroom space/time requirements.
- Modify existing successful programs into a "blended learning" approach.

SENATE APPROPRIATIONS SUBCOMMITTEE

ON

GENERAL GOVERNMENT

Minutes

June 11, 2002

The Senate Appropriations Subcommittee on General Government met Tuesday June 11, 2002. The meeting was called to order at 10:05 a.m. in Room 1124 of the Legislative Building. There were four Senate Subcommittee Members present.

Senator Oscar Harris, Co-Chair, chaired the meeting. He recognized the very capable fiscal staff and thanked them for their work. He also recognized the Pages Richard Jones from Greenville, sponsored by Senator Ed Warren, and Jamie Hopkins from Raleigh, sponsored by Senator Marc Basnight. Sgt.-At-Arms were Richard Telfair and Jon Fichett.

Senator Harris opened the business of the meeting with the following comments: "The decision of the chairs of the General Government Subcommittee was to achieve an 8% reduction in spending for General Government agencies. The bottom line is there are few exceptions on either side of that percentage. However, the total percentage of reduction for all General Government agency reductions is 10.54%, which results in 34.2 reduced and 215.06 positions eliminated. In all (or most instances) requests were honored to retain vacant positions for which justification was provided. However, position reductions also include filled positions that were abolished or positions that were transferred to receipt-support." You can see that we have listened to the Departments Secretaries and Department Heads of the Agencies. We have brought together your comments and suggestions and tried to follow those as best we could. In addition to that we looked at the vacant positions before we looked at RIFS and eliminated people. The Agencies submitted a list of prioritized vacancies. We followed that prioritization. The decisions were not easy. We did the best we could to be fair to all agencies. The decisions were not what we wanted to do, but the responsibility on us is to be fair individuals as we developed the General Government Section of the Budget.

Michele Nelson and Marilyn Chism distributed the document Proposed Budget , FY 2002-03, June 11, 2002. (attachment # 1). The Proposed Budget was reviewed line by line by Michele Nelson and Marilyn Chism. Comments, questions, and discussion are enumerated below by corresponding page and line item.

Page J-5, item 20 Sen. Harris comment. " By consolidating we are not eliminating any of the Veteran's service but just consolidating offices."

Page J-9, item 32 Sen. Plyler asked "what money is left in First Flight Centennial Commission"? Michelle Nelson replied that with the reduction from last Session and an additional reduction of $65,339 in this budget, that First Flight has approximately $700,000.

At the end of report on page J-15, Michele Nelson said that this is an 8% reduction to Cultural Resources, which is 3% less than what the Governor recommended.

The Special Provisions begins on page 40 of attachment #1 were reviewed by Marilyn Chism and Michele Nelson. Each change was read. The changes are indicated in the attachment by cross out of old text and insertion of new text.

Sen. Harris: "you have heard the proposed General Budget for the year 2002 and 2003 to be recommended." Motion was made by Sen. Odom to recommend the proposed money section of the budget, and seconded by Sen. Plyler. Motion carried.

Sen. Harris: "you have heard the review of the Special Provisions." Motion was made by Sen. Odom to recommend the Special Provisions section and seconded by Sen. Plyer Motion carried.

The business of the General Government concluded at 11:05 a.m.

Respectfully Submitted

Senator Oscar Harris, Co-Chair

SCHOLARSHIPS FOR CHILDREN OF WAR VETERANS AMENDMENTS

SECTION #. Article 4 of Chapter 165 of the General Statutes reads as rewritten:

"Article 4.
"Scholarships for Children of War Veterans.

"**§ 165-19. Purpose.**

In appreciation for the service and sacrifices of North Carolina's war veterans and as evidence of this State's concern for their children, there is hereby continued a revised program of scholarships for said children as set forth in this Article.

"**§ 165-20. Definitions.**

As used in this Article the terms defined in this section shall have the following meaning:

(1) "Active federal service" means full-time duty in the armed forces other than active duty for training; however, if disability or death occurs while on active duty for training (i) as a direct result of armed conflict or (ii) while engaged in extra-hazardous service, including such service under conditions simulating war, such active duty for training shall be considered as active federal service.

(2) "Armed forces" means the army, navy, marine corps, air force and coast guard, including their reserve components.

(3) "Child" means a person: (i) under 26 years of age at the time of application for such scholarship, ~~(i)~~ (ii) who is a domiciliary of North Carolina and is a resident of North Carolina when applying for a scholarship, and ~~(ii)~~ (iii) ~~who is a senior in high school or its equivalent and who will graduate at the end of the academic year or a person~~ who has completed high school or its equivalent, prior to receipt of a scholarship as may be awarded under this Article, and ~~(iii)~~(iv) who has complied with the requirements of the Selective Service System, if applicable, and ~~(iv)~~(v) who further meets one of the following requirements:

a. A person whose veteran parent was a legal resident of North Carolina at the time of said veteran's entrance into that period of service in the armed forces during which eligibility is established under G.S. 165-22.

b. A veteran's child who was born in North Carolina and has ~~lived in~~ been a resident of North Carolina continuously since birth. ~~Provided, that the requirement in the preceding sentence as to birth in North Carolina may be waived by the Department of Administration if it is shown to the satisfaction of the Department that the child's mother was a native-born resident of North Carolina and was such resident at the time of her marriage to the veteran and was outside the State temporarily at the time of the child's birth, following which the child was returned to North Carolina within a reasonable period of time where said child has since lived continuously.~~

c. A person meeting either of the requirements set forth in subdivision (3)a or b above, and who was legally adopted by the veteran prior to said person's reaching the age of 15 years.

(4) "Period of war" and "wartime" shall mean any of the periods or circumstances as defined below:

a. World War I, meaning (i) the period beginning on April 6, 1917 and ending on November 11, 1918, and (ii) in the case of a veteran who served with the United States armed forces in Russia, the period beginning on April 6, 1917 and ending on April 1, 1920.

b. World War II, meaning the period beginning on December 7, 1941 and ending on December 31, 1946.

c. Korean Conflict, meaning the period beginning on June 27, 1950 and ending on January 31, 1955.

d. Vietnam era, meaning the period beginning on August 5, 1964, and ending on May 7, 1975.

d1. Persian Gulf War, meaning the period beginning on August 2, 1990, and ending on the date prescribed by Presidential proclamation or concurrent resolution of the United States Congress.

e. Any period of service in the armed forces during which the veteran parent of an applicant for a scholarship under this Article suffered death or disability (i) as a direct result of armed conflict or (ii) while engaged in extra-hazardous service, including such service under conditions simulating war.

(5) "Private educational institution" means any junior college, senior college or university which is operated and governed by private interests not under the control of the federal, State or any local government, which is located within the State of North Carolina,

which does not operate for profit, whose curriculum is primarily directed toward the awarding of associate, baccalaureate or graduate degrees, which agrees to the applicable administration and funding provisions of G.S. 165-22.1, of this Article, and which is otherwise approved by the State Board of Veterans Affairs.

(6) "State educational institution" means any educational institution of higher learning which is owned and operated by the State of North Carolina, or any community college operated under the provisions of Chapter 115A and Article 3 of Chapter 116 of the General Statutes of North Carolina, or the college program of the North Carolina School of the Arts, or any technical institute operated under the provisions of Chapter 115A of the General Statutes of North Carolina.

(7) "Veteran" means a person who served as a member of the armed forces of the United States in active federal service during a period of war and who was separated from the armed forces under conditions other than dishonorable. A person who was separated from the armed forces under conditions other than dishonorable and whose death or disability was incurred (i) as a direct result of armed conflict or (ii) while engaged in extra-hazardous service, including such service under conditions simulating war, shall also be deemed a "veteran" and such death or disability shall be considered wartime service-connected.

"**§ 165-21. Scholarship.**

~~(a)~~ A scholarship granted pursuant to this Article shall consist of the following benefits in either a State or private educational institution:

(1) With respect to State educational institutions, unless expressly limited elsewhere in this Article, a scholarship shall consist of:

a. Tuition,

b. A reasonable board allowance,

c. A reasonable room allowance,

d. Matriculation and other institutional fees required to be paid as a condition to remaining in said institution and pursuing the course of study selected, excluding charges or fees for books, supplies, tools and clothing.

(2) With respect to private educational institutions, a scholarship shall consist of a monetary allowance as prescribed in G.S. 165-22.1(d).

(3) Only one scholarship may be granted pursuant to this Article with respect to each child and it shall not extend for a longer period than four academic years, which years, however, need not be consecutive.

(4) No educational assistance shall be afforded a child under this Article after the end of ~~a 10-year~~an eight-year period beginning on the date the scholarship is first awarded. Those persons who have been granted a scholarship under this Article prior to the effective date of this act shall be entitled to the remainder of their period of scholarship eligibility if used prior to August 1, ~~1999.~~2010. Whenever a child is enrolled in an

educational institution and the period of entitlement ends while enrolled in a term, quarter or semester, such period shall be extended to the end of such term, quarter or semester, but not beyond the entitlement limitation of four academic years.

~~(b) If a child is awarded a scholarship under this Article and the child is a senior in high school or its equivalent, then the scholarship shall be awarded pending the graduation of the child.~~

"§ 165-22. Classes or categories of eligibility under which scholarships may be awarded.

A child, as defined in this Article, who falls within the provisions of any eligibility class described below shall, upon proper application be considered for a scholarship, subject to the provisions and limitations set forth for the class under which he is considered:

(1) Class I-A: Under this class a scholarship shall be awarded to any child whose veteran parent

a. Was killed in action or died from wounds or other causes not due to his own wilful misconduct while a member of the armed forces during a period of war, or

b. Has died of service-connected injuries, wounds, illness or other causes incurred or aggravated during wartime service in the armed forces, as rated by the United States Department of Veterans Affairs.

(2) Class I-B: Under this class a limited scholarship providing only those benefits set forth in G.S. 165-21(1)a and d and 165-21(2) of this Article, shall be awarded to any child whose veteran parent, at the time the benefits pursuant to this Article are sought to be availed of, is or was at the time of his death receiving compensation for a wartime service-connected disability of one hundred percent (100%) as rated by the United States Department of Veterans Affairs. Provided, that if the veteran parent of a recipient under this class should die of his wartime service-connected condition before the recipient shall have utilized all of his scholarship eligibility time, then the North Carolina Department of Administration shall amend the recipient's award from Class I-B to Class I-A for the remainder of the recipient's eligibility time. The effective date of such an amended award shall be determined by the Department of Administration, but, in no event shall it predate the date of the veteran parent's death.

(3) Class II: Under this class a scholarship may be awarded to not more than 100 children yearly, each of whose veteran parent, at the time the benefits pursuant to this Article are sought to be availed of:

a. Is or was at the time of his death receiving compensation for a wartime service-connected disability of twenty percent (20%) or more, but less than one hundred percent (100%), as rated by the United States Department of Veterans Affairs, or

~~b. Is or was at the time of his death receiving wartime compensation for a statutory award for arrested pulmonary tuberculosis, as rated by the United States Department of Veterans Affairs.~~

b. Was awarded the Purple Heart for wounds received as a result of an act of any opposing armed force, as a result of an international terrorist attack, or as a result of military operations while serving as part of a peacekeeping force.

(4) Class III: Under this class a scholarship may be awarded to not more than 100 children yearly, each of whose veteran ~~parent, parent at the time the benefits pursuant to this Article are sought to be availed of:~~ served in the United States armed forces during a period of war, as specified by G.S. 165-20(4) of this Article, and who does not fall within the provisions of any other eligibility class described in G.S. 165-22(1), (2), (3), nor (5).

~~a. Is or was at the time of his death drawing pension for permanent and total disability, nonservice-connected, as rated by the United States Department of Veterans Affairs, or~~

~~b. Is deceased and who does not fall within the provisions of any other eligibility class described in G.S. 165-22(1), (2), (3), (4)a., nor (5) provided such child is less than 23 years of age at the time of application for such scholarship.~~

(5) Class IV: Under this class a scholarship as defined in G.S. 165-21 shall be awarded to any child whose parent, while serving honorably as a member of the armed forces of the United States in active federal service during a period of war, as defined in G.S. 165-20(4), was listed by the United States government as (i) missing in action, (ii) captured in line of duty by a hostile force, or (iii) forcibly detained or interned in line of duty by a foreign government or power.

"**§ 165-22.1. Administration and funding.**

(a) The administration of the scholarship program shall be vested in the Department of Administration, and the disbursing and accounting activities required shall be a responsibility of the Department of Administration. The Veterans Affairs Commission shall determine the eligibility of applicants, select the scholarship recipients, establish the effective date of scholarships, and may suspend or revoke scholarships if the said Veterans Affairs Commission finds that the recipient does not comply with the registration requirements of the Selective Service System or does not maintain an adequate academic status, or if the recipient engages in riots, unlawful demonstrations, the seizure of educational buildings, or otherwise engages in disorderly conduct, breaches of the peace or unlawful assemblies. The Department of Administration shall maintain the primary and necessary records, and the Veterans Affairs Commission shall promulgate such rules and regulations not inconsistent with the other provisions of this Article as it deems necessary for the orderly administration of the program. It may require of State or private educational institutions, as defined in

this Article, such reports and other information as it may need to carry out the provisions of this Article. The Department of Administration shall disburse scholarship payments for recipients certified eligible by the Department of Administration upon certification of enrollment by the enrolling institution.

(b) Funds for the support of this program shall be appropriated to the Department of Administration as a reserve for payment of the allocable costs for room, board, tuition, and other charges, and shall be placed in a separate budget code from which disbursements shall be made. In the event the said appropriation for any year is insufficient to pay the full amounts allocable under the provisions of this Article, such supplemental sums as may be necessary shall be allocated from the Contingency and Emergency Fund. The method of disbursing and accounting for funds allocated for payments under the provisions of this section shall be in accordance with those standards and procedures prescribed by the Director of the Budget, pursuant to the Executive Budget Act.

(c) Allowances for room and board in State educational institutions shall be at such rate as ~~the Director of the Budget may determine to be reasonable.~~ established by the Secretary of the Department of Administration.

(d) Scholarship recipients electing to attend a private educational institution shall be granted a monetary allowance for each term or other academic period attended under their respective scholarship awards. All recipients under Class I-B scholarship shall receive an allowance at one rate, irrespective of course or institution; all recipients under Classes I-A, II, III and IV shall receive a uniform allowance at a rate higher than for Class I-B, irrespective of course or institution. The amount of said allowances shall be determined by the Director of the Budget and made known prior to the beginning of each fall quarter or semester; provided that the Director of the Budget may change the allowances at intermediate periods when in his judgment such changes are necessary. Disbursements by the State shall be to the private institution concerned, for credit to the account of each recipient attending said institution. The manner of payment to any private institution shall be as prescribed by the Department of Administration. The participation by any private institution in the program shall be subject to the applicable provisions of this Article and to examination by State auditors of the accounts of scholarship recipients attending or having attended private institutions. The Veterans Affairs Commission may defer making an award or may suspend an award in any private institution which does not comply with the provisions of this Article relating to said institutions.

(e) Irrespective of other provisions of this Article, the Veterans Affairs Commission may prescribe special procedures for adjusting the accounts of scholarship recipients who for reasons of illness, physical inability to attend class or for other valid reason satisfactory to the Veterans Affairs Commission may withdraw from State or private educational institutions prior to the completion of the term, semester, quarter or other academic period being attended at the time of withdrawal. Such procedures may include, but shall not be limited to, paying the recipient the dollar value of his unused entitlements for the academic period being attended, with a corresponding deduction of this period from his remaining scholarship eligibility time."

Senate Appropriations Subcommittee on General Government
Summary of Changes Since June 11, 2002 Subcommittee Meeting
2002 Session

Administration

- The elimination of four positions and an additional reduction to Youth Internship Program were made as a substitution for four positions eliminated in the June 11th recommendation.
- The $689,000 reduction to the Veteran's Scholarship Program was restored.

Revenue

- Changed the approach to receipt-support for the Unauthorized Substance Tax Division. The proposal is to reimburse the General Fund from local Sales and Use Tax that will be transferred to a non-tax GF revenue account for 70% of the division's operating budget ($886,893). Essentially, relieves the GF of a portion of the division's operating expense. With this change 2 positions, instead of 14, are transferred to receipt-support. The reduction in the report for the department changes from $5.9M to $4.9M. However, the total reduction remains 7.51% with the transfer from local Sales and Use Tax to cover 70% of the division's budget.

Rules Review Commission

- The primary change in the agency's budget is the reduction in compensation for board members, which affects the frequency in board meetings. A special provision has been included, which amends the statutes to agree with the budget adjustment. The change indicates that the board is not required to meet monthly, and the board is to allowed to change the rules that affect the meeting schedule, filing procedures, and review schedule and procedures. There is no change in the amount of the agency's reduction.

State Controller

- Added a special provision, which continues the overpayments project that has been in effect since 1999. It is anticipated that FY 02-03 will be the final year of the project. There is no change in the amount of the agency's reduction.

State Treasurer

- Substituted the reduction of the 6 filled positions in Investment Management and the operating budget items with a reduction to the operating budget for market research, rent, and computer/data processing services.

SCHOLARSHIPS FOR CHILDREN OF WAR VETERANS AMENDMENTS

SECTION #. Article 4 of Chapter 165 of the General Statutes reads as rewritten:

"Article 4.
"Scholarships for Children of War Veterans.

"§ 165-19. Purpose.

In appreciation for the service and sacrifices of North Carolina's war veterans and as evidence of this State's concern for their children, there is hereby continued a revised program of scholarships for said children as set forth in this Article.

"§ 165-20. Definitions.

As used in this Article the terms defined in this section shall have the following meaning:

(1) "Active federal service" means full-time duty in the armed forces other than active duty for training; however, if disability or death occurs while on active duty for training (i) as a direct result of armed conflict or (ii) while engaged in extra-hazardous service, including such service under conditions simulating war, such active duty for training shall be considered as active federal service.

(2) "Armed forces" means the army, navy, marine corps, air force and coast guard, including their reserve components.

(3) "Child" means a person: (i) under 26 years of age at the time of application for such scholarship, ~~(i)~~ (ii) who is a domiciliary of North Carolina and is a resident of North Carolina when applying for a scholarship, and ~~(ii)~~ (iii) ~~who is a senior in high school or its equivalent and who will graduate at the end of the academic year or a person~~ who has completed high school or its equivalent, prior to receipt of a scholarship as may be awarded under this Article, and ~~(iii)~~(iv) who has complied with the requirements of the Selective Service System, if applicable, and ~~(iv)~~(v) who further meets one of the following requirements:

a. A person whose veteran parent was a legal resident of North Carolina at the time of said veteran's entrance into that period of service in the armed forces during which eligibility is established under G.S. 165-22.

b. A veteran's child who was born in North Carolina and has ~~lived in~~ been a resident of North Carolina continuously since birth. ~~Provided, that the requirement in the preceding sentence as to birth in North Carolina may be waived by the Department of Administration if it is shown to the satisfaction of the Department that the child's mother was a native-born resident of North Carolina and was such resident at the time of her marriage to the veteran and was outside the State temporarily at the time of the child's birth, following which the child was returned to North Carolina within a reasonable period of time where said child has since lived continuously.~~

c. A person meeting either of the requirements set forth in subdivision (3)a or b above, and who was legally adopted by the veteran prior to said person's reaching the age of 15 years.

(4) "Period of war" and "wartime" shall mean any of the periods or circumstances as defined below:

a. World War I, meaning (i) the period beginning on April 6, 1917 and ending on November 11, 1918, and (ii) in the case of a veteran who served with the United States armed forces in Russia, the period beginning on April 6, 1917 and ending on April 1, 1920.

b. World War II, meaning the period beginning on December 7, 1941 and ending on December 31, 1946.

c. Korean Conflict, meaning the period beginning on June 27, 1950 and ending on January 31, 1955.

d. Vietnam era, meaning the period beginning on August 5, 1964, and ending on May 7, 1975.

d1. Persian Gulf War, meaning the period beginning on August 2, 1990, and ending on the date prescribed by Presidential proclamation or concurrent resolution of the United States Congress.

e. Any period of service in the armed forces during which the veteran parent of an applicant for a scholarship under this Article suffered death or disability (i) as a direct result of armed conflict or (ii) while engaged in extra-hazardous service, including such service under conditions simulating war.

(5) "Private educational institution" means any junior college, senior college or university which is operated and governed by private interests not under the control of the federal, State or any local government, which is located within the State of North Carolina,

which does not operate for profit, whose curriculum is primarily directed toward the awarding of associate, baccalaureate or graduate degrees, which agrees to the applicable administration and funding provisions of G.S. 165-22.1, of this Article, and which is otherwise approved by the State Board of Veterans Affairs.

(6) "State educational institution" means any educational institution of higher learning which is owned and operated by the State of North Carolina, or any community college operated under the provisions of Chapter 115A and Article 3 of Chapter 116 of the General Statutes of North Carolina, or the college program of the North Carolina School of the Arts, or any technical institute operated under the provisions of Chapter 115A of the General Statutes of North Carolina.

(7) "Veteran" means a person who served as a member of the armed forces of the United States in active federal service during a period of war and who was separated from the armed forces under conditions other than dishonorable. A person who was separated from the armed forces under conditions other than dishonorable and whose death or disability was incurred (i) as a direct result of armed conflict or (ii) while engaged in extra-hazardous service, including such service under conditions simulating war, shall also be deemed a "veteran" and such death or disability shall be considered wartime service-connected.

"§ 165-21. Scholarship.

~~(a)~~ A scholarship granted pursuant to this Article shall consist of the following benefits in either a State or private educational institution:

(1) With respect to State educational institutions, unless expressly limited elsewhere in this Article, a scholarship shall consist of:
   a. Tuition,
   b. A reasonable board allowance,
   c. A reasonable room allowance,
   d. Matriculation and other institutional fees required to be paid as a condition to remaining in said institution and pursuing the course of study selected, excluding charges or fees for books, supplies, tools and clothing.

(2) With respect to private educational institutions, a scholarship shall consist of a monetary allowance as prescribed in G.S. 165-22.1(d).

(3) Only one scholarship may be granted pursuant to this Article with respect to each child and it shall not extend for a longer period than four academic years, which years, however, need not be consecutive.

(4) No educational assistance shall be afforded a child under this Article after the end of ~~a 10-year~~an eight-year period beginning on the date the scholarship is first awarded. Those persons who have been granted a scholarship under this Article prior to the effective date of this act shall be entitled to the remainder of their period of scholarship eligibility if used prior to August 1, ~~1999.~~2010. Whenever a child is enrolled in an

educational institution and the period of entitlement ends while enrolled in a term, quarter or semester, such period shall be extended to the end of such term, quarter or semester, but not beyond the entitlement limitation of four academic years.

~~(b) If a child is awarded a scholarship under this Article and the child is a senior in high school or its equivalent, then the scholarship shall be awarded pending the graduation of the child.~~

"§ 165-22. Classes or categories of eligibility under which scholarships may be awarded.

A child, as defined in this Article, who falls within the provisions of any eligibility class described below shall, upon proper application be considered for a scholarship, subject to the provisions and limitations set forth for the class under which he is considered:

(1) Class I-A: Under this class a scholarship shall be awarded to any child whose veteran parent

a. Was killed in action or died from wounds or other causes not due to his own willful misconduct while a member of the armed forces during a period of war, or

b. Has died of service-connected injuries, wounds, illness or other causes incurred or aggravated during wartime service in the armed forces, as rated by the United States Department of Veterans Affairs.

(2) Class I-B: Under this class a limited scholarship providing only those benefits set forth in G.S. 165-21(1)a and d and 165-21(2) of this Article, shall be awarded to any child whose veteran parent, at the time the benefits pursuant to this Article are sought to be availed of, is or was at the time of his death receiving compensation for a wartime service-connected disability of one hundred percent (100%) as rated by the United States Department of Veterans Affairs. Provided, that if the veteran parent of a recipient under this class should die of his wartime service-connected condition before the recipient shall have utilized all of his scholarship eligibility time, then the North Carolina Department of Administration shall amend the recipient's award from Class I-B to Class I-A for the remainder of the recipient's eligibility time. The effective date of such an amended award shall be determined by the Department of Administration, but, in no event shall it predate the date of the veteran parent's death.

(3) Class II: Under this class a scholarship may be awarded to not more than 100 children yearly, each of whose veteran parent, at the time the benefits pursuant to this Article are sought to be availed of:

a. Is or was at the time of his death receiving compensation for a wartime service-connected disability of twenty percent (20%) or more, but less than one hundred percent (100%), as rated by the United States Department of Veterans Affairs, or

~~b. Is or was at the time of his death receiving wartime compensation for a statutory award for arrested pulmonary tuberculosis, as rated by the United States Department of Veterans Affairs.~~

b. Was awarded the Purple Heart for wounds received as a result of an act of any opposing armed force, as a result of an international terrorist attack, or as a result of military operations while serving as part of a peacekeeping force.

(4) Class III: Under this class a scholarship may be awarded to not more than 100 children yearly, each of whose veteran ~~parent, parent at the time the benefits pursuant to this Article are sought to be availed of:~~ served in the United States armed forces during a period of war, as specified by G.S. 165-20(4) of this Article, and who does not fall within the provisions of any other eligibility class described in G.S. 165-22(1), (2), (3), nor (5).

~~a. Is or was at the time of his death drawing pension for permanent and total disability, nonservice-connected, as rated by the United States Department of Veterans Affairs, or~~

~~b. Is deceased and who does not fall within the provisions of any other eligibility class described in G.S. 165-22(1), (2), (3), (4)a., nor (5) provided such child is less than 23 years of age at the time of application for such scholarship.~~

(5) Class IV: Under this class a scholarship as defined in G.S. 165-21 shall be awarded to any child whose parent, while serving honorably as a member of the armed forces of the United States in active federal service during a period of war, as defined in G.S. 165-20(4), was listed by the United States government as (i) missing in action, (ii) captured in line of duty by a hostile force, or (iii) forcibly detained or interned in line of duty by a foreign government or power.

"§ 165-22.1. Administration and funding.

(a) The administration of the scholarship program shall be vested in the Department of Administration, and the disbursing and accounting activities required shall be a responsibility of the Department of Administration. The Veterans Affairs Commission shall determine the eligibility of applicants, select the scholarship recipients, establish the effective date of scholarships, and may suspend or revoke scholarships if the said Veterans Affairs Commission finds that the recipient does not comply with the registration requirements of the Selective Service System or does not maintain an adequate academic status, or if the recipient engages in riots, unlawful demonstrations, the seizure of educational buildings, or otherwise engages in disorderly conduct, breaches of the peace or unlawful assemblies. The Department of Administration shall maintain the primary and necessary records, and the Veterans Affairs Commission shall promulgate such rules and regulations not inconsistent with the other provisions of this Article as it deems necessary for the orderly administration of the program. It may require of State or private educational institutions, as defined in

this Article, such reports and other information as it may need to carry out the provisions of this Article. The Department of Administration shall disburse scholarship payments for recipients certified eligible by the Department of Administration upon certification of enrollment by the enrolling institution.

(b) Funds for the support of this program shall be appropriated to the Department of Administration as a reserve for payment of the allocable costs for room, board, tuition, and other charges, and shall be placed in a separate budget code from which disbursements shall be made. In the event the said appropriation for any year is insufficient to pay the full amounts allocable under the provisions of this Article, such supplemental sums as may be necessary shall be allocated from the Contingency and Emergency Fund. The method of disbursing and accounting for funds allocated for payments under the provisions of this section shall be in accordance with those standards and procedures prescribed by the Director of the Budget, pursuant to the Executive Budget Act.

(c) Allowances for room and board in State educational institutions shall be at such rate as ~~the Director of the Budget may determine to be reasonable.~~ established by the Secretary of the Department of Administration.

(d) Scholarship recipients electing to attend a private educational institution shall be granted a monetary allowance for each term or other academic period attended under their respective scholarship awards. All recipients under Class I-B scholarship shall receive an allowance at one rate, irrespective of course or institution; all recipients under Classes I-A, II, III and IV shall receive a uniform allowance at a rate higher than for Class I-B, irrespective of course or institution. The amount of said allowances shall be determined by the Director of the Budget and made known prior to the beginning of each fall quarter or semester; provided that the Director of the Budget may change the allowances at intermediate periods when in his judgment such changes are necessary. Disbursements by the State shall be to the private institution concerned, for credit to the account of each recipient attending said institution. The manner of payment to any private institution shall be as prescribed by the Department of Administration. The participation by any private institution in the program shall be subject to the applicable provisions of this Article and to examination by State auditors of the accounts of scholarship recipients attending or having attended private institutions. The Veterans Affairs Commission may defer making an award or may suspend an award in any private institution which does not comply with the provisions of this Article relating to said institutions.

(e) Irrespective of other provisions of this Article, the Veterans Affairs Commission may prescribe special procedures for adjusting the accounts of scholarship recipients who for reasons of illness, physical inability to attend class or for other valid reason satisfactory to the Veterans Affairs Commission may withdraw from State or private educational institutions prior to the completion of the term, semester, quarter or other academic period being attended at the time of withdrawal. Such procedures may include, but shall not be limited to, paying the recipient the dollar value of his unused entitlements for the academic period being attended, with a corresponding deduction of this period from his remaining scholarship eligibility time."

APPROPRIATIONS SUBCOMMITTEE ON GENERAL GOVERNMENT

Tuesday, July 23, 2002

1:30 P. M.

The APPROPRIATIONS SUBCOMMITTEE ON GENERAL GOVERNMENT met on Tuesday, July 23, 2002 at l:30 p.m. in Room 422 of the Legislative Office Building, House members present were: Representatives Wilma Sherrill, Chair; Maggie Jeffus, Chair; Alma Adams; Daniel Barefoot; Marvin Lucas; Mitchell Setzer; and Gene Wilson. Counsel present: Michele Nelson and Marilyn Chism. (Visitor Registration list is attached for the record.)

Representative Wilma Sherrill chaired the meeting. She called the meeting to order, and welcomed those in attendance. She then introduced the pages serving.

Staff submitted House/Senate Comparison Report and Governor's Recommended Reductions for FY 2002-03 to the General Government Committee. (Attachment l)

Following some discussion, Representative Sherrill informed the Committee that General Government did not have a balanced budget and that she wanted to flag two items: Governor's Budget – Page 35J and Secretary of State's Budget – Page 51J. She announced that the Committee needed to find approximately $290,000. She asked the members to come back with any recommendations in order to meet this amount.

There being no further business, the meeting adjourned at 3:25 p.m.

Respectfully submitted,

Representative Wilma Sherrill, Chair

Rosa S. Kelley, Committee Assistant

MINUTES

The Joint Appropriations Subcommittee on General Government met Wednesday, July 24, 2002, at 12:00 Noon in room 425 of the Legislative Office Building. The following Representatives were in attendance: Chairs Maggie Jeffus and Wilma Sherrill, Alma Adams, Daniel Barefoot, Marvin Lucas, Mitchell Setzer and Gene Wilson. A visitor registration list is attached and made part of the minutes.

Representative Jeffus, presiding chair, welcomed the pages, Ms. Catherine Trottmann and Ms. Allison Jessup of Wake County and sponsored by Representative Bill Culpepper.

Representative Jeffus asked the committee to keep in mind that now is the time to offer any amendments, as long as they are kept within the General Government area and have the votes. If you move something around you have to replace it with something else to make sure to balance. Rep. Sherrill announced that she is working on some amendments that are not ready. She would like to reserve the right to submit them at a later meeting.

The Committee will be working with the same handout from the July 23rd meeting, House/Senate Comparison Report and Governor's Recommended Reductions, FY 2002-03, July 22, 2002. (Attachment 1)

ADMINISTRATION: (Pages 1J-12J)

Representative Jeffus called for questions. Ms. Michele Nelson, Staff, called their attention to Page 4J

Representative Jeffus asked that all those in favor of accepting the Department of Administration recommendation say "I", opposed "No". The "I,s" have it.

Ms. Michele Nelson, Staff, called their attention to Page 4J, the recommended adjustment was under number 12, the filled position category, HR Partner, Parttime, change the salary level there to $76, 565. Then make an adjustment in Social Security and Retirement and that would be $96.40. To keep the reduction in the same amount, $804 difference and the $96.40 difference, they will increase the reduction in the Model

Coop Program which is now $8, 118.00 and that will be adjusted to $9,018. That would be a 9.92 percent reduction.

Representative Sherrill moved that they accept the change. Motion carried.

Representative Jeffus stated that since a change was made, will have to revote on the total package. Vote passed.

AUDITOR: (Page 13J)

Representative Jeffus called for questions on changes or amendments. Representative Adams made a motion to accept the House recommendation. Motion carried.

CULTURAL RESOURCES: (Pages 14J-29J)

Will skip until next meeting when the amendments will be ready.

CULTURAL RESOURCES – ROANOKE ISLAND COMMISSION: (Page 30J)

Representative Jeffus called for comments. Representative Sherrill moved that they accept the House version of the budget. Motion carried.

GENERAL ASSEMBLY: (Pages 31J-34J)

Ms. Michele Nelson stated that the only changes are in Items 77 and 78, first paragraph. The Senate eliminates salary and benefits for six vacant positions, eliminates two additional vacant positions in the President Pro Tempore Office, and reduces line items. The House eliminates salary and benefits for six vacant positions, eliminates four additional vacant positions in the President Pro Tempore Office and in the House, and reduce line items. Representative Setzer made the motion to accept the House version of the General Assembly budget. Motion carried.

GOVERNOR: (Page 35J)

Will skip this budget today.

INSURANCE: (Page 36 J)

Representative Setzer moved that they accept the House recommended budget. Motion carried.

INSURANCE – WORKERS' COMPENSATION FOR VOLUNTEERS: (Page 40J)

Representative Wilson moved to accept. Motion carried.

LIEUTENANT GOVERNOR: (Page 41J)

Representative Setzer moves that they accept the House recommendation for the Lieutenant Governor's Office. Motion carried.

OFFICE OF ADMINISTRATIVE HEARINGS: (Page 42 J)

Representative Setzer moves that they accept the House's recommendation for the Office of Administrative Hearings. Motion carried.

OCCANEECHI BAND OF THE SAPONI NATION ON THE NORTH CAROLINA STATE COMMISSION OF INDIAN AFFAIRS

SECTION #.(a) G.S. 143B-407 reads as rewritten:

"**§ 143B-407. North Carolina State Commission of Indian Affairs - membership; term of office; chairman; compensation.**

(a) The State Commission of Indian Affairs shall consist of two persons appointed by the General Assembly, the Secretary of Health and Human Services, the Director of the State Employment Security Commission, the Secretary of Administration, the Secretary of Environment and Natural Resources, the Commissioner of Labor or their designees and ~~20~~ 21 representatives of the Indian community. These Indian members shall be selected by tribal or community consent from the Indian groups that are recognized by the State of North Carolina and are principally geographically located as follows: the Coharie of Sampson and Harnett Counties; the Eastern Band of Cherokees; the Haliwa Saponi of Halifax, Warren, and adjoining counties; the Lumbees of Robeson, Hoke and Scotland Counties; the Meherrin of Hertford County; the Waccamaw-Siouan from Columbus and Bladen Counties; the Indians of Person County; the Occaneechi Band of the Saponi Nation of Alamance and Orange Counties, and the Native Americans located in Cumberland, Guilford, Johnston, Mecklenburg, Orange, and Wake Counties. The Coharie shall have two members; the Eastern Band of Cherokees, two; the Haliwa Saponi, two; the Lumbees, three; the Meherrin, one; the Waccamaw-Siouan, two; the Indians of Person County, one; the Cumberland County Association for Indian People, two; the Guilford Native Americans, two; the Metrolina Native Americans, two; the Occaneechi Band of the Saponi Nation, one, the Triangle Native American Society, one. Of the two appointments made by the General Assembly, one shall be made upon the recommendation of the Speaker, and one shall be made upon recommendation of the President Pro Tempore of the Senate. Appointments by the General Assembly shall be made in accordance with G.S. 120-121 and vacancies shall be filled in accordance with G.S. 120-122.

(b) Members serving by virtue of their office within State government shall serve so long as they hold that office. Members representing Indian tribes and groups shall be elected by the tribe or group concerned and shall serve for three-year terms except that at the first election of Commission members by tribes and groups one member from each tribe or group shall be elected to a one-year term, one member from each tribe or group to a two-year term, and one member from the Lumbees to a three-year term. The

initial appointment from the Indians of Person County shall expire on June 30, 1999. The initial appointment from the Triangle Native American Society shall expire June 30, 2003. The initial appointment of the Occaneechi Band of the Saponi Nation shall expire June 30, 2005. Thereafter, all Commission members will be elected to three-year terms. All members shall hold their offices until their successors are appointed and qualified. Vacancies occurring on the Commission shall be filled by the tribal council or governing body concerned. Any member appointed to fill a vacancy shall be appointed for the remainder of the term of the member causing the vacancy. The Governor shall appoint a chairman of the Commission from among the Indian members of the Commission, subject to ratification by the full Commission. The initial appointments by the General Assembly shall expire on June 30, 1983. Thereafter, successors shall serve for terms of two years.

(c) Commission members who are seated by virtue of their office within the State government shall be compensated at the rate specified in G.S. 138-6. Commission members who are members of the General Assembly shall be compensated at the rate specified in G.S. 120-3.1. Indian members of the commission shall be compensated at the rate specified in G.S. 138-5."

SECTION #.(a) Any expenses incurred under this section shall be paid by the Department of Administration out of existing appropriations.

SCHOLARSHIPS FOR CHILDREN OF WAR VETERANS AMENDMENTS

SECTION 19.3. G.S. 165-20(3) reads as rewritten:

"**§ 165-20. Definitions.**

As used in this Article the terms defined in this section shall have the following meaning:

...

(3) 'Child' means a person: (i) under 25 years of age at the time of application for a scholarship, (ii) who is a domiciliary of North Carolina and is a resident of North Carolina when applying for a scholarship, ~~(ii) who is a senior in high school or its equivalent and who will graduate at the end of the academic year or a person~~ (iii) who has completed high school or its ~~equivalent, (iii)~~ equivalent prior to receipt of a scholarship awarded under this Article, (iv) who has complied with the requirements of the Selective Service System, if applicable, and ~~(iv)~~(v) who further meets one of the following requirements:

a. A person whose veteran parent was a legal resident of North Carolina at the time of said veteran's entrance into that period of service in the armed forces during which eligibility is established under G.S. 165-22.

b. A veteran's child who was born in North Carolina and has ~~lived in~~ been a resident of North Carolina continuously since birth. ~~Provided, that the requirement in the preceding sentence as to birth in North Carolina may be waived by the Department of Administration if it is shown to the satisfaction of the Department that the child's mother was a native-born resident of North Carolina and was such resident at the time of her marriage to the veteran and was outside the State temporarily at the time of the child's birth, following which the child was returned to North Carolina within a reasonable period of time where said child has since lived continuously.~~

c. A person meeting either of the requirements set forth in subdivision (3)a or b above, and who was legally adopted by the veteran prior to said person's reaching the age of 15 years."

SECTION 19.3.(b) G.S. 165-21 reads as rewritten:

"**§ 165-21. Scholarship.**

~~(a)~~ A scholarship granted pursuant to this Article shall consist of the following benefits in either a State or private educational institution:

(1) With respect to State educational institutions, unless expressly limited elsewhere in this Article, a scholarship shall consist of:

a. Tuition,

b. A reasonable board allowance,

c. A reasonable room allowance,

d. Matriculation and other institutional fees required to be paid as a condition to remaining in said institution and pursuing the course of study selected, excluding charges or fees for books, supplies, tools and clothing.

(2) With respect to private educational institutions, a scholarship shall consist of a monetary allowance as prescribed in G.S. 165-22.1(d).

(3) Only one scholarship may be granted pursuant to this Article with respect to each child and it shall not extend for a longer period than four academic years, which years, however, need not be consecutive.

(4) No educational assistance shall be afforded a child under this Article after the end of ~~a 10-year~~ an eight-year period beginning on the date the scholarship is first awarded. Those persons who have been granted a scholarship under this Article prior to the effective date of this act shall be entitled to the remainder of their period of scholarship eligibility if used prior to August 1, ~~1999.~~ 2010. Whenever a child is enrolled in an educational institution and the period of entitlement ends while enrolled in a term, quarter or semester, such period shall be extended to the end of such term, quarter or semester, but not beyond the entitlement limitation of four academic years.

~~(b) If a child is awarded a scholarship under this Article and the child is a senior in high school or its equivalent, then the scholarship shall be awarded pending the graduation of the child.~~"

SECTION 19.3.(c) G.S. 165-22 reads as rewritten:

"**§ 165-22. Classes or categories of eligibility under which scholarships may be awarded.**

A child, as defined in this Article, who falls within the provisions of any eligibility class described below shall, upon proper application be considered for a scholarship, subject to the provisions and limitations set forth for the class under which he is considered:

(1) Class I-A: Under this class a scholarship shall be awarded to any child whose veteran parent

a. Was killed in action or died from wounds or other causes not due to his own ~~wilful~~ willful misconduct while a member of the armed forces during a period of war, or

b. Has died of service-connected injuries, wounds, illness or other causes incurred or aggravated during wartime service in the armed forces, as rated by the United States Department of Veterans Affairs.

(2) Class I-B: Under this class a limited scholarship providing only those benefits set forth in G.S. 165-21(1)a and d and 165-21(2) of this Article, shall be awarded to any child whose veteran parent, at the time the benefits pursuant to this Article are sought to be availed of, is or was at the time of his death receiving compensation for a wartime service-connected disability of one hundred percent (100%) as rated by the United States Department of Veterans Affairs. Provided, that if the veteran parent of a recipient under this class should die of his wartime service-connected condition before the recipient shall have utilized all of his scholarship eligibility time, then the North Carolina Department of Administration shall amend the recipient's award from Class I-B to Class I-A for the remainder of the recipient's eligibility time. The effective date of such an amended award shall be determined by the Department of Administration, but, in no event shall it predate the date of the veteran parent's death.

(3) Class II: Under this class a scholarship may be awarded to not more than 100 children yearly, each of whose veteran parent, at the time the benefits pursuant to this Article are sought to be availed of:

a. Is or was at the time of his death receiving compensation for a wartime service-connected disability of twenty percent (20%) or more, but less than one hundred percent (100%), as rated by the United States Department of Veterans Affairs, or

b. ~~Is or was at the time of his death receiving wartime compensation for a statutory award for arrested pulmonary tuberculosis, as rated by the United States Department of Veterans Affairs.~~Was awarded a Purple Heart for wounds received as a result of an act of any opposing armed force, as a result of an international terrorist attack, or as a result of military operations while serving as part of a peacekeeping force.

(4) Class III: Under this class a scholarship may be awarded to not more than 100 children yearly, each of whose veteran parent, at the time the benefits pursuant to this Article are sought to be availed of:

a. Is or was at the time of his death drawing pension for permanent and total disability, nonservice-connected, as rated by the United States Department of Veterans ~~Affairs, or~~ Affairs.

b. Is deceased and who does not fall within the provisions of any other eligibility class described in G.S. 165-22(1), (2), (3), (4)a., nor ~~(5) provided such child is less than 23 years of age at the time of application for such scholarship.~~(5).

c. Served in a combat zone, or waters adjacent to a combat zone, or any other campaign, expedition, or engagement for which the United States Department of Defense authorizes a campaign badge or medal, who does not fall within the provisions of any other class described in G.S. 165-22(1), (2), (3), (4)a., or (5).

(5) Class IV: Under this class a scholarship as defined in G.S. 165-21 shall be awarded to any child whose parent, while serving honorably as a member of the armed forces of the United States in active federal service during a period of war, as defined in G.S. 165-20(4), was listed by the United States government as (i) missing in action, (ii) captured in line of duty by a hostile force, or (iii) forcibly detained or interned in line of duty by a foreign government or power."

SECTION 19.3.(d) G.S. 165-22.1(c) reads as rewritten:"

"(c) Allowances for room and board in State educational institutions shall be at such rate as ~~the Director of the Budget may determine to be reasonable.~~ Established by the Secretary of the Department of Administration."

APPROPRIATIONS SUBCOMMITTEE
ON
GENERAL GOVERNMENT

Wednesday, July 31, 2002
1:30 P. M.

MINUTES

The Joint Appropriations Subcommittee on General Government met Wednesday, July 31, 2002, at 1:30 p.m. in room 425 of the Legislative Office Building. The following Representatives were in attendance: Chairs Maggie Jeffus and Wilma Sherrill, Alma Adams, Daniel Barefoot, Marvin Lucas, Mitchell Setzer and Gene Wilson. The two staff persons present were: Ms. Michele Nelson and Marilyn Chism. A visitor registration list is attached and made part of the minutes.

Representative Jeffus, presiding chair, welcomed the pages: Ms. Nicole Moore sponsored by Representative Gordan Allen, Mr. Elliot Seeger sponsored by Representative Trudi Walend, and Mr. Thomas Parker sponsored by Representative Gene Arnold.

ADMINISTRATION: (Attachment 1)

Representative Jeffus recognized Ms. Nelson for a clarification. Ms. Nelson referred the committee to the document, General Government, House/Senate Comparison Report and Governor's Recommended Reductions, FY 2002-03, July 22, Page 4 J, Item 12. When the committee met Monday, July 22, 2002, they talked about making some changes because one position had an incorrect salary level. It is under the filled position category, (HR Partner, PT (.50)-#4000-0600-0004-779-$37,369). The correction for the salary is $36,565. This changes nothing else so the reduction would remain as the House recommends it as $827,853 and a reduction of 15.3 positions.

GOVERNOR'S OFFICE: (Attachment 2)

Representative Jeffus stated that at the July 29 meeting, the committee voted on an amendment for the Governor's office and it needs to be recalled and she recognized Representative Sherrill. Representative Sherrill made a motion to recall that amendment for further consideration. Motion carried. She stated that the amendment would increase the deductions in the Governor's office and this amendment to correct that on Page 35J, 81 Personnel Reductions, a vacant assistant press secretary position and restore the Community School money and restore the operating budget reduction. Therefore, the total recommended cut in addition to what has been already presented is $59,168. Representative Sherrill made a motion that they accept this amendment. Motion carried.

Representative Sherrill made a motion to accept the House's recommended budget for the Governor's office as amended. Motion carried.

OFFICE OF ADMINISTRATIVE HEARINGS: (Attachment 3)

The next amendment is for Office of Administrative Hearings on Page 42J, #100 Personnel and Operating Budget Reductions. Representative Sherrill was recognized to make the motion to recall the package for Office of Administrative Hearings budget. Motion carried. Ms. Nelson was recognized to explain the amendment. It would change the reduction for Office of Administrative Hearings to bring it more in line with the Senate package. It would be $11,223 more than the reductions in the Senate. The amendment changes the salary for the Administrative Officer to remain at $40,897 as recommended in the House recommended budget but will change the reduction by increasing funds for the Library and Learning Resources. The Senate package is for $4,619 and the House package will be $6,566. The House will retain the level of Federal Receipts at $22,500. So the total reduction for Office of Administrative Hearings will be $233,742 and that will still remain in the eight percent level of reduction. Representative Sherrill moved to accept. Motion carried. Representative Sherrill moves to accept the package for Office of Administrative Hearings. Motion carried.

STATE BUDGET & MANAGEMENT: (Attachment 4)

Representative Sherrill was recognized for a motion. She moved that the committee recall the budget for State Budget and Management for an amendment. Motion carried.

Representative Sherrill stated that the amendment restores two positions that they removed that are filled. Ms. Chism stated that the amount that you are reducing your reduction items is $102.576. Therefore, item number 127, Personnel Reductions, would total $323,824 and a reduction of six positions. The total reduction would be $383,824 and that would be approximately eight percent. Motion carried in favor of the amendment.

Representative Adams moved to accept the House package for State Budget & Management as amended. Motion carried.

TREASURER: (Attachment 5)

Representative Sherrill moved to recall the budget for the Treasurer's office. Motion carried.

Ms. Chism explained the amendment.

Representative Sherrill moved that the amendment be accepted. Motion carried.

Representative Lucas moved to accept the package for the Treasurer's office as amended. Motion carried.

Representative Jeffus stated that this finishes the money items and she would accept a motion to accept the total House Budget. Representative Sherrill moved to accept. Motion carried.

SPECIAL PROVISIONS, JULY 31, 2002: (Attachment 6)

Department of Administration: OCCANEECHI BAND OF THE SAPONI NATION ON THE NORTH CAROLINA STATE COMMISSION OF INDIAN AFFAIRS. Pages 1-2. Ms. Chism.

It adds a member to the North Carolina State Commission of Indian Affairs. On page 2, lines 18-19, states that expenses incurred shall be paid out of existing appropriations.

Department of Administration: INCREASE EFFICIENCY OF MAIL SERVICE CENTER. Page 3. Ms. Chism.

This provision is identical to a Senate provision.

Department of Administration: REGIONAL OFFICE CONSOLIDATION PLAN. Page 4. Ms. Chism.

This provision is slightly different from the Senate's provision. It directs the Department of Administration to identify regional offices established throughout the state and all state agencies and develop a plan to provide for consolidation of the individual regional offices into a central facility in each region and report is due by November 1, 2002. The difference from the Senate is on line 3, adds in all State agencies, in developing the plan.

Department of Administration: PETROLEUM OVERCHARGE FUNDS ALLOCATION. Page 5. Ms. Chism.

This is a House only provision and it appropriates money for the petroleum overcharge fund.

Department of Administration: SCHOLARSHIPS FOR CHILDREN OF WAR VETERANS AMENDMENTS. Page 6-9. Ms. Chism.

This provision is slightly different from the Senate's provision. It adds an age limit of 25 years at the time of application for a scholarship. On page 7, line 19, limits educational assistance to eight-year period instead of ten-year period. On page 8, lines 28-30, and 41-45, changes the eligibility classification is expanded. On page 9, lines 11-

12, allows the Secretary of the Department of Administration to determine what the budget is for room and board as opposed to the Director of the Budget

FLAGGED ITEM:

Representative Lucas and Adams had questions regarding eligibility of certain persons for scholarships. Since there was not anyone present to answer the specific questions. The committee moved on and will visit this item later.

Department of Cultural Resources: N. C. ARTS COUNCIL LIMIT USE OF CONSULTANTS: Page 10. Ms. Nelson.

The provision directs the Arts Council to limit, not eliminate, consultants to evaluate and approve applications for arts and cultural grants.

Department of Cultural Resources: MUSEUM ADMISSION FEE STUDY: Page 11. Ms. Nelson.

This provision is the same as in the Senate package. It directs the Office of State Budget and Management to study the feasibility of an admission fee to the State's museums and other similar facilities open to the public and this is due November l, 2002.

Office of Administrative Hearings: CONFORMING APA AMENDMENTS: Pages 12-13. Ms. Nelson.

This is a House only provision. It should have been in the Senate's package as it follows the reduction in printing in the Office of Administrative Hearings. This makes the *Register* and *Code* available on the internet and these are the conforming changes to the Statutes.

Representative Sherrill stated that the Senate had a bill covering this that had passed the Senate to the House. Therefore, the House has placed it in a special provision for the budget.

Department of Revenue: LOCAL SALES TAX ADMINISTRATIVE COSTS: Page 14. Ms. Nelson

This is similar to the one in the Senate package. On line 6, the House identifies an amount of $275,000. The Senate did not identify an amount.

Department of Revenue: DOR REPORTS ON DEBT COLLECTION: Page 15. Ms. Nelson.

The change from the Senate provision is on line 6. The date was changed to June 30, 2005 from November 1, 2002. On line 10, identifies that the report must itemize collections by type of tax.

Department of Revenue: DOR VACANT POSITIONS: Page 16. Ms. Nelson.

The language is the same as in the Senate package.

Department of Revenue: DOR DEBT COLLECTION FUNDS: page 17. Ms. Nelson.

This is similar to the one in the Senate package. On line 3, the difference is that the House's position would indicate that this funding is available up to six hundred thousand dollars ($600,000) during the 2002-2003 fiscal year. If additional funding is needed in that year, it can be revisited in a later Session.

Department of Revenue: DOR REPORT ON LOCAL TAX ADMINISTRATION EXPENSES: Page 18. Ms. Nelson.

This is the same language as in the Senate package.

*A motion made.

Department of Revenue: DOR TAXPAYER TELECOMMUNICATIONS SERVICE: Page 19. Ms. Nelson.

This is a new provision by the House.

Representative Sherrill made a motion to leave the provision as it is written but amend the provision by inserting on line 9 a date of October 31, 2002, for reporting to Governmental Operations. Motion carried.

Department of State Controller: OVERPAYMENTS AUDIT: Page 20. Ms. Nelson.

Ms. Nelson reported that this provision is the same as the Senate package.

Representative Jeffus stated that this concluded the special provisions. Are there any questions, etc? A discussion on the special provision, page 18, DOR REPORT ON LOCAL TAX ADMINISTRATION EXPENSES. Representative Sherrill made a motion that on line 10 that number of days be changed from 15 to 20 days. Motion carried.*

Representative Adams had questions regarding the N. C. Arts Council limited use of consultants. Ms. Nelson and Ms. Donna Rosefield from the Department of Cultural Resources answered her questions.

On scholarships for children of war veterans, Representative Lucas referred to page 6, line 17. Mr. Brooks Skinner from the Department of Administration explained who was eligible for the scholarships.

Representative Jeffus asked if there were any other questions or anything to discuss before the vote.

Representative Adams moves that we accept the special provisions as amended. Motion carried.

Representative Jeffus stated that she thinks this will be their last committee meeting and she thanked all the members for attending regularly, all the staff, and the agencies for their assistance.

The meeting adjourned at 2:50 p.m.

Respectfully submitted,

Rep. Maggie Jeffus

moves to amend the House General Government Subcommittee report on page 56J to insert a new record after Fund 1510 Banking, item 135 to adjust the budgets for administrative services (532170) and computer/data processing (532800) to the amounts needed to fund the requirements in the Department's three internal service funds (Fund 1110 - General Administration, Fund 1520 - Financial Operations-Accounting, and Budget Code 73410 - Computer Center). The three internal service funds provide services to the five operating funds (Investment Management, Local Government Operations, Banking, Escheats Fund Administration, and Retirement Operations) and are supported by receipts from those funds. In prior years, continuation budget and expansion adjustments were made in the requirements and receipts for the internal services funds without the necessary adjustments being made in the five operating funds, cumulatively causing an imbalance of $2,048,671 between the budgeted requirements/receipts in the three internal service funds and the funding available in the five operating funds to pay the internal service funds for billed services. The adjustments below align the requirements in the operating funds with the receipts budgeted in the internal service funds.

SECTION #.(a) G.S. 143B-407 reads as rewritten:

"**§ 143B-407. North Carolina State Commission of Indian Affairs - membership; term of office; chairman; compensation.**

(a) The State Commission of Indian Affairs shall consist of two persons appointed by the General Assembly, the Secretary of Health and Human Services, the Director of the State Employment Security Commission, the Secretary of Administration, the Secretary of Environment and Natural Resources, the Commissioner of Labor or their designees and ~~20~~ 21 representatives of the Indian community. These Indian members shall be selected by tribal or community consent from the Indian groups that are recognized by the State of North Carolina and are principally geographically located as follows: the Coharie of Sampson and Harnett Counties; the Eastern Band of Cherokees; the Haliwa Saponi of Halifax, Warren, and adjoining counties; the Lumbees of Robeson, Hoke and Scotland Counties; the Meherrin of Hertford County; the Waccamaw-Siouan from Columbus and Bladen Counties; the Indians of Person County; the Occaneechi Band of the Saponi Nation of Alamance and Orange Counties, and the Native Americans located in Cumberland, Guilford, Johnston, Mecklenburg, Orange, and Wake Counties. The Coharie shall have two members; the Eastern Band of Cherokees, two; the Haliwa Saponi, two; the Lumbees, three; the Meherrin, one; the Waccamaw-Siouan, two; the Indians of Person County, one; the Cumberland County Association for Indian People, two; the Guilford Native Americans, two; the Metrolina Native Americans, two; the Occaneechi Band of the Saponi Nation, one, the Triangle Native American Society, one. Of the two appointments made by the General Assembly, one shall be made upon the recommendation of the Speaker, and one shall be made upon recommendation of the President Pro Tempore of the Senate. Appointments by the General Assembly shall be made in accordance with G.S. 120-121 and vacancies shall be filled in accordance with G.S. 120-122.

(b) Members serving by virtue of their office within State government shall serve so long as they hold that office. Members representing Indian tribes and groups shall be elected by the tribe or group concerned and shall serve for three-year terms except that at the first election of Commission members by tribes and groups one member from each tribe or group shall be elected to a one-year term, one member from each tribe or group to a two-year term, and one member from the Lumbees to a three-year term. The

initial appointment from the Indians of Person County shall expire on June 30, 1999. The initial appointment from the Triangle Native American Society shall expire June 30, 2003. The initial appointment of the Occaneechi Band of the Saponi Nation shall expire June 30, 2005. Thereafter, all Commission members will be elected to three-year terms. All members shall hold their offices until their successors are appointed and qualified. Vacancies occurring on the Commission shall be filled by the tribal council or governing body concerned. Any member appointed to fill a vacancy shall be appointed for the remainder of the term of the member causing the vacancy. The Governor shall appoint a chairman of the Commission from among the Indian members of the Commission, subject to ratification by the full Commission. The initial appointments by the General Assembly shall expire on June 30, 1983. Thereafter, successors shall serve for terms of two years.

(c) Commission members who are seated by virtue of their office within the State government shall be compensated at the rate specified in G.S. 138-6. Commission members who are members of the General Assembly shall be compensated at the rate specified in G.S. 120-3.1. Indian members of the commission shall be compensated at the rate specified in G.S. 138-5."

SECTION #.(a) Any expenses incurred under this section shall be paid by the Department of Administration out of existing appropriations.

SCHOLARSHIPS FOR CHILDREN OF WAR VETERANS AMENDMENTS

SECTION 19.3. G.S. 165-20(3) reads as rewritten:

"**§ 165-20. Definitions.**

As used in this Article the terms defined in this section shall have the following meaning:

...

(3) 'Child' means a person: (i) under 25 years of age at the time of application for a scholarship, (ii) who is a domiciliary of North Carolina and is a resident of North Carolina when applying for a scholarship, ~~(ii) who is a senior in high school or its equivalent and who will graduate at the end of the academic year or a person~~ (iii) who has completed high school or its ~~equivalent, (iii)~~ equivalent prior to receipt of a scholarship awarded under this Article, (iv) who has complied with the requirements of the Selective Service System, if applicable, and ~~(iv)~~(v) who further meets one of the following requirements:

a. A person whose veteran parent was a legal resident of North Carolina at the time of said veteran's entrance into that period of service in the armed forces during which eligibility is established under G.S. 165-22.

b. A veteran's child who was born in North Carolina and has ~~lived in~~ been a resident of North Carolina continuously since birth. ~~Provided, that the requirement in the preceding sentence as to birth in North Carolina may be waived by the Department of Administration if it is shown to the satisfaction of the Department that the child's mother was a native-born resident of North Carolina and was such resident at the time of her marriage to the veteran and was outside the State temporarily at the time of the child's birth, following which the child was returned to North Carolina within a reasonable period of time where said child has since lived continuously.~~

c. A person meeting either of the requirements set forth in subdivision (3)a or b above, and who was legally adopted by the veteran prior to said person's reaching the age of 15 years."

SECTION 19.3.(b) G.S. 165-21 reads as rewritten:

"**§ 165-21. Scholarship.**

~~(a)~~ A scholarship granted pursuant to this Article shall consist of the following benefits in either a State or private educational institution:

(1) With respect to State educational institutions, unless expressly limited elsewhere in this Article, a scholarship shall consist of:

a. Tuition,

b. A reasonable board allowance,

c. A reasonable room allowance,

d. Matriculation and other institutional fees required to be paid as a condition to remaining in said institution and pursuing the course of study selected, excluding charges or fees for books, supplies, tools and clothing.

(2) With respect to private educational institutions, a scholarship shall consist of a monetary allowance as prescribed in G.S. 165-22.1(d).

(3) Only one scholarship may be granted pursuant to this Article with respect to each child and it shall not extend for a longer period than four academic years, which years, however, need not be consecutive.

(4) No educational assistance shall be afforded a child under this Article after the end of ~~a 10-year~~ an eight-year period beginning on the date the scholarship is first awarded. Those persons who have been granted a scholarship under this Article prior to the effective date of this act shall be entitled to the remainder of their period of scholarship eligibility if used prior to August 1, ~~1999.~~ 2010. Whenever a child is enrolled in an educational institution and the period of entitlement ends while enrolled in a term, quarter or semester, such period shall be extended to the end of such term, quarter or semester, but not beyond the entitlement limitation of four academic years.

~~(b) If a child is awarded a scholarship under this Article and the child is a senior in high school or its equivalent, then the scholarship shall be awarded pending the graduation of the child.~~"

SECTION 19.3.(c) G.S. 165-22 reads as rewritten:

"**§ 165-22. Classes or categories of eligibility under which scholarships may be awarded.**

A child, as defined in this Article, who falls within the provisions of any eligibility class described below shall, upon proper application be considered for a scholarship, subject to the provisions and limitations set forth for the class under which he is considered:

(1) Class I-A: Under this class a scholarship shall be awarded to any child whose veteran parent

a. Was killed in action or died from wounds or other causes not due to his own ~~wilful~~ willful misconduct while a member of the armed forces during a period of war, or

b. Has died of service-connected injuries, wounds, illness or other causes incurred or aggravated during wartime service in the armed forces, as rated by the United States Department of Veterans Affairs.

(2) Class I-B: Under this class a limited scholarship providing only those benefits set forth in G.S. 165-21(1)a and d and 165-21(2) of this Article, shall be awarded to any child whose veteran parent, at the time the benefits pursuant to this Article are sought to be availed of, is or was at the time of his death receiving compensation for a wartime service-connected disability of one hundred percent (100%) as rated by the United States Department of Veterans Affairs. Provided, that if the veteran parent of a recipient under this class should die of his wartime service-connected condition before the recipient shall have utilized all of his scholarship eligibility time, then the North Carolina Department of Administration shall amend the recipient's award from Class I-B to Class I-A for the remainder of the recipient's eligibility time. The effective date of such an amended award shall be determined by the Department of Administration, but, in no event shall it predate the date of the veteran parent's death.

(3) Class II: Under this class a scholarship may be awarded to not more than 100 children yearly, each of whose veteran parent, at the time the benefits pursuant to this Article are sought to be availed of:

a. Is or was at the time of his death receiving compensation for a wartime service-connected disability of twenty percent (20%) or more, but less than one hundred percent (100%), as rated by the United States Department of Veterans Affairs, or

b. ~~Is or was at the time of his death receiving wartime compensation for a statutory award for arrested pulmonary tuberculosis, as rated by the United States Department of Veterans Affairs.~~Was awarded a Purple Heart for wounds received as a result of an act of any opposing armed force, as a result of an international terrorist attack, or as a result of military operations while serving as part of a peacekeeping force.

A BILL TO BE ENTITLED

AN ACT TO APPROPRIATE FUNDS TO THE DEPARTMENT OF CULTURAL RESOURCES TO SUPPORT THE NORTH CAROLINA ARTS COUNCIL.

Whereas, North Carolina is known throughout the world for its pottery traditions, literary legacy, Southern Appalachian music traditions, jazz, blues and gospel heritage, and an abundance of artists and arts institutions; and

Whereas, North Carolina's arts community is strong and vibrant and it contributes greatly to the rich quality of life and to the healthy economy that this State enjoys; and

Whereas, the North Carolina Arts Council has worked to build a community of artists and arts organizations so that all of our citizens and visitors to our State will have the opportunity to enjoy the arts; and

Whereas, in 2003, the national average for per capita spending by state arts councils will be $1.50; and

Whereas, an additional $6,000,000 appropriation added to the North Carolina Arts Council's recurring appropriation would allow North Carolina to reach the national average; and

Whereas, in each of the years during the 1999-2001 biennium, the North Carolina Arts Council received a nonrecurring appropriation of $2,000,000; and

Whereas, there is precedent in North Carolina's budgeting process for such an appropriation to become part of the recurring budget in the third year; Now, therefore,

The General Assembly of North Carolina enacts:

SECTION 1. There is appropriated from the General Fund to the Department of Cultural Resources, Division of Arts Council, the sum of two million dollars ($2,000,000) for the 2001-2002 fiscal year and the sum of four million dollars ($4,000,000) for the 2002-2003 fiscal year to support the programs of the North Carolina Arts Council. These funds shall be in addition to appropriations already in the base budget for the North Carolina Arts Council and shall become part of the North Carolina Arts Council's continuation budget.

SECTION 2. This act becomes effective July 1, 2001.
