**SFY 2002-03 BUDGET REDUCTIONS - DHHS DIVISION OPTIONS
DETAIL WORKSHEETS**

Clos_EI Funds

Name of Division/Institution: Division of Public Health , WCH Section

Title of Option: CLOSURE OR REDUCTION OF EARLY INTERVENTION FUNDS TO AREA MENTAL HEALTH CENTERS -- 9% Reduction

Option 22 of 30 for SFY 02-03

Option Applies to Which Reduction Plan(s)? 7% 8% x 9% 10% 11%

Description of Proposed Reduction: (If the reduction impacts the 21XX contracts accounts or 6XXX aid and public assistance accounts, elaborate on the contractors, contracts or programs that will be affected by the reduction.)

A reduction of \$1,325,000 is proposed in the funds that are transferred from the Women's and Children's Health Section, Early Intervention Branch to the Division of Mental Health. These funds are in turn disbursed to 38 local area mental health centers to carry out specified comprehensive early intervention services in all 100 counties, including child service coordination, specialized therapy, respite care, etc. This reduction is slightly above 10 % of the \$12.7 million budgeted for these services.

Program Impact if Reduction is Approved: (Include here any impacts to state maintenance of effort (MOE), lost federal funds if state matching funds are reduced, block grant plans changes needed if reduction approved, as well as key program outcomes or critical services and populations served that will be impacted.)

The Early Intervention Branch estimates that with this reduction, between 600 and 1,250 children would not be provided services. Since every county is impacted, this reduction would be allocated across the 38 agencies serving the 100 counties. **Loss of this funding will put North Carolina out of compliance with the state maintenance of effort (MOE) requirement for the IDEA Part C federal grant received by the state for early intervention services.**

Budgetary Information:

**SFY 2002-03 BUDGET REDUCTIONS - DHHS DIVISION OPTIONS Red_Cancer POC
DETAIL WORKSHEETS**

Name of Division/Institution: Public Health Division/Health Promotion Disease Prevention Section

Title of Option: Reduce Cancer Purchase of Medical Care Program

Option 23 of 30 for SFY 02-03

Option Applies to Which Reduction Plan(s)? 7% 8% 9% x_10% x_11%

Description of Proposed Reduction:

A 15.8% reduction in the cancer control purchase of medical care services program is recommended. NCGS 130A-205 and NCGS 130A-206 authorize the cancer control program and require the state to provide financial aid to indigent citizens for the diagnosis and treatment of cancer or suspected cancer. Administrative rule 15A NCAC 24A.0303 (a) states that payments for services for payment programs, including cancer control, are subject to availability of funds.

Reimbursable cancer services are defined in 15A NCAC 16A.1104 (a) as diagnostic or treatment services for cancer or a condition suggestive of cancer. Physical therapy following surgery is also covered. Clients must meet financial and medical eligibility criteria. To be financially eligible for the cancer control program, gross family income must be at or below 115% of the federal poverty level. To be medically eligible, clients must have a 25% or greater chance of five year survival. Services must be authorized for the provider to be paid.

An estimated 2,600 clients will receive health services through the cancer control purchase of care program in FY02 at a cost of \$2,531,934. A 15.8% cut in the available funds for the cancer control purchase of medical care program will reduce FY03 funds by \$400,000.

Program Impact if Reduction is Approved:

The cancer control program is 100% state-supported. At its FY02 appropriation level of \$2.5M, the cancer control purchase of medical care program will serve 2,600 clients. At the current ratio of diagnostic patients to treatment patients a 15.8% reduction of \$400,000 in cancer control purchase of medical care funding will result in 410 fewer patients being served in FY03 including 109 clients needing cancer treatment.

**SFY 2002-03 BUDGET REDUCTIONS - DHHS DIVISION OPTIONS Closure - DEC
DETAIL WORKSHEETS**

Name of Division/Institution: Division of Public Health, Women's and Children Health Section, Developmental Evaluation Center's.

Title of Option: Closure Developmental Evaluation Center (Morganton)

Option 24 **of** 30 **for SFY 02-03**

Option Applies to Which Reduction Plan(s)? 7% 8% 9% 10% 11%

Description of Proposed Reduction: (If the reduction impacts the 21XX contracts accounts or 6XXX aid and public assistance accounts, elaborate on the contractors, contracts or programs that will be affected by the reduction.)

This reduction involves:

- a) Closing of 1 Developmental Evaluation Center and combining their early intervention services with another two adjacent Developmental Evaluation Centers'.
- b) An across the board reduction in the operating funds (e.g. travel, postage, educational supplies) of the remaining Developmental Evaluation Center's.

Program Impact if Reduction is Approved: (Include here any impacts to state maintenance of effort (MOE), lost federal funds if state matching funds are reduced, block grant plans changes needed if reduction approved, as well as key program outcomes or critical services and populations served that will be impacted.)

This action will result in the reduction in number and type of service for 581 children annually. Loss of this funding may put North Carolina out of compliance with the state maintenance of effort (MOE) requirement for the IDEA Part C federal grant received by the state for early intervention services. A total of 20.5 FTE would be eliminated, all of which are currently filled.

SFY 2002-03 BUDGET REDUCTIONS - DHHS DIVISION OPTIONS Pos _ C&Y
DETAIL WORKSHEETS

Name of Division/Institution: Division of Public Health; WCH Section; Children and Youth Branch

Title of Option: Position Reduction for Children & Youth Branch

Option 26 of 30 for SFY 02-03

Option Applies to Which Reduction Plan(s)? 7% 8% 9% 10% X 11%

Description of Proposed Reduction: (If the reduction impacts the 21XX contracts accounts or 6XXX aid and public assistance accounts, elaborate on the contractors, contracts or programs that will be affected by the reduction.)

PH Program Consultant I - Position #21260 (Children and Youth Training Coordinator): This position manages staff development and training activities for the Children and Youth Branch. Primary job responsibilities include provision of technical support to staff on training/educational needs related to program service delivery; consultation in the areas of needs assessment, evaluation, site facilitation, speaker recruitment, curriculum design, and collaboration with stakeholders, vendors, and the general public. In addition, position manages an educational and training event calendar for the Branch, and coordinates with other Branches in the Women's and Children's Health Section in the development of a variety of training events ranging from technical skills to enrichment, behavior modification, problem solving/prevention, and training in programmatic areas.

Social Research Assistant - Position #21998: The Social Research Assistant works with the NC Child Fatality Task Force. Specific responsibilities include the following: (1) performs research that facilitates the development and enactment of the Task Force legislative recommendations; (2) arranges meetings for the full Task Force plus its three standing committees and its ad hoc work groups; (3) prepares all meeting minutes; (4) assists with the drafting, design, layout and printing of the Task Force's mandated Annual Report to the Governor and General Assembly, and (5) maintains all Task Force's records and files.

Program Impact if Reduction is Approved: (Include here any impacts to state maintenance of effort (MOE), lost federal funds if state matching funds are reduced, block grant plans changes needed if reduction approved, as well as key program outcomes or critical services and populations served that will be impacted.)

The loss of the PH Program Consultant will have an impact on the Children and Youth Branch's training initiatives. The expertise of a Training Coordinator to assist with and facilitate high quality training activities would no longer be available to staff. The elimination of this position will require program managers and clinical consultants to spend more time on planning and implementing workshops/ training (locating and confirming sites and speakers, developing registration, etc.). The educational and training event calendar for the Branch will no longer be provided, and coordination of training activities in general will be less effective.

The reduction of the Social Research Assistant position with the NC Child Fatality Task Force will have implications for administrative support provided to the Task Force. The Task Force is a 37 member legislative commission that studies the causes of all child deaths in NC and recommends steps that can be taken to save children's lives. This position is very effective in facilitating Task Force activities, specifically scheduling, arranging, and documenting the work of not only the Task Force, but each of its operational committees. In addition, the research and gathering of statistical data on safety and health topics that support prevention strategies are core functions of this position. The loss of the Social Research Assistant will mean less efficiency and effectiveness in terms of organizational support for Task Force activities. Additionally, response time to specific Task Force requests on pertinent issues that require in-depth research will be dimensioned. However, some of the position's responsibilities can be assigned to secretarial staff in the Children and Youth Branch.

Both of these positions are currently vacant.

**SFY 2002-03 BUDGET REDUCTIONS - DHHS DIVISION OPTIONS Red_Genetic
DETAIL WORKSHEETS**

Name of Division/Institution: Division of Public Health; WCH Section; Children and Youth Branch

Title of Option Reduction - Children with Special Needs Program – Genetic Health Care Prog.

Option 28 of 30 for SFY 02-03

Option Applies to Which Reduction Plan(s)? x 7% x 8% x 9% x 10% x 11%

Description of Proposed Reduction: (If the reduction impacts the 21XX contracts accounts or 6XXX aid and public assistance accounts, elaborate on the contractors, contracts or programs that will be affected by the reduction.)

We propose to eliminate \$35,000 of unencumbered funds in the Genetic Health Care Unit, Children and Youth Branch. The funds are in the pharmaceutical account. The genetic program purchased special formula for women with PKU at one time but the formula is now purchased from Purchase of Medical Care (Children with Special Health Care Needs Program) or from the WIC budget. For the past two years we have not been permitted to revise those funds into another line item. Since we no longer purchase formula through that program we propose to reduce the account to a zero budget.

We propose to reduce unencumbered funds in the Child Service Coordination Program. We have been unable to reallocate these funds to county health departments over the past several years due to the budget shortfall.

Program Impact if Reduction is Approved: (Include here any impacts to state maintenance of effort (MOE), lost federal funds if state matching funds are reduced, block grant plans changes needed if reduction approved, as well as key program outcomes or critical services and populations served that will be impacted.)

The impact of both reductions is negligible and will not affect children's services. Services will be maintained at the current level of activity.

SFY 2002-03 BUDGET REDUCTIONS - DHHS DIVISION OPTIONS Redtn_IHV Prog
DETAIL WORKSHEETS

Name of Division/Institution: Division of Public Health; WCH Section; Children and Youth Branch

Title of Option: Reduce Intensive Home Visiting Program

Option 29 of 30 for SFY 02-03

Option Applies to Which Reduction Plan(s)? 7% 8% 9% 10% 11%

Description of Proposed Reduction: (If the reduction impacts the 21XX contracts accounts or 6XXX aid and public assistance accounts, elaborate on the contractors, contracts or programs that will be affected by the reduction.)

The Intensive Home Visiting Program (IHV) has an appropriation of \$600,000. Fourteen projects are funded at varying levels. Current funding levels for health department contracts include: 1) Chatham at \$50,000; 2) Cumberland at \$11,000; 3) Halifax at \$35,546; 4) Jackson at \$40,745; 5) Martin at \$40,745; 6) Onslow at \$40,745 but they are discontinuing the service this fiscal year; 7) Orange at \$40,745; 8) Duplin at \$40,745; 9) Forsyth at \$40,745; 10) Mecklenburg at \$20,000; and 11) New Hanover at \$40,745. Non-local contractors and funding include: 1) Ashe Partnership at \$40,000; 2) Guilford United Child Development Center at \$20,000; and 30 Transylvania Community Mental Health center at \$40,000. The appropriation for this program has been significantly reduced over the past several years. In 1997 the appropriation was \$825,000 with an additional \$600,000 contributed from Juvenile Justice for a total budget of \$1,425,000. In fiscal year 2002 funding is a total of \$600,000. Projects are minimally funded and struggling to maintain an effective service delivery system with reduced staff and operating support.

The Duke Center for Public Policy and the Center for Child Health has received a significant grant award to implement a child abuse and neglect prevention program statewide. We believe this new program development will help mitigate the redirection of the Intensive Home Visiting Program.

Program Impact if Reduction is Approved: (Include here any impacts to state maintenance of effort (MOE), lost federal funds if state matching funds are reduced, block grant plans changes needed if reduction approved, as well as key program outcomes or critical services and populations served that will be impacted.)

From 1997 to present the IHV Program has served 872 families. These families receive approximately 2.4 home visits per month, with each visit lasting for approximately an hour. These families are at high risk for poor social and parenting outcomes and the program appears to have produced positive movement toward increased use of prenatal care and a small reduction in pre-term births among families visited pre-natally. The numbers served are not yet sufficient to tie outcomes directly to these interventions. Although we feel that this initiative is important in the fight to reduce child maltreatment, we will make every effort to integrate the strengths of this program into other existing care coordination programs within the state. We plan to work closely with Duke Center for Public Policy to contribute "best practice" standards developed within the IHV program and assist in the continued development of a meaningful and successful statewide effort in this area.

Ten local health departments will lose funding to support Intensive Home Visiting Programs. Medicaid funding for Maternity Care Coordination and Child Service Coordination home visiting may mitigate the impact of this substantial reduction in the Intensive Home Visiting Program.

**SFY 2002-03 BUDGET REDUCTIONS - DHHS DIVISION OPTIONS Cost Shift-Lab Pap smear
DETAIL WORKSHEETS**

Name of Division/Institution: Division of Public Health/Epidemiology Section/State Laboratory of Public Health

Title of Option: Increase Receipts – State Lab Pap Smear Program

Option 30 of 30 for SFY 02-03

Option Applies to Which Reduction Plan(s)? 7% 8% 9% 10% 11%

Description of Proposed Reduction: New receipts will be generated in the Cancer Cytology Program in the NC State Laboratory of Public Health (NCSLPH). Presently, the Cancer Cytology Program requirements total \$2,903,900 funded by \$1,050,00 in Appropriations and \$1,853,900 in receipts (\$1,138,320 Sales of Goods and Services, account 434390; \$615,802 DMA Medicaid Title XIX, account 538375; \$29,778 Title X Family Planning, account 5388AK; and \$70,000 BCCCP, account 5388BQ). **This proposal increases receipts by \$1,050,000, thus making this program 100% receipt funded.**

Currently, the only cost to local health departments is the cost of the test kit (\$7.44). The new receipts will be generated by charging Local Health Departments (LHDs) and State owned facilities a fee of \$7.00 per test specimen in addition to the kit cost. Approximately 150,000 ThinPrep specimens are processed by the State Lab annually; thus, 150,000 tests @ \$7.00 per test = \$1,050,000 in newly generated receipts. Total requirements do not include unfunded replacement equipment costs and anticipated technology upgrades. Consequently, program requirements will increase in out years, necessitating future cost shifting to these agencies.

Despite the increased cost to local health departments, the total cost to complete this test will remain lower than rates available from private sources.

Program Impact if Reduction is Approved:

The State Lab's Cancer Cytology Program provides clinical Pap smear testing and evaluation for over 90% of the Local Health Departments and State owned facilities in the State. Requesting agencies reimburse the State Lab for the cost of the specimen collection kits, which they purchase from the State Lab at cost, and the State pays for the cost of testing and all other program costs. Charging a fee for Pap smear testing further shifts the costs from the State to LHDs and State owned facilities. This cost shifting may result in a reduction in requested services, thereby decreasing the number of women screened for cervical cancer. Furthermore, a significant reduction in requested services will result in a loss of necessary receipts to operate the NCSLPH Cancer Cytology Program, leading to potential RIFs and increased screening results turnaround time.

DETAIL WORKSHEETS**

Name of Division/Institution: Division of Services for the Blind

Title of Recommendation: Reduce Special Assistance for the Blind

Recommendation 1 of 2 for SFY 02-03

Recommendation Applies to Which Reduction Plan(s)? 7% 8% 9% 10% 11%

Description of Proposed Reduction: (If the reduction impacts the 21XX contracts accounts or 6XXX aid and public assistance accounts, elaborate on the contractors, contracts or programs that will be affected by the reduction.)

These funds are budgeted but based on historical program data are not needed to serve the client population. This is an entitlement service and therefore funds would have to be identified if the demand for services should increase dramatically or the rate of payment for domiciliary care should increase significantly.

Program Impact if Reduction is Approved: (Include here any impacts to state maintenance of effort (MOE), lost federal funds if state matching funds are reduced, block grant plans changes needed if reduction approved, as well as key program outcomes or critical services and populations served that will be impacted.)

There will be no impact on other funds. There will be no decrease in services to consumers.

Budgetary Information:

	Fund Number(s)	Fund Title(s)	Account Number	Account Title	Recommended Reduction 2002-03
	1210	Special Assistance for	1XXX	Personal Services

Are statutory changes or special provisions required to implement? Yes No If yes, provide additional information.

Does this request require additional resources/reduced resources to another state agency? Yes No If yes, name the agency and the funds required/reduced.

- Does this request relate to a capital improvement project? Yes No If yes, what is the title of the capital improvement project and the projected completion date?

This reduction will have no impact on local government.

**SFY 2002-03 BUDGET REDUCTIONS - DHHS DIVISION RECOMMENDATIONS
DETAIL WORKSHEETS**

Name of Division/Institution: Division of Services for the Blind

Title of Recommendation: Reduce Medical Eye Care Services and Independent Living Services

Recommendation 2 of 2 for SFY 02-03

Recommendation Applies to Which Reduction Plan(s)? 7% 8% 9% 10% 11%

Description of Proposed Reduction: (If the reduction impacts the 21XX contracts accounts or 6XXX aid and public assistance accounts, elaborate on the contractors, contracts or programs that will be affected by the reduction.)

Medical/Scientific Equipment—This line is used largely to purchase tonometers, equipment used to screen for glaucoma. This is a service that has become available through other programs and is being de-emphasized by DSB.

Educational Supplies—This item has been used to purchase educational materials for nurses to keep them current on eye diseases, treatment, coding, etc. We will supplement hard copy material with Internet use to the extent possible to accommodate this reduction.

Nursing Eye Care Consultant Position—While the elimination of this position does mean that clients who are referred for services might wait longer to see the nurse, the work done by the position in a six-county area in the North Central part of the state has been redistributed since August, 2000, when the nurse went out on leave. That employee was officially separated from service in September, 2001. During the lengthy time when the position was not occupied, accommodations were made to handle the workload.

Program Impact if Reduction is Approved: (Include here any impacts to state maintenance of effort (MOE), lost federal funds if state matching funds are reduced, block grant plans changes needed if reduction approved, as well as key program outcomes or critical services and populations served that will be impacted.)

These reductions are 100% state funds, so there will be no impact on other funding sources, MOE, etc.

With respect to services provided, it is expected that even though a decrease in some areas such as glaucoma screenings could occur, it is also noted that this is a service now available through other resources. Also, as noted, the Division has made staff reassignments to accommodate for the long-term vacancy that has existed in the position that is proposed for elimination. It is our belief that the work previously done by that position can, on a permanent basis, be absorbed into the workloads of other staff.

DETAIL WORKSHEETS**

Name of Division/Institution:
Social Services

Title of Recommendation: State Adult Services Fund

Recommendation 1 **of** 27 **for SFY 02-03**

Recommendation Applies to Which Reduction Plan(s)? 7% 8% 9% 10% 11%

Description of Proposed Reduction:

Elimination of this fund in its entirety. Fund has not been used in 7 years.

Program Impact if Reduction is Approved:

The elimination of these funds does affect local governments. This fund has not paid for any abortions since 1995 when the state law was changed establishing eligibility criteria so restrictive that almost no one qualifies. Medicaid is the other public funding sources that can be used for abortions. A very small number are paid for by Medicaid, due to strict federal eligibility criteria. The maximum number of abortion procedures this fund could pay for per year at \$1,500 per procedure is 33.

Social Services

Title of Recommendation: Operation Costs Reduction

Recommendation 2 of 27 for SFY 02-03

Recommendation Applies to Which Reduction Plan(s)? 7% 8% 9% 10% 11%

Description of Proposed Reduction:

The Adult and Family Services Section has identified reductions in operational costs that include travel and purchasing, as well as other administrative costs. These savings are being realized through greater coordination and travel planning, a reduction in printing, and related cost cutting measures such as prioritized spending.

Program Impact if Reduction is Approved:

There is no impact on local government. Costs for travel, printing, purchase of equipment and supplies, etc will be reduced by \$50,000.

Social Services

Title of Recommendation: Resident Evaluation Services

Recommendation 3 of 27 for SFY 02-03

Recommendation Applies to Which Reduction Plan(s)? 7% 8% 9% 10% 11%

Description of Proposed Reduction:

Eliminate this fund in its entirety. Program is not operational yet.

Program Impact if Reduction is Approved:

Eliminating these funds will eliminate the ability of county departments of social services to assess all Special Assistance applicants and recipients (24,000 elderly and disabled adults) to determine whether adult care home level of care is needed, to identify and refer Special Assistance recipients who may need mental health services, and to provide technical assistance to adult care home staff on how to use the new assessment instrument to develop more comprehensive care plans to improve quality of care and safety for residents. Funding for this program is 65% Medicaid, 30% State, 5% County.

Title of Recommendation: State Maternity Home Fund

Recommendation 4 **of** 27 **for SFY 02-03**

Recommendation Applies to Which Reduction Plan(s)? 7% 8% X9% X10% X11%

Description of Proposed Reduction

Reduce state appropriations in this fund to the level that is required to match federal funds available to pay for maternity home care.

Program Impact if Reduction is Approved:

At the current budget and per diem rates, approximately 175 clients utilize this fund to pay for maternity home care annually. If state funds are reduced to \$96,648 (the amount needed to match the federal Title IV-B funds), a total budget of \$386,592 will exist with a savings of \$876,708 in state funds. \$386,592 will provide care for 45 women for 3 months each (the average length of stay). To continue serving 175 people, TANF Block Grant funds allocated to county departments of social services can be used by them to purchase this care and individuals will have to obtain help from family members, the father of the child and his family, or others. Also, per diem rates could be capped at SFY02 rates or a flat rate could be established to allow more people to be served. Current per diem rates range from \$63 per day to \$117 per day. Rates are set by DHHS Controller's Office based on audited cost reports from the maternity homes.

**SFY 2002-03 BUDGET REDUCTIONS - DHHS DIVISION RECOMMENDATIONS
DETAIL WORKSHEETS**

Name of Division/Institution:

Social Services

Title of Recommendation: State/County Special Assistance for Adults

Recommendation 6 of 27 for SFY 02-03

Recommendation Applies to Which Reduction Plan(s)? 7% 8% 9% 10% 11%

Description of Proposed Reduction:

Maintain the SFY03 State/County Special Assistance for Adults payment rate at the SFY '02 amount. Also, to assure that state and county appropriations do not exceed the amounts appropriated, manage monthly payments so that a 5% reserve is maintained until last quarter of fiscal year before paying available funds to recipients.

Program Impact if Reduction is Approved:

State/County Special Assistance for Adults is a program funded entirely with state appropriations and county receipts. No federal funds are available for this purpose. Cash payments are made directly to eligible elderly and disabled adults to help them pay for care in adult care homes. The cash payment is used to supplement the income of these individuals so that they have enough money to pay for the cost of care in an adult care home. Special Assistance expenditures have grown by \$44.7 million over the past 5 years, a growth of 47.75%. The budget for SFY03 is \$250,576,201, an increase of \$5,943,655 over the SFY02 budget. Maintaining the Special Assistance SFY '02 rate at \$1,091 per month for SFY03 will save \$2,345,157 in state funds and \$2,345,157 in county funds for SFY '03.

In order to assure that SFY03 expenditures do not exceed the SFY02 budget amount, monthly payments to Special Assistance recipients will need to be made at the 95% level and supplemental checks issued at the end of the fiscal year to pay an amount up to the \$1,091 rate, depending upon the availability of funds. The 95% payment schedule is needed to cover potential caseload growth. The number of new Special Assistance recipients that will be added to the program in SFY03 cannot be precisely predicted. Thus, this budget reserve process is needed to allow for growth in the caseload and still stay within the state and county budgets. Eligibility Information System programming changes will be required for this; at least two months advance notice must be given to DIRM for these programming changes.

Social Services

Title of Recommendation: Adult Home Specialist Fund

Recommendation 7 of 27 for SFY 02-03

Recommendation Applies to Which Reduction Plan(s)? 7% 8% 9% 10% 11%

Description of Proposed Reduction:

Eliminate this fund in its entirety.

Program Impact if Reduction is Approved:

The elimination of these funds has the following impact on local government. There is a potential loss of 70 of 161 county FTE's as a result of the reductions indicated below. The remaining 91 county FTE's are supported with Social Service Block Grant and local matching funds. Caseloads at the county level will increase from 14 to 25 homes per Adult Home Specialist. This will reduce the capacity of county departments of social services to monitor adult care homes for compliance with state licensure standards, limit their ability to help facilities develop corrective action plans, and reduce their ability to follow-up to assure that facilities carry out corrective action plans. Residents will be at greater risk for personal health and safety. Families will be aggravated and concerned about diminished local oversight of these facilities. Funding for this program is 50% Medicaid.

Social Services

Title of Recommendation: Adult Home Case Management

Recommendation 8 of 27 for SFY 02-03

Recommendation Applies to Which Reduction Plan(s)? 7% 8% 9% 10% 11%

Description of Proposed Reduction:

Eliminate this fund in its entirety.

Program Impact if Reduction is Approved:

Eliminating these funds will eliminate the ability of county departments of social services to determine whether State/County Special Assistance recipients in adult care homes are eligible for Medicaid reimbursement for Enhanced Personal Care Services. A prior approval process is required by Medicaid to assure that residents do in fact need total or extensive assistance with toileting, feeding, and/or ambulation. If this county DSS function is eliminated, some other prior approval mechanism must be established and paid for. Facilities receive approximately \$20 million in Medicaid payments annually for providing Enhanced Personal Care Services to approximately 5,000 recipients based on prior approval by county DSSs. In addition, these case managers will stop obtaining health and social services for Special Assistance recipients such as eyeglasses, medical equipment, cataract surgery, getting families involved and interacting with the family members who live in these facilities, arranging for residents to attend church, getting dental care, and many other things that add dignity and comfort to their lives. This program is paid for by 50% Medicaid, 25% State, and 25% County.

Social Services

Title of Recommendation: CCPT Grant

Recommendation 9 of 27 for SFY 02-03

Recommendation Applies to Which Reduction Plan(s)? 7% 8% 9% 10% 11%

Description of Proposed Reduction: (If the reduction impacts the 21XX contracts accounts or 6XXX aid and public assistance accounts, elaborate on the contractors, contracts or programs that will be affected by the reduction.)

This reduction will eliminate the Community Child Protection Team Grant program. Each county is required by statute to have an interdisciplinary Community Child Protection Team. The purpose of the Team is to assess and improve the functioning of the child protection system in the county. The CCPT Grant program has distributed funds on a competitive basis to these Teams as seed money to demonstrate creative approaches to improving their child protection systems.

Program Impact if Reduction is Approved: (Include here any impacts to state maintenance of effort (MOE), lost federal funds if state matching funds are reduced, block grant plans changes needed if reduction approved, as well as key program outcomes or critical services and populations served that will be impacted.)

Local Government will be effected. The membership of the local CCPTs will view this reduction as a loss of critical financial support from the Division. The grant program has helped to promote the system planning function of the CCPTs since funds were available to implement their creative strategies for improvement. The CCPTs will have to secure foundation grants to implement their plans or other local funds.

DETAIL WORKSHEETS**

Name of Division/Institution:
Social Services

Title of Recommendation: Operation Costs Reduction

Recommendation 10 of 27 for SFY 02-03

Recommendation Applies to Which Reduction Plan(s)? 7% 8% 9% 10% 11%

Description of Proposed Reduction: (If the reduction impacts the 21XX contracts accounts or 6XXX aid and public assistance accounts, elaborate on the contractors, contracts or programs that will be affected by the reduction.)

This reduction will reduce traveling, association fees, conferences, equipment purchases, printing costs, etc. of Division staff based in Raleigh and regionally.

Program Impact if Reduction is Approved: (Include here any impacts to state maintenance of effort (MOE), lost federal funds if state matching funds are reduced, block grant plans changes needed if reduction approved, as well as key program outcomes or critical services and populations served that will be impacted.)

This reduction will mean that Children's Services staff will not have the benefit of participating in networking meetings and professional conferences. There will be some criticism from county DSS agencies of the Division's ability to print mandated forms and materials. Forms are now being placed on the DSS web site for download by counties. This will allow counties to print forms as needed and will allow counties to have the most current forms available immediately. This should reduce waste of State resources when changes are made.

All counties have access to the forms on the DSS web site. Counties will incur the cost of printing forms. The cost of printing forms is much less expensive than shipping forms to the counties. NCR forms will be distributed by the section responsible for the document in the future.

DETAIL WORKSHEETS**

Name of Division/Institution:
Social Services

Title of Recommendation: Contracts

Recommendation 11 of 27 for SFY 02-03

Recommendation Applies to Which Reduction Plan(s)? 7% 8% 9% 10% 11%

Description of Proposed Reduction: (If the reduction impacts the 21XX contracts accounts or 6XXX aid and public assistance accounts, elaborate on the contractors, contracts or programs that will be affected by the reduction.)

This reduction involves a reduction in Children's Services contracts for training, program evaluation, legal consultation, adoption services, expert medical consultation on child fatality reviews, etc. The Division is required by statute to provide the training opportunities necessary for county DSS staff to meet statutory pre-service and continuing education requirements.

Program Impact if Reduction is Approved: (Include here any impacts to state maintenance of effort (MOE), lost federal funds if state matching funds are reduced, block grant plans changes needed if reduction approved, as well as key program outcomes or critical services and populations served that will be impacted.)

This reduction will have an effect on local government. In combination with the reduction in TANF funds for child welfare training, this reduction will mean the likely elimination of the Child Welfare Training Collaborative with the state's MSW and BSW schools to train students for professional careers in public child welfare. It may mean the closure of one of our regional training centers located on a community college campus. It will reduce the performance-based contracts with private adoption agencies. It will reduce our contract with the Attorney General's Office (currently 9 positions for a total of \$607,441 of which \$189,495 is state funding), the General Baptist State Convention for targeted recruitment of African-American foster and adoptive families, providers of interpreting services, and training of older children in foster care.

Name of Division/Institution:

Social Services

Title of Recommendation: Position savings

Recommendation 12 of 27 for SFY 02-03

Recommendation Applies to Which Reduction Plan(s)? 7% 8% 9% 10% 11%

Description of Proposed Reduction: (If the reduction impacts the 21XX contracts accounts or 6XXX aid and public assistance accounts, elaborate on the contractors, contracts or programs that will be affected by the reduction.)

This reduction will eliminate 9 positions, 6 filled and 3 vacant. This includes eliminating 3 program manager positions and consolidating the existing 7 Section teams into 4 teams.

Program Impact if Reduction is Approved: (Include here any impacts to state maintenance of effort (MOE), lost federal funds if state matching funds are reduced, block grant plans changes needed if reduction approved, as well as key program outcomes or critical services and populations served that will be impacted.)

This reduction will establish a less hierarchical and more team-oriented structure within the Section, with fewer manager positions and a significantly expanded span of control for the remaining 4 administrator positions. Lead worker assignments must be made for this to be workable. Two of the program managers are some of the most experienced and knowledgeable child welfare professionals in the Section for whom we would have to find other positions in the Section. The reduction will significantly diminish the Section's capacity to provide intensive, on-site assistance to county DSS agencies that are poor performers in child welfare.

Social Services

Title of Recommendation: Adoption Assistance

Recommendation 13 of 27 for SFY 02-03

Recommendation Applies to Which Reduction Plan(s)? 7% 8% 9% 10% 11%

Description of Proposed Reduction: (If the reduction impacts the 21XX contracts accounts or 6XXX aid and public assistance accounts, elaborate on the contractors, contracts or programs that will be affected by the reduction.)

This reduction will require a reduction in the amount of financial adoption assistance provided to families that adopt special needs foster children and/or a reduction in the number of foster children who are adopted.

Program Impact if Reduction is Approved: (Include here any impacts to state maintenance of effort (MOE), lost federal funds if state matching funds are reduced, block grant plans changes needed if reduction approved, as well as key program outcomes or critical services and populations served that will be impacted.)

The amount of adoption assistance provided to families that adopt special needs foster children has not been increased in many years. If the amount is decreased, it will create a financial disincentive for foster families to adopt. Currently, approximately 75% of adopted foster children are adopted by their foster parents. If the amount is decreased, children will stay longer in foster care, without a safe, permanent family of their own. This will increase state costs, as foster care costs far exceed adoption costs. Any effort to limit the number of foster children who are adopted will very likely constitute a violation of federal law and policy and result in legal action. At present, at least 26 states operate their child welfare system under court order and supervision.

**SFY 2002-03 BUDGET REDUCTIONS - DHHS DIVISION RECOMMENDATIONS
DETAIL WORKSHEETS**

Name of Division/Institution:

Social Services

Title of Recommendation: Adoption Assistance

Recommendation 13 of 27 for SFY 02-03

Recommendation Applies to Which Reduction Plan(s)? 7% 8% 9% 10% 11%

Description of Proposed Reduction: (If the reduction impacts the 21XX contracts accounts or 6XXX aid and public assistance accounts, elaborate on the contractors, contracts or programs that will be affected by the reduction.)

This will require a reduction in the amount of financial adoption assistance provided to families that adopt special needs foster children and/or a reduction in the number of foster children who are adopted.

Program Impact if Reduction is Approved: (Include here any impacts to state maintenance of effort (MOE), lost federal funds if state matching funds are reduced, block grant plans changes needed if reduction approved, as well as key program outcomes or critical services and populations served that will be impacted.)

The amount of adoption assistance provided to families that adopt special needs foster children has not been increased in many years. If the amount is decreased, it will create a financial disincentive for foster families to adopt. Currently, approximately 75% of adopted foster children are adopted by their foster parents. If the amount is decreased, children will stay longer in foster care, without a safe, permanent family of their own. This will increase state costs, as foster care costs far exceed adoption costs. Any effort to limit the number of foster children who are adopted will very likely constitute a violation of federal law and policy and result in legal action. At present, at least 26 states operate their child welfare system under court order and supervision.

Social Services

Title of Recommendation: Family Resource Center

Recommendation 14 of 27 for SFY 02-03

Recommendation Applies to Which Reduction Plan(s)? 7% 8% 9% 10% 11%

Description of Proposed Reduction: (If the reduction impacts the 21XX contracts accounts or 6XXX aid and public assistance accounts, elaborate on the contractors, contracts or programs that will be affected by the reduction.)

This reduction eliminates state funding for Family Resource Centers in 46 counties of 49 counties.

Program Impact if Reduction is Approved: (Include here any impacts to state maintenance of effort (MOE), lost federal funds if state matching funds are reduced, block grant plans changes needed if reduction approved, as well as key program outcomes or critical services and populations served that will be impacted.)

These Family Resource Centers are an important part of the state's effort to prevent child abuse and neglect. Each FRC is physically located in a neighborhood from which a disproportionate number of child abuse reports are received and from which a disproportionate number of children enter foster care. Each FRC has a working agreement with the county DSS to assist families from their neighborhoods that come into contact with the child welfare system. Each FRC also provides youth educational achievement and parenting improvement as core services. A number of these centers will close as a result of this reduction. The number of children entering foster care will likely increase along with foster care costs.

Budgetary Information:

Social Services

Title of Recommendation: Child Caring Institutions

Recommendation 15 of 27 for SFY 02-03

Recommendation Applies to Which Reduction Plan(s)? 7% 8% 9% 10% 11%

Description of Proposed Reduction: (If the reduction impacts the 21XX contracts accounts or 6XXX aid and public assistance accounts, elaborate on the contractors, contracts or programs that will be affected by the reduction.)

This reduction will significantly reduce the State Funds Program, in existence for over 30 years, that provides financial support to private foster care agencies.

Program Impact if Reduction is Approved: (Include here any impacts to state maintenance of effort (MOE), lost federal funds if state matching funds are reduced, block grant plans changes needed if reduction approved, as well as key program outcomes or critical services and populations served that will be impacted.)

The State Funds Program provides funds to private foster care agencies to offset their unrecovered cost of care. The reduction in this Fund will mean that these agencies will have to charge more of their costs to the counties, that already bear a heavier share of foster care costs than the state. This reduction will generate significant negative reaction from the private agencies and from the county DSS agencies as a cost-shifting measure.

Social Services

Title of Recommendation: Intensive Family Preservation Services

Recommendation 16 of 27 for SFY 02-03

Recommendation Applies to Which Reduction Plan(s)? 7% 8% 9% 10% x 11%

Description of Proposed Reduction: (If the reduction impacts the 21XX contracts accounts or 6XXX aid and public assistance accounts, elaborate on the contractors, contracts or programs that will be affected by the reduction.)

In combination with the loss of nearly \$2 million in federal TANF funds for Intensive Family Preservation Services, this reduction will significantly reduce the Intensive Family Preservation Services program in the state.

Program Impact if Reduction is Approved: (Include here any impacts to state maintenance of effort (MOE), lost federal funds if state matching funds are reduced, block grant plans changes needed if reduction approved, as well as key program outcomes or critical services and populations served that will be impacted.)

IFPS is a highly cost-effective, secondary prevention program in 60 counties. This program annually prevents hundreds of children from entering foster care unnecessarily and the associated foster care costs. With this reduction, the number of children entering foster care will definitely increase as will foster care costs. This relationship has been well documented in objective evaluations of the program since its inception.

Social Services

Title of Recommendation: Training Contract

Recommendation 17 of 27 for SFY 02-03

Recommendation Applies to Which Reduction Plan(s)? 7% 8% 9% 10% 11%

Description of Proposed Reduction: (If the reduction impacts the 21XX contracts accounts or 6XXX aid and public assistance accounts, elaborate on the contractors, contracts or programs that will be affected by the reduction.)

Contractor staff has been dismissed as of January, 2002. Existing Child Support Enforcement Central office staff has assumed these training responsibilities for local offices.

Program Impact if Reduction is Approved: (Include here any impacts to state maintenance of effort (MOE), lost federal funds if state matching funds are reduced, block grant plans changes needed if reduction approved, as well as key program outcomes or critical services and populations served that will be impacted.)

Note: There are 15 State operated programs and 87 County operated programs.

This cut results in a loss of \$1,283,706 in Federal Funds to North Carolina as well as reduced training opportunities to the 87 local CSE offices across the state. Thus this will have a negative impact on (1) Federal audit assessments of the CSE program, (2) State audit assessments of the CSE program, (3) Local staffs' performance. All of these issues will reduce the quality and quantity of service delivered to our clients.

Reduced training opportunities to the local offices across the state because there are fewer trainers now, than when there was a vendor. The central office staff that will be absorbing the training function have existing job functions that must be done in addition to the new training functions these central office persons absorb. Under the vendor arrangement locals could ask for and receive training as deemed necessary and trainers would go to their counties to train. With this reduction, 12 training sessions per year will be offered at specific training sites. This affords counties with limited training opportunities compared to the "on demand" training to which counties were accustomed. In addition, counties must now travel to these sites.

**SFY 2002-03 BUDGET REDUCTIONS - DHHS DIVISION RECOMMENDATIONS
DETAIL WORKSHEETS**

Name of Division/Institution:
Social Services

Title of Recommendation: Elimination of Help Desk Contract

Recommendation 18 of 27 for SFY 02-03

Recommendation Applies to Which Reduction Plan(s)? X_7% X_8% X_9% X_10% X_11%

Description of Proposed Reduction: (If the reduction impacts the 21XX contracts accounts or 6XXX aid and public assistance accounts, elaborate on the contractors, contracts or programs that will be affected by the reduction.)

The Contract staff was dismissed January 2002. The Help Desk function was transferred to existing Central Office staff. The purpose of the Help Desk is to assist local CSE office staff resolve difficult case management problems. This speeds up service delivery to our clients.

Program Impact if Reduction is Approved: (Include here any impacts to state maintenance of effort (MOE), lost federal funds if state matching funds are reduced, block grant plans changes needed if reduction approved, as well as key program outcomes or critical services and populations served that will be impacted.)

Note: There are 15 State operated programs and 87 County operated programs.

This cut will result in the loss of \$459,680 of Federal funds to the state of North Carolina. This cut will also reduce the response time to Help Desk calls received and resolved at the Central Office since fewer state staff are attempting to handle the same volume of calls previously handled by a larger contract staff. This loss will slow down case handling at the local level and will therefore, impact service delivery to clients.

DETAIL WORKSHEETS**

Name of Division/Institution:
Social Services

Title of Recommendation: Backlog Appropriation
Recommendation 19 of 27 for SFY 02-03

Recommendation Applies to Which Reduction Plan(s)? X 7% X 8% X 9% X 10% X 11%

Description of Proposed Reduction: (If the reduction impacts the 21XX contracts accounts or 6XXX aid and public assistance accounts, elaborate on the contractors, contracts or programs that will be affected by the reduction.)

This appropriation was to fund a Child Support Enforcement (CSE) backlog reduction in urban counties. Caseloads are being reduced through restructuring of case handling procedures. This funding was specifically placed in the Budget, (Sections 21.54A), by the Legislature to address Mecklenburg Co.CSE state operated office's cases without orders. The Legislature defined having no child support order as being in "backlog". It is not clear if this was intended for any county operated CSE offices. CSE will continue to address the backlog without this funding.

Program Impact if Reduction is Approved: (Include here any impacts to state maintenance of effort (MOE), lost federal funds if state matching funds are reduced, block grant plans changes needed if reduction approved, as well as key program outcomes or critical services and populations served that will be impacted.)

Note: There are 15 State operated programs and 87 County operated programs.

This will result in a \$3,000,000 loss of Federal funds to the State of North Carolina. The backlog is presently being addressed via a restructuring of available state staff and focusing additional attention on the court process as well as case handling procedures. The impact on clients will be negligible.

Social Services

Title of Recommendation: Operational Cost Reduction

Recommendation 20 of 27 for SFY 02-03

Recommendation Applies to Which Reduction Plan(s)? X_7% X_8% X_9% X_10% X_11%

Description of Proposed Reduction: (If the reduction impacts the 21XX contracts accounts or 6XXX aid and public assistance accounts, elaborate on the contractors, contracts or programs that will be affected by the reduction.)

Operational costs for Child Support Enforcement purchases, travel, postage plus other administrative costs have been streamlined and reduced.

Program Impact if Reduction is Approved: (Include here any impacts to state maintenance of effort (MOE), lost federal funds if state matching funds are reduced, block grant plans changes needed if reduction approved, as well as key program outcomes or critical services and populations served that will be impacted.)

Note: There are 15 State operated programs and 87 County operated programs.

There will be a \$150,000 loss of Federal revenues to N.C.. Purchases will be limited to essential items only. This slows the workflow and raises client frustration with a state agency. Limited travel and restricted postage will add to this burden.

Title of Recommendation: Ohio State Treasurer – Contract

Recommendation 21 of 27 for SFY 02-03

Recommendation Applies to Which Reduction Plan(s)? 7% 8% 9% 10% 11%

Description of Proposed Reduction: (If the reduction impacts the 21XX contracts accounts or 6XXX aid and public assistance accounts, elaborate on the contractors, contracts or programs that will be affected by the reduction.)

A contract with a consortium of states to address public awareness has been terminated. The state of Ohio was the lead state.

Program Impact if Reduction is Approved: (Include here any impacts to state maintenance of effort (MOE), lost federal funds if state matching funds are reduced, block grant plans changes needed if reduction approved, as well as key program outcomes or critical services and populations served that will be impacted.)

Note: There are 15 State operated programs and 87 County operated programs.

The termination of the contract results in the loss of \$40,785 of Federal revenue to North Carolina. The termination further presents a lost opportunity for a multi-state outreach program.

**SFY 2002-03 BUDGET REDUCTIONS - DHHS DIVISION RECOMMENDATIONS
DETAIL WORKSHEETS**

Name of Division/Institution:

Social Services

Title of Recommendation: Position Savings

Recommendation 22 of 27 for SFY 02-03

Recommendation Applies to Which Reduction Plan(s)? X_7% X_8% X_9% X_10% X_11%

Description of Proposed Reduction: (If the reduction impacts the 21XX contracts accounts or 6XXX aid and public assistance accounts, elaborate on the contractors, contracts or programs that will be affected by the reduction.)

Reduction of 35 frozen positions will cause additional duties to be assigned to existing CSE staff. These functions have already been absorbed since there has been a hiring freeze in place since January 2001. 35% or 13 of the total are from the Martin County Customer Service Center, the positions are Program Assistants IV, pay grade 59. The remaining 22 positions are from 17 state operated offices and the central office, only 2 of these positions are over pay grade 61, the majority are pay grade 59.

Program Impact if Reduction is Approved: (Include here any impacts to state maintenance of effort (MOE), lost federal funds if state matching funds are reduced, block grant plans changes needed if reduction approved, as well as key program outcomes or critical services and populations served that will be impacted.)

Note: There are 15 State operated programs and 87 County operated programs.

State Operated agents and office staff are doing the work of the vacant positions in addition to their own workload. If approved, and or vacancies are not unfrozen for hiring, the workload will continue to grow and work may go undone.

This cut results in the loss of \$619,645 in Federal funds to North Carolina. In addition to the revenue loss, the loss of the positions has resulted in a lessening of the level of service to our clients. A backlog build up of case management issues has resulted as well as a general slowing of performance levels in local CSE offices. It is anticipated that this staff loss will result in the following decrease in services rendered over a 12 month period of time.

Recommendation 23 of 27 for SFY 02-03

Recommendation Applies to Which Reduction Plan(s)? 7% 8% 9% 10% 11%

Description of Proposed Reduction: (If the reduction impacts the 21XX contracts accounts or 6XXX aid and public assistance accounts, elaborate on the contractors, contracts or programs that will be affected by the reduction.)

Savings in this area are realized through the targeted elimination of four (4) positions, 2 filled and 2 vacant, in the Economic Independence Section.

Program Impact if Reduction is Approved: (Include here any impacts to state maintenance of effort (MOE), lost federal funds if state matching funds are reduced, block grant plans changes needed if reduction approved, as well as key program outcomes or critical services and populations served that will be impacted.)

The MOE position has been vacant all year and will not have an impact on meeting the yearly MOE.

**SFY 2002-03 BUDGET REDUCTIONS - DHHS DIVISION RECOMMENDATIONS
DETAIL WORKSHEETS**

Name of Division/Institution:

Social Services

Title of Recommendation: Operational Cost Reduction

Recommendation 24 of 27 for SFY 02-03

Recommendation Applies to Which Reduction Plan(s)? 7% 8% 9% 10% 11%

Description of Proposed Reduction: (If the reduction impacts the 21XX contracts accounts or 6XXX aid and public assistance accounts, elaborate on the contractors, contracts or programs that will be affected by the reduction.)

The Economic Independence Section has identified reductions in operational costs that include travel and purchasing, as well as other administrative costs. These savings are being realized through greater coordination and travel planning, a reduction in printing, and related cost cutting measures such as prioritized spending.

Program Impact if Reduction is Approved: (Include here any impacts to state maintenance of effort (MOE), lost federal funds if state matching funds are reduced, block grant plans changes needed if reduction approved, as well as key program outcomes or critical services and populations served that will be impacted.)

A reduction in operational costs has the potential of affecting the State's ability to respond effectively to the needs of county departments of social services. For example, the Economic Independence Section has been able to reduce operational costs by reducing the number of hard copy documents (policy directives/manuals) being provided to county departments of social services, resulting in lower Section printing costs. Program manuals have been placed on the Internet, which means that staff at local department of social services is able to gain access to manuals and administrative letters on-line. Unfortunately not all counties are able to provide staff access to the Internet, therefore, reducing printing means that counties must assume responsibilities for providing staff copies beyond the minimum number provided by the Section.

In addition, an overall reduction in travel has also required that local support staff prioritize visits to county departments of social services for consultation and technical assistance visits. This reduction is forcing staff to focus attention on the worst program situations in most cases, while not making or reducing visits to counties to ensure that the appropriate level of service is being maintained. This mode of operation places the Section in a position of dealing with problems after the fact (since some management data is not available for four or more weeks) rather than being in a position to effectively work with counties before situations truly become problematic.

SFY 2002-03 BUDGET REDUCTIONS - DHHS DIVISION RECOMMENDATIONS
DETAIL WORKSHEETS

Name of Division/Institution: Vocational Rehabilitation Services

Title of Recommendation: Personnel Reduction

Recommendation 1 of 3 for SFY 02-03

Recommendation Applies to Which Reduction Plan(s)? 7% 8% 9% 10% 11%

Description of Proposed Reduction: (If the reduction impacts the 21XX contracts accounts or 6XXX aid and public assistance accounts, elaborate on the contractors, contracts or programs that will be affected by the reduction.)

RIF of approximately 20 positions in Raleigh and field locations across the state. Reduction in administrative expenses, but not in 2199 contracts. Reduction in case service expenditures for direct client services, i.e. fewer dollars will be available to provide vocational or independent living services for eligible people with disabilities. Vendors potentially affected are training providers (community colleges, universities, trade schools, community rehabilitation programs, etc.), doctors and hospitals, durable medical equipment providers, psychologists, etc.

Program Impact if Reduction is Approved: (Include here any impacts to state maintenance of effort (MOE), lost federal funds if state matching funds are reduced, block grant plans changes needed if reduction approved, as well as key program outcomes or critical services and populations served that will be impacted.)

Based on current financial information and projections, there is no impact on Maintenance of Effort or state match.

The Division has reviewed its administrative expenditures and identified several areas (supplies, equipment, travel) which can be reduced up to approximately \$400,000 without substantial negative impact in achieving our fundamental mission.

The Division has begun the process of evaluating its structure and resource allocation, which should result in the ability to RIF up to 20 positions without substantial impact on our ability to serve the public. The Division's management team has reviewed every position in the organization in the past week, and is identifying those which can be eliminated to meet this goal. We believe we can use vacant positions and avoid severance costs if the RIF is confined to no more than 20 positions. Of course, vacancies are not always in the classifications or geographical locations that we need to accomplish this goal. We would need to work closely with HR to assure that we could manage this process fairly and effectively.

The Division has begun implementing stricter case policies and is developing proposed rules that should lead to a reduction in the need for case service dollars without substantial reduction in the number of people served. In addition, our federal appropriation is increasing.

The Division has historically leaned toward a liberal interpretation of its case policies, making every effort to provide benefits to its clients, while staying within the limits of law and regulation. The staff are in the profession because of a desire to help people. However, facing the budget situation fairly means that we must refocus on conservative interpretations of current policies, and consider new policies that allow us to stretch the dollars to serve people.

Examples of case policy tightening that have been recently implemented or will be contained in proposed rules include:

- Verification of client income; at present we do not require any documentation of income, e.g. a check stub, an income tax form, etc.
- Clarification of when a client is a "family of one", i.e., when the family's assets would have to be considered for financial eligibility
- Increased emphasis on use of comparable benefits, e.g. Pell Grants to assist client with tuition
- Emphasis on using a client's transferable work skills to find employment instead of retraining where feasible

Needs testing where allowable by the federal rehabilitation law. The Division voluntarily waived needs testing for training services (e.g., from universities, community colleges, trade schools, or community rehabilitation programs) a few years ago. While training is often the key to successful vocational rehabilitation outcomes, there are more alternate resources available to pay for training costs than for most other services provided by the Division. In an austere budget climate, needs testing training services is a fair way to stretch the dollar. The Division is developing draft rules to effect this change, in accordance with APA requirements

- Order of Selection – the federal rehabilitation law allows states to create categories of applicants; when resources are limited, the Division can then stop serving categories, based upon a published and agreed upon “Order of Selection” that assures that people with the most significant disabilities are still served. In effect, the Division creates a waiting list of applicants with less significant disabilities. Without proper implementation of an Order of Selection, under federal law the Division must serve all eligible applicants. Once services have been stopped for a category, they cannot be restarted unless the Division believes it has the resources to serve all potential members of the category. Experience from other states shows that it is possible to close and later reopen services to various categories with careful management.

The Division has an existing policy on Order of Selection, but it must be updated to reflect the federal amendments of 1998. It is also very important that we increase the number of categories in our plan, so that smaller groups are affected if services must be stopped to a category, and recovery can be made more quickly. Our federal State Plan must be amended to reflect the updated plan for Order of Selection, and there must be public hearings. In addition, we must amend our rules through the APA. The Division is preparing draft rules to implement Order of Selection and increase our number of categories, and expects to change our APA rules and amend our State Plan through a parallel, not sequential, process.

**SFY 2002-03 BUDGET REDUCTIONS - DHHS DIVISION RECOMMENDATIONS
DETAIL WORKSHEETS**

Name of Division/Institution: Vocational Rehabilitation Services

Title of Recommendation: Personnel Reduction

Recommendation 1 of 3 for SFY 02-03

Recommendation Applies to Which Reduction Plan(s)? 7% 8% 9% 10% X 11%

Description of Proposed Reduction: (If the reduction impacts the 21XX contracts accounts or 6XXX aid and public assistance accounts, elaborate on the contractors, contracts or programs that will be affected by the reduction.)

RIF of approximately 25 positions in Raleigh and field locations across the state. Reduction in administrative expenses, but not in 2199 contracts. Reduction in case service expenditures for direct client services, i.e. fewer dollars will be available to provide vocational or independent living services for eligible people with disabilities. Vendors potentially affected are training providers (community colleges, universities, trade schools, community rehabilitation programs, etc.), doctors and hospitals, durable medical equipment providers, psychologists, etc.

Program Impact if Reduction is Approved: (Include here any impacts to state maintenance of effort (MOE), lost federal funds if state matching funds are reduced, block grant plans changes needed if reduction approved, as well as key program outcomes or critical services and populations served that will be impacted.)

Based on current financial information and projections, there is no impact on Maintenance of Effort or state match.

The Division has reviewed its administrative expenditures and identified several areas (supplies, equipment, travel) which can be reduced up to approximately \$400,000 without substantial negative impact in achieving our fundamental mission.

The Division has begun the process of evaluating its structure and resource allocation, which should result in the ability to RIF up to 20 positions without substantial impact on our ability to serve the public. The Division's management team has reviewed every position in the organization in the past week, and is identifying those which can be eliminated to meet this goal. We believe we can use vacant positions and avoid severance costs if the RIF is confined to no more than 20 positions. Of course, vacancies are not always in the classifications or geographical locations that we need to accomplish this goal. We would need to work closely with HR to assure that we could manage this process fairly and effectively. However, loss of an additional 5 positions would require additional study and could impinge on service delivery.

The Division has begun implementing stricter case policies and is developing proposed rules that should lead to a reduction in the need for case service dollars without substantial reduction in the number of people served. In addition, our federal appropriation is increasing. However, at the 11% level the Division may be forced to begin creating a waiting list of new applicants with less severe disabilities. Based on annualized client data, the waiting list could reach approximately 7,500 to 8,000 in the first 12 months.

The Division has historically leaned toward a liberal interpretation of its case policies, making every effort to provide benefits to its clients, while staying within the limits of law and regulation. The staff are in the profession because of a desire to help people. However, facing the budget situation fairly means that we must refocus on conservative interpretations of current policies, and consider new policies that allow us to stretch the dollars to serve people.

Examples of case policy tightening that have been recently implemented or will be contained in proposed rules include:

- Verification of client income; at present we do not require any documentation of income, e.g. a check stub, an income tax form, etc.
- Clarification of when a client is a "family of one", i.e., when the family's assets would have to be considered for financial eligibility
- Increased emphasis on use of comparable benefits, e.g. Pell Grants to assist client with tuition
- Emphasis on using a client's transferable work skills to find employment instead of retraining where feasible
- Needs testing where allowable by the federal rehabilitation law. The Division voluntarily waived needs testing for training services (e.g., from universities, community colleges, trade schools, or community rehabilitation programs) a few years ago. While training is often the key to successful vocational rehabilitation outcomes, there are more alternate resources

available to pay for training costs than for most other services provided by the Division. In an austere budget climate, needs testing training services is a fair way to stretch the dollar. The Division is developing draft rules to effect this change, in accordance with APA requirements

- Order of Selection – the federal rehabilitation law allows states to create categories of applicants; when resources are limited, the Division can then stop serving categories, based upon a published and agreed upon “Order of Selection” that assures that people with the most significant disabilities are still served. In effect, the Division creates a waiting list of applicants with less significant disabilities. Without proper implementation of an Order of Selection, under federal law the Division must serve all eligible applicants. Once services have been stopped for a category, they cannot be restarted unless the Division believes it has the resources to serve all potential members of the category. Experience from other states shows that it is possible to close and later reopen services to various categories with careful management.

The Division has an existing policy on Order of Selection, but it must be updated to reflect the federal amendments of 1998. Recommendation 2 of 3 for SFY 02-03

Recommendation Applies to Which Reduction Plan(s)? X 7% X 8% X 9% X 10% X 11%

Description of Proposed Reduction: (If the reduction impacts the 21XX contracts accounts or 6XXX aid and public assistance accounts, elaborate on the contractors, contracts or programs that will be affected by the reduction.)

RIF of approximately 20 positions in Raleigh and field locations across the state. Reduction in administrative expenses, but not in 2199 contracts. Reduction in case service expenditures for direct client services, i.e. fewer dollars will be available to provide vocational or independent living services for eligible people with disabilities. Vendors potentially affected are training providers (community colleges, universities, trade schools, community rehabilitation programs, etc.), doctors and hospitals, durable medical equipment providers, psychologists, etc.

Program Impact if Reduction is Approved: (Include here any impacts to state maintenance of effort (MOE), lost federal funds if state matching funds are reduced, block grant plans changes needed if reduction approved, as well as key program outcomes or critical services and populations served that will be impacted.)

Based on current financial information and projections, there is no impact on Maintenance of Effort or state match.

The Division has reviewed its administrative expenditures and identified several areas (supplies, equipment, travel) which can be reduced up to approximately \$400,000 without substantial negative impact in achieving our fundamental mission.

The Division has begun the process of evaluating its structure and resource allocation, which should result in the ability to RIF up to 20 positions without substantial impact on our ability to serve the public. The Division's management team has reviewed every position in the organization in the past week, and is identifying those which can be eliminated to meet this goal. We believe we can use vacant positions and avoid severance costs if the RIF is confined to no more than 20 positions. Of course, vacancies are not always in the classifications or geographical locations that we need to accomplish this goal. We would need to work closely with HR to assure that we could manage this process fairly and effectively.

The Division has begun implementing stricter case policies and is developing proposed rules that should lead to a reduction in the need for case service dollars without substantial reduction in the number of people served. In addition, our federal appropriation is increasing.

The Division has historically leaned toward a liberal interpretation of its case policies, making every effort to provide benefits to its clients, while staying within the limits of law and regulation. The staff are in the profession because of a desire to help people. However, facing the budget situation fairly means that we must refocus on conservative interpretations of current policies, and consider new policies that allow us to stretch the dollars to serve people.

Examples of case policy tightening that have been recently implemented or will be contained in proposed rules include:

- Verification of client income; at present we do not require any documentation of income, e.g. a check stub, an income tax form, etc.
- Clarification of when a client is a "family of one", i.e., when the family's assets would have to be considered for financial eligibility
- Increased emphasis on use of comparable benefits, e.g. Pell Grants to assist client with tuition
- Emphasis on using a client's transferable work skills to find employment instead of retraining where feasible
- Needs testing where allowable by the federal rehabilitation law. The Division voluntarily waived needs testing for training services (e.g., from universities, community colleges, trade schools, or community rehabilitation programs) a few years ago. While training is often the key to successful vocational rehabilitation outcomes, there are more alternate resources available to pay for training costs than for most other services provided by the Division. In an austere budget climate, needs testing training services is a fair way to stretch the dollar. The Division is developing draft rules to effect this change, in accordance with APA requirements

- Order of Selection – the federal rehabilitation law allows states to create categories of applicants; when resources are limited, the Division can then stop serving categories, based upon a published and agreed upon “Order of Selection” that assures that people with the most significant disabilities are still served. In effect, the Division creates a waiting list of applicants with less significant disabilities. Without proper implementation of an Order of Selection, under federal law the Division must serve all eligible applicants. Once services have been stopped for a category, they cannot be restarted unless the Division believes it has the resources to serve all potential members of the category. Experience from other states shows that it is possible to close and later reopen services to various categories with careful management.

The Division has an existing policy on Order of Selection, but it must be updated to reflect the federal amendments of 1998. It is also very important that we increase the number of categories in our plan, so that smaller groups are affected if services must be stopped to a category, and recovery can be made more quickly. Our federal State Plan must be amended to reflect the updated plan for Order of Selection, and there must be public hearings. In addition, we must amend our rules through the APA. The Division is preparing draft rules to implement Order of Selection and increase our number of categories, and expects to change our APA rules and amend our State Plan through a parallel, not sequential, process.

Budgetary Information:

Fund Number(s)	Fund Title(s)	Account Number	Account Title	Recommended Reduction 2002-03
1101,1102, 1103,1104, 1305	Management & Support, Counseling & Placement-State, Counseling & Placement-3 RD Party, Agency Operated Facility, Independent Living	1XXX	Personal Services	700,000
			Less Severance Costs	
		21XX	Contracted Services	
1101,1102, 1103,1104, 1305	Management & Support, Counseling & Placement-State, Counseling & Placement-3 RD Party, Agency Operated Facility, Independent Living	22XX-5XXX	Operating Expenses	400,000
1105	Case Services	6XXX	Aid and Public Assistance	2,354,311

SFY 2002-03 BUDGET REDUCTIONS - DHHS DIVISION RECOMMENDATIONS
DETAIL WORKSHEETS

Name of Division/Institution: Vocational Rehabilitation Services

Title of Recommendation: Direct Client Service Reductions

Recommendation 3 of 3 for SFY 02-03

Recommendation Applies to Which Reduction Plan(s)? 7% 8% 9% 10% 11%

Description of Proposed Reduction: (If the reduction impacts the 21XX contracts accounts or 6XXX aid and public assistance accounts, elaborate on the contractors, contracts or programs that will be affected by the reduction.)

RIF of approximately 20 positions in Raleigh and field locations across the state. Reduction in administrative expenses, but not in 2199 contracts. Reduction in case service expenditures for direct client services, i.e. fewer dollars will be available to provide vocational or independent living services for eligible people with disabilities. Vendors potentially affected are training providers (community colleges, universities, trade schools, community rehabilitation programs, etc.), doctors and hospitals, durable medical equipment providers, psychologists, etc.

Program Impact if Reduction is Approved: (Include here any impacts to state maintenance of effort (MOE), lost federal funds if state matching funds are reduced, block grant plans changes needed if reduction approved, as well as key program outcomes or critical services and populations served that will be impacted.)

Based on current financial information and projections, there is no impact on Maintenance of Effort or state match.

The Division has reviewed its administrative expenditures and identified several areas (supplies, equipment, travel) which can be reduced up to approximately \$400,000 without substantial negative impact in achieving our fundamental mission.

The Division has begun the process of evaluating its structure and resource allocation, which should result in the ability to RIF up to 20 positions without substantial impact on our ability to serve the public. The Division's management team has reviewed every position in the organization in the past week, and is identifying those which can be eliminated to meet this goal. We believe we can use vacant positions and avoid severance costs if the RIF is confined to no more than 20 positions. Of course, vacancies are not always in the classifications or geographical locations that we need to accomplish this goal. We would need to work closely with HR to assure that we could manage this process fairly and effectively.

The Division has begun implementing stricter case policies and is developing proposed rules that should lead to a reduction in the need for case service dollars without substantial reduction in the number of people served. In addition, our federal appropriation is increasing.

The Division has historically leaned toward a liberal interpretation of its case policies, making every effort to provide benefits to its clients, while staying within the limits of law and regulation. The staff are in the profession because of a desire to help people. However, facing the budget situation fairly means that we must refocus on conservative interpretations of current policies, and consider new policies that allow us to stretch the dollars to serve people.

Examples of case policy tightening that have been recently implemented or will be contained in proposed rules include:

- Verification of client income; at present we do not require any documentation of income, e.g. a check stub, an income tax form, etc.
- Clarification of when a client is a "family of one", i.e., when the family's assets would have to be considered for financial eligibility
- Increased emphasis on use of comparable benefits, e.g. Pell Grants to assist client with tuition
- Emphasis on using a client's transferable work skills to find employment instead of retraining where feasible
- Needs testing where allowable by the federal rehabilitation law. The Division voluntarily waived needs testing for training services (e.g., from universities, community colleges, trade schools, or community rehabilitation programs) a few years ago. While training is often the key to successful vocational rehabilitation outcomes, there are more alternate resources available to pay for training costs than for most other services provided by the Division. In an austere budget climate, needs testing training services is a fair way to stretch the dollar. The Division is developing draft rules to effect this change, in accordance with APA requirements

- Order of Selection – the federal rehabilitation law allows states to create categories of applicants; when resources are limited, the Division can then stop serving categories, based upon a published and agreed upon “Order of Selection” that assures that people with the most significant disabilities are still served. In effect, the Division creates a waiting list of applicants with less significant disabilities. Without proper implementation of an Order of Selection, under federal law the Division must serve all eligible applicants. Once services have been stopped for a category, they cannot be restarted unless the Division believes it has the resources to serve all potential members of the category. Experience from other states shows that it is possible to close and later reopen services to various categories with careful management.

The Division has an existing policy on Order of Selection, but it must be updated to reflect the federal amendments of 1998. It is also very important that we increase the number of categories in our plan, so that smaller groups are affected if services must be stopped to a category, and recovery can be made more quickly. Our federal State Plan must be amended to reflect the updated plan for Order of Selection, and there must be public hearings. In addition, we must amend our rules through the APA. The Division is preparing draft rules to implement Order of Selection and increase our number of categories, and expects to change our APA rules and amend our State Plan through a parallel, not sequential, process.

DETAIL WORKSHEETS**

Name of Division/Institution: Vocational Rehabilitation Services

Title of Recommendation: Direct Client Service Reductions

Recommendation 3 of 3 for SFY 02-03

Recommendation Applies to Which Reduction Plan(s)? 7% 8% 9% 10% 11%

Description of Proposed Reduction: (If the reduction impacts the 21XX contracts accounts or 6XXX aid and public assistance accounts, elaborate on the contractors, contracts or programs that will be affected by the reduction.)

RIF of approximately 25 positions in Raleigh and field locations across the state. Reduction in administrative expenses, but not in 2199 contracts. Reduction in case service expenditures for direct client services, i.e. fewer dollars will be available to provide vocational or independent living services for eligible people with disabilities. Vendors potentially affected are training providers (community colleges, universities, trade schools, community rehabilitation programs, etc.), doctors and hospitals, durable medical equipment providers, psychologists, etc.

Program Impact if Reduction is Approved: (Include here any impacts to state maintenance of effort (MOE), lost federal funds if state matching funds are reduced, block grant plans changes needed if reduction approved, as well as key program outcomes or critical services and populations served that will be impacted.)

Based on current financial information and projections, there is no impact on Maintenance of Effort or state match.

The Division has reviewed its administrative expenditures and identified several areas (supplies, equipment, travel) which can be reduced up to approximately \$400,000 without substantial negative impact in achieving our fundamental mission.

The Division has begun the process of evaluating its structure and resource allocation, which should result in the ability to RIF up to 20 positions without substantial impact on our ability to serve the public. The Division's management team has reviewed every position in the organization in the past week, and is identifying those which can be eliminated to meet this goal. We believe we can use vacant positions and avoid severance costs if the RIF is confined to no more than 20 positions. Of course, vacancies are not always in the classifications or geographical locations that we need to accomplish this goal. We would need to work closely with HR to assure that we could manage this process fairly and effectively. However, loss of an additional 5 positions would require additional study and could impinge on service delivery.

The Division has begun implementing stricter case policies and is developing proposed rules that should lead to a reduction in the need for case service dollars without substantial reduction in the number of people served. In addition, our federal appropriation is increasing. However, at the 11% level the Division may be forced to begin creating a waiting list of new applicants with less severe disabilities. Based on annualized client data, the waiting list could reach approximately 7,500 to 8,000 in the first 12 months.

The Division has historically leaned toward a liberal interpretation of its case policies, making every effort to provide benefits to its clients, while staying within the limits of law and regulation. The staff are in the profession because of a desire to help people. However, facing the budget situation fairly means that we must refocus on conservative interpretations of current policies, and consider new policies that allow us to stretch the dollars to serve people.

Examples of case policy tightening that have been recently implemented or will be contained in proposed rules include:

- Verification of client income; at present we do not require any documentation of income, e.g. a check stub, an income tax form, etc.
- Clarification of when a client is a "family of one", i.e., when the family's assets would have to be considered for financial eligibility
- Increased emphasis on use of comparable benefits, e.g. Pell Grants to assist client with tuition

Emphasis on using a client's transferable work skills to find employment instead of retraining where feasible

- Needs testing where allowable by the federal rehabilitation law. The Division voluntarily waived needs testing for training services (e.g., from universities, community colleges, trade schools, or community rehabilitation programs) a few years ago. While training is often the key to successful vocational rehabilitation outcomes, there are more alternate resources

available to pay for training costs than for most other services provided by the Division. In an austere budget climate, needs testing training services is a fair way to stretch the dollar. The Division is developing draft rules to effect this change, in accordance with APA requirements

- Order of Selection – the federal rehabilitation law allows states to create categories of applicants; when resources are limited, the Division can then stop serving categories, based upon a published and agreed upon “Order of Selection” that assures that people with the most significant disabilities are still served. In effect, the Division creates a waiting list of applicants with less significant disabilities. Without proper implementation of an Order of Selection, under federal law the Division must serve all eligible applicants. Once services have been stopped for a category, they cannot be restarted unless the Division believes it has the resources to serve all potential members of the category. Experience from other states shows that it is possible to close and later reopen services to various categories with careful management.

The Division has an existing policy on Order of Selection, but it must be updated to reflect the federal amendments of 1998. It is also very important that we increase the number of categories in our plan, so that smaller groups are affected if services must be stopped to a category, and recovery can be made more quickly. Our federal State Plan must be amended to reflect the updated plan for Order of Selection, and there must be public hearings. In addition, we must amend our rules through the APA. The Division is preparing draft rules to implement Order of Selection and increase our number of categories, and expects to change our APA rules and amend our State Plan through a parallel, not sequential, process.

Budgetary Information:

	Fund Number(s)	Fund Title(s)	Account Number	Account Title	Recommended Reduction 2002-03

DETAIL WORKSHEETS**

Name of Division/Institution: Division of Medical Assistance

Title of Option: Establish the "efficient provider" for services provided in the long-term care setting
Option 1 of 23 for SFY 02-03

Description of Option: By reviewing cost report information and correlating this information with patient needs, DMA could establish an operating profile of the "efficient provider". Payment amounts to providers would be based on the performance of this efficient provider serving patients with varying levels of needs. As such, costs would be reviewed to establish appropriate payment limits on the various cost categories and to limit adverse impacts due to low occupancy rates. Prospective payment rates then would promote cost effective decisions by providers and would reduce the influence of cost reimbursements insofar as such reimbursements currently affect future rate determinations. The separate payments for direct and indirect costs as well as the distinct payment for return on equity might be eliminated.

Program Impact if Option is Approved: Some providers may not be able to sustain operations and may go out of business.

Budgetary Information:

	Fund Number(s)	Fund Title(s)	Account Number	Account Title	Reduction 2002-03

DETAIL WORKSHEETS**

Name of Division/Institution: Division of Medical Assistance

Title of Option: Contract for Home Health Supplies
Option 2 of 23 for SFY 02-03

Description of Option: Home Health Supplies presently are paid by use of a fee schedule. This program includes items such as diapers, wound dressings and bandages. There is no restriction on the number of providers who may enroll in Medicaid to provide services. The current number of enrolled providers is 169. Contracting with fewer providers is expected to be less expensive than the current fee schedule. Successful bidding contractors would be assured of a market that is adequate in size to promote cost effective operations, and such cost effective operations should promote a lower cost for services. The contractor will have to assure appropriate service provisions to meet Medicaid recipient needs. Durable Medical Equipment and Home Infusion Therapy would be included in this contract.

Program Impact if Option is Approved: By using a limited number of providers under a contract there is a potential that other Medicaid enrolled providers may not be able to sustain operations and may go out of business..

Budgetary Information:

DETAIL WORKSHEETS**

Name of Division/Institution: Division of Medical Assistance

Title of Option: Establish Prospective Rates for Home Health Services
Option 5 of 23 for SFY 02-03

Description of Option: Review costs of care and correlate these costs to the specific needs of recipients. Prospective rate payments would be based on a needs assessment that reflects these specific needs by recipient, and payment would be made to the provider based upon the assessment. Payment would no longer be tied to the number of provider visits but tied instead to the recipient's specific needs. Medicare has moved to a prospective (fixed amount) payment. The move has reduced Medicare cost without a deterioration in the level of patient care.

Program Impact if Option is Approved: No adverse impact is expected based on the Medicare experience.

Budgetary Information:

DETAIL WORKSHEETS**

Name of Division/Institution: Division of Medical Assistance

Title of Option: Reduce Payments to Hospitals
Option 6 of 23 for SFY 02-03

Description of Option: Examine payments to Hospitals for inpatient, outpatient and emergency services and determine the least harmful reductions in payments which may be realized. Options to be considered include using waivers to reduce hospital costs associated with billing to Medicaid, implementing a revised outpatient/emergency payment method (currently paid at 80% of cost) to relate payment to service received or applying a 5% reduction to current payment rates. Some portion of reductions to be achieved may be offset by increases in supplemental payments which cover a portion of hospital deficits.

Program Impact if Option is Approved: Payments to hospitals do not reflect current costs. Reductions in total payments will reduce hospital receipts further. Because hospitals are expected to provide services to Medicaid recipients, the financial viability of some hospitals may be affected.

Budgetary Information:

	Fund Number(s)	Fund Title(s)	Account Number	Account Title	Reduction 2002-03
	1310	Medical Assist. Payments	536101	Hospital Inpatient General	\$63,525,363

DETAIL WORKSHEETS**

Name of Division/Institution: Division of Medical Assistance

Title of Option: Contract for drugs used by Medicaid covered residents of Nursing, ICF-MR's and Adult Care Home Facilities

Option 7 of 23 for SFY 02-03

Description of Option: Utilize contract(s) to provide prescribed drugs to Medicaid recipients receiving services in the long-term care setting. There are more than 50,000 Medicaid recipients in nursing facilities, ICF-MR's, and Adult Care Homes at the present time. Prescription drug services are provided to this population through the regular drug program. Under this program, prescription drugs for these recipients are sourced from local retail pharmacies. Using a contract model, the Medicaid program would obtain a "best" price on prescription drugs for this recipient population. The contract model is a viable approach because the recipient population that resides in group settings is stable, as to location as well as length of stay. Assurances will have to be obtained to support initial supply and timely provision of medicines.

Program Impact if Option is Approved: The number of pharmacies providing services to Medicaid recipients may decrease.

Budgetary Information:

	Fund Number(s)	Fund Title(s)	Account Number	Account Title	Reduction 2002-03
	1310	Medical Assist. Payments	536130	Prescription Drugs	\$12,859,042

DETAIL WORKSHEETS**

Name of Division/Institution: Division of Medical Assistance

Title of Option: Elimination of Chiropractic optional services
Option 8 of 23 for SFY 02-03

Description of Option: Eliminate coverage for chiropractor services for adult Medicaid recipients. North Carolina Medicaid covers manual manipulation of the spine to correct subluxation which has resulted in a neuromusculoskeletal condition for which manipulation is appropriate and delivered by a duly licensed chiropractor. In an average month, 1,571 adult recipients received chiropractic services during SFY01 from 630 enrolled providers. Visits are included in the 24 – visit limit to medical providers.

Program Impact if Option is Approved: Elimination of this service is likely to decrease expenditures. To relieve symptoms however, some recipients may seek other treatment modalities such as medication, physical therapy or surgery.

Budgetary Information:

	Fund Number(s)	Fund Title(s)	Account Number	Account Title	Reduction 2002-03
	1310	Medical Assist. Payments	536118	Chiropractic	\$1,047,008
REQUIREMENTS					\$1,047,008

ESTIMATES SUBJECT TO CHANGE BASED ON FUTURE PROJECTIONS

**SFY 2002-03 BUDGET REDUCTIONS - DHHS DIVISION OPTIONS
DETAIL WORKSHEETS**

Name of Division/Institution: Division of Medical Assistance

Title of Option: Elimination of Eyeglasses Coverage optional services
Option 9 of 23 for SFY 02-03

Description of Option: Eliminate coverage for eyeglasses supplied for adult Medicaid recipients. Currently, North Carolina Medicaid covers one pair of eyeglasses once each year for recipients from birth to 24 years of age. One pair of eyeglasses is covered once every two years for recipients age 25 and older. In an average month, 12,138 adult recipients received eyeglasses during SFY01.

Program Impact if Option is Approved: As a result of this elimination, eyeglasses generally would not be available to low income adults. Because eyeglasses are sourced from the North Carolina Department of Corrections, that agency would lose revenue and job opportunities for inmates. This action could increase demands placed on the Division of Services for the Blind by a small number of clients who would be eligible for that agency's services.

Budgetary Information:

	Fund Number(s)	Fund Title(s)	Account Number	Account Title	Reduction 2002-03

Name of Division/Institution: Division of Medical Assistance

Title of Option: Elimination of Podiatry optional services
Option 11 of 23 for SFY 02-03

Description of Option: Eliminate coverage of podiatry services for adult Medicaid recipients. Currently, North Carolina Medicaid covers trimming of nails and routine foot care only when there is a medical condition. Surgical treatments to the foot and ankle are covered also. Trimming of nails and routine foot care is not covered by Medicaid in the absence of a medical condition. In an average month, 5,287 adult recipients received services from 259 enrolled podiatrists during SFY01. Visits are included in the 24 – limit to medical providers.

Program Impact if Option is Approved: Elimination of the podiatric provider specialty is likely to reduce expenditures. Most surgeries will be performed still, but by enrolled physicians. Nursing facilities may see a shift in demand to perform podiatric tasks for some patients.

Budgetary Information:

	Fund Number(s)	Fund Title(s)	Account Number	Account Title	Reduction 2002-03
	1310	Medical Assist. Payments	536120	Podiatry	\$1,683,084
REQUIREMENTS					\$1,683,084
RECEIPTS					\$1,143,525
APPROPRIATIONS					\$539,559
NO. OF POSITIONS					

Other Considerations

- Are statutory changes or special provisions required to implement? Yes No If yes, provide additional information. -- Would require State Plan and APA changes
- Does this option require additional resources/reduced resources to another state agency? Yes No If yes, name the agency and the funds required/reduced.
- Does this option relate to a capital improvement project? Yes No If yes, what is the title of the capital improvement project and the projected completion date?

ESTIMATES SUBJECT TO CHANGE BASED ON FUTURE PROJECTIONS

DETAIL WORKSHEETS**

Name of Division/Institution: Division of Medical Assistance

Title of Option: Elimination of Adult Dental optional services (more extensive)
Option 12 of 23 for SFY 02-03

Description of Option: This is the first of two alternatives for this option. Under this alternative, approximately one-half of adult dental services, including all denture services, would be eliminated. As a result, remaining coverage would include basic preventative and restorative procedures as well as most emergency dental needs of the adult population.

Program Impact if Option is Approved As a result of alternative #2, it is likely that expenditures would be reduced by approximately 50%. Some savings would be offset by emergency services for people who develop pain and infections. Only pain medications and antibiotics are distributed during emergency visits and no definitive treatment is rendered. Since root canal therapy would be eliminated, more extractions are likely. Potential confusion as to which dental procedures are covered and which are not might result in an increased administrative burden and some providers might cease participation. Access to dental care might become more difficult.

In an average month, approximately 19,500 recipients received dental care during SFY01.

Budgetary Information:

	Fund Number(s)	Fund Title(s)	Account Number	Account Title	Reduction 2002-03
	1310	Medical Assist. Payments	536116	Dental	\$15,634,530
REQUIREMENTS					\$15,634,530
RECEIPTS					\$10,512,658
APPROPRIATIONS					\$5,121,872
NO. OF POSITIONS					

Other Considerations

- Are statutory changes or special provisions required to implement? Yes No If yes, provide additional information. -- Would require State Plan and APA changes
- Does this option require additional resources/reduced resources to another state agency? Yes No If yes, name the agency and the funds required/reduced.
- Does this option relate to a capital improvement project? Yes No If yes, what is the title of the capital improvement project and the projected completion date?

DETAIL WORKSHEETS**

Name of Division/Institution: Division of Medical Assistance

Title of Option: Elimination of Adult Dental optional services (less extensive)
Option 12 of 23 for SFY 02-03

Description of Option Reduction: This is the second of two alternatives for this option. Under this alternative, adult denture services would be eliminated.

Program Impact if Option is Approved

As a result of this alternative, it is likely that expenditures would be reduced by approximately 25%. Concerns would be raised because denture services are considered to be basic rehabilitative services for adults,

In an average month, approximately 19,500 recipients received dental care during SFY01.

Budgetary Information:

	Fund Number(s)	Fund Title(s)	Account Number	Account Title	Reduction 2002-03

DETAIL WORKSHEETS**

Name of Division/Institution: Division of Medical Assistance

Title of Option: Modify optional eligibility coverage for low-income Work First families
Option 13 of 23 for SFY 02-03

Description of Option: Federal law requires states to provide up to 12 months of Medicaid coverage when low-income families lose Work First coverage due to earnings. The North Carolina Medicaid program has opted to provide up to 24 months of coverage by excluding earnings for an additional 12 months.

Program Impact if Option is Approved: If the additional 12 months coverage is eliminated, families will receive still the federal Transitional Medicaid benefits. This modification ultimately could effect 51,000 individuals. Eligibles would be reduced by 1,528 in the first year, assuming an implementation date of 10/01/02.

Budgetary Information:

	Fund Number(s)	Fund Title(s)	Account Number	Account Title	Reduction 2002-03

DETAIL WORKSHEETS**

Name of Division/Institution: Division of Medical Assistance

Title of Option: Modify optional Pregnant Woman eligibility coverage for Minors (count parental income)
Option 14 of 23 for SFY 02-03

Description of Option: Under current policy, the North Carolina Medicaid program does not consider parental income when determining eligibility for pregnant woman coverage for minors. As a result, there is no upper limit on family income associated with this benefit.

Program Impact if Option is Approved: If the option is eliminated, parental income will be recognized and pregnant minors whose parents' income is greater than 185% of the federal poverty level will not qualify for Medicaid. Assuming an implementation date of 10/01/02, approximately 650 minors will lose eligibility in the first year.

Budgetary Information:

	Fund Number(s)	Fund Title(s)	Account Number	Account Title	Reduction 2002-03
	1310	Medical Assist. Payments			\$793,746

DETAIL WORKSHEETS**

Name of Division/Institution: Division of Medical Assistance

Title of Option: Modify optional eligibility coverage regarding Assets of the Aged & Disabled
Option 15 of 23 for SFY 02-03

Description of Option: Currently, real property held under a life estate or as tenancy-in-common is not considered as a countable asset when determining Medicaid coverage. Under this option, a value would be established for this type of asset, and it would be considered in the eligibility determination. In addition, equity values in excess of \$6,000 on income producing property is recognized as an asset by SSI in determining eligibility for benefits. At present, North Carolina disregards all equity value in income producing property. The state could adopt the SSI method for aged, blind and disabled applicants.

Program Impact if Option is Approved: Approximately 3,000 individuals would be determined ineligible for benefits, assuming a 10/01/02 implementation date. This change is likely to impact nursing facility residents disproportionately

Budgetary Information:

	Fund Number(s)	Fund Title(s)	Account Number	Account Title	Reduction 2002-03

**SFY 2002-03 BUDGET REDUCTIONS - DHHS DIVISION OPTIONS
DETAIL WORKSHEETS**

Name of Division/Institution: Division of Medical Assistance

Title of Option: Maintain the Community Alternatives Programs (CAP) Aids program at SFY03 Certified Budget expenditure levels.
Option 17 of 23 for SFY 02-03

Description of Option: CAP/AIDS is a statewide home and community based services (HCBS) waiver program that provides a cost-effective alternative to institutional care for persons with AIDS as well as children who are HIV-positive and meet other criteria. The person must live in a private residence. CAP/AIDS is a cooperative effort with the Division of Public Health. CAP/AIDS offers a number of services designed to support care in the home. The overall cost of the home care services must be within a cost limit that is related to the Medicaid cost for nursing facility care. The program's services and cost limits are modeled after the Community Alternatives Program for Disabled Adults.

CAP/AIDS expenditures for SFY 03 are currently projected to exceed the SFY 03 certified budget by 62%. Medicaid paid for CAP/AIDS services for 43 individuals in calendar year 2001. CAP/AIDS In-Home Aide Services account for 82% of the program expenditures.

Attempting to achieve a 62% reduction would effectively eliminate the program. A reduction of approximately 15% can be achieved by applying the same limitations identified for CAP/DA. These include:

1. Impose a freeze on CAP/AIDS participation.
2. Reduce the monthly average cost limit on services to 70% of the average nursing facility rate. (The limit is currently 90% of the average NF rate.)
3. Limit In-Home Aide Services to no more than 115 hours per month.

The CAP program would be maintained at SFY03 Certified Budget levels.

Program Impact if Option is Approved: Imposition of the proposal will have two primary effects:

1. The freeze will limit the community care option to those individuals facing nursing home placement with the potential to increase Medicaid costs for institutional care. It also negatively impacts the ability of the local case management agencies to maintain the cash flow to support their operations. This threatens the long term viability of the program.
2. The service limits will require some individuals to leave the program or adversely affect their health. Approximately 41% of the clients will experience a reduction in In-Home Aide Services. This may lead to increased Medicaid expenditures for both acute and long term care services. In addition, there will be an increased pressure on the other limited resources available to persons with AIDS.

Budgetary Information:

	Fund Number(s)	Fund Title(s)	Account Number	Account Title	Reduction 2002-03
	1310	Medical Assist. Payments	536127	CAP - Aids	\$328,505

ESTIMATES SUBJECT TO CHANGE BASED ON FUTURE PROJECTIONS

**SFY 2002-03 BUDGET REDUCTIONS - DHHS DIVISION OPTIONS
DETAIL WORKSHEETS**

Name of Division/Institution: Division of Medical Assistance

Title of Option: Maintain the Community Alternatives Programs (CAP) Disabled program at SFY03 Certified Budget expenditure levels.
Option 18 of 23 for SFY 02-03

Description of Option: CAP/DA is a home and community based services (HCBS) waiver program that provides a cost-effective alternative to nursing facility care for persons who are 18 years of age or older and live in a private residence. The program is a county option and operated locally by a lead agency designated by the county commissioners. CAP/DA offers a number of services designed to support care in the home. The overall cost of the home care services must be within a cost limit that is related to the Medicaid cost for nursing facility care.

CAP/DA expenditures for SFY 03 are currently projected to exceed the SFY 03 certified budget by 21%. The following options have been identified to keep expenditures within the certified budget:

1. Continue the freeze on CAP/DA participation.
2. Reduce the monthly average cost limit on services to 70% of the average nursing facility rate. (The limit is currently 90% of the average NF rate.)
3. Limit In-Home Aide Services to no more than 115 hours per month. In-Home Aide Services account for 90% of CAP/DA expenditures. Currently, clients average 137 hours of In-Home Aide Services per month. There were 298 agencies that provided these services to 12,404 clients during the first eight months of SFY 02.

Program Impact if Option is Approved: Imposition of the proposal will have two primary effects:

1. The continuation of the freeze will limit the community care option to those individuals facing nursing home placement with the potential to increase Medicaid costs for institutional care. It also negatively impacts the ability of the local case management agencies to maintain the cash flow to support their operations. This threatens the long term viability of the program.
2. The service limits will require some individuals to leave the program or adversely affect their health. Approximately 73% of the clients will experience a reduction in In-Home Aide Services. This may lead to increased Medicaid expenditures for both acute and long term care services. In addition, there will be an increased demand for non-Medicaid services such as adult day care, meals on wheels and aide services funded with block grant funds.

Budgetary Information:

Fund Number(s)	Fund Title(s)	Account Number	Account Title	Reduction 2002-03

DETAIL WORKSHEETS**

Name of Division/Institution: Division of Medical Assistance

Title of Option: Maintain the Community Alternatives Programs (CAP) MR program at SFY03 Certified Budget expenditure levels.

Option 19 of 23 for SFY 02-03

Description of Option Reduction: DMH/DD/SAS is in the process of developing a revised set of waivers which are intended to strengthen utilization management and revise service definitions to assure payment is being authorized for the least restrictive most cost-efficient service. In addition more training and staff time will be devoted to quality assurance and provider monitoring. It is recognized that some time will be needed to put all of these processes in place. DMH/DD/SAS will hold state DD funds in reserve to cover the difference between the state certified budget amount for Medicaid and any actual growth experienced beyond that amount. In addition the slots will remain frozen until growth moderates.

Program Impact if Option is Approved: The continuation of the freeze will limit the community care option to those individuals facing ICF/MR placement with the potential to increase Medicaid costs for institutional care. It also negatively impacts the ability of the local case management agencies to maintain the cash flow to support their operations. This threatens the long-term viability of the program.

Budgetary Information:

	Fund Number(s)	Fund Title(s)	Account Number	Account Title	Reduction 2002-03

DETAIL WORKSHEETS**

Name of Division/Institution: Division of Medical Assistance

Title of Option: Limit Coverage of Personal Care Services (PCS)
Option 22 of 23 for SFY 02-03

Description of Option: Limit coverage of Personal Care Services (in private residences) to no more than 3 hours per day and 60 hours per month. The North Carolina Medicaid program currently allows 3 1/2 hours per day and 80 hours per month. The 3 1/2 hour daily limit was imposed effective January 1, 2002. PCS in private residences pays for an aide to perform personal care tasks for the patient who, due to a medical condition, needs help with such activities as bathing, toileting, moving about and keeping track of vital signs. During the course of a visit to assist with personal care, the aide may also perform housekeeping and home management tasks that are essential, although secondary to the personal care tasks necessary for maintaining the patient's health. During the first six months of SFY 2002, Medicaid paid for services for an average of 15,722 individuals per month. There were 401 providers paid for the service.

Program Impact if Option is Approved Imposition of these limits is likely to decrease expenditures for PCS by approximately 10 percent. At least 50% of PCS recipients will have services reduced by the new limits. This may lead to increased expenditures for other Medicaid services, including Home Health Services and institutional care. Implementation of these limits also will increase the pressure to expand the Community Alternatives Programs.

Budgetary Information:

ESTIMATES SUBJECT TO CHANGE BASED ON FUTURE PROJECTIONS

**SFY 2002-03 BUDGET REDUCTIONS - DHHS DIVISION OPTIONS
DETAIL WORKSHEETS**

Name of Division/Institution: Division of Medical Assistance

Title of Option: Limit Private Duty Nursing (more extensive)
Option 23 of 23 for SFY 02-03

Description of Option: PDN is medically necessary continuous, substantial and complex nursing services by a licensed nurse (RN or LPN) that is needed by a patient for care in the patient's home. It is for patients of all ages who live in private residences. Medicaid pays for up to 24 hours per day of care of unlimited duration based on documented medical necessity. The service is prior approved by DMA. During the first six months of SFY 2002, Medicaid paid for services for 101 individuals 21 years of age and older at a cost of \$8 million. There were 53 providers paid for the service.

This option limits coverage of Private Duty Nursing (PDN) for individuals 21 years of age and older to those persons who qualify for nursing facility ventilator level care. Services would be limited to no more than 10 hours per day. The 10 hour daily limit keeps the cost of PDN equivalent to the Medicaid cost of nursing facility ventilator care. It is similar to the basis for the Community Alternatives Programs in that Medicaid will not pay more for home care than institutional care.

Impact:

Program Impact if Option is Approved: Imposition of the limit is likely to decrease expenditures for PDN though some of the decrease may be offset by increased expenditures for other Medicaid services, primarily home care and institutional care. Approximately 50% of PDN patients will lose the coverage and the balance will have coverage reduced. This will drive some individuals into institutional care and such care may not be readily available. Many patients will be difficult, if not impossible, to place because of their high level and unique care needs. The majority of the patients are under 55 years of age. These patients who can be placed will have to adapt to an institutional environment often more suited to the elderly.

Budgetary Information:

	Fund Number(s)	Fund Title(s)	Account Number	Account Title	Reduction 2002-03

ESTIMATES SUBJECT TO CHANGE BASED ON FUTURE PROJECTIONS

**SFY 2002-03 BUDGET REDUCTIONS - DHHS DIVISION OPTIONS
DETAIL WORKSHEETS**

Name of Division/Institution: Division of Medical Assistance

Title of Option: Limit Private Duty Nursing (less extensive)
Option 23 of 23 for SFY 02-03

Description of Option: PDN is medically necessary continuous, substantial and complex nursing services by a licensed nurse (RN or LPN) that is needed by a patient for care in the patient's home. It is for patients of all ages who live in private residences. Medicaid pays for up to 24 hours per day of care of unlimited duration based on documented medical necessity. The service is prior approved by DMA. During the first six months of SFY 2002, Medicaid paid for services for 101 individuals 21 years of age and older at a cost of \$8 million total dollars. There were 53 providers paid for the service.

This option limits the number of hours of Private Duty Nursing (PDN) for individuals 21 years of age and older to no more than 16 hours per day with the following exceptions:

1. Allow up to 24 hours per day for 21 days post-hospital to allow training of caregivers;
2. Allow up to 24 hours per day for no more than 14 consecutive days if the patient's caregiver experiences a personal medical emergency that renders the caregiver temporarily unable to provide care. The caregiver's physician must document the medical emergency.

The use of the above exceptions is limited to a total of 45 days per State fiscal year.

Program Impact if Option is Approved: Imposition of the limit is likely to decrease expenditures for PDN though some of the decrease may be offset by increased expenditures for other Medicaid services, primarily home care and institutional care. At least 40% of adult PDN patients will have services reduced by the new limits. It will drive some individuals into institutional care and such care may not be readily available. Many patients will be difficult, if not impossible, to place because of their high level and unique care needs. The majority of the patients are under 55 years of age. These patients who can be placed will have to adapt to an institutional environment often more suited to the elderly.

Budgetary Information:

	Fund Number(s)	Fund Title(s)	Account Number	Account Title	Reduction 2002-03
	1310	Medical Assist. Payments	536129	Home Health	\$911,019
REQUIREMENTS					\$911,019
RECEIPTS					\$618,967
APPROPRIATIONS					\$292,052
NO. OF POSITIONS					

Other Considerations

- Are statutory changes or special provisions required to implement? Yes No If yes, provide additional information. -- Would require State Plan and APA changes
- Does this option require additional resources/reduced resources to another state agency? Yes No If yes, name the agency and the funds required/reduced.
- Does this option relate to a capital improvement project? Yes No If yes, what is the title of the capital improvement project and the projected completion date?
-

ESTIMATES SUBJECT TO CHANGE BASED ON FUTURE PROJECTIONS

Joint Appropriations Subcommittee on Health and Human Services

Minutes
April 30, 2002
1:00 PM

The North Carolina Appropriations Subcommittee on Health and Human Services met jointly with the Senate on April 30, 2002 at 1:00 pm in Room 643 of the Legislative Office Building. The following members were present: Representative Beverly Earle, Co-Chair, Representative Edd Nye, Co-Chair, Representative Debbie Clary, Representative Billy Creech, Representative Walter Church, Representative Verla Insko, Representative Theresa Esposito, and Representative Mark Crawford. Four Senators were present.

Representative Beverly Earle opened the meeting, by asking the Co-Chairs of the committee to give opening remarks.

Medicaid

Lanier Cansler, Deputy Secretary of Health and Human Services presented to the committee the forecast of the Medicaid Program. The financial forecast for fiscal year 2002-2002 has been modified to reflect a budgetary shortfall of \$27,603,248 over and above the state funding increase of approximately \$266 million established in Senate Bill 1005. Funds available to the Medicaid Trust Fund are anticipated sufficient to cover this shortfall. He stated that the Medicaid budget forecast has been modified to reflect a budgetary shortfall of \$109,723,210 over and above the additional state funding increase of approximately \$246 million in the second year of the biennium established in Senate Bill 1005. Mr. Cansler discussed the growth trends in the Medicaid program are believed to have been impacted by a slowing of the growth in Medicaid eligible, the implementation of cost reduction measures, and the new focus on dealing with the long-term Medicaid funding challenge and increased awareness among health care providers.

(See Attachment 2)

The budget reduction options set forth in this presentation by Carmen Hooker Odom, Secretary of Health and Human Services, are options presented at the request of the Governor to assist in dealing with the state's budget crisis. The Medicaid budget reduction options may be divided into four basic categories; **(1) modification of rates paid and contractual relationships with providers, (2) elimination or reduction of selected optional services, (3) modification of eligibility guidelines for certain optional eligible, and (4) maintenance of CAP programs at state fiscal year 2002-03 budgeted levels. These are just reduction options, not recommendations.** (See Attachment 2)

The Department of Health and Human Services was instructed to identify recurring budget reduction options ranging from 7% to 11% of fiscal year 2002-03 appropriations. The options set forth in the presentation represent 11% reductions for non-Medicaid appropriations and over 5% reduction for Medicaid appropriations.

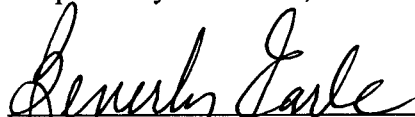

**Budget Reduction Options
Health and Human Services**

The budget reduction options set forth in the presentation presented the by Department of Health and Human Services are options presented at the request of the Governor to help in dealing with the state's budget crisis. These options are not to be considered recommendations by the department, as the reductions would impact the ability of the department to manage or continue many important services for North Carolina's most vulnerable citizens. The governor has made no recommendations with respect to any of the options in this presentation. In developing the budget reduction options, the departmental divisions were instructed to consider the following, **(1) the core/critical mission of the division, (2) federal maintenance of effort (MOE), and (3) the impact on local government. See Attachment 4 for budget reduction options.**

A Question and Answer session was done at this time.

The Co-Chairs made closing remarks and the meeting was adjourned.

Respectfully submitted,

Presiding, Representative Beverly Earle, Co-Chair

Representative Edd Nye, Co-Chair

Ann Raeford, Committee Assistant

Health and Human Services - April 30, 2002**

The Division of Medical Assistance

MEDICAID

APRIL 2002

FINANCIAL FORECAST

MEDICAID

The Division of Medical Assistance

MONTHLY CHECKWRITES AND TRENDS

MEDICAID

The Division of Medical Assistance

New Medicaid Budget Forecasts Based on

Recent Trends . . .

- Fiscal Year 2001-2002 Forecast has been modified to reflect a budgetary shortfall of **\$27,603,248** over and above the state funding increase of approximately \$266 million established in Senate Bill 1005.
- Funds available to the “Medicaid Trust Fund” are anticipated sufficient to cover this shortfall.

MEDICAID

The Division of Medical Assistance

New Medicaid Budget Forecasts Based on

Recent Trends . . .

- Fiscal Year 2002-2003 Forecast has been modified to reflect a budgetary shortfall of **\$109,723,210** over and above the additional state funding increase of approximately \$246 million in the second year of the biennium established in Senate Bill 1005.

MEDICAID

The Division of Medical Assistance

BUDGET versus FORECAST

MEDICAID

The Division of Medical Assistance

The Growth Trends in the Medicaid Program are believed to have been impacted by . . .

- **A slowing of the growth in Medicaid Eligibles**
- **Implementation of Cost Reduction Measures**
- **New focus on dealing with the long-term Medicaid funding challenge and increased awareness among health care providers**

MEDICAID

The Division of Medical Assistance

The slowing of the growth in Medicaid Eligibles has impacted the Financial Forecasts for the current year and next fiscal year . . .

- Current year average number of Eligibles was originally projected to rise to 1,018,559, almost 71,000 above budgeted levels
- Growth in Eligibles began to slow early in 2002, resulting in a new forecasted average Medicaid population of 982,718 for the current year, approximately 35,000 above budgeted levels, but almost 36,000 less than the earlier forecast.

MEDICAID

The Division of Medical Assistance

The slowing of the growth in Medicaid Eligibles has impacted the Financial Forecasts for the current year and next fiscal year . . .

- The average number of Medicaid Eligibles projected for State Fiscal Year ending June 2003 was 1,176,908, based upon program growth experienced in 2001.
- Based upon the slower growth rate currently being experienced, the new Financial Forecasts consider growth to an average number of 1,063,249 during next fiscal year, almost 62,000 more than budgeted, but over 113,000 less than the earlier forecast.

MEDICAID

MEDICAID

The Division of Medical Assistance

MONTHLY GROWTH IN ELIGIBLES

MEDICAID

The Division of Medical Assistance

WARNING

Just as the trends in the growth of Eligibles in the Medicaid Program changed positively early this year, the trends could just as quickly move again in the opposite direction. For example, the Social Security Administration just announced that as part of an outreach effort it will be mailing notices to over 500,000 North Carolina residents about their potential eligibility for Medicaid. The Department of Health and Human Services will be constantly monitoring changing trends so as to advise and deal with changing budgetary requirements.

The Division of Medical Assistance

MEDICAID BUDGET REDUCTION OPTIONS

MEDICAID

The Division of Medical Assistance

THE BUDGET REDUCTION OPTIONS SET FORTH IN THIS PRESENTATION ARE OPTIONS PRESENTED AT THE REQUEST OF THE GOVERNOR TO ASSIST IN DEALING WITH THE STATE'S BUDGET CRISIS. THESE OPTIONS ARE NOT TO BE CONSIDERED RECOMMENDATIONS BY THE DEPARTMENT AS THESE REDUCTIONS WOULD POTENTIALLY IMPACT THE ACCESS AND QUALITY OF MEDICAL CARE DELIVERED TO NORTH CAROLINA'S MOST VULNERABLE CITIZENS. THE GOVERNOR HAS MADE NO RECOMMENDATIONS WITH RESPECT TO ANY OF THE OPTIONS IN THIS PRESENTATION.

MEDICAID

The Division of Medical Assistance

The following should be considered while

reviewing these budget reduction options . . .

- The amounts reflected as budget reductions include only state dollars. The actual total dollar impact on providers, etc., would be increased by funds provided by the federal and county governments.
- The aggregate state savings resulting from implementation of all of the options would be \$ 129,715,677 based upon cost projections prepared in December 2001. Information from the new forecasts indicates the savings would be less with respect to some of the options.

MEDICAID

The Division of Medical Assistance

The Medicaid Budget Reduction Options may be divided into four basic categories . . .

- **MODIFICATION OF RATES PAID AND CONTRACTUAL RELATIONSHIPS WITH PROVIDERS**
- **ELIMINATION OR REDUCTION OF SELECTED “OPTIONAL SERVICES”**
- **MODIFICATION OF ELIGIBILITY GUIDELINES FOR CERTAIN “OPTIONAL ELIGIBLES”**
- **MAINTENANCE OF CAP PROGRAMS AT STATE FISCAL YEAR 2002-03 BUDGETED LEVELS**

MEDICAID

The Division of Medical Assistance

MODIFICATION OF RATES PAID AND CONTRACTUAL RELATIONSHIPS WITH PROVIDERS

- Reduce Payments to Hospitals \$ 20,810,909
- Define "Efficient Provider" for Nursing Facilities, Intermediate Care Facilities for Mentally Retarded, and Adult Care Home Personal Care Services \$ 20,074,190
- Reduce Payments for Prescription Drugs from 90% to 85% of AWP \$ 16,382,660

MEDICAID

The Division of Medical Assistance

MODIFICATION OF RATES PAID AND CONTRACTUAL RELATIONSHIPS WITH PROVIDERS

(CONTINUED)

- Contract for Prescription Drugs supplied
in Nursing, IMF-MR, and Adult Care
Home facilities \$ 4,212,622
- Establish Prospective Rates for Home
Health Services \$ 3,589,472
- Contract for Home Health Supplies \$ 1,614,626

BUDGET REDUCTION OPTIONS

The Department of Health and Human Services was instructed to identify recurring budget reduction options ranging from 7% to 11% of Fiscal Year 2002-03 Appropriations.

The options set forth in this presentation represent 11% reductions for non-Medicaid appropriations and over 5% reductions for Medicaid appropriations.

BUDGET REDUCTION OPTIONS

In developing these budget reduction options, the departmental divisions were instructed to consider the following:

- The Core / Critical Mission of the Division**
- Federal Maintenance of Effort (MOE) Requirements**
- The Impact on Local Governments**

BUDGET REDUCTION OPTIONS

If the options set forth in this presentation are implemented, the reductions will . . .

- **Impact the overall provision of services and the ability of the Department to achieve its mission**
- **Increase the burden on counties to provide services**
- **Increase exposure to the potential for lawsuits**
- **Endanger the State's compliance with Federal Maintenance of Effort (MOE) requirements**
- **Severely impact the State's efforts in mental health reform**

BUDGET REDUCTION OPTIONS

You will see that these budget reduction options will impact . . .

- **Adoption Assistance Programs**
- **Child Care Subsidies for Children in Protective Custody**
- **Area Mental Health Programs**
- **Developmental Evaluation Centers**
- **Home and Community Block Grant services for elderly**
- **Purchase of Care Programs for Cancer, Epilepsy, Early Intervention, Children with Special Needs, and Others**

Minutes

The Joint Appropriations Subcommittee on Health and Human Services met Wednesday May 1, 2002 at 9:00 a.m. in Room 424 of the Legislative Office Building. Senator Bill Martin, presiding Chair called the meeting to order with the nine members present:

Secretary Hooker Odom was recognized to begin the discussion on Block Grant Plans. She stated that she would review the TANF block grants and the Social Services Block Grant and Deputy Secretary Canslier will review the other Block Grants. She stated that the TANF Block Grant would probably be the most controversial. During a brief review of the availability of the Block grant for 02-03, she stated that the availability is less this year, primarily because there is less carry over dollars. The carry over for 02-03 is approximately \$6.9 million. The total dollars available for distribution is \$345.02 million. Including supplemental grants of \$36.1 million. The base grant is \$302 million with \$6.9 carry forward. The basic underlying concept is that there is less money. Therefore there are very tough choices to be made.

The priorities of the funding of this Block Grant are to fund core services and benefits for children and families and support the necessary training for child welfare and other workers.

TANF regulations require that the funds be spent for certain purposes. The purposes required by distribution regulations include:

- Provide assistance for needy families so that children may be cared for in their own homes or homes of relatives;
- End dependence of needy parents on government benefits and to promote job preparation, work and marriage;
- Encourage formation and maintenance of two-parent families.

TANF funds fund a significant portion of North Carolina's Child Welfare Assistance. The priority for the 2002-2003 allocations is to continue to provide the needs of supporting child welfare staff in county departments of Social Services and to ensure that local child welfare staffs are adequately trained.

Secretary Hooker Odom reviewed the attached spreadsheet and highlighted the items recommended for reduction or elimination due to funding cuts.

During committee discussions about TANF, the following questions were asked:

Has the reserve for case assistance been fully depleted? The primary federal requirement dictates that the core items be funded first. Some of the items may have a very significant impact in terms of jeopardizing the likelihood of families moving toward self-sufficiency.

Are there any of these programs that have a specific long-range impact on the requirements of the federal government for families to move toward self-sufficiency, in particular where families are impacted by some circumstances other than not being able to find employment.

To what extent do you feel that not being able to fund these items will result in the potential of greater expenditures in the future.

The Secretary said that there have major discussions on how funds can be made available to fund the Intensive Family Preservation Program and the Special Children's Adoption Fund. It is the common belief of the Department of HHS and the Governor's Staff that those would be the priorities.

Does the coordination of the Rural and Economic Development Center take away all the funds from the rural centers that are appropriated for the next fiscal year.

The Rural Economic Development receives funding from the Department of Natural and Economic Resources, however not for this purpose.

Regarding the coordination of RE DEC, Center, will this elimination take all funds appropriated for the next fiscal year.

The committee requested a listing of the current projects under Teen Pregnancy.

What eventually happens to youngsters when programs such as foster care, boys and girls clubs and domestic violence are closed. Where does the cost-shift dollars come from and why not do the cost shift beforehand.

Regarding child welfare services, the Chair stated that personnel funding at the county level is trying to keep children out of Foster Care. There is a need for additional personnel in this area.

Senator Purcell stated that he has been impressed with the number of good programs throughout the state to prevent teen pregnancy. Many of the problems start with babies born to unwed mothers and it gets to be a cycle in some families. Are there other places where the teen pregnancy money will be picked up.

Rep. Insko stated that this is creating problems for ten and twenty years down the road. The legislators are here to solve problems. North Carolina has an actual increase in child abuse cases while the other states have a decrease. She encouraged the committee to look seriously at ways to get these programs back on target.

TANF Block grants are federal monies, is there any hint about what the federal government will do for the next five years. Are hopeful of a massive increase in these funds. Would this happen even if North Carolina was not in a budget crises.

In her review of the SSBG Block Grants, the Secretary stated that \$1.5 million of the Child Care Agencies that have been funding from TANF will be picked up by the SSBG Block Grant, which means that there will be some cuts in that program.

The Secretary stated that she and the Division Directors will look at the possibility of other areas taking programs that are being reduced are eliminated in the TANF Block Grant. There is a small amount in DMH.

Are the after school programs for At-risk children taking one step forward and four steps backwards.

Deputy Secretary Lanier Cansler was recognized to continue the review of the Block Grant Plans. Regarding the Public Health Block Grants, the preventive health block grant is intended to provide a variety of services to improve the quality of life. The Rape Prevention Education program is now funded as a separate grant, therefore there will be a reduction in this area. These grants support three to four areas, the Community Health Promotion Program, which includes the majority of the dollars. The Office of Minority Health, Community Floridation, and other administrative costs are also included in this grant. Information on the four major areas are included in the attachments of these minutes.

The purpose of the Maternal and Child Health Block Grant is to assist states in the assurance that mothers of children, especially those of low income and limited availability, to health services have access to maternal and child health services. He stated that basically the allocations for these categories are the same as they were last year with the exception the transfer from the Social Services Block Grant has not been available this year. There is a possibility that another \$300,000 will be received for this grant.

Leah Delvin, Director of Public Health, was recognized to comment. She stated that the elimination of adolescent pregnancy prevention and adolescent parenting project would not be good. These programs should certainly be continued.

Are there other places where teen pregnancy or any of the listed programs can be picked up?

Rep. Insko stated that these cuts are not acceptable. She emphasized that years were spent trying to build these programs and we should not lead the nation in child abuse and neglect.

Rep. Esposito requested information regarding any programs that are presently funded in some other budget. Will other funding sources be allocated to these programs?

Senator Purcell stated that there a number of diseases that are screened including some genetic disorders and North Carolina has had an outstanding program and this is something that needs to be continued.

The Chair stated that the Agenda for today has been completed and the next meeting will be 1:00 p.m. Tuesday, in Room 643. The meeting was adjourned.

MEMORANDUM

To: Carol Shaw
Fiscal Research Division

From: Bonnie Cramer, Administrator *Bonnie Cramer*
Health and Human Services Section
Office of State Budget and Management

Subject: Department of Health and Human Services Block Grant Plans
for 2002-03

Please find attached the Block Grant Plans for 2002-03 submitted by the Department of Health and Human Services to the Office of State Budget and Management. These plans are being submitted to the Fiscal Research Division of the General Assembly pursuant to G.S. 143-16.1.

The Temporary Assistance for Needy Families (TANF) includes a \$4,643,454 payback for an audit finding regarding the State Automated Child Welfare Information System (SACWIS). The Department has submitted a payback plan to the federal government. If accepted, the SACWIS payback could be made utilizing TANF funds in conjunction with state and county resources. The state and county shares of this payback would be approximately \$751,000 and \$2.9M, respectively.

If other sources can be identified, two priorities for restoration of TANF funding are 1) Special Children's Adoption Fund; \$2,811,687, and 2) Intensive Family Preservation Services; \$1,800,000.

The Social Services Block Grant (SSBG) Plan moves \$213,128 that was previously a transfer to Preventive Health Services Block Grant (PHSBG) to a direct allocation to the Division of Facility Services (DFS). The transfer to PHSBG was subsequently allocated to the DFS to support operating costs in the Emergency Medical Services (EMS)

program. This became very problematic when the administrative cap for the PHSBG was reduced.

The resolution of this is to allocate these funds directly to DFS where they will be used in the Mental Health Licensure program. This funding will support 13% of 27 positions (3.5 FTEs), which are budgeted in account 53-1213 (cost allocated). In the EMS program, these funds were supporting 5.0 FTEs. This is the only negative impact of this change in the funding plan involving these two block grants and the Division of Facility Services. Appropriations in the Mental Health Licensure program of \$213,128 will be used to replace the SSBG funding in the EMS program previously supported by the PHSBG.

Also, attached to this memorandum is a revised Substance Abuse Prevention/Treatment Block Grant (SAPTBG) for the 2002-03 fiscal year. This revision provides more SAPTBG funding in services for women and for the Majors program to offset reduced TANF funding and increases in administration by \$250,000 to fund a household survey required by the federal government for the Performance Partnership Grant.

If you have questions regarding this DHHS Block Grant package please do not hesitate to contact me at 733-7061.

DIVISION OF SOCIAL SERVICES**

TEMPORARY ASSISTANCE FOR NEEDY FAMILIES BLOCK GRANT

The Temporary Assistance for Needy Families (TANF) Block Grant is a grant from the Federal government created by the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (P.L 104-193). The grant was created by combining several former entitlement programs into one capped grant: Aid To Families With Dependent Children (AFDC), Job Opportunities and Basic Skills (JOBS), AFDC Emergency Assistance cash and services (AFDC-EA), and AFDC state and county administration. Amounts provided to states are based on FFY 1995 expenditures for the programs combined into the TANF grant, with supplemental funds provided to states, including North Carolina, which have above-average population growth and below-average cash benefit levels.

The TANF Block Grant is authorized for five years with Federal Fiscal Year 2002 being the final year before reauthorization. The supplemental grant was extended through the end of Federal Fiscal Year 2002. Since Congress is currently deliberating on the TANF Block Grant and any supplemental funding, this year's Block Grant Plan will be based on the what the State is hearing from the Administration about keeping the Block Grant to states whole and support for continuation of the supplemental grants to certain states. SFY 2002-03 TANF Block Grant Plan of \$345,249,547 includes projected carryforward of \$6,900,000, the supplemental grant for FFY 2002, one quarter of the base grant for FFY 2002 and three quarters of the base grant for FFY 2003. The base grant is \$302,239,599 annually and the supplemental grant for FFY 2002 is \$36,109,948.

GENERAL DESCRIPTION

The TANF program provides flexibility for funding a wide variety of employment and training activities, supportive services, child welfare services, and benefits that will enable clients to get a job, keep a job, and otherwise improve their circumstances while at the same time, striving to keep children safe. States are encouraged to design programs which assist families to achieve and maintain a greater degree of economic self-sufficiency through a combination of cash assistance, case management, and employment and training services; provide for system automation and administrative expenses in support of service delivery; and other activities intended to reduce and prevent welfare dependency and promote self-sufficiency.

The Administration supports maintaining level funding for TANF and the continuation of the supplemental grants to states. However, this year's Plan will be adversely impacted, as TANF carryforward from a preceding state fiscal year will not be at the same level as in previous state fiscal years.

North Carolina's welfare reform efforts have been successful. We remain committed to helping families become self-sufficient through employment-related services and other support services to help families improve their overall circumstances. Therefore, considering the reduced TANF funds available, the goals of this proposed plan are to:

- (1) continue to fund core services and benefits for children and families, such as: employment, training, and job retention services, cash assistance payments to support families, child care to support employment and training, child welfare initiatives, including Intensive Family Preservation Services, to help meet growing needs of children and families; and
- (2) support the provision of these services by providing for necessary training for child welfare and other workers, funding child welfare workers in county departments of social services, providing for continuing evaluation of welfare reform efforts, and providing for state and local administrative costs.

This proposed expenditure plan for SFY 2002-03 for North Carolina is consistent with TANF regulations requiring funds be spent for certain purposes. This proposed expenditure plan for North Carolina falls within the scope of the following purposes as outlined in TANF regulations:

- (1) provide assistance to needy families so that children may be cared for in their own homes or in the homes of relatives;
- (2) end the dependence of needy parents on government benefits by promoting job preparation, work, and marriage; and
- (3) encourage the formation and maintenance of two-parent families.

In addition, because the former Title IV-A Emergency Assistance (EA) funds are included as part of the TANF Block Grant, we are permitted to use TANF for the activities that were authorized in our approved Title IV-A State Plan in September 1995. As a result, the TANF Block Grant funds a significant portion of North Carolina's child welfare system. For SFY 2003, TANF will continue to provide a means of supporting child welfare staff in county departments of social services and to ensure that local child welfare staff are adequately trained.

Federal law governing the TANF grant allows states to transfer up to a total of 30% of the grant per year to the Child Care Development Fund and to the Social Services Block Grant. Of this 30% total, 10% may be transferred to SSBG. We propose TANF transfer to these other block grants, as detailed in the following recommendations.

RECOMMENDATIONS:

- | | | | |
|----|--|----|-------------|
| 1. | Allocation to the state Division of Social Services for partial payment of cash assistance benefit payments to Work First families. Balance of funds needed will come from State funds. | \$ | 129,396,275 |
| 2. | Allocation to county Departments of Social Services as partial funding for block grants. Within flexible, locally developed plans, counties will use funds to provide for program eligibility determination and case management services, emergency assistance cash and services, employment, training, and job retention/career advancement services, child welfare services, and administration of the program. Balance of county block grant funding to come from State and county funds. | \$ | 92,018,855 |

3.	Transfer to the Child Care Development Fund (CCDF) for child care subsidies for former Work First recipients and other working families. Children in foster care and protective services shall be given first priority services.	72,812,189
4.	Allocation to Division of Child Development for child care subsidies for Work First recipients.	26,621,241
5.	Allocation to the Division of Social Services for county child protective services, foster care, and adoption workers.	2,727,550
6.	Transfer to the Social Services Block Grant (SSBG) for county departments of social services for children's services.	4,500,000
7.	Allocation to the Division of Social Services for child welfare workers for local departments of social services.	7,654,841
8.	Allocation to the Division of Social Services to partially fund county departments of social services child welfare training initiatives.	2,000,000
9.	Residential Substance Abuse Services for Women With Children	1,475,142
10.	DSS-Administration	500,000
11.	Allocation to the Division of Social Services for TANF Evaluation	500,000
12.	Staff Development	75,000
13.	Budget Process Reengineering Reserve/NC FAST	325,000
14.	SACWIS Payback	4,643,454
	Total Planned Expenditures	\$ 345,249,547
	SOURCE OF FUNDS:	
	Base TANF Block Grant	\$ 302,239,599
	Federal Supplemental TANF Grant	36,109,948
	Projected Carryforward from SFY 2002	6,900,000
	Total Funds Available	\$ 345,249,547

DESCRIPTION OF EACH ACTIVITY FOR THE
 SFY 2001-02 AND SFY 2002-03
 Version #1 4/8/2002

Item Number	Activity Funded in SFY 2001-02	Activity Proposed in SFY 2002-03
1	<p>Work First Family Assistance. Cash assistance benefit payments to Work First Families in Standard and Electing Counties. This federal allocation for Standard Counties represents a partial payment of cash assistance benefit payments to Work First families. The balance of needed funds for Standard Counties will come from State funds. No State-level FTEs will be directly funded with this TANF allocation.</p>	<p>Work First Family Assistance. Cash assistance benefit payments to Work First Families in Standard and Electing Counties. This federal allocation for Standard Counties represents a partial payment of cash assistance benefit payments to Work First families. The balance of needed funds for Standard Counties will come from State funds. No State-level FTEs will be directly funded with this TANF allocation.</p>
2	<p>Work First County Block Grants. Partial finding for county block grants with the balance coming from State and county funds. Within flexible, locally developed plans, counties will use funds to provide program eligibility determination and case management services, emergency assistance cash and services, employment, training, and job retention/career advancement services, child welfare services, and administration of the program. No State-level FTEs will be directly funded with this TANF allocation.</p>	<p>Work First County Block Grants. Partial finding for county block grants with the balance coming from State and county funds. Within flexible, locally developed plans, counties will use funds to provide program eligibility determination and case management services, emergency assistance cash and services, employment, training, and job retention/career advancement services, child welfare services, and administration of the program. No State-level FTEs will be directly funded with this TANF allocation.</p>
3	<p>TANF transfer for Child Care Development (CCDF) for child care subsidies. No state or county level FTE's will be supported by these funds.</p>	<p>TANF transfer for Child Care Development (CCDF) for child care subsidies. TANF funds for child care subsidies greatly expands NC's ability to serve families who are working or in school with income up to 75% of State Median Income. This provides support for families moving off Work First assistance and working to achieve economic self-sufficiency. Reductions in Smart Start funds have resulted in less state funding for child care subsidies, which makes maintaining TANF funding for this purpose especially critical this year. No state or county level FTE's will be supported by these funds.</p>
4	<p>Work First/Substance Abuse Initiative provides early identification, screening, assessment, referral and care coordination of Work First applicants and recipients who have substance abuse problems.</p>	<p>Core services for the Work First Program are being funded this fiscal year through the TANF Block Grant. Therefore, due to a reduction in TANF Block Grant fund availability, this item will not be funded.</p>
5	<p>A Work First Family Assistance contingency fund was appropriated in SFY 2001-02 in the amount of \$11,676,624.</p>	<p>There is no contingency fund proposed for state fiscal year 2002-03.</p>

DESCRIPTION OF EACH ACTIVITY FOR THE
 SFY 2001-02 AND SFY 2002-03
 Version #1 4/8/2002
 (Temporary Assistance to Needy Families Block Grant)

Item Number	Activity Funded in SFY 2001-02	Activity Proposed in SFY 2002-03
6	<p>DSS - Staff Development. These funds are used to support staff development activities at the Division and local levels. As the Work First caseload continues to shift toward the "hardest to serve" families, it is also necessary to ensure that staff is equipped with the skills and knowledge needed to provide technical assistance to county departments of social services. No State-level FTEs were directly funded with these TANF funds.</p>	<p>Core services for the Work First Program are being funded this fiscal year through the TANF Block Grant. Therefore, due to a reduction in TANF Block Grant fund availability, this item will not be funded.</p>
7	<p>Out-of-Wedlock Births: 100% of this funding is allocated to local health departments where it is used to bolster clinical family planning services and to implement a variety of activities to reduce out-of-wedlock births. The first annual allocation (in FY 1998) was \$1.6 million; however, in FY 2002, the allocation was reduced by 10%; thus, all health departments had their allocations reduced by 10%. Prior to the funding reduction, it is estimated that--as a result of the TANF funding--an additional 7,200 low-income women were being served annually in family planning clinics and that these services helped to avert an estimated 900 out-of-wedlock births each year. Thus, any further reductions would severely impact health departments' capacities to prevent these births.</p>	<p>Core services for the Work First Program are being funded this fiscal year through the TANF Block Grant. Therefore, due to a reduction in TANF Block Grant fund availability, this item will not be funded.</p>
8	<p>Substance Abuse for Juveniles. There are 10 MAJORS Programs funded by TANF that provide specialized substance abuse treatment, transitional care and coordination of services for adjudicated juvenile offenders.</p>	<p>Core services for the Work First Program are being funded this fiscal year through the TANF Block Grant. Therefore, due to a reduction in TANF Block Grant fund availability, this item will not be funded.</p>
9	<p>Special Children's Adoption Fund-used to provide for adoptive placements of children described in G.S. 108A-50 and those in foster care above those funds that participating licensed public and private adoption agencies can provide with existing resources. Anticipated that 425 children will be served. No FTEs will be directly funded with this TANF allocation.</p>	<p>Core services for the Work First Program are being funded this fiscal year through the TANF Block Grant. Therefore, due to a reduction in TANF Block Grant fund availability, this item will not be funded.</p>

**DESCRIPTION OF EACH ACTIVITY FOR THE
SFY 2001-02 AND SFY 2002-03
Version #1 4/8/2002**

(Temporary Assistance to Needy Families Block Grant)

Item Number	Activity Funded in SFY 2001-02	Activity Proposed in SFY 2002-03
10	Business Process Reengineering Reserve/NC FAST-These funds were provided in a reserve and were to be utilized if and when other resources for the NC FAST project were exhausted.	Business Process Reengineering Reserve/NC FAST-These funds are to be utilized to perform tasks associated with the development of the NC FAST project.
11	Work First Job Retention and Follow-up Initiatives. Funding under this initiative support the Work First Electronic Call Center (Work Central), the Kenan Institute Unbanked Study, and faith based initiatives coordinated by the Rural Economic Development Center. These initiatives are designed to provide follow-up to former Work First participants and support services that will enable them to remain employed and moving toward self-sufficiency. No State-level FTEs were directly funded with these funds.	Core services for the Work First Program are being funded this fiscal year through the TANF Block Grant. Therefore, due to a reduction in TANF Block Grant fund availability, this item will not be funded.
12	Teen Pregnancy Prevention. The purpose of this funding is to support primary prevention (prevention of first pregnancies) and secondary prevention (prevention of second pregnancies, support and encouragement to teen parents in completing high school or GED requirements, and improvement of parenting skills). TANF funds provide the total support (\$1,510,300) for 21 targeted teen pregnancy prevention projects in communities of highest need, partial funding (\$146,000) for 11 of the adolescent parenting (secondary prevention) projects, and partial funding (\$215, 335) for 20 additional primary pregnancy prevention projects. One full-time position is 100% TANF-funded. The \$2 million in TANF first allocated for this purpose in 1998-99 was reduced in 2001-02 to \$1.8 million and resulted in the failure to open two projects planned for communities with very high rates of teen pregnancy. Any further reductions will necessitate the closing of additional projects.	Core services for the Work First Program are being funded this fiscal year through the TANF Block Grant. Therefore, due to a reduction in TANF Block Grant fund availability, this item will not be funded.

**DESCRIPTION OF EACH ACTIVITY FOR THE
SFY 2001-02 AND SFY 2002-03
Version #1 4/8/2002**

(Temporary Assistance to Needy Families Block Grant)

Item Number	Activity Funded in SFY 2001-02	Activity Proposed in SFY 2002-03
13	Child Caring Agencies. Funds used to reimburse state portion of cost of care for the placement of certain children by county departments of social services who are non-IV-E. The funds ensure that non-IV-E children are appropriately placed in foster care.	Funds for this item will be direct SSBG funds and will not include any transfers from TANF. Child Caring Agencies. Funds used to reimburse state portion of cost of care for the placement of certain children by county departments of social services who are non-IV-E. The funds ensure that non-IV-E children are appropriately placed in foster care.
14	Child care subsidies for TANF-eligible recipients. No state or county level FTE's will be supported by these funds.	Child care subsidies for TANF-eligible recipients. These funds are earmarked for serving the poorest of the working poor, those families who are TANF-eligible (receiving or at risk of receiving TANF). Child care subsidies for TANF-eligible families are an important support to help them keep working. No state or county level FTE's will be supported by these funds.
15	Work First Housing Initiative. The availability of decent affordable housing is considered one of the major barriers Work First families face in moving off welfare dependency, along with job skills, childcare and reliable transportation. These funds are used in eight (8) counties to work in helping families on and recently off TANF to secure safe, decent, affordable housing as they move from welfare to work and ultimately to lasting self-sufficiency. No State-level FTEs were directly funded with these TANF funds.	Core services for the Work First Program are being funded this fiscal year through the TANF Block Grant. Therefore, due to a reduction in TANF Block Grant fund availability, this item will not be funded.

16	<p>Domestic Violence Program Awareness. \$1 million was used by 77 local domestic violence programs to provide public awareness activities for all 100 counties. Programs used these funds to purchase brochures and other print materials for distribution at a variety of sites in local communities, for translation of print materials into Spanish, to purchase public education videos and other training materials, for speakers on special topics, and for billboards, newspaper ads and articles and other ways of informing the public about the availability of domestic violence services and programs. No State-level FTEs were directly funded with these TANF funds.</p>	<p>Core services for the Work First Program are being funded this fiscal year through the TANF Block Grant. Therefore, due to a reduction in TANF Block Grant fund availability, this item will not be funded.</p>
17	<p>Child Welfare Workers for Local DSSs. Funds used to employ child welfare workers at local county departments of social services to achieve State staffing standards. Funds used to employ county CPS, foster care and adoption workers for recruiting, licensing and training potential foster and adoptive parents. Intended outcome is more foster and adoptive parents for children in DSS custody. The pool of available foster and adoptive parents will increase substantially, which will increase placements. No State-level FTEs are directly funded with these TANF funds.</p>	<p>Child Welfare Workers for Local DSSs. 19	Boys/Girls Clubs for Work First Children. These funds were used to develop and implement a grant program to award funds to Boys and Girls Clubs across the State. The goal is to implement programs that improve motivation, performance, and self-esteem of youth and to implement initiatives that would reduce school dropout and teen pregnancy. Anticipate that efforts will encourage and facilitate collaboration between Boys and Girls Clubs, Support Our Schools, and Communities in Schools programs. No State-level FTEs were directly funded with these TANF funds.	Core services for the Work First Program are being funded this fiscal year through the TANF Block Grant. Therefore, due to a reduction in TANF Block Grant fund availability, this item will not be funded.
20	Transfer to SSBG--County DSS's. Funds are used to cover the cut in the Social Services Block Grant for county departments of social services. No State-level FTEs were directly funded with these TANF funds.	Transfer to SSBG--County DSS's. Funds will be used to cover the cut in the Social Services Block Grant for county departments of social services. No State-level FTEs will be directly funded with these TANF funds.
21	Expand Support Our Students. Funds transferred to the Office of Juvenile Justice to expand Support Our Students mentoring programs for at-risk youth.	Core services for the Work First Program are being funded this fiscal year through the TANF Block Grant. Therefore, due to a reduction in TANF Block Grant fund availability, this item will not be funded.
22	Residential Substance Abuse Services for Women and Children. The NC CASAWORKS for Families Residential Initiative supports 9 Therapeutic Home programs serving eight women receiving Work First Cash Assistance with a child or children in their custody under the age of 11. Women with a substance abuse or dependency diagnosis participate in this 12 month residential program to be followed by six months of outpatient aftercare.	Core services for the Work First Program are being funded this fiscal year through the TANF Block Grant. Therefore, due to a reduction in TANF Block Grant fund availability, funding for this item is reduced.

23	<p>Domestic Violence Services for Work First Families. A total of \$30,000 was allocated to each county department of social services to provide domestic violence services to families receiving Work First services. The county DSS agencies worked with local domestic violence programs to plan for the use of these funds. Based on the county plan, the DSS purchased services for eligible clients from the local domestic violence program and other local agencies to provide for a variety of services including screening, assessment, development of safety and service plans, counseling, determining the need for waivers of Work First program requirements, helping victims relocate to a safe place within or outside the state, court advocacy, and other needed services. No State-level FTEs are directly funded with these TANF funds.</p>	<p>Core services for the Work First Program are being funded this fiscal year through the TANF Block Grant. Therefore, due to a reduction in TANF Block Grant fund availability, this item will not be funded.</p>
24	<p>After School Program for At-Risk Children. Funding is provided for grants to organizations that provide after-school programs for children at risk of teen pregnancy and/or dropout. Grants are awarded to community-based programs that demonstrate the ability to develop linkages with local county departments of social services, are mental health programs, schools, and other human service programs. One State-level FTE is directly funded with these TANF funds.</p>	<p>Core services for the Work First Program are being funded this fiscal year through the TANF Block Grant. Therefore, due to a reduction in TANF Block Grant fund availability, this item will not be funded.</p>
25	<p>DSS Administration. These funds represent the TANF portion of cost allocated amount to support monitoring and administrative support of TANF and Work First Program. Funding supports 10 State-level FTEs.</p>	<p>Core services for the Work First Program are being funded this fiscal year through the TANF Block Grant. Item Number	Activity Funded in SFY 2001-02	Activity Proposed in SFY 2002-03
27	Child Welfare Training for Counties. Funds used to support the following child welfare training projects: 1) Establishment of a regional training center in southeastern North Carolina; 2) To support the Masters Degree in Social Work/Baccalaureate Degree in Social Work Collaborative; 3) To provide training for residential child care facilities; and, 4) To support other child welfare training initiatives. No State-level FTEs are directly funded with these TANF funds.	Child Welfare Training for Counties. Funds used to support the following child welfare training projects: 1) Establishment of a regional training center in southeastern North Carolina; 2) To support for the Masters Degree in Social Work/Baccalaureate Degree in Social Work Collaborative; 3) To provide training for residential child care facilities; and, 4) To support other child welfare training initiatives. No State-level FTEs are directly funded with these TANF funds.
28	Individual Development Accounts (IDAs) - Should be used for TANF eligible individuals. Funds were not allocated.	Core services for the Work First Program are being funded this fiscal year through the TANF Block Grant. Therefore, due to a reduction in TANF Block Grant fund availability, this item will not be funded.
29	Evaluation - This was not an item for which TANF funds were appropriated in SFY 2001-02.	This item is proposed to be funded for the required evaluation of the Work First program.
30	SACWIS Payback- Funds were not appropriated for this item in state fiscal year 2001-02.	SACWIS Payback-It is anticipated the state will have to reimburse the federal government regarding system development related to SACWIS development. Using the Benefiting Program Methodology, the TANF share of this payback will be approximately \$4.6 million.

Proposal

Item Number	Title	Actual SFY 2000 01 (TANF)	Appropriated SFY 2001-2002 (SB 1005)	Recommended Amount SFY 2002-03	Appropriated/Recommended Difference	Explanation of Difference
1	Work First Family Assistance (Includes Item 5 amount for sfy 2001-02)	122,993,466	125,858,582	129,396,275	3,537,693	Expenditures for the previous year were higher than anticipated and projections for state fiscal year 2002 - 2003 indicate the caseload will remain constant.
2	Work First County Block Grants	85,216,218	92,018,855	92,018,855	0	CCDF Block Grant funding for Subsidy in SFY 2002-03 was increased by \$1,457,495. This increase in CCDF funding for Subsidy will assist to offset the TANF decrease for Subsidy.
3	Tfr. to CCDF - Child Care Subsidies	78,238,004	76,675,000	72,812,189	(3,862,811)	Core services for the Work First Program are being funded this fiscal year through the TANF Block Grant. Therefore, due to a reduction in TANF Block Grant fund availability, this item will not be funded.
4	DMH/DD/SAS - Substance Abuse Services	3,500,000	3,500,000	0	(3,500,000)	This item is not proposed for funding in state fiscal year 2002-03.
5	Cash Assistance Reserve (\$11,676,624 Appropriated in state fiscal year 2001-02 is included in Item 1 Amount)	-	-	-	-	Core services for the Work First Program are being funded this fiscal year through the TANF Block Grant. Therefore, due to a reduction in TANF Block Grant fund availability, this item will be greatly reduced.
6	DSS - Staff Development	302,881	500,000	75,000	(425,000)	Core services for the Work First Program are being funded this fiscal year through the TANF Block Grant. Therefore, due to a reduction in TANF Block Grant fund availability, this item will not be funded.
7	Reduction of - out-of-wedlock birth	1,527,867	1,440,000	0	(1,440,000)	Core services for the Work First Program are being funded this fiscal year through the TANF Block Grant. Therefore, due to a reduction in TANF Block Grant fund availability, this item will not be funded.
8	Juvenile SA Services	1,182,280	1,182,280	0	(1,182,280)	Core services for the Work First Program are being funded this fiscal year through the TANF Block Grant. Therefore, due to a reduction in TANF Block Grant fund availability, this item will not be funded.
9	Special Children's Adoption Fund	2,300,000	2,811,687	0	(2,811,687)	These funds, though reduced, will be utilized to continue work being performed on the NC FAST project.
10	Business Process Reengineering Reserve/NC FAST	-	3,000,000	325,000	(2,675,000)	Core services for the Work First Program are being funded this fiscal year through the TANF Block Grant. Therefore, due to a reduction in TANF Block Grant fund availability, this item will not be funded.
11	WF Job Retention and Follow-up Initiatives	2,977,632	650,000	0	(650,000)	Core services for the Work First Program are being funded this fiscal year through the TANF Block Grant. Therefore, due to a reduction in TANF Block Grant fund availability, this item will not be funded.
12	WCH - Teen Pregnancy Prevention	1,551,204	2,015,335	0	(2,015,335)	Core services for the Work First Program are being funded this fiscal year through the TANF Block Grant. Therefore, due to a reduction in TANF Block Grant fund availability, this item will not be funded.
13	Tfr. to SSBG - CCA's	1,470,822	1,500,000	0	(1,500,000)	Core services for the Work First Program are being funded this fiscal year through the TANF Block Grant. Therefore, due to a reduction in TANF Block Grant fund availability, this item will not be funded.
14	Child Care Subsidies for TANF Recipients	26,621,241	26,621,241	26,621,241	0	Core services for the Work First Program are being funded this fiscal year through the TANF Block Grant. Therefore, due to a reduction in TANF Block Grant fund availability, this item will not be funded.
15	Housing	1,046,780	2,700,000	0	(2,700,000)	Core services for the Work First Program are being funded this fiscal year through the TANF Block Grant. Therefore, due to a reduction in TANF Block Grant fund availability, this item will not be funded.
16	Domestic Violence Program Awareness	965,452	900,000	0	(900,000)	Core services for the Work First Program are being funded this fiscal year through the TANF Block Grant. Therefore, due to a reduction in TANF Block Grant fund availability, this item will not be funded.
17	County Child Welfare Staffing	2,727,550	2,727,550	2,727,550	0	Core services for the Work First Program are being funded this fiscal year through the TANF Block Grant. Therefore, due to a reduction in TANF Block Grant fund availability, this item will not be funded.

Item Number	Title	Actual SFY 2000 01 (TANF)	Appropriated SFY 2001-2002 (SB 1005)	Recommended Amount SFY 2002-03	Appropriated/Recommended Difference	Explanation of Difference
18	Intensive Family Preservation	1,705,847	1,800,000	0	(1,800,000)	Core services for the Work First Program are being funded this fiscal year through the TANF Block Grant. Therefore, due to a reduction in TANF Block Grant fund availability, this item will not be funded.
19	Boys/Girls Clubs for WF Children	1,001,065	900,000	0	(900,000)	Core services for the Work First Program are being funded this fiscal year through the TANF Block Grant. Therefore, due to a reduction in TANF Block Grant fund availability, this item will not be funded.
20	Tfr. to SSBG - Child Welfare Services	4,500,000	4,500,000	4,500,000	0	
21	Transfer to OJJ-Expand Support Our Students	2,750,674	2,475,607	0	(2,475,607)	Core services for the Work First Program are being funded this fiscal year through the TANF Block Grant. Therefore, due to a reduction in TANF Block Grant fund availability, this item will not be funded.
22	Residential Substance Abuse Services for Women With Children	2,871,163	4,500,000	1,475,142	(3,024,858)	Core services for the Work First Program are being funded this fiscal year through the TANF Block Grant. Therefore, due to a reduction in TANF Block Grant fund availability, fund availability for this item is reduced.
23	Domestic Violence Services for WF Families	1,067,866	1,800,000	0	(1,800,000)	Core services for the Work First Program are being funded this fiscal year through the TANF Block Grant. Therefore, due to a reduction in TANF Block Grant fund availability, this item will not be funded.
24	After School Program for At-Risk Children	171,219	2,700,000	0	(2,700,000)	Core services for the Work First Program are being funded this fiscal year through the TANF Block Grant. Therefore, due to a reduction in TANF Block Grant fund availability, this item will not be funded.
25	DSS Administration	268,486	500,000	500,000	0	
26	Child Welfare Workers for Local DSSs	4,569,617	7,654,841	7,654,841	0	
27	Child Welfare Training for Counties	431,535	2,000,000	2,000,000	0	
28	Individual Development Accounts		180,000	0	(180,000)	Core services for the Work First Program are being funded this fiscal year through the TANF Block Grant. Therefore, due to a reduction in TANF Block Grant fund availability, this item will not be funded.
29	DSS Evaluation	1,063,378	0	500,000	500,000	This item will fund the required evaluation activities of the TANF program in North Carolina.
30	SACWIS Payback	0	0	4,643,454	4,643,454	A SACWIS Payback is anticipated in SFY 2002-03. This is the amount needed of TANF to assist in this effort as the payback is being calculated utilizing the Benefiting Program Methodology.

Notes:

- Due to economic factors we can anticipate an increase in case load growth for SFY 2002-03.
- With the federal government extending unemployment for an additional 13 weeks we anticipate an increase after the beginning of next fiscal year.
- After a major layoffs there is usually a lag time that occurs between unemployment payments being made and people using their savings prior to applying for work first cash assistance.

SOCIAL SERVICES BLOCK GRANT (SSBG) FOR SFY 2002-03

The amount of Social Services Block Grant (SSBG) Funds available for SFY 2002-03 is based on the actual SSBG Funds allocated for Federal Fiscal Year 2002. The anticipated total federal funds for SFY 2002-03 is \$52,852,407. This includes \$48,352,407 in SSBG and \$4,500,000 in funds transferred from the Temporary Assistance for Needy Families (TANF) Block Grant. Due to limited fund availability for TANF, the amount of funds transferred from TANF into SSBG is \$1,500,000 less than the previous year.

GENERAL DESCRIPTION

The Social Services Block Grant is intended to provide federal funds which support helping individuals achieve or maintain a greater degree of economic self-support or self-sufficiency, preventing abuse or exploitation of children and adults who are unable to protect their own interests, and preventing inappropriate institutional care or securing appropriate institutional care when other forms of care are not appropriate.

The primary providers of these services are the one hundred county departments of social services. These funds are mostly being used for mandated services such as foster care services for adults and children, protective services for adults and children, and adoption services. Other uses of these funds include child care for child welfare cases, community-based services for elderly and disabled adults (such as in-home aid services, adult day care, and preparation of meals), mental health services, and other human services programs.

RECOMMENDATIONS

- | | | | |
|----|--|----|------------|
| 1. | Allocation to the 100 county departments of social services for basic/mandatory services. Includes <u>Transfer from Temporary Assistance for Needy Families (TANF) Block Grant of \$4,500,000.</u> | \$ | 27,095,289 |
| 2. | Allocation for in-home services provided by county departments of social services. | \$ | 2,101,113 |
| 3. | Allocation to the Division of Mental Health, Developmental Disabilities and Substance Abuse Services for residential treatment, day treatment, adult day activity program, developmental day care services, and Community Living Skills Program. | \$ | 3,656,604 |

4.	Allocation to the Division of Services for the Blind for case management, chore and independent living services.	\$	3,105,711
5.	Allocation to the Division of Facility Services for Adult Care Home licensure staff to conduct pre-licensure inspections, providing consultation and technical assistance, conducting complaint investigations, and documenting case findings.	\$	426,836
6.	Allocation to the Division of Aging for the Home and Community Care Block Grant for persons age 60 and older, for training and education, and for respite care services.	\$	1,840,234
7.	Allocation to the Division of Child Development for child care subsidies.	\$	3,000,000
8.	Allocation to the Division of Vocational Rehabilitation Services – United Cerebral Palsy.	\$	71,484
9.	Allocation to the Department of Health and Human Services to support direct and indirect state and regional administration.	\$	1,693,368
10.	Allocation to the Division of Social Services for the Child Medical Evaluation Program.	\$	238,321
11.	Allocation to county departments of social services for Adult Day Care Services.	\$	2,155,301
12.	Transfer to the Department of Administration for the N.C. Commission of Indian Affairs In Home Services Program for the elderly.	\$	203,198
13.	Allocation to the Division of Vocational Rehabilitation – Easter Seals Society.	\$	116,779
14.	Allocation to the Division of Social Services for the UNC-Chapel Hill CARES Program for training and consultation services.	\$	247,920
15.	Allocation to the Office of the Secretary - Office of Economic Opportunity for N.C. Senior Citizens' Federation for outreach services to low-income elderly.	\$	41,302
16.	Allocation to the Division of Social Services - Child Caring Agencies.	\$	1,500,000
17.	Allocation to the Division of Mental Health, Developmental Disabilities, and Substance Abuse Services for developmentally disabled waiting list for services.	\$	5,000,000

18. Transfer to Preventive Health Services Block Grant for HIV/AIDS education, counseling, and testing. \$ 145,819

19. Division of Facility Services – Mental Health Licensure 213,128

4	<p>Funds enable blind and visually-impaired people to adjust to their disabilities so as to be able to meet the demands of daily living and be independent. Services are available in all 100 NC counties and include counseling, personal care skills and training in home management. 72.4 FTE's include service providers - 57 Social Workers for the Blind - 9 Orientation and Mobility Specialists--4 Field Service Supervisors (Supervise the 57 Social Work positions). Remaining 2.4 FTE's are part-time clerical positions assisting blind Social Workers (these staff are located in county Departments of Social Services). Twelve additional FTE's are cost allocated positions. It is anticipated that with the increasing aging population in our State, the demand for these services will grow dramatically. These services are directed toward enabling people to stay in their homes/communities, thus, avoiding costly institutional and other forms of care.</p>	<p>Funds enable blind and visually-impaired people to adjust to their disabilities so as to be able to meet the demands of daily living and be independent. SSBG Block Grant Explanation

DESCRIPTION OF EACH ACTIVITY FOR THE SOCIAL SERVICES BLOCK GRANT
 SFY 2001-02 AND SFY 2002-03

Item Number	Activity Funded in SFY 2001-02	Activity Proposed in SFY 2002-03
7	<p>Child Care subsidies funding is combined with other state and federal funds and allocated by the Division of Child Development to each county for subsidized child care for low-income and other needy families. The purpose of the funding is to provide support to families who need assistance in paying for child care. The funds will be used for the same purpose in SFY 2000-01 and 2001-02, with the anticipated outcome that it will allow families to stay employed since they have access to child care. No state or county level FTE's will be supported by these funds.</p>	<p>SSBG funds are a small but very critical piece of DCD's subsidized child care funding. SSBG funds can be used to serve families who are not eligible for CCDF or TANF funds, such as families who need child care because children are receiving child protective or child welfare services; the family is in crisis; or to support foster care placement. The \$3 million in SSBG is also essential in meeting Child and Adult Care Food Program requirements. Because the SSBG (Title XX) is part of NC's blended subsidy funds, the USDA allows for-profit providers who receive our blended subsidy funds to qualify for the CACFP. An estimated 2,200 for-profit child care centers approved for subsidy could be impacted. If centers do not receive CACFP reimbursement, it is likely that they will pass additional food costs onto parents or the subsidy program. No state or county level FTE's will be supported by these funds.</p>
8	<p>United Cerebral Palsy provides support vocational, educational and training programs to adults having cerebral palsy or other neuromuscular conditions for employability in the regular workforce. The State has considered the services provided to adults with severe physical disabilities as one of the services that the state has considered a priority direct service. United Cerebral Palsy utilizes these funds to provide direct services for adults with severe disabilities in five locations across the state, serving over 50 adults on a daily basis. These adults would be at risk for daily care without the services supported through Social Services Block Grant. The funding will be reflected through the Raleigh location. Utilization of the funding will provide for rehabilitative intervention leading to a greater independence, maintenance of health, community interaction and in some cases movement into supported employment. A vital part of a comprehensive effort to provide personal outcomes leading to greater daily independence and potential part time employment. A total of 3 FTE's will be supported with Social Services Block Grant funds.</p>	<p>United Cerebral Palsy provides vocational, educational and training programs to adults having cerebral palsy or other neuromuscular conditions for employability in the regular workforce. 9	State Administration funds support a total of 27.58 FTE positions through cost allocation. These positions support the implementation of the Social Services Block Grant.	State Administration funds support a total of 27.58 FTE positions through cost allocation. These positions support the implementation of the Social Services Block Grant.
10	Child Medical Evaluation Program provides medical and psychological evaluations of children who are being investigated by county DSS agencies for suspected abuse and/or neglect. The evaluations are performed by licensed physicians and psychiatrists/psychologists across the state who receive training by the UNC School of Medicine to perform these responsibilities. The evaluations greatly assist county DSS's and the court system in making sound decisions about the nature and extent of maltreatment that a child has endured. Children suspected of being abused or neglected receive expert evaluations so that appropriate actions can be taken to protect them. No state level FTE's will be supported with these funds. 20	Developmental Disabilities Waiting List: The purpose of this funding is to enable the development of additional services in order to (a) serve adults and children currently on the DD waiting list and not receiving any services, and (b) to serve adults and children currently on the DD waiting list who may be receiving partial services but needed additional services.	Developmental Disabilities Waiting List: The purpose of this funding is to enable the development of additional services in order to (a) serve adults and children currently on the DD waiting list and not receiving any services, and (b) to serve adults and children currently on the DD waiting list who may be receiving partial services but needed additional services. Based on an average cost of \$2,722 per person, the recommended SFY 03 funding level would provide services to an estimated 1,561 individuals.
21	Currently being allocated to Duke University and Wake Forest University for genetic counseling. DPH requests that these funds go directly to the targeted agencies and not come through the Maternal and Child Health Block Grant.	Funding for this item is not proposed for SFY 2002-03.

SSBG Block Grant Explanation

DESCRIPTION OF EACH ACTIVITY FOR THE SOCIAL SERVICES BLOCK GRANT
 SFY 2001-02 AND SFY 2002-03

Item Number	Activity Funded in SFY 2001-02	Activity Proposed in SFY 2002-03
22	Public Health will allocate funds to local health departments to support personnel and programs for HIV/AIDS education, counseling, and testing. The local health departments emphasize AIDS education and testing efforts targeted at persons at highest risk to ensure that these efforts are maximally effective in controlling the epidemic. There are no FTE's associated with this activity.	To ensure compliance with SB 1005, section 5.1 (z), the Office of Minority Health and Health Disparities (OMHHD), in collaboration with the HIV/STD Prevention and Care Branch in the Division of Public Health, has focused their efforts on three major components - NCDHHS HIV/AIDS Inter-Intra Agency Partnership, the HIV/AIDS awareness and education media campaign, and the local HIV/STD Prevention Partnerships
23	This did not occur in SFY 2001-02.	DFS - Mental Health Licensure: SSBG will now fund this item in lieu of the EMS activities. State appropriations will be utilized to fund EMS activities. This will solve administrative problems which would have existed should the EMS activities have been funded through an SSBG transfer to the Preventive Health Services Block Grant.

**DIVISION OF CHILD DEVELOPMENT
CHILD CARE AND DEVELOPMENT FUND PLAN FOR SFY 02-03**

GENERAL DESCRIPTION

For State Fiscal Year 2002-03, federal funds available through the Child Care and Development Fund (CCDF) for appropriation are projected to be \$173,227,035. In addition, the NC Department of Health and Human Services is proposing to transfer \$72,812,189 in federal Temporary Assistance for Needy Families (TANF) funds to the Child Care and Development Fund. The US Department of Health and Human Services has not yet released its estimates for Federal Fiscal Year 2002-03 CCDF grant awards. The estimate shown here assumes that the CCDF grant will be reauthorized at the same funding level and with the same requirements in FFY 2003.

The purpose of the Child Care and Development Fund is to improve the availability, quality, and affordability of child care. The CCDF is comprised of three funding streams: Mandatory, Matching, and Discretionary. The federal legislation requires that a considerable portion of the Mandatory and Matching funds be used to provide child care assistance to families that are receiving public assistance, families that are attempting through work activities to transition off of such assistance, and families that are at risk of becoming dependent on such assistance. A substantial portion of the Discretionary funds must also be used to provide assistance to low-income working families.

The Personal Responsibility and Work Opportunity Reconciliation Act (PRWORA) of 1996 limits administrative costs (as defined by the Federal Administration for Children and Families) to a maximum of 5% of the total CCDF allocation. The NC Division of Child Development plans to set aside 4% of the federal CCDF funds for administrative costs at the state and local level. Funding not used for administration will be used for child care subsidies.

Also a requirement of the PRWORA, the Division plans to reserve at least 4% of the total CCDF allocation for quality and availability initiatives. The CCDF also includes earmarks for specific quality activities that are in addition to the 4% quality requirement.

Child Care Services

North Carolina uses CCDF "Services" funding to provide subsidies to low-income working families and to support effective implementation of the Subsidized Child Care Program. Families are eligible for CCDF-funded child care based on income and have a co-payment of 8-10% of their gross monthly income.

North Carolina's Work First program requires recipients to work, resulting in a high demand for child care subsidies. The Division of Child Development is charged with administering all subsidized child care programs, including the provision of child care to Work First participants.

In SFY 00-01, the Subsidized Child Care Program (funded primarily through the Child Care and Development Fund) supported families in their transition off public assistance by:

- Providing subsidized care to over 174,000 children of which over 26,000 were children in families receiving Work First benefits;

**DIVISION OF CHILD DEVELOPMENT
CHILD CARE AND DEVELOPMENT FUND PLAN FOR SFY 02-03**

- Enabling families that moved off Work First to continue to receive subsidized child care as they worked to sustain self-sufficiency.

Under the current eligibility policy, the Subsidized Child Care Program helps to reduce the need for Work First and other public assistance in the first place. At the local level, subsidized child care has been used to divert families from going on Work First and other forms of public assistance.

To meet the demand for subsidized child care from Work First and other low-income working families, DHHS is proposing to continue to transfer TANF funds to CCDF. Transferred funds will supplement the Discretionary funding stream reserved for low-income working families. Coordination between the Division of Child Development and the Division of Social Services will continue as child care remains a critical support for Work First families.

In addition to general child care subsidies, CCDF Services funding is used to provide Head Start Wrap Around care -- child care that "wraps around" partial-day Head Start programs to enable parents to work, search for work, or participate in education or training. Wrap Around care is accessed by families through the same local offices that provide vouchers to low-income families for subsidized child care -- in most cases, the local department of social services.

Child Care and Development Fund Services funding supports the quality as well as the affordability and availability of child care. Reimbursement rates to providers are linked to the five-star rated license system in a such a manner as to compensate for quality child care services. Market rates at each of the five star rated license levels allow for higher quality subsidized child care to be reimbursed at higher rates. Market rates were not adjusted in the past year.

Quality and Availability Initiatives

The need for quality care and early education services is critical. Early childhood research has confirmed the potential for extensive brain development in the first three years of life and identified the importance of a safe and nurturing environment for healthy brain development. Studies have shown the benefits of high-quality early childhood experiences, especially for children who are traditionally at risk of not doing well in school. Based upon the findings from the growing body of research on child development and child care, it is important to promote high-quality child care practices and increase the availability of high-quality care.

Since 1991 (through the Child Care and Development Fund and its precursor, the Child Care and Development Block Grant), North Carolina has supported initiatives that improve the quality and availability of child care. Examples of ongoing initiatives include: child care resource and referral services; expanding the availability and quality of school-age care; efforts to support inclusion of children with special needs in mainstream child care programs; and the Child Care Revolving Loan Fund.

Other newer initiatives that the Division of Child Development plans to continue in State Fiscal Year 2002-03 include: partial health insurance reimbursement and wage supplements for child care staff who obtain additional education; child care health consultation targeted to providers of infant

**DIVISION OF CHILD DEVELOPMENT
CHILD CARE AND DEVELOPMENT FUND PLAN FOR SFY 02-03**

and toddler care; and assistance to child care providers through implementation of North Carolina's Five Star Rated License.

Implementation of the five-star rated license has supported the goal of making quality child care accessible to families. Over half of the children now enrolled in child care centers are in programs with ratings of 3-5 stars. Consumer outreach is provided through child care resource and referral and the Division's website to make parents aware of the components of quality child care through the rated license.

In previous years, additional Division staff were hired with CCDF funding to meet state and federal mandates related to: monitoring use of child care subsidy funds; monitoring compliance with licensing requirements; and investigation of child abuse and neglect reports in child care settings. This allowed more licensing staff to visit new and existing child care centers and homes to assure compliance with licensing standards.

All quality initiatives funded with the CCDF through the Division of Child Development must be consistent with North Carolina's approved FFY 2001-2003 CCDF plan.

DIVISION OF CHILD DEVELOPMENT
CHILD CARE AND DEVELOPMENT FUND PLAN FOR SFY 02-03

GENERAL DESCRIPTION

For State Fiscal Year 2002-03, federal funds available through the Child Care and Development Fund (CCDF) are projected to be \$173,227,035. In addition, the NC Department of Health and Human Services is proposing to transfer federal Temporary Assistance for Needy Families (TANF) funds to the Child Care and Development Fund. The US Department of Health and Human Services has not yet released its estimates for Federal Fiscal Year 2003 CCDF grant awards. The estimate shown here is based on continuation of CCDF funding in the same amount that North Carolina received in FFY 2002.

CCDF RECOMMENDATIONS

ALLOCATION

1. Child Care Services: Allocate funds to local agencies for services support and the provision of child care subsidies for low income working and other needy families. This amount includes funds for automation to support subsidy reimbursement.	\$149,801,334
2. Improve Quality of Early Care and Education Services: Federal law requires states to spend at least 4% of the CCDF allotment for activities to improve the quality and increase the availability of child care and early education. In addition, the state's annual allotment of CCDF funds includes earmarks for specific quality activities. The quality funds will provide for the continuation of existing projects to enhance the quality of child care in North Carolina. The quality and availability activities include: increasing the availability of care for school-age children and children with special needs, child care resource and referral services, supporting provider education and training, improving the monitoring of child care facilities, and lowering the teacher turnover rate by funding various teacher compensation programs such as health insurance reimbursement and wage supplements for early education staff. The amount of quality funding shown here does not include the 4% set-aside required of any funding transferred from TANF to CCDF.	\$16,496,620
3. Administrative Costs: The CCDF regulations limit expenditures for administration to no more than 5% of the total grant. The recommended amount represents expected expenditures of 4% of the SFY CCDF funds. The calculation of the recommended amount does not include the funds transferred from TANF.	\$6,929,081
4. Transfer funding from TANF to CCDF: The majority of the TANF funds are used for child care subsidies. The transferred funds are subject to the same requirements that apply to CCDF (minimum 4% for quality improvement).	\$72,812,189
5. State Funding Requirements: Designate state funds to maximize available federal funds for child care services and quality activities.	\$64,305,829
TOTAL REQUIREMENTS	\$310,345,053

**DEPARTMENT OF HEALTH AND HUMAN SERVICES
OFFICE OF ECONOMIC OPPORTUNITY
COMMUNITY SERVICES BLOCK GRANT PLAN FOR SFY 2002-2003**

GENERAL DESCRIPTION

For State Fiscal Year 2002-2003, funds available through the Community Services Block Grant Program (CSBG) for appropriation are projected to be \$16,963,303. CSBG funds are projected to be available October 1, 2002.

Since 1981, the Community Services Block Grant Program has made federal funds available to states to provide a range of services designed to assist low-income persons attain the skills, knowledge, and motivation necessary to achieve self-sufficiency.

The primary providers of services under this grant, as required by federal law, are the thirty-six Community Action Agencies (CAAs) in the state. Other grantees are seven Limited Purpose Agencies (LPAs) who were recipients of similar funds prior to the inception of the Community Services Block Grant Program. CAAs operate programs under the Community Services Block Grant in coordination with other federal, state, and local programs such as the Head Start program, Workforce Investment Act (WIA) Programs, Weatherization Assistance Program, and Section 8 Rental Assistance Program.

In August 1995, the federal Community Services Block Grant Monitoring and Assessment Task Force produced a National Strategic Plan, which endorsed a results-oriented management approach for the Community Services Network. The plan includes a set of six broadly stated umbrella national goals, with suggested measures to assess progress towards the goals. States and local agencies are required to address these goals and measures in their program planning and reporting.

The six national goals of the Community Services Network are:

- Goal 1. Low-income people become more self-sufficient.
- Goal 2. The conditions in which low-income people live are improved.
- Goal 3. Low-income people own a stake in their community.
- Goal 4. Partnerships among supporters and providers of services to low-income people are achieved.
- Goal 5. Agencies increase their capacity to achieve results.
- Goal 6. Low-income people, especially vulnerable populations, achieve their potential by strengthening family and other support systems.

Community Services Block Grant funds are used to provide a wide variety of services in local communities to serve identified needs of poor families. Programs

**DEPARTMENT OF HEALTH AND HUMAN SERVICES
OFFICE OF ECONOMIC OPPORTUNITY
COMMUNITY SERVICES BLOCK GRANT PLAN FOR SFY 2002-2003**

allowed under the Community Services Block Grant Act are those which provide activities designed to assist low-income participants including the elderly poor:

- to remove obstacles and solve problems which block the achievement of self-sufficiency;
- to secure and retain meaningful employment;
- to attain an adequate education;
- to make better use of available income;
- to obtain and maintain adequate housing and a suitable living environment;
- to obtain emergency assistance through loans, grants or other means to meet immediate and urgent family and individual family needs;
- to achieve greater participation in the affairs of the community; and
- to make more effective use of other programs related to promoting the well being of the low-income population.

The specific services operated in each local community are determined by the local agency as a result of an assessment of the needs of low-income individuals and families in their service area, which is used to develop a multi-year plan for services.

As required by the Community Services Block Grant Act, ninety per cent of the funds received are distributed to the thirty-six Community Action Agencies (CAAs) located throughout the state. Five percent is the maximum allowed by federal law that may be used to administer the Program. The remainder is used to fund seven non-profit organizations known as Limited Purpose Agencies (LPAs).

Over twenty thousand low-income individuals are served annually by the North Carolina Community Services Block Grant Program.

LOW INCOME HOME ENERGY ASSISTANCE PROGRAM BLOCK GRANT (LIHEAP)
FOR SFY 2002-2003**

GENERAL DESCRIPTION

For State Fiscal Year 2002-2003, the Total State Low Income Home Energy Assistance Allocation is currently estimated to be **\$25,569,203**.

The purpose of the Low Income Home Energy Assistance Program Block Grant is to provide funds to help low-income families cope with cost increases of heating fuel and to provide emergency assistance. The components of the program are as follows:

1. Low Income Home Energy Assistance Payments – Funds are used to provide a one-time payment to eligible households to help pay heating bills.
2. Crisis Intervention Assistance – Funds are used to assist low-income households when a heating or cooling related crisis occurs. Allocations are provided to county departments of social services to make direct payments, vendor payments, or to provide in-kind services for eligible households.
3. Weatherization Assistance Program- Funds are transferred to the Department of Health and Human Services, Office of Economic Opportunity for the purpose for making repairs to dwellings so families can have more energy-efficient homes.
4. Heating Air Repair and Replacement Program- Funds are used to provide assistance and repairs to home heating and cooling systems for low-income families. These funds are allocated to the Department of Health and Human Services, Office of Economic Opportunity. Services are provided primarily through community action agencies.
5. Department of Administration, Commission on Indian Affairs- Funds are used to provide outreach and application taking activities for the Low Income Energy Assistance Program (LIEAP) and the Crisis Intervention Program (CIP) Payments by Coharie Intra-Tribal Council, the Haliwa-Saponi Tribe and the Waccamaw-Siouan Development Association.

NOTE: LIHEAP Block Grant Public Review Comment Period was held February 11-15, 2002 and we received no comments.

1	Low Income Energy Assistance Program (LIEAP) payments	10,052,765	8,092,113	11,395,026	3,302,913	The LIHEAP block grant was discussed with county DSS representatives and they recommended increasing the LIEAP line item for SFY 2003 due to increased applications and to increase the amount for elderly households. The average LIEAP check in SFY 2002 was approximately \$74. The funding level for the LIEAP payments for SFY 2002 was increased by \$3M due to an increase in the base allotment in December 2001. In order to meet or exceed this average, the \$11.39 M is recommended.
2	Crisis intervention Program (CIP)	26,513,409	5,795,825	6,598,934	803,109	Although there is a recommended reduction in the allocation to CIP for SFY 2003, North Carolina received an additional \$11,407,904 above the original budgeted SFY 2002 LIHEAP Block Grant due to an increase in the base block grant. Of the additional funds received during SFY 2001, \$5.7M was allocated to counties for 2002 CIP payments. Should North Carolina receive additional emergency or contingency funds in SFY 2003, it is recommended that these funds be specifically allocated to CIP unless federal regulations dictate otherwise.
3	Office of Economic Opportunity for Weatherization Program	2,375,982	2,684,116	3,457,189	773,073	The increase is based on the percentage increase in the block grant.
4	Heating Air Repair and Replacement Program (HAARP)	1,045,209	1,252,588	1,613,355	360,767	The increase is based on the percentage increase in the block grant.
5	Outreach/application-taking by the Commission on Indian Affairs	45,189	39,765	39,765	-	Funding is not proposed to be decreased from the previous year.
6	Total Administration	3,400,141	1,984,934	2,464,934	480,000	The funding available for administration is capped at 10 percent of the LIHEAP Block Grant.
	TOTAL	43,432,695	19,849,341	25,569,203	5,719,862

Division of Mental Health, Developmental Disabilities
and Substance Abuse Services

***Substance Abuse Prevention & Treatment Performance Partnership Block
Grant
SFY 2002-2003***

FUNDING LEVEL

The Annual Federal Substance Abuse Prevention and Treatment Performance Partnership Block Grant (SAPTPPBG) award is currently \$35,377,284 for FFY 2002 and an estimated amount of \$36,705,601 for FFY 2003. The proposed plan for SFY 03 totals \$39,907,022 and utilizes the estimated remaining FFY 2002 balance of \$22,519,554, plus an estimated amount of \$17,387,468 from the anticipated FFY 2003 award.

GENERAL DESCRIPTION

The Children's Health Act of 2000 reauthorized programs within the jurisdiction of the Substance Abuse and Mental Health Services Administration (SAMHSA), to improve substance abuse services for children and adolescents and to implement proposals to use block grant funds with accountability based on performance.

Section 3303— Substance Abuse Prevention and Treatment Performance Partnership Block Grant. This program provides funds to states for the provision of prevention and treatment services for children and adults. There are a number of requirements directly related to public health issues. Greater flexibility for use of the funds is enhanced by the repeal of the requirement that the state spend 35 percent of the allotment on drug related activities and 35 percent on alcohol related activities. This section also creates authority for the Secretary of HHS to waive certain requirement for states that met established performance criteria. Those criteria will be established in regulation after consultation with States, providers and consumers.

SIGNIFICANT FEDERAL REQUIREMENTS

1. States are required to maintain financial support for substance abuse prevention and treatment services at the average of what it spent over the past two years. This Section includes a provision that would exempt from maintenance of effort requirement any one-time infusion of funds, which are for a singular purpose.

2. States are required to use 20% of their allotment for primary prevention.
3. States are required to maintain financial commitment to services for pregnant addicts and women with children and to give preferential treatment to pregnant addicts.
4. States are required to provide treatment for intravenous drug abusers within 14 days of the individual requesting treatment and requires treatment facilities to inform the State when they are a 90% capacity.
5. States are required to ensure that facilities receiving Federal funds provide tuberculosis services.
6. States are required to enact and enforce State laws prohibiting the sale and distribution of tobacco products to minors. States are required to carry out activities to reduce the availability of tobacco products to minors including random unannounced inspections of outlets. This Section requires the Secretary of HHS to penalize the State up to 40% of their allotment for failure to comply.
7. States are required to conduct needs assessments.

PROPOSED EXPENDITURE PLAN**ALLOCATION**

- 1. Adult Substance Abuse**
Continuation of community and ADATC based alcohol and drug services including prevention, intervention, treatment, rehabilitation, and detoxification. Funding to support intervention and treatment services for offenders who remain in the community. Funds will be used to provide treatment services for offenders with substance abuse problems in community punishment programs. Continue support for group homes for recovering substance abusers. Tuberculosis services will be provided to all program participants. Special services for the deaf will be provided at the ADATC in Greenville, NC, with outpatient services for the deaf established in each region. Programs will be required to screen clients for TB and other infectious diseases.

\$15,401,711

- 2. Women's Substance Abuse**
Continuation of services for pregnant women and women with dependent children. Specialized services will be provided at the ADATCs for women. Continue to develop specialized services for TANF participants whose substance abuse is a barrier to self-sufficiency.

\$8,069,524

- 3. Services to IV Drug Abusers**
Continuation of services to IV drug abusers and others at risk for HIV disease. Special services for IV drug users will be provided at the ADATCs.

\$4,616,378

- 4. Child and Adolescent Substance Abuse**
Continue services to children and adolescent including primary prevention, high-risk intervention, outpatient treatment and comprehensive regional residential services. Services will include treatment for juvenile justice youth in

\$7,740,611

community-based settings as well as in children in multi-purpose group homes and juvenile detention and youth development centers and . Prevention activities will include strategies to discourage use of alcoholic beverages and tobacco products by individuals to whom it is unlawful to sell or distribute such products. Services will be delivered in accordance with the 1993 Mental Health Study Commission *Child and Adolescent Alcohol and Other Drug Abuse Plan* and the State Plan 2001: Blueprint for change.

5. Strengthening Families

Prevention and treatment services will be provided for children who are impacted by parental addiction. \$851,156

6. Administration

Applicable to 5% Administrative Cap (Staffing, planning, quality assurance, development of new treatment and prevention services and training for providers receiving Block Grant funds. Monitor prescription drug diversion.) \$1,768,864

Non applicable to 5% Administrative Cap (Statutory requirement to identify those populations, areas and local with a need for substance abuse services and includes needs assessments, outcome evaluation and performance monitoring.) \$827,443

7. DPH - Risk Reduction Projects

The Division of Public Health, Epidemiology Section, HIV/STD Prevention and Care Branch subcontracted with the following four community-based organizations and 2 county health departments to educate injecting drug users at high risk for contracting or transmitting HIV and other sexually transmitted diseases. \$383,980

8. DPH - Aid-to-Counties

The Division of Public Health,
Epidemiology Section, HIV/STD
Prevention and Care Branch
subcontracted wit the following 18 local
county health departments to provide
HIV/STD/TB education, counseling,
testing and treatment as appropriate to
substance abusers and other individuals
at high risk for contracting or
transmitting HIV/STD/TB.

\$209,576

9. DPH – Maternal Health

Funds are used to pay the salary and
travel for training for a staff person at
the Maternal and Child Health Hotline.

DESCRIPTION OF EACH ACTIVITY FOR THE SUBSTANCE ABUSE PREVENTION AND TREATMENT BLOCK GRANT SFY 2001-02 AND SFY 2002-03

Item Number	Activity Funded in SFY 2001-02	Activity Proposed in SFY 2002-03
1	<p>Adult Substance Abuse. Funds provide the provision of the full continuum of care to adult substance abusers in Community Programs and for inpatient care in the 3 ADATCs. Core services in Community Programs include Primary Prevention, outreach, intervention, treatment (individual and group outpatient therapy and intensive outpatient programs), rehabilitation, detoxification, and case management. Special programming is also offered to criminal justice offenders who remain in the community. A revolving loan fund is operated to expand the 70+ recovery homes established in the state to provide safe drug free housing and support of recovering substance abusers. Tuberculosis services including screening of all admissions and referral as appropriate by all programs that receive SAPTBG funds. Special services are provided to the Deaf and Hard of Hearing substance abusers on an inpatient basis at the WBJ/ADATC and by 5 regional coordinators who provide direct counseling and consultation. Four additional staff positions have been established to assume responsibilities to manage and implement special programs in 1) EAP consultation to businesses hiring Work First participants with alcohol and other drug problems, 2) to implement the Offender Management Program, 3) to assure quality for providers delivering treatment to DWI offenders and 4) development of housing and other 24 hour services.</p>	<p>Adult Substance Abuse. Funds provide a base for the implementation of the legislatively mandated State Plan which call for the provision of a full continuum of care to adult substance abusers in Community Programs and for inpatient care in the 3 ADATCs. Under the State Plan funds will be managed by Local Management Entities (LMEs) who are responsible to see that Core Services are provided through contractual arrangements with private community providers. Core services will include Primary Prevention, outreach, intervention, treatment (individual and group outpatient therapy and intensive outpatient programs), rehabilitation, detoxification, and case management. Special programming is also offered to criminal justice offenders who remain in the community and who have been included as a targeted population. A revolving loan fund is operated to expand the 80+ recovery homes established in the state to provide safe drug free housing and support of recovering substance abusers. Tuberculosis services including screening of all admissions and referral as appropriate by all programs that receive SAPTBG funds. Special Services are provided to the Deaf and Hard of Hearing substance abusers on an inpatient basis at the WBJ/ADATC and by 5 regional coordinators who provide direct counseling and consultation. 	<p>Abuse initiative. This initiative provides a variety of intensive case management, outpatient and residential treatment options for women statewide.</p>	<p>addition, area programs, or LMEs through their provider network, arrange for the provision of primary medical care for these women and primary pediatric care for their children. Specialized services for women are also provided at the ADATCs. These funds also help support specialized treatment for TANF participants and help support the NC Perinatal and Maternal Substance Abuse Initiative. This Initiative provides a variety of intensive case management, outpatient and residential treatment options for women statewide.</p>
3	<p>Intravenous (IV) Drug. Funds provide Outpatient Narcotic Addiction Treatment to intravenous drug users statewide through 9 publicly operated or affiliated programs. These specialized programs offer a comprehensive array of services including medication assisted stabilization and maintenance; group, individual, and intensive management; HIV testing and counseling; and other ancillary services as indicated by a consumers treatment plan. Funds also support outreach initiatives in each Narcotic Addiction Treatment Program to IV Drug Users at risk for HIV Disease. The 3 Alcohol and Drug Abuse Treatment Centers also provide special inpatient programming to IV Drug Users who are determined to need that level of care. A portion of these funds in excess of \$600,000 are transferred to the Division of Health to 1) support 8 HIV Programs to provide outreach, HIV testing, and pre and post test counseling to drug users on site where persons receive substance abuse treatment; and 2) to support 18 local health department HIV prevention programs.</p>	<p>Intravenous (IV) Drug. Funds provide Outpatient Opioid Addiction Treatment to intravenous drug users statewide through 9 publicly operated or affiliated programs. These specialized programs offer a comprehensive array of services including medication assisted stabilization and maintenance; group, individual, and intensive outpatient treatment; case management; HIV testing and counseling; and other ancillary services as indicated by a consumers treatment plan. Funds also support outreach initiatives in each Opioid Addiction Treatment Program to IV Drug Users at risk for HIV Disease. The three Alcohol and Drug Abuse Treatment Centers also provide special inpatient programming to IV Drug Users who are determined to need that level of care. A portion of these funds in excess of \$600,000 are transferred to the Division of Health to 1) support 8 HIV Early Intervention Programs to provide outreach, HIV testing, and pre and post test counseling to drug users on site where the persons are engaged in substance abuse treatment; and 2) to support 18 local health department HIV prevention programs. These SAPTBG funds are focused on a top priority population as outlined in the NC MH/DD/SAS State Plan. In accordance with the priorities in the State Plan, these funds will be used to provide substance abuse services to this top priority target population.</p>
4	<p>Child Substance Abuse Services. Funds support the continued provision of child and adolescent substance abuse services, including prevention, high-risk intervention, outpatient treatment, and regional residential programs. Services include those directed to children and adolescents in the juvenile justice system. Prevention activities include strategies to discourage use of alcoholic beverages and tobacco products by individuals to whom it is unlawful to sell or distribute such products. Services will be delivered in accordance with the 1993 Mental Health Study Commission Child and Adolescent Alcohol and Other Drug Abuse Plan.</p>	<p>Child Substance Abuse Services. Funds will support a legislative State Plan mandate of targeted populations and outcome oriented goals including, continued training, provision for expansion of child and adolescent substance abuse continuum of care services with a strength based and consumer focused person centered planning process. The plan includes prevention services, Community Based Services, Outpatient Treatment, and Regional Residential programs. The plan will be implemented through Local Management Entities (LMEs) that contract provider services. Services include those for children and adolescents in the juvenile justice system. Prevention activities include strategies that discourage use of alcoholic beverages and tobacco products by underage youth for which it is</p>

Item Number	Activity Funded in SFY 2001-02	Activity Proposed in SFY 2002-03
		unlawful to sell or distribute such products. A SOC Approach and cross agency collaboration will serve as a foundation to maximize services and to provide person centered and strength based treatment planning. Services will be delivered in accordance with the 1993 Mental Health Study Commission Child and Adolescent Alcohol and Other Drug Abuse Plan.
5	Strengthening Families. Funds support 3 pilot programs providing services using the Strengthening the Families Model. The Program is a 16-week family-based, behaviorally oriented prevention intervention. The program is designed to improve parenting skills and have a positive effect on risk and protective factors of children living with a substance abusing parent, or parents, participating in a substance abuse treatment program. Mental Health Block Grant (MHBG)

SFY 2002-2003

FUNDING LEVEL

Federal funding available to North Carolina is \$10,239,850 for FFY 2002 and an estimated amount of \$10,239,850 for FFY 2003. The proposed MHBG plan utilizes the estimated remaining FFY 2002 amount of \$5,345,238 plus an estimated amount of \$4,894,612 from the anticipated FFY 2003 award.

GENERAL DESCRIPTION

The MHBG provides federal financial assistance to states for the provision of community-based services for people with mental illness. Services provided through the use of the block grant must be those described in the State's Plan in accordance with Federal P.L. 102-321. These services include outpatient, day treatment, psychosocial rehabilitation, emergency services, residential services, etc. for adults and children. The funds may also be used for evaluating programs and services carried out under the plan and planning, administration, and educational activities related to providing services under the State Plan.

SIGNIFICANT FEDERAL REQUIREMENTS

The primary Federal requirements related to the MHBG are that funds must be used as specified within the States' Plan for Comprehensive Community Mental Health Services in accordance with P.L. 102-321, including community based services for adults with serious mental illness and children with serious emotional disturbance; for planning and, evaluating programs and services carried out under the plan; for educational activities related to providing services under the plan; and for administration.

The State must maintain the level of State funds expenditures for mental health services at a level not less than the average of the preceding two year period and must expend an amount equal to the amount expended by the State for fiscal year, 1994 for a system of services for children.

The State must establish and maintain a State Mental Health Planning Council to advise the State regarding the plan.

	PROPOSED MHBG PLAN for SFY 03	ALLOCATION
1.	Adult Mental Health Plan	
	Allocate funds to local programs to provide community-based services for adults with severe and persistent mental illness in accordance with the NC Community Mental Health Services Plan and Block Grant Application. Community-based programs provide an array of services, including	\$5,442,798

	crisis stabilization and other services designed to divert individuals from institutional admission; liaison, case management and other services which facilitate the discharge of individuals from the state's psychiatric hospitals; special programs for the hearing impaired; and training activities.	
2.	Child Mental Health Plan	
	Continuation of Child Mental Health services in accordance with the NC Community Mental Health Services Plan and Block Grant Application such as programs for mental health services in schools, adolescent sex offenders, respite services, family preservation programs, group homes, specialized foster care, therapeutic homes, professional parenting programs, training, and special initiatives to develop systems of care for serving children with serious emotional disturbance and their families.	\$2,513,141
3.	Child Treatment Services Program	
	Continuation of child mental health residential treatment/services program in order to provide appropriate residential treatment alternatives for children at-risk of institutionalization or other out-of-home placement.	\$1,500,000
4.	Administration	
	Monitoring, data collection, budgeting, payments, and accounting for providers receiving block grant funds. Continue developing contracts for non-administrative activities and to provide technical assistance to service providers.	\$783,911

PREVENTIVE HEALTH AND HEALTH SERVICES BLOCK GRANT

**NC State Plan
2002-2003 State Fiscal Year**

Division of Public Health, NC DHHS

**Preventive Health and Health Services Block Grant
NC State Plan for 2002-2003 State Fiscal Year
Division of Public Health, DHHS**

GENERAL DESCRIPTION

The Preventive Health and Health Services Block Grant (PHHSBG) is a formula-based grant from the Centers for Disease Control and Prevention providing support for a variety of services to improve the quality of life of North Carolinians by reducing illness, early death, and preventable injuries.

FUNDING

The State Plan period, July 1, 2002-June 30, 2003, includes 25% of the FFY 02 award and 75% of the FFY 03 award. This plan is based upon anticipated federal financial assistance of \$3,747,927 in FFY 02 and FFY 03. The Rape Prevention and Education Program previously funded as part of this award is now funded through a separate grant from the Centers for Disease Control and Prevention.

It is anticipated that a total of \$145,819 will be transferred from the Social Services Block Grant to the Preventive Health and Health Services Block Grant for the State Fiscal Year 03 to support HIV/AIDS education, counseling, and testing, and HIV/AIDS prevention activities.

Note that Item 04 of the Preventive Health Services Block Grant SFY 01/02 legislation, the Rape Prevention and Education Program, is no longer funded as part of the PHHS Block Grant but as of October 1, 2001 became categorically funded.

BUDGET

The State of North Carolina plans to budget this grant for the State Fiscal Year beginning July 1, 2002 as follows:

FFY 01-02	Preventive Health and Health Services Block Grant AWARD	\$ 936,982
FFY 02-03	Preventive Health and Health Services Block Grant AWARD	<u>\$2,810,945</u>
TOTAL	Preventive Health and Health Services Block Grant AWARD	\$3,747,927
	TRANSFER FROM SOCIAL SERVICES BLOCK GRANT AWARD	<u>\$ 145,819</u>
	TOTAL SFY 2002-2003 FUNDS TO BE BUDGETED	\$3,893,746

COMPONENTS OF THE PLAN

The PHHS Block Grant award is divided into the following three major components:

1) The Basic Award

Within the Division of Public Health, the Basic Award supports the Community Health Promotion Program, the Community Fluoridation Program, and provides support for the Office of Minority Health. The estimated \$3,747,927 in funding for this component includes support costs of \$108,546 which support 1.17 FTE positions. This includes partial support of the Public Health Manager of this grant and a Computing Systems Coordinator position.

2) The Sexual Assault/Rape Victims Services Program

Funding for this component at \$197,112 is determined at the federal level to be consistent with the set aside provision in PHHSBG legislation.

3) The Social Services Block Grant Transfer

This transfer of \$145,819 from SSBG provides funding for HIV/AIDS education, testing, and counseling services and prevention activities in the Department of Health and Human Services.

Plans for each component to receive PHHS Block Grant funds are described in the following sections

PROGRAM TITLE: Community Health Promotion Program

PROGRAM DESCRIPTION

The purpose of the Community Health Promotion Program is to promote community-based prevention activities to improve the cardiovascular health of North Carolinians and reduce the prevalence of heart disease, stroke, cancer, diabetes, arthritis, and osteoporosis. Through the Statewide Health Promotion Program, the majority of PHHSBG funds support local health departments' collaboration with community partners to implement programs aimed at creating policies and environments that support North Carolina residents in becoming more physically active, in making more healthful food choices, and avoiding tobacco use. A small portion of the funds supports consultants and other professional staff supporting statewide health promotion efforts.

HEALTH PROBLEM ADDRESSED

Cardiovascular (CVD) disease, the leading cause of death in North Carolina and in the United States is the primary focus. Heart disease and stroke, the first and third leading causes of death in NC together caused 24,735 deaths in 1999. North Carolina has the fourth highest death rate in the nation from stroke and the seventeenth highest from heart disease. (*NC State Center for Health Statistics*). The major underlying risk factors for CVD, poor diet, sedentary lifestyles, and tobacco use, are also major risk factors for cancer and diabetes.

PROGRAM OBJECTIVES

NC HEALTH PROMOTION OBJECTIVE 1

Provide performance-based funding to ensure that a majority of local health departments have the basic infrastructure necessary to implement community-based health promotion programs focused on creating local environments and policies that support individuals in becoming more physically active, eating a more healthful diet, and avoiding the use of tobacco.

NC HEALTH PROMOTION OBJECTIVE 2

Maintain the state level infrastructure necessary to provide technical assistance and training to local health promotion programs and to support an integrated evaluation system for health promotion programs.

NC HEALTH PROMOTION OBJECTIVE 3

Develop capacity at the state to track at state and local levels (1) the number of technical assistance consultations provided, (2) the number and type of training programs provided, and (3) the number of partnerships established.

NC HEALTH PROMOTION OBJECTIVE 4

Develop capacity at the state to track at state and local levels the number of new health promotion initiatives developed and the number and type of new funding applications for health promotion.

NC HEALTH PROMOTION OBJECTIVE 5

Increase from 5.1% to 62%, the proportion of schools in NC that are 100% tobacco free for students, staff, and visitors in school buildings, the campus, and school-related events.

NC HEALTH PROMOTION OBJECTIVE 6

Increase from 60.7% to 84.3%, the proportion of NC workers covered by a formal smoking policy that prohibits smoking entirely or limits it to separately ventilated non-essential portions of the workplace.

NC HEALTH PROMOTION OBJECTIVE 7

Increase the number of facilities and/or environments that promote healthy eating and/or physical activity.

**Preventive Health and Health Services Block Grant
NC State Plan for 2002-2003 State Fiscal Year
Division of Public Health, DHHS**

NC HEALTH PROMOTION OBJECTIVE 8

Increase the number of cues to action promoting healthy eating and/or physical activity.

NC HEALTH PROMOTION OBJECTIVE 9

Increase the number of policies, practices, and incentives to promote healthy eating and/or physical activity.

NC HEALTH PROMOTION OBJECTIVE 10

Increase the number of local health departments reporting Local Physical Activity and Nutrition Councils (LPAN's) and other community coalitions promoting physical activity.

NC HEALTH PROMOTION OBJECTIVE 11

Increase the number of mass media coverage about the need for policies and environments to support healthy eating and/or physical activity.

NC HEALTH PROMOTION OBJECTIVE 12

Increase the number of instances of organizational media about the need for policies and environments to support healthy eating and/or physical activity.

NC HEALTH PROMOTION OBJECTIVE 13

To provide osteoporosis information to health and aging service providers and increase public awareness and knowledge about the prevention, diagnosis and treatment of osteoporosis, to reduce its prevalence, severity, and costly consequences in North Carolina.

NC HEALTH PROMOTION OBJECTIVE 14

To reduce statewide the disability, activity limitation, social isolation and work limitations due to arthritis and other rheumatic conditions.

**Preventive Health and Health Services Block Grant
NC State Plan for 2002-2003 State Fiscal Year
Division of Public Health, DHHS**

PROGRAM TITLE: Office of Minority Health and Health Disparities (OMHHD)

PROGRAM DESCRIPTION

The Office of Minority Health and Health Disparities functions as a pivotal agency in NC DHHS efforts to eliminate health disparities. The Office provides leadership and coordination (where appropriate) in the development and implementation of departmental strategies, initiatives, programs, policies, and services designed to improve the health status of minority communities and eliminate health disparities. These priority functions are accomplished through partnership development, training, technical assistance, consultation, and information dissemination. Services are provided to state and federal agencies, local health departments, community-based organizations, colleges/universities, and other public/private health organizations. The Office also staffs the Minority Health Advisory Council. The legislatively authorized Council consists of 15 members that include legislators, health/human service providers, and community leaders from across the state. The primary task of the Council is to advise the Governor and the Secretary of NC DHHS on minority health issues. Technical assistance/consultation on minority health issues is also provided to other advisory boards, upon request. The Office also staffs the Minority Health Advisory Council. Positions supported with these funds included the Director and Assistant Director of the Office, and one clerical employee.

HEALTH PROBLEM ADDRESSED

Certain health conditions disproportionately affect racial/ethnic minorities and under served populations in North Carolina. HIV/AIDS, heart disease, cancer, diabetes, and infant mortality are conditions that reflect a significant health disparity. Although the Office's focus is not disease specific, it works to eliminate and reduce systemic gaps that function as barriers to the state's health and human services system's capacity to effectively eliminate health disparities. The Office also addresses overarching health-related issues (e.g., accessibility, availability, accountability, and affordability) that contribute to disparities in health status.

PROGRAM OBJECTIVES

NC OMHHD Objective 1: Build/support the internal capacity of NC DHHS to respond to health/human service needs of minority and under-served populations via the development/implementation of federal, statewide, regional, and local strategies, initiatives, programs, policies, and services designed to eliminate health disparities.

- Process Objective 1a: Coordinate activities for, and provide technical assistance to DHHS divisions, DENR, and DPI on eliminating health disparities and other minority health issues.

NC OMHHD Objective 2: Develop, promote, and/or support community capacity-building activities designed to address minority health needs and health disparities by providing training, technical assistance/consultation, resource development, grant support, and promoting the development of community networks.

- Process Objective 2a: Implement training for five local health departments through OMHHD's Cultural Diversity Training Initiative including Basic Foundational training, Latino training, Interpreter Services training, and other capacity-building initiatives during FY2002-03.

NC OMHHD Objective 3: Develop, promote, and/or support federal, state, regional, and local partnerships which focus on the development/implementation of strategies, initiatives, programs, policies, and services that address minority health issues and health disparities. (HP 2010 23.5; 23.10)

- Process Objective 3a: Implement and/or co-sponsor ten minority-targeted programs, conferences, and/or workshops on health disparities and other minority health issues during FY2002-03.
- Process Objective 3b: Increase by 25% the distribution of information on health disparities and other minority health issues during FY2002-03.

**Preventive Health and Health Services Block Grant
NC State Plan for 2002-2003 State Fiscal Year
Division of Public Health, DHHS
PROGRAM TITLE: Fluoridation and Prevention of Dental Disease**

PROGRAM DESCRIPTION

The NC Oral Health Section uses PHHSBG funds to augment state funds aimed at prevention of and education about dental diseases. More than 90 percent of the state funds pay for professional staff who primarily provides direct services at the local level. The PHHSBG funds make it possible for this professional staff to provide more services by supporting their travel, *i.e.*, to go from school to school and by purchasing fluoride treatment supplies. The fluoridation and dental prevention block grant funds have been reduced by 54 percent for the last several years.

HEALTH PROBLEM ADDRESSED

The recent Surgeon General's Report on Oral Health states that oral health is an integral part of overall health. Dental cavities are the single most common chronic disease of childhood, occurring five to eight times as frequently as asthma, the second most common chronic disease in children. In North Carolina, this disease affects 38 percent of children by the time they start kindergarten and 23 percent of kindergarten children have untreated cavities. North Carolina is currently faces a lawsuit because Medicaid children are unable to receive the dental care that they need.

PROGRAM OBJECTIVES

NC ORAL HEALTH OBJECTIVE 1

To provide grants to three communities to maintain or increase the number of citizens receiving the decay-reducing benefits of systemic fluoride between October 1, 2002 and September 30, 2003. Communities with populations above 3,000 are targeted for new fluoridation systems. New systems receive a one-time grant to purchase equipment and chemicals. In addition, funding is provided for replacement of fluoridation equipment for the existing systems. This objective includes continuing existing surveillance efforts to ensure that community water systems maintain their fluoridation efforts at the optimal level, providing funds for the training of water plant operators at the Class B level, and training Division of Environmental Health staff who regulate, permit and monitor fluoridated community water systems.

NC ORAL HEALTH OBJECTIVE 2

To help defray the cost of 20 promotional dental sealant projects, providing 9,000 protective dental sealants to 3,000 high-risk elementary school children.

NC ORAL HEALTH OBJECTIVE 3

To help defray the cost to the Oral Health Section of the annual dental surveillance technique used to gather dental data on 90,000 kindergarten and 80,000 fifth grade schoolchildren during the 2002-2003 school year. These data measure the dental status and treatment needs in primary teeth for kindergarten and in permanent teeth for fifth grade school students, as well as recording the number of fifth grade students with protective dental sealants. The Section also calibrates state and locally employed dental public health staff annually to ensure the reliability and validity of this procedure.

NC ORAL HEALTH OBJECTIVE 4

To help defray the cost to the Oral Health Section of providing sodium fluoride rinse for 225,000 schoolchildren during the 2002-2003 school year in order to reduce dental caries.

NC ORAL HEALTH OBJECTIVE 5

To help defray the costs to the State Laboratory of providing analysis on the fluoride levels in community water systems and home wells for 12,000 water samples between October 1, 2002 and September 30, 2003.

NC ORAL HEALTH OBJECTIVE 6

To help defray the cost of 12 educational/promotional exhibits on preventive topics such as fluorides and sealants for statewide use with an estimated 5,000 health professionals, educators and the general public between October 1, 2002 and September 30, 2003. This is an ongoing program.

**Preventive Health and Health Services Block Grant
NC State Plan for 2002-2003 State Fiscal Year
Division of Public Health, DHHS**

PROGRAM TITLE: Rape Crisis/Victim Services Program

PROGRAM DESCRIPTION

The purpose of this program is to provide assistance and services to victims of rape and support community education programs aimed at rape prevention. Funds will be provided to the Department of Administration, Council for Women to contract with community-based rape crisis centers for rape crisis response services, including counseling and hotlines, victim assistance services, and victim and community education programs on rape prevention.

HEALTH PROBLEM ADDRESSED

Rape and sexual assault are widespread problems that primarily affect women. Approximately one in eight women have been raped at least once, and nearly six in ten women have been victims of sexual assault. Perpetrators are mostly male, and about 85% are known by the victim. The risk is highest among adolescents and young adults. A national study of college students found that 27 percent of the women had been victims of rape or attempted rape at least once since the age of 14. Preliminary North Carolina data indicates that the problem is widespread in this state. In a study of N.C. community college women, 17 percent reported being raped, and 4 percent reported being victims of attempted rape at least once since the age of 14. In the 1997 BRFSS, 13.5 percent of adult women reported being raped at least once in their lifetime. Rape and sexual assaults are crimes. In most states, sexual assault is defined as forced sexual activity without consent, and rape is defined as unwanted sexual intercourse by force or threat of force. **TARGET POPULATIONS:** Disparate Population Women ages 12+ who are victims of rape and sexual assault including African American, Hispanic and Native American women victims (estimated) AND Women ages 12+ who are victims of rape and sexual assault (estimated).

PROGRAM OBJECTIVES

NC RAPE CRISIS OBJECTIVE 1

Increase the percentage of sexual assaults reported to law enforcement.

NC RAPE CRISIS VICTIM SERVICES OBJECTIVE 2

Provide funding to local rape crisis centers to:

- a. Provide rape crisis response services, including crisis counseling and hotlines.
- b. Assist 5,000 victims of rape and sexual assault to return to work sooner.
- c. Provide rape crisis response, self-defense and educational programs to 6,000 victims.

Transfers from SSBG

1. Division of Public Health/HIV Education, Counseling, Testing & Prevention

Program Description

This transfer will support the allocation of funds for HIV/AIDS prevention efforts and allocations to local health departments to support personnel and programs for HIV/AIDS education, counseling, and testing. These funds will support AIDS education, counseling, testing and prevention efforts targeted at persons at highest risk to ensure that these efforts are maximally effective in controlling the epidemic.

**DEPARTMENT OF HEALTH AND HUMAN SERVICES
DIVISION OF PUBLIC HEALTH
MATERNAL AND CHILD HEALTH BLOCK GRANT**

The Maternal and Child Health Block Grant funding for State Fiscal Year 2002-03 is projected at \$16,928,823. This amount is the same as that received in State Fiscal Year 2001-02.

GENERAL DESCRIPTION

The purpose of the Maternal and Child Health Block Grant is to assist states in assuring that mothers and children, particularly those with low income or limited availability to health services, have access to quality maternal and child health services. These services are aimed at (1) reducing maternal and infant mortality; (2) reducing the incidence of preventable disease and disabling conditions among children; (3) promoting the health of mothers and children; and (4) maximizing the health status of children with disabilities. The MCH Block Grant consolidated five programs for which the state received categorical funding. The five programs were (1) Maternal and Child Health, (2) Children's Special Health Services, (3) Supplemental Security Income for Disabled Children, (4) Sudden Infant Death Syndrome, and (5) Lead Based Paint Poisoning Prevention.

ALLOCATIONS

- | | |
|---|--------------------|
| 1. Allocate \$9,838,074 in Healthy Mothers/Healthy Children Block Grants to local health departments. The proposed allocation is equal to the amount allocated in FY 2001-02. Under this funding concept, local health departments have responsibility for deciding how to use maternal and child health funds to best meet local needs. County and district health departments may use Healthy Mothers/Healthy Children Block Grants to provide prenatal care, preventive and primary care services for children, and preventive health services for women of childbearing age. None of the proposed Healthy Mothers/Healthy Children Block Grant allocation is used for state administrative costs. | \$9,838,074 |
| 2. Allocate \$2,012,102 for technical assistance and best practices grants to local health departments, fetal and infant mortality reviews, high-risk maternity clinics, perinatal education and training, childhood injury prevention and asthma control efforts. The proposed allocation is equal to the amount allocated in FY 2001-02. From the funds available, the Department proposes to use approximately \$124,809 for 2.0 administrative staff within the Division of Public Health, and indirect cost charges (per the indirect cost plan). | \$2,012,102 |

3. Allocate \$5,078,647 for medical and health support services to children with chronic illnesses, disabilities, or genetic disorders. The proposed allocation is equal to the amount allocated in FY 2001-02. From the funds allocated, the Department proposes to use approximately \$200,965 for indirect cost charges (per indirect cost plan). **\$5,078,647**

Total administrative costs may not exceed 10% of the grant award. The plan projects administrative costs to be approximately \$325,773, or about 2% of the grant.

TOTAL FUNDS AVAILABLE – SFY 2002-03	\$16,928,823
SOURCE OF FUNDS: Maternal and Child Health Block Grant FEDERAL FY 2002	\$4,232,206

Maternal and Child Health Block Grant

DESCRIPTION OF EACH ACTIVITY FOR THE SFY 2001-02 AND SFY 2002-03

Item Number	Activity Funded in SFY 2001-02	Activity Proposed in SFY 2002-03
#1	Allocate \$9,838,074 in Healthy Mothers/Health Children Block Grants to local health departments. County and district health departments may use Healthy Mothers/Healthy Children Block Grants to provide prenatal care, preventive and primary care services to children, and preventive health services for women of childbearing age. These services are intended to prevent maternal and infant mortality, prevent disease and disabling conditions among children, and promote the health of mothers and children. Of the funds allocated, none are used to support State level positions.	No change from FY 2001-02
#2	Allocate \$2,012,102 for technical assistance to local health departments, high risk maternity clinics, perinatal education and training, childhood injury prevention, fetal and infant mortality reviews, asthma control, and best practices grants to local health departments. These services and activities are intended to prevent maternal and infant mortality, prevent disease and disabling conditions among children, and promote the health of mothers and children. From the funds allocated, 8.75 State level FTEs are supported, of which 2.0 FTEs are administrative.	No change from FY 2001-02
#3	Allocate \$5,078,647 for services to children with chronic illnesses, disabilities, or genetic disorders. The purpose of these services is to ameliorate the effects of chronic illnesses, disabilities and genetic disorders on children and to improve the health status of children with these conditions. From the funds allocated, 22.2 State level FTEs are supported. None of these positions are administrative.	No change from FY 2001-02
#4	Transfer \$90,611 from the Social Services Block Grant to the Maternal and Child Health Block Grant to provide newborn genetic screening services. No state level FTEs are supported.	Not recommended for funding in SFY 02-03.

JOINT APPROPRIATIONS SUBCOMMITTEE ON HEALTH AND HUMAN SERVICES

Tuesday, May 7, 2002

1:00 P.M.

Room 643, Legislative Office Building

The Joint Legislative Appropriations Subcommittee on Health and Human Services met on Tuesday, May 7, 2002, in Room 643 in the Legislative Office Building. Senators Dannelly, Forrester, Kerr, Martin, Moore, and Purcell; and Representatives Church, Crawford, Earle, Esposito, and Nye attended.

Co-Chair Senator Purcell presided. He welcomed visitors and asked for brief comments from Co-Chairs Earle, Martin, and Nye. In response to a question from Senator Moore, Senator Purcell stated that this committee has been requested to recommend budget cuts of a total of \$330 million. Thus far the Department of Health and Human Services has provided optional reductions of \$280 million. Senator Purcell introduced Ms. Carol Shaw of the Fiscal Research staff to present options recommended by the Fiscal Research staff to the committee.

Office of the Secretary and Central Administration Budget Options

Ms. Shaw gave a handout to committee members outlining the possible reductions proposed by the Fiscal Research staff. Ms. Shaw told the committee that a summary of reductions proposed by the Department of Health and Human Services and the Fiscal Research staff would be provided to the committee tomorrow. Please see Attachment 1.

In discussing reductions to the Division of Facility Services, Senator Moore asked if increased fees for credentialing EMTs would be passed on to counties or municipalities. Her response was yes. Senator Forrester voiced concern over increased fees for nursing and adult care homes. Ms. Shaw said that most of the fees could be charged to indirect costs and could be reimbursed for most of the cost through Medicaid and Medicare.

Ms. Shaw corrected a figure in the portion describing the Division of Mental Health, Developmental Disabilities and Substance Abuse Services. The total for elimination of contracts, item 1 on page 1, has been corrected from \$1,858,696 to \$1,718,696. The reason for this correction is a correction in the NAMI contract, that figure being corrected from \$260,000 to \$120,000. This leaves intact \$40,000 in federal funds for that program. Senator Moore asked if loss of state dollars would impact receiving federal funds. Ms. Shaw replied that there is not a required match. Senator Purcell asked Dr. Visingardi to comment on patient advocates in the mental health hospitals. Dr. Visingardi said that it is essential to keep in the forefront the concept of the rights of persons with disabilities in state-operated services as well as in the community. Both Senators Kerr and Moore questioned "Order of Selection". Ms. Shaw replied that this would mean that the most needy of those requiring rehabilitation would be served first,

and those least needy could be placed on a waiting list. She referred the questions to George McCoy of the Division of Vocational Rehabilitation. Senator Purcell recognized Mr. McCoy. He said that Order of Selection addresses those with the most significant disabilities, and it is an individual case-by-case functional determination. He defined "needy" as not referring to income, but to functional capacity.

Regarding the cost sharing by counties for NC Health Choice, Senator Kerr asked about the administrative costs. Ms. Shaw said that at the present time the counties paid nothing, that the state paid all administrative costs not paid by the federal government, to administer NC Health Choice and added that this cost of determining eligibility is approximately \$8 million.

Regarding the amount hospitals and health care providers receive under Health Choice, Senator Martin asked what amount hospitals and other health care providers typically receive under private insurance health plans. Ms. Shaw responded that she did not have those figures at hand, but would get them. Senator Forrester asked about a summary of costs and Ms. Shaw stated that such a chart would be provided tomorrow morning. He asked if the proposed reductions would cause a loss of federal funds, and Ms. Shaw said that to her knowledge, no federal funds would be lost. He asked about retaining diabetic patients in optometry and podiatry care if these should be cut from the budget, and how much that would cost. Ms. Shaw said that she would try to obtain that figure. She told the committee that an additional option would be to reduce the cap on Health Choice enrollment. The present cap is 82,000 children. An additional saving of \$433,000 could be realized for each unit of 1,000. A reduction, perhaps just by attrition, of 5,000 could result in a saving of approximately \$2 million. Senator Martin asked about the impact of co-payments on families below the 150 percent poverty level. Ms. Shaw said that she did not have that information on hand, but would provide it.

Division of Public Health, Child Development,
Smart Start, More at Four, and Office of Education Services

Senator Purcell recognized Ms. Lisa Hollowell of the Fiscal Research staff. Ms. Hollowell gave the committee members a handout outlining budget reduction options (Attachment 2). Representative Esposito asked if there are other funds that would pay for AFP screening. Ms. Hollowell responded that private insurance or Medicaid could pay for this service. Representative Esposito asked for information about other labs that could provide this screening and Ms. Hollowell said that she would provide that information. Senator Kerr inquired about the purpose of the Alice A. Poe Center. Ms. Hollowell responded that this is a health education center for all North Carolina children. She provided a budget summary for the North Carolina Partnership for Children (Attachment 3) to the committee members. Senator Kerr said he had received specific recommendations for budget reductions from local people actively involved in Smart Start and asked the Chair's permission to provide them to the committee members. Senator Moore recommended that this be distributed to the committee tomorrow morning. In response to a question from Representative Nye, Ms. Hollowell pointed out that the reduction options for More at Four would not directly affect money going out into classrooms.

Division of Social Services

Senator Purcell called on Susan Morgan to present budget options for the Division of Social Services. Ms. Morgan gave the committee members an outline (Attachment 4). Representative Crawford asked about matching federal dollars lost as a result of the proposed reductions. She replied that there would be a loss of federal dollars or other funding for nearly every option suggested. She added that she will ask the Division to prepare a summary showing the total impact. Senator Kerr asked if it might not be a good idea to have recommendations from the Division. Senator Purcell recognized Secretary Odom to comment on this. She said that all suggested cuts were not acceptable, but recognized that the committee has been tasked to make decisions to recommend reductions and that the Division will provide assistance for the committee to do this. Senator Dannelly asked if the administrative reduction would impact local offices. Ms. Morgan replied that that would affect administration in all 100 local offices. Senator Dannelly asked if there were no reduction in the local offices would the counties cost of these offices would shift to the counties. Ms. Morgan replied that that was correct. Senator Moore asked if the budget co-chairs set the \$330 million target and how long it has been in place. Senator Martin responded that that figure was set some time ago, and although the shortfall has increased, the target has not been increased.

Division of Aging

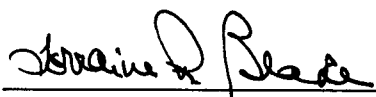

Ms. Morgan provided the committee with a handout for the Division of Aging (Attachment 5). She told the committee that the Division's total budget is approximately \$65 million, and about \$30 million in state money.

Representative Earle pointed out that while Secretary Odom has received direction from the Governor for budget reductions, the Appropriations Committee of the General Assembly has directed the Committee on Health and Human Services to identify where reductions could be made. The Fiscal Research staff was asked to make recommendations for this committee, which has been done. Any questions or comments regarding these recommendations should be directed to the committee and not to the staff. Senator Kerr asked for a summary comparison of the staff's recommendations and those of the Division. Ms. Shaw responded that a master list of all options is being prepared, that it will be a long list, by division.

In concluding, Senator Purcell said that, listening to the proposed budget reduction options, he leaves the meeting with tears in his eyes and pain in his heart for what these budget reductions will do to the people of North Carolina. The meeting adjourned at 3:40 P.M.

Senator William R. Purcell, M.D., Co-Chair

Lorraine R. Blake, Committee Assistant

DEPARTMENT OF HEALTH AND HUMAN SERVICES

**OFFICE OF THE SECRETARY
AND
CENTRAL ADMINISTRATION
BUDGET OPTIONS**

FISCAL RESEARCH DIVISION

MAY 2002

Attachment 1

Office of the Secretary and Central Administration

Vacant Positions and Layers of Management

- Eliminate vacant positions and/or layers of management throughout the Department. (\$5,000,000)
- This option is based on the following assumptions:
 - Positions will be identified by DHHS before the budget is finalized.
 - DHHS has flexibility to choose vacant positions, layers of management, or other optional positions.
 - All positions will be eliminated effective July 1, 2002.

Office of the Secretary and Central Administration

Vacant Positions and Layers of Management

- DHHS is directed to consider the following issues as it identifies positions for elimination:
 - Consider position eliminations first in Divisions or programs that did not target positions in the Departmental reduction options.
 - Focus on positions that do not affect direct services to clients.
 - Ensure span-of-control and layers of management are consistent among the various divisions and offices in DHHS.

Office of the Secretary and Central Administration

Vacant Positions and Layers of Management

- As of March 31, 2002, DHHS had 307.27 FTE positions vacant six months or more supported by General fund Appropriations of \$9,1888,660.
- As of March 31, 2002, DHHS had 949.09 FTE vacant positions supported by general fund appropriations of \$28,751,612.
- The following Divisions had 96% of the total vacancies as of March 31, 2002: Mental Health, Developmental Disabilities, and Substance Abuse Services, Office of Educational Services, and Public Health.

Office of the Secretary and Central Administration
Office of Public Affairs

- Eliminate the Print Shop (\$46,657)
(includes 6 positions)
- Assumes all departmental printing will be sent to the Department of Corrections.
- Some departmental printing will take longer to complete.

Office of the Secretary and Central Administration Office of Coordinated Health Care

- **Eliminate Office (\$82,414)
(includes one position)**
- **The Office of Coordinated Health Care is a new office created by the DHHS in January 2002. The purpose of the new office is to improve coordination among all health-related divisions.**
- **This new office is optional and coordination can be accomplished by the health-related divisions working with the new Office of Policy and Planning.**

Office of the Secretary and Central Administration Intervention Services Unit

- **Eliminate Unit** (\$346,671)
 - Includes one position
 - Includes grant-in-aid to the NC Child Advocacy Institute
- This unit and the grant to the NC Child Advocacy Institute were authorized by General Assembly during the 2001 Session.
- The unit and the grant are optional and do not impact direct services to clients.

Office of the Secretary and Central Administration

Division of Information Resource Management

- Additional reduction in IT Contractual Services (\$2,745,233)
- This option assumes that a total of 15% of the certified budget for General Fund supported IT contractual services throughout DHHS will be eliminated.
- DHHS has proposed reducing IT contractual services in DIRM by \$1,759,485 or 5.9%.
- This option assumes another 9.1% of the certified budget for General Fund supported IT contractual services will be eliminated from DIRM and other divisional budgets.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

**DIVISION OF FACILITY SERVICES
BUDGET OPTIONS**

FISCAL RESEARCH DIVISION

MAY 2002

Division of Facility Services

Additional Fees

- Additional licensure fees (\$2,100,000)
- Increases DHHS's fee proposal from \$2,998,140 to \$5,100,000 by increasing the original proposed fees and adding fees for EMS program and the construction program.
- Under this proposal, 33% of the General Fund Budget (\$15.4 M) for DFS would be supported by fees. DFS also receives \$12.5 million in federal funds.

Eliminate Contracts

- Eliminate Contracts ⁶⁹⁶ 718 *Sept* (\$1,858,696)

- Proposes eliminating contracts for technical assistance, education, training, advocacy, and evaluation.
- These activities are optional and do not impact direct services to clients.

Division of Mental Health, Developmental Disabilities, and Substance Abuse Services

Adult Mental Health Contracts

- **UNC-CH Student Stipends (\$47,000)**
- **Housing Works, Inc. (\$60,326)**
 - Facilitate housing development for persons served by DMH/DD/SAS (Leaves \$30,164 in federal funds)
- **NAMI (\$20,000)**
 - Provides helpline, education, outreach, and family support services (Leaves \$30,150 in federal funds)

Division of Mental Health, Developmental Disabilities, and Substance Abuse Services

Developmental Disabilities Contracts

- Exceptional Children's Assistance Center (\$123,408)
 - Technical assistance for First in Families and New Horizon participants (Leaves \$52,000 in federal funds)
- NC Chapter Association for Persons in Supported Employment (\$39,000)
 - Training services
- UNC-CH (\$127,000)
 - Core Indicator Project Evaluation
- UNC-CH (\$586,424)
 - Developmental Disabilities Training Institute
- Association of Self Advocates of NC (\$32,812)
 - Support for state-level organization

Division of Mental Health, Developmental Disabilities, and Substance Abuse Services

Other Contracts

- NAMI ¹²⁰ (\$260,000)
 - Respite provider training and curriculum development
(\$40,000 in General Funds)
- NCSU-CUACS (\$101,350)
 - Technical assistance and evaluation projects for At-Risk Children Services and MR/MI consumers
- NC High School Athletics Association (\$461,376)
 - Substance Abuse Services contract for the Coach Mentoring Training Program (adjusts for other reductions)

**Division of Mental Health, Developmental
Disabilities, and Substance Abuse Services
Autism Society Contract**

• Eliminate SFY 2002 Expansion (\$432,000)

or

• Reduce Contract by 10% (\$282,000)

• The Autism Society receives \$2.8 million from State appropriations. Over \$1 million is spent on administration, advocacy, communications and public education and \$1.8 million is spent on direct services.

**Division of Mental Health, Developmental Disabilities, and Substance Abuse Services
Contract with United Cerebral Palsy of NC, Inc.**

- Reduce contract by 10% (\$120,000)
- United Cerebral Palsy of NC, Inc. receives \$1.2 million in State appropriations to provide services to individuals with cerebral palsy and similar disabilities. The State funding is 8.6 % of the total budget for UCP of NC (\$14 million).
- This reduction may impact direct services to clients.

Division of Mental Health, Developmental Disabilities, and Substance Abuse Services

Patient Advocates at State Institutions

- Reduce the Number of Patient Advocates at Mental Retardation Centers by 25%. (\$96,947)

- Eliminates 6 advocates from the MR Centers with the allocation to be determined by DHHS.

MR Center	# of Patient Advocates
Black Mountain Center	3.00
Caswell Center	6.00
Murdoch Center	6.00
O'Berry Center	3.00
Western Carolina Center	6.00
Total Patient Advocates	24.00

Division of Mental Health, Developmental Disabilities, and Substance Abuse Services

Patient Advocates at State Institutions

- Reduce the Number of Patient Advocates at State Psychiatric Hospitals by 25%. (\$295,229)
- Eliminates 5 advocates from the State psychiatric hospitals with the allocation to be determined by DHHS.

State Psychiatric Hospital	# of Patient Advocates
Broughton	6.00
Cherry	4.00
Dorothea Dix	4.00
John Umstead	5.00
NCSCC	2.00
Total Patient Advocates	21.00

DEPARTMENT OF HEALTH AND HUMAN SERVICES

**DIVISION OF SERVICES FOR THE BLIND
DIVISION OF SERVICE FOR THE DEAF AND HARD OF HEARING
DIVISION OF VOCATIONAL REHABILITATION**

BUDGET OPTIONS

FISCAL RESEARCH DIVISION

MAY 2002

**Division of Services for the Blind
Division of Services for the Deaf and Hard of Hearing
Operating Expenses**

- Reduce Operating Expenses (\$200,000)
- Reduce operating expenses for SFY 2003 -- including travel, equipment, communications, and data processing -- to SFY 2002 expenditure levels.
- No impact on direct services.

Division of Services for the Blind Medical Eye Care Program

- Reduce excess funding in the Medical Eye Care Program. (\$200,000)
- This reduction is based on the average expenditures during the past three years and adjusts for the \$100,000 reduction taken during last Session.
- This reduction may impact direct services if demand for services increases.

Division of Vocational Rehabilitation Independent Living Program

- Eliminate SFY 2002 Expansion of Independent Living Services. (\$320,000)
- The SFY 2002 expansion of this program has not been spent this year because it was used to help DVR to meet its share of this fiscal year's budget shortfall.
- No impact on services for existing clients.

Division of Vocational Rehabilitation Independent Living Program

- **Eliminate Universal Design Contract with NCSU's Center for Universal Design. (\$99,998)**
- **Under this contract, the Center of Universal Design provides technical assistance to consumers and the housing industry.**
- **This service is optional and does not affect direct services to clients.**

Division of Vocational Rehabilitation Additional Reduction in Case Services

- Reduce Case Services (\$400,000)
- The departmental reduction in case services assuming implementation of “Order of Selection” can be reduced further based on the estimate developed for the necessary rule changes.
- This additional reduction increases the possibility that DVR will have to implement “Order of Selection”.

Division of Disability Services Consolidation of Three Divisions into One

- Consolidate the three disability Divisions into one Division of Disability Services. (\$750,000)

- This proposal is based on the following assumptions;
 - Administrative efficiencies are created by eliminating two director positions and consolidating all other administration (fiscal, personnel, data processing, etc.).
 - District offices are combined so there will not multiple offices in Charlotte, Raleigh, Ashville, Greensboro, Winston-Salem, Wilmington, Fayetteville, Greenville, and Wilson.
 - Reductions are not taken from the budget for Services for the Deaf and Hard of Hearing or from direct services provided by Services for the Blind and Vocational Rehabilitation.
 - Unique services for blind and deaf clients will be maintained while streamlining the services needed by all disabled clients.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

**NC HEALTH CHOICE
BUDGET OPTIONS**

FISCAL RESEARCH DIVISION

MAY 2002

NC Health Choice

Copayments

- Increase copayments for all enrollees. (\$933,856)
- Currently, only families with incomes $> 150\%$ of the FPL pay copayments.
- This option assumes assumes families with incomes $< =$ to 150% of the FPL will have copayments:
 - Office visit \$5.00
 - Rx filled \$3.00
 - Mental health visit \$5.00
 - Non-emergency ER visit \$10.00

NC Health Choice

Copayments

- This option assumes assumes families with incomes > than 150% of the FPL will have increased copayments:
 - Office visit Now \$5.00 Increases to \$10.00
 - Rx filled Now \$6.00 Increases to \$10.00
 - Mental health visit Now \$5.00 Increases to \$10.00
 - Non-emergency ER visit Now \$20.00 Increases to \$40.00
- This option will increase out-of-pocket costs for families participating in NC Health Choice.

NC Health Choice Rx Dispensing Fees

- Reduce Rx Dispensing fees from (\$448,126)
\$6.00 per Rx to \$2.50.
- This option proposes reducing the dispensing fee paid by NC Health Choice to the same level as paid by the State Health Plan's PBM.
- No impact on services since pharmacies are currently serving State Health Plan clients.

NC Health Choice Dental, Vision, and Hearing Aid Coverage

- Eliminate coverage for dental services, vision services, and hearing aids. (\$4,620,272)
- Services provided under NC Health Choice are based on the State Health Plan, but dental services, vision services, and hearing aids were added by the General Assembly when the program was authorized.
- The majority of the cost savings resulting from this option comes from the elimination of dental services (89.5% of the savings).

NC Health Choice

Dental, Vision, and Hearing Aid Coverage

- **NC Health Choice is not an entitlement, and these services are not required by federal law.**
- **This option maintains all other services offered under the State Health Plan including services for children with special health care needs.**

NC Health Choice Provider Rates

- Calculate premiums using Medicaid provider rates. (\$8,578,528)
- NC Health Choice providers are reimbursed the same rates paid by the State Health Plan, and these reimbursements are considerably higher than the rates paid by Medicaid.
 - Hospitals are paid 140% to 163% of Medicare under NC Health Choice while Medicaid pays 84% of Medicare.
 - Physicians and other health care providers are paid 145% of Medicare under NC Health Choice while Medicaid pays 95% of Medicare.
- No impact on services because most NC Health Choice providers already serve Medicaid clients.

NC Health Choice Cost-Sharing by Counties

- Counties pay 100% of the nonfederal share of county administration costs that are not offset by enrollment fees. (\$1,967,000)
- Continues the tradition of counties sharing in the cost of public assistance programs.
- Encourages counties to be efficient in determining eligibility for all programs and not cost shift to the NC Health Choice Program.
- This option shifts all administrative costs to the counties, but it does not require them to pay 15% of the nonfederal share of program costs.

NC Health Choice Cost-Sharing by Counties

- Counties pay 15% of the nonfederal share of program costs. (\$5,365,000)
- Continues the tradition of counties sharing in the cost of public assistance programs.
- This option shifts some of the program costs to the counties.

Department of Health and Human Services
Reduction Options

Division of Public Health
Division of Child Development
Smart Start
More At Four
Office of Education Services

Attachment 2

Division of Public Health

Reduction Options

- Expansion on Departmental Options
- New Initiatives
- Administration
- Optional Programs
- Contracts
- Options total approximately \$6M

Division of Public Health

Reduction Options

- Eliminate Prescription Drug Assistance Program (\$30,000)
- Budgeted at \$500,000. Pays for prescription drugs for elderly under 150% federal poverty level who suffered from cardiovascular disease or diabetes.
- Expansion of a department's option to reduce the program by \$470,000 – this additional reduction would eliminate a remaining position.

Division of Public Health

Reduction Options

- Eliminate Intensive Home Visiting Program (\$95,860)
- Uses national models for home visitors to assist new mothers/families with parenting skills.
- Expansion on the departmental option and eliminates the state-level position.

Division of Public Health

Reduction Options

- Eliminate Administration for Child Fatality Task Force (\$100,000)
- Staff and operating expenses associated with the Child Fatality Task Force.
- Expansion of the departmental option. CFTF is a legislative mandate; the staffing would come from existing resources within DHHS.

Division of Public Health Reduction Options

- Reduce Aid to County Funding
((\$1M))
- Categorical and non-categorical funding
to local health departments.
- Based on historical reversions.
Approximately \$28M remains.

Division of Public Health

Reduction Options

- Eliminate Prescription Drug Access Project (\$200,000)
- Development and operations of prescription drug access program to allow individuals to easily access pharmaceutical companies' free drug programs.
- New initiative.

Division of Public Health

Reduction Options

- Reduce Birth Defects Monitoring Program (\$125,000)
- Staff review hospital records to identify birth defect clusters among infants and determine effective prevention marketing strategies for regions. Cut field staff who collect the data and leave some funding in the budget.
- New money appropriated FY01.

Division of Public Health

Reduction Options

- Eliminate Medical Child Care Project (\$100,000)
- Funding for a medically-fragile child care operation in Wake County. Funding was augmented by \$300,000 from the Child Care Development Fund Block Grant.
- New initiative.

Division of Public Health

Reduction Options

- Reduce AIDS Drug Assistance Program (\$500,000)
- Purchase of prescription drugs for AIDS patients at or below 125% federal poverty level.
- New money for FY01.

Division of Public Health

Reduction Options

Administration

- Regional Office Leases (\$10,291)
- Operating Expenses (\$816)
- Equipment (\$27,835)
- Vacant Positions (\$147,000)
- FFP enhancements (\$215,292)

Division of Public Health Reduction Options

- Eliminate Administrative Consultation to Local Health Departments (\$251,289)
- Assist local health departments with financial matters and other administrative activities.
- Administration. Optional service to local health departments.

Division of Public Health
Reduction Options

- Reduce operating expenses in the central office for Office of Minority Health - (\$35,000)

Division of Public Health

Reduction Options

- Eliminate Farmers' Market Program (\$157,230)
- Provides coupons to WIC participants in selected counties to purchase fresh fruits and vegetables at their local farmers' market. Designed to improve the nutrition of WIC clients while increasing the awareness and use of local farmers' markets.
- Optional Program. Will lose \$368,900 in federal funds.

Division of Public Health Reduction Options

- Reduce Health Promotion Funding (\$700,000)
- Funding to local health departments for staff to support efforts to create physical and social environments to promote cardiovascular health focusing on tobacco use, physical activity, and nutrition.
- Optional program. \$559,296 remains in state funding to match federal funding. \$1.3M remains in the preventive health block grant for local activities.

Division of Public Health Reduction Options

- Eliminate Infant Formula Program in WIC
(~~\$354,778~~) → \$191,000 (corrected figure) \$ 1.8 million remains.
- Pays for prescription special formulas for children and adults with a variety of high-risk medical diagnoses.
- Optional Program. Will lose \$120,921 in federal funds.

Division of Public Health

Reduction Options

- North Carolina Healthy Start Foundation ^{\$ 343,000 in Recurring Funds}
Contract (~~\$430,975~~) → \$ 578,000 (corrected amount)
- Provide informational and educational activities for healthy pregnancy outcomes. Public information, health resource phone line (1800 For Baby), SIDS awareness, and reduction of infant mortality rates.
- Received \$400,000NR in FY02 and \$1M in FY01; receive \$575,277 in federal funds and recurring state funds.

Division of Public Health Reduction Options

- Eliminate Contracts for AFP Screening
UNC (\$121,700)
WFU (\$122,888)
- Screening of pregnant women to identify fetuses at-risk for neural tube defects or Downs Syndrome.
- Optional contract.

Division of Public Health

Contract Reduction Options

Technical Assistance, Training, and Education

- UNC – CVH Programs (Evaluation) (\$27,235)
- Alice A. Poe Center (Playground) (\$1,500)
- NC A&T State University (Cancer Prevention) (\$44,156)
- Greenway Project (Gaston Co.) (\$6,425)
- UNC (Asthma) (\$100,255)
- UNC (Hepatitis C) (\$105,270)
- Training and Research (Cultural Awareness) (\$15,000)
- Contract – UNC (Tech Assistance) (\$89,825)
- Reduce UNC – PHTIN (Training) (\$129,077)
- UNC/Prevention Partners (Smoking Cessation) (\$35,000)

Division of Public Health

Reduction Options

- Grants in Aid – Optional
 - Eliminate Alice A. Poe Center (\$200,000)
 - Eliminate Adolescent Pregnancy Prevention Coalition of NC (\$127,500)
 - Prevent Blindness of NC (\$400,000)

Health and Human Services

Department of Health and Human Services

Division of Social Services

May 7th, 2002

North Carolina General Assembly
Fiscal Research Division

Attachment 4

Division of Social Services

Options for Reduction

Reduce Local Administration Funds 3.5% **(\$8,000,000)**

The Division of Social Services would reduce administration funds for local departments of social service.

Rationale:

Non-direct service. Impact will be a reduction in operating funds for local departments of social service. Over \$3,000,000 will be reverted as a non-recurring reduction to cover the budget shortfall this fiscal year.

Division of Social Services

Options for Reduction

Eliminate Families For Kids Funds (\$1,200,000)

Initiative focused on Child Welfare System Reform at the local level. Rotates among 16 counties at a time. Provides resources and technical assistance to improve the child welfare system.

Rationale:

Non-direct and non-statewide service. June 30, 2002 will be the end of the four-year funding cycle for 12 of the 16 counties, with funding scheduled to end for remaining four counties June 30, 2004.

Division of Social Services

Options for Reduction

Eliminate Intensive Family Preservation Services (\$1,500,000)

Family-focused, community-based crises intervention services for children at imminent risk of removal from the home. Services characterized by small caseloads for local staff, short duration of intensive services, 24-hour availability of staff, and at least half of the services provided in the child's home or community.

Rationale:

Non-statewide service. Additional funds are not available to implement program statewide.

Division of Social Services

Options for Reduction

Eliminate Special Children Adoption Fund (\$1,100,000)

Program established by the General Assembly in 1997 to enhance Adoption Service. Funds focused on reducing the amount of time a child spends in the foster care system.

Rationale:

Non-direct service. Payments are made to placement agencies as an incentive to find adoptive parents for hard to place children.

Division of Social Services

Options for Reduction

Eliminate Carryforward for Electing Counties (\$600,000)

County Work First Block Grant funds are paid in advance to Electing Counties at the beginning of each quarter of the fiscal year. Historically, excess State funds in the block grant have not reverted.

Rationale:

Impacts 13 counties. In SFY 2001, \$639,000 and in SFY 2000, \$650,000 in excess funds for Electing Counties did not revert to the General Fund.

Division of Social Services

Options for Reduction

Staff Options for Reduction (\$12,400,000)

Department Options for Reduction (11%) (\$22,272,929)

Total Combined Options for DSS (\$34,672,929)*

*Total does not reflect reduction in federal dollars as a result of these options.

Department of Health and Human Services

Division of Aging

May 7th, 2002

North Carolina General Assembly
Fiscal Research Division

Attachment 5

Division of Aging

Options for Reduction

Reduce Central Office Administration Funds (\$125,000)

Currently 34 staff in the Division of Aging Central Office. Total administration budget = \$2,500,000. 5%

Rationale:

Non-direct service. Based on 5% reduction of total state administration operating budget (reduces employee travel, printing, postage, and other expenditures). Administrative reductions were not included in the Departmental options presented.

Division of Aging

Options for Reduction

Reduce Area Agency on Aging Administration Funds (\$700,000)

In 1998 the General Assembly increased P+A funding to \$1.2 million – a recurring increase of \$900,000;

Expanded funding was to be used for enhancement of services, and to better meet the technical assistance and data needs of providers, local planning committees, and local governments.

Rationale:

Non-direct service. Since the expansion funding was appropriated in 1998, the Division of Aging has received approximately \$4,000,000 in additional federal funds. Reduces the operating budget of 17 AAAs.

Division of Aging

Options for Reduction

Reduce Elder Rights Funding (\$300,000)

Program assists older adults understand and protect their rights, secure benefits, learn about and protect themselves against fraud, and serve as volunteers in their communities as required by the Older Americans Act.

Rationale:

Reduces excess State match. Required match is \$110,000, actual match is \$429,000.

Division of Aging

Options for Reduction

Reduce State Adult Day Care Fund (\$700,000)

An organized program of services in a community setting, provided to support the personal independence of older adults and promote their social, physical, and emotional well-being.

Rationale:

Recurring funds appropriated initially in 1998. Counties have the option of using Home and Community Care Block Grant funds for Adult Day Care Services. Would impact direct services to clients.

Division of Aging

Options for Reduction

Contracts (\$200,000)

Provides information and assistance to caregivers of patients with dementia and arranges for or provides respite care.

Alzheimer's Association Contracts (\$150,000)
Duke University Contract (\$50,000)

Rationale:
Optional service. Minimal impact on direct service.

Division of Aging

Options for Reduction ^{11%}

Staff Options for Reduction	(\$2,025,000)

MINUTES

JOINT APPROPRIATIONS SUBCOMMITTEE ON HEALTH AND HUMAN SERVICES

Wednesday, May 8, 2002

9:00 A.M.

Room 643, Legislative Office Building

The Appropriations subcommittee on Health and Human Services met on Wednesday, May 8, 2002 at 9:00 A.M. in Room 643 of the Legislative Office Building. Members present were Representative Edd Nye, Representative Beverly Earle, Co-Chairs; Representatives Mark Crawford, Walter Church, Debbie Clary, Theresa Esposito, and Thomas Wright. There were five senators present.

Representative Nye called the meeting to order and welcomed Committee members and visitors. Attached is the Visitor Registration Sheet that is made a part of the minutes (See Attachment No. 1).

Representative Nye stated the Committee meeting would be dealing with a division in Health and Human Resources Department that involves half the budget requirements. He introduced Carol Shaw, Fiscal Research Staff, for a presentation on the budget options for the Division of Medical Assistance. (See Attachment No 2). She explained there was a deficit of \$109,723,210 for fiscal year 2003. She also pointed out that Medicaid had increased just under one billion dollars in the last two years. There were questions asked by the Committee members during the presentation. She concluded by talking about the future of Medicaid. She reviewed the statements on page 30 of the handout. Some issues are; how much access can North Carolina afford, and what rate of growth can the state afford. Division of Medical Assistance can't control growth in the number of eligibles, but it can manage the utilization of medical services and control the rates paid to providers. She reminded the members from last years presentation they were assuming the state revenues would be growing at a much better rate than they are growing now. If Medicaid grows at a 10% annual rate, by 2010 it will consume 27% of any new revenues in that year. What drives Medicaid rates is the number of people being served. That is the key to cost containment. She stated that they might want to ask the Department if there are some things that can be done through the federal waiver process to help contain cost in the future.

Jim Bernstein, Assistant Secretary for Health, was introduced to discuss The Access Program. (See Attachment No. 3) He reviewed the goals of the program. They are; managing cost, having a large set of providers to ensure getting care when needed, quality care, and health status improvement. Jeffery Simms, Assistant Director for

Regulatory Affairs and Managed Care, Division of Medical Assistance, was the next presenter. He addressed some of the issues Mr. Bernstein mentioned. They have been able to work with establishing the Carolina Access Program, a statewide program that allows for linking Medicaid patients with primary care providers and create medical homes. There are presently some 670,000 Medicaid patients across the state that are linked with a primary care provider. There are more than 5000 primary care providers serving in the Carolina Access Program. It has been operating for 12 years. Four years ago they came up with Access II and III. This allows them to focus on quality, utilization, and cost effectiveness. There are eleven networks across the state and they are serving more than 238,000 Medicaid patients through more than 1400 physicians. The infrastructure is across the state.

Torten Wade, Director, Access II and III, Office of Research, Demonstrations and Rural Health Development, was asked to come forward to discuss some of the initiatives that are going on with the program. He discussed the eleven networks and stated they are each a non-profit organization.

Dr. Allen Dobson, Chairman, Cabarrus Community Care Plan Chair, North Carolina Physicians Advisory Group, was asked to speak about the programs that are coming in place. He discussed how physicians have been involved and their commitment to help the state with Medicaid. They have been looking at ways to be more cost effective. He reviewed some things listed in the handout that they think will help with the cost. Representative Wright stated he was encouraged about Access II and Access III. He asked how long it would take to implement this statewide and was told that it would be within two years. Representative Earle asked if Access I would be discontinued and was told yes it would be in two years.

Mr. Richard W. Jacobsen, Jr., Health and Human Services Core Business Leader, Director of the Mecklenburg County Department of Social Services, was next to address the Committee concerning Medicaid and Managed Care in Mecklenburg County. (See Attachment No. 4) He pointed out they have expanded access to care for Medicaid patients while cost for care has grown at a slower rate than in the rest of the state. Their physicians participate in the Reach Out and Read Program which is the first one nationwide in pediatric offices. Presently 22,000 children, not all on Medicaid, are participating in this program. One of the biggest stumbling blocks is the issue of literacy. Representative Earle commented on how well she liked the program and she felt the members of the Committee needed to hear what was happening with this program. Senator Odon was in attendance and he thanked Mr. Jacobsen for presenting to the Committee and asked how his department interfaced with the Access II Program. He wanted to know if there were any problems. Mr. Jacobsen stated they only went to Access II in March of this year and it is too early to tell, but he expects to work very well.

Representative Nye asked for the providers in the audience that wanted to address the Committee to come forward. Doug Sexton, Director of Medicaid for United Health Care, gave a brief statement concerning United Health Care of Mecklenburg County. He stated

they believe their project, known as Health Care Connection, has been an overwhelming success for the county and for its residence and for the state.

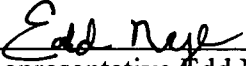

Peter Chauncy, Chief Operating Officer of Coventry Health Care of the Carolinas, was the next speaker. He wanted to express how pleased they were to be part of a successful private/public partnership in Mecklenburg County. Representative Wright asked if Wellpath was a subsidiary of Coventry and was told that they were a part of the program.

Barbara Matullo, Director of Health Care Access Program, spoke briefly saying that managing the care of Medicaid patients is important and beneficial, but she spoke against the Health Care Connection project. HMO's are not interested in rural areas and North Carolina is a rural state. Rural areas can't get very competitive in rates. HMO's can't help in the area most needing help, which is the most expensive clientele. HMO enrollment cannot be mandated.

Payton Maynard, NC Academy of Family Physicians, was recognized to speak. He noted that the Academy is a strong proponent of the Access Program. They have been involved in it since its conception. It has the support of many, many physicians across the state. There is an infrastructure now poised to help solve the problem of Medicaid medical care. They are committed to the Program, and hope that the Program will be adopted as policy.

Adam Searing, Project Director for North Carolina Health Access Coalition, was the last person to address the Committee. (See Attachment No. 6) They are the largest health care consumer group in the state. He makes a plea to stay with common sense managed care, Carolina Access Program, and not go to the private market. The only reason to switch to for-profit programs is if it will save money, and they aren't saving money any longer. Smart managed care is what is needed.

The meeting was then adjourned.

Representative Edd Nye, Co-Chairman

Jo Bobbitt, Committee Assistant

**DIVISION OF MEDICAL ASSISTANCE
BUDGET OPTIONS**

FISCAL RESEARCH DIVISION

MAY 2002

Division of Medical Assistance
Projected Medical Assistance Payments for SFY 2003

Description	SFY 2003
Total Requirements	\$7,247,158,125
Estimated Receipts	(\$4,929,493,747)
Net Appropriation	\$2,317,664,378

Note: Based on the March 2002 Medicaid Forecast.

Division of Medical Assistance

SFY 2002 Budget Deficit

SFY 2003	State Appropriation
Certified Budget	\$2,219,786,427
Projected Budget	\$2,317,664,378
Program Budget Deficit	(\$103,723,210)
Administrative Deficit	(\$6,000,000)
Total SFY 2003 Deficit	(\$109,723,210)

Note: Based on the March 2002 Medicaid Forecast.

Division of Medical Assistance

Growth in State Appropriations

State Fiscal Year	State Appropriation
Actual 2001	\$1,318,871,899
Projected 2003	\$2,317,664,378
Increase Over SFY 2001	\$998,792,479

Note: Based on the March 2002 Medicaid Forecast.

Division of Medical Assistance Mandatory vs. Optional

**Optional Services and Eligibles
\$3.9 Billion**

**Mandatory Services and Eligibles
\$3.3 Billion**

Division of Medical Assistance Mandatory Services and Eligibles

Under federal law, all states who operate a Medicaid Program are required to provide certain services and serve specified categories of eligibles. These services and eligibles are mandatory and must be provided in order to receive federal reimbursement.

Division of Medical Assistance

MANDATORY ELIGIBLES

- TANF Recipients (Based on State Plan as of July 16, 1996)
- Aged, Blind, and Disabled SSI Recipients
- Infants born to Medicaid eligible women (to 133% of FPL)
- Children under age 6 (to 133% of FPL)
- Pregnant Women (to 133% of FPL)
- All Children born after 9/30/83 (to 100% of FPL)
- Recipients of Adoption Assistance and Foster Care
- Certain Medicare Recipients
 - Dual Eligibles
 - Qualified Medicare Beneficiaries
 - Specified Low-Income Medicare beneficiaries
 - Qualified Disabled and Working Individuals

Note: FPL is the Federal Poverty Level

Division of Medical Assistance

Mandatory Services

- Durable Medical Equipment • Nurse Midwives
- Health Check Services • Nurse Practitioners
(ESPDT) • Nursing Facilities
- Family Planning Services • Physicians
- Hearing Aids (Children) • Prosthetics & Orthotics
(Children)
- Home Health Services
- Inpatient Hospital Services • Specialty Hospitals
- Outpatient Hospital Services • Transportation
- Laboratory & X-Ray
Services

Division of Medical Assistance
How Much do Mandatory Eligibles and Services Cost?

Total Projected Expenditures for SFY 2003
\$3.3 Billion

Total Projected State Appropriations for SFY 2003
\$1.06 Billion

Division of Medical Assistance Optional Services and Eligibles

- Federal law also will provide federal reimbursement for other services and eligibles that are discretionary, but are allowed under federal law. Each state is allowed to choose which optional services it wants to provide and optional categories of eligibles it wants to serve.
- North Carolina covers 27 of the 34 optional Medicaid services.

Division of Medical Assistance

Optional Eligibles

- Infants born to Medicaid eligible women (151% to 185% of FPL)
- Pregnant Women (134% to 185% of FPL)
- Children age 19, 20, and 21 meeting AFDC income standards
- Recipients of State/County Special Assistance
- Recipients of State Assistance to the Blind
- Persons receiving care under home and community-based waivers
- Aged, Blind, and Disabled persons presumed eligible for but not receiving SSI
- Aged, Blind, and Disabled persons with non-SSI income (to 100% of FPL)
- Medically Needy Persons
- Refugees/Aliens
- Women with Breast and Cervical Cancer to 185% of FPL

Division of Medical Assistance How Much Do Optional Eligibles Cost?

Optional Eligibility Category	State Appropriation Projected SFY 2003
Non SSI Aged/Blind/Disabled	\$627,813,868
Medically Needy	\$222,969,155
Pregnant Women Incomes 151% to 185%	\$10,825,870
19 and 20 Year Old Eligibles	\$1,571,418
Women with Breast and Cervical Cancer	\$1,643,371

Note: Based on the March 2002 Medicaid Forecast.

Division of Medical Assistance

Optional Services

- Ambulance Transportation
- Case Management For:
 - Pregnant Women
 - High Risk Children (0-5)
 - Chronically Mentally Ill Adults
 - Emotionally Disturbed children
 - Chronic Substance Abusers
 - At-Risk Children and Adults
 - Persons with HIV
- Chiropractors
- Clinic Services
- Community Alternatives Programs (CAP)
- Dental Care Services
- Home Infusion Therapy Services
- Hospice
- Intermediate Care Facilities for the Mentally Retarded (ICF-MR)
- Mental Hospitals (Age 65 and over)
- Migrant Health Clinics
- Optical Supplies
- Optometrists
- Personal Care Services
- Podiatrists
- Prepaid Health Plan Services
- Prescription Drugs
- Private duty Nursing Services
- Rehab. Services (Mental Health)
- Rural Health clinics

The Division of Medical Assistance

EPSDT –Required Services

- Federal Law requires states to provide early and periodic screening, diagnosis, and treatment (EPSDT) services for children under age 21.
- Required activities under federal regulation include:
 - Informing families about the EPSDT program
 - Screening services including vision, hearing, dental and laboratory screenings
 - Diagnostic and treatment services
 - Defects in vision and hearing including eyeglasses and hearing aids
 - Dental care for relief of pain and infection, restoration of teeth and maintenance of dental health
 - Appropriate immunizations
 - All other **mandated** services

The Division of Medical Assistance

EPSDT – Discretionary Services

- The federal regulations define the provision of discretionary services as follows:

“441.57 Discretionary Services.

Under the ESPDT program, the agency may provide for any other medical or remedial care specified in Part 440 of this subchapter, even if the agency does not otherwise provide for these services to other recipients or provides for them in a lesser amount, duration, or scope.”

- The NC Medicaid program has interpreted these regulations very broadly and has chosen not to limit discretionary services for children under age 21 even when optional services are limited for other Medicaid recipients.

Division of Medical Assistance

Rx Dispensing Fees

- **Current policy:** \$5.60 fee paid for the dispensing of generic drugs, and \$4.00 fee paid for the dispensing of brand name drugs.
- **Option #1:** Reduce dispensing fee to \$4.00 for all drugs. (\$4,964,555)
- **Option #2:** Reduce dispensing fee to \$2.50 for all drugs. (Same fee paid by State Health Plan) (\$15,438,319)

Division of Medical Assistance Public Providers – Health Departments

- Reimburse Health Departments at the rates paid to private providers for the same CPT codes.. (\$2,447,000)
- Health departments are paid rates for primary health care services that considerably higher than rates paid to physicians for the same services.
- The health department rates are negotiated each fiscal year and are based on the average cost of providing primary health care services in health departments.
- Physician rates are 95% of Medicare rates.

Division of Medical Assistance

Public Providers – Health Departments

CPT Codes	Physician Rate (7/01/02)	LHP Rate (7/01/02)
99211	\$18.04	\$33.00
99212	\$32.39	\$55.00
99213	\$45.05	\$76.00
99214	\$70.81	\$118.00
99215	\$104.02	\$176.00
99395	\$83.96	\$142.00

This chart compares rates for various office visits paid to physicians and health departments.

Rates for physicians are 55% to 60% of the rates paid to health departments.

Division of Medical Assistance Public Providers – Health Departments

- Health departments are also allowed to cost settle at the end of each fiscal year and receive payment (federal share only) for any Medicaid related costs that were not covered by the Medicaid rates.
- For SFY 2001, health departments received \$22.6 million in cost settlements.
- This budget option assumes that the cost settlement process would continue which means that health departments would continue to receive the federal share for costs not covered by the lower rates.

Division of Medical Assistance Public Providers – Health Departments

- This option may have the following impacts:
 - Physicians and health departments will be paid the same rates.
 - Health departments may have to become more efficient in providing primary care health services.
 - Some health departments may decide to discontinue providing primary health care services because they are unable to become more efficient.
 - Cost settlements for health departments will continue and will help offset some of the budget reduction.

Division of Medical Assistance

Public Providers – Area Mental Health Programs

- Reimburse area mental health programs at the rates paid to private providers for the same CPT codes. (\$745,557)
- Area mental health programs are also paid rates that are higher than rates paid to physicians for the same services.
- For example, area programs are paid \$94.69 per unit of individual psychotherapy while a physician receives \$86.92 per unit.

Division of Medical Assistance

Public Providers – Area Mental Health Programs

- Area programs are also allowed to cost settle at the end of each fiscal year and receive payment (federal share only) for any Medicaid related costs that were not covered by the Medicaid rates.
- This budget option assumes that the cost settlement process would continue which means that area programs would continue to receive the federal share for costs not covered by the lower rates.
- Area programs were scheduled to receive \$9 million in cost settlements for SFY 2001, but the settlement is being used to help balance this fiscal year's shortfall.

Division of Medical Assistance

Public Providers – Area Mental Health Programs

- This option may have the following impacts:
 - Physicians and area programs will be paid the same rates.
 - Cost settlements for area programs will continue and will help offset some of the budget reduction.
 - Lower reimbursement from Medicaid will impact area programs' budgets and may reduce their ability to provide services to clients.

Division of Medical Assistance

Carolina ACCESS Case Management Fees

- Eliminate the case management fees paid to Carolina ACCESS primary care providers. (\$8,450,000)
- Carolina ACCESS is a Primary Care Case Management (PCCM) plan that links eligible recipients with a primary care provider who has agreed to act as gate keeper and to arrange for health care services.
- Primary care providers are paid case management fees for acting as a gate keeper and arranging for health care services.
- This option may eliminate the Carolina ACCESS program because physicians may choose to not participate in the program if they do not receive the case management fees.

Division of Medical Assistance

Carolina ACCESS Cost Savings

- Reduce the Medicaid budget to reflect **anticipated** savings from the expansion of Carolina ACCESS II/II. (\$9,425,000)

- The Carolina ACCESS has estimated that it can reduce the Medicaid budget through the following initiatives:
 - Reducing hospital admissions
 - Reducing ER visits
 - Best prescribing practices
 - Increased generic prescribing
 - Polypharmacy review
 - Reducing therapy visits
 - Better management of high risk/high cost patients

Division of Medical Assistance

Other Options

- Eliminate optional circumcision procedures except in the case of medical necessity. (\$250,000)
- Implement minimal copayments (maximum of \$50) for hospital outpatient treatment services. (\$600,000)
- These options were considered during the 2001 Legislative Session.

Division of Medical Assistance

2002 Issues

- **Sustainability of the NC Medicaid Program**
 - ✓ How much access can NC afford?
 - ✓ What rate of growth can NC afford?
 - DMA can't control growth in the number of eligibles.
 - DMA can manage the utilization of medical services and control the rates paid to providers.
 - ✓ Access vs. cost containment -- How can the two policies be balanced?
- **Long-Term Cost Containment**
 - Which budget options for SFY 2003 will help contain costs in the future?
 - Are federal waivers the answer?

Goals

- Managing Medicaid Costs
- Making Sure People Get Care
When They Need It
- Obtaining quality care
- Improving Health Status

Options

- State Operated
- Contract Out
- Locally Run

*North Carolina Department of
Health and Human Services*

THE ACCESS PROGRAM

MAY 2002

ACCESS I

Primary Care Case Management Program

- **Links Recipients with a Primary Care Physician**
- **Creates Medical Home**
- **Provides the Framework**
- **671,191 Enrollees**

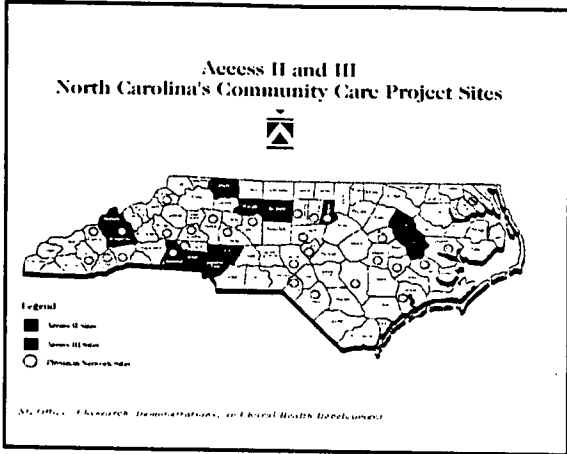

Access II and III

Builds on ACCESS I

- **Joins other community providers (hospitals, health departments and departments of social services) with physicians**
- **Creates community networks**

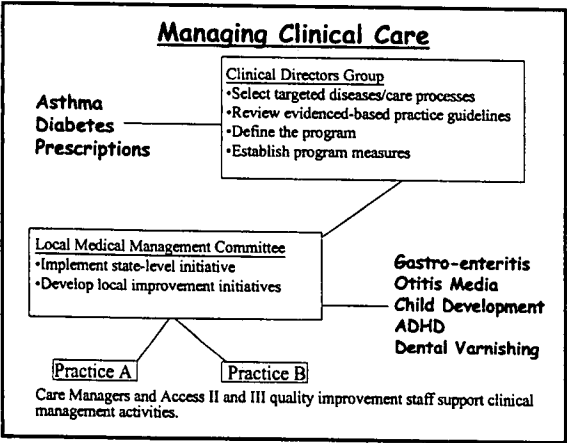

Access II and III

- **Focuses on improved quality, utilization, and cost effectiveness**
- **11 Networks with more than 1400 physicians**
- **228,614 enrollees**

What Networks Do

- ◆ Assume Responsibility for Medicaid Recipients
- ◆ Identify Costly Patients and Costly Services
- ◆ Develop and Implement Plans to Manage Utilization and Cost

Current Clinical Management Initiatives

- Asthma
- Diabetes
- Pilots: Gastro-enteritis, Otitis Media, High Risk OB

*Average Asthma Episode Cost for Children Under 18 was Lower for ACCESS II/III Patients than for Children not Enrolled**

Managing Utilization

Reduced unnecessary hospital admissions and ER visits

Percent Reduction in Utilization for enrollees under 21

	FY 98	FY99	FY00	FY01	Total
Hosp.	4%	22%	20%	34%	
ER	12%	18%	17%	8%	
Cost Savings	\$1.3M	\$6.6M	\$6.7M	\$12.8M	\$27.5M

Managing Expenditures

Expenditure Comparisons
July - December 2001 and 2002

<u>Population</u>	<u>Growth</u>
Access I < 21	1.7 %
Access II and III < 21	.01%

Where We Are:

- Proven Success Managing the Cost and Utilization of the Under 21 Population
- The Systems and Tools to Manage All Patients Including the Highest Cost
- The Commitment of Medical Leaders

New Access Programs

- Targeting highest cost services
- Targeting highest cost patients
- Accelerating Access II and III Expansion
- Rolling out selected initiatives statewide

■ ***Targeting High Cost Services***

- Pharmacy
 - Polypharmacy
 - Generic Prescribing
 - Best Prescribing Practices
 - Over the Counter Medications
- Emergency Department
- Personal Care / Therapy Services

■ ***Targeting High Cost Patients***

- Congestive Heart Failure
- High Risk OB
- Enrollees with disabilities
- Multiple Chronic Conditions

■ ***Accelerating Access II and III
Expansion***

- Expand existing networks
- Establish new networks
- Reach new populations
- Increase enrollment by 157,000
(6/30/03)

■ **Statewide Rollout**

- **Join with NC Physicians Advisory Group**
- **Replicate selected initiatives across all Access I practices**
 - **Generic Prescribing**
 - **Best Prescribing Practices**

**Cost Containment Objectives
(FY03)**

<u>Initiative</u>	<u>Savings for SFY03</u>
Hospital Admissions	\$11.9M
Emergency Room	\$3.7M
Best Prescribing Practices	\$4.9M
Generic Prescribing	\$2.6M
Polypharmacy	\$2.0M
Nursing Home Polypharmacy	\$0.5M
Therapy Services	\$1.3M
High Risk & High Cost	\$2.1M
TOTAL	\$29M

Does not include savings from expansion or statewide initiatives.

Mecklenburg County

A presentation for the
Health and Human Services
Joint Subcommittee on Appropriations

Medicaid and Managed Care in Mecklenburg County

Presented by:
Mecklenburg County
Department of Social Services
Richard W. Jacobsen, Jr., Director
and Health & Human Services
Core Business Leader

May 8, 2002

Medicaid Managed Care *Why?*

- **In 1994 the Mecklenburg County Board of Commissioners sought to address several issues related to the Medicaid Program:**
 - ✓ **Customer Difficulty with Accessibility**
 - ✓ **Physicians Refusing to Accept New Medicaid Patients**
 - ✓ **Recipients' Use of Emergency Room for Primary Care**
 - ✓ **Medical Care Sought in a Crisis Mode**
 - ✓ **Escalating Medicaid Budget**

Medicaid Managed Care *Goals*

- **Mecklenburg County and the North Carolina Division of Medical Assistance (NCDMA), working as equal partners, developed a Managed Care Project, Health Care Connection. The goals of the project were:**
 - ✓ **Improved Medical Care**
 - ✓ **Improved Customer Satisfaction**
 - ✓ **Improved Accessibility**
 - ✓ **Improved Availability**
 - ✓ **Cost Containment**
 - ✓ **Economic Development**

3

Medicaid Managed Care *Project Development*

- **Mecklenburg County and the NCDMA collaborated to:**
 - ✓ **Determine the contents of the contract**
 - ✓ **Conduct provider information sessions to help HMOs understand the functions and operations of DSS and to plan for enrollment education**
 - ✓ **Select the Health Benefit Advisors for enrollment**

4

Health Care Connection
Unique to Health Care Connection

- **Beginning in July 1996, 1/12th of the individuals eligible for HMO enrollment were contacted and enrolled each month, unlike Tennessee who completed a massive implementation. Mecklenburg's strategy allowed the health care systems to make adjustments as enrollment progressed.**
- **The NCDMA and Mecklenburg's decision to contract with neutral Health Benefit Advisors as the enrollment broker eliminated the problems encountered in Virginia and Maryland where HMOs were permitted to directly market to and enroll Medicaid eligibles.**

5

Health Care Connection
Unique to Health Care Connection

- **Requiring all HMOs to receive prior approval from NCDMA for any advertising or marketing initiatives eliminated unfair practices or false information and helped to level the playing field for all parties involved.**
- **A number of innovative health education services were mandated in the HMO contracts. They include:**
 - ✓ **Childbirth Education Classes**
 - ✓ **Parenting Classes**
 - ✓ **Child Development Classes**
 - ✓ **Diabetes Self-Care Instruction**
 - ✓ **Smoking Cessation Classes**
 - ✓ **Nutrition Services**

6

Health Care Connection
Unique to Health Care Connection

- **Quarterly quality management meetings were established with the NCDMA and HMOs to ensure consistency across plans and compliance with all quality expectations.**
- **Quarterly Plan Mobilization Meetings were established to coordinate processes between the NCDMA, the HMOs, the HBA and Mecklenburg County Department of Social Services.**

7

Health Care Connection
Enrollment Process

- **Enrollment for Managed Care began in June 1996 in Mecklenburg County for Work First and Medicaid-only programs for Families and Children. Enrollment for Blind/Disabled recipients began in October 1997.**
- **Enrollment occurs through a state-contracted Health Benefit Advisors company, *Public Consulting Group, Inc.* If the non-SSI recipient does not choose, he is auto-assigned to one of the four plans by a pre-determined algorithm.**
- **Recipients must choose one of the options available**
- **Health Benefit Advisors provide information to recipients about each of the four plans. They choose a primary care physician and a health care system.** 8

Health Care Connection
Individuals Eligible for Enrollment

- **Recipients in the following programs are eligible for enrollment in one of the four plans:**
 - ✓ **Work First Recipients**
 - ✓ **Adoption Assistance Recipients**
 - ✓ **Foster Care Recipients (Enrollment is mandated by the DSS Director who serves as the children's legal guardian)**
 - ✓ **Medicaid for Families and Children**
 - ✓ **Medicaid for Infants and Children**
 - ✓ **Medicaid for Pregnant Women**
 - ✓ **Medicaid for the Blind**
 - ✓ **Medicaid for the Disabled**
 - ✓ **State/County Special Assistance Recipients**

9

Health Care Connection
Ineligible Enrollment

- **Recipients in the following programs are ineligible for enrollment in one of the HMOs:**
 - ✓ **Medicaid for the Aged**
 - ✓ **Medicare/Medicaid Dual-Eligible**
 - ✓ **Medicaid for Qualified Beneficiaries**
 - ✓ **Medicaid for Refugees**
 - ✓ **Presumptive Eligibility**
 - ✓ **Nursing Facilities/ICF-MRs**
 - ✓ **Special Assistance for the Aged**
 - ✓ **Community Alternatives Program**

10

Health Care Connection *Enrollment in Carolina Access*

- **Recipients in the following programs have the option to enroll in Carolina Access:**
 - ✓ **Medicaid for the Aged**
 - ✓ **Medicare/Medicaid Dual-Eligible**
 - ✓ **Community Alternatives Program**

11

Health Care Connection *Participating Plans/Health Care Systems*

- **HMOs:**
 - **Coventry Health Care of the Carolinas - SouthCare**
 - **United HealthCare**
- **Carolina Access II: (Effective March 1, 2002)**
 - **Administered by Carolinas HealthCare System**
- **Federally Qualified Health Care Plan/
Carolina Access I:**
 - **Metrolina Comprehensive Health Center
(Formerly C.W. Williams)**
- **Carolina Access I: (Effective March 1, 2002)**
 - **Independent Physicians**

12

Health Care Connection
In-Plan Services for HMO Enrollees, Fee for Service

HMO In-Plan Services:

- Inpatient Hospitalization
- Outpatient Services
- Home Health
- Durable Medical Equipment
- Health Check
- Eye Care
- Ambulance
- Hospice

Billed on a Fee Basis:

- Pharmacy
- Mental Health Services
- Dental
- Personal Care Services
- Long Term Care
- Community Alternative Program
- Services received by Medicare recipients

13

HMOs and Carolina ACCESS
Similarities and Differences

Similarities:

- All enrollees have a personal doctor
- All enrollees have access to 24 hour medical advice
- All enrollees have access to free Health Education Classes

Differences:

- HMO enrollees have no co-payments; in Carolina ACCESS, some services may require a \$3.00 co-payment for anyone 21 or older
- HMO enrollees may be referred to specialists within the HMO's provider network; in Carolina ACCESS, enrollees may be referred to any specialist who accepts Medicaid
- HMOs and Carolina ACCESS may have different doctors
- HMOs and Carolina ACCESS¹⁴ may use different hospitals

Medicaid *Eligible Individuals by Recipient Group*

The total number of individuals receiving Medicaid has increased 34.2% since July 1994 and 15.4% since July 2000.

15

Medicaid for Families and Children *Monthly Managed Care Rates*

16

Medicaid for Blind / Disabled Individuals Monthly Managed Care Rates

17

Medicaid Service Expenditures for Major Services

**Significant Decreases for Inpatient and
Outpatient Hospital Services/
Significant Increase for Prescribed Drugs since 1997**

NOTE: Expenditures do not include adjustments processed by DMA, settlements, Disproportionate Share Costs and State and County Administration costs.

18

Total Adjusted Medicaid Expenditures *Mecklenburg County*

19

Expenditures / Caseload *Percent of State Total FY01*

- Although Mecklenburg County covers 6.82% of the Medicaid recipients in the state, the county's portion of the total expenditures is only 5.93%.

Mecklenburg's Percentage of Statewide Expenditures

■ Mecklenburg ■ Other 99 Counties

Mecklenburg's Percentage of the Statewide Caseload

■ Mecklenburg ■ Other 99 Counties

Caseload percentages are based on the number of individuals in open cases as of July 1, 2001.

20

Medicaid Expenditures Per Eligible Comparison of Mecklenburg County and Other Counties

Medicaid-eligible individuals in Mecklenburg County are served at a lower cost than the average cost in the other 99 counties in North Carolina. **Percent Increase
FY 97 - FY 01**

Source: Total Expenditures and Eligibles by County published by the NC Division of Medical Assistance.

21

Health Care Connection Findings of Interim Evaluation

- **According to reports published by UNC-Charlotte and in The American Journal of Managed Care:**
 - ✓ Substantial sums of money were saved
 - ✓ There was more contentment with healthcare experiences under managed care than under traditional Medicaid
 - ✓ Mecklenburg County Medicaid recipients reported:
 - greater satisfaction with Health Care Connection than with Fee For Service Medicaid
 - more access to primary care
 - less reliance on hospital emergency departments
 - ✓ Health Care Connection greatly increased the number and types of health care options available to Medicaid recipients

22

Health Care Connection *Findings of Interim Evaluation*

- **Focus group interviews were conducted with participants regarding access, quality and satisfaction under Managed Care. The following themes regarding recipients' perceptions emerged:**
 - ✓ **The overwhelming majority expressed dissatisfaction with Fee For Service:**
 - long waits for appointments and long waits after checking in
 - negative and disrespectful treatment
 - reliance on the Emergency Room for care
 - ✓ **In general, participants expressed greater satisfaction with Managed Care:**
 - shorter waiting times
 - continuity of care
 - less need to rely on the ER for care
 - telephone advice line available

NORTH CAROLINA HEALTH ACCESS COALITION

A Project of the North Carolina Justice and Community Development Center

224 S. Dawson Street • Raleigh, NC, 27611 • 919/856-2568 • 919/856-2175(f) health@ncjustice.org • www.ncjustice.org/health

Managed Care and Medicaid

May 8, 2002

I. Managed care no longer is reducing health costs in the private market or elsewhere.

Like every other approach tried to tackled rising health costs over the last three decades, managed care has had, in the end, markedly little effect in reducing health costs. Neither voluntary controls, stricter government regulation, or even the threat of comprehensive health reform has had a lasting effect either. With every approach, an initial cost savings is quickly swallowed up by rising prices.

Annual Change In Private Health Spending Per Capita (Adjusted For Inflation), 1961-2001

II. Managed care simply adds another level of administrative costs to the Medicaid program - all of which goes to a for-profit entity. Why should we do this?

A. Care has often been denied unfairly in Medicaid HMOs. For example, in Maryland's Medicaid HMO program for children a teenager had to wait six months to have a bullet removed from his chest because his Medicaid HMO had too few specialists.

B. It doesn't save money. Capitation in a HMO saves no more money and is no more efficient than a PCCM program like Carolina Access. This has been shown through research in multiple states.

C. It doesn't improve care and may hurt care - Again and again research shows that care for the poor does NOT improve in managed care and may indeed become worse. For example, recent data from both Washington DC and Texas show that health screening rates of children went down in a move to capitated managed care in an HMO.

MINUTES

North Carolina Appropriations Subcommittee on Health and Human Services

Minutes
May 9, 2002
9:00 AM

The North Carolina Appropriations Subcommittee held a meeting on May 9, 2002 in Room 643 of the Legislative Office Building. The meeting began at 9:10 am and was opened by Representative Beverly Earle, Co-Chair. Senator Martin gave remarks and stated that the committee has to come up with a balance budget by cutting 330 million dollars from the Health and Human Services budget. Other members of the committee were asked to give remarks.

The following members were present:
Representative Beverly Earle, Co-Chair
Representative Edd Nye, Co-Chair
Representative Thomas Wright
Representative Walter Church
Representative Verla Insko

Four Senators were present.

The purpose of this meeting was to hear comments from the public. A total of seventy people spoke to the committee. Written comments are on file. See attachments for all written comments presented to the committee.

The following topics were discussed:

Youth Homes	HIV/AIDS
AARP	Autism Society
Halifax Regional Medical Center	Bright Beginnings
BAYADA Nurses	Persons with Disabilities
Private Duty Nursing	Day Care
Children with Disabilities	Smart Start
NC Public Health Association	First in Families in NC
Quality Patient Care	Teacher and Child Care Provider
NC Home Health Care Association	Hospital Maternal Serum Tests
Domestic Violence	NC Association ICF/MR
Adolescent Pregnancy Prevention	T.E.A.C.H.
Child Fatality Task Force	Independent Living

Appropriations Subcommittee on Health and Human Services

Minutes

May 9, 2002

NC Alcohol Drug Council
CAP/DA
NC Aids Advisory Council
Prevent Blindness
Children and Family Services Association
United Cerebral Palsey

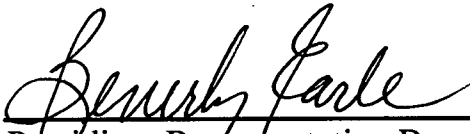

Substance Abuse
Community Enrichment Program
CASA – Housing Developer
NC WIC Program
Triangle Older Women’s League
Partnership for Younger Children

Representative Earle thanked everyone for taking time to participate in the pubic hearing. She informed all participates that their comments and concerns will be taking into consideration.

Members of the committee were asked to give closing remarks.

The meeting adjourned.

Respectfully submitted,

Presiding, Representative Beverly Earle

Representative Edd Nye

Ann Raeford, Committee Assistant

Public Comment
Appropriations Subcommittee – Health and Human Services
May 9, 2002

My name is Julie Gainer. I work at Rowan Regional Medical Center. One of the programs that I work with is the Community Alternatives Program for elderly and disabled adults, in Rowan County. I know the decisions that have to be made this year are difficult, however I am here today to request your assistance in maintaining the CAP-DA program which has been a successful and cost-savings program for over 15 years in Rowan County, and even longer in other counties. As I discussed the dire situation we are in with an employee who no longer has a job because of the freeze, we realized that it is rare to find a program that rarely ever gets complaints; one that provides a cost-savings to the state and most importantly, provides necessary services to our elderly and disabled adults that allows them to maintain their independence in their own home as long as possible.

Each time I have driven to Raleigh or Charlotte to publicize the need to lift the freeze for the CAP program, I have to admit I question “why am I doing this?, is my 3 minute speech going to do any good?”. Every time, my answer is the same. I have to be here to speak for all of our clients who can’t make the trip to Raleigh, who are unable to leave their house, who have multiple health problems and who struggle every day to maintain their ability to remain in their homes, their familiar environment and to be with their family, if they have any family.

I am here today because of the people who need our services. For example, the pictures that I have enclosed are 3 of our CAPCare clients, out of the 120 we still have on the program, out of the 160 we used to have.

The first picture is a 37 year old woman, who has cerebral palsy, scoliosis, seizure disorders and on-going respiratory distress because of her severe disabilities. She has a feeding tube and is cared for her family with the help of CAP services. Her caregivers understand her expressions and limited communication. Her family will be devastated without CAP services. Nursing home placement will become an option, at a higher cost to the state’s Medicaid program.

The second picture is a paraplegic woman, with multiple health problems who lives at home with her illiterate husband who has many health problems, but can not get disability because he worked in a saw mill where he was paid in cash. He tries to care for her the best he can, but CAP services are crucial to her care. I’m not sure what will happen to either one if CAP is no longer in the home. I am sure that her care will deteriorate, her hospital visits will increase, at a higher cost to Medicaid, and if she does go into a nursing facility, her costs will also increase. Either option will result in an increase.

The third picture is of a 90 year old woman with cardiovascular problems, with no family in our community, who lives by herself, with the help of her caregiver. What will she do without CAP services? Nursing home placement at a higher cost? Remain at home without anyone helping her? End up in a hospital emergency room, in a medical crisis, admitted to ICU – at higher Medicaid costs? Or will she remain in the home, refusing to go to a nursing home, becoming an Adult Protectives Services referral?

I know you have read numbers, have seen reports, have heard statistics and informational reports about the feasibility of the CAP program. I want to let you see the people who will suffer without CAP. Multiply this by 100 and you will have the people on the waiting list in Rowan County. Imagine 6000 of individuals similar to these clients and you will have the number of clients waiting for CAP in North Carolina.

Please consider the cost-savings, the implications and most of all, the individuals that will be affected if the freeze is not lifted.

Thank you for your consideration of this request.

N.C. CHILD CARE COALITION

4505 Wilkes St., Raleigh, N.C. 27609

(919) 781-5313

May 9, 2002

Health & Human Services Appropriations Subcommittee Public Hearing

Testimony by Roz Savitt

Good morning. My name is Roz Savitt. I represent the NC Child Care Coalition. The Coalition understands the position the state is in and the position *you* are in. However, looking at the "options" from both the Department of Health & Human Services and from your fiscal staff, the cuts and elimination of whole programs go too deep and will severely damage the services provided to young children in the state.

I specifically want to talk about Smart Start and the T.E.A.C.H. program. First Smart Start:

- The \$50 million combined proposed cut is a 25% reduction in the total program. This is after millions of dollars have been cut already this fiscal year. The policy change options would end local partnerships' ability to reach their performance requirements. Local decision making, a key feature of Smart Start, would be gone.
- **Smart Start has produced results.** The percentage of high quality child care centers has *increased from 20% in 1993 to 66% in 2001*. That means better care for children. And now children with special needs are more likely to be served in high quality child care: from 1994 to 1999 the **number of child care facilities enrolling children with special needs increased 50%**.
- **Smart Start is a key partner in the More At Four program.** In 17 out of 34 counties, the local partnership for children is administering and implementing the More at Four program. Also, Smart Start dollars, as well as Head Start and Title 1 funds are providing the local match, a More at Four requirement.

Now let's take a look at the T.E.A.C.H. program:

The Department, has as an option, the total elimination of T.E.A.C.H. Almost 5,000 low income child care workers, 99% female, most with children of their own, will lose their scholarships and will have to drop out of school.

Because of T.E.A.C.H. the educational level of staff in child care has increased dramatically. This has resulted in a lessening of the turnover rate, a chronic problem in child care. What would be the affects of no T.E.A.C.H. program in North Carolina?

Continued

The N.C. Child Care Coalition - working to improve the quality and affordability of early childhood services in North Carolina: NC Day Care Association * Child Care Services Association * NC Association for the Education of Young Children * NC Partnership for Children * NC Head Start Association * NC Child Care Resource and Referral Network * NC Council of Churches * Fight Crime: Invest in Kids * Center for Community Self-Help * NC Interagency Coordinating Council * NC Child Advocacy Institute * Covenant With NC's Children * NC Justice and Community Development Center * United Way of NC/Success By 6* United Cerebral Palsy of NC * numerous regional and local child care agencies, child care providers, and individuals.

Contact: Roz Savitt, Public Policy Consultant for the Coalition, at (919) 781-5313.

- **Higher child care staff turnover is a certainty.**
- **A probable end to the star rating system.** The star rating system has been received very well by both providers and parents. Without the T.E.A.C.H. program assisting staff and centers in the cost of higher education, child care facilities will slowly drop in quality as newly educated staff leave and cannot be replaced with workers financially able to attend higher education classes. This will drop quality, reflected in lower star ratings.
- **Community Colleges** will have to significantly decrease course offerings and even shut down early childhood education departments.
- **Child care facilities' participation in More at Four** will gradually become smaller and smaller as centers lose their quality and stars because of less educated teachers and thus become ineligible to participate in the program.

Finally, let's remember what this is all about. In the end, when programs get cut or eliminated, the harm will be to over 200,000 of the youngest children in our state, just when they need the *best* of care. These kids can't speak for themselves. Don't let them down.

Thank you.

The N.C. Child Care Coalition - working to improve the quality and affordability of early childhood services in North Carolina: *NC Day Care Association * Child Care Services Association * NC Association for the Education of Young Children * NC Partnership for Children * NC Head Start Association * NC Child Care Resource and Referral Network * NC Council of Churches * Fight Crime Invest in Kids * Center for Community Self-Help * NC Interagency Coordinating Council * NC Child Advocacy Institute * *Covenant With NC's Children * NC Justice and Community Development Center * United Way of NC/Success By 6* United Cerebral Palsy of NC * numerous regional and local child care agencies, child care providers, and individuals.*

SAVE IFPS FUNDING

Guilford County typically receives the second highest number of child abuse and neglect reports in the state. In FY 98-99, 331 children entered foster care in Guilford County, and in July of 2000, when we began delivering IFPS expansion services in Guilford County, there were about 725 children in foster care.

Twenty-two months later, the number of children in foster care in Guilford County has dropped to 556.

- In those 22 months, the IFPS program in Guilford County has served 83 families with 207 children at imminent risk of removal from their homes.
- These 83 families have received 5,164 hours of service.
- 92% of those children have remained in their homes at the end of the six-week service period.
- 73% of the children served have been children of color (which remains in proportion to the number of children of color entering foster care: traditionally 65-70% in Guilford County).
- Follow-up data so far indicate that 85% of families who successfully completed six weeks of IFPS services have had no new substantiated reports of abuse or neglect a year later.

The following points are offered for consideration:

- The cost of providing IFPS to families (just under \$6,000/family last year) is just over half of the cost of each out-of-home placement distributed across the three divisions last year (DSS, JJ, MH/DD/SAS), of more than \$10,000 per child.

- A cost benefit analysis last year showed that for every \$1.00 spent providing IFPS \$2.07 is not being spent on placement services for imminent risk children who would otherwise be placed in out-of-home care. Therefore, eliminating this 1.5 million-dollar program would potentially result in 3.1 million dollars being spent on out-of-home care costs.
- Cutting IFPS this year and eliminating the service will result in increased costs next year in MULTIPLES equal to the number of children placed. The large majority of families served by IFPS are multiple child families.
- Cutting ANY programs that reduce the child population in more expensive alternative programs is short sighted. Children and families WILL BE SERVED because public agencies cannot arbitrarily decide not to carry out their mandates. It's simply a matter of serving them less invasively, less restrictively and less expensively, or more invasively, more restrictively, and more expensively.
- The level of service available through IFPS and other programs of similar intent cannot be turned on and off like a switch. It often takes a full year to "ramp up" programs in accordance with a previous year's fiscal plan. The "on again/off again" history of funding for these programs discourages them from trying to establish the very services that help the state fulfill its legislative mandates.

Respectfully submitted:

May 08, 2002

Dear Legislators,

I am writing you this letter because of my concerns about the future of providing supervised independent living services to clients when their families want or need to be less involved. In writing this letter, I understand that you are all under significant pressure to reduce spending. Five years ago I helped to pioneer a program to help people with autism to move to less restrictive environments. We were hesitant to move the client's out of the safety of a group home, for fear that they would be financially abandoned over time. However, the "implied" verbal commitment from our friends at CAP (Community Alternatives Program) was that somehow financial support would continue. With that reassurance in mind, we moved forward.

Over the course of the last 5 years, the funding had dwindled to the point that the situation is nearly impossible. Now, over 50% of the independent living clients have no funding. The funding for the remaining client's has been reduced by over 50% total. It was rewarding to help them to become more independent, but they need ongoing support to make it work. I feel a commitment to continue to help them to remain independent and to prevent them from returning to a more restrictive and significantly more expensive environment. However, with additional cuts, I don't see how we can make a budget work to support them.

These clients have ongoing and changing needs that we must continually respond to meet. Their employers, job coaches, social security workers, physician's offices, and case managers all rely heavily on us to help with organization of events, assistance with problem solving issues, and the provision of information. Without our support, I don't see how they could be maintained. For these reasons, I hope that you will come up with an alternate way to make the budget work.

Respectfully Submitted,

Chris Kinlaw

Program Coordinator

Autism Services, Inc.

Members of the Health & Human Services Joint Appropriations Subcommittee

The North Carolina Association of Residential Resources (NORCARR) is a group of private providers serving individuals with developmental disabilities. Some of our members have provided services across North Carolina for more than 35 years and our focus has been toward children (primarily) and adults with medically complex issues paired with severe and profound mental retardation.

NORCARR providers include:

Carobell*	Hubert
Horizons Residential Care Center*	Rural Hall
Piedmont Residential Development Center*	Concord
Hilltop Home	Raleigh
Holy Angels*	Belmont
Tammy Lynn Center for Developmental Disabilities*	Raleigh
Irene Wortham	Asheville
t.l.c. home*	Sanford
Howell's	Bear Creek, Clear Creek, Gatewood, River Bend, Tar River, Walnut Creek

**These six facilities are recognized by the Division of Medical Assistance as caring for the State's most medically fragile ICF/MR recipients.*

Some of the services delivered by NORCARR providers include: ICF/MR residential facilities, developmental day (special education), before/after school and day care, respite care, early childhood intervention services, supervised living, supported employment.

The people served by NORCARR providers are those who have the least access to services. Few providers are willing to deal with the excess service requirements and costs associated with this population. The children and adults served in our community-based ICF/MR facilities, community residential centers, and special education programs require nursing services and medical supports 24 hours a day. Medication administration (in addition to tube feedings and breathing treatments) in one of our 34 bed residential facilities can exceed 13,500 doses/month. Residents require specialized therapies and frequent visits to specialists for acute medical crises and ongoing care associated with complex medical issues and multi-handicaps, specialized wheelchairs and seating systems, and immediate availability of emergency medical equipment. The paraprofessional and professional staff delivering services to individuals in these facilities require highly specialized training and must operate under significant regulatory structures.

Over the past several years, NORCARR providers have worked diligently with other ICF/MR providers and with the Division of Medical Assistance (DMA) to control costs for ICF/MR services. These efforts have included extended agreements with DMA to accept annual increases far less than the amount of inflation, despite steadily increasing medical and staff costs. For NORCARR facilities this has meant aggregate annual losses in the hundreds of thousands of dollars and an inability to compete

for and retain qualified, competent staff (LPNs and RNs, habilitation technicians, therapists, teachers and teaching assistants, Qualified Developmental Disabilities Professionals, administrators, etc.).

Recently proposed cuts to the ICF/MR program would have a significant, negative, rippling impact on the medically fragile individuals served by NORCARR as well as those less fragile, but equally dependent, individuals served by other providers. There is a very real threat that many good providers will cease to exist and that an already inadequate array of services will be dangerously reduced. All providers will have difficulty assuring safety, recruiting and retaining staff, meeting regulatory requirements, and meeting fixed costs. Cuts to CAP-MR/DD services may have similar negative impact on provider ability to deliver services.

We understand that you are now faced with the most difficult budget decisions of your legislative careers. How you proceed will affect the safety and daily stability of our State's most vulnerable citizens – people with severe and profound mental retardation and medically complex issues which few providers are willing or able to address, and many others who depend upon North Carolina's human services community for basic supports. Reductions in service or failure to provide required services will, undoubtedly, result in long-term costs that far exceed our current budgetary problems.

We urge you to RAISE REVENUE and PROTECT THE HUMAN SERVICES INFRASTRUCTURE that our State has been working so hard to establish. Massive cuts to developmental disabilities services and other human services programs will set us back 10 – 20 years while immediately placing our State's most vulnerable citizens at undue increased risk. There are options. Please exercise them.

Melanie Wiles Childcare Teacher in Clayton

As a teacher and a mother participating in the Teach program and benefiting from smart start funds I felt I had no other choice than to be here today.

My professional background has been in advertising sales. I have always felt a need to work with children. Because of smart start and teach after relocating to NC I was able to find a position as teacher in a childcare center. I had the basic knowledge and passion for teaching children. But due to smart start and teach I have been able to increase my knowledge through education.

I also have an 11-month-old who attends the same five star facility that I teach at. We both benefit from smart start and teach funding because of the teacher incentive program. If smart start funding was to be cut I don't feel that I would be able to continue my employment at this center. That not only affects me and my child but the 16 three year olds who spend a good portion of their day with me Mon. through Fri. I have brought a letter from one parent in my class that I would like to share with you at this time. As I read this letter please keep in mind that I am one teacher and this is one child. (read)

Dear committee members,

I am a mother of a 3 year old little girl who would be affected terribly if she lost her teacher, and that is exactly what will happen if this budget cut takes place. When my daughter started in her class she was quite a challenge. In the benefit of her teacher's education provided by smart start and teach we were able to overcome my daughters challenges and now she is able to excel educationally and emotionally. Personally I would be disappointed to loose a person who has had such a positive influence on my child. I honestly feel that my daughter would suffer a great emotional strain due to loosing her teacher. Teachers are a big part of our children's developmental skills; they spend as much time with children as their parents do. With this in mind I hope you will seriously consider the affect that it would have on our children to cut the smart start and teach benefit.

Sincerely yours

Kimberly Yow

Unfortunately I am not the only teacher and my daughter and this little girl are not the only ones who would be affected. I believe strongly that we would loose many valuable and caring teachers if the proposed budget is passed.

I have brought along with me many letters from my co-workers who were unable to be here today. I hope you give them the attention that they deserve.

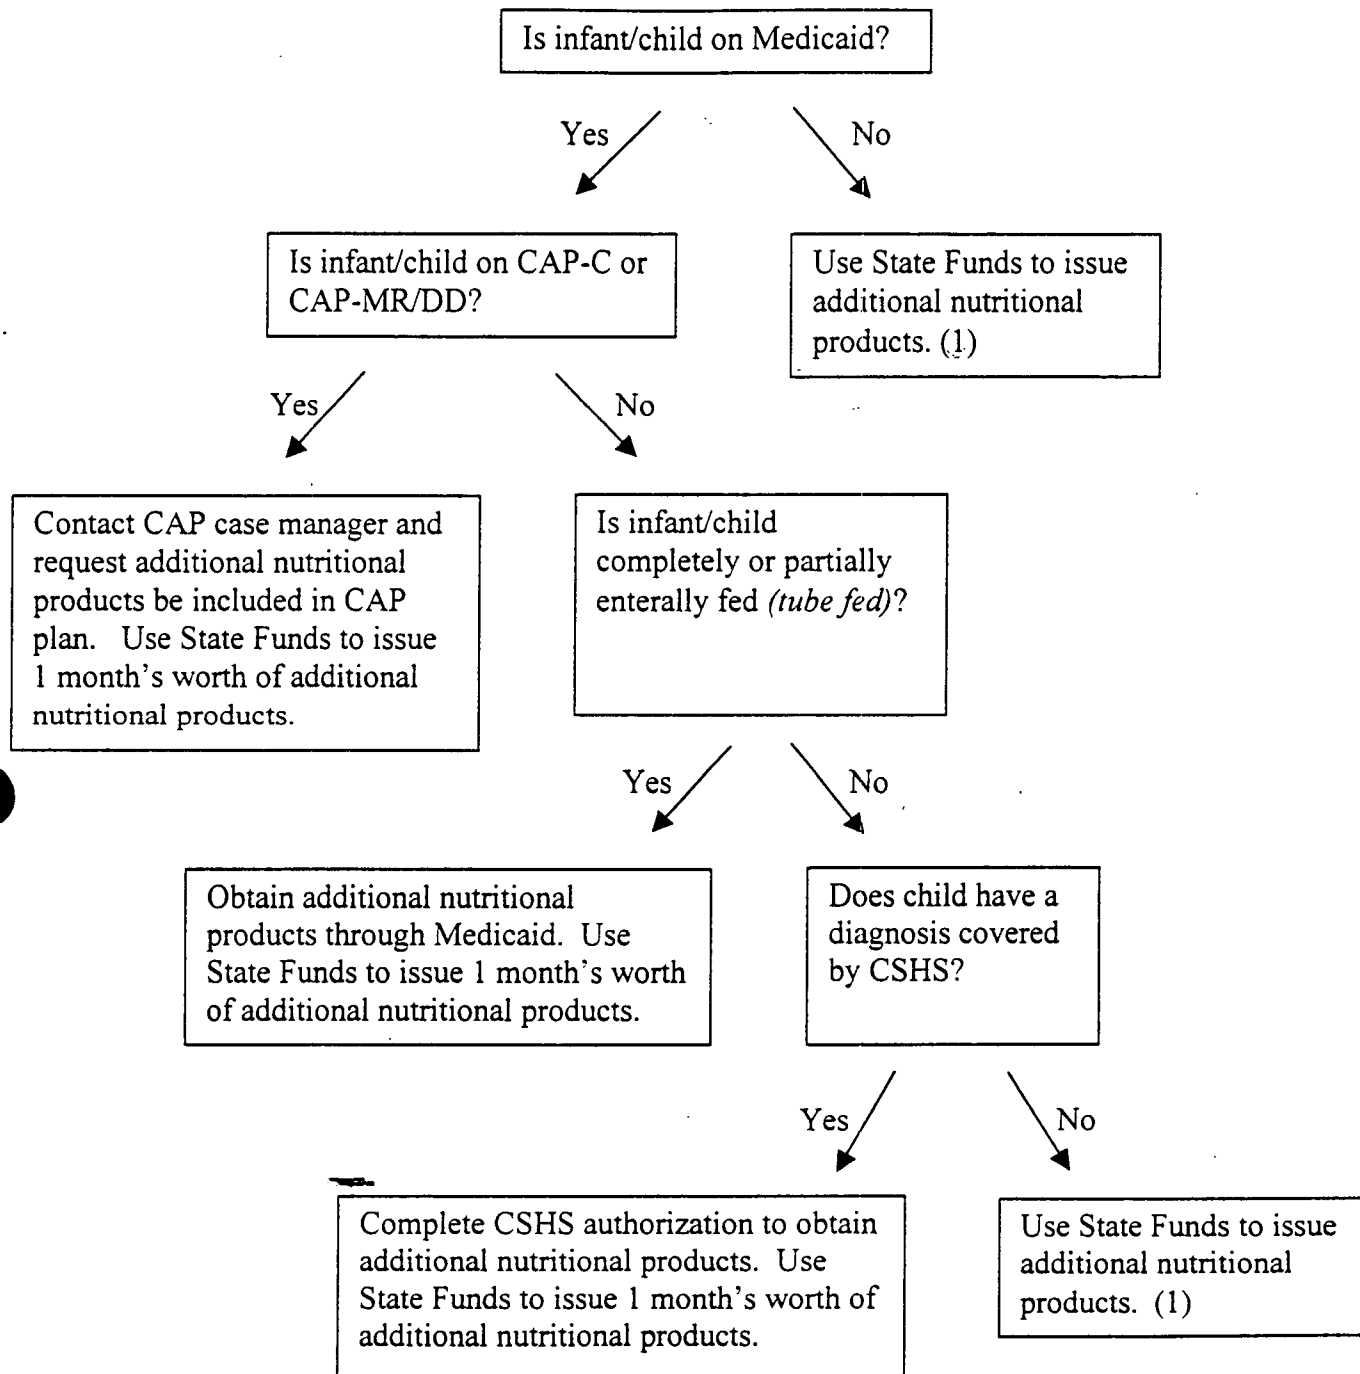

Thank you for your time.

TOM COPELAND/News & Record

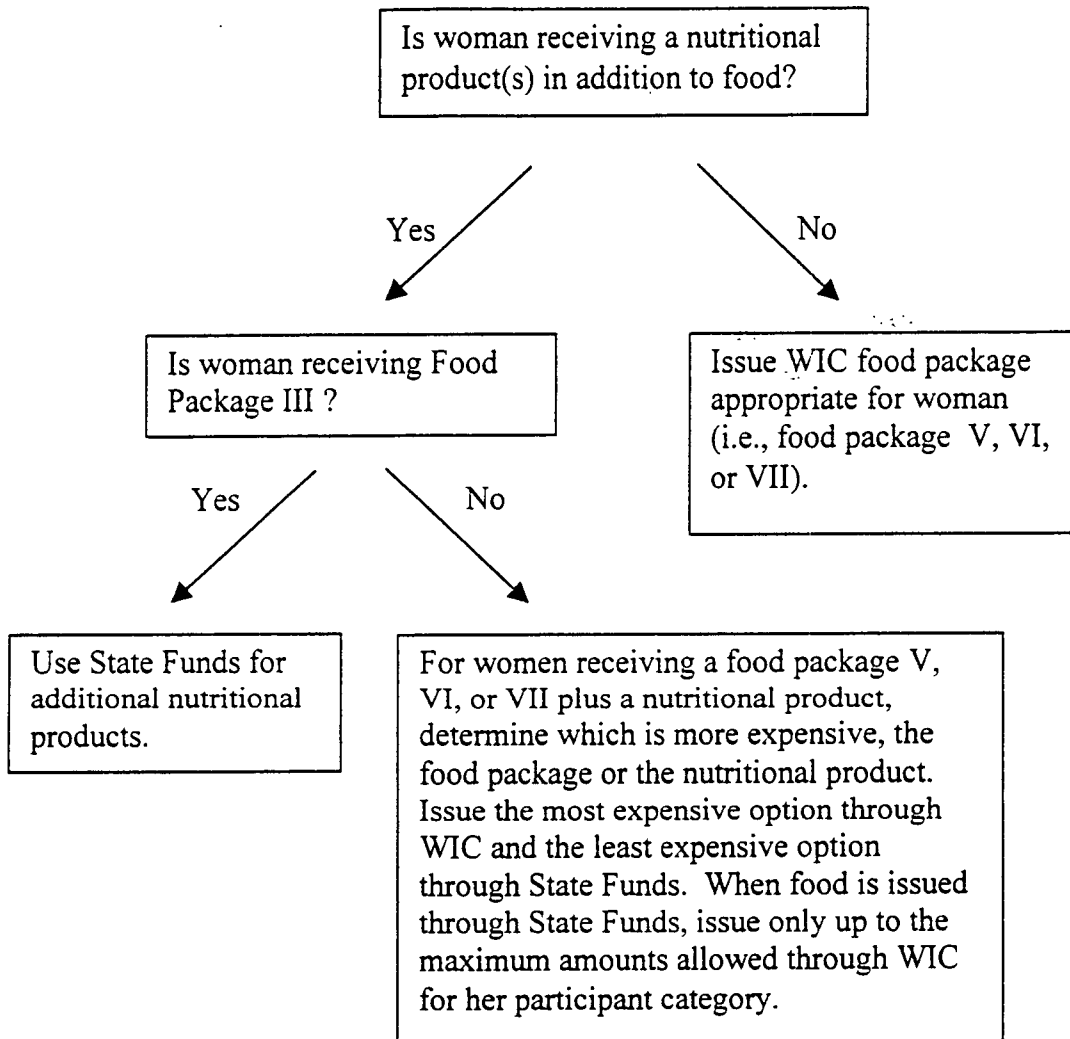

Sisters Erin (left), Mysti and Mary Anne Barford were adopted last year by Mark and Michelle Barford of High Point. "I'm glad that I have a whole family that loves me no matter what I do," says Mary Anne, 10.

Decision Tree for Determining Funding Source of Nutritional Products Needed in Excess of the WIC Monthly Allowable Amounts by Infants/Children on WIC

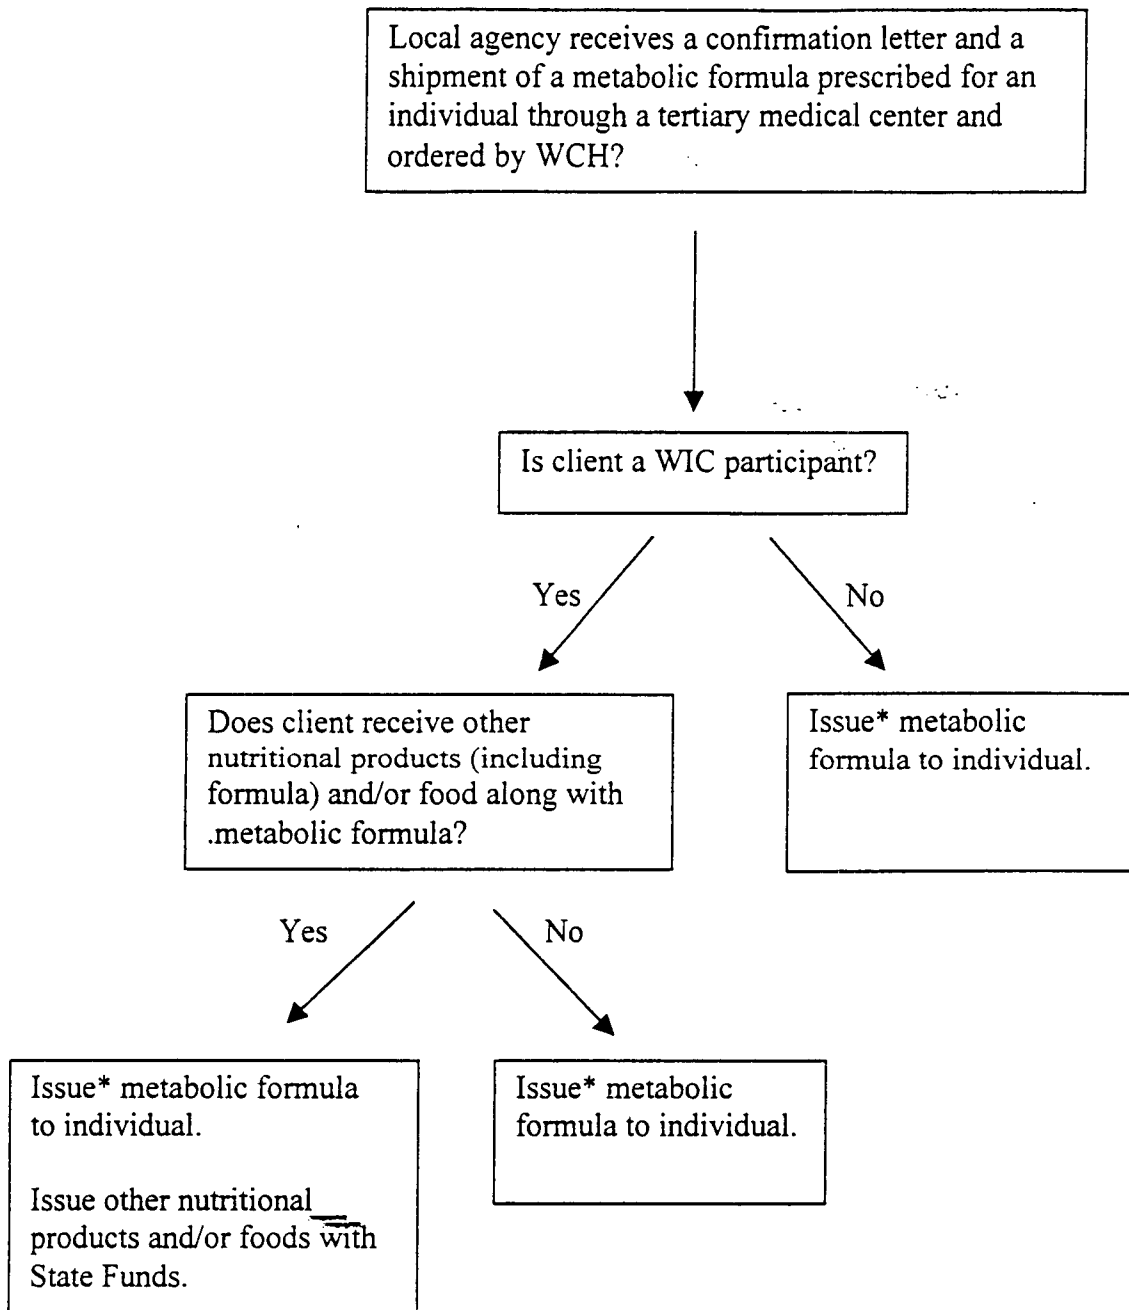

(1) For children receiving a regular child's food package (*i.e. food package IV*) plus a nutritional product(s), determine which is more expensive, the food package or the nutritional product. Issue the most expensive option through WIC and the least expensive option through State Funds. When food is issued through State Funds, issue only up to the maximum amounts allowed for children through WIC.

Decision Tree for Determining Funding Source of Nutritional Products Needed in Excess of the WIC Monthly Allowable Amounts by Women on WIC

Decision Tree for Issuing to Clients Who Consume a Metabolic Formula

* In this sense, "issue" means: *provide the metabolic formula to the client/parent/caretaker and have them sign the nutritional products issuance log to indicate they received it.*

Hello, my name is Karen Stallings, and I am the State Coordinator for the Association of Self-Advocates of North Carolina. We have over 1, 200 members and 33 local self-advocacy groups across the state. I am here today to speak up for those who cannot speak for themselves. I am here to speak up for family members, parents and for people with disabilities.

Cutting services from the Human and Health Services is not the right to do. We know that 80% of the State Budget goes to the Public School Systems. However, public schools are not full filling their duties and obligations. Special Education Directors are not giving children mandated services, for example: One director stated there was a difference between educational physical therapy and medical physical therapy and refused the homebound child services. There are no CAP slots, and people with disabilities have been waiting on the "Waiting List" long before the budget crisis came along. They should not be forgotten. \$100 million dollars was needed this year to get the system going in the right direction. Now, since we have new leadership at the state and division level, we are headed in the right direction. If services are cut, we could loose \$80 million dollars, which would mean cutting services to real people, individuals, and families in the community.

The association is in favor of the new State Plan and downsizing or closing Dix and Umstead hospital. We are in favor of consolidating the two. However, if services are cut, the division cannot be reformed when good tax dollars are going out the back door because of budget cuts. The state of North Carolina needs to raise REVENUE, WORK WITH THE NC CONGRESSIONAL DELEGATION TO GET FEDERAL ASSISTANCE. Even have a lottery as long it is used for educational and Human and Health services for the division. Community services needs to be the safety net, and be the ongoing services and supports.

We the Association, have challenged and encouraged people with disabilities to get more involved in the community. For example, to get a job, volunteer, and to give back to the community, "Kennedy Law" and this is happening within your local community. This is what those services can do, If the services and supports are there. Also, other advocacy organizations are coming together to make a difference. We are coming together and building ramps for people in wheelchairs and developing assistive technology borrowing programs for the state. When we all come together, everybody achieves more, so we need YOU.

So, we pray for the State Lawmakers, Representatives, and Senators to make the right decision for people with disabilities. God Bless the Tarheel State, and our General Assembly.

May 9, 2002

TO: Joint Appropriations Committee

FROM: Julie Ewing, Executive Director
Ralph Scott Lifeservices, Inc.

I am writing on behalf of the Board of Directors of Ralph Scott Lifeservices, Inc., a private, not for profit organization providing residential services and associated supports to individuals with developmental disabilities in Alamance and Caswell counties. RSL has provided an array of services in the community since 1971. We serve 130 people in Adult Care, ICF/MR, CAP/MRDD, Supported Living, MRMI, CBS, and Independent Living.

Cuts in funding to community programs for people with developmental disabilities will not only hurt people currently served, but also make no sense in light of state efforts to meet the requirements of the Olmstead decision.

At least 79% of Ralph Scott Lifeservices' expenditures are for salaries and wages. Other large budget items are food, utilities, and gasoline. RSL has put cost of living and merit raises on hold for 2002-2003 and travel will be limited. Our administrative costs run about 10%. There ARE NO OTHER PLACES to cut without diminishing the quality of services provided or reducing the number of people served.

The individuals we serve are growing older, have more needs rather than less, and have fewer family members to assist. The new admissions have greater needs than people admitted even three years ago.

State regulations, instead of becoming simplified, overlap, sometimes contradict, and are more restrictive than ever before.

Training requirements are more stringent.

In short, it is harder and harder to serve people, yet we are asked to do it with fewer and fewer dollars. And those dollars are less flexible.

These are only a few of our concerns. Thank you for your attention.

AARP North Carolina

May 8, 2002

To: Members of the Joint Appropriations Health and Human Services Subcommittee

From: AARP North Carolina Advocacy Council

Subject: Health and Wellness Trust Fund

On behalf of our 931,000 members in North Carolina, we write to you concerning the Health and Wellness Trust Fund. We urge you to reject any proposals to divert current or future funds because of the state budget problems.

We are especially concerned about the future of the Prescription Drug Assistance Program that has been developed by the Health and Wellness Trust Fund Commission. This program will provide critical assistance for low income elderly persons who do not have any other form of drug coverage.

We urge you to look for other sources of revenue to balance the state's budget and allow this important program to be fully funded for three years, as was promised last December when the program was approved.

For further information on AARP's position on this issue, please contact Helen Savage, AARP NC Advocacy Representative, 919/508-0262.

Adult Home Specialist Fund

In view of North Carolina's severe budget crisis, state government is forced to find ways to reduce the short fall.

The Adult Home Specialist fund of \$1,400,000.00 is one of many items cited by the Department of Health and Human services as an option to be reduced/eliminated.

We believe it is imperative that this funding stream is left intact.

History:

Since 1945 when laws governing boarding homes and rest homes were passed, regulations have been developed by the state with monitoring for compliance mandated to the counties. These regulations were revised and expanded in 1977, 1984, 1987, 1995, and 1996, and applied solely to Rest Homes (now called Adult Care Homes). Prompted by significant negative media coverage regarding the care of residents in these homes and North Carolina's concern for the well being of its elderly and disabled citizens, the regulations were tightened and SB-10 was passed by the General Assembly in 1999.

Due to the complexity of these regulations and the demonstrated need for more frequent and in depth monitoring to insure compliance, the state provided funding for Adult Home Specialists.

The oversight of these Adult Care Homes is county administered and state supervised. The monitoring is performed by county employed Social workers called Adult Home Specialists. The regulations have become far more complicated and the Adult Care Home population is sicker than in previous years, and now includes numerous mentally ill residents mixed with the frail elderly. Numerous tasks and skills are required to provide the oversight necessary to assure compliance with regulations, and protect resident rights and well being. The primary functions are monitoring of compliance with regulations, complaint investigation, technical assistance to the homes and protecting resident rights and well being.

Issues / Impact:

- Four separate studies (Two by the CPA firm Peat Marwick, one by the Department of Health and Human Services office of the Internal auditor, and one by the office of the State auditor) have validated monitoring, recommending it remain with the counties.
- Cutting the Adult Home Specialist fund would eliminate 70 of the 151 Adult Home Specialist positions in the state, thus diluting the oversight of the licensed facilities which now number 1,310. This would also cut by almost half services to the residents in these home which have a combined licensed capacity of 38,646 residents. This is in direct conflict with SB-10, and the General Assembly's previous commitment to quality care for elderly and disabled citizens. SB-10 requirements are valid and should be carried out.
- The taxpayers invest significant sums of money, \$135,083,062 in Special Assistance and \$105,005,542 in Medicaid for Basic and Enhanced Care in the FY ending June 30, 2001 for example, for the care of aged and disabled residents of these facilities. Good stewardship demands strict oversight of the care provided by these funds.
- Average caseload will increase from 14 to 25 facilities per Adult Home Specialist.
- Loss of the monitoring staff funded by the Adult Home Specialist dollars would mean:
 - Monitoring/oversight will be less thorough, less often.
 - Complaint investigations will be less thorough and follow-up to assure correction of the problems will be less prompt, or will occur at the sacrifice of monitoring visits.
 - There will not be enough time to provide adequate technical assistance and continuing education programs to operators that will help them provide better care and avoid situations that result in complaints and negative action.
- Given shrinking SSBG funds, eliminating the Adult Home Specialist fund would in effect be passing on an unfunded mandate to the Counties.

Possible Solutions:

It is understood that the care of this state's aged and disabled citizens is already expensive, and that this state along with some 45 others is in a cycle of recurring budget crises. It is reasonable that state funding for monitoring must be trimmed, new sources of funding found, and new ways developed for actually doing the monitoring. Possible remedies that should be explored include the following:

- Less frequent monitoring of Adult Care Homes with high performance levels.
- Exploring tapping Federal Medicaid dollars to reimburse the cost of some of the monitoring functions such as monitoring of drug management and health care services for residents receiving Medicaid.
- Using the proposed Adult Care Home licensing fees to offset some of the cost of funding the Adult Home Specialist Fund.
- In lieu of the proposed licensing fees, charging user fees to the homes for monitoring.
- Reducing Special Assistance and Medicaid expenditures in Adult Care Homes by reducing the number of residents "boarded" through adoption of a uniform screening tool that has been recommended in the North Carolina Institute of Medicine's *A Long Term Care Plan for North Carolina*.

May 8, 2002

Dear Representative Billy Creech,

It has been brought to my attention that funds for Smart Start may be cancelled. Smart Start funding is crucial in the education of our children. The children are our future. If our teachers are not receiving quality education, where will our children be in ten, fifty, or even one hundred years from now.

I have a child in preschool and I am grateful that I am able to work in the same preschool. These funds are important to me because there is no way that I can afford to better myself without Smart Start funding. It has greatly benefited me and the children I care for and also my child and her teachers. I have thoroughly enjoyed and learned a lot from being able to attend school without readjusting or falling short of my family's budget.

We want our children to be well educated and socially and emotionally adjusted in our world. This cannot happen unless teachers can attend school and at the same time supplement their income. Child care

workers are already underpaid and overworked.
We need all the help we can get. Once
again, I support Smart Start funding
and would be saddened to see it gone.

Thankyou,

Marisa J. Murray

May 8, 2002

Dear Representative Creech,

I am writing you today to discuss the proposed budget cuts for Smart Start. I do not know how to begin to tell you how heartbroken I was when our owner, also my Mother, came to me and told me what was happening. My mother owns and operates 3 child care facilities 2 of which are 5 star centers and we are working hard to increase the star rating at our 3 star center. We have worked extremely hard to continue the Highest Quality Child Care possible for children in the Clayton area. Because of Smart Start our staff have been able to receive well deserved bonuses, continue their Education, receive Health Insurance at reasonable prices, and have their children in High Quality Child Care Facilities. These proposed budget cuts will really hurt what we have worked so hard to build.

My Mother has been evolved in everything that our County has done in regards to Smart Start, TEACH, WAGE\$, and the Teachers Incentive Project (TIP). She has worked diligently with other committee members to establish these programs that are for child care Teachers. Without these benefits many of our staff will not be able to afford to continue their employment with us which will in turn cause caos among our centers. Our children are the number one people who these cuts will affect. Do we really need to lose the wonderful teachers because of these cuts?

I also am a mother of a one year old little boy who I have had the privilege of having at one of our centers. Both of his teachers are currently receiving the WAGE\$ bonus, they are both currently under the TEACH scholarship program, they receive insurance and child care assistance because of Smart Start. My son will be heart broken if his teachers leave our center and both of them would have to find jobs elsewhere if these programs that they deserve are cut.

My son is only one of our 500 children that will be heartbroken if they lose the teachers that they have grown to trust and love. Also, do you think that there has been given enough time to see the effects of these programs?? I know how much these programs have impacted our centers and our 80 staff members. I also know how the children and their parents will feel if they lose their child's teachers. Simply put if these cuts are passed it will not only hurt many, many teachers it will hurt many more children. Please consider what I have said before you finalize your decision about the Smart Start cuts.

Sincerely,

Michelle Jones

Mother of 1 year old Peyton Jones

Re: Proposed Budget Cuts - Eliminate Infant Formula Program in WIC
Date: May 8, 2002

Dear Senators,

We're writing as concerned parents to urge you not to eliminate the Infant Formula Program in WIC, which pays for prescription special formulas for children and adults with high-risk medical diagnoses.

Our son, Jeffrey, is one of these children. When Jeffrey was 10 days old he was diagnosed with PKU, a metabolic disorder requiring a very special low-protein diet for normal neurological development. His body is missing an enzyme, which breaks down one of the amino acids found in all food proteins. We were told that without special formula and special food that Jeffrey's brain would not develop normally and he would become mentally retarded.

Today, Jeffrey is 6 years old and is thriving in Kindergarten. He is learning to read and is doing his 8-year-old brother's math homework. He loves all sports and plays on a soccer team, basketball team, and tee-ball team. He is also a great big brother, letting his 3-year-old sister beat him in "Go Fish". In other words, Jeffrey is a wonderful, kind-hearted, bright, "normal" child. This is a direct result of Jeffrey's special formula and strict diet.

We are so very thankful for the resources that this State has provided for us and other families and ask you to NOT cut these vital funds from your budget. Without these funds, many parents will not be able to afford the \$4,000-\$5,000 a year that it takes to provide their children with their special "milk". The diet itself is very time consuming and expensive. All of Jeffrey's food must be specially ordered or prepared. His fruits and vegetables must be weighed out. His snack food must be counted. We have a large chalkboard hanging in our kitchen, which keeps track of his protein amount during the day. We must be very careful not to exceed the amount his body can handle. If we do, long-term neurological damage can be done, and short-term behavioral issues such as hostility and depression can occur. His bread must be made every few days. His pasta and rice must be ordered and is expensive. One box of low-protein spaghetti costs almost \$7.00.

It is heartbreaking to watch our son hide his lunchbox at school because he doesn't want the other kids to see his food that looks "different". An ice cream or pizza party at school or after a soccer game is great fun for most children, but difficult for our son. Our family knows, however, that it is the only way to assure Jeffrey's good health. We do our best and provide the best foods we can for him. We cannot change the fact that he was born with PKU. He will NOT outgrow this condition. It is a special diet for life. We do not want him to be ashamed of it. However, we can make sure that his opportunities in life

are no different than they would be if he did not have PKU. We can only do this by providing him with his daily formula and special food. If you ask Jeffrey why he has to drink his formula every day he says "So that I can think like everybody else."

We cannot imagine our lives without the Jeffrey we know today. Without the special formula, our son would not be thriving in school or playing with friends in the neighborhood every day. We recognize that many in our PKU community would be unable to provide their children with this expensive formula without the state's help. These children will suffer greatly, and so will our State. Jeffrey is growing up so quickly and we feel certain that he will be a productive member of our society one day. We ask that every child have this opportunity. Please do not deny them the formula they need to succeed.

Thank you for your time and your concern.

Dear Rep. Creech,

This letter is in response to the prospective changes and dismissal of a program that has been an asset to everyone that works in the rewarding field of childcare. When we heard about the recent proposal to cut funds to the daycare portion of our state budget it struck a nerve. As professionals, we all understand budgets and how tight money is at this time. We would just like to let you know how important the TEACH, TIP and WAGES programs are to us. In daycare, it is obvious why you continue to work in this field. It's not for the monetary reward or the fringe benefits that most large companies provide. You do it because you want to make a difference in the life of a child. We certainly do not make the incomes we deserve, but the programs that have been implemented by Smart Start do help balance out the cut in pay. If you cut these programs you will lose many men and women who are unable to pay daycare and insurance without these programs. This will also deter people from joining this field and I am sure you will see a drop in enrollment in Early Childhood Education throughout the state. We appreciate everything we have been given these past few years and hope you will consider continuing these rewards. Please remember the people that care for our most precious resource and investment in this state: our children.

Dear Committee,

I am writing as a parent, grandparent, and teacher with a deep concern over the proposed budget cuts. Our children are the future, and we need to go forward, not take steps backward. It is extremely important to keep funding our Smart Start, and to continue helping our children in Johnston County, and North Carolina.

Thank you,
A concerned parent + teacher

Legislative Office Building, Room 643
16 West Jones St.
Raleigh, North Carolina

Thank you for the opportunity to speak. When faced with untenable choices we all have difficult decisions to make. However making these choices in the best manner possible requires us to balance the costs vs. the benefits, or the gains vs. the risks. When these choices have a human face it is easier to see the balance. I want to introduce my son Daniel, he has PKU, and he has been benefiting from the services of the State of North Carolina. Daniel is graduating senior at UNC-Chapel Hill, dean's list for 4 years, with a 3.9 average in Physics, and is going to graduate school in Physics. He is a productive North Carolina citizen. He has been on the PKU diet his entire life, and benefits from the appropriations of Health and Human Services. What is the alternative choice? Without the special diet Daniel would have been severely mentally retarded. His IQ would probably be ½ what it is today. He would never have had finished high school, he would have been the fine person he has become.

Other children in North Carolina are at equal or greater risk. If appropriations are cut to the weakest of our state's citizens, children who will die without proper treatment, children who will be severely retarded without treatment, or children who physically handicapped, then we set back North Carolina not by just a decade, but by a generation. These diseases are insidious, the effects sometimes take time to show themselves and they are irreversible. Uninformed parents, without the resources to pay the costs themselves will not see the long term harm. We must not fail our next generation, our children, our legacy. If this requires that we, the taxpayers give more, then we, the taxpayers have no choice. If given the choice of saving our future or saving less than the average North Carolina citizen spends on coffee, the choice is obvious. We cannot, we should not, and I pray we do not, makes the cuts in appropriations that will damage a generation of North Carolinians.

Thank You
Dennis Brandl

Thank you for the opportunity to speak about the Private Duty Nursing program which is at risk for severe cuts in funding for the most medically fragile and vulnerable citizens in our state. They have tracheostomies, ventilators and feeding tubes and are totally dependent on licensed professions for survival. Three are with us today: David, Tricia, and my 19 year old son, Ari.

Herein lies the challenge: These three and others have a consuming desire to live at home. How do you determine the viability of living at home while cutting Private Duty Nursing to 10 to 16 hours a day for those 21 years and older.

I submit this for your consideration:

1. Medicaid is not saving money by reducing PDN hours.
 - PDN recipients are maintained at home without repeated hospitalizations or medical complications. One nursing home nurse stated that out of her 12 patients, at least six of them averaged a month per year in the hospital, each of them costing about \$100,000. On the other hand, Ari, David and Tricia have remained at home for years. It costs several thousand dollars a day in the hospital compared to several hundred dollars a day at home. In the long run, it can cost far more for a patient in a nursing home with hospitalizations than for even the most costly PDN case in the home.
2. Transitioning an adult private duty nursing client from home to a skilled nursing facility could be tragic.
 - How difficult it would be for the technologically dependent child's destination to be in a nursing home at age 21.
 - Clients and families on PDN have chosen to remain at home in the least restrictive environment with the Olmstead and ADA decisions supporting these rights.
 - Generally, there are only 5 skilled nursing facilities in N. Carolina with a total of 110 ventilator beds, 105 occupied, and 5 beds available. The nurse to patient ratio varies from 1 nurse to 4 patients up to 1 to 25 patients which can lead to inadequate care such as frequent infections and bed sores. Tricia has had only one bed sore in 20 years. And, each facility has different qualifications for eligibility, some accepting or not accepting those with antibiotic bacterial resistant organisms, obesity, and special wound care treatments. The vent unit in Charlotte that I visited last summer has since closed.
3. There shouldn't be a set rule for PDN hours because each case varies and is complex.
 - Many caregivers are single parents who work fulltime. The proposed cuts would mean doing 56-98 hours a week on my son's care. I would have to quit work and go on welfare, but I still would lose the choice to keep him at home, because no one person can do that many intense hours 365 days a year.

My recommendations:

- As a concerned citizen of this state, I hope that all of you have the courage to protect those who are our most vulnerable citizens. If that means raising taxes on tobacco, wine, beer, or closing tax loopholes, at least you know the priorities for life itself come first.
- Please do not cut PDN hours for our most vulnerable citizens.

Thank you for your time.

Respectfully,

Stephanie G. Anderson

Yolanda has given you a good picture of some of the things the Adolescent Parenting Program does to help teen mothers. I have had the privilege of working with teen mothers for the past eight years in Johnston County. When we first began our program in 1994, Johnston County had as many as 300 to 330 new teen mothers every year with 40% of these teen moms getting pregnant the second time before high school graduation and 60% dropping out of high school.

We now work with 70 to 80 teens every year, forming support groups in every high school and middle school when needed. We help them stay in school by working with teachers in attendance and make-up work. We help the girls with Day Care costs, employment, medical care for both the mom and the baby, graduation, college entrance, family problems, transportation for babies to go to Day Care and moms to go to school. We teach parenting also to the girls to help reduce child abuse and neglect. In essence we do whatever it takes to get them through high school. We run beside them and encourage them and we open doors they cannot open for themselves.

As a primary prevention piece we also form speaking panels that go to every middle school in the county and speak against teen pregnancy. The girls share the realities and heartaches of teen parenting and give an abstinence message.

It is a true support program and one that works. We have served some 400 girls in the last eight years, seeing 145 graduate with one half of these graduates entering college. Over the years we have had an average of 9% dropouts and a 4% second pregnancy rate.

Consider the facts. If we did not have the Adolescent Parenting Program, tax payers would see an increase in second pregnancy costs and high schools dropouts. Medicaid costs would rise; more teens and their babies would enter the child services system, causing the state to pay exorbitant prices for foster care, attorney fees, court costs, etc. Teens would be receiving the Work First checks where now teen mothers are encouraged to go to school and get a part time job leaving Work First for a last resort. In summary money that is saved by not having the APP program would be spent in other areas of service that would increase due to the absence of APP.

I realize your task is a difficult one, but I urge you to consider the repercussions of cutting APP.

Sincerely,

Ann Arant
Johnston Co. APP Coordinator

Testimony to Joint Appropriations Committee
May 9, 2002

Good morning, my name is Larry Johnson and I am the Director of Social Services in Rockingham County, as well as the Vice-president of the North Carolina Association of County Directors of Social Services. I am here today to speak to you regarding the proposed cuts in the DSS budget, and hopefully help you understand the dilemma faced by our county. Rockingham County is a medium-sized county and is very much a typical North Carolina county. We have lost over 5,000 jobs in the past 7 years and currently have an unemployment rate of over 8%. Our overall growth has been flat, and we are experiencing very difficult times. Our DSS has been called upon to provide interim assistance to many people who never dreamed that they would find themselves in our lobby, and I feel that we have done a very good job of responding to the need. I am very concerned that if the budget cuts that are on the table today are implemented that my ability to respond to the needs of my community will be severely threatened. Rockingham County has been under a job freeze for about 15 months as response to the Governor's withholding of funds first in 2001, and again in 2002. We have not been able to hire additional staff to deal with the 20% increase in our caseloads, and have pushed our existing staff to high levels of stress and beyond normal workloads. Our Medicaid costs have sapped our county budget of any excess revenue and we have cut our DSS budget to the "bone". Now, we are being threatened with a new round of reductions that will have a disastrous effect

on our ability to provide core , legally mandated services. The partnership between the state and our county programs has been eroded, and these proposed reductions will remove the only flexible funding sources in our county budgets. The money that is on the table today is money that is used to put social workers in the field, pay for clerical support that enables them to get their paperwork done on time and meet fiscal reporting mandates, and pay the bills to operate our agencies. We are mandated to provide 24 hour, 7 days per week service and we are doing this in a very effective manner . Please do not enact these cuts which will further restrict our ability to serve the most vulnerable citizens in Rockingham County. Please find new sources of revenue in order to enhance our efforts, not restrict or eliminate them. Thank you.

To the Legislative Committee,

On behalf of the Old Fort Family Resource Center, I respectfully request your consideration of the dramatic impact funding cuts will play on our community. As a transplant from a major California city to a small, rural town in WNC, with an economic base from small business, textile & furniture, I know from personal experience the value of the FRC in our community. Parents like myself, who work hard for a living, are able to afford quality preschool because of the sliding scale offered. My child is kindergarten ready both socially & developmentally. I have such respect for the staff & concepts, I volunteered to serve on the FRC Advisory Board!

The FRC not only offers families a safe, non-threatening alternative when they face obstacles & challenges at home, they continually empower parents through GED, Parenting & nutrition classes. Mobile medical screenings are made accessible to all rural end of the county as well.

My school age child has benefited from the Adventure Camps for the past 2 years. My entire family of six has gained valuable support through parent & family support opportunities like FAST. (Families And Schools Together). Over 30 families (2 parent, single moms & dads, grandparent, bi-racial) have graduated in 3 cycles. Our group is the largest in the state. The FRC has provided training, networking assistance & use of facilities, enabling us to build a strong, effective parent involvement group. We have had 2 benefits to raise

money to meet medical needs of children in our community.
Currently we are meeting with the Parks & Recreation Director
on ways to provide a park in our community. The nearest
one is 20 miles away.

I myself started as a Parent partner on the 1st FAST
Team & am now a Certified Trainer for other
Communities across the state. I would probably never
had the opportunity to help other families if the
confidence to do it, if not for the supportive staff at
the FLC.

I know it sounds cliché, but the FLC is not a hand
"out" but a hand "up". Our community is rural & very
head-walking. The staff of the FLC continually
strives to bring services & opportunities that allow
families to work together to build stronger, brighter
futures for our children.

May 8, 2002

Dear Representative Creech:

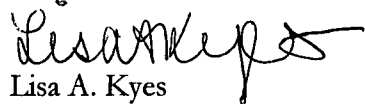

I am writing to you today to express my deep distress over the proposed Smart Start budget cuts. As both a parent and a childcare provider, the benefits offered by Smart Start funds are indescribable. My child has benefited from Smart Start programs in that her childcare environment has been secure and stable as teachers have made the commitment to remain in one place for a long period of time. The WAGE\$ and TEACH programs have awarded childcare providers the opportunity to further their education, thereby increasing their abilities to provide quality care to my own as well as hundreds of other children.

Johnston County is the fastest growing county in the state yet we are currently being funded at a pitiful 28% of our need. The star rated license system has attempted to raise the bar for childcare in North Carolina however, if these budget cuts are passed, the level of quality care afforded to our state's children will decrease dramatically. Can we really justify beginning totally new programs such as More At Four when we already know and see how quality early childcare impacts our children? I think not. While there are programs such as the Literacy and Science Enrichment programs and the Mobile Dental Clinic which I feel could be cut, the WAGE\$ and TEACH programs as well as Johnston County's Teacher Incentive Program are paramount to the continuation of high quality care.

I strongly believe that although the elimination of the literacy, science and dental and medical programs will impact many children, the impact of losing the very teachers we are investing in through the WAGE\$ and TEACH programs would have a devastating impact on thousands of our state's children, my own included. It simply does not make any sense to put programs like TEACH and WAGE\$ in place only to take them away before the true benefit to our state can be measured. Beginning new programs rather than continuing existing ones will set our state back years and will prove detrimental to the development of the children 0-5 in our state. These first five years are unquestionably the most important in the development of productive citizens and the fact that our government is actually considering the elimination of some of these programs is abhorrent to me, both as a parent and an educator.

There has to be another way to raise the revenue in our state without decreasing the budgets to these programs. Tax increases, federal funding and other state resources need to be investigated and initiated before a decision is made which will do nothing more than make the statement that North Carolina does not care about its young children. We have made so many improvements and taken so many steps forward. Can we afford to take such a huge step back at the expense of our youth? Please reconsider the proposed cuts and take a stand for our kids. Our future as well as theirs depends on it.

Respectfully submitted,

Lisa A. Kyes

Mother of 3 year old Casey

Director, Building Blocks Child Care and Development Center

May 8, 2002

Dear Representative Creech,

As a teacher I feel the funding of these programs have benefited me because I have been able to go back to college to earn my degree in Early Childhood.

When I began working with children in childcare in 1999 there was a lot I did not know about childcare! However, I was approached by my employer about furthering my education. ~~Finally~~ Just when I thought I ~~was~~ was getting too old to go back to school I was getting a second chance at going back to college. There was no way I was going to pass this up! In January of 2002 I began my education again, ~~and~~ ~~tomorrow~~ and tomorrow night (May 9, 2002) at 8pm I will graduate with a degree in Early Childhood.

If it ~~was~~ not for the TEACH scholarship, the wages and Smart Start funds I would not have been able to go to college and ~~pay my bills~~ ^{and work!} ~~There are so many fellow teachers who depend on these funds for so much more than myself.~~ I am writing on behalf of so many ^{fellow teachers} ~~as well as~~ myself. They depend on these funds for so much more than myself. I have spent countless hours away from my family and my friends. I have missed time away with the children that I work with, but

it has been so worthwhile!

If these funds are eliminated or cut so many who have begun their journey to a college degree will not have the chance that I have had. They will ~~not~~ gain the knowledge or be able to use those resources that have been available to me. These teachers should have the opportunity to do what they love and that is teach.

On the news and in the media we all hear about, "... a better education for our children." This seems to be what everyone wants. In child care centers, home centers and in day cares is where this education begins. Our teachers need the knowledge and ~~the~~ resources must be available to ~~to~~ teach these children a curriculum that will adequately prepare them for kindergarten.

The center I work in accepts infants 6 weeks to children who are in the 5th grade. It has been proven that when a baby is first born it knows its mother's voice. A child's education begins in infancy. Do you want teachers who are uneducated, teachers who have limited resources and teachers who are overwhelmed about their everyday situations educating your children or grandchildren? I certainly do not! I want a teacher who is sure

about who ~~he~~ he/she is, where he/she is going,
and I want a teacher who can help my child
to be the very best he/she can be!

~~It has been~~ ^{It has been} estimated that in one week's time
your child spends more time in a child care center
than in their own home. Why you would want
to cut ~~or~~ eliminate these resources that are
available to your child and your child's teacher
is beyond me! ~~Thank~~

~~Thank you for~~

Thank you for your time,

Donna M. Eason

**PRESENTATION FOR JOINT APPROPRIATIONS
COMMITTEE
MAY 9, 2002**

Good morning. My name is Frank Crawford and I am the Director of YHI, a State licensed non profit agency in Charlotte serving at risk children and families.

Two years ago, YH partnered with the Mecklenburg County DSS to provide Intensive In home Services for families who were at risk of having their children placed in foster care. \$1.8 million in Federal TANF funds were awarded to NC to serve high risk and predominantly low income families. YH operates ONE of these ten TANF funded programs.

This Committee has recommended that these ten programs be eliminated and that the \$1.8 million in TANF funding be redirected within DHHS's budget. I am calling on you to reconsider that recommendation for the following reasons:

1. THESE FUNDS ARE 100% FEDERAL FUNDS AND REQUIRE NO STATE MATCH;
2. THE SUCCESS RATES ARE PHENOMINAL: Last fiscal year, there were 203 families with 576 children who were served by these 10 programs. 94% of those children were kept out of foster care.
3. FAMILY PRESERVATION PROGRAMS ARE COST EFFECTIVE: These 10 TANF funded programs cost \$1.8 million. To care for 541 children annually

in foster care would be \$4.7 million....a savings of almost \$3 million per year.

4. MORE CHILDREN WILL ENTER THE FOSTER CARE SYSTEM, STAY LONGER, AND NC WILL HAVE

FINANCIAL PENALTIES: The Federal government will financially penalize states who don't create permanency quickly for children in foster care. If you remove prevention programs like this, AND remove adoption assistance as well, more children will come into care and stay longer. The Feds will next review NC's compliance in September of 2003, at which time you can expect huge financial penalties.

5. THESE PROGRAMS HAVE REDUCED THE NUMBERS

OF CHILDREN IN FOSTER CARE IN NC: One year

after these 10 TANF funded programs have been operating, the total number of children in foster care in NC has been reduced....below the 10,000 mark. This has saved hundreds of thousands of state dollars.

However, the MOST compelling reason why these services should be funded is that it keeps families together. Please meet The Kelly Family, Walter, Bernadette and their 6 children. They were one of the first families to receive services in our program almost two years ago.

This family was in serious crisis when we first met them. There were a host of issues including how to

discipline their children, family violence and other issues which needed attention. What ELSE we found was a family that **wanted to get better....**

This family completed our program and today, almost two years later, they remain in tact and functioning as a family.....AND.... the public child welfare system is not raising their children.

I have asked Mr. Kelly to say a few words to you.....

Please reconsider and put these IFPS TANF funded programs to preserve families BACK into the budget.....and find a way to use these funds for their

intended and best use....which is BUILDING BETTER
COMMUNITIES....ONE FAMILY AT A TIME

**First In Families of NC
Vice President
Robin Horrell**

Dear General Assembly Members,

My name is Robin Horrell. I am the Vice President of First in Families of NC. I am here to ask that you look into other sources of revenue for our state such as a beer and wine tax, cigarette tax, lottery or working together to request more federal assistance for North Carolina. Please do not take from the most vulnerable of our State. People with disabilities and their families have been in crisis for years now with budget cuts "We can stand no more". I am here to tell you a little about a Community Support that you may be looking at cutting. First in Families of NC is a set of 9 projects throughout our state that offers direct support to people with developmental disabilities and their families. It also is in line with everything that our new State Plan stands for and is based on. Such as stretching state dollars by leveraging those dollars in the community. Which not only teaches the community to support people with disabilities and their families but also helps these people to be able to stay and participate in their communities instead of in our state facilities. First in Families offers direct support to families and self advocates that is more flexible in the way they say they need it. It was developed and is run by people with disabilities and their families. There is nothing else in our state that is truly like this. First In Families is in the new State Plan and in the HSRI report that we have been looking at to help make these changes in our state. It is a cost savings because of the leveraging of dollars that is the heart of what we do. I sit on one of the sub committees that is looking at ways to support those that with the new waiver and state plan will lose their services. It is called the Generic Services and Natural Supports Committee. This committee is looking at finding projects like First in Families that will help these people in the community so that they will not have to become the target population talked about in our state plan. When hearing what First in Families is already doing in our state they were amazed at how far ahead we are in this whole process. Please do not cut us short now when we can help in teaching our state what Natural Supports are truly about, because that is what we do best. Thank you.

**First In Families of NC
Vice President,
Robin Horrell**

May 8, 2002

To: Members of the Joint Appropriations Health and Human Services
Subcommittee

From: AARP North Carolina Advocacy Council

Subject: Health and Wellness Trust Fund

On behalf of our 931,000 members in North Carolina, we write to you concerning the Health and Wellness Trust Fund. We urge you to reject any proposals to divert current or future funds because of the state budget problems.

We are especially concerned about the future of the Prescription Drug Assistance Program that has been developed by the Health and Wellness Trust Fund Commission. This program will provide critical assistance for low income elderly persons who do not have any other form of drug coverage.

We urge you to look for other sources of revenue to balance the state's budget and allow this important program to be fully funded for three years, as was promised last December when the program was approved.

For further information on AARP's position on this issue, please contact Helen Savage, AARP NC Advocacy Representative, 919/508-0262.

Debra K. King
Executive Director

Good morning. I am Debra King, Executive Director of CASA. CASA is a nonprofit housing development and management company that houses people with disabilities. In our 10-year history, we have secured over 14 million dollars for housing and supportive services for people with disabilities. Much of that is federal dollars that were awarded in a competitive grant process.

I serve on the Governor's Housing Coordination and Policy Council and also am a member of the Interagency Council for the Coordination of Homeless Programs. I am here today to plead the cause of those with mental illness, developmental disabilities and substance abuse issues.

I know that these are tight budget times and I know that the choices you are forced to make are not easy. I am here because I am deeply concerned about the cost of our decisions. And perhaps more importantly, about the cost of our indecision.

The Department of Health and Human Resources is actively engaging in mental health reform. They have been charged to "do it better." And last year, I was encouraged when the Mental Health Trust Fund was created. Today, I believe these last round of budget balancing recommendations, nearly depletes it.

The Olmstead decision by the U S Supreme Court says that people have to be served in the least restrictive environment and that it is not appropriate to continue to hospitalize people because there is no place for them back in their communities. We KNOW that in the long run, it is more cost effective to serve people in their community. But community services have to be in place in order to effectively move people from the hospital.

I am so fearful that our state will do nothing to prepare – and that once again, we will be faced with a class action lawsuit. We have only to look at Thomas S and Willie M to see that history. And when the court gets involved, sometimes the mandated services over-reach and the service delivery cost are much greater than what it would have initially been. And that says nothing of the legal costs associated with such a suit. And it says nothing about the moral cost of requiring legal action to do the right thing.

I was born here in North Carolina, grew up on a farm in Duplin County. My grandfather used to tell me that you have to constantly look up as you are cutting in your rows in the field. Otherwise, you will wind up with crooked rows. So I am here to ask you to look up – try to look into the future so that these tough decisions are made with the best information available and that the cuts are made with the long term in mind.

If you would like information on the overall cost savings of community-based services, please contact me at 754-9960 ext. 8.

Community Alternatives for Supportive Abodes

Regarding the Issue of Elimination of the Infant Formula Program in WIC

This issue concerns my family and I on a very personal level. My son Nicholas was diagnosed with PKU (Phenylketoneurea) at 1 week of age. He is now 6 months old and is developing like any normal child would as a result of the early detection of his condition, and the ability for us to have recieved his special metabolic formula. This formula IS EXTREMELY EXPENSIVE, \$60 a can. This may last some families 1 week or even just a few days. Diet is considered the sole treatment for this condition. The treatment may seem quite costly, but the outcome of this metabolic disorder, would require far greater funds to care for severely retarded individuals from childhood on through adulthood. With the simple remedy of special formula, provided to families, it would ensure the outcome of healthy and normal children.

These are difficult times for everyone, many families have been affected already, economically, as a result of our economy and it is a crime to make it a financial burden to simply feed your baby or child a formula that is absolutely a necessity for the brain development of him/her. If any of you have children, imagine the extreme hardship of having to actually worry about how you are going to be able to afford feeding your child. This is not a formula that you can purchase at any local store, and it is not a formula in which you have many brands to choose from. It is only manufactured by one company. This is by no means a luxury for families of PKU children, to have had state provisions of their children's food. It is a necessity for the development of mentally stable and viable citizens of this state and of this country.

It is a fact that PKU is a very rare genetic disorder. I ask everyone "Does this constitute that treatment be denied by the state?" Please reconsider the elimination of funds to this program. This will be a decision that could weigh quite heavy on the conscience. Thank you for your time.

Sandra S. Daniels

STOP! STOP! STOP! STOP! STOP! STOP!

DON'T CUT THE PROGRAMS THAT SUPPORT
YOUNG CHILDREN, THEIR FAMILIES, AND THEIR
TEACHERS!

DON'T CUT SMART START AND TEACH

Over 10 years ago, I came to my current child care program, Community School for People Under Six. At that time, it was not a good place for children. At that point, the center was:

- AA licensed by the state
- Had 1 teacher in school under TEACH
- Had a 50% turnover rate, with 2 teachers needing to be hired at that point due to violations

Look what a difference Smart Start and TEACH have made for Community School for People Under Six in Chapel Hill as of 2002.

- Nationally Accredited Program under NAEYC for 8 years
- 5-star licensed by the state as of August 2000 (*Received 14 out of 15 pts*)
- 5-star re-licensed by the state as of December 2001, when we added school-age care
- 11 Teachers are in school working on a Bachelors degree (1), Associate degree (4), Early Childhood Certificates (2) completing the NC Early Child Care Credential to meet minimum requirements (2), and continuing their education with early childhood coursework (2).
- Less than 15% turnover rate

Our school serves 78% subsidized families receiving support through Department of Social Services, Child Care Services Association (Smart Start), and Child Care Network., and 22% private pay families.

Our families are proud of the accomplishments of Community School and have their children enrolled at the center now because Community School for People Under Six is a "good choice for child care". We have become one of the best child care programs in Chapel Hill, and we strive everyday to provide high quality child care services for our children and their families and to meet the educational needs of our teachers to assure that they are able to positively interact and provide developmentally appropriate activities for children daily.

Page 2

By cutting Smart Start and TEACH, you are risking the programs that have been available to promote quality care for children, and that have supported the education of teachers. How will teachers pay for their education. They have worked so hard to move forward as a professional. This is a cost that child care centers cannot bare, nor teachers.

We have put one of the best plans in place for improving child care in North Carolina, and now you want to cut back. We have gained national recognition for TEACH because it is such a wonderful program, but you want to cut it. North Carolina has become a role model on how to improve quality child care and education of teachers, but now your setting a bad example by cutting these programs.

**Comments by Kiki Dunton, NCPIRG Staff Attorney
Testimony to Department of Health and Human Services
Joint Appropriations Subcommittee
May 9, 2002**

My name is Kiki Dunton and I am the staff attorney for NCPIRG, the North Carolina Public Interest Research Group, a non-profit, non-partisan, public interest watchdog organization. Thank you for allowing me to speak today. While we, like everyone here today, are concerned about the cuts being made to important programs within DHHS, we want to urge you to look at methods of saving money beyond simply cutting programs.

Specifically, we ask you to look at the cost of prescription drugs purchased by several divisions within DHHS. In 2000, national prescription drug expenditures rose 18.8% and here in NC, Medicaid pharmaceutical expenditures rose even higher at rate of over 20%. Currently, there are more than 35 states considering different methods of saving money on prescription drug expenditures and we urge NC, and specifically this subcommittee, to look seriously at two of these methods.

First is an intrastate multi-agency purchasing pool. Implemented in states such as Texas, Georgia and Massachusetts, this would combine all pharmaceutical purchasing for departments and agencies that purchase pharmaceuticals, such as the divisions of public health and mental health, the department of corrections, and the state employees health plan. By aggregating purchasing from multiple state programs, the state would be able to demand greater price reductions from manufacturers. Texas expects approximately \$13 million in cost savings for the first two years.

Alternatively, NC could choose to participate in a prescription drug purchasing pool with other states. Representatives from NC participated in initial talks with the Southern States Coalition Pharmacy Working Group, organized by WV. Although we dropped out of discussions, the coalition recently hired a Prescription Benefits manager and we could still choose to participate.

The second method of saving money on prescription drug purchasing relates solely to Medicaid prescriptions. As you well know, the state recently decided to require prior authorization for certain drugs prescribed to NC Medicaid patients. We urge the state to go one step further and using a preferred drug list with prior authorization, negotiate directly with the drug companies to obtain additional rebates. NC would continue to participate in the federal Medicaid Drug Rebate Program and this would allow the state to simply receive a supplemental rebate from manufacturers. Florida recently initiated this program and expects to save approximately \$214 million per year.

While there are no easy solutions for our current budget crisis, NCPIRG believes that the options for saving money on prescription drugs are straightforward and would be of benefit to all North Carolinians. We urge this subcommittee to begin discussions on implementing these money saving programs and look forward to speaking with each of you about this in the near future.

Members of the HHS Joint Appropriations Subcommittee,

Residential Support Services of Wake County, Inc. is a private non profit agency providing support to adults with developmental disabilities. I have had the honor of serving as Executive Director since 1981. During this time I have witnessed many successful individuals and families who benefited from the support we provide. It is such a wise use of our tax dollars to fund programs where individuals may find qualified staff to support and advocate for their personal growth toward independence. The meshing of financial support with qualified trained staff with the natural gifts, talents and drive found in those we serve is not a tax burden. It is an investment for all of us. Many of those we serve are working in competitive markets and are contributing to society. They are productive consumers. They volunteer in their communities and have circles of friends who value them as the people they are. Their lives have been so enriched because of the support they receive. It has been said that a society can be judged by the way it treats those having the greatest needs. Thanks to wise decision makers who have provided funding to those having the need for continued support many have benefited. Funding should be increased so that such services are made available to more individuals, especially those who are receiving excellent public school education preparing to enter the community as a contributing citizen. I urge you to take every measure to increase tax support so that our services may be expanded. Please do not cut human services budgets. As a private citizen I prefer some increase in taxes rather than forcing more people into the streets homeless, jobless, and hopeless. In closing, I commend you for your service and pray for wisdom and conscience to establish the right pathway.

Rick Chappell, Executive Director
Residential Support Services of Wake County, Inc.
3820 Merton Drive, Suite 110
Raleigh, N. C. 27609

787-1214

North Carolina Association

of Community Based

My name is Curtis Bass. I am the president of the North Carolina Association of Community-Based ICF/MR Providers. I am also executive director of Autism Services, Inc. But today I am here on behalf of the 45 individuals who depend on my agency for their care 24 hours a day, 365 days a year. I am here today to ask you to spare programs for people with disabilities as you consider budget cuts. It seems that each time there is a budget problem, these are the first programs to go on the chopping block. Unfortunately, without lobbyists, spin doctors and public clout, people with disabilities are easy targets - they are silent victims.

Others who are speaking today will give you numbers and facts. They will tell you of the irreparable damage drastic cuts will have on the lives of wholly dependent people. I urge you to listen carefully to them. As you listen with your head, I also ask you to listen with your heart. This is not about lobbying and power lunches and suits. It's about a little girl who can't get needed treatment because her parents can't afford insurance. It's about the grandmother who has to choose between her heart medication or groceries. It's about elderly parents who can't keep their handicapped son at home without support. It's about the parents who bless the day they found a quality group home for their daughter and now hear it may be closing due to budget cuts. These are the real lives that your actions today will touch.

In presenting reduction options to the committee, Ms. Hooker Odom said that the scope of the cuts would cause catastrophic damage to mental health services in North Carolina from which it would take years to recover. That's most eloquently put. North Carolina is at a crossroads today. The path we take is up to you. I just ask that you remember North Carolina's most vulnerable citizens - the silent victims - as you make your decisions.

GOOD MORNING My name is Jean Reaves, I am here today as the President of the North Carolina Coalition on Aging. We are a statewide coalition of organizations committed to improving the quality of life for older adults. I stand before you, one person, but please realize that I represent 37 member organizations whose combined membership represents millions of voting North Carolinians.

Let me briefly look at some of what we have been told you are considering depleting and show you some of the probable results:

- cut Medicaid for older people and people with disabilities, up to federal We are all very much aware of the budget crisis that our great state has found itself poverty level—this action will set back the progress we made many years ago.
- cut home health aides for people with disabilities—where is our commitment to the Olmstead Act and not forcing people into institutionalization against their will.
- cut State Adult Day Care Fund by \$700,000—adult day services are some of the most comprehensive services available to the frail and disabled and their family caregivers. Loss of these services will mean family members leaving jobs to try to care for loved ones at home; forcing decisions for premature placement and with the loss of home health aids there will not be any relief for family caregivers and the potential for Protective Services supports will skyrocket.
- reduction of \$300,000 of Elder Rights dollars will only put us back to funding levels of at least a decade ago, but with other reduction already identified the need for higher costs nursing and residential beds will drastically increase.
- last and certainly not least we remind you of the promise made via the Health and Wellness Trust Fund. We beg you to find the strength and to use your years of wisdom to realize that meeting your promise will allow the state to invest in wellness and address many of these out of control cost with long range responsible solutions.

Rather than looking at cutting services we would like to suggest that you look at raising revenues through:

- a serious review of tax loopholes for corporations and/or raise corporate taxes
- consider a tax increase targeted at those citizens of the highest income levels
- look to our NC Federal delegation to insist on Federal assistance—we are aware of present legislation that would add an increase of 1.5% to the

Federal share of Medicaid and a possible additional 1.5% increase for states with soaring unemployment rates. What other Federal sources could be available to us??

- finally what “reserve pots of money” are available within our state that we could at least borrow resources from.

We realize that there are no easy solutions but we strongly urge you not to decrease services to the frail and vulnerable but rather to look at responsible ways to increase revenues.

TO: The Honorable Bill Martin, Senator
FROM: Communities In Schools of Cleveland County
DATE: May 9, 2002

Thank you for the opportunity to share with you and your colleagues the value and success of the programs supported by funds from the State of North Carolina, Department of Health and Human Services.

Over the past six months, Cleveland County has had the unfortunate distinction of attaining the highest rate in the State of North Carolina for reported instances of child abuse and neglect and the highest in a local nine county area for teen pregnancy. The economy in Cleveland County which is based in textiles, has now resulted in the highest rate of unemployment in North Carolina, at 12.7 (down from a high of 13.9%). We appreciate the difficult position of the legislature and of the Honorable Mike Easley in making financial decisions that will impact each North Carolinian. However, the problems mentioned are only a few that are faced in Cleveland County as well as other counties across the state. Each of these problems are interrelated and are no less a "crisis" for our children and families than the Hurricane Floyd natural disaster. Each of us share in the responsibility to ensure that all that can be done is being done to reverse these escalating statistics.

In communities like Township Three, where the elementary school serves as a link and a lifeline, the major employer, KoSa, has cut the workforce by two thirds. KoSa (formerly Hoechst Celanese) has been a strong supporter of Township Three Elementary when their economic condition was strong. At this Family Resource Center, 473 families have participated in job skill / parenting workshops, 12 parents have taken leadership roles on the site level management team (alongside school and agency representatives). Six Parents have also stepped forward in leadership roles in planning community events. This is a direct result of the availability and support provided through the Family Resource Center. This center has also served 276 students through one-on-one academic support and enrichment opportunities including Great leaps reading tutors.

This grant is particularly unique to our program, in that we have the latitude to address some of the systemic needs of our clients, which in turn increases the opportunity for the success of students. For example, in addition to regular skill building workshops, which take place at this site, we have implemented a FAST project this year. This project, Families And Students Together, provides intensive support services to families with the greatest needs. Through partnerships with the local Department of Social Services, Health Department and others, families gain skills and knowledge valuable in improving their skills as a parent, and in gaining and maintaining employment.

As a part of the program at Township Three, the students have been successful in planning and implementing parent nights. These events occur during each quarter throughout the school year, and are used to showcase for their parents, projects students have completed and skills they have attained. The students not only display completed projects, they also teach skills learned through participation in the after-school program

to their parents. For example, if they have learned a new computer skill, there may be an opportunity to offer a “mini” computer class where the students teach their parents. Each of the events is planned by the students and they attend to the details, such as invitations and refreshments. The attendance at these events has been exceptional, with over 70 parents participating in each event. This summer, we are partnering with the Job Development Task Force to offer a job fair for parents and others in the community. Industry, Economic Development Commission, the Chamber of Commerce and the Department of Social Services will all take an active role in helping the students plan and host this event with on-line employment applications available for the students to assist adults from the community in completing . Information will be available for adults, from each industry/agency, with students taking the lead role in introducing the information to their parents and others from the community.

CIS is also the recipient of funds from the Cleveland County Partnership for Children – Smart Start –, which supports our Parents As Teachers pre-school project. These funds support 11 Parent Educators, working with over 450 families, of which 38 are teen parents, and a Hispanic Parent Educator serves 56 families. Of the 450 families, over 75% are living at or below the poverty level. The services provided include monthly home visits that include parent literacy and addressing health care and child development issues.

In the past year, we have received an 18% reduction in funds from the Partnership for Children, which resulted in the loss of two positions; a 12% reduction in funds from local government due to local budget constraints, linked to both the budget crisis at the state level and the effects of our local economy. Our capital campaign raised 50% less this year due to the impact of the crisis in the textile industry. And we received an 8% reduction of funds through our local United Way. In the first six months of last year, Cleveland County lost over 1,600 jobs. Through these reductions we were able to ensure that no services were cut for children and families that need them.

Through each of these reductions, we have worked diligently to search for other avenues of support and ways to continue services to the children and families who so desperately need them. We sincerely and earnestly request that you reconsider the impact the removal of support from programs such as the Family Resource Center at Township Three would have, because these much needed programs would go away at a time when other resources have been reduced or removed from citizens in our community, and the need is at it's greatest.

FACTS ABOUT COMMUNITIES IN SCHOOLS 2000 - 2001 OPERATING YEAR

Received \$1,123,021 from 253 Different Sources

*Received Contributions from 131 Individuals, 68 Businesses, and 16 Industries
Received Financial Support from 4 Foundations*

*Recruited 722 Volunteers Who Donated 9,388 Hours of Time Valued at
\$15.00 Per Hour For a Value of \$140,790*

Obtained \$13,893 in Donated Goods

*Served 448 preschool children and families in the Parents As Teachers program
349 Elementary Students in BEST After-School Homework Programs
Plus 643 Middle School Students in CHAMPS After-School and Summer Program*

*Provided Support services for 4,046 students through Great Leaps Reading Tutors;
Math SuperStar Program; Denver II screenings; ECG Test Busters;
Service Learning Projects; and
Student Led Parent / Teacher conferences*

*Ten CIS sites serving students:
85.7% Improved Attendance
94.2% Increased EOG test scores
94.5% Promoted*

*Recruited "School Tools" (school supplies) which were distributed to
Over 600 Elementary and Middle School Students in Cleveland County*

Provided Clothing for 186 Elementary Age Children

Arranged for Dental Care for 156 Children

Organized 81 Workshops that were attended by 926 Parents

Made 2614 Home Visits

Over 7,500 contact hours with Parents

Supplied 183 Families with Food

Collaborated with Other Agencies 657 Times

ADAM SEARING

Project Director, NCHAC

Chair, Covenant with North Carolina's Children

I. Every person in North Carolina can agree on some basic values:

- Everyone should be able to afford quality health care.
- No child should ever be abused
- Our senior citizens deserve our utmost respect and care

II. The cuts to basic services happening right now and the cuts now before you strike at the heart of our North Carolina values.

- Taking dental care away from children.
- Slashing programs that strengthen families + prevent abuse.
- Cutting help for our most vulnerable elderly to stay at home.

III. Do not make these cuts - preserve our values.

You have other options:

- Raise taxes
- Use other existing revenue sources
- Close tax loopholes like the 100 mill. bank tax loophole
- Reexamine tax breaks given in the 1990s.
- Federal assistance

Good morning. I'm Elaine Russell, the Health Director for the Cherokee County Health Department in Murphy. Today I represent the perspective and experience of the rural, Far West Health Departments.

Budget cuts are a reality in this crisis for every public agency. Public Health will have to deal with cuts from the State level and the local level. We don't have a choice at this point.

However, certain choices do remain on the table at this point. As legislators, you can choose your points of financial support for the poor and indigent. Choose to support services that reduce the dependence of our poor on emergency rooms and urgent care centers.

Choose to support Medicaid adult dentistry for two specific situations: pregnancy and emergency tooth extractions. Decay, pain, swelling and infection in the mouth of a pregnant woman are a clear sign of periodontal disease. It is a condition that accounts for 18% of premature births according to research released from UNC – Chapel Hill earlier this year. We all know the costs of premature births and know it is a cost worth avoiding if at all possible.

The extraction of a decayed abscessed tooth for an adult can be a life saving intervention. The presence of such infected tissue in the mouth, if left unresolved, will spread to the soft tissues of the face, heart, lungs, and further complicate the management of diabetes if it is present.

Emergency rooms can only provide drugs to manage the pain and infection of abscess and decay. Physicians cannot legally extract teeth. The private dentists do not serve the poor and indigent in their practices. The ONLY home in which to SOLVE these two situations is the dental practice run by the local Health Department.

However, Local Public Health can not continue to solve these two problems unless, as Legislators you choose to support Medicaid funding for pregnant women and emergency tooth extractions.

An even greater choice before you is the rate of Medicaid reimbursement for Public Health services. As Legislators, should you lower our reimbursements to those of private practice or maintain our current level of reimbursement? Ask yourself, “Do Public Health Departments and private medical practices operate under the same business principals?”

The Business Principals of Private Practice

1. The Private Practice sets its caseload based on desired profit
2. The Private Practice sets their own rules for declining service
3. The Private Practice sets its own scope of service

The Business Principals of Public Health

1. Public Health sets caseload based on Division of Public Health mandate
2. Public Health can not decline service to any client
3. Public Health scope of service is mandated by NCGS

Public Health is the medical home of the poor, the indigent, the unwanted, the undesirable, the profoundly complicated, and non-English speaking. These are not the adjectives one would choose to describe most private practice clientele.

The poor and indigent have been with society since time immemorial. Their presence shall never cease, nor will their need for medical care. For less than 1% of the overall Medicaid budget, the Legislature has chosen, until now, to support the work of public health in serving this very difficult population. And together we have developed a series of Health Department services that have decreased emergency room utilization, improved pregnancy outcomes, decreased childhood fatalities, responded to unmet dental needs, and improved the use of birth control, to name but a few.

Without our work in public health, who will serve these clients? Will they deliver the same work for less than 1% of the Medicaid budget? Will they be willing to accept the “Business Principals” under which Public Health has graciously operated for many, many years?

Local Public Health cannot continue to provide the current grocery list of services, under the current "Business Principals", unless as Legislators you remain committed to maintaining our current Medicaid reimbursement levels.

Contemplate your decisions carefully on the dental and reimbursement issues. No practice, agency or system will deliver these services as cheaply as Local Public Health. The Public Health System we have built with your help will be gutted by what has been proposed to you. Reconstruction of the system would take years. On behalf of the Cherokee County Health Department and my Far West peers, I implore you not to trade services in hand for an imaginary savings on a balance sheet.

George F. Bond, Jr., Health Director

e-mail address: bondg@co.buncombe.nc.us

I am George Bond, Director of the Buncombe County Health Center. My Health Department is the focal point for indigent medical care in Asheville. Our clinical service is the largest safety net primary care practice west of Charlotte. We also have the largest low-income dental practice in all of western North Carolina. We have 24,000 active patients in our caseload and one-third of them are Medicaid recipients. Any effort whatsoever to save state dollars by reducing my Department's Medicaid rate will have a profound, long lasting, and probably irreversible effect on the indigent health care system of Buncombe County. We have been held up as a national model of public/private cooperation and we received the Innovations in American Government Award from the Ford Foundation two years ago for our efforts. Our indigent care system in Buncombe County is a "house of cards" but yet one which has been carefully constructed and one where every single card makes a difference. We simply cannot allow a change in the reimbursement rate by Medicaid to tear down in "one fell swoop" what we have worked years to accomplish for our citizens.

In Buncombe County last year an astounding 93% of all county residents indicated that they had a source of health care - up from 78% just five years ago. My Department is the engine that pulls that indigent care train and Medicaid is our major payer.

I want to make three points in my three minutes to show you why our Medicaid rates should not be reduced to those paid in the private sector:

- 1) **The patients are not the same** - With no disrespect intended, I can tell you that the vast majority of Medicaid recipients coming into our Department are the "train wrecks of society". Where you and I might go to the doctor for hypertension or diabetes or a mental health disorder or obesity, our clients come with all four of these problems plus three more. Our clients' problem lists reads like *War and Peace* and we have, by necessity, developed a protocol in our clinic to ask our doctors to try to narrow the focus of each visit down to just one single problem to be dealt with that day because we can't address them all at once.

These are clients who have been seen by a half dozen private practitioners but dropped from their service because they couldn't pay their bills or they couldn't get a ride to the doctor's office or they couldn't afford to take a whole day off work for a thirty-minute appointment with the doctor. They have no transportation, they have no money, they have limited knowledge of the health care system and they have even more limited knowledge of good preventive health practices. Their health status is largely a function of societal problems of income, education, housing, and racial disparities. Their problems usually cannot be solved the way yours and mine are by writing a simple prescription.

I submit to you that any objective analysis conducted by any responsible agency and reported to you would most certainly conclude the patients we see under Medicaid in local health departments are not the same Medicaid patients that are often "cherry picked" by private providers. We do not have the option of "cherry picking", we take all that appear at our door and it costs more to do so.

- 2) **They are not the same services** - I am sure you have been given a list of CPT codes that show public health often getting paid substantially more for the same CPT codes billed in private practice. Thus is it very logical to conclude that by modifying health departments' reimbursement rates to the same level as private physicians, monies would be saved? That simply is not the case because we are not comparing "apples to apples". Local health departments have long been held to a very different standard than private providers.

One-third of my clientele now are Hispanic and a great many of them are not able to communicate in the English language. Our Department spends almost \$200,000 per year employing staff interpreters, contract interpreters, telephone interpretation services, and bilingual staff, so we can fulfill the requirements of the Civil Rights Act of 1964. You won't find that to be the case in private physician's offices. For that reason we and almost every other health department in North Carolina have become the provider of choice for those with limited English proficiency. Our estimate is that every person helped by an interpreter adds \$12.00 cost to that visit but yet that doesn't show up in the tables provided to you nor do many other costs.

We for years were required to do Denver Development Screening, a 45-minute procedure, on all our kids but private doctors were not. Laboratory tests and pharmaceuticals are required for local health departments but not private providers.

Many local health department clinic visits include services for which public health cannot be reimbursed while private providers can. Some examples are:

- o Local health departments currently bill approximately \$167.00 for a prenatal visit. A comparable visit to a private provider costs Medicaid approximately \$342.00. This is because local health departments must bundle services while the private provider can bill them separately. Public health prenatal visits must include approximately \$192.00 in labs and \$49.00 in counseling services.
- o Local health departments currently bill approximately \$154.00 for a child periodic examination. A comparable visit to a private provider costs Medicaid approximately \$157.00. This is because local health departments must bundle services while the private provider can bill them separately. Public health child preventive medicine visit must include a \$63.00 developmental evaluation.

You can see we can't bill the full range of CPT codes, only those on our DPH contract so often we can't get paid for services that are reimbursable to private doctors.

The Buncombe County Health Center has a \$7.2 million primary health care program, and is supported by \$2.4 million in Medicaid revenues annually. A 41% cut in rates and in turn our revenues would result in a loss of approximately 6000 visits or some 2000 people losing access to health care services in our county. Loss of these Medicaid dollars represent monies that would have paid for six physicians to see patients.

Thus we should not leave this room believing that health departments inherently cost more than private medical practice because that simply is not the case. We are held to different standards by the Department of Public Health Memorandum of Understanding than our private physicians and we serve a vastly different clientele, a clientele which will not now or ever be adequately served in the private market.

- 3) **There are not savings** - If you attempt to save money for the state by cutting Medicaid eligibility or our rates, you will simply be transferring a 100% unfunded cost to the counties who are already staggering under the weight of just trying to match Medicaid at 5%. Cutting our rates will not stop a single person from getting pregnant nor will it prevent a single earache or an abscessed tooth. All those same ailments will still be out there in the community and they will all appear in ever increasing numbers at the door of the local health department but they will not have any source of payment. Make no mistake, health departments and private physicians, emergency rooms and hospitals will still have to provide prenatal care, babies will still have to be delivered by the hospitals and the newborn child needs to be seen by the pediatrician but entire cost will have been passed off on the local community rather than simply shared at 5%. Cutting \$10.00 of community reimbursement for indigent care in order to save \$3.00 of state funds is simply poor business. There will be no savings, we have simply transferred the costs from one level of government to another. The public health portion of the total Medicaid budget represents less than 1% across this entire state.

Jesse James is said to have robbed banks because that's where the money is. If there are to be substantial savings in Medicaid, we need to be realistic and look at services in the long-term care arena in the aged and disabled where 70% of Medicaid expenditures occur. Although the nursing home owners and operators would argue to the contrary, I submit that we have many empty beds across North Carolina creating inefficiencies in long-term care which Medicaid should not be required to support. We have many beds in our nursing homes filled with individuals being paid for by Medicaid who gave away their entire estates or whose children gifted it away after the onset of illness in order to make them eligible for Medicaid. We have many of our long-term care beds filled by South Carolina and Virginia residents who come to North Carolina in great numbers because there are no beds available in their states. That is where we need to focus our attention because that's where the payoff lies.

Public health is already on its knees with cuts resulting from Governor Easley's withholding of our county reimbursements, with cuts by our own County Commissioners, and now with the added Medicaid cuts. North Carolina needs safety net providers and they cannot exist without adequate Medicaid reimbursement.

Health and Human Services Joint Appropriations Subcommittee
May 9, 2002
Room 643

Good morning. I want to thank the Chairs and this committee for giving the public the opportunity to speak to you about your proposed budget cuts.

I am Yvonne Perry. I am a project administrator for the Exceptional Children's Assistance Center (ECAC). ECAC is a statewide non-profit organization committed to improving the lives and education of ALL children through a special emphasis on children with disabilities. I'm here to talk to you today because a number of the parents and children whom we serve happen to be clients of some of the very structures that you are targeting in your budget cuts.

In particular, these families and children are served through collaborative efforts among the state mental health division, the office of Juvenile Justice, the Dept. of Social Services, the Dept. of Public Instruction, the division of Public Health, and community-based organizations. They are families and children faced with serious emotional, behavioral or mental challenges and are right now benefiting from these partnerships, thanks, in part, to significant legislative funding.

There have been wonderful examples of outcomes for children involved in these partnerships, such as:

- Increase in grade point average;
- Increased strength in their interpersonal skills as they become better able to control emotional outbursts;
- Decrease in the number of children with sustained, severe behavioral and emotional symptoms; and a
- Decrease in the number of children needing psychiatric hospitalization.

All of these outcomes translate into more dollars saved for North Carolina because more and more children suffering from mental challenges will be able to stay in school and thereby avoid serious disruptions to their lives or, worse, a place in the Juvenile Justice System. These outcomes will also lead to fewer families and children continuously finding themselves on a list for services through the Dept. of Health and Human Services. And, increasingly fewer of our mentally challenged young people will have extended stays in psychiatric hospitals, an expensive bill that you *can* avoid paying by listening to the wisdom of your heart that says *'take care of these children while you can'*.

Ultimately, we all want all of our families and children to be productive citizens to our democracy, but this can't happen on the cheap, nor can it happen by taking away resources that help families make meaningful contributions to our society. Therefore, we *have got to continue* to provide the dollars needed to train qualified providers and the money to support families and their children who have mental disorders.

For examples of positive outcomes between state services and community-based organizations, see the attached research by NC FACES.

NC FACES: A Report on Outcomes

April 2002

- **SCHOOL GRADES IMPROVED**
 - The number of children and adolescents with average or above average grades upon enrollment in NC FACES steadily increased from 54 percent at enrollment to 58 percent at six months and 65 percent one year. (based on data from 104 children).
- **IMPROVEMENTS IN SCHOOL GRADES WERE SUBSTANTIALLY GREATER IN FACT WHICH HAD THE MOST DEVELOPED FAMILY ORGANIZATION AT THE INITIATION OF NC FACES**
 - The proportion of children in FACT that showed improvement in school grades was greater than the proportion of children in non-FACT sites by more than 30 percent (based on May 2001 data from 118 children)..
- **BEHAVIORAL AND EMOTIONAL STRENGTHS INCREASED**
 - Interpersonal strength or the ability to control emotional behaviors increased from an average standard score of 9.1 at enrollment to 9.9 at six months to 10.7 at one year (based on data from 63 children). Other strengths such as family involvement, and school functioning also improved (as measured by Epstein's Behavioral and Emotional Rating Scale).
- **CLINICAL SYMPTOMS REDUCED**
 - The number of children with severe behavioral and emotional symptoms (as indicated by a Total Problem score on the Child Behavior Checklist or CBCL above the 90th percentile) decreased from 88 percent at enrollment to 75 percent at six months to 68 percent at one year (based on data from 100 children).
- **LIVING ARRANGEMENTS BECAME MORE STABLE**
 - The number of children with more than one living arrangement in the six months preceding each interview decreased from 52 percent at enrollment to 34 percent at six months to 31 percent at one year.
- **PSYCHIATRIC HOSPITALIZATION AND COSTS DECREASED**
 - Of ten children on Medicaid who were in psychiatric hospitals in the year preceding their entry into NC FACES, only one was placed in a psychiatric hospital in the year following enrollment; with reductions in hospital costs from \$169,495.83 to \$8,827.82.

May 8, 2002

Dear Senator Martin, Representative Nye, Representative Earle and members of the Joint Appropriations Subcommittee for Health and Human Services:

My name is Anna Scheyett: I am a faculty member of the UNC School of Social Work, a member of the NC Commission for Mental Health, Developmental Disabilities and Substance Abuse Services, and a concerned citizen of Orange County. I am, unfortunately, unable to attend tomorrow's public hearing, but wished to add my voice to those present who urge you to make no cuts to the budget for MH/DD/SA services in NC. This is a system, that has experienced significant and repeated cuts in the recent past, and is woefully underfunded. Please--services cannot taking any more beatings--"No mas".

Please consider that cuts to MH/DD/SA services would be disastrous to NC for a number of reasons:

1. Increased vulnerability and risk for the state: Our psychiatric hospitals are currently under investigation by USDOJ for possible civil rights violations. In addition, the President released an executive order enforcing the 1999 Olmstead ruling, which requires people in institutions be provided adequate services to live in the community if they are able. Cutting services increases our risk of civil rights and Olmstead violation—can we really afford another huge legal suit in NC?
2. Cuts are in fact not cost savings, merely cost shifts. Cuts in services will result in more people with MH/SA/DD in Emergency Rooms, in jails, and in prison. Given that we know for example, that every dollar spent on substance abuse treatment saves \$7 in societal costs; and a year in prison in NC costs over \$23,000 while a year of assertive community treatment for an adult with mental illness costs about \$10,000—the increase long term costs due to short term cuts are apparent
3. Finally, I know you are painfully aware that cuts will result in huge suffering for many of the citizens of NC. But I ask you to truly consider what these cuts and suffering will mean. Bottom line, without services, people will die. Please consider this example: about 10% of people whose severe and persistent mental illness is not under control will commit suicide. In NC we have over 99,000 such adults alone. Without adequate services we are putting almost 10,000 adults with MI at risk for death by their own hand. This does not even include the children with mental illness, and the tragic loss of life due to substance abuse, substance abuse related accidents, etc. Sadly, this is the only place you will have any "cost savings" in these budget cuts—people whose care is shifted not to the ER, or the jail, or the prison, but the morgue.

I know the General Assembly does not, and could not, intentionally wish to balance the state budget on the corpses of our most vulnerable citizens—but that is what will happen if these Draconian cuts occur.

So, I would ask you, rather than cut the budget:

1. Increase the tax on alcoholic beverages, as explored last year. This alone could generate up to \$90 million - enough to replace the cuts that are projected
2. Close corporate tax loopholes
3. Look to other sources of State funds—I would point to the State Highway Trust Fund
4. Advocate for additional federal financial support
5. As a last resort, raise taxes in a way that is not regressive and punishing to our poorest citizens.

You have a Herculean task before you. Thank you for your carefully consideration of these issues, for the courage I know you will demonstrate in your decision making, and for your time

Sincerely,

Anna M. Scheyett, MSW

Hello, my name is Karen Stallings, and I am the State Coordinator for the Association of Self-Advocates of North Carolina. We have over 1, 200 members and 33 local self-advocacy groups across the state. I am here today to speak up for those who cannot speak for themselves. I am here to speak up for family members, parents and for people with disabilities.

Cutting services from the Human and Health Services is not the right to do. We know that 80% of the State Budget goes to the Public School Systems. However, public schools are not full filling their duties and obligations. Special Education Directors are not giving children mandated services, for example: One director stated there was a difference between educational physical therapy and medical physical therapy and refused the homebound child services. There are no CAP slots, and people with disabilities have been waiting on the "Waiting List" long before the budget crisis came along. They should not be forgotten. \$100 million dollars was needed this year to get the system going in the right direction. Now, since we have new leadership at the state and division level, we are headed in the right direction. If services are cut, we could loose \$80 million dollars, which would mean cutting services to real people, individuals, and families in the community.

The association is in favor of the new State Plan and downsizing or closing Dix and Umstead hospital. We are in favor of consolidating the two. However, if services are cut, the division cannot be reformed when good tax dollars are going out the back door because of budget cuts. The state of North Carolina needs to raise REVENUE, WORK WITH THE NC CONGRESSIONAL DELEGATION TO GET FEDERAL ASSISTANCE. Even have a lottery as long it is used for educational and Human and Health services for the division. Community services needs to be the safety net, and be the ongoing services and supports.

We the Association, have challenged and encouraged people with disabilities to get more involved in the community. For example, to get a job, volunteer, and to give back to the community, “Kennedy Law” and this is happening within your local community. This is what those services can do, If the services and supports are there. Also, other advocacy organizations are coming together to make a difference. We are coming together and building ramps for people in wheelchairs and developing assistive technology borrowing programs for the state. When we all come together, everybody achieves more, so we need YOU.

So, we pray for the State Lawmakers, Representatives, and Senators to make the right decision for people with disabilities. God Bless the Tarheel State, and our General Assembly.

YOU AND I

I am a resident. (You reside.)

I am admitted. (You move in.)

I am aggressive. (You assertive.)

I have behavior problems. (You are rude.)

I am noncompliant. (You don't like being told what to do.)

When I ask you out to dinner, it's an outing. (When you ask someone out to dinner, it's a date.)

I don't know how many people read the progress notes people write about me. I don't even know what is in there. (You didn't speak to your best friend for a month after he read your journal.)

I made mistakes during my check writing program. Someday I might get a bank account. (You forgot to record some withdrawals from your account. The bank called to remind you.)

I wanted to talk with the nice looking person behind us at the grocery store. I was told it was inappropriate to talk to strangers. (You on the other hand, met your spouse in the produce department. He couldn't find the bean sprouts.)

I celebrated my birthday yesterday with five other residents and two staff members. my family wen a card. (Your family threw a surprise party. Your brother couldn't make it from out of state. It sounded wonderful.)

My case manager sends a report every month to my guardian. It says everything I did wrong and some things I did right. (You are still mad at your sister for calling your Mom after you got that speeding ticket.)

I am on a special diet because I am 5 pounds over weight. (Your doctor gave up telling you.)

I am learning household and leisure skills. (You hate housework and your shirt says "Couch Potato.")

After I do my budget program, I might get to go to McDonalds, if I have enough of money. (You were glad the new French restaurant took your charge card.)

My case manager, psychologist, RN occupational and physical therapist, nutritionist and house staff set goals for me for the next year. (You still haven't what you want out of life.)

Someday I will be discharged – maybe. (You will move onward and upward.)

Coalition 2001
"It's Just Good Business"
Presentation to the HHS Appropriations Subcommittee
May 9, 1002

Presented by: C.L. Cochran, Chair Coalition 2001
832-3787

As Chair of Coalition 2001, I believe that the focus on immediate short term cutting of budgets will undermine the ability of the State of North Carolina to provide community services for thousands of individuals with disabilities.

The ability of the State to proceed with reform and to meet the needs of the citizens of North Carolina requires the state to look at the preservation of the infrastructure and approaching the solution of how to use state dollars effectively.

Drawing a "circle" around all MHDDSA funds and other disability funding and determining how to maximize available matching Federal dollars is good for our citizens with disabilities and our tax payers.

We need to raise implement waivers and other changes that allow us to best use Federal dollars that our citizens presently send through Washington to other states for their citizens.

We believe that you have the leadership in the Department and its Divisions to maximize existing dollars and to allowed for planned growth.

We also recognize that you will have to advocate for increased taxes or other funds in order not to devastate the community system for persons with disabilities. We believe that with leadership that the citizens of North Carolina will support you in deciding to protect the citizens of North Carolina.

Attached is a copy of the presentation to the Governor and his response.

Mental Health, Developmental Disabilities, Substance Abuse Community State Appropriations FY 2002

Total: \$323,315,473
Additional \$ 12,420,990 Transfer Health for Early Intervention
Federal Maintenance of Effort Match

Substance Abuse: \$ 37,439,711
Twenty Four Hour Services \$25.2 million

Developmental Disabilities: \$160,662,683
Twenty Four Hour Services \$30.0 million

Mental Health \$124,238,745
Twenty Four Hour Services \$16 million

Twenty Four Hour Services were Pioneer Units Reported FY
2001, actual state dollars expended may vary.

If Community Dollars, Continuity of Care Laws for Residential Care and 24 hour
treatment services are honored, this would remove potentially \$71.2 million of dollars
that are available for reduction in state funding.

If worse case of \$60 million was removed from community programs the base
would be \$252,115,473. Percentage cut would be almost 24% of remaining services.

If maintenance of effort for block grants for MH and SA was enforced, there would be
additional Federal reductions of block grants for falling below the previous two year
average which could be an additional \$14.5 million dollars of lost funding.

Coalition 2001
"It's Just Good Business"
April 3, 2002

Presentation to: The Honorable Governor Michael F. Easley

For the 2001-2002 NC Fiscal Year, Coalition 2001 sought over \$100 million in re-occurring funding for the Mental Health, Developmental Disabilities, Substance Abuse system to meet current needs. \$47.5 million in non re-occurring and \$3.5 million in re-occurring funds were appropriate and additional \$1.5 million in re-occurring area program funds were reduced.

The combined cuts of \$37.5 million from the MH Trust Fund and proposed reductions in MHDDSA funding of \$46.7 million will result in a reduction of almost 14% from the base budget and Trust Fund appropriations, compared to the 7% requested of non-educational State functions.

MHDDSA has endured a long pattern of millions of dollars being removed from the MHDDSA system. For reform to succeed, the system must be able to refinance itself without continued reductions in funding which includes being able to manage Medicaid dollars spent for disability related services while providing for controlled growth.

Coalition 2001 requests the following:

For the Governor to actively protect the existing financial resources in the system in order to allow reorganization of the MHDDSA system to proceed without continued reductions in funding, including the proposed reductions in the current year.

For the Governor to actively advocate for the General Assembly to Raise Revenues to implement the principles promulgated in the October 27, 2000 campaign letter recognizing
1) inclusion, not exclusion; 2) independence, not dependence;
3) empowerment, not paternalism; and 4) opportunity.

Coalition 2001 applauds the Governor and his staff for the appointment of state government leaders who understand these principles including

Secretary Carmen Hooker Odom, Deputy Secretary Lanier Cansler and
Dr. Richard Visingardi.

Coalition 2001's membership, North Carolina citizens with mental illness, developmental disabilities and substance additive disorders and North Carolina families need to be assured that the present resources and future resources will be available for these leaders to manage effectively in order for all North Carolina citizens to achieve their full potential.

STATE OF NORTH CAROLINA
OFFICE OF THE GOVERNOR
20301 MAIL SERVICE CENTER • RALEIGH, NC 27699-0301

MICHAEL F. EASLEY
GOVERNOR

April 29, 2002

Mr. Connie Cochran, Chair
Coalition 2001
PO Box 27707
Raleigh, NC 27611-7707

Dear Mr. Cochran:

Thank you for your letter of April 4 regarding your meeting with my senior staff on Coalition 2001 issues. They have briefed me on the meeting, and I appreciated the information that you included in your letter.

I want to assure you that restoration of the Mental Health Trust Fund is one of my top priorities, provided that those monies are not required to balance the 2001-02 budget as the state constitution demands. It will be difficult.

As you know, the duration and depth of the budget crisis are unprecedented. The General Assembly has targeted the Department of Health and Human Services for \$330 million in reductions including a \$60 million reduction in area mental health programs. I believe that reductions at this level will not be attainable, if the state is to maintain any minimum level of core human services until the economy recovers. My budget recommendations will not contain reductions of that depth.

We cannot cut our way out of this problem; we can only grow our way out. The only way I know to grow is through ensuring the quality of classroom instruction. I supported a balanced revenue package last year in order to protect education, and I appreciate the Coalition's efforts in that regard.

This year, I will again fight for an education lottery. I hope that the Coalition could support this option, as it meets your criteria as a new revenue source that the citizens of North Carolina will support. The General Assembly has the final say over tax and revenue policy, so we should work together on this issue.

Please contact John Merritt if we can be of further assistance or if you have other ideas on how to work together.

With kindest regards, I remain

Very truly yours,

A handwritten signature in black ink that reads "Mike Easley".
Michael F. Easley

REC-ED APR 30 2002

Statement Prepared for
**Health & Human Services Joint Appropriations
Subcommittee Hearing**
May 9, 2002

My name is Ronald J. Kuhr and I reside at 2912 Hawtree Drive in Raleigh. My 32-year old son Matthew has several developmental disabilities, including autism, but is able to lead a relatively "normal" life partially as a result of state and federal funding. He lives in a home with one other disabled young man and one or two service providers and attends a day program which includes volunteering in the community for organizations such as the Food Bank and Meals on Wheels.

I consider Matthew to be extremely lucky to have the funds from CAP-DD and other sources to allow him some independence and to enjoy a standard of living which is modest but very enjoyable and satisfying. There are thousands of other people with disabilities who are not so lucky and who sit year after year on waiting lists because funding for these people is not there.

Thus, for Matthew, and for the thousands of other disabled children and adults that require support, I plead with you to at least maintain the current level of funding for the CAP-DD program despite our current budget constraints and I hope that in the future you would consider increasing budget allocations for these very under-served citizens of our state.

Ronald J. Kuhr
2912 Hawtree Drive
Raleigh, NC 27613

TO: Members of the Health & Human Services Appropriations Subcommittee

My name is Mary Kuhr. I live at 2912 Hawtree Drive in Raleigh. I am the parent of a 31 year-old son with autism. For 90 per cent of those 31 years, I have had to advocate on his behalf for better services and, at times, for services PERIOD. I have been there, done that, and seen it all in terms of services for people with disabilities: from the absence of any or, at best, token services to the passage of Education and Disability rights acts which forced educational and government entities to do what they should have been doing all along, albeit crying poor the entire time.

Now I am getting old. Correction: I AM old. And I have neither the will nor the stamina to start fighting for services for my son again. And that's just what I will be forced to do if you insist on making serious cuts in the Health and Human Services area. In the past few years, my son, Matthew, has been so fortunate to receive WHAT HE NEEDS from the Autism Society of North Carolina. They provide his residential program, his vocational program, and a fantastic summer camp, to say nothing of their genuine fondness for and support of families.

Matthew can be considered one of the "Haves" because he is not one of 7,000 people on North Carolina waiting lists. There are so many "Have Nots" out there, I can't for a minute understand why anyone would want to add Matt or anyone else who is currently "thriving" to that group. We've already done that. It didn't work then and it won't work now.

If you MUST make cuts, PLEASE look at the REAL "Haves," such as corporations that don't pay taxes because of the loopholes available to them. I urge you to look at Things, not people, especially those who need your help the most, the "have nots."

Thank you

Executive Director

**PRESENTATION FOR JOINT APPROPRIATIONS COMMITTEE
MAY 9, 2002**

Good morning. My name is Frank Crawford and I am the Director of YHI, a non profit agency in Charlotte serving at-risk children and families. One of the seven programs we provide for our community is Intensive Family Preservation Services, which is why I am here today.

Two years ago, YH partnered with the Mecklenburg County DSS to provide Intensive In home Services for families who were at risk of having their children placed in foster care. \$1.8 million Federal TANF dollars were awarded to NC to serve high risk and predominantly low income families. YH operates one of these ten TANF funded programs.

The Joint Appropriations Committee has recommended that these ten programs be eliminated and that the \$1.8 million in TANF funding be redirected within DHHS's budget. I am calling on you to reconsider that recommendation for the following reasons:

1. **THESE FUNDS ARE 100% FEDERAL FUNDS AND REQUIRE NO STATE MATCH.**
2. **SUCCESS RATE:** During the fiscal year that ended last June, there were 203 families served with 576 children through these 10 TANF funded IFPS programs across NC. As a result of the successful work of these programs, 541 of these 576 children were prevented from placement in foster homes. That is a phenomenal success rate of 94%.
3. **COST EFFECTIVENESS:** The cost of serving children in their own families is **SIGNIFICANTLY LESS** and more cost effective. The NC Division of SS has estimated that by spending this \$1.8 million dollars in TANF funds, \$2.9 million dollars was saved because these children were not placed outside of their homes. In other words, had these 541 children been placed in foster care, it would have cost \$4.7 million. IFPS services saved almost \$3 million.

4. CHILDREN WILL ENTER THE FOSTER CARE SYSTEM, STAY LONGER, AND NC WILL HAVE FINANCIAL PENALTIES: The Adoption and Safe Families Act is Federal legislation that requires states to create permanency for children in much shorter time frames than ever before. States that are not successful in doing so have huge fiscal penalties. NC's next Federal review is in September, 2003. The current budget you have recommended eliminates these front-end services AND also eliminates adoption assistance. That means children will stay **in non permanent placements** longer, and you can expect financial penalties as a result.
5. THESE PROGRAMS HAVE REDUCED THE NUMBERS OF CHILDREN IN FOSTER CARE IN NC: It should not be considered coincidental that ONE YEAR after the Expansion IFPS programs were begun that the number of children in foster care in NC has dropped below the 10,000 mark, saving NC hundreds of thousands of dollars. It just makes pure fiscal sense to spend Federal TANF dollars to prevent spending State foster care funds.

In closing, I would like to offer you the most compelling reason I have as to why these services should be funded. Please meet The Kelly Family, Walter, Bernadette, and their 6 children. They were one of the first families to receive services in our program almost two years ago.

This family was reported to DSS for neglecting their children. What we found was a family in deep crisis. There were parenting problems, violence within the home, and many problems which took a long time to develop. What ELSE we found was a family that wanted to get better -- that wanted to learn how to succeed. We spent incredible energy helping this family help themselves, and after almost 100 hours of in-home services with this family, they completed our program successfully. Today, almost two years later, they are in tact and functioning as a family -- and not asking the public child welfare system to raise their children.

(Mr. Kelly is invited to make his comments.)

Please reconsider and put these IFPS TANF funded programs to preserve families BACK into the budget. and find a way to use these funds for their intended and best use -- which is BUILDING BETTER COMMUNITIES....ONE FAMILY AT A TIME.

THANK YOU FOR GIVING ME THIS OPPORTUNITY TO SPEAK.

Frank H. Crawford, Jr.
Executive Director

INTENSIVE FAMILY PRESERVATION PROGRAM **BULLET COMMUNICATION POINTS**

1. The \$280k is Federal dollars (Temporary Assistance to Needy Families [TANF]), intended for a specific purpose: Family Preservation programs. The redirection of these funds due to budgetary problems does not allow for their intended use.
2. YHI has been incredibly successful in this program. Have served 79 families since August of 2000. Those 79 families have 229 children, of which 215 have remained at home and NOT placed in foster care (94% success rate).
3. The cost comparison for providing foster care to these same children is a "no brainer". Just this past fiscal year, we served 118 children at a cost to the State of approximately \$260,000. Those funds kept 110 children out of foster care. Had those children been placed in the public foster care system, the cost to provide for their care would have been \$1.1 million. The difference between serving these children in foster care and serving them via in home services saved approximately \$840,000.
4. This program provides "UP FRONT"/PREVENTION services that divert children and families from entering the public child welfare system at far greater costs and resources.
5. Even in the worst of budget years, we should never cut programs and services to our most vulnerable and most valuable resources.
6. People are more important than taxes. I would be willing to increase what I pay in taxes to better serve children in our State.

STATEWIDE IMPLICATIONS

1. There are 10 TANF funded Family Preservation Programs in NC which would cease to exist based upon recommended budget cuts of \$1.8 million.
2. During FY 2000-01, those ten programs served 203 families with 576 children. As a result of TANF funded Family Preservation services, 541 of those children were prevented from entry into the foster care system (94%) at a savings of approximately \$2.9 million. In other words, NC spent \$1.8 million TANF dollars to avoid spending \$4.7 million in out of home care.

Testimony of
Sorien K. Schmidt
NC Justice and Community Development Center
Appropriations Subcommittee on Health and Human Services
May 9, 2002

Thank you for allowing me to speak today. My name is Sorien Schmidt. I work at the Justice and Community Development Center and I am also co-chair of the Economic Security Committee of the Covenant with North Carolina's Children. I am here to say I too am sorry that we are facing such a grave budget crisis today; however, there are solutions other than eliminating dozens of vital programs and services. It is imperative that these solutions be considered and acted upon, or we risk pushing our state services and the well-being of North Carolina's people back to the lowest level.

There is no way I, or anyone, can help you choose between cutting infant formula for babies on the WIC program or prescription medications for a seventy-year olds struggling to live below poverty level. These cuts are unthinkable. Worse they are on top of nearly 8% in cuts already made to HHS programs this fiscal year. Already our programs are stretched thin and our people are at risk.

In addition, there are no easy places left to turn to where cuts can be made without affecting services. We are fooling ourselves if we think that cutting staff or administrative costs won't affect services to the people of North Carolina. Government is staff working for and helping citizens. This is especially true in HHS, where so many of the services are a social worker or other staff providing case management, health care services, parenting training, or determining for which programs a person is eligible. You can maintain the food stamp program, but if you eliminate funding for the staff who provide it, no eligible person can access the food stamps.

But such impossible choices are not inevitable. In some cases bad luck, such as Hurricane Floyd, has brought us to this place, but by and large past decisions have determined this destiny. The good news is that future decisions you make this session are equally capable of getting North Carolina out of this mess. Imagine, for example, how much worse things would be if you had not made the courageous and difficult choice to raise an additional \$630 million in revenues for fiscal year 2003. You likely would be considering cutting over \$500 million in HHS

instead of the \$330 now on the table. That is not to say \$330 or even \$200 million in additional cuts to HHS programs is acceptable. It is not. The damage of such cuts will be catastrophic.

Therefore, I am here to say there is no way to solve this crisis without getting more revenues into the state budget. You can do this by asking Congress to increase funding for the TANF block grant, the Social Services Block Grant and the Child Care and Development Fund. All of these are under consideration, and the news coming out of Washington, D.C. does not indicate that they fully understand the dire crisis that we, and many other states, are now facing.

Second, you must find other sources of revenue. There are many you can explore, four include: 1) reconsidering uses of existing revenue sources, such as the tobacco settlement monies or the highway trust fund; 2) closing tax loopholes that you considered but did not close last year, like the bank tax loophole; 3) reexamining some of the tax breaks given during the 1990's; and 4) raising income taxes. I know these are not easy to do, but neither is firing hundreds of state and county employees who provide immunizations, mental health treatment and safety inspections. If you raise adequate revenues for three years, you can maintain vital state and county government services, while you modernize our tax system and ensure it can meet the basic needs of our growing population. If you raise revenues, I, my colleagues and the thousands of North Carolinians getting or needing services that will not be cut off, will support you.

To those who say no new taxes, I say, you deliver the notices to thousands of North Carolinians who have worked hard, made sacrifices and paid taxes but still need help now that they are older, or after a hurricane. You turn away the dad who works two jobs but still requires assistance to care for his child with cerebral palsy, or you look in the eyes of the parents who want to know their baby is safe and receiving appropriate treatment while at day care. These things don't happen by accident. They happen because of critical services, programs and staff paid for by our tax dollars. And I for one know it is worth the investment in our state and in our people.

**Remarks by Dorothy Crawford, Speaker of N.C. Senior Tar Heel Legislature
Joint Appropriations Subcommittee on Health and Human Services
May 9, 2002**

I am Dorothy Crawford from Macon County. I serve as Speaker of the North Carolina Senior Tar Heel Legislature which is charged by state legislation to assess the needs of older North Carolinians and to make recommendations to the General Assembly on how to address these needs.

Thank you for giving me the opportunity to address you. Today I would like to address four primary points related to the options for reduction in the funding for aging services in our state.

- **The cuts which are being proposed for aging services will set our efforts as a state to address the needs of our older citizens back at least a decade.** The older adult population in our state is growing by leaps and bounds – in fact, older adults (specifically the 85+ population) are the fastest growing segment of our population. In the last ten years, we have begun to make small progress in developing **home and community based services**. The demand for services such as home delivered meals, in-home aide, adult day care/day health care, and respite care is skyrocketing. At this time there are nearly 10,500 persons waiting for services across the state. These cuts will result in many more people being unable to receive services. Many of these people will end up being placed in nursing homes and other long term care facilities and in many cases this will cost the state more money in the long run.
- The Senior Tar Heel Legislature is also concerned about what these **cuts will do to the infrastructure for the delivery of aging services**. The options currently being considered for reduction will result in a greatly diminished capacity by the aging network to be responsive to the needs of older adults and their family caregivers. Our Division of Aging, our Area Agencies on Aging, senior centers, adult day care/day health care programs, Alzheimer's programs, Senior Games program and other aging network providers will not be able to do their jobs with the levels of cuts being considered. Funding for the aging services through the Division of Aging accounts for less than 1% of the budget of the Department of Health and Human Services. It is easy to consider this as small peanuts in the scheme of things, but the \$30 million in state appropriations to aging services is money well spent. In many cases these funds are used to leverage other resources and the impact of programs

(over)

funded with these monies makes a world of difference in the lives of many people.

- A third point I would like to address is that of the **prescription drug assistance program to be funded by the Health and Wellness Trust Fund**. This program, which is targeted to begin this year, is to be funded for three years at a cost of \$105 million. The Governor has already escrowed \$30 million earmarked for this program. If any additional Trust Fund funding is redirected for other purposes, the prescription drug assistance program and the teen smoking prevention and cessation program also targeted for funding with this money will be cut short after two years. Older adults in our state are in desperate need of a program to help with prescription drug assistance. Not to implement this program as planned will be devastating for many older people who have been counting on it to help them get the medications they need. The Senior Tar Heel Legislature urges the General Assembly to not dip any further into the Health and Wellness Trust Funding to help address the budget shortfall.
- In closing, I would like to encourage the General Assembly to **look at ways other than drastically cutting needed health and human service programs to balance our state budget**. There are other options available to raise needed revenue. These options can include ending tax loopholes, raising taxes, working with the N.C. Congressional delegation to insist on additional federal assistance including an increase in the federal matching rate for the Medicaid program, and tapping other sources of available state funding.

Thank you again for this opportunity to comment. If you have questions of me, please feel free to contact me at P.O. Box 149, Franklin, N.C. 28744 or by phone at (828)524-2661. My thoughts and prayers will be with you as you continue the difficult task of working to balance our state budget.

GOOD MORNING My name is Jean Reaves, I am here today as the President of the North Carolina Coalition on Aging. We are a statewide coalition of organizations committed to improving the quality of life for older adults. I stand before you, one person, but please realize that I represent 37 member organizations whose combined membership represents millions of voting North Carolinians.

Let me briefly look at some of what we have been told you are considering depleting and show you some of the probable results:

- cut Medicaid for older people and people with disabilities, up to federal We are all very much aware of the budget crisis that our great state has found itself poverty level—this action will set back the progress we made many years ago.
- cut home health aides for people with disabilities—where is our commitment to the Olmstead Act and not forcing people into institutionalization against their will.
- cut State Adult Day Care Fund by \$700,000—adult day services are some of the most comprehensive services available to the frail and disabled and their family caregivers. Loss of these services will mean family members leaving jobs to try to care for loved ones at home; forcing decisions for premature placement and with the loss of home health aids there will not be any relief for family caregivers and the potential for Protective Services supports will skyrocket.
- reduction of \$300,000 of Elder Rights dollars will only put us back to funding levels of at least a decade ago, but with other reduction already identified the need for higher costs nursing and residential beds will drastically increase.
- last and certainly not least we remind you of the promise made via the Health and Wellness Trust Fund. We beg you to find the strength and to use your years of wisdom to realize that meeting your promise will allow the state to invest in wellness and address many of these out of control cost with long range responsible solutions.

Rather than looking at cutting services we would like to suggest that you look at raising revenues through:

- a serious review of tax loopholes for corporations and/or raise corporate taxes
- consider a tax increase targeted at those citizens of the highest income levels
- look to our NC Federal delegation to insist on Federal assistance—we are aware of present legislation that would add an increase of 1.5% to the

Federal share of Medicaid and a possible additional 1.5% increase for states with soaring unemployment rates. What other Federal sources could be available to us??

- finally what “reserve pots of money” are available within our state that we could at least borrow resources from.

We realize that there are no easy solutions but we strongly urge you not to decrease services to the frail and vulnerable but rather to look at responsible ways to increase revenues.

Jean Reaves

**Comments by Paula A. Wolf, Chief Lobbyist
Testimony to Health & Human Services Appropriations Subcommittee
May 9, 2002**

My name is Paula Wolf and I represent the Covenant with North Carolina's Children and its over 130 member organizations, and over 500,000 individuals who speak for children and youth, from Murphy to Manteo.

Thank you for allowing me to speak today to urge you *not* to accept the "options" for cuts that you have heard from the Department and your Fiscal Research staff over the last few weeks.

Our coalition understands the size and scope of the state's budget deficit. We realize that any solutions you formulate will involve very difficult choices. But programs that serve older adults, children, working parents, people with disabilities or newborn infants cannot sustain further cuts when they already struggle to meet the growing needs of our people.

We cannot sustain more cuts. There are REAL PEOPLE - CHILDREN AND FAMILIES - who will be hurt by further budget cuts. Indeed, they have already been hurt by cuts. We have documented over one million North Carolinians who are on waiting lists for various services. For example, there are over 23,000 children waiting for child care subsidies. There are nearly 11,000 older adults waiting for services that will allow them to continue living in their own homes rather than moving to a nursing home or adult care home. There are 37,000 adults with severe and persistent mental illness waiting for psychosocial rehabilitation services. There are 3,011 children who need to be adopted. I could go on and on.

(Over, please)

A coalition advancing public policy that benefits children in North Carolina

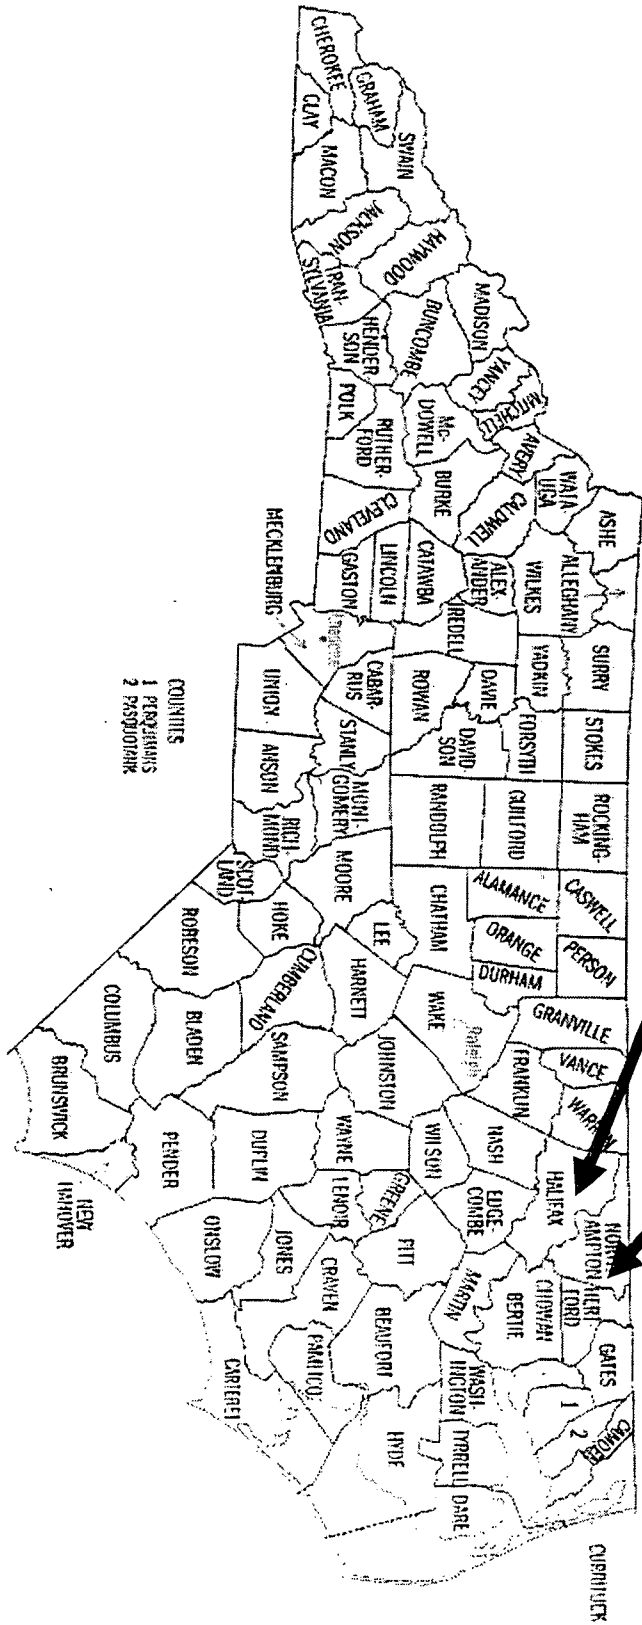

P.O. Box 28268 • Raleigh, NC 27611 • 919 / 846-1432 • FAX / 829-7299

There is a myth out there that these budget cuts are being made painlessly. But, I am here to tell you that if you pick up any newspaper in this state -- which I do electronically every day - you can see that county commissioners are having to retool their budgets and cut real services and real positions. We are talking about the reduction of education (yes, even in the classroom!), child welfare, and other human services because of the money being held back by the state. No deep reserve funds here. Hiring has been frozen since January 2001 and now there is a government wide spending freeze, allowing only essential payments over the next 60 days. These actions have most definitely had a negative effect on service delivery.

There are many options available to you to raise needed revenue instead of making devastating budget cuts. The choices are up to you. We know that you will give them your careful consideration. For example, end tax loopholes for corporations, raise taxes, work with the NC Congressional delegation to insist on Federal assistance, and use other sources of available state money.

North Carolina needs to invest in our people to meet government's basic responsibilities to its citizens. The Covenant urges you not let North Carolina go backwards. We implore you to *"SAVE NORTH CAROLINA and INVEST IN OUR PEOPLE."*

Please Do Not Eliminate Medical Infant Formula Program in WIC

My name is Elizabeth Pope and I am 35 years old and was born in 1966. I was diagnosed at birth with Phenylketonuria or PKU. PKU is a metabolic disease that results in mental retardation and other neurological problems when treatment is not started within the first few weeks of life. Since I was diagnosed at birth, I was placed on a very strict lo-protein diet and was placed on a medical formula to provide nutrients and protein not harmful to my body. I took the formula for the first twelve years of my life. I've lived a normal happy life. I graduated from college and am working currently in telecommunications. All thanks to this formula.

In October 2001 I returned to the diet in order to prepare my body for having a baby with my husband. I am taking the formula to provide the nutrients and protein needed to develop a healthy baby. I have been told the formula would cost between \$5,000 and \$6,000 a year. Without this formula there is a 98% chance our baby will have severe abnormalities. There could be microcephaly, heart defects, and other congenital abnormalities. If you eliminate this State funding, many families will not be able to afford this medical formula and their children will become mentally retarded or have other severe problems. Please look at me as an example of the good you are doing by keeping this formula program effective. I am an example of what could be for the babies born with PKU. With the correct diet and formula they can live happy normal lives.

Please do not eliminate funding for Special Formulas such as this. We need it!

Thank you,
Elizabeth S. Pope

Statement to HHS Appropriations Legislative Committee Hearing
Raleigh NC 5/9/02

Neural tube defects occur more often in North Carolina than in anywhere else in the United States. In NC 1 in 500 pregnancies is affected with a neural tube defect. 1 in 1000 pregnancies is affected with anencephaly. NTDs are one of the few birth defects for which in-utero therapy may be successful. The State of North Carolina was a pioneer in early screening and detection for neural tube defects and newborn screening. With the support of this state, the University of North Carolina was one of the first centers offering maternal serum screening more than 15 years ago. For 15 years the maternal serum screening programs at UNC and Wake Forest have served the indigent and under resourced expectant mothers of North Carolina, detecting birth defects, improving prenatal care and pregnancy outcome. The program screens approximately 14,000 pregnancies annually, with an average of 50 of these pregnancies found to have a birth defect.

Eliminating funding for this essential service will have a detrimental impact on the health and well being of the women and babies of North Carolina. The maternal serum-screening program allows early detection of neural tube defects and other birth defects as well as the identification of high-risk pregnancies. Countless of North Carolina women and their infants have benefited from early detection, some have benefited from the recent advances in in utero repair of this birth defect. Early detection of these birth defects improves pregnancy management and neonatal care. Early detection also allows families to plan and prepare for special needs children, meet with specialists who may care for their child and net work with other families. Early detection allows physicians to make appropriate referrals to tertiary care medical centers equipped to handle the unique needs of these mothers and babies. Early detection reduces the emotional stress for families and maximizes the appropriate use of medical resources necessary to care for these families.

As an example, a colleague in the division of maternal and infant health received an email from a mother of an 8-month old baby with spina bifida (SB). This mother stated that medical bills as of 8 months of age were already \$350,000. The North Carolina Birth Defects Monitoring Program (BDMP) has identified over 100 SB cases for 2000 and 2001 to date. Using the \$350,000 per case figure from this example, \$35 million or more will be spent caring for babies born with SB in 2000 and 2001. Cutting the Maternal serum AFP program and BDMP, will effectively hinder our recurrence and occurrence prevention programs and will likely result in a 5- fold or more increase in costs to the state—these costs will just shift to the Medicaid or employee health benefits line items. Where is the savings?

Neural tube defects are one of the only birth defects for which in-utero therapy may be successful. Elimination of the Maternal Serum AFP testing program will create a circumstance where there are “have and have-nots” for the women of North Carolina. Women with financial resources and health care insurance will have access to services and potential therapies that will no longer be available to the indigent and under resourced population if funding for the Maternal serum AFP program is eliminated. This is not consistent with the mission and values of the State of North Carolina. We urge you to consider the health and well being of the women and children of North Carolina before making the decision to eliminate this vital birth defects screening program.

STATEMENT OF TOM BENNETT
EXECUTIVE DIRECTOR
N.C. CHILD FATALITY TASK FORCE
MAY 9, 2002

Ladies and Gentlemen of the Committee:

My name is Tom Bennett. I'm Executive Director of the North Carolina Child Fatality Task Force. The General Assembly has directed the 37 members of the Task Force to study the causes of all child deaths in our state and recommend steps that the legislature can take to save children's lives. That's why I'm here today.

The Task Force members – ten of whom are legislators – realize that you have an obligation to deal with the state budget crisis. However, we are very concerned about the approach that this committee is taking. During the past few weeks we've heard many legislators ask, "What should we cut to make up the budget deficit?"

Most of the health and human service cuts that have been proposed will do grievous harm to vulnerable people – including children. I could plead on behalf of several programs such as intensive home visiting and birth defects monitoring, but the plain truth is that all of the proposed cuts would be painful and destructive.

Instead of asking yourselves "What should we cut?" you should be asking: "How can we craft a responsible budget and still protect the public's health and safety?"

We know that costs have to be controlled, but it's wrong to conclude that you no choice but to cut vital programs for children and their parents. You *have* an alternative. In the midst of this emergency, you and your colleagues can raise revenue. Of course, no one likes higher taxes. I know I don't. . . Ask your constituents if they want higher taxes, and they will certainly say "no," but that isn't the right question.

Instead, ask your constituents if they want children to do without the medicine they need to be healthy and ready for school. Ask if they want more newborn babies to die. Ask if they want more children to be born with crippling birth defects. Ask if we should stop our efforts to keep children from having children. Ask if they want suicidal teens to go undiagnosed and untreated. Ask if they want more children to be beaten, tortured or sexually abused. If you ask *those* questions, the issue of raising revenue looks very different. North Carolinians love their children and will sacrifice to give them a healthy future.

Hurricane Floyd killed 6 children and injured a handful. It did lingering harm to many others. The budget cuts you are contemplating will kill or injure far more children than Hurricane Floyd. Unlike that storm, this budget crisis is a man-made disaster, and the proposed cuts are so drastic they'll only make things worse. A far better solution -- raising revenue -- is within your power, but do you have the will to do it?

On behalf of the Child Fatality Task Force, I ask you to show courage and show faith in the goodness and good sense of the people who sent you here. Given a choice between the distasteful and the disgraceful -- choose the path of honor. Do not plug this budget hole with the blood and tears of children. Plug it with taxes fairly assessed on a people who know and value what they're buying -- a safe and healthy future for our children.

Thank you.

May 8, 2002

The Community Enrichment Organization
Tarboro, North Carolina
(252) 823-1733

Even though the needs of the population in North Carolina are growing, we are here today because of the public hearing in regards to budgetary items including budget cuts to divisions of the state as well as non-profit organizations. Budget cuts will severely reduce, if not eliminate services.

The Community Enrichment Organization is a non-profit organization which serves families in Edgecombe County, particularly East Tarboro and Princeville. If cuts are made to the budget, we will not be able to continue the level of much needed services to students and families in our community. In the area of Teen Pregnancy Prevention, CEO serves approximately 40-50 students annually with the Teen Outreach Program and 20-30 males with the Wise Guys curriculum. We believe that the information and public awareness around adolescent health issues has a positive impact on the state's decline in teen births and sexually transmitted diseases. If budget cuts are made, CEO believes that North Carolina will be set back several years and not continue on the forward path of positive behavioral changes.

As you look for ways to tighten financial expenditures, consider other methods of raising funds to continue the level of services currently being offered. Such ways are inclusive of:

1. Ending tax loopholes for businesses and corporations
2. Raising taxes
3. Work with the North Carolina delegation to obtain Federal Assistance
4. Use other sources of available state monies

Thank you for your time and consideration and I hope that what has been stated here today will have a bearing on your decision making process. If there are questions or concerns, please contact us at (252) 823-1733.

Doris Stith, Executive Director
Deborah Benbow, Programs Manager
Viola Harris, Edgecombe County Council for Adolescent Health

I'm here today representing the North Carolina Public Health Association which is a statewide association that is comprised of public health practitioners and citizens interested in the promotion of public health. I'm here to speak in opposition of the elimination of TANF funding for the Teen Pregnancy Prevention and Out-of-Wedlock Birth Prevention. North Carolina has made gains in the decrease of teenage pregnancies, due in part, to this funding. The decrease in pregnancies equates to a savings of over \$9.5 million in Medicaid expenses that would have been paid out for as a result of these pregnancies and births and subsequent costs for the health care of these children. Additionally, the young women would have participated in the Teen Pregnancy Prevention Projects have delayed sexual activity and have used contraceptives successfully when becoming sexually active. Because of these program, these participants usually complete high school or receive their GED, allowing them to become self-sufficient and off the public assistance roles in the future.

I'm also here in opposition to the reduction of Medicaid rates to local health departments. Local Health Departments provide care to everyone presenting for care. Unlike the private physician who can refuse to accept a patient, local health departments must see everyone. The clients we serve are usually those that the private sector has turned away because of the high cost to care for these clients. Health departments have seen a steady increase in the numbers of clients with no payment source over the past several years. A recent survey conducted by the Local Health Directors depicted over \$40 million of uncompensated care being delivered at only one third of the county health departments. That number would be significantly higher if all health departments had responded. Because it is occurring in every local health department.

Local health departments have already been cut by local governments as a result of the withholding of inventory tax revenues. 40 health departments have reported a cut of over \$5 million with represents 0.3% to 15% of the total health department budget this fiscal year with an additional 1.5% - 16% anticipated cut for next fiscal year. Decreasing the Medicaid rates will decrease the state's contribution by over \$2 million, but will cause an overall loss of \$7.5 million due to the loss of an additional \$5.4 million in federal receipts.

Health departments fill a gap in the local communities for comprehensive well screening and address issues for clients not addressed by the private physician, including nutrition counseling, health education, and interpreter services. In some medically underserved areas, health departments are often the only source of medical care for Medicaid recipients, many of whom have complicated health issues. Medicaid eligible children often have multiple social and health issues. Health departments provide counseling and referrals and often assist clients with accessing transportation for health care.

These combined cuts will force many of the local health departments to eliminate clinical services, reduce the days/hours of operation. We may already be the last resort for these patients in receiving primary care. If our services are reduced or eliminated, our clients will be forced to seek acute medical care from the Emergency Rooms because they were unable to receive primary and preventive care from their health department. This is not the most economical means of providing medical care. A short-term savings will result in a long-term financial burden.

Public health receives less than 1% of the Medicaid budget – yet preventive and primary care offered at health departments are the cost effective health care services. Local health departments have never chased the Medicaid dollars. Instead, health departments stepped in to provide care to this population when there were no private providers or they refused to accept these patients. Communities place their trust in local health departments to provide health care to those in need as well as protecting the general population against communicable diseases, promoting healthy lifestyles to prevent illness and safeguarding the environment. The combination of the elimination of TANF funding and the reduction of Medicaid rates will mean a reduction of approximately \$9 million to local health departments throughout the state. That does not include the high costs of uncompensated care that we are currently experiencing with the uninsured, non-Medicaid eligible population. Neither does it include the cuts we have to make in our county budgets. We will not be able to continue providing present services with this magnitude of cuts. We appreciate your consideration of these facts when assessing the benefit of public health in your community.

Thank you.

State Foster Home Funds for Children in Care (CCI Funds)

We are...

- >57 member not-for-profit private and public agencies.
- >Staffed with some 2,500 employees, 24-hours per day, seven days per week.
- >Operating residential and treatment programs, group homes, emergency shelters, family foster care and therapeutic camps.
- >Composed of members whose total budgets are more than \$155,000,000.
- >Historically the "orphanages" of North Carolina with long histories of service partnerships with the state as well as newer organizations offering a variety of services.

We serve...

- >2,500+ children and multiple families each day. The children are a part of the 11,000 to 12,000 children in custody or placement authority of the state through 100 local Departments of Social Services and others placed by Juvenile Justice, Mental Health and the courts.
- >Children who have been abandoned, neglected, abused, and/or have serious behavioral problems.

We are funded...

- >By a combination of federal, state, and local funds that in most instances does not pay the full cost of care.
- >The contributions of private dollars.

THE CURRENT CRISIS...We thank the General Assembly for past support and urge it to maintain and in fact increase the CCI Fund

- > The \$9.3 M State Foster Home Funds (CCI Funds) which provide reimbursement to many member agencies for children in care is too small and depleted by the increasing number of children in care who are not eligible for IV-E or Medicaid (Federal Funds).
- >From July 2001 to April 2002, the percentage of IV-E eligible children dropped from 65.1% to 50.62%, thus putting more children into the CCI Funds pool.
- >The percentage of reimbursement has dropped from 59.5% in July 2000 to 36.6% in April 2002, placing new burdens on agencies and counties.
- >This has come at a time when private funds are decreasing and any available endowment income is diminished.
- >A large number of agencies are operating with deficits which threaten their continued ability to serve the state's children and families.

-end-

comments of Mike Safley, president, Methodist Home for Children and president, Children and Family Services Association of North Carolina, before the HHS Joint Appropriations Subcommittee on Health and Human Services, regarding proposed cuts to the state budget.

May 9, 2002

Good morning. My name is Mike Safley. I am president of Methodist Home for Children. I am also serving as president of the Children and Family Services Association of North Carolina—an association of 57 nonprofit agencies that provide residential and treatment programs, group homes, emergency shelters, foster care, and therapeutic camps. Our agencies are active throughout North Carolina, including such programs as Lake Waccamaw, Kennedy Home, Baptist Children's Homes, Children's Home in Winston-Salem, American Children's Home, Alexander Children's Center, and Thompson's Children's Home, to name just a few. Collectively, we take care of nearly one third of the kids who are in the custody of social services. Together we provide nearly one million days of service to the state's children and families.

We have been your partners in caring for the state's most vulnerable children and teenagers through the contracts we have negotiated with you. What we bring to this partnership is both a wealth of experience and millions of benevolent dollars that supplement those contracts.

But I will be plain with you: our agencies would simply be unable to absorb the costs of losing our state contracts. Many of our programs would close, and children and families would no longer be served by the agencies with whom you have contracted.

Now just because we can no longer serve them does not mean that these children will not need services. Children will still come into the state's custody. But they will come—and stay—in the system at greater costs to the state ... at great costs to their futures ... and at great costs to our society.

In my day-to-day work, I am involved in an organization which has been helping North Carolina's children and families since 1899. Methodist Home for Children is one of the largest private child welfare agencies in Eastern North Carolina, and we have developed a variety of programs to help troubled young people and their families. The budget cuts you are considering would not only devastate most of our programs, but also many, many young lives. Let me be specific about several of our program areas which would be affected:

- **Family Preservation:** We work hard to keep families together ... to intervene with intensive counseling and support to keep children at imminent risk from coming into foster care. If you eliminate funding for Intensive Family Preservation Services, our IFPS program will close. More

FAX 919.755.1833

www.mhfc.org

children will be removed from their families and placed in the custody of county departments of social services, thus increasing the state's short- and long-term costs.

- **Foster Care:** Most of our children and teens served through our programs have been referred to us from your local departments of social services. The young people we care for are difficult to place, and have histories of abuse and neglect. If you cut the State Foster Home Fund, it will cripple our foster care and group home services. Already this year, Methodist Home for Children has seen a 20 percent decrease in reimbursement from the State Foster Home Fund, thereby forcing us to close group homes in Wilmington, Fremont, and Laurinburg. We have increased the fees we charge to the counties to continue serving your children. Counties cannot absorb any further cost shifting from the state.
- **Adoption:** We find permanent families for teenagers, sibling groups, and other young people who are desperate for parents they can call their own. If you eliminate Special Needs and Adoption funds, our adoption program will be severely impaired. Fewer children and teens will find adoptive parents to love them and keep them from harm. Again, North Carolina will keep children longer in foster care—costing the state more money—rather than moving them out of the state's care and into permanence.

We would like to continue to be your partners in making the world a more humane place. We are part of your public that will support a variety of courageous efforts you make to do the right thing to enhance North Carolina's revenues. We urge you to remember those who have no voice ... the children and families we serve together. On behalf of our board members, volunteers, adoptive and foster moms and dads, and North Carolina's most vulnerable children and families, I thank you.

GIVE A CHILD
AND A FAMILY
A CHANCE!!

May 6, 2002

Dear HHS Appropriations Committee:

RE: Intensive Family Preservation Services-Expansion Funds

We are all keenly aware of the State of North Carolina's financial crisis. This crisis is having a major impact on many people, especially children. As the executive Director of Rainbow Center, Inc., I am particularly concerned about the troubled youth we work with. Children don't advocate politically or financially for themselves and they most definitely do not possess the skills to advocate for funds to support their critical needs. I hope that you will allow me to share my concerns with you about this very serious problem. Please take a moment to read the following story:

When Billy arrived at Rainbow Center for Children, he was very aggressive towards the teaching parents and other residents. They reported that he kicked, screamed, bit and pinched when he did not get his way. At age 5, he was unable to do many age related tasks including using the bathroom by himself, sitting at the table for meals or going to bed without throwing a tantrum. At home his mother had apparently done these things for him and had slept with him at night. His manners were poor, he could not use a napkin, did not say please or thank you and had difficulty expressing his needs verbally. Because of his refusal to follow adult instructions, the teaching parents assisted him to the timeout chair numerous times throughout the day. At first he was resistant. He screamed, got up and walked away, kicked the walls and staff, and made a hole in the chair upholstery. Outings with him were embarrassing and difficult. When he lived at home public tantrums had usually gotten him what he wanted. Our staff was exhausted and frustrated dealing with such behaviors day after day, just like his mother had been.

Gradually, however, the teaching family behavior model that we use at Rainbow Center, began to have an effect. He started going to the bathroom himself, stopped hitting and kicking others, earned the right to sit at the table (he had been banished to the counter previously), earned the privilege to go on some short outings, spent less time in timeout, went to sleep on his own after a story and prayers, and most importantly began expressing himself verbally rather than through bad behaviors. He even became the group home's "Miss Manners" by reminding the other children to use their napkins, greeting skills and appropriate voice tones.

After three and a half months he left Rainbow Center to go to Amos Cottage for an evaluation and then home to live with his mother and younger brother again. The Family Counselor of our "Families at Home" program then began to work with the mother, Billy and his younger brother to ease their transition into the home. Our counselor coached mom in setting expectations, using consistent discipline and dealing with the children's special needs. She also urged mom to put Billy in a preschool class rather than a daycare to further his development and independence.

When our evaluating therapist visited the home, she was greeted warmly by Billy who introduced himself as he was taught to do at the Rainbow Center. He was very polite and showed her some Christmas presents he had received a few days previously. He sat at the table to eat his supper and responded to his mothers' instructions. Our therapist observed mom re-directing him on several occasions, which she did firmly and consistently when he tried to interrupt her conversation. It appeared that he and his mother were doing well.

Six months later, the therapist had the opportunity to see Billy in the school setting. He had transferred to the public school as recommend by our "Families at Home" counselor. The evaluating therapist observed him sharing a toy with a peer. When the teacher directed him to come to the table to do his work, he responded promptly and without resistance. His teacher reported that he is among the best behaved children in her class, gets along with the other children, is seldom aggressive and is almost always very polite and mannerly. What a difference the programs at Rainbow Center have made in the lives of this young child and his family.

We have many other success stories like Billy. So I ask you, does it make sense for the State to cut funding to a program whose track record demonstrates the benefits of prevention? Had this child not received these invaluable services he most likely would have ended up in what we call a Level III program, which can cost upwards of a \$100,000 per year. Instead, he and his family were served by our programs, for a period of less than five months at a cost of approximately \$11,000. Does it make any sense from a financial perspective to cut programs that save the State government money? Does it make any sense to delete funding to a program that saved this child and family the trauma of not growing up in his own home? It is proven that an ounce of prevention is more cost effective than a pound of cure. We respectfully ask that the State Budget office reconsider cutting funds to this program. In a time of financial crisis, cutting services to families and children will only make the problem bigger.

I encourage you to give serious, careful consideration to budget cuts that target children in crisis. Continuing support of children's programs could mean the difference in children's and families lives and in the long run help with the budget deficit. If children can be served in the most successful and cost efficient manner, it only makes sense to invest and save the dollars.

Sincerely,

A handwritten signature in black ink, appearing to read "Glenda Andrews". The signature is fluid and cursive, with a long, sweeping underline that extends to the right.

Yolanda has given you a good picture of some of the things the Adolescent Parenting Program does to help teen mothers. I have had the privilege of working with teen mothers for the past eight years in Johnston County. When we first began our program in 1994, Johnston County had as many as 300 to 330 new teen mothers every year with 40% of these teen moms getting pregnant the second time before high school graduation and 60% dropping out of high school.

We now work with 70 to 80 teens every year, forming support groups in every high school and middle school when needed. We help them stay in school by working with teachers in attendance and make-up work. We help the girls with Day Care costs, employment, medical care for both the mom and the baby, graduation, college entrance, family problems, transportation for babies to go to Day Care and moms to go to school. We teach parenting also to the girls to help reduce child abuse and neglect. In essence we do whatever it takes to get them through high school. We run beside them and encourage them and we open doors they cannot open for themselves.

As a primary prevention piece we also form speaking panels that go to every middle school in the county and speak against teen pregnancy. The girls share the realities and heartaches of teen parenting and give an abstinence message.

It is a true support program and one that works. We have served some 400 girls in the last eight years, seeing 145 graduate with one half of these graduates entering college. Over the years we have had an average of 9% dropouts and a 4% second pregnancy rate.

Consider the facts. If we did not have the Adolescent Parenting Program, tax payers would see an increase in second pregnancy costs and high schools dropouts. Medicaid costs would rise; more teens and their babies would enter the child services system, causing the state to pay exorbitant prices for foster care, attorney fees, court costs, etc. Teens would be receiving the Work First checks where now teen mothers are encouraged to go to school and get a part time job leaving Work First for a last resort. In summary money that is saved by not having the APP program would be spent in other areas of service that would increase due to the absence of APP.

I realize your task is a difficult one, but I urge you to consider the repercussions of cutting APP.

Sincerely,

Ann Arant
Johnston Co. APP Coordinator

North Carolina Legislature
Health and Human Services Joint Appropriations Subcommittee
Thursday, May 9, 2002
Testimony Presented for N.C. Citizens for Public Health
by Edward V. Ellis, Ph.D., President

Public health in North Carolina is a valuable service for our citizens. Yet it, like other state programs, has taken very painful cuts for the past several years. The North Carolina Citizens for Public Health firmly believe that the proposed cuts will be even more painful and will greatly affect the health of the citizens of our state because it gets to a most fundamental and valued goal – that all of our citizens should have access to health care. It is a known fact that prevention is a critical and important aspect of this care. Eliminating health prevention programs now will cost us more dollars in the future.

We know that many of our citizens, particularly the young and the old, do not have health insurance or at best, very limited insurance coverage. As a result, our local Health Departments are the last resort for those who cannot obtain health care. The child health programs and the adult health programs are now eliminating nursing positions and other critical allied health positions that provide care for our citizens.

The N.C. Citizens for Public Health respectfully request that you do everything within your power to stop the direction in which we are heading that will ultimately result in limited or no health care for our citizens. We fully support the following options that would contribute to increasing revenues to meet our almost two billion dollar shortfall. Such options include:

1. Increase in cigarette tax.
2. Modernize Sales Tax to include additional professional services.
3. Eliminate tax loopholes.
4. Eliminate Business Incentive Taxes.
5. Increase Income Tax of persons earning \$75,000 to \$125,000 per year.
6. Eliminate tax cuts for corporations.

We think that your positive consideration of these and other options will help stop the downward spiral of health care and preventive care in our state.

We need your help!

Thomasville, NC 27360

Summary Remarks Submitted To The Health and Human Services Joint Appropriations Subcommittee on May 9th

Presenter: Pastor E. L. White, M.Div. Chair NC AIDS Advisory Council, Pastor Mount Sinai Faith Hope and Love Ministries, CEO Mount Sinai Health Ministries, Exec Board National Minority AIDS Council, Planning Committee for National STD Conference, Centers for Disease Control, Coordinator North Carolina Faith Initiative and member of State Community Planning Group.

Mr. Chairman and Distinguished committee members:

I am submitting this letter summarizing my concerns in regards to any cuts to the North Carolina AIDS Drug Assistance Program. In fact I want to go on record and ask you to increase funding to this program which saves many lives. The AIDS Drug Assistance Program (ADAP) provides critical medications for persons living with HIV infection, extending their lives and enhancing their productivity. ADAP is intended to reach low-income HIV-infected persons, including those who are employed without insurance benefits and those who do not qualify for Medicaid. Recently a freeze was placed on new enrollees into ADAP only six months into the fiscal year as a result of inadequate funding. This freeze on the acceptance of new ADAP enrollees will result in:

- I) Denial of access to life-saving medication for a substantial number of HIV -infected individuals.
- II) Significantly increased health care costs due to hospitalizations related to HIV / AIDS that would have been prevented by timely HIV therapy. These costs will be borne by public and private hospitals and ultimately by the state and North Carolina taxpayers.
- III) Increased Medicaid enrollment as many of these patients AIDS complications lead to disability.
- IV) Increased HIV transmission, amplifying the HIV/AIDS related costs home eventually by the state.

New medications for HIV-infected persons have benefited North Carolina citizens in several ways. They have reduced transmission from mother to infant dramatically- no new HIV infections were reported to infants born in NC in 2001. In addition, sexual transmission rates may decline when HIV-infected persons are taking their HIV medicines consistently. These medications can also dramatically prolong survival and improve functional health status. We have witnessed that when patients believe that they are living and not dying with HIV/AIDS, they become more productive members of society, working, paying taxes, and changing risky behaviors. Indeed, this strategy has been an important focus of prevention efforts in North Carolina. I am submitting a fact sheet which contains other important information about this critical program.

All of us have witnessed the impact of these medications in the lives of individual patients. But beyond this, from a fiscal perspective we also highlight the tremendous multiplier-effect that this investment affords our state. We cannot afford to close a program that addresses a health care crisis in such a cost-effective way. **Continuing ADAP is a fiscally sound investment.**

Please take whatever steps are necessary to enable ADAP to reopen to new enrollees immediately, and to assure that adequate funds are available on an ongoing basis to serve all HIV+ North Carolinians at a financial eligibility level equal to 200% of the federal poverty guidelines. **You cannot cut this program.**

As you know HIV/AIDS and other Health conditions disproportionately affects minorities in North Carolina. **We all find that unacceptable.** HIV disease affects all of us. I know and understand you have hard jobs, **but you must do the right thing for our people – SUPPORT THIS PROGRAM.**

NC HIV Medications/AIDS Drug Assistance (ADAP) Program

The North Carolina HIV Medications Program, also referred to as the AIDS Drug Assistance Program (ADAP), helps low-income residents of the State obtain life-sustaining medications to fight HIV/AIDS and the opportunistic infections which often accompany the disease.

The AIDS Drug Assistance Program is Critical because:

- o The medications provided by the ADAP Program improves and extends people's lives, improves their functional health status (often allowing them to return to work) and enhances their productivity and contributions to, instead of their dependence on, the community/society;
- o The transmission of HIV disease is reduced when individuals' viral loads are reduced, one of the positive results of using the HIV medications on a regular basis;
- o Health/medical/hospital/other costs to the individual and to the community/society are lessened when HIV+ individuals avoid opportunistic infections and other complications/progression of the disease;
- o Transmission of the HIV virus from mother to newborn can be dramatically reduced with appropriate provision and use of these medications; and,
- o Inconsistent access to the medications may contribute to the virus becoming resistant to the medications, thus making it harder to treat the individual and more dangerous to the community and society in general.

A Few Key Points:

- o In 2001, the number of new HIV cases in NC reported increased by almost 10%; the number of new AIDS cases increased by almost 30%! Of 34 states reporting HIV infection, NC was 4th in the number of new cases reported!
- o HIV/AIDS disproportionately affects minorities in NC; although racial/ethnic minorities comprise about 25% of the population of the state, 75% of the HIV/AIDS cases reported in the state occur in these minority populations!
- o HIV medications are a cost-effective approach to treating HIV disease.

In order for someone to be eligible for ADAP, the individual must:

- o Be HIV+ (have HIV disease or AIDS);
- o Reside in North Carolina;
- o Have a net family income that is at or below 125% of the federal poverty level (e.g., \$11,075 for a family of 1, \$22,063 for a family of 4). NC's financial eligibility criterion of 125% of the federal poverty level is the lowest in the nation;
- o Not have any other third-party coverage (e.g., private insurance or Medicaid) that pays for these medications; and,
- o Have a (or several) prescription(s) for medications that are included in the ADAP formulary; the medications provided under this Program are limited to those specifically related to the diagnosis and treatment of HIV disease/AIDS.

What is the current status of the Program?

- o The Program is currently closed to new applicants due to budgetary limitations; no new clients have been added to the Program since December 15, 2001. All clients that were enrolled in the Program on December 15, 2001 continued to be served through March 31, 2002.
- o A waiting list was begun December 15, 2001. As of April 29, 2002 there were ~450 individuals on the waiting list.
- o All clients that were enrolled on December 15, 2001 and who have applied for ongoing coverage in a timely manner and who continue to qualify for the Program have been re-enrolled in the Program for the new year (which begins April 1 of each year). As of April 29, 2002, there were ~2,000 individuals enrolled in the Program for the new year.
- o All of these re-enrolled clients will continue to be served for the full year, or to the extent possible given the funds available to the Program. No clients will be moved from the waiting list and added to the Program until at least July 1, 2002, when a complete financial and utilization analysis will be conducted.
- o Program financial eligibility remains at 125% of the federal poverty level. The Program has permission to phase in an increase of the financial eligibility to 200% of the federal poverty level, and will do so once sufficient financial resources are available.
- o It is anticipated that the ADAP Program's budget for the next state fiscal year (2003) will be approximately \$20.7 million. It is projected that a total of approximately \$24 million, or about \$3 - \$4 million more than is anticipated to be available, will be required to continue to serve all currently enrolled clients for the full fiscal year at the 125% eligibility level. It is estimated that an additional \$4 - \$6 million would be required to re-open the Program to new enrollees at the 125% eligibility level.

GOAL: ASSURING THAT ALL THOSE WITH HIV DISEASE WHO REQUIRE THESE MEDICATIONS HAVE ONGOING ACCESS TO THEM IS NOT ONLY THE RIGHT THING TO DO; IT IS A SOUND FINANCIAL AND COMMUNITY/SOCIETAL INVESTMENT. THE PROGRAM MUST BE RE-OPENED TO NEW ENROLLEES IMMEDIATELY, AND MUST BE ASSURED THAT ADEQUATE FUNDS ARE/WILL BE AVAILABLE ON AN ONGOING BASIS TO SERVE ALL HIV+ NORTH CAROLINIANS AT A FINANCIAL ELIGIBILITY EQUAL TO AT LEAST 200% OF THE FEDERAL POVERTY LEVEL!

Summary of Testimony by Rob Schofield,
on behalf of the N. C. Low Income Housing Coalition
and the N.C. Justice and Community Development Center
to the Joint Health and Human Services Appropriations Committee
May 9, 2002

The purpose of my testimony is to call the attention of committee members to a cut that is proposed as a result of the potential reallocation of the TANF block grant. Under the proposals circulated last week, a critically important and unique program that last year provided \$2.7 million in housing assistance to folks attempting to transition off of welfare will be completely eliminated. *In our judgment, there is no other single factor that is more critical to the success or failure of a family attempting to leave welfare than access to decent affordable housing.*

Description of the Program -- In 2000, the General Assembly set aside \$3 million of federal TANF funds for housing assistance programs that would help families transitioning from welfare to work. Pilot projects were initiated in eight counties: Wake, Durham, Orange, Mecklenburg, Edgecombe, Catawba, Buncombe and Forsyth. Each county was allowed to structure the program in its own way, to best meet the needs of that community. In 2001, the appropriation was cut to \$2.7 million, but the programs continued to serve local families and assist them in leaving homelessness or dependence and finding a place to live.

Most of the programs include some form of counseling—classes on successfully negotiating the maze of finding a rental unit, budgeting advice, or homeownership counseling—to help families achieve self-sufficiency. They also may include rental subsidies or assistance with a deposit on a rental unit, to help those families get a foothold when they are just entering the working world. These subsidies then decrease with time, as earnings increase.

Most of the programs subcontract out to nonprofit organizations in the community, and many have successfully leveraged local dollars to extend the program further or make up for the funding cut in 2001. Some programs tie in with other state and federal housing and poverty reduction programs to further assist low-income families.

The programs have been very successful. Accessibility to decent and safe housing is intrinsic to family well-being and self-sufficiency, and the fact that each county can tailor its program to meet local needs means it can be highly responsive and community-based in helping those families who are leaving welfare. Thousands of people throughout the state have successfully transitioned from welfare to work and/or avoided homelessness as a result of the program.

Recommendation – Housing advocates recognize that this proposed cut is, in large measure, a function of the resurgent growth in the demand for cash assistance. We do not suggest that either service should be funded at the expense of the other. Instead, our point is to make Committee members fully aware of how essential this program is and to reiterate the comments made by others here today that the state must find additional revenue to pay for essential services.

APP MAKING THE DIFFERENCE

According to popular belief, in my culture I should be at home taking care of and perhaps having more children, but the APP program showed me that there was more to life than that. This program doesn't only help Hispanics but it also helps a variety of teenage moms with diverse economic standards.

I became a teenage mom as a junior. When I first found out I was pregnant, I was depressed and had no family support. From there, my only intentions were to drop out of school and take care of my baby. However, thanks to the APP program, which opened its doors to me, I am now a senior and will graduate this year.

Also, one of the most important things I've learned from this program is CPR which I used in real life with my son. I thank APP for having taught me this technique in one of our meetings, because I saved my son's life because he was choking on a cookie. This lesson made a difference in my life.

The APP program has not only encouraged me to keep on going but it has helped me to face many challenges. I have been able to keep good grades and attendance. As a result the APP program has help me to apply for the scholarships and Pell Grants I need to attend college this fall. I have now received a full Ambassador Scholarship and will attend Johnston Community College in August 2002.

Yolanda Saucedo

Lenoir/Greene

Partnership For Children

PO Box 6490
Kinston, NC 28501-0490
(252) 939-1200

Keith Sylvester

Executive Director

The North Carolina Division of Child Development and the local County Department of Social Services cannot administer the Child Care Subsidy Program in the most efficient and cost effective manner.

Smart Start Funds to Lenoir County Department of Social Services

- \$168,157.00 for Child Care Subsidy Program Administration
 - \$96,152.00 Direct Personnel Cost (57%)
 - \$72,005.00 Indirect Cost (43%)

Lenoir/Greene Partnership For Children Administers the Greene County Child Care Subsidy Program

- \$70,000.00 Personnel Cost Smart Start Funds
- \$0.00 Administrative Cost

FY 00/01:

The Lenoir/Greene Partnership For Children funded Head Start's Before & After School and Summer Child Care for **\$108,731.12**. **115** children were served.

FY 01/02:

Head Start's Before & After School and Summer Child Care Smart Start allocation funded through the Department of Social Services subsidy system. The Lenoir/Greene Partnership For Children had no control over these expenditures.

Costs: **\$130,188.00** (Year-to-Date: 10 Months → June - March)
70 children were served.

The Lenoir/Greene Partnership For Children can provide the same level of Child Care Subsidy service delivery at 30% to 40% less than the Division of Child Development/Department of Social Services Child Care Subsidy Program.

Recommendations

- Eliminating 30% subsidy mandate on Smart Start Funds.
- Allow local Smart Start Partnership's flexibility and authority to provide funding in the most cost efficient manner.

May 7, 2002

The Honorable William Martin
Chairman
Senate Appropriations Subcommittee On Health and Human Services
North Carolina Senate
411 Legislative Office Building
Raleigh, North Carolina 27601

Dear Chairman Martin:

I thoroughly understand and sympathize with the challenge you have in dealing with the state budget this year. I did, however, want you to know about a program that works and is scheduled for elimination.

It is my understanding that the State House and Senate Joint Appropriations Committee has issued a draft budget proposal for Fiscal Year 2002-2003 that would eliminate the family preservation programs under the Federal TANF program. As you know, this \$280,000 program receives its entire funding amount from the Federal government. No state funds have been used to fund this program so it seems odd that the state is now considering redirecting these Federal funds to areas outside of their intended use.

I have seen first-hand how effective this program is at the grassroots level with a program in Charlotte—Youth Homes, Inc. Using this family preservation program money, Youth Homes has served 79 families with 229 children and has kept 215 of these children out of the foster care system since 2000. Had just 110 of these children been put in foster care, the costs to the state for their care would skyrocket to \$1.1 million. This program is an economical, yet incredibly successful way to prevent families from being separated.

As you conduct a joint committee hearing on this issue on Thursday, please take this program and its proven results into consideration. Thank you for your attention to this matter.

Sincerely,

Sue Myrick

Subject: NC Partnership for Children/SmartStart

I would like to testify as to how much the Anson County Partnership for Children and SmartStart have helped me and my family. I attended the Parenting Program through the Partnership and learned some very valuable and helpful things. They offered really good informative classes and these classes helped me prepare for the birth and early months of my first grandchild. She is 15 months old now and I still recall and use a lot of the information I learned from these classes and the very knowledgeable guests and speakers.

I feel that if even more funding were cut from these programs a great injustice would be done to the citizens of Anson County and the State of North Carolina. I urge you to help protect our "future generations" by helping them get the very best start in life possible.

Thank you for your concern.

Sincerely,
Janet B. Ross

Anson County Partnership for Children has supported Anson Children's Center in many ways over the past several years. Through their support, Anson Children's Center has been able to obtain a 5-star rating giving children with disabilities and typically developing children in Anson County the highest quality daycare service possible. Anson County Partnership for Children has, and continues to have, a great hand in obtaining and maintaining this rating. In order to obtain and maintain such a high rating, staff must continually be trained. The local partnership office has provided many hours of training for daycare providers. Completion of Environmental Rating Scales have been completed in our facility by the partnership. The findings of the rating scale assisted staff in enhancing the services provided. Along with this, the partnership is highly involved with the local annual Health Fair at which time the health, vision, hearing, and cognitive development of the children is assessed. The needs of many children have been made aware through this effort. Most recently, a Resource Center was opened giving daycare providers, parents, and agencies an additional resource for child activities as well as research opportunity.

Without the continued support from Anson County Partnership for Children, many of the needs of children will not be met.

To: 'sharesep@ncleg.net'

Thank you for the opportunity to write in and request that my comments be included in the minutes of the Health & Human Services Joint Appropriations Subcommittee meeting to be held at 9:00 a.m. tomorrow, May 9. I understand that there are already many who have asked to speak and the agenda is full. I appreciate your efforts to allow for the "written" word, as well, and hope that whatever power these words speak is transforming.

My name is Lynn Horton, and I serve the citizens of the Town of Wadesboro in Anson County, North Carolina, as their mayor. On behalf of all the citizens, I implore you - as elected officials and leaders - to rethink the proposed 25% budget cut to Smart Start. I am well aware of the daunting task you have before you, yet I am not prepared for the kinds of excuses made that consistently reduce our efforts to impact our greatest asset and our future: our children. We are poor, rural, and struggling to offer healthy foundations for our families. Yet, we are rich with outstanding leadership committed to making Smart Start a program that has impacted hundreds of our children and families in the most positive manner many have ever experienced.

I have had personal experience working with many of the Smart Start programs. Friday, the Town of Wadesboro, in collaboration with Smart Start, will cut the ribbon on a beautiful new playground at our City Pond. Understand, this is one of the very few recreational places we can afford to offer our growing children. Dollars are always limited, and with the massive budget cuts in all other areas, we worked together to make funds "count more than once" and accomplish a dual purpose. The responsibility, communication, shared goal and right purpose worked well for us - how can it not work for our legislature? It is disappointing to work diligently at the local level and not be supported in our efforts by those who serve us in Raleigh.

And yet, I do understand that your task is overwhelming.

PLEASE reconsider your thinking and allocate funds so our children will not suffer. Trust that, in our community and many others, the difference made through Smart Start programs is critical to our future. We have been good stewards of the monies spent. We continue to work so those monies work for many purposes within our community. We have responsible, intelligent leadership that sets an excellent example and should be allowed to continue to do so. Give them your support, please. Specifically, give them the flexibility, if cuts must be imposed, to determine what activities should be cut. Offer them the chance to continue on with the staff it will take to facilitate the activities. Give them the opportunity to determine the local restructuring of monies allocated. Encourage the creative partnering with any other organization to "fill in the gaps" of what cuts might do. Eliminate unnecessary red tape and bureaucratic regulations that cost precious dollars. LET THEM CONTINUE TO MAKE A DIFFERENCE IN OUR TODAY AND IN OUR TOMORROW.

Thank you for this opportunity. I appreciate your consideration.

Lynn Horton

RE: Recommendations for Proposed Cuts for Smart Start

Dear Senator Martin:

I am writing to you regarding the proposed cuts to **Smart Start**. As you know, reductions of this magnitude and specificity would demolish this program's ability accomplish its mission of ensuring that *all* children ages birth to five, particularly those outside the school and Headstart systems, are nurtured and prepared for school when they reach age five. Considering that Hertford county is one of the poorest in the state, the following are just a few of the activities made possible primarily due to **Smart Start** funding:

- Newborns at Roanoke Chowan Hospital receive high risk identification services
- Childcare providers are able to increase their education levels which is essential in order for them to provider higher quality educational and developmental services to young children in their care
- Young children, particularly those in lower income, subsidized facilities receive the benefit of quality enhancement activities to ensure their safety and well being
- Teen and At Risk parents receive full benefits of the Parents As First Teachers program (a family support activity primarily funded through the Partnership)

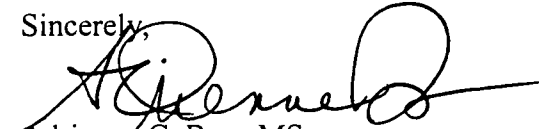

Please allow me to share with you a few recommendations that may help to save this program and ensure that no children, particularly the poor and disadvantaged children, are not left behind to fall through the cracks:

- *Require* all **Smart Start** funded contractors to sign a **Non-Supplantation of Funds** statement as part of the contracting process, that *specifically* attests that they do not receive any other state, federal or private funds that were initially given for services for which these agencies now request **Smart Start** funding; *and*, that they could not provide the needed services for children without **Smart Start** funding at level of their request.
- Require annual fiscal reports from each agency that shows the above
- In the true spirit of community collaboration (and not just 'checkbook collaboration'), require all organizations that receive over \$50,000 in **Smart Start** funding to provide an in-kind *service* to children *beyond* youngsters for whom they receive **Smart Start** funding.

- Please do not require Partnerships to arbitrarily maintain the 2001-02 funding levels for *all* subsidy-coded services, which includes substantial funding for Pre-kindergarten classrooms and Headstart activities. For example, nearly **14%** of Hertford county's total **Smart Start** services allocation currently goes to fund **36** children in two Pre-Kindergarten classrooms. However, our **total** population of children ages three to five is **788**, at least **334** of whom are in regulated childcare facilities. Please consider the following options:
 - For school systems that receive **Smart Start and More at Four** funds, allow **Smart Start** to reduce its funding level for Pre-Kindergarten classrooms so that **More at Four** funding can be maximized. In communities such as Hertford county, the Partnership is the *only* entity primarily focused on working with local, regulated childcare providers to ensure that children ages 3-5 *outside* the school and Headstart systems receive kindergarten transition services. If we are forced to channel large amounts of money to school systems through subsidy funds, a disturbingly high number of young children will be left out of the equation and my fear is that a significant portion of these underserved pre-schoolers will be 'greeted' with labels marked 'delayed' on their first day of kindergarten because they have not received appropriate transition services.
 - To save money and pool resources, another option would be to *require* local school systems to coordinate and collaborate with their local **Smart Start**, Headstart and childcare providers to conduct 3-4 kindergarten transition trainings sessions per year as a stipulation of receiving the **More at Four** grants so that a greater number of children are able to benefit from this initiative. A part of this plan should include the development joint, mutually agreed upon countywide transition plans so that children coming through either of these 'streams' are equally prepared.
- Require all Partnerships, regardless of size and/or allocation, to better economize use of their funds and where possible, share resources on a regional basis.
- Place clear restrictions on the use of **Smart Start** (and any other state agency) funds for training facilitators/ presenters; while some funding should be allowed for this purpose, it should be kept to a minimum, regardless to the subject matter. Instead, the focus should be on securing facilitators who are willing to reduce their fees or provide their services as in-kind (i.e. work with other state agencies or universities).

Please note that these are only suggestions aimed at preserving this needed service and ensuring that it is meeting its goals and mission in our community and indeed around the state. Please do not hesitate to contact me at (252) 398-4124 if you have any questions or would like additional information. Thank you in advance for your time and consideration.

Sincerely,

Adrienne C. Barr, MS
Executive Director

Health And Hope For
Tomorrow's Children

THE NORTH CAROLINA STATE MATERNITY HOME FUND

What is the State Maternity Home Fund?

The State Maternity Home Fund (SMHF) is a resource for high risk, disadvantaged, pregnant adolescents and young women of North Carolina who are unable to remain in their homes during the prenatal period. The fund provides maternity home care for those in need of an alternative placement during the pregnancy.

Target Population

The SMHF serves clients ranging in age from 11 and up who are in the highest risk category. Many who enter the maternity program are victims of physical and sexual abuse, incest, may be escaping a violent relationship or family violence situation, may be homeless, their lives may be endangered because of a perpetrator, may be addicted to a substance, may be court ordered to a maternity home by a judge, may be neglected, may have physical/mental disabilities, confined to bedrest due to pregnancy complications or may be wheelchair bound.

Referrals

Clients are referred by medical and health professionals, DSS's, Health Departments, Juvenile Justice systems or judge's court order, shelters, mental health, substance abuse programs, churches, schools and other health and family agencies.

Services Provided

A comprehensive multi-generation service delivery approach is used: a safe place to live that provides structure and accountability, medical/prenatal care for protection and enhancement of both maternal and child health, case assessment and casemanagement services, individual, group and family counseling/reunification, coordination of educational/vocational services, early childhood development/parenting skills training to assist with prevention of child abuse/neglect, adoption support services, substance abuse education/prevention/treatment services, life skills training, spiritual enrichment, mentors, tutors and other collaborative services with community support agencies.

Implications for North Carolina

Based on our experience, we believe there will be an increase in the incidence of low birth weight babies, infant mortality/morbidity and babies born addicted to a substance. (From 1992 - 2001, the SMHF made maternity home care possible for 176-290 clients per year). Maternity homes address these issues by assuring the provision of prenatal care and assisting clients to remain drug free during the pregnancy. Reducing the financial investment through SMHF will result in increased medical expenses associated with poor health outcomes. (Example: Estimated medical cost for a baby born 12 weeks premature is approximately \$100,000 and for a baby born 14 weeks premature cost is \$130,000. - March of Dimes)

(over)

Brief description of 10 State Maternity Home Fund Clients who are currently being cared for at Florence Crittenton Services:

- ❖ 15 years old Court ordered to maternity home care
On Probation for simple assault
Mental Health patient (conduct disorder, depressive disorder, adjustment disorder)
Drinking alcohol since age 12
Mother is in prison
- ❖ 17 years old Court ordered to maternity home care
On probation as undisciplined minor, running away
History of substance abuse (marijuana)
- ❖ 17 years old
History of Mental health issues
Pregnant by one of her former high school teachers
- ❖ 18 years old
Medically complicated pregnancy
On bedrest, needs to use a wheelchair when she comes to meals, etc.
No place to live
- ❖ 14 years old
On probation for possession of marijuana
Was sexually abused by both her biological father and her step-father
History of substance abuse (marijuana, cocaine, used to huff)
Past living arrangements with a number of relatives and group homes
Both parents are alcohol/drug abusers
- ❖ 19 years old
History of behavioral and drug issues since age 10
History of substance abuse (Marijuana, cocaine, crack)
Wants to release baby for adoption
- ❖ 15 years old
Raped at age 8. Emotional/behavioral issues resulting from rape.
In detention for running away
- ❖ 20 years old
Severe Diabetic
Parents deceased, no family
- ❖ 16 years old Court ordered to maternity home care
On probation for breaking & entering
Bi-polar disorder - has spent past 3 years under psychiatric care
History of Substance Abuse (Marijuana, cocaine, crack)
Lives with grandmother. No contact with mother, father deceased, other siblings are in foster care.
- ❖ 13 years old
Sexually active since age 10, more than 10 different men/boys involved.
Living with extended family. Often there is not enough food in the household and client trades sex for food and marijuana.

Impact of Budget Cuts in Anson County

Our Realities:

- 28% of children live at or below poverty level
- Unemployment rate for February 2002 is 11.4%
- 58% of births (total) are out of wedlock. 77% of minority births are out of wedlock
- Infant mortality rate for the last three year period is 24/1,000 births compared to the state average of 8.6/1,000
- Our overall death rate in Anson County is 28% higher than the state average
- Rate of death from heart disease is 51% higher than the state average

Impact of Medicaid Cuts to Anson County Health Department

- The health department receives about 1.4% of the total Medicaid dollar in Anson County
- Medicaid revenues make up 27% of our budget
- These revenues allow us to provide a medical home for indigent patients; those without public or private health insurance
- Cutting Medicaid would decrease our ability to provide care for these patients thus increasing the death rate from preventable causes
- Providing care for these patients keeps them off disability, one of the largest Medicaid expense in NC

Impact of TANF Cuts to Anson County Health Department

- These funds are used to provide birth control to patients without Medicaid or the means to pay for birth control
- These funds are critically important to prevent unwanted pregnancy
- Cutting these funds would result in an increase in out of wedlock births and an increase in public assistance for these children

Summary

- Reductions in Medicaid to Health Departments = Increases in disability expense
- Reductions in TANF = Increases in out of wedlock births and teen pregnancies

RESPONSE TO PROPOSED BUDGET REDUCTION OPTIONS:
Elimination of Infant Formula Program in WIC

Since 1965, North Carolina has screened for the genetic disorder, phenylketonuria (PKU) in all newborns. A number of other disorders have been added to the screening panel since that time. This list includes, but is not limited to: tyrosinemia, maple syrup urine disease, methylmalonic aciduria, isovaleric acidemia, propionic aciduria, urea cycle disorders and 3-methyl crotonyl glycinuria. The North Carolina Newborn Screening Program was the first in the nation to add new technologies that have allowed the early detection of these disorders. It is now possible to detect, diagnose and begin treatment for these disorders in the first few days of life.

These treatments involve very restricted diets, which are supplemented with disease-specific metabolic formulas. Before the availability of the formulas, children with these disorders either did not survive, or if they survived, it was with devastating mental retardation and medical complications. The formulas are not available except through prescription from a metabolic physician. The average patient with these disorders requires between \$3,000 and \$7,000 worth of formula per year. Formulas are considered "food" by third party reimbursers and coverage is denied. Furthermore, two thirds of the families have no private medical insurance. The cost of formula is prohibitive to individual families, some of whom may have two children with the same disorder. The State of North Carolina has recognized the need to detect and diagnose newborns with these disorders and they must remain committed to treating them.

The benefits from treatment include prevention of mental retardation and death, allowing healthy children who can grow to be self-supporting adults; able to attend college, hold meaningful jobs and have families. The costs averted are the greater than \$125,000 per year for custodial care for the profoundly mentally retarded; the pharmacy costs for the treatment of intractable seizures and other medical complications; complex feeding devices; and various assistive devices for locomotion and communication. The theoretical cost to the State to care for our present PKU patient population, if untreated, would be greater than 12 million dollars per year.

It is very short-sighted fiscal policy for the State to cut from the budget the metabolic formulas that allow these infants to survive and lead productive lives.

WAYNE RAYNOR, M.P.H.

PRESIDENT

NORTH CAROLINA ASSOCIATION OF LOCAL HEALTH DIRECTORS

May 8, 2002

MY NAME IS WAYNE RAYNOR AND I'M HERE TODAY REPRESENTING THE N.C. ASSOCIATION OF LOCAL HEALTH DIRECTORS IN OPPOSITION TO THE PROPOSED OPTION OF REDUCING MEDICAID REIMBURSEMENT RATES TO LOCAL HEALTH DEPARTMENTS.

IT IS CLEAR THAT PUBLIC HEALTH IS NOT THE 2,000 POUND GORILLA IN THE CONSUMPTION OF MEDICAID DOLLARS. IT WAS NEVER THE MISSION OF PUBLIC HEALTH TO "CHASE" THE MEDICAID OR MEDICARE DOLLAR. HOME HEALTH IS A GOOD EXAMPLE, PUBLIC HEALTH WAS ASKED TO PROVIDE HOME HEALTH SERVICES YEARS AGO WHEN OTHER PROVIDERS WOULD NOT. PUBLIC HEALTH IS THE PROVIDER OF LAST RESORT. LOCAL HEALTH DEPARTMENTS DO NOT HAVE A PRIVATE PAYING PATIENT BASE IN ORDER TO COST SHIFT SEMILAR TO THE PRIVATE SECTOR. LOCAL HEALTH DEPARTMENTS ARE PROVIDING MORE THAN \$40 MILLION DOLLARS IN UNCOMPENSATED CARE (ONLY 50 CO'S REPORTING) THIS YEAR AND THAT AMOUNT IS GROWING RAPIDLY EVERY DAY. LOCAL HEALTH DEPARTMENTS ACROSS THE STATE HAVE ALREADY BEEN SEVERELY HURT BY BUDGET CUTS DUE TO THE DECISION TO WITHHOLD TAX DISBURSEMENTS TO COUNTIES. HEALTH DEPARTMENTS ARE PREPARING TO DISCONTINUE PREVENTIVE HEALTH PROGRAMS, LAY OFF STAFF, AND LIMIT OR ELIMINATE IMPORTANT SERVICES. THIS COMES AT A TIME WHEN LOCAL HEALTH DEPARTMENTS HAVE HAD TO DIVERT PRECIOUS RESOURCES TO BIOTERROISIM EFFORTS, WEST NILE VIRUS MONITORING, AND COMPLIANCE WITH THE FEDERAL HEALTH INSURANCE PORTABILITY AND ACCOUNTABILITY ACT. HEALTH DEPARTMENTS ARE DEFINED AS COST BASED PROVIDER FOR MEDICAID SERVICES. AS SUCH, THEY ARE TO BE PAID FULL COST FOR SERVICES PROVIDED. HEALTH DEPARTMENTS ARE ALLOWED TO

“COST SETTLE” AT THE END OF EACH FISCAL YEAR AND RECEIVE PAYMENT, (FEDRAL SHARE ONLY!!!), FOR ANY MEDICAID RELATED COSTS THAT WERE NOT COVERED BY THE MEDICAID RATES. IN REALITY THIS DOES NOT HAPPEN!! THE ADDITIONAL PAYMENTS MEDICAID PAYS AT THE TIME OF SETTLEMENT IS NOT FULL COST BUT ABOUT \$0.63 OF EVERY \$1.00 OWED. IN OTHER WORDS, LOCAL HEALTH DEPARTMENTS LOSE 27% OF THE RECEIPTS DUE FOR SERVICES RENDERED. CUTTING THE LOCAL HEALTH DEPARTMENT MEDICAID RATES FOR THE EVALUATION AND MANAGEMENT PROCEDURE CODES TO THAT OF PRIVATE PHYSICIANS WOULD SAVE THE STATE \$2.4 MILLION DOLLARS AND WOULD CAUSE THE LOSS OF \$5.4 MILLION DOLLARS IN FEDERAL RECEIPTS TO THE DEPARTMENTS A TOTAL LOSS OF \$7.8 MILLION DOLLARS. THIS REPRESENTS APPROXIMATELY 10% OF THE TOTAL MEDICAID RECEIPTS TO LOCAL HEALTH DEPARTMENTS. HEALTH DEPARTMENTS ARE PREVENTION ORIENTED. PERHAPS THE QUESTION IS NOT HOW BAD OUR CURRENT HEALTH STATISTICS ARE BUT HOW MUCH WORSE WOULD THEY BE WITHOUT THE SUCCESSES OF PUBLIC HEALTH. MANY HEALTH DEPARTMENTS HAVE PRIMARY CARE PARTNERSHIPS LOCALLY AND PROVIDE PRIMARY CARE IN THEIR DEPARTMENTS. ONLY WHEN N.C. HAD THE WORST INFANT MORTALITY RATE IN THE NATION IN 1988 DID WE DECIDE TO DO SOMETHING ABOUT IT – WE’RE CURRENTLY 45TH (NOTHING TO BRAGG ABOUT) AND LIKELY TO WORSEN WITH SEVERE CUTS IN FUNDING FOR MATERNITY CARE, FAMILY PLANNING, AND TEEN PREGNANCY PREVENTION. WHEN WILL WE EVER BE ABLE TO SUCCESSFULLY ADDRESS THE ISSUE OF HEALTH DISPARITIES? INFANT MORTALITY, CARDIOVASCULAR DISEASE, HEART DISEASE, AND STROKE CONTINUE TO STRIKE MINORITIES AT MORE THAN TWICE THE RATE OF WHITES. WE HAVE NOT MADE ANY PROGRESS IN CLOSING THE INFANT MORTALITY GAP IN 100 YEARS. THE COUNTRY OF CUBA HAS A 100% IMMUNIZATION RATE AMONG CHILDREN AGE TWO AND UNDER, A 99.6 % LITERACY RATE, AN INFANT MORTALITY RATE BETTER THAN WHITES IN THIS COUNTRY, A REGISTERED NURSE AND A NURSE PRACTITIONER IN

EVERY SCHOOL, AND COMPREHENSIVE HEALTH EDUCATION CURRICULUM IN ALL SCHOOLS K-12. WHY??? BECAUSE THE GOVERNMENT LONG AGO DECIDED TO FOCUS ON PREVENTION BECAUSE THEY REALIZED THEY DID NOT HAVE THE RESOURCES TO AFFORD ACUTE CARE. LOCAL HEALTH DEPARTMENTS ARE THE SAFETY NET FOR NORTH CAROLINA'S MOST VULNERABLE CITIZENS. WITHOUT ADEQUATE RESOURCES TO PROVIDE PREVENTIVE CARE CLIENTS WILL RETURN, IN LARGE NUMBERS, TO THE HOSPITAL E.R.'S. LOCAL HEALTH DEPARTMENTS SEE PATIENTS WITH MULTIPLE PROBLEMS THAT REQUIRE LENGTHY VISITS, LHD'S CARE FOR ALL CITIZENS, LHD'S MUST PROVIDE MANY OTHER STATE MANDATED SERVICES THAT ARE NOT MEDICAID OR OTHERWISE FUNDED, LHD'S, THROUGH CONSORTIUMS, HAVE A VERY WELL COORDINATED "CASE MANAGEMENT" APPROACH TO CARE WITH DSS, HEALTH, DEC'S, AND MENTAL HEALTH AT THE TABLE ON A MONTHLY OR BI-MONTHLY BASIS. I HEARD YESTERDAY THAT LOCAL HEALTH DEPARTMENTS MUST BECOME MORE EFFICIENT IN PROVIDING PRIMARY HEALTH CARE BUT I SAW NO DATA TO INDICATE INEFFICIENCIES IN LOCAL HEALTH DEPARTMENTS OR THE PRIVATE SECTOR. WE MUST ALL WORK TOGETHER TO SOLVE THE PROBLEMS OF HEALTH CARE DELIVERY. THE FOCUS MUST BE ON PREVENTION AND CUTTING MEDICAID REIMBURSEMENTS TO LOCAL HEALTH DEPARTMENTS SURELY IS NOT THE ANSWER.

THANK YOU.

I am Ken Tutterow, President and CEO of the Children's Home Society

Children's Home Society of NC—Established 1902—Has been providing foster care and adoption services to NC children for 100 years in the 100 counties.

Over 10,000 children are in the public foster care system in the state of NC. Of this number approximately 3000 are legally free for adoption and an additional 2000 may have a plan of adoption. These are North Carolina's "Waiting Children" and are the children we have served through our private/public partnership with the State for over 50 years.

In the last 10 years CHS found permanent homes for 722 children who were in the custody of DSS – 52% Caucasian – 48% African American.

In the last 5 years we have also provided foster care services to over 700 children.

Public Funding represents—42% of total budget

Private Funding represents—58% of total budget

I want you to meet The Barford children, Misty, Mary Ann and Erin, sisters from Alexander County who were ages 12, 10 and 8 when they met their adoptive family Mark and Michelle. Before being removed from their birth mother, these girls suffered severe physical, emotional and sexual abuse.

Five years and four homes later, CHS connected them with a High Point family who opened their home to these sisters. We recruited, trained and continue to support these parents as they network with community resources to continue to provide Misty, MaryAnn and Erin with a permanent, safe and loving home.

These girls are a shining example of the 104 other children CHS placed in 2001.

Without your funding, CHS would not be able to find homes, train families and build the lives of thousands of NC children just like these girls.

We understand the fiscal crisis our state faces. However, these children have suffered enough. If they are not helped to heal the ramifications are huge—lives will be destroyed—prisons filled. The cycle will be repeated. You hold the lives of over 10,000 of NC's children in your hands. Right now, you must fight the financial war for them. These proposed cuts would equal a 40% reduction in our level of service. It is impossible with today's economic climate for CHS to replace these dollars.

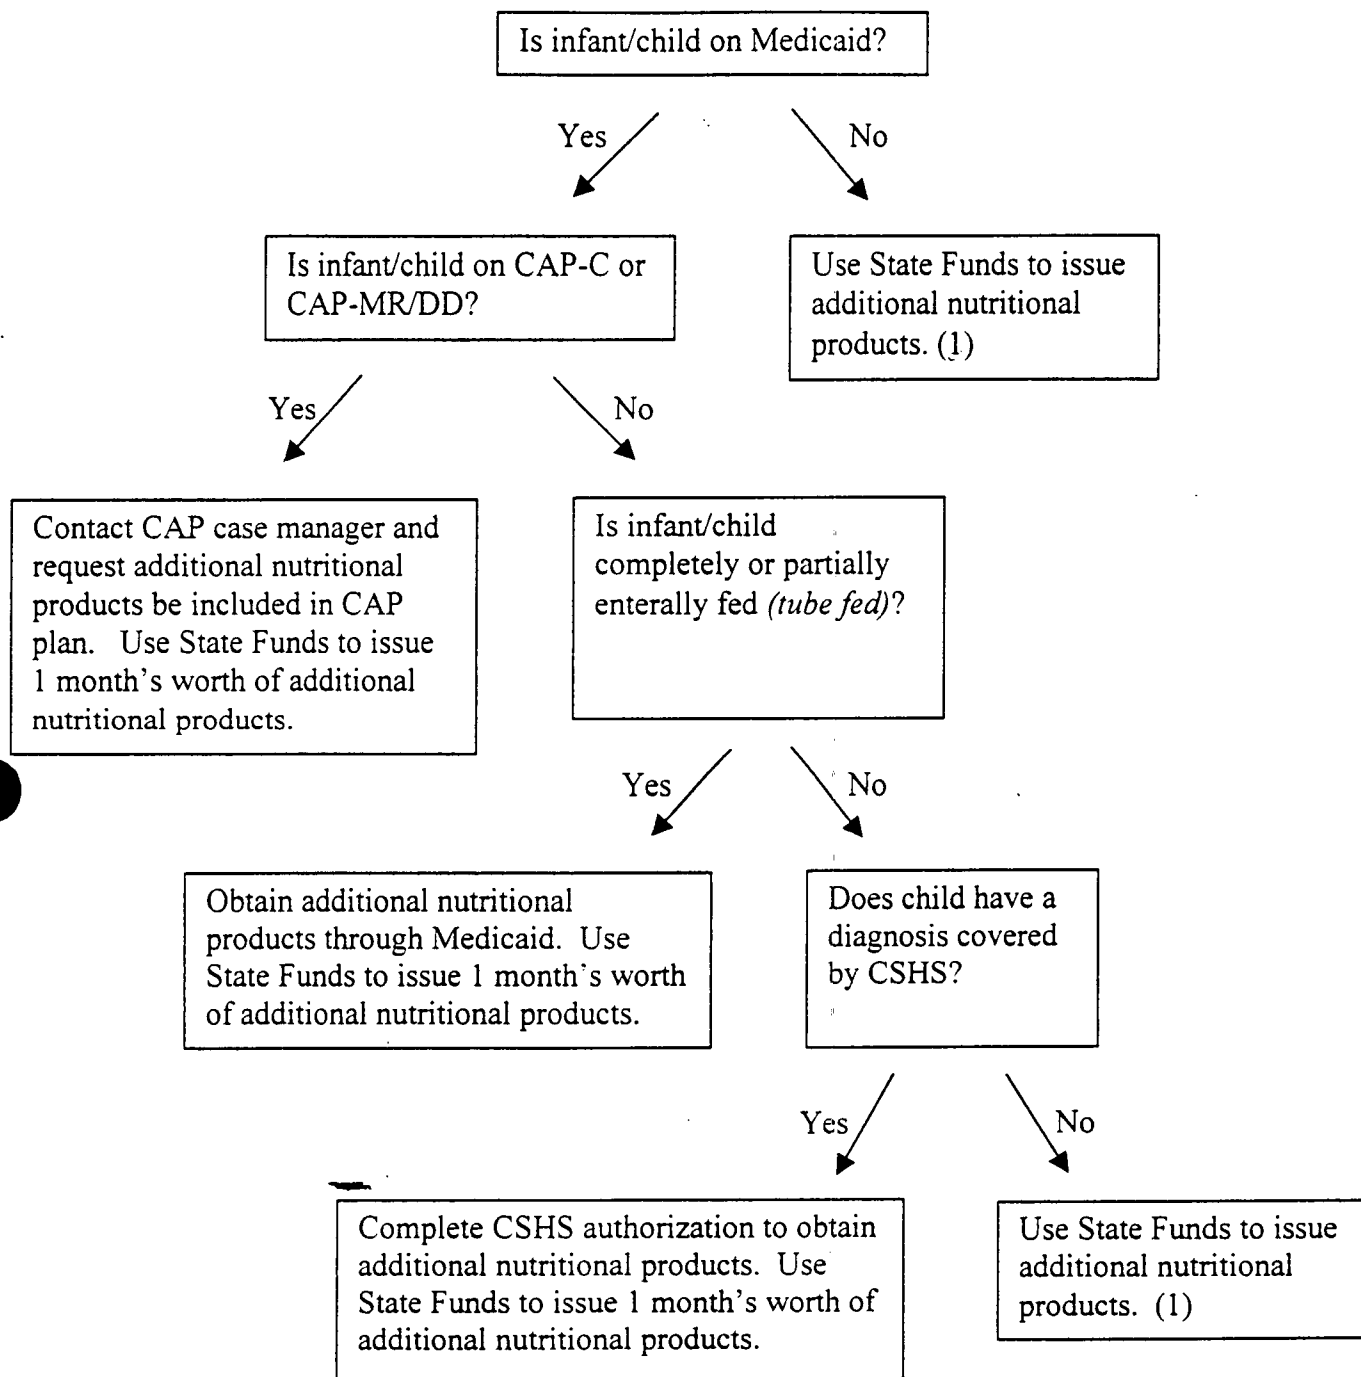

Please, help us protect NC's most vulnerable waiting children.

GOOD MORNING!!!

My name is Colleen Suite; my 10-year-old son is Cody. He has PKU. Cody could not be here today, he is at school taking End Of Grade testing. We receive the formula that he needs from the Health and Human Services department. If Cody did not receive this formula, he would require special needs help or institutionalization. He would lose IQ points and lose motor skill use. He would not be at Reedy Creek Elementary right now taking his End Of Grade exam. He is an A student and class president. His indoor soccer team went to the National Indoor Soccer Championship. This all would not be possible if he did not have this formula. I have a healthy; active child who loves school plays soccer and enjoys life. Please do not take that away from my son and I. He needs that formula to make a contribution to society, to be active in the community and just be a kid. Please I beg you as fellow parents, grandparents; aunts and uncles please do not cut this funding. I want to keep my healthy child.

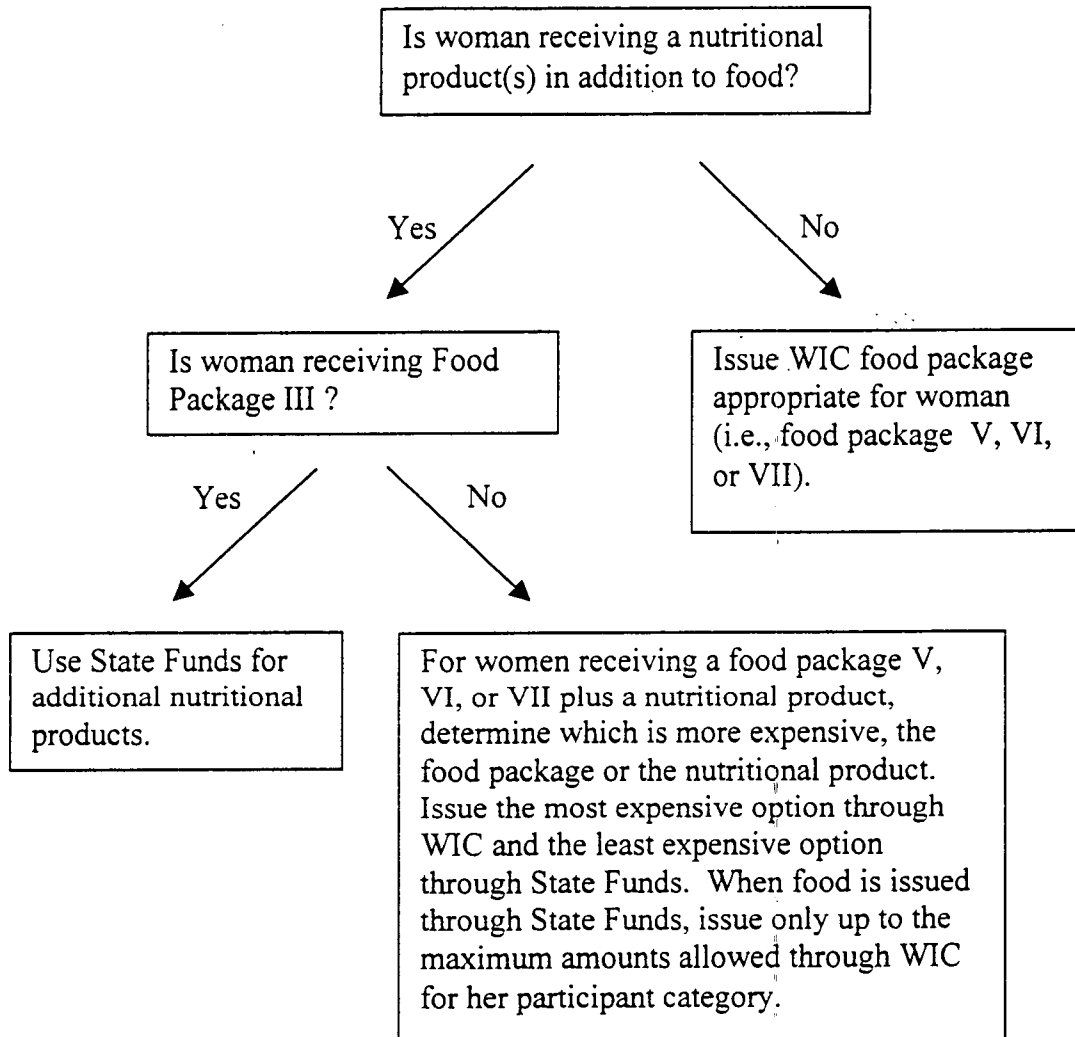

Decision Tree for Determining Funding Source of Nutritional Products Needed in Excess of the WIC Monthly Allowable Amounts by Infants/Children on WIC

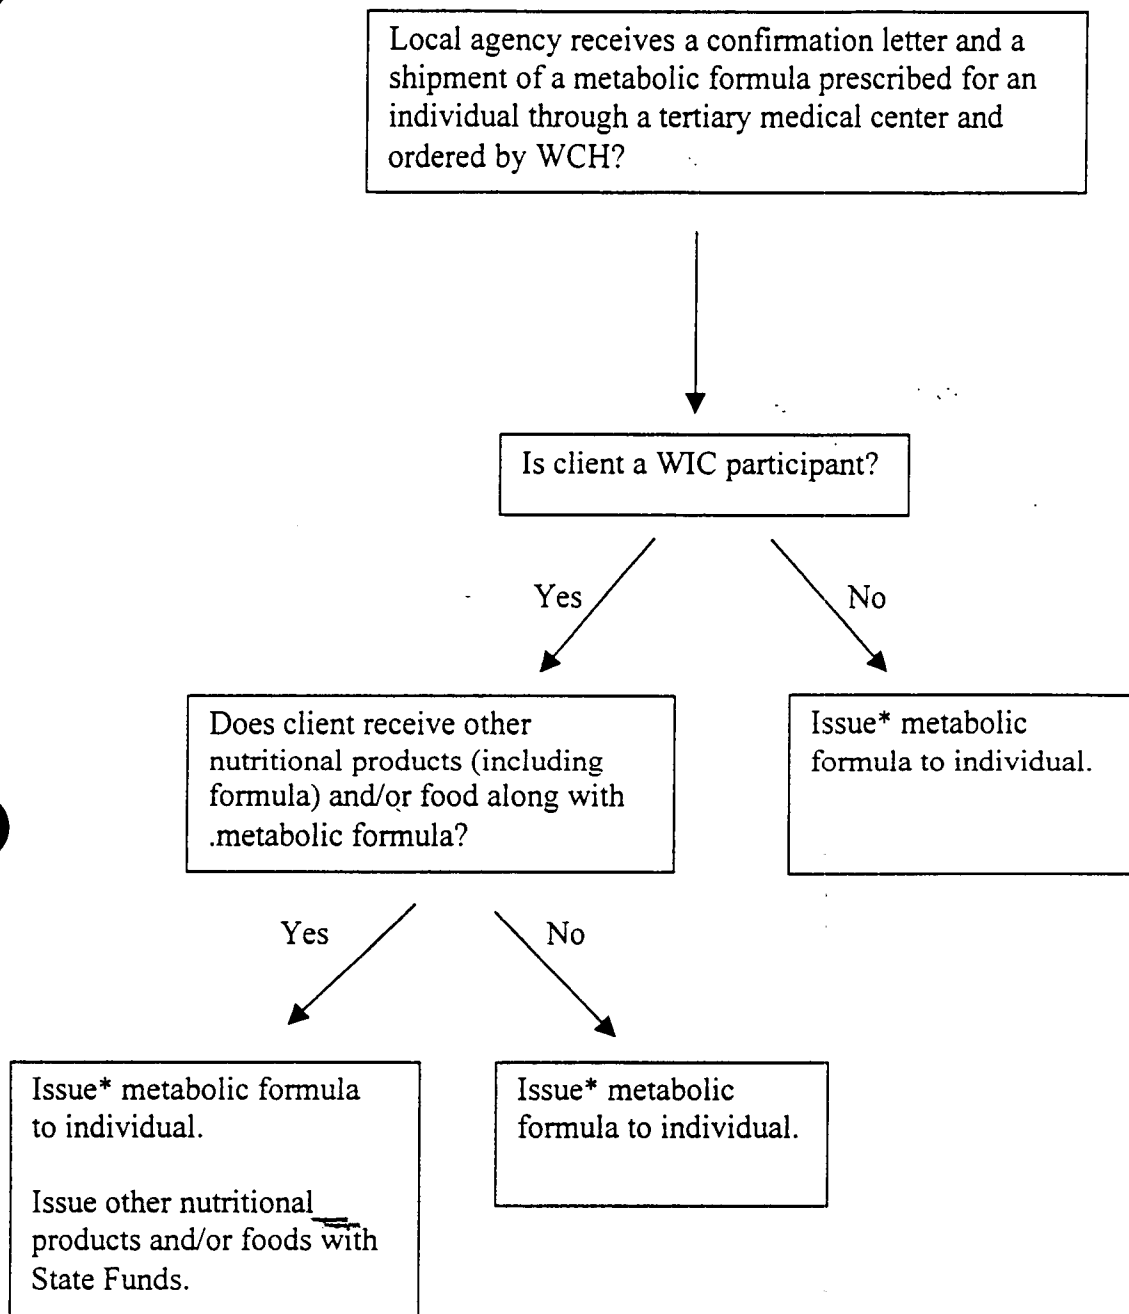

(1) For children receiving a regular child's food package (*i.e. food package IV*) plus a nutritional product(s), determine which is more expensive, the food package or the nutritional product. Issue the most expensive option through WIC and the least expensive option through State Funds. When food is issued through State Funds, issue only up to the maximum amounts allowed for children through WIC.

Decision Tree for Determining Funding Source of Nutritional Products Needed in Excess of the WIC Monthly Allowable Amounts by Women on WIC

Decision Tree for Issuing to Clients Who Consume a Metabolic Formula.

* In this sense, "issue" means: *provide the metabolic formula to the client/parent/caretaker and have them sign the nutritional products issuance log to indicate they received it.*

The Health and Human Services
Joint Appropriations Subcommittee
Room 643 Legislative Office Building
Raleigh

May 9, 2002.

Re: DPH Budget Reduction Options as Presented by NC General Assembly Fiscal Research Division. Total Reduction: approximately \$6 Million.

Dear Members of the General Assembly,

I am one of the WIC nutritionists in Wake County Human Services here in Raleigh. I work directly with WIC clients and WIC eligible clients in most of our clinics including the Special Infant Care clinic (Carelina -Wake Medical Center), Wake County Human Services clinics in Raleigh, Fuquay Varina, Wake forest and Zebulon clinics.

CONCERNS:

1. I hear from these clients daily about the burden of having to care for their high-risk infants and children and I often see the signs of relieve that follows when they are told that there is hope because they can get some help with special formulas that will provide the nutrition their infants and children need to thrive on, survive, become healthier and productive citizens.

Please reconsider the options presented and do not eliminate Infant Formula Program in WIC (\$790,000). This pays for prescription of the special formulas for infants, children and adults with a variety of high-risk medical diagnoses, please help do not allow this program to loose \$120,921 in federal funds.

- These clients have no insurance and cannot pay for these expensive formulas
 - Please help prevent costly follow-ups and costly treatments, these cuts will severely reduce, and possibly eliminate existing services, this is sad because WIC program's goal and focus is prevention
 - In Wake County alone we have over three hundred infants, children and adults on different special and metabolic formulas as a result of medical problems.
 - These formulas have been specially formulated to help correct and as well prevent other problems from developing
 - These formulas are essential and without your help many of these families will not be able to afford these formulas
2. **Please do not eliminate Farmers' Market Program (\$157,230).** This program provides coupons to WIC participants in selected counties to purchase fresh fruits and vegetables at their local farmers' markets. The program is designed to improve the nutrition of WIC clients while increasing the awareness and use of local farmers' markets.
 - Currently the program is not being provided for all eligible WIC participants

- For most of our WIC clients, this is the only opportunity they have to purchase fresh fruits and vegetables.
- WIC participants here in Wake County begin to ask for farmers' market vouchers as early as February/March each year.
- Dietary recalls often indicates the effective use of these fresh fruits and vegetables
- These fruits and vegetables provide indicator nutrients (essential vitamins and minerals) in our WIC participants' diet.
- Our clients value and appreciate your help and support for their families.

The needs of our North Carolinians continue to grow and at the same time you are being asked to make substantial cuts to state agency budgets and nonprofit partners.

WIC participation is on the rise; we currently serve over 10,000 participants monthly. please help us to continue to make prevention the focus of WIC program by encouraging and helping families to become successful, empowered, self sufficient, in good health, have self-confidence, promote happy and healthy relationships within families, respect, advancement, success in schools and become better and productive citizens of North Carolina.

Loss in any of the nutrition programs will contribute to

- Increase in poverty rate in North Carolina.
- Increase in infant morbidity and mortality rate in North Carolina
- Poor pregnancy outcomes
- Obesity and other chronic medical problems

Please do not allow this to set North Carolina progress back a decade or more.

I urge you to please raise revenue instead of making devastating budget cuts by

- Ending tax loopholes for corporations
- Working with the NC Congressional delegation to get Federal assistance
- Raising taxes if we must do so.

Thank you; your continuous hard work for the all the citizens of North Carolina is greatly appreciated.

Respectfully yours,

Victoria M Adeleke, MPH, RD, LDN
 WIC nutritionist
 Wake County Human Services

 Raleigh, NC.

Concerns of the Arturo Calderon & Margarita Montoya family regarding the proposed Elimination of the Infant Formula Program in the NC WIC Program

1. Twins: Yaritza & Yareli Calderon born 1/28/97, (5# 1.5 oz & 3# 12 oz respectively). They were born 1 month early, but grew well until they were almost 4 years old.
2. Suddenly in 12/00 Yaritza started having seizures, which were later diagnosed as Sitting Hands Chorea a rare neuromuscular disease. This required a 4-month stay at UNC Chapel Hill Hospital to manage. She could no longer run and play because of the involuntary muscle spasms she experienced and had to be confined to a special wheelchair. The doctors did not expect Yaritza would be able to walk again.
3. Yaritza was prescribed the Special Formula Peptamen Jr. because she could no longer eat solid foods and had to be fed by a nose tube. Medicaid paid for this formula since she was not eating by mouth because of the risk of aspirating her food.
4. After 11 months of tube feeding Yaritza was able to begin eating solid foods but still needed the special formula. The Infant Formula Program allowed the family to continue to receive the necessary special formula while the regular WIC program supplied the solid foods she needed to relearn to eat normally once again. After 1 year Yaritza was beginning to walk again.
5. Yareli and the twin's baby brother Arturo Jr. received regular WIC foods which helped as Arturo Sr. and Margarita tried to provide for their family's special needs and make ends meet.

Prepared by Pamela J Rock, RD (due to the language barrier, but approved by family)

WIC Program Director

Tri County Community Health Center

Newton Grove, NC

May 8, 2002

My name is Frank Fernandez. I am a NC citizen and Raleigh Resident. I am married and the proud father of 2 boys, Jason (1) and Alex (5). My family has been deeply and personally affected by the HIV Virus. My brother Joe, died of AIDS and my cousin is living with the disease. My brother, because of access to care and medications, lived long enough to be the best man in my wedding. He did not live long enough to know my children and be part of their lives.

My brother was able to live long enough, due to excellent medical care, medications and pure will, to complete a project that has grossed over \$70,000,000 and continues to employ people to this day. If Joe had not had access to the medications that kept him alive and had he died 3 or 6 months or even a year earlier, his project would have never been finished. His work continues to inspire youth to this day.

My cousin has been more fortunate than my brother, as he is still with us. He has been on medications and in care for many years now. He found out about his illness at an earlier stage in the disease than my brother did and was able to access care earlier in his disease. He has stayed healthier longer and continues to be a productive member of society. He works full time, pays taxes, and gives of himself to others who are less fortunate than he is. Without the medications, after a relatively short time, I am sure he would be unable to work, forced to seek disability and would need to use many services supported by the state and federal governments.

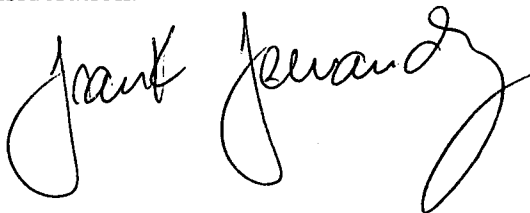

The disease has taken away enough from my family so far. Please help my cousin and others with this disease continue to contribute to society by continuing to fund the ADAP program at the current level. Please also consider increasing the funding by a minimum of \$5mm so that the program can serve those currently enrolled and committed to living and working - in spite of their disease.

I am responsible to my family, my community, and my god and to do the best job I can when faced with hard choices. I am aware that all of you are faced with impossible choices right now. A choice for ADAP would be the right choice for people suffering with AIDS and their families. A choice for ADAP would be the right choice for the state and its taxpayers as it would save money, reduce infection, be morally correct.

Thank you for your time and consideration.

**Comments by Kiki Dunton, NCPIRG Staff Attorney
Testimony to Department of Health and Human Services
Joint Appropriations Subcommittee
May 9, 2002**

My name is Kiki Dunton and I am the staff attorney for NCPIRG, the North Carolina Public Interest Research Group, a non-profit, non-partisan, public interest watchdog organization. Thank you for allowing me to speak today. While we, like everyone here today, are concerned about the cuts being made to important programs within DHHS, we want to urge you to look at methods of saving money beyond simply cutting programs.

Specifically, we ask you to look at the cost of prescription drugs purchased by several divisions within DHHS. In 2000, national prescription drug expenditures rose 18.8% and here in NC, Medicaid pharmaceutical expenditures rose even higher at rate of over 20%. Currently, there are more than 35 states considering different methods of saving money on prescription drug expenditures and we urge NC, and specifically this subcommittee, to look seriously at two of these methods.

First is an intrastate multi-agency purchasing pool. Implemented in states such as Texas, Georgia and Massachusetts, this would combine all pharmaceutical purchasing for departments and agencies that purchase pharmaceuticals, such as the divisions of public health and mental health, the department of corrections, and the state employees health plan. By aggregating purchasing from multiple state programs, the state would be able to demand greater price reductions from manufacturers. Texas expects approximately \$13 million in cost savings for the first two years.

Alternatively, NC could choose to participate in a prescription drug purchasing pool with other states. Representatives from NC participated in initial talks with the Southern States Coalition Pharmacy Working Group, organized by WV. Although we dropped out of discussions, the coalition recently hired a Prescription Benefits manager and we could still choose to participate.

The second method of saving money on prescription drug purchasing relates solely to Medicaid prescriptions. As you well know, the state recently decided to require prior authorization for certain drugs prescribed to NC Medicaid patients. We urge the state to go one step further and using a preferred drug list with prior authorization, negotiate directly with the drug companies to obtain additional rebates. NC would continue to participate in the federal Medicaid Drug Rebate Program and this would allow the state to simply receive a supplemental rebate from manufacturers. Florida recently initiated this program and expects to save approximately \$214 million per year.

While there are no easy solutions for our current budget crisis, NCPIRG believes that the options for saving money on prescription drugs are straightforward and would be of benefit to all North Carolinians. We urge this subcommittee to begin discussions on implementing these money saving programs and look forward to speaking with each of you about this in the near future.

Hello Committee Members:

The following letter is from a mother who is working diligently towards being reunified with her two children.

See attached letter.

At the ACORN Center for Families in Carteret County, Margarite has been assisted in finding employment, improving her parenting skills, appropriate referrals and encouragement to follow through on commitments she makes, and managing stress. We are currently working with her to find an apartment with a safe, nurturing environment for her children. We are working with Carteret County DSS to tailor Margarite's parenting education workshops to meet her specific needs and setting goals to reach by her June 28th Court Date. That is a Friday.

It will be devastating for the families ACORN is working with if we cannot open our doors on Monday, July 1st. Collaboration has been key to provide families in Carteret County with services and resources needed for success. With the proposed cuts, many of the key collaborators would not be able to have anything to offer or very limited resources. The Family Resource Centers have met several special provisions in order to receive continued funding – most importantly working closer with local DSS offices. For the ACORN Center for Families, this has proven to be so rewarding, we are actively recruiting potential foster families and providing family education workshops for the foster families. Families working towards reunification are setting realistic goals and obtaining the services they need.

The proposed cuts across DHHS will affect families on many levels - mental health, health care, and family functioning. Directly leading to more children in out of home placement. These cuts are unacceptable for the future of North Carolina. Lets find a compromise between cuts and holding the business community accountable for their fair share. With all of the business growth NC has experienced in the past decades one would have thought we could take care of our needs, our communities, our children – maybe too many tax deals have been made to spur business growth in North Carolina.

Families are working so hard make positive changes in their lives for their children.

Please remember that strong families equal strong communities. Please find a way to keep the family supportive, community based programs in place and allow them to meet the needs of their communities.

Respectfully Submitted By:

Mary Carmichael

Parent, Neighbor, Voting Constituent, Director of ACORN Center for Families, and Board Member of Carteret County Partnership for Children

1240 Harkers Island Road

Beaufort, NC 28516

To whom it May Concern,

The ACOPEL Center has really helped me on everything. Especially on learning how to manage a family to touching basic on encouraging me to improving my life style as a mother.

Please understand that without this program, Young and old will be lost. We as mother's need this

Thank you
Mrs Margaret Jaybo

Thank you for the opportunity to speak about the Private Duty Nursing program which is at risk for severe cuts in funding for the most medically fragile and vulnerable citizens in our state. They have tracheostomies, ventilators and feeding tubes and are totally dependent on licensed professions for survival. Three are with us today: David, Tricia, and my 19 year old son, Ari.

Herein lies the challenge: These three and others have a consuming desire to live at home. How do you determine the viability of living at home while cutting Private Duty Nursing to 10 to 16 hours a day for those 21 years and older.

I submit this for your consideration:

1. Medicaid is not saving money by reducing PDN hours.
 - PDN recipients are maintained at home without repeated hospitalizations or medical complications. One nursing home nurse stated that out of her 12 patients, at least six of them averaged a month per year in the hospital, each of them costing about \$100,000. On the other hand, Ari, David and Tricia have remained at home for years. It costs several thousand dollars a day in the hospital compared to several hundred dollars a day at home. In the long run, it can cost far more for a patient in a nursing home with hospitalizations than for even the most costly PDN case in the home.
2. Transitioning an adult private duty nursing client from home to a skilled nursing facility could be tragic.
 - How difficult it would be for the technologically dependent child's destination to be in a nursing home at age 21.
 - Clients and families on PDN have chosen to remain at home in the least restrictive environment with the Olmstead and ADA decisions supporting these rights.
 - Generally, there are only 5 skilled nursing facilities in N. Carolina with a total of 110 ventilator beds, 105 occupied, and 5 beds available. The nurse to patient ratio varies from 1 nurse to 4 patients up to 1 to 25 patients which can lead to inadequate care such as frequent infections and bed sores. Tricia has had only one bed sore in 20 years. And, each facility has different qualifications for eligibility, some accepting or not accepting those with antibiotic bacterial resistant organisms, obesity, and special wound care treatments. The vent unit in Charlotte that I visited last summer has since closed.
3. There shouldn't be a set rule for PDN hours because each case varies and is complex.
 - Many caregivers are single parents who work fulltime. The proposed cuts would mean doing 56-98 hours a week on my son's care. I would have to quit work and go on welfare, but I still would lose the choice to keep him at home, because no one person can do that many intense hours 365 days a year.

My recommendations:

- As a concerned citizen of this state, I hope that all of you have the courage to protect those who are our most vulnerable citizens. If that means raising taxes on tobacco, wine, beer, or closing tax loopholes, at least you know the priorities for life itself come first.
- Please do not cut PDN hours for our most vulnerable citizens.

Thank you for your time.

Respectfully,

Stephanie G. Anderson
6307 Old Corral St.
Charlotte, NC 28277
704/847-5601

Good morning! Ladies and Gentleman, thank you for giving me this opportunity to speak with you. My name is Helen Milleson. I am a CAP Case Manager with the Randolph County Community Alternative Program for Disabled Adults at Randolph Hospital. I have worked with the CAP/DA program for the past 11 years. As you are aware, the Community Alternative Program for Disabled Adults is a Medicaid funded program. Since October 1, 2001, no new clients have been added to the CAP/DA program statewide. Our agency has gone from a caseload of 153 on October 1, 2001 to 124 today. I would like to speak on behalf of 119 potential clients that are on the waiting list in Randolph County.

One of the clients on the waiting list and a candidate for the program is Mrs. T a 64-year-old female whom lives with her adult daughter. Mrs. T's daughter must work full time and goes to work each day worrying about her mom's care at home. Mrs. T makes fifty dollars too much per month to qualify for regular Medicaid without CAP. Unfortunately, due to the CAP freeze, she is unable to have any assistance in the home or with her medications. She must wake up around 5:30 in the morning and get out of bed, take a bath, dress and eat breakfast before her daughter leaves for work. Often she has to wait until her daughter comes home from work, about three in the afternoon to eat lunch. She spends almost half of her monthly income on medicines alone. Her health is continuing to decline and her daughter is looking for placement. She would prefer to keep her Mother at home, but does not have the **choice** of letting Mrs. T stay in the community.

I plead with you on behalf of this client and the other 6500 (as of April 3, 2002) clients on the waiting list across the state to end this CAP freeze. By ending the CAP freeze; our tax dollars would be spent wisely, caring for the elderly and disabled adults in their homes. Part of my job description is to monitor my client's budget. As a taxpayer, I often wonder why the State is encouraging more expensive nursing home care over cheaper in-home care services. According to an editorial that appeared in the Greensboro News and Record in January "CAP consumes a meager 3.6 percent of the overall Medicaid budget while saving 30 percent in average daily cost. Nursing home costs represent a whopping 17 percent of the total Medicaid budget."

Most of the senior citizens and disabled adults I know would prefer to stay at home. I am proud of working for the past eleven years with a program that has been a model for other states on dealing with long-term care issues. Why increase the nursing home population and costs when the CAP program is more cost efficient. I implore you to consider lifting the freeze and let the CAP/DA programs at least admit a new client, when a client is terminated. This measure would still slow Medicaid growth and be more cost efficient to the taxpayers.

How is the state of North Carolina going to address the situation when nursing home beds become in short supply? Without the help of the CAP program, many families are faced with a choice of quitting work or placing their love one in a nursing home. In Mrs. T's situation, the daughter would not be able to financially stay home and will be forced to seek placement for her mom. Being placed in a facility will present an unwanted and a more expensive solution.

I suggest that population should determine the number of CAP slots each county can have, and that each county should be allowed to maintain that amount, allowing new clients to be admitted as others are terminated. Ladies and Gentleman I plead with you to give your senior citizens and disabled adults a **choice**. I urge you to raise revenues instead of making devastating budget cuts. This can be done by raising taxes, working with the NC Congressional Delegation to seek federal assistance, increase taxes on cigarettes and alcohol, and using other sources of available state monies. By continuing the CAP freeze, you are slowly killing county CAP programs and the options for older adults. Without CAP, we are increasing our Medicaid cost now and for years to come. Thank you for your attention and allowing me to share today.

Helen D. Milleson

Fax (828)437-8329

Remarks prepared for the HHS Joint Appropriations Committee. May 9, 2002
Presented by Gary D. Timbers, Director, Bringing It All Back Home, A Study Center of
Appalachian State University.

Bringing It All Back Home has principal offices in Morganton, Winston-Salem and Asheville. Among the direct services that it provides are Intensive Family Preservation Services through its Home Remedies Program (services in Burke, Caldwell, Rutherford, Iredell, and Cleveland counties), specialized foster care through its Professional Parenting Program, and special needs adoption and post-adoption support through its Adoption Plus Program. Numerous residential child care organizations contract with Bringing It All Back Home for training, consultation and evaluation support services for their direct care providers.

Prepared Comments: For twenty-nine years I have been involved in the development and provision of community-based programs for at-risk youth and their families. Over these years I have witnessed North Carolina improve dramatically in how they take care of their most fragile. Now, in the face of a serious economic downturn, I am worried that many effective efforts will be eliminated or cut back.

With at-risk families it begins with an allegation of abuse or neglect. If, after an investigation and assessment, there appears to be "imminent risk" that the child (ren) might be removed and placed in the physical custody of the county department of social services, that family becomes an appropriate referral to an Intensive Family Preservation Services (IFPS) program. A typical program will provide intensive home based services to these families for a period of 4-6 weeks. And, it works! In our Iredell County effort, for a 12 month period of time, 53 children at imminent risk of removal were served. Ninety-eight percent were still at home at the conclusion of services. If you terminate the IFPS Expansion programs our efforts in Rutherford County will be shut down. In its first 18 months of service, 52 children and their families were served. With an annual budget of \$75,000 this comes to a one-time cost of \$2,153 per child. If these services were not provided, and just half of these children had to enter foster care, the annual cost would range from \$260,000 to \$880,000 depending on the type of care that was necessary to meet the needs of the child. And, there is no way to determine how long a placement would last. The cost savings in IFPS is tremendous. You, as an Appropriations Committee need to weigh small savings now versus larger expenditures in the very near future plus the emotional cost of broken families that did not need to be separated.

Appalachian
STATE UNIVERSITY
BOONE, NORTH CAROLINA 28608

Now, I want to shift gears and speak about proposed cuts in the Special Children Adoptions Fund and the performance based adoption contracts. By cutting IFPS, more children will enter residential care. Many of these children will be re-unified with their parents. But for some, there are significant and intractable abuse or neglect issues that can't be remedied. Those children will be freed for adoption via a termination of parental rights. But, funding for special needs adoptions are being cut back. The result will be more children staying in foster care for longer periods of time. The cost of one special needs adoption is roughly the cost of foster care for one year in a DSS foster home, and there are only modest costs in subsequent years. So again, the economics don't make sense. We are creating an environment where more children are coming into care, and limiting one of the alternatives for getting out of foster care. Because of the adoption efforts and the prevention efforts of IFPS, North Carolina children in foster care went below 10,000 for the first time since 1990. I'm afraid it will begin to climb again.

Now, briefly, one more change in gears. I have described a scenario where more and more children will be coming into foster care and other residential programs. One of the ways the State supports that effort is through the State Foster Home Fund. The proposed 2.8 million reduction in this allocation will mean that programs will only be getting about 35% of their actual cost of care reimbursed.

The State has an obligation to serve its at-risk children and families, I hope it will not turn back the clock on its impressive efforts.

Speaking on behalf of the Adolescent Pregnancy Prevention Coalition of North Carolina
And local Pregnancy Prevention Task Force members across the state.

Financial Facts

Adolescent Pregnancy in North Carolina
COST TO NORTH CAROLINA TAXPAYERS: IN FY 1999: \$832,000,000*

*Cost for Temporary Assistance to Needy Families (TANF), Food Stamps, WIC, and Medicaid for families begun by a teen in North Carolina. 1 Fifty-six teenagers get pregnant *each day* in North Carolina (1999)

- * Over 20,000 teens became pregnant in 1999 2
- * One of every 3 girls has had sex by age 16, 2 out of 3 by age 18. Two of 3 boys have had sex by age 18. 3
- * 31% of the pregnancies to teens 19 and under in NC in 1999 were repeat pregnancies. 4
- * North Carolina has the highest Hispanic teen birth rate in the nation. 5
- * While teen pregnancy rates crosscut all income levels, 85 % of teens who give birth are poor or near-poor. 6
- * Estimated cost to care for a child from birth to age 17: \$262,000 7
- * Only 1/3 of teenage mothers receive a high school diploma. 8
- * For every dollar North Carolina spent on expenditures to support families begun by teens, it spent one cent on investments to prevent teen pregnancy. 9

www.appcnc.org

Children living in families with three or more of the following characteristics are considered at "high risk".

- Child lives in a family with income below the poverty line
- Child lives in a single-parent family
- Child lives in a family where no parent has full-time, year-round employment
- Child lives with a household head who is a high school dropout

Children At Risk: State Trends 1990-2000, A PRB/KIDS COUNT Special Report, The Annie E. Casey Foundation

North Carolina 1997 Youth Risk Behavior Survey Sexual Behavior

- * 61% of all 9th-12th graders reported having had intercourse at least once.
- * 74% of seniors reported having sexual intercourse at least once by grade 12.
- * 13% of all high school students had initiated sexual intercourse before the age of 13.

- * 23% more than one in five high school students reported that they have had sexual intercourse with four or more sexual partners in their lifetimes.
- * 61% of students, who had sexual intercourse in the previous three months, used condoms.
- * 8% of all high school students reported having been pregnant or impregnating someone

Survey compiled by:

North Carolina Department of Public Instruction and the Centers for Disease Control

Of 71 projects in NC, 21 are being funded completely with TANF funds. 50 more are supported through pregnancy prevention program funds in addition to TANF funding. All are subject to being cut or eliminated.

I want to speak directly to Montgomery County, my home and area of service for the last five years. For too many years, Montgomery County had the distinction of having the highest rate of teen pregnancy in the state. In 1998, the rate was at 148 % of the state rate. In 1999 – 129.2%, In 2000-119%.

1998 Pregnancy Data, Teens	Pregnancies 10-14	Pregnancy Rate 10-14	Pregnancies 15-19	Pregnancy Rate 15-19
NC	591	2.4	21050	85.5
Montgomery Co.	2	2.6	96	127.5
1999				
NC	574	2.3	19941	79.5
Montgomery Co.	3	3.7	76	102.7
2000				
NC	549	2.1	19941	76.1
Montgomery Co.	3	3.5	80	90.9

Task Force efforts are aimed to serve High Risk Populations. It is felt the resources and efforts will be most beneficial if strategically targeted.

An **EMPOWERMENT** program, not an **ENTITLEMENT** program. Resources support community plans and generate local capacity to respond to areas of need and concern.

- Cuts will severely reduce, if not eliminate, existing services as described.
- Pregnancy Prevention programs have experienced cuts in past years, current efforts are under funded
- Further cuts will set North Carolina progress back substantially
- We will pay the cost in many ways if we are not responsive to these needs

PREVENTION OF ADOLESCENT PREGNANCY is the business of the Adolescent Pregnancy Prevention Coalition of North Carolina (APPCNC).

We believe a cooperative approach between public agencies, private organizations, and community volunteers can maximize existing prevention efforts.

May 8, 2002

Dear Allocations Committee,

My name is Ms. Jacquelin Ross and I have been in the Intensive Home Visiting Program (Families in Focus, Orange County) for almost two years. I am 40 years old and I have four children. The Families In Focus program is usually for first time moms but when I had my daughter, I was just like a first time mom. My youngest son, Chris, is thirteen years older than my daughter, Aja, so when I had my first girl I was lost. I was living at a transitional housing shelter for mothers and children. I was unemployed and in a bad situation but trying to get back on my feet.

When I first started the program I was scared and in a bad place. I did not like the idea of having someone looking in on me every week, but at the same time I knew I really needed it. Now I know that having someone come to my house every week and teach me how to teach, discipline and love my children has helped make me a better parent. My home visitor has showed me and Chris games we can play with Aja. The thing that sticks out the most is that I have learned a lot of different discipline techniques. I now know that different behavior gets different punishment. Sometimes I take things away, sometimes I make sure Aja is safe and just let her throw a fit, and sometimes a minute of time out is needed. I love the fact that I have been able to tell Sabrina "That did not work with Aja, what else can we try?" I have truly learned to discipline my children without anger and I know that I won't do anything to hurt them. This is one of the mistakes I know I made with my older children, but I know better now.

I know that I am a better parent because of the things I have learned in Intensive Home Visiting Program. I feel like I am slowly getting back on my feet. I am now working, going school to get my GED and I am living in my own place. I try to tell all the young girls I meet, not to turn the help of programs like this away, because it really does pay off. Maybe this program does not mean a lot to you, but it really means a whole lot to me and my children.

Thank you,

Jacquelin Ross

Ms. Jacquelin Ross
Mother

TINY DANCER

Aja Alexa Cortes, 9 months, dances on a fence rail with a little help from her dad, Luiz Cortes, at the second annual Smart Start Family Fest at the Big Barn in Hillsborough's Daniel Boone Village on Saturday. Aja's mother, Jacki Cortes (left), and Salvador Aguilera, a family friend, look on.

SAVE IFPS FUNDING

Guilford County typically receives the second highest number of child abuse and neglect reports in the state. In FY 98-99, 331 children entered foster care in Guilford County, and in July of 2000, when we began delivering IFPS expansion services in Guilford County, there were about 725 children in foster care.

Twenty-two months later, the number of children in foster care in Guilford County has dropped to 556.

- In those 22 months, the IFPS program in Guilford County has served 83 families with 207 children at imminent risk of removal from their homes.
- These 83 families have received 5,164 hours of service.
- 92% of those children have remained in their homes at the end of the six-week service period.
- 73% of the children served have been children of color (which remains in proportion to the number of children of color entering foster care: traditionally 65-70% in Guilford County).
- Follow-up data so far indicate that 85% of families who successfully completed six weeks of IFPS services have had no new substantiated reports of abuse or neglect a year later.

The following points are offered for consideration:

- The cost of providing IFPS to families (just under \$6,000/family last year) is just over half of the cost of each out-of-home placement distributed across the three divisions last year (DSS, JJ, MH/DD/SAS), of more than \$10,000 per child.

- A cost benefit analysis last year showed that for every \$1.00 spent providing IFPS \$2.07 is not being spent on placement services for imminent risk children who would otherwise be placed in out-of-home care. Therefore, eliminating this 1.5 million-dollar program would potentially result in 3.1 million dollars being spent on out-of-home care costs.
- Cutting IFPS this year and eliminating the service will result in increased costs next year in MULTIPLES equal to the number of children placed. The large majority of families served by IFPS are multiple child families.
- Cutting ANY programs that reduce the child population in more expensive alternative programs is short sighted. Children and families WILL BE SERVED because public agencies cannot arbitrarily decide not to carry out their mandates. It's simply a matter of serving them less invasively, less restrictively and less expensively, or more invasively, more restrictively, and more expensively.
- The level of service available through IFPS and other programs of similar intent cannot be turned on and off like a switch. It often takes a full year to "ramp up" programs in accordance with a previous year's fiscal plan. The "on again/off again" history of funding for these programs discourages them from trying to establish the very services that help the state fulfill its legislative mandates.

Presentation by Danny Staley, on behalf of the Appalachian District Health Department and N.C. Association of Local Health Directors before the Health and Human Services Appropriations Subcommittee of the N.C. General Assembly

Thursday, May 9, 2002

Raleigh, North Carolina

Ladies and Gentlemen, thank you for this opportunity to address the subcommittee and express my deep concern regarding the proposed devastating reductions to local public health by the Fiscal Research Division. I know that you have a very difficult task before you but ask for your consideration.

Reducing Aid to County Funding (\$1 million) – These funds are used by local health departments to support many public health activities including:

- o Environmental Health
- o Communicable Disease (outbreak investigations, follow-up and prevention)
- o Vital Records and Administrative Services

The state funds received by counties to support these activities have been stable for years and do not approach the actual cost of these services. Every county greatly subsidizes these activities with local funding, including the local tax reimbursement funds now being withheld by the governor. An actual or suspected bioterror event will heavily impact upon these services.

Reduce Health Promotion Funding (\$700,000) – These funds support activities promoting positive health practices, enhancing quality of life and reducing the incidence of chronic disease and institutionalization among our citizens:

- o Cardiovascular Health
- o Physical Activity
- o Nutrition

The purpose of this program is to reduce heart disease, stroke and diabetes which costs the state billions of dollars in health care costs. Local activities include individual and community education that encourages people to develop healthy habits and adopt healthy lifestyles. These funds were reduced during FY2001-02.

Eliminate Administrative Consultation to Local Health Departments (\$251,289) – These funds support positions of the Division of Public Health staff that assist local health departments with fiscal matters and administrative activities:

- o Assure Compliance with DHHS Fiscal Policies and Procedures
- o Monitor Compliance with DHHS Contract Agreements
- o Consultation, Training and Technical Assistance

This support to local health departments assures timely and accurate fiscal reporting to the state of all program activities. These positions monitor the fiscal activities of local agencies, administrative compliance and ensure that fiscal quality control mechanisms are in place. These staff provide training to local fiscal staff regarding best accounting practices, any changes in fiscal reporting to the state and convey expectations from state fiscal controllers regarding fiscal reports.

Reduce Medicaid Reimbursement Rates to Local Health Departments

(\$2,447,000) – The effect of reducing the reimbursement rates to local health departments by \$2.447 million in state dollars results in the loss of \$5.4 million in federal receipts. For local public health this translates to a reduction of \$7.847 million. A reduction of this magnitude will have a devastating effect upon our service delivery capabilities locally:

- Seeing High Risk Patients with Multiple Problems
- Local Health Departments Uncompensated Costs Already Exceeds \$40 million
- Local Health Departments Are Providers of Last Resort

Our patients are very labor intensive and take longer to see. We see patients that other providers cannot or will not see. We strive to be case managers in assuring that all a patients health care needs are met to the greatest extent possible. Since the vast majority of our patients are low income, we cannot cost shift as many private providers do to subsidize the cost of our operation. The local public health share of the total Medicaid budget is approximately 1%.

Again, thank you for the opportunity to share my concerns, as well as those of my colleagues, with you. We will continue to serve the citizens of our respective county's as well as this great state to the best of our ability, however we ask that you not accept these reductions as recommended by Fiscal Research due to the adverse effect it will have upon our citizens and local public health in North Carolina.

Alcohol/Drug Council of North Carolina

Solving the 2002 NCHHS/DMHDDSAS budget crisis through user taxes
 Double the ABC, beer, and wine taxes based on 2001 revenues

	2001 User Tax Revenues	2003 State Share "New" Revenues	2003 County "New" Revenues	2003 DHHS Share	2003 DMHDDSAS Trust Fund Share
ABC

\$410,813,747 projected new revenues.

All increased revenues must be used for physical and mental health care.

Seventy-five percent of new state revenues must be deposited in the Mental Health Trust Fund.

Department: Correction

Budget Code: 14500

NOTE: Changes or new items since 3-7-02 are shaded.

No.	Title and Description	FY 02/03			Non-Recurring	Pos.	Impact of Reduction
		Expenses	Receipts	Appropriations			
8	Eliminate funding for Criminal Justice Partnership Program * Statutory Change Required*	(8,567,009)		(8,567,009)	R	(12)	Eliminates county operated programs for probationers and parolees. Abolishes 4 field coordinators and 8 administrative staff positions. Effective date 7-1-02.
9	Reduce 27 DOA vehicles in DCC	(88,452)		(88,452)	R		No serious impact
10	Close Blue Ridge Youth Center	(1,183,117)		(1,183,117)	R	(35)	Closing this facility will improve the efficient allocation of resources. For FY 2000-01 Blue Ridge's cost per inmate per day is the 4th highest among all DOP facilities. This would also eliminate the BRIDGE Program, a cooperative effort with DENR. However, closing this facility could increase the jail backlog creating a substantial shortfall in the agency's budget. Reduces prison capacity by 72 minimum custody beds. Effective date of 7-1-02.
11	Close Gates Correctional Facility	(929,964)		(929,964)	R	(28)	Consistent with the recommendations of the Governmental Performance Audit Committee to improve the efficient allocation of correctional resources the Department recommends closing Gates Correctional. However, closing this facility could increase the jail backlog creating a substantial shortfall in the agency's budget. Reduces prison capacity by 86 minimum custody beds. Effective date of 7-1-02.
12	Abolish (1) Lieutenant position at each of the 17 largest facilities.	(356,143)		(356,143)	R	(17)	Decreases supervision for custody operations. Effective date of 7-1-02.
13	Reduce inmate clothing issue to Small / Martin agreement	(500,000)		(500,000)	R		Will change the issue of clothing from each day to 4 exchanges per week. This does not apply to inmates whose work assignments include kitchen duty, road squads, etc.
14	Contribution from Welfare Fund to General Fund		400,000	(400,000)	NR		This reduces funds available for inmate related needs.
15	Abolish (9) positions Prison Administration	(480,968)		(480,968)	R	(9)	Abolishing these positions in 5 sections of Prison Administration will decrease responsiveness to the 5 Region Offices and 76 facilities and other stakeholder groups while DOP continues to expand capacity. Effective date of 7-1-02.

Department: Correction Budget Code: 14500 NOTE: Changes or new items since 3-7-02 are shaded.

No.	Title and Description	FY 02/03		Non-Recurring	Pos.	Impact of Reduction
		Expenses	Receipts			
16	Increase per diem for Safekopers by \$25 • Statutory Change Required*		1,688,125	(1,688,125)	R	Counties now pay \$15 per day, actual cost is \$65 per day. This increase would bring the payment per day of \$40 to the same level as DOC pays the counties for Jail Backlog. Effective date of 7-1-02.
17	Abolish (6) Chaplain positions	(211,940)		(211,940)	R	This reduces the availability of religious services and counseling to the inmate population. Effective date of 7-1-02.
18	Close IMPACT Program • Statutory Change Required*	(4,157,652)		(4,157,652)	R	Eliminates a structured sentencing sanction for male probationers. In fiscal year 2000-01, 941 offenders completed this program at IMPACT East and IMPACT West. Elimination of this residential program may result in an increase in the prison population. Effective date of 7-1-02.
19	Close DART-Cherry	(2,875,416)		(2,875,416)	R	Eliminates residential substance abuse treatment program for male probationers and parolees. This may result in an increase in the prison population. In fiscal year 2000-01, 1,927 offenders completed this program. Effective date of 7-1-02.
20	Cancel Evergreen Contract	(1,000,000)		(1,000,000)	R	Reduces substance abuse treatment programs for 75 male inmates. Contract requires 60 day cancellation notice. To be effective July 1, 2002, notice must be given May 1, 2002.
21	Abolish (4) Human Services and Testing	(200,000)		(200,000)	R	(4) No serious impact. Effective date of 7-1-02.
22	Abolish (5) DOC Management Positions	(300,000)		(300,000)	R	(5) No serious impact. Effective date of 7-1-02.
23	Eliminate State Aid Summit House Subtotal for 7% Agency Reductions	(1,256,942) (59,259,751)		(1,256,942) (65,800,087)	R	This is pass through money allocated from the General Assembly. Effective date of 7-1-02. (300)
24	Eliminate Community Work Crews	(5,097,702)		(5,097,702)	R	(186) Effective date of 7-1-02.

8% Agency Reduction Options

This will remove a valuable service to counties and cities for many work projects done at no cost to them. Would cause idleness for approximately 1600 inmates.

Department: Correction Budget Code: 14500 NOTE: Changes or new items since 3-7-02 are shaded.

No. Title and Description	FY 02/03		Non-Recurring Recurring	Pos.	Impact of Reduction
	Expenses	Receipts			
9% Agency Reduction Options					
34 Reduce Substance Abuse Programs	(3,169,555)				This eliminates state funded substance abuse programs at all medium and close custody facilities with the exception of DART-Wayne. Retain federally funded RSAT programs and state funded programs at (92) minimum custody facilities. Effective date of 7-1-02
35 Close two Drug Screening Laboratories		183,307		R	Eliminate 2 drug screening laboratories. Abolishes 4 laboratory technician positions and 2 leases. Workload will be shifted to remaining laboratories. Effective date (4) of 7-1-02.
36 Community Service Work Program	(5,826,564)			R	Elimination of this program will negatively impact community service projects by offenders in local communities. DOC does not have resources to absorb this workload, therefore this option eliminates the (162) program in its entirety. Effective date of 7-1-02.
• Statutory Change Required*					
Subtotal for 9% Agency Reductions	(8,996,119)	183,307			(258)
10% Agency Reduction Option					
37 Reduce rates charged by UNC Hospitals	(1,034,311)				Savings amount calculated based on Medicaid rate which represents approximately 16% below current contract rate with UNC Hospital.
• Statutory Language Required*					
38 Reduce Parole Commission	(170,000)				Reduces staff and/or operating budget of the Parole Commission.
Subtotal for 10% Agency Reductions	(1,204,311)	0			0
11% Agency Reduction Option					
Additional reductions without a decrease in the inmate and supervised offender populations would result in jeopardizing public safety. However, DOC is committed to continue to examine all operations to identify additional efficiencies.					
Subtotal for 11% Agency Reductions	0	0			0
Totals	(78,479,037)	6,730,243			(782)

*NOTE: Of the 782 positions to be abolished approximately 554 are currently filled. No severance requirements have been calculated.

CAREER

NURSING

ASSISTANTS “ We love one another, through service to each other”.

NETWORK of North Carolina

To: The Health & Human Services Joint Appropriations Subcommittee
From: Melvin Whitley - President

Career Nursing Assistant Network seeks to develop positive images of Nursing Assistants as dedicated professionals and we appreciate your vision in holding these public hearing.

On August 30, 2001 Nursing Assistants gave birth to our own Association. Career Nursing Assistants Network is incorporated as a nonprofit corporation and we are focusing on building a diverse membership base broad enough to influence decision-making in the health community. Our focus is recruitment and retention. Our goal is to develop programs for career development, and recognition award programs. Career Nursing Assistant Network has a code of ethics for our membership. We are a Chapter of the National Network of Career Nursing Assistants (a professional organization of nursing assistants since 1977 www.cna-network.org). To learn more about our association, you can visit our website in our letterhead.

We believe that the Nursing Assistants provides most of the direct care. The people we serve deserve quality care and nursing assistants deserve realistic assignments, appropriate training, and supervision. Adequate compensation and benefits, career advancement opportunities, and a recognition award program are also important. A work environment that provides the support and supplies needed in order to perform tasks of care are paramount.

North Carolina Crisis Understaffing in our Hospitals and Nursing Homes Is Patients and Residents Abuse.

The Department of Health and Human Services/ office of Long Term Care reported in a study that North Carolina need more than 30,850 additional nursing assistants and direct care workers by 2008, particularly to provide long-term care. The Wake Forest University's School of Medicine panel of experts in August of 2001 concluded that a lack of funding, training and professional respect has hindered job growth in a service that only will expand as Baby Boomers reach retirement age. The report noted that in North Carolina fewer than 300 are enrolled in the state's community colleges to become certified nursing assistants and/or direct care workers.

A research study by Peter D. Hart Research Associates "The Staffing Crisis for Health Professionals" said that staffing shortages are compromising the quality of health care provided, and even putting patients at risk.

Why are CNA's given work assignment of 16 to 30 patients and residents? North Carolina rules for patient and resident care says that "The facility shall ensure that each patient receives adequate supervision and assistance to prevent accidents and abuse. This includes willful infliction of injury, unreasonable confinement, intimidation or punishment with resulting physical harm or mental anguish. A report, (ordered by Congress and prepared by the U.S. Department and Human Services) found "strong and compelling" evidence that health care facilities with a low ratio of nursing personnel to patients were more likely to provide substandard care. Patients and Residents in these facilities were more likely to experience bedsores, malnutrition, weight loss, dehydration, pneumonia and serious blood-borne infections. In most facilities, the report stated, a patient needs an average of 4.1 hours of care each day -2.8 hours from Certified Nursing Assistants and 1.3 hours from registered nurses or licensed practical nurses. Dr. John F. Schnelle, a co-author of the report, said the recommendation would require facilities to have one Certified Nursing Assistant for every five or six residents. (This information is taken from an article in the New York Times dated February 18, 2002 and written by Robert Pear.)

We have asked Career Nursing Assistants members the following two questions. What would help us become better Certified Nursing Assistants and how can we improve the quality of patients care? The answer was more leadership as a member of the care team and more respect from licensed staff.

A study funded by the Duke Endowment on Certified Nursing Assistants asked why Certified Nursing Assistants stay with their jobs. The conclusion was that career-nursing assistants derive a high sense of internal satisfaction (feeling needed and useful) from their work. The quality of interaction between the certified nursing assistants and patient largely determines the degree of satisfaction that patients and their families will experience with their care. The Certified Nursing Assistants observations of changes in physical function, skin condition, nutritional status, and psychological state provide fundamental information for subsequent clinical assessment. We spend the most time with the patients and we are not asked or encouraged to report our observations. While the public values us, we don't always value our profession and ourselves, as we should. We must find a way for our opinions to have value while developing positive images of Nursing Assistants as dedicated professionals.

Career Nursing Assistants needed their own voice. Others are not always aware of the subtle ramifications of laws and practices that relate to direct care. Without Nursing Assistant input, many of the real issues of care will not be visible and not be addressed. We need more leadership as a member of the care team and more respect from licensed Staff. 1-Formal notification of pending changes in laws and policy. 2- Invitations to testify before all public Committees and Boards where policy changes that affecting Nursing Assistants and Direct Care Worker can occur. 3- A seat on all State Committee and Boards that oversee issues related to Nursing Assistant and Direct Care Worker.

Career Nursing Assistants Network believe that all patients and residents deserve courteous, professional appropriate care and quality of life within every healthcare system, and nursing homes, hospitals, and health care facilities administrators are responsible for scheduling the trained staff to provide quality care for Patients and Residents. We also believe that realistic staffing levels are paramount in protecting patient and residents from injury, confinement, and mental anguish. Career Nursing Assistants are instrumental in promoting and safeguarding the physical, mental, emotional, and spiritual well-being of the patients and residents. Understaffing of Nursing Assistants and Direct Care Worker constitutes Patient and Resident Abuse.

We need an Recognition Award Program by Nursing Assistants for Nursing Assistants. There are many myths in the health care community about Nursing Assistants. Dr Karl Pillemer's book, (Solving the Frontline Crisis in Long – Term Care) summarized these myths. **Myth 1. Nursing Assistants are “unskilled” labor.** The job requires unusually sophisticated interpersonal and communication skills. **Myth 2. All in all, being a nursing assistant is a pretty bad job.** Career Nursing Assistants see the job as offering opportunities to perform meaningful, and caring work. **Myth 3. Nursing Assistants are in it for the money.** In surveys of nursing assistants, money was listed as the eighth reason for selecting the job. The number one reason for choosing the job was the same as the reason of most licensed Nurses choosing their job: meaningful, opportunity to help others, and usefulness to society. **Myth 4. Nursing Assistants are all the same.** Half of Nursing Assistants are under 35 years of age, 10% are 55 or over, and 30% belongs to a minority group. Half are married with at least one child under 18. Over half have some kind of education beyond high school. **Myth 5. Patients are concerned about the health care they receive, the surroundings, and the food –not about the Nursing Assistant.** Studies have shown that the most important thing patients' feel while being in the hospital and Nursing Homes are their relationship with staff. **Myth 6. Stress and burnout are no worse for Nursing Assistants than for any other health care worker.** 42% of Nursing Assistants report that the work is “moderately stressful”, 34% say that it is “very stressful”, and 71% wish administrators and licensed nurses would show them more respect. Only 17% feel they receive sufficient recognition and appreciation for their work. We must have a chance to change these myths ourselves. We want the respect of our peers and support staff. Career Nursing Assistants Network is asking Nursing Facilities and Adult Care Home to develop C.N.A Advisory Council at the workplace. This Advisory Council will only focus on developing a recognition award program using a membership pledge as a standard for considering Recognition Awards for Certified Nursing Assistants. We also ask that a process be developed, that we may select those to be awarded. In short we will be evaluating each other with a standard we have set for ourselves while improving the quality of care we deliver to patients.

We ask you to end tax loopholes for Corporations, raising taxes and work with the NC Congressional delegation to get Federal Assistance. We need funding for a office for Caregiver Development, training in leadership, and mentor relationships that will support and enable a peer group while it is developing, growing and taking its rightful place in the facility and in the health care system.

Statement of Dr. Margaret Arbuckle

Chair, North Carolina Child Advocacy Institute

**Before the Health and Human Services Subcommittee of
the Joint Committee on Appropriations**

May 9, 2002

There is no good news facing state legislators and Governor Easley as they struggle with North Carolina's budget woes. Like most other states, NC's economy is sluggish and expected revenues may be a billion dollars below a "status quo" budget. Tough decisions will have to be made.

However, tough decisions must not be allowed to turn into shortsighted ones. For instance, there is a proposal to cut the vision, hearing and dental coverage in NC Health Choice (our state's health insurance program for children from modest income, working families). Talk about "short-sighted"!

Children who cannot hear their teachers or see the chalkboard will not do well in school -- and we will pay and pay again when they repeat grades and need expensive special services to catch up.

Similarly, unwise cuts are being considered in NC's juvenile justice,

2

mental health and child protection systems. An ounce of prevention still is better -- and far less expensive -- than a pound of cure.

The one thing we can be sure of is that North Carolina will reap exactly what it sows through its decisions about the state budget. If the budget sows an attitude of "tough luck" toward our harmed, vulnerable children, then we can count on reaping decades of mounting social and economic costs to clean up the entirely predictable mess created. Our leaders need to lead by:

- * securing more federal funding;
- * cutting genuine waste;
- * funding "have to" items first;
- * closing tax loopholes; and, if necessary
- * raising more revenues.

North Carolina voters also have a crucial role. We need to let our elected officials know that they will not be punished on Election Day for fulfilling a primary obligation of any government -- to help those who cannot help themselves. By sowing the seeds of common sense and compassion, the next generation of North Carolinians will reap the benefits for decades to come.

I stand here today as a proud representative of the Department of Health and Human Services Public Health Division who benefits from the funding under discussion today.

Public Health is immediately visible as medical service for the indigent, but we do so much more. Public Health answers the state responsibility to protect the health and prosperity of our future, especially in these days of uncertainty.

Terrorism has struck our nation. Powerlessness and fear and have fostered self-medication, violence and a desperate grasp for control through eating disorders, teen pregnancies, domestic violence, substance abuse and suicide.

Please consider how this funding effects my county:

§ Wilkes County residents can expect to earn nearly \$3,000 less per person this year than the average North Carolinian.

§ Last year our United Way cut the adolescent pregnancy prevention coalition's budget by half. United Way depends upon charitable donations in a county of rapidly decreasing resources.

§ Our Faith-Based Nursing program ended. We could not find a foundation to financially support staff. Other North Carolina programs we approached in the state are dwindling because foundation seed money was not sustainable.

§ Last month our Healthy Carolinians hosted a community forum on substance abuse. Someone asked, "Whose job is it who only does prevention of initiation of substance use or abuse?" There was silence. Nobody does.

§ Last week an unmarried 18-year old came in to our clinic. She was hoping for a positive pregnancy test because "there's nothing better to do";

§ and we've already met our expected number of suicides this year.

We must address the underlying causes of morbidity and mortality; and we must have the financial resources to do so.

Last year's budget cuts and this year's proposed cuts are forcing public health to zero out our vision of healthy communities. Representative Verla Insko from Orange County described it best by saying, "We are creating human problems 10 and 20 years down the road." We need prevention now.

I implore to continue your financial support of the Department of Health and Human Services. You enable and empower us to pursue our primary mission: to protect the health and preserve the prosperity of our future.

Lucy C. Plyler

lplyler2@carolina.rr.com

In March of 1998, my daughter, Hartley, was born, a seemingly healthy baby girl. Two months later, she had her first of many hospitalizations. At five months old, she was diagnosed with congenital hydrocephalus and a rare brain disorder. The hydrocephalus could be treated, not cured, and the brain disorder was an unknown variable. Realizing that my daughter was not developing like other children her age, I took a proactive role and contacted the Developmental Evaluation Center for an assessment. At that point, she qualified for and began receiving Early Intervention Services. Therapists worked with her weekly in our home and we began to see how far behind she really was compared to her peers. I also came to the realization that my hopes and dreams for my daughter would have to change. I was now hoping that she would one day walk to me or be able to tell me that she loved me. I did not know what the future held for my precious daughter.

Within a year, we realized that Early Intervention seemed to be making a big difference in her young life. By late summer she was beginning to crawl, still about a year behind developmentally. Now at the age of establishing some basic vocabulary, she was only saying a few words and I realized that her biggest delay was her speech and I began an active push for her to begin "signing" her words. Incredibly, she picked up on it very quickly and soon her number of "signed" words outnumbered her spoken words.

At 22 months, she began to walk. All areas in her development seemed to be progressing at an overwhelming rate. In the fall, she was re-evaluated by the DEC for her preschool screening. Amazingly, she did so well that she almost did not qualify for preschool services. Once again, I saw what a difference Early Intervention has made.

As we prepared her for entering preschool, most of her "signing" was dropped and her speech became more clear and took off at an astonishing rate. This fall, Hartley started public preschool in a Smart Start classroom with typically developing children who are at risk for school failure as well as about 5 other children with special needs. She absolutely loves school and has continued to make progress in all areas of her development. She is receiving good reports and is meeting most of her goals.

Yesterday, I met with Hartley's teachers and all of the professionals involved to find out how she is doing and to set new goals for next year. I walked away with a glowing report of the remarkable gains she has made. Within the first month of attending the Smart Start preschool classroom, she dropped all of her signing and began total verbal communication. She received specialized therapies to increase her gross and fine motor skills and to increase her speech. She met most of her goals through the year, but she still has to catch up with her typically developing peers before she starts Kindergarten in the fall of 2003. I give much of the credit to the Early Childhood professionals that have worked with her this academic year.

The classroom where she is enrolled is 100% Smart Start funded and have already received significant cuts throughout the school year that limited her teacher's resources for purchasing basic materials for teaching. If Smart Start is cut at the amount that is being proposed, the classroom where she is enrolled will be closed. This will affect 30 children in my school district alone, as well as 3 other Smart Start classrooms in the Shelby City and Cleveland County Districts. There are no other preschool classrooms in my school district that would offer special education for her. This would be devastating to her growth and development. She is only one of thousands of children with special needs across North Carolina that would be affected by these cuts. And this is only one small service of many that Smart Start provides.

I am Hartley's strongest advocate and I speak on her behalf as well as many others like her...please invest in the future of our children, for they are our future. Thank you.

Mickey Dudney is **52 Years Old**.

Two years ago, he was working **just like you**.

Today, due to a stroke, Mickey lives in a nursing facility, away from family and friends, because of a **FREEZE** on the CAP-DA Program.

The state would **SAVE MONEY** by sending him home.

His family wants him home and **he wants to be home!**

Enclosed, you will find almost 400 letters from CAP recipients, citizens who need the CAP program, and family members and other supporters of the program.

Mickey is just one of the many faces...

This could be any one of us.

You can make a difference and send Mickey HOME by eliminating the freeze on this vital program!

HELP SAVE IN-HOME SERVICES FOR THE ELDERLY & DISABLED

The Department of Health & Human Services is making budget reduction recommendations to Governor Easley to reduce spending in the current budget year. Specific recommended cuts are as follows:

- 1) Continue the freeze on CAP-DA which means adding no new clients to the program.**
- 2) Reducing the budget allowed for each CAP-DA client.**
- 3) Decreasing the number of hours of In-Home Aide Services that are presently available to many elderly & disabled people on Medicaid.**

Implementation of these budget cuts would significantly reduce services many elderly & disabled citizens in our state receive. Many would have no alternative but nursing or rest home care.

The North Carolina citizens listed on this petition are strongly opposed to any reductions to In-Home Care Services to our elderly & disabled Medicaid recipients.

PROPOSED BUDGET REDUCTION-DHHS

CAP/DA

- 1. CONTINUE THE FREEZE ON CAP/DA**
- 2. REDUCE THE MONTHLY AVERAGE COST LIMIT ON SERVICES TO 70% OF THE AVERAGE NURSING FACILITY RATE. (THE LIMIT IS CURRENTLY 90% OF THE AVERAGE NURSING FACILITY RATE.)**
- 3. LIMIT IN-HOME AID SERVICE TO 115 HRS.PER MONTH.**

THIS WOULD REDUCE THE IN-HOME AIDE SERVICE TO A MAXIMUM OF 26 HRS PER WK!!!

THESE ARE PROPOSED BUDGET REDUCTIONS, BUT THEY DON'T REQUIRE STATUTORY CHANGES OR SPECIAL LEGISLATIVE DECISIONS TO IMPLEMENT.

***** A DECISION WILL BE MADE ON THE PROPOSED BUDGET REDUCTION ON MAY 28 2002 BY THE GOVERNOR, THE DIRECTOR OF THE DIVISION OF MEDICAL ASSISTANCE AND THE SECRETARY OF THE DEPARTMENT OF HEALTH AND HUMAN SERVICES**

AN INTENSE LOBBYING CAMPAIGN OF LETTERS AND E-MAILS TO THE ABOVE MENTIONED AGENCIES IS THE ONLY WAY TO INFLUENCE THE DECISION PLEASE SIGN THIS SO YOUR LOVED ONE CAN STAY IN THEIR HOMES!!!!!!!!!!!!!!!!!!!!!!

*These are proposed budget reductions, but they don't require statutory changes or special legislative decisions to implement.

*A decision will be made on the proposed budget reductions on May 28, 2002 by the Governor, the director of the Division of Medical Assistance, and the secretary of the Department of Health and Human Services.

*An intense lobbying campaign of letters and E-mails to the Governor, the above mentioned agency heads, and our legislators is the only way to influence the decisions on the proposed budget reductions.

*These are proposed budget reductions, but they don't require statutory changes or special legislative decisions to implement.

CAP/DA

- 1) Continue the freeze on CAP/DA
- 2) Reduce the monthly average cost limit on services to 70% of the average nursing facility rate. (The limit is currently 90% of the average nursing facility rate.)
- 3) Limit In-Home Aide Services to 115 hrs. per month. This would reduce the In-Home Aide Services to a maximum of 26 hrs per wk.

PCS

- 1) Limit PCS In-Home Aide Services to 10 hrs. per wk.

OFFICIAL PETITION

April 18, 2001

To Whom It May Concern:

We, the undersigned, have heard that recent budgetary constraints might well lead to the severe cutback or dissolution of the CAP Program. We are utilizing this petition to oppose this measure in any way, shape or form. The CAP Program is extremely beneficial to citizens in our area, and has managed to keep many of our elderly residents from being placed in long-term healthcare facilities. We respectfully request that you do what is necessary to continue to fund the CAP Program, which, in addition to providing a valuable service to the community and surrounding area, provides jobs for many who, given the uncertainty of the recent local economy, may not be readily able to find work elsewhere. Again, we ask that, should this measure be presented, you oppose it in the most extreme manner. Thank you for your assistance in this matter.

PETITION TO LIFT CAP-DA FREEZE
AND OPPOSE MEDICAID CUTS

Please do not implement the proposed Medicaid cuts to CAP-DA, PCS and PDN programs. These programs assist our most vulnerable citizens while saving the state money. Hospital stays and nursing home costs are much higher than these programs which are designed to keep people at home for as long as possible.

In addition, please lift the CAP-DA freeze. It is preventing the elderly of our state from receiving ultimately life saving services. This is the least restrictive and most cost effective care available for this population.

Until the freeze is lifted, they will suffer without adequate care, causing more hospitalizations and deaths. Reports of elderly neglect are on the rise since the freeze has been in effect. As more and more of our citizens are forced into nursing home, the costs to the state of NC will rise.

WE APPEAL TO YOU.

Please reinstate the CAP/DA Program. This program is beneficial to the elderly as well as their families. The CAP / DA Program is cost effective when considering the high cost of nursing home care. How many nurse aides will lose their jobs if the CAP / DA Program is discontinued? How many relatives will quit their jobs to stay at home and care for elderly family members? How many people will need the assistance from Medicaid because of unemployment? This is a concern for the elderly but it also affects **ALL OF US.**

To Mr. Easley

PLEASE - PLEASE - PLEASE

Save the Cap program. My husband has MS. He was diagnosed with this terrible disease seven years ago. I have watched him go from being a supervisor with a construction company working anywhere from 40-80 hours a week, to being in a wheelchair. With his type of MS he will only go down hill. We know he will eventually be confined to a bed. So please let him have some happiness in his life before this happens. We hit rock bottom before his Social Security disability started. We later learned about a program called Cap, we were one of the last to get on this program before the freeze, now we find out they are trying to shut this program down.

I can't say enough good things about Cap. We have a nurse that makes a visit monthly to check on him. With the case worker she is a good source of information, if we need anything we call her she is on top of it. Please do not let this program. I feel a lot of people

illness will only get worse. They need to be able to stay at home and be with their family. How would you feel if you were on this side. I can only hope that the people that are behind trying to shut this program down won't ever need any assistance like the cap program, but on the other hand maybe if you had a family member you would have a little more compassion for those of us who need this program. I don't feel our government is for the people. My final closing of this letter is let our family members live the last of their days among family, don't throw them in a nursing home with a bunch of strangers.

Sincerely
Karen Roberts

HELP SAVE CAP-DA PROGRAM

CAP-DA (community alternative program-disabled adult.) This program is also funded by Medicaid. These people are usually referred to Senior Services by an agency in the home doing PCS. It does require that the family also call them. The client must meet certain requirements for this program. They are visited by case managers (from the county) and someone from Raleigh. These people set the amount of hours they are approved for. Each month we send Senior Services a copy of our visit. We also send copies of our assessment and care plan every 6 months. If one of these patients has a change in condition or new needs, we notify their case manager at Senior Services and they will contact the patient.

We need your signature : Please help us save the Cap program.
This program is needed for the elderly and the disabled
Your job may be in jeopardy if we lose this program, so please help.

Dear Representative:

I am writing this letter to let you know how valuable and important the CAP-DA program is to my grandmother. She is 93 years old, is legally blind, and has Alzheimer Disease and other medical problems. She is currently being cared for in her home only because CAP-DA exist and helps with homebound care. Without this program, she would have been placed in a nursing home or left home alone for too many hours each day.

The aged population once was active and productive, tax-paying citizens and now when they need help, they are being overlooked and left on limited income and resource to provide for their needs. The CAP-DA program is vital to allowing them to continue and complete their life in their own home and with the needed care, monitoring and dignity they deserve.

Please continue this program so my grandmother and others like her can remain at home and still be properly monitored and cared for in familiar surroundings. I understand there are many clients on waiting lists for this program. I know how they feel because I was once in this situation they are now experiencing. Please lift the freeze on CAP-DA and provide care through this program for deserving clients so they too can receive needed care and complete life's journey in their own homes or homes of family and loved ones.

Our nation stands for human rights throughout the world. What image are we depicting if we ignore the needs of our own aged population? These aged citizens are part of what made this state and nation strong. All they ask in return is help to be able to remain in their homes with adequate care during their final years. Surely, we as a state can assist in this request by providing home care through the CAP-DA program as we have in the past and for the future.

Sincerely,

Christine McCall

Dear Representative:

great grandson

Bayada,

the Capp program is a very, very good program. It gives the (families) loved ones a peace of mind that they can stay at home to get very good care for them. It gives families time to themselves. I feel that families are more contented when their loved ones are at home. My husband has been on it for seven years. We have not had a problem with the program. I would hate for other families to miss out on it. I hope that it will continue for other families,

Mrs Harrison

Date: 1/25/02

Re: CAP-DA Freeze

Governor Michael F. Easley
Office of the Governor
20301 Mail Service Center
Raleigh, NC 27699-0301

Dear Governor Easley,

Please lift the freeze on the CAP-DA program. CAP-DA allows people like me to stay at home at less cost to North Carolina than a nursing home. I am a patient receiving CAP services. I am 86 years old and I live alone (ie. alone, with family). My medical condition includes Diabetes, Alzheimers (state your medical problem), and I am unable to take care of myself without assistance. Without CAP-DA, I will be forced to go into a nursing home against my wishes.

Studies by Duke University's Long Term Care Resources Program have shown that CAP-DA patients are one of the most impaired populations in the state, on par with the nursing facility population and much more impaired than the state's adult care home and general Medicare populations. As an integral component of the Secretary of Health and Human Services Olmstead Plan, CAP-DA serves over nine thousand people who would otherwise be in nursing facilities at greater cost to the state.

As you consider innovative solutions to our budget challenges, the CAP-DA program should stand as a beacon of opportunity for savings. The North Carolina Institute of Medicine's Long Term Care Plan for North Carolina: A Final Report stated that the state's long term care policy should provide "high-quality, cost-effective care in the least restrictive setting" and that the state's policies should strengthen the capacity of families to serve as caregivers." Both of these goals are accomplished by CAP-DA. Also, the 2001 North Carolina Medicaid Benefit Study states that CAP programs, "have demonstrated substantial savings compared to the equivalent cost of keeping CAP participants in nursing homes."

Every day the CAP-DA freeze remains in effect, some of the more than five thousand people on CAP-DA waiting lists are forced into nursing homes. When that happens, our state needlessly spends greater amounts of money on health care.

Respectfully,

Edna Bruce

Re: CAP-DA Freeze

Governor Michael F. Easley
Office of the Governor
20301 Mail Service Center
Raleigh, NC 27699-0301

Dear Governor Easley,

Please lift the freeze on the CAP-DA program. CAP-DA allows people like me to stay at home at less cost to North Carolina than a nursing home. I am a patient receiving CAP services. I am 33 years old and I live with Parents (ie. alone, with family). My medical condition includes Cerebral Palsy & autism, (state your medical problem), and I am unable to Eat, drink, bathe, personal care, use bathroom, write without assistance. Without CAP-DA, I will be forced to go into a nursing home against my wishes.

Studies by Duke University's Long Term Care Resources Program have shown that CAP-DA patients are one of the most impaired populations in the state, on par with the nursing facility population and much more impaired than the state's adult care home and general Medicare populations. As an integral component of the Secretary of Health and Human Services Olmstead Plan, CAP-DA serves over nine thousand people who would otherwise be in nursing facilities at greater cost to the state.

As you consider innovative solutions to our budget challenges, the CAP-DA program should stand as a beacon of opportunity for savings. The North Carolina Institute of Medicine's Long Term Care Plan for North Carolina: A Final Report stated that the state's long term care policy should provide "high-quality, cost-effective care in the least restrictive setting" and that the state's policies should strengthen the capacity of families to serve as caregivers." Both of these goals are accomplished by CAP-DA. Also, the 2001 North Carolina Medicaid Benefit Study states that CAP programs, "have demonstrated substantial savings compared to the equivalent cost of keeping CAP participants in nursing homes."

Every day the CAP-DA freeze remains in effect, some of the more than five thousand people on CAP-DA waiting lists are forced into nursing homes. When that happens, our state needlessly spends greater amounts of money on health care.

Respectfully, Sharon Ward (Mother & Caretaker)
(Joy) Patricia Ward

Both of these goals are accomplished by CAP-DA. Also, the 2001 North Carolina Medicaid Benefit Study states that CAP programs, "have demonstrated substantial savings compared to the equivalent cost of keeping CAP participants in nursing homes."

Every day the CAP-DA freeze remains in effect, some of the more than five thousand people on CAP-DA waiting lists are forced into nursing homes. When that happens, our state needlessly spends greater amounts of money on health care.

Respectfully,

Dear Representative:

I am writing this letter to let you know how valuable and important the CAP-DA program is to my grandmother. She is 93 years old, is legally blind, and has Alzheimer Disease and other medical problems. She is currently being cared for in her home only because CAP-DA exist and helps with homebound care. Without this program, she would have been placed in a nursing home or left home alone for too many hours each day.

The aged population once was active and productive, tax-paying citizens and now when they need help, they are being overlooked and left on limited income and resource to provide for their needs. The CAP-DA program is vital to allowing them to continue and complete their life in their own home and with the needed care, monitoring and dignity they deserve.

Please continue this program so my grandmother and others like her can remain at home and still be properly monitored and cared for in familiar surroundings. I understand there are many clients on waiting lists for this program. I know how they feel because I was once in this situation they are now experiencing. Please lift the freeze on CAP-DA and provide care through this program for deserving clients so they too can receive needed care and complete life's journey in their own homes or homes of family and loved ones.

Our nation stands for human rights throughout the world. What image are we depicting if we ignore the needs of our own aged population? These aged citizens are part of what made this state and nation strong. All they ask in return is help to be able to remain in their homes with adequate care during their final years. Surely, we as a state can assist in this request by providing home care through the CAP-DA program as we have in the past and for the future.

Sincerely,

A handwritten signature in cursive script that reads "J. Rick Campbell". The signature is written in black ink and is positioned to the right of the word "Sincerely,".

Ali Campbell
Great Granddaughter

I'd just like to say there should be more money allotted for Community Alternatives Program, maybe less for nursing homes so people can have a choice of being at home. It would definitely be less expensive for home care than nursing home. Families should not be forced to be separated, or quit their jobs. The freeze on Cap Care should be lifted.

My daughter has a disabled child who's on the waiting list now and has had to quit her job because she doesn't get enough nurse coverage to allow her to work.

It's all her husband can do to make ends meet. They are a very young couple 22 & 25 who chose to bring their baby home with lots of medical needs. I'm very proud of them for accepting such a responsibility and learning to care for her needs themselves because they don't always have a nurse.

They would not be in such a financial strain if they had CAP care. Family members are not able to baby-sit due to excessive medical needs ~~that~~ ^{that} we have not been able to learn. This child came home at 5 1/2 months old and is now 17 months, we have no way of knowing what her life span will be but we want desperately to love and take care of her while we have her. We need CAP care as well as elderly, or other disabled people who want to be Home. Thank you!

Community Alternatives Program
for Disabled Adults, "Rowan County"

So where it may concern,
I am the daughter of 2 parents, one
in Diness's Elder Care and one trying to make
it alone at home. They are both 86 years old.
Have been married 64 years April 16 of this
year. I've had a stroke and my husband
has heart problems. That's why we need
help with CAP Care. Dad's needs to be
with Mom but he isn't able to care for
her and she isn't able to care for him,
however, it would be so much cheaper if
they were able to get help and stay in
their home together. I do what I can
to look after both, but it's a shame and
disgrace they have to live separate after
all these years together.

Please, if there is any way, give us
CAP Care - we along with many others
need this program.

Thank you and
May God Bless you
Rachel J. Shepherd

Jim E Fauber
PO 714
Faith, NC 28041

To Whom It May Concern:

My name is Jim Fauber and I am writing in regards to a recent article I read in the Salisbury Post concerning budget cuts for home care in Rowan County.

I am incarcerated but have earned the privilege of weekend home passes. At the end of each weekend I have to part from home, wife, and daughter. It is often a heartbreaking time for the whole family. But these are the consequences that one must bear for past mistakes and breaking the law.

Mickey Dudney has no such past nor has he broken the law. And yet, he and his family are victims of the recent budget cut that has deprived disabled persons from home health care.

When I came home for the first time Mickey Dudney and his wife, Reba, were then my wife's Sunday School teachers, and they invited my wife and I to a cookout at their home. These people treated me as a person and not a criminal. They made a huge impact on my first steps toward a new life.

I am certain that I am not alone in expressing a strong desire to see the freeze lifted in Rowan County so that fine people who have contributed so much to our community, like Mickey and Reba Dudney, can have access in their homes to medical treatment. This is the least our lawmakers can do to honor such people.

Thank you in advance for reconsidering the decision that was made to freeze these funds. I sincerely believe that a reversal will be extremely popular with the citizens of this county.

Sincerely Yours,

Jim E Fauber

HOSPICE at Charlotte

March 26, 2002

To Whom It May Concern:

We are writing on behalf of CAP-DA. As social workers with the terminally ill and their families, we are personally and directly in touch with the benefits of this program. It has helped many of our patients spend their last days in their own homes.

Terminal illness does not discriminate. It strikes the poor and young just as it does the wealthy and old. Its course, however, is often the same. Patients inevitably are not able to be alone without a caregiver. Usually this caregiver is a family member. However, if you are young, this family member is likely employed. Often our patients were employed as well and are no longer able to work due to their illness. Therefore, you have a family facing a situation where they will have no income. Hiring caregivers is expensive -- at least \$10.00 per hour. Low to middle-income families cannot afford this.

CAP-DA has been a program that allows these families the honor that we all desire...to die at home with dignity. Sometimes an agency sitter is assigned for care. Other times a family member takes leave from their own job without pay. They are able to do this by getting paid through CAP to care for their loved one -- an ideal situation. Without this program, we will have more patients being placed in nursing facilities. This is not going to save our state money. The cost of care at home for 8 hours a day is a fraction of what it is in a facility for 24 hours a day.

One hospice patient recently under our care is in fact now in a nursing home. She is a perfect example of someone who would have financially qualified for and benefited from CAP-DA. Her husband is deceased. She has one daughter capable of providing care. However, this daughter has to work. She is separated from her husband, has a 6 year old to support. They live very modestly in a mobile home and lack financial resources. The family tried to piece together what care they could for the patient as long as they could. The situation was very chaotic and the patient suffered -- multiple falls, missed medications, etc. If she had had a trained sitter in the home during the day, while her daughter worked, she would still be at home. Instead, because of the CAP-DA freeze, she is now in a nursing home. Now the state pays at least \$4000 per month for her care and will until she dies separated from her home and family.

We understand that the freeze on this program is being reviewed and may be lifted in the future. Until then, individuals and their families are facing situations like the above every day. Most of our patients will die before the freeze is ever lifted. For just a second,

imagine yourself in the position of these individuals and their families. CAP-DA not only makes financial sense, it is a compassionate program worth saving!!

Re: CAP-DA Freeze

Governor Michael F. Easley
Office of the Governor
20301 Mail Service Center
Raleigh, NC 27699-0301

Dear Governor Easley,

Please lift the freeze on the CAP-DA program. CAP-DA allows people like me to stay at home at less cost to North Carolina than a nursing home. I am a patient receiving CAP services. I am 75 years old and I live Alone (ie. alone, with family). My medical condition includes MI 07/00, COPD, CHF, HTN, TIA's, A-Tn HTN, UTI's & Sepsis (state your medical problem), and I am unable to VACUUM, LAUNDRY, MOP, PERSONAL HYGIENE without assistance. Without CAP-DA, I will be forced to go into a nursing home against my wishes.

Studies by Duke University's Long Term Care Resources Program have shown that CAP-DA patients are one of the most impaired populations in the state, on par with the nursing facility population and much more impaired than the state's adult care home and general Medicare populations. As an integral component of the Secretary of Health and Human Services Olmstead Plan, CAP-DA serves over nine thousand people who would otherwise be in nursing facilities at greater cost to the state.

As you consider innovative solutions to our budget challenges, the CAP-DA program should stand as a beacon of opportunity for savings. The North Carolina Institute of Medicine's Long Term Care Plan for North Carolina: A Final Report stated that the state's long term care policy should provide "high-quality, cost-effective care in the least restrictive setting" and that the state's policies should strengthen the capacity of families to serve as caregivers." Both of these goals are accomplished by CAP-DA. Also, the 2001 North Carolina Medicaid Benefit Study states that CAP programs, "have demonstrated substantial savings compared to the equivalent cost of keeping CAP participants in nursing homes."

Every day the CAP-DA freeze remains in effect, some of the more than five thousand people on CAP-DA waiting lists are forced into nursing homes. When that happens, our state needlessly spends greater amounts of money on health care.

Respectfully,

Charlotte P. Tucker

P.O. Box 279
Pineola, N.C. 28134

March 17th 2002

To Thom & My Concerns,

I am writing this letter in regards to the freeze on the CAP program. My mother is 84 years old and has to have total care due to the fact that she has had a stroke and has been hospitalized four times in the past six months also for urinary infection, acute heart failure and pneumonia and is now tube feed.

I made a choice not to put her into a nursing home due to the fact that I feel for sure in my heart that she would not receive the love and personal care that she can get in her own apartment. This being the case I have chosen to let her live in her own place. Even though I can assure you that it is all in love, she has to have twenty four hour care, which stretches us out twenty four/seven. She definitely can not be left alone at any time.

Please find it in your hearts to lift the freeze on the CAP

3-15-02

To Whom It May Concern,

I am sorry that I can not attend the meeting about the Cap-Da Freeze. Due to the condition of my health I feel it is necessary to have more hours than what is available to me now. I feel that if I can receive the extra hours I will be able to stay in my own home.

Sincerely, Cora Taylor

Dear Representative:

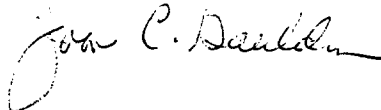

I am writing this letter to let you know how valuable and important the CAP-DA program is to my grandmother. She is 93 years old, is legally blind, and has Alzheimer Disease and other medical problems. She is currently being cared for in her home only because CAP-DA exist and helps with homebound care. Without this program, she would have been placed in a nursing home or left home alone for too many hours each day.

The aged population once was active and productive, tax-paying citizens and now when they need help, they are being overlooked and left on limited income and resource to provide for their needs. The CAP-DA program is vital to allowing them to continue and complete their life in their own home and with the needed care, monitoring and dignity they deserve.

Please continue this program so my grandmother and others like her can remain at home and still be properly monitored and cared for in familiar surroundings. I understand there are many clients on waiting lists for this program. I know how they feel because I was once in this situation they are now experiencing. Please lift the freeze on CAP-DA and provide care through this program for deserving clients so they too can receive needed care and complete life's journey in their own homes or homes of family and loved ones.

Our nation stands for human rights throughout the world. What image are we depicting if we ignore the needs of our own aged population? These aged citizens are part of what made this state and nation strong. All they ask in return is help to be able to remain in their homes with adequate care during their final years. Surely, we as a state can assist in this request by providing home care through the CAP-DA program as we have in the past and for the future.

Sincerely,

A handwritten signature in cursive script that reads "Jon C. Daulton". The signature is written in dark ink and is positioned to the right of the word "Sincerely,".

Both of these goals are accomplished by CAP-DA. Also, the 2001 North Carolina Medicaid Benefit Study, states that CAP programs, "have demonstrated substantial savings compared to the equivalent cost of keeping CAP participants in nursing homes."

Every day the CAP-DA freeze remains in effect, some of the more than five thousand people on CAP-DA waiting lists are forced into nursing homes. Each time that happens, our state needlessly spends greater amounts of money on health care.

Respectfully,

Signed: Reay McCloud

Re: Freeze on Cap

To Whom It May Concern:

My name is Rose Elliott Carpenter and my grandmother Reacy McCloud, now 96 years old with congestive heart failure and Alzheimer's disease lives with my Mother and Father, Kenny and Anita Elliott; and I assist them on the weekends bathing, feeding; dressing, etc., for my grandmother. During the week our Cap worker does all this so my Mother can continue to work and my Father can do all the things he needs to do around the house and take care of his own mother. Without the cap worker there is no way we could keep my grandmother, as there is no one who could just quit everything he/she needs to do to take care of her. She requires constant looking after, as she walks with a walker, however you must accompany her because she cannot lift her feet, she shuffles them. She has to be taken to the bathroom and assisted in cleaning up. She has to be dressed with help and quite frankly everything to do with her care has to be assisted. For example, her meals have to be prepared, medicines given and identified, bathing, walking..everything has to be done for her and assisted.

There is no doubt that without the help of a cap worker, 40 hours a week, we could not keep her out of the nursing home.

Among her physical severe complications she is also incontinent, and requires cleaning and changing diapers quite often. As you know with elderly people you must keep them clean especially in that area or they become severely raw and develop sores.

Our cap worker is wonderful in keeping grandmother clean and like I said, again, without her I don't see a choice of what we will have to do. As I expect your aware as I'm aware patients do not get the best of care in a nursing facility and I'm sure it's because there is a shortage of nurses who care enough to get the job done; or are simply over-whelmed with too many to deal with. Whatever the cause; this is why we chose to try and keep grandmother. They are human too, and I would quite frankly rather follow her to her grave as to have to put her in a home.

Please I beg you to lift the freeze on our cap program and help our elderly have the dignity and reward of staying home and the assurance that they will be taken care of.

It's more or less in your hands whether or not our elderly will be cared for at home, and right now your sending the message that gives families no choice. There is NO possible way we can do this alone. We all have our homes and jobs to go to, and it's not fair for anyone to have to give that up especially when there are programs aimed at helping with this type of situation. Are we so indifferent to the elderly anymore that they should just be put off? I don't think so!! I certainly hope you reconsider what your doing and lift this freeze. If anything, should be done there should be more allowance for this program. I don't think you're quite aware of the number of families that depend on cap help, if not you should consider looking into the matter. I know in our particular county there are a great many and if our county is so "broke" and over budgeted, then maybe we need some new representation, from the county all the way to the governor..and I tell you there are enough people in this county who is willing to go the miles to see that this situation be resolved, and you might say, well, there's not enough to make a difference, but you better look and count again.

I sincerely hope and pray you do the right thing. You might try visiting a nursing home sometime unannounced; and then go to a home where cap is taking care of someone; the evidence would be justified to you. We are all going to go down this road if God doesn't call us home and my prayer would be that if my time comes there will be a program where I can stay home and be looked after with such a great care as the cap program has provided with grandmother.

Sincerely and with hope,

Rose Carpenter

HELP CAP - DA
130 Arlington Street, Suite 107
Salisbury, N.C. 28144

To Whom It May Concern:

I am writing this letter in support of lifting the CAP freeze.

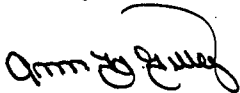

Having served as a Social Work Case Manager in a local hospital, and now as a Social Worker with the county department of social services, I have seen through the years, how beneficial the Community Alternatives Program is.

The cost of long term care is rising, and many elderly and disabled people are unable to receive the care that they so desperately need, due to fixed income and expenses already incurred for health care. Some have even lived without the needed care, which in turn has put them at risk for further health problems, or even death. CAP has helped to provide this care, and as a result, has improved the quality of life for many.

The CAP freeze not only affects those who are in need of these services. It also has an impact on the unemployment rate, in our county, and across the state. Social Workers, as well as In-Home Aides who were initially trained for this service will be without jobs, and the caseload for Home Health Nurses will decrease, possibly jeopardizing their positions.

I am one of many who requests that our representatives review the Community Alternatives Program, in detail, before considering to continue budget cuts in this area. CAP has proven to be a beneficial service to our community. It would be a great loss if this program were not available for those in need.

Sincerely,

Ann H. Gilley

April 26, 2002

To Whom It May Concern:

Please lift the freeze on the CAP-DA program. CAP-DA allows people like me to stay at home at less cost to North Carolina than a nursing home.

I am 85 years old and I live with family (i.e. alone, with family). My medical condition includes the following problems:

Alzheimers disease, HTN, Osteoarthritis

I am unable to do the following activities because of my condition:

Cooking, housework, bathing, dressing, eat.

Without CAP-DA I will be forced to go into a nursing home against my wishes.

As an integral component of the Secretary of Health and Human Service's Olmstead Plan, CAP-DA serves over nine thousand people who would otherwise be in nursing facilities at greater cost to the state.

As you consider innovative solutions to our budget challenges, the CAP-DA program should stand as a beacon of opportunity for savings. The North Carolina Institute of Medicine's Long-Term Care Plan for North Carolina: A Final Report stated that the state's long-term care policy should provide "high quality, cost-effective care in the least restrictive setting" and that the state's policies should strengthen the "capacity of families to serve as caregivers." Both of these goals are accomplished by CAP-DA. Also, the 2001 North Carolina Medicaid Benefit Study, states that CAP programs, "have demonstrated substantial savings compared to the equivalent cost of keeping CAP participants in nursing homes."

Every day the CAP-DA freeze remains in effect, some of the more than five thousand people on CAP-DA waiting lists are forced into nursing homes. Each time that happens, our state needlessly spends greater amounts of money on health care.

Respectfully,

Signed: Flossie Smith - by Linda Johnson

To whom it may concern,

I am writing this request on behalf of my wife. My wife and I have been married for 37 years and are very close. She is completely disabled and living at home with me. We have an in-home aid that comes everyday to take care of my wife while I am at work thanks to the CAP-DA plan. I am a law enforcement officer and if you discontinue the CAP-DA plan I will have to quit my job to stay home with my wife or pay someone to stay with her, which she and I can not afford. So please see if you can help, not only us but everyone that is in the same situation as us. Thanks you for any help that you can give in this matter.

Respectfully Yours,

Faye & Robert Eure

Dear Representative:

This letter is to let you know how important the CAP-DA program is to families and clients.

I am employed through a home health agency as a CNA and currently care for a 93-yr. old client in her home. She is legally blind and has Alzheimer Disease. She is currently a CAP-DA client and therefore able to remain in her home and familiar surroundings. Her family, while very attentive and supportive, would have been unable to provide continued home care without the CAP-DA program assistance.

The aged population of our state deserves the opportunity to be cared for while remaining in familiar surroundings of their own home (or home of family and loved ones).

Please continue the CAP-DA program and lift the current freeze on this program so other elderly citizens can remain in home settings and still receive adequate care during their remaining years of life.

Our nation stands for human rights throughout the world. What image are we depicting if we ignore the needs of our own aged population? These aged citizens are part of what made this state and nation strong. All they ask in return is help to be able to remain in their homes with adequate care during their final years. Surely, we as a state can assist in this request by providing home care through the CAP-DA program as we have in the past and for the future.

Sincerely,

Callie Brown

Dear Representative:

I am writing this letter to let you know how valuable and important the CAP-DA program is to my mother. She is 93 years old, is legally blind, and has Alzheimer Disease and other medical problems. She is currently being cared for in her home only because CAP-DA exist and helps with homebound care. Without this program, she would have been placed in a nursing home or left home alone for too many hours each day.

The aged population once was active and productive, tax-paying citizens and now when they need help, they are being overlooked and left on limited income and resource to provide for their needs. The CAP-DA program is vital to allowing them to continue and complete their life in their own home and with the needed care, monitoring and dignity they deserve.

Please continue this program so my mother and others like her can remain at home and still be properly monitored and cared for in familiar surroundings. I understand there are many clients on waiting lists for this program. I know how they feel because I was once in this situation they are now experiencing. Please lift the freeze on CAP-DA and provide care through this program for deserving clients so they too can receive needed care and complete life's journey in their own homes or homes of family and loved ones.

Our nation stands for human rights throughout the world. What image are we depicting if we ignore the needs of our own aged population? These aged citizens are part of what made this state and nation strong. All they ask in return is help to be able to remain in their homes with adequate care during their final years. Surely, we as a state can assist in this request by providing home care through the CAP-DA program as we have in the past and for the future.

Sincerely,

Hergie Hannon Campbell

5 - 6, 2002

To Whom It May Concern:

Please lift the freeze on the CAP/DA Program. CAP/DA allows people like me to stay at home at less cost to North Carolina than a nursing home.

I am 83 years old and I live alone (i.e. alone, with family). My medical condition includes the following problems:

I have Rheumatoid Arthritis - High active thyroid

I am unable to do the following activities because of my condition:

I cannot bath or dress myself. I cannot do house work or cook my meals. I walk with walker or support from someone. An aid comes in to give me help.

Without CAP/DA, I will be forced to go into a nursing home against my wishes.

As you consider solutions to our budget problems, the CAP/DA Program should stand as an opportunity for savings. It has proven to be less costly than nursing home placement. Also, the care I receive is of high quality, and I fear this may not be true if I am forced to enter a nursing home.

Every day the CAP/DA freeze remains in effect, some of the more than 6,500 people on CAP/DA waiting lists are forced into nursing homes. Each time that happens, our state needlessly spends greater amounts of money on health care.

Respectfully,

Signed: Maggi R. Allred

*I appreciate the cap program
and the help I receive.
I pray the freeze will be lifted*

Dear Help Caps

May 4, 2002

Please lift the freeze on our Caps program. There are many people in this area in need of this program, since I'm just one of the people on the Caps-Da program. This has really helped me. If it wasn't for this good program I probably couldn't afford to pay for my CNA & also my medicines are very expensive. I know it can help other too. I hate to do so much for everything you'll do. I really like the Caps Da program.

Sincerely,

Dewey Chester

To Whom It May Concern:

Please lift the freeze on the CAP-DA program. CAP-DA allows people like me to stay at home at less cost to North Carolina than a nursing home.

I am 43 years old and I live with Family (i.e. ^{Dad}alone, with family). My medical condition includes the following problems: High Blood Pressure

H.I.V., Hep B, Pulmonary, Asthma, Bronchitis, Peripheral Neuropathy, Rheum. Arthritis, Deformity of right Ankle, Broke my fib LA LAST APRIL 3, Now Bacterin in my

I am unable to do the following activities because of my condition: Have to
WALK with WALKER, CAN NOT GO UP & DOWN STEPS.

I WAS THE LAST ONE TO GET ON CAP IN SEPT We have so many people that need CAP. Please!! Stop the Freeze

Without CAP-DA I will be forced to go into a nursing home against my wishes.

As an integral component of the Secretary of Health and Human Service's Olmstead Plan, CAP-DA serves over nine thousand people who would otherwise be in nursing facilities at greater cost to the state.

As you consider innovative solutions to our budget challenges, the CAP-DA program should stand as a beacon of opportunity for savings. The North Carolina Institute of Medicine's Long Term Care Plan for North Carolina: A Final Report stated that the state's long-term care policy should provide "high quality, cost-effective care in the least restrictive setting" and that the state's policies should strengthen the "capacity of families to serve as caregivers." Both of these goals are accomplished by CAP-DA. Also, the 2001 North Carolina Medicaid Benefit Study, states the CAP programs, "have demonstrated substantial savings compared to the equivalent cost of keeping CAP participants in nursing homes."

Every day the CAP-DA freeze remains in effect, some of the more than five thousand people on CAP-DA waiting lists are forced into nursing homes. Each time that happens, our state needlessly spends greater amounts of money on health care.

Respectfully,

Signed: Kevin D. Whisenant

you need to look at yourself. ^{you} ~~there~~ may be in the same situation ⁱⁿ 25 yrs from now.

5-6, 2002

To Whom It May Concern:

Please lift the freeze on the CAP-DA program. CAP-DA allows people like me to stay at home at less cost to North Carolina than a nursing home.

I am 75 years old and I live alone (i.e. alone, with family). My medical condition includes the following problems: 6 Heart Attacks. Osteoporosis. Colon Cancer. COPD.

I am unable to do the following activities because of my condition: Bed Fast. Have CNA. E are during the day. Cannot do Home Care of any kind. Need help & Personal Care. Blindness in Left eye.

Without CAP-DA I will be forced to go into a nursing home against my wishes.

As an integral component of the Secretary of Health and Human Service's Olmstead Plan, CAP-DA serves over nine thousand people who would otherwise be in nursing facilities at greater cost to the state.

I am the care-giver taking care of my elderly relative when the nurse aide is not here. My family is very important to me. The CAP / DA Program has allowed me to keep my loved one at home and given me the opportunity to continue working and living my life in a normal manner. Please don't discard this program. We will all need this at some point in our lives.

Respectfully,

Don Pugh

Date: 5-2-02

To Whom It May Concern:

Please lift the freeze on the CAP-DA program. CAP-DA allows people like me to stay at home at less cost to North Carolina than a nursing home.

** Presently staying in nursing home, very unhappy*
I am 75 years old and I live Family (i.e. alone ^{could be} with family). My medical condition includes the following problems: Terminal Parkinson's *Forced to stay at nursing home because of my condition - Need assistance to stay at home*
Bed ridden - unable to walk

I am unable to do the following activities because of my condition:

Totally unable to care for myself - Can not turn in bed, feed, bath, cloth myself.

Without CAP-DA I will be forced to go into a nursing home against my wishes.

I am there now. It is the ~~most~~ worst experience of my life.

As an integral component of the Secretary of Health and Human Service's Olmstead Plan, CAP-DA serves over nine thousand people who would otherwise be in nursing facilities at greater cost to the state.

As you consider innovative solutions to our budget challenges, the CAP-DA program should stand as a beacon of opportunity for savings. The north Carolina Institute of Medicine's Long-Term Care Plan for North Carolina: A Final Report stated that the state's long-term care policy should provide "high quality, cost-effective care in the least restrictive setting" and that the state's policies should strengthen the "capacity of families to serve as caregivers." Both of these goals are accomplished by CAP-DA. Also, the 2001 North Carolina Medicaid Benefit Study, states that CAP programs, "have demonstrated substantial savings compared to the equivalent cost of keeping CAP participants in nursing homes."

Every day the CAP-DA freeze remains in effect, some of the more than five thousand people on CAP-DA waiting lists are forced into nursing homes. Each time that happens, our state needlessly spends greater amounts of money on health care.

Respectfully,

Signed: Charles Lee Baker, by Margaret Baker, wife and caregiver -

N.C., 28391-8522

Dear Sir/Ms.

I am writing in regards to the State of North Carolina wanting to cut the Cap Program of needed patient hours. First I want to state that this would put a lot of Certified Nursing Assistants into a position of poverty, unable to support their families. They would then become dependent on the government for welfare assistance again, which is true in my case.

The next issue which is of prime important this would cause patients to suffer. Patients that are at home, recover better, because they are near their loved ones. This encourages their moral and personal health. The patient being at home does puts a burden on the family because most families are not trained to take care of medical needs. It does give the family members time to go and work to support the family. This is where the in home health services help the families, to free their time in order to work to support their family, and sick member. The aid takes care of all the needs of daily living, like bathing the patient; cooking and cleaning the home for the patient, feeding them if needed, also spend quality time as a companion, in order to keep the member mentally stimulated. This all helps to promote a healthier patient. In home nurses come and provide the necessary sterile procedures needed.

expanded rather than cut. I know of many people on the waiting list for this program to open up. Please listen to this plead to not cut this program, it will have a bad impact on too many people and families.

I have included a list of people whom are asking you not to cut this program whom are saying "as American of the USA we want a say in you not cutting this program, please listen".

Sincerely,

Patricia Blakley-Bryant CNA I, II

Dear Sir:

I am writing you in behalf of my husband, Charles L. Baker, who suffers from Parkinson's disease and a respiratory condition. He is now bed ridden and in a nursing home.

I would like very much for him to be at home, and I am sure he would be much happier. In order to do this, he would need home health care. We do not have family to help me care for him and would require assistance.

He does not get the care in the nursing home that he needs. They are continually cutting back on their staff which causes the patients to be neglected. I go to the nursing home every day to help

II

Care for my husband which puts a hardship on me. I would much rather for him to be cared for in our home.

Prior to entering the nursing home, I cared for my husband at home, but he developed pneumonia and complications which required him to be put on a ventilator.

It cost the Federal and state government much more for patients to be institutionalized, rather than being cared for in the home. At home the patients are not exposed to all the germs and diseases that they contact in the nursing homes.

I believe it would be beneficial to the state of N.C. to lift the freeze on CAP/DA and provide home health care for those that prefer to be at home.

III

Please reconsider lifting the freeze on the CAP Program and provide the services that are so desperately needed for the disabled and elderly.

Your consideration in this matter will be greatly appreciated.

If you need to contact me, my telephone number is (704) 545-4447.

Sincerely,
Margaret W. Baker

Re: CAP-DA Freeze

Governor Michael F. Easley
Office of the Governor
20301 Mail Service Center
Raleigh, NC 27699-0301

Dear Governor Easley,

Please lift the freeze on the CAP-DA program. CAP-DA allows people like me to stay at home at less cost to North Carolina than a nursing home. I am a patient receiving CAP services. I am 86 years old and I live Livville Falls (ie. alone, with family). My medical condition includes CHF, Hx frequent UTI's, RA, Hypothyroidism, Arterial (state your medical problem), and I am unable to ambulation, Ex Left Hip, by potensim without assistance. Without CAP-DA, I will be forced to go into a nursing home against my wishes. UNsteady Gait, History Falls, forgetful

Studies by Duke University's Long Term Care Resources Program have shown that CAP-DA patients are one of the most impaired populations in the state, on par with the nursing facility population and much more impaired than the state's adult care home and general Medicare populations. As an integral component of the Secretary of Health and Human Services Olmstead Plan, CAP-DA serves over nine thousand people who would otherwise be in nursing facilities at greater cost to the state.

As you consider innovative solutions to our budget challenges, the CAP-DA program should stand as a beacon of opportunity for savings. The North Carolina Institute of Medicine's Long Term Care Plan for North Carolina: A Final Report stated that the state's long term care policy should provide "high-quality, cost-effective care in the least restrictive setting" and that the state's policies should strengthen the capacity of families to serve as caregivers." Both of these goals are accomplished by CAP-DA. Also, the 2001 North Carolina Medicaid Benefit Study states that CAP programs, "have demonstrated substantial savings compared to the equivalent cost of keeping CAP participants in nursing homes."

MEETING NOTE

Dear Sirs:

I am writing this letter for help to put CAP-DA back for the help of the disabled and seniors adults that has Osteosarcoma - softening of the bones. There are over 100 clients in Cleveland County and their families have to stay at home and look after them. There is a lady that live next door to me that has this softening of her bones and her husband has to stay home and take care of her.

I think who ever froze this program has not have gone through this awful time, but it may hit them sometime. So please put this program back to work for our Disabled Adults and Seniors.

A Concerned Citizen
from Cleveland County

My Name is Iris Elizabeth Hunter
and I have alot of Health troubles, and I
also take a lot of Med.
Here are some of my Meds.

1. Fiorice - every Four hours for ~~my~~ my gastric
Headache.

2. Clinoid - 200 mg. 2 times a day

3. Robaxin - 750 mg. 4 times a day

4 - Duratiss - 4 Tab - 1200 mg. 1 tab
twice a day to loosen secretions

5 - Darvocetⁿ every Four hrs. 100 - 650
for pain.

6 - E laval 150 mg at bed time

7 - Diphenhydramine - 50 mg. as need for
itching

OVER

7- Alvan - 0.5 mg. for nerves 3 times
a day

8. Albuterol - 90CB - 2 puffs 4 times a day

9- Humalog Inline 8:00^{AM} 30 units
-- N pm 5:00 30 units

10: Humalog N A.M. - 30 units

Humalog P.M. 60 units

Sliding Skel - 2 ex of R.

11- Hydromet Syrup 240 mg every 4 hr.
for cough

12- Albuterol - 1 vial in
nebulizer every 4 hr. 0.083%
NEB Sol #75

13- Ipratropium 0.02% Inh Sol #75
use 1 vial every 4 hr. in Nebulizer.

~~14- Duoneb~~

14. Duoneb 2 N# Soln #75 - use 4
times a day over

15 - Pulmicort - 200 mg 3 times a day

16 - Levaquin 500 mg - 1 table every day

17. Tricou 200 mg 1 table every day

18 - Acular - 1 drop in right eye 4 time day

19. Zanaflex - 4 mg. - Take one table 3 times a day for muscle spasm in Back & legs and Hips.

20. Benzonatate 100 mg. 3 times a day for cough

21 - Eledolac Lodine 500 mg. 1 Table 2 x a day with food

22. Buspar - 15 mg Four time a day for panic attacks

23. Aerobid 2 puffs 4 times daily 250 mg

if you need to talk to Dr. Hall or
Dr. Miller w. whelaker M.D.

he is with Cape Fear Eye Associates P.M.
Eye Phy. and Surgeon.

His number is 774-8631 in
Saxford, or 1-800-829-2284

And Dr. Hall's number is 775-1000

I will send some paper if you need to
check my med records

Dr. Meredith is a Retinal spec. at
the Ambulatory care Center 2nd Fl.
his number is 919-966-5509
my Medical Record No is 0747137-8

yours Truly
Iris Hunter

Please let me know if you need
any more information.

April 26, 2002

In reference to the C.A.P. Program:

I urge you to reinstate the C.A.P. Program and find another way to help the budget that will not affect so many people. To name a few (AND I EMPHASIZE, *A FEW* AMONG MANY CITIZENS WHO WILL BE INVOLVED) :

IN HOME HELP AIDES, WHO WILL LOSE THEIR JOBS.

CAREGIVERS, WHO CANNOT AFFORD TO QUIT THEIR JOBS, BUT ARE FORCED TO CHOOSE BETWEEN FINANCIAL INDEPENDENCE AND ADEQUATE CARE FOR THEIR LOVED ONES.

PATIENTS, WHO RECEIVE EXCELLENT CARE IN THE HOME (NURSING HOMES CANNOT PROVIDE THE LOVING CARE THE PATIENT RECEIVES AT HOME BECAUSE THEY CANNOT TAKE THE TIME FOR ONE ON ONE CARE. THEY ARE UNDERSTAFFED NOW AS IT IS).

NURSING HOMES WILL BE OVERCROWDED FROM THE EXTRA LOAD THIS WILL PUT ON THEM. WITH MOST NURSING HOMES BEING UNDERSTAFFED NOW, THIS WILL CAUSE FURTHER INADEQUATE CARE FOR THE PATIENT.

In some cases, you may be "pulling the plug" on citizens who look to the C.A.P Program as a type of "life support". Most of these citizens have worked hard all their lives and are simply trying to get through their final years with some sort of dignity.

My mother, who is 82 years old, is one of those citizens who would effectively be given a "death sentence" if the C.A.P. Program were to be discontinued. She has been on the C.A.P. Program for approximately nine years. She is an Alzheimers patient who is completely bedridden and dependent on others to perform necessary tasks for her. She is unable to communicate. It takes approximately 45 minutes to feed her. A nursing home cannot and will not take this amount of time (one on one) to see that each patient has proper nourishment. In effect, the patient

would literally be starved to death. Additionally, the patient would receive inadequate personal hygiene treatment due to the frequency necessary for changing "diapers" and proper body bathing to prevent bedsores, rashes, and other infections. In the 9 years that I have had In-Home Aide help, my mother has never had one bed sore and, very rare, any rash. Her skin is beautiful and her health is very good. She has been well taken care of.

Since many of these citizens are unable to properly communicate, it is imperative that a Caregiver be sufficiently knowledgeable of the patient to be able to determine if the patient may be suffering from some type of medical emergency. A good example of this is when my mother had to be hospitalized to remove a diseased gall bladder. Had our Caregiver not been able to recognize that something was wrong immediately, my mother could have died. Patients with serious medical problems, who are incognitive and who cannot communicate that they are hurting, could possible go unnoticed before it becomes life threatening. Since Caregivers at nursing homes have too many patients to take the necessary time to become aware of a situation right away, quick action could mean the difference between life and death.

Yes, my mother is still on the C.A.P. Program because she got on it before you decided that you would cut the budget by not adding new recipients to the C.A.P. Program. How can you believe you are saving money by doing this? By sending recipients to nursing homes, you will be spending more in the long run (cost for patients in a nursing home, paying unemployment compensation to those who lose their jobs over it, etc.)

Listen to your people and hear their cries for help. Do not turn a deaf ear or turn your back to their despair. Please find another way to help the budget crisis and reinstate the C.A.P. Program.

I have attached an editorial from the March 31, 2002 edition of the Sanford Herald written by Paul T. Conner, who covers state government for the *Capital Press Association*. In Mr. Conner's words, "these cuts are not the only path to eliminating the budget shortfall". He lists 7 other options for consideration. I should like to offer an 8th option that he did not mention:

8th Option:

**ALL PERSONS WORKING IN NORTH CAROLINA, WHETHER
A CITIZEN OR NOT, SHALL PAY STATE INCOME TAXES TO
THE STATE OF NORTH CAROLINA.**

It is a hardship on the hard working tax-paying citizens of our state to have to shoulder all the burden of a troubled budget while others who are non-citizens and non-tax paying residents of North Carolina receive benefits that we are taxed for. We all know that a lot of the money received in North Carolina by alien workers is being sent to their home countries. We all know also, that many of these aliens receive aid from Social Service Programs.

Sincerely,

Dorothy S. Craig

Dorothy S. Craig

I am benefiting from the CAP / DA Program. This program is allowing me to stay in my own home and allowing my family to continue working while knowing I'm being cared for by a certified nurse aide. Please don't discontinue this program, we need your help.

Respectfully, *Ynamie Dabrymple*

Apr. 25, 2002

Dear Lisa,

It is not the disabled adults that is causing our state to be suffering a budget deficit it is the people in the office in Raleigh. These 100 clients and more in Cleveland County on the waiting list are the ones who are suffering. Most of them cannot afford Nursing Homes. I know because my mother was in one.

I have a friend who is suffering from Osteosarcoma, softening of the bones. She has fallen and broken 2 shoulders & wrist and it is getting worse. Her husband has to look after her so there fore he has to stay home with her. So please try and get this program back again. Thank you.

April 23, 2002

I am the care-giver taking care of my elderly relative when the nurse aide is not here. My family is very important to me. ALICE & PIERRE WERTHEIMER
108 BRIGHTON COURT
CHAPEL HILL NC 27516
May 9, 2002

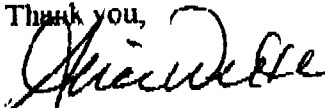

TO: Senator Martin
North Carolina State Legislature
Health and Human Services Joint Appropriations Subcommittee

Via FAX: 919-715-5815

Dear Senator Martin,

I am unable to attend this morning's hearing on the proposed budget cuts to human services, but I respectfully submit my comments for the official record.

Thank you,

Alice Wertheimer

Testimony Regarding the Proposed Cuts to Health and Human Services

May 9, 2002

I am disturbed to learn that the legislature is proposing budget cuts to health and human services and stunned that in North Carolina this would even be considered.

As the parent of two teenagers raised in this state, one of whom has autism, I have long regarded North Carolina as an innovator with the foresight to create and support valuable programs which prove cost-effective in the long run. Cutting funds to or eliminating programs which profoundly affect the daily lives of citizens who are already just barely getting by and faced with tremendous challenges, in my view, will come back to haunt us.

My son David who has autism, is a 16 year old high school student, but, at this time, unable to stay at home alone. Changes in or elimination of his CAP program may not only necessitate either my husband or I to leave our jobs, but could also severely affect the progress David is making toward independence. The programs that North Carolina has funded through the Autism Society of North Carolina, Division TEACCH and the CAP program have given our family, and thousands of families like ours in North Carolina, the hopes and dreams that mirror those of all Americans -- that our children will develop and grow into responsible, independent citizens who contribute to the state as effective workers and taxpayers. Cutting these services - which are already limited and have faced previous slashings, - could have a tremendous effect on our state's economy by forcing people into unemployment, state dependency and eventually, increased numbers of people returning to state institutions and mental hospitals. This is beyond just a question of the current budget crisis. We cannot simply toss out the needs for appropriate education, supported employment and independence training to satisfy a temporary need to come up with funds. It is difficult for me to fathom that the great state of North Carolina, would consider cutting programs that serve it's most vulnerable citizens, as if turning the clock of progress back 10-20 years.

In my view, funding should come from other sources - not from programs that will directly hurt people with disabilities and their families and others who are already overly burdened. I think the legislature should have the courage to recognize and speak up about the need to raise taxes now to make up for the budget shortfall. What else is our tax money for if not to serve and support our own citizens?

I respectfully request that the proposed cuts be reconsidered and that the committee carefully regard the long-term consequences to the state's economy in this attempt to achieve a short term goal by potentially devastating the lives of those who can least afford it.

Respectfully submitted,

Alice Wertheimer

Warren Wick

To whom it may concern:

I send by a car-guise for my parents. I am writing this letter as a plea for you to help me keep a promise I have made to them.

My parents have been married 54 years. They both have a sound and clear mind. They do have a lot of disabilities which take a lot of care.

My mother is on the Cap / R A program. Without the help of the CNA coming into help, I would not be able to keep them together at home in their own environment.

I love my parents very much and feel I owe this to them!

Please don't discard this program. Please don't make me break my promise to them.

Sincerely
H. By

RE: CAP/DA Freeze

Governor Michael F. Easley
Office of the Governor
20301 Mail Service Center
Raleigh, NC 27699-0301

Dear Governor Easley,

Please lift the freeze on the CAP/DA program. CAP/DA allows people like me to stay at home at less cost to North Carolina than a nursing home. I am currently on the CAP/DA waiting list. I am 40 years old and I live avery county (i.e. alone, with family). My medical condition includes Dialysis 3 days a week (state your medical condition), and I am unable to go w/out help w/ meals without assistance. Without CAP/DA, I may be forced to go into a nursing home against my wishes. I have had a TB, and Diabetes since I was nine yrs old
I'm unable to go to Dialysis w/out someone taking me 3 days a week
Studies by Duke University's Long Term Care Resources Program have shown that and to P CAP/DA patients are one of the most impaired populations in the state on par with the appointment nursing facility population and much more impaired than the state's adult care home and general Medicare populations. As an integral component of the Secretary of Health and Human Services Olmstead Plan, CAP/DA serves over nine thousand people who would otherwise be in nursing facilities at greater cost to the state.

As you consider innovative solutions to our budget challenges, the CAP/DA program should stand as a beacon of opportunity for savings. The North Carolina Institute of Medicine's Long Term Care Plan for North Carolina: A Final Report stated that the State's long term care policy should provide "high quality, cost-effective care in the least restrictive setting" and that the State's policies "should strengthen the capacity of families to serve as caregivers." Both of these goals are accomplished by CAP/DA. Also, the 2001 North Carolina Medicaid Benefit Study states that CAP programs, "have demonstrated substantial savings compared to the equivalent cost of keeping CAP participants in nursing homes."

Every day the CAP/DA freeze remains in effect, some of the more than five thousand people on CAP/DA waiting lists are forced into nursing homes. When that happens, our state needlessly spends greater amounts of money on health care.

Respectfully, Wm. Sherman Carpenter

March 25, 2002

To Whom it may concern:

I feel that the CAP Freeze needs to be lifted in order for the many needy patients to receive the assistance required for their health and welfare.

I also feel those who served in the WAR TIMES should be given the benefit of assistance for their serving our country, as well as paying taxes for programs like this.

In my opinion the first priority is to make sure that those in need be assisted with this type of program.

Please consider all the important factors and see that this FREEZE must be lifted for the good of the many patients with no other source to turn to for help.

Thank you in advance for your understanding of this type of assistant programs.

*Sincerely -
Rita Blau*

The North Carolina Institute of Medicine's Long Term Care Plan for North Carolina: A Final Report stated that the state's long term care policy should provide "high-quality, cost-effective care in the least restrictive setting" and that the state's policies should strengthen the capacity of families to serve as caregivers." Both of these goals are accomplished by CAP-DA. Also, the 2001 North Carolina Medicaid Benefit Study states that CAP programs, "have demonstrated substantial savings compared to the equivalent cost of keeping CAP participants in nursing homes."

Every day the CAP-DA freeze remains in effect, some of the more than five thousand people on CAP-DA waiting lists are forced into nursing homes. When that happens, our state needlessly spends greater amounts of money on health care.

Respectfully, *Mrs. Ruby L. Smith*

Re: CAP-DA Freeze

Governor Michael F. Easley
Office of the Governor
20301 Mail Service Center
Raleigh, NC 27699-0301

Dear Governor Easley,

Please lift the freeze on the CAP-DA program. CAP-DA allows people like me to stay at home at less cost to North Carolina than a nursing home. I am a patient receiving CAP services. I am 78 years old and I live w/ family (ie. alone, with family). My medical condition includes Emphysema, HTN, Osteoporosis (state your medical problem), and I am unable to do daily activities and get around the house without assistance. Without CAP-DA, I will be forced to go into a nursing home against my wishes.

Studies by Duke University's Long Term Care Resources Program have shown that CAP-DA patients are one of the most impaired populations in the state, on par with the nursing facility population and much more impaired than the state's adult care home and general Medicare populations. As an integral component of the Secretary of Health and Human Services Olmstead Plan, CAP-DA serves over nine thousand people who would otherwise be in nursing facilities at greater cost to the state.

As you consider innovative solutions to our budget challenges, the CAP-DA program should stand as a beacon of opportunity for savings. The North Carolina Institute of Medicine's Long Term Care Plan for North Carolina: A Final Report stated that the state's long term care policy should provide "high-quality, cost-effective care in the least restrictive setting" and that the state's policies should strengthen the capacity of families to serve as caregivers." Both of these goals are accomplished by CAP-DA. Also, the 2001 North Carolina Medicaid Benefit Study states that CAP programs, "have demonstrated substantial savings compared to the equivalent cost of keeping CAP participants in nursing homes."

Every day the CAP-DA freeze remains in effect, some of the more than five thousand people on CAP-DA waiting lists are forced into nursing homes. When that happens, our state needlessly spends greater amounts of money on health care.

Respectfully,

Myrtle OMB

Help Cap - PA:

The Medicaid - funded Program should be unfrozen. There are too many people that are at home that will lose their personnel belonging because they have to go in a nursing facility and Medicaid saves money on people being at home being taken care of.

The state is suffering to budget deficits why should we care aging people? Just think of it this way we will all be old

somebody. we might need a program and there won't be nothing. you and me will be stuck in a nursing facility. wouldn't you rather be taken care of in your home in a pleasant setting. or be treated besides are you

going to give up your
some that you worked hard
all your life for? there
are 200 people in Runcombe
County that need this
help. just think it could
be your mom or Dad
relative you love so
dearly you'd want to do
what is best for them
people please rethink the
frozen program - Cap - DA
Because you many
need it someday when
will you be?

**HELP CAP-DA
130 Arlington St. Suite 107
Salisbury, NC 28144**

To whom it may concern:

It has come to our understanding that a medicaid-funded program called CAP-DA (Community Alternatives Program for Disabled Adults) that assists the disabled in our community, has been frozen and many needy people are without care.

We have a very good friend, Mrs. Faye Eure, who had open heart surgery about three years ago which was followed by a stroke that left her blind, disabled and unable to care for herself. Her left leg was amputated below the knee due to complications from her diabetes shortly after her stroke. She has been bound to a wheelchair for quite some time. She is currently receiving personal care services from CAP-DA in Bertie County approximately 6 hours per day 5 days per week.

Her husband, Bobby, works for the Ahoskie Police Department full-time and is very dependent on this service to care for his wife during the day while he is the only provider for their household. Because of the rising cost of healthcare, it would be impossible for her husband to pay a private nurse aide on his limited income to assist his wife while he is at work.

CAP-DA provides care for disabled adults in their home. This would allow them to remain in the comfort of their own home despite their illnesses or disabilities. Also, this would save medicaid a significant amount of money over placing her in a nursing facility. We would like for you to please reconsider and allow this very needed service to continue in our community. Our state may be suffering due to budget deficits, however, our seniors and disabled adults should not be the ones to suffer.

Sincerely,

*Everette and Sue Davidson

To - Help CAP/OA

A - 1 Helps client to stay at home longer + remain safe with family members at night.

2 - Lets family members work outside the home during the day, because CAP girls come in during the day. Lets clients be independent as much as possible.

B - It gives the clients their independence, they like the one-on-one client/aid - You get to know their likes and dislikes, what they like + do.

C - Because they have that one-on-one contact with the client/aid.

D - Because they not get help fast enough + had to be put on the waiting list. We need the program.

Also, its cheaper to keep the client at home for as long as possible - instead of putting them into a nursing facility.

- Thank you -

Help CAP-DA
130 Arlington Street
Suite 107
Salisbury, N.C. 28144

I'm writing in regards to the freeze on the CAP-DA Program. I have been employed with the Clay County CAP Program for almost four years. I see three to four clients in a week. Some I stay eight hours a day, and some four hours. These are all women that are limited to the daily activity of life that most of us take for granted. Almost all of them can not do their personal hygiene. But they are still getting to live at home. The work is very rewarding.

I hope our state government will see that this program is kept. It has many reasons to be kept, besides keeping these clients out of the nursing home.

Sincerely yours,
Layne Wylie McCray

To whom it may concern.

My name is Kathleen Smith, I am the daughter of Kate Cawser who is on the Cap Program.

I am asking you to please help all you can to keep the program going. My mother is 75 years old and cannot do much for herself. She has a Cap worker who is wonderful, she takes wonderful care of my mother and it helps give peace of mind when I cannot be there, (I work on a public job).

I help take care of her on the weekends and evenings when there is no one.

She has always been a hard working person - My Dad died when I was about 8½ years old. There were my two brothers and me - She sacrificed

for us and I would like for her
to be taken care of in this time she
cannot do for herself.

Please do all you can for her
and others like her who deserve
the very best.

I appreciate all you can do.

Sincerely
Kathleen Smith

Dear Governor Easley:

My letter to you with great concern is about the proposed Medicaid cuts by the state of N.C.

What are the legislatures thinking? How many elderly people who have worked hard all their lives will be forced to suffer from neglect? There will be nothing for them. As it is, they can stay at home with dignity by having home care by an approved agency. Why force them to go to a rest home, all are too crowded, which will result in lack of care, stinking of urine, and overworked lack of aides who are low paid and do NOT care as a whole. This results in patients having depression, loss of memory & appetite, bedsores and generally an attitude of who cares and low self esteem. Doctors keep everyone living longer now so why should they suffer?

Page 2:

RE: Medicaid Cuts

My mother is 81 and lives in a senior apartment in Sparta NC. The home agency that provides her with three and half hours daily M-F allows her to maintain her life as normally as possible. The care she receives for taking medicines, bathing, and general care are wonderful and keeps her motivated. She suffers from lower lumbar stenosis of the spine (will be crippled eventually), chronic breathing ^{lung} problems (on oxygen, inhalers & nebulizer), heart blockage, arthritis, blind in one eye macular degeneration, and wears hearing aid. Multiple others also.

PLEASE - stop this terrible mistake concerning Medicaid cuts.

Sincerely

Janita A. Andrews

May, 2002

To Whom It May Concern:

Please lift the freeze on the CAP-DA program. CAP-DA allows people like me to stay at home at less cost to North Carolina than a nursing home.

I am 100 years old and I live with granddaughter (i.e. alone, with family). My medical condition includes the following problems: high blood pressure, 2 minor strokes in past 2 yrs.

I am unable to do the following activities because of my condition: walk alone, bathe myself, dress myself, get medications

Without CAP-DA I will be forced to go into a nursing home against my wishes.

As an integral component of the Secretary of Health and Human Service's Olmstead Plan, CAP-DA serves over nine thousand people who would otherwise be in nursing facilities at greater cost to the state.

As you consider innovative solutions to our budget challenges, the CAP-DA program should stand as a beacon of opportunity for savings. The North Carolina Institute of Medicine's Long Term Care Plan for North Carolina: A Final Report stated that the state's long-term care policy should provide "high quality, cost-effective care in the least restrictive setting" and that the state's policies should strengthen the "capacity of families to serve as caregivers." Both of these goals are accomplished by CAP-DA. Also, the 2001 North Carolina Medicaid Benefit Study, states the CAP programs, "have demonstrated substantial savings compared to the equivalent cost of keeping CAP participants in nursing homes."

Every day the CAP-DA freeze remains in effect, some of the more than five thousand people on CAP-DA waiting lists are forced into nursing homes. Each time that happens, our state needlessly spends greater amounts of money on health care.

Respectfully,

Signed: Ellen Romine (POA) Nehra Lowman granddaughter

I want to send an *important* message to my Governor and any other elected officials who are considering further cuts to Medicaid services.

	My name is: <u>CAROLYN Brinegar</u>
	Address: <u>26 Elm Drive</u> <u>Sparta, N.C. 28675</u>
	Phone # <u>(336) 372-6267</u>

Dear Governor Easley:

I work in a home healthcare system. I firmly believe that one-on-one care is better for the patients. It allows them to stay independent longer. These older people are more comfortable at home. No one likes to be uprooted from their surroundings. Homehealth workers make a positive influence on patients allowing them to keep their independence longer. Once a patient is admitted to a facility they usually lose their remaining health rapidly. We as homehealth workers do not need to see further cuts to the Medicaid service. Please keep the Medicaid service from future cuts. Thank You.

**HELP CAP-DA
130 Arlington St. Suite 107
Salisbury, NC 28144**

To whom it may concern:

It has come to our understanding that a medicaid-funded program called CAP-DA (Community Alternatives Program for Disabled Adults) that assists the disabled in our community, has been frozen and many needy people are without care.

We have a very good friend, Mrs. Faye Eure, who had open heart surgery about three years ago which was followed by a stroke that left her blind, disabled and unable to care for herself. Her left leg was amputated below the knee due to complications from her diabetes shortly after her stroke. She has been bound to a wheelchair for quite some time. She is currently receiving personal care services from CAP-DA in Bertie County approximately 6 hours per day 5 days per week.

Her husband, Bobby, works for the Ahoskie Police Department full-time and is very dependent on this service to care for his wife during the day while he is the only provider for their household. Because of the rising cost of healthcare, it would be impossible for her husband to pay a private nurse aide on his limited income to assist his wife while he is at work.

CAP-DA provides care for disabled adults in their home. This would allow them to remain in the comfort of their own home despite their illnesses or disabilities. Also, this would save medicaid a significant amount of money over placing her in a nursing facility. We would like for you to please reconsider and allow this very needed service to continue in our community. Our state may be suffering due to budget deficits, however, our seniors and disabled adults should not be the ones to suffer.

Sincerely,

Peggy R. Jones

Dear Governor:

I am an 81 year old Medicaid receiver. Please stop the future cuts to the Medicaid service. I depend on my home health aide. This service allows me to stay in my home and keep my independence. I do not wish to be placed in a nursing home this service keeps me at home. Again please keep the Medicaid service from future cuts.

Thank You,
Ruth Pennel Sanders.

Re: Freeze on CAP

To Whom It May Concern:

My name is Anita McCloud Elliott, and my mother Reacy McCloud is now 96 years of age. She needs constant care and assistance with any and everything she does, as she has congestive heart failure and Alzheimer's disease. She is on a walker with assistance and she also besides her physical condition, is incontinent and requires cleaning and changing diapers quiet often. Without our CAP worker 40 hours a week I could not keep my mother as I am 64 years of age and I have to keep working to keep my hospital insurance and to live.

The program is a wonderful thing which allows the elderly to be taken care of at home, which without the help of a funded program like CAP there wouldn't be enough facilities to take care of all the elderly who need constant care.

I'm asking you to reconsider the freeze on our CAP program and help us to keep our elderly at home with people who love them and with dignity and the assurance of being taken care of. As I see it this is a lot less expensive for the county and government than putting the elderly in rest homes.

Please, please reconsider the freeze. I would rather be dead than to see my mother in a rest home, because the people I know which are there are not taken care of because of not enough help or lack of consideration of care. Please let us keep our CAP worker 40 hours a week. Sometime if you and I live we will be in this condition and what would you want if it were you. Please have a heart and help us.

Sincerely,

Anita M. Elliott

To Whom It May Concern:

Please lift the freeze on the CAP-DA program. CAP-DA allows people like me to stay at home at less cost to North Carolina than a nursing home.

I am 83 years old and I live Alone (i.e. alone, with family). My medical condition includes the following problems:

Dementia, Osteoporosis, High Blood Pressure, depression, high risk for falls, stomach problems, need special diet.

I am unable to do the following activities because of my condition:

Give myself bath, cook meals, remember to take meds, take care of my home and do general household duties

Without CAP-DA I will be forced to go into a nursing home against my wishes.

As an integral component of the Secretary of Health and Human Service's Olmstead Plan, CAP-DA serves over nine thousand people who would otherwise be in nursing facilities at greater cost to the state.

As you consider innovative solutions to our budget challenges, the CAP-DA program should stand as a beacon of opportunity for savings. The north Carolina Institute of Medicine's Long-Term Care Plan for North Carolina: A Final Report stated that the state's long-term care policy should provide "high quality, cost-effective care in the least restrictive setting" and that the state's policies should strengthen the "capacity of families to serve as caregivers." Both of these goals are accomplished by CAP-DA. Also, the 2001 North Carolina Medicaid Benefit Study, states that CAP programs, "have demonstrated substantial savings compared to the equivalent cost of keeping CAP participants in nursing homes."

Every day the CAP-DA freeze remains in effect, some of the more than five thousand people on CAP-DA waiting lists are forced into nursing homes. Each time that happens, our state needlessly spends greater amounts of money on health care.

Respectfully,

Signed:

Laya Johnson

As an integral component of the Secretary of Health and Human Service's Olmstead Plan, CAP-DA serves over nine thousand people who would otherwise be in nursing facilities at greater cost to the state.

As you consider innovative solutions to our budget challenges, the CAP-DA program should stand as a beacon of opportunity for savings. The north Carolina Institute of Medicine's Long-Term Care Plan for North Carolina: A Final Report stated that the state's long-term care policy should provide "high quality, cost-effective care in the least restrictive setting" and that the state's policies should strengthen the "capacity of families to serve as caregivers." Both of these goals are accomplished by CAP-DA. Also, the 2001 North Carolina Medicaid Benefit Study, states that CAP programs, "have demonstrated substantial savings compared to the equivalent cost of keeping CAP participants in nursing homes."

Every day the CAP-DA freeze remains in effect, some of the more than five thousand people on CAP-DA waiting lists are forced into nursing homes. Each time that happens, our state needlessly spends greater amounts of money on health care.

Respectfully,

Signed: _____

April 4, 2002

To Whom It May Concern:

Please lift the freeze on the CAP-DA program. CAP-DA allows people like me to stay at home at less cost to North Carolina than a nursing home.

I am 27 years old and I live with family (i.e. alone, with family). My medical condition includes the following problems:

Anoxic brain injury

I am unable to do the following activities because of my condition:

Eat, talk, comb hair, wash face, write, hold a book, etc.

Without CAP-DA I will be forced to go into a nursing home against my wishes.

As an integral component of the Secretary of Health and Human Service's Olmstead Plan, CAP-DA serves over nine thousand people who would otherwise be in nursing facilities at greater cost to the state.

As you consider innovative solutions to our budget challenges, the CAP-DA program should stand as a beacon of opportunity for savings. TO WHOM IT MAY CONCERN:

I am so blessed to be able to take care of my mother in my home, knowing she is certain to receive the best care available. Without the help of the CAP Program it would be virtually impossible for me to take care of her and her needs, and continue to work.

The CAP Program is so important to people like myself, who feels the need to take care of their loved ones, the best way they know how (IN THEIR HOMES), surrounded by the family who loves them the most.

From the bottom of my heart P L E A S E don't cut or freeze this one program that WORKS! No one likes to see the inside of a nursing home, let alone placing a loved one there - particularly when the nursing homes cost more then the stay-at-home Cap Program. It seems like a win-win situation for everyone, including our North Carolina Government!!

Thank you for reading my letter. It is written from my heart, as one who is so grateful to receive the CAP Services these past few years. My heart goes out to those who are on the list now, but because of this freeze will find themselves in a nursing home, unable to receive the care and love that only a family can provide. My last thought are the overwhelming sadness in the eyes of those living in a nursing home, please help them and their families have other options. THE CAP PROGRAM!

Kathryn S. Moran, daughter of Bertha Sauer

March 17th 2002

To whom it may concern:

I am writing this letter in regards to the freeze on the CAP program. My mother is 84 years old and has to have total care due to the fact that she has had a stroke and has been hospitalized four times in the past six months also for urinary infection, acute heart failure and pneumonia and is now tube feed.

I made a choice not to put her into a nursing home due to the fact that I feel for sure in my heart that she would not receive the love and personal care that she can get in her own apartment. This being the case I have chosen to let her live in her own place. Even though I can assure you that it is all in love, she has to have twenty four hour care, which stretches me out twenty four/seven. She definitely can not be left alone at any time.

Please find it in your hearts to lift the freeze on the CAP

program. I believe that it will be a
great service not only for my Mother
but for others who also have needs for
it. She will be very grateful.

Thanks Very Much
for hearing me on behalf of my Mother

(Please see attached letter)

Bayada,

The Capp program is a very, very good program. It gives the (families) loved ones a peace of mind that they can stay at home to get very good care for them. It gives families time to themselves. I feel that families are more contented when their loved ones are at home. My husband has been on it for seven years. We have not had a problem with the program. I would hate for other families to miss out on it. I hope that it will continue for other families,

Mrs Harrison

Senate Appropriations Subcommittee on Health and Human Services

Legislative Office Building – Room 643

Tuesday, June 11, 2002

10:00 a.m.

Opening Remarks

*Senator Bill Martin, Co-Chair
Senator Bill Purcell, Co-Chair*

2002-2003 Proposed Budget

Fiscal Research Staff

Committee Discussion

Next Meeting

Adjourn

**SENATE APPROPRIATIONS SUBCOMMITTEE
ON
HEALTH AND HUMAN SERVICES**

Room 424, Legislative Office Building
Tuesday, June 11, 2002
1:00 p.m.

Minutes

The Senate Appropriations Subcommittee on Health and Human Services met Tuesday, June 11, 2002 at 1:00 p.m. in Room 414 of the Legislative Office Building. The Chair, Sen. Bill Martin, called the meeting to order with all Members present.

The Chair reviewed the attached rules for the Senate Appropriations Subcommittee. He stated that there would be no funding from the reserves.

Senator Purcell thanked the staff for their efforts and outstanding work. Staff was then recognized to review the attached Proposed Budget and Special Provisions.

Private Duty Nursing – Hours will be reduced from 21 to 16.

Children and Aids – did not receive as much of a cut and that freeze can possibly be lifted.

Area Mental Health Program will receive funding from Mental Health Trust Fund.

Susan Morgan discussed the changes in the Division of Aging.

Lisa Hollowell reviewed the area of Child Development.

Carol Shaw gave an overview of the Division of Facility Services.

During Committee Discussion: the following questions were asked.

Senator Forrester -- regarding the Poison Control Centers, will they be able to continue operation without the \$136,000, or will that be picked up by Carolina Medical

Senator Dannelly -- how much does Carolina Medical Supplement. Would it be more costly not to have the Poison Control Center in operation.

During the discussion of Medical Assistance by Carol Shaw, Senator Forrester questioned the drug utilizations cuts (#23).

Secretary Hooker Odom commented that the increase prescriptions of generic drugs, when available, would assist. There is a 74% generic rate with Medicaid providers. A partnership has been entered with the physicians and pharmacists. The anticipated savings is \$22.4 million.

A preferred drug list is being established and the more expensive drugs will be on the prior authorization list. HIV aids Drugs will be on the preferred drug list. These initiatives will not harm patient care.

Senator Forrester – does this eliminate the step-therapy? CVS Pharmacy no longer accepts the State Health Plan. Will these reductions endanger other companies.

The Secretary responded that no move to further reduce diagnostic fees. The partnership with pharmacists will provide savings, Medicaid savings.

There was discussion about the elimination of Chiropractor services, etc.

#30 – nursing homes have in-house pharmacies, will this require them to contract out.

Regarding the definition of efficient providers, is there a definition for nurses. Is the quality of care indicated under efficient providers.

Senator Kerr expressed concern regarding closing children psychiatric beds at Cherry Hospital. He emphasized that only 18 out of 61 beds will remain at Cherry.

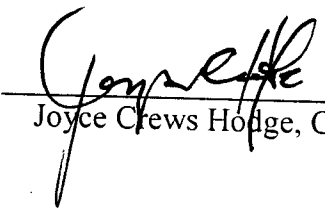

Senator Moore expressed concern regarding the specifics of the More-at-Four dollars for the current year. He also shared objections related to SmartStart appropriation.

The Chair again thanked Staff and members of the Committee for time, efforts and cooperation.

The meeting was adjourned.

William N. Martin, Chair

Joyce Crews Hodge, Clerk

RULES FOR SENATE APPROPRIATION SUBCOMMITTEES

If amendments are offered, then the following rules must be met in order to make the amendment eligible for consideration:

1. Money can only be transferred among items within the same subcommittee section.
2. Amendments that address money issues, where money is being transferred among items within a subcommittee, must be clearly identified.
3. Nonrecurring reductions cannot be made to fund recurring additions.
4. Provisions or amendments that spend reversions are not allowed.
5. Amendments that increase spending in the subcommittee budgets are not allowed. This includes any new expansion items.
6. Amendments are not allowed where funding for an item comes from statewide reserves.

HHS Reductions Recommended by the Governor

This list represents reductions put forth in the Governor's Budget that are not included in the Senate's Draft Money Report for HHS. Also included are reductions where the Governor's recommended amount exceeds the Senate's recommended amount.

Governor's Budget Items	Amount of Governor's Reduction	Amount of Senate Co-Chairs' Reduction	Difference between Governor's and Senate's Reduction	Notes
Division of Aging				
Home and Community Care Block Grant	(\$374,160)	\$0	(\$374,160)	Senate Co-Chairs did not take this option.

43		

1 SECTION #.(b) Decreases in Federal Fund Availability. – If the United
2 States Congress reduces federal fund availability in the Social Services Block Grant
3 below the amounts appropriated in this section, then the Department of Health and
4 Human Services shall allocate these decreases giving priority first to those direct
5 services mandated by State or federal law, then to those programs providing direct
6 services that have demonstrated effectiveness in meeting the federally and
7 State-mandated services goals established for the Social Services Block Grant. The
8 Department shall not include transfers from TANF for specified purposes in any
9 calculations of reductions to the Social Services Block Grant.

10 If the United States Congress reduces the amount of TANF funds below the
11 amounts appropriated in this section after the effective date of this act, then the
12 Department shall allocate the decrease in funds after considering any underutilization of
13 the budget and the effectiveness of the current level of services. Any TANF Block
14 Grant fund changes shall be reported to the Senate Appropriations Committee on Health
15 and Human Services, the House of Representatives Appropriations Subcommittee on
16 Health and Human Services, and the Fiscal Research Division.

17 Decreases in federal fund availability shall be allocated for the Maternal and
18 Child Health and Preventive Health Services federal block grants by the Department of
19 Health and Human Services after considering the effectiveness of the current level of
20 services.

21 SECTION #.(c) Increases in Federal Fund Availability. – Any block grant
22 funds appropriated by the United States Congress in addition to the funds specified in
23 this act shall be expended by the Department of Health and Human Services, with the
24 approval of the Office of State Budget and Management, provided the resultant
25 increases are in accordance with federal block grant requirements and are within the
26 scope of the block grant plan approved by the General Assembly.

27 SECTION #.(d) Changes to the budgeted allocations to the block grants
28 appropriated in this act and new allocations from the block grants not specified in this
29 act shall be submitted to the Joint Legislative Commission on Governmental Operations
30 for review prior to the change and shall be reported immediately to the Senate
31 Appropriations Committee on Health and Human Services, the House of
32 Representatives Appropriations Subcommittee on Health and Human Services, and the
33 Fiscal Research Division.

34 SECTION #.(e) The Department of Health and Human Services may allow
35 no-cost contract extensions for up to six months for nongovernmental grant recipients
36 under the TANF Block Grant.

37 SECTION #.(f) Limitations on Preventive Health Services Block Grant
38 Funds. – Twenty-five percent (25%) of funds allocated for Rape Prevention and Rape
39 Education shall be allocated as grants to nonprofit organizations to provide rape
40 prevention and education programs targeted for middle, junior high, and high school
41 students.

42 If federal funds are received under the Maternal and Child Health Block
43 Grant for abstinence education, pursuant to section 912 of Public Law 104-193 (42
44 U.S.C. § 710), for the 2002-2003 fiscal year, then those funds shall be transferred to the

1 State Board of Education to be administered by the Department of Public Instruction.
2 The Department of Public Instruction shall use the funds to establish an Abstinence
3 Until Marriage Education Program and shall delegate to one or more persons the
4 responsibility of implementing the program and G.S. 115C-81(e1)(4). The Department
5 of Public Instruction shall carefully and strictly follow federal guidelines in
6 implementing and administering the abstinence education grant funds.

7 The Department of Health and Human Services shall contract for the -
8 follow-up testing involved with the Newborn Screening Program. The Department may -
9 contract for these services with an entity within or outside of the State; however, the
10 Department may only contract with an out-of-state entity if it can be demonstrated that
11 there is a cost-savings associated with contracting with the out-of-state entity. The
12 contract amount shall not exceed twenty-five thousand dollars (\$25,000). The amount of
13 the contract shall be covered by funds in the Maternal and Child Grant Block Grant.

14 SECTION #.(g) The Department of Health and Human Services shall not -
15 use any funds appropriated in this section to develop or implement a Medical Child -
16 Care Pilot.

17 SECTION #.(h) Payment for subsidized child care services provided with
18 federal TANF funds shall comply with all regulations and policies issued by the
19 Division of Child Development for the subsidized child care program.

20 SECTION #.(i) The sum of five hundred thousand dollars (\$500,000)
21 appropriated in this section in the TANF Block Grant to the Department of Health and
22 Human Services, Division of Social Services, for the 2002-2003 fiscal year shall be
23 used to support administration of TANF-funded programs.

24 SECTION #.(j) The sum of one million four hundred seventy-five thousand
25 one hundred forty-two dollars (\$1,475,142) appropriated in this section in the TANF
26 Block Grant to the Department of Health and Human Services, Division of Mental
27 Health, Developmental Disabilities, and Substance Abuse Services, for the 2002-2003
28 fiscal year shall be used to provide regional residential substance abuse treatment and
29 services for women with children. The Department of Health and Human Services, the
30 Division of Social Services, and the Division of Mental Health, Developmental
31 Disabilities, and Substance Abuse Services, in consultation with local departments of
32 social services, area mental health programs, and other State and local agencies or
33 organizations, shall coordinate this effort in order to facilitate the expansion of
34 regionally based substance abuse services for women with children. These services
35 shall be culturally appropriate and designed for the unique needs of TANF women with
36 children.

37 In order to expedite the expansion of these services, the Secretary of the
38 Department of Health and Human Services may enter into contracts with service
39 providers.

40 The Department of Health and Human Services, the Division of Social
41 Services, and the Division of Mental Health, Developmental Disabilities, and Substance
42 Abuse Services, shall report on their progress in complying with this subsection no later
43 than October 1, 2002, and March 1, 2003, to the Senate Appropriations Committee on
44 Health and Human Services, the House of Representatives Appropriations

1 Subcommittee on Health and Human Services, and the Fiscal Research Division. These
2 reports shall include all of the following:

- 3 (1) The number and location of additional beds created.
- 4 (2) The types of facilities established.
- 5 (3) The delineation of roles and responsibilities at the State and local
6 levels.
- 7 (4) Demographics of the women served, the number of women served,
8 and the cost per client.
- 9 (5) Demographics of the children served, the number of children served,
10 and the services provided.
- 11 (6) Job placement services provided to women.
- 12 (7) A plan for follow-up and evaluation of services provided with an
13 emphasis on outcomes.
- 14 (8) Barriers identified to the successful implementation of the expansion.
- 15 (9) Identification of other resources needed to appropriately and
16 efficiently provide services to Work First recipients.
- 17 (10) Other information as requested.

18 SECTION #.(k) The sum of seven million six hundred fifty-four thousand
19 eight hundred forty-one dollars (\$7,654,841) appropriated in this section in the TANF
20 Block Grant to the Department of Health and Human Services, Division of Social
21 Services, for the 2002-2003 fiscal year for Child Welfare Improvements shall be
22 allocated to the county departments of social services for hiring or contracting staff to
23 investigate and provide services in Child Protective Services cases; to provide foster
24 care and support services; to recruit, train, license, and support prospective foster and
25 adoptive families; and to provide interstate and post-adoption services for eligible
26 families.

27 SECTION #.(l) The sum of one million five hundred thousand dollars
28 (\$1,500,000) appropriated in this section in the Mental Health Block Grant to the
29 Department of Health and Human Services, Division of Mental Health, Developmental
30 Disabilities, and Substance Abuse Services, for the 2002-2003 fiscal year and the sum
31 of four hundred twenty-two thousand three dollars (\$422,003) appropriated in this
32 section in the Social Services Block Grant to the Department of Health and Human
33 Services, Division of Mental Health, Developmental Disabilities, and Substance Abuse
34 Services, for the 2002-2003 fiscal year shall be used to continue a Comprehensive
35 Treatment Services Program for Children in accordance with Section 21.60 of S.L.
36 2001-424, as amended.

37 SECTION #.(m) The sum of two million dollars (\$2,000,000) appropriated
38 in this section in the TANF Block Grant to the Department of Health and Human
39 Services, Division of Social Services, for fiscal year 2002-2003 shall be used to support
40 various child welfare training projects as follows:

- 41 (1) Provide a regional training center in southeastern North Carolina.
- 42 (2) Support the Masters Degree in Social Work/Baccalaureate Degree in
43 Social Work Collaborative.
- 44 (3) Provide training for residential child care facilities.

1 (4) Provide for various other child welfare training initiatives.

2 SECTION #.(n) The sum of three hundred twenty-five thousand dollars
3 (\$325,000) appropriated in this section in the TANF Block Grant to the Department of
4 Health and Human Services for a Business Process Reengineering Project Reserve may
5 only be used for the project if funds appropriated in this act for Business Process
6 Reengineering are not sufficient to continue the project through the 2002-2003 fiscal
7 year. Prior to the use of these funds, the Office of State Budget and Management shall
8 review all proposals for expenditure of these funds in order to ensure compliance with
9 this subsection.

10 SECTION #.(o) If funds appropriated through the Child Care and
11 Development Fund Block Grant for any program cannot be obligated or spent in that
12 program within the obligation or liquidation periods allowed by the federal grants, the
13 Department may move funds to child care subsidies, unless otherwise prohibited by
14 federal requirements of the grant, in order to use the federal funds fully.

7 PETROLEUM OVERCHARGE FUNDS ALLOCATION

8 SECTION #.(a) There is appropriated from funds and interest thereon
9 received from the case of United States v. Exxon that remain in the Special Reserve for
10 Oil Overcharge Funds to the Department of Health and Human Services the sum of one
11 million three hundred thousand dollars (\$1,300,000) for the 2002-2003 fiscal year. The
12 Department shall allocate these funds to the Weatherization Assistance Program.13 SECTION #.(b) Any funds remaining in the Special Reserve for Oil
14 Overcharge Funds after the allocation is made pursuant to subsection (a) of this section
15 may be expended only as authorized by the General Assembly. All interest or income
16 accruing from all deposits or investments of cash balances shall be credited to the
17 Special Reserve for Oil Overcharge Funds.18

21 INFORMATION TECHNOLOGY PROJECT CONTRACTS

22 SECTION #. Section 21.17 of S.L. 2001-424 reads as rewritten:

23 "SECTION 21.17.(a) Notwithstanding any other provision of law to the contrary,
24 the Department of Health and Human Services may establish special time-limited
25 positions ~~in the Division of Information Research Management for an information~~
26 ~~technology project to maximize efficiencies in the preparation for and for~~
27 ~~implementation of federal requirements of the medical records privacy standards under~~
28 the Health Insurance Portability and Accountability Act of 1996 (HIPAA). Positions
29 established are not permanent positions, not subject to the State Personnel Act under
30 G.S. 126-1.1, and not subject to the State salary schedule.31 SECTION 21.17.(b) Positions established pursuant to this section may commence
32 no earlier than July 1, 2001, and shall expire ~~June 30, 2003.~~ June 30, 2005."33

36 CONSOLIDATION OF DIVISIONS OF SERVICES FOR THE DEAF AND THE
37 HARD OF HEARING, SERVICES FOR THE BLIND, AND VOCATIONAL
38 REHABILITATION39 SECTION #.(a) There is created within the Department of Health and
40 Human Services a new division. The following three divisions, including all positions
41 and corresponding State appropriations, federal funds, and other funds, shall be
42 consolidated within this new division:

- 43 (1) Division of Services for the Deaf and the Hard of Hearing.
-
- 44 (2) Division of Services for the Blind.

1 (3) Division of Vocational Rehabilitation Services.

2 The new division shall retain all the duties, responsibilities, and powers of
3 these three divisions. The name of the new division shall be determined by the
4 Department of Health and Human Services.

5 **SECTION #.(b)** The Department shall report to the Senate Appropriations
6 Committee on Health and Human Services, the House of Representatives
7 Appropriations Subcommittee on Health and Human Services, and the Fiscal Research
8 Division on activities carried out under this section not later than October 1, 2002. This
9 report shall include the following:

10 (1) The name of the new division.

11 (2) An organizational chart showing the organizational structure of the
12 new division.

13 (3) A plan for reducing the budget of the consolidated division by seven
14 hundred fifty thousand dollars (\$750,000).

15 (4) A list of all statutory references that need to be changed as a result of
16 the consolidation.

17 **SECTION #.(c)** In developing a plan to reduce State appropriations to the
18 new division, the Department shall do the following:

19 (1) Consolidate the administration of the three existing divisions.

20 (2) Consolidate all district offices in cities where there is currently more
21 than one office.

22 (3) Streamline the provision of direct client services provided by the three
23 existing divisions.

24 (4) Maintain services unique to persons who are blind, deaf, or blind and
25 deaf.

26 (5) Develop a plan for using existing resources to expand services for deaf
27 and hard-of-hearing persons to areas of the State where services are
28 currently not provided.

29 (6) Maintain or increase current funding levels for all programs and
30 services currently provided by the Division of Services for the Deaf
31 and Hard of Hearing.

32 **SECTION #.(d)** Any additional savings beyond the seven hundred fifty
33 thousand dollars (\$750,000) achieved through the consolidation of the three divisions
34 shall be reallocated to direct services with first priority being given to serving the unmet
35 needs of deaf and hard-of-hearing persons.

36

39 **STAFFING REQUIREMENTS IN LONG-TERM CARE FACILITIES**

40 **SECTION #.(a)** The Department of Health and Human Services, Office of
41 Long-Term Care, shall review staffing requirements of Adult Day Care Programs and
42 Adult Day Health Programs.

43 **SECTION #.(b)** The Department shall report the results of its review to the
44 Senate Appropriations Committee on Health and Human Services, the House of

1 Representatives Appropriations Subcommittee on Health and Human Services, and the
2 Fiscal Research Division not later than December 1, 2002. The report shall include
3 staffing requirements for adult day care and adult day health programs as compared to
4 adult care homes, assisted living facilities, and nursing homes in the State. The report
5 shall also compare staffing ratios in North Carolina to those of other states, including
6 those states that border North Carolina. The report shall be conducted by the
7 Department, Office of Long-Term Care, or by an independent contractor and shall
8 contain all of the following specific information:

- 9 (1) Number of staff required per resident.
- 10 (2) Education/work experience required and preferred as a basis for hire.
- 11 (3) Specific job duties outlined in job descriptions.
- 12 (4) Rationale and justification for establishing the existing staff ratios in
13 the Division of Aging's policy for adult day care and adult day health
14 care.
- 15 (5) An analysis of the variance in staffing requirements among adult day
16 care and adult day health programs, adult care homes, assisted living
17 facilities, and nursing homes.
- 18 (6) Identification of the entities responsible for licensing and monitoring
19 quality for all providers of long-term care in the State.
- 20 (7) Recommendations for changes to existing policies based on findings of
21 the Department's review.

22

25 REPORT ON SERVICES PROVIDED TO OLDER ADULTS

26 SECTION #. The Department of Health and Human Services, Office of
27 Long-Term Care shall report to the Senate Appropriations Committee on Health and
28 Human Services, the House of Representatives Appropriations Subcommittee on Health
29 and Human Services, and the Fiscal Research Division on services provided to older
30 adults. The report shall provide information as follows:

- 31 (1) Identify all State agencies that provide services to adults age 60 and
32 older throughout the State.
- 33 (2) All resources available from all sources, including federal, State, and
34 local funds and personnel, for providing services to this population.
- 35 (3) Plans for reducing administration through the consolidation of
36 functions throughout Divisions of the Department.

37 The Office of Long-Term Care shall consult with experts in long-term care
38 and other relevant information sources to develop a plan to streamline services for older
39 adults at the local level. The Department shall submit its report not later than February
40 1, 2003.

41

43 Requested by: Senators Martin of Guilford, Purcell, Plyler, Odom, Lee

44 RURAL HEALTH LOAN REPAYMENT INCENTIVE PROGRAM

1 SECTION #. The Department of Health and Human Services, Office of
2 Rural Health, shall conduct an assessment of the Rural Health Loan Repayment
3 Incentive Program. The assessment shall consider whether the Program should be
4 continued and shall identify ways to recruit additional providers to rural areas within
5 existing funds. The Department shall report on its activities and progress of the
6 assessment to the Senate Appropriations Committee on Health and Human Services, the
7 House of Representatives Appropriations Subcommittee on Health and Human
8 Services, and the Fiscal Research Division no later than December 1, 2002. The report
9 shall provide detailed information on the number of providers recruited, identification of
10 the counties in which the providers are recruited, and the amount of loan repayment and
11 length of service to a community for each provider.

15 ACCESS TO PHARMACEUTICAL COMPANY PRESCRIPTION DRUG
16 PROGRAMS

17 SECTION #. Section 21.6(a) of S.L. 2001-424, as amended by S.L. 2001-
18 513, reads as rewritten:

19 "SECTION 21.6.(a) Of the funds appropriated in this act to the Department of
20 Health and Human Services, the sum of two hundred thousand dollars (\$200,000) for
21 the 2001-2002 fiscal year and ~~the sum of two hundred thousand dollars (\$200,000) for~~
22 ~~the 2002-2003 fiscal year~~ shall be used to initiate the development of a system to assist
23 eligible individuals in obtaining prescription drugs at no cost through pharmaceutical
24 company programs. The system will be designed to minimize the efforts of patients and
25 their health care providers in securing needed drugs. The required patient and health
26 care provider data will be maintained and orders tracked in order to initiate timely
27 reorders of needed drugs to assure continuity of medication intake. The Department
28 may contract with a private nonprofit organization to assist in the development of the
29 system as provided under this section."

33 USE OF FUNDS FOR THE CHILD ADVOCACY INSTITUTE

34 SECTION #. State funds appropriated for the Child Advocacy Institute shall
35 be used only for administration of the Child Advocacy Institute or for research and other
36 services provided by the Institute. These funds shall not be used or replaced by other
37 funds for (i) lobbying or other governmental affairs activities or (ii) direct contributions
38 to other nongovernmental entities.

39 This section shall not be construed to prohibit the Institute from using State
40 funds to contract with other nongovernmental entities for the purchase of goods or
41 services.

42
43 Special Provision 2002-DHHS-S72-P [v6], Modified 6/7/02 5:26 PM

44 Requested by: Senators Martin of Guilford, Purcell, Plyler, Odom, Lee

1 CONSOLIDATION OF MAINTENANCE ACTIVITIES

2 SECTION #.(a) The Department of Health and Human Services shall
3 develop a plan to consolidate building maintenance activities at the North Carolina
4 School for the Deaf at Morganton, the Western Carolina Center, and Broughton
5 Hospital. The plan shall assess the needs for maintenance at all three centers, determine
6 the level of staff necessary to carry out all of the current activities with fewer managers,
7 supervisors, and other staff, and develop a new single budget for the maintenance
8 activities.

9 SECTION #.(b) The Department of Health and Human Services shall
10 identify other facilities throughout the State that are in close proximity to one another
11 and assess the feasibility of consolidating the building maintenance activities at those
12 facilities.

13 SECTION #.(c) The Department of Health and Human Services shall report
14 on activities carried out under this section to the Senate Appropriations Committee on
15 Health and Human Services, the House of Representatives Appropriations
16 Subcommittee on Health and Human Services, and the Fiscal Research Division no later
17 than December 1, 2002.

23 MEDICAID PROGRAM

24 SECTION #.(a) Section 21.19 of S.L. 2001-424 reads as rewritten:

25 "SECTION 21.19.(a) Funds appropriated in this act for services provided in
26 accordance with Title XIX of the Social Security Act (Medicaid) are for both the
27 categorically needy and the medically needy. Funds appropriated for these services shall
28 be expended in accordance with the following schedule of services and payment bases.
29 All services and payments are subject to the language at the end of this subsection.

30 Services and payment bases:

- 31 (1) Hospital-Inpatient – Payment for hospital inpatient services will be
32 prescribed in the State Plan as established by the Department of Health
33 and Human Services.
- 34 (2) Hospital-Outpatient – Eighty percent (80%) of allowable costs or a
35 prospective reimbursement plan as established by the Department of
36 Health and Human Services.
- 37 (3) Nursing Facilities – Payment for nursing facility services will be
38 prescribed in the State Plan as established by the Department of Health
39 and Human Services. Nursing facilities providing services to Medicaid
40 recipients who also qualify for Medicare must be enrolled in the
41 Medicare program as a condition of participation in the Medicaid
42 program. State facilities are not subject to the requirement to enroll in
43 the Medicare program. Residents of nursing facilities who are eligible
44 for Medicare coverage of nursing facility services must be placed in a

- 1 Medicare certified bed. Medicaid shall cover facility services only
2 after payments have been made by Medicare.
- 3 (4) Intermediate Care Facilities for the Mentally Retarded – As prescribed
4 in the State Plan as established by the Department of Health and
5 Human Services.
- 6 (5) Drugs – Drug costs as allowed by federal regulations plus a
7 professional services fee per month excluding refills for the same drug
8 or generic equivalent during the same month. Reimbursement shall be
9 available for up to six prescriptions per recipient, per month, including
10 refills. Payments for drugs are subject to the provisions of subsection
11 (h) of this section and to the provisions at the end of subsection (a) of
12 this section, or in accordance with the State Plan adopted by the
13 Department of Health and Human Services consistent with federal
14 reimbursement regulations. Payment of the professional services fee
15 shall be made in accordance with the State Plan adopted by the
16 Department of Health and Human Services, consistent with federal
17 reimbursement regulations. The professional services fee shall be five
18 dollars and sixty cents (\$5.60) per prescription for generic drugs and
19 four dollars (\$4.00) per prescription for brand name drugs.
20 Adjustments to the professional services fee shall be established by the
21 General Assembly.
- 22 (6) Physicians, Chiropractors, Podiatrists, Optometrists, Dentists, Certified
23 Nurse Midwife Services, Nurse Practitioners – Fee schedules as
24 developed by the Department of Health and Human Services.
25 Payments for dental services are subject to the provisions of subsection
26 (g) of this section.
- 27 (7) Community Alternative Program, EPSDT Screens – Payment to be
28 made in accordance with rate schedule developed by the Department
29 of Health and Human Services.
- 30 (8) Home Health and Related Services, Private Duty Nursing, Clinic
31 Services, Prepaid Health Plans, Durable Medical Equipment –
32 Payment to be made according to reimbursement plans developed by
33 the Department of Health and Human Services.
- 34 (9) Medicare Buy-In – Social Security Administration premium.
- 35 (10) Ambulance Services – Uniform fee schedules as developed by the
36 Department of Health and Human Services. Public ambulance
37 providers will be reimbursed at cost.
- 38 (11) Hearing Aids – Actual cost plus a dispensing fee.
- 39 (12) Rural Health Clinic Services – Provider-based, reasonable cost;
40 nonprovider-based, single-cost reimbursement rate per clinic visit.
- 41 (13) Family Planning – Negotiated rate for local health departments. For
42 other providers, see specific services, for instance, hospitals,
43 physicians.

- 1 (14) Independent Laboratory and X-Ray Services – Uniform fee schedules
2 as developed by the Department of Health and Human Services.
- 3 (15) Optical Supplies – One hundred percent (100%) of reasonable
4 wholesale cost of materials.
- 5 (16) Ambulatory Surgical Centers – Payment as prescribed in the
6 reimbursement plan established by the Department of Health and
7 Human Services.
- 8 (17) Medicare Crossover Claims – An amount up to the actual coinsurance
9 or deductible or both, in accordance with the State Plan, as approved
10 by the Department of Health and Human Services.
- 11 (18) Physical Therapy and Speech Therapy – Services limited to EPSDT
12 eligible children. Payments are to be made only to qualified providers
13 at rates negotiated by the Department of Health and Human Services.
14 Physical therapy (including occupational therapy) and speech therapy
15 services are subject to prior approval and utilization review.
- 16 (19) Personal Care Services – Payment in accordance with the State Plan
17 approved by the Department of Health and Human Services.
- 18 (20) Case Management Services – Reimbursement in accordance with the
19 availability of funds to be transferred within the Department of Health
20 and Human Services.
- 21 (21) Hospice – Services may be provided in accordance with the State Plan
22 developed by the Department of Health and Human Services.
- 23 (22) Other Mental Health Services – Unless otherwise covered by this
24 section, coverage is limited to:
- 25 a. Services as defined by the Division of Mental Health,
26 Developmental Disabilities, and Substance Abuse Services and
27 approved by the Centers for Medicare and Medicaid Services
28 (CMS) when provided in agencies meeting the requirements of
29 the rules established by the Commission for Mental Health,
30 Developmental Disabilities, and Substance Abuse Services, and
31 reimbursement is made in accordance with a State Plan
32 developed by the Department of Health and Human Services
33 not to exceed the upper limits established in federal regulations,
34 and
- 35 b. For children eligible for EPSDT services:
- 36 1. Licensed or certified psychologists, licensed clinical
37 social workers, certified clinical nurse specialists in
38 psychiatric mental health advanced practice, and nurse
39 practitioners certified as clinical nurse specialists in
40 psychiatric mental health advanced practice, when
41 Medicaid-eligible children are referred by the Carolina
42 ACCESS primary care physician or the area mental
43 health program, and

7
2. Institutional providers of residential services as defined by the Division of Mental Health, Developmental Disabilities, and Substance Abuse Services and approved by the Centers for Medicare and Medicaid Services (CMS) for children and Psychiatric Residential Treatment Facility services that meet federal and State requirements as defined by the Department.

8 Notwithstanding G.S. 150B-121.1(a), the Department of Health and
9 Human Services may adopt temporary rules in accordance with
10 Chapter 150B of the General Statutes further defining the
11 qualifications of providers and referral procedures in order to
12 implement this subdivision. Coverage policy for services defined by
13 the Division of Mental Health, Developmental Disabilities, and
14 Substance Abuse Services under paragraphs a. and b.2 of this
15 subdivision shall be established by the Division of Medical Assistance.

16 (23) Medically Necessary Prosthetics or Orthotics for EPSDT Eligible
17 Children – Reimbursement in accordance with the State Plan approved
18 by the Department of Health and Human Services.

19 (24) Health Insurance Premiums – Payments to be made in accordance with
20 the State Plan adopted by the Department of Health and Human
21 Services consistent with federal regulations.

22 (25) Medical Care/Other Remedial Care – Services not covered elsewhere
23 in this section include related services in schools; health professional
24 services provided outside the clinic setting to meet maternal and infant
25 health goals; and services to meet federal EPSDT mandates. Services
26 addressed by this paragraph are limited to those prescribed in the State
27 Plan as established by the Department of Health and Human Services.

28 (26) Pregnancy Related Services – Covered services for pregnant women
29 shall include nutritional counseling, psychosocial counseling, and
30 predelivery and postpartum home visits by maternity care coordinators
31 and public health nurses.

32 Services and payment bases may be changed with the approval of the Director of the
33 Budget. Payment is limited to Medicaid enrolled providers that provide evidence of
34 medical malpractice insurance coverage or that purchase a performance bond in the
35 amount of fifty thousand dollars (\$50,000) naming as beneficiary the Department of
36 Health and Human Services, Division of Medical Assistance.

37 Reimbursement is available for up to 24 visits per recipient per year to any one or
38 combination of the following: physicians, clinics, hospital outpatient, optometrists,
39 chiropractors, and podiatrists. Prenatal services, all EPSDT children, emergency rooms,
40 and mental health services subject to independent utilization review are exempt from the
41 visit limitations contained in this paragraph. Exceptions may be authorized by the
42 Department of Health and Human Services where the life of the patient would be
43 threatened without such additional care. Any person who is determined by the

1 Department to be exempt from the 24-visit limitation may also be exempt from the
2 six-prescription limitation.

3 **SECTION 21.19.(b)** Allocation of Nonfederal Cost of Medicaid. – The State shall
4 pay eighty-five percent (85%); the county shall pay fifteen percent (15%) of the
5 nonfederal costs of all applicable services listed in this section.

6 **SECTION 21.19.(c)** Copayment for Medicaid Services. – The Department of
7 Health and Human Services may establish copayment up to the maximum permitted by
8 federal law and regulation.

9 **SECTION 21.19.(d)** Medicaid and Work First Family Assistance, Income
10 Eligibility Standards. – The maximum net family annual income eligibility standards for
11 Medicaid and Work First Family Assistance and the Standard of Need for Work First
12 Family Assistance shall be as follows:

	<u>Categorically Needy</u>		<u>Medically Needy</u>	
	<u>WFFA*</u>			
	<u>Family</u>	<u>Standard</u>	<u>Families and</u>	
	<u>Size</u>	<u>of Need</u>	<u>Children Income</u>	
			<u>Level</u>	<u>AA, AB, AD*</u>
18				
19	1	\$4,344	\$2,172	\$2,900
20	2	5,664	2,832	3,800
21	3	6,528	3,264	4,400
22	4	7,128	3,564	4,800
23	5	7,776	3,888	5,200
24	6	8,376	4,188	5,600
25	7	8,952	4,476	6,000
26	8	9,256	4,680	6,300

27 *Work First Family Assistance (WFFA); Aid to the Aged (AA); Aid to the Blind (AB);
28 and Aid to the Disabled (AD).

29
30 The payment level for Work First Family Assistance shall be fifty percent (50%) of the
31 standard of need.

32 These standards may be changed with the approval of the Director of the Budget
33 with the advice of the Advisory Budget Commission.

34 **SECTION 21.19.(e)** The Department of Health and Human Services, Division of
35 Medical Assistance, shall provide Medicaid coverage to all elderly, blind, and disabled
36 people who have incomes equal to or less than one hundred percent (100%) of the
37 federal poverty guidelines, as revised each April 1.

38 **SECTION 21.19.(f)** ICF and ICF/MR Work Incentive Allowances. – The
39 Department of Health and Human Services may provide an incentive allowance to
40 Medicaid-eligible recipients of ICF and ICF/MR facilities who are regularly engaged in
41 work activities as part of their developmental plan and for whom retention of additional
42 income contributes to their achievement of independence. The State funds required to
43 match the federal funds that are required by these allowances shall be provided from

1 savings within the Medicaid budget or from other unbudgeted funds available to the
2 Department. The incentive allowances may be as follows:

<u>Monthly Net Wages</u>	<u>Monthly Incentive Allowance</u>
\$1.00 to \$100.99	Up to \$50.00
\$101.00 to \$200.99	\$80.00
\$201.00 to \$300.99	\$130.00
\$301.00 and greater	\$212.00.

9 SECTION 21.19.(g) Dental Coverage Limits. – Dental services shall be provided
10 on a restricted basis in accordance with rules adopted by the Department to implement
11 this subsection.

12 SECTION 21.19.(h) Dispensing of Generic Drugs. – Notwithstanding G.S.
13 90-85.27 through G.S. 90-85.31, or any other law to the contrary, under the Medical
14 Assistance Program (Title XIX of the Social Security Act), and except as otherwise
15 provided in this subsection for atypical antipsychotic drugs and drugs listed in the
16 narrow therapeutic index, a prescription order for a drug designated by a trade or brand
17 name shall be considered to be an order for the drug by its established or generic name,
18 except when the prescriber has determined, at the time the drug is prescribed, that the
19 brand name drug is medically necessary and has written on the prescription order the
20 phrase "medically necessary". An initial prescription order for an atypical antipsychotic
21 drug or a drug listed in the narrow therapeutic drug index that does not contain the
22 phrase "medically necessary" shall be considered an order for the drug by its established
23 or generic name, except that a pharmacy shall not substitute a generic or established
24 name prescription drug for subsequent brand or trade name prescription orders of the
25 same prescription drug without explicit oral or written approval of the prescriber given
26 at the time the order is filled. Generic drugs shall be dispensed at a lower cost to the
27 Medical Assistance Program rather than trade or brand name drugs. As used in this
28 subsection, "brand name" means the proprietary name the manufacturer places upon a
29 drug product or on its container, label, or wrapping at the time of packaging; and
30 "established name" has the same meaning as in section 502(e)(3) of the Federal Food,
31 Drug, and Cosmetic Act as amended, 21 U.S.C. § 352(e)(3).

32 SECTION 21.19.(i) Exceptions to Service Limitations, Eligibility Requirements,
33 and Payments. – Service limitations, eligibility requirements, and payments bases in this
34 section may be waived by the Department of Health and Human Services, with the
35 approval of the Director of the Budget, to allow the Department to carry out pilot
36 programs for prepaid health plans, contracting for services, managed care plans, or
37 community-based services programs in accordance with plans approved by the United
38 States Department of Health and Human Services, or when the Department determines
39 that such a waiver will result in a reduction in the total Medicaid costs for the recipient.
40 The Department of Health and Human Services may proceed with planning and
41 development work on the Program of All-Inclusive Care for the Elderly.

42 SECTION 21.19.(j) Volume Purchase Plans and Single Source Procurement. – The
43 Department of Health and Human Services, Division of Medical Assistance, may,
44 subject to the approval of a change in the State Medicaid Plan, contract for services,

1 medical equipment, supplies, and appliances by implementation of volume purchase
2 plans, single source procurement, or other contracting processes in order to improve
3 cost containment.

4 SECTION 21.19.(k) Cost-Containment Programs. – The Department of Health and
5 Human Services, Division of Medical Assistance, may undertake cost containment
6 programs in accordance with Section 3 of S.L. 2001-395, including contracting for
7 services, preadmissions to hospitals and prior approval for certain outpatient surgeries
8 before they may be performed in an inpatient setting.

9 SECTION 21.19.(l) For all Medicaid eligibility classifications for which the federal
10 poverty level is used as an income limit for eligibility determination, the income limits
11 will be updated each April 1 immediately following publication of federal poverty
12 guidelines.

13 SECTION 21.19.(m) The Department of Health and Human Services shall provide
14 Medicaid to 19-, 20-, and 21-year-olds in accordance with federal rules and regulations.

15 SECTION 21.19.(n) The Department of Health and Human Services shall provide
16 coverage to pregnant women and to children according to the following schedule:

- 17 (1) Pregnant women with incomes equal to or less than one hundred
18 eighty-five percent (85%) of the federal poverty guidelines as revised
19 each April 1 shall be covered for Medicaid benefits. In determining
20 income eligibility under this subdivision, the income of a minor's
21 parents shall be counted.
- 22 (2) Infants under the age of 1 with family incomes equal to or less than
23 one hundred eighty-five percent (85%) of the federal poverty
24 guidelines as revised each April 1 shall be covered for Medicaid
25 benefits.
- 26 (3) Children aged 1 through 5 with family incomes equal to or less than
27 one hundred thirty-three percent (133%) of the federal poverty
28 guidelines as revised each April 1 shall be covered for Medicaid
29 benefits.
- 30 (4) Children aged 6 through 18 with family incomes equal to or less than
31 the federal poverty guidelines as revised each April 1 shall be covered
32 for Medicaid benefits.
- 33 (5) The Department of Health and Human Services shall provide Medicaid
34 coverage for adoptive children with special or rehabilitative needs
35 regardless of the adoptive family's income.

36 Services to pregnant women eligible under this subsection continue throughout the
37 pregnancy but include only those related to pregnancy and to those other conditions
38 determined by the Department as conditions that may complicate pregnancy. In order to
39 reduce county administrative costs and to expedite the provision of medical services to
40 pregnant women, to infants, and to children described in subdivisions (3) and (4) of this
41 subsection, no resources test shall be applied.

42 SECTION 21.19.(o) Medicaid enrollment of categorically needy families with
43 children shall be continuous for one year without regard to changes in income or assets.

1 SECTION 21.19.(p) The Department shall disregard earned income for recipients
2 who would otherwise lose Medicaid eligibility under section 1931 of Title XIX of the
3 Social Security Act due to earnings. This disregard shall be applied for a maximum of
4 12 consecutive months.

5 SECTION 21.19.(q) The Department of Health and Human Services shall submit a
6 quarterly status report on expenditures for acute care and long-term care services to the
7 Fiscal Research Division and to the Office of State Budget and Management. This
8 report shall include an analysis of budgeted versus actual expenditures for eligibles by
9 category and for long-term care beds. In addition, the Department shall revise the
10 program's projected spending for the current fiscal year and the estimated spending for
11 the subsequent fiscal year on a quarterly basis. The quarterly expenditure report and the
12 revised forecast shall be forwarded to the Fiscal Research Division and to the Office of
13 State Budget and Management no later than the third Thursday of the month following
14 the end of each quarter.

15 SECTION 21.19.(r) The Division of Medical Assistance, Department of Health
16 and Human Services, may provide incentives to counties that successfully recover
17 fraudulently spent Medicaid funds by sharing State savings with counties responsible
18 for the recovery of the fraudulently spent funds.

19 SECTION 21.19.(s) If first approved by the Office of State Budget and
20 Management, the Division of Medical Assistance, Department of Health and Human
21 Services, may use funds that are identified to support the cost of development and
22 acquisition of equipment and software through contractual means to improve and
23 enhance information systems that provide management information and claims
24 processing. The Department of Health and Human Services shall identify adequate
25 funds to support the implementation and first year's operational costs that exceed the
26 currently allocated funds for the new contract for the fiscal agent for the Medicaid
27 Management Information System.

28 SECTION 21.19.(t) The Department of Health and Human Services may adopt
29 temporary rules according to the procedures established in G.S. 150B-21.1 when it finds
30 that these rules are necessary to maximize receipt of federal funds within existing State
31 appropriations, to reduce Medicaid expenditures, and to reduce fraud and abuse. Prior to
32 the filing of these temporary rules with the Office of Administrative Hearings, the
33 Department shall consult with the Office of State Budget and Management on the
34 possible fiscal impact of the temporary rule and its effect on State appropriations and
35 local governments.

36 SECTION 21.19.(u) The Department shall report to the Fiscal Research Division
37 of the Legislative Services Office and to the House of Representatives Appropriations
38 Subcommittee on Health and Human Services and the Senate Appropriations
39 Committee on Health and Human Services or the Joint Legislative Health Care
40 Oversight Committee on any change it anticipates making in the Medicaid program that
41 impacts the type or level of service, reimbursement methods, or waivers, any of which
42 require a change in the State Plan or other approval by the Centers for Medicare and
43 Medicaid Services (CMS). The reports shall be provided at the same time they are
44 submitted to CMS for approval.

1 SECTION 21.19.(v) Upon approval of a demonstration waiver by the Centers for
2 Medicare and Medicaid Services (CMS), the Department of Health and Human Services
3 may provide Medicaid coverage for family planning services to men and women of
4 child-bearing age with family incomes equal to or less than one hundred eighty-five
5 percent (185%) of the federal poverty level. Coverage shall be contingent upon federal
6 approval of the waiver and shall begin no earlier than January 1, 2001.

7 SECTION 21.19.(w) The Department of Health and Human Services, Division of
8 Medical Assistance, shall use the latest audited cost reporting data available when
9 establishing Medicaid provider rates or when making changes to the reimbursement
10 methodology.

11 SECTION 21.19.(x) The Department of Health and Human Services, Division of
12 Medical Assistance, shall implement a new coding system for therapeutic mental health
13 services as required by the Health Insurance Portability and Accountability Act of 1996.
14 In implementing the new coding system, the Division shall ensure that the new coding
15 system does not discriminate between providers of therapeutic mental health services
16 with similar qualifications and training. In meeting the requirements of this subsection,
17 the Division shall consult with the Division of Mental Health, Developmental
18 Disabilities, and Substance Abuse Services and the professional licensing boards
19 responsible for licensing the affected professionals.

20 SECTION 21.19.(y) The Department of Health and Human Services may apply
21 federal transfer of assets policies, as described in Title XIX, Section 1917(c) of the
22 Social Security Act to real property excluded as "~~income-producing~~" "income
23 producing". tenancy-in-common, or as nonhomesite property made "income producing"
24 under Title XIX, Section 1902(r)(2) of the Social Security Act. The transfer of assets
25 policy shall apply only to an institutionalized individual or the individual's spouse as
26 defined in Title XIX, Section 1917(c) of the Social Security Act. This subsection
27 becomes effective no earlier than October 1, 2001. Federal transfer of asset policies to
28 properties excluded as tenancy-in-common or as nonhomesite property made "income
29 producing" in accordance with this subsection shall become effective no earlier than
30 October 1, 2002."

31 SECTION #.(b) Effective October 1, 2002, G.S. 108A-70.5(b) reads as
32 rewritten:

33 "(b) As used in this section:

34 (1) "Medical assistance" means medical care services paid for by the
35 North Carolina Medicaid Program on behalf of the recipient:

- 36 a. If the recipient is receiving these medical care services as an
37 inpatient in a nursing facility, intermediate care facility for the
38 mentally retarded, or other medical institution, and cannot
39 reasonably be expected to be discharged to return home; or
40 b. If the recipient is 55 years of age or older and is receiving these
41 medical care services, including related hospital care and
42 prescription drugs, for nursing facility ~~services—services,~~
43 personal care services, or home- and community-based services.

- 1 (2) "Estate" means all the real and personal property considered assets of
2 the estate available for the discharge of debt pursuant to G.S.
3 28A-15-1."

5 Special Provision 2002-DHHS-S2-P [v10], Modified 5/23/02 2:20 PM

6 Requested by: Senators Martin of Guilford, Purcell, Plyler, Odom, Lee

7 CAROLINA ACCESS PROGRAM IMPROVEMENTS

8 SECTION #.(a) In its effort to achieve anticipated savings in the Medicaid
9 Program of nine million four hundred twenty-five thousand dollars (\$9,425,000) for the
10 2002-2003 fiscal year through expansion of the Carolina ACCESS II and Carolina
11 ACCESS III programs, the Department of Health and Human Services shall monitor
12 cost-savings activities of these programs. Carolina ACCESS II and Carolina ACCESS
13 III programs shall provide the Department detailed information on savings realized from
14 the following cost-savings activities:

- 15 (1) Reductions in hospital admissions;
16 (2) Reductions in emergency room visits;
17 (3) Use of best-prescribing practices;
18 (4) Increased prescriptions of generic drugs;
19 (5) Implementation of polypharmacy review;
20 (6) Reductions in therapy visits;
21 (7) Improved management of high risk/high cost patients; and
22 (8) Other strategies implemented by the programs to achieve anticipated
23 savings.

24 SECTION #.(b) The Department of Health and Human Services shall
25 implement a process for the assessment and review of cost-effectiveness of the Carolina
26 ACCESS II and Carolina ACCESS III programs. The Division of Medical Assistance
27 shall confirm actual savings realized from the use of case management strategies of the
28 Carolina ACCESS II and Carolina ACCESS III demonstration sites. The Department
29 shall report quarterly the cost-effectiveness of these programs based on actual savings
30 achieved. The Department shall submit the report to the Senate Appropriations
31 Committee on Health and Human Services, the House of Representatives
32 Appropriations Subcommittee on Health and Human Services, the Office of State
33 Budget and Management, and the Fiscal Research Division.
34

37 REPEAL CIRCUMCISION FUNDS

38 SECTION #. Section 19 of S.L. 2001-513 reads as rewritten:

39 "SECTION 19. Notwithstanding any other provision of law to the contrary, from
40 funds available in the General Fund, there is appropriated to the Department of Health
41 and Human Services, Division of Medical Assistance, the sum of two hundred forty-six
42 thousand, seven hundred sixty-two dollars (\$246,762) for the 2001-2002 fiscal year and
43 ~~the sum of four hundred thousand dollars (\$400,000) for the 2002-2003 fiscal year.~~

1 These funds shall be used to provide optional circumcision procedures for newborns
2 eligible for Medicaid."

5 Requested by: Senators Martin of Guilford, Purcell, Plyler, Odom, Lee

6 MEDICAID CASE MANAGEMENT SERVICES

7 SECTION #.(a) The Department of Health and Human Services shall
8 reduce Medicaid Program expenditures for case management services for adults and
9 children by thirty-three percent (33%) for the 2002-2003 State fiscal year. In
10 determining how to allocate this reduction, the Department shall include all State
11 programs currently providing case management services reimbursed by the Medicaid
12 Program, and shall consider the following issues:

- 13 (1) Elimination of all duplicative case management services.
- 14 (2) Consolidation of similar case management services.
- 15 (3) Provision of only one case manager per family reimbursed through the
16 Medicaid Program, when feasible.
- 17 (4) Equitable allocation of reductions in case management services
18 reimbursed by Medicaid among the different programs that provide
19 case management services.
- 20 (5) Identification of the children and adults with the greatest case
21 management needs to determine how to allocate reductions and
22 remaining resources.
- 23 (6) Reductions in administrative costs associated with providing case
24 management services reimbursed by Medicaid.

25 SECTION #.(b) Not later than October 1, 2002, the Department shall report
26 on its plan for the reductions required in this section. The Department shall submit the
27 report to the Senate Appropriations Committee on Health and Human Services, the
28 House of Representatives Appropriations Subcommittee on Health and Human
29 Services, and the Fiscal Research Division.
30

32 Requested by: Senators Martin of Guilford, Purcell, Plyler, Odom, Lee

33 FEDERAL WAIVERS TO ASSIST IN MEDICAID COST CONTAINMENT

34 SECTION #.(a) The Department of Health and Human Services shall
35 develop a plan for using federal waivers to assist in long-term cost containment for the
36 State's Medicaid program. In developing the plan, the Department shall determine
37 whether single or multiple federal waivers will help the State achieve its goal of
38 long-term cost containment for the State's Medicaid program, and shall also determine
39 which type of waiver is likely to be most helpful. The Department shall consider all of
40 the following for development of the plan:

- 41 (1) Which optional categories of persons eligible for Medicaid will be
42 covered by the waiver.
- 43 (2) What optional Medicaid services will be included in the service
44 package covered by the waiver.

- 1 (3) What types of cost-sharing will be required under the waiver.
2 (4) Will the waiver use Carolina ACCESS, other types of managed care,
3 or will a fee-for-service system for providing health care services be
4 used.
5 (5) Will private insurance coverage options be incorporated into the
6 waiver.
7 (6) Should the NC Health Choice Program be included in the waiver.

8 SECTION #.(b) On or before February 1, 2003, the Department shall report
9 on its plan for seeking federal waivers to achieve long-term cost containment in the
10 State's Medicaid program. The report shall be made to the Senate Appropriations
11 Committee on Health and Human Services, the House of Representatives
12 Appropriations Subcommittee on Health and Human Services, and the Fiscal Research
13 Division, and shall include the following:

- 14 (1) Copy of the application for the waiver.
15 (2) Description of how the waiver will help achieve long-term cost
16 containment in the State's Medicaid program.
17 (3) Description of legislation necessary to implement the proposed waiver.
18

19 Special Provision 2002-DHHS-S46-P [v6], Modified 5/24/02 4:39 PM

20 Requested by: Senators Martin of Guilford, Purcell, Plyler, Odom, Lee

21 COMMUNITY ALTERNATIVES PROGRAMS

22 SECTION #.(a) The Department of Health and Human Services shall
23 administer all Community Alternative Program (CAP) waivers in the most economical
24 and efficient manner possible to support within funds appropriated the maximum
25 number of persons meeting participation requirements under the waiver. The
26 Department shall amend the waivers, as necessary, to ensure that participation
27 requirements and payment and service limits are in accordance with those reported to
28 the General Assembly. Not later than October 1, 2002, the Department shall submit a
29 report that outlines efficient use of funds appropriated and that demonstrates the
30 participation requirements, payment and service limits, and other administrative actions
31 to support the maximum number of persons to be served in the applicable State fiscal
32 year. The report shall be submitted to the Senate Appropriations Committee on Health
33 and Human Services, the House of Representatives Appropriations Subcommittee on
34 Health and Human Services, and the Fiscal Research Division.

35 SECTION #.(b) CAP-DA services shall be provided for the 2002-2003
36 fiscal year to any eligible person who entered a nursing facility on or before June 1,
37 2002, notwithstanding that the availability of CAP-DA services may be suspended for
38 that fiscal year.
39

40 Special Provision 2002-DHHS-S56-P [v3], Modified 5/23/02 9:23 AM

41 Requested by: Senators Martin of Guilford, Purcell, Plyler, Odom, Lee

42 DISPOSITION OF DISPROPORTIONATE SHARE RECEIPT CHANGE

1 SECTION #.(a) Disproportionate share receipts reserved at the end of the
2 2002-2003 fiscal year shall be deposited with the Department of State Treasurer as
3 nontax revenue for the 2002-2003 fiscal year.

4 SECTION #.(b) For the 2002-2003 fiscal year, as it receives funds
5 associated with Disproportionate Share Payments from State hospitals, the Department
6 of Health and Human Services, Division of Medical Assistance, shall deposit up to one
7 hundred seven million dollars (\$107,000,000) of these Disproportionate Share Payments
8 to the Department of State Treasurer for deposit as nontax revenue. Any
9 Disproportionate Share Payments collected in excess of the one hundred seven million
10 dollars (\$107,000,000) shall be reserved by the State Treasurer for future
11 appropriations.

12

14 Requested by: Senators Martin of Guilford, Purcell, Plyler, Odom, Lee

15 MEDICAID HOSPITAL PAYMENTS

16 SECTION #. The Department of Health and Human Services shall reduce
17 Medicaid payments to hospitals by one-half of one percent (.5%) for the 2002-2003
18 State fiscal year. The Department shall evaluate all medical payment programs and
19 policies administered by the Department that may affect the future viability and
20 sustainability of financially vulnerable hospitals. Based on the evaluation of the
21 medical payments programs and policies affecting hospitals, the Department shall
22 implement the one half of one percent (.5%) reduction for the 2002-2003 State fiscal
23 year such that the reduction has the least impact on the future viability and sustainability
24 of financially vulnerable hospitals. The Department shall also review the status of
25 financially vulnerable hospitals to determine whether additional State actions are
26 appropriate to ensure that communities served by these hospitals continue to receive
27 essential medical services. The Department shall consult with the North Carolina
28 Hospital Association while conducting the evaluation of medical payment programs and
29 policies and determining how to implement the one-half of one percent (.5%) reduction.
30 The Department shall report to the Senate Appropriations Committee on Health and
31 Human Services, the House of Representatives Appropriations Subcommittee on Health
32 and Human Services, and the Fiscal Research Division on its activities under this
33 section not later than October 1, 2002.

34
35 Special Provision 2002-DHHS-S64-P [v3], Modified 5/27/02 8:05 PM

36 Requested by: Senators Martin of Guilford, Purcell, Plyler, Odom, Lee

37 MEDICAID PROGRAM MANAGEMENT

38 SECTION #. Section 21.26(b) of S.L. 2001-424 reads as rewritten:

39 "SECTION 21.26.(b) The Department shall implement a pharmacy management
40 plan considering the recommendations of the "North Carolina Medicaid Benefit Study"
41 to achieve anticipated cost savings. The pharmacy management plan may include the
42 following activities:

- 43 (1) Establishing a prior authorization program to manage utilization of
44 high-cost, brand name drugs. In determining drugs to be included in

1 the prior authorization program, the Department shall consider whether
2 inclusion of these drugs is likely to:

- 3 a. Increase utilization of more expensive services;
4 b. Reduce quality of treatment;
5 c. Result in a lower level of compliance with appropriate drug
6 therapy; and
7 d. Have a differential impact upon racial and ethnic minorities and
8 the elderly.

9 The Department shall conduct a review at least annually of the drugs
10 included in the prior authorization program to determine whether any
11 of the factors listed in this subdivision or other factors with similar
12 results have occurred.

- 13 (2) Limiting prescription drugs to a 34-day supply for some or all drugs.
14 (3) Developing physician prescribing practice profiles and other
15 educational tools to enable physicians to better manage their
16 prescriptions.
17 (4) Establishing therapeutic limits based on appropriate dosage or usage
18 standards.
19 (5) Encouraging use of generic drugs.
20 (6) Using maximum allowable pricing.
21 (7) Contracting with a pharmacy benefits manager to implement more
22 extensive drug utilization review.
23 (8) Studying the impact of eliminating the six prescription drug monthly
24 limit combined with a more rigorous prior authorization program to
25 ensure cost decisions are made based on evidence-based clinical
26 guidelines.
27 (9) Expanding disease management initiatives.
28 (10) Working with ACCESS physicians to develop and implement drug
29 utilization management initiatives.
30 (11) If cost-effective, expanding Medicaid drug coverage to include
31 selected over-the-counter medications.

32 The Department may adopt temporary rules in accordance with G.S. 150B-21.1
33 when it finds these rules are necessary to clarify recipient appeal rights related to the
34 pharmacy management plan."

35
36 **Special Provision 2002-DHHS-S45-P [v11], Modified 6/8/02 6:17 PM**

37 Requested by: Senators Martin of Guilford, Purcell, Plyler, Odom, Lee

38 **NC HEALTH CHOICE**

39 **SECTION #. G.S. 108A-70.21 reads as rewritten:**

40 **"§ 108A-70.21. Program eligibility; benefits; enrollment fee and other**
41 **cost-sharing; coverage from private plans; purchase of extended**
42 **coverage.**

1 (a) Eligibility. – The Department may enroll eligible children based on
2 availability of funds. Following are eligibility and other requirements for participation
3 in the Program:

4 (1) Children must:

- 5 a. Be under the age of 19;
6 b. Be ineligible for Medicaid, Medicare, or other federal
7 government-sponsored health insurance;
8 c. Be uninsured;
9 d. Be in a family that meets the following family income
10 requirements:
11 1. Infants under the age of one year whose family income is
12 from one hundred eighty-five percent (185%) through
13 two hundred percent (200%) of the federal poverty level;
14 2. Children age one year through five years whose family
15 income is above one hundred thirty-three percent (133%)
16 through two hundred percent (200%) of the federal
17 poverty level; and
18 3. Children age six years through eighteen years whose
19 family income is above one hundred percent (100%)
20 through two hundred percent (200%) of the federal
21 poverty level;
22 e. Be a resident of this State and eligible under federal law; and
23 f. Have paid the Program enrollment fee required under this Part.

24 (2) Proof of family income and residency and declaration of uninsured
25 status shall be provided by the applicant at the time of application for
26 Program coverage. The family member who is legally responsible for
27 the children enrolled in the Program has a duty to report any change in
28 the enrollee's status within 60 days of the change of status.

29 (3) If a responsible parent is under a court order to provide or maintain
30 health insurance for a child and has failed to comply with the court
31 order, then the child is deemed uninsured for purposes of determining
32 eligibility for Program benefits if at the time of application the
33 custodial parent shows proof of agreement to notify and cooperate
34 with the child support enforcement agency in enforcing the order.

35 If health insurance other than under the Program is provided to the
36 child after enrollment and prior to the expiration of the eligibility
37 period for which the child is enrolled in the Program, then the child is
38 deemed to be insured and ineligible for continued coverage under the
39 Program. The custodial parent has a duty to notify the Department
40 within 10 days of receipt of the other health insurance, and the
41 Department, upon receipt of notice, shall disenroll the child from the
42 Program. As used in this paragraph, the term "responsible parent"
43 means a person who is under a court order to pay child support.

1 (4) Except as otherwise provided in this section, enrollment shall be
2 continuous for one year. At the end of each year, applicants may
3 reapply for Program benefits.

4 (b) Benefits. – Except as otherwise provided for eligibility, fees, deductibles,
5 copayments, and other cost-sharing charges, health benefits coverage provided to
6 children eligible under the Program shall be equivalent to coverage provided for
7 dependents under the North Carolina Teachers' and State Employees' Comprehensive
8 Major Medical Plan, including optional prepaid plans. Prescription drug providers shall
9 accept as payment in full, for outpatient prescriptions filled, ninety percent (90%) of the
10 average wholesale price for the prescription drug or the amounts published by the
11 ~~Health Care Financing Administration Centers for Medicare and Medicaid Services~~ plus
12 ~~a fee established by the provider not to exceed the amount authorized under subdivision~~
13 ~~(d)(3) of this section.~~ dispensing fee of five dollars and sixty cents (\$5.60) per
14 prescription for generic drugs and four dollars (\$4.00) per prescription for brand name
15 drugs. All other health care providers providing services to Program enrollees shall
16 accept as payment in full for services rendered the maximum allowable charges under
17 the ~~North Carolina Teachers' and State Employees' Comprehensive Major Medical Plan~~
18 Medicaid Program for services less any copayments assessed to enrollees under this
19 Part. No child enrolled in the Plan's self-insured indemnity program shall be required by
20 the Plan to change health care providers as a result of being enrolled in the Program.

21 In addition to the benefits provided under the Plan, the following services and
22 supplies are covered under the Health Insurance Program for Children established under
23 this Part:

24 (1) Dental: Oral examinations, teeth cleaning, and scaling twice during a
25 12-month period, full mouth X rays once every 60 months,
26 supplemental bitewing X rays showing the back of the teeth once
27 during a 12-month period, fluoride applications twice during a
28 12-month period, sealants, simple extractions, therapeutic
29 pulpotomies, prefabricated stainless steel crowns, and routine fillings
30 of amalgam or other tooth-colored filling material to restore diseased
31 teeth. No benefits are to be provided for services under this subsection
32 that are not performed by or upon the direction of a dentist, doctor, or
33 other professional provider approved by the Plan nor for services and
34 materials that do not meet the standards accepted by the American
35 Dental Association.

36 (2) Vision: Scheduled routine eye examinations once every 12 months,
37 eyeglass lenses or contact lenses once every 12 months, routine
38 replacement of eyeglass frames once every 24 months, and optical
39 supplies and solutions when needed. Optical services, supplies, and
40 solutions must be obtained from licensed or certified ophthalmologists,
41 optometrists, or optical dispensing laboratories. Eyeglass lenses are
42 limited to single vision, bifocal, trifocal, or other complex lenses
43 necessary for a Plan enrollee's visual welfare. Coverage for oversized
44 lenses and frames, designer frames, photosensitive lenses, tinted

1 contact lenses, blended lenses, progressive multifocal lenses, coated
2 lenses, and laminated lenses is limited to the coverage for single
3 vision, bifocal, trifocal, or other complex lenses provided by this
4 subsection. Eyeglass frames are limited to those made of zylonite,
5 metal, or a combination of zylonite and metal. All visual aids covered
6 by this subsection require prior approval of the Plan. Upon prior
7 approval by the Plan, refractions may be covered more often than once
8 every 12 months.

- 9 (3) Hearing: Auditory diagnostic testing services and hearing aids and
10 accessories when provided by a licensed or certified audiologist,
11 otolaryngologist, or other hearing aid specialist approved by the Plan.
12 Prior approval of the Plan is required for hearing aids, accessories,
13 earmolds, repairs, loaners, and rental aids.

14 (c) Annual Enrollment Fee. – There shall be no enrollment fee for Program
15 coverage for enrollees whose family income is at or below one hundred fifty percent
16 (150%) of the federal poverty level. The enrollment fee for Program coverage for
17 enrollees whose family income is above one hundred fifty percent (150%) of the federal
18 poverty level shall be fifty dollars (\$50.00) per year per child with a maximum annual
19 enrollment fee of one hundred dollars (\$100.00) for two or more children. The
20 enrollment fee shall be collected by the county department of social services and
21 retained to cover the cost of determining eligibility for services under the Program.
22 County departments of social services shall establish procedures for the collection of
23 enrollment fees.

24 (d) Cost-Sharing. – ~~There shall be no deductibles, copayments, or other cost-~~
25 ~~sharing charges for families covered under the Program whose family income is at or~~
26 ~~below one hundred fifty percent (150%) of the federal poverty level.~~

- 27 (1) Families covered under the Program whose family income is at or
28 below one hundred fifty percent (150%) of the federal poverty level
29 shall be responsible for copayments to providers as follows:

- 30 a. Two dollars (\$2.00) per child for each visit to a provider, except
31 that there shall be no copayment required for well-baby, well-
32 child, or age-appropriate immunization services;
33 b. One dollar (\$1.00) for each outpatient generic prescription drug
34 purchased;
35 c. Three dollars (\$3.00) for each outpatient brand-name
36 prescription drug purchased;
37 d. Ten dollars (\$10.00) for each emergency room visit unless:
38 1. The child is admitted to the hospital, or
39 2. No other reasonable care was available as determined by
40 the Claims Processing Contractor of the North Carolina
41 Teachers' and State Employees' Comprehensive Major
42 Medical Plan.

- 1 (2) Families covered under the Program whose family income is above
2 one hundred fifty percent (150%) of the federal poverty level shall be
3 responsible for copayments to providers as follows:
4 (1)a. ~~Five dollars (\$5.00)~~ Seven dollars (\$7.00) per child for each
5 visit to a provider, except that there shall be no copayment
6 required for well-baby, well-child, or age-appropriate
7 immunization services;
8 (2)b. ~~Five dollars (\$5.00)~~ Seven dollars (\$7.00) per child for each
9 outpatient hospital visit;
10 (3)c. ~~A six-dollar (\$6.00)~~ five-dollar (\$5.00) fee for each outpatient
11 generic prescription drug purchased;
12 d. A ten-dollar (\$10.00) fee for each outpatient brand-name
13 prescription drug purchased;
14 (4)e. ~~Twenty dollars (\$20.00)~~ Thirty dollars (\$30.00) for each
15 emergency room visit unless:
16 a.1. The child is admitted to the hospital, or
17 b.2. No other reasonable care was available as determined by
18 the Claims Processing Contractor of the North Carolina
19 Teachers' and State Employees' Comprehensive Major
20 Medical Plan.

21 Copayments required under this subsection for prescription drugs apply only to
22 prescription drugs prescribed on an outpatient basis.

23 (e) Cost-Sharing Limitations. – The total annual aggregate cost-sharing,
24 including fees, with respect to all children in a family receiving Program benefits under
25 this Part shall not exceed five percent (5%) of the family's income for the year involved.
26 To assist the Department in monitoring and ensuring that the limitations of this
27 subsection are not exceeded, the Executive Administrator and Board of Trustees of the
28 North Carolina Teachers' and State Employees' Comprehensive Major Medical Plan
29 shall provide data to the Department showing cost-sharing paid by Program enrollees.

30 (f) Coverage From Private Plans. – The Department shall, from funds available
31 for the Program, pay the cost for dependent coverage provided under a private insurance
32 plan for persons eligible for coverage under the Program if all of the following
33 conditions are met:

- 34 (1) The person eligible for Program coverage requests to obtain dependent
35 coverage from a private insurer in lieu of coverage under the Program
36 and shows proof that coverage under the private plan selected meets
37 the requirements of this subsection;
38 (2) The dependent coverage under the private plan is actuarially
39 equivalent to the coverage provided under the Program and the private
40 plan does not engage in the exclusive enrollment of children with
41 favorable health care risks;
42 (3) The cost of dependent coverage under the private plan is the same as
43 or less than the cost of coverage under the Program; and

1 (4) The total annual aggregate cost-sharing, including fees, paid by the
2 enrollee under the private plan for all dependents covered by the plan,
3 do not exceed five percent (5%) of the enrollee's family income for the
4 year involved.

5 The Department may reimburse an enrollee for private coverage under this
6 subsection upon a showing of proof that the dependent coverage is in effect for the
7 period for which the enrollee is eligible for the Program.

8 (g) Purchase of Extended Coverage. – An enrollee in the Program who loses
9 eligibility due to an increase in family income above two hundred percent (200%) of the
10 federal poverty level and up to and including two hundred twenty-five percent (225%)
11 of the federal poverty level may purchase at full premium cost continued coverage
12 under the Program for a period not to exceed one year beginning on the date the enrollee
13 becomes ineligible under the income requirements for the Program. The same benefits,
14 copayments, and other conditions of enrollment under the Program shall apply to
15 extended coverage purchased under this subsection.

16 (h) No State Funds for Voluntary Participation. – No State or federal funds shall
17 be used to cover, subsidize, or otherwise offset the cost of coverage obtained under
18 subsection (g) of this section."

23 NC HEALTH CHOICE STATE PLAN TECHNICAL AMENDMENTS

24 SECTION #. The Department of Health and Human Services may rewrite
25 and submit to the federal government the State Plan for the North Carolina Health
26 Choice Program solely for the purpose of incorporating amendments enacted by the
27 1997 General Assembly, Regular Session 1998, the 1999 General Assembly, and the
28 2001 General Assembly, and to otherwise comply with applicable federal requirements.
29 Nothing in this section authorizes the Department to make amendments to the State Plan
30 for the North Carolina Health Choice Program not otherwise authorized by the General
31 Assembly. Amendments to the State Plan required by the federal government to be
32 implemented after the effective date of this section, other than those authorized by this
33 section, shall comply with G.S. 108A-70.25.
34

38 MEDICAID CONTRACTING FOR SERVICES

39 SECTION #. When developing contracts for services, the Department of
40 Health and Human Services, Division of Medical Assistance, shall ensure that Medicaid
41 recipients have appropriate access to durable medical equipment, home health supplies,
42 and home infusion therapy. The Division may subcontract for services provided that the
43 subcontract ensures appropriate access to durable medical equipment, home health
44 supplies, and home infusion therapy.

2 **SUBPART 3. DIVISION OF MENTAL HEALTH, DEVELOPMENTAL**
3 **DISABILITIES, AND SUBSTANCE ABUSE SERVICES**
4

5 **Special Provision 2002-DHHS-S47-P** [v13], Modified 6/8/02 5:35 PM

6 Requested by: Senators Martin of Guilford, Purcell, Plyler, Odom, Lee

7 **ALLOCATION OF REDUCTIONS IN FUNDS FOR AREA MENTAL HEALTH,**
8 **DEVELOPMENTAL DISABILITIES, AND SUBSTANCE ABUSE**
9 **PROGRAMS**

10 **SECTION #.(a)** The Department of Health and Human Services shall
11 allocate reductions in funding to area mental health, developmental disabilities, and
12 substance abuse services in the amount of twenty-nine million two hundred forty-six
13 thousand nine hundred seven dollars (\$29,246,907) for the 2002-2003 fiscal year. In
14 allocating the reductions, the Department shall do the following:

- 15 (1) Allocate reductions within the implementation scope of the State Plan
16 for Mental Health, Developmental Disabilities, and Substance Abuse
17 Services and in accordance with the intent of S.L. 2001-437, as
18 follows:
19 a. Priority given to reducing or terminating services to persons
20 with lower service needs;
21 b. Persons with highest need levels shall be impacted least by
22 reductions in services;
23 c. Administrative costs shall be reduced concurrently with
24 reductions in services; and
25 d. To the maximum extent possible no reductions, or minimal
26 reductions, shall be allocated to activities associated with
27 critical functions and federal and State requirements.
28 (2) Require area authorities and county programs to submit plans for prior
29 approval by the Department describing how the local program will
30 meet its reduction target within the requirements of subdivision (1) of
31 this subsection.

32 **SECTION #.(b)** The Division of Mental Health, Developmental Disabilities,
33 and Substance Abuse Services shall allocate reductions to Division central
34 administration to items of expenditures which have the least impact on:

- 35 (1) The support of direct services to individuals served in State facilities
36 and local programs;
37 (2) The Division's ability to reorganize and continue implementation of
38 the State Plan for Mental Health, Developmental Disabilities, and
39 Substance Abuse Services; and
40 (3) The Division's ability to meet State and federal requirements such as
41 monitoring, program oversight, and reporting.

42 **SECTION #.(c)** All reductions designated for Division-operated State
43 facilities shall be allocated as follows:

- 1 (1) In a manner that has the least impact possible on the State's ability to
2 comply with Olmstead v. L.C. & E.W. and The Civil Rights of
3 Institutionalized Persons Act (CRIPA);
- 4 (2) Maximum resources shall be retained for the purpose of transfer to
5 local programs for community capacity building as the population in
6 State facilities decreases and the principal focus of services transitions
7 to community-based programs;
- 8 (3) As deemed essential by the Secretary of the Department of Health and
9 Human Services for compliance with implementation of the State Plan
10 for Mental Health, Developmental Disabilities, and Substance Abuse
11 Services, and with Olmstead v. L.C. & E.W. and CRIPA, reduction
12 amounts and total number of positions reduced may be shifted among
13 facilities so long as the aggregate reduction in State appropriations is
14 achieved.

15 SECTION #.(d) The Department shall report not later than October 1, 2002,
16 on a plan for allocating the reductions required under this section. The plan shall
17 describe each reduction allocation demonstrating compliance with this section. The
18 Department shall submit the report to the Senate Appropriations Committee on Health
19 and Human Services, the House of Representatives Appropriations Subcommittee on
20 Health and Human Services, and the Fiscal Research Division.

24 SUBSTANCE ABUSE PREVENTION SERVICES

25 SECTION #.(a) In order to ensure that individuals receive effective
26 substance abuse prevention services, the Department of Health and Human Services,
27 Division of Mental Health, Developmental Disabilities, and Substance Abuse Services,
28 shall do the following with respect to services provided to these individuals:

- 29 (1) Designate an Office of Substance Abuse Prevention within the
30 Department as outlined in the North Carolina Comprehensive Strategic
31 Plan for Substance Abuse Prevention. This Office shall be responsible
32 for the implementation of the goals in the Comprehensive Strategic
33 Plan for Substance Abuse Prevention. The Office shall also maintain
34 the Interagency Agreement for Substance Abuse Prevention Services
35 and ensure continuing collaboration between agencies that are parties
36 to the Agreement.
- 37 (2) Provide only those prevention services that are evidence-based and
38 have been determined to be effective in preventing alcohol and other
39 drug problems.
- 40 (3) Propose rules for the licensure of prevention programs to ensure
41 quality of service delivery in local communities. Rules shall be subject
42 to review and adoption by the Commission for Mental Health,
43 Developmental Disabilities, and Substance Abuse Services.

1 (4) Ensure that services are provided by qualified prevention
2 professionals.

3 (5) Implement an outcome-based system utilizing standard risk
4 assessments and data elements consistent with appropriate evaluation
5 of prevention programs.

6 SECTION #.(b) The Department shall report on its activities under this
7 section to the Senate Appropriations Committee on Health and Human Services, the
8 House of Representatives Appropriations Subcommittee on Health and Human
9 Services, and the Fiscal Research Division not later than December 1, 2002.

13 PRIVATE AGENCY UNIFORM COST-FINDING REQUIREMENT

14 SECTION #. Section 21.56 of S.L. 2001-424, as amended by S.L. 2001-513,
15 reads as rewritten:

16 "SECTION 21.56.(a) To ensure uniformity in rates charged to area programs and
17 funded with State-allocated resources, the Division of Mental Health, Developmental
18 Disabilities, and Substance Abuse Services of the Department of Health and Human
19 Services may require a private agency that provides services under contract with ~~two or~~
20 ~~more area programs, an area program or county program,~~ except for hospital services
21 that have an established Medicaid rate, to complete an agency-wide uniform cost
22 finding. The resulting cost shall be the maximum included for the private agency in the
23 contracting area program's unit cost finding.

24 SECTION 21.56.(b) If a private agency fails to timely and accurately complete the
25 required agency-wide uniform cost finding in a manner acceptable to the Department's
26 controller's office, the Department may suspend all Department funding and payment to
27 the private agency until such time as an acceptable cost finding has been completed by
28 the private agency and approved by the Department's controller's office."

29
30 ~~funded with State-allocated resources, the Division of Mental Health,~~
31 ~~Developmental Disabilities, and Substance Abuse Services of the Department of Health~~
32 ~~and Human Services may require a private agency that provides services under contract~~
33 ~~with two or more area programs, except for hospital services that have an established~~
34 ~~Medicaid rate, to complete an agency-wide uniform cost finding in accordance with~~
35 ~~G.S. 122C-143.2(a) and G.S. 122C-147.2. finding. The resulting cost shall be the~~
36 ~~maximum included for the private agency in the contracting area program's unit cost~~
37 ~~finding~~

41 WHITAKER SCHOOL

42 SECTION #. Section 21.61(a) of S.L. 2001-424 reads as rewritten:

43 "SECTION 21.61.(a) The Department of Health and Human Services shall work
44 with families and guardians, the Department of Public Instruction, the Department of

1 Juvenile Justice and Delinquency Prevention, and appropriate local education agencies,
2 area mental health, developmental disabilities, and substance abuse programs, and local
3 departments of social services to develop a plan for the transition of children from the
4 Whitaker School to their homes or alternative facilities. The Plan shall ensure
5 appropriate and safe placement for those children who, in accordance with the
6 assessment, need an institutional setting. The Plan shall also include transition plans that
7 facilitate and support children living in their natural environments and utilizing existing
8 resources and natural supports. Assessments and service planning alternatives shall also
9 be undertaken for children on the waiting list for placement at Whitaker School to
10 ensure appropriate and safe placement for those children. The Department shall report
11 on the status of its compliance with this section on April 1, 2002 and again on ~~October~~
12 ~~1, 2002.~~ January 1, 2003. The report shall be submitted to the Senate Appropriations
13 Committee on Health and Human Services, the House of Representatives
14 Appropriations Subcommittee on Health and Human Services, the Joint Legislative
15 Commission on Governmental Operations, and the Fiscal Research Division."

19 AREA MENTAL HEALTH ADMINISTRATIVE COSTS

20 SECTION #. Section 21.65 of S.L. 2001-424 reads as rewritten:

21 "SECTION 21.65.(a) Area mental health, developmental disabilities, and substance
22 abuse authorities or counties administering mental health, developmental disabilities,
23 and substance abuse services shall develop and implement plans to reduce local
24 administrative costs. The plans shall be developed in accordance with guidelines
25 adopted by the Secretary, in consultation with the Local Government Commission and
26 the North Carolina Association of County Commissioners, and in accordance with the
27 following:

- 28 (1) For the 2001-2002 fiscal year, administrative costs for:
29 a. Area mental health, developmental disabilities, and substance
30 abuse services programs shall not exceed fifteen percent (15%).
31 b. Counties administering mental health, developmental
32 disabilities, and substance abuse services through a county
33 program shall not exceed fifteen percent (15%).
34 (2) For the 2002-2003 fiscal year, administrative costs for:
35 a. Area mental health, developmental disabilities, and substance
36 abuse services programs shall not exceed thirteen percent
37 (13%).
38 b. Counties administering mental health, developmental
39 disabilities, and substance abuse services through a county
40 program shall not exceed thirteen percent (13%).

41 SECTION 21.65.(b) The Department of Health and Human Services shall report its
42 progress in complying with this section not later than January 1, 2002, and April 15,
43 2002. The reports shall be submitted to the Senate Appropriations Committee on Health

1 and Human Services, the House of Representatives Appropriations Subcommittee on
2 Health and Human Services, and the Fiscal Research Division and shall include:

- 3 (1) A description of the process used and the participants involved in
4 complying with subsection (a) of this section.
- 5 (2) The guidelines developed under subsection (a) of this section.
- 6 (3) A description of local compliance initiatives and efforts including
7 program or function consolidation.
- 8 (4) A list of area programs at or below the targeted thirteen percent (13%)
9 for the 2000-2001 fiscal year.
- 10 (5) Projected savings in administrative costs as a result of implementation
11 of the targeted limits required under this section.

12 SECTION 21.65.(c) Beginning in the 2002-2003 fiscal year, the Department may
13 implement alternative approaches to establish reasonable administrative cost limitations
14 for Local Management Entities (LMEs), including both county programs and area
15 authority models, and service providers in accordance with system reform and changes
16 in system funding structures."

20 MENTAL RETARDATION CENTER DOWNSIZING

21 SECTION #. Section 21.67 of S.L. 2001-424 reads as rewritten:

22 "SECTION 21.67.(a) In accordance with the Department of Health and Human
23 Services' plan for downsizing the State's regional mental retardation facilities by four
24 percent (4%) each year, the Department shall implement cost-containment and
25 reduction strategies to ensure the corresponding financial and staff downsizing of each
26 facility. The Department shall manage the client population of the mental retardation
27 centers in order to ensure that placements for ICF/MR level of care shall be made in
28 non-State facilities. Admissions to State ICF/MR facilities are permitted only as a last
29 resort and only upon approval of the Department. The corresponding budgets for each
30 of the State mental retardation centers shall be reduced, and positions shall be
31 eliminated as the census of each facility decreases. At no time shall mental retardation
32 center positions be transferred to other units within a facility or assigned nondirect care
33 activities such as outreach.

34 SECTION 21.67.(a1) Any savings in State appropriations in excess of two million
35 nine hundred thousand dollars (\$2,900,000) in each year of the 2001-2003 fiscal
36 biennium that result from reductions in beds or services shall be applied as follows:

- 37 (1) Nonrecurring savings shall be placed in the Trust Fund for Mental
38 Health, Developmental Disabilities, and Substance Abuse Services and
39 Bridge Funding Needs and shall be used to facilitate the transition of
40 clients into appropriate community-based services and support in
41 accordance with Section 21.58 of this act, and
- 42 (2) Recurring savings realized through implementation of this section
43 shall be retained by the Department of Health and Human Services,
44 Division of Mental Health, Developmental Disabilities, and Substance

1 Abuse Services to support the recurring costs of additional
 2 community-based placements from Division facilities in accordance
 3 with Olmstead vs. L.C. & E.W. In determining the savings in this
 4 section, savings shall include all savings realized from the downsizing
 5 of the State mental retardation centers including both the savings in
 6 direct State appropriations in the budgets of the State mental
 7 retardation centers as well as the savings in the State matching portion
 8 of reduced Medicaid payments associated with downsizing.

9 SECTION 21.67.(b) The Department of Health and Human Services shall report on
 10 its progress in complying with this section to the Senate Appropriations Committee on
 11 Health and Human Services, the House of Representatives Appropriations
 12 Subcommittee on Health and Human Services, and the Fiscal Research Division. The
 13 progress report shall be submitted not later than January 15, 2002, and a final report
 14 submitted not later than ~~May 1, 2002.~~October 1, 2002.

15 SECTION 21.67.(c) Downsizing of mental retardation centers which occurs in the
 16 2002 fiscal year shall be maintained for the 2003 fiscal year. Effective July 1, 2002,
 17 downsizing shall be accomplished in accordance with the State Plan for Mental Health,
 18 Developmental Disabilities, and Substance Abuse Services. All savings resulting from
 19 downsizing occurring on and after July 1, 2002, shall be utilized as set forth in
 20 subsection (a1) of this section."

8 **DHHS COORDINATION OF RULES**

9 **SECTION #.(a)** The Secretary and the Chairs of the Commissions listed in
10 this section shall collaborate in the development of a process for identifying and
11 resolving issues pertaining to duplication and conflict of rules adopted by the Secretary
12 and each Commission. The process shall address the following:

- 13 (1) How to identify on a routine basis proposed rules that duplicate in
14 whole or in part other rules proposed or adopted and ways of avoiding
15 the duplication without interfering with the agency's statutory duty to
16 adopt the rule and without impairing the effectiveness of the rule in
17 carrying out the statutory mandate.
- 18 (2) How to identify on a routine basis adopted rules that are in conflict,
19 proposed rules that conflict with other proposed or adopted rules, and
20 ways of addressing the conflict without interfering with the agency's
21 statutory duty to adopt the rule and without impairing the effectiveness
22 of the rule in carrying out the statutory mandate.

23 The following Commissions shall collaborate with the Secretary on the
24 development of this process: the Commission for Mental Health, Developmental
25 Disabilities, and Substance Abuse Services, the Social Services Commission, the
26 Commission for Health Services, the Medical Care Commission, and other
27 Commissions that adopt rules that the Secretary has a duty to implement. The Secretary
28 shall also involve a representative of the Division of Medical Assistance in this effort.

29 **SECTION #.(b)** The Secretary and the Commissions shall implement the
30 process required by Section 1 of this act not later than October 1, 2002. Not later than
31 October 15, 2002, the Secretary shall report to the Joint Legislative Commission on
32 Mental Health, Developmental Disabilities, and Substance Abuse Services the
33 following:

- 34 (1) The status of the review of rules conducted by the Department for
35 determining the existence of ambiguity, duplication, or conflict.
- 36 (2) Specific rules identified that are in conflict and the recommended
37 action for resolving the conflict.
- 38 (3) Statutory changes necessary to accomplish the purposes of the rules
39 review process required by Section 1 of this act.
- 40

6 STATE/COUNTY SPECIAL ASSISTANCE

7 SECTION #. Section 21.44 of S.L. 2001-424 reads as rewritten:

8 "SECTION 21.44.(a) The eligibility of Special Assistance recipients residing in
9 adult care homes on August 1, 1995, shall not be affected by an income reduction in the
10 Special Assistance eligibility criteria resulting from adoption of the Rate Setting
11 Methodology Report and Related Services, providing these recipients are otherwise
12 eligible. The eligibility of Special Assistance recipients residing in adult care homes on
13 September 30, 2002 shall not be affected by the rate reduction that becomes effective
14 October 1, 2002, providing these recipients are otherwise eligible. The maximum
15 monthly rate for residents in adult care home facilities under this subsection shall be one
16 thousand two hundred thirty-one dollars (\$1,231) per month per resident.

17 SECTION 21.44.(b) The maximum monthly rate for residents in adult care home
18 facilities shall be one thousand sixty-two dollars (\$1,062) per month per resident
19 through September 30, 2001.

20 SECTION 21.44.(c) Effective October 1, 2001, the maximum monthly rate for
21 residents in adult care home facilities shall be one thousand ninety-one dollars (\$1,091)
22 per month per resident.

23 SECTION 21.44.(d) Effective October 1, 2002, the maximum monthly rate for
24 residents in adult care home facilities shall be ~~one thousand one hundred twenty dollars~~
25 ~~(\$1,120) per month per resident.~~ one thousand sixty-two dollars (\$1,062) per month per
26 resident."

30 ELECTING COUNTY TANF FUNDS REVERT

31 SECTION #. G.S. 108A-27.11(c) reads as rewritten:

32 "(c) Each Electing County's allocation for Work First Family Assistance shall be
33 computed based on the percentage of each Electing County's total expenditures for cash
34 assistance to statewide actual expenditures for cash assistance in 1995-96. The resulting
35 percentage shall be applied to the federal TANF block grant funds appropriated for cash
36 assistance by the General Assembly each fiscal year. The Department shall transmit the
37 federal funds contained in the county block grants to Electing Counties as soon as
38 practicable after they become available to the State and in accordance with federal cash
39 management laws and regulations. The Department shall transmit one-fourth of the
40 State funds contained in county block grants to Electing Counties at the beginning of
41 each quarter. ~~Once paid, the county block grant funds shall not revert."~~

ADULT CARE HOME MODEL FOR COMMUNITY-BASED SERVICES

SECTION #. Section 21.54(b) of S.L. 2001-424 reads as rewritten:

"SECTION 21.54.(b) The Department shall submit a progress report on the development of the model to the Senate Appropriations Committee on Health and Human Services, the House of Representatives Appropriations Subcommittee on Health and Human Services, and the Fiscal Research Division on or before January 1, 2002, and a final report on ~~March 1, 2002.~~ March 1, 2003. The report shall address the following:

- (1) The proposed time and location for implementation of the pilot.
- (2) Proposed number of residents to be placed and services to be provided directly by the facility or under contract with the facility.
- (3) Method for evaluating the pilot, including services provided, on a regular basis.
- (4) A description of the living environment for each resident and a comparison of how the living environment compares to that of other residents in the adult care home.
- (5) Changes to State law necessary to implement the pilot.
- (6) Projected cost to the State for pilot and statewide implementation."

STATE/COUNTY SPECIAL ASSISTANCE RATE METHODOLOGY

SECTION #.(a) The Department of Health and Human Services shall develop a plan to address the short-term and long-term recommendations of the report titled "Reimbursement of Adult Care Homes in North Carolina: A Study of the Special Assistance Rate Methodology, May, 2002." The plan shall include:

- (1) Setting the rate at the median plus a percentage;
- (2) Excluding low-occupancy facilities from the rate-setting methodology; and
- (3) Adjusting fixed costs for inflation.

SECTION #.(b) The Department shall implement the following changes to the adult care home cost reports:

- (1) Revise the Direct Cost category to include: housekeeping/laundry, health services, dietary services, recreational activities, and initial orientation/aide training;
- (2) Revise the Indirect Cost category to include: administration/general and operation/maintenance;

- 1 (3) Revise the category of other Cost centers to include: personal care,
 2 medically related transportation, and mental health services;
 3 (4) Create a capital cost center category to include
 4 property/ownership/use;
 5 (5) Create a nonreimbursable cost category; and
 6 (6) Define allowable and nonallowable expenditures.

7 The Department of Health and Human Services shall make the new cost report format
 8 available to each facility 90 days prior to implementation.

9 SECTION #.(c) The Department shall assume the responsibility of auditing
 10 provider costs. The Department shall implement the recommendations contained in the
 11 report named in subsection (a) of this section concerning the creation of an audit
 12 function that is directly answerable to the State and involves fewer but more detailed
 13 audits. All providers of services to State County Special Assistance recipients shall be
 14 subject to a State audit if selected. The specific audit requirements shall be based on
 15 similar auditing requirements of governmental programs such as Medicaid and
 16 Medicare.

17 SECTION #.(d) The Department shall apply for a federal waiver to pay
 18 facilities directly for residential services for State County Special Assistance Residents.

19 SECTION #.(e) The Department shall report on the progress of the
 20 implementations of the requirements of this section no later than December 1, 2002, to
 21 the Senate Appropriations Committee on Health and Human Services, the House of
 22 Representatives Appropriations Subcommittee on Health and Human Services, and the
 23 Fiscal Research Division.

11 GOVERNOR'S ADVISORY COUNCIL ON AGING

12 SECTION #. G.S. 143B-181 reads as rewritten:

13 "§ 143B-181. Governor's Advisory Council on Aging - members; selection;
14 quorum; compensation.

15 The Governor's Advisory Council on Aging of the Department of Health and Human
16 Services shall consist of 33 members, 29 members to be appointed by the Governor, two
17 members to be appointed by the President Pro Tempore of the Senate, and two members
18 to be appointed by the Speaker of the House of Representatives. The composition of the
19 Council shall be as follows: one representative of the Department of Administration;
20 one representative of the Department of Cultural Resources; one representative of the
21 Employment Security Commission; one representative of the Teachers' and State
22 Employees' Retirement System; one representative of the Commissioner of Labor; one
23 representative of the Department of Public Instruction; one representative of the
24 Department of Environment and Natural Resources; one representative of the
25 Department of Insurance; one representative of the Department of Crime Control and
26 Public Safety; one representative of the Department of Community Colleges; one
27 representative of the School of Public Health of The University of North Carolina; one
28 representative of the School of Social Work of The University of North Carolina; one
29 representative of the Agricultural Extension Service of North Carolina State University;
30 one representative of the collective body of the Medical Society of North Carolina; and
31 19 members at large. The at large members shall be citizens who are knowledgeable
32 about services supported through the Older Americans Act of 1965, as amended, and
33 shall include persons with greatest economic or social need, minority older persons, and
34 participants in programs under the Older Americans Act of 1965, as amended. The
35 Governor shall appoint 15 members at large who meet these qualifications and are 60
36 years of age or older. The four remaining members at large, two of whom shall be
37 appointed by the President Pro Tempore of the Senate and two of whom shall be
38 appointed by the Speaker of the House of Representatives, shall be broadly
39 representative of the major private agencies and organizations in the State who are
40 experienced in or have demonstrated particular interest in the special concerns of older
41 persons. At least one of each of the at-large appointments of the President Pro Tempore
42 of the Senate and the Speaker of the House of Representatives shall be persons 60 years
43 of age or older. The Council shall meet ~~at least quarterly~~ biannually.

1 Members at large shall be appointed for four-year terms and until their successors
2 are appointed and qualify. Ad interim appointments shall be for the balance of the
3 unexpired term.

4 The Governor shall have the power to remove any member of the Council from
5 office in accordance with the provisions of G.S. 143B-16 of the Executive Organization
6 Act of 1973.

7 The Governor shall designate one member of the Council as chair to serve in such
8 capacity at his pleasure.

9 Members of the Council shall receive per diem and necessary travel and subsistence
10 expenses in accordance with the provisions of G.S. 138-5.

11 A majority of the Council shall constitute a quorum for the transaction of business.
12 All clerical and other services required by the Council shall be supplied by the Secretary
13 of Health and Human Services."

24 **SECTION #.** Section 21.97(b) of S.L. 2001-424 reads as rewritten:

25 "SECTION 21.97.(b) The Division shall require in-home visitors to collect data on
26 program participants as a condition of participation. This requirement shall include
27 six-month periodic assessments and completion of the questionnaires. The Department
28 shall ensure that the collection, maintenance, use, and disclosure of data complies with
29 applicable State and federal law protecting privacy of health and other individual
30 information. By April 1, ~~2002~~, 2003, the Division shall report to the Senate
31 Appropriations Committee on Health and Human Services and the House of
32 Representatives Appropriations Subcommittee on Health and Human Services on the
33 following items:

- 34 (1) Number of clients/families enrolled per county.
- 35 (2) Attrition and reasons why families leave the program.
- 36 (3) Average number of home visits per month.
- 37 (4) Average time involved per home visit.
- 38 (5) Baseline family characteristics.
- 39 (6) Health behaviors.
- 40 (7) Perinatal and birth outcomes.
- 41 (8) Other relevant outcome information.

42 All program information shall include the identification of the model used in order to
43 compare these models in the future."

2 Requested by: Senators Martin of Guilford, Purcell, Plyler, Odom, Lee

3 AIDS DRUG ASSISTANCE PROGRAM (ADAP)

4 SECTION #.(a) Section 21.90(b) of S.L. 2001-424 reads as rewritten:

5 "SECTION 21.90.(b) For the 2001-2002 fiscal year and for the 2002-2003 fiscal
6 year, HIV-positive individuals with incomes at or below one hundred twenty-five
7 percent (125%) of the federal poverty level are eligible for participation in ADAP.
8 ~~Eligibility for participation in ADAP may be extended to individuals with incomes up to~~
9 ~~one hundred fifty percent (150%) of the federal poverty level only after the Office of~~
10 ~~State Budget and Management certifies in writing that the Department has developed an~~
11 ~~information management system pursuant to subsection (a) of this section. Until the~~
12 ~~Office of State Budget and Management makes this certification, eligibility~~Eligibility
13 for participation in ADAP during the 2001-2003 fiscal biennium shall not be extended
14 to individuals with incomes above one hundred twenty-five percent (125%) of the
15 federal poverty level. Following six months of increased eligibility at one hundred fifty
16 percent (150%) of the federal poverty level, eligibility for participation in ADAP shall
17 be extended to individuals with incomes up to one hundred seventy-five percent (175%)
18 of the federal poverty level for the remainder of the 2001-2002 fiscal year. Beginning
19 July 1, 2002, eligibility for participation in the ADAP shall be extended to individuals
20 with incomes up to two hundred percent (200%) of the federal poverty level."

21 SECTION #.(b) The Department of Health and Human Services shall
22 develop a plan to manage costs in ADAP and to serve additional participants within
23 additional resources. The plan shall include an assessment of the following, including,
24 where applicable, a review of other states' actions in these areas:

- 25 (1) Limiting the drug formulary.
26 (2) Capping expenditures on a per participant/per month basis.
27 (3) Providing financial assistance to participants for health care program
28 premiums.

29 SECTION #.(c) The Department shall report on activities conducted under
30 this section and under Section 21.90 of S.L. 2001-424 to the Senate Appropriations
31 Committee on Health and Human Services, the House of Representatives Subcommittee
32 on Health and Human Services, and the Fiscal Research Division. The Department
33 shall submit an interim report not later than December 1, 2002, and a final report not
34 later than May 1, 2003.

38 PRESCRIPTION DRUG ASSISTANCE PROGRAM

39 SECTION #.(a) Section 21.88 of S.L. 2001-424 reads as rewritten:

40 "SECTION 21.88. Of the funds appropriated in this act to the Department of Health
41 and Human Services, the sum of five hundred thousand dollars (\$500,000) for the
42 2001-2002 fiscal year ~~and the sum of five hundred thousand dollars (\$500,000) for the~~
43 ~~2002-2003 fiscal year shall be used to pay the cost of outpatient prescription drugs for~~
44 persons:

- 1 (1) Over the age of 65 years and not eligible for full Medicaid benefits;
2 (2) Whose income is not more than one hundred fifty percent (150%) of
3 the federal poverty level; and
4 (3) Who have been diagnosed with cardiovascular disease or diabetes.

5 These funds shall be used to pay the cost of outpatient prescription drugs for the
6 treatment of cardiovascular disease or diabetes. Payment shall be not more than the
7 Medicaid cost including rebates. The Department shall develop criteria to maximize the
8 efficient and effective distribution of these drugs."

9 SECTION #.(b) It is the intent of the General Assembly that funding for
10 prescription drug assistance provided by the Health and Wellness Trust Fund shall
11 include funds for the transition of benefits formerly provided under the Prescription
12 Drug Assistance Program.

23 RESTRUCTURE ORAL HEALTH SECTION

24 SECTION #. The Department of Health and Human Services, Division of
25 Public Health, shall restructure the Division's Oral Health Section within the Women's
26 and Children's Health Section. The restructuring shall result in broadening the scope of
27 the Oral Health Section responsibilities to begin to address a more comprehensive
28 school health program throughout the State. The Division shall ensure that positions and
29 resources within the Oral Health Section are also transferred to meet the requirements of
30 a comprehensive school health program. The Division of Public Health shall report not
31 later than December 1, 2002, on the Division's reorganization, including restructuring of
32 the Oral Health Section. The Division shall submit the report to the Senate
33 Appropriations Committee on Health and Human Services, the House of
34 Representatives Appropriations Subcommittee on Health and Human Services, and the
35 Fiscal Research Division.

4 DEVELOPMENTAL EVALUATION CENTERS

5 SECTION #.(a) The Department of Health and Human Services, Division
6 of Public Health, shall administer the reduction in funds for the 2002-2003 fiscal year of
7 two million seventy-six thousand four hundred twenty-six dollars \$2,076,426 to all
8 Developmental Evaluation Centers (DEC's) based upon the following:

- 9 (1) Prior years' expenditures of the DEC,
10 (2) Elimination of vacant positions, and
11 (3) Overall needs of the DEC.

12 The reduction shall not result in the entire closure of an individual DEC and
13 the implementation of the reduction should seek to minimize the loss of direct services
14 to children, looking first at administrative reductions.

15 SECTION #.(b) The Division of Public Health shall prepare a plan for the
16 future of Developmental Evaluation Centers that will involve a needs-assessment of
17 services and geographical needs. The plan shall also include an assessment of the
18 number of DEC's needed and recommendations for future downsizing or growth. The
19 plan will augment the Early Intervention Services Plan submitted to the General
20 Assembly. The Division shall report on its plan not later than December 1, 2002, to the
21 Senate Appropriations Committee on Health and Human Services, the House of
22 Representatives Appropriations Subcommittee on Health and Human Services, and the
23 Fiscal Research Division.

27 DUSTY TRADES PROGRAM

28 SECTION #.(a) G.S. 97-61.1 reads as rewritten:

29 "§ 97-61.1. First examination of and report on employee having asbestosis or
30 silicosis.

31 When an employee and the Industrial Commission are advised by the ~~Department of~~
32 ~~Health and Human Services~~ that an employee has asbestosis or silicosis, the employer
33 shall be notified by the Industrial Commission, and the employee, when ordered by the
34 Industrial Commission, shall go to a place designated by the Industrial Commission and
35 submit to X rays and a physical examination by the advisory medical committee, at least
36 one of whom shall conduct the examination, and the member or members of the
37 advisory medical committee conducting the examination shall forward the X rays and
38 findings to the member or members of the committee not present for the physical
39 examination. The employer shall pay the expenses connected with the examination in
40 such amounts as shall be directed by the Industrial Commission. Within 30 days after
41 the completion of the examination, the advisory medical committee shall make a written
42 report signed by all of its members setting forth:

- 43 (1) The X rays and clinical procedures used by the committee in arriving
44 at its findings.

- 1 (2) Whether or not the claimant has contracted asbestosis or silicosis.
2 (3) The committee's opinion expressed in percentages of the impairment
3 of the employee's ability to perform normal labor in the same or any
4 other employment.
5 (4) Any other matter deemed pertinent by the committee.

6 When a competent physician certifies to the Industrial Commission that the
7 employee's physical condition is such that his movement to the place of examination
8 ordered by the Industrial Commission as herein provided in G.S. 97-61.1, 97-61.3 and
9 97-61.4 would be harmful or injurious to the health of the employee, the Industrial
10 Commission shall cause the examination of the employee to be made by the advisory
11 medical committee as herein provided at some place in the vicinity of the residence of
12 the employee suitable for the purposes of making such examination."

13 SECTION #.(b) G.S. 97-72(b) reads as rewritten:

14 "(b) The members of the advisory medical committee shall be paid one hundred
15 dollars (\$100.00) per month plus not more than forty dollars (\$40.00) per film
16 examined. The fee per film shall be established by the ~~Secretary of Health and Human~~
17 ~~Services, Industrial Commission,~~ as guided by the current Medicaid/Medicare
18 reimbursement schedules for North Carolina."

19 SECTION #.(c) G.S. 97-73(b) reads as rewritten:

20 "(b) ~~The Secretary of Health and Human Services Industrial Commission~~ shall
21 establish a schedule of fees for examinations ~~conducted by the Department of Health~~
22 ~~and Human Services directed by the Industrial Commission~~ pursuant to G.S. 97-60. The
23 fees shall be collected in accordance with rules adopted by the ~~Secretary of Health and~~
24 ~~Human Services Industrial Commission.~~"

30 EARLY CHILDHOOD EDUCATION AND DEVELOPMENT INITIATIVES
31 ENHANCEMENTS

32 SECTION #.(a) Section 21.75.(d) of S.L. 2001-424 reads as rewritten:

33 "SECTION 21.75.(d) The Department of Health and Human Services and the
34 North Carolina Partnership for Children, Inc., shall ensure that the allocation of funds
35 for Early Childhood Education and Development Initiatives for State fiscal ~~year-years~~
36 2001-2002 and 2002-2003 shall be administered and distributed in the following
37 manner:

- 38 (1) The North Carolina Partnership for Children, Inc., shall develop a
39 policy to allocate the reduction of funds for Early Childhood
40 Education and Development Initiatives for the 2001-2002 and 2002-
41 2003 fiscal ~~year-years~~.
42 (2) The North Carolina Partnership for Children, Inc., administration shall
43 be reduced by ten percent (10%) from the 2000-2001 fiscal year level.

1 (3) The Department of Health and Human Services Smart Start
2 administration shall be reduced by ten percent (10%) from the
3 2000-2001 fiscal year level.

4 (4) Capital expenditures and playground equipment expenditures are
5 prohibited for fiscal year ~~2001-2002~~ years 2001-2002 and 2002-2003.
6 For the purposes of this section, "capital expenditures" means
7 expenditures for capital improvements as defined in G.S. 143-34.40.

8 (5) Expenditures for advertising and promotional activities are prohibited
9 for fiscal year 2002-2003."

10 SECTION #.(b) Section 21.75(f) of S.L. 2001-424 reads as rewritten:

11 "SECTION 21.75.(f) For the 2001-2002 and 2002-2003 fiscal year, years, the North
12 Carolina Partnership for Children, Inc., shall not approve local partnership plans that
13 allocate State funds to child care providers for one-time quality improvement initiatives
14 in the following circumstances:

15 (1) Child care facilities with licensure of four or five stars, unless the
16 expenditure of funds is to expand capacity for low-income children.

17 (2) Child care facilities that do not accept child care subsidy funds.

18 (3) Child care facilities that previously received quality improvement
19 grants whose quality initiatives failed to increase licensure."

20 SECTION #.(c) For the 2002-2003 fiscal year, the local partnerships shall
21 spend an amount for child care subsidies that equals or exceeds the amount spent in the
22 2000-2001 fiscal year for child care subsidies and quality-related initiatives.

23 SECTION #.(d) Of the funds appropriated in this act, the North Carolina
24 Partnership for Children, Inc., shall transfer one million dollars (\$1,000,000) to the
25 Department of Health and Human Services, Division of Public Health, to contract with
26 the National Society to Prevent Blindness – North Carolina Affiliate, Inc., to maximize
27 vision screenings of children in child care settings. The National Society to Prevent
28 Blindness – North Carolina Affiliate, Inc., shall report on the use of the funds
29 transferred under this section no later than March 1, 2003, to the Senate Appropriations
30 Committee on Health and Human Services, the House of Representatives
31 Appropriations Subcommittee on Health and Human Services, and the Fiscal Research
32 Division. This report shall included the following:

33 (1) The number of screenings conducted.

34 (2) The number of previously undetected vision problems discovered in
35 the screenings.

36 (3) The number of child care facilities in which screenings are conducted.

37 (4) A listing of the counties in which screenings are conducted.

38 SECTION #.(e) Notwithstanding any other provision of law, for the
39 2002-2003 fiscal year, the North Carolina Partnership for Children, Inc., shall not
40 contract with any outside entity to conduct performance assessments of local
41 partnerships.

42 SECTION #.(f) G.S. 143B-168.12 is amended by adding a new subsection
43 to read:

1 "(e) The North Carolina Partnership for Children, Inc. shall develop guidelines for
2 local partnerships to follow in selecting capital projects to fund. The guidelines shall
3 include assessing the community needs in relation to the quantity of child care centers,
4 assessing the cost of purchasing or constructing new facilities as opposed to renovating
5 existing facilities, and prioritizing capital needs such as construction, renovations, and
6 playground equipment and other amenities."

7 **SECTION #.(g)** G.S. 143B-168.13(a)(1a) reads as rewritten:

8 "(1a) Develop and conduct a statewide needs and resource assessment every
9 third year, beginning in the 1997-98 fiscal year. This needs assessment
10 shall be conducted in cooperation with the North Carolina Partnership
11 and with the local partnerships. This needs assessment shall include a
12 statewide assessment of capital needs. The data and findings of this
13 needs assessment shall form the basis for annual program plans
14 developed by local partnerships and approved by the North Carolina
15 Partnership."

16 **SECTION #.(h)** Of the funds appropriated in this act, the North Carolina
17 Partnership for Children, Inc., shall transfer the sum of four hundred thousand dollars
18 (\$400,000) to the Department of Health and Human Services, Division of Public Health,
19 for the purpose of providing a statewide folic acid campaign.

20 **SECTION #.(i)** Section 21.76B(f) of S.L. 2001-424 reads as rewritten:

21 "**SECTION 21.76B.(f)** In order to maximize and coordinate funding for
22 prekindergarten programs for four-year-olds with demonstrated educational needs, the
23 Department of Health and Human Services, the Department of Public Instruction, and
24 the Task Force ~~Force~~ and the North Carolina Partnership for Children, Inc., shall
25 identify and make recommendations on the reallocation of funds from existing State and
26 local programs providing prekindergarten related care and services, including child care
27 subsidies. All potential funding sources, including federal as well as State-funded
28 efforts, shall be identified. The report required under subsection (g) of this section shall
29 include recommendations on strategies to foster cooperation between the Partnership
30 and More at Four in addressing the academic and cognitive needs of young children.
31 The report shall include recommendations on structural changes to Smart Start and
32 More at Four, including consolidation of the two programs, that may be beneficial in
33 encouraging this cooperation. The report shall include a plan and a timetable for
34 implementation of the recommendations. In addition, the report shall identify any
35 obstacles to consolidation of the two programs."

38 Requested by: Senators Martin of Guilford, Purcell , Plyler, Odom, Lee

39 **MORE AT FOUR PROGRAM**

40 **SECTION #.** Section 21.76B(d) of S.L. 2001-424 reads as rewritten:

41 "**SECTION 21.76B.(d)** In development of the "More At Four" pilot, the
42 Department of Health and Human Services, in consultation with the Department of
43 Public Instruction and the Task Force, shall:

- 1 (1) Contract with an independent research organization, outside the
2 Department of Health and Human Services and the Department of
3 Public Instruction, with proven expertise in evaluation of
4 prekindergarten programs, for the design of an evaluation component.
5 ~~The evaluation component shall facilitate longitudinal review of the~~
6 ~~program and child specific outcomes to include, at a minimum,~~
7 ~~participants' readiness for kindergarten, percentage of participants~~
8 ~~scoring at or above grade level on the third grade end of grade test,~~
9 ~~and high school graduation rates.~~ pre- and post-assessments of children
10 participating in the More at Four Program. Of the funds appropriated
11 in this act, the Department shall not spend more than two hundred
12 thousand dollars (\$200,000) on this contract.
- 13 (2) Collaborate in the development of a system to collect and maintain
14 child-specific information to provide for the long-term evaluation of
15 the pilot. The system shall be developed in a manner which ~~builds~~
16 ~~upon~~ utilizes existing State and local systems and ~~which facilitates the~~
17 ~~interface with the N.C. Student Information Management System."~~

18 **SECTION #.** Section 21.76B(g) of S.L. 2001-424 reads as rewritten:

19 **"SECTION 21.76B.(g)** The Department of Health and Human Services, the
20 Department of Public Instruction, and the Task Force shall report by January 1, 2002,
21 and May 1, 2002, to the Joint Legislative Commission on Governmental Operations, the
22 Joint Legislative Education Oversight Committee, the Senate Appropriations
23 Committee on Health and Human Services, and the House of Representatives
24 Appropriations Subcommittee on Health and Human Services on the progress in
25 complying with this section. A final report along with recommendations for changes or
26 expansion of the program shall be presented to the ~~2003 General Assembly.~~ Senate
27 Appropriations Committee on Health and Human Services, the House of
28 Representatives Appropriations Subcommittee on Health and Human Services, and the
29 Fiscal Research Division no later than December 1, 2002. This final report shall include
30 the following:

- 31 (1) The number of children participating in the program.
32 (2) The number of children participating in the program who have never
33 been served in other early education programs such as child care,
34 public or private preschool, Head Start, Early Head Start, or early
35 intervention programs.
36 (3) The expected expenditures for the fiscal year.
37 (4) The location of program sites and the corresponding number of
38 children participating in the program at each site."

42 **CHILD CARE SUBSIDY RATES**

43 **SECTION #.** Section 21.73(f) of S.L. 2001-424 reads as rewritten:

1 "SECTION 21.73.(f) Provision of payment rates for child care providers in
2 counties that do not have at least ~~75~~50 children in each age group for center-based and
3 home-based care are as follows:

4 (1) Payment rates shall be set at the ~~statewide or~~ regional market rate for
5 licensed child care centers and homes.

6 (2) If it can be demonstrated that the application of the ~~statewide or~~
7 regional market rate to a county with fewer than ~~75~~50 children in each
8 age group is lower than the county market rate and would inhibit the
9 ability of the county to purchase child care for low-income children,
10 then the county market rate may be applied."

26 CAP-MR/DD Program

Reduces the Community Alternatives Program for the Mentally Retarded and Developmentally Disabled (CAP-MR/DD) by revising the existing waivers and continuing the freeze on program participation until growth in program participation moderates.

(\$18,358,593) R

27 CAP-DA Program

Reduces the Community Alternatives Program for Disabled Adults (CAP-DA) by continuing the freeze on program participation, limiting the monthly average cost limit, and limiting the number of In-Home Aide Services.

(\$13,554,011) R

28 Asset Policy Changes

Modifies transfer of asset policy by including real property held under a life estate or tenancy-in-common as a countable asset when determining Medicaid eligibility.

(\$3,028,281) R

29 Pregnant Women Coverage for Minors

Modifies policy for determining eligibility for pregnant women coverage for minors by counting parental income.

(\$244,793) R

Senate Subcommittee on Human Resources

FY 02-03

- 30 Long Term Care Facilities Rx Contract** (\$3,773,069) R
Contracts for the provision of prescription drugs utilized by Medicaid covered residents of nursing facilities, intermediate care facilities for the mentally retarded, and adult care homes.
- 31 Hospital Payments** (\$1,409,819) R
Reduces payments to hospitals by 0.5%. Options for reducing payment include using waivers to reduce hospital costs associated with billing Medicaid and implementing a revised outpatient/emergency payment method to relate payment to services received.
- 32 Prospective Rates for Home Health Services** (\$991,979) R
Establishes prospective rate payment system for Home Health Services and pay for services based on an assessment of the specific needs of the Medicaid recipient. Payment for services will no longer be tied to the number of provider visits.
- 33 Contract for Home Infusion Therapy** (\$81,663) R
Contracts for Home Infusion Therapy services and reduce the number of providers.
- 34 Contract for Home Health Supplies** (\$175,055) R
Contracts for Home Health Supplies and reduce the number of providers.
- 35 Define "Efficient Provider" for Long Term Care** (\$15,175,621) R
Reduces expenditures by basing payment for long term care providers (nursing facilities, intermediate care facilities for the mentally retarded, and adult care home - personal care services) on an "efficient provider" operating profile.
- 36 Carolina ACCESS II/III Cost Savings** (\$9,425,000) R
Reduces expenditures for the Medicaid program to reflect anticipated savings from the expansion of Carolina ACCESS II/III activities including reducing hospital admissions, reducing ER visits, using best prescribing practices, increased generic prescribing, implementing polypharmacy review, reducing therapy visits, and better managing of high risk/high cost patients.
- 37 Reimbursement Rate Reduction** (\$2,280,846) R
Reduces reimbursement rates by 0.5% for all providers except hospitals, physicians, and dentists.
- 38 Contract for Durable Medical Equipment** (\$538,399) R
Contracts for Durable Medical Equipment and reduce the number of providers.
- 39 Medicare Crossover Claims** (\$1,900,000) R
Applies Medicaid medical policy to Medicare Crossover claims.

Senate Subcommittee on Human Resources

FY 02-03

40 Optional Services

Eliminates optional circumcision procedures except in cases of medical necessity.

(\$250,000) R

41 Revised Medicaid Forecast

Provides Increased funding for the Medicaid Program due to the revised forecast for SFY 2003.

\$109,723,210 R

Division of Mental Health, Developmental Disabilities, and Substance Abuse Services

- Adolescent Pregnancy Prevention Coalition of NC - (\$22,500)

Division of Social Services

82 Various Contracts

(\$892,743)

R

Eliminates state appropriations for the following contracts in the Child Support Section:

- Child Support Enforcement Training - \$641,893
- Child Support Enforcement Help Desk - \$229,840
- Ohio State Treasurer - \$ 21,010

Senate Subcommittee on Human Resources

FY 02-03

- | | | |
|--|---------------|---|
| 83 Carry forward for Electing Counties | (\$600,000) | R |
| Eliminates the ability of 13 Electing Counties to carry forward excess state funds at the end of state fiscal year. | | |
| 84 Families for Kids | (\$1,200,000) | R |
| Eliminates funding for 16 local Departments of Social Services. Historically, these funds have been used to assist counties improving their child welfare services and reduce the amount of time children remain in the foster care system. | | |
| 85 State/County Special Assistance | (\$7,200,000) | R |
| Reduces the current rate of \$1,091 to the previous rate of \$1,062. Reduction will result in a cost-savings of an equal amount for local Departments of Social Services. An amount of \$200,000 in remaining funds shall be used for expanded audit requirements. | | |
| 86 DSS State Administration | (\$1,399,093) | R |
| Reduces the operating budget for the Central Office. | | |
| 87 Resident Evaluation Services | (\$1,062,037) | R |
| Eliminates funds for Resident Evaluation Services. The automated instrument required to implement this new initiative is incomplete and funds to implement the program statewide are not available. | | |
| 88 Local DSS Administration | (\$5,500,000) | R |
| Reduces State funds for operating budgets for 100 local Departments of Social Services. | | |
| 89 Child Support Backlog | (\$1,500,000) | R |
| Eliminates expansion item that was not funded during the 01-02 fiscal year. Funding was intended to address Child Support Enforcement backlogs in urban counties. The Division addressing the problem through improving current operating procedures without additional funds. | | |
| 90 Intensive Family Preservation | (\$25,977) | R |
| Reduces funds for a Program involving 53 providers focused on preventing out-of-home placement for high-risk children. Recurring budgeted state funds will be approximately \$1.4 million following this reduction. | | |
| 91 Family Resource Centers | (\$698,866) | R |
| Reduces funds for Family Resource Centers in 49 counties. | | |
| 92 State Adult Care Home Specialist Funds | (\$1,400,000) | R |
| Eliminates funds used to pay for staff at local Departments of Social Services. The state provided this funding to reduce caseloads for adult home specialists at the local level. | | |

Senate Subcommittee on Human Resources

FY 02-03

93 CCPT Grant

Eliminates funds for the Community Child Protection Team Grant (CCPT). Historically, this funding has been distributed on a competitive basis to counties demonstrating innovative approaches to improving their child protection services.

(\$250,000)

R

94 Boys and Girls Clubs

State funds will be used to replace federal funds historically used to fund Boys and Girls Clubs across the state. Due to a reduction in the Temporary Assistance for Needy Families (TANF) Block Grant, this item could not be funded with federal funds for the 02-03 fiscal year.

\$600,000

NR

Division of Vocational Rehabilitation

95 Disability Division's Consolidation

Reduces state appropriations for the Divisions of Services for the Blind and Vocational Rehabilitation by consolidating the Division of Services for the Blind, Division of Services for the Deaf and Hard of Hearing, and Division of Vocational Rehabilitation and creating a new Division to be named by the Department of Health and Human Services. Reductions will result from the consolidation of administration for all three divisions, consolidation of district offices in cities where there are two or more district offices, and streamlining of direct client services provided by all three divisions. No reductions are to come from the Division of Services for the Deaf and Hard of Hearing, and services unique to persons who are deaf or blind shall be maintained.

(\$750,000)

R

96 Universal Design Contract

Eliminates Universal Design contract with NCSU's Center for Universal Design.

(\$99,998)

R

97 Direct VR Client Services

Reduces state appropriations for vocational rehabilitation client services by implementing stricter case policies and "order of selection" policies that allow a waiting list for the least disabled clients.

(\$3,499,678)

R

98 Administrative Operational Costs

Reduces administrative costs by reducing expenditures for supplies, travel, and equipment.

(\$400,000)

R

99 Vacant Positions

Eliminates 25.0 vacant positions including 1.0 Adj. Services Instructor, 1.0 Administrative Assistant I, 1.0 Administrative Officer III, 1.0 Computer Technical Support III, 8.0 Office Assistant II's, 1.0 Office Assistant IV, 1.0 Processing Assistant III, 1.0 Program Assistant V, 1.0 Rehab. Case Assistant, 2.0 Rehab. Case Supervisors, 1.0 Rehab. Education Specialist, 1.0 Stock Clerk II, 1.0 Vocational Evaluator II, and 1.0 Vocational Evaluation Specialist.

Minutes

The Senate Appropriations Subcommittee on Health and Human Services met Tuesday, June 18, 2002 at 8:30 a.m. in Room 643 of the Legislative Office Building. Senator Bill Martin, presiding Chair called the meeting to order with the all the members present:

The Chair recognized Fiscal Staff to give brief overviews about the budget items to be reviewed. A copy of the Proposed Budget and Special Provisions are included with these minutes.

During Committee discussion, the following questions were asked.

Sen. Moore-Explanation of \$52 million funds that will be held for Smart Start child-care subsidies. Are these new funds from last week.

Sen. Kerr- requested the Dept to report back to legislative body regarding the contracting of the three services and also the list of suppliers that they decide on.

Pages G5-G6

Change:

1 Contract that was restored was to the NC Self Advocates Association \$32,000 was restored.

Pages G7-G10

Change:

Contract to UNC-CH was to be reduced by \$150,000 but those funds were restored.

Pages G10-G12

Change:

Direct Aid to county Special Assistance was to be a reduction item of \$7.2mill but now the reduction is \$1.2

Sen. Moore-Where did these additional dollars come from? The numbers have been changed and he wants to know where the funds came from because as a member of this committee he would not be able to introduce an amendment that he did not have the information to back up about where the funds were shifted from.

Sen. Dannelly-Item #85-What is that? Ohio State Treasurer, has that been eliminated?

Pheon Beal -The Ohio state Treasurer contract was a contract for a public awareness program covering six states so that was NC's share of that contract. This is North Carolina's share in the multi-state effort.

G12-G14

No changes

G14-G15

The reduction to More At Four Program is not included in this Budget. A reduction of \$1.1 million of More at Four appropriations - where was that made up in the budget.

Sen. Forrester-Where was that money moved to? There is more work to be done with More at Four.

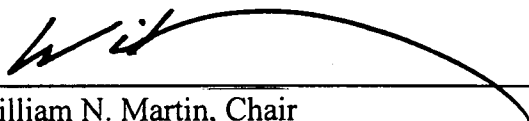

Sen. Martin-It is used for another area of the More at Four Program.

Sen. Forrester-There are five additional positions in this budget, where were they restored? Division of Child Development --- five---

Senator Moore requested staff to provide line item budget worksheets defining the pluses and minuses.

After discussion of the **Special Provisions**, moved that the Committee approve the Budget. The motion carried by unanimous voice vote.

The Chair again thanked everyone for their support and dedicated efforts. The meeting adjourned at 9:49 a.m.

William N. Martin, Chair

Joyce Crews Hodge, Clerk

**Senate Appropriations
Subcommittee on
Health and Human Services**

Proposed Budget

June 18, 2002

Senate Subcommittee on Human Resources

Health and Human Services

GENERAL FUND

FY 02-03

Total Budget Approved 2001 Session

\$3,644,080,118

Budget Changes

Division of Aging

- 1 Funds for Senior Tarheel Legislature** (\$6,000) R
Reduces funds for 3 meetings per year from \$9,000 to \$3,000 each fiscal year.
- 2 Governor's Advisory Council on Aging** (\$4,000) R
Reduces funding by 50%. Funds will now be used to support 2 meetings per year, instead of quarterly meetings. \$4,000 will remain in the budget to cover the expense of 2 meetings.
- 3 Central Office Administration** (\$125,000) R
Reduces administration by 5% for the Division of Aging.
- 4 Contracts** (\$200,000) R
Eliminates contracts with Eastern and Western Alzheimer's Associations. Eliminates contract with Duke University for Alzheimer's training.
- 5 Senior Centers** (\$341,000) R
Eliminates 25% of the state funds for Senior Center Development and Outreach.
- 6 Senior Games** (\$43,750) R
Reduces State Funds for Senior Games by 25%.
- 7 Area Agency on Aging Administration** (\$350,000) R
Reduces state funds for planning and administration funds for 17 AAAs across the state, in lieu of new federal funds received.

Division of Child Development

- 8 NCPC Administration** (\$980,000) R
Reduces the North Carolina Partnership for Children's administrative costs.
- 9 Early Head Start Funds** (\$56,286) R
Eliminates the remaining state funds that support the federal Early Head Start Program.
- 10 Criminal Record Checks** (\$12,000) R
Reduces the budget for reimbursement to the State Bureau of Investigation for the cost of obtaining record checks.

Senate Subcommittee on Human Resources

FY 02-03

- 11 Local Smart Start Partnership Funds** (\$24,760,428) R
 Reduces the amount of funds for activities at the local partnership level.
- 12 Smart Start Automation** (\$44,810) R
 Reduces funds to Division of Information and Resource Management for information technology activities that support Smart Start.
- 13 Smart Start Professional Development Funds** (\$16,000) R
 Reduces professional development funds that are used to help child care employees improve their educational qualifications.
- 14 Smart Start Evaluation** (\$500,000) R
 Eliminates funding for the Smart Start evaluation.
- 15 DCD Administration** (\$369,228) R
 Reduces administrative expenses including positions, operating costs, and equipment. Positions include: 1.0 vacant Administrative Secretary II, 1.0 vacant Office Assistant IV, 1.0 vacant Child Program Specialist, 2.0 filled Processing Assistant III's. -5.00

Division of Facility Services

- 16 Travel** (\$150,000) R
 Reduces travel expenses throughout the Division of Facility Services.
- 17 Operating Expenses** (\$126,000) R
 Reduces operating expenses throughout the Division of Facility Services including computer equipment replacement.
- 18 Legal Services** (\$35,974) R
 Eliminates one paralegal position. -1.00
- 19 Various Contracts** (\$380,731) R
 Eliminates the following contracts:
 Solucient \$54,000
 Sheps Center \$90,731

 Reduce the following contracts:
 Poison Control Center \$136,000
 Miscellaneous Contracts \$100,000
- 20 Vacant Positions** (\$90,000) R
 Eliminates two vacant positions: 1.0 Facility Engineer Specialist and 1.0 Facility Survey Consultant I. -2.00

Senate Subcommittee on Human Resources

FY 02-03

Division of Medical Assistance

- 21 Asset Policy Changes** (\$3,028,281) R
Modifies transfer of asset policy by including real property held under a life estate or tenancy-in-common as a countable asset when determining Medicaid eligibility.
- 22 Define "Efficient Provider" for Long Term Care** (\$15,175,621) R
Reduces expenditures by basing payment for long term care providers (nursing facilities, intermediate care facilities for the mentally retarded, and adult care home - personal care services) on an "efficient provider" operating profile.
- 23 Drug Utilization Management** (\$37,374,352) R
Expands implementation of various drug utilization measures to contain the cost of prescription drugs, including expanding the use of generic drugs.
- 24 Private Duty Nursing Limitations** (\$292,052) R
Reduces expenditures for private duty nursing services for adults over 21 by limiting the number of hours to 16 hours per day and providing for 24 hours per day for up to 21 days post-hospital stay and up to 14 consecutive days if a patient's caregiver experiences a personal medical emergency.
- 25 Personal Care Services Limitations** (\$2,655,057) R
Reduces Personal Care Services by reducing the daily limit for services from 3.5 hours per day to 3 hours per day and reducing the monthly limit for services from 80 hours per month to 60 hours per month.
- 26 CAP-MR/DD Program** (\$18,358,593) R
Reduces the Community Alternatives Program for the Mentally Retarded and Developmentally Disabled (CAP-MR/DD) by revising the existing waivers and continuing the freeze on program participation until growth in program participation moderates.
- 27 CAP-DA Program** (\$13,554,011) R
Reduces the Community Alternatives Program for Disabled Adults (CAP-DA) by continuing the freeze on program participation, limiting the monthly average cost limit, and limiting the number of In-Home Aide Services.
- 28 Asset Policy Changes for PCS Recipients** (\$423,959) R
Modifies transfer of asset policy by applying the policy to persons receiving personal care services while residing in their home.
- 29 Pregnant Women Coverage for Minors** (\$244,793) R
Modifies policy for determining eligibility for pregnant women coverage for minors by counting parental income.

Senate Subcommittee on Human Resources

FY 02-03

- | | |
|---|------------------------|
| <p>30 Dental Services for Adults over 21
 Reduces Dental services for adults over 21 by limiting services to basic preventative and restorative procedures, and emergency dental needs. Eliminates coverage of all denture services.</p> | <p>(\$5,121,872) R</p> |
| <p>31 Long Term Care Facilities Rx Contract
 Contracts for the provision of prescription drugs utilized by Medicaid covered residents of nursing facilities, intermediate care facilities for the mentally retarded, and adult care homes.</p> | <p>(\$3,773,069) R</p> |
| <p>32 Hospital Payments
 Reduces payments to hospitals by 0.5%. Options for reducing payment include using waivers to reduce hospital costs associated with billing Medicaid and implementing a revised outpatient/emergency payment method to relate payment to services received.</p> | <p>(\$1,409,819) R</p> |
| <p>33 Prospective Rates for Home Health Services
 Establishes prospective rate payment system for Home Health Services and pay for services based on an assessment of the specific needs of the Medicaid recipient. Payment for services will no longer be tied to the number of provider visits.</p> | <p>(\$991,979) R</p> |
| <p>34 Contract for Home Infusion Therapy
 Contracts for Home Infusion Therapy services and reduce the number of providers.</p> | <p>(\$81,663) R</p> |
| <p>35 Optical Service Providers
 Reduces rates for optical service providers by 10%.</p> | <p>(\$405,680) R</p> |
| <p>36 Contract for Home Health Supplies
 Contracts for Home Health Supplies and reduce the number of providers.</p> | <p>(\$175,055) R</p> |
| <p>37 Optional Services
 Eliminates optional circumcision procedures except in cases of medical necessity.</p> | <p>(\$250,000) R</p> |
| <p>38 Carolina ACCESS II/III Cost Savings
 Reduces expenditures for the Medicaid program to reflect anticipated savings from the expansion of Carolina ACCESS II/III activities including reducing hospital admissions, reducing ER visits, using best prescribing practices, increased generic prescribing, implementing polypharmacy review, reducing therapy visits, and better managing of high risk/high cost patients.</p> | <p>(\$9,425,000) R</p> |
| <p>39 Reimbursement Rate Reduction
 Reduces reimbursement rates by 0.5% for all providers except hospitals, physicians, and dentists.</p> | <p>(\$2,280,846) R</p> |

Senate Subcommittee on Human Resources

FY 02-03

- 40 Contract for Durable Medical Equipment** (\$538,399) R
Contracts for Durable Medical Equipment and reduce the number of providers.
- 41 Medicare Crossover Claims** (\$1,900,000) R
Applies Medicaid medical policy to Medicare Crossover claims.
- 42 Case Management Services** (\$20,000,000) R
Reduces case management services for adults and children by 33% by streamlining services and eliminating duplicative services.
- 43 Revised Medicaid Forecast** \$109,723,210 R
Provides Increased funding for the Medicaid Program due to the revised forecast for SFY 2003.

Division of Mental Health, Developmental Disabilities, and Substance Abuse Services

- 44 Area Mental Health Programs** (\$29,246,907) R
Reduces State appropriations to area mental health programs for community-based services.
- 45 Child and Family State Facilities** (\$45,451) R
Reduces funding for state-operated child and family facilities by reducing building repairs, travel, staff development, student temporary wages and salary reserve.
- 46 United Cerebral Palsy, Inc. Contract** (\$120,000) R
Reduces the contract with United Cerebral Palsy, Inc. by 10%.
- 47 Various Contracts** (\$1,335,884) R
Eliminates state appropriations for the following contracts:

UNC Student Stipends	\$ 47,000
Housing Works, Inc.	\$ 60,326
National Alliance for the Mentally Ill	\$ 20,000
Exceptional Children's Assistance Center	\$123,408
Association for Persons in Supported Employment	\$39,900

|---|----------------------|
| <p>66 Community Care Coordination
 Reduces state appropriations and replaces the funds with Medicaid receipts for the community care coordinator contracts.</p> | <p>(\$90,000) R</p> |
| <p>67 Prescription Drug Access Project
 Eliminates the appropriations for the Prescription Drug Access Project.</p> | <p>(\$200,000) R</p> |
| <p>68 Prescription Drug Assistance Program
 Eliminates funding for the Prescription Drug Assistance Program for the elderly.</p> | <p>(\$500,000) R</p> |
| <p>69 Contracts and Grants-In-Aid
 Eliminates the following contracts:
 UNC - CH - Cardiovascular Health Program Evaluation Initiative - (\$27,235)
 Poe Center Contract and Grant-in-Aid - (\$201,500)
 Greenway Project - (\$6,425)
 Training and Research - (\$15,000)
 UNC Tech Assistance and Health Promotion Campaign - (\$89,825)
 Reduces the contract with UNC for PHTIN - (\$129,077)</p> | <p>(\$469,062) R</p> |
| <p>70 HIV/STD Care Contracts
 Reduces state appropriations and replaces these funds with the Ryan White Title II grant for contracts with community-based organizations.</p> | <p>(\$38,845) R</p> |
| <p>71 Health Promotion Funding
 Reduces the Health Promotion funding that supports local health promotion activities.</p> | <p>(\$180,000) R</p> |
| <p>72 Immunization Branch Operating Funds
 Reduces state appropriations for travel, telecommunication, property insurance and employee education and replaces these funds with the federal immunization grant funds.</p> | <p>(\$66,659) R</p> |
| <p>73 Farmers' Market Program
 Eliminates the Farmers' Market Program.</p> | <p>(\$157,230) R</p> |
| <p>74 State Center For Health Statistics
 Replaces state appropriations with historically over-realized receipts from the National Center for Health Statistics.</p> | <p>(\$146,190) R</p> |
| <p>75 Women's Health
 Reduces state appropriations and replaces the funds with Medicaid federal financial participation for the Perinatal Outreach and Education Training Program (POET).</p> | <p>(\$281,257) R</p> |
| <p>76 Oral Health
 Reduces state appropriations for the Dental Hygienist positions and replaces these funds with Medicaid receipts.</p> | <p>(\$662,107) R</p> |

Senate Subcommittee on Human Resources

FY 02-03

77 Administrative Activities	(\$400,000)	R
Reduces state appropriations for non-direct service activities within Women's and Children's Health Section and replaces these funds with Medicaid receipts.		
78 Hepatitis B Vaccine School Site Initiative	(\$604,800)	R
Reduces state appropriations for the Hepatitis B vaccine and replaces the funds with federal vaccine funds.		
79 State Laboratory - Newborn Screening	(\$1,000,000)	R
Reduces state appropriations for the newborn screening tests and replaces these funds with proposed \$10 fees to be charged to hospitals and providers for each specimen submitted for testing.		
80 Contracts	(\$519,830)	R
Terminates contracts with LabCorp for CD4 testing, dysplasia clinics for cancer diagnostic and treatment services, and Wake Forest University for follow-up monitoring of Intensive Care Nursing and Neonatal Intensive Care Unit infants.		
81 Dusty Trades Program	(\$165,405)	R
Closes the Dusty Trades Program. Eliminates 3.0 filled Industrial Hygienist Consultant positions and 1.0 filled Processing Assistant IV position.		
	-4.00	
82 Sickle Cell Program	(\$42,096)	R
Reduces state appropriations and replaces the funds with increased federal financial participation through Medicaid for the Sickle Cell community-based organizations.		

Senate Subcommittee on Human Resources

FY 02-03

83 Contracts - Women's and Children's Health Section

(\$1,448,868) R

Reduces contracts for services to support direct care. The following contracts are reduced by the corresponding amounts:

- Prevent Blindness - (\$41,900)
- UNC-CH, Center for Public Health Practice - (\$18,750)
- Duke University Medical School - (\$59,674)
- Carolina Healthcare System II (Pediatric and Prenatal Services) - (\$33,113)
- ECU (Pediatric and Prenatal Services)- (\$38,192)
- Fullerton Genetics Clinic (Pediatric and Prenatal Services) - (\$63,030)
- Wake Forest (Pediatric and Prenatal Services) - (\$55,102)
- UNC-CH (Pediatric and Prenatal Services) - (\$116,518)
- UNC-CH (Alpha-fetal protein screening) - (\$20,000)
- Wake Forest (Alpha-fetal protein screening) - (\$20,000)
- Carolinas HealthCare System (Services for children with hemophilia or other coagulation disorders) - (\$200)
- Duke University (Services for children with hemophilia or other coagulation disorders) - (\$600)
- ECU (Services for children with hemophilia or other coagulation disorders) - (\$600)
- UNC-CH (Services for children with hemophilia or other coagulation disorders) - (\$7,300)
- Wake Forest University (Services for children with hemophilia or other coagulation disorders) - (\$1,300)
- Moses Cone - (\$4,600)
- Duke University Medical Center - (\$33,697)
- Wake Forest University (Assessment, monitoring and treatment of children 0-21 with orthopedic conditions) - (\$11,425)
- Western Carolina University - (\$40,000)
- Assistive Resource Centers (15% reduction for each) - (\$112,346)
- In-hospital identification of children with special health care needs - 10 contracts - (\$69,597)
- Center for Development and Learning UNC-CH - (\$485,646)
- Dept. of Agriculture - (\$600)
- NC Baptist Hospital - (\$4,800)
- Central Carolina - (\$50,000)
- UNC-CH - (\$87,708)
- Young Women's Outreach - (\$18,990)
- Albemarle Smart Start - (\$30,680)
- Adolescent Pregnancy Prevention Coalition of NC - (\$22,500)

Division of Social Services

84 State/County Special Assistance

(\$2,145,157) R

Maintains the current rate of \$1,091 for the 02-03 fiscal year. Maintaining this rate will result in a cost-savings of an equal amount for local Departments of Social Services. An amount of \$200,000 in remaining funds shall be used for expanded audit requirements.

Senate Subcommittee on Human Resources

FY 02-03

- 85 Various Contracts** (\$892,743) R
Eliminates state appropriations for the following contracts in the Child Support Section:
- Child Support Enforcement Training - \$641,893
 - Child Support Enforcement Help Desk - \$229,840
 - Ohio State Treasurer - \$ 21,010
- 86 Carry forward for Electing Counties** (\$600,000) R
Eliminates the ability of 13 Electing Counties to carry forward excess state funds at the end of state fiscal year.
- 87 Families for Kids** (\$1,200,000) R
Eliminates funding for 16 local Departments of Social Services. Historically, these funds have been used to assist counties improving their child welfare services and reduce the amount of time children remain in the foster care system.
- 88 Local DSS Administration** (\$5,500,000) R
Reduces State funds for operating budgets for 100 local Departments of Social Services.
- 89 Family Resource Centers** (\$698,866) R
Reduces funds for Family Resource Centers in 49 counties.
- 90 Intensive Family Preservation** (\$25,977) R
Reduces funds for a Program involving 53 providers focused on preventing out-of-home placement for high-risk children. Recurring budgeted state funds will be approximately \$1.4 million following this reduction.
- 91 CCPT Grant** (\$250,000) R
Eliminates funds for the Community Child Protection Team Grant (CCPT). Historically, this funding has been distributed on a competitive basis to counties demonstrating innovative approaches to improving their child protection services.
- 92 Child Support Backlog** (\$1,500,000) R
Eliminates expansion item that was not funded during the 01-02 fiscal year. Funding was intended to address Child Support Enforcement backlogs in urban counties. The Division addressing the problem through improving current operating procedures without additional funds.
- 93 DSS State Administration** (\$1,399,093) R
Reduces the operating budget for the Central Office.
- 94 Resident Evaluation Services** (\$1,062,037) R
Eliminates funds for Resident Evaluation Services. The automated instrument required to implement this new initiative is incomplete and funds to implement the program statewide are not available.

Senate Subcommittee on Human Resources

FY 02-03

95 State Adult Care Home Specialist Funds

(\$1,400,000) R

Eliminates funds used to pay for staff at local Departments of Social Services. The state provided this funding to reduce caseloads for adult home specialists at the local level.

96 Boys and Girls Clubs

\$600,000 NR

State funds will be used to replace federal funds historically used to fund Boys and Girls Clubs across the state. Due to a reduction in the Temporary Assistance for Needy Families (TANF) Block Grant, this item could not be funded with federal funds for the 02-03 fiscal year.

Division of Vocational Rehabilitation *- Carol*

97 Disability Division's Consolidation

(\$750,000) ^{Scarp}R

Reduces state appropriations for the Divisions of Services for the Blind and Vocational Rehabilitation by consolidating the Division of Services for the Blind, Division of Services for the Deaf and Hard of Hearing, and Division of Vocational Rehabilitation and creating a new Division to be named by the Department of Health and Human Services. Reductions will result from the consolidation of administration for all three divisions, consolidation of district offices in cities where there are two or more district offices, and streamlining of direct client services provided by all three divisions. No reductions are to come from the Division of Services for the Deaf and Hard of Hearing, and services unique to persons who are deaf or blind shall be maintained.

98 Universal Design Contract

(\$99,998) R

Eliminates Universal Design contract with NCSU's Center for Universal Design.

99 Direct VR Client Services

(\$3,499,678) R

Reduces state appropriations for vocational rehabilitation client services by implementing stricter case policies and "order of selection" policies that allow a waiting list for the least disabled clients.

100 Administrative Operational Costs

(\$400,000) R

Reduces administrative costs by reducing expenditures for supplies, travel, and equipment.

101 Vacant Positions

(\$850,000) R

Eliminates 25.0 vacant positions including 1.0 Adj. Services Instructor, 1.0 Administrative Assistant I, 1.0 Administrative Officer III, 1.0 Computer Technical Support III, 8.0 Office Assistant II's, 1.0 Office Assistant IV, 1.0 Processing Assistant III, 1.0 Program Assistant V, 1.0 Rehab. Case Assistant, 2.0 Rehab. Case Supervisors, 1.0 Rehab. Education Specialist, 1.0 Stock Clerk II, 1.0 Vocational Evaluator II, and 1.0 Vocational Evaluation Specialist.

-25.00 *pos. br*

Senate Subcommittee on Human Resources

FY 02-03

Divisions of Services for the Blind and Services for Deaf & Hard of Hearing

- 102 Medical Eye Care Program (200,000) R
Reduces excess funding in the Medical Eye Care Program.
- 103 Medical Eye Care and Independent Living Services (64,000) R
Reduces funding for Medical Eye Care and Independent Living Services by eliminating 1.0 Medical Eye Care Consultant position and reducing funding for medical/scientific equipment and educational supplies. *-1.00 pos. too*
- 104 Operating Expenses (200,000) R
Maintains expenditures for SFY 2003 for operating expenses at the SFY 2002 expenditure level.
- 105 Cost Allocation to Telecommunications Access of NC (21,013) R
Reduces state appropriations to the Division of Services for the Deaf and Hard of Hearing by increasing receipts from Telecommunication Access of NC through cost allocation.
- 106 Special Assistance for the Blind (158,000) R
Reduces excess funding in the Special Assistance for the Blind program.

NC Health Choice

- 107 Co-payments (454,669) R
Reduces premiums for the NC Health Choice program by increasing co-payments for families with income greater than 150% of the federal poverty level and establishing new co-payments for families with income at or below 150% of the federal poverty level.
- Increased rates for families with income greater than 150% of the FPL:
 - Office/Mental Health Visit Increased to \$7 from \$5
 - Rx Filled Was \$6 for all Drugs
Now \$5 for Generic and \$10 for brand name
 - Non-emergency Use of ER Increased to \$30 from \$20
- New co-payments for families with income at or below 150% of the FPL:
 - Office/Mental Health Visit \$2
 - Rx Filled \$1 for Generic and \$3 for brand name
 - Non-emergency Use of ER \$10

Senate Subcommittee on Human Resources

FY 02-03

108 Dispensing Fee Reduction (\$168,964) R
 Reduces premiums for the NC Health Choice program by reducing the dispensing fee paid to pharmacists from \$6.00 per prescription to \$4.00 for brand name drugs and \$5.60 for generic drugs. This is the same dispensing fee as paid by the Medicaid Program.

109 Premium Reduction by Using Medicaid Reimbursement (\$8,578,528) R
 Reduces premiums for the NC Health Choice Program by paying Medicaid reimbursement rates to NC Health Choice providers.

Office of Education Services

110 Maintenance Contract (\$1,127) R
 Reduces a contract for maintenance at the Governor Morehead School.

111 Operating Budget (\$200,143) R
 Reduces operating budgets at the residential schools. This reduction targets equipment and supplies.

112 Capital Improvement Reserves (\$701,665) R
 Eliminates appropriation for capital improvement reserves.

113 Central School Maintenance Funding (\$381,632) R
 Eliminates the Central School for the Deaf's maintenance and operating budget. The positions to be eliminated include: 1.0 Maintenance Mechanic IV, 1.0 Facility Maintenance Supervisor III, and 2.0 Maintenance Mechanic II's. -4.00

41		
42	TOTAL PREVENTIVE HEALTH SERVICES BLOCK GRANT	\$3,893,746
43		

1 SECTION #.(b) Decreases in Federal Fund Availability. – If the United
2 States Congress reduces federal fund availability in the Social Services Block Grant
3 below the amounts appropriated in this section, then the Department of Health and
4 Human Services shall allocate these decreases giving priority first to those direct
5 services mandated by State or federal law, then to those programs providing direct
6 services that have demonstrated effectiveness in meeting the federally and
7 State-mandated services goals established for the Social Services Block Grant. The
8 Department shall not include transfers from TANF for specified purposes in any
9 calculations of reductions to the Social Services Block Grant.

10 If the United States Congress reduces the amount of TANF funds below the
11 amounts appropriated in this section after the effective date of this act, then the
12 Department shall allocate the decrease in funds after considering any underutilization of
13 the budget and the effectiveness of the current level of services. Any TANF Block
14 Grant fund changes shall be reported to the Senate Appropriations Committee on Health
15 and Human Services, the House of Representatives Appropriations Subcommittee on
16 Health and Human Services, and the Fiscal Research Division.

17 Decreases in federal fund availability shall be allocated for the Maternal and
18 Child Health and Preventive Health Services federal block grants by the Department of
19 Health and Human Services after considering the effectiveness of the current level of
20 services.

21 SECTION #.(c) Increases in Federal Fund Availability. – Any block grant
22 funds appropriated by the United States Congress in addition to the funds specified in
23 this act shall be expended by the Department of Health and Human Services, with the
24 approval of the Office of State Budget and Management, provided the resultant
25 increases are in accordance with federal block grant requirements and are within the
26 scope of the block grant plan approved by the General Assembly.

27 SECTION #.(d) Changes to the budgeted allocations to the block grants
28 appropriated in this act and new allocations from the block grants not specified in this
29 act shall be submitted to the Joint Legislative Commission on Governmental Operations
30 for review prior to the change and shall be reported immediately to the Senate
31 Appropriations Committee on Health and Human Services, the House of
32 Representatives Appropriations Subcommittee on Health and Human Services, and the
33 Fiscal Research Division.

34 SECTION #.(e) The Department of Health and Human Services may allow
35 no-cost contract extensions for up to six months for nongovernmental grant recipients
36 under the TANF Block Grant.

37 SECTION #.(f) Limitations on Preventive Health Services Block Grant
38 Funds. – Twenty-five percent (25%) of funds allocated for Rape Prevention and Rape
39 Education shall be allocated as grants to nonprofit organizations to provide rape
40 prevention and education programs targeted for middle, junior high, and high school
41 students.

42 If federal funds are received under the Maternal and Child Health Block
43 Grant for abstinence education, pursuant to section 912 of Public Law 104-193 (42
44 U.S.C. § 710), for the 2002-2003 fiscal year, then those funds shall be transferred to the

1 State Board of Education to be administered by the Department of Public Instruction.
2 The Department of Public Instruction shall use the funds to establish an Abstinence
3 Until Marriage Education Program and shall delegate to one or more persons the
4 responsibility of implementing the program and G.S. 115C-81(e1)(4). The Department
5 of Public Instruction shall carefully and strictly follow federal guidelines in
6 implementing and administering the abstinence education grant funds.

7 The Department of Health and Human Services shall contract for the
8 follow-up testing involved with the Newborn Screening Program. The Department may
9 contract for these services with an entity within or outside of the State; however, the
10 Department may only contract with an out-of-state entity if it can be demonstrated that
11 there is a cost-savings associated with contracting with the out-of-state entity. The
12 contract amount shall not exceed twenty-five thousand dollars (\$25,000). The amount of
13 the contract shall be covered by funds in the Maternal and Child Grant Block Grant.

14 SECTION #.(g) The Department of Health and Human Services shall not
15 use any funds appropriated in this section to develop or implement a Medical Child
16 Care Pilot.

17 SECTION #.(h) Payment for subsidized child care services provided with
18 federal TANF funds shall comply with all regulations and policies issued by the
19 Division of Child Development for the subsidized child care program.

20 SECTION #.(i) The sum of five hundred thousand dollars (\$500,000)
21 appropriated in this section in the TANF Block Grant to the Department of Health and
22 Human Services, Division of Social Services, for the 2002-2003 fiscal year shall be
23 used to support administration of TANF-funded programs.

24 SECTION #.(j) The sum of one million four hundred seventy-five thousand
25 one hundred forty-two dollars (\$1,475,142) appropriated in this section in the TANF
26 Block Grant to the Department of Health and Human Services, Division of Mental
27 Health, Developmental Disabilities, and Substance Abuse Services, for the 2002-2003
28 fiscal year shall be used to provide regional residential substance abuse treatment and
29 services for women with children. The Department of Health and Human Services, the
30 Division of Social Services, and the Division of Mental Health, Developmental
31 Disabilities, and Substance Abuse Services, in consultation with local departments of
32 social services, area mental health programs, and other State and local agencies or
33 organizations, shall coordinate this effort in order to facilitate the expansion of
34 regionally based substance abuse services for women with children. These services
35 shall be culturally appropriate and designed for the unique needs of TANF women with
36 children.

37 In order to expedite the expansion of these services, the Secretary of the
38 Department of Health and Human Services may enter into contracts with service
39 providers.

40 The Department of Health and Human Services, the Division of Social
41 Services, and the Division of Mental Health, Developmental Disabilities, and Substance
42 Abuse Services, shall report on their progress in complying with this subsection no later
43 than October 1, 2002, and March 1, 2003, to the Senate Appropriations Committee on
44 Health and Human Services, the House of Representatives Appropriations

1 Subcommittee on Health and Human Services, and the Fiscal Research Division. These
2 reports shall include all of the following:

- 3 (1) The number and location of additional beds created.
- 4 (2) The types of facilities established.
- 5 (3) The delineation of roles and responsibilities at the State and local
6 levels.
- 7 (4) Demographics of the women served, the number of women served,
8 and the cost per client.
- 9 (5) Demographics of the children served, the number of children served,
10 and the services provided.
- 11 (6) Job placement services provided to women.
- 12 (7) A plan for follow-up and evaluation of services provided with an
13 emphasis on outcomes.
- 14 (8) Barriers identified to the successful implementation of the expansion.
- 15 (9) Identification of other resources needed to appropriately and
16 efficiently provide services to Work First recipients.
- 17 (10) Other information as requested.

18 SECTION #.(k) The sum of seven million six hundred fifty-four thousand
19 eight hundred forty-one dollars (\$7,654,841) appropriated in this section in the TANF
20 Block Grant to the Department of Health and Human Services, Division of Social
21 Services, for the 2002-2003 fiscal year for Child Welfare Improvements shall be
22 allocated to the county departments of social services for hiring or contracting staff to
23 investigate and provide services in Child Protective Services cases; to provide foster
24 care and support services; to recruit, train, license, and support prospective foster and
25 adoptive families; and to provide interstate and post-adoption services for eligible
26 families.

27 SECTION #.(l) The sum of one million five hundred thousand dollars
28 (\$1,500,000) appropriated in this section in the Mental Health Block Grant to the
29 Department of Health and Human Services, Division of Mental Health, Developmental
30 Disabilities, and Substance Abuse Services, for the 2002-2003 fiscal year and the sum
31 of four hundred twenty-two thousand three dollars (\$422,003) appropriated in this
32 section in the Social Services Block Grant to the Department of Health and Human
33 Services, Division of Mental Health, Developmental Disabilities, and Substance Abuse
34 Services, for the 2002-2003 fiscal year shall be used to continue a Comprehensive
35 Treatment Services Program for Children in accordance with Section 21.60 of S.L.
36 2001-424, as amended.

37 SECTION #.(m) The sum of two million dollars (\$2,000,000) appropriated
38 in this section in the TANF Block Grant to the Department of Health and Human
39 Services, Division of Social Services, for fiscal year 2002-2003 shall be used to support
40 various child welfare training projects as follows:

- 41 (1) Provide a regional training center in southeastern North Carolina.
- 42 (2) Support the Masters Degree in Social Work/Baccalaureate Degree in
43 Social Work Collaborative.
- 44 (3) Provide training for residential child care facilities.

1 (4) Provide for various other child welfare training initiatives.

2 **SECTION #.(n)** The sum of three hundred twenty-five thousand dollars
3 (\$325,000) appropriated in this section in the TANF Block Grant to the Department of
4 Health and Human Services for a Business Process Reengineering Project Reserve may
5 only be used for the project if funds appropriated in this act for Business Process
6 Reengineering are not sufficient to continue the project through the 2002-2003 fiscal
7 year. Prior to the use of these funds, the Office of State Budget and Management shall
8 review all proposals for expenditure of these funds in order to ensure compliance with
9 this subsection.

10 **SECTION #.(o)** If funds appropriated through the Child Care and
11 Development Fund Block Grant for any program cannot be obligated or spent in that
12 program within the obligation or liquidation periods allowed by the federal grants, the
13 Department may move funds to child care subsidies, unless otherwise prohibited by
14 federal requirements of the grant, in order to use the federal funds fully.

23 **CONSOLIDATION OF DIVISIONS OF SERVICES FOR THE DEAF AND THE**
24 **HARD OF HEARING, SERVICES FOR THE BLIND, AND VOCATIONAL**
25 **REHABILITATION** *followe mary*

26 SECTION #.(a) There is created within the Department of Health and
27 Human Services a new division. The following three divisions, including all positions
28 and corresponding State appropriations, federal funds, and other funds, shall be
29 consolidated within this new division:

- 30 (1) Division of Services for the Deaf and the Hard of Hearing.
31 (2) Division of Services for the Blind.
32 (3) Division of Vocational Rehabilitation Services.

33 The new division shall retain all the duties, responsibilities, and powers of
34 these three divisions. The name of the new division shall be determined by the
35 Department of Health and Human Services.

36 SECTION #.(b) The Department shall report to the Senate Appropriations
37 Committee on Health and Human Services, the House of Representatives
38 Appropriations Subcommittee on Health and Human Services, and the Fiscal Research
39 Division on activities carried out under this section not later than October 1, 2002. This
40 report shall include the following:

- 41 (1) The name of the new division.
42 (2) An organizational chart showing the organizational structure of the
43 new division.

1 (3) A plan for reducing the budget of the consolidated division by seven
2 hundred fifty thousand dollars (\$750,000).

3 (4) A list of all statutory references that need to be changed as a result of
4 the consolidation.

5 SECTION #.(c) In developing a plan to reduce State appropriations to the
6 new division, the Department shall do the following:

7 (1) Consolidate the administration of the three existing divisions.

8 (2) Consolidate all district offices in cities where there is currently more
9 than one office.

10 (3) Streamline the provision of direct client services provided by the three
11 existing divisions.

12 (4) Maintain services unique to persons who are blind, deaf, or blind and
13 deaf.

14 (5) Develop a plan for using existing resources to expand services for deaf
15 and hard-of-hearing persons to areas of the State where services are
16 currently not provided.

17 (6) Maintain or increase current funding levels for all programs and
18 services currently provided by the Division of Services for the Deaf
19 and Hard of Hearing.

20 SECTION #.(d) Any additional savings beyond the seven hundred fifty
21 thousand dollars (\$750,000) achieved through the consolidation of the three divisions
22 shall be reallocated to direct services with first priority being given to serving the unmet
23 needs of deaf and hard-of-hearing persons.

27 STAFFING REQUIREMENTS IN LONG-TERM CARE FACILITIES

28 SECTION #.(a) The Department of Health and Human Services, Office of
29 Long-Term Care, shall review staffing requirements of Adult Day Care Programs and
30 Adult Day Health Programs.

31 SECTION #.(b) The Department shall report the results of its review to the
32 Senate Appropriations Committee on Health and Human Services, the House of
33 Representatives Appropriations Subcommittee on Health and Human Services, and the
34 Fiscal Research Division not later than December 1, 2002. The report shall include
35 staffing requirements for adult day care and adult day health programs as compared to
36 adult care homes, assisted living facilities, and nursing homes in the State. The report
37 shall also compare staffing ratios in North Carolina to those of other states, including
38 those states that border North Carolina. The report shall be conducted by the
39 Department, Office of Long-Term Care, or by an independent contractor and shall
40 contain all of the following specific information:

41 (1) Number of staff required per resident.

42 (2) Education/work experience required and preferred as a basis for hire.

43 (3) Specific job duties outlined in job descriptions.

- 1 (4) Rationale and justification for establishing the existing staff ratios in
2 the Division of Aging's policy for adult day care and adult day health
3 care.
4 (5) An analysis of the variance in staffing requirements among adult day
5 care and adult day health programs, adult care homes, assisted living
6 facilities, and nursing homes.
7 (6) Identification of the entities responsible for licensing and monitoring
8 quality for all providers of long-term care in the State.
9 (7) Recommendations for changes to existing policies based on findings of
10 the Department's review.
11

14 **REPORT ON SERVICES PROVIDED TO OLDER ADULTS**

15 **SECTION #.** The Department of Health and Human Services, Office of
16 Long-Term Care shall report to the Senate Appropriations Committee on Health and
17 Human Services, the House of Representatives Appropriations Subcommittee on Health
18 and Human Services, and the Fiscal Research Division on services provided to older
19 adults. The report shall provide information as follows:

- 20 (1) Identify all State agencies that provide services to adults age 60 and
21 older throughout the State.
22 (2) All resources available from all sources, including federal, State, and
23 local funds and personnel, for providing services to this population.
24 (3) Plans for reducing administration through the consolidation of
25 functions throughout Divisions of the Department.

26 The Office of Long-Term Care shall consult with experts in long-term care
27 and other relevant information sources to develop a plan to streamline services for older
28 adults at the local level. The Department shall submit its report not later than February
29 1, 2003.
30

33 **RURAL HEALTH LOAN REPAYMENT INCENTIVE PROGRAM** *more*

34 **SECTION #.** The Department of Health and Human Services, Office of
35 Rural Health, shall conduct an assessment of the Rural Health Loan Repayment
36 Incentive Program. The assessment shall consider whether the Program should be
37 continued and shall identify ways to recruit additional providers to rural areas within
38 existing funds. The Department shall report on its activities and progress of the
39 assessment to the Senate Appropriations Committee on Health and Human Services, the
40 House of Representatives Appropriations Subcommittee on Health and Human
41 Services, and the Fiscal Research Division no later than December 1, 2002. The report
42 shall provide detailed information on the number of providers recruited, identification of
43 the counties in which the providers are recruited, and the amount of loan repayment and
44 length of service to a community for each provider.

4 **ACCESS TO PHARMACEUTICAL COMPANY PRESCRIPTION DRUG**
5 **PROGRAMS** *newly*

6 **SECTION #.** Section 21.6(a) of S.L. 2001-424, as amended by S.L. 2001-
7 513, reads as rewritten:

8 "SECTION 21.6.(a) Of the funds appropriated in this act to the Department of
9 Health and Human Services, the sum of two hundred thousand dollars (\$200,000) for
10 the 2001-2002 fiscal year ~~and the sum of two hundred thousand dollars (\$200,000) for~~
11 ~~the 2002-2003 fiscal year~~ shall be used to initiate the development of a system to assist
12 eligible individuals in obtaining prescription drugs at no cost through pharmaceutical
13 company programs. The system will be designed to minimize the efforts of patients and
14 their health care providers in securing needed drugs. The required patient and health
15 care provider data will be maintained and orders tracked in order to initiate timely
16 reorders of needed drugs to assure continuity of medication intake. The Department
17 may contract with a private nonprofit organization to assist in the development of the
18 system as provided under this section."
19

22 **USE OF FUNDS FOR THE CHILD ADVOCACY INSTITUTE** *newly*

23 **SECTION #.** State funds appropriated for the Child Advocacy Institute shall
24 be used only for administration of the Child Advocacy Institute or for research and other
25 services provided by the Institute. These funds shall not be used or replaced by other
26 funds for (i) lobbying or other governmental affairs activities or (ii) direct contributions
27 to other nongovernmental entities.

28 This section shall not be construed to prohibit the Institute from using State
29 funds to contract with other nongovernmental entities for the purchase of goods or
30 services.
31

33 Requested by: Senators Martin of Guilford, Purcell, Hoyle, Plyler, Odom, Lee

34 **CONSOLIDATION OF MAINTENANCE ACTIVITIES**

35 **SECTION #.(a)** The Department of Health and Human Services shall
36 develop a plan to consolidate building maintenance activities at the North Carolina
37 School for the Deaf at Morganton, the Western Carolina Center, and Broughton
38 Hospital. The plan shall assess the needs for maintenance at all three centers, determine
39 the level of staff necessary to carry out all of the current activities with fewer managers,
40 supervisors, and other staff, and develop a new single budget for the maintenance
41 activities.

42 **SECTION #.(b)** The Department of Health and Human Services shall
43 identify other facilities throughout the State that are in close proximity to one another

1 and assess the feasibility of consolidating the building maintenance activities at those
2 facilities.

3 SECTION #.(c) The Department of Health and Human Services shall report
4 on activities carried out under this section to the Senate Appropriations Committee on
5 Health and Human Services, the House of Representatives Appropriations
6 Subcommittee on Health and Human Services, and the Fiscal Research Division no later
7 than December 1, 2002.

11 AREA AUTHORITY/COUNTY PROGRAM PROMPT PAY *New*

12 SECTION #. Part 4 of Article 4 of Chapter 122C of the General Statutes is
13 amended by adding the following new section to read: *Require area programs to pay within*

14 "§ 122C-141.1. Area authority and county program prompt payment of invoices
15 from service providers. *30 day or less Invoice*

16 (a) As used in this section, 'provider' means any qualified public or private
17 provider, agency, institution, or resource that contracts with an area authority or county
18 program for the provision of services pursuant to G.S. 122C-141(a).

19 (b) An area authority or county program shall, within 30 calendar days after
20 receipt of an invoice from a provider for services rendered, send to the provider:

21 (1) Payment of the invoice,

22 (2) Notice of denial of payment of the invoice, or

23 (3) Notice that additional information is necessary for payment of the
24 invoice.

25 An area authority or county program is presumed to have received a written invoice
26 five business days after the invoice has been placed first-class postage prepaid in the
27 United States mail addressed to the area authority or county program or an electronic
28 invoice transmitted to the area authority, the county program, or a designated
29 clearinghouse on the day the invoice is electronically transmitted.

30 (c) If payment of the invoice is denied, the notice of denial shall include all of the
31 specific good-faith reasons for the denial. If payment of the invoice is denied only in
32 part, the area authority or county program shall pay the undisputed portion of the
33 invoice within 30 calendar days after receipt of the invoice and send the notice of denial
34 within 30 calendar days after receipt of the invoice. If notice is given that additional
35 information is necessary for payment of the invoice, the notice shall contain the specific
36 good-faith reasons why the invoice has not been paid and a complete itemization or
37 description of all of the information needed by the area authority or county program to
38 complete the processing of the invoice. Upon receipt of the additional information, the
39 area authority or county program shall continue processing the invoice and shall pay or
40 deny the invoice within 30 calendar days after receiving the additional information.

41 (d) An area authority and county program may not limit the time in which
42 providers may submit invoices to fewer than 180 days after the services were rendered.

43 (e) Payments on invoices that are not made within the time period required by
44 this section shall bear interest at the annual percentage rate of eighteen percent (18%)

1 beginning on the date following the day on which the invoice should have been paid. A
2 payment is considered made on the date upon which a check, draft, or other valid
3 negotiable instrument is placed in the United States Postal Service in a properly
4 addressed, postpaid envelope, or, if not mailed, on the date of the electronic transfer or
5 other delivery of the payment to the provider."
6

7 Requested by: Senators Plyler, Odom, Lee

8 **UNIFORM PROVIDER CREDENTIALING BY HEALTH INSURANCE PLANS**

9 **SECTION #.** G.S. 58-3-230(a) reads as rewritten: *add. to*

10 "(a) An insurer that provides a health benefit plan and that credentials providers
11 for its networks shall maintain a process to assess and verify the qualifications of a
12 licensed health care practitioner, or applicant for licensure as a health care practitioner,
13 within 60 days of receipt of a completed provider credentialing application form
14 approved by the Commissioner. If an application submitted under this section is
15 approved, and the health care practitioner is subsequently contracted to participate in the
16 health benefit plan's network, the date on which the credentialing application was
17 approved by the health benefit plan shall be the effective date of the network
18 participation contract."
19

20 **SUBPART 2. DIVISION OF MEDICAL ASSISTANCE** *no change*

21
22 **Special Provision 2002-DHHS-S1-P [v16], Modified 5/28/02 10:21 AM**

23 Requested by: Senators Martin of Guilford, Purcell, Plyler, Odom, Lee

24 **MEDICAID PROGRAM**

25 **SECTION #.(a)** Section 21.19 of S.L. 2001-424 reads as rewritten:

26 "SECTION 21.19.(a) Funds appropriated in this act for services provided in
27 accordance with Title XIX of the Social Security Act (Medicaid) are for both the
28 categorically needy and the medically needy. Funds appropriated for these services shall
29 be expended in accordance with the following schedule of services and payment bases.
30 All services and payments are subject to the language at the end of this subsection.

31 Services and payment bases:

- 32 (1) Hospital-Inpatient – Payment for hospital inpatient services will be
33 prescribed in the State Plan as established by the Department of Health
34 and Human Services.
- 35 (2) Hospital-Outpatient – Eighty percent (80%) of allowable costs or a
36 prospective reimbursement plan as established by the Department of
37 Health and Human Services.
- 38 (3) Nursing Facilities – Payment for nursing facility services will be
39 prescribed in the State Plan as established by the Department of Health
40 and Human Services. Nursing facilities providing services to Medicaid
41 recipients who also qualify for Medicare must be enrolled in the
42 Medicare program as a condition of participation in the Medicaid
43 program. State facilities are not subject to the requirement to enroll in
44 the Medicare program. Residents of nursing facilities who are eligible

1 for Medicare coverage of nursing facility services must be placed in a
2 Medicare certified bed. Medicaid shall cover facility services only
3 after payments have been made by Medicare.

- 4 (4) Intermediate Care Facilities for the Mentally Retarded – As prescribed
5 in the State Plan as established by the Department of Health and
6 Human Services.
- 7 (5) Drugs – Drug costs as allowed by federal regulations plus a
8 professional services fee per month excluding refills for the same drug
9 or generic equivalent during the same month. Reimbursement shall be
10 available for up to six prescriptions per recipient, per month, including
11 refills. Payments for drugs are subject to the provisions of subsection
12 (h) of this section and to the provisions at the end of subsection (a) of
13 this section, or in accordance with the State Plan adopted by the
14 Department of Health and Human Services consistent with federal
15 reimbursement regulations. Payment of the professional services fee
16 shall be made in accordance with the State Plan adopted by the
17 Department of Health and Human Services, consistent with federal
18 reimbursement regulations. The professional services fee shall be five
19 dollars and sixty cents (\$5.60) per prescription for generic drugs and
20 four dollars (\$4.00) per prescription for brand name drugs.
21 Adjustments to the professional services fee shall be established by the
22 General Assembly.
- 23 (6) Physicians, Chiropractors, Podiatrists, Optometrists, Dentists, Certified
24 Nurse Midwife Services, Nurse Practitioners – Fee schedules as
25 developed by the Department of Health and Human Services.
26 Payments for dental services are subject to the provisions of subsection
27 (g) of this section.
- 28 (7) Community Alternative Program, EPSDT Screens – Payment to be
29 made in accordance with rate schedule developed by the Department
30 of Health and Human Services.
- 31 (8) Home Health and Related Services, Private Duty Nursing, Clinic
32 Services, Prepaid Health Plans, Durable Medical Equipment –
33 Payment to be made according to reimbursement plans developed by
34 the Department of Health and Human Services.
- 35 (9) Medicare Buy-In – Social Security Administration premium.
- 36 (10) Ambulance Services – Uniform fee schedules as developed by the
37 Department of Health and Human Services. Public ambulance
38 providers will be reimbursed at cost.
- 39 (11) Hearing Aids – Actual cost plus a dispensing fee.
- 40 (12) Rural Health Clinic Services – Provider-based, reasonable cost;
41 nonprovider-based, single-cost reimbursement rate per clinic visit.
- 42 (13) Family Planning – Negotiated rate for local health departments. For
43 other providers, see specific services, for instance, hospitals,
44 physicians.

- 1 (14) Independent Laboratory and X-Ray Services – Uniform fee schedules
2 as developed by the Department of Health and Human Services.
- 3 (15) Optical Supplies – One hundred percent (100%) of reasonable
4 wholesale cost of materials.
- 5 (16) Ambulatory Surgical Centers – Payment as prescribed in the
6 reimbursement plan established by the Department of Health and
7 Human Services.
- 8 (17) Medicare Crossover Claims – An amount up to the actual coinsurance
9 or deductible or both, in accordance with the State Plan, as approved
10 by the Department of Health and Human Services.
- 11 (18) Physical Therapy and Speech Therapy – Services limited to EPSDT
12 eligible children. Payments are to be made only to qualified providers
13 at rates negotiated by the Department of Health and Human Services.
14 Physical therapy (including occupational therapy) and speech therapy
15 services are subject to prior approval and utilization review.
- 16 (19) Personal Care Services – Payment in accordance with the State Plan
17 approved by the Department of Health and Human Services.
- 18 (20) Case Management Services – Reimbursement in accordance with the
19 availability of funds to be transferred within the Department of Health
20 and Human Services.
- 21 (21) Hospice – Services may be provided in accordance with the State Plan
22 developed by the Department of Health and Human Services.
- 23 (22) Other Mental Health Services – Unless otherwise covered by this
24 section, coverage is limited to:
- 25 a. Services as defined by the Division of Mental Health,
26 Developmental Disabilities, and Substance Abuse Services and
27 approved by the Centers for Medicare and Medicaid Services
28 (CMS) when provided in agencies meeting the requirements of
29 the rules established by the Commission for Mental Health,
30 Developmental Disabilities, and Substance Abuse Services, and
31 reimbursement is made in accordance with a State Plan
32 developed by the Department of Health and Human Services
33 not to exceed the upper limits established in federal regulations,
34 and
- 35 b. For children eligible for EPSDT services:
- 36 1. Licensed or certified psychologists, licensed clinical
37 social workers, certified clinical nurse specialists in
38 psychiatric mental health advanced practice, and nurse
39 practitioners certified as clinical nurse specialists in
40 psychiatric mental health advanced practice, when
41 Medicaid-eligible children are referred by the Carolina
42 ACCESS primary care physician or the area mental
43 health program, and

- 1
2
3
4
5
6
7
2. Institutional providers of residential services as defined by the Division of Mental Health, Developmental Disabilities, and Substance Abuse Services and approved by the Centers for Medicare and Medicaid Services (CMS) for children and Psychiatric Residential Treatment Facility services that meet federal and State requirements as defined by the Department.

8 Notwithstanding G.S. 150B-121.1(a), the Department of Health and
9 Human Services may adopt temporary rules in accordance with
10 Chapter 150B of the General Statutes further defining the
11 qualifications of providers and referral procedures in order to
12 implement this subdivision. Coverage policy for services defined by
13 the Division of Mental Health, Developmental Disabilities, and
14 Substance Abuse Services under paragraphs a. and b.2 of this
15 subdivision shall be established by the Division of Medical Assistance.

- 16 (23) Medically Necessary Prosthetics or Orthotics for EPSDT Eligible
17 Children – Reimbursement in accordance with the State Plan approved
18 by the Department of Health and Human Services.
- 19 (24) Health Insurance Premiums – Payments to be made in accordance with
20 the State Plan adopted by the Department of Health and Human
21 Services consistent with federal regulations.
- 22 (25) Medical Care/Other Remedial Care – Services not covered elsewhere
23 in this section include related services in schools; health professional
24 services provided outside the clinic setting to meet maternal and infant
25 health goals; and services to meet federal EPSDT mandates. Services
26 addressed by this paragraph are limited to those prescribed in the State
27 Plan as established by the Department of Health and Human Services.
- 28 (26) Pregnancy Related Services – Covered services for pregnant women
29 shall include nutritional counseling, psychosocial counseling, and
30 predelivery and postpartum home visits by maternity care coordinators
31 and public health nurses.

32 Services and payment bases may be changed with the approval of the Director of the
33 Budget. Payment is limited to Medicaid enrolled providers that provide evidence of
34 medical malpractice insurance coverage or that purchase a performance bond in the
35 amount of fifty thousand dollars (\$50,000) naming as beneficiary the Department of
36 Health and Human Services, Division of Medical Assistance.

37 Reimbursement is available for up to 24 visits per recipient per year to any one or
38 combination of the following: physicians, clinics, hospital outpatient, optometrists,
39 chiropractors, and podiatrists. Prenatal services, all EPSDT children, emergency rooms,
40 and mental health services subject to independent utilization review are exempt from the
41 visit limitations contained in this paragraph. Exceptions may be authorized by the
42 Department of Health and Human Services where the life of the patient would be
43 threatened without such additional care. Any person who is determined by the

1 Department to be exempt from the 24-visit limitation may also be exempt from the
2 six-prescription limitation.

3 SECTION 21.19.(b) Allocation of Nonfederal Cost of Medicaid. – The State shall
4 pay eighty-five percent (85%); the county shall pay fifteen percent (15%) of the
5 nonfederal costs of all applicable services listed in this section.

6 SECTION 21.19.(c) Copayment for Medicaid Services. – The Department of
7 Health and Human Services may establish copayment up to the maximum permitted by
8 federal law and regulation.

9 SECTION 21.19.(d) Medicaid and Work First Family Assistance, Income
10 Eligibility Standards. – The maximum net family annual income eligibility standards for
11 Medicaid and Work First Family Assistance and the Standard of Need for Work First
12 Family Assistance shall be as follows:

Family Size	<u>Categorically Needy</u>	<u>Medically Needy</u>	
	<u>WFFA*</u>	Families and Children Income Level	AA, AB, AD*
1	\$4,344	\$2,172	\$2,900
2	5,664	2,832	3,800
3	6,528	3,264	4,400
4	7,128	3,564	4,800
5	7,776	3,888	5,200
6	8,376	4,188	5,600
7	8,952	4,476	6,000
8	9,256	4,680	6,300

27 *Work First Family Assistance (WFFA); Aid to the Aged (AA); Aid to the Blind (AB);
28 and Aid to the Disabled (AD).

30 The payment level for Work First Family Assistance shall be fifty percent (50%) of the
31 standard of need.

32 These standards may be changed with the approval of the Director of the Budget
33 with the advice of the Advisory Budget Commission.

34 SECTION 21.19.(e) The Department of Health and Human Services, Division of
35 Medical Assistance, shall provide Medicaid coverage to all elderly, blind, and disabled
36 people who have incomes equal to or less than one hundred percent (100%) of the
37 federal poverty guidelines, as revised each April 1.

38 SECTION 21.19.(f) ICF and ICF/MR Work Incentive Allowances. – The
39 Department of Health and Human Services may provide an incentive allowance to
40 Medicaid-eligible recipients of ICF and ICF/MR facilities who are regularly engaged in
41 work activities as part of their developmental plan and for whom retention of additional
42 income contributes to their achievement of independence. The State funds required to
43 match the federal funds that are required by these allowances shall be provided from

1 savings within the Medicaid budget or from other unbudgeted funds available to the
2 Department. The incentive allowances may be as follows:

<u>Monthly Net Wages</u>	<u>Monthly Incentive Allowance</u>
\$1.00 to \$100.99	Up to \$50.00
\$101.00 to \$200.99	\$80.00
\$201.00 to \$300.99	\$130.00
\$301.00 and greater	\$212.00.

9 SECTION 21.19.(g) Dental Coverage Limits. – Dental services shall be provided
10 on a restricted basis in accordance with rules adopted by the Department to implement
11 this subsection.

12 SECTION 21.19.(h) Dispensing of Generic Drugs. – Notwithstanding G.S.
13 90-85.27 through G.S. 90-85.31, or any other law to the contrary, under the Medical
14 Assistance Program (Title XIX of the Social Security Act), and except as otherwise
15 provided in this subsection for atypical antipsychotic drugs and drugs listed in the
16 narrow therapeutic index, a prescription order for a drug designated by a trade or brand
17 name shall be considered to be an order for the drug by its established or generic name,
18 except when the prescriber has determined, at the time the drug is prescribed, that the
19 brand name drug is medically necessary and has written on the prescription order the
20 phrase "medically necessary". An initial prescription order for an atypical antipsychotic
21 drug or a drug listed in the narrow therapeutic drug index that does not contain the
22 phrase "medically necessary" shall be considered an order for the drug by its established
23 or generic name, except that a pharmacy shall not substitute a generic or established
24 name prescription drug for subsequent brand or trade name prescription orders of the
25 same prescription drug without explicit oral or written approval of the prescriber given
26 at the time the order is filled. Generic drugs shall be dispensed at a lower cost to the
27 Medical Assistance Program rather than trade or brand name drugs. As used in this
28 subsection, "brand name" means the proprietary name the manufacturer places upon a
29 drug product or on its container, label, or wrapping at the time of packaging; and
30 "established name" has the same meaning as in section 502(e)(3) of the Federal Food,
31 Drug, and Cosmetic Act as amended, 21 U.S.C. § 352(e)(3).

32 SECTION 21.19.(i) Exceptions to Service Limitations, Eligibility Requirements,
33 and Payments. – Service limitations, eligibility requirements, and payments bases in this
34 section may be waived by the Department of Health and Human Services, with the
35 approval of the Director of the Budget, to allow the Department to carry out pilot
36 programs for prepaid health plans, contracting for services, managed care plans, or
37 community-based services programs in accordance with plans approved by the United
38 States Department of Health and Human Services, or when the Department determines
39 that such a waiver will result in a reduction in the total Medicaid costs for the recipient.
40 The Department of Health and Human Services may proceed with planning and
41 development work on the Program of All-Inclusive Care for the Elderly.

42 SECTION 21.19.(j) Volume Purchase Plans and Single Source Procurement. – The
43 Department of Health and Human Services, Division of Medical Assistance, may,
44 subject to the approval of a change in the State Medicaid Plan, contract for services,

1 medical equipment, supplies, and appliances by implementation of volume purchase
2 plans, single source procurement, or other contracting processes in order to improve
3 cost containment.

4 SECTION 21.19.(k) Cost-Containment Programs. – The Department of Health and
5 Human Services, Division of Medical Assistance, may undertake cost containment
6 programs in accordance with Section 3 of S.L. 2001-395, including contracting for
7 services, preadmissions to hospitals and prior approval for certain outpatient surgeries
8 before they may be performed in an inpatient setting.

9 SECTION 21.19.(l) For all Medicaid eligibility classifications for which the federal
10 poverty level is used as an income limit for eligibility determination, the income limits
11 will be updated each April 1 immediately following publication of federal poverty
12 guidelines.

13 SECTION 21.19.(m) The Department of Health and Human Services shall provide
14 Medicaid to 19-, 20-, and 21-year-olds in accordance with federal rules and regulations.

15 SECTION 21.19.(n) The Department of Health and Human Services shall provide
16 coverage to pregnant women and to children according to the following schedule:

- 17 (1) Pregnant women with incomes equal to or less than one hundred
18 eighty-five percent (85%) of the federal poverty guidelines as revised
19 each April 1 shall be covered for Medicaid benefits. In determining
20 income eligibility under this subdivision, the income of a minor's
21 parents shall be counted.
- 22 (2) Infants under the age of 1 with family incomes equal to or less than
23 one hundred eighty-five percent (85%) of the federal poverty
24 guidelines as revised each April 1 shall be covered for Medicaid
25 benefits.
- 26 (3) Children aged 1 through 5 with family incomes equal to or less than
27 one hundred thirty-three percent (33%) of the federal poverty
28 guidelines as revised each April 1 shall be covered for Medicaid
29 benefits.
- 30 (4) Children aged 6 through 18 with family incomes equal to or less than
31 the federal poverty guidelines as revised each April 1 shall be covered
32 for Medicaid benefits.
- 33 (5) The Department of Health and Human Services shall provide Medicaid
34 coverage for adoptive children with special or rehabilitative needs
35 regardless of the adoptive family's income.

36 Services to pregnant women eligible under this subsection continue throughout the
37 pregnancy but include only those related to pregnancy and to those other conditions
38 determined by the Department as conditions that may complicate pregnancy. In order to
39 reduce county administrative costs and to expedite the provision of medical services to
40 pregnant women, to infants, and to children described in subdivisions (3) and (4) of this
41 subsection, no resources test shall be applied.

42 SECTION 21.19.(o) Medicaid enrollment of categorically needy families with
43 children shall be continuous for one year without regard to changes in income or assets.

1 SECTION 21.19.(p) The Department shall disregard earned income for recipients
2 who would otherwise lose Medicaid eligibility under section 1931 of Title XIX of the
3 Social Security Act due to earnings. This disregard shall be applied for a maximum of
4 12 consecutive months.

5 SECTION 21.19.(q) The Department of Health and Human Services shall submit a
6 quarterly status report on expenditures for acute care and long-term care services to the
7 Fiscal Research Division and to the Office of State Budget and Management. This
8 report shall include an analysis of budgeted versus actual expenditures for eligibles by
9 category and for long-term care beds. In addition, the Department shall revise the
10 program's projected spending for the current fiscal year and the estimated spending for
11 the subsequent fiscal year on a quarterly basis. The quarterly expenditure report and the
12 revised forecast shall be forwarded to the Fiscal Research Division and to the Office of
13 State Budget and Management no later than the third Thursday of the month following
14 the end of each quarter.

15 SECTION 21.19.(r) The Division of Medical Assistance, Department of Health
16 and Human Services, may provide incentives to counties that successfully recover
17 fraudulently spent Medicaid funds by sharing State savings with counties responsible
18 for the recovery of the fraudulently spent funds.

19 SECTION 21.19.(s) If first approved by the Office of State Budget and
20 Management, the Division of Medical Assistance, Department of Health and Human
21 Services, may use funds that are identified to support the cost of development and
22 acquisition of equipment and software through contractual means to improve and
23 enhance information systems that provide management information and claims
24 processing. The Department of Health and Human Services shall identify adequate
25 funds to support the implementation and first year's operational costs that exceed the
26 currently allocated funds for the new contract for the fiscal agent for the Medicaid
27 Management Information System.

28 SECTION 21.19.(t) The Department of Health and Human Services may adopt
29 temporary rules according to the procedures established in G.S. 150B-21.1 when it finds
30 that these rules are necessary to maximize receipt of federal funds within existing State
31 appropriations, to reduce Medicaid expenditures, and to reduce fraud and abuse. Prior to
32 the filing of these temporary rules with the Office of Administrative Hearings, the
33 Department shall consult with the Office of State Budget and Management on the
34 possible fiscal impact of the temporary rule and its effect on State appropriations and
35 local governments.

36 SECTION 21.19.(u) The Department shall report to the Fiscal Research Division
37 of the Legislative Services Office and to the House of Representatives Appropriations
38 Subcommittee on Health and Human Services and the Senate Appropriations
39 Committee on Health and Human Services or the Joint Legislative Health Care
40 Oversight Committee on any change it anticipates making in the Medicaid program that
41 impacts the type or level of service, reimbursement methods, or waivers, any of which
42 require a change in the State Plan or other approval by the Centers for Medicare and
43 Medicaid Services (CMS). The reports shall be provided at the same time they are
44 submitted to CMS for approval.

1 SECTION 21.19.(v) Upon approval of a demonstration waiver by the Centers for
2 Medicare and Medicaid Services (CMS), the Department of Health and Human Services
3 may provide Medicaid coverage for family planning services to men and women of
4 child-bearing age with family incomes equal to or less than one hundred eighty-five
5 percent (185%) of the federal poverty level. Coverage shall be contingent upon federal
6 approval of the waiver and shall begin no earlier than January 1, 2001.

7 SECTION 21.19.(w) The Department of Health and Human Services, Division of
8 Medical Assistance, shall use the latest audited cost reporting data available when
9 establishing Medicaid provider rates or when making changes to the reimbursement
10 methodology.

11 SECTION 21.19.(x) The Department of Health and Human Services, Division of
12 Medical Assistance, shall implement a new coding system for therapeutic mental health
13 services as required by the Health Insurance Portability and Accountability Act of 1996.
14 In implementing the new coding system, the Division shall ensure that the new coding
15 system does not discriminate between providers of therapeutic mental health services
16 with similar qualifications and training. In meeting the requirements of this subsection,
17 the Division shall consult with the Division of Mental Health, Developmental
18 Disabilities, and Substance Abuse Services and the professional licensing boards
19 responsible for licensing the affected professionals.

20 SECTION 21.19.(y) The Department of Health and Human Services may apply
21 federal transfer of assets policies, as described in Title XIX, Section 1917(c) of the
22 Social Security Act to real property excluded as ~~"income-producing"~~ "income
23 producing", tenancy-in-common, or as nonhomesite property made "income producing"
24 under Title XIX, Section 1902(r)(2) of the Social Security Act. The transfer of assets
25 policy shall apply only to an institutionalized individual or the individual's spouse as
26 defined in Title XIX, Section 1917(c) of the Social Security Act. This subsection
27 becomes effective no earlier than October 1, 2001. Federal transfer of asset policies to
28 properties excluded as tenancy-in-common or as nonhomesite property made "income
29 producing" in accordance with this subsection shall become effective no earlier than
30 October 1, 2002."

31 SECTION #.(b) Effective October 1, 2002, G.S. 108A-70.5(b) reads as
32 rewritten:

33 "(b) As used in this section:

34 (1) "Medical assistance" means medical care services paid for by the
35 North Carolina Medicaid Program on behalf of the recipient:

- 36 a. If the recipient is receiving these medical care services as an
37 inpatient in a nursing facility, intermediate care facility for the
38 mentally retarded, or other medical institution, and cannot
39 reasonably be expected to be discharged to return home; or
40 b. If the recipient is 55 years of age or older and is receiving these
41 medical care services, including related hospital care and
42 prescription drugs, for nursing facility ~~services~~ services,
43 personal care services, or home- and community-based services.

- 1 (2) "Estate" means all the real and personal property considered assets of
 2 the estate available for the discharge of debt pursuant to G.S.
 3 28A-15-1."
 4

5 **Special Provision 2002-DHHS-S2-P** [v10], Modified 5/23/02 2:20 PM

6 Requested by: Senators Martin of Guilford, Purcell, Plyler, Odom, Lee

7 **CAROLINA ACCESS PROGRAM IMPROVEMENTS**

8 **SECTION #.(a)** In its effort to achieve anticipated savings in the Medicaid
 9 Program of nine million four hundred twenty-five thousand dollars (\$9,425,000) for the
 10 2002-2003 fiscal year through expansion of the Carolina ACCESS II and Carolina
 11 ACCESS III programs, the Department of Health and Human Services shall monitor
 12 cost-savings activities of these programs. Carolina ACCESS II and Carolina ACCESS
 13 III programs shall provide the Department detailed information on savings realized from
 14 the following cost-savings activities:

- 15 (1) Reductions in hospital admissions;
 16 (2) Reductions in emergency room visits;
 17 (3) Use of best-prescribing practices;
 18 (4) Increased prescriptions of generic drugs;
 19 (5) Implementation of polypharmacy review;
 20 (6) Reductions in therapy visits;
 21 (7) Improved management of high risk/high cost patients; and
 22 (8) Other strategies implemented by the programs to achieve anticipated
 23 savings.

24 **SECTION #.(b)** The Department of Health and Human Services shall
 25 implement a process for the assessment and review of cost-effectiveness of the Carolina
 26 ACCESS II and Carolina ACCESS III programs. The Division of Medical Assistance
 27 shall confirm actual savings realized from the use of case management strategies of the
 28 Carolina ACCESS II and Carolina ACCESS III demonstration sites. The Department
 29 shall report quarterly the cost-effectiveness of these programs based on actual savings
 30 achieved. The Department shall submit the report to the Senate Appropriations
 31 Committee on Health and Human Services, the House of Representatives
 32 Appropriations Subcommittee on Health and Human Services, the Office of State
 33 Budget and Management, and the Fiscal Research Division.
 34

35 **Special Provision 2002-DHHS-S40-P** [v7], Modified 5/28/02 2:26 PM

36 Requested by: Senators Martin of Guilford, Purcell, Plyler, Odom, Lee

37 **REPEAL CIRCUMCISION FUNDS**

38 **SECTION #.** Section 19 of S.L. 2001-513 reads as rewritten: *Follows money*

39 "SECTION 19. Notwithstanding any other provision of law to the contrary, from
 40 funds available in the General Fund, there is appropriated to the Department of Health
 41 and Human Services, Division of Medical Assistance, the sum of two hundred forty-six
 42 thousand, seven hundred sixty-two dollars (\$246,762) for the 2001-2002 fiscal year and
 43 ~~the sum of four hundred thousand dollars (\$400,000) for the 2002-2003 fiscal year.~~

1 These funds shall be used to provide optional circumcision procedures for newborns
2 eligible for Medicaid."

4 **Special Provision 2002-DHHS-S41-P** [v13], Modified 5/28/02 9:26 AM

5 Requested by: Senators Martin of Guilford, Purcell, Plyler, Odom, Lee

6 **MEDICAID CASE MANAGEMENT SERVICES** *Follows rule*

7 **SECTION #.(a)** The Department of Health and Human Services shall
8 reduce Medicaid Program expenditures for case management services for adults and
9 children by thirty-three percent (33%) for the 2002-2003 State fiscal year. In
10 determining how to allocate this reduction, the Department shall include all State
11 programs currently providing case management services reimbursed by the Medicaid
12 Program, and shall consider the following issues:

- 13 (1) Elimination of all duplicative case management services.
- 14 (2) Consolidation of similar case management services.
- 15 (3) Provision of only one case manager per family reimbursed through the
16 Medicaid Program, when feasible.
- 17 (4) Equitable allocation of reductions in case management services
18 reimbursed by Medicaid among the different programs that provide
19 case management services.
- 20 (5) Identification of the children and adults with the greatest case
21 management needs to determine how to allocate reductions and
22 remaining resources.
- 23 (6) Reductions in administrative costs associated with providing case
24 management services reimbursed by Medicaid.

25 **SECTION #.(b)** Not later than October 1, 2002, the Department shall report
26 on its plan for the reductions required in this section. The Department shall submit the
27 report to the Senate Appropriations Committee on Health and Human Services, the
28 House of Representatives Appropriations Subcommittee on Health and Human
29 Services, and the Fiscal Research Division.
30

31 **Special Provision 2002-DHHS-S43-P** [v6], Modified 5/24/02 4:40 PM

32 Requested by: Senators Martin of Guilford, Purcell, Plyler, Odom, Lee

33 **FEDERAL WAIVERS TO ASSIST IN MEDICAID COST CONTAINMENT**

34 **SECTION #.(a)** The Department of Health and Human Services shall
35 develop a plan for using federal waivers to assist in long-term cost containment for the
36 State's Medicaid program. In developing the plan, the Department shall determine
37 whether single or multiple federal waivers will help the State achieve its goal of
38 long-term cost containment for the State's Medicaid program, and shall also determine
39 which type of waiver is likely to be most helpful. The Department shall consider all of
40 the following for development of the plan:

- 41 (1) Which optional categories of persons eligible for Medicaid will be
42 covered by the waiver.
- 43 (2) What optional Medicaid services will be included in the service
44 package covered by the waiver.

- 1 (3) What types of cost-sharing will be required under the waiver.
 2 (4) Will the waiver use Carolina ACCESS, other types of managed care,
 3 or will a fee-for-service system for providing health care services be
 4 used.
 5 (5) Will private insurance coverage options be incorporated into the
 6 waiver.
 7 (6) Should the NC Health Choice Program be included in the waiver.

8 **SECTION #.(b)** On or before February 1, 2003, the Department shall report
 9 on its plan for seeking federal waivers to achieve long-term cost containment in the
 10 State's Medicaid program. The report shall be made to the Senate Appropriations
 11 Committee on Health and Human Services, the House of Representatives
 12 Appropriations Subcommittee on Health and Human Services, and the Fiscal Research
 13 Division, and shall include the following:

- 14 (1) Copy of the application for the waiver.
 15 (2) Description of how the waiver will help achieve long-term cost
 16 containment in the State's Medicaid program.
 17 (3) Description of legislation necessary to implement the proposed waiver.
 18

19 **Special Provision 2002-DHHS-S46-P** [v6], Modified 5/24/02 4:39 PM

20 Requested by: Senators Martin of Guilford, Purcell, Plyler, Odom, Lee

21 **COMMUNITY ALTERNATIVES PROGRAMS** *serve as many people as possible*

22 **SECTION #.(a)** The Department of Health and Human Services shall
 23 administer all Community Alternative Program (CAP) waivers in the most economical
 24 and efficient manner possible to support within funds appropriated the maximum
 25 number of persons meeting participation requirements under the waiver. The
 26 Department shall amend the waivers, as necessary, to ensure that participation
 27 requirements and payment and service limits are in accordance with those reported to
 28 the General Assembly. Not later than October 1, 2002, the Department shall submit a
 29 report that outlines efficient use of funds appropriated and that demonstrates the
 30 participation requirements, payment and service limits, and other administrative actions
 31 to support the maximum number of persons to be served in the applicable State fiscal
 32 year. The report shall be submitted to the Senate Appropriations Committee on Health
 33 and Human Services, the House of Representatives Appropriations Subcommittee on
 34 Health and Human Services, and the Fiscal Research Division.

35 **SECTION #.(b)** CAP-DA services shall be provided for the 2002-2003
 36 fiscal year to any eligible person who entered a nursing facility on or before June 1,
 37 2002, notwithstanding that the availability of CAP-DA services may be suspended for
 38 that fiscal year.
 39

40 **Special Provision 2002-DHHS-S56-P** [v3], Modified 5/23/02 9:23 AM

41 Requested by: Senators Martin of Guilford, Purcell, Plyler, Odom, Lee

42 **DISPOSITION OF DISPROPORTIONATE SHARE RECEIPT CHANGE**

1 **SECTION #.(a)** Disproportionate share receipts reserved at the end of the
2 2002-2003 fiscal year shall be deposited with the Department of State Treasurer as
3 nontax revenue for the 2002-2003 fiscal year.

4 **SECTION #.(b)** For the 2002-2003 fiscal year, as it receives funds
5 associated with Disproportionate Share Payments from State hospitals, the Department
6 of Health and Human Services, Division of Medical Assistance, shall deposit up to one
7 hundred seven million dollars (\$107,000,000) of these Disproportionate Share Payments
8 to the Department of State Treasurer for deposit as nontax revenue. Any
9 Disproportionate Share Payments collected in excess of the one hundred seven million
10 dollars (\$107,000,000) shall be reserved by the State Treasurer for future
11 appropriations.

12
13 **Special Provision 2002-DHHS-S61-P** [v7], Modified 6/8/02 3:07 PM

14 Requested by: Senators Martin of Guilford, Purcell, Plyler, Odom, Lee

15 **MEDICAID HOSPITAL PAYMENTS** *Follows next*

16 **SECTION #.** The Department of Health and Human Services shall reduce
17 Medicaid payments to hospitals by one-half of one percent (.5%) for the 2002-2003
18 State fiscal year. The Department shall evaluate all medical payment programs and
19 policies administered by the Department that may affect the future viability and
20 sustainability of financially vulnerable hospitals. Based on the evaluation of the
21 medical payments programs and policies affecting hospitals, the Department shall
22 implement the one half of one percent (.5%) reduction for the 2002-2003 State fiscal
23 year such that the reduction has the least impact on the future viability and sustainability
24 of financially vulnerable hospitals. The Department shall also review the status of
25 financially vulnerable hospitals to determine whether additional State actions are
26 appropriate to ensure that communities served by these hospitals continue to receive
27 essential medical services. The Department shall consult with the North Carolina
28 Hospital Association while conducting the evaluation of medical payment programs and
29 policies and determining how to implement the one-half of one percent (.5%) reduction.
30 The Department shall report to the Senate Appropriations Committee on Health and
31 Human Services, the House of Representatives Appropriations Subcommittee on Health
32 and Human Services, and the Fiscal Research Division on its activities under this
33 section not later than October 1, 2002.

34
35 **Special Provision 2002-DHHS-S64-P** [v3], Modified 5/27/02 8:05 PM

36 Requested by: Senators Martin of Guilford, Purcell, Plyler, Odom, Lee

37 **MEDICAID PROGRAM MANAGEMENT** *attached for file making*

38 **SECTION #.** Section 21.26(b) of S.L. 2001-424 reads as rewritten:

39 **"SECTION 21.26.(b)** The Department shall implement a pharmacy management
40 plan considering the recommendations of the "North Carolina Medicaid Benefit Study"
41 to achieve anticipated cost savings. The pharmacy management plan may include the
42 following activities:

- 43 (1) Establishing a prior authorization program to manage utilization of
44 high-cost, brand name drugs. In determining drugs to be included in

1 the prior authorization program, the Department shall consider whether
2 inclusion of these drugs is likely to:

- 3 a. Increase utilization of more expensive services;
4 b. Reduce quality of treatment;
5 c. Result in a lower level of compliance with appropriate drug
6 therapy; and
7 d. Have a differential impact upon racial and ethnic minorities and
8 the elderly.

9 The Department shall conduct a review at least annually of the drugs
10 included in the prior authorization program to determine whether any
11 of the factors listed in this subdivision or other factors with similar
12 results have occurred.

- 13 (2) Limiting prescription drugs to a 34-day supply for some or all drugs.
14 (3) Developing physician prescribing practice profiles and other
15 educational tools to enable physicians to better manage their
16 prescriptions.
17 (4) Establishing therapeutic limits based on appropriate dosage or usage
18 standards.
19 (5) Encouraging use of generic drugs.
20 (6) Using maximum allowable pricing.
21 (7) Contracting with a pharmacy benefits manager to implement more
22 extensive drug utilization review.
23 (8) Studying the impact of eliminating the six prescription drug monthly
24 limit combined with a more rigorous prior authorization program to
25 ensure cost decisions are made based on evidence-based clinical
26 guidelines.
27 (9) Expanding disease management initiatives.
28 (10) Working with ACCESS physicians to develop and implement drug
29 utilization management initiatives.
30 (11) If cost-effective, expanding Medicaid drug coverage to include
31 selected over-the-counter medications.

32 The Department may adopt temporary rules in accordance with G.S. 150B-21.1
33 when it finds these rules are necessary to clarify recipient appeal rights related to the
34 pharmacy management plan."

35
36 Special Provision 2002-DHHS-S45-P [v11], Modified 6/8/02 6:17 PM

37 Requested by: Senators Martin of Guilford, Purcell, Plyler, Odom, Lee
38 NC HEALTH CHOICE

39 SECTION #. G.S. 108A-70.21 reads as rewritten:

40 "§ 108A-70.21. Program eligibility; benefits; enrollment fee and other
41 cost-sharing; coverage from private plans; purchase of extended
42 coverage.

1 (a) Eligibility. – The Department may enroll eligible children based on
2 availability of funds. Following are eligibility and other requirements for participation
3 in the Program:

4 (1) Children must:

- 5 a. Be under the age of 19;
6 b. Be ineligible for Medicaid, Medicare, or other federal
7 government-sponsored health insurance;
8 c. Be uninsured;
9 d. Be in a family that meets the following family income
10 requirements:
11 1. Infants under the age of one year whose family income is
12 from one hundred eighty-five percent (185%) through
13 two hundred percent (200%) of the federal poverty level;
14 2. Children age one year through five years whose family
15 income is above one hundred thirty-three percent (133%)
16 through two hundred percent (200%) of the federal
17 poverty level; and
18 3. Children age six years through eighteen years whose
19 family income is above one hundred percent (100%)
20 through two hundred percent (200%) of the federal
21 poverty level;
22 e. Be a resident of this State and eligible under federal law; and
23 f. Have paid the Program enrollment fee required under this Part.

24 (2) Proof of family income and residency and declaration of uninsured
25 status shall be provided by the applicant at the time of application for
26 Program coverage. The family member who is legally responsible for
27 the children enrolled in the Program has a duty to report any change in
28 the enrollee's status within 60 days of the change of status.

29 (3) If a responsible parent is under a court order to provide or maintain
30 health insurance for a child and has failed to comply with the court
31 order, then the child is deemed uninsured for purposes of determining
32 eligibility for Program benefits if at the time of application the
33 custodial parent shows proof of agreement to notify and cooperate
34 with the child support enforcement agency in enforcing the order.

35 If health insurance other than under the Program is provided to the
36 child after enrollment and prior to the expiration of the eligibility
37 period for which the child is enrolled in the Program, then the child is
38 deemed to be insured and ineligible for continued coverage under the
39 Program. The custodial parent has a duty to notify the Department
40 within 10 days of receipt of the other health insurance, and the
41 Department, upon receipt of notice, shall disenroll the child from the
42 Program. As used in this paragraph, the term "responsible parent"
43 means a person who is under a court order to pay child support.

1 (4) Except as otherwise provided in this section, enrollment shall be
2 continuous for one year. At the end of each year, applicants may
3 reapply for Program benefits.

4 (b) Benefits. – Except as otherwise provided for eligibility, fees, deductibles,
5 copayments, and other cost-sharing charges, health benefits coverage provided to
6 children eligible under the Program shall be equivalent to coverage provided for
7 dependents under the North Carolina Teachers' and State Employees' Comprehensive
8 Major Medical Plan, including optional prepaid plans. Prescription drug providers shall
9 accept as payment in full, for outpatient prescriptions filled, ninety percent (90%) of the
10 average wholesale price for the prescription drug or the amounts published by the
11 ~~Health Care Financing Administration Centers for Medicare and Medicaid Services plus~~
12 ~~a fee established by the provider not to exceed the amount authorized under subdivision~~
13 ~~(d)(3) of this section.~~ dispensing fee of five dollars and sixty cents (\$5.60) per
14 prescription for generic drugs and four dollars (\$4.00) per prescription for brand name
15 drugs. All other health care providers providing services to Program enrollees shall
16 accept as payment in full for services rendered the maximum allowable charges under
17 the ~~North Carolina Teachers' and State Employees' Comprehensive Major Medical Plan~~
18 Medicaid Program for services less any copayments assessed to enrollees under this
19 Part. No child enrolled in the Plan's self-insured indemnity program shall be required by
20 the Plan to change health care providers as a result of being enrolled in the Program.

21 In addition to the benefits provided under the Plan, the following services and
22 supplies are covered under the Health Insurance Program for Children established under
23 this Part:

24 (1) Dental: Oral examinations, teeth cleaning, and scaling twice during a
25 12-month period, full mouth X rays once every 60 months,
26 supplemental bitewing X rays showing the back of the teeth once
27 during a 12-month period, fluoride applications twice during a
28 12-month period, sealants, simple extractions, therapeutic
29 pulpotomies, prefabricated stainless steel crowns, and routine fillings
30 of amalgam or other tooth-colored filling material to restore diseased
31 teeth. No benefits are to be provided for services under this subsection
32 that are not performed by or upon the direction of a dentist, doctor, or
33 other professional provider approved by the Plan nor for services and
34 materials that do not meet the standards accepted by the American
35 Dental Association.

36 (2) Vision: Scheduled routine eye examinations once every 12 months,
37 eyeglass lenses or contact lenses once every 12 months, routine
38 replacement of eyeglass frames once every 24 months, and optical
39 supplies and solutions when needed. Optical services, supplies, and
40 solutions must be obtained from licensed or certified ophthalmologists,
41 optometrists, or optical dispensing laboratories. Eyeglass lenses are
42 limited to single vision, bifocal, trifocal, or other complex lenses
43 necessary for a Plan enrollee's visual welfare. Coverage for oversized
44 lenses and frames, designer frames, photosensitive lenses, tinted

1 contact lenses, blended lenses, progressive multifocal lenses, coated
2 lenses, and laminated lenses is limited to the coverage for single
3 vision, bifocal, trifocal, or other complex lenses provided by this
4 subsection. Eyeglass frames are limited to those made of zylonite,
5 metal, or a combination of zylonite and metal. All visual aids covered
6 by this subsection require prior approval of the Plan. Upon prior
7 approval by the Plan, refractions may be covered more often than once
8 every 12 months.

- 9 (3) Hearing: Auditory diagnostic testing services and hearing aids and
10 accessories when provided by a licensed or certified audiologist,
11 otolaryngologist, or other hearing aid specialist approved by the Plan.
12 Prior approval of the Plan is required for hearing aids, accessories,
13 earmolds, repairs, loaners, and rental aids.

14 (c) Annual Enrollment Fee. – There shall be no enrollment fee for Program
15 coverage for enrollees whose family income is at or below one hundred fifty percent
16 (150%) of the federal poverty level. The enrollment fee for Program coverage for
17 enrollees whose family income is above one hundred fifty percent (150%) of the federal
18 poverty level shall be fifty dollars (\$50.00) per year per child with a maximum annual
19 enrollment fee of one hundred dollars (\$100.00) for two or more children. The
20 enrollment fee shall be collected by the county department of social services and
21 retained to cover the cost of determining eligibility for services under the Program.
22 County departments of social services shall establish procedures for the collection of
23 enrollment fees.

24 (d) Cost-Sharing. – ~~There shall be no deductibles, copayments, or other cost-~~
25 ~~sharing charges for families covered under the Program whose family income is at or~~
26 ~~below one hundred fifty percent (150%) of the federal poverty level.~~

27 (1) Families covered under the Program whose family income is at or
28 below one hundred fifty percent (150%) of the federal poverty level
29 shall be responsible for copayments to providers as follows:

30 a. Two dollars (\$2.00) per child for each visit to a provider, except
31 that there shall be no copayment required for well-baby, well-
32 child, or age-appropriate immunization services;

33 b. One dollar (\$1.00) for each outpatient generic prescription drug
34 purchased;

35 c. Three dollars (\$3.00) for each outpatient brand-name
36 prescription drug purchased;

37 d. Ten dollars (\$10.00) for each emergency room visit unless:

38 1. The child is admitted to the hospital, or

39 2. No other reasonable care was available as determined by
40 the Claims Processing Contractor of the North Carolina
41 Teachers' and State Employees' Comprehensive Major
42 Medical Plan.

- 1 (2) Families covered under the Program whose family income is above
2 one hundred fifty percent (150%) of the federal poverty level shall be
3 responsible for copayments to providers as follows:
4 (1)a. ~~Five dollars (\$5.00)~~ Seven dollars (\$7.00) per child for each
5 visit to a provider, except that there shall be no copayment
6 required for well-baby, well-child, or age-appropriate
7 immunization services;
8 (2)b. ~~Five dollars (\$5.00)~~ Seven dollars (\$7.00) per child for each
9 outpatient hospital visit;
10 (3)c. ~~A six-dollar (\$6.00)~~ five-dollar (\$5.00) fee for each outpatient
11 generic prescription drug purchased;
12 d. A ten-dollar (\$10.00) fee for each outpatient brand-name
13 prescription drug purchased;
14 (4)e. ~~Twenty dollars (\$20.00)~~ Thirty dollars (\$30.00) for each
15 emergency room visit unless:
16 a.1. The child is admitted to the hospital, or
17 b.2. No other reasonable care was available as determined by
18 the Claims Processing Contractor of the North Carolina
19 Teachers' and State Employees' Comprehensive Major
20 Medical Plan.

21 Copayments required under this subsection for prescription drugs apply only to
22 prescription drugs prescribed on an outpatient basis.

23 (e) Cost-Sharing Limitations. – The total annual aggregate cost-sharing,
24 including fees, with respect to all children in a family receiving Program benefits under
25 this Part shall not exceed five percent (5%) of the family's income for the year involved.
26 To assist the Department in monitoring and ensuring that the limitations of this
27 subsection are not exceeded, the Executive Administrator and Board of Trustees of the
28 North Carolina Teachers' and State Employees' Comprehensive Major Medical Plan
29 shall provide data to the Department showing cost-sharing paid by Program enrollees.

30 (f) Coverage From Private Plans. – The Department shall, from funds available
31 for the Program, pay the cost for dependent coverage provided under a private insurance
32 plan for persons eligible for coverage under the Program if all of the following
33 conditions are met:

- 34 (1) The person eligible for Program coverage requests to obtain dependent
35 coverage from a private insurer in lieu of coverage under the Program
36 and shows proof that coverage under the private plan selected meets
37 the requirements of this subsection;
38 (2) The dependent coverage under the private plan is actuarially
39 equivalent to the coverage provided under the Program and the private
40 plan does not engage in the exclusive enrollment of children with
41 favorable health care risks;
42 (3) The cost of dependent coverage under the private plan is the same as
43 or less than the cost of coverage under the Program; and

- 1 (4) The total annual aggregate cost-sharing, including fees, paid by the
2 enrollee under the private plan for all dependents covered by the plan,
3 do not exceed five percent (5%) of the enrollee's family income for the
4 year involved.

5 The Department may reimburse an enrollee for private coverage under this
6 subsection upon a showing of proof that the dependent coverage is in effect for the
7 period for which the enrollee is eligible for the Program.

8 (g) Purchase of Extended Coverage. – An enrollee in the Program who loses
9 eligibility due to an increase in family income above two hundred percent (200%) of the
10 federal poverty level and up to and including two hundred twenty-five percent (225%)
11 of the federal poverty level may purchase at full premium cost continued coverage
12 under the Program for a period not to exceed one year beginning on the date the enrollee
13 becomes ineligible under the income requirements for the Program. The same benefits,
14 copayments, and other conditions of enrollment under the Program shall apply to
15 extended coverage purchased under this subsection.

16 (h) No State Funds for Voluntary Participation. – No State or federal funds shall
17 be used to cover, subsidize, or otherwise offset the cost of coverage obtained under
18 subsection (g) of this section."

21 Requested by: Senators Martin of Guilford, Purcell, Plyler, Odom, Lee

22 NC HEALTH CHOICE STATE PLAN TECHNICAL AMENDMENTS

*Dept controls to de
Health Amendm*

23 SECTION #. The Department of Health and Human Services may rewrite
24 and submit to the federal government the State Plan for the North Carolina Health
25 Choice Program solely for the purpose of incorporating amendments enacted by the
26 1997 General Assembly, Regular Session 1998, the 1999 General Assembly, and the
27 2001 General Assembly, and to otherwise comply with applicable federal requirements.
28 Nothing in this section authorizes the Department to make amendments to the State Plan
29 for the North Carolina Health Choice Program not otherwise authorized by the General
30 Assembly. Amendments to the State Plan required by the federal government to be
31 implemented after the effective date of this section, other than those authorized by this
32 section, shall comply with G.S. 108A-70.25.
33

36 MEDICAID CONTRACTING FOR SERVICES

37 SECTION #. When developing contracts for services, the Department of
38 Health and Human Services, Division of Medical Assistance, shall ensure that Medicaid
39 recipients have appropriate access to durable medical equipment, home health supplies,
40 and home infusion therapy. The Division may subcontract for services provided that the
41 subcontract ensures appropriate access to durable medical equipment, home health
42 supplies, and home infusion therapy.

6 **ALLOCATION OF REDUCTIONS IN FUNDS FOR AREA MENTAL HEALTH,**
7 **DEVELOPMENTAL DISABILITIES, AND SUBSTANCE ABUSE**
8 **PROGRAMS** *Division allocates funds*

9 **SECTION #.(a)** The Department of Health and Human Services shall
10 allocate reductions in funding to area mental health, developmental disabilities, and
11 substance abuse services in the amount of twenty-nine million two hundred forty-six
12 thousand nine hundred seven dollars (\$29,246,907) for the 2002-2003 fiscal year. In
13 allocating the reductions, the Department shall do the following:

- 14 (1) Allocate reductions within the implementation scope of the State Plan
15 for Mental Health, Developmental Disabilities, and Substance Abuse
16 Services and in accordance with the intent of S.L. 2001-437, as
17 follows:
- 18 a. Priority given to reducing or terminating services to persons
19 with lower service needs;
 - 20 b. Persons with highest need levels shall be impacted least by
21 reductions in services;
 - 22 c. Administrative costs shall be reduced concurrently with
23 reductions in services; and
 - 24 d. To the maximum extent possible no reductions, or minimal
25 reductions, shall be allocated to activities associated with
26 critical functions and federal and State requirements.
- 27 (2) Require area authorities and county programs to submit plans for prior
28 approval by the Department describing how the local program will
29 meet its reduction target within the requirements of subdivision (1) of
30 this subsection.

31 **SECTION #.(b)** The Division of Mental Health, Developmental Disabilities,
32 and Substance Abuse Services shall allocate reductions to Division central
33 administration to items of expenditures which have the least impact on:

- 34 (1) The support of direct services to individuals served in State facilities
35 and local programs;
- 36 (2) The Division's ability to reorganize and continue implementation of
37 the State Plan for Mental Health, Developmental Disabilities, and
38 Substance Abuse Services; and
- 39 (3) The Division's ability to meet State and federal requirements such as
40 monitoring, program oversight, and reporting.

41 **SECTION #.(c)** All reductions designated for Division-operated State
42 facilities shall be allocated as follows:

- (1) In a manner that has the least impact possible on the State's ability to comply with Olmstead v. L.C. & E.W. and The Civil Rights of Institutionalized Persons Act (CRIPA);
- (2) Maximum resources shall be retained for the purpose of transfer to local programs for community capacity building as the population in State facilities decreases and the principal focus of services transitions to community-based programs;
- (3) As deemed essential by the Secretary of the Department of Health and Human Services for compliance with implementation of the State Plan for Mental Health, Developmental Disabilities, and Substance Abuse Services, and with Olmstead v. L.C. & E.W. and CRIPA, reduction amounts and total number of positions reduced may be shifted among facilities so long as the aggregate reduction in State appropriations is achieved.

SECTION #.(d) The Department shall report not later than October 1, 2002, on a plan for allocating the reductions required under this section. The plan shall describe each reduction allocation demonstrating compliance with this section. The Department shall submit the report to the Senate Appropriations Committee on Health and Human Services, the House of Representatives Appropriations Subcommittee on Health and Human Services, and the Fiscal Research Division.

 Requested by: Senators Martin of Guilford, Purcell, Plyler, Odom, Lee *Dept activity to*
SUBSTANCE ABUSE PREVENTION SERVICES *create office of SAP*

SECTION #.(a) In order to ensure that individuals receive effective substance abuse prevention services, the Department of Health and Human Services, Division of Mental Health, Developmental Disabilities, and Substance Abuse Services, shall do the following with respect to services provided to these individuals:

- (1) Designate an Office of Substance Abuse Prevention within the Department as outlined in the North Carolina Comprehensive Strategic Plan for Substance Abuse Prevention. This Office shall be responsible for the implementation of the goals in the Comprehensive Strategic Plan for Substance Abuse Prevention. The Office shall also maintain the Interagency Agreement for Substance Abuse Prevention Services and ensure continuing collaboration between agencies that are parties to the Agreement.
- (2) Provide only those prevention services that are evidence-based and have been determined to be effective in preventing alcohol and other drug problems.
- (3) Propose rules for the licensure of prevention programs to ensure quality of service delivery in local communities. Rules shall be subject to review and adoption by the Commission for Mental Health, Developmental Disabilities, and Substance Abuse Services.

- 1 (4) Ensure that services are provided by qualified prevention
2 professionals.
3 (5) Implement an outcome-based system utilizing standard risk
4 assessments and data elements consistent with appropriate evaluation
5 of prevention programs.

6 **SECTION #.(b)** The Department shall report on its activities under this
7 section to the Senate Appropriations Committee on Health and Human Services, the
8 House of Representatives Appropriations Subcommittee on Health and Human
9 Services, and the Fiscal Research Division not later than December 1, 2002.

13 **PRIVATE AGENCY UNIFORM COST-FINDING REQUIREMENT** *up done from local gov Dept*

14 **SECTION #.** Section 21.56 of S.L. 2001-424, as amended by S.L. 2001-513,
15 reads as rewritten:

16 "**SECTION 21.56.(a)** To ensure uniformity in rates charged to area programs and
17 funded with State-allocated resources, the Division of Mental Health, Developmental
18 Disabilities, and Substance Abuse Services of the Department of Health and Human
19 Services may require a private agency that provides services under contract with ~~two or~~
20 ~~more area programs, an area program or county program,~~ except for hospital services
21 that have an established Medicaid rate, to complete an agency-wide uniform cost
22 finding. The resulting cost shall be the maximum included for the private agency in the
23 contracting area program's unit cost finding.

24 **SECTION 21.56.(b)** If a private agency fails to timely and accurately complete the
25 required agency-wide uniform cost finding in a manner acceptable to the Department's
26 controller's office, the Department may suspend all Department funding and payment to
27 the private agency until such time as an acceptable cost finding has been completed by
28 the private agency and approved by the Department's controller's office."

33 **SECTION #.** Section 21.61(a) of S.L. 2001-424 reads as rewritten:

34 "**SECTION 21.61.(a)** The Department of Health and Human Services shall work
35 with families and guardians, the Department of Public Instruction, the Department of
36 Juvenile Justice and Delinquency Prevention, and appropriate local education agencies,
37 area mental health, developmental disabilities, and substance abuse programs, and local
38 departments of social services to develop a plan for the transition of children from the
39 Whitaker School to their homes or alternative facilities. The Plan shall ensure
40 appropriate and safe placement for those children who, in accordance with the
41 assessment, need an institutional setting. The Plan shall also include transition plans that
42 facilitate and support children living in their natural environments and utilizing existing
43 resources and natural supports. Assessments and service planning alternatives shall also
44 be undertaken for children on the waiting list for placement at Whitaker School to

1 ensure appropriate and safe placement for those children. The Department shall report
2 on the status of its compliance with this section on April 1, 2002 and again on ~~October~~
3 ~~1, 2002.~~ January 1, 2003. The report shall be submitted to the Senate Appropriations
4 Committee on Health and Human Services, the House of Representatives
5 Appropriations Subcommittee on Health and Human Services, the Joint Legislative
6 Commission on Governmental Operations, and the Fiscal Research Division."

10 **AREA MENTAL HEALTH ADMINISTRATIVE COSTS** *flexibly to approved Admn Cost*

11 SECTION #. Section 21.65 of S.L. 2001-424 reads as rewritten:

12 "SECTION 21.65.(a) Area mental health, developmental disabilities, and substance
13 abuse authorities or counties administering mental health, developmental disabilities,
14 and substance abuse services shall develop and implement plans to reduce local
15 administrative costs. The plans shall be developed in accordance with guidelines
16 adopted by the Secretary, in consultation with the Local Government Commission and
17 the North Carolina Association of County Commissioners, and in accordance with the
18 following:

- 19 (1) For the 2001-2002 fiscal year, administrative costs for:
- 20 a. Area mental health, developmental disabilities, and substance
21 abuse services programs shall not exceed fifteen percent (15%).
22 b. Counties administering mental health, developmental
23 disabilities, and substance abuse services through a county
24 program shall not exceed fifteen percent (15%).
- 25 (2) For the 2002-2003 fiscal year, administrative costs for:
- 26 a. Area mental health, developmental disabilities, and substance
27 abuse services programs shall not exceed thirteen percent
28 (13%).
29 b. Counties administering mental health, developmental
30 disabilities, and substance abuse services through a county
31 program shall not exceed thirteen percent (13%).

32 SECTION 21.65.(b) The Department of Health and Human Services shall report its
33 progress in complying with this section not later than January 1, 2002, and April 15,
34 2002. The reports shall be submitted to the Senate Appropriations Committee on Health
35 and Human Services, the House of Representatives Appropriations Subcommittee on
36 Health and Human Services, and the Fiscal Research Division and shall include:

- 37 (1) A description of the process used and the participants involved in
38 complying with subsection (a) of this section.
39 (2) The guidelines developed under subsection (a) of this section.
40 (3) A description of local compliance initiatives and efforts including
41 program or function consolidation.
42 (4) A list of area programs at or below the targeted thirteen percent (13%)
43 for the 2000-2001 fiscal year.

- 1 (5) Projected savings in administrative costs as a result of implementation
2 of the targeted limits required under this section.

3 SECTION 21.65.(c) Beginning in the 2002-2003 fiscal year, the Department may
4 implement alternative approaches to establish reasonable administrative cost limitations
5 for Local Management Entities (LMEs), including both county programs and area
6 authority models, and service providers in accordance with system reform and changes
7 in system funding structures."

10 Requested by: Senators Martin of Guilford, Purcell, Plyler, Odom, Lee

11 **MENTAL RETARDATION CENTER DOWNSIZING**

12 **SECTION #.** Section 21.67 of S.L. 2001-424 reads as rewritten:

13 "SECTION 21.67.(a) In accordance with the Department of Health and Human
14 Services' plan for downsizing the State's regional mental retardation facilities by four
15 percent (4%) each year, the Department shall implement cost-containment and
16 reduction strategies to ensure the corresponding financial and staff downsizing of each
17 facility. The Department shall manage the client population of the mental retardation
18 centers in order to ensure that placements for ICF/MR level of care shall be made in
19 non-State facilities. Admissions to State ICF/MR facilities are permitted only as a last
20 resort and only upon approval of the Department. The corresponding budgets for each
21 of the State mental retardation centers shall be reduced, and positions shall be
22 eliminated as the census of each facility decreases. At no time shall mental retardation
23 center positions be transferred to other units within a facility or assigned nondirect care
24 activities such as outreach.

25 **SECTION 21.67.(a1)** Any savings in State appropriations in excess of two million
26 nine hundred thousand dollars (\$2,900,000) in each year of the 2001-2003 fiscal
27 biennium that result from reductions in beds or services shall be applied as follows:

- 28 (1) Nonrecurring savings shall be placed in the Trust Fund for Mental
29 Health, Developmental Disabilities, and Substance Abuse Services and
30 Bridge Funding Needs and shall be used to facilitate the transition of
31 clients into appropriate community-based services and support in
32 accordance with Section 21.58 of this act, and
33 (2) Recurring savings realized through implementation of this section
34 shall be retained by the Department of Health and Human Services,
35 Division of Mental Health, Developmental Disabilities, and Substance
36 Abuse Services to support the recurring costs of additional
37 community-based placements from Division facilities in accordance
38 with Olmstead vs. L.C. & E.W. In determining the savings in this
39 section, savings shall include all savings realized from the downsizing
40 of the State mental retardation centers including both the savings in
41 direct State appropriations in the budgets of the State mental
42 retardation centers as well as the savings in the State matching portion
43 of reduced Medicaid payments associated with downsizing.

1 SECTION 21.67.(b) The Department of Health and Human Services shall report on
2 its progress in complying with this section to the Senate Appropriations Committee on
3 Health and Human Services, the House of Representatives Appropriations
4 Subcommittee on Health and Human Services, and the Fiscal Research Division. The
5 progress report shall be submitted not later than January 15, 2002, and a final report
6 submitted not later than ~~May 1, 2002.~~ October 1, 2002.

7 SECTION 21.67.(c) Downsizing of mental retardation centers which occurs in the
8 2002 fiscal year shall be maintained for the 2003 fiscal year. Effective July 1, 2002,
9 downsizing shall be accomplished in accordance with the State Plan for Mental Health,
10 Developmental Disabilities, and Substance Abuse Services. All savings resulting from
11 downsizing occurring on and after July 1, 2002, shall be utilized as set forth in
12 subsection (a1) of this section."

43 Requested by: Senators Martin of Guilford, Purcell, Plyler, Odom, Lee
44 **DHHS COORDINATION OF RULES**

1 SECTION #.(a) The Secretary of the Department of Health and Human
2 Services and the Chairs of the Commissions listed in this section shall collaborate in the
3 development of a process for identifying and resolving issues pertaining to duplication
4 and conflict of rules adopted by the Secretary and each Commission that affect the area
5 of mental health, developmental disabilities, and substance abuse services. The process
6 shall address the following:

- 7 (1) How to identify on a routine basis proposed rules that duplicate in
8 whole or in part other rules proposed or adopted and ways of avoiding
9 the duplication without interfering with the agency's statutory duty to
10 adopt the rule and without impairing the effectiveness of the rule in
11 carrying out the statutory mandate.
- 12 (2) How to identify on a routine basis adopted rules that are in conflict,
13 proposed rules that conflict with other proposed or adopted rules, and
14 ways of addressing the conflict without interfering with the agency's
15 statutory duty to adopt the rule and without impairing the effectiveness
16 of the rule in carrying out the statutory mandate.

17 The following Commissions shall collaborate with the Secretary on the
18 development of this process: the Commission for Mental Health, Developmental
19 Disabilities, and Substance Abuse Services, the Social Services Commission, the
20 Commission for Health Services, the Medical Care Commission, and other
21 Commissions that adopt rules affecting the area of mental health, developmental
22 disabilities, and substance abuse services that the Secretary has a duty to implement.
23 The Secretary shall also involve a representative of the Division of Medical Assistance
24 in this effort.

25 SECTION #.(b) The Secretary and the Commissions shall implement the
26 process required by Section 1 of this act not later than October 1, 2002. Not later than
27 October 15, 2002, the Secretary shall report to the Joint Legislative Commission on
28 Mental Health, Developmental Disabilities, and Substance Abuse Services the
29 following:

- 30 (1) The status of the review of rules conducted by the Department for
31 determining the existence of ambiguity, duplication, or conflict.
- 32 (2) Specific rules identified that are in conflict and the recommended
33 action for resolving the conflict.
- 34 (3) Statutory changes necessary to accomplish the purposes of the rules
35 review process required by Section 1 of this act.
- 36

7 **CHILD WELFARE SYSTEMS PILOTS REPORTS**

8 **SECTION #.(a)** Section 21.46(a) of S.L. 2001-424 reads as rewritten:

9 "SECTION 21.46.(a) The Department of Health and Human Services, Division of
10 Social Services, shall develop a plan, working with local departments of social services,
11 to implement an alternative response system of child protection in no fewer than two
12 and no more than 10 demonstration areas in this State. The plan should provide for the
13 pilots to implement an alternative response system in which local departments of social
14 services utilize family assessment tools and family support principles when responding
15 to selected reports of suspected child ~~neglect~~neglect and dependency."

16 **SECTION #.(b)** The Department of Health and Human Services shall report
17 on any activities conducted under Section 21.46 of S.L. 2001-424 to the Senate
18 Appropriations Committee on Health and Human Services, the House of
19 Representatives Appropriations Subcommittee on Health and Human Services, and the
20 Fiscal Research Division not later than April 1, 2003.

11 ELECTING COUNTY TANF FUNDS REVERT *Follows Army Act #6*

12 SECTION #. G.S. 108A-27.11(c) reads as rewritten:

13 "(c) Each Electing County's allocation for Work First Family Assistance shall be
 14 computed based on the percentage of each Electing County's total expenditures for cash
 15 assistance to statewide actual expenditures for cash assistance in 1995-96. The resulting
 16 percentage shall be applied to the federal TANF block grant funds appropriated for cash
 17 assistance by the General Assembly each fiscal year. The Department shall transmit the
 18 federal funds contained in the county block grants to Electing Counties as soon as
 19 practicable after they become available to the State and in accordance with federal cash
 20 management laws and regulations. The Department shall transmit one-fourth of the
 21 State funds contained in county block grants to Electing Counties at the beginning of
 22 each quarter. ~~Once paid, the county block grant funds shall not revert."~~

26 ADULT CARE HOME MODEL FOR COMMUNITY-BASED SERVICES

27 SECTION #. Section 21.54(b) of S.L. 2001-424 reads as rewritten:

28 "SECTION 21.54.(b) The Department shall submit a progress report on the
 29 development of the model to the Senate Appropriations Committee on Health and
 30 Human Services, the House of Representatives Appropriations Subcommittee on Health
 31 and Human Services, and the Fiscal Research Division on or before January 1, 2002,
 32 and a final report on ~~March 1, 2002.~~ March 1, 2003. The report shall address the
 33 following:

- 34 (1) The proposed time and location for implementation of the pilot.
 35 (2) Proposed number of residents to be placed and services to be provided
 36 directly by the facility or under contract with the facility.
 37 (3) Method for evaluating the pilot, including services provided, on a
 38 regular basis.
 39 (4) A description of the living environment for each resident and a
 40 comparison of how the living environment compares to that of other
 41 residents in the adult care home.
 42 (5) Changes to State law necessary to implement the pilot.
 43 (6) Projected cost to the State for pilot and statewide implementation."

8 Requested by: Senators Martin of Guilford, Purcell, Plyler, Odom, Lee

9 STATE/COUNTY SPECIAL ASSISTANCE RATE METHODOLOGY

Context unchanged

10 SECTION #.(a) The Department of Health and Human Services shall
11 develop a plan to address the short-term and long-term recommendations of the report
12 titled "Reimbursement of Adult Care Homes in North Carolina: A Study of the Special
13 Assistance Rate Methodology, May, 2002." The plan shall include:

- 14 (1) Setting the rate at the median plus a percentage;
- 15 (2) Excluding low-occupancy facilities from the rate-setting methodology;
16 and
- 17 (3) Adjusting fixed costs for inflation.

18 SECTION #.(b) The Department shall implement the following changes to
19 the adult care home cost reports:

- 20 (1) Revise the Direct Cost category to include: housekeeping/laundry,
21 health services, dietary services, recreational activities, and initial
22 orientation/aide training;
- 23 (2) Revise the Indirect Cost category to include: administration/general
24 and operation/maintenance;
- 25 (3) Revise the category of other Cost centers to include: personal care,
26 medically related transportation, and mental health services;
- 27 (4) Create a capital cost center category to include
28 property/ownership/use;
- 29 (5) Create a nonreimbursable cost category; and
- 30 (6) Define allowable and nonallowable expenditures.

31 The Department of Health and Human Services shall make the new cost report format
32 available to each facility 90 days prior to implementation.

33 *Language* - SECTION #.(c) The Department shall expand current audit policies and
34 procedures for auditing provider costs. The Department shall create an audit function
35 that is directly answerable to the State and involves fewer but more detailed audits. All
36 providers of services to State County Special Assistance recipients shall be subject to a
37 State audit if selected. The specific audit requirements shall be based on auditing
38 requirements of governmental programs providing similar services. The Department of
39 Health and Human Services shall expand current audit procedures for State County
40 Special Assistance to include auditing of costs associated with personal care services
41 reimbursed by Medicaid.

42 SECTION #.(d) The Department shall apply for federal waiver to pay
43 facilities directly for residential services for State County Special Assistance Residents.

1 SECTION #(e) The Department shall report on the progress of the
 2 implementations of the requirements of this section no later than December 1, 2002, to
 3 the Senate Appropriations Committee on Health and Human Services, the House of
 4 Representatives Appropriations Subcommittee on Health and Human Services, and the
 5 Fiscal Research Division.

37 **GOVERNOR'S ADVISORY COUNCIL ON AGING**

38 SECTION #. G.S. 143B-181 reads as rewritten:

39 "§ 143B-181. **Governor's Advisory Council on Aging – members; selection;
 40 quorum; compensation.**

41 The Governor's Advisory Council on Aging of the Department of Health and Human
 42 Services shall consist of 33 members, 29 members to be appointed by the Governor, two
 43 members to be appointed by the President Pro Tempore of the Senate, and two members
 44 to be appointed by the Speaker of the House of Representatives. The composition of the

1 Council shall be as follows: one representative of the Department of Administration;
2 one representative of the Department of Cultural Resources; one representative of the
3 Employment Security Commission; one representative of the Teachers' and State
4 Employees' Retirement System; one representative of the Commissioner of Labor; one
5 representative of the Department of Public Instruction; one representative of the
6 Department of Environment and Natural Resources; one representative of the
7 Department of Insurance; one representative of the Department of Crime Control and
8 Public Safety; one representative of the Department of Community Colleges; one
9 representative of the School of Public Health of The University of North Carolina; one
10 representative of the School of Social Work of The University of North Carolina; one
11 representative of the Agricultural Extension Service of North Carolina State University;
12 one representative of the collective body of the Medical Society of North Carolina; and
13 19 members at large. The at large members shall be citizens who are knowledgeable
14 about services supported through the Older Americans Act of 1965, as amended, and
15 shall include persons with greatest economic or social need, minority older persons, and
16 participants in programs under the Older Americans Act of 1965, as amended. The
17 Governor shall appoint 15 members at large who meet these qualifications and are 60
18 years of age or older. The four remaining members at large, two of whom shall be
19 appointed by the President Pro Tempore of the Senate and two of whom shall be
20 appointed by the Speaker of the House of Representatives, shall be broadly
21 representative of the major private agencies and organizations in the State who are
22 experienced in or have demonstrated particular interest in the special concerns of older
23 persons. At least one of each of the at-large appointments of the President Pro Tempore
24 of the Senate and the Speaker of the House of Representatives shall be persons 60 years
25 of age or older. The Council shall meet ~~at least quarterly~~ biannually.

26 Members at large shall be appointed for four-year terms and until their successors
27 are appointed and qualify. Ad interim appointments shall be for the balance of the
28 unexpired term.

29 The Governor shall have the power to remove any member of the Council from
30 office in accordance with the provisions of G.S. 143B-16 of the Executive Organization
31 Act of 1973.

32 The Governor shall designate one member of the Council as chair to serve in such
33 capacity at his pleasure.

34 Members of the Council shall receive per diem and necessary travel and subsistence
35 expenses in accordance with the provisions of G.S. 138-5.

36 A majority of the Council shall constitute a quorum for the transaction of business.
37 All clerical and other services required by the Council shall be supplied by the Secretary
38 of Health and Human Services."

28 **NEWBORN HEARING SCREENING PROGRAM REPORT**

29 **SECTION #.** Section 21.96 of S.L. 2001-424 reads as rewritten:

30 "SECTION 21.96. The Department of Health and Human Services shall report the
31 following information on the newborn hearing screening program:

- 32 (1) Unduplicated number of infants screened.
33 (2) Number of infants who failed the second hearing screening.
34 (3) Number of infants receiving the diagnostic evaluation.
35 (4) Number and types of services provided.
36 (5) Number and types of follow-up services provided to children.

37 The Department shall submit the report not later than May 1, 2002, to the Senate
38 Appropriations Committee on Health and Human Services, the House of
39 Representatives Appropriations Subcommittee on Health and Human Services, and the
40 Fiscal Research Division. The Department shall report not later than January 1, 2003, on
41 its activities to the Senate Appropriations Committee on Health and Human Services,
42 the House of Representatives Appropriations Subcommittee on Health and Human
43 Services, and the Fiscal Research Division."

1 **Special Provision 2002-DHHS-S7-P** [v20], Modified 6/8/02 6:21 PM

3 **INTENSIVE HOME VISITING**

4 **SECTION #.** Section 21.97(b) of S.L. 2001-424 reads as rewritten:

5 "SECTION 21.97.(b) The Division shall require in-home visitors to collect data on
6 program participants as a condition of participation. This requirement shall include
7 six-month periodic assessments and completion of the questionnaires. The Department
8 shall ensure that the collection, maintenance, use, and disclosure of data complies with
9 applicable State and federal law protecting privacy of health and other individual
10 information. By April 1, ~~2002,~~2003, the Division shall report to the Senate
11 Appropriations Committee on Health and Human Services and the House of
12 Representatives Appropriations Subcommittee on Health and Human Services on the
13 following items:

- 14 (1) Number of clients/families enrolled per county.
- 15 (2) Attrition and reasons why families leave the program.
- 16 (3) Average number of home visits per month.
- 17 (4) Average time involved per home visit.
- 18 (5) Baseline family characteristics.
- 19 (6) Health behaviors.
- 20 (7) Perinatal and birth outcomes.
- 21 (8) Other relevant outcome information.

22 All program information shall include the identification of the model used in order to
23 compare these models in the future."
24

27 **AIDS DRUG ASSISTANCE PROGRAM (ADAP)**

28 **SECTION #.(a)** Section 21.90(b) of S.L. 2001-424 reads as rewritten:

29 "SECTION 21.90.(b) For the 2001-2002 fiscal year and for the 2002-2003 fiscal
30 year, HIV-positive individuals with incomes at or below one hundred twenty-five
31 percent (125%) of the federal poverty level are eligible for participation in ADAP.
32 ~~Eligibility for participation in ADAP may be extended to individuals with incomes up to~~
33 ~~one hundred fifty percent (150%) of the federal poverty level only after the Office of~~
34 ~~State Budget and Management certifies in writing that the Department has developed an~~
35 ~~information management system pursuant to subsection (a) of this section. Until the~~
36 ~~Office of State Budget and Management makes this certification, eligibility~~
37 ~~Eligibility~~ for participation in ADAP during the 2001-2003 fiscal biennium shall not be extended
38 to individuals with incomes above one hundred twenty-five percent (125%) of the
39 federal poverty level. ~~Following six months of increased eligibility at one hundred fifty~~
40 ~~percent (150%) of the federal poverty level, eligibility for participation in ADAP shall~~
41 ~~be extended to individuals with incomes up to one hundred seventy five percent (175%)~~
42 ~~of the federal poverty level for the remainder of the 2001-2002 fiscal year. Beginning~~
43 ~~July 1, 2002, eligibility for participation in the ADAP shall be extended to individuals~~
44 ~~with incomes up to two hundred percent (200%) of the federal poverty level."~~

1 SECTION #.(b) The Department of Health and Human Services shall
2 develop a plan to manage costs in ADAP and to serve additional participants within
3 additional resources. The plan shall include an assessment of the following, including,
4 where applicable, a review of other states' actions in these areas:

- 5 (1) Limiting the drug formulary.
- 6 (2) Capping expenditures on a per participant/per month basis.
- 7 (3) Providing financial assistance to participants for health care program
8 premiums.

9 SECTION #.(c) The Department shall report on activities conducted under
10 this section and under Section 21.90 of S.L. 2001-424 to the Senate Appropriations
11 Committee on Health and Human Services, the House of Representatives Subcommittee
12 on Health and Human Services, and the Fiscal Research Division. The Department
13 shall submit an interim report not later than December 1, 2002, and a final report not
14 later than May 1, 2003.

18 PRESCRIPTION DRUG ASSISTANCE PROGRAM

19 SECTION #.(a) Section 21.88 of S.L. 2001-424 reads as rewritten:

20 "SECTION 21.88. Of the funds appropriated in this act to the Department of Health
21 and Human Services, the sum of five hundred thousand dollars (\$500,000) for the
22 2001-2002 fiscal year and the sum of five hundred thousand dollars (\$500,000) for the
23 2002-2003 fiscal year shall be used to pay the cost of outpatient prescription drugs for
24 persons:

- 25 (1) Over the age of 65 years and not eligible for full Medicaid benefits;
- 26 (2) Whose income is not more than one hundred fifty percent (150%) of
27 the federal poverty level; and
- 28 (3) Who have been diagnosed with cardiovascular disease or diabetes.

29 These funds shall be used to pay the cost of outpatient prescription drugs for the
30 treatment of cardiovascular disease or diabetes. Payment shall be not more than the
31 Medicaid cost including rebates. The Department shall develop criteria to maximize the
32 efficient and effective distribution of these drugs."

33 SECTION #.(b) It is the intent of the General Assembly that funding for
34 prescription drug assistance provided by the Health and Wellness Trust Fund shall
35 include funds for the transition of benefits formerly provided under the Prescription
36 Drug Assistance Program.

3 RESTRUCTURE ORAL HEALTH SECTION

4 SECTION #. The Department of Health and Human Services, Division of
5 Public Health, shall restructure the Division's Oral Health Section within the Women's
6 and Children's Health Section. The restructuring shall result in broadening the scope of
7 the Oral Health Section responsibilities to begin to address a more comprehensive
8 school health program throughout the State. The Division shall ensure that positions and
9 resources within the Oral Health Section are also transferred to meet the requirements of
10 a comprehensive school health program. The Division of Public Health shall report not
11 later than December 1, 2002, on the Division's reorganization, including restructuring of
12 the Oral Health Section. The Division shall submit the report to the Senate
13 Appropriations Committee on Health and Human Services, the House of
14 Representatives Appropriations Subcommittee on Health and Human Services, and the
15 Fiscal Research Division.

20 SECTION #. The Department of Health and Human Services shall report on
21 the activities conducted under Section 21.79 of S.L. 2001-424 to the Senate
22 Appropriations Committee on Health and Human Services, the House of
23 Representatives Appropriations Subcommittee on Health and Human Services, and the
24 Fiscal Research Division not later than December 1, 2002.

25
26 Special Provision 2002-DHHS-S53-P [v5], Modified 5/23/02 2:40 PM

27 Requested by: Senators Martin of Guilford, Purcell, Plyler, Odom, Lee

28 DEVELOPMENTAL EVALUATION CENTERS

29 SECTION #.(a) The Department of Health and Human Services, Division
30 of Public Health, shall administer the reduction in funds for the 2002-2003 fiscal year of
31 two million seventy-six thousand four hundred twenty-six dollars \$2,076,426 to all
32 Developmental Evaluation Centers (DEC's) based upon the following:

- 33 (1) Prior years' expenditures of the DEC,
- 34 (2) Elimination of vacant positions, and
- 35 (3) Overall needs of the DEC.

36 The reduction shall not result in the entire closure of an individual DEC and
37 the implementation of the reduction should seek to minimize the loss of direct services
38 to children, looking first at administrative reductions.

39 SECTION #.(b) The Division of Public Health shall prepare a plan for the
40 future of Developmental Evaluation Centers that will involve a needs-assessment of
41 services and geographical needs. The plan shall also include an assessment of the
42 number of DEC's needed and recommendations for future downsizing or growth. The
43 plan will augment the Early Intervention Services Plan submitted to the General
44 Assembly. The Division shall report on its plan not later than December 1, 2002, to the

1 Senate Appropriations Committee on Health and Human Services, the House of
2 Representatives Appropriations Subcommittee on Health and Human Services, and the
3 Fiscal Research Division.

4
5 **Special Provision 2002-DHHS-S57-P** [v12], Modified 5/30/02 2:44 PM

6 Requested by: Senator Martin of Guilford, Purcell, Cunningham, Plyler, Odom,
7 Lee

8 **WORKERS' COMPENSATION FOR DUSTY TRADES**

9 SECTION #.(a) G.S. 97-61.1 reads as rewritten:

10 "**§ 97-61.1. First examination of and report on employee having asbestosis or**
11 **silicosis.**

12 When an employee and the Industrial Commission are advised ~~by the Department of~~
13 ~~Health and Human Services~~ that an employee has asbestosis or silicosis, the employer
14 shall be notified by the Industrial Commission, and the employee, when ordered by the
15 Industrial Commission, shall go to a place designated by the Industrial Commission and
16 submit to X rays and a physical examination by the advisory medical committee, at least
17 one of whom shall conduct the examination, and the member or members of the
18 advisory medical committee conducting the examination shall forward the X rays and
19 findings to the member or members of the committee not present for the physical
20 examination. The employer shall pay the expenses connected with the examination in
21 such amounts as shall be directed by the Industrial Commission. Within 30 days after
22 the completion of the examination, the advisory medical committee shall make a written
23 report signed by all of its members setting forth:

- 24 (1) The X rays and clinical procedures used by the committee in arriving
25 at its findings.
26 (2) Whether or not the claimant has contracted asbestosis or silicosis.
27 (3) The committee's opinion expressed in percentages of the impairment
28 of the employee's ability to perform normal labor in the same or any
29 other employment.
30 (4) Any other matter deemed pertinent by the committee.

31 When a competent physician certifies to the Industrial Commission that the
32 employee's physical condition is such that his movement to the place of examination
33 ordered by the Industrial Commission as herein provided in G.S. 97-61.1, 97-61.3 and
34 97-61.4 would be harmful or injurious to the health of the employee, the Industrial
35 Commission shall cause the examination of the employee to be made by the advisory
36 medical committee as herein provided at some place in the vicinity of the residence of
37 the employee suitable for the purposes of making such examination."

38 SECTION #.(b) G.S. 97-61.5 reads as rewritten:

39 "**§ 97-61.5. Hearing after first examination and report; ~~removal of employee from~~**
40 **~~hazardous occupation; further exposures prohibited; compensation upon~~**
41 **~~removal from hazardous occupation; a finding of asbestosis or silicosis.~~**

42 (a) After the employer and employee have received notice of the first committee
43 report, the Industrial Commission, unless it has already approved an agreement between
44 the employer and employee, shall set the matter for hearing at a time and place to be

1 decided by it, to hear any controverted questions, determine if and to whom liability
2 attaches, and where appropriate, file a written opinion with its findings of fact and
3 conclusions of law and cause its award to be issued thereon, all of which shall be
4 subject to modification as provided in G.S. 97-61.6.

5 (b) If the Industrial Commission finds at the first hearing that the employee has
6 either asbestosis or silicosis or if the parties enter into an agreement to the effect that the
7 employee has silicosis or asbestosis, it shall by order ~~remove~~ prohibit the employee
8 from engaging in any occupation ~~which~~ that further exposes him to the hazards of
9 asbestosis or silicosis, and if the employee thereafter engages in any occupation ~~which~~
10 that further exposes him to the hazards of asbestosis or silicosis without having obtained
11 the written approval of the Industrial Commission as provided in G.S. 97-61.7, neither
12 he, his dependents, personal representative nor any other person shall be entitled to any
13 compensation for disablement or death resulting from asbestosis or silicosis; ~~provided,~~
14 ~~that if the employee is removed from the industry and the employer shall pay or cause to~~
15 ~~be paid as in this subsection provided to the employee affected by such asbestosis or~~
16 ~~silicosis a weekly compensation equal to sixty-six and two-thirds percent (66 2/3%) of~~
17 ~~his average weekly wages before removal from the industry, but not more than the~~
18 ~~amount established annually to be effective October 1 as provided in G.S. 97-29 or less~~
19 ~~than thirty dollars (\$30.00) a week, which compensation shall continue for a period of~~
20 ~~104 weeks. Payments made under this subsection shall be credited on the amounts~~
21 ~~payable under any final award in the cause entered under G.S. 97-61.6."~~

22 SECTION #.(c) G.S. 97-61.7 reads as rewritten:

23 "§ 97-61.7. ~~Waiver of right to compensation as alternative to forced change of~~
24 ~~occupation.~~ further compensation.

25 An employee who has been compensated under the terms of G.S. 97-61.5(b) ~~as an~~
26 ~~alternative to forced change of occupation,~~ may, subject to the approval of the Industrial
27 Commission, waive in writing his right to further compensation for any aggravation of
28 his condition that may result from his continuing in an occupation exposing him to the
29 hazards of asbestosis or silicosis, in which case payment of all compensation awarded
30 previous to the date of the waiver as approved by the Industrial Commission shall bar
31 any further claims by the employee, or anyone claiming through him, provided, that in
32 the event of total disablement or death as a result of asbestosis or silicosis with which
33 the employee was so affected, compensation shall nevertheless be payable, but in no
34 case, whether for disability or death or both, for a longer period than 100 weeks in
35 addition to the 104 weeks already paid. Such written waiver must be filed with the
36 Industrial Commission, and the Commission shall keep a record of each waiver, which
37 record shall be open to the inspection of any interested person."

38 SECTION #.(d) G.S. 97-72(b) reads as rewritten:

39 "(b) The members of the advisory medical committee shall be paid one hundred
40 dollars (\$100.00) per month plus not more than forty dollars (\$40.00) per film
41 examined. The fee per film shall be established by the ~~Secretary of Health and Human~~
42 ~~Services,~~ Industrial Commission, as guided by the current Medicaid/Medicare
43 reimbursement schedules for North Carolina."

44 SECTION #.(e) G.S. 97-73(b) reads as rewritten:

1 "~~(b) The Secretary of Health and Human Services-Industrial Commission shall~~
2 establish a schedule of fees for examinations ~~conducted by the Department of Health~~
3 ~~and Human Services directed by the Industrial Commission~~ pursuant to G.S. 97-60. The
4 fees shall be collected in accordance with rules adopted by the ~~Secretary of Health and~~
5 ~~Human Services-Industrial Commission.~~"

6 SECTION #(f) Subsections (b) and (c) of this section are effective when
7 this section becomes law and apply to all claims for workers' compensation that the
8 Industrial Commission determines on or after that date and to all claims for workers'
9 compensation that result in a settlement agreement entered into on or after that date.

11 SUBPART 8. DIVISION OF CHILD DEVELOPMENT

13 Special Provision 2002-DHHS-S10A [v2], Modified 6/14/02 10:27 AM

14 Requested by: Senators Martin of Guilford and Purcell

15 EARLY CHILDHOOD EDUCATION AND DEVELOPMENT INITIATIVES 16 ENHANCEMENTS

17 SECTION #(a) Section 21.75.(d) of S.L. 2001-424 reads as rewritten:

18 "SECTION 21.75.(d) The Department of Health and Human Services and the
19 North Carolina Partnership for Children, Inc., shall ensure that the allocation of funds
20 for Early Childhood Education and Development Initiatives for State fiscal ~~year-years~~
21 2001-2002 and 2002-2003 shall be administered and distributed in the following
22 manner:

- 23 (1) The North Carolina Partnership for Children, Inc., shall develop a
24 policy to allocate the reduction of funds for Early Childhood
25 Education and Development Initiatives for the 2001-2002 and 2002-
26 2003 fiscal ~~year-years~~.
- 27 (2) The North Carolina Partnership for Children, Inc., administration shall
28 be reduced by ten percent (10%) from the 2000-2001 fiscal year level.
- 29 (3) The Department of Health and Human Services Smart Start
30 administration shall be reduced by ten percent (10%) from the
31 2000-2001 fiscal year level.
- 32 (4) Capital expenditures and playground equipment expenditures are
33 prohibited for fiscal ~~year-2001-2002-years~~ 2001-2002 and 2002-2003.
34 For the purposes of this section, "capital expenditures" means
35 expenditures for capital improvements as defined in G.S. 143-34.40.
- 36 (5) Expenditures for advertising and promotional activities are prohibited
37 for fiscal year 2002-2003."

38 SECTION #(b) Section 21.75(f) of S.L. 2001-424 reads as rewritten:

39 "SECTION 21.75.(f) For the 2001-2002 and 2002-2003 fiscal ~~year-years~~, the North
40 Carolina Partnership for Children, Inc., shall not approve local partnership plans that
41 allocate State funds to child care providers for one-time quality improvement initiatives
42 in the following circumstances:

- 43 (1) Child care facilities with licensure of four or five stars, unless the
44 expenditure of funds is to expand capacity for low-income children.

- 1 (2) Child care facilities that do not accept child care subsidy funds.
2 (3) Child care facilities that previously received quality improvement
3 grants whose quality initiatives failed to increase licensure."

4 SECTION #.(c) For the 2002-2003 fiscal year, the local partnerships shall
5 spend an amount for child care subsidies that provides at least fifty-two million dollars
6 (\$52,000,000) for the TANF maintenance of effort requirement and the Child Care
7 Development Fund and Block Grant match requirement.

8 SECTION #.(d) Of the funds appropriated in this act, the North Carolina
9 Partnership for Children, Inc., shall transfer one million dollars (\$1,000,000) to the
10 Department of Health and Human Services, Division of Public Health, to contract with
11 the National Society to Prevent Blindness – North Carolina Affiliate, Inc., to maximize
12 vision screenings of children in child care settings. The National Society to Prevent
13 Blindness – North Carolina Affiliate, Inc., shall report on the use of the funds
14 transferred under this section no later than March 1, 2003, to the Senate Appropriations
15 Committee on Health and Human Services, the House of Representatives
16 Appropriations Subcommittee on Health and Human Services, and the Fiscal Research
17 Division. This report shall included the following:

- 18 (1) The number of screenings conducted.
19 (2) The number of previously undetected vision problems discovered in
20 the screenings.
21 (3) The number of child care facilities in which screenings are conducted.
22 (4) A listing of the counties in which screenings are conducted.

23 SECTION #.(e) Notwithstanding any other provision of law, for the
24 2002-2003 fiscal year, the North Carolina Partnership for Children, Inc., may not
25 contract with any outside entity to conduct performance assessments of local
26 partnerships.

27 SECTION #.(f) G.S. 143B-168.12 is amended by adding a new subsection
28 to read:

29 "(e) The North Carolina Partnership shall develop guidelines for local
30 partnerships to follow in selecting capital projects to fund. The guidelines shall include
31 assessing the community needs in relation to the quantity of child care centers, assessing
32 the cost of purchasing or constructing new facilities as opposed to renovating existing
33 facilities, and prioritizing capital needs such as construction, renovations, and
34 playground equipment and other amenities."

35 SECTION #.(g) G.S. 143B-168.13(a)(1a) reads as rewritten:

36 "(1a) Develop and conduct a statewide needs and resource assessment every
37 third year, beginning in the 1997-98 fiscal year. This needs assessment
38 shall be conducted in cooperation with the North Carolina Partnership
39 and with the local partnerships. This needs assessment shall include a
40 statewide assessment of capital needs. The data and findings of this
41 needs assessment shall form the basis for annual program plans
42 developed by local partnerships and approved by the North Carolina
43 Partnership."

1 SECTION #.(h) Of the funds appropriated in this act, the North Carolina
2 Partnership for Children, Inc., shall transfer the sum of four hundred thousand dollars
3 (\$400,000) to the Department of Health and Human Services, Division of Public Health,
4 for the purpose of providing a statewide folic acid campaign.
5

7 Requested by: Senator

8 **MORE AT FOUR PROGRAM**

9 SECTION #.(a) Section 21.76B(c)(2) of S.L. 2001-424 is repealed.

10 SECTION #.(b) Section 21.76B(d) of S.L. 2001-424 reads as rewritten:

11 "SECTION 21.76B.(d) In development of the "More At Four" pilot, the
12 Department of Health and Human Services, in consultation with the Department of
13 Public Instruction and the Task Force, shall:

14 (1) Contract with an independent research organization, outside the
15 Department of Health and Human Services and the Department of
16 Public Instruction, with proven expertise in evaluation of
17 prekindergarten programs, for the design of an evaluation component.
18 ~~The evaluation component shall facilitate longitudinal review of the~~
19 ~~program and child specific outcomes to include, at a minimum,~~
20 ~~participants' readiness for kindergarten, percentage of participants~~
21 ~~scoring at or above grade level on the third grade end of grade test,~~
22 ~~and high school graduation rates.~~ pre- and post-assessments of children
23 participating in the More At Four program. Of the funds appropriated
24 in this act, the Department shall not spend more than two hundred
25 thousand dollars (\$200,000) on this contract.

26 (2) Collaborate in the development of a system to collect and maintain
27 child-specific information to provide for the long-term evaluation of
28 the pilot. The system shall be developed in a manner which ~~builds~~
29 ~~upon~~ utilizes existing State and local systems and ~~which facilitates the~~
30 ~~interface with the N.C. Student Information Management System."~~

31 SECTION #.(c) Section 21.76B(f) of S.L. 2001-424 reads as rewritten:

32 "SECTION 21.76B.(f) In order to maximize and coordinate funding for
33 prekindergarten programs for four-year-olds with demonstrated educational needs, the
34 Department of Health and Human Services, the Department of Public Instruction, and
35 the Task Force ~~Force~~, and the North Carolina Partnership for Children, Inc., shall
36 identify and make recommendations on the reallocation of funds from existing State and
37 local programs providing prekindergarten related care and services, including child care
38 subsidies. All potential funding sources, including federal as well as State-funded
39 efforts, shall be identified. The report required under subsection (g) of this section shall
40 include recommendations on strategies to ensure coordination between the Partnership,
41 More At Four, and other prekindergarten programs in addressing the academic and
42 cognitive needs of young children. The report shall include recommendations on
43 structural changes to Smart Start, More At Four, and other related programs, including

1 consolidation, that may be beneficial in encouraging this coordination. The report shall
2 include a plan and a timetable for implementation of the recommendations."

3 SECTION #.(d) Section 21.76B(g) of S.L. 2001-424 reads as rewritten:

4 "SECTION 21.76B.(g) The Department of Health and Human Services, the
5 Department of Public Instruction, and the Task Force shall report by January 1, 2002,
6 and May 1, 2002, to the Joint Legislative Commission on Governmental Operations, the
7 Joint Legislative Education Oversight Committee, the Senate Appropriations
8 Committee on Health and Human Services, and the House of Representatives
9 Appropriations Subcommittee on Health and Human Services on the progress in
10 complying with this section. A final report along with recommendations for changes or
11 expansion of the program shall be presented to the ~~2003 General Assembly.~~ Senate
12 Appropriations Committee on Health and Human Services, the House of
13 Representatives Appropriations Subcommittee on Health and Human Services, and the
14 Fiscal Research Division no later than December 1, 2002. This final report shall include
15 the following:

16 (1) The number of children participating in the program.

17 (2) The number of children participating in the program who have never
18 been served in other early education programs such as child care,
19 public or private preschool, Head Start, Early Head Start, or early
20 intervention programs.

21 (3) The expected expenditures for the fiscal year.

22 (4) The location of program sites and the corresponding number of
23 children participating in the program at each site.

24 (5) Recommendations regarding reallocation of State, local, and federal
25 funds to maximize the provision of services to at-risk four-year-olds
26 and to eliminate duplication of efforts."

27 SECTION #.(e) Effective June 30, 2002, Section 21.76B of S.L. 2001-424 is
28 amended by adding a new subsection to read:

29 "SECTION 21.76B.(h) The Department of Health and Human Services may carry
30 over any unspent funds allocated to the More At Four program to the subsequent fiscal
31 year."

32 *More at Four*
33 SECTION #.(f) It is the intent of the General Assembly to identify and
34 recognize existing programs that excel at meeting the educational needs of at-risk
35 four-year-olds and to provide guidance and technical assistance to programs so that they
36 may become better at meeting the needs of these children. It is the intent of the General
37 Assembly to maximize the provision of services to at-risk four-year-olds and to
38 eliminate duplication of efforts.

39 SECTION #.(g) Not later than December 1, 2002, the Department of Health
40 and Human Services, in consultation with the More at Four Pre-Kindergarten Program,
41 shall establish More At Four accreditation criteria for child care centers, Head Start
42 programs, prekindergarten programs administered by local educational agencies, and
43 other educational prekindergarten programs, including centers and programs funded by
44 Smart Start. These accreditation criteria shall include, at a minimum, the guidelines
established by the "More At Four" Pre-K Task Force pursuant to Section 21.76B of S.L.

1 2001-424. These accreditation criteria shall also include a criterion related to the
2 number or percentage of at-risk children that must be served by a child care center,
3 Head Start program, prekindergarten program administered by a local educational
4 agency, or other educational prekindergarten program, including centers and programs
5 funded by Smart Start, before it may become an accredited More At Four program.

6 **SECTION #.(h)** Beginning January 1, 2003, the Department of Health and
7 Human Services, Division of Child Development, shall initiate an accreditation program
8 based on the criteria developed pursuant to subsection (g) of this section. The
9 Department shall evaluate programs on the accreditation criteria as part of the three-year
10 rated license assessment currently conducted by the Department. Any child care center,
11 Head Start program, prekindergarten program administered by a local educational
12 agency, or other educational prekindergarten program, including centers and programs
13 funded by Smart Start, that satisfies the accreditation criteria shall be designated as a
14 More At Four accredited program. This designation shall take effect once the
15 Department finds that the accreditation criteria have been met. The Department shall
16 periodically reevaluate accredited programs to ensure that the program continues to
17 satisfy the accreditation criteria. A child care center, Head Start program,
18 prekindergarten program administered by a local educational agency, or other
19 educational prekindergarten program, including centers and programs funded by Smart
20 Start, may petition the Department to evaluate the program on the accreditation criteria
21 in advance of the next regularly scheduled rated license assessment.

22 **SECTION #.(i)** The Department of Health and Human Services shall
23 conduct a county-by-county needs and resources assessment to determine what
24 additional resources are necessary, if any, to meet the needs of at-risk four-year-olds in
25 each county in the State. This assessment shall take into consideration that different
26 counties may require different resources or programs to adequately meet the needs of
27 at-risk four-year-olds. The Department shall report on the results of this assessment to
28 the Senate Appropriations Committee on Health and Human Services, the House of
29 Representatives Appropriations Subcommittee on Health and Human Services, and the
30 Fiscal Research Division no later than April 1, 2003.

✓ 31 **SECTION #.(j)** The Department of Health and Human Services shall make
32 a report to the 2003 General Assembly with recommendations for appropriate incentives
33 to encourage child care centers, Smart Start programs, Head Start programs,
34 prekindergarten programs administered by local educational agencies, and other
35 educational prekindergarten programs to achieve and maintain More at Four accredited
36 status. *Programs work together and explore future combination*

39 Requested by: Senators Martin of Guilford, Purcell, Plyler, Odom, Lee

40 **CHILD CARE SUBSIDY RATES**

41 **SECTION #.** Section 21.73(f) of S.L. 2001-424 reads as rewritten:

42 "SECTION 21.73.(f) Provision of payment rates for child care providers in
43 counties that do not have at least 75-50 children in each age group for center-based and
44 home-based care are as follows:

1
2
3
4
5
6
7
8
9
10
11
12
13
14

- (1) Payment rates shall be set at the ~~statewide~~-or-regional market rate for licensed child care centers and homes.
- (2) If it can be demonstrated that the application of the ~~statewide~~-or-regional market rate to a county with fewer than ~~75~~50 children in each age group is lower than the county market rate and would inhibit the ability of the county to purchase child care for low-income children, then the county market rate may be applied."

MINUTES

HOUSE APPROPRIATIONS SUBCOMMITTEE ON HEALTH AND HUMAN SERVICES

Tuesday, July 23, 2002

1:30 P. M.

Room 643, Legislative Office Building

The Appropriations subcommittee on Health and Human Services met on Tuesday, July 23, 2002 at 1:30 P.M. in Room 643 of the Legislative Office Building. Members present were Representative Edd Nye, Representative Beverly Earle, Co-Chairs; Representatives Mark Crawford, Walter Church, Debbie Clary, Billy Creech, Theresa Esposito, Verla Insko, and Thomas Wright.

Representative Nye called the meeting to order, asked for a roll call vote, and welcomed Committee members and visitors. Attached is the Visitor Registration Sheet that is made a part of the minutes (See Attachment No. 1).

Carol Shaw, Fiscal Research Staff, stated that the document they would be discussing was a comparison document with three columns, House, Senate and Governor. The Senate column represents the budget that the Senate passed, The Governor's column represents the numbers that were included in his budget that was submitted to the Committee earlier this year, and the House columns are the options that have been developed by the Committee Chairs at this point. (See Attachment No. 2)

Susan Morgan, Fiscal Research Staff, began the presentation by reviewing the Division of Aging. Carol Shaw reviewed the Division of Child Development. Representative Nye asked for the number of children on the waiting list. Peggy Ball with the Division stated there are 14,932 children on the list. Representative Earle asked for a list of those by counties. Representative Insko asked for the per pupil amount for subsidy or did it vary by counties. Ms. Ball responded that each month they calculate the average expenditure per child and it is running about three hundred dollars per month. The average length of stay per year is about six months. An estimate is about eighteen hundred dollars per year, per child.

Representative Clary asked if the criminal records checks for child care and adult care homes had been consolidated. Ms. Shaw stated they have not. In some cases the state is paying for criminal record checks and in some cases the people in the industry are paying for them. Representative Clary then asked how much money in Smart Start goes to child care subsidy. Ms. Shaw responded they are required to spend up to 30% of their budget statewide for childcare subsidy. In most cases, they have spent more. In 2001, seventy

million was spent for childcare subsidy. This means they have traditionally spent about 48% to 49% on subsidy. There are two ways they pay for subsidy. Ms. Shaw will get detailed information on this.

Representative Crawford asked staff to provide the amount of the remaining funds to spend in each case. Ms. Shaw responded they would try to get this information, but it will take a while to develop this information. Representative Crawford then asked Chairman Nye if they could get this information before there were any amendments. Chairman Nye agreed this would be a good idea.

Representative Creech stated he wanted to know how much private money had been put into Smart Start since it was suppose to be a combination of private/ for profit money. Ms. Shaw responded she would get that information.

Representative Esposito asked if they knew how many children were receiving childcare subsidy either through Smart Start or TANF. Ms. Ball stated she would get this information for her.

Ms. Shaw next reviewed the Division of Facility Services and Division of Medical Assistance. There were a few questions for Ms. Shaw concerning basis of reducing number of providers in item number 48, and also the reimbursement rate in item number 46.

Jim Klingler, Fiscal Research Staff, reviewed the Division of Mental Health, Developmental Disabilities, and Substance Abuse Services on page 9G of the handout. After his review, Representative Insko asked if she could get the list for item number 66, various contracts. Also, she would like the list for how funds were spent last year on item number 73.

Representative Esposito asked concerning item number 57, the state psychiatric hospitals, if all the sixty-one positions were vacant. A Department spokesman stated there are 15 positions filled and they anticipate doing some additional placement.

Representative Nye adjourned the meeting.

Representative Edd Nye, Co-Chairman

Jo Bobbitt, Committee Assistant

Miscellaneous Contracts \$100,000

24 Vacant Positions (\$90,000) (\$90,000) (L\$ 364,512)
-2.00 -2.00

Eliminates two vacant positions: 1.0 Facility Engineer Specialist and 1.0 Facility Survey Consultant I.

-6.0

Division of Medical Assistance

25 Asset Policy Changes (\$3,028,281) (\$3,028,281) (L\$ 3,028,281)

Modifies transfer of asset policy by including real property held under a life estate or tenancy-in-common as a countable asset when determining Medicaid eligibility.

26 Drug Utilization Management (\$37,374,352) (\$37,374,352) (L\$ 37,374,352)

Expands implementation of various drug utilization measures to contain the cost of prescription drugs, including expanding the use of generic drugs.

27 Private Duty Nursing (\$496,639) 0

Reduces reimbursement rates for private duty nursing service providers by 5%.

Health and Human Services

House
FY 02-03

Senate
FY 02-03

Governor
FY 02-03

28 Private Duty Nursing Limitations (\$292,052) 0

Reduces expenditures for private duty nursing services for adults over 21 by limiting the number of hours to 16 hours per day and providing for 24 hours per day for up to 21 days post-hospital stay and up to 14 consecutive days if a patient's caregiver experiences a personal medical emergency.

29 Personal Care Services Limitations (\$2,655,057) (\$2,655,057) 0

Reduces Personal Care Services by reducing the daily limit for services from 3.5 hours per day to 3 hours per day and reducing the monthly limit for services from 80 hours per month to 60 hours per month.

30 CAP-MR/DD Program (\$18,358,593) ~~(\$18,358,593)~~ 23,972,219

Reduces the Community Alternatives Program for the Mentally Retarded and Developmentally Disabled (CAP-MR/DD) by revising the existing waivers and continuing the freeze on program participation until growth in program participation moderates.

31 CAP-DA Program (\$13,554,011) ~~(\$13,554,011)~~ 16,727,631

Reduces the Community Alternatives Program for Disabled Adults (CAP-DA) by continuing the freeze on program participation, limiting the monthly average cost limit, and limiting the number of In-Home Aide Services.

32 Asset Policy Changes for PCS Recipients (\$423,959) (\$423,959) ~~(\$423,959)~~

Modifies transfer of asset policy by applying the policy to persons receiving personal care services while residing in their home.

33 Pregnant Women Coverage for Minors (\$244,793) (\$244,793) 0

Modifies policy for determining eligibility for pregnant women coverage for minors by counting parental income.

34 Dental Services for Adults over 21 (\$5,121,872) 0

Reduces Dental services for adults over 21 by limiting services to basic preventative and restorative procedures, and emergency dental needs. Eliminates coverage of all denture services.

35 Long Term Care Facilities Rx Contract (\$3,773,069) (~~\$3,773,069~~)

Contracts for the provision of prescription drugs utilized by Medicaid covered residents of nursing facilities, intermediate care facilities for the mentally retarded, and adult care homes.

36 Hospital Payments (\$1,409,819) (\$1,409,819) (~~\$14,098,188~~)

Reduces payments to hospitals by 0.5%. Options for reducing payment include using waivers to reduce hospital costs associated with billing Medicaid and implementing a revised outpatient/emergency payment method to relate payment to services received.

37 Prospective Rates for Home Health Services (\$991,979) (\$991,979) (~~\$991,979~~)

Establishes prospective rate payment system for Home Health Services and pay for services based on an assessment of the specific needs of the Medicaid recipient. Payment for services will no longer be tied to the number of provider visits.

38 Home Infusion Therapy (\$88,809) 0

Reduces reimbursement rates for home infusion therapy providers by 5%.

39 Contract for Home Infusion Therapy (\$81,663) (~~\$81,663~~)

Contracts for Home Infusion Therapy services and reduce the number of providers.

40 Define "Efficient Provider" for Long Term Care (\$15,175,621) (~~\$15,175,621~~)

Reduces expenditures by basing payment for long term care providers (nursing facilities, intermediate care facilities for the mentally retarded, and adult care home - personal care services) on an "efficient provider" operating profile.

41 Home Health Supplies (\$190,000) 0

Reduces reimbursement rates for home health supplies providers by 5%.

HOUSE APPROPRIATIONS SUBCOMMITTEE ON HEALTH AND HUMAN SERVICES

Wednesday, July 24, 2002

8:30 A. M.

Room 424, Legislative Office Building

The Appropriations subcommittee on Health and Human Services met on Wednesday, July 24, 2002 at 8:30 A.M. in Room 424 of the Legislative Office Building. Members present were Representative Edd Nye, Representative Beverly Earle, Co-Chairs; Representatives Walter Church, Debbie Clary, Theresa Esposito, and Verla Insko.

Representative Earle called the meeting to order and welcomed Committee members and visitors. Attached is the Visitor Registration Sheet that is made a part of the minutes (See Attachment No. 1).

Representative Earle stated they would be going back to page 11G of the handout from the meeting on the previous day (See minutes for July 23, 2002).

Jim Klingler, Fiscal Research Staff, stated the list of contracts in item number 66 is correct, but the total amount should be \$419,674. He then reviewed the Division of Public Health beginning on page 12G. Representative Insko asked, concerning item number 92, if all hospital did newborn screenings. Mr. Klingler responded that all hospitals that deliver babies do the screenings.

Representative Earle stated that in the previous day's meeting, it was requested that the Department would provide the amount of funds remaining in most of the programs. She stated the information would be available Thursday or Friday, and would be delivered to the members.

Susan Morgan, Fiscal Research Staff, continued with the presentation on page G19, Division of Social Services. Representative Nye asked that enhanced care for adult care homes case management be flagged. He said he understood that it brings in eight million dollars and cost six and one-half million to operate. He would like more information on this.

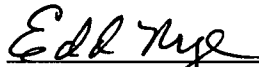

Carol Shaw, Fiscal Research Staff, continued the presentation to the Committee by reviewing Division of Vocational Rehabilitation. Representative Insko stated she would like more information on item no. 138. She said she understood that the three divisions had already consolidated their administration and most of the savings had been realized.

Ms. Shaw continued by reviewing Services for the Blind and Services for Deaf and Hard of Hearing.

The last Divisions to be reviewed were NC Health Choice beginning on page 24G. Representative Clary asked, concerning item no. 147, if children, under the program, would have continued access to health care. She noted it was quite a reduction for the providers because they do have some serious problems especially, in the dental area. Ms. Shaw agreed there would be problems, especially in the dental area. The last areas of review were Office of Education Services, and Office of the Secretary.

Representative Nye asked if there were any questions. Representative Clary noted there was a 28 million expansion item listed, while there is an eight million dollar cut that will very badly hurt access in the children's health choice program. Representative Esposito agreed and stated she didn't understand how the Committee would do this with a clear conscience. Another new program isn't needed. Representative Insko asked why the More At Four Program was in their budget when it was an academic program. Ms. Shaw stated the original appropriation last year was in their budget.

Representative Nye adjourned the meeting.

North Carolina Appropriations Subcommittee on Health and Human Services

Minutes
July 29, 2002
4:00 PM

The North Carolina Appropriations Subcommittee on Health and Human Services convened on Monday, July 29, 2002 at 4:10 pm in Room 643 of the Legislative Office Building. Representative Edd Nye opened the meeting. Presentations continued on the 2002-2003 budget.

The following members were present: Representative Beverly Earle, Co-Chair, Representative Edd Nye, Co-Chair, Representative Walter Church, Representative Debbie Clary, Representative Mark Crawford, Representative Theresa Esposito, Representative Verla Insko, and Representative Thomas Wright.

Carol Shaw, from the Fiscal Research Division, began by stating the 3 changes from the Governor's budget. The changes were made on Page 8G, item 54, Page 11G, item 66 and Page 29G, the More At Four Program is no longer in the budget. Representative Esposito wanted to know if the More At Four Program would appear in any other budget. Representative Redwine (Full Appropriations Chair) informed the committee that the More At Four Program would appear in the House Budget that will be debated in the Full Appropriation's Committee.

Representative Earle offered the first amendment. Rewriting item #45, page 7G, by eliminating #103 on page 166, and by rewriting #170 on page 28G. Representative Earle moved for the amendment to be adopted. The amendment was adopted. (See Attachment 3)

Representative Mark Crawford offered amendment #2. The amendment moves to amend the draft Health and Human Services House/Senate Comparison Report, dated July 23, 2002, on page 29G, by adding new items. The amendment failed. (See Attachment 4)

Representative Verla Insko offered Amendment #3. The amendment moves to amend on page 13G, item 81, and on page 1G, item 7. After further discussion with the Committee chairs, the amendment was withdrawn. (See Attachment 5)

Appropriations Subcommittee on Health and Human Services
July 29, 2002
Minutes

Representative Earle offered amendment #4. Page 13G item 80 and item 108. The amendment was withdrawn. (See Attachment 6).

Representative Nye asked for a motion to adopt the report. Representative Earle moved for the report to be adopted. The House/Senate Comparison Report was adopted.

The meeting was adjourned.

Respectfully Submitted,

Edd Nye

Presiding, Representative Edd Nye, Co-Chair

117 State/County Special Assistance

(\$2,045,157)

0

Maintains the current rate of \$1,091 for the 02-03 fiscal year. Maintaining this rate will result in a cost-savings of an equal amount for local Departments of Social Services. An amount of \$300,000 in remaining funds shall be used for expanded audit requirements.

118 State/County Special Assistance

(\$2,145,157)

0

Maintains the current rate of \$1,091 for the 02-03 fiscal year. Maintaining this rate will result in a cost-savings of an equal amount for local Departments of Social Services. An amount of \$200,000 in remaining funds shall be used for expanded audit requirements.

119 Families for Kids

(\$1,200,000)

(\$1,200,000)

0

Eliminates funding for 16 local Departments of Social Services. Historically, these funds have been used to assist counties improving their child welfare services and reduce the amount of time children remain in the foster care system.

Various Contracts

(\$892,743)

(\$892,743)

(\$892,743)

Eliminates state appropriations for the following contracts in the Child Support Section:

Child Support Enforcement Training - \$641,893
Child Support Enforcement Help Desk - \$229,840
Ohio State Treasurer - \$ 21,010

121 Child Support Backlog

(\$1,500,000)

(\$1,500,000)

(\$1,500,000)

Eliminates expansion item that was not funded during the 01-02 fiscal year. Funding was intended to address Child Support Enforcement backlogs in urban counties. The Division addressing the problem through improving current operating procedures without additional funds.

122 Intensive Family Preservation Services

(\$500,000)

0

Reduces State funds for a Program involving 53 providers focused on preventing out-of-home placement for high-risk children. Services will be maintained with additional Federal funds.

130 State Maternity Home Funds

(\$438,354)

(~~876,708~~)

Reduces State funds for maternity homes. TANF Block Grant funds will be used to replace the reduction in State funds.

131 Welfare Automation Fund

(\$8,000,000)

0

Reduces State funds used for various automation projects in the Department of Health and Human Services.

132 Boys and Girls Clubs

\$550,000 NR

\$550,000 NR

0

Provides State appropriations to replace federal funding historically used to support Boys and Girls Clubs across the state. Due to a reduction in the Temporary Assistance for Needy Families (TANF) Block Grant, this item could not be funded with federal funds for the 02-03 fiscal year.

133 Food Banks

\$1,000,000 NR

\$900,000 NR

0

Provides funds to be equally distributed to the regional network of food banks in North Carolina.

134 Special Children Adoption Fund

\$2,000,000 NR

0

Provides State appropriations to replace federal funding historically provided to adoption agencies in order to increase the number of children adopted from the foster care system. Due to a reduction in the Temporary Assistance for Needy Families Block Grant, this item could not be funded with federal funds for the 02-03 fiscal year.

135 Funds for Work Central Career Advancement Center

\$500,000 NR

0

Provides State appropriations for a Call Center in Edgecombe County (serving seven counties) historically funded with federal funds. Due to a reduction in the Temporary Assistance for Needy Families Block Grant, federal funds are not available to fund this project for the 02-03 fiscal year.

Division of Vocational Rehabilitation

136	Direct VR Client Services	(\$1,922,522)	(\$3,499,678)	(\$1,922,522)
------------	---------------------------	---------------	---------------	---------------

Reduces state appropriations for vocational rehabilitation client services by implementing stricter case policies and "order of selection" policies that allow a waiting list for the least disabled clients.

137	Administrative Operational Costs	(\$400,000)	(\$400,000)	(\$400,000)
------------	----------------------------------	-------------	-------------	-------------

Reduces administrative costs by reducing expenditures for supplies, travel, and equipment.

138	Disability Division's Consolidation	(\$750,000)	(\$750,000)	0
------------	-------------------------------------	-------------	-------------	---

Reduces state appropriations for the Divisions of Services for the Blind and Vocational Rehabilitation by consolidating the Division of Services for the Blind, Division of Services for the Deaf and Hard of Hearing, and Division of Vocational Rehabilitation and creating a new Division to be named by the Department of Health and Human Services. Reductions will result from the consolidation of administration for all three divisions, consolidation of district offices in cities where there are two or more district offices, and streamlining of direct client services provided by all three divisions. No reductions are to come from the Division of Services for the Deaf and Hard of Hearing, and services unique to persons who are deaf or blind shall be maintained.

139	Vacant Positions	(\$850,000) -25.00	(\$850,000) -25.00	(\$700,000) -20.0
------------	------------------	-----------------------	-----------------------	----------------------

Eliminates 25.0 vacant positions including 1.0 Adj. Services Instructor, 1.0 Administrative Assistant I, 1.0 Administrative Officer III, 1.0 Computer Technical Support III, 8.0 Office Assistant II's, 1.0 Office Assistant IV, 1.0 Processing Assistant III, 1.0 Program Assistant V, 1.0 Rehab. Case Assistant, 2.0 Rehab. Case Supervisors, 1.0 Rehab. Education Specialist, 1.0 Stock Clerk II, 1.0 Vocational Evaluator II, and 1.0 Vocational Evaluation Specialist.

140	Universal Design Contract	(\$50,000)	(\$99,998)	0
------------	---------------------------	------------	------------	---

Reduces Universal Design contract with NCSU's Center for Universal Design.

Divisions of Services for the Blind and Services for Deaf & Hard of Hearing

141	Special Assistance for the Blind	(\$158,000)	(\$158,000)	(\$158,000)
-----	----------------------------------	-------------	-------------	--------------------------

Reduces excess funding in the Special Assistance for the Blind program.

142	Medical Eye Care and Independent Living Services	(\$64,000) -1.00	(\$64,000) -1.00	(\$64,000)
-----	--	---------------------	---------------------	-------------------------

Reduces funding for Medical Eye Care and Independent Living Services by eliminating 1.0 Medical Eye Care Consultant position and reducing funding for medical/scientific equipment and educational supplies.

143	Cost Allocation to Telecommunications Access of NC	(\$21,013)	(\$21,013)	(\$21,013)
-----	--	------------	------------	-------------------------

Reduces state appropriations to the Division of Services for the Deaf and Hard of Hearing by increasing receipts from Telecommunication Access of NC through cost allocation.

144	Operating Expenses	(\$200,000)	(\$200,000)	0
-----	--------------------	-------------	-------------	---

Maintains expenditures for SFY 2003 for operating expenses at the SFY 2002 expenditure level.

145	Medical Eye Care Program	(\$200,000)	(\$200,000)	0
-----	--------------------------	-------------	-------------	---

Reduces excess funding in the Medical Eye Care Program.

NC Health Choice

146	Dispensing Fee Reduction	(\$168,964)	(\$168,964)	0
-----	--------------------------	-------------	-------------	---

Reduces premiums for the NC Health Choice program by reducing the dispensing fee paid to pharmacists from \$6.00 per prescription to \$4.00 for brand name drugs and \$5.60 for generic drugs. This is the same dispensing fee as paid by the Medicaid Program.

147	Premium Reduction by Using Medicaid Reimbursement	(\$8,578,528)	(\$8,578,528)	0
-----	---	---------------	---------------	---

Reduces premiums for the NC Health Choice Program by paying Medicaid reimbursement rates to NC Health Choice providers.

148 Co-Payments

(\$771,128)

0

Reduces premiums for the NC Health Choice program by increasing co-payments for families with income greater than 150% of the federal poverty level and establishing new co-payments for families with income at or below 150% of the federal poverty level.

Increased rates for families with income greater than 150% of the FPL:

Office/Mental Health Visit Increased to \$10 from \$5
Rx Filled Was \$6 for all Drugs
 Now \$5 for Generic and
 \$10 for brand name
Non- emergency Use of ER Increased to \$30 from \$20

New co-payments for families with income at or below 150% of the FPL:

Office/Mental Health Visit \$5
Rx Filled \$1 for Generic and
 \$3 for brand name
Non-emergency Use of ER \$10

149 Co-payments

(\$454,669)

0

Reduces premiums for the NC Health Choice program by increasing co-payments for families with income greater than 150% of the federal poverty level and establishing new co-payments for families with income at or below 150% of the federal poverty level.

Increased rates for families with income greater than 150% of the FPL:

Office/Mental Health Visit Increased to \$7 from \$5
Rx Filled Was \$6 for all Drugs
 Now \$5 for Generic and
 \$10 for brand name
Non- emergency Use of ER Increased to \$30 from \$20

New co-payments for families with income at or below 150% of the FPL:

Office/Mental Health Visit \$2
Rx Filled \$1 for Generic and
 \$3 for brand name
Non-emergency Use of ER \$10

Gann Watson (Bill Drafting)

From: Carol Shaw (Fiscal Research)
Sent: Wednesday, July 24, 2002 2:51 PM
To: Gann Watson (Bill Drafting)
Subject: #2

This amendment will add a new item in the Office of the Secretary. The new item title is "More At Four". The new reduction is (\$6,456,500). The short snappie for the new item is as follows "Eliminates funding for the "More At Four" prekindergarten program for at-risk four year olds."

Now spend this money by reducing the reduction in Item #13 (got it right this time!) by \$6,4456,500 The short snappie is rewritten to say the following "Reduces funding for activities at local Smart Start Partnerships. \$6,456,500 of funding for the local Smart Start Partnerships shall be used to serve the needs of at-risk four year olds and cannot supplant existing funding for the same purposes"

35 Long Term Care Facilities Rx Contract (\$3,773,069) (~~\$3,773,069~~)

Contracts for the provision of prescription drugs utilized by Medicaid covered residents of nursing facilities, intermediate care facilities for the mentally retarded, and adult care homes.

36 Hospital Payments (\$1,409,819) (\$1,409,819) (~~\$14,098,189~~)

Reduces payments to hospitals by 0.5%. Options for reducing payment include using waivers to reduce hospital costs associated with billing Medicaid and implementing a revised outpatient/emergency payment method to relate payment to services received.

37 Prospective Rates for Home Health Services (\$991,979) (\$991,979) (~~\$991,979~~)

Establishes prospective rate payment system for Home Health Services and pay for services based on an assessment of the specific needs of the Medicaid recipient. Payment for services will no longer be tied to the number of provider visits.

38 Home Infusion Therapy (\$88,809) 0

Reduces reimbursement rates for home infusion therapy providers by 5%.

39 Contract for Home Infusion Therapy (\$81,663) (~~\$81,663~~)

Contracts for Home Infusion Therapy services and reduce the number of providers.

40 Define "Efficient Provider" for Long Term Care (\$15,175,621) (~~\$15,175,621~~)

Reduces expenditures by basing payment for long term care providers (nursing facilities, intermediate care facilities for the mentally retarded, and adult care home - personal care services) on an "efficient provider" operating profile.

41 Home Health Supplies (\$190,000) 0

Reduces reimbursement rates for home health supplies providers by 5%.

117 State/County Special Assistance	(\$2,045,157)	(\$2,045,157)	0
-------------------------------------	---------------	---------------	---

Maintains the current rate of \$1,091 for the 02-03 fiscal year. Maintaining this rate will result in a cost-savings of an equal amount for local Departments of Social Services. An amount of \$300,000 in remaining funds shall be used for expanded audit requirements.

118 State/County Special Assistance	(\$2,145,157)	(\$2,145,157)	0
-------------------------------------	---------------	---------------	---

Maintains the current rate of \$1,091 for the 02-03 fiscal year. Maintaining this rate will result in a cost-savings of an equal amount for local Departments of Social Services. An amount of \$200,000 in remaining funds shall be used for expanded audit requirements.

119 Families for Kids	(\$1,200,000)	(\$1,200,000)	0
-----------------------	---------------	---------------	---

Eliminates funding for 16 local Departments of Social Services. Historically, these funds have been used to assist counties improving their child welfare services and reduce the amount of time children remain in the foster care system.

120 Various Contracts	(\$892,743)	(\$892,743)	(\$892,743)
-----------------------	-------------	-------------	-------------

Eliminates state appropriations for the following contracts in the Child Support Section:

Child Support Enforcement Training - \$641,893
 Child Support Enforcement Help Desk - \$229,840
 Ohio State Treasurer - \$ 21,010

121 Child Support Backlog	(\$1,500,000)	(\$1,500,000)	(\$1,500,000)
---------------------------	---------------	---------------	---------------

Eliminates expansion item that was not funded during the 01-02 fiscal year. Funding was intended to address Child Support Enforcement backlogs in urban counties. The Division addressing the problem through improving current operating procedures without additional funds.

122 Intensive Family Preservation Services	(\$500,000)	(\$500,000)	0
--	-------------	-------------	---

Reduces State funds for a Program involving 53 providers focused on preventing out-of-home placement for high-risk children. Services will be maintained with additional Federal funds.

130 State Maternity Home Funds

(\$438,354)

(876,708)

Reduces State funds for maternity homes. TANF Block Grant funds will be used to replace the reduction in State funds.

131 Welfare Automation Fund

(\$8,000,000)

0

Reduces State funds used for various automation projects in the Department of Health and Human Services.

132 Boys and Girls Clubs

\$550,000 NR

\$550,000 NR

0

Provides State appropriations to replace federal funding historically used to support Boys and Girls Clubs across the state. Due to a reduction in the Temporary Assistance for Needy Families (TANF) Block Grant, this item could not be funded with federal funds for the 02-03 fiscal year.

133 Food Banks

\$1,000,000 NR

\$900,000 NR

0

Provides funds to be equally distributed to the regional network of food banks in North Carolina.

134 Special Children Adoption Fund

\$2,000,000 NR

0

Provides State appropriations to replace federal funding historically provided to adoption agencies in order to increase the number of children adopted from the foster care system. Due to a reduction in the Temporary Assistance for Needy Families Block Grant, this item could not be funded with federal funds for the 02-03 fiscal year.

135 Funds for Work Central Career Advancement Center

\$500,000 NR

0

Provides State appropriations for a Call Center in Edgecombe County (serving seven counties) historically funded with federal funds. Due to a reduction in the Temporary Assistance for Needy Families Block Grant, federal funds are not available to fund this project for the 02-03 fiscal year.

Division of Vocational Rehabilitation

136	Direct VR Client Services	(\$1,922,522)	(\$3,499,678)	(\$ 1,922,522)
------------	---------------------------	---------------	---------------	----------------------------

Reduces state appropriations for vocational rehabilitation client services by implementing stricter case policies and "order of selection" policies that allow a waiting list for the least disabled clients.

137	Administrative Operational Costs	(\$400,000)	(\$400,000)	(\$ 400,000)
------------	----------------------------------	-------------	-------------	--------------------------

Reduces administrative costs by reducing expenditures for supplies, travel, and equipment.

138	Disability Division's Consolidation	(\$750,000)	(\$750,000)	0
------------	-------------------------------------	-------------	-------------	---

Reduces state appropriations for the Divisions of Services for the Blind and Vocational Rehabilitation by consolidating the Division of Services for the Blind, Division of Services for the Deaf and Hard of Hearing, and Division of Vocational Rehabilitation and creating a new Division to be named by the Department of Health and Human Services. Reductions will result from the consolidation of administration for all three divisions, consolidation of district offices in cities where there are two or more district offices, and streamlining of direct client services provided by all three divisions. No reductions are to come from the Division of Services for the Deaf and Hard of Hearing, and services unique to persons who are deaf or blind shall be maintained.

139	Vacant Positions	(\$850,000) -25.00	(\$850,000) -25.00	(\$ 700,000) -20.0
------------	------------------	-----------------------	-----------------------	-----------------------------------

Eliminates 25.0 vacant positions including 1.0 Adj. Services Instructor, 1.0 Administrative Assistant I, 1.0 Administrative Officer III, 1.0 Computer Technical Support III, 8.0 Office Assistant II's, 1.0 Office Assistant IV, 1.0 Processing Assistant III, 1.0 Program Assistant V, 1.0 Rehab. Case Assistant, 2.0 Rehab. Case Supervisors, 1.0 Rehab. Education Specialist, 1.0 Stock Clerk II, 1.0 Vocational Evaluator II, and 1.0 Vocational Evaluation Specialist.

140	Universal Design Contract	(\$50,000)	(\$99,998)	0
------------	---------------------------	------------	------------	---

Reduces Universal Design contract with NCSU's Center for Universal Design.

Divisions of Services for the Blind and Services for Deaf & Hard of Hearing

141	Special Assistance for the Blind	(\$158,000)	(\$158,000)	(\$158,000)
-----	----------------------------------	-------------	-------------	--------------------------

Reduces excess funding in the Special Assistance for the Blind program.

142	Medical Eye Care and Independent Living Services	(\$64,000) -1.00	(\$64,000) -1.00	(\$64,000)
-----	--	---------------------	---------------------	-------------------------

Reduces funding for Medical Eye Care and Independent Living Services by eliminating 1.0 Medical Eye Care Consultant position and reducing funding for medical/scientific equipment and educational supplies.

143	Cost Allocation to Telecommunications Access of NC	(\$21,013)	(\$21,013)	(\$21,013)
-----	--	------------	------------	-------------------------

Reduces state appropriations to the Division of Services for the Deaf and Hard of Hearing by increasing receipts from Telecommunication Access of NC through cost allocation.

144	Operating Expenses	(\$200,000)	(\$200,000)	0
-----	--------------------	-------------	-------------	---

Maintains expenditures for SFY 2003 for operating expenses at the SFY 2002 expenditure level.

145	Medical Eye Care Program	(\$200,000)	(\$200,000)	0
-----	--------------------------	-------------	-------------	---

Reduces excess funding in the Medical Eye Care Program.

NC Health Choice

146	Dispensing Fee Reduction	(\$168,964)	(\$168,964)	0
-----	--------------------------	-------------	-------------	---

Reduces premiums for the NC Health Choice program by reducing the dispensing fee paid to pharmacists from \$6.00 per prescription to \$4.00 for brand name drugs and \$5.60 for generic drugs. This is the same dispensing fee as paid by the Medicaid Program.

147	Premium Reduction by Using Medicaid Reimbursement	(\$8,578,528)	(\$8,578,528)	0
-----	---	---------------	---------------	---

Reduces premiums for the NC Health Choice Program by paying Medicaid reimbursement rates to NC Health Choice providers.

148 Co-Payments

(\$771,128)

0

Reduces premiums for the NC Health Choice program by increasing co-payments for families with income greater than 150% of the federal poverty level and establishing new co-payments for families with income at or below 150% of the federal poverty level.

Increased rates for families with income greater than 150% of the FPL:

Office/Mental Health Visit Increased to \$10 from \$5
Rx Filled Was \$6 for all Drugs
 Now \$5 for Generic and
 \$10 for brand name
Non- emergency Use of ER Increased to \$30 from \$20

New co-payments for families with income at or below 150% of the FPL:

Office/Mental Health Visit \$5
Rx Filled \$1 for Generic and
 \$3 for brand name
Non-emergency Use of ER \$10

149 Co-payments

(\$454,669)

0

Reduces premiums for the NC Health Choice program by increasing co-payments for families with income greater than 150% of the federal poverty level and establishing new co-payments for families with income at or below 150% of the federal poverty level.

Increased rates for families with income greater than 150% of the FPL:

Office/Mental Health Visit Increased to \$7 from \$5
Rx Filled Was \$6 for all Drugs
 Now \$5 for Generic and
 \$10 for brand name
Non- emergency Use of ER Increased to \$30 from \$20

New co-payments for families with income at or below 150% of the FPL:

Office/Mental Health Visit \$2
Rx Filled \$1 for Generic and
 \$3 for brand name
Non-emergency Use of ER \$10

North Carolina Appropriations Subcommittee on Health and Human Services

Minutes
July 31, 2002
5:00 PM

The North Carolina Appropriations Subcommittee on Health and Human Services met on July 31, 2002 in Room 643 of the Legislative Office Building. Representative Beverly Earle opened the meeting at 5:30 pm. Carol Shaw, Fiscal Research Division, continued from the previous meeting on page 13, with the Special Provisions.

The following members were present: Representative Beverly Earle, Co-Chair, Representative Edd Nye, Co-Chair, Representative Debbie Clary, Representative Theresa Esposito, Representative Mark Crawford, Representative Verla Insko, Representative Billy Creech, and Representative Walter Church.

Ms. Shaw informed the committee that if the items were the same, different or new as the Senate, it would be indicated at the top of the page. Just to name a few divisions, she begins with the Information Technology Project Contracts. Positions established pursuant to this section may commence no earlier than July 1, 2001, and shall expire June 30, 2005. It is the same as the Senate. Administrative Consolidation of Divisions of Services for the Deaf and the Hard of Hearing, Services for the Blind, and Vocational Rehabilitation. The following three divisions shall continue consolidating their administrative functions and reducing the number of cities where there are two or more district offices. It is different from the Senate. Staffing requirements in Long-Term Care Facilities. The Department of Health and Human Services, Office of Long-Term Care, shall review staffing requirements of Adult Day Care Programs and Adult Day Health Programs. The same as the Senate. Rural Health Loan Repayment Incentive Program. The Department of Health and Human Services, Office of Rural Health, shall conduct an assessment of the Rural Health Loan Repayment Incentive Program. Access to Pharmaceutical Company Prescription Drug Programs. Of the funds appropriated in this act to the Department of Health and Human Services, the sum of \$200,000 for the 2001-2002 fiscal year shall be used to initiate the development of a system to assist eligible individuals in obtaining prescription drugs at no cost through pharmaceutical company programs. Use of Funds for the Child Advocacy Institute. State funds appropriated for the Child Advocacy Institute shall be used only for administration of the Child Advocacy Institute or for research and other services provided by the Institute.

Carol Shaw, Susan Morgan, and Jim Klingler, from the Fiscal Research Division, explained the entire Special Provisions. (See Attachment 2 Special Provisions)

Appropriations Subcommittee on Health and Human Services

July 31, 2002

Minutes

Page 2

Questions and comments were given at this time.

This completed the presentation and discussion of the Special Provisions.

Representative Earle asked that all members to please bring their copy of the Special Provisions to the next meeting, which was scheduled for 8 am on August 1, 2002.

The meeting adjourned.

Respectfully submitted,

Presiding, Representative Beverly Earle

Representative Edd Nye

Ann Raeford, Committee Assistant

43 **SECTION 5.1.(b) Decreases in Federal Fund Availability.** – If the United

44 States Congress reduces federal fund availability in the Social Services Block Grant

45 below the amounts appropriated in this section, then the Department of Health and

46 Human Services shall allocate these decreases giving priority first to those direct

1 services mandated by State or federal law, then to those programs providing direct
2 services that have demonstrated effectiveness in meeting the federally and
3 State-mandated services goals established for the Social Services Block Grant. The
4 Department shall not include transfers from TANF for specified purposes in any
5 calculations of reductions to the Social Services Block Grant.

6 If the United States Congress reduces the amount of TANF funds below the
7 amounts appropriated in this section after the effective date of this act, then the
8 Department shall allocate the decrease in funds after considering any underutilization of
9 the budget and the effectiveness of the current level of services. Any TANF Block
10 Grant fund changes shall be reported to the Senate Appropriations Committee on Health
11 and Human Services, the House of Representatives Appropriations Subcommittee on
12 Health and Human Services, and the Fiscal Research Division.

13 Decreases in federal fund availability shall be allocated for the Maternal and
14 Child Health and Preventive Health Services federal block grants by the Department of
15 Health and Human Services after considering the effectiveness of the current level of
16 services.

17 **SECTION 5.1.(c) Increases in Federal Fund Availability.** – Any block grant
18 funds appropriated by the United States Congress in addition to the funds specified in
19 this act shall be expended by the Department of Health and Human Services, with the
20 approval of the Office of State Budget and Management, provided the resultant
21 increases are in accordance with federal block grant requirements and are within the
22 scope of the block grant plan approved by the General Assembly.

23 **SECTION 5.1.(d) Changes to the budgeted allocations to the block grants**
24 **appropriated in this act and new allocations from the block grants not specified in this**
25 **act shall be submitted to the Joint Legislative Commission on Governmental Operations**
26 **for review prior to the change and shall be reported immediately to the Senate**
27 **Appropriations Committee on Health and Human Services, the House of**
28 **Representatives Appropriations Subcommittee on Health and Human Services, and the**
29 **Fiscal Research Division.**

30 **SECTION 5.1.(e) The Department of Health and Human Services may**
31 **allow no-cost contract extensions for up to six months for nongovernmental grant**
32 **recipients under the TANF Block Grant.**

33 **SECTION 5.1.(f) Limitations on Preventive Health Services Block Grant**
34 **Funds.** – Twenty-five percent (25%) of funds allocated for Rape Prevention and Rape
35 Education shall be allocated as grants to nonprofit organizations to provide rape
36 prevention and education programs targeted for middle, junior high, and high school
37 students.

38 If federal funds are received under the Maternal and Child Health Block
39 Grant for abstinence education, pursuant to section 912 of Public Law 104-193 (42
40 U.S.C. § 710), for the 2002-2003 fiscal year, then those funds shall be transferred to the
41 State Board of Education to be administered by the Department of Public Instruction.
42 The Department of Public Instruction shall use the funds to establish an Abstinence
43 Until Marriage Education Program and shall delegate to one or more persons the
44 responsibility of implementing the program and G.S. 115C-81(e1)(4). The Department
45 of Public Instruction shall carefully and strictly follow federal guidelines in
46 implementing and administering the abstinence education grant funds.

1 The Department of Health and Human Services shall contract for the
2 follow-up testing involved with the Newborn Screening Program. The Department may
3 contract for these services with an entity within or outside of the State; however, the
4 Department may only contract with an out-of-state entity if it can be demonstrated that
5 there is a cost-savings associated with contracting with the out-of-state entity. The
6 contract amount shall not exceed twenty-five thousand dollars (\$25,000). The amount of
7 the contract shall be covered by funds in the Maternal and Child Grant Block Grant.

8 **SECTION 5.1.(g)** The Department of Health and Human Services, Division
9 of Social Services, shall do the following:

10 (1) Continue the current evaluation of the Work First Program to assess
11 former recipients' earnings, barriers to advancement to economic
12 self-sufficiency, utilization of community support services, and other
13 longitudinal employment data. Assessment periods shall include six
14 and 18 months following closure of the case.

15 (2) Continue the current evaluation of the Work First Program to profile
16 the State's child-only caseload to include indicators of economic and
17 social well-being, academic and behavioral performance, demographic
18 data, description of living arrangements including length of placement
19 out of the home, social and other human services provided to families,
20 and other information needed to assess the needs of the child-only
21 Work First Family Assistance clients and families.

22 The Division of Social Services may use up to two hundred fifty thousand
23 dollars (\$250,000) in TANF funds to complete the evaluation of Work First.

24 The Department of Health and Human Services shall make a report on its
25 progress in complying with this subsection to the Senate Appropriations Committee on
26 Health and Human Services, the House of Representatives Appropriations
27 Subcommittee on Health and Human Services, and the Fiscal Research Division no later
28 than September 30, 2002.

29 **SECTION 5.1.(h)** The sum of one million five hundred thousand dollars
30 (\$1,500,000) appropriated in this act in the Social Services Block Grant to the
31 Department of Health and Human Services, Division of Social Services, for child caring
32 agencies for the 2002-2003 fiscal year shall be allocated to the State Private Child
33 Caring Agencies Fund. These funds shall be combined with all other funds allocated to
34 the State Private Child Caring Agencies Fund for the reimbursement of the State's
35 portion of the cost of care for the placement of certain children by the county
36 departments of social services who are not eligible for federal IV-E funds. These funds
37 shall not be used to match other federal funds.

38 **SECTION 5.1.(i)** The sum of three hundred thousand dollars (\$300,000)
39 appropriated in this section to the Department of Health and Human Services in the
40 Child Care and Development Fund Block Grant shall be used to develop and implement
41 a Medical Child Care Pilot open to children throughout the State.

42 **SECTION 5.1.(j)** Payment for subsidized child care services provided with
43 federal TANF funds shall comply with all regulations and policies issued by the
44 Division of Child Development for the subsidized child care program.

45 **SECTION 5.1.(k)** The sum of four hundred thousand dollars (\$400,000)
46 appropriated in this section in the TANF Block Grant to the Department of Health and

1 Human Services, Division of Social Services, for the 2002-2003 fiscal year shall be
2 used to support administration of TANF-funded programs.

3 **SECTION 5.1.(l)** The sum of one million nine hundred seventy-five
4 thousand one hundred forty-two dollars (\$1,975,142) appropriated in this section in the
5 TANF Block Grant to the Department of Health and Human Services, Division of
6 Mental Health, Developmental Disabilities, and Substance Abuse Services, for the
7 2002-2003 fiscal year shall be used to provide regional residential substance abuse
8 treatment and services for women with children. The Department of Health and Human
9 Services, the Division of Social Services, and the Division of Mental Health,
10 Developmental Disabilities, and Substance Abuse Services, in consultation with local
11 departments of social services, area mental health programs, and other State and local
12 agencies or organizations, shall coordinate this effort in order to facilitate the expansion
13 of regionally based substance abuse services for women with children. These services
14 shall be culturally appropriate and designed for the unique needs of TANF women with
15 children.

16 In order to expedite the expansion of these services, the Secretary of the
17 Department of Health and Human Services may enter into contracts with service
18 providers.

19 The Department of Health and Human Services, the Division of Social
20 Services, and the Division of Mental Health, Developmental Disabilities, and Substance
21 Abuse Services, shall report on their progress in complying with this subsection no later
22 than October 1, 2002, and March 1, 2003, to the Senate Appropriations Committee on
23 Health and Human Services, the House of Representatives Appropriations
24 Subcommittee on Health and Human Services, and the Fiscal Research Division. These
25 reports shall include all of the following:

- 26 (1) The number and location of additional beds created.
- 27 (2) The types of facilities established.
- 28 (3) The delineation of roles and responsibilities at the State and local
29 levels.
- 30 (4) Demographics of the women served, the number of women served,
31 and the cost per client.
- 32 (5) Demographics of the children served, the number of children served,
33 and the services provided.
- 34 (6) Job placement services provided to women.
- 35 (7) A plan for follow-up and evaluation of services provided with an
36 emphasis on outcomes.
- 37 (8) Barriers identified to the successful implementation of the expansion.
- 38 (9) Identification of other resources needed to appropriately and
39 efficiently provide services to Work First recipients.
- 40 (10) Other information as requested.

41 **SECTION 5.1.(m)** The sum of one million four hundred twenty-five
42 thousand dollars (\$1,425,000) appropriated in this section in the TANF Block Grant to
43 the Department of Health and Human Services and transferred to the Department of
44 Juvenile Justice and Delinquency Prevention for the 2002-2003 fiscal year shall be used
45 to support the existing Support Our Students Program and to expand the Program

1 statewide, focusing on low-income communities in unserved areas. These funds shall
2 not be used for administration of the program.

3 **SECTION 5.1.(n)** The sum of nine hundred thousand dollars (\$900,000)
4 appropriated under this section in the TANF Block Grant to the Department of Health
5 and Human Services, Division of Social Services, for the 2002-2003 fiscal year shall be
6 used to provide domestic violence services to Work First recipients. These funds shall
7 be used to provide domestic violence counseling, support, and other direct services to
8 clients. These funds shall not be used to establish new domestic violence shelters or to
9 facilitate lobbying efforts. The Division of Social Services may use up to seventy-five
10 thousand dollars (\$75,000) in TANF funds to establish one administrative position
11 within the Division of Social Services to implement this subsection.

12 Each county department of social services and the local domestic violence
13 shelter program serving the county shall jointly develop a plan for utilizing these funds.
14 The plan shall include the services to be provided and the manner in which the services
15 shall be delivered. The county plan shall be signed by the county social services director
16 or the director's designee and the domestic violence program director or the director's
17 designee and submitted to the Division of Social Services by December 1, 2002. The
18 Division of Social Services, in consultation with the Council for Women, shall review
19 the county plans and shall provide consultation and technical assistance to the
20 departments of social services and local domestic violence shelter programs, if needed.

21 The Division of Social Services shall allocate these funds to county
22 departments of social services according to the following formula: (i) each county shall
23 receive a base allocation of five thousand dollars (\$5,000) and (ii) each county shall
24 receive an allocation of the remaining funds based on the county's proportion of the
25 statewide total of the Work First caseload as of July 1, 2002, and the county's proportion
26 of the statewide total of the individuals receiving domestic violence services from
27 programs funded by the Council for Women as of July 1, 2002. The Division of Social
28 Services may reallocate unspent funds to counties that submit a written request for
29 additional funds.

30 The Department of Health and Human Services shall report on the uses of
31 these funds no later than March 1, 2003, to the Senate Appropriations Committee on
32 Health and Human Services, the House of Representatives Appropriations
33 Subcommittee on Health and Human Services, and the Fiscal Research Division.

34 **SECTION 5.1.(o)** The sum of one million four hundred twenty-five
35 thousand dollars (\$1,425,000) appropriated in this section in the TANF Block Grant to
36 the Department of Health and Human Services, Division of Social Services, shall be
37 used to expand after-school programs and services for at-risk children. The Department
38 shall develop and implement a grant program to award grants to community-based
39 programs that demonstrate the ability to reach children at risk of teen pregnancy and
40 school dropout. The Department shall award grants to community-based organizations
41 that demonstrate the ability to develop and implement linkages with local departments
42 of social services, area mental health programs, schools, and other human services
43 programs in order to provide support services and assistance to the child and family.
44 These funds may be used to establish one position within the Division of Social
45 Services to coordinate at-risk after-school programs and shall not be used for other State
46 administration. The Department shall report no later than March 1, 2003, on its progress

1 in complying with this section to the Senate Appropriations Committee on Health and
2 Human Services, the House of Representatives Subcommittee on Health and Human
3 Services, and the Fiscal Research Division.

4 **SECTION 5.1.(p)** The sum of seven million six hundred fifty-four thousand
5 eight hundred forty-one dollars (\$7,654,841) appropriated in this section in the TANF
6 Block Grant to the Department of Health and Human Services, Division of Social
7 Services, for the 2002-2003 fiscal year for Child Welfare Improvements shall be
8 allocated to the county departments of social services for hiring or contracting staff to
9 investigate and provide services in Child Protective Services cases; to provide foster
10 care and support services; to recruit, train, license, and support prospective foster and
11 adoptive families; and to provide interstate and post-adoption services for eligible
12 families.

13 **SECTION 5.1.(q)** The sum of one million five hundred thousand dollars
14 (\$1,500,000) appropriated in this section in the Mental Health Block Grant to the
15 Department of Health and Human Services, Division of Mental Health, Developmental
16 Disabilities, and Substance Abuse Services, for the 2002-2003 fiscal year and the sum
17 of four hundred twenty-two thousand three dollars (\$422,003) appropriated in this
18 section in the Social Services Block Grant to the Department of Health and Human
19 Services, Division of Social Services, for the 2002-2003 fiscal year shall be used to
20 continue a Comprehensive Treatment Services Program for Children in accordance with
21 Section 21.60 of S.L. 2001-424, as amended.

22 **SECTION 5.1.(r)** The sum of one million dollars (\$1,000,000) appropriated
23 in this section in the TANF Block Grant to the Department of Health and Human
24 Services, Division of Social Services, for fiscal year 2002-2003 shall be used to support
25 various child welfare training projects as follows:

- 26 (1) Provide a regional training center in southeastern North Carolina.
- 27 (2) Support the Masters Degree in Social Work/Baccalaureate Degree in
28 Social Work Collaborative.
- 29 (3) Provide training for residential child care facilities.
- 30 (4) Provide for various other child welfare training initiatives.

31 **SECTION 5.1.(s)** If funds appropriated through the Child Care and
32 Development Fund Block Grant for any program cannot be obligated or spent in that
33 program within the obligation or liquidation periods allowed by the federal grants, the
34 Department may move funds to child care subsidies, unless otherwise prohibited by
35 federal requirements of the grant, in order to use the federal funds fully.

36 **SECTION 5.1.(t)** The sum of one hundred ten thousand four hundred
37 sixty-nine dollars (\$110,469) appropriated in this section in the Preventive Health
38 Service Block Grant to the Department of Health and Human Services for the
39 2002-2003 fiscal year for HIV/AIDS Prevention Activities shall be used to enhance
40 activities for HIV/AIDS awareness and education within the Division of Public Health.
41 The position shall be responsible for all planning, programming, and budgeting for
42 compliance with this subsection. These prevention activities shall be targeted to the
43 general public and programs identified in this subsection and shall not be used to
44 augment the current grant programs that target high-risk populations through the
45 community-based organizations.

1 It is the intention of the General Assembly to focus current resources and
2 activities to strengthen and enhance prevention and intervention programs directed at
3 the reduction of HIV/AIDS. The Department shall coordinate efforts to enhance
4 awareness, education, and outreach with the North Carolina AIDS Advisory Council,
5 North Carolina Minority Health Advisory Council, representatives of faith
6 communities, representatives of nonprofit agencies, and other State agencies.

7 The Department of Health and Human Services shall coordinate and ensure
8 the implementation of developmentally appropriate education, awareness, and outreach
9 campaigns to comply with this subsection in the following programs and services:

- 10 (1) Division of Social Services programs and services:
11 a. Domestic Violence Prevention and Awareness.
12 b. Domestic Violence Services for Work First Families.
13 c. After School Services for At Risk Children.
14 d. Work First Boys/Girls Clubs.
- 15 (2) Division of Mental Health, Developmental Disabilities, and Substance
16 Abuse Services programs and services:
17 a. Substance Abuse Services for Juveniles.
18 b. Residential Substance Abuse Services for Women and
19 Children.
- 20 (3) Division of Public Health programs and services:
21 a. Teen Pregnancy Prevention Activities.
22 b. Out-of-Wedlock Births.
23 c. School Health Program.
24 d. High-Risk Maternity Clinic Services.
25 e. Perinatal Education and Training.
26 f. Public Information and Education.
27 g. Technical Assistance to Local Health Departments.
- 28 (4) Other divisions, services, and programs:
29 a. Family Support Services.
30 b. Family Resource Centers.
31 c. Independent Living Services.
32 d. Residential schools and facilities.
33 e. Other programs, services, or contracts that provide education
34 and awareness services to children and families.

35 Other State agencies, including the Department of Public Instruction, the
36 Department of Juvenile Justice and Delinquency Prevention, and the Department of
37 Administration, shall ensure the incorporation of developmentally appropriate
38 HIV/AIDS education, awareness, and outreach information into their programs.

39 The Department shall report on the implementation of this subsection not
40 later than May 1, 2003, to the Senate Appropriations Committee on Health and Human
41 Services, the House of Representatives Appropriations Subcommittee on Health and
42 Human Services, and the Fiscal Research Division.

43 **SECTION 5.1.(u)** The sum of four hundred thirty-eight thousand dollars
44 (\$438,000) appropriated in this section in the TANF Block Grant to the Department of
45 Health and Human Services shall be used to purchase services at maternity homes
46 throughout the State.

1 STAFFING REQUIREMENTS IN LONG-TERM CARE FACILITIES

2 **SECTION 10.3.(a)** The Department of Health and Human Services, Office
3 of Long-Term Care, shall review staffing requirements of Adult Day Care Programs and
4 Adult Day Health Programs.

5 **SECTION 10.3.(b)** The Department shall report the results of its review to
6 the Senate Appropriations Committee on Health and Human Services, the House of
7 Representatives Appropriations Subcommittee on Health and Human Services, and the
8 Fiscal Research Division not later than December 1, 2002. The report shall include
9 staffing requirements for adult day care and adult day health programs as compared to
10 adult care homes, assisted living facilities, and nursing homes in the State. The report
11 shall also compare staffing ratios in North Carolina to those of other states, including
12 those states that border North Carolina. The report shall be conducted by the
13 Department, Office of Long-Term Care, or by an independent contractor and shall
14 contain all of the following specific information:

- 15 (1) Number of staff required per resident.
- 16 (2) Education/work experience required and preferred as a basis for hire.
- 17 (3) Specific job duties outlined in job descriptions.
- 18 (4) Rationale and justification for establishing the existing staff ratios in
19 the Division of Aging's policy for adult day care and adult day health
20 care.
- 21 (5) An analysis of the variance in staffing requirements among adult day
22 care and adult day health programs, adult care homes, assisted living
23 facilities, and nursing homes.
- 24 (6) Identification of the entities responsible for licensing and monitoring
25 quality for all providers of long-term care in the State.
- 26 (7) Recommendations for changes to existing policies based on findings of
27 the Department's review.

3 SECTION #.(a) G.S. 143B-216.20, 143B-216.21, 143B-216.22, and 143B-
4 216.23 are recodified as subsections (a) through (d) of new G.S. 143A-48.1 in Article 5
5 of Chapter 143A of the General Statutes.

6 SECTION #.(b) G.S. 143A-48.1, as codified by this section, reads as
7 rewritten:

8 "§ 143A-48.1. North Carolina Council on the Holocaust; creation;
9 ~~purpose; purpose; membership; expenses; assistance.~~

10 (a) There is hereby created the North Carolina Council on the Holocaust. The
11 purpose of the Council is to prevent future atrocities similar to the systematic program
12 of genocide of six million Jews and others by the Nazis. This purpose shall be
13 accomplished by developing a program of education and observance of the Holocaust.

14 (b) The Council shall consist of 24 members, six appointed by the Governor, six
15 appointed by the President Pro Tempore of the Senate, six appointed by the Speaker of
16 the House of Representatives, and six appointed by the other 18 members. Members
17 shall be appointed ~~in 1985 for two year terms to begin July 1, 1985. In 1987 and~~
18 ~~biennially thereafter, successors shall be appointed for two year terms. for two-year~~
19 terms to begin July 1 of each odd-numbered year. The six at-large appointments shall be
20 made by the Council at its first meeting after July 1 of each odd-numbered year. To be
21 eligible for appointment as an at-large member, a person must either be a survivor of the
22 Holocaust or a first-generation lineal descendant of such person. A majority of the
23 members shall constitute a quorum for the transaction of business.

24 (c) The members of the Council shall be compensated and reimbursed for their
25 expenses in accordance with G.S. 138-5.

26 (d) The ~~Secretary-Superintendent~~ of Public Instruction may arrange for clerical or
27 other assistance required by the Council."

28 SECTION #.(c) G.S. 143B-138.1(b)(14) is repealed.

29 SECTION #.(d) The North Carolina Council on the Holocaust, as created by
30 Part 28 of Article 3 of Chapter 143B of the General Statutes, and recodified as G.S.
31 143A-48.1 by this section, is transferred to the Department of Public Instruction by a

SPECIAL PROVISION

2002-DHHS-H68

Department of Health and Human Services
Appropriations Subcommittee on Health and Human Services

Requested by: Representatives Earle, Nye

1 **NONMEDICAID REIMBURSEMENT CHANGES**

2 SECTION #. Section 21.59 of S.L. 2001-424 reads as rewritten:

3 "SECTION 21.59. Providers of medical services under the various State programs,
4 other than Medicaid, offering medical care to citizens of the State shall be reimbursed at
5 rates no more than those under the North Carolina Medical Assistance Program.

6 The Department of Health and Human Services may reimburse hospitals at the full
7 prospective per diem rates without regard to the Medical Assistance Program's annual
8 limits on hospital days. When the Medical Assistance Program's per diem rates for
9 inpatient services and its interim rates for outpatient services are used to reimburse
10 providers in non-Medicaid medical service programs, retroactive adjustments to claims
11 already paid shall not be required.

12 Notwithstanding the provisions of paragraph one, the Department of Health and
13 Human Services may negotiate with providers of medical services under the various
14 Department of Health and Human Services programs, other than Medicaid, for rates as
15 close as possible to Medicaid rates for the following purposes: contracts or agreements
16 for medical services and purchases of medical equipment and other medical supplies.
17 These negotiated rates are allowable only to meet the medical needs of its non-Medicaid
18 eligible patients, residents, and clients who require such services which cannot be
19 provided when limited to the Medicaid rate.

20 Maximum net family annual income eligibility standards for services in these
21 programs shall be as follows:

22	23	24	25	26	27	28	29	30	31
	<u>Family Size</u>	<u>Medical Eye Care Adults</u>	<u>AllRehabilitation Except DSB Over 55 Grant</u>						<u>Other</u>
24	1	\$4,860	\$8,364						\$4,200
25	2	5,940	10,944						5,300
26	3	6,204	13,500						6,400
27	4	7,284	16,092						7,500
28	5	7,821	18,648						7,900
29	6	8,220	21,228						8,300
30	7	8,772	21,708						8,800
31	8	9,312	22,220						9,300

32 The eligibility level for children in the Medical Eye Care Program in the Division of
33 Services for the Blind shall be one hundred percent (100%) of the federal poverty
34 guidelines, as revised annually by the United States Department of Health and Human
35 Services and in effect on July 1 of each fiscal year. The eligibility level for adults 55
36 years of age or older who qualify for services through the Division of Services for the

1 Blind, Independent Living Rehabilitation Program shall be two hundred percent (200%)
 2 of the federal poverty guidelines, as revised annually by the United States Department
 3 of Health and Human Services and in effect on July 1 of each fiscal year. The eligibility
 4 level for adults in the Atypical Antipsychotic Medication Program in the Division of
 5 Mental Health, Developmental Disabilities, and Substance Abuse Services shall be one
 6 hundred fifty percent (150%) of the federal poverty guidelines, as revised annually by
 7 the United States Department of Health and Human Services and in effect on July 1 of
 8 each fiscal year. Additionally, those adults enrolled in the Atypical Antipsychotic
 9 Medication Program who become gainfully employed may continue to be eligible to
 10 receive State support, in decreasing amounts for the purchase of atypical antipsychotic
 11 medication and related services up to three hundred percent (300%) of the poverty level.

12 State financial participation in the Atypical Antipsychotic Medication Program for
 13 those enrollees who become gainfully employed is as follows:

14	<u>Income</u>	<u>State Participation</u>	<u>Client Participation</u>
15	(% of poverty)		
16	0-150%	100%	0%
17	151-200%	75%	25%
18	201-250%	50%	50%
19	251-300%	25%	75%
20	300% and over	0%	100%

21 The Department of Health and Human Services shall contract at, or as close as
 22 possible to, Medicaid rates for medical services provided to residents of State facilities
 23 of the Department."

DRAFT
SPECIAL PROVISION

2002-DHHS-H64

Department of Health and Human Services
Appropriations Subcommittee on Health and Human Services

Requested by: Representatives Earle, Nye, Baddour

1 **SENIOR PRESCRIPTION DRUG ACCESS PROGRAM**

2 SECTION #. (a) Notwithstanding G.S. 147-86.30, the Health and Wellness
3 Trust Fund Commission may for the fiscal year 2002-2003 expend not more than three
4 million dollars (\$3,000,000) of the funds reserved pursuant to G.S. 147-86.30(c) to
5 develop and implement a Senior Prescription Drug Access Program. As used in this
6 section, the term "senior" means an individual age 65 years and older. The purpose of
7 the Program is to reduce costs of and improve access to and use of prescription drugs
8 by:

- 9 (1) Providing one-on-one assistance to seniors and low-income citizens in
10 accessing public and private prescription drug assistance programs.
11 (2) Making available pharmacist evaluators to review all prescriptions and
12 to provide face-to-face counseling for seniors to promote compliance
13 and identify potential adverse effects from interactions among the
14 prescribed drugs.
15 (3) Utilizing software currently licensed by the Department of Health and
16 Human Services to guide patients through the complexities of all drug
17 coverage options, including drug acquisition through low-cost or
18 discount drug programs provided through manufacturer's card
19 programs, and by government programs.

20 Drug acquisition services under the Program shall be available to senior citizens and to
21 low-income citizens eligible for assistance under these public and private prescription
22 drug programs. Counseling services provided by the Program shall be available to
23 senior citizens age 65 and older. There shall be no fee for Program medication
24 counseling services to seniors who are Medicaid recipients and seniors enrolled in
25 Carolina CARxES. The Commission may authorize a reasonable fee to be charged by
26 the pharmacist evaluator to other seniors using medication counseling services,
27 provided that the fee is charged on a sliding scale based on individual or family income.
28 In no event may the fee exceed the actual cost of the service provided. The Commission
29 shall consult with other State agencies and public and private entities to avoid
30 duplication and enhance cooperation and collaboration in providing Program services.
31 In allocating funds under the Program, the Commission shall consider diversity of
32 populations served, geographic representation, and increasing community capacity to
33 respond to health needs. The Commission may phase in the availability of services such
34 that initially all geographic regions of the State have services available.

1 **SECTION 1.(b)** In developing and implementing the Senior Prescription
2 Drug Access Program, the Commission may do the following:

- 3 (1) Establish a centralized database with linkages to Medicaid databases to
4 enable review of each participant's prescription drug regimen, and to
5 ensure quality of services, quality of care, and cost effectiveness. The
6 database shall comply with all State and federal privacy protection
7 requirements and shall be accessible only to participating pharmacists,
8 primary care physicians, and case managers.
9 (2) Use reserved funds authorized under this section to contract with
10 public and private entities to provide prescription drug assistance
11 services.
12 (3) Use reserved funds authorized under this section to award grants to
13 applicants eligible under G.S. 147-86.31 to receive grant funds. Grant
14 funds may be used to subsidize costs of hiring and training staff to
15 operate drug acquisition software.

16 **SECTION 1.(c)** The Commission shall provide for ongoing evaluation of
17 the Program to measure its usage and effectiveness. The Commission shall include in its
18 annual report required under G.S. 147-86.35 the use of funds for and activities of the
19 Senior Prescription Drug Access Program, and the results of its Program evaluation.
20 The report shall include data on the number of persons who received services, fees
21 authorized, and the geographic distribution of Program services.

DRAFT
SPECIAL PROVISION

2002-DHHS-H11(S10.11)

Department of Health and Human Services
Appropriations Subcommittee on Health and Human Services

Requested by: Representatives Earle, Nye

1 **MEDICAID PROGRAM**

2 **SECTION 10.11.(a)** Section 21.19 of S.L. 2001-424 reads as rewritten:

3 **"SECTION 21.19.(a)** Funds appropriated in this act for services provided in
4 accordance with Title XIX of the Social Security Act (Medicaid) are for both the
5 categorically needy and the medically needy. Funds appropriated for these services shall
6 be expended in accordance with the following schedule of services and payment bases.
7 All services and payments are subject to the language at the end of this subsection.

8 Services and payment bases:

9 (1) Hospital-Inpatient – Payment for hospital inpatient services will be
10 prescribed in the State Plan as established by the Department of Health
11 and Human Services.

12 (2) Hospital-Outpatient – Eighty percent (80%) of allowable costs or a
13 prospective reimbursement plan as established by the Department of
14 Health and Human Services.

15 (3) Nursing Facilities – Payment for nursing facility services will be
16 prescribed in the State Plan as established by the Department of Health
17 and Human Services. Nursing facilities providing services to Medicaid
18 recipients who also qualify for Medicare must be enrolled in the
19 Medicare program as a condition of participation in the Medicaid
20 program. State facilities are not subject to the requirement to enroll in
21 the Medicare program. Residents of nursing facilities who are eligible
22 for Medicare coverage of nursing facility services must be placed in a
23 Medicare certified bed. Medicaid shall cover facility services only
24 after the appropriate services have been billed to Medicare. The
25 Division of Medical Assistance shall allow nursing facility providers
26 sufficient time from the effective date of this act to certify additional
27 Medicare beds if necessary. In determining the date that the
28 requirements of this subdivision become effective, the Division of
29 Medical Assistance shall consider the regulations governing
30 certification of Medicare beds and the length of time required for this
31 process to be completed.

32 (4) Intermediate Care Facilities for the Mentally Retarded – As prescribed
33 in the State Plan as established by the Department of Health and
34 Human Services.

- 1 (5) Drugs – Drug costs as allowed by federal regulations plus a
2 professional services fee per month excluding refills for the same drug
3 or generic equivalent during the same month. Reimbursement shall be
4 available for up to six prescriptions per recipient, per month, including
5 refills. Payments for drugs are subject to the provisions of subsection
6 (h) of this section and to the provisions at the end of subsection (a) of
7 this section, or in accordance with the State Plan adopted by the
8 Department of Health and Human Services consistent with federal
9 reimbursement regulations. Payment of the professional services fee
10 shall be made in accordance with the State Plan adopted by the
11 Department of Health and Human Services, consistent with federal
12 reimbursement regulations. The professional services fee shall be five
13 dollars and sixty cents (\$5.60) per prescription for generic drugs and
14 four dollars (\$4.00) per prescription for brand name drugs.
15 Adjustments to the professional services fee shall be established by the
16 General Assembly.
- 17 (6) Physicians, Chiropractors, Podiatrists, Optometrists, Dentists, Certified
18 Nurse Midwife Services, Nurse Practitioners – Fee schedules as
19 developed by the Department of Health and Human Services.
20 Payments for dental services are subject to the provisions of subsection
21 (g) of this section.
- 22 (7) Community Alternative Program, EPSDT Screens – Payment to be
23 made in accordance with rate schedule developed by the Department
24 of Health and Human Services.
- 25 (8) Home Health and Related Services, Private Duty Nursing, Clinic
26 Services, Prepaid Health Plans, Durable Medical Equipment –
27 Payment to be made according to reimbursement plans developed by
28 the Department of Health and Human Services.
- 29 (9) Medicare Buy-In – Social Security Administration premium.
- 30 (10) Ambulance Services – Uniform fee schedules as developed by the
31 Department of Health and Human Services. Public ambulance
32 providers will be reimbursed at cost.
- 33 (11) Hearing Aids – Actual cost plus a dispensing fee.
- 34 (12) Rural Health Clinic Services – Provider-based, reasonable cost;
35 nonprovider-based, single-cost reimbursement rate per clinic visit.
- 36 (13) Family Planning – Negotiated rate for local health departments. For
37 other providers, see specific services, for instance, hospitals,
38 physicians.
- 39 (14) Independent Laboratory and X-Ray Services – Uniform fee schedules
40 as developed by the Department of Health and Human Services.
- 41 (15) Optical Supplies – One hundred percent (100%) of reasonable
42 wholesale cost of materials.
- 43 (16) Ambulatory Surgical Centers – Payment as prescribed in the
44 reimbursement plan established by the Department of Health and
45 Human Services.

- 1 (17) Medicare Crossover Claims – An amount up to the actual coinsurance
2 or deductible or both, in accordance with the State Plan, as approved
3 by the Department of Health and Human Services.
- 4 (18) Physical Therapy and Speech Therapy – Services limited to EPSDT
5 eligible children. Payments are to be made only to qualified providers
6 at rates negotiated by the Department of Health and Human Services.
7 Physical therapy (including occupational therapy) and speech therapy
8 services are subject to prior approval and utilization review.
- 9 (19) Personal Care Services – Payment in accordance with the State Plan
10 approved by the Department of Health and Human Services.
- 11 (20) Case Management Services – Reimbursement in accordance with the
12 availability of funds to be transferred within the Department of Health
13 and Human Services.
- 14 (21) Hospice – Services may be provided in accordance with the State Plan
15 developed by the Department of Health and Human Services.
- 16 (22) Other Mental Health Services – Unless otherwise covered by this
17 section, coverage is limited to:
- 18 a. Services as defined by the Division of Mental Health,
19 Developmental Disabilities, and Substance Abuse Services and
20 approved by the Centers for Medicare and Medicaid Services
21 (CMS) when provided in agencies meeting the requirements of
22 the rules established by the Commission for Mental Health,
23 Developmental Disabilities, and Substance Abuse Services, and
24 reimbursement is made in accordance with a State Plan
25 developed by the Department of Health and Human Services
26 not to exceed the upper limits established in federal regulations,
27 and
- 28 b. For children eligible for EPSDT services:
- 29 1. Licensed or certified psychologists, licensed clinical
30 social workers, certified clinical nurse specialists in
31 psychiatric mental health advanced practice, and nurse
32 practitioners certified as clinical nurse specialists in
33 psychiatric mental health advanced practice, when
34 Medicaid-eligible children are referred by the Carolina
35 ACCESS primary care physician or the area mental
36 health program, and
- 37 2. Institutional providers of residential services as defined
38 by the Division of Mental Health, Developmental
39 Disabilities, and Substance Abuse Services and approved
40 by the Centers for Medicare and Medicaid Services
41 (CMS) for children and Psychiatric Residential
42 Treatment Facility services that meet federal and State
43 requirements as defined by the Department.
- 44 Notwithstanding G.S. 150B-121.1(a), the Department of Health and
45 Human Services may adopt temporary rules in accordance with
46 Chapter 150B of the General Statutes further defining the

1 qualifications of providers and referral procedures in order to
2 implement this subdivision. Coverage policy for services defined by
3 the Division of Mental Health, Developmental Disabilities, and
4 Substance Abuse Services under paragraphs a. and b.2 of this
5 subdivision shall be established by the Division of Medical Assistance.

6 (23) Medically Necessary Prosthetics or Orthotics for EPSDT Eligible
7 Children – Reimbursement in accordance with the State Plan approved
8 by the Department of Health and Human Services.

9 (24) Health Insurance Premiums – Payments to be made in accordance with
10 the State Plan adopted by the Department of Health and Human
11 Services consistent with federal regulations.

12 (25) Medical Care/Other Remedial Care – Services not covered elsewhere
13 in this section include related services in schools; health professional
14 services provided outside the clinic setting to meet maternal and infant
15 health goals; and services to meet federal EPSDT mandates. Services
16 addressed by this paragraph are limited to those prescribed in the State
17 Plan as established by the Department of Health and Human Services.

18 (26) Pregnancy Related Services – Covered services for pregnant women
19 shall include nutritional counseling, psychosocial counseling, and
20 predelivery and postpartum home visits by maternity care coordinators
21 and public health nurses.

22 Services and payment bases may be changed with the approval of the Director of the
23 Budget. Payment is limited to Medicaid enrolled providers that provide evidence of
24 medical malpractice insurance coverage, purchase a performance bond in the amount of
25 one hundred thousand dollars (\$100,000) naming as beneficiary the Department of
26 Health and Human Services, Division of Medical Assistance, or provide to the
27 Department a validly executed letter of credit or other financial instrument issued by a
28 financial institution or agency honoring a demand for payment in an equivalent amount.

29 Reimbursement is available for up to 24 visits per recipient per year to any one or
30 combination of the following: physicians, clinics, hospital outpatient, optometrists,
31 chiropractors, and podiatrists. Prenatal services, all EPSDT children, emergency rooms,
32 and mental health services subject to independent utilization review are exempt from the
33 visit limitations contained in this paragraph. Exceptions may be authorized by the
34 Department of Health and Human Services where the life of the patient would be
35 threatened without such additional care. Any person who is determined by the
36 Department to be exempt from the 24-visit limitation may also be exempt from the
37 six-prescription limitation.

38 **SECTION 21.19.(b)** Allocation of Nonfederal Cost of Medicaid. – The State shall
39 pay eighty-five percent (85%); the county shall pay fifteen percent (15%) of the
40 nonfederal costs of all applicable services listed in this section.

41 **SECTION 21.19.(c)** Copayment for Medicaid Services. – The Department of
42 Health and Human Services may establish copayment up to the maximum permitted by
43 federal law and regulation.

44 **SECTION 21.19.(d)** Medicaid and Work First Family Assistance, Income
45 Eligibility Standards. – The maximum net family annual income eligibility standards for

1 Medicaid and Work First Family Assistance and the Standard of Need for Work First
 2 Family Assistance shall be as follows:

	<u>Categorically Needy</u>		<u>Medically Needy</u>	
	<u>WFFA*</u>			
	<u>Family</u>	<u>Standard</u>	<u>Families and</u>	
	<u>Size</u>	<u>of Need</u>	<u>Children Income</u>	
			<u>Level</u>	<u>AA, AB, AD*</u>
9	1	\$4,344	\$2,172	\$2,900
10	2	5,664	2,832	3,800
11	3	6,528	3,264	4,400
12	4	7,128	3,564	4,800
13	5	7,776	3,888	5,200
14	6	8,376	4,188	5,600
15	7	8,952	4,476	6,000
16	8	9,256	4,680	6,300

17 *Work First Family Assistance (WFFA); Aid to the Aged (AA); Aid to the Blind (AB);
 18 and Aid to the Disabled (AD).

20 The payment level for Work First Family Assistance shall be fifty percent (50%) of the
 21 standard of need.

22 These standards may be changed with the approval of the Director of the Budget
 23 with the advice of the Advisory Budget Commission.

24 **SECTION 21.19.(e)** The Department of Health and Human Services, Division of
 25 Medical Assistance, shall provide Medicaid coverage to all elderly, blind, and disabled
 26 people who have incomes equal to or less than one hundred percent (100%) of the
 27 federal poverty guidelines, as revised each April 1.

28 **SECTION 21.19.(f)** ICF and ICF/MR Work Incentive Allowances. – The
 29 Department of Health and Human Services may provide an incentive allowance to
 30 Medicaid-eligible recipients of ICF and ICF/MR facilities who are regularly engaged in
 31 work activities as part of their developmental plan and for whom retention of additional
 32 income contributes to their achievement of independence. The State funds required to
 33 match the federal funds that are required by these allowances shall be provided from
 34 savings within the Medicaid budget or from other unbudgeted funds available to the
 35 Department. The incentive allowances may be as follows:

<u>Monthly Net Wages</u>	<u>Monthly Incentive Allowance</u>
\$1.00 to \$100.99	Up to \$50.00
\$101.00 to \$200.99	\$80.00
\$201.00 to \$300.99	\$130.00
\$301.00 and greater	\$212.00.

42 **SECTION 21.19.(g)** Dental Coverage Limits. – Dental services shall be provided
 43 on a restricted basis in accordance with rules adopted by the Department to implement
 44 this subsection.

45 **SECTION 21.19.(h)** Dispensing of Generic Drugs. – Notwithstanding G.S.
 46 90-85.27 through G.S. 90-85.31, or any other law to the contrary, under the Medical

1 Assistance Program (Title XIX of the Social Security Act), and except as otherwise
2 provided in this subsection for atypical antipsychotic drugs and drugs listed in the
3 narrow therapeutic index, a prescription order for a drug designated by a trade or brand
4 name shall be considered to be an order for the drug by its established or generic name,
5 except when the prescriber has determined, at the time the drug is prescribed, that the
6 brand name drug is medically necessary and has written on the prescription order the
7 phrase "medically necessary". An initial prescription order for an atypical antipsychotic
8 drug or a drug listed in the narrow therapeutic drug index that does not contain the
9 phrase "medically necessary" shall be considered an order for the drug by its established
10 or generic name, except that a pharmacy shall not substitute a generic or established
11 name prescription drug for subsequent brand or trade name prescription orders of the
12 same prescription drug without explicit oral or written approval of the prescriber given
13 at the time the order is filled. Generic drugs shall be dispensed at a lower cost to the
14 Medical Assistance Program rather than trade or brand name drugs. As used in this
15 subsection, "brand name" means the proprietary name the manufacturer places upon a
16 drug product or on its container, label, or wrapping at the time of packaging; and
17 "established name" has the same meaning as in section 502(e)(3) of the Federal Food,
18 Drug, and Cosmetic Act as amended, 21 U.S.C. § 352(e)(3).

19 **SECTION 21.19.(i) Exceptions to Service Limitations, Eligibility Requirements,**
20 **and Payments.** – Service limitations, eligibility requirements, and payments bases in this
21 section may be waived by the Department of Health and Human Services, with the
22 approval of the Director of the Budget, to allow the Department to carry out pilot
23 programs for prepaid health plans, contracting for services, managed care plans, or
24 community-based services programs in accordance with plans approved by the United
25 States Department of Health and Human Services, or when the Department determines
26 that such a waiver will result in a reduction in the total Medicaid costs for the recipient.
27 The Department of Health and Human Services may proceed with planning and
28 development work on the Program of All-Inclusive Care for the Elderly.

29 **SECTION 21.19.(j) Volume Purchase Plans and Single Source Procurement.** – The
30 Department of Health and Human Services, Division of Medical Assistance, may,
31 subject to the approval of a change in the State Medicaid Plan, contract for services,
32 medical equipment, supplies, and appliances by implementation of volume purchase
33 plans, single source procurement, or other contracting processes in order to improve
34 cost containment.

35 **SECTION 21.19.(k) Cost-Containment Programs.** – The Department of Health and
36 Human Services, Division of Medical Assistance, may undertake cost containment
37 programs in accordance with Section 3 of S.L. 2001-395, including contracting for
38 services, preadmissions to hospitals and prior approval for certain outpatient surgeries
39 before they may be performed in an inpatient setting.

40 **SECTION 21.19.(l)** For all Medicaid eligibility classifications for which the federal
41 poverty level is used as an income limit for eligibility determination, the income limits
42 will be updated each April 1 immediately following publication of federal poverty
43 guidelines.

44 **SECTION 21.19.(m)** The Department of Health and Human Services shall provide
45 Medicaid to 19-, 20-, and 21-year-olds in accordance with federal rules and regulations.

1 **SECTION 21.19.(n)** The Department of Health and Human Services shall provide
2 coverage to pregnant women and to children according to the following schedule:

- 3 (1) Pregnant women with incomes equal to or less than one hundred
4 eighty-five percent (185%) of the federal poverty guidelines as revised
5 each April 1 shall be covered for Medicaid benefits. In determining
6 income eligibility under this subdivision, the income of a minor's
7 parents shall be counted.
- 8 (2) Infants under the age of 1 with family incomes equal to or less than
9 one hundred eighty-five percent (185%) of the federal poverty
10 guidelines as revised each April 1 shall be covered for Medicaid
11 benefits.
- 12 (3) Children aged 1 through 5 with family incomes equal to or less than
13 one hundred thirty-three percent (133%) of the federal poverty
14 guidelines as revised each April 1 shall be covered for Medicaid
15 benefits.
- 16 (4) Children aged 6 through 18 with family incomes equal to or less than
17 the federal poverty guidelines as revised each April 1 shall be covered
18 for Medicaid benefits.
- 19 (5) The Department of Health and Human Services shall provide Medicaid
20 coverage for adoptive children with special or rehabilitative needs
21 regardless of the adoptive family's income.

22 Services to pregnant women eligible under this subsection continue throughout the
23 pregnancy but include only those related to pregnancy and to those other conditions
24 determined by the Department as conditions that may complicate pregnancy. In order to
25 reduce county administrative costs and to expedite the provision of medical services to
26 pregnant women, to infants, and to children described in subdivisions (3) and (4) of this
27 subsection, no resources test shall be applied.

28 **SECTION 21.19.(o)** Medicaid enrollment of categorically needy families with
29 children shall be continuous for one year without regard to changes in income or assets.

30 **SECTION 21.19.(p)** The Department shall disregard earned income for recipients
31 who would otherwise lose Medicaid eligibility under section 1931 of Title XIX of the
32 Social Security Act due to earnings. This disregard shall be applied for a maximum of
33 12 consecutive months.

34 **SECTION 21.19.(q)** The Department of Health and Human Services shall submit a
35 quarterly status report on expenditures for acute care and long-term care services to the
36 Fiscal Research Division and to the Office of State Budget and Management. This
37 report shall include an analysis of budgeted versus actual expenditures for eligibles by
38 category and for long-term care beds. In addition, the Department shall revise the
39 program's projected spending for the current fiscal year and the estimated spending for
40 the subsequent fiscal year on a quarterly basis. The quarterly expenditure report and the
41 revised forecast shall be forwarded to the Fiscal Research Division and to the Office of
42 State Budget and Management no later than the third Thursday of the month following
43 the end of each quarter.

44 **SECTION 21.19.(r)** The Division of Medical Assistance, Department of Health
45 and Human Services, may provide incentives to counties that successfully recover

1 fraudulently spent Medicaid funds by sharing State savings with counties responsible
2 for the recovery of the fraudulently spent funds.

3 **SECTION 21.19.(s)** If first approved by the Office of State Budget and
4 Management, the Division of Medical Assistance, Department of Health and Human
5 Services, may use funds that are identified to support the cost of development and
6 acquisition of equipment and software through contractual means to improve and
7 enhance information systems that provide management information and claims
8 processing. The Department of Health and Human Services shall identify adequate
9 funds to support the implementation and first year's operational costs that exceed the
10 currently allocated funds for the new contract for the fiscal agent for the Medicaid
11 Management Information System.

12 **SECTION 21.19.(t)** The Department of Health and Human Services may adopt
13 temporary rules according to the procedures established in G.S. 150B-21.1 when it finds
14 that these rules are necessary to maximize receipt of federal funds within existing State
15 appropriations, to reduce Medicaid expenditures, and to reduce fraud and abuse. Prior to
16 the filing of these temporary rules with the Office of Administrative Hearings, the
17 Department shall consult with the Office of State Budget and Management on the
18 possible fiscal impact of the temporary rule and its effect on State appropriations and
19 local governments.

20 **SECTION 21.19.(u)** The Department shall report to the Fiscal Research Division
21 of the Legislative Services Office and to the House of Representatives Appropriations
22 Subcommittee on Health and Human Services and the Senate Appropriations
23 Committee on Health and Human Services or the Joint Legislative Health Care
24 Oversight Committee on any change it anticipates making in the Medicaid program that
25 impacts the type or level of service, reimbursement methods, or waivers, any of which
26 require a change in the State Plan or other approval by the Centers for Medicare and
27 Medicaid Services (CMS). The reports shall be provided at the same time they are
28 submitted to CMS for approval.

29 **SECTION 21.19.(v)** Upon approval of a demonstration waiver by the Centers for
30 Medicare and Medicaid Services (CMS), the Department of Health and Human Services
31 may provide Medicaid coverage for family planning services to men and women of
32 child-bearing age with family incomes equal to or less than one hundred eighty-five
33 percent (185%) of the federal poverty level. Coverage shall be contingent upon federal
34 approval of the waiver and shall begin no earlier than January 1, 2001.

35 **SECTION 21.19.(w)** The Department of Health and Human Services, Division of
36 Medical Assistance, shall use the latest audited cost reporting data available when
37 establishing Medicaid provider rates or when making changes to the reimbursement
38 methodology.

39 **SECTION 21.19.(x)** The Department of Health and Human Services, Division of
40 Medical Assistance, shall implement a new coding system for therapeutic mental health
41 services as required by the Health Insurance Portability and Accountability Act of 1996.
42 In implementing the new coding system, the Division shall ensure that the new coding
43 system does not discriminate between providers of therapeutic mental health services
44 with similar qualifications and training. In meeting the requirements of this subsection,
45 the Division shall consult with the Division of Mental Health, Developmental

1 Disabilities, and Substance Abuse Services and the professional licensing boards
2 responsible for licensing the affected professionals.

3 **SECTION 21.19.(y)** The Department of Health and Human Services may apply
4 federal transfer of assets policies, as described in Title XIX, Section 1917(c) of the
5 Social Security Act to real property excluded as "income producing" "income
6 producing", tenancy-in-common, or as nonhomesite property made "income producing"
7 under Title XIX, Section 1902(r)(2) of the Social Security Act. The transfer of assets
8 policy shall apply only to an institutionalized individual or the individual's spouse as
9 defined in Title XIX, Section 1917(c) of the Social Security Act. This subsection
10 becomes effective no earlier than October 1, 2001. Federal transfer of asset policies to
11 properties excluded as tenancy-in-common or as nonhomesite property made "income
12 producing" in accordance with this subsection shall become effective no earlier than
13 October 1, 2002."

14 **SECTION 10.11.(b)** Effective October 1, 2002, G.S. 108A-70.5(b) reads as
15 rewritten:

16 "(b) As used in this section:

- 17 (1) "Medical assistance" means medical care services paid for by the
18 North Carolina Medicaid Program on behalf of the recipient:
19 a. If the recipient is receiving these medical care services as an
20 inpatient in a nursing facility, intermediate care facility for the
21 mentally retarded, or other medical institution, and cannot
22 reasonably be expected to be discharged to return home; or
23 b. If the recipient is 55 years of age or older and is receiving these
24 medical care services, including related hospital care and
25 prescription drugs, for nursing facility ~~services~~ services,
26 personal care services, or home- and community-based services.
27 (2) "Estate" means all the real and personal property considered assets of
28 the estate available for the discharge of debt pursuant to G.S.
29 28A-15-1."

DRAFT
SPECIAL PROVISION

2002-DHHS-H12(S10.12)

Department of Health and Human Services
Appropriations Subcommittee on Health and Human Services

Requested by: Representatives Earle, Nye

1 **CAROLINA ACCESS PROGRAM IMPROVEMENTS**

2 **SECTION 10.12.(a)** In its effort to achieve anticipated savings in the
3 Medicaid Program of nine million four hundred twenty-five thousand dollars
4 (\$9,425,000) for the 2002-2003 fiscal year through expansion of the Carolina ACCESS
5 II and Carolina ACCESS III programs, the Department of Health and Human Services
6 shall monitor cost-savings activities of these programs. Carolina ACCESS II and
7 Carolina ACCESS III programs shall provide the Department detailed information on
8 savings realized from the following cost-savings activities:

- 9 (1) Reductions in hospital admissions;
- 10 (2) Reductions in emergency room visits;
- 11 (3) Use of best-prescribing practices;
- 12 (4) Increased prescriptions of generic drugs;
- 13 (5) Implementation of polypharmacy review;
- 14 (6) Reductions in therapy visits;
- 15 (7) Improved management of high risk/high cost patients; and
- 16 (8) Other strategies implemented by the programs to achieve anticipated
17 savings.

18 **SECTION 10.12.(b)** The Department of Health and Human Services shall
19 implement a process for the assessment and review of cost-effectiveness of the Carolina
20 ACCESS II and Carolina ACCESS III programs. The Division of Medical Assistance
21 shall confirm actual savings realized from the use of case management strategies of the
22 Carolina ACCESS II and Carolina ACCESS III demonstration sites. Beginning October
23 1, 2002, the Department shall report quarterly the cost-effectiveness of these programs
24 based on actual savings achieved. The Department shall submit the report to the Senate
25 Appropriations Committee on Health and Human Services, the House of
26 Representatives Appropriations Subcommittee on Health and Human Services, the
27 Office of State Budget and Management, and the Fiscal Research Division.

1 **REPEAL CIRCUMCISION FUNDS**

2 **SECTION 10.13.** Section 19 of S.L. 2001-513 reads as rewritten:

3 "SECTION 19. Notwithstanding any other provision of law to the contrary, from
4 funds available in the General Fund, there is appropriated to the Department of Health
5 and Human Services, Division of Medical Assistance, the sum of two hundred forty-six
6 thousand, seven hundred sixty-two dollars (\$246,762) for the 2001-2002 fiscal year and
7 ~~the sum of four hundred thousand dollars (\$400,000) for the 2002-2003 fiscal year.~~
8 These funds shall be used to provide optional circumcision procedures for newborns
9 eligible for Medicaid."

Department of Health and Human Services
Appropriations Subcommittee on Health and Human Services

Requested by: Representatives Earle, Nye

1 **MEDICAID CASE MANAGEMENT SERVICES**

2 **SECTION 10.14.(a)** The Department of Health and Human Services shall
3 reduce Medicaid Program expenditures for case management services for adults and
4 children for the 2002-2003 State fiscal year. In determining how to allocate this
5 reduction, the Department shall include all State programs currently providing case
6 management services reimbursed by the Medicaid Program, and shall consider the
7 following issues:

- 8 (1) Elimination of all duplicative case management services.
- 9 (2) Consolidation of similar case management services.
- 10 (3) Provision of only one case manager per family reimbursed through the
11 Medicaid Program, when feasible.
- 12 (4) Equitable allocation of reductions in case management services
13 reimbursed by Medicaid among the different programs that provide
14 case management services.
- 15 (5) Identification of the children and adults with the greatest case
16 management needs to determine how to allocate reductions and
17 remaining resources.
- 18 (6) Reductions in administrative costs associated with providing case
19 management services reimbursed by Medicaid.
- 20 (7) Reductions in reimbursement to case management service providers.

21 **SECTION 10.14.(b)** Not later than October 1, 2002, the Department shall
22 report on its plan for the reductions required in this section. The Department shall
23 submit the report to the Senate Appropriations Committee on Health and Human
24 Services, the House of Representatives Appropriations Subcommittee on Health and
25 Human Services, and the Fiscal Research Division.

SPECIAL PROVISION

2002-DHHS-H15(S10.15)i

Department of Health and Human Services
Appropriations Subcommittee on Health and Human Services

Requested by: Representatives Earle, Nye

1 **FEDERAL WAIVERS TO ASSIST IN MEDICAID COST CONTAINMENT**

2 **SECTION 10.15.(a)** The Department of Health and Human Services shall
3 develop a plan for using federal waivers to assist in long-term cost containment for the
4 State's Medicaid program. In developing the plan, the Department shall determine
5 whether single or multiple federal waivers will help the State achieve its goal of
6 long-term cost containment for the State's Medicaid program, and shall also determine
7 which type of waiver is likely to be most helpful. The Department shall consider all of
8 the following for development of the plan:

- 9 (1) Which optional categories of persons eligible for Medicaid will be
10 covered by the waiver.
- 11 (2) What optional Medicaid services will be included in the service
12 package covered by the waiver.
- 13 (3) What types of cost-sharing will be required under the waiver.
- 14 (4) Will the waiver use Carolina ACCESS, other types of managed care,
15 or will a fee-for-service system for providing health care services be
16 used.
- 17 (5) Will private insurance coverage options be incorporated into the
18 waiver.
- 19 (6) Should the NC Health Choice Program be included in the waiver.

20 **SECTION 10.15.(b)** On or before February 1, 2003, the Department shall
21 report on its plan for seeking federal waivers to achieve long-term cost containment in
22 the State's Medicaid program. The report shall be made to the Senate Appropriations
23 Committee on Health and Human Services, the House of Representatives
24 Appropriations Subcommittee on Health and Human Services, and the Fiscal Research
25 Division, and shall include the following:

- 26 (1) Copy of the application for the waiver.
- 27 (2) Description of how the waiver will help achieve long-term cost
28 containment in the State's Medicaid program.
- 29 (3) Description of legislation necessary to implement the proposed waiver.

DRAFT
SPECIAL PROVISION

2002-DHHS-H16(S10.16)

Department of Health and Human Services
Appropriations Subcommittee on Health and Human Services

Requested by: Representatives Earle, Nye

1 **COMMUNITY ALTERNATIVES PROGRAMS**

2 SECTION 10.16.(a) The Department of Health and Human Services shall
3 administer all Community Alternative Program (CAP) waivers in the most economical
4 and efficient manner possible to support within funds appropriated the maximum
5 number of persons meeting participation requirements under the waivers. The
6 Department shall amend the waivers to ensure that participation requirements and
7 payment and service limits will ensure that the maximum number of persons meeting
8 participation requirements are served by all waivers. Not later than October 1, 2002, the
9 Department shall submit a report that outlines efficient use of funds appropriated and
10 that demonstrates the participation requirements, payment and service limits, and other
11 administrative actions to support the maximum number of persons to be served in the
12 applicable State fiscal year. The report shall be submitted to the Senate Appropriations
13 Committee on Health and Human Services, the House of Representatives
14 Appropriations Subcommittee on Health and Human Services, and the Fiscal Research
15 Division.

16 SECTION 10.16.(b) CAP-DA services shall be provided for the 2002-2003
17 fiscal year to any eligible person who entered a nursing facility on or before June 1,
18 2002, notwithstanding that the availability of CAP-DA services may be suspended for
19 that fiscal year.

20 SECTION 10.16.(c) The North Carolina Institute of Medicine shall conduct
21 a study of the Community Alternatives Program for Disabled Adults (CAP/DA)
22 administered by the Department of Health and Human Services and shall recommend
23 ways of improving the administration of CAP/DA. In conducting the study, the Institute
24 shall consider the following:

- 25 (1) Whether the lead agency for CAP/DA should also be a provider of
26 direct services under CAP/DA.
27 (2) Whether case managers should be employed by the provider agency.
28 (3) Whether funds for CAP/DA should be reduced below the ninety
29 percent (90%) maximum that currently exists.
30 (4) Review current policy for service requirements, management, and
31 supervision as it pertains to strengthening the family and case manager
32 and agency requirements.
33 (5) Whether case managers and provider agencies should have increased
34 responsibility for upholding guidelines.

- 1 (6) Whether oversight of CAP/DA by the Division of Medical Assistance
2 needs strengthening.
3 (7) Alternative funding sources for CAP/DA.
4 (8) Determination of funding needs for CAP/DA based on corroboration
5 with long-term care policy initiatives.
6 (9) What changes should be made to CAP/DA to reduce cost of services
7 per person in order to serve more individuals within existing funds.
8 (10) Any other matters the North Carolina Institute of Medicine considers
9 pertinent to the study.
10 The North Carolina Institute of Medicine shall report its findings and recommendations
11 to the 2003 General Assembly upon its convening.

SPECIAL PROVISION

2002-DHHS-H17(S10.17)i

Department of Health and Human Services
Appropriations Subcommittee on Health and Human Services

Requested by: Representatives Earle, Nye

1 ***DISPOSITION OF DISPROPORTIONATE SHARE RECEIPT CHANGE***

2 **SECTION 10.17.(a)** Disproportionate share receipts reserved at the end of
3 the 2002-2003 fiscal year shall be deposited with the Department of State Treasurer as
4 nontax revenue for the 2002-2003 fiscal year.

5 **SECTION 10.17.(b)** For the 2002-2003 fiscal year, as it receives funds
6 associated with Disproportionate Share Payments from State hospitals, the Department
7 of Health and Human Services, Division of Medical Assistance, shall deposit up to one
8 hundred seven million dollars (\$107,000,000) of these Disproportionate Share Payments
9 to the Department of State Treasurer for deposit as nontax revenue. Any
10 Disproportionate Share Payments collected in excess of the one hundred seven million
11 dollars (\$107,000,000) shall be reserved by the State Treasurer for future
12 appropriations.

Department of Health and Human Services
Appropriations Subcommittee on Health and Human Services

Requested by: Representatives Earle, Nye

1 **MEDICAID HOSPITAL PAYMENTS**

2 **SECTION 10.18.** The Department of Health and Human Services shall
3 reduce Medicaid payments to hospitals by one-half of one percent (.5%) for the
4 2002-2003 State fiscal year. The Department shall evaluate all medical payment
5 programs and policies administered by the Department that may affect the future
6 viability and sustainability of financially vulnerable hospitals. Based on the evaluation
7 of the medical payments programs and policies affecting hospitals, the Department shall
8 implement the one half of one percent (.5%) reduction for the 2002-2003 State fiscal
9 year such that the reduction has the least impact on the future viability and sustainability
10 of financially vulnerable hospitals. The Department shall also review the status of
11 financially vulnerable hospitals to determine whether additional State actions are
12 appropriate to ensure that communities served by these hospitals continue to receive
13 essential medical services. The Department shall consult with the North Carolina
14 Hospital Association while conducting the evaluation of medical payment programs and
15 policies and determining how to implement the one-half of one percent (.5%) reduction.
16 The Department shall report to the Senate Appropriations Committee on Health and
17 Human Services, the House of Representatives Appropriations Subcommittee on Health
18 and Human Services, and the Fiscal Research Division on its activities under this
19 section not later than October 1, 2002.

Appropriations Subcommittee on Health and Human Services

Requested by: Representatives Earle, Nye

1 **MEDICAID PROGRAM MANAGEMENT**

2 **SECTION 10.19.** Section 21.26(b) of S.L. 2001-424 reads as rewritten:

3 **"SECTION 21.26.(b)** The Department shall implement a pharmacy management
4 plan considering the recommendations of the "North Carolina Medicaid Benefit Study"
5 to achieve anticipated cost savings. The pharmacy management plan may include the
6 following activities:

- 7 (1) Establishing a prior authorization program to manage utilization of
8 high-cost, brand name drugs. In determining drugs to be included in
9 the prior authorization program, the Department shall consider whether
10 inclusion of these drugs is likely to:
 - 11 a. Increase utilization of more expensive services;
 - 12 b. Reduce quality of treatment;
 - 13 c. Result in a lower level of compliance with appropriate drug
14 therapy; and
 - 15 d. Have a differential impact upon racial and ethnic minorities and
16 the elderly.

17 The Department shall conduct a review at least annually of the drugs
18 included in the prior authorization program to determine whether any
19 of the factors listed in this subdivision or other factors with similar
20 results have occurred.

- 21 (2) Limiting prescription drugs to a 34-day supply for some or all drugs.
- 22 (3) Developing physician prescribing practice profiles and other
23 educational tools to enable physicians to better manage their
24 prescriptions.
- 25 (4) Establishing therapeutic limits based on appropriate dosage or usage
26 standards.
- 27 (5) Encouraging use of generic drugs.
- 28 (6) Using maximum allowable pricing.
- 29 (7) Contracting with a pharmacy benefits manager to implement more
30 extensive drug utilization review.
- 31 (8) Studying the impact of eliminating the six prescription drug monthly
32 limit combined with a more rigorous prior authorization program to
33 ensure cost decisions are made based on evidence-based clinical
34 guidelines.

- 1 (9) Expanding disease management initiatives.
2 (10) Working with ACCESS physicians to develop and implement drug
3 utilization management initiatives.
4 (11) If cost-effective, expanding Medicaid drug coverage to include
5 selected over-the-counter medications.

6 The Department may adopt temporary rules in accordance with G.S. 150B-21.1
7 when it finds these rules are necessary to clarify recipient appeal rights related to the
8 pharmacy management plan."

1 **LONG-TERM CARE REIMBURSEMENT METHODOLOGY**

2 SECTION #. When establishing a new reimbursement methodology for
3 long-term care services including nursing facilities, ICF-MRs, and adult care homes, the
4 Department of Health and Human Services, Division of Medical Assistance, shall do the
5 following:

- 6 (1) Use the latest cost data available;
- 7 (2) Establish reimbursement rates that will allow Medicaid long-term care
8 providers to comply with certification requirements, licensure rules, or
9 other mandated quality or safety standards;
- 10 (3) Consider available data related to long-term care industry costs and
11 losses, including those resulting from the health care workforce crisis
12 and the increase in professional liability insurance premiums; and
- 13 (4) Consider the effect on future viability and sustainability of financially
14 vulnerable long-term care providers.

15 The Division of Medical Assistance and any contract agencies performing the functions
16 associated with this section shall consult with provider organizations include the North
17 Carolina Health Care Facilities Association, the North Carolina Hospital Association,
18 the Long-Term Care Facilities Association of North Carolina, the North Carolina
19 Assisted Living Association, and the North Carolina Medical Society. The Department
20 shall report on the reimbursement methodology not later than October 1, 2002 to the
21 House of Representatives Appropriations Subcommittee on Health and Human
22 Services, the Senate Appropriations Committee on Health and Human Services, and the
23 Fiscal Research Division.

Requested by: Representative

1 **INCREASES IN FEDERAL MEDICAID FUNDS**

2 SECTION #.(a) Notwithstanding any other provision of law to the contrary,
3 the total amount of State funds that become available to the Department of Health and
4 Human Services for the 2002-2003 fiscal year due to an increase in federal Medicaid
5 funds resulting from increases in the Federal Financial Participation rate shall be used to
6 increase funds appropriated to the Department for the 2002-2003 fiscal year for the
7 Medicaid program without any reduction in what is otherwise allocated to the
8 Department from appropriated funds.

9 SECTION #.(b) The Department of Health and Human Services, Division
10 of Medical Assistance, may reinstate eligibility policies changed by this act when all of
11 the following conditions are met:

- 12 (1) Congress approves enhanced federal financial participation for State
- 13 Medicaid programs.
- 14 (2) Receipt of the enhanced federal financial participation is dependent on
- 15 a state's maintenance of effort in Medicaid eligibility.
- 16 (3) The Department has concluded that the enacted policy changes render
- 17 the State ineligible for the enhanced federal financial participation.
- 18 (4) Enhanced federal financial participation receipts exceed the anticipated
- 19 savings in State funds from the enacted policy changes.

DRAFT
SPECIAL PROVISION

2002-DHHS-H20(S10.20)

Department of Health and Human Services
Appropriations Subcommittee on Health and Human Services

Requested by: Representatives Earle, Nye

1 **NC HEALTH CHOICE**

2 SECTION 10.20. G.S. 108A-70.21 reads as rewritten:

3 "§ 108A-70.21. Program eligibility; benefits; enrollment fee and other
4 cost-sharing; coverage from private plans; purchase of extended
5 coverage.

6 (a) Eligibility. – The Department may enroll eligible children based on
7 availability of funds. Following are eligibility and other requirements for participation
8 in the Program:

9 (1) Children must:

- 10 a. Be under the age of 19;
- 11 b. Be ineligible for Medicaid, Medicare, or other federal
12 government-sponsored health insurance;
- 13 c. Be uninsured;
- 14 d. Be in a family that meets the following family income
15 requirements:
 - 16 1. Infants under the age of one year whose family income is
17 from one hundred eighty-five percent (185%) through
18 two hundred percent (200%) of the federal poverty level;
 - 19 2. Children age one year through five years whose family
20 income is above one hundred thirty-three percent (133%)
21 through two hundred percent (200%) of the federal
22 poverty level; and
 - 23 3. Children age six years through eighteen years whose
24 family income is above one hundred percent (100%)
25 through two hundred percent (200%) of the federal
26 poverty level;
- 27 e. Be a resident of this State and eligible under federal law; and
- 28 f. Have paid the Program enrollment fee required under this Part.

29 (2) Proof of family income and residency and declaration of uninsured
30 status shall be provided by the applicant at the time of application for
31 Program coverage. The family member who is legally responsible for
32 the children enrolled in the Program has a duty to report any change in
33 the enrollee's status within 60 days of the change of status.

1 (3) If a responsible parent is under a court order to provide or maintain
2 health insurance for a child and has failed to comply with the court
3 order, then the child is deemed uninsured for purposes of determining
4 eligibility for Program benefits if at the time of application the
5 custodial parent shows proof of agreement to notify and cooperate
6 with the child support enforcement agency in enforcing the order.

7 If health insurance other than under the Program is provided to the
8 child after enrollment and prior to the expiration of the eligibility
9 period for which the child is enrolled in the Program, then the child is
10 deemed to be insured and ineligible for continued coverage under the
11 Program. The custodial parent has a duty to notify the Department
12 within 10 days of receipt of the other health insurance, and the
13 Department, upon receipt of notice, shall disenroll the child from the
14 Program. As used in this paragraph, the term "responsible parent"
15 means a person who is under a court order to pay child support.

16 (4) Except as otherwise provided in this section, enrollment shall be
17 continuous for one year. At the end of each year, applicants may
18 reapply for Program benefits.

19 (b) Benefits. – Except as otherwise provided for eligibility, fees, deductibles,
20 copayments, and other cost-sharing charges, health benefits coverage provided to
21 children eligible under the Program shall be equivalent to coverage provided for
22 dependents under the North Carolina Teachers' and State Employees' Comprehensive
23 Major Medical Plan, including optional prepaid plans. Prescription drug providers shall
24 accept as payment in full, for outpatient prescriptions filled, ninety percent (90%) of the
25 average wholesale price for the prescription drug or the amounts published by the
26 ~~Health Care Financing Administration Centers for Medicare and Medicaid Services~~ plus
27 ~~a fee established by the provider not to exceed the amount authorized under subdivision~~
28 ~~(d)(3) of this section. dispensing fee of five dollars and sixty cents (\$5.60) per~~
29 ~~prescription for generic drugs and four dollars (\$4.00) per prescription for brand name~~
30 ~~drugs. Health care providers providing vision and dental services to Program enrollees~~
31 ~~shall accept as payment in full for services rendered the maximum allowable charges~~
32 ~~under the North Carolina Teachers' and State Employees' Comprehensive Major~~
33 ~~Medical Plan less any copayments assessed under this Part. All other health care~~
34 ~~providers providing services to Program enrollees shall accept as payment in full for~~
35 ~~services rendered an amount equivalent to the maximum allowable charges under the~~
36 ~~North Carolina Teachers' and State Employees' Comprehensive Major Medical Plan~~
37 ~~Medicaid Program for services less any copayments assessed to enrollees under this~~
38 ~~Part. No child enrolled in the Plan's self-insured indemnity program shall be required by~~
39 ~~the Plan to change health care providers as a result of being enrolled in the Program.~~

40 In addition to the benefits provided under the Plan, the following services and
41 supplies are covered under the Health Insurance Program for Children established under
42 this Part:

43 (1) Dental: Oral examinations, teeth cleaning, and scaling twice during a
44 12-month period, full mouth X rays once every 60 months,
45 supplemental bitewing X rays showing the back of the teeth once
46 during a 12-month period, fluoride applications twice during a

1 12-month period, sealants, simple extractions, therapeutic
2 pulpomies, prefabricated stainless steel crowns, and routine fillings
3 of amalgam or other tooth-colored filling material to restore diseased
4 teeth. No benefits are to be provided for services under this subsection
5 that are not performed by or upon the direction of a dentist, doctor, or
6 other professional provider approved by the Plan nor for services and
7 materials that do not meet the standards accepted by the American
8 Dental Association.

9 (2) Vision: Scheduled routine eye examinations once every 12 months,
10 eyeglass lenses or contact lenses once every 12 months, routine
11 replacement of eyeglass frames once every 24 months, and optical
12 supplies and solutions when needed. Optical services, supplies, and
13 solutions must be obtained from licensed or certified ophthalmologists,
14 optometrists, or optical dispensing laboratories. Eyeglass lenses are
15 limited to single vision, bifocal, trifocal, or other complex lenses
16 necessary for a Plan enrollee's visual welfare. Coverage for oversized
17 lenses and frames, designer frames, photosensitive lenses, tinted
18 contact lenses, blended lenses, progressive multifocal lenses, coated
19 lenses, and laminated lenses is limited to the coverage for single
20 vision, bifocal, trifocal, or other complex lenses provided by this
21 subsection. Eyeglass frames are limited to those made of zylonite,
22 metal, or a combination of zylonite and metal. All visual aids covered
23 by this subsection require prior approval of the Plan. Upon prior
24 approval by the Plan, refractions may be covered more often than once
25 every 12 months.

26 (3) Hearing: Auditory diagnostic testing services and hearing aids and
27 accessories when provided by a licensed or certified audiologist,
28 otolaryngologist, or other hearing aid specialist approved by the Plan.
29 Prior approval of the Plan is required for hearing aids, accessories,
30 earmolds, repairs, loaners, and rental aids.

31 (c) Annual Enrollment Fee. – There shall be no enrollment fee for Program
32 coverage for enrollees whose family income is at or below one hundred fifty percent
33 (150%) of the federal poverty level. The enrollment fee for Program coverage for
34 enrollees whose family income is above one hundred fifty percent (150%) of the federal
35 poverty level shall be fifty dollars (\$50.00) per year per child with a maximum annual
36 enrollment fee of one hundred dollars (\$100.00) for two or more children. The
37 enrollment fee shall be collected by the county department of social services and
38 retained to cover the cost of determining eligibility for services under the Program.
39 County departments of social services shall establish procedures for the collection of
40 enrollment fees.

41 (d) Cost-Sharing. – ~~There shall be no deductibles, copayments, or other cost-~~
42 ~~sharing charges for families covered under the Program whose family income is at or~~
43 ~~below one hundred fifty percent (150%) of the federal poverty level.~~

44 (1) Families covered under the Program whose family income is at or
45 below one hundred fifty percent (150%) of the federal poverty level
46 shall be responsible for copayments to providers as follows:

- a. Five dollars (\$5.00) per child for each visit to a provider, except that there shall be no copayment required for well-baby, well-child, or age-appropriate immunization services;
- b. Five dollars (\$5.00) per child for each outpatient hospital visit;
- c. One dollar (\$1.00) for each outpatient generic prescription drug purchased;
- d. Three dollars (\$3.00) for each outpatient brand-name prescription drug purchased;
- e. Ten dollars (\$10.00) for each emergency room visit unless:
 1. The child is admitted to the hospital, or
 2. No other reasonable care was available as determined by the Claims Processing Contractor of the North Carolina Teachers' and State Employees' Comprehensive Major Medical Plan.

(2) Families covered under the Program whose family income is above one hundred fifty percent (150%) of the federal poverty level shall be responsible for copayments to providers as follows:

- (1)a. ~~Five dollars (\$5.00)~~ Ten dollars (\$10.00) per child for each visit to a provider, except that there shall be no copayment required for well-baby, well-child, or age-appropriate immunization services;
- (2)b. ~~Five dollars (\$5.00)~~ Ten dollars (\$10.00) per child for each outpatient hospital visit;
- (3)c. ~~A six dollar (\$6.00)~~ five-dollar (\$5.00) fee for each outpatient generic prescription drug purchased;
- d. A ten-dollar (\$10.00) fee for each outpatient brand-name prescription drug purchased;
- (4)e. ~~Twenty dollars (\$20.00)~~ Thirty dollars (\$30.00) for each emergency room visit unless:
 - a.1. The child is admitted to the hospital, or
 - b.2. No other reasonable care was available as determined by the Claims Processing Contractor of the North Carolina Teachers' and State Employees' Comprehensive Major Medical Plan.

Copayments required under this subsection for prescription drugs apply only to prescription drugs prescribed on an outpatient basis.

(e) Cost-Sharing Limitations. – The total annual aggregate cost-sharing, including fees, with respect to all children in a family receiving Program benefits under this Part shall not exceed five percent (5%) of the family's income for the year involved. To assist the Department in monitoring and ensuring that the limitations of this subsection are not exceeded, the Executive Administrator and Board of Trustees of the North Carolina Teachers' and State Employees' Comprehensive Major Medical Plan shall provide data to the Department showing cost-sharing paid by Program enrollees.

(f) Coverage From Private Plans. – The Department shall, from funds available for the Program, pay the cost for dependent coverage provided under a private insurance

1 plan for persons eligible for coverage under the Program if all of the following
2 conditions are met:

- 3 (1) The person eligible for Program coverage requests to obtain dependent
4 coverage from a private insurer in lieu of coverage under the Program
5 and shows proof that coverage under the private plan selected meets
6 the requirements of this subsection;
- 7 (2) The dependent coverage under the private plan is actuarially
8 equivalent to the coverage provided under the Program and the private
9 plan does not engage in the exclusive enrollment of children with
10 favorable health care risks;
- 11 (3) The cost of dependent coverage under the private plan is the same as
12 or less than the cost of coverage under the Program; and
- 13 (4) The total annual aggregate cost-sharing, including fees, paid by the
14 enrollee under the private plan for all dependents covered by the plan,
15 do not exceed five percent (5%) of the enrollee's family income for the
16 year involved.

17 The Department may reimburse an enrollee for private coverage under this
18 subsection upon a showing of proof that the dependent coverage is in effect for the
19 period for which the enrollee is eligible for the Program.

20 (g) Purchase of Extended Coverage. – An enrollee in the Program who loses
21 eligibility due to an increase in family income above two hundred percent (200%) of the
22 federal poverty level and up to and including two hundred twenty-five percent (225%)
23 of the federal poverty level may purchase at full premium cost continued coverage
24 under the Program for a period not to exceed one year beginning on the date the enrollee
25 becomes ineligible under the income requirements for the Program. The same benefits,
26 copayments, and other conditions of enrollment under the Program shall apply to
27 extended coverage purchased under this subsection.

28 (h) No State Funds for Voluntary Participation. – No State or federal funds shall
29 be used to cover, subsidize, or otherwise offset the cost of coverage obtained under
30 subsection (g) of this section."

DRAFT
SPECIAL PROVISION

2002-DHHS-H21(S10.21)i

Department of Health and Human Services
Appropriations Subcommittee on Health and Human Services

Requested by: Representatives Earle, Nye

1 *NC HEALTH CHOICE STATE PLAN TECHNICAL AMENDMENTS*

2 **SECTION 10.21.** The Department of Health and Human Services may
3 rewrite and submit to the federal government the State Plan for the North Carolina
4 Health Choice Program solely for the purpose of incorporating amendments enacted by
5 the 1997 General Assembly, Regular Session 1998, the 1999 General Assembly, and the
6 2001 General Assembly, and to otherwise comply with applicable federal requirements.
7 Nothing in this section authorizes the Department to make amendments to the State Plan
8 for the North Carolina Health Choice Program not otherwise authorized by the General
9 Assembly. Amendments to the State Plan required by the federal government to be
10 implemented after the effective date of this section, other than those authorized by this
11 section, shall comply with G.S. 108A-70.25.

Appropriations Subcommittee on Health and Human Services

Requested by: Representatives Earle, Nye

1 **NC HEALTH CHOICE BENEFITS AND CLAIMS PROCESSING**
2 **ADMINISTERED BY THE DEPARTMENT OF HEALTH AND HUMAN**
3 **SERVICES**

4 SECTION #.(a) G.S. 108A-70.20 reads as rewritten:

5 **"108A-70.20. Program established.**

6 The Health Insurance Program for Children is established. The Program shall be
7 administered by the Department of Health and Human ~~Services~~ Services, including
8 administration of Program benefits and claims processing, in accordance with this Part
9 and as required under Title XXI and related federal rules and regulations.
10 ~~Administration of Program benefits and claims processing shall be as provided under~~
11 ~~Part 5 of Article 3 of Chapter 135 of the General Statutes."~~

12 SECTION #.(b) G.S.108A-70.22 reads as rewritten:

13 **"108A-70.22. Allocation of federal and State funds for Program; consultation with**
14 **Joint Legislative Health Care Oversight Committee.**

15 The Department of Health and Human Services, after having consulted with and
16 received advice from the Joint Legislative Health Care Oversight Committee established
17 under G.S. 120-70.110, shall from total funds available to the Department for Program
18 implementation, allocate and adjust, as needed, funds to pay ~~the North Carolina~~
19 ~~Teachers' and State Employees' Major Medical Plan in accordance with G.S.~~
20 ~~108A-70.23 and Part 5 of Article 3 of Chapter 135 of the General Statutes, and funds to~~
21 ~~pay for eligible services provided for children with special needs in accordance with~~
22 ~~G.S. 108A-70.23."~~

23 SECTION #.(c) G.S. 108A-70.23 reads as rewritten:

24 **"108A-70.23. Services for children with special needs established; definition;**
25 **eligibility; services; limitation; recommendations; no entitlement.**

26 (a) Special Needs Services Authorized. – The Department shall, from federal
27 funds received and State funds appropriated for the Program, pay for services for
28 children with special needs as authorized under this section. As used in this section, the
29 term "children with special needs" or "special needs child" means children who have
30 been diagnosed as having one or more of the following conditions which in the opinion
31 of the diagnosing physician (i) is likely to continue indefinitely, (ii) interferes with daily
32 routine, and (iii) require extensive medical intervention and extensive family
33 management:

- 34 (1) Birth defect, including genetic, congenital, or acquired disorders;

56

- 1 (2) Developmental disability as defined under G.S. 122C-3;
- 2 (3) Mental or behavioral disorder; or
- 3 (4) Chronic and complex illnesses.

4 (b) Eligibility for Services. – In order to be eligible for services under this section
5 a special needs child must be enrolled in the Program.

6 (c) Services Provided. – The services authorized to be provided to children
7 eligible under this section are as follows:

8 (1) The same level of services as provided for special needs children under
9 the Medical Assistance Program as authorized in the Current
10 Operations Appropriations Act except that no services for long-term
11 care shall be provided under this section, and except that services for
12 respite care shall be provided only under emergency circumstances;
13 and

14 (2) Only those services eligible under this section that are not covered or
15 otherwise provided under ~~Part 5 of Article 3 of Chapter 135 of the~~
16 ~~General Statutes.~~this Part.

17 (d) Limitation. – Funds may be expended for services under this section
18 only if the special needs child is enrolled in the Program, the services
19 provided under this section are not provided under ~~Part 5 of Article 3~~
20 ~~of Chapter 135 of the General Statutes.~~this Part, and the child meets
21 the definition of a special needs child under this section.

22 (e) Case Management Services. – The Department shall develop procedures for
23 the provision of case management services by the Department to eligible special needs
24 children. Case management services shall be developed to ensure to the maximum
25 extent possible that services are provided in the most efficient and effective manner
26 considering the special needs of the child. The cost of providing case management
27 services for children with special needs shall be paid from funds available for services
28 under this section.

29 (f) Recommendations by Commission on Children With Special Health Care
30 Needs. – In implementing this section the Department shall consider the
31 recommendations of the Commission on Children With Special Health Care Needs
32 established under Article 71 of Chapter 143 of the General Statutes. The Department, in
33 consultation with the Commission on Children With Special Health Care Needs shall
34 develop procedures for providing respite care services under emergency circumstances.

35 (g) No Entitlement. – Nothing in this section shall be construed as entitling any
36 person to services under this section."

37 SECTION #.(d) G.S. 108A-70.24 is repealed.

38 SECTION #.(e) G.S. 108A-70.27(c) is repealed.

39 SECTION #.(f) G.S. 108A-25 is amended by adding the following new
40 subsection to read:

41 "(b2) The Health Insurance Program for Children is a program of public assistance
42 and shall be supervised and administered as provided in Part 8 of this Article."

43 SECTION #.(g) G.S. 108A-80(d) reads as rewritten:

44 "(d) The Social Services Commission may adopt rules governing access to case
45 files for social services and public assistance programs, except the Medical Assistance
46 ~~Program.~~Program and the Health Insurance Program for Children. The Secretary of the

1 Department of Health and Human Services shall have the authority to adopt rules
2 governing access to medical assistance case files.files and Health Insurance Program for
3 Children case files."

4 SECTION #.(h) G.S. 120-70.111(c) reads as rewritten:

5 "(c) The Committee may use employees of the Legislative Services Office and
6 may employ contractual services as approved by the Legislative Services Commission
7 to review and monitor, on a continuing basis, the implementation of the Health
8 Insurance Program for Children established under Part 8 of Article 2 of Chapter 108A
9 of the General Statutes. The Committee shall have access to all records of the
10 Department of Health and Human Services pertaining to the Health Insurance Program
11 for ~~Children-Children~~, except for confidential case files, and shall be kept apprised by
12 the Department of communications between the Department and the ~~Health-Care~~
13 ~~Financing-Administration~~ Centers for Medicare and Medicaid Services with respect to
14 development, submission, and approval of and amendments to the State Plan for the
15 Health Insurance Program for Children. ~~The Committee and its employees shall also be~~
16 ~~entitled to attend all meetings and have access to all records of the North Carolina~~
17 ~~Teachers' and State Employees' Comprehensive Major Medical Plan pertaining to the~~
18 ~~Health Insurance Program for Children that are not confidential in accordance with G.S.~~
19 ~~135-37. G.S. 135-37 shall be applicable to the Health Insurance Program for Children to~~
20 ~~the same extent that is applicable to teachers and State employees."~~

21 SECTION #.(i) Part 5 of Article 3 of Chapter 135 of the General Statutes is
22 repealed.

23 SECTION #.(j) G.S. 135-39.6(d) and G.S. 135-39.6A(c) are repealed.

24 SECTION #.(k) G.S. 58-50-75(b) reads as rewritten:

25 "(b) This Part applies to all insurers that offer a health benefit plan and that
26 provide or perform utilization review pursuant to G.S. 58-50-61, and the Teachers' and
27 State Employees' Comprehensive Major Medical Plan, ~~and the Health Insurance~~
28 ~~Program for Children-Plan~~. With respect to second-level grievance review decisions,
29 this Part applies only to second-level grievance review decisions involving
30 noncertification decisions."

31 SECTION #.(l) G.S. 90-21.50(1) reads as rewritten:

32 (1) 'Health benefit plan' means an accident and health insurance policy or
33 certificate; a nonprofit hospital or medical service corporation
34 contract; a health maintenance organization subscriber contract; a
35 self-insured indemnity program or prepaid hospital and medical
36 benefits plan offered under the Teachers' and State Employees'
37 Comprehensive Major Medical Plan and subject to the requirements of
38 Article 3 of Chapter 135 of the General Statutes, a plan provided by a
39 multiple employer welfare arrangement; or a plan provided by another
40 benefit arrangement, to the extent permitted by the Employee
41 Retirement Income Security Act of 1974, as amended, or by any
42 waiver of or other exception to that act provided under federal law or
43 regulation. ~~Except for the Health Insurance Program for Children~~
44 ~~established under Part 8 of Article 2 of Chapter 108A of the General~~
45 ~~Statutes~~, 'Health benefit plan' does not mean any plan implemented or
46 administered by the North Carolina or United States Department of

1 Health and Human Services, or any successor agency, or its
2 representatives. 'Health benefit plan' does not mean any of the
3 following kinds of insurance:

- 4 a. Accident.
- 5 b. Credit.
- 6 c. Disability income.
- 7 d. Long-term or nursing home care.
- 8 e. Medicare supplement.
- 9 f. Specified disease.
- 10 g. Dental or vision.
- 11 h. Coverage issued as a supplement to liability insurance.
- 12 i. Workers' compensation.
- 13 j. Medical payments under automobile or homeowners.
- 14 k. Hospital income or indemnity.
- 15 l. Insurance under which benefits are payable with or without
16 regard to fault and that is statutorily required to be contained in
17 any liability policy or equivalent self-insurance.
- 18 m. Short-term limited duration health insurance policies as defined
19 in Part 144 of Title 45 of the Code of Federal Regulations."

20 **SECTION #.(m)** G.S. 90-21.50(7) reads as rewritten:

21 "(7) 'Managed care entity' means an insurer that:

- 22 a. Delivers, administers, or undertakes to provide for, arrange for,
23 or reimburse for health care services or assumes the risk for the
24 delivery of health care services; and
- 25 b. Has a system or technique to control or influence the quality,
26 accessibility, utilization, or costs and prices of health care
27 services delivered or to be delivered to a defined enrollee
28 population.

29 Except for the Teachers' and State Employees' Comprehensive Major
30 ~~Medical Plan and the Health Insurance Program for Children, Plan,~~
31 'managed care entity' does not include: (i) an employer purchasing
32 coverage or acting on behalf of its employees or the employees of one
33 or more subsidiaries or affiliated corporations of the employer, or (ii) a
34 health care provider."

35 **SECTION #.(n)** This section becomes effective October 1, 2002. The
36 Teachers' and State Employees' Comprehensive Major Medical Plan shall complete
37 processing of claims under the Health Insurance Program for Children filed prior to and
38 pending on and after October 1, 2002.

Requested by: Representative

1 **NC HEALTH CHOICE PROGRAM ENROLLMENT MANAGEMENT**

2 SECTION #. The Department of Health and Human Services shall manage
3 NC Health Choice program enrollment through attrition and, as necessary, by imposing
4 a freeze on the enrollment of children in order to achieve and maintain a sustainable per
5 member per month enrollment within the 2002-2003 budget. In the current State fiscal
6 year one-time matching funds in an amount not to exceed three million dollars
7 (\$3,000,000) may be transferred to support State fiscal year 2002-2003 program
8 expenditures that are attributable to excess program enrollment. No funds may be
9 transferred until a freeze on enrollment has been imposed. Any funds transferred into
10 the NC Health Choice program pursuant to this section shall be used to pay current year
11 program costs only. In addition, the Department shall manage enrollment in the NC
12 Health Choice program so as to ensure that total program enrollment at the end of State
13 fiscal year 2002-2003 does not exceed a level that is sustainable within the certified
14 budget for State fiscal year 2002-2003.

SPECIAL PROVISION

2002-DHHS-H23(S10.23)

Department of Health and Human Services
Appropriations Subcommittee on Health and Human Services

Requested by: Representatives Earle, Nye

1 **ALLOCATION OF REDUCTIONS IN FUNDS FOR MENTAL HEALTH,**
2 **DEVELOPMENTAL DISABILITIES, AND SUBSTANCE ABUSE SERVICES**
3 **PROGRAMS**

4 **SECTION 10.23.(a)** The Division of Mental Health, Developmental
5 Disabilities, and Substance Abuse Services shall allocate reductions to Division central
6 administration to items of expenditures which have the least impact on:

- 7 (1) The support of direct services to individuals served in State facilities
8 and local programs;
- 9 (2) The Division's ability to reorganize and continue implementation of
10 the State Plan for Mental Health, Developmental Disabilities, and
11 Substance Abuse Services; and
- 12 (3) The Division's ability to meet State and federal requirements such as
13 monitoring, program oversight, and reporting.

14 **SECTION 10.23.(b)** All reductions designated for Division-operated State
15 facilities shall be allocated as follows:

- 16 (1) In a manner that has the least impact possible on the State's ability to
17 comply with Olmstead v. L.C. & E.W. and The Civil Rights of
18 Institutionalized Persons Act (CRIPA);
- 19 (2) Maximum resources shall be retained for the purpose of transfer to
20 local programs for community capacity building as the population in
21 State facilities decreases and the principal focus of services transitions
22 to community-based programs;
- 23 (3) As deemed essential by the Secretary of the Department of Health and
24 Human Services for compliance with implementation of the State Plan
25 for Mental Health, Developmental Disabilities, and Substance Abuse
26 Services, and with Olmstead v. L.C. & E.W. and CRIPA, reduction
27 amounts and total number of positions reduced may be shifted among
28 facilities so long as the aggregate reduction in State appropriations is
29 achieved.

30 **SECTION 10.23.(c)** The Department shall report not later than October 1,
31 2002, on a plan for allocating the reductions required under this section. The plan shall
32 describe each reduction allocation demonstrating compliance with this section. The
33 Department shall submit the report to the Senate Appropriations Committee on Health

1 **SUBSTANCE ABUSE PREVENTION SERVICES**

2 **SECTION 10.24.(a)** In order to ensure that individuals receive effective
3 substance abuse prevention services, the Department of Health and Human Services,
4 Division of Mental Health, Developmental Disabilities, and Substance Abuse Services,
5 shall do the following with respect to services provided to these individuals:

- 6 (1) Designate an Office of Substance Abuse Prevention within the
7 Department as outlined in the North Carolina Comprehensive Strategic
8 Plan for Substance Abuse Prevention. This Office shall be responsible
9 for the implementation of the goals in the Comprehensive Strategic
10 Plan for Substance Abuse Prevention. The Office shall also maintain
11 the Interagency Agreement for Substance Abuse Prevention Services
12 and ensure continuing collaboration between agencies that are parties
13 to the Agreement.
- 14 (2) Provide only those prevention services that are evidence-based and
15 have been determined to be effective in preventing alcohol and other
16 drug problems.
- 17 (3) Propose rules for the licensure of prevention programs to ensure
18 quality of service delivery in local communities. Rules shall be subject
19 to review and adoption by the Commission for Mental Health,
20 Developmental Disabilities, and Substance Abuse Services.
- 21 (4) Ensure that services are provided by qualified prevention
22 professionals.
- 23 (5) Implement an outcome-based system utilizing standard risk
24 assessments and data elements consistent with appropriate evaluation
25 of prevention programs.

26 **SECTION 10.24.(b)** The Department shall report on its activities under this
27 section to the Senate Appropriations Committee on Health and Human Services, the
28 House of Representatives Appropriations Subcommittee on Health and Human
29 Services, and the Fiscal Research Division not later than December 1, 2002.

1 **PRIVATE AGENCY UNIFORM COST-FINDING REQUIREMENT**

2 SECTION 10.25. Section 21.56 of S.L. 2001-424, as amended by S.L.
3 2001-513, reads as rewritten:

4 "SECTION 21.56.(a) To ensure uniformity in rates charged to area programs and
5 funded with State-allocated resources, the Division of Mental Health, Developmental
6 Disabilities, and Substance Abuse Services of the Department of Health and Human
7 Services may require a private agency that provides services under contract with ~~two or~~
8 ~~more area programs, an area program or county program,~~ except for hospital services
9 that have an established Medicaid rate, to complete an agency-wide uniform cost
10 finding. The resulting cost shall be the maximum included for the private agency in the
11 contracting area program's unit cost finding.

12 SECTION 21.56.(b) If a private agency fails to timely and accurately complete the
13 required agency-wide uniform cost finding in a manner acceptable to the Department's
14 controller's office, the Department may suspend all Department funding and payment to
15 the private agency until such time as an acceptable cost finding has been completed by
16 the private agency and approved by the Department's controller's office."

1 **AREA MENTAL HEALTH ADMINISTRATIVE COSTS**

2 SECTION 10.27. Section 21.65 of S.L. 2001-424 reads as rewritten:

3 "SECTION 21.65.(a) Area mental health, developmental disabilities, and substance
4 abuse authorities or counties administering mental health, developmental disabilities,
5 and substance abuse services shall develop and implement plans to reduce local
6 administrative costs. The plans shall be developed in accordance with guidelines
7 adopted by the Secretary, in consultation with the Local Government Commission and
8 the North Carolina Association of County Commissioners, and in accordance with the
9 following:

- 10 (1) For the 2001-2002 fiscal year, administrative costs for:
11 a. Area mental health, developmental disabilities, and substance
12 abuse services programs shall not exceed fifteen percent (15%).
13 b. Counties administering mental health, developmental
14 disabilities, and substance abuse services through a county
15 program shall not exceed fifteen percent (15%).
16 (2) For the 2002-2003 fiscal year, administrative costs for:
17 a. Area mental health, developmental disabilities, and substance
18 abuse services programs shall not exceed thirteen percent
19 (13%).
20 b. Counties administering mental health, developmental
21 disabilities, and substance abuse services through a county
22 program shall not exceed thirteen percent (13%).

23 SECTION 21.65.(b) The Department of Health and Human Services shall report its
24 progress in complying with this section not later than January 1, 2002, and April 15,
25 2002. The reports shall be submitted to the Senate Appropriations Committee on Health
26 and Human Services, the House of Representatives Appropriations Subcommittee on
27 Health and Human Services, and the Fiscal Research Division and shall include:

- 28 (1) A description of the process used and the participants involved in
29 complying with subsection (a) of this section.
30 (2) The guidelines developed under subsection (a) of this section.
31 (3) A description of local compliance initiatives and efforts including
32 program or function consolidation.
33 (4) A list of area programs at or below the targeted thirteen percent (13%)
34 for the 2000-2001 fiscal year.

1 (5) Projected savings in administrative costs as a result of implementation
2 of the targeted limits required under this section.

3 SECTION 21.65.(c) Beginning in the 2002-2003 fiscal year, the Department may
4 implement alternative approaches to establish reasonable administrative cost limitations
5 for Local Management Entities (LMEs), including both county programs and area
6 authority models, and service providers in accordance with system reform and changes
7 in system funding structures."

Department of Health and Human Services
Appropriations Subcommittee on Health and Human Services

Requested by: Representatives Earle, Nye

1 **MENTAL RETARDATION CENTER DOWNSIZING**

2 **SECTION 10.28.** Section 21.67 of S.L. 2001-424 reads as rewritten:

3 "SECTION 21.67.(a) In accordance with the Department of Health and Human
4 Services' plan for downsizing the State's regional mental retardation facilities by four
5 percent (4%) each year, the Department shall implement cost-containment and
6 reduction strategies to ensure the corresponding financial and staff downsizing of each
7 facility. The Department shall manage the client population of the mental retardation
8 centers in order to ensure that placements for ICF/MR level of care shall be made in
9 non-State facilities. Admissions to State ICF/MR facilities are permitted only as a last
10 resort and only upon approval of the Department. The corresponding budgets for each
11 of the State mental retardation centers shall be reduced, and positions shall be
12 eliminated as the census of each facility decreases. At no time shall mental retardation
13 center positions be transferred to other units within a facility or assigned nondirect care
14 activities such as outreach.

15 **SECTION 21.67.(a1)** Any savings in State appropriations in excess of two million
16 nine hundred thousand dollars (\$2,900,000) in each year of the 2001-2003 fiscal
17 biennium that result from reductions in beds or services shall be applied as follows:

- 18 (1) Nonrecurring savings shall be placed in the Trust Fund for Mental
19 Health, Developmental Disabilities, and Substance Abuse Services and
20 Bridge Funding Needs and shall be used to facilitate the transition of
21 clients into appropriate community-based services and support in
22 accordance with Section 21.58 of this act, and
- 23 (2) Recurring savings realized through implementation of this section
24 shall be retained by the Department of Health and Human Services,
25 Division of Mental Health, Developmental Disabilities, and Substance
26 Abuse Services to support the recurring costs of additional
27 community-based placements from Division facilities in accordance
28 with Olmstead vs. L.C. & E.W. In determining the savings in this
29 section, savings shall include all savings realized from the downsizing
30 of the State mental retardation centers including both the savings in
31 direct State appropriations in the budgets of the State mental
32 retardation centers as well as the savings in the State matching portion
33 of reduced Medicaid payments associated with downsizing.

34 **SECTION 21.67.(b)** The Department of Health and Human Services shall report on
35 its progress in complying with this section to the Senate Appropriations Committee on

1 Health and Human Services, the House of Representatives Appropriations
2 Subcommittee on Health and Human Services, and the Fiscal Research Division. The
3 progress report shall be submitted not later than January 15, 2002, and a final report
4 submitted not later than ~~May 1, 2002.~~October 1, 2002.

5 SECTION 21.67.(c) Downsizing of mental retardation centers which occurs in the
6 2002 fiscal year shall be maintained for the 2003 fiscal year. Effective July 1, 2002,
7 downsizing shall be accomplished in accordance with this section and the State Plan for
8 Mental Health, Developmental Disabilities, and Substance Abuse Services. All savings
9 resulting from downsizing occurring on and after July 1, 2002, shall be utilized as set
10 forth in subsection (a1) of this section."

1 **DHHS COORDINATION OF RULES**

2 SECTION 10.31.(a) The Secretary of the Department of Health and Human
3 Services and the Chairs of the Commissions listed in this section shall collaborate in the
4 development of a process for identifying and resolving issues pertaining to duplication
5 and conflict of rules adopted by the Secretary and each Commission that affect the area
6 of mental health, developmental disabilities, and substance abuse services. The process
7 shall address the following:

- 8 (1) How to identify on a routine basis proposed rules that duplicate in
9 whole or in part other rules proposed or adopted and ways of avoiding
10 the duplication without interfering with the agency's statutory duty to
11 adopt the rule and without impairing the effectiveness of the rule in
12 carrying out the statutory mandate.
- 13 (2) How to identify on a routine basis adopted rules that are in conflict,
14 proposed rules that conflict with other proposed or adopted rules, and
15 ways of addressing the conflict without interfering with the agency's
16 statutory duty to adopt the rule and without impairing the effectiveness
17 of the rule in carrying out the statutory mandate.

18 The following Commissions shall collaborate with the Secretary on the
19 development of this process: the Commission for Mental Health, Developmental
20 Disabilities, and Substance Abuse Services, the Social Services Commission, the
21 Commission for Health Services, the Medical Care Commission, and other
22 Commissions that adopt rules affecting the area of mental health, developmental
23 disabilities, and substance abuse services that the Secretary has a duty to implement.
24 The Secretary shall also involve a representative of the Division of Medical Assistance
25 in this effort.

26 SECTION 10.31.(b) The Secretary and the Commissions shall implement
27 the process required by Section 1 of this act not later than October 1, 2002. Not later
28 than October 15, 2002, the Secretary shall report to the Joint Legislative Commission on
29 Mental Health, Developmental Disabilities, and Substance Abuse Services the
30 following:

- 31 (1) The status of the review of rules conducted by the Department for
32 determining the existence of ambiguity, duplication, or conflict.
- 33 (2) Specific rules identified that are in conflict and the recommended
34 action for resolving the conflict.

1 ***PATIENT ADVOCATE POSITIONS ORGANIZATIONAL CHANGE***

2 SECTION #. In order to better achieve the purposes of patient advocate
3 positions, the Department of Health and Human Services shall develop a plan for
4 restructuring the organizational framework for patient advocate positions such that
5 patient advocates in the State psychiatric hospitals and mental retardation centers are
6 under the supervision of and report directly to Department officials rather than to the
7 Directors of these facilities. In developing the plan, the Department shall not relocate
8 the patient advocates nor change their duties and responsibilities, but shall determine the
9 best organizational structure within the Department for these positions. In developing
10 the plan the Department shall also consider contracting for patient advocate services.
11 The Department shall report on the development of the plan to restructure the patient
12 advocate position organizational framework. The report shall include the following
13 information:

- 14 (1) The various potential organizational structures under the Department's
15 organizational framework considered for the patient advocate
16 positions.
17 (2) The organizational framework recommended by the Department.
18 (3) The Department officials responsible for supervision of the patient
19 advocates under the new organizational framework.
20 (4) Whether the Department considered contracting for patient advocate
21 services and the reasons for its decision about contracting for these
22 services.

23 The Department shall submit the report not later than December 1, 2002 to the
24 House of Representatives Appropriations Subcommittee on Health and Human

2002-DHHS-H35(S10.35)i

Department of Health and Human Services
Appropriations Subcommittee on Health and Human Services

Requested by: Representatives Earle, Nye

1 ***ELIMINATE ADDITIONAL FUNDS FOR CHILD SUPPORT SERVICES***

2 **SECTION 10.35.** Section 21.54A of S.L. 2001-424 reads as rewritten:

3 "SECTION 21.54A. Of the funds appropriated in this act to the Department of
4 Health and Human Services, Division of Social Services, the sum of one million five
5 hundred thousand dollars (\$1,500,000) for the 2001-2002 fiscal year, ~~and one million~~
6 ~~five hundred thousand dollars (\$1,500,000) for the 2002-2003 fiscal year,~~ year shall be
7 used to contract for additional child support services in urban counties demonstrating
8 significant caseload backlogs. The additional support to urban counties shall address the
9 backlog of cases and emphasize the establishment of paternities and the location of
10 absent parents."

SPECIAL PROVISION

2002-DHHS-H37(S10.37)i

Department of Health and Human Services
Appropriations Subcommittee on Health and Human Services

Requested by: Representatives Earle, Nye

1 ***ELECTING COUNTY TANF FUNDS REVERT***

2 SECTION 10.37. G.S. 108A-27.11(c) reads as rewritten:

3 "(c) Each Electing County's allocation for Work First Family Assistance shall be
4 computed based on the percentage of each Electing County's total expenditures for cash
5 assistance to statewide actual expenditures for cash assistance in 1995-96. The resulting
6 percentage shall be applied to the federal TANF block grant funds appropriated for cash
7 assistance by the General Assembly each fiscal year. The Department shall transmit the
8 federal funds contained in the county block grants to Electing Counties as soon as
9 practicable after they become available to the State and in accordance with federal cash
10 management laws and regulations. The Department shall transmit one-fourth of the
11 State funds contained in county block grants to Electing Counties at the beginning of
12 each quarter. ~~Once paid, the county block grant funds shall not revert.~~"

1 **ADULT CARE HOME MODEL FOR COMMUNITY-BASED SERVICES**

2 SECTION 10.38. Section 21.54(b) of S.L. 2001-424 reads as rewritten:

3 "SECTION 21.54.(b) The Department shall submit a progress report on the
4 development of the model to the Senate Appropriations Committee on Health and
5 Human Services, the House of Representatives Appropriations Subcommittee on Health
6 and Human Services, and the Fiscal Research Division on or before January 1, 2002,
7 and a final report on ~~March 1, 2002.~~ March 1, 2003. The report shall address the
8 following:

- 9 (1) The proposed time and location for implementation of the pilot.
- 10 (2) Proposed number of residents to be placed and services to be provided
11 directly by the facility or under contract with the facility.
- 12 (3) Method for evaluating the pilot, including services provided, on a
13 regular basis.
- 14 (4) A description of the living environment for each resident and a
15 comparison of how the living environment compares to that of other
16 residents in the adult care home.
- 17 (5) Changes to State law necessary to implement the pilot.
- 18 (6) Projected cost to the State for pilot and statewide implementation."

(\$438,354)

(~~\$876,708~~)

Reduces State funds for maternity homes. TANF Block Grant funds will be used to replace the reduction in State funds.

131 Welfare Automation Fund

(\$8,000,000)

0

Reduces State funds used for various automation projects in the Department of Health and Human Services.

132 Boys and Girls Clubs

\$550,000 NR

\$550,000 NR

0

Provides State appropriations to replace federal funding historically used to support Boys and Girls Clubs across the state. Due to a reduction in the Temporary Assistance for Needy Families (TANF) Block Grant, this item could not be funded with federal funds for the 02-03 fiscal year.

133 Food Banks

\$1,000,000 NR

\$900,000 NR

0

Provides funds to be equally distributed to the regional network of food banks in North Carolina.

134 Special Children Adoption Fund

\$2,000,000 NR

0

Provides State appropriations to replace federal funding historically provided to adoption agencies in order to increase the number of children adopted from the foster care system. Due to a reduction in the Temporary Assistance for Needy Families Block Grant, this item could not be funded with federal funds for the 02-03 fiscal year.

135 Funds for Work Central Career Advancement Center

\$500,000 NR

0

Provides State appropriations for a Call Center in Edgecombe County (serving seven counties) historically funded with federal funds. Due to a reduction in the Temporary Assistance for Needy Families Block Grant, federal funds are not available to fund this project for the 02-03 fiscal year.

Division of Vocational Rehabilitation

136	Direct VR Client Services	(\$1,922,522)	(\$3,499,678)	<u>(\$1,922,522)</u>
------------	---------------------------	---------------	---------------	----------------------

Reduces state appropriations for vocational rehabilitation client services by implementing stricter case policies and "order of selection" policies that allow a waiting list for the least disabled clients.

137	Administrative Operational Costs	(\$400,000)	(\$400,000)	<u>(\$400,000)</u>
------------	----------------------------------	-------------	-------------	--------------------

Reduces administrative costs by reducing expenditures for supplies, travel, and equipment.

138	Disability Division's Consolidation	(\$750,000)	(\$750,000)	0
------------	-------------------------------------	-------------	-------------	---

~~Reduces state appropriations for the Divisions of Services for the Blind and Vocational Rehabilitation by consolidating the Division of Services for the Blind, Division of Services for the Deaf and Hard of Hearing, and Division of Vocational Rehabilitation and creating a new Division to be named by the Department of Health and Human Services. Reductions will result from the consolidation of administration for all three divisions, consolidation of district offices in cities where there are two or more district offices, and streamlining of direct client services provided by all three divisions. No reductions are to come from the Division of Services for the Deaf and Hard of Hearing, and services unique to persons who are deaf or blind shall be maintained.~~

139	Vacant Positions	(\$850,000) -25.00	(\$850,000) -25.00	<u>(\$700,000)</u> -20.0
------------	------------------	-----------------------	-----------------------	-----------------------------

Eliminates 25.0 vacant positions including 1.0 Adj. Services Instructor, 1.0 Administrative Assistant I, 1.0 Administrative Officer III, 1.0 Computer Technical Support III, 8.0 Office Assistant II's, 1.0 Office Assistant IV, 1.0 Processing Assistant III, 1.0 Program Assistant V, 1.0 Rehab. Case Assistant, 2.0 Rehab. Case Supervisors, 1.0 Rehab. Education Specialist, 1.0 Stock Clerk II, 1.0 Vocational Evaluator II, and 1.0 Vocational Evaluation Specialist.

140	Universal Design Contract	(\$50,000)	(\$99,998)	0
------------	---------------------------	------------	------------	---

Reduces Universal Design contract with NCSU's Center for Universal Design.

Divisions of Services for the Blind and Services for Deaf & Hard of Hearing

141	Special Assistance for the Blind	(\$158,000)	(\$158,000)	(\$ 158,000)
-----	----------------------------------	-------------	-------------	--------------------------

Reduces excess funding in the Special Assistance for the Blind program.

142	Medical Eye Care and Independent Living Services	(\$64,000) -1.00	(\$64,000) -1.00	(\$ 64,000)
-----	--	---------------------	---------------------	-------------------------

Reduces funding for Medical Eye Care and Independent Living Services by eliminating 1.0 Medical Eye Care Consultant position and reducing funding for medical/scientific equipment and educational supplies.

143	Cost Allocation to Telecommunications Access of NC	(\$21,013)	(\$21,013)	(\$ 21,013)
-----	--	------------	------------	-------------------------

Reduces state appropriations to the Division of Services for the Deaf and Hard of Hearing by increasing receipts from Telecommunication Access of NC through cost allocation.

144	Operating Expenses	(\$200,000)	(\$200,000)	0
-----	--------------------	-------------	-------------	---

Maintains expenditures for SFY 2003 for operating expenses at the SFY 2002 expenditure level.

145	Medical Eye Care Program	(\$200,000)	(\$200,000)	0
-----	--------------------------	-------------	-------------	---

Reduces excess funding in the Medical Eye Care Program.

NC Health Choice

146	Dispensing Fee Reduction	(\$168,964)	(\$168,964)	0
-----	--------------------------	-------------	-------------	---

Reduces premiums for the NC Health Choice program by reducing the dispensing fee paid to pharmacists from \$6.00 per prescription to \$4.00 for brand name drugs and \$5.60 for generic drugs. This is the same dispensing fee as paid by the Medicaid Program.

147	Premium Reduction by Using Medicaid Reimbursement	(\$8,578,528)	(\$8,578,528)	0
-----	---	---------------	---------------	---

Reduces premiums for the NC Health Choice Program by paying Medicaid reimbursement rates to NC Health Choice providers.

148 Co-Payments

(\$771,128)

0

Reduces premiums for the NC Health Choice program by increasing co-payments for families with income greater than 150% of the federal poverty level and establishing new co-payments for families with income at or below 150% of the federal poverty level.

Increased rates for families with income greater than 150% of the FPL:

Office/Mental Health Visit Increased to \$10 from \$5
Rx Filled Was \$6 for all Drugs
 Now \$5 for Generic and
 \$10 for brand name
Non- emergency Use of ER Increased to \$30 from \$20

New co-payments for families with income at or below 150% of the FPL:

Office/Mental Health Visit \$5
Rx Filled \$1 for Generic and
 \$3 for brand name
Non-emergency Use of ER \$10

149 Co-payments

(\$454,669)

0

Reduces premiums for the NC Health Choice program by increasing co-payments for families with income greater than 150% of the federal poverty level and establishing new co-payments for families with income at or below 150% of the federal poverty level.

Increased rates for families with income greater than 150% of the FPL:

Office/Mental Health Visit Increased to \$7 from \$5
Rx Filled Was \$6 for all Drugs
 Now \$5 for Generic and
 \$10 for brand name
Non- emergency Use of ER Increased to \$30 from \$20

New co-payments for families with income at or below 150% of the FPL:

Office/Mental Health Visit \$2
Rx Filled \$1 for Generic and
 \$3 for brand name
Non-emergency Use of ER \$10

HOUSE APPROPRIATIONS SUBCOMMITTEE ON HEALTH AND HUMAN SERVICES

Thursday, August 1, 2002

8:00 A. M.

Room 643, Legislative Office Building

The Appropriations subcommittee on Health and Human Services met on Thursday, August 1, 2002 at 8:00 A.M. in Room 643 of the Legislative Office Building. Members present were Representative Edd Nye, Representative Beverly Earle, Co-Chairs; Representatives Mark Crawford, Walter Church, Debbie Clary, Billy Creech, Theresa Esposito, Verla Insko, and Thomas Wright.

Representative Nye called the meeting to order and welcomed Committee members and visitors. Attached is the Visitor Registration Sheet that is made a part of the minutes.

After opening remarks, the Chair announced that amendments to the special provisions report would be heard. The following amendments were offered:

- 1- Rep. Nye-Adopted, voice vote
- 2- Rep. Nye-Adopted, voice vote, Recalled, voice vote
- 3- Rep. Earle-Adopted, voice vote
- 4- Rep. Insko-Displaced
- 5- Rep. Crawford-Adopted, voice vote
- 6- Rep. Insko-Adopted, voice vote
- 7- Rep. Nye-Adopted, voice vote

Representative Crawford moved that the report be approved. Report was approved by voice vote.

Representative Nye adjourned the meeting.

Appropriations Subcommittee on Health and Human Services

Requested by: Representatives Earle, Nye

1 **INTENSIVE HOME VISITING**

2 **SECTION 10.47.** Section 21.97(b) of S.L. 2001-424 reads as rewritten:

3 "SECTION 21.97.(b) The Division shall require in-home visitors to collect data on
4 program participants as a condition of participation. This requirement shall include
5 six-month periodic assessments and completion of the questionnaires. The Department
6 shall ensure that the collection, maintenance, use, and disclosure of data complies with
7 applicable State and federal law protecting privacy of health and other individual
8 information. By April 1, 2002,—2003, the Division shall report to the Senate
9 Appropriations Committee on Health and Human Services and the House of
10 Representatives Appropriations Subcommittee on Health and Human Services on the
11 following items:

- 12 (1) Number of clients/families enrolled per county.
- 13 (2) Attrition and reasons why families leave the program.
- 14 (3) Average number of home visits per month.
- 15 (4) Average time involved per home visit.
- 16 (5) Baseline family characteristics.
- 17 (6) Health behaviors.
- 18 (7) Perinatal and birth outcomes.
- 19 (8) Other relevant outcome information.

20 All program information shall include the identification of the model used in order to
21 compare these models in the future."

Appropriations Subcommittee on Health and Human Services

Requested by: Representatives Earle, Nye

1 **AIDS DRUG ASSISTANCE PROGRAM (ADAP)**

2 **SECTION 10.48.(a)** Section 21.90(b) of S.L. 2001-424 reads as rewritten:

3 "SECTION 21.90.(b) For the 2001-2002 fiscal year and for the 2002-2003 fiscal
4 year, HIV-positive individuals with incomes at or below one hundred twenty-five
5 percent (125%) of the federal poverty level are eligible for participation in ADAP.
6 ~~Eligibility for participation in ADAP may be extended to individuals with incomes up to~~
7 ~~one hundred fifty percent (150%) of the federal poverty level only after the Office of~~
8 ~~State Budget and Management certifies in writing that the Department has developed an~~
9 ~~information management system pursuant to subsection (a) of this section. Until the~~
10 ~~Office of State Budget and Management makes this certification, eligibility~~Eligibility
11 for participation in ADAP during the 2001-2003 fiscal biennium shall not be extended
12 to individuals with incomes above one hundred twenty-five percent (125%) of the
13 federal poverty level. ~~Following six months of increased eligibility at one hundred fifty~~
14 ~~percent (150%) of the federal poverty level, eligibility for participation in ADAP shall~~
15 ~~be extended to individuals with incomes up to one hundred seventy five percent (175%)~~
16 ~~of the federal poverty level for the remainder of the 2001-2002 fiscal year. Beginning~~
17 ~~July 1, 2002, eligibility for participation in the ADAP shall be extended to individuals~~
18 ~~with incomes up to two hundred percent (200%) of the federal poverty level."~~

19 **SECTION 10.48.(b)** The Department of Health and Human Services shall
20 develop a plan to manage costs in ADAP and to serve additional participants within
21 additional resources. The plan shall include an assessment of the following, including,
22 where applicable, a review of other states' actions in these areas:

- 23 (1) Limiting the drug formulary.
24 (2) Capping expenditures on a per participant/per month basis.
25 (3) Providing financial assistance to participants for health care program
26 premiums.

27 **SECTION 10.48.(c)** The Department shall report on activities conducted
28 under this section and under Section 21.90 of S.L. 2001-424 to the Senate
29 Appropriations Committee on Health and Human Services, the House of
30 Representatives Subcommittee on Health and Human Services, and the Fiscal Research
31 Division. The Department shall submit an interim report not later than December 1,
32 2002, and a final report not later than May 1, 2003.

1 ***PRESCRIPTION DRUG ASSISTANCE PROGRAM***

2 **SECTION 10.49.(a)** Section 21.88 of S.L. 2001-424 reads as rewritten:

3 "SECTION 21.88. Of the funds appropriated in this act to the Department of Health
4 and Human Services, the sum of five hundred thousand dollars (\$500,000) for the
5 2001-2002 fiscal year ~~and the sum of five hundred thousand dollars (\$500,000) for the~~
6 ~~2002-2003 fiscal year~~ shall be used to pay the cost of outpatient prescription drugs for
7 persons:

- 8 (1) Over the age of 65 years and not eligible for full Medicaid benefits;
9 (2) Whose income is not more than one hundred fifty percent (150%) of
10 the federal poverty level; and
11 (3) Who have been diagnosed with cardiovascular disease or diabetes.

12 These funds shall be used to pay the cost of outpatient prescription drugs for the
13 treatment of cardiovascular disease or diabetes. Payment shall be not more than the
14 Medicaid cost including rebates. The Department shall develop criteria to maximize the
15 efficient and effective distribution of these drugs."

16 **SECTION 10.49.(b)** It is the intent of the General Assembly that funding for
17 prescription drug assistance provided by the Health and Wellness Trust Fund shall
18 include funds for the transition of benefits formerly provided under the Prescription
19 Drug Assistance Program.

DRAFT
SPECIAL PROVISION

2002-DHHS-H40(S10.40)

Department of Health and Human Services
Appropriations Subcommittee on Health and Human Services

Requested by: Representatives Earle, Nye

1 **STATE/COUNTY SPECIAL ASSISTANCE RATE METHODOLOGY**

2 **SECTION 10.40.(a)** The Department of Health and Human Services shall
3 develop a plan to address the short-term and long-term recommendations of the report
4 titled "Reimbursement of Adult Care Homes in North Carolina: A Study of the Special
5 Assistance Rate Methodology, May, 2002." The plan shall include:

- 6 (1) Setting the rate at the median plus a percentage;
7 (2) Excluding low-occupancy facilities from the rate-setting methodology;
8 and
9 (3) Adjusting fixed costs for inflation.

10 **SECTION 10.40.(b)** The Department shall implement the following changes
11 to the adult care home cost reports:

- 12 (1) Revise the Direct Cost category to exclude personal care and medical
13 related transportation;
14 (2) Revise the Indirect Cost category to exclude property/ownership/use;
15 (3) Revise the category of other Cost centers to include: personal care,
16 medically related transportation, and mental health services;
17 (4) Create a capital cost center category to include
18 property/ownership/use;
19 (5) Create a nonreimbursable cost category; and
20 (6) Define allowable and nonallowable expenditures.

21 The Department of Health and Human Services shall make the new cost report format
22 available to each facility 90 days prior to implementation.

23 **SECTION 10.40.(c)** The Department shall expand current audit policies and
24 procedures for auditing provider costs. The Department shall create an audit function
25 that is directly answerable to the State and involves fewer but more detailed audits. All
26 providers of services to State County Special Assistance recipients shall be subject to a
27 State audit if selected. The specific audit requirements shall be based on auditing
28 requirements of governmental programs providing similar services. The Department
29 shall combine Division of Medical Assistance audits for personal care services and
30 audits for State/County Special Assistance. The Department shall use the sum of three
31 hundred thousand dollars (\$300,000) in available resources for State/County Special
32 Assistance and Medicaid funds to cover the additional auditing costs. The Department
33 in consultation with the Office of the State Auditor shall contract with an independent
34 consultant for this service.

1 **SECTION 10.40.(d)** The Department shall apply for federal waivers to pay
2 facilities directly for residential services for State County Special Assistance Residents.
3 **SECTION 10.40.(e)** The Department shall report on the progress of the
4 implementations of the requirements of this section no later than December 1, 2002, to
5 the Senate Appropriations Committee on Health and Human Services, the House of
6 Representatives Appropriations Subcommittee on Health and Human Services, and the
7 Fiscal Research Division.

2 **SECTION 10.49.(a)** Section 21.88 of S.L. 2001-424 reads as rewritten:

3 "SECTION 21.88. Of the funds appropriated in this act to the Department of Health
4 and Human Services, the sum of five hundred thousand dollars (\$500,000) for the
5 2001-2002 fiscal year and the sum of five hundred thousand dollars (\$500,000) for the
6 2002-2003 fiscal year shall be used to pay the cost of outpatient prescription drugs for
7 persons:

- 8 (1) Over the age of 65 years and not eligible for full Medicaid benefits;
9 (2) Whose income is not more than one hundred fifty percent (150%) of
10 the federal poverty level; and
11 (3) Who have been diagnosed with cardiovascular disease or diabetes.

12 These funds shall be used to pay the cost of outpatient prescription drugs for the
13 treatment of cardiovascular disease or diabetes. Payment shall be not more than the
14 Medicaid cost including rebates. The Department shall develop criteria to maximize the
15 efficient and effective distribution of these drugs."

16 **SECTION 10.49.(b)** It is the intent of the General Assembly that funding for
17 prescription drug assistance provided by the Health and Wellness Trust Fund shall
18 include funds for the transition of benefits formerly provided under the Prescription
19 Drug Assistance Program.

1 **DEVELOPMENTAL EVALUATION CENTERS**

2 **SECTION 10.53.(a)** The Department of Health and Human Services,
3 Division of Public Health, shall administer the reduction in funds for the 2002-2003
4 fiscal year of two million seventy-six thousand four hundred twenty-six dollars
5 \$2,076,426 to all Developmental Evaluation Centers (DEC's) based upon the following:

- 6 (1) Prior years' expenditures of the DEC,
7 (2) Elimination of vacant positions, and
8 (3) Overall needs of the DEC.

9 The reduction shall not result in the entire closure of an individual DEC and
10 the implementation of the reduction should seek to minimize the loss of direct services
11 to children, looking first at administrative reductions.

12 **SECTION 10.53.(b)** The Division of Public Health shall prepare a plan for
13 the future of Developmental Evaluation Centers that will involve a needs-assessment of
14 services and geographical needs. The plan shall also include an assessment of the
15 number of DEC's needed and recommendations for future downsizing or growth. The
16 plan will augment the Early Intervention Services Plan submitted to the General
17 Assembly. The Division shall report on its plan not later than December 1, 2002, to the
18 Senate Appropriations Committee on Health and Human Services, the House of
19 Representatives Appropriations Subcommittee on Health and Human Services, and the
20 Fiscal Research Division.

1 **EARLY CHILDHOOD EDUCATION AND DEVELOPMENT INITIATIVES**
2 **ENHANCEMENTS**

3 SECTION 10.55.(a) Section 21.75.(d) of S.L. 2001-424 reads as rewritten:

4 "SECTION 21.75.(d) The Department of Health and Human Services and the
5 North Carolina Partnership for Children, Inc., shall ensure that the allocation of funds
6 for Early Childhood Education and Development Initiatives for State fiscal ~~year-years~~
7 2001-2002 and 2002-2003 shall be administered and distributed in the following
8 manner:

- 9 (1) The North Carolina Partnership for Children, Inc., shall develop a
10 policy to allocate the reduction of funds for Early Childhood
11 Education and Development Initiatives for the 2001-2002 and 2002-
12 2003 fiscal ~~year-years~~.
- 13 (2) The North Carolina Partnership for Children, Inc., administration shall
14 be reduced by ten percent (10%) from the 2000-2001 fiscal year level.
- 15 (3) The Department of Health and Human Services Smart Start
16 administration shall be reduced by ten percent (10%) from the
17 2000-2001 fiscal year level.
- 18 (4) Capital expenditures and playground equipment expenditures are
19 prohibited for fiscal ~~year 2001-2002-years~~ 2001-2002 and 2002-2003.
20 For the purposes of this section, "capital expenditures" means
21 expenditures for capital improvements as defined in G.S. 143-34.40.
- 22 (5) Promotional items that specifically advertise Smart Start or the local
23 Partnership may not be purchased with State funds appropriated for
24 fiscal year 2002-2003. "

25 SECTION 10.55.(b) Section 21.75(f) of S.L. 2001-424 reads as rewritten:

26 "SECTION 21.75.(f) For the 2001-2002 and 2002-2003 fiscal ~~year-years~~, the North
27 Carolina Partnership for Children, Inc., shall not approve local partnership plans that
28 allocate State funds to child care providers for one-time quality improvement initiatives
29 in the following circumstances:

- 30 (1) Child care facilities with licensure of four or five stars, unless the
31 expenditure of funds is to expand capacity for low-income children.
- 32 (2) Child care facilities that do not accept child care subsidy funds.
- 33 (3) Child care facilities that previously received quality improvement
34 grants whose quality initiatives failed to increase licensure."

1 **SECTION 10.55.(c)** For the 2002-2003 fiscal year, the local partnerships
2 shall spend an amount for child care subsidies that provides at least fifty-two million
3 dollars (\$52,000,000) for the TANF maintenance of effort requirement and the Child
4 Care Development Fund and Block Grant match requirement.

5 **SECTION 10.55.(d)** G.S. 143B-168.12 is amended by adding a new
6 subsection to read:

7 "(e) The North Carolina Partnership shall develop guidelines for local
8 partnerships to follow in selecting capital projects to fund. The guidelines shall include
9 assessing the community needs in relation to the quantity of child care centers, assessing
10 the cost of purchasing or constructing new facilities as opposed to renovating existing
11 facilities, and prioritizing capital needs such as construction, renovations, and
12 playground equipment and other amenities."

13 **SECTION 10.55.(e)** G.S. 143B-168.13(a)(1a) reads as rewritten:

14 "(1a) Develop and conduct a statewide needs and resource assessment every
15 third year, beginning in the 1997-98 fiscal year. This needs assessment
16 shall be conducted in cooperation with the North Carolina Partnership
17 and with the local partnerships. This needs assessment shall include a
18 statewide assessment of capital needs. The data and findings of this
19 needs assessment shall form the basis for annual program plans
20 developed by local partnerships and approved by the North Carolina
21 Partnership."

1 **MORE AT FOUR PROGRAM**

2 SECTION 10.56.(a) Section 21.76B(d) of S.L. 2001-424 reads as rewritten:

3 "SECTION 21.76B.(d) In development of the "More At Four" pilot, the
4 Department of Health and Human Services, in consultation with the Department of
5 Public Instruction and the Task Force, shall:

6 (1) Contract with an independent research organization, outside the
7 Department of Health and Human Services and the Department of
8 Public Instruction, with proven expertise in evaluation of
9 prekindergarten programs, for the design of an evaluation component.
10 ~~The evaluation component shall facilitate longitudinal review of the~~
11 ~~program and child-specific outcomes to include, at a minimum,~~
12 ~~participants' readiness for kindergarten, percentage of participants~~
13 ~~scoring at or above grade level on the third grade end of grade test,~~
14 ~~and high school graduation rates pre- and post-assessments of children~~
15 participating in the More At Four program. Of the funds appropriated
16 in this act, the Department shall not spend more than two hundred
17 thousand dollars (\$200,000) on this contract.

18 (2) Collaborate in the development of a system to collect and maintain
19 child-specific information to provide for the long-term evaluation of
20 the pilot. The system shall be developed in a manner which builds
21 upon utilizes existing State and local systems and ~~which facilitates the~~
22 ~~interface with the N.C. Student Information Management System."~~

23 SECTION 10.56.(b) Section 21.76B(f) of S.L. 2001-424 reads as rewritten:

24 "SECTION 21.76B.(f) In order to maximize and coordinate funding for
25 prekindergarten programs for four-year-olds at-risk preschoolers with demonstrated
26 educational needs, the Department of Health and Human Services, the Department of
27 Public Instruction, ~~and the Task Force~~ Force, and the North Carolina Partnership for
28 Children, Inc., shall identify and make recommendations on the ~~reallocation~~ most
29 efficient and effective use of funds from existing State and local programs providing
30 prekindergarten related care and services, including child care subsidies. All potential
31 funding sources, including federal as well as State-funded efforts, shall be identified.
32 The report required under subsection (g) of this section shall include recommendations
33 on strategies to ensure coordination between the Partnership, More At Four, and other
34 prekindergarten programs in addressing the academic and cognitive needs of at-risk
35 preschoolers. The report shall include recommendations on structural changes to Smart

1 Start, More At Four, and other related programs, including consolidation, that may be
2 beneficial in encouraging this coordination. The report shall include a plan and a
3 timetable for implementation of the recommendations."

4 **SECTION 10.56.(c)** Section 21.76B(g) of S.L. 2001-424 reads as rewritten:

5 **"SECTION 21.76B.(g)** The Department of Health and Human Services, the
6 Department of Public Instruction, and the Task Force shall report by January 1, 2002,
7 and May 1, 2002, to the Joint Legislative Commission on Governmental Operations, the
8 Joint Legislative Education Oversight Committee, the Senate Appropriations
9 Committee on Health and Human Services, and the House of Representatives
10 Appropriations Subcommittee on Health and Human Services on the progress in
11 complying with this section. A final report along with recommendations for changes or
12 expansion of the program shall be presented to the ~~2003 General Assembly~~. Senate
13 Appropriations Committee on Health and Human Services, the House of
14 Representatives Appropriations Subcommittee on Health and Human Services, and the
15 Fiscal Research Division no later than December 1, 2002. This final report shall include
16 the following:

17 (1) The number of children participating in the program.

18 (2) The number of children participating in the program who have never
19 been served in other early education programs such as child care,
20 public or private preschool, Head Start, Early Head Start, or early
21 intervention programs.

22 (3) The expected expenditures for the fiscal year.

23 (4) The location of program sites and the corresponding number of
24 children participating in the program at each site.

25 (5) Recommendations regarding most efficient and effective use of State,
26 local, and federal funds to maximize the provision of services to at-risk
27 preschoolers and to eliminate duplication of efforts."

1 *PATIENT ADVOCATE POSITIONS ORGANIZATIONAL CHANGE*

2 SECTION #. In order to better achieve the purposes of patient advocate
3 positions, the Department of Health and Human Services shall develop a plan for
4 restructuring the organizational framework for patient advocate positions such that
5 patient advocates in the State psychiatric hospitals and mental retardation centers are
6 under the supervision of and report directly to Department officials rather than to the
7 Directors of these facilities. In developing the plan, the Department shall not relocate
8 the patient advocates nor change their duties and responsibilities, but shall determine the
9 best organizational structure within the Department for these positions. In developing
10 the plan the Department shall also consider contracting for patient advocate services.
11 The Department shall report on the development of the plan to restructure the patient
12 advocate position organizational framework. The report shall include the following
13 information:

- 14 (1) The various potential organizational structures under the Department's
15 organizational framework considered for the patient advocate
16 positions.
17 (2) The organizational framework recommended by the Department.
18 (3) The Department officials responsible for supervision of the patient
19 advocates under the new organizational framework.
20 (4) Whether the Department considered contracting for patient advocate
21 services and the reasons for its decision about contracting for these
22 services.

23 The Department shall submit the report not later than December 1, 2002 to the

DRAFT
SPECIAL PROVISION

2002-DHHS-H40(S10.40)

Department of Health and Human Services
Appropriations Subcommittee on Health and Human Services

Requested by: Representatives Earle, Nye

1 **STATE/COUNTY SPECIAL ASSISTANCE RATE METHODOLOGY**

2 **SECTION 10.40.(a)** The Department of Health and Human Services shall
3 develop a plan to address the short-term and long-term recommendations of the report
4 titled "Reimbursement of Adult Care Homes in North Carolina: A Study of the Special
5 Assistance Rate Methodology, May, 2002." The plan shall include:

- 6 (1) Setting the rate at the median plus a percentage;
- 7 (2) Excluding low-occupancy facilities from the rate-setting methodology;
- 8 and
- 9 (3) Adjusting fixed costs for inflation.

10 **SECTION 10.40.(b)** The Department shall implement the following changes
11 to the adult care home cost reports:

- 12 (1) Revise the Direct Cost category to exclude personal care and medical
13 related transportation;
- 14 (2) Revise the Indirect Cost category to exclude property/ownership/use;
- 15 (3) Revise the category of other Cost centers to include: personal care,
16 medically related transportation, and mental health services;
- 17 (4) Create a capital cost center category to include
18 property/ownership/use;
- 19 (5) Create a nonreimbursable cost category; and
- 20 (6) Define allowable and nonallowable expenditures.

21 The Department of Health and Human Services shall make the new cost report format
22 available to each facility 90 days prior to implementation.

23 **SECTION 10.40.(c)** The Department shall expand current audit policies and
24 procedures for auditing provider costs. The Department shall create an audit function
25 that is directly answerable to the State and involves fewer but more detailed audits. All
26 providers of services to State County Special Assistance recipients shall be subject to a
27 State audit if selected. The specific audit requirements shall be based on auditing
28 requirements of governmental programs providing similar services. The Department
29 shall combine Division of Medical Assistance audits for personal care services and
30 audits for State/County Special Assistance. The Department shall use the sum of three
31 hundred thousand dollars (\$300,000) in available resources for State/County Special
32 Assistance and Medicaid funds to cover the additional auditing costs. The Department
33 in consultation with the Office of the State Auditor shall contract with an independent
34 consultant for this service.

1 **SECTION 10.40.(d)** The Department shall apply for federal waivers to pay
2 facilities directly for residential services for State County Special Assistance Residents.
3 **SECTION 10.40.(e)** The Department shall report on the progress of the
4 implementations of the requirements of this section no later than December 1, 2002, to
5 the Senate Appropriations Committee on Health and Human Services, the House of
6 Representatives Appropriations Subcommittee on Health and Human Services, and the
7 Fiscal Research Division.

1 **MENTAL RETARDATION CENTER DOWNSIZING**

2 **SECTION 10.28.** Section 21.67 of S.L. 2001-424 reads as rewritten:

3 "SECTION 21.67.(a) In accordance with the Department of Health and Human
4 Services' plan for downsizing the State's regional mental retardation facilities by four
5 percent (4%) each year, the Department shall implement cost-containment and
6 reduction strategies to ensure the corresponding financial and staff downsizing of each
7 facility. The Department shall manage the client population of the mental retardation
8 centers in order to ensure that placements for ICF/MR level of care shall be made in
9 non-State facilities. Admissions to State ICF/MR facilities are permitted only as a last
10 resort and only upon approval of the Department. The corresponding budgets for each
11 of the State mental retardation centers shall be reduced, and positions shall be
12 eliminated as the census of each facility decreases. At no time shall mental retardation
13 center positions be transferred to other units within a facility or assigned nondirect care
14 activities such as outreach.

15 **SECTION 21.67.(a1)** Any savings in State appropriations in excess of two million
16 nine hundred thousand dollars (\$2,900,000) in each year of the 2001-2003 fiscal
17 biennium that result from reductions in beds or services shall be applied as follows:

- 18 (1) Nonrecurring savings shall be placed in the Trust Fund for Mental
19 Health, Developmental Disabilities, and Substance Abuse Services and
20 Bridge Funding Needs and shall be used to facilitate the transition of
21 clients into appropriate community-based services and support in
22 accordance with Section 21.58 of this act, and
- 23 (2) Recurring savings realized through implementation of this section
24 shall be retained by the Department of Health and Human Services,
25 Division of Mental Health, Developmental Disabilities, and Substance
26 Abuse Services to support the recurring costs of additional
27 community-based placements from Division facilities in accordance
28 with Olmstead vs. L.C. & E.W. In determining the savings in this
29 section, savings shall include all savings realized from the downsizing
30 of the State mental retardation centers including both the savings in
31 direct State appropriations in the budgets of the State mental
32 retardation centers as well as the savings in the State matching portion
33 of reduced Medicaid payments associated with downsizing.

34 **SECTION 21.67.(b)** The Department of Health and Human Services shall report on
35 its progress in complying with this section to the Senate Appropriations Committee on

1 Health and Human Services, the House of Representatives Appropriations
2 Subcommittee on Health and Human Services, and the Fiscal Research Division. The
3 progress report shall be submitted not later than January 15, 2002, and a final report
4 submitted not later than ~~May 1, 2002.~~October 1, 2002.

5 SECTION 21.67.(c) Downsizing of mental retardation centers which occurs in the
6 2002 fiscal year shall be maintained for the 2003 fiscal year. Effective July 1, 2002,
7 downsizing shall be accomplished in accordance with this section and the State Plan for
8 Mental Health, Developmental Disabilities, and Substance Abuse Services. All savings
9 resulting from downsizing occurring on and after July 1, 2002, shall be utilized as set
10 forth in subsection (a1) of this section."

1 **DHHS COORDINATION OF RULES**

2 **SECTION 10.31.(a)** The Secretary of the Department of Health and Human
3 Services and the Chairs of the Commissions listed in this section shall collaborate in the
4 development of a process for identifying and resolving issues pertaining to duplication
5 and conflict of rules adopted by the Secretary and each Commission that affect the area
6 of mental health, developmental disabilities, and substance abuse services. The process
7 shall address the following:

- 8 (1) How to identify on a routine basis proposed rules that duplicate in
9 whole or in part other rules proposed or adopted and ways of avoiding
10 the duplication without interfering with the agency's statutory duty to
11 adopt the rule and without impairing the effectiveness of the rule in
12 carrying out the statutory mandate.
- 13 (2) How to identify on a routine basis adopted rules that are in conflict,
14 proposed rules that conflict with other proposed or adopted rules, and
15 ways of addressing the conflict without interfering with the agency's
16 statutory duty to adopt the rule and without impairing the effectiveness
17 of the rule in carrying out the statutory mandate.

18 The following Commissions shall collaborate with the Secretary on the
19 development of this process: the Commission for Mental Health, Developmental
20 Disabilities, and Substance Abuse Services, the Social Services Commission, the
21 Commission for Health Services, the Medical Care Commission, and other
22 Commissions that adopt rules affecting the area of mental health, developmental
23 disabilities, and substance abuse services that the Secretary has a duty to implement.
24 The Secretary shall also involve a representative of the Division of Medical Assistance
25 in this effort.

26 **SECTION 10.31.(b)** The Secretary and the Commissions shall implement
27 the process required by Section 1 of this act not later than October 1, 2002. Not later
28 than October 15, 2002, the Secretary shall report to the Joint Legislative Commission on
29 Mental Health, Developmental Disabilities, and Substance Abuse Services the
30 following:

- 31 (1) The status of the review of rules conducted by the Department for
32 determining the existence of ambiguity, duplication, or conflict.
- 33 (2) Specific rules identified that are in conflict and the recommended
34 action for resolving the conflict.

1
2
3

- (3) Statutory changes necessary to accomplish the purposes of the rules review process required by Section 1 of this act.

DRAFT
SPECIAL PROVISION

2002-DHHS-H76

Department of Health and Human Services
Appropriations Subcommittee on Health and Human Services

Requested by: Representatives Earle, Nye

1 **NC HEALTH CHOICE BENEFITS AND CLAIMS PROCESSING**
2 **ADMINISTERED BY THE DEPARTMENT OF HEALTH AND HUMAN**
3 **SERVICES**

4 SECTION #.(a) G.S. 108A-70.20 reads as rewritten:

5 **"108A-70.20. Program established.**

6 The Health Insurance Program for Children is established. The Program shall be
7 administered by the Department of Health and Human ~~Services~~ Services, including
8 administration of Program benefits and claims processing, in accordance with this Part
9 and as required under Title XXI and related federal rules and regulations.
10 ~~Administration of Program benefits and claims processing shall be as provided under~~
11 ~~Part 5 of Article 3 of Chapter 135 of the General Statutes."~~

12 SECTION #.(b) G.S.108A-70.22 reads as rewritten:

13 **"108A-70.22. Allocation of federal and State funds for Program; consultation with**
14 **Joint Legislative Health Care Oversight Committee.**

15 The Department of Health and Human Services, after having consulted with and
16 received advice from the Joint Legislative Health Care Oversight Committee established
17 under G.S. 120-70.110, shall from total funds available to the Department for Program
18 implementation, allocate and adjust, as needed, funds to pay ~~the North Carolina~~
19 ~~Teachers' and State Employees' Major Medical Plan in accordance with G.S.~~
20 ~~108A-70.23 and Part 5 of Article 3 of Chapter 135 of the General Statutes, and funds to~~
21 ~~pay for eligible services provided for children with special needs in accordance with~~
22 ~~G.S. 108A-70.23."~~

23 SECTION #.(c) G.S. 108A-70.23 reads as rewritten:

24 **"108A-70.23. Services for children with special needs established; definition;**
25 **eligibility; services; limitation; recommendations; no entitlement.**

26 (a) Special Needs Services Authorized. – The Department shall, from federal
27 funds received and State funds appropriated for the Program, pay for services for
28 children with special needs as authorized under this section. As used in this section, the
29 term "children with special needs" or "special needs child" means children who have
30 been diagnosed as having one or more of the following conditions which in the opinion
31 of the diagnosing physician (i) is likely to continue indefinitely, (ii) interferes with daily
32 routine, and (iii) require extensive medical intervention and extensive family
33 management:

34 (1) Birth defect, including genetic, congenital, or acquired disorders;

56

- 1 (2) Developmental disability as defined under G.S. 122C-3;
- 2 (3) Mental or behavioral disorder; or
- 3 (4) Chronic and complex illnesses.

4 (b) Eligibility for Services. – In order to be eligible for services under this section
5 a special needs child must be enrolled in the Program.

6 (c) Services Provided. – The services authorized to be provided to children
7 eligible under this section are as follows:

8 (1) The same level of services as provided for special needs children under
9 the Medical Assistance Program as authorized in the Current
10 Operations Appropriations Act except that no services for long-term
11 care shall be provided under this section, and except that services for
12 respite care shall be provided only under emergency circumstances;
13 and

14 (2) Only those services eligible under this section that are not covered or
15 otherwise provided under ~~Part 5 of Article 3 of Chapter 135 of the~~
16 ~~General Statutes~~ this Part.

17 (d) Limitation. – Funds may be expended for services under this section
18 only if the special needs child is enrolled in the Program, the services
19 provided under this section are not provided under ~~Part 5 of Article 3~~
20 ~~of Chapter 135 of the General Statutes~~ this Part, and the child meets
21 the definition of a special needs child under this section.

22 (e) Case Management Services. – The Department shall develop procedures for
23 the provision of case management services by the Department to eligible special needs
24 children. Case management services shall be developed to ensure to the maximum
25 extent possible that services are provided in the most efficient and effective manner
26 considering the special needs of the child. The cost of providing case management
27 services for children with special needs shall be paid from funds available for services
28 under this section.

29 (f) Recommendations by Commission on Children With Special Health Care
30 Needs. – In implementing this section the Department shall consider the
31 recommendations of the Commission on Children With Special Health Care Needs
32 established under Article 71 of Chapter 143 of the General Statutes. The Department, in
33 consultation with the Commission on Children With Special Health Care Needs shall
34 develop procedures for providing respite care services under emergency circumstances.

35 (g) No Entitlement. – Nothing in this section shall be construed as entitling any
36 person to services under this section."

37 **SECTION #.(d)** G.S. 108A-70.24 is repealed.

38 **SECTION #.(e)** G.S. 108A-70.27(c) is repealed.

39 **SECTION #.(f)** G.S. 108A-25 is amended by adding the following new
40 subsection to read:

41 "(b2) The Health Insurance Program for Children is a program of public assistance
42 and shall be supervised and administered as provided in Part 8 of this Article."

43 **SECTION #.(g)** G.S. 108A-80(d) reads as rewritten:

44 "(d) The Social Services Commission may adopt rules governing access to case
45 files for social services and public assistance programs, except the Medical Assistance
46 Program, Program and the Health Insurance Program for Children. The Secretary of the

1 Department of Health and Human Services shall have the authority to adopt rules
2 governing access to medical assistance case files: files and Health Insurance Program for
3 Children case files."

4 SECTION #.(h) G.S. 120-70.111(c) reads as rewritten:

5 "(c) The Committee may use employees of the Legislative Services Office and
6 may employ contractual services as approved by the Legislative Services Commission
7 to review and monitor, on a continuing basis, the implementation of the Health
8 Insurance Program for Children established under Part 8 of Article 2 of Chapter 108A
9 of the General Statutes. The Committee shall have access to all records of the
10 Department of Health and Human Services pertaining to the Health Insurance Program
11 for ~~Children-Children, except for confidential case files,~~ and shall be kept apprised by
12 the Department of communications between the Department and the ~~Health-Care~~
13 ~~Financing Administration- Centers for Medicare and Medicaid Services~~ with respect to
14 development, submission, and approval of and amendments to the State Plan for the
15 Health Insurance Program for Children. ~~The Committee and its employees shall also be~~
16 ~~entitled to attend all meetings and have access to all records of the North Carolina~~
17 ~~Teachers' and State Employees' Comprehensive Major Medical Plan pertaining to the~~
18 ~~Health Insurance Program for Children that are not confidential in accordance with G.S.~~
19 ~~135-37. G.S. 135-37 shall be applicable to the Health Insurance Program for Children to~~
20 ~~the same extent that is applicable to teachers and State employees."~~

21 SECTION #.(i) Part 5 of Article 3 of Chapter 135 of the General Statutes is
22 repealed.

23 SECTION #.(j) G.S. 135-39.6(d) and G.S. 135-39.6A(c) are repealed.

24 SECTION #.(k) G.S. 58-50-75(b) reads as rewritten:

25 "(b) This Part applies to all insurers that offer a health benefit plan and that
26 provide or perform utilization review pursuant to G.S. 58-50-61, and the Teachers' and
27 State Employees' Comprehensive Major Medical Plan, ~~and the Health Insurance~~
28 ~~Program for Children-Plan.~~ With respect to second-level grievance review decisions,
29 this Part applies only to second-level grievance review decisions involving
30 noncertification decisions."

31 SECTION #.(l) G.S. 90-21.50(1) reads as rewritten:

32 (1) 'Health benefit plan' means an accident and health insurance policy or
33 certificate; a nonprofit hospital or medical service corporation
34 contract; a health maintenance organization subscriber contract; a
35 self-insured indemnity program or prepaid hospital and medical
36 benefits plan offered under the Teachers' and State Employees'
37 Comprehensive Major Medical Plan and subject to the requirements of
38 Article 3 of Chapter 135 of the General Statutes, a plan provided by a
39 multiple employer welfare arrangement; or a plan provided by another
40 benefit arrangement, to the extent permitted by the Employee
41 Retirement Income Security Act of 1974, as amended, or by any
42 waiver of or other exception to that act provided under federal law or
43 regulation. ~~Except for the Health Insurance Program for Children~~
44 ~~established under Part 8 of Article 2 of Chapter 108A of the General~~
45 ~~Statutes, 'Health benefit plan' does not mean any plan implemented or~~
46 ~~administered by the North Carolina or United States Department of~~

1 Health and Human Services, or any successor agency, or its
2 representatives. 'Health benefit plan' does not mean any of the
3 following kinds of insurance:

- 4 a. Accident.
- 5 b. Credit.
- 6 c. Disability income.
- 7 d. Long-term or nursing home care.
- 8 e. Medicare supplement.
- 9 f. Specified disease.
- 10 g. Dental or vision.
- 11 h. Coverage issued as a supplement to liability insurance.
- 12 i. Workers' compensation.
- 13 j. Medical payments under automobile or homeowners.
- 14 k. Hospital income or indemnity.
- 15 l. Insurance under which benefits are payable with or without
16 regard to fault and that is statutorily required to be contained in
17 any liability policy or equivalent self-insurance.
- 18 m. Short-term limited duration health insurance policies as defined
19 in Part 144 of Title 45 of the Code of Federal Regulations."

20 **SECTION #.(m)** G.S. 90-21.50(7) reads as rewritten:

21 "(7) 'Managed care entity' means an insurer that:

- 22 a. Delivers, administers, or undertakes to provide for, arrange for,
23 or reimburse for health care services or assumes the risk for the
24 delivery of health care services; and
- 25 b. Has a system or technique to control or influence the quality,
26 accessibility, utilization, or costs and prices of health care
27 services delivered or to be delivered to a defined enrollee
28 population.

29 Except for the Teachers' and State Employees' Comprehensive Major
30 ~~Medical Plan and the Health Insurance Program for Children, Plan,~~
31 'managed care entity' does not include: (i) an employer purchasing
32 coverage or acting on behalf of its employees or the employees of one
33 or more subsidiaries or affiliated corporations of the employer, or (ii) a
34 health care provider."

35 **SECTION #.(n)** This section becomes effective October 1, 2002. The
36 Teachers' and State Employees' Comprehensive Major Medical Plan shall complete
37 processing of claims under the Health Insurance Program for Children filed prior to and
38 pending on and after October 1, 2002.

DRAFT
SPECIAL PROVISION

2002-DHHS-H86

Department of Health and Human Services
Appropriations Subcommittee on Health and Human Services

Requested by: Representative

1 **NC HEALTH CHOICE PROGRAM ENROLLMENT MANAGEMENT**

2 SECTION #. The Department of Health and Human Services shall manage
3 NC Health Choice program enrollment through attrition and, as necessary, by imposing
4 a freeze on the enrollment of children in order to achieve and maintain a sustainable per
5 member per month enrollment within the 2002-2003 budget. In the current State fiscal
6 year one-time matching funds in an amount not to exceed three million dollars
7 (\$3,000,000) may be transferred to support State fiscal year 2002-2003 program
8 expenditures that are attributable to excess program enrollment. No funds may be
9 transferred until a freeze on enrollment has been imposed. Any funds transferred into
10 the NC Health Choice program pursuant to this section shall be used to pay current year
11 program costs only. In addition, the Department shall manage enrollment in the NC
12 Health Choice program so as to ensure that total program enrollment at the end of State
13 fiscal year 2002-2003 does not exceed a level that is sustainable within the certified
14 budget for State fiscal year 2002-2003.

DRAFT
SPECIAL PROVISION

2002-DHHS-H23(S10.23)

Department of Health and Human Services
Appropriations Subcommittee on Health and Human Services

Requested by: Representatives Earle, Nye

1 *ALLOCATION OF REDUCTIONS IN FUNDS FOR MENTAL HEALTH,*
2 *DEVELOPMENTAL DISABILITIES, AND SUBSTANCE ABUSE SERVICES*
3 *PROGRAMS*

4 SECTION 10.23.(a) The Division of Mental Health, Developmental
5 Disabilities, and Substance Abuse Services shall allocate reductions to Division central
6 administration to items of expenditures which have the least impact on:

- 7 (1) The support of direct services to individuals served in State facilities
8 and local programs;
- 9 (2) The Division's ability to reorganize and continue implementation of
10 the State Plan for Mental Health, Developmental Disabilities, and
11 Substance Abuse Services; and
- 12 (3) The Division's ability to meet State and federal requirements such as
13 monitoring, program oversight, and reporting.

14 SECTION 10.23.(b) All reductions designated for Division-operated State
15 facilities shall be allocated as follows:

- 16 (1) In a manner that has the least impact possible on the State's ability to
17 comply with Olmstead v. L.C. & E.W. and The Civil Rights of
18 Institutionalized Persons Act (CRIPA);
- 19 (2) Maximum resources shall be retained for the purpose of transfer to
20 local programs for community capacity building as the population in
21 State facilities decreases and the principal focus of services transitions
22 to community-based programs;
- 23 (3) As deemed essential by the Secretary of the Department of Health and
24 Human Services for compliance with implementation of the State Plan
25 for Mental Health, Developmental Disabilities, and Substance Abuse
26 Services, and with Olmstead v. L.C. & E.W. and CRIPA, reduction
27 amounts and total number of positions reduced may be shifted among
28 facilities so long as the aggregate reduction in State appropriations is
29 achieved.

30 SECTION 10.23.(c) The Department shall report not later than October 1,
31 2002, on a plan for allocating the reductions required under this section. The plan shall
32 describe each reduction allocation demonstrating compliance with this section. The
33 Department shall submit the report to the Senate Appropriations Committee on Health

61

- 1 and Human Services, the House of Representatives Appropriations Subcommittee on
- 2 Health and Human Services, and the Fiscal Research Division.

Requested by: Representatives Earle, Nye

1 **SUBSTANCE ABUSE PREVENTION SERVICES**

2 **SECTION 10.24.(a)** In order to ensure that individuals receive effective
3 substance abuse prevention services, the Department of Health and Human Services,
4 Division of Mental Health, Developmental Disabilities, and Substance Abuse Services,
5 shall do the following with respect to services provided to these individuals:

- 6 (1) Designate an Office of Substance Abuse Prevention within the
7 Department as outlined in the North Carolina Comprehensive Strategic
8 Plan for Substance Abuse Prevention. This Office shall be responsible
9 for the implementation of the goals in the Comprehensive Strategic
10 Plan for Substance Abuse Prevention. The Office shall also maintain
11 the Interagency Agreement for Substance Abuse Prevention Services
12 and ensure continuing collaboration between agencies that are parties
13 to the Agreement.
- 14 (2) Provide only those prevention services that are evidence-based and
15 have been determined to be effective in preventing alcohol and other
16 drug problems.
- 17 (3) Propose rules for the licensure of prevention programs to ensure
18 quality of service delivery in local communities. Rules shall be subject
19 to review and adoption by the Commission for Mental Health,
20 Developmental Disabilities, and Substance Abuse Services.
- 21 (4) Ensure that services are provided by qualified prevention
22 professionals.
- 23 (5) Implement an outcome-based system utilizing standard risk
24 assessments and data elements consistent with appropriate evaluation
25 of prevention programs.

26 **SECTION 10.24.(b)** The Department shall report on its activities under this
27 section to the Senate Appropriations Committee on Health and Human Services, the
28 House of Representatives Appropriations Subcommittee on Health and Human
29 Services, and the Fiscal Research Division not later than December 1, 2002.

1 **PRIVATE AGENCY UNIFORM COST-FINDING REQUIREMENT**

2 SECTION 10.25. Section 21.56 of S.L. 2001-424, as amended by S.L.
3 2001-513, reads as rewritten:

4 "SECTION 21.56.(a) To ensure uniformity in rates charged to area programs and
5 funded with State-allocated resources, the Division of Mental Health, Developmental
6 Disabilities, and Substance Abuse Services of the Department of Health and Human
7 Services may require a private agency that provides services under contract with ~~two or~~
8 more area programs, an area program or county program, except for hospital services
9 that have an established Medicaid rate, to complete an agency-wide uniform cost
10 finding. The resulting cost shall be the maximum included for the private agency in the
11 contracting area program's unit cost finding.

12 SECTION 21.56.(b) If a private agency fails to timely and accurately complete the
13 required agency-wide uniform cost finding in a manner acceptable to the Department's
14 controller's office, the Department may suspend all Department funding and payment to
15 the private agency until such time as an acceptable cost finding has been completed by
16 the private agency and approved by the Department's controller's office."

2 SECTION 10.26. Section 21.61(a) of S.L. 2001-424 reads as rewritten:

3 "SECTION 21.61.(a) The Department of Health and Human Services shall work
4 with families and guardians, the Department of Public Instruction, the Department of
5 Juvenile Justice and Delinquency Prevention, and appropriate local education agencies,
6 area mental health, developmental disabilities, and substance abuse programs, and local
7 departments of social services to develop a plan for the transition of children from the
8 Whitaker School to their homes or alternative facilities. The Plan shall ensure
9 appropriate and safe placement for those children who, in accordance with the
10 assessment, need an institutional setting. The Plan shall also include transition plans that
11 facilitate and support children living in their natural environments and utilizing existing
12 resources and natural supports. Assessments and service planning alternatives shall also
13 be undertaken for children on the waiting list for placement at Whitaker School to
14 ensure appropriate and safe placement for those children. The Department shall report
15 on the status of its compliance with this section on April 1, 2002 and again on ~~October~~
16 ~~1, 2002.~~ January 1, 2003. The report shall be submitted to the Senate Appropriations
17 Committee on Health and Human Services, the House of Representatives
18 Appropriations Subcommittee on Health and Human Services, the Joint Legislative
19 Commission on Governmental Operations, and the Fiscal Research Division."

1 **AREA MENTAL HEALTH ADMINISTRATIVE COSTS**

2 SECTION 10.27. Section 21.65 of S.L. 2001-424 reads as rewritten:

3 "SECTION 21.65.(a) Area mental health, developmental disabilities, and substance
4 abuse authorities or counties administering mental health, developmental disabilities,
5 and substance abuse services shall develop and implement plans to reduce local
6 administrative costs. The plans shall be developed in accordance with guidelines
7 adopted by the Secretary, in consultation with the Local Government Commission and
8 the North Carolina Association of County Commissioners, and in accordance with the
9 following:

- 10 (1) For the 2001-2002 fiscal year, administrative costs for:
11 a. Area mental health, developmental disabilities, and substance
12 abuse services programs shall not exceed fifteen percent (15%).
13 b. Counties administering mental health, developmental
14 disabilities, and substance abuse services through a county
15 program shall not exceed fifteen percent (15%).
16 (2) For the 2002-2003 fiscal year, administrative costs for:
17 a. Area mental health, developmental disabilities, and substance
18 abuse services programs shall not exceed thirteen percent
19 (13%).
20 b. Counties administering mental health, developmental
21 disabilities, and substance abuse services through a county
22 program shall not exceed thirteen percent (13%).

23 SECTION 21.65.(b) The Department of Health and Human Services shall report its
24 progress in complying with this section not later than January 1, 2002, and April 15,
25 2002. The reports shall be submitted to the Senate Appropriations Committee on Health
26 and Human Services, the House of Representatives Appropriations Subcommittee on
27 Health and Human Services, and the Fiscal Research Division and shall include:

- 28 (1) A description of the process used and the participants involved in
29 complying with subsection (a) of this section.
30 (2) The guidelines developed under subsection (a) of this section.
31 (3) A description of local compliance initiatives and efforts including
32 program or function consolidation.
33 (4) A list of area programs at or below the targeted thirteen percent (13%)
34 for the 2000-2001 fiscal year.

1 (5) Projected savings in administrative costs as a result of implementation
2 of the targeted limits required under this section.

3 SECTION 21.65.(c) Beginning in the 2002-2003 fiscal year, the Department may
4 implement alternative approaches to establish reasonable administrative cost limitations
5 for Local Management Entities (LMEs), including both county programs and area
6 authority models, and service providers in accordance with system reform and changes
7 in system funding structures."

DRAFT
SPECIAL PROVISION

2002-DHHS-H20(S10.20)

Department of Health and Human Services
Appropriations Subcommittee on Health and Human Services

Requested by: Representatives Earle, Nye

1 **NC HEALTH CHOICE**

2 SECTION 10.20. G.S. 108A-70.21 reads as rewritten:

3 "§ 108A-70.21. Program eligibility; benefits; enrollment fee and other
4 cost-sharing; coverage from private plans; purchase of extended
5 coverage.

6 (a) Eligibility. – The Department may enroll eligible children based on
7 availability of funds. Following are eligibility and other requirements for participation
8 in the Program:

9 (1) Children must:

- 10 a. Be under the age of 19;
- 11 b. Be ineligible for Medicaid, Medicare, or other federal
12 government-sponsored health insurance;
- 13 c. Be uninsured;
- 14 d. Be in a family that meets the following family income
15 requirements:
 - 16 1. Infants under the age of one year whose family income is
17 from one hundred eighty-five percent (185%) through
18 two hundred percent (200%) of the federal poverty level;
 - 19 2. Children age one year through five years whose family
20 income is above one hundred thirty-three percent (133%)
21 through two hundred percent (200%) of the federal
22 poverty level; and
 - 23 3. Children age six years through eighteen years whose
24 family income is above one hundred percent (100%)
25 through two hundred percent (200%) of the federal
26 poverty level;
- 27 e. Be a resident of this State and eligible under federal law; and
- 28 f. Have paid the Program enrollment fee required under this Part.

29 (2) Proof of family income and residency and declaration of uninsured
30 status shall be provided by the applicant at the time of application for
31 Program coverage. The family member who is legally responsible for
32 the children enrolled in the Program has a duty to report any change in
33 the enrollee's status within 60 days of the change of status.

1 (3) If a responsible parent is under a court order to provide or maintain
2 health insurance for a child and has failed to comply with the court
3 order, then the child is deemed uninsured for purposes of determining
4 eligibility for Program benefits if at the time of application the
5 custodial parent shows proof of agreement to notify and cooperate
6 with the child support enforcement agency in enforcing the order.

7 If health insurance other than under the Program is provided to the
8 child after enrollment and prior to the expiration of the eligibility
9 period for which the child is enrolled in the Program, then the child is
10 deemed to be insured and ineligible for continued coverage under the
11 Program. The custodial parent has a duty to notify the Department
12 within 10 days of receipt of the other health insurance, and the
13 Department, upon receipt of notice, shall disenroll the child from the
14 Program. As used in this paragraph, the term "responsible parent"
15 means a person who is under a court order to pay child support.

16 (4) Except as otherwise provided in this section, enrollment shall be
17 continuous for one year. At the end of each year, applicants may
18 reapply for Program benefits.

19 (b) Benefits. – Except as otherwise provided for eligibility, fees, deductibles,
20 copayments, and other cost-sharing charges, health benefits coverage provided to
21 children eligible under the Program shall be equivalent to coverage provided for
22 dependents under the North Carolina Teachers' and State Employees' Comprehensive
23 Major Medical Plan, including optional prepaid plans. Prescription drug providers shall
24 accept as payment in full, for outpatient prescriptions filled, ninety percent (90%) of the
25 average wholesale price for the prescription drug or the amounts published by the
26 ~~Health Care Financing Administration Centers for Medicare and Medicaid Services~~ plus
27 a fee established by the provider not to exceed the amount authorized under subdivision
28 (d)(3) of this section. dispensing fee of five dollars and sixty cents (\$5.60) per
29 prescription for generic drugs and four dollars (\$4.00) per prescription for brand name
30 drugs. Health care providers providing vision and dental services to Program enrollees
31 shall accept as payment in full for services rendered the maximum allowable charges
32 under the North Carolina Teachers' and State Employees' Comprehensive Major
33 Medical Plan less any copayments assessed under this Part. All other health care
34 providers providing services to Program enrollees shall accept as payment in full for
35 services rendered an amount equivalent to the maximum allowable charges under the
36 North Carolina Teachers' and State Employees' Comprehensive Major Medical Plan
37 Medicaid Program for services less any copayments assessed to enrollees under this
38 Part. No child enrolled in the Plan's self-insured indemnity program shall be required by
39 the Plan to change health care providers as a result of being enrolled in the Program.

40 In addition to the benefits provided under the Plan, the following services and
41 supplies are covered under the Health Insurance Program for Children established under
42 this Part:

43 (1) Dental: Oral examinations, teeth cleaning, and scaling twice during a
44 12-month period, full mouth X rays once every 60 months,
45 supplemental bitewing X rays showing the back of the teeth once
46 during a 12-month period, fluoride applications twice during a

1 12-month period, sealants, simple extractions, therapeutic
2 pulpomies, prefabricated stainless steel crowns, and routine fillings
3 of amalgam or other tooth-colored filling material to restore diseased
4 teeth. No benefits are to be provided for services under this subsection
5 that are not performed by or upon the direction of a dentist, doctor, or
6 other professional provider approved by the Plan nor for services and
7 materials that do not meet the standards accepted by the American
8 Dental Association.

9 (2) Vision: Scheduled routine eye examinations once every 12 months,
10 eyeglass lenses or contact lenses once every 12 months, routine
11 replacement of eyeglass frames once every 24 months, and optical
12 supplies and solutions when needed. Optical services, supplies, and
13 solutions must be obtained from licensed or certified ophthalmologists,
14 optometrists, or optical dispensing laboratories. Eyeglass lenses are
15 limited to single vision, bifocal, trifocal, or other complex lenses
16 necessary for a Plan enrollee's visual welfare. Coverage for oversized
17 lenses and frames, designer frames, photosensitive lenses, tinted
18 contact lenses, blended lenses, progressive multifocal lenses, coated
19 lenses, and laminated lenses is limited to the coverage for single
20 vision, bifocal, trifocal, or other complex lenses provided by this
21 subsection. Eyeglass frames are limited to those made of zylonite,
22 metal, or a combination of zylonite and metal. All visual aids covered
23 by this subsection require prior approval of the Plan. Upon prior
24 approval by the Plan, refractions may be covered more often than once
25 every 12 months.

26 (3) Hearing: Auditory diagnostic testing services and hearing aids and
27 accessories when provided by a licensed or certified audiologist,
28 otolaryngologist, or other hearing aid specialist approved by the Plan.
29 Prior approval of the Plan is required for hearing aids, accessories,
30 earmolds, repairs, loaners, and rental aids.

31 (c) Annual Enrollment Fee. – There shall be no enrollment fee for Program
32 coverage for enrollees whose family income is at or below one hundred fifty percent
33 (150%) of the federal poverty level. The enrollment fee for Program coverage for
34 enrollees whose family income is above one hundred fifty percent (150%) of the federal
35 poverty level shall be fifty dollars (\$50.00) per year per child with a maximum annual
36 enrollment fee of one hundred dollars (\$100.00) for two or more children. The
37 enrollment fee shall be collected by the county department of social services and
38 retained to cover the cost of determining eligibility for services under the Program.
39 County departments of social services shall establish procedures for the collection of
40 enrollment fees.

41 (d) Cost-Sharing. – ~~There shall be no deductibles, copayments, or other cost-~~
42 ~~sharing charges for families covered under the Program whose family income is at or~~
43 ~~below one hundred fifty percent (150%) of the federal poverty level.~~

44 (1) Families covered under the Program whose family income is at or
45 below one hundred fifty percent (150%) of the federal poverty level
46 shall be responsible for copayments to providers as follows:

- 1 a. Five dollars (\$5.00) per child for each visit to a provider, except
2 that there shall be no copayment required for well-baby, well-
3 child, or age-appropriate immunization services;
4 b. Five dollars (\$5.00) per child for each outpatient hospital visit;
5 c. One dollar (\$1.00) for each outpatient generic prescription drug
6 purchased;
7 d. Three dollars (\$3.00) for each outpatient brand-name
8 prescription drug purchased;
9 e. Ten dollars (\$10.00) for each emergency room visit unless:
10 1. The child is admitted to the hospital, or
11 2. No other reasonable care was available as determined by
12 the Claims Processing Contractor of the North Carolina
13 Teachers' and State Employees' Comprehensive Major
14 Medical Plan.

15 (2) Families covered under the Program whose family income is above
16 one hundred fifty percent (150%) of the federal poverty level shall be
17 responsible for copayments to providers as follows:

- 18 (1)a. ~~Five dollars (\$5.00)~~ Ten dollars (\$10.00) per child for each visit
19 to a provider, except that there shall be no copayment required
20 for well-baby, well-child, or age-appropriate immunization
21 services;
22 (2)b. ~~Five dollars (\$5.00)~~ Ten dollars (\$10.00) per child for each
23 outpatient hospital visit;
24 (3)c. ~~A six dollar (\$6.00)~~ five-dollar (\$5.00) fee for each outpatient
25 generic prescription drug purchased;
26 d. A ten-dollar (\$10.00) fee for each outpatient brand-name
27 prescription drug purchased;
28 (4)e. ~~Twenty dollars (\$20.00)~~ Thirty dollars (\$30.00) for each
29 emergency room visit unless:
30 a.1. The child is admitted to the hospital, or
31 b.2. No other reasonable care was available as determined by
32 the Claims Processing Contractor of the North Carolina
33 Teachers' and State Employees' Comprehensive Major
34 Medical Plan.

35 Copayments required under this subsection for prescription drugs apply only to
36 prescription drugs prescribed on an outpatient basis.

37 (e) Cost-Sharing Limitations. – The total annual aggregate cost-sharing,
38 including fees, with respect to all children in a family receiving Program benefits under
39 this Part shall not exceed five percent (5%) of the family's income for the year involved.
40 To assist the Department in monitoring and ensuring that the limitations of this
41 subsection are not exceeded, the Executive Administrator and Board of Trustees of the
42 North Carolina Teachers' and State Employees' Comprehensive Major Medical Plan
43 shall provide data to the Department showing cost-sharing paid by Program enrollees.

44 (f) Coverage From Private Plans. – The Department shall, from funds available
45 for the Program, pay the cost for dependent coverage provided under a private insurance

1 plan for persons eligible for coverage under the Program if all of the following
2 conditions are met:

- 3 (1) The person eligible for Program coverage requests to obtain dependent
4 coverage from a private insurer in lieu of coverage under the Program
5 and shows proof that coverage under the private plan selected meets
6 the requirements of this subsection;
- 7 (2) The dependent coverage under the private plan is actuarially
8 equivalent to the coverage provided under the Program and the private
9 plan does not engage in the exclusive enrollment of children with
10 favorable health care risks;
- 11 (3) The cost of dependent coverage under the private plan is the same as
12 or less than the cost of coverage under the Program; and
- 13 (4) The total annual aggregate cost-sharing, including fees, paid by the
14 enrollee under the private plan for all dependents covered by the plan,
15 do not exceed five percent (5%) of the enrollee's family income for the
16 year involved.

17 The Department may reimburse an enrollee for private coverage under this
18 subsection upon a showing of proof that the dependent coverage is in effect for the
19 period for which the enrollee is eligible for the Program.

20 (g) Purchase of Extended Coverage. – An enrollee in the Program who loses
21 eligibility due to an increase in family income above two hundred percent (200%) of the
22 federal poverty level and up to and including two hundred twenty-five percent (225%)
23 of the federal poverty level may purchase at full premium cost continued coverage
24 under the Program for a period not to exceed one year beginning on the date the enrollee
25 becomes ineligible under the income requirements for the Program. The same benefits,
26 copayments, and other conditions of enrollment under the Program shall apply to
27 extended coverage purchased under this subsection.

28 (h) No State Funds for Voluntary Participation. – No State or federal funds shall
29 be used to cover, subsidize, or otherwise offset the cost of coverage obtained under
30 subsection (g) of this section."

Appropriations Subcommittee on Health and Human Services

Requested by: Representatives Earle, Nye

1 *NC HEALTH CHOICE STATE PLAN TECHNICAL AMENDMENTS*

2 SECTION 10.21. The Department of Health and Human Services may
3 rewrite and submit to the federal government the State Plan for the North Carolina
4 Health Choice Program solely for the purpose of incorporating amendments enacted by
5 the 1997 General Assembly, Regular Session 1998, the 1999 General Assembly, and the
6 2001 General Assembly, and to otherwise comply with applicable federal requirements.
7 Nothing in this section authorizes the Department to make amendments to the State Plan
8 for the North Carolina Health Choice Program not otherwise authorized by the General
9 Assembly. Amendments to the State Plan required by the federal government to be
10 implemented after the effective date of this section, other than those authorized by this
11 section, shall comply with G.S. 108A-70.25.

1 **DISPOSITION OF DISPROPORTIONATE SHARE RECEIPT CHANGE**

2 SECTION 10.17.(a) Disproportionate share receipts reserved at the end of
3 the 2002-2003 fiscal year shall be deposited with the Department of State Treasurer as
4 nontax revenue for the 2002-2003 fiscal year.

5 SECTION 10.17.(b) For the 2002-2003 fiscal year, as it receives funds
6 associated with Disproportionate Share Payments from State hospitals, the Department
7 of Health and Human Services, Division of Medical Assistance, shall deposit up to one
8 hundred seven million dollars (\$107,000,000) of these Disproportionate Share Payments
9 to the Department of State Treasurer for deposit as nontax revenue. Any
10 Disproportionate Share Payments collected in excess of the one hundred seven million
11 dollars (\$107,000,000) shall be reserved by the State Treasurer for future
12 appropriations.

Requested by: Representatives Earle, Nye

1 **MEDICAID HOSPITAL PAYMENTS**

2 **SECTION 10.18.** The Department of Health and Human Services shall
3 reduce Medicaid payments to hospitals by one-half of one percent (.5%) for the
4 2002-2003 State fiscal year. The Department shall evaluate all medical payment
5 programs and policies administered by the Department that may affect the future
6 viability and sustainability of financially vulnerable hospitals. Based on the evaluation
7 of the medical payments programs and policies affecting hospitals, the Department shall
8 implement the one half of one percent (.5%) reduction for the 2002-2003 State fiscal
9 year such that the reduction has the least impact on the future viability and sustainability
10 of financially vulnerable hospitals. The Department shall also review the status of
11 financially vulnerable hospitals to determine whether additional State actions are
12 appropriate to ensure that communities served by these hospitals continue to receive
13 essential medical services. The Department shall consult with the North Carolina
14 Hospital Association while conducting the evaluation of medical payment programs and
15 policies and determining how to implement the one-half of one percent (.5%) reduction.
16 The Department shall report to the Senate Appropriations Committee on Health and
17 Human Services, the House of Representatives Appropriations Subcommittee on Health
18 and Human Services, and the Fiscal Research Division on its activities under this
19 section not later than October 1, 2002.

1 **MEDICAID PROGRAM MANAGEMENT**

2 SECTION 10.19. Section 21.26(b) of S.L. 2001-424 reads as rewritten:

3 "SECTION 21.26.(b) The Department shall implement a pharmacy management
4 plan considering the recommendations of the "North Carolina Medicaid Benefit Study"
5 to achieve anticipated cost savings. The pharmacy management plan may include the
6 following activities:

- 7 (1) Establishing a prior authorization program to manage utilization of
8 high-cost, brand name drugs. In determining drugs to be included in
9 the prior authorization program, the Department shall consider whether
10 inclusion of these drugs is likely to:
 - 11 a. Increase utilization of more expensive services;
 - 12 b. Reduce quality of treatment;
 - 13 c. Result in a lower level of compliance with appropriate drug
14 therapy; and
 - 15 d. Have a differential impact upon racial and ethnic minorities and
16 the elderly.

17 The Department shall conduct a review at least annually of the drugs
18 included in the prior authorization program to determine whether any
19 of the factors listed in this subdivision or other factors with similar
20 results have occurred.

- 21 (2) Limiting prescription drugs to a 34-day supply for some or all drugs.
- 22 (3) Developing physician prescribing practice profiles and other
23 educational tools to enable physicians to better manage their
24 prescriptions.
- 25 (4) Establishing therapeutic limits based on appropriate dosage or usage
26 standards.
- 27 (5) Encouraging use of generic drugs.
- 28 (6) Using maximum allowable pricing.
- 29 (7) Contracting with a pharmacy benefits manager to implement more
30 extensive drug utilization review.
- 31 (8) Studying the impact of eliminating the six prescription drug monthly
32 limit combined with a more rigorous prior authorization program to
33 ensure cost decisions are made based on evidence-based clinical
34 guidelines.

- 1 (9) Expanding disease management initiatives.
- 2 (10) Working with ACCESS physicians to develop and implement drug
- 3 utilization management initiatives.
- 4 (11) If cost-effective, expanding Medicaid drug coverage to include
- 5 selected over-the-counter medications.

6 The Department may adopt temporary rules in accordance with G.S. 150B-21.1
7 when it finds these rules are necessary to clarify recipient appeal rights related to the
8 pharmacy management plan."

1 **LONG-TERM CARE REIMBURSEMENT METHODOLOGY**

2 SECTION #. When establishing a new reimbursement methodology for
3 long-term care services including nursing facilities, ICF-MRs, and adult care homes, the
4 Department of Health and Human Services, Division of Medical Assistance, shall do the
5 following:

- 6 (1) Use the latest cost data available;
- 7 (2) Establish reimbursement rates that will allow Medicaid long-term care
8 providers to comply with certification requirements, licensure rules, or
9 other mandated quality or safety standards;
- 10 (3) Consider available data related to long-term care industry costs and
11 losses, including those resulting from the health care workforce crisis
12 and the increase in professional liability insurance premiums; and
- 13 (4) Consider the effect on future viability and sustainability of financially
14 vulnerable long-term care providers.

15 The Division of Medical Assistance and any contract agencies performing the functions
16 associated with this section shall consult with provider organizations include the North
17 Carolina Health Care Facilities Association, the North Carolina Hospital Association,
18 the Long-Term Care Facilities Association of North Carolina, the North Carolina
19 Assisted Living Association, and the North Carolina Medical Society. The Department
20 shall report on the reimbursement methodology not later than October 1, 2002 to the
21 House of Representatives Appropriations Subcommittee on Health and Human
22 Services, the Senate Appropriations Committee on Health and Human Services, and the
23 Fiscal Research Division.

1 **INCREASES IN FEDERAL MEDICAID FUNDS**

2 **SECTION #.(a)** Notwithstanding any other provision of law to the contrary,
3 the total amount of State funds that become available to the Department of Health and
4 Human Services for the 2002-2003 fiscal year due to an increase in federal Medicaid
5 funds resulting from increases in the Federal Financial Participation rate shall be used to
6 increase funds appropriated to the Department for the 2002-2003 fiscal year for the
7 Medicaid program without any reduction in what is otherwise allocated to the
8 Department from appropriated funds.

9 **SECTION #.(b)** The Department of Health and Human Services, Division
10 of Medical Assistance, may reinstate eligibility policies changed by this act when all of
11 the following conditions are met:

- 12 (1) Congress approves enhanced federal financial participation for State
- 13 Medicaid programs.
- 14 (2) Receipt of the enhanced federal financial participation is dependent on
- 15 a state's maintenance of effort in Medicaid eligibility.
- 16 (3) The Department has concluded that the enacted policy changes render
- 17 the State ineligible for the enhanced federal financial participation.
- 18 (4) Enhanced federal financial participation receipts exceed the anticipated
- 19 savings in State funds from the enacted policy changes.

1 **MEDICAID CASE MANAGEMENT SERVICES**

2 **SECTION 10.14.(a)** The Department of Health and Human Services shall
3 reduce Medicaid Program expenditures for case management services for adults and
4 children for the 2002-2003 State fiscal year. In determining how to allocate this
5 reduction, the Department shall include all State programs currently providing case
6 management services reimbursed by the Medicaid Program, and shall consider the
7 following issues:

- 8 (1) Elimination of all duplicative case management services.
- 9 (2) Consolidation of similar case management services.
- 10 (3) Provision of only one case manager per family reimbursed through the
11 Medicaid Program, when feasible.
- 12 (4) Equitable allocation of reductions in case management services
13 reimbursed by Medicaid among the different programs that provide
14 case management services.
- 15 (5) Identification of the children and adults with the greatest case
16 management needs to determine how to allocate reductions and
17 remaining resources.
- 18 (6) Reductions in administrative costs associated with providing case
19 management services reimbursed by Medicaid.
- 20 (7) Reductions in reimbursement to case management service providers.

21 **SECTION 10.14.(b)** Not later than October 1, 2002, the Department shall
22 report on its plan for the reductions required in this section. The Department shall
23 submit the report to the Senate Appropriations Committee on Health and Human

Appropriations Subcommittee on Health and Human Services

Requested by: Representatives Earle, Nye

1 **FEDERAL WAIVERS TO ASSIST IN MEDICAID COST CONTAINMENT**

2 **SECTION 10.15.(a)** The Department of Health and Human Services shall
3 develop a plan for using federal waivers to assist in long-term cost containment for the
4 State's Medicaid program. In developing the plan, the Department shall determine
5 whether single or multiple federal waivers will help the State achieve its goal of
6 long-term cost containment for the State's Medicaid program, and shall also determine
7 which type of waiver is likely to be most helpful. The Department shall consider all of
8 the following for development of the plan:

- 9 (1) Which optional categories of persons eligible for Medicaid will be
10 covered by the waiver.
- 11 (2) What optional Medicaid services will be included in the service
12 package covered by the waiver.
- 13 (3) What types of cost-sharing will be required under the waiver.
- 14 (4) Will the waiver use Carolina ACCESS, other types of managed care,
15 or will a fee-for-service system for providing health care services be
16 used.
- 17 (5) Will private insurance coverage options be incorporated into the
18 waiver.
- 19 (6) Should the NC Health Choice Program be included in the waiver.

20 **SECTION 10.15.(b)** On or before February 1, 2003, the Department shall
21 report on its plan for seeking federal waivers to achieve long-term cost containment in
22 the State's Medicaid program. The report shall be made to the Senate Appropriations
23 Committee on Health and Human Services, the House of Representatives
24 Appropriations Subcommittee on Health and Human Services, and the Fiscal Research
25 Division, and shall include the following:

- 26 (1) Copy of the application for the waiver.
- 27 (2) Description of how the waiver will help achieve long-term cost
28 containment in the State's Medicaid program.
- 29 (3) Description of legislation necessary to implement the proposed waiver.

SPECIAL PROVISION

2002-DHHS-H16(S10.16)

Department of Health and Human Services
Appropriations Subcommittee on Health and Human Services

Requested by: Representatives Earle, Nye

1 **COMMUNITY ALTERNATIVES PROGRAMS**

2 **SECTION 10.16.(a)** The Department of Health and Human Services shall
3 administer all Community Alternative Program (CAP) waivers in the most economical
4 and efficient manner possible to support within funds appropriated the maximum
5 number of persons meeting participation requirements under the waivers. The
6 Department shall amend the waivers to ensure that participation requirements and
7 payment and service limits will ensure that the maximum number of persons meeting
8 participation requirements are served by all waivers. Not later than October 1, 2002, the
9 Department shall submit a report that outlines efficient use of funds appropriated and
10 that demonstrates the participation requirements, payment and service limits, and other
11 administrative actions to support the maximum number of persons to be served in the
12 applicable State fiscal year. The report shall be submitted to the Senate Appropriations
13 Committee on Health and Human Services, the House of Representatives
14 Appropriations Subcommittee on Health and Human Services, and the Fiscal Research
15 Division.

16 **SECTION 10.16.(b)** CAP-DA services shall be provided for the 2002-2003
17 fiscal year to any eligible person who entered a nursing facility on or before June 1,
18 2002, notwithstanding that the availability of CAP-DA services may be suspended for
19 that fiscal year.

20 **SECTION 10.16.(c)** The North Carolina Institute of Medicine shall conduct
21 a study of the Community Alternatives Program for Disabled Adults (CAP/DA)
22 administered by the Department of Health and Human Services and shall recommend
23 ways of improving the administration of CAP/DA. In conducting the study, the Institute
24 shall consider the following:

- 25 (1) Whether the lead agency for CAP/DA should also be a provider of
26 direct services under CAP/DA.
27 (2) Whether case managers should be employed by the provider agency.
28 (3) Whether funds for CAP/DA should be reduced below the ninety
29 percent (90%) maximum that currently exists.
30 (4) Review current policy for service requirements, management, and
31 supervision as it pertains to strengthening the family and case manager
32 and agency requirements.
33 (5) Whether case managers and provider agencies should have increased
34 responsibility for upholding guidelines.

- 1 (6) Whether oversight of CAP/DA by the Division of Medical Assistance
2 needs strengthening.
3 (7) Alternative funding sources for CAP/DA.
4 (8) Determination of funding needs for CAP/DA based on corroboration
5 with long-term care policy initiatives.
6 (9) What changes should be made to CAP/DA to reduce cost of services
7 per person in order to serve more individuals within existing funds.
8 (10) Any other matters the North Carolina Institute of Medicine considers
9 pertinent to the study.
10 The North Carolina Institute of Medicine shall report its findings and recommendations
11 to the 2003 General Assembly upon its convening.

1 Assistance Program (Title XIX of the Social Security Act), and except as otherwise
2 provided in this subsection for atypical antipsychotic drugs and drugs listed in the
3 narrow therapeutic index, a prescription order for a drug designated by a trade or brand
4 name shall be considered to be an order for the drug by its established or generic name,
5 except when the prescriber has determined, at the time the drug is prescribed, that the
6 brand name drug is medically necessary and has written on the prescription order the
7 phrase "medically necessary". An initial prescription order for an atypical antipsychotic
8 drug or a drug listed in the narrow therapeutic drug index that does not contain the
9 phrase "medically necessary" shall be considered an order for the drug by its established
10 or generic name, except that a pharmacy shall not substitute a generic or established
11 name prescription drug for subsequent brand or trade name prescription orders of the
12 same prescription drug without explicit oral or written approval of the prescriber given
13 at the time the order is filled. Generic drugs shall be dispensed at a lower cost to the
14 Medical Assistance Program rather than trade or brand name drugs. As used in this
15 subsection, "brand name" means the proprietary name the manufacturer places upon a
16 drug product or on its container, label, or wrapping at the time of packaging; and
17 "established name" has the same meaning as in section 502(e)(3) of the Federal Food,
18 Drug, and Cosmetic Act as amended, 21 U.S.C. § 352(e)(3).

19 **SECTION 21.19.(i) Exceptions to Service Limitations, Eligibility Requirements,**
20 **and Payments.** – Service limitations, eligibility requirements, and payments bases in this
21 section may be waived by the Department of Health and Human Services, with the
22 approval of the Director of the Budget, to allow the Department to carry out pilot
23 programs for prepaid health plans, contracting for services, managed care plans, or
24 community-based services programs in accordance with plans approved by the United
25 States Department of Health and Human Services, or when the Department determines
26 that such a waiver will result in a reduction in the total Medicaid costs for the recipient.
27 The Department of Health and Human Services may proceed with planning and
28 development work on the Program of All-Inclusive Care for the Elderly.

29 **SECTION 21.19.(j) Volume Purchase Plans and Single Source Procurement.** – The
30 Department of Health and Human Services, Division of Medical Assistance, may,
31 subject to the approval of a change in the State Medicaid Plan, contract for services,
32 medical equipment, supplies, and appliances by implementation of volume purchase
33 plans, single source procurement, or other contracting processes in order to improve
34 cost containment.

35 **SECTION 21.19.(k) Cost-Containment Programs.** – The Department of Health and
36 Human Services, Division of Medical Assistance, may undertake cost containment
37 programs in accordance with Section 3 of S.L. 2001-395, including contracting for
38 services, preadmissions to hospitals and prior approval for certain outpatient surgeries
39 before they may be performed in an inpatient setting.

40 **SECTION 21.19.(l)** For all Medicaid eligibility classifications for which the federal
41 poverty level is used as an income limit for eligibility determination, the income limits
42 will be updated each April 1 immediately following publication of federal poverty
43 guidelines.

44 **SECTION 21.19.(m)** The Department of Health and Human Services shall provide
45 Medicaid to 19-, 20-, and 21-year-olds in accordance with federal rules and regulations.

1 **SECTION 21.19.(n)** The Department of Health and Human Services shall provide
2 coverage to pregnant women and to children according to the following schedule:

3 (1) Pregnant women with incomes equal to or less than one hundred
4 eighty-five percent (85%) of the federal poverty guidelines as revised
5 *Provides* each April 1 shall be covered for Medicaid benefits. In determining
6 *Parental* income eligibility under this subdivision, the income of a minor's
7 *income* parents shall be counted.

8 (2) Infants under the age of 1 with family incomes equal to or less than
9 one hundred eighty-five percent (85%) of the federal poverty
10 guidelines as revised each April 1 shall be covered for Medicaid
11 benefits.

12 (3) Children aged 1 through 5 with family incomes equal to or less than
13 one hundred thirty-three percent (133%) of the federal poverty
14 guidelines as revised each April 1 shall be covered for Medicaid
15 benefits.

16 (4) Children aged 6 through 18 with family incomes equal to or less than
17 the federal poverty guidelines as revised each April 1 shall be covered
18 for Medicaid benefits.

19 (5) The Department of Health and Human Services shall provide Medicaid
20 coverage for adoptive children with special or rehabilitative needs
21 regardless of the adoptive family's income.

22 Services to pregnant women eligible under this subsection continue throughout the
23 pregnancy but include only those related to pregnancy and to those other conditions
24 determined by the Department as conditions that may complicate pregnancy. In order to
25 reduce county administrative costs and to expedite the provision of medical services to
26 pregnant women, to infants, and to children described in subdivisions (3) and (4) of this
27 subsection, no resources test shall be applied.

28 **SECTION 21.19.(o)** Medicaid enrollment of categorically needy families with
29 children shall be continuous for one year without regard to changes in income or assets.

30 **SECTION 21.19.(p)** The Department shall disregard earned income for recipients
31 who would otherwise lose Medicaid eligibility under section 1931 of Title XIX of the
32 Social Security Act due to earnings. This disregard shall be applied for a maximum of
33 12 consecutive months.

34 **SECTION 21.19.(q)** The Department of Health and Human Services shall submit a
35 quarterly status report on expenditures for acute care and long-term care services to the
36 Fiscal Research Division and to the Office of State Budget and Management. This
37 report shall include an analysis of budgeted versus actual expenditures for eligibles by
38 category and for long-term care beds. In addition, the Department shall revise the
39 program's projected spending for the current fiscal year and the estimated spending for
40 the subsequent fiscal year on a quarterly basis. The quarterly expenditure report and the
41 revised forecast shall be forwarded to the Fiscal Research Division and to the Office of
42 State Budget and Management no later than the third Thursday of the month following
43 the end of each quarter.

44 **SECTION 21.19.(r)** The Division of Medical Assistance, Department of Health
45 and Human Services, may provide incentives to counties that successfully recover

1 fraudulently spent Medicaid funds by sharing State savings with counties responsible
2 for the recovery of the fraudulently spent funds.

3 **SECTION 21.19.(s)** If first approved by the Office of State Budget and
4 Management, the Division of Medical Assistance, Department of Health and Human
5 Services, may use funds that are identified to support the cost of development and
6 acquisition of equipment and software through contractual means to improve and
7 enhance information systems that provide management information and claims
8 processing. The Department of Health and Human Services shall identify adequate
9 funds to support the implementation and first year's operational costs that exceed the
10 currently allocated funds for the new contract for the fiscal agent for the Medicaid
11 Management Information System.

12 **SECTION 21.19.(t)** The Department of Health and Human Services may adopt
13 temporary rules according to the procedures established in G.S. 150B-21.1 when it finds
14 that these rules are necessary to maximize receipt of federal funds within existing State
15 appropriations, to reduce Medicaid expenditures, and to reduce fraud and abuse. Prior to
16 the filing of these temporary rules with the Office of Administrative Hearings, the
17 Department shall consult with the Office of State Budget and Management on the
18 possible fiscal impact of the temporary rule and its effect on State appropriations and
19 local governments.

20 **SECTION 21.19.(u)** The Department shall report to the Fiscal Research Division
21 of the Legislative Services Office and to the House of Representatives Appropriations
22 Subcommittee on Health and Human Services and the Senate Appropriations
23 Committee on Health and Human Services or the Joint Legislative Health Care
24 Oversight Committee on any change it anticipates making in the Medicaid program that
25 impacts the type or level of service, reimbursement methods, or waivers, any of which
26 require a change in the State Plan or other approval by the Centers for Medicare and
27 Medicaid Services (CMS). The reports shall be provided at the same time they are
28 submitted to CMS for approval.

29 **SECTION 21.19.(v)** Upon approval of a demonstration waiver by the Centers for
30 Medicare and Medicaid Services (CMS), the Department of Health and Human Services
31 may provide Medicaid coverage for family planning services to men and women of
32 child-bearing age with family incomes equal to or less than one hundred eighty-five
33 percent (185%) of the federal poverty level. Coverage shall be contingent upon federal
34 approval of the waiver and shall begin no earlier than January 1, 2001.

35 **SECTION 21.19.(w)** The Department of Health and Human Services, Division of
36 Medical Assistance, shall use the latest audited cost reporting data available when
37 establishing Medicaid provider rates or when making changes to the reimbursement
38 methodology.

39 **SECTION 21.19.(x)** The Department of Health and Human Services, Division of
40 Medical Assistance, shall implement a new coding system for therapeutic mental health
41 services as required by the Health Insurance Portability and Accountability Act of 1996.
42 In implementing the new coding system, the Division shall ensure that the new coding
43 system does not discriminate between providers of therapeutic mental health services
44 with similar qualifications and training. In meeting the requirements of this subsection,
45 the Division shall consult with the Division of Mental Health, Developmental

1 Disabilities, and Substance Abuse Services and the professional licensing boards
2 responsible for licensing the affected professionals.

3 **SECTION 21.19.(y)** The Department of Health and Human Services may apply
4 federal transfer of assets policies, as described in Title XIX, Section 1917(c) of the
5 Social Security Act to real property excluded as "~~income-producing~~" "income
6 producing", tenancy-in-common, or as nonhomesite property made "income producing"
7 under Title XIX, Section 1902(r)(2) of the Social Security Act. The transfer of assets
8 policy shall apply only to an institutionalized individual or the individual's spouse as
9 defined in Title XIX, Section 1917(c) of the Social Security Act. This subsection
10 becomes effective no earlier than October 1, 2001. Federal transfer of asset policies to
11 properties excluded as tenancy-in-common or as nonhomesite property made "income
12 producing" in accordance with this subsection shall become effective no earlier than
13 October 1, 2002."

14 **SECTION 10.11.(b)** Effective October 1, 2002, G.S. 108A-70.5(b) reads as
15 rewritten:

16 "(b) As used in this section:

- 17 (1) "Medical assistance" means medical care services paid for by the
18 North Carolina Medicaid Program on behalf of the recipient:
19 a. If the recipient is receiving these medical care services as an
20 inpatient in a nursing facility, intermediate care facility for the
21 mentally retarded, or other medical institution, and cannot
22 reasonably be expected to be discharged to return home; or
23 b. If the recipient is 55 years of age or older and is receiving these
24 medical care services, including related hospital care and
25 prescription drugs, for nursing facility ~~services—services,~~
26 personal care services, or home- and community-based services.
27 (2) "Estate" means all the real and personal property considered assets of
28 the estate available for the discharge of debt pursuant to G.S.
29 28A-15-1."

DRAFT
SPECIAL PROVISION

2002-DHHS-H12(S10.12)

Department of Health and Human Services
Appropriations Subcommittee on Health and Human Services

Requested by: Representatives Earle, Nye

1 **CAROLINA ACCESS PROGRAM IMPROVEMENTS**

2 SECTION 10.12.(a) In its effort to achieve anticipated savings in the
3 Medicaid Program of nine million four hundred twenty-five thousand dollars
4 (\$9,425,000) for the 2002-2003 fiscal year through expansion of the Carolina ACCESS
5 II and Carolina ACCESS III programs, the Department of Health and Human Services
6 shall monitor cost-savings activities of these programs. Carolina ACCESS II and
7 Carolina ACCESS III programs shall provide the Department detailed information on
8 savings realized from the following cost-savings activities:

- 9 (1) Reductions in hospital admissions;
- 10 (2) Reductions in emergency room visits;
- 11 (3) Use of best-prescribing practices;
- 12 (4) Increased prescriptions of generic drugs;
- 13 (5) Implementation of polypharmacy review;
- 14 (6) Reductions in therapy visits;
- 15 (7) Improved management of high risk/high cost patients; and
- 16 (8) Other strategies implemented by the programs to achieve anticipated
17 savings.

18 SECTION 10.12.(b) The Department of Health and Human Services shall
19 implement a process for the assessment and review of cost-effectiveness of the Carolina
20 ACCESS II and Carolina ACCESS III programs. The Division of Medical Assistance
21 shall confirm actual savings realized from the use of case management strategies of the
22 Carolina ACCESS II and Carolina ACCESS III demonstration sites. Beginning October
23 1, 2002, the Department shall report quarterly the cost-effectiveness of these programs
24 based on actual savings achieved. The Department shall submit the report to the Senate
25 Appropriations Committee on Health and Human Services, the House of
26 Representatives Appropriations Subcommittee on Health and Human Services, the
27 Office of State Budget and Management, and the Fiscal Research Division.

1 **SECTION 1.(b)** In developing and implementing the Senior Prescription
2 Drug Access Program, the Commission may do the following:

3 (1) Establish a centralized database with linkages to Medicaid databases to
4 enable review of each participant's prescription drug regimen, and to
5 ensure quality of services, quality of care, and cost effectiveness. The
6 database shall comply with all State and federal privacy protection
7 requirements and shall be accessible only to participating pharmacists,
8 primary care physicians, and case managers.

9 (2) Use reserved funds authorized under this section to contract with
10 public and private entities to provide prescription drug assistance
11 services.

12 (3) Use reserved funds authorized under this section to award grants to
13 applicants eligible under G.S. 147-86.31 to receive grant funds. Grant
14 funds may be used to subsidize costs of hiring and training staff to
15 operate drug acquisition software.

16 **SECTION 1.(c)** The Commission shall provide for ongoing evaluation of
17 the Program to measure its usage and effectiveness. The Commission shall include in its
18 annual report required under G.S. 147-86.35 the use of funds for and activities of the
19 Senior Prescription Drug Access Program, and the results of its Program evaluation.
20 The report shall include data on the number of persons who received services, fees
21 authorized, and the geographic distribution of Program services.

DRAFT
SPECIAL PROVISION

2002-DHHS-H11(S10.11)

Department of Health and Human Services
Appropriations Subcommittee on Health and Human Services

Requested by: Representatives Earle, Nye

1 **MEDICAID PROGRAM**

2 SECTION 10.11.(a) Section 21.19 of S.L. 2001-424 reads as rewritten:

3 "SECTION 21.19.(a) Funds appropriated in this act for services provided in
4 accordance with Title XIX of the Social Security Act (Medicaid) are for both the
5 categorically needy and the medically needy. Funds appropriated for these services shall
6 be expended in accordance with the following schedule of services and payment bases.
7 All services and payments are subject to the language at the end of this subsection.

8 Services and payment bases:

9 (1) Hospital-Inpatient – Payment for hospital inpatient services will be
10 prescribed in the State Plan as established by the Department of Health
11 and Human Services.

12 (2) Hospital-Outpatient – Eighty percent (80%) of allowable costs or a
13 prospective reimbursement plan as established by the Department of
14 Health and Human Services.

15 (3) Nursing Facilities – Payment for nursing facility services will be
16 prescribed in the State Plan as established by the Department of Health
17 and Human Services. Nursing facilities providing services to Medicaid
18 recipients who also qualify for Medicare must be enrolled in the
19 Medicare program as a condition of participation in the Medicaid
20 program. State facilities are not subject to the requirement to enroll in
21 the Medicare program. Residents of nursing facilities who are eligible
22 for Medicare coverage of nursing facility services must be placed in a
23 Medicare certified bed. Medicaid shall cover facility services only
24 after the appropriate services have been billed to Medicare. The
25 Division of Medical Assistance shall allow nursing facility providers
26 sufficient time from the effective date of this act to certify additional
27 Medicare beds if necessary. In determining the date that the
28 requirements of this subdivision become effective, the Division of
29 Medical Assistance shall consider the regulations governing
30 certification of Medicare beds and the length of time required for this
31 process to be completed.

*Language
Added.*

32 (4) Intermediate Care Facilities for the Mentally Retarded – As prescribed
33 in the State Plan as established by the Department of Health and
34 Human Services.

- 1 (5) Drugs – Drug costs as allowed by federal regulations plus a
2 professional services fee per month excluding refills for the same drug
3 or generic equivalent during the same month. Reimbursement shall be
4 available for up to six prescriptions per recipient, per month, including
5 refills. Payments for drugs are subject to the provisions of subsection
6 (h) of this section and to the provisions at the end of subsection (a) of
7 this section, or in accordance with the State Plan adopted by the
8 Department of Health and Human Services consistent with federal
9 reimbursement regulations. Payment of the professional services fee
10 shall be made in accordance with the State Plan adopted by the
11 Department of Health and Human Services, consistent with federal
12 reimbursement regulations. The professional services fee shall be five
13 dollars and sixty cents (\$5.60) per prescription for generic drugs and
14 four dollars (\$4.00) per prescription for brand name drugs.
15 Adjustments to the professional services fee shall be established by the
16 General Assembly.
- 17 (6) Physicians, Chiropractors, Podiatrists, Optometrists, Dentists, Certified
18 Nurse Midwife Services, Nurse Practitioners – Fee schedules as
19 developed by the Department of Health and Human Services.
20 Payments for dental services are subject to the provisions of subsection
21 (g) of this section.
- 22 (7) Community Alternative Program, EPSDT Screens – Payment to be
23 made in accordance with rate schedule developed by the Department
24 of Health and Human Services.
- 25 (8) Home Health and Related Services, Private Duty Nursing, Clinic
26 Services, Prepaid Health Plans, Durable Medical Equipment –
27 Payment to be made according to reimbursement plans developed by
28 the Department of Health and Human Services.
- 29 (9) Medicare Buy-In – Social Security Administration premium.
- 30 (10) Ambulance Services – Uniform fee schedules as developed by the
31 Department of Health and Human Services. Public ambulance
32 providers will be reimbursed at cost.
- 33 (11) Hearing Aids – Actual cost plus a dispensing fee.
- 34 (12) Rural Health Clinic Services – Provider-based, reasonable cost;
35 nonprovider-based, single-cost reimbursement rate per clinic visit.
- 36 (13) Family Planning – Negotiated rate for local health departments. For
37 other providers, see specific services, for instance, hospitals,
38 physicians.
- 39 (14) Independent Laboratory and X-Ray Services – Uniform fee schedules
40 as developed by the Department of Health and Human Services.
- 41 (15) Optical Supplies – One hundred percent (100%) of reasonable
42 wholesale cost of materials.
- 43 (16) Ambulatory Surgical Centers – Payment as prescribed in the
44 reimbursement plan established by the Department of Health and
45 Human Services.

- 1 (17) Medicare Crossover Claims – An amount up to the actual coinsurance
2 or deductible or both, in accordance with the State Plan, as approved
3 by the Department of Health and Human Services.
4 (18) Physical Therapy and Speech Therapy – Services limited to EPSDT
5 eligible children. Payments are to be made only to qualified providers
6 at rates negotiated by the Department of Health and Human Services.
7 Physical therapy (including occupational therapy) and speech therapy
8 services are subject to prior approval and utilization review.
9 (19) Personal Care Services – Payment in accordance with the State Plan
10 approved by the Department of Health and Human Services.
11 (20) Case Management Services – Reimbursement in accordance with the
12 availability of funds to be transferred within the Department of Health
13 and Human Services.
14 (21) Hospice – Services may be provided in accordance with the State Plan
15 developed by the Department of Health and Human Services.
16 (22) Other Mental Health Services – Unless otherwise covered by this
17 section, coverage is limited to:
18 a. Services as defined by the Division of Mental Health,
19 Developmental Disabilities, and Substance Abuse Services and
20 approved by the Centers for Medicare and Medicaid Services
21 (CMS) when provided in agencies meeting the requirements of
22 the rules established by the Commission for Mental Health,
23 Developmental Disabilities, and Substance Abuse Services, and
24 reimbursement is made in accordance with a State Plan
25 developed by the Department of Health and Human Services
26 not to exceed the upper limits established in federal regulations,
27 and
28 b. For children eligible for EPSDT services:
29 1. Licensed or certified psychologists, licensed clinical
30 social workers, certified clinical nurse specialists in
31 psychiatric mental health advanced practice, and nurse
32 practitioners certified as clinical nurse specialists in
33 psychiatric mental health advanced practice, when
34 Medicaid-eligible children are referred by the Carolina
35 ACCESS primary care physician or the area mental
36 health program, and
37 2. Institutional providers of residential services as defined
38 by the Division of Mental Health, Developmental
39 Disabilities, and Substance Abuse Services and approved
40 by the Centers for Medicare and Medicaid Services
41 (CMS) for children and Psychiatric Residential
42 Treatment Facility services that meet federal and State
43 requirements as defined by the Department.

44 Notwithstanding G.S. 150B-121.1(a), the Department of Health and
45 Human Services may adopt temporary rules in accordance with
46 Chapter 150B of the General Statutes further defining the

1 qualifications of providers and referral procedures in order to
2 implement this subdivision. Coverage policy for services defined by
3 the Division of Mental Health, Developmental Disabilities, and
4 Substance Abuse Services under paragraphs a. and b.2 of this
5 subdivision shall be established by the Division of Medical Assistance.

6 (23) Medically Necessary Prosthetics or Orthotics for EPSDT Eligible
7 Children – Reimbursement in accordance with the State Plan approved
8 by the Department of Health and Human Services.

9 (24) Health Insurance Premiums – Payments to be made in accordance with
10 the State Plan adopted by the Department of Health and Human
11 Services consistent with federal regulations.

12 (25) Medical Care/Other Remedial Care – Services not covered elsewhere
13 in this section include related services in schools; health professional
14 services provided outside the clinic setting to meet maternal and infant
15 health goals; and services to meet federal EPSDT mandates. Services
16 addressed by this paragraph are limited to those prescribed in the State
17 Plan as established by the Department of Health and Human Services.

18 (26) Pregnancy Related Services – Covered services for pregnant women
19 shall include nutritional counseling, psychosocial counseling, and
20 predelivery and postpartum home visits by maternity care coordinators
21 and public health nurses.

22 Services and payment bases may be changed with the approval of the Director of the
23 Budget. Payment is limited to Medicaid enrolled providers that provide evidence of
24 medical malpractice insurance coverage, purchase a performance bond in the amount of
25 one hundred thousand dollars (\$100,000) naming as beneficiary the Department of
26 Health and Human Services, Division of Medical Assistance, or provide to the
27 Department a validly executed letter of credit or other financial instrument issued by a
28 financial institution or agency honoring a demand for payment in an equivalent amount.

29 Reimbursement is available for up to 24 visits per recipient per year to any one or
30 combination of the following: physicians, clinics, hospital outpatient, optometrists,
31 chiropractors, and podiatrists. Prenatal services, all EPSDT children, emergency rooms,
32 and mental health services subject to independent utilization review are exempt from the
33 visit limitations contained in this paragraph. Exceptions may be authorized by the
34 Department of Health and Human Services where the life of the patient would be
35 threatened without such additional care. Any person who is determined by the
36 Department to be exempt from the 24-visit limitation may also be exempt from the
37 six-prescription limitation.

38 **SECTION 21.19.(b)** Allocation of Nonfederal Cost of Medicaid. – The State shall
39 pay eighty-five percent (85%); the county shall pay fifteen percent (15%) of the
40 nonfederal costs of all applicable services listed in this section.

41 **SECTION 21.19.(c)** Copayment for Medicaid Services. – The Department of
42 Health and Human Services may establish copayment up to the maximum permitted by
43 federal law and regulation.

44 **SECTION 21.19.(d)** Medicaid and Work First Family Assistance, Income
45 Eligibility Standards. – The maximum net family annual income eligibility standards for

1 Medicaid and Work First Family Assistance and the Standard of Need for Work First
 2 Family Assistance shall be as follows:

	<u>Categorically Needy</u>	<u>Medically Needy</u>	
	<u>WFFA*</u>		
<u>Family</u>	<u>Standard</u>	<u>Families and</u>	
<u>Size</u>	<u>of Need</u>	<u>Children Income</u>	
		<u>Level</u>	
		<u>AA, AB, AD*</u>	
1	\$4,344	\$2,172	\$2,900
2	5,664	2,832	3,800
3	6,528	3,264	4,400
4	7,128	3,564	4,800
5	7,776	3,888	5,200
6	8,376	4,188	5,600
7	8,952	4,476	6,000
8	9,256	4,680	6,300

17 *Work First Family Assistance (WFFA); Aid to the Aged (AA); Aid to the Blind (AB);
 18 and Aid to the Disabled (AD).

19
 20 The payment level for Work First Family Assistance shall be fifty percent (50%) of the
 21 standard of need.

22 These standards may be changed with the approval of the Director of the Budget
 23 with the advice of the Advisory Budget Commission.

24 **SECTION 21.19.(e)** The Department of Health and Human Services, Division of
 25 Medical Assistance, shall provide Medicaid coverage to all elderly, blind, and disabled
 26 people who have incomes equal to or less than one hundred percent (100%) of the
 27 federal poverty guidelines, as revised each April 1.

28 **SECTION 21.19.(f)** ICF and ICF/MR Work Incentive Allowances. – The
 29 Department of Health and Human Services may provide an incentive allowance to
 30 Medicaid-eligible recipients of ICF and ICF/MR facilities who are regularly engaged in
 31 work activities as part of their developmental plan and for whom retention of additional
 32 income contributes to their achievement of independence. The State funds required to
 33 match the federal funds that are required by these allowances shall be provided from
 34 savings within the Medicaid budget or from other unbudgeted funds available to the
 35 Department. The incentive allowances may be as follows:

<u>Monthly Net Wages</u>	<u>Monthly Incentive Allowance</u>
\$1.00 to \$100.99	Up to \$50.00
\$101.00 to \$200.99	\$80.00
\$201.00 to \$300.99	\$130.00
\$301.00 and greater	\$212.00.

36
 37
 38
 39
 40
 41
 42 **SECTION 21.19.(g)** Dental Coverage Limits. – Dental services shall be provided
 43 on a restricted basis in accordance with rules adopted by the Department to implement
 44 this subsection.

45 **SECTION 21.19.(h)** Dispensing of Generic Drugs. – Notwithstanding G.S.
 46 90-85.27 through G.S. 90-85.31, or any other law to the contrary, under the Medical

2 SECTION 10.3.(a) The Department of Health and Human Services, Office
3 of Long-Term Care, shall review staffing requirements of Adult Day Care Programs and
4 Adult Day Health Programs.

5 SECTION 10.3.(b) The Department shall report the results of its review to
6 the Senate Appropriations Committee on Health and Human Services, the House of
7 Representatives Appropriations Subcommittee on Health and Human Services, and the
8 Fiscal Research Division not later than December 1, 2002. The report shall include
9 staffing requirements for adult day care and adult day health programs as compared to
10 adult care homes, assisted living facilities, and nursing homes in the State. The report
11 shall also compare staffing ratios in North Carolina to those of other states, including
12 those states that border North Carolina. The report shall be conducted by the
13 Department, Office of Long-Term Care, or by an independent contractor and shall
14 contain all of the following specific information:

- 15 (1) Number of staff required per resident.
- 16 (2) Education/work experience required and preferred as a basis for hire.
- 17 (3) Specific job duties outlined in job descriptions.
- 18 (4) Rationale and justification for establishing the existing staff ratios in
19 the Division of Aging's policy for adult day care and adult day health
20 care.
- 21 (5) An analysis of the variance in staffing requirements among adult day
22 care and adult day health programs, adult care homes, assisted living
23 facilities, and nursing homes.
- 24 (6) Identification of the entities responsible for licensing and monitoring
25 quality for all providers of long-term care in the State.
- 26 (7) Recommendations for changes to existing policies based on findings of
27 the Department's review.

2 SECTION 10.7. State funds appropriated for the Child Advocacy Institute
3 shall be used only for administration of the Child Advocacy Institute or for research and
4 other services provided by the Institute. These funds shall not be used or replaced by
5 other funds for (i) lobbying or other governmental affairs activities or (ii) direct
6 contributions to other nongovernmental entities.

7 This section shall not be construed to prohibit the Institute from using State
8 funds to contract with other nongovernmental entities for the purchase of goods or
9 services.

Department of Health and Human Services
Appropriations Subcommittee on Health and Human Services

Requested by: Representatives Earle, Nye

1 **CONSOLIDATION OF MAINTENANCE ACTIVITIES**

2 **SECTION 10.8.(a)** The Department of Health and Human Services shall
3 develop a plan to consolidate building maintenance activities at the North Carolina
4 School for the Deaf at Morganton, the Western Carolina Center, and Broughton
5 Hospital. The plan shall assess the needs for maintenance at all three centers, determine
6 the level of staff necessary to carry out all of the current activities with fewer managers,
7 supervisors, and other staff, and develop a new single budget for the maintenance
8 activities.

9 **SECTION 10.8.(b)** The Department of Health and Human Services shall
10 identify other facilities throughout the State that are in close proximity to one another
11 and assess the feasibility of consolidating the building maintenance activities at those
12 facilities.

13 **SECTION 10.8.(c)** The Department of Health and Human Services shall
14 report on activities carried out under this section to the Senate Appropriations
15 Committee on Health and Human Services, the House of Representatives
16 Appropriations Subcommittee on Health and Human Services, and the Fiscal Research
17 Division no later than December 1, 2002.

1 **TRANSFER COUNCIL ON HOLOCAUST TO DEPARTMENT OF PUBLIC**
2 **INSTRUCTION**

3 SECTION #.(a) G.S. 143B-216.20, 143B-216.21, 143B-216.22, and 143B-
4 216.23 are recodified as subsections (a) through (d) of new G.S. 143A-48.1 in Article 5
5 of Chapter 143A of the General Statutes.

6 SECTION #.(b) G.S. 143A-48.1, as codified by this section, reads as
7 rewritten:

8 "§ 143A-48.1. North Carolina Council on the Holocaust; creation;
9 ~~purpose; purpose; membership; expenses; assistance.~~

10 (a) There is hereby created the North Carolina Council on the Holocaust. The
11 purpose of the Council is to prevent future atrocities similar to the systematic program
12 of genocide of six million Jews and others by the Nazis. This purpose shall be
13 accomplished by developing a program of education and observance of the Holocaust.

14 (b) The Council shall consist of 24 members, six appointed by the Governor, six
15 appointed by the President Pro Tempore of the Senate, six appointed by the Speaker of
16 the House of Representatives, and six appointed by the other 18 members. Members
17 shall be appointed ~~in 1985 for two year terms to begin July 1, 1985. In 1987 and~~
18 ~~biennially thereafter, successors shall be appointed for two year terms. for two-year~~
19 terms to begin July 1 of each odd-numbered year. The six at-large appointments shall be
20 made by the Council at its first meeting after July 1 of each odd-numbered year. To be
21 eligible for appointment as an at-large member, a person must either be a survivor of the
22 Holocaust or a first-generation lineal descendant of such person. A majority of the
23 members shall constitute a quorum for the transaction of business.

24 (c) The members of the Council shall be compensated and reimbursed for their
25 expenses in accordance with G.S. 138-5.

26 (d) The ~~Secretary~~ Superintendent of Public Instruction may arrange for clerical or
27 other assistance required by the Council."

28 SECTION #.(c) G.S. 143B-138.1(b)(14) is repealed.

29 SECTION #.(d) The North Carolina Council on the Holocaust, as created by
30 Part 28 of Article 3 of Chapter 143B of the General Statutes, and recodified as G.S.
31 143A-48.1 by this section, is transferred to the Department of Public Instruction by a
32 Type II transfer, as defined in G.S. 143A-6.

DRAFT
SPECIAL PROVISION

2002-DHHS-H68

Department of Health and Human Services
Appropriations Subcommittee on Health and Human Services

Requested by: Representatives Earle, Nye

1 **NONMEDICAID REIMBURSEMENT CHANGES**

2 SECTION #. Section 21.59 of S.L. 2001-424 reads as rewritten:

3 "SECTION 21.59. Providers of medical services under the various State programs,
4 other than Medicaid, offering medical care to citizens of the State shall be reimbursed at
5 rates no more than those under the North Carolina Medical Assistance Program.

6 The Department of Health and Human Services may reimburse hospitals at the full
7 prospective per diem rates without regard to the Medical Assistance Program's annual
8 limits on hospital days. When the Medical Assistance Program's per diem rates for
9 inpatient services and its interim rates for outpatient services are used to reimburse
10 providers in non-Medicaid medical service programs, retroactive adjustments to claims
11 already paid shall not be required.

12 Notwithstanding the provisions of paragraph one, the Department of Health and
13 Human Services may negotiate with providers of medical services under the various
14 Department of Health and Human Services programs, other than Medicaid, for rates as
15 close as possible to Medicaid rates for the following purposes: contracts or agreements
16 for medical services and purchases of medical equipment and other medical supplies.
17 These negotiated rates are allowable only to meet the medical needs of its non-Medicaid
18 eligible patients, residents, and clients who require such services which cannot be
19 provided when limited to the Medicaid rate.

20 Maximum net family annual income eligibility standards for services in these
21 programs shall be as follows:

22	23	24	25	26	27	28	29	30	31
	Family Size	Medical Eye Care Adults	AllRehabilitation Except DSB Over 55 Grant						Other
24	1	\$4,860	\$8,364						\$4,200
25	2	5,940	10,944						5,300
26	3	6,204	13,500						6,400
27	4	7,284	16,092						7,500
28	5	7,821	18,648						7,900
29	6	8,220	21,228						8,300
30	7	8,772	21,708						8,800
31	8	9,312	22,220						9,300

32 The eligibility level for children in the Medical Eye Care Program in the Division of
33 Services for the Blind shall be one hundred percent (100%) of the federal poverty
34 guidelines, as revised annually by the United States Department of Health and Human
35 Services and in effect on July 1 of each fiscal year. The eligibility level for adults 55
36 years of age or older who qualify for services through the Division of Services for the

24

1 Blind, Independent Living Rehabilitation Program shall be two hundred percent (200%)
 2 of the federal poverty guidelines, as revised annually by the United States Department
 3 of Health and Human Services and in effect on July 1 of each fiscal year. The eligibility
 4 level for adults in the Atypical Antipsychotic Medication Program in the Division of
 5 Mental Health, Developmental Disabilities, and Substance Abuse Services shall be one
 6 hundred fifty percent (150%) of the federal poverty guidelines, as revised annually by
 7 the United States Department of Health and Human Services and in effect on July 1 of
 8 each fiscal year. Additionally, those adults enrolled in the Atypical Antipsychotic
 9 Medication Program who become gainfully employed may continue to be eligible to
 10 receive State support, in decreasing amounts for the purchase of atypical antipsychotic
 11 medication and related services up to three hundred percent (300%) of the poverty level.

12 State financial participation in the Atypical Antipsychotic Medication Program for
 13 those enrollees who become gainfully employed is as follows:

14	<u>Income</u>	<u>State Participation</u>	<u>Client Participation</u>
15	(% of poverty)		
16	0-150%	100%	0%
17	151-200%	75%	25%
18	201-250%	50%	50%
19	251-300%	25%	75%
20	300% and over	0%	100%

21 The Department of Health and Human Services shall contract at, or as close as
 22 possible to, Medicaid rates for medical services provided to residents of State facilities
 23 of the Department."

DRAFT
SPECIAL PROVISION

2002-DHHS-H64

Department of Health and Human Services
Appropriations Subcommittee on Health and Human Services

Requested by: Representatives Earle, Nye, Baddour

1 **SENIOR PRESCRIPTION DRUG ACCESS PROGRAM**

2 SECTION #. (a) Notwithstanding G.S. 147-86.30, the Health and Wellness
3 Trust Fund Commission may for the fiscal year 2002-2003 expend not more than three
4 million dollars (\$3,000,000) of the funds reserved pursuant to G.S. 147-86.30(c) to
5 develop and implement a Senior Prescription Drug Access Program. As used in this
6 section, the term "senior" means an individual age 65 years and older. The purpose of
7 the Program is to reduce costs of and improve access to and use of prescription drugs
8 by:

- 9 (1) Providing one-on-one assistance to seniors and low-income citizens in
10 accessing public and private prescription drug assistance programs.
11 (2) Making available pharmacist evaluators to review all prescriptions and
12 to provide face-to-face counseling for seniors to promote compliance
13 and identify potential adverse effects from interactions among the
14 prescribed drugs.
15 (3) Utilizing software currently licensed by the Department of Health and
16 Human Services to guide patients through the complexities of all drug
17 coverage options, including drug acquisition through low-cost or
18 discount drug programs provided through manufacturer's card
19 programs, and by government programs.

20 Drug acquisition services under the Program shall be available to senior citizens and to
21 low-income citizens eligible for assistance under these public and private prescription
22 drug programs. Counseling services provided by the Program shall be available to
23 senior citizens age 65 and older. There shall be no fee for Program medication
24 counseling services to seniors who are Medicaid recipients and seniors enrolled in
25 Carolina CARxES. The Commission may authorize a reasonable fee to be charged by
26 the pharmacist evaluator to other seniors using medication counseling services,
27 provided that the fee is charged on a sliding scale based on individual or family income.
28 In no event may the fee exceed the actual cost of the service provided. The Commission
29 shall consult with other State agencies and public and private entities to avoid
30 duplication and enhance cooperation and collaboration in providing Program services.
31 In allocating funds under the Program, the Commission shall consider diversity of
32 populations served, geographic representation, and increasing community capacity to
33 respond to health needs. The Commission may phase in the availability of services such
34 that initially all geographic regions of the State have services available.

42

43 **SECTION 5.1.(b)** Decreases in Federal Fund Availability. – If the United

44 States Congress reduces federal fund availability in the Social Services Block Grant

45 below the amounts appropriated in this section, then the Department of Health and

46 Human Services shall allocate these decreases giving priority first to those direct

1 services mandated by State or federal law, then to those programs providing direct
2 services that have demonstrated effectiveness in meeting the federally and
3 State-mandated services goals established for the Social Services Block Grant. The
4 Department shall not include transfers from TANF for specified purposes in any
5 calculations of reductions to the Social Services Block Grant.

6 If the United States Congress reduces the amount of TANF funds below the
7 amounts appropriated in this section after the effective date of this act, then the
8 Department shall allocate the decrease in funds after considering any underutilization of
9 the budget and the effectiveness of the current level of services. Any TANF Block
10 Grant fund changes shall be reported to the Senate Appropriations Committee on Health
11 and Human Services, the House of Representatives Appropriations Subcommittee on
12 Health and Human Services, and the Fiscal Research Division.

13 Decreases in federal fund availability shall be allocated for the Maternal and
14 Child Health and Preventive Health Services federal block grants by the Department of
15 Health and Human Services after considering the effectiveness of the current level of
16 services.

17 **SECTION 5.1.(c) Increases in Federal Fund Availability.** – Any block grant
18 funds appropriated by the United States Congress in addition to the funds specified in
19 this act shall be expended by the Department of Health and Human Services, with the
20 approval of the Office of State Budget and Management, provided the resultant
21 increases are in accordance with federal block grant requirements and are within the
22 scope of the block grant plan approved by the General Assembly.

23 **SECTION 5.1.(d) Changes to the budgeted allocations to the block grants**
24 **appropriated in this act and new allocations from the block grants not specified in this**
25 **act shall be submitted to the Joint Legislative Commission on Governmental Operations**
26 **for review prior to the change and shall be reported immediately to the Senate**
27 **Appropriations Committee on Health and Human Services, the House of**
28 **Representatives Appropriations Subcommittee on Health and Human Services, and the**
29 **Fiscal Research Division.**

30 **SECTION 5.1.(e) The Department of Health and Human Services may**
31 **allow no-cost contract extensions for up to six months for nongovernmental grant**
32 **recipients under the TANF Block Grant.**

33 **SECTION 5.1.(f) Limitations on Preventive Health Services Block Grant**
34 **Funds.** – Twenty-five percent (25%) of funds allocated for Rape Prevention and Rape
35 Education shall be allocated as grants to nonprofit organizations to provide rape
36 prevention and education programs targeted for middle, junior high, and high school
37 students.

38 If federal funds are received under the Maternal and Child Health Block
39 Grant for abstinence education, pursuant to section 912 of Public Law 104-193 (42
40 U.S.C. § 710), for the 2002-2003 fiscal year, then those funds shall be transferred to the
41 State Board of Education to be administered by the Department of Public Instruction.
42 The Department of Public Instruction shall use the funds to establish an Abstinence
43 Until Marriage Education Program and shall delegate to one or more persons the
44 responsibility of implementing the program and G.S. 115C-81(e1)(4). The Department
45 of Public Instruction shall carefully and strictly follow federal guidelines in
46 implementing and administering the abstinence education grant funds.

1 The Department of Health and Human Services shall contract for the
2 follow-up testing involved with the Newborn Screening Program. The Department may
3 contract for these services with an entity within or outside of the State; however, the
4 Department may only contract with an out-of-state entity if it can be demonstrated that
5 there is a cost-savings associated with contracting with the out-of-state entity. The
6 contract amount shall not exceed twenty-five thousand dollars (\$25,000). The amount of
7 the contract shall be covered by funds in the Maternal and Child Grant Block Grant.

8 **SECTION 5.1.(g)** The Department of Health and Human Services, Division
9 of Social Services, shall do the following:

10 (1) Continue the current evaluation of the Work First Program to assess
11 former recipients' earnings, barriers to advancement to economic
12 self-sufficiency, utilization of community support services, and other
13 longitudinal employment data. Assessment periods shall include six
14 and 18 months following closure of the case.

15 (2) Continue the current evaluation of the Work First Program to profile
16 the State's child-only caseload to include indicators of economic and
17 social well-being, academic and behavioral performance, demographic
18 data, description of living arrangements including length of placement
19 out of the home, social and other human services provided to families,
20 and other information needed to assess the needs of the child-only
21 Work First Family Assistance clients and families.

22 The Division of Social Services may use up to two hundred fifty thousand
23 dollars (\$250,000) in TANF funds to complete the evaluation of Work First.

24 The Department of Health and Human Services shall make a report on its
25 progress in complying with this subsection to the Senate Appropriations Committee on
26 Health and Human Services, the House of Representatives Appropriations
27 Subcommittee on Health and Human Services, and the Fiscal Research Division no later
28 than September 30, 2002.

29 **SECTION 5.1.(h)** The sum of one million five hundred thousand dollars
30 (\$1,500,000) appropriated in this act in the Social Services Block Grant to the
31 Department of Health and Human Services, Division of Social Services, for child caring
32 agencies for the 2002-2003 fiscal year shall be allocated to the State Private Child
33 Caring Agencies Fund. These funds shall be combined with all other funds allocated to
34 the State Private Child Caring Agencies Fund for the reimbursement of the State's
35 portion of the cost of care for the placement of certain children by the county
36 departments of social services who are not eligible for federal IV-E funds. These funds
37 shall not be used to match other federal funds.

38 **SECTION 5.1.(i)** The sum of three hundred thousand dollars (\$300,000)
39 appropriated in this section to the Department of Health and Human Services in the
40 Child Care and Development Fund Block Grant shall be used to develop and implement
41 a Medical Child Care Pilot open to children throughout the State.

42 **SECTION 5.1.(j)** Payment for subsidized child care services provided with
43 federal TANF funds shall comply with all regulations and policies issued by the
44 Division of Child Development for the subsidized child care program.

45 **SECTION 5.1.(k)** The sum of four hundred thousand dollars (\$400,000)
46 appropriated in this section in the TANF Block Grant to the Department of Health and

1 Human Services, Division of Social Services, for the 2002-2003 fiscal year shall be
2 used to support administration of TANF-funded programs.

3 **SECTION 5.1.(l)** The sum of one million nine hundred seventy-five
4 thousand one hundred forty-two dollars (\$1,975,142) appropriated in this section in the
5 TANF Block Grant to the Department of Health and Human Services, Division of
6 Mental Health, Developmental Disabilities, and Substance Abuse Services, for the
7 2002-2003 fiscal year shall be used to provide regional residential substance abuse
8 treatment and services for women with children. The Department of Health and Human
9 Services, the Division of Social Services, and the Division of Mental Health,
10 Developmental Disabilities, and Substance Abuse Services, in consultation with local
11 departments of social services, area mental health programs, and other State and local
12 agencies or organizations, shall coordinate this effort in order to facilitate the expansion
13 of regionally based substance abuse services for women with children. These services
14 shall be culturally appropriate and designed for the unique needs of TANF women with
15 children.

16 In order to expedite the expansion of these services, the Secretary of the
17 Department of Health and Human Services may enter into contracts with service
18 providers.

19 The Department of Health and Human Services, the Division of Social
20 Services, and the Division of Mental Health, Developmental Disabilities, and Substance
21 Abuse Services, shall report on their progress in complying with this subsection no later
22 than October 1, 2002, and March 1, 2003, to the Senate Appropriations Committee on
23 Health and Human Services, the House of Representatives Appropriations
24 Subcommittee on Health and Human Services, and the Fiscal Research Division. These
25 reports shall include all of the following:

- 26 (1) The number and location of additional beds created.
- 27 (2) The types of facilities established.
- 28 (3) The delineation of roles and responsibilities at the State and local
29 levels.
- 30 (4) Demographics of the women served, the number of women served,
31 and the cost per client.
- 32 (5) Demographics of the children served, the number of children served,
33 and the services provided.
- 34 (6) Job placement services provided to women.
- 35 (7) A plan for follow-up and evaluation of services provided with an
36 emphasis on outcomes.
- 37 (8) Barriers identified to the successful implementation of the expansion.
- 38 (9) Identification of other resources needed to appropriately and
39 efficiently provide services to Work First recipients.
- 40 (10) Other information as requested.

41 **SECTION 5.1.(m)** The sum of one million four hundred twenty-five
42 thousand dollars (\$1,425,000) appropriated in this section in the TANF Block Grant to
43 the Department of Health and Human Services and transferred to the Department of
44 Juvenile Justice and Delinquency Prevention for the 2002-2003 fiscal year shall be used
45 to support the existing Support Our Students Program and to expand the Program

1 statewide, focusing on low-income communities in unserved areas. These funds shall
2 not be used for administration of the program.

3 **SECTION 5.1.(n)** The sum of nine hundred thousand dollars (\$900,000)
4 appropriated under this section in the TANF Block Grant to the Department of Health
5 and Human Services, Division of Social Services, for the 2002-2003 fiscal year shall be
6 used to provide domestic violence services to Work First recipients. These funds shall
7 be used to provide domestic violence counseling, support, and other direct services to
8 clients. These funds shall not be used to establish new domestic violence shelters or to
9 facilitate lobbying efforts. The Division of Social Services may use up to seventy-five
10 thousand dollars (\$75,000) in TANF funds to establish one administrative position
11 within the Division of Social Services to implement this subsection.

12 Each county department of social services and the local domestic violence
13 shelter program serving the county shall jointly develop a plan for utilizing these funds.
14 The plan shall include the services to be provided and the manner in which the services
15 shall be delivered. The county plan shall be signed by the county social services director
16 or the director's designee and the domestic violence program director or the director's
17 designee and submitted to the Division of Social Services by December 1, 2002. The
18 Division of Social Services, in consultation with the Council for Women, shall review
19 the county plans and shall provide consultation and technical assistance to the
20 departments of social services and local domestic violence shelter programs, if needed.

21 The Division of Social Services shall allocate these funds to county
22 departments of social services according to the following formula: (i) each county shall
23 receive a base allocation of five thousand dollars (\$5,000) and (ii) each county shall
24 receive an allocation of the remaining funds based on the county's proportion of the
25 statewide total of the Work First caseload as of July 1, 2002, and the county's proportion
26 of the statewide total of the individuals receiving domestic violence services from
27 programs funded by the Council for Women as of July 1, 2002. The Division of Social
28 Services may reallocate unspent funds to counties that submit a written request for
29 additional funds.

30 The Department of Health and Human Services shall report on the uses of
31 these funds no later than March 1, 2003, to the Senate Appropriations Committee on
32 Health and Human Services, the House of Representatives Appropriations
33 Subcommittee on Health and Human Services, and the Fiscal Research Division.

34 **SECTION 5.1.(o)** The sum of one million four hundred twenty-five
35 thousand dollars (\$1,425,000) appropriated in this section in the TANF Block Grant to
36 the Department of Health and Human Services, Division of Social Services, shall be
37 used to expand after-school programs and services for at-risk children. The Department
38 shall develop and implement a grant program to award grants to community-based
39 programs that demonstrate the ability to reach children at risk of teen pregnancy and
40 school dropout. The Department shall award grants to community-based organizations
41 that demonstrate the ability to develop and implement linkages with local departments
42 of social services, area mental health programs, schools, and other human services
43 programs in order to provide support services and assistance to the child and family.
44 These funds may be used to establish one position within the Division of Social
45 Services to coordinate at-risk after-school programs and shall not be used for other State
46 administration. The Department shall report no later than March 1, 2003, on its progress

1 in complying with this section to the Senate Appropriations Committee on Health and
2 Human Services, the House of Representatives Subcommittee on Health and Human
3 Services, and the Fiscal Research Division.

4 **SECTION 5.1.(p)** The sum of seven million six hundred fifty-four thousand
5 eight hundred forty-one dollars (\$7,654,841) appropriated in this section in the TANF
6 Block Grant to the Department of Health and Human Services, Division of Social
7 Services, for the 2002-2003 fiscal year for Child Welfare Improvements shall be
8 allocated to the county departments of social services for hiring or contracting staff to
9 investigate and provide services in Child Protective Services cases; to provide foster
10 care and support services; to recruit, train, license, and support prospective foster and
11 adoptive families; and to provide interstate and post-adoption services for eligible
12 families.

13 **SECTION 5.1.(q)** The sum of one million five hundred thousand dollars
14 (\$1,500,000) appropriated in this section in the Mental Health Block Grant to the
15 Department of Health and Human Services, Division of Mental Health, Developmental
16 Disabilities, and Substance Abuse Services, for the 2002-2003 fiscal year and the sum
17 of four hundred twenty-two thousand three dollars (\$422,003) appropriated in this
18 section in the Social Services Block Grant to the Department of Health and Human
19 Services, Division of Social Services, for the 2002-2003 fiscal year shall be used to
20 continue a Comprehensive Treatment Services Program for Children in accordance with
21 Section 21.60 of S.L. 2001-424, as amended.

22 **SECTION 5.1.(r)** The sum of one million dollars (\$1,000,000) appropriated
23 in this section in the TANF Block Grant to the Department of Health and Human
24 Services, Division of Social Services, for fiscal year 2002-2003 shall be used to support
25 various child welfare training projects as follows:

- 26 (1) Provide a regional training center in southeastern North Carolina.
- 27 (2) Support the Masters Degree in Social Work/Baccalaureate Degree in
28 Social Work Collaborative.
- 29 (3) Provide training for residential child care facilities.
- 30 (4) Provide for various other child welfare training initiatives.

31 **SECTION 5.1.(s)** If funds appropriated through the Child Care and
32 Development Fund Block Grant for any program cannot be obligated or spent in that
33 program within the obligation or liquidation periods allowed by the federal grants, the
34 Department may move funds to child care subsidies, unless otherwise prohibited by
35 federal requirements of the grant, in order to use the federal funds fully.

36 **SECTION 5.1.(t)** The sum of one hundred ten thousand four hundred
37 sixty-nine dollars (\$110,469) appropriated in this section in the Preventive Health
38 Service Block Grant to the Department of Health and Human Services for the
39 2002-2003 fiscal year for HIV/AIDS Prevention Activities shall be used to enhance
40 activities for HIV/AIDS awareness and education within the Division of Public Health.
41 The position shall be responsible for all planning, programming, and budgeting for
42 compliance with this subsection. These prevention activities shall be targeted to the
43 general public and programs identified in this subsection and shall not be used to
44 augment the current grant programs that target high-risk populations through the
45 community-based organizations.

1 It is the intention of the General Assembly to focus current resources and
2 activities to strengthen and enhance prevention and intervention programs directed at
3 the reduction of HIV/AIDS. The Department shall coordinate efforts to enhance
4 awareness, education, and outreach with the North Carolina AIDS Advisory Council,
5 North Carolina Minority Health Advisory Council, representatives of faith
6 communities, representatives of nonprofit agencies, and other State agencies.

7 The Department of Health and Human Services shall coordinate and ensure
8 the implementation of developmentally appropriate education, awareness, and outreach
9 campaigns to comply with this subsection in the following programs and services:

10 (1) Division of Social Services programs and services:

- 11 a. Domestic Violence Prevention and Awareness.
- 12 b. Domestic Violence Services for Work First Families.
- 13 c. After School Services for At Risk Children.
- 14 d. Work First Boys/Girls Clubs.

15 (2) Division of Mental Health, Developmental Disabilities, and Substance
16 Abuse Services programs and services:

- 17 a. Substance Abuse Services for Juveniles.
- 18 b. Residential Substance Abuse Services for Women and
19 Children.

20 (3) Division of Public Health programs and services:

- 21 a. Teen Pregnancy Prevention Activities.
- 22 b. Out-of-Wedlock Births.
- 23 c. School Health Program.
- 24 d. High-Risk Maternity Clinic Services.
- 25 e. Perinatal Education and Training.
- 26 f. Public Information and Education.
- 27 g. Technical Assistance to Local Health Departments.

28 (4) Other divisions, services, and programs:

- 29 a. Family Support Services.
- 30 b. Family Resource Centers.
- 31 c. Independent Living Services.
- 32 d. Residential schools and facilities.
- 33 e. Other programs, services, or contracts that provide education
34 and awareness services to children and families.

35 Other State agencies, including the Department of Public Instruction, the
36 Department of Juvenile Justice and Delinquency Prevention, and the Department of
37 Administration, shall ensure the incorporation of developmentally appropriate
38 HIV/AIDS education, awareness, and outreach information into their programs.

39 The Department shall report on the implementation of this subsection not
40 later than May 1, 2003, to the Senate Appropriations Committee on Health and Human
41 Services, the House of Representatives Appropriations Subcommittee on Health and
42 Human Services, and the Fiscal Research Division.

43 **SECTION 5.1.(u)** The sum of four hundred thirty-eight thousand dollars
44 (\$438,000) appropriated in this section in the TANF Block Grant to the Department of
45 Health and Human Services shall be used to purchase services at maternity homes
46 throughout the State.
