HOUSE FINANCE

COMMITTEE MINUTES

House Committee on Finance

Minutes
February 27, 2003

The House Committee on Finance met on Thursday, February 27, 2003, at 8:30 A.M. in Room 544 of the Legislative Office Building. The following members were present: Chairpersons Allen, Howard, Luebke, McComas, Miner and Wainwright; Vice-Chairs Alexander, Gibson and Hill; and Representatives Blackwood, Bordsen, Capps, Carney, Creech, Ellis, Glazier, Hackney, Holliman, Jones, Lewis, McGee, Munford, Rayfield, Ross, Setzer, Weiss, Wilson and Womble. Also present were Sergeant-at-Arms staff Bob Fowler, Dusty Rhoades, Bill Freeman and Walter Spell. Staff persons present included Cindy Avrette, Richard Bostic, David Crotts, Trina Griffin, Mary Shuping, and Martha Walston; and Committee Assistant Nancy Brantley. The Agenda and Visitor Registration Sheet are attached and incorporated into the minutes as Attachments 1 and 2.

Chairman Allen opened the meeting and welcomed Pages Jordon Cline from Davie County, sponsored by Representative Howard, and Kyle Hensley from Madison County, sponsored by Representative Rapp.

Chairman Allen greeted the new members on the Finance Committee and had each member, old and new, introduce him/herself.

State Revenue Sources. Richard Bostic, Fiscal Analyst in the Fiscal Research Division, made a power point presentation on State Revenue Sources (see Attachment 3) and answered questions posed by the members.

2002 Tax Law Changes. Cindy Avrette, staff attorney in the Research Division, then made a presentation on the 2002 Tax Law Changes and the Revenue Laws Study Committee Report to the 2003 General Assembly (see Attachments 4 and 5). Because of the time constraints, Ms. Avrette was asked to return to the next meeting of the Committee to continue her presentation and answer questions from the Committee members.

Chairman Allen adjourned the meeting at 9:50 A.M.

Respectfully submitted,

Representative Gordon P. Allen
Presiding Chair

Nancy G. Brantley
Committee Assistant

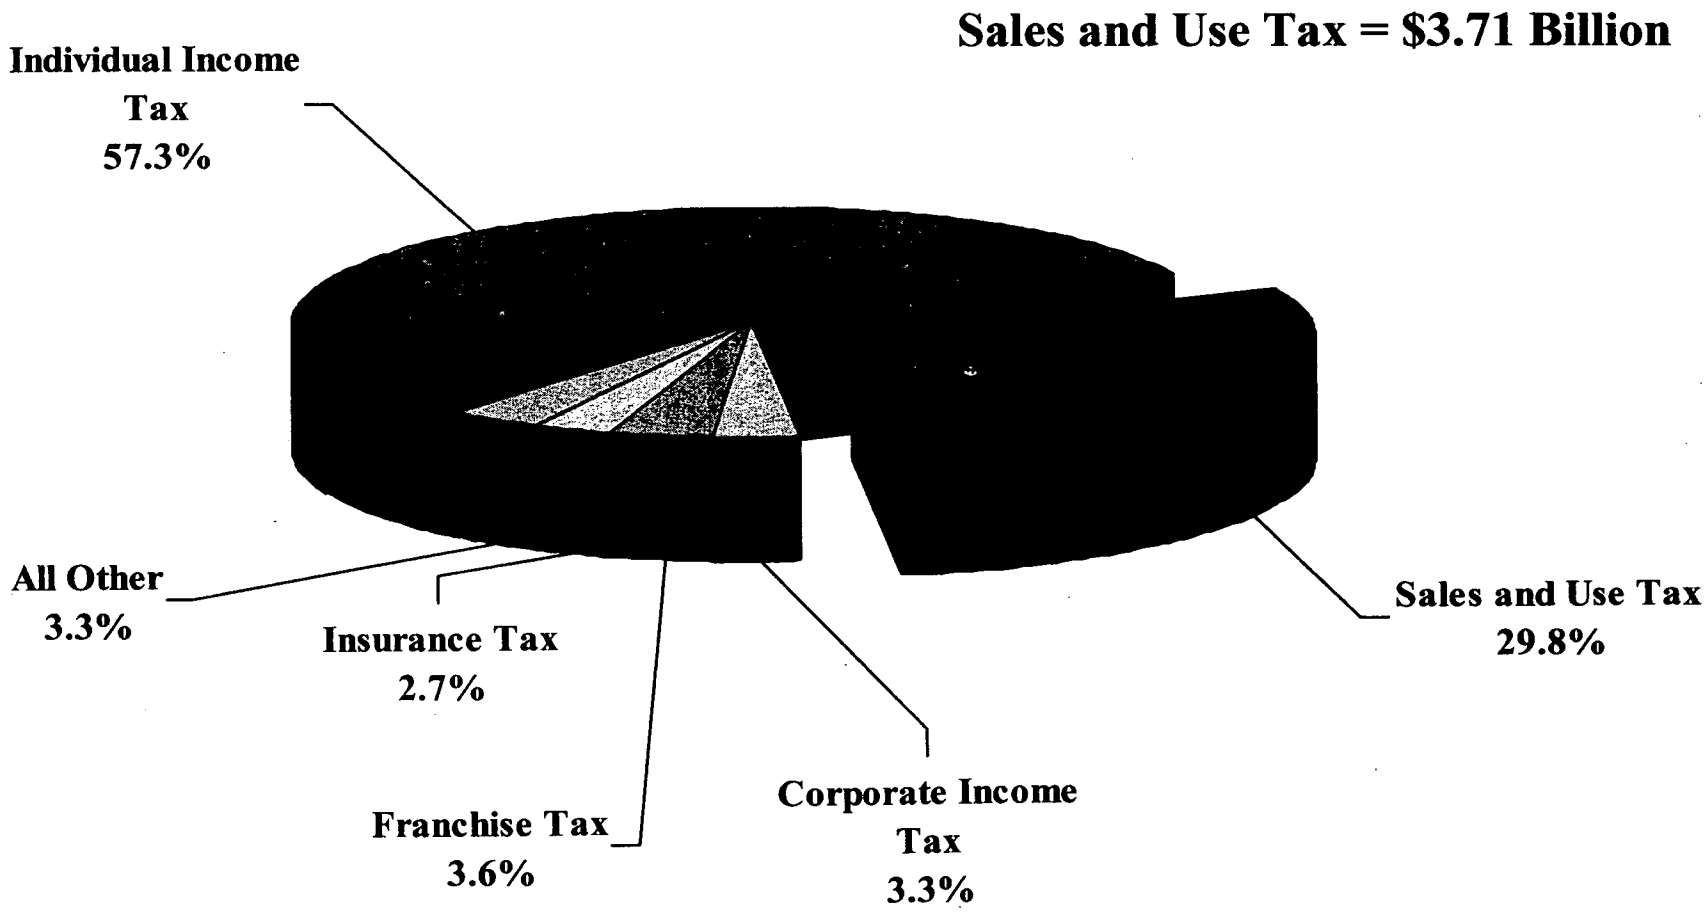
	3,087,645	513,177	3,600,822

General Fund Revenue
Major Tax Sources (FY 2001-02)



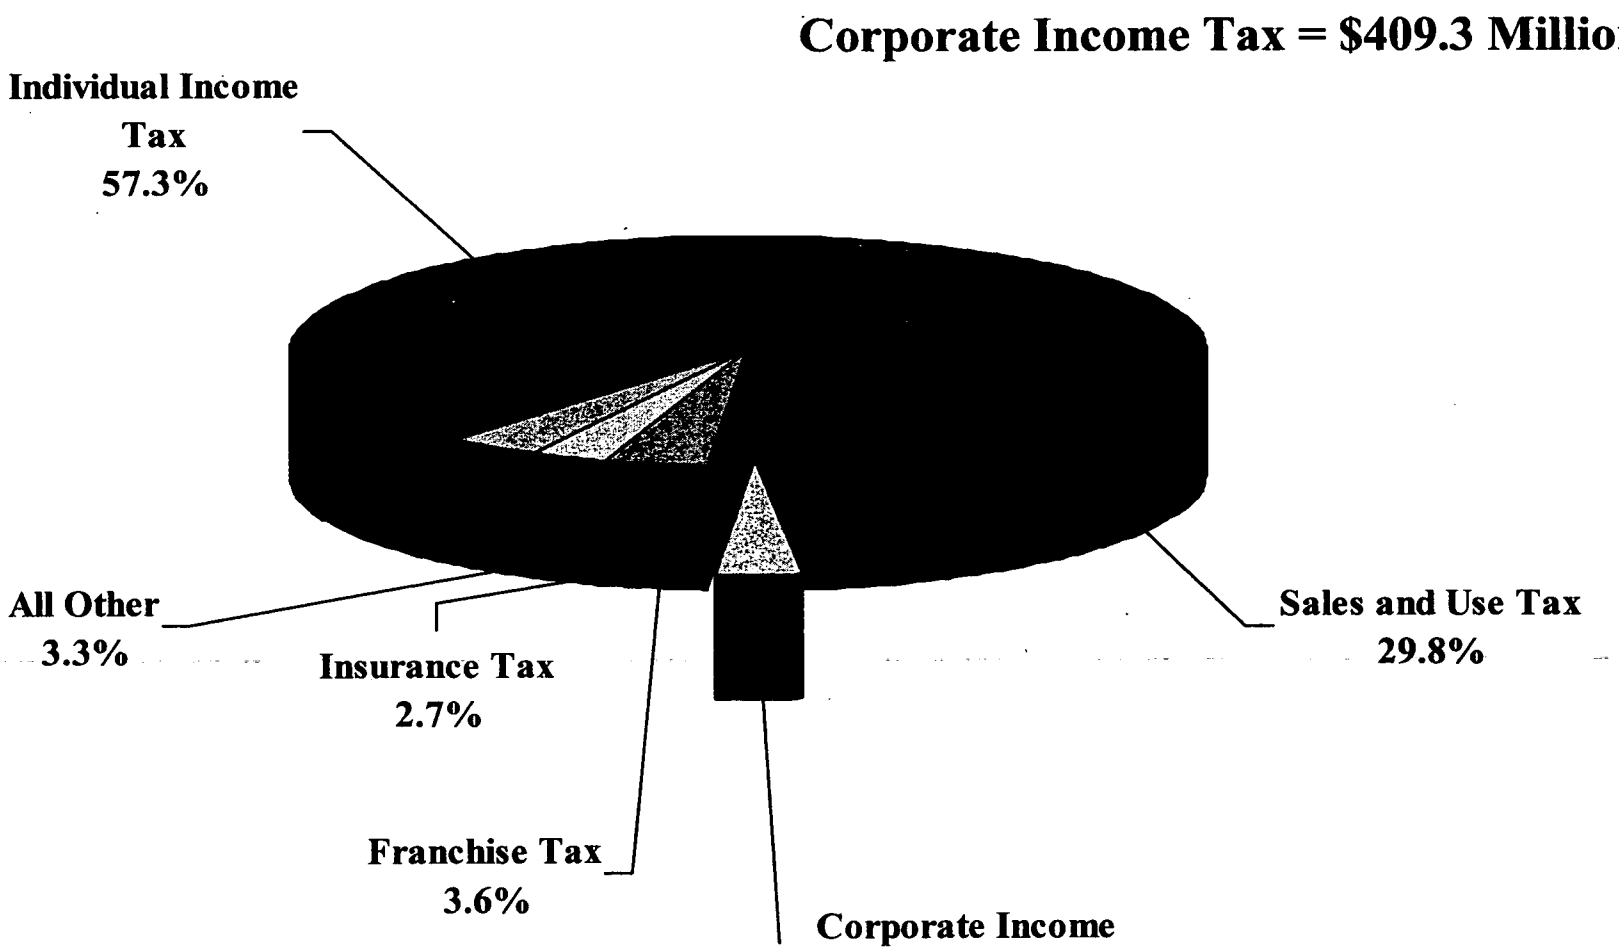
Sales and Use Tax

- Imposed since 1933
- Base state rate is 4.5% (4% after July 1, 2003); local rate is 3% in Meck., 2.5% in 87 counties, and 2% in 12 counties (6 more go to 2.5% on 7/1/03)
- Tax levied on purchases of tangible commodities, room and cottage rentals, and laundry and cleaning services
- Aircraft, boats, railroad cars or locomotives taxed at 3%, $1,500 maximum
- Motor vehicles taxed under Highway Use Tax

Sales and Use Tax (continued)

- Manufactured homes taxed at 2%, $300 maximum
- 1% tax, $80 cap on machinery and equipment
- 6.0% tax on all telecommunications; prepaid phone cards taxed at point of sale
- 2.83% tax on electricity to farmers and dry cleaners; rate based on megawatts used for manufacturers (.17% to 2.25%)
- Refund tax to nonprofits; schools, local govts
- Exemption of food for home consumption - 2%

General Fund Revenue
Major Tax Sources (FY 2001-02)



Corporate Income Tax

- Imposed since 1921
- All domestic and foreign corporations doing business in North Carolina are subject to the tax
- Doing business in North Carolina
  - Maintenance of office or place of business
  - Maintenance of inventory of merchandise for sale, distribution or manufacture
  - Selling of merchandise to customers in North Carolina from company owned vehicle

Corporate Income Tax (continued)

- Rendering of service to clients by agents or employees of a foreign corporation
- Owning, renting or operating business or income producing property

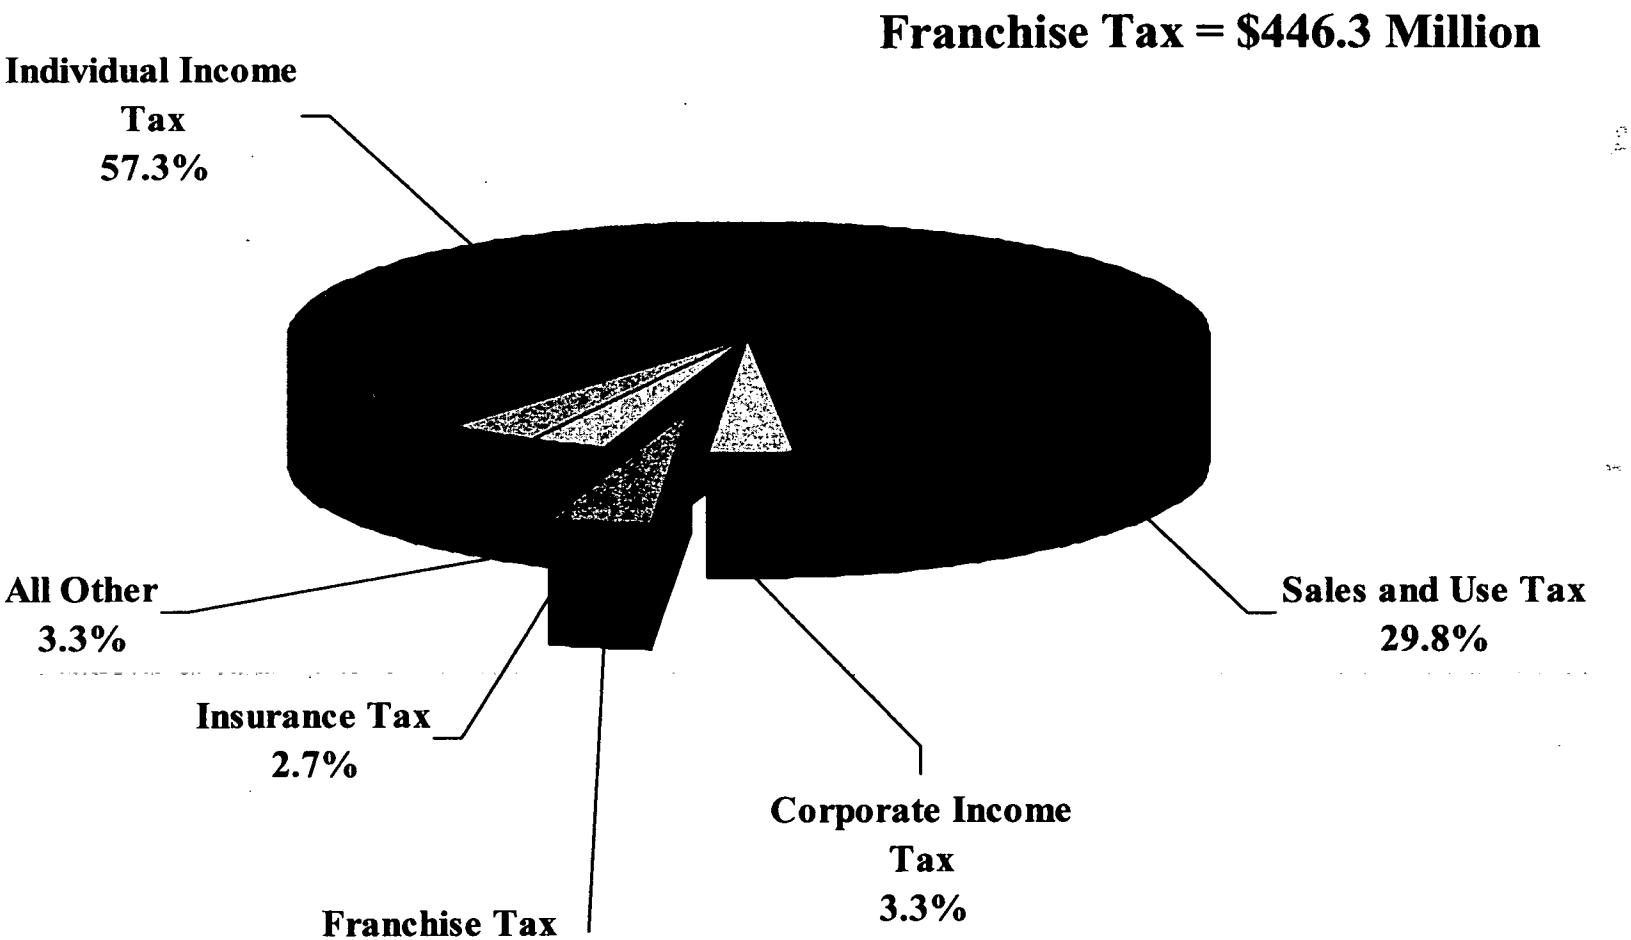
•Exempt -

- S corporations
- Insurance Companies (subject to gross premium tax)
- Telephone and electric membership corporations
- Cooperative board without capital stocks
- Nonprofits

Corporate Income Tax (continued)

- Tax on state net income = federal taxable income
- Tax rate 6.9%
- Tax credits include low income housing, state port usage, Bill Lee Act tax incentives for new and expanding businesses, and cigarette manufacturing for export
- Apportionment formula - property plus payroll plus twice the sales divided by four
- New corporate incentive in 2003 is job development investment grants based on percentage of personal income tax withholdings of employees hired in new facility

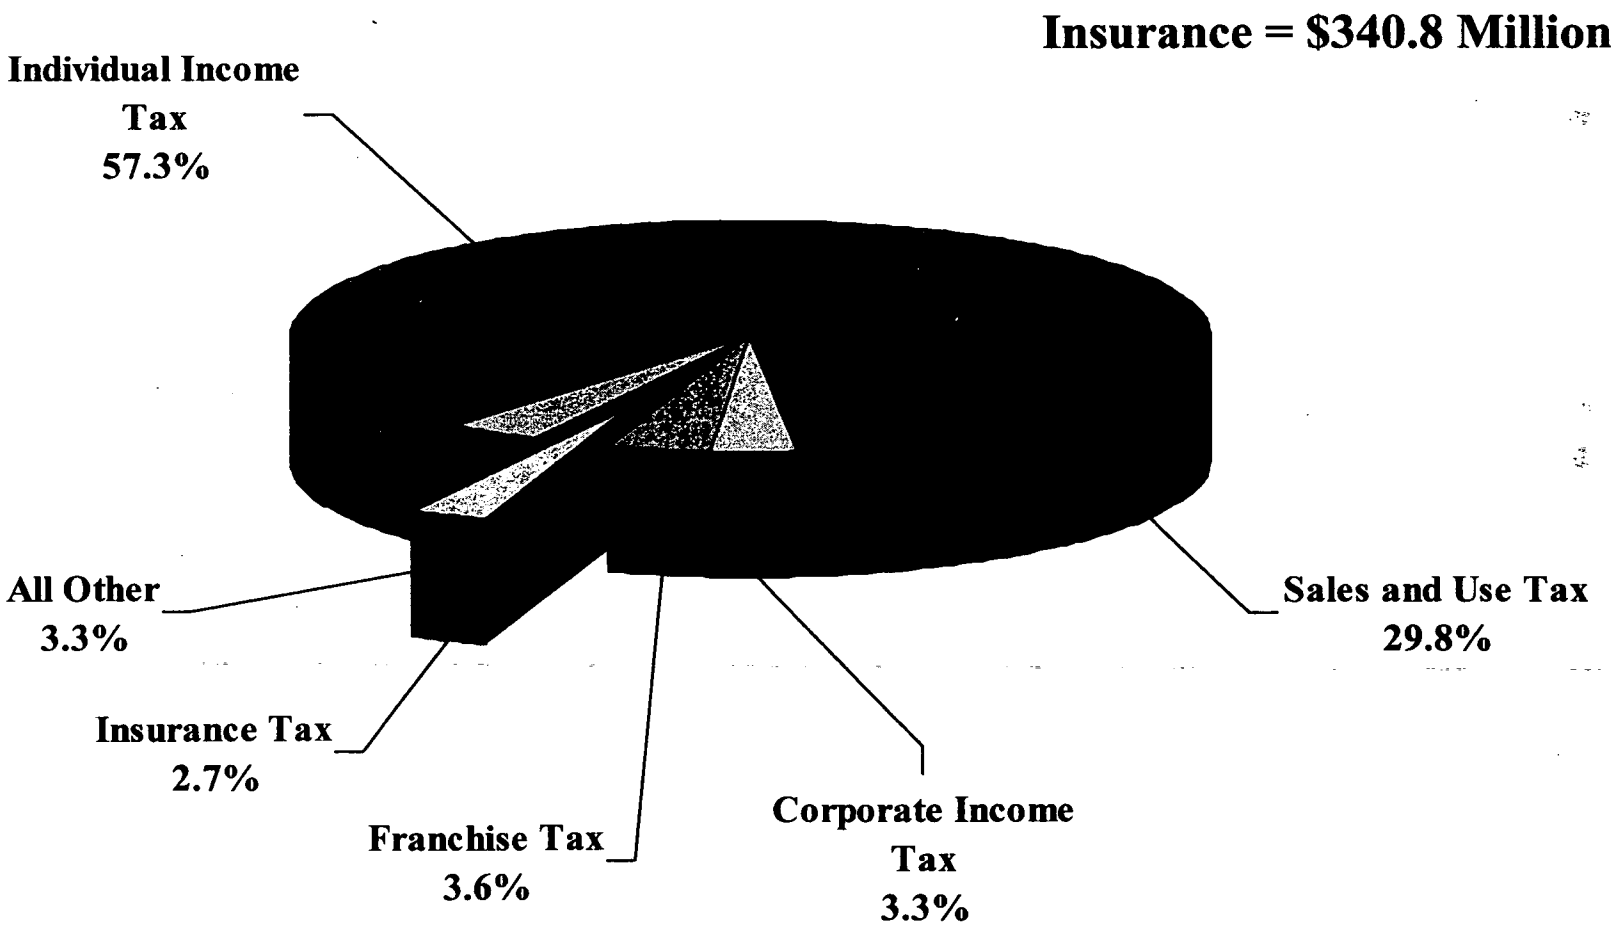
General Fund Revenue
Major Tax Sources (FY 2001-02)



Franchise Tax

- Privilege or excise tax imposed on domestic and foreign corporations for the privilege of doing business and existing as a corporation under North Carolina law
- The franchise tax is measured by whichever of the following bases is greatest in amount:
  - (1) capital stock, surplus and undivided profits allocated to North Carolina
  - (2) 55% of the appraised value of real and tangible property or
  - (3) investment in tangible property in North Carolina
- Tax is $1.50 per $1,000; Minimum tax is $35
- Closed loophole in 2001 and 2002 on the transfer of corporate assets to wholly owned LLC subsidiaries

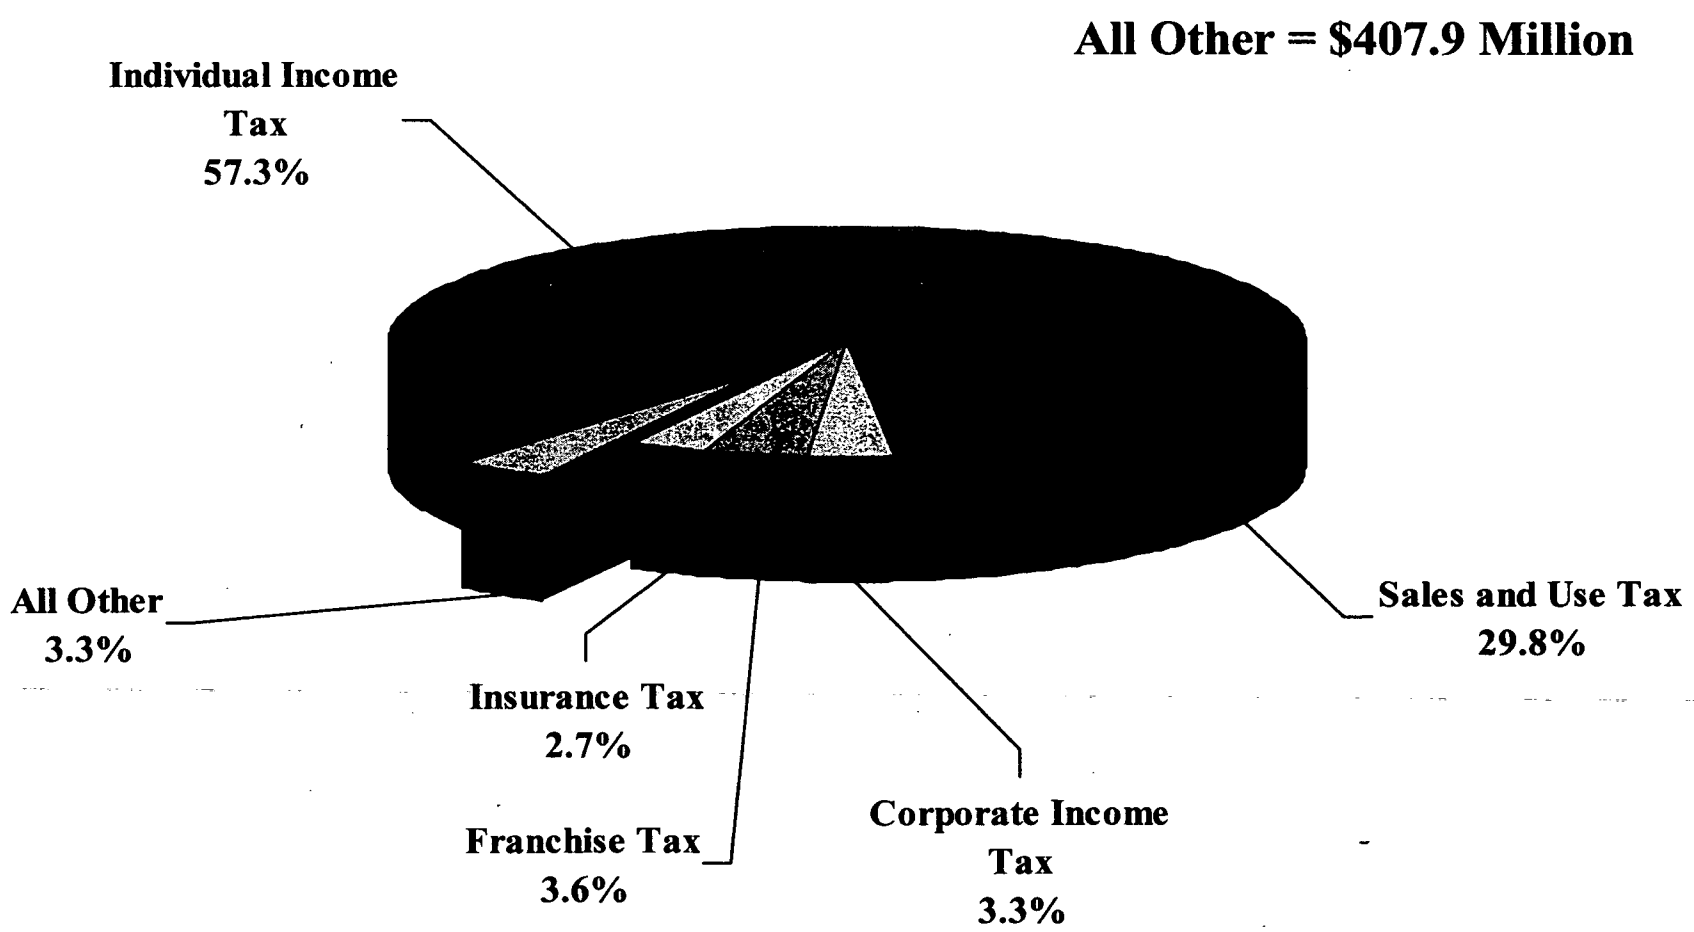
General Fund Revenue
Major Tax Sources (FY 2001-02)



Insurance Premiums Tax

- Tax on gross premiums of life insurance policies covering North Carolina residents and gross premiums of other insurance policies covering risks in North Carolina
- 2.5% tax rate on Workers' Compensation insurance
- 1% Blue Cross Blue Shield and Delta Dental
- 1.9% on annuities and all other insurance contracts
- Additional 1.33% on fire and lightning coverage (except marine and auto)

General Fund Revenue
Major Tax Sources (FY 2001-02)



Gift Tax

- Spouse is exempt
- Three classes of rates

A = Lineal (child, stepchild, adopted child)	1% to 12%
B = Brother, Sister, Aunt, Uncle	4% to 16%
C = All Others	8% to 17%

- $11,000 exclusion annually (indexed to federal)
- $100,000 per donor lifetime exemption
- $13.4 million in FY 2001-02

Alcoholic Beverage Tax

• Spirituous liquors*	25% of retail price
• Malt beverage	53.177¢ per gallon
• Fortified wines	24¢ per liter
• Unfortified wines	21¢ per liter
• $174.6 million in FY 2001-02	

*Effective December 1, 2001, also pay 6% state sales tax

Cigarette and Tobacco Products Tax

- 5¢ per package of 20 (2 1/2 mills per cigarette)
- Third lowest tax rate behind Virginia (2.5¢) and Kentucky (3¢)
- Other tobacco products = 2% of cost price of products
- $41.5 million in FY 2001-02

Realty Transfer Tax

- $1 is levied on each $500 of property conveyed to another person
- Exemptions for transfers (1) by operation of law, (2) by lease for a term of years, (3) by will, (4) by intestacy, (5) by gift, (6) by merger, conversion, or consolidation, (7) by instruments securing indebtedness, (8) by governmental unit, or (9) where no consideration in property or money is due or paid by transferee to transferor
- $35.3 million in FY 2001-02 (75% to Parks and Recreation Trust Fund and 25% to Natural Heritage Trust Fund)

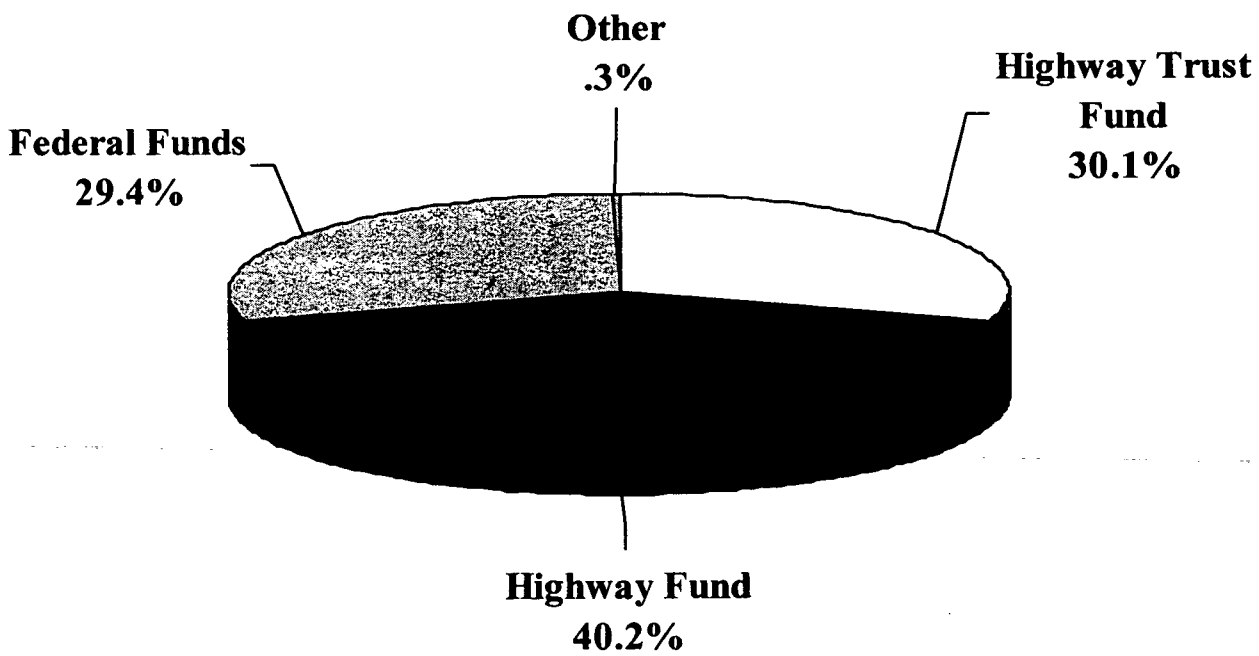
Inheritance (Estate Tax) ← pick-up tax

- Repealed effective January 1, 1999
- Estate tax imposed in amount equal to federal state death tax credit
- In 2002, conformed to federal exemption limits but not federal phase out of the tax until January 1, 2004
- $104.8 million in FY 2001-02

need to make decision this yr. on this - feds. phasing out.

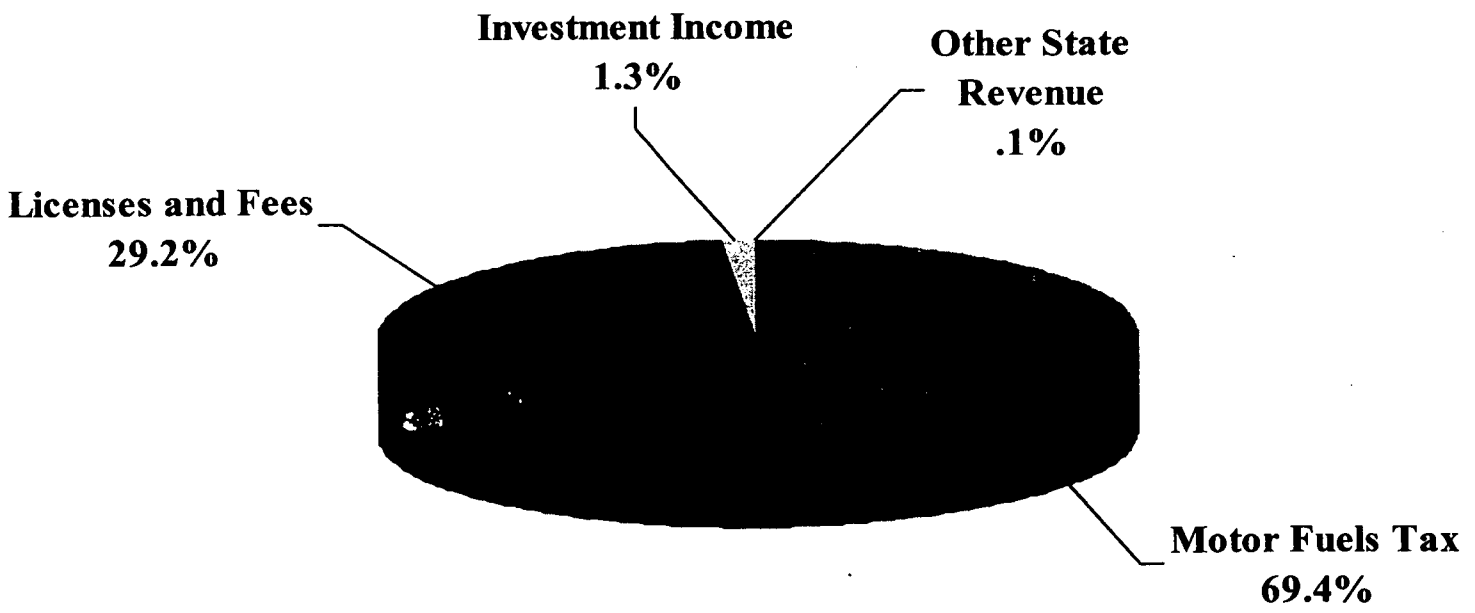
Transportation Funds Categories (FY 2001-02)

$3.2 Billion



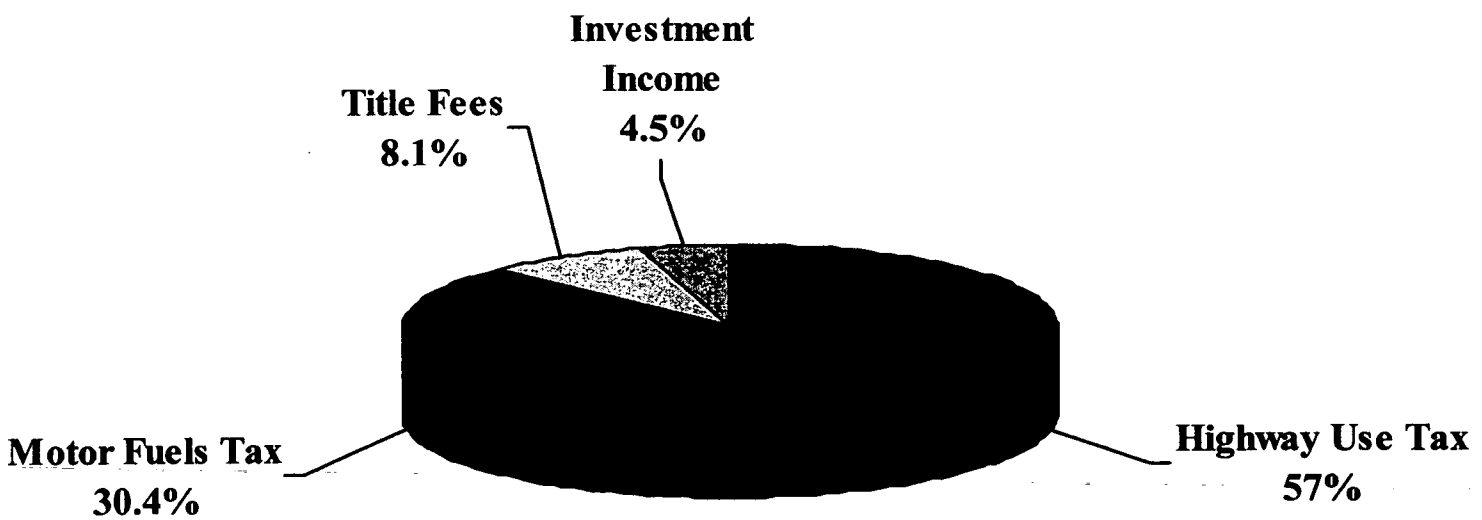
Highway Fund Sources (FY 2001-02)

$1.3 Billion



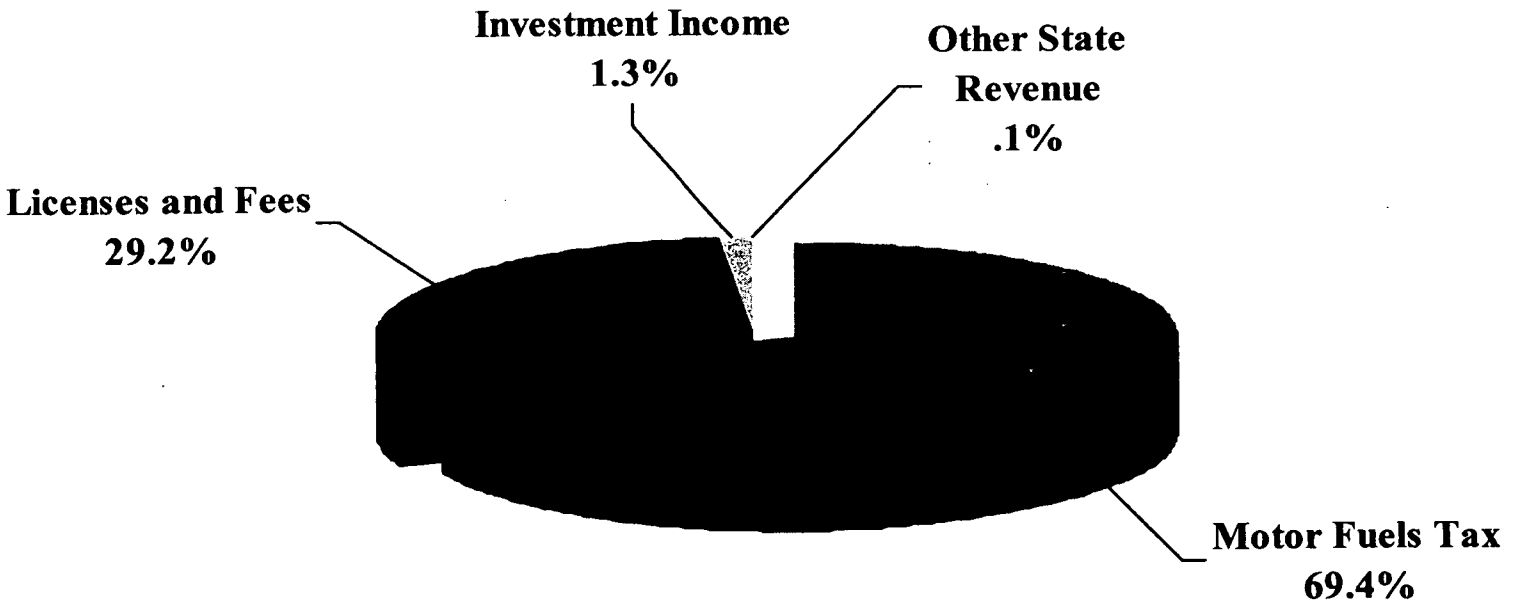
Highway Trust Fund Sources (FY 2001-02)

$974.1 Million



Highway Fund Sources (FY 2001-02)

Motor Fuels Tax = $901 Million

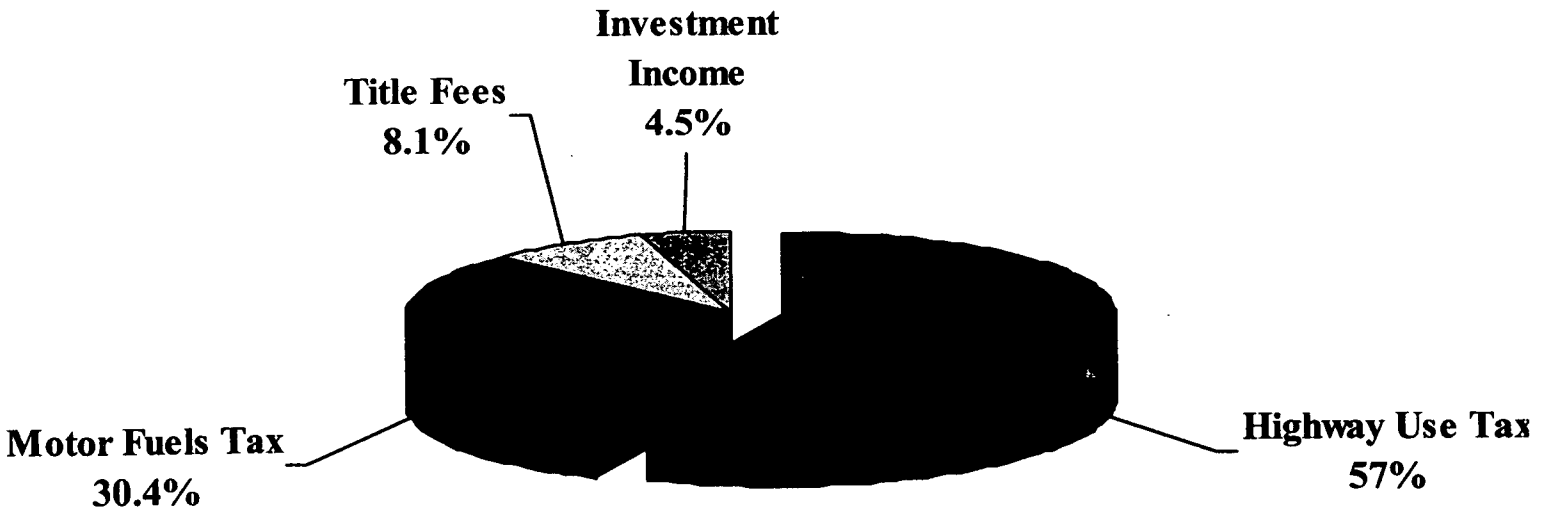


Motor Fuel Excise Tax

- Imposed on gasoline, kerosene, diesel, ethanol
- Taxed at the oil terminal rack
- 17.5¢/gallon plus the greater of 7% of the average wholesale price of motor fuel or 3.5¢/gallon
- Current tax rate is 23.4¢
- 1 3/4 cents goes to cities (Powell Bill)
- Three-fourths of tax goes to Highway Fund and one-fourth to Highway Trust Fund

Highway Trust Fund Sources (FY 2001-02)

Highway Use Tax = $555.3 Million



Highway Use Tax

- 1989 - replaced 2% sales tax on vehicle
- 3% of the retail value of a motor vehicle
- $1,000 cap on Class A and B commercial vehicles
- $1,500 cap on recreational vehicles
- Paid when vehicle is purchased or titled in North Carolina
- $170 million transferred each year to the General Fund (additional $205 million transferred in FY 02-03)

2002 Tax Law Changes

Remove Scrap Tire Tax Sunset

Session Law	Bill #	Sponsor
S.L. 2002-10	HB 1578	Representative Gibson

AN ACT TO REMOVE THE SUNSET ON THE SCRAP TIRE DISPOSAL TAX.

OVERVIEW: This act removes the sunset on a 1993 provision that increased the scrap tire disposal tax from 1% to 2% for tires for car, vans, and pick-up trucks, as recommended by the Environmental Review Commission.

FISCAL IMPACT: Because none of the tax proceeds goes to the General Fund, this act has no impact on the General Fund. Removing the sunset is expected to generate about $5.35 million annually that would have otherwise been eliminated by the sunset on the higher tax rate. The tax proceeds are distributed among the Scrap Tire Disposal Account, the Solid Waste Management Trust Account, and counties.

EFFECTIVE DATE: June 27, 2002.

ANALYSIS: The scrap tire disposal tax was enacted in 1989. It applies to tires sold at retail and to tires sold for placement on vehicles to be sold or leased at retail. In 1993, the tax rate on tires with a bead diameter of less than 20 inches was increased from 1% to 2%. Bead diameter is the width of the inside opening of the tire. Tires for cars, vans, and pick-up trucks have a bead diameter of less than 20 inches.

The increase in the tax rate for these smaller tires was set to sunset on June 30, 2002, which would have reduced the rate back to 1%. This act deleted the sunset so the tax rate will remain at 2% on tires with a bead width of less than 20 inches.

The net proceeds of the scrap tire disposal tax are distributed as follows: 27% to the Scrap Tire Disposal Account[1], 5% to the Solid Waste Management Trust Fund, and 68% to the counties on a per capita basis. Counties may use the proceeds of the scrap tire disposal tax distributed to them only for the disposal of scrap tires or for the abatement of nuisance tire collection sites. The Department of Environment and Natural Resources may use up to 50% of the revenue in the Scrap Tire Disposal Account for grants to local governments to assist in the disposal of scrap tires and may use up to 40% of the amount in the Account for grants to encourage the use of processed scrap tire materials. The remaining funds in the Account

[1] Section 2.2(j) of the Current Operations and Capital Improvement Appropriations Act of 2001 provided that the net proceeds of the Scrap Tire Disposal tax collected in 2001-02 would be credited to the General Fund instead of the Scrap Tire Disposal Account.

may be used for assistance to local governments in managing scrap tire programs, and to clean up nuisance scrap tire collection sites if no other funds are available for that purpose. The Department of Environment and Natural Resources must report to the Environmental Review Commission each year on the balances in the Account and the use of the money in the Account. The money in the Solid Waste Management Trust Fund is used to fund activities of the Department of Environment and Natural Resources to promote waste reduction and recycling, to fund research on the solid waste stream in North Carolina, to fund activities related to the development of secondary materials markets, to fund demonstration projects, and to fund research by in-State colleges and universities.

Conform Mobile Telecommunications Sourcing

Session Law:	*Bill #*	*Sponsor*
S.L. 2002-16	HB 1521	Representative Allen

AN ACT TO CONFORM SOURCING OF MOBILE TELECOMMUNICATIONS SERVICES TO THE FEDERAL MOBILE TELECOMMUNICATIONS SOURCING ACT AND TO CODIFY THE SOURCING PRINCIPLES FOR OTHER TELECOMMUNICATIONS SERVICES.

OVERVIEW: This act conforms State sales tax law to the federal Mobile Telecommunications Sourcing Act and codifies the sourcing rules for other types of telecommunications, as recommended by the Revenue Laws Study Committee.

FISCAL IMPACT: While this legislation may redistribute tax revenue between jurisdictions because of changes in sourcing, the total amount available to local governments will not change.

EFFECTIVE DATE: Most of the act became effective for taxable services reflected on bills dated on or after August 1, 2002. This effective date corresponds with the effective date of the federal Mobile Telecommunications Sourcing Act. Two provisions are delayed until January 1, 2004: a new sourcing principle for private lines and a requirement that postpaid calling service be sourced based on the origination point of the signal.

ANALYSIS:

Prior Law: In 2001, the General Assembly simplified the taxation of telecommunications services by providing one tax at one rate for all telecommunication services, including interstate telecommunications service. Under the law, mobile telecommunications service is considered to be taxable in this State if the customer's service address is in this State and the call originates or terminates in this State. However, under the federal Mobile Telecommunications Act, mobile telecommunications service is taxable by the state of the customer's place of primary use, regardless of whether or not the call originates or terminates in the state. A mobile customer's service address and place of primary use are the same: the residential street address or the primary business street

address of the customer that is within the licensed service area of the service provider. Therefore, it is the requirement that the call originate or terminate in the State that must be changed to conform to the federal mobile telecommunications sourcing rules.

Background. "Sourcing" is the determination of the jurisdiction within which a transaction is considered to take place for tax purposes. Jurisdictions that tax interstate and international telecommunications generally follow the "*Goldberg* Rule", which is based on an Illinois tax that was upheld by the U.S. Supreme court in *Goldberg v Sweet*, 488 U.S. 252 (1989). Under the *Goldberg* Rule a jurisdiction may tax a telephone call if the call meets one of the following two criteria:

- It both originates and terminates in that jurisdiction.
- It originates *or* terminates in that jurisdiction *and* is charged to a service address in that jurisdiction.

Because of the complexity of identifying the source of mobile telecommunications, federal legislation was enacted effective August 1, 2002, that sources mobile telecommunications transactions at the place of primary use, which is the same as the service address – the residential address or business premises of the purchaser.

Under the federal legislation, states may furnish service providers with a database[2] matching street addresses with taxing jurisdictions.[3] Service providers would be held harmless for any errors resulting from their use of the database. If a database is not provided for a state, then the service provider may determine the appropriate taxing jurisdiction by using an enhanced zip code[4] to assign each street address to a specific taxing jurisdiction in that state. Service providers would be held harmless from any tax liability that otherwise would be incurred solely as a result of an assignment of a street address to an incorrect taxing jurisdiction under this method. The accuracy of the method used is important to protect the tax base of local taxing jurisdictions. The hold harmless provision is important to service providers who provide service in a state with multiple taxing jurisdictions.

The Streamlined Sales Tax Project is working with the telecommunications industry on uniform provisions for sourcing as well as refund limitation provisions based upon the hold harmless provisions in the federal Mobile Telecommunications Sourcing Act. The Streamlined Sales Tax Project and the implementing states[5] have adopted principles for sourcing. The principles do not differ from North Carolina's current sourcing principles. This act codifies those principles. The Streamlined Sales Tax Project has not yet completed its work on the refund limitation provisions. Since North Carolina does not have multiple

---

[2] The Multi-State Tax Commission and the Federation of Tax Administrators are currently involved in a project to specify the format of the database.

[3] Some states allow local governments to impose a tax on telecommunications services, resulting in multiple taxing jurisdictions within a state.

[4] The level of accuracy for the nine-digit zip code ranges from 85% to 99%. A more accurate system may be developed using a geographic mapping system. The federal law gives each state the ability to develop a more accurate system if it so chooses.

[5] There are 27 states that have enacted legislation based on either the Uniform Sales and Use Tax Administration Act or the Simplified Sales and Use Tax Administration Act: AR, FL, IL, IN, KY, LA, ME, MD, MI, MN, NE, NV, NJ, NC, ND, OH, OK, RI, SD, TN, TX, UT, WA, WI, WV, WY, and the District of Columbia.

taxing jurisdictions[6], it does not currently need these provisions. Therefore, this act does not include any provisions on this issue.

SECTION-BY-SECTION ANALYSIS: This act conforms North Carolina's sourcing of mobile telecommunications to the federal Mobile Telecommunications Sourcing Act and codifies the sourcing principles adopted by the Streamlined Sales Tax Project and the 27 implementing states, as follows:

Sections 1, 3, and 15: Replace the term "service address" and "billing address" with the term "place of primary use" because that is the terminology used in the federal Mobile Telecommunications Sourcing Act.

Sections 2, 8, 12, and 13: Change the term "prepaid telephone calling arrangement" to the term "prepaid telephone calling service" so that the terminology is consistent with the other forms of telecommunication services.

Sections 4 and 5: Prepaid telephone calling services are taxed as tangible personal property, not as a telecommunications service. Section 4 removes the sourcing language from the statute that sets the sales tax rates and Section 5 modifies the sourcing principles that apply to tangible personal property to accommodate the taxation of prepaid telephone calling services.

Section 6: Deletes the sentence that sources mobile telecommunications based on the call originating or terminating in this State because it conflicts with the sourcing principle in the federal Mobile Telecommunications Sourcing Act. It also specifies that mobile telecommunications services are taxed in accordance with federal law. This reference alerts the reader that there is applicable federal law on this issue.

Sections 7 and 11: Under the federal Mobile Telecommunications Sourcing Act and the Streamlined Sales Tax Project, telecommunications service is sourced based on the type of service provided rather than the type of call. These sections define the different types of services and repeal the terms associated with the types of calls.

Sections 9 and 10: Set forth the mobile telecommunications sourcing principle in the federal Mobile Telecommunications Sourcing Act, and codify the principles currently used by the State to source other telecommunications services. Section 10 rewrites the sourcing principles for private telecommunications service in a more understandable format and adds a sourcing principle that is not currently applicable to private lines in the State, but may be

[6] North Carolina distributes a portion of the State-imposed telecommunications tax to the cities.

applicable in the future. The principles codified are the same principles adopted by the Streamlined Sales Tax Project and the implementing states in March of 2002. Under the act, at the request of the telecommunications industry, the new sourcing principle applicable to private telecommunications service does not become effective until January 1, 2004.

Sections 9 and 14: Under the Streamlined Sales Tax Project, postpaid calling service will be sourced based on the origination point of the telecommunications signal as first identified by the seller's telecommunications system. However, not every company in the telecommunications industry has the capability to determine the origination point of the signal. The act gives the seller two options to source postpaid calling service until 2004; beginning in 2004, the seller must source based on the origination point of the telecommunications signal.

Certain Counties Delinquent Taxes

Session Law	Bill #	Sponsor(s)
S.L. 2002-51	HB 1533	Representative Hunter

AN ACT TO AUTHORIZE CERTAIN COUNTIES TO REQUIRE THE PAYMENT OF DELINQUENT PROPERTY TAXES BEFORE RECORDING DEEDS CONVEYING PROPERTY AND TO MODIFY THE TIMETABLE FOR STOKES COUNTY OR ANY OF ITS MUNICIPALITIES TO ADOPT A SCHEDULE OF DISCOUNTS FOR PREPAYMENT OF PROPERTY TAXES.

OVERVIEW: S.L. 2002-51 authorizes the county commissioners in Bertie, Clay, Durham, Henderson, Hertford, Macon, Northampton, Polk, Rutherford, and Transylvania Counties to require the register of deeds to refuse to register a deed unless the county tax collector has certified that no delinquent taxes are due on the property. In addition, this act allows the governing body of Stokes County or any of its municipalities to provide a schedule of discounts for property taxes paid prior to November 1, 2002.

FISCAL IMPACT: This act has no impact on the General Fund.

EFFECTIVE DATE: This act became effective when it became law, July 30, 2002.

ANALYSIS: Since 1963, the General Assembly has prohibited the register of deeds in several counties and municipalities from recording deeds unless the tax collector certifies that no delinquent taxes are due: Avery County (1963); Mitchell County (1987); Ashe County (1993); the Towns of Newland and Spruce Pine and Alleghany County (1997); the Town of Banner Elk (1998); and the Town of Bakersville (1999).

In 2001, the General Assembly gave the county commissioners in 35 counties the authority to adopt a resolution requiring the county tax collector to certify that no delinquent taxes the collector is charged to collect are due on the property before a deed transferring the property can be recorded. S.L. 2001-464 gave this authority to the following 25 counties: Alleghany, Anson, Beaufort, Cabarrus, Camden, Cherokee, Chowan, Currituck, Forsyth, Graham, Granville, Harnett, Haywood, Jackson, Lee, Madison, Montgomery, Pasquotank, Perquimans, Pitt, Stanley, Swain, Vance, Warren, and Yadkin Counties. S.L. 2001-513 gave this authority to the following 10 counties: Carteret, Cleveland, Davidson, Gaston, Iredell, Martin, Person, Rockingham, Rowan, and Washington Counties. Unlike the previous local acts, the authority given by these two 2001 acts is permissive. To use this collection tool, the board of county commissioners must adopt a resolution on the matter. The resolution may describe the form the certification must take.

S.L. 2002-51 extends to the following 10 counties the permissive authority given to the 35 counties in 2001: Bertie, Clay, Durham, Henderson, Hertford, Macon, Northampton, Polk, Rutherford, and Transylvania Counties.

In addition, S.L. 2002-51 allows Stokes County and it municipalities to institute, without the approval of the Department of Revenue, a schedule of discounts to be applied to property taxes paid prior to November 1, 2002. The governing body that adopts the resolution must submit a certified copy to the Department of Revenue and must publish the discount schedule at least once in a newspaper of general circulation in the taxing unit. In general, under G.S. 105-360(c), a county or municipality that levies a property tax may adopt a resolution or ordinance to establish a schedule of discounts for taxes paid prior to the due date. In order to exercise this authority, the county or municipality must 1) adopt the resolution or ordinance specifying the schedule of discounts prior to May 1, 2) submit the resolution or ordinance to the Department of Revenue for approval, and 3) upon approval of the resolution or ordinance, publish the discount schedule at least once in a newspaper of general circulation in the taxing unit.

Revenue Laws Technical Changes

Session Law	Bill #	Sponsor
S.L. 2002-72	SB 1160	Senator Hartsell

AN ACT TO MAKE TECHNICAL AND CLARIFYING CHANGES TO THE REVENUE LAWS AND RELATED STATUTES AND TO PROVIDE A ONE-TIME EXTENSION TO THE TIME PERIOD IN WHICH A TAXPAYER MAY SIGN A LETTER OF COMMITMENT WITH THE DEPARTMENT OF COMMERCE TO QUALIFY FOR A LOWER TIER DESIGNATION.

OVERVIEW: Senate Bill 1160 makes numerous technical and clarifying changes to the revenue laws and related statutes. It also makes one substantive change. The original bill was a recommendation of the Revenue Laws Study Committee.

FISCAL IMPACT: Section 1 of this act, which allows a one-time exception to the requirement that a letter of commitment be signed before year's end, has an annual cost to the General Fund of $725,000 through the 2006-2007 fiscal year and an annual cost of $25,000 for three years thereafter. The remainder of this act has no fiscal impact.

EFFECTIVE DATE: Except for Section 9 of the bill, which conforms the payment date for the insurance regulatory charge on HMOs to the date they file their premium tax returns and which becomes effective for taxable years beginning on or after January 1, 2003, this act became effective when it became law on August 12, 2002.

ANALYSIS:

SUBSTANTIVE CHANGE: Section 1 of the bill was introduced by Senator Soles as Senate Bill 1344. It allows a taxpayer that signed a letter of commitment with the Department of Commerce on or before February 28, 2002, to calculate its Bill Lee jobs creation tax credit and machinery and equipment investment tax credit based on the location's enterprise tier and development zone designation for 2001 rather than 2002. This change would benefit taxpayers creating jobs or making eligible investments in areas whose tier designations increased for the calendar year 2002.

Under the Bill Lee Act, all counties are divided into five enterprise tiers, ranked by economic distress as measured by a formula that combines unemployment, per capita income, and population growth. The Department of Commerce must designate the counties' tier designations for the following year on or before December 31 of each year, based on the most recent data available. The Department of Commerce did not make the counties' tier designations for the 2002 calendar year until April 2002. It appears some taxpayers signed letters of commitment by February 28, 2002, under the belief they would be able to calculate the credit for which they qualified based on the location's enterprise tier designation for 2001. However, this was not possible under then existing law for locations whose tier designation changed for 2002.

Section 1 of this bill allows a taxpayer that signed a letter of commitment with the Department of Commerce during January or February 2002 for future planned expansion to calculate its Bill Lee jobs creation tax credit and investment tax credit based on the location's enterprise tier designation for 2001 rather than 2002. Because this section is permissive, its effect is to benefit taxpayers creating jobs or making eligible investments in areas whose designations increased for the calendar year 2002. The Department of Commerce reports that it has eight letters of commitment signed on or before February 28, 2002, in counties whose tier designations increased from 2001 to 2002.[7] The following chart shows the counties that will be affected by this section and the difference the section will make in the credit amounts the taxpayers qualify for:

[7] Although the bill also applies to areas designated as a development zone, it has no practical application for development zones because there were no letters of commitment signed with the Department of Commerce for a project in a development zone on or before February 28, 2002.

COUNTY[8]	# LETTERS OF COMMITMENT SIGNED BY 2/28/02	2001 TIER DESIGNATION *The credit and threshold amounts the taxpayer will receive under this section.*	2002 TIER DESIGNATION *The credit and threshold amounts the taxpayer would have received if this act had not been enacted.*
Columbus	3	Tier 1: Jobs tax credit = $12,500 Threshold amount = $0	Tier 2: Jobs tax credit = $4,000 Threshold amount = $100,000
Richmond	1	Tier 1: Jobs tax credit = $12,500 Threshold amount = $0	Tier 2: Jobs tax credit = $4,000 Threshold amount = $100,000
Montgomery	1	Tier 2: Jobs tax credit = $4,000 Threshold amount = $100,000	Tier 3: Jobs tax credit = $3,000 Threshold amount = $200,000
Cumberland	1	Tier 3: Jobs tax credit = $3,000 Threshold amount = $200,000	Tier 4: Jobs tax credit = $1,000 Threshold amount = $500,000
Franklin	2	Tier 4: Jobs tax credit = $1,000 Threshold amount = $500,000	Tier 5: Jobs tax credit = $500 Threshold amount = $1,000,000

TECHNICAL CHANGES: the Revenue Laws Study Committee recommended The Revenue Laws Technical Changes bill. The following table provides a section-by-section analysis of the technical changes.

SECTION	G.S./S.L.	EXPLANATION
2	S.L. 1967-1096, as amended by S.L. 2001-414	Corrects a grammatical error.
3	S.L. 2001-264	Clarifies S.L. 2001-264, An Act To Provide Uniform Penalties For Local Meals Taxes. That act made all local meals tax penalties uniform by applying the existing State sales and use tax penalties to meals taxes. The act was intended to improve tax administration by making uniform the tax penalties for each local meals tax. After the act became law, staff noticed that its language might not be sufficiently clear to assure that the penalties will be uniform in each jurisdiction. This section adds language to clarify that additional or higher local penalties are repealed.
4	S.L. 2001-414	Corrects an incorrect cross-reference.
5	S.L. 2001-472	Corrects a typographical error. Although Section 3(a) of S.L. 2001-427 purports to amend just subsection (a) of G.S. 105-472, it actually amends the entire statute. This section conforms the law to accurately state that it amends the entire statute.
6	G.S. 20-10.1	Updates a cross-reference to a definition.

[8] Onslow County moved from a Tier 2 county designation in 2001 to a Tier 3 county designation in 2002. However, it is not affected by this act because there were no letters of commitment signed with the Department of Commerce for a project located in that county on or before February 28, 2002.

SECTION	G.S./S.L.	EXPLANATION
7	G.S. 20-17.4	Adds a missing phrase.
8	G.S. 20-87	Restores language intended to be enacted in 2001 but omitted due to a redlining error.
9	G.S. 58-6-25	Conforms the payment date of the insurance regulatory charge on HMOs to the date they file their premiums tax return. This has no substantive effect because the dates are the same in current law.
10	105-116	Deletes an obsolete cross-reference to a tax credit that is no longer allowed against franchise tax.
11	G.S. 105-127	Repeals two obsolete subsections. These subsections exempt certain stock from property tax. All stock is now exempt from property tax under G.S. 105-275(31).
12	G.S. 105-129.4	Corrects an incorrect word.
13	G.S. 105-129.12A	Conforms terminology to a change in procedure that was enacted in 2001.
14	G.S. 105-130.5	Clarifies that the corporate income tax deduction for 911 charges applies only if the taxpayer included the charges in federal taxable income. Without this correction, there could be an unintended double deduction for these charges.
15	G.S. 105-130.34 and G.S. 105-151.12	Clarifies that the credit for conservation donations applies only if the interest in real property is donated in perpetuity. This conforms the statute to interpretations by DOR and DENR[9]. Comparable federal law requires that a donation be (1) the entire interest of the donor, (2) a remainder interest, or (3) a restriction in perpetuity. This provision was introduced as Sections 1 and 2 of Senate Bill 1252, recommended by the Environmental Review Commission.
16	G.S. 105-163.7	Repeals an obsolete subsection. The Industrial Commission receives the same information from another source now and no longer wants to get it from the Department of Revenue
17	G.S. 105-164.23	Conforms and updates language.
18	G.S. 105-164.27A	Deletes extra language intended to be deleted in 2001 but retained due to a redlining error.
19	G.S. 105-187.1, 20-4.01, 20-116, & 20-305.2	Conforms the definition of "recreational vehicle" in the highway use tax to the definition in the motor vehicles law, and eliminates inconsistent usage of the term. Also, clarifies and reorganizes the statute governing vehicle length.
20	G.S. 105-269.14	Conforms the use tax distribution percentage to reflect past and future rate changes.
21	G.S. 159I-1	Conforms the statutory short title in G.S. 159I-1 to match the title of G.S. Chapter 159I, which was amended in 2001.

[9] Under 15A NCAC 1F .0001 through .0006, DENR will certify donated property for the credit only if it provides a perpetual public benefit.

Housing Tax Credit Chngs/Estate Tax Chngs

Session Law	Bill #	Sponsor
S.L. 2002-87	SB 1416	Senator Kerr

AN ACT TO IMPROVE THE LOW-INCOME HOUSING TAX CREDIT BY MAKING IT SIMPLER AND LESS COSTLY WHILE PROVIDING THE SAME LEVEL OF INCENTIVES FOR THE CONSTRUCTION OF LOW-INCOME HOUSING AND TO MODIFY THE FORMULA FOR CALCULATING NORTH CAROLINA ESTATE TAX ON ESTATES WITH PROPERTY IN MORE THAN ONE STATE.

OVERVIEW: This act modifies the low-income housing tax credit to make it simpler and more efficient and modifies the formula for calculating estate tax on estates with property in more than one state.

FISCAL IMPACT:
The projected revenue impact of the housing tax credit changes are as follows:

FY 2004-05	- $8 million
FY 2005-06	- $9.8 million
FY 2006-07	$2.9 million
FY 2007-08	$24.5 million

The other sections of the act are assumed to have little or no impact on the General Fund.

EFFECTIVE DATE: The low-income housing tax credit changes became effective beginning with the 2002 tax year for the existing credit and in 2003 for buildings that are awarded a federal credit allocation on or after January 1, 2003. The estate tax change became effective for the estates of decedents dying on or after January 1, 2002.

ANALYSIS:
LOW-INCOME HOUSING TAX CREDIT: Congress enacted the Low Income Housing Tax Credit in 1986 to fund housing for low- and moderate-income households. Each state receives a limited amount of credit each year. The IRS allocates the per capita low-income housing tax credit to state housing agencies, such as the North Carolina Housing Financing Agency, who in turn allocate the credit to project developers who agree to lower project rents for low-income tenants. In 1999, North Carolina authorized a State income tax credit equal to a percentage of the developer's federal tax credit for low income housing constructed in North Carolina. A project developer sells the tax credits to receive funds to finance the project. Developers indicate that the State tax credit sells for no more than 45 cents on the dollar.

During the 2002 session, the General Assembly became aware of several concerns with the low-income housing tax credit:

- The sale of a dollar tax credit for less than 45 cents is an inefficient use of State tax expenditures.

- The process of selling the tax credits is complex. It involves finding investors, negotiating prices, and completing legal documents.
- The pool of investors interested in purchasing the credit is limited and is diminishing.

This act addresses these concerns in two ways:

- To address the short-term problem of utilizing the tax credits allocated to developers, the act reduces the tax basis required of a purchaser from 100% to 40%.
- To address the long-term problem of the complexity and inefficiency of the credit, the act converts the State credit, which is sold to investors, to a refundable credit, received directly by the owner and invested directly in the project.

New, Refundable Credit for Housing with Federal Allocations beginning 1/1/03: A taxpayer who is allocated a federal low-income housing tax credit is allowed a credit equal to a percentage of the development's eligible basis. Unlike the existing credit that must be taken over five years, the new refundable credit is taken in one year. The existing State credit is a percentage of the federal credit and the percentage varies depending on the tier designation of the county. The new refundable credit is a percentage of the basis for which a federal credit is allowed and the percentage varies depending on the type of development. The eligibility of a development is based upon two factors:

- Income designation of the county or city in which it is located. – The designation of a county or city as "low income", "moderate income", or "high income" is made by the North Carolina Housing Finance Agency ("HFA") in accordance with the Qualified Allocation Plan in effect as of the time the federal credit is allocated. The Qualified Allocation Plan is adopted annually. The Governor must approve it after a public hearing and publication in the North Carolina Register. A change in the income designation does not affect the developer's eligible basis for which a credit is allowed.

- Affordability requirements. – The affordability requirements are set in the statute and apply for the duration of the federal tax credit compliance period. If in any year a taxpayer fails to meet these affordability requirements, the credit is forfeited.

The chart below sets out the percentage of the developer's eligible basis for which a credit is allowed:

Type of Development	Percentage of Basis for which Credit is Allowed
• Units are in a "low income" county or city • 40% of the qualified residential units are affordable to households whose income is 50% or less of area median income	30%
• Units are in a Moderate Income county or city • 50% of the qualified residential units are affordable to households whose income is 50% or less of the area median income	20%

Type of Development	Percentage of Basis for which Credit is Allowed
• Units are in a High Income county or city • 50% of the qualified residential units are affordable to households whose income is 40% or less of the area median income	10%
• Units are in a High Income county or city • 25% of the qualified residential units are affordable to households whose income is 30% or less of the area median income	10%

Credit Election: A taxpayer entitled to the new, refundable low-income housing tax credit may elect to receive the credit in the form of either a direct tax refund or a loan generated by transferring the credit to the HFA. Neither a direct tax refund nor a loan received as a result of the transfer of the credit is considered taxable income by the State. The IRS would consider a direct tax refund taxable. A letter ruling will be submitted to the IRS to clarify whether the loan proceeds would be taxable. The initial indication is that the proceeds would not be taxable.

If a taxpayer chooses the loan method for receiving the credit, the Secretary must transfer to the HFA the amount of credit allowed the taxpayer. The HFA must loan the amount of the credit to the taxpayer on terms consistent with the Qualified Allocation Plan. The HFA is not required to make the loan until the Secretary transfers the credit amount to it.

If a taxpayer chooses the direct tax refund method for receiving the credit, the Secretary must transfer to the HFA the refundable excess of the credit allowed the taxpayer. The HFA holds the refund in escrow, with no interest accruing to the taxpayer during the escrow period. The HFA must release the refund to the taxpayer upon the occurrence of the earlier of the following:

- The HFA determines that the taxpayer has complied with the Qualified Allocation Plan and has completed at least 50% of the activities included in the development's eligible basis.
- The expiration of 30 days after the development's placed in service date.

Forfeiture: If a taxpayer fails to meet the State's affordability requirements for the duration of the federal tax credit compliance period, the State credit is forfeited. If the taxpayer is required to recapture all or part of the federal credit with respect to a qualified North Carolina low-income development, the State credit is also forfeited. A taxpayer that forfeits all or part of the State credit is liable for all past taxes avoided and any refund claimed as a result of the credit plus interest. This amount is payable 30 days after the date the credit is forfeited. The interest is computed from the date the Secretary transferred the credit amount to the HFA.

A taxpayer that is required to recapture all or part of the federal credit with respect to a qualified North Carolina low-income development does not forfeit the corresponding State credit amount in the following circumstances:

- The recapture is the result of an event that occurs in the sixth or subsequent calendar year after the calendar year in which the development was awarded a federal credit allocation.
- The taxpayer elected to transfer the State credit amount to the HFA and received a loan from the HFA for that amount.

Report: The Department of Revenue must report to the Revenue Laws Study Committee and the Fiscal Research Division of the General Assembly by May 1 of each year the following information for the 12-month period ending the preceding April 1:

- The number of taxpayers that claimed the low-income housing credit.
- The location of each qualified North Carolina low-income building or housing development for which a credit was claimed.
- The total cost to the General Fund of the credits claimed.

Sunset: Like the existing low-income housing tax credit, this new refundable credit is repealed effective January 1, 2006.

Modifications for Existing Credit for Housing with Federal Allocations before 1/1/03: Often the investment group financing a low-income housing project is a pass-through entity. In 2001, the General Assembly provided that the low-income housing credit could be allocated among any of the entity's owners, in the entity's discretion, as long as the amount of credit allocated did not exceed the owner's adjusted basis in the pass-through entity. This tax basis requirement means the investor must invest $1 into the project for each $1 of the State credit received. However, the General Assembly determined in 2002 that the market rate for the credit was about 45 cents for each $1 of State credit. The pool of investors willing and able to meet the tax basis requirement was smaller than the need for investment. Without a change in the tax basis requirement, many developers with projects underway may have lost money on those projects. To encourage more investment immediately, the act reduced the tax basis required of a purchaser from 100% to 40%.

The act also addresses the issue of forfeiture of the existing credit by providing that the taxpayer does not forfeit the State credit if a recapture of the federal credit occurs after the State five-year credit period has expired. The federal credit is taken over a 10-year period.

ESTATE TAX CHANGES: Section 9 of the act incorporates a proposal from the Estate Tax Section of the North Carolina Bar Association.[10] It changes the calculation of estate tax due when property is located in more than one state from a net value ratio to a gross value ratio. Before this act became law, North Carolina was one of only three states that prorated based on the net value of the federal taxable estate. At least 36 states prorate based on gross values, including the neighboring states of South Carolina and Virginia.

For estates with property only in North Carolina, the North Carolina estate tax equals the credit for state death taxes allowed on the federal estate tax return.[11] If an estate has property in more than one state, the federal credit must be prorated between North Carolina and the other states in which the estate has property. Under prior law, the percentage of the

---

[10] Representative Haire introduced a bill on this issue in 2001, House Bill 276.

[11] The credit for state death taxes allowed on the federal estate tax return is being phased out over the next four years. As a result of legislation enacted in 2002 (S.L. 2002-126), North Carolina does not conform to the phase-out of this credit for 2002 and 2003.

federal credit allocated to North Carolina was determined by dividing the net value of the property in North Carolina by the total net value of the property in the estate.

Net value equals the gross value of the property less any debts associated with the property, such as a mortgage. The prior law was attempting to allocate the credit based on the value of the property that was includible in the taxable estate for federal purposes. The federal estate tax is calculated on the taxable estate, which is the gross estate less allowable deductions such as debts.

The Estate Tax Section of the North Carolina Bar Association asserted that a state's share of federal estate tax is more appropriately based on the gross property located in a state whether or not the property generates any federal estate tax. It proposed that this approach is fair because each state has a responsibility for protecting and supervising the distribution of property regardless of whether it generates federal tax. Also, the use of a net value calculation sometimes results in a North Carolina resident paying more tax than 100% of the amount of the credit.[12] In other instances it may result in a loss of revenue to North Carolina[13]; this may be particularly true in estates in which property qualifies for the marital deduction.

Extend Qualified Business Venture Tax Credit

Session Law	Bill #	Sponsor
S.L. 2002-99	HB 1520	Representative Allen

AN ACT TO EXTEND THE SUNSET ON TAX CREDITS FOR QUALIFIED BUSINESS INVESTMENTS, TO AMEND THE DEFINITION OF QUALIFIED GRANTEE BUSINESS, TO EXTEND THE SUNSET ON THE STATE PORTS TAX CREDIT, AND TO CLARIFY AND AMEND THE NORTH CAROLINA STATE PORTS AUTHORITY'S FEE-SETTING AUTHORITY.

OVERVIEW: This act extends the tax credit on qualified business investments and the State ports tax credit from January 1, 2003 to January 1, 2004, and revises the definition of "qualified grantee business" to alleviate a constitutional concern by replacing specific named entities with general descriptions of entities. The act also clarifies that the North Carolina State Ports Authority has fee-setting authority for its rates and tariffs, gives the Authority guidelines to use in setting those fees, requires the Authority to report to the Joint Legislative Commission on Governmental Operations no later than 30 days after it establishes or

[12] A Charlotte resident has a gross estate worth $10,000,000, including a $2,000,000 home in South Carolina with a $1,000,000 mortgage. The South Carolina portion of the credit is 20% because South Carolina uses a gross value calculation: 2,000,000 divided by 10,000,000. The North Carolina portion of the credit is 88%: 8,000,000 divided by 9,000,000.

[13] A Charlotte resident has a gross estate worth $10,000,000, including a $2,000,000 home in South Carolina. The North Carolina property has a $1,000,000 mortgage. The South Carolina portion of the credit continues to be 20%. However, the North Carolina portion of the credit is reduced to 77%: 7,000,000 divided by 9,000,000.

increases a fee, and exempts the Authority's fee-setting from the rule-making portion of the Administrative Procedure Act.

FISCAL IMPACT: The amount of the tax credit on qualified business investments that is given each year is capped at $6 million. Because requests for credits have exceeded this cap for four out of the last five years, it is likely that the $6 million annual cost of the program will continue until its sunset in 2004. The General Fund impact due to the extension of this tax credit will occur in the 2003-2004 fiscal year because the investments made in 2003 will be awarded credits on returns filed in the spring of 2004. The extension of the State Ports Authority tax credit is estimated to cost the General Fund $650,000 in the 2003-2004 fiscal year. The changes to the State Ports Authority fee-setting power have no fiscal impact.

EFFECTIVE DATE: The change to the definition of "qualified grantee business" is effective January 1, 2003. The remainder of this act became effective August 29, 2002.

ANALYSIS:

QUALIFIED BUSINESS INVESTMENT TAX CREDIT: The qualified business investment tax credit was enacted in August 1987 to promote economic development for North Carolina businesses. The initial credits applied to both corporations and individual taxpayers, and there was a $12 million cap on the total amount of all tax credits. In response to a 1996 United States Supreme Court decision in Fulton Corp. v. Faulkner, the General Assembly reduced the $12 million cap to $6 million, limited the credit to individuals and small pass-through entities, and removed the requirement that the qualified businesses be headquartered or operating in North Carolina. The credit was to expire for investments made on or after January 1, 1999. In 1998, as part of the appropriations bill, the credit was extended for four additional years until January 1, 2003. This act extends the sunset for one additional year until January 1, 2004.

Explanation of the credit: The qualified business investment tax credit is allowed for an individual taxpayer who purchases the equity securities or subordinated debt of a qualified business venture or a qualified grantee business directly from that business. The credit is equal to 25% of the amount invested and may not exceed $50,000 per individual in a single taxable year. An individual investor may also claim the allocable share of credits obtained by "pass-through entities" of which the investor is an owner. Pass-through entities include limited partnerships, general partnerships, S corporations, and limited liability companies. The credit may not be taken in the year the investment is made. Instead, the credit is taken in the year following the calendar year in which the investment was made, but only if the taxpayer filed an application with the Secretary of State. The unused credit may be carried forward for the next five years. The total amount of credits allowed to all taxpayers for investments made in a calendar year may not exceed $6 million. The Secretary of Revenue calculates the total amount of tax credits claimed from applications filed with the Secretary of State. If the amount exceeds the cap, then the Secretary allows a portion of the tax credits claimed by allocating the total of $6 million in tax credits in proportion to the size of the credit claimed by each taxpayer. In general, a taxpayer forfeits the credit if the taxpayer

transfers the securities within one year or the qualified business redeems the securities purchased by the taxpayer within five years after the investment was made.[14]

Impact of Fulton Corp. v. Faulkner: Under the 1996 Fulton case, the original credit provisions clearly violated the interstate commerce clause of the federal constitution because they reduced a taxpayer's tax liability by an amount equal to 25% of the cost of purchasing stock in either a North Carolina business or an investment company whose purpose is to invest in North Carolina businesses, while no tax reduction was allowed for purchasing similar stock in out-of-state businesses or investment companies whose purpose is to invest in businesses that may not be North Carolina businesses. In response to the Fulton case, the Revenue Laws Study Committee discussed this credit, along with several others, at great length. The original proposal of the Committee was to repeal all qualified business investment credits, effective January 1, 1997. In response to appeals to the Committee and to the General Assembly, the credit was expanded to include investments in businesses located both inside and outside North Carolina. However the credit was no longer allowed for investments in investment companies and was limited to investments made by individuals and small pass-through entities under the theory that these investors are not likely to invest outside a 50-mile radius of their homes.

Amendment to definition of "qualified grantee business": In order to be a business in which investments are eligible for a credit, the business must be either a "qualified business venture" or a "qualified grantee business." Both types of businesses must be registered with the Secretary of State. The definition of "qualified business venture" includes several general requirements related to the line of business, gross revenues of the business, and the organization date of the business. Prior to this act, the definition of "qualified grantee business" included a requirement that the business have received a grant or other funding in at least one of the three previous years from one of several named entities. Arguably, this definition violated the rule of uniformity since a credit is allowed only for investments in businesses that have received a grant from one of several specifically named entities, and not for investments in similar businesses that have received grants from similar entities. To address this constitutional issue, the act amends the definition of "qualified grantee business" by replacing the named entities with descriptions that would encompass the following previously named entities: the North Carolina Biotechnology Center, MCNC, and the Kenan Institute for Engineering, Technology, and Science. The only previously named entity that these descriptions do not encompass is the Technological Development Authority. It is unknown if any other entity qualifies under these descriptions.

STATE PORTS TAX CREDIT: This act extends the sunset on the tax credit for North Carolina State Ports Authority wharfage, handling, and throughput charges for one year, from January 1, 2003 to January 1, 2004. When first enacted, this credit was effective for taxable years beginning on or after March 1, 1992, and ending on or before February 28, 1996. The sunset has been extended four times.

---

[14] There are two exceptions to this forfeiture provision. First, if the transfer occurs as a result of the death of the taxpayer, the liquidation of the taxpayer, or certain reorganizations of the qualified business, within the one-year period, the transfer does not require forfeiture. Second, the 1998 legislation created an exception to this forfeiture provision for projects in the film industry, since it is unusual for a project in that industry in which a person might invest to last for more than five years.

Explanation of the credit: The State Ports Authority tax credit is allowed to a taxpayer who loads or unloads waterborne cargo from an ocean carrier at the State-owned port terminal at Wilmington or Morehead City. The credit is allowed against the taxpayer's income tax. The taxpayer may be either an individual (G.S. 105-151.22) or a corporation (G.S. 105-130.41). The amount of the tax credit is equal to the amount of wharfage, handling, and throughput charges paid to the North Carolina State Ports Authority in the taxable year that exceeds the average amount of charges paid to the Authority for the current tax year and the two previous tax years. The credit is limited to 50% of the tax imposed on the taxpayer for the taxable year. Any excess credit may be carried forward and applied to the taxpayer's income tax liability for the next five years. The maximum cumulative credit that one taxpayer may claim is $2 million.

In 1992 the General Assembly enacted the State Ports income tax credit to encourage exporters to use the two State-owned port terminals in Wilmington and Morehead City. When enacted, the credit applied to amounts paid by a taxpayer on any cargo exported at either port. In 1994, the General Assembly expanded the credit to include all amounts assessed on exported cargo, regardless of who paid the shipping costs. In 1995, the General Assembly expanded the credit to include some imports by allowing a credit for break-bulk cargo and container cargo imported at either Wilmington or Morehead City and for bulk cargo imported at Morehead City. It did not allow a credit for bulk cargo imported at Wilmington. In addition, the credit for bulk exports was then limited to bulk exports at only the Morehead City terminal. In 1996, the General Assembly expanded the State ports income tax credit to include the importing and exporting at either terminal of one specific type of bulk cargo: forest products. All imports and exports of bulk cargo at the Morehead City terminal were already covered, so the effect of this change was to allow a credit for forest product imports and exports at the Wilmington terminal. In 1997, the General Assembly extended the sunset of the State ports income tax credit from February 28, 1998 to the taxable year ending on or before February 28, 2001, and increased the maximum cumulative credit from $1 million to $2 million per taxpayer. In 2001, the General Assembly extended the sunset to January 1, 2003.

Although not defined by the relevant statutes, the various types of cargo differ as follows:

- Bulk cargo is a type of commodity that is loose and usually stockpiled. Examples of this type of commodity include coal, grain, salt, and wood chips.
- Break-bulk cargo consists of commodities that are packaged and stored on pallets or in cases that must be handled and stacked onto a ship by hand, crane, etc. Break-bulk cargo also includes machinery.
- Container cargo consists of commodities that are packaged in a metal trailer box that can be locked onto a tractor-trailer chassis and then detached and put on a ship without any other handling.

NORTH CAROLINA STATE PORTS AUTHORITY: This act clarifies and amends the fee-setting power of the North Carolina State Ports Authority in the following ways:

- Clarifies that the Authority has fee-setting authority for its services.
- Sets out statutory guidelines that the Authority must consider in setting fees for its services. These guidelines include the cost of providing service, revenue

requirements, the cost of similar services at other seaports in the South Atlantic region, and any other factors the Authority considers relevant.

- Requires the Authority to report to the Joint Legislative Commission on Governmental Operations no later than 30 days after the Authority establishes or increases a fee.[15]
- Exempts the Authority's fee-setting power from the rulemaking portion of the Administrative Procedure Act.

Amend Pollution Abatement Tax Exclusion

Session Law	Bill #	Sponsor
S.L. 2002-104	SB 1253	Senator Odom

AN ACT TO PROVIDE THAT CERTAIN ANIMAL WASTE MANAGEMENT SYSTEMS SHALL NOT QUALIFY FOR SPECIAL PROPERTY CLASSIFICATION AND EXCLUSION FROM THE TAX BASE PURSUANT TO G.S. 105-275(8) AND TO DIRECT THE REVENUE LAWS STUDY COMMITTEE TO STUDY ISSUES RELATED TO THE TAX EXCLUSION, AS RECOMMENDED BY THE ENVIRONMENTAL REVIEW COMMISSION.

OVERVIEW: This act provides that an animal waste management system may not qualify for property tax exclusion as a pollution control device unless it eliminates or substantially eliminates certain discharges, emissions, and contamination. The act also requires the Revenue Laws Study Committee to study property tax exemptions for pollution control equipment. The act was recommended by the Environmental Review Commission.

FISCAL IMPACT: The State General Fund is not affected. The legislation will affect revenue from the property tax base in each county. There are currently no exclusions that have been granted to facilities, thus there are no changes in current county revenues. However, had the legislation not been enacted, potential revenue losses would have been split among counties based on the number of animal waste management systems maintained in each county. Potential losses were estimated using the total property value of the swine, poultry, and turkey facilities in a county. The potential property tax revenue losses statewide could have totaled approximately $9.9 million per fiscal year.

EFFECTIVE DATE: Property tax years beginning on or after July 1, 2002.

ANALYSIS: Since 1955, North Carolina has excluded from property taxes property used exclusively for pollution control or waste disposal. The statute specifies waste lagoons as one

[15] In S.L. 2001-427, the General Assembly increased its oversight of agency setting and raising of fees by requiring an agency that wishes to establish or increase any fee to have either express authorization from the General Assembly for the amount of the fee or general authorization and to consult the Joint Legislative Commission on Governmental Operations **prior** to putting the new fee into effect. S.L. 2002-99 allows the State Ports Authority to report to Governmental Operations **after** increasing or establishing a fee.

type of property that may qualify for property tax exclusion. Before property could qualify for exclusion, the law as of 2001 required that the Environmental Management Commission (EMC) certify that the property complies with all EMC requirements, is operated in accordance with its permit, and has as its primary purpose the reduction of pollution.

As the entity responsible for certifying property for the tax exclusion, the EMC approached the Environmental Review Commission requesting clarification of the policy conflict between the potential property tax exclusion for swine waste lagoons and spray fields and the moratorium the General Assembly has placed on constructing swine waste lagoons and spray fields unless they comply with strict environmental standards. The Environmental Review Commission recommended that the General Assembly act on this issue in 2002.

To evaluate the issue, the General Assembly sought input from the EMC, individual taxpayers, the Attorney General's Office, the Department of Revenue, and other interested parties. There was testimony from experts that in the 1950s when the statute was enacted, there was much less use of animal waste lagoons and spray fields than there is today, indicating that the policy established in the 1950s may no longer be appropriate. The Department of Revenue noted that spray fields are not used exclusively for waste disposal and thus appear to be ineligible for the property tax exclusion. The Southern Environmental Law Center commented that, because waste lagoons do not reduce pollution and in fact accelerate air pollution, they do not meet the statutory requirement for exclusion that their primary purpose is the reduction of pollution. The EMC pointed out that since 1997 the General Assembly has maintained a moratorium on the construction of swine waste lagoons and spray fields with an exception only for swine waste management systems that meet the following environmental performance standards:

1. Eliminate the discharge of animal waste to surface waters and groundwater through direct discharge, seepage, or runoff.
2. Substantially eliminate atmospheric emissions of ammonia.
3. Substantially eliminate the emission of odor that is detectable beyond the boundaries of the parcel or tract of land on which the farm is located.
4. Substantially eliminate the release of disease-transmitting vectors and airborne pathogens.
5. Substantially eliminate nutrient and heavy metal contamination of soil and groundwater.

The General Assembly resolved the conflict between the moratorium and the tax exclusion by providing in this act that an animal waste management system may not qualify for the property tax exclusion unless the EMC determines that it meets the same five standards listed above. This requirement will ensure that the property tax exclusion is allowed only for animal waste management systems that meet strict environmental performance standards. This change becomes effective beginning with the 2002 property tax year.

The act also directs the Revenue Laws Study Committee to study the property tax exclusions for various types of property used for environmental reasons, in consultation with representatives of cities and counties. The Committee is directed to report the results of its study to the 2003 General Assembly.

Revenue Law Enforcement Enhancements

Session Law	Bill #	Sponsor
S.L. 2002-106	SB 1218	Senator Dalton

AN ACT TO IMPROVE THE ENFORCEMENT OF TAX LAWS BY CRIMINALIZING OR INCREASING THE PENALTY FOR CERTAIN FORMS OF TAX FRAUD AND BY ALLOWING THE DEPARTMENT OF REVENUE TO DISCLOSE CERTAIN INFORMATION TO LAW ENFORCEMENT AGENCIES.

OVERVIEW: This act improves the enforcement of tax laws by allowing for enhanced punishment when an income tax return preparer aids or assists in the filing of false or fraudulent documents with the Department of Revenue, by creating an offense for fleecing taxpayers, and by allowing the Department of Revenue to share information concerning the commission of any offense with appropriate state or federal law enforcement agencies. This act was a recommendation of the Revenue Laws Study Committee.

FISCAL IMPACT: The cost of additional court trials and prison beds due to the increased felonies is as follows:

FISCAL YEAR	COST
2002-2003	$ 9,035
2003-2004	$ 94,395
2004-2005	$204,839
2005-2006	$294,200
2006-2007	$388,752

EFFECTIVE DATE: The sections allowing for enhanced punishment and creating a new offense become effective December 1, 2002, and apply to actions committed on or after that date. The section allowing disclosure between the Department of Revenue and appropriate State or federal law enforcement agencies became effective September 6, 2002.

ANALYSIS: Under sections 1 through 3 of this act, beginning December 1, 2002, an income tax return preparer who aids or assists in the filing of false or fraudulent documents will be guilty of a Class F felony, if the amount of tax fraudulently avoided in one taxable year on all returns is less than $100,000. If the total amount of tax fraudulently avoided in one taxable year on all returns equals or exceeds $100,000, the income tax return preparer will be guilty of a Class C felony. These punishments are the same as the punishments for embezzlement under Article 18 of Chapter 14 of the General Statutes. The act incorporates the definition of "income tax return preparer" used under the Internal Revenue Code, and makes a conforming change in G.S. 105-159.1(e) to incorporate this definition.

Under the law in effect until December 1, 2002, it is a Class H felony to aid, assist, procure, counsel, or advise the preparation, presentation, or filing of a return, affidavit, claim, or other document that is fraudulent or false as to any material matter. The Department of Revenue requested the enhanced punishment because of the increasing number of

fraudulent return cases involving an income tax return preparer. According to the Department, these cases generally involve income tax return preparers that intentionally inflate the itemized deductions claimed on a return or include fictitious business losses on the return. This fraud is carried out in order to reduce taxable income, thereby reducing tax liability. The Department has also noticed an increase in the number of fictitious returns. These are returns that are based on fictitious wage and tax statements.

Under section 4 of this act, beginning December 1, 2002, it will be a Class F felony for a person to receive money from a taxpayer with the understanding that the person would remit the money to the Secretary of Revenue for application on a tax liability and then willfully fail to remit the money to the Secretary. The Department reported that several times a year it will have a situation where an accountant receives money from a taxpayer to satisfy a sales or withholding tax liability. The accountant then files a fraudulent return showing reduced or zero tax due and then pockets the taxpayer's money. Although the Department can and does bring charges against the accountant for filing a fraudulent return, the taxpayer still owes the money that he or she has lost. The taxpayer must then get the local district attorney to file embezzlement charges. The district attorneys have indicated that they prefer that the Department handle this situation since it involves taxes and since the Department is already involved. By creating the offense for fleecing taxpayers, this act places the remedy with the Department. The penalty is the same as for embezzlement totaling less than $100,000.

Section 5 of this act allows the Department of Revenue to share information it discovers during a criminal investigation of a taxpayer with appropriate State or federal law enforcement agencies. Under prior law, the Department could only provide information concerning a tax imposed by Article 2A, 2C, or 2D of the revenue laws to law enforcement agencies. These Articles deal with the tobacco products tax, alcoholic beverage license and excise taxes, and unauthorized substance taxes. However, the Criminal Investigation Division of the Department occasionally discovers evidence of criminal activity unrelated to the taxes imposed in these Articles. Under prior law, the Department was not allowed to disclose that information to law enforcement. This act alleviates this prohibition.

Contracts to Reimburse Fuel Tax/Fuel Tax Chg.

Session Law	Bill #	Sponsor
S.L. 2002-108	SB 1407	Senator Kerr

AN ACT TO ESTABLISH A CONTRACT RIGHT REGARDING THE TIMING OF PAYMENTS UNDER CONTRACTS REQUIRING REIMBURSEMENT OF FEDERAL FUEL EXCISE TAXES AND TO MAKE VARIOUS MOTOR FUEL EXCISE TAX CHANGES.

OVERVIEW: This act gives local distributors a contract right to delay reimbursing federal fuel tax to the supplier until one day before the supplier is required to remit the tax to the federal government. The act also converts the local government fuel tax refund to an exemption and makes several other changes to the motor fuel tax laws.

FISCAL IMPACT: The only provision with a fiscal impact is the one converting the local government fuel tax refund to an exemption. The exemption will be slightly revenue positive for local governments because of the interest earned on funds that once went to fuel tax payments before being refunded. Based on refund amounts for past years, Fiscal Research estimates the annual float gain for locals would have been $227,030 for fiscal year 2000-01 and $252,860 for fiscal year 1999-00.

EFFECTIVE DATE: The contract right provision became effective September 1, 2002. The motor fuel tax provisions become effective January 1, 2003.

ANALYSIS:

Contract Rights Regarding Tax Reimbursements

The State and federal motor fuel excise taxes are payable by the distributor, but collected and remitted to the respective tax collection agencies by the supplier. G.S. 105-449.91 gives the distributor the right to defer the remittance of any state tax to the supplier until the date the supplier, as trustee, must pay the tax to this State or to another state. This allows the distributor to retain the interest on the state tax monies until they are due for payment. Federal law does not address the distributor's right to defer the remittance of any federal tax due. The distributor's right as to the timing of the remittance of the federal tax due to the supplier is subject to the terms of the contract between the distributor and the supplier.

Section 1 of this act provides that a contract subject to North Carolina law must afford the distributor the same election for the timing of federal tax remittance that the distributor has for state tax remittance. It provides that the distributor may elect to remit the federal tax due to the supplier one day before the tax is due to the federal Internal Revenue Service. Exercising this option allows the distributor to receive the benefit of any float associated with the federal tax monies. To exercise this right, the distributor must notify the supplier in writing of the intent to make this election and the effective date of the election. The effective date cannot be earlier than the beginning of the next federal tax quarter or 30 days after the notice of intent is received, whichever is later. To secure the receipt of the tax monies, the supplier can require security for the payment of the taxes in proportion to the amount the taxes represent compared to the security required on the contract as a whole.

In practice, this change in the law will not affect contracts between suppliers and distributors for branded fuel[16] when the contract names another state as the controlling state law. Currently, Georgia, Alabama, Mississippi, and Tennessee[17] have similar statutes. If no particular state's law is designated as controlling in the contract, then this State's law will control. If a supplier offers unbranded fuel[18] at a North Carolina terminal and a distributor lifts from that terminal rack, North Carolina law will control because the contract for the fuel is accepted in North Carolina.

This section of the act became effective September 1, 2002, and applies to contracts entered into or renewed on or after that date and to all continuing contracts that are in effect on that

---

[16] Branded fuel is fuel supplied to a distributor pursuant to a contract.

[17] Tennessee collects federal and state excise tax at the rack like North Carolina.

[18] Unbranded fuel is fuel offered by a supplier at the terminal rack to any distributor who wishes to purchase it.

date and have no expiration date. It does not apply to a contract in effect on September 1, 2002 that, by its terms, will terminate on a later date; nor does it impair the obligation arising under any contract executed before September 1, 2002. Because the act did not become law until September 6, the constitutional prohibition against impairing contracts would prevent it from applying to contracts executed between September 1 and September 6 that have an expiration date.

Motor Fuel Enforcement Tax Changes

Section 2 of this act repeals the Class 1 misdemeanor for willfully and knowingly making a false statement for the purposes of obtaining or assisting someone else to obtain a credit, refund, or reduction of motor fuel tax liability. Repeal of this statute means that the general penalties in G.S. 105-236 will apply. It is a Class H felony under G.S. 105-236(7) to attempt to willfully evade a tax and it is a Class H felony under G.S. 105-236(9a) to willfully help someone else evade a tax.

A motor carrier subject to the International Fuel Tax Agreement must register with the carrier's base state and a motor carrier not subject to that Agreement must register with the Secretary of Revenue. It is unlawful for a motor carrier to operate motor vehicles in the State unless the motor carrier is registered. To indicate to enforcement officers that the carrier is properly registered, the vehicles must display identification markers, or decals. Section 3 of this act requires a motor carrier to keep records of the decals issued to it and to be able to account for those decals. Section 4 of this act establishes a civil penalty for unaccounted for decals and for decals unlawfully obtained. The penalty for being unable to account for decals is $100 per decal. The penalty for displaying a decal unlawfully obtained is $1,000 per decal. The motor carrier whose vehicles display the decal and the motor carrier who obtained the decals are jointly and severally liable for the penalty.

Section 15 of this act simplifies the penalty for transporting motor fuel without a shipping document or with a false or an incomplete shipping document and the penalty for delivering motor fuel to a destination state other than the one shown on the shipping document. Under prior law, the amount of the penalty depended on whether the person against whom the penalty is assessed had previously been assessed a penalty under this statute. If the answer is "no", the amount of the penalty was $1,500. If the answer is "yes", the amount of the penalty was $7,500. To determine whether the person has previously been assessed a penalty under this statute required the enforcement officer to obtain detailed information, which the officer forwarded to the Motor Fuels Tax Division so that the Division could check its records and then assess the correct penalty. The penalty was seldom imposed because the enforcement officers could not enforce the penalty at the time the offense occurred. This section enables the enforcement officer to immediately assess the penalty by providing a flat penalty amount of $5,000.

Section 16 of this act will enable the Motor Fuels Tax Division to be able to track motor fuel transported by a tank wagon after the fuel has left the terminal. A tank wagon is a truck that has a compartment designed or used to carry at least 1,000 gallons of motor fuel.[19] Under

[19] Section 6 amends the term "tank wagon" to require that it be used to carry at least 1,000 gallons of motor fuel. This modification exempts trucks carrying less than that amount from the requirements imposed by this Section 16.

this section, a person may not transport motor fuel by tank wagon unless the person has an invoice, bill of sale, or shipping document that contains the following information: the name and address of the person from whom the motor fuel was received, the date the fuel was loaded, the type of fuel, and the gross number of gallons loaded. The person must carry this documentation when transporting the fuel and show the documentation upon request. These requirements are similar to, but less onerous than, the requirements for motor fuel transported by a railroad tank car or transport truck.[20] A violation of this statute would be grounds for a civil penalty in the amount of $1,000.

Section 17 simplifies the penalty for dispensing, or allowing to be dispensed, non-tax-paid fuel into a highway vehicle. Currently, the amount of the penalty varies depending upon the number of gallons dispensed. However, it is often impossible to know how many gallons have been dispensed. This section simplifies the penalty by providing a fixed penalty amount of $250 per occurrence.

Biodiesel and Fuel Alcohol Tax Law Changes

Before this act went into effect, North Carolina's motor fuel tax laws addressed fuel alcohol, but not biodiesel. Both types of fuel are special fuels that may be used to operate a motor vehicle. Biodiesel fuel is a mixture of fuels derived in whole or in part from agricultural products or animal fats or wastes from these products or fats. The General Assembly became aware of a person planning to produce biodiesel fuel in North Carolina using, among other fats, discarded french fry grease from fast food restaurants. Sections 6 and 7 make existing fuel tax provisions applicable to biodiesel, and also provide that small providers of biodiesel and fuel alcohol are not subject to the bonding requirements applicable to refiners.

Under existing law, a person who produces fuel that can be used to operate a motor vehicle is considered a refiner and is subject to a $2 million bonding requirement. There are no refiners in North Carolina. However, it was anticipated that this definition and the large bonding requirement might become applicable to providers of fuel alcohol and biodiesel because it is possible that a vehicle can be operated with biodiesel alone or with fuel alcohol alone. To avoid subjecting small producers of biodiesel and fuel alcohol to the large surety bond requirements for refiners, this act provides a smaller surety bond requirement for smaller producers of biodiesel and fuel alcohol. To accomplish this, Section 6 defines a biodiesel provider and a fuel alcohol provider as a person who produces an average of no more than 500,000 gallons of biodiesel or fuel alcohol a month during a calendar year. It also excludes from the definition of "refiner" these biodiesel providers and fuel alcohol providers. Under Section 7, biodiesel providers and fuel alcohol providers are subject to a bonding requirement of no less than $2,000 and no more than $250,000. The amount of the bond is determined by the provider's average expected monthly tax liability.

Section 6 adds biodiesel to the definition of diesel fuel and adds biodiesel providers to the definition of supplier. These changes bring biodiesel within the scope of the existing fuel tax laws.

---

[20] Tank wagons would not be required to be registered, to have a tax responsibility statement, to have a machine-printed shipping document, or to have a destination state. Also, the penalty imposed on a tank wagon for failure to have the proper documentation is $1,000 as opposed to $5,000.

Special Mobile Equipment

Special mobile equipment is a vehicle that has a permanently attached crane, mill, ditch-digging apparatus, or similar attachment. The vehicle is driven on the highway only to get to and from a non-highway job. It is not designed or used primarily for the transportation of persons or property. Under prior State law, special mobile equipment was allowed to use dyed (untaxed) diesel fuel. However, federal law prohibited special mobile equipment from using dyed diesel fuel. This contradiction caused confusion and, as a result, operators of special mobile equipment were sometimes assessed federal penalties. Section 10 conforms North Carolina law to the federal law. Special mobile equipment will continue to be entitled to a quarterly refund of motor fuel tax paid to operate the equipment off-highway.[21]

Diverted Fuel

A person may not transport motor fuel by railroad tank car or by truck unless the person has a shipping document indicating, among other things, the destination state of the motor fuel. The tax on the motor fuel is collected at the rack based on the motor fuel tax rate of the state named on the shipping document as the destination state. The person transporting the motor fuel must deliver it to the state printed on the shipping document.

If the fuel is diverted to another state, the person transporting the fuel must notify the Secretary of Revenue of the diversion and receive a confirmation number authorizing the diversion. The state tax is owed on the fuel changes when the fuel is diverted to a different state. Under prior law, the distributor would notify the supplier of the diversion and the supplier would make the correction based on its business practices. The diversion could be accounted for in several different ways on one of four different motor fuel tax forms. The supplier's responsibility for making the correction was inconsistent with the fact that the supplier is not the party responsible for paying the tax; the supplier's tax collection obligations ended once the fuel left the terminal.

Section 10 clarifies that North Carolina motor fuel excise tax is due on motor fuel that is diverted to this State. It also specifies that the person who authorizes the fuel to be diverted to a different state is liable for the tax owed to that state; likewise the person is entitled to a refund of the North Carolina tax paid on the fuel. The diversion corrections must be made on the backup tax form.

Motor Fuel Tax Exemption for Local Governments

Under prior law, counties and municipalities were entitled to a quarterly refund of motor fuel excise taxes paid by them during the preceding quarter. The refund was calculated at the rate equal to the amount of the flat cents-per-gallon rate plus the variable cents-per-gallon rate in effect during the quarter for which the refund was claimed, less one-cent per gallon. This act gives counties and cities an exemption in lieu of a refund. Section 11 removes counties and municipalities from the list of entities entitled to a refund and Section 13 adds them to the list of entities exempted from the motor fuel excise tax. Other entities exempted from the

[21] G.S. 105-449.106(c).

tax include the federal government, the State government, local boards of education, charter schools, and community colleges.

Administrative and Technical Changes

A refiner, a terminal operator, a supplier, an importer, a blender, a permissive supplier, and a distributor must file a bond with the Secretary in order to be licensed. The bond is conditioned upon compliance with the motor fuel tax laws. Whenever a license holder changes bonding companies or decides to go out of business, the license holder must notify the Secretary. After determining that all taxes and penalties due under the motor fuel tax laws have been paid, the Secretary must return the previously filed bond and notify both the bonding company and the license holder that the person is released from liability on the bond. The Motor Fuels Tax Division often receives returned mail on the notice sent to the license holder because the license holders have moved. Section 8 relieves the Division from the requirement that it notify the license holder; it need only return the previously filed bond and the notice of release from liability to the bondholder.

The Motor Fuels Tax Division must keep a record of all the license holders under the fuel tax statutes and it must send this list to all the license holders along with a monthly update. Many license holders have expressed a desire not to receive the list this often. Section 9 relieves the Division of the necessity of sending the monthly updates to all license holders. Under this section, the Division must send an annual list to each license holder of all the license holders. Thereafter, the Division need send a monthly update only to each licensed refiner or licensed supplier and to any other license holder that requests a copy of the list.

Section 6 includes within the definition of "motor fuel transporter" a person who transports motor fuel by pipeline. Sections 12 and 14 correct incorrect terminology.

Secure Local Revenues

Session Law	*Bill #*	*Sponsor*
S.L. 2002-120, as amended by Section 65 of S.L. 2002-159	HB 1490	Representative Gibson

AN ACT TO PROVIDE THAT LOCAL REVENUES MAY NOT BE WITHHELD OR IMPOUNDED BY THE GOVERNOR AND TO CLARIFY THE FRANCHISE TAX ON ELECTRIC POWER COMPANIES.

OVERVIEW: This act provides that certain shared tax revenues are local revenues and may not be withheld or reduced by the Governor and that funds otherwise committed to local governments may not be reduced unless all other revenue sources, including treasury surplus, have been exhausted. The act also clarifies that an electric power company that pays the annual franchise or privilege tax is not subject to an additional franchise or privilege tax imposed by a city or county.

FISCAL IMPACT: No estimate available. This legislation has no direct impact on the budget passed by the General Assembly, as these shared revenues have not been used in the legislative process for state expenditures. However, the legislation could limit the options available to the Governor in future years.

EFFECTIVE DATE: This act became effective September 24, 2002. It applies prospectively only and does not apply to pending litigation or claims that accrued prior to September 24, 2002.

BACKGROUND: For the last two years, the Governor has withheld reimbursement funds from local governments, and he recommended suspending additional reimbursement funds for fiscal year 2002-03 as well. Specifically, in fiscal year 2000-2001 the Governor placed in escrow $95 million of inventory tax reimbursement funds, representing one-half of the total annual payment, in anticipation of a budget shortfall. These funds were later released, however, to local governments. In fiscal year 2001-2002, the Governor again withheld $95 million in inventory tax reimbursement funds plus $114 million in state-shared taxes and the homestead reimbursement in order to balance the budget as of June 30, 2002.

By withholding these funds despite the statutory directive to distribute the funds to local governments, the Governor has invoked his constitutional authority pursuant to Section 5(3) of Article III of the North Carolina Constitution to balance the budget. Section 5(3) of Article III of the North Carolina Constitution sets out the Governor's budgetary duties. Specifically, it directs the Governor to prepare and recommend to the General Assembly a comprehensive budget of the anticipated revenue and proposed expenditures of the State for the ensuing fiscal period. Furthermore, it provides that the State may not operate at a deficit during the fiscal period covered by a budget. To ensure that the State does not incur a deficit, the Constitution requires the Governor to continually survey the collection of revenue. If, as a result of his surveys, he determines that actual receipts for the fiscal period, when added to the surplus remaining in the State Treasury, will not be sufficient to pay budgeted expenditures, the Governor must effect the necessary economies in State expenditures to keep the deficit from occurring. Arguably, the distribution of monies to local governments is a "State expenditure," and the Governor's constitutional obligation to maintain a balanced budget overrides the statutory directive to distribute the funds.

Based on the current information available, it is unclear whether this legislation will be effective in preventing the Governor from withholding these funds from local governments. If the Governor withholds the funds despite the enactment of this legislation, enforcement of this limitation on the Governor's authority may have to be resolved by a court. As of October 2002, several counties and municipalities have initiated or are considering initiating lawsuits challenging the Governor's withholding of funds.[22]

ANALYSIS: Sections 1 through 7 of this act limit the Governor's budgetary authority to withhold or reduce local revenues and to reduce certain State expenditures as follows:

Tax-Sharing Statutes

Sections 1 through 6 of this act amend the tax-sharing statutes by characterizing the portion of the revenue distributed to cities and counties as distributions of "local revenue" rather

---

[22] As of November 2002, one of the pending cases is *Cabarrus County, et al. v Tolson*, Wake County Superior Court Case No. 02 CVS 12518.

than "State expenditures" for purposes of interpreting Section 5(3) of Article III of the North Carolina Constitution. Section 5(3) of Article III of the North Carolina Constitution sets out the Governor's duties and the scope of authority with regard to balancing the budget. Arguably, since the Constitution authorizes the Governor to reduce only "State expenditures," the classification of these shared tax revenues as "local revenues" prohibits the Governor from reducing or withholding the distributions. Moreover, each of the tax-sharing statutes has been amended to expressly state that the Governor may not reduce or withhold these distributions.

Tax-sharing statutes are a source of "financial aid" for local governments. Under these tax-sharing statutes, cities or counties, or both, receive a portion of certain taxes levied by the State. The shared tax revenues are derived from the levy of the following taxes:

- Beer and wine taxes[23]
- Franchise gross receipts tax[24]
- Piped natural gas tax[25]
- Sales tax on telecommunications[26]
- Powell bill funds[27]

Funds Appropriated or Otherwise Committed to Local Governments

Section 7 of the act limits the Governor's authority to reduce funds that the General Assembly has "appropriated or otherwise committed to local governments" by amending the Executive Budget Act to require that the Governor exhaust all other sources of revenue first, including any surplus in the treasury at the beginning of the fiscal period. This section takes a different approach than the sections dealing with the tax-sharing statutes. Under this section, the Governor is required when balancing the budget to prioritize the reduction of certain State expenditures by reducing the funds distributed to local governments only as a last resort. Under the previous sections, the General Assembly removed the local portion of

---

[23] Cities and counties in which beer and wine may be sold receive a portion of the State excise tax levied on beer and wine. They receive a percentage of the net amount of excise taxes collected, and the percentage depends on the type of beverage sold: 23 ¾% for beer, 62% for unfortified wine, and 22% for fortified wine. The local governments that share in the proceeds do so on a per capita basis, with counties receiving credit for their nonmunicipal population only.

[24] The State levies a gross receipts tax on electric power companies at a rate of 3.22%. From these proceeds, each city or town is entitled to an amount equal to 3.09% of gross receipts arising from sales within that city or town. Most cities receive their share of franchise tax revenue under G.S. 105-116.1. However, there are approximately 51 cities that own their own electric generation and distribution systems. These cities pay tax and receive their distribution under a separate statute - G.S. 159B-27 - but at the same rate as other cities.

[25] The State levies an excise tax on piped natural gas, and the rate is based on the monthly volume of natural gas received by the final user. The rate decreases as the amount of therms of piped gas consumed in a month increases. Cities receive 50% of the proceeds of the tax attributable to that city.

[26] The State imposes a 6% sales tax on telecommunications. The cities receive 18.26% of the net proceeds of the taxes collected minus a "freeze deduction" amount totaling $2,620,948.

[27] North Carolina's state gasoline tax is 17 ½ cents per gallon, plus the greater of 7% of the average wholesale price or 3.5 cents per gallon. Of this, an amount equal to the proceeds of 1.75 cents per gallon plus an additional 6.5% of the net proceeds of the North Carolina Highway Trust Fund is distributed among North Carolina's cities and towns. The legislation that first established this distribution system is known as the *Powell Bill*, after its principal sponsor, and the monies distributed to the cities and towns are generally known as Powell Bill funds. The use of these funds by municipalities is restricted to maintaining, repairing, constructing, reconstructing or widening streets, sidewalks, bridges, curbs and gutters, bikeways, and other necessary appurtenances within the corporate limits of the municipality.

shared tax revenues from the scope of the Governor's budgetary authority by stating they are not "State expenditures," and thus not capable of being reduced by the Governor under any circumstances.

Section 7 of this act was primarily intended to restrict the Governor's ability to withhold reimbursement money. State reimbursements are amounts distributed to local units to compensate them for revenue lost as the result of the removal by the General Assembly of property from the local sales and use tax base, the property tax base, or the intangibles tax base. The reimbursement programs include reimbursements for the repeal of the property tax on inventories and on poultry and livestock, the repeal of the intangibles tax, the homestead exemption from property tax, and the repeal of local sales and use taxes on food purchased with food stamps. However, Section 30A.1 of The Current Operations, Capital Improvements, and Finance Act of 2002. (S.L. 2002-126) repeals all of the State reimbursement payments to local governments, effective July 1, 2002. Nevertheless, funds "appropriated or otherwise committed to local governments" would also include:

- Low wealth school money.
- Earmarking of corporate income tax money for Public School Building Capital Fund.
- Scrap tire disposal tax.
- White goods disposal tax proceeds.
- Aid to public libraries.
- Certain grant monies.

Clarify Taxation of Electric Power Companies

Section 8 of this act clarifies that an electric power company that has collected and remitted to the State the annual franchise gross receipts tax may not be subject to any additional franchise or privilege tax imposed upon it by any city or county.

This clarification was primarily the result of responses by some cities to the seizure by the Governor of funds that would have otherwise been distributed to the cities as shared tax revenues. In response to the seizure, some cities enacted ordinances imposing their own franchise or privilege tax on electric power companies to recapture their lost revenue. This provision is intended to prevent the electric power companies from being taxed by both the State and the municipalities.

Local Sales Tax Acceleration

Session Law	Bill #	Sponsor
S.L. 2002-123	SB 1292	Senator Kerr

AN ACT TO ACCELERATE THE ADDITIONAL ONE-HALF CENT LOCAL OPTION SALES AND USE TAX AND TO MAKE CONFORMING AND TECHNICAL CHANGES.

OVERVIEW: This act accelerates the effective date of the third half-cent local option sales tax from July 1, 2003, to December 1, 2002.

FISCAL IMPACT: There is no General Fund impact. The total estimated potential revenue available to local governments from this additional half-cent if all 100 counties were to enact the tax in December 2002 is approximately $188.1 million. After deductions for administration by the Department of Revenue, the amount is reduced to $187.8 million. However, since the act is permissive and counties can decide to enact the tax at any time, no exact fiscal estimate is possible.

EFFECTIVE DATE: The act became effective September 26, 2002, but local units cannot levy the sales tax itself until December 1, 2002.

ANALYSIS: In 2001, the General Assembly authorized counties to levy additional local sales taxes of ½%, effective July 1, 2003. Under this act, the tax may become effective as early as December 1, 2002. To accomplish the sales tax acceleration, the act provides for the following:

- It allows the counties to enact the tax for the first two months (December 2002 and January 2003) with a shortened notice to the Department of Revenue. Under general law, a county must give the Secretary of Revenue at least 90 days' advance notice of a new tax levy or tax rate change; and a new tax levy or a tax rate change may become effective only on January 1 or July 1. This act provides for an expedited levy. If the county enacts the tax to become effective on or before January 1, 2003, the county must give the Secretary only 30 days' advance notice of the tax levy. Thereafter, the current law requirements of 90 days' notice and a January 1 or July 1 effective date are reinstated.
- It authorizes the Department of Revenue to withhold up to $275,000 for 2002-2003 to cover its excess nonrecurring costs for implementing the new sales tax on short notice.
- It exempts the Department of Revenue from the public contract bidding requirements for the procurement of supplies, materials, equipment, and contractual services related to the provision of notice and the development of computer software necessitated by the expedited provisions of the act.
- It provides that a retailer is not liable for the additional ½% tax levied by counties effective December 1, 2002, that it fails to collect from purchasers due to an inadvertent error during the month of December 2002 if the retailer can demonstrate to the Secretary the reason for the inadvertent error.

The act does not make the following changes to the law:

- It does not accelerate the State ½% sales tax repeal that is effective July 1, 2003. Therefore, there may be a 7% sales and use tax rate in counties that impose the additional ½% sales tax rate from December 1, 2002, until July 1, 2003.
- It does not accelerate the local sales tax distributions from quarterly to monthly. Under current law, counties are authorized to levy up to 2% local sales and use taxes[28]. All counties levy the maximum rate. The State collects the tax and distributes it quarterly to the counties and municipalities. In 2001, the General Assembly provided that local sales taxes must be distributed monthly rather than quarterly, effective July 1, 2003.
- This act does not provide a local government hold-harmless provision. Section 30A.1 of The Current Operations, Capital Improvements, and Finance Act of 2002. (S.L. 2002-126) repealed all of the State's reimbursement payments to local governments, effective

[28] Mecklenburg County is authorized to levy up to 2 ½% local sales and use taxes.

beginning with the 2002-2003 fiscal year.[29] The 2001 legislation provided local governments "hold harmless" payments beginning in 2003-2004 if the amount they could potentially realize from the levy of the half-cent sales tax was less than the amount they would lose from the reimbursements. This act neither accelerates the hold harmless provision nor provides another.

Current Operations, Capital Improvements, and Finance Act of 2002

Session Law	Bill #	Sponsor
S.L. 2002-126	SB 1115	Senator Plyler

AN ACT TO MODIFY THE CURRENT OPERATIONS APPROPRIATIONS ACT OF 2001 AND TO MAKE OTHER CHANGES IN THE BUDGET OPERATION OF THE STATE.

OVERVIEW, DESCRIPTION, EFFECTIVE DATES, AND FISCAL IMPACT:

Section #	Description and Effective Dates	Fiscal Impact
30A.1	**Local Government Revenues** Accelerates the repeal of the tax reimbursements from July 1, 2003, to July 1, 2002. Also authorizes local governments to raise or lower property taxes between July 1 and the following January 1 to account for unanticipated revenue increases or decreases.	This will produce a General Fund revenue gain of $333.4 million per year beginning in FY 2002-03.
30B.1	**Delay 2001 Tax Break: Elimination of Marriage Penalty for Standard Deduction** Delays the enactment by one year of the tax break enacted in 2001 eliminating the marriage penalty in the standard deduction, originally effective beginning with the 2002 tax year. Now, the standard deduction for married filing jointly taxpayers will increase from $5,000 to $5,500 in tax year 2003, and then to $6,000 in tax year 2004.	The net gain to the General Fund as the result of delaying the first $500 increase is $31.9 million for FY 2002-03. For the $6,000 standard deduction delayed until 2004, the General Fund will gain $12.6 million that year.
30B.2	**Delay 2001 Tax Break: Increase of Tax Credit for Children**	The delay will eliminate the $19.8 million General Fund

[29] The Appropriations Act of 2001 (S.L. 2001-424, Section 34.15) provided that the reimbursements would be repealed effective for the 2003-04 fiscal year. The Current Operations, Capital Improvements, and Finance Act of 2002 (S.L. 2002-126, Section 30A.1) accelerated that repeal.

Section #	Description and Effective Dates	Fiscal Impact
	Delays the enactment by one year of the increased tax credit for children enacted in 2001. Beginning with tax year 2003, the tax credit for children is increased from $60 to $75 per child and then to $100 in tax year 2004.	loss originally projected for FY 2002-03 and result in a General Fund revenue gain of an equal amount. There will be a revenue gain of $34.9 million in FY 2003-04.
30C.1	**Update IRC Reference** Updates the Internal Revenue Code reference from January 1, 2001 to May 1, 2002, with exceptions for accelerated depreciation and the estate tax credit. This update conforms North Carolina law to federal law with regard to recent pension tax changes, education initiatives, the increased estate tax exemption limitations, and the extension of the carryback period for net operating losses for tax years ending 2001 and 2002.	The following General Fund revenue loss is expected[30]: FY2002-03 $16.9 million FY2003-04 $25.5 million FY2004-05 $49.7 million FY2005-06 $76.9 million FY2006-07 $77.3 million
30C.2	**Accelerated Depreciation Provisions** Decouples North Carolina law from federal law by requiring taxpayers to add back to federal taxable income a percentage of the additional 30% accelerated depreciation allowed under federal law, effective for taxable years beginning on or after January 1, 2002. Taxpayers will continue to be able to deduct the same amount of an asset's basis under both federal and State law, but the timing of the deduction will differ.	The impact of the changes is essentially revenue neutral over the long-term since the conformity deals with an acceleration of depreciation, not the total amount of the deduction over the life of an asset. Thus, there will be substantial revenue losses starting in FY 2006-07. The General Fund impact is estimated as follows: FY2002-03 $38.2 million FY2003-04 $8.6 million FY2004-05 -$60.8 million FY2005-06 - 0 - FY2006-07 - 0 -
30C.3	**Estate Death Tax Credit Provision** Decouples North Carolina law from the phase-out of the state death tax credit under federal law, effective for estates of decedents dying on or after January 1, 2002. This provision sunsets for decedents dying on or after January 1, 2004.	Although decoupling from the phase-out of the state death tax credit avoids the loss of revenue from full conformity to the federal phase-out of the credit for state death taxes, there is an overall net loss because the act conforms

[30] These estimates do not reflect conformity to the increased estate tax exemption limitations. See summary for Section 30C.3 of S.L. 2002-126 for fiscal impact of the estate tax law changes.

Section #	Description and Effective Dates	Fiscal Impact
		North Carolina estate tax law to the increased federal estate tax exemptions: FY2002-03 $5.5 million FY2003-04 $7.3 million FY2004-05 $3.8 million FY2005-06 $0
30C.5	**Federal Gift Tax Annual Exclusion** Conforms the North Carolina gift tax exclusion to the federal inflation-adjusted gift tax exclusion used by the federal government, effective January 1, 2002.	The General Fund revenue loss is estimated as follows: FY2002-03 $0.2 million FY2003-04 $0.2 million FY2004-05 $0.2 million FY2005-06 $0.4 million FY2006-07 $0.4 million
30D.	**Unauthorized Substance Tax Expenses** Provides that local governments will bear 70% of the State's expenses in collecting the unauthorized substance tax, effective June 30, 2002. The expenses are drawn from local sales tax distributions. This section does not, however, change the amounts that are distributed to local law enforcement agencies.	The General Fund will be reimbursed for 70% of the Unauthorized Substance Tax Division's operating expenses resulting in an annual gain of $900,000.
30E.	**Insurance Regulatory Charge** Sets the insurance regulatory charge, which is assessed on the premiums tax paid by insurers, at 6.5% for the 2002 calendar year. The revenue generated by this charge is used to reimburse the General Fund for appropriations to the Department of Insurance to pay expenses incurred in regulating the industry.	The charge is expected to generate $25 million for FY 2002-03.
30F.	**Regulatory Fee for Utilities Commission** Sets the public utility regulatory fee at 0.1% for FY 2002-03. It also sets the electric membership corporation regulatory fee at $200,000 for FY2002-03. These are the same as the 2001 rates.	This fee, which funds the operations of the Utilities Commission and the Public Staff, is expected to produce $11,700,238 for FY 2002-03.
30G.1	**Close Corporate Tax Loophole: Broaden Definition of Business Income** Broadens the definition of "business income" to include all income that states can apportion for corporate income tax	The General Fund revenue gain is estimated as follows: FY2002-03 $70.0 million FY2003-04 $50.0 million FY2004-05 $53.7 million FY2005-06 $56.7 million

Section #	Description and Effective Date	Fiscal Impact
	purposes under the U.S. Constitution, effective with taxable years beginning on or after January 1, 2002.	FY2006-07 $59.5 million
30G.2	**Close Corporate Tax Loophole: Equalize Franchise Tax on Corporate-Affiliated LLCs** Tightens 2001 legislation intended to close a loophole that allows corporations to escape franchise tax by transferring assets to a controlled LLC, effective beginning with payments due in March 2003.	The General Fund revenue gain is estimated as follows: FY2002-03 $20.0 million FY2003-04 $21.2 million FY2004-05 $22.5 million FY2005-06 $23.8 million FY2006-07 $25.2 million
30H.	**Housing Tax Credit** Enlarges the class of taxpayers eligible for an enhanced credit for investing in low-income housing in a county that sustained severe or moderate damage from a hurricane in 1999 by backdating the effective date for eligibility from 2001 to 2000.	Assuming the project investors use 100% of the available tax credit, the annual General Fund loss is $2.15 million for Fiscal Years 2002-03 to 2006-07.
30I.	**No Estimated Income Tax Penalty for 2002 Tax Year** Provides that no estimated income tax penalty applies for the 2002 tax year to the extent the underpayment was created or increased by a provision of this act	

ANALYSIS:

LOCAL GOVERNMENT REVENUES

In 2001, the General Assembly repealed all of the State's reimbursement payments to local governments, effective beginning with the 2003-2004 fiscal year. Part 30A accelerates the repeal, effective July 1, 2002.

State reimbursements are amounts distributed to local units to compensate them for revenue lost as a result of the removal by the General Assembly of property from the local sales and use tax base, the local property tax base, or the intangibles tax base. State reimbursements consist of reimbursements for the repeal of the property tax on inventories and on poultry and livestock, the repeal of the intangibles tax, the "homestead exclusion" from property tax, and the repeal of local sales and use taxes on food purchased with food stamps. This act does not repeal or reduce the distribution of local government tax-sharing revenues: excise tax on beer and wine, franchise tax on electricity, gross receipts tax on piped natural gas, sales tax on telecommunications service, and the Powell bill revenues.

Part 30A also allows counties and cities to amend their budget ordinances between July 1st and the following January 1st to increase or reduce their property tax levy to account for unanticipated revenue increases or decreases.

DELAY 2001 TAX BREAKS

Last session, the General Assembly enacted two income tax breaks to become effective for the 2002 tax year[31]: elimination of the marriage tax penalty in the standard deduction[32] and an increased tax credit for children. Part 30B of this act delays the enactment of these tax benefits.

Delay Elimination of Marriage Tax Penalty for the Standard Deduction: Last session, the General Assembly reduced North Carolina income taxes on married couples that claim the standard deduction[33] by increasing the amount of the standard deduction for married filers so that it would be twice that of a single taxpayer. Since 1989, the basic standard deduction for a single person in North Carolina has been $3,000 while that for a married couple filing jointly has been $5,000. The increase in the deduction enacted in 2001 was to be phased in over the 2002 and 2003 tax years. The standard deduction for married persons filing separately is one-half that for a married couple filing jointly, so the 2001 act also phased it up from $2,500 to $3,000 over the 2002 and 2003 tax years. Part 30B of this act delays by one year the phase-in of the increased deduction, so that it will occur over the 2003 and 2004 tax years.

Delay Increase in Tax Credit for Children: In 2001, the General Assembly increased the $60 tax credit per child to $75 for the 2002 tax year and to $100 for the 2003 tax year. Part 30B of this act delays the phase-in of the credit increase until the 2003 and 2004 tax years. The 1995 General Assembly enacted the tax credit of $60 per child for taxpayers who have dependent children and have family adjusted gross income below $100,000 for a married couple and $80,000 for a head of household. Neither the 2001 act nor this act changes the income thresholds. The credit is in addition to the federal and state tax credits or exclusions for child care expenses. The credit is allowed for each dependent child for whom the eligible taxpayer could take a federal personal exemption under section 151(c)(1)(B) of the Internal Revenue Code. That Code section allows an exemption for each dependent child who either is less than 19 years old at the end of the taxable year or is a student and is less than 24 years old at the end of the taxable year. A child is a son, stepson, daughter, or stepdaughter. A dependent child is a child over half of whose support is provided by the taxpayer.

UPDATE IRC REFERENCE

North Carolina's tax law tracks many provisions of the federal Internal Revenue Code, by reference to the Code.[34] The General Assembly determines each year whether to update its reference to the Internal Revenue Code.[35] Updating the Internal Revenue Code reference

---

[31] S.L. 2001-424, as amended by S.L. 2001-476, 2001-497, and 2001-489.

[32] The so-called married tax penalty is the result of a tax system that recognizes that a married couple's living expenses are less than the expenses of two single people living separately but more than the expenses of one single person. In addition, if one spouse is not employed full-time, a married couple's income would be less than that of two comparable single people who work full-time, but more than that of one single person. The tax law addresses these situations through the tax brackets, the personal exemptions, and the standard deduction. The result of these tax provisions is that a married couple with only one spouse working experiences a tax reduction when they marry, a married couple where one spouse earns substantially more than the other experiences no tax reduction or increase when they marry, and a married couple with both spouses earning roughly the same amount experience a tax increase when they marry.

[33] Roughly 70% of North Carolina taxpayers claim the standard deduction.

[34] North Carolina first began referencing the Internal Revenue Code in 1967, the year it changed its taxation of corporate income to a percentage of federal taxable income.

[35] The North Carolina Constitution imposes an obstacle to a statute that automatically adopts any changes in federal tax law. Article V, Section 2(1) of the Constitution provides in pertinent part that the "power of

makes recent amendments to the Code applicable to the State to the extent that State law previously tracked federal law. The General Assembly's decision whether to conform to federal changes is based on the fiscal, practical, and policy implications of the federal changes and is normally enacted in the following year, rather than in the same year the federal changes are made.

Congress enacted two bills that have changed the Code significantly since January 1, 2001:

The Economic Growth and Tax Relief Reconciliation Act of 2001 (EGTRRA), enacted on June 7, 2001, includes numerous changes to the taxation of pension benefits, accounts, distributions, and rollovers; of education initiatives; and of estates. All of the provisions of EGTRRA will expire on December 31, 2010, unless the provisions are renewed or modified by Congressional action.[36]

The federal Job Creation and Worker Assistance Act of 2002, enacted March 9, 2002, includes an accelerated 30% bonus depreciation allowance for certain assets placed in service after September 10, 2001, and before September 11, 2004, and an extension of the carryback period for net operating losses occurring in tax years ending in 2001 and 2002 from two years to five years.

Both of these acts will substantially affect a taxpayer's federal taxable income. Since North Carolina begins its corporate and individual income tax calculations with federal taxable income, these acts also have a substantial impact on North Carolina's tax revenues to the extent the State chooses to conform to those changes.

Part 30C of this act rewrites the definition of the Code to change the reference date from January 1, 2001, to May 1, 2002. It then provides that a taxpayer must add to federal taxable income the amount allowed as an accelerated depreciation deduction under section 168(k) or 1400L of the Code and that a taxpayer's estate tax liability is determined without regard to the phase-out of the state death tax credit. In effect, Part 30C would do the following:

- Conform to all of the pension tax changes in the Code.
- Conform to all of the education initiatives in the Code.
- Conform to the increased estate tax exemption limitations.
- Not conform to the phase-out of the state death tax credit.
- Conform to the extension of the carryback period for net operating losses occurring in tax years ending in 2001 and 2002.
- Delay the accelerated 30% bonus depreciation allowance.

Pension Tax Provisions: Part 30C conforms North Carolina's tax treatment of pension benefits and distributions to federal law. EGTRRA made the following notable changes to the pension laws:

---

taxation ... shall never be surrendered, suspended, or contracted away." Relying on this provision, the North Carolina court decisions on delegation of legislative power to administrative agencies, and an analysis of the few federal cases on this issue, the Attorney General's Office concluded in a memorandum issued in 1977 to the Director of the Tax Research Division of the Department of Revenue that a "statute which adopts by reference future amendments to the Internal Revenue Code would ... be invalidated as an unconstitutional delegation of legislative power."

[36]The Congressional Budget Act of 1974 mandates this sunset provision.

- It allows taxpayers to contribute more to their tax-deferred retirement accounts. It gradually increases the amount that may be contributed to a 401(k), 403(b), and 457 accounts between 2002 and 2006. The contribution limit will increase to $15,000 in 2006. Starting in 2007, the limit will be indexed for inflation in $500 increments. It also allows persons who are 50 or older to make an additional catch-up contribution to their tax-deferred retirement accounts.
- It increases the amounts that may be contributed to both traditional IRAs and Roth IRAs from $2,000 in 2001 to $3,000 in 2002. This amount gradually increases to $5,000 for 2008. After 2008, this amount will be indexed annually for inflation. It also allows people over the age of 50 to make catch-up contributions to an IRA.
- It modifies the distribution rules for governmental 457 plan participants so that their deferred compensation funds will be taxed when they receive the distribution, not when it is made available to them.
- It repeals the coordination of deferrals between 457 and other elective deferral plans. Under former law, the maximum deferral amount for a 457 plan was reduced dollar for dollar by any contribution made to other types of retirement plans. The tax law change means that a person may defer the maximum annual contribution limit to a 457 plan as well as the maximum amount in a 401(k) or 403(b) plan.
- It expands the types of eligible tax-free rollover distributions to include distributions from qualified plans, 403(b) annuities, and 457 plans to other such plans and distributions from IRAs to qualified plans, 403(b) annuities, and 457 plans.
- It allows a surviving spouse to roll over distributions from a deceased spouse's plan to his or her own plan. Prior to this change, the tax-free rollover had to be made to an IRA.

Education Tax Provisions: Part 30C conforms North Carolina tax law on education incentives to the federal changes enacted last year. The more notable tax changes affecting education incentives include:

- It increases the annual maximum contribution limit to an Education IRA from $500 to $2,000 per beneficiary.
- It allows education IRA dollars to be used to cover expenses of students in grade, middle, and high schools.
- It eases the restrictions and limitations when using an Education IRA with other education initiatives, such as the Hope or Lifetime Learning tax credit.
- It moves the annual contribution deadline for Education IRAs from December 31 to April 15 of the following year.
- It provides that distributions from Section 529 Plans will be income-tax free up to the amount that is used to pay qualified higher education expenses.[37] Under former law, participants enjoyed only the benefit of tax-deferred contributions and investment growth.
- It allows a person to transfer 529 plan credits from one program to another for the benefit of the same beneficiary without incurring a taxable event.
- It extends the deduction for employer-paid college expenses to include graduate courses.

---

[37] North Carolina currently allows tax-free distributions for North Carolina plans. Section 30C.4 of this act repeals the State deduction.

Estate Tax Provisions: North Carolina repealed its inheritance tax in 1998, effective for deaths occurring on or after January 1, 1999. It replaced its inheritance tax with an estate tax that is equivalent to the federal state death tax credit allowed on a federal estate tax return. This type of state estate tax is known as a "pick-up" tax because it picks up for the state the amount of federal estate tax that would otherwise be paid to the federal government.[38] EGTRRA made two changes that affect the estate tax:

- It phases out the estate tax over the next eight years by increasing the exclusion amount from $675,000 in 2001 to $1 million in 2002-03, $1.5 million in 2004-05, $2 million in 2006-08, and $3.5 million in 2009. There is no need for an exemption amount after 2009 since the tax is repealed in 2010. However, the tax is scheduled to reapply in 2011 unless a future Congress makes the repeal permanent. If the tax were reinstated in 2011, the exclusion amount would be $1 million. This act conforms North Carolina's exemption limits to the federal exemption limits to ensure that estates in North Carolina do not have to pay State tax if there is no federal tax due.
- It phases out the state death tax credit over the next four years by reducing it 25% in 2002, 50% in 2003, and 75% in 2004, and by repealing it entirely in 2005. This act does NOT conform to the phase out of the state death tax credit for two years.[39] Therefore, under this act an estate of a decedent dying on or after January 1, 2002, and before January 1, 2004, would owe North Carolina estate tax to the same extent that it would be owed without regard to the phase-out of the credit. The January 1, 2004, sunset ensures that the State will have to revisit this issue next year.

Because North Carolina's estate tax is based upon the federal credit for state death taxes, the repeal of the state death tax credit in 2005 and the ultimate repeal of the federal estate tax in 2010 will mean that the State must decide whether to replace or repeal its estate tax in the future.

Accelerated Depreciation Provisions: Under the Job Creation and Worker Assistance Act of 2002, a taxpayer is allowed an accelerated 30% bonus depreciation allowance for certain assets placed in service after September 11, 2001, and before September 11, 2004. The taxpayer is still entitled to the normal first-year depreciation on the remaining basis of the asset after reducing the basis by the bonus depreciation. This provision affects both corporate and individual income taxpayers.

The change in federal law results in a taxpayer recovering the basis in the asset sooner than under former law; however, over the life of the asset the taxpayer still receives the same benefit. This act does not conform State law to the accelerated depreciation schedule allowed under federal law.[40] However, under this act a taxpayer will continue to be able to

---

[38] As of July 1, 2002, 37 other states, plus the District of Columbia, impose only the "pick-up tax".

[39] As of October 2, 2002 the following 10 states, in addition to North Carolina, have acted to decouple from the phase-out of the state death tax credit: Maine, Maryland, Massachusetts, Minnesota, Nebraska, New Jersey, Pennsylvania, Rhode Island, Vermont, and Wisconsin. The following 5 states, plus the District of Columbia, will remain decoupled automatically under their current law unless they take legislative action: Kansas, New York, Oregon, Virginia, and Washington.

[40] As of September 26, 2002, the following 23 states, plus the District of Columbia, which previously followed federal depreciation rules, are now decoupled as the result of explicit legislative action: Arizona, Connecticut, Georgia, Hawaii, Illinois, Indiana, Iowa, Maryland, Massachusetts, Minnesota, Mississippi (per ruling of state tax commissioner), Missouri (for one year), Nebraska, New Jersey, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont (for corporate income tax filers only), Virginia, and Wisconsin. In

deduct the same amount of an asset's basis under both federal and State law; it is just that the timing of the deduction will differ. To accomplish this decoupling from the federal accelerated bonus depreciation, the act does two things:

- For the first three years of the federal accelerated depreciation, it provides that a taxpayer must add back to federal taxable income a percentage of the additional 30% accelerated depreciation in the year the accelerated depreciation is claimed for federal purposes.[41] The percentage is 100% for the 2001 and 2002 taxable years and 80% for the 2003 taxable year. There is no add-back for the 2004 taxable year. The add-back for the first three years of the accelerated depreciation means that for State tax purposes, a taxpayer would deduct less in tax years 2001-2003 than the taxpayer would have deducted if the State conformed to the accelerated depreciation law. The amount of the deduction will be the normal first year depreciation on the remaining basis of the asset after reducing the basis by the bonus depreciation amount allowed under federal law plus 30% of the bonus depreciation in 2003. In 2004, the State will have in effect conformed to the federal law and the entire bonus depreciation may be deducted.

- In tax years beginning on or after January 1, 2005, it provides that the taxpayer may deduct from federal taxable income the total amount of the add-backs required in earlier years, divided into five equal installments. This means that for State tax purposes, a taxpayer would be allowed to deduct a greater depreciation amount in the outlying tax years – the normal depreciation amount plus 20% of the accelerated depreciation amount the taxpayer had to add back. The purpose of this recovery provision is to enable the taxpayer to have the same basis in assets for federal and State purposes. Without this deduction provision, a taxpayer would have a different basis in the depreciable asset for State and federal purposes and would have to keep separate books and records for State and federal purposes until the disposal of the asset. In effect, the add-back and subsequent deduction will affect the timing of the impact of bonus depreciation on the State but it will not increase or decrease the total amount of revenue the State receives over the affected years.

Gift Tax Change: North Carolina imposes a gift tax on property transferred during the life of a donor. Gifts to a spouse are exempt from tax. The gift tax law allows an annual exclusion of $10,000.

The federal gift tax annual exclusion is more complex. Since 1998, the $10,000 federal gift tax annual exclusion has been subject to an inflation adjustment. The adjustment happens only in increments of $1,000 however. From 1998 until 2001, inflation had not grown enough to reach the first $1,000 increment. In 2002, that threshold was reached and the federal annual exclusion increased to $11,000. This amount won't increase to $12,000 until the cumulative inflation adjustment is at least 20%.

---

addition, New York City has decoupled from the bonus depreciation allowance. Six other states are decoupled automatically under pre-existing tax law: Arkansas, Idaho, Kentucky, New Hampshire, South Dakota, and Texas.

[41] For tax years beginning before January 1, 2002, the add-back must be taken in the first taxable year beginning on or after January 1, 2002, so that the taxpayer will not recognize any retroactive tax increase.

Part 30C amends North Carolina's gift tax annual exclusion to piggyback the federal amount, effective January 1, 2002.

UNAUTHORIZED SUBSTANCE TAX EXPENSES

Part 30D of this act allocates to local governments 70% of the State's expenses in collecting the unauthorized substance tax. The expenses would be drawn from local sales tax revenues. Under existing law, the following expenses are deducted from local sales tax distributions: costs of the Property Tax Division within the Department of Revenue, costs of the Property Tax Commission, the costs of the Institute of Government in operating a training program in property tax appraisal and assessment, and the costs of the Local Government Commission.

The General Assembly first imposed the unauthorized substances tax in 1989 to generate revenue for State and local law enforcement agencies and for the General Fund. Seventy-five percent of the tax collected is distributed to the State or local law enforcement agency that conducted the investigation that led to the tax assessment. The remaining 25% is credited to the General Fund. This act does not change this revenue allocation.

INSURANCE REGULATORY CHARGE[42]

Part 30E of this act sets the insurance regulatory charge at the same rate as last year's rate: 6.5% for the 2002 calendar year. The insurance regulatory charge is a fee that was enacted in 1991 to defray the State's cost of regulating the insurance industry. The charge is a percentage of each insurance company's premiums tax liability. The insurance regulatory charge is imposed on insurance companies, health maintenance organizations, and medical service corporations. For health maintenance organizations and medical service corporations, the fee is levied on each company's hypothetical gross premiums tax liability determined at the 1.9% gross premiums tax rate applied to its premiums base. The hypothetical calculation is necessary because medical service corporations and health maintenance organizations pay premiums tax at a lower rate.

REGULATORY FEE FOR UTILITIES COMMISSION

Part 30F of this act sets the tax rate for the public utility regulatory fee for the 2002-2003 tax year at the same rate as last year's rate: 0.1%. This rate must be set by the General Assembly each year. The utility regulatory fee is a tax that was first imposed in 1989. The proceeds of the fee are credited to the Utilities Commission and Public Staff Fund and used to defray the State's cost in regulating public utilities. The regulatory fee is imposed on all utilities that are subject to regulation by the North Carolina Utilities Commission. The fee is a percentage of the utility's North Carolina jurisdictional revenues. In general, jurisdictional revenue is revenue derived from providing utility service in North Carolina.

In addition to funding the State's cost in regulating public utilities, the money in the Utilities Commission and Public Staff Fund is currently used to finance the work of the Study Commission on the Future of Electric Service in North Carolina. The General Assembly established the Commission in 1997 to examine the cost, adequacy, availability, and pricing of electric rates and service in North Carolina to determine whether legislation is necessary to assure an adequate and reliable source of electricity and economical, fair, and equitable

[42] See the summary for S.L. 2002-144 for additional changes made to the insurance regulatory charge.

rates for all consumers of electricity in North Carolina. Section 14.10 of S.L. 2000-67, the Current Operations and Capital Improvements Appropriations Act of 2000, extended the life of the Study Commission and its funding from the Utilities Commission and Public Staff Fund through June 30, 2006.

Part 30F also sets at $200,000 for the 2002-2003 fiscal year the annual public utility regulatory fee imposed on electric membership corporations whose principal purpose is to furnish or cause to be furnished bulk electric supplies at wholesale. This is the same rate that was in effect for the 2001-2002 fiscal year. The North Carolina Electric Membership Corporation is the only electric membership corporation that fits this description. The proceeds of the fee are credited to the Utilities Commission and Public Staff Fund and used to defray the State's cost in regulating electric membership corporations.

The 1999 General Assembly authorized electric membership corporations to form subsidiary corporations that may provide energy services and products, telecommunications services and products, and water and wastewater collection and treatment. The subsidiaries must fully compensate the electric membership corporation for its use of the corporation's personnel, services, equipment, and property. The Utilities Commission is charged with regulating this aspect of the subsidiary's business and, to pay for this regulation, the 1999 legislation levied a flat-rate regulatory fee to be paid annually by the North Carolina Electric Membership Corporation. The General Assembly must establish the fee amount each year. The North Carolina Electric Membership Corporation is the only electric membership corporation whose principal purpose is to furnish or cause to be furnished bulk electric supplies at wholesale, as provided in G.S. 117-16. It is a "generation and supply cooperative" owned by its members. Its members are all but one of the existing North Carolina electric membership corporations, which are "distribution cooperatives." Thus, the fee imposed on the North Carolina Electric Membership Corporation will be passed on to its member electric membership corporations.

CLOSE CORPORATE TAX LOOPHOLES

This Part closes two corporate tax loopholes that allow some corporate profits to escape taxation and give corporate tax planners an opportunity to avoid existing taxes on corporate income and assets. The first loophole is caused by the definition of business income used in the corporate income tax law; the second loophole is caused by the different franchise tax treatment of corporations and limited liability companies.

Definition of Business Income: The first section of this Part amends the definition of "business income" to include all income that is apportionable under the U.S. Constitution, effective for taxable years beginning on or after January 1, 2002.

Corporations that do business in more than one state divide up their income among those states for income-tax purposes. Business income is apportioned based on a formula that takes into account how much sales, property, and payroll the corporation has in each state. Nonbusiness income is allocated to a state based on its connection with that state. In the most basic terms, nonbusiness income could be described as income that is earned in an unrelated sideline activity of the corporation.

As an analogy, each interstate corporation's income is in two "pies" – a business income pie that is divided up among the states in which it does business, and a nonbusiness income pie that is given entirely to the state it is connected to.

In an ideal system, all states would follow the same rules for dividing up interstate corporations' income for tax purposes, so that no more and no less than 100% of every corporation's net income would be subjected to state income tax. However, different states have different laws and even when the laws are the same, they may be interpreted differently. In theory, this can result in the taxation of more than 100%, as well as less than 100%, of a corporation's net income. In practice, corporate tax planners take the opportunity to create "nowhere" income – income that no state can tax. Instead of each state receiving its piece of the business income pie, some pieces are thrown away. Thus, although a corporation may do substantial business in North Carolina, much of its otherwise taxable business income may be characterized as nonbusiness, so that North Carolina gets no piece of it.

These tax avoidance schemes are possible not only because different states have different laws, but also because states have laws that are vague or too narrow. In North Carolina, before this act, income was defined as business income if it related to the regular trade or business of the taxpayer. This definition is vague and narrower than what is allowed under the United States Constitution. If North Carolina was entitled to tax a significant percentage of a corporation's business income, the corporation could try to shift much of its income into the nonbusiness pie, which North Carolina does not share in. This could be true even though the corporation had deducted as a business expense the same items that it later claimed were not business items when the time came to pay tax on profits. Court decisions in North Carolina upheld this tax avoidance technique under the law prior to this act. Examples of the types of business income that corporations most often recharacterize are rents, royalties, gain or loss from the sale of property, interest, and dividends.

This Part changes the definition of business income to include any income that the United States Constitution allows a state to treat as business income. This change eliminates the prior statute's vagueness and narrowness, which allowed it to be used by corporations to create "nowhere" income that should otherwise be taxable in North Carolina. One effect of this change is to include income from extraordinary events, such as a liquidation of a division, in apportionable income. This effect is consistent with the Department of Revenue's historical position, as illustrated by its administrative rules, before the North Carolina Supreme Court's decision in *Lenox v Tolson*.[43] A corporation's income earned out of state from unrelated business activity that makes up a discrete business enterprise will continue to be nonbusiness income that cannot be apportioned – it would continue to be allocated to the state to which it is connected.

---

[43] 353 N.C. 659, 548 S.E.2d 513 (S.Ct. 2001). In this case, Lenox, a New Jersey-based corporation, disposed of a subsidiary, ArtCarved, by selling all of its assets. Lenox did not retain any of the liquidation proceeds for use in its ongoing operations but distributed all of those proceeds to its sole shareholder. Lenox classified the gain from the sale as "nonbusiness income" on its North Carolina tax return and therefore did not pay taxes on the gain. The NC Department of Revenue reclassified the gain as business income and assessed corporate income tax. Lenox paid the tax under protest and sought a refund. Of the two tests used to determine business income, only the "functional test" applied to this transaction. The functional test focuses on income from property if the acquisition, management, and/or disposition of the property was an integral part of the corporation's regular business operations. The Court concluded that, under this test, a liquidation was an extraordinary event and not a recurring transaction made in the regular course of business. The Court further held that when a transaction involves a complete or partial liquidation and cessation of a company's particular line of business, and the proceeds are distributed to shareholders rather than reinvested in the company, any gain or loss generated from that transaction is nonbusiness income. In so holding, the Court expressly disavowed statements by the Court three years earlier in *Polaroid v Offerman* with regard to its interpretation of the functional test.

Before this act, North Carolina was one of 26 states that used the vague, unnecessarily narrow definition of business income. Eighteen states have a broader definition of business income. Five other states have the same law as enacted by this Part (define business income as all that the U.S. Constitution allows state to apportion). Thirteen states apportion all corporate income. A state using this approach receives less revenue than if it used the approach taken by this Part, because it relinquishes the right to tax true nonbusiness income of businesses headquartered in the state. The 13 states include Georgia, South Carolina, and Virginia.

LLC Franchise Tax: In 2001, the General Assembly enacted S.L. 2001-327 to close a loophole that allowed corporations to avoid franchise tax on their assets by transferring their assets to a controlled limited liability company (LLC). Corporations pay franchise tax on their assets but LLCs do not pay franchise tax on their assets. Tax planners helped many corporations avoid most of the franchise tax they would otherwise owe by setting up an LLC for the purpose of holding the assets on behalf of the corporation. Although the corporation's business continued in the same way, the corporation eliminated most of its franchise tax through this paper transaction.

The 2001 legislation tried to address this problem by requiring a corporation to pay tax on assets owned by the LLC if the corporation, including its affiliated corporations, indirectly owned[44] at least 70% of the LLC's assets. Unfortunately, tax planners found that the tax could still be avoided by using an additional paper transaction. If the corporation interposed a partnership between itself and the LLC holding its assets, then technically the 2001 legislation would not apply and the assets would continue to escape franchise tax.

The second section of this Part broadens the approach of the 2001 legislation to include "related members" (other entities and individuals) who may partner with one or more corporate entities to own the LLC to which the corporate assets are transferred. This section is effective beginning with payments due in March 2003. "Related members" is a defined term and includes shareholders, partnerships, etc.

If a corporation and its related members together indirectly own at least 70% of an LLC's assets, this Part provides that each corporation pays franchise tax on its relative share of the LLC's assets. The relative share is calculated after excluding those related members who are not corporations. Thus, the entire assets are subject to franchise tax, with the tax burden shared proportionally by the corporations that are involved in the ownership scheme.

Here is an example:

A parent corporation, its subsidiary, and a major shareholder of the parent form a partnership to own an LLC that will own assets on behalf of the parent and subsidiary. The LLC's documents provide that upon dissolution its assets are distributed as follows:

Parent Corporation:	20%
Subsidiary Corporation:	45%
Shareholder:	35%

Under prior law, the assets would remain free of franchise tax. Under the changes in this Part, the parent corporation will pay franchise tax on 31% of the assets and the subsidiary

[44] Indirect ownership of an LLC's assets is determined based on who is entitled to receive those assets upon dissolution of the LLC.

corporation will pay franchise tax on 69% of the assets. Those are their relative shares of the total once you exclude the non-corporate owner.

The approach taken by this Part is much broader than the 2001 legislation and is intended to anticipate the creative paper relationships tax planners may devise to try and avoid the franchise tax. The breadth of the provision is such that it could apply to a "legitimate" situation, such as an individual who is the sole shareholder of a corporation and who later forms an LLC with an associate. Under this Part, the corporation would pay tax on the LLC's assets. Unfortunately, there does not appear to be a way to distinguish this type of situation from one in which the corporation is manipulating relationships to avoid its franchise tax. With different tax treatment of similar entities, tax planners can try to manipulate relationships to fall into the untaxed category. Because corporations and LLCs are similar, there may not be a strong policy reason to treat them differently for franchise tax purposes.

HOUSING TAX CREDIT EFFECTIVE DATE CHANGE[45]

Part 30H of this act enlarges the class of taxpayers eligible for an enhanced credit for investing in low-income housing in a county that sustained severe or moderate damage from a hurricane in 1999. In 1999, the General Assembly enacted a new tax credit for rehabilitating or constructing low-income housing. The credit is equal to a percentage of the amount of the taxpayer's federal credit for low-income housing with respect to eligible North Carolina low-income housing. The credit is 75% for buildings located in tier one or two counties and 25% for buildings located in other tiers. In 2000, the General Assembly enacted legislation providing that the 75% credit is also allowed for buildings located in one of 26 counties that sustained severe or moderate damage from a hurricane in 1999. This increase in the amount of the credit was made effective for buildings that are allocated a federal credit on or after January 1, 2001. The federal tax credits are allocated in December of each year. Thus, those taxpayers who made investments in hurricane counties and were allocated federal credits in December 2000 are not eligible for the enhanced State credit. This act backdates the effective date for eligibility for the enhanced State credit from 2001 to 2000, thereby including those who were allocated federal credits for investments in hurricane counties during 2000.

Subsidiary Dividend Changes

Session Law	Bill #	Sponsor(s)
S.L. 2002-136	HB 1670	Representative Luebke

AN ACT TO CLARIFY THE EXPENSE ATTRIBUTION LAW AS IT APPLIES TO DEDUCTIBLE DIVIDENDS AND TO PROVIDE LIMITS ON THE POTENTIAL TAX LIABILITY.

OVERVIEW: This act provides certainty and clarity to the expense attribution law as it applies to deductible dividends and provides limits on the potential tax liability.

---

[45] See the summary for S.L. 2002-87 for a more complete explanation of the substantive changes made to the housing tax credit.

FISCAL IMPACT: The act assures the State of the revenues relied upon in its budget availability estimates for 2001 and 2002. Under the act, the State may expect to receive approximately $57 million a year for 2001, 2002, and 2003 from the taxation of subsidiary dividends. Of this amount, the State expects to receive approximately $80 million in availability for the 2002-03 budget.

EFFECTIVE DATE: The act becomes effective for taxable years beginning on or after January 1, 2001.

BACKGROUND: The 2001 General Assembly enacted legislation conforming State law to the federal rules for the deduction of dividends received. This change eliminated the adjustments that had previously been required to reflect differences between the federal and State dividends deduction. Eliminating the adjustments also made the dividends subject to the general State law that expenses related to untaxed income cannot be deducted from taxable income. As a result, expenses related to deductible dividends must be netted from those dividends.[46] The law did not provide guidelines for calculating the amount of expenses that are related to deductible dividends.

Without knowing exactly how to determine the amount of related expenses, taxpayers were faced with uncertainty and potentially greater liability than they had anticipated when the legislation was debated. The new law was expected to have an especially significant impact on bank holding companies and electric power holding companies, because federal law requires them to have multiple subsidiaries.

ANALYSIS: The act provides clarity to the expense attribution law as it applies to deductible dividends and provides limits on the additional tax liability. These limits were calculated so that the act should yield revenue at least equal to what had been included in budget availability estimates based on the 2001 law.[47] The act states the intent of the General Assembly that it will be effective during 2001 and 2002 but will be studied and may be revised effective beginning with the 2003 tax year. However, the act does not sunset.

In summary, the act limits tax liability as follows:

- There are caps on the amount of related expenses that must be netted from deductible dividends as follows:
    - Most companies: 15% of dividends
    - Bank holding companies: 20% of dividends
    - Electric power holding companies: 15% of total interest expenses

---

[46] North Carolina has an exception to its general law where federal and State laws differ regarding the taxability of an income item. Prior to the 2001 changes, companies were able to use the exception to deduct expenses associated with deductible dividends earned from subsidiaries. The 2001 tax law change effectively eliminated the deduction of expenses associated with subsidiary dividends.

[47] After many discussions with the Department of Revenue and the interested parties about the impact of the expense attribution rules, it became clear that the 2001 estimate of $32.8 million understated the impact of the indirect change in the expense attribution rules. The reason for the under-estimate is that the Department of Revenue's analysis of the 2001 legislation, which used confidential tax returns for the 1994 tax year and an update of the 1994 data, did not include financial institutions. The budget enacted by the 2002 General Assembly included $50 million in additional budget availability from a re-estimate of the 2001 legislation.

- The additional tax that a bank holding company and its related companies must pay as a result of the expense netting is subject to a maximum of $11 million per corporate family.
- Bank holding company corporate families also receive a credit beginning in 2003. For bank corporate families that reach the $11 million maximum, the credit is $2 million. For other bank corporate families, the credit is equal to the amount of tax reduction that would result if bank holding companies were subject to a 15% cap rather than a 20% cap. These credits may be taken against income tax or franchise tax and are spread out over four tax years beginning in 2003.
- Electric power holding companies receive a credit equal to one-half of the additional tax that each must pay as a result of the expense netting. The credit is taken in the following year. The credit may be taken against income tax or franchise tax. As an alternative, an electric power holding company may elect to allocate the credit among the members of its affiliated group. If the electric power company makes this election, then the credit is spread out over four tax years, beginning in 2003.

SECTION-BY-SECTION ANALYSIS:

Section 1:	For federal tax purposes, dividends are deductible with no adjustment for related expenses. For State tax purposes, no deduction is allowed for expenses related to nontaxable income. Therefore, for State tax purposes, an adjustment must be made to federal taxable income to add-back any related expenses that were included in the federal deduction. This section provides that not all of the expenses must be added back by establishing a different adjustment for expenses related to dividends received that are not taxed.
Section 2:	This section establishes the adjustment for expenses related to dividends received that are not taxed, by providing a cap on the amount of tax payable: 15% of nontax dividends for most companies; 20% of nontax dividends for bank holding companies; and 15% of total expenses for electric power holding companies. The act also provides a credit for bank holding companies and electric power companies. Any unused portion of the credit may be carried forward to succeeding taxable years.
Section 3:	A conforming change to ensure that related expenses are deducted only once when calculating a corporation's net economic loss.
Section 4:	A conforming change that provides the same tax treatment for foreign source dividends as domestic source dividends.
Section 5:	States the intent of the General Assembly to address the issues raised by this act during the 2003 Regular Session. The Revenue Laws Study Committee is to study the treatment of expenses related to dividends received and other income not taxed, and the taxation of affiliated corporations, of holding companies, and of financial institutions under current law. The Committee must report its recommendations to the 2003 General Assembly.
Section 6:	Provides that a taxpayer will not be subject to additional tax or to penalties for underpayment of a tax to the extent the underpayment was created or increased by Section 3 of S.L. 2001-327 if the taxpayer pays all

	tax due that was created or increased by Section 3 of S.L. 2001-327 within 15 days after the date this act became law, October 3, 2002.

Insurance Regulatory Fund Changes

Session Law	Bill #	Sponsor
S.L. 2002-144	HB 1105	Representative Hurley

AN ACT TO FUND THE OPERATIONS OF THE DEPARTMENT OF INSURANCE FOR THE FISCAL YEAR 2002-2003 THROUGH THE INSURANCE REGULATORY FUND BY EXPANDING THE PURPOSES FOR WHICH THE FUND MAY BE USED AND BY CREDITING VARIOUS FEES COLLECTED BY THE DEPARTMENT AND OTHER AGENCIES UNDER THE DEPARTMENT INTO THE FUND FOR FISCAL YEAR 2002-2003, AND TO RESTORE THE 2002-2003 BUDGET REDUCTIONS SUSTAINED BY THE DEPARTMENT OF INSURANCE.

OVERVIEW: This act makes two changes relating to the Department of Insurance:

- It restores the $1.8 million budget cut the Department sustained for the 2002-2003 fiscal year in the Current Operations, Capital Improvements, and Finance Act of 2002. The increased appropriation from the General Fund will be reimbursed from the Insurance Regulatory Fund, which has a sufficient surplus.
- It provides that for the 2002-2003 fiscal year, certain fees collected by the Department of Insurance will no longer be retained as part of the Department's budget but will be credited to the Insurance Regulatory Fund and used to reimburse the General Fund for the Department of Insurance's expenses. The act was intended to appropriate to the Department for 2002-2003 the amount by which the fee changes reduce its budget, $3.2 million, but the appropriation was omitted by oversight. The Department is expected to receive these funds, however, through authorization from the legislative leadership.

FISCAL IMPACT: See Overview.

EFFECTIVE DATE: The act is effective for the 2002-2003 fiscal year only.

ANALYSIS: The two changes made by this act are not related, although both affect the Department of Insurance. Sections 9 and 10 of the act restore the $1.8 million budget cut the Department sustained for the 2002-2003 fiscal year in the Current Operations, Capital Improvements, and Finance Act of 2002. This restoration does not affect the General Fund. Although the Department of Insurance's budget is appropriated from the General Fund, the Insurance Regulatory Fund reimburses the General Fund for the appropriation. The additional $1.8 million is available as a surplus in the Insurance Regulatory Fund to

reimburse the General Fund for the additional appropriation. Thus, neither the cut nor its restoration affected the General Fund.

The Department of Insurance regulates the insurance industry and other industries. Insurance companies pay an annual insurance regulatory charge that is measured as a percentage of each company's gross premiums tax. The proceeds of the charge are credited to the Insurance Regulatory Fund. Other industries regulated by the Department of Insurance also pay fees that are credited to the Insurance Regulatory Fund. The Fund is used to pay for the part of the Department's budget that goes to regulating the insurance industry and other industries. The funds are not paid to the Department of Insurance directly from the Insurance Regulatory Fund. Instead, the Department's budget is appropriated from the General Fund, and the Insurance Regulatory Fund reimburses the General Fund for the Department's costs of regulating the industries whose fees are credited to the Insurance Regulatory Fund.

In addition to regulating industries, the Department of Insurance has other functions relating to various State boards and commissions: the North Carolina Manufactured Housing Board, the State Fire and Rescue Commission, the Building Code Council, the North Carolina Code Officials Qualification Board, the Public Officers and Employees Liability Insurance commission, the North Carolina Home Inspector Licensure Board and the Volunteer Safety Workers Compensation Board. The Department's budget for these activities is supported by fees. The fees are collected and retained by the Department and used to cover these costs – there is no General Fund appropriation for these costs.

Sections 1 through 8 of this act change the way this part of the Department's budget is handled for the 2002-2003 fiscal year. Instead of retaining the fees, the Department of Insurance will deposit the fees in the Insurance Regulatory Fund. This eliminates the fee proceeds that would have been available to the Department to support these activities. The act was intended to appropriate additional funds from the General Fund to the Department of Insurance to support these activities. The additional appropriation would have been reimbursed to the General Fund from the Insurance Regulatory Fund, so there would have been no net fiscal impact, just an accounting change. Due to an oversight, the act failed to appropriate the additional funds to the Department of Insurance. The Department is expected to receive these funds, however, through authorization from the legislative leadership.

The act amends the Insurance Regulatory Fund statute to expand the purposes for which the Fund can be used for the 2002-2003 fiscal year, to cover not just regulating the insurance industry and other industries, but also carrying out other functions relating to boards and commissions. The insurance regulatory charge and the other fees paid into the Fund are not segregated from one another. Thus, a fee paid by one industry may end up being used for a function of the Department that relates to another industry. This pooling of the fees calls into question whether they can continue to be characterized legally as fees.

The issue of whether the insurance regulatory charge is a fee or a tax was raised in a recent case, *State Farm Mut. Auto. Ins. Co. v. Long*, 129 N.C.App. 164, 497 S.E.2d 451 (1998), aff'd 350 N.C. 84, 511 S.E.2d 303 (1999). In this case, the court evaluated the insurance regulatory charge under a three-part test used to distinguish a tax from a fee: (1) is it imposed by a

legislative body or an administrative body; (2) is it imposed on a broad class or a narrow class of citizens; and (3) is it used for general public purposes, or used for the regulation or benefit of the parties upon whom the assessment is imposed. The court found that under the first two factors, the insurance regulatory charge could be either a fee or a tax. It held that the third factor was dispositive: the charge was a fee because it was credited to a segregated account and used only to regulate the insurance industry. Because this act broadens the purposes for which the charge may be used to include activities of the Department of Insurance that are not related to regulating the insurance industry, if the issue is raised in subsequent litigation, a court may find that the act changed the nature of the charge from a fee to a tax.

If the charge were ruled to be a tax rather than a fee, it would reduce the amount of revenue North Carolina receives as a result of the retaliatory premiums tax. The retaliatory premiums tax is imposed on foreign insurance companies doing business in North Carolina and is equal to the amount by which the NC premiums tax imposed on the company is less than the amount of premiums tax the company's home state would impose on an equivalent NC company doing business there. Because the insurance regulatory charge is considered a fee and not a tax, it is not added to the amount of NC tax used to calculate the retaliatory tax due. The lower the NC tax, the more retaliatory tax due.

Interstate Air Couriers - Bill Lee

Session Law	Bill #	Sponsor
S.L. 2002-146	HB 1665	Representative Gray

AN ACT TO AMEND TAX LAWS RELATED TO INTERSTATE AIR COURIERS AND TO AMEND THE WAGE STANDARD UNDER THE WILLIAM S. LEE QUALITY JOBS AND BUSINESS EXPANSION ACT TO ACCOUNT FOR THE VALUE OF HEALTH INSURANCE TO PART-TIME JOBS.

OVERVIEW: This act rewrites the wage standard under the William S. Lee Quality Jobs and Business Expansion Act (hereinafter Bill Lee Act) to allow part-time jobs for which the taxpayer provides health insurance to be counted as having wages at least equal to the standard multiplied by the applicable average weekly wage for the county in which the jobs will be located. The act also makes the following changes to the Bill Lee Act as it applies to air courier hubs:

- Rewrites the definition of interstate air courier hub to conform to industry practice.
- Extends the Bill Lee Act sunset of January 1, 2006, to January 1, 2010, for an interstate air courier that enters into a major real estate lease on or before January 1, 2006, with an airport authority.
- Allows an interstate air courier that has, or is constructing, a hub in North Carolina to qualify for enhanced incentives if the courier makes an investment of $150 million or more within a seven-year period.

- Extends the sunset on the Piedmont Triad Airport Authority's exemption from the bidding laws from January 1, 2008, to January 1, 2010.

FISCAL IMPACT: The initial estimates of the impact of the Fed Ex incentives in 1998 have not changed with the delay in the project. The 1998 estimates indicated that the lower sales tax rate on handling and storage equipment would amount to $.4 million for the first two years that the project is getting started and $.1 million per year thereafter. The impact of the sales tax exemption for lubricants and repair parts comes into play after the facility is up and running. The estimate for this incentive is $.2 million a year. The uncertainty surrounding the timing of the project means that it is impossible to predict which year the impacts begin. Under current scheduling, the first year of the handling and storage equipment incentive could be 2005-06. The costs of the sales tax incentives will not occur until at least 2005-06.

In addition, the extension of the Bill Lee Act's sunset from 2006 to 2010 for interstate air couriers will allow Fed Ex and other eligible taxpayers to take tax credits under the Act during the 2006-09 period. Data from the State's 1998 offer of financial benefits to Fed Ex indicated that Bill Lee Act credits of $2 million would be taken over a four-year period.

EFFECTIVE DATE: The air courier hub definition rewrite became effective October 1, 2002, and applies to sales made on or after that date. The bidding law exemption effective date change became effective when the act became law, October 7, 2002. The remaining provisions in the act are effective for tax years beginning on or after January 1, 2002.

BACKGROUND: The Bill Lee Act was enacted in 1996, effective beginning with the 1996 tax year with a 2002 sunset. The Act is a package of State tax incentives and has been modified in each subsequent year. The incentives are primarily in the form of tax credits for investment in machinery and equipment and real property, for job creation, for worker training, and for research and development. Counties are divided into five economic distress tiers based on the unemployment rate, per capita income, and population growth of the county. For many of the credits, the lower the tier of a county, the more favorable the incentive. The Act requires the Department of Commerce and the Department of Revenue to report periodically on the credits allowed by the Act.

Before 1996, North Carolina had made little use of tax incentives to lure businesses to the State. Even without incentives, North Carolina was consistently one of the top states in attracting industry. The array of credits authorized by the Bill Lee Act was viewed as an experiment, to be evaluated in five years to determine whether the incentives were cost effective and actually affected behavior, or merely provided tax reductions to businesses that would have located or expanded in any case. In 1997, the General Assembly amended the Bill Lee Act to make interstate air couriers[48] an eligible business under the Act. In 1999, the General Assembly extended the 2002 sunset to 2006.

To be eligible for the credits under the Bill Lee Act, jobs must meet the applicable wage standard. There is no wage standard for jobs located in tiers one and two.[49] The wage

[48] An air courier is an air carrier that delivers individually addressed letters, parcels, and packages. Examples of air couriers include UPS and Federal Express.

[49] S.L. 2002-172 eliminated the wage standard in tiers one and two.

standard for tiers three through five is 110% of the applicable average weekly wage for the county. For the credit for worker training or the credit for creating new jobs, the average wage of the jobs for which a credit is claimed and the average wage of all jobs at the location are required to meet the applicable wage standard. For the credit for investing in machinery and equipment, the credit for research and development, and the credit for investing in central office and aircraft facility property, the average wage of all jobs at the location with respect to which a credit is claimed are required to meet the applicable wage standard.

In 1998, the General Assembly provided sales tax and property tax reductions for interstate air couriers in order to encourage the development of air courier hubs in North Carolina. Effective January 1, 2001, sales to an interstate air courier of equipment for handling and storing materials at its hub became subject to a reduced sales tax of 1%, capped at $80 per item. In addition, interstate air couriers enjoy a sales tax exemption for purchases of aircraft lubricants, aircraft repair parts, and aircraft accessories for use at the air courier's hub in this State. Effective beginning with the 2001 property tax year, there is a property tax exemption for aircraft owned by an air courier and apportioned for property tax purposes to the courier's hub in this State.

ANALYSIS: Section 1 of this act amends the definition of "hub" for interstate air couriers and recodifies the definition of "interstate air couriers" for sales tax purposes. The amendment to the definition of "hub" was needed because the prior definition did not accurately describe hubs. The prior definition stated, in part, that a hub is the airport in the State where the air courier has allocated at least 60% of its aircraft value apportioned to this State. Aircraft value is apportioned based on revenues generated and on the amount of time the aircraft is on the ground. In the case of air couriers, revenue is generated at the customer site, not at the hub. Additionally, aircraft spend very little time on the ground at the hub. For these two reasons, the definition of an air courier hub formerly in the statutes did not fit the factual situation. This act defines a hub as the primary airport in the State for sorting and distributing packages from which the air courier has, or expects to have, at least 150 departures a month. This definition is similar to the definition of "hub" under South Carolina law, but is a more stringent test as South Carolina requires only 25 departures a month.

The definition of "interstate air courier" is not substantively amended. Currently, for sales tax purposes, the definition of interstate air courier refers to the definition used in the Bill Lee Act. In this act, the definition of "interstate air courier" for sales tax purposes is made a stand-alone definition. There is no substantive change to the definition.

Section 2 of this act extends the sunset date on the Bill Lee Act until January 1, 2010, for certain interstate air couriers and Sections 4 through 7 of the act increase various time frames in the act from two years to seven years. The interstate air courier industry, and the construction of a hub in particular, face many regulatory, administrative, and legal hurdles not generally faced by other industries. Due to these extra burdens, time frames in this industry are generally longer than in other industries. There is generally a longer period between the time that a project is announced and a location is selected and the time the facility is placed in service. Due to these longer time frames, it was argued that an extension of the sunset and extensions of various time frames are needed to accommodate these projects.

Section 3 of this act amends the wage standards under the Bill Lee Act for all taxpayers. Currently, in order to be eligible for any of the credits under the Bill Lee Act, the average wage of all jobs at the location must meet or exceed the wage standard for the county in which the jobs are located.[50] Included in this calculation are part-time jobs, converted to a full-time equivalency. Some interested parties argued that because part-time jobs are not eligible for a credit for job creation, they should not be considered in this calculation. The inclusion of part-time jobs can disqualify a project since part-time jobs generally pay less than full-time jobs.

This act takes a middle ground. All part-time jobs must still be considered when the wage calculation is made. However, any part-time job for which the taxpayer provides health insurance will be considered to have a wage that at least meets the applicable average weekly wage. If a part-time job with health insurance has a wage that is less than the applicable average weekly wage, the applicable average weekly wage will be used in making the calculation. If a part-time job with health insurance has a wage that is greater than the applicable average weekly wage, the actual wage of the job will be used in making the calculation.

Section 8 of this act provides an extension of the bidding law exemption for the Piedmont Triad Airport Authority. When the General Assembly enacted certain tax incentives for interstate air couriers in 1998, one provision of that act granted a bidding law exemption for the Piedmont Triad Airport Authority. The exemption became effective beginning January 1, 1999, and applies to design and construction of an air freight distribution facility on airport property, and related supplies, equipment, and services. S.L. 2001-476 (Senate Bill 748) provided an extension of this exemption from January 1, 2004, to January 1, 2008. Upon the request of Fed Ex, this act extends the exemption to January 1, 2010. With this extension, the bidding law exemption would sunset at the same time as the Bill Lee Act for certain interstate air couriers.

Amend Property Tax Laws

Session Law	Bill #	Sponsor
S.L. 2002-156	HB 1523	Representative Hill

AN ACT TO AMEND VARIOUS PROPERTY TAX LAWS.

OVERVIEW: This act is a recommendation of the Revenue Laws Study Committee based on proposals by the North Carolina Association of Assessing Officers and the Department of Revenue. It makes the following changes to the property tax law:

- Increases the minimum penalty for a worthless check from $1 to $25 and provides that the tax collector may waive or reduce the penalty. This change became affective when the act became law, October 9, 2002.

[50] As mentioned above, for the credits for job creation and for worker training, the average wage of the particular jobs for which the credit is claimed must also meet or exceed the applicable average weekly wage.

- Provides a uniform procedure for appeals regarding taxation of personal property and authorizes the board of equalization and review to meet year round to hear these appeals. These changes are effective beginning with the 2003 property tax year.
- Delays from 2002 until 2003 the effective date of a 2001 law that defined certain single-section manufactured homes as real property for tax purposes.
- Adds an additional collection assistance fee of $15 to debts owed to local governments and collected by the Department of Revenue through tax refund setoff, effective January 1, 2003. The fee will be used to pay local governments' costs of submitting debts for collection by setoff.

FISCAL IMPACT: Two provisions of the act are likely to have a fiscal impact. Increasing the minimum charge for a returned check will likely increase local fee revenues. However, granting the assessor the authority to waive the fee will offset some of the increase. The exact amount of this revenue change is unknown. The second potential impact relates to the debt setoff program. The act will reduce the cost of debt collection for local governments and will likely increase program usage. However, no firm estimate is available on the total financial impact for local governments.

EFFECTIVE DATE: See Overview.

ANALYSIS: This act makes a number of changes to the property tax laws. First, it modifies the penalty for giving a worthless check. It increases the minimum penalty from $1 to $25. The penalty is 10% of the amount of the check, subject to the minimum and to a maximum of $1,000. It also authorizes the tax collector to waive the worthless check penalty. Tax collectors do not have the general authority to waive property tax penalties. By comparison, the Secretary of Revenue has general authority to waive tax penalties.

Second, the act provides a uniform procedure and timetable for appeals relating to personal property, effective beginning with the 2003 property tax year. Under prior law, the statutes specified the procedure and timetable for real property appeals but not for personal property appeals; as a result, different counties had adopted different procedures and timetables. This act provides a uniform system: the taxpayer may appeal value, situs, or taxability within 30 days after receiving notice of value. The notice must inform the taxpayer of the 30-day period. The assessor is required to respond to each appeal and the taxpayer has 30 days to appeal the assessor's final decision to the board of equalization and review or the board of county commissioners. The act authorizes boards of equalization and review to sit year-round to hear personal property appeals. In 2001, the General Assembly authorized boards of equalization in review to sit year-round to hear appeals relating to discovered property, motor vehicle taxation, and annual audits of whether property qualifies for special tax treatment.

Third, the act delays from 2002 to 2003 the effective date of 2001 legislation that changed the way manufactured homes are classified for property tax purposes. A manufactured home is defined in G.S. 143-143.9 as:

> A structure, transportable in one or more sections, which, in the traveling mode, is eight feet or more in width or is 40 feet or more in length, or when erected on site, is 320 or more square feet, and which is built on a permanent

chassis and designed to be used as a dwelling with or without a permanent foundation when connected to the required utilities, and includes the plumbing, heating, air conditioning and electrical systems contained therein.

Since 1987, North Carolina law had provided that a manufactured home was considered real property for property tax purposes if it (i) consisted of two or more sections; (ii) had its hitch, wheels, and axles removed; and (iii) was placed upon a permanent foundation on land owned by the owner of the manufactured home. In 2001, the General Assembly removed the requirement that the home consist of two or more sections, effective beginning with the 2002 tax year. After the 2001 act became law, county assessors realized they would not have time to review all the manufactured homes in each county to determine which ones should be reclassified as real property for the 2002 tax year. The assessors had requested an extension until the 2004 tax year, but this act delays the change only until the 2003 tax year.

Fourth, the act imposes an additional collection assistance fee of $15 on debts owed to local governments and collected by the Department of Revenue through tax refund setoff. Under the Setoff Debt Collection Act, the Department of Revenue diverts the income tax refund of an individual who owes money to a State or local agency to pay the debt owed to that agency. The debt the individual owes the agency is set off against the individual's income tax refund. Under existing law, a collection assistance fee of no more than $15 is imposed on debts (other than child support debts) collected by setoff, to reimburse the State for its costs of operating the setoff debt collection program. This act adds an additional collection fee of $15 for debts (other than child support debts) owed to local governments and collected by setoff, effective January 1, 2003. The Department of Revenue will collect the fee as part of the setoff process and remit the fee to the clearinghouse that submits local debts on behalf of local governments. The purpose of the fee is to recover the cost to local governments of submitting debts for collection by setoff. The clearinghouse that submits debts on behalf of local governments was created through a joint agreement between cities and counties; the local governments have also contracted with a third party to process and compile local debts for setoff.

NC Economic Stimulus and Job Creation Act

Session Law	Bill #	Sponsor
S.L. 2002-172	HB 1734	Representative Owens

AN ACT TO ESTABLISH AND MODIFY VARIOUS ECONOMIC INCENTIVE PROGRAMS FOR BUSINESS AND INDUSTRY; TO AMEND PROVISIONS RELATING TO INDUSTRIAL AND POLLUTION CONTROL FACILITIES FINANCING; TO AUTHORIZE PLANNING AND DEVELOPMENT FOR A BIOPHARMACEUTICAL TRAINING CENTER AND A CANCER REHABILITATION TREATMENT CENTER; AND TO MAKE TECHNICAL AND CONFORMING CHANGES.

OVERVIEW: There are six parts to this act. Part 1 of this act amends the Bill Lee Act by scaling back the credit for machinery and equipment in tiers three, four, and five, by eliminating the wage standard in tiers one and two and in development zones, and by eliminating the wage standard for the credit for worker training. Part 2 of the act creates the Jobs Development Investment Grant Program, a discretionary program that awards grants to businesses based on a percentage of employee withholdings over a number of years. Part 3 of the act requires production companies to spend at least $1 million in North Carolina to be eligible for a grant from the Film Industry Development Account. Part 4 of the act makes a technical change to the North Carolina Railroad's condemnation authority. Part 5 of the act eases the public hearing requirements for Industrial Development Bonds to facilitate bonds for smaller manufacturers. Part 6 of the act provides authorization to initiate planning and development of a new biopharmaceutical training center and a cancer rehabilitation treatment center.

FISCAL IMPACT: The Bill Lee Act changes will generate approximately $3.45 million for fiscal year 2003-04, $7 million for fiscal year 2004-05, and $10.56 million for fiscal year 2005-06. No fiscal impact is expected from the changes to the film industry incentives. The Jobs Development Investment Grant Program represents a significant change from the structure of the Bill Lee Act incentives. It is impossible to determine the exact dollar cost of the Program. However, the Program is limited to 15 projects per year and $10 million in grants per year, and it sunsets on January 1, 2005. Thus the maximum grant amount that may be awarded during the 13 years the Program is in effect is $240 million.

EFFECTIVE DATE: See Analysis.

ANALYSIS: There are six main components to this act: changes to the William S. Lee Quality Jobs and Business Expansion Act (hereinafter Bill Lee Act)[51], the establishment of a new economic development grant program for new and expanding businesses, changes to film industry incentives, changes to the condemnation authority of a railroad company, changes to industrial and pollution control facilities financing law, and authorization to initiate planning and development of a new biopharmaceutical training center and a cancer rehabilitation treatment center.

Part 1. Bill Lee Act: Part 1 makes the following substantive changes to the Bill Lee Act:
Machinery and Equipment. A taxpayer is allowed a credit for the cost of machinery and equipment placed into service during a taxable year that exceeds the applicable threshold based on the location where the machinery and equipment are placed into service. Under prior law, the amount of the credit was equal to 7% of the cost of the machinery and equipment in excess of the applicable threshold. Section 1.1 of this act makes two changes to this credit. First, the amount of the credit is reduced in enterprise tiers three, four, and five. In those areas, the amount of the credit is reduced to 6%, 5%, and 4%, respectively, of the cost of the machinery and equipment in excess of the applicable threshold. Second, the amount of the threshold is increased in enterprise tiers four and five. In enterprise tier four, the threshold is increased from $500,000 to $1,000,000. In enterprise tier five, the threshold is increased from $1,000,000 to $2,000,000. This section is effective for taxable years

[51] For background on the Bill Lee Act, see the summary for S.L. 2002-146.

beginning on or after January 1, 2003, and applies to business activities that occur on or after that date, but does not apply to business activities that occur on or after January 1, 2003, that are subject to a letter of commitment signed before January 1, 2003.

Overdue Tax Debts. If the Secretary of Revenue discovers that any tax is due from a taxpayer, the Secretary must notify the taxpayer in writing of the Secretary's intent to assess the taxpayer for the tax. The notice must describe the basis for the assessment, the amount of tax to be assessed and any interest and penalties due. If the taxpayer disagrees with the assessment, the taxpayer has 30 days to request a hearing before the Secretary. The Secretary must then schedule a hearing to occur within 90 days of the request. Within 90 days after the hearing, the Secretary must issue a decision on the hearing. If the taxpayer does not request a hearing within the 30 days allowed, or if the Secretary finds that the tax is due after the hearing, the proposed assessment becomes a final assessment. If a taxpayer disagrees with a final assessment, the taxpayer may appeal the decision to the Tax Review Board, and then on to superior court, the Court of Appeals, and the Supreme Court. A tax debt is a final assessment after all possibilities for appeal have been exhausted. An overdue tax debt is any part of a tax remaining after 90 days. Section 1.2 would make a taxpayer ineligible for a credit under the Bill Lee Act if the taxpayer had any overdue tax debts. Section 1.5 defines an overdue tax debt. These two sections are effective for taxable years beginning on or after January 1, 2003.

Wage Standard. A taxpayer is eligible for a credit under the Bill Lee Act only if the jobs provided by the taxpayer meet a wage standard. Under prior law, the wage standard was 110% (100% in an enterprise tier one area or a development zone) of the applicable average weekly wage. The jobs that are included in calculating the wage standard vary depending on the particular credit.

Section 1.3 of this act makes three substantive changes to the wage standard. The changes are effective for taxable years beginning on or after January 1, 2003. First, this section eliminates the wage standard in enterprise tier one and two areas. Since the wage standard for a business located in a development zone is the same as for tier one counties, this section also eliminates the wage standard for a development zone area.

Second, this section eliminates the wage standard for the credit for worker training. In order to be eligible for the credit for worker training, the employee who is being retrained must either (i) occupy a job for which the taxpayer is eligible to claim a credit for creating jobs, or (ii) be trained to operate machinery and equipment for which a taxpayer is eligible to claim a credit for investing in machinery and equipment. Thus, the jobs for which the credit for worker training may be claimed have already been included in a larger group of jobs that has met the wage standard. Often the specific jobs for which worker training is required are lower-paying jobs that could not themselves meet the wage standard. This change allows the credit for worker training to be taken by more taxpayers.

Third, this section makes an allowance for a taxpayer that has a taxable year other than a calendar year. To perform the wage standard test, the taxpayer compares the average weekly wage of certain jobs to the wage standard determined on an annual basis. The test is performed for the calendar year that jobs are created or for which worker training is provided. However, performing a wage standard test based on a calendar year is not feasible because many companies have taxable years that do not coincide with the calendar year. Consequently, the taxpayer can engage in activity that qualifies for a credit during a taxable

year that spans two calendar years. If the taxpayer creates jobs in different calendar years, it must compute the combined average weekly wage of the jobs created during its taxable year and compare this average to the county wage standard to determine if it qualifies for a tax credit. It cannot, however, compute this average "for the calendar year the jobs are created" as required by the prior law because the jobs are created over the course of two calendar years. Under this act, the wage standard test is based on the taxpayer's taxable year and not the calendar year. When a taxable year spans two calendar years, the applicable wage standard is that of the earlier calendar year. In addition to correcting a practical problem, this change generally will be favorable for taxpayers because county wage standards generally trend upward.

Development Zones. In 1998, the General Assembly amended the Bill Lee Act to provide additional incentives for businesses that locate or expand in development zones, which are economically distressed areas located within cities. The statutory conditions for qualifying as a development zone are designed to target only these relatively small, economically distressed areas.

A development zone is defined as an area that meets all of the following conditions: (1) it consists of one or more contiguous census tracts, block groups, or both, (2) it has a population of 1,000 or more, at least 20% of whom are below the poverty level, (3) it is located at least partly in a city with a population over 5,000, (4) every census tract and census block group in the zone is located in whole or in part within the primary corporate limits of the city, (5) every census tract and census block group in the zone has more than 10% of its population below the poverty level, or is immediately adjacent to a tract or group that has more than 20% of its population below the poverty level, and (6) none of the census tracts or census block groups is located in another development zone.

This act expands this definition of development zone to include all of a parcel of land that is located partially within the zone if all of the following conditions are met:

- At least 50% of the parcel is located within the zone.
- The parcel was in existence and under common ownership prior to the previous decennial federal census.
- The parcel is a portion of land made up of one or more tracts or tax parcels of land that is surrounded by a continuous perimeter boundary.

The following enhanced incentives apply in development zones: If a business locates in a development zone, its maximum worker training credit is $1,000 rather than $500, it receives an additional $4,000 per job on its jobs tax credit, and the credit for investing in machinery and equipment is calculated as if the zone were in a tier one county. In addition, a business located in a development zone does not have to meet a wage standard to be eligible for the credits. This section is effective for taxable years beginning on or after January 1, 2003.

Part 2. Job Development Investment Grant Program. Part 2 of this act creates a new economic development tool for new and expanding businesses in North Carolina. This tool would be used to attract businesses to the State by allowing a five-member committee to award grants to businesses. The amount of the grants would be based on income tax withholdings from new jobs created by the businesses. This part became effective October 31, 2002.

Which projects are eligible for a grant? In order to be eligible for a grant under this program, the business must create a minimum number of new jobs. The number of new jobs that must be created varies based on the enterprise tier designation of the location where the jobs will be located. For projects located in enterprise tiers one through three, the project must create at least 10 new full-time positions. For projects located in enterprise tiers four and five, the project must create at least 20 new full-time positions. If a project is located in more than one location, the enterprise tier designation of the location in the highest enterprise tier area determines the number of new jobs that must be created.

As with the Bill Lee Act, a business must provide health insurance for all full-time jobs associated with the project in order to be eligible for this new program. The test is the same as under the Bill Lee Act – the business must, for all full-time employees of the project, pay at least 50% of the premiums for health insurance that meets at least the minimum provisions of the basic health care plan of coverage recommended by the Small Employer Carrier Committee. In addition, the average wage of all jobs at the location with respect to which a grant is sought must meet the Bill Lee wage standard, as amended by this act. Finally, as with the Bill Lee Act, the business must have no citations under the Occupational Safety and Health Act that have become a final order within the previous three years for willful serious violations or for failing to abate serious violations with respect to the location for which the grant is made.

Unlike under the Bill Lee Act, there are few restrictions based on the industry in which the business is engaged. There are only two types of projects that are ineligible for consideration under this program: retail facilities and professional and semiprofessional sports teams and clubs.

More generally, the project must satisfy the following conditions in order to be eligible for a grant:

- The project will result in net new employment in the State by the business.
- The project will benefit the people of the State by increasing employment opportunities and strengthening the State's economy.
- The project is consistent with economic development goals for the State.
- A grant is needed in order to secure the project for the State.
- The total benefits of the project to the State outweigh the costs associated with the project.

How a grant is obtained? In order to obtain a grant under this program, the business must apply to the Economic Investment Committee for consideration. The Economic Investment Committee is a five-member committee consisting of the Secretary of Commerce, the Secretary of Revenue, the Director of the Office of State Budget and Management, one member appointed by the General Assembly upon the recommendation of the Speaker of the House of Representatives, and one member appointed by the General Assembly upon the recommendation of the President Pro Tempore of the Senate[52]. The members appointed by the General Assembly serve two-year terms. The Committee may act only upon a decision of at least three of its five members. The Committee is subject to the open meetings law and the public records law. Members of the Committee are

[52] The members of the Committee appointed by the General Assembly may not be members of the General Assembly.

forbidden to work for a business that receives a grant under this program for at least two years after the member is no longer on the Committee. A former member of the Committee who violates this prohibition against working for a business that receives a grant under this program must forfeit any compensation received for that work and is prohibited for an additional two years from working for a business that receives a grant under this program.

The application for a grant must be under oath, be on a form prescribed by the Committee, and contain any information required by the Committee. At a minimum, the application must contain the following information:

- The name of the business, the proposed location of the project, and the type of activity in which the business will engage at the project site.
- The names and addresses of the principals or management of the business, and the nature of the business, and the form of business organization under which the business is operated.
- The financial statements of the business prepared by a certified public accountant.
- The number of new jobs proposed to be created by the project.
- An estimate of the withholdings of personal income tax of employees of the project.
- Information concerning other possible locations of the project, and the benefits, including tax benefits or grants, associated with locating the project at that other location.
- Information concerning other State grants for which the business is applying or that it expects to receive.
- Certification that the project will provide health insurance to all full-time employees.

A group of related businesses involved in a project may submit a joint application for a grant under this program.

Any application for a grant must be accompanied by a fee in the amount of $5,000. This fee will be allocated by the Secretary of Commerce, the Secretary of Revenue, and the Director of the Office of State Budget and Management among their agencies.

The Committee will evaluate applications to determine which businesses will receive grants under this program. The awarding of a grant is solely in the discretion of the Committee. The Committee is required to develop criteria for evaluating applications. These criteria must take into consideration the economic impact of the project; the strategic importance of the project to the State, region, or locality; the quality of the jobs to be created; the quality of the industry and the project; the environmental impact of the project; and the degree to which the use of the program has been geographically dispersed throughout the State.

The Committee is required to be somewhat selective in choosing projects to receive a grant. The Committee may not enter into more than 15 agreements in any calendar year. However, there may be significantly more than 15 agreements outstanding at any time because the term

of an agreement may be as long as 12 years. In addition, the Committee may not commit more than $10 million dollars annually with agreements entered into in any calendar year[53].

How is the amount of a grant determined? If the Committee approves a business's application, the Committee will then negotiate and enter into a community economic development agreement with the business. The agreement is a binding commitment on the part of the State to provide the grant for a set number of years, subject to the Committee's right or duty to amend or terminate the agreement under certain circumstances. Each agreement must include a description of the project, the term of the agreement, the number of positions expected to be subject to the grant and a method for determining the number of positions that are subject to the grant, and the amount of the grant as a percentage of the withholdings of personal income tax from eligible positions. The Committee has wide discretion in setting the percentage that determines the amount of a grant under an agreement. The Committee must develop criteria to be used when negotiating the appropriate percentage. At a minimum, the following conditions apply:

- The amount of the grant may not be less than ten percent (10%) or more than seventy-five percent (75%) of the withholdings associated with new jobs at the project.
- The term of the grant cannot exceed 12 years.
- The percentage used to determine the amount of the grant must be reduced by one-fourth for any eligible position located in an enterprise tier four or five area.
- Unless the Committee makes a specific determination that the grant should be calculated based on eligible positions created in additional years during the term of the agreement, the amount of the grant is calculated based only on eligible positions created during the base years (the first two years) of the agreement.
- Unless the Committee makes an explicit finding otherwise, the total amount of all grants provided by the State may not exceed seventy-five (75%) of the withholding of eligible positions.
- The amount of a grant associated with any specific position may not exceed $6,500 in a year.

In addition, the Committee must consider at least the following factors when negotiating a percentage to be used in determining the amount of a grant:

- The number of eligible positions to be created.
- The expected duration of those positions.
- The type of contribution the business can make to the long-term growth of the State's economy.
- The amount of other financial assistance the project will receive from the State or local governments.
- The total dollar investment the business is making in the project.
- Whether the project utilizes existing infrastructure.
- Whether the project is located in a development zone.

---

[53] The total annual commitment may be much more than $10 million dollars. For example, agreements entered into during each of the 2003 and 2004 calendar years could each make commitments of up to $10 million annually, for a total annual commitment of up to $20 million.

- The number of eligible positions that will be filled by residents of a development zone.
- The extent to which the project will mitigate unemployment in the State and locality.

Use of funds? There are no restrictions on the use of the grant fund by the business. South Carolina has a similar grant program. Under the South Carolina program, grant funds may be used for certain specific purposes only, such as worker training, worker relocation, purchase or construction of real property, and construction or repairs to certain transportation-related real property.

The withholdings retained by the State would be used in two different ways. First, the withholdings in excess of the percentage negotiated in the agreement would flow to the General Fund.[54] Second, the withholdings that are included in the agreement, but that are excluded from the grant because the percentage was reduced by one-fourth because the eligible position is located in an enterprise tier four or five area, would be transferred to the Utility Account of the Industrial Development Fund.[55] Funds in the Utility Account may be used to assist local governments in tiers one, two, and three in constructing or improving utility lines or equipment, including telecommunications and high-speed, broadband lines and equipment.[56]

Terms of agreement. The Committee has a great deal of flexibility in negotiating agreements. However, the legislation does require the agreements to include certain provisions, such as information on the new jobs created and a method to verify the positions, reporting requirements, and the reasons for which an agreement may be amended or terminated and the benefits recaptured. In addition, the Attorney General must review the terms of all proposed agreements and must personally sign each agreement.

Followup on grantee businesses. This act provides for monitoring of grantee businesses in several ways and requires the Committee to amend or terminate agreements if the business fails to live up to the terms of the agreement or the requirements of this new program.

The business must submit annual reports to the Committee. In addition, the Committee may audit at any time a business receiving a grant. At a minimum, the business must submit a copy of its federal and State income tax returns which show business and nonbusiness income, a report that shows withholdings, and a payroll report. This annual submission must also include any additional information the Committee considers necessary to implement the grant program.

---

[54] Even though the maximum percentage that may be used to determine the amount of a grant is 75%, there may be no additional revenue from these positions that would flow to the General Fund. This is because most taxpayers over-withhold, meaning that more taxes are withheld than are actually due, resulting in a refund to the taxpayer. Because of this, a grant based on the maximum percentage of 75% could result in a net loss to the General Fund.

[55] The following example will clarify this. Assume a project that is located in an enterprise tier five area is allowed a grant based on 75% of the withholdings of the eligible positions. Because those positions are located in an enterprise tier five area, that percentage is reduced by one-fourth, so that the business is allowed a grant equal to 56.25% of the withholdings of eligible positions. (75% multiplied by ¾ equals 56.25%.) Twenty-five percent of the withholdings of eligible positions would flow to the General Fund, 56.25% would be given to the business in the form of a grant, and 18.75% would be transferred to the Utility Account of the Industrial Development Fund.

[56] Part 2 of this act amended the law regarding the Industrial Development Fund and the Utility Account.

This annual submission must be accompanied by a fee of $1,500. The Committee shall allocate the fee among the agencies responsible for evaluating the submission.

The Committee must also obtain information from the Department of Revenue before the disbursement of a grant. The Department of Revenue must certify the amount of withholdings from the eligible business.

The Committee is required to amend or terminate the agreement and to recapture all or part of a grant made in previous years under certain circumstances. If the business fails to meet or comply with any term of the agreement or with criteria developed by the Committee, the Committee must amend the agreement and may terminate the agreement. This amendment may take the form of a lower percentage being used to determine the amount of the grant or of a shorter term for the agreement. The reduction must be proportional to the failure to comply with the agreement. If the business fails to meet or comply with any term of the agreement or with criteria developed by the Committee for two consecutive years, the Committee must terminate the agreement. In addition, the Committee must include a provision in each agreement describing the conditions that will lead to recapture of a grant made in an earlier year.

As with the Bill Lee Act, as amended by this act, a business that has an overdue tax debt is penalized. A business that has an overdue tax debt may not receive an annual disbursement of a grant so long as that overdue tax debt is not satisfied or otherwise resolved.

Program evaluation. The act requires the Committee to report quarterly and annually.[57] The annual report must include information on the agreements entered into during the year as well as an update on the status of projects for which an agreement was entered into in the past. Additionally, the reports must provide information on the number of jobs created and the tax benefit derived from those positions, the types of jobs created, and the geographic distribution of the grants.

The authority of the Committee to enter into additional agreements begins as of January 1, 2003, and expires as of January 1, 2005. This sunset will allow the General Assembly an opportunity to review the program after it has been in effect for a few years in order to determine if the program is meeting its objectives.

Miscellaneous changes associated with the program. Section 2.2 of this act makes two significant changes to the Industrial Development Fund and to the Utility Account, which is part of that Fund. The Industrial Development Fund provides assistance to local governments for improvements to infrastructure to enable the locality to attract new businesses. Usually, this assistance is provided to make general improvements, such as improvements to or development of industrial parks, and is not tied to luring a specific project.

First, the purposes for which funds in both the Fund and the Account may be used are expanded to allow expenditures for telecommunications and high-speed broadband lines and equipment. Currently, funds under both the Fund and the Account may be used for construction of and improvements to water, sewer, gas, and electricity lines and equipment. This change recognizes the growing importance to industry of telecommunications and high-speed broadband.

---

[57] The Committee must report by April 30th of each year.

Second, under current law, funds in the Utility Account may be used to assist local governments located in enterprise tiers one and two only. This act would expand the focus of the Account to allow funds in the Account to be used to assist local governments in enterprise tier three as well.

Section 2.3 allows an exemption from the confidentiality requirements of the Department of Revenue. Generally, the Department of Revenue must keep confidential all information it receives in the course of administering the tax laws. There are numerous, specific exceptions to this requirement. This act would allow the Department of Revenue to share information with the Economic Investment Committee relating to businesses that are applying for a grant or that are subject to an agreement.

Section 2.4 of this act corrects a statutory reference in two laws dealing with the purposes for which a local government may levy a property tax.

Section 2.5 prohibits a member of the General Assembly from serving on the Economic Investment Committee. Under the constitutional doctrine of separation of powers, legislators cannot serve on executive boards exercising executive functions.

Section 2.6 of this act exempts the Economic Investment Committee from the rule-making process under the Administrative Procedure Act. However, Section 2.1, in G.S. 143B-437.48(d) as enacted by this act, requires the Committee to publish the proposed criteria on the Department of Commerce's web site at least 15 business days prior to the adoption of or an amendment to any proposed criteria. The Committee must also provide notice to persons who have requested notice of proposed criteria and it must accept oral and written comments on the proposed criteria.

Section 2.7 of this act requires the Revenue Laws Study Committee to study the use, the effectiveness, and the cost versus benefit of the Job Development Investment Grant Program, the Bill Lee Act, and the Industrial Recruitment Competitive Fund. Given that the Job Development Investment Grant Program is just starting up, the time frame for the study is longer than usual. Revenue Laws may report to the 2004 Regular Session of the General Assembly and a final report is due by March 15, 2005, to the 2005 General Assembly.

Part 3. Film Industry Incentives. Part 3 of this act amends the Film Industry Development Account to require a minimum expenditure in North Carolina before a project may be eligible for a grant from the Account. The Film Industry Development Account was established in 2000 with the intent of providing economic incentives to production companies for operations in North Carolina. Under the account, a production company is eligible for a grant based on expenditures made in the State. The grant may not exceed fifteen percent of those expenditures. The grant is not available for political or issue advertising or for any production that is considered obscene under G.S. 14-190.1. The amount of the grant may not exceed $200,000. This section adds an additional requirement that the production company have expenditures of at least $1 million in the State. This more narrowly targets this incentive to large productions.

Section 3.2 directs the Revenue Laws Study Committee to study other incentives for the film industry and to report to the 2003 General Assembly. This part became effective October 31, 2002.

Part 4. North Carolina Railroad Condemnation Authority. Part 4 of this act makes a technical correction to the condemnation authority of a railroad. In 1998, State

responsibility for railroad regulation was moved from the Utilities Commission to the Department of Transportation. At that time, G.S. 62-232 was repealed. This section deletes a cross-reference to that statute. This does not appear to have any substantive effect on the power of a railroad to condemn property. This part became effective October 31, 2002.

Part 5. Industrial and Pollution Control Facilities Financing. The Department of Commerce hopes to reinstate a program begun in the late 1980's that would permit small companies to take advantage of industrial development bond financing by grouping several small loans into a single bond issue. In order to make that program workable, the process needs to be as streamlined as much as possible. As currently written, bonds issued under Article 1 of Chapter 159D (for industrial projects) require a public hearing at the local level - that is, by the county commissioners of the county in which the facility will be located. In addition, for those bonds the federal tax exemption rules require a hearing at the state level by the agency, with the result that there would be two public hearings. Bonds issued under Article 2 of Chapter 159D (which are special purpose projects and educational facilities) require a public hearing by the North Carolina Capital Facilities Finance Agency (NCCFFA), with notice to the governing bodies of the localities in which the facilities will be located.

Part 5 of this act modifies Article 1 of Chapter 159D so that the public hearing for a bond issue dealing with multiple projects would take place at a location determined by the NCCFFA – most likely at its headquarters in Raleigh. This change simply removes the requirement of multiple public hearings throughout the State for one bond issue. The local government would still have to approve the project in its jurisdiction under a different section of the statute. This change would not affect bond issues involving a single project.

This part also makes a conforming change to Article 1 of Chapter 159D. In both Chapter 159C (relating to industrial development bonds through local authorities) and Chapter 159D, Article 2 (relating to special purpose projects and educational facilities) the Local Government Commission is permitted to take into consideration credit enhancement when determining whether a project is feasible. That language was omitted from Article 1 of Chapter 159D. There appears to be no reason to treat an industrial development project differently when it comes through a local authority rather than the NCCFFA. Part 5 of this act becomes effective January 1, 2003.

Part 6. Capital Planning Costs for Biopharmaceutical Training Center and Cancer Rehabilitation Treatment Center. Part 6 of the act authorizes the initial planning and development of two capital projects, effective October 31, 2002. It authorizes the State Board of Community Colleges, the Board of Governors of the University of North Carolina, and the North Carolina Biotechnology Center to initiate planning and development of a new biopharmaceutical/bioprocess manufacturing training center to be centrally located and of related training facilities to be located at various community colleges. The State has invested greatly through the North Carolina Biotechnology Center to bring close to 150 biotechnology companies to the State over the past 15 years. The biopharmaceutical and bioprocessing industry anticipates the need for 3,000 to 5,000 new employees each year for the foreseeable future. These workers will require training and education at a variety of levels in biotechnology, bioprocessing, and biomanufacturing. An Alliance Council, representing the universities, community colleges, and biomanufacturing companies, will develop a comprehensive training and education program capable of training 3,000 to 5,000 people for the industry annually through a combination of large-scale equipment training

and academic programs at a Central Training Center and programs at the Regional Training Centers.

It also authorizes the Board of Directors of the University of North Carolina Health Care System to initiate planning and development of a new cancer rehabilitation and treatment center to be located at the University of North Carolina Hospitals at Chapel Hill. The UNC Health Care System provides services for patients with cancer in the Gravely Building, a building that opened in 1953 as a tuberculosis sanitarium. This nearly 50-year-old facility has been remodeled to its fullest extent, and can no longer meet the needs of modern-day programs and services required to treat patients with cancer. The Gravely Building is also inadequate for the support of UNC's clinical research mission for clinical trials and for testing new medications that are essential for enhancing treatment options and increasing the knowledge base for new treatment opportunities. The UNC Health Care System proposes a replacement to the North Carolina Clinical Cancer Center to address these deficiencies and to provide a more appropriate environment for patients with cancer.

Amend Use Value Statutes and Other Tax Laws

Session Law	Bill #	Sponsor
S.L. 2002-184	SB 1161	Senator Hartsell

AN ACT TO AMEND THE PRESENT-USE VALUE STATUTES, TO CREATE A PROPERTY TAX SUBCOMMITTEE OF THE REVENUE LAWS STUDY COMMITTEE, TO CLARIFY THE SALES AND USE TAX EXEMPTION REGARDING CERTAIN AGRICULTURAL SUBSTANCES, AND TO MAKE VARIOUS ADMINISTRATIVE CHANGES IN THE TAX LAWS.

OVERVIEW: Sections 1 through 7 of this act amend the present-use value law to provide an updated method for calculating the value of farmland in its present use, to clarify the sound management requirement for qualifying for use value taxation, to allow land subject to a conservation easement to continue to qualify for use value taxation, and to make numerous clarifying and procedural changes. Most of the changes to the use value law were recommended by the Revenue Laws Study Committee.

Section 8 of the act establishes a property tax subcommittee of the Revenue Laws Study Committee.

Sections 9 through 12 of the act make changes to the administration of various sales tax laws. These changes were recommended by the Revenue Laws Study Committee.

FISCAL IMPACT: The provision related to the sales taxes on plant inhibitor equipment is likely to create a small but undefined revenue gain. The change in sales tax payment dates will result in a small revenue loss due to the loss of the float, but no exact estimate is possible. The use value changes will affect local governments, but data are not available to

calculate the amount of the impact. The remaining items will all result in a slight but undefined loss or no loss to the General Fund.

EFFECTIVE DATE: The changes to the present-use value law are effective beginning with the 2003 property tax year. The remaining changes became effective in October 2002.

ANALYSIS:

Use Value Changes. This act provides for more accurate determination of the present use value of farmland. Since 1973, the General Assembly has provided that farmland (agricultural land, horticultural land, and forestland) may be appraised, assessed, and taxed at its present-use value, as opposed to its fair market value. The present-use value classification helps preserve farmland by insulating it from the rising property tax values caused by competing market pressures to develop farmland for commercial and residential purposes.

The difference between the taxes due based on the present use value and the taxes that would have been payable based on market value, together with any interest, penalties, or costs, are a lien on the property. This difference in taxes is carried forward in the records of the taxing unit as deferred taxes. The deferred taxes for the preceding three years become payable whenever the property loses its eligibility for the benefit of the special use value law.

In 1985, the General Assembly enacted the most recent methodology for calculating present-use value: The value was required to be based on capitalization of net income at the rate of 9%; for agricultural land, the net income was to be based on average corn and soybean yields. The Department of Revenue was required to prepare and distribute annually to each tax assessor a present-use value manual to assist in appraising and assessing farmland. A four-member Use-Value Advisory Board, under the supervision of the Agricultural Extension Service of North Carolina State University, would submit a recommended manual to the Department each year. The present-use value manual is advisory only, and each county remains free to develop its own present-use value schedules. Until several years ago, all counties used the manual. By 2002, an increasing number of counties were not using the manual because the present-use values in the manual could not be supported by credible market evidence. For example, corn and soybeans, which are used to determine net income for agricultural land, no longer represent the typical crops grown in the State and are not the major money crops. Using a method that did not result in realistic values was eroding the intent to foster uniformity and creating equity problems between similar types of properties.

This act updates the method of determining the present-use value of farmland in several ways. First, it changes the capitalization rate used to capitalize net income into value for agricultural and horticultural land. Instead of 9%, the rate to be used will be set by the Use-Value Advisory Board at a level between 6% and 7%. The Board will also recommend annually to the General Assembly whether this range should be changed. The capitalization rate for forestland will stay at 9%.

Second, the act changes the method the Board will use to set the net income for farmland. Instead of corn and soybean yields for agricultural land and horticultural product yields for horticultural land, the Board is required to use estimated cash rental rates for various classes of soil or for geographic areas. The Department of Revenue is given the responsibility of

conducting studies of cash rents for agricultural land on a regional basis and providing this information to the Board. For forestland, the Board is required to use ranges furnished by the NC Cooperative Extension Service based on up to six classes of land within each region designated by the federal Soil Conservation Service. This requirement reflects the current practice of the Board with respect to forestland.

Third, the act caps the value the Board may establish for the best agricultural land at a maximum of $1,200 per acre. The Board will recommend annually to the General Assembly whether this maximum should be changed.

Fourth, the act adds five new members to the Use-Value Advisory Board. Under existing law, there were four members: The director of the Agricultural Extension Service at NCSU, a Department of Agriculture representative, a Forest Resources Division representative, and a representative of the Agricultural Extensions Service at N.C.A.&T. This act adds the director of the Property Tax Division of the Department of Revenue and one representative of each of the following four groups: the Farm Bureau, the Association of Assessing Officers, the Association of County Commissioners, and the Forestry Association.

To qualify for use value taxation, farmland must be in active commercial production under a sound management program, which is defined as a program of production designed to obtain the greatest net return from the land consistent with its conservation and long-term improvement. The act makes two changes relating to sound management. First, it provides that woodland that is part of agricultural or horticultural land is not required to be under a sound management program if it meets either of the following conditions:

1. It is less than 20 acres.
2. Its best use is as a barrier to wind erosion, a natural water purifier, or a buffer for hog or poultry operations.

Second, it specifies factors any one of which is sufficient to demonstrate that farmland is under a sound management program. For agricultural or horticultural land, these factors include compliance with an agency-administered management program, with a set of best management practices, or a minimum gross income test; evidence of net income from farming or that farming is the operator's principal source of income; and certification by a recognized local agency. For forestland, compliance with a written sound forest management plan for production and sale of forest products is sufficient.

In order to qualify for use value taxation, in addition to being in active production, the land must meet minimum income requirements and must satisfy certain conditions regarding ownership. This act creates an exception to these requirements and conditions for property that was being taxed at its present use value as farmland and then becomes subject to a conservation easement that dedicates it for conservation purposes in the hands of the State, a local government, or a nonprofit conservation organization.

The remaining changes the act makes relating to use value are procedural and technical.

County assessors are required to annually review 1/8 of the county's use value parcels to verify that they continue to qualify for use value taxation. This act clarifies that the 1/8 is a minimum – an assessor may review more than 1/8 in a year. This act also authorizes the

assessor to request assistance in carrying out the review, clarifies the information that the assessor may require the owner to submit and the information that the assessor must consider as part of the review, and clarifies that the review is based on data for a three-year period. In addition, this act authorizes the county to assign county agencies or contract with federal agencies for any duties relating to use value accounts.

In order to qualify for use value taxation, the farmland must be owned by certain qualifying individuals, family business entities, or trusts. This act clarifies that the farmland may qualify if it is owned jointly by any of these owners as tenants in common. The act also clarifies an exception to the ownership requirements. Individual owners must live on the land or have owned the land in their family for four years. There is an exception if use value land is transferred to a person who continues to use it as farmland and meets the other conditions for use value treatment. This act clarifies that the deferred taxes that accrued while the land was owned by the first owner continue as a lien on the property in the hands of the new owner. In addition, the new owner must file an application for use value treatment within 60 days after acquiring the land, certifying that the present use will continue and that the new owner will be liable for the deferred taxes if the land is later disqualified. The act makes technical and conforming changes relating to the application for use value treatment.

To qualify for use value treatment, farmland must be part of a farm unit. This act defines the term "unit" to include one or more tracts under common ownership. If the tracts are in separate counties, they must share the same type of classification or the same equipment or labor force, and must be within 50 miles of a tract that meets the minimum size and income requirements for use value treatment.

Property Tax Subcommittee. Section 8 of the act creates a property tax subcommittee of the Revenue Laws Study Committee. The subcommittee will have six members and will study use value taxation and existing and potential tax incentives for farm use, conservation, and environmental protection of land.

Administrative Changes. The remaining sections of this act are administrative changes to the sales tax law. These changes were originally introduced in House Bill 1509 as a recommendation of the Revenue Laws Study Committee.

Section 9 of the act clarifies the sales and use tax exemption for certain agricultural substances. Included among the agricultural group of sales and use tax exemptions is an exemption for plant growth inhibitors, regulators, or stimulators when purchased for use on plants held or produced for commercial purposes. In a recent case, *American Ripener Company, Inc. v. Secretary of Revenue*,[58] the court ruled that the exemption for these substances could extend to generators used to control the release of the substance. The Department requested that the statute be clarified because the exemption was not intended to include any hardware or machinery, such as generators, used to apply the exempted substances. Section 9 clarifies that the exemption does not apply to any equipment or devices used to dispense the substances listed in the exemption.

---

[58] 147 N.C. App. 142 (2001), cert. denied, 355 N.C. 210 (2002)

Section 10 of this act changes the due date for quarterly sales tax returns from the 15th of a month to the end of a month. In 2001, the General Assembly lowered the threshold for monthly payments of withheld taxes from $500 to $250. Monthly withholding returns are due on the 15th of the month, the same day as monthly and quarterly sales and use tax returns. The withholding tax threshold change moved approximately 25,000 employers from a quarterly to a monthly filing status. As a result, the Department was receiving 25,000 additional returns in eight of the twelve months of the year. This act's change of the sales tax due date from the 15th to the end of the month will enable the Department to spread its work more evenly throughout the month. As of 2002, there were 91,000 quarterly sales tax filers. The change also makes the due date for quarterly sales tax returns consistent with the due date for quarterly withholding tax returns. This change went into effect October 1, 2002; it does not affect the timing of local sales and use tax distributions, nor does it shift any funds from one fiscal year to the next.

Section 11 of the act amends the method for calculating the underpayment penalty for semimonthly sales taxpayers, to conform to the requirements of the Streamlined Sales Tax Project. A taxpayer who is consistently liable for at least $10,000 a month in State and local sales and use taxes must pay the tax twice a month and file a return on a monthly basis. A payment is required for each semimonthly period. The first semimonthly payment covers the period from the first day of the month through the 15th day of the month, and the second semimonthly payment covers the period from the 16th day of the month through the last day of the month. The monthly return covers both semimonthly payment periods including any additional amount due and must be filed by the 20th day of the following month. Under prior law, a taxpayer was not subject to interest or penalties for an underpayment for a semimonthly payment period if the taxpayer timely paid at least 95% of the amount due for that payment period and included the underpayment with the monthly return for both payment periods.

A requirement of the Streamlined Sales Tax Project, in which North Carolina has participated since 2000, is that if the State requires more than one remittance per return, the amount of the additional remittance must be determined through a calculation method rather than actual collections. Effective October 1, 2002, Section 11 brings the underpayment penalty calculation for semimonthly sales taxpayers in line with the Project by providing an additional method of calculating the estimated tax liability: neither interest nor penalties will apply to the underpayment of sales tax remitted on a semimonthly basis if the taxpayer timely pays at least 95% of the lesser of (i) the amount due for the semimonthly payment period; or (ii) the average semimonthly payment for the prior calendar year. Just as under the prior law, the taxpayer must also include the underpayment with the monthly return for those semimonthly payment periods.

Section 12 of the act codifies a longstanding practice of the Department of Revenue which requires that a purchaser of tangible personal property that is exempt from sales tax or subject to a preferential rate of sales tax must obtain an exemption certificate from the Department in order to receive the exemption or preferential rate. The Department of Revenue administers many of the sales and use tax exemptions and preferential rates targeted at certain industries, such as farming and manufacturing, through the use of an exemption certificate. Prior to this change, the statutes did not address exemption certificates, except in the penalty provisions in G.S. 105-236(5a), which authorize the

Secretary to assess a penalty for the misuse of an exemption certificate. The Department recommended that the practice of using exemption certificates be incorporated into the statutes to avoid any questions about the ability of taxpayers to claim exemptions through this method.

An Investigation of Selected Tax Legislation Enacted During 2001 and 2002

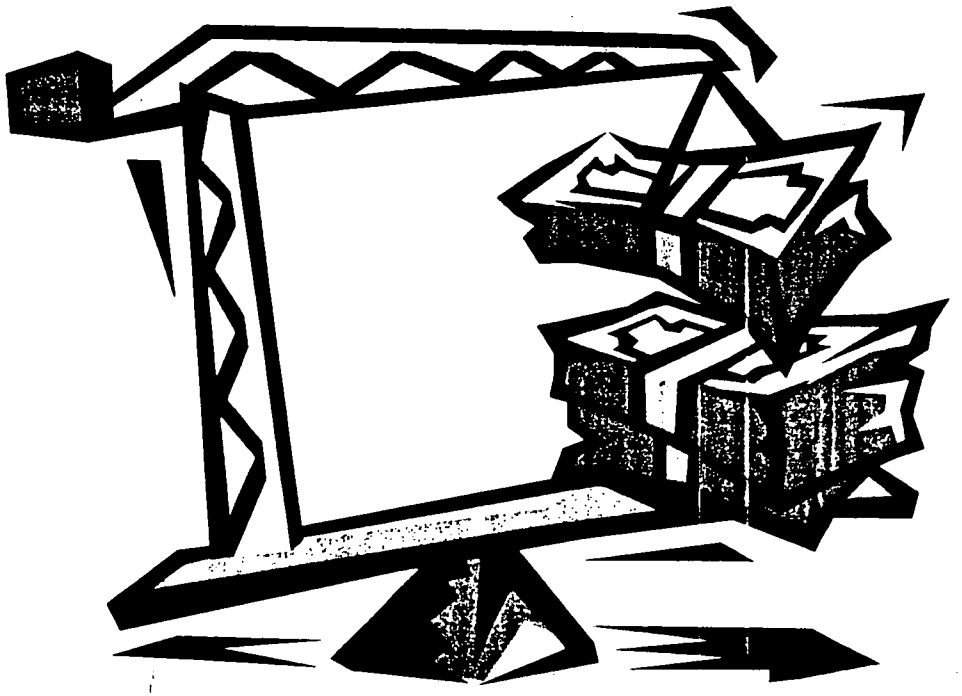
By: Cindy Avrette

February 25, 2003

Attachment 5

Selected Legislation

- Closure of Tax Loopholes
- Sales Tax Changes
- Income Tax Changes
- Collection Enhancements



Closure of Tax Loopholes

- **Royalty Reporting Options**
  S.L. 2001-327
- **Equalize Franchise Tax on Corporate Affiliated LLCs**
  S.L. 2001-327 and S.L. 2002-12
- **Subsidiary Dividend Deduction Changes**
  S.L. 2001-327 and S.L. 2002-13

Royalty Reporting Option

- **Clarifies that income from using trademarks in NC is taxable to NC**
- **Gives taxpayers an option on how to file returns involving royalty income**

Franchise Tax on Corporate Affiliated LLCs

Problem: LLCs are not subject to franchise tax. Some corporations avoid a significant portion of their franchise tax by transferring assets into a wholly owned LLC subsidiary.

2001 Session

Provided that franchise tax applies equally to corporate assets held by a LLC if corporation owns at least 70% of LLC assets

2002 Session

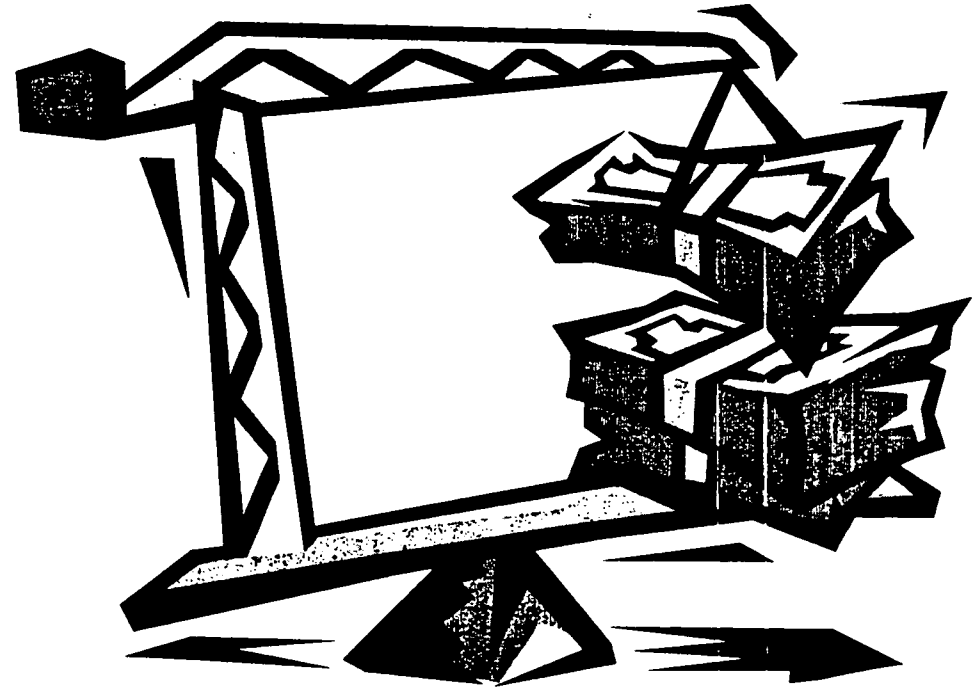
Provided that franchise tax applies equally to corporate assets held by a LLC if related members own at least 70% of LLC assets

Subsidiary Dividend Deduction Changes

- In 2001, conformed State law to the federal rules for the deduction of dividends received.
- This change eliminated the adjustments that had previously been required to reflect differences between the federal and State dividends deduction.
- It also made the dividends subject to the general State law that expenses related to untaxed income cannot be deducted from taxable income.
- In 2002, enacted legislation limiting the additional tax liability.

Selected Legislation

- *Closure of Tax Loopholes*
- **Sales Tax Changes**
- *Income Tax Changes*
- *Collection Enhancements*



Sales Tax Rate Changes
2001

Increased State sales tax ½% for the period October 16, 2001, to July 1, 2003

Authorized an additional ½% local sales tax, effective July 1, 2003

Repealed the State reimbursements to local governments, effective July 1, 2003

Provided hold harmless to those local governments whose gain from a ½% local sales tax increase less than 100% of their loss from the repealed State tax reimbursements

Sales Tax Rate Changes
2002

Increased State sales tax ½% for the period October 16, 2001, to July 1, 2003

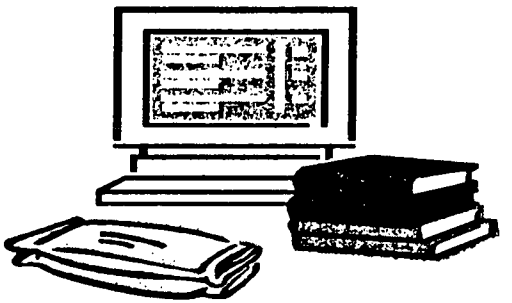
Authorized an additional ½% local sales tax, effective *December 1, 2002*

Repealed the State reimbursements to local governments, effective *July 1, 2002*

Hold harmless NOT accelerated. First hold harmless payments will be received in 2003-04.

Streamlined Sales and Use Tax Agreement
S.L. 2001-347

Enables NC to enter into the Streamlined Sales and Use Tax Agreement



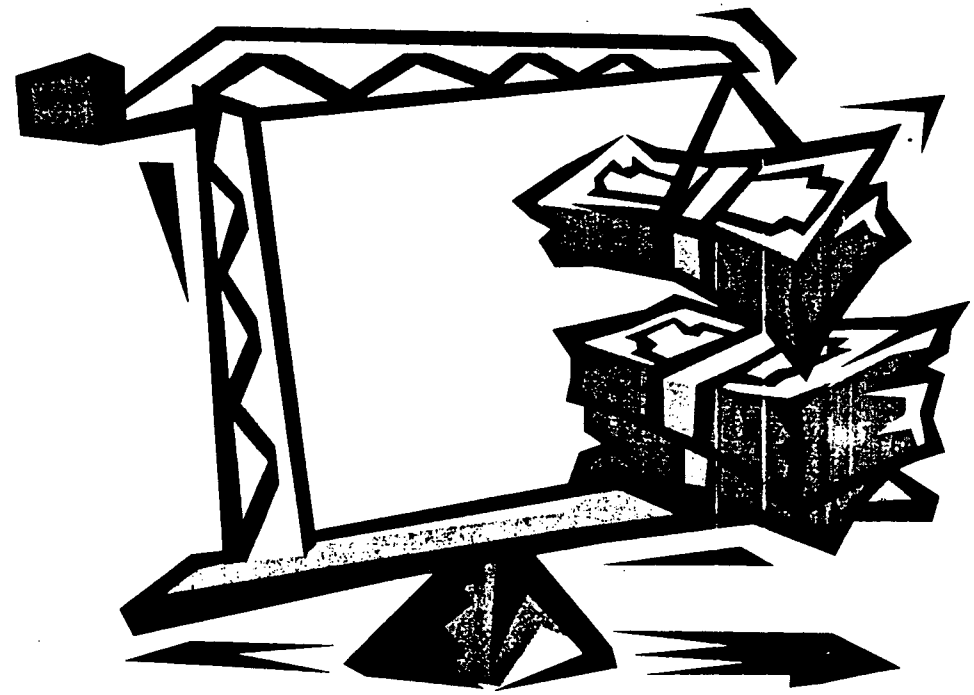
Simplifies the sales and use tax laws

Helps equalize the playing field between remote vendors and Main Street merchants

35 implementing states

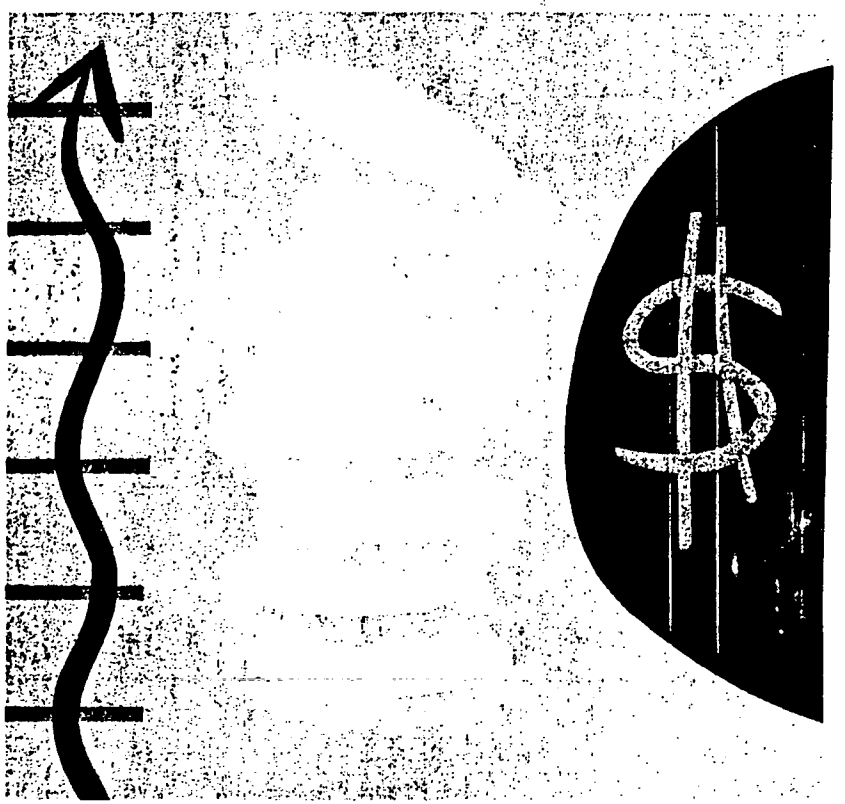
Selected Legislation

- *Closure of Tax Loopholes*
- *Sales Tax Changes*
- **Income Tax Changes**
- *Collection Enhancements*



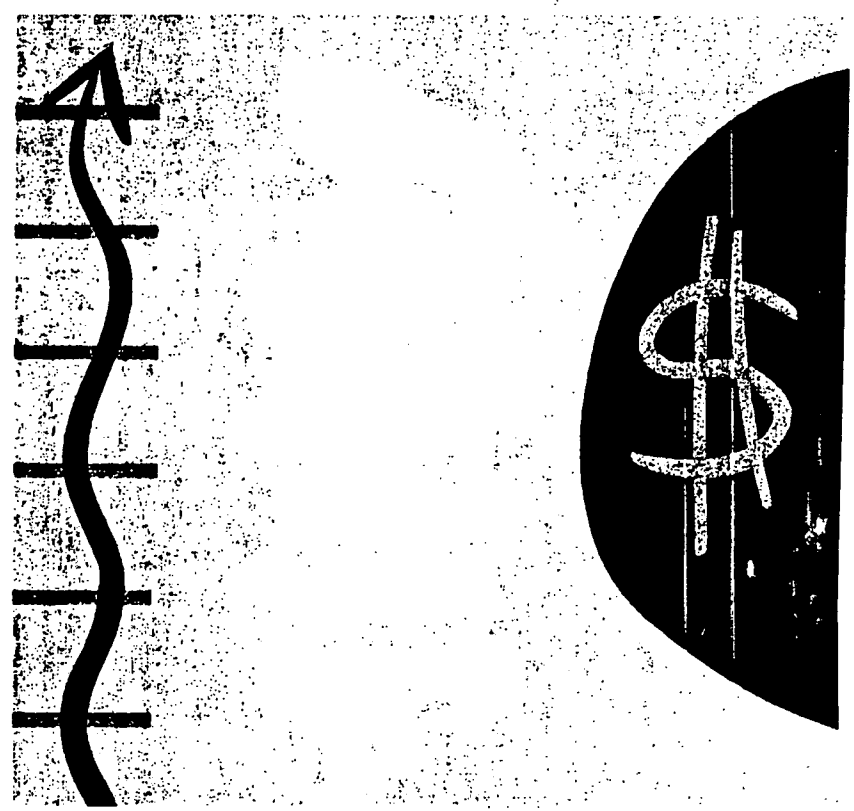
Income Tax Changes 2001

- **Added a new tax bracket of 8.25% on taxable income over $200,000 for 2001, 2002, and 2003**
- **Eliminated the Marriage Tax Penalty over 2002-03**
- **Increased Child Tax Credit over 2002-03**



Income Tax Changes 2002

- **Added a new tax bracket of 8.25% on taxable income over $200,000 for 2001, 2002, and 2003**
- **Eliminated the Marriage Tax Penalty over 2003-04**
- **Increased Child Tax Credit over 2003-04**



Conformity to Federal Law
S.L. 2002-125

- Updates State tax law to conform to federal changes in EGTRRA and Job Creation and Worker Assistance Act
- Conforms to gift tax annual exclusion amount
- Decouples from accelerated depreciation provisions
- Decouples from federal tax credit provision

Federal "Pick-Up" Tax Credit

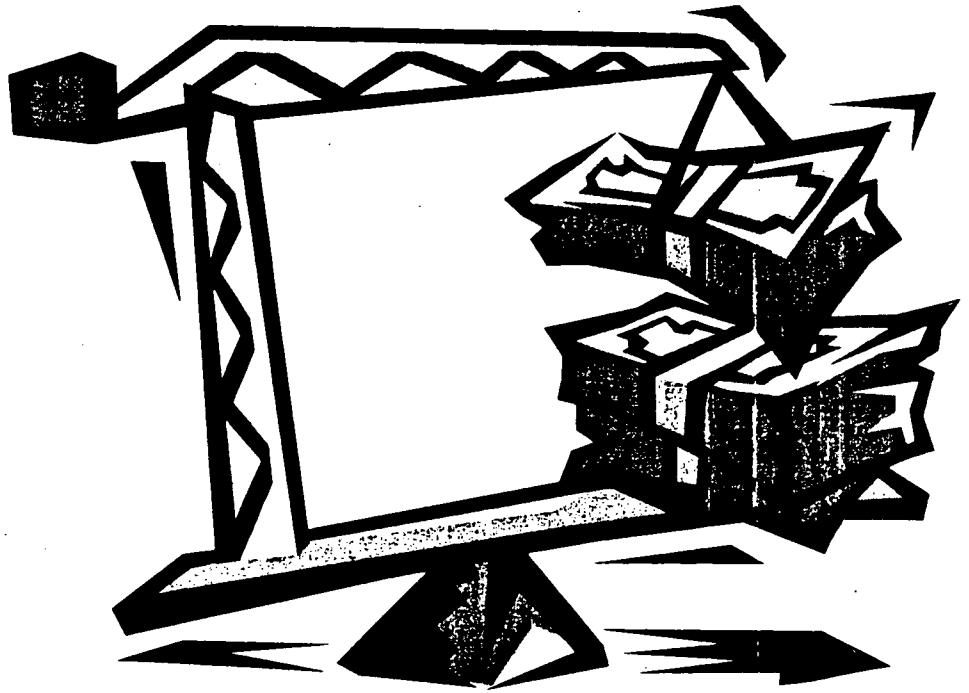
- Estate tax being phased-out
- NC conforms to the increased exemption amounts
- Federal "pick-up" tax credit being phased-out
- **NC does not conform to the phase out of the federal credit for 2002 and 2003 – Amount of the credit remains the amount as it existed in 2001**
- ***General Assembly will have to re-visit the issue again in 2003***

Estate Tax Options

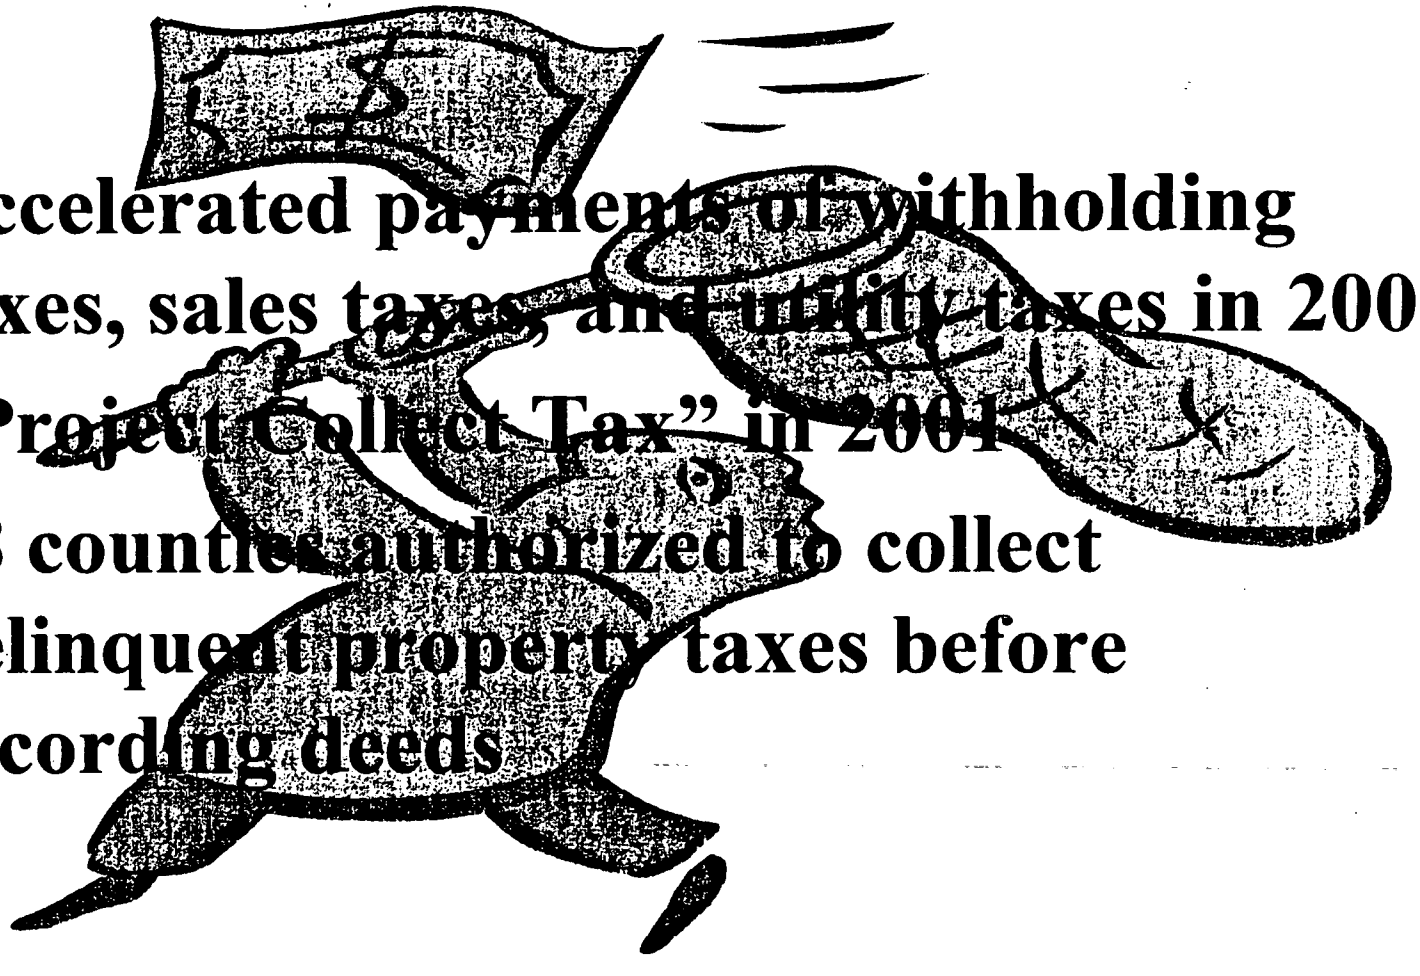
- **Extend or remove sunset on the decoupling of the phase-out of the federal credit**
- **Take no action**
- **Establish a stand-alone estate tax**
- **Fully conform to federal changes**
- **Repeal the estate tax**

Selected Legislation

- *Closure of Tax Loopholes*
- *Sales Tax Changes*
- *Income Tax Changes*
- **Collection Enhancements**



Collection Enhancements



- Accelerated payments of withholding taxes, sales taxes, and utility taxes in 2001
- "Project Collect Tax" in 2001
- 48 counties authorized to collect delinquent property taxes before recording deeds

That Concludes

T.S.I. For 2001-02

House Committee on Finance

Minutes
March 6, 2003

The House Committee on Finance met on Thursday, March 6, 2003, at 8:30 A.M. in Room 544 of the Legislative Office Building. The following members were present: Chairpersons Allen, Howard, Luebke, Miner, and Wainwright; Vice-Chairs Alexander, Gibson and Hill, and Representatives Blackwood, Bordsen, Capps, Carney, Cunningham, Ellis, Glazier, Holliman, Lewis, McGee, Munford, Rayfield, Ross, Weiss and Womble. Also present were Sergeants-at-Arms Bob Fowler, Bill Freeman, Dusty Rhoades and Walter Spell. Staff persons present were Richard Bostic, Trina Griffin, Martha Walston and Evan Rodewald.

Rep. Luebke, Presiding Chair, called the meeting to order by determining a final seating arrangement for committee members and by introducing the page from Mitchell County, Angelina Keath, sponsored by Rep. Phillip Frye.

The agenda did not include any bills for consideration, but staff members, David Crotts, Martha Walston and Trina Griffin, made presentations as follows:

REPORT OF FEBRUARY REVENUES – David Crotts (see attachments)

PRESENTATION ON FISCAL CONDITIONS IN OTHER STATES AND TYPES OF FEDERAL ASSISTANCE REQUESTED BY GOVERNORS AND LEGISLATORS

THE ESTATE TAX QUESTION

STAFF RESPONSE TO MEMBER QUESTIONS - Martha Walston (see attachments)

- **Tax treatment of agriculture**
- **Highway Trust Fund court case**
- **Estate tax issue and impact on General Fund for FY 03-04**
- **Corporate income tax as a percentage of General Fund revenue**

Trina Griffin also presented an update on the Goldston Case.

The meeting adjourned at 9:50 a.m. to reconvene on Tuesday, March 11, at 8:30 a.m.

Respectfully submitted,

Representative Paul Luebke
Presiding Chair

Joyce T. Harris
Committee Assistant

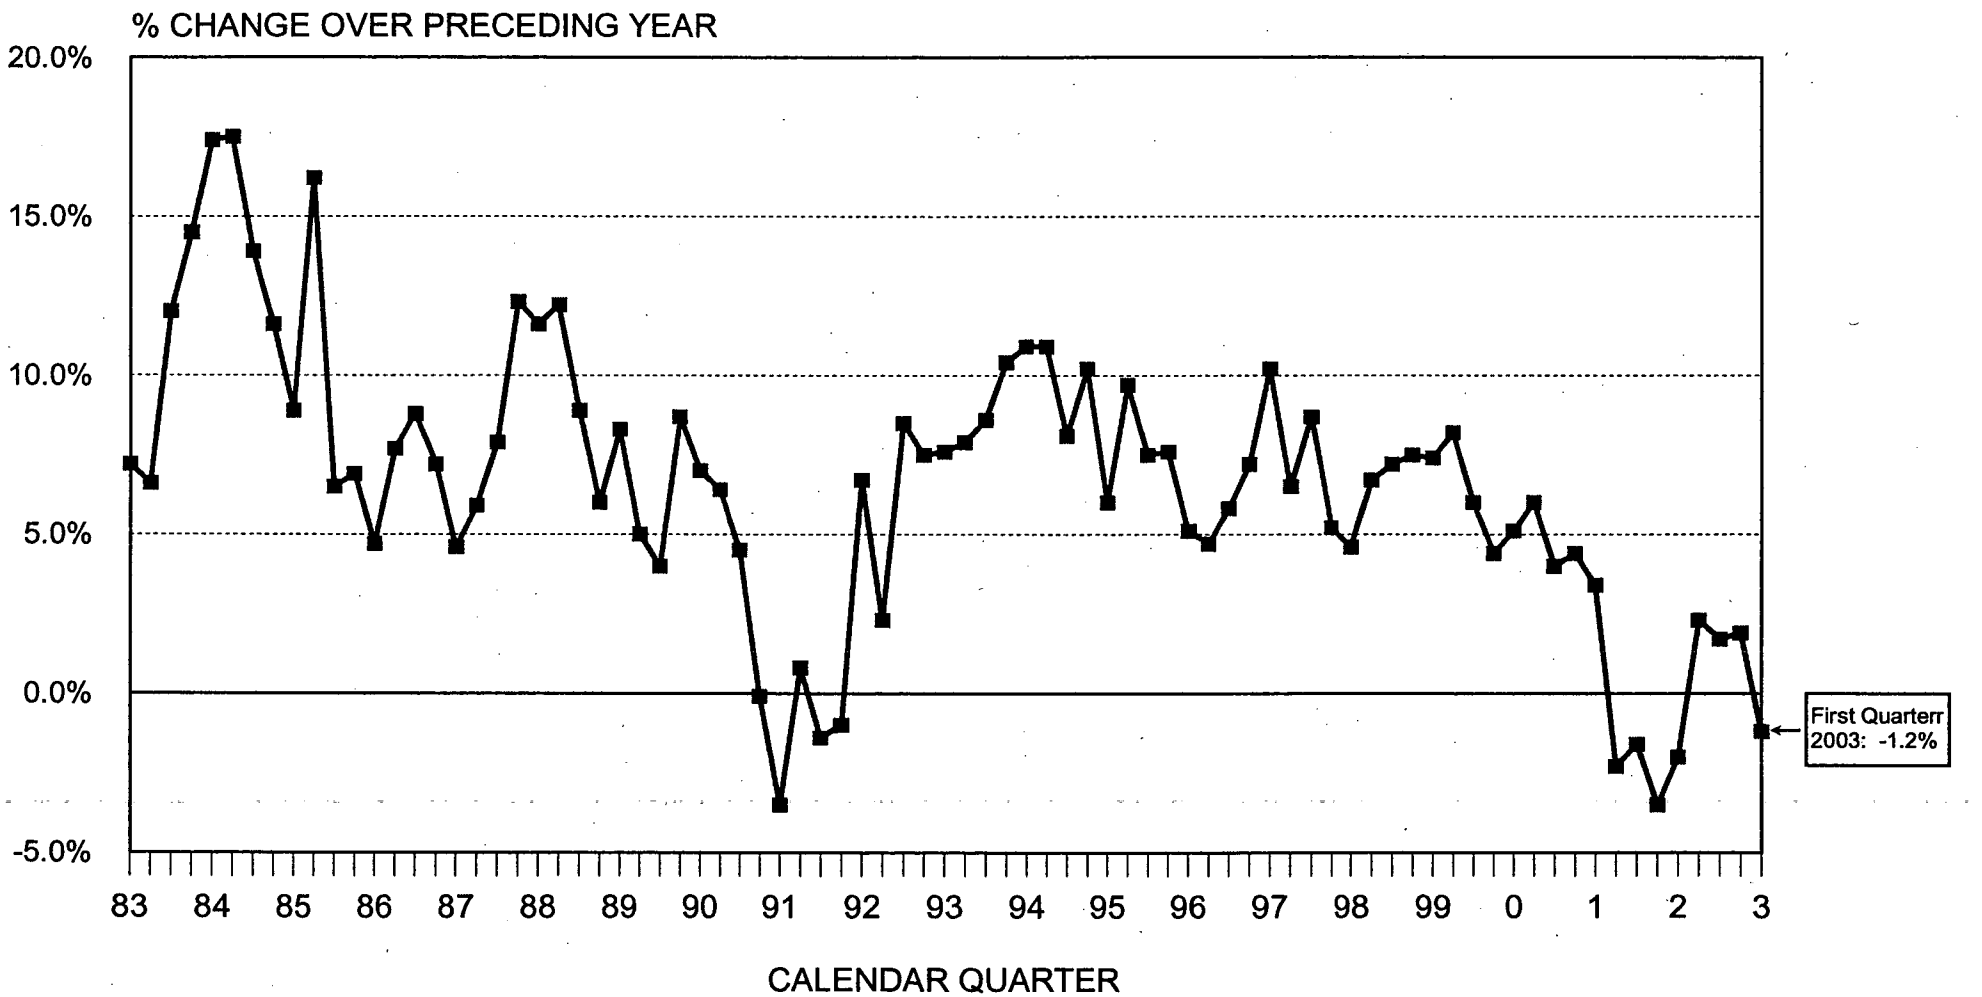
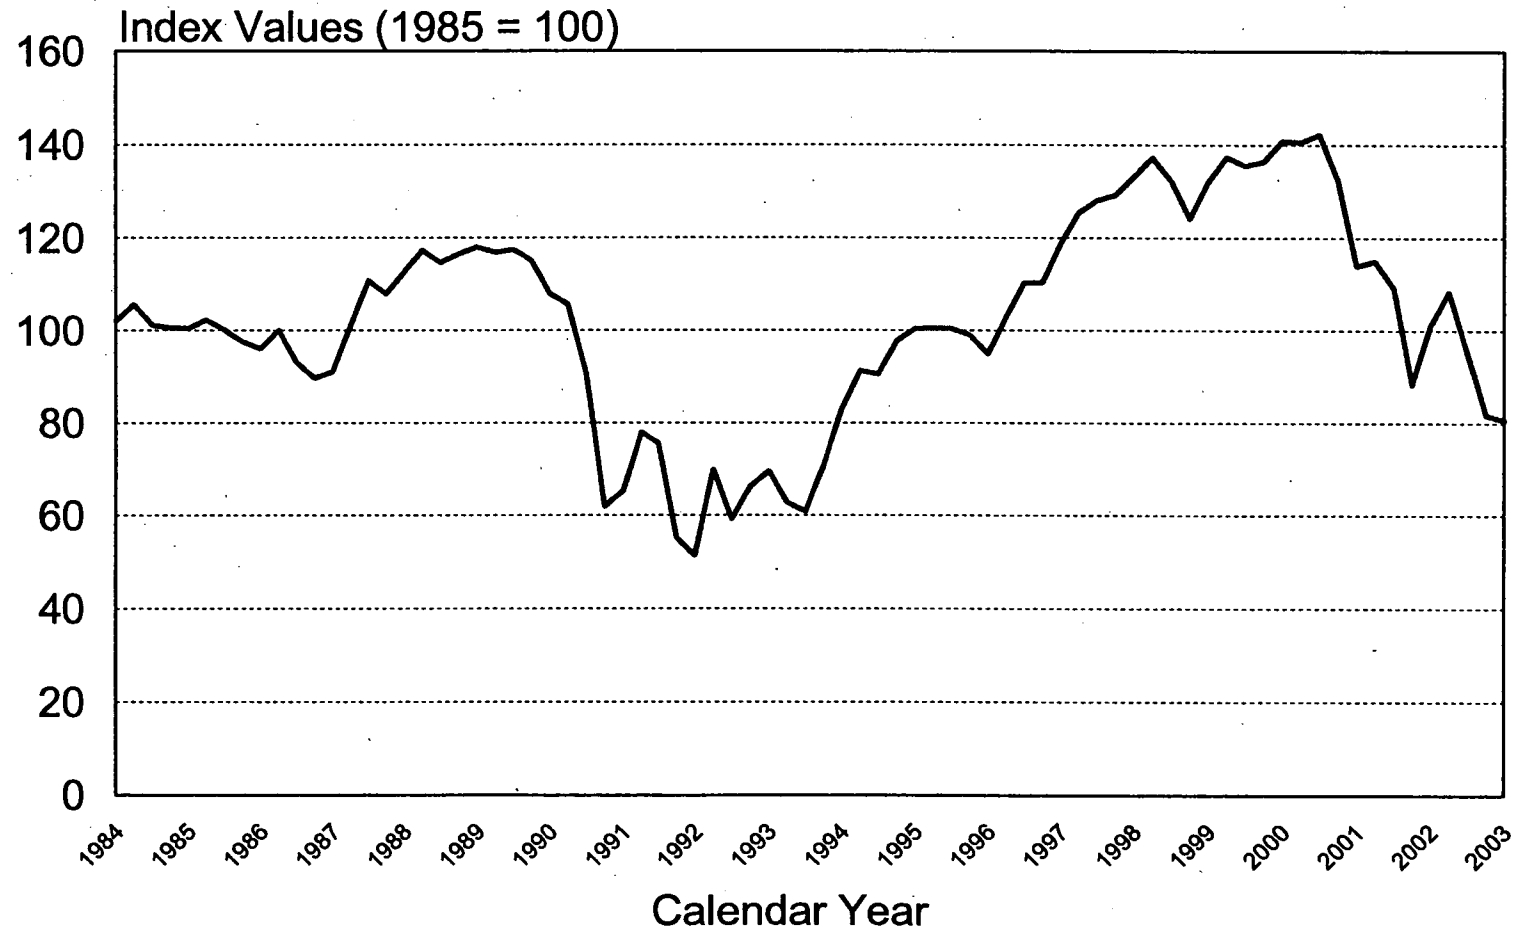
THE MODEST RECOVERY IN STATE AND LOCAL SALES TAX REVENUES IS BEING SHORT-CIRCUITED BY PRE-WAR JITTERS



NOTE: Data has been adjusted for tax law changes. Data for the current quarter is based on January and February only.

Consumer Confidence



Source: Conference Board

How Does North Carolina's Plight Compare to Other States?

- ✓ Many states adopted 02-03 budget prior to bad April and June numbers last year and used revenue growth rates of 3-6% (versus 1.09% in North Carolina). Thus, North Carolina is one of 10 states that does not have a revenue shortfall of spending overrun (Medicaid) for the current year.
- ✓ Some states still have budget reserves to use.
- ✓ Our FY 04 budget gap of 10-15% of the budget is about average.
- ✓ Some states will consider revenue-raising measures already used by North Carolina in 2001 and 2002.
- ✓ Our economy went into a recession sooner but may be recovering more quickly than most other states. In general, the high-tech states crashed later but are still mired in a recession. Military deployment could place an additional burden on North Carolina in the short-run.

North Carolina Has Not Been Alone in Using One-Time Budget Fixes

- Governors and legislative leaders of both parties do not want to hurt classroom.
- Advocacy groups resist human services cuts.
- Medicaid cuts are difficult to achieve (services to elderly, payments to providers)
- Competitive politics rules out broad-based tax hikes in many states.
- These constraints have forced states to be creative in uncovering one-time resources to "plug" the budget hole on a temporary basis. In many cases, states are mortgaging many future years. This contrasts with the use of more permanent solutions back in 1991.

Examples of One-Time Fixes Being Used by States

- ✓Securitize tobacco settlement funds
- ✓Issue bonds to fund capital needs
- ✓Issue bonds to fund pension responsibilities
- ✓Divert highway monies
- ✓Hold local revenue sharing funds
- ✓Divert pension contributions
- ✓Move special fund balances into General Fund
- ✓Move June 30 paydate
- ✓Roll payment of bills into following year
- ✓Divert tobacco settlement funds

Examples of One-Time Fixes Being Used by States
(continued)

- ✓Accelerate tax payments
- ✓Divert disaster relief funds
- ✓ Draw down rainy-day fund
- ✓Delete programmed capital funding
- ✓Sell physical assets
- ✓Adopt tax amnesty programs

State Concerns about Federal Budget Actions

- ✓ Delays in getting federal terrorism funding assistance
- ✓ Need for additional help in Medicaid (federal mandates)
- ✓ Concerns about nature of federal tax cuts (conformity issue)
  - 2001 income tax actions (IRA's, 401-K's, education incentives)
  - 2001 estate tax actions
  - 2002 stimulus package (bonus depreciation)
  - 2003 proposed package (dividend exclusion, capital expensing rules)
- ✓ E-commerce taxation
- ✓ Fiscal squeeze on discretionary portion of federal budget (includes state and local aid) due to higher defense spending and federal tax cuts

MEMORANDUM

TO: Members of House Finance Committee

FROM: Dave Crotts
Fiscal Research Division

SUBJECT: Estate Tax Question

During last week's state revenue sources briefing, a question was raised concerning the reduction in state General Fund revenue if the 2003 General Assembly takes no action on the 2004 sunset on the proposal to temporarily fix to the estate tax conformity issue. A brief explanation of the issue may help.

In 1998, North Carolina followed the earlier lead of most other states by repealing the regular death tax (estate or inheritance tax) and replacing it with an "estate tax" that is equal to the amount of the federal credit for state death taxes. The reason for keeping a "pickup tax" is that if a state does not levy a tax in an amount equal to the federal credit, the credit remains unused on the federal estate tax return and the dollars go to Washington instead of the state capital.

In a surprise move in March 2002, the Congress phased out the state death tax credit over four years, beginning January 1, 2002, in order to finance other parts of the federal stimulus package. The action was a surprise because it had not been discussed in the stimulus packages debated soon after the events of September 11.

Due to difficult budget outlooks and concerns about how states were being treated under federal budget decisions, many states chose not to conform to the federal changes and continued levying the pickup tax on the prior federal base. North Carolina's compromise solution was to decouple from the federal phase-out to the death tax credit for two years (January 1, 2002 - January 1, 2004) but to adjust the North Carolina tax to account for the higher federal estate tax exemptions that were being

(over)

AN EQUAL OPPORTUNITY/AFFIRMATIVE ACTION EMPLOYER

phased in. This "partial conformity" solution sunsets on January 1, 2004. If no action is taken on the issue by the 2003 General Assembly, the North Carolina tax reverts to the phase-out schedule that was part of the 2002 federal tax package.

The impact on the General Fund from the various proposals is shown below:

General Fund Revenue Loss ($mil)			
State Fiscal Year	**Original Full Conformity Option**	**2002 Partial Conformity Solution***	**No Action Scenario****
2002-03	-31.3	-5.5	-
2003-04	-68.2	-7.3	-
2004-05	-96.1	-3.8	-92.3
2005-06	-111.9	-	-111.9
2006-07	-143.8	-	-143.8

*A two-year package that conforms North Carolina estate tax to phase-up of higher federal estate tax exemptions, but not the phase-out of the state death credit.

**If no 2003 session action occurs, the North Carolina tax would revert to conformity to phase-out of federal credit for state death taxes.

For the most recent 12-month period, a total of 2,575 estate tax returns were filed in North Carolina

TAX TREATMENT OF AGRICULTURE
Prepared by Martha Walston, staff attorney to House Finance
March 6, 2003

Sales Tax preferential rates (G.S. 105-164.4)
The following sales are subject to a sales tax rate lower than the general rate of 4 ½ %):[1]

- The rate of 1% applies to the sales price of the following articles:
    1. horses or mules
    2. semen used for the artificial insemination of animals
    3. sales of fuel, other than electricity, to farmers for any farm use other than preparing food, heating dwellings, and other household purposes.
- The rate of 1%, subject to a maximum of $80 per article, is imposed on the sales price of the following:
    1. farm machinery, parts, and accessories[2] for the machinery for use by the farmer in the planting, cultivating, harvesting, or curing of farm crops, or in the production of dairy products, eggs, or animals.
    2. bulk tobacco barns and racks, parts, and accessories sold to farmers for the curing and drying of any farm produce.
    3. grain, feed or soybean storage facilities and accessories sold to farmers.
    4. containers sold to farmers or producers for use in the planting, producing, harvesting, curing, marketing, packaging, sale, or transporting or delivery of their products when the containers do not go with and become part of the product sold at wholesale or retail.
- The rate of 2.83% applies to the sales price of electricity sold to farmers for any farm use other than preparing food, heating dwelling, or other household purposes. (G.S. 105-164.4(a)(1f)a.)[3]

Sales Tax exemptions (G.S. 105-164.13)
The following agricultural products are exempted from the State sales and use tax:

- Commercial fertilizer, lime, land plaster, and seeds sold to a farmer for agricultural purposes.
- Any of the following substances when purchased for use on animals or plants held or produced for commercial purposes:[4]

---

[1] The general State sales and use tax rate of 4 ½ % is effective until July 1, 2003. After this date, the general rate returns to 4%).
[2] The term "accessories" does not include electricity. (G.S. 105-164.4(a)(1d)).
[3] A rate of 2.83% is also imposed on the following: (a) sales of electricity to commercial laundries and dry-cleaning establishments and (b) sales of electricity to manufacturing industries and plants for use in the operation of the industry or plant, if the industry or plant received 900,000 or less megawatt hours of qualified electricity during the proceeding year. A rate of .17% is imposed on the sales price of electricity sold to manufacturing industries and plants for use in the operation of the industry or plant, if the industry or plant received more than 900,000 megawatt hours of qualified electricity during the previous year. "Qualified electricity is electricity that is measured by a separate meter or another separate measuring device and is sold to a manufacturing industry or manufacturing plant for use in the operation of the industry or plant. The rates change effective July 1, 2005.
[4] This exemption does not apply to any equipment or devices used to dispense the substances listed in this exemption

1. remedies, vaccines, medications, litter materials, and feeds for animals
2. rodenticides, insecticides, herbicides, fungicides, and pesticides
3. defoliants for use on cotton or other groups
4. plant growth inhibitors, regulators, or stimulators, including systemic and contact or other sucker control agents for tobacco and other crops.

- Products of forests and mines in their original or unmanufactured state when such sales are made by the producer in the capacity of producer.
- Cotton, tobacco, peanuts, or other farm products sold to manufacturers for further manufacturing or processing.
- Baby chicks and poults sold for commercial poultry or egg production.
- Products of a farm sold in their original state by the producer if that producer is not primarily a retail merchant.
- Ice used to preserve agriculture, aquaculture, and commercial fishery products until the products are sold at retail.
- Commercially manufactured facilities, equipment, parts and accessories, building materials, supplies and fixtures used for the commercial housing, raising, or feeding of animals, or related equipment.
- The lease or rental of tobacco sheets used in handling and transporting tobacco.

Income tax credits

The following income tax credits are available to both individual and corporate taxpayers unless otherwise noted:

- Credit for conservation tillage equipment – equal to 25% of the cost of conservation tillage equipment purchased by a taxpayer for use in a farming business, including tree farming. The credit may not exceed $2,500 for any taxable year, may be carried forward for five years, and is claimable only by the first purchaser.(G.S. 105-130.36 and G.S. 105-151.13)[5]
- Credit for gleaned crops - equal to 10% of the market price of the quantity of gleaned corps. Gleaned crops are those harvested and donated to a nonprofit organization for distribution to individuals or other nonprofit organizations. The credit may be carried forward for the next five years. (G.S. 105-130.37 and G.S. 105-151.14)[6]
- Credit for construction of a poultry composting facility - equal to 25% of the construction cost of a poultry composting facility constructed by a taxpayer for the composting of whole, unprocessed poultry carcasses from commercial operations in which poultry is raised or produced.[7] The credit may not exceed $1,000 for any single installation. (G.S. 105-130.44 and G.S. 105-151.25).

---

[5] "Conservation tillage equipment" means a planter (commonly known as a "no-till" planter) designed to minimize disturbance of the soil in planting crops or trees or designed to minimize disturbance of the soil in reforestation site preparation.

[6] The credit for gleaned crops may not be claimed unless the taxpayer adds the market price of the gleaned crop to taxable income.

[7] "Poultry composting facility" means a structure in which whole, unprocessed poultry carcasses are decomposed by a natural process into an organic, biologically safe by-product that can be used for plant food. (G.S. 106-549.51)

- Credit for property taxes paid on farm machinery – credit allowed for local property taxes paid on farm machinery and attachments and repair parts, up to a maximum of $1,000. This credit is allowed only to individual income taxpayers and an individual shareholder of an S Corporation engaged in the business of farming. (G.S. 105-151.21)

Corporate Income Tax Exemption
The following organizations are exempt from income tax (G.S. 105-130.11(8)):

- Farmers', fruit growers', or like organizations organized and operated as sales agents for the purpose of marketing the products of members and turning back to them the proceeds of sales, less necessary selling expenses, on the basis of the quantity of product furnished by them.
- Agricultural cooperative and marketing associations.

Motor fuel tax refunds
A person who purchases and uses motor fuel in the following vehicles may receive an annual refund for the motor fuel excise tax paid on the fuel. The amount of the refund allowed is 33 1/3% of the following: the sum of the flat cents-per gallon rate in effect during the year for which the refund is claimed and the average of the two variable cents-per-gallon rates in effect during that year, less the sales and use tax due:

- A bulk feed vehicle that delivers feed to poultry or livestock and used a power takeoff to unload the feed.
- A vehicle that delivers lime or fertilizer in bulk to farms and uses a power takeoff to unload the lime or fertilizer.
- A commercial vehicle that delivers and spreads mulch, soils, composts, sand, sawdust, and similar materials and that uses a power takeoff to unload, blow, and spread the materials.

Property tax preferential treatment
The following deduction is allowed for property tax purposes (G.S. 105-277):

- Indebtedness owed by the taxpayer for the purchase of fertilizer may be deducted from the total value of the fertilizer if held by the taxpayer for his own used in agriculture during the current year.

The following property is taxed at its present use as opposed to its fair market value

- Agricultural land that is part of a farm unit, actively engaged in commercial production under a sound management plan, and individually owned.
- Horticultural land that is part of a horticultural unit, actively engaged in commercial production under a sound management plan, and individually owned.
- Forestland that is part of a forest unit, actively engaged in commercial production under a sound management plan, and individually owned.

Property tax exemptions
The following property is exempt from property taxes (G.S. 105-275):

- Property used exclusively for pollution control or waste disposal. This exemption includes an animal waste management system if the EMC determines it meets certain environmental performance standards.

- Poultry and livestock and feed used in the production of poultry and livestock.
- Standing timber, pulpwood, seedlings, saplings, and other forest growth (Purpose of this classification is to encourage property forest management practices and to develop and maintain the forest resources of the state.)
- Inventories owned by wholesale and retail merchants (Inventories includes crops and other agricultural or horticultural products held for sale, whether in process or ready for sale.)

HIGHWAY TRUST FUND
(Prepared March 5, 2003)*

The Highway Trust Fund was established in 1989 for the purpose of funding highway construction. The 2001 General Assembly permitted the use of $680 million of Trust Fund cash balances over three fiscal years for additional purposes, primarily maintenance. The Trust Fund's primary revenue sources are ¼ of the motor fuel tax, a 3% Highway Use Tax, title fees and various registration fees, and interest earned on cash balances. The law has required that $170 million be transferred each year from the Highway Trust Fund to the General Fund. As a result of a change in the law in 2001, this statutory transfer in FY 2002-03 is $172.4 million and will grow over time. In addition to this statutory transfer, the Governor transferred $80 million in FY 2001-02, and the Budget for FY 2002-03 transfers $205 million to the General Fund. The $205 million, and an additional $80 million to be transferred in FY 2003-04, are to be paid back to the Highway Trust Fund starting in FY 2004-05.

At the end of January 2003, the cash balance in the Highway Trust Fund was $213 million (down by $372.8 million from one year ago). The balance in the Highway Fund was $385.5 million (up by $117.5 million from one year ago). The total was $598.5 million (down by $255.3 million from one year ago).

Attached are the following:

- Copy of G.S. 136-176. This statute creates the Highway Trust Fund, sets out its revenue sources, and how the revenue is spent.
- Chart comparing the Highway Fund and the Highway Trust Fund.
- Highway Trust Fund Budget for 2002-03

*Fiscal Analysts Evan Rodewald and Bob Weiss provided information for this handout

§ 136-176. (For contingent repeal see editor's note) Creation, revenue sources, and purpose of North Carolina Highway Trust Fund.

(a) A special account, designated the North Carolina Highway Trust Fund, is created within the State treasury. The Trust Fund consists of the following revenue:

(1) Motor fuel, alternative fuel, and road tax revenue deposited in the Fund under G.S. 105-449.125, 105-449.134, and 105-449.43, respectively.

(2) Motor vehicle use tax deposited in the Fund under G.S. 105-187.9.

(3) Revenue from the certificate of title fee and other fees payable under G.S. 20-85.

(4) Repealed by Session Laws 2001-424, s. 27.1.

(5) Interest and income earned by the Fund.

(a1) The Department shall use two hundred twenty million dollars ($220,000,000) in fiscal year 2001-2002, two hundred twelve million dollars ($212,000,000) in fiscal year 2002-2003, and two hundred fifty-five million dollars ($255,000,000) in fiscal year 2003-2004 of the cash balance of the Highway Trust Fund for the following purposes:

(1) For primary route pavement preservation. – One hundred seventy million dollars ($170,000,000) in fiscal year 2001-2002, and one hundred fifty million dollars ($150,000,000) in each of the fiscal years 2002-2003 and 2003-2004. Up to ten percent (10%) of the amount for each of the fiscal years 2001-2002, 2002-2003, and 2003-2004 is available in that fiscal year, at the discretion of the Secretary of Transportation, for:

a. Highway improvement projects that further economic growth and development in small urban and rural areas, that are in the Transportation Improvement Program, and that are individually approved by the Board of Transportation; or

b. Highway improvements that further economic development in the State and that are individually approved by the Board of Transportation.

(2) For preliminary engineering costs not included in the current year Transportation Improvement Program. – Fifteen million dollars ($15,000,000) in each of the fiscal years 2001-2002, 2002-2003, and 2003-2004.

(3) For computerized traffic signal systems and signal optimization projects. – Fifteen million dollars ($15,000,000) in each of the fiscal years 2001-2002, 2002-2003, and 2003-2004.

(4) For public transportation twenty million dollars ($20,000,000) in fiscal year 2001-2002, twenty-five million dollars ($25,000,000) in fiscal year 2002-2003, and seventy-five million dollars ($75,000,000) in fiscal year 2003-2004.

(5) For small urban construction projects. – Seven million dollars ($7,000,000) in fiscal year 2002-2003.

(a2) Repealed by Session Laws 2002-126, s. 26.4(b), effective July 1, 2002.

(b) Funds in the Trust Fund are annually appropriated to the Department of Transportation to be allocated and used as provided in this subsection. A sum, not to exceed four and one-half percent (4.5%) of the amount of revenue deposited in the Trust Fund under subdivisions (a)(1), (2), and (3) of this section, may be used each fiscal year by the Department for expenses to administer the Trust Fund. Operation and project development costs of the North Carolina Turnpike Authority are eligible administrative expenses under this subsection. Any funds allocated to the Authority pursuant to this subsection shall be repaid by the Authority from its toll revenue as soon as possible, subject to any restrictions included in the agreements entered into by the Authority in connection with the issuance of the Authority's revenue bonds. Beginning one year after the Authority begins collecting tolls on a completed Turnpike Project, interest shall accrue on any unpaid balance owed to the Highway Trust Fund at a rate equal to the State Treasurer's average annual yield on its investment of Highway Trust Fund funds pursuant to G.S. 147-6.1. Interest earned on the unpaid balance shall be deposited in the Highway Trust Fund upon repayment. The rest of the funds in the Trust Fund shall be allocated and used as follows:

(1) Sixty-one and ninety-five hundredths percent (61.95%) to plan, design, and construct the projects of the Intrastate System described in G.S. 136-179 and to pay debt service on highway bonds and notes that are issued under the State Highway Bond Act of 1996 and whose proceeds are applied to these projects.

(2) Twenty-five and five hundredths percent (25.05%) to plan, design, and construct the urban loops described in G.S. 136-180 and to pay debt service on highway bonds and notes that are issued under the State Highway Bond Act of 1996 and whose proceeds are applied to these urban loops.

(3) Six and one-half percent (6.5%) to supplement the appropriation to cities for city streets under G.S. 136-181.

(4) Six and one-half percent (6.5%) for secondary road construction as provided in G.S. 136-182 and to pay debt service on highway bonds and notes that are issued under the State Highway Bond Act of 1996 and whose proceeds are applied to secondary road construction.

The Department must administer funds allocated under subdivisions (1), (2), and (4) of this subsection in a manner that ensures that sufficient funds are available to make the debt service payments on bonds issued under the State Highway Bond Act of 1996 as they become due.

(b1) The Secretary may authorize the transfer of funds allocated under subdivisions (1) through (4) of subsection (b) of this section to other projects that are ready to be let and were to be funded from allocations to those subdivisions. The Secretary shall ensure that any funds transferred pursuant to this subsection are repaid promptly and in any event in no more than four years. The Secretary shall certify, prior to making any transfer pursuant to this subsection, that the transfer will not affect the delivery schedule of Highway Trust Fund projects in the current Transportation Improvement Program. No

transfers shall be allowed that do not conform to the applicable provisions of the equity formula for distribution of funds, G.S. 136-17.2A. If the Secretary authorizes a transfer pursuant to this subsection, the Secretary shall report that decision to the next regularly scheduled meetings of the Joint Legislative Commission on Governmental Operations, the Joint Legislative Transportation Oversight Committee, and to the Fiscal Research Division.

(c) If funds are received under 23 U.S.C. Chapter 1, Federal-Aid Highways, for a project for which funds in the Trust Fund may be used, the amount of federal funds received plus the amount of any funds from the Highway Fund that were used to match the federal funds may be transferred by the Secretary of Transportation from the Trust Fund to the Highway Fund and used for projects in the Transportation Improvement Program.

(d) A contract may be let for projects funded from the Trust Fund in anticipation of revenues pursuant to the cash-flow provisions of G.S. 143-28.1 only for the two bienniums following the year in which the contract is let. (1989, c. 692, s. 1.1; c. 770, ss. 68.2, 74.6; 1989 (Reg. Sess., 1990), c. 1024, s. 46(a), (b); 1991, c. 193, s. 9; c. 280, s. 1; c. 689, s. 62; 1995, c. 390, s. 27; 1995 (Reg. Sess., 1996), c. 590, s. 6; 1996, 2nd Ex. Sess., c. 18, s. 19.4(a); 1998-212, s. 27.2; 1999-237, s. 27.1; 2000-140, s. 31; 2001-424, ss. 27.1, 27.23(d), 27.23(e), 27.23(f); 2002-126, ss. 26.4(a), 26.4(b), 26.9(b); 2002-133, s. 3; 2002-159, s. 41.5.)

	Highway Fund	Highway Trust Fund

Question: Are sales taxes paid on materials and supplies for manufactured homes?

Answer: Under G.S. 105-164.13(8), sales to a manufacturer of tangible personal property that enters into or becomes an ingredient or component part of tangible personal property that is manufactured is exempt from sales and use tax. Example: If a manufacturer of a manufactured home sells the finished product to a customer, the manufacturer does not pay sales and use tax on the materials and supplies that go into the manufactured home. However, if a person acts as a contractor to construct a manufactured home for another person, then the contractor is generally liable for sales and use tax on the materials and supplies that go into the construction of the home.

Update on the *Goldston* Case

The Case

On November 14, 2002, former state Transportation Secretary James E. Harrington and former state Senator William Goldston, who were both instrumental in developing the Highway Trust Fund[1], filed suit in Wake County Superior Court against Governor Mike Easley and the General Assembly, claiming that the Governor and the Legislature violated the North Carolina Constitution by diverting approximately $205 million[2] from the Highway Trust Fund to the General Fund last year in order to balance the budget.

Plaintiffs' Request for Preliminary Injunction

The State Budget Office has been transferring the funds in quarterly installments. In January of 2003, after two payments had been made, the plaintiffs sought a preliminary injunction to prohibit the State Budget Office from making the remaining two payments. Retired Wake County Superior Court Judge Robert Farmer, who has been assigned to the case, denied the request for a preliminary injunction and the decision was not appealed.

Current Status

At the present time, there is one more payment to be made. The parties are in the process of trying to stipulate all factual issues, and hearings on dispositive motions may be scheduled as early as April 2003. The main issue to be resolved in the case is whether the scope of the Governor's constitutional authority to balance the budget included authority to transfer funds from the Highway Trust Fund to the General Fund.[3] The plaintiffs assert that the Governor's authority is limited to adjusting expenditures. A secondary issue is whether the Governor violated the constitutional provision stating that a tax shall not be applied for any other purpose than that for which it was levied.[4]

---

[1] The Highway Trust Fund was created by the General Assembly in 1989 and is funded by the highway use tax, the motor fuels tax, and title and registration fees. The Fund was designed to build a system of intrastate highways and seven urban loops, provide assistance to cities, and accelerate secondary road paving.

[2] Traditionally, the Department of Transportation transfers approximately $172 million a year from the Highway Trust Fund to the General Fund. Last year, the budget called for an additional $205 million to be transferred from the Highway Trust Fund, of which $125 million is characterized as a loan required to be repaid to the General Fund at a later date.

[3] The Governor's authority to balance the budget is derived, in part, from Section 5 of Article III of the N.C. Constitution which states: "To insure that the State does not incur a deficit for any fiscal period, the Governor shall continually survey the collection of the revenue and shall effect the necessary economies in State expenditures, after first making adequate provision for the prompt payment of the principal of and interest on bonds and notes of the State according to their terms, whenever he determines that receipts during the fiscal period, when added to any surplus remaining in the State Treasury at the beginning of the period, will not be sufficient to meet budgeted expenditures."

[4] N.C. CONST. art. V, sec. 5.

North Carolina General Assembly

House Committee on Finance

Minutes

~

March 13, 2003

The House Committee on Finance met on Thursday, March 13, 2003 at 8:30 am in Room 544 of the Legislative Office Building. The following members were present: Chairpersons G. Allen, Howard, Luebke, McComas, Miner, and Wainwright; Vice-Chairs Alexander, Decker, and Hill; Representatives Blackwood, Bordsen, Carney, Holliman, Jones, Lewis, McCombs, McGee, Munford, Ross, Weiss, C. Wilson, and Womble. Also present were Sergeant-at-Arms Bob Fowler, Bill Freeman, Dusty Rhodes, and Bill Sullivan. Staff persons present included David Crotts, Trina Griffin, and Martha Walston. The Agenda and Visitor Registration Sheet are attached and incorporated into these minutes as attachments 1 and 2.

Chairman Miner called the meeting to order at 8:35 am and recognized the two (2) pages present: (1) Jennifer Gold of Cleveland County, sponsored by Representative Moore, and (2) Joanna Izguierdo of Wake County, sponsored by Representative Weiss.

The first order of business was the continuation from the previous meeting of the overview of the Jobs Development Investment Grant Program by Canaan Huie (see attachment 3). After one hour, due to time constraints on Carol Shaw, Mr. Huie was asked to continue his overview at the next meeting

Chairman Miner then called upon Carol Shaw to give a brief overview of the Medicaid program (see attachment 4).

As there was no other business before the Committee at that time, Chairman Miner adjourned the meeting at 9:50 am.

Respectfully submitted,

Representative David Miner
Presiding Chair

Susan D. Phillips
Clerk, House Committee on Finance

Summary of the Job Development Investment Grant Program (JDIG).

Prepared by Y. Canaan Huie
Legislative Drafting Division, North Carolina General Assembly
Current as of February 24, 2003

S.L. 2002-172 created a new economic development tool for new and expanding businesses in North Carolina. This tool will be used to attract businesses to the State by allowing a five-member committee to award grants to businesses. The amount of the grants would be based on income tax withholdings from new jobs created by the businesses.

Which projects are eligible for a grant? In order to be eligible for a grant under this program, the business must create a minimum number of new jobs. The number of new jobs that must be created varies based on the enterprise tier designation of the location where the jobs will be located. For projects located in enterprise tiers one through three, the project must create at least 10 new full-time positions. For projects located in enterprise tiers four and five, the project must create at least 20 new full-time positions. If a project is located in more than one location, the enterprise tier designation of the location in the highest enterprise tier area determines the number of new jobs that must be created.

As with the Bill Lee Act, a business must provide health insurance for all full-time jobs associated with the project in order to be eligible for this new program. The test is the same as under the Bill Lee Act – the business must, for all full-time employees of the project, pay at least 50% of the premiums for health insurance that meets at least the minimum provisions of the basic health care plan of coverage recommended by the Small Employer Carrier Committee. In addition, the average wage of all jobs at the location with respect to which a grant is sought must meet the Bill Lee wage standard. Finally, as with the Bill Lee Act, the business must have no citations under the Occupational Safety and Health Act that have become a final order within the previous three years for willful serious violations or for failing to abate serious violations with respect to the location for which the grant is made.

There are few restrictions based on the industry in which the business is engaged. There are only two types of projects that are ineligible for consideration under this program: retail facilities and professional and semiprofessional sports teams and clubs.

More generally, the project must satisfy the following conditions in order to be eligible for a grant:

- The project will result in net new employment in the State by the business.
- The project will benefit the people of the State by increasing employment opportunities and strengthening the State's economy.
- The project is consistent with economic development goals for the State.
- A grant is needed in order to secure the project for the State
- The total benefits of the project to the State outweigh the costs associated with the project.

How a grant is obtained? In order to obtain a grant under this program, the business must apply to the Economic Investment Committee for consideration. The Economic Investment Committee is a five-member committee consisting of the Secretary of Commerce, the Secretary of Revenue, the Director of the Office of State Budget and Management, one member appointed by the General Assembly upon the recommendation of the Speaker of the House of Representatives, and one member appointed by the General Assembly upon the recommendation of the President Pro Tempore of the Senate[1]. The members appointed by the General Assembly serve two-year terms. The Committee may only act upon a decision of three of its five members. The Committee is subject to the open meetings law and the public records law. Members of the Committee are forbidden to work for a business that receives a grant under this program for at least two years after the member is no longer on the Committee. A former member of the Committee who violates this prohibition against working for a business that receives a grant under this program must forfeit any compensation received for that work and is prohibited for an additional two years from working for a business that receives a grant under this program.

The application for a grant must be under oath, be on a form prescribed by the Committee, and contain any information required by the Committee. At a minimum, the application must contain the following information:

- The name of the business, the proposed location of the project, and the type of activity in which the business will engage at the project site.
- The names and addresses of the principals or management of the business, and the nature of the business, and the form of business organization under which the business is operated.
- The financial statements of the business prepared by a certified public accountant.
- The number of new jobs proposed to be created by the project.
- An estimate of the withholdings of personal income tax of employees of the project.
- Information concerning other possible locations of the project, and the benefits, including tax benefits or grants, associated with locating the project at those other locations.
- Information concerning other State grants for which the business is applying or that it expects to receive.
- Certification that the project will provide health insurance to all full-time employees.

A group of related business involved in a project may submit a joint application for a grant under this program.

A fee in the amount of $5,000 must accompany any application for a grant. The Secretary of Commerce, the Secretary of Revenue, and the Director of the Office of State Budget and Management will allocate this fee among their agencies.

---

[1] The members of the Committee appointed by the General Assembly may not be members of the General Assembly.

The Committee will evaluate applications to determine which businesses shall receive grants under this program. The awarding of a grant is solely in the discretion of the Committee. The Committee shall develop criteria for evaluating applications. These criteria shall take into consideration the economic impact of the project; the strategic importance of the project to the State, region, or locality; the quality of the jobs to be created; the quality of the industry and the project; the environmental impact of the project; and the degree to which the use of the program has been geographically dispersed throughout the State.

The Committee is exempt from the rule-making process in developing criteria related to this program. However, the statutes do require the Committee to publish the proposed criteria on the Department of Commerce's web site at least 15 business days prior to the adoption of or an amendment to any proposed criteria. The Committee must also provide notice to people who have requested notice of proposed criteria and it must accept oral and written comments on the proposed criteria.

The Committee is required to be somewhat selective in which projects with which it chooses to enter into an agreement. The Committee may not enter into more than 15 agreements in any calendar year. However, there may be significantly more than 15 agreements outstanding at any time because the term of an agreement may be as long as 12 years. In addition, the Committee may not commit more than $10 million dollars annually with agreements entered into in any calendar year[2].

How is the amount of a grant determined? If the Committee approves a business's application, the Committee will then negotiate and enter into a community economic development agreement with the business. The agreement is a binding commitment on the part of the State to provide the grant for a set number of years, subject to the Committee's right or duty to amend or terminate the agreement under certain circumstances. Each agreement shall include a description of the project, the term of the agreement, the number of positions expected to be subject to the grant and a method for determining the number of positions that are subject to the grant, and the amount of the grant as a percentage of the withholdings of personal income tax from eligible positions. The Committee has wide discretion in determining the percentage that determines the amount of a grant under an agreement. The Committee shall develop criteria to be used when negotiating the appropriate percentage. At a minimum, the following conditions apply:

- The amount of the grant may not be less than ten percent (10%) or more than seventy-five percent (75%) of the withholdings associated with new jobs at the project.
- The term of the grant shall not exceed 12 years.
- The percentage used to determine the amount of the grant shall be reduced by one-fourth for any eligible position located in an enterprise tier four or five area.

---

[2] The total annual commitment may be much more than $10 million dollars. For example, agreements entered into during each of the 2003 and 2004 calendar years could each make commitments of up to $10 million annually, for a total annual commitment of up to $20 million.

- Unless the Committee makes a specific determination that the grant should be calculated based on eligible positions created in any year during the term of the agreement, the amount of the grant shall be calculated based only on eligible positions created during the base years, the first two years, of the agreement.
- Unless the Committee makes an explicit finding otherwise, the total amount of all grants provided by the State may not exceed seventy-five (75%) of the withholdings of eligible positions.
- The amount of grant associated with any specific position may not exceed $6,500 in a year.

In addition, the Committee must consider at least the following factors when negotiating a percentage to be used in determining the amount of a grant:

- The number of eligible positions to be created.
- The expected duration of those positions.
- The type of contribution the business can make to the long-term growth of the State's economy.
- The amount of other financial assistance the project will receive from the State or local governments.
- The total dollar investment the business is making in the project.
- Whether the project utilizes existing infrastructure.
- Whether the project is located in a development zone.
- The number of eligible positions that will be filled by residents of a development zone.
- The extent to which the project will mitigate unemployment in the State and locality.

Use of funds? There are no restrictions on the use of the grant funds by the business. South Carolina has a similar grant program. Under the South Carolina program, grant funds may be used for certain specific purposes only, such as worker training, worker relocation, purchase or construction of real property, and construction or repairs to certain transportation-related real property.

The withholdings retained by the State would be used in two different ways. First, the withholdings in excess of the percentage negotiated in the agreement would flow to the General Fund.[3] Second, the withholdings that are included in the agreement, but that are excluded from the grant because the percentage was reduced by one-fourth because the eligible position is located in an enterprise tier four or five area, would be transferred to the Utility Account of the Industrial Development Fund.[4] Funds in the Utility Account

---

3 Even though the maximum percentage that may be used to determine the amount of a grant is 75%, there may be no additional revenue from these positions that would flow to the General Fund. This is because most taxpayers over-withhold, meaning that more taxes are withheld than are actually due, resulting in a refund to the taxpayer. Because of this, a grant based on the maximum percentage of 75% could result in a net loss to the General Fund.

4 The following example will clarify this. Assume a project that is located in an enterprise tier five area is allowed a grant based on 75% of the withholdings of the eligible positions. Because those positions are located in an enterprise tier five area, that percentage is reduced by one-fourth, so that the business is

may be used to assist local governments in enterprise tier areas one through three in constructing or improving utility lines or equipment.

Terms of agreement. Since the Committee has a great deal of flexibility in negotiating agreements, the statutes give some direction on terms that must be included in each agreement. At a minimum, each agreement must contain the following:

- A detailed description of the proposed project that will result in job creation and the number of new employees to be hired in the base years and later years.
- The term of the grant and the criteria used to determine the first year for which the grant may be claimed.
- The number of eligible positions that are subjects of the grant and a description of those positions and the location of those positions.
- The amount of the grant based on a percentage of withholdings.
- A method for determining the number of new employees hired during a grant year.
- A method for the business to report annually to the Committee the number of eligible positions for which the grant is to be made.
- A requirement that the business report to the Committee annually the aggregate amount of withholdings during the grant year.
- A provision permitting an audit of the payroll records of the business by the Committee from time to time as the Committee considers necessary.
- A provision that permits the Committee to amend an agreement pursuant to G.S. 143B-437.59.
- A provision that requires the business to maintain operations at the project location or another location approved by the Committee for at least one hundred fifty percent (150%) of the term of the grant and a provision to permit the Committee to recapture all or part of the grant at its discretion if the business does not remain at the site for the required term.
- A provision that requires the business to maintain employment levels in this State at the level of the year immediately preceding the base years.
- A provision establishing the conditions under which the grant agreement may be terminated, in addition to those under G.S. 143B-437.59, and under which grant funds may be recaptured by the Committee.
- A provision stating that unless the agreement is amended or terminated pursuant to G.S. 143B-437.59, the agreement is binding and constitutes a continuing contractual obligation of the State and the business.
- A provision setting out any allowed variation in the terms of the agreement that will not subject the business to amendment or termination of the agreement under G.S. 143B-437.59.
- A provision that prohibits the business from manipulating or attempting to manipulate employee withholdings with the purpose of increasing the amount

---

allowed a grant equal to 56.25% of the withholdings of eligible positions. (75% multiplied by ¾ equals 56.25%.) Twenty-five percent of the withholdings of eligible positions would flow to the General Fund, 56.25% would be given to the business in the form of a grant, and 18.75% would be transferred to the Utility Account of the Industrial Development Fund.

of the grant and that requires the Committee to terminate the agreement and take action to recapture grant funds if the Committee finds that the business has manipulated or attempted to manipulate withholdings with the purpose of increasing the amount of the grant.

- A provision requiring that the business engage in fair employment practices as required by State and federal law and encouraging the business to use small contractors, minority contractors, physically handicapped contractors, and women contractors whenever practicable in the conduct of its business.
- A provision encouraging the business to give priority consideration to hiring North Carolina residents.
- A provision encouraging the business to use the North Carolina State Ports.
- A provision stating that the State is not obligated to make any annual grant payment until the State has received an amount of withholdings that exceeds the amount of the grant payment.
- A provision describing the manner in which the amount of a grant might be reduced to ensure compliance with the $10 million annual
- A provision requiring that all disputes involving interpretation of the agreement must be submitted to binding arbitration.

In addition, the Attorney General must review the terms of all proposed agreements and must personally sign each agreement.

Follow-up on grantee businesses. The statutes provide for monitoring of grantee businesses in several ways and require the Committee to amend or terminate agreements if the business fails to live up to the terms of the agreement or the requirements of this new program.

The business must submit annual reports to the Committee. In addition, the Committee may audit at any time a business receiving a grant. At a minimum, the business must submit a copy of its federal and State income tax returns which show business and nonbusiness income, a report that shows withholdings, and a payroll report. This annual submission must also include any additional information the Committee considers necessary to implement the grant program.

This annual submission must be accompanied by a fee of $1,500. The Committee shall allocate the fee among the agencies responsible for evaluating the submission.

The Committee must also obtain information from the Department of Revenue before the disbursement of a grant. The Department of Revenue must certify the amount of withholdings from the eligible business.

The Committee is required to amend or terminate the agreement and to recapture all or part of a grant made in previous years under certain circumstances. If the business fails to meet or comply with any term of the agreement or with criteria developed by the Committee, the Committee must amend the agreement and may terminate the agreement. This amendment may take the form of a lower percentage being used to determine the amount of the grant or of a shorter term for the agreement. The reduction must be proportional to the failure to comply with the agreement. If the business fails to meet or comply with any term of the agreement or with criteria developed by the Committee for

two consecutive years, the Committee must terminate the agreement. In addition, in each agreement the Committee must include a provision describing the conditions that will lead to recapture of a grant made in an earlier year.

Like with the Bill Lee Act, a business that has an overdue tax debt is penalized. A business that has an overdue tax debt may not receive an annual disbursement of a grant so long as that overdue tax debt is not satisfied or otherwise resolved.

Program evaluation. The Committee is required to make annual reports regarding the program and the funding needed to implement the program. By April 30 of each year, the Committee must publish the following information:

- A listing of each agreement entered into during the previous fiscal year, the cost/benefit analysis conducted with respect to each agreement, a description of each project, and the amount of the initial grant.
- An update on the status of projects under agreements entered into in earlier fiscal years.
- The number and enterprise tier levels of eligible positions created by projects with respect to which grants were awarded.
- The wage levels of eligible positions created by projects with respect to which grants were awarded, aggregated and listed in increments of $5,000.
- The amount of new income tax revenue received by the State related to the projects.
- The criteria developed by the Committee to implement the grant program and changes in those criteria over the previous year.
- The effectiveness of the program in recruiting new and expanding businesses.
- The environmental impact of businesses that have received grants.
- The geographic distribution of grants, by number and amount.
- An explanation of whether the projects with respect to which agreements are entered into involve new businesses in the State or expanding existing businesses in the State.
- A listing of all businesses making an application for a grant and an explanation of whether each business ultimately located the project in this State regardless of whether the business was awarded a grant.
- A report on the division and use of fees collected under G.S. 143B-437.55 and G.S. 143B-437.58.

Additionally, the Committee shall publish quarterly reports on the program within two months of the end of each fiscal quarter. These reports shall contain information on agreements entered into within the last fiscal quarter including the name of the business, the cost/benefit analysis conducted by the Committee, a description of the project, and the amount of the grant expected to be made under the agreement during the current fiscal year.

In addition, the Committee shall conduct a study annually to determine the amount of funding needed to successfully implement the grant program. The results of that study must be reported to the House of Representatives Finance Committee, the Senate Finance Committee, the House of Representatives Appropriations Subcommittee on Natural and

Economic Resources, the Senate Appropriations Committee on Natural and Economic Resources, and the Fiscal Research Division no later than March 1 of each year.

Finally, the authority of the Committee to enter into additional agreements begins as of January 1, 2003, and expires as of January 1, 2005. This will allow the General Assembly an opportunity to review the program after it has been in effect for a few years in order to determine if the program is meeting its objectives.

DEPARTMENT OF HEALTH & HUMAN SERVICES

MEDICAID PROGRAM OVERVIEW

FISCAL RESEARCH DIVISION
February 2003

Medicaid Program Overview

- Purpose of Medicaid
- Impact of Medicaid
  - On the State Economy
  - On State Government
  - On the State Budget
  - On Local Government
- Medicaid Services
- Medicaid Recipients
- Policy Changes Since 1990
- Cost Containment Efforts

Medicaid Program

THREE PROGRAMS IN ONE

- HEALTH INSURANCE
- LONG TERM CARE FOR THE ELDERLY
- SERVICES FOR PEOPLE WITH DISABILITIES

Medicaid Program

MEDICAID VS. MEDICARE

Medicaid is health care for certain groups of poor persons, including single parent families, persons over age 65 and the disabled. Coverage is based on a person falling into one of the target groups and passing income and resources tests. Medicaid is administered by states and counties and financed with federal, state and county funds.

Medicare is health care for persons over age 65 and for the disabled who receive Social Security payments. Medicare is administered by the Health Care Financing Administration and financed by employer/employee contributions to the Social Security Trust Fund.

Medicaid Program

ENTITLEMENT STATUS

Medicaid is a federal entitlement program. Entitlement means that any individual who is found eligible for Medicaid has a legal right to receive services under the Medicaid Program and cannot be denied coverage.

Implications for State Government

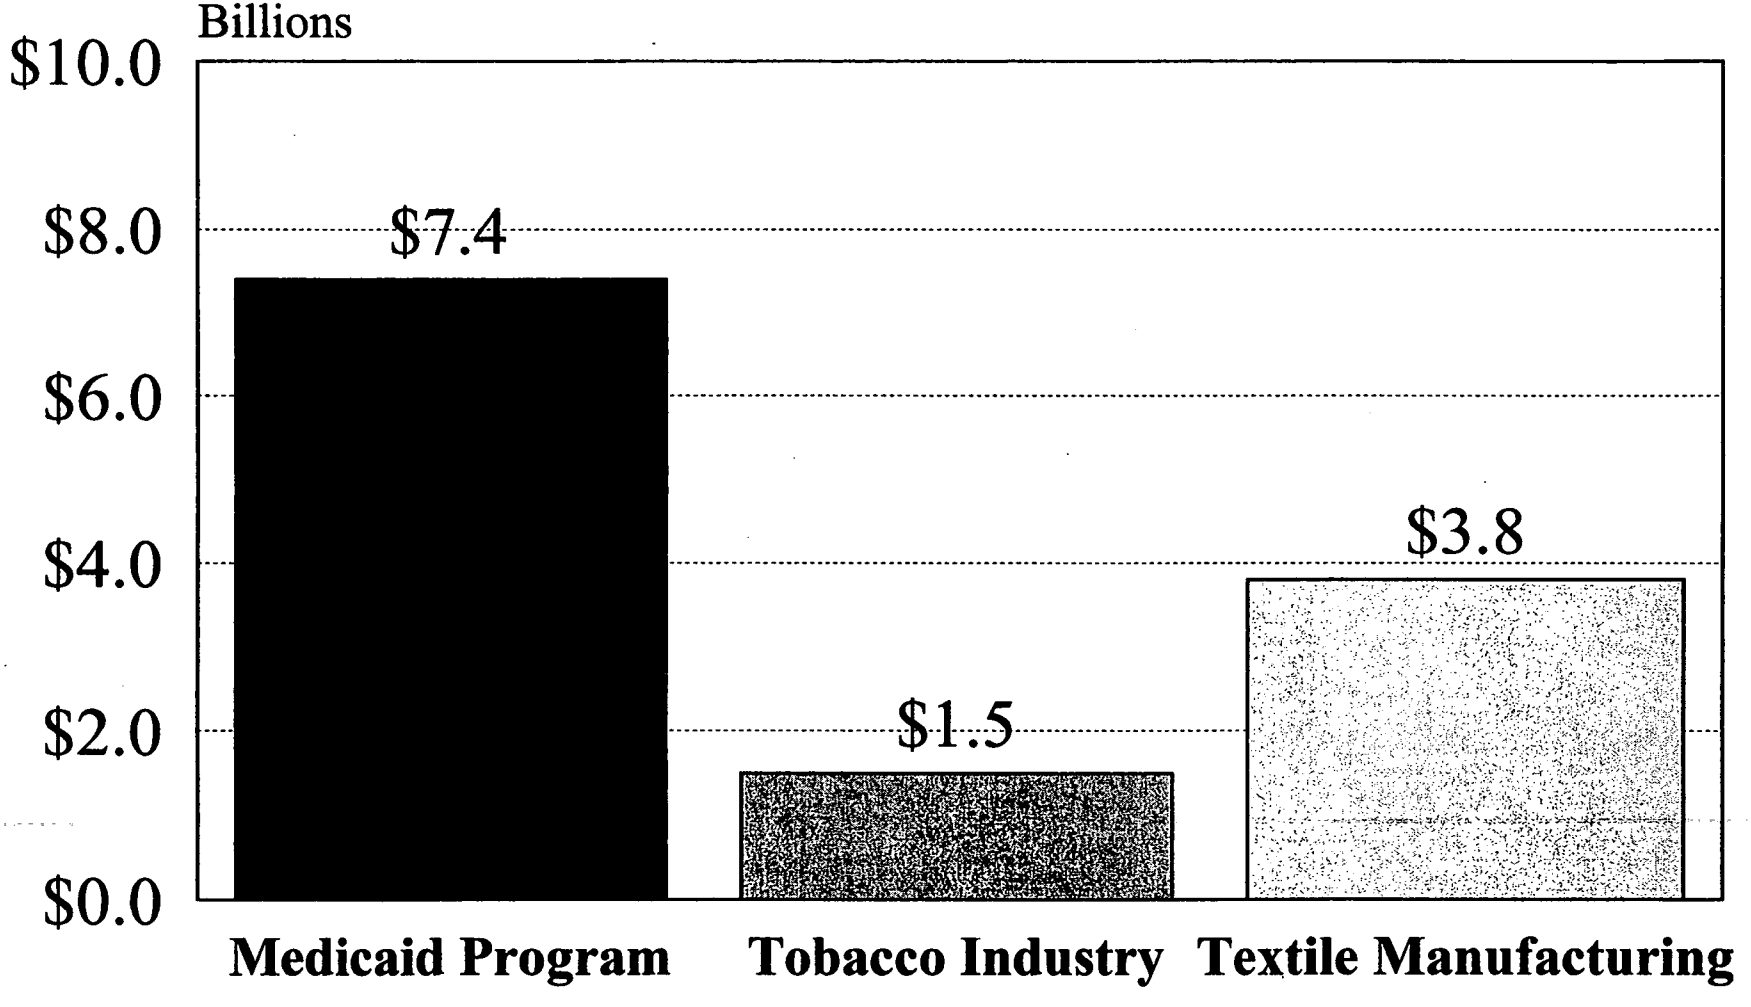
- ✓ **All eligible persons who apply for Medicaid must be served.**
- ✓ **The medical bills for Medicaid eligibles must be paid.**
- ✓ **If the appropriations for the Medicaid Program are inadequate, eligible persons must be served even if the funding must come from other areas of State government.**

IMPACT OF MEDICAID

- ✓ On the State Economy
- ✓ On State Government
- ✓ On the State Budget
- ✓ On Local Government

Medicaid Program

ROLE IN STATE ECONOMY



NOTE: Tobacco Industry includes the value of the 2002 crop and the estimated 2002 salaries and wages for tobacco manufacturing. Textile Manufacturing includes the estimated salaries and wages for the industry for 2002.

Medicaid Program

OTHER COMPARISONS

- The SFY 2002 Medicaid Program expenditures are equal to the estimated total income of the citizens of Cumberland County for 2000.

- Assuming an average private sector salary of $31,621 for 2002, SFY 2002 Medicaid expenditures would pay the salary of 232,950 employees in the private sector.

Medicaid Program

N. C. MEDICAID SNAPSHOTS

- Covered 1.4 Million state residents in SFY 2002 -- 17% of N.C.'s population
- Covered over 800,000 children during SFY 2002 - 57.7% of Medicaid eligibles
- Covers 45% of the babies born each year
- 30.8 % of recipients consume 71.1% of resources -- includes aged, blind, and disabled

Medicaid Program

N. C. MEDICAID SNAPSHOTS

- Inpatient care consumes 36.8% of expenditures for services -- includes hospitals, nursing homes, and mental retardation centers.

- Expenditures for drugs began to exceeded $1 Billion in SFY 2002.

- 66.5% of the state's 40,000 nursing home beds are funded through Medicaid.

- 14% of N. C. hospital charges are paid by Medicaid -- 49% are paid by Medicare.

Medicaid Program

IMPACT ON STATE AND LOCAL AGENCIES

- The Medicaid Program supplies significant support to State and Local agencies that provide medical services to Medicaid recipients.

- The following State and Local Agencies receive reimbursement from Medicaid: Mental Retardation Centers, State Psychiatric Hospitals, Special Care Center, UNC Hospitals, Area Mental Health Agencies, Alcohol and Drug Treatment Centers, Public Health Departments, Social Services Departments, County Owned Home Health Agencies, County Owned Ambulance Services and Local Education Agencies.

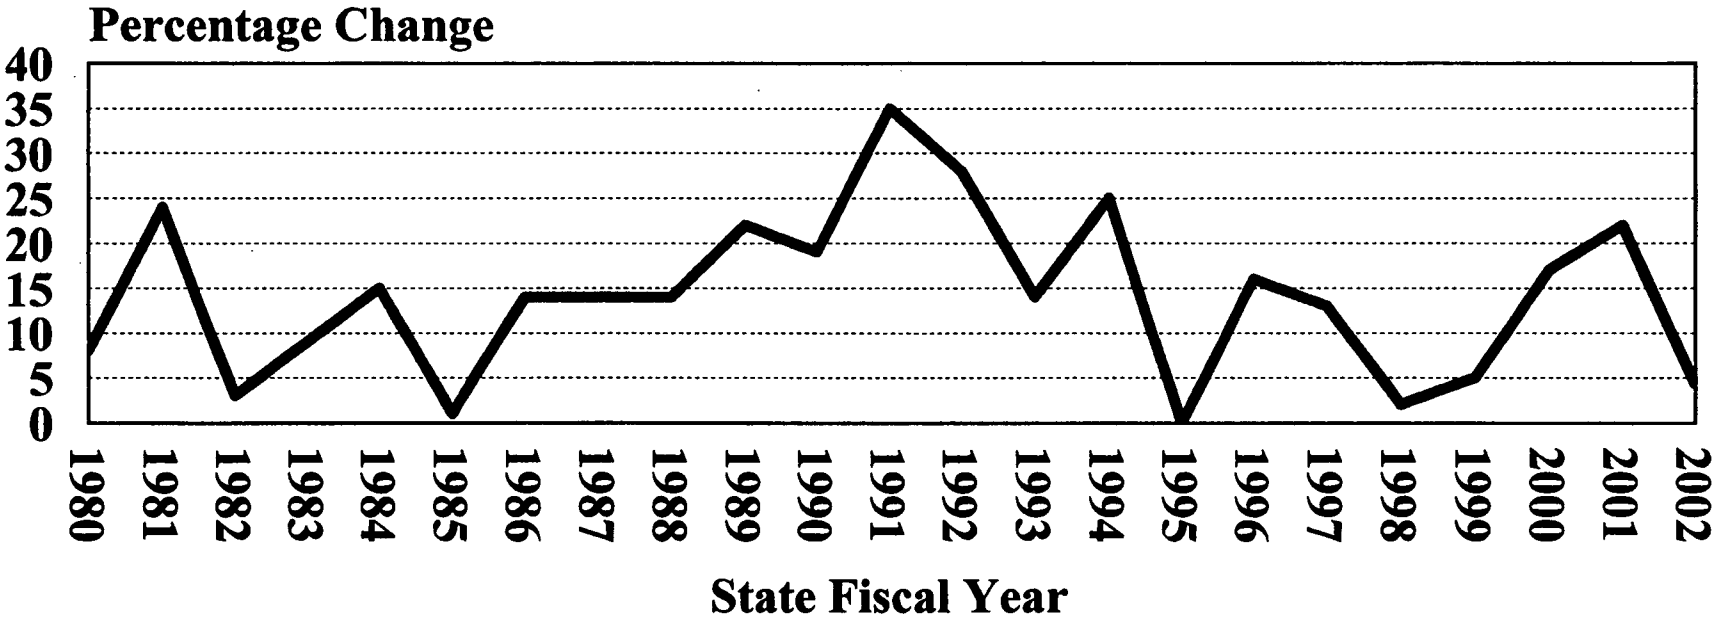
Medicaid Program

HISTORY OF TOTAL EXPENDITURES

STATE FISCAL YEAR	TOTAL EXPENDITURES
1979-80	$410,053,625
1989-90	$1,427,672,567
1999-00	$5,789,133,085
2001-02	$7,366,129,429

Medicaid Program

RATE OF GROWTH



- ✓ During the past twenty years, the rate of growth for Medicaid expenditures has varied considerably - ranging from 0% to 35%.
- ✓ Higher rates of growth have occurred during years of economic distress or when major Medicaid expansions have been authorized.
- ✓ Lower rates of growth have occurred during years when the Medicaid population has been stable or declining.

Medicaid Program

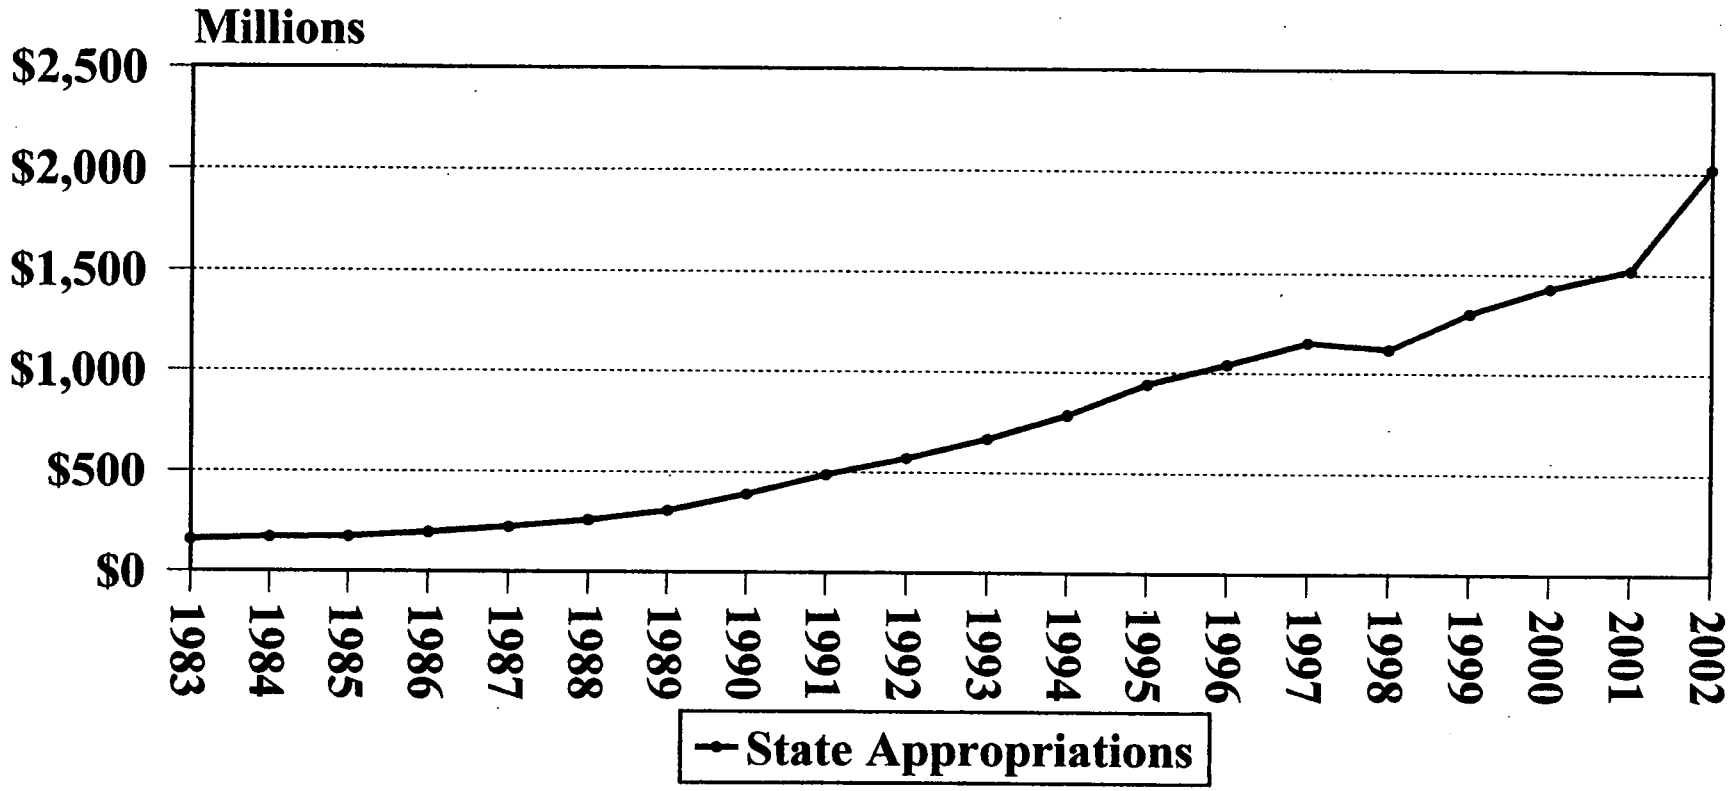
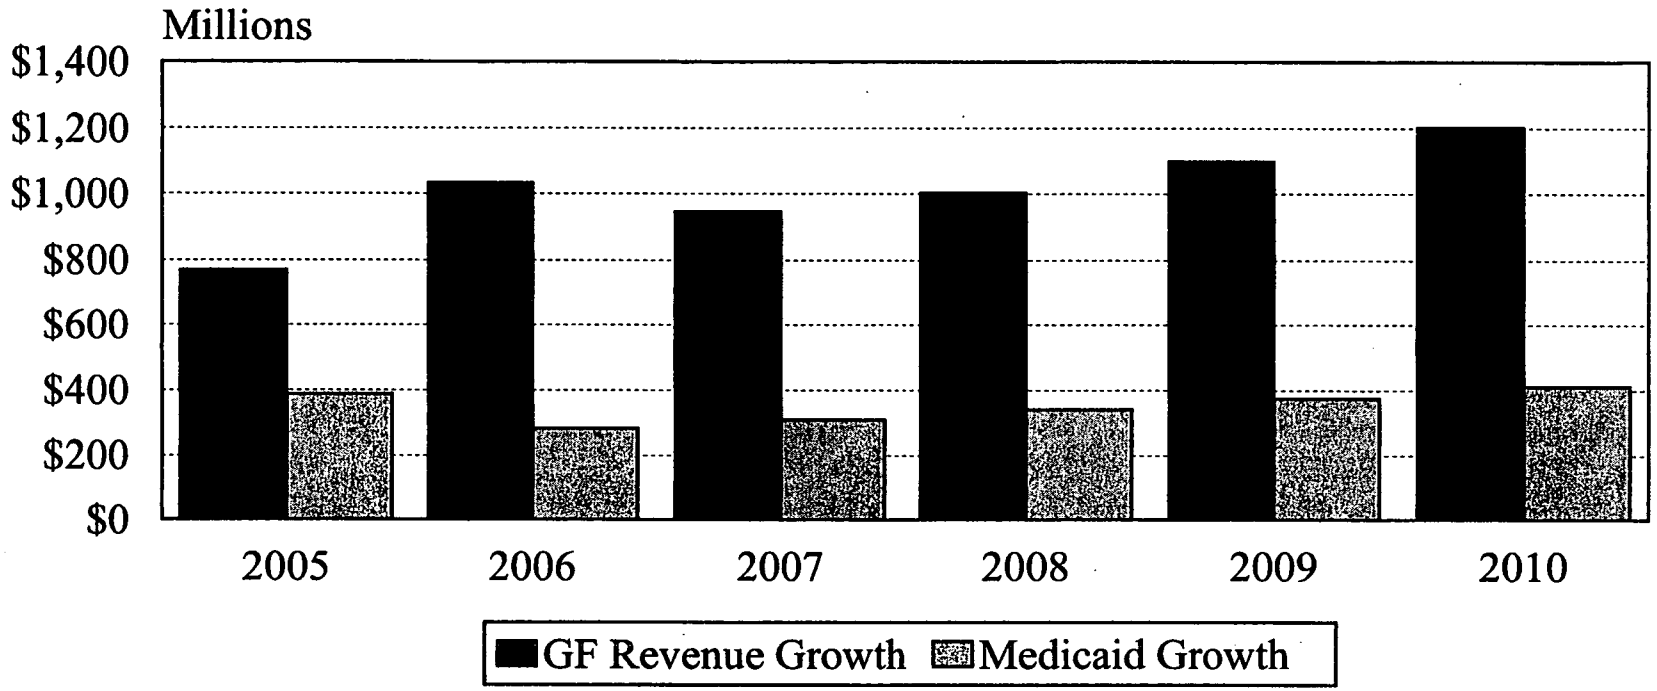
HISTORY OF STATE APPROPRIATIONS



- ✓ 10 years ago, Medicaid was 8.2% of the General Fund operating budget; today it is 15.3%.
- ✓ A 1% increase in the Medicaid Budget equals an $22 Million increase in General Fund requirements.

Medicaid Program

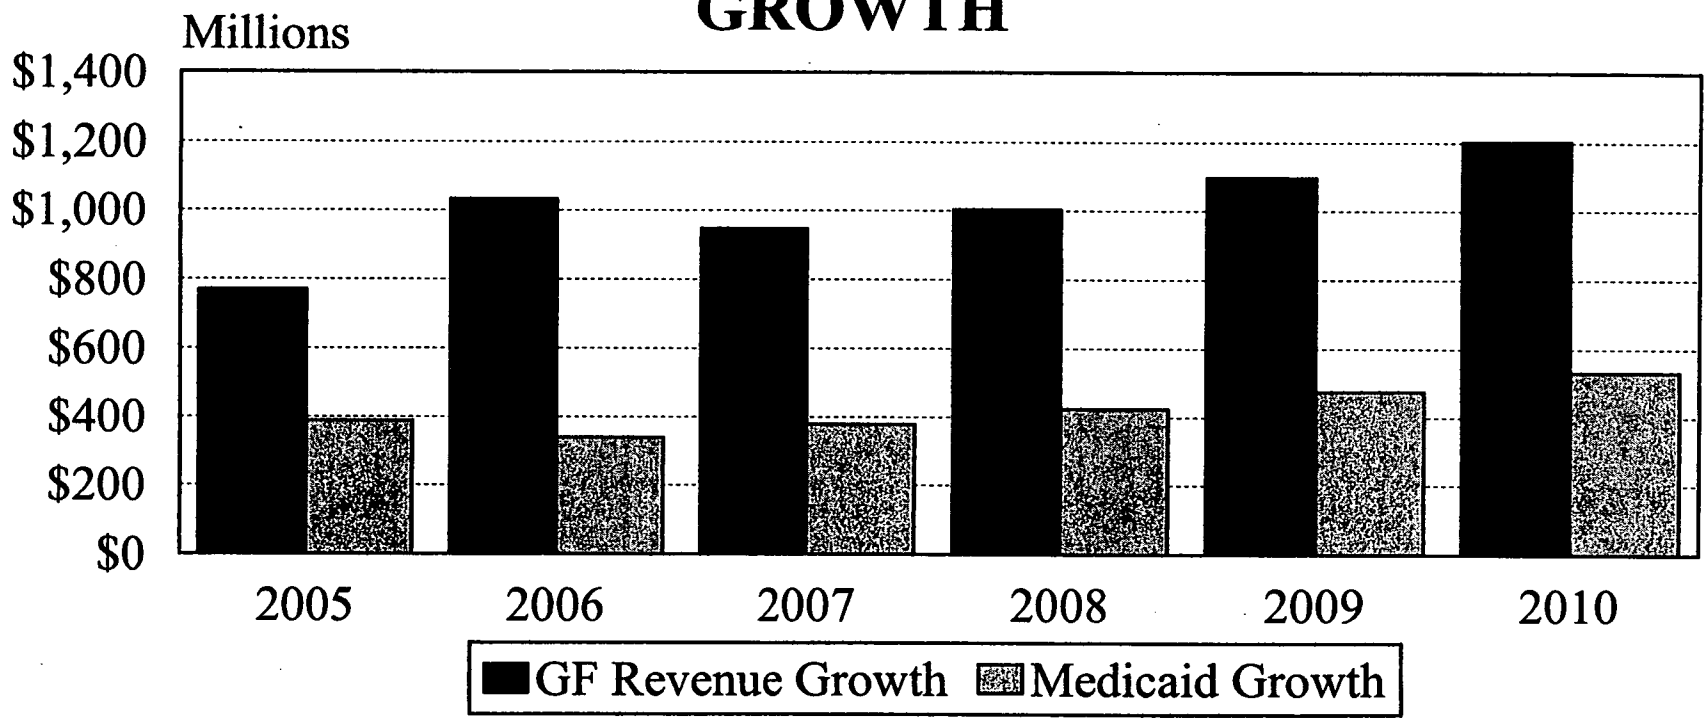
MEDICAID GROWTH VS. GENERAL FUND REVENUE GROWTH



If Medicaid expenditures increase 10% annually, growth in General Fund expenditures for Medicaid will consume 34% of new General Fund revenues by SFY 2010.

Medicaid Program

MEDICAID GROWTH VS. GENERAL FUND REVENUE GROWTH



If Medicaid expenditures increase 12% annually, growth in General Fund expenditures for Medicaid will consume over 44% of new General Fund revenues by SFY 2010.

Medicaid Program

IMPACT ON COUNTIES

- State law requires counties to pay 15% of the nonfederal share of Medicaid Services and 100% of the nonfederal share for County Medicaid Administration.

- For SFY 2003, counties are projected to pay $388 million for Medicaid Services or 5.66% of the expenditures for Medicaid Services.

- For SFY 2003, counties are also projected to pay $63 million for County Medicaid Administration or 50% of the expenditures for County Medicaid Administration.

Medicaid Program

COUNTY PARTICIPATION IN OTHER STATES

Nineteen states require county financial participation for paying the administrative and/or service cost of their Medicaid Programs.

- ✓ Three states require county financial participation for paying for the cost of Medicaid administration: Colorado, Indiana, and Wisconsin.
- ✓ Four states require county financial participation for paying for the cost of Medicaid services: Arizona, Florida, Iowa, and Michigan.
- ✓ Eleven states require county financial participation for paying for the cost of Medicaid administration and services: Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Pennsylvania, South Carolina, Virginia, and Washington.

MEDICAID SERVICES

Medicaid Program

Mandatory Services and Eligibles

Under federal law, all states operating a Medicaid Program are required to provide certain services and serve specific categories of eligibles. The services and eligibles are **mandatory** and must be included in order to receive federal reimbursement.

Medicaid Program

Mandatory Services

- Health Check Services (ESPDT)
- Family Planning Services
- Federally Qualified Health Centers
- Hearing Aids (children)
- Home Health Services (includes Durable Medical Equipment)
- Inpatient Hospital Services
- Outpatient Hospital Services
- Physicians
- Laboratory & X-Ray Services
- Nurse Midwives
- Nurse Practitioners
- Nursing Facilities
- Prenatal Care
- Rural Health Clinics
- Specialty Hospitals
- Transportation
- Vaccines for Children

Medicaid Program

Optional Services and Eligibles

- Current federal law also will provide federal reimbursement for other services and eligibles that are discretionary, but are allowed under federal law. Each state is allowed to choose which optional services it wants to provide and optional categories of eligibles it wants to serve.

- The North Carolina Medicaid Program covers 28 of the 34 optional Medicaid services.

Medicaid Program

Optional Services

- Ambulance Transportation
- Case Management Services
- Chiropractors
- Clinic Services
- Community Alternatives Programs (CAP)
- Dental Care Services (Dentures)
- Diagnostic, Screening, Preventative Services
- Emergency Hospital Services
- Eyeglasses
- Hospice
- Intermediate Care Facilities for the Mentally Retarded (ICF-MR)
- Mental Hospitals (Age 65 and over)
- Impatient Psychiatric Care (Under age 21)
- Occupational, Physical, and Speech Therapies
- Optometrists
- Personal Care Services
- Podiatrists
- Prescription Drugs
- Prosthetics (children)
- Private Duty Nursing Services
- Rehab. Services (Mental Health)

Medicaid Program

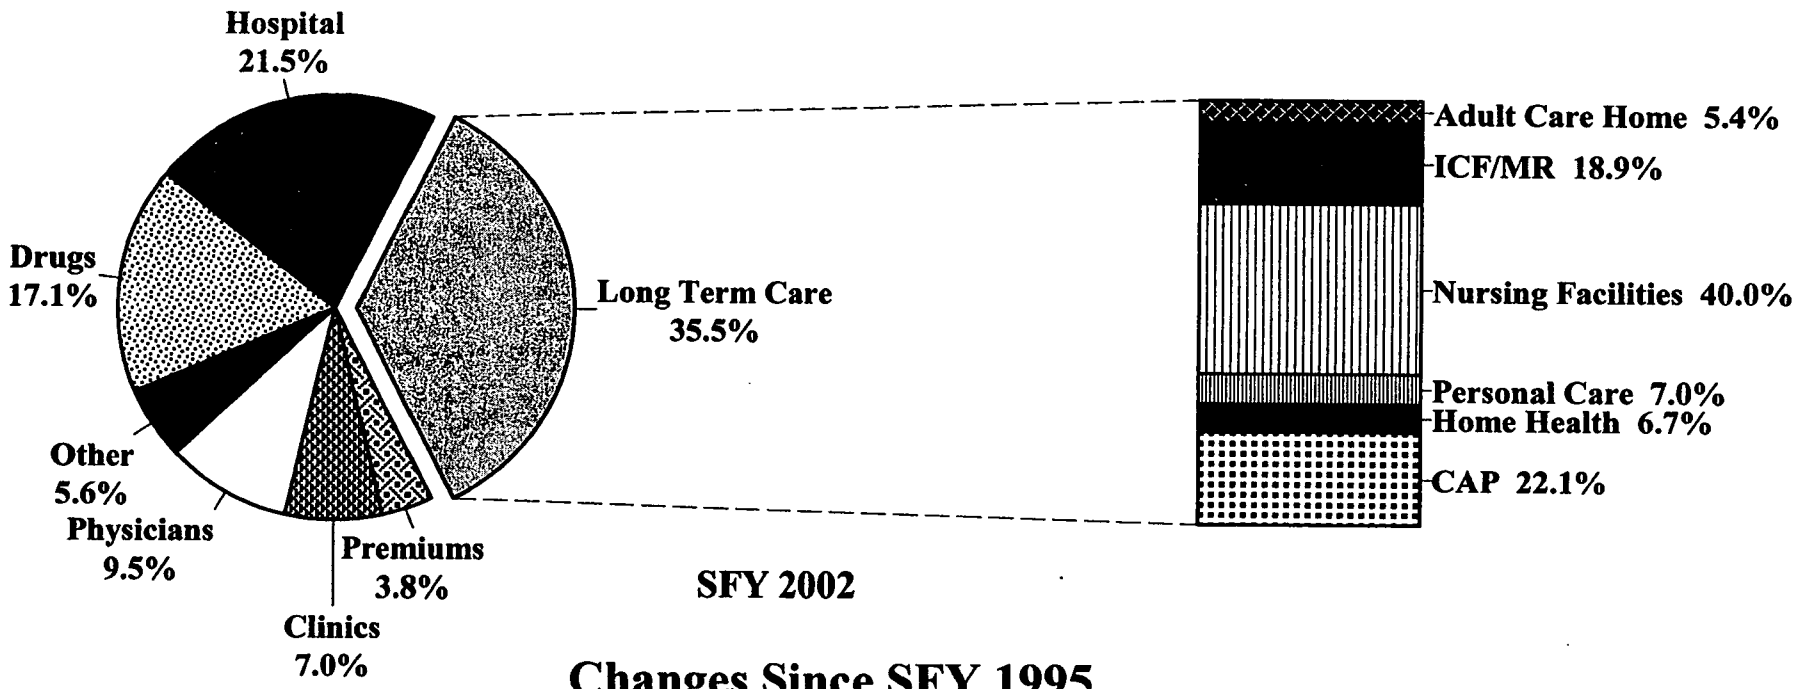
EXPENDITURES FOR SERVICES

- Total expenditures for services and premiums was $6.2 Billion for SFY 2002.

- 96.2% of expenditures for services paid for direct medical services while the remaining 3.6% paid for Medicare and HMO premiums.

Medicaid Program

EXPENDITURES FOR SERVICES

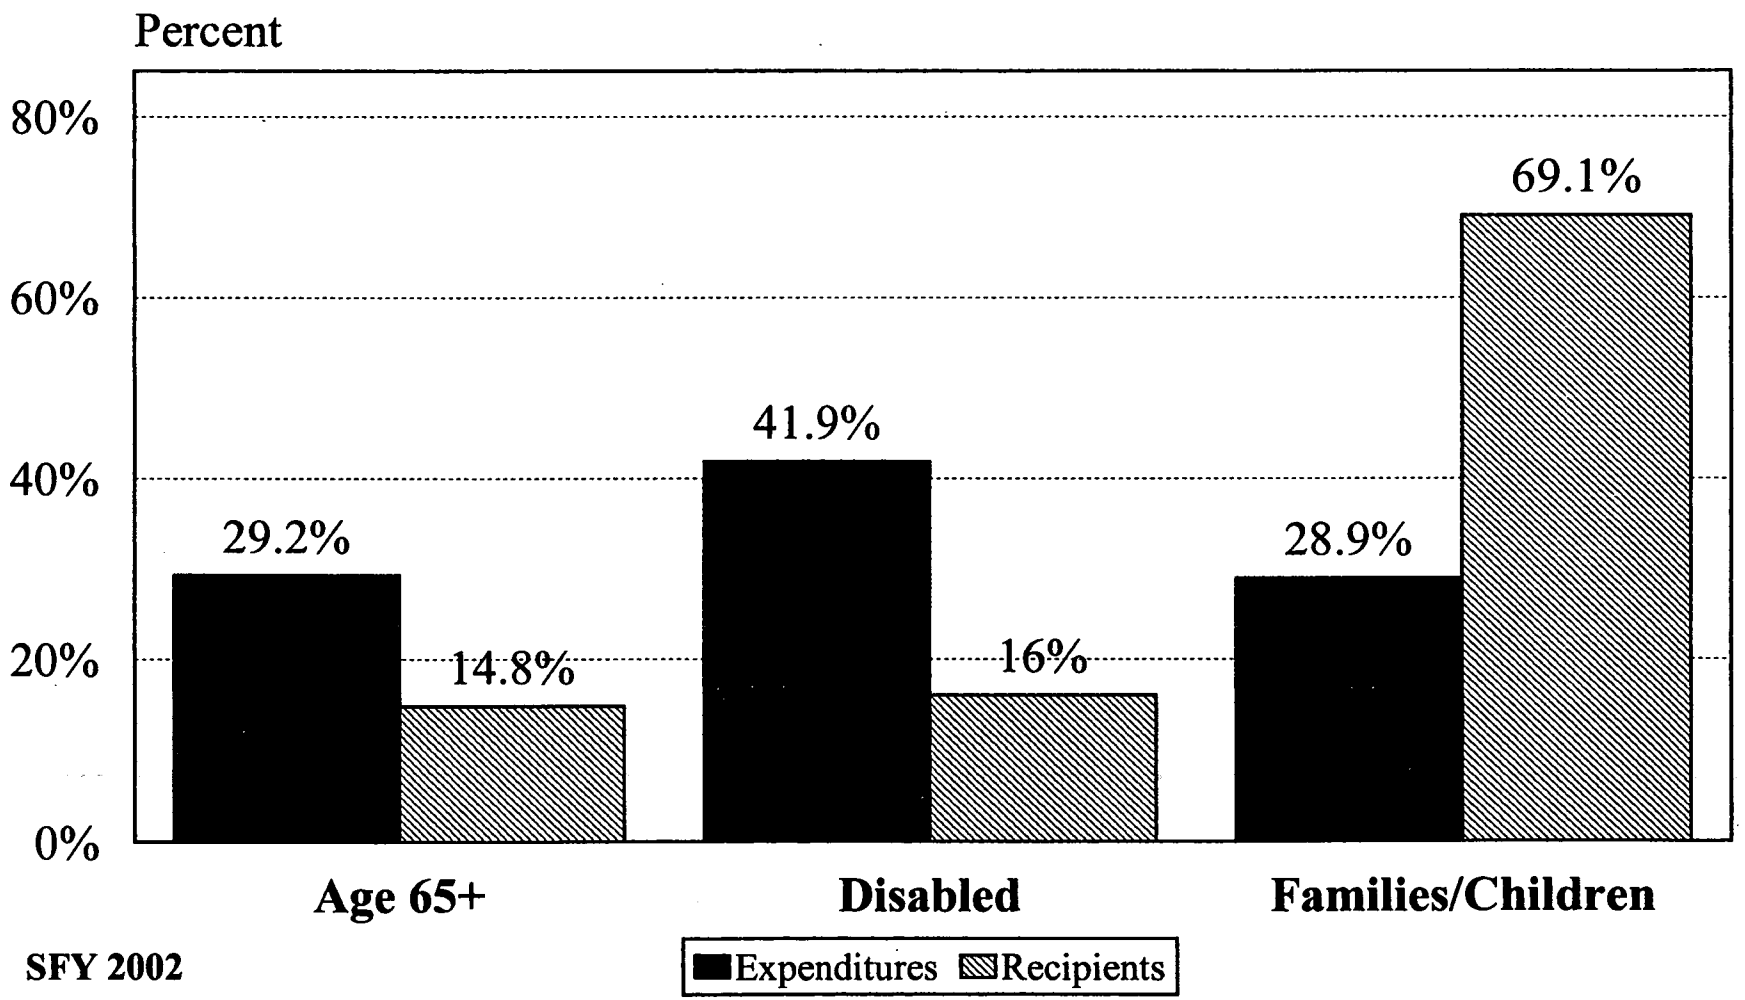


Changes Since SFY 1995

- ✓ **Long-Term Care expenditures continue to decline - 40.4% to 35..5%.**
- ✓ **In-Home Services are an increasing share of Long-Term Care expenditures - 18.5% to 35.8%**
- ✓ **Hospital expenditures have also declined - 26.9% to 21.5 %.**
- ✓ **Drug expenditures have doubled - 8.2% to 17%.**

Medicaid Program

EXPENDITURES AND RECIPIENTS



SFY 2002

Medicaid Program

EXPENDITURES AND RECIPIENTS

SFY 2002

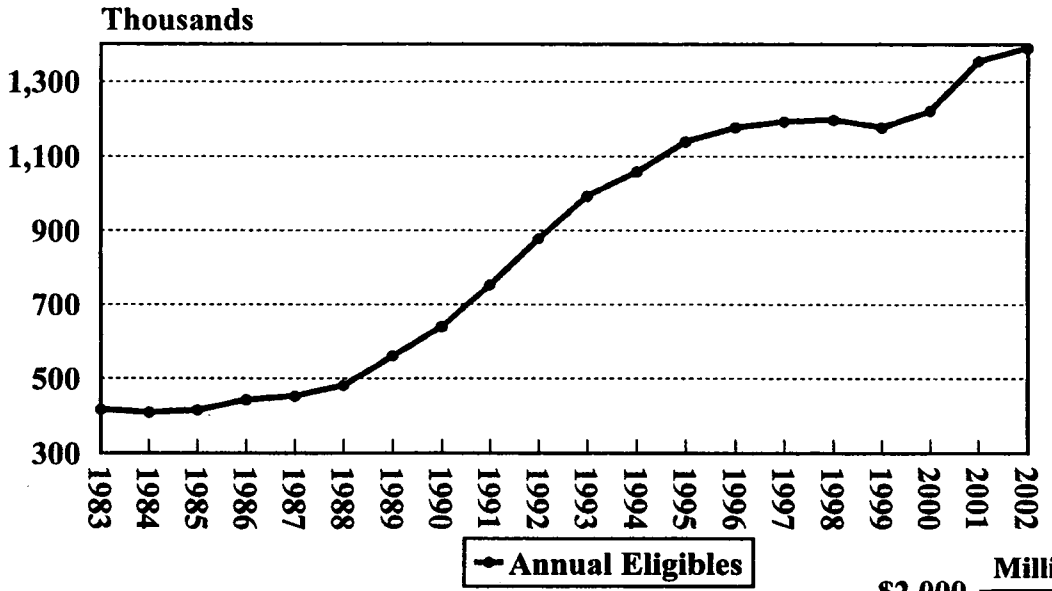
Eligibility Category	Number of Recipients	Expenditures	Annual Cost Per Recipient
Elderly	208,109	$1,804,543,711	$8,687
Aged	160,845	$1,783,081,503	$10,799
Medicare-Aid	47,264	$21,462,207	$473
Disabled	223,225	$2,590,740,655	$10,645
Families & Children	954,340	$1,753,986,603	$1,639

NOTE: The Aged and Medicare-Aid categories are subsets of the Elderly category.

MEDICAID RECIPIENTS

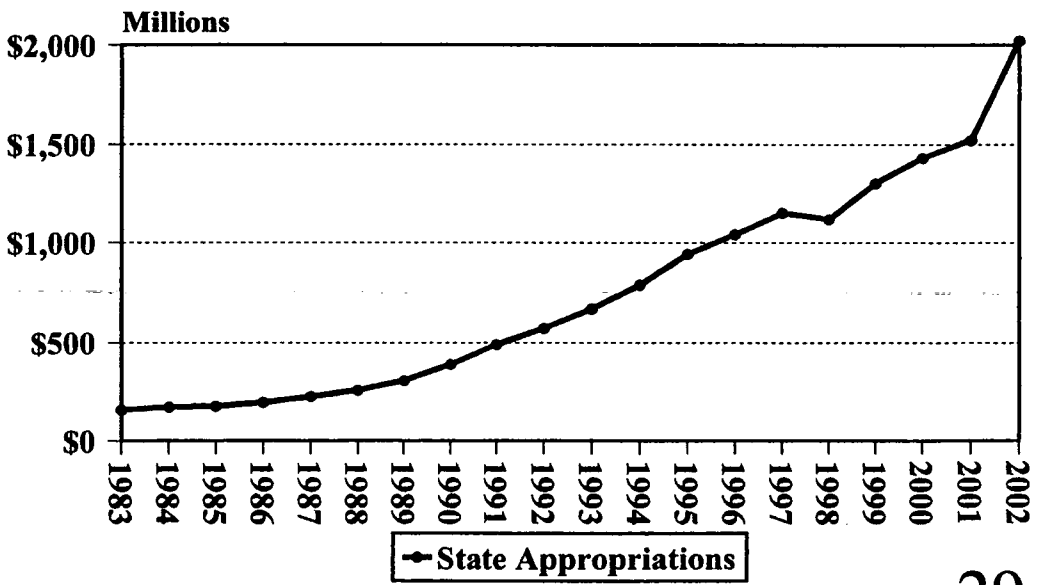
Medicaid Program

GROWTH IN ELIGIBLES AND EXPENDITURES



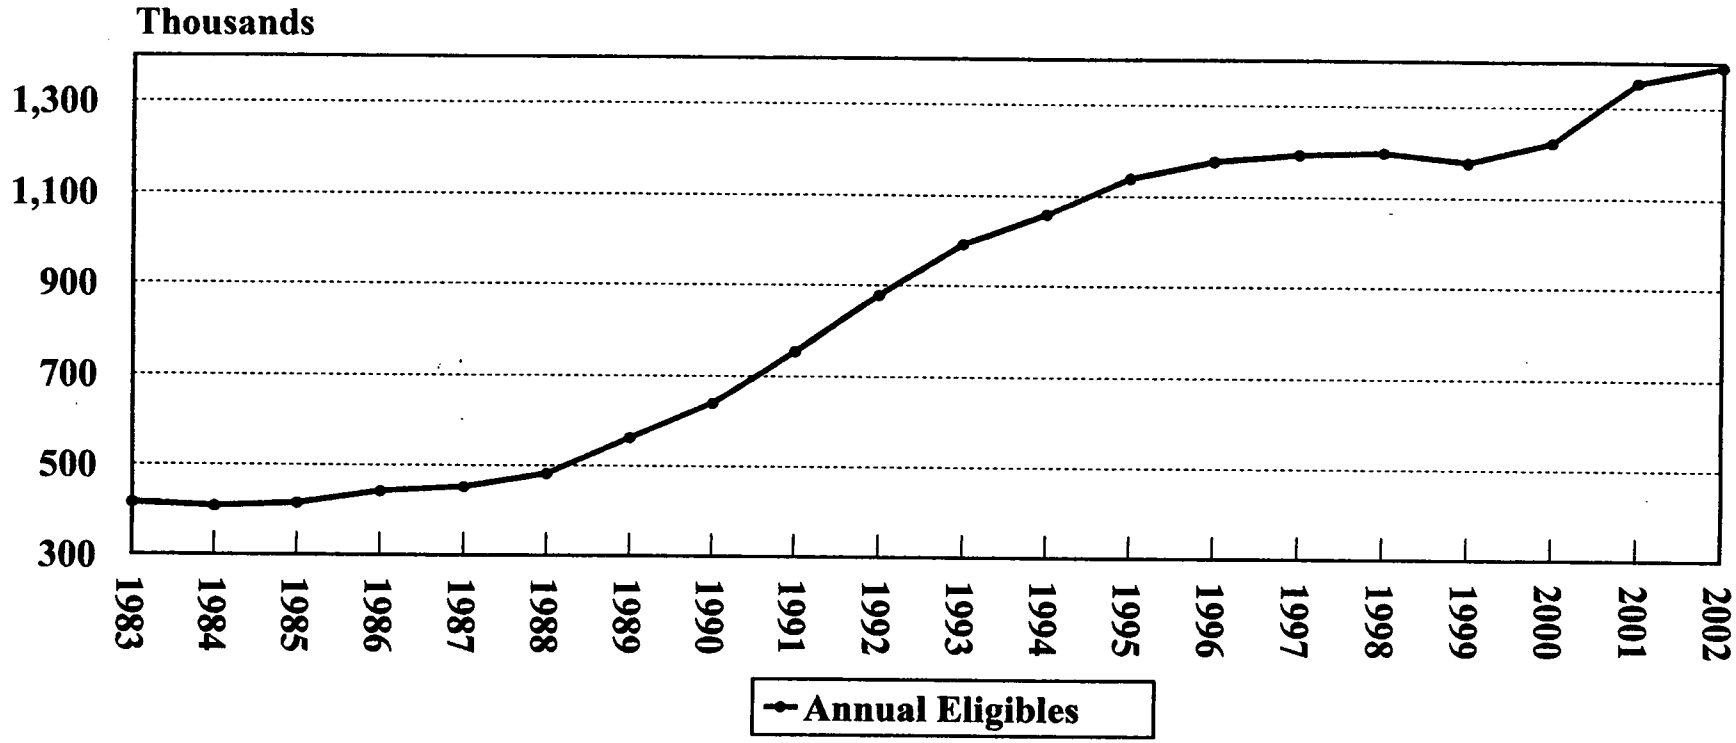
During the early 1980s, the number of eligibles did not grow significantly, and the rate of growth in expenditures for Medicaid was moderate.

Beginning in 1987, a series of mandated and optional eligibility expansions occurred and expenditures for Medicaid began to grow rapidly.



Medicaid Program

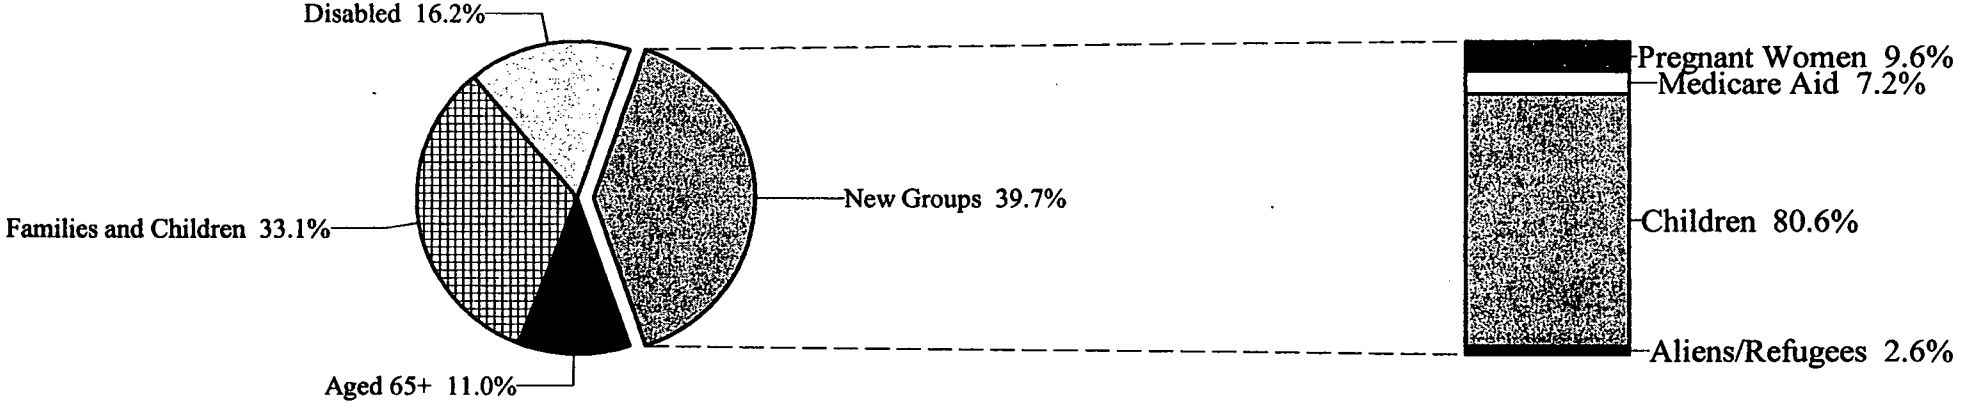
HISTORY OF ANNUAL ELIGIBLES



Growth in the number of annual eligibles began to plateau in SFY 1996 as welfare caseloads began to significantly decline and actually decreased in SFY 1999. The number of annual eligibles grew 11% in SFY 2001 because the decline in welfare caseloads slowed and other eligibility groups continued to grow. Growth in SFY 2002 slowed to 2.6%

Medicaid Program

NEW GROUPS SINCE 1987



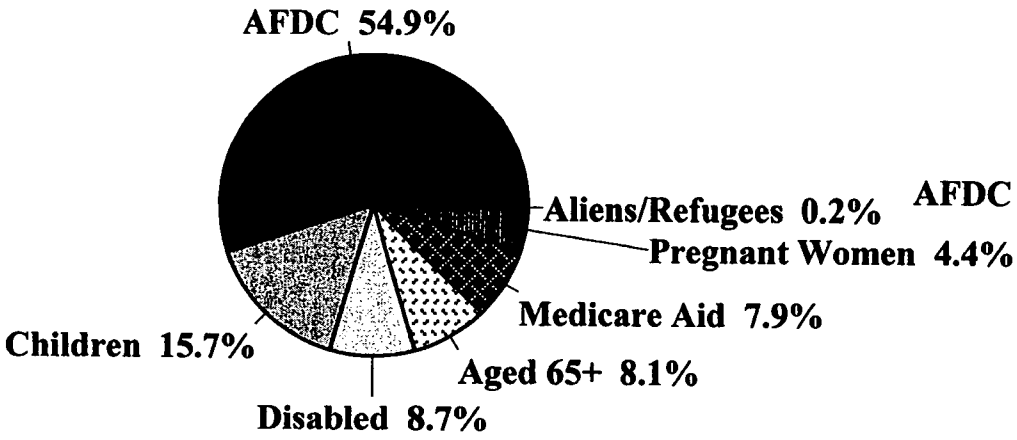
SFY 2002

When Medicaid began, the program focused on providing medical care for the disabled, aged, and families receiving welfare. Since 1987, Medicaid eligibility has been expanded to cover children, pregnant women, qualified Medicare beneficiaries, and aliens/refugees.

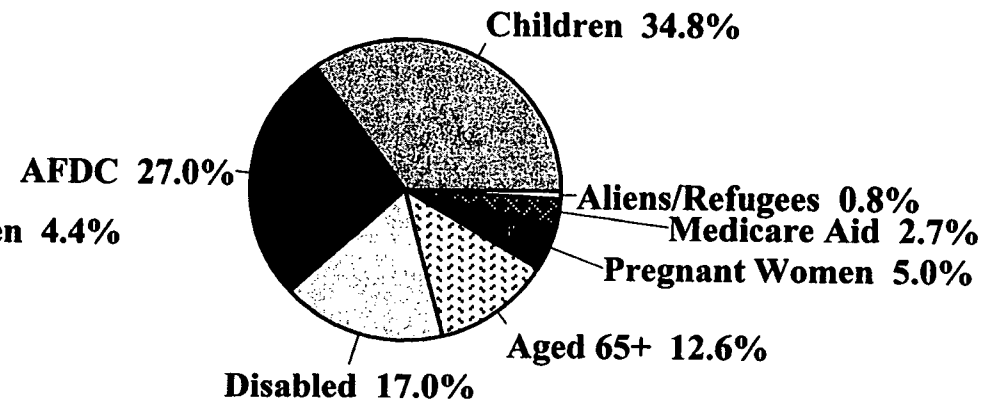
Medicaid Program

MEDICAID ELIGIBLES

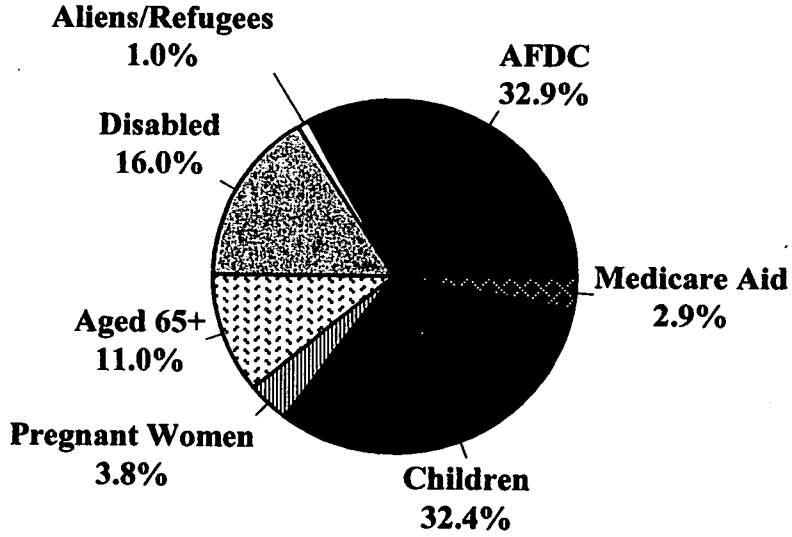
SFY 1994



SFY 2000



SFY 2002



Medicaid Program

CHANGING MEDICAID ELIGIBLES

- ✓ In SFY 1994, the welfare caseload reached 581,000 people and welfare recipients were the largest group of eligibles.
- ✓ In SFY 2000, welfare reform reduced the welfare caseload to 330,000 people and children became the largest group of eligibles.
- ✓ In SFY 2002, welfare recipients are again the largest group of eligibles due to the poor economy and the expansion of Transitional Medicaid.
- ✓ In SFY 2000, the 1998 expansion of Medicaid to aged, blind, and disabled persons with incomes up to a 100% of the federal poverty level doubled the number of aged, blind and disabled eligibles.
- ✓ In SFY 2002, the number of aged, blind, and disabled eligibles has stabilized.

SFY 2002

Medicaid Program

MANDATORY ELIGIBILITY GROUPS

- Low Income Families and Children (Based on the AFDC State Plan as of July 16, 1996)
- Aged, Blind, and Disabled SSI Recipients
- Infants born to Medicaid eligible women (to 150% of FPL)
- Children under age 6 (to 133% of FPL)
- Pregnant Women (to 150% of FPL)
- All Children born after 9/30/83 (to 100% of FPL)
- Recipients of Adoption Assistance and Foster Care
- Certain Medicare Recipients
  - Dual Eligibles
  - Qualified Medicare Beneficiaries
  - Specified Low-Income Medicare beneficiaries
  - Qualified Disabled and Working Individuals

Note: FPL is the Federal Poverty Level

Medicaid Program
OPTIONAL ELIGIBILITY GROUPS

- Infants born to Medicaid eligible women (150% to 185% of FPL)
- Pregnant Women (150% to 185% of FPL)
- Children age 18, 19, and 20 meeting AFDC income standards
- Special Needs Adoptive Children
- Recipients of State/County Special Assistance
- Recipients of State Assistance to the Blind
- Persons receiving care under home and community-based waivers
- Aged, Blind, and Disabled persons presumed eligible for but not receiving SSI
- Aged, Blind, and Disabled persons with non-SSI income (to 100% of the FPL)
- Medically Needy Persons
- Transitional Medicaid (Additional 12 months of coverage)
- Women with Breast and Cervical Cancer (to 185% of FPL)

Note: FPL is the Federal Poverty Level

PROGRAM CHANGES SINCE 1990

Medicaid Program

PROGRAM CHANGES SINCE 1990

Eligibility Expansions

- **Mandated**

  - ✓ Increase children ages 11 to 19 coverage to 100% of FPL - Effective 7/1/94
  - ✓ Increase children ages 1 to 6 coverage to 133% of FPL - Effective 10/1/90

- **Optional**

  - ✓ Increase pregnant women and infant coverage to 150% of FPL - Effective 1/1/90
  - ✓ Increase pregnant women and infant coverage to 185% of FPL - Effective 10/1/90
  - ✓ Add adoptive children with special rehabilitative needs - Effective 10/1/94
  - ✓ Automatic coverage of SSI eligible aged, blind and disabled persons - Effective 1/1/95
  - ✓ Add non-SSI eligible aged, blind, and disabled persons to 100% of FPL - Effective 1/1/99
  - ✓ Increase transitional TANF coverage from 12 to 24 months - Effective 10/1/99
  - ✓ Add women with breast and cervical cancer coverage to 185% of FPL -Effective 10/1/01

Note: FPL is the Federal Poverty Level

Medicaid Program

PROGRAM CHANGES SINCE 1990

Managed Care Initiatives

- ✓ Carolina ACCESS began implementation - Effective 4//91
- ✓ Carolina Alternatives was implemented - Effective 1/94
- ✓ Health Care Connections was implemented in Meclenburg County -Effective 6/96
- ✓ ACCESS II and ACCESS III demonstration was implemented - Effective 7/98
- ✓ Carolina ACCESS implemented statewide - Effective 12/98
- ✓ Carolina Alternatives terminated - Effective 6/99
- ✓ Health Care Connections terminated and replaced with Carolina ACCESS II - Effective 10/01
- ✓ Carolina ACCESS II and III demonstration expansion began and is ongoing - Effective 11/02

Medicaid Program

PROGRAM CHANGES SINCE 1990

Federal Revenue Maximization Efforts

- ✓ Intermediate Care Facilities for the Mentally Retarded
- ✓ Thomas S program (lawsuit)
- ✓ Willie M program (lawsuit)
- ✓ Adult Care Home Personal Care Services
- ✓ DSH Payments
- ✓ Health Departments & Area Mental Health Programs
- ✓ Health Related Services In Schools

Medicaid Program

COST CONTAINMENT EFFORTS 2001 AND 2002

- **Prescription Drugs**
  - ✓ Prior Authorization Program
  - ✓ State "Maximum Allowable Cost" Drug List
  - ✓ Limit most drugs to a 34-day supply
  - ✓ Increase use of generic drugs
  - ✓ Voluntary Preferred Drug List
  - ✓ Increase copayments for brand name drugs ($1 to $3)
  - ✓ Reduce dispensing fees for brand name drugs ($5.60 to $4.00)

- **Provider Rates**
  - ✓ Reduce Physician rates from 100% of Medicare rates to 95%.
  - ✓ Eliminate inflationary increases for SFY 2003
  - ✓ Reduce rates by 5% for the following providers: private duty nursing, home infusion therapy, home health supplies, durable medical equipment, optical service, ambulatory surgical centers, and high risk intervention
  - ✓ Reduce hospital payments by .5 %
  - ✓ Limit Medicare crossover claims to Medicaid rates
  - ✓ Apply Medicaid medical policy to Medicare crossover claims

Medicaid Program
COST CONTAINMENT EFFORTS 2001 AND 2002

- **Recipients**
  - ✓ Apply federal transfer of asset policies to real property excluded as "income producing" under Title XIX.
  - ✓ Apply transfer of asset policies to persons receiving personal care services while residing in their homes
  - ✓ Adopt the SSI method for considering equity value in income-producing property for aged, blind and disabled persons
  - ✓ Modify policy for determining eligibility for pregnant women coverage for minors by counting parental income

- **Services**
  - ✓ Reduce monthly limit for Personal Care Services from 80 hours to 60 hours
  - ✓ Limit Personal Care Services to 3.5 hours per day
  - ✓ Eliminate optional circumcision procedures except in cases of medical necessity
  - ✓ Reduce case management services for adults and children by reducing rates, streamlining services, and eliminating duplicated services

- **Managed Care**
  - ✓ Expand Carolina ACCESS II/III activities including reducing hospital admissions, reducing ER visits, using best prescribing practices, increasing generic prescribing, implementing polypharmacy review, reducing therapy visits, and better management of high risk/high cost patients.

House Committee on Finance

Minutes

March 11, 2003

The House Committee on Finance met on March 11, 2003 at 8:30 AM in Room 544 of the Legislative Office Building. The following members were present: Chairpersons Howard, Luebke, McComas, Miner and Wainwright; Vice-Chairs Alexander, Decker, and Hill; Representatives Blackwood, Bordsen, Capps, Carney Glazier, Holliman, Jones, Lewis, McGee, Munford, Rayfield, Ross, Setzer, Weiss, Wilson, Womble, and Wood and Cunningham. Staff persons present included Cindy Avrette, David Crotts, Trina Griffin, Canaan Huie and Martha Walston. The Sargent at Arms staff included Dusty Rhodes, Bob Fowler, Walter Spell and Bill Freeman. The agenda and visitor registration sheet are attached and incorporated into these minutes as attachments 1 and 2.

Chairman McComas called the meeting to order at 8:32 AM. He then recognized the pages for the meeting. Two pages were in attendance; Crystal Hammond from Harnett County and Adrienne Farmer from Person County.

The Chairman announced that we had two bills on the agenda and then Mr. Canaan Huie would do overviews of the William S. Lee Act and the Jobs Development Investment Grant Program (JDIG).

As the first bill on the agenda, the Chair recognized Representative Nye to explain House Bill 29 – BLADENBORO SATELLITE ANNEXATION (see attachment 3). Without objection, Representative Glazier moved for adoption. Representative Nye explained that this bill allowed the Town of Bladenboro to voluntarily annex an area and the bill is needed because we have guidelines on what you can annex and this goes beyond the guidelines. Representative Hill then moved for adoption and a favorable report. Representative Luebke than asked for Representative Nye to explain which exception was involved necessitating a special bill. Representative Nye stated that he thought a city was allowed to go 10% of their property outside the city limits and this goes beyond that and takes in more than 10%. A member of staff indicated that this was correct. Representative Luebke then asked Representative Nye if there were any local objections to this bill. Representative Nye reiterated that this was voluntary and that the corporation people are asking for it. The Chair hearing no further questions called for a vote and the motion carried.

The next item on the agenda was House Bill 135 – ROANOKE RAPIDS ANNEXATION (see attachment 4). The Chair called on Representatives Allen and Hall to explain the bill. Representative Lucy Allen stated she is happy to offer this bill because Roanoke Rapids is doing an outstanding job in planning for future growth and in

sound economic development. The annexation request is voluntary but the area is not developed in an urban manner so it has to come before the legislature. The area is 318 acres, 314 of which are in the hands of one owner who wishes to develop the state certified site. The other occupants of the property, a church, one occupied house and one unoccupied house, are also in favor of the annexation. There are no objections. Growth and economic development in this area will provide the jobs the North Carolinians there need. This requested annexation is in the primary growth corridor where there is a great deal of development in the works. It is contiguous to the city limits and will allow the city to grow in a sensible manner and also develop the local economy. The Chair asked if the main thrust of this bill was for economic development and to make it easier to install the infrastructure for industrial sites. Representative Allen stated that this was so. Representative Howard then moved for a favorable report.

Representative Luebke stated that he supported this bill but had questions. He asked why an industrial prospect would want to come to a place where they would have to pay city and county taxes. Representative Allen stated there is not a specific prospect for the property but it is the owner of the property who wants this and the city intends to market and offer incentives for the area so will be acting as an economic developer for the property owner and will have an offsetting rate structure, the in town rates for water, that will make a difference as far as the taxes go. The economic development arm of Halifax Co. will be in partnership with any prospect that comes. Representative Rayfield than asked if the subject property was in the sanitary district. Representative Allen stated that the sanitary district provides the services for the city. Representative Rayfield asked if Roanoke Rapids was in a position to offer the incentives /infrastructure that this property would require. Representative Allen was not sure.

Chairman McComas than called on Mr. Andy Romenet, General Counsel of the League of Municipalities. He stated he did not have all the specifics about this particular property. He stated that the League has had many situations in the past where the property owner wants the property to be in the city limits for development and other purposes and he could see a joint city/county operation for the City of Roanoke Rapids and for Roanoke Rapids to participate if they want the property in the city limits. Mr. Romenet had heard of no opposition from anyone.

The Chair recognized Representative Capps who had questions for Martha Walston. He asked if this bill would be a modification of Chapter 168. Ms. Walston stated it was not really a modification because the annexation did not meet the statutory requirement because the property has been developed for urban purposes. They are going before the General Assembly to get the annexation. This is the usual way of doing this when you don't meet the statutory requirements. Representative Capps then asked if this was a local bill. Ms. Walston stated that it is.

Representative Howard moved for a favorable report. Hearing no further questions, the vote was taken and the bill passed.

Chair McComas stated that the next item on the agenda was an overview on the William S. Lee Act (see attachment 5). He called on Mr. Canaan Huie who referred members to two documents in their folders on the presentations he was going to give. This included two summaries, one of the Bill Lee Act and one of the Job Development Investment Grant Program (JDIG). The summaries are rather long and detailed but Mr Huie gave the broad strokes of the two programs. The folder also contained the county tier designations for 2002 (see attachment 7).

Mr. Huie began with discussion of the Bill Lee Act and indicated he would be willing to take questions at any time.

Representative Luebke then asked about the Governor's Walk Around money or the One North Carolina Fund. Mr. Huie stated that he had not planned on touching on that. Representative Luebke asked Mr. Huie to prepare something on the One North Carolina/Walk Around Fund. Chair McComas also asked for information on the situation on the Film Incentive Grants, the half-million dollars in the pending lawsuit. The Chairman stated that he put in a bill for that money last year and was fortunate to see it come to fruition.

Mr. Huie stated that the Bill Lee Act is a collection of tax credits dealing primarily with job creation, worker training, research and development expenditures and investment in real property and machinery and equipment. The Act was created in 1996. Up until that time North Carolina had not had much of a problem in attracting new and expanding industry but it was felt that a new economic development tool was needed to remain competitive in attracting those industries. For most taxpayers the Bill Lee Act will sunset as of January 1, 2006. There is one exception. During the last Session, the General Assembly enacted an exception to that sunset for certain interstate air couriers that had already taken a number of steps towards the completion of a project.

Mr. Huie stated that he would discuss the general administration of the Act, the focus of the basic eligibility requirements of the Act and a brief overview of the credits

Following Mr. Huie's presentation, Representative Blackwood inquired as to the effectiveness this Act had been in getting new jobs, etc. Mr. Huie indicated that the Department of Commerce is required to commission a study every two years on the Bill Lee Act. That report is due April 1st, 2003. The report will look at the use of the Bill Lee Act in recruiting new and expanding businesses and also whether there should be changes to the Act and issues of tax equity. Representative Blackwood then asked if, going back to the last report, is the Bill Lee Act working and have there been new jobs.

Chair McComas announced that Secretary Fain was here and welcomed him to shed some more light for the benefit of the newcomers.

Mr. Fain stated that the last study done of the Bill Lee Act and its impact indicated that the Act was performing well in some areas and the results in other areas needed more study. Based on the study, the General Assembly made some changes in

the Act last year that will make it more efficient. One misconception is that it does not assist existing companies and the study shows clearly that the majority of credits taken for investment in machinery and equipment were taken by existing companies and that those were taken in heavy measure in traditional industries which indicated they were investing in modernization which is one of the purposes of the Act. In that regard it has been very successful. One can also infer from the data that the tiering system has induced more investment proportionately in Tier 1 which is the less prosperous group of counties than one would expect in the absence of the Act. The study also showed a preponderance of the credits, particularly for machinery and equipment, were taken in more prosperous counties. That is to be expected because that is where the existing businesses are. Some of challenges are taking tax data, which is confidential, from the Department of Revenue and limited, therefore, in terms of how far we can "drill down" to make meaningful conclusions about who is taking the credits and what the real impact is. The Department of Commerce continually works with the Department of Revenue and their consultants to better glean meaningful data so realistic conclusions can be made.

Chair McComas recognized Representative Blackwood who asked specifically how many jobs have been created. Mr. Fain believes the credits were instrumental in many cases in not only creating new jobs and through the modernization program sustaining some companies and their ability to employ. Mr. Fain did not have the figures but he promised to send the study that shows the number of jobs created and correlations can be made from the report.

Representative Lewis asked Mr. Fain to describe Gross Premiums Tax. Mr. Fain stated that it was a tax placed on insurance companies instead of an income tax.

The Chair then recognized Representative Jones for a question of Mr. Fain. He asked whether the Department was able to isolate the 20% of the individuals or families below the poverty level to determine whether their status improved under this program. Mr. Fain stated the data does not lend itself to making that determination. The Department has talked with members of the General Assembly to determine how to reshape the developments and credits in a way that better encourages employment of people who live in development zones.

The Chair next recognized Representative Decker who asked if the report Secretary Fain had referred to was the "Lugar Report." Secretary Fain stated that the report required by the General Assembly is contracted to Professor Lugar in the Office of Economic Development at UNC, Chapel Hill. At the same time there were several other reports done, including one by the Department of Commerce and one done by the Department of Revenue that drew various conclusions.

Mr. Huie stated this concluded his presentation on the Bill Lee Act and volunteered to take any questions.

The Chair recognized Representative Holliman who had a question for Secretary Fain. He stated that his county, Davidson, had many losses of jobs in furniture and

textiles and that the county continued be ranked in a Tier 5 category. Mr. Fain said that this was a perennial challenge as we try to figure out the factors that best judge the situation in each county. Professor Lugar is currently doing a study that would evaluate the effectiveness of the current system.

Representative Jones had a question regarding Professor Lugar's study. He asked whether Secretary Fain's department can identify the 20% low income individuals or geographical areas to determine whether there has been a measurable economic impact in a positive way on that category of people. Mr. Fain stated that that is outside the scope of the study. He indicated that other studies could be done to see what correlations could be established. Representative Jones suggested identifing the geographical areas and then find a way to get new employees as a result of the programs.

Representative Howard referred to a discussion last year regarding eliminating the wage standards in Tiers 1 and 2 and her understanding that there was going to be a detailed report to show either a negative impact or a positive impact. She questioned why we would eliminate those wage standards in the two lowest tiers in the State. Secretary Fain stated he did not remember the specifics but indicated that any data we have can be used to make a determination. Representative Howard requested that a report be given soon.

Representative Glazier then asked if there was a new due date when the data report could be expected. Mr. Huie said the data report is due from the Department of Revenue rather than the Department of Commerce. The report was due March 1st. Mr. Huie indicated he would follow-up on the report and see when it might be available.

Representative Decker inquired as to the total amount of tax credit taken under the Bill Lee Act and the most recent year we have that data. Mr. Huie believes the total amount of Business Incentives totals about $175 million per year. That includes not only the Bill Lee Act credits but some of the credits that have been associated with him over the years.

Representative Ross asked how much of the $175,000,000 had been taken in Economic Development Zones. Mr. said a total credit for the 03-04 fiscal including the original Bill Lee Act from 1996 as well as the additional credits is anticipated at $202.9 million. About 60% of those are the traditional Bill Lee Act credits from 1996. All of these numbers are subject to change once the Lugar Report comes out.

The Chairman recognized Mr. Huie to overview the Job Development Investment Program (JDIG) (see attachment 6). The JDIG Program was created in 2002. There are very significant differences between this program and the Bill Lee Act. This program is not a tax credit or tax incentive; it is based in part on personal income tax withholdings. This is a discretionary grant program. The grants are awarded based on a percentage of the personal income tax withholdings of employees of the business. The program was designed as a tool of last resort. There must be an explicit finding by the Economic Investment Committee that a business would not be locating or expanding in North Carolina without the incentive provided by this program. The authority to enter into

agreements under this program began January 1, 2003 and sunsets January 1, 2005. No agreements have been entered into and the committee has not received any applications.

Mr. Huie then reviewed the basic eligibility requirements for the program, limitations, the program structure and the follow-up requirements. Each of the aforementioned topics are noted in detail on the attached summary.

Chairman McComas noted that there were about three more minutes left of meeting time. Representative Luebke suggested that Mr. Huie should not rush through the completion of his overview of the program as it was so controversial and he recommended that the discussion be continued at the next regularly scheduled meeting of the Finance Committee. The Chair agreed and noted this was an appropriate time to adjourn

The Chairman announced that there would be a joint meeting with the Senate Finance Committee at 12:30 in Room 544. It is a presentation of Streamline Sales Tax by Andy Sobel at the Department of Revenue. There will also be a report on Modernization of State Finances.

The Chair adjourned the meeting at 9:56 AM.

Respectfully submitted,

Representative Danny McComas
Presiding Chair

Judy Lowe
Finance Committee Clerk

GENERAL ASSEMBLY OF NORTH CAROLINA

SESSION 2003

H D

HOUSE BILL 29
PROPOSED COMMITTEE SUBSTITUTE H29-PCS80095-LA-1

Short Title: Bladenboro Satellite Annexations. (Local)

Sponsors:

Referred to:

February 17, 2003

A BILL TO BE ENTITLED

AN ACT CONCERNING VOLUNTARY SATELLITE ANNEXATIONS BY THE TOWN OF BLADENBORO.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 160A-58.1(b) reads as rewritten:

"(b) A noncontiguous area proposed for annexation must meet all of the following standards:

(1) The nearest point on the proposed satellite corporate limits must be not more than three miles from the primary corporate limits of the annexing city.

(2) No point on the proposed satellite corporate limits may be closer to the primary corporate limits of another city than to the primary corporate limits of the annexing city, except as set forth in subsection (b2) of this section.

(3) The area must be so situated that the annexing city will be able to provide the same services within the proposed satellite corporate limits that it provides within its primary corporate limits.

(4) If the area proposed for annexation, or any portion thereof, is a subdivision as defined in G.S. 160A-376, all of the subdivision must be included.

(5) The area within the proposed satellite corporate limits, when added to the area within all other satellite corporate limits, may not exceed ten percent (10%) of the area within the primary corporate limits of the annexing city.

This subdivision does not apply to the Cities of Claremont, Concord, Conover, Newton, Sanford, Salisbury, and Southport, and the Towns of Bladenboro, Catawba, Maiden, Midland, Swansboro, and Warsaw."

SECTION 2. This act is effective when it becomes law.

HOUSE BILL 29:
Bladenboro Satellite Annexations

BILL ANALYSIS

Committee:	House Finance	**Sponsor:**	Rep. Nye
Date:	March 11, 2003	**Analysis by:**	Martha Walston
Version:	Proposed Committee Substitute		Committee Counsel

SUMMARY: ***House Bill 29 adds the Town of Bladenboro to the list of cities and towns that do not have to meet one of the statutory standards required for voluntary satellite annexation in G.S. 160A-58.1(b). The Town of Bladenboro would not have to meet the standard that limits the size of the area within the satellite corporate limits. The original bill added Bladenboro to the 2002 Session Law that exempted certain towns and cities from the statutory standard. Since the list of exempt towns and cities includes 10 or more cities and towns, the list was codified in G.S. 160A-58.1(b). The proposed committee substitute amends this statute (instead of the 2002 Session Law) to add Bladenboro to the list of exempt towns and cities.***

CURRENT LAW: G.S. 160A-58.1 governs the voluntary annexation by a city of noncontiguous property. All property owners in the satellite area may petition a city for voluntary annexation of the noncontiguous property if the property meets the following five standards in G.S. 160A-58.1(b):

1. The nearest point on the proposed satellite corporate limits must be not more than three miles from the primary corporate limits of the annexing city.
2. No point on the proposed satellite corporate limits may be closer to the primary corporate limits of another city than to the primary corporate limits of the annexing city.
3. The area must be so situated that the annexing city will be able to provide the same services within the proposed satellite corporate limits that it provides within its primary corporate limits.
4. If the area proposed for annexation, or any portion thereof, is a subdivision as defined in G.S. 160A-376, all of the subdivision must be included.
5. **The area within the proposed satellite corporate limits, when added to the area within all other satellite corporate limits, may not exceed 10% of the area within the primary corporate limits of the annexing city.**

Claremont, Concord, Conover, Newton, Sanford, Southport, Maiden, Midland, Swansboro, and Warsaw were exempted from the 5th standard in S.L. 2002-121. Marion, Oxford Rockingham, Calabash, Catawba, Dallas, Godwin, Louisburg, Mocksville, Pembroke, Rutherfordton, and Waynesville were exempted from the 5th standard in S.L. 2001-38.

BILL ANALYSIS: The proposed committee substitute for House Bill 29 amends G.S. 160A-58.1(b) by adding the Town of Bladenboro to the list of cities and towns that do not have to meet the 5th statutory standard required for voluntary satellite annexation. This means that the noncontiguous property to be annexed does not have to be within the statutory size limit.

February 27, 2003

A BILL TO BE ENTITLED

AN ACT TO ANNEX CERTAIN DESCRIBED TERRITORY TO THE CORPORATE LIMITS OF THE CITY OF ROANOKE RAPIDS.

The General Assembly of North Carolina enacts:

SECTION 1. The corporate limits of the City of Roanoke Rapids are extended to include the following described area:

"That certain tract or parcel of land lying and being situate in Weldon Township, Halifax County, North Carolina, and being more particularly described as follows: Beginning at a point on the eastern edge of the right-of-way for N. C. Highway 125 and at the southwest corner of Lot No.4 Chockoyotte Professional Park Subdivision, (See Plat Cabinet 5, Slide 129, Halifax Public Registry); thence from said point of beginning and along the lines of Lot No.4, N. 56-02-10 E. 244.73 feet and N. 28-33-40 W. 266.56 feet to a point at the southeast corner of Lot No.3, the same being the southwest corner of Lot No.2, Chockoyotte Professional Park Subdivision; thence along the south line of Lot No.3, N. 62-56-55 E. 241.51 feet to a point on the west side of a 50 foot right-of-way for Gregory Drive; thence crossing the right-of-way for Gregory Drive, N. 61-35-23 E. 50.00 feet; thence, along the eastern right-of-way line for Gregory Drive, N. 28-14-41 W. 17.30 feet and N. 28-05-32 W. 19.22 feet to a point in the eastern right-of-way line and at the southwest corner of Lot No.1, Chockoyotte Professional Park Subdivision; thence with the south line of Lot No.1, N. 56-02-14 E. 457.96 feet to a point in the centerline run of Chockoyotte Creek, at a point in the western boundary line of lands belonging to Halifax Regional Medical Center; thence with and along the centerline run of Chockoyotte Creek and the western line of Halifax Regional Medical Center the following courses and distances: S. 00-20-37 E. 237.36 feet, S. 49-24-11 E. 60.74 feet, S. 00-19-41 E. 164.22 feet, S. 62-29-49 E. 238.91 feet, S. 21-23-44 E. 325.11 feet, S. 39-05-52 E. 269.31 feet, S. 57-59-24 E. 225.40 feet, S. 33-00-24 E. 228.39 feet, S. 42-50-33 E. 147.61 feet, S. 24-27-36 E. 135.61 feet, S. 22-48-10 E. 113.15 feet, S. 52-24-35 E. 126.25 feet, S. 32-27-16 E. 431.17 feet, S. 43-05-55 E. 361.65 feet to the northwestern side of the right-of-way for Old Farm Road Extension,

thence continuing across the right-of-way for Old Farm Road Extension, S. 43-05-55 E. 164.56 feet, and S. 25-53-13 E. 42.90 feet to a point in the southeastern side of the right-of-way for Old Farm Road Extension, thence continuing and along the centerline run of Chockoyotte Creek, which is also the western boundary lines of properties standing in the name of Roanoke Valley Rentals and Roanoke Meadowbrook LLC, the following courses and distances: S. 25-53-13 E. 351.36 feet, S. 46-01-36 E. 145.57 feet, S. 52-28-32 E. 404.56 feet, S. 26-47-11 E. 220.22 feet, S. 08-53-56 W. 161.79 feet, and S. 22-19-21 E. 157.68 feet to the northeastern corner of lands standing in the name of Blackwell B. Pierce, a point in the centerline run of Chockoyotte Creek and in the western line of lands standing in the name of Roanoke Meadowbrook LLC; thence leaving Chockoyotte Creek with and along the northern boundary of lands of Blackwell B. Pierce, S. 83-25-53 W. 1553.94 feet to a point in the southeastern right-of-way line of Old Farm Road Extension; thence turning in a southerly direction along the southeastern right-of-way of Old Farm Road Extension and along the line of Blackwell B. Pierce, S. 21-57-39 W. 668.90 feet, and S. 20-36-16 W. 319.77 feet to a point in the southeastern right-of-way line of N. C. Highway 125 (where it merges with Old Farm Road Extension), thence turning across the right-of-way for N. C. Highway 125, N. 71-44-18 W. 60.00 feet to a point on the northwestern edge of the right-of-way for N. C. Highway 125, thence turning along the northwestern edge of the right-of-way for N. C. Highway 125 the following courses and distances: N. 18-15-42 E. 207.03 feet, N. 14-37-29 E. 124.75 feet, and N. 06-00-45 E. 169.13 feet to a point at the northeast corner of properties now or formerly belonging to the June Long Estate, and turning from said point and on a common boundary with those lands now or formerly belonging to the June Long Estate, with and along the main run of a swamp, the following courses and distances: S. 63-00-00 W. 119.58 feet, N. 85-00-00 W. 182.00 feet, S. 51-00-00 W. 257.00 feet, S. 50-00-00 W. 238.00 feet, S. 46-30-00 W. 184.00 feet, S. 65-00-00 W. 156.00 feet, S. 58-30-00 W. 226.00 feet, S. 38-30-00 W. 169.00 feet, S. 24-30-00 W. 179.00 feet, and S. 39-15-00 W. 312.00 feet to the southwest corner of the June Long Estate property the same being the northeast corner of property now or formerly belonging to Eddie Jones on the main run of the swamp and at the southwest corner of the tract herein described; thence, with and along the northeast boundary of the Eddie Jones land, the J. R. Crew Estate lands, and the Alonzo Pierce lands, N. 45-00-00 W. 164.00 feet, N. 46-21-23 W. 727.63 feet, N. 25-15-00 W. 432.00 feet, N. 23-00-00 W. 389.00 feet, and N. 25-15-00 W. 103.50 feet to the southwest corner of a lot belonging to Howard Owen Andleton and wife, as described in Deed Book 1452, Page 33, Halifax Public Registry, said point also being located at the center of a farm path; thence with and along the Andleton property boundary, N. 50-19-49 E. 200.00 feet, N. 25-15-00 W. 435.60 feet, and S. 50-13-00 W. 200.10 feet to the line of property now or formerly belonging to Benjamin Adams and at the northwest corner of the Andleton lot; thence, continuing with and along the common line with Benjamin Adams and the J. R. Crew Estate lands in a northwesterly direction, N. 25-15-00 W. 688.31 feet, N. 25-15-00 W. 479.00 feet, and N. 76-45-00 W. 56.00 feet to a corner in the line of lands now or formerly belonging to Jesse H. Powell Sutton; thence, with and along the property line of the Sutton land and the lands now or formerly belonging to R. L. Powell, the

following courses and distances: N. 58-15-00 E. 664.00 feet, N. 27-45-00 E. 250.00 feet, N. 33-15-00 E. 100.00 feet, N. 22-15-00 E. 82.00 feet, N. 00-30-00 W. 240.00 feet, N. 42-30-00 W. 241.00 feet, N. 62-45-00 W. 341.00 feet, and N. 55-15-00 W. 550.92 feet to a point on the south side of a 60 foot right-of-way for N. C. State Road 1686 (Smith Church Road), and at the northeast corner of the R. L. Powell lands; thence, in an easterly direction with and along the southern right-of-way of N. C. State Road 1686, N. 70-30-52 E. 511.34 feet to a point at the centerline of the old road; thence, leaving N. C. State Road 1686 and continuing in an easterly direction with the centerline of the old road, N. 76-30-00 E. 320.00 feet to the northwestern corner of that certain 25.61 acre tract of land conveyed to Charles M. Edwards by Wiley N. Gregory, et al, under deeds of record at Deed Book 650, Page 3, and Deed Book 650, Page 4, Halifax Public Registry, said corner being at the center of the old road; thence, with and along the lines of the 25.61 acre Edwards tract, S. 07-55-01 E. 663.22 feet, S. 62-34-00 E. 390.10 feet, N. 63-54-00 E. 752.20 feet, and N. 41-31-00 E. 359.65 feet to the southwest side of the 60 foot right-of-way for N. C. Highway 125 and at the southeast corner of the 25.61 acre Edwards tract; thence, turning along the southwestern edge of N. C. Highway 125, N. 33-34-05 W. 133.46 feet and N. 30-17-04 W. 69.45 feet, thence turning across the right-of-way for N. C. Highway 125, N. 70-54-14 E. 61.16 feet to the point of beginning, containing 318.31 acres, more or less, and as shown on that certain plat entitled "Annexation Plat - Lands Along N. C. 125 South - City of Roanoke Rapids, North Carolina" done by Burr & Associates, P. A., and dated May 16, 2000, and revised December 13, 2002."

SECTION 2. This act is effective when it becomes law.

HOUSE BILL 135:
Roanoke Rapids Annexation

BILL ANALYSIS

Committee: House Finance
Date: March 11, 2003
Version: 1st Edition

Sponsor: Rep. L. Allen and Hall
Analysis by: Martha Walston
Committee Counsel

SUMMARY: House Bill 135 authorizes the annexation of certain described property to the corporate limits of the City of Roanoke Rapids without the City having to meet the statutory requirements for annexation. SB 106, introduced by Senator Holloman, is a companion bill. The act is effective when it becomes law.

CURRENT LAW: Annexation is one method that a city or town may employ to extend its corporate limits, and the process must be done in accordance with Article 4A of Chapter 160A. Annexation may be either voluntary or involuntary. A voluntary annexation requires that the governing board of a municipality pass an ordinance upon presentation of a petition signed by the owners of all real property within the area to be annexed. An involuntary annexation requires, among other things, that the property meet certain characteristics:

- The area to be annexed must be adjacent or contiguous to the municipality's boundaries.
- At least 1/8 of the aggregate external boundaries of the area must coincide with the municipal boundary; and
- No part of the area may be included within the boundary of another incorporated municipality.

In addition to the requirements concerning location of the area in relation to the municipality's existing boundaries, the area must also be "developed for urban purposes" by meeting one of several standards concerning population, density, and development.

If the property does not meet the statutory requirements for annexation, the municipality does not have the authority to annex the area. However, the General Assembly can extend the corporate limits of a municipality to encompass areas that the municipality would not statutorily have the authority to annex.

BILL ANALYSIS: House Bill 135 would annex 318.31 acres to the corporate limits of the City of Roanoke Rapids without the City having to meet the statutory requirements for annexation. The Town Manager has indicated that the area does not qualify for involuntary annexation because it does not meet the statutory requirement that it be developed for urban purposes. Approximately 314 of the 318 acres to be annexed consist of vacant property. The owner of the 314 acres has requested the annexation. Included within the 314 acres are 200 acres that have been certified by the North Carolina Department of Commerce as an industrial site. The remaining property to be annexed is occupied by a church and two residential houses, one of

which is vacant. None of the owners object to the annexation. The owner of the 314 acres is in the process of marketing the industrial site to industries. The city plans to help with the marketing and development and to offer incentives for new industries. The area to be annexed is located in the City's primary growth quarter and is contiguous to the city limits.

Summary of the William S. Lee Quality Jobs and Business Expansion Act (Bill Lee Act).

Prepared by Y. Canaan Huie
Legislative Drafting Division, North Carolina General Assembly
Corrected Copy. - Current as of February 24, 2003

The William S. Lee Quality Jobs and Business Expansion Act (hereinafter Bill Lee Act) was enacted in 1996, effective beginning with the 1996 tax year with a 2002 sunset. The Act is a package of State tax incentives and has been modified in each subsequent year. The incentives are primarily in the form of tax credits for investment in machinery and equipment and real property, for job creation, for worker training, and for research and development. Counties are divided into five economic distress tiers based on the unemployment rate, per capita income, and population growth of the county. For many of the credits, the lower the tier of a county, the more favorable the incentive. The Act requires the Department of Commerce and the Department of Revenue to report periodically on the credits allowed by the Act.

Before 1996, North Carolina had made little use of tax incentives to lure businesses to the State. Even without incentives, North Carolina was consistently one of the top states in attracting industry. The array of credits authorized by the Bill Lee Act was viewed as an experiment, to be evaluated in five years to determine whether the incentives were cost effective and actually affected behavior, or merely provided tax reductions to businesses that would have located or expanded in any case. In 2000, the General Assembly extended the sunset on the act until January 1, 2006.[1]

General Administration.

By December 31 of each year, the Department of Commerce is required to assign a tier designation to each of the 100 counties in the State. In order to make these assignments, the Department of Commerce must rank all 100 counties based on the following three factors: the rank of the county in a ranking of counties by average rate of unemployment over the preceding three years from lowest to highest, the rank of the county in a ranking of counties by average per capita income over the proceeding three years from highest to lowest, and the rank of the county in a ranking of counties by percentage growth in population from highest to lowest. Each of these factors is given equal weight. The Secretary of Commerce is required to use the latest data available in making these calculations. Counties with one of the 10 highest rankings are designated enterprise tier one, the next 15 counties are enterprise tier two, the next 25 counties are enterprise tier 3, the next 25 counties are enterprise tier 4, and the remaining counties are enterprise tier 5. There are numerous exceptions to this formula. A county designated as enterprise tier one or two may not be designated a higher tier until it has been at its current tier for at

[1] Interstate air couriers are eligible to claim the credits for business activity that occurs on or before January 1, 2010, provided that the interstate air courier entered into a real estate lease on or before January 1, 2006 with an airport authority that provides for the lease of at least 100 acres of land for a term of at least 15 years.

least two consecutive years. There are also exceptions for certain lower-population counties which could result in those counties receiving a lower designation.

The Department of Commerce is also responsible for designating development zones. Development zones are areas of higher poverty within urban centers. In order to be designated as a development zone, the area must satisfy all of the following conditions: every census tract or block group in the zone is located in a city with a population of at least 5,000, the zone has a population of at least 1,000, more than 20% of the population of the zone is below the poverty level, every census track or block group in the zone has more than 10% of its population below the poverty level or is immediately adjacent to a census tract or block group that has more than 20% of its population below the poverty level, and no census tract or block group in the zone is located in another development zone. Designation as a development zone is effective for two years. Location in a development leads to more favorable treatment for the taxpayer with regards to the wage standard, the credit for creating new jobs, the credit for investing in machinery and equipment, and the credit for worker training.

All of the credits are allowed against either the franchise tax levied in Article 3 of Chapter 105, the income taxes levied in Article 4 of Chapter 105, or the gross premiums tax levied in Article 8B of Chapter 105. In general, a taxpayer may take a credit against only one of these taxes.[2] The taxpayer must elect against which tax the credit will apply when filing the return on which the first installment of the credit is claimed. Once this election has been made it is irrevocable. Any carryforwards of a credit must also be claimed against the same tax.

The total amount of credits allowed under the act may not exceed 50% of the tax against which they are claimed reduced by the sum of all other credits for the taxable year. This cap applies to the cumulative amount of credits for the current year and carryforwards of credits from previous years.

In general any unused credit may be carried forward for the succeeding five years. There are numerous exceptions to this. Credits with respect to large investments may be carried forward for 15 years and credits with respect to other significant investments may be carried forward for 10 years.[3] Additionally, several of the specific credits have longer carry forward periods.

When filing a return for a taxable year in which the taxpayer engaged in activity for which the taxpayer is eligible for a credit, the taxpayer must submit a fee of $500 for each credit the taxpayer intends to claim up to a maximum of $1500. However, this fee is not

---

[2] For the technology commercialization credit allowed under G.S. 105-129.9A, the taxpayer may split the credit between any of the three taxes.

[3] A "large investment" is one in which the Secretary of Commerce makes a written determination that the taxpayer will invest at least $150 million in the project within a two-year period. Though not defined as "other significant development", a taxpayer is eligible for the 10-year carryforward period if the Secretary of Commerce makes a written determination that the taxpayer will invest at least $50 million in the project within a two-year period. For interstate air couriers, the relevant time periods are seven years rather than two years.

due if the activity for which the taxpayer is claiming a credit occurred in a development zone. The fee is to be divided between the Department of Revenue and the Department of Commerce and is to be used to offset the costs of administering the Bill Lee Act.

Each taxpayer claiming a credit under the Bill Lee Act must provide any information required by the Secretary of Revenue to evaluate the eligibility of the taxpayer for the credit claimed.

The Department of Revenue and the Department of Commerce are required to make several reports on the Bill Lee Act. By each March 1, the Department of Revenue must publish information itemized by credit and by taxpayer relating to the amount and enterprise tier of new jobs, new real property, new machinery and equipment, new worker training, and new research and development. The Department of Commerce is required to make biennial reports on tax equity and the impact of the Bill Lee Act.

Bill Lee Act credits cannot be taken more than six months after the deadline for filing the tax return (including extensions) on which they are claimed. This is more restrictive than is generally the case under North Carolina law. In general, an overpayment may be refunded only if the discovery is made or the written request for a refund made within 3 years of the date set by statutes for filing the return or within 6 months of the date of the overpayment, whichever is later.

Basic Eligibility

Type of Business. In order to be eligible for a credit under the Bill Lee Act, a taxpayer must meet the eligibility requirements with regard to type of business. Business-type eligibility depends of several factors including the primary business of the taxpayer as a whole, the primary business of the particular establishment[4], the location of the establishment, and the number of new jobs created. The following types of business are eligible under the Bill Lee Act:

- Air courier services, if the primary business of the taxpayer is air courier services.
- Data processing, if the primary business of the taxpayer is data processing.
- Manufacturing, if the primary business of the taxpayer is manufacturing, warehousing, or wholesale trade and the primary activity of the establishment is manufacturing.
- Warehousing, if the primary business of the taxpayer is manufacturing, warehousing, or wholesale trade and the primary activity of the establishment is warehousing, or if the primary activity of an establishment is warehousing, the establishment is located in an enterprise tier 1-3 area, and the establishment serves 25 or more establishments of the taxpayer.
- Wholesale trade, if the primary business of the taxpayer is manufacturing, warehousing, or wholesale trade and the primary activity of the establishment is wholesale trade.

[4] An "establishment" is defined by NAICS (North American Industry Classification System) as the smallest operating entity for which records provide information on the cost of resources – materials, labor, and capital – employed to produce the units of output. In the United States, an establishment is generally a single physical location; although there are many exceptions to this generality.

- Computer services, if the primary activity of the establishment is computer services.
- Electronic mail order house, if the primary activity of the establishment is an electronic mail order house and the electronic mail order house is located in an enterprise tier 1-3 area and creates at least 250 new jobs.
- Customer service center, if the primary business of the taxpayer is financial services or telecommunications, the primary activity of the establishment is a customer service center, and the center is located in an enterprise tier 1-3 area.

Wage Standard. A taxpayer is eligible for a credit under the Bill Lee Act only if the jobs provided by the taxpayer meet a wage standard. Legislation in 2002 eliminated the wage standard in enterprise tier one and two areas. Since the wage standard for a business located in a development zone is the same as for tier one counties, that legislation also eliminated the wage standard for a development zone area. For enterprise tier areas three through five, the jobs provided by the taxpayer must pay at least 110% of the applicable average weekly wage. The applicable average weekly wage of the county is the lowest of the following: the average weekly wage for all insured private employers in the county, the average weekly wage for all insured private employers in the State, and the average weekly wage for all insured private employers in the county multiplied by the county income/wage adjustment factor.[5]

For the credit for job creation, the average weekly wage of the jobs for which the credit is claimed and the average weekly wage of all jobs at the location with respect to which the credit is claimed must meet the relevant wage standard. For the other credits, the average weekly wage of all jobs at the location with respect to which the credit is claimed must meet the relevant wage standard. There is no independent wage standard test for the credit for worker training. By definition, the taxpayer may only claim a credit for worker training if the taxpayer is eligible for the credit for creating jobs or the credit for investing in machinery and equipment.

All jobs, including part-jobs, must be included in the wage standard calculation. However, part-time jobs that also provide health insurance are considered to have an average weekly wage at least equal to the relevant wage standard. For the purpose of calculating the wage standard, the weekly wage of a part-time job is converted to a full-time equivalency. All jobs that were filled for at least 1600 hours during the year in which the taxpayer engaged in the activity for which a credit is claimed must be included in the wage standard calculation even if those jobs are not filled at the time the taxpayer claims the credit.

Health insurance. A taxpayer must provide health insurance for all full-time jobs associated with the project in order to be eligible for a credit under the Bill Lee Act. The taxpayer must, for all full-time employees at the location with respect to which is claimed, pay at least 50% of the premiums for health insurance that meets at least the

[5] The county income/wage adjustment factor is county income/wage ratio divided by the State income/wage ratio. The income/wage ratio is determined by dividing the average per capita income in the relevant jurisdiction by the annualized average wage for all insured private employers in the jurisdiction.

minimum provisions of the basic health care plan of coverage recommended by the Small Employer Carrier Committee. Each year that a taxpayer claims an installment or carryforward of a credit, the taxpayer must provide certification that it continues to provide health insurance for all full-time employees. If the taxpayer ceases to provide health insurance, the credit expires and the taxpayer may not take any remaining installment or carryforward of the credit.

Environmental Impact. A taxpayer is ineligible for a credit under the Bill Lee Act if the taxpayer has any pending administrative, civil, or criminal enforcement action based on alleged significant violation of any program implement by an agency of the Department of Environment and Natural Resources or if the taxpayer has had any final determination of responsibility for any significant administrative, civil, or criminal violation of any program implemented by an agency of the Department of Environment and Natural Resources in the last five years. The Secretary of Environment and Natural Resources must notify the Department of Revenue of all persons who currently have any of these pending actions or who have had any of these final determinations in the past three years.

Safety and Health Programs. A taxpayer is ineligible for a credit under the Bill Lee Act if the taxpayer has any outstanding violations under the Occupational Safety and Health Act that have become a final order for "willful serious" or "failure to abate serious" violations within the past three years. The Department of Labor must notify the Department of Revenue of all employers who have had these citations become final orders in the past three years.

Overdue Tax Debts. A taxpayer is ineligible for a credit under the Bill Lee Act if the taxpayer has any overdue tax debts. An overdue tax debt is any part of a tax remaining after 90 days. A tax debt is a final assessment after all possibilities for appeal have been exhausted.

If the Secretary of Revenue discovers that any tax is due from a taxpayer, the Secretary must notify the taxpayer in writing of the Secretary's intent to assess the taxpayer for the tax. The notice must describe the basis for the assessment, the amount of tax to be assessed and any interest and penalties due. If the taxpayer disagrees with the assessment, the taxpayer has 30 days to request a hearing before the Secretary. The Secretary must then schedule a hearing to occur within 90 days of the request. Within 90 days after the hearing, the Secretary must issue a decision on the hearing. If the taxpayer does not request a hearing within the 30 days allowed, or if the Secretary finds that the tax is due after the hearing, the proposed assessment becomes a final assessment. If a taxpayer disagrees with a final assessment, the taxpayer may appeal the decision to the Tax Review Board, and then on to superior court, the Court of Appeals, and the Supreme Court.

Expiration. Generally, if a credit expires, the taxpayer may not continue to take installments of the credit, but may continue to take carryforwards of installments that

accrued in previous years[6]. Credits may expire under the act for several reasons. If the taxpayer is no longer engaged in an eligible type of business or if the number of jobs of an eligible business falls below the minimum number required, the credit expires. The credit for creating jobs and the credit for investing in machinery and equipment expire if the jobs or machinery and equipment are no longer filled or used in an eligible business. The credit does not expire if the enterprise tier designation of an eligible taxpayer changes after the credit is first claimed.

Forfeiture. A taxpayer forfeits a credit if the taxpayer was not eligible for the credit in the year in which the taxpayer engaged in the activity for which the credit was claimed. A taxpayer forfeits a credit for technology commercialization or for substantial investment in other property if the taxpayer does not make the required level of investment in the relevant time period. Similarly, a taxpayer forfeits the large investment enhancement of a tax credit if the taxpayer does not make the required level of investment in the relevant time period. A taxpayer that forfeits a credit is liable for all past taxes avoided as a result of the credit plus interest. The past taxes and interest are due 30 days after the date the credit is forfeited. If a taxpayer forfeits a credit for creating jobs, a credit for investing in machinery and equipment, or a technology commercialization credit, any corresponding credit for worker training is also forfeited.

Specific Credits.

Credit for creating jobs, G.S. 105-129.8. A taxpayer is allowed a credit for creating new jobs. In order to be eligible for this credit, the taxpayer must have five or more full-time employees in the State and hire an additional full-employee. The amount of the credit varies depending on the enterprise tier designation of the area in which the job is located. A job is located in an area if 50% or more of the employee's duties are performed in the area. The full amount of the credit may not be taken in the first year, but must instead be taken in four equal installments beginning with the taxable year following the year in which the employee was hired. Jobs transferred from one part of the State to another do not qualify for the credit. For a job that is located in a development zone the amount of the credit is increased by $4,000. The amount of the credit is equal to the amounts in the following table based on the enterprise tier area in which the job is located:

Area Enterprise Tier	Amount of Credit
Tier One	$12,500
Tier Two	4,000
Tier Three	3,000
Tier Four	1,000
Tier Five	500

If in one of the four years in which the installment of a credit accrues, the jobs with respect to which the credit was taken are unfilled, the credit expires and the taxpayer may not take any remaining installments of the credit. If, in one of the four years in which an installment of the credit accrues, a job that qualified for the credit is subsequently

[6] Expiration of a credit because the taxpayer ceases to provide health insurance is an exception to this general rule. In that case, the taxpayer may not claim installments or carryforwards after the credit expires.

transferred to another area, the remaining installments of the credit must be calculated as if the job had been initially located in the later area.

A taxpayer that will create at least 20 new jobs in a specific area within two years[7] may sign a letter of commitment with the Department of Commerce in order to lock-in the current year's enterprise tier and development zone designations for the purposes of this credit. If the taxpayer creates the jobs within the two-year period, the taxpayer may compute the amount of the credit based on the designations in effect in either the year in which the letter of commitment was signed or the year in which the jobs were created. If the taxpayer does not create the jobs in the two-year period, the taxpayer may still claim a credit under the existing tier designation if the jobs are later created.

Credit for investing in machinery and equipment, G.S. 105-129.9. A taxpayer is allowed a credit for the cost of the eligible investment amount of machinery and equipment placed into service during a taxable year that exceeds the applicable threshold based on the location where the machinery and equipment are placed into service. The eligible investment amount is the lesser of (i) the cost of the eligible machinery and equipment and (ii) the net increase in eligible machinery and equipment over the base year (the year of the preceding three years in which the taxpayer had the largest amount of machinery and equipment in service in the State). The credit must be taken in seven equal installments, beginning the year after the equipment is placed in service. The amount of the credit is equal to a percentage of the eligible investment amount of the machinery and equipment in excess of the applicable threshold. If the taxpayer places eligible machinery and equipment into service in more than establishment during a year, the threshold applies separately to each establishment. If a taxpayer places eligible machinery and equipment in service at an establishment over a two-year period, the amount of the threshold for the second year is reduced by the eligible investment amount for the previous taxable year. The following table sets out the relevant percentage and threshold for each enterprise tier area:

Enterprise Tier	Threshold	Credit Percentage
Tier One	$ -0-	7%
Tier Two	100,000	7%
Tier Three	200,000	6%
Tier Four	1,000,000	5%
Tier Five	2,000,000	4%

If in one of the seven years in which the installment of a credit accrues, the machinery and equipment with respect to which the credit was taken are disposed of, moved out of State, or taken out of service, the credit expires and the taxpayer may not take any remaining installments of the credit unless the cost of that machinery and equipment is offset in the same taxable year by the taxpayer's new investment in machinery and equipment. If eligible machinery and equipment that qualifies for a credit is subsequently transferred to another area, the remaining installments of the credit must be calculated as if the machinery and equipment had been initially located in the later area

[7] In the case of an interstate air courier the relevant time period is seven years rather than two years.

A taxpayer that will place specific machinery and equipment in service at a specific location within two years[8] may sign a letter of commitment with the Department of Commerce in order to lock-in the current year's enterprise tier and development zone designations for the purposes of this credit. If the taxpayer places the eligible machinery and equipment in service within the two-year period, the taxpayer may compute the amount of the credit based on the designations in effect in either the year in which the letter of commitment was signed or the year in which the machinery and equipment were placed in service. If the taxpayer does not place the machinery and equipment in service in the two-year period, the taxpayer may still claim a credit under the existing tier designation if the equipment and machinery is later placed in service.

Technology commercialization credit, G.S. 105-129.9A. This credit is an alternative to the credit for investing in machinery and equipment. The technology commercialization credit applies only to investments in machinery and equipment used in production based on technology licensed from a research university. In addition, to qualify, the machinery and equipment must be located in a tier one, two, or three enterprise area. Finally, the taxpayer's investment must equal at least $10 million during the taxable year, and must total at least $100 million over a five-year period. If the investment totals between $100 million and $150 million over five years, the technology commercialization credit is equal to 15% of the amount invested. If the investment equals or exceeds $150 million over five years, the technology commercialization credit is equal to 20% of the amount invested. The technology commercialization credit remains available for 10 years of investments at a single location. The taxpayer's eligibility for the technology commercialization credit is based on the Secretary of Commerce's determination that the taxpayer will invest either $100 or $150 million over five years. If the taxpayer does not achieve the certified level of investment, the credit is forfeited.

The technology commercialization credit is more generous than the credit for investing in machinery and equipment in the following ways:

- The technology commercialization credit may be taken in the year the investment is placed in service. The credit for investing in machinery and equipment must be taken in seven annual installments.
- The technology commercialization credit is not required to be offset by machinery and equipment sold to another taxpayer if the new owner keeps the machinery and equipment in service in North Carolina. In addition, this new investment tax credit is not required to be offset by machinery and equipment the taxpayer takes out of service if it was in service at a separate location and was used in a business that is not competitive with the technology commercialization business.
- The technology commercialization credit may be taken against income tax, gross premiums tax, and franchise tax. The taxpayer must determine what percentage of the credit will be taken against each tax, and must maintain the same percentage for the purpose of carryforwards. If new investment is made in a second or subsequent tax year, the taxpayer may elect a different percentage with respect to the credit for each tax year. The election is binding.

[8] In the case of an interstate air courier the relevant time period is seven years rather than two years.

- The technology commercialization credit may be carried forward for 20 years.

Credit for research and development, G.S. 105-129.10. The research and development tax credit uses the federal credit as its starting point. The credit is equal to 5% of the State's apportioned share of the taxpayer's expenditures for increasing research and development. The credit is based on the federal credit as of January 1, 1999. In the past, the federal credit had expired and then been renewed retroactively, creating uncertainty for taxpayers. Expiration of the federal credit will not affect the State credit. If the federal credit is later modified, the General Assembly can consider whether to update its cross-reference to adopt the federal modifications. This credit has a carryforward period of 15 years rather than the standard 5-year period.

Credit for worker training, G.S. 105-129.11. A taxpayer that provides worker training for five or more of its eligible employees during the taxable year is allowed a credit equal to the wages paid to the employee during the training. Wages paid to an employee for performing his or her job while being trained are not eligible for the credit. The maximum amount of the credit is $1,000 per employee trained in an enterprise tier one area and $500 per employee trained in an enterprise tier two through five area. As with the credit for creating jobs, an employee is located in an area if more than 50% of his or her duties are performed in that area. In order to be eligible for the credit, the employee must be in a full-time position not exempt under the Fair Labor Standards Act and must be either (i) in a position for the taxpayer qualifies for the credit for creating jobs or (ii) being trained to operate machinery and equipment for which the taxpayer qualifies for a credit for investing in machinery and equipment.

Credit for investing in central office or aircraft facility property, G.S. 105-129.12. A taxpayer who purchases or leases real property to be used as central administrative office or aircraft facility property, is eligible for a credit under the Bill Lee Act. The amount of the credit is equal to 7% of the eligible investment amount. The eligible investment is the lesser of: (1) the cost of the property or (2) the cost of the taxpayer's total North Carolina property used as central administrative offices or aircraft facilities on the last day of the taxable year minus the cost of the taxpayer's total North Carolina property used as central administrative offices or aircraft facilities on the last day of the base year. The base year is that year, of the three immediately preceding taxable years, in which the taxpayer was using the most property as central administrative offices or aircraft facilities in this State. For leased property, the cost of the property equals the lease payments over a seven-year period, plus any expenditures made by the taxpayer to improve the property before it is used as the taxpayer's central administrative office or aircraft facility if the expenditures are not reimbursed or credited by the lessor. The tax credit for investing in central administrative office or aircraft facility property may not exceed $500,000, and is taken in equal installments over the seven years following the taxable year in which the property is first used as a central administrative office or aircraft facility. If the property ceases to be used as a central administrative office or aircraft facility during the seven-year period, then the credit expires and the taxpayer may not take any remaining installment of the credit.

Credit for substantial investment in other property, G.S. 105-129.12A. This credit is modeled upon the credit for investment in central office or aircraft facility property. There are, however, some notable differences between the two credits. In order for the taxpayer to claim the credit for substantial investment in other property, the Secretary of Commerce must make a written determination that the taxpayer is expected to invest at least $10 million in real property at a location within a three-year period and that the location will create at least 200 new jobs within two years of the time that the property is first used in an eligible business. The taxpayer may begin to claim the credit once the property is first used in an eligible business. The amount of the credit for substantial investment in other property is equal to 30% of the eligible investment amount and must be taken in installments over a seven-year period. There is no ceiling on the amount of the credit. The credit for substantial investment in other property expires if the number of people employed at the location falls below 200. The carryforward period for the credit for substantial investment in other property is 20 years, rather than the standard five-year carryforward period. A taxpayer may not claim both the credit for substantial investment in other property and the credit for investing in central office or aircraft facility property with respect to the same property.

Credit for development zone projects, G.S. 105-129.13. A taxpayer is allowed a credit for contributions of cash or property to certain nonprofit agencies to be used for an improvement project in a development zone. An improvement project is a project to construct or improve real property for community development purposes or to acquire real property and convert it for community development purposes. The credit allowed is 25% of the amount contributed by the taxpayer. The total amount of credits that may be allowed in a taxable year is capped at $4 million. Taxpayers are required to apply to the Secretary of Revenue for these credits. If the total amount applied for in a year exceeds $4 million, the Secretary will reduce each applicant's credit proportionally.

The credit is allowed for contributions to a development zone agency, defined as a community action agency, a community-based development organization, a community development corporation, a community development financial institution, a community housing development organization, or a local housing authority. To qualify for the credit, all of the following conditions must be met:

- The agency must contract in writing to use the contribution for an improvement project in a development zone and to repay the taxpayer with interest if the contribution is not so used.
- The Department of Commerce must certify that the agency will undertake an improvement project in a development zone.[9] To support this certification, the agency must provide the Department documentation establishing the identity of the agency, the nature of the project, and that the project is for a community development purpose in a development zone.
- The taxpayer must be unrelated to the agency and must not control, be controlled by, or be under common control with the agency.

[9] The Secretary of Commerce may not certify a development zone agency if it, any of its officers or directors, or any partner of the agency has ever used part of an improvement project contribution for any purpose other than the improvement project.

- The taxpayer must not receive anything of value for the contribution.

A taxpayer forfeits the tax credit for a contribution to the extent the development zone agency uses the contribution for anything other than an improvement project in a zone. Development zone agencies are required to file with the Department of Commerce annual, audited financial statements. If the Department of Commerce finds that any part of a contribution was used for a purpose other than an improvement project, it must notify the Department of Revenue of the resulting forfeiture.

Summary of the Job Development Investment Grant Program (JDIG).

Prepared by Y. Canaan Huie
Legislative Drafting Division, North Carolina General Assembly
Current as of February 24, 2003

S.L. 2002-172 created a new economic development tool for new and expanding businesses in North Carolina. This tool will be used to attract businesses to the State by allowing a five-member committee to award grants to businesses. The amount of the grants would be based on income tax withholdings from new jobs created by the businesses.

Which projects are eligible for a grant? In order to be eligible for a grant under this program, the business must create a minimum number of new jobs. The number of new jobs that must be created varies based on the enterprise tier designation of the location where the jobs will be located. For projects located in enterprise tiers one through three, the project must create at least 10 new full-time positions. For projects located in enterprise tiers four and five, the project must create at least 20 new full-time positions. If a project is located in more than one location, the enterprise tier designation of the location in the highest enterprise tier area determines the number of new jobs that must be created.

As with the Bill Lee Act, a business must provide health insurance for all full-time jobs associated with the project in order to be eligible for this new program. The test is the same as under the Bill Lee Act – the business must, for all full-time employees of the project, pay at least 50% of the premiums for health insurance that meets at least the minimum provisions of the basic health care plan of coverage recommended by the Small Employer Carrier Committee. In addition, the average wage of all jobs at the location with respect to which a grant is sought must meet the Bill Lee wage standard. Finally, as with the Bill Lee Act, the business must have no citations under the Occupational Safety and Health Act that have become a final order within the previous three years for willful serious violations or for failing to abate serious violations with respect to the location for which the grant is made.

There are few restrictions based on the industry in which the business is engaged. There are only two types of projects that are ineligible for consideration under this program: retail facilities and professional and semiprofessional sports teams and clubs.

More generally, the project must satisfy the following conditions in order to be eligible for a grant:

- The project will result in net new employment in the State by the business.
- The project will benefit the people of the State by increasing employment opportunities and strengthening the State's economy.
- The project is consistent with economic development goals for the State.
- A grant is needed in order to secure the project for the State
- The total benefits of the project to the State outweigh the costs associated with the project.

How a grant is obtained? In order to obtain a grant under this program, the business must apply to the Economic Investment Committee for consideration. The Economic Investment Committee is a five-member committee consisting of the Secretary of Commerce, the Secretary of Revenue, the Director of the Office of State Budget and Management, one member appointed by the General Assembly upon the recommendation of the Speaker of the House of Representatives, and one member appointed by the General Assembly upon the recommendation of the President Pro Tempore of the Senate[1]. The members appointed by the General Assembly serve two-year terms. The Committee may only act upon a decision of three of its five members. The Committee is subject to the open meetings law and the public records law. Members of the Committee are forbidden to work for a business that receives a grant under this program for at least two years after the member is no longer on the Committee. A former member of the Committee who violates this prohibition against working for a business that receives a grant under this program must forfeit any compensation received for that work and is prohibited for an additional two years from working for a business that receives a grant under this program.

The application for a grant must be under oath, be on a form prescribed by the Committee, and contain any information required by the Committee. At a minimum, the application must contain the following information:

- The name of the business, the proposed location of the project, and the type of activity in which the business will engage at the project site.
- The names and addresses of the principals or management of the business, and the nature of the business, and the form of business organization under which the business is operated.
- The financial statements of the business prepared by a certified public accountant.
- The number of new jobs proposed to be created by the project.
- An estimate of the withholdings of personal income tax of employees of the project.
- Information concerning other possible locations of the project, and the benefits, including tax benefits or grants, associated with locating the project at those other locations.
- Information concerning other State grants for which the business is applying or that it expects to receive.
- Certification that the project will provide health insurance to all full-time employees.

A group of related business involved in a project may submit a joint application for a grant under this program.

A fee in the amount of $5,000 must accompany any application for a grant. The Secretary of Commerce, the Secretary of Revenue, and the Director of the Office of State Budget and Management will allocate this fee among their agencies.

---

[1] The members of the Committee appointed by the General Assembly may not be members of the General Assembly.

The Committee will evaluate applications to determine which businesses shall receive grants under this program. The awarding of a grant is solely in the discretion of the Committee. The Committee shall develop criteria for evaluating applications. These criteria shall take into consideration the economic impact of the project; the strategic importance of the project to the State, region, or locality; the quality of the jobs to be created; the quality of the industry and the project; the environmental impact of the project; and the degree to which the use of the program has been geographically dispersed throughout the State.

The Committee is exempt from the rule-making process in developing criteria related to this program. However, the statutes do require the Committee to publish the proposed criteria on the Department of Commerce's web site at least 15 business days prior to the adoption of or an amendment to any proposed criteria. The Committee must also provide notice to people who have requested notice of proposed criteria and it must accept oral and written comments on the proposed criteria.

The Committee is required to be somewhat selective in which projects with which it chooses to enter into an agreement. The Committee may not enter into more than 15 agreements in any calendar year. However, there may be significantly more than 15 agreements outstanding at any time because the term of an agreement may be as long as 12 years. In addition, the Committee may not commit more than $10 million dollars annually with agreements entered into in any calendar year[2].

How is the amount of a grant determined? If the Committee approves a business's application, the Committee will then negotiate and enter into a community economic development agreement with the business. The agreement is a binding commitment on the part of the State to provide the grant for a set number of years, subject to the Committee's right or duty to amend or terminate the agreement under certain circumstances. Each agreement shall include a description of the project, the term of the agreement, the number of positions expected to be subject to the grant and a method for determining the number of positions that are subject to the grant, and the amount of the grant as a percentage of the withholdings of personal income tax from eligible positions. The Committee has wide discretion in determining the percentage that determines the amount of a grant under an agreement. The Committee shall develop criteria to be used when negotiating the appropriate percentage. At a minimum, the following conditions apply:

- The amount of the grant may not be less than ten percent (10%) or more than seventy-five percent (75%) of the withholdings associated with new jobs at the project.
- The term of the grant shall not exceed 12 years.
- The percentage used to determine the amount of the grant shall be reduced by one-fourth for any eligible position located in an enterprise tier four or five area.

---

[2] The total annual commitment may be much more than $10 million dollars. For example, agreements entered into during each of the 2003 and 2004 calendar years could each make commitments of up to $10 million annually, for a total annual commitment of up to $20 million.

- Unless the Committee makes a specific determination that the grant should be calculated based on eligible positions created in any year during the term of the agreement, the amount of the grant shall be calculated based only on eligible positions created during the base years, the first two years, of the agreement.
- Unless the Committee makes an explicit finding otherwise, the total amount of all grants provided by the State may not exceed seventy-five (75%) of the withholdings of eligible positions.
- The amount of grant associated with any specific position may not exceed $6,500 in a year.

In addition, the Committee must consider at least the following factors when negotiating a percentage to be used in determining the amount of a grant:

- The number of eligible positions to be created.
- The expected duration of those positions.
- The type of contribution the business can make to the long-term growth of the State's economy.
- The amount of other financial assistance the project will receive from the State or local governments.
- The total dollar investment the business is making in the project.
- Whether the project utilizes existing infrastructure.
- Whether the project is located in a development zone.
- The number of eligible positions that will be filled by residents of a development zone.
- The extent to which the project will mitigate unemployment in the State and locality.

Use of funds? There are no restrictions on the use of the grant funds by the business. South Carolina has a similar grant program. Under the South Carolina program, grant funds may be used for certain specific purposes only, such as worker training, worker relocation, purchase or construction of real property, and construction or repairs to certain transportation-related real property.

The withholdings retained by the State would be used in two different ways. First, the withholdings in excess of the percentage negotiated in the agreement would flow to the General Fund.[3] Second, the withholdings that are included in the agreement, but that are excluded from the grant because the percentage was reduced by one-fourth because the eligible position is located in an enterprise tier four or five area, would be transferred to the Utility Account of the Industrial Development Fund.[4] Funds in the Utility Account

---

3 Even though the maximum percentage that may be used to determine the amount of a grant is 75%, there may be no additional revenue from these positions that would flow to the General Fund. This is because most taxpayers over-withhold, meaning that more taxes are withheld than are actually due, resulting in a refund to the taxpayer. Because of this, a grant based on the maximum percentage of 75% could result in a net loss to the General Fund.

4 The following example will clarify this. Assume a project that is located in an enterprise tier five area is allowed a grant based on 75% of the withholdings of the eligible positions. Because those positions are located in an enterprise tier five area, that percentage is reduced by one-fourth, so that the business is

may be used to assist local governments in enterprise tier areas one through three in constructing or improving utility lines or equipment.

Terms of agreement. Since the Committee has a great deal of flexibility in negotiating agreements, the statutes give some direction on terms that must be included in each agreement. At a minimum, each agreement must contain the following:

- A detailed description of the proposed project that will result in job creation and the number of new employees to be hired in the base years and later years.
- The term of the grant and the criteria used to determine the first year for which the grant may be claimed.
- The number of eligible positions that are subjects of the grant and a description of those positions and the location of those positions.
- The amount of the grant based on a percentage of withholdings.
- A method for determining the number of new employees hired during a grant year.
- A method for the business to report annually to the Committee the number of eligible positions for which the grant is to be made.
- A requirement that the business report to the Committee annually the aggregate amount of withholdings during the grant year.
- A provision permitting an audit of the payroll records of the business by the Committee from time to time as the Committee considers necessary.
- A provision that permits the Committee to amend an agreement pursuant to G.S. 143B-437.59.
- A provision that requires the business to maintain operations at the project location or another location approved by the Committee for at least one hundred fifty percent (150%) of the term of the grant and a provision to permit the Committee to recapture all or part of the grant at its discretion if the business does not remain at the site for the required term.
- A provision that requires the business to maintain employment levels in this State at the level of the year immediately preceding the base years.
- A provision establishing the conditions under which the grant agreement may be terminated, in addition to those under G.S. 143B-437.59, and under which grant funds may be recaptured by the Committee.
- A provision stating that unless the agreement is amended or terminated pursuant to G.S. 143B-437.59, the agreement is binding and constitutes a continuing contractual obligation of the State and the business.
- A provision setting out any allowed variation in the terms of the agreement that will not subject the business to amendment or termination of the agreement under G.S. 143B-437.59.
- A provision that prohibits the business from manipulating or attempting to manipulate employee withholdings with the purpose of increasing the amount

---

allowed a grant equal to 56.25% of the withholdings of eligible positions. (75% multiplied by ¾ equals 56.25%.) Twenty-five percent of the withholdings of eligible positions would flow to the General Fund, 56.25% would be given to the business in the form of a grant, and 18.75% would be transferred to the Utility Account of the Industrial Development Fund.

of the grant and that requires the Committee to terminate the agreement and take action to recapture grant funds if the Committee finds that the business has manipulated or attempted to manipulate withholdings with the purpose of increasing the amount of the grant.

- A provision requiring that the business engage in fair employment practices as required by State and federal law and encouraging the business to use small contractors, minority contractors, physically handicapped contractors, and women contractors whenever practicable in the conduct of its business.
- A provision encouraging the business to give priority consideration to hiring North Carolina residents.
- A provision encouraging the business to use the North Carolina State Ports.
- A provision stating that the State is not obligated to make any annual grant payment until the State has received an amount of withholdings that exceeds the amount of the grant payment.
- A provision describing the manner in which the amount of a grant might be reduced to ensure compliance with the $10 million annual
- A provision requiring that all disputes involving interpretation of the agreement must be submitted to binding arbitration.

In addition, the Attorney General must review the terms of all proposed agreements and must personally sign each agreement.

Follow-up on grantee businesses. The statutes provide for monitoring of grantee businesses in several ways and require the Committee to amend or terminate agreements if the business fails to live up to the terms of the agreement or the requirements of this new program.

The business must submit annual reports to the Committee. In addition, the Committee may audit at any time a business receiving a grant. At a minimum, the business must submit a copy of its federal and State income tax returns which show business and nonbusiness income, a report that shows withholdings, and a payroll report. This annual submission must also include any additional information the Committee considers necessary to implement the grant program.

This annual submission must be accompanied by a fee of $1,500. The Committee shall allocate the fee among the agencies responsible for evaluating the submission.

The Committee must also obtain information from the Department of Revenue before the disbursement of a grant. The Department of Revenue must certify the amount of withholdings from the eligible business.

The Committee is required to amend or terminate the agreement and to recapture all or part of a grant made in previous years under certain circumstances. If the business fails to meet or comply with any term of the agreement or with criteria developed by the Committee, the Committee must amend the agreement and may terminate the agreement. This amendment may take the form of a lower percentage being used to determine the amount of the grant or of a shorter term for the agreement. The reduction must be proportional to the failure to comply with the agreement. If the business fails to meet or comply with any term of the agreement or with criteria developed by the Committee for

two consecutive years, the Committee must terminate the agreement. In addition, in each agreement the Committee must include a provision describing the conditions that will lead to recapture of a grant made in an earlier year.

Like with the Bill Lee Act, a business that has an overdue tax debt is penalized. A business that has an overdue tax debt may not receive an annual disbursement of a grant so long as that overdue tax debt is not satisfied or otherwise resolved.

Program evaluation. The Committee is required to make annual reports regarding the program and the funding needed to implement the program. By April 30 of each year, the Committee must publish the following information:

- A listing of each agreement entered into during the previous fiscal year, the cost/benefit analysis conducted with respect to each agreement, a description of each project, and the amount of the initial grant.
- An update on the status of projects under agreements entered into in earlier fiscal years.
- The number and enterprise tier levels of eligible positions created by projects with respect to which grants were awarded.
- The wage levels of eligible positions created by projects with respect to which grants were awarded, aggregated and listed in increments of $5,000.
- The amount of new income tax revenue received by the State related to the projects.
- The criteria developed by the Committee to implement the grant program and changes in those criteria over the previous year.
- The effectiveness of the program in recruiting new and expanding businesses.
- The environmental impact of businesses that have received grants.
- The geographic distribution of grants, by number and amount.
- An explanation of whether the projects with respect to which agreements are entered into involve new businesses in the State or expanding existing businesses in the State.
- A listing of all businesses making an application for a grant and an explanation of whether each business ultimately located the project in this State regardless of whether the business was awarded a grant.
- A report on the division and use of fees collected under G.S. 143B-437.55 and G.S. 143B-437.58.

Additionally, the Committee shall publish quarterly reports on the program within two months of the end of each fiscal quarter. These reports shall contain information on agreements entered into within the last fiscal quarter including the name of the business, the cost/benefit analysis conducted by the Committee, a description of the project, and the amount of the grant expected to be made under the agreement during the current fiscal year.

In addition, the Committee shall conduct a study annually to determine the amount of funding needed to successfully implement the grant program. The results of that study must be reported to the House of Representatives Finance Committee, the Senate Finance Committee, the House of Representatives Appropriations Subcommittee on Natural and

Economic Resources, the Senate Appropriations Committee on Natural and Economic Resources, and the Fiscal Research Division no later than March 1 of each year.

Finally, the authority of the Committee to enter into additional agreements begins as of January 1, 2003, and expires as of January 1, 2005. This will allow the General Assembly an opportunity to review the program after it has been in effect for a few years in order to determine if the program is meeting its objectives.

MINUTES

HOUSE COMMITTEE ON FINANCE
March 18, 2003

The House Committee on Finance met at 8:30 a.m. on Tuesday, March 18, 2003 in Room 544 of the Legislative Office Building. Members present were: Chairmen Allen, Howard, Luebke, McComas, and Wainwright; Vice-Chairs Alexander, Decker, Gibson, and Hill; and Representatives Blackwood, Bordsen, Capps, Carney, Glazier, Hackney, Holliman, Jones, Lewis, McCombs, McGee, Munford, Rayfield, Ross, Weiss, Womble and Wood. Staff persons present included: Trina Griffin, Canaan Huie, Linda Millsaps, Martha Walston, and Committee Assistants Nancy Brantley, Blinda Edwards, Judy Lowe, Mary Marchman, and Susan Phillips. Sergeants-at-Arms included Dusty Rhodes, Walter Spell, Bob Fowler, and Bill Freeman. The Agenda and Visitor Registration Sheet are incorporated into the minutes as **Attachments 1 and 2.**

Representative Wainwright called the meeting to order. He welcomed the Pages, Eric McCombs of Wake County, and Will Lane of Nash County. The Committee considered the following bills.

SENATE BILL 235- A BILL TO BE ENTITLED AN ACT TO ALLOW A RETAILER THAT LEASES MOTOR VEHICLES AND THAT HAS PAID THE HIGHWAY USE TAX ON THE MOTOR VEHICLES TO PAY AN ADDITIONAL GROSS RECEIPTS TAX ON THE MOTOR VEHICLES. This bill would allow a retailer who leases motor vehicles to begin paying the highway use tax on the gross receipts derived from leasing the vehicles even though the retailer had previously paid the 3% highway use tax on these vehicles. The Chair recognized Representative Cole to explain the bill. Linda Millsap of Fiscal Research stated that the bill would have no impact on the Highway Trust Fund or the General Fund. Representative Allen made a motion for a favorable report of the bill. The motion carried and the bill was given a favorable report. **The Bill, Bill Analysis, Fiscal Note, and Committee Report are included in Attachment 3.**

HOUSE BILL 320-A BILL TO BE ENTITLED AN ACT TO UPDATE THE REFERENCE TO THE INTERNAL REVENUE CODE USED IN DEFINING AND DETERMINING CERTAIN STATE TAX PROVISIONS. This bill was a recommendation of the Revenue Laws Study Committee. The Chair recognized Representative Luebke to explain the bill. Representative Luebke asked staff person, Trina Griffin, to comment on the bill. Mrs. Griffin explained that the legislation originated as an effort to head off a constitutional challenge to the clergy housing exclusion in a case before the Ninth Circuit Court of Appeals, Warren v. Commissioner of Internal Revenue 282 F.3d 1119, (9th Cir. 2002). Congress passed the Clergy Housing Allowance Clarification Act of 2002 in an effort to preserve the law exempting the provision of residential housing for clergy from federal income tax. Under current federal law, the rental allowance is

excluded to the extent that is it used to rent or provide a home for the minister and to the extent that it does not exceed the fair market rental value of the home. Representative Luebke made a motion to give the bill a favorable. The motion carried and the bill was given a favorable report. **The Bill, Bill Analysis, Fiscal Note, and Committee Report are included in Attachment 4.**

Canaan Huie of Bill Drafting was recognized to continue his discussion of the Job Development Investment Grant Program (JDIG). His comments were on the structure of the program, including the application process, use of the funds and terms of the agreement. He stated that no business had been selected for the program and that the committee was considering one application. His comments are included in **Attachment 5.**

Martha Walston of Fiscal Research was recognized to give an overview of the One NC Fund. She stated that the Industrial Recruitment Competitive Fund (aka One NC Fund) was enacted in Sec. 20.3 of the 2001 Appropriations Act (S.L. 2001-424). The purpose of the fund was to provide financial assistance to those businesses or industries deemed by the Governor to be vital to a healthy and growing State economy and that were making significant efforts to establish or expand in North Carolina. The committee had requested a listing of the amount appropriated to different industries. That information was not complete, and would be provided tat a later date. Her comments are included in **Attachment 6.**

Mr. Don Hobart and Secretary Jim Fain of the Department of Commerce were recognized to address the committee. Mr. Hobart stated that money in the fund was available for modernization and expansion of existing facilities. He further stated that the guidelines are extensive and are on the Department's website. The assessment process has a number of factors. The size of the funds has changed over the years. There was a carry forward of about $18 million from last year. A portion of those funds is committed funds. The Department administers and treats the funds as performance base funds, which means that funds are not disbursed until the projects have created jobs. As a result, there are funds that are held and are identified for particular projects and particular counties that are waiting for the completion of the performance criteria to be distributed. There are also funds reserved for projects that the State is attempting to bring to North Carolina. Secretary Fain stated that the appropriation that was allotted to the One NC Fund in 2001 allowed the Department to allure new jobs and to retain old jobs. Secretary Fain stated that the names of companies and the amounts allotted to them could be made available on the Department's website. The law requires that the General Assembly receive a quarterly report. If the project is active, the name is not disclosed, and remains nameless. He presented a document that had the names of the companies who were participating in the fund. That document is attached as **Attachment 7.**

Trina Griffin was recognized to give an overview of the Film Industry Development Account. She stated that S. L. 2000-153 created the Film Industry

Development Account within the Department of Commerce, Division of Travel and Tourism. The program provides annual grants to production companies that engage in production activities in this State. A lawsuit had been filed by Edward Jones of Wake County and the Wake County Taxpayers' Association against the North Carolina Department of Commerce, Secretary James Fain, and Lyn Minges, Executive Director of the Division of Tourism, Film, and Sports Development. The complaint alleged that the program violated the "public purpose" clause of the North Carolina Constitution, and asked that the statute be declared unconstitutional. The Department is preparing a response to the complaint. Please refer to **Attachment 8** for further information regarding this issue.

The Chair announced that the joint meeting of the House and Senate Finance Committee was cancelled for the House members, and the Finance committee would not meet on Wednesday, March 19, 2003. He adjourned the meeting at 9:35 a.m.

Respectfully submitted,

Blinda Edwards, Committee Assistant

Representative William Wainwright

GENERAL ASSEMBLY OF NORTH CAROLINA
SESSION 2003

S 1

SENATE BILL 235

Short Title:	One-Time Rental Car Tax Election Exception.	(Public)
Sponsors:	Senators Hoyle and Berger.	
Referred to:	Finance.	

February 27, 2003

A BILL TO BE ENTITLED

AN ACT TO ALLOW A RETAILER THAT LEASES MOTOR VEHICLES AND THAT HAS PAID THE HIGHWAY USE TAX ON THE MOTOR VEHICLES TO PAY AN ADDITIONAL GROSS RECEIPTS TAX ON THE MOTOR VEHICLES.

The General Assembly of North Carolina enacts:

SECTION 1. Notwithstanding the provisions of G.S. 105-187.5 to the contrary, a retailer that leases or rents motor vehicles and that has paid the tax on the motor vehicles imposed pursuant to G.S. 105-187.3 may elect to pay the tax imposed pursuant to G.S. 105-187.5 in addition to the taxes previously paid. This election must be submitted to the Division of Motor Vehicles and Secretary of Revenue in writing and must specifically identify the motor vehicles to which the election applies, the date upon which the retailer will begin to collect the additional taxes, and any additional information needed to collect the tax. An election made under this act is irrevocable and does not relieve the taxpayer of liability for a tax previously imposed. An election under this act must be made prior to July 1, 2003.

SECTION 2. This act is effective when it becomes law.

SENATE BILL 235:
One-Time Rental Car Tax Election Exception

BILL ANALYSIS

Committee:	House Finance	**Introduced by:**	Sen. Hoyle
Date:	March 18, 2003	**Summary by:**	Martha Walston
Version:	1st Edition		Committee Counsel*

SUMMARY: ***Senate Bill 235 would allow a retailer who leases motor vehicles to begin paying the highway use tax on the gross receipts derived from leasing the vehicles even though the retailer has previously paid the 3% highway use tax on these vehicles. The retailer's election to begin paying the gross receipts tax must be made by July 1, 2003, and once made it is irrevocable. The election does not relieve the retailer of liability from a tax previously imposed. The bill becomes effective when it becomes law. House Bill 168 is a companion bill and has also been referred to House Finance.***

CURRENT LAW: ***In 1989, the General Assembly enacted the highway use tax to provide a major source of revenue for the Highway Trust Fund.[1] The tax rate is 3% of the retail value of a motor vehicle for which a certificate of title is issued. The Division of Motor Vehicles collects this tax. A retailer that leases or rents motor vehicles may elect not to pay the highway use tax. Instead, the retailer may pay an 8% tax on the gross receipts of the short-term lease or rental or a 3% tax on the gross receipts of long-term rentals.[2] Although the gross receipts tax is imposed on the retailer, it is added to the lease or rental price of the vehicle and thereby paid by the person who leases or rents the vehicle. The Department of Revenue collects the gross receipt tax. The tax levied at 3% is credited to the Highway Trust Fund and the tax levied at 8% is credited to the General Fund.[3]***

BILL ANALYSIS: Senate Bill 235 would allow a retailer who leases motor vehicles and who elected to pay the highway use tax on the retail value of the vehicles at the time the retailer obtained a certificate of title for them to begin collecting the alternate gross receipts tax on the vehicles. In order to begin collecting the gross receipts tax on these vehicles, a retailer would have to submit a written request to do so to the Division of Motor Vehicles and the Department of Revenue by July 1, 2003. The request must specifically identify the vehicles to which the election applies, the date upon which the retailer will begin to collect the additional taxes, and any information needed to collect the tax. An election to begin paying the gross receipts tax made under this act is irrevocable and does not relieve the taxpayer of liability for a tax previously imposed.

*Staff attorney, Cindy Avrette, contributed substantially to this summary.

---

[1] The General Assembly created the Highway Trust Fund as a source of revenue to build a system of intrastate highways and seven urban loops, provide assistance to cities, and accelerate secondary road paving.

[2] A long-term lease or rental is one made under a written agreement to the same person for a period of at least 365 continuous days.

[3] Prior to 1989, NC levied a sales tax on motor vehicles and credited the revenue to the General Fund. To offset the loss of revenue to the General Fund, the Highway Trust Fund must transfer $170,000,000 annually to the General Fund. In 2001, the General Assembly provided for a small annual adjustment in this amount. Last session, the General Assembly increased this amount by $80,000,000 for 2002-03 and for 2003-04. It also transferred $125,000,000 from the Trust Fund to the General Fund, but this amount is to be paid back over a 5-year period, beginning 2004-05, with interest.

BACKGROUND: The norm in the rental car industry is to pay the highway use tax on the gross receipts of the rentals and the norm among states that tax the leasing of vehicles is to impose a gross receipts tax. However, there is at least one rental car retailer that has elected to pay the highway use tax at the time the retailer obtained the certificates of title for its fleet. To be consistent with other companies in the industry and to be consistent among the various states in which the retailer leases its motor vehicles, this retailer would like to begin collecting the gross receipts tax on its rentals. Although there are other methods besides the one proposed in this bill to accomplish this purpose, this method is the least cumbersome, both financially and administratively, to the retailer and it provides some additional revenue to the General Fund for this fiscal year.

NORTH CAROLINA GENERAL ASSEMBLY

LEGISLATIVE FISCAL NOTE

BILL NUMBER: S.B. 235 (1st Edition)

SHORT TITLE: One-Time Rental Car Tax Election Exception

SPONSOR(S): Senator Hoyle

FISCAL IMPACT

REVENUES					
Highway Trust Fund	*** No Fiscal Impact ***				
General Fund	*** See Assumptions and Methodology ***				

PRINCIPAL DEPARTMENT(S) & PROGRAM(S) AFFECTED: North Carolina Department of Revenue.

EFFECTIVE DATE: When it becomes law.

BILL SUMMARY: Under current law retailers who lease motor vehicles can choose to pay either a 3% highway use tax on the purchase of a vehicle at acquisition or an 8% tax on the gross receipts generated from the lease of that vehicle. The retailer must choose which tax they elect to pay when they purchase the vehicle. That election is irrevocable for the life of the vehicle. The bill allows a retailer who has paid the 3% use tax to also pay the 8% gross receipts tax. The decision to also pay the 8% gross receipts tax must be made by July 1, 2003 and does not relieve that retailer of their liability for the tax previously imposed.

ASSUMPTIONS AND METHODOLOGY: Because the bill will not change the payment of highway use taxes, there is no impact on the Highway Trust Fund. Because taxes would potentially be paid on more vehicles – those that are currently not paying into the General Fund because they paid the highway use tax – there could be a General Fund increase. The Department of Revenue is only aware of one retailer that is interested in paying the additional tax. This retailer acquired another retailer that paid the 3% tax up front, while the parent company pays the 8% gross receipts tax, creating some administrative issues for the company as a whole. It is not anticipated that a significant number of retailers would be interested in changing their tax designation as is contemplated by the bill, as it effectively means they would be voluntarily offering to pay taxes twice on the same vehicle. These factors, combined with the July 1, 2003 sunset on the bill, suggest the revenue increase to the General Fund would be small.

2003 COMMITTEE REPORT

HOUSE BILL 320*

Short Title:	IRC Update.	(Public)
Sponsors:	Representatives McComas, G. Allen, Hill, Holliman, Luebke, Wainwright; and Alexander.	
Referred to:	Finance.	

March 6, 2003

A BILL TO BE ENTITLED

AN ACT TO UPDATE THE REFERENCE TO THE INTERNAL REVENUE CODE USED IN DEFINING AND DETERMINING CERTAIN STATE TAX PROVISIONS.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 105-228.90(b)(1b) reads as rewritten:

"(b) Definitions. – The following definitions apply in this Article:

...

(1b) Code. – The Internal Revenue Code as enacted as of ~~May 1, 2002,~~January 1, 2003, including any provisions enacted as of that date which become effective either before or after that date."

SECTION 2. Notwithstanding Section 1 of this bill, any amendments to the Internal Revenue Code enacted in 2002 that increase North Carolina taxable income for the 2002 taxable year become effective for taxable years beginning on or after January 1, 2003.

SECTION 3. This act is effective when it becomes law.

Date:	March 18, 2003		
Version:	1st Edition	**Summary by:**	Trina Griffin* Committee Counsel

SUMMARY: ***House Bill 320, which is a recommendation of the Revenue Laws Study Committee, updates to January 1, 2003 the reference to the Internal Revenue Code used in defining and determining certain state tax provisions. This bill is effective when it becomes law.***

CURRENT LAW: North Carolina's tax law tracks many provisions of the federal Internal Revenue Code, by reference to the Code.[1] The General Assembly determines each year whether to update its reference to the Internal Revenue Code.[2] Updating the Internal Revenue Code reference makes recent amendments to the Code applicable to the State to the extent that State law previously tracked federal law. The General Assembly's decision whether to conform to federal changes is based on the fiscal, practical, and policy implications of the federal changes and is normally enacted in the following year, rather than in the same year the federal changes are made. Under current law, the reference date to the Code is May 1, 2002.

BILL ANALYSIS: This bill would update the reference to the Code to January 1, 2003. Congress enacted one bill between May 1, 2002, and January 1, 2003 that would affect State tax provisions. The Clergy Housing Allowance Clarification Act of 2002, P.L. 107-181, enacted on May 20, 2002, clarifies the amount that may be excluded from gross income by a minister for a rental allowance paid to the minister as part of the minister's compensation. Under previous federal law, the rental allowance was excluded to the extent that the allowance was used to rent or provide a home for the minister.[3] Under current federal law, the rental allowance is excluded to the extent that it is used to rent or provide a home for the minister and to the extent that it does not exceed the fair market rental value of the home.

This change could have the effect of increasing taxable income for some taxpayers and is therefore required to be roll-called on separate days pursuant to Section 23 of Article II of the North Carolina Constitution.

---

[1] North Carolina first began referencing the Internal Revenue Code in 1967, the year it changed its taxation of corporate income to a percentage of federal taxable income.

[2] The North Carolina Constitution imposes an obstacle to a statute that automatically adopts any changes in federal tax law. Article V, Section 2(1) of the Constitution provides in pertinent part that the "power of taxation ... shall never be surrendered, suspended, or contracted away." Relying on this provision, the North Carolina court decisions on delegation of legislative power to administrative agencies, and an analysis of the few federal cases on this issue, the Attorney General's Office concluded in a memorandum issued in 1977 to the Director of the Tax Research Division of the Department of Revenue that a "statute which adopts by reference future amendments to the Internal Revenue Code would ... be invalidated as an unconstitutional delegation of legislative power."

[3] Specifically, the housing allowance exclusion was limited to the smaller of the actual housing expenses or the amount designated by the church board. In 1971, the IRS issued a Revenue Ruling adding one additional limitation based on the fair market rental value of the home.

The federal change became effective for taxable years beginning on or after January 1, 2002. Since this change could have the effect of increasing taxable income for some taxpayers, it could not become effective for taxable years that have already ended. Section 2 of this bill ensures that this change will not increase North Carolina taxable income for any person for the 2002 taxable year.

BACKGROUND: This legislation originated as an effort to head off a constitutional challenge to the clergy housing exclusion in a case before the Ninth Circuit Court of Appeals, Warren v. Commissioner of Internal Revenue, 282 F.3d 1119, (9th Cir. 2002). In this case, Reverend Rick Warren had purchased a home and for three years excluded a portion of his compensation from his church on the basis of the exclusion in section 107(2) of the tax code. The IRS determined that, pursuant to a 1971 Revenue Ruling, the amount excluded should have been limited to the fair market rental value of his home and assessed a deficiency. Rev. Warren contested the deficiency. In May 2000, the United States Tax Court ruled that the IRS erred in finding that Rev. Warren's housing allowance exclusion was limited to the fair market rental value of his home. The government appealed the Tax Court decision to the Ninth Circuit Court of Appeals. Although neither party raised a constitutional issue on appeal, the Ninth Circuit, on its own, queried whether section 107 of the Code violated the Establishment Clause of the United States Constitution and requested the parties to submit briefs on that issue. This prompted the introduction of the Clergy Housing Allowance Clarification Act of 2002 as an effort by Congress to preserve the 81-year-old law exempting the provision of residential housing for clergy from federal income tax. The legislation moved swiftly through Congress, and two days after the President signed the measure, both parties in the case requested a dismissal of the appeal. The Ninth Circuit panel dismissed the case three months later in August 2002.

NORTH CAROLINA GENERAL ASSEMBLY

LEGISLATIVE FISCAL NOTE

BILL NUMBER: H.B. 320 (1st Edition)

SHORT TITLE: **IRC Update**

SPONSOR(S): **Rep. McComas**

FISCAL IMPACT

Yes (X) **No ( )** **No Estimate Available ( )**

	FY 2003-04	FY 2004-05	FY 2005-06	FY 2006-07	FY 2007-08
REVENUES					
General Fund		Gain of < $30,000 each year			
EXPENDITURES					

PRINCIPAL DEPARTMENT(S) & PROGRAM(S) AFFECTED: Department of Revenue

EFFECTIVE DATE: This act is effective when it becomes law.

BILL SUMMARY: This bill updates the statutory reference to the Internal Revenue Code used in defining and determining certain state income tax provisions. The referenced date is changed from May 1, 2002 to January 1, 2003.

BACKGROUND: Ordained ministers, rabbis, and cantors do not pay income tax on housing allowances received as part of their compensation for ministerial duties. However, the housing allowance is subject to Social Security and Medicare taxes under the Self-Employment Contributions Act. To remain tax free, the housing allowance must be used to pay rent, to make a down payment on a house, to pay mortgage installments, or to pay utilities, interest, tax, and house repair expenses. The church or local congregation must designate the part of the minister's compensation that is a housing allowance. This designation of the allowance amount must be made in advance of any payments.

The housing allowance is also given to ministers working as teachers or administrators for a parochial school, college, or theological seminary, to retired ministers if furnished in recognition of past services, and to traveling evangelists to maintain a permanent home. Ordained ministers that work as executives of nonreligious organizations are generally barred from using the allowance. Non-ordained church officers such as minister of music and minister of education do not qualify for a housing allowance.

ASSUMPTIONS AND METHODOLOGY: The effect of this bill is to conform to a change approved by Congress on May 20, 2002 in the Clergy Housing Allowance Act of 2002 (PL 107-181). This law clarified that the clergy housing allowance is excluded from income tax to the extent that it does not exceed the fair market value of the housing unit. For those that had been claiming housing allowances greater than the fair market value for their property, their taxable income will increase in 2003. The Bureau of Labor Statistics in the US Department of Labor reports 450 clergy in North Carolina making an average salary of $36,640 and 100 directors of religious activities and education making an average salary of $27,910. However, there is no data on housing allowances claimed by North Carolina clergy.

The Congressional Joint Committee on Taxation estimated that clergy nationwide would pay an additional $1million in federal income tax each year beginning in 2004 due to the law change. The amount of additional tax would increase to $2 million in 2006, $3 million in 2007, and $4 million in 2008. Since North Carolina taxable income is based on the federal taxable income, North Carolina will gain a small amount of revenue from this change. State income tax collections divided by national tax collections equals approximately .723%. Using this percentage times the national estimate for the tax change equals the following North Carolina General Fund revenue increase:

FY 2003-04	$7,230
FY 2004-05	$7,230
FY 2005-06	$14,460
FY 2006-07	$21,690
FY 2007-08	$28,920

Summary of the Job Development Investment Grant Program (JDIG).

Prepared by Y. Canaan Huie
Legislative Drafting Division, North Carolina General Assembly
Current as of February 24, 2003

S.L. 2002-172 created a new economic development tool for new and expanding businesses in North Carolina. This tool will be used to attract businesses to the State by allowing a five-member committee to award grants to businesses. The amount of the grants would be based on income tax withholdings from new jobs created by the businesses.

Which projects are eligible for a grant? In order to be eligible for a grant under this program, the business must create a minimum number of new jobs. The number of new jobs that must be created varies based on the enterprise tier designation of the location where the jobs will be located. For projects located in enterprise tiers one through three, the project must create at least 10 new full-time positions. For projects located in enterprise tiers four and five, the project must create at least 20 new full-time positions. If a project is located in more than one location, the enterprise tier designation of the location in the highest enterprise tier area determines the number of new jobs that must be created.

As with the Bill Lee Act, a business must provide health insurance for all full-time jobs associated with the project in order to be eligible for this new program. The test is the same as under the Bill Lee Act – the business must, for all full-time employees of the project, pay at least 50% of the premiums for health insurance that meets at least the minimum provisions of the basic health care plan of coverage recommended by the Small Employer Carrier Committee. In addition, the average wage of all jobs at the location with respect to which a grant is sought must meet the Bill Lee wage standard. Finally, as with the Bill Lee Act, the business must have no citations under the Occupational Safety and Health Act that have become a final order within the previous three years for willful serious violations or for failing to abate serious violations with respect to the location for which the grant is made.

There are few restrictions based on the industry in which the business is engaged. There are only two types of projects that are ineligible for consideration under this program: retail facilities and professional and semiprofessional sports teams and clubs.

More generally, the project must satisfy the following conditions in order to be eligible for a grant:

- The project will result in net new employment in the State by the business.
- The project will benefit the people of the State by increasing employment opportunities and strengthening the State's economy.
- The project is consistent with economic development goals for the State.
- A grant is needed in order to secure the project for the State
- The total benefits of the project to the State outweigh the costs associated with the project.

How a grant is obtained? In order to obtain a grant under this program, the business must apply to the Economic Investment Committee for consideration. The Economic Investment Committee is a five-member committee consisting of the Secretary of Commerce, the Secretary of Revenue, the Director of the Office of State Budget and Management, one member appointed by the General Assembly upon the recommendation of the Speaker of the House of Representatives, and one member appointed by the General Assembly upon the recommendation of the President Pro Tempore of the Senate[1]. The members appointed by the General Assembly serve two-year terms. The Committee may only act upon a decision of three of its five members. The Committee is subject to the open meetings law and the public records law. Members of the Committee are forbidden to work for a business that receives a grant under this program for at least two years after the member is no longer on the Committee. A former member of the Committee who violates this prohibition against working for a business that receives a grant under this program must forfeit any compensation received for that work and is prohibited for an additional two years from working for a business that receives a grant under this program.

The application for a grant must be under oath, be on a form prescribed by the Committee, and contain any information required by the Committee. At a minimum, the application must contain the following information:

- The name of the business, the proposed location of the project, and the type of activity in which the business will engage at the project site.
- The names and addresses of the principals or management of the business, and the nature of the business, and the form of business organization under which the business is operated.
- The financial statements of the business prepared by a certified public accountant.
- The number of new jobs proposed to be created by the project.
- An estimate of the withholdings of personal income tax of employees of the project.
- Information concerning other possible locations of the project, and the benefits, including tax benefits or grants, associated with locating the project at those other locations.
- Information concerning other State grants for which the business is applying or that it expects to receive.
- Certification that the project will provide health insurance to all full-time employees.

A group of related business involved in a project may submit a joint application for a grant under this program.

A fee in the amount of $5,000 must accompany any application for a grant. The Secretary of Commerce, the Secretary of Revenue, and the Director of the Office of State Budget and Management will allocate this fee among their agencies.

---

[1] The members of the Committee appointed by the General Assembly may not be members of the General Assembly.

The Committee will evaluate applications to determine which businesses shall receive grants under this program. The awarding of a grant is solely in the discretion of the Committee. The Committee shall develop criteria for evaluating applications. These criteria shall take into consideration the economic impact of the project; the strategic importance of the project to the State, region, or locality; the quality of the jobs to be created; the quality of the industry and the project; the environmental impact of the project; and the degree to which the use of the program has been geographically dispersed throughout the State.

The Committee is exempt from the rule-making process in developing criteria related to this program. However, the statutes do require the Committee to publish the proposed criteria on the Department of Commerce's web site at least 15 business days prior to the adoption of or an amendment to any proposed criteria. The Committee must also provide notice to people who have requested notice of proposed criteria and it must accept oral and written comments on the proposed criteria.

The Committee is required to be somewhat selective in which projects with which it chooses to enter into an agreement. The Committee may not enter into more than 15 agreements in any calendar year. However, there may be significantly more than 15 agreements outstanding at any time because the term of an agreement may be as long as 12 years. In addition, the Committee may not commit more than $10 million dollars annually with agreements entered into in any calendar year[2].

How is the amount of a grant determined? If the Committee approves a business's application, the Committee will then negotiate and enter into a community economic development agreement with the business. The agreement is a binding commitment on the part of the State to provide the grant for a set number of years, subject to the Committee's right or duty to amend or terminate the agreement under certain circumstances. Each agreement shall include a description of the project, the term of the agreement, the number of positions expected to be subject to the grant and a method for determining the number of positions that are subject to the grant, and the amount of the grant as a percentage of the withholdings of personal income tax from eligible positions. The Committee has wide discretion in determining the percentage that determines the amount of a grant under an agreement. The Committee shall develop criteria to be used when negotiating the appropriate percentage. At a minimum, the following conditions apply:

- The amount of the grant may not be less than ten percent (10%) or more than seventy-five percent (75%) of the withholdings associated with new jobs at the project.
- The term of the grant shall not exceed 12 years.
- The percentage used to determine the amount of the grant shall be reduced by one-fourth for any eligible position located in an enterprise tier four or five area.

---

[2] The total annual commitment may be much more than $10 million dollars. For example, agreements entered into during each of the 2003 and 2004 calendar years could each make commitments of up to $10 million annually, for a total annual commitment of up to $20 million.

- Unless the Committee makes a specific determination that the grant should be calculated based on eligible positions created in any year during the term of the agreement, the amount of the grant shall be calculated based only on eligible positions created during the base years, the first two years, of the agreement.
- Unless the Committee makes an explicit finding otherwise, the total amount of all grants provided by the State may not exceed seventy-five (75%) of the withholdings of eligible positions.
- The amount of grant associated with any specific position may not exceed $6,500 in a year.

In addition, the Committee must consider at least the following factors when negotiating a percentage to be used in determining the amount of a grant:

- The number of eligible positions to be created.
- The expected duration of those positions.
- The type of contribution the business can make to the long-term growth of the State's economy.
- The amount of other financial assistance the project will receive from the State or local governments.
- The total dollar investment the business is making in the project.
- Whether the project utilizes existing infrastructure.
- Whether the project is located in a development zone.
- The number of eligible positions that will be filled by residents of a development zone.
- The extent to which the project will mitigate unemployment in the State and locality.

Use of funds? There are no restrictions on the use of the grant funds by the business. South Carolina has a similar grant program. Under the South Carolina program, grant funds may be used for certain specific purposes only, such as worker training, worker relocation, purchase or construction of real property, and construction or repairs to certain transportation-related real property.

The withholdings retained by the State would be used in two different ways. First, the withholdings in excess of the percentage negotiated in the agreement would flow to the General Fund.[3] Second, the withholdings that are included in the agreement, but that are excluded from the grant because the percentage was reduced by one-fourth because the eligible position is located in an enterprise tier four or five area, would be transferred to the Utility Account of the Industrial Development Fund.[4] Funds in the Utility Account

---

3 Even though the maximum percentage that may be used to determine the amount of a grant is 75%, there may be no additional revenue from these positions that would flow to the General Fund. This is because most taxpayers over-withhold, meaning that more taxes are withheld than are actually due, resulting in a refund to the taxpayer. Because of this, a grant based on the maximum percentage of 75% could result in a net loss to the General Fund.

4 The following example will clarify this. Assume a project that is located in an enterprise tier five area is allowed a grant based on 75% of the withholdings of the eligible positions. Because those positions are located in an enterprise tier five area, that percentage is reduced by one-fourth, so that the business is

may be used to assist local governments in enterprise tier areas one through three in constructing or improving utility lines or equipment.

Terms of agreement. Since the Committee has a great deal of flexibility in negotiating agreements, the statutes give some direction on terms that must be included in each agreement. At a minimum, each agreement must contain the following:

- A detailed description of the proposed project that will result in job creation and the number of new employees to be hired in the base years and later years.
- The term of the grant and the criteria used to determine the first year for which the grant may be claimed.
- The number of eligible positions that are subjects of the grant and a description of those positions and the location of those positions.
- The amount of the grant based on a percentage of withholdings.
- A method for determining the number of new employees hired during a grant year.
- A method for the business to report annually to the Committee the number of eligible positions for which the grant is to be made.
- A requirement that the business report to the Committee annually the aggregate amount of withholdings during the grant year.
- A provision permitting an audit of the payroll records of the business by the Committee from time to time as the Committee considers necessary.
- A provision that permits the Committee to amend an agreement pursuant to G.S. 143B-437.59.
- A provision that requires the business to maintain operations at the project location or another location approved by the Committee for at least one hundred fifty percent (150%) of the term of the grant and a provision to permit the Committee to recapture all or part of the grant at its discretion if the business does not remain at the site for the required term.
- A provision that requires the business to maintain employment levels in this State at the level of the year immediately preceding the base years.
- A provision establishing the conditions under which the grant agreement may be terminated, in addition to those under G.S. 143B-437.59, and under which grant funds may be recaptured by the Committee.
- A provision stating that unless the agreement is amended or terminated pursuant to G.S. 143B-437.59, the agreement is binding and constitutes a continuing contractual obligation of the State and the business.
- A provision setting out any allowed variation in the terms of the agreement that will not subject the business to amendment or termination of the agreement under G.S. 143B-437.59.
- A provision that prohibits the business from manipulating or attempting to manipulate employee withholdings with the purpose of increasing the amount

---

allowed a grant equal to 56.25% of the withholdings of eligible positions. (75% multiplied by ¾ equals 56.25%.) Twenty-five percent of the withholdings of eligible positions would flow to the General Fund, 56.25% would be given to the business in the form of a grant, and 18.75% would be transferred to the Utility Account of the Industrial Development Fund.

of the grant and that requires the Committee to terminate the agreement and take action to recapture grant funds if the Committee finds that the business has manipulated or attempted to manipulate withholdings with the purpose of increasing the amount of the grant.

- A provision requiring that the business engage in fair employment practices as required by State and federal law and encouraging the business to use small contractors, minority contractors, physically handicapped contractors, and women contractors whenever practicable in the conduct of its business.
- A provision encouraging the business to give priority consideration to hiring North Carolina residents.
- A provision encouraging the business to use the North Carolina State Ports.
- A provision stating that the State is not obligated to make any annual grant payment until the State has received an amount of withholdings that exceeds the amount of the grant payment.
- A provision describing the manner in which the amount of a grant might be reduced to ensure compliance with the $10 million annual
- A provision requiring that all disputes involving interpretation of the agreement must be submitted to binding arbitration.

In addition, the Attorney General must review the terms of all proposed agreements and must personally sign each agreement.

Follow-up on grantee businesses. The statutes provide for monitoring of grantee businesses in several ways and require the Committee to amend or terminate agreements if the business fails to live up to the terms of the agreement or the requirements of this new program.

The business must submit annual reports to the Committee. In addition, the Committee may audit at any time a business receiving a grant. At a minimum, the business must submit a copy of its federal and State income tax returns which show business and nonbusiness income, a report that shows withholdings, and a payroll report. This annual submission must also include any additional information the Committee considers necessary to implement the grant program.

This annual submission must be accompanied by a fee of $1,500. The Committee shall allocate the fee among the agencies responsible for evaluating the submission.

The Committee must also obtain information from the Department of Revenue before the disbursement of a grant. The Department of Revenue must certify the amount of withholdings from the eligible business.

The Committee is required to amend or terminate the agreement and to recapture all or part of a grant made in previous years under certain circumstances. If the business fails to meet or comply with any term of the agreement or with criteria developed by the Committee, the Committee must amend the agreement and may terminate the agreement. This amendment may take the form of a lower percentage being used to determine the amount of the grant or of a shorter term for the agreement. The reduction must be proportional to the failure to comply with the agreement. If the business fails to meet or comply with any term of the agreement or with criteria developed by the Committee for

two consecutive years, the Committee must terminate the agreement. In addition, in each agreement the Committee must include a provision describing the conditions that will lead to recapture of a grant made in an earlier year.

Like with the Bill Lee Act, a business that has an overdue tax debt is penalized. A business that has an overdue tax debt may not receive an annual disbursement of a grant so long as that overdue tax debt is not satisfied or otherwise resolved.

Program evaluation. The Committee is required to make annual reports regarding the program and the funding needed to implement the program. By April 30 of each year, the Committee must publish the following information:

- A listing of each agreement entered into during the previous fiscal year, the cost/benefit analysis conducted with respect to each agreement, a description of each project, and the amount of the initial grant.
- An update on the status of projects under agreements entered into in earlier fiscal years.
- The number and enterprise tier levels of eligible positions created by projects with respect to which grants were awarded.
- The wage levels of eligible positions created by projects with respect to which grants were awarded, aggregated and listed in increments of $5,000.
- The amount of new income tax revenue received by the State related to the projects.
- The criteria developed by the Committee to implement the grant program and changes in those criteria over the previous year.
- The effectiveness of the program in recruiting new and expanding businesses.
- The environmental impact of businesses that have received grants.
- The geographic distribution of grants, by number and amount.
- An explanation of whether the projects with respect to which agreements are entered into involve new businesses in the State or expanding existing businesses in the State.
- A listing of all businesses making an application for a grant and an explanation of whether each business ultimately located the project in this State regardless of whether the business was awarded a grant.
- A report on the division and use of fees collected under G.S. 143B-437.55 and G.S. 143B-437.58.

Additionally, the Committee shall publish quarterly reports on the program within two months of the end of each fiscal quarter. These reports shall contain information on agreements entered into within the last fiscal quarter including the name of the business, the cost/benefit analysis conducted by the Committee, a description of the project, and the amount of the grant expected to be made under the agreement during the current fiscal year.

In addition, the Committee shall conduct a study annually to determine the amount of funding needed to successfully implement the grant program. The results of that study must be reported to the House of Representatives Finance Committee, the Senate Finance Committee, the House of Representatives Appropriations Subcommittee on Natural and

Economic Resources, the Senate Appropriations Committee on Natural and Economic Resources, and the Fiscal Research Division no later than March 1 of each year.

Finally, the authority of the Committee to enter into additional agreements begins as of January 1, 2003, and expires as of January 1, 2005. This will allow the General Assembly an opportunity to review the program after it has been in effect for a few years in order to determine if the program is meeting its objectives.

House Finance Committee
March 18, 2003

Overview of the Industrial Recruitment Competitive Fund (aka One NC Fund)

In Sec. 20.3 of the 2001 Appropriations Act (S.L. 2001-424) the following provision for the Industrial Recruitment Competitive Fund was enacted:

"**SECTION 20.3.(a)** Funds appropriated in this act to the Department of Commerce for the Industrial Recruitment Competitive Fund shall be used to continue the Fund. The purpose of the Fund is to provide financial assistance to those businesses or industries deemed by the Governor to be vital to a healthy and growing State economy and that are making significant efforts to establish or expand in North Carolina. Moneys allocated from the Fund shall be used for the following purposes:

1. Installation or purchase of equipment;
2. Structural repairs, improvements, or renovations of existing buildings to be used for expansion; and
3. Construction of or improvements to new or existing water, sewer, gas or electric utility distribution lines, or equipment for existing buildings.

Moneys may also be used for construction of or improvements to new or existing water, sewer, gas or electric utility distribution lines, or equipment to serve new or proposed industrial buildings used for manufacturing and industrial operations. The Governor shall adopt guidelines and procedures for the commitment of moneys from the Fund.

SECTION 20.3.(b) The Department of Commerce shall report on or before January 1, 2002, and quarterly thereafter to the Joint Legislative Commission on Governmental Operations and to the Fiscal Research Division on the commitment, allocation, and use of funds allocated from the Industrial Recruitment Competitive Fund."

History of Appropriations

FY 1993-94	$5,000,000	
FY 1994-95	$7,000,000	
FY 1995-96	$2,000,000

Overview of the Film Industry Development Account

S.L. 2000-153 created the Film Industry Development Account within the Department of Commerce, Division of Travel and Tourism. The purpose of the Account is to provide annual grants to production companies that engage in production activities in the State. The grant may not exceed 15% of the amount the production company spends for goods and services in the State during a calendar year, and the grant may not exceed $200,000 per production. In 2002, the General Assembly amended the act to require that a production company have at least $1,000,000 in expenditures in this State before it can be eligible for a grant from this account.

There was no funding for this program until last year when $500,000 was appropriated to the Department of Commerce to fund the Account. However, the program has been inactive since its creation and, to date, no grant applications have been filed, nor have any grants been awarded.

On February 20, 2003, Edward Jones, a citizen of Wake County, and the Wake County Taxpayers' Association filed a lawsuit against the North Carolina Department of Commerce, Secretary of Commerce James Fain, and Lynn Minges, Executive Director of the Division of Tourism, Film, and Sports Development, seeking to have the statute authorizing the program declared unconstitutional. The complaint alleges that the program violates the "public purpose" clause of the North Carolina Constitution.

The public purpose doctrine restricts the power of the General Assembly and local governmental units to raise revenue through taxes and to appropriate tax and nontax revenues of the State or governmental unit. In accordance with this doctrine, taxes may be levied only for a public purpose and funds may be appropriated only for a public purpose. The public purpose doctrine is found, in part, in Article V, Section 2(1) of the North Carolina Constitution, which states "The power of taxation shall be exercised in a just and equitable manner, for public purposes only, and shall never be surrendered, suspended, or contracted away." Judicial interpretations of this provision supply additional guidance on the limitation. However, neither the United States Supreme Court nor the North Carolina Supreme Court has formulated a definition of public purpose. Instead, the determination is made on a case-by-case basis.

The Department is currently working on its response to the complaint, which is not due until next week.

143B-434.3. Film Industry Development Account.

(a) Creation and Purpose of Account. - There is created in the Department of Commerce, Division of Tourism, Film, and Sports Development, the Film Industry Development Account to provide annual grants as incentives to production companies that engage in production activities in this State. The Division of Tourism, Film, and Sports Development shall administer this program in accordance with the following provisions:

(1) To be eligible for a grant, a production company must engage in production activities in this State with expenditures in this State of at least one million dollars ($1,000,000). A grant may not be used for political or issue advertising.

(2) A grant may not exceed fifteen percent (15%) of the amount the production company spends for goods and services in this State during the calendar year.

(3) A grant may not exceed two hundred thousand dollars ($200,000) per production.

(b) Production Company Defined. - As used in this section, the term "production company" has the meaning provided in G.S. 105-164.3.

(c) Limitation on eligibility. - No production company shall be eligible for a grant under this section if an original motion picture, television, or radio image for theatrical, commercial, advertising, or educational purposes made by that company contains material that is considered obscene, as defined by G.S. 14-190.1(b).

(d) Reports. - The Department of Commerce shall report annually to the General Assembly concerning the applications made to the account, the payments made from the account, and the effect of the payments on job creation in the State. The Department of Commerce shall also report quarterly to the Joint Legislative Commission on Governmental Operations and the Fiscal Research Division on the use of the moneys in the account, including information regarding to whom payments were made and in what amounts. (2000-140, s. 79(c); 2000-153, ss. 1, 6; 2002-172, s. 3.1.)

House Committee on Finance

Minutes
March 25, 2003

The House Committee on Finance met on Tuesday, March 25, 2003 at 8:30am in Room 544 of the Legislative Office Building. The following members were present: Chairpersons G. Allen, Howard, Luebke, McComas, and Wainwright; Vice-Chairs Alexander and Hill; and Representatives Blackwood, Bordsen, Creech, Glazier, Hackney, Holliman, Jones, Lewis, McCombs, McGee, Munford, Rayfield, Ross, Weiss, C. Wilson, and Womble. Also present were Sergeant-at-Arms staff Bob Fowler, Bill Freeman, Dusty Rhodes, and Walter Spell. Staff persons present included Cindy Avrette, Richard Bostic, David Crotts, Trina Griffin, Linda Millsaps, and Martha Walston. The Agenda and Visitor Registration Sheet are attached and incorporated into these minutes as attachments 1 and 2.

Presiding Chairman Gordon Allen called the meeting to order at 8:40 am and then introduced Pages Johnathan Stowe and Phillip Ingram, both from Forsyth County, sponsored by Representative Earline Parmon. Chairman Allen also introduced the new Committee Assistant to the House Finance Committee, Jason Cannon and a new Staff Research Assistant in Fiscal Research, Alexei Pavlichev.

As the first order of business, the Chair recognized the Bill Sponsor, Representative Cole, to explain HB 237: Nurses' Special Registration Plate (see attachment 3). This bill acknowledges the celebration of the nation's first Nursing Association by providing for the issuance of a specialized vehicle license plate. A motion was then made by Representative Howard to adopt the Proposed Committee Substitute (PCS) of HB 237 for discussion. The motion carried without dissent. Having no discussion, Representative Weiss then promptly moved for a favorable report on the Proposed Committee Substitute. The motion carried. Copies of the PCS, Bill, Bill Summary, and Fiscal Note are attached as part of these minutes.

Next, the Chair recognized Representative Adams, sponsor of HB 482: Alpha Kappa Alpha License Plate, to offer an explanation (see attachment 4). This bill, similar to HB 237 (above), provides for the issuance of a special vehicle license plate to include the Alpha Kappa Alpha Sorority's greek-letter symbol. The plate would honor the 50-year anniversary celebration of the North Carolina Chapter of the all-black Alpha Kappa Alpha Sorority. Representative Howard then moved that the Proposed Committee Substitute (PCS) of HB 482 be adopted for discussion. The motion carried. Short discussion ensued followed by a motion by Representative Womble for a favorable report on the PCS (secondary motions by Representatives Wainwright, Luebke, and Ross). The motion carried. Copies of the PCS, Bill, Bill Summary, and Fiscal Note are attached as part of these minutes.

Chairman Allen then recognized Martha Walston to continue her informational discussion of the One NC Fund. The Fund involves the appropriation of monies by the Department of Commerce for the creation of industry and jobs in various areas throughout the state. (Please see attachments 5 and 6.) Department of Commerce spokesman Don Hobart and Staffperson Martha Walston then fielded questions for the Committee members.

The Chair next recognized Linda Millsaps for an informational Power Point Presentation on a summary of the North Carolina sales tax (see attachments 7, 8, and 9). Overall, the presentation focused on a comparison of North Carolina to other state's tax coverage as well as a breakdown of the current and historical tax rates in North Carolina. During the presentation, the Chair, for a question in regard to the Governor's Tax Commission, recognized Representative Luebke who further commented that he was on a "hunt" for revenues for the state. Chairman Allen, a member of the Commission, explained that the intent of the Commission was to broaden the tax on services as a means to lower state sales taxes.

When continuing her presentation, Ms. Millsaps received a request from Representative Jones for staff to provide further information on the use of the property tax in North Carolina prior to 1933 (when the sales tax was initially implemented). The conclusion of the presentation discussed possible tax revenues from Internet and catalog orders. Chairman Allen added that North Carolina loses approximately $450 million annually due to lost taxes on such orders.

The Chair then announced that the remainder of the agenda, specifically Cindy Avrette's presentation on the Streamlined Sales Tax Project would be discussed at a later meeting date. (The handout for this presentation, although not discussed, is included in these minutes as attachment 10.) As a reminder to Committee members, Chairman Allen then noted the next Committee meeting date to be held on Wednesday, March 26, 2003 at 8:30 am in Room 544 when the State Treasurer, Richard Moore, will visit the Committee to discuss the State's fiscal situation.

Having no further business before the Committee, Chairman Allen adjourned the meeting at 10:04 am.

Respectfully submitted,

Representative Gordon P. Allen
Presiding Chair

Jason A. Cannon
Assistant to Committee on Finance

House Committee on Finance

Minutes
March 25, 2003

The House Committee on Finance met on Tuesday, March 25, 2003 at 8:30am in Room 544 of the Legislative Office Building. The following members were present: Chairpersons G. Allen, Howard, Luebke, McComas, and Wainwright; Vice-Chairs Alexander and Hill; and Representatives Blackwood, Bordsen, Creech, Glazier, Hackney, Holliman, Jones, Lewis, McCombs, McGee, Munford, Rayfield, Ross, Weiss, C. Wilson, and Womble. Also present were Sergeant-at-Arms staff Bob Fowler, Bill Freeman, Dusty Rhodes, and Walter Spell. Staff persons present included Cindy Avrette, Richard Bostic, David Crotts, Trina Griffin, Linda Millsaps, and Martha Walston. The Agenda and Visitor Registration Sheet are attached and incorporated into these minutes as attachments 1 and 2.

Presiding Chairman Gordon Allen called the meeting to order at 8:40 am and then introduced Pages Johnathan Stowe and Phillip Ingram, both from Forsyth County, sponsored by Representative Earline Parmon. Chairman Allen also introduced the new Committee Assistant to the House Finance Committee, Jason Cannon and a new Staff Research Assistant in Fiscal Research, Alexei Pavlichev.

As the first order of business, the Chair recognized the Bill Sponsor, Representative Cole, to explain HB 237: Nurses' Special Registration Plate (see attachment 3). This bill acknowledges the celebration of the nation's first Nursing Association by providing for the issuance of a specialized vehicle license plate. A motion was then made by Representative Howard to adopt the Proposed Committee Substitute (PCS) of HB 237 for discussion. The motion carried without dissent. Having no discussion, Representative Weiss then promptly moved for a favorable report on the Proposed Committee Substitute. The motion carried. Copies of the PCS, Bill, Bill Summary, and Fiscal Note are attached as part of these minutes.

Next, the Chair recognized Representative Adams, sponsor of HB 482: Alpha Kappa Alpha License Plate, to offer an explanation (see attachment 4). This bill, similar to HB 237 (above), provides for the issuance of a special vehicle license plate to include the Alpha Kappa Alpha Sorority's greek-letter symbol. The plate would honor the 50-year anniversary celebration of the North Carolina Chapter of the all-black Alpha Kappa Alpha Sorority. Representative Howard then moved that the Proposed Committee Substitute (PCS) of HB 482 be adopted for discussion. The motion carried. Short discussion ensued followed by a motion by Representative Womble for a favorable report on the PCS (secondary motions by Representatives Wainwright, Luebke, and Ross). The motion carried. Copies of the PCS, Bill, Bill Summary, and Fiscal Note are attached as part of these minutes.

Chairman Allen then recognized Martha Walston to continue her informational discussion of the One NC Fund. The Fund involves the appropriation of monies by the Department of Commerce for the creation of industry and jobs in various areas throughout the state. (Please see attachments 5 and 6.) Department of Commerce spokesman Don Hobart and Staffperson Martha Walston then fielded questions for the Committee members.

The Chair next recognized Linda Millsaps for an informational Power Point Presentation on a summary of the North Carolina sales tax (see attachments 7, 8, and 9). Overall, the presentation focused on a comparison of North Carolina to other state's tax coverage as well as a breakdown of the current and historical tax rates in North Carolina. During the presentation, the Chair, for a question in regard to the Governor's Tax Commission, recognized Representative Luebke who further commented that he was on a "hunt" for revenues for the state. Chairman Allen, a member of the Commission, explained that the intent of the Commission was to broaden the tax on services as a means to lower state sales taxes.

When continuing her presentation, Ms. Millsaps received a request from Representative Jones for staff to provide further information on the use of the property tax in North Carolina prior to 1933 (when the sales tax was initially implemented). The conclusion of the presentation discussed possible tax revenues from Internet and catalog orders. Chairman Allen added that North Carolina loses approximately $450 million annually due to lost taxes on such orders.

The Chair then announced that the remainder of the agenda, specifically Cindy Avrette's presentation on the Streamlined Sales Tax Project would be discussed at a later meeting date. (The handout for this presentation, although not discussed, is included in these minutes as attachment 10.) As a reminder to Committee members, Chairman Allen then noted the next Committee meeting date to be held on Wednesday, March 26, 2003 at 8:30 am in Room 544 when the State Treasurer, Richard Moore, will visit the Committee to discuss the State's fiscal situation.

Having no further business before the Committee, Chairman Allen adjourned the meeting at 10:04 am.

HOUSE BILL 237*
PROPOSED COMMITTEE SUBSTITUTE H237-CSLAf-2 [v.2]

3/23/2003 12:22:38 PM

Short Title: Nurses' Special Registration Plate. (Public)

Sponsors:

Referred to:

March 6, 2003

A BILL TO BE ENTITLED

AN ACT TO AUTHORIZE THE DIVISION OF MOTOR VEHICLES TO ISSUE SPECIAL REGISTRATION PLATES TO SUPPORT NURSING SCHOLARSHIPS IN NORTH CAROLINA.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 20-79.4(b) reads as rewritten:

"(b) Types. – The Division shall issue the following types of special registration plates:

...

(28g) Nurses. – Issuable to the registered owner of a motor vehicle in accordance with G.S. 20-81.12. The plate shall bear the phrase "First in Nursing" and a representation relating to nursing."

SECTION 2. G.S. 20-79.7(a) reads as rewritten:

"(a) Fees. – Upon request, the Division shall provide and issue free of charge one registration plate to a recipient of the Congressional Medal of Honor, a 100% disabled veteran, and an ex-prisoner of war. All other special registration plates, including additional Congressional Medal of Honor, 100% Disabled Veteran, and Ex-Prisoner of War plates, are subject to the regular motor vehicle registration fee in G.S. 20-87 or G.S. 20-88 plus an additional fee in the following amount:

Special Plate	Additional Fee Amount
Historical Attraction	$30.00
State Attraction	$30.00
Collegiate Insignia	$25.00
Goodness Grows	$25.00
Kids First	$25.00
Olympic Games	$25.00
NC Agribusiness	$25.00
Nurses	$25.00

Special Olympics	$25.00
The V Foundation for Cancer Research Division	$25.00
University Health Systems of Eastern Carolina	$25.00
Animal Lovers	$20.00
Audubon North Carolina	$20.00
Ducks Unlimited	$20.00
Harley Owners' Group	$20.00
First in Forestry	$20.00
Litter Prevention	$20.00
March of Dimes	$20.00
Omega Psi Phi Fraternity	$20.00
Rocky Mountain Elk Foundation	$25.00
Save the Sea Turtles	$20.00
Scenic Rivers	$20.00
School Technology	$20.00
Soil and Water Conservation	$20.00
Special Forces Association	$20.00
Support Public Schools	$20.00
Wildlife Resources	$20.00
Personalized	$20.00
Active Member of the National Guard	None
100% Disabled Veteran	None
Ex-Prisoner of War	None
Legion of Valor	None
Purple Heart Recipient	None
Silver Star Recipient	None
All Other Special Plates	$10.00."

SECTION 3. G.S. 20-79.7(b) reads as rewritten:

"(b) Distribution of Fees. – The Special Registration Plate Account and the Collegiate and Cultural Attraction Plate Account are established within the Highway Fund. The Division must credit the additional fee imposed for the special registration plates listed in subsection (a) among the Special Registration Plate Account (SRPA), the Collegiate and Cultural Attraction Plate Account (CCAPA), and the Natural Heritage Trust Fund (NHTF), which is established under G.S. 113-77.7, as follows:

Special Plate	SRPA	CCAPA	NHTF
Animal Lovers	$10	$10	0
Audubon North Carolina	$10	$10	0
Ducks Unlimited	$10	$10	0
First in Forestry	$10	0	$10
Goodness Grows	$10	$15	0
Harley Owners' Group	$10	$10	0
Historical Attraction	$10	$20	0
In-State Collegiate Insignia	$10	$15	0

Kids First	$10	$15	0
Litter Prevention	$10	$10	0
March of Dimes	$10	$10	0
NC Agribusiness	$10	$15	0
Nurses	$10	$15	0
Olympic Games	$10	$15	0
Omega Psi Phi Fraternity	$10	$10	0
Out-of-state Collegiate Insignia	$10	0	$15
Personalized	$10	0	$10
Rocky Mountain Elk Foundation	$10	$15	0
Save the Sea Turtles	$10	$10	0
Scenic Rivers	$10	$10	0
School Technology	$10	$10	0
Soil and Water Conservation	$10	$10	0
Special Forces Association	$10	$10	0
Special Olympics	$10	$10	0
State Attraction	$10	$20	0
Support Public Schools	$10	$10	0
The V Foundation for Cancer Research	$10	$15	0
University Health Systems of Eastern Carolina	$10	$15	0
Wildlife Resources	$10	$10	0
All other Special Plates	$10	0	0."

SECTION 4. G.S. 20-81.12 is amended by adding a new subsection to read:

"(b24) Nurses. – The Division must receive 300 or more applications for a Nurses plate before the plate may be developed. The Division shall transfer quarterly the money in the Collegiate and Cultural Attraction Plate Account derived from the sale of Nurses plates to the NC Foundation for Nursing for nursing scholarships for citizens of North Carolina to be awarded annually."

SECTION 5. This act is effective when it becomes law.

HOUSE BILL 237:
Nurses' Special Registration Plate

BILL ANALYSIS

Committee:	House Finance	**Sponsor:**	Rep. Cole
Date:	March 25, 2003	**Analysis by:**	Martha Walston
Version:	Proposed Committee Substitute		Committee Counsel

SUMMARY: House Bill 237 authorizes the Division of Motor Vehicles to issue a special plate to the owner of a motor vehicle that bears the phrase "First in Nursing" and a representation relating to nursing. There will be a $25 fee in addition to the regular $20 registration fee. Of the $25 additional fee, $10 will go into the Special Registration Plate Account, and $15 will go into the NC Foundation for Nursing for nursing scholarships for North Carolina citizens to be awarded annually. 300 applications must be received before the plate can be issued. SB 295 is a companion bill.

CURRENT LAW: G.S. 20-79.4 through G.S. 20-81.12 deal with special registration plates. For most of these plates, there is an additional charge of $10 for the plate that is credited to the Special Registration Plate Account (SRPA). Some of the special plates carry an additional charge that is applied to the Collegiate and Cultural Attraction Plate Account (CCAPA) or the Natural Heritage Trust Fund (NHTF). The money in the CCAPA is transferred quarterly to a fund or account for the benefit of the particular activity or cause. The money in the NHTF may be used to acquire land that represents the ecological diversity of North Carolina, land that is added to the system of State parks, and land that contributes to the development of a State program of historic properties.

Funds in the Special Registration Plate Account may be used only for the following purposes:

- After the deduction for costs associated with the plates, such as issuance, handling, and advertising, the sum of $525,000 is annually appropriated from the SRPA to provide operating assistance for the following seven Visitor Centers:
  a. on U.S. Highway 17 in Camden County ($75.000)
  b. on U.S. Highway 17 in Brunswick County ($75,000)
  c. on U.S. Highway 441 in Macon County ($75,000)
  d. in the Town of Boone, Watauga County ($75,000)
  e. on U.S. Highway 29 in Caswell County ($75,000)
  f. on U.S. Highway 70 in Carteret County ($75,000)
  g. on U.S. Highway 64 in Tyrrell County $75,000)

- The remaining revenue in the SRPA is transferred quarterly as follows:
  a. 33% to the account of the Department of Commerce to aid in financing out-of-state print and other media advertising under the program for the promotion of travel and industrial development in the State.
  b. 50% to DOT for beautification of highways other than those designated as interstate.
  c. 17% to the account of DHHS to promote travel accessibility for disabled persons

Free special registration plates: One registration plate is issued free of charge to a recipient of the Congressional Medal of Honor, a 100% Disabled Veteran, or an ex-prisoner of War.

Special registration plates exempt from additional fee: Active Member of the National Guard, Legion of Valor, Purple Heart Recipient, or Silver Star Recipient.

BILL ANALYSIS: House Bill 237 authorizes the DMV to issue a specialized "First in Nursing" license plate if there are 300 applications. The recipient of the plate must pay the regular registration fee plus an additional $25 fee. The additional fee will be distributed as follows:

- $10 to the Special Registration Plate Account (SRPA)
- $15 to the Collegiate and Cultural Attraction Plate Account (CCAPA) to be transferred quarterly to the NC Foundation for Nursing for nursing scholarships for North Carolian citizens. The scholarships will be awarded annually.

The proposed committee substitute adds language that the plate will bear a representation related to nursing in addition to the phrase "First in Nursing".

This year North Carolina is celebrating the first 100 years of nursing. In 1903, Governor Charles Aycock signed the first Nursing Practice Act in the country into law. Currently there are 114,000 nurses in the State.

NORTH CAROLINA GENERAL ASSEMBLY

LEGISLATIVE FISCAL NOTE

EXPENDITURES					
Special Plate Fund	**$1,000**				

PRINCIPAL DEPARTMENT(S) & PROGRAM(S) AFFECTED: NC Department of Transportation.

EFFECTIVE DATE: When it becomes law.

BILL SUMMARY: The bill authorizes the Division of Motor Vehicles to issue special registration plate for nurses. Those requesting the plate will be charged an additional $25, with part of the processes going to the special plate account, and the balance going to the NC Foundation for Nursing to provide nursing scholarships.

ASSUMPTIONS AND METHODOLOGY: The bill does not affect the General Fund. In addition, there is no revenue impact on the Highway Fund since the special plate applicants pay the same $20 vehicle registration fee that they were paying for a regular license plate.

According to the Division of Motor Vehicles, there is a one-time cost of approximately $100 to design a new plate. There is also a production cost of approximately $3.00 per plate based on one color design. The cost per plate will increase if more color is added or the design is complex. Since the number of applications for these plates is unknown, this fiscal analysis assumes only the minimum 300 applicants needed to qualify for a plate. Thus, the total production cost for 300 plates is $1,000.

The bills require an additional payment of $25, with the proceeds flowing to both the special registration plate account ($10) and the collegiate and cultural attraction plate account ($15). The proceeds in to the collegiate and cultural attractions plate account derived from the nurses plate will be transferred to the NC Foundation for Nursing for nursing scholarships.

SOURCES OF DATA: NC Department of Transportation.

A BILL TO BE ENTITLED

AN ACT TO AUTHORIZE THE DIVISION OF MOTOR VEHICLES TO ISSUE SPECIAL REGISTRATION PLATES TO SUPPORT NURSING SCHOLARSHIPS IN NORTH CAROLINA.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 20-79.4(b) reads as rewritten:

"(b) Types. – The Division shall issue the following types of special registration plates:

...

(28c) Nurses. – Issuable to the registered owner of a motor vehicle in accordance with G.S. 20-81.12(b24). The plate shall bear the phrase "First in Nursing"."

SECTION 2. G.S. 20-79.7(a) reads as rewritten:

"(a) Fees. – Upon request, the Division shall provide and issue free of charge one registration plate to a recipient of the Congressional Medal of Honor, a 100% disabled veteran, and an ex-prisoner of war. All other special registration plates, including additional Congressional Medal of Honor, 100% Disabled Veteran, and Ex-Prisoner of War plates, are subject to the regular motor vehicle registration fee in G.S. 20-87 or G.S. 20-88 plus an additional fee in the following amount:

Special Plate	Additional Fee Amount
Historical Attraction	$30.00
State Attraction	$30.00
Collegiate Insignia	$25.00
Goodness Grows	$25.00
Kids First	$25.00
Olympic Games	$25.00
NC Agribusiness	$25.00

Nurses	$25.00
Special Olympics	$25.00
The V Foundation for Cancer Research Division	$25.00

Referred to:

March 13, 2003

A BILL TO BE ENTITLED

AN ACT TO AUTHORIZE THE DIVISION OF MOTOR VEHICLES TO ISSUE AN ALPHA KAPPA ALPHA SORORITY SPECIAL REGISTRATION PLATE.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 20-79.4(b) reads as rewritten:

"(b) Types. – The Division shall issue the following types of special registration plates:

...

(1c) Alpha Kappa Alpha Sorority. – Issuable to the registered owner of a motor vehicle. The plate shall bear the sorority's symbol and name. The Division may not issue the plate authorized by this subdivision unless it receives at least 300 applications for the plate."

SECTION 2. This act is effective when it becomes law.

HOUSE BILL 482:
Alpha Kappa Alpha License Plate

BILL ANALYSIS

Committee:	House Finance	**Sponsor:**	Rep. Adams
Date:	March 25, 2003	**Analysis by:**	Martha Walston Committee Counsel
Version:	Proposed Committee Substitute		

SUMMARY: House Bill 482 authorizes the Division of Motor Vehicles to issue a special plate to the owner of a motor vehicle that bears the symbol and name of the Alpha Kappa Alpha Sorority. There will be a $10 fee in addition to the regular $20 registration fee. The $10 fee will go into the Special Registration Plate Account. 300 applications must be received before the plate can be issued. Senate Bill 397 is a companion bill.

CURRENT LAW: G.S. 20-79.4 through G.S. 20-81.12 deal with special registration plates. For most of these plates, there is an additional charge of $10 for the plate that is credited to the Special Registration Plate Account (SRPA). Some of the special plates carry an additional charge that is applied to the Collegiate and Cultural Attraction Plate Account (CCAPA) or the Natural Heritage Trust Fund (NHTF). The money in the CCAPA is transferred quarterly to a fund or account for the benefit of the particular activity or cause. The money in the NHTF may be used to acquire land that represents the ecological diversity of North Carolina, land that is added to the system of State parks, and land that contributes to the development of a State program of historic properties.

Funds in the Special Registration Plate Account may be used only for the following purposes:

- After the deduction for costs associated with the plates, such as issuance, handling, and advertising, the sum of $525,000 is annually appropriated from the SRPA to provide operating assistance for the following seven Visitor Centers:
  a. on U.S. Highway 17 in Camden County ($75.000)
  b. on U.S. Highway 17 in Brunswick County ($75,000)
  c. on U.S. Highway 441 in Macon County ($75,000)
  d. in the Town of Boone, Watauga County ($75,000)
  e. on U.S. Highway 29 in Caswell County ($75,000)
  f. on U.S. Highway 70 in Carteret County ($75,000)
  g. on U.S. Highway 64 in Tyrrell County $75,000)
- The remaining revenue in the SRPA is transferred quarterly as follows:
  a. 33% to the account of the Department of Commerce to aid in financing out-of-state print and other media advertising under the program for the promotion of travel and industrial development in the State.
  b. 50% to DOT for beautification of highways other than those designated as interstate.
  c. 17% to the account of DHHS to promote travel accessibility for disabled persons

Free special registration plates: One registration plate is issued free of charge to a recipient of the Congressional Medal of Honor, a 100% Disabled Veteran, or an ex-prisoner of War.

Special registration plates exempt from additional fee are: Active Member of the National Guard, Legion of Valor, Purple Heart Recipient, or Silver Star Recipient.

If the statute does not set out an additional registration fee or it specifically exempts the special plate from a fee, then the additional fee is $10. This $10 fee goes into the SRPA.

BILL ANALYSIS: House Bill 482 authorizes the DMV to issue a specialized license plate that bears the symbol and name of the Alpha Kappa Alpha Sorority if there are at least 300 applications. The recipient of the special plate must pay the regular registration fee plus an additional $10 fee. The $10 fee will go into the SRPA.

Under current law only one other special plate has been authorized for a fraternity or sorority. The proposed committee substitute conforms to the language of this plate by authorizing the plate to bear the sorority's symbol in addition to the sorority's name.

BACKGROUND: In 1908, Alpha Kappa Alpha Sorority became America's first Greek-letter organization established by Black college women. In 2002, AKA built and dedicated nine additional schools in South Africa and contributed $25,000 to the National Council of Negro Women's Mortgage Liquidation Fund. In 2001, the Sorority contributed over $25,000 for Sickle Cell Anemia. Currently there are North Carolina chapters in the following locations: Winston-Salem, Rocky Mount, Durham, Raleigh, Charlotte, Wilmington, Greensboro, Wilson, Asheville, Salisbury, Goldsboro, Elisabeth City, Gastonia, Kinston, Fayetteville, High Point, New Bern, Greenville, Garysburg, Williamston, Chapel Hill, Creedmoor, Ahoskie, Hickory, Lexington, Southern Pines, Burlington, Norlina, Clinton, Fairmont, Roxboro, Cary, Jacksonville, Washington, Cullowhee, Elon College, Boone, and Maxton.

NORTH CAROLINA GENERAL ASSEMBLY

LEGISLATIVE FISCAL NOTE

BILL NUMBER: HB 482 (1st Edition)

SHORT TITLE: Alpha Kappa Alpha License Plate

SPONSOR(S): Representative Adams

FISCAL IMPACT

	FY 2003-04	FY 2004-05	FY 2005-06	FY 2006-07	FY 2007-08
REVENUES					
General Fund	* No General Fund Impact *				
Highway Fund	* No Highway Fund Impact *				
Special Plate Acct.	**$3,000**				
EXPENDITURES					
Special Plate Acct.	**$1,000**				

PRINCIPAL DEPARTMENT(S) & PROGRAM(S) AFFECTED: Department of Transportation.

EFFECTIVE DATE: When it becomes law.

BILL SUMMARY: The bill authorizes the Division of Motor Vehicles to issue an Alpha Kappa Alpha sorority special registration plate.

ASSUMPTIONS AND METHODOLOGY: The bill does not affect the General Fund. In addition, there is no revenue impact on the Highway Fund since the special plate applicants pay the same $20 vehicle registration fee that they were paying for a regular license plate.

According to the Division of Motor Vehicles, there is a one-time cost of approximately $100 to design a new plate. There is also a production cost of approximately $3.00 per plate based on one color design. The cost per plate will increase if more color is added or the design is complex. Since the number of applications for these plates is unknown, this fiscal analysis assumes only the minimum 300 applicants needed to qualify for a plate. Thus, the total production cost for 300 plates is $1,000. Under current statutes, all special plate registrations are charged an additional $10. Assuming 300 plates, the bill raises $3,000 for the special plate account.

SOURCES OF DATA: NC Department of Transportation.

Overview of the Industrial Recruitment Competitive Fund (aka One NC Fund)

In Sec. 20.3 of the 2001 Appropriations Act (S.L. 2001-424) the following provision for the Industrial Recruitment Competitive Fund was enacted:

"**SECTION 20.3.(a)** Funds appropriated in this act to the Department of Commerce for the Industrial Recruitment Competitive Fund shall be used to continue the Fund. The purpose of the Fund is to provide financial assistance to those businesses or industries deemed by the Governor to be vital to a healthy and growing State economy and that are making significant efforts to establish or expand in North Carolina. Moneys allocated from the Fund shall be used for the following purposes:

1. Installation or purchase of equipment;
2. Structural repairs, improvements, or renovations of existing buildings to be used for expansion; and
3. Construction of or improvements to new or existing water, sewer, gas or electric utility distribution lines, or equipment for existing buildings.

Moneys may also be used for construction of or improvements to new or existing water, sewer, gas or electric utility distribution lines, or equipment to serve new or proposed industrial buildings used for manufacturing and industrial operations. The Governor shall adopt guidelines and procedures for the commitment of moneys from the Fund.

SECTION 20.3.(b) The Department of Commerce shall report on or before January 1, 2002, and quarterly thereafter to the Joint Legislative Commission on Governmental Operations and to the Fiscal Research Division on the commitment, allocation, and use of funds allocated from the Industrial Recruitment Competitive Fund."

History of Appropriations

FY 1993-94	$5,000,000	
FY 1994-95	$7,000,000	
FY 1995-96	$2,000,000	
FY 1996-97	$1,000,000	
FY 1997-98	$1,000,000	
FY 1998-99	$1,000,000	*plus $2M appropriated for Wisconsin Tissue deal that fell through; $1,285,000 to IDF Utility Account, $715,000 used for other recruitment purposes
FY 1999-00	$2,000,000	
FY 2000-01	$2,000,000

Explanation of One NC Fund Spreadsheet

Column 5: "Region"

- C = Carolina's Partnership (Charlotte)
- AW = Advantage West (Western)
- GT = Global TransPark (Eastern)
- SE = Southeastern
- NE = Northeast
- RT = Research Triangle
- P = Piedmont Triad

Column 7: "County Rank/Wage"

- T1-T5 = Tiers 1-5
- "No" = County not considered economically distressed (Tier 4 or 5)
- "Yes" = County is considered economically distressed (Tier 1, 2, or 3)
- DZ = Development Zone
- $XXX = number represents the weekly wage figure needed to meet the "wage test"

Column 8: "Company Wages"

- Represents the weekly wages paid by the company.

Column 9: "Use"

- 1 = Installation or purchase of new equipment.
- 2 = Structural repairs, improvements or renovation of existing buildings to be used for expansion.
- 3 = construction of or improvement to new or existing water, sewer, gas or electric utility distribution lines or equipment for existing buildings and/or new buildings.

Column 10: "New/Exp."

- Exp. = Expansion

GUIDELINES AND PROCEDURES

FOR COMMITMENT OF FUNDS FROM

THE ONE NORTH CAROLINA FUND

1.0 GENERAL ADMINISTRATION

1.1 Authority

The guidelines, criteria and procedures set forth herein are established pursuant to N.C. Sess. Laws 2001-424, Section 20.3 ("the Act") ("The Governor shall adopt guidelines and procedures for the commitment of moneys from the [Industrial Recruitment Competitive] Fund.").

1.2 Popular Name

The Fund formally designated in the Act as the "Industrial Recruitment Competitive Fund" will be known publicly and referred to for clarity and ease of reference as the "One North Carolina Fund."

All references in these guidelines, criteria and procedures to the "One North Carolina Fund" are intended to be references to the "Industrial Recruitment Competitive Fund."

1.3 Scope and Purpose of Guidelines

These guidelines, criteria and procedures apply to funds appropriated or otherwise deposited, granted or allocated to the Industrial Recruitment Competitive Fund.

They are designed to provide internal direction and guidance to state officials responsible for administering the Fund and negotiating the financial terms and arrangements under which moneys may be allocated from it.

1.4 Amendments

The Governor, in his discretion, may change these guidelines, criteria and procedures from time to time as the size and nature of the fund or the economic circumstances and condition of the State may warrant.

1.5 Administration

The Secretary of Commerce administers the One North Carolina Fund on behalf of the Governor. Administrative support for the Fund will be provided by the Commerce Finance Center ("CFC") or any successor division performing a comparable function.

2.0 FUND MISSION AND GUIDING PRINCIPLES

2.1 Purpose of Fund

The State of North Carolina seeks to grow economically, to achieve uniformly regional prosperity throughout the state, and to differentiate itself in economic development by recruiting and expanding quality jobs in high value-added, knowledge-driven industries. The Industrial Recruitment Competitive Fund (One North Carolina Fund) plays a key role in that effort.

Pursuant to the terms of the Act, the One North Carolina Fund shall be used to "provide financial assistance to those businesses or industries deemed by the Governor to be vital to a healthy and growing State economy and that are making significant efforts to establish or expand in North Carolina."

"Moneys allocated from the Fund shall be used for the following purposes:

(1) Installation or purchase of equipment;

(2) Structural repairs, improvements, or renovations of existing buildings to be used for expansion; and

(3) Construction of or improvements to new or existing water, sewer, gas or electric utility distribution lines, or equipment for existing buildings.

"Moneys may also be used for construction of or improvements to new or existing water, sewer, gas or electric utility distribution lines, or equipment to serve new or proposed industrial buildings used for manufacturing and industrial operations."

The Fund currently consists of nonrecurring appropriations made by the General Assembly and intended to be immediately available to the Governor for use on an "as needed" basis. It is intended to provide the State of North Carolina with a flexible and discretionary tool that can be used in situations in which North Carolina must respond quickly to enable job creation and growth and expansion of economic infrastructure with its borders. It is intended to enable the state to respond quickly and effectively to the dynamic forces of the state's economy and to the competitive nature of industrial recruitment and retention among the various states.

In performing this function, the Fund seeks to encourage and attract sustainable investments and new jobs to North Carolina communities, to stimulate state and local economies, and to provide resources to enable North Carolina communities to improve their economic development infrastructure, expand their tax base, and improve their general economic health and welfare.

Moneys allocated from this Fund are the result of negotiation and agreement between state and local governments and private businesses or industries. These guidelines and criteria are intended to provide direction to those responsible for administering the fund in negotiating the financial arrangements under which moneys will be disbursed.

2.2 Recipients of Moneys Allocated from Fund

Moneys from the One North Carolina Fund will be allocated to local units of government for use in connection with efforts to secure commitments from and to enable businesses and industries to undertake new expansion or locate new operations in the state.

2.3 Entities in Default Barred From Receiving Funds

Pursuant to the specific terms of N.C. Gen. Stat. Section 143B-431.2, the Department of Commerce may not make a loan nor award a grant to any individual, organization, or governmental unit that is currently in default on any loan or grant previously made by the Department.

2.4 New and Existing Industry Projects to be Treated the Same

For purposes of allocating moneys from the Fund, projects involving businesses or industries with an existing presence in North Carolina that seek to expand operations or locate new operations in the state (existing businesses and industries) will be eligible for consideration and funding in the same manner and under the same criteria as projects involving businesses or industries with no existing presence in North Carolina (new businesses and industries).

2.5 Form of Financial Assistance Provided From Fund

Financial assistance provided by the One North Carolina Fund will take the form of negotiated challenge grants, reflecting the long-standing practice of the Fund and the general needs of the economic development community.

The Governor and the Secretary of Commerce reserve the right to structure other forms of financial assistance from the fund in the future should circumstances and conditions warrant them.

2.6 Local Government Match Requirement

Moneys will be allocated from the One North Carolina Fund to those local units of government that match the grants allocated to them. Local governments will be required to document their match. A local government's match must equal the value of the grant from the Fund and may take a variety of different forms, including

1. Cash,
2. Fee waivers,
3. In-kind services,
4. Donation of land, buildings or other assets,
5. Provision of infrastructure.

A combination of the preceding different forms may be used to achieve a local match.

Local funds used to match other non-CFC sources of funding may also be used to match funds from the One North Carolina Fund. Funds used to match other programs of the Commerce Finance Center, however, may not be used to match grants from the One North Carolina Fund.

Guidelines for the local match requirement may be set out in more detail in the Local Government Application.

2.7 Provisions to Ensure Performance and Recapture Funds

It is the intent of this program to ensure accountability for funds disbursed under it. To that end, local units of government and businesses or industries associated with the program are to allow the State of North Carolina and the Department of Commerce, or its agents, access to all records necessary to confirm compliance with program guidelines and with terms of agreements negotiated and executed under them. Such agreements are to include provisions adequate to protect the state's interests in the funds and to require return of funds in cases of failure to comply with performance standards agreed to between the parties.

2.8 Relationship of Funding to Environmental Obligations

The fact that the Department of Commerce may approve or endorse funding for an application for a particular project has no bearing on and in no way mitigates the obligation of the business or industry associated with that project to comply with existing state environmental statutes and regulations.

Release of grant funds is contingent on the company receiving all of its required environmental permits.

2.9 Overdue Tax Debts

Companies with overdue tax debts to the State of North Carolina, as defined in N.C.G.S. 105-243.1, are not eligible for grants until the debts are paid.

3.0 PROCEDURE FOR COMMITMENT, AWARD AND DISBURSEMENT OF FUNDS

3.1 Assignment of Business & Industry Division Personnel

Projects appropriate for funding may be brought to the attention of the Governor and the Department of Commerce in a variety of different ways. As a general rule, when a project is first identified, it will be assigned to an economic developer with the Department's Business & Industry Division. That person will typically be responsible for coordinating negotiations and ensuring that the various steps in the application process are followed by the parties involved.

3.2 Step One: Pre-Application Form

At the time a project has been identified as one for which funding may be appropriate, a pre-application form may be filled out. This form will solicit a variety of different types of information regarding the project. It is designed to assist the Secretary in making a preliminary determination as to whether a portion of the Fund should be reserved for the project in question.

The ability of the Secretary of reserve funds under such circumstances is essential for proper administration and management of the Fund.

Approval of an amount and reservation of funds at this stage does not represent a binding commitment to grant funds. Evaluation of the project and negotiation of terms under which grants may be issued may continue after the initial approval and reservation are made.

Should it be determined that a project will not proceed to the formal application stage, the reserved funds for that project will become generally available for allocation to other projects.

3.3 Step Two: Formal Application

Local units of government seeking moneys from the One North Carolina Fund are required to submit a formal application to the Commerce Finance Center. The application will consist of a cover sheet and three primary components: a local government application, a company application, and a Department of Commerce Developer Form. The application is designed to aid the Secretary of Commerce in making an assessment of whether a project involves a business or industry vital to a healthy and growing State economy, whether the business or industry intends to undertake a significant effort to establish or expand in North Carolina. whether the project is one for which a grant would be necessary to enhance the competitiveness of North Carolina's business and industrial recruitment and retention efforts and needed to enable the project to go forward in the state, and whether the project is consistent with Fund guidelines. It is designed to aid in the evaluation and negotiation of financial arrangements under which moneys from the Fund may be allocated.

The local government application will solicit information regarding the project from the local unit of government. It will solicit, among other things, information necessary to confirm the local match and information concerning incentives offered by other states competing for the project.

The business or industry associated with the project will provide a Company Application to be submitted to the Department of Commerce as part of the formal application. The Company Application will seek detailed information relating to the project, including, among other things: investment amounts, timing and numbers of new full time jobs to be created, average wages for all full time jobs at the facility, health insurance to be provided, the financial condition of the business or industry associated with the project, and other states competing for the project and incentives offered.

The economic developer with the Department's Business & Industry Division who is responsible for monitoring the project should also submit a DOC Developer Form and Cover Sheet. These portions of the application provide information regarding the progress of the application, as well as any information the developer possesses regarding the impact of the project, local government involvement, and other states or countries competing for the project and any incentives they may have offered.

The forms that make up the application are to be submitted to the Department of Commerce at least 30 days prior to the date by which a decision on the grant request is needed. A full and complete application, including all necessary

supporting documentation, must be submitted and approved prior to a formal project announcement.

Applications not submitted in the proper timeframe and applications not properly completed may be denied for that reason by the Department of Commerce. The Department of Commerce reserves the right to reject any application associated with a project that issues a formal announcement prior to the date on which a final decision is made concerning the award of moneys from the One North Carolina Fund.

3.4 Step Three: Governor's Letter

If the application received from the local government is approved, a letter will be prepared for the Governor's signature announcing that the local government is eligible for an award of a specified dollar amount. The award of any grant funds, however, will be contingent upon the local unit of government and the business or industry entering into a satisfactory, negotiated Company Performance Agreement, the local unit of government entering into a satisfactory Local Government Grant Agreement with the Department of Commerce, and the ultimate performance of the business or industry under the terms of these agreements. Disbursement of any funds to the local government will be in increments over time and contingent upon submission of proper documentation of the necessary performance.

In the Governor's absence and at the direction of his Office, the Secretary of Commerce may prepare and send the letter in question.

3.5 Step Four: Execution of Appropriate Contracts

The local unit of government and the business or industry must enter into a satisfactory, negotiated Company Performance Agreement that includes the performance criteria necessary for funds to be released. The local unit of government must also enter into a satisfactory Local Government Grant Agreement with the Department of Commerce.

3.6 Step Five: Submission of Proof of Performance

Funds should ordinarily be disbursed from the One North Carolina Fund in 25% increments based on incremental progress toward the specified performance criteria. For the funds to be disbursed, the local unit of government must submit proof to the Commerce Finance Center that the performance criteria for a particular installment of funds have been met, including documentation that the required jobs have been created. The local unit of government must also provide a statement from any entity that will receive and apply the funds verifying the uses to which the funds will be put and attesting that those uses are consistent with those purposes for which funds may be granted under these

Guidelines and the Act. If the appropriate performance criteria have been met, a check will be issued for the installment.

3.7 Step Six: Confirmation of Receipt, Deposit and Disbursement

When funds are actually applied by the local government, the local government must then submit proof of receipt, deposit, and proper disbursement of the funds.

3.8 Procedures to be Applied Consistently

The general procedure outlined in these Guidelines is intended to be applied consistently to all projects. Significant deviations in procedure should occur only when, in the exercise of discretion and considering the particular and unusual circumstances, it is concluded that the best interests of the State and the purposes of the Fund will be advanced. Such deviations should be noted when they occur.

4.0 INFORMATION REQUESTED FOR ALLOCATION DECISIONS

4.1 Information to be Collected

The information to collected in the process of application for grants from the One North Carolina Fund may include:

1. The weighted hourly average wage for the group of new full time jobs being created.
2. The weighted hourly average wage for the full time jobs at the entire facility.
3. Confirmation that any jobs used as a basis for computing the allocation of moneys from the Fund are in fact net new jobs to the business or industry's operations in the state and are not jobs or positions transferred from operations in one part of the state to another.
4. Timing of new jobs to be created.
5. Confirmation and details of health insurance provided for employees at the facility.
6. Nature of business activity associated with the project.
7. Types, amounts, and timing of the business or industry's financial investment in the project.
8. Details relating to job transfer and plant closings. If the business or industry has previously announced the closing of a facility that is still in operation at the time of the agreement, but scheduled to close in the near future, details regarding how the facility and expansion are related must be provided.

9. Information necessary to assess the economic strength, capacity and sustainability of the business or industry associated with the project.
10. Information relating to the environmental record and practices of the business or industry associated with the project.
11. Information regarding local incentives offered.
12. Information regarding incentives offered by any other states or countries competing for the project.
13. Additional information needed to evaluate the criteria for allocating funds to particular projects set out in Section 6.0.
14. Such other information as the Governor and/or the Secretary may deem necessary.

4.2 Ability to Request Additional Information

The Governor or the Secretary may require additional information to be provided from a local unit of government or from a business or industry beyond that which may be contained in the application forms.

4.3 Failure to Provide Information

Failure to provide information requested, as well as failure to provide requested information in sufficient detail, may serve as grounds for rejecting an application.

5.0 ALLOCATION DECISIONS

5.1 Review Procedure

The Department of Commerce will review a formal application and make a recommendation on funding to the Governor. The review in question will be conducted by the Secretary of Commerce, who may draw upon the expertise and assistance of the Assistant Secretary of Economic Development, the Director of the Commerce Finance Center and the Assistant Secretary of Administration. The Secretary may also consult such other members of his staff as he deems necessary to develop recommendations. The Secretary will make his recommendation to the Governor who renders the final decision on allocation prior to sending the Governor's Letter.

6.0 CRITERIA FOR ALLOCATING FUNDS TO PROJECTS

6.1 Threshold Statutory Criteria For Awarding Funds

Moneys from the Fund shall be awarded to local governments for those economic development projects that involve businesses or industries deemed by the Governor to be vital to a healthy and growing State economy and that agree to make a significant effort to establish or expand in North Carolina.

Consistent with the Fund's statutory name, moneys from the Fund shall be used in connection with projects for which participation by the state government is needed for the project to go forward in the state and for which it is necessary to enhance the competitiveness of North Carolina's industrial recruitment and retention efforts. Projects eligible for moneys from the Fund may include those described under N.C. Gen. Stat. 105-129.4(e).

6.2 Wage Test and Health Benefits

For a project to be eligible for a grant from the Fund, wages for the project should meet the wage test set out in the William S. Lee Act (or any successor program performing a similar function) at the time of application and should provide the level of health insurance benefits required for the William S. Lee Act (or any successor program performing a similar function) at the time of application.

The projected wages and health insurance for the project should meet the appropriate wage and health insurance standard at the time of application, and the actual jobs should meet that wage and health insurance standard when finally created.

Exceptions to this criterion may be approved only by the Governor and only in exceptional cases involving factors such as an unusually strong benefits package, unusually severe economic hardship, and/or unusual circumstances of local or regional distress.

6.3 Net New Jobs

For a project to be eligible to receive and retain a grant from the Fund, the new jobs used as the basis for this application should be net new positions to the company's operations in the state and not jobs transferred from any existing North Carolina operations of the company or a related entity.

6.4 Factors to be Considered in Allocation and Award Decisions

In exercising the discretion required to negotiate, award and allocate grants from the One North Carolina Fund, the following criteria may be considered:

1. Economic Impact of Project

In evaluating a project under this criterion, the following factors are among those that may be considered:

a. Impact on gross regional product and gross state product.
b. Costs and benefits of the project to the state, including the expected return on investment made in the project by the state.
c. Number of direct jobs that will be created by the project, the wages of those jobs, and the total payroll for the project.
d. Number of induced, short-term, project-related jobs expected to be generated by the project as well as the number of long-term permanent jobs expected to be created indirectly in the economy as a result of the project.
e. Dollar value of the investment, including the size of investment in real versus personal property and expected depreciation rates.
f. Economic circumstances of the county and region, including the extent to which the project will serve to mitigate unemployment.
g. To the extent not otherwise addressed in other factors, the expected time frame during which the project is expected to payback in state tax revenues the amount of any grants paid out under the One North Carolina Fund.
h. To the extent not otherwise addressed in other factors, the economic demands the project is expected to place upon the community or communities in which it will locate.
i. Whether the project is located in a development zone and the degree to which the project is likely to draw employees from a development zone.

Projects in which total benefits provided through the Commerce Finance Center exceed $1,000,000 should be accompanied by a completed economic impact analysis.

2. Strategic Importance of the Project to the State, Region or Locality

In evaluating a project under this criterion, the following factors are among those that may be considered:

a. Nature of business activity associated with the project.
b. Extent to which the project builds or enhances a business or industrial cluster.
c. Extent to which project falls within a classification of business and industry that the Department of Commerce regards as a target for growth and expansion in the state.
d. Ability of the project to attract follow-on investment in the state by suppliers and vendors.
e. Extent to which the project serves to maintain and grow jobs in the state in a business undergoing an internal restructuring or "rationalization" process.
f. Extent to which the project mitigates unemployment in distressed areas.
g. Extent to which the project can be expected to contribute significantly to and support the local community.
h. Degree to which project can be identified as at risk of being developed or located in another state and degree to which use of moneys from the Fund plays a role in any final decision to develop or locate the project in North Carolina.

3. Quality of Jobs

In evaluating a project under this criterion, the following factors are among those that may be considered:

a. Wage level and status of the jobs to be created.
b. Quality and value of benefits offered by the company (e.g., child care benefits, health and dental benefits, 401(k) plans, defined benefit plans, etc.)
c. Potential for employee advancement.
d. The extent of training programs offered by the company.
e. Sustainability of the jobs in future.

4. Quality of Industry and Project

In evaluating a project under this criterion, the following factors are among those that may be considered:

a. Nature of the project and project's relationship to the larger business of the company.
b. Nature of the industrial classification of the project and of the company undertaking it.
c. Long-term prospects for growth at the project site or sites.
d. Long-term prospects for growth of company and industry within the United States.

e. Financial stability of company associated with the project.

5. Environmental Impact of Project

In evaluating a project under this criterion, the following factors are among those that may be considered:

a. Nature of business to be conducted at site.
b. Ability of project to satisfy state, federal and local environmental laws and regulations.

Special consideration may be given to companies that locate or expand in rural areas or areas that have experienced sudden and severe economic disruptions, projects that will create an unusually large number of jobs, companies that have agreed to negotiate special hiring arrangements for lower income persons in connection with a project; projects that bring an exceptional new technology to the state, and projects involving company a that is a recognized national or international leader in its industry.

A Bergman Evaluation System Form should be completed for each project. It should be included with materials to be considered when making a recommendation and considered as part of a final decision to award funds.

7.0 TERMS TO BE INCLUDED IN CONTRACTUAL ARRANGEMENTS

7.1 Company Performance Agreement

The basic form of the Company Performance Agreement between a local unit of government and a business or industry associated with a particular project will be prescribed by the Department of Commerce and will include, among other terms, the following:

1. A commitment to create the agreed-upon level of jobs and any required investment at the agreed-upon location in North Carolina within the specified time period.
2. The conditions with which the business or industry must comply to receive the benefits of grants made to local units of government under the Fund.
3. The terms under which a business or industry will be deemed to have met or failed to meet the terms of a commitment.

4. The procedure by which any previously disbursed funds may be recaptured by the unit of local government or the State under circumstances in which the business or industry has ultimately failed to meet its commitments.
5. The number of jobs that must be sustained beyond the initial period of time in which they must be created and the lengths of time those jobs must be sustained to avoid an obligation to reimburse the Fund.
6. An obligation to provide proof of new jobs created and new investment made.
7. A right on the part of the State or local unit of government to inspect all records that may be used to confirm compliance with terms of any agreements.
8. An acknowledgement that participation by the State is necessary to enable the project to go forward in North Carolina.
9. An agreement that the funds received may be used only to offset statutorily authorized expenses.

Ordinarily, a business or industry that creates jobs or makes investments as part of this program must do so within a three year period and maintain at least 90% of the jobs for a period of two years following the time at which the grant is closed out by the Department.

7.2 Local Government Grant Agreement

The form of the Local Government Grant Agreement between the local unit of government and the Department of Commerce will be prescribed by the Department of Commerce and will include, among other terms, the following:

1. An agreement to comply with the terms of the local unit of government's application.
2. An agreement to take all steps necessary to ensure and establish to the Department that required levels of jobs and investments are made and that no grant funds are further disbursed by the local unit of government until necessary performance criteria have been met.
3. An agreement to recapture all disbursed funds to which the local unit of government has the right to be reimbursed.
4. An agreement to otherwise reimburse the Department for any funds improperly disbursed.
5. An agreement to permit the Department to offset other state funds due to the local governments to recover any funds improperly disbursed and not reimbursed.
6. An agreement to permit the Department access to all records necessary to evaluate compliance with the program guidelines and all agreements executed under them.

8.0 DISBURSEMENT OF FUNDS

8.1 Quarterly Dispersal

Ordinarily, local units of government that receive grants from the One North Carolina Fund will receive those funds over a period of three years following the date of the Governor's Letter in four increments as each quarter (25%) of the total number of required new jobs for which funds were allocated are created.

Deviations in this schedule should occur only when, in the exercise of discretion and considering the particular and unusual circumstances, it is concluded that the best interests of the State and the purposes of the Fund will be advanced. Any such deviation should be reflected in the necessary agreements.

8.2 Proof of Required Job Creation

Before funds are disbursed, the Department of Commerce must be provided with proof that the required jobs have been created.

This proof should take two forms.

First, the business or industry must attest that the jobs created are net new positions for the company's operations in the state and are not jobs transferred from any existing North Carolina operations of the company.

Second, the business or industry must provide documentary proof that it has experienced a net increase in jobs.

8.3 Forms of Documentary Proof

For funding to be released for projects involving a business or industry with a *single facility* in North Carolina, a copy of that business or industry's Employer's Quarterly Tax and Wage Report (Form NCUI 101 filed with the N.C. Employment Security Commission) must be submitted to the Department of Commerce. If this form is discontinued or modified, a successor form performing a comparable function must be submitted.

For funding to be released for projects involving a business or industry with *multiple facilities* in North Carolina, a copy of that business or industry's Multiple Worksite Report (Form BLS 3020 filed with the N.C. Employment Security Commission) must be submitted to the Department of Commerce. If this form is discontinued or modified, a successor form performing a comparable function must be submitted.

Where funding is provided for a project involving a business or industry that is *expanding* existing North Carolina operations, a copy of the business or industry's most recent relevant report to the N.C. Employment Security Commission *prior to the expansion* must be submitted to the Department of Commerce, in addition the quarterly reports required thereafter.

The Department of Commerce may request further proof of performance in a particular case when, in the exercise of its judgment, such proof is needed to confirm performance.

8.4 Proof of Required Job Creation to Precede Disbursement by Department

The preceding documentation must be received before each installment of funding will be disbursed to the local unit of government.

8.5 Local Government's Responsibilities in Disbursement

The local unit of government is responsible for any further disbursement of the funds, in a timely fashion and consistent with the Local Government Budget and Fiscal Control Act. The unit of government must account to the Department of Commerce for its receipt, deposit and disbursement of the funds in question.

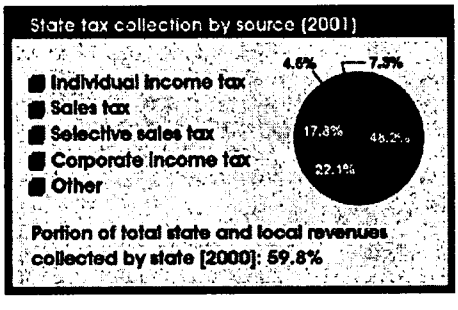
NC State Sales Tax: History, Exemptions, and Issues

Linda Struyk Millsaps
Fiscal Research
March 25, 2003

State Sales Tax

- Outlined in G.S. 105-164
- Purpose of the Tax:
  - "... provide revenue for the support of the public school system of this State and for other necessary uses and purposes of the government and State of North Carolina." G.S. 105-164.2
  - "generate revenue for the state ... a tax imposed upon the retail merchant as a privilege tax for the right to engage in that business ... designed to be passed on to the consumer ... equalize the tax burden on all State residents" In re Assessment of Additional N.C. & Orange County Use Taxes (1985)
  - Generally levied on the sale of tangible personal property.

Sales Tax as Revenue Source



Sales Taxes and Other States

- Levied in 46 states (45 at state level, one at local only).
- 30 states allow local option sales tax.
- Combined rates vary from a high of 9.75% to 4.0%.
- 27 states exempt food.
- All but Illinois exempt prescription drugs.

State Sales Tax Rates

- 4.5% - General Rate, when in effect, local tax applies.
- 2%, $300 cap – Manufactured Homes.
- 3%, $1,500 cap – Aircraft, boats, railway cars, or locomotives; mobile classroom or office.
- 1% - Horses, mules, animal semen, sales to freezer locker plants, and fuel (other than electricity) sold to farmers, manufacturers, laundries, and dry cleaners.
- 1%, $80 cap – Farm machinery, mill machinery, telephone company property, other machinery and equipment.

State Sales Tax Rates

- 2.83% - Electricity sold to farmers, dry cleaners, and manufacturers that use 900,000 megawatt hours or less a year.
- 0.17% - Electricity sold to manufacturers that use over 900,000 megawatt hours per year.
- 3% - Electricity not taxed at a lower rate.
- 6% - Telecommunications and liquor.
- 5% - Satellite television.

History

1933
Sales tax created.
- Certain staples were exempted as they were deemed essential articles of food.

Manny special rates included for farmers and manufacturers.

Gross receipts tax levied at 3% on amusements.

1935
Food tax exemption repealed.

1937
Food exemption reinstated and expanded.

1939
Use tax created.

History

1957
Extensive rewrite of the sales tax laws including:
- Exemptions for school food, sales by blind merchants, newspapers, vending, some advertising, some machinery sales not already exempt, eyeglasses, and false teeth.

1961
- Exemption for food eliminated.
- Several refunds were authorized including those for non-profit hospitals, educational institutions, and churches.
- Printed advertising became taxable.

History

1971
- 1% local tax authorized, made the combined rate 4%.

1983
- Additional ½ cent local authorized, combined rate to 4.5%. Some revenue earmarked.

1986
- Additional ½ cent local authorized, combined rate to 5%.

1991
- State sales tax increased 1%, combined rate at 6%.

1996
- State begins eliminate of the tax on food, 1% a year.

History

1998
- Eliminate the remaining 2% on food.
- Refunds granted to public schools.
- Create a new excise tax for piped gas, eliminate other taxes.

2000
- NC begins participation in the Streamlined Sales Tax Project.

2001
- State sales tax increases ½%, combined rate 6.5%. Local sales tax swap authorized.

2002
- Sales tax "swap" accelerated, combined rate 7.0% until 7/2003.

Issue: Services

- North Carolina levies a sales tax on three services:
  1. *Dry cleaning – Revenue goes to specific fund for clean-up.*
  2. *6% Gross receipts tax on all telecommunication services.*
  3. *Temporary lodging.*
- 11 states do not tax any services.
- 3 states tax almost all services.
- 1986 Florida enacted sweeping sales tax on services. Repealed within a year.
- Currently several states exploring imposing tax on services.
- Recommended by Governor's Commission to Modernize State Finances.

Issue: Internet and Catalog Sales

- Becoming one of the "hot" issues in taxation policy.
- Studies based on work at Univ. of Tennessee suggest $200-$300 million of state revenue loss.
- NCACC estimates local loss of $148 million in 2003.
- Recently several major remote retailers have voluntarily begun to collect sales tax for North Carolina.

•Streamlined Sales Tax Project designed to address this area of state and local revenue loss.

States' Sales Tax Treatment of Services

North Carolina only has three taxes on services: 1) sales tax on the gross receipts from services rendered by any business in the industry of dry cleaning, pressing, or hat-blocking; 2) a uniform tax rate of 6% on gross receipts from all telecommunications services; and 3) temporary lodging, with local government authority. Rentals of tangible personal property (i.e. formal ware and videos) are considered a sale in North Carolina, therefore taxable.

Total number of states where services are not taxed - 11

Possible options for taxation on services from other states, broken down by category:

Repairs

- Installing or repairing tangible personal property (11 states: KS, LA, NJ, NY, OH, PA, TN, TX, UT, WI, WY)

- Campgrounds (2 states: IA, SD)
- Subscriber radio and television services (2 states: KS, MS)
- Professional sporting events (2 states: WA, WI)
- Rental of video tapes and video equipment (2 states: ME, **NC**)
- Dance schools and studios (1 state: IA)
- Film developing (1 state: MS)
- Internet access service (1 state: TX)

General Professional Services

- Laundry, cleaning, pressing and dyeing services (16 states: IA, KS, LA, MD, MI, MN, MS, **NC**, NY, OH, PA, SC, SD, TN, UT, WI)
- Hotel, other overnight stay rental accommodations (11 states: LA, ME, **NC?**, SC, TN, SD, UT, VA, WA, WI, WY)
- Paging and telephone answering (8 states: AR, CN, IA, KS, MD, MS, TX, WI)
- Computer and data processing, stenographic services, secretarial services (6 states: CN, ME, MS, OH, PA, TX)
- Printing services (6 states: LA, NY, OH, PA, SD, WI)
- Lease or rental of tangible personal property (6 states: CN, IA, KS, **NC**, NY, SD)
- Employment agencies (4 states: CN, IA, OH, PA)
- Fabrication services (4 states: ME, MD, OH, WI)
- Business analysis, management consulting, public relations, and lobbying (3 states: CN, PA, SD)
- Engineering (3 states: NY, SD, WI)
- Advertising agency (2 states: CN, DE)
- Real estate broker (2 states: DE, SD)
- Taxidermy services (2 states: IA, WI)
- Collection agencies (2 states: DE, SD)
- Hospital charges for patient care services (1 state: CN)
- Auctioneer, commercial leaser, broker (1 state: DE)
- Test laboratories (1 state: IA)
- Service charges of all financial institutions (1 state: IA)
- Funeral services and crematories, with a cap of $1500 (1 state: SD)
- Appraiser services (1 state: SD)
- Accounting (1 state: SD)
- Legal services (1 state: SD)

Labor Services

- Lawn care and landscaping services (10 states: AR, CN, IA, MN, MS, OH, PA, SD, WA, WI)
- Cleaning of a commercial or industrial building (10 states: AR, CN, IA, MD, MN, OH, PA, SD, UT, WA)
- Parking lot or garage operators (8 states: DE, IA, MS, NY, OK, TN, WA, WI)
- Extermination services (7 states: CN, FL, IA, MN, MS, PA, SD)
- Distribution, generation or transmission of electricity is considered tangible personal property subject to tax (6 states: CN, ME, MS, SC, SD, WY)
- Construction, welding, well-drilling, tin and sheet metal repair (4 states: IA, MS, SD, WA)
- Transportation for the transmission, distribution, or delivery of electricity or natural gas (4 states: MD, MS, SD, WY)

- Storage of household goods, mini-storage (3 states: IA, MS, PA)
- Plumbing services (2 states: IA, MS)
- Moving services (2 states: DE, IA)
- Wrecking services, towing (2 states: IA, WA)
- Locksmith services (1 state: CN)
- Window cleaning services (1 state: CN)
- Water conditioning and softening (1 state: IA)
- Electrical services (1 state: MS)
- Cold storage space (1 state: LA)

Luxury Services

- Pet grooming and boarding (5 states: IA, MN, SD, TN, WI)
- Health spas, fitness clubs (4 states: AR, MN, OH, WA)
- Massage salons (except services provided by licensed massage therapists) (3 states: CN, IA, MN)
- Photographer (3 states: DE, SD, WI)
- Indoor tanning (3 states: AR, IA, WA)
- Swimming pool cleaning and servicing (3 states: AR, CN, IA)
- Dating and escort services (2 states: IA, WA)
- Storing personal property in and renting safe deposit boxes (2 states: NJ, NY)
- Barber and beauty services (2 states: IA, SD)
- Painting, interior decorating (2 states: IA, NY)
- Investment counseling (1 state: IA)
- Rental of furniture (1 state: ME)

General

- Performance of services for consideration in the state are taxed (1 state: NM)
- All services except professional or personal services and those furnished by corporations subject to the Public Service commission (1 state: WV)
- Sales and use tax apply to any services that are a part of a sale (1 state: KY)

Those items taxed by more than five (5) states:

Repairs

- Installing or repairing tangible personal property (11 states: KS, LA, NJ, NY, OH, PA, TN, TX, UT, WI, WY)
- Alteration / repairs / services on motor vehicles (including cars, aircraft, farm machinery, boats, machinery, bicycles) (8 states: AR, CN, IA, MN, MS, OH, PA, SD)
- Alterations / repairs on shoes, clothing (5 states: AR, IA, MS, NY, SD)

Transportation

- Transportation services (5 states: GA, HI, ID, MO, WY)
- Transportation / delivery of money, armored car services (5 states: AR, CN, IA, MD, MN)

Security

- Security businesses, burglar protection (7 states: DE, FL, IA, MD, MS, OH, TX)
- Private investigation, detective services (5 states: CN, FL, MN, NY, OH)

Communications

- Telecommunications services; some cellular services (12 states: LA, ME, MD, **NC**, NY, SC, SD, TN, TX, VT, WI, WY)

Recreation

- Admissions to amusements; 1% or 3% gross receipts tax may apply (6 states: LA, SD, TX, UT, VT, WI)
- Cable television services (5 states: ME, MS, SD, TX, WI)

General Professional Services

- Laundry, cleaning, pressing and dyeing services (16 states: IA, KS, LA, MD, MI, MN, MS, **NC**, NY, OH, PA, SC, SD, TN, UT, WI)
- Hotel, other overnight stay rental accommodations (11 states: LA, ME, **NC?**, SC, TN, SD, UT, VA, WA, WI, WY)
- Paging and telephone answering (8 states: AR, CN, IA, KS, MD, MS, TX, WI)

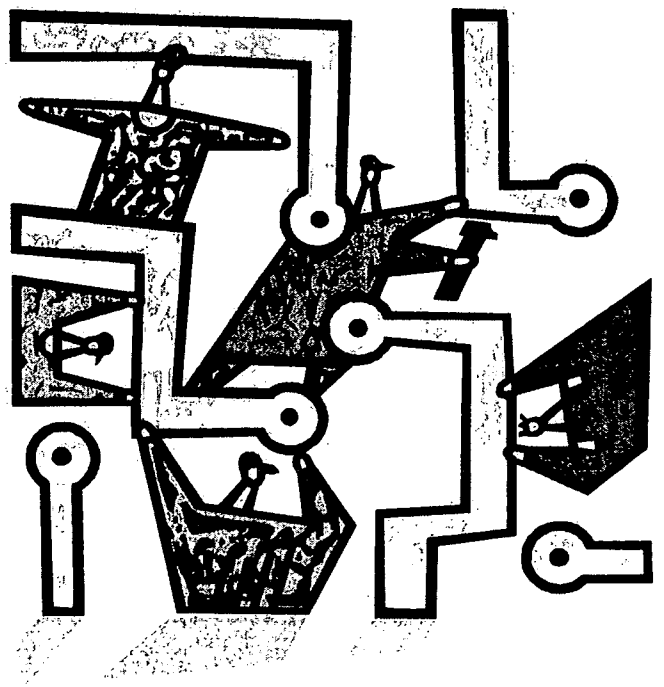
164.14(h)	Machinery & equipment for firms in Tier 1 and 2 counties	Refund	4%	0.1
164.14(i)	Nonprofit insurance companies - materials, supplies, fixtures, and computer equipment	Refund expires 1/1/2008	4%	1.2
Sales and Use Tax Total Impact				**Range = $1,107.3 to $1,316.8**
	INDIVIDUAL INCOME TAX			

Streamlined Sales Tax Project

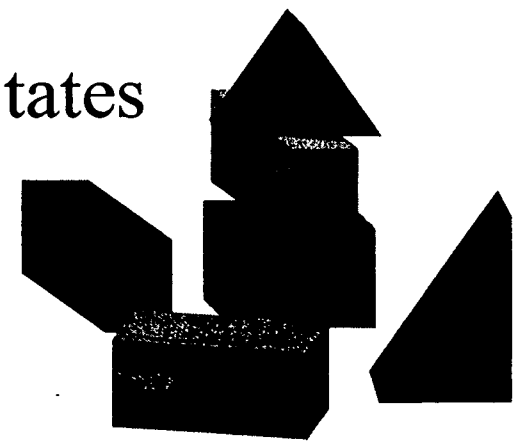
- Modernize & simplify sales and use tax laws
- Encourage sellers to voluntarily collect use tax
- Lead Congress to grant states the authority to require collection



ATTACHMENT 10

History of Use Tax Collection

- 1967: National Bellas Hess case
- 1992: Quill Corporation case
- 1998: Internet Tax Freedom Act
- 2000: SSTP organized
- 2000: Draft Act and Agreement
- 2001: Meeting of Implementing States
- 2002: Agreement Finalized
- 2003: Moratorium Expires



Principles of SSTP

- Uniformity in major tax base definitions
- Uniformity in State and local tax bases
- Simplification in State and local tax rates
- State level administration of taxes
- Protection of consumer privacy
- Central, electronic registration system
- Uniform sourcing rules
- Simplified administration of exemptions
- Simplified tax returns
- Simplification of tax remittances
- Preservation of individual state taxing authority

How will it work?

- Participation by vendors is voluntary
- Central, online registration system
- Limited amnesty provisions
- Methods of remittance
  - MODEL 1: Select a CSP to collect & remit tax
  - MODEL 2: Select a CAS to use to calculate tax
  - MODEL 3: Use own certified CAS

Requirements to Participate

- State level administration
- ***Common local tax base***
- Online registration system
- Notice of State tax changes
- Notice of local rate changes
- Develop address-based system for assigning taxing juris
- Relieve participating sellers from liability relying on CSP or CAS

Requirements to Participate

- ***No multiple State rates after 12/31/ 2005***
- One local rate
- Uniform sourcing rule
- Uniform telecommunications sourcing rule
- ***Uniform definitions***
- Uniform tax returns
- Uniform rules for remittances of funds
- Uniform rules for recovery of bad debts
- ***No caps or thresholds after 12/31/2005***
- Direct pay certificates

2003 Required Changes

- Uniform local tax base: Food must either be subject to the tax or exempt
- Modifications to the taxation of candy, soft drinks, and prepared food
- Change due date on a monthly return
- Amnesty for a seller who voluntarily registers to collect tax for period prior to registration

2003 Required Changes

- 120-day notification of local tax changes
- Modifications to definitions
- Sales tax holiday exemptions need to be amended before the August 2004 holiday

Effective Date of Agreement

- Minimum number of states = 10
- Percent of the "sales tax" population = 20%
- 7 states enacted legislation
- 20 states have pending legislation

House Committee on Finance

Minutes

~

March 26, 2003

The House Committee on Finance met on Wednesday, March 26, 2003 at 8:30am in Room 544 of the Legislative Office Building. The following members were present: Chairpersons G. Allen, Howard, Luebke, Miner, and Wainwright; Vice-Chairs Alexander, Decker, Gibson, and Hill; and Representatives Blackwood, Bordsen, Capps, Carney, Hackney, Holliman, Jones, Lewis, McCombs, McGee, Munford, Rayfield, Ross, Setzer, Weiss, and Womble. Also present were Sergeant-at-Arms staff Bob Fowler, Bill Freeman, Dusty Rhodes, and Walter Spell. Staff persons present included Richard Bostic, Trina Griffin, and Martha Walston. The Agenda and Visitor Registration Sheet are attached and incorporated into these minutes as attachments 1 and 2.

Presiding Chairman Julia Howard called the meeting to order at 8:30 am and then introduced Pages Phillip Ingram and Johnathan Stowe, both from Forsyth County, sponsored by Representative Earline Parmon.

As the first order of business, Chairman Howard recognized Rep. George Holmes to explain **HB 326: Jonesville Annexation** (see attachment 3). This bill involved the voluntary annexation of property located just outside the corporate limits of Jonesville. All parties involved have consented to this action per the expiration of a 10-year agreement amongst those parties. Jonesville seeks this annexation in an effort to begin to collect taxes for city services from the property owned by the Phillips-Van Heusen Corporation. Having no discussion, the Chairwoman Howard recognized Representative Holliman who then moved for a favorable report. The motion carried with no known dissention.

Chairwoman Howard then moved to the next matter on the agenda and recognized the State Treasurer, the Honorable Richard Moore for an informational presentation; however, the Chair was promptly informed that the Treasurer would not be present until approximately 8:45 am. The Chair then left the Committee members "at ease" for approximately ten (10) minutes until the Treasurer's arrival.

Following the short break, State Treasurer Richard Moore did arrive in the Committee Room. Chairwoman Howard then recalled the meeting to order and welcomed the Treasurer for his presentation. The Treasurer's presentation was focused on a one and one-half year project – a Debt Affordability Study, which is a comprehensive look at the debt status of the state. Overall, the presentation provided a "snapshot" of the state's debt/investment status and plans for the future (see attachments 4 & 5). Several pertinent facts provided in the presentation are provided below:

- ❖ Most of North Carolina's outstanding debt is at 4% interest or less.
- ❖ The Treasurer's Office has accumulated a savings of over $100 million in state revenues through refinancing efforts, more accountability on the issuance of debt, etc...
- ❖ The Treasurer has recommended that new legislation be put into place for the creation of two new committees: (1) a committee, composed of General Assembly members, formed to decide what are the best debt investments for the state; and (2) a committee composed of business and other professionals who can best pinpoint the critical financial issues of the state and present them before the General Assembly.

Following Treasurer Moore's presentation, the Chair recognized members for questions. Several questions arose as to the current status of the State Retirement System. In response to questions from Representatives Luebke and Weiss, Treasurer Moore stated that the retirement system is actuarially sound despite low returns from the market and weak state contributions to the plan. He also stated that, with the support of state employees on retirement committees, a 1% increase from the Legislature seems to be acceptable currently, so long as Legislators are prepared to repay the funds borrowed from the Retirement Fund and to strengthen future investments. He also noted that the Retirement Fund and the state's outstanding debts are separate financial matters.

Having no further questions, Chairwoman Howard thanked Treasurer Moore for his presentation and promptly adjourned the meeting at 9:45 a.m.

Respectfully submitted,

Representative Julia C. Howard
Presiding Chair

Jason A. Cannon
Assistant to Committee on Finance

GENERAL ASSEMBLY OF NORTH CAROLINA

SESSION 2003

H 1

HOUSE BILL 326*

Short Title:	Jonesville Annexation.	(Local)
Sponsors:	Representative Holmes.	
Referred to:	Finance.	

March 6, 2003

A BILL TO BE ENTITLED

AN ACT ADDING CERTAIN DESCRIBED PROPERTY TO THE CORPORATE LIMITS OF THE TOWN OF JONESVILLE.

The General Assembly of North Carolina enacts:

SECTION 1. The following described property is added to the corporate limits of the Town of Jonesville:

BEGINNING at a concrete monument located in the eastern right-of-way line of Interstate Highway 77, said concrete monument having North Carolina grid coordinates Y=908249.375 and X=1464613.800; thence, from said point and place of BEGINNING North 48° 54' 32" East 184.82 feet to a concrete monument; thence, North 21° 23' 24" East 321.90 feet to a concrete monument; thence, North 54° 34' 21" East 293.27 feet to a concrete monument; thence North 00° 39' 00" 171.55" to a concrete monument; thence, North 55° 50' 25" East 148.30 feet to a concrete monument; thence, North 83° 39' 53" East 94.81 feet to a point in the western line of a proposed 60-foot right-of-way; thence, crossing said proposed 60-foot right-of-way North 83° 39' 53" East 60.38 feet to a point located in the eastern line of said proposed right-of-way; thence, on a new line North 83° 39' 53" East 336.42 feet to a concrete monument; thence, South 85° 13' 43" East 334.44 feet to a concrete monument; thence, North 79° 08' 26" East 208.13 feet to a concrete monument; thence, South 05° 19' 10" West 143.00 feet to a point; thence, South 04° 46' 41" West 907.32 feet to a concrete monument; thence, South 04° 46' 41" West 195.75 feet to an iron pin; thence, South 04° 32' 35" West 892.20 feet to an iron pin; thence, South 68° 43' 39" West 769.81 feet to an iron pin; thence, North 55° 25' 55" West 155.98 feet to an iron pin; thence, North 73° 32' 19" East 160.44 feet to an iron pin; thence, North 36° 02' 14" West 182.55 feet to an iron pin; thence, North 16° 51' 10" West 155.88 feet to an iron pin; thence, South 41° 27' 04" West 86.59 feet to an iron pin; thence, North 24° 30' 31" West 204.34 feet to an iron pin; thence, North 01° 14' 31" East 223.49 feet to an iron pin; thence, North 31° 41' 43" West 253.16 feet to an iron pin; thence, South 78° 08' 29" West 78.52 feet to an iron pin; thence, North 16° 49' 27" West 171.70 feet to an iron pin; thence, South 83° 45' 41" West 119.10 feet to an iron

pin; thence, North 13° 30' 46" West 115.54 feet to a concrete monument; thence, South 78° 52' 11" West 20.65 feet to a concrete monument; thence, North 13° 34' 19" West 272.00 feet to a concrete monument; THE POINT AND PLACE OF BEGINNING, and containing 61.614 acres more or less as shown on the survey of the property for PHILLIPS-VAN HEUSEN CORPORATION prepared by Foothills Forestry and Surveying, dated November 18, 1992, and updated December 7, 1992, Job No. 92-2223, reference to which is hereby made for a more particular description.

SECTION 2. This act becomes effective June 30, 2003.

HOUSE BILL 326:
Jonesville Annexation

BILL ANALYSIS

Committee:	House Finance	**Sponsor:**	Rep. Holmes
Date:	March 26, 2003	**Analysis by:**	Martha Walston
Version:	1st Edition		Committee Counsel

SUMMARY: House Bill 326 authorizes the satellite annexation of certain described property to the corporate limits of the Town of Jonesville without the Town having to meet the statutory requirements of annexation. The act becomes effective June 30, 2003. SB 328 is a companion bill.

CURRENT LAW: G.S. 160A-58.1 governs the voluntary annexation by a city of noncontiguous property. All property owners in the satellite area may petition a city for voluntary annexation of the noncontiguous property if the property meets the following five standards in G.S. 160A-58.1(b):

1. The nearest point on the proposed satellite corporate limits must be not more than three miles from the primary corporate limits of the annexing city.
2. No point on the proposed satellite corporate limits may be closer to the primary corporate limits of another city than to the primary corporate limits of the annexing city.
3. The area must be so situated that the annexing city will be able to provide the same services within the proposed satellite corporate limits that it provides within its primary corporate limits.
4. If the area proposed for annexation, or any portion thereof, is a subdivision as defined in G.S. 160A-376, all of the subdivision must be included.
5. The area within the proposed satellite corporate limits, when added to the area within all other satellite corporate limits, may not exceed 10% of the area within the primary corporate limits of the annexing city.

BILL ANALYSIS: House bill 326 annexes 61.614 acres more or less to the corporate limits of the Town of Jonesville. This property is owned by Phillips-Van Heusen Corporation and contains a warehouse and distribution center. The property is located approximately 825 feet outside the city limits. According to the Town Manager of Jonesville, this property meets the above five statutory standards, except that Phillips-Van Heusen has not signed a petition to annex the property.

On May 3, 1993, Yadkin County, the Town of Jonesville, the Town of Arlington, and Phillips-Van Heusen entered into an Agreement for Economic Development Assistance.[1] Under the terms of this Agreement, Phillips-Van Heusen agreed to construct the warehouse and distribution center and to provide on average 125 positions for employment for 10 years. In

[1] The Towns of Jonesville and Arlington merged in 2001. (See S.L. 2001-16)

return, the Towns of Jonesville and Arlington agreed (1) that they would not involuntarily annex the property for a period of ten years from the date of the Agreement and (2) that they would not discuss a voluntary annexation with Phillips-Van Heusen for a period of eight years from the date of the Agreement. Other incentives provided to Phillips-Van Heusen were:

- Yadkin County and the Yadkin County Economic Development District agreed to finance a portion of the infrastructure and site improvements to the property.
- Jonesville agreed to finance the design and construction of water and sanitary sewer lines from Jonesville to the property.
- Jonesville agreed to provide free police and fire protection to the property.

The Town of Jonesville has requested annexation of the Phillips-Van Heusen property effective ten years from the date the Agreement was signed. Currently the company does not pay taxes on the property but continues to receive free fire and police protection. The Town pays $6,000 a year on funds it borrowed to furnish water and sewer to the property.

2003 COMMITTEE REPORT
HOUSE OF REPRESENTATIVES

The following report(s) from standing committee(s) is/are presented:
By Representatives **G. Allen, Howard, Luebke, McComas, Miner, and Wainwright** (Chairs) for the Committee on **FINANCE**.

☐ Committee Substitute for
H.B. 326 A BILL TO BE ENTITLED AN ACT ADDING CERTAIN DESCRIBED PROPERTY TO THE CORPORATE LIMITS OF THE TOWN OF JONESVILLE.

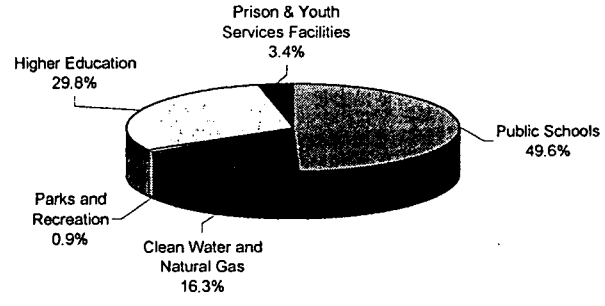
EXECUTIVE SUMMARY

The North Carolina Department of State Treasurer hereby presents the first State of North Carolina (the "State") Debt Affordability Study. This Study has been prepared for the purpose of creating a management tool available to the people of North Carolina and their representatives for analyzing and managing debt capacity. The Study contains an evaluation of the State's current and projected debt burden, using indicators such as tax-supported debt to personal income, debt per capita, debt service to tax revenue and rapidity of principal repayment ratios, and several recommendations based on the results of the Study.

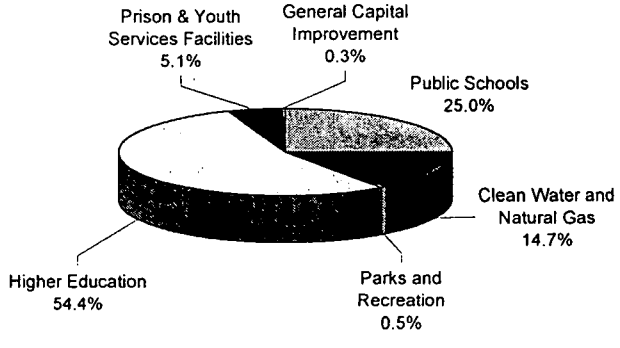
Currently, all of the State's debt ratios are below median levels both for all fifty states, as compiled by Moody's Investors Service, and for a peer group of eight states rated triple-AAA by all three credit rating agencies. Thus, North Carolina's debt is considered low and is manageable at the current level. Expected future debt issuances over the next four years total $3.3 billion, with $2.55 billion or 77% issued for Higher Education purposes. The chart below on the left depicts the State's outstanding debt by programmatic use while the chart on the right shows the breakdown of the State's outstanding debt plus expected issuances by programmatic use.

Figure 1

State of North Carolina Outstanding Debt by Program



State of North Carolina Debt by Program Outstanding plus Unissued Debt



Due to the projected issuance of $3.3 billion of tax-supported debt over the next 4 years, all the State's debt ratios are expected to increase over this period. The debt service to tax revenue ratio is projected to rise from 2.3% at the end of Fiscal Year 2002 to 3.8% at the end of Fiscal Year 2006 and the ratio of debt to personal income is projected to rise from 1.4% at the end of Fiscal Year 2002 to 2.2% by Fiscal Year 2006, while the debt per capita ratio is projected to rise from $395 to $641 by Fiscal Year 2006. Although the debt per capita ratio and the debt service ratio are projected to be slightly higher than national medians, debt to personal income is projected to be below the national median in Fiscal Year 2006. The State's debt ratios are also projected to be below the median level for the peer group of eight triple-AAA rated states.

Establishing guidelines for future debt issuance is a critical part of prudent debt management and can keep the debt burden from becoming excessive. The following guidelines for the State's debt ratios are recommended.

- For net tax-supported debt to personal income, a target level of 2.5% with a ceiling of 3.0% is recommended.
- For debt service to revenues, a target of 4.0% and a ceiling of 4.75% are recommended.
- For the ten-year payout ratio, a target of 55% and a floor of 50% are recommended.
- In addition, as the State rebuilds its reserve funds from their current levels, a target unreserved general fund balance of 8% is recommended, with a floor of 6%.
- The State should establish the upper limits of the debt to personal income level and the debt service ratio -- 3.0% and 4.75% respectively -- as levels that would be changed only in extraordinary circumstances.

Assuming a net tax-supported debt to personal income target of 2.5%, the State is projected to have an additional $745 million in debt capacity in Fiscal Year 2006. Assuming the debt service to revenues target of 4.0%, the State is projected to have an additional $350 million in debt capacity in Fiscal Year 2006. Although the debt to personal income ceiling of 3.0% suggests that $2.0 billion in debt capacity is available in Fiscal Year 2006, fiscal prudence suggests a more conservative debt capacity estimate of $1.35 billion based upon the debt service to revenues ceiling of 4.75%. If this entire capacity were to be utilized in Fiscal Year 2006, the debt service to revenues ratio would be 4.75% compared to 2.3% in Fiscal Year 2002, while the debt to personal income ratio would be 2.7% compared to 1.4% in Fiscal Year 2002. These projections are summarized in the table below.

Figure 2

	Current Ratio	Projected by the end of FY 2006	Projected Debt Ratio After Issuance of Additional $350 Million	Additional $745 Million	Additional $1.35 Billion	Additional $2.0 Billion
Debt to Personal Income	1.4%	2.2%	2.3%	2.5%*	2.7%	3.0%**
Debt Service to Revenues	2.3%	3.8%	4.0%*	4.3%	4.75%**	5.2%

* Suggested Target Ratio ** Suggested Ceiling Ratio

Our guidelines must strike the proper balance. Guidelines that are too low or restrictive do not provide enough debt capacity to finance needed infrastructure, while imposing no limit on debt issuance could reduce future budgetary flexibility by creating an excessive debt service burden and lead to a deteriorating credit position.

If tax revenues decline and new borrowing programs are added, debt ratios will further increase, both on an absolute and relative basis. If these ratios reach a level considered excessive, it could have an adverse effect on the State's bond ratings. In these circumstances, the State may reduce or delay its capital program, increase the use of "pay-as-you-go" funding or raise revenues. On the other hand, should our revenue picture improve and North Carolina continues to experience rapid growth, we must have guidelines flexible enough to prudently service the needs of our people.

As we look to the future and the need to prioritize capital projects, the State may want to consider either of the approaches that the states of Minnesota and Nebraska have developed and implemented. Minnesota has developed criteria to prioritize capital projects on a statewide basis while Nebraska uses its criteria guidelines specifically for its higher education capital projects.

Either approach can provide an additional tool to assist the State in the decision-making process for capital projects. Furthermore, the State may want to consider the establishment of a board to develop and implement criteria to assist in prioritizing capital projects.

It would be considered a "best practice" for the State to annually update this debt study. A Debt Affordability Study undertaken regularly allows the State to continually evaluate its fiscal health and credit quality and compare itself to other highly rated states. The State should also consider establishing a debt affordability advisory committee, such as the states of Maryland and Virginia --both triple-AAA-- have done, to assist in the preparation of the study. The committee could assist in determining when circumstances indicate a change in the limits on the key ratios, as discussed above, should be made.

INTRODUCTION

The North Carolina Department of State Treasurer has developed this Debt Affordability Study to provide a methodology for measuring, monitoring and managing the State's debt capacity. Debt capacity is a limited and scarce resource. It should be used only after evaluating the expected results and foregone opportunities. The Debt Affordability Study will enable the State to structure its future debt issuances within existing and future resource constraints by providing a comparison of its current debt position to relevant industry standards and by evaluating the impact of new debt issuances as well as changes in the economic climate on the State's debt position. The Debt Affordability Study thereby can be used to help develop and implement the State's capital budget. The study is premised on the concept that resources as well as needs should drive the State's debt issuance program.

A Debt Affordability Study can further serve as a vehicle to evaluate the effect of such debt issuances on its credit standing. The study, together with stated policy goals, can help the State protect its credit ratings of AAA/Aa1/AAA since debt is one of four main factors, along with economy, administration/management and, most importantly, financial condition, which rating agencies analyze in assigning credit ratings. A Debt Affordability Study is considered a positive factor by the rating agencies when they evaluate issuers and assign credit ratings. As evidence, Standard and Poor's stated in a June 2002 report, "Capital planning and, more recently, debt affordability models or guidelines that evaluate capital requirements and funding sources and assess the future impact of current bond programs are strong management tools."

The process of analyzing the State's debt position also helps integrate debt management practices (an Executive Branch function) with capital spending decisions (a Legislative Branch function). The information produced by the Debt Affordability Study and annual updates can be used by policymakers to evaluate the long-term impact of financing decisions and assist in prioritizing capital spending.

The results of the study can be used by the State to establish priorities during the capital planning process. State policymakers will have current information available when making critical decisions regarding borrowing. In addition, as the State considers new financing initiatives, the long-term financial impact of any proposal on debt capacity can be evaluated upon request. The information generated by this analysis is important for policymakers to consider because their decisions on additional borrowing can affect the fiscal health of the State.

The key debt ratios of net tax-supported debt to personal income and debt service to general fund revenues, along with reserve fund levels, have an impact on bond ratings, which in turn affect the cost of borrowing. In addition, the level of financial resources is a critical credit consideration. Establishing an acceptable range for the selected ratios will allow the State to monitor periodically its financial and debt positions and provide a framework for calculating theoretical debt capacity, assisting in the capital budgeting process, prioritizing capital spending and evaluating the impact of each debt issue. Thus, in conjunction with the Debt Affordability Study, the State should develop debt and financial policies that establish prudent financial ratios.

REVIEW OF CREDIT RATINGS

Credit ratings are the rating agencies' assessment of a governmental entity's ability and willingness to repay debt on a timely basis. Credit ratings are an important factor in the public credit markets and can influence interest rates a borrower must pay. Each of the rating agencies believes that debt management generally and the Debt Affordability Study in particular are

positive factors in assigning credit ratings. There are several factors which rating agencies analyze in assigning credit ratings: financial factors, economic factors, debt factors, and administrative / management factors.

Weakness in one area may well be offset by strength in another. However, significant variations in any single factor, such as the economy, can influence a bond rating. North Carolina's economy was challenged by the combined impact of a slowing national economy followed by the terrorist attacks on September 11, 2001. General Fund revenues decreased by $46.0 million, or 0.2%, from Fiscal Year 2001 to 2002. Moreover, spending needs have increased due to rising enrollment in the public schools and higher education systems and increased health and human services. General Fund expenditures increased by $366.4 million, or 1.7%, from Fiscal Year 2001 to 2002. The combination of these events caused Moody's to downgrade the State's rating in August 2002 from Aaa to Aa1. However, the outlook for the State's credit rating is stable. Factors contributing to North Carolina's stable rating outlook are low debt levels and strong financial management.

Figure 3

State of North Carolina Credit Ratings as of December 31, 2002		
	Rating	Outlook
Fitch Ratings	AAA	Not Applicable
Moody's Investors Service	Aa1	Stable
Standard & Poor's Ratings Services	AAA	Stable

The State's general obligation bonds are rated AAA by Fitch Ratings ("Fitch"), Aa1 with a "stable" outlook by Moody's Investors Service ("Moody's") and AAA with a "stable" outlook by Standard & Poor's Ratings Services ("S&P"). All three agencies base their prime ratings on the State's strong, diverse economic base, its sound financial management and low debt levels. They also place emphasis on consistently maintaining adequate fund balances and overcoming the fiscal challenge posed by the current national recession and local spending pressures.

STATE DEBT OUTSTANDING

To calculate net tax-supported debt, credit analysts take into account all debt supported by general tax revenues. This debt position shows the amount of indebtedness serviced from an issuer's General Fund; that is, it reflects the debt service payments made directly from tax revenues and is known as net tax-supported debt. Although a consensus appears to exist among credit analysts as to the appropriateness of using net tax-supported debt as the standard for determining an issuer's debt position, there is less unanimity about the precise calculation. The inclusion of indirect obligations in a net tax-supported debt measure depends to some degree on the judgment of each credit analyst. The State's net tax-supported debt position as of June 30, 2002 is shown in the table on the following page.

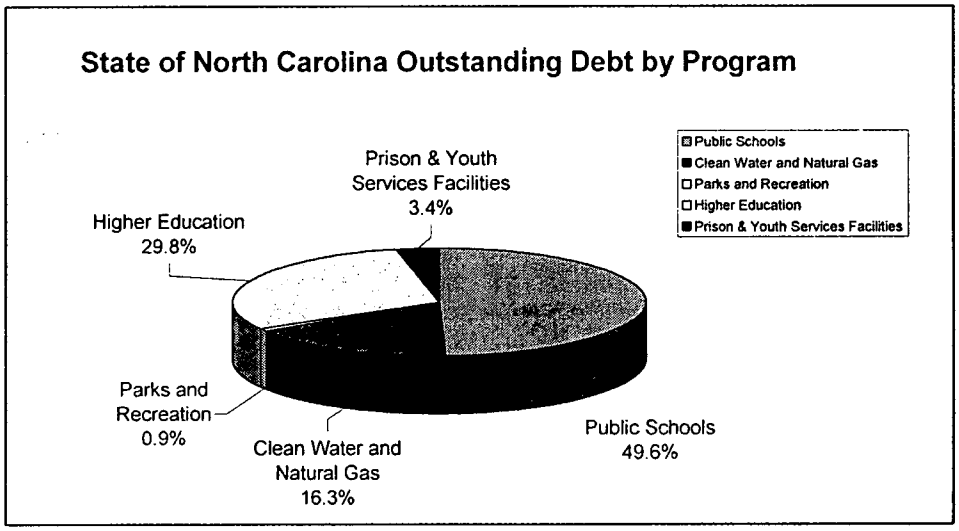
The State had total general obligation debt outstanding of approximately $3.47 billion at June 30, 2002 including highway construction debt of $183.3 million that is supported by separate taxes. Although S&P and Fitch include highway construction bonds in their calculation of the State's debt position, Moody's does not. We have followed Moody's approach because the debt is self-supporting and its inclusion does not have a material impact in calculating debt ratios.

Figure 4

State of North Carolina Net Tax-Supported Debt As of June 30, 2002 ($ in thousands)	
General Obligation Bonds	
Payable from General Fund Revenues	$3,274,944,986
Payable from Highway Trust Fund Revenues	183,300,000
Notes Payable	11,753,000
Gross Tax-Supported Debt	$3,469,997,986
Less: Self-Supporting Debt	(183,300,000)
Net Tax-Supported Debt	$3,286,697,986

The chart below illustrates the State's outstanding debt broken down by use of proceeds. The largest investment financed with bonds is for public school facilities with $1.6 billion or approximately 50% of total debt outstanding devoted to public school infrastructure.

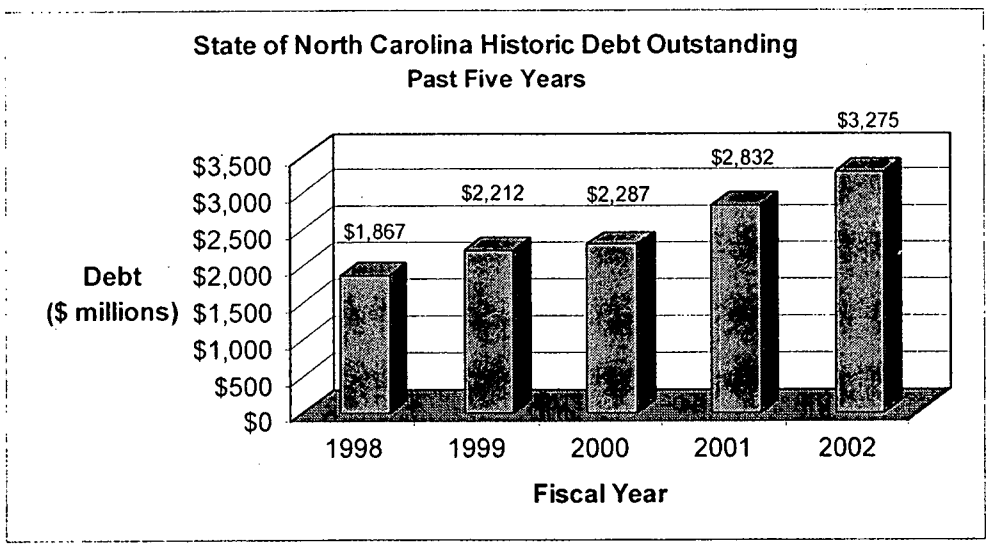
Figure 5



GROWTH IN STATE DEBT

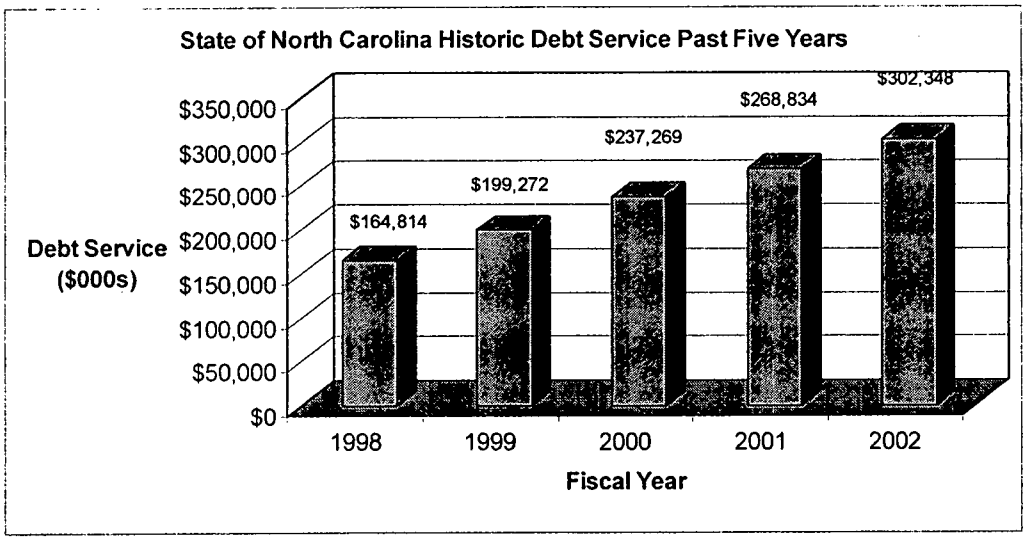
Trends in debt are an integral part of evaluating the State's debt levels. The State has made a substantial investment in infrastructure over the years, addressing the requirements of a growing population for education and other capital needs. Total general fund supported debt grew 75.4% during the last five years, increasing by $1.4 billion from approximately $1.87 billion on June 30, 1998 to approximately $3.29 billion on June 30, 2002, at an average annual growth rate of 17.0%. Included in the total is $355 million of variable rate debt, approximately 11% of total outstanding debt. The chart on the following page graphically illustrates the growth in total State net tax-supported debt outstanding over the last five years.

Figure 6



Growth in annual debt service mirrors the growth in debt outstanding. The chart below depicts the increase in annual debt service payments over the last five years.

Figure 7



The State's annual debt service payments have doubled over the last five years, rising from $165 million in 1998 to approximately $302 million in 2002 at an average annual growth rate of 16.4%. This measure is important from a credit perspective because it indicates how much of the State's budget is devoted to the fixed burden of debt service and thus the degree of flexibility in the State's budget.

STATE DEBT RATIOS

In addition to examining an issuer's total debt position, credit analysts review its debt ratios and their change over time. Credit analysts use the following key ratios to assess the financial burden of outstanding debt on a state: (i) debt as a percentage of personal income, (ii)

debt per capita and (iii) debt service as a percentage of General Fund revenues. Debt to personal income indicates the burden a state's debt places on the income tax base, the main source of revenue for most state-level general obligation issuers. Debt per capita assesses the relative magnitude of an entity's debt position compared to other issuers. The level of debt service to General Fund revenues is an important ratio because it indicates the amount of flexibility that the issuer has in its budget. Rating analysts also consider the rapidity with which an entity repays its debt obligations. Payment of 25% in five years and 50% in 10 years is considered average for general obligation issuers.

Below is a presentation of the State's indebtedness and debt ratios as of June 30, 2002, compared to June 30, 1998. As can be seen, the State's net debt outstanding increased by $1.4 billion or 75.0% from 1998 to 2002. The State's debt ratios also rose during this period as resources did not increase as rapidly as debt did. Debt to personal income increased 40% from 1.0% to 1.4%, while debt per capita increased by $114, from $281 to $395, and debt service to revenues rose 54% from 1.5% to 2.3%.

Figure 8

State of North Carolina
Fiscal Year 2002 versus Fiscal Year 1998 Debt Ratios

	Debt Outstanding (000's)	Net Tax-Supported Debt to Personal Income	Net Tax-Supported Debt Per Capita	Debt Service to General Fund Tax Revenue
FY 1998	$1,878,110	1.0%	$248	1.5%
FY 2002	$3,286,698	1.4%	$395	2.3%

As previously mentioned, credit analysts also examine the rapidity of debt repayment ratio. At the end of FY 2002, the State's general obligation debt had a rapidity of repayment ratio of 28.8% in five years and 57.4% in ten years, indicating that debt is being paid more quickly than the general obligation issuer average of 50% in 10 years. The State's repayment ratio is above average and is also a positive consideration.

COMPARISON OF DEBT RATIOS TO SELECTED MEDIANS

A comparison to national and peer group medians are helpful because absolute values are more useful with a basis for comparison. In May 2002, Moody's published the "2002 State Debt Medians" report with its annual analysis of state debt medians. As shown in the table on the following page, the State's net tax-supported debt to personal income ratio, the net tax-supported debt per capita ratio, the debt service to revenues ratio and the rapidity of repayment are all significantly better than the Moody's median levels.

Figure 9

Comparison with Moody's 2002 Median Ratios for States and Other Benchmarks
State of North Carolina Ratios as of June 30, 2002

Net Tax-Supported Debt to Personal Income			Debt Service as a % of Tax Revenues		
North Carolina	2002 Medians	Ratio of the State to Median	North Carolina	Median	Ratio of the State to Median
1.4%	2.3%	0.61x	2.3%	3.5%*	0.66x

North Carolina	2002 Medians	Ratio of the State to Median	North Carolina	Benchmark Average	Ratio of the State to Benchmark
$395	$573	0.69x	57.4%	50.0%**	1.15x

* Last published in 1996
** Rule of Thumb

The table below details the peer group comparison for the three debt ratios evaluated. The peer group, states rated triple-A by all three credit rating agencies, include the states of Delaware, Georgia, Maryland, Minnesota, Missouri, South Carolina, Utah and Virginia. The debt to personal income and debt per capita ratios are taken from Moody's "2002 State Debt Medians" report while the debt service ratio has been calculated from the most recent Comprehensive Annual Financial Report available for each state. As seen below, North Carolina has the lowest debt service ratio of any of the peer group and the second lowest debt per capita and debt to personal income ratios while all debt ratios are below the median levels. Thus, the State's debt ratios compare very favorably to the highest rated states.

Figure 10

North Carolina Debt Ratios
versus Ratios for Other Highly Rated States

	Ratings (Fitch/S&P/Moody's)	Debt to Personal Income*	Debt per Capita*	Debt Service as a % of Tax Revenue **
Delaware	AAA/AAA/Aaa	5.3%	$1,650	6.0%
Georgia	AAA/AAA/Aaa	2.9	804	5.0
Maryland	AAA/AAA/Aaa	2.6	879	6.5
Minnesota	AAA/AAA/Aaa	1.8	576	3.2
Missouri	AAA/AAA/Aaa	1.3	347	2.8
South Carolina	AAA/AAA/Aaa	2.5	615	4.7
Utah	AAA/AAA/Aaa	3.0	708	4.7
Virginia	AAA/AAA/Aaa	1.8	566	3.2
	Peer Group Median	2.5%	$662	4.7%

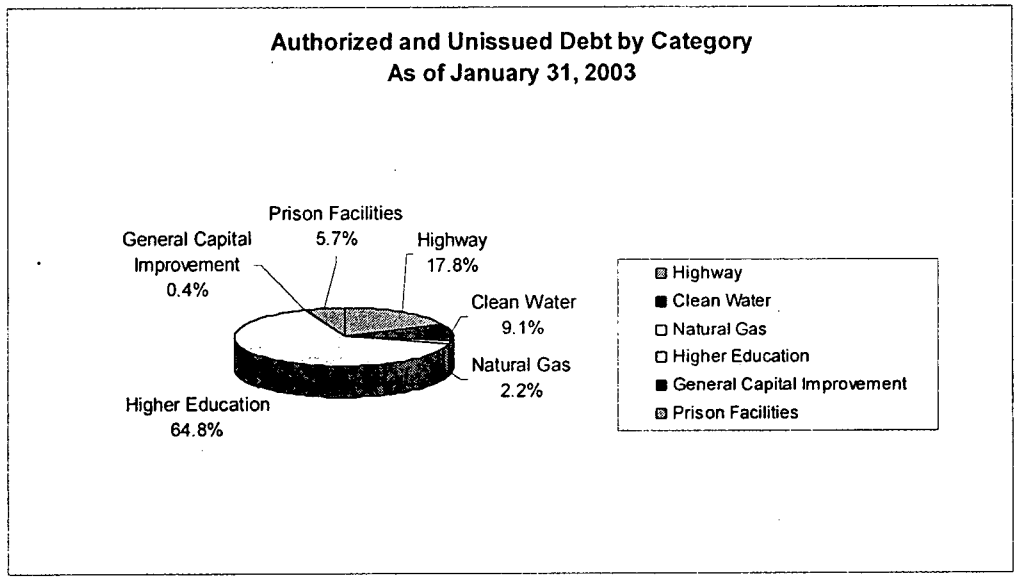
PROJECTED DEBT ISSUANCE

As of the end of Fiscal Year 2002, the amount of authorized but unissued bonds totaled $3.8 billion, including $2.5 billion Higher Education Bonds, $380 million Clean Water Bonds, $135 million Natural Gas Bonds and $700 Highway Construction Bonds. $225 million of certificates of participation to fund prison facilities and $17.5 million of certificates of participation to fund wildlife conservation facilities have also been authorized. The increase in projected debt issuance over the next four years is primarily due to higher education bonds, with $2.55 billion, or approximately 65% of projected debt issuance, to be issued for these programs. The State plans to issue all of the authorized capacity by the end of Fiscal Year 2006.

Figure 11



The table below represents the projected debt issuance over the next four years for each of the State's currently authorized bonding programs backed by general fund revenues, excluding Highway debt.

Figure 12

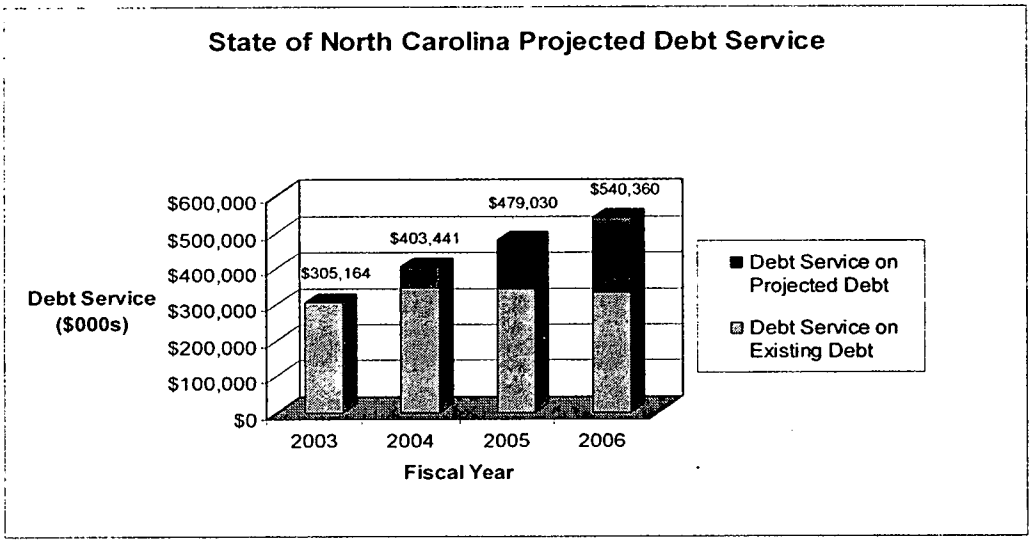
State of North Carolina Proposed Net Tax-Supported Debt Issuance Next Four Years

	Fiscal Year 2003 (est)	Fiscal Year 2004 (est)	Fiscal Year 2005 (est)	Fiscal Year 2006 (est)	Total 2003-2006
Clean Water & Natural Gas Bonds	$145,755,000	$146,550,000	$52,700,000	$169,995,000	$515,000,000
University & Community College Bonds	600,000,000	600,000,000	700,000,000	650,000,000	2,550,000,000
Certificates of Participation	17,500,000	225,000,000	-	-	242,500,000
	$763,255,000	$971,550,000	$752,700,000	$819,995,000	$3,307,500,000

PROJECTED DEBT SERVICE

Annual debt service excluding Highway debt service is estimated to grow to $540.4 million by Fiscal Year 2006 assuming projected bond issuance of $3.3 billion. The chart below shows projected debt service over the next four years, including debt service on outstanding and projected debt.

Figure 13



RESOURCES EXPECTED TO BE AVAILABLE TO MEET FUTURE DEBT OBLIGATIONS

Capacity to support debt obligations is increased by demographic and economic growth to the extent that new resources can be captured through higher tax revenues. Because any projection is uncertain, it is important in planning for future debt capacity to make prudent assumptions about future growth in resources and to develop sensitivity analyses about other assumptions to ensure that an excessive level of obligations is not created.

Another source from which the State obtains debt capacity is the retirement of outstanding debt. As the State retires debt, this amount becomes a resource for new debt issuance without adding to the State's existing debt position. Shown in the table on the following page are scheduled retirements on the State's net direct tax-supported debt as of December 31, 2002, indicating that the State will free up $911 million in debt capacity between FY 2003 and FY 2006 from retirements of existing obligations.

Figure 14

State of North Carolina
Retirement of Net Tax-Supported Debt
($ in thousands)

Fiscal Year	General Obligation Bonds
2003	$150,176
2004	219,496
2005	258,977
2006	282,248
Total	$910,898

Another consideration that affects future debt service capacity is the use of "pay-as-you-go" ("PAYGO") funding of capital projects. By using current revenues to fund a portion of a capital plan, the State can reduce future debt service and retain debt capacity. For example, if the State funded a capital project with $50 million as PAYGO rather than financing it through a $50 million 20 year bond issue, the State would save approximately $20.9 million in total interest payments over the life of the issue assuming current market conditions. Although rating agencies do not set specific guidelines for determining an acceptable level of PAYGO, the consensus is that the use of current revenues for capital projects reduces future debt obligations and is therefore a positive credit factor.

EFFECT OF NEW DEBT - BASE SCENARIO

In order to fund its capital needs, the State plans to issue $3.3 billion net tax-supported debt backed by general fund revenues from Fiscal Years 2003 to 2006, as indicated above. This level of issuance, after taking into account $911 million of retirements of currently outstanding and of projected long-term net tax-supported debt, increases outstanding net tax-supported debt by $2.4 billion, or 73%, at the end of 2006. The table on the following page reflects issuances and retirements for this period. The following assumptions were used in the Base Scenario:

- Average interest rate of 3.50%, which approximates the current triple-A rate scale plus 30 basis points, for fixed rate debt to be issued through March 2003, 4.00% for debt issued by the end of calendar 2003 and 5.50% for 2004 through 2006
- Interest rate of 4.0% for variable rate debt.
- 20-year amortization for all issues including Higher Education Bonds, except for Natural Gas Bonds (five year amortization), with overall level principal as projected by the State.
- Outstanding and projected Highway Debt not included.

Figure 15

State of North Carolina
Projected Changes in Net Tax-Supported Debt
As of December 31, 2002
($ in thousands)

	FY 2003	FY 2004	FY 2005	FY 2006	Total Change in Debt FY 2003-2006
Debt at Beginning	$3,286,698	$3,899,777	$4,651,830	$5,151,003	
Planned Issuances	763,255	971,550	752,700	819,995	$3,307,500*
Retirements	(150,176)	(219,496)	(258,977)	(282,248)	(910,898)
Debt at End	$3,899,777	$4,651,830	$5,145,553	$5,683,300	$2,396,602

* Includes $21.7 million Clean Water Bonds and $50 million Natural Gas Bonds issued so far in Fiscal Year 2003

The effect on the State's debt ratios of issuing $3.3 billion of new debt over the next four years has also been analyzed by reviewing the resources projected to be available, as shown below. In addition to the assumptions for future bond issuances outlined previously, the following assumptions were used in this Base Scenario:

- No growth in tax revenue projected in Fiscal Year 2003, with 3.0% annual growth beginning in Fiscal Year 2004
- Projected annual personal income growth of 3.0%
- Annual population growth of 1.57%

Using the Base Scenario assumptions listed above, the table below outlines projected debt ratios from FY 2003 to FY 2006. The ratio of net tax-supported debt to personal income is projected to increase from 1.4% in FY 2002 to 2.2% in FY 2006. The ratio of net tax-supported debt per capita is projected to rise from $395 in FY 2002 to $641 in FY 2006. The ratio of debt service to revenues is projected to increase from 2.3% in FY 2002 to 3.8% in FY 2006, but the rate of principal payout falls from 57.4% to 54.1% by FY 2006.

Figure 16

State of North Carolina
Effect of the New Debt Issuance on Debt Ratios – Base Scenario

	Median	Fiscal Year 2002	Projected End of Fiscal Year 2003	2004	2005	2006	Ratio of the State to Median
Net Tax-Supported Debt to Personal Income	2.3%	1.4%	1.7%	1.9%	2.1%	2.2%	0.96x
Net Tax-Supported Debt Per Capita	$573	$395	$461	$542	$590	$641	1.12x
GO Debt Service to Revenues	3.5%	2.3%	2.3%	3.0%	3.4%	3.8%	1.09x
Principal Payout in 10 Years	50.0%	57.4%	56.1%	54.8%	53.7%	54.1%	1.08x

As can be seen, the Base Scenario results in ratios higher than Fiscal Year 2002 levels in Fiscal Year 2006. Although the debt per capita ratio and the debt service ratio are projected to be slightly higher than the medians, debt to personal income is projected to be below the median in Fiscal Year 2006. In addition, as seen in the table on the following page, the State's debt ratios are projected to be lower than the current median for the peer group of triple-AAA rated states.

Figure 17

Projected North Carolina Debt Ratios for 2006
versus Actual Ratios for Other Highly Rated States

	Ratings (Fitch/S&P/Moody's)	Debt to Personal Income*	Debt per Capita*	Debt Service as a % of Tax Revenue **
Delaware	AAA/AAA/Aaa	5.3%	$1,650	6.0%
Georgia	AAA/AAA/Aaa	2.9	804	5.0
Maryland	AAA/AAA/Aaa	2.6	879	6.5
Minnesota	AAA/AAA/Aaa	1.8	576	3.2
Missouri	AAA/AAA/Aaa	1.3	347	2.8
South Carolina	AAA/AAA/Aaa	2.5	615	4.7
Utah	AAA/AAA/Aaa	3.0	708	4.7
Virginia	AAA/AAA/Aaa	1.8	566	3.2
	Peer Group Median	2.5%	$662	4.7%
North Carolina Projections for 2006	**AAA/AAA/Aa1**	**2.2%**	**$641**	**3.8%**
	Ratio to Median	0.88 x	0.97 x	0.81 x

* Ratios for peer group as calculated by Moody's in its "2002 State Debt Medians" report published May 2002.

** Calculated from Fiscal Year 2002 CAFRs for Utah and Virginia and Fiscal Year 2001 CAFRs for Delaware, Georgia, Maryland, Minnesota, Missouri and South Carolina

The projected ratios for the State, in our opinion, indicate that this level of debt issuance over the next four years is manageable and should not impair the State's high bond ratings, particularly since the debt to personal income ratio remains below the median. We do recommend, however, that the State continue to control its debt as in the past, annually publish a Debt Affordability Study and take corrective action by raising revenues or delaying debt issuance if an economic slowdown or some other outside factor causes the debt ratios to exceed the targeted levels.

TARGET DEBT RATIOS

Although the State's currently contemplated level of issuance over the next four fiscal years is manageable, establishing guidelines for future debt issuance and financial performance is a critical part of prudent debt management and can keep the debt burden from becoming excessive. An excessive debt burden reduces the State's budget flexibility and impairs its credit position. Debt and financial management policies create a framework for ensuring that the issuance of additional debt will not harm the State's financial position. While the State currently has several legal constraints on the amount of debt that can be issued, it should consider establishing policy guidelines for debt issuance in terms of the effect of such issuance on debt ratios. Firm guidelines as to the issuance of future debt would help protect and perhaps enhance the State's credit ratings, particularly in view of recent revenue weakness. Care must be taken, however, to achieve a balance between fiscal flexibility and infrastructure investment. Guidelines that are too low or restrictive do not provide enough debt capacity to finance needed infrastructure while relaxing the constraints to impose no limit on debt issuance could reduce future budgetary flexibility by creating an excessive debt service burden and lead to a deteriorating credit position.

Debt policies could establish maximum debt ratios (ceilings or floors) and target debt ratios over a period of time to demonstrate that there is a limit above which the State does not expect to issue additional debt in order to control its debt service burden. By setting maximum debt ratios, the State will be committing to either decrease capital spending or to find other funding sources rather than create an excessive debt burden on future budgets. While these guidelines should be placed at a level that will enable North Carolina to fund vital capital

projects, they should be kept in place over a reasonable period of time to show stability of debt management. The debt and financial management policies should be developed for net overall tax-supported debt, as rating agencies compare states and calculate debt medians on the basis of overall debt. We must note, however, that debt is only one of four factors considered by rating analysts, others factors being financial condition, economic base and management factors. Debt ratios are a tool used to measure the debt factor and are applied as part of the overall analysis in arriving at an issuer's bond ratings.

The following ratios should be considered in establishing debt management policies:

- *Net Tax-Supported Debt to Personal Income*. This ratio is important because it measures debt levels against the taxpayer base that generates the tax revenues that are the main source of debt repayment. The State's debt to personal income ratio is projected to increase from 1.4% in Fiscal Year 2002 to 2.2% in Fiscal Year 2006, just below the median of 2.3% for this indicator. A target level of 2.5% is suggested, with a ceiling of 3.0%. The debt capacity available within the target of 2.5% debt to personal income ratio at the end of Fiscal Year 2006 is projected to be $745 million. The debt capacity available within the ceiling of 3.0% debt to personal income ratio at the end of Fiscal Year 2006 is projected to be $2.0 billion.

- *Debt service to revenues ratio*. This is a ratio where policymakers control both variables affecting it. By measuring what portion of the State's resources is consumed by long-term fixed cost, this ratio reflects the State's budgetary flexibility to change spending and respond to economic downturns. Over time, the State can both change its tax levies to adjust its tax revenue and modify debt issuance plans in order to adjust debt service. The State's current ratio of 2.3% is projected to increase to 3.8% by FY 2006 as a result of expected debt issuances for capital improvement purposes.

  A target level of 4.0% and a ceiling of 4.75% is recommended for this ratio so as to provide the State with adequate capital funding while maintaining budget stability. The debt capacity available at the end of Fiscal Year 2006 within the target of 4.0% is projected to be approximately $350 million. The debt capacity available at the end of Fiscal Year 2006 within the 4.75% ceiling is projected to be approximately $1.35 billion.

  It would be considered a "best practice" for the State to maintain a balanced use of PAYGO funding and debt financing within the parameters discussed here. If the debt service ratio rises sharply as a result of an economic slowdown or other outside factor, the State should act to raise revenues or reduce debt issuance to ensure the debt service burden does not become excessive and threaten the State's high bond ratings.

- *Ten-year payout ratio*. A faster payout is considered to be a positive credit attribute. The State's level on June 30, 2002 was 57.4%. The State should maintain a floor for its ten-year payment of 50% and set a target of 55%.

We recommend taking into account two measures in setting debt guidelines -- debt to personal income and the ratio of debt service to revenues. With regard to the ratio of debt to personal income, we recommend a ceiling level of 3.0% that would not be breached without the approval of the Legislature. With regard to the debt service ratio, a ceiling of 4.75% is recommended that will not be exceeded without the approval of the Legislature. If either of the State's debt ratios approaches those levels, the State should take action to maintain the ratios under the ceiling. Specifically, the State should reduce its capital program, increase PAYGO funding, raise revenues or take a combination of these actions.

LEVEL OF RESERVES

As previously mentioned, the State's credit ratings are based on a variety of factors, with indebtedness only one of the items examined by credit analysts. A very important consideration is stability of financial operations as measured by the unreserved General Fund balance since these funds serve as a source of flexibility in times of economic and fiscal stress. A contingency or "rainy day" fund plus undesignated fund balance comprising 5.0% of revenues was previously used by analysts as a standard for the appropriate minimum level of contingency, but many entities concluded that this level was inadequate to carry them through the recession of the early 1990s. Many issuers have therefore set a target to protect financial stability based on the levels needed to weather a severe economic downturn without completely depleting balances and thus incurring a deficit.

Because of the importance of financial condition to the rating agencies, the study also includes an analysis of General Fund balances and reserves. Available reserves indicate financial stability, flexibility and the capacity to meet financial obligations, especially debt service payments, in a timely manner. The ratio commonly used to measure available reserves is unreserved General Fund balance as a percentage of General Fund revenues or expenditures. The State's unreserved General Fund balance at the end of FY 2002 was ($576.3) million. Historic General Fund Balances and Unreserved Fund Balance as a percentage of tax revenues for the past five years are shown in the following two charts.

Figure 18

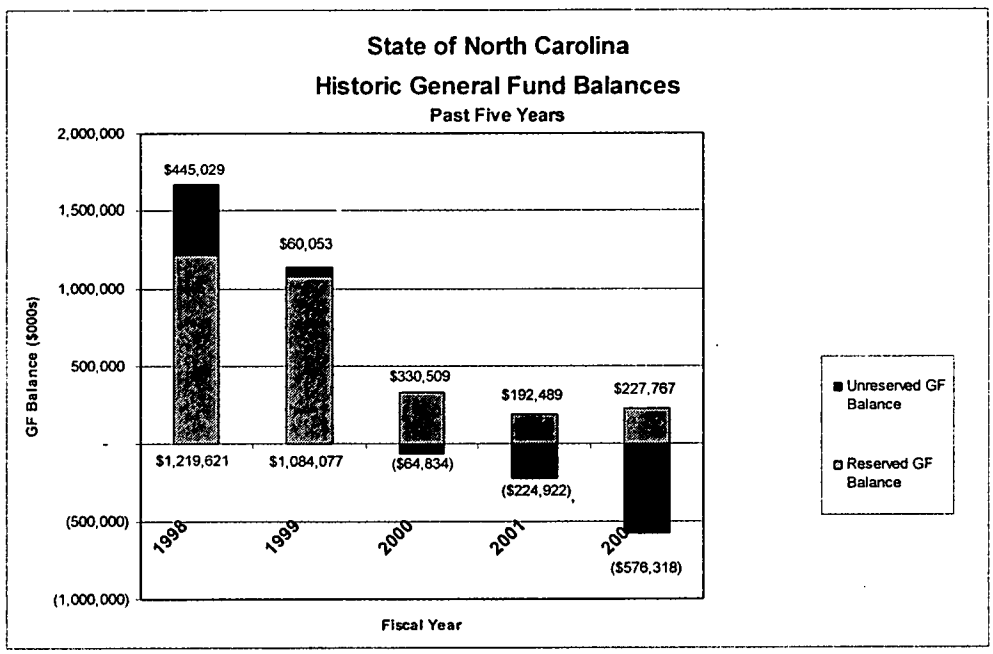


Figure 19

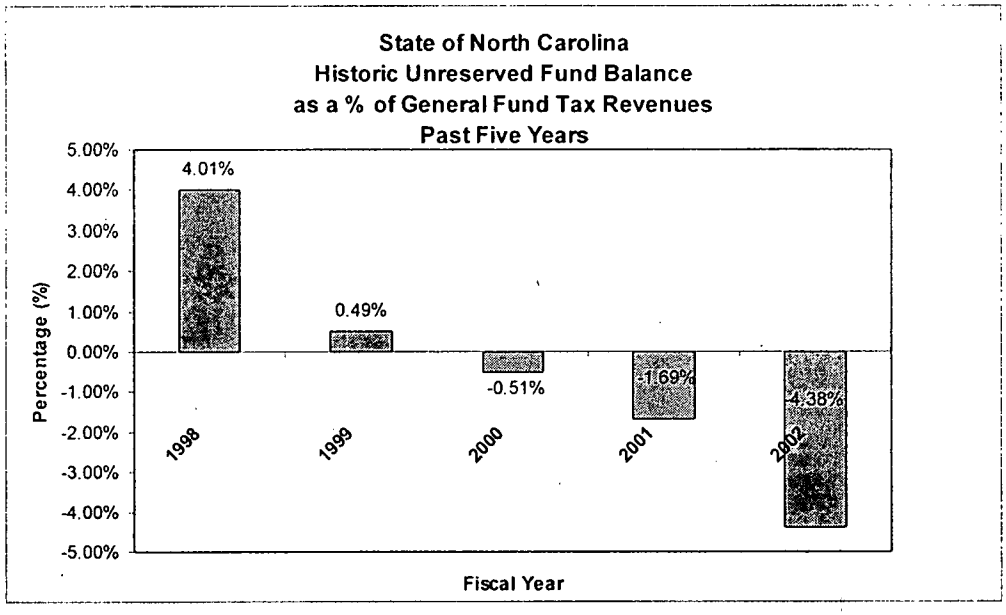

Reserves were drawn down during Fiscal Year 2002, reducing the General Fund balance to ($348.6) million at fiscal year-end. General Fund balances were used to mitigate the impact of budget cuts due to revenue shortfalls projected for the current fiscal year. Moreover, the State's Savings Reserve Account was used to balance the Fiscal Year 2002, resulting in a zero balance at the end of Fiscal Year 2002. Under the Governor's Executive Order, a $215.6 million Reserve Fund has been established to help manage any budget shortfall in Fiscal Year 2003.

The reversal of the General Fund balance from a positive $445 million in Fiscal Year 1998 to a negative $576.3 million in Fiscal Year 2002 was specifically cited by Moody's as a key factor in their decision to downgrade the State from Aaa to Aa1 in August 2002. Therefore, in addition to the suggested targets for the State's debt ratios, the State should consider evaluating the General Fund reserve policy in view of its importance as to its credit standing.

- *Unreserved General Fund balance*. The suggested target level of unreserved General Fund Balance to General Fund Revenues is 8% and the floor is 6%. The target would allow for a cushion in the event of future economic downturns in excess of one month's average receipts. The floor of 6% is roughly equivalent to the decline in reserves that the State has experienced in the current recession.

CAPITAL PROJECT PRIORITIZATION

The process of prioritizing proposed capital projects varies widely among states. The states listed below have some method of prioritizing capital projects. Two of these two states, Minnesota and Nebraska, have developed detailed criteria and a point system to determine which capital projects will be funded. A summary of their approaches and criteria used can be found on the following pages.

Figure 20

States that Prioritize Capital Projects

▪ Delaware	▪ Nebraska
▪ Illinois	▪ Oklahoma
▪ Michigan	▪ Texas
▪ Minnesota	▪ Wyoming

State of Minnesota: Minnesota has developed a scoring system to assist the Governor and Legislature determine which capital projects will be funded. The capital projects are evaluated based on two criteria categories (described below): (i) *critical criteria,* with capital projects in this category evaluated based on their urgency in the current legislative session; and (ii) *strategic criteria*, with capital projects within this category evaluated based on their strategic need and value. A capital project could receive a maximum of 700 points each based on the two criteria categories. The criteria categories are described in more detail below.

Critical Criteria: The criteria Minnesota uses to determine if a capital project requires immediate funding are as follows:

Critical Life Safety Emergency: If a project requires immediate attention such as a roof has deteriorated to the point of collapse, it would qualify under this criterion and would receive 700 points.

Critical Legal Liability: If the project has an existing and documented legal liability, such as citations by building or fire inspectors, it would qualify under this criterion, with qualified projects receiving 700 points.

Prior Binding Commitment: If a project has no other funding alternative and a previous legislative action created a binding commitment, such as construction project that has already been partially funded and is under construction, the project would qualify under this criterion, with qualified projects receiving 700 points.

Strategic Criteria: The criteria Minnesota uses to evaluate each project's strategic need and value are set out below. Projects may receive from 0 to 700 points depending on how closely each capital project meets the following criteria.

Strategic Linkage: A project is evaluated using this criterion based on how closely the project is connected to a particular agencies strategic plan, state statutes or other identifiable state policy; projects are evaluated on a low, medium and high basis and may receive 0, 40, 80 or 120 points.

Safety Concerns: A project is evaluated using this criterion based on how safety issues are addressed. These safety issues are not necessarily as urgently needed as those discussed in the critical criteria category. An example would be clean up of a closed landfill or security improvements at a correctional facility. Projects are evaluated on a low, medium and high basis and may receive 0, 35, 70 or 105 points.

Customer Services and Statewide Significance: A project is evaluated based upon how it improves service for all citizens of the state. Projects with statewide impact and which provide customer service to the greatest number of people receive the most points. Projects with regional significance or which provide modest level of customer service receive medium points. Projects with local significance and modest customer service improvements receive the fewest. Projects will receive 0, 35, 70 or 105 points.

Agency Priority: This criterion measures how important a project is for a particular agency. Points are based on the ranking of the project on the agency's overall priority project list. The total number of requests for each agency are divided by four to establish agency quartiles in order to award the following points: 25, 50, 75 or 100.

User or Non-State Financing: 0 to 100 points are awarded to projects depending on the percentage of user financing, non-state funding, private contributions or matching funds that can be used to fund project costs.

Asset Maintenance: Requests for funding for the maintenance and repair of the state's land, facilities and equipment are evaluated on a low, medium or high basis and awarded 0, 20, 40 or 60 points.

Operating Savings or Efficiencies: 0, 20, 40 or 60 points are awarded to projects which produce operating savings or improve operating efficiencies.

Projects Contained in Six-Year Plan: If a project has been included either in a previous state agency six-year strategic plan or obtained previous state funding, it would receive 25 points. If both are applicable, the project may receive 50 points. Projects that have received past state funding but were not part of an agency's priority list may receive only 25 points.

State of Nebraska: Nebraska through its Coordinating Commission (the "Commission") for Post-Secondary Education is statutorily responsible for recommending to the Governor and Legislature a prioritized list of approved capital projects that should receive funding for higher education projects. The Commission's prioritization process involves the use of ten individual criteria, weighted using a 100-point system to assist it qualify capital projects and determine the order of funding and are described below.

Statewide Facilities Category Ranking: The Commission rank the type of facility based on overall statewide needs according to 11 different categories. For example, the Commission places a high priority on the safety of building occupants and maintaining the state's assets and, therefore, projects that are safety related receive a maximum of 30 points while a project such as land acquisition for future expansion of a project would receive a maximum of 3 points. Projects that combine two or more of the 11 categories are weighted to attain a point total.

Sector Initiatives: This criterion addresses how well the proposed capital project addresses a specific strategic or programmatic initiative with a maximum of 10 points awarded. An example of a sector initiative is the designation of a specific academic program or service offered by one or more institutions.

Strategic and Long-Term Planning: This criterion measures the degree to which a capital construction request addresses long-term planning efforts with a maximum of 10 points awarded.

Immediacy of Needs: This criterion measures the degree of urgency for the project. Projects intended to meet existing needs are given higher priority than long range needs. A maximum of 10 points are awarded depending on the degree of the need for the project.

Quality of Facility: This criterion measures how the capital project will improve an existing facility. A maximum of 5 points are awarded, depending on the facility condition.

Avoid Unnecessary Duplication: A maximum of 10 points is awarded for this criterion depending upon the degree to which the project minimizes unnecessary duplication.

Appropriate Quality of Space: This criterion measures the degree to which the project effectively uses space, a maximum of 5 points is awarded.

Statewide Role and Mission: The Commission considers the project from a statewide perspective based upon four subcategories: undergraduate instructional and student space; graduate or professional instructional and research space; public service and applied research space; and administrative or operational support space. Projects that include combinations of two or more of the four subcategories are weighted to attain a point total.

Building Maintenance Expenditures: This measures the cost of maintaining a facility based on dollars expended for maintenance per square foot compared to similar projects. A maximum of 5 points is awarded.

Ongoing Costs: This criterion measures the degree to which the project will reduce the incremental increase of state funding for its operation and maintenance. A maximum of five points are awarded.

Summary: Two different examples of the ways in which states use criteria for prioritizing capital projects have been presented. The state of Minnesota attempts to define basic evaluation criteria to be used statewide in order to address competing capital requests while the state of Nebraska has developed detailed criteria for a specific category of capital, its higher education projects. Our research indicates that the scores for Minnesota capital projects do not produce automatic funding decisions but rather are designed as a tool, much like a debt affordability study, to assist in the decision making process with regard to capital projects. The State of North Carolina may wish to consider the establishment of a board to develop and implement criteria to assist in prioritizing capital projects.

CONCLUSION

Currently, all of the State's debt ratios are below median levels both for all fifty states and for a group of eight states with comparable credit standing. Thus, North Carolina's debt is considered low and is manageable at the current level. Expected future debt issuances over the next four years total $3.3 billion, with $2.55 billion, or 77%, issued for Higher Education purposes. Due to this projected issuance, all the State's debt ratios are expected to increase over the next four years. The debt service to tax revenue ratio is projected to rise from 2.3% at the end of Fiscal Year 2002 to 3.8% at the end of Fiscal Year 2006 and the ratio of debt to personal

income is projected to rise from 1.4% at the end of Fiscal Year 2002 to 2.2% by Fiscal Year 2006, while the debt per capita ratio is projected to rise from $395 to $641 by Fiscal Year 2006. Although the debt per capita ratio and the debt service ratio are projected to be slightly higher in Fiscal Year 2006 than the current medians for all fifty states, debt to personal income is projected to be below the national median in Fiscal Year 2006. The State's projected debt ratios are also lower than current medians for the peer group of triple-AAA rated states.

The State may want to consider developing and implementing a formal capital project prioritization process comparable to the procedures in place in the states of Minnesota and Nebraska. Furthermore, the State may want to consider the establishment of a board to develop and implement criteria to assist in prioritizing capital projects.

It would be considered a "best practice" for the State to annually update this debt affordability study along with a review of other highly rated states. A Debt Affordability Study undertaken regularly would allow the State to continually evaluate its fiscal health and credit quality. The State should also consider establishing a debt affordability advisory committee, such as the states of Maryland and Virginia have done, to assist in the preparation of the study.

House Committee on Finance

Minutes

~

April 1, 2003

The House Committee on Finance met on Tuesday, April 1, 2003 at 8:30am in Room 544 of the Legislative Office Building. The following members were present: Chairpersons G. Allen, Howard, Luebke, McComas, Miner, and Wainwright; Vice-Chairs Alexander, Decker, Gibson, and Hill; and Representatives Blackwood, Bordsen, Capps, Carney, Glazier, Hackney, Holliman, Jones, Lewis, McCombs, McGee, Munford, Rayfield, and Weiss. Also present were Sergeant-at-Arms staff Bob Fowler, Bill Freeman, Dusty Rhodes, and Walter Spell. Staff persons present included Cindy Avrette, Richard Bostic, David Crotts, Trina Griffin, Linda Millsaps, and Martha Walston. The Agenda and Visitor Registration Sheet are attached and incorporated into these minutes as attachments 1 and 2.

Chairman Luebke called the meeting to order at 8:35 a.m. and welcomed the members and staff. He then recognized the Pages for the meeting. There were two young ladies present: Ms. Sarah Robertson of Stokes County, sponsored by Representative Rex Baker and Ms. Chelsea Sigmon of Watauga County, sponsored by Representative Gene Wilson.

Chairman Luebke also announced the formation of the annual Subcommittee on the Occupancy Tax and announced the appointed members to the subcommittee, those being Representatives Alexander (Chair), Munford, and McGee.

The Chair then recognized staffperson Cindy Avrette who offered an updated presentation of the Streamlined Sales Tax Project to the committee members (see attachment 3). The presentation, shown on PowerPoint, included a discussion of the state losing tax dollars from Internet orders and to provide for a uniformity of tax rates (to some degree) among all states. It also overviewed the progress of the project in North Carolina and nationwide since year 2000. Ms. Avrette noted that North Carolina must make several changes in 2003 in order to continue to participate in the project. Two of these changes include:

1. The State must develop a uniform local tax base. For instance, food must either be subject to tax or exempt. It cannot be at a lower rate than other items as it is presently.
2. Modification of candy, soft drinks, and prepared food is necessary. North Carolina must make a decision whether or not to continue to exempt these foods from tax.

Ms. Avrette also informed members that presently, under a Supreme Court ruling, companies without a physical location in North Carolina are not required to collect sales tax for the State [i.e. Barnes and Noble.com (website) vs. Barnes and Noble Stores (physical location)]. The legislature must decide now whether to implement such a tax on Internet companies.

The Chair then recognized Representative Howard for a question to Ms. Avrette on whether the Department of Revenue was prepared to collect these additional tax dollars without huge expense in developing methods of collection. Ms. Avrette stated that it would be the responsibility of the merchants to develop these methods, thus the costs would not be levied on the state.

Overall, a great deal of discussion ensued about what items will or will not be taxed and the decisions, which must be made soon in that regard in order for North Carolina to continue its' participation in the Streamlined Sales Tax Project. Discussion of how taxes collected would be distributed was also in depth. There was a question from Representative Hackney concerning whether taxpayers making orders in their home areas would be required to provide their zip codes and four-digit zip extensions (i.e. 27601-1092) or list their county of residence so that collected tax dollars can be reallocated to the appropriate areas locally. The Represenative was informed that currently, the plan is for a "zip plus four" system. For status of the Project nationwide, information is available via the World Wide Web at http://www.elaonline.com/govtrelations/state/streamometer

Chairman Luebke then thanked Ms. Avrette for her presentation and next recognized staffperson Richard Bostic for a presentation on the North Carolina Individual Income Tax. He presented a slide show (see attachment 4) that outlined the history of the income tax in North Carolina from 1850 to present. Due to time, however, the Chair stopped Mr. Bostic's presentation and asked that he continue at the Committee's next meeting on Thursday. He also stated that David Crotts' presentation on the North Carolina Corporate Income Tax would commence on Thursday as well.

The Chair then recognized members for a few short questions and adjourned the meeting at 9:50 a.m., reminding members that the Committee would next meet on Thursday of the week, March 3, 2003, at 8:30 am in the same location.

Respectfully submitted,

Representative Paul Luebke
Presiding Chair

Jason A. Cannon
Assistant to Committee on Finance

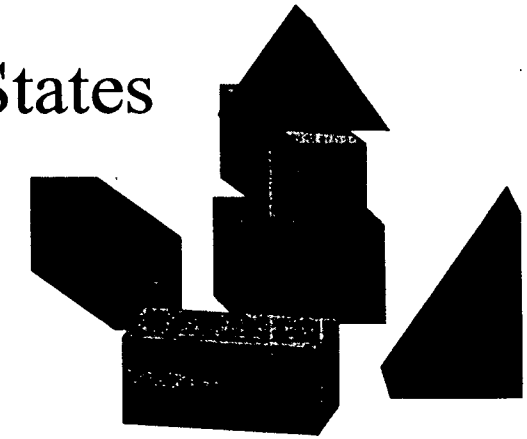
- 1992: Quill Corporation case
- 1998: Internet Tax Freedom Act
- 2000: SSTP organized
- 2000: Draft Act and Agreement
- 2001: Meeting of Implementing States
- 2002: Agreement Finalized
- 2003: Moratorium Expires



Principles of SSTP

- Uniformity in major tax base definitions
- Uniformity in State and local tax bases
- Simplification in State and local tax rates
- State level administration of taxes
- Protection of consumer privacy
- Central, electronic registration system
- Uniform sourcing rules
- Simplified administration of exemptions
- Simplified tax returns
- Simplification of tax remittances
- Preservation of individual state taxing authority

How will it work?

- Participation by vendors is voluntary
- Central, online registration system
- Limited amnesty provisions
- Methods of remittance
  - MODEL 1: Select a CSP to collect & remit tax
  - MODEL 2: Select a CAS to use to calculate tax
  - MODEL 3: Use own certified CAS

Requirements to Participate

- State level administration
- ***Common local tax base***
- Online registration system
- Notice of State tax changes
- Notice of local rate changes
- Develop address-based system for assigning taxing juris
- Relieve participating sellers from liability relying on CSP or CAS

Requirements to Participate

- ***No multiple State rates after 12/31/ 2005***
- One local rate
- Uniform sourcing rule
- Uniform telecommunications sourcing rule
- ***Uniform definitions***
- Uniform tax returns
- Uniform rules for remittances of funds
- Uniform rules for recovery of bad debts
- ***No caps or thresholds after 12/31/2005***
- Direct pay certificates

Effective Date of Agreement

- Minimum number of states = 10
- Percent of the "sales tax" population = 20%
- 7 states enacted legislation
- 20 states have pending legislation

2003 Required Changes

- Uniform local tax base: Food must either be subject to the tax or exempt
- Modifications to the taxation of candy, soft drinks, and prepared food
- Change due date on a monthly return
- Amnesty for a seller who voluntarily registers to collect tax for period prior to registration

2003 Required Changes

- 120-day notification of local tax changes
- Modifications to definitions
- Sales tax holiday exemptions need to be amended before the August 2004 holiday

North Carolina Individual Income Tax

WIRELESS 911 BOARD

George Bakolia, Chair

Carolyn H. Carter, Vice Chair

March 24, 2003

To: Linda Milsaps, Fiscal Analyst

From: Richard Taylor, Executive Director

Subject: Interim Executive Summary

At the request of the Fiscal Research Division of the General Assembly, this Interim Executive Summary is being submitted regarding the activity of the North Carolina Wireless 911 Board during calendar year 2002.

Background

On September 25, 1998, the 1998 Session of the General Assembly of North Carolina approved Senate Bill 1242, G.S. 62a, Enhanced 911 Wireless Fund. The objectives of the act include providing for a Enhanced Wireless 911 System for the use of wireless telephone customers. The act provides for a service charge of $ .80 per month on each commercial mobile radio service (CMRS) connection. These funds are disbursed as provided by statute to CMRS providers and public safety answering points (PSAPs) in North Carolina.

The Board is staffed by an Executive Director and an accountant within the Office of Information Technology Services. The Board consists of 13 members and meets monthly, or as required, to identify, discuss and act upon those issues concerning the Enhanced Wireless 911 Fund.

Calendar year 2002 Financial Data

Total revenue collected by the CMRS providers was $ 35,649,090.91.

Total expenditures were:

Administration	$	155,244.34
CMRS Providers	$	12,045,284.33
PSAPs	$	13,283,619.80
Total Expenditures	$	25,484,148.47

The fund balance as of December 31, 2002, including interest, was $ 49,828,726.84

www.wireless911.its.state.nc.us
PO Box 17209 • Raleigh, North Carolina 27619-7209
Tel: (252) 672-7580 • Fax: (252) 672-7582 • State Courier 51-01-11
An Equal Opportunity/Affirmative Action Employer

In April of 2002, the Office of State Budget and Management, under the authority of Governor Easley, transferred $ 2,500,000 from the Enhanced Wireless 911 Fund to assist the State in its current budget crisis. These funds were paid from the CMRS portion of the fund balance.

As of December 31, 2002, 123 PSAPs have been certified as being capable of receiving and utilizing Phase I (call back number and cellsite) data from the CMRS providers. The state has a 76% Phase I coverage deployed by the wireless carriers.

Fourteen counties were not receiving any Phase I data in 2002. Yancey County does not have enhanced wireline 911 and does not receive funding from the Enhanced Wireless 911 fund. Northampton and Hertford Counties were upgrading their 911 equipment and were expected to be receiving Phase I data by the first quarter of 2003. The remaining eleven counties, Anson, Cherokee, Clay, Graham, Jackson, Macon, Madison, Mitchell, Swain, Transylvania, and Union were in the process of resolving connectivity issues with their respective Local Exchange Carriers (LEC) with anticipated resolution by the end of the first quarter of 2003.

As of December 31, 2002, 30 PSAPs have requested Phase II (actual location identification) service from the CMRS providers. Only one carrier, Sprint PCS, had deployed Phase II technology in one county (Johnston County) by the end of the 2002 calendar year.

Of the eleven wireless carriers operating in North Carolina, three have submitted initial Phase II cost elements. For the next three years, Phase II deployment costs for these three carriers will exceed $47,000,000. Cost for the remaining eight carriers are expected to be submitted by the second quarter of 2003.

Please note that on March 11, 2003, the ITS CFO sent to Michele Nelson of Fiscal Research a five-page document in response to her inquiry regarding the Enhanced Wireless 911 Fund. I have sent you a copy of this report via e-mail.

If you have any questions, or need additional information, please contact me.

ATTACHMENT 7

North Carolina Department of Revenue

Michael F. Easley
Governor

E. Norris Tolson
Secretary

March 3, 2003

Mr. James Johnson
Director
Fiscal Research Division
North Carolina General Assembly
Raleigh, NC 27601

Dear Mr. Johnson:

This letter transmits the report on William S. Lee Act Article 3A credits that the Department of Revenue is required to publish by March 1 of each year under G.S. 105-129.6(b).

As required, the report includes information on all 3A credit-eligible returns processed during the 12-month period ending December 31, 2003. It should be noted that the information provided reflects the amounts shown by taxpayers on their tax forms and has not been audited to eliminate returns for which credits were erroneously claimed. As such, the actual amounts of credits generated and claimed by taxpayers during this period may eventually be lower than the amounts shown in this report after the returns are subjected to the standard audit process.

All of the returns included in this report were received and processed during calendar year 2002. It should be noted that some of the returns were submitted for the 2001 tax year, while others were submitted for previous tax years. Summary tables are included in the report showing how much of the total credits claimed are attributable to each tax year. In addition to the summary tables, the following detailed tables are included:

(1) An itemized listing by taxpayer and enterprise tier of the new jobs for which credits were generated.
(2) An itemized listing by taxpayer and enterprise tier of the cost of machinery and equipment for which credits were generated.
(3) An itemized listing by taxpayer of the number of new jobs created by businesses located in development zones, and the percentage of jobs at those locations that were filled by residents of the zones.
(4) An itemized listing by taxpayer and enterprise tier of the amount of worker training expenditures for which credits were generated.

P.O. Box 25000, Raleigh, North Carolina 27640
State Courier 51-71-00
An Equal Opportunity Employer

(5) An itemized listing by taxpayer and enterprise tier of the amount of new research and development expenditures for which credits were generated.
(6) An itemized listing by taxpayer and enterprise tier of the cost of real property investment for which credits were generated.
(7) An itemized listing for each taxpayer of the amount of credits claimed by type of credit.

The report does not provide any itemized listing of credits claimed by enterprise tier because this information is not available from the tax credit forms submitted by taxpayers. When the Department developed the reporting forms for the Lee Act credits during the 1990's, there was no requirement that the Department provide information about the number and amount of credits claimed by tier. In developing the forms for claiming Lee Act credits, the Department chose to ease the reporting burden on taxpayers by allowing all claims for each type of credit to be reported on a single form. This form does not require the taxpayer to indicate what portion of the credits claimed is attributable to activities in each tier. As such, we are not able to provide information on credits claimed by enterprise tier.

If you should have any questions regarding this report, please contact Karl Knapp, Director of the Tax Research Division, at 733-7722.

Sincerely,

E. Norris Tolson
Secretary of Revenue

House Committee on Finance

Minutes
April 3, 2003

The House Committee on Finance met on Thursday, April 3, 2003 at 8:30am in Room 544 of the Legislative Office Building. The following members were present: Chairpersons G. Allen, Howard, Luebke, McComas, and Miner; Vice-Chairs Alexander, Decker, and Hill; and Representatives Blackwood, Bordsen, Carney, Creech, Hackney, Holliman, Jones, Lewis, McCombs, McGee, Munford, Rayfield, Ross, Setzer, Starnes, Weiss, Womble, and Cunningham. Also present were Sergeant-at-Arms staff Bob Fowler, Bill Freeman, Dusty Rhodes, and Walter Spell. Staff persons present included Cindy Avrette, Richard Bostic, David Crotts, Trina Griffin, and Martha Walston. The Agenda and Visitor Registration Sheet are attached and incorporated into these minutes as attachments 1 and 2.

Chairman McComas called the meeting to order at 8:30 a.m. He then recognized the pages for the meeting. Two pages were in attendance: Sarah Robertson of Stokes County, sponsored by Representative Rex Baker; and Chelsea Sigmon of Watauga County, sponsored by Representative Gene Wilson.

Prior to action on the agenda, Chairman McComas made two short announcements. First, he informed the committee members that House Bill 690 – Leland Occupancy Tax – had been referred to the House Finance Subcommittee on Occupancy Taxes. Secondly, he announced the creation of the House Finance Subcommittee on "Tax and Tags" and appointed the following representatives as its members: Representative McCombs (Chair), Representative Decker, and Representative Womble.

As the first item of business on the agenda, the Chair recognized Senator Clodfelter to explain Senate Bill 51 – CLOSE FRANCHISE TAX LOOPHOLE (see attachment 3). Senator Clodfelter informed the committee members that this bill acts to close a corporate tax loophole that companies are using deliberately to avoid paying their share of taxes to the government. The Chair then opened the floor to questions for Senator Clodfelter. Representative Rayfield was recognized and asked the Senator if he had any idea how many tax dollars were being lost due to this loophole. The Senator stated he had no idea and that it was very difficult to measure such an amount.

The Chair then recognized Representative Luebke who made a motion that the Committee give a favorable report to SB 51. Representative Creech, however, disagreed with this motion and clearly stated his feeling that the bill was "wrong." He continued by stating that companies are using this loophole as a "tax deduction," and that it is legal and rather then closing these holes, the Committee should be providing more of these tax benefits for companies. Representative Luebke rebutted this argument by stating that it was not fair for most working individuals, who typically have far less income than companies, to be responsible for the majority of the tax base. Rep. Luebke then

reasserted his motion for a favorable report to SB 51. Chairman McComas than called for a vote and the motion carried.

Staffperson Richard Bostic was next on the agenda to continue his presentation on the NC Individual Income Tax (see attachments 4 & 5). This portion of the presentation focused on current tax rates, including credits in specific areas (i.e. agricultural, environmental, real property, developmental), a comparison of North Carolina and other states in the nation, as well as individual exemptions and exclusions. At the conclusion of his presentation, discussion ensued among the members as to immigrants illegally using government programs and services and evading income tax responsibilities.

The Chair next recognized staffperson David Crotts for his presentation on the NC Corporate Income Tax (see attachment 6). This tax was first established in 1921 and North Carolina was one of the first states to begin using it. Mr. Crotts discussed the history of the tax in the state, specifically on rates over the years and how the tax is associated with the Bill Lee Act, which was started in 1996 and continues today. He made a number of interesting comments on the status of the Corporate Income Tax in North Carolina, several of which are detailed below:

- Corporate Income Taxes are extremely difficult to forecast due to highly volatile profit margins, cash flow issues, and poor or inconsistent account management.
- Corporate tax burdens have fallen, just as many other taxes, due to the fact that personal income tax rates have risen dramatically, while other taxes (including the corporate tax) have not.
- North Carolina's corporate tax burden is relatively high at 6.9%. However, with the total combined tax burden (including the property tax and all other taxes), NC holds a low tax burden overall. On the whole then, the cost of business in NC is far lower than most areas.

Mr. Crotts also discussed a handout of new information that was available on business tax incentives from 1996-2002 in North Carolina (see attachment 7).

Chairman McComas then thanked Mr. Crotts for his presentation and opened the floor for other questions or announcements from the committee. Hearing none, the Chair adjourned the meeting at 9:50 a.m. and reminded the members that the committee would reconvene on the following Tuesday, April 8, 2003 at 8:30 am in the same location.

Respectfully submitted,

Representative Danny McComas
Presiding Chair

Jason A. Cannon
Assistant to Committee on Finance

SESSION 2003

S 1

SENATE BILL 51

Short Title:	Close Franchise Tax Loophole.	(Public)
Sponsors:	Senator Clodfelter.	
Referred to:	Finance.	

February 17, 2003

A BILL TO BE ENTITLED

AN ACT TO CLOSE A LOOPHOLE THAT ALLOWS CORPORATIONS TO CONTINUE AVOIDING FRANCHISE TAXES.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 105-114.1 reads as rewritten:

"**§ 105-114.1. Limited liability companies.**

(a) Definitions. – The definitions in G.S. 105-130.7A apply in this section. In addition, the following definitions apply in this section:

(1) Governing law. – A limited liability company's governing law is determined under G.S. 57C-6-05 or G.S. 57C-7-01, as applicable.

(2) Owned indirectly. – A person owns indirectly assets of a limited liability company if the limited liability company's governing law provides that seventy percent (70%) or more of its assets, after payments to creditors, must be distributed upon dissolution to the person as of the last day of the principal corporation's taxable year.

(3) Principal corporation. – A corporation that is a member of a limited liability company or has a related member that is a member of a limited liability company.

(b) Controlled Companies. – If a corporation or a related member of the corporation is a member of a limited liability company and the principal corporation and any related members of the principal corporation together own indirectly seventy percent (70%) or more of the limited liability company's assets, then the following provisions apply:

(1) A percentage of the limited liability company's income, assets, liabilities, and equity is attributed to that principal corporation and must be included in the principal corporation's computation of tax under this Article.

(2) The principal corporation's investment in the limited liability company is not included in the principal corporation's computation of tax under this Article.

(3) The attributable percentage is equal to the percentage of the limited liability company's assets owned indirectly by the principal corporation divided by the percentage of the limited liability company's assets owned indirectly by related members of the principal corporation that are corporations.

(b1) Attribution. – For the purpose of applying this section, any membership interest a business trust holds in a limited liability company is attributed to the owners of the beneficial interests in the business trust, according to their interests in the trust, and the trust itself is disregarded as a separate entity.

(c) Other Companies. – In all other cases, none of the limited liability company's income, assets, liabilities, or equity is attributed to a principal corporation under this Article.

(d) Penalty. – A taxpayer who, because of fraud with intent to evade tax, underpays the tax under this Article on assets attributable to it under this section is guilty of a Class H felony in accordance with G.S. 105-236(7)."

SECTION 2. This act becomes effective January 1, 2004, and applies to taxes due on or after that date.

SENATE BILL 51:
Close Franchise Tax Loophole

BILL ANALYSIS

Committee:	House Finance	**Introduced by:**	Sen. Clodfelter
Date:	April 3, 2003	**Summary by:**	Cindy Avrette
Version:	1st Edition		Staff Attorney

SUMMARY: ***Senate Bill 51 further tightens legislation enacted in 2001 intended to close a loophole that allows corporations to escape franchise tax by transferring assets to a controlled LLC. Senate Bill 51 provides that any membership interest a business trust holds in a LLC is attributed to the owners of the beneficial interests in the trust, according to their interests in the trust. The bill becomes effective January 1, 2004, and applies to taxes due on or after that date.***

CURRENT LAW: Under North Carolina law, limited liability companies[1] (LLCs) are not subject to the franchise tax. In 1997, the North Carolina law regarding LLCs was changed to allow for a single-member LLC. This change had the unintended consequence of allowing a corporation subject to North Carolina franchise tax to set up an LLC and transfer assets to the LLC in a tax-free transfer. The assets then held by the LLC would not be subject to the franchise tax. Thus, the corporation could avoid a significant portion of its franchise tax liability by transferring assets into a wholly owned LLC subsidiary without affecting its income tax liability.

In 2001, the General Assembly enacted S.L. 2001-327 to close this loophole. The 2001 legislation tried to address this problem by requiring a corporation to pay tax on assets owned by the LLC if the corporation, including its affiliated corporations, indirectly owned[2] at least 70% of the LLC's assets. Unfortunately, tax planners found that the tax could still be avoided by using an additional paper transaction. If the corporation interposed a partnership between itself and the LLC holding its assets, then technically the 2001 legislation would not apply and the assets would continue to escape franchise tax.

In 2002, the General Assembly enacted S.L. 2002-126 to tighten the 2001 legislation. The 2002 legislation included "related members" (other entities and individuals) who may partner with one or more corporate entities to own the LLC to which the corporate assets are transferred. "Related members" is a defined term and includes shareholders, partnerships, etc. If a corporation and its related members together indirectly own at least 70% of an LLC's assets, the 2002 legislation provides that each corporation pays franchise tax on its relative share of the LLC's assets. The relative share is calculated after excluding those related members who are not corporations. Thus, the entire assets are subject to franchise tax, with the tax burden shared proportionally by the corporations that are involved in the ownership scheme.

BILL ANALYSIS: Senate Bill 51 recognizes that there exists other paper transactions that can be interposed between the corporation and the LLC in order to circumvent the applicability of the franchise tax to the assets of the corporation. One such entity is the business trust. A business trust is not considered a related member, as that term is defined in G.S. 105-130.7A, because it would be the

[1] A limited liability company is a business entity that is essentially a hybrid of a partnership and a corporation. Like a corporation, an LLC limits the liability of its owners. Like a partnership, an LLC is usually not subject to entity-level taxation.

[2] Indirect ownership of an LLC's assets is determined based on who is entitled to receive those assets upon dissolution of the LLC.

corporation, not the shareholders, who forms the trust. Senate Bill 51 provides that for purposes of determining the ownership of a LLC's assets, any membership interest of a business trust would be attributed to the owners of the beneficial interest in the business trust, according to their interests in the trust, and the trust itself would be disregarded as a separate entity.

BACKGROUND: The State franchise tax is among the oldest taxes in North Carolina. It is a tax on S Corporations and C Corporations for the privilege of doing business in the State. The tax rate is $1.50 per $1,000 of value of the greatest of (1) apportioned net book value of the corporation; (2) 55% of appraised value of real and tangible personal property in N.C.; or (3) total actual investment in tangible property in N.C.

The Department of Revenue, in its reports to the Revenue Laws Study Commission, noted that there exists a general franchise tax inequity because the imposition of the tax depends on the type of entity. The Governor's Commission to Modernize State Finances recommended that the State impose the franchise tax on all types of business entities, not just on traditional corporations. The Commission recommended that the revenues generated from this base broadening could be used to establish a minimum net worth threshold for payment of the tax.

NORTH CAROLINA GENERAL ASSEMBLY

LEGISLATIVE FISCAL NOTE

BILL NUMBER: SB 51 (1st Edition)

SHORT TITLE: Close Franchise Tax Loophole

SPONSOR(S): Senator Clodfelter

FISCAL IMPACT

Yes ( ) **No ( )** **No Estimate Available (x)**

PRINCIPAL DEPARTMENT AFFECTED: The franchise tax is collected by the Department of Revenue. The enactment of the bill should not affect the budget requirements of the Department.

EFFECTIVE DATE: Applies to taxes due on or after January 1, 2004.

ISSUE BACKGROUND: During the last two legislative sessions, the General Assembly has enacted legislation that attempted to close loopholes in the corporation franchise tax that allowed corporations to minimize their tax liability by transferring potentially taxable assets to a controlled limited liability company (LLC). This occurs because LLCs are not subject to the franchise tax.

The 2001 bill required a corporation to include a LLC's assets in its franchise tax base if the corporation is entitled to receive 70% or more of the assets of the LLC upon dissolution of the LLC. However, it was discovered after the 2001 session that if the corporation interposed a partnership between it and the LLC holding its assets, the 2001 change would not apply and the assets would continue to escape taxation.

The 2002 bill attempted to address this issue by broadening the 2001 legislation to include "related members" (other entities and individuals) who may form a partnership with one or more corporate entities to own the LLC to which the corporate assets are transferred. "Related members" include shareholders, partnerships, etc. The legislation provided that if a corporation and its related members together indirectly own at least 70% of an LLC's assets, each corporation pays franchise tax on its relative share of the LLCs assets. The relative share is calculated after excluding those related members who are not corporations.

Since the implementation of the 2002 change, the Department of Revenue has become concerned that the use of a business trust to hold the assets allows the franchise tax to be avoided.

BILL SUMMARY: Provides that any membership interest that a business trust holds in an LLC is attributed to the owners of the beneficial interest in the trust for purposes of determining franchise tax liability.

ASSUMPTIONS AND METHODOLOGY: A discussion with the Department of Revenue indicated that there is no data available on this issue.

Corporate Income Tax History: Major Events

- North Carolina's broad-based corporate income tax was first established in 1921 during the beginning of the state fiscal revolution. North Carolina was one of first states to adopt the tax.
- The original tax rate was 3%. By 1933, the rate was up to 6%.
- A nationally-accepted method for apportioning the income of multistate corporations was adopted in 1937.
- In 1987, the rate was raised to 7%, with 50% of increase used for school facilities aid and the remainder for inventory tax reimbursement.
- During the budget crisis of 1991, the base rate was adjusted to 7.75%. In addition, a temporary surtax pushed the rate to 8.06%. The surtax was phased out over 4 years.
- The 1996 General Assembly lowered the rate to 6.9% over 4 years.

(Over)

ATTACHMENT 6

Corporate Income Tax History: Major Events (Continued)

- In 1996, the General Assembly adopted a package of corporate incentives (Bill Lee Act) to address the loss of highly publicized major companies to other states in the region. The package included tax credits for investment in machinery/equipment, job creation, R&D, and worker training.
- During the 1997-2002 sessions, the Bill Lee Act was modified and incentives to recruit specific companies were added.
- In 1998 the apportionment formula for allocating the U.S. taxable income of multistate corporations was adjusted to give preference to home state manufacturers.
- In both the 2001 and 2002 sessions, actions were taken to close loopholes in tax base (royalty income, nonbusiness income).
- The 2002 General Assembly approved the Job Development Investment Grant program. Under this program, a limited number of highly-prized companies would receive grants of up to 75% of withholding payments if they met specific performance objectives.

Observations on the Corporate Income Tax

- This tax is the most difficult tax to forecast due to the volatility of corporate profits, varying accounting and financial reporting practices, and cash flow issues.
- The share of the General Fund tax base from the corporate income tax has fallen substantially over the last few decades. This tracks pattern of most General Fund taxes. The primary reason has to do with the structure of the personal income tax. This structure (fixed personal exemptions and standard deduction, progressive rate schedule) leads to revenue growth in excess of economic growth. Over time, this lowers the relative burden of most other taxes.
- North Carolina's corporate tax rate of 6.9% is relatively high. However, low property taxes bring the combined state and local tax burden ranking down substantially (11th highest out of 15 Southeastern states).
- Due to the proliferation of corporate tax loopholes, many long-term observers are suggesting that business tax system should be converted from "ability to pay" (net income) to "benefits received" basis (gross receipts).

House Committee on Finance

Minutes

~

April 8, 2003

The House Committee on Finance met on Tuesday, April 8, 2003 at 9:00am in Room 544 of the Legislative Office Building. The following members were present: Chairpersons G. Allen, Howard, Luebke, Miner, and Wainwright; Vice-Chairs Alexander, Decker, Gibson, and Hill; and Representatives Blackwood, Bordsen, Capps, Carney, Creech, Glazier, Hackney, Holliman, Jones, Lewis, McCombs, McGee, Munford, Rayfield, Ross, Setzer, Starnes, Weiss, Womble, and Cunningham. Also present were Sergeant-at-Arms staff Bob Fowler, Bill Freeman, Dusty Rhodes, and Bill Sullivan. Staff persons present included Richard Bostic, Trina Griffin, Linda Millsaps, and Martha Walston. Three pages were also present: Mary Armstrong of Nash County, sponsored by Representative Joe Tolson; Meghan Dawson of Cumberland County, sponsored by Representative Marvin Lucas; and Brett Jarrett of Lincoln County, sponsored by Representative Joe Kiser. The Agenda and Visitor Registration Sheet are attached and incorporated into these minutes as attachments 1 and 2.

Chairman Miner called the meeting to order at 9:05am and immediately recognized Senator Weinstein for an explanation of SB 396 – RAEFORD ANNEXATION (see attachment 3). This bill acts specifically to annex the right-of-way of McMillan Street to the Corporate Limits of the City of Raeford. Following the explanation, the Chair recognized Representative Hill who made a motion for a favorable report. Having no other discussion, the Chairman called the vote and the motion passed with no known opposition. The Chair thanked Senator Weinstein for his time and was informed by the Senator that Representative Young would be handling the discussion of this bill (SB 396) on the House floor.

The Chair next recognized Representative Hill to explain SB 419 – CHADBOURN ANNEXATION (in lieu of Senator Soles, the bill sponsor, as Representative Hill has filed an identical bill in the House) (see attachment 4). Representative Hill answered only a few questions from members. Representative Rayfield then made a motion for a favorable report. Upon the Chair's call for the vote, the motion passed unanimously.

Chairman Miner once again recognized Representative Hill to explain HB 685 - INCORPORATE SUNSET HARBOR (see attachment 5). This local bill incorporates the Town of Sunset Harbor in Brunswick County and enacts a charter setting out the powers and duties of the Town. Under this charter the Town would have the power to tax and would be governed by the Mayor-Council form of government. Chairman Miner recognized members for questions on the bill. By a motion of Representative Alexander, the committee voted a favorable report to the bill.

For the next bill up for discussion, the Chair recognized the bill sponsor, Representative Howard, to explain HB 328 – AMEND REAL ESTATE LICENSING LAWS/FEES. This bill makes a number of changes concerning the practice and licensure of North Carolina Realtors and is best summarized in the attached bill analysis (see attachment 6). The Chair then opened the floor to committee members for questions. Representative Hill quickly moved for favorable report. Several questions from members, however, were first posed to Representative Howard and Ms. Miriam Baer, General Counsel to the North Carolina Real Estate Commission. Representative Womble questioned if the changeover to computer testing would be the only method available. That is, would paper tests be available to those individuals specially requesting them. Representative Howard responded that only those persons with "special disabilities" would technically be eligible for another method of testing other than by computer. Representative Howard also stated that the Real Estate industry is one that has become so proficient with the regular use of computers, that only a small minority of those taking the tests would have a desire for a paper test. Ms. Baer complemented Representative Howard's sentiments by stating that of those few that could possibly want a paper test, the Commission would accommodate their preference when possible. The Chair then reminded members of the Committee of the outstanding motion of Representative Hill for a favorable report to the bill. Chairman Miner called the vote and the motion passed, the only dissention known from Representative Creech.

The Chairman then recognized Representative Haire to explain HB 790 – INCORPORATE CASHIERS (see attachment 7). This bill acts to repeal the charter of the Town of Cashiers because the Town has been inactive since its' incorporation but also acts to incorporate Cashiers as a Village. Chairman Miner opened the floor for discussion and recognized Page Bernstein, resident of Cashiers, who was present to answer any questions of the committee members. Without further discussion, the Chair recognized Representative Weiss who moved that the Committee offer a favorable report. With no known opposition, the motion carried.

Having no further business before the Committee, Chairman Miner adjourned the meeting at 9:27am.

Respectfully submitted,

Representative David Miner
Presiding Chair

Jason A. Cannon
Assistant to Committee on Finance

GENERAL ASSEMBLY OF NORTH CAROLINA

SESSION 2003

S 1

SENATE BILL 396

Short Title:	Raeford Annexation.	(Local)
Sponsors:	Senator Weinstein.	
Referred to:	Finance.	

March 13, 2003

A BILL TO BE ENTITLED

AN ACT TO ANNEX THE RIGHT-OF-WAY OF MCMILLAN STREET TO THE CORPORATE LIMITS OF THE CITY OF RAEFORD.

The General Assembly of North Carolina enacts:

SECTION 1. The corporate limits of the City of Raeford are extended to include the following described property:

A certain tract or parcel of land in Raeford Township, Hoke County, North Carolina, adjacent to the City of Raeford, being further described as follows:

Beginning at an iron pipe on the southeast side of N.C.S.R. No. 1463, McMillan Street, said iron pipe being the west corner of the Franklin Kemp Crumpler tract described in Deed Book 456, at Page 803 in the Hoke County Registry and shown as Tract No. 1 on a plat entitled "Survey for Linwood E. Huffman and wife, Helen H. Huffman" and recorded in Slide 397, Map No. 006, said beginning corner also being the north corner of the Harold Keith Jackson 3.902 acre tract as described in Deed Book 351, at Page 316 and shown on a plat entitled "Survey for Harold Keith Jackson" and recorded in Slide 386, at Map No. 007;

THENCE from the beginning as line of Harold Keith Jackson, South 45 degrees 43 minutes 55 seconds West for a distance of 230.03 feet to a rebar;

THENCE as line of Jackson, South 42 degrees 24 minutes 32 seconds West for a distance of 99.99 feet to a rebar;

THENCE as a line of Jackson, South 32 degrees 26 minutes 07 seconds West for a distance of 116.96 feet to an iron pipe, a common corner of Harold Keith Jackson and Emmett Steele, Jr. (D.B. 351, Pg. 305);

THENCE as line of Steele, South 28 degrees 25 minutes 33 seconds West for a distance of 82.77 feet;

THENCE as a line of Steele, South 10 degrees 31 minutes 07 seconds West for a distance of 100.00 feet;

THENCE as line of Steele, South 03 degrees 16 minutes 07 seconds West for a distance of 48.00 feet to a flat iron, a common corner of said Emmett Steele, Jr. tracts described in Deed Book 351, at Page 305 and Deed Book 340, at Page 342;
THENCE as a line of Steele (D.B. 340, Pg. 342), South 03 degrees 16 minutes 07 seconds West for a distance of 210.00 feet to the southwest corner of Steele in the north right of way line of Prospect Avenue;
THENCE crossing N.C.S.R. No. 1463, McMillan Street, North 76 degrees 54 minutes 08 seconds West for a distance of 40.60 feet to the intersection of the north right of way of Prospect Avenue and the west right of way line of McMillan Street, the southeast corner of James E. Douglas (D.B. 128, Pg. 051);
THENCE as the east line of Douglas, the east line of Lot No. 1 as shown on a plat entitled "Subdivision of Raeford Power and Manufacturing" and recorded in Map Book 3, at Page 76, North 03 degrees 04 minutes 40 seconds East for a distance of 218.62 feet to an iron pipe, the northeast corner of Douglas;
THENCE as the east line of the James Douglas' Lot No. 1-A, Subdivision of Raeford Power and Manufacturing, North 03 degrees 22 minutes 07 seconds East for a distance of 200.25 feet to an iron pipe, the northeast corner of the James Douglas Lot No. 1-A and the southeast corner of the James E. Douglas tract described in Deed Book 212, at Page 123;
THENCE as a southeast line of Douglas (D.B. 212, Pg. 123A), North 37 degrees 09 minutes 39 seconds East for a distance of 173.52 feet to a corner of Douglas;
THENCE continuing as a southeast line of Douglas, North 43 degrees 15 minutes 43 seconds East for a distance of 83.95 feet to an iron rod, a common corner of Douglas and Lot No. 27 as shown on a plat entitled "Highlanders Crossing - Phase One" as recorded in Slide 2-48, Plat No. 006;
THENCE as the southeast line of Lot No. 27, North 46 degrees 43 minutes 39 seconds East for a distance of 100.45 feet to a rebar, a common corner of Lot Nos. 27 and 28;
THENCE as the southeast line of Lot No. 28, North 47 degrees 06 minutes 27 seconds East for a distance of 150.02 feet to a rebar, a common corner of Lot Nos. 28 and 29;
THENCE as the southeast line of Lot No. 29, North 47 degrees 06 minutes 03 seconds East for a distance of 154.48 feet to a rebar, the east corner of Lot No. 28;
THENCE North 47 degrees 02 minutes 10 seconds East for a distance of 60.00 feet to a rebar, the south corner of Lot No. 30;
THENCE as the southeast line of Lot No. 30, North 47 degrees 02 minutes 57 seconds East for a distance of 150.03 feet to a rebar, a common corner of Lot No. 30 and the W.E. Carter 0.189 acre tract described in Deed Book 409, at Page 494;
THENCE as the southeast line of Carter, North 47 degrees 03 minutes 31 seconds East for a distance of 89.65 feet to a rebar, a corner of said Carter 0.189 acre tract in a south line of the W.E. Carter tract described in Deed Book 218, at Page 158;
THENCE as the south line of Carter, North 77 degrees 57 minutes 08 seconds East for a distance of 84.84 feet to an iron pipe, a corner of the Franklin Kemp Crumpler tract as described in Deed Book 360, at Page 429 and shown as Tract No. 2, 4.18 acres on the aforementioned "Survey for Linwood E. Huffman and Helen H. Huffman" plat (Slide 397, Map No. 006);

THENCE as a common line with Crumpler, South 50 degrees 56 minutes 46 seconds West for a distance of 99.45 feet to an iron, a corner of Crumpler;
THENCE as a northwest line of Crumpler, South 44 degrees 59 minutes 48 seconds West for a distance of 319.80 feet to a rebar, a common corner of the aforementioned Franklin Kemp Crumpler tracts (D.B. 360, Pg. 429, and D.B. 456, Pg. 803);
THENCE as a line of Crumpler, South 44 degrees 59 minutes 48 seconds West for a distance of 105.00 feet to the beginning.
Said property contains 1.596 acres more or less.

SECTION 2. This act is effective when it becomes law.

SENATE BILL 396:
Raeford Annexation

BILL ANALYSIS

Committee:	House Finance	**Introduced by:**	Sen. Weinstein
Date:	April 8, 2003	**Summary by:**	Trina Griffin
Version:	1st Edition		Committee Counsel

SUMMARY: ***Senate Bill 396 annexes the right-of-way of McMillan Street to the corporate limits of the City of Raeford. The bill would become effective when it becomes law.***

CURRENT LAW: Annexation is one method that a city or town may employ to extend its corporate limits, and the process must be done in accordance with Article 4A of Chapter 160A. Annexation may be either voluntary or involuntary. A voluntary annexation requires that the governing board of a municipality pass an ordinance upon presentation of a petition signed by the owners of all real property within the area to be annexed. An involuntary annexation requires, among other things, that the property meet certain characteristics:

- The area to be annexed must be adjacent or contiguous to the municipality's boundaries.
- At least 1/8 of the aggregate external boundaries of the area must coincide with the municipal boundary; and
- No part of the area may be included within the boundary of another incorporated municipality.

In addition to the requirements concerning location of the area in relation to the municipality's existing boundaries, the area must also be "developed for urban purposes" by meeting one of several standards concerning population, density, and development.

If the property does not meet the statutory requirements for annexation, the municipality does not have the authority to annex the area. However, the General Assembly can extend the corporate limits of a municipality to encompass areas that the municipality would not statutorily have the authority to annex.

BILL ANALYSIS: Senate Bill 396 annexes the right-of-way of McMillan Street to the corporate limits of the City of Raeford. This street, approximately 1.6 acres, is a dead-end street with both the beginning point and ending point of the street already annexed to the city limits. Currently, the Department of Transportation has possession of and maintains the street. The city is seeking to annex this property so it can pave the street. The reason that the city is seeking to annex this property by legislation rather than by petition is because the DOT does not ordinarily make requests to have property annexed.

2003 COMMITTEE REPORT
HOUSE OF REPRESENTATIVES

The following report(s) from standing committee(s) is/are presented:
By Representatives **G. Allen, Howard, Luebke, McComas, Miner, and Wainwright** (Chairs) for the Committee on **FINANCE**.

☐ Committee Substitute for
S.B. 396 A BILL TO BE ENTITLED AN ACT TO ANNEX THE RIGHT-OF-WAY OF MCMILLAN STREET TO THE CORPORATE LIMITS OF THE CITY OF RAEFORD.

SESSION 2003

S 1

SENATE BILL 419*

Short Title:	Chadbourn Annexation.	(Local)
Sponsors:	Senator Soles.	
Referred to:	Finance.	

March 17, 2003

A BILL TO BE ENTITLED

AN ACT TO ADD CERTAIN PROPERTY TO THE CORPORATE LIMITS OF THE TOWN OF CHADBOURN.

The General Assembly of North Carolina enacts:

SECTION 1. The following described property is added to the corporate limits of the Town of Chadbourn:

Beginning at an iron stake, said stake being located in the southeastern corner of the lands hereinafter described and said beginning stake being further located north 86 degrees 47 minutes west 300.00 feet to an iron stake located in the western margin of S.R. 1562, which stake is located north 2 degrees 35 minutes east 182.93 feet from a right-of-way monument which right-of-way monument is located north 14 degrees 48 minutes east 218.63 feet from another right-of-way monument which is located in the northwestern corner of the intersection of S.R. 1562 and U.S. Highway 76 bypass, and runs thence from the beginning stake and with one of Ralph Nance's lines north 2 degrees 33 minutes east 200.00 feet to an iron stake, and runs thence north 86 degrees 47 minutes west 200.00 feet to an iron stake; and runs thence south 2 degrees 33 minutes west 200.00 feet to an iron stake, and runs thence south 86 degrees 47 minutes east 200.00 feet to an iron stake, the point of beginning and containing 0.92 acres, more or less.

SECTION 2. This act is effective when it becomes law.

SENATE BILL 419:
Chadbourn Annexation

BILL ANALYSIS

Committee:	House Finance	**Introduced by:**	Sen. Soles
Date:	April 8, 2003	**Summary by:**	Trina Griffin
Version:	1st Edition		Committee Counsel

SUMMARY: ***Senate Bill 419 annexes certain noncontiguous property to the corporate limits of the Town of Chadbourn. The act is effective when it becomes law.***

CURRENT LAW: G.S. 160A-58.1 governs the voluntary annexation by a municipality of noncontiguous property. All property owners in the satellite area[1] may petition for voluntary annexation of the noncontiguous property if the property meets the following five standards in G.S. 160A-58.1(b):

1. The nearest point on the proposed satellite corporate limits must be not more than three miles from the primary corporate limits of the annexing city.
2. No point on the proposed satellite corporate limits may be closer to the primary corporate limits of another city than to the primary corporate limits of the annexing city.
3. The area must be so situated that the annexing city will be able to provide the same services within the proposed satellite corporate limits that it provides within its primary corporate limits.
4. If the area proposed for annexation, or any portion thereof, is a subdivision as defined in G.S. 160A-376, all of the subdivision must be included.
5. The area within the proposed satellite corporate limits, when added to the area within all other satellite corporate limits, may not exceed 10% of the area within the primary corporate limits of the annexing city.

If the property does not meet the statutory requirements for annexation, the municipality does not have the authority to annex the area. However, the General Assembly can extend the corporate limits of a municipality to encompass areas that the municipality would not statutorily have the authority to annex.

BILL ANALYSIS: Senate Bill 419 annexes slightly less than 1 acre of property to the corporate limits of the Town of Chadbourn. Although the annexation is voluntary, the annexation is not being done by petition because the Town does not have the funds to extend water and sewer services to this property, which is a requirement under G.S. 160A-58.1(b)(3). However, there is only one owner involved, and he has requested that the property be annexed. The Town Manager has also indicated that there is no known opposition to the annexation.

[1] G.S. 160A-58.4 provides that satellite corporate limits cannot be considered a part of a municipality's corporate limits for purposes of its ETJ. Therefore, satellite annexations have no effect upon a municipality's ETJ.

GENERAL ASSEMBLY OF NORTH CAROLINA
SESSION 2003

H 1

HOUSE BILL 685*

Short Title:	Incorporate Sunset Harbor.	(Local)
Sponsors:	Representative Hill.	
Referred to:	Finance.	

March 26, 2003

A BILL TO BE ENTITLED

AN ACT TO INCORPORATE THE TOWN OF SUNSET HARBOR.

The General Assembly of North Carolina enacts:

SECTION 1. A Charter for the Town of Sunset Harbor is enacted to read:

"CHARTER OF THE TOWN OF SUNSET HARBOR.

"ARTICLE I. INCORPORATION AND CORPORATE POWERS.

"Section 1.1. **Incorporation and Corporate Powers.** The inhabitants of the Town of Sunset Harbor are a body corporate and politic under the name 'Town of Sunset Harbor'. The Town of Sunset Harbor has all the powers, duties, rights, privileges, and immunities conferred and imposed upon cities by the general laws of North Carolina.

"ARTICLE II. CORPORATE BOUNDARIES.

"Section 2.1. **Town Boundaries.** Until modified in accordance with the law, the boundaries of the Town of Sunset Harbor shall be as follows:

BEGINNING at a point in the run of Mercer's Mill Pond Creek where said run of Mercer's Mill Pond Creek is intercepted by the southern boundary of River Run Plantation, as the same is shown on plats of River Run Plantation recorded in the Brunswick County Registry, as extended to the west; thence running eastwardly with the southern boundary of River Run Plantation as the same is shown on plats of River Run Plantation recorded in the Brunswick County Registry; thence across Sunset Harbor Road (State Road #1112) to the western boundaries of the Old Swain Property; thence southwardly with the western boundary of the Old Swain Property to a point where said extended line intersects with the boundary line of Lockwood Folly Township and Smithville Township in the U. S. Intracoastal Waterway, thence westwardly with the boundary line of Lockwood's Folly Township and Smithville Township in the U.S. Intracoastal Waterway, back to the run of Mercer's Mill Pond Creek; thence continuing with the run of Mercer's Mill Pond Creek, to a point in the run of Mercer's Mill Pond Creek where said run of Mercer's Mill Pond Creek is intercepted by the southern boundary of River Run Plantation, as the same is shown on plats of River Run

Plantation recorded in the Brunswick County Registry, as extended to the west, the place and point of beginning.

"ARTICLE III. GOVERNING BODY.

"Section 3.1. **Structure of Governing Body.** The governing body of Sunset Harbor shall be the Board of Aldermen, which shall have five members and a Mayor.

"Section 3.2. **Temporary Officers.** Until the organizational meeting after the initial election in 2003 provided for by Section 4.1 of this Charter, Elaina Darter is hereby appointed Mayor and Dennis Ruocco, Craig Howell, Jackie Haddon, Roger Comer, and Miles Edge are appointed members of the Board of Aldermen of the Town of Sunset Harbor, and they shall possess and exercise the powers granted to the governing body until their successors are elected or appointed and qualified pursuant to this Charter. If any person named in this section is unable to serve, the remaining temporary officers shall, by majority vote, appoint a person to serve until the initial municipal election is held in 2003.

"Section 3.3. **Manner of Electing Board of Aldermen; Terms of Office.** The qualified voters of the entire Town shall elect the members of the Board of Aldermen and, except as provided in this section, they shall be elected to two-year terms. In 2003, the two candidates receiving the highest numbers of votes shall be elected to four-year terms, and the three candidates receiving the next highest numbers of votes shall be elected to two-year terms. In 2005, and biennially thereafter, three members shall be elected to two-year terms. In 2007, and biennially thereafter, two members shall be elected to two-year terms.

"Section 3.4. **Manner of Electing Mayor; Term of Office.** The qualified voters of the entire Town shall elect the Mayor. In 2003, and biennially thereafter, the Mayor shall be elected for a term of two years.

"ARTICLE IV. ELECTIONS.

"Section 4.1. **Conduct of Town Elections.** Elections shall be conducted on a nonpartisan basis and the results determined by a plurality as provided in G.S. 163-292.

"ARTICLE V. ADMINISTRATION.

"Section 5.1. **Town to Operate Under Mayor-Council Plan.** The Town of Sunset Harbor will operate under the Mayor-Council plan as provided in Part 3 of Article 7 of Chapter 160A of the General Statutes.

"Section 5.2. **Ad Valorem Taxes.** The maximum ad valorem tax rate for the Town of Sunset Harbor is hereby established as ten cents (10¢) per one hundred dollars ($100.00) valuation, and the Board of Aldermen shall not increase that rate without the vote or consent of a majority of the qualified voters of the Town of Sunset Harbor."

SECTION 2. From and after the effective date of this act, the citizens and property in the Town of Sunset Harbor shall be subject to municipal taxes levied for the year beginning July 1, 2003, and for that purpose, the Town shall obtain from Brunswick County a record of property in the area incorporated in Section 1 of this act that was listed for taxes as of January 1, 2003. The Town may adopt a budget ordinance for fiscal year 2003-2004 without following the timetable in the Local Government Budget and Fiscal Control Act, but shall follow the sequence of actions in the spirit of the act insofar as is practical. For fiscal year 2003-2004, ad valorem taxes may be paid

at par or face amount within 90 days of adoption of the budget ordinance and thereafter in accordance with the schedule in G.S. 105-360. If the effective date of incorporation is prior to July 1, 2003, the Town may adopt a budget ordinance for fiscal year 2002-2003 without following the timetable in the Local Government Budget and Fiscal Control Act, but shall follow the sequence of actions in the spirit of the act insofar as is practical. No ad valorem taxes may be levied for the 2002-2003 fiscal year.

SECTION 3. This act is effective when it becomes law.

HOUSE BILL 685:
Incorporate Sunset Harbor

BILL ANALYSIS

Committee:	House Finance	**Sponsor:**	Rep. Hill
Date:	April 8, 2003	**Analysis by:**	Martha Walston
Version:	1st Edition		Committee Counsel

SUMMARY: House Bill 685 is a local bill that incorporates the Town of Sunset Harbor in Brunswick County and enacts a charter setting out the powers and duties of the Town. The Joint Legislative Commission on Municipal Incorporations recommended incorporation of the Town in its report on February 12, 2003. The Commission concluded that the proposed Town met the standards required by Article 20 of Chapter 120 of the General Statutes.

BILL ANALYSIS: House Bill 685 incorporates the Town of Sunset Harbor under a mayor-council form of government. There will be five members of the Board of Alderman and a Mayor. Prior to the initial 2003 election, specifically named persons will serve as interim Mayor and the Board of Alderman. At the initial election, the Board of Alderman will be elected to staggered terms. The Mayor will serve a two-year term. Elections will be on a nonpartisan basis.

The maximum ad valorem tax rate will be 10¢ per $100 valuation. The rate may not be increased without the vote or consent of a majority of the qualified voters of the Town.

BACKGROUND: Article 20 of Chapter 120 of the General Statutes creates the Joint Legislative Commission on Municipal Incorporations and sets out the procedures for review of the statutory requirements for incorporation. The Commission, with the help of the Division of Community Assistance of the Department of Commerce, found that the proposed Town of Sunset Harbor satisfied the following requirements:

- The petition must be signed by 15% of the registered voters in the proposed area, but by not less than 25 registered voters. The petition was signed by 146 of the 298 voters in the proposed area. The Brunswick County Board of Elections verified the petition.
- The petition contained the necessary information, including a plan to provide a reasonable level of services and an ad valorem tax levy of at least 5¢ per $100 valuation. The Town proposes to provide fire protection, police protection, street lighting, and water distribution.
- The proposed area must have a permanent population of at least 100 and a population density (either permanent or seasonal) of at least 250 persons per square mile. The Town of Sunset Harbor contained a total population of 474 in the 2000 census. The Town is composed of an area of .626 square miles according to the Brunswick County Planning Department, resulting in a density of approximately 757 persons per square mile.
- At least 40% of the proposed area must be developed for residential, commercial, industrial, institutional, or governmental uses, or is dedicated as open space. 48.39% of the proposed Town of Sunset Harbor is developed.

Fiscal Reserach Report: Sunset Harbor Incorporation

Sales Tax Revenue Change:

Brunswick County distributes sales tax revenues on a per capita basis. This analysis uses 2000-01 actual sales tax distribution to show how that distribution would have changed had Sunset Harbor been incorporated at that time. (Note to create a more accurate representation, the population numbers have been adjusted in accordance with the 2000 census).

2. Powell Bill Allocation Change

Annually state street aid or Powell Bill allocations are made to incorporated municipalities which establish their eligibility and qualify as provided by G.S. 136-41.1-.3. The amount allocated to each municipality is based on both population and qualifying street miles within the municipality.

FY 2001-02 population based allocations assumed a total, statewide municipal population of 4,086,685 and available funds of $101,578,822.46. This created a per capita distribution rate of $ 24.86.

Adding the new population of Sunset Harbor (474) to the statewide total creates a new population of 4,087,132 and a per capita allocation of $24.853. The impact of this change on Brunswick municipalities is as follows:

Municipalities	Population	Current Allocation	Prospective Allocation	Change
ald Head Island	174	4324.952	4324.422	(0.53)
ville	n/a			-
Boiling Spring Lakes	2994	74418.996	74409.882	(9.11)
Bolivia	149	3703.551	3703.097	(0.45)
Calabash	716	17796.928	17794.748	(2.18)
Carolina Shores	1493	37110.074	37105.529	(4.54)
Caswell Beach	373	9271.304	9270.169	(1.14)
Holden Beach	793	19710.843	19708.429	(2.41)
Leland	4030	100169.858	100157.59	(12.27)
Navassa	482	11980.613	11979.146	(1.47)

Shallotte	1394	34649.325	34645.082	(4.24)
Southport	2388	59356.233	59348.964	(7.27)
Saint James	n/a			-
Sunset Beach	1837	45660.553	45654.961	(5.59)
Varnamtown	n/a			-
Sunset Harbor	474		11780.322	11,780.32

3. Utility Excise Tax:

Of the 3.22% state excise tax rate on the in-state gross receipts of gas, power and light d telephone companies, 3.09 percentage points (or 96% of collections) are distributed he respective municipalities within which these services took place. In 1998-99 the

Statewide total was $161.1 million.

Because Sunset Harbor only incorporates new areas (areas not currently a part of another municipalities) no revenue shift is expected. Any revenue received by Sunset Harbor from this tax would be new or drawn from the NC General Fund.

4. Reimbursements:

Since 1979 the General Assembly has made several changes to tax law that impact local governments. The state's cities and counties have received reimbursements from the state for some of these losses, particularly as they relate to the sales and property tax bases. The state reimburses local governments for property tax losses related to the repeal of taxes on inventories and intangibles, as well as some of the losses associated with the homestead exemption. Locals also receive a reimbursement for sales taxes that are no longer paid on items purchased with food stamps. These reimbursements total to $333.4 million annually. Normally, when a new town incorporates some existing municipalities may see a small decline in their distributions, with a tiny amount redistributed to the new town. However, because the reimbursements sunset June 30, 2003, the Town of Sunset Harbor will not qualify for these funds.

Note: Population numbers used for sales tax and Powell bill allocation vary due to the year used by the controling agency.

Prepared by Linda Struyk Millsaps, Fiscal Research Division.

A BILL TO BE ENTITLED

AN ACT REVISING REAL ESTATE LICENSING EXAMINATION PROCEDURES, CLARIFYING CONTINUING EDUCATION REQUIREMENTS FOR REAL ESTATE LICENSEES, AND ENABLING THE REAL ESTATE COMMISSION TO PERMIT LIMITED COMMERCIAL PRACTICE BY NONRESIDENT REAL ESTATE BROKERS.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 93A-4(b) reads as rewritten:

"(b) Except as otherwise provided in this Chapter, any person who submits an application to the Commission in proper manner for a license as real estate broker or a license as real estate salesperson shall be required to take an ~~oral or written~~ examination. The ~~Commission may allow an applicant to elect to take the examination by computer as an alternative to the written or oral~~ examination ~~and~~may be administered orally, by computer, or by any other method the Commission deems appropriate. The Commission may require the applicant to pay the Commission or a provider contracted by the Commission the actual cost of ~~administering the computerized examination.~~the examination and its administration. The cost of the ~~computerized~~examination and its administration shall be in addition to any other fees the applicant is required to pay under subsection (a) of this section. The examination shall determine the applicant's qualifications with due regard to the paramount interests of the public as to the applicant's competency. A person holding a real estate salesperson license in this State and applying for a real estate broker license shall not be required to take an additional examination under this subsection. A person who fails the license examination shall be entitled to know the result and score. A person who passes the exam shall be notified only that the person passed the examination. Whether a person passed or failed the examination shall be a matter of public record; however, the scores for license examinations shall not be considered public records. Nothing in this subsection shall limit the rights granted to any person under G.S. 93B-8.

An applicant for licensure under this Chapter shall satisfy the Commission that he or she possesses the competency, honesty, truthfulness, integrity, and general moral character necessary to protect the public interest and promote public confidence in the real estate brokerage business. The Commission may investigate the moral character of each applicant for licensure and require an applicant to provide the Commission with a criminal record report. All applicants shall obtain criminal record reports from one or more reporting services designated by the Commission to provide criminal record reports. Applicants are required to pay the designated reporting service for the cost of these reports. If the results of any required competency examination and investigation of the applicant's moral character shall be satisfactory to the Commission, then the Commission shall issue to the applicant a license, authorizing the applicant to act as a real estate broker or real estate salesperson in the State of North Carolina, upon the payment of privilege taxes now required by law or that may hereafter be required by law."

SECTION 2. G.S. 93A-4A(a) reads as rewritten:

"(a) The Commission shall establish a program of continuing education for real estate brokers and salespersons. ~~A person licensed as a real estate broker or salesperson must present evidence to the Commission upon the second license renewal following initial licensure, and every renewal thereafter, that during the 12 months preceding the annual license expiration date the person has completed eight classroom hours of real estate instruction in courses approved by the Commission.~~An individual licensed as a real estate broker or salesperson is required to complete continuing education requirements in an amount not to exceed eight classroom hours of instruction a year during any license renewal period in subjects and at times the Commission deems appropriate. Any licensee who fails to complete continuing education requirements pursuant to this section shall not actively engage in the business of real estate broker or salesperson."

SECTION 3. G.S. 93A-9 reads as rewritten:

"**§ 93A-9. Licensing nonresidents.**

(a) An applicant from another state, which offers licensing privileges to residents of North Carolina, may be licensed by conforming to all the provisions of this Chapter and, in the discretion of the Commission, such other terms and conditions as are required of North Carolina residents applying for license in such other state; provided that the Commission may exempt from the examination prescribed in G.S. 93A-4 a broker or salesperson duly licensed in another state if a similar exemption is extended to licensed brokers and salespersons from North Carolina.

(b) The Commission may issue a limited broker's or salesperson's license to a person or an entity from another state or territory of the United States without regard to whether that state or territory offers similar licensing privileges to residents in North Carolina if the person or entity satisfies all of the following:

(1) Is of good moral character and licensed as a real estate broker or salesperson in good standing in another state or territory of the United States.

(2) Only engages in business as a real estate broker or salesperson in North Carolina in transactions involving commercial real estate and

while the person or entity is affiliated with a resident North Carolina real estate broker or salesperson.

(3) Complies with the laws of this State regulating real estate brokers and salespersons and rules adopted by the Commission.

The Commission may require an applicant for licensure under this subsection to pay a fee not to exceed three hundred dollars ($300.00). All licenses issued under this subsection shall expire on June 30 of each year following issuance or on a date that the Commission deems appropriate unless the license is renewed pursuant to the requirements of G.S. 93A-4. A person or entity licensed under this subsection may be disciplined by the Commission for violations of this Chapter as provided in G.S. 93A-6 and G.S. 93A-54.

Any person or entity licensed under this subsection shall be affiliated with a resident North Carolina real estate broker or salesperson, and the resident North Carolina real estate broker or salesperson shall actively and personally supervise the licensee in a manner that reasonably assures that the licensee complies with the requirements of this Chapter and rules adopted by the Commission. The Commission may exempt applicants for licensure under this subsection from examination and the other licensing requirements under G.S. 93A-4. The Commission may adopt rules as it deems necessary to give effect to this subsection, including rules establishing: (i) qualifications for licensure; (ii) licensure and renewal procedures; (iii) requirements for continuing education; (iv) conduct of persons and entities licensed under this subsection and their affiliated resident real estate brokers or salespersons; (v) a definition of commercial real estate; and (vi) any requirements or limitations on affiliation between resident real estate brokers or salespersons and persons or entities seeking licensure under this subsection."

SECTION 4. G.S. 93A-10 reads as rewritten:

"**§ 93A-10. Nonresident licensees; filing of consent as to service of process and pleadings.**

Every nonresident applicant shall file an irrevocable consent that suits and actions may be commenced against such applicant in any of the courts of record of this State, by the service of any process or pleading authorized by the laws of this State in any county in which the plaintiff may reside, by serving the same on the Executive Director of the Commission, said consent stipulating and agreeing that such service of such process or pleadings on said Executive Director shall be taken and held in all courts to be valid and binding as if due service had been made personally upon the applicant in this State. This consent shall be duly acknowledged, and, if made by a corporation, shall be ~~authenticated by its seal.~~executed by an officer of the corporation. The signature of the officer on the consent to service instrument shall be sufficient to bind the corporation and no further authentication is necessary. An application from a corporation or other business entity shall be ~~accompanied by a duly certified copy of the resolution of the board of directors, authorizing the proper officers to execute it.~~signed by an officer of the corporation or entity or by an individual designated by the Commission. In all cases where process or pleadings shall be served, under the provisions of this Chapter, upon the Executive Director of the Commission, such process or pleadings shall be served in duplicate, one of which shall be filed in the

office of the Commission and the other shall be forwarded immediately by the Executive Director of the Commission, by registered mail, to the last known business address of the nonresident licensee against which such process or pleadings are directed."

SECTION 5. This act is effective when it becomes law.

HOUSE BILL 328:
Amend Real Estate Licensing Laws/Fees-AB

BILL ANALYSIS

Committee:	House Finance	**Sponsor:**	Rep. Howard
Date:	April 8, 2003	**Analysis by:**	Martha Walston
Version:	2nd Edition		Committee Counsel

SUMMARY: House Bill 328 is before the House Finance Committee because it imposes a fee for a new limited license for out-of-state real estate brokers or real estate salespersons. The Bill makes the following changes to the laws regarding real estate brokers and salespersons:

- *Clarifies that the Real Estate Commission may administer the exam for licensure orally, by computer, or by any other method the Commission deems appropriate and may require the applicant to pay the actual cost of the examination and its administration.*
- *Authorizes the Commission to investigate the moral character of an applicant for licensure and requires the applicant to furnish criminal record reports from one or more reporting services designated by the Commission. The applicant must pay the service for the report.*
- *Provides that any licensee who fails to complete continuing education requirements may not actively engage in the business of real estate broker or salesperson.*
- *Authorizes the Commission to issue a limited broker or salesperson license to a nonresident broker or salesperson even if the state or territory where the applicant resides does not offer similar licensing privileges to NC residents. Certain requirements must be met and the Commission may charge a licensure fee not to exceed $300.*
- *Makes technical and conforming changes.*

BILL ANALYSIS: Section 1 of the bill clarifies the authority of the Real Estate Commission to allow applicants for licenses to take the exam orally, by computer, or by any other method the Commission deems appropriate. It allows the Commission to require the applicant to pay the actual cost of the exam and its administration regardless of the method of administration. Current law only requires the applicant to pay the cost of a computerized exam. Section 1 also requires the applicant to provide the Commission with a criminal record report from one or more reporting services designated by the Commission at the expense of the applicant. Current law requires the applicant to satisfy the Commission that the applicant has the general moral character to protect the public interest and promote public confidence in the real estate brokerage business.

Section 2 clarifies that failure to complete the continuing education requirements for brokers and salespersons will prevent the licensee from acting as a broker or salesperson. This section does not change the continuing education requirements, but merely allows the Commission to have the flexibility of designating the 12-month period in which they will be completed. This is

necessary for the annual continuing education requirements to fit with changes in the licensing year for brokers and salespersons that may occur if the Commission goes to staggered licensing periods, which it is already authorized to do.

Section 3 authorizes the Commission to issue a limited license to a broker or salesperson residing in a state that does not provide reciprocity to NC brokers and salesperson. The following requirements must be satisfied:

1. The applicant is of good moral character and licensed as a real estate broker or salesperson in good standing in another state or US territory.
2. The applicant only engages in transactions involving commercial real estate in NC and while the applicant is affiliated with a resident NC real estate broker or salesperson. (The NC broker or salesperson must actively and personally supervise the applicant.)
3. The applicant complies with NC laws and rules regulating brokers and salespersons.

The Commission may charge a fee not to exceed $300 for the limited license. The limited license will expire each year on June 30 unless it is renewed.

Current law authorizes the Commission to assess the following fees:

Real estate broker or salesperson license	not to exceed $30
License renewal fee	$30, unless the Commission sets the fee at a higher amount not to exceed $50. The fee may not increase by more than $5 during a 12-month period.)
Reinstatement of expired license	$55
Duplicate license	$5
Commission certification of licensee's licensee history	$10

Section 4 requires that consent for service of process on nonresident applicants be signed by an officer of the corporation. Current law requires a nonresident applicant to file consent that actions may be commenced against the applicant in NC courts by serving the Executive Director of the Commission. The consent of a corporate applicant requires authentication by corporate seal.

Commission Special Account					
Section 1	No Fiscal Impact				
Section 3	No Estimate Available				

PRINCIPAL DEPARTMENT(S) & PROGRAM(S) AFFECTED: North Carolina Real Estate Commission

EFFECTIVE DATE: This act is effective when it becomes law.

BILL SUMMARY: The bill revises real estate licensing examination procedures, clarifies continuing education requirements, and enables the Real Estate Commission to permit limited commercial practice by nonresident real estate brokers.

ASSUMPTIONS AND METHODOLOGY:

Section 1

This section allows the Real Estate Commission to charge applicants the actual cost of the licensing exam and its administration whether it is taken in writing, orally, or by computer. Currently, 95% of applicants take the exam by computer and the Commission has the authority to charge them actual cost. While this section expands the Commission's right to charge written and oral exam takers the actual cost of the test, the Commission's Executive Director said there are no plans to increase the exam fee. However, the Commission's Executive Director stated the Commission's goal is to have 100% of the exams completed by computer.

The second part of Section 1 requires applicants to provide a criminal record report from a reporting service designated by the Commission. The cost of the report is borne by the applicant and the Commission receives no revenue from this transaction.

Sections 2 and 4

Section 2 requires real estate brokers and salespersons to complete annual continuing education requirements or cease actively engaging in the profession. This section also gives the Commission flexibility in setting the 12-month period for license holders to complete the education requirements. Flexibility in the continuing education period is needed if the Commission goes to staggered license renewals. The Commission does not expect either provision to impact license renewals.

Section 4 is a technical change that allows the Executive Director of the Commission to sign for a service of process for a nonresident licensee instead of affixing a corporate seal to the document.

Section 3

This section allows the Commission to charge up to $300 for a nonresident commercial broker or salesperson license. This license would be available to residents of states that do not have reciprocity status with North Carolina. The licensee would not have to complete an exam, would only be involved in commercial real estate, and must be affiliated with a North Carolina real estate broker or salesperson. The Commission's Executive Director said this special license was requested by the commercial real estate industry. The Commission has no estimate of the number of special nonresident licenses it will issue each year.

March 27, 2003

A BILL TO BE ENTITLED

AN ACT REPEALING THE CHARTER FOR THE TOWN OF CASHIERS BECAUSE THE TOWN HAS BEEN INACTIVE SINCE INCORPORATION, AND INCORPORATING THE VILLAGE OF CASHIERS.

The General Assembly of North Carolina enacts:

SECTION 1. Chapter 112 of the 1927 Session Laws is repealed.

SECTION 2. A Charter for the Village of Cashiers is enacted to read:

"CHARTER OF THE VILLAGE OF CASHIERS.

"ARTICLE I. INCORPORATION AND CORPORATE POWERS.

"Section 1.1. **Incorporation and Corporate Powers.** The inhabitants of the Village of Cashiers are a body corporate and politic under the name 'Village of Cashiers'. The Village of Cashiers has all the powers, duties, rights, privileges, and immunities conferred and imposed on cities by the general laws of North Carolina.

"ARTICLE II. CORPORATE BOUNDARIES.

"Section 2.1. **Village Boundaries.** Until modified in accordance with law, the boundaries of the Village of Cashiers are as follows:

BEGINNING at the northernmost corner of parcel number 7582-01-46-2769 (n/f Hooper), and running along the northeast and east boundaries of said parcel to the southeast corner of said parcel, also being the southwest corner of parcel number 7582-01-46-7446, (n/f Martin), thence along the south boundary of parcel number 7582-01-46-2769 (n/f Hooper), to the easternmost corner of parcel number 7582-01-36-8125 (n/f Parsons), thence along the south boundary of said parcel to the southwest corner of said parcel, thence along the south boundary of parcel number 7582-01-36-4097 (n/f Parsons), to the northeast corner of parcel number 7582-01-35-4422 (n/f Dezell), thence along the east boundary of said parcel to its southeast corner, thence along the south boundary of said parcel to its southernmost corner, thence along the east boundary of parcel number 7582-03-34-4905 (n/f Oak Ridge Builders) to its southeast corner, thence along the east boundary of parcel number 7582-03-34-4732 (n/f Cudahy) to its southeast corner, thence along the east boundary of

parcel number 7582-03-34-4541 (n/f Buck) to its southeast corner, thence along the east boundary of parcel number 7582-03-34-4323 (n/f Roberts) to its southeast corner, thence along the east boundary of parcel number 7582-03-34-3127 (n/f Mansfield) to the northeast corner of parcel number 7582-03-33-2996 (n/f Davis), thence along the east boundary of said parcel to the south corner of said parcel, thence along the south boundary of said parcel to its intersection with Parsons View Road, thence crossing said road to the easternmost corner of parcel number 7582-03-23-8948 (n/f Mountain View Ventures, Inc.), thence along the west boundary of parcel number 7582-03-43-7333 (n/f Mountain View Ventures, Inc.) to the southwest corner of said parcel thence along the south boundary of said parcel to the northeast corner of parcel number 7582-03-32-6218 (n/f Mountain View Ventures, Inc.), thence along the southeast boundary of said parcel to the east corner of parcel number 7582-03-31-2811 (n/f Mountain View Ventures, Inc.), thence along the southeast boundary of said parcel to its south corner, thence along the southwest boundary of said parcel to the southeast corner of parcel number 7582-03-21-0825 (n/f Mountain View Ventures, Inc.), thence along the south boundary of said parcel to the southeast corner of parcel number 7582-03-11-4915 (n/f Lewis), thence along the south boundary of said parcel to the southeast corner of parcel number 7582-03-01-9935 (n/f Lewis), thence along the south boundary of said parcel to the southeast corner of parcel number 7582-03-02-4432 (n/f Engelhardt), thence along the south boundary of said parcel to the east corner of parcel number 7582-03-01-2926 (n/f McCarlton Partners Ltd.), thence along the south boundary of said parcel to the southeast corner of parcel number 7572-04-92-2412 (n/f Andrews), thence along the south boundary of said parcel to a point in that south boundary, said point being due north from the northeast corner of parcel number 7572-04-91-5415 (n/f Ledbetter Ltd.), thence to said northeast corner of said parcel, thence along the east boundary of said parcel to a corner in the line of said parcel, thence in a southeasterly direction to the north corner of parcel number 7572-04-91-8321 (n/f Lofton), thence along the northeast boundary of said parcel to the northernmost corner of the right of way for East Halsted Road, thence along the east boundary of said right of way to its intersection of the north boundary of Wake Road, thence along the northeast boundary of said right of way to the westernmost corner of parcel number 7582-03-00-3170 (n/f Yates), thence along the northwest boundary of said parcel to the north corner of said parcel, thence along the northeast boundary of said parcel to the north corner of parcel number 7582-03-00-2470 (n/f Kehoe), thence along the northeast boundary of said parcel to a point in the north boundary of parcel number 7582-03-00-3224 (n/f Cranford), thence along the north boundary of said parcel to its northeast corner, thence along the east boundary of said parcel to the northeast corner of parcel number 7582-03-00-3068 (n/f Davis), thence along the east boundary of said parcel to the north corner of parcel number 7581-01-09-4898 (n/f Riley), thence along the northeast boundary of said parcel to its easternmost corner, thence along the south boundary of said parcel to its southwest corner in the right of way of Wade Road. Thence along the east boundary of the right of way for Wade Road in a southerly direction to the west corner of parcel number 7581-01-09-9220 (n/f Pearce), thence along the northwest boundary of said parcel to its north corner, thence along the

northeast boundary of said parcel in a southerly direction to its southeast corner, thence along the south boundary of said parcel to the northeast corner of parcel number 7581-01-08-9975 (n/f Fox), thence along the east boundary of said parcel to the northeast corner of parcel number 7581-01-08-9760 (n/f St. John), thence along the east boundary of said parcel to the southernmost corner of said parcel, thence in a northwesterly direction along the southwest boundary of said parcel to its southwest corner. Thence in a southerly direction along the southeast boundary of parcel number 7581-01-08-5411 (n/f Johnson) to the south corner of said parcel, thence along the southwest boundary of said parcel to the boundary of the right of way for Wade Road; thence along the south boundary of the right of way for Wade Road to the north corner of parcel number 7581-01-07-1941 (n/f Strong), thence along the east boundary of said parcel to the east corner of parcel number 7571-02-97-8784 (n/f Jordan), thence along the southeast boundary of said parcel to the east corner of parcel number 7571-02-97-7588 (n/f Warriner). Thence in a southwesterly direction to the north corner of parcel number 7571-04-94-4469 (n/f Waddell), thence along the east boundary of said parcel to the north corner of parcel number 7571-04-93-7748 (n/f Chattooga Dev. Corp.), thence along the north boundary of said parcel in a southerly direction to a corner and thence continuing with said boundary in a northeast direction to the intersection of said boundary with the west boundary of Chimney Top Trail, thence along the west boundary of Chimney Top Trail to the south corner of parcel number 7581-03-04-1419 (n/f Fazio), thence leaving Chimney Top Trail and along the west boundary of said parcel to the north corner of said parcel, thence along the northeast boundary of said parcel to its intersection with the west boundary of the right of way for Chimney Top Trail; thence along the west boundary of Chimney Top Trail to the southwest corner of parcel number 7581-01-16-3228 (n/f Sims), thence along the northwest boundary of said parcel to the northwest corner of parcel number 7581-01-16-5306 (n/f Coker), thence along the north boundary of said parcel to the northwest corner of parcel number 7581-01-16-6377 (n/f Collier), thence along the north boundary of said parcel to the northwest corner of parcel number 7581-01-16-8321 (n/f Domescik), thence along the north boundary of said parcel to the northwest corner of parcel number 7581-01-16-9281 (n/f Cay), thence along the northeast boundary of said parcel to the northwest corner of parcel number 7581-01-26-1164 (n/f Ingram) to the north boundary of the right of way for Chimney Top Trail. Thence along the north boundary of Chimney Top Trail to the west corner of parcel number 7581-01-26-7298 (n/f Allen, Inc.), thence leaving Chimney Top Trail and running to the northwest corner of parcel number 7581-01-26-9206 (n/f Moore), thence along the north boundary of said parcel to the northwest corner of parcel number 7581-01-36-0212 (n/f Puckett), thence along the north boundary of said parcel to the north corner of parcel number 7581-01-36-1115 (n/f Watson), thence along the northeast boundary of said parcel to the north corner of parcel number 7581-01-36-1096 (n/f Dalton), thence along the north boundary of said parcel to the north corner of parcel number 7581-03-44-0738 (n/f Wade Hampton POA) thence along the west, southwest and east boundaries of said parcel to the southwest corner of parcel number 7581-04-54-1583 (n/f Dunagon), thence along the west boundary of said parcel to its

northwest corner and the southwest corner of parcel number 7581-04-54-1946 (n/f Dehority), thence along the west boundary of said parcel to the southwest corner of parcel number 7581-02-55-1424 (n/f Jones), thence along the north boundary of said parcel to the northwest corner of parcel number 7581-02-55-6467 (n/f Chanin), thence along the north boundary of said parcel to the northeast corner of said parcel, thence along the east boundary of said parcel to the north corner of parcel number 7581-02-55-7122 (n/f Green), thence along the east boundary of said parcel to the north corner of parcel number 7581-04-54-7508 (n/f Keller), thence along the east boundary of said parcel to the northeast corner of parcel number 7581-04-54-5037 (n/f Gary), thence along the east boundary of said parcel to the northeast corner of parcel number 7581-04-53-6754 (n/f Livermore), thence along the east boundary of said parcel to the northeast corner of parcel number 7581-04-53-5473 (n/f Floyd), thence along the east boundary of said parcel to the northeast corner of parcel number 7581-04-53-5135 (n/f Griffin), thence along the east boundary of said parcel to the northeast corner of parcel number 7581-04-52-6931 (n/f Davis), thence along the east boundary of said parcel to the northeast corner of parcel number 7581-04-52-6658 (n/f Tattersall), thence along the east boundary of said parcel to the northwest corner of parcel number 7581-04-52-7288 (n/f Smith), thence along the north boundary of said parcel to the northwest corner of parcel number 7581-04-62-3346 (n/f Green), thence along the north boundary of said parcel to the northwest corner of parcel number 7581-04-72-0320 (n/f Green), thence along the north boundary of said parcel to the northeast corner of said parcel, thence along the east boundary of said parcel to the north corner of parcel number 7581-04-71-1054 (n/f Wade Hampton Co.), thence along the east boundary of said parcel to the north corner of parcel number 7581-04-71-0589 (n/f McKee), thence along the east boundary of said parcel to the northeast corner of parcel number 7581-04-71-1008 (n/f McKee Development), thence along the east boundary of said parcel to the northeast corner of parcel number 7581-04-60-9645 (n/f Loon Corp.), thence along the southeast boundary of said parcel to the east corner of parcel number 7581-04-60-3281 (n/f Loon Corp.), thence along the south boundary of said parcel to the southwest corner of said parcel and the south boundary of the right of way of Silver Springs Road (formerly known as "Deer Camp Road"), thence along the south boundary of the right of way for said road to the southeast corner of parcel number 7581-04-50-0244 (n/f Glover), thence leaving said road and running in a west direction with the north boundary of 7581-03-40-7042 (n/f Silver Run Inc.) to its westernmost corner and the east boundary of North Carolina Highway 107 South, thence along the east boundary of the right of way for Highway 107 South, and the west boundary of parcel number 7581-03-40-7042 (n/f Silver Run, Inc.) to the southwest corner of said parcel, thence continuing along the east boundary of the right of way for Highway 107 South in a southerly direction to the southwest corner of parcel number 7580-00-49-6555 (n/f Silver Run, Inc.), thence crossing Highway 107 South and running to the southeast corner of parcel number 7581-03-20-0657 (n/f West Hampton Club, LLC), said corner being in the west boundary of the right of way for Highway 107 South, thence leaving Highway 107 South and running along the south boundary of said parcel to the southeast corner of parcel number 7580-00-29-6440 (n/f Bryson), thence

along the east boundary of said parcel to the northeast corner of said parcel, thence along the north boundary of said parcel to the northwest corner of said parcel, thence along the west boundary of said parcel to the southwest corner of said parcel, thence along the south boundary of parcel number 7581-03-20-0657 (n/f West Hampton Club, LLC) to the southwest corner of said parcel, thence along the west boundary of said parcel to the southeast corner of parcel number 7580-00-09-7162 (n/f Dillard), thence along the south boundary of said parcel to its southwest corner, thence along the southeast boundary of parcel number 7580-00-09-4833 (n/f Kinnard) to the south corner of said parcel, thence along the southwest boundary of said parcel in a northwesterly direction to a corner with parcel number 7580-00-09-1070 (n/f Golden Rule Properties), thence along the line of said parcel in a westerly direction to parcel number 7580-00-09-2945 (n/f Little Terrapin), thence along the southeast and southwest boundary of said parcel to a corner with parcel number 7580-00-09-1070 (n/f Golden Rule Properties), thence with the line of said parcel to a point in the southwest line of parcel number 7571-04-90-8017 (n/f Coggiola), thence with the southeast line of said parcel to its south corner and the east corner of parcel number 7570-00-99-5900 (n/f Moore), thence with the southeast boundary of said parcel to the southeast corner of parcel number 7570-00-99-3873 (n/f Stewart), thence along the southeast boundary of said parcel to the southeast corner of parcel number 7570-00-99-2777 (n/f Kehm), thence along the southeast boundary of said parcel to the southeast corner of parcel number 7570-00-99-1770 (n/f Kehm), thence along the southeast boundary of said parcel to the southeast corner of parcel number 7570-00-99-0589 (n/f Kehm), thence with the southeast boundary of said parcel to a point in said boundary line and the westernmost point of parcel number 7570-00-99-3500 (n/f Kehm), thence with the southwestern boundary of said parcel to the easternmost corner of parcel number 7570-00-89-9405 (n/f Walburn), thence with the southeast boundary of said parcel to the northeast corner of parcel number 7570-00-89-7172 (n/f Evans), thence with the east boundary of said parcel to the north corner of parcel number 7570-00-99-1164 (n/f Little Terrapin Property Owners), thence with the east boundary of said parcel to the northwest corner of parcel number 7570-00-98-2976 (n/f Langford), thence with the southwest boundary of said parcel to the northwest corner of parcel number 7570-00-98-6709 (n/f Gibbs), thence along the southeast boundary of parcel number 7570-00-98-0840 (n/f Langford) to its south corner, thence along the west boundary of said parcel to its northwest corner, thence along the south boundary of parcel number 7570-00-88-7936 (n/f Langford) to its southwest corner, being a point in the east boundary of parcel number 7570-00-79-6188 (n/f USA), thence along the northeast boundary of the USA parcel to its north corner, being a point in the line of parcel number 7571-04-61-2284 (n/f River), running thence in a southwesterly direction along the boundary of the River parcel to the southernmost corner of said parcel, thence in a northerly direction to the southwest corner of parcel number 7571-04-51-7634 (n/f Berglund), thence along the southwest boundary of said parcel to the westernmost corner of said parcel, thence along the north boundary of said parcel to the northeast corner of said parcel, thence along the north boundary of parcel number 7571-04-61-2284 (n/f River) to the southwest corner of parcel number 7571-04-62-7189

(n/f Ingram), thence along the west boundary of said parcel to the southwest corner of parcel number 7571-04-62-8620 (n/f Ingram), thence along the west and northwest boundaries of said property to the westernmost corner of parcel number 7571-04-72-1729 (n/f Terry), thence along the west boundary of said property to the northwest most corner of said parcel, thence crossing Whiteside Cove Road in a northwesterly direction to the southwest corner of parcel number 7571-04-73-2459 (n/f Parsons), thence along the southwest boundary of said parcel to the southeast corner of parcel number 7571-04-63-0643 (n/f First National Bank of Palm Beach), thence along the south boundary of said parcel to the southwest corner of said parcel, thence along the north boundary of parcel 7571-03-21-3762 (n/f Warren) to the southwest corner of parcel number 7571-03-13-1347 (n/f Crawford), thence along the southwest boundary of said parcel to the southwest corner of parcel number 7571-03-03-8596 (n/f Powell), thence along the west and northwest boundaries of said parcel to the westernmost corner of Timber Ridge Drive (parcel number 7571-03-14-5568) (n/f Timber Ridge), thence along the end of Timber Ridge Drive to a point, thence along the northern boundary of the right-of-way for Timber Ridge Drive in an easterly direction to a corner near the northeast corner of parcel number 7571-03-13-4366 (n/f Cameron), thence with the west boundary of the right-of-way of Timber Ridge Drive to Devil's Courthouse View Road, thence along the western and southwestern boundary of the right-of-way for said road to a point due south of the southwest corner of parcel number 7571-01-15-4360 (n/f Swanson), thence crossing said road to the southwest corner of the Swanson parcel, thence along the west boundary of said parcel to the northwest corner of said parcel, thence along the north boundary of said parcel to the southwest corner of parcel number 7571-01-15-9621 (n/f Slaughter), thence along the west boundary of said parcel to the southwest corner of parcel number 7571-01-25-0815 (n/f Tidwell), thence along the west boundary of said parcel to the southwest corner of parcel number 7571-01-26-0094 (n/f Baumgarner), thence along the west boundary of said parcel to its northwest corner, thence along the north boundary of said parcel to its northeast corner, thence with the west boundary of the right-of-way for Mitten Lane, SR 1110, to its intersection with the boundary of 7571-01-26-5723 (n/f Education Tomorrow), thence along the southwest boundary of said parcel to its westernmost corner, thence along the west boundary of said parcel to the south corner of parcel number 7571-01-27-0141 (n/f Davis), thence along the west boundary of said parcel to the south corner of parcel number 7571-01-27-0376 (n/f Young), thence along the western boundary of said parcel to the south corner of parcel number 7571-01-27-1502 (n/f Madden), thence along the southwest boundary of said parcel to the southernmost corner of parcel number 7571-01-27-9527 (n/f Madden), thence along the southwest boundary of said parcel to the southwestern corner of the right-of-way for Zeb Alley Road SR 1111 and the westernmost corner of parcel number 7571-01-17-9527 (n/f Madden), thence to the southeast corner of parcel number 7571-01-17-8774 (n/f Pell) near the north boundary of the right-of-way of Zeb Alley Rd, thence along the southwest boundary of said parcel to the westernmost corner of said parcel, thence along the south and west boundaries of parcel number 7571-01-18-5076 (n/f Wakulla Motel) to the southwest corner of said parcel, thence in a northerly direction along the boundary of parcel number

7571-01-08-5333 (n/f Silver Slip Lodge) to the east corner of parcel number 7561-00-96-0982 (n/f Spraggins), thence along the southeast boundary of said parcel to its south corner, thence along the west boundary of said parcel to the south corner of parcel number 7561-00-97-0291 (n/f Walden), thence with the west boundary of said parcel to the southeast corner of parcel number 7561-00-97-0571 (n/f Woock), thence along the south boundary of said parcel to the southeast corner of parcel number 7561-00-87-5533 (n/f Woocks at Millstone Inn, Inc.), thence along the southwest boundary of said parcel to the southeast corner of parcel number 7561-00-87-4659 (n/f Woock), thence along the south boundary of said parcel to its southwest corner, thence with the north boundary of parcel number 7561-01-77-5244 (n/f Black) in a westerly direction to the northwest corner of said parcel, thence along the south boundary of parcel number 7561-00-68-1485 (n/f Stewart) to its southwest corner and the southeast corner of parcel number 7561-00-58-6320 (n/f Kapers), thence along the southeast boundary of said parcel to its southernmost corner, thence along the southwest boundary of said parcel to the southwest corner of parcel number 7561-00-69-0110 (n/f Palmetto Investors Group, Inc.), thence along the west boundary of said parcel to the southwest corner of parcel number 7561-00-59-4079 (n/f Kapers), thence along the west boundary of said parcel to its northwest corner, said corner being in the south boundary of the right-of-way for US Hwy 64, thence crossing US Hwy 64 in a northwesterly direction to the easternmost corner of parcel number 7561-00-59-3533 (n/f Atkinson Properties), thence with the northern boundary of the right-of-way for US Hwy 64 in a northwesterly direction to the westernmost corner of parcel number 7562-03-01-8754 (n/f Wildcat Mountains Development Co, Inc.), thence along the west boundary of said parcel to the southwest corner of parcel number 7562-03-02-9707 (n/f MMB Development), thence along the southwest boundary of said parcel to its westernmost corner, thence along the northwest boundary of said parcel to the west corner of parcel number 7562-03-12-1965 (n/f MMB Development), thence along the northwest boundary of said parcel to its north corner, thence along the northeast boundary of said parcel to the north corner of parcel number 7562-03-12-4893 (n/f Walker), thence along the northwest boundary of said parcel to the northwest corner of parcel number 7562-03-12-8653 (n/f Hubbard), thence along the north boundary of said parcel to the northwest corner of parcel number 7562-03-22-3353 (n/f Highlands Land Trust), thence along the north boundary of said parcel to the northwest corner of parcel number 7562-03-32-0554 (n/f Senterfit Trust), thence along the north boundary of said parcel to the northwest corner of parcel number 7562-03-32-4479 (n/f Smith), thence along the north boundary of said parcel to the northeast corner of said parcel, thence along the east boundary of said parcel to the north corner of 7562-03-32-6275 (n/f Smith), thence along the east boundary of said parcel to the northeast corner of parcel number 7562-03-32-6173 (n/f Worley), thence along the east boundary of said parcel to the northwest corner of parcel number 7562-03-31-8648 (n/f Douglass), thence along the north boundary of said parcel to the north corner of parcel number 7562-03-31-9494 (n/f Collins), thence to the northwest corner of parcel number 7562-03-41-3458 (n/f Bryan), thence along the north boundary of said parcel to the north corner of parcel number 7562-03-41-5294 (n/f Bryan), thence to the northwest corner of parcel number

7562-03-41-7387 (n/f Watts), thence along the north boundary of said parcel to the northwest corner of parcel number 7562-04-51-1436 (n/f Hilliard), thence along the north boundary of said parcel to the northwest corner of parcel number 7562-04-51-4504 (n/f Meek), thence along the north boundary of said parcel to the westernmost corner of parcel number 7562-04-61-0810 (n/f Wallace), thence along the northwest boundary of said parcel to its north corner, thence along the east boundary of said parcel to the north corner of parcel number 7562-04-61-1584 (n/f Wallace), thence along the east and northeast boundary of said parcel to the westernmost corner of parcel number 7562-04-61-8590 (n/f Drake), thence along the northwest boundary of said parcel to the westernmost corner of parcel number 7562-04-71-0705 (n/f Drake), thence along the northwest boundary of said parcel to its northernmost corner, thence along the northeast boundary of said parcel to its easternmost corner, thence along the southeast boundary of said parcel to its southernmost corner, thence along the northeast boundary of parcel number 7562-04-61-8590 (n/f Drake) to the easternmost corner of said parcel, thence with the boundary of said parcel in a southwesterly direction to a point in the line of parcel number 7562-04-71-6044 (n/f Coyle), thence from said point in a southeasterly direction to the easternmost corner of said parcel, thence in a northeasterly direction along the north boundary of parcel number 7562-04-70-8590 (n/f Failey) to the northeast corner of said parcel, thence in a northeasterly direction along the boundary of parcel number 7562-04-81-7067 (n/f Joe Mike LLC) to the north corner of said parcel and the easternmost corner of parcel number 7562-04-81-8324 (n/f Coyle), thence with the northwest boundary of said parcel to the northwest corner of parcel number 7562-04-91-0486 (n/f Choate), thence along the north boundary of said parcel to the northwest corner of parcel number 7562-04-91-3526 (n/f Oberle), thence along the north boundary of said parcel to the northwest corner of parcel number 7562-04-91-5518 (n/f Valley Helicopters), thence along the north boundary of said parcel to the northeast corner of said parcel and a point in the line of parcel number 7562-04-91-6756 (n/f Dillard), thence along the southwest boundary of said parcel to its west corner and the south corner of parcel number 7562-04-92-1260 (n/f Pinchot), thence in a northwesterly direction along the southwest boundary of said parcel to the northernmost corner of said parcel, thence in a southeasterly direction along the boundary of said parcel to the westernmost corner of parcel number 7562-04-92-6224 (n/f Johnson), thence along the northwest boundary of said parcel to the westernmost corner of parcel number 7562-04-92-3962 (n/f Johnson), thence along the northwest boundary of said parcel to its north corner, thence in a southeasterly direction to the southwest corner of parcel number 7562-04-93-4146 (n/f Owen), thence in a northerly direction to the north corner of said parcel, thence along the northeast boundary of said parcel to the northwest corner of parcel number 7562-04-93-9030 (n/f McCall), thence along the north boundary of said parcel to its northernmost corner and the westernmost corner of parcel number 7572-03-03-2205 (n/f Pressley), thence along the northwest boundary of the Pressley parcel to the westernmost corner of parcel number 7572-03-03-2521 (n/f McCall), thence along the northwest boundary of said parcel to the westernmost corner of parcel number 7572-03-03-4684 (n/f Moss), thence along the northwest boundary of said parcel to a point in the line of parcel number

7572-03-04-5028 (n/f Dills), thence with the boundary of the Dills parcel to its westernmost corner and the southwest corner of parcel number 7572-03-04-1259 (n/f Brandon), thence with the west boundary of the Brandon parcel to its northwest corner, thence with the north boundary of said parcel to the northwest corner of parcel number 7572-03-04-3268 (n/f Newberry), thence along the north boundary of said parcel to the westernmost corner of parcel number 7572-03-04-5324 (n/f Dufilho), thence along the north boundary of said parcel to the northwest corner of parcel number 7572-03-04-7436 (n/f Logan), thence along the north boundary of said parcel to the northwest corner of parcel number 7572-03-04-9558 (n/f Logan), thence along the north boundary of said parcel to the intersection of said boundary and the west boundary of the right-of-way for NC Hwy 107 North, thence with the west boundary of NC Hwy 107 North to a point due south of the southwest corner of parcel number 7572-03-04-8966 (n/f Rogers), thence crossing the right-of-way for NC Hwy 107 North in a north direction to said corner, thence leaving Hwy 107 and running in a northeasterly direction along the boundary of parcel number 7572-01-05-5164 (n/f Jahn) to the north corner of parcel number 7572-03-14-3969 (n/f Pierce), thence along the northeast boundary of parcel number 7572-03-14-6907 (n/f Wolf) to the southeast corner of parcel number 7572-01-15-3647 (n/f Neal), thence along the northeast boundary of said parcel to the north corner of said parcel, thence with the boundary of parcel number 7572-01-16-1209 (n/f Kinsey) to the northeast corner of said parcel, thence continuing with the line of the Kinsey parcel in a westerly direction to the southwest corner of parcel number 7572-01-17-5082 (n/f Cedar Creek Realty), thence with the southwest line of said parcel to its westernmost corner and the south corner of parcel number 7572-01-17-1065 (n/f Webb). Thence with the west boundary of the Webb parcel to the south corner of parcel number 7572-01-17-3704 (n/f Cedar Creek Realty), thence with the southwest boundary of said parcel to its northwest corner, thence along the north boundary of said parcel to the southwest corner of parcel number 7572-01-18-3367 (n/f Toms), thence along the west boundary of said parcel to the southwest corner of parcel number 7572-01-09-8001 (n/f Bennett), thence along the west boundary of said parcel to its north corner and the southwest corner of parcel number 7572-01-09-9267 (n/f Flock), thence along the west boundary of said parcel to its northwest corner, thence along the boundary of parcel number 7573-03-10-3149 (n/f Henry) to the northwest corner of parcel number 7573-03-21-5169 (n/f Damico), thence along the north boundary of said parcel to its northeast corner, thence along the north boundary of parcel number 7573-03-31-2033 (n/f Bebbington) to the northwest corner of parcel number 7573-03-40-8454 (n/f Middelthon), thence along the west boundary of said parcel to the northwest corner of parcel number 7572-02-59-4421 (n/f Big Sheepcliff Property Owners), thence along the west and south boundaries of said parcel to the north corner of parcel number 7572-01-48-0166 (n/f Thomas), thence along the northeast boundary of said parcel and the west boundary of parcel number 7572-02-58-0035 (n/f Foster) to the northeast corner of parcel number 7572-01-47-9109 (n/f Hawkins), thence along the northeast and east boundary of said parcel to its easternmost corner and a corner in the line of parcel number 7572-02-55-4964 (n/f Hawkins), thence with the north boundary of said parcel to the northwest corner of

parcel number 7572-02-56-6461 (n/f Hawkins), thence with the north boundary of said parcel to the northeast corner of said parcel and a point in the line of parcel number 7572-02-66-0536 (n/f Mountain View Ventures), thence along the west boundary of said parcel to its northwest corner, thence along the north boundary of said parcel to the easternmost corner of said parcel, thence to the south corner of parcel number 7572-02-67-1020 (n/f Mountain View Ventures), thence along the eastern boundary of an unnamed private road to its intersection with the north boundary of Wandering Ridge Road, thence along the north boundary of Wandering Ridge Road to the southwest corner of parcel number 7572-02-76-3414 (n/f Law), thence leaving Wandering Ridge Road and running in a northerly direction along the west boundary of said parcel to the northwest corner of said parcel, thence along the north boundary of said parcel to the northwest boundary of the right-of-way for Upper Ridge Road, being a point in the south line of parcel number 7572-02-77-2250 (n/f Law), thence with the northwest boundary of the right-of-way for Upper Ridge Road and the southeast boundary of said parcel to the southeast corner of parcel number 7572-02-77-8219 (n/f Dempsey), thence leaving Upper Ridge Road and running along the west boundary of said parcel to the northernmost corner of said parcel, thence along the south boundary of parcel number 7572-02-87-2951 (n/f Thomas) to the south corner of said parcel and the northwest boundary of the right-of-way for Overlook Pass, thence with the southeast boundary of the Thomas parcel and the northwest boundary of the right-of-way for Overlook Pass to a point in the line of parcel number 7572-02-97-6861 (n/f Rhane), thence with the west boundary of said parcel to its southwest corner, thence with the south boundary of said parcel to the southeast corner of said parcel, being a point in the boundary of the right-of-way for Cedar Creek Road, SR 1120, thence with the west boundary of the right-of-way for Cedar Creek Road in a southeasterly direction to the intersection of the boundary of the right-of-way of said road with the north boundary of the right-of-way of Wandering Ridge Road, thence crossing Cedar Creek Road in an easterly direction to the west corner of parcel number 7582-01-16-0612 (n/f Hackney), thence along the northwest boundary of said parcel to its north corner, thence along the northeast boundary of said parcel to the northwest corner of parcel number 7582-01-16-1586 (n/f Nantahala Power), thence along the north boundary of said parcel to the northwest corner of parcel number 7582-01-16-4505 (n/f Nantahala Power), thence along the north boundary of said parcel to the northwest corner of parcel number 7582-01-16-6527 (n/f Nantahala Power), thence along the north boundary of said parcel to the northwest corner of parcel number 7582-01-16-8559 (n/f Nantahala Power), thence along the north boundary of said parcel to the northwest corner of parcel number 7582-01-26-0683 (n/f Nantahala Power), thence along the north boundary of said parcel to the northeast corner of said parcel and a point in the line of parcel number 7582-01-26-8938 (n/f Valley Corp.), thence along the west boundary of the Valley Corp. parcel to its northwest corner, thence along the north boundary of said parcel to its northeast corner, being a point in the line of parcel number 7582-01-46-2769 (n/f Hooper), thence along the west boundary of said parcel to its northwest corner, thence along the north boundary of said parcel to the point of BEGINNING.

"ARTICLE III. GOVERNING BODY.

"Section 3.1. **Structure of Governing Body; Number of Members.** The governing body of the Village of Cashiers is the Mayor and the Village Council, which shall have five members.

"Section 3.2. **Temporary Officers.** Until the organizational meeting after the initial election in 2003 provided for by Section 4.1 of this Charter, Marcia Moore, Mark Zachary, Frank Doherty, Hamilton Arnall, and Colleen McCall are appointed members of the Village Council of the Village of Cashiers, and they shall possess and exercise the powers granted to the governing body until their successors are elected or appointed and qualified pursuant to this Charter. If any person named in this section is unable to serve, the remaining temporary officers shall, by majority vote, appoint a person to serve until the initial municipal election is held in 2003.

"Section 3.3. **Manner of Electing Village Council; Term of Office.** The qualified voters of the entire Village shall elect the members of the Village Council, and, except as provided in this section, they shall serve four-year terms. In 2003, the two candidates receiving the highest numbers of votes shall be elected to four-year terms, and the three candidates receiving the next highest numbers of votes shall be elected to two-year terms. In 2005, and quadrennially thereafter, three members shall be elected to four-year terms. In 2007, and quadrennially thereafter, two members shall be elected to four-year terms.

"Section 3.4. **Manner of Electing Mayor; Term of Office; Duties.** The qualified voters of the entire Village shall elect the Mayor. In 2003, and quadrennially thereafter, the Mayor shall be elected for a term of four years. The Mayor shall be the official head of Village government and shall preside at all meetings of the Village Council, shall have the right to vote only when there is an equal division on any question or matter before the Village Council, and shall exercise the powers and duties conferred by law or as directed by the Village Council.

"Section 3.5. **Mayor Pro Tempore.** The Village Council shall appoint one of its members as Mayor Pro Tempore to perform the duties of the Mayor during the Mayor's absence or disability. The Mayor Pro Tempore shall serve in such capacity at the pleasure of the Village Council.

"ARTICLE IV. ELECTIONS.

"Section 4.1. **Conduct of Village Elections.** Elections shall be conducted on a nonpartisan basis and results determined by a plurality as provided in G.S. 163-292.

"ARTICLE V. ADMINISTRATION.

"Section 5.1. **Village to Operate Under Council-Manager Plan.** The Village shall operate under the Council-Manager form of government as provided in Part 2 of Article 7 of Chapter 160A of the General Statutes.

"Section 5.2. **Village Manager.** The Village Council shall appoint a Village Manager in accordance with G.S. 160A-147. The Manager shall be the administrative head of all Village departments and shall have all the powers and duties conferred by general law, except as expressly limited by the Village Council, so far as authorized by general law, and the provisions of this Charter, and any additional powers conferred by the Village Council. The Manager shall have the power to appoint, suspend, and remove

all Village officers, department heads, and employees, except the Village attorney and any other official whose appointment or removal is vested in the Village Council.

"ARTICLE VI. TAXES AND BUDGET ORDINANCE.

"Section 6.1. **Commencement of Tax Collection.** From and after the effective date of this act, the citizens and property in the Village of Cashiers shall be subject to municipal taxes levied for the year beginning July 1, 2003, and for that purpose the Village shall obtain from Jackson County a record of property in the area herein incorporated which was listed for property taxes as of January 1, 2003.

"Section 6.2. **Budget.** The Village may adopt a budget ordinance for fiscal year 2003-2004 without following the timetable in the Local Government Budget and Fiscal Control Act but shall follow the sequence of actions in the spirit of the act insofar as is practical. For fiscal year 2003-2004, ad valorem taxes may be paid at par or face amount within 90 days of adoption of the budget ordinance and thereafter in accordance with the schedule in G.S. 105-360. If the effective date of the incorporation is prior to July 1, 2003, the Village may adopt a budget ordinance for fiscal year 2002-2003 without following the timetable in the Local Government Budget and Fiscal Control Act but shall follow the sequence of actions in the spirit of the act insofar as practical. No ad valorem taxes may be levied for the 2002-2003 fiscal year."

SECTION 3. The Village may not exercise any powers authorized under G.S. 160A-360.

SECTION 4. The Village may annex areas only as provided in Parts 1 and 4 of Article 4A of Chapter 160A of the General Statutes.

SECTION 5. On or before June 30, 2004, and June 30, 2005, the Village Council shall submit to the House and Senate Finance Committees and the Joint Legislative Commission on Municipal Incorporations evidence that the Village is providing four municipal services from the list provided in G.S. 120-163(c) for the benefit of the residents of the Village and that the Village has imposed an ad valorem tax of at least five cents (5¢) on the one hundred dollar ($100.00) valuation upon all taxable property within the Village's corporate boundaries.

SECTION 6. The Jackson County Board of Elections shall conduct an election on a date set by the Board, to be not less than 60 nor later than 120 days after this act becomes law, for the purpose of submission to the qualified voters for the area described in Section 2.1 of the Charter of the Village of Cashiers the question of whether or not the area shall be incorporated as the Village of Cashiers. Registration for the election shall be conducted in accordance with G.S. 163-288.2.

SECTION 7. In the election, the question on the ballot shall be:

"[ ]FOR [ ]AGAINST

Incorporation of the Village of Cashiers."

SECTION 8. In the election, if a majority of the votes are cast "For the Incorporation of the Village of Cashiers", Sections 1 through 5 of this act shall become effective on the date that the Jackson County Board of Elections certifies the results of the election. Otherwise, Sections 1 through 5 of this act shall have no force and effect.

SECTION 9. This act is effective when it becomes law.

HOUSE BILL 790:
Incorporate Cashiers

BILL ANALYSIS

Committee:	House Finance	**Sponsor:**	Rep. Haire
Date:	April 8, 2003	**Analysis by:**	Martha Walston
Version:	1st Edition		Committee Counsel

SUMMARY: ***House bill 790 is a local bill that repeals the Charter for the Town of Cashiers in Jackson County and incorporates the Village of Cashiers, subject to a vote of the people in the proposed area to be incorporated. The Town has been inactive since incorporation in 1927. The Joint Legislative Commission on Municipal Incorporations recommended incorporation of the Village in its report on March 24, 2003. The Commission concluded that the proposed Village met the standards required by Article 20 of Chapter 120 of the General Statutes.***

BILL ANALYSIS: Subject to the vote of the people in the area to be incorporated, House Bill 790 incorporates the Village of Cashiers in Jackson County and repeals the charter of the Town of Cashiers. The Village will operate under a council-manager form of government. There will be five members of the Village Council and a Mayor. Until the initial election in 2003, specifically named persons will serve as interim Village Council members. At the initial election, the Village Council will be elected to staggered terms. The Mayor will serve a four-year term. Elections will be on a nonpartisan basis. The Village Council will appoint a Village Manager to be the administrative head of all Village departments.

The Village may not exercise any powers of planning and regulation beyond the village limits, and may only annex by petition or by meeting the statutory requirements for satellite annexation.

On or before June 30 of 2004 and 2005, the Village Council must submit evidence to the House and Senate Finance Committees and the Joint Legislative Commission on Municipal Incorporations that it is providing at least four of the municipal services provided in G.S. 120-163(c) and that the Village has imposed an ad valorem tax of at least 5¢ on the $100 valuation. The services in G.S. 120-163(c) are: police protection, fire protection, solid waste collection or disposal, water distribution, street maintenance, street construction or right-of-way acquisition, street lighting, and zoning.

The election on the question of incorporation must be held not less than 60 nor later than 120 days after the act becomes effective. If the majority of voters vote against incorporation, then the repeal of the Charter for the Town and the incorporation of the Village do not take effect.

BACKGROUND: Article 20 of Chapter 120 of the General Statutes creates the Joint Legislative Commission on Municipal Incorporations and sets out the procedures for review of the statutory requirements for incorporation. The Commission, with the help of the Division of Community Assistance of the Department of Commerce, found that the proposed Village of Cashiers satisfied the following requirements:

- The petition must be signed by 15% of the registered voters in the proposed area, but by not less than 25 registered voters. The petition was signed by 113 of the 596 voters in the proposed area. The Jackson County Board of Elections verified the petition.
- The petition contained the necessary information including a plan to provide a reasonable level of services (fire protection, police protection, zoning, and solid waste collection), and an ad valorem tax of at least 5¢ on the $100 valuation.
- The proposed area must have a permanent population of at least 100 and a population density of at least 250 persons per square mile. The data suggest that there are 2,376 people in the proposed area with a population density of 287 persons per square mile.
- At least 40% of the proposed area must be developed for residential, commercial, industrial, institutional, or governmental uses, or be dedicated as open space. 45.86% of the proposed area is developed.

Cashiers Incorporation
Fiscal Report

1. Sales Tax Revenue Change:

Jackson County distributes sales tax revenues on an ad valorem basis. This analysis uses the ad valorem amounts certified by county, city, and town officials to the Department of Revenue to show how that distribution would have changed had Cashiers been incorporated at that time.

Current

County	Municipalities	Ad Valorem Levy	% Levy*	Sales Tax Distribution
Jackson		16,505,542	94.1%	**6,118,192**
	Dillsboro	61,700	0.4%	22,253
	Forest Hills	18,599	0.1%	7,010
	Highlands	57,237	0.3%	21,673
	Sylva	894,644	5.1%	349,940
	Webster	9,042	0.1%	3,475
TOTAL		17,546,764	100.0%	6,522,542

* These percentages indicate the 2002 percent of levy. However, in 2001 the levy proportions are slightly different. Thus, distribution does not mirror these proportions exactly.

With Incorporation

County	Municipalities	Ad Valorem Levy	% Levy	Sales Tax Distribution	Change (Approx)
Jackson		16,505,542	91.4%	5,962,699	(155,494)
	Dillsboro	61,700	0.3%	22,289	37
	Forest Hills	18,599	0.1%	6,719	(291)
	Highlands	57,237	0.3%	20,677	(996)
	Sylva	894,644	5.0%	323,194	(26,746)
	Webster	9,042	0.1%	3,266	(208)
	Cashiers	*508,500*	2.8%	183,698	183,698
TOTAL		18,055,264	100.0%	6,522,542	(0)

** This assumes the village levies the $0.09 property tax noted in their incorporation papers..

2. Powell Bill Allocation Change

Annually state street aid or Powell Bill allocations are made to incorporated municipalities which establish their eligibility and qualify as provided by G.S. 136-41.1-.3. The amount allocated to each municipality is based on both population and qualifying street miles within the municipality.

FY 2001-02 population based allocations assumed a total, statewide municipal population of 4,086,685 and available funds of $101,578,822.46. This created a per capita distribution rate of $ 24.86.

Adding the new population of Cashiers (2376) to the statewide total creates a new

population of 4,089,061. This creates no appreciable change in the per capita payment rate (less than 2 cents per person). As such, this changes should have no significant impact on Powell Bill payments to other Jackson County municipalities.

3. Utility Excise Tax:

Of the 3.22% state excise tax rate on the in-state gross receipts of gas, power and light and telephone companies, 3.09 percentage points (or 96% of collections) are distributed to the respective municipalities within which these services took place. In 1998-99 the statewide total was $161.1 million.

Because Cashiers only incorporates new areas (areas not currently a part of another municipalities) no revenue shift is expected. Any revenue received by Cashiers from this tax would be new or drawn from the NC General Fund.

4. Reimbursements:

The state reimbursements to local governments for previous tax law changes were repealed by the previous General Assembly. To that end no reimbursements will be available to Cashiers. Under current law some local governments will qualify for a "hold harmless" payment if their new estimated sales tax revenue does not exceed their previous reimbursements. However, because Cashiers did not receive a reimbursement in 2001-02 (the base year for calculation purposes) they are not eligible for a hold harmless payment.

Note: Population numbers used for sales tax and Powell bill allocation vary due to the year used by the controlling agency.

Prepared by Linda Struyk Millsaps, Fiscal Research Division.

2003 COMMITTEE REPORT
HOUSE OF REPRESENTATIVES

The following report(s) from standing committee(s) is/are presented:
By Representatives **G. Allen, Howard, Luebke, McComas, Miner, and Wainwright** (Chairs) for the Committee on **FINANCE**.

☐ Committee Substitute for

House Committee on Finance

Minutes

~

April 10, 2003

The House Committee on Finance met on Thursday, April 10, 2003 at 8:30am in Room 544 of the Legislative Office Building. The following members were present: Chairpersons G. Allen, Howard, Luebke, and Wainwright; Vice-Chairs Alexander, Decker, Gibson, and Hill; and Representatives Blackwood, Bordsen, Carney, Creech, Glazier, Hackney, Holliman, Lewis, McCombs, McGee, Rayfield, Ross, Setzer, Weiss, and Womble. Also present were Sergeant-at-Arms staff Bob Fowler, Bill Freeman, Dusty Rhodes, and Bill Sullivan. Staff persons present included Richard Bostic, Trina Griffin, Linda Millsaps, and Martha Walston. The Agenda and Visitor Registration Sheet are attached and incorporated into these minutes as attachments 1 and 2.

Chairman Wainwright called the meeting to order at 8:30 am and recognized the three Pages present: Meghan Dawson and Amy McClellan, both of Cumberland County, sponsored by Representative Lucas; and Lindsey White of Wake County, sponsored by Representative Stam.

The Chair then recognized Representative Adams to explain HB 626 – GREENSBORO/AIRPORT ANNEXATION AGREEMENTS (see attachment 3). This bill authorizes the City of Greensboro and Piedmont Triad International Airport Authority Administration to enter into agreements to amend the description of a land area that, under current law, cannot be annexed into any municipality. The bill's purpose, explained Representative Adams, is to accommodate the changing needs of the City and the Airport. Linda Miles, City Attorney of Greensboro, was present in the audience to answer any questions from members on the bill. As there was no conflict among parties for this agreement, there were no questions from members. Chairman Wainwright recognized Representative Womble who offered a motion for a favorable report on HB 626. Upon the Chair's call of the vote, the motion passed with no known opposition.

Chairman Wainwright next recognized Senator Weinstein to explain SB 244 – RECOGNIZE RETIRED NURSES/FEES (see attachment 4). Senator Weinstein explained that the bill establishes a one-time fee of up to $50.00 for the issuance of a special license plate to recognize a retired registered nurse (RN) or retired licensed practical nurse (LPN). The bill also describes the procedures for the reinstatement of a retired RN or LPN to active practice. Following this description, the Chair recognized Representative Howard who moved that SB 244 receive a favorable report. The motion carried with no known opposition. Senator Weinstein noted to the Chair that Representative Sutton would be presenting this bill on the House floor.

Next on the agenda was HB 597 – ROANOKE RAPIDS DEANNEXATION and HB 598 – ROANOKE RAPIDS ANNEXATION (see attachment 5). Chairman Wainwright recognized Representative Hall, the sponsor, to explain the bills. HB 597 removes a 1,555-acre section of land from the corporate limits of the City of Roanoke Rapids while HB 598 annexes a 3,990-acre section of land to the City limits. The Chair opened the floor for discussion among the members. Representative Gibson made the motion for a favorable report on HB 597 and the motion carried

unanimously. Representative Howard then moved that HB 598 receive a favorable report and this motion carried unanimously as well.

Next, the Chair recognized Representative Coates to explain HB 351 – SALISBURY PARKING ENFORCEMENT (see attachment 6). This bill would allow the City of Salisbury to adopt an ordinance related to several parking issues. (Please see the attached bill summary for a more detailed description of this proposed ordinance.) The Chair entertained discussion of the bill between Representative Coates and several committee members. On a motion from Representative Womble, the committee voted to offer the bill a favorable report.

Chairman Wainwright recognized Representative Hill to explain the next bill: HB 89 – FORSYTH FIRE DISTRICTS (see attachment 7). Representative Hill explained that this bill would repeal a local law passed in 1981 that authorized the creation of joint fire and rescue protection districts inside of Forsyth County. The bill, by repealing the local law, would make the general law applicable. As there was no controversy on the matter, Representative Womble moved for a favorable report. Chairman Wainwright then called on the committee to vote, and the motion passed.

Lastly, the Chair recognized Representative Hill to explain HB 142 – SUNSET BEACH EROSION CONTROL (see attachment 8). The bill, explained Representative Hill, simply allows the Town of Sunset Beach to exercise the power of "quick-take" condemnation to acquire property for beach erosion control, flood and hurricane protection works, and public beach access. Chairman Wainwright opened the floor for questions following the explanation and recognized Representative Rayfield who asked if this bill affected anyone in the Oak Island area. Representative Hill informed him that he did not represent that area in his district but that a similar bill by Representative Stiller for that area would be coming before the Committee sometime in the near future. Upon a motion of favorable report by Representative Luebke, and hearing no further discussion from Committee members, Chairman Wainwright called the vote, and the motion carried.

As a final announcement, the Chair referred the following bills to the Subcommittee on Tax & Tags: HB 255 – Blue Ridge Parkway Foundation License Plate, HB 477 – NC Coastal Federation Special Plate, HB 563 – Surveyor Special License Plate, HB 577 – Retired Law Enforcement Special Plates, HB 661 – Alternative Fuel Vehicle Special Plate, HB 823 – Zeta Phi Beta Special Registration Plate, HB 855 – Breast Cancer Awareness Special Plate, and SB 295 – Special Registration Plates. Chairman Wainwright also referred HB 96 – Avery County Occupancy Tax, to the Subcommittee on the Occupancy Tax.

Having no further business, the Chair adjourned the meeting at 8:57 a.m.

Respectfully submitted,

Representative William Wainwright
Presiding Chair

Jason A. Cannon
Assistant to Committee on Finance

House Committee on Finance

Minutes

~

April 10, 2003

The House Committee on Finance met on Thursday, April 10, 2003 at 8:30am in Room 544 of the Legislative Office Building. The following members were present: Chairpersons G. Allen, Howard, Luebke, and Wainwright; Vice-Chairs Alexander, Decker, Gibson, and Hill; and Representatives Blackwood, Bordsen, Carney, Creech, Glazier, Hackney, Holliman, Lewis, McCombs, McGee, Rayfield, Ross, Setzer, Weiss, and Womble. Also present were Sergeant-at-Arms staff Bob Fowler, Bill Freeman, Dusty Rhodes, and Bill Sullivan. Staff persons present included Richard Bostic, Trina Griffin, Linda Millsaps, and Martha Walston. The Agenda and Visitor Registration Sheet are attached and incorporated into these minutes as attachments 1 and 2.

Chairman Wainwright called the meeting to order at 8:30 am and recognized the three Pages present: Meghan Dawson and Amy McClellan, both of Cumberland County, sponsored by Representative Lucas; and Lindsey White of Wake County, sponsored by Representative Stam.

The Chair then recognized Representative Adams to explain HB 626 – GREENSBORO/AIRPORT ANNEXATION AGREEMENTS (see attachment 3). This bill authorizes the City of Greensboro and Piedmont Triad International Airport Authority Administration to enter into agreements to amend the description of a land area that, under current law, cannot be annexed into any municipality. The bill's purpose, explained Representative Adams, is to accommodate the changing needs of the City and the Airport. Linda Miles, City Attorney of Greensboro, was present in the audience to answer any questions from members on the bill. As there was no conflict among parties for this agreement, there were no questions from members. Chairman Wainwright recognized Representative Womble who offered a motion for a favorable report on HB 626. Upon the Chair's call of the vote, the motion passed with no known opposition.

Chairman Wainwright next recognized Senator Weinstein to explain SB 244 – RECOGNIZE RETIRED NURSES/FEES (see attachment 4). Senator Weinstein explained that the bill establishes a one-time fee of up to $50.00 for the issuance of a special license plate to recognize a retired registered nurse (RN) or retired licensed practical nurse (LPN). The bill also describes the procedures for the reinstatement of a retired RN or LPN to active practice. Following this description, the Chair recognized Representative Howard who moved that SB 244 receive a favorable report. The motion carried with no known opposition. Senator Weinstein noted to the Chair that Representative Sutton would be presenting this bill on the House floor.

Next on the agenda was HB 597 – ROANOKE RAPIDS DEANNEXATION and HB 598 – ROANOKE RAPIDS ANNEXATION (see attachment 5). Chairman Wainwright recognized Representative Hall, the sponsor, to explain the bills. HB 597 removes a 1,555-acre section of land from the corporate limits of the City of Roanoke Rapids while HB 598 annexes a 3,990-acre section of land to the City limits. The Chair opened the floor for discussion among the members. Representative Gibson made the motion for a favorable report on HB 597 and the motion carried

unanimously. Representative Howard then moved that HB 598 receive a favorable report and this motion carried unanimously as well.

Next, the Chair recognized Representative Coates to explain HB 351 – SALISBURY PARKING ENFORCEMENT (see attachment 6). This bill would allow the City of Salisbury to adopt an ordinance related to several parking issues. (Please see the attached bill summary for a more detailed description of this proposed ordinance.) The Chair entertained discussion of the bill between Representative Coates and several committee members. On a motion from Representative Womble, the committee voted to offer the bill a favorable report.

Chairman Wainwright recognized Representative Hill to explain the next bill: HB 89 – FORSYTH FIRE DISTRICTS (see attachment 7). Representative Hill explained that this bill would repeal a local law passed in 1981 that authorized the creation of joint fire and rescue protection districts inside of Forsyth County. The bill, by repealing the local law, would make the general law applicable. As there was no controversy on the matter, Representative Womble moved for a favorable report. Chairman Wainwright then called on the committee to vote, and the motion passed.

Lastly, the Chair recognized Representative Hill to explain HB 142 – SUNSET BEACH EROSION CONTROL (see attachment 8). The bill, explained Representative Hill, simply allows the Town of Sunset Beach to exercise the power of "quick-take" condemnation to acquire property for beach erosion control, flood and hurricane protection works, and public beach access. Chairman Wainwright opened the floor for questions following the explanation and recognized Representative Rayfield who asked if this bill affected anyone in the Oak Island area. Representative Hill informed him that he did not represent that area in his district but that a similar bill by Representative Stiller for that area would be coming before the Committee sometime in the near future. Upon a motion of favorable report by Representative Luebke, and hearing no further discussion from Committee members, Chairman Wainwright called the vote, and the motion carried.

As a final announcement, the Chair referred the following bills to the Subcommittee on Tax & Tags: HB 255 – Blue Ridge Parkway Foundation License Plate, HB 477 – NC Coastal Federation Special Plate, HB 563 – Surveyor Special License Plate, HB 577 – Retired Law Enforcement Special Plates, HB 661 – Alternative Fuel Vehicle Special Plate, HB 823 – Zeta Phi Beta Special Registration Plate, HB 855 – Breast Cancer Awareness Special Plate, and SB 295 – Special Registration Plates. Chairman Wainwright also referred HB 96 – Avery County Occupancy Tax, to the Subcommittee on the Occupancy Tax.

Having no further business, the Chair adjourned the meeting at 8:57 a.m.

Respectfully submitted,

Representative William Wainwright
Presiding Chair

Jason A. Cannon
Assistant to Committee on Finance

GENERAL ASSEMBLY OF NORTH CAROLINA

SESSION 2003

H 1

HOUSE BILL 626

Short Title:	Greensboro/Airport Annexation Agreements.	(Local)
Sponsors:	Representatives Adams, Bowie, Jeffus, and Jones (Primary Sponsors).	
Referred to:	Local Government II.	

March 24, 2003

A BILL TO BE ENTITLED

AN ACT TO ALLOW THE CITY OF GREENSBORO AND THE PIEDMONT TRIAD INTERNATIONAL AIRPORT ADMINISTRATION TO AMEND THE BOUNDARIES OF CERTAIN TERRITORY THAT CANNOT BE ANNEXED BY THE CITY UNDER GENERAL LAW.

The General Assembly of North Carolina enacts:

SECTION 1. The City of Greensboro and the Piedmont Triad International Airport Administration may enter into agreements to amend the boundaries of the territory described in Section 4 of Chapter 818 of the 1985 Session Laws to meet the changing needs of the City and the Airport Administration.

SECTION 2. This act is effective when it becomes law.

HOUSE BILL 626:
Greensboro/Airport Annexation Agreements

BILL ANALYSIS

Committee:	House Finance	**Sponsor:**	Rep. Adams, Bowie, Jeffus, And Jones
Date:	April 10, 2003		
Version:	1st Edition	**Analysis by:**	Martha Walston* Committee Counsel

SUMMARY: House Bill 626 is a local bill that authorizes the City of Greensboro and the Piedmont Triad International Airport Administration to jointly amend the description of the area that cannot be annexed by Greensboro or any other municipality. House Local Government II gave the bill a favorable report on April 2. House Bill 467 is an identical bill.

CURRENT LAW: Under current law, the two tracts described in Section 4 of Chapter 818 of the 1985 Session Laws cannot be annexed by Greensboro or by any other municipality. Chapter 818 also annexed into Greensboro certain property west of the City's corporate limits.

BILL ANALYSIS: House Bill 626 authorizes the City of Greensboro and the Piedmont Triad International Airport Authority Administration to enter into agreements to amend the description of the area that cannot be annexed into any municipality. The purpose of the bill is to meet the changing needs of the City and the Airport Administration.

*Giles Perry, Counsel to House Local Government II, contributed to this summary.

GENERAL ASSEMBLY OF NORTH CAROLINA

SESSION 2003

S 2

SENATE BILL 244
Finance Committee Substitute Adopted 3/25/03

Short Title: Recognize Retired Nurses/Fees. (Public)

Sponsors:

Referred to:

February 27, 2003

A BILL TO BE ENTITLED

AN ACT AUTHORIZING THE NORTH CAROLINA BOARD OF NURSING TO RECOGNIZE RETIRED NURSES BY SPECIAL LICENSURE STATUS AND TO ESTABLISH A FEE FOR THIS STATUS.

The General Assembly of North Carolina enacts:

SECTION 1. Article 9A of Chapter 90 of the General Statutes is amended by adding a new section to read:

"**§ 90-171.36A. Retired nurse status; reinstatement.**

(a) After a registered nurse or a licensed practical nurse has retired, upon payment of the one-time fee required by G.S. 90-171.27(b), the Board may issue a special license to a registered nurse or licensed practical nurse in recognition of the nurse's retired status.

(b) If a retired registered nurse or licensed practical nurse wishes to return to the practice of nursing, the retired nurse shall apply for reinstatement on a form provided by the Board and satisfy any requirements the Board deems necessary to reinstate the license."

SECTION 2. G.S. 90-171.27(b) reads as rewritten:

"(b) The schedule of fees shall not exceed the following rates:

Application for examination leading to certificate and license as registered nurse	$75.00
Application for certificate and license as registered nurse by endorsement	150.00
Application for each re-examination leading to certificate and license as registered nurse	75.00
Renewal of license to practice as registered nurse(two-year period)	100.00
Reinstatement of lapsed license to practice as a registered nurse and renewal fee	180.00
Application for examination leading to certificate and license as licensed practical nurse by examination	75.00

Application for certificate and license as licensed practical nurse by endorsement 150.00
Application for each re-examination leading to certificate and license as licensed practical nurse 75.00
Renewal of license to practice as a licensed practical nurse (two-year period) 100.00
Reinstatement of lapsed license to practice as a licensed practical nurse and renewal fee 180.00
Application fee for retired registered nurse status or retired licensed practical nurse status 50.00
Reinstatement of retired registered nurse to practice as a registered nurse or a retired licensed practical nurse to practice as a licensed practical nurse (two-year period) 100.00
Reasonable charge for duplication services and materials.

A fee for an item listed in this schedule shall not increase from one year to the next by more than twenty percent (20%)."

SECTION 3. The Board shall initially charge a twenty-five dollar ($25.00) application fee for retired registered nurse status or retired licensed practical nurse status. Nothing in this section shall prohibit the Board from amending the fee pursuant to Chapter 150B of the General Statutes.

SECTION 4. This act is effective when it becomes law.

SENATE BILL 244:
Recognize Retired Nurses/Fees

BILL ANALYSIS

Committee:	House Finance	**Introduced by:**	Sen. Weinstein
Date:	April 9, 2003	**Summary by:**	Trina Griffin
Version:	2nd Edition		Committee Counsel

SUMMARY: Senate Bill 244 does the following:

- ***Establishes a one-time fee of up to $50.00 for the issuance of a special license to recognize a retired registered nurse (RN) or a retired licensed practical nurse (LPN).***
- ***Establishes procedures for the reinstatement of a retired RN or LPN to active practice.***
- ***Clarifies that the Board may charge a reinstatement fee to a retired RN or LPN returning to active practice.***

CURRENT LAW: Currently, no category exists for the recognition of a retired RN or LPN. Upon retirement, the RN or LPN can: (1) become inactive and be considered unlicensed; (2) pay a renewal fee every two years of up to $100 to maintain an active license; or (3) pay a fee of up to $180 to reinstate a lapsed license and resume practice.

BILL ANALYSIS:

Retired Nurse Status.

SB 244 establishes the retired RN and LPN category. The purpose for the retired status is two-fold. First, it will allow RNs and LPNs at the end of their careers to obtain title recognition. According to the NC Board of Nursing (Board), some retired RNs and LPNs continue to pay the renewal fee merely to maintain their title. Second, the category would help the Board maintain a more accurate count of nurses who are retired as opposed to inactive or who have let their licenses lapse.

Fee: The Board may charge a one-time fee of up to $50.00 for the retired status. However, the Board has indicated they initially intend to levy a fee of only $25.00.

Reinstatement of RNs and LPNs to Active Licensure.

If a retired RN or LPN wishes to return to the practice of nursing, the nurse must apply for reinstatement to the Board and satisfy any requirements prescribed by the Board for reinstatement.

Procedures for Reinstatement: According to the Board, the following requirements would apply to retired RNs and LPNs wishing to return to active practice:

- Reinstatement 5 Years or Less from Date of Retirement: If the reinstatement occurs five years or less from the date of retired status, the only requirement would be completing the reinstatement application and payment of the reinstatement fee.
- Reinstatement More Than 5 Years from Date of Retirement: If the reinstatement to practice occurs more than five years from the date of retired status, in addition to completing the application and paying the fee, he/she would also be required to take a refresher course before the license would become active.

Fee: The bill authorizes the Board to charge a reinstatement fee to retired RNs and LPNs returning to active status. The fee may not exceed $100 for a 2-year period. Currently, the Board plans to charge $72.00 for a 2-year period, the same as it charges for regular renewals.

Amy Compeau, Research Assistant, Research Division & Staff to the Senate Health Committee, contributed substantially to this summary.

NORTH CAROLINA GENERAL ASSEMBLY

LEGISLATIVE FISCAL NOTE

BILL NUMBER: SB 244 (2nd Edition)

SHORT TITLE: Recognize Retired Nurses/Fees

SPONSOR(S): Senator Weinstein

FISCAL IMPACT

Yes (X) **No ( )** **No Estimate Available ( )**

	FY 2003-04	FY 2004-05	FY 2005-06	FY 2006-07	FY 2007-08
REVENUES					
General Fund			* No General Fund Impact *		
Board of Nursing	139,188		*See Assumptions and Methodology *		

PRINCIPAL DEPARTMENT(S) & PROGRAM(S) AFFECTED: NC Board of Nursing.

EFFECTIVE DATE: When it becomes law.

BILL SUMMARY: The bill authorizes the North Carolina Board of Nursing to issue a special license to a retired registered nurse or licensed practical nurse. The charge for the license is a one-time fee of $50.00. It also authorizes the Board to levy a fee of up to $100 for a retired nurse to return to active practice.

ASSUMPTIONS AND METHODOLOGY: According to the annual report of the North Carolina Board of Nursing, as of December 31, 2001, there were 69,370 licensed registered nurses and 15,140 licensed practical nurses, for a total of 79,100 licensed nurses employed in nursing in North Carolina. Of the licensed nurses, approximately 5,500 are over 65 years of age. Their records also indicate that there were 33,618 registered nurses who were inactive in calendar 2001, and 10,652 licensed practical nurses who were inactive in the same period, for a total of 44,270 inactive nurses. It is unclear to Fiscal Research how many of the inactive nurses are retired, although it is reasonable to assume that at least 25% of the total are retired. It is also unclear to Fiscal Research how many nurses retire each year.

The Board of Nursing indicates that while the legislation authorizes a fee of $50, it intends to only levy a fee of $25. The fiscal note assumes the Board uses a fee of $25 for the first year and $50 in the out years. Using 25% of the inactive nurse number as a proxy for first time applications for a retired nurse registration suggests first year revenue associated with the bill of $276,688 from those nurses. Assuming 50% of the 65-year-old and older nurses apply for the new license, revenue from that source in the first year would amount to an additional $68,750, creating a first year revenue estimate of $345,438. If the loss of license renewals for the retiring

nurses was considered, the net gain to the Board in the first year would be approximately $139,188. If 5% of active nurses retire each year and request a retired nurse license, the annual revenue stream associated with the license would be approximately $197,750 ($50 x 3,955). However, because there would also be an associated loss of traditional license fees ($100 for a two-year license), the net revenue stream would be limited to a loss in the out years, if those same individuals would have continued paying for their full license.

According to the Board, the costs to the Board associated with the bill should be limited to approximately $1,500 in software and database costs, as well as approximately $5 each for the creation of the certificates themselves.

As of December 31, 2001, the NC Board of Nursing carried a $1,849,222 fund balance, which was an increase of $323,428 over the previous year. The 2001 fund balance is equal to approximately 44% of its annual expenditures.

In addition, the bill allows the Board to levy a fee of up to $100 to reinstate the license to practice of a nurse who previously carried a retired nurse license. According to Board staff, while the bill authorizes a fee of up to $100 for the two-year period, they will actually charge $72, as this aligns with other similar fees charged by the Board. Because we currently have no retired nurse program, it is impossible to estimate the number of nursed who would move from a retired nurse program back into practice. Thus, there is no fiscal estimate on this portion of the bill. As a practical matter, however, there would be very little no revenue from the reinstatement fee in the first year.

SOURCES OF DATA: NC Board of Nursing, NC Secretary of State.

HOUSE BILL 597: Roanoke Rapids Deannexation
HOUSE BILL 598: Roanoke Rapids Annexation

BILL ANALYSIS

Committee:	House Finance	**Sponsor:**	Rep. Hall
Date:	April 10, 2003	**Analysis by:**	Martha Walston
Version:	1st Edition		Committee Counsel

SUMMARY: House Bill 597 and 598 are local bills annexing and de-annexing property to the City Limits of Roanoke Rapids in Halifax County. Both bills are effective when they become law.

CURRENT LAW: A city or town may annex property by petition of owners of property to be annexed or if the property meets certain statutory requirements. If the property does not meet the statutory requirements for annexation, the municipality does not have the authority to annex. However, the General Assembly can extend the corporate limits of a municipality to encompass areas that the municipality would not statutorily have the authority to annex. The General Assembly can also de-annex property of a municipality.

BILL ANALYSIS: House Bill 597 removes a strip of land containing 1.555 acres from the corporate limits of the City of Roanoke Rapids. House Bill 598 annexes 3,990 acres to the corporate limits of the City of Roanoke Rapids.

SESSION 2003

H 1

HOUSE BILL 351

Short Title:	Salisbury Parking Enforcement.	(Local)
Sponsors:	Representative Coates.	
Referred to:	Local Government II.	

March 6, 2003

A BILL TO BE ENTITLED

AN ACT TO AUTHORIZE THE CITY OF SALISBURY TO ADOPT AND ENFORCE ORDINANCES RELATING TO PARKING.

The General Assembly of North Carolina enacts:

SECTION 1. Article 2 of Chapter VII of the Charter of the City of Salisbury, as revised and consolidated by S.L. 1987-205, is amended by adding the following new section:

"Sec. 7.4. Parking Regulations and Violations.

(a) The City Council may provide by ordinance that each hour a vehicle remains illegally parked in an on-street parking space is a separate offense, and the violator may be given a ticket for each offense.

(b) The City Council may provide by ordinance that any vehicle that has been towed for a parking violation is to be held until the towing fee and penalties related to all outstanding parking tickets and parking penalties owed to the City are paid in full, or a bond is posted in the amount of the towing fee and all outstanding parking tickets and parking penalties. Payment of the towing fee and all outstanding parking tickets and parking penalties shall not constitute a waiver of a person's right to contest the towing or the outstanding parking tickets and parking penalties.

(c) The City Council may provide by ordinance for the use of wheel locks on illegally parked vehicles for which there are three or more outstanding, unpaid, and overdue parking tickets for a period of 90 days. The ordinance shall provide for notice or warning to be affixed to the vehicle, immobilization, towing, impoundment, appeal hearing, an immobilization fee not to exceed fifty dollars ($50.00), and charges for towing and storage. The City shall not be responsible for any damage to an immobilized illegally parked vehicle resulting from unauthorized attempts to free or move that vehicle.

(d) Notwithstanding the provisions of Chapter 20 of the General Statutes or any other public or private local laws to the contrary, the City Council may adopt ordinances:

(1) Prohibiting parking or standing of a vehicle in a space designated with a sign for handicapped persons when the vehicle does not display the distinguishing registration plate, windshield placard, or disabled veteran registration plate and that prohibit parking or standing of a vehicle so as to obstruct a curb ramp or curb cut, as provided in G.S. 20-37.6(e).

(2) Prohibiting parking or standing of a vehicle in front of or within a specified distance in either direction of a fire hydrant or the driveway entrance to any fire station, or in any area designated as a fire lane.

(3) Prohibiting parking or standing of a vehicle in front of or within a specified distance from a public or private driveway.

(4) Prohibiting parking or standing of a vehicle within a specified distance from an intersection or crosswalk.

(e) Any ordinance adopted pursuant to this section may be enforced by law enforcement officers and any person or persons authorized by ordinance, by the city manager, or by the chief of police, whether or not the vehicle is parked on public or private property."

SECTION 2. This act is effective when it becomes law.

HOUSE BILL 351:
Salisbury Parking Enforcement.

BILL ANALYSIS

Committee:	House Finance	**Introduced by:**	Rep. Coates
Date:	April 9, 2003	**Summary by:**	Trina Griffin
Version:	1st Edition		Committee Counsel

SUMMARY: ***House Bill 351 amends the Charter for the City of Salisbury to authorize it to adopt and enforce ordinances related to parking. This bill received a favorable report in House Local Government II.***

CURRENT LAW: The Salisbury Charter allows the City Council to control traffic through the use of traffic-control devices that include parking meters. It does not otherwise address parking ordinances. However, G.S. 160A-301 provides that a city may, by ordinance, regulate parking of vehicles on the public streets. Violation of local ordinances is an infraction and subject to a penalty of not more than fifty dollars ($50).

The following municipalities currently have the authority to use wheel locks on illegally parked vehicles and assess an immobilization fee: Winston-Salem, Greensboro, Chapel Hill, Greenville, Henderson, Asheville, Durham, Raleigh, Lenoir, Wilmington, Charlotte, and Monroe.

BILL ANALYSIS: HB 351 allows the Salisbury City Council to adopt an ordinance that provides for the following:

- Each hour a vehicle remains illegally parked is a separate offense and may be ticketed separately.
- Vehicles towed for parking violations may be held until the towing fee and penalties are paid in full.
- Authorizes the use of wheel locks on illegally parked vehicles for which there are three or more outstanding and unpaid parking tickets for a period of 90 days. The ordinance must provide for an immobilization fee not to exceed $50.00 and charges for towing and storage.
- Authorizes ordinances prohibiting parking in certain designated spaces.
- Allows for enforcement by law enforcement officers and other persons authorized by the ordinance.

The act is effective when it becomes law.

Kory J. Goldsmith, counsel for House Local Government II, substantially contributed to this summary.

HOUSE BILL 89

Short Title:	Forsyth Fire Districts.	(Local)
Sponsors:	Representatives McGee; Holmes, Parmon, Sexton, and Womble.	
Referred to:	Local Government I.	

February 26, 2003

A BILL TO BE ENTITLED

AN ACT TO REPEAL A LOCAL ACT APPLYING TO FORSYTH COUNTY CONCERNING FIRE AND RESCUE DISTRICTS, SO THE GENERAL LAW WILL APPLY.

The General Assembly of North Carolina enacts:

SECTION 1. Chapter 147 of the 1981 Session Laws is repealed.

SECTION 2. This act applies to Forsyth County only.

SECTION 3. This act becomes effective April 17, 1981.

HOUSE BILL 89:
Forsyth Fire Districts

BILL ANALYSIS

Committee:	House Finance	**Sponsor:**	Rep. McGee
Date:	April 10, 2003	**Analysis by:**	Martha Walston
Version:	1st Edition		Committee Counsel*

SUMMARY: House Bill 89 is a local bill that repeals a 1981 local law that authorized the creation of joint fire and rescue protection districts within Forsyth County. The repeal will make the general law applicable. House Bill 89 was given a favorable report in House Local Government I. on March 19. The bill is effective retroactive to April 17, 1981.

CURRENT GENERAL LAW: Article 3A of Chapter 69 authorizes the board of county commissioners to hold an election to levy property taxes on property in a rural fire protection district for fire protection purposes, if 35% of the resident freeholders living in the district sign a petition calling for the election. G.S. 69-25.4, enacted on April 17, 1981, provides that for purposes of fire protection districts, the term "fire protection" and the levy of a tax for that purpose may include the levy, appropriation, and expenditure of funds for furnishing emergency medical, rescue and ambulance services to protect persons within the fire district from injury or death. The tax cannot be more than 15¢ on the $100 valuation of property.

CURRENT LOCAL LAW: Chapter 147 of the 1981 Session Laws, enacted on March 31, 1981, provides that whenever the term "fire protection district" or "fire protection" is used in Chapter 69, the term is deemed to refer to "fire and rescue district" with respect to Forsyth County only.

BILL ANALYSIS: House Bill 89 would repeal the above local law, and make the general law regarding the formation of rural fire and rescue districts applicable in Forsyth County. The County has been applying the general law since 1981 when it was enacted less than a month after the local law. Local acts take precedence over subsequent general acts, unless the subsequent general act repeals the local act.

*Erika Churchill, staff to House Local Government I, contributed to this summary.

February 27, 2003

A BILL TO BE ENTITLED

AN ACT TO ALLOW THE TOWN OF SUNSET BEACH TO EXERCISE THE POWER OF EMINENT DOMAIN FOR PURPOSES OF ENGAGING IN BEACH EROSION CONTROL AND FLOOD AND HURRICANE PROTECTION WORKS AND PUBLIC BEACH ACCESS.

The General Assembly of North Carolina enacts:

SECTION 1. Section 3 of S.L. 2001-36, as amended by S.L. 2001-478, reads as rewritten:

"**SECTION 3.** This act applies only to Carolina Beach, Carteret County, Dare County, and the Towns of Atlantic Beach, Emerald Isle, Holden Beach, Indian Beach, Kill Devil Hills, Kitty Hawk, Kure Beach, Nags Head, North Topsail Beach, Pine Knoll Shores, Sunset Beach, Surf City, Topsail Beach, and Wrightsville Beach."

SECTION 2. This act is effective when it becomes law.

HOUSE BILL 142:
Sunset Beach Erosion Control

BILL ANALYSIS

Committee:	House Finance	**Introduced by:**	Rep. Hill
Date:	April 10, 2003	**Summary by:**	Trina Griffin
Version:	1st Edition		Committee Counsel

SUMMARY: House Bill 142 authorizes the Town of Sunset Beach to exercise the power of "quick-take" condemnation to acquire property for beach erosion control, flood and hurricane protection works, and public beach access.

CURRENT LAW:

General Condemnation Procedures: Under general condemnation procedures, title to the property and the right of possession vests in the city or county seeking condemnation only after one of the following occur: (1) the property owners do not contest the taking but only request a determination of just compensation; (2) the owners do not respond within 120 days of service of the condemnation action; or (3) the deposit made by the locality is disbursed by the court in accordance with G.S. 40A-44.

"Quick-Take" Procedures: Under current law, cities and counties may use the power of "quick-take" condemnation for purposes set out in G.S. 40A-3 and 40A-42, which include:

- Opening or improving roads, streets, and sidewalks.
- Establishing or improving storm sewer and drainage systems and works, or sewer and septic tank lines and systems.
- Establishing drainage programs

In addition, cities may use quick-take procedures for electricity, water supply and distribution, wastewater treatment and disposal, gas, solid waste collection and disposal, and cable television; counties may use quick-take for water, wastewater treatment and disposal, and solid waste collection and disposal.

Under quick-take condemnation procedures, title to the property and the right to immediate possession vests upon the filing of the complaint and the making of a deposit in an amount estimated by the condemnor to be just compensation for the taking, unless an action for injunctive relief has been initiated.

The following 16 localities have the additional authority to use quick-take condemnation for purposes of engaging in beach erosion control and flood and hurricane protection works and public beach access:

Carolina Beach, Carteret County, Dare County, and the Towns of Atlantic Beach, Emerald Isle, Holden Beach, Indian Beach, Kill Devil Hills, Kitty Hawk, Kure Beach, Nags Head, North Topsail Beach, Pine Knoll Shores, Surf City, Topsail Beach, and Wrightsville Beach.

BILL ANALYSIS: House Bill 142 authorizes the Town of Sunset Beach to use quick-take condemnation procedures for the following purposes:

- Engaging in or participating with other governmental entities in acquiring, construction, reconstructing, extending, or otherwise building or improving beach erosion control or flood and hurricane protection works, including, but not limited to, the acquisition of any property that may be required as a source for beach renourishment.
- Establishing access for the public to public trust beaches and appurtenant parking areas.

House Bill 142 would be effective when it becomes law.

Minutes

~

April 15, 2003 ~ 8:30 am

The House Committee on Finance met on Tuesday, April 15, 2003 at 8:30am in Room 544 of the Legislative Office Building. The following members were present: Chairpersons G. Allen, Howard, Miner, and Wainwright; Vice-Chairs Alexander, Decker, Gibson, and Hill; and Representatives Blackwood, Bordsen, Carney, Creech, Glazier, Holliman, Jones, Lewis, McCombs, McGee, Munford, Rayfield, Ross, Setzer, Weiss, Wilson, and Womble. Also present were Sergeant-at-Arms Bob Fowler, Bill Freeman, Dusty Rhodes, and Aaron Woodlief. Staff persons present included Richard Bostic, Trina Griffin, Linda Millsaps, and Martha Walston. The Agenda and Visitor Registration Sheet are attached and incorporated into these minutes as attachments 1 and 2.

Chairman G. Allen called the meeting to order at 8:40 am and recognized the three Pages present: Hannah Wright of Cabarrus County, sponsored by Representative L. Johnson; Donovan Ragsdale of Wake County, sponsored by Representative Capps; and Ross Martin of Guilford County, sponsored by Representative Jeffers.

Chairman Allen made several announcements prior to considering the bills on the agenda. First, the Chair announced that the Finance Committee would meet again at 2pm for debate on the proposed bill HB 254 – REDUCE YOUTH SMOKING: RAISE TOBACCO TAXES and a third time immediately following the full House session later in the afternoon for consideration of HB 593 – FAMILY TAX CUT/PROTECT AAA RATING. Finally, the Chairman announced the removal of HB 650 – DURHAM ANNEXATIONS from the day's agenda to be re-calendared at the request of one of the bill's sponsors, Representative Luebke.

The Chair also announced the referral of HB 1034 – M.A.D.D. SPECIAL REGISTRATION PLATE and HB 1160 – STOCK CAR RACING THEME SPECIAL PLATES to the Finance Subcommittee on Tax and Tags. The Chair then reminded the members of the Subcommittee on Tax and Tags that they would meet later in the day at 10:00 am in Room 425 of the Legislative Office Building.

Chairman Allen then recognized Representative Stam to explain HB 517 – HOLLY SPRINGS CHARTER REVISION (see attachment 3). This bill acts to consolidate the charter of the Town of Holly Springs and amends the Charter to include a provision allowing the Town to enact a tree ordinance. Immediately following this explanation, the Chair recognized Representative Weiss who made a motion for a favorable report. Having no discussion, the Chair called the vote and the motion passed with no known opposition.

Chairman Allen then recognized Representative Stiller, the bill sponsor, to explain HB 542 – OAK ISLAND/CASWELL/OCEAN ISLE CONDEMNATIONS (see attachment 4). This bill is proposed to authorize the Towns of Oak Island, Caswell Beach, and Ocean Isle Beach to exercise the power of "quick-take" condemnation to acquire property for beach erosion control, flood and hurricane protection works, and public beach access. Noting that he had already offered a similar bill for his area of representation, Representative Hill moved for a favorable report. The motion

carried without dissent.

The Chairman next recognized Rep. Blackwood to explain HB 731 – STALLINGS SATELLITE ANNEXATION (see attachment 5). Representative Blackwood explained that the bill is controversial, since the Town of Indian Trail has objected to the proposed satellite annexations of the bill. Upon hearing Mr. Blackwood's explanation, Representative Howard stated that it seemed that he had attempted to make a fair compromise on the bill and subsequently moved for a favorable report. However, prior to the consideration of this motion, the Chairman recognized members for questions concerning the opposition of the Town of Indian Trail to the proposed annexations. Representative Womble asked to hear from anyone at the meeting in opposition to this bill; however no one from Indian Trail was present at the meeting to voice opposition. Following this, Representative Jones reasserted the earlier motion for a favorable report, stating that the bill seemed to meet legitimate conditions for annexation.

Representative Blackwood then reiterated his hope that the communities of Indian Trail and Stallings could work out an agreement amongst themselves, as, even when passed, this bill remains a voluntary annexation. Representative Decker offered an amendment to the bill to add a sunset until 2006, as the current edition does not have a stated date of expiration. This amendment would act to provide that the ability to annex for these two communities would expire under law in 2006 if they were to remain unable to reach an appropriate compromise.

Representatives Rayfield and Alexander asked Representative Blackwood if he would consider withdrawing his current bill and return once again to these communities to attempt to sort things out and make a compromising arrangement. Representative Blackwood stated that, unfortunately, at the present time he did not believe there was any other resolution. Representative Womble was then recognized by the Chair to address the Committee and stated his belief that the Committee should not be involved on such a controversial local issue, where there is such wide opposition. He also stated his belief that Representative Blackwood should withdraw his bill and return to the community for further interaction with these communities.

At that time, Representative Blackwood, upon consulting with Chairman Allen, acted to withdraw his bill and to return to the local community for additional attempts at compromise.

Chairman Allen then reminded members of the Subcommittee on Tax and Tags that it would meet at 10 am that day in room 425 of the Legislative Office Building. The Chair also reminded the Committee once again that it would meet again that day at 2:00 pm to debate the Cigarette Tax and for a third time following the full House session at approximately 4:30 pm.

Having no further business at that time, Chairman Allen adjourned the meeting at 9:05 am.

Respectfully submitted,

Representative Gordon Allen
Presiding Chair

Jason A. Cannon

SESSION 2003

H 2

HOUSE BILL 517
Committee Substitute Favorable 4/7/03

Short Title: Holly Springs Charter Revision. (Local)

Sponsors:

Referred to:

March 17, 2003

A BILL TO BE ENTITLED

AN ACT TO REVISE AND CONSOLIDATE THE CHARTER OF THE TOWN OF HOLLY SPRINGS.

The General Assembly of North Carolina enacts:

SECTION 1. The Charter of the Town of Holly Springs is revised and consolidated to read as follows:

"CHARTER OF THE TOWN OF HOLLY SPRINGS.

"ARTICLE I. INCORPORATION, CORPORATE POWERS, AND BOUNDARIES.

"Section 1.1. **Incorporation.** The Town of Holly Springs and the inhabitants thereof shall continue to be a municipal body politic and corporate under the name of the 'Town of Holly Springs', hereinafter at times referred to as the 'Town'.

"Section 1.2. **Powers.** The Town shall have and may exercise all of the powers, duties, rights, privileges, and immunities conferred upon the Town of Holly Springs specifically by this Charter or upon municipal corporations by general law. The term 'general law' is employed herein as defined in G.S. 160A-1.

"Section 1.3. **Corporate Limits.** The corporate limits shall be those existing at the time of ratification of this Charter, as set forth on the official map of the Town and as they may be altered from time to time in accordance with law. An official map of the Town, showing the current municipal boundaries, shall be maintained permanently in the office of the Town Clerk and shall be available for public inspection. Upon alteration of the corporate limits pursuant to law, the appropriate changes to the official map shall be made and copies shall be filed in the office of the Secretary of State, the Wake County Register of Deeds, and the appropriate board of elections.

"ARTICLE II. GOVERNING BODY.

"Section 2.1. **Town Governing Body.** The Board of Commissioners, hereinafter referred to as the 'Board', and the Mayor shall be the governing body of the Town.

"Section 2.2. **Board of Commissioners; Composition; Terms of Office.** The Board shall be composed of five members, to be elected by all the qualified voters of the

Town, for staggered terms of four years and until their successors are elected and qualified.

"Section 2.3. **Mayor; Term of Office; Duties.** The Mayor shall be elected by all the qualified voters of the Town for a term of four years and until a successor is elected and qualified. The Mayor shall be the official head of the Town government and shall preside at meetings of the Board. The Mayor shall have the right to vote only when there is an equal division on any question or matter before the Board and shall exercise the powers and duties conferred by law or as directed by the Board.

"Section 2.4. **Mayor Pro Tempore.** In accordance with general law, the Board shall elect one of its members to act as Mayor Pro Tempore to perform the duties of the Mayor during his or her absence or disability.

"Section 2.5. **Meetings.** In accordance with general law, the Board shall establish a suitable time and place for its regular meetings. Special and emergency meetings may be held as provided by general law.

"Section 2.6. **Quorum; Voting.** Official actions of the Board and all votes shall be taken in accordance with the applicable provisions of general law, particularly G.S. 160A-75. The quorum provisions of G.S. 160A-74 shall apply.

"Section 2.7. **Compensation; Qualifications for Office; Vacancies.** The compensation and qualifications of the Mayor and Commissioners shall be in accordance with general law.

"ARTICLE III. ELECTIONS.

"Section 3.1. **Regular Municipal Elections.** Regular municipal elections shall be held in each odd-numbered year in accordance with the uniform municipal election laws of North Carolina. Elections shall be conducted on a nonpartisan basis and the results determined by a plurality as provided in G.S. 163-292.

"Section 3.2. **Election of Mayor.** At the regular municipal election in 2005, and quadrennially thereafter, a Mayor shall be elected to serve a term of four years.

"Section 3.3. **Election of Commissioners.** At the regular municipal election in 2003, and quadrennially thereafter, two Commissioners shall be elected to four-year terms. At the regular municipal election in 2005, and quadrennially thereafter, three Commissioners shall be elected to four-year terms.

"Section 3.4. **Special Elections and Referenda.** Special elections and referenda may be held only as provided by general law or applicable local acts of the General Assembly.

"ARTICLE IV. ORGANIZATION AND ADMINISTRATION.

"Section 4.1. **Form of Government.** The Town shall operate under the council-manager form of government as provided in Part 2 of Article 7 of Chapter 160A of the General Statutes.

"Section 4.2. **Town Attorney.** The Board shall appoint a Town Attorney licensed to practice law in North Carolina. It shall be the duty of the Town Attorney to represent the Town, advise Town officials, and perform other duties required by law or as the Board may direct.

"Section 4.3. **Town Clerk.** The Board shall appoint a Town Clerk to keep a journal of the proceedings of the Board, to maintain official records and documents, to give

notice of meetings, and to perform such other duties required by law or as the Board may direct.

"Section 4.4. **Tax Collector.** The Board shall appoint a Tax Collector to collect all taxes owed to the Town and perform those duties specified in G.S. 105-350 and such other duties as prescribed by law or assigned by the Board.

"Section 4.5. **Other Administrative Officers and Employees.** The Board may authorize other positions to be filled by appointment and may organize the Town government as deemed appropriate, subject to the requirements of general law.

"ARTICLE V. MISCELLANEOUS POWERS.

"Section 5.1. **Tree Ordinances.**

(a) The Town may adopt ordinances to regulate the removal and preservation of existing trees and shrubs prior to development within a perimeter buffer zone of up to 50 feet along public roadways and property boundaries adjacent to developed properties and up to 25 feet along property boundaries adjacent to undeveloped properties.

(b) Ordinances adopted pursuant to this section shall:

(1) Provide that the required buffer area shall not exceed twenty percent (20%) of the area of the tract, net of public road rights-of-way and any required conservation easements.

(2) Provide that buffer zones that adjoin public roadways shall be measured from the edge of the public road right-of-way.

(3) Provide that tracts of two acres or less, net of public road rights-of-way, that are zoned for single-family residential use are exempt from the requirements of the ordinances.

(4) Provide that the ordinances are limited to situations where undeveloped property is planned or zoned in accordance with adopted municipal plans and zoning regulations.

(5) Provide that a survey of individual trees is not required.

(6) Include reasonable provisions for access onto and within the subject property.

(7) Exclude normal forestry activities on property taxed under the present-use value standard or conducted pursuant to a forestry management plan prepared or approved by a forester registered pursuant to Chapter 89B of the General Statutes. However, for such properties, a municipality may deny a building permit or refuse to approve a site or subdivision plan for a period of three years following completion of the harvest if all or substantially all of the perimeter buffer trees that should have been protected were removed from the tract of land for which the permit or plan approval is sought. A municipality may deny a permit or refuse to approve a site or subdivision plan for a period of two years if the owner replants the buffer area within 120 days of harvest with plant material that is consistent with buffer areas required under the municipality's ordinances.

(c) Before adopting an ordinance under this section, the governing board of the municipality shall hold a public hearing on the proposed ordinance. Notice of the public hearing shall be given in accordance with G.S. 160A-364.

(d) Nothing in this section shall be construed to limit or be limited by any other existing laws or ordinances.

(e) This section applies to the Town and to property located within the Town's corporate limits and extraterritorial planning jurisdiction under Article 19 of Chapter 160A of the General Statutes.

(f) This section becomes effective January 1, 2004."

SECTION 2. The purpose of this act is to revise the Charter of the Town of Holly Springs and to consolidate herein certain acts concerning the property, affairs, and government of the Town.

SECTION 3. The following acts or portions of acts, having served the purposes for which they were enacted, or having been consolidated into this act, are hereby repealed:

Chapter 110, Session Laws of 1951
Chapter 121, Session Laws of 1953
Chapter 495, Session Laws of 1971
Chapter 331, Session Laws of 1985
Chapter 382, Session Laws of 1985
Chapter 941, Session Laws of 1985.

SECTION 4. No provision of this act is intended, nor shall be construed, to affect in any way any rights or interests (whether public or private):

(1) Now vested or accrued, in whole or in part, the validity of which might be sustained or preserved by reference to any provisions of law repealed by this act.

(2) Derived from, or which might be sustained or preserved in reliance upon, action heretofore taken pursuant to or within the scope of any provisions of law repealed by this act.

SECTION 5. No law heretofore repealed expressly or by implication, and no law granting authority which has been exhausted, shall be revived by:

(1) The repeal herein of any act repealing such law, or

(2) Any provision of this act that disclaims an intention to repeal or affect enumerated or designated laws.

SECTION 6. All existing ordinances and resolutions of the Town of Holly Springs and all existing rules or regulations of departments or agencies of the Town of Holly Springs not inconsistent with the provisions of this act shall continue in full force and effect until repealed, modified, or amended.

SECTION 7. No action or proceeding of any nature (whether civil or criminal, judicial or administrative, or otherwise) pending at the effective date of this act by or against the Town of Holly Springs or any of its departments or agencies shall be abated or otherwise affected by the adoption of this act.

SECTION 8. If any part of this act or the application thereof to any person or circumstance is held to be invalid, such invalidity shall not affect other provisions or

applications of this act which can be given effect without the invalid provision or application, and to this end the provisions of this act are declared to be severable.

SECTION 9. Whenever a reference is made in this act to a particular provision of the General Statutes and such provision is later amended, repealed, or superceded, the reference shall be deemed amended to refer to the amended General Statute or to the General Statute that most nearly corresponds to the statutory provision amended, repealed, or superceded.

SECTION 10. This act is effective when it becomes law.

HOUSE BILL 517:
Holly Springs Charter Revision

BILL ANALYSIS

Committee:	House Finance	**Sponsor:**	Rep. Stam
Date:	April 15, 2003	**Analysis by:**	Martha Walston
Version:	2nd Edition		Committee Counsel*

SUMMARY: House bill 517 consolidates the charter of the Town of Holly Springs and amends the Charter to include a provision allowing the Town to enact a tree ordinance. The current bill was given a favorable report in House Local Government I.

CURRENT LAW: The charter of the Town of Holly Springs was last revised and consolidated in 1951. Since then, several amendments have been enacted in separate pieces of local legislation.

BILL ANALYSIS: The 2nd Edition of House bill 517 brings together the pieces of the charter into one document and amends the charter to include a provision allowing the Town to enact tree ordinances. HB 517 grants the Town the authority to adopt ordinances regulating the cutting of trees and shrubs prior to development within a perimeter buffer zone. The buffer zone may be up to 50 feet along public roadways and property boundaries adjacent to developed property and up to 25 feet along property boundaries adjacent to undeveloped property. The ordinances must also provide that:

1. The buffer area will not exceed 20% of the area of the tract, net of public road rights-of-way and any required conservation easements.
2. The buffer zones adjoining public roadways shall be measured from the edge of the public road right-of-way.
3. Tracts that are 2 acres or less and zoned for single-family residential use are exempt from the buffer requirements.
4. Ordinances are limited to situations where undeveloped property is planned or zoned in accordance with adopted municipal plans and zoning regulations.
5. Surveys of individual trees are not required.
6. There will be reasonable provisions for access to and within the property.
7. Normal forestry activities on property that is taxed at use value or is managed under a forestry management plan prepared or approved by a registered forester will be excluded. The Town may deny a building permit or refuse a subdivision plan for 3 years after the completion of the harvest of the perimeter trees that would have otherwise been protected. This period may be shortened to 2 years if the owner replants the buffer area within 120 days with appropriate plant material.

BACKGROUND: Other municipalities with similar authority to regulate clear cutting of trees are: Durham, Cary, Garner, Knightdale, Fuquay-Varina, Morrisville, and Spencer (S.L. 2001-191)

*Erika Churchill, staff to House Local Government I, contributed to this summary.

GENERAL ASSEMBLY OF NORTH CAROLINA

SESSION 2003

H 1

HOUSE BILL 542

Short Title: Oak Island/Caswell/Ocean Isle Condemnations. (Local)

Sponsors: Representative Stiller.

Referred to: Local Government I.

March 18, 2003

A BILL TO BE ENTITLED

AN ACT TO ALLOW THE TOWNS OF CASWELL BEACH, OAK ISLAND, AND OCEAN ISLE BEACH TO EXERCISE THE POWER OF EMINENT DOMAIN FOR THE PURPOSES OF ENGAGING IN BEACH EROSION CONTROL, FLOOD AND HURRICANE PROTECTION WORKS, AND PUBLIC BEACH ACCESS.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 40A-3(b1) reads as rewritten:

"(b1) Local Public Condemnors [Modified Provision for Certain Localities]. – For the public use or benefit, the governing body of each municipality or county shall possess the power of eminent domain and may acquire by purchase, gift or condemnation any property or interest therein, either inside or outside its boundaries, for the following purposes.

(1) Opening, widening, extending, or improving roads, streets, alleys, and sidewalks. The authority contained in this subsection is in addition to the authority to acquire rights-of-way for streets, sidewalks and highways under Article 9 of Chapter 136. The provisions of this subdivision (1) shall not apply to counties.

(2) Establishing, extending, enlarging, or improving any of the public enterprises listed in G.S. 160A-311 for cities, or G.S. 153A-274 for counties.

(3) Establishing, enlarging, or improving parks, playgrounds, and other recreational facilities.

(4) Establishing, extending, enlarging, or improving storm sewer and drainage systems and works, or sewer and septic tank lines and systems.

(5) Establishing, enlarging, or improving hospital facilities, cemeteries, or library facilities.

(6) Constructing, enlarging, or improving city halls, fire stations, office buildings, courthouse jails and other buildings for use by any department, board, commission or agency.

(7) Establishing drainage programs and programs to prevent obstructions to the natural flow of streams, creeks and natural water channels or improving drainage facilities. The authority contained in this subdivision is in addition to any authority contained in Chapter 156.

(8) Acquiring designated historic properties, designated as such before October 1, 1989, or acquiring a designated landmark designated as such on or after October 1, 1989, for which an application has been made for a certificate of appropriateness for demolition, in pursuance of the purposes of G.S. 160A-399.3, Chapter 160A, Article 19, Part 3B, effective until October 1, 1989, or G.S. 160A-400.14, whichever is appropriate.

(9) Opening, widening, extending, or improving public wharves.

(10) Engaging in or participating with other governmental entities in acquiring, constructing, reconstructing, extending, or otherwise building or improving beach erosion control or flood and hurricane protection works, including, but not limited to, the acquisition of any property that may be required as a source for beach renourishment.

(11) Establishing access for the public to public trust beaches and appurtenant parking areas.

The board of education of any municipality or county or a combined board may exercise the power of eminent domain under this Chapter for purposes authorized by other statutes.

The power of eminent domain shall be exercised by local public condemnors under the procedures of Article 3 of this chapter.

This subsection applies only to Carolina Beach, Carteret County, Dare County, and the Towns of Atlantic Beach, Caswell Beach, Emerald Isle, Holden Beach, Indian Beach, Kill Devil Hills, Kitty Hawk, Kure Beach, Nags Head, North Topsail Beach, Oak Island, Ocean Isle Beach, Pine Knoll Shores, Surf City, Topsail Beach, and Wrightsville Beach."

SECTION 2. This act is effective when it becomes law.

HOUSE BILL 542:
Oak Island/Caswell/Ocean Isle Condemnations.

BILL ANALYSIS

Committee:	House Finance	**Introduced by:**	Rep. Stiller
Date:	April 15, 2003	**Summary by:**	Trina Griffin
Version:	1st Edition		Committee Counsel

SUMMARY: House Bill 542 authorizes the Towns of Oak Island, Caswell Beach, and Ocean Isle Beach to exercise the power of "quick-take" condemnation to acquire property for beach erosion control, flood and hurricane protection works, and public beach access.

CURRENT LAW:

General Condemnation Procedures: Under general condemnation procedures, title to the property and the right of possession vests in the city or county seeking condemnation only after one of the following occur: (1) the property owners do not contest the taking but only request a determination of just compensation; (2) the owners do not respond within 120 days of service of the condemnation action; or (3) the deposit made by the locality is disbursed by the court in accordance with G.S. 40A-44.

"Quick-Take" Procedures: Under current law, cities and counties may use the power of "quick-take" condemnation for purposes set out in G.S. 40A-3 and 40A-42, which include:

- Opening or improving roads, streets, and sidewalks.
- Establishing or improving storm sewer and drainage systems and works, or sewer and septic tank lines and systems.
- Establishing drainage programs

In addition, cities may use quick-take procedures for electricity, water supply and distribution, wastewater treatment and disposal, gas, solid waste collection and disposal, and cable television; counties may use quick-take for water, wastewater treatment and disposal, and solid waste collection and disposal.

Under quick-take condemnation procedures, title to the property and the right to immediate possession vests upon the filing of the complaint and the making of a deposit in an amount estimated by the condemnor to be just compensation for the taking, unless an action for injunctive relief has been initiated.

The following 16 localities have the additional authority to use quick-take condemnation for purposes of engaging in beach erosion control and flood and hurricane protection works and public beach access:

Carolina Beach, Carteret County, Dare County, and the Towns of Atlantic Beach, Emerald Isle, Holden Beach, Indian Beach, Kill Devil Hills, Kitty Hawk, Kure Beach, Nags Head, North Topsail Beach, Pine Knoll Shores, Surf City, Topsail Beach, and Wrightsville Beach.

BILL ANALYSIS: House Bill 542 authorizes the Towns of Caswell Beach, Oak Island, and Ocean Isle Beach to use quick-take condemnation procedures for the following purposes:

- Engaging in or participating with other governmental entities in acquiring, construction, reconstructing, extending, or otherwise building or improving beach erosion control or flood and hurricane protection works, including, but not limited to, the acquisition of any property that may be required as a source for beach renourishment.
- Establishing access for the public to public trust beaches and appurtenant parking areas.

House Bill 542 would be effective when it becomes law.

SESSION 2003

H 1

HOUSE BILL 731

Short Title:	Stallings Satellite Annexation.	(Local)
Sponsors:	Representative Blackwood.	
Referred to:	Finance.	

March 27, 2003

A BILL TO BE ENTITLED

AN ACT TO ALLOW THE TOWN OF STALLINGS TO MAKE VOLUNTARY SATELLITE ANNEXATION OF CERTAIN PROPERTY WITH THE CONSENT OF THE TOWN OF INDIAN TRAIL.

The General Assembly of North Carolina enacts:

SECTION 1. Notwithstanding G.S. 160A-58.1(b)(2), the Town of Stallings may annex any of the following property in Union County with the approval of an ordinance or resolution by the governing board of the Town of Indian Trail. The remaining provisions of Part 4 of Article 4A of Chapter 160A of the General Statutes shall apply to such annexation.

Union County Tax Parcel identification numbers:

SECTION 2. This act is effective when it becomes law.

HOUSE BILL 731:
Stallings Satellite Annexation

BILL ANALYSIS

Committee:	House Finance	**Introduced by:**	Rep. Blackwood
Date:	April 15, 2003	**Summary by:**	Trina Griffin
Version:	1st Edition		Committee Counsel

SUMMARY: ***House Bill 731 allows the Town of Stallings to make voluntary satellite annexation of certain property with the consent of the Town of Indian Trail. The act is effective when it becomes law.***

CURRENT LAW: G.S. 160A-58.1 governs the voluntary annexation by a municipality of noncontiguous property. All property owners in the satellite area[1] may petition for voluntary annexation of the noncontiguous property if the property meets the following five standards in G.S. 160A-58.1(b):

1. The nearest point on the proposed satellite corporate limits must be not more than three miles from the primary corporate limits of the annexing city.
2. No point on the proposed satellite corporate limits may be closer to the primary corporate limits of another city than to the primary corporate limits of the annexing city.
3. The area must be so situated that the annexing city will be able to provide the same services within the proposed satellite corporate limits that it provides within its primary corporate limits.
4. If the area proposed for annexation, or any portion thereof, is a subdivision as defined in G.S. 160A-376, all of the subdivision must be included.
5. The area within the proposed satellite corporate limits, when added to the area within all other satellite corporate limits, may not exceed 10% of the area within the primary corporate limits of the annexing city.

If the property does not meet the statutory requirements for annexation, the municipality does not have the authority to annex the area. However, the General Assembly can extend the corporate limits of a municipality to encompass areas that the municipality would not statutorily have the authority to annex.

BILL ANALYSIS: House Bill 731 authorizes the Town of Stallings to make voluntary satellite annexation of certain property with the consent of the Town of Indian Trail and without having to meet the requirement in G.S. 160A-58.1(b)(2).

[1] G.S. 160A-58.4 provides that satellite corporate limits cannot be considered a part of a municipality's corporate limits for purposes of its ETJ. Therefore, satellite annexations have no effect upon a municipality's ETJ.

HOUSE BILL 650

Short Title:	Durham Annexations.	(Local)
Sponsors:	Representatives Crawford, Luebke, Michaux, and Miller (Primary Sponsors).	
Referred to:	Finance.	

March 25, 2003

A BILL TO BE ENTITLED

AN ACT AMENDING THE CHARTER OF THE CITY OF DURHAM TO ALLOW THE CITY TO ANNEX STREETS THAT ARE CONTIGUOUS ON BOTH SIDES OF PROPERTY LOCATED WITHIN THE CITY LIMITS.

The General Assembly of North Carolina enacts:

SECTION 1. The Charter of the City of Durham, being Chapter 671 of the 1975 Session Laws, as amended, is amended by adding a new section to read:

"Sec. 2.7. Annexation of Streets. – In addition to the authority to annex streets under this Charter and general law, the City may annex the portions of public or private streets that are directly contiguous on two opposing sides of property that is within the City limits. When the City proposes to annex a street under this section and the annexation is of the street alone, the City shall adopt a resolution describing the street area and setting a date for a public hearing. Notice shall be given and the public hearing shall be held as provided in Parts 1 and 4 of Article 4A of Chapter 160A of the General Statutes. Upon compliance with the provisions of this section, the City Council may adopt an ordinance annexing the described area and no other requirements shall apply. The time for appealing the annexation shall be as provided in Section 2.6 of this Charter."

SECTION 2. This act is effective when it becomes law.

HOUSE BILL 650:
Durham Annexations

BILL ANALYSIS

Committee: House Finance
Date: April 15, 2003
Version: 1st Edition

Sponsor: Rep. Crawford, Luebke, Michaux, and Miller
Analysis by: Martha Walston
Committee Counsel

SUMMARY: House Bill 650 is a local bill that amends the charter of the City of Durham to allow the City to annex streets that are contiguous on both sides of property located within the city limits.

BILL ANALYSIS: House Bill 650 amends the Charter of the City of Durham to give the City the authority to annex portions of public or private streets that are directly contiguous on two opposing sides of property that is within the City limits.

If the annexation is for the street alone, the City must adopt a resolution that describes the street area and sets a date for a public hearing, and then gives notice in a newspaper of general circulation at least 10 days prior to the public hearing. The time for appealing the annexation is 30 days after the adoption of the annexation ordinance.

The bill is effective when it becomes law.

House Committee on Finance

Minutes

~

April 15, 2003 ~ 2:00 pm

The House Committee on Finance met on Tuesday, April 15, 2003 at 2:00 pm in Room 544 of the Legislative Office Building. The following members were present: Chairpersons G. Allen, Howard, Luebke, McComas, Miner, and Wainwright; Vice-Chairs Alexander, Decker, Gibson, and Hill; Representatives Blackwood, Bordsen, Capps, Carney, Creech, Glazier, Hackney, Holliman, Jones, Lewis, McCombs, McGee, Munford, Rayfield, Ross, Setzer, Starnes, Weiss, C. Wilson, Womble, and Wood; and Ex-Officio Committee Member Representatives Culpepper, Cunningham, and Eddins. Also present were Sergeant-at-Arms Bob Fowler, Bill Freeman, Dusty Rhodes, and Aaron Woodlief. Staff persons present included Richard Bostic, Trina Griffin, Canaan Huie, Linda Millsaps, and Martha Walston. The Visitor Registration Sheet is attached and incorporated into these minutes as attachment 1.

Chairman G. Allen called the meeting to order at 2:07 pm and recognized the Pages present at the meeting: (1) Justin Kelly of Wake County, sponsored by Representative Eddins; (2) Faith Smith and (3) Joel Smith, both of Wilson County, sponsored by Representative Farmer-Butterfield.

As the only bill on the agenda, Representative Weiss was recognized by the Chairman to explain HB 254 – REDUCE YOUTH SMOKING: RAISE TOBACCO TAXES. This bill is a committee substitute of the original bill. It acts to increase the excise tax on cigarettes from 5 cents a pack to 50 cents a pack, and increases the excise tax on other tobacco products from 2% of the cost price of the products to 18% of the cost price. Overall, explained Representative Weiss, the bill's purpose is to reduce youth smoking by raising the price of tobacco products higher than affordable for teens. The Representative also presented several pieces of information in favor of the bill to Committee members, which are included in these minutes as attachments 3, 4, and 5.

As there were a great deal of visitors present at the meeting, the Chair recognized all those who desired to address the Committee, but limited their time to 90 seconds each as a means to control the time of debate. Representative Daughtridge, although not a member of the Committee, was present to briefly address the Committee as an opponent of the bill, stating from a travel and tourism position, that people traveling through North Carolina stop currently because of their ability to buy cheap cigarettes and, if this cigarette tax increase passes, they will no longer do so.

The following individuals, representing personal causes, as well as a number of community and state organizations, spoke in support of the bill:

- Peg O'Connell, representing the North Carolina Alliance for Health;
- Adam Searing, representing the North Carolina Health Access Coalition and Covenant with North Carolina's Children (see attachment 6);
- the Reverend Mark Creech, representing the Christian Action League of North Carolina;
- Leah Devlin, State Health Director;
- Steve Shore, Executive Director of the North Carolina Pediatric Society;

- Dr. Adam Goldstein, a family physician with UNC;
- Jim Goodman, representing Capital Broadcasting Company;
- Leanne Winner, representing the North Carolina School Boards Association; and
- John Thompson, representing the Cancer Society.

Also present, were individuals speaking in opposition to the bill:

- Mrs. Asulp, a resident of Surry County and an advocate with the Citizens for a Sound Economy, stated that a lot of tobacco was grown in her area of the state and that this tax increase would seriously hurt their economy;
- Don Yelsin, also with the Citizens for a Sound Economy and a resident of Buncombe County, stated that if legislators want to reduce youth smoking, they should outlaw cigarettes entirely, rather than using this cause as a means to generate revenues for the state.
- Leslie Bebback, representing the North Carolina Citizens for Business and Industry, opposed the bill because "no tax should single out any one industry".
- Roger Bone, of the Tobacco Industry, who spoke to the possible economic implications on the state with an increased tobacco tax.

Following the words of these concerned citizens, Chairman Allen recognized a large number of the Committee Members to voice their position on the bill and asks questions:

- Representative Hill stated his view of this bill in two distinct parts: first, to reduce youth smoking; and second, to raise tobacco taxes, just as the title of the bill suggests. He stated his profession as a retailer already prohibited the sale of cigarettes to minors and that the price of tobacco isn't the problem, it's that others are buying cigarettes for these underage teen smokers. Thus, he believes that an increase in the tobacco tax will not solve the problem of youth smoking.
- Representative Lewis stated that he does not favor the tax because it is nothing more than a punitive tax on a legal product.
- Representative Creech spoke passionately to individual's lack of responsibility on this issue. He stated his belief that the government can't do everything for citizens. Rather, people must make good choices and be held accountable if they do not. He does not believe that government can help the problem of underage smoking and smoking-related disease by raising the taxes on tobacco. He also noted that some 14,000 jobs in the state are due to be lost from this proposed increase.
- Representative Wainwright questioned the bill sponsor, Representative Weiss, asking if the state's budget included appropriations from this tax increase to further address the problem of youth smoking. Representative Weiss stated that raising the price of cigarettes alone, would reduce the number of youth smokers.
- Representative Luebke first noted that while Citizens for a Sound Economy are vehemently against this proposed increase, in 1998 their second largest corporate contributor was the Phillip Morris Company (with contributions of $1,070,550). He also questioned Representative Creech as to the 14,000 jobs that are subject to loss because of this bill. Representative Creech responded that cigarettes were already the most highly taxed product in history. On a final note, Representative Luebke noted that a portion of the monies raised by this tax should be invested in new youth smoking education programs.

- Representative Rayfield asked Representative Weiss when the last tobacco tax increase was passed in the General Assembly. Representative Weiss stated that it was in 1991. Representative Rayfield also noted that neither the Committee nor the General Assembly could be expected to legislate morality.
- Representative Glazier was recognized and prefaced his remarks by mentioning his past service as a local school board member. He also noted that he was a co-sponsor of the bill. His main focus, he stated, aside from the tobacco tax, was to reduce teen smoking.
- Representative McComas asked Representative Weiss of the economic impact that the tobacco settlements have had on the state. Representative Weiss was unaware of the total impact.
- Chairman Allen recognized Representative Holliman who asked a question to RJR Spokesman Gene Ainsworth as to the current number of people RJR currently employs in Davidson County. Mr. Ainsworth stated that RJR employed 585 people in Davidson County at that time. Representative Holliman then stated his concern that an increase in the tax on tobacco might cause even more jobs to be lost in Davidson County, where the unemployment rate is already at 8 percent.
- Representative Jones was recognized for a question to Representative Weiss. He asked her why an increase on tobacco taxes was being proposed now when he had heard no mention of them and there had been no increase since 1991. Representative Jones also stated his feeling that this bill is nothing more than a mechanism for the state to bring in new revenues in these tight economic times.
- Representative Decker was recognized next by the Chair. He commented that the taxes on alcohol had not been raised since 1969 and that he did not favor any increase in cigarette taxes. He also made a motion for the vote on the bill to be made by roll call.

However, prior to Chairman Allen calling the vote on the bill, Representative Weiss, the bill sponsor, acted to withdraw the bill from the Committee, halting any further consideration at that time.

As a final announcement, the Chair reminded the members that the Committee would reconvene once again immediately following the full session for consideration of HB 593 – FAMILY TAX CUT/PROTECT AAA RATING. At 3:50 pm, the Chair adjourned the meeting so that the members could attend the full House session.

Respectfully submitted,

Representative Gordon Allen
Presiding Chair

Jason A. Cannon
Assistant to Committee on Finance

House Committee on Finance

Minutes

~

April 15, 2003 ~ 2:00 pm

The House Committee on Finance met on Tuesday, April 15, 2003 at 2:00 pm in Room 544 of the Legislative Office Building. The following members were present: Chairpersons G. Allen, Howard, Luebke, McComas, Miner, and Wainwright; Vice-Chairs Alexander, Decker, Gibson, and Hill; Representatives Blackwood, Bordsen, Capps, Carney, Creech, Glazier, Hackney, Holliman, Jones, Lewis, McCombs, McGee, Munford, Rayfield, Ross, Setzer, Starnes, Weiss, C. Wilson, Womble, and Wood; and Ex-Officio Committee Member Representatives Culpepper, Cunningham, and Eddins. Also present were Sergeant-at-Arms Bob Fowler, Bill Freeman, Dusty Rhodes, and Aaron Woodlief. Staff persons present included Richard Bostic, Trina Griffin, Canaan Huie, Linda Millsaps, and Martha Walston. The Visitor Registration Sheet is attached and incorporated into these minutes as attachment 1.

Chairman G. Allen called the meeting to order at 2:07 pm and recognized the Pages present at the meeting: (1) Justin Kelly of Wake County, sponsored by Representative Eddins; (2) Faith Smith and (3) Joel Smith, both of Wilson County, sponsored by Representative Farmer-Butterfield.

As the only bill on the agenda, Representative Weiss was recognized by the Chairman to explain HB 254 – REDUCE YOUTH SMOKING: RAISE TOBACCO TAXES. This bill is a committee substitute of the original bill. It acts to increase the excise tax on cigarettes from 5 cents a pack to 50 cents a pack, and increases the excise tax on other tobacco products from 2% of the cost price of the products to 18% of the cost price. Overall, explained Representative Weiss, the bill's purpose is to reduce youth smoking by raising the price of tobacco products higher than affordable for teens. The Representative also presented several pieces of information in favor of the bill to Committee members, which are included in these minutes as attachments 3, 4, and 5.

As there were a great deal of visitors present at the meeting, the Chair recognized all those who desired to address the Committee, but limited their time to 90 seconds each as a means to control the time of debate. Representative Daughtridge, although not a member of the Committee, was present to briefly address the Committee as an opponent of the bill, stating from a travel and tourism position, that people traveling through North Carolina stop currently because of their ability to buy cheap cigarettes and, if this cigarette tax increase passes, they will no longer do so.

The following individuals, representing personal causes, as well as a number of community and state organizations, spoke in support of the bill:

- Peg O'Connell, representing the North Carolina Alliance for Health;
- Adam Searing, representing the North Carolina Health Access Coalition and Covenant with North Carolina's Children (see attachment 6);
- the Reverend Mark Creech, representing the Christian Action League of North Carolina;
- Leah Devlin, State Health Director;
- Steve Shore, Executive Director of the North Carolina Pediatric Society;

- Dr. Adam Goldstein, a family physician with UNC;
- Jim Goodman, representing Capital Broadcasting Company;
- Leanne Winner, representing the North Carolina School Boards Association; and
- John Thompson, representing the Cancer Society.

Also present, were individuals speaking in opposition to the bill:

- Mrs. Asulp, a resident of Surry County and an advocate with the Citizens for a Sound Economy, stated that a lot of tobacco was grown in her area of the state and that this tax increase would seriously hurt their economy;
- Don Yelsin, also with the Citizens for a Sound Economy and a resident of Buncombe County, stated that if legislators want to reduce youth smoking, they should outlaw cigarettes entirely, rather than using this cause as a means to generate revenues for the state.
- Leslie Bebback, representing the North Carolina Citizens for Business and Industry, opposed the bill because "no tax should single out any one industry".
- Roger Bone, of the Tobacco Industry, who spoke to the possible economic implications on the state with an increased tobacco tax.

Following the words of these concerned citizens, Chairman Allen recognized a large number of the Committee Members to voice their position on the bill and asks questions:

- Representative Hill stated his view of this bill in two distinct parts: first, to reduce youth smoking; and second, to raise tobacco taxes, just as the title of the bill suggests. He stated his profession as a retailer already prohibited the sale of cigarettes to minors and that the price of tobacco isn't the problem, it's that others are buying cigarettes for these underage teen smokers. Thus, he believes that an increase in the tobacco tax will not solve the problem of youth smoking.
- Representative Lewis stated that he does not favor the tax because it is nothing more than a punitive tax on a legal product.
- Representative Creech spoke passionately to individual's lack of responsibility on this issue. He stated his belief that the government can't do everything for citizens. Rather, people must make good choices and be held accountable if they do not. He does not believe that government can help the problem of underage smoking and smoking-related disease by raising the taxes on tobacco. He also noted that some 14,000 jobs in the state are due to be lost from this proposed increase.
- Representative Wainwright questioned the bill sponsor, Representative Weiss, asking if the state's budget included appropriations from this tax increase to further address the problem of youth smoking. Representative Weiss stated that raising the price of cigarettes alone, would reduce the number of youth smokers.
- Representative Luebke first noted that while Citizens for a Sound Economy are vehemently against this proposed increase, in 1998 their second largest corporate contributor was the Phillip Morris Company (with contributions of $1,070,550). He also questioned Representative Creech as to the 14,000 jobs that are subject to loss because of this bill. Representative Creech responded that cigarettes were already the most highly taxed product in history. On a final note, Representative Luebke noted that a portion of the monies raised by this tax should be invested in new youth smoking education programs.

- Representative Rayfield asked Representative Weiss when the last tobacco tax increase was passed in the General Assembly. Representative Weiss stated that it was in 1991. Representative Rayfield also noted that neither the Committee nor the General Assembly could be expected to legislate morality.
- Representative Glazier was recognized and prefaced his remarks by mentioning his past service as a local school board member. He also noted that he was a co-sponsor of the bill. His main focus, he stated, aside from the tobacco tax, was to reduce teen smoking.

GENERAL ASSEMBLY OF NORTH CAROLINA
SESSION 2003

H D

HOUSE BILL 254
PROPOSED COMMITTEE SUBSTITUTE H254-PCS80263-LYx-2

Short Title: Reduce Youth Smoking: Raise Tobacco Taxes. (Public)

Sponsors:

Referred to:

March 6, 2003

A BILL TO BE ENTITLED

AN ACT TO RAISE THE EXCISE TAXES ON CIGARETTES AND OTHER TOBACCO PRODUCTS TO REDUCE AND PREVENT YOUTH SMOKING IN NORTH CAROLINA AND THEREBY PROTECT THE HEALTH AND SAVE THE LIVES OF NORTH CAROLINA'S CHILDREN.

Whereas, North Carolina's excise tax on cigarettes is currently 5¢ a pack, the third lowest in the nation, and

Whereas, the use of tobacco products is the leading cause of preventable death and disability in North Carolina, and

Whereas, the use of tobacco products costs the State $4,750,000,000 in medical costs and lost productivity annually, and

Whereas, 24,600 North Carolina children become new daily smokers each year, a rate of 67 new daily child smokers everyday, and

Whereas, the best way to prevent and reduce tobacco use by children is to substantially increase the cost of cigarettes, and

Whereas, such a tax increase would result in a 16.1% decrease in youth smoking rates, prevent 105,750 North Carolina children from starting to smoke, and save 33,750 North Carolina children from premature smoking-related deaths; Now, therefore,

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 105-113.5 reads as rewritten:

"**§ 105-113.5. Tax on cigarettes.**

A tax is levied on the sale or possession for sale in this State, by a distributor, of all cigarettes at the rate of ~~two and one-half mills~~two and one-fourth cents (2 1/4¢) per individual cigarette.

This tax does not apply to any of the following:

(1) Sample cigarettes distributed without charge in packages containing five or fewer cigarettes.

(2) Cigarettes in a package of cigarettes given without charge by the manufacturer of the cigarettes to an employee of the manufacturer who works in a factory where cigarettes are made, if the cigarettes are not taxed by the federal government."

SECTION 2. G.S. 105-113.35(a) reads as rewritten:

"(a) Tax. – An excise tax is levied on tobacco products other than cigarettes at the rate of ~~two percent (2%)~~eighteen percent (18%) of the cost price of the products. This tax does not apply to the following:

(1) A tobacco product sold outside the State.

(2) A tobacco product sold to the federal government.

(3) A sample tobacco product distributed without charge."

SECTION 3. This act becomes effective July 1, 2003.

HOUSE BILL 254:
Reduce Youth Smoking: Raise Tobacco Taxes

BILL ANALYSIS

Committee:	House Finance	**Sponsor:**	Rep. Weiss
Date:	April 15, 2003	**Analysis by:**	Martha Walston and Y. Canaan Huie, Committee Counsel
Version:	PCS to 1st Edition		

SUMMARY: ***The proposed committee substitute for House Bill 254 increases the excise tax on cigarettes from 5 cents a pack to 45 cents a pack, and increases the excise tax on other tobacco products from 2% of the cost price of the products to 18% of the cost price. The bill would become effective July 1, 2003.***

CURRENT LAW: G.S. 105-113.5 levies a tax on the sale or possession of cigarettes in the State at the rate of 5 cents per pack of 20 cigarettes. The tax does not apply to the free distribution of sample cigarettes in packs of five or less or to any packs of cigarettes donated free by a manufacturer to its employees who work in the factory if the cigarettes are not taxed by the federal government.

G.S. 105-113.35(a) levies an excise tax on tobacco products other than cigarettes at the rate of 2% of the cost price of the products. The tax does not apply to a tobacco product sold outside the State, a tobacco product sold to the federal government, or a sample product distributed without charge. A tobacco product is any product that contains tobacco and is intended for inhalation or oral use.

BILL ANALYSIS: House Bill 254 increases the excise tax on cigarettes from 5 cents a pack to 45 cents a pack and increases the tax on other tobacco products from 2% of cost price to 18% of cost price. Historically, North Carolina has had one of the lowest excise taxes on cigarettes and other tobacco products. Currently only two states, Kentucky (3¢ per pack) and Virginia (2.5¢ per pack), [1] have a lower excise tax on cigarettes than does North Carolina. Nationwide, state excise tax rates on cigarettes will average 67.3¢ per pack as of July 1, 2003.[2] Tax rates on other tobacco products are more difficult to compare across states because some states impose a tax based on cost whereas other states impose a tax based on quantity. Of the states that impose a tax based on cost, like North Carolina, only seven have a lower excise tax rate for other tobacco products (District of Columbia, Kentucky, Pennsylvania, and Virginia)[3] or for a subset of the other tobacco products (Florida,[4] Georgia,[5] and New Hampshire[6]).

[1] It should be noted, however, that Virginia allows some localities to place an additional tax on cigarettes. This tax currently is as high as 45¢ a pack in certain localities.
[2] This includes cigarette tax increases that have been enacted and that will become effective between now and July 1, 2003.
[3] None of these states impose an excise tax on any other tobacco products.
[4] Florida has no excise tax on cigars, but has a 25% excise tax on other tobacco products.
[5] Georgia has an excise tax on cigars of 2¢ per 10 cigars or 13% of wholesale price, but no excise tax on other tobacco products.
[6] New Hampshire has no excise tax on cigars, but has a 19.7% excise tax on other tobacco products.

FISCAL ANALYSIS MEMORANDUM

[This confidential fiscal memorandum is a fiscal analysis of a draft bill, amendment, committee substitute, or conference committee report that has not been formally introduced or adopted on the chamber floor or in committee. This is not an official fiscal note. If upon introduction of the bill you determine that a formal fiscal note is needed, please make a fiscal note request to the Fiscal Research Division, and one will be provided under the rules of the House and the Senate.]

TOTAL	**273.0**	**262.7**	**253.4**	**243.9**	**234.9**

PRINCIPAL DEPARTMENT(S) & PROGRAM(S) AFFECTED: NC Department of Revenue.

EFFECTIVE DATE: July 1, 2003.

BILL SUMMARY: The bill increases the tax on cigarettes from $0.05 per pack (20 cigarettes) to $0.45 per pack, and other tobacco products from the current rate of 2% to 18%.

ASSUMPTIONS AND METHODOLOGY: In FY 1999-00 and FY 2000-01 the state received the following revenues from the sale of cigarettes and other tobacco products:

	($ million)	
	1999-00	2000-01
Cigarette	40.5	38.5
Other Tobacco Products	3.2	3.5

For fiscal year 2002-03, North Carolina has actually seen an increase in cigarette tax revenue. However, because almost all of this increase occurred in two months directly after a number of other states dramatically increased their cigarette tax, this trend is not expected to continue without additional, large-scale cigarette tax increases in other states.

According to a March 2002 report from the Council of State Governments, cigarette consumption is expected to decline nationally by approximately 1.5% a year. (This estimate is based on the four-year average since the adoption of the Master Settlement Agreement in 1998.) However, historically North Carolina has seen a much more dramatic decline. Therefore, independent of any change in price, Fiscal Research estimates that cigarette tax revenues will decrease by approximately 4% annually, creating the following baseline revenue stream:

	2003-04	2004-05	2005-06	2006-07
Total Cigarette Revenue	37.0	35.5	34.1	32.7
Revenue Per Penny	7.4	7.1	6.8	6.5

While these numbers are a good indication of revenues from existing taxes and even small increases in the tax on cigarettes, academic research suggests that larger price increases could result in smaller per penny gains. According to a 1998 report from the National Bureau of Economic Research, "a ten-percent increase in cigarette prices would reduce overall cigarette consumption by three to five percent". A similar study offered in 1998 by Blake Brown at North Carolina State University suggests that a 10% increase in the price of cigarettes will result in a decline in consumption of 2% - 7.5%. However, because nonresidents often stop in North Carolina to purchase cigarettes or purchase cigarettes from the state through other means, Fiscal Research believes our state's overall consumption will be more sensitive than average to changes in price. Therefore, the higher end estimate of 7.5% is used to determine the impact of each 10% increase in price. An additional adjustment is added to larger increases to remain conservative in our estimating process. In addition, under current law, cigarette distributors get to retain 4% to defray the cost of administering the tax. The 2001 Tax Burden on Tobacco publications indicates that the average cigarette price in North Carolina is $3.12.

Based on the above assumptions, the potential revenue stream from a $0.40 increase in the tax on a pack of cigarettes is estimated as the following:

	2003-04	2004-05	2005-06	2006-07	2007-08
40 Cent Increase*					
Cigarette Tax Revenue	246.3	236.4	227.0	217.9	209.2
Sales Tax Revenue	9.9	9.5	9.1	8.7	8.4
Total New General Fund Revenues	256.1	245.9	236.1	226.6	217.6

The bill also increases the tax on all other tobacco products (OTP) from the current rate of 2% to 18%. Under the current system, OTP revenue is estimated as the following:

	1999-00	2000-01	2001-02	2002-03	2003-04	2004-05
Other Tobacco Products	3.2	3.5	3.7	3.8	3.9	3.9

Once adjustments are made for declines in demand due to increased prices, the following revenue stream is expected from the increase in the Other Tobacco Products tax:

2003-04	2004-05	2005-06	2005-06	2006-07
16.8	16.8	17.3	17.3	17.3

North Carolina Alliance for Health

Protect Children – Raise Revenues

Increasing NC's Cigarette Tax by $.75 Will Generate ~$400 million.
The majority of NC voters support an increase in NC's cigarette tax.

North Carolina Smoking Information (04/04/03)

Tobacco is addictive and deadly and accounts for more than 11,500 deaths in North Carolina per year. Raising the price is the most effective way to protect children from starting to smoke.

Health -

- 38.3% of NC high school students currently use tobacco products, exceeding the national average of 34%.[1]
- 18.4% of NC's children in grades 6-8 use tobacco products, exceeding the national average of 15.1%.
- 26% of NC adults are smokers.[2]
- The average age of initiation of the use of tobacco products is between 12-14 years old.[3]
- 14% of pregnant women in NC are smokers.[4]
- Tobacco use is highest among lower-income and lower-education populations;[5] and often translates to higher prevalence, morbidity, and tobacco-attributable mortality among ethnic minorities.
- An increase by $.75 in the cigarette tax will result in a decrease by 16% in youth smoking and a 17.5% decrease in smoking rates among NC pregnant women.

Expenditures -

- The use of tobacco products costs NC $4.75 billion in medical and lost productivity costs.[6]
- In 1998, about 13% of all Medicaid expenditures in NC were spent on smoking-related illnesses and diseases.[7] For SFY 2002 NC State expenditures for Medicaid services were $1.9 billion and NC county expenditures were $355 million.[8]

Revenue -

- An increase of $.75 in NC's cigarette tax will generate ~$400 million in new revenues.[9]
- NC's cigarette tax is $.05 and has not increased since 1991. It is the third lowest in the nation. The average state cigarette tax is $.67.[10] The state's low tax makes it vulnerable to cross border sales. In a Charlotte trial, people were convicted of selling cheap NC cigarettes out-of-state and using the profits as a fundraiser for the Hezbollah.[11]
- Other southern tobacco-producing states are working with NC to increase all cigarette taxes together. West Virginia passed a tax increase on 03.06.03 to $.55.

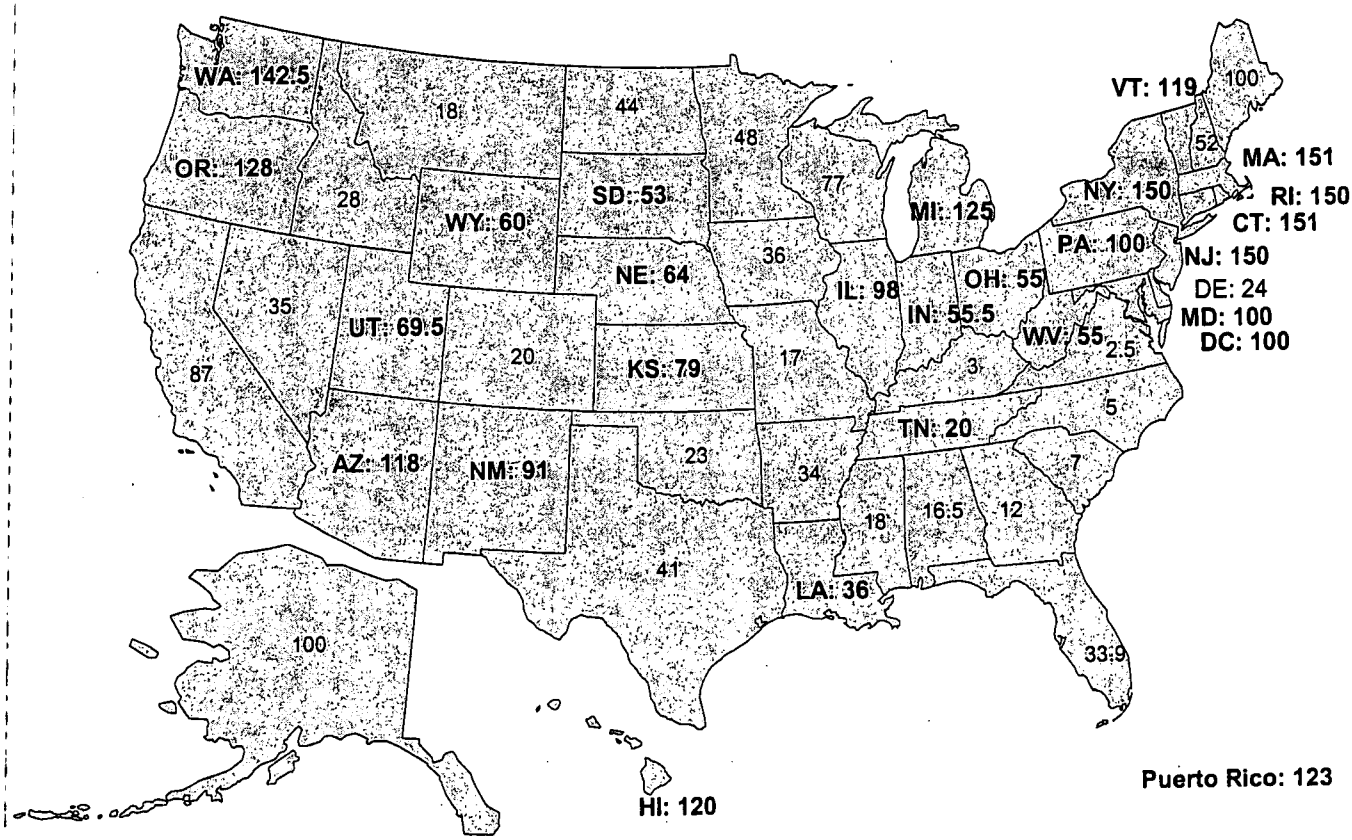
MAP OF STATE CIGARETTE TAX RATES - 2003

Average State Cigarette Tax Per Pack: 67.3 cents

Average Tobacco State Tax: 8.25 cents

Other States' Average: 75.2 cents



Map shows state cigarette tax rates in effect now or already scheduled to be enacted in 2003. States with new tax increases implemented or passed since 1/1/2002 marked in bold. Additional increases scheduled to go into effect in 2004 and beyond in HI and RI. Major tobacco states = NC, KY, VA, SC, TN, GA. State averages do not include Puerto Rico (which has a population larger than those in 20 different states). Including Puerto Rico increases the overall state average to 68.4 cents per pack, and increases the non-tobacco-state average to 76.2 cents. Federal cigarette tax rate is 39 cents per pack. Some local governments also tax cigarettes. For example, New York city increased its local cigarette tax from 8 cents to $1.50 per pack in 2002, and more than 35 cities, towns, and counties in VA have taxes ranging from two to 50 cents per pack. The U.S. Centers for Disease Control & Prevention estimates that smoking-caused health costs in the United States total $7.18 per pack sold.

For more information on state cigarette taxes and the benefits from increasing them, see:

Representative Jennifer Weiss
Room 2221 Legislative Building
Raleigh, N.C. 27601-1096

Dear Representative Weiss:

I am writing in response to your request to provide a summary and references for the scientific evidence regarding the public health impact of raising the unit price for tobacco products by 50 cents per pack through a product excise tax increase.

The Scientific Evidence. The Task Force on Community Preventive Services' recommends increasing the unit price for tobacco products in order to reduce the number of people who start using tobacco on the basis of strong evidence of effectiveness[1]. This review of the scientific evidence demonstrates that increasing the price of tobacco products is effective both in 1) reducing tobacco use prevalence and consumption among both adolescents and young adults and 2) increasing tobacco use cessation [1]. This Task Force is an independent nonfederal group of scientists that systematically reviewed the price elasticity data and its relationship to initiation, consumption and cessation of tobacco use.

Numerous recent studies indicate that a 10% increase in product price results in an overall 3-5% decrease in cigarette consumption and a 7% decrease in youth smoking.[2] A recent study by the University of Illinois at Chicago (April 2001) found that a 10% increase in the price of cigarettes would decrease the probability of an adolescent starting smoking between 3 and 10 percent depending on the type of initiation, including initiation of any smoking (including experimentation), initiation of daily smoking, and initiation of smoking at lease one half-pack per day. Price was found to have the largest impact on stemming the initiation of daily smoking among youths.[3] A study published in the American Journal of Public Health shows that a 10% increase in price would reduce smoking rates among pregnant women by 7%[4].

The Health Toll of Tobacco in NC. Tobacco use continues to be the leading preventable cause of mortality in NC resulting in more than 14,000 deaths annually.[5] Although 50.4% of adults have never smoked a cigarette, current smoking prevalence continues to hover around a quarter (25.7%) of the population or an estimated 2.1 million North Carolinians.[6] Currently 35.8% of high school and 17.4% of middle school students use tobacco products; 27.8% of high school and 11.3% of middle school students smoke cigarettes. The current prevalence rate is expected to lead to the deaths of 210,000 current youth if the trend prevails.[7]

The Economic Toll of Tobacco Use. Tobacco use in NC costs the state $1.9 billion in direct medical expenditures alone, or more than $255 per person. In 1998, about 13% ($600,000,000 or $513.30 per recipient) of all Medicaid expenditures were spent on smoking-related illnesses. Lost productivity costs are estimated to be greater than $2.8 billion or $370 per person. When combined, direct medical and productivity losses cost NC $4.8 billion annually.[8]

The Benefits of a 50-cent Tobacco Tax Increase. A 50-cent per cigarette pack increase in NC would result in:

- Fewer state packs of cigarettes sold each year: 232.3 million[9]
- Percent decrease in youth smoking: 11.7%[9]
- Increase in total number of kids alive today who will not become smokers: 76,800[9]
- Number of current adult smokers in the state who would quit: 49,900[9]
- Number of current adult smokers saved from smoking-caused death: 10,900[9]
- Number of kids alive today saved from premature smoking-caused death: 24,500[9]
- 5-Year healthcare savings from fewer smoking-affected pregnancies & births: $11.6 million[9]
- 5-year healthcare savings from fewer smoking-caused heart attacks & strokes: $17.0 million[9]
- Long-term healthcare savings in state from adult & youth smoking declines: $1,333.3million.[9]

Thank you for your interest in the health of North Carolinians. Please let me know if I can be of further assistance.

Sincerely,

Leah Devlin, DDS, MPH

Testimony on the Cigarette Tax
Adam Searing, JD, MPH

Representing:
NC Health Access Coalition
Covenant with North Carolina's Children

I am glad that we are finally talking about the need to raise revenue to save services.

Many of you know about the painful cuts in the current House budget to children, pregnant women, infants, working families. Experts tell me that a realistic view of the budget situation includes the possibility of hundreds of millions of less revenue than we are counting on today.

We believe any budget that doesn't harm the health of our most vulnerable children and families must raise substantial revenue and that a cigarette tax must be a part of that effort. WHY?

First and foremost, a substantial cigarette tax will stop significant numbers of children from taking up smoking. This is simply a fact. The boon to the health of our next generation is huge.

Second, in these tough budgetary times the cigarette tax will raise some revenue. We support raising this tax to the median even though it is clearly regressive for the following reasons:

1. NC currently has one of the lowest cigarette taxes in the country. It can be said we are subsidizing smoking by keeping taxes so low. Raising the tax to the national median brings us in line with other states.

2. The huge health benefits to our children who do not start smoking and from other smokers who reduce their smoking outweigh the regressive nature of the tax.

3. Raising this tax as part of a package of revenue raising changes – such as a 4% income tax surcharge that would cost the average taxpayer making $35,000 about $39 – can spread the burden of raising needed revenue.

Caution. A cigarette tax is part of the solution and not the only solution to our budget dilemma. A higher cigarette tax will mean less demand for cigarettes and, as smoking rates decline, less tax revenue every year. In contrast, health program costs grow with inflation and our growing population.

Raise the cigarette tax for the substantial health benefits for all of our children. Raise it to find some needed revenue. But raise it as part of a package that will remove the need for hundreds of millions of dollars in cuts in health programs to our most vulnerable people.

House Committee on Finance

Minutes

~

April 15, 2003 ~ 4:30 pm

The House Committee on Finance met on Tuesday, April 15, 2003 at 4:30 pm in Room 544 of the Legislative Office Building. The following members were present: Chairpersons G. Allen, Howard, Luebke, McComas, and Miner; Vice-Chairs Alexander, Decker, Gibson, and Hill; Representatives Blackwood, Bordsen, Capps, Carney, Creech, Glazier, Hackney, Holliman, Jones, Lewis, McCombs, McGee, Munford, Rayfield, Ross, Starnes, Weiss, C. Wilson, Womble, and Wood; and Ex-Officio Committee Member Representatives Brubaker and Cunningham. Also present were Sergeant-at-Arms Bob Fowler, Bill Freeman, Dusty Rhodes, and Aaron Woodlief. Staff persons present included Richard Bostic, David Crotts, Trina Griffin, Martha Harris, Lisa Holloway, Canaan Huie, Linda Millsaps, Susan Morgan, and Martha Walston. The Visitor Registration Sheet is attached and incorporated into these minutes as attachment 1.

Chairman G. Allen called the meeting to order at 5:00 pm and immediately recognized Representative Miner to explain HB 593 – FAMILY TAX CUT/PROTECT AAA RATING. Representative Miner first noted that because of the excellent and expedient work of the House Appropriations Committee, this committee was now able to consider a revenue bill for the state's budget far earlier than usual. He then made a motion that the Proposed Committee Substitute for HB 593 be approved by the Committee for consideration. The motion was seconded by Representative Weiss and carried without known opposition. Representative Miner explained this bill simply as one that generates the revenues needed by the state but at the same time provides tax relief to working families.

Representative Creech quickly asked Representative Miner as to what spending cuts, exactly, were being made in this bill. Representative Miner explained that the bill produces the needed $384 million in cuts overall, and that staff could provide details of these cuts. Staff person Linda Millsaps then provided a description of these cuts using the fiscal note for HB 593 (see attachment 2). However, even after this description, Representative Creech once again asked for the exact figures that are being proposed.

Representative Decker was recognized by the Chair and asked staff to explain the fee for licensure of Daycare Facilities, which is a new fee. Lisa Holloway, fiscal staff member, was present to explain that many other states already have this fee for license. Peggy Ball from the Division of Child Development was also present to answer Representative Decker's follow-up question of how many daycares there are presently in the state that are under state regulation but do not accept state licensure. Representative Decker then proposed an amendment to HB 593 to exempt from this fee those daycares that will not accept a state license due to religious reasons. Staffperson Canaan Huie, however, stated that the fee was per issuance of the license and would not be levied if these daycares were not in receipt of a license.

Rep. Holliman was recognized next and asked Representative Miner about the "Hold Harmless" agreement expiring in 10 years. Specifically, he wondered how the time period of 10 years had been reached. Representative Miner responded that, to his knowledge, there was no

specific reason for this chosen time period.

Chairman Allen recognized from the audience Paula Wolf with the Covenant for North Carolina's Children to make a statement. She spoke in opposition to the bill stating that it cuts over $800 million in programs for children, pregnant and single mothers, and other vulnerable citizens.

Following this, Representative Capps was recognized by the Chair and asked if all of the "Facilities Fees" mentioned on Page 6 of the bill were new fees. Staffperson Susan Morgan was present to respond and answered "yes". Representative Capps also inquired on the abortion information detailed on Page 5 of the bill. Staffperson Martha Walston responded that this section explains only when and who can legally perform an abortion in the state.

The Chair also recognized Perri Morgan of the National Federation of Independent Businesses of North Carolina (NFIBNC) from the audience to speak on the bill. She stated that the proposed increase on the higher income bracket would not only hurt higher income earners but also small businesses. She was clear that the NFIBNC opposed the bill.

Representative Womble was recognized to ask Paula Wolf about what other alternatives there are to funding if some of the Health and Human Services in the state are not cut. She responded only that other cuts, those not effecting children, mothers, etc. should be made to balance the state's budget.

Representative Blackwood asked why this bill is taxing Nursing Homes when so many are already closing due to bankruptcy. Representative Miner stated that this tax was necessary in order for this budget plan to balance.

Chairman Allen recognized Representative Decker to address Amendment #1 (on the Daycare Facilities Licenses) (see attachment 5). Representative Decker explained that the amendment simply clarifies what facilities are not responsible for the fee. Following this description, he made a motion for adoption of the amendment and the motion carried by consent.

Representative Creech addressed the Committee and spoke passionately that matters as complex as the budget require more time than a single debate. He voiced his belief that the people of North Carolina are being done a disservice by rushing such an important matter through committee and onto the House floor. He also stated that the Finance Committee should have the advantage of hearing from the Appropriations Committee on the fee analysis prior to voting on the budget bill.

Representative Ellis was recognized next by the Chairman to explain Amendment #2 (see attachment 6). This amendment would increase the fee for an abortion license from the proposed $700 to $4,562, the full cost to the State. It also deleted the section of the fees associated with the Emergency Medical Services (EMS) in the state. Upon his explanation of the amendment, Representative Ellis moved its adoption.

Representative Ross was recognized to speak against the amendment. She stated that the amendment's proposed fee increases for abortions are excessive and that the $700 fee is what the Appropriations Committee approved. Representative Alexander seconded Representative Ross' comments. Representative Weiss also spoke in opposition to the amendment due to the fact that the fee had already been determined as an acceptable rate. Representative Starnes, however, voiced

his support of the amendment, as did Representative Capps. The Chair again recognized Representative Ellis who reiterated his motion for adoption, stating that if the fee for abortion is higher, hopefully fewer of the procedures will be performed. Representative Weiss then moved for a roll call vote on the amendment and Chairman Allen instructed the Clerk to call the vote. The amendment failed by a vote of 16 (yes) to 19 (no) (see attachment 7).

Upon failure of this amendment, the Chair recognized the bill sponsor, Representative Miner, who made the motion for a favorable report to HB 593 (unfavorable as to original bill, but favorable to committee substitute bill – see attachment 9). Representative Creech called for a roll call vote and Representative Miner concurred with that call. Chairman Allen then instructed the Clerk to call the vote.

Having 22 votes in the affirmative and 13 votes in the negative (see attachment 8), the bill passed and will be reported by the Clerk to the House floor with a favorable report.

Seeing no further business before the Committee, Chairman Allen adjourned the meeting at 7:05 pm.

Respectfully submitted,

Representative Gordon Allen
Presiding Chair

Jason A. Cannon
Assistant to Committee on Finance

Chairman G. Allen called the meeting to order at 5:00 pm and immediately recognized Representative Miner to explain HB 593 – FAMILY TAX CUT/PROTECT AAA RATING. Representative Miner first noted that because of the excellent and expedient work of the House Appropriations Committee, this committee was now able to consider a revenue bill for the state's budget far earlier than usual. He then made a motion that the Proposed Committee Substitute for HB 593 be approved by the Committee for consideration. The motion was seconded by Representative Weiss and carried without known opposition. Representative Miner explained this bill simply as one that generates the revenues needed by the state but at the same time provides tax relief to working families.

Representative Creech quickly asked Representative Miner as to what spending cuts, exactly, were being made in this bill. Representative Miner explained that the bill produces the needed $384 million in cuts overall, and that staff could provide details of these cuts. Staff person Linda Millsaps then provided a description of these cuts using the fiscal note for HB 593 (see attachment 2). However, even after this description, Representative Creech once again asked for the exact figures that are being proposed.

Representative Decker was recognized by the Chair and asked staff to explain the fee for licensure of Daycare Facilities, which is a new fee. Lisa Holloway, fiscal staff member, was present to explain that many other states already have this fee for license. Peggy Ball from the Division of Child Development was also present to answer Representative Decker's follow-up question of how many daycares there are presently in the state that are under state regulation but do not accept state licensure. Representative Decker then proposed an amendment to HB 593 to exempt from this fee those daycares that will not accept a state license due to religious reasons. Staffperson Canaan Huie, however, stated that the fee was per issuance of the license and would not be levied if these daycares were not in receipt of a license.

Rep. Holliman was recognized next and asked Representative Miner about the "Hold Harmless" agreement expiring in 10 years. Specifically, he wondered how the time period of 10 years had been reached. Representative Miner responded that, to his knowledge, there was no

specific reason for this chosen time period.

Chairman Allen recognized from the audience Paula Wolf with the Covenant for North Carolina's Children to make a statement. She spoke in opposition to the bill stating that it cuts over $800 million in programs for children, pregnant and single mothers, and other vulnerable citizens.

Following this, Representative Capps was recognized by the Chair and asked if all of the "Facilities Fees" mentioned on Page 6 of the bill were new fees. Staffperson Susan Morgan was present to respond and answered "yes". Representative Capps also inquired on the abortion information detailed on Page 5 of the bill. Staffperson Martha Walston responded that this section explains only when and who can legally perform an abortion in the state.

The Chair also recognized Perri Morgan of the National Federation of Independent Businesses of North Carolina (NFIBNC) from the audience to speak on the bill. She stated that the proposed increase on the higher income bracket would not only hurt higher income earners but also small businesses. She was clear that the NFIBNC opposed the bill.

Representative Womble was recognized to ask Paula Wolf about what other alternatives there are to funding if some of the Health and Human Services in the state are not cut. She responded only that other cuts, those not effecting children, mothers, etc. should be made to balance the state's budget.

Representative Blackwood asked why this bill is taxing Nursing Homes when so many are already closing due to bankruptcy. Representative Miner stated that this tax was necessary in order for this budget plan to balance.

Chairman Allen recognized Representative Decker to address Amendment #1 (on the Daycare Facilities Licenses) (see attachment 5). Representative Decker explained that the amendment simply clarifies what facilities are not responsible for the fee. Following this description, he made a motion for adoption of the amendment and the motion carried by consent.

Representative Creech addressed the Committee and spoke passionately that matters as complex as the budget require more time than a single debate. He voiced his belief that the people of North Carolina are being done a disservice by rushing such an important matter through committee and onto the House floor. He also stated that the Finance Committee should have the advantage of hearing from the Appropriations Committee on the fee analysis prior to voting on the budget bill.

Representative Ellis was recognized next by the Chairman to explain Amendment #2 (see attachment 6). This amendment would increase the fee for an abortion license from the proposed $700 to $4,562, the full cost to the State. It also deleted the section of the fees associated with the Emergency Medical Services (EMS) in the state. Upon his explanation of the amendment, Representative Ellis moved its adoption.

Representative Ross was recognized to speak against the amendment. She stated that the amendment's proposed fee increases for abortions are excessive and that the $700 fee is what the Appropriations Committee approved. Representative Alexander seconded Representative Ross' comments. Representative Weiss also spoke in opposition to the amendment due to the fact that the fee had already been determined as an acceptable rate. Representative Starnes, however, voiced

his support of the amendment, as did Representative Capps. The Chair again recognized Representative Ellis who reiterated his motion for adoption, stating that if the fee for abortion is higher, hopefully fewer of the procedures will be performed. Representative Weiss then moved for a roll call vote on the amendment and Chairman Allen instructed the Clerk to call the vote. The amendment failed by a vote of 16 (yes) to 19 (no) (see attachment 7).

Upon failure of this amendment, the Chair recognized the bill sponsor, Representative Miner, who made the motion for a favorable report to HB 593 (unfavorable as to original bill, but favorable to committee substitute bill – see attachment 9). Representative Creech called for a roll call vote and Representative Miner concurred with that call. Chairman Allen then instructed the Clerk to call the vote.

Having 22 votes in the affirmative and 13 votes in the negative (see attachment 8), the bill passed and will be reported by the Clerk to the House floor with a favorable report.

Seeing no further business before the Committee, Chairman Allen adjourned the meeting at 7:05 pm.

Respectfully submitted,

Representative Gordon Allen
Presiding Chair

Jason A. Cannon
Assistant to Committee on Finance

GENERAL ASSEMBLY OF NORTH CAROLINA

SESSION 2003

H 2

HOUSE BILL 593

Committee Substitute Favorable 4/15/03

Short Title: Family Tax Cut/Protect AAA Rating. (Public)

Sponsors:

Referred to:

March 24, 2003

A BILL TO BE ENTITLED

AN ACT TO IMPLEMENT A STATE BUDGET THAT ENABLES THE STATE TO PROVIDE TAX RELIEF FOR WORKING FAMILIES AND PROTECTS THE STATE'S TRIPLE-A BOND RATING.

The General Assembly of North Carolina enacts:

TABLE OF CONTENTS

PART 1. REGULATORY FEE FOR UTILITIES COMMISSION
PART 2. INSURANCE REGULATORY CHARGE
PART 3. DEPARTMENT OF HEALTH AND HUMAN SERVICES FEES
PART 4. DEPARTMENT OF ENVIRONMENT AND NATURAL RESOURCES FEES
PART 5. DEPARTMENT OF TRANSPORTATION FEES
PART 6. ADJUST LOCAL GOVERNMENT HOLD HARMLESS
PART 7. TEMPORARILY MAINTAIN STATE SALES TAX RATE
PART 8. TEMPORARILY MAINTAIN UPPER INCOME TAX RATE
PART 9. REPAIR AND RENOVATION
PART 10. GENERAL PROVISIONS

PART 1. REGULATORY FEE FOR UTILITIES COMMISSION

SECTION 1.1.(a) The percentage rate to be used in calculating the public utility regulatory fee under G.S. 62-302(b)(2) is twelve hundredths of a percent (0.12%) for each public utility's North Carolina jurisdictional revenues earned during each quarter that begins on or after July 1, 2003.

SECTION 1.1.(b) The electric membership corporation regulatory fee imposed under G.S. 62-302(b1) for the 2003-2004 fiscal year is two hundred thousand dollars ($200,000).

SECTION 1.1.(c) This section becomes effective July 1, 2003.

PART 2. INSURANCE REGULATORY CHARGE

SECTION 2.1.(a) The percentage rate to be used in calculating the insurance regulatory charge under G.S. 58-6-25 is six and five-tenths percent (6.5%) for the 2003 calendar year.

SECTION 2.1.(b) This section is effective when it becomes law.

PART 3. DEPARTMENT OF HEALTH AND HUMAN SERVICES FEES

SECTION 3.1.(a) G.S. 131D-2(b)(1) reads as rewritten:

"(b) Licensure; inspections. –

(1) The Department of Health and Human Services shall inspect and license, under rules adopted by the Medical Care Commission, all adult care homes for persons who are aged or mentally or physically disabled except those exempt in subsection (c) of this section. Licenses issued under the authority of this section shall be valid for one year from the date of issuance unless revoked earlier by the Secretary for failure to comply with any part of this section or any rules adopted hereunder. Licenses shall be renewed annually upon filing and the Department's approval of the renewal application. The Department shall charge each adult care home with six or fewer beds a nonrefundable annual license fee in the amount of two hundred fifty dollars ($250.00). The Department shall charge each adult care home with more than six beds a nonrefundable annual license fee in the amount of three hundred fifty dollars ($350.00) plus a nonrefundable annual per-bed fee of twelve dollars and fifty cents ($12.50). A license shall not be renewed if outstanding ~~fines~~ fees, fines, and penalties imposed by the State against the home have not been paid. Fines and penalties for which an appeal is pending are exempt from consideration. The renewal application shall contain all necessary and reasonable information that the Department may by rule require. Except as otherwise provided in this subdivision, the Department may amend a license by reducing it from a full license to a provisional license for a period of not more than 90 days whenever the Department finds that:

a. The licensee has substantially failed to comply with the provisions of Articles 1 and 3 of Chapter 131D of the General Statutes and the rules adopted pursuant to these Articles;

b. There is a reasonable probability that the licensee can remedy the licensure deficiencies within a reasonable length of time; and

c. There is a reasonable probability that the licensee will be able thereafter to remain in compliance with the licensure rules for the foreseeable future.

The Department may extend a provisional license for not more than one additional 90-day period upon finding that the licensee has made substantial progress toward remedying the licensure deficiencies that caused the license to be reduced to provisional status.

The Department may revoke a license whenever:

a. The Department finds that:

1. The licensee has substantially failed to comply with the provisions of Articles 1 and 3 of Chapter 131D of the General Statutes and the rules adopted pursuant to these Articles; and

2. It is not reasonably probable that the licensee can remedy the licensure deficiencies within a reasonable length of time; or

b. The Department finds that:

1. The licensee has substantially failed to comply with the provisions of Articles 1 and 3 of Chapter 131D of the General Statutes and the rules adopted pursuant to these Articles; and

2. Although the licensee may be able to remedy the deficiencies within a reasonable time, it is not reasonably probable that the licensee will be able to remain in compliance with licensure rules for the foreseeable future; or

c. The Department finds that the licensee has failed to comply with the provisions of Articles 1 and 3 of Chapter 131D of the General Statutes and the rules adopted pursuant to these Articles, and the failure to comply endangered the health, safety, or welfare of the patients in the facility.

The Department may also issue a provisional license to a facility, pursuant to rules adopted by the Medical Care Commission, for substantial failure to comply with the provisions of this section or rules adopted pursuant to this section. Any facility wishing to contest the issuance of a provisional license shall be entitled to an administrative hearing as provided in the Administrative Procedure Act, Chapter 150B of the General Statutes. A petition for a contested case shall be filed within 30 days after the Department mails written notice of the issuance of the provisional license."

SECTION 3.1.(b) This section becomes effective October 1, 2003.

SECTION 3.2.(a) G.S. 131E-77(d) reads as rewritten:

"(d) Upon receipt of an application for a license, the Department shall issue a license if it finds that the applicant complies with the provisions of this Article and the rules of the Commission. The Department shall renew each license in accordance with the rules of the Commission. The Department shall charge the applicant a nonrefundable annual base license fee plus a nonrefundable annual per-bed fee as follows:

Facility Type	Number of Beds	Base Fee	Per-Bed Fee
General Acute Hospitals:	1-49 beds	$250.00	$12.50
	50-99 beds	$350.00	$12.50

100-199 beds	$450.00	$12.50
200-399 beds	$550.00	$12.50
400-699 beds	$750.00	$12.50
700+ beds	$950.00	$12.50
Other Hospitals	$500.00	$12.50."

SECTION 3.2.(b) This section becomes effective October 1, 2003.

SECTION 3.3.(a) G.S. 131E-102(b) reads as rewritten:

"(b) Applications shall be available from the Department, and each application filed with the Department shall contain all necessary and reasonable information that the Department may by rule require. A license shall be granted to the applicant upon a determination by the Department that the applicant has complied with the provisions of this Part and the rules promulgated under this Part. The Department shall charge the applicant a nonrefundable annual license fee in the amount of four hundred fifty dollars ($450.00) plus a nonrefundable annual per-bed fee of twelve dollars and fifty cents ($12.50)."

SECTION 3.3.(b) This section becomes effective October 1, 2003.

SECTION 3.4.(a) G.S. 131E-138(c) reads as rewritten:

"(c) An application for a license shall be available from the Department, and each application filed with the Department shall contain all information requested by the Department. A license shall be granted to the applicant upon a determination by the Department that the applicant has complied with the provisions of this Part and the rules promulgated by the Commission under this Part. The Department shall charge the applicant a nonrefundable annual license fee in the amount of three hundred fifty dollars ($350.00)."

SECTION 3.4.(b) This section becomes effective October 1, 2003.

SECTION 3.5.(a) G.S. 131E-147(b) reads as rewritten:

"(b) Applications shall be available from the Department, and each application filed with the Department shall contain all necessary and reasonable information that the Department may by rule require. A license shall be granted to the applicant upon a determination by the Department that the applicant has complied with the provisions of this Part and the rules promulgated by the Commission under this Part. The Department shall charge the applicant a nonrefundable annual base license fee in the amount of seven hundred dollars ($700.00) plus a nonrefundable annual per-operating room fee in the amount of fifty dollars ($50.00)."

SECTION 3.5.(b) This section becomes effective October 1, 2003.

SECTION 3.6.(a) G.S. 131E-167(a) reads as rewritten:

"(a) Applications for certification shall be available from the Department, and each application filed with the Department shall contain all necessary and reasonable information that the Department may by rule require. A certificate shall be granted to the applicant for a period not to exceed ~~two years~~one year upon a determination by the Department that the applicant has substantially complied with the provisions of this Article and the rules promulgated by the Department under this Article. The Department shall charge the applicant a nonrefundable annual certification fee in the amount of two hundred fifty dollars ($250.00)."

SECTION 3.6.(b) This section becomes effective October 1, 2003.

SECTION 3.7.(a) Article 16 of Chapter 131E of the General Statutes is amended by adding the following new section to read:

"**§ 131E-269. Authorization to charge fee for certification of facilities suitable to perform abortions.**

The Department of Health and Human Services shall charge each hospital or clinic certified by the Department as a facility suitable for the performance of abortions, as authorized under G.S. 14-45.1, a nonrefundable annual certification fee in the amount of seven hundred dollars ($700.00)."

SECTION 3.7.(b) This section becomes effective October 1, 2003.

SECTION 3.8.(a) G.S. 122C-23 is amended by adding the following new subsection to read:

"(h) The Department shall charge facilities licensed under this Chapter that have licensed beds a nonrefundable annual base license fee plus a nonrefundable annual per-bed fee as follows:

Type of Facility	Number of Beds	Base Fee	Per-Bed Fee
Facilities (non-ICF-MR):	6 or fewer beds	$250.00	$0
	More than 6 beds	$250.00	$12.50
ICF-MR Only:	6 or fewer beds	$650.00	$0
	More than 6 beds	$650.00	$12.50."

SECTION 3.8.(b) This section becomes effective October 1, 2003.

SECTION 3.9.(a) Part 3 of Article 6 of Chapter 131E of the General Statues is amended by adding the following new section to read:

"**§ 131E-138.1. Licensure fees for nursing beds and adult care home beds in continuing care retirement communities.**

The Department shall charge continuing care retirement communities licensed under Article 64 of Chapter 58 of the General Statutes that have nursing home beds or adult care home beds licensed by the Department a nonrefundable annual base license fee in the amount of four hundred fifty dollars ($450.00) plus a nonrefundable annual per-bed fee in the amount of twelve dollars and fifty cents ($12.50)."

SECTION 3.9.(b) This section becomes effective October 1, 2003.

SECTION 3.10.(a) Article 56 of Chapter 143 of the General Statutes is amended by adding the following new section to read:

"**§ 143-520 Fees.**

The Department of Health and Human Services shall charge a nonrefundable annual fee for emergency medical services provided under this Article, as follows:

Type of Provider	Annual Fee
Credentialing of persons paid for providing EMS Services	$90.00
Licensing of EMS Providers/Vehicle Inspections	$50.00
Licensing of Emergency Dispatch Providers	$185.00."

SECTION 3.10.(b) This section becomes effective October 1, 2003.

SECTION 3.11.(a) Article 16 of Chapter 131E of the General Statutes is amended by adding the following new section to read:

"§ 131E-267. Fees for departmental review of health care facility construction projects.

The Department of Health and Human Services shall charge a fee for the review of each health care facility construction project to ensure that project plans and construction are in compliance with State law. The fee shall be charged on a one-time, per-project basis, as follows, and shall not exceed twenty-five thousand dollars ($25,000) for any single project:

Institutional Project	Project Fee
Hospitals	$300.00 plus $0.20/square foot of project space
Nursing Homes	$250.00 plus $0.15/square foot of project space
Ambulatory Surgical Facility	$200.00 plus $0.15/square foot of project space
Psychiatric Hospital	$200.00 plus $0.15/square foot of project space
Adult Care Home more than 7 beds	$175.00 plus $0.10/square foot of project space

Residential Project	Project Fee
Family Care Homes	$175.00 flat fee
ICF/MR Group Homes	$275.00 flat fee
Group Homes: 1-3 beds	$100.00 flat fee
Group Homes: 4-6 beds	$175.00 flat fee
Group Homes: 7-9 beds	$225.00 flat fee
Other residential:	
More than 9 beds	$225.00 plus $0.075/square foot of facility space."

SECTION 3.11.(b) This section becomes effective October 1, 2003.

SECTION 3.12.(a) G.S. 110-90 reads as rewritten:

"**§ 110-90. Powers and duties of Secretary of Health and Human Services.**

The Secretary shall have the following powers and duties under the policies and rules of the Commission:

(1) To administer the licensing program for child care facilities.

(1a) To establish a fee for the licensing of child care facilities. The amount of the fee may not exceed the amount listed in this subdivision. The fee does not apply to a religious sponsored child care center operated pursuant to a letter of compliance.

Capacity of Facility	Maximum Fee
12 or fewer children	$ 35.00
13-50 children	$125.00
51-100 children	$250.00
101 or more children	$400.00

(2) To obtain and coordinate the necessary services from other State departments and units of local government which are necessary to implement the provisions of this Article.

(3) To employ the administrative personnel and staff as may be necessary to implement this Article where required services, inspections or

reports are not available from existing State agencies and units of local government.

(4) To issue a rated license to any child care facility which meets the standards established by this Article. The rating shall be based on program standards, education levels of staff, and compliance history of the child care facility.

(5) To revoke the license of any child care facility that ceases to meet the standards established by this Article and rules on these standards adopted by the Commission, or that demonstrates a pattern of noncompliance with this Article or the rules, or to deny a license to any applicant that fails to meet the standards or the rules. These revocations and denials shall be done in accordance with the procedures set out in G.S. 150B and this Article and rules adopted by the Commission.

(6) To prosecute or defend on behalf of the State, through the office of the Attorney General, any legal actions arising out of the administration or enforcement of this Article.

(7) To promote and coordinate educational programs and materials for operators of child care facilities which are designed to improve the quality of child care available in the State, using the resources of other State and local agencies and educational institutions where appropriate.

(8) Repealed by Session Laws 1997-506, s. 5.

(9) To levy a civil penalty pursuant to G.S. 110-103.1, or an administrative penalty pursuant to G.S. 110-102.2, or to order summary suspension of a license. These actions shall be done in accordance with the procedures set out in G.S. 150B and this Article and rules adopted by the Commission.

(10) To issue final agency decisions in all G.S. 150B contested cases proceedings filed as a result of actions taken under this Article including, but not limited to the denial, revocation, or suspension of a license or the levying of a civil or administrative penalty.

(11) To issue a license to any child care arrangement that does not meet the definition of child care facility in G.S. 110-86 whenever the operator of the arrangement chooses to comply with the requirements of this Article and the rules adopted by the Commission and voluntarily applies for a child care facility license. The Commission shall adopt rules for the issuance or removal of the licenses."

SECTION 3.12.(b) This section becomes effective October 1, 2003.

SECTION 3.13.(a) G.S. 130A-5 is amended by adding the following new subdivision to read:

"(15) To establish a fee to cover the cost of analyzing clinical Pap smear specimens sent to the State Laboratory by local health departments and

State-owned facilities and for reporting the results of the analysis. This fee shall be in addition to the charge for the Pap smear test kit."

SECTION 3.13.(b) This section becomes effective July 1, 2003.

PART 4. DEPARTMENT OF ENVIRONMENT AND NATURAL RESOURCES FEES

SECTION 4.1.(a) G.S. 113-34(c) reads as rewritten:

"(c) The Department, with the approval of the Governor and Council of State, may enter into leases of lands and waters for State parks, State lakes and recreational purposes; and the Department may construct, operate, and maintain on the lands and waters suitable public service facilities and conveniences and may charge and collect reasonable fees for each of the following:

(1) The erection, maintenance and use of docks, piers and other structures as may be permitted in or on the waters under its own rules.

(2) Fishing privileges in the waters, provided that the privileges shall be extended only to holders of bona fide North Carolina fishing licenses, and provided further that all State fishing laws and rules are complied with.

(3) Vehicle access to Fort Fisher State Recreation Area."

SECTION 4.1.(b) Notwithstanding G.S. 150B-21.1, the Department of Environment and Natural Resources may adopt temporary rules to establish fees under G.S. 113-34(c)(3), as amended by subsection (a) of this section, within six months after the effective date of this section.

SECTION 4.1.(c) This section becomes effective July 1, 2003.

PART 5. DEPARTMENT OF TRANSPORTATION FEES

SECTION 5.1.(a) G.S. 138-82 reads as rewritten:

"**§ 136-82. Department of Transportation to establish and maintain ferries.**

The Department of Transportation is vested with authority to provide for the establishment and maintenance of ferries connecting the parts of the State highway system, whenever in its discretion the public good may so ~~require, and to prescribe and collect such tolls therefor as may, in the discretion of the Department of Transportation, be expedient.~~ require. The Department of Transportation shall collect tolls on all ferries. The Department may establish various classes of ferry users.

To accomplish the purpose of this section said Department of Transportation is authorized to acquire, own, lease, charter or otherwise control all necessary vessels, boats, terminals or other facilities required for the proper operation of such ferries or to enter into contracts with persons, firms or corporations for the operation thereof and to pay therefor such reasonable sums as may in the opinion of said Department of Transportation represent the fair value of the public service rendered.

The Department of Transportation, notwithstanding any other provision of law, may operate, or contract for the operation of, concessions on the ferries and at ferry facilities to provide to passengers on the ferries food, drink, and other refreshments, personal comfort items, and souvenirs publicizing the ferry system."

SECTION 5.1.(b) This section becomes effective July 1, 2004.

PART 6. ADJUST LOCAL GOVERNMENT HOLD HARMLESS

SECTION 6.1. G.S. 105-521 reads as rewritten:

"**§ 105-521. Transitional local government hold harmless.**

(a) Definitions. – The following definitions apply in this section:

(1) Local government. – A county or municipality that received a distribution of local sales taxes in the most recent fiscal year for which a local sales tax share has been calculated.

(2) Local sales tax share. – A local government's percentage share of the two-cent (2¢) sales taxes distributed during the most recent fiscal year for which data are available.

(3) Repealed reimbursement amount. – The total amount a local government would have been entitled to receive during the 2002-2003 fiscal year under G.S. 105-164.44C, 105-275.1, 105-275.2, 105-277.001, and 105-277.1A, if the Governor had not withheld any distributions under those sections.

(4) Two-cent (2¢) sales taxes. – The first one-cent (1¢) sales and use tax authorized in Article 39 of this Chapter and in Chapter 1096 of the 1967 Session Laws, the first one-half cent (1/2¢) local sales and use tax authorized in Article 40 of this Chapter, and the second one-half cent (1/2¢) local sales and use tax authorized in Article 42 of this Chapter.

(b) Distributions. – On or before ~~September~~ August 15, 2003, and each ~~September~~ August 15 thereafter, the Secretary must multiply each local government's local sales tax share by the estimated amount that all local governments would be expected to receive during the current fiscal year under G.S. 105-520 if every county levied the tax under this Article for the year. If the resulting amount is less than one hundred percent (100%) of the local government's repealed reimbursement amount, the Secretary must pay the local government the difference, but not less than one hundred dollars ($100.00).

On or before May 1, 2003, and each May 1 thereafter, the Office of State Budget and Management and the Fiscal Research Division of the General Assembly must each submit to the Secretary and to the General Assembly a final projection of the estimated amount that all local governments would be expected to receive during the upcoming fiscal year under G.S. 105-520 if every county levied the tax under this Article for the fiscal year. If the Secretary does not use the lower of the two final projections to make the calculation required by this subsection, the Secretary must report the reasons for this decision to the Joint Legislative Commission on Governmental Operations within 60 days after receiving the projections.

(c) Source of Funds. – The Secretary must draw the funds distributed under this section from sales and use tax collections under Article 5 of this Chapter.

(d) Reports. – The Secretary must report to the Revenue Laws Study Committee by January 31, 2004, and each January 31 thereafter, the amount distributed under this section for the current fiscal year."

SECTION 6.2. Effective January 1, 2013, G.S. 105-521 is repealed.

PART 7. TEMPORARILY MAINTAIN STATE SALES TAX RATE

SECTION 7.1. Section 34.13(c) of S.L. 2001-424 reads as rewritten:

"**SECTION 34.13.(c)** This section becomes effective October 16, 2001, and applies to sales made on or after that date. This section is repealed effective for sales made on or after July 1, 2005. ~~2003.~~ This section does not affect the rights or liabilities of the State, a taxpayer, or another person arising under a statute amended or repealed by this section before the effective date of its amendment or repeal; nor does it affect the right to any refund or credit of a tax that accrued under the amended or repealed statute before the effective date of its amendment or repeal."

PART 8. TEMPORARILY MAINTAIN UPPER INCOME TAX RATE

SECTION 8.1. Effective for taxable years beginning on or after January 1, 2006, G.S. 105-134.2(a) reads as rewritten:

"(a) A tax is imposed upon the North Carolina taxable income of every individual. The tax shall be levied, collected, and paid annually and shall be computed at the following percentages of the taxpayer's North Carolina taxable income.

(1) For married individuals who file a joint return under G.S. 105-152 and for surviving spouses, as defined in section 2(a) of the Code:

Over	Up To	Rate
-0-	$21,250	6%
$21,250	$100,000	7%
$100,000	~~$200,000~~NA	7.75%
~~$200,000~~	~~NA~~	~~8.25%~~

(2) For heads of households, as defined in section 2(b) of the Code:

Over	Up To	Rate
-0-	$17,000	6%
$17,000	$80,000	7%
$80,000	~~$160,000~~NA	7.75%
~~$160,000~~	~~NA~~	~~8.25%~~

(3) For unmarried individuals other than surviving spouses and heads of households:

Over	Up To	Rate
-0-	$12,750	6%
$12,750	$60,000	7%
$60,000	~~$120,000~~NA	7.75%
~~$120,000~~	~~NA~~	~~8.25%~~

(4) For married individuals who do not file a joint return under G.S. 105-152:

Over	Up To	Rate
-0-	$10,625	6%
$10,625	$50,000	7%
$50,000	~~$100,000~~NA	7.75%
~~$100,000~~	~~NA~~	~~8.25%~~"

SECTION 8.2. Section 34.18(b) of S.L. 2001-424 reads as rewritten:

"**SECTION 34.18.(b)** This section becomes effective for taxable years beginning on or after January 1, ~~2001, and expires for taxable years beginning on or after January 1, 2004.~~2001. Notwithstanding G.S. 105-163.15, no addition to tax may be made under that statute for a taxable year beginning on or after January 1, 2001, and before January 1, 2002, with respect to an underpayment of individual income tax to the extent the underpayment was created or increased by this section."

PART 9. REPAIR AND RENOVATION

SECTION 9.1. Repair and Renovation. – This section authorizes the issuance or incurrence of special indebtedness in a maximum aggregate principal amount of two hundred million dollars ($200,000,000) to be used only in accordance with this section for the repair and renovation of State facilities and related infrastructure that are supported from the General Fund.

Proceeds of the Repair and Renovation special indebtedness shall be used only for the purposes and in accordance with the procedures provided in G.S. 143-15.3A, the Repairs and Renovations Reserve Account.

Except in the case of an emergency as provided in G.S. 143-15.3A, the Director of the Budget shall use the Repair and Renovations funds only for repairs and renovations that have been approved by an act of the General Assembly or, if the General Assembly is not in session, for repairs and renovations about which the Director of the Budget has first consulted with the Joint Legislative Commission on Governmental Operations under G.S. 143-15.3A(c). The Director of the Budget shall direct the State Treasurer to carry out the financing for repair and renovation projects selected pursuant to this section. Special indebtedness authorized by this section shall be issued or incurred only in accordance with Article 9 of Chapter 142 of the General Statutes, as enacted by this Part.

SECTION 9.2. Chapter 142 of the General Statutes is amended by adding a new Article to read:

"Article 9.

"State Repair and Renovation Finance Act.

"**§ 142-80. Short title.**

This Article may be cited as the State Repair and Renovation Finance Act.

"**§ 142-81. Findings and purpose.**

The General Assembly finds as follows:

(1) There is a continuing need for repair and renovation of capital facilities for the State, many of which will continue to be provided on a "pay-as-you-go" basis by direct appropriations.

(2) The State will also continue to provide capital facilities through the issuance of general obligation bonds.

(3) There is a need, however, for the use of alternative financing methods, such as authorized in this Article, to facilitate the providing of capital facilities repair and renovations when circumstances and conditions warrant the providing of capital facilities repair and renovations

through financing methods in addition to direct appropriations and the issuance of general obligation bonds.

(4) The use of these alternative financing methods as authorized in this Article will provide financing flexibility to the State and permit the State to take advantage of changing financial and economic environments.

"**§ 142-82. Definitions.**

The following definitions apply in this Article:

(1) Bonded indebtedness. – Limited obligation bonds and bond anticipation notes, including refunding bonds and notes, authorized to be issued under this Article.

(2) Bonds or notes. – Limited obligation bonds and notes authorized to be issued under this Article.

(3) Capital facility. – Any one or more of the following:

a. Any one or more buildings, utilities, structures, or other facilities or property developments, including streets and landscaping, and the acquisition of equipment, machinery, and furnishings in connection with these items.

b. Additions, extensions, enlargements, renovations, and improvements to existing buildings, utilities, structures, or other facilities or property developments, including streets and landscaping.

c. Land or an interest in land.

d. Other infrastructure.

e. Furniture, fixtures, equipment, vehicles, machinery, and similar items.

(4) Certificates of participation. – Certificates or other instruments delivered by a special corporation evidencing the assignment of proportionate undivided interests in rights to receive payments pursuant to a financing contract.

(5) Certificates of participation indebtedness. – Financing contract indebtedness incurred by the State under a plan of finance in which a special corporation obtains funds to pay the cost of a capital facility to be financed through the delivery by the special corporation of certificates of participation.

(6) Cost. – Any of the following in financing the cost of capital facilities as authorized by this Article:

a. The cost of constructing, reconstructing, renovating, repairing, enlarging, acquiring, and improving capital facilities, including the acquisition of land, rights-of-way, easements, franchises, equipment, machinery, furnishings, and other interests in real or personal property acquired or used in connection with a capital facility.

b. The cost of engineering, architectural, and other consulting services.

c. The cost of providing personnel to ensure effective management of capital facilities.

d. Finance charges, reserves for debt service, and other types of reserves required pursuant to the terms of any special indebtedness or related documents, interest before and during construction or acquisition of a capital facility and, if considered advisable by the State Treasurer, for a period not exceeding two years after the estimated date of completion of construction or acquisition.

e. Administrative expenses and charges.

f. The cost of bond insurance, investment contracts, credit enhancement facilities and liquidity facilities, interest rate swap agreements or other derivative products, financial and legal consultants, and related costs of the incurrence or issuance of special indebtedness.

g. The cost of reimbursing the State, a State agency, or a special corporation for any payments made for any cost described in this subdivision.

h. Any other costs and expenses necessary or incidental to the purposes of this Article.

(7) Credit facility. – An agreement that:

a. Is entered into by the State with a bank, savings and loan association, or other banking institution, an insurance company, reinsurance company, surety company, or other insurance institution, a corporation, investment banking firm, or other investment institution, or any financial institution or other similar provider of a credit facility, which provider may be located within or without the United States of America; and

b. Provides for prompt payment of all or any part of the principal or purchase price (whether at maturity, presentment or tender for purchase, redemption, or acceleration), redemption premium, if any, and interest with respect to any special indebtedness payable on demand or tender by the owner in consideration of the State's agreeing to repay the provider of the credit facility in accordance with the terms and provisions of the agreement.

(8) Department of Administration. – The North Carolina Department of Administration, created by Article 36 of Chapter 143 of the General Statutes, or if the Department is abolished or otherwise divested of its functions under this Article, the public body succeeding it in its principal functions or upon which are conferred by law the rights, powers, and duties given by this Article to the Department.

(9) Financing contract. – A contract entered into pursuant to this Article to finance capital facilities and constituting a lease-purchase contract, installment purchase contract, or other similar type installment financing contract. The term does not include, however, a contract that meets any one of the following conditions:

a. It constitutes an operating lease under generally accepted accounting principles.

b. It provides for the payment under the contract over its full term, including periods that may be added to the original term through the exercise of options to renew or extend, of an aggregate principal amount of not in excess of five thousand dollars ($5,000) or any greater amount that may be established by the Council of State if the Council of State determines (i) the aggregate amount to be paid under these contracts will not have a significant impact on the State budgetary process or the economy of the State and (ii) the change will lessen the administrative burden on the State.

c. It is executed and provides for the making of all payments under the contract, including payment to be made during any period that may be added to the original term through the exercise of options to renew or extend, in the same fiscal year.

(10) Financing contract indebtedness. – Indebtedness incurred pursuant to a financing contract, including certificates of participation indebtedness.

(11) Fiscal period. – A fiscal biennium or a fiscal year of the fiscal biennium.

(12) Fiscal year. – The fiscal year of the State beginning on July 1 of one calendar year and ending on June 30 of the next calendar year.

(13) Limited obligation bond. – A limited obligation bond issued pursuant to G.S. 142-88 and payable and secured as provided in G.S. 142-89.

(14) Par formula. – A provision or formula adopted by the State to provide for the adjustment, from time to time, of the interest rate or rates borne or provided for by any special indebtedness, including any of the following:

a. A provision providing for an adjustment so that the purchase price of special indebtedness in the open market would be as close to par as possible.

b. A provision providing for an adjustment based upon a percentage or percentages of a prime rate or base rate, which percentages may vary or be applied for different periods of time.

c. Any provision that the State Treasurer determines is consistent with this Article and will not materially and adversely affect the financial position of the State and the marketing of special indebtedness at a reasonable interest cost to the State.

(15) Person. – An individual, a firm, a partnership, an association, a corporation, a limited liability company, or any other organization or group acting as a unit.

(15b) Repair and renovation. – Any project of the type that may be funded from the Repairs and Renovations Reserve Account created in G.S. 143-15.3A.

(16) Special corporation. – Either of the following:

a. A nonprofit corporation created under Chapter 55A of the General Statutes for the purpose of facilitating the incurrence of certificates of participation indebtedness by the State under this Article.

b. A private corporation or other entity issuing certificates of participation pursuant to this Article.

(17) Special indebtedness. – Financing contract indebtedness and bonded indebtedness issued or incurred pursuant to this Article.

(18) State. – The State of North Carolina, including any State agency.

(19) State agency. – Any agency, institution, board, commission, bureau, council, department, division, officer, or employee of the State. The term does not include counties, municipal corporations, political subdivisions, local boards of education, or other local public bodies.

(20) State Treasurer. – The incumbent Treasurer, from time to time, of the State.

"**§ 142-83. Authorization of special indebtedness; General Assembly approval.**

The State may incur or issue special indebtedness subject to the terms and conditions provided in this Article for the purpose of financing the cost of capital facilities that meet one of the following conditions:

(1) The General Assembly has enacted legislation describing the capital facility and authorizing its financing by the incurrence or issuance of special indebtedness up to a specific maximum amount.

(2) The General Assembly has enacted legislation authorizing the incurrence or issuance of special indebtedness up to a specific maximum amount for a specific category of capital facilities, and the capital facility meets all of the conditions set in that legislation.

"**§ 142-84. Procedure for incurrence or issuance of special indebtedness.**

(a) Notice and Certificate. – Whenever the State or a State agency determines that special indebtedness is appropriate to finance capital facilities, it shall notify the Department of Administration. If the Department of Administration concurs, it shall provide written notice to the State Treasurer advising the State Treasurer of this determination.

After the filing of the notice and after any preliminary conference, the State Treasurer shall consult with the Office of State Budget and Management as to the revenues expected by that Office to be available to pay all sums to come due on the special indebtedness during its term. If, after consulting with the Office of State Budget and Management, the State Treasurer determines by written certificate that it may be

desirable to use special indebtedness to finance the capital facilities, the Department of Administration shall request the Council of State to give its preliminary approval of the use of special indebtedness to finance the capital facilities. The Department of Administration must promptly file copies of the notice and certificate required by this subsection with the Governor and the Council of State.

(b) Preliminary Approval. – The Council of State, upon receipt of the notice and certificate required by subsection (a) of this section, shall adopt a resolution granting or denying preliminary approval of the financing. A resolution granting preliminary approval may include any other terms, conditions, and restrictions the Council of State considers appropriate and not inconsistent with the provisions of this Article.

(c) Final Approval. – Before any special indebtedness may be incurred or issued pursuant to this Article, the Council of State must authorize the indebtedness by resolution, either as part of or separate from the resolution required by subsection (b) of this section. The resolution must do all of the following:

(1) Authorize the providing of a particular capital facility or, in general terms, the types or classifications of capital facilities to be provided.

(2) Set the aggregate principal amount or maximum principal amount of the special indebtedness authorized.

(3) Set the maturity or maximum maturity of the special indebtedness authorized.

(4) Set the rate, rates, or maximum rate of interest, which may be fixed or vary over a period of time, of the special indebtedness authorized.

(5) Include any other conditions or matters not inconsistent with the provisions of this Article in the discretion of the Council of State, which may include the adoption or approvals as may be authorized in G.S. 142-88 and G.S. 142-89.

(d) Financing Terms. – No special indebtedness shall be incurred or issued without the prior written approval of the State Treasurer as provided in this subsection, which is in addition to the certificate given by the State Treasurer pursuant to subsection (a) of this section. In determining whether to approve the proposed financing, the State Treasurer may consider any factors the State Treasurer considers relevant in order to find and determine all of the following:

(1) The amounts to become due under the special indebtedness, including the interest component or rate, are adequate and not excessive for the purpose proposed.

(2) The increase, if any, in State revenues, including taxes, necessary to pay the sums to become due under the special indebtedness, is not excessive.

(3) The special indebtedness can be incurred or issued on terms desirable to the State.

(e) Designation of Facilities. – If the Council of State authorized in general terms the types or classifications of capital facilities to be financed, then the particular capital facilities and the principal amount of special indebtedness to be incurred or issued for each particular capital facility shall be determined by the Department of Administration

after considering any factors it considers relevant in order to determine that the particular capital facility to be provided is desirable for the efficient operation of the State and its agencies and is in the best interests of the State.

(f) Type of Debt and Security. – In the absence of a determination by the Council of State, the State Treasurer, after consultation with the Department of Administration, shall determine the specific security offered and whether the special indebtedness to be issued or incurred shall be financing contract indebtedness, certificates of participation indebtedness, bonded indebtedness, or some combination of these.

(g) Administration. – The State Treasurer, after consultation with the Department of Administration, shall develop appropriate documents for use under this Article. The State Treasurer shall employ and designate the financial consultants, fiduciaries and other agents, underwriters, and bond attorneys to be associated with the incurrence or issuance of special indebtedness pursuant to this Article.

(h) Oversight by Joint Legislative Commission. – After all the requirements for approval and oversight provided in this section have been met, and at least five days before the issuance or incurrence of the special indebtedness, the State Treasurer must report to the Joint Legislative Commission on Governmental Operations. This report must include the details of the proposed special indebtedness, including the capital facilities to be financed by the indebtedness, the amount of the proposed indebtedness, the type of indebtedness to be issued or incurred, and any other information required by the Commission.

"**§ 142-85. Security; other requirements.**

(a) Security. – In order to secure (i) lease or installment payments to be made to the lessor, seller, or other person advancing moneys or providing financing under a financing contract, (ii) payment of the principal of and interest on bonded indebtedness, or (iii) payment obligations of the State to the provider of bond insurance, a credit facility, a liquidity facility, or a derivative agreement, special indebtedness may create any combination of the following:

(1) A lien on or security interest in one or more, all, or any part of the capital facilities to be financed by the special indebtedness.

(2) If the special indebtedness is to finance construction of improvements on real property, a lien on or security interest in all or any part of the land on which the improvements are to be located.

(3) If the special indebtedness is to finance renovations or improvements to existing facilities or the installation of fixtures in existing facilities, a lien on or security interest in one or more, all, or any part of the facilities.

(b) Value of Security; Multiple Liens. – The estimated value of the property subject to the lien or security interest need not bear any particular relationship to the principal amount of the special indebtedness or other obligation it secures. This Article does not limit the right of the State to grant multiple liens or security interests in a capital facility or other property to the extent not otherwise limited by the terms of any special indebtedness.

(c) Governor's Budget. – Documentation relating to any special indebtedness may include provisions requesting the Governor to submit in the Governor's budget proposal or any amendments or supplements to the budget proposed appropriations necessary to make the payments required by the special indebtedness.

(d) Source of Repayment. – The payment of amounts payable by the State under special indebtedness or any related documents during any fiscal period shall be limited to funds appropriated for that purpose by the General Assembly in its discretion.

(e) No Deficiency Judgment or Pledge. – No deficiency judgment may be rendered against the State in any action for breach of any obligation under special indebtedness or any related documents. The taxing power of the State is not and may not be pledged directly or indirectly to secure any moneys due under special indebtedness or any related documents. In the event that the General Assembly does not appropriate sums sufficient to make payments required under any special indebtedness or any related documents, the net proceeds received from the sale or other disposition of the property subject to the lien or security interest shall be applied to satisfy these payment obligations in accordance with the deed of trust, security agreement, or other documentation relating to the lien or security interest. These net proceeds are appropriated for the purpose of making these payments. Any net proceeds in excess of the amount required to satisfy the obligations of the State under any special indebtedness or any related documents shall be paid to the State Treasurer for deposit to the General Fund.

(f) Nonsubstitution Clause. – A financing contract, issue of bonded indebtedness, or other related document shall not contain a nonsubstitution clause that restricts the right of the State to (i) continue to provide a service or conduct an activity or (ii) replace or provide a substitute for any capital facility.

(g) Protection of Lender. – Special indebtedness may contain any provisions for protecting and enforcing the rights and remedies of the person advancing moneys or providing financing under a financing contract, the owners of bonded indebtedness, or others to whom the State is obligated under special indebtedness or any related documents as may be reasonable and proper and not in violation of law. These provisions may include covenants setting forth the duties of the State in respect of any of the following:

(1) The purposes to which the proceeds of special indebtedness may be applied.

(2) The disposition and application of the revenues of the State, including taxes.

(3) Insuring, maintaining, and other duties with respect to the capital facilities financed.

(4) The disposition of any charges and collection of any revenues and administrative charges.

(5) The terms and conditions of the issuance of additional special indebtedness.

(6) The custody, safeguarding, investment, and application of all moneys.

(h) State Property Law Exception. – Chapter 146 of the General Statutes does not apply to any transfer of the State's interest in property authorized by this Article, whether to a deed of trust trustee or other secured party as security for special indebtedness, or to a purchaser of property in connection with a foreclosure or similar conveyance of property to realize upon the security for special indebtedness following the State's default on its obligations under the special indebtedness.

"**§ 142-86. Financing contract indebtedness.**

(a) Documentation. – Financing contract indebtedness shall not be incurred until all documentation providing for its incurrence has been approved by the State Treasurer, after the State Treasurer has consulted with the Department of Administration.

(b) Interest Component. – A financing contract may provide for payments under the contract to represent principal and interest components of the cost of the capital facility to be financed, as determined by the State Treasurer.

(c) Bidding. – Financing contracts may be entered into pursuant to any applicable public or competitive bidding process or any private or negotiated process, to the extent required by applicable law, and if not so required, as may be determined by the Department of Administration after consulting with the State Treasurer.

(d) Party. – All financing contracts shall be executed on behalf of the State by the State Treasurer or, upon delegation by the State Treasurer after having approved the financing contract, by the Department of Administration.

(e) Credit Facility. – If the State Treasurer determines that it is in the best interest of the State, the State Treasurer may arrange for the delivery of a credit facility to secure payment under any financing contract. The State Treasurer may also provide that payments by the State representing the interest component of the payments to be made under a financing contract may be calculated based upon a fixed or a variable rate of interest.

(f) Terms and Conditions. – All other conditions set forth elsewhere in this Article with respect to financing contract indebtedness shall also be satisfied prior to incurring any financing contract indebtedness. To the extent applicable as conclusively determined by the State Treasurer, the provisions of G.S. 142-89, 142-90, and 142-91 apply to financing contract indebtedness.

"**§ 142-87. Additional requirements for certificates of participation indebtedness.**

(a) Documentation. – A financing contract shall not be used in connection with the delivery of certificates of participation by a special corporation until all documentation providing for its use has been approved by the State Treasurer, after the State Treasurer has consulted with the Department of Administration. All documentation providing for the delivery and sale of certificates of participation must be approved by the State Treasurer.

(b) Procedure. – The special corporation, if used, shall request the approval of the State Treasurer in writing and shall furnish any information and documentation relating to the delivery and sale of the certificates of participation requested by the State Treasurer. In determining whether to approve the financing in the documentation, the State Treasurer shall consider the factors set forth in G.S. 142-84(d), as well as the

effect of the proposed financing upon any scheduled or proposed sale of debt obligations by the State or a unit of local government in the State.

(c) Terms; Interest. – Certificates of participation may be sold by the State Treasurer in the manner, either at public or private sale, and for any price or prices that the State Treasurer determines to be in the best interest of the State and to effect the purposes of this Article, except that the terms of the sale must also be approved by the special corporation. Interest payable with respect to certificates of participation shall accrue at the rate or rates determined by the State Treasurer with the approval of the special corporation.

(d) Trust Agreement. – Certificates of participation may be delivered pursuant to a trust agreement or similar instrument with a corporate trustee approved by the State Treasurer, and the provisions of G.S. 142-89(h) apply to the trust agreement or similar instrument to the extent applicable.

(e) Other Conditions. – All other conditions set forth elsewhere in this Article with respect to certificates of participation indebtedness, including the conditions set forth in G.S. 142-86, must be satisfied before any certificates of participation indebtedness is incurred.

"**§ 142-88. Bonded indebtedness.**

The State Treasurer is authorized, by and with the consent of the Council of State as provided in this Article, to issue and sell at one time or from time to time bonds of the State to be designated "State of North Carolina Limited Obligation Bonds, Series ____" or notes of the State as provided in this Article, for the purpose of providing funds, with any other available funds, for the uses authorized in this Article.

"**§ 142-89. Issuance of limited obligation bonds and notes.**

(a) Terms and Conditions. – Bonds or notes may bear any dates, may be serial or term bonds or notes, or any combination of these, may mature in any amounts and at any times, not exceeding 40 years from their dates, may be payable at any places, either within or without the United States, in any coin or currency of the United States that at the time of payment is legal tender for payment of public and private debts, may bear interest at any rates, which may vary from time to time, and may be made redeemable before maturity, at the option of the State or otherwise as may be provided by the State, at any prices, including a price greater than the face amount of the bonds or notes, and under any terms and conditions, all as may be determined by the State Treasurer, by and with the consent of the Council of State.

(b) Signatures; Form and Denomination; Registration. – Bonds or notes may be issued in certificated or uncertificated form. If issued in certificated form, bonds or notes shall be signed on behalf of the State by the Governor or shall bear the Governor's facsimile signature, shall be signed by the State Treasurer or shall bear the State Treasurer's facsimile signature, and shall bear the great seal of the State or a facsimile of the seal impressed or imprinted on them. If bonds or notes bear the facsimile signatures of the Governor and the State Treasurer, the bonds or notes shall also bear a manual signature which may be that of a bond registrar, trustee, paying agent, or designated assistant of the State Treasurer. If any officer whose signature or facsimile signature appears on bonds or notes issued under this Article ceases to be that officer before the

delivery of the bonds or notes, the signature or facsimile signature shall nevertheless have the same validity for all purposes as if the officer had remained in office until delivery of the bonds or notes. Bonds or notes issued under this Article may bear the facsimile signatures of persons, who at the actual time of the execution of the bonds or notes, were the proper officers to sign any bond or note although at the date of the bond or note those persons may not have been officers.

The form and denomination of bonds or notes, including the provisions with respect to registration of the bonds or notes and any system for their registration, shall be as prescribed by the State Treasurer in conformity with this Article.

(c) Manner of Sale; Expenses. – Subject to the approval by the Council of State as to the manner in which bonds or notes will be offered for sale, whether at public or private sale, whether within or without the United States, and whether by publishing notices in certain newspapers and financial journals, mailing notices, inviting bids by correspondence, negotiating contracts of purchase or otherwise, the State Treasurer is authorized to sell bonds or notes at one time or from time to time at any rates of interest, which may vary from time to time, and at any prices, including a price less than the face amount of the bonds or notes, as the State Treasurer may determine. All expenses incurred in the preparation, sale, and issuance of bonds or notes shall be paid by the State Treasurer from the proceeds of bonds or notes or other available moneys.

(d) Application of Proceeds. – The proceeds of any bonds or notes shall be used solely for the purposes for which the bonds or notes were issued and shall be disbursed in the manner and under the restrictions, if any, that the Council of State may provide in the resolution authorizing the issuance of, or in any trust agreement securing, the bonds or notes.

Any additional moneys that may be received by means of a grant or grants from the United States or any agency or department thereof or from any other source to aid in financing the cost of a capital facility may be disbursed, to the extent permitted by the terms of the grant or grants, without regard to any limitations imposed by this Article.

(e) Notes; Repayment. – By and with the consent of the Council of State, the State Treasurer is authorized to borrow money and to execute and issue notes of the State for the same, but only in any of the following circumstances and under the following conditions:

(1) For anticipating the sale of bonds, the issuance of which the Council of State has approved, if the State Treasurer considers it advisable to postpone the issuance of the bonds.

(2) For the payment of interest on or any installment of principal of any bonds then outstanding, if there are not sufficient funds in the State treasury with which to pay the interest or installment of principal as they respectively become due.

(3) For the renewal of any loan evidenced by notes authorized in this Article.

(4) For the purposes authorized in this Article.

(5) For refunding bonds or notes or financing contract indebtedness as authorized in this Article.

Funds derived from the sale of limited obligation bonds or notes may be used in the payment of any bond anticipation notes issued under this Article. Funds provided by the General Assembly for the payment of interest on or principal of bonds shall be used in paying the interest on or principal of any notes and any renewals thereof, the proceeds of which have been used in paying interest on or principal of the bonds.

(f) Refunding Bonds and Notes. – By and with the consent of the Council of State, the State Treasurer is authorized to issue and sell refunding bonds and notes for the purpose of refunding special indebtedness and to pay the cost of issuance of the refunding bonds or notes. The refunding bonds and notes may be combined with any other issues of State bonds and notes issued pursuant to this Article. Refunding bonds or notes may be issued at any time prior to the final maturity of the debt or obligation to be refunded. The proceeds from the sale of any refunding bonds or notes shall be applied to the immediate payment and retirement of the obligations being refunded or, if not required for the immediate payment of the obligations being refunded, the proceeds shall be deposited in trust to provide for the payment and retirement of the obligations being refunded and to pay any expenses incurred in connection with the refunding. Money in a trust fund may be invested in (i) direct obligations of the United States government, (ii) obligations the principal of and interest on which are guaranteed by the United States government, (iii) to the extent then permitted by law, obligations of any agency or instrumentality of the United States government, or (iv) certificates of deposit issued by a bank or trust company located in the State if the certificates are secured by a pledge of any of the obligations described in (i), (ii), or (iii) above having an aggregate market value, exclusive of accrued interest, equal at least to the principal amount of the certificates so secured. This section does not limit the duration of any deposit in trust for the retirement of obligations being refunded but that have not matured and are not presently redeemable, or if presently redeemable, have not been called for redemption.

(g) Security. – Payment of the principal of and the interest on bonds and notes shall be secured as provided in G.S. 142-85.

(h) Trust Agreement. – In the discretion of the State Treasurer, any bonds and notes issued under this Article may be secured by a trust agreement or similar instrument between the State and a corporate trustee or by a resolution of the Council of State providing for the appointment of a corporate trustee. The corporate trustee may be, in either case, any trust company or bank that has the powers of a trust company within or without the State. The trust agreement or similar instrument or resolution, hereinafter referred to as "the trust", may provide for security and pledges and assignments that are permitted under this Article and may provide for the granting of a lien or security interest as authorized by G.S. 142-85. The trust may contain any provisions for protecting and enforcing the rights and remedies of the owners of any bonds or notes issued under the trust that are reasonable and not in violation of law, including covenants setting forth the duties of the State with respect to the purposes for which bond or note proceeds may be applied, the disposition and application of the revenues or assets of the State, the duties of the State with respect to the capital facilities financed, the disposition of any charges and collection of any revenues and administrative charges, the terms and conditions of the issuance of additional bonds and notes, and the

custody, safeguarding, investment, and application of all moneys. All bonds and notes issued under this Article pursuant to the same trust shall be equally and ratably secured as provided in the trust, without priority by reasons of number, dates of bonds or notes, execution, or delivery, in accordance with the provisions of this Article and of the trust. The trust may, however, provide that bonds or notes issued pursuant to the trust shall, to the extent and in the manner prescribed in the trust, be subordinated and junior in standing, with respect to the payment of principal and interest and to the security of the payment, to any other bonds or notes issued pursuant to the trust. It is lawful for any bank or trust company that may act as depositary of the proceeds of bonds or notes, revenues, or any other money under this Article to furnish any indemnifying bonds or to pledge any securities that may be required by the State Treasurer. The trust may set out the rights and remedies of the owners of any bonds or notes and of any trustee, and may restrict the individual rights of action by the owners. In addition to the foregoing, the trust may contain any other provisions the State Treasurer considers appropriate for the security of the owners of any bonds or notes. Expenses incurred in carrying out the provisions of the trust may be treated as a part of the cost of any capital facility or as an administrative charge and may be paid from the proceeds of the bonds or notes or from any other available funds.

"**§ 142-90. Variable rate demand bonds and notes and financing contract indebtedness.**

(a) In fixing the details of special indebtedness, the State Treasurer may make the special indebtedness subject to any of the following conditions:

(1) It is payable from time to time on demand or tender for purchase by the owner thereof, if a credit facility supports the special indebtedness, unless the State Treasurer specifically determines that a credit facility is not required upon a determination by the State Treasurer that the absence of a credit facility will not materially and adversely affect the financial position of the State or the marketing of the bonds or notes or financing contract indebtedness at a reasonable interest cost to the State.

(2) It is additionally supported by a credit facility.

(3) It is subject to redemption or mandatory tender for purchase prior to maturity.

(4) It bears interest at a rate or rates that may be fixed or may vary over any period of time, as may be provided in the proceedings providing for the issuance or incurrence of the special indebtedness, including any variations that may be permitted pursuant to a par formula.

(5) It is the subject of a remarketing agreement under which an attempt is made to remarket special indebtedness to new purchasers before its presentment for payment to the provider of the credit facility or to the State.

(b) If the aggregate principal amount payable by the State under a credit facility is in excess of the aggregate principal amount of special indebtedness secured by the credit facility, whether as a result of the inclusion in the credit facility of a provision for

the payment of interest for a limited period of time or the payment of a redemption premium or for any other reason, then the amount of authorized but unissued bonds or notes and financing contract indebtedness during the term of the credit facility shall not be less than the amount of the excess, unless the payment of the excess is otherwise provided for by agreement of the State executed by the State Treasurer.

"**§ 142-91. Other agreements.**

The State Treasurer may authorize, execute, obtain, or otherwise provide for bond insurance, investment contracts, credit and liquidity facilities, credit enhancement facilities, interest rate swap agreements and other derivative products, and any other related instruments and matters the State Treasurer determines are desirable in connection with the issuance of special indebtedness. The State Treasurer is authorized to employ and designate any financial consultants, underwriters, fiduciaries, and bond attorneys to be associated with any incurrence or issuance of special indebtedness under this Article as the State Treasurer considers appropriate.

"**§ 142-92. Tax exemption.**

Special indebtedness shall at all times be free from taxation by the State or any political subdivision or any of their agencies, excepting estate, inheritance, and gift taxes; income taxes on the gain from the transfer of the indebtedness; and franchise taxes. The interest component of any payments made by the State under special indebtedness, including the interest component of any certificates of participation, is not subject to taxation as to income.

"**§ 142-93. Investment eligibility.**

Special indebtedness are securities or obligations in which all of the following may invest, including capital in their control or belonging to them: public officers, agencies, and public bodies of the State and its political subdivisions; insurance companies, trust companies, investment companies, banks, savings banks, savings and loan associations, credit unions, pension or retirement funds, and other financial institutions engaged in business in the State; and executors, administrators, trustees, and other fiduciaries. Special indebtedness are securities or obligations that may properly and legally be deposited with and received by any officer or agency of the State or political subdivision of the State for any purpose for which the deposit of bonds, notes, or obligations of the State or any political subdivision is now or may later be authorized by law.

"**§ 142-94. Procurement of capital facilities.**

The provisions of Articles 3, 3B, 3C, 3D, and 8 of Chapter 143 of the General Statutes and any other laws or rules of the State that relate to the acquisition and construction of State property apply to the financing of capital facilities through the use of special indebtedness pursuant to this Article. This section does not apply to the construction and lease-purchase, including leases with an option to purchase at the end of the lease term for a nominal sum, of State office buildings pursuant to proposals submitted before the effective date of this Article in response to requests for proposals, to the extent any of those proposals, as they may be supplemented or amended, are approved by the Department of Administration and any of these leases or lease-purchase

agreements are approved by the Council of State in accordance with G.S. 143-341(4)d2."

SECTION 9.3. G.S. 143-341(4) is amended by adding a new sub-subdivision to read:

"d2. To purchase or finance the purchase of buildings, utilities, structures, or other facilities or property developments, including streets and landscaping, the acquisition of land, equipment, machinery, and furnishings in connection therewith; additions, extensions, enlargements, renovations, and improvements to existing buildings, utilities, structures, or other facilities or property developments, including streets and landscaping; land or any interest in land; other infrastructure; furniture, fixtures, equipment, vehicles, machinery, and similar items; or any combination of the foregoing, through installment purchase, lease-purchase, or other similar type installment financing agreements in the manner and to the extent provided in Article 9 of Chapter 142 of the General Statutes. Any contract entered into or any proceeding instituted contrary to the provisions of this paragraph is voidable in the discretion of the Council of State."

SECTION 9.4. Interpretation of Act. (a) Additional Method. – This act provides an additional and alternative method for the doing of the things authorized by this act and shall be regarded as supplemental and additional to powers conferred by other laws. Except where expressly provided, this act shall not be regarded as in derogation of any powers now existing. The authority granted in this act is in addition to other laws now or hereinafter enacted authorizing the State to issue or incur indebtedness.

SECTION 9.4.(b) Statutory References. – References in this act to specific sections or Chapters of the General Statutes are intended to be references to those sections or Chapters as they may be amended from time to time by the General Assembly.

SECTION 9.4.(c) Liberal Construction. – This act, being necessary for the health and welfare of the people of the State, shall be liberally construed to effect its purposes.

SECTION 9.4.(d) Severability. – If any provision of this act or its application to any person or circumstance is held invalid, that invalidity does not affect other provisions or applications of the act that can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

PART 10. GENERAL PROVISIONS

SECTION 10.1. This act does not affect the rights or liabilities of the State, a taxpayer, or another person arising under a statute amended or repealed by this act before the effective date of its amendment or repeal; nor does it affect the right to any refund or credit of a tax that accrued under the amended or repealed statute before the effective date of its amendment or repeal.

SECTION 10.2. Except as otherwise provided in this act, this act is effective when it becomes law.

(formerly 593)

HOUSE BILL 397 (3rd Edition):

2003 Budget/Family Tax Cut/AAA Bond Rating

BILL ANALYSIS

Committee: House Floor
Date: April 16, 2003
Version: 3rd Edition

Sponsor:
Analysis by: Finance Team

SUMMARY: This summary covers Parts 32 through 41 of the bill, which are the fee and finance provisions. These Parts contain the following provisions:

- *PART 32 sets the public utility regulatory fee at 0.12% for the 2003 calendar year. This rate generates $12.9 million. The public utility regulatory fee established last year was 0.1%. PART 32 also sets the electric membership corporation regulatory fee at $200,000. The electric membership corporation fee is the same as the rate established last year.*
- *PART 33 sets the insurance regulatory fee at 6.5% for the 2003 calendar year. This rate is the same as the 2002 rate. This rate generates $25 million.*
- *PART 34 authorizes the Department of Health and Human Services to assess the following fees within the Division of Facility Services, Division of Child Development, and the Division of Public Health:*

  Division of Facility Service fees - Annual license or certification fees for adult care homes; hospitals; nursing homes; home care agencies; ambulatory surgical facilities; cardiac rehabilitation certification programs; hospital or clinic certified to perform abortions; facilities for the mentally ill, the developmentally disabled, and substance abusers; and nursing beds and adult care home beds in continuing care retirement facilities.

  Annual fee for credentialing of persons paid for providing EMS services, licensing of EMS providers/vehicle inspections, and licensing of emergency dispatch providers.

  One-time fee for review of each health care facility construction project. The fee may not exceed $25,000 for any single project.

  Division of Child Development fee – This fee is for the licensing of child care facilities, and the amount of the fee is based upon the number of children served by the facility.

  Division of Public Health fee – The fee will cover the cost of analyzing and reporting clinical Pap smear specimens sent to the State Laboratory.
- *PART 35 authorizes the Department of Environment and Natural Resources to charge and collect reasonable fees for vehicle access to Fort Fisher State Recreation Area and to adopt temporary rules for this purpose within six months after the effective date of this section.*
- *PART 36 requires the Department of Transportation to collect tolls on all ferries by July 1, 2004. DOT estimates that a fee structure for the currently free ferries similar to the fee*

structure now in place for the other ferries would generate approximately $1 million per year after expenses.

- *PART 37 moves the annual hold-harmless payment date from September 15 to August 15, and repeals the hold-harmless payments effective January 1, 2013.*
- *PART 38 temporarily maintains State sales and use taxes at their existing rate by extending the sunset for the half-cent increase in the State sales tax from July 1, 2003 to July 1, 2005. This will generate $346.5 million in sales tax revenue in fiscal year 2003-2004.*
- *PART 39 temporarily maintains the individual income tax brackets at their existing rates by extending the sunset for the 8.25% upper income individual income tax bracket from January 1, 2004, to January 1, 2006. This will generate approximately $83.3 million in individual income tax payments in tax year 2004.*
- *PART 40 authorizes the issuance of security interest debt to finance $200 million of repair and renovations in accordance with G.S. 143-15.3A, the Repairs and Renovations Reserve Account.*

PART 32: REGULATORY FEE FOR UTILITIES COMMISSION

Part 32 of the bill sets the tax rate for the public utility regulatory fee for the 2003-2004 tax year at 0.12% **(same as Governor's Budget).** The rate last year was 0.1%. This rate must be set by the General Assembly each year. The utility regulatory fee is a tax that was first imposed in 1989. The proceeds of the fee are credited to the Utilities Commission and Public Staff Fund and used to defray the State's cost in regulating public utilities. The regulatory fee is imposed on all utilities that are subject to regulation by the North Carolina Utilities Commission. The fee is a percentage of the utility's North Carolina jurisdictional revenues. In general, jurisdictional revenue is derived from providing utility service in North Carolina.

In addition to funding the State's cost in regulating public utilities, the money in the Utilities Commission and Public Staff Fund is currently used to finance the work of the Study Commission on the Future of Electric Service in North Carolina. The General Assembly established the Commission in 1997 to examine the cost, adequacy, availability, and pricing of electric rates and service in North Carolina to determine whether legislation is necessary to assure an adequate and reliable source of electricity and economical, fair and equitable rates for all consumers of electricity in North Carolina. Section 14.10 of S.L. 2000-67, the Current Operations and Capital Improvements Appropriations Act of 2000, extended the life of the Study Commission and its funding from the Utilities Commission and Public Staff Fund through June 30, 2006.

Part 32 also sets at $200,000 for the 2003-2004 fiscal year the annual public utility regulatory fee imposed on electric membership corporations whose principal purpose is to furnish or cause to be furnished bulk electric supplies at wholesale **(same as Governor's Budget).** This is the same rate that was in effect for the 2001-2002 and 2002-2003 fiscal years. The North Carolina Electric Membership Corporation is the only electric membership corporation that fits this description.

The proceeds of the fee are credited to the Utilities Commission and Public Staff Fund and used to defray the State's cost in regulating electric membership corporations.

The 1999 General Assembly enacted 1999-180, which authorized electric membership corporations to form subsidiary corporations that may provide energy services and products, telecommunications services and products, and water and wastewater collection and treatment. The subsidiaries must fully compensate the electric membership corporation for its use of the corporation's personnel, services, equipment, and property. The Utilities Commission is charged with regulating this aspect of the subsidiary's business and, to pay for this regulation, S.L. 1999-180 levied a flat-rate regulatory fee to be paid annually by the North Carolina Electric Membership Corporation. The General Assembly must establish the fee amount each year. The North Carolina Electric Membership Corporation is the only electric membership corporation whose principal purpose is to furnish or cause to be furnished bulk electric supplies at wholesale as provided in G.S. 117-16. It is a "generation and supply cooperative" owned by its members. Its members are all but one of the existing North Carolina electric membership corporations, which are "distribution cooperatives." Thus, the fee imposed on the North Carolina Electric Membership Cooperation will be passed on to its member electric membership corporations.

PART 33: INSURANCE REGULATORY CHARGE

Part 33 of this bill sets the insurance regulatory charge at 6.5% for the 2003 calendar year. This is the same rate used for the past two years. The Department of Insurance has indicated that it cannot submit a rate proposal at this time, because it cannot estimate the rate until early May after the April collections are known. Using the rate of 6.5%, the charge is expected to generate $25 million for the 2003-2004 fiscal year. The insurance regulatory charge is a tax that was enacted in 1991 to defray the State's cost of regulating the insurance industry. The charge is a percentage of each insurance company's premiums tax liability. The insurance regulatory charge is imposed on insurance companies that pay the gross premiums tax and, beginning in 2000, on health maintenance organizations and medical service corporations. For health maintenance organizations and medical service corporations, the fee is levied on each company's hypothetical gross premiums tax liability determined at the 1.9% gross premiums tax rate applied to its premiums base. The hypothetical calculation is necessary because medical service corporations and health maintenance organizations pay premiums tax at a lower rate **(not in Governor's Budget).**

PART 34: DEPARTMENT OF HEALTH AND HUMAN SERVICES FEES

Part 34 of this bill authorizes the Department of Health and Human Services to impose the following fees:

Division of Facility Services Fees (effective October 1, 2003)

- Section 34.1 authorizes the Department to charge each adult care home with six or fewer beds a $250 nonrefundable annual license fee. The nonrefundable license fee for more

than six beds is $350 plus a nonrefundable annual per-bed fee of $12.50 **(same as Governor's Budget)**.

- Section 34.2 authorizes the Department to charge hospitals a nonrefundable annual base license fee plus a nonrefundable annual per-bed fee. The amount of the fee is based upon the type of facility (general acute hospitals and other hospitals) and the number of beds in the facility **(same as Governor's Budget)**.
- Section 34.3 authorizes the Department to charge nursing homes a $450 nonrefundable annual license fee plus a nonrefundable annual per-bed fee of $12.50 **(same as Governor's Budget)**.
- Section 34.4 authorizes the Department to charge home care agencies a $350 nonrefundable annual license fee **(same as Governor's Budget)**. A home care agency is a private or public organization that provides home care services. Home care services include the following services and directly related medical supplies and appliances which are provided to an individual in his or her home:
    1. nursing care by or under the supervision of a registered nurse.
    2. physical, occupational, or speech therapy, when provided to an individual who also is receiving nursing services, or any other of these therapy services, in a place used as the individual's home.
    3. medical social services.
    4. in-home aide services that involve hands-on care to an individual.
    5. infusion nursing services.
    6. assistance with pulmonary care, pulmonary rehabilitation, or ventilation.
- Section 34.5 authorizes the Department to charge a $700 nonrefundable annual base license fee plus a $50 nonrefundable annual per-operating room fee to an ambulatory surgical facility **(same as Governor's Budget)**.
- Section 34.6 authorizes the Department to charge a $250 nonrefundable annual certification fee to a Cardiac Rehabilitation Program **(same as Governor's Budget)**, and shortens the certification period from a period not to exceed two years to a period not to exceed one year. A Cardiac Rehabilitation Program is a program for the delivery of cardiac rehabilitation services to outpatients and includes coordinated, physician-directed, individualized programs of therapeutic activity and adaptation designed to assist the cardiac patient in attaining the highest rehabilitative potential. The services offered by the program must meet all cardiac rehabilitation program rules.
- Section 34.7 authorizes the Department to charge a $700 nonrefundable annual certification fee to a hospital or clinic that performs abortions **(same as Governor's Budget except that this bill amends the Health Care Facilities and Services statutes in Chapter 131E instead of the Criminal Law statutes in Chapter 14)**.
- Section 34.8 authorizes the Department to charge an annual base license fee plus a nonrefundable annual per-bed fee to licensed facilities for the mentally ill, developmentally disabled, and substance abusers. The amount of the fees is based on the

type of facility (non-ICF-MR and ICF-MR only) and the number of beds **(same as Governor's Budget)**.

- Section 34.9 authorizes the Department to charge a $450 nonrefundable annual base license fee plus a $12.50 nonrefundable annual per-bed fee to continuing care retirement communities that have nursing home beds or adult care home beds **(same as Governor's Budget)**.
- Section 34.10 authorizes the Department to charge a nonrefundable annual fee to emergency medical service providers. The Division of Facility Services licenses all emergency medical service providers. Under this section, all EMS providers will pay an annual license fee based on the number of permitted EMS vehicles ($50 per vehicle) operated by the EMS provider, except that emergency medical dispatch providers will pay $185 annually. All volunteer-only EMS providers and volunteer EMS providers with paid personnel will be exempted from the fees. The Division of Facility Services also offers eight levels of EMS credential for persons who are trained EMS personnel. This section imposes a $90 credentialing fee for all levels of EMS credentialing. It exempts persons who work as volunteers within an EMS system from paying credentialing fees. Persons who are paid to work in an EMS system or persons with no system affiliation will pay fees **(same as Governor's Budget)**.
- Section 34.11 authorizes the Department to charge a fee for the review of each health care facility construction project to ensure that project plans and construction comply with State law. The fee is charged on a one-time per-project basis and cannot exceed $25,000 for any single project. **(The Governor's Budget does not cap the fee.)** Large institutional projects for hospitals, nursing homes, ambulatory surgical facilities, psychiatric hospitals, and adult care homes with more than seven beds would be charged a flat fee plus an amount based upon the size of the project in square feet. **(The Governor's Budget does not charge the flat fee.)** Residential construction projects for family care homes, intermediate care facilities for the mentally retarded group homes, and mental health group homes would be assessed a flat fee depending on the type and number of beds. If the residential project contains more than nine beds the project will be charged a flat fee plus $0.075 per square foot of facility space. **(The Governor's Budget does not charge the flat fee for a residential project that contains more than nine beds.)**

Division of Child Development Fee (effective October 1, 2003)

- Section 34.12 authorizes the Secretary of Health and Human Services to establish fees for the licensing of child care facilities. The maximum amounts of the fees range from $35 to $400 depending upon the number of children the facility can serve **(not in the Governor's Budget).** The fees do not apply to a religious sponsored child care center operated pursuant to a letter of compliance.

Division of Public Health Fee (effective July 1, 2003)

- Section 34.13 authorizes the establishment of a fee to cover the cost of analyzing and reporting clinical Pap smear specimens sent to the State Laboratory by local health

departments and State-owned facilities. The fee is in addition to the charge for the Pap smear test kit **(not in the Governor's Budget).**

PART 35: DEPARTMENT OF ENVIRONMENT AND NATURAL RESOURCES FEES

Part 35 of this bill authorizes the Department of Environment and Natural Resources to charge and collect reasonable fees for vehicle access to Fort Fisher State Recreation Area. Part 35 becomes effective July 1, 2003. The Department may also adopt temporary rules to establish these fees within six months of the effective date. According to Department officials, the annual fee would be approximately $40 per year. **(not in the Governor's Budget)**

PART 36: DEPARTMENT OF TRANSPORTATION FEES

Part 36 of this bill instructs the Department of Transportation to collect tolls on all ferries by July 1, 2004, and authorizes DOT to establish various classes of ferry users. Currently there are seven ferries operating in the State. Of these, three collect tolls. The toll operations are Cedar Island-Ocracoke, Swan Quarter-Ocracoke, and Southport-Fort Fisher. The four free ferry operations are Hatteras-Ocracoke, Bayview-Aurora, Cherry Branch-Minnesott, and Currituck-Knotts Island. DOT estimates that if a fee structure similar to that used on the toll ferry operations was in place for the four free ferry operations, it would generate approximately $1 million per year after expenses. This fee change would affect only the Highway Fund **(not in the Governor's Budget).**

PART 37: ADJUST LOCAL GOVERNMENT HOLD-HARMLESS

Part 37 of the bill changes the date that sales tax hold-harmless payments are made to local governments each year, from September 15 to August 15, and repeals the hold-harmless payments after ten years effective January 1, 2013. **(The Governor's Budget would have eliminated the hold harmless payments beginning in 2003.)**

Background: In 2001, the General Assembly gave local governments the authority to increase their local sales tax by one-half cent, effective upon the repeal of the State's additional half-cent sales tax on July 1, 2003. Also effective July 1, 2003, the State's reimbursements to local governments were repealed, and the State was directed to provide hold-harmless payments to those local governments whose potential gain from the half-cent local sales tax increase would be less than 100% of their loss from the repealed State reimbursements. State reimbursements consist of reimbursements from the repeal of the property tax on inventories and on poultry and livestock, the repeal of the intangibles tax, the "homestead exclusion" from property tax, and the repeal of local sales and use taxes on food purchased with food stamps.

In 2002, the General Assembly accelerated the repeal of the State reimbursements from July 1, 2003, to July 1, 2002, and accelerated the effective date that local governments could began levying the additional half-cent local tax from July 1, 2003, to December 1, 2002.

PART 38: TEMPORARILY MAINTAIN STATE SALES TAX RATE

Part 38 of this bill delays the sunset of the half-cent increase in the State sales tax from July 1, 2003, to July 1, 2005. In the 2001 Appropriations Act, the General Assembly increased the State sales tax by one-half cent, from 4% to 4.5%, effective October 16, 2001. This State sales tax increase sunsets July 1, 2003. Before 2001, the State sales tax rate had last been increased in 1991 from 3% to 4%.

Also in 2001, the General Assembly gave local governments the authority to increase their local sales tax by one-half cent, effective upon the repeal of the State's one-half cent on July 1, 2003. In 2002, the General Assembly accelerated the effective date of the additional half-cent local sales and use tax from July 1, 2003, to December 1, 2002 **(same as Governor's recommendation).**

PART 39: TEMPORARILY MAINTAIN UPPER INCOME TAX RATE

Part 39 of this bill delays the sunset of the upper-income 8.25% individual income tax rate from January 1, 2004, to January 1, 2006. In 2001, the General Assembly added a new tax bracket that imposed an additional one-half percent income tax on certain North Carolina taxable income for three years. Under prior North Carolina law, tax was imposed at the following rates on individuals' North Carolina taxable income:

Tax Rate	*Married filing jointly*	*Heads of household*	*Single filers*	*Married filing separately*
6.0%	Up to $21,250	Up to $17,000	Up to $12,750	Up to $10,625
7.0%	Over $21,250 and up to $100,000	Over $17,000 and up to $80,000	Over $12,750 and up to $60,000	Over $10,625 and up to $50,000
7.75%	Over $100,000	Over $80,000	Over $60,000	Over $50,000

The 2001 law created a fourth tax bracket for North Carolina taxable income as follows:

Tax Rate	*Married filing jointly*	*Heads of household*	*Single filers*	*Married filing separately*
8.25%	Over $200,000	Over $160,000	Over $120,000	Over $100,000

This change was estimated to effect approximately 2% of North Carolina taxpayers **(same as Governor's recommendation).**

PART 40: REPAIR AND RENOVATION

Part 40 of this bill authorizes the State to incur $200 million of security interest indebtedness for repair and renovation of State capital facilities. The proceeds would be used to repair and renovate State buildings in the same manner as funds in the Reserve for Repair and Renovations are used. Except in the case of an emergency, the Director of the Budget is required to consult with the Joint Legislative Commission on Governmental Operations before incurring debt for specific repair and renovation projects.

Part 40 also enacts the procedural and regulatory provisions needed to carry out the security interest indebtedness. Commonly referred to as "certificates of participation," security interest indebtedness is debt that is secured by an interest in the property being repaired or renovated. The term "special indebtedness" is employed to cover the three forms that this type of debt can take: installment purchase (with or without certificates of participation), lease-purchase (with or without certificates of participation), and bonds. In each case, the debt is nonvoted. The particular form to be used for a given project will depend on its size, the nature of the property being repaired, and other circumstances. Based on these circumstances, one form or another of security interest debt may be the least expensive and most practical for the State to utilize. **(not in the Governor's Budget)**

PRINCIPAL DEPARTMENT(S) & PROGRAM(S) AFFECTED: Department of Health and Human Services, Utilities Commission, Department of Insurance, Department of Transportation, Department of Revenue, and Department of Environment and Natural Resources.

EFFECTIVE DATE: Part I, Section 3.13 and Part IV are effective July 1, 2003. The remainder of Part III becomes effective October 1, 2003. The remainder of the bill is effective when law.

BILL SUMMARY:

Part I, Section 1(a) sets the regulatory fee rate for the Public Utilities Commission at 0.12%. This rate must be set annually and is an increase from the .1% rate in 2002. Section 1(b) sets the regulatory fee for the electric membership corporations at a flat $200,000. This fee has remained the same since it was first imposed in 1999.

Part II addresses the annual establishment of the insurance regulatory fee. Section 2(a) sets the insurance regulatory charge at 6.5%. The rate remains the same as in the previous year.

Part III addresses three sets of fees related to the Department of Health and Human Services. Sections 3.1-3.11 increase and establish a variety of fees related to the Division of Facility Services. Section 3.12 imposes a new fee on day care facilities. Section 3.13 imposes a new fee on certain pap smears.

Part IV allows the Department of Environment and Natural Resources to adopt temporary rules to establish fees for off-highway vehicle access to the Fort Fisher Recreation Area.

Part V requires the Department of Transportation to collect tolls on all ferries by July 1, 2004. The Department may establish various classes of ferry users.

Part VI ends all hold harmless payments to locals after 2012, and expedites the payment of hold harmless payments in 2003-04 and 2004-05.

Part VII extends the state half-cent sales tax that became effective on October 16, 2001 from July 1, 2003 to July 1, 2005.

Part VIII delays the sunset of the 8.25% income tax rate from January 1, 2004 to January 1, 2006.

Part IX authorizes the state to incur $200 million of security interest indebtedness for the repair and renovation of State facilities. These proceeds would be used to repair and renovate State buildings in the same manner as funds allocated to the Reserve for Repair and Renovations.

ASSUMPTIONS AND METHODOLOGY:

PART 1: REGULATORY FEE FOR UTILITIES COMMISSION

Part 1 of the bill sets the fees for regulation by the North Carolina Utilities Commission ("Commission"). Section 1(a) of the bill sets the public utility regulatory fee rate at 0.12% for FY 2003-04. (The FY 2002-03 rate is .1%) Revenue from this fee, which is assessed against regulated public utilities, is used to support the operations of both the Commission and the Public Staff. The Commission estimates the .12% regulatory fee will produce $12,950,000 in FY 2003-04. For the same period, the Commission estimates that the combined operations of the Commission and Public

Staff will require total expenditures of not less than $12,183,000. The estimated balance in the Commission's Accumulated Fee Margin Reserve Account as of June 30, 2003 is $4.6 million. The proposed fee would generate a surplus of $767,000 that will be added to this Reserve Account for a June 2004 balance of $5.37 million. This represents approximately 4.4 months of operating reserve. The Commission considers this reserve balance "adequate to reasonably ensure our continuing financial integrity".

Section 1(b) of the bill sets the public utility regulatory fee to be paid by the North Carolina Electric Membership Corporation for the 2003-04 fiscal year at $200,000. In 1999, the initial fee of $200,000 was developed as a result of discussions between the industry and the Utilities Commission, based on what the Utilities Commission believed to be the cost associated with regulating the electric membership cooperatives. In 2001 the Utilities Commission provided information to the General Assembly's Fiscal Research illustrating that these fees supported approximately 4000 hours of accounting, engineering, and legal time. This fee amount must be set by the General Assembly each year.

PART 2: INSURANCE REGULATORY CHARGE

Part 2 of the bill sets the insurance regulatory charge at 6.5% for calendar year 2003. This is the same rate used in 2002 because the Department of Insurance has not submitted a rate proposal. The Department has stated that it cannot estimate the rate until early May after the April collections are known.

This fee is assessed against the 1.9% premiums tax paid by insurers or against the presumed premiums tax that would be paid by HMOs and Article 65 companies (Blue Cross/Blue Shield) if taxed at 1.9% (they are taxed at 1%). The revenue is used to reimburse the General Fund for appropriations to the Department of Insurance to pay expenses incurred in regulating the insurance industry and other industries and to other departments as specified in G.S. 58-6-25(d). The 6.5% rate was estimated to generate $25 million in regulatory fee revenue in 2002.

PART 3: DEPARTMENT OF HEALTH AND HUMAN SERVICES FEES

All fees generated in this part of the bill flow to the affected divisions of the Department of Health and Human Services. Corresponding reductions have been made to their General Fund appropriations in the budget bill.

SECTIONS 3.1-3.11: DIVISION OF FACILITIES SERVICES FEES

The purpose of the proposed fees for the Division of Facility Services (DFS) is to provide revenue to cover a portion of the State cost associated with the regulation and licensure of health and social care facilities and services. The proposed fees will generate $5,142,000 in revenue -- $5,100,000 will be used as departmental receipts to cover a portion of the Division of Facility Services operating budget and $42,000 will be used to pay for one position to collect the fees. Under this proposal, fees would support 33% of the General Fund budget ($15.4 million) for the Division of Facility Services. The Division of Facility Services also receives $12.5 million in federal funds. The fees fall into three categories: (1) fees for licensure and regulation of health and social care facilities and services, (2) fees for

the licensure of Emergency Medical Services providers and credentialing persons who are certified by the Division of Facility Services to provide Emergency Medical Services, and (3) fees for processing and reviewing construction plans for social and health care facilities and for conducting physical plant inspection of these facilities.

Fees for Licensure and Regulation of Health and Social Care Facilities and Services

The Division of Facility Services licenses and regulates health and social care facilities including hospitals, abortion clinics, ambulatory surgical facilities, cardiac rehabilitation facilities, nursing facilities, adult care homes, mental health group homes, intermediate care facilities for the mentally retarded, and continuing care retirement communities. DFS also regulates home care service agencies including home health and personal care service providers. The fee structure for all facilities and agencies includes a base fee that applies regardless of the size of the facility. In addition, facilities that have beds, offices, or rooms associated with their license will also be charged a per bed or room fee. Facilities with less than six beds are exempted from the per bed fees. The attached chart summarizes the base fees and per bed fees for all facilities and agencies.

Fees for Licensure and Credentialing of Emergency Medical Service Providers

The Division of Facility Services licenses all emergency medical service providers. Under this proposal, all EMS providers will pay an annual license fee based on the number of permitted EMS vehicles ($50 per vehicle) operated by the EMS provider except that emergency medical dispatch programs will pay $185 annually. All volunteer only EMS providers and volunteer EMS providers with paid personnel will be exempted from the fees.

The Division of Facility Services also offers eight levels of EMS credential for persons who are trained EMS personnel. This proposal establishes a $90 credentialing fee for all levels of EMS credentialing and will be applied for initial credentialing, recredentialing, legal recognition, and challenge applicants. The proposal will exempt persons who work as volunteers within an EMS system from paying credentialing fees. Persons who are paid to work in an EMS system or persons with no system affiliation will pay fees.

Fees for Processing and Reviewing Construction Plans for Social and Health Care Facilities

The Construction Section of the Division of Facility Services has the following responsibilities:

- Review plans for new construction, conversions, additions, and renovations of all health and social care facilities
- On-site inspection of each project's regulatory compliance with licensure standards related to physical plant systems and life safety code requirements during the building process and a final inspection once the project is completed
- Routine inspections of existing facilities to monitor continued compliance with licensure requirements
- Consultation services.

Under the proposal, fees would be assessed for processing and reviewing construction plans for social and health care facilities and for conducting physical plant inspection of these facilities. A chart summarizing the fees is attached.

Large institutional projects for hospitals, nursing homes, ambulatory surgical facilities, and adult care homes with seven or more beds would be assessed fees based on the size of the project in square feet. The fee would range $.10 to $.20 per square foot depending on the type of facility.

Residential construction projects for family care homes, intermediate care facilities for the mentally retarded, group homes, and mental health group homes would be assessed a flat fee ranging from $100 to $275 per project depending on the type and size of the facility.

The revenues generated by the new and increased Division of Facility Services fees are as follows:

FACILITY TYPE	# FACILITIES, REVIEWS or EXAMS	BASE FEE	ADDT'L FEE	# OF BEDS/ OFFICES/ ROOMS	TOTAL REVENUE
GENERAL ACUTE HOSPITALS					
1 - 49 beds	25	$ 250	$ 12.50	736	**$ 15,450**
50 - 99 beds	29	$ 350	$ 12.50	1,993	**$ 35,063**
100 - 199 beds	36	$ 450	$ 12.50	4,918	**$ 77,675**
200 - 399 beds	18	$ 550	$ 12.50	5,093	**$ 73,563**

EMS CREDENTIALING FEES	6,297	$ 90	$ 0.00	**NA**	**$ 566,730**
EMS PROVIDER FEE (Vehicles)	1,025	$ 50	$ 0.00	**NA**	**$ 51,250**
EMERGENCY DISPATCH PROGRAM	57	$ 185	$ 0.00	**NA**	**$ 10,545**
TOTAL	15,910			**124,016**	$ 5,142,400

NOTES

Column (4) ADDTL FEE is the additional fee that will be based on the number of beds, offices or rooms as shown in Column (5).

OTHER HOSPITALS excludes all State-owned facilities which are exempt from licensure.

TOTAL # FACILITIES does not include emergency medical vehicles.

SECTION 3.12 CHILD CARE LICENSING FEES

This section of the bill adds a new licensing fee for child care centers. The fee will be annual and will cover a portion of the departmental cost of licensing and monitoring these centers. The annual fee will be based on the number of children in the center. The following fees will apply: Centers with 12 or fewer children -$35.00; 13-50 children - $125.00; 51-100 children - $250.00; 101 or more children - $400.

The revenue estimates are based on the current number of childcare centers and the estimated increase in the number of new centers as historical data indicates. There has been an approximate 2.75% annual increase in the number of centers starting up annually over the past seven (7) years and is the amount used to project additional revenues for future years.

	2003-04		2004-05		2005-06		2006-07		2007-08	
Size of facility (number of children)	Number of Centers	Revenue	Number of Centers	Revenue	Number of Centers	Revenue	Number of Centers	Revenue	Number of Centers	Revenue
Up to 12	343	12,005	352	12,335	362	12,674	372	13,023	382	13,381
13-50	1583	197,875	1,627	203,317	1,671	208,908	1,717	214,653	1,764	220,556
51-100	1168	292,000	1,200	300,030	1,233	308,281	1,267	316,759	1,302	325,469
More than 100	946	378,400	972	388,806	999	399,498	1,026	410,484	1,054	421,773
TOTAL	4040	880,280	4,151	904,488	4,265	929,361	4,383	954,919	4,503	981,179

All revenue generated will remain with the Division of Child Development. Corresponding reductions have been made to that division's General Fund appropriation in the budget bill.

SECTION 3.13: PAP SMEAR FEE

This section adds a $7 fee for analyzing clinical Pap smear specimens by the Cancer Cytology Program of the NC State Laboratory of Public Health. This processing fee is in addition to the $7.44 charge for the Pap smear kit already required. This new fee will be charged to the local health departments and other state facilities that utilize the NC State Lab for cytology lab work. This proposal increases receipts by $1,050,000. This revenue estimate is based on a minimum of 150,000 specimens reviewed each year for the next five years. The estimation for lab utilization for cytology work for FY 2003-04 represents a slight decrease from FY 2000-01 (the latest year of data) and remains unchanged for the following years through FY 2007-08, since behavior is unknown of whether local entities will seek their lab work through private labs. While the new fee in conjunction with the cost of the kit is cheaper in most cases for these state facilities and local health departments than private labs, the response time of the private labs may prompt some locals to consider contracting with a private lab in lieu of continuing to utilize the state lab.

All revenue generated will remain with the Division of Public Health. Corresponding reductions have been made to that division's General Fund appropriation in the budget bill.

PART 4: DEPT. OF ENVIRONMENT AND NATURAL RESOURCES FEES

Part IV of the bill relates to the Fort Fisher State Recreation Area. The bill authorizes the Department of Environment and Natural Resources to levy a fee and establish rules related to the use of off-highway vehicle access to the recreation area. According to Department officials, the annual fee would be approximately $40 per year. No information has been provided on offering a daily fee. The fee is expected to generate $36,857. Revenues from this fee flow to the Department of Environment and Natural Resources.

PART 5: DEPARTMENT OF TRANSPORTATION FEES

Section 5.1(a) requires the Department of Transportation to collect tolls on all ferries by July 1, 2004. Currently, three of the State's seven ferries (Cedar Island-Ocracoke, Swan Quarter-Ocracoke, and Southport-Fort Fisher) are toll operations. Four ferries are free (Hatteras-Ocracoke, Bayview-Aurora, Cherry Branch-Minnesott, and Currituck-Knotts Island). DOT estimates that a fee structure for the now free ferries similar to the one currently in place on the other ferries would raise approximately $1,000,000 more per year, after expenses. (A one-year delay is assumed to clear the rule making process). This fee change affects the Highway Fund. No General Fund impact is expected.

PART 6: ADJUST LOCAL GOVERNMENT HOLD HARMLESS

During the 2001 session, the General Assembly agreed to what was termed a "sales tax swap". As a part of this swap, the State portion of the sales tax was increased by ½ cent for the period October 16, 2001 to July 1, 2003. The local units were also granted authority to increase their own sales tax rate by ½ cent, effective July 1, 2003. This additional authority to levy local sales taxes was viewed as a "swap" for the repeal of the state reimbursements to local governments for losses related to several tax repeals. These repeals included the repeal of property taxes on inventories and intangibles, some of the tax loss associated with the homestead exemption, and repeal of the reimbursement for sales taxes that are no longer paid on items purchased with food stamps. The repeal of these reimbursements was to be effective July 1, 2003. The legislation also required that hold harmless payments be made to those local governments whose gain from a half cent local sales tax increase is less than 100% of their loss from the repealed state tax reimbursements. In 2002, the General Assembly chose to move forward the date local units could start levying the additional ½ cent of sales tax by 7 months to December 1, 2002. At the same time, the General Assembly accelerated the repeal of the reimbursements, effective July 1, 2002. No hold harmless payments were made for the 2002-03 fiscal year.

Because of the recent slow down in sales tax revenues, the amount of the calculated hold harmless payments to locals increased over the original estimates. New preliminary estimates created by a model agreed to by the Tax Research Division of the Department of Revenue and Fiscal Research indicate the following hold harmless liability under the current statute:

FY 2003-04	$36.1 million
FY 2004-05	$31.2 million
FY 2005-06	$26.4 million
FY 2006-07	$22.0 million
FY 2007-08	$18.0 million

The bill assumes these payments will be made. The bill makes two additional changes to the hold harmless provision. First, it sunsets the hold harmless payment after 10 years so no hold harmless payments would be made after 2012-13. It also requires that for fiscal years 2003-04 and 2004-05 the hold harmless payment be made by August 15.

PART 7: TEMPORARILY MAINTAIN STATE SALES TAX RATE

As noted in previous sections of this document, in 2001 the General Assembly increased the State portion of the sales tax to 4.5%. Under current law, this increase in the State sales tax will expire July 1, 2003. The bill extends this sunset date by two years to July 1, 2005. Joint estimates provided by Fiscal Research and the Office of State Management and Budget suggest the following revenue stream from this tax extension.

FY 2003-04	$346.5 million
FY 2004-05	$388.2 million
FY 2005-06	$ 26.5 million

Note: While the tax expires June 30, 2005, many retailers will not submit their payments to the Department of Revenue for the month of June until the following fiscal year. Thus, a revenue increase is shown for 2005-06 as well. This timing issue also plays a role in reducing the 2003-04 to the amount above.

PART 8: TEMPORARILY MAINTAIN UPPER INCOME TAX RATE

Section 8.1 of the bill extends the 8.25% tax bracket from January 1, 2004 to January 1, 2006 for taxable incomes that are shown in the chart below.

8.25% for taxable incomes over:	
$200,000	Married filing jointly
$160,000	Head of household
$120,000	Single
$100,000	Married filing separately

The additional revenue from this extension is calculated using the North Carolina Individual Income Tax Model. The model estimates that $83.3 million in individual income tax payments will be generated in Tax Year 2004 and $104.2 million in revenue in Tax Year 2005. This revenue is divided into fiscal years as follows:

FY 2003-04	$37.5 mil.
FY 2004-05	$92.7 mil.
FY 2005-06	$57.3 mil.

FY 2003-04 will receive 45% of Tax Year 2004 revenue because of withholding from January through June 2004 and two quarterly estimated payments. High-income taxpayers avoid a penalty if estimated payments during the tax year equal at least 90% of actual liability. In the FY 2004-05, taxpayers will pay the remaining 55% of the tax due in tax year 2004 and again pay 45% in estimated payments for tax year 2005. FY 2005-06 is equal to the remaining 55% of tax year 2005.

PART 9: REPAIR AND RENOVATION

Last July the Department of State Treasurer prepared an estimate of debt service requirements analysis for a $200 million repairs and renovation security interest financing that would take place in March 2003. We took this schedule and backed the issuance to March 2004. The average interest rate used in the projections was 5.70% and the maturity was 20 years. Based on this analysis the total interest payments would amount to $119.7 million. If the interest payments were added to the $200 million of debt repayment, the total debt service requirements over the period would be $319.7 million. The 5.70% interest rate assumption is very conservative in light of the fact that if the debt were issued today, the interest would be under 5%.

SOURCES OF DATA: February 14, 2003 Memorandum to Governor Easley from Utilities Commission chair Jo Anne Sanford and Executive Director Robert Gruber; Individual Income Tax Model, Tax Research Division of the Department of Revenue, Office of State Budget and Management, and the Treasurer's Debt Service Report.

April 14, 2003

Dear Fellow Republicans:

I write to you out of a growing concern about the State budget.

Those of us who follow state government and care deeply about the future of our state can't help but be concerned that we have lost our Triple-A bond rating with one of the three rating agencies and could easily lose it with the other two.

Not only would this cost us extra money in interest in the years ahead, but it would also have a significant adverse affect in our economic development efforts.

Our law firm represents some forty counties in economic development work, and so we pay a lot of attention to things that help or hurt in the creation of jobs across the state.

Companies that are looking to make a substantial investment always examine the climate in the state - both regulatory and fiscal - and our bond rating is one significant bit of evidence as to how we handle our affairs.

I should say at the outset that in my four terms as a member of the legislature, I never voted for a tax increase, and didn't propose a single tax increase during my four years as Governor. I don't intend to change that philosophy at this point.

Having said this, I want to ask for your thoughtful consideration regarding two points.

First, it seems to me that a limited extension of the sunset on the sales and income taxes is an important part of getting our fiscal situation back in balance and on the right road. Given the hole which we have dug ourselves into, failure to extend the sunset requires either ignoring the Constitution's requirement of a balanced budget (which may have been done for

two or three years now) or making such deep cuts in so many places that serious damage will result. The bond rating agencies will frown on either of these approaches, and it seems to me we tread on really thin ice if we let the sunset stand.

I am not happy about it, but the future well-being of the people of our state will be significantly affected if we don't get our fiscal house in order. Republicans have always tried to be fiscally responsible, and this will follow that tradition.

Frankly, I had to face a similar situation in my third year as Governor. In January of that year, I proposed the repeal of the sales tax on food. Within about two weeks, unemployment figures started to rise, with an accompanying drop in State revenues about six weeks later. Finally, it became apparent that we simply couldn't afford the tax cut at that time, so I withdrew the request from the legislature in order to maintain our fiscal position.

It seems to me that's where we are right now. I suspect some of you feel that a sunset extension would be a "tax increase", but I would submit to you that you are in about the same position that I was in 1975. With the tax on the books right now, it seems to me that allowing it to continue could hardly be called a "tax increase". Rather, what you will be doing is delaying a tax cut until a date that you choose. I think that is a very important distinction, since many of you have done what I used to do - not vote for tax increases. I just don't believe we can afford a tax cut right now.

Having said all of the above, however, I would also encourage you on a second point. I have an increasingly hard time understanding why we keep going beyond the required minimums in the expansion budget when we're in such a deep hole already.

When I say "required minimums", I generally throw in such things as rate increases for utilities; debt service increases; inflation increases (which are incredibly small right now); enrollment increases in the public schools, community colleges, and university; staffing increases for the prison system due to increased prison population; and Medicaid (although I think we've gone beyond what most of our sister states on the east coast have done in the way of benefits and should take a hard look at this).

I realize that the appropriation process in the House is winding to a conclusion, and these thoughts on the expansion budget are too late for consideration in the House

Appropriations Committee. The process is just beginning, however, and these are thoughts for later in the session.

Thanks for all you are doing. It is not an easy time to deal with the budget in Raleigh, but there are also many other important things to which you will attend before you leave town. I wish you well and want you to know I'm always at your disposal if I can be of help.

Sincerely yours,

THE SANFORD HOLSHOUSER LAW FIRM, PLLC

THREE-YEAR EMERGENCY REVENUE PACKAGE

2003 PLAN

North Carolina is facing an extreme budget crisis and budget deficits are projected to continue for several more years. The state cannot afford to resolve this crisis through budget cuts alone, causing long-term irreparable harm to programs and the children they serve. Public officials must raise additional revenue, use existing resources, and close outdated tax loopholes to solve this budget crisis. We support the use of a balanced package of progressive tax options to achieve this goal. This three-year revenue package will get the state beyond this crisis, but it is imperative that officials use this time to restructure the state tax system to meet the growing needs of the state and reflect the realities of the modern economy.

2003 Emergency Revenue Options

Option	ESTIMATED Revenue (millions)
Capture Tobacco Law Suit Settlement[1]	137
Close Tax Preference that Benefits Banks	15
Eliminate Corporate Tax Incentives In Wealthy Counties	17
Expand Sales Tax to Most Services and Lower Overall Tax Rate[2]	350
Reinstate Corporate Income Tax Rate to mid-1990's Levels[3]	97
Raise Cigarette Tax to National Median[4]	393
Adopt Temporary Emergency 10% Surcharge on All Individuals Who Pay Income Tax	750
TOTAL	**$1,799**

[1] Exempt funds going for Senior's Prescription Drug program, Smoking Cessation and Obesity Prevention

[2] Exceptions to taxing services will track the Governor's Commission – health, education, funeral, legal, banking, housing. Could possibly reduce the overall state sales tax rate to less than 3.5% from the current 4.5%.

[3] Reinstate corporate tax to 7.5% from current level of 6.9%. Corporate tax was reduced from 7.5% in 1997.

[4] Current national median cigarette tax is fifty cents per pack, so this would mean a forty-five cents per pack increase. North Carolina's current cigarette tax is five cents per pack, the third lowest in the country.

House Committee on Finance

Minutes

~

April 16, 2003

The House Committee on Finance met on Wednesday, April 16, 2003 at 7:00 pm for an urgent "around the table" meeting in the House Chamber at the desk of Chairwoman Julia Howard. While attendance of the members was limited, a clear quorum was present for the official conduct of committee business. The following members were present: Chairpersons G. Allen, Howard, Luebke, McComas, Miner, and Wainwright; Vice-Chair Alexander; and Representatives Capps, Carney, Hackney, Holliman, Lewis, McCombs, McGee, Rayfield, Ross, and Wood. Bill Freeman was the Sergeant-at-Arms present. Staff persons present included Linda Millsaps and Martha Walston.

Chairwoman Howard called the meeting to order at 7:00 pm and explained to the Committee members the need to hear a highly time sensitive bill sponsored by Representative Rex Baker, HB 222 – MOUNT AIRY ANNEXATION MORATORIUM. Representative Baker was then recognized by the Chair who first moved for adoption of the committee substitute to HB 222 (see attachment 1). The Representative's motion carried without known objection. Representative Baker then explained his bill. He informed the committee members that this bill acted to prohibit the City of Mount Airy from annexing certain property in its surrounding territories for a period of six months. Representative Baker explained that the bill was necessary because the City of Mount Airy was scheduled to involuntarily annex two "country club" areas adjacent to the city's boundaries within the next few days. Representative Baker, who represents the areas facing the annexation and is supported by the other legislators of his delegation on this bill, wants the six months of prohibited annexation to act as a "cooling off" period for the City and these two private communities.

Following this explanation Chairwoman Howard recognized Representative McComas who made the motion for a favorable report on the bill. Committee members, however, posed several questions, before the Chair took action on this motion. Representative Luebke voiced strong concerns that this bill was highly controversial since the City of Mount Airy is highly opposed to the bill's passage. He stated that had he known the controversial nature of this bill and been provided any period of notice, he would have objected to the convening of this urgent meeting in the House Chamber. He also stated that the individuals being affected by this bill, both those from the City of Mount Airy and those from the two private communities, had the right to have this bill heard at a formal meeting where public debate was allowed. Noting that the Committee typically avoids taking positions on local bills with controversy, Representative Luebke requested that the bill be withdrawn from further consideration at the meeting.

Representative Carney, speaking as a past County Commissioner, stated that she could not support a bill that did not allow for the voice of the local governments. In response to this, Representative Baker was quick to note that he was representing his constituents and not the local government.

Representative Holliman noted that he did not feel confident to make such a controversial decision without having additional information on the bill.

Representative Wainwright voiced his concern that the City of Mount Airy was being stripped of its constitutional right to annex areas bordering its corporate limits. He suggested that at least an early morning meeting should be called to invite the officials of the City and the areas facing the annexation to discuss the matter completely. Discussion among the members commenced on this suggestion; however, Representative Baker reiterated the urgency of the bill and his intent to present it to the Senate for passage the following day. Consequently, Chairwoman Howard ruled that time simply did not allow for such a meeting. She noted that a decision on the matter had to be made by the Committee before adjournment.

Seeing no further questions from the members, the Chair requested the vote via roll call and instructed the Clerk to call the vote. With a tally of 7 in the affirmative and 10 in the negative, the motion for a favorable report failed (see attachment 2). Thus, the bill cannot be reported out on the House floor for consideration of passage. Acknowledging the vote of the Committee, Representative Baker thanked the members for their agreement to consider the bill on such short notice and stated that he would inform his constituents of the taken action.

Having no further business at the time, Chairwoman Howard adjourned the meeting at 7:35 pm.

Respectfully submitted,

Representative Julia Howard
Presiding Chair

Jason A. Cannon
Assistant to Committee on Finance

HOUSE BILL 222
PROPOSED COMMITTEE SUBSTITUTE H222-PCS50250-LB-24

Short Title: Mount Airy Annexation Moratorium. (Local)

Sponsors:

Referred to:

March 5, 2003

A BILL TO BE ENTITLED

AN ACT TO PROVIDE A MORATORIUM OF SIX MONTHS ON ANNEXATION OF CERTAIN AREAS BY THE CITY OF MOUNT AIRY.

The General Assembly of North Carolina enacts:

SECTION 1. Between the date this act becomes law and 180 days later, the City of Mount Airy may not adopt any annexation ordinance, resolution of intent, or resolution of consideration under Part 3 of Article 4A of Chapter 160A of the General Statutes as to any area in the Cross Creek or Laurel Forest Areas. Any deadlines under that Part are suspended during that period as to proposed annexation of any of those areas.

SECTION 2. This act is effective when it becomes law.

House Committee on Finance

Minutes

~

April 22, 2003

The House Committee on Finance met on Tuesday, April 22, 2003 at 9:00 am in Room 544 of the Legislative Office Building. The following members were present: Chairpersons G. Allen, Howard, and Luebke; Vice-Chairs Alexander, Decker, Gibson, and Hill; Representatives Blackwood, Bordsen, Capps, Carney, Creech, Glazier, Hackney, Holliman, Jones, McCombs, McGee, Munford, Rayfield, Ross, Weiss, and Womble; and Ex-Officio Committee Member Representative Cunningham. Also present were Sergeant-at-Arms Bob Fowler, Bill Freeman, Matt Myers, and Dusty Rhodes. Staff persons present included Richard Bostic, Trina Griffin, and Martha Walston. The Agenda and Visitor Registration Sheet are attached and incorporated into these minutes as attachments 1 and 2.

Chairman Luebke called the meeting to order at 9:08 am and recognized the four Pages present at the meeting: (1) Austin Branch of Pitt County, sponsored by Representative Tolson; (2) Joy Hawley and (3) Meagan Hawley, both of Harnett County, sponsored by Representative Lewis, and Teresita Whitley of Wake County, sponsored by Representative Ellis.

The Chair next recognized Representative Preston for explanation of HB 774 – BEAUFORT SATELLITE ANNEXATIONS (see attachment 3). Representative Preston first requested that the Committee approve the Committee Substitute for the bill. Representative Womble was recognized by the Chair and made a motion to approve the Committee Substitute. The motion carried without opposition. Representative Preston explained that the bill was being brought at the request of the elected officials of the Town of Beaufort to allow the Town to annex in (voluntarily) businesses just outside of the Town that are in need of the Town's sewer system. The bill would require 3 of the 6 statutory requirements for annexation to be waived in this case. There were several questions from Representative Rayfield to Representative Preston concerning the special nature of this annexation and the necessity of the statutory exemptions. Representative Preston referred to documentation that she had been provided by the Town of Beaufort in her response (see attachment 3). Immediately following that discussion, Representative Rayfield made the motion for a favorable report to the Committee Substitute Bill to HB 774, unfavorable as to the original bill. Chairman Luebke then called the vote and the motion carried without objection.

Chairman Luebke recognized Representative McCombs next for an update on the Finance Subcommittee on Tax and Tags (of which Representative McCombs chairs) as well as to explain his bill, HB 680 – GRANITE QUARRY CHARTER REVISION (see attachment 4). Representative McCombs, with regard to the Subcommittee, informed the Chairman and the Committee members that the tax and tag bills up for consideration would be on the Committee's calendar the following Thursday (April 24, 2003). He then simply explained HB 680 as an act to consolidate the Town of Granite Quarry's charter into one document, providing for the continuance of a five-member board, the mayor-council form of government, and nonpartisan elections. Representative McCombs, seeing that there were no questions, was recognized by the Chair and then, "as a member of the committee," moved for a favorable report on his bill. The Chair called the vote and the motion passed unanimously.

Discussion of SB 122 – VARIOUS SATELLITE ANNEXATIONS (see attachment 5) was the next item addressed by Chairman Luebke, who recognized Representative McHenry (on behalf of the bill sponsor, Senator Hoyle) to explain the bill. Representative McHenry informed the members of the Committee that the bill adds the municipalities of Bladenboro, Gastonia, Locust, Pine Level, and Ranlo to the list of towns that do not have to meet one of the five statutory standards necessary for voluntary satellite annexations. Specifically, the area within the proposed satellite corporate limits, when added to the area within all other satellite corporate limits, may not exceed 10% of the area within the primary corporate limits of the annexing city.

Chairman Luebke recognized Representative Womble who asked Representative McHenry if these annexations would result in any tax increases for the annexed areas. Representative McHenry responded that there were no tax increases to his knowledge. Representative Womble also noted his concern that all of these annexations be completely voluntary and then moved for a favorable report to SB 122.

Prior to action of the motion, however, the Chair recognized Representative Creech who made a request for further details of the cities affected by this bill. Senator McHenry stated that he was not aware of all of the details of the cities involved. Representative Creech then stated that he would confer with Senators Smith and Hoyle prior to the bill reaching the House floor for passage.

Representative Decker was then recognized for a question in regard to the 10% exemption and was informed that it does not currently have a sunset. The Representative also offered an amendment to clarify the bill (see attachment 5) and moved its' adoption, which passed without objection.

Representative Capps was then recognized to ask staff if "voluntary annexation" means that all those involved must agree to the annexation in the proposed areas or it cannot take place. Andy Romanet, Counsel to the League of Municipalities, was present to speak on Representative Capps' question. He informed the Committee that "Yes," any voluntary annexation must have 100% support in order to occur.

Representative Howard was then recognized by the Chair and made the motion to roll Representative Decker's amendment into a committee substitute bill and to offer this Committee Substitute a favorable report. Specifically, Representative Howard's motion acted to give a favorable report to the House Committee Substitute Bill, but an unfavorable report to the Senate Committee Substitute Bill. The Chair called the vote and the motion passed unanimously.

Chairman Luebke then asked Co-Chairwoman Howard to preside over the meeting while he presented SB 482 – DURHAM STREET ANNEXATIONS (on behalf of the bill sponsor, Senator Gulley) (see attachment 6). Chairwoman Howard recognized Representative Luebke to explain the bill. The bill, he explained, is companion to HB 650 and allows the City of Durham to annex roads that are adjacent on both sides to property already within its city limits. The bill acts to alleviate troublesome factors of the current law that fail to include these roads in other contiguous annexations. Following this explanation, Chairwoman Howard recognized Representative Decker who moved for a favorable report. The Chair, seeing no questions from committee members, called the vote and the motion carried by consent.

Having no further business before the Committee, Chairwoman Howard adjourned the meeting at 9:50 am.

Respectfully submitted,

Representative Paul Luebke
Presiding Chair

Jason A. Cannon
Assistant to Committee on Finance

House Committee on Finance

Minutes

~

April 22, 2003

The House Committee on Finance met on Tuesday, April 22, 2003 at 9:00 am in Room 544 of the Legislative Office Building. The following members were present: Chairpersons G. Allen, Howard, and Luebke; Vice-Chairs Alexander, Decker, Gibson, and Hill; Representatives Blackwood, Bordsen, Capps, Carney, Creech, Glazier, Hackney, Holliman, Jones, McCombs, McGee, Munford, Rayfield, Ross, Weiss, and Womble; and Ex-Officio Committee Member Representative Cunningham. Also present were Sergeant-at-Arms Bob Fowler, Bill Freeman, Matt Myers, and Dusty Rhodes. Staff persons present included Richard Bostic, Trina Griffin, and Martha Walston. The Agenda and Visitor Registration Sheet are attached and incorporated into these minutes as attachments 1 and 2.

Chairman Luebke called the meeting to order at 9:08 am and recognized the four Pages present at the meeting: (1) Austin Branch of Pitt County, sponsored by Representative Tolson; (2) Joy Hawley and (3) Meagan Hawley, both of Harnett County, sponsored by Representative Lewis, and Teresita Whitley of Wake County, sponsored by Representative Ellis.

The Chair next recognized Representative Preston for explanation of HB 774 – BEAUFORT SATELLITE ANNEXATIONS (see attachment 3). Representative Preston first requested that the Committee approve the Committee Substitute for the bill. Representative Womble was recognized by the Chair and made a motion to approve the Committee Substitute. The motion carried without opposition. Representative Preston explained that the bill was being brought at the request of the elected officials of the Town of Beaufort to allow the Town to annex in (voluntarily) businesses just outside of the Town that are in need of the Town's sewer system. The bill would require 3 of the 6 statutory requirements for annexation to be waived in this case. There were several questions from Representative Rayfield to Representative Preston concerning the special nature of this annexation and the necessity of the statutory exemptions. Representative Preston referred to documentation that she had been provided by the Town of Beaufort in her response (see attachment 3). Immediately following that discussion, Representative Rayfield made the motion for a favorable report to the Committee Substitute Bill to HB 774, unfavorable as to the original bill. Chairman Luebke then called the vote and the motion carried without objection.

Chairman Luebke recognized Representative McCombs next for an update on the Finance Subcommittee on Tax and Tags (of which Representative McCombs chairs) as well as to explain his bill, HB 680 – GRANITE QUARRY CHARTER REVISION (see attachment 4). Representative McCombs, with regard to the Subcommittee, informed the Chairman and the Committee members that the tax and tag bills up for consideration would be on the Committee's calendar the following Thursday (April 24, 2003). He then simply explained HB 680 as an act to consolidate the Town of Granite Quarry's charter into one document, providing for the continuance of a five-member board, the mayor-council form of government, and nonpartisan elections. Representative McCombs, seeing that there were no questions, was recognized by the Chair and then, "as a member of the committee," moved for a favorable report on his bill. The Chair called the vote and the motion passed unanimously.

Discussion of SB 122 – VARIOUS SATELLITE ANNEXATIONS (see attachment 5) was the next item addressed by Chairman Luebke, who recognized Representative McHenry (on behalf of the bill sponsor, Senator Hoyle) to explain the bill. Representative McHenry informed the members of the Committee that the bill adds the municipalities of Bladenboro, Gastonia, Locust, Pine Level, and Ranlo to the list of towns that do not have to meet one of the five statutory standards necessary for voluntary satellite annexations. Specifically, the area within the proposed satellite corporate limits, when added to the area within all other satellite corporate limits, may not exceed 10% of the area within the primary corporate limits of the annexing city.

Chairman Luebke recognized Representative Womble who asked Representative McHenry if these annexations would result in any tax increases for the annexed areas. Representative McHenry responded that there were no tax increases to his knowledge. Representative Womble also noted his concern that all of these annexations be completely voluntary and then moved for a favorable report to SB 122.

Prior to action of the motion, however, the Chair recognized Representative Creech who made a request for further details of the cities affected by this bill. Senator McHenry stated that he was not aware of all of the details of the cities involved. Representative Creech then stated that he would confer with Senators Smith and Hoyle prior to the bill reaching the House floor for passage.

Representative Decker was then recognized for a question in regard to the 10% exemption and was informed that it does not currently have a sunset. The Representative also offered an amendment to clarify the bill (see attachment 5) and moved its' adoption, which passed without objection.

Representative Capps was then recognized to ask staff if "voluntary annexation" means that all those involved must agree to the annexation in the proposed areas or it cannot take place. Andy Romanet, Counsel to the League of Municipalities, was present to speak on Representative Capps' question. He informed the Committee that "Yes," any voluntary annexation must have 100% support in order to occur.

Representative Howard was then recognized by the Chair and made the motion to roll Representative Decker's amendment into a committee substitute bill and to offer this Committee Substitute a favorable report. Specifically, Representative Howard's motion acted to give a favorable report to the House Committee Substitute Bill, but an unfavorable report to the Senate Committee Substitute Bill. The Chair called the vote and the motion passed unanimously.

Chairman Luebke then asked Co-Chairwoman Howard to preside over the meeting while he presented SB 482 – DURHAM STREET ANNEXATIONS (on behalf of the bill sponsor, Senator Gulley) (see attachment 6). Chairwoman Howard recognized Representative Luebke to explain the bill. The bill, he explained, is companion to HB 650 and allows the City of Durham to annex roads that are adjacent on both sides to property already within its city limits. The bill acts to alleviate troublesome factors of the current law that fail to include these roads in other contiguous annexations. Following this explanation, Chairwoman Howard recognized Representative Decker who moved for a favorable report. The Chair, seeing no questions from committee members, called the vote and the motion carried by consent.

Having no further business before the Committee, Chairwoman Howard adjourned the meeting at 9:50 am.

Respectfully submitted,

Representative Paul Luebke

HOUSE BILL 774
PROPOSED COMMITTEE SUBSTITUTE H774-PCS80273-SVx-5

Short Title: Beaufort Satellite Annexations. (Local)

Sponsors:

Referred to:

March 27, 2003

A BILL TO BE ENTITLED

AN ACT CONCERNING SATELLITE ANNEXATIONS BY THE TOWN OF BEAUFORT.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 160A-58.1(b) reads as rewritten:

"(b) A noncontiguous area proposed for annexation must meet all of the following standards:

~~(1) The nearest point on the proposed satellite corporate limits must be not more than three miles from the primary corporate limits of the annexing city.~~

~~(2) No point on the proposed satellite corporate limits may be closer to the primary corporate limits of another city than to the primary corporate limits of the annexing city, except as set forth in subsection (b2) of this section.~~

(3) The area must be so situated that the annexing city will be able to provide the same services within the proposed satellite corporate limits that it provides within its primary corporate limits.

(4) If the area proposed for annexation, or any portion thereof, is a subdivision as defined in G.S. 160A-376, all of the subdivision must be included.

~~(5) The area within the proposed satellite corporate limits, when added to the area within all other satellite corporate limits, may not exceed ten percent (10%) of the area within the primary corporate limits of the annexing city.~~

~~This subdivision does not apply to the Cities of Claremont, Concord, Conover, Newton, Sanford, Salisbury, and Southport, and the Towns of Catawba, Maiden, Midland, Swansboro, and Warsaw.~~

(6) The area must be east of a line that runs from the confluence of Taylor's Creek and Gallant's Channel northwardly with Gallant's Channel to Town Creek, then northwestwardly from Town Creek to the Intracoastal Waterway in Newport River, then northwardly with the Intracoastal Waterway to a point where an extension of SR 1162 would intersect the Waterway of the Intracoastal Waterway, and Beaufort municipal sewer must be available within the area."

SECTION 2. Nothing in this act shall be construed to limit or be limited by any provisions of Chapter 432 of the 1997 Session Laws or any other existing laws or ordinances.

SECTION 3. This act applies to the Town of Beaufort only.

SECTION 4. This act is effective when it becomes law.

HOUSE BILL 774:
Beaufort Satellite Annexations

BILL ANALYSIS

Committee:	House Finance	**Introduced by:**	Rep. Preston
Date:	April 22, 2003	**Summary by:**	Trina Griffin
Version:	1st Edition		Committee Counsel

SUMMARY: ***House Bill 774 allows the Town of Beaufort to annex satellite areas without meeting three of the five standards required for voluntary satellite annexation. However, it adds the following requirements:***

- ***The area being annexed must be east of a specifically described area; and***
- ***Beaufort municipal sewer must be available within the area.***

CURRENT LAW: G.S. 160A-58.1 governs the voluntary annexation by a municipality of noncontiguous property. All property owners in the satellite area[1] may petition for voluntary annexation of the noncontiguous property if the property meets the following five standards in G.S. 160A-58.1(b):

1. The nearest point on the proposed satellite corporate limits must be not more than three miles from the primary corporate limits of the annexing city.
2. No point on the proposed satellite corporate limits may be closer to the primary corporate limits of another city than to the primary corporate limits of the annexing city.
3. The area must be so situated that the annexing city will be able to provide the same services within the proposed satellite corporate limits that it provides within its primary corporate limits.
4. If the area proposed for annexation, or any portion thereof, is a subdivision as defined in G.S. 160A-376, all of the subdivision must be included.
5. The area within the proposed satellite corporate limits, when added to the area within all other satellite corporate limits, may not exceed 10% of the area within the primary corporate limits of the annexing city.

BILL ANALYSIS: House Bill 774 authorizes the Town of Beaufort to annex satellite areas without having to meet three of the five statutory requirements in G.S. 160A-58.1, which are as follows:

- The nearest point on the proposed satellite corporate limits must be not more than three miles from the primary corporate limits of the annexing city.
- No point on the proposed satellite corporate limits may be closer to the primary corporate limits of another city than to the primary corporate limits of the annexing city.
- The area within the proposed satellite corporate limits, when added to the area within all other satellite corporate limits, may not exceed 10% of the area within the primary corporate limits of the annexing city.

However, the bill adds the following requirements:

- The area must be east of a line that runs from the confluence of Taylor's Creek and Gallant's Channel northwardly with Gallant's Channel to Town Creek, then northwestwardly from Town Creek to the Intracoastal Waterway in Newport River, then northwardly with the Intracoastal Waterway to a point where an extension of SR 1162 would intersect the Waterway of the Intracoastal Waterway; and
- Beaufort municipal sewer must be available within the area.

The bill becomes effective when it becomes law.

[1] G.S. 160A-58.4 provides that satellite corporate limits cannot be considered a part of a municipality's corporate limits for purposes of its ETJ. Therefore, satellite annexations have no effect upon a municipality's ETJ.

VIA FACSIMILE (919) 715-5815

Representative Jean Preston
N.C. House of Representatives
Raleigh, NC 27601-1096

RE: **House Bill 774**

Dear Representative Preston:

Here are the answers to the four questions you raised regarding the above.

1. The main purpose is to allow Beaufort to annex, by voluntary satellite annexation, properties that apply for connection to Beaufort municipal sewer that are located more than three miles from our primary city limits. Satellite annexation by statute is voluntary. Our sewer lines down Highways 101 and 70 extend approximately five miles. We have received a request for sewer connection from several projects that are more than three miles from the city limits. The Board of Commissioners now believes that if municipal sewer is provided, an option for the Town needs to be annexation. The projects that are already connected to sewer more than three miles from our city limits, such as Jarrett Bay and Parker Boats, are not proposed for annexation but if they request annexation in the future HB 774 would allow the annexation. There is a separate annexation bill for the Taylor Farm Subdivision that was adopted by the General Assembly in the late 1990's. Our current request is not related to Taylor Farms.

2. HB 774 relates to satellite annexation only. Satellite annexation by General Statute is limited to voluntary annexation. The Board of Commissioners is aware of this and cannot and will not use HB 774 for involuntary annexation.

3. Eastman's Creek has applied for both sewer service and voluntary annexation. The project is more than three miles from our city limits; therefore the Town cannot annex the project without HB 774 or some similar legislation. None of the other projects referenced in question number 3 have approached Beaufort about annexation.

Mayor Thomas L. Steepy
Commissioner Julian Arrington Commissioner Faye M. Nelson Commissioner Nancy Russell
Commissioner Math Chaplain Commissioner Charles McDonald
Town Manager Terri Parker-Eakes

and there have been no discussions about annexing these projects. Under the satellite annexation Statutes, they could not be annexed unless they petition for voluntary annexation.

4. HB 774 will have no effect on the jurisdictional control of Michael J. Smith Air Field. Part of the airport is currently within the city limits of Beaufort and the remainder is within the Town's extraterritorial zoning jurisdiction. It is my understanding that the Airport Authority can preempt Town zoning under the State Statutes.

If you need additional explanation, please call or email.

Sincerely,

Terri Parker-Eakes

Terri Parker-Eakes
Town Manager

RESOLUTION REQUESTING THE NORTH CAROLINA GENERAL ASSEMBLY ADOPT A SPECIAL BILL AUTHORIZING VOLUNTARY SATELLITE ANNEXATION BY THE TOWN OF BEAUFORT OF PROPERTIES RECEIVING MUNICIPAL SEWER

WHEREAS, sewer mains connected to the Beaufort municipal sewer system extend northwardly from the city limits along Highway 101 and Highway 70 more than three miles from the primary city limits; and

WHEREAS, property owners in the vicinity of such sewer lines request, from time to time, to be allowed to connect to such sewer lines; and

WHEREAS, under existing Town policy, applicants for connection apply for annexation, but when properties are more than three miles from the city limits, the Town has no authority to annex; and

WHEREAS, Beaufort would like the option of annexing properties that connect to its municipal sewer system upon the voluntary application for satellite annexation by such owners.

NOW, THEREFORE BE IT RESOLVED by the Board of Commissioners of the Town of Beaufort that the North Carolina General Assembly be asked to enact a special bill that will give the Town the authority to satellite annex properties in the vicinity of the Highway 101 and Highway 70 corridors into the city limits when the owners of such properties apply for annexation and when such properties will be served with Beaufort municipal sewer, notwithstanding that such properties do not meet the current statutory requirements for satellite annexation. The attached draft of the proposed bill, and any reasonable modifications thereof, is approved by the Board of Commissioners.

Enacted this 31st day of March, 2003.

03/19/03

GENERAL ASSEMBLY OF NORTH CAROLINA
SESSION 2003

HOUSE BILL 680

Short Title:	Granite Quarry Charter Revision.	(Local)
Sponsors:	Representative McCombs.	
Referred to:	Local Government I.	

March 26, 2003

A BILL TO BE ENTITLED

AN ACT TO REVISE AND CONSOLIDATE THE CHARTER OF THE TOWN OF GRANITE QUARRY.

The General Assembly of North Carolina enacts:

SECTION 1. The Charter of the Town of Granite Quarry is revised and consolidated to read:

"CHARTER OF THE TOWN OF GRANITE QUARRY.

"CHAPTER I.

"INCORPORATION AND CORPORATE POWERS.

"Section 1-1. **Incorporation and Corporate Powers.** The inhabitants of the Town of Granite Quarry are a body corporate and politic under the name "Town of Granite Quarry". Under that name they have all the powers, duties, rights, privileges, and immunities conferred and imposed on cities by the general law of North Carolina.

"CHAPTER II.

"CORPORATE BOUNDARIES.

"Section 2-1. **Town Boundaries.** Until modified in accordance with law, the boundaries of the Town of Granite Quarry are as shown upon the official map showing the current town boundaries retained in the office of the Town Clerk.

"CHAPTER III.

"GOVERNING BODY.

"Section 3-1. **Structure of Governing Body; Number of Members.** The governing body of the Town of Granite Quarry is the Board of Aldermen, which has five members.

"Section 3-2. **Manner of Electing Board.** The qualified voters of the entire Town elect the members of the Board.

"Section 3-3. **Terms of Office of Board Members.** Members of the Board are elected to four-year terms. In 2003, and each four years thereafter, three members of the Board shall be elected. In 2005, and each four years thereafter, two members of the Board shall be elected.

"Section 3-4. **Election of Mayor; Term of Office.** At the organizational meeting of the Board following each election, the Board shall elect one of its members to serve as Mayor and one to serve as Mayor Pro Tempore. The Mayor and Mayor Pro Tempore shall serve at the pleasure of the Board.

"Section 3-5. **Mayor to Vote in Case of Tie Vote Only.** The Mayor shall not vote on any matter before the Board, except when there exists a tie vote among the other members of the Board.

"CHAPTER IV.

"ELECTIONS.

"Section 4-1. **Conduct of Town Elections.** Town officers shall be elected on a nonpartisan basis and the results determined by a plurality as provided in G.S. 163-292.

"CHAPTER V.

"ADMINISTRATION.

"Section 5-1. **Town to Operate Under Mayor-Council Plan.** The Town of Granite Quarry operates under the mayor-council plan as provided in Part 3 of Article 7 of Chapter 160A of the General Statutes."

SECTION 2. The purpose of this act is to revise the Charter of the Town of Granite Quarry and to consolidate herein certain acts concerning the property, affairs, and government of the Town.

SECTION 3. The following acts or portions of acts, having served the purposes for which they were enacted, or having been consolidated into this act, are hereby repealed:

Chapter 259, Private Laws of 1901
Chapter 43, Private Laws of 1905
Chapter 667, Session Laws of 1949
Chapter 14, Session Laws of 1957
Chapter 76, Session Laws of 1959.

SECTION 4. No provision of this act is intended, nor shall be construed, to affect in any way any rights or interests (whether public or private):

(1) Now vested or accrued, in whole or in part, the validity of which might be sustained or preserved by reference to any provisions of law repealed by this act.

(2) Derived from, or which might be sustained or preserved in reliance upon, action heretofore taken pursuant to or within the scope of any provisions of law repealed by this act.

SECTION 5. No law heretofore repealed expressly or by implication, and no law granting authority which has been exhausted, shall be revived by:

(1) The repeal herein of any act repealing such law, or

(2) Any provision of this act that disclaims an intention to repeal or affect enumerated or designated laws.

SECTION 6. All existing ordinances and resolutions of the Town of Granite Quarry and all existing rules or regulations of departments or agencies of the Town of Granite Quarry not inconsistent with the provisions of this act shall continue in full force and effect until repealed, modified, or amended.

SECTION 7. No action or proceeding of any nature (whether civil or criminal, judicial or administrative, or otherwise) pending at the effective date of this act by or against the Town of Granite Quarry or any of its departments or agencies shall be abated or otherwise affected by the adoption of this act.

SECTION 8. If any part of this act or the application thereof to any person or circumstance is held to be invalid, such invalidity shall not affect other provisions or applications of this act which can be given effect without the invalid provision or application, and to this end the provisions of this act are declared to be severable.

SECTION 9. Whenever a reference is made in this act to a particular provision of the General Statutes and such provision is later amended, repealed, or superceded, the reference shall be deemed amended to refer to the amended General Statute or to the General Statute which most nearly corresponds to the statutory provision which is repealed or superceded.

SECTION 10. This act is effective when it becomes law.

HOUSE BILL 680:
Granite Quarry Charter Revision

BILL ANALYSIS

Committee:	House Finance	**Introduced by:**	Rep. McCombs
Date:	April 22, 2003	**Summary by:**	Trina Griffin*
Version:	1st Edition		Committee Counsel

SUMMARY: ***House Bill 680 revises and consolidates the charter of the Town of Granite Quarry. This bill received a favorable report in House Local Government I. The bill would become effective when it becomes law.***

CURRENT LAW: The charter of the Town of Granite Quarry has not been previously revised and consolidated. The Town was incorporated in 1901 under the name of Woodside. The name was changed to Granite Quarry in 1905. The last changes that were made to the charter were in 1957 and 1959, when the present primary and general election schedule were established.

BILL ANALYSIS: House Bill 680 brings together the pieces of the charter into one document, providing for the continuance of five board members, the mayor-council form of government, and non-partisan elections.

*Erika Churchill, counsel for House Local Government I, substantially contributed to this summary.

A BILL TO BE ENTITLED

AN ACT CONCERNING VOLUNTARY SATELLITE ANNEXATION BY THE CITIES OF GASTONIA AND LOCUST AND THE TOWNS OF BLADENBORO, PINE LEVEL, AND RANLO.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 160A-58.1(b) reads as rewritten:

"(b) A noncontiguous area proposed for annexation must meet all of the following standards:

(1) The nearest point on the proposed satellite corporate limits must be not more than three miles from the primary corporate limits of the annexing city.

(2) No point on the proposed satellite corporate limits may be closer to the primary corporate limits of another city than to the primary corporate limits of the annexing city, except as set forth in subsection (b2) of this section.

(3) The area must be so situated that the annexing city will be able to provide the same services within the proposed satellite corporate limits that it provides within its primary corporate limits.

(4) If the area proposed for annexation, or any portion thereof, is a subdivision as defined in G.S. 160A-376, all of the subdivision must be included.

(5) The area within the proposed satellite corporate limits, when added to the area within all other satellite corporate limits, may not exceed ten percent (10%) of the area within the primary corporate limits of the annexing city.

Subdivision (5) of this subsection does not apply to the Cities of Claremont, Concord, Conover, Gastonia, Locust, Newton, Sanford, Salisbury, and Southport, and the Towns of Bladenboro, Catawba, Maiden, Midland, Pine Level, Ranlo, Swansboro, and Warsaw."

SENATE BILL 122:
Various Satellite Annexations

BILL ANALYSIS

Committee:	House Finance	**Introduced by:**	Sen. Hoyle
Date:	April 22, 2003	**Summary by:**	Trina Griffin*
Version:	3rd Edition		Committee Counsel

SUMMARY: ***Senate Bill 122 adds Bladenboro, Gastonia, Locust, Pine Level, and Ranlo to the list of cities and towns that do not have to meet one of the five statutory standards required for voluntary satellite annexation in G.S. 160A-58.1(b). These cities and towns would not have to meet the standard that limits the size of the area within the satellite corporate limits. The act would become effective when it becomes law.***

CURRENT LAW: G.S. 160A-58.1 governs the voluntary annexation by a municipality of noncontiguous property. All property owners in the satellite area[1] may petition for voluntary annexation of the noncontiguous property if the property meets the following five standards in G.S. 160A-58.1(b):

1. The nearest point on the proposed satellite corporate limits must be not more than three miles from the primary corporate limits of the annexing city.
2. No point on the proposed satellite corporate limits may be closer to the primary corporate limits of another city than to the primary corporate limits of the annexing city.
3. The area must be so situated that the annexing city will be able to provide the same services within the proposed satellite corporate limits that it provides within its primary corporate limits.
4. If the area proposed for annexation, or any portion thereof, is a subdivision as defined in G.S. 160A-376, all of the subdivision must be included.
5. **The area within the proposed satellite corporate limits, when added to the area within all other satellite corporate limits, may not exceed 10% of the area within the primary corporate limits of the annexing city.**

BILL ANALYSIS: Senate Bill 122 amends G.S. 160A-58.1(b) by adding the Cities of Gastonia and Locust and the Towns of Bladenboro, Pine Level and Ranlo to the list of cities and towns[2] that do not have to meet the 5th statutory standard required for voluntary satellite annexation. This means that the noncontiguous property to be annexed does not have to be within the statutory size limit.

*Cindy Avrette, counsel for Senate Finance, substantially contributed to this summary.

[1] G.S. 160A-58.4 provides that satellite corporate limits cannot be considered a part of a municipality's corporate limits for purposes of its ETJ. Therefore, satellite annexations have no effect upon a municipality's ETJ.

[2] G.S. 160A-58.1(b)(5) does not apply to the following cities and towns: Calabash, Catawba, Claremont, Concord, Conover, Dallas, Godwin, Hickory, Kenly, Louisburg, Maiden, Marion, Midland, Mocksville, Mooresville, Mount Airy, Newton, Oxford, Pembroke, Rockingham, Rutherfordton, Salisbury, Sanford, Southport, Statesville, Swansboro, Waynesville, and Warsaw. Several other cities and towns have had this provision modified.

GENERAL ASSEMBLY OF NORTH CAROLINA
SESSION 2003

S 2

SENATE BILL 482
Second Edition Engrossed 4/10/03

Short Title:	Durham Street Annexations.	(Local)
Sponsors:	Senator Gulley.	
Referred to:	Finance.	

March 20, 2003

A BILL TO BE ENTITLED

AN ACT TO AUTHORIZE THE CITY OF DURHAM TO ANNEX ROADS THAT ARE ADJACENT ON BOTH SIDES TO PROPERTY ALREADY WITHIN THE CITY LIMITS.

The General Assembly of North Carolina enacts:

SECTION 1. The Charter of the City of Durham, being Chapter 671 of the 1975 Session Laws, as amended, is further amended by adding a new section to read:

"**Sec. 2.5A. Annexation of Streets Adjacent to City Limits.**

In addition to its authority to annex streets under this Charter and under general law, the City may annex the portions of public or private streets that are directly contiguous on two opposing sides to property that is within the City limits. When the City proposes to annex a street under this authority and the annexation is of the street alone, and no other property, the City may accomplish the annexation using the procedure described in this section. The City Council shall pass a resolution describing the street area to be annexed, and setting a date for a public hearing. Notice and a public hearing as required under Parts 1 and 4 of Article 4A of Chapter 160A of the General Statutes shall be provided. Upon compliance with these requirements, the City Council may pass an ordinance annexing the described area, and no other requirements shall apply. The time period for appeal of the annexation shall be as provided in Section 2.6 of this Charter."

SECTION 2. This act is effective when it becomes law.

SENATE BILL 482:
Durham Street Annexations

BILL ANALYSIS

Committee:	House Finance	**Introduced by:**	Sen. Gulley
Date:	April 22, 2003	**Summary by:**	Martha Walston
Version:	2nd Edition		Committee Counsel*

SUMMARY: ***Senate Bill 482 is a local bill that authorizes the City of Durham to annex roads that are adjacent on both sides to property already within its city limits. The bill would become effective when it becomes law. The 2nd Edition makes a technical change to the original bill. It changes a section cite from "Sec. 2.6" to "Sec. 2.5A", because the Durham City Charter already contains a Section 2.6. (S.L. 1997-452, s. 5)***

House Bill 650 is a companion bill and also is in House Finance.

BILL ANALYSIS: In Durham, there have been instances where developers have petitioned the City to annex property into its corporate limits. In some cases, the petitions have inadvertently failed to include the portion of the street adjacent to the property. This situation has created holes within the contiguous city limits that are not included within the city. Senate Bill 482 authorizes Durham to annex the portions of streets that are fully contiguous on both sides to the City limits, following notice and a public hearing. Without this legislation, the city would have to begin the formal process of involuntary annexation of the streets or it would have to ask the property owners to petition the city to have the streets annexed. The process provided by this bill allows the municipality to annex the streets in a less cumbersome manner.

CURRENT LAW: A municipality may include within areas to be annexed the streets in that area. Also, property owners may petition a municipality to annex their property within the municipality's corporate limits and included within that property description may be streets. The situation addressed by this bill is where the property described in a voluntary annexation inadvertently failed to include the streets.

Senate Bill 482 provides that notice must be given and a public hearing must be held in accordance with the notice and public hearing requirements for voluntary annexations. Under those requirements, the governing board of the municipality sets the date for a public hearing. Notice of the public hearing must be published once in a newspaper having general circulation in the municipality at least 10 days prior to the date of the public hearing. If there is no such newspaper, then notice of the public hearing must be posted in three or more places within the area to be annexed and within the municipality at large.

The Durham City Charter provides that any judicial action contesting the validity of a voluntary annexation must be filed within 30 days after the adoption of the annexation ordinance. Senate Bill 482 allows for this same appeals process for the annexation of streets adjacent to its city limits.

*Cindy Avrette, counsel to Senate Finance, contributed substantially to this summary.

House Committee on Finance

Minutes

~

April 24, 2003

The House Committee on Finance met on Thursday, April 24, 2003 at 8:30 am in Room 544 of the Legislative Office Building. The following members were present: Chairpersons G. Allen, Howard, Luebke, McComas, and Wainwright; Vice-Chairs Alexander, Decker, Gibson, and Hill; and Representatives Bordsen, Carney, Creech, Glazier, Hackney, Holliman, Jones, McCombs, Rayfield, Ross, Weiss, and Womble. Also present were Sergeant-at-Arms Bob Fowler, Bill Freeman, Dusty Rhodes, and Jackson Stencil. Staff persons present included Richard Bostic, Trina Griffin, and Martha Walston. The Agenda and Visitor Registration Sheet are attached and incorporated into these minutes as attachments 1 and 2.

Chairman McComas called the meeting to order at 8:31 am and recognized the two Pages present at the meeting: (1) Summer Green of Mecklenburg County, sponsored by Representative C. Wilson; and (2) Brittany Matthews of Harnett County, sponsored by Representative Lewis.

The Chair next recognized Representative Hill to explain HB 742 – CAROLINA SHORES CHARTER (see attachment 3). First, however, a technical amendment was necessary (as attached) and was offered by Representative Howard, who also moved for the amendment's adoption. The Committee adopted the amendment unanimously. Representative Hill then noted that this bill makes a number of changes to the Charter of the Town of Carolina Shores, pending the annexation of certain property to its corporate limits prior to August 1, 2003. Representative Wainwright then made a motion to roll the amendment to the bill into a Proposed Committee Substitute, and then moved for a favorable report. Seeing no questions, Chairman McComas called the vote and the motion passed without opposition. HB 742 will be reported as favorable to the committee substitute bill, unfavorable to the original bill.

Chairman McComas next recognized Representative Gibson (on behalf of the bill sponsor, Representative Glazier) to explain HB 959 – STUDY TAX PREFERENCES (see attachment 4). This bill acts to require the Revenue Laws Study Commission to conduct a review of each tax expenditure at least once every ten years to determine if the expenditure is equitable and efficient. The Chair recognized Representative Weiss, who offered an amendment to the bill, changing the required period of review from 10 years to 5 years. The Chair then recognized Representative Womble who stated his agreement to the amendment and moved for its' adoption. The amendment was adopted without objection. Having no other questions from the members, Chairman McComas recognized Representative Howard who requested that the adopted amendment be rolled into a proposed committee substitute bill. She then moved that the Committee offer a favorable report as to the committee substitute bill, unfavorable as to the original bill. Upon the Chair's call, the motion carried by consent.

HB 855 – VARIOUS SPECIAL REGISTRATION PLATES (see attachment 5) was the next bill to be considered. The Chairman recognized Representative Howard who moved that the Proposed Committee Substitute to HB 855 be adopted by the Committee for discussion. The

motion was approved without objection. The Chair then recognized Representative McCombs, Chair of the Finance Subcommittee on Tax and Tags, to explain the bill. Representative McCombs thanked the other members of the Subcommittee (Representatives Decker and Womble) and staff (Martha Walston and Jason Cannon) for all of their good work on the bill. He explained that this committee substitute bill rolls some seven (7) license plate bills into one, and includes license plates for the following groups/organizations: Breast Cancer Awareness, Blue Ridge Parkway Foundation, Surveyors, Retired Law Enforcement Officers, and Mothers Against Drunk Driving. Commissioner of the Division of Motor Vehicles, Carol Howard, was present and spoke briefly on the bill, acknowledging that she had no problems with creating any of the plates in HB 855. She did note concern on the issuance of NASCAR Racing plates, a separate bill not up for consideration at this meeting. Following this, Chairman McComas recognized Representative Wainwright, who thanked Representative McCombs and the Subcommittee for its thorough work on this bill and immediately moved for a favorable report. Representative Creech, however, upon recognition of the Chair, expressed his contention that the number of specialized license plates is "getting out of hand" and that the fees for this state service have not been increased in over 20 years. Chairman McComas then called the vote, and the motion carried with one member, Representative Creech, voicing opposition.

Representative Preston was recognized by the Chairman to explain the final bill on the meeting's agenda: SB 295 – SPECIAL REGISTRATION PLATES (see attachment 6). The Chair first, however, recognized Representative G. Allen who moved the adoption of the Proposed Committee Substitute to SB 295, which carried without objection. Representative Preston then explained that this bill too was one for specialized vehicle plates, and provided for two separate groups: Professional Paramedics and the North Carolina Coastal Federation. The Finance Subcommittee on Tax and Tags also favorably reviewed the bill. Following this explanation, Chairman McComas recognized Representative Creech for a question. He asked Representative Preston if local law enforcement were in favor of all of these license plate bills. Representative Preston responded that she had heard from no law enforcement officials in her district and noted that if law enforcement were significantly concerned, it would be present to express its position. The Chair then recognized Representative Ross, who moved for a favorable report as to the committee substitute bill, unfavorable as to the original bill. Allowing for brief comments from the audience, Mr. Jim Stevenson with the North Carolina Coastal Federation voiced his firm support of the bill. Seeing no further discussion, Chairman McComas called the vote and the motion carried, with Representative Creech again standing as the sole member in opposition.

Having no further business before the Committee, the Chair adjourned the meeting at 9:04 am.

Respectfully submitted,

Representative Danny McComas
Presiding Chair

Jason A. Cannon
Assistant to Committee on Finance

GENERAL ASSEMBLY OF NORTH CAROLINA
SESSION 2003

H D

HOUSE BILL 742*
PROPOSED COMMITTEE SUBSTITUTE H742-PCS60305-LA-10

Short Title: Carolina Shores Charter. (Local)

Sponsors:

Referred to:

March 27, 2003

A BILL TO BE ENTITLED

AN ACT TO IMPLEMENT A PROPOSED ANNEXATION OF THE TOWN OF CAROLINA SHORES.

The General Assembly of North Carolina enacts:

SECTION 1. Section 3.2 of the Charter of the Town of Carolina Shores, as enacted by Section 2 of S.L. 1998-75, reads as rewritten:

"Sec. 3.2. **Manner of Electing Board.** The qualified voters of the entire Town elect all of the members of the Board of Commissioners. The Town is divided into two districts, District 1 consisting of the territory annexed as described in Section 5 of this act; District 2 consists of the remainder of the Town. One member shall be a resident of District 1, two members shall be residents of District 2, and the remaining members may live anywhere within the corporate limits. District 1 and District 2 shall be elected separately on the ballot.

SECTION 2. Section 3.3(b) of the Charter of the Town of Carolina Shores, as enacted by Section 2 of S.L. 1998-75, reads as rewritten:

"(b) In 1999 five members of the Board of Commissioners are elected. The three persons receiving the highest numbers of votes are elected to four-year terms and the two persons receiving the next highest numbers of votes are elected to two-year terms. In 2001 and quadrennially thereafter, two members of the council are elected to four-year ~~terms.~~ terms at large. In 2003 and quadrennially thereafter, three members of the council are elected to four-year ~~terms.~~ terms, one a resident of District 1 and two who are residents of District 2."

SECTION 3. From July 1, 2003, until the organizational meeting after the 2003 regular municipal election, the Board of Commissioners is expanded from five members to six members. The Board of Commissioners shall appoint a person who resides in the territory annexed as described in Section 5 of this act to fill that seat.

SECTION 3.1. Of the funds received by the Town of Carolina Shores under G.S. 136-41.1 through G.S. 136-41.3 for the 10 fiscal years beginning on or after July 1,

2003, the Town must expend in District 1 all of the funds received on account of the population and road mileage in that District.

SECTION 4. Of the funds received by the Town of Carolina Shores from local option sales taxes for the 10 fiscal years beginning on or after July 1, 2003, the Town must expend in District 1 all of the funds received on account of the population or assessed valuation in that District (depending on the formula used by Brunswick County to distribute such revenues to the municipalities in that county).

SECTION 5. Sections 1 through 4 of this act become effective only if the Town of Carolina Shores annexes any or all of the following property under Part 2 of Article 4A of Chapter 160A of the General Statutes prior to August 1, 2003:

BEGINNING at a fixed point of southerly side of the intersection of the right-of-way of Clubview Lane and the easterly side of the right-of-way of State Road 1165 then S06°09'45W 200.0 feet, then S06°24'06W for 185.0 feet, then S 14°22'08 for 133.05 feet then S31°37'12 for 125.0 feet, then S42°37'12W for 884.77 to a fixed point. Then, turning westerly along a utility easement and along the westerly boundary for the Town of Carolina Shores, N25°36'51W for 1369.78 feet, then N25°36'51W for 1491.07 feet, then N25°34'45W 352.46', then N25°29'27 feet for 2444.56 feet. Then N64°30'38 for 120.58 feet, the northerly along the westerly right-of-way of Watson Ave. N25°29'22W for 7.10 feet then N09°59'30 along a chord of 383.14 feet. Then along the Southerly boundary of the utility easement S77°24'38E for 721.50 feet to the westerly edge of a water body known as Lake D. Then along the lake edge N03°33'56E for 42.98 feet, N03°46'23E for 47.50 feet, then N06°12'39E for 28.37 feet, then N32°08'35E for 25.69 feet, then N14°59'37E, then N00°22'22E for 41.11 feet, then N21°33'30E for 21.17 feet, then N17°36'53E for 28.05 feet, then N29°09'08W for 17.25 feet then S78°32'11W for 19.05 feet and S43°47'28W 21.94 feet to the edge of the pond and the rear property line of lot 283. Then S77°24'38E 312.48 feet and then 185.00 feet, then S12°35'22W 183.16 feet, then S77°24'38 for 914.06 feet along a utility and drainage easement, then continuing along the easement S12°35'22W for 724.87 feet. Then S36°10'40E for 161.38 feet, then S48°17'03E for 11245.30 feet, then S87°46'05E for 153.78 feet, then S38°25'40E for 505.54 feet, then S33°42'50E for 168.96 feet then S22°30'50 for 199.35 feet then S64°59'73W for 901.96 feet along a drainage easement. Then N23°26'21 for 482.18 feet, then N66°33'39E for 185.40 feet then N06°09'45E for 716 feet back to the point of beginning.

SECTION 6. This act is effective when it becomes law.

March 27, 2003

A BILL TO BE ENTITLED

AN ACT TO IMPLEMENT A PROPOSED ANNEXATION OF THE TOWN OF CAROLINA SHORES.

The General Assembly of North Carolina enacts:

SECTION 1. Section 3.2 of the Charter of the Town of Carolina Shores, as enacted by Section 2 of S.L. 1998-75, reads as rewritten:

"Sec. 3.2. **Manner of Electing Board.** The qualified voters of the entire Town elect all of the members of the Board of Commissioners. The Town is divided into two districts, District 1 consisting of the territory annexed as described in Section 5 of this act; District 2 consists of the remainder of the Town. One member shall be a resident of District 1, two members shall be residents of District 2, and the remaining members may live anywhere within the corporate limits. District 1 and District 2 shall be elected separately on the ballot.

SECTION 2. Section 3.3(b) of the Charter of the Town of Carolina Shores, as enacted by Section 2 of S.L. 1998-75, reads as rewritten:

"(b) In 1999 five members of the Board of Commissioners are elected. The three persons receiving the highest numbers of votes are elected to four-year terms and the two persons receiving the next highest numbers of votes are elected to two-year terms. In 2001 and quadrennially thereafter, two members of the council are elected to four-year ~~terms.~~ terms at large. In 2003 and quadrennially thereafter, three members of the council are elected to four-year ~~terms.~~ terms, one a resident of District 1 and two who are residents of District 2."

SECTION 3. From July 1, 2003, until the organizational meeting after the 2003 regular municipal election, the Board of Commissioners is expanded from five members to six members. The Board of Commissioners shall appoint a person who resides in the territory annexed as described in Section 5 of this act to fill that seat.

SECTION 3.1. Of the funds received by the Town of Carolina Shores under G.S. 136-41.1 through G.S. 136-41.3 for the 10 fiscal years beginning on or after July 1,

2003, the Town must expend in District 1 all of the funds received on account of the population and road mileage in that District.

SECTION 4. Of the funds received by the Town of Carolina Shores from local option sales taxes for the 10 fiscal years beginning on or after July 1, 2003, the Town must expend in District 1 all of the funds received on account of the population or assessed valuation in that District (depending on the formula used by Brunswick County to distribute such revenues to the municipalities in that county).

SECTION 5. Sections 1 through 4 of this act become effective only if the Town of Carolina Shores annexes any or all of the following property under Part 2 of Article 4A of the General Statutes prior to August 1, 2003:

BEGINNING at a fixed point of southerly side of the intersection of the right-of-way of Clubview Lane and the easterly side of the right-of-way of State Road 1165 then S06°09'45W 200.0 feet, then S06°24'06W for 185.0 feet, then S 14°22'08 for 133.05 feet then S31°37'12 for 125.0 feet, then S42°37'12W for 884.77 to a fixed point. Then, turning westerly along a utility easement and along the westerly boundary for the Town of Carolina Shores, N25°36'51W for 1369.78 feet, then N25°36'51W for 1491.07 feet, then N25°34'45W 352.46', then N25°29'27 feet for 2444.56 feet. Then N64°30'38 for 120.58 feet, the northerly along the westerly right-of-way of Watson Ave. N25°29'22W for 7.10 feet then N09°59'30 along a chord of 383.14 feet. Then along the Southerly boundary of the utility easement S77°24'38E for 721.50 feet to the westerly edge of a water body known as Lake D. Then along the lake edge N03°33'56E for 42.98 feet, N03°46'23E for 47.50 feet, then N06°12'39E for 28.37 feet, then N32°08'35E for 25.69 feet, then N14°59'37E, then N00°22'22E for 41.11 feet, then N21°33'30E for 21.17 feet, then N17°36'53E for 28.05 feet, then N29°09'08W for 17.25 feet then S78°32'11W for 19.05 feet and S43°47'28W 21.94 feet to the edge of the pond and the rear property line of lot 283. Then S77°24'38E 312.48 feet and then 185.00 feet, then S12°35'22W 183.16 feet, then S77°24'38 for 914.06 feet along a utility and drainage easement, then continuing along the easement S12°35'22W for 724.87 feet. Then S36°10'40E for 161.38 feet, then S48°17'03E for 11245.30 feet, then S87°46'05E for 153.78 feet, then S38°25'40E for 505.54 feet, then S33°42'50E for 168.96 feet then S22°30'50 for 199.35 feet then S64°59'73W for 901.96 feet along a drainage easement. Then N23°26'21 for 482.18 feet, then N66°33'39E for 185.40 feet then N06°09'45E for 716 feet back to the point of beginning.

SECTION 6. This act is effective when it becomes law.

HOUSE BILL 742:
Carolina Shores Charter

BILL ANALYSIS

Committee:	House Finance	**Sponsor:**	Rep. Hill and Stiller
Date:	April 24, 2003	**Analysis by:**	Martha Walston
Version:	1st Edition		Committee Counsel

SUMMARY: House Bill 742 is a local bill that would amend the Charter of the Town of Carolina Shores in Brunswick County only if the Town annexes certain property under the annexation statutes in Chapter 160A of the General Statutes prior to August 1, 2003.

CURRENT LAW: S.L. 1998-75 authorized the incorporation of the Town of Carolina Shores. The Town was to consist of an area previously annexed into the Town of Calabash in 1989.

BILL ANALYSIS: If any or all of certain described property is annexed by the Town of Carolina Shores prior to August 1, 2003, then the Charter of the Town of Carolina Shores will be amended as follows:

- The Town will be divided into two districts. District 1 will consist of the annexed area, and District 2 will consist of the remainder of the Town. One member of the Town Board of Commissioners will be a resident of District 1, two members will be a resident of District 2, and the remaining members may live anywhere within the corporate limits. District 1 and District 2 will be elected separately on the ballot, and the voters of the Town will elect all of the members. Under the Current Charter the Board of Commissioners is composed of five members.
- Under the current charter, in 2003 and every four years thereafter, three members of the Board of Commissioners will be elected to four-year terms. House Bill 742 will require one of the members to be a resident of District 1 and two members to be residents of District 2.
- From July 1, 2003 until the organizational meeting after the 2003 regular municipal election, the Board of Commissioners will be expanded from five to six members. The Board will appoint a sixth member who resides in the annexed area.
- For the 10 fiscal years beginning on or after July 1, 2003, the Town must expend in District 1 all of the Powell Bill funds received on account of the population and road mileage in District 1. Under current law, Powell Bill funds may be used only for the purposes of maintaining, repairing, constructing, reconstructing, or widening of local streets that are the responsibility of the municipalities.
- For the 10 fiscal years beginning on or after July 1, 2003, the Town must expend in District 1 all of the local option sales taxes received by the Town on account of the population or assessed valuation in that District. The amount will depend on the formula used by Brunswick County to distribute local option sales tax revenues to the

municipalities in the County. Current law provides that in April of each year, each county board of commissioners elects one of two methods to determine the distribution of revenue between the county and its municipalities. The two methods are:

Per Capita Method - the net proceeds of the county are divided by the sum of the population of the county and its municipalities to determine a per capita amount. This amount is multiplied by the county's total population and each municipality's population to determine the allocation to each area

Ad Valorem Method - the net proceeds may be distributed between the county and its municipalities in proportion to the total amount of ad valorem taxes levied by each during the fiscal year preceding the year of distribution.

April 9, 2003

A BILL TO BE ENTITLED

AN ACT TO REQUIRE THE REVENUE LAWS STUDY COMMITTEE TO CONDUCT A REVIEW OF ALL TAX EXPENDITURES AT LEAST ONCE EVERY FIVE YEARS.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 120-70.106 reads as rewritten:

"**§ 120-70.106. ~~Purpose and powers~~Purpose, powers, and duties of Committee.**

(a) The Revenue Laws Study Committee may:

(1) Study the revenue laws of North Carolina and the administration of those laws.

(2) Review the State's revenue laws to determine which laws need clarification, technical amendment, repeal, or other change to make the laws concise, intelligible, easy to administer, and equitable.

(3) Call upon the Department of Revenue to cooperate with it in the study of the revenue laws.

(4) Report to the General Assembly at the beginning of each regular session concerning its determinations of needed changes in the State's revenue laws.

These powers, which are enumerated by way of illustration, shall be liberally construed to provide for the maximum review by the Committee of all revenue law matters in this State.

(b) The Committee may make interim reports to the General Assembly on matters for which it may report to a regular session of the General Assembly. A report to the General Assembly may contain any legislation needed to implement a recommendation of the Committee. When a recommendation of the Committee, if enacted, would result in an increase or decrease in State revenues, the report of the Committee must include an estimate of the amount of the increase or decrease.

(c) The Committee shall conduct a comprehensive review of each tax expenditure at least once every five years to determine if the tax expenditure is an equitable and efficient means of achieving a State public policy objective and shall report to the General Assembly on the findings of this review. For the purpose of this subsection, the term 'tax expenditure' has the same meaning as in G.S. 105-256. The Committee may stagger the reviews so that not all tax expenditures have to be reevaluated in the same year."

SECTION 2. The first reviews required under G.S. 120-70.106(c), as enacted by this act, shall be reported to the 2005 General Assembly.

SECTION 3. This act is effective when it becomes law.

HOUSE BILL 959:
Study Tax Preferences.

BILL ANALYSIS

Committee:	House Finance	**Introduced by:**	Rep. Glazier
Date:	April 24, 2003	**Summary by:**	Trina Griffin
Version:	1st Edition		Committee Counsel

SUMMARY: House Bill 959 requires the Revenue Laws Study Committee to conduct a review of each tax expenditure at least once every ten years to determine if the expenditure is equitable and efficient. The first review of tax expenditures would be reported to the 2005 General Assembly.

CURRENT LAW: The Revenue Laws Study Committee (Committee) began in 1977 as a subcommittee of the Legislative Research Commission. Then, in 1997, the Committee became a permanent legislative commission established by statute and designed to regularly review issues relating to taxation and finance. The Committee consists of 16 members, eight appointed by the President Pro Tempore of the Senate and eight appointed by the Speaker of the House of Representatives. The Committee is given broad authority to review the State's revenue laws to determine which laws need clarification, technical amendment, repeal, or other change to make the laws concise, intelligible, easy to administer, and equitable. The Committee is directed to report to the General Assembly at the beginning of each regular session concerning its determinations of needed changes in the State's revenue laws. The report may contain any legislation needed to implement a recommendation of the Committee. When a recommendation of the Committee would result in an increase or decrease in State revenues, the report must include an estimate of the amount of the increase or decrease.

The Department of Revenue is required to prepare and publish, at least every two years, a tax expenditure report that lists the tax expenditures and gives an estimate of the amount by which revenue is reduced by each tax expenditure (G.S. 105-256). The Department is required to distribute one copy of this report to each member of the General Assembly.

BILL ANALYSIS: House Bill 959 adds as a duty of the Revenue Laws Study Committee the requirement that it conduct a comprehensive review of each tax expenditure at least once every 10 years to determine if the tax expenditure is an equitable and efficient means of achieving a State public policy objective. The Committee must report to the General Assembly on the findings of this review. The Committee may stagger the reviews so that not all tax expenditures have to be reevaluated in the same year. The term "tax expenditure" means an exemption, an exclusion, a deduction, an allowance, a credit, a refund, a preferential tax rate, or another device that reduces the amount of tax revenue that would otherwise be available to the State.

HOUSE BILL 855*
PROPOSED COMMITTEE SUBSTITUTE H855-PCS30274-LAf-9

Short Title: Various Special Registration Plates. (Public)

Sponsors:

Referred to:

April 3, 2003

A BILL TO BE ENTITLED

AN ACT TO AUTHORIZE THE DIVISION OF MOTOR VEHICLES TO ISSUE SPECIAL REGISTRATION PLATES FOR BLUE RIDGE PARKWAY FOUNDATION, SURVEYORS, RETIRED LAW ENFORCEMENT OFFICERS, ALTERNATIVE FUEL VEHICLES, ZETA PHI BETA SORORITY, BREAST CANCER AWARENESS, AND MOTHERS AGAINST DRUNK DRIVING.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 20-63(b) reads as rewritten:

"(b) Every license plate shall have displayed upon it the registration number assigned to the vehicle for which it is issued, the name of the State of North Carolina, which may be abbreviated, and the year number for which it is issued or the date of expiration. A plate issued for a commercial vehicle, as defined in G.S. 20-4.2(1), and weighing 26,001 pounds or more, must bear the word "commercial," unless the plate is a special registration plate authorized in G.S. 20-79.4 or the commercial vehicle is a trailer or is licensed for 6,000 pounds or less. The plate issued for vehicles licensed for 7,000 pounds through 26,000 pounds must bear the word "weighted".

A registration plate issued by the Division for a private passenger vehicle or for a private hauler vehicle licensed for 6,000 pounds or less, other than a Friends of the Great Smoky Mountains National Park special registration ~~plate~~ plate, a Blue Ridge Parkway Foundation special registration plate, or a Rocky Mountain Elk Foundation special registration plate shall be a "First in Flight" plate. A "First in Flight" plate shall have the words "First in Flight" printed at the top of the plate above all other letters and numerals. The background of the plate shall depict the Wright Brothers biplane flying over Kitty Hawk Beach, with the plane flying slightly upward and to the right."

SECTION 2. G.S. 20-79.4(b) is amended by adding a new subdivision to read:

"(b) Types. – The Division shall issue the following types of special registration plates:

...

(1a) Alternative Fuel Vehicles. – Issuable to the registered owner of an alternative fuel vehicle. The plate shall bear the words "Alternative Fuel Vehicle". The Division may not issue the plate authorized by this subdivision unless it receives at least 300 applications for the plate.

...

(3d) Blue Ridge Parkway Foundation. – Issuable to a registered owner of a motor vehicle in accordance with G.S. 20-81.12. The plate shall have the words "First in Flight" printed at the top of the plate above all other letters and numerals. The background of the plate shall be the full art, three-color design submitted to the Division by the Blue Ridge Parkway Foundation in camera-ready format. The background color and design shall allow the numbers on the face of the plate to be readily distinguished. Submission to the Division of the background design shall be the final design, and, upon acceptance by the Division, no further changes in the background design shall be made.

(3e) Breast Cancer Awareness. – Issuable to the registered owner of a motor vehicle in accordance with G.S. 20-81.12. The plate shall bear the phrase "Early Detection Saves Lives" and a representation of a pink ribbon. The Division must receive 300 or more applications for the plate before it may be developed.

~~(3d)~~(3f) Bronze Star Recipient. – Issuable to a recipient of the Bronze Star. The plate shall bear the emblem of the Bronze Star and the words "Bronze Star."

...

(27c) Mothers Against Drunk Driving. – Issuable to the registered owner of a motor vehicle. The plate shall bear the letters "M.A.D.D." and the words "Mothers Against Drunk Driving". The Division must receive 300 or more applications for the plate before it may be developed.

...

(36b) Retired Law Enforcement Officers. – Issuable to a retired law enforcement officer presenting to the Division, along with the application for the plate, a copy of the officer's retired identification card or letter of retirement. The plate shall bear the phrase "Retired Law Enforcement Officer" and representation of a law enforcement badge. The Division may not issue the plate authorized by this subdivision unless it receives at least 300 applications for the plate.

~~(36b)~~(36c) Rocky Mountain Elk Foundation. – Issuable to the registered owner of a motor vehicle in accordance with G.S. 20-81.12. The plate shall bear the phrase "Rocky Mountain Elk Foundation" and a logo approved by the Rocky Mountain Elk Foundation, Inc.

~~(36c)~~(36d) Save the Sea Turtles. – Issuable to the registered owner of a motor vehicle in accordance with G.S. 20-81.12. The plate may bear the

phrase "Save the Sea Turtles" and a representation related to sea turtles.

...

(45b) Surveyor Plate. – Issuable to the registered owner of a motor vehicle in accordance with G.S. 20-81.12. The plate shall bear the words "Following In Their Footsteps" and shall bear a picture of a transit.

~~(45b)~~(45c) Sweet Potato. – Issuable to the registered owner of a motor vehicle. The plate may bear a phrase and picture representing the State's official vegetable, the sweet potato. The Division may not issue the plate authorized by this subdivision unless it receives at least 300 applications for the plate.

~~(45c)~~(45d) Tobacco Heritage. – Issuable to the registered owner of a motor vehicle. The plate shall bear a picture of a tobacco leaf and plow. The Division may not issue the plate authorized by this subdivision unless it receives at least 300 applications for the plate.

...

(52) Zeta Phi Beta Sorority. – Issuable to the registered owner of a motor vehicle in accordance with G.S. 20-81.12. The plate shall bear the words "Zeta Phi Beta"."

SECTION 3. G.S. 20-79.7(a) reads as rewritten:

"(a) Fees. – Upon request, the Division shall provide and issue free of charge one registration plate to a recipient of the Congressional Medal of Honor, a 100% disabled veteran, and an ex-prisoner of war. All other special registration plates, including additional Congressional Medal of Honor, 100% Disabled Veteran, and Ex-Prisoner of War plates, are subject to the regular motor vehicle registration fee in G.S. 20-87 or G.S. 20-88 plus an additional fee in the following amount:

Special Plate	Additional Fee Amount
Historical Attraction	$30.00
State Attraction	$30.00
Blue Ridge Parkway Foundation	$30.00
Collegiate Insignia	$25.00
Goodness Grows	$25.00
Kids First	$25.00
Olympic Games	$25.00
NC Agribusiness	$25.00
Special Olympics	$25.00

Wildlife Resources	$10	$10	0
Zeta Phi Beta Sorority	$10	$10	0
All other Special Plates	$10	0	0."

SECTION 5. G.S. 20-81.12 is amended by adding two new subdivisions to read:

"(b25) Blue Ridge Parkway Foundation. – The Division must receive 300 or more applications for a Blue Ridge Parkway Foundation plate before the plate may be developed. The Division shall transfer quarterly the money in the Collegiate and Cultural Attraction Plate Account derived from the sale of Blue Ridge Parkway Foundation plates to the Blue Ridge Parkway Foundation for use in promoting and preserving the Blue Ridge Parkway as a scenic attraction in North Carolina.

(b26) Surveyor Plate. – The Division must receive 300 or more applications for a Surveyor plate before the plate may be developed. The Division shall transfer quarterly the money in the Collegiate and Cultural Attraction Plate Account derived from the sale of Surveyor plates to the North Carolina Society of Surveyors Education Foundation, Inc., for public educational programs.

(b27) Zeta Phi Beta Sorority – The Division must receive 300 or more applications for a Zeta Phi Beta sorority plate before the plate may be developed. The Division shall transfer quarterly the money in the Collegiate and Cultural Attraction Plate Account derived from the sale of Zeta Phi Beta Sorority plates to the Zeta Phi Beta Sorority Education Foundation, through the Raleigh office, for the benefit of undergraduate scholarships in this State."

SECTION 6. This act is effective when it becomes law.

HOUSE BILL 855:
Various Special Registration Plates

BILL ANALYSIS

Committee: House Finance
Date: April 24, 2003
Version: Proposed Committee Substitute

Sponsor: Rep. Alexander and Rayfield
Analysis by: Martha Walston
Committee Counsel

SUMMARY: Senate Bill 855 authorizes the Division of Motor Vehicles to issue a special registration plate for Breast Cancer Awareness. The Proposed Committee Substitute authorizes the Division of Motor Vehicles to also issue the following special plates: Blue Ridge Parkway Foundation (requested by Rep. Haire, HB 255), Surveyors (requested by Rep. Gillespie and Gibson, HB 563), Retired Law Enforcement Officers (requested by Rep. A Williams, HB 577), Alternative Fuel Vehicles (requested by Rep. Insko, HB 661), Zeta Phi Beta Sorority (requested by Rep. McAllister, HB 823), and Mothers Against Drunk Driving (requested by Rep. Allred, HB 1034). The Division must receive 300 applications for each of these plates before it can be issued. The plates will be subject to the $10 fee imposed for special plates. The special plates for the Blue Ridge Parkway Foundation, Surveyors, and the Zeta Phi Beta Sorority will also be subject to additional fees of $20, $15, and $10, respectively. These additional fees will be transferred quarterly to support the purposes for which they are imposed.

The Proposed Committee Substitute for HB 855 has been reviewed by the Tax and Tags Subcommittee in House Finance.

CURRENT LAW: The General Assembly has authorized the Division of Motor Vehicles to issue many different special registration plates so long as it receives at least 300 applications for the plate. DMV has issued at least 87 special license plates. It has received requests for at least 40 additional plates but it has not issued those plates because it has not yet received 300 applications for them.

As a general rule, the fee for a special registration plate is the regular vehicle registration fee plus a $10 special registration plate fee.[1] The $10 special registration plate fee is credited to the Special Registration Plate Account. After deducting the cost of the plates from this account, $525,000 is annually appropriated to provide operating assistance for seven Visitor Centers. The Centers are located in Brunswick, Camden, Carteret, Caswell, Macon, Tyrell, and Watauga Counties, and each Center receives $75,000. The remaining revenue in the account is transferred quarterly as follows:

- 33% to the account of the Department of Commerce to aid in financing out-of-state print and other media advertising under the program for the promotion of travel and industrial development in the State.
- 50% to DOT for beautification of highways other than those designated as interstate.
- 17% to the account of DHHS to promote travel accessibility for disable persons.

[1] One registration plate is issued free of charge to a recipient of the Congressional Medal of Honor, a 100% Disabled Veteran, or an ex-prisoner of war. Four special registration plates are exempt from the $10 special plate fee: active member of the National Guard, Legion of Valor, Purple Heart Recipient, and the Silver Star Recipient.

The cost of some special plates includes a fee in additional to the $10 special registration plate fee. In those instances, the first $10 goes to the special registration plate fund and the remainder is transferred quarterly to designated beneficiaries of the additional fee amount.

BILL ANALYSIS: The ***Proposed Committee Substitute*** for House Bill 855 authorizes the following special plates. The Division must receive at least 300 applications for a plate before it may be issued.

- **Alternative Fuel Vehicle (Rep. Insko).** - The special plate would be issuable to a registered owner of an alternative fuel vehicle and would bear the words "Alternative Fuel Vehicle". When a vehicle is titled, the Division is able to tell from the Vehicle Identification Number (VIN) whether the vehicle is an alternative fuel vehicle. The $10 special registration plate fee goes into the Special Registration Plate Account.
- **Breast Cancer Awareness (Rep. Alexander and Rayfield).** - The special plate would be issuable to a registered owner of a vehicle and would bear the phrase "Early Detection Saves Lives" and a representation of a pink ribbon. The $10 special registration plate fee goes to the Special Registration Plate Account.
- **Mothers Against Drunk Driving (Rep. Allred)** - The special plate would be issuable to a registered owner of a vehicle and would bear the letters "M.A.D.D." and the words "Mothers Against Drunk Driving". The $10 special registration plate fee goes to the Special Registration Plate Account.
- **Retired Law Enforcement Officers (Rep. A. Williams)**- The special plate would be issuable to a retired law enforcement officer who presents to the Division a copy of the officer's retired identification card or letter of retirement. The plate will bear the phrase "Retired Law Enforcement Officer" and a representation of a law enforcement badge. The following special plates for retired law enforcement officers are already authorized: "Retired Highway Patrol" and "Sheriff" if the sheriff served for at least 10 years before retiring. The "Sheriff" special plate does not require 300 applications. The $10 special registration plate fee goes to the Special Registration Plate Account.
- **Blue Ridge Parkway Foundation (Rep. Haire)** - The special plate would be issuable to a registered owner of a vehicle and would have the words "First in Flight" printed at the top of the plate. The background of the plate would be the full art, three-color design submitted to the Division by the Blue Ridge Parkway Foundation in camera-ready format. Once the Division accepts the design, no further changes may be made. The fee for the special plate is the $10 special registration plate fee plus an additional $20. The money derived from the additional $20 is transferred quarterly to the Blue Ridge Parkway Foundation for use in promoting and preserving the Blue Ridge Parkway as a scenic attraction in North Carolina. The Foundation was incorporated in North Carolina in 1997 as an independent, private non-profit supporting foundation of the Blue Ridge Parkway. It provides private funding and specific programs and projects which further the preservation, protection and enhancement of the Blue Ridge Parkway.

- **Surveyor Plate (Rep. Gillespie and Gibson)** - The special plate would be issuable to a registered owner of a motor vehicle and would bear the words "Following In Their Footsteps" and a picture of a transit. A transit is a surveyor's instrument for measuring horizontal and, usually, also vertical angles. The fee for the special plate is the $10 special registration plate fee plus an additional $15. The money derived from the additional $15 fee is transferred quarterly to the North Carolina Society of Surveyors Education Foundation, Inc., for public educational programs. The Foundation is a non-profit, tax-exempt organization that works with community colleges and high schools to promote the field of surveying. The Foundation is also working with the community college system and the university system to seek a four-year surveyor degree.

- **Zeta Phi Beta Sorority (Rep. McAllister)** - The special plate would be issuable to a registered owner of a motor vehicle and would bear the words "Zeta Phi Beta". The fee for the special plate is the $10 special registration plate fee plus an additional $10. The money derived from the additional $10 fee is transferred quarterly to the Zeta Phi Beta Sorority Education Foundation, through the Raleigh office, for the benefit of undergraduate scholarships in this State. Zeta Phi Beta Sorority was founded at Howard University in 1920 and emphasizes scholarship and service. The Sorority was the first Greek-letter organization to charter a chapter in Africa and to form adult and youth auxiliary groups.

FISCAL ANALYSIS MEMORANDUM

[This fiscal memorandum is a fiscal analysis of a draft bill, amendment, committee substitute, or conference committee report that has not been formally introduced or adopted on the chamber floor or in committee. This is not an official fiscal note.]

EXPENDITURES					
Highway Fund - Special Registration Plate Acct.	$7,000				

PRINCIPAL DEPARTMENT(S) & PROGRAM(S) AFFECTED: Department of Transportation - Division of Motor Vehicles

EFFECTIVE DATE: The act is effective when it becomes law.

BILL SUMMARY: This bill authorizes the Division of Motor Vehicles (DMV) to issue a special registration plate for Alternative Fuel Vehicles, the Blue Ridge Parkway Foundation,

Breast Cancer Awareness, Mothers Against Driving Drunk, Retired Law Enforcement Officers, Surveyors, and the Zeta Phi Beta Sorority if at least 300 applications for each plate are received. The bill also allows the Blue Ridge Parkway Foundation special plate to have a different background other than the "First in Flight" plate background.

ASSUMPTIONS AND METHODOLOGY:
This fiscal note assumes that applicants for these special plates already register their vehicles in the state and are paying the current $20 registration fee, thus there is no new revenue for the Highway Fund. The note also assumes the issuance of the minimum 300 license plates in FY 2003-04 and renewal of those plates in the following years. There is a one-time cost of $100 to design the new plate and a one-time production cost of approximately $3.00 per plate. For 300 plates, the total production cost is $1,000 and is paid from the Special Registration Plate Account.

In addition to the normal $20 registration fee, each plate is assessed a $10 fee that is deposited into the Special Registration Plate Account. Three of the plates have additional fees that are deposited into the Collegiate and Cultural Attraction Plate Account then transferred to specific organizations. The Blue Ridge Parkway Foundation plate has an additional $20 fee that is to be credited to the Foundation for use in promoting and preserving the Blue Ridge Parkway as a scenic attraction in North Carolina. The Surveyors' plate has an additional $15 fee to be given to the North Carolina Society of Surveyors Education Foundation, Inc. for public educational programs. The Zeta Phi Beta Sorority plate has an additional $10 fee to be given to the Zeta Phi Beta Sorority Foundation for funding undergraduate scholarships.

Referred to:

March 5, 2003

A BILL TO BE ENTITLED

AN ACT TO AUTHORIZE THE DIVISION OF MOTOR VEHICLES TO ISSUE SPECIAL REGISTRATION PLATES FOR PARAMEDICS AND THE NORTH CAROLINA COASTAL FEDERATION.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 20-79.4(b) is amended by adding the following new subdivisions to read:

"(b) Types. – The Division shall issue the following types of special registration plates:

...

(28d) NC Coastal Federation. – Issuable to the registered owner of a motor vehicle in accordance with G.S. 20-81.12. The plate shall bear a phrase used by the North Carolina Coastal Federation and an image that depicts the coastal area of the State.

...

(29d) Paramedics. – Issuable to an emergency medical technician-paramedic, as defined in G.S. 131E-155. The plate shall bear the Star of Life logo and the phrase "Professional Paramedic". The Division may not issue the plate authorized by this subdivision unless it receives at least 300 applications for the plate."

SECTION 2. G.S. 20-79.7(a) reads as rewritten:

"(a) Fees. – Upon request, the Division shall provide and issue free of charge one registration plate to a recipient of the Congressional Medal of Honor, a 100% disabled veteran, and an ex-prisoner of war. All other special registration plates, including additional Congressional Medal of Honor, 100% Disabled Veteran, and Ex-Prisoner of

War plates, are subject to the regular motor vehicle registration fee in G.S. 20-87 or G.S. 20-88 plus an additional fee in the following amount:

Special Plate	Additional Fee Amount
Historical Attraction	$30.00
State Attraction	$30.00
Collegiate Insignia	$25.00
Goodness Grows	$25.00
Kids First	$25.00
Olympic Games	$25.00
NC Agribusiness	$25.00
NC Coastal Federation	$25.00
Special Olympics	$25.00
The V Foundation for Cancer Research Division	$25.00
University Health Systems of Eastern Carolina	$25.00
Animal Lovers	$20.00
Audubon North Carolina	$20.00
Ducks Unlimited	$20.00
Harley Owners' Group	$20.00
First in Forestry	$20.00
Litter Prevention	$20.00
March of Dimes	$20.00
Omega Psi Phi Fraternity	$20.00
Rocky Mountain Elk Foundation	$25.00
Save the Sea Turtles	$20.00
Scenic Rivers	$20.00
School Technology	$20.00
Soil and Water Conservation	$20.00
Special Forces Association	$20.00
Support Public Schools	$20.00
Wildlife Resources	$20.00
Personalized	$20.00
Active Member of the National Guard	None
100% Disabled Veteran	None
Ex-Prisoner of War	None
Legion of Valor	None
Purple Heart Recipient	None
Silver Star Recipient	None
All Other Special Plates	$10.00."

SECTION 3. G.S. 20-79.7(b) reads as rewritten:

"(b) Distribution of Fees. – The Special Registration Plate Account and the Collegiate and Cultural Attraction Plate Account are established within the Highway Fund. The Division must credit the additional fee imposed for the special registration plates listed in subsection (a) among the Special Registration Plate Account (SRPA), the

Collegiate and Cultural Attraction Plate Account (CCAPA), and the Natural Heritage Trust Fund (NHTF), which is established under G.S. 113-77.7, as follows:

Special Plate	SRPA	CCAPA	NHTF
Animal Lovers	$10	$10	0
Audubon North Carolina	$10	$10	0
Ducks Unlimited	$10	$10	0
First in Forestry	$10	0	$10
Goodness Grows	$10	$15	0
Harley Owners' Group	$10	$10	0
Historical Attraction	$10	$20	0
In-State Collegiate Insignia	$10	$15	0
Kids First	$10	$15	0
Litter Prevention	$10	$10	0
March of Dimes	$10	$10	0
NC Agribusiness	$10	$15	0
NC Coastal Federation	$10	$15	0
Olympic Games	$10	$15	0
Omega Psi Phi Fraternity	$10	$10	0
Out-of-state Collegiate Insignia	$10	0	$15
Personalized	$10	0	$10
Rocky Mountain Elk Foundation	$10	$15	0
Save the Sea Turtles	$10	$10	0
Scenic Rivers	$10	$10	0
School Technology	$10	$10	0
Soil and Water Conservation	$10	$10	0
Special Forces Association	$10	$10	0
Special Olympics	$10	$10	0
State Attraction	$10	$20	0
Support Public Schools	$10	$10	0
The V Foundation for Cancer Research	$10	$15	0
University Health Systems of Eastern Carolina	$10	$15	0
Wildlife Resources	$10	$10	0
All other Special Plates	$10	0	0."

SECTION 4. G.S. 20-81.12 is amended by adding the following new subsection to read:

"(b25) NC Coastal Federation. – The Division must receive 300 or more applications for a NC Coastal Federation plate before the plate may be developed. The Division shall transfer quarterly the money in the Collegiate and Cultural Attraction Plate Account derived from the sale of NC Coastal Federation plates to the North Carolina Coastal Federation, Inc."

SECTION 5. This act is effective when it becomes law.

SENATE BILL 295:
Special Registration Plates

BILL ANALYSIS

Committee:	House Finance	**Introduced by:**	Sen. Thomas
Date:	April 24, 2003	**Summary by:**	Martha Walston
Version:	PCS for 3rd Edition		Committee Counsel
	PCS40028-Laf-7		

SUMMARY: ***The third Edition of Senate Bill 295 authorizes the Division of Motor Vehicles to issue the following special registration plates: NC Coastal Federation (requested by Sen. Hargett, SB 337), Paramedics (requested by Sen. Albertson, SB 163), and Alpha Kappa Alpha Sorority (requested by Sen. Dorsett, SB 397). The Division must receive at least 300 applications for a plate before it can be issued. Each of the three plates authorized by the 3rd Edition will be on a "First in Flight" background and will be subject to the $10 fee imposed for special plates. The special plate for the NC Coastal Federation will also be subject to an additional fee of $15 that will be transferred quarterly to support the purposes for which it is imposed.***

The proposed committee substitute deletes the reference to the Alpha Kappa Alpha Sorority special plate because this plate was authorized in House Bill 482, sponsored by Rep. Adams, and ratified on April 10, 2003. (S.L. 2003-10)

The proposed committee substitute for SB 295 has been reviewed by the Tax and Tags Subcommittee in House Finance.

CURRENT LAW: The General Assembly has authorized the Division of Motor Vehicles to issue many different special registration plates so long as it receives at least 300 applications for the plate. DMV has issued at least 87 special license plates. It has received requests for at least 40 additional plates but it has not issued those plates because it has not yet received 300 applications for them.

As a general rule, the fee for a special registration plate is the regular vehicle registration fee plus a $10 special registration plate fee.[1] The $10 special registration plate fee is credited to the Special Registration Plate Account. After deducting the cost of the plates from this account, $525,000 is annually appropriated to provide operating assistance for seven Visitor Centers. The Centers are located in Brunswick, Camden, Carteret, Caswell, Macon, Tyrell, and Watauga Counties, and each Center receives $75,000. The remaining revenue in the account is transferred quarterly as follows:

- 33% to the account of the Department of Commerce to aid in financing out-of-state print and other media advertising under the program for the promotion of travel and industrial development in the State.
- 50% to DOT for beautification of highways other than those designated as interstate.
- 17% to the account of DHHS to promote travel accessibility for disable persons.

[1] One registration plate is issued free of charge to a recipient of the Congressional Medal of Honor, a 100% Disabled Veteran, or an ex-prisoner of war. Four special registration plates are exempt from the $10 special plate fee: active member of the National Guard, Legion of Valor, Purple Heart Recipient, and the Silver Star Recipient.

The cost of some special plates includes a fee in additional to the $10 special registration plate fee. In those instances, the first $10 goes to the special registration plate fund and the remainder is transferred quarterly to designated beneficiaries of the additional fee amount.

BILL ANALYSIS: The ***Proposed Committee Substitute*** for Senate Bill 295 authorizes the following special license plates. The Division must receive at least 300 applications for a plate before it may be issued. Each of the plates would be on a "First in Flight" background.

- **NC Coastal Federation.** – The special plate would bear a phrase used by the North Carolina Coastal Federation and an image that depicts the coastal area of the State. The fee for the special plate would be the special registration plate fee of $10 plus an additional $15 fee. The money derived from the additional fee would be transferred quarterly to the North Carolina Coastal Federation, Inc. The NC Coastal Federation is a non-profit, tax-exempt organization that seeks to provide citizens and groups with the assistance needed to take an active role in the wise management of North Carolina's coastal water quality and natural resources. Eight grassroots groups concerned with local coastal issues founded it in 1982. Today, it serves 7,500 members and 200 affiliated organizations. It focuses on three main areas of work: the restoration and protection of coastal water quality and habitat; the encouragement of sound environmental programs and their enforcement; and the delivery of effective education programs.
- **Paramedics.** – The special plate would be issuable to an emergency medical technician-paramedic. The plate would bear the phrase "Professional Paramedic" and the Star of Life logo. The fee for the special plate would be the special registration plate fee of $10. To be an emergency medical technician-paramedic, a person must be credentialed as such by the Department of Health and Human Services under G.S. 131E-159. The following special plates are already authorized: "Firefighter", "Rescue Squad", "Firefighter-Rescue Squad".

FISCAL ANALYSIS MEMORANDUM

[This confidential fiscal memorandum is a fiscal analysis of a draft bill, amendment, committee substitute, or conference committee report that has not been formally introduced or adopted on the chamber floor or in committee. This is not an official fiscal note. If upon introduction of the bill you determine that a formal fiscal note is needed, please make a fiscal note request to the Fiscal Research Division, and one will be provided under the rules of the House and the Senate.]

EXPENDITURES					
Special Plate Acct.	$2,000				

PRINCIPAL DEPARTMENT(S) & PROGRAM(S) AFFECTED: NC Department of Transportation.

EFFECTIVE DATE: When it becomes law.

BILL SUMMARY: The bill authorizes creation of two new special license plates. The new plates would recognize the NC Coastal Federation and paramedics. Fees vary with proceeds sent to a variety of organizations.

ASSUMPTIONS AND METHODOLOGY: The bill does not affect the General Fund. In addition, there is no revenue impact on the Highway Fund since the special plate applicants pay the same $20 vehicle registration fee that they were paying for a regular license plate.

According to the Division of Motor Vehicles, there is a one-time cost of approximately $100 to design a new plate. There is also a production cost of approximately $3.00 per plate based on one color design. The cost per plate will increase if more color is added or the design is complex. Since the number of applications for these plates is unknown, this fiscal analysis assumes only the minimum 300 applicants needed to qualify for a plate. Thus, the total production cost for 300 plates is $1,000. This cost is assumed to apply to both plates under consideration, as both require 300 applications as a minimum to begin production, so the total expenditure is estimated at $2,000.

The paramedic plate requires an additional payment to the special plate account of $10 (per current statute), creating an estimated revenue steam of $3,000 from the plate.

The NC Coastal Federation plate requires an additional payment of $25, with the proceeds flowing to both the special registration plate account ($10) and the collegiate and cultural attraction plate account ($15). Each quarter the collections into the collegiate and cultural attractions plate account for the NC Coastal Federation plate must be transferred to the North Carolina Coastal Federation, Inc.

SOURCES OF DATA: NC Division of Motor Vehicles.

S295 3rd Ed	Special Registration Plates	Thomas	4/10/03	Special Plate	Authorizes DMV to issue special plates for Alpha Kappa Alpha Sorority ($10), NC Coastal Federation ($25 of which $15 goes to NC Coastal Federation, Inc), Paramedics ($10)	When it becomes law.

2003 COMMITTEE REPORT
HOUSE OF REPRESENTATIVES

The following report(s) from standing committee(s) is/are presented:
By Representatives **G. Allen, Howard, Luebke, McComas, Miner, and Wainwright** (Chairs) for the Committee on **FINANCE**.

☒ Committee Substitute for
S.B. 295 A BILL TO BE ENTITLED AN ACT TO AUTHORIZE THE DIVISION OF MOTOR VEHICLES TO ISSUE SPECIAL REGISTRATION PLATES FOR PARAMEDICS, THE NORTH CAROLINA COASTAL FEDERATION, AND THE ALPHA KAPPA ALPHA SORORITY.

☐ With a favorable report.

☐ With a favorable report and recommendation that the bill be re-referred to the Committee on Appropriations ☐ Finance ☐ ☐.

☐ With a favorable report, as amended.

☐ With a favorable report, as amended, and recommendation that the bill be re-referred to the Committee on Appropriations ☐ Finance ☐ ☐.

☐ With a favorable report as to the committee substitute bill (#), ☐ which changes the title, unfavorable as to (the original bill) (Committee Substitute Bill #), (and recommendation that the committee substitute bill #) be re-referred to the Committee on .)

☒ With a favorable report as to House committee substitute bill (#———), ☒ which changes the title, unfavorable as to Senate committee substitute bill.

☐ With an unfavorable report.

☐ With recommendation that the House concur.

☐ With recommendation that the House do not concur.

☐ With recommendation that the House do not concur; request conferees.

☐ With recommendation that the House concur; committee believes bill to be material.

☐ With an unfavorable report, with a Minority Report attached.

☐ Without prejudice.

☐ With an indefinite postponement report.

☐ With an indefinite postponement report, with a Minority Report attached.

☐ With recommendation that it be adopted. (HOUSE RESOLUTION ONLY)

03/19/03

House Committee on Finance

Minutes

~

April 29, 2003

The House Committee on Finance met on Tuesday, April 29, 2003 at 8:30 am in Room 544 of the Legislative Office Building. The following members were present: Chairpersons G. Allen, Howard, Luebke, McComas, Miner, and Wainwright; Vice-Chairs Alexander, Decker, Gibson, and Hill; and Representatives Blackwood, Bordsen, Capps, Carney, Creech, Ellis, Glazier, Hackney, Holliman, Jones, Lewis, McCombs, McGee, Munford, Rayfield, Ross, Weiss, and Womble. Also present were Sergeant-at-Arms Bob Fowler, Bill Freeman, Dusty Rhodes, and Bill Sullivan. Staff persons present included Richard Bostic, Trina Griffin, Martha Harris, and Martha Walston. There were also two Pages present at the meeting: (1) Kristin Broadwell of Wake County, sponsored by Representative Ellis; and (2) Vonda Walker of Pender County, sponsored by Representative Justice. The Agenda and Visitor Registration Sheet are attached and incorporated into these minutes as attachments 1 and 2.

Chairman Miner called the meeting to order at 8:33 am and immediately recognized Representative Ross to explain HB 755 – CARY/GARNER CONDEMNATIONS (see attachment 3). She explained very briefly to the Committee that this was a standard condemnation bill. It allows the Towns of Cary and Garner to acquire property for the (re)location of utility lines when it acquires property for streets. It also allows the Towns to acquire property through the condemnation procedures under Chapters 136 and 40A of the General Statutes (see attached Bill Summary). With no discussion from the members, the Chair recognized Representative Gibson for a motion of favorable report. The motion carried without opposition.

The Chairman then recognized Representatives Crawford and Cole to explain HB 48 – MOVING AHEAD TRANSPORTATION INITIATIVE (see attachment 4). Representative Cole explained that the transportation needs of North Carolina are growing exponentially. By 2025, the population in the state is expected to double from the current rate; thus, many more quality roads will be needed. Representative Crawford explained the specifics of the bill. The bill appropriates $300 million in fiscal year 2003-2004 and $400 million in fiscal year 2004-2005 from the State's Highway Trust Fund for "highway preservation, modernization, and maintenance" as well as for regional public transit systems (both urban and rural). According to Representative Crawford, the North Carolina Department of Transportation (DOT), under this bill plans to pursue road projects in all counties of the state and to get them underway immediately.

The Chair recognized Rep. Holliman who asked whether the bill was for road maintenance or new projects. Rep. Crawford explained that these appropriations are mostly for new projects, but are smaller projects in comparison to some of those currently underway in the state.

Representative Carney was recognized to send forth an amendment, which appointed a "Blue Ribbon" commission to study the transportation needs of the state, especially in rural areas. Representative Hackney then sent forth a perfecting amendment changing the number of members of the Commission from 5 to 6 in both the House and Senate. Upon the Chair's call, Representative

Hackney's perfecting amendment carried without objection, increasing the total membership of the Commission to 26.

Chairman Miner also recognized the audience to speak on HB 48. Duane Long, immediate past Chairman of the Greater Raleigh Chamber of Commerce and Ellis Hankins, Executive Director of the North Carolina League of Municipalities both spoke highly in support of the Carney Amendment (establishing a study commission to address the state's transportation needs).

Representative Luebke was then recognized to speak on the Carney amendment, specifically on the creation of a "blue ribbon" commission, rather than a typical study commission. He noted his belief that often, the members of these blue ribbon commissions are too full of legislators and that there should be a member from an environmental agency, such as the North Carolina Department of Environment and Natural Resources (DENR). Representative Luebke then sent forth another perfecting amendment to add an additional member of the commission to represent the state's environmental interests in regard to transportation needs, bringing the total membership of the Commission to 27. He also moved the adoption of this amendment.

Representative Wainwright was then recognized by Chairman Miner and voiced his concerns on the lack of public members on the blue ribbon commission who are from rural areas. He stated his desire to perfect Representative Luebke's perfecting amendment to include this rural membership. Representative Carney stated that she felt confident that the membership of the commission would be diversified without further additions to her proposed amendment.

The Chair then recognized Representative Decker who debated with Representative Luebke as to the necessity of an environmental member on the Commission, since there are no other members from specific areas. Following this discussion, the Chair called the vote on the Luebke perfecting amendment and it carried, but opposition was present. Having no further questions from the Committee, the Chair, upon a motion from Representative Ross, then called the vote on the adoption of Representative Carney's amendment. The motion carried by consent and the amendment was adopted.

Having concluded discussion on these amendments, Chairman Miner informed the Committee that it would now consider the full version of HB 48. Representative Hackney was then recognized to send forth an amendment. This amendment deleted section 5 of the bill, which required the approval of DENR on DOT transportation projects. The amendment carried without opposition.

Representative Howard was then recognized to voice her concern that the use of Highway Trust Fund money in this bill was not the original intention of the Fund. Specifically, she noted that the roads in rural communities have note yet been paved and that this was the trust fund's original purpose. She then sent forth an amendment to reduce the appropriations in the bill for bicycle, ferry, and other improvements from $70 million to $35 million to place the difference of these funds toward the further paving of rural roads in the state. She explained that this amendment places additional dollars for maintenance of roads, while not the traditional purpose of this bill, but helps the state make good on its original promise to constituents of the use of the Highway Trust Fund. Representative McCombs spoke in support of Howard's amendment stating that it would also help to get more of these funds to rural areas. Representative Capps also reiterated Representative Howard in that the State has a responsibility to keep promises made in earlier legislation.

The Chair then took time to recognize members of the audience who desired to speak on the full content of HB 48. Representative Gibson requested that the Committee hear from any DOT representatives that were present. Mr. Sanderson, State Highway Administrator of NCDOT and Miriam Perry, Public Transportation Director with DOT, were present to discuss the state's highway and transportation needs.

Continuing the discussion of the Howard Amendment, Chairman Miner recognized Representative Crawford who, in opposition, stated that the majority of the rural roads in the state had in fact already been paved. Representative Hill stated that his community is depending on this bill to address a very bad intersection in his district. Representative Rayfield voiced his concerns that the smaller communities of the state would not be properly provided for in this bill if the 10 most populous cities were being highlighted by DOT.

Representative Hackney, upon recognition of the Chair, spoke against the Howard Amendment stating that the current bill was already well balanced without further alteration. Representative Ross also spoke in opposition, stating that the State should take whatever matched transportation dollars from the Federal Government that it can. Representative Creech spoke in support of the Howard amendment, stating that rural communities have waited long enough to have their dirt roads paved. Chairman Miner then called the vote, but a division of the members was requested. In tallying a hand vote of 13 to 15, the Howard amendment failed.

On a question from Representative Creech, Representative Crawford explained that the road projects outlined in the bill also act as economic incentives because they are small projects, which are to be completed by local contractors in areas throughout the state.

Representative Capps was then recognized to present an amendment that would restrict $20,000 from use on a Wake County light rail system. He stated his reason for this amendment was that Wake County's transportation problems could not be helped because the City is not ready for the use of rail travel at the present time. He suggested that these funds should be used for other, more appropriate parts of the proposed transportation improvements. Representative Hackney spoke against this amendment basing his argument again on his belief that the bill, as it was, provided a balanced package, already approved by the Governor. Representatives Cole and Crawford also spoke against this amendment, citing this balance. Representative Ross stated this amendment would hurt Wake County due to the large number of youth communities (colleges, universities, etc.) in the area that could benefit from a light rail system. Representative Capps then reiterated his support of his amendment noting that it was a waste of tax dollars for Wake County at the present time. The Chair called the vote and, once again, the request for division was made. By a count of hands, the Capps amendment failed 10 to 15.

Chairman Miner then recognized Representative Hackney who made a motion for a favorable report as to HB 48, incorporating the adopted amendments into a Committee Substitute.

However, prior accepting this motion, the Chair recognized Representative Ellis who sent forth an amendment to require that none of the appropriated funds from HB 48 could be used unless the transportation projects being undertaken were completed to DOT standards. Mr. Sanderson of DOT stated that this standard is already required, but informed the Committee, along

with Representative Crawford, that he had no concerns with the amendment. The Chair then called the vote as to the Ellis amendment and it carried without dissent.

Chairman Miner then recognized Representative Hackney's earlier amendment to offer a favorable report as to HB 48, incorporating the adopted amendments into a Committee Substitute. Hearing no further questions from the Committee, the Chair called the vote and the motion carried without known opposition. Thus, HB 48 received a favorable report as to the committee substitute, unfavorable as to the original bill.

As the next item on the agenda, Representative Gibson was recognized by the Chair to explain HB 697 – TROY QUICK TAKE (see attachment 5). Representative Gibson stated that the purpose of the bill was to allow the Town of Troy and the Troy Redevelopment Commission to exercise the power of "quick-take" condemnation in the acquisition of property for the Smitherman Village neighborhood (see attached Bill Summary). Following this explanation, Representative Luebke was recognized and immediately moved for favorable report. Upon the Chair's call, the motion carried unanimously.

The Chairman then recognized Representative Gordon Allen for his birthday. The members of the Committee gave Representative Allen a standing ovation in observance of his special day.

Next, Chairman Miner recognized Representative LaRoque for explanation of the final bill on the day's agenda, HB 469 – LENOIR/DUPLIN UNPAID FEES COLLECTION (see attachment 6). He explained that the bill allows the Counties of Lenoir and Duplin "to attach personal property, garnish wages, and place liens on certain real property to collect unpaid fees for services." Having heard the explanation, the Chair recognized Representative Jones who moved for a favorable report on HB 469.

However, Representative Howard was first recognized to send forth an amendment adding the County of Davie to the text of the bill.

Representative Luebke was then recognized for a question to staff. He asked if this sort of bill was a regular occurrence because he held concerns about the large use of government taking power in this bill. Staff person Martha Walston stated that bills of a similar nature had already passed in earlier sessions. Representative Blackwood questioned Representative LaRoque as to how this bill would affect landlords. Representative LaRoque explained that this bill would affect only the individuals who have received the unpaid services, not the owners of the property if it were rented.

The Chair then recognized Representative Howard to explain her amendment. She noted that it simply adds Davie County with Lenoir and Duplin Counties in the bill. She also presented a perfecting amendment to include Columbus County (on behalf of Representative Hill). Representative Hill then moved the adoption of both amendments. The Chair called the vote on both the perfecting amendment and then the Howard amendment. Both motions carried without known opposition.

Representative Ross was then recognized by Chairman Miner and voiced her concern on the garnishment of wages in the bill. Seeing no further comments from members, the Chair called the

vote as moved by Representative Hackney for a favorable report as to the committee substitute, unfavorable as to the original on HB 469. The motion carried.

Having no further business before the Committee, Chairman Miner adjourned the meeting at 9:58 am.

Respectfully submitted,

Representative David Miner

House Committee on Finance

Minutes

~

April 29, 2003

The House Committee on Finance met on Tuesday, April 29, 2003 at 8:30 am in Room 544 of the Legislative Office Building. The following members were present: Chairpersons G. Allen, Howard, Luebke, McComas, Miner, and Wainwright; Vice-Chairs Alexander, Decker, Gibson, and Hill; and Representatives Blackwood, Bordsen, Capps, Carney, Creech, Ellis, Glazier, Hackney, Holliman, Jones, Lewis, McCombs, McGee, Munford, Rayfield, Ross, Weiss, and Womble. Also present were Sergeant-at-Arms Bob Fowler, Bill Freeman, Dusty Rhodes, and Bill Sullivan. Staff persons present included Richard Bostic, Trina Griffin, Martha Harris, and Martha Walston. There were also two Pages present at the meeting: (1) Kristin Broadwell of Wake County, sponsored by Representative Ellis; and (2) Vonda Walker of Pender County, sponsored by Representative Justice. The Agenda and Visitor Registration Sheet are attached and incorporated into these minutes as attachments 1 and 2.

Chairman Miner called the meeting to order at 8:33 am and immediately recognized Representative Ross to explain HB 755 – CARY/GARNER CONDEMNATIONS (see attachment 3). She explained very briefly to the Committee that this was a standard condemnation bill. It allows the Towns of Cary and Garner to acquire property for the (re)location of utility lines when it acquires property for streets. It also allows the Towns to acquire property through the condemnation procedures under Chapters 136 and 40A of the General Statutes (see attached Bill Summary). With no discussion from the members, the Chair recognized Representative Gibson for a motion of favorable report. The motion carried without opposition.

The Chairman then recognized Representatives Crawford and Cole to explain HB 48 – MOVING AHEAD TRANSPORTATION INITIATIVE (see attachment 4). Representative Cole explained that the transportation needs of North Carolina are growing exponentially. By 2025, the population in the state is expected to double from the current rate; thus, many more quality roads will be needed. Representative Crawford explained the specifics of the bill. The bill appropriates $300 million in fiscal year 2003-2004 and $400 million in fiscal year 2004-2005 from the State's Highway Trust Fund for "highway preservation, modernization, and maintenance" as well as for regional public transit systems (both urban and rural). According to Representative Crawford, the North Carolina Department of Transportation (DOT), under this bill plans to pursue road projects in all counties of the state and to get them underway immediately.

The Chair recognized Rep. Holliman who asked whether the bill was for road maintenance or new projects. Rep. Crawford explained that these appropriations are mostly for new projects, but are smaller projects in comparison to some of those currently underway in the state.

Representative Carney was recognized to send forth an amendment, which appointed a "Blue Ribbon" commission to study the transportation needs of the state, especially in rural areas. Representative Hackney then sent forth a perfecting amendment changing the number of members of the Commission from 5 to 6 in both the House and Senate. Upon the Chair's call, Representative

Hackney's perfecting amendment carried without objection, increasing the total membership of the Commission to 26.

Chairman Miner also recognized the audience to speak on HB 48. Duane Long, immediate past Chairman of the Greater Raleigh Chamber of Commerce and Ellis Hankins, Executive Director of the North Carolina League of Municipalities both spoke highly in support of the Carney Amendment (establishing a study commission to address the state's transportation needs).

Representative Luebke was then recognized to speak on the Carney amendment, specifically on the creation of a "blue ribbon" commission, rather than a typical study commission. He noted his belief that often, the members of these blue ribbon commissions are too full of legislators and that there should be a member from an environmental agency, such as the North Carolina Department of Environment and Natural Resources (DENR). Representative Luebke then sent forth another perfecting amendment to add an additional member of the commission to represent the state's environmental interests in regard to transportation needs, bringing the total membership of the Commission to 27. He also moved the adoption of this amendment.

Representative Wainwright was then recognized by Chairman Miner and voiced his concerns on the lack of public members on the blue ribbon commission who are from rural areas. He stated his desire to perfect Representative Luebke's perfecting amendment to include this rural membership. Representative Carney stated that she felt confident that the membership of the commission would be diversified without further additions to her proposed amendment.

The Chair then recognized Representative Decker who debated with Representative Luebke as to the necessity of an environmental member on the Commission, since there are no other members from specific areas. Following this discussion, the Chair called the vote on the Luebke perfecting amendment and it carried, but opposition was present. Having no further questions from the Committee, the Chair, upon a motion from Representative Ross, then called the vote on the adoption of Representative Carney's amendment. The motion carried by consent and the amendment was adopted.

Having concluded discussion on these amendments, Chairman Miner informed the Committee that it would now consider the full version of HB 48. Representative Hackney was then recognized to send forth an amendment. This amendment deleted section 5 of the bill, which required the approval of DENR on DOT transportation projects. The amendment carried without opposition.

Representative Howard was then recognized to voice her concern that the use of Highway Trust Fund money in this bill was not the original intention of the Fund. Specifically, she noted that the roads in rural communities have note yet been paved and that this was the trust fund's original purpose. She then sent forth an amendment to reduce the appropriations in the bill for bicycle, ferry, and other improvements from $70 million to $35 million to place the difference of these funds toward the further paving of rural roads in the state. She explained that this amendment places additional dollars for maintenance of roads, while not the traditional purpose of this bill, but helps the state make good on its original promise to constituents of the use of the Highway Trust Fund. Representative McCombs spoke in support of Howard's amendment stating that it would also help to get more of these funds to rural areas. Representative Capps also reiterated Representative Howard in that the State has a responsibility to keep promises made in earlier legislation.

The Chair then took time to recognize members of the audience who desired to speak on the full content of HB 48. Representative Gibson requested that the Committee hear from any DOT representatives that were present. Mr. Sanderson, State Highway Administrator of NCDOT and Miriam Perry, Public Transportation Director with DOT, were present to discuss the state's highway and transportation needs.

Continuing the discussion of the Howard Amendment, Chairman Miner recognized Representative Crawford who, in opposition, stated that the majority of the rural roads in the state had in fact already been paved. Representative Hill stated that his community is depending on this bill to address a very bad intersection in his district. Representative Rayfield voiced his concerns that the smaller communities of the state would not be properly provided for in this bill if the 10 most populous cities were being highlighted by DOT.

Representative Hackney, upon recognition of the Chair, spoke against the Howard Amendment stating that the current bill was already well balanced without further alteration. Representative Ross also spoke in opposition, stating that the State should take whatever matched transportation dollars from the Federal Government that it can. Representative Creech spoke in support of the Howard amendment, stating that rural communities have waited long enough to have their dirt roads paved. Chairman Miner then called the vote, but a division of the members was requested. In tallying a hand vote of 13 to 15, the Howard amendment failed.

On a question from Representative Creech, Representative Crawford explained that the road projects outlined in the bill also act as economic incentives because they are small projects, which are to be completed by local contractors in areas throughout the state.

Representative Capps was then recognized to present an amendment that would restrict $20,000 from use on a Wake County light rail system. He stated his reason for this amendment was that Wake County's transportation problems could not be helped because the City is not ready for the use of rail travel at the present time. He suggested that these funds should be used for other, more appropriate parts of the proposed transportation improvements. Representative Hackney spoke against this amendment basing his argument again on his belief that the bill, as it was, provided a balanced package, already approved by the Governor. Representatives Cole and Crawford also spoke against this amendment, citing this balance. Representative Ross stated this amendment would hurt Wake County due to the large number of youth communities (colleges, universities, etc.) in the area that could benefit from a light rail system. Representative Capps then reiterated his support of his amendment noting that it was a waste of tax dollars for Wake County at the present time. The Chair called the vote and, once again, the request for division was made. By a count of hands, the Capps amendment failed 10 to 15.

Chairman Miner then recognized Representative Hackney who made a motion for a favorable report as to HB 48, incorporating the adopted amendments into a Committee Substitute.

However, prior accepting this motion, the Chair recognized Representative Ellis who sent forth an amendment to require that none of the appropriated funds from HB 48 could be used unless the transportation projects being undertaken were completed to DOT standards. Mr. Sanderson of DOT stated that this standard is already required, but informed the Committee, along

with Representative Crawford, that he had no concerns with the amendment. The Chair then called the vote as to the Ellis amendment and it carried without dissent.

Chairman Miner then recognized Representative Hackney's earlier amendment to offer a favorable report as to HB 48, incorporating the adopted amendments into a Committee Substitute. Hearing no further questions from the Committee, the Chair called the vote and the motion carried without known opposition. Thus, HB 48 received a favorable report as to the committee substitute, unfavorable as to the original bill.

As the next item on the agenda, Representative Gibson was recognized by the Chair to explain HB 697 – TROY QUICK TAKE (see attachment 5). Representative Gibson stated that the purpose of the bill was to allow the Town of Troy and the Troy Redevelopment Commission to exercise the power of "quick-take" condemnation in the acquisition of property for the Smitherman Village neighborhood (see attached Bill Summary). Following this explanation, Representative Luebke was recognized and immediately moved for favorable report. Upon the Chair's call, the motion carried unanimously.

The Chairman then recognized Representative Gordon Allen for his birthday. The members of the Committee gave Representative Allen a standing ovation in observance of his special day.

Next, Chairman Miner recognized Representative LaRoque for explanation of the final bill on the day's agenda, HB 469 – LENOIR/DUPLIN UNPAID FEES COLLECTION (see attachment 6). He explained that the bill allows the Counties of Lenoir and Duplin "to attach personal property, garnish wages, and place liens on certain real property to collect unpaid fees for services." Having heard the explanation, the Chair recognized Representative Jones who moved for a favorable report on HB 469.

However, Representative Howard was first recognized to send forth an amendment adding the County of Davie to the text of the bill.

Representative Luebke was then recognized for a question to staff. He asked if this sort of bill was a regular occurrence because he held concerns about the large use of government taking power in this bill. Staff person Martha Walston stated that bills of a similar nature had already passed in earlier sessions. Representative Blackwood questioned Representative LaRoque as to how this bill would affect landlords. Representative LaRoque explained that this bill would affect only the individuals who have received the unpaid services, not the owners of the property if it were rented.

The Chair then recognized Representative Howard to explain her amendment. She noted that it simply adds Davie County with Lenoir and Duplin Counties in the bill. She also presented a perfecting amendment to include Columbus County (on behalf of Representative Hill). Representative Hill then moved the adoption of both amendments. The Chair called the vote on both the perfecting amendment and then the Howard amendment. Both motions carried without known opposition.

Representative Ross was then recognized by Chairman Miner and voiced her concern on the garnishment of wages in the bill. Seeing no further comments from members, the Chair called the

vote as moved by Representative Hackney for a favorable report as to the committee substitute, unfavorable as to the original on HB 469. The motion carried.

Having no further business before the Committee, Chairman Miner adjourned the meeting at 9:58 am.

HOUSE BILL 755

Committee Substitute Favorable 4/24/03

Short Title: Cary/Garner Condemnations. (Local)

Sponsors:

Referred to:

March 27, 2003

A BILL TO BE ENTITLED

AN ACT AUTHORIZING THE TOWNS OF CARY AND GARNER TO ACQUIRE PROPERTY FOR THE PRESENT OR FUTURE LOCATION OR RELOCATION OF TELEPHONE, TELEGRAPH, ELECTRIC, OR OTHER LINES TO BE OPERATED BY PUBLIC UTILITIES.

The General Assembly of North Carolina enacts:

SECTION 1. When acquiring rights-of-way for the construction or improvement of streets, the Town may also locate and acquire such additional rights-of-way as may be necessary for the present or future location or relocation, above or below ground, of telephone, telegraph, electric, and other lines, as well as gas, water, sewerage, oil, and other pipelines to be operated by public utilities defined and regulated under Chapter 62 of the General Statutes. In acquiring real property by eminent domain for these purposes, the Town may use the procedures of either Chapter 40A or Chapter 136 of the General Statutes.

SECTION 2. This act applies to the Towns of Cary and Garner.

SECTION 3. This act is effective when it becomes law.

HOUSE BILL 755:
Cary/Garner Condemnations.

BILL ANALYSIS

Committee:	House Finance	**Introduced by:**	Rep. Ross
Date:	April 29, 2003	**Summary by:**	Trina Griffin*
Version:	2nd Edition		Committee Counsel

SUMMARY: ***House Bill 755 authorizes the Towns of Cary and Garner to acquire property for the location or relocation of utility lines when it acquires property for streets. It also gives these towns the ability to acquire property through the condemnation procedures under Chapter 136 as well as under Chapter 40A. The bill would become effective when it becomes law.***

CURRENT LAW:

Acquiring property for the location of utility lines. – Cities and towns can acquire property for the construction and improvement of streets and roads. Often the construction and improvement of streets and roads involves the movement of utility lines and the need to acquire property for their location or relocation. The utility companies can acquire property for the placement of their lines, but municipalities cannot do it for them.

Acquiring property through Chapter 136. – Local public condemnors and private condemnors may acquire property under the eminent domain provisions in Chapter 40A. The Department of Transportation may acquire property under Article 9 of Chapter 136 for the construction and improvement of highways. Municipalities may also use the condemnation provisions in Article 9 of Chapter 136 for the acquisition of property related to the construction and improvement of roads and streets within their corporate boundaries that are part of the state-highway-system, but not for city streets. There are two primary differences between the acquisition authority granted by Chapter 40A and Article 9 of Chapter 136:

- Under Chapter 40A, a condemnor must give the owner of the property to be acquired 30 days notice of its intent to institute an action to condemn the property.[1] Under Article 9 of Chapter 136, the condemnor does not have to give this 30–day notice.
- Under Chapter 40A, the just compensation for the value of the property taken is generally its fair market value prior to the taking.[2] Under Chapter 136, the just compensation for the property taken is its fair market value, taking into consideration any benefits resulting from the utilization of the part taken for highway purposes.

[1] For purposes of road construction and improvement, the title to the property and the right to immediate possession vests automatically with the city subject to the filing of the condemnation complaint and deposit of the estimated just compensation. Chapter 40A and Article 9 of Chapter 136 do not differ in this point.

[2] Under Chapter 40A, the measure of compensation is the greater of either (i) the amount by which the fair market value of the entire tract immediately before the taking exceeds the fair market value of the remainder immediately after the taking or (ii) the fair market value of the property taken. The value of the property does not include an increase or decrease in value that is cause by the proposed improvement or project for which the property is taken.

BILL ANALYSIS: House Bill 755 authorizes the Towns of Cary and Garner to:

- Acquire rights-of-way for the location or relocation of utility lines when it acquires right-of-way for the construction or improvement of streets. In practice, this right-of-way would then be given to the utility companies. Utility companies are often hesitant to use their condemnation authority to acquire additional rights-of-way to relocate utility lines when a municipality undertakes street improvements. This authority will enable the Towns of Cary and Garner to acquire rights-of-way on a timelier basis, resulting in the completion of road improvement projects on a timelier basis. The Department of Transportation has this authority under G.S. 136-18(2) and the City of Raleigh has had this authority since 1991.[3]
- Use the procedures of either Chapter 40A or Chapter 136 when it acquires property by eminent domain.

*Cindy Avrette, counsel for Senate Finance, contributed substantially to this summary.

A BILL TO BE ENTITLED

AN ACT TO IMPLEMENT THE NORTH CAROLINA MOVING AHEAD TRANSPORTATION INITIATIVE BY ALLOWING CASH BALANCES IN THE HIGHWAY TRUST FUND TO BE USED TO MEET CRUCIAL TRANSPORTATION NEEDS, TO REQUIRE FUNDS DESIGNATED BY THIS ACT FOR PRESERVATION, MODERNIZATION, AND MAINTENANCE BE EXPENDED IN ACCORDANCE WITH THE EQUITY DISTRIBUTION FORMULA, TO REQUIRE THE DEPARTMENT OF TRANSPORTATION TO CERTIFY THAT USE OF FUNDS IN ACCORDANCE WITH THIS ACT WILL NOT DELAY CONSTRUCTION OF ANY HIGHWAY TRUST FUND PROJECT, TO REAFFIRM THE INTENT OF THE GENERAL ASSEMBLY THAT PROCEEDS FROM THE ISSUANCE OF BONDS UNDER AUTHORITY OF THE STATE HIGHWAY BOND ACT OF 1996 SHALL BE USED FOR THE PURPOSES STATED IN THAT ACT, AND FOR NO OTHER PURPOSE, AND TO ESTABLISH A BLUE RIBBON COMMISSION TO STUDY SOLUTIONS TO NORTH CAROLINA'S URBAN TRANSPORTATION NEEDS.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 136-176 is amended by adding a new subsection to read:

"(a3) The Department may obligate three hundred million dollars ($300,000,000) in fiscal year 2003-2004 and four hundred million dollars ($400,000,000) in fiscal year 2004-2005 of the cash balance of the Highway Trust Fund for the following purposes:

(1) Six hundred thirty million dollars ($630,000,000) for highway system preservation, modernization, and maintenance, including projects to enhance safety, reduce congestion, improve traffic flow, reduce accidents, upgrade pavement widths and shoulders, extend pavement life, improve pavement smoothness, and rehabilitate or replace deficient bridges; and for economic development transportation

projects recommended by local officials and approved by the Board of Transportation.

(2) Seventy million dollars ($70,000,000) for regional public transit systems, rural and urban public transportation system facilities, regional transportation and air quality initiatives, rail system track improvements and equipment, and other ferry, bicycle, and pedestrian improvements. For any project or program listed in this subdivision for which the Department receives federal funds, use of funds pursuant to this subdivision shall be limited to matching those funds."

SECTION 2. G.S. 136-176 is amended by adding a new subsection to read:

"(a4) Projects selection pursuant to subsection (a3) of this section shall be based on identified and documented need. Funds expended pursuant to subdivision (1) of subsection (a3) of this section shall be distributed in accordance with the distribution formula in G.S. 136-17.2A. No funds shall be expended pursuant to subdivision (1) of subsection (a3) of this section on any project that does not meet Department of Transportation standards for road construction, traffic flow standards, or sight distance criteria."

SECTION 3. G.S. 136-176 is amended by adding a new subsection to read:

"(a5) The Department shall report to the Joint Legislative Transportation Oversight Committee, on or before September 1, 2003, on its intended use of funds pursuant to subsection (a3) of this section. The Department shall report to the Joint Transportation Appropriations Subcommittee, on or before May 1, 2004, on its actual current and intended future use of funds pursuant to subsection (a3) of this section. The Department shall certify to the Joint Legislative Transportation Oversight Committee each year, on or before November 1, that use of the Highway Trust Fund cash balances for the purposes listed in subsection (a3) of this section will not adversely affect the delivery schedule of any Highway Trust Fund projects. If the Department cannot certify that the full amounts authorized in subsection (a3) of this section are available, then the Department may determine the amount that can be used without adversely affecting the delivery schedule and may proportionately apply that amount to the purposes set forth in subsection (a3) of this section."

SECTION 4. The General Assembly reaffirms its intent that the proceeds of the issuance of any bonds pursuant to the Highway Bond Act of 1996, Chapter 590 of the 1995 Session Laws, shall be used only for the purposes stated in that act, and for no other purpose.

SECTION 5.(a) Commission Established. – There is established in the General Assembly a Blue Ribbon Commission to study the unique mobility needs of urban areas in North Carolina.

SECTION 5.(b) Membership. – The Commission shall be composed of 27 members as follows:

(1) Fifteen members of the public appointed by the Governor, two of whom shall represent the Regional Transportation Alliance, one of whom shall represent the environmental community, two of whom shall represent the Business Coalition for Regional Transportation

Strategies, two of whom shall represent the North Carolina Citizens for Business and Industry, two of whom shall represent the transportation industry, and four of whom shall be mayors from among the 10 most populous municipalities in the State.

(2) Six members of the House of Representatives appointed by the Speaker of the House of Representatives.

(3) Six members of the Senate appointed by the President Pro Tempore of the Senate.

SECTION 5.(c) Secretary of Transportation. – The Commission shall invite the Secretary of Transportation to attend each meeting of the Commission and encourage his participation in the Commission's deliberations.

SECTION 5.(d) Duties of Commission. – The Commission shall study the following matters related to North Carolina's urban needs:

(1) Innovative financing approaches to mitigate urban congestion.

(2) Local revenue options which would give urban areas more control over their regional mobility future.

(3) Any other urban transportation issues if approved by the cochairs or recommended by the Secretary of Transportation and approved by the cochairs.

SECTION 5.(e) Vacancies. – Any vacancy on the Commission shall be filled by the appointing authority.

SECTION 5.(f) Cochairs. – Cochairs of the Commission shall be designated by the Speaker of the House of Representatives and the President Pro Tempore of the Senate from among their respective appointees. The Commission shall meet upon the call of the chairs. A quorum of the Commission shall be 11 members.

SECTION 5.(g) Expenses of Members. – Members of the Commission shall receive per diem, subsistence, and travel allowances in accordance with G.S. 120-3.1, 138-5, or 138-6, as appropriate.

SECTION 5.(h) Staff. – Adequate staff shall be provided to the Commission by the Legislative Services Office.

SECTION 5.(i) Consultants. – The Commission may hire consultants to assist with the study. Before expending any funds for a consultant, the Commission shall report to the Joint Legislative Commission on Governmental Operations on the consultant selected, the work products to be provided by the consultant, and the cost of the contract, including an itemization of the cost components.

SECTION 5.(j) Cooperation. – The Commission may call upon any department, agency, institution, or officer of the State or any political subdivision thereof for facilities, data, or other assistance.

SECTION 5.(k) Meetings During Legislative Session. – The Commission may meet during a regular or extra session of the General Assembly, subject to approval of the Speaker of the House of Representatives and the President Pro Tempore of the Senate.

SECTION 5.(l) Meeting Location. – The Commission shall meet at various locations around the State in order to promote greater public participation in its

deliberations. The Legislative Services Commission shall grant adequate meeting space to the Commission in the State Legislative Building or the Legislative Office Building.

SECTION 5.(m) Report. – The Commission shall make an interim report of its findings and recommendations to the 2004 Regular Session of the 2003 General Assembly and shall make a final report of its findings and recommendations to the 2005 General Assembly. The Committee shall submit copies of the reports to the Governor and the Secretary of Transportation. Upon the filing of its final report, the Commission shall terminate.

SECTION 5.(n) Funding. – The Commission may apply for, receive, and accept grants of non-State funds, or other contributions as appropriate to assist in the performance of its duties.

SECTION 5.(o) Appropriation. – Of the funds appropriated to the General Assembly, the Legislative Services Commission shall allocate sufficient funds for the expenses of the Commission.

SECTION 5.(p) This section is effective when it becomes law.

SECTION 6. Except as otherwise provided, this act becomes effective July 1, 2003.

A BILL TO BE ENTITLED

AN ACT TO IMPLEMENT THE NORTH CAROLINA MOVING AHEAD TRANSPORTATION INITIATIVE BY ALLOWING CASH BALANCES IN THE HIGHWAY TRUST FUND TO BE USED TO MEET CRUCIAL TRANSPORTATION NEEDS, TO REQUIRE FUNDS DESIGNATED BY THIS ACT FOR PRESERVATION, MODERNIZATION, AND MAINTENANCE BE EXPENDED IN ACCORDANCE WITH THE EQUITY DISTRIBUTION FORMULA, TO REQUIRE THE DEPARTMENT OF TRANSPORTATION TO CERTIFY THAT USE OF FUNDS IN ACCORDANCE WITH THIS ACT WILL NOT DELAY CONSTRUCTION OF ANY HIGHWAY TRUST FUND PROJECT, TO REAFFIRM THE INTENT OF THE GENERAL ASSEMBLY THAT PROCEEDS FROM THE ISSUANCE OF BONDS UNDER AUTHORITY OF THE STATE HIGHWAY BOND ACT OF 1996 SHALL BE USED FOR THE PURPOSES STATED IN THAT ACT, AND FOR NO OTHER PURPOSE, AND TO EXPEDITE THE ISSUANCE OF PERMITS BY THE DEPARTMENT OF ENVIRONMENT AND NATURAL RESOURCES.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 136-176 is amended by adding a new subsection to read:

"(a3) The Department may obligate three hundred million dollars ($300,000,000) in fiscal year 2003-2004 and four hundred million dollars ($400,000,000) in fiscal year 2004-2005 of the cash balance of the Highway Trust Fund for the following purposes:

(1) Six hundred thirty million dollars ($630,000,000) for highway system preservation, modernization, and maintenance, including projects to enhance safety, reduce congestion, improve traffic flow, reduce accidents, upgrade pavement widths and shoulders, extend pavement life, improve pavement smoothness, and rehabilitate or replace deficient bridges; and for economic development transportation projects recommended by local officials and approved by the Board of Transportation.

(2) Seventy million dollars ($70,000,000) for regional public transit systems, rural and urban public transportation system facilities, regional transportation and air quality initiatives, rail system track improvements and equipment, and other ferry, bicycle, and pedestrian improvements. For any project or program listed in this subdivision for which the Department receives federal funds, use of funds pursuant to this subdivision shall be limited to matching those funds."

SECTION 2. G.S. 136-176 is amended by adding a new subsection to read:

"(a4) Projects selection pursuant to subsection (a3) of this section shall be based on identified and documented need. Funds expended pursuant to subdivision (1) of subsection (a3) of this section shall be distributed in accordance with the distribution formula in G.S. 136-17.2A."

SECTION 3. G.S. 136-176 is amended by adding a new subsection to read:

"(a5) The Department shall report to the Joint Legislative Transportation Oversight Committee, on or before September 1, 2003, on its intended use of funds pursuant to subsection (a3) of this section. The Department shall report to the Joint Transportation Appropriations Subcommittee, on or before May 1, 2004, on its actual current and intended future use of funds pursuant to subsection (a3) of this section. The Department shall certify to the Joint Legislative Transportation Oversight Committee each year, on or before November 1, that use of the Highway Trust Fund cash balances for the purposes listed in subsection (a3) of this section will not adversely affect the delivery schedule of any Highway Trust Fund projects. If the Department cannot certify that the full amounts authorized in subsection (a3) of this section are available, then the Department may determine the amount that can be used without adversely affecting the delivery schedule and may proportionately apply that amount to the purposes set forth in subsection (a3) of this section."

SECTION 4. The General Assembly reaffirms its intent that the proceeds of the issuance of any bonds pursuant to the Highway Bond Act of 1996, Chapter 590 of the 1995 Session Laws, shall be used only for the purposes stated in that act, and for no other purpose.

SECTION 5. Chapter 136 of the General Statutes is amended by adding a new section to read:

"**§ 136-44.7B. Permit issuance by Department of Environment and Natural Resources for transportation construction projects.**

(a) Once the Department of Environment and Natural Resources or any agency within the Department of Environment and Natural Resources has received a complete application for a permit that is required for a transportation construction project to be undertaken by or on behalf of the Department of Transportation, the Department of Environment and Natural Resources shall expedite the review of the application and shall issue or deny the permit within 90 days of receipt of the submission. All permits not denied within that time limit shall be deemed approved. The Secretary of Environment and Natural Resources and the Secretary of Transportation shall jointly decide any question as to whether an application for a permit is complete. If the

Secretary of Environment and Natural Resources and the Secretary of Transportation are unable to jointly decide any question, the Governor shall decide the question.

(b) Once the Department of Environment and Natural Resources or any agency within the Department of Environment and Natural Resources has issued a permit that is required for a transportation construction project to be undertaken by or on behalf of the Department of Transportation, that permit shall remain in effect until the project is completed. The permit shall not expire and shall not be modified or cancelled for any reason, including a subsequent change in federal law or regulations or in State law or rules, unless at least one of the following occurs:

(1) The modification or cancellation is requested by the Department of Transportation.

(2) The modification or cancellation is clearly required by a change in federal law or regulations and a failure to modify or cancel the permit by the Department of Environment and Natural Resources would result in a loss of federal program delegation or a significant reduction in the availability of federal funds to the Department of Environment and Natural Resources or to the Department of Transportation.

(3) The modification or cancellation is clearly required by a change in State law as a result of an act of the General Assembly that includes a statement that the General Assembly specifically intends the change in State law to apply to ongoing transportation construction projects.

(4) The modification or cancellation is ordered by a court of competent jurisdiction.

(5) The nature or scope of the transportation construction project is significantly expanded or otherwise altered."

SECTION 6. This act becomes effective July 1, 2003.

moves to amend the bill
on page 1, line 14, by rewriting that line to read:
"PURPOSES STATED IN THAT ACT, AND FOR NO OTHER PURPOSE, TO ESTABLISH A BLUE RIBBON COMMISSION TO STUDY SOLUTIONS TO NORTH CAROLINA'S URBAN TRANSPORTATION NEEDS, AND";

on page 3, line 26, by rewriting the line to read:

"SECTION 6.(a) Commission Established. -- There is established in the General Assembly a Blue Ribbon Commission to study the unique mobility needs of urban areas in North Carolina.

SECTION 6.(b) Membership. -- The Commission shall be composed of 24 members as follows:

(1) Fourteen members of the public appointed by the Governor, two of whom shall represent the Regional Transportation Alliance, two of whom shall represent the Business Coalition for Regional Transportation Strategies, two of whom shall represent the North Carolina Citizens for Business and Industry, two of whom shall represent the transportation industry, and four of whom shall be mayors from among the ten most populous municipalities in the State.

(2) Five members of the House of Representatives appointed by the Speaker of the House of Representatives.

(3) Five members of the Senate appointed by the President Pro Tempore of the Senate.

SECTION 6.(c) Secretary of Transportation. – The Commission shall invite the Secretary of Transportation to attend each meeting of the Commission and encourage his participation in the Commission's deliberations.

SECTION 6.(d) Duties of Commission. – The Commission shall study the following matters related to North Carolina's urban needs:

(1) Innovative financing approaches to mitigate urban congestion.

(2) Local revenue options which would give urban areas more control over their regional mobility future.

(3) Any other urban transportation issues if approved by the cochairs or recommended by the Secretary of Transportation and approved by the cochairs.

SECTION 6.(e) Vacancies. – Any vacancy on the Commission shall be filled by the appointing authority.

SECTION 6.(f) Cochairs. – Cochairs of the Commission shall be designated by the Speaker of the House of Representatives and the President Pro Tempore of the Senate from among their respective appointees. The Commission shall meet upon the call of the chairs. A quorum of the Commission shall be eleven members.

SECTION 6.(g) Expenses of Members. – Members of the Commission shall receive per diem, subsistence, and travel allowances in accordance with G.S. 120-3.1, 138-5, or 138-6, as appropriate.

SECTION 6.(h) Staff. – Adequate staff shall be provided to the Commission by the Legislative Services Office.

SECTION 6.(i) Consultants. – The Commission may hire consultants to assist with the study. Before expending any funds for a consultant, the Commission shall report to the Joint Legislative Commission on Governmental Operations on the consultant selected, the work products to be provided by the consultant, and the cost of the contract, including an itemization of the cost components.

SECTION 6.(j) Cooperation. – The Commission may call upon any department, agency, institution, or officer of the State or any political subdivision thereof for facilities, data, or other assistance.

SECTION 6.(k) Meetings During Legislative Session. – The Commission may meet during a regular or extra session of the General Assembly, subject to approval

of the Speaker of the House of Representatives and the President Pro Tempore of the Senate.

SECTION 6.(l) Meeting Location. – The Commission shall meet at various locations around the State in order to promote greater public participation in its deliberations. The Legislative Services Commission shall grant adequate meeting space to the Commission in the State Legislative Building or the Legislative Office Building.

SECTION 6.(m) Report. – The Commission shall make an interim report of its findings and recommendations to the 2004 Regular Session of the 2003 General Assembly and shall make a final report of its findings and recommendations to the 2005 General Assembly. The Committee shall submit copies of the reports to the Governor and the Secretary of Transportation. Upon the filing of its final report, the Commission shall terminate.

SECTION 6.(n) Funding. – The Commission may apply for, receive, and accept grants of non-State funds, or other contributions as appropriate to assist in the performance of its duties.

SECTION 6.(o) Appropriation. – Of the funds appropriated to the General Assembly, the Legislative Services Commission shall allocate sufficient funds for the expenses of the Commission.

SECTION 6.(p) This section is effective when it becomes law.

SECTION 7. Except as otherwise provided, this act becomes effective July 1, 2003."

PRINCIPAL CLERK'S OFFICE

HOUSE BILL 48:
Moving Ahead Transportation Initiative

BILL ANALYSIS

Committee:	House Finance	**Sponsor:**	Rep. Crawford and Cole
Date:	April 29 2003	**Analysis by:**	Martha Walston
Version:	2nd Edition		Committee Counsel

SUMMARY: House Bill 48 (2nd Ed) does the following:

- *Authorizes the Department of Transportation (DOT) to use $300 million in fiscal year 2003-2004, and $400 million in fiscal year 2004-2005 of the cash balance of the Highway Trust Fund for specified purposes.*
- *Requires DOT to report on its intended, actual, and future use of the above funds.*
- *Requires the Department of Environment and Natural Resources (DENR) to expedite the permit review process for permits required for transportation construction projects undertaken by DOT.*

CURRENT LAW: The Highway Trust Fund was established in 1989 for the purposes of funding highway construction. The purposes include intrastate system projects, urban loop projects, city streets, and secondary roads. The 2001 General Assembly permitted the use of $680 million of Trust Fund cash balances over three fiscal years for additional purposes, primarily maintenance. At the end of January 2003, the cash balance in the Highway Trust Fund was $213 million.

The Highway Trust Fund's primary revenue sources are ¼ of the motor fuel tax, a 3% Highway Use Tax, title fees and various registration fees, and interest earned on cash balances.

BILL ANALYSIS: Section 1 of House Bill 48 amends G.S. 136-176 (the Highway Trust Fund statute) by adding a new subsection that provides more flexibility in the Highway Trust Fund. This new subsection authorizes DOT to use $300 million in fiscal year 2003-2004 and $400 million in fiscal year 2004-2005 of the cash balance of the Highway Trust Fund for the following purposes:

1. ~~$680~~ million for highway system preservation, modernization, and maintenance.
2. $70 million for regional public transit systems, rural and urban public transportation system facilities, regional transportation and air quality initiatives, rail system track improvements and equipment, and other ferry, bicycle, and pedestrian improvements. If federal funds are received for any of these projects, then the funds from the cash balance of the Highway Trust Fund shall be limited to matching the federal funds.

Section 2 of HB 48 amends the Highway Trust Fund statute to require that projects selected under the new subsection must be based on identified and documented need. Funds expended for highway system preservation, modernization, and maintenance must be distributed in accordance with the equity distribution formula in G.S. 136-17.2A.

Section 3 of HB 48 amends the Highway Trust Fund statute to require DOT to report on the funds authorized by the new subsection as follows:

- DOT must report to the Joint Legislative Transportation Oversight Committee by September 1, 2003, on the intended use of the funds.
- DOT must report to the Joint Transportation Appropriations Subcommittee by May 1, 2004, on it actual current and intended future use of the funds.
- DOT must certify to the Joint Legislative Transportation Oversight Committee each year by November 1, that use of the Highway Trust Fund cash balances for the purposes authorized by the new subsection will not adversely affect the delivery schedule of any Highway Trust Fund projects. If DOT cannot certify that the authorized amounts in the cash balance of the Highway Trust Fund will not have an adverse effect, then DOT may determine the amount that can be used without adversely affecting the delivery schedule and proportionately apply this amount to the purposes authorized in the new subsection.

Section 4 of HB 48 reaffirms the intent of the General Assembly that the proceeds from the issuance of any bonds pursuant to the Highway Bond Act of 1996 are to be used only for the purposes stated in that act, and for no other purpose.[1]

Section 5 of HB 48 adds a new statute to Article 2A (State Roads Generally) of Chapter 136 (Roads and Highways) that would expedite the permit process for a transportation construction project undertaken by DOT. Once DENR has received a complete application for a permit that is required for a transportation construction project, DENR must issue or deny the permit within 90 days of the application's receipt. If the permit is not denied within the 90-day time limit, then the permit is deemed approved. The Secretaries of DENR and DOT will jointly decide if an application for a permit is complete. If the Secretaries are unable jointly to decide any question, the Governor shall make the decision. Once a permit has been issued, it will remain in effect until the transportation project is completed. However, the permit may be modified or cancelled if (1) requested by DOT, (2) required by change in federal law and a failure to modify or cancel the permit would result in a loss of federal funds, (3) required by change in State law that expressly states that the change applies to ongoing transportation construction projects, (4) the modification or cancellation is ordered by the courts, or (5) the nature or scope of the transportation construction project is significantly altered.

[1] The State Highway Bond Act of 1996, subject to the vote of the people, authorized the issuance of $950 million general obligation bonds of the State for the purpose of providing funds, with any other available funds, for constructing, improving, and relocating roads, bridges, tunnels, and other highway facilities constituting at the time of the construction, improvement, and relocation, urban loops, highways in the Intrastate System, or a part of the State secondary highway system.

For Rep Stam

From Rep Stam re HB 48 (not discussed)

The State Board of Elections shall reimburse the counties of the State for all necessary expenses incurred in holding the election which are in addition to those which would have otherwise been incurred, these expenses to be paid out of the Contingency and Emergency Fund or other funds available to the State Board of Elections.

Ballots, voting systems authorized by Article 14 of Chapter 163 of the General Statutes, or both may be used in accordance with rules prescribed by the State Board of Elections. The bond question to be used in the ballots or voting systems shall be in substantially the following form:

[ ] FOR [ ] AGAINST

The issuance of nine hundred fifty million dollars ($950,000,000) State of North Carolina Highway Bonds constituting general obligation bonds of the State secured by a pledge of the faith and credit and taxing power of the State for the purpose of providing funds, with any other available funds, through the application of not in excess of five hundred million dollars ($500,000,000) of the bonds to pay the capital costs of urban loops, the application of not in excess of three hundred million dollars ($300,000,000) of the bonds to pay the capital costs of Intrastate System projects, and the application of not in excess of one hundred fifty million dollars ($150,000,000) of the bonds to pay the capital costs of projects constituting a part of the State secondary highway system resulting in the paving of unpaved roads.

If a majority of those voting on the bond question vote in favor of the issuance of the bonds, the bonds may be issued as provided in this act. If a majority of those voting on the bond question vote against the issuance of the bonds, the bonds shall not be issued.

The results of the election shall be canvassed and declared as provided by law for the holding of elections for State officers; the results of the election shall be certified by the State Board of Elections to the Secretary of State, in the manner and at the time provided by the general election laws of the State.

Sec. 10. Issuance of bonds and notes. (a) Terms and conditions. Bonds or notes may bear such date or dates, may be serial or term bonds or notes, or any combination thereof, may mature in such amounts and at such time or times, not later than December 1, 2013, may be payable at such place or places, either within or without the United States of America, in such coin or currency of the United States of America as at the time of payment is legal tender for payment of public and private debts, may bear interest at such rate or rates, which may vary from time to time, and may be made redeemable before maturity, at the option of the State or otherwise as may be provided by the State, at such price or prices, including a price less than the face amount of the bonds or notes, and under such terms and conditions, all as may be determined by the State Treasurer, by and with the consent of the Council of State.

(b) Signatures; form and denomination; registration. Bonds or notes may be issued as certificated or uncertificated obligations. If issued as certificated obligations, bonds or notes shall be signed on behalf of the State

HOUSE BILL 697
Committee Substitute Favorable 4/16/03

Short Title: Troy Quick Take. (Local)

Sponsors:

Referred to:

March 27, 2003

A BILL TO BE ENTITLED

AN ACT TO ALLOW THE CITY OF TROY AND ITS REDEVELOPMENT COMMISSION TO ACQUIRE PROPERTY WITHIN A REDEVELOPMENT AREA USING THE "QUICK TAKE" PROCEDURE.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 40A-42(a)(1) reads as rewritten:

"(1) When a local public condemnor is acquiring property by condemnation for a purpose set out in G.S. 40A-3(b)(1), (4) or (7), or when a city is acquiring property for a purpose set out in G.S. 160A-311(1), (2), (3), (4), (6), or (7), or when a city or city redevelopment commission is acquiring property within a redevelopment area under a redevelopment plan adopted pursuant to Article 22 of Chapter 160A, or when a county is acquiring property for a purpose set out in G.S. 153A-274(1), (2) or (3), or when a local board of education or any combination of local boards of education is acquiring property for any purpose set forth in G.S. 115C-517, or when a condemnor is acquiring property by condemnation as authorized by G.S. 40A-3(c)(8), (9), (10), (12), or (13), title to the property and the right to immediate possession shall vest pursuant to this subsection. Unless an action for injunctive relief has been initiated, title to the property specified in the complaint, together with the right to immediate possession thereof, shall vest in the condemnor upon the filing of the complaint and the making of the deposit in accordance with G.S. 40A-41."

SECTION 2. This act applies to the Town of Troy and the Troy Redevelopment Commission when acquiring property for the "Smitherman Village" neighborhood only.

SECTION 3. This act is effective when it becomes law and expires July 1, 2008.

HOUSE BILL 697:
Troy Quick Take.

BILL ANALYSIS

Committee:	House Finance	**Introduced by:**	Rep. Gibson
Date:	April 29, 2003	**Summary by:**	Trina Griffin
Version:	2nd Edition		Committee Counsel

SUMMARY: ***House Bill 697 authorizes the Town of Troy and the Troy Redevelopment Commission to exercise the power of "quick-take" condemnation to acquire property for the Smitherman Village neighborhood. The act would be effective when it becomes law and would expire July 1, 2008.***

CURRENT LAW:

General Condemnation Procedures: Both municipalities and redevelopment commissions are granted the authority to acquire real property by eminent domain in accordance with Chapter 40A. Under general condemnation procedures, title to the property and the right of possession vests in the city or county (or redevelopment commission) seeking condemnation only after one of the following occur: (1) the property owners do not contest the taking but only request a determination of just compensation; (2) the owners do not respond within 120 days of service of the condemnation action; or (3) the deposit made by the locality is disbursed by the court in accordance with G.S. 40A-44.

"Quick-Take" Procedures: Under current law, cities and counties may use the power of "quick-take" condemnation for purposes set out in G.S. 40A-3 and 40A-42, which include:

- Opening or improving roads, streets, and sidewalks.
- Establishing or improving storm sewer and drainage systems and works, or sewer and septic tank lines and systems.
- Establishing drainage programs

In addition, cities may use quick-take procedures for electricity, water supply and distribution, wastewater treatment and disposal, gas, solid waste collection and disposal, and cable television; counties may use quick-take for water, wastewater treatment and disposal, and solid waste collection and disposal.

Under quick-take condemnation procedures, title to the property and the right to immediate possession vests upon the filing of the complaint and the making of a deposit in an amount estimated by the condemnor to be just compensation for the taking, unless an action for injunctive relief has been initiated.

BILL ANALYSIS: House Bill 697 authorizes the Town of Troy and the Troy Redevelopment Commission to use quick-take condemnation procedures for acquiring property within a redevelopment area under a redevelopment plan. This authority is only with respect to property acquired for the Smitherman Village project. Currently, the town council members of the Town of Troy comprise the membership of the Troy Redevelopment Commission.

HOUSE BILL 469

Committee Substitute Favorable 4/28/03

PROPOSED COMMITTEE SUBSTITUTE H469-PCS60316-LA-13

Short Title: Several Counties Unpaid Fees Collection. (Local)

Sponsors:

Referred to:

March 13, 2003

A BILL TO BE ENTITLED

AN ACT TO AUTHORIZE COLUMBUS, DAVIE, DUPLIN, AND LENOIR COUNTIES, CERTAIN DISTRICTS CREATED BY THESE COUNTIES, AND MUNICIPALITIES LOCATED WITHIN THESE COUNTIES TO ATTACH PERSONAL PROPERTY, GARNISH WAGES, AND PLACE LIENS ON CERTAIN REAL PROPERTY TO COLLECT UNPAID FEES FOR SERVICES.

The General Assembly of North Carolina enacts:

SECTION 1. A county may adopt an ordinance providing that any fee charged by the county and remaining unpaid for a period of 90 days may be collected in any manner by which delinquent personal or real property taxes can be collected. If the ordinance states that delinquent fees may be collected in the same manner as delinquent real property taxes, the delinquent fees are a lien on the real property owned by the person contracting with the county for the service, and the ordinance shall provide for an appeals process. If a lien is placed on real property, the lien shall be valid from the time of filing in the office of the clerk of superior court of the county in which the service was provided a statement containing the name and address of the person against whom the lien is claimed, the name of the county, county water and sewer district, county service district, or municipality, whichever applies, claiming the lien, the specific service that was provided, the amount of the unpaid charge for that service, and the date and place of furnishing that service. No lien under this act shall be valid unless filed in accordance with this section after 90 days of the date of the failure to pay for the service and within 180 days of the date of the failure to pay for the service. The lien may be discharged as provided in G.S. 44-48.

SECTION 2. The reference to county shall include a county, a county water and sewer district created under Article 6 of Chapter 162A of the General Statutes, a county service district created under Article 16 of Chapter 153A of the General Statutes, or a municipality located wholly or partly within that county.

SECTION 3. This act shall not apply to fees collectable under Articles 9A and 9B of Chapter 44 of the General Statutes, G.S. 153A- 293, and G.S. 160A-314.1.

SECTION 4. This act applies only to Columbus, Davie, Duplin, and Lenoir Counties, county water and sewer districts located in Columbus, Davie, Duplin, or Lenoir County, county service districts located within Columbus, Davie, Duplin, or Lenoir County, and municipalities located wholly or partially within Columbus, Davie, Duplin, or Lenoir County.

SECTION 5. This act becomes effective July 1, 2003.

HOUSE BILL 469:
Lenoir/Duplin Unpaid Fees Collection

BILL ANALYSIS

Committee:	House Finance	**Sponsor:**	Rep. LaRoque
Date:	April 28, 2003	**Analysis by:**	Martha Walston*
Version:	2nd Edition		Committee Counsel

SUMMARY: House bill 469 would permit the Counties of Lenoir and Duplin, any municipality located wholly or partly in either county, and water and waste-water authorities in those counties to collect any fee owed to the local government that remains unpaid 90 days as if the fee were a delinquent property tax.

CURRENT LAW: Local governments are authorized to charge fees for various services provided to the citizens of the jurisdiction. Examples of programs that might charge fees include: participating in recreational activities, solid waste, water and waste water system, transportation systems, mental health services, health services, environmental health, concealed handgun permit, animal control, etc.

Several of the fees have statutory provisions for collection. Examples include:

- PUBLIC ENTERPRISES. G.S. 153A-277(b) provides that a county operating a public enterprise may disconnect services after an account is delinquent for 10 days. G.S. 160A-314(b) provides like authority for municipalities operating public enterprises. G.S. 162A-9 provides a similar authority for water and sewer authorities after an account is delinquent 30 days.
- AMBULANCE SERVICES. G.S. 44-51.4 allows a local government to collect an account 90 days delinquent through the use of attachment and garnishment proceedings set forth for the collection of property taxes. G.S. 44-51.1 also allows the placement of a lien on real property for unpaid ambulance fees.
- SOLID WASTE FEES. G.S. 153A-293 permits a county to enact an ordinance providing that a solid waste fee may be billed and collected as a property tax. G.S. 160A-214.1(b) provides like authority for municipalities.

BILL ANALYSIS: House Bill 469 would allow the Counties of Lenoir and Duplin, any municipality located wholly or partly in those counties, or a water or sewer authority located in those counties to collect any fee owed to the local government that is past due for 90 days as if it were a property tax. The bill would require the local government to enact an ordinance stating this is a method of collection in that local government's jurisdiction, and would exempt the ambulance and solid waste fees.

*Erika Churchill, counsel to House Local Government I, contributed substantially to this summary.

Currently under general law, property taxes may be collected in the following ways:

- Placement of a lien on real and personal property that are superior to all other liens.
- Sale of personal property.
- Attachment and garnishment of wages and bank accounts.
- Sale of real property.

If the county seeks to collect the delinquent fee by placing a lien on real property, a statement must be filed with the clerk of superior court. The statement must contain the name and address of the delinquent person, the name of the local government claiming the lien, the specific service that was provided, the amount of the unpaid charge, and the date and place of furnishing the service. To be valid, the lien must be filed after 90 days from the date of the failure to pay and within 180 days of the date of the failure to pay.

EFFECTIVE DATE: The act would become effective when it becomes law.

House Committee on Finance

Minutes

~

May 22, 2003

The House Committee on Finance met on Tuesday, May 22, 2003 at 8:30 am in Room 544 of the Legislative Office Building. The following members were present: Chairpersons G. Allen, Luebke, and Wainwright; Vice-Chairs Alexander, Gibson, and Hill; and Representatives Blackwood, Bordsen, Capps, Ellis, Hackney, Holliman, Jones, McGee, Rayfield, Ross, Setzer, Weiss, Womble, and Wood. Also present were Sergeant-at-Arms Bob Fowler, Bill Freeman, Dusty Rhodes, and Jackson Stanley. Staff persons present included Cindy Avrette, Richard Bostic, Jerry Cohen, Trina Griffin, Linda Millsaps, Alexei Pavlichev, and Martha Walston. The Agenda and Visitor Registration Sheet are attached and incorporated into these minutes as attachments 1 and 2.

Chairman Wainwright called the meeting to order at 8:35 am and immediately recognized the two pages present: Zachary Pope of Haywood County, sponsored by Representative Rapp and Elizabeth Edwards of Rowan County, sponsored by Representative McCombs. She also thanked the Sergeant-at-Arms and Staff for their regular attendance and assistance.

As the first matter of business, Chairman Wainwright recognized Representative Gulley to explain HB 705 – MATTHEWS ANNEXATION (see attachment 3). This bill acts to extend the corporate limits of the Town of Matthews to include the entire area remaining in its "sphere of influence" within Mecklenburg County. Chairman Wainwright recognized Representative Rayfield who asked if there was any known opposition to the bill in the areas of annexation. Representative Gulley stated that the only opposition he was aware of was from the County with regard to the few lands they still held in the proposed annexation areas. Otherwise, he stated that the bill was highly supported. Representative Rayfield then moved for a favorable report on HB 705. The motion carried with no known opposition.

Sen. Stevens was then recognized by the Chairman to explain SB 181 – APEX QUICKTAKE ROADS/HISTORIC STRUCTURES (see attachment 4). The Senator explained that the bill authorizes the Town of Apex to do two different things. First, it allows the Town to use the same condemnation procedures and authority for roads that the Department of Transportation uses. Second, it adopts ordinances for the Town to regulate the demolition of historic structures in its Historic District. Senator Stevens also stated that there was no known opposition on the bill. Without further discussion, Chairman Wainwright recognized Representative Ross who moved for a favorable report on SB 181. The motion carried by consent.

The Chair next recognized Representative Nye to explain HB 1260 – RAISE CEILING/SPEECH PATH./AUDIOLOGIST FEES (see attachment 5). HB 1260 amends the fees that Board of Examiners for Speech and Language Pathologists and Audiologists can charge by increasing the set $40 fees for the initial license fee and the renewal license fee to maximum fees of $100 for the initial license and license renewal. Discussion among the members, particularly from Representative Capps, ensued noting the concern of the Committee that the levels of the fees were being raised more than 100 percent. Representative Nye stated that the fees had not been increased

since 1987 and that the costs of inflation alone made up a significant part of this increase. Seeing no further discussion, Chairman Wainwright recognized Representative Holliman who moved for a favorable report. The Chair called the vote and the motion carried without objection.

The Chair then recognized Representative Moore to explain HB 163 – KINGS MTN. ANNEX WATER SYSTEM (see attachment 6). He explained that the bill acts to allow the City of Kings Mountain to annex certain described property owned by the town by voluntary annexation without having to meet the customary statutory requirements. Representative Moore also noted that there was a Proposed Committee Substitute for the bill; however, Staff was unaware of this. The Chair then temporarily displaced HB 163 so that Representative Moore could confer with Staff on the matter

In the interim, the Chair recognized Sen. Apodaca to explain SB 288 – POLK SCHOOL ACQUISITION (see attachment 7). He explained that the bill acts to add Polk County to the list of 87 counties in North Carolina that are authorized to acquire school property on behalf of their boards of education. He stated that the bill would be effective when it became law and that there was no known opposition on the matter. Having no discussion from the members, Chairman Wainwright recognized Representative McGee who then moved for a favorable report on SB 288. The Chair called the vote and the motion carried unanimously.

The Chair next recognized Representative Alexander to explain HB 1118 – DISPLAY FETAL ALCOHOL SYNDROME WARNING SIGNS (see attachment 8). She explained that the bill requires each ABC store to prominently display a warning sign stating that drinking alcohol during pregnancy can cause birth defects. The bill further requires the ABC Commission to develop the signs and provide for their distribution (for additional details see Bill Analysis in attachment). Following the explanation, Representative Rayfield was recognized for a question. He asked Representative Alexander who was responsible to pay for the required signs. Representative Alexander responded that each individual retail store would be responsible for the costs, which cannot exceed $25.00). Representative Ellis was also recognized by the Chair and commended Representative Alexander on her bill, stating that the best way to protect our pregnant mothers was through education. Chairman Wainwright then recognized Representative Jones, who moved for a favorable report on HB 1118. Seeing no further questions, the Chair called the vote and the motion carried without opposition.

The Chairman then replaced HB 163 - KINGS MTN. ANNEX WATER SYSTEM (see attachment 6). Representative Moore stated that the bill before the Committee was the correct version of the bill and then requested the member's support. (Staff was able to determine that the Committee Substitute on the bill, as mentioned above, had been adopted in an earlier meeting in the House Committee on Local Government I). Seeing no discussion on the bill, Chairman Wainwright recognized Representative McGee for a motion of favorable report.

Representative Luebke was recognized by the Chair to explain the last bill before the Committee for consideration (for the Sponsor, Senator Gulley): SB 214 – RES AND PRODUCTION SVC. DIST. DEANNEXATION (see attachment 9). He explained that the bill establishes a procedure to remove property from a research and production service district and, although a public bill, only effects portions of Durham and Wake County. This deannexation can only be accomplished once a number of requirements have been met (see Bill Analysis for details).

Seeing no discussion or questions on the bill, Chairman Wainwright recognized Representative Weiss who moved for a favorable report on SB 214. The Chair called for the vote and the motion carried without known opposition.

The Chair then made the announcement that the next House Finance Committee Meeting would be held on the following Wednesday, May 28, 2003, at 8:30 am in the same location.

Having no further business before the Committee, Chairman Wainwright wished the Committee members a good Memorial Day holiday and then adjourned the meeting at 9:03 am.

Respectfully submitted,

Representative William Wainwright

Representative Gulley stated that the only opposition he was aware of was from the County with regard to the few lands they still held in the proposed annexation areas. Otherwise, he stated that the bill was highly supported. Representative Rayfield then moved for a favorable report on HB 705. The motion carried with no known opposition.

Sen. Stevens was then recognized by the Chairman to explain SB 181 – APEX QUICKTAKE ROADS/HISTORIC STRUCTURES (see attachment 4). The Senator explained that the bill authorizes the Town of Apex to do two different things. First, it allows the Town to use the same condemnation procedures and authority for roads that the Department of Transportation uses. Second, it adopts ordinances for the Town to regulate the demolition of historic structures in its Historic District. Senator Stevens also stated that there was no known opposition on the bill. Without further discussion, Chairman Wainwright recognized Representative Ross who moved for a favorable report on SB 181. The motion carried by consent.

The Chair next recognized Representative Nye to explain HB 1260 – RAISE CEILING/SPEECH PATH./AUDIOLOGIST FEES (see attachment 5). HB 1260 amends the fees that Board of Examiners for Speech and Language Pathologists and Audiologists can charge by increasing the set $40 fees for the initial license fee and the renewal license fee to maximum fees of $100 for the initial license and license renewal. Discussion among the members, particularly from Representative Capps, ensued noting the concern of the Committee that the levels of the fees were being raised more than 100 percent. Representative Nye stated that the fees had not been increased

since 1987 and that the costs of inflation alone made up a significant part of this increase. Seeing no further discussion, Chairman Wainwright recognized Representative Holliman who moved for a favorable report. The Chair called the vote and the motion carried without objection.

The Chair then recognized Representative Moore to explain HB 163 – KINGS MTN. ANNEX WATER SYSTEM (see attachment 6). He explained that the bill acts to allow the City of Kings Mountain to annex certain described property owned by the town by voluntary annexation without having to meet the customary statutory requirements. Representative Moore also noted that there was a Proposed Committee Substitute for the bill; however, Staff was unaware of this. The Chair then temporarily displaced HB 163 so that Representative Moore could confer with Staff on the matter

In the interim, the Chair recognized Sen. Apodaca to explain SB 288 – POLK SCHOOL ACQUISITION (see attachment 7). He explained that the bill acts to add Polk County to the list of 87 counties in North Carolina that are authorized to acquire school property on behalf of their boards of education. He stated that the bill would be effective when it became law and that there was no known opposition on the matter. Having no discussion from the members, Chairman Wainwright recognized Representative McGee who then moved for a favorable report on SB 288. The Chair called the vote and the motion carried unanimously.

The Chair next recognized Representative Alexander to explain HB 1118 – DISPLAY FETAL ALCOHOL SYNDROME WARNING SIGNS (see attachment 8). She explained that the bill requires each ABC store to prominently display a warning sign stating that drinking alcohol during pregnancy can cause birth defects. The bill further requires the ABC Commission to develop the signs and provide for their distribution (for additional details see Bill Analysis in attachment). Following the explanation, Representative Rayfield was recognized for a question. He asked Representative Alexander who was responsible to pay for the required signs. Representative Alexander responded that each individual retail store would be responsible for the costs, which cannot exceed $25.00). Representative Ellis was also recognized by the Chair and commended Representative Alexander on her bill, stating that the best way to protect our pregnant mothers was through education. Chairman Wainwright then recognized Representative Jones, who moved for a favorable report on HB 1118. Seeing no further questions, the Chair called the vote and the motion carried without opposition.

The Chairman then replaced HB 163 - KINGS MTN. ANNEX WATER SYSTEM (see attachment 6). Representative Moore stated that the bill before the Committee was the correct version of the bill and then requested the member's support. (Staff was able to determine that the Committee Substitute on the bill, as mentioned above, had been adopted in an earlier meeting in the House Committee on Local Government I). Seeing no discussion on the bill, Chairman Wainwright recognized Representative McGee for a motion of favorable report.

Representative Luebke was recognized by the Chair to explain the last bill before the Committee for consideration (for the Sponsor, Senator Gulley): SB 214 – RES AND PRODUCTION SVC. DIST. DEANNEXATION (see attachment 9). He explained that the bill establishes a procedure to remove property from a research and production service district and, although a public bill, only effects portions of Durham and Wake County. This deannexation can only be accomplished once a number of requirements have been met (see Bill Analysis for details).

Seeing no discussion or questions on the bill, Chairman Wainwright recognized Representative Weiss who moved for a favorable report on SB 214. The Chair called for the vote and the motion carried without known opposition.

The Chair then made the announcement that the next House Finance Committee Meeting would be held on the following Wednesday, May 28, 2003, at 8:30 am in the same location.

Having no further business before the Committee, Chairman Wainwright wished the Committee members a good Memorial Day holiday and then adjourned the meeting at 9:03 am.

Respectfully submitted,

Representative William Wainwright
Presiding Chair

Jason A. Cannon
Assistant to Committee on Finance

GENERAL ASSEMBLY OF NORTH CAROLINA

SESSION 2003

HOUSE BILL 705

Short Title:	Matthews Annexation.	(Local)
Sponsors:	Representatives Gulley and Black (Primary Sponsors).	
Referred to:	Finance.	

March 27, 2003

A BILL TO BE ENTITLED

AN ACT TO ANNEX TO THE TOWN OF MATTHEWS ALL THE TERRITORY REMAINING IN ITS SPHERE OF INFLUENCE.

The General Assembly of North Carolina enacts:

SECTION 1. The corporate limits of the Town of Matthews are extended to include the entire area remaining in its sphere of influence within Mecklenburg County. As used in this act, "sphere of influence" means that area designated as such in annexation agreements between the Town of Matthews and other municipalities under Chapter 953 of the 1983 Session Laws, or under other general or local acts.

SECTION 2. The Town of Matthews shall record in the office of the Register of Deeds of Mecklenburg County a detailed map of the area annexed by this act. The map shall also delineate any area for which annexation is deferred pursuant to Section 3 of this act.

SECTION 3. This act becomes effective June 30, 2003, except that as to land that is being taxed at present-use value pursuant to G.S. 105-277.4 on the day this act is ratified, it becomes effective on the same day as determined under G.S. 160A-49(f2) that it would have become effective if the area had been annexed under Part 3 of Article 4A of Chapter 160A of the General Statutes. The Town may, however, provide police, fire, and emergency medical services to areas whose annexation has been deferred by this section.

HOUSE BILL 705:
Matthews Annexation.

BILL ANALYSIS

Committee:	House Finance	**Introduced by:**	Reps. Gulley and Black
Date:	May 22, 2003	**Summary by:**	Trina Griffin
Version:	1st Edition		Committee Counsel

SUMMARY: ***House Bill 705 annexes to the Town of Matthews all the territory remaining in its sphere of influence. Except for land taxed at present-use value, the act would become effective June 30, 2003. The annexation of land taxed at present-use value would be deferred until the land no longer meets the criteria for taxation at present-use value. However, this property would be considered part of the Town of Matthews for boundary and planning purposes and would receive police, fire, and EMS protection.***

CURRENT LAW: Annexation is one method that a city or town may employ to extend its corporate limits, and the process must be done in accordance with Article 4A of Chapter 160A. Annexation may be either voluntary or involuntary.

Voluntary Annexation. – A voluntary annexation requires that the governing board of a municipality pass an ordinance upon presentation of a petition signed by the owners of all real property within the area to be annexed. G.S. 160A-58.1 governs the voluntary annexation by a municipality of noncontiguous property. All property owners in the satellite area[1] may petition for voluntary annexation of the noncontiguous property if the property meets the following five standards in G.S. 160A-58.1(b):

1. The nearest point on the proposed satellite corporate limits must be not more than three miles from the primary corporate limits of the annexing city.
2. No point on the proposed satellite corporate limits may be closer to the primary corporate limits of another city than to the primary corporate limits of the annexing city.
3. The area must be so situated that the annexing city will be able to provide the same services within the proposed satellite corporate limits that it provides within its primary corporate limits.
4. If the area proposed for annexation, or any portion thereof, is a subdivision as defined in G.S. 160A-376, all of the subdivision must be included.
5. The area within the proposed satellite corporate limits, when added to the area within all other satellite corporate limits, may not exceed 10% of the area within the primary corporate limits of the annexing city.

Involuntary Annexation. – An involuntary annexation requires, among other things, that the property meet certain characteristics:

- The area to be annexed must be adjacent or contiguous to the municipality's boundaries.
- At least 1/8 of the aggregate external boundaries of the area must coincide with the municipal boundary; and
- No part of the area may be included within the boundary of another incorporated municipality.

[1] G.S. 160A-58.4 provides that satellite corporate limits cannot be considered a part of a municipality's corporate limits for purposes of its ETJ. Therefore, satellite annexations have no effect upon a municipality's ETJ.

In addition to the requirements concerning location of the area in relation to the municipality's existing boundaries, the area must also be "developed for urban purposes" by meeting one of several standards concerning population, density, and development.

If the property does not meet the statutory requirements for annexation, the municipality does not have the authority to annex the area. However, the General Assembly can extend the corporate limits of a municipality to encompass areas that the municipality would not statutorily have the authority to annex.

BILL ANALYSIS: House Bill 705 annexes to the Town of Matthews the entire area remaining in its sphere of influence within Mecklenburg County. The annexation of any land within the sphere of influence that is currently being taxed at present-use value is deferred until the land no longer qualifies for present-use valuation. However, for boundary purposes, planning purposes, and public safety purposes, the land will be considered part of the Town of Matthews.

BACKGROUND: In 1984, the General Assembly enacted legislation authorizing the City of Charlotte and the surrounding municipalities to enter into annexation agreements that create "spheres of influence." The "sphere of influence" is the area described in the agreement that the parties agree may be annexed by a one of the municipalities to the exclusion of the others. Since this legislation was enacted, Matthews has received over 500 voluntary annexation petitions and several pieces of land have been annexed in accordance with the agreement, creating several "donut holes" along the way. This legislation would close up the remaining donut holes and peninsulas. Additionally, one of the reasons for this legislation is to provide clarification as to the proper entity that will provide police, fire, and EMS protection in these areas.

SENATE BILL 181
Finance Committee Substitute Adopted 4/16/03

Short Title: Apex Quicktake Roads/Historic Structures (Local)

Sponsors:

Referred to:

February 26, 2003

A BILL TO BE ENTITLED

AN ACT AUTHORIZING THE TOWN OF APEX TO USE THE PROCEDURE AND AUTHORITY OF CHAPTER 136 OF THE NORTH CAROLINA GENERAL STATUTES IN CONDEMNATION PROCEEDINGS CONCERNING PUBLIC STREETS AND ROADS, AND TO ADOPT ORDINANCES REGULATING DEMOLITION OF HISTORIC STRUCTURES IN THE APEX HISTORIC DISTRICT.

The General Assembly of North Carolina enacts:

SECTION 1. Section 6.5 of the Charter of the Town of Apex, being Chapter 356 of the 1985 Session Laws, as added by Chapter 70 of the 1987 Session Laws, reads as rewritten:

"Sec. 6.5. Additional Eminent Domain Powers. Notwithstanding the provisions of G.S. 40A-1, in the exercise of its authority of eminent domain for the acquisition of property interests (including, without limitation, fee simple title, rights-of-way, and easements) to be used for water lines and treatment facilities and sewer lines and treatment facilities, and opening, widening, extending, or improving public streets and roads, the town may use the procedure and authority prescribed in Article 9 of Chapter 136 of the General Statutes of North Carolina, as now or hereafter amended; provided further, that whenever therein the words 'Secretary' or 'Secretary of Transportation' appear, they shall be deemed to include the 'Town ~~Manager';~~Manager', and whenever therein the word 'highway' appears, it is deemed to include 'public works' in accordance with this section, provided further that nothing herein shall be construed to enlarge the power of the town to condemn property already devoted to public use. Provided further, just compensation for the acquisition of fee simple title or a perpetual easement pursuant to this section to be used for street or road right-of-way shall be no less than (i) one dollar ($1.00) per square foot of real property taken, or (ii) the prorated ad valorem tax value of the parent tract, whichever is less. The powers granted by this section are in addition to and supplementary to those powers granted by any local or general law."

SECTION 2. In order to preserve and enhance one of the most valuable and unique natural resources of the community, and to preserve the property values and promote the general welfare of its citizens, the Town of Apex may adopt ordinances to regulate the demolition of historic structures within its municipal corporate limits and extraterritorial jurisdiction. For purposes of this section, "historic structures" means any structure (i) individually listed in the National Register of Historic Places, (ii) listed as a contributing structure in the National Register of Historic Places, (iii) certified or preliminarily determined by the Secretary of the Interior as contributing to the significance of a registered historic district or a district preliminarily determined by the Secretary to qualify as a registered historic district, (iv) individually listed in the State inventory of historic places, (v) listed in the Wake County Register of Historic Places, or (vi) individually listed in a local inventory of historic places in communities with historic preservation programs that have been certified by an approved State program as determined by the Secretary of the Interior or directly by the Secretary of the Interior in states without approved programs. Prior to adopting any such ordinance, a public hearing shall be held before the town's governing board. Notice of the hearing shall be given in accordance with G.S. 160A-364. Ordinances adopted under this section may not prohibit the demolition of historic structures except in accordance with the provisions of Part 3C of Article 19 of Chapter 160A of the General Statutes.

SECTION 3. This act is effective when it becomes law. Section 1 of this act expires on December 31, 2008, but civil actions or special proceedings instituted pursuant to that section on or before December 31, 2008, shall be completed under the provisions of that section as if it had not expired.

SENATE BILL 181:
Apex Quicktake Roads/Historic Structures

BILL ANALYSIS

Committee:	House Finance	**Introduced by:**	Sen. Stevens
Date:	May 22, 2003	**Summary by:**	Cindy Avrette
Version:	2nd Edition		Committee Counsel

SUMMARY: Senate Bill 181 authorizes the Town of Apex to do two different things:

- *To use the same condemnation procedures and authority for roads that the Department of Transportation uses in Chapter 136.*
- *To adopt ordinances regulating the demolition of historic structures in its Historic District.*

CONDEMNATION PROCEDURES FOR ROADS: Cities and towns may condemn property under Chapter 40A for opening, widening, extending, or improving roads and streets. The Department of Transportation may acquire property under Article 9 of Chapter 136 for the construction and improvement of highways. Municipalities may also use the condemnation provisions in Article 9 of Chapter 136 for the acquisition of property related to the construction and improvement of roads and streets within their corporate boundaries that are part of the state-highway-system, but not for city streets. There are two primary differences between the acquisition authority granted by Chapter 40A and Article 9 of Chapter 136:

- Under Chapter 40A, a condemnor must give the owner of the property to be acquired 30 days notice of its intent to institute an action to condemn the property.[1] Under Article 9 of Chapter 136, the condemnor does not have to give this 30–day notice.
- Under Chapter 40A, the just compensation for the value of the property taken is generally its fair market value prior to the taking.[2] Under Chapter 136, the just compensation for the property taken is its fair market value, taking into consideration any benefits resulting from the utilization of the part taken for highway purposes.

Section 1 of Senate Bill 181 provides that the Town of Apex may use the procedure and authority of Article 9 of Chapter 136 for the acquisition of property for roads. It currently has this authority for the acquisition of property for water and sewer lines and treatment facilities. It also establishes a floor for determining just compensation by specifying that just compensation may be no less than $1.00 per square foot of real property taken or the prorated property tax value of the parent tract, whichever is less. Therefore, for the Town of Apex, the determination of just compensation under Article 9 of Chapter 136 would be the fair market value of the property taking into consideration any benefit the property derives

[1] For purposes of road construction and improvement, the title to the property and the right to immediate possession vests automatically with the city subject to the filing of the condemnation complaint and deposit of the estimated just compensation. Chapter 40A and Article 9 of Chapter 136 do not differ in this point.

[2] Under Chapter 40A, the measure of compensation is the greater of either (i) the amount by which the fair market value of the entire tract immediately before the taking exceeds the fair market value of the remainder immediately after the taking or (ii) the fair market value of the property taken. The value of the property does not include an increase or decrease in value that is caused by the proposed improvement or project for which the property is taken.

from the road improvement, but in no event may that value be less than $1.00 per square foot or the prorated property tax value of the parent tract, whichever is less.

Section 1 becomes effective when it becomes law and expires on December 31, 2008. The Town of Apex plans to spend approximately $30 million over the next 5-6 years to construct the "Apex Peakway". This provision will allow the Town to use the procedures of Article 9 of Chapter 136 to make the road improvements anticipated over the next few years.

REGULATE DEMOLITION OF HISTORIC BUILDINGS: Section 2 of Senate Bill 181 would allow the Town of Apex to adopt ordinances regulating the demolition of historic structures after notice and a public hearing. The bill defines the term "historic structure". The Town may not prohibit the demolition of an historic structure unless the structure has statewide significance as defined in the criteria of the National Register of Historic Places, as determined by the State Historic Preservation Officer.[3] The Town of Apex's downtown is Federally-designated and recognized as an historic district.

Under current law, municipalities may designate historic districts and historic landmarks if they establish or designate a historic preservation commission and follow the numerous landmark designation procedures outlined in Part 3C of Article 19 of Chapter 160A. Those procedures include preparing and adopting guidelines and procedures, conducting investigations and reports, consulting with the Department of Cultural Resources, etc. A person with property located in an historic district must file an application for a certificate of appropriateness before the person may alter the exterior of a building located in the district or relocate or demolish a building in the district.

Section 2 of this bill would allow the Town of Apex to regulate the demolition of historic structures located in its zoning jurisdiction without having to meet the procedural requirements of Part 3C. Likewise, the Town will not be able to regulate historic structures as extensively as would otherwise be allowed under Part 3C. This bill allows the Town to only regulate the demolition of those structures.

[3] G.S. 160A-400.14. Under this statute, the property may be demolished even if it meets this standard if the property owner would otherwise suffer extreme hardship or be permanently deprived of all beneficial use of the property.

GENERAL ASSEMBLY OF NORTH CAROLINA

SESSION 2003

HOUSE BILL 1260

Short Title:	Raise Ceiling/Speech Path./Audiologist Fees.	(Public)
Sponsors:	Representative Nye.	
Referred to:	Finance.	

April 24, 2003

A BILL TO BE ENTITLED

AN ACT TO INCREASE THE MAXIMUM FEES THAT THE BOARD OF EXAMINERS FOR SPEECH AND LANGUAGE PATHOLOGISTS AND AUDIOLOGISTS MAY ASSESS FOR CERTAIN FEES.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 90-305 reads as rewritten:

"**§ 90-305. Fees.**

Persons subject to licensure under this Article shall pay ~~the following~~ fees to the ~~Board:~~Board not to exceed the following:

(1)	Application fee	$30.00
(2)	Examination fee	30.00
(3)	Initial license fee	~~40.00~~100.00
(4)	Renewal license fee	~~40.00~~100.00
(5)	Temporary license	40.00
(6)	Delinquency fee	~~25.00~~25.00."

SECTION 2. This act is effective when it becomes law.

HOUSE BILL 1260:
Raise Ceiling/Speech Path./Audiologist Fees

BILL ANALYSIS

Committee:	House Finance	**Sponsor:**	Rep. Nye
Date:	May 22, 2003	**Analysis by:**	Martha Walston
Version:	1st Edition		Committee Counsel

SUMMARY: House Bill 1260 amends the fees that the Board of Examiners for Speech and Language Pathologists and Audiologists may charge by

- *changing these set fees to maximum fees*
- *increasing the set $40 fees for the initial license fee and the renewal license fee to maximum fees of $100 for the initial license and license renewal.*

CURRENT LAW: A person who practices or holds himself or herself out as being able to practice speech and language pathology or audiology in North Carolina must hold a current, unsuspended, unrevoked license issued by the Board of Examiners for Speech and Language Pathologists and Audiologists or register with the Board as an assistant. A license may be granted in either speech and language pathology or audiology independently. A person may be licensed in both areas if qualified in both areas. The license must be renewed annually.

BILL ANALYSIS: House Bill 1260 amends the fees paid to the Board of Examiners for Speech and Language Pathologists and Audiologists as follows:

DESCRIPTION	CURRENT FEE	PROPOSED FEE
Application Fee	$30	not to exceed $30
Examination Fee	$30	not to exceed $30
Initial license Fee	$40	not to exceed $100
Renewal License Fee	$40	not to exceed $100
Temporary License	$40	not to exceed $40
Delinquency Fee	$25	not to exceed $25

The current fees have not been increased since 1987 (S.L. 1987-65). According to the Executive Secretary of the Board, the Board plans to charge $60 for an initial license and a renewal license.

G.S. 12-3.1 requires the Board to consult with the Joint Legislative Commission on Governmental Operations on the amount and the purpose of the fees to be increased before the increase goes into effect.

NORTH CAROLINA GENERAL ASSEMBLY

LEGISLATIVE FISCAL NOTE

BILL NUMBER: HB 1260 (1st Edition)

SHORT TITLE: Raise Ceiling / Speech Path. / Audiologist Fees

SPONSOR(S): Representative Nye

FISCAL IMPACT

Yes (X) **No ( )** **No Estimate Available ( )**

	FY 2003-04	FY 2004-05	FY 2005-06	FY 2006-07	FY 2007-08
REVENUES					
General Fund	No Impact	No Impact	No Impact	No Impact	No Impact
Board of Examiners	$77,000	$77,000	$77,000	77,000	77,000

PRINCIPAL DEPARTMENT(S) & PROGRAM(S) AFFECTED: NC Board of Examiners for Speech and Language Pathologist and Audiologists.

EFFECTIVE DATE: This act is effective when it becomes law.

BILL SUMMARY: The proposed bill changes the G.S. 90-305 by increasing the initial and renewal license fee that the Board of Examiners for Speech and Language Pathologists and Audiologists may charge to maximum fees of $100.

ASSUMPTIONS AND METHODOLOGY: Under current law, speech and language pathology or audiology practitioners in the State of North Carolina are required to hold a current, unsuspended, unrevoked license issued by the Board of Examiners for Speech and Language Pathologists and Audiologists (the Board). A person may be licensed in both areas if qualified in both areas. The license must be renewed annually. Currently, the Board may charge the following fees:

Description	Fee
Application Fee	$30
Examination Fee	$30
Initial License Fee	$40
Renewal License Fee	$40
Temporary License	$40
Delinquency Fee	$25

According to the G.S. 12-3.1, the Board has to consult with the Joint Legislative Commission on Governmental Operations on the amount the purpose of the fees increase before such an increase may be implemented. The House Bill 1260 proposes increasing

maximum initial license fee and maximum renewal license fee from $40 to $100. According to the Executive Secretary of the Board, the Board plans to charge $60 for an initial license and a renewal license.

The current fees have not been increased since 1987 (S.L. 1987-65). Based the *Statistical Abstracts of the United States* historical data on inflation, after adjusting for inflation, the current initial license fee and renewal license fee should amount $63 to be equivalent to the 1987 rate of $40. The Board ended the fiscal year 2002 with a negative fund balance of $10,735, or 6.34 percent. Raising the initial and renewal license fees would allow the Board to overcome fiscal constraints.

For the fiscal year 2002, initial license fees constituted 5.84 percent of all total revenues of the Board. Renewal fees constituted 78.10 percent. Together, these fees amounted to 83.94 percent of total revenues. If the Board starts charging $60 for both initial and renewal of the license, as it plans to, it will constitute a 50-percent increase of the corresponding portion of the revenues. Charging the maximum fees of $100 will constitute a 150-percent increase (Table 1). Alternatively, these new fees would correspond to a 42-percent and 126-percent increase in total revenues for the Board.

Currently, 3,850 language pathology and audiology practitioners are registered with the Board. The twenty-dollar increase of the renewal fees would increase the annual revenues of the Board by $77,000 (3,850 × $20).

Table 1. Percentage increase in fees and total revenues under the proposed legislation

	New Fees	
	$60	**$100**
Fees Increase (%)	50%	150%
Increase in Total Revenues (%)	42%	126%

The proposed legislation does not affect any of the programs or departments and does not produce fiscal impact on the State.

SOURCES OF DATA: North Carolina Board of Examiners for Speech and Language Pathologists and Audiologists; *Statistical Abstracts of the United States*.

A BILL TO BE ENTITLED

AN ACT TO ALLOW THE CITY OF KINGS MOUNTAIN TO ANNEX CERTAIN PROPERTIES OWNED BY THE TOWN.

The General Assembly of North Carolina enacts:

SECTION 1. The City of Kings Mountain may annex any or all of the following city-owned properties by voluntary annexation under G.S. 160A-58.7 without such annexations satisfying the requirements of G.S. 160A-58.1:

(1) That real estate reflected in the records for Cleveland County, North Carolina, as being parcel 6-3-1-28 in the Tax Mapping Office, the same being that real estate upon which there is situated the Water Treatment Plant at the John H. Moss Reservoir, the John H. Moss Reservoir Dam, the campsite and the buildings and structure located adjacent thereto, such property being bounded by the Elliot M. Johnson Property (now or formerly) as shown in Deed Book 10-M at Page 460 of the Cleveland County Registry; that property of Elliot M. Johnson (now or formerly) as shown in Deed Book 8-J at Page 472 of the Cleveland County Registry; the right-of-way margin of Oak Grove Road; the Craver and/or Austell properties as shown on Tax Map as Map 3137; Lot 1; Parcel 8: the Frank Meeker, Jr. property (now or formerly) as shown in Deed Book 1012 at Page 353 of the Cleveland County Registry; and further, a boundary which is 736.0' above mean sea level elevation, adjacent to the waters of the John H. Moss Reservoir.

(2) That real estate which is commonly referred to as the "Camp Creek Church Road Picnic Area", and such being that acreage reflected on Tax Map 3137, Block 1, Lot 1; Tax Map 3137, Block 1, Lot 2; Tax Map 3137, Block 1, Lot 3; and Tax Map 3137, Block 1, Lot 4, in the Tax Mapping Office for Cleveland County, North Carolina, with the boundary on that side of the property which is bounded by the waters

of the John H. Moss Reservoir, such having a boundary of 736.0' above mean sea level elevation.

SECTION 2. The City of Kings Mountain may exercise the authority in Section 1 of this act only under the following conditions:

(1) The area proposed for annexation must be owned by the City of Kings Mountain.

(2) The City of Kings Mountain must be able to provide the same services within the area proposed for annexation that it provides within the corporate limits.

SECTION 3. This act is effective when it becomes law.

HOUSE BILL 163:
Kings Mtn. Annex Water System.

BILL ANALYSIS

Committee:	House Finance	**Introduced by:**	Rep. Moore
Date:	May 22, 2003	**Summary by:**	Trina Griffin
Version:	2nd Edition		Committee Counsel

SUMMARY: ***The bill would allow the City of Kings Mountain to annex certain described property owned by the town by voluntary annexation without having to meet the statutory requirements.***

CURRENT LAW: G.S. 160A-58.1 and 160A-58.7 govern the voluntary annexation by a municipality of noncontiguous property. G.S. 160A-58.1 provides that all property owners in the satellite area may petition a city for voluntary annexation of the noncontiguous property if the property meets the following five standards:

1. The nearest point on the proposed satellite corporate limits must be not more than three miles from the primary corporate limits of the annexing city.
2. No point on the proposed satellite corporate limits may be closer to the primary corporate limits of another city than to the primary corporate limits of the annexing city.
3. The area must be so situated that the annexing city will be able to provide the same services within the proposed satellite corporate limits that it provides within its primary corporate limits.
4. If the area proposed for annexation, or any portion thereof, is a subdivision as defined in G.S. 160A-376, all of the subdivision must be included.
5. The area within the proposed satellite corporate limits, when added to the area within all other satellite corporate limits, may not exceed ten percent (10%) of the area within the primary corporate limits of the annexing city.

G.S. 160-58.7 provides the process a city must follow when the city is the property owner of the satellite area. This process requires that the city comply with the provisions of G.S. 160A-58.1 as described above.

BILL ANALYSIS: The bill would exempt the City of Kings Mountain from having to meet the requirements in G.S. 160A-58.1 when annexing two particularly described tracts of property owned by the city used as the water treatment facility.

BACKGROUND: The cities of Hickory, New Bern, Statesville, Kenly, Troy, Mt. Airy, Mooresville, Marion, Oxford, Rockingham, Newton, Conover, and Claremont and the Towns of Calabash, Catawba, Dallas, Godwin, Louisburg, Mocksville, Pembroke, Rutherfordton, Maiden, Swansboro and Waynesville have already eliminated the 5th standard for all annexations by the municipality.

EFFECTIVE DATE: The bill would become effective when it becomes law.

Erika Churchill, counsel to House Local Government I, contributed to this summary.

SENATE BILL 288*

Short Title: Polk School Acquisition. (Local)

Sponsors: Senator Apodaca.

Referred to: Finance.

March 5, 2003

A BILL TO BE ENTITLED

AN ACT TO AUTHORIZE POLK COUNTY TO ACQUIRE PROPERTY FOR USE BY ITS BOARD OF EDUCATION.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 153A-158.1 reads as rewritten:

"**§ 153A-158.1. Acquisition and improvement of school property in certain counties.**

(a) Acquisition by County. – A county may acquire, by any lawful method, any interest in real or personal property for use by a school administrative unit within the county. In exercising the power of eminent domain a county shall use the procedures of Chapter 40A. The county shall use its authority under this subsection to acquire property for use by a school administrative unit within the county only upon the request of the board of education of that school administrative unit and after a public hearing.

(b) Construction or Improvement by County. – A county may construct, equip, expand, improve, renovate, or otherwise make available property for use by a school administrative unit within the county. The local board of education shall be involved in the design, construction, equipping, expansion, improvement, or renovation of the property to the same extent as if the local board owned the property.

(c) Lease or Sale by Board of Education. – Notwithstanding the provisions of G.S. 115C-518 and G.S. 160A-274, a local board of education may, in connection with additions, improvements, renovations, or repairs to all or part of any of its property, lease or sell the property to the board of commissioners of the county in which the property is located for any price negotiated between the two boards.

(d) Board of Education May Contract for Construction. – Notwithstanding the provisions of G.S. 115C-40 and G.S. 115C-521, a local board of education may enter into contracts for the erection of school buildings upon sites owned in fee simple by one or more counties in which the local school administrative unit is located.

(e) Scope. – This section applies to Alamance, Alexander, Alleghany, Anson, Ashe, Avery, Bertie, Bladen, Brunswick, Burke, Cabarrus, Caldwell, Camden, Carteret,

Catawba, Chatham, Cherokee, Chowan, Clay, Columbus, Craven, Cumberland, Currituck, Dare, Davidson, Davie, Duplin, Durham, Edgecombe, Forsyth, Franklin, Gaston, Gates, Graham, Greene, Guilford, Halifax, Harnett, Haywood, Henderson, Hoke, Hyde, Iredell, Jackson, Johnston, Jones, Lee, Lenoir, Lincoln, Macon, Madison, Martin, McDowell, Mecklenburg, Mitchell, Montgomery, Moore, Nash, New Hanover, Onslow, Orange, Pamlico, Pasquotank, Pender, Perquimans, Person, Pitt, Polk, Randolph, Richmond, Robeson, Rockingham, Rowan, Rutherford, Sampson, Scotland, Stanly, Stokes, Surry, Transylvania, Union, Vance, Wake, Watauga, Wayne, Wilkes, Wilson, and Yadkin Counties."

SECTION 2. This act is effective when it becomes law.

SENATE BILL 288:
Polk School Acquisition

BILL ANALYSIS

Committee:	House Finance	**Introduced by:**	Sen. Apodaca
Date:	May 22, 2003	**Summary by:**	Cindy Avrette
Version:	1st Edition		Committee Counsel

SUMMARY: ***Senate Bill 288 adds Polk County to the list of 87 counties authorized to acquire school property on behalf of their boards of education. The bill is effective when it becomes law.***

BILL ANALYSIS: **Senate Bill 288** is a local bill that applies only to Polk County and the local board of education for school administrative units in Polk County. The substance of the bill is the same as that enacted in past legislative sessions for 87 other counties.

The bill makes the following changes concerning the acquisition and financing of public school facilities:

(1) It authorizes the county to acquire real or personal property for use by a school administrative unit located in the county when requested to do so by the unit. Under current law, only those counties listed in G.S. 153A-158.1(e) have this authority. Under general law, a county is authorized to acquire real or personal property only on behalf of the county or an agency of the county and a school administrative unit is not an agency of the county.

(2) It authorizes the local board of education to contract with the county for the erection or repair of a public school building that is located on a site owned by the county. Under current general law, local boards of education are required to hold title to all school property and therefore have no authority to make contracts concerning the construction or repair of school buildings located on sites not owned by them.[1]

(3) It authorizes the local board of education to transfer to the county any property on which a school building in need of renovation or repair is located for any price agreed to by the board of education and the county. Current law requires transfers from a local board of education to a county to be at fair market value and allows a local board of education to transfer property to a county only if the board does not believe the property is necessary or desirable for a school.[2]

The effect of these changes is to allow installment purchase financing to be used for public school construction or renovation in Polk County. Installment purchase financing is a type of local government debt in which the local unit enters into an installment contract secured by a security interest in the building constructed or renovated. Unlike the issuance of general obligation bonds, installment purchase financing is not subject to a vote of the people. Certificates of participation may be issued as part of the installment purchase financing. A certificate of participation is a document setting out the share of the local unit's debt that is owed to the holder of the certificate. In practice, the holder receives interest and principal payments in a manner similar to interest and principal payments on a bond issued by the borrowing unit.

[1] G.S. 115C-40; G.S. 115C-521.
[2] G.S. 115C-518; G.S. 160A-274.

Under current law, installment purchase financing is available to counties[3] but is not generally available to local school administrative units. G.S. 160A-20 grants installment purchase financing authority only to a local school administrative unit located in a county whose local board of education can levy a school tax. There are only two such local units: Mooresville and Roanoke Rapids. A related provision, G.S. 143-64.17C, authorizes school administrative units and community colleges to use installment purchase financing to finance energy conservation measures. In addition, G.S. 115D-58.15 authorizes community colleges to use installment purchase financing for equipment.

[3] The Local Government Commission must approve installment purchase contracts and certificates of participation. The Local Government Commission cannot approve such a contract if the net debt of the contracting unit, after execution of the contract, would exceed 8% of the assessed value of property subject to taxation by the unit.

HOUSE BILL 1118
Committee Substitute Favorable 4/29/03

Short Title: Display Fetal Alcohol Syndrome Warning Signs. (Public)

Sponsors:

Referred to:

April 10, 2003

A BILL TO BE ENTITLED

AN ACT TO REQUIRE SIGNS TO BE POSTED WARNING OF THE POSSIBLE DANGERS OF CONSUMPTION OF ALCOHOL DURING PREGNANCY.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 18B-203(a) is amended by adding the following new subdivision to read:

"(18) Provide for the distribution and posting of warning signs to local ABC boards regarding the dangers of alcohol consumption during pregnancy as required under G.S. 18B-808."

SECTION 2. Article 8 of Chapter 18B of the General Statutes is amended by adding the following new section to read:

"**§ 18B-808. Warning signs regarding dangers of alcohol consumption during pregnancy required; posting.**

(a) Each ABC store shall display or cause to be displayed warning signs that meet the requirements of this section on the store's premises to inform the public of the effects of alcohol consumption during pregnancy.

(b) The Commission shall develop the warning signs in accordance with subsection (c) of this section and provide for their distribution and replacements to local ABC boards subject to the requirement of this section. The Commission may charge a reasonable fee, not to exceed twenty-five dollars ($25.00), for each sign, including replacement signs.

(c) The signs required by this section shall:

(1) Be composed of black, capital letters printed on white paper at the minimum weight of one hundred ten pound index. The letters comprising the word 'WARNING' shall be highlighted black lettering and shall be larger than all other lettering on the sign.

(2) Contain the message: 'WARNING Pregnancy and alcohol do not mix. Drinking alcohol during pregnancy can cause birth defects.'

(3) The size of the sign shall be at least eight and one-half inches by 14 inches.

(4) Contain a graphic depiction of the message to assist nonreaders in understanding the message. The depiction of a pregnant female shall be universal and shall not reflect a specific race or culture.

(5) Be in both English and Spanish.

(d) A local ABC board shall ensure that each ABC store manager displays the warning sign in an open and prominent place in the store within 30 days of receipt of the sign from the Commission."

SECTION 3. This act is effective when it becomes law. The Commission and each local ABC board shall be in full compliance with the requirements of this act no later than six months after the day the bill becomes law.

HOUSE BILL 1118:
Display Fetal Alcohol Syndrome Warning Signs.

BILL ANALYSIS

Committee:	House Finance	**Introduced by:**	Rep. Alexander
Date:	May 22, 2003	**Summary by:**	Trina Griffin
Version:	2nd Edition		Committee Counsel

SUMMARY: ***House Bill 1118 requires each ABC store to prominently display a warning sign stating that drinking alcohol during pregnancy can cause birth defects. The bill further requires the ABC Commission to develop the signs and provide for their distribution. The Commission is also authorized to charge a fee not to exceed $25.00 for each sign, including replacements. The local ABC board is required to ensure that each ABC store manager properly displays the sign within 30 days of its receipt.***

The bill would become effective when it becomes law. The Commission and each local ABC board would have six months from the effective date to be in full compliance with the act.

CURRENT LAW: The operation of ABC stores is governed by Article 8 of Chapter 18B, which addresses the opening and closing of stores, the operating hours, the store management, the pricing of alcohol, and the distribution of revenues. ABC stores are under the authority of and operated by a local ABC board.

BILL ANALYSIS: House Bill 1118 does the following:

- ***Requirement for ABC stores.*** – It requires each ABC store to display a warning sign, developed by the ABC Commission, that warns about the dangers of alcohol and pregnancy. Specifically, the sign would state:

  WARNING: Pregnancy and alcohol do not mix.
  Drinking alcohol during pregnancy can cause birth defects.

- ***Requirement for ABC Commission.*** – It requires the ABC Commission to develop and distribute the warning signs. The Commission may charge a fee not to exceed $25.00 for each sign, including replacements. The bill specifies that the signs must:
  - Be on certain paper and in certain lettering.
  - Be at least 8½ x 14 in size.
  - Be in both English and Spanish.
  - Contain a graphic depiction of the message for nonreaders.

- ***Requirement for local ABC boards.*** – It requires local ABC boards to ensure that each ABC store manager posts the warning sign in an open and prominent place in the store within 30 days of its receipt.

BACKGROUND[1]: Fetal Alcohol Syndrome (FAS) is a set of physical, mental, and neurobehavioral birth defects caused by maternal consumption of alcohol during pregnancy. FAS is considered the most common nonhereditary cause of mental retardation. In addition to deficits in general intellectual functioning, individuals with FAS often demonstrate difficulties with learning, memory, attention, and problem solving as well as problems with mental health and social interactions. Although prenatal alcohol exposure does not always result in FAS, there is no known safe level of alcohol consumption during pregnancy. FAS is 100% preventable when a woman completely abstains from alcohol during her pregnancy.

FISCAL IMPACT

Yes (X) **No ( )** **No Estimate Available ( )**

	FY 2003-04	FY 2004-05	FY 2005-06	FY 2006-07	FY 2007-08
REVENUES					
ABC Fund	up to $10,000				
EXPENDITURES					
Local ABC Board	up to $10,000				
POSITIONS: (cumulative)					

PRINCIPAL DEPARTMENT(S) & PROGRAM(S) AFFECTED: Alcoholic Beverage Control Commission, Local ABC Boards

EFFECTIVE DATE: This act is effective when it becomes law. The Commission and each local ABC board shall be in full compliance with the law no later than six months after the day the bill becomes law.

BILL SUMMARY: The bill requires the posting of signs in Alcoholic Beverage Control (ABC) stores warning of the possible dangers of consumption of alcohol during pregnancy.

ASSUMPTIONS AND METHODOLOGY: The maximum $25 fee from each of the state's 400 ABC stores will generate $10,000. An administrator of the ABC Commission thinks the $25 fee is more than sufficient to cover the costs of the signs. In fact, the Commission may choose to pay for the signs out of its operating budget rather than bother with collecting fees from the local ABC boards.

February 26, 2003

A BILL TO BE ENTITLED

AN ACT TO ALLOW TERRITORY TO BE REMOVED FROM A RESEARCH AND PRODUCTION SERVICE DISTRICT.

The General Assembly of North Carolina enacts:

SECTION 1. Part 2 of Article 16 of Chapter 153A of the General Statutes is amended by adding a new section to read:

"**§ 153A-314.1. Removal of territory from service districts.**

(a) Standards. – A board of commissioners may by resolution remove territory from a research and production service district upon finding that:

(1) The owners of the territory to be removed contemplate placing residential uses on some of the territory to be removed.

(2) One hundred percent (100%) of the owners of real property in the territory to be removed have petitioned for removal.

(3) The territory to be removed no longer requires the services, facilities, or functions financed, provided, or maintained for the district.

(b) Report. – Before the public hearing required by subsection (c) of this section, the board shall cause to be prepared a report containing:

(1) A map of the district highlighting the territory proposed to be removed, showing the present and proposed boundaries of the district; and

(2) A statement showing that the territory to be removed meets the standards and requirements of subsection (a) of this section.

The report shall be available for public inspection in the office of the clerk to the board for at least 10 days before the date of the public hearing.

(c) Hearing and Notice. – The board shall hold a public hearing before adopting any resolution reducing the boundaries of a service district. Notice of the hearing shall state the date, hour, and place of the hearing and its subject and shall include a statement that the report required by subsection (b) of this section is available for inspection in the office of the clerk to the board. The notice shall be published at least once not less than

seven days before the hearing. In addition, the notice shall be mailed at least two weeks before the date of the hearing by any class of U.S. mail which is fully prepaid to the owners as shown by the county tax records as of the preceding January 1 (and at the address shown thereon) of all property located within the territory to be removed. The person designated by the board to mail the notice shall certify to the board that the mailing has been completed, and the certificate shall be conclusive in the absence of fraud.

(d) Municipal Annexation Allowed Under General Law. – The general law concerning annexation, Article 4A of Chapter 160A of the General Statutes, shall apply to any territory removed from the district under this section, notwithstanding any local act to the contrary.

(e) Effective Date. – The resolution reducing the boundaries of the district shall take effect at the beginning of a fiscal year commencing after its passage, as determined by the board."

SECTION 2. This act is effective when it becomes law.

SENATE BILL 214:
Res and Production Svc District Deannexation

BILL ANALYSIS

Committee:	House Finance	**Introduced by:**	Sen. Gulley
Date:	May 22, 2003	**Summary by:**	Cindy Avrette
Version:	2nd Edition		Committee Counsel

SUMMARY: ***Senate Bill 214 establishes a procedure to remove property from a research and production service district. The bill is effective when it becomes law.***

CURRENT LAW: In 1985, the General Assembly allowed for the creation of a research and production service district.[1] The legislation sets forth the requirements necessary to create the district, expand the district, and abolish the district; but it does not allow for the removal of property from the district. A county may by resolution establish a research and production service district for an area that meets the following requirements[2]:

- All the property is used for research or scientifically oriented production or for associated commercial or institutional purposes.
- The area contains at least 4,000 acres.
- The area includes research and production facilities that employ at least 5,000 people.
- The area has no more than 25 permanent residents.

The Research Triangle Park is the only research and production service district at this time. The property within the Research Triangle Park is not subject to annexation, pursuant to section 2 of Chapter 435 of the 1985 Session Laws. The Park currently consists of approximately 7,000 acres. Property in the district is subject to an additional property tax at the rate of 0.02 cents on each $100 value of property subject to taxation.[3] The tax revenue generated from this tax may only be used to provide services within the district.

BILL ANALYSIS: Senate Bill 214 establishes a procedure to remove property from a research and production service district. The board of county commissioners may remove property from a district by resolution after notice and a public hearing. For property to be removed from a district, the board of county commissioners must find the following:

- The owners of the property to be removed contemplate placing residential uses on some of the property to be removed.
- All of the owners of property in the area to be removed have petitioned for removal.
- The area to be removed no longer requires the services, facilities, or functions financed, provided, or maintained for the district.

Once property has been removed from the district, it is subject to the general law concerning annexation. A resolution removing property from a district takes effect at the beginning of a fiscal year commencing after its passage. The Research Triangle Park plans a mixed-use project near one of the Triangle Transit Authority Rail stations, to open in 2007. The area to be removed is approximately 26 acres on the edge of the district.

---

[1] Part 2 of Article 16 of Chapter 153A.
[2] G.S. 153A-312(a) imposes additional conditions.
[3] G.S. 153A-317 provides that the tax rate may not exceed 10 cents on each $100 value of property subject to taxation.

Short Title: Avery County/Blowing Rock Occupancy Tax. (Local)

Sponsors:

Referred to:

February 26, 2003

A BILL TO BE ENTITLED

AN ACT TO AUTHORIZE AVERY COUNTY TO LEVY AN OCCUPANCY TAX IN A TAX DISTRICT COMPRISING THE UNINCORPORATED AREAS OF THE COUNTY AND TO AUTHORIZE THE TOWN OF BLOWING ROCK TO INCREASE ITS OCCUPANCY TAX AND TO MAKE OTHER ADMINISTRATIVE CHANGES TO ITS OCCUPANCY TAX.

The General Assembly of North Carolina enacts:

AVERY COUNTY OCCUPANCY TAX

SECTION 1. Avery County District U Created. – Avery County District U is created as a taxing district. Its jurisdiction consists of that part of Avery County that is located outside of incorporated areas within the county. Avery County District U is a body politic and corporate and has the power to carry out the provisions of this act. The Avery County Board of Commissioners shall serve ex officio as the governing body of the district, and the officers of the county shall serve as the officers of the governing body of the district. A simple majority of the governing body constitutes a quorum, and approval by a majority of those present is sufficient to determine any matter before the governing body, if a quorum is present.

SECTION 2. Authorization and Scope. – The governing body of Avery County District U may levy a room occupancy tax of up to six percent (6%) of the gross receipts derived from the rental of any room, lodging, or accommodation furnished by a hotel, motel, inn, tourist camp, or similar place within the district that is subject to sales tax imposed by the State under G.S. 105-164.4(a)(3). This tax is in addition to any State or local sales or room occupancy tax. This tax does not apply to accommodations furnished by charitable, educational, or religious institutions or nonprofit organizations when furnished in furtherance of their nonprofit purpose.

SECTION 3. Administration. – A tax levied under this act shall be levied, administered, collected, and repealed as provided in G.S. 153A-155 as if Avery County

District U were a county. The penalties provided in G.S. 153A-155 apply to a tax levied under this act.

SECTION 4. Distribution and Use of Tax Revenue. – Avery County District U shall, on a quarterly basis, distribute the net proceeds of the occupancy tax to the Avery County District U Tourism Development Authority created pursuant to Section 5 of this act. The Authority shall use at least two-thirds of the proceeds distributed to it to promote travel and tourism in the district and shall use the remainder for tourism-related expenditures in the district. In accordance with the North Carolina Constitution and the United States Constitution, the tax proceeds may be used only for the direct benefit of the jurisdiction of Avery County District U. None of the proceeds may be used to promote travel or tourism in areas within Avery County that are outside of the district or for tourism-related expenditures in the county that are outside of the district.

The following definitions apply in this act:

(1) Net proceeds. – Gross proceeds less the cost to the district of administering and collecting the tax, as determined by the finance officer, not to exceed three percent (3%) of the first five hundred thousand dollars ($500,000) of gross proceeds collected each year and one percent (1%) of the remaining gross receipts collected each year.

(2) Promote travel and tourism. – To advertise or market an area or activity, publish and distribute pamphlets and other materials, conduct market research, or engage in similar promotional activities that attract tourists or business travelers to the area; the term includes administrative expenses incurred in engaging in the listed activities.

(3) Tourism-related expenditures. – Expenditures that are designed to increase the use of lodging facilities in the district or to attract tourists or business travelers to the district. The term includes expenditures to construct, maintain, operate, or market a convention center and other expenditures that, in the judgment of the entity making the expenditure, will facilitate and support tourism.

SECTION 5.(a) Avery County District U Tourism Development Authority. – Appointment and membership. – The board of commissioners of Avery County shall adopt a resolution creating the Avery County District U Tourism Development Authority, which shall be a public authority under the Local Government Budget and Fiscal Control Act. The resolution shall provide for the membership of the Authority, including the members' terms of office, and for the filling of vacancies on the Authority. At least one-third of the members must be individuals who are affiliated with businesses that collect the tax in the district, and at least three-fourths of the members must be individuals who are currently active in the promotion of travel and tourism in the district. The board of commissioners shall designate one member of the Authority as chair and shall determine the compensation, if any, to be paid to members of the Authority.

The Authority shall meet at the call of the chair and shall adopt rules of procedure to govern its meetings. The Finance Officer for Avery County shall be the ex officio finance officer of the Authority.

SECTION 5.(b) Duties. – The Authority shall expend the net proceeds of the tax levied under this act for the purposes provided in Section 4 of this act. The Authority shall promote travel and tourism in the district and make tourism-related expenditures in the district.

SECTION 5.(c) Reports. – The Authority shall report quarterly and at the close of the fiscal year to the Avery County Board of Commissioners on its receipts and expenditures for the preceding quarter and for the year in such detail as the board may require.

BLOWING ROCK OCCUPANCY TAX

SECTION 6. Chapter 171 of the 1987 Session Laws reads as rewritten:

"Section 1. Occupancy tax. – (a) Authorization and scope. – The Blowing Rock Town Council may ~~by resolution, after not less than 10 days' public notice and after a public hearing held pursuant thereto,~~ levy a room occupancy tax of three percent (3%) of the gross receipts derived from the rental of any room, lodging, or similar accommodation furnished by a hotel, motel, inn, or similar place within the corporate limits of the town that is subject to sales tax imposed by the State under ~~G.S. 105-164.4(3).~~G.S. 105-164.4(a)(3). This tax is in addition to any State or local sales tax. This tax does not apply to accommodations furnished by nonprofit charitable, educational, or religious organizations.

(a1) Additional Occupancy Tax. – In addition to the tax authorized by subsection (a) of this section, the Blowing Rock Town Council may levy a room occupancy and tourism development tax of three percent (3%) of the gross receipts derived from the rental of accommodations taxable under that section. The levy, collection, administration, use, and repeal of the tax authorized by this section shall be in accordance with this act. The Town of Blowing Rock may not levy a tax under this section unless it also levies a tax under subsection (a) of this section.

~~(b) Collection. Every operator of a business subject to the tax levied under this section shall, on and after the effective date of the levy of the tax, collect the tax. This tax shall be collected as part of the charge for furnishing a taxable accommodation. The tax shall be stated and charged separately from the sales records, and shall be paid by the purchaser to the operator of the business as trustee for and on account of the town. The tax shall be added to the sales price and shall be passed on to the purchaser instead of being borne by the operator of the business. The town shall design, print, and furnish to all appropriate businesses and persons in the town the necessary forms for filing returns and instructions to ensure the full collection of the tax. An operator of a business who collects the occupancy tax levied under this section may deduct from the amount remitted to the town a discount of three percent (3%) of the amount collected.~~

(c) Administration. – A tax levied under this act shall be levied, administered, collected, and repealed as provided in G.S. 160A-215. The penalties provided in G.S. 160A-215 apply to a tax levied under this act.~~The town shall administer a tax levied under this section. A tax levied under this section is due and payable to the town finance officer in monthly installments on or before the 15th day of the month following the month in which the tax accrues. Every person, firm, corporation, or association liable for the tax shall, on or before the 15th day of each month, prepare and render a~~

~~return on a form prescribed by the town. The return shall state the total gross receipts derived in the preceding month from rentals upon which the tax is levied.~~

~~A return filed with the town finance officer under this section is not a public record as defined by G.S. 132-1 and may not be disclosed except as required by law.~~

~~(d) Penalties. A person, firm, corporation, or association who fails or refuses to file the return required by this section shall pay a penalty of ten dollars ($10.00) for each day's omission. In case of failure or refusal to file the return or pay the tax for a period of 30 days after the time required for filing the return or for paying the tax, there shall be an additional tax, as a penalty, of five percent (5%) of the tax due in addition to any other penalty, with an additional tax of five percent (5%) for each additional month or fraction thereof until the tax is paid.~~

~~Any person who willfully attempts in any manner to evade a tax imposed under this section or who willfully fails to pay the tax or make and file a return shall, in addition to all other penalties provided by law, be guilty of a misdemeanor and shall be punishable by a fine not to exceed one thousand dollars ($1,000), imprisonment not to exceed six months, or both. The town council may, for good cause shown, compromise or forgive the penalties imposed by this subsection.~~

(e) Distribution and use of tax revenue. The Town of Blowing Rock ~~shall retain from the gross proceeds of the tax an amount sufficient to pay its direct costs for administrative and collection expenses, not to exceed three percent (3%) of the gross proceeds. The town council shall, at least once annually, conduct a hearing on the proposed use of the net proceeds of the tax. The amount of the net proceeds shall be reported at the hearing. After the hearing, the town council may remit twenty percent (20%) of the net proceeds reported at the hearing to the Blowing Rock Chamber of Commerce. The Blowing Rock Chamber of Commerce may use the funds remitted to it pursuant to this subsection only to promote tourism within the Town of Blowing Rock. The remainder of the net proceeds may be used by the town to enhance the ability of the town to attract tourism, except that the town may not expend any of the net proceeds for general fund operating expenses that are not tourist related or for water and sewer capital or operating expenses that are not tourist related.~~shall, on a quarterly basis, remit the net proceeds of the occupancy tax to the Blowing Rock Tourism Development Authority. The Authority shall use at least two-thirds of the funds remitted to it under this subsection to promote travel and tourism in Blowing Rock and shall use the remainder for tourism-related expenditures.

The following definitions apply in this subsection:

(1) Net proceeds. – Gross proceeds less the cost to the town of administering and collecting the tax, as determined by the finance officer, not to exceed three percent (3%) of the first five hundred thousand dollars ($500,000) of gross proceeds collected each year and one percent (1%) of the remaining gross receipts collected each year.

(2) Promote travel and tourism. – To advertise or market an area or activity, publish and distribute pamphlets and other materials, conduct market research, or engage in similar promotional activities that attract

tourists or business travelers to the area; the term includes administrative expenses incurred in engaging in the listed activities.

(3) Tourism-related expenditures. – Expenditures that, in the judgment of the Tourism Development Authority, are designed to increase the use of lodging facilities, meeting facilities, and convention facilities in the town by attracting tourists or business travelers to the town. The term includes tourism-related capital expenditures.

Sec. 1.1. Blowing Rock Tourism Development Authority. – (a) Appointment and membership. – When the Blowing Rock Town Council adopts a resolution levying a room occupancy tax under this act, it shall also adopt a resolution creating the Blowing Rock Tourism Development Authority, which shall be a public authority under the Local Government Budget and Fiscal Control Act. The resolution shall provide for the membership of the Authority, including the members' terms of office, and for the filling of vacancies on the Authority. At least one-third of the members must be individuals who are affiliated with businesses that collect the tax in the town, and at least three-fourths of the members must be individuals who are currently active in the promotion of travel and tourism in the town. The town council shall designate one member of the Authority as chair and shall determine the compensation, if any, to be paid to members of the Authority.

The Authority shall meet at the call of the chair and shall adopt rules of procedure to govern its meetings. The Finance Officer for Blowing Rock shall be the ex officio finance officer of the Authority.

(b) Duties. – The Authority shall expend the net proceeds of the tax levied under this act for the purposes provided in Section 1 of this act. The Authority shall promote travel and tourism in the district and make tourism-related expenditures in the town.

(c) Reports. – The Authority shall report quarterly and at the close of the fiscal year to the Blowing Rock Town Council on its receipts and expenditures for the preceding quarter and for the year in such detail as the town council may require.

~~(f) Effective date of levy. A tax levied under this section shall become effective on the date specified in the resolution levying the tax. That date must be the first day of a calendar month, however, and may not be earlier than the first day of the second month after the date the resolution is adopted.~~

~~(g) Repeal. A tax levied under this section may be repealed by a resolution adopted by the Blowing Rock Town Council. Repeal of a tax levied under this section shall become effective on the first day of a month and may not become effective until the end of the fiscal year in which the repeal resolution was adopted. Repeal of a tax levied under this section does not affect a liability for a tax that was attached before the effective date of the repeal, nor does it affect a right to a refund of a tax that accrued before the effective date of the repeal.~~

Sec. 2. This act is effective upon ratification."

SECTION 7. G.S. 153A-155(g) reads as rewritten:

"(g) This section applies only to Anson, Brunswick, Buncombe, Cabarrus, Carteret, Craven, Cumberland, Currituck, Dare, Davie, Durham, Granville, Madison, Montgomery, Nash, New Hanover, Pender, Person, Randolph, Richmond, Rowan,

Scotland, Stanly, Transylvania, Tyrrell, Vance, and Washington Counties, to Avery County District U, and to the Township of Averasboro in Harnett County."

SECTION 8. G.S. 160A-215(g) reads as rewritten:

"(g) This section applies only to Beech Mountain District W, to the Cities of Gastonia, Goldsboro, Greensboro, High Point, Kings Mountain, Lexington, Lincolnton, Lumberton, Monroe, Mount Airy, Shelby, Statesville, Washington, and Wilmington, to the Towns of Beech Mountain, Blowing Rock, Carolina Beach, Carrboro, Kure Beach, Jonesville, Mooresville, North Topsail Beach, Selma, Smithfield, St. Pauls, Wilkesboro, and Wrightsville Beach, and to the municipalities in Avery and Brunswick Counties."

SECTION 9. This act is effective when it becomes law.

GENERAL ASSEMBLY OF NORTH CAROLINA

SESSION 2003

HOUSE BILL 96

Short Title:	Avery County Occupancy Tax.	(Local)
Sponsors:	Representative Frye.	
Referred to:	Finance.	

February 26, 2003

A BILL TO BE ENTITLED

AN ACT TO AUTHORIZE AVERY COUNTY TO LEVY AN OCCUPANCY TAX IN A TAX DISTRICT COMPRISING THE UNINCORPORATED AREAS OF THE COUNTY.

The General Assembly of North Carolina enacts:

SECTION 1. Avery County District U Created. – Avery County District U is created as a taxing district. Its jurisdiction consists of that part of Avery County that is located outside of incorporated areas within the county. Avery County District U is a body politic and corporate and has the power to carry out the provisions of this act. The Avery County Board of Commissioners shall serve ex officio as the governing body of the district, and the officers of the county shall serve as the officers of the governing body of the district. A simple majority of the governing body constitutes a quorum, and approval by a majority of those present is sufficient to determine any matter before the governing body, if a quorum is present.

SECTION 2. Authorization and Scope. – The governing body of Avery County District U may levy a room occupancy tax of up to six percent (6%) of the gross receipts derived from the rental of any room, lodging, or accommodation furnished by a hotel, motel, inn, tourist camp, or similar place within the district that is subject to sales tax imposed by the State under G.S. 105-164.4(a)(3). This tax is in addition to any State or local sales or room occupancy tax. This tax does not apply to accommodations furnished by charitable, educational, or religious institutions or nonprofit organizations when furnished in furtherance of their nonprofit purpose.

SECTION 3. Administration. – A tax levied under this act shall be levied, administered, collected, and repealed as provided in G.S. 153A-155 as if Avery County District U were a county. The penalties provided in G.S. 153A-155 apply to a tax levied under this act.

SECTION 4. Distribution and Use of Tax Revenue. – Avery County District U shall, on a quarterly basis, distribute the net proceeds of the occupancy tax to the Avery County District U Tourism Development Authority created pursuant to Section 5

of this act. The Authority shall use at least two-thirds of the proceeds distributed to it to promote travel and tourism in the district and shall use the remainder for tourism-related expenditures in the district. In accordance with the North Carolina Constitution and the United States Constitution, the tax proceeds may be used only for the direct benefit of the jurisdiction of Avery County District U. None of the proceeds may be used to promote travel or tourism in areas within Avery County that are outside of the district or for tourism-related expenditures in the county that are outside of the district.

The following definitions apply in this act:

(1) Net proceeds. – Gross proceeds less the cost to the district of administering and collecting the tax, as determined by the finance officer, not to exceed three percent (3%) of the first five hundred thousand dollars ($500,000) of gross proceeds collected each year and one percent (1%) of the remaining gross receipts collected each year.

(2) Promote travel and tourism. – To advertise or market an area or activity, publish and distribute pamphlets and other materials, conduct market research, or engage in similar promotional activities that attract tourists or business travelers to the area; the term includes administrative expenses incurred in engaging in the listed activities.

(3) Tourism-related expenditures. – Expenditures that are designed to increase the use of lodging facilities in the district or to attract tourists or business travelers to the district. The term includes expenditures to construct, maintain, operate, or market a convention center and other expenditures that, in the judgment of the entity making the expenditure, will facilitate and support tourism.

SECTION 5.(a) Avery County District U Tourism Development Authority. – Appointment and membership. – The board of commissioners of Avery County shall adopt a resolution creating the Avery County District U Tourism Development Authority, which shall be a public authority under the Local Government Budget and Fiscal Control Act. The resolution shall provide for the membership of the Authority, including the members' terms of office, and for the filling of vacancies on the Authority. At least one-third of the members must be individuals who are affiliated with businesses that collect the tax in the district, and at least three-fourths of the members must be individuals who are currently active in the promotion of travel and tourism in the district. The board of commissioners shall designate one member of the Authority as chair and shall determine the compensation, if any, to be paid to members of the Authority.

The Authority shall meet at the call of the chair and shall adopt rules of procedure to govern its meetings. The Finance Officer for Avery County shall be the ex officio finance officer of the Authority.

SECTION 5.(b) Duties. – The Authority shall expend the net proceeds of the tax levied under this act for the purposes provided in Section 4 of this act. The Authority shall promote travel and tourism in the district and make tourism-related expenditures in the district.

SECTION 5.(c) Reports. – The Authority shall report quarterly and at the close of the fiscal year to the Avery County Board of Commissioners on its receipts and expenditures for the preceding quarter and for the year in such detail as the board may require.

SECTION 6. G.S. 153A-155(g) reads as rewritten:

"(g) This section applies only to Anson, Brunswick, Buncombe, Cabarrus, Carteret, Craven, Cumberland, Currituck, Dare, Davie, Durham, Granville, Madison, Montgomery, Nash, New Hanover, Pender, Person, Randolph, Richmond, Rowan, Scotland, Stanly, Transylvania, Tyrrell, Vance, and Washington Counties, to Avery County District U, and to the Township of Averasboro in Harnett County."

SECTION 7. This act is effective when it becomes law.

HOUSE BILL 96:
Avery County Occupancy Tax

BILL ANALYSIS

Committee:	House Finance	**Introduced by:**	Rep. Frye
Date:	May 22, 2003	**Summary by:**	Trina Griffin
Version:	PCS for 1st Edition		Committee Counsel

SUMMARY: ***House Bill 96 creates a taxing district in Avery County that consists of the unincorporated areas of the county and authorizes the district to levy a room occupancy tax of up to 6%. The Proposed Committee Substitute adds a provision authorizing the Town of Blowing Rock to increase its room occupancy tax from 3% to 6% and makes its current administrative provisions conform to the occupancy tax guidelines followed by the House Finance Committee.***

The PCS was given a favorable report by the Occupancy Tax Subcommittee.

CURRENT LAW:

Avery County

In 1993, the General Assembly authorized Avery County to levy a 3% occupancy tax. In 2000, the county repealed its occupancy tax, but it still had the legislative authority to levy the tax. Then in 2001, the General Assembly repealed the county's authority to levy the tax. All of the towns in Avery County currently have the authority to levy a 6% room occupancy tax.

Blowing Rock

In 1987, the General Assembly authorized the town of Blowing Rock to levy a 3% room occupancy tax. The legislation requires the town council to conduct a hearing at least once a year on the proposed use of the net proceeds of the tax. After the hearing, the town council may remit 20% of the net proceeds to the Blowing Rock Chamber of Commerce, which must use the funds to promote tourism within the town. The town may use the remainder of the proceeds to enhance the ability of the town to attract tourism. However, the town may not use any of the proceeds for general fund operating expenses that are not tourist-related. Currently, the town does not have a Tourism Development Authority.

BILL ANALYSIS:

Avery County District U

The bill creates the Avery County District U taxing district, which consists of the unincorporated areas of the county. The Avery County Board of Commissioners shall serve ex officio as the governing body of the district, and the officers of the county shall serve as the officers of the governing body of the district. The bill authorizes the district to levy a room occupancy tax of up to 6%. The district must remit the net proceeds of the tax on a quarterly basis to a Tourism Development Authority, which is required to be established under the bill. The Authority must use two-thirds of the net proceeds to promote travel and tourism and the remainder must be used for tourism-related purposes.

The provisions regarding Avery County District U meet all of the uniform provisions for occupancy taxes adopted by the House Finance Committee and supported by the NC Travel and Tourism Coalition.

Blowing Rock

Section 6 of the bill authorizes the town of Blowing Rock to increase its room occupancy tax from 3% to 6%. It also conforms Blowing Rock's current legislation to both the uniform provisions concerning the levy, administration, collection, and repeal of the tax found in G.S. 160A-215 and the uniform provisions concerning the use and distribution of the proceeds.

The provisions regarding Blowing Rock meet all of the uniform provisions for occupancy taxes adopted by the House Finance Committee and supported by the NC Travel and Tourism Coalition.

BACKGROUND: Since 1983, the General Assembly has authorized many units of local government to levy a room occupancy tax. In several instances, the General Assembly has authorized both a county and a city within that county to impose an occupancy tax. The rate of tax, the use of the tax proceeds, the administration of the tax, and the body with the authority to determine how the tax proceeds will be spent vary considerably. Over the past several years, there has been a greater effort to make the occupancy taxes uniform. In 1997, the General Assembly enacted uniform municipal and county administrative provisions for occupancy tax legislation – G.S. 153A-155 and G.S. 160A-215. These provisions provide uniformity in the areas of levy, administration, collection, repeal, and penalties.

The North Carolina Travel and Tourism Coalition has a policy statement for legislation authorizing local occupancy taxes. Many of the principles contained in its statement are similar to the ones established by the House Finance subcommittee in 1993.

FISCAL ANALYSIS MEMORANDUM

[This confidential fiscal memorandum is a fiscal analysis of a draft bill, amendment, committee substitute, or conference committee report that has not been formally introduced or adopted on the chamber floor or in committee. This is not an official fiscal note. If upon introduction of the bill you determine that a formal fiscal note is needed, please make a fiscal note request to the Fiscal Research Division, and one will be provided under the rules of the House and the Senate.]

RE: HB 96 PCS – Avery County Occupancy Tax

FISCAL IMPACT

Yes (X) **No ( )** **No Estimate Available ( )**

	FY 2003-04	FY 2004-05	FY 2005-06	FY 2006-07	FY 2007-08
REVENUES					
General Fund	*** No General Fund Impact ***				
Avery Co. TDA	*** See Assumptions and Methodology ***				
Blowing Rock	**333,653**	**340,326**	**347,133**	**354,075**	**361,157**

PRINCIPAL DEPARTMENT(S) & PROGRAM(S) AFFECTED: Avery County and the Town of Blowing Rock.

EFFECTIVE DATE: When it becomes law.

BILL SUMMARY: The bill makes three changes to current occupancy taxes. First, it creates a taxing district, "Avery County District U", and authorizes that district to levy a room occupancy tax of up to 6%. Second, it allows the Town of Blowing Rock to increase its room occupancy rate from 3% to 6%. Finally, it conforms the existing Blowing Rock occupancy tax language to reflect the occupancy tax guidelines followed by the House Finance Committee.

BACKGROUND: In 1983 the General Assembly authorized Avery County to levy a room occupancy tax of up to 3%. That tax was levied through 1999. In 2000, the local county commission repealed the room tax, and in 2001, the General Assembly repealed that county's authority to levy an occupancy tax. Independent of these actions, all municipalities in Avery County are authorized to levy a room tax of up to 6%.

ASSUMPTIONS AND METHODOLOGY: The first potential fiscal impact relates to Avery County. According to reports filed with the Tax Research Division of The NC Department of Revenue, Avery County municipalities levied and collected the following occupancy taxes in 2001-02:

Municipality	Rate	Revenue
Banner Elk	3%	54,338
Beech Mountain	3%	
Sugar Mountain*	3%	53,896

* Sugar Mountain's occupancy tax became effective January 1, 2002.

In 1999-00 Avery County collected $156,512 in occupancy taxes, using a 3% rate. Growing this forward to a 2001-02 occupancy tax estimate suggests that if a countywide tax were levied in that year it would yield approximately $162,272. However, as the above municipal revenue figures indicate, the vast majority of the revenues were drawn from incorporated areas, suggesting limited revenues from what now would be the Avery County District U. However, no exact fiscal estimate is available at this time.

The second impact relates to Blowing Rock. In 2001-02 the 3% Blowing Rock occupancy tax raised $320,697 in revenues. This suggests that doubling the rate to 6% in that same year would have yielded an additional $320,697. Applying the 2% growth rate noted above suggests the following increased revenue stream for Blowing Rock:

2003-04	2004-05	2005-06	2006-07	2007-08
333,653	340,326	347,133	354,075	361,157

This is the amount shown in the fiscal impact box. It should also be noted that the changes made in the Blowing Rock occupancy tax statutes may result in a reallocation of funds among purposes.

SOURCES OF DATA: NC Department of Revenue.

HOUSE FINANCE

COMMITTEE MINUTES

House Committee on Finance

Minutes

~

May 28, 2003 ~ 8:30 am

The House Committee on Finance met on Wednesday, May 28, 2003 at 8:30 am in Room 544 of the Legislative Office Building. The following members were present: Chairpersons G. Allen, Howard, Luebke, McComas, Miner, and Wainwright; Vice-Chairs Alexander, Decker, Gibson, and Hill; Representatives Blackwood, Bordsen, Capps, Carney, Creech, Ellis, Glazier, Hackney, Holliman, Jones, Lewis, McCombs, McGee, Munford, Rayfield, Ross, Setzer, Starnes, Weiss, Womble, and Wood, and Ex-officio members, Representatives Brubaker, Culpepper and Eddins. Also present were Sergeant-at-Arms Bob Fowler, Bill Freeman, Dusty Rhodes, and Walter Spell. Staff persons present included Richard Bostic, Jerry Cohen, Martha Harris, Alexei Pavlichev, and Martha Walston. The Agenda and Visitor Registration Sheet are attached and incorporated into these minutes as attachments 1 and 2.

Chairman Allen called the meeting to order at 8:47 am and immediately recognized the four pages present: (1) Heather Clayton of Rowan County, sponsored by Representative McCombs; (2) Tyler Dickson of Gaston County, sponsored by Representative Rayfield; (3) Nina Jackson of Sampson County, sponsored by Representative Nye; and (4) Shira Sattin of New Hanover County, sponsored by Representative McComas.

As the first matter of business before the Committee, Chairman Allen recognized Representative Howard for a motion on HB 457 – CITY OF JACKSONVILLE LOCAL ACT-2 (see attachment 3). Representative Howard moved that the Committee adopt the Proposed Committee Substitute for the bill and that the bill be re-referred to the House Finance Subcommittee on Occupancy Taxes. The Chair called the vote on the motion, and it carried without objection.

Chairman Allen then recognized and welcomed the Secretary of the North Carolina Department of Health and Human Services, Carmen Hooker Odom. Secretary Odom began her discussion by heavily emphasizing the State's need for "a new, state-of-the-art psychiatric hospital." She noted that various studies have shown that North Carolina relies heavily upon institutional care rather than community care. Due to federal regulations and other factors, noted Odom, the downsizing of these institutions and the implementation of community-based care facilities is being required. Secretary Odom stated that a new hospital in the central area of the state was, in her opinion, the most prudent and fiscally wise choice. She explained that by closing down two, old existing hospitals and building this one new one, the state could save money while at the same time providing the necessary level of care. She reported that the required costs to properly renovate and update the two existing hospitals would cost the state between $140 million and $160 million dollars. Construction of the proposed new hospital would cost only an estimated $110 million. On a final note, with regard to the overall costs of a new hospital, Secretary Odom pointed out that the proposed funding for this hospital was through Certificates of Participation (COPS) which have been used by the state for past prison constructions.

Secretary Odom then turned her focus to the most appropriate site or location of the new hospital (see bill summary and fiscal note, attachment 4). She noted that her office had investigated a number of locations that were proposed in the central part of the state. After this search, she announced that she and her office were in support of the new hospital being constructed in the community of Butner (Granville County). She was quick to stress, however, that the location of the new hospital was far less important than the quality of the clinical care provided to the patients.

Secretary Odom further spoke to the outstanding quality and commitment provided by the dedicated employees working in these hospitals. She noted that the loss of the current hospital in the Butner area and the new hospital being located elsewhere would likely have a lasting effect on the growing employment problems in that area of the state.

Secretary Odom spoke to the proposed Chatham County (Siler City) site for a hospital. However, she explained that this location, while located more centrally than any other proposed site in the region, does not have good highway access. She also stated that water and sewer lines would both have to be extended to the area as they are not already in place. She also noted that this location would require the construction of an access road, which would require a right of access from private property owners. Secretary Odom compared these problems with the Butner site when stating that at the Granville County site there would be no access roads required and the state already owns the water and sewer lines on the property.

Following a few questions from members, Chairman Allen thanked Secretary Odom for her presentation and asked her to remain in the Committee room to field any questions that might arise.

The Chair then recognized Representative Luebke who moved for the adoption of the PCS for HB 684, HB 949, and HB 961. With no objection present, the motion carried.

Chairman Allen then immediately recognized Representative Crawford to explain HB 684 (see attachment 5). This bill acts to construct a new psychiatric hospital at the Butner (Granville County) site. Representative Crawford noted his long commitment and work involving the issues of mental health and illness. He explained that Butner was the best location for the new hospital because the people in this rural area are caring. He also explained that the community of Butner was economically dependent upon the continued existence of a hospital in the area. He specifically stated that the unemployment rate in Butner was estimated to soar from 6 percent to 13 percent if the hospital was relocated. He noted that there are over 9,000 acres at the Butner site available and that the site provides easy access to both Interstate 85 and Interstate 40.

The Chair next recognized Representative Hackney to explain HB 949 (see attachment 6). This bill acts to construct the new hospital at the Chatham County (Siler City) site. Representative Hackney began his presentation for HB 949 by stating that the Committee members should think about the long term when considering the construction site for this hospital. He then outlined a number of reasons why Chatham County (Siler City) was the best site:

- Representative Hackney stated that the primary focus should be the interests of the patients and their families, and not State Employees.
- The Triad, Triangle, and Cumberland metropolitan areas of the central region are all easily accessible to the Chatham site.

- The site provides temporary living options and other services (hotels, motels, restaurants, etc.)
- The Chatham site sits close to the intersection of two large highways – US 64 and US 421.
- Representative Hackney emphasized that the problems pointed out by Secretary Odom concerning access to the facility are outdated and no longer accurate and that access to the site would cost the state no money.
- The new hospital facility must be able to attract the best and the brightest staff, but Representative Hackney feels this can't be accomplished at the Butner site. He specifically cites Dr. Golden's letter from the UNC School of Medicine, Department of Psychiatry (see attachment 5).
- There is no state institution in Chatham County. Wake County and Butner both already have state and federal facilities within their borders.
- Chatham County, due to job losses in the furniture industry, can rival the job demand for the hospital in the Butner area. Chatham also has a ready workforce available (since it can easily draw from surrounding communities) unlike Butner.
- The Chatham/Siler City community offers affordable living for those families choosing to relocate to the area.
- Finally, Representative Hackney noted that Butner is in the far northeast of the central region and Wake is farther east than any other area in the region.

Following Representative Hackney's explanation, Chairman Allen informed the Committee that the time was 10:00 am and asked if the Committee could continue onward or if it would need to break. As several committee members were required to attend other meetings during the 10:00 o'clock hour, Chair Allen ordered the meeting in recess (at 10:02 am) for one hour until 11:00 am. He stated that when the Committee reconvened at 11 am, it would hear from Representative Ross on the proposed Wake County Hospital site. He also noted that the members would meet in Room 643 of the Legislative Office Building (Appropriations Committee Room) as the current room was unavailable during that hour.

Respectfully submitted,

Representative Gordon Allen
Presiding Chair

Jason A. Cannon
Assistant to Committee on Finance

House Committee on Finance

Minutes

~

May 28, 2003 ~ 11:00 am

The House Committee on Finance reconvened on Wednesday, May 28, 2003 at 11:00 am in Room 643 of the Legislative Office Building (following an 8:30 am meeting in Room 544). The following members were present: Chairpersons G. Allen, Howard, Luebke, McComas, Miner, and Wainwright; Vice-Chairs Alexander, Decker, Gibson, and Hill; Representatives Blackwood, Bordsen, Capps, Carney, Creech, Ellis, Glazier, Hackney, Holliman, Jones, Lewis, McCombs, McGee, Munford, Rayfield, Ross, Setzer, Starnes, Weiss, Womble, and Wood, and Ex-officio members, Representatives Culpepper and Eddins. Also present were Sergeant-at-Arms Bob Fowler, Bill Freeman, Dusty Rhodes, and Walter Spell. Staff persons present included Jerry Cohen, Martha Harris, Jim Klingler, and Martha Walston.

Chairman Allen called the meeting back to order at 11:30 am. He then recognized the two pages present: Leigh Williamson and Lesli Oakley, both of Wake County, both sponsored by Speaker Black.

In continuing the discussion of Psychiatric Hospitals in the state, the Chair recognized Representative Ross to explain HB 961 (see attachment 7). This bill acts to construct a new psychiatric hospital in the Wake County area. Representative Ross requested first that the Chair recognize Representative Miner to address the Committee on the bill, noting that there is bipartisan support of this hospital by all members of the Wake County delegation. Representative Miner spoke briefly on the importance of the Committee making the best decision on where to build this hospital. The Chair then once again recognized Representative Ross. She began by stating her background as a daughter of a psychiatrist with over 25 years experience working in a hospital and caring for the mentally ill. She noted that she represents all of the neighborhoods in and around the current Dorothea Dix Hospital in Raleigh. Representative Ross feels that the primary focus of the General Assembly and the Committee should be patient care. She then explained that Wake County has the largest number of people in its area with regard to population. Wake County, according to Ross, is also able to provide the best staff and treatment for patients in a psychiatric hospital as well as the services needed by families living or visiting in the area. She stressed that while Chatham County is most central in the region when looking at a map, Wake County is most central with regard to accessibility to the greatest number of people.

Following this discussion and a few questions from members, Chairman Allen informed the members that a Budget Conference Committee meeting had been called for 12 noon and would require the postponement of this meeting until a later time.

Without further discussion, Chairman Allen recessed the meeting at 11:57 am until next Tuesday, June 3, 2003, at 8:30am in Room 544 of the Legislative Office Building when the issue of the location of this new psychiatric hospital will again be addressed.

Respectfully submitted,

Representative Gordon Allen
Presiding Chair

Jason A. Cannon

Subject: Three Psychiatric Hospital Bills - Procedure

Here is an outline of the procedure we discussed that appears to be equally fair to the proponents of each location for a new hospital (see chart below). We reviewed several options and this one seems to create an even playing field with a minimum of confusion. Staff will have the documents ready. If you decide on a different approach, please let us know. Also, you may want to inform Rep. Hackney and Rep. Ross in advance of this procedure.

1. The Secretary and each sponsor will be given an opportunity to speak at the beginning of the meeting.
2. The committee members will be informed that identical PCSs have been prepared for each bill. Each PCS does three things:
   - Removes the location.
   - Removes the unmarketable type of debt that was in the original bill, as recommended by Treasurer.
   - Clarifies generally (without naming hospitals) that if any existing institutions are closed, the recurring savings will go toward debt service.
3. The committee members will be informed that the question of where the hospital will be located will be decided by voting on amendments to the PCS, which any member may offer.
4. The committee would then adopt HB 684 for discussion and consideration of amendments. Staff will have amendments ready for each of the three locations.

Psychiatric Hospital Debt Bills for Jun 5/27/03 "secured indebtedness"

Bill #	Short Title	Sponsor	Status	Information
H684 [S845]	Psychiatric Hospital - Butner	Rep. Crawford [Sen. Gulley]	H Fin [S Fin]	Authorizes $110 million of security interest debt. The PCS for each House bill removes the special obligation bonds, which the Treasurer's office determined are not marketable. The PCS also provides that any savings from closing any existing hospital would be used for debt service. Each PCS removes any reference to location; location will be determined by committee amendment.

Subject: House Bills 684, 949, and 961 calendared for 5-27-03

Ms. Akland,

This message confirms our phone conversation earlier today.

Please be advised that the House Committee on Finance has calendared House Bills 684, 949, and 961 for consideration on Tuesday, May 27, 2003 at 8:30 am in Room 544 of the Legislative Office Building.

I will inform the Committee Chairs of your intent to address the membership. Please let me know if you have further questions for concerns.

Thank you.

GENERAL ASSEMBLY OF NORTH CAROLINA

SESSION 2003

H D

HOUSE BILL 457
PROPOSED COMMITTEE SUBSTITUTE H457-CSSVx-21 [v.2]

5/24/2003 8:43:05 PM

Short Title: Jacksonville Occupancy Tax. (Local)

Sponsors:

Referred to:

March 13, 2003

A BILL TO BE ENTITLED

AN ACT TO AUTHORIZE THE CITY OF JACKSONVILLE TO LEVY AN OCCUPANCY TAX.

The General Assembly of North Carolina enacts:

SECTION 1. Occupancy tax. – (a) Authorization and Scope. – The Jacksonville City Council may levy a room occupancy tax of up to three percent (3%) of the gross receipts derived from the rental of any room, lodging, or accommodation furnished by a hotel, motel, inn, tourist camp, or similar place within the city that is subject to sales tax imposed by the State under G.S. 105-164.4(a)(3). This tax is in addition to any State or local sales tax. This tax does not apply to accommodations furnished by nonprofit charitable, educational, or religious organizations when furnished in furtherance of their nonprofit purpose.

SECTION 1.(b) Administration. – A tax levied under this section shall be levied, administered, collected, and repealed as provided in G.S. 160A-215. The penalties provided in G.S. 160A-215 apply to a tax levied under this section.

SECTION 1.(c) Distribution and Use of Tax Revenue. – The City of Jacksonville shall, on a quarterly basis, remit the net proceeds of the occupancy tax to the Jacksonville Tourism Development Authority. The Authority shall use at least two-thirds of the funds remitted to it under this subsection to promote travel and tourism in Jacksonville and shall use the remainder for tourism-related expenditures.

The following definitions apply in this subsection:

(1) Net proceeds. – Gross proceeds less the cost to the city of administering and collecting the tax, as determined by the finance officer, not to exceed three percent (3%) of the first five hundred thousand dollars ($500,000) of gross proceeds collected each year and one percent (1%) of the remaining gross receipts collected each year.

(2) Promote travel and tourism. – To advertise or market an area or activity, publish and distribute pamphlets and other materials, conduct market research, or engage in similar promotional activities that attract tourists or business travelers to the area. The term includes administrative expenses incurred in engaging in the listed activities.

(3) Tourism-related expenditures. – Expenditures that, in the judgment of the Tourism Development Authority, are designed to increase the use of lodging facilities, meeting facilities, or convention facilities in a city or to attract

tourists or business travelers to the city. The term includes tourism-related capital expenditures.

SECTION 2. Jacksonville Tourism Development Authority. – (a) Appointment and Membership. – When the Jacksonville City Council adopts a resolution levying a room occupancy tax under this act, it shall also adopt a resolution creating a city Tourism Development Authority, which shall be a public authority under the Local Government Budget and Fiscal Control Act. The resolution shall provide for the membership of the Authority, including the members' terms of office, and for the filling of vacancies on the Authority. At least one-third of the members must be individuals who are affiliated with businesses that collect the tax in the city, and at least three-fourths of the members must be individuals who are currently active in the promotion of travel and tourism in the city. The city council shall designate one member of the Authority as chair and shall determine the compensation, if any, to be paid to members of the Authority.

The Authority shall meet at the call of the chair and shall adopt rules of procedure to govern its meetings. The Finance Officer for the City of Jacksonville shall be the ex officio finance officer of the Authority.

SECTION 2.(b) Duties. – The Authority shall expend the net proceeds of the tax levied under this act for the purposes provided in this act. The Authority shall promote travel, tourism, and conventions in the city, sponsor tourist-related events and activities in the city, and finance tourist-related capital projects in the city.

SECTION 2.(c) Reports. – The Authority shall report quarterly and at the close of the fiscal year to the Jacksonville City Council on its receipts and expenditures for the preceding quarter and for the year in such detail as the city council may require.

SECTION 3. G.S. 160A-215(g) reads as rewritten:

"(g) **(Effective February 1, 2003)** This section applies only to Beech Mountain District W, to the Cities of Gastonia, Goldsboro, Greensboro, High Point, Kings Mountain, Jacksonville, Lexington, Lincolnton, Lumberton, Monroe, Mount Airy, Shelby, Statesville, Washington, and Wilmington, to the Towns of Beech Mountain, Carolina Beach, Carrboro, Kure Beach, Jonesville, Mooresville, North Topsail Beach, Selma, Smithfield, St. Pauls, Wilkesboro, and Wrightsville Beach, and to the municipalities in Avery and Brunswick Counties.

SECTION 4. This act is effective when it becomes law.

A BILL TO BE ENTITLED

AN ACT RELATING TO THE CITY OF JACKSONVILLE.

The General Assembly of North Carolina enacts:

SECTION 1. This act relates to the City of Jacksonville only.

SECTION 2. This act is effective when it becomes law.

HB 684, 949, & 961 (PCS): Psychiatric Hospital Financing

BILL ANALYSIS

Committee: House Finance
Date: May 21, 2003
Version: PCS

Sponsors: See below
Analysis by: Martha H. Harris
Staff Attorney

SUMMARY: The PCS for each of these three bills authorizes the issuance of up to $110 million in security interest debt to finance the acquisition, construction, and equipping of an approximately 450,000 square foot, 432-bed new psychiatric hospital.

Introduction: Three bills have been introduced in the House to authorize the issuance of $110 million of debt to finance a new psychiatric hospital. The sponsors and the hospital locations for each bill are indicated in the following chart:

Bill #	Short Title	Sponsors; Co-Sponsors	Status
H684 **[S845]**	Psychiatric Hospital – Butner H684-CSLCx-42	Rep. Crawford, G. Allen, Fox, Luebke; Rep. Wainwright [Sen. Gulley]	H Finance [S Finance]
H949	Psychiatric Hospital – Chatham H949-CSLCx-41	Rep. Hackney, Insko, Brubaker, Culp	H Finance
H961	Psychiatric Hospital – Wake H961-CSLCx-43	Rep. Ross, Munford, Miner, Weiss; Rep. B. Allen, Capps, Eddins, Ellis	H Finance

The PCS for each of these bills removes the location so that no location is specified. A location can be added by adoption of an amendment.

The PCS for each bill also makes two changes suggested by the State Treasurer:

1. Removes the authorization for special obligation bonds that would have been supported by receipts of the new hospital. It has been determined that these bonds would not be marketable.
2. Clarifies that any recurring savings generated by closing any existing psychiatric hospitals would be used for debt service. This provision is worded generically, without naming any institutions that might be closed.

The following summary applies equally to the PCS for each bill, as they are identical:

Part 1 of the bill enacts the procedural and regulatory provisions needed to carry out the security interest indebtedness. This provision is similar to the repair and renovation authorization that was in the House budget bill. Commonly referred to as "certificates of participation," security interest indebtedness is debt that is secured by an interest in the property being repaired or renovated. The term "special indebtedness" is employed to cover the three forms that this type of debt can take: installment purchase (with or without certificates of participation), lease-purchase (with or without certificates of

participation), and bonds. In each case, the debt is nonvoted. The particular form to be used for a given project will depend on its size, the nature of the property and the improvement, and other circumstances. Based on these circumstances, one form or another of security interest debt may be the least expensive and most practical for the State to utilize. More details about security interest debt are provided at the end of this summary. Part 1 prohibits the issuance of security interest debt except for projects specifically authorized by the General Assembly.

Part 2 of the bill provides the specific legislative authorization for up to $110 million of this type of indebtedness to be used for a new psychiatric hospital. Part 2 also states: "The State Treasurer may, in the Treasurer's sole discretion, require one or more reports satisfactory to the Treasurer evidencing the savings expected to be realized from the closure of existing psychiatric hospitals that are to be replaced by the project and the feasibility of the financing of the project."

Part 3 of the bill makes the following changes:

- Requires DHHS to maintain the UNC Medical School research programs currently being conducted at Dorothea Dix hospital.
- Authorizes the county chosen as the site for the hospital to acquire the land by eminent domain and to convey the land to the State.
- Directs that recurring savings realized from the closure of State psychiatric hospitals will not revert to the General Fund but will be used for the payment of debt service on the debt financing the new hospital.
- Creates a study commission to consider the potential disposition of the State-owned real property encompassing the Dorothea Dix Hospital campus.

Details about Security Interest Debt

Security. The debt would be secured by a lien on or security interest in all or any part of the capital facilities to be financed, including all or part of any land on which improvements are to be constructed. If the project is a renovation, the entire existing facility as well as the improvement could serve as security. The value of the property securing the debt may exceed the amount of the debt and the financing of several capital projects may be jointly secured by liens on some or all of the capital facilities being financed.

There would be no pledge of the State's faith and credit or taxing power. Thus, voter approval is not necessary for the borrowing. If the State defaulted on its repayments, no deficiency judgment could be rendered against the State, but the capital facilities that serve as security could be disposed of to generate funds to satisfy the debt. The State could choose not to appropriate funds to repay the debt, but such a decision would have negative consequences for the State's credit rating.

Types of projects. The bill specifically defines capital facilities that may be financed as any combination of:

(1) Buildings, utilities, structures, and other facilities and property developments, including streets, landscaping, equipment and furnishings in connection with a building project.

(2) Additions, renovations, and improvements to existing facilities, including streets and landscaping.

(3) Land acquisition.

(4) Other infrastructure.

(5) Furniture, equipment, vehicles, machinery, and similar items.

Form of debt. The funds could be borrowed from a single entity in an installment purchase or lease purchase contract, could be generated by the issuance of limited obligation bonds, or could be borrowed under an installment financing contract by the sale of certificates of participation. A certificate of participation represents the holder's undivided interest in the right to receive the installment payments to be made by the State. If certificates of participation are issued, a nonprofit corporation will act as a straw person to facilitate the financing.

History. While local governments have used installment finance contracts for years, it is a recent financing tool for the State. In 1999, the Senate passed Senate Bill 912 to authorize the issuance of bonds for UNC system and Community College system projects, to be secured by the property being constructed or improved. The House of Representatives rejected this part of the bill and when the bill was enacted in 2000 the bonds authorized were general obligation bonds, which the voters subsequently approved. In 2000, the General Assembly enacted S.L. 2000-143, which authorized installment contract financing for a $13.5 million office building and wildlife education center for the Wildlife Commission and a $4 million Eastern Wildlife Education Center. In 2001, the General Assembly authorized the State to enter into lease-purchase contracts to finance three prisons (S.L. 2001-84). In 2002, the General Assembly authorized installment financing contracts for guaranteed energy savings contracts for State buildings (S.L. 2002-161). In 2003, both the House and Senate versions of the budget bill authorized special indebtedness for repair and renovations and the Senate version also authorized lease-purchase of an additional three prisons.

Oversight. Before special indebtedness could be issued or incurred, the State Treasurer must certify that debt financing may be desirable for a specific project presented to it by the Department of Administration. Next, the Council of State must give preliminary approval. If preliminary approval is obtained, the Council of State must give final approval, setting out details such as the maximum amount to be financed, the maximum maturity, and the maximum interest rates. The maximum maturity may not exceed 40 years. The State Treasurer must approve the financing, finding that the amount to be borrowed is adequate and not excessive and will not require an excessive increase in any State revenues to provide for repayment, and that the special indebtedness can be incurred or issued on terms favorable to the State. Finally, the State Treasurer must report to the Joint Legislative Commission on Governmental Operations at least five days before any special indebtedness is issued or incurred.

PRINCIPAL DEPARTMENT(S) & PROGRAM(S) AFFECTED: Department of Health and Human Services

EFFECTIVE DATE: When the bill becomes law

BILL SUMMARY:

The Project - The proposed committee substitute (PCS) for House Bills 684, 949, and 961 provides authorization for financing the construction of a 450,000 square foot, 432-bed psychiatric hospital for central North Carolina. The amount of indebtedness is limited to the estimated cost of construction of $110 million.

Special Indebtedness - Financing authorized by this proposed bill includes: (1) an installment-purchase or lease-purchase contract with a single entity; (2) limited obligation bonds, or (3) an installment-purchase contract through the sale of certificates of participation. Certificates of participation are a form of contract indebtedness where the State, through a non-profit corporation, issues certificates that represent the holder's undivided interest in the right to receive installment payments from the State.

Securitization - In order to secure financing under the three forms of indebtedness listed above, a lien or security interest may be placed on the constructed facilities comprising the new hospital and the land on which the facilities are located. If this indebtedness is used to finance the renovation of existing facilities, a lien could be placed on all or part of the existing facilities.

Under the forms of financing authorized by this PCS, there would be no pledge of the State's taxing power or a pledge of the State's full faith and credit. As a result, voter approval is not necessary for issuance of these forms of debt. If the State defaulted on repayment of this debt, the State could not be forced to generate new tax revenue to service the debt. Instead, the land and facilities financed through special indebtedness could be liquidated to repay the debt. If the General Assembly chose not to appropriate funds for debt service for the new hospital, the State's credit rating could be adversely impacted.

Issuance – The Department of Health and Human Services must notify the Department of Administration of the need for special indebtedness. The Department of Administration then consults with the Office of State Treasurer on the merits of issuing debt for the authorized purpose. The Treasurer must contact the Office of State Budget and Management to determine whether revenues will be available to service the proposed debt. If the Treasurer determines that special indebtedness is desirable for financing the project, the Treasurer must certify this decision in writing to the Department of Administration.

The Department of Administration then calls a meeting of the Council of State for preliminary approval. Prior to issuance of debt, the Council of State must give final approval. The approval resolution must contain a description of the specific project, a maximum principal amount of the special indebtedness, a specified maturity or maximum maturity on the debt, specified interest rates or a maximum rate of interest on the debt, and any condition in addition to the provisions of this bill.

Upon approval by the Council of State, the Treasurer provides final written approval. To do so, the Treasurer is authorized to request addition information and reports to determined the appropriateness of issuing debt. The Treasurer is responsible for management and oversight of the issuance of debt. Once all the provisions of this bill have been met, the Treasurer must report to Joint Legislative Commission on Governmental Operations at least five days prior to issuing any special indebtedness.

UNC Research Programs – This PCS directs the Department of Health and Human Services (DHHS) to preserve all existing educational and research programs in Dorothea Dix Hospital conducted by the University of North Carolina Medical School. As the Department closes Dix Hospital, DHHS must consult with the UNC Medical School regarding the transfer of these programs to the new hospital. The UNC Medical School would retain authority over the management of these education and research programs in the new psychiatric hospital.

Disposition of County Property – Upon selection of a particular site to construct the new hospital, this proposed bill authorizes the selected county to use eminent domain, if necessary, to acquire land for the project. The county would transfer possession of this land to the State.

Cost Savings and Hospital Closure – This PCS requires all savings associated with the closure of any psychiatric hospitals to be directed to repaying debt service on the new psychiatric hospital before reverting to the General Fund. Nonrecurring savings would be deposited in the Mental Health Trust Fund for System Reform and recurring savings would be retained by DHHS. Both sources of funds would be dedicated first to repaying the debt. The balance of non-recurring cost savings, after payment of the annual debt service, would remain in the Mental Health Trust Fund for the purposes of the Trust Fund. All remaining recurring savings would be retained by DHHS for the purpose of complying with the Olmstead v. L.C. and E.W. case and implementation Mental Health Reform.

In practical terms, funds saved from the closure of the two hospitals will: (1) pay the annual debt service on the new hospital; (2) pay the operating expenses of the new hospital, and (3) the remaining balance will go to community programs for the expansion of mental health services in the community.

Dix Hospital Property Study Commission – The proposed bill establishes the Dorothea Dix Property Study Commission. If the State finds itself in the position of selling the land and facilities on which Dorothea Dix Hospital is currently located, the Dorothea Dix Property Study Commission must consider the sale prior to any action by the State. Before the sale occurs, the Study Commission will make a recommendation on disposition of the property to the Joint Legislative Commission on Governmental Operations.

ASSUMPTIONS AND METHODOLOGY:

The proposed bill calls for a 450,000 square foot, 432-bed psychiatric hospital. The cost of constructing this hospital is estimated to be $110 million. Construction is assumed to begin in November 2004 and complete in November 2006.

Debt service payments were estimated based on a simulation provided by the Office of State Treasurer. The estimated debt service assumes that the State will finance the full $110 million through special indebtedness. The estimated repayment includes an average interest rate of 6.0% and a maximum maturity of 20 years. The earliest expected date of issuance would be November 2004. Estimated annual debt services payments range from $5.83 million to $12.1 million.

The following chart displays the current expenditures associated with operating Dix and Umstead Hospitals for the next five years. The chart also shows the shift of operating dollars from the two existing hospitals to the newly constructed psychiatric hospital and to the community for increased local mental health services.

The New Psychiatric Hospital and Realignment of Operating Expenditures					
Operating Expenditures	**FY 2003-04**	**FY 2004-05**	**FY 2005-06**	**FY 2006-07**	**FY 2007-08**
Dix and Umstead Hospitals	$107,415,928	$103,652,980	$85,567,980	$60,313,621	$0
New Psychiatric Hospital	$0	$0	$0	$21,666,667	$52,000,000
Hospital Debt Service		$3,300,000	$12,100,000	$11,770,000	$11,440,000
Butner ADATC and Dix Campus Operation			$3,917,693	$9,402,462	$9,402,462
Expenditures Realigned to Community Services	$5,231,780	$6,475,000	$15,760,000	$15,760,000	$40,585,518

In calculating the numbers in the chart above, DHHS made the following assumptions:

- The operating costs of Dix and Umstead Hospitals do not include lapse salaries/benefits, which are budgeted annually.
- In FY 2005-06 and subsequent years, DHHS separated the estimated budget for running the Butner Alcohol and Drug Abuse Treatment Center (ADATC) and for maintaining the Dix Campus.
- The Butner ADATC expenditures were estimated from the average appropriation to the Jones ADATC and the Keith ADATC.
- The Dix Campus operating expenditures were estimated according to current appropriations for maintain the Dix Campus facilities used by various DHHS agencies and 15% of the appropriation for the hospital facilities.

- The estimated operating costs for the new hospital are based on the average appropriation for Dix and Umstead, excluding the Butner ADACT and the Dix Campus operation.

As proposed in the PCS, this analysis assumes that the cost savings from the closure of Dix and Umstead Hospitals would not revert to the General Fund. Instead, the cost-savings would be used to pay the debt service for the new hospital, the operating expenditures associated with the new hospital, and the expansion of community-based mental health services. Considering that DHHS is anticipating annual cost-savings from the closure of Dix and Umstead Hospitals that exceed the cost of annual debt service payments for the new hospital, **no net impact to the General Fund is expected.**

HOUSE BILL 684*
PROPOSED COMMITTEE SUBSTITUTE H684-CSLCx-42 [v.2]

5/22/2003 11:16:40 AM

Short Title: Psychiatric Hospital Financing. (Public)

Sponsors:

Referred to:

March 26, 2003

A BILL TO BE ENTITLED

AN ACT TO PROVIDE A STATUTORY FRAMEWORK FOR THE FINANCING OF CAPITAL FACILITIES BY THE STATE AND TO AUTHORIZE THE ISSUANCE OF SPECIAL INDEBTEDNESS TO FINANCE THE CONSTRUCTION OF A NEW PSYCHIATRIC HOSPITAL.

The General Assembly of North Carolina enacts:

PART 1. STATE CAPITAL FACILITIES FINANCE ACT

SECTION 1. Chapter 142 of the General Statutes is amended by adding a new Article to read:

"Article 9.

"State Capital Facilities Finance Act.

"**§ 142-80. Short title.**

This Article may be cited as the State Capital Facilities Finance Act.

"**§ 142-81. Findings and purpose.**

The General Assembly finds as follows:

(1) There is a continuing need for capital facilities for the State, many of which will continue to be provided on a "pay-as-you-go" basis by direct appropriations.

(2) The State will also continue to provide capital facilities through the issuance of general obligation bonds.

(3) There is a need, however, for the use of alternative financing methods, such as authorized in this Article, to facilitate the providing of capital facilities when circumstances and conditions warrant the providing of capital facilities through financing methods in addition to direct appropriations and the issuance of general obligation bonds.

(4) The use of these alternative financing methods as authorized in this Article will provide financing flexibility to the State and permit the

State to take advantage of changing financial and economic environments.

"**§ 142-82. Definitions.**

The following definitions apply in this Article:

(1) Bonded indebtedness. – Limited obligation bonds and bond anticipation notes, including refunding bonds and notes, authorized to be issued under this Article.

(2) Bonds or notes. – Limited obligation bonds and notes authorized to be issued under this Article.

(3) Capital facility. – Any one or more of the following:

a. Any one or more buildings, utilities, structures, or other facilities or property developments, including streets and landscaping, and the acquisition of equipment, machinery, and furnishings in connection with these items.

b. Additions, extensions, enlargements, renovations, and improvements to existing buildings, utilities, structures, or other facilities or property developments, including streets and landscaping.

c. Land or an interest in land.

d. Other infrastructure.

e. Furniture, fixtures, equipment, vehicles, machinery, and similar items.

(4) Certificates of participation. – Certificates or other instruments delivered by a special corporation evidencing the assignment of proportionate undivided interests in rights to receive payments pursuant to a financing contract.

(5) Certificates of participation indebtedness. – Financing contract indebtedness incurred by the State under a plan of finance in which a special corporation obtains funds to pay the cost of a capital facility to be financed through the delivery by the special corporation of certificates of participation.

(6) Cost. – Any of the following in financing the cost of capital facilities as authorized by this Article:

a. The cost of constructing, reconstructing, renovating, repairing, enlarging, acquiring, and improving capital facilities, including the acquisition of land, rights-of-way, easements, franchises, equipment, machinery, furnishings, and other interests in real or personal property acquired or used in connection with a capital facility.

b. The cost of engineering, architectural, and other consulting services.

c. The cost of providing personnel to ensure effective management of capital facilities.

d. Finance charges, reserves for debt service, other types of reserves required pursuant to the terms of any special indebtedness or related documents, and interest before and during construction or acquisition of a capital facility and, if considered advisable by the State Treasurer, for a period not exceeding two years after the estimated date of completion of construction or acquisition.

e. Administrative expenses and charges.

f. The cost of bond insurance, investment contracts, credit enhancement facilities and liquidity facilities, interest rate swap agreements or other derivative products, financial and legal consultants, and related costs of the incurrence or issuance of special indebtedness.

g. The cost of reimbursing the State, a State agency, or a special corporation for any payments made for any cost described in this subdivision.

h. Any other costs and expenses necessary or incidental to the purposes of this Article.

(7) Credit facility. – An agreement that:

a. Is entered into by the State with a bank, savings and loan association, or other banking institution, an insurance company, reinsurance company, surety company or other insurance institution, a corporation, investment banking firm or other investment institution, or any financial institution or other similar provider of a credit facility, which provider may be located within or without the United States of America; and

b. Provides for prompt payment of all or any part of the principal or purchase price (whether at maturity, presentment or tender for purchase, redemption, or acceleration), redemption premium, if any, and interest with respect to any special indebtedness payable on demand or tender by the owner in consideration of the State's agreeing to repay the provider of the credit facility in accordance with the terms and provisions of the agreement.

(8) Department of Administration. – The North Carolina Department of Administration created by Article 36 of Chapter 143 of the General Statutes, or if the Department is abolished or otherwise divested of its functions under this Article, the public body succeeding it in its principal functions or upon which are conferred by law the rights, powers, and duties given by this Article to the Department.

(9) Financing contract. – A contract entered into pursuant to this Article to finance capital facilities and constituting a lease-purchase contract, installment purchase contract, or other similar type of installment

financing contract. The term does not include, however, a contract that meets any one of the following conditions:

a. It constitutes an operating lease under generally accepted accounting principles.

b. It provides for the payment under the contract over its full term, including periods that may be added to the original term through the exercise of options to renew or extend, of an aggregate principal amount of not in excess of five thousand dollars ($5,000) or any greater amount that may be established by the Council of State if the Council of State determines (i) the aggregate amount to be paid under these contracts will not have a significant impact on the State budgetary process or the economy of the State and (ii) the change will lessen the administrative burden on the State.

c. It is executed and provides for the making of all payments under the contract, including payment to be made during any period that may be added to the original term through the exercise of options to renew or extend, in the same fiscal year.

(10) Financing contract indebtedness. – Indebtedness incurred pursuant to a financing contract, including certificates of participation indebtedness.

(11) Fiscal period. – A fiscal biennium or a fiscal year of the fiscal biennium.

(12) Fiscal year. – The fiscal year of the State beginning on July 1 of one calendar year and ending on June 30 of the next calendar year.

(13) Limited obligation bond. – A limited obligation bond issued pursuant to G.S. 142-88 and payable and secured as provided in G.S. 142-89.

(14) Par formula. – A provision or formula adopted by the State to provide for the adjustment, from time to time, of the interest rate or rates borne or provided for by any special indebtedness, including any of the following:

a. A provision providing for an adjustment so that the purchase price of special indebtedness in the open market would be as close to par as possible.

b. A provision providing for an adjustment based upon a percentage or percentages of a prime rate or base rate, which percentages may vary or be applied for different periods of time.

c. Any provision that the State Treasurer determines is consistent with this Article and will not materially and adversely affect the financial position of the State and the marketing of special indebtedness at a reasonable interest cost to the State.

(15) Person. – An individual, a firm, a partnership, an association, a corporation, a limited liability company, or any other organization or group acting as a unit.

(16) Special corporation. – Either of the following:
a. A nonprofit corporation created under Chapter 55A of the General Statutes for the purpose of facilitating the incurrence of certificates of participation indebtedness by the State under this Article.
b. A private corporation or other entity issuing certificates of participation pursuant to this Article.
(17) Special indebtedness. – Financing contract indebtedness and bonded indebtedness issued or incurred pursuant to this Article.
(18) State. – The State of North Carolina, including any State agency.
(19) State agency. – Any agency, institution, board, commission, bureau, council, department, division, officer, or employee of the State. The term does not include counties, municipal corporations, political subdivisions, local boards of education, or other local public bodies.
(20) State Treasurer. – The incumbent Treasurer, from time to time, of the State.

"**§ 142-83. Authorization of special indebtedness; General Assembly approval.**

The State may incur or issue special indebtedness subject to the terms and conditions provided in this Article for the purpose of financing the cost of capital facilities that meet one of the following conditions:

(1) The General Assembly has enacted legislation describing the capital facility and authorizing its financing by the incurrence or issuance of special indebtedness up to a specific maximum amount.
(2) The General Assembly has enacted legislation authorizing the incurrence or issuance of special indebtedness up to a specific maximum amount for a specific category of capital facilities and the capital facility meets all of the conditions set in that legislation.

"**§ 142-84. Procedure for incurrence or issuance of special indebtedness.**

(a) Notice and Certificate. – Whenever the State or a State agency intends to use special indebtedness to finance capital facilities, it shall notify the Department of Administration. If the Department of Administration intends for the State to use special indebtedness to finance the capital facilities, it shall provide written notice to the State Treasurer advising the State Treasurer of its intent. The State Treasurer may require a preliminary conference with the Department of Administration to consider the proposed financing.

After the filing of the notice and after any preliminary conference, the State Treasurer shall consult with the Office of State Budget and Management as to the revenues expected by that Office to be available to pay all sums to come due on the special indebtedness during its term. If, after consulting with the Office of State Budget and Management, the State Treasurer determines by written certificate that it may be desirable to use special indebtedness to finance the capital facilities, the Department of Administration shall request the Council of State to give its preliminary approval of the use of special indebtedness to finance the capital facilities. The Department of

Administration must promptly file copies of the notice and certificate required by this subsection with the Governor and the Council of State.

(b) Preliminary Approval. – The Council of State, upon receipt of the notice and certificate required by subsection (a) of this section, shall adopt a resolution granting or denying preliminary approval of the financing. A resolution granting preliminary approval may include any other terms, conditions, and restrictions the Council of State considers appropriate and not inconsistent with the provisions of this Article.

(c) Final Approval. – Before any special indebtedness may be incurred or issued pursuant to this Article, the Council of State must authorize the indebtedness by resolution, either as part of or separate from the resolution required by subsection (b) of this section. The resolution must do all of the following:

(1) Authorize the providing of a particular capital facility or, in general terms, the types or classifications of capital facilities to be provided.

(2) Set the aggregate principal amount or maximum principal amount of the special indebtedness authorized.

(3) Set the maturity or maximum maturity of the special indebtedness authorized.

(4) Set the rate, rates, or maximum rate of interest, which may be fixed or vary over a period of time, of the special indebtedness authorized.

(5) Include any other conditions or matters not inconsistent with the provisions of this Article in the discretion of the Council of State, which may include the adoption or approvals as may be authorized in G.S. 142-88 and G.S. 142-89.

(d) Oversight by Treasurer. – No special indebtedness shall be incurred or issued without the prior written approval of the State Treasurer as provided in this subsection, which is in addition to the certificate given by the State Treasurer pursuant to subsection (a) of this section. In determining whether to approve the proposed financing, the State Treasurer may consider any factors the State Treasurer considers relevant in order to find and determine all of the following:

(1) The amounts to become due under the special indebtedness, including the interest component or rate, are adequate and not excessive for the purpose proposed.

(2) The increase, if any, in State revenues, including taxes, necessary to pay the sums to become due under the special indebtedness is not excessive.

(3) The special indebtedness can be incurred or issued on terms desirable to the State.

(e) Designation of Facilities. – If the Council of State authorized in general terms the types or classifications of capital facilities to be financed, then the particular capital facilities and the principal amount of special indebtedness to be incurred or issued for each particular capital facility shall be determined by the Department of Administration after considering any factors it considers relevant in order to determine that the particular capital facility to be provided is desirable for the efficient operation of the State and its agencies and is in the best interests of the State.

(f) Type of Debt and Security. – In the absence of a determination by the Council of State, the State Treasurer, after consultation with the Department of Administration, shall determine the specific security offered and whether the special indebtedness to be issued or incurred shall be financing contract indebtedness, certificates of participation indebtedness, bonded indebtedness, or some combination of these.

(g) Administration. – The State Treasurer, after consultation with the Department of Administration, shall develop appropriate documents for use under this Article. The State Treasurer shall employ and designate the financial consultants, fiduciaries and other agents, underwriters, and bond attorneys to be associated with the incurrence or issuance of special indebtedness pursuant to this Article.

(h) Report to Joint Legislative Commission. – After all the requirements for approval and oversight provided in this section have been met, and at least five days before the issuance or incurrence of the special indebtedness, the State Treasurer must report to the Joint Legislative Commission on Governmental Operations. This report must include the details of the proposed special indebtedness, including the capital facilities to be financed by the indebtedness, the amount of the proposed indebtedness, the type of indebtedness to be issued or incurred, and any other information required by the Commission.

"**§ 142-85. Security; other requirements.**

(a) Security. – In order to secure (i) lease or installment payments to be made to the lessor, seller, or other person advancing moneys or providing financing under a financing contract, (ii) payment of the principal of and interest on bonded indebtedness, or (iii) payment obligations of the State to the provider of bond insurance, a credit facility, a liquidity facility, or a derivative agreement, special indebtedness may create any combination of the following:

(1) A lien on or security interest in one or more, all, or any part of the capital facilities to be financed by the special indebtedness.

(2) If the special indebtedness is to finance construction of improvements on real property, a lien on or security interest in all or any part of the land on which the improvements are to be located.

(3) If the special indebtedness is to finance renovations or improvements to existing facilities or the installation of fixtures in existing facilities, a lien on or security interest in one or more, all, or any part of the facilities.

(b) Value of Security; Multiple Liens. – The estimated value of the property subject to the lien or security interest need not bear any particular relationship to the principal amount of the special indebtedness or other obligation it secures. This Article does not limit the right of the State to grant multiple liens or security interests in a capital facility or other property to the extent not otherwise limited by the terms of any special indebtedness.

(c) Governor's Budget. – Documentation relating to any special indebtedness may include provisions requesting the Governor to submit in the Governor's budget

proposal or any amendments or supplements to the budget proposed appropriations necessary to make the payments required by the special indebtedness.

(d) Source of Repayment. – The payment of amounts payable by the State under special indebtedness or any related documents during any fiscal period shall be limited to funds appropriated for that purpose by the General Assembly in its discretion.

(e) No Deficiency Judgment or Pledge. – No deficiency judgment may be rendered against the State in any action for breach of any obligation under special indebtedness or any related documents. The taxing power of the State is not and may not be pledged directly or indirectly to secure any moneys due under special indebtedness or any related documents. In the event that the General Assembly does not appropriate sums sufficient to make payments required under any special indebtedness or any related documents, the net proceeds received from the sale or other disposition of the property subject to the lien or security interest shall be applied to satisfy these payment obligations in accordance with the deed of trust, security agreement, or other documentation relating to the lien or security interest. These net proceeds are appropriated for the purpose of making these payments. Any net proceeds in excess of the amount required to satisfy the obligations of the State under any special indebtedness or any related documents shall be paid to the State Treasurer for deposit to the General Fund.

(f) Nonsubstitution Clause. – A financing contract, issue of bonded indebtedness, or other related document shall not contain a nonsubstitution clause that restricts the right of the State to (i) continue to provide a service or conduct an activity or (ii) replace or provide a substitute for any capital facility.

(g) Protection of Lender. – Special indebtedness may contain any provisions for protecting and enforcing the rights and remedies of the person advancing moneys or providing financing under a financing contract, the owners of bonded indebtedness, or others to whom the State is obligated under special indebtedness or any related documents as may be reasonable and proper and not in violation of law. These provisions may include covenants setting forth the duties of the State in respect of any of the following:

(1) The purposes to which the proceeds of special indebtedness may be applied.

(2) The disposition and application of the revenues of the State, including taxes.

(3) Insuring, maintaining, and other duties with respect to the capital facilities financed.

(4) The disposition of any charges and collection of any revenues and administrative charges.

(5) The terms and conditions of the issuance of additional special indebtedness.

(6) The custody, safeguarding, investment, and application of all moneys.

(h) State Property Law Exception. – Chapter 146 of the General Statutes does not apply to any transfer of the State's interest in property authorized by this Article, whether to a deed of trust trustee or other secured party as security for special

indebtedness, or to a purchaser of property in connection with a foreclosure or similar conveyance of property to realize upon the security for special indebtedness following the State's default on its obligations under the special indebtedness.

"**§ 142-86. Financing contract indebtedness.**

(a) Treasurer Oversight. – Financing contract indebtedness shall not be incurred until all documentation providing for its incurrence has been approved by the State Treasurer, after the State Treasurer has consulted with the Department of Administration.

(b) Interest Component. – A financing contract may provide for payments under the contract to represent principal and interest components of the cost of the capital facility to be financed, as determined by the State Treasurer.

(c) Bidding. – Financing contracts may be entered into pursuant to any applicable public or competitive bidding process or any private or negotiated process, to the extent required by applicable law, and if not so required, as may be determined by the Department of Administration after consulting with the State Treasurer.

(d) Party. – All financing contracts shall be executed on behalf of the State by the State Treasurer or, upon delegation by the State Treasurer after having approved the financing contract, by the Department of Administration.

(e) Credit Facility. – If the State Treasurer determines that it is in the best interest of the State, the State Treasurer may arrange for the delivery of a credit facility to secure payment under any financing contract. The State Treasurer may also provide that payments by the State representing the interest component of the payments to be made under a financing contract may be calculated based upon a fixed or a variable rate of interest.

(f) Terms and Conditions. – All other conditions set forth elsewhere in this Article with respect to financing contract indebtedness shall also be satisfied prior to incurring any financing contract indebtedness. To the extent applicable as conclusively determined by the State Treasurer, the provisions of G.S. 142-89, 142-90, and 142-91 apply to financing contract indebtedness.

"**§ 142-87. Additional requirements for certificates of participation indebtedness.**

(a) Treasurer Oversight. – A financing contract shall not be used in connection with the delivery of certificates of participation by a special corporation until all documentation providing for its use has been approved by the State Treasurer, after the State Treasurer has consulted with the Department of Administration. All documentation providing for the delivery and sale of certificates of participation must be approved by the State Treasurer.

(b) Procedure. – The special corporation, if used, shall request the approval of the State Treasurer in writing and shall furnish any information and documentation relating to the delivery and sale of the certificates of participation requested by the State Treasurer. In determining whether to approve the financing in the documentation, the State Treasurer shall consider the factors set forth in G.S. 142-84(d), as well as the effect of the proposed financing upon any scheduled or proposed sale of debt obligations by the State or a unit of local government in the State.

(c) Terms; Interest. – Certificates of participation may be sold by the State Treasurer in the manner, either at public or private sale, and for any price or prices that the State Treasurer determines to be in the best interest of the State and to effect the purposes of this Article, except that the terms of the sale must also be approved by the special corporation. Interest payable with respect to certificates of participation shall accrue at the rate or rates determined by the State Treasurer with the approval of the special corporation.

(d) Trust Agreement. – Certificates of participation may be delivered pursuant to a trust agreement or similar instrument with a corporate trustee approved by the State Treasurer, and the provisions of G.S. 142-89(h) apply to the trust agreement or similar instrument to the extent applicable.

(e) Other Conditions. – All other conditions set forth elsewhere in this Article with respect to certificates of participation indebtedness, including the conditions set forth in G.S. 142-86, must be satisfied before any certificates of participation indebtedness is incurred.

"**§ 142-88. Bonded indebtedness.**

The State Treasurer is authorized, by and with the consent of the Council of State as provided in this Article, to issue and sell at one time or from time to time bonds of the State to be designated "State of North Carolina Limited Obligation Bonds, Series ___" or notes of the State as provided in this Article, for the purpose of providing funds, with any other available funds, for the uses authorized in this Article.

"**§ 142-89. Issuance of limited obligation bonds and notes.**

(a) Terms and Conditions. – Bonds or notes may bear any dates, may be serial or term bonds or notes, or any combination of these, may mature in any amounts and at any times, not exceeding 40 years from their dates, may be payable at any places, either within or without the United States, in any coin or currency of the United States that at the time of payment is legal tender for payment of public and private debts, may bear interest at any rates, which may vary from time to time, and may be made redeemable before maturity, at the option of the State or otherwise as may be provided by the State, at any prices, including a price greater than the face amount of the bonds or notes, and under any terms and conditions, all as may be determined by the State Treasurer, by and with the consent of the Council of State.

(b) Signatures; Form and Denomination; Registration. – Bonds or notes may be issued in certificated or uncertificated form. If issued in certificated form, bonds or notes shall be signed on behalf of the State by the Governor or shall bear the Governor's facsimile signature, shall be signed by the State Treasurer, or shall bear the State Treasurer's facsimile signature, and shall bear the great seal of the State or a facsimile of the seal impressed or imprinted on them. If bonds or notes bear the facsimile signatures of the Governor and the State Treasurer, the bonds or notes shall also bear a manual signature which may be that of a bond registrar, trustee, paying agent, or designated assistant of the State Treasurer. If any officer whose signature or facsimile signature appears on bonds or notes issued under this Article ceases to be that officer before the delivery of the bonds or notes, the signature or facsimile signature shall nevertheless have the same validity for all purposes as if the officer had remained in office until

delivery of the bonds or notes. Bonds or notes issued under this Article may bear the facsimile signatures of persons, who at the actual time of the execution of the bonds or notes were the proper officers to sign any bond or note although at the date of the bond or note those persons may not have been officers.

The form and denomination of bonds or notes, including the provisions with respect to registration of the bonds or notes and any system for their registration, shall be as prescribed by the State Treasurer in conformity with this Article.

(c) Manner of Sale; Expenses. – Subject to the approval by the Council of State as to the manner in which bonds or notes will be offered for sale, whether at public or private sale, whether within or without the United States, and whether by publishing notices in certain newspapers and financial journals, mailing notices, inviting bids by correspondence, negotiating contracts of purchase or otherwise, the State Treasurer is authorized to sell bonds or notes at one time or from time to time at any rates of interest, which may vary from time to time, and at any prices, including a price less than the face amount of the bonds or notes, as the State Treasurer may determine. All expenses incurred in the preparation, sale, and issuance of bonds or notes shall be paid by the State Treasurer from the proceeds of bonds or notes or other available moneys.

(d) Application of Proceeds. – The proceeds of any bonds or notes shall be used solely for the purposes for which the bonds or notes were issued and shall be disbursed in the manner and under the restrictions, if any, that the Council of State may provide in the resolution authorizing the issuance of, or in any trust agreement securing, the bonds or notes.

Any additional moneys that may be received by means of a grant or grants from the United States or any agency or department thereof or from any other source to aid in financing the cost of a capital facility may be disbursed, to the extent permitted by the terms of the grant or grants, without regard to any limitations imposed by this Article.

(e) Notes; Repayment. – By and with the consent of the Council of State, the State Treasurer is authorized to borrow money and to execute and issue notes of the State for the same, but only in any of the following circumstances and under the following conditions:

(1) For anticipating the sale of bonds, the issuance of which the Council of State has approved if the State Treasurer considers it advisable to postpone the issuance of the bonds.

(2) For the payment of interest on or any installment of principal of any bonds then outstanding if there are not sufficient funds in the State treasury with which to pay the interest or installment of principal as they respectively become due.

(3) For the renewal of any loan evidenced by notes authorized in this Article.

(4) For the purposes authorized in this Article.

(5) For refunding bonds or notes or financing contract indebtedness as authorized in this Article.

Funds derived from the sale of limited obligation bonds or notes may be used in the payment of any bond anticipation notes issued under this Article. Funds provided by the

General Assembly for the payment of interest on or principal of bonds shall be used in paying the interest on or principal of any notes and any renewals thereof, the proceeds of which have been used in paying interest on or principal of the bonds.

(f) Refunding Bonds and Notes. – By and with the consent of the Council of State, the State Treasurer is authorized to issue and sell refunding bonds and notes for the purpose of refunding special indebtedness and to pay the cost of issuance of the refunding bonds or notes. The refunding bonds and notes may be combined with any other issues of State bonds and notes issued pursuant to this Article. Refunding bonds or notes may be issued at any time prior to the final maturity of the debt or obligation to be refunded. The proceeds from the sale of any refunding bonds or notes shall be applied to the immediate payment and retirement of the obligations being refunded or, if not required for the immediate payment of the obligations being refunded, the proceeds shall be deposited in trust to provide for the payment and retirement of the obligations being refunded and to pay any expenses incurred in connection with the refunding. Money in a trust fund may be invested in (i) direct obligations of the United States government, (ii) obligations the principal of and interest on which are guaranteed by the United States government, (iii) to the extent then permitted by law, obligations of any agency or instrumentality of the United States government, or (iv) certificates of deposit issued by a bank or trust company located in the State if the certificates are secured by a pledge of any of the obligations described in (i), (ii), or (iii) above having an aggregate market value, exclusive of accrued interest, equal at least to the principal amount of the certificates so secured. This section does not limit the duration of any deposit in trust for the retirement of obligations being refunded but that have not matured and are not presently redeemable, or if presently redeemable, have not been called for redemption.

(g) Security. – Payment of the principal of and the interest on bonds and notes shall be secured as provided in G.S. 142-85.

(h) Trust Agreement. – In the discretion of the State Treasurer, any bonds and notes issued under this Article may be secured by a trust agreement or similar instrument between the State and a corporate trustee or by a resolution of the Council of State providing for the appointment of a corporate trustee. The corporate trustee may be, in either case, any trust company or bank that has the powers of a trust company within or without the State. The trust agreement or similar instrument or resolution, hereinafter referred to as "the trust", may provide for security and pledges and assignments that are permitted under this Article and may provide for the granting of a lien or security interest as authorized by G.S. 142-85. The trust may contain any provisions for protecting and enforcing the rights and remedies of the owners of any bonds or notes issued under the trust that are reasonable and not in violation of law, including covenants setting forth the duties of the State with respect to the purposes for which bond or note proceeds may be applied, the disposition and application of the revenues or assets of the State, the duties of the State with respect to the capital facilities financed, the disposition of any charges and collection of any revenues and administrative charges, the terms and conditions of the issuance of additional bonds and notes, and the custody, safeguarding, investment, and application of all moneys. All bonds and notes issued under this Article pursuant to the same trust shall be equally and ratably secured

as provided in the trust, without priority by reasons of number, dates of bonds or notes, execution, or delivery, in accordance with the provisions of this Article and of the trust. The trust may, however, provide that bonds or notes issued pursuant to the trust shall, to the extent and in the manner prescribed in the trust, be subordinated and junior in standing, with respect to the payment of principal and interest and to the security of the payment, to any other bonds or notes issued pursuant to the trust. It is lawful for any bank or trust company that may act as depositary of the proceeds of bonds or notes, revenues, or any other money under this Article to furnish any indemnifying bonds or to pledge any securities that may be required by the State Treasurer. The trust may set out the rights and remedies of the owners of any bonds or notes and of any trustee, and may restrict the individual rights of action by the owners. In addition to the foregoing, the trust may contain any other provisions the State Treasurer considers appropriate for the security of the owners of any bonds or notes. Expenses incurred in carrying out the provisions of the trust may be treated as a part of the cost of any capital facility or as an administrative charge and may be paid from the proceeds of the bonds or notes or from any other available funds.

"**§ 142-90. Variable rate demand bonds and notes and financing contract indebtedness.**

(a) In fixing the details of special indebtedness, the State Treasurer may make the special indebtedness subject to any of the following conditions:

(1) It is payable from time to time on demand or tender for purchase by the owner thereof, if a credit facility supports the special indebtedness, unless the State Treasurer specifically determines that a credit facility is not required upon a determination by the State Treasurer that the absence of a credit facility will not materially and adversely affect the financial position of the State or the marketing of the bonds or notes or financing contract indebtedness at a reasonable interest cost to the State.

(2) It is additionally supported by a credit facility.

(3) It is subject to redemption or mandatory tender for purchase prior to maturity.

(4) It bears interest at a rate or rates that may be fixed or may vary over any period of time, as may be provided in the proceedings providing for the issuance or incurrence of the special indebtedness, including any variations that may be permitted pursuant to a par formula.

(5) It is the subject of a remarketing agreement under which an attempt is made to remarket special indebtedness to new purchasers before its presentment for payment to the provider of the credit facility or to the State.

(b) If the aggregate principal amount payable by the State under a credit facility is in excess of the aggregate principal amount of special indebtedness secured by the credit facility, whether as a result of the inclusion in the credit facility of a provision for the payment of interest for a limited period of time or the payment of a redemption premium or for any other reason, then the amount of authorized but unissued bonds or

notes and financing contract indebtedness during the term of the credit facility shall not be less than the amount of the excess, unless the payment of the excess is otherwise provided for by agreement of the State executed by the State Treasurer.

"**§ 142-91. Other agreements.**

The State Treasurer may authorize, execute, obtain, or otherwise provide for bond insurance, investment contracts, credit and liquidity facilities, credit enhancement facilities, interest rate swap agreements and other derivative products, and any other related instruments and matters the State Treasurer determines are desirable in connection with the issuance of special indebtedness. The State Treasurer is authorized to employ and designate any financial consultants, underwriters, fiduciaries, and bond attorneys to be associated with any incurrence or issuance of special indebtedness under this Article as the State Treasurer considers appropriate.

"**§ 142-92. Tax exemption.**

Special indebtedness shall at all times be free from taxation by the State or any political subdivision or any of their agencies, excepting estate, inheritance, and gift taxes; income taxes on the gain from the transfer of the indebtedness; and franchise taxes. The interest component of any payments made by the State under special indebtedness, including the interest component of any certificates of participation, is not subject to taxation as to income.

"**§ 142-93. Investment eligibility.**

Special indebtedness are securities or obligations in which all of the following may invest, including capital in their control or belonging to them: public officers, agencies, and public bodies of the State and its political subdivisions; insurance companies, trust companies, investment companies, banks, savings banks, savings and loan associations, credit unions, pension or retirement funds, and other financial institutions engaged in business in the State; and executors, administrators, trustees, and other fiduciaries. Special indebtedness are securities or obligations that may properly and legally be deposited with and received by any officer or agency of the State or political subdivision of the State for any purpose for which the deposit of bonds, notes, or obligations of the State or any political subdivision is now or may later be authorized by law.

"**§ 142-94. Procurement of capital facilities.**

The provisions of Articles 3, 3B, 3C, 3D, and 8 of Chapter 143 of the General Statutes and any other laws or rules of the State that relate to the acquisition and construction of State property apply to the financing of capital facilities through the use of special indebtedness pursuant to this Article. This section does not apply to the construction and lease-purchase, including leases with an option to purchase at the end of the lease term for a nominal sum, of State office buildings pursuant to proposals submitted before the effective date of this Article in response to requests for proposals, to the extent any of those proposals, as they may be supplemented or amended, are approved by the Department of Administration and any of these leases or lease-purchase agreements are approved by the Council of State in accordance with G.S. 143-341(4)d2."

SECTION 1.2. G.S. 143-341(4) is amended by adding a new sub-subdivision to read:

"d2. To purchase or finance the purchase of buildings, utilities, structures, or other facilities or property developments, including streets and landscaping, the acquisition of land, equipment, machinery, and furnishings in connection therewith; additions, extensions, enlargements, renovations and improvements to existing buildings, utilities, structures, or other facilities or property developments, including streets and landscaping; land or any interest in land; other infrastructure; furniture, fixtures, equipment, vehicles, machinery, and similar items; or any combination of the foregoing, through installment purchase, lease-purchase, or other similar type installment financing agreements in the manner and to the extent provided in Article 9 of Chapter 142 of the General Statutes. Any contract entered into or any proceeding instituted contrary to the provisions of this paragraph is voidable in the discretion of the Council of State."

PART 2. PSYCHIATRIC HOSPITAL CONSTRUCTION

SECTION 2.1. Construction of Psychiatric Hospital. – In accordance with G.S. 142-83, as enacted by this act, this section authorizes the issuance or incurrence of financing contract indebtedness in a maximum aggregate principal amount of one hundred ten million dollars ($110,000,000) to finance the cost of the project described in this Part, subject to the limitations described in this Part. The financing contract indebtedness shall not be incurred prior to July 1, 2004.

SECTION 2.2. The Project. – The project shall consist of the acquisition, construction, and equipping of an approximately 450,000 square foot, 432-bed new psychiatric hospital.

SECTION 2.3. Authorization of Financing Contracts. – The State, with the prior approval of the State Treasurer and the Council of State, as provided in Article 9 of Chapter 142 of the General Statutes as enacted by this act, is authorized to execute and deliver one or more financing contracts in order to provide funds to the State to be used, together with other available funds, to pay the cost of the project, in an aggregate principal amount not to exceed one hundred ten million dollars ($110,000,000). The State Treasurer may, in the Treasurer's sole discretion, require one or more reports satisfactory to the Treasurer evidencing the savings expected to be realized from the closure of existing psychiatric hospitals that are to be replaced by the project and the feasibility of the financing of the project.

PART 3. GENERAL PROVISIONS FOR PSYCHIATRIC HOSPITAL

SECTION 3.1. The Secretary of Health and Human Services shall maintain all existing educational and research programs in psychiatry and psychology conducted by the University of North Carolina School of Medicine at Dorothea Dix Hospital, unless the programs are otherwise modified by the University of North Carolina School of Medicine. The University of North Carolina School of Medicine shall retain authority

over all educational and research programs in psychiatry and psychology conducted at the new psychiatric hospital authorized under this act. The Secretary shall consult with the University of North Carolina School of Medicine in programmatic, operational, and facility planning of the new psychiatric hospital to ensure appropriate patient treatment and continuation of educational and research programs conducted by the University of North Carolina School of Medicine.

SECTION 3.2. Part 3 of Article 8 of Chapter 153A of the General Statutes is amended by adding the following new section to read:

"**§ 153A-178. Disposition of county property for a State psychiatric hospital.**

When the Secretary of Health and Human Services selects a county for the location of a new State psychiatric hospital as authorized by law, the county selected for the location of the new State psychiatric hospital is authorized under the general law to acquire real and personal property and convey it to the State under G.S. 160A-274 or other applicable law for use as a psychiatric hospital. The county may acquire the property by eminent domain, and the power under this section is supplementary to any other power the county may have to take property by eminent domain."

SECTION 3.3. G.S. 143-15.3D is amended by adding the following new subsection to read:

"(c) Notwithstanding G.S. 143-18, any nonrecurring savings in State appropriations realized from the closure of any State psychiatric hospitals that are in excess of the cost of operating and maintaining a new State psychiatric hospital shall not revert to the General Fund but shall be placed in the Trust Fund and shall be used for the purposes authorized in this section. Notwithstanding G.S. 143-18, recurring savings realized from the closure of any State psychiatric hospitals shall not revert to the General Fund but shall be used for the payment of debt service on financing contract indebtedness authorized pursuant to Article 9 of Chapter 142 of the General Statutes for the construction of a new State psychiatric hospital. Any remainder not needed for this debt service shall be credited to the Department of Health and Human Services to be used only for the purposes of subsections (b)(2) and (b)(3) of this section."

SECTION 3.4.(a) Dorothea Dix Hospital Property Study Commission. – If any of the State-owned real property encompassing the Dorothea Dix Hospital campus is no longer needed by Dorothea Dix Hospital and is not transferred to another State agency or agencies before the sale of any or all of the property to a nongovernmental entity, options for this sale shall be considered by the Dorothea Dix Hospital Property Study Commission. The Commission shall make recommendations on the options for sale of the property to the Joint Legislative Commission on Governmental Operations before any sale of any or all parts of the property.

SECTION 3.4.(b) Creation and Membership. – The Dorothea Dix Hospital Property Study Commission is created. The Commission shall consist of nine members, four appointed by the President Pro Tempore of the Senate and four appointed by the Speaker of the House of Representatives. The Secretary of Health and Human Services shall serve as an ex officio member of the Commission.

PART 4. GENERAL PROVISIONS

SECTION 4.1. Interpretation of Act. (a) Additional Method. – This act provides an additional and alternative method for the doing of the things authorized by this act and shall be regarded as supplemental and additional to powers conferred by other laws. Except where expressly provided, this act shall not be regarded as in derogation of any powers now existing. The authority granted in this act is in addition to other laws now or hereinafter enacted authorizing the State to issue or incur indebtedness.

SECTION 4.1.(b) Statutory References. – References in this act to specific sections or Chapters of the General Statutes are intended to be references to those sections or Chapters as they may be amended from time to time by the General Assembly.

SECTION 4.1.(c) Liberal Construction. – This act, being necessary for the health and welfare of the people of the State, shall be liberally construed to effect its purposes.

SECTION 4.1.(d) Severability. – If any provision of this act or its application to any person or circumstance is held invalid, that invalidity does not affect other provisions or applications of the act that can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

SECTION 4.2. Effective Date. – This act is effective when it becomes law.

GENERAL ASSEMBLY OF NORTH CAROLINA

SESSION 2003

H 1

HOUSE BILL 684*

Short Title:	Psychiatric Hospital Bonds.	(Public)
Sponsors:	Representatives Crawford, G. Allen, Fox, Luebke (Primary Sponsors); and Wainwright.	
Referred to:	Finance.	

March 26, 2003

A BILL TO BE ENTITLED

AN ACT TO PROVIDE A STATUTORY FRAMEWORK FOR THE FINANCING OF CAPITAL FACILITIES BY THE STATE, TO AUTHORIZE THE ISSUANCE OF SPECIAL INDEBTEDNESS TO FINANCE THE CONSTRUCTION OF A NEW PSYCHIATRIC HOSPITAL IN BUTNER, AND TO AUTHORIZE THE ISSUANCE OF SPECIAL OBLIGATION BONDS FOR THE CONSTRUCTION OF THE NEW PSYCHIATRIC HOSPITAL.

The General Assembly of North Carolina enacts:

PART 1. STATE CAPITAL FACILITIES FINANCE

SECTION 1. Chapter 142 of the General Statutes is amended by adding a new Article to read:

"Article 9.

"State Capital Facilities Finance Act.

"**§ 142-80. Short title.**

This Article may be cited as the State Capital Facilities Finance Act.

"**§ 142-81. Findings and purpose.**

The General Assembly finds as follows:

(1) There is a continuing need for capital facilities for the State, many of which will continue to be provided on a "pay-as-you-go" basis by direct appropriations.

(2) The State will also continue to provide capital facilities through the issuance of general obligation bonds.

(3) There is a need, however, for the use of alternative financing methods, such as authorized in this Article, to facilitate the providing of capital facilities when circumstances and conditions warrant the providing of capital facilities through financing methods in addition to direct appropriations and the issuance of general obligation bonds.

(4) The use of these alternative financing methods as authorized in this Article will provide financing flexibility to the State and permit the State to take advantage of changing financial and economic environments.

"**§ 142-82. Definitions.**

The following definitions apply in this Article:

(1) Bonded indebtedness. – Limited obligation bonds and bond anticipation notes, including refunding bonds and notes, authorized to be issued under this Article.

(2) Bonds or notes. – Limited obligation bonds and notes authorized to be issued under this Article.

(3) Capital facility. – Any one or more of the following:

a. Any one or more buildings, utilities, structures, or other facilities or property developments, including streets and landscaping, and the acquisition of equipment, machinery, and furnishings in connection with these items.

b. Additions, extensions, enlargements, renovations, and improvements to existing buildings, utilities, structures, or other facilities or property developments, including streets and landscaping.

c. Land or an interest in land.

d. Other infrastructure.

e. Furniture, fixtures, equipment, vehicles, machinery, and similar items.

(4) Certificates of participation. – Certificates or other instruments delivered by a special corporation evidencing the assignment of proportionate undivided interests in rights to receive payments pursuant to a financing contract.

(5) Certificates of participation indebtedness. – Financing contract indebtedness incurred by the State under a plan of finance in which a special corporation obtains funds to pay the cost of a capital facility to be financed through the delivery by the special corporation of certificates of participation.

(6) Cost. – Any of the following in financing the cost of capital facilities as authorized by this Article:

a. The cost of constructing, reconstructing, renovating, repairing, enlarging, acquiring, and improving capital facilities, including the acquisition of land, rights-of-way, easements, franchises, equipment, machinery, furnishings, and other interests in real or personal property acquired or used in connection with a capital facility.

b. The cost of engineering, architectural, and other consulting services.

c. The cost of providing personnel to ensure effective management of capital facilities.

d. Finance charges, reserves for debt service, and other types of reserves required pursuant to the terms of any special indebtedness or related documents, interest before and during construction or acquisition of a capital facility and, if considered advisable by the State Treasurer, for a period not exceeding two years after the estimated date of completion of construction or acquisition.

e. Administrative expenses and charges.

f. The cost of bond insurance, investment contracts, credit enhancement facilities and liquidity facilities, interest rate swap agreements or other derivative products, financial and legal consultants, and related costs of the incurrence or issuance of special indebtedness.

g. The cost of reimbursing the State, a State agency, or a special corporation for any payments made for any cost described in this subdivision.

h. Any other costs and expenses necessary or incidental to the purposes of this Article.

(7) Credit facility. – An agreement that:

a. Is entered into by the State with a bank, savings and loan association, or other banking institution, an insurance company, reinsurance company, surety company or other insurance institution, a corporation, investment banking firm or other investment institution, or any financial institution or other similar provider of a credit facility, which provider may be located within or without the United States of America; and

b. Provides for prompt payment of all or any part of the principal or purchase price (whether at maturity, presentment or tender for purchase, redemption, or acceleration), redemption premium, if any, and interest with respect to any special indebtedness payable on demand or tender by the owner in consideration of the State agreeing to repay the provider of the credit facility in accordance with the terms and provisions of the agreement.

(8) Department of Administration. – The North Carolina Department of Administration created by Article 36 of Chapter 143 of the General Statutes, or if the Department is abolished or otherwise divested of its functions under this Article, the public body succeeding it in its principal functions or upon which are conferred by law the rights, powers, and duties given by this Article to the Department.

(9) Financing contract. – A contract entered into pursuant to this Article to finance capital facilities and constituting a lease-purchase contract,

installment purchase contract, or other similar type of installment financing contract. The term does not include, however, a contract that meets any one of the following conditions:

a. It constitutes an operating lease under generally accepted accounting principles.

b. It provides for the payment under the contract over its full term, including periods that may be added to the original term through the exercise of options to renew or extend, of an aggregate principal amount of not in excess of five thousand dollars ($5,000) or any greater amount that may be established by the Council of State, if the Council of State determines (i) the aggregate amount to be paid under these contracts will not have a significant impact on the State budgetary process or the economy of the State and (ii) the change will lessen the administrative burden on the State.

c. It is executed and provides for the making of all payments under the contract, including payment to be made during any period that may be added to the original term through the exercise of options to renew or extend, in the same fiscal year.

(10) Financing contract indebtedness. – Indebtedness incurred pursuant to a financing contract, including certificates of participation indebtedness.

(11) Fiscal period. – A fiscal biennium or a fiscal year of the fiscal biennium.

(12) Fiscal year. – The fiscal year of the State beginning on July 1 of one calendar year and ending on June 30 of the next calendar year.

(13) Limited obligation bond. – A limited obligation bond issued pursuant to G.S. 142-88 and payable and secured as provided in G.S. 142-89.

(14) Par formula. – A provision or formula adopted by the State to provide for the adjustment, from time to time, of the interest rate or rates borne or provided for by any special indebtedness, including any of the following:

a. A provision providing for an adjustment so that the purchase price of special indebtedness in the open market would be as close to par as possible.

b. A provision providing for an adjustment based upon a percentage or percentages of a prime rate or base rate, which percentages may vary or be applied for different periods of time.

c. Any provision that the State Treasurer determines is consistent with this Article and will not materially and adversely affect the financial position of the State and the marketing of special indebtedness at a reasonable interest cost to the State.

(15) Person. – An individual, a firm, a partnership, an association, a corporation, a limited liability company, or any other organization or group acting as a unit.

(16) Special corporation. – Either of the following:

a. A nonprofit corporation created under Chapter 55A of the General Statutes for the purpose of facilitating the incurrence of certificates of participation indebtedness by the State under this Article.

b. A private corporation or other entity issuing certificates of participation pursuant to this Article.

(17) Special indebtedness. – Financing contract indebtedness and bonded indebtedness issued or incurred pursuant to this Article.

(18) State. – The State of North Carolina, including any State agency.

(19) State agency. – Any agency, institution, board, commission, bureau, council, department, division, officer, or employee of the State. The term does not include counties, municipal corporations, political subdivisions, local boards of education, or other local public bodies.

(20) State Treasurer. – The incumbent Treasurer, from time to time, of the State.

"**§ 142-83. Authorization of special indebtedness; General Assembly approval.**

The State may incur or issue special indebtedness subject to the terms and conditions provided in this Article for the purpose of financing the cost of capital facilities that meet one of the following conditions:

(1) The General Assembly has enacted legislation describing the capital facility and authorizing its financing by the incurrence or issuance of special indebtedness up to a specific maximum amount.

(2) The General Assembly has enacted legislation authorizing the incurrence or issuance of special indebtedness up to a specific maximum amount for a specific category of capital facilities, and the capital facility meets all of the conditions set in that legislation.

"**§ 142-84. Procedure for incurrence or issuance of special indebtedness.**

(a) Notice and Certificate. – Whenever the State or a State agency intends to use special indebtedness to finance capital facilities, it shall notify the Department of Administration. If the Department of Administration intends for the State to use special indebtedness to finance the capital facilities, it shall provide written notice to the Treasurer advising the Treasurer of its intent. The Treasurer may require a preliminary conference with the Department of Administration to consider the proposed financing.

After the filing of the notice and after any preliminary conference, the State Treasurer shall consult with the Office of State Budget and Management as to the revenues expected by that Office to be available to pay all sums to come due on the special indebtedness during its term. If, after consulting with the Office of State Budget and Management, the State Treasurer determines by written certificate that it may be desirable to use special indebtedness to finance the capital facilities, the Department of Administration shall request the Council of State to give its preliminary approval of the

use of special indebtedness to finance the capital facilities. The Department of Administration must promptly file copies of the notice and certificate required by this subsection with the Governor and the Council of State.

(b) Preliminary Approval. – The Council of State, upon receipt of the notice and certificate required by subsection (a) of this section, shall adopt a resolution granting or denying preliminary approval of the financing. A resolution granting preliminary approval may include any other terms, conditions, and restrictions the Council of State considers appropriate and not inconsistent with the provisions of this Article.

(c) Final Approval. – Before any special indebtedness may be incurred or issued pursuant to this Article, the Council of State must authorize the indebtedness by resolution, either as part of or separate from the resolution required by subsection (b) of this section. The resolution must do all of the following:

(1) Authorize the providing of a particular capital facility or, in general terms, the types or classifications of capital facilities to be provided.

(2) Set the aggregate principal amount or maximum principal amount of the special indebtedness authorized.

(3) Set the maturity or maximum maturity of the special indebtedness authorized.

(4) Set the rate, rates, or maximum rate of interest, which may be fixed or vary over a period of time, of the special indebtedness authorized.

(5) Include any other conditions or matters not inconsistent with the provisions of this Article in the discretion of the Council of State, which may include the adoption or approvals as may be authorized in G.S. 142-88 and G.S. 142-89.

(d) Oversight by Treasurer. – No special indebtedness shall be incurred or issued without the prior written approval of the State Treasurer as provided in this subsection, which is in addition to the certificate given by the State Treasurer pursuant to subsection (a) of this section. In determining whether to approve the proposed financing, the State Treasurer may consider any factors the State Treasurer considers relevant in order to find and determine all of the following:

(1) The amounts to become due under the special indebtedness, including the interest component or rate, are adequate and not excessive for the purpose proposed.

(2) The increase, if any, in State revenues, including taxes, necessary to pay the sums to become due under the special indebtedness, is not excessive.

(3) The special indebtedness can be incurred or issued on terms desirable to the State.

(e) Designation of Facilities. – If the Council of State authorized in general terms the types or classifications of capital facilities to be financed, then the particular capital facilities and the principal amount of special indebtedness to be incurred or issued for each particular capital facility shall be determined by the Department of Administration after considering any factors it considers relevant in order to determine that the

particular capital facility to be provided is desirable for the efficient operation of the State and its agencies and is in the best interests of the State.

(f) Type of Debt and Security. – In the absence of a determination by the Council of State, the State Treasurer, after consultation with the Department of Administration, shall determine the specific security offered and whether the special indebtedness to be issued or incurred shall be financing contract indebtedness, certificates of participation indebtedness, bonded indebtedness, or some combination of these.

(g) Administration. – The State Treasurer, after consultation with the Department of Administration, shall develop appropriate documents for use under this Article. The State Treasurer shall employ and designate the financial consultants, fiduciaries and other agents, underwriters, and bond attorneys to be associated with the incurrence or issuance of special indebtedness pursuant to this Article.

(h) Report to Joint Legislative Commission. – After all the requirements for approval and oversight provided in this section have been met, and at least five days before the issuance or incurrence of the special indebtedness, the State Treasurer must report to the Joint Legislative Commission on Governmental Operations. This report must include the details of the proposed special indebtedness, including the capital facilities to be financed by the indebtedness, the amount of the proposed indebtedness, the type of indebtedness to be issued or incurred, and any other information required by the Commission.

"**§ 142-85. Security; other requirements.**

(a) Security. – In order to secure (i) lease or installment payments to be made to the lessor, seller, or other person advancing moneys or providing financing under a financing contract, (ii) payment of the principal of and interest on bonded indebtedness, or (iii) payment obligations of the State to the provider of bond insurance, a credit facility, a liquidity facility, or a derivative agreement, special indebtedness may create any combination of the following:

(1) A lien on or security interest in one or more, all, or any part of the capital facilities to be financed by the special indebtedness.

(2) If the special indebtedness is to finance construction of improvements on real property, a lien on or security interest in all or any part of the land on which the improvements are to be located.

(3) If the special indebtedness is to finance renovations or improvements to existing facilities or the installation of fixtures in existing facilities, a lien on or security interest in one or more, all, or any part of the facilities.

(b) Value of Security; Multiple Liens. – The estimated value of the property subject to the lien or security interest need not bear any particular relationship to the principal amount of the special indebtedness or other obligation it secures. This Article does not limit the right of the State to grant multiple liens or security interests in a capital facility or other property to the extent not otherwise limited by the terms of any special indebtedness.

(c) Governor's Budget. – Documentation relating to any special indebtedness may include provisions requesting the Governor to submit in the Governor's budget proposal or any amendments or supplements to the budget proposed appropriations necessary to make the payments required by the special indebtedness.

(d) Source of Repayment. – The payment of amounts payable by the State under special indebtedness or any related documents during any fiscal period shall be limited to funds appropriated for that purpose by the General Assembly in its discretion.

(e) No Deficiency Judgment or Pledge. – No deficiency judgment may be rendered against the State in any action for breach of any obligation under special indebtedness or any related documents. The taxing power of the State is not and may not be pledged directly or indirectly to secure any moneys due under special indebtedness or any related documents. In the event that the General Assembly does not appropriate sums sufficient to make payments required under any special indebtedness or any related documents, the net proceeds received from the sale or other disposition of the property subject to the lien or security interest shall be applied to satisfy these payment obligations in accordance with the deed of trust, security agreement, or other documentation relating to the lien or security interest. These net proceeds are appropriated for the purpose of making these payments. Any net proceeds in excess of the amount required to satisfy the obligations of the State under any special indebtedness or any related documents shall be paid to the State Treasurer for deposit to the General Fund.

(f) Nonsubstitution Clause. – A financing contract, issue of bonded indebtedness, or other related document shall not contain a nonsubstitution clause that restricts the right of the State to (i) continue to provide a service or conduct an activity or (ii) replace or provide a substitute for any capital facility.

(g) Protection of Lender. – Special indebtedness may contain any provisions for protecting and enforcing the rights and remedies of the person advancing moneys or providing financing under a financing contract, the owners of bonded indebtedness, or others to whom the State is obligated under special indebtedness or any related documents as may be reasonable and proper and not in violation of law. These provisions may include covenants setting forth the duties of the State in respect of any of the following:

(1) The purposes to which the proceeds of special indebtedness may be applied.

(2) The disposition and application of the revenues of the State, including taxes.

(3) Insuring, maintaining, and other duties with respect to the capital facilities financed.

(4) The disposition of any charges and collection of any revenues and administrative charges.

(5) The terms and conditions of the issuance of additional special indebtedness.

(6) The custody, safeguarding, investment, and application of all moneys.

(h) State Property Law Exception. – Chapter 146 of the General Statutes does not apply to any transfer of the State's interest in property authorized by this Article, whether to a deed of trust trustee or other secured party as security for special indebtedness, or to a purchaser of property in connection with a foreclosure or similar conveyance of property to realize upon the security for special indebtedness following the State's default on its obligations under the special indebtedness.

"**§ 142-86. Financing contract indebtedness.**

(a) Treasurer Oversight. – Financing contract indebtedness shall not be incurred until all documentation providing for its incurrence has been approved by the State Treasurer, after the State Treasurer has consulted with the Department of Administration.

(b) Interest Component. – A financing contract may provide for payments under the contract to represent principal and interest components of the cost of the capital facility to be financed, as determined by the State Treasurer.

(c) Bidding. – Financing contracts may be entered into pursuant to any applicable public or competitive bidding process or any private or negotiated process, to the extent required by applicable law, and if not so required, as may be determined by the Department of Administration after consulting with the State Treasurer.

(d) Party. – All financing contracts shall be executed on behalf of the State by the State Treasurer or, upon delegation by the State Treasurer after having approved the financing contract, by the Department of Administration.

(e) Credit Facility. – If the State Treasurer determines that it is in the best interest of the State, the State Treasurer may arrange for the delivery of a credit facility to secure payment under any financing contract. The State Treasurer may also provide that payments by the State representing the interest component of the payments to be made under a financing contract may be calculated based upon a fixed or a variable rate of interest.

(f) Terms and Conditions. – All other conditions set forth elsewhere in this Article with respect to financing contract indebtedness shall also be satisfied prior to incurring any financing contract indebtedness. To the extent applicable as conclusively determined by the State Treasurer, the provisions of G.S. 142-89, 142-90, and 142-91 apply to financing contract indebtedness.

"**§ 142-87. Additional requirements for certificates of participation indebtedness.**

(a) Treasurer Oversight. – A financing contract shall not be used in connection with the delivery of certificates of participation by a special corporation until all documentation providing for its use has been approved by the State Treasurer, after the State Treasurer has consulted with the Department of Administration. All documentation providing for the delivery and sale of certificates of participation must be approved by the State Treasurer.

(b) Procedure. – The special corporation, if used, shall request the approval of the State Treasurer in writing and shall furnish any information and documentation relating to the delivery and sale of the certificates of participation requested by the State Treasurer. In determining whether to approve the financing in the documentation, the State Treasurer shall consider the factors set forth in G.S. 142-84(d), as well as the

effect of the proposed financing upon any scheduled or proposed sale of debt obligations by the State or a unit of local government in the State.

(c) Terms; Interest. – Certificates of participation may be sold by the State Treasurer in the manner, either at public or private sale, and for any price or prices that the State Treasurer determines to be in the best interest of the State and to effect the purposes of this Article, except that the terms of the sale must also be approved by the special corporation. Interest payable with respect to certificates of participation shall accrue at the rate or rates determined by the State Treasurer with the approval of the special corporation.

(d) Trust Agreement. – Certificates of participation may be delivered pursuant to a trust agreement or similar instrument with a corporate trustee approved by the State Treasurer, and the provisions of G.S. 142-89(h) apply to the trust agreement or similar instrument to the extent applicable.

(e) Other Conditions. – All other conditions set forth elsewhere in this Article with respect to certificates of participation indebtedness, including the conditions set forth in G.S. 142-86, must be satisfied before any certificates of participation indebtedness is incurred.

"**§ 142-88. Bonded indebtedness.**

The State Treasurer is authorized, by and with the consent of the Council of State as provided in this Article, to issue and sell at one time or from time to time bonds of the State to be designated "State of North Carolina Limited Obligation Bonds, Series ___" or notes of the State as provided in this Article, for the purpose of providing funds, with any other available funds, for the uses authorized in this Article.

"**§ 142-89. Issuance of limited obligation bonds and notes.**

(a) Terms and Conditions. – Bonds or notes may bear any dates, may be serial or term bonds or notes, or any combination of these, may mature in any amounts and at any times, not exceeding 40 years from their dates, may be payable at any places, either within or without the United States, in any coin or currency of the United States that at the time of payment is legal tender for payment of public and private debts, may bear interest at any rates, which may vary from time to time, and may be made redeemable before maturity, at the option of the State or otherwise as may be provided by the State, at any prices, including a price greater than the face amount of the bonds or notes, and under any terms and conditions, all as may be determined by the State Treasurer, by and with the consent of the Council of State.

(b) Signatures; Form and Denomination; Registration. – Bonds or notes may be issued in certificated or uncertificated form. If issued in certificated form, bonds or notes shall be signed on behalf of the State by the Governor or shall bear the Governor's facsimile signature, shall be signed by the State Treasurer or shall bear the State Treasurer's facsimile signature, and shall bear the great seal of the State or a facsimile of the seal impressed or imprinted on them. If bonds or notes bear the facsimile signatures of the Governor and the State Treasurer, the bonds or notes shall also bear a manual signature which may be that of a bond registrar, trustee, paying agent, or designated assistant of the State Treasurer. If any officer whose signature or facsimile signature appears on bonds or notes issued under this Article ceases to be that officer before the

delivery of the bonds or notes, the signature or facsimile signature shall nevertheless have the same validity for all purposes as if the officer had remained in office until delivery of the bonds or notes. Bonds or notes issued under this Article may bear the facsimile signatures of persons, who at the actual time of the execution of the bonds or notes were the proper officers to sign any bond or note although at the date of the bond or note those persons may not have been officers.

The form and denomination of bonds or notes, including the provisions with respect to registration of the bonds or notes and any system for their registration, shall be as prescribed by the State Treasurer in conformity with this Article.

(c) Manner of Sale; Expenses. – Subject to the approval by the Council of State as to the manner in which bonds or notes will be offered for sale, whether at public or private sale, whether within or without the United States, and whether by publishing notices in certain newspapers and financial journals, mailing notices, inviting bids by correspondence, negotiating contracts of purchase or otherwise, the State Treasurer is authorized to sell bonds or notes at one time or from time to time at any rates of interest, which may vary from time to time, and at any prices, including a price less than the face amount of the bonds or notes, as the State Treasurer may determine. All expenses incurred in the preparation, sale, and issuance of bonds or notes shall be paid by the State Treasurer from the proceeds of bonds or notes or other available moneys.

(d) Application of Proceeds. – The proceeds of any bonds or notes shall be used solely for the purposes for which the bonds or notes were issued and shall be disbursed in the manner and under the restrictions, if any, that the Council of State may provide in the resolution authorizing the issuance of, or in any trust agreement securing, the bonds or notes.
