PRINCIPAL DEPARTMENT(S) & PROGRAM(S) AFFECTED: Town of Belmont, Town of Troutman

EFFECTIVE DATE: Becomes effective when law.

BILL SUMMARY:
This bill authorizes the Town of Belmont and the Town of Troutman to levy an occupancy tax. The tax applies to the rental of any room, lodging, or accommodation within the city limits. For both municipalities, the occupancy tax rate is 3% of gross receipts from the rental of accommodations, and two-thirds of the proceeds would be used to promote travel and tourism and one-third would be used for tourism-related expenditures.

ASSUMPTIONS AND METHODOLOGY:

Town of Belmont

According to the Belmont town manager, there are 3 motels in Belmont with 12-15 rooms each and 1 bed and breakfast. Assuming an average room rate of $45 per night and a 50% rate of room occupancy, FRD estimates the 3% occupancy tax would generate $9,600 per year. Because no historic data is available, the General Consumer Price Index estimated rate of increase is used to estimate future growth in occupancy tax receipts. No development of additional motels or other accommodations is assumed in the estimates of subsequent year revenues.

Town of Troutman
The Town of Troutman currently has no hotels or motels. Therefore, the fiscal analysis assumes no fiscal impact for the Town of Troutman.

A BILL TO BE ENTITLED

AN ACT TO REQUIRE A CRIMINAL HISTORY RECORD CHECK OF ALL STUDENTS ADMITTED INTO A SCHOOL OF MEDICINE AT A NORTH CAROLINA INSTITUTION OF HIGHER EDUCATION.

The General Assembly of North Carolina enacts:

SECTION 1. Chapter 116 of the General Statutes is amended by adding a new Article to read:

"Article 33.

"Criminal History Record Checks Required for Medical Students.

"**§ 116-265. Criminal history record checks required for medical students.**

(a) The following definitions apply in this Article:

(1) 'Applicant' means a person who has accepted an offer of admission at a school of medicine at an institution in this State.

(2) 'Constituent institution' is as defined in G.S. 116-2.

(3) 'Institution' includes both constituent institutions and private institutions.

(4) 'Private institution' means an institution licensed under G.S. 116-15 and any other institution in this State that meets all of the requirements and regulations of the accrediting agencies whose approval is normally required for the establishment and operation of a medical school.

(b) Any institution that has a school of medicine shall require as part of its matriculation process a nationwide criminal record check of every applicant to the school of medicine. The institution may use either the Department of Justice or a private company to conduct the criminal record check. The institution is not required to conduct a fingerprint check, but it shall provide a fingerprint to the Department of Justice if it uses that agency to conduct the check.

An institution and the North Carolina Medical Board shall keep all information obtained pursuant to this Article privileged, in accordance with applicable State law and federal guidelines, and the information shall be confidential and shall not be a public record under Chapter 132 of the General Statutes.

(c) The Department of Justice may provide a criminal record check to a constituent institution for an applicant to the school of medicine.

If the institution is a private institution, the Department of Justice may provide a criminal record check to the North Carolina Medical Board on behalf of the private institution as provided by G.S. 116-266. If the institution elects to use the Department of Justice to conduct its criminal record check, the institution shall provide to the Department of Justice, along with the request, the name of the applicant, the fingerprints of the applicant, a form signed by the applicant consenting to the check of the criminal record and to the use of the fingerprints and other identifying information required by the State or national repositories, and any additional information required by the Department of Justice. The applicant's fingerprints shall then be forwarded to the State Bureau of Investigation for a search of the State's criminal history record file, and the State Bureau of Investigation shall forward a set of the fingerprints to the Federal Bureau of Investigation for a national criminal history record check.

The Department of Justice may charge each applicant a fee for conducting the checks of criminal history records authorized by this subsection; however, the fee shall not exceed the cost of conducting the criminal record check.

"**§ 116-266. North Carolina Medical Board to receive criminal history record check information on behalf of private medical schools.**

If a private institution requests the record check from the Department of Justice in accordance with G.S. 116-265, the institution may request that the State Bureau of Investigation provide the information received from the record check to the North Carolina Medical Board. Upon request of the private institution, the Medical Board shall receive the information from a applicant's record check and shall review the information using the same criteria to evaluate the information that is used to evaluate the information received by the Board under G.S. 90-11. If the Medical Board determines any information received from the criminal record check would cause the Medical Board either to refuse to license a student to practice medicine under G.S. 90-11 or to investigate a student further before issuing a license to the student, then the Medical Board shall report that fact to the private institution requesting the record check.

The Medical Board may charge the private institution a reasonable fee for providing this service.

"**§ 116-267. Evaluation of criminal history record information by school of medicine; effect on admissions decision.**

The information collected as a result of the criminal record check required by this Article shall be considered by the appropriate school of medicine in determining whether or not to complete an applicant's matriculation process. A criminal conviction shall not automatically preclude an applicant from matriculating, and the school of

medicine may use its discretion in evaluating the applicant's fitness for the study of medicine."

SECTION 2. This act is effective when it becomes law and applies to the 2006-2007 academic year and each subsequent academic year.

House Bill 1515:
Medical Schools/Criminal Record Check.

BILL ANALYSIS

Committee:	**House Finance**	**Sponsor:**	**Reps. LaRoque and England**
Date:	**July 19, 2005**	**Analysis by:**	**Ashley Huffstetler**
Version:	**PCS to 2nd Edition H1515-CSMBf-33**		**Staff Attorney**

SUMMARY: House Bill 1515 requires criminal record checks of all students who have accepted an offer of admission to a school of medicine in North Carolina.

BILL ANALYSIS: The PCS to the 2nd Edition of House Bill 1515 requires criminal history record checks of all students who have accepted an offer of admission to a medical school in the State.

- The medical school has the option of using either the Department of Justice (DOJ) or a private agency to conduct a nationwide criminal record check.
- If using the DOJ, a school must provide a fingerprint to the DOJ. If using a private company, a name check will suffice.
- If the medical institution is private, e.g., Duke Medical School, DOJ may only provide a criminal record check to the NC Medical Board (the Board) for the private institution, in accordance with federal guidelines. The Board must then alert the private institution if it receives information that would cause the Board to consider refusing to license a student or to investigate a student further. The Board, however, may *not* share criminal record information obtained from the DOJ with the private institution.
- If the private institution contracts with a private company to conduct the checks, the NC Medical Board need not be involved in the process.
- All information must be kept confidential.
- The DOJ may charge each applicant a fee, but it may not exceed the cost of conducting the record check. The NC Medical Board may charge the private institution a reasonable fee for providing a record review service.
- A criminal history does not bar admission to a medical school in this State; rather, the school "may use its discretion in evaluating the applicant's fitness for the study of medicine."

EFFECTIVE DATE: The bill becomes effective when it becomes law and applies to the 2006-2007 academic year and each subsequent academic year.

PCS CHANGES: This PCS makes the following changes to the 2nd Edition of the bill: (1) rearranges the definitions, (2) clarifies that an institution has the option of using either the DOJ or a private agency to conduct the criminal record checks, and (3) clarifies that the institution may conduct either a fingerprint check or a name check of the applicant.

PRINCIPAL DEPARTMENT(S) & PROGRAM(S) AFFECTED: Department of Justice, University of North Carolina – Chapel Hill, East Carolina University, NC Medical Board, Duke University and Wake Forest University Schools of Medicine

EFFECTIVE DATE: When it becomes law.

BILL SUMMARY:
Requires a criminal background check of all students admitted into a school of medicine at a North Carolina institution of higher education, applicable to 2006-07 academic year and thereafter. Criminal background check must also include determination whether applicant had adjudication as sex offender that would require registration under Article 27A of GS Chapter 14. Department of Justice may provide criminal record check to schools of medicine of UNC constituent institutions. For school of medicine of private institutions, Department of Justice may provide check to NC Medical Board on behalf of institution. If Medical Board determines that information from check would cause board to either refuse to license student to practice medicine or investigate student before issuing license, then the board must report that fact to private institution. Department of Justice may charge applicant a fee for conducting check, but fee may not exceed cost of doing check. Information from check must be considered by school of medicine in determining whether to complete matriculation process, but criminal conviction does not automatically preclude applicant from matriculating. However, applicant who has been adjudicated as sex offender is barred from admission to any school of medicine in state.

House committee substitute made the following changes to 1st edition: Amended proposed new GS 116-265(a)(3) to include in definition of "private institution" any institution that meets all of the requirements and regulations of accrediting agencies whose approval is normally required for establishment and operation of a medical school. Deleted from proposed new GS 116-265(b) the requirement that a criminal background check determine whether the person has any adjudications as a sex offender that would require registration and deleted from proposed new GS 116-267 the requirement that an applicant who has been adjudicated a sex offender be precluded from admission to any school of medicine located in the state.

This Proposed Committee Substitute clarifies that an institution may either request a background check from the Department of Justice or from a private vendor; background checks conducted through the Department of Justice must be state and national fingerprint checks. All background checks must be nationwide. The school "may use its discretion in evaluating the applicant's fitness for the study of medicine."
Source: Adapted from Bill Digest H.B. 1515 (04/21/0200).

ASSUMPTIONS AND METHODOLOGY:
Under this PCS, medical schools are required to obtain state and national criminal background checks on admitted students. It is up to the school to decide whether to use a private vendor to conduct a "name check" or to request a state and national fingerprint check through the State Bureau of Investigation (SBI) in the Department of Justice. The "name check" run by private vendors uses information such as name, date of birth, etc. to determine whether an individual has a criminal record. These checks may be run for a single state or multiple states, and costs vary by vendor and number of states checked. Only the SBI can conduct fingerprint background checks for non-criminal justice agencies; the SBI charges $38 for a state and national fingerprint background check.

University of North Carolina: Chapel Hill and East Carolina
The University of North Carolina has contracted with a private vendor to provide background checks for any schools or programs with such a requirement. These background checks are name checks, not fingerprint checks, and the cost of the multi-state or national check is $6 to $8.

UNC-Chapel Hill admits 160 students to its medical school each year. Chapel Hill has just instituted criminal background checks using UNC's private vendor; it is currently performing background checks on a rolling basis and by Fall 2005 will have them in place for all students. Therefore, this legislation is not expected to impact UNC-Chapel Hill.

ECU admits 72 students to its medical school each year. They currently do not perform criminal background checks. ECU has not yet determined whether to begin background checks with the class of 2006 or 2007. Based on the UNC vendor cost, ECU's annual costs would be $432 - $576.

NC Medical Board/Duke University and Wake Forest University Schools of Medicine

Section 1 of the bill amends G.S. 116 to add Article 33, which specifies the law in regard to criminal history record checks of medical students. G.S. 116-265 requires a criminal history record check for all students admitted to a medical school in North Carolina beginning with the FY 2006-07 academic school year. In obtaining a criminal record check, the institution may use the services of either the Department of Justice (DOJ) or a private company. If the latter, this will not include a fingerprint check. For an applicant admitted to a constituent institution, i.e. one of the 16 public senior institutions as defined in G.S. 116-2; DOJ may provide a criminal record check to the constituent institution. Additionally, if the applicant accepts admission to one of the State's private institutions, DOJ may conduct a criminal record check, and furnish the results to the NC Medical Board on behalf of the private institution per G.S. 116-266. In North Carolina DOJ would furnish information to the Board in regard to applicants who have accepted admission to Duke University Medical School and Bowman Gray School of Medicine at Wake Forest University. If the institution (public or private) elects to use the services of DOJ, it shall provide with the request the applicant's name, fingerprints, a consent form signed by the applicant, and any additional information required by DOJ.

In complying with G.S. 116-266 the Board would use the same criteria to evaluate this information as is used to evaluate information received for every applicant applying for a license to practice medicine or to perform medical acts, tasks, and functions as a physician assistant in the State under G.S. 90-11(b). Additionally G.S. 116-266 allows the Board to charge the private institution a reasonable fee to review the results of the record check. Although the Board has not conducted a formal analysis of what a reasonable cost would entail, a fee of $50-$100 is considered to be in order. The estimate of the Board's annual expense to review students' criminal record checks for the two (2) private institutions would range annually from $100 for one review to $21,800 for reviews of all applicants. In terms of the findings, the Board indicates there is no binary operation that takes place upon reviewing the results of the record check. According to the Board, whether someone would be denied a license or investigated further if that person were applying to this Board would be equivocal and crafted on a case-by-case basis. Therefore, each review could be somewhat time consuming for what would appear to be a simple task.

The current practice of Duke and Wake Forest medical schools is to have a private company conduct background/name checks that provide specific information about criminal involvement.

Duke University admits approximately 110 students annually. For the past five years the practice of the medical school has been to conduct a background/name check following the applicant's acceptance of admission. The name check is the expense of the medical school. In compliance with the legislation, Duke University will continue background/name checks, which have an annual cost of $5,500. If DOJ were asked to conduct the criminal record check, Duke University

would assume the expense of $38 per check and the $100 fee per review by the Board. Although it is not possible to determine the number of requests each year to DOJ and the Board, the estimated cost per applicant is $138. At the very least, Duke University will maintain the background/name checks with an annual expense of $5,500. However, the annual cost will increase if only 1 of the 110 criminal record checks is provided by DOJ. Therefore, the annual cost would range from $5,500 for all checks provided by the private company to $15,180 for all checks provided by DOJ.

Wake Forest University/Bowman Gary Medical School currently requires background/name checks for students in the Physician Assistant Program, with the expense included in the school's admission process cost. In complying with this legislation the school would have the same company conduct background/name checks for the 108 students who are admitted annually to the Bowman Gray School of Medicine. The cost would be $50 per admission or $5,400 annually. If DOJ were asked to conduct the criminal record check, Wake Forest University would assume the expense of $38 per check and the $100 fee per review by the Board. Although it is not possible to determine the number of requests each year to DOJ and the Board, the estimated cost per applicant is $138. At the very least, Wake Forest University will provide the background/name checks with an annual expense of $5,400. However, the annual cost will increase if only 1 of the 108 criminal record checks is provided by DOJ. Therefore, the annual cost would range from $5,400 for all checks provided by the private company to $14,904 for all checks provided by DOJ.

There is no expense to the General Fund. Duke University Medical School, Wake Forest University/Bowman Gray School of Medicine, and the NC Medical Board would bear the expense related to continued background/name checks, and any additional cost related to adoption of this legislation.

Department of Justice – State Bureau of Investigation

Based on the number of applicants each year, the private universities could request up to 218 background checks each year. However, they may continue to use private vendors rather than the SBI, in which case the Department would not collect any revenue or incur any costs. UNC-Chapel Hill and East Carolina University will use only private vendors and therefore will not impact the SBI. The SBI charges $38 for a state name check. Of the $38, $22 is remitted to the Federal Bureau of Investigation for the national check; the remaining $16 is retained by the Department of Justice and used to fund receipt-supported positions to conduct the background checks. Internal costs per background check range from $11.45 to $17.95, with an average cost of $16.33. The Department currently has the capacity to conduct the projected background checks per year due to this bill.

A BILL TO BE ENTITLED

AN ACT TO AUTHORIZE MUNICIPALITIES TO ISSUE REVENUE BONDS FOR THE CONSTRUCTION OF WATER TREATMENT AND RELATED FACILITIES TO BE OWNED BY A WATER AND SEWER AUTHORITY.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 159-83 is amended by adding a new subsection to read:

"(f) In addition to the powers they may now or hereafter have, each municipality has the power to finance and refinance the cost of water treatment facilities and related transmission mains, and their expansion and improvement, all or some portion of which may be located on land leased from an authority created under the provisions of G.S. 162A-3.1, for a term not less than the term of the obligations issued or otherwise incurred for the purpose. The authority may own or operate (or both) such facilities and mains and may contract with one or more of the political subdivisions that are members of the authority for operation of all or portions thereof. For this purpose, each municipality has, in addition to the powers it has under applicable law, all the powers under G.S. 162A-6(b) of an authority created under G.S. 162A-3.1, and the political subdivisions that are members of the authority and that contract with such municipality for a supply of water and a portion of the capacity of the water treatment facilities and mains shall have all the powers of political subdivisions under G.S. 162A-6(b) and G.S. 162A-16 contracting with an authority created under G.S. 162A-3.1. This provision is supplemental to the other provisions of this Article."

SENATE BILL 1011:
Randleman Dam Bonds

BILL ANALYSIS

Committee:	House Finance	**Date:**	July 19, 2005
Introduced by:	Sen. Hagan	**Summary by:**	Cindy Avrette
Version:	First Edition		Committee Counsel

SUMMARY: Senate Bill 1011[1] would give municipalities the authority to issue revenue bonds for the construction of a water treatment and related facilities that would be owned by a water and sewer authority. It would also give the issuing municipality the ability to secure the bonds through an 'absolute, unconditional, and irrevocable' payment obligation agreement with the other participating members of the authority. The bill would become effective when it becomes law.

CURRENT LAW: The governing bodies of two or more political subdivisions may join together and create a water and sewer authority. An authority has the power to issue revenue bonds, to establish and collect rates, fees, and other charges for the use of the authority's services and facilities.

An authority created under G.S. 162A-3.1 and its participating members may enter into an agreement that may obligate the participating members to make payments to the authority for treated water. The payment obligations may be made absolute, unconditional, and irrevocable. The payment obligations are in consideration of any output or capacity that may at any time be available from facilities of the authority.[2] Participating members may also make contributions or advances to an authority to provide for the preliminary expenses of the authority. Any such advances may be repaid to the members from the proceeds of any bonds issued by the authority.[3]

BACKGROUND: Greensboro, High Point, Archdale, Jamestown, Randleman, and Randolph County created the Piedmont Triad Water Authority (PTWA) to create and construct a dam across Randleman Lake to ensure a continued water supply for the Piedmont area. The PTWA constructed the dam from monies received on a pro rate share from the participating political subdivisions. The PTWA now needs to construct the water treatment facility to process the water. Funds generated from a bond issuance are needed to construct the project. The cost of the project is expected to be approximately $40 million.

Although PTWA could issue revenue bonds to build the facility, it does not have as favorable a bond rating as the City of Greensboro. Under the State and Local Government Revenue Bond Act, the City of Greensboro could issue revenue bonds for the project[4]; however, it is questionable whether the city could enter into an interlocal agreement with the other participating members of the PTWA that could be as strong as the absolute, unconditional, and irrevocable agreements the PTWA itself could enter into with its members under G.S. 162A-6(b).

---

[1] As introduced, the bill is identical to House Bill 1421, introduced by Representatives Jones, Adams, Jeffus, and Wiley.

[2] G.S. 162A-6(b).

[3] G.S. 162A-16.

[4] Article 5 of Chapter 159 of the General Statutes authorizes municipalities to issue revenue bonds for revenue bond projects. A revenue bond project may be a water and sewer facility; a revenue bond project must be owned or leased as lessee by the issuing unit or it may be owned by one or more municipalities participating in a joint undertaking.

BILL ANALYSIS: Senate Bill 1011 would specify that a municipality could issue revenue bonds to finance the cost of water treatment facilities if all or some portion of the facilities financed is located on land leased from an authority for a term that coincides with the term of the obligation. This part of the bill could arguably be accomplished under current law.[5]

The bill also gives a municipality all the powers under G.S. 162A-6(b) of an authority created under G.S. 162A-3.1. This statute allows an authority and its participating members to enter into an agreement that would obligate the participating members to payment obligations that are 'absolute, unconditional, and irrevocable'. The terms of the agreement may also provide that the payment obligations must be performed 'without abatement or reduction under all circumstances whatsoever, including whether or not any facility of the authority is completed, operable or operating, and notwithstanding the suspension, interruption, interference, reduction or curtailment of the output of any such facility or the treated water contracted for, and such obligations may be made subject to no reduction, whether by offset or otherwise, and not conditioned upon the performance or nonperformance of the authority or any participating political subdivision under any agreement.'

Although the situation with the Randleman Dam is the impetus for this legislation, its provisions would be available to other municipalities participating in a water and sewer authority. The bill must be written as a statewide bill because it would be unconstitutional to enact a local bill relating to debt.

EFFECTIVE DATE: The bill is effective when it becomes law.

S1011e1-SMRB

[5] The City of Greensboro does not currently lease any property from the PTWA.

§ 162A-6. Powers of authority generally.

...

(b) In addition to the powers given under subsection (a) of this section, an authority created under G.S. 162A-3.1 and its participating political subdivisions may enter into agreements obligating these subdivisions to make payments to the authority for treated water delivered or made available or expected to be delivered or made available by the authority, regardless of whether treated water is actually delivered or made available. Such payments may be designed to cover the authority's operating costs (including debt service and related amounts) by allocating those costs among the participating political subdivisions and by requiring these subdivisions to pay additional amounts to make up for the nonpayment of defaulting subdivisions. The participating political subdivisions may agree to budget for and appropriate such payments. Such payment obligations may be made absolute, unconditional, and irrevocable and required to be performed strictly in accordance with the terms of such agreements and without abatement or reduction under all circumstances whatsoever, including whether or not any facility of the authority is completed, operable or operating and, notwithstanding the suspension, interruption, interference, reduction or curtailment of the output of any such facility or the treated water contracted for, and such obligations may be made subject to no reduction, whether by offset or otherwise, and not conditioned upon the performance or nonperformance of the authority or any participating political subdivision under any agreement. Such payment obligations are in consideration of any output or capacity that may at any time be available from facilities of the authority. The participating political subdivisions may agree to make such payments from limited or specified sources. To the extent such payments relate to debt service of the authority and related amounts, they may not be made from any moneys derived from exercise by the participating political subdivisions of their taxing power, and such payment obligations shall not constitute a pledge of such taxing power. The participating political subdivisions may agree (i) not to pledge or encumber any source of payment and (ii) to operate (including fixing rates and charges) in a manner that enables them to make such payments from such sources. The participating political subdivisions may also secure such payment obligations with a pledge of or lien upon any such sources of payment. Notwithstanding the provisions of G.S. 162A-9 or any other law to the contrary, an authority entering into any such agreement need not fix rates, fees and other charges for its services except as provided herein, and such rates, fees and charges need not be uniform through the authority's service areas. Notwithstanding the provisions of G.S. 160A-322 or any other law to the contrary, agreements described herein may have a term not exceeding 50 years. Notwithstanding any law to the contrary, the execution and effectiveness of any agreement authorized hereby shall not be subject to any authorizations or approvals by any entity except the parties thereto. Each authority and its participating political subdivisions shall have the power to do all acts and things necessary or convenient to carry out the powers granted by this subsection.

SENATE BILL 32:
Fire Service District Tax Rate

BILL ANALYSIS

Committee:	House Finance	**Date:**	July 18, 2005
Introduced by:		**Summary by:**	Cindy Avrette
Version:	PCS to Second Edition S32-PCS75347-LB-82		Committee Counsel

SUMMARY: The PCS for Senate Bill 32 would allow a county to remove territory from an existing fire protection tax district and establish a new tax district for the property with a tax rate limitation of 3.5 cents on each one hundred dollars of property valuation subject to taxation.

The original Senate Bill, introduced by Senator Hoyle, provided that members of the firemen's and rescue squad workers' pension fund may elect to terminate membership in the fund at anytime, but that delinquent payments alone do not terminate membership.[1] The House Rules Committee adopted a committee substitute for this bill at the request of Rep. Cole that would limit fire protection district tax rates for certain property in Rockingham County. The Finance PCS differs from the 2nd edition of the bill by making the bill a statewide bill so that it does not violate the North Carolina Constitution, which prohibits a local act pertaining to tax service districts.

CURRENT LAW: Article 16 of Chapter 153A authorizes counties to create county service districts in order to finance and provide the following types of services, facilities, or functions at a greater extent than those financed and provided for the entire county:

- Beach erosion control and flood and hurricane protection works
- Fire protection
- Recreation
- Sewage collection and disposal systems of all types, including septic tank systems or other on-site collection or disposal facilities or systems
- Solid waste collection and disposal systems
- Water supply and distribution systems.
- Ambulance and rescue
- Watershed improvement projects, drainage projects, and water resources development projects
- Cemeteries
- Law enforcement, under certain circumstances

To finance these services, facilities, or functions, a county may levy property taxes within a defined service district in addition to those levied throughout the county. The tax rate is capped at an amount that, when combined with the rate levied countywide, does not exceed $1.50 on each $100 of appraised value of property, unless a greater rate is approved by a majority of qualified voters residing within the district.

Prior to adopting a resolution creating a service district, the board of county commissioners must make the following findings, followed by notice and a public hearing:

1. There is a demonstrable need for providing one or more of the services listed above.
2. It is impossible or impracticable to provide those services on a countywide basis.

[1] House Bill 23, the companion bill to SB 32 as originally introduced, is in the Senate Pensions and Retirement Committee.

3. There is a demonstrable demand for the proposed services by persons residing in the district.

Current law provides for the extension of, consolidation of, reduction of after annexation, and abolition of service districts but does not provide for the removal of property from a service district.

BILL ANALYSIS: The PCS for Senate Bill 32 would allow the county commissioners, by resolution, to remove an area from an existing fire protection service district and simultaneously establish and place the area in a new service district if the area meets all of the following conditions:

- It is an industrial facility.
- It is subject to a contract not to annex by a municipality under which the owner of the property is obligated to make payments in lieu of taxes equal to or in excess of 50% of the taxes the industry would pay to the municipality if it were annexed.
- The owner of the property is currently making payments in lieu of taxes to a municipality.
- The property is actively served by an industrial fire brigade.

The rate of tax in a district created under this new statutory section would be limited to 3.5¢ on each $100 of property valuation subject to taxation.[2] If an area ceases to meet the requirements of this new statutory section, then the board of commissioners may, by resolution, abolish the district and annex the territory back to the district from which it was removed.

EFFECTIVE DATE: The bill would be effective when it becomes law.

BACKGROUND: Rockingham County established three fire protection service districts around the City of Eden. One of the fire protection service districts serves an industrial facility that has a contract with the City of Eden in which the City agrees to provide services to the area and to receive payments from the beneficiary of those services in lieu of not annexing the area for a certain amount of time.[3] This bill would ensure that the tax rate levied in the fire protection service district that serves this industrial facility would not exceed 3.5¢.

The General Assembly has granted authority for the following municipalities to enter into annexation agreements: the City of Washington (1993), the Town of Stanley (1993), the City of Belmont (1997), the City of Hendersonville and the Town of Laurel Park (1997), the Town of Huntersville (1997), the City of Mount Holly (2000), and the Town of Weldon (2001). Therefore, the provisions of this bill could apply to the counties in which these municipalities are located if the additional requirements of this bill are met:

- The terms of the annexation agreement. (Page 1, lines 14-18)
- The area is served by an industrial fire brigade, which meets the standards of the National Fire Protection Association and the requirements of the NC Occupational Safety and Health Standards for General Industry for industrial fire brigades. (Page 1, lines 19-23)

S0032e2-SMRB-PCS75347-LB-82

[2] G.S. 153A-309.2 and 153A-310 also allow rate limitation in certain districts.
[3] S.L. 2002-74. Authorized the City of Eden to enter into a contract with Duke Power and Miller Brewing Company to accept payments in lieu of taxes and, as part of the contract, to agree not to annex the property described in the contract prior to December 31, 2013.

A BILL TO BE ENTITLED

AN ACT TO ALLOW THE TOWN OF OAK RIDGE TO MAKE VOLUNTARY ANNEXATIONS WITHIN A CERTAIN DESCRIBED AREA AND TO ALLOW THE TOWN OF RED CROSS TO AMEND ITS BUDGET ORDINANCES FOR THE 2002-2003 FISCAL YEAR TO SHOW CONFORMANCE WITH G.S. 136-41.2.

The General Assembly of North Carolina enacts:

SECTION 1. Section 1.2 of the Charter of the Town of Oak Ridge, being S.L. 1998-113, reads as rewritten:

"Section 1.2. (a) Except as provided by subsection (c) of this section, Article 4A of Chapter 160A of the General Statutes does not apply to the Town of Oak Ridge until July 1, 2018.

(b) G.S. 160A-58.1(b)(2) does not apply to (i) the City of Greensboro as it relates to the Town of Oak Ridge or (ii) the Town of Kernersville as it relates to the Town of Oak Ridge.

(c) Parts 1 and 4 of Article 4A of Chapter 160A of the General Statutes apply to the Town of Oak Ridge as to the following described territory in Guilford County:

Beginning at a point located at the intersection of Haw River Road and the Forsyth/Guilford County line; thence following the Forsyth/Guilford County line north to the point at which the Forsyth/Guilford County line intersects with the corporate limits of the Town of Stokesdale; thence continuing in an easterly and southeasterly direction following the Town of Stokesdale corporate limits to Haw River Road at which point the Town of Oak Ridge corporate limits begin; thence continuing southwesterly along the southern right-of-way of Haw River Road to the point and place of beginning."

SECTION 2. The Town of Red Cross shall be considered to have complied with the provisions of G.S. 136-41.2 for the fiscal year 2002-2003 and is excused from nonconformity with respect to implementation of the four specified services.

SECTION 3. This act is effective when it becomes law.

SENATE BILL 420:
Oak Ridge Vol. Annex./Red Cross Budget Ord

BILL ANALYSIS

Committee:	House Finance	**Date:**	July 19, 2005
Introduced by:	Sen. Berger of Rockingham	**Summary by:**	R. Erika Churchill
Version:	Second Edition		Committee Counsel

SUMMARY: Senate Bill 420 received a favorable report from House Finance on May 10th. This bill would authorize the Town of Oak Ridge to annex non-contiguous property by petition. The bill is back in House Finance because of a subsequent change made by the House Local Government Committee. On July 7th the bill was amended to allow the Town of Red Cross to participate in the distribution of Powell Bill funds for the fiscal year 2002-2003 without having provided at least 4 of the 8 services necessary to receive certain tax distributions. The act is effective when it becomes law.

CURRENT LAW & BILL ANALYSIS:

Section 1. G.S. 160A-58.1 governs the voluntary annexation by a municipality of noncontiguous property. All property owners in the satellite area may petition for voluntary annexation of the noncontiguous property if the property meets the following five standards in G.S. 160A-58.1(b):

1. The nearest point on the proposed satellite corporate limits must be not more than three miles from the primary corporate limits of the annexing city.
2. No point on the proposed satellite corporate limits may be closer to the primary corporate limits of another city than to the primary corporate limits of the annexing city.
3. The area must be so situated that the annexing city will be able to provide the same services within the proposed satellite corporate limits that it provides within its primary corporate limits.
4. If the area proposed for annexation, or any portion thereof, is a subdivision as defined in G.S. 160A-376, all of the subdivision must be included.
5. The area within the proposed satellite corporate limits, when added to the area within all other satellite corporate limits, may not exceed 10% of the area within the primary corporate limits of the annexing city.

However, the town charter of Oak Ridge precludes it from annexing property under North Carolina statutory provisions for annexation until July 1, 2018.

Section 1 of the bill would amend the Town Charter to allow Oak Ridge to voluntarily annex in accordance with Chapter 160A certain described property that is non-contiguous to the current town property limits. The property, measuring approximately 3 square miles, is agricultural and rural residential in nature.

Section 2. G.S. 41.2 requires cities desiring to participate in the distribution of Powell bill funds to do all of the following:

- Conduct its most recent elections.
- Levy an ad valorem tax for the current fiscal year of at least 5¢ on the $100.00 valuation upon all taxable property within its corporate limits
- Collect at least fifty percent (50%) of the total ad valorem tax levied for the preceding fiscal year
- If the municipality was incorporated with an effective date of on or after January 1, 2000, provide at least four of the following municipal services:

1. Police protection
2. Fire protection
3. Solid waste collection or disposal
4. Water distribution
5. Street maintenance
6. Street construction or right-of-way acquisition
7. Street lighting
8. Zoning.

Section 2 of the bill would allow the Town of Red Cross to participate in the distribution of the funds for the fiscal year 2002-2003 without having provided at least 4 of the 8 services listed above. The Town of Red Cross was incorporated August 1, 2002, and provided zoning in that year. The Town had planned to provide police protection, fire protection, and solid waste collection in that year also. However, the county had already levied taxes and entered into contracts for those services when the Town was officially incorporated.

SENATE BILL 592:
Indigent Defense Technical Revisions

BILL ANALYSIS

Committee:	House Finance	**Date:**	July 14, 2005
Introduced by:	Sen. Kinnaird	**Summary by:**	Martha Walston
Version:	Second Edition		Committee Counsel

SUMMARY: ***Senate Bill 592 would make technical revisions to current law governing indigent defense and entitlement to counsel to correspond with current practices and to comply with the recent North Carolina Supreme Court decision, State v. Webb.***

The 2nd edition makes an additional change in Section 3 by deleting language that prohibits the assessment of the $50 fee when there are other pending cases or when charges are dismissed and refiled. It also clarifies in Section 4 that a person placed on probation is required to pay as a condition of probation, all fees and costs for appointed counsel, as well as court costs.

SB 592 has been heard in the following committees: Senate JII, Senate Finance, and House JI.

SECTION-BY-SECTION ANALYSIS:

Section 1: G.S. 7A-304 sets out the costs and fees associated with criminal actions and the priority in which the clerk of court shall distribute them. The subsection that sets out the priority of payment does not specifically include attorney's fees in the types of funds to be disbursed by the clerk of superior court, but it is included in the payment priority list that follows. Section 1 of the bill would specifically include attorney's fees in the types of funds to be disbursed by the clerk of superior court in G.S. 7A-304(d)(1) to correspond with the payment priority list that follows.

Section 2: G.S. 7A-451(a)(12) and (a)(15) currently refer to sections of the statutes addressing termination of parental rights that have been repealed and recodified. Section 2 of the bill would adjust the references in G.S. 7A-451(a)(12) and (a)(15) to correspond to the correct sections of the statutes as recodified.

Section 3: Under current law, a person for whom counsel has been appointed must pay a $50 nonrefundable fee to the clerk of court regardless of the outcome of the proceedings pursuant to G.S. 7A-455.1. In 2004, the North Carolina Supreme Court held in *State v. Webb* that this statute violated the constitutional prohibition against compelling persons to pay costs of prosecution unless they are found guilty.[1]

Therefore, Section 3 of the bill makes changes to G.S. 7A-455.1 to bring the statute into conformity with the holding in *State v. Webb.* Subsection (a) would clarify that the $50 fee is assessed only when the defendant is convicted and deletes references relating to when a defendant fails to pay the fee at the time of appointment since the fee may only be assessed at conviction.

Although the current statute also contemplates the payment of the appointment fee for appellate appointments, the Office of Indigent Services does not direct the courts to assess the fee in appellate or post-conviction proceedings. Thus, Section 3 changes G.S. 7A-455.1 to reflect this practice by

[1] Art. I, Sec. 23 of the North Carolina State Constitution provides "In all criminal prosecutions, every person charged with crime has the right to be informed of the accusation and to confront the accusers and witnesses with other testimony, and to have counsel for defense, and not be compelled to give self-incriminating evidence, or to pay costs, jail fees, or necessary witness fees of the defense, unless found guilty."

clarifying that the fee may only be assessed at the trial level, and not in cases on appeal or in post-conviction.

Subsection (e) has been rewritten to focus on the attorney appointment rather than the determination of indigence. The 2nd edition makes one additional change by deleting language that prohibits the assessment of the $50 appointment fee when there are other pending cases against the defendant in which the fee was assessed or when the charges against the defendant have been dismissed and refiled. The Office of Indigent Defense Services has requested this change because this provision is difficult for the judges and clerks to implement and track. The 2nd edition also adds language that the fee may not be assessed a second time if a different attorney is reassigned to the defendant for the same charges for which the initial appointment fee was assessed.

Section 4: G.S. 15A-1343 includes attorney's costs with court costs that are to be paid by the convicted defendant as a condition of probation. Section 4 of the bill would clarify that attorney's fees are considered to be separate from court costs and that payment of attorney's fees may also be included as a condition of probation. The 2nd edition clarifies that a person placed on probation is required to pay all fees and costs for appointed counsel, as a condition of probation, in addition to court costs. The attorney "fees" are to reimburse appointed counsel for the actual services of legal representation and the "costs" associated with appointed counsel are those expenses incurred by the attorney during the course of representation, such as expert witness fees, investigator fees, or other out-of-pocket costs. This section is clarifying that these fees and costs are separate and apart from the actual court costs.

Section 5: Former G.S. 7A-451(a)(10) governed the entitlement to counsel in cases involving the sterilization of mentally ill and mentally retarded persons. In 2003, this provision was repealed and recodified in G.S. 35A-1245(c). G.S. 7A-452(a) provides that appointment of counsel in all cases under Article 36 of Chapter 7A shall be "in accordance with rules adopted by the Office of Indigent Defense Services. Section 5 of the bill would add language to the new G.S. 35A-1245(c) to correspond with this language that applied when the provision was previously codified in G.S. 7A-451(a)(10).

EFFECTIVE DATE: This act is effective when it becomes law.

BILL ANALYSIS

Committee:	House Finance	**Date:**	July 14, 2005
Introduced by:	Sen. Kinnaird	**Summary by:**	Martha Walston
Version:	Second Edition		Committee Counsel

SUMMARY: ***Senate Bill 593 would provide an exception to the collection of certain miscellaneous fees by the clerk of superior court. The clerk would not charge for preparing copies requested by counsel appointed to represent an indigent person at State expense so long as the request is made in connection with the appointed case and is during the period of appointment.***

Senate Bill 593 has been heard in the following committees: Senate JII and Senate Finance

CURRENT LAW: G.S. 7A-308 provides for the collection of miscellaneous fees and commissions by clerks of superior court and remittance of these fees to the State for support of the General Court of Justice. Preparation of copies is listed among these fees at $2.00 for the first page and .25 for each additional page.

Many clerk's offices currently waive the fee for preparing copies for counsel appointed in indigent cases. When the fee is charged, the cost is billed to the Office of Indigent Defense Services by the appointed counsel for reimbursement from State funds. The money paid by appointed counsel is deposited by the clerks into the State financial management system for remittance to the State General Fund.

BILL ANALYSIS: Senate Bill 593 would exempt from collection by the clerk fees for copies made at the request of counsel appointed to represent an indigent person at State expense. The bill would limit copies provided without charge to only those that are made at the request of appointed counsel in connection with the appointed case and during the duration of the appointment. Providing for appointed counsel working on indigent cases to be exempt from collection of copy costs would simplify the system and avoid any associated transaction costs.

EFFECTIVE DATE: The act would be effective on July 1, 2005 and would apply to fees charged on or after that date.

There is no data available on which to base a projection for this legislation. Since it is already current practice for most clerks to waive the fee for indigent cases, it is likely this bill would have little, if any, fiscal impact.

A BILL TO BE ENTITLED

AN ACT TO AMEND THE LAW GOVERNING RECOUPMENT FOR LEGAL SERVICES PROVIDED TO INDIGENT PERSONS WHO ARE FINANCIALLY ABLE TO PAY A PORTION OF THE VALUE OF THOSE SERVICES.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 7A-455 reads as rewritten:

"**§ 7A-455. Partial indigency; liens; acquittals.**

(a) If, in the opinion of the court, an indigent person is financially able to pay a portion, but not all, of the value of the legal services rendered for ~~him~~that person by assigned counsel, the public defender, or the appellate defender, and other necessary expenses of representation, ~~he~~the court shall order the partially indigent person to pay such portion to the clerk of superior court for transmission to the State treasury.

(b) In all cases the court shall direct that a judgment be entered in the office of the clerk of superior court for the money value of services rendered by assigned counsel, the public defender, or the appellate defender, plus any sums allowed for other necessary expenses of representing the indigent person, including any fees and expenses that may have been allowed prior to final determination of the action to assigned counsel pursuant to G.S. 7A-458, which shall constitute a lien as prescribed by the general law of the State applicable to judgments. Any reimbursement to the State as provided in subsection (a) of this section or any funds collected by reason of such judgment shall be deposited in the State treasury and credited against the judgment. The value of services shall be determined in accordance with rules adopted by the Office of Indigent Defense Services. The money value of services rendered by the public defender and the appellate defender shall be based upon the factors normally involved in fixing the fees of private attorneys, such as the nature of the case, the time, effort, and responsibility involved, and the fee usually charged in similar cases. A district court judge shall direct entry of judgment for actions or proceedings finally determined in the district court and a superior court judge shall direct entry of judgment for actions or

proceedings originating in, heard on appeal in, or appealed from the superior court. Even if the trial, appeal, hearing, or other proceeding is never held, preparation therefor is nevertheless compensable.

(b1) In every case in which the State is entitled to a lien pursuant to this section, the public defender shall at the time of sentencing or other conclusion of the proceedings petition the court to enter judgment for the value of the legal services rendered by the public defender, and the appellate defender shall upon completion of the appeal petition or request the trial court to enter judgment for the value of the legal services rendered by the appellate defender.

(c) No order for partial payment under subsection (a) of this section and no judgment under subsection (b) of this section shall be entered unless the indigent person is convicted. If the indigent person is convicted, the order or judgment shall become effective and the judgment shall be docketed and indexed pursuant to G.S. 1-233 et seq., in the amount then owing, upon the later of (i) the date upon which the conviction becomes final if the indigent person is not ordered, as a condition of probation, to pay the State of North Carolina for the costs of his representation in the case or (ii) the date upon which the indigent person's probation is terminated or revoked if the indigent person is so ordered. No order for partial payment under subsection (a) of this section and no judgment under subsection (b) of this section shall be entered for the value of legal services rendered to perfect an appeal to the Appellate Division or in postconviction proceedings, if all of the matters that the person raised in the proceeding are vacated, reversed, or remanded for a new trial or resentencing.

(d) In all cases in which the entry of a judgment is authorized under G.S. 7A-450.1 through G.S. 7A-450.4 or under this section, the attorney, guardian ad litem, public defender, or appellate defender who rendered the services or incurred the expenses for which the judgment is to be entered shall obtain the social security number, if any, of each person against whom judgment is to be entered. This number, or a certificate that the person has no social security number, shall be included in each fee application submitted by an assigned attorney, guardian ad litem, public defender, or appellate defender, and no order for payment entered upon an application which does not include the required social security number or certification shall be valid to authorize payment to the applicant from the Indigent Persons' Attorney Fee Fund. Each judgment docketed against any person under this section or under G.S. 7A-450.3 shall include the social security number, if any, of the judgment debtor."

SECTION 2. G.S. 7B-603 reads as rewritten:

"**§ 7B-603. Payment of court-appointed attorney or guardian ad litem.**

(a) An attorney or guardian ad litem appointed pursuant to G.S. 7B-601 shall be paid a reasonable fee fixed by the court or by direct engagement for specialized guardian ad litem services through the Administrative Office of the Courts.

(a1) The court may require payment of the fee for an attorney or guardian ad litem appointed pursuant to G.S. 7B-601 from a person other than the juvenile as provided in G.S. 7A-450.1, 7A-450.2, and 7A-450.3. In no event shall the parent or guardian be required to pay the fees for a court-appointed attorney or guardian ad litem in an abuse, neglect, or dependency proceeding unless the juvenile has been adjudicated to be

abused, neglected, or dependent or, in a proceeding to terminate parental rights, unless the parent's rights have been terminated. If the party is ordered to reimburse the State for attorney or guardian ad litem fees and fails to comply with the order at the time of disposition, the court shall file a judgment against the party for the amount due the State.

(b) An attorney appointed pursuant to G.S. 7B-602 or pursuant to any other provision of the Juvenile Code for which the Office of Indigent Defense Services is responsible for providing counsel shall be paid a reasonable fee in accordance with rules adopted by the Office of Indigent Defense Services.

(b1) The court may require payment of the fee for an attorney appointed pursuant to G.S. 7B-602 or G.S. 7B-1101 from the respondent. In no event shall the respondent be required to pay the fees for a court-appointed attorney in an abuse, neglect, or dependency proceeding unless the juvenile has been adjudicated to be abused, neglected, or dependent or, in a proceeding to terminate parental rights, unless the respondent's rights have been terminated. At the dispositional hearing or other appropriate hearing, the court shall make a determination whether the respondent should be held responsible for reimbursing the State for the respondent's attorneys' fees. This determination shall include the respondent's financial ability to pay.

If the court determines that the respondent is responsible for reimbursing the State for the respondent's attorneys' fees, the court shall so order. If the respondent does not comply with the order at the time of disposition, the court shall file a judgment against the respondent for the amount due the State.

~~(c) The court may require payment of the attorney or guardian ad litem fee from a person other than the juvenile as provided in G.S. 7A-450.1, 7A-450.2, and 7A-450.3. In no event shall the parent or guardian be required to pay the fees for a court-appointed attorney or guardian ad litem in an abuse, neglect, or dependency proceeding unless the juvenile has been adjudicated to be abused, neglected, or dependent, or, in a proceeding to terminate parental rights, unless the parent's rights have been terminated. A person who does not comply with the court's order of payment may be punished for contempt as provided in G.S. 5A-21.~~"

SECTION 3. G.S. 7A-450.3 reads as rewritten:

"**§ 7A-450.3. Determination of responsibility at hearing.**

At the dispositional, sentencing or other hearing of the person who is less than 18 years old or who is at least 18 years old but remains dependent on and domiciled with a parent or guardian, the court shall make a determination whether the parent, guardian or trustee should be held responsible for reimbursing the State for the person's attorney or guardian ad litem fees. This determination shall include the financial situation of the parent, guardian or trustee, the relationship of responsibility the parent, guardian or trustee bears to the person and any showings by the parent, guardian or trustee that the person is emancipated or not dependent. The test of the party's financial ability to pay is the test applied to appointment of an attorney in cases of indigency. Any provision of any deed, trust or other writing, which, if enforced, would defeat the intent or purpose of this section is contrary to the public policy of this State and is void insofar as it may apply to prohibit reimbursement to the State.

If the court determines that the parent, guardian or trustee is responsible for reimbursing the State for the attorney or guardian ad litem fees, the court shall so order. If the party does not comply with the order ~~within 90 days,~~ at the time of disposition, the court shall file a judgment against him for the amount due the State."

SECTION 4. Sections 2 and 3 of this act become effective October 1, 2005, and apply to the appointment of counsel on or after that date. The remainder of this act is effective when it becomes law.

SENATE BILL 594:
Recoupment by Court-Appointed Attorneys

BILL ANALYSIS

Committee:	House Finance	**Date:**	July 14, 2005
Introduced by:	Sen. Kinnaird	**Summary by:**	Martha Walston
Version:	Third Edition		Committee Counsel

SUMMARY: Senate Bill 594 would amend the law governing recoupment for legal services provided to indigent persons who are financially able to pay a portion of the value of the services provided as follows:

- ***It would exempt indigent persons from paying for legal services rendered to perfect an appeal to the appellate division or in post-conviction proceedings if all of the matters raised are vacated, reversed or remanded for a new trial or resentencing.***
- ***It would allow the court to hold a parent responsible for payment of an attorney or guardian ad litem in cases where a juvenile has been adjudicated to be abused, neglected or dependent or where the parent's rights have been terminated. The parent must pay at the time of disposition.***

SB 594 has been heard in the following committees: Senate JII, Senate Finance, and House JI.

BILL ANALYSIS:

Section 1: North Carolina, like every jurisdiction, has an irrevocable constitutional duty to provide court-appointed counsel to an indigent defendant once he requests it. However, the State is not required to absorb the expenses of providing such counsel when the defendant has acquired the financial ability to pay. The current recoupment statute appears to direct entry of judgment in criminal appeals whenever the defendant's conviction is upheld.[1] It is unclear, however, whether this statute directs entry of civil judgment when the only relief available in the appellate courts is a new sentencing hearing. Section 1 of the bill would revise G.S. 7A-455(c) to clarify that recoupment of fees for legal services rendered is not appropriate when the appellant prevailed on the issues raised on appeal.

Section 2: Current statutes do not appear to authorize recoupment when counsel is provided to an adult in an abuse, neglect, or dependency, or termination of parental rights proceeding. G.S. 7B-603 states that a parent may be held responsible for counsel fees if the child is found to have been abused, neglected, or dependent or the parent's rights are terminated, thus suggesting that a parent may be required to pay for counsel services provided to the parent. However, this statute also states that the court should follow the procedures for recoupment in G.S. 7A-450.1, 7A-450.2, and 7A-450.3, which authorize the court to recoup fees for appointed counsel for services provided to a minor. Section 2 of the bill would clarify that a parent may be held responsible for paying the fees of a court-appointed attorney or guardian ad litem in those cases where a juvenile has been adjudicated to be abused, neglected or dependent, or in cases where the parent's rights have been terminated.

The original bill required persons ordered to reimburse the State for attorney or guardian ad litem fees to do so within 90 days, or have a judgment against them filed by the court. This 90-day period is consistent with language in G.S. 7A-450.3, which provides for the recoupment of attorney's fees from a parent where counsel or a guardian ad litem was appointed to represent a juvenile in an abuse, neglect, or dependency hearing or termination of parental rights hearing. However, the AOC indicated that this

[1] G.S. 7A-455(c).

90-day provision has proven unworkable for the clerks of court, and many clerks are entering judgment at the time of disposition. Therefore, AOC has recommended the language in the 3rd edition of the bill, which would require payment at the time of disposition. If a parent is unable to make payment at the time of disposition, the clerk would enter a judgment against the parent for the amount owed. This change is made to both recoupment statutes – that is, where the parent is ordered to reimburse the State for appointed counsel fees for work performed on behalf of the minor and for appointed counsel fees for work performed on behalf of the parent.

EFFECTIVE DATE: Sections 2 and 3 of the act would become effective October 1, 2005, and apply to appointment of counsel on or after that date. The remainder of the act is effective when it becomes law.

BILL SUMMARY: Senate Bill 594 would amend the law governing recoupment for legal services provided to indigent persons who are financially able to pay a portion of the value of the services provided. It would exempt indigent persons from paying for legal services rendered to perfect an appeal to the appellate division or in post-conviction proceedings if all of the matters raised are vacated, reversed or remanded for a new trial or resentencing. ASSUMPTIONS AND METHODOLOGY: SB 594 gives the court the discretion to determine that an offender is capable of paying some, but not all, of their attorney cost, and that they may require the offender pay a partial fee. While the bill may improve recoupment rates, there is no available information on which to base any estimate.

A BILL TO BE ENTITLED

AN ACT TO PROVIDE THAT REGISTERED BUSINESSES THAT REPLACE WINDSHIELDS MAY OBTAIN REPLACEMENT INSPECTION STICKERS WITHOUT PAYING THE STICKER FEES.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 20-183.6 reads as rewritten:

"**§ 20-183.6. Businesses that replace windshields must register with Division to get inspection stickers.**

(a) A person who is engaged in the business of replacing windshields on vehicles that are subject to inspection under this Part may register with the Division to obtain replacement inspection stickers for use on replaced ~~windshields.~~ windshields without paying the fees required by G.S. 20-183.7. A replacement inspection sticker put on a windshield that has been replaced must contain the same information and expire at the same time as the inspection sticker it replaces. A person who puts a replacement inspection sticker on a replaced windshield must remove the inspection sticker from the windshield that was replaced, attach the removed inspection sticker to a copy of the statement given the vehicle owner for replacing the windshield, and keep that copy of the statement until 18 months after the sticker was removed.

(b) A person registered under this section must keep records of replacement stickers put on replaced windshields and must be able to account for all inspection stickers received from the Division. The Division may suspend or revoke the registration of a person under this section if the person fails to keep records required by the Division or is unable to account for inspection stickers received from the Division. An auditor of the Division may review the records of a person registered under this section during normal business hours.

(c) A person who is registered under this section and has a safety inspection station license or an emissions inspection station license must keep the records of the inspection stickers used on replaced windshields separate from the records of the inspection stickers used on vehicles inspected. A person who is registered under this

(d) A person who is registered under this section when obtaining the replacement stickers without paying the fees required by G.S. 20-183.7 shall present the copies of the statements that are required to be kept by subsection (a) of this section for examination by the Division."

BILL ANALYSIS

Committee:	House Finance	**Date:**	July 19, 2005
Introduced by:	Sen. Holloman	**Summary by:**	Cindy Avrette
Version:	First Edition		Committee Counsel

SUMMARY: Senate Bill 185 provides that businesses that replace windshields may obtain replacement inspection stickers without paying the sticker fees.

CURRENT LAW: Businesses that replace windshields on vehicles may register with the Division of Motor Vehicles to obtain replacement inspection stickers for use on replaced windshields. The replacement inspection sticker must contain the same information and expire at the same time as the inspection sticker it replaces. The business must keep the removed inspection sticker, along with a copy of the statement given to the vehicle owner, for 18 months. The DMV may suspend or revoke the registration of a person who fails to keep the required records or is unable to account for the inspection stickers.

There are two types of inspection stickers placed on vehicles. A safety-only inspection sticker costs $.85 and an emissions and safety inspection sticker costs $6.50. Fees collected for inspection stickers are divided among the following accounts: the Highway Fund, the Emissions Program Account, the Telecommunications Account, the Highway Trust Fund Repayment Fee, the Volunteer Rescue/EMS Fund, the Rescue Squad Workers' Relief Fund, and the Division of Air Quality of the Department of Environment and Natural Resources.

BILL ANALYSIS: Senate Bill 185 would allow business that replace windshields on vehicles to obtain replacement inspection stickers from the Department of Motor Vehicles without paying the sticker fees upon presenting a copy of the statement prepared for the vehicle owner along with the removed inspection sticker.

EFFECTIVE DATE: This act is effective when it becomes law.

BILL SUMMARY: Provides that registered businesses that replace windshields may obtain replacement inspection stickers without paying the sticker fees. Requires that the person replacing the windshield shall submit copies of bills for windshield replacement with the old inspection stickers to the Division of Motor Vehicles when obtaining replacement stickers. Makes technical changes.

ASSUMPTIONS AND METHODOLOGY: There are presently 68 North Carolina counties with at least one windshield replacement center and a total of 207 windshield replacement centers in the state. The projection for this legislation is based on 2003-04 actual receipts from safety stickers and emissions stickers. During that year, DMV issued 32,850 safety stickers and 16,000 emissions stickers to windshield replacement centers.

There are two costs to DMV. The first is the transaction cost whereby DMV pays tag agencies $1.43 per transaction for windshield replacement transactions. In 2003-04, the 207 windshield replacement centers consumed 977 books of stickers, costing the DMV $1,397.

There is also an IT cost. DMV estimates that 100 hours of IT work will be needed to conform to the changes in this bill. At $80 per hour, the estimated IT cost is $8,000. There is also a $960 IT overhead (15% of programming, testing, and implementation), bringing the total IT expense to $8,960.

Funds affected by this legislation either receive money from the sale of both safety stickers and emissions stickers, or from the sale of emission stickers alone. The chart below provides detail on which funds receive money from which stickers as well as presenting the total impact to each fund under Senate Bill 185.

SENATE BILL 705:
Amend NC Substance Abuse Act

BILL ANALYSIS

Committee:	House Finance	**Date:**	July 15, 2005
Introduced by:	Sen. Nesbitt	**Summary by:**	Cindy Avrette
Version:	Third Edition		Committee Counsel

SUMMARY: ***Senate Bill 705 would provide for the licensure of substance abuse professionals; establish the credential of certified criminal justice addictions professional; require that applicants for registration, certification or licensure consent to a criminal history record check; and make a range of technical and conforming changes to the existing North Carolina Substance Abuse Professionals Certification Act. The bill would charge the North Carolina Substance Abuse Professional Certification Board with credentialing and licensing qualified substance abuse professionals rather than certifying them as is currently the case, and would change the Board's name to the North Carolina Substance Abuse Professional Practice Board to reflect its new role.***

The bill received a favorable report from the House Committee on Health. The bill is in Finance because of the fee provisions on page 13: the application fee for the credential of certified criminal justice addictions professional would be $475 and the renewal fee would be $150 – this fee amount is the current fee amount for other credentialed substance abuse professionals. The bill would authorize a exam rescheduling fee of not more than $25, a late renewal fee of not more than $125, and a fee not to exceed $150 for each administration of the test an applicant must pass to be credentialed as a US Department of Transportation substance abuse professional.

CURRENT LAW: The North Carolina Substance Abuse Professional Certification Board administers a certification process for professionals engaged in the assessment, evaluation, and provision of counseling and therapeutic services to persons suffering from substance abuse or dependency. The Board is directed to ensure that Board authorized professional titles cannot be used by anyone unless they have actually obtained that title officially through the Board. Titles currently authorized by the Board include the following: certified clinical addictions specialist, certified clinical supervisor, certified residential facility director, certified substance abuse counselor, certified substance abuse prevention consultant and clinical supervisor intern.

The Board has the authority to investigate complaints about professionals who are either certified by the Board or in the process of becoming certified, but has no authority to investigate or pursue complaints about unregulated professionals.

BILL ANALYSIS: Senate Bill 705 would change the name of the certification authority for substance abuse professionals from the 'North Carolina Substance Abuse Professional Certification Board' to the 'North Carolina Substance Abuse Professional Practice Board' and expand its powers and duties to include licensure. Board membership would remain unchanged[1]; however, the term of membership would increase from three-year terms to four-year terms.

[1] Eleven credentialed professionals elected by the credentialed professionals, at least two of whom shall serve each of the four Division of Mental Health, Developmental Disabilities, and Substance Abuse Services regions of the State. Three laypersons or other professional disciplines who have shown a special interest in the field of substance abuse, nominated by the Nominating

Senate Bill 705 would expand the Board's scope of authority to include practice protection, which would ensure that a person, unless otherwise exempted by statute, would be unable to practice as a substance abuse professional without successful completion of a mandatory licensing process through the Board. Those exempted by statute would include any person registered, certified, or licensed by the State or federal government to practice any other occupation or profession while rendering substance abuse services or consultation in the performance of the occupation or profession for which the person is registered, certified, or licensed[2].

The Board would offer a wide range of credentials to practitioners from entry level up to and including persons with a master's degree or higher (who would be eligible for licensure as clinical addictions specialists). The range of credentials would encompass persons who practice in substance abuse treatment, substance abuse prevention, substance abuse clinical supervision, substance abuse residential facility programs, and criminal justice settings. The bill would define substance abuse professional to include the following titles: a registrant, certified substance abuse counselor, substance abuse counselor intern, certified substance abuse prevention consultant, certified clinical supervisor, clinical addictions specialist intern, licensed clinical addictions specialist, certified substance abuse residential facility director, or certified criminal justice addictions professional. Each type of credential would carry its own educational, training, and experience requirements as determined by the Board. Credentials would require renewal every two years, conditioned upon meeting various levels of continuing education as determined by the type of credential being renewed.

The bill would set forth the scope of practice for each of the classifications of substance abuse professional[3] listed in the preceding paragraph, and make it unlawful for any person not licensed or otherwise credentialed as a substance abuse professional pursuant to Article 5C to engage in the activities included in the scope of practice given. Practicing outside of the scope of practice for which one is credentialed would subject a substance abuse professional to disciplinary action by the Board.

Any person currently certified to practice as a substance abuse professional would be considered to be credentialed and able to continue to practice in the field. Persons working the criminal justice area would be allowed to apply for status as a 'registrant' and given five years to complete the credentialing process to become a certified criminal justice addictions specialist. Section 4 of the bill provides that a person who meets all of the educational and experience requirements to be a certified criminal justice addictions specialist may be certified as such by the Board without taking the Board-administered written exam if the person applies to the Board for certification within 90 days from the date this act becomes effective.

The bill would make it a Class 1 misdemeanor to offer or provide substance abuse counseling without being credentialed by the North Carolina Substance Abuse Professional Practice Board. The Board would establish and publish required standards to credential substance abuse professionals and would be able to use the credentialing standards of the International Certification and Reciprocity Consortium/Alcohol and Other Drug Abuse, Incorporated and the standards adopted by professional disciplines granted deemed status or their successor organizations as guidelines.

The bill also makes the following changes to the NC Substance Abuse Professional Practice Act:

---

and Elections Committee, whose five members are elected by the Board. Two members from the Division of Mental Health, Developmental Disabilities, and Substance Abuse Services, Department of Health and Human Services. Three public members, one appointed by each of the following people: the Governor, Speaker of the House of Representatives, and President Pro Tempore of the Senate.

[2] G.S. 90-113.42(c).

[3] G.S. 90-113.31A.

- Imposes a minimum of six months suspension for impairment due to substance abuse, mental health, or medical disorder.
- Provides that independent study may not compose more than 50% of the total number of hours required for initial credentialing.
- Specifically authorizes employment of counsel.

EFFECTIVE DATE: The act would be effective when it becomes law.

BACKGROUND: Senate Bill 705 is the product of coordinated efforts over the past year and a half by the various parties involved in substance abuse services, including the state chapters of Psychology, Psychiatry and Social Work as well as the Division of MH/DD/SA, Division of Facility Services, the Division of Medical Services and the Division of Motor Vehicles. Other states have recognized the potential for harm to the public health, safety, or welfare, as there are currently at least 70 boards in the United States and other countries that offer competency-based certification, including all branches of the US Military and the federal Indian Health Services. New York is one of many states that have certification written into state administrative regulations. Eleven states have practice protection licensure of substance abuse professionals. The Legislative Committee on New Licensing Boards recommends the licensing of substance abuse professionals.

Ben Popkin, counsel to the Senate Committee on Health Care, substantially contributed to this summary.

EFFECTIVE DATE: When it becomes law.

BILL SUMMARY: Senate Bill 705 would provide for the licensure of substance abuse professionals; establish the credential of certified criminal justice addictions professional; require that applicants for registration, certification or licensure consent to a criminal history record check; and make a range of technical and conforming changes to the existing North Carolina Substance Abuse Professionals Certification Act.

The application fee for the credential of certified criminal justice addictions professional would be $475 and the renewal fee would be $150 – this fee amount is the current fee amount for other credentialed substance abuse professionals. The bill would authorize an exam rescheduling fee of

not more than $25, a late renewal fee of not more than $125, and a fee not to exceed $150 for each administration of the test an applicant must pass to be credentialed as a US Department of Transportation substance abuse professional.

ASSUMPTIONS AND METHODOLOGY: There are 1,392 certified substance abuse professionals in North Carolina according to the North Carolina Substance Abuse Professional Certification Board. The major fees for certification of substance abuse professionals, including licensure and renewal of licensure, have not been changed by this legislation. SB 705 adds a classification of licensure for criminal justice addictions professionals, which is a specialty within the field of substance abuse professionals and is estimated to generate approximately 20 extra examinations per year. Within the schedule of new fees, this only affects the projected number of examination rescheduling fees by increasing it by one per year. The following fees would be new fees:

1. *Exam rescheduling fee.* The Board administers many exams through a testing firm, and they are charged for each testing booklet ordered whether or not that booklet is actually used, in accordance with standardized testing procedures. Applicants are currently allowed 60 days before taking the test in which to reschedule in writing before they will incur a rescheduling fee. This procedure will not be changed. This fee is intended as a deterrent to those who skip examinations without giving notice.
2. *Late renewal fee.* Although the Board already has the authority to charge a late renewal fee, no maximum amount was set in statute. The Board intends to assess this fee on a graduated scale depending on the number of years a substance abuse professional's certification has lapsed, i.e., $25 for a one-year lapse, $50 for a two-year lapse, etc. Currently, the Board only handles two cases of late renewals per year. The projection assumes that a total of $125 in late renewal fees is assessed per year.
3. *Extra copy of Board-issued credential.* The Board issues approximately five extra copies of certifications per year.
4. *Fee for administering USDOT substance abuse professional exam.* The Board administers approximately five of these exams per year. The certification is required by the USDOT for substance abuse professionals who perform assessments of people working in motion-sensitive jobs involved in interstate transport, such as trucking, shipping, rail, and air.

Criminal Record Checks: Department of Justice & NCSAP Certification Board

The Department of Justice (DOJ) provides state and national criminal background checks to non-criminal justice agencies and charges a fee to cover its costs. For a state and national check, DOJ charges $38, of which $22 is remitted to the Federal Bureau of Investigation (FBI). For each

background check conducted, DOJ would incur costs, on average, of $16.33[1] in addition to the $22 remitted to the FBI. The North Carolina Substance Abuse Professionals Certification Board would require applicants to pay the $38 charge.

The Board administers 200 credential exams per year. Many substance abuse professionals hold multiple credentials; therefore, the number of individuals applying for their first credential and requiring a background check is anticipated to be less than 200 per year. If, for example, 100 additional background checks were required, the internal cost to DOJ would be $1,633, and payments from the Board would total $1,600. In addition, DOJ would collect $2,200 to remit to the FBI.

Each employee can process an average of nearly 10,000 background checks (criminal justice and non-criminal justice) per year. DOJ currently has the capacity to perform some additional background checks without increasing the number of positions. However, DOJ has stated that increased workload may affect turnaround time.

Department of Correction

The Sentencing and Policy Advisory Commission prepares inmate population projections annually. The projections used for incarceration fiscal notes are based on January 2005 projections. These projections are based on historical information on incarceration and release rates under Structured Sentencing, crime rate forecasts by a technical advisory group, probation and revocation rates, and the decline (parole and maxouts) of the stock prison population sentenced under previous sentencing acts. Based on the most recent population projections and estimated available prison bed capacity, *there are no surplus prison beds available for the five-year fiscal note horizon and beyond.*

This bill would expand existing Class 1 misdemeanors under G.S. 90-113.43 to apply to registrants, interns, and certified criminal justice addictions professionals, in addition to the substance abuse professionals for which the current offenses apply. Presently, the Administrative Office of the Courts does not maintain an offense code for violations G.S. 90-113.43, which is some indication that these offenses are infrequently charged and rarely result in convictions.

- In FY 2003-04, 19 percent of Class 1 misdemeanors resulted in active sentences and the average estimated time served was 31 days. Offenders with active sentences of less than ninety days are housed in county jails, and DOC reimburses counties for housing offenders between thirty and ninety days at a rate of $18 per offender per day.
- The remaining 81 percent of Class 1 misdemeanants received non-active sentences. For those offenders sentenced to supervised probation, the Division of Community Corrections (DCC) would incur costs of $1.87 per offender per day. Offenders sentenced to community service would cost $0.67 per offender per day, and offenders given unsupervised probation would not impact DCC.

Because most Class 1 misdemeanants serving active time as a result of this bill would be housed in county jails, this legislation is not expected to significantly impact prison population.

[1] In 2003, 75 percent of fee-exempt background checks were submitted via hard copy, and 25 percent were submitted electronically. This figure is a weighted average assuming the same distribution will apply to the new population.

Judicial Branch

For most criminal penalty bills, the Administrative Office of the Courts (AOC) provides Fiscal Research with an analysis of the fiscal impact of the specific bill. For these bills, fiscal impact is typically based on the assumption that court time will increase due to an expected increase in trials and a corresponding increase in the hours of work for judges, clerks, and prosecutors. This increased court time is also expected to result in greater expenditures for jury fees and indigent defense.

Because AOC does not maintain an offense code for present violations of G.S. 90-113.43, no historical data is available regarding Class 1 misdemeanor charges for these offenses. As such, the number of charges that would result from making the offenses applicable to additional individuals cannot be determined. However, the lack of an offense code for existing violations of G.S. 90-113.43 may be some indication that there would be relatively few charges for these offenses.

Based on the costs of time in court, attorney preparation time, and indigent defense, the average estimated cost to process one Class 1 misdemeanor is $3,213 per trial and $284 per guilty plea. The trial cost includes an estimated $1,880 in jury fees, costs of time in court, and attorney costs and an additional $1,333 in indigent defense. *Based on prior-year data, the majority of any new Class 1 misdemeanor charges that are not dismissed are likely to be settled by plea.*

SENATE BILL 341

Short Title:	Modern Escheat Investment Program.	(Public)
Sponsors:	Senators Hoyle; and Atwater.	
Referred to:	Finance.	

March 3, 2005

A BILL TO BE ENTITLED

AN ACT TO ESTABLISH A MODERN INVESTMENT PROGRAM FOR THE PRUDENT AND APPROPRIATE MANAGEMENT OF THE ESCHEAT FUND, FOR THE BENEFIT OF "NEEDY AND WORTHY" STUDENTS AS PROVIDED FOR IN THE STATE CONSTITUTION.

Whereas, the State Constitution mandates that proceeds of the Escheat Fund shall be utilized to aid needy and worthy North Carolina students enrolled in public institutions of higher education; and

Whereas, continued tuition increases are intensifying the demand on the Escheat Fund to provide North Carolina students with loans and tuition assistance to offset tuition hikes; and

Whereas, adoption of a proactive investment policy for the Escheat Fund will enable the State to realize a greater benefit from existing capital, thereby enhancing the Escheat Fund's constitutionally provided purpose; and

Whereas, the assets of the Escheat Fund have grown to nearly $600,000,000, necessitating the establishment of a modern investment allocation strategy for these funds; and

Whereas, such a policy will enable the State Treasurer to invest in those types of investments considered prudent for the Escheat Fund; Now, therefore,

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 147-69.2(b) is amended by adding a new subdivision to read:

"(12) With respect to assets of the Escheat Fund, in addition to those investments authorized by subdivisions (1) through (6) of this subsection, up to twenty percent (20%) in the investments authorized under subdivisions (7) through (9) of this subsection, notwithstanding the limitations imposed on the retirement funds under those subdivisions."

SECTION 2. This act is effective when it becomes law.

SENATE BILL 341:
Modern Escheat Investment Program

BILL ANALYSIS

Committee:	House Finance	**Date:**	July 19, 2005
Introduced by:	Sen. Hoyle	**Summary by:**	Martha Walston Committee Counsel*
Version:	First Edition		

SUMMARY: Senate Bill 341 would authorize the State Treasurer to invest up to 20% of the Escheat Fund in three new classes of investment vehicles: (1) insurance contracts, trusts, limited partnerships, and LLCs whose primary purpose is investing in or owning real estate or related debt financing; (2) certain corporate stock; and (3) limited partnerships and LLCs whose primary purpose is to invest in public or private debt, public or private equity, or corporate buyout transactions.

CURRENT LAW:

Escheat Fund – Property to which the State assumes ownership under Chapter 116B of the General Statutes, either because the property is determined to be abandoned or the property was owned by a person who died and had no heirs, is held by the State in the Escheat Fund.

Investment of Escheat Fund Assets – Funds in the Escheat Fund are administered by the State Treasurer and must be invested in accord with G.S. 147-69.2. The types of instruments in which these funds may be invested is limited, but generally include the following:

1. Obligations of the United States or obligations fully guaranteed both as to principal and interest by the United States.
2. Obligations of certain specifically named entities.
3. Repurchase agreements with respect to securities issued or guaranteed by the United States government or its agencies or other securities eligible for investment under G.S. 147-69.1 by a bank or trust company or by primary or other reporting dealers to the Federal Reserve Bank of New York.
4. Obligations of the State of North Carolina.
5. Time deposits of financial institutions with a physical presence in this State for the purpose of receiving commercial or retail deposits.
6. Prime quality commercial paper bearing the highest rating of at least one nationally recognized rating service and not bearing a rating below the highest by any nationally recognized rating service which rates the particular obligation.
7. General obligations of other states in the United States or of any city, county or special district in North Carolina.
8. Obligations of any legal entity that bear one of the four highest ratings of at least one nationally recognized rating service and do not bear a rating below the four highest by any nationally recognized service that rates the particular security.
9. Asset-backed securities, whether considered debt or equity that meet the requirements of item number 8 above.

Constitutional Mandate on Use of Escheat Fund Assets – Article IX, Section 10 of the North Carolina Constitution requires property in the Escheat Fund to be used to "aid worthy and needy students who are residents of this State and are enrolled in public institutions of higher education in this State." The income derived from investment or deposit of the Escheat Fund is distributed annually on or before July 15 to the State Education Assistance Authority for grants or loans to aid worthy and needy students. An

amount determined in the annual budget is transferred annually from the Escheat Fund to the Department of Administration to partially fund the program of Scholarships for Children of War Veterans.

Additional Classes of Investments Authorized for Retirement Systems – Currently, G.S. 147-69.2(b)(7), (8), and (9) authorize the State Treasurer to invest assets of the following retirement systems in three additional classes of investment vehicles: Teacher's and State Employees' Retirement System, the Consolidated Judicial Retirement System, the Firemen's and Rescue Workers' Pension Fund, The Local Governmental Employees' Retirement System, the Legislative Retirement System, and the North Carolina National Guard Pension Fund.

These subdivisions specify the investment option and any particular requirements and limitations on the investment.

Currently, none of the Escheat Fund assets may be invested in the options provided under G.S. 147-69.2(b)(7)-(9).

Appointment of Investment Advisory Committee – G.S. 147-69.2(b1) requires the State Treasurer to appoint a five-member Investment Advisory Committee for the investments authorized in G.S. 147-69.2(b)(8) and (9).

BILL ANALYSIS: Senate Bill 341 would allow the State Treasurer to invest up to 20% of the funds in the Escheat Fund in the investment options authorized by G.S. 147-69.2(b)(7), (8), and (9), which provide for the following:

- *G.S. 147-69.2(b)(7)* – (i) insurance contracts, (ii) group trusts, (iii) individual, common, or collective trust funds of banks and trust companies, (iv) real estate investment trusts, and (iv) limited liability partnerships and limited liability companies.[1]
- *G.S. 147-69.2(b)(8)* – preferred or common stocks invested directly or invested through individual, common, or collective trust funds of banks, trust companies, and group trust funds of advisory companies.[2]
- *G.S. 147-69.2(b)(9)* – limited partnerships interests or interests in a limited liability company if the primary purpose of the partnership or company is to invest in public or private debt, public or private equity, or corporate buyout transactions.[3]

The investments authorized in this bill do not contain the limitations currently placed upon the investment of assets of the retirement systems. The investment of Escheat Fund assets in the above options is limited by the 20% cap.

EFFECTIVE DATE: This act is effective when it becomes law.

*Staff Attorney, Trina Griffin, contributed substantially to this summary.

PRINCIPAL DEPARTMENT(S) & PROGRAM(S) AFFECTED:

EFFECTIVE DATE: When the bill becomes law.

BILL SUMMARY: Under current law the State Treasurer may invest the excess cash balances of the Escheats Fund only in debt securities or cash. The bill would allow up to 20% to be invested in: (1) insurance contracts, trusts, limited partnerships, and limited liability companies whose primary purpose is investing in or owning real estate or related debt financing; (2) certain corporate stock; and (3) limited partnerships and limited liability companies whose primary purpose is to invest in public or private debt, public or private equity, or corporate buyout transactions

ASSUMPTIONS AND METHODOLOGY: The shift of up to 20% of the excess balances of the fund should increase the average annual investment income over the long run, when compared to the annual return under the current portfolio. In theory, the increase in annual income should be around 10%. Thus, if the expected average return were currently 5.0% under current practices, the new average annual return might be as high as 5.5%. The increase in yield will correspond to a modest rise in the volatility of the annual return. The variation in annual returns makes it impossible to predict the impact on a particular year covered by this fiscal note. Finally, a review of the recent experience of the investment of state and local pension fund

assets, the written policy guidelines of the Office of State Treasurer for the investment of pension assets, and discussions with the staff of the Office of State Treasurer suggest that the Treasurer is likely to not use all of the capacity allowed under the bill for the new investment vehicles. If this occurs, the additional investment income and the extra volatility will not be as high as the results under full usage of the new investment vehicles.

House Committee on Finance

Minutes

~

July 26, 2005

The House Committee on Finance met on Tuesday, July 26, 2005 at 8:30 am in Room 544 of the Legislative Office Building. The following members were present: Chairpersons Alexander, Gibson, Howard, Luebke, McComas and Wainwright; Vice-Chairs Daughtridge, Hill, Ross, Weiss, and Womble; and Representatives B. Allen, Blackwood, Blust, Bordsen, Capps, Carney, Dockham, England, Faison, Folwell, Glazier, Goforth, Hackney, Harrell, Holliman, Insko, Jones, Lewis, Lucas, McGee, Underhill, Vinson, Walend and Wiley. Ex-Officio member Representative Culpepper was present. Also present were Sergeant-at-Arms Bill Freeman, Fred Hines, Dusty Rhodes, and Walter Spell. Staff persons present included Cindy Avrette, Rodney Bizzell, Erika Churchill, Gerry Cohen, Brenna Erford, Ashley Huffstetler, Linda Millsaps, and Martha Walston. The Agenda and Visitor Registration Sheet are attached and incorporated into these minutes as **attachments 1 and 2**.

Chairman McComas called the meeting to order at 8:34 am and recognized the eight (8) pages present: (1) James Rose of Cleveland County, sponsored by Representative Moore; (2) David Hopkins of Rockingham County, sponsored by Representative Cole; (3) Turner Vaughn of Gaston County, sponsored by Representative Current; (4) Elizabeth Alford of Wake County, sponsored by Representative Morgan; (5) Adam Moore of Gates County, sponsored by Representative Culpepper; (6) Nancy Warren of Person County, sponsored by Representative Wilkins; (7) Tyler White of Catawba County, sponsored by Representative Kiser; (8) Holt Broadhurst of Wake County, sponsored by Representative McComas.

The first bill under the Committee's consideration was **HB 1779 – PROPERTY TAX PAID WITH VEHICLE REGISTRATION** (see **attachment 3**). Chairman McComas first recognized Representative Howard who moved for the adoption of the proposed committee substitute for the Committee's consideration. The motion was adopted. Chairman McComas then recognized the bill sponsor, Representative Folwell, who explained that the bill creates a combined system for the collection of property tax and the renewal of vehicle registration. He also spoke about the problem that counties are currently having in collecting vehicle property taxes and how this bill would solve the problem by requiring individuals to pay the vehicle tax before receiving a vehicle registration. Following the explanation, Chairman McComas recognized Paul Mayer of the North Carolina Association of County Commissioners who stated that this bill will assist counties in collecting property taxes and should allow counties to receive an additional $80 million per year in collected revenue. David Baker, the Director of the Property Tax Division of the Department of Revenue, was also recognized and reported that collected revenue for vehicle property tax continues to fall annually as a result of individuals not paying the tax. He then said that he supports this bill because it will allow a greater collection rate to be achieved. Chairman McComas then recognized Andy Romanet representing the North Carolina League of Municipalities who stated that his

organization supports the bill. Patty Smithson from the Association of Tag Agents was also recognized to state her support for the bill. Chairman McComas then recognized Pete Rota of the NC Tax Collectors Association who stated that the bill makes good sense and promotes efficiency.

Representative Luebke was then recognized and moved for a favorable report to the proposed committee substitute and an unfavorable report to the original bill. Representative Womble was then recognized and asked about the vehicle property tax payment procedure in other states. In response, Representative Folwell was recognized and stated that many others states do not have property taxes on vehicles, but most states that levy vehicle property taxes have a similar system to the one proposed in the bill. Representative Howard was then recognized and spoke in support of the bill saying that this was one of the best bills that have been considered this session. She then asked Representative Folwell to explain in further detail the technological changes required by this bill. Chairman McComas then recognized Representative Folwell who explained in detail how the property tax system and the vehicle registration system would be integrated into one computer system. George Tatum, Director of the Division of Motor Vehicles (DMV), was then recognized and expressed the DMV's willingness to cooperate to make the new system a reality. Chairman McComas then recognized Representative Dockham who asked if the Tag Agents would be compensated for their work. Representative Folwell was recognized again and stated that the County Commissioners, in conjunction with the local tag offices, have agreed to work out a compromise through a Memorandum of Understanding (MOU) that provides the tag offices with no less than forty cents per transaction. Representative Walend was then recognized and asked if the effective date of 2007 could be moved to an earlier date. Chairman McComas then recognized Representative Folwell who said that enough time must be given for the current technology to be updated. As there was no further debate, Chairman McComas called the Luebke motion to a vote, and it carried by consent.

Chairman McComas then recognized Representative Hackney who moved for the adoption of the proposed committee substitute for **SB 612 – AMEND LOBBYING LAWS** (see **attachment 4**). The motion was adopted. Representative Hackney then explained that the proposed committee substitute amends lobbying laws by including goodwill lobbying, increasing the frequency and details of lobbyists, and prohibiting a legislator from lobbying during one year following a legislative session to which the legislator was elected or appointed. Following the explanation, Representative Hackney sent forth a technical amendment (see **attachment 5**) and moved for its adoption. Seeing no further discussion, Chairman McComas called the motion to a vote and the amendment was adopted. Representative Wainwright was then recognized and asked why the bill changes from a 2-year registration to a 1-year registration. Chairman McComas then recognized Representative Hackney who explained that some lobbyists only lobby for one session and under this bill would only pay $100 for one year's registration instead of $200 for a 2-year registration. Representative Daughtridge was then recognized and stated that the stringent regulations on executive lobbying could hurt the Department of Commerce in economic development endeavors. He then recommended that the bill be sent to a subcommittee to study the regulations regarding executive lobbying. In response, Representative Hackney was recognized and stated that lobbyists for the executive branch should be required to disclose spending amounts and opposed any recommendation of sending the bill to a subcommittee. Representative Gibson was then recognized and asked if the lobbying community would be kept at the table on the issue. Chairman McComas recognized Representative Hackney who answered in the affirmative, saying that he has received an overwhelming cooperative response from the lobbying community.

Representative Faison was then recognized and sent forth an amendment (see **attachment 6**) that prohibits legislators from leaving the General Assembly and working for an entity that the legislator sponsored legislation for or helped to attain funding for during the first year upon leaving

the legislature. This amendment would replace the "revolving door" provision that prohibits legislators or council of state members from working as a lobbyist within the first year of leaving service. Representative Faison then moved for the amendment's adoption. Speaking in opposition to the amendment, Representative Luebke was recognized and stated that the amendment would limit legislators who want to return to work after leaving the General Assembly. Representative Weiss was then recognized and said that she also opposed the amendment because the "revolving door" provision in the bill needs to be maintained. Chairman McComas then recognized Representative Wainwright who stated that the amendment would apply to a person in a full-time position but not to a person with a part-time job. He then asked how this bill would help lobbying laws. Representative Faison was then recognized and stated that the purpose of the amendment was consistent with the purpose of the bill, which is to keep undo influence out of the lawmaking process. Representative Luebke was then recognized again to announce his opposition to the amendment because of the "weakening" effect it had on the bill. Chairman McComas then recognized Representative Alexander who stated her opposition to the amendment because legislators often sponsor legislation based on their expertise and past experiences.

Representative Faison then sent forth a perfecting amendment that would both maintain the "revolving door" provision and add the language to the bill contained in the previous amendment. Chairman McComas, however, did not recognize the perfecting amendment and called the motion to adopt the original Faison amendment to a vote. The amendment failed. Representative Luebke was then recognized and moved for a favorable report to the proposed committee substitute, incorporating the Hackney technical amendment, and an unfavorable report to the original bill. Representative Howard was then recognized and stated that Representative Faison's perfecting amendment was a needed change to the bill. Representative Howard then acted to send forth an amendment (see **attachment 7**) identical to the perfecting amendment that Representative Faison previously attempted to send forth. Representative Howard stated that this change is ethically necessary and then moved for the adoption of the amendment. Chairman McComas then recognized Representative Hackney who stated that while he does not oppose the idea behind the amendment, the actual language needed to be closely reviewed and refined before he could support it. Representative Hackney further stated that the bill, once approved by the Finance Committee, had to be re-referred to the Appropriations Committee and that this amendment could be better addressed there. Representative Howard was then recognized and, stating that the issue should addressed prior to the Committee's approval, moved for the adjournment of the Committee meeting. Chairman McComas, noting that the motion was non-debatable, then called the motion for adjournment to a vote, and it carried by majority.

Thus, Chairman McComas adjourned the meeting at 9:51 am.

Respectfully submitted,

In no event shall the owner of a vehicle that has had a registration and vehicle identification number blocked be able to register a vehicle that has been blocked, transfer a registration plate that has been blocked to another vehicle, or transfer ownership of a vehicle that has been blocked until all delinquent taxes are paid and the owner provides a certificate issued by the county tax collector that all taxes due have been paid."

SECTION 6. There is appropriated from the General Fund to the Department of Transportation, Division of Motor Vehicles, the sum of ten million dollars ($10,000,000) to develop and implement an integrated computer system that allows the Division of Motor Vehicles, Property Tax Division, and all county tax collectors to collect property taxes due on motor vehicles and issue registration plates for all registered vehicles.

SECTION 7. This act is effective for taxes imposed for taxable years beginning on or after July 1, 2007.

HOUSE BILL 1779:
Property Tax Paid With Vehicle Registration

BILL ANALYSIS

Committee:	House Finance	**Date:**	July 26, 2005
Introduced by:	Reps. Folwell, Insko, Justice, Walker	**Summary by:**	Martha Walston
Version:	H1779-CSLAf-22 [v.5]		Committee Counsel

SUMMARY: ***House Bill 1779 would modify the collection system for property taxes and registration fees on motor vehicles in the State as follows:***

- ***Beginning July 1, 2009, or when an integrated computer system is in operation, whichever occurs first, the current system of paying the property taxes and registration fees to different entities on different dates would be replaced with a combined system in which the property taxes and registration fees on the motor vehicle are paid to the same entity on the same date.***
- ***Beginning January 1, 2006, the bill would increase the interest rate on unpaid property taxes on motor vehicles from 2% in the first month following the date the taxes were due to 5%. A portion (60%) of the interest collected would be transferred to a special account in the Treasurer's Office for the purpose of developing an integrated computer system in DMV that would allow for the implementation of the combined system.***
- ***The bill also directs the Property Tax Division within the Department of Revenue and the DMV within the Department of Transportation to jointly study and develop a plan for implementing the integrated computer system.***

CURRENT LAW: Collection of Motor Vehicle Property Taxes. Since 1993, all motor vehicles, except public service company vehicles appraised by the Department of Revenue and manufactured homes, are classified for listing, assessment, and taxation separately from other classes of property. The classified motor vehicles consist of two groups; those that are registered with the DMV and those that are not registered with the DMV.[1]

The county in which the motor vehicle is registered assesses the vehicle for property taxes on a revolving, year-round basis. To accomplish this, DMV gives each county a monthly list of all the motor vehicles in the county for which the registration was renewed or obtained two months earlier. The county then lists and appraises each vehicle and sends the owner of the vehicle a bill for the county, municipal, and special district property taxes due. The result is that a motor vehicle owner receives a tax bill for the vehicle approximately three months after the vehicle is registered or the registration is renewed. Each month, the county tax collector collects taxes on approximately one-twelfth of the motor vehicles having a tax situs in the county. If the taxes on the registered motor vehicle are not paid within one month after they become due, then the motor vehicle owner is liable for interest at the rate of 2% a month for the first month following the date the taxes were due and ¾ % for each month thereafter. Also, if the taxes are not paid, the county includes the motor vehicle on a list that is sent to the DMV. The DMV then refuses to renew the vehicle's registration the following year unless the taxpayer obtains a receipt showing that the previous year's taxes have been paid.[2] Unpaid taxes may also be collected by

[1] A vehicle is not registered with the DMV either because it is a tractor, an earthmover, or some other type of vehicle that cannot be registered with the DMV or it is a car or truck and could be, but for some reason, is not registered with the DMV.

[2] Vehicle owners may get around this block by buying a new tag on the vehicle.

levying on the motor vehicle or other personal property of the owner, but the unpaid taxes do not become a lien on the owner's real property.

Collection of Motor Vehicle Registration Fees. The DMV requires motor vehicles to be registered annually. Under G.S. 20-66, the registration of a vehicle that is renewed by means of a registration renewal sticker expires at midnight on the last day of the month designated on the sticker. It is lawful, however, to operate the vehicle on a highway until midnight on the fifteenth day of the month following the month in which the sticker expired. The DMV varies the expiration dates of registration renewal stickers for a type of vehicle so that an approximately equal number expires at the end of each month, quarter, or other period consisting of one or more months. The $20 fee is paid to the DMV and credited to the Highway Fund.

BILL ANALYSIS: House Bill 1779 would combine the motor vehicle registration and property tax billing and collection into a combined process. The goals of the combined process are to reduce the number of taxpayer interactions with government, save money, increase the overall efficiency of both functions, and improve the property tax collection rate on motor vehicles.

Sections 1 through 9 of the bill make the following changes to Chapter 105 regarding the listing, appraisal, and property tax collection of motor vehicles:

Beginning January 1, 2006, the interest rate on unpaid taxes on classified motor vehicles will increase from 2% for the first month to 5% for the first month following the date the taxes were due. Instead of going to the county that is the situs of the motor vehicle, 60% of the interest collected on unpaid taxes on registered vehicles will be transferred on a monthly basis to a special account created within the Treasurer's Office. The North Carolina Association of County Commissioners will direct the Treasurer to distribute funds from the account for the purpose of developing and implementing an integrated computer system within the DMV. The system will allow for the combined assessment, billing, and collection of property taxes on motor vehicles and the issuance of registration plates.

Beginning July 1, 2009, or when the Division of Motor Vehicles and the Department of Revenue certify that the integrated computer system for registration renewal and property tax collection for motor vehicles is in operation, whichever occurs first, the following changes will occur:

- Property Tax on registered motor vehicles will be due on the date the registration that a new registration is applied for or the fifteeth day of the month following the month in which the registration renewal sticker expired pursuant to G.S. 20-66(g). Under this statute, a registration sticker expires at midnight on the last day of the month designated on the sticker. The vehicle, however, may be lawfully driven on the highway until midnight on the fifteenth of the month following the month in which the sticker expired. For example, if the registration sticker designates August as the month of expiration, a person has the entire month of August and the first 15 days of September to renew his or her registration.
- The Property Tax Division of the Department of Revenue shall prepare and mail a combined tax and registration notice for each registered vehicle. The notice will contain the date of the notice, the appraised value of the vehicle, the tax rate of the taxing units, a statement that the appraised value of the motor vehicle may be appealed to the assessor before the taxes and fees become delinquent, and the registration fee imposed by the DMV.
- The Department of Revenue may receive a fee for each combined notice generated for a registered vehicle. The fee must be equal to the actual cost of printing and sending the combined notice and will be subtracted from the taxes and fees remitted to the county or municipal corporation in which the vehicle is registered.

- The property taxes and registration fees must be paid either to the DMV or an agent contracting with the DMV. The taxes and fees do NOT have to be paid in the county that is the situs of the vehicle.
- The DMV or its agent may retain a fee for collecting the county and municipal taxes and fees. This fee must be an amount equal to at least 1/3 of the compensation paid for registration renewals conducted by contract agents under Chapter 20 of the General Statutes. This fee is in addition to the $1.43 that is currently paid to contract agents for each registration renewal.
- The DMV or its agent must provide a weekly financial report containing information required by the Property Tax Division to the taxing units and the DMV to enable them to account for payments received.
- G.S. 105-330.7 is repealed. It will no longer be necessary for the tax collector to send a monthly list to the DMV of classified vehicles on which taxes remain unpaid, because the taxes and registration fees will be paid to the same entity at the same time.
- Interest at the rate of 5% for the remainder of the month following the month in which the registration renewal sticker expired will also accrue on unpaid registration fees on classified motor vehicles. Interest collected on unpaid registration fees will be transferred on a monthly basis to the North Carolina Highway Fund for technology improvements within the DMV. The interest collected on unpaid property taxes will no longer go into the special account in the Treasurer's office but will remain with the counties and municipal corporations.
- G.S. 20-50.3 is repealed. Once the computer system is in operation, the DMV will no longer need to furnish county tax assessors a list of registered vehicles.

Effective when the act becomes law, the Property Tax Division within the Department of Revenue and the DMV shall jointly study and develop a plan for implementing an integrated computer system needed to combine the registration renewal and property tax collection for motor vehicles in the State. The Divisions shall consult with representatives from the following organizations: the North Carolina Association of County Commissioners, the North Carolina League of Municipalities, the North Carolina Association of Assessing Officers, and the North Carolina Tax Collectors Association.

Reporting requirements: The Treasurer must report to the Revenue Laws Study Committee semi-annually, with the first report due by April 30, 2006. The report must contain a detailed description of the moneys transferred to the special account and distributed from the special account.

The Property Tax Division within the Department of Revenue and the DMV must report findings and recommendations of its joint study to the Revenue Laws Study Committee and the Fiscal Research Division by April 30, 2006.

EFFECTIVE DATE: Sections 4 and 8 become effective January 1, 2006. Sections 1, 2, 3, 5, 6, 7 and 9 become effective July 1, 2009 or when the Division of Motor Vehicles and the Department of Revenue certify that the integrated computer system for registration renewal and property tax collection for motor vehicles is in operation, whichever occurs first.

BILL SUMMARY:

House Bill 1779 would modify the collection system for property taxes and registration fees on motor vehicles in the State by combining the payment of these taxes and fees so that both are due at the time the registration fee is due. The implementation date would be July 1, 2009, or sooner if the integrated computer system is in operation. The bill also would increase the interest rate on unpaid property taxes on motor vehicles from 2% in the first month following the date the taxes were due to 5% beginning January 1, 2006. A portion of the interest collected would be transferred to a special account in the Treasurer's Office for the purpose of developing an integrated computer system in DMV that would allow for the combined system. The bill also directs the Property Tax Division within the Department of Revenue and the DMV within the Department of Transportation to jointly study and develop a plan for implementing the integrated computer system.

ASSUMPTIONS AND METHODOLOGY:

HB 1779 requires the payment of vehicle property taxes at the time of vehicle registration renewal. The NC Association of Tax Assessors estimates that HB 1779 would result in collection of approximately $72 million annually in additional motor vehicle property taxes that currently go uncollected. Counties would also experience savings from the elimination of resources devoted to collection of property taxes on motor vehicles, including staff time and mailings for delinquent notices. An administrative fee equal to the cost of preparing and mailing notices will be retained by the Department of Revenue. A second fee for the cost of collection of taxes and fees will be retained by the Division of Motor Vehicles and tag agents. The bill would require significant changes in DMV operations and significant costs for changing DMV computer systems. The full extent of these changes and costs is not currently known.

The assumptions and methodology for the fiscal impacts of the relevant sections of the Proposed Committee Substitute are described below:

Section 2 (Effective July 1, 2009)

G.S. 105-330.2(b) is amended to direct the Department of Revenue, Property Tax Division to adopt a schedule of values, standards, and rules in setting the valuation of motor vehicles that would ensure equity statewide, include local market conditions, and allow adjustments for mileage and the condition of vehicles. At this time the Property Tax Division does not indicate a cost in establishing a statewide schedule of vehicle valuations.

Additionally, G.S. 105-330.2(c) is amended to broaden the memorandum of understanding between the Department of Revenue, Property Tax Division and Department of Transportation to include a procedure for the administration of the listing, appraisal, and assessment of classified motor vehicles. There is no cost anticipated in producing the memorandum. The costs will be incurred in carrying out its provisions.

Section 3 (Effective July 1, 2009)

Section 3 changes the date for which property taxes are due for registered vehicles. Under current law, taxes for unregistered vehicles are due on September 1 following the date the vehicle is required to be listed. Taxes for registered vehicles are due on the first day of the fourth month following the date the registration expires. Under HB 1779, the taxes are due at the time the registration is renewed or applied for. There is no fiscal impact for this section.

Section 4 (Effective January 1, 2006)

Section 4 increases the interest rate applied to unpaid taxes on registered motor vehicles from 2% to 5% for the first month after taxes are due, and ¾% for each month thereafter until the taxes are paid. Based on the amount of delinquent taxes reported in 2004, the amount of revenue that would be generated at a 5% interest rate is $6.7 million. The Proposed Committee Substitute for HB 1779 requires that 60% of the interest from the delinquent taxes be transferred to a special account within the State Treasurer's Office for the purpose of implementing an integrated computer system within the Division of Motor Vehicles. The total amount of interest generated is projected by applying a growth rate of 2% annually. This amount is multiplied by 60% to determine the amount to be transferred to the State Treasurer's Office. The amount for the first year is adjusted by half to reflect the January 1, 2006 effective date.

Section 5 (Effective July 1, 2009)

Section 5 would collect interest on unpaid vehicle registration fees (in addition to unpaid taxes) starting on July 1, 2009 at the rate of 5% the first month and ¾% per month thereafter. No estimate is available on the amount of interest that would be collected under the arrangement in this bill.

Section 6 (Effective July 1, 2009)

Through contractual agreement, the current practice of counties and municipalities is to have a vendor mail vehicle property tax notices to motor vehicle owners. As amended, G.S. 105-330.5 (a) requires the Department of Revenue, Property Tax Division to prepare monthly a combined tax and registration notice for each vehicle containing all county or municipal taxes and fees due on the vehicle as computed by the assessor in the county of registration. G.S. 105-330.5 (b) requires either the Department of Revenue, Property Tax Division or a third party contractor to mail a copy of the notice with appropriate instructions to the motor vehicle owner for payment. To meet the responsibility the statute allows the Property Tax Division to receive a fee for each notice generated for a vehicle registered in a county or municipality from the taxes and fees remitted to the respective county or municipality in which the vehicle is registered. The mailing cost of approximately $1.8 million per year would no longer be incurred by DMV in fiscal year 2009-2010. The Department of Revenue will receive funding deducted from the vehicle tax prior to submission to the counties or municipalities that is equal to the cost of printing and mailing the notices. The current cost for counties to print and mail notices is between 45 and 50 cents per notice. At 50 cents per notice for 7 million mailings, the cost to counties in retained fees would be approximately $3.5 million.

For collecting the tax and registration payments, the collecting authority (generally DMV or the contract agent) may collect a fee of at least one-third of the compensation to contract agents for registration renewals. This would come to $0.48 cents for each transaction. DMV processes approximately 2.4 million transactions per year. The resulting fees at that level of transactions would be approximately $1.2 million per year. The contract agents would receive approximately $1.9 million for collecting the property tax payments on 4.1 million transactions at $0.48 per transaction.

The cost in fees to the counties would be 6,466,508 renewals times $0.48, or $3.1 million.

When the combined property tax/vehicle registration system is operational, the Property Tax Division will follow the same procedure as the counties and municipalities, i.e. to employ the services of a third party contractor to print and mail notices. It is anticipated that the expense to the Division would be in line with the current cost of DOT. In terms of expanded workload, the Property Tax Division would not need additional personnel if the two (2) Property Tax Valuation Specialist positions proposed in the Senate version of SB 622 – 2005 Appropriations Act are authorized by the General Assembly as a result of the conference process.

DMV notes a number of operational changes and related cost increases that can be expected with this bill. These include:

- Rewrite of certain computer systems (See Section 12)
- Increased customer service inquiries, complaints, and visits to DMV and contract agents related to tax collection, requiring additional customer service personnel, IT technicians, call center representatives, etc.
- Greater fiscal monitoring of contract agents related to increased collections.
- More intensive training of DMV and contract agent staff.
- New DMV remittance process.
- Greater costs per transaction for online renewals as the dollar value of each transaction increases due to collection of the property taxes.

The operational details of these changes and the magnitude of the cost increases is not known at this time but would presumably be identified and negotiated as the memorandum of understanding required by Section 2 (c) is completed and before the effective date of July 1, 2009.

Section 8 (Effective January 1, 2006)

Section 8 requires that 60% of the interest collected on unpaid taxes be transferred on a monthly basis to a Combined Motor Vehicle Account at the State Treasurer's Office. The calculation of the estimates for these funds is described in Section 4. The funds will be used at the direction of the NC Association of County Commissioners to develop and implement the computer system at DMV to be used for combined assessment, billing and collection of property taxes on motor vehicles and issuance of registration plates. There is no expected fiscal impact for this section.

Section 9 (Effective July 1, 2009)

The interest on unpaid vehicle registration fees shall be paid to the Highway Fund for technology improvements within the Division of Motor Vehicles. No estimate is available on this amount.

Section 12 (Effective July 1, 2009)

Section 12 requires a study and plan by DOR and DMV, with consultation from interested parties, for an integrated computer system to accomplish the purposes of this bill. DMV states that the bill will require a total rewrite of the State Titling and Registration System (STARS), which would include the interface with the counties, at a cost of over $100 million and the rewriting of related DMV systems at a cost of over $200 million, for a total of $304 million. These related systems are the International Registration Plan/Motor Carrier (IRP/MC) system, the Liability Insurance Tracking and Enforcement System (LITES), DMV Enforcement Systems, the Vehicle Accident Reporting System (CRASH), and the State Automated Driver License System (SADLS).

DMV notes that its major computer systems, STARS and SADLS, are reaching the stage where they will have to be rewritten in the next few years. SADLS, the driver license system, will require major changes to comply with the identification requirements of the REAL ID Act recently passed by Congress. The specific requirements and costs associated with that rewrite are not yet known. SADLS and STARS also need to be better integrated. It follows that whether or not this bill is passed, major DMV computer expenditures can be expected, though perhaps not in the time frame specified in this bill.

Methodology:
The motor vehicle valuation and motor vehicle levy information is the actual information certified by the counties to the Tax Research Division of the NC Department of Revenue on the 2004 TR-1 report

The average state-wide at-par collection rate was determined to be 67% by a ptax listserv request compiled by Forsyth County Tax Assessor/Collector William A.(Pete) Rodda, CAE. This translates to an initial delinquency rate of 33%.

The motor vehicle collection rate for each county is the actual rate reported by the Department of State Treasurer in memorandum #1030 for the fiscal year ending June 30, 2004.

SENATE BILL 612:
Amend Lobbying Laws

BILL ANALYSIS

Committee:	House Finance	**Date:**	July 25, 2005
Introduced by:	Sen. Rand	**Summary by:**	R. Erika Churchill
Version:	PCS to Fifth Edition S612-CSSTf-82 v6		Committee Counsel

SUMMARY: ***The Proposed Committee Substitute for Senate Bill 612 would amend the lobbying laws by including goodwill lobbying, increasing the frequency and details of legislative lobbyists' and lobbyist's principals' reports, and prohibiting a legislator from lobbying during one year following a legislative session to which the legislator was elected or appointed. The bill also creates lobbying laws governing executive branch lobbying.***

CURRENT LAW:

Under current law, a person who is paid to try to influence legislative action (action on a specific bill, resolution, amendment, etc.) is required to register as a lobbyist with the Secretary of State and report at the end of each regular session, expenditures in excess of $25 spent on lobbying legislators. Expenditures spent for the general goodwill of legislators not tied to specific legislative action do not need to be reported, nor do expenditures spent on legislative staff or legislators' family members. There is no limitation on the types or amount of expenditures that at lobbyist can spend on a legislator for lobbying purposes. Every principal who hires the services of a lobbyist also has to file reports on expenditures they made for lobbying, including the amount of compensation paid to lobbyists. Exempt from the lobbying laws are persons who lobby on their own behalf, persons appearing before the General Assembly at the General Assembly's request, elected and appointed local government officials and employees lobbying on behalf of their local governments, State agency legislative liaison personnel, and members of the General Assembly. Violation of this law is punished as a Class 1 misdemeanor.

Currently executive branch lobbying is not regulated.

BILL ANALYSIS:

Section 1 amends the legislative lobbying law in the following ways:

- Includes lobbying the Governor in relation to the Governor's veto.
- Includes developing goodwill as part of the definition of lobbying.
- Permits gifts from lobbyists to their family members who are legislators or legislative employees. Also exempts lawful campaign contributions.
- Defines "expenditure" to include anything of value over $10.
- Expenditures by legislative liaison personnel and State agencies are subject to the same reporting requirements as expenditures by other lobbyists.
- The registration period for a lobbyist is one year, rather than the current two years.
- Increases the frequency of expenditure reports to monthly when the General Assembly is in session, quarterly thereafter.
- Increases the details of lobbying expenditure reports to include the amount, date, a description of the expenditure, name and address of the payee, name of any covered person benefiting from the expenditure (or legislative employee or those person's immediate family members) in each of the following categories:
    - Transportation and lodging
    - Entertainment, food, and beverages
    - Meetings and events
    - Gifts
    - Solicitation of others to lobby
    - Other expenditures

If more than 15 covered persons benefit from the expenditure, the lobbyist may elect to report the approximate number of covered persons benefiting and, with particularity, the basis for their selection. The approximate number of legislative employees and immediate family members shall be reported separately.

The Secretary of State is granted rulemaking authority to facilitate disclosure of expenditures, including the format of the report and additional categories. The rules are also to protect the address of payees under a Chapter 50B protective order or participating in the Address Confidentiality Program.

- The lobbyist's principal must also report, in addition to the expenditures reported by the lobbyist, the compensation paid or agreed to be paid to each lobbyist.
- Prohibits a legislator or former legislator from being employed as a legislative or executive branch lobbyist within 1 year after the expiration of the term for which the legislator was elected or appointed to serve.
- Prohibits the Governor or Council of State member or head of a cabinet department from being employed as a legislative or executive branch lobbyist within 1 year after separation from employment or leaving office, whichever is later.
- Prohibits a lobbyist from serving as a campaign manager or campaign treasurer for a legislative campaign.
- Prohibits a lobbyist from being appointed to body created under State law with regulatory authority over the activities of a person that the lobbyist represented within one year of end of that representation.
- Prohibits a lobbyist from allowing a covered person, legislative employee, or that person's immediate family member to use the lobbyist's cash or credit for the purpose of lobbying without the lobbyist being present at the time of the expenditure.
- An additional exception to the registration and reporting law is made for an employee who represents an employer's interest before the General Assembly for no more than 3 hours in a quarter, and who does not spend money on a legislator, legislative employee or an immediate family member that would otherwise be required to be reported by a registered lobbyist.
- Requires expenditures of $200 made for the purpose of lobbying from persons not required to register and report as lobbyists or lobbyist's principals or more to be reported. If the person giving the gift is in North Carolina, that person shall make the report. If the person giving the gift is outside North Carolina, the person accepting the gift shall make the report. Certain exceptions apply.
- Requires scholarships valued over $200 to be reported.
- Allows for a civil fine up to $5,000 per violation in addition to any criminal penalties.

Section 2 creates a new article to regulate executive branch lobbying much the same as legislative lobbying is regulated with the following differences:

- Lobbying is defined as the influencing of "executive action" which is defined as being the consideration of a rule, regulation, executive order, policy, resolution, contract, request for proposal, nomination or appointment by the Governor, member of the Council of State, heads of the cabinet, and the Board of Governors and university presidents.
- Executive branch lobbying does not include action by an attorney.
- Lobbyist and lobbyist's principals' reports are due every 6 months.
- Prohibits the Governor or a member of the Council of State from acting as a legislative or executive branch lobbyist during the time of the biennial legislative session in which the person served in office.

Section 3 requires the Secretary of State to create a "No Gifts" registry.

Section 4 appropriates $200,000 for the '05-'06 fiscal year to the Secretary of State for personnel and expenses to implement the act.

Section 5 appropriates $112,000 for the '05-'06 fiscal year to the Secretary of State for the implementation of electronic filing of reports required by the act.

EFFECTIVE DATE: The appropriations are effective July 1, 2005. The remainder of the act is effective January 1, 2007.

BILL SUMMARY: (in pertinent part):

This bill amends the lobbying laws that currently govern legislative lobbying to reduce the registration period from two years to one year and to reduce the fee from $200 per registration to $100 per registration. Under this bill, each lobbyist would be required to file a registration statement for each of its principals. However, the bill would eliminate the requirement that the principal file a separate registration statement for each of its lobbyists. The bill would add new Article 4C to Chapter 147 of the General Statutes to govern executive branch lobbying. The new Article would impose the same registration requirement and fee structure for executive lobbyists and principal registrations as would be provided for the legislative lobbying. The bill, however, would reduce the registration fee to $75 each if a lobbyist registers as a legislative lobbyist and executive lobbyist for the same principal. The bill would require all fees to go to a Lobbyist Registration Fund to be used to offset the cost of administering the Lobbyist Registration Laws.

The bill increases the frequency with which expenditure reports must be filed and it would require the Department of the Secretary of State to perform systematic reviews of the expenditure reports. The Department would also be required to implement a system that allows for electronic filings.

The bill also provides that any willful violation of Articles 9A or 4C of Chapters 120 and 147, respectively, would constitute a Class 1 misdemeanor. Among the activities prohibited in relation to executive or legislative lobbying would be failure to abide by expense and other reporting requirements.

ASSUMPTIONS AND METHODOLOGY:

Fees:

The bill would amend the registration period and registration fees for lobbyists who engage in legislative lobbying. It would also create lobbying laws that govern executive branch lobbying.

Under current law a lobbyist is required to file a separate registration statement with the Secretary of State for each lobbyist's principal before engaging in legislative lobbying. A fee of $200 per registration statement is due at the time of registration. The registration is effective from the date of filing until January 1 of the following ***odd numbered*** year. Thus, it essentially covers a legislative session, which is two years. This bill would make the registration effective from the date of filing until January 1 of the following year, thereby reducing the registration period for a legislative lobbyist from two years to one year. This bill would also require an executive lobbyist to file a registration statement with the Secretary of State for each lobbyist's principal before engaging in executive branch lobbying. The registration period for an executive lobbyist would also be for one year-effective from the date of filing until January 1 of the following year. Under this bill, a $100 fee per registration statement is due at the time of each legislative lobbyist registration, except that if the legislative lobbyist is also registering as an executive lobbyist for the same lobbyist's principal, the registration fee is $75. Similarly, a $100 fee per registration statement is due at the time of each executive lobbyist registration except that if the executive lobbyist is also registering as a legislative lobbyist for the same lobbyist's principal, the registration fee is $75.

Also, under current law, a separate registration, together with a separate registration fee of $200 is required for each lobbyist's principal for which a person acts as a legislative lobbyist. The bill would amend the existing law to require a lobbyist's principal to register only one time rather than once for each lobbyist that works for the principal. The registration fee for the lobbyist's principal is $100 annually.

The bill would also require all fees to be deposited into a Lobbyist Registration Fund to be used by the Secretary of State to pay the cost incurred in administering and enforcing Article 9A of Chapter 120 and Article 4C of Chapter 147. This requirement of the bill would redirect the fees from the General Fund where lobbyists' registration fees are currently deposited.

Based on information provided by the Secretary of State, for the 2004-05 fiscal year, there were approximately 1,255 lobbyist's registrations for the 2005 Session of the General Assembly. In addition to the lobbyist's registrations, there were approximately 673 individual lobbyist's principals. Combining the two groups, Fiscal Research estimates that there would be 1,928 registrations annually. Please note that under current law, a registration can cover both the odd year (Long Session) and the even year (Short Session) of a two-year Legislative Session. Changing the registration from two years to one year, as this bill would, may result in fewer registrations for the even years. However, we have no data upon which to determine the number, if any, of lobbyists and principals that may not register for the even years. Also, there is some data that indicates that there are lobbyists and principals that register for the second year only. Therefore, considering that, under this bill, some registrations will only be for one year of the two-year Legislative Session, our estimate will assume that the number of registrations will remain constant.

This bill would also require executive lobbyists and principals to register. Presently, there is no data upon which to estimate the number of executive lobbyists and principals that may be required to register with the Secretary of State. Fiscal Research, however, believes that it is reasonable to assume that the executive lobbyists and principals will be a subset of the lobbyists and principals that register as legislative lobbyists. Therefore, the 1,928 lobbyists and principals would pay a $100 fee to register as legislative lobbyists/principals ***or*** as executive lobbyists/principals or they would pay $75 to register as a legislative lobbyist/principal ***and*** another $75 to register an executive lobbyist/principal. Fiscal Research therefore estimates that the annual revenue would range from $192,800 (1,928 registrations * $100 -- assuming all 1,928 lobbyists and principals registered for legislative or executive lobbying) to $289,200 (1,928 registrations * $150 -- assuming all 1,928 lobbyists and principals registered for both legislative lobbying and executive lobbying).

Because the bill requires the fees to be deposited to the Lobbyist Registration Fund, there would be a loss of revenue to the General Fund. Currently, there are 2,33 registration relationships for the odd years and another 480 for the even years. Based on these numbers the projected revenue loss to the General Fund is $466,000 in the odd years and $96,000 in the even years.

Operating Expenses – Secretary of State

Under current law, each lobbyist and principal must file two expense reports each year during the Legislative Session for which they have registered. The first report is due within 60 days after the last day of the regular session. The second is a supplemental report that captures expenditures

made after the last day of the regular session but during the calendar year. This bill would require each lobbyist to file monthly expenditure reports with respect to each of its principals while the General Assembly was in regular session and quarterly thereafter. It would also require each principal to file monthly expenditure reports while the General Assembly was in regular session and quarterly thereafter. Executive lobbyists and principals and well as legislative liaisons would be subject to the same reporting requirement.

Under this bill, nine reports would be required in each odd year and six in each even year for each of the 1,928 legislative lobbyist and principal registrations. Four additional reports would be required annually for those who were also registered as executive lobbyists and/or principals. Currently there are approximately 89 legislative liaisons for 52 State entities. This bill would require the 89 liaisons and the 52 State entities that they represent to file nine reports in each odd year and six reports in the even years. Based on this data, Fiscal Research estimates that the Secretary of State will receive between 12,414 and 20,126 reports in each even year and between 18,621 and 26,333 reports in each odd year. Under the bill, the reports could be filed manually or electronically.

The Department of the Secretary of State estimates that it would need 18 additional positions to fulfill the requirements of this bill. This estimates includes funding for the salaries, benefits and operating costs for a Lobbyist Director (grade 78), an Assistant Director/Auditor Supervisor (grade 73), 7 Investigator/Auditors (grade 71), an Assistant Registrar (grade 68), and 8 Administrative Assistant Is (grade 63). The Department believes that this staffing level would allow it to properly oversee and administer the Lobbyist Section, to register and index the legislative and executive registrations and expenditure reports, to respond to public inquiries, to post lobbyist records for public inspection, to publish the lobbyist directories, to perform systematic audits at a rate of 25% of the reports filed each year, and to perform investigatory audits as warranted by complaints and the results of the systematic audits.

The Department also provided an alternative estimate that would require 9 additional positions (instead of 18). The alternative estimate includes funding for the salaries, benefits, and operating costs for a Lobbyist Director (grade 78), an Assistant Director/Auditor Supervisor (grade 73), 1 Investigator/Auditors (grade 71) instead of 7 as included in the Departments preferred estimated,

an Assistant Registrar (grade 68), and 5 Administrative Assistant Is (grade 63) instead of 8 as included in the preferred estimate. With this staffing level, the Department estimates that it could only perform audits as driven by complaints and other indications of possible lobbying misconduct versus performing systematic audits.

The bill would require the Department to perform systematic reviews of the expenditure reports to ensure complete and timely disclosure of expenditures. The Fiscal Research Division believes that the requirements imposed upon the Secretary of State by this bill to review expenditures reports, and make them available for public inspection are very similar to the requirements imposed upon the Campaign Reporting Office of the State Board of Elections by the campaign finance laws prescribed in Articles 22A, 22B, 22C and 22D of Chapter 163 of the North Carolina General Statutes. The Campaign Reporting Office is responsible for the manual auditing of the campaign finance reports filed by over 2,000 political committees, providing public access to the reports, providing assistance to the committees and the county elections staff on the application of the campaign finance laws, maintaining a campaign finance disclosure system, and corresponding with the political committees and county elections staff to ensure timely and accurate compliance with the laws. The Campaign Reporting Office receives at least 2 reports from each political committee in an off-election year and at least 4 reports from each during an election years. In addition, it also receives reports of independent expenditures and 48-hour reports as required by statute. There is 100% auditing of these reports that include adjusting accounting discrepancies, cross-checking data, information validity assurance, and correspondence with the committees based on the audit results. The Office has a staff of 5 permanent full-time positions and 3.25 temporary positions. The 5 permanent staff include a Deputy Director for Campaign Reporting (grade 75), 3 grade 65 level Administrative Assistant IIs who are primarily responsible for the auditing and education responsibilities of the office, and a grade 57 level Office Assistant III position who provides support to the professional staff. The temporary staff employees assist with scanning reports for public inspection and data entry of reports that are filed manually.

Because of the similarities between the requirements imposed upon the Secretary of State by this bill and the existing requirements imposed upon the State Board of Elections' Campaign Reporting Office, Fiscal Research believes that the staffing level and structure that is in place for the Campaign Reporting Office is a reasonable one for the Secretary of State's Lobbyist Section. We therefore estimate that the Secretary of State would need 9 additional positions to fulfill the requirements of this bill. We believe, however, that the 9 positions should include 5 grade level 65 Administrative Assistant II, and 3 grade level 61 Processing Assistant IVs, and 1 grade level 75 Lobbyist Director. The estimated cost for the salaries, benefits, and operating cost for the 9 positions is estimated to be $504,701 for fiscal year 2006-07 and $391,875 for subsequent fiscal years. Se the summary that follows.

Summary of FRD's Estimate of Additional Staffing Needs

	FY 2006-07	FY 2007-08
SPA - Reg Salaries (9 positions)	$245,109	$245,109
Social Security Contributions	$18,751	$18,751
Retirement	$14,253	$14,253
Insurance	$30,888	$30,888
Transportation	$6,000	$6,000
Employee Education & Training	$7,200	$7,200
Telephone Service	$9,000	$1,674
Office Supplies	$9,000	$9,000
Postage	$2,500	$5,000
Rent/Lease-Building/Offices	$54,000	$54,000
Total Recurring	$396,701	$391,875
Office Furniture	$31,100	$0
Office Equipment	$56,200	$0
Personal Computers & Printers	$20,700	$0
Total Non-recurring	$108,000	

The bill also requires the Secretary of State to implement a system that would allow for the electronic filing of all lobbyists' and lobbyists' principals' reports and to provide public access via the Internet to all of the filings. The Secretary of State believes that a more advanced computer program than the one that currently is in place for electronic access to the filings and for the searchable database would be required. To meet the requirements of the bill, the Department would develop a Knowledge Base System for Lobbyist that parallels in-house systems that it has developed for its Uniform Commercial Code and Notary systems. The Departments estimates that the initial cost of developing the system would be $150,045. Recurring maintenance cost would be approximately $12,785 each year thereafter. Fiscal Research believes this approach to developing the system is reasonable.

Civil Penalties

As with existing law, the bill would allow the Secretary of State to impose a late filing fee for each day that a required report is late. The late filing fee is equivalent to the fee set forth in G.S. 163-278.34(a)(2), which is currently $50 per day up to a maximum of $500. Fiscal Research believe that the frequency of untimely filed reports will increase as a result of the increase in the frequency with which the reports must be filed. However, we have no data upon which to estimate the amount of late filing fees that may be imposed.

The bill would also allow the Secretary of State to levy civil penalties in addition to the criminal penalties discussed below for willful false or incomplete reporting up to $5,000. Again, Fiscal Research has no data upon which to estimate the extent to which civil penalties might be levied. We note, however, that any late filing fees or civil penalties would be deposited to the Civil Penalties Fund for the benefit of the public education system.

Criminal Penalties:

This bill would expand the scope of an existing Class 1 misdemeanor for violations related to legislative lobbying and create a new Class 1 misdemeanor for violations related to executive lobbying and would therefore be expected to result in additional charges and convictions. Due to the lack of an Administrative Office of the Courts (AOC) offense code for violations of Chapter 120, no historical data is available with respect to the numbers of charges and convictions for the existing offenses. However, the lack of an offense code is some indication that the existing offenses are infrequently charged and rarely result in convictions. As such, few additional charges and convictions would be expected due to this bill, and no substantial impact is anticipated to result from the criminal penalties in this legislation.

Department of Correction

The Sentencing and Policy Advisory Commission prepares inmate population projections annually. The projections used for incarceration fiscal notes are based on January 2005 projections. These projections are based on historical information on incarceration and release rates under Structured Sentencing, crime rate forecasts by a technical advisory group, probation and revocation rates, and the decline (parole and maxouts) of the stock prison population sentenced under previous sentencing acts. Based on the most recent population projections and estimated available prison bed capacity, *there are no surplus prison beds available for the five-year fiscal note horizon and beyond.*

- In FY 2003-04, 81 percent of Class 1 misdemeanants received non-active sentences. For those offenders sentenced to supervised probation, the Division of Community Corrections (DCC) would incur costs of $1.87 per offender per day. Offenders sentenced to community service would cost $0.67 per offender per day, and offenders given unsupervised probation would not impact DCC.

- The remaining 19 percent of Class 1 misdemeanors resulted in active sentences and the average estimated time served was 31 days.

- Offenders with active sentences of less than ninety days are housed in county jails, and DOC reimburses counties for housing offenders sentenced to between thirty and ninety days at a rate of $18 per day per offender.

- Because most Class 1 misdemeanants serving active time as a result of this bill would be housed in county jails, this legislation is not expected to significantly impact prison population.

Judicial Branch

For most criminal penalty bills, the Administrative Office of the Courts provides Fiscal Research with an analysis of the fiscal impact of the specific bill. For these bills, fiscal impact is typically based on the assumption that court time will increase due to an expected increase in trials and a corresponding increase in the hours of work for judges, clerks and prosecutors. This increased court time is also expected to result in greater expenditures for jury fees and indigent defense.

Due to the lack of an offense code for current violations of Chapter 120—an indication that there are presently few charges for violations related to legislative lobbying—AOC does not anticipate a

substantial number of new charges to result from this bill. Based on the costs of time in court, attorney preparation time, and indigent defense, the average estimated cost to process one Class 1 misdemeanor via trial is $3,224 per trial and $284 per guilty plea. The trial cost includes an estimated $2,627 in jury fees, costs of time in court, and attorney costs and an additional $2,373 in indigent defense. Based on prior-year data, the majority of any new Class 1 misdemeanor charges are likely to be settled by plea.

HOUSE BILL 237:
Revise Mortgage Lending Act

BILL ANALYSIS

Committee:	House Finance	**Date:**	July 25, 2005
Introduced by:	Reps. Coates, Saunders	**Summary by:**	Karen Cochrane-Brown
Version:	Second Edition		Staff Attorney

SUMMARY: House Bill 237 amends the Mortgage Lending Act to authorize the licensure of limited loan officers that are employed by affiliated mortgage bankers. The bill also authorizes the Commissioner of Banks to allow certain loan officer applicants to act as a loan officer during the pendency of their application and provides that exclusive mortgage brokers shall have branch managers to the same extent as other mortgage brokers or bankers. Finally, the bill provides that the Commissioner may discipline a licensee or applicant for falsely certifying attendance or completion of a continuing education course.

CURRENT LAW:

The Mortgage Lending Act, which was enacted in 2001, is a licensing and regulatory statute for the mortgage lending industry. It replaced a registration law, which did not provide for uniform standards, education or experience, and gave the Commissioner only limited authority to enforce the prohibitions.

Under the current law, mortgage bankers, mortgage brokers, and loan officers are required to be licensed by the Commissioner of Banks before engaging in the business of mortgage lending or mortgage brokering, unless exempt. The law exempts from licensing depository institutions (banks, wholly owned subsidiaries of banks, savings and loans, credit unions), life insurance companies, governmental lenders, nonprofits that make mortgage loans, persons that make no more than five loans a year, and real estate brokers who do not receive compensation for making loans.

A loan officer, under current law, is a compensated employee who accepts or offers to accept applications for mortgage loans. To be licensed, a loan officer must be 18 years of age and have completed within the previous three years an approved mortgage lending fundamentals course. The application and renewal fee for loan officers is $50.00.

The Commissioner of Banks has broad enforcement powers, including the power to revoke licenses and impose civil fines for violations of the law. Engaging in the mortgage banking or brokering business without a license is a Class I felony.

BILL ANALYSIS:

House Bill 237 makes several changes to the Mortgage Lending Act.

Section 1 creates several new definitions, including:

- Affiliate, means any company that controls or is controlled by another person. For purposes of the definition, the term control means ownership of all of the voting stock or comparable interest of the controlled person.
- Affiliated mortgage banker, means a licensed mortgage banker that meets one of two sets of criteria. The first set of criteria relate to (1) licensure or supervision by other jurisdictions or under a compact or agreement authorized by the Commissioner, (2) the number of licensed

employees, and (3) the licensee's net worth. The second set of criteria relate to (1) whether the licensee is a subsidiary of a company regulated by the Federal Reserve Board or the Office of Thrift Supervision, and (2) the licensee's net worth.

- Limited loan officer, means an employee of an affiliated mortgage banker that directly solicits, negotiates, offers or makes commitments for mortgage loans.
- Parent, means the person that controls an affiliated mortgage banker, as control is defined under the term affiliate.

Section 2 amends the law related to required licenses under the Mortgage Lending Act to include a requirement that limited loan officers be licensed.

This section also adds new language allowing certain loan officer applicants to act as a loan officer while their application for licensure is pending. In order to qualify for this treatment, the applicant must (1) have had no negative action taken on an application or license in the preceding five years, (2) be employed by a licensed mortgage broker or lender that certifies that the applicant is qualified and that undertakes to be responsible for the acts of the applicant, and (3) currently be or have been employed as a loan officer within the previous six months by an exempt depository institution. The Commissioner can deny or suspend this treatment if the Commissioner finds that the certification and undertaking have not been made in good faith.

Section 3 excludes experience as a limited loan officer from the kinds of experience required to qualify for licensure as a mortgage broker or mortgage banker.

Section 4 subjects limited loan officers to the same $50.00 fee requirement as currently applies to loan officers.

Section 5 establishes licensing requirements for limited loan officers and the affiliated mortgage bankers that employ them. A limited loan officer must be at least 18 and must work exclusively for an affiliated mortgage banker. An affiliated mortgage banker must notify the Commissioner when it hires a limited loan officer and provide any required information. It must also certify that the limited loan officer is qualified and agree to be liable for any claims and damages, including punitive damages arising from the limited loan officer's lending activities. The limited loan officer may act provisionally during the pendency of an application if the employer makes a written undertaking to be responsible for the applicant's activities. The Commissioner must approve the employer's systems, programs and procedures for checking, training and testing a limited loan officer. Except as provided in this section, a limited loan officer is subject to all of the other requirements applied to loan officers under the Act. Any person whose license is revoked, suspended or barred under this section is prohibited from participating in the mortgage lending business in this State.

Section 6 allows affiliated mortgage bankers to designate a branch manager who does not meet the experience requirement if it certifies that the person is competent to perform the duties of a branch manager.

Section 7 adds a new item to the list of actions that the Commissioner may use as the basis for disciplining a licensee or applicant. The Commissioner may take action against a licensee or applicant who has falsely certified attendance or completion of hours at a continuing education course.

EFFECTIVE DATE: The act is effective when it becomes law.

d. Violates a rule of the Commission implementing this Article.

(2) For each willful action or failure to act for which a penalty may be assessed under this subsection, the Commission may consider each day the action or inaction continues after notice is given of the violation as a separate violation; a separate penalty may be assessed for each such separate violation.

(3) ~~The Commission may assess the penalties provided for in this subsection.~~ The Commission shall notify a person who is assessed a penalty or investigative costs by registered or certified mail. The notice shall state the reasons for the penalty. A person may contest the assessment of a penalty or investigative costs by filing a petition for a contested case under G.S. 150B-23 within 20 days after receiving the notice of assessment. If a person fails to pay ~~a penalty,~~ any civil penalty or investigative cost assessed under this subsection, the Commission shall refer the matter to the Attorney General for collection. An action to collect a penalty must be filed within three years after the date the final agency decision was served on the violator.

(4) In determining the amount of the ~~penalty~~ civil penalty, the Commission shall consider ~~the degree and extent of harm caused by the violation and the cost of rectifying the damage.~~the following factors:

a. The degree and extent of harm, including, but not limited to, harm to the natural resources of the State, to the public health, or to private property resulting from the violation;
b. The duration and gravity of the violation;
c. The effect on water quality, coastal resources, or public trust uses;
d. The cost of rectifying the damage;
e. The amount of money saved by noncompliance;
f. Whether the violation was committed willfully or intentionally;

g. The prior record of the violator in complying or failing to comply with programs over which the Commission has regulatory authority; and

h. The cost to the State of the enforcement procedures.

(4a) The Commission may also assess a person who is assessed a civil penalty under this subsection the reasonable costs of any investigation, inspection, or monitoring that results in the assessment of the civil penalty. For a minor development violation, the amount of an assessment of investigative costs shall not exceed one-half of the amount of the civil penalty assessed or one thousand dollars ($1,000), whichever is less. For a major development violation, the amount of an assessment of investigative costs shall not exceed one-half of the amount of the civil penalty assessed or two thousand five hundred dollars ($2,500), whichever is less.

(5) The clear proceeds of penalties assessed pursuant to this subsection shall be remitted to the Civil Penalty and Forfeiture Fund in accordance with G.S. 115C-457.2."

SECTION 3. G.S. 130A-18(a) reads as rewritten:

"(a) If a person ~~shall violate~~ violates any provision of this ~~Chapter or the rules~~ Chapter, any rule adopted by the ~~Commission or rules~~ Commission, any rule adopted by a local board of ~~health~~ health, any order issued pursuant to this Chapter, or any order issued pursuant to rules adopted by the Commission, the Secretary or a local health director may institute an action for injunctive relief, irrespective of all other remedies at law, in the superior court of the county where the violation occurred or where a defendant resides."

SECTION 4. G.S. 130A-22(a) reads as rewritten:

"(a) The Secretary of Environment and Natural Resources may impose an administrative penalty on a person who violates Article 9 of this Chapter, rules adopted by the Commission pursuant to Article 9, or any order issued under Article 9. Each day of a continuing violation shall constitute a separate violation. The penalty shall not exceed ~~five~~ ten thousand dollars ~~($5,000)~~($10,000) per day in the case of a violation involving nonhazardous waste. The penalty shall not exceed ~~twenty-five thousand dollars ($25,000)~~ twenty-seven thousand five hundred dollars ($27,500) per day in the case of a ~~first~~ violation involving hazardous ~~waste~~ waste, as defined in G.S. ~~130A-290 or~~ 130A-290, or for a failure to make a determination whether a solid waste is a hazardous waste. The penalty shall not exceed twenty-five thousand dollars ($25,000) per day for a first violation involving the disposal of medical waste as defined in G.S. 130A-290 in or upon water in a manner that results in medical waste entering waters or lands of the State; and shall not exceed fifty thousand dollars ($50,000) per day for a second or further violation involving the disposal of medical waste as defined in G.S. 130A-290 in or upon water in a manner that results in medical waste entering waters or lands of the State. The penalty shall not exceed twenty-five thousand dollars ($25,000) per day for a violation involving a voluntary remedial action implemented pursuant to G.S. 130A-310.9(c) or a violation of the rules adopted pursuant to

G.S. 130A-310.12(b). If a person fails to pay a civil penalty within 60 days after the final agency decision or court order has been served on the violator, the Secretary of Environment and Natural Resources shall request the Attorney General to institute a civil action in the superior court of any county in which the violator resides or has his or its principal place of business to recover the amount of the assessment. Such civil actions must be filed within three years of the date the final agency decision or court order was served on the violator."

SECTION 5. G.S. 130A-22(c) reads as rewritten:

"(c) The Secretary of Environment and Natural Resources may impose an administrative penalty on a person who willfully violates Article 11 of this Chapter, rules adopted by the Commission pursuant to Article 11 or any condition imposed upon a permit issued under Article 11. An administrative penalty may not be imposed upon a person who establishes that neither the site nor the system may be improved or a new system installed so as to comply with Article 11 of this Chapter. Each day of a continuing violation shall constitute a separate violation. The penalty shall not exceed ~~fifty dollars ($50.00)~~ one hundred dollars ($100.00) per day per violation in the case of a wastewater collection, treatment and disposal system with a design daily flow of no more than 480 gallons or in the case of any system serving a single one-family dwelling. The penalty shall not exceed ~~three hundred dollars ($300.00)~~ five thousand dollars ($5,000) per day per violation in the case of a wastewater collection, treatment and disposal system with a design daily flow of more than 480 gallons which does not serve a single one-family dwelling."

SECTION 6. G.S. 130A-26.2 reads as rewritten:

"**§ 130A-26.2. Penalty for false reporting under Article ~~9~~9 and Article 10.**

The maximum fine that may be imposed for an offense under this section is ten thousand dollars ($10,000)."

SECTION 7. Part 1 of Article 21 of Chapter 143 of the General Statutes is amended by adding a new section to read:

"**§ 143-215.6F. Enforcement procedures: administrative orders.**

(a) The Secretary may issue an administrative order directing any person who has committed a violation described in G.S. 143-215.6A to do any of the following:

(1) Attend an environmental education course.

(2) Publish notice of the violation.

(3) Perform community service related to protection or restoration of the environment and natural resources.

(b) The Secretary may issue an administrative order pursuant to this section in addition to any other action or proceeding under this Part.

(c) The Secretary shall serve a copy of the administrative order and the specific reasons for issuing the administrative order by registered or certified mail, or by any means authorized by G.S. 1A-1, Rule 4. A contested case petition shall be filed within 30 days of receipt of the order.

(d) A person may comply with an administrative order issued pursuant to this section by attending an environmental education or community service program offered by the Department or a program certified by the Department. The Secretary may establish minimum standards for certification of environmental education or community service programs.

(e) The Department may charge a fee, not to exceed one hundred dollars ($100.00), to compensate for the reasonable cost of attending any environmental education course or community service program offered by the Department.

(f) The Secretary may assess a civil penalty for failure to comply with an order issued pursuant to this section as provided in G.S. 143-215.6A."

SECTION 8. The Department of Environment and Natural Resources, in consultation with the North Carolina School Boards Association, shall develop and implement a pilot program to begin no later than October 1, 2005, and to expire April 1, 2008, to determine the amount and retain the actual costs of collecting civil penalties, fines, and forfeitures assessed by the Department and by commissions organized under the Department to improve the assessment and collection of civil penalties, fines, and forfeitures. The clear proceeds of all civil penalties, fines, and forfeitures that are collected by the Department and payable to the counties for the support of public schools pursuant to Article IX, Section 7 of the Constitution of North Carolina shall be remitted to the Office of State Budget and Management by the officer having custody of the funds within 10 days after the close of the calendar month in which the funds were received or collected. During this pilot program, the clear proceeds of all civil penalties, fines, and forfeitures collected by the Department shall be diminished only by the actual costs of collecting the civil penalties, fines, and forfeitures. Actual costs may include time spent on collection-related matters by personnel of the Department, legal services related to collection provided by the Department of Justice, collection agency fees, and court costs. The Department shall not enter into a contract that would require the Department to pay more than twenty percent (20%) of the civil penalty, fine, or forfeiture amount to a collection agency as a fee for collection of civil penalties, fines, and forfeitures. Additional items may be included in costs by agreement of the Department and the School Boards Association. Costs shall be itemized in an accounting to be provided when the funds are remitted by the Department.

HOUSE BILL 1283:
Improve Environmental Enforcement

BILL ANALYSIS

Committee:	House Finance	**Date:**	July 21, 2005
Introduced by:	Rep. Culpepper	**Summary by:**	Tim Dodge
Version:	PCS to First Edition H1283-CSRTf-43		Legislative Analyst

SUMMARY: ***The Proposed Committee Substitute (PCS) for House Bill 1283 would make the following changes to statutes and programs related to environmental enforcement:***

(1) Increase the amount of civil penalties that may be assessed for violations of the Sedimentation Pollution Control Act of 1973, minor and major development violations under the Coastal Area Management Act of 1974 (CAMA), and violations of other environmental statutes.

(2) Authorize the assessment of reasonable costs of any investigation, inspection, or monitoring that results in the imposition of a civil penalty for major and minor development violations under CAMA.

(3) Add a penalty for false reporting under the North Carolina Drinking Water Act.

(4) Increase the maximum amounts of certain administrative penalties that may be assessed for violations of Articles 9 (Solid Waste Management) and 11 (Wastewater Systems) of Chapter 130A of the General Statutes.

(5) Authorize the Secretary of Environment and Natural Resources (Secretary) to issue an administrative order directing any person who has committed certain violations to do any of the following: (i) attend an environmental education course, (ii) publish notice of the violation, or (iii) perform community service related to protection or restoration of the environment and natural resources.

The PCS would also direct the Department of Environment and Natural Resources (Department) to implement a pilot program to determine the actual cost of collecting civil penalties, civil forfeitures and civil fines assessed by the Department and payable to the County School Fund or authorized to be placed in a State fund pursuant to Article IX of the Constitution of North Carolina and G.S. 115C-457.2. During the pilot program, the clear proceeds of all civil penalties, civil forfeitures, and civil fines remitted by the Department to the Office of State Budget and Management would be diminished only by the actual costs of collection.

The PCS would become effective 1 December 2005 and apply to violations and offenses committed on or after that date.

BILL ANALYSIS:

Section 1 adds a civil penalty of up to $10,000 for the first day of a violation of the Sedimentation Pollution Control Act of 1973 or ordinance, rule, or order adopted pursuant to the Act.

Section 2 increases the civil penalty that may be assessed for a minor development violation under CAMA from $250 to $1,000, and increase the civil penalty that may be assessed for a major development violation under the Act from $2,500 to $10,000.

In addition, the section adds an authorization to assess reasonable costs of any investigation, inspection, or monitoring that results in the assessment of a civil penalty for minor and major development violations under CAMA. The amount of investigative costs assessed for a minor development violation shall not exceed one-half of the amount of civil penalty assessed for the violation or $1,000, whichever is less. The amount of investigative costs assessed for a major development violation shall not exceed one-half of the amount of civil penalty assessed for the violation or $2,500, whichever is less.

Section 3 provides that the Secretary or a local health director may institute an action for injunctive relief against a person who violates an order issued pursuant to Chapter 130A of the General Statutes, in addition to existing authority under the Statute to institute actions for injunctive relief for violations of the Chapter, or any rule adopted by the Commission for Health Services or a local board of health.

Section 4 increases the maximum amounts of certain administrative penalties that may be assessed for violations of Article 9 of Chapter 130A of the General Statutes (Solid Waste Management). The maximum penalty for a violation involving nonhazardous waste is increased from $5,000 to $10,000 per day. The PCS would increase the maximum penalty for a violation involving hazardous waste from $25,000 to $32,500 per day. The penalty is also made applicable to failure to make a determination whether a solid waste is a hazardous waste.

Section 5 increases maximum amounts of certain administrative penalties that may be assessed for violations of Article 11 of Chapter 130A of the General Statutes (Wastewater Systems). The maximum penalty for a violation involving a wastewater collection, treatment, and disposal system with a design daily flow of no more than 480 gallons or in the case of any system serving a single one-family dwelling is increased from $50 to $100 per day per violation, and is increased from $300 to $5,000 per day per violation for systems with a design daily flow of more than 480 gallons which does not serve a single one-family dwelling.

Section 6 authorizes the Secretary to assess reasonable costs of any investigation, inspection, or monitoring that results in the assessment of a civil penalty for violations of Article 11 of Chapter 130A of the General Statutes (Wastewater Systems).

Section 7 adds a penalty for false reporting under Article 10 of Chapter 130A of the General Statutes (North Carolina Drinking Water Act), in addition to existing authority under the statute to impose a penalty for false reporting under Article 9 of the Chapter. A person who violates this provision would be guilty of a Class 2 misdemeanor and may be assessed a fine not to $10,000. A Class 2 misdemeanor is punishable by a minimum of 1 day of community punishment up to a maximum of 60 days active punishment, depending on the misdemeanant's record for prior convictions.

Section 8 authorizes the Secretary to issue an administrative order directing any person who has committed certain violations to do any of the following:

- Attend an environmental education course.
- Publish notice of the violation.
- Perform community service related to protection or restoration of the environment and natural resources.

The Department may charge a fee, not to exceed $100, to compensate for the reasonable cost of attending any environmental education course or community service program offered by the Department.

Section 9 directs the Department to implement a pilot program to begin no later than 1 October 2005 and terminate on 1 April 2008 to determine the actual cost of collecting civil penalties, civil forfeitures, and civil fines assessed by the Department and payable to the County School Fund or authorized to be placed in a State fund pursuant to Article IX of the Constitution of North Carolina and G.S. 115C-457.2. The purpose of the pilot is to determine the extent to which the actual cost of collection should be retained by the Department in order to efficiently collect civil penalties, civil forfeitures, and civil fines. During the pilot program, the clear proceeds of all civil penalties, civil forfeitures, and civil fines remitted by the Department to the Office of State Budget and Management would be diminished only by the actual costs of collection. The actual cost of collection may include time spent on collection-related matters by Department personnel, legal services provided by the Department of Justice related to collection, collection agency fees, and any additional costs that may be included by agreement between the Department and the North Carolina School Boards Association.

Section 10 directs the Department to make an interim report on its findings and recommendations from the pilot on or before 1 March 2007 and make a final report on or before 1 April 2008 to the Environmental Review Commission, the Fiscal Research Division of the General Assembly, and the North Carolina School Boards Association.

Section 11 provides that, with the exception of the pilot program established in sections 9 and 10, the PCS would become effective 1 December 2005 and apply to violations and offenses committed on or after that date. The pilot program established in sections 9 and 10 would become effective when the PCS becomes law.

EFFECTIVE DATE: All provisions except pilot program are effective for violations and offenses committed on or after December 1, 2005.

BILL SUMMARY:

Makes changes regarding environmental penalties that may be assessed for violations of the Sedimentation Pollution Control Act, the Coastal Area Management Act, Solid Waste Management law, and Wastewater Systems law. Authorizes the Secretary of the Department of Environment and Natural Resources (DENR) to issue administrative orders directing

environmental violators to participate in certain remedial activities. Directs DENR to create a pilot program focused on determining and retaining actual costs of collecting civil penalties, fines, and forfeitures. DENR is required to report on the pilot program by March 1, 2007, and April 1, 2008.

ASSUMPTIONS AND METHODOLOGY:

This bill includes several changes to the civil penalties that may be assessed for environmental violations. The proceeds of all civil penalty proceeds are deposited into the Civil Penalty and Forfeiture Fund for use by North Carolina public schools.

Section 1 allows, for the purpose of deterrence, the Secretary to assess a penalty of up to $10,000 for the first day of a violation of the Sedimentation Pollution Control Act. Currently, the maximum fine is set at $5,000. In a typical year, there are 270 violations, and approximately 56 cases of those are assessed civil penalties. Since this power is discretionary, no estimate can be made at this time.

Section 2 amends the civil penalties for Coastal Area Management Act (CAMA) violations by increasing the minor development violation maximum from $250 to $1,000 and the major development violation maximum from $2,500 to $10,000. In a typical year, 171 CAMA violations occur, and the Coastal Resources Commission (CRC) assesses 135 of those cases penalties. In 2004 the Coastal Resources Commission collected $30,500 in civil penalty revenue. No estimate of additional penalty revenue is possible since Section 2 only increases the maximum penalty but does not require the Commission to assess the higher penalty.

Section 2 also authorizes the Coastal Resource Commission to assess the violator the costs of investigation, inspection, and monitoring. The amount of the assessments of investigative costs shall not exceed one-half of the amount of the civil penalty assessed or $1,000 for minor development violations or $2,500 for a major development violations, whichever is less. Any investigative costs collected would be deposited into the General Fund. Since this power is discretionary and investigative costs vary, no estimate can be made at this time.

Section 4 amends increases administrative penalties for violation of the Solid Waste Management law from a maximum of $5,000 to $10,000 a day for nonhazardous waste and a maximum of $25,000 to $32,500 for other violations (but not more than $25,000 for the first day). Table A summarizes the number of violations and civil penalties assessed in a typical year by violation type. In 2004 the Division of Waste Management deposited $457,132 in fines into the Civil Penalty and Forfeiture Fund. No estimate of additional penalty revenue is possible since Section 4 only increases the maximum penalty but does not require DENR to assess the higher penalty.

Table A: Typical Number of Waste Violations

Violation Type	# of Violations	# Assessed Civil Penalties
Hazardous Waste	99	20
Solid Waste	22	11
Underground Storage Tank	216	72

Section 5 increases administrative penalties for violation of the Wastewater Systems law from a maximum of $50 to $100 per day for smaller violations and a maximum of $400 to $5,000 per day for larger violations. In a typical year, the Division of Water Quality (DWQ) issues 923 Notices of

Violation and assesses 722 civil penalties. In 2004 DWQ deposited $5,376,143 into the Civil Penalty and Forfeiture Fund. No estimate of additional penalty revenue is possible since Section 5 only increases the maximum penalty but does not require DENR to assess the higher penalty.

Section 6 extends the penalty for false reporting under the Solid Waste law to include false reporting under the Drinking Water Act. The maximum fine that may be imposed for such an offense is $10,000. Currently, there is not sufficient data to estimate the number of false reports expected.

Under Section 7, the Secretary of DENR, in addition to other remedies, may require an environmental violator to attend environmental education courses and may charge a fee, not to exceed $100, to compensate for the reasonable cost of attending such courses. Such course fees would be deposited in the General Fund. Since this power is discretionary, there is no estimate currently available.

Section 8 directs DENR to create a pilot program during the period of October 1, 2005 through April 1, 2008, focused on determining and retaining the actual costs of collecting civil penalties, fines, and forfeitures as well as improving assessment and collection. DENR believes that it can implement this pilot program using existing staff. Currently DENR may retain up to 10% of civil penalty assessments to cover collection costs. This section would allow DENR to retain the actual cost of collection up to 20% of the total civil penalty. The net impact on the Fines and Forfeitures Fund is unclear. If actual collection costs are more than 10%, the Fund would receive a smaller percentage of civil penalty collections. If collection rates remain steady or decline, a net decrease to the Fund would result. However, if collection rates increase as a result of this provision, the net amount deposited in the Fund could actually increase.

SECTION 7.(c) The Authority shall possess the same exemptions in respect to payment of taxes and license fees and shall be eligible for sales and use tax refunds to the same extent as provided for municipal corporations by the laws of the State of North Carolina.

SECTION 7.(d) The Authority may acquire from the Board, and the Board may grant and convey, either by gift or for such consideration as the Board may deem appropriate, any real or personal property which it now owns or may hereafter acquire, which may be necessary for the construction, operation, and maintenance of Heritage Park facilities.

SECTION 7.(e) Any lands acquired, owned, controlled, or occupied by the Authority shall be, and are hereby declared to be acquired, owned, controlled, and occupied for a public purpose.

SECTION 8.(a) A copy of the ordinance creating the Authority and of any ordinance amending or repealing the joint resolution creating the Authority shall be filed with the following:

(1) The Secretary of State.
(2) The clerk to the Board.
(3) The clerk of superior court of Avery County.
(4) A newspaper of general circulation in Avery County.

SECTION 8.(b) Unless a ordinance specifies a later date, it shall take effect when the ordinance has been submitted to the Secretary of State for filing. Certifications by the clerk of superior court of the text of any ordinance filed with that clerk are admissible in evidence.

SECTION 9.(a) Except as limited by restrictions in any ordinance and by other supervening provisions of law, the Authority may make regulations applicable to Heritage Park concerning all matters relating to or affecting the use of Heritage Park. These regulations may not conflict with or supersede provisions of general or special acts or of regulations of State agencies promulgated under the authority of general law. No regulations adopted under the provisions of this section may be adopted by the Authority except after public hearing, with publication of notice of the hearing in a newspaper of general circulation in the county at least 10 days before the hearing.

SECTION 9.(b) Violation of any regulation of the Authority commanding or prohibiting an act shall be a Class 3 misdemeanor.

SECTION 9.(c) The regulations promulgated under this section take effect upon passage or upon such dates as may be stipulated in the regulations except that no regulation may be enforced unless adequate notice of the regulation has been posted in Heritage Park. Ordinances providing regulations for specific areas shall clearly establish

the boundaries of the affected area by including a map of the regulated area, with the boundaries clearly drawn, or by setting out the boundaries in a written description, or by a combination of these techniques. Adequate notice as to a regulation affecting only a particular location shall be given in the following manner. When a regulation applies generally as to Heritage Park, there must be a posting of notices, signs, or markers communicating the essential provisions in at least three different places throughout the area, and it shall be printed in a newspaper of general circulation in the county.

SECTION 9.(d) A copy of each regulation promulgated under this section must be filed by the Authority with the following persons:

(1) The Secretary of State;

(2) The clerks of superior court of Avery County.

(3) The clerk to the Board.

SECTION 9.(e) Any official designated in subsection (d) above may issue certified copies of regulations filed with the official under the seal of the official's office. Such certified copies may be received in evidence in any proceeding.

SECTION 9.(f) Publication and filing of regulations promulgated under this section as required above are for informational purposes and is not a prerequisite to their validity if they in fact have been duly promulgated, the public has been notified as to the substance of the regulations, a copy of the text of all regulations is in fact available to any person who may be affected, and no party to any proceeding has been prejudiced by any defect that may exist with respect to publication and filing. Rules and regulations promulgated by the Authority under the provisions of other sections of this Article relating to internal governance of the Authority need not be filed or published. Where posting of any sign, notice, or marker, or the making of other communication is essential to the validity of a regulation duly promulgated, it is presumed in any proceeding that prior notice was given and maintained and the burden lies upon the party asserting to the contrary to prove lack of adequate notice of any regulation.

SECTION 10.(a) Where an ordinance so provides, all law enforcement officers, or those officers as may be designated in the ordinance, with territorial jurisdiction as to any part of Heritage Park within the limitations of their subject matter jurisdiction, have the authority of peace officers in enforcing the laws over all of Heritage Park. A certificate of training issued by the North Carolina Criminal Justice Education and Training Standards Commission or the North Carolina Sheriffs' Education and Training Standards Commission will suffice for certification for the purposes of this Article.

SECTION 10.(b) Where a law enforcement officer with jurisdiction over any part of Heritage Park is performing duties relating to the enforcement of the laws, the officer shall have such extraterritorial jurisdiction as may be necessary to perform the officer's duties. These duties include investigations of crimes an officer reasonably believes have been, or are about to be, committed within the area in question. This includes traversing by reasonable routes from one portion of this area to another although across territory not within the boundaries of Heritage Park; conducting prisoners in custody to a court or to detention facilities as may be authorized by law, although this may involve going outside the area in question; execution of process

connected with any criminal offense alleged to have been committed within the boundaries in question, except that this process may not be executed by virtue of this provision beyond the boundaries of the two counties. This also includes continuing pursuit of and arresting any violator or suspected violator as to which grounds for arrest arose within the area in question.

SECTION 10.(c) Where law enforcement officers are given additional territorial jurisdiction under the provisions of this section, this shall be considered an extension of the duties of the office held and no officer shall take any additional oath or title of office.

SECTION 11. The Authority shall report annually to the Board regarding its operations and activities during the previous year and on any other matter requested by the Board.

SECTION 12. If one or more sections, clauses, sentences, or parts of this act shall be adjudged invalid, such judgment shall not affect, impair, or invalidate the remaining provisions thereof, but shall be confined in its operation to the specific provision held invalid, and the inapplicability or invalidity of any section, clause, sentence, or part of this act in one or more instances or circumstances shall not be taken in affect or prejudice in any way its applicability or validity in any other instance.

SECTION 13. This act is effective when it becomes law.

April 21, 2005

A BILL TO BE ENTITLED

AN ACT TO ENABLE THE COUNTY OF AVERY TO ESTABLISH THE HERITAGE PARK AUTHORITY FOR THE MAINTENANCE AND DEVELOPMENT OF THE HERITAGE PARK FACILITIES IN AVERY COUNTY.

The General Assembly of North Carolina enacts:

SECTION 1. There is hereby created the Heritage Park Authority ("Park Authority"). The Park Authority is a body politic and corporate having the powers and jurisdiction hereinafter enumerated and any other additional powers as shall be conferred upon it by general law and the future acts of the General Assembly.

SECTION 2. The Park Authority shall consist of nine members who shall be appointed to staggered terms of four years by the Avery County Board of Commissioners. All of the members shall be permanent residents of Avery County. Of the initial nine members, five shall be appointed to a term of four years and four shall be appointed to a term of two years. Thereafter, all terms shall be for four years, thus creating the staggered positions. Each member shall take and subscribe before the Clerk of the Superior Court of Avery County an oath of office and file the same with the Avery County Board of Commissioners. Upon the occurrence of any vacancy on the Park Authority, the vacancy shall be filled within 60 days after the vacancy occurs by the recommending entity upon approval of the Board of Commissioners. If the Authority fails to recommend a replacement to fill the vacancy within 60 days, the Board of Commissioners shall fill the vacancy at their next regular meeting.

SECTION 3.(a) The members of the Park Authority shall be appointed by the Avery County Board of Commissioners, as follows:

(1) One member shall be appointed upon the recommendation of the Avery County Agricultural and Horticultural Fair, Inc., a nonprofit corporation.

(2) One member shall be appointed from the Avery County Recreational Advisory Commission.

(3) The Towns of Banner Elk, Beech Mountain, Crossnore, Elk Park, Newland, and Sugar Mountain shall each nominate one member.

(4) The southern portion of Avery County shall recommend one member, with that nomination to be determined by the Frank and Green Valley Fire Departments.

No member of the Avery County Board of Commissioners may serve on the Park Authority Board. In the event that the Avery County Agricultural and Horticultural Fair, Inc., becomes nonexistent, then the Park Authority Board will have only eight members.

SECTION 3.(b) The Park Authority shall elect from among its members a Chair, a Secretary, and a Treasurer at its initial meeting and then annually thereafter. A majority of the Park Authority shall control its decisions. Each member of the Park Authority, including the Chair, shall have one vote. The Park Authority shall meet at the places and times designated by the Chair and shall be subject to the Open Meetings Law.

SECTION 3.(c) The Park Authority may adopt suitable bylaws for its management, subject to approval of the Avery County Board of Commissioners. The members of the Park Authority shall receive no compensation or per diem, but shall be allowed and paid their actual traveling expenses incurred in transacting the official business of the Park Authority.

SECTION 4. The Park Authority shall have the following powers and authority:

(1) To purchase, acquire, establish, construct, own, control, lease, equip, improve, maintain, operate, and regulate Heritage Park facilities for the use of the general public within Avery County for the purpose to purchase, improve, own, hold, lease, or operate real or personal property.

(2) To sue and to be sued in the name of the Park Authority, to make contracts and hold any personal property necessary for the exercise of the powers of the Park Authority, and to acquire by purchase, lease, or otherwise any existing lease or leasehold right.

(3) To charge and collect reasonable and adequate fees and rents for the use of the Heritage Park facilities or for services rendered in the operation of the facilities. Revenues from fees and rents shall be used only for upkeep and operation of Heritage Park.

(4) To make all reasonable rules and regulations it deems necessary for the proper maintenance, use, operation, and control of Heritage Park facilities and to provide and enforce penalties for the violation of these rules and regulations; provided, however, that the rules and regulations and schedules of fees shall not be in conflict with the laws of the State of North Carolina.

(5) To sell, lease, or otherwise dispose of any property, real or personal, belonging to the Park Authority, according to the procedures described in Article 12 of Chapter 160A of the General Statutes, but no sale of

real property shall be made without the express approval of the Avery County Board of Commissioners.

(6) To deposit or invest and reinvest any of its funds as provided by the Local Government Finance Act, as it may be amended from time to time.

(7) To purchase any of its own outstanding bonds or notes.

(8) To operate, own, lease, control, regulate, or grant to others, for a period not to exceed five years, with an option to renew the right to operate on the Heritage Park facilities any snack bars, vending machines, food and beverages dispensing outlets, advertising media, automobile parking facilities, and other types of facilities as may be directly related to the maintenance and furnishing of a complete parks and recreational facility to the public.

(9) To erect and construct buildings and other improvements and facilities not inconsistent with or in violation of the agreements applicable to and the grants under which real property of the Park Authority is held.

(10) To lease their improvements and facilities for a term or terms not to exceed five years, with an option to renew at the termination of the lease.

(11) To borrow money for use in the making and paying of these improvements and facilities, secured by and on the credit only of any lease agreements in respect to these improvements and facilities, and to pledge and assign leases and lease agreements as security for the authorized loans.

(12) To procure grants to allow for the installation of improvements upon real property.

(13) To have a corporate seal which may be altered at will.

SECTION 5. The Park Authority shall possess the same exemptions in respect to payment of taxes and license fees and shall be eligible for sales and use tax refunds to the same extent as provided for municipal corporations by the laws of the State of North Carolina.

SECTION 6. The Park Authority may acquire from Avery County, by agreement with the County, and the County may grant and convey, either by gift or for such consideration as the County may deem appropriate, any real or personal property which it now owns or may hereafter acquire, which may be necessary for the construction, operation, and maintenance of Heritage Park facilities.

SECTION 7. Any lands acquired, owned, controlled, or occupied by the Park Authority shall be, and are hereby declared to be acquired, owned, controlled, and occupied for a public purpose.

SECTION 8. Subject to the limitations as set out in this act, all rights and powers given and granted to counties and municipalities by general law, which may now be in effect, or enacted in the future relating to the development, regulation, and control of Heritage Park facilities, are vested in the Park Authority. The Avery County Board of Commissioners may delegate its powers under these acts of the Park

Authority, and the Park Authority shall have concurrent rights with Avery County to control, regulate, and provide for the development of Heritage Park in Avery County.

SECTION 9. The Park Authority may contract with and accept grants from the State of North Carolina, the federal government, or any of the agencies or representatives of either said governmental bodies relating to the purchase of land and to the grading, constructing, equipping, improving, maintaining, or operating of Heritage Park.

SECTION 10. The Park Authority may employ any agents or professionals whose services may be deemed by the Park Authority to be necessary and useful in carrying out the provisions of this act.

SECTION 11. The Avery County Board of Commissioners may appropriate funds as the Board of Commissioners deems necessary to carry out the provisions of this act in any proportion or upon any basis as may be determined by the Avery County Board of Commissioners. The Park Authority may make recommendations to the Avery County Board of Commissioners with respect to such appropriations.

SECTION 12. The Park Authority may expend the funds that are appropriated by the County and may pledge the credit of the Park Authority only to the extent of the appropriate funds.

SECTION 13. The Park Authority shall not have the power to pledge the credit of Avery County, or any subdivision thereof, or to impose any obligation upon Avery County or any of its subdivisions except when the power is expressly granted by statute.

SECTION 14. The Park Authority shall make an annual report to the Avery County Board of Commissioners in July of each year setting forth in detail the operations and transactions conducted by it pursuant to this act.

SECTION 15. The powers granted to the Park Authority shall not be effective until the members of the Park Authority have been appointed by the Avery County Board of Commissioners, and nothing in this act shall require the Board of Commissioners to make the initial appointments. It is the intent of this act to enable, but not require, the formation of the Avery County Parks and Recreational Authority.

SECTION 16. If one or more sections, clauses, sentences, or parts of this act shall be adjudged invalid, such judgment shall not affect, impair, or invalidate the remaining provisions thereof, but shall be confined in its operation to the specific provision held invalid, and the inapplicability or invalidity of any section, clause, sentence, or part of this act in one or more instances or circumstances shall not be taken in affect or prejudice in any way its applicability or validity in any other instance.

SECTION 17. This act is effective when it becomes law.

HOUSE BILL 1526:
Avery County/Heritage Park Authority

BILL ANALYSIS

Committee:	House Finance	**Date:**	July 25, 2005
Introduced by:	Reps. Frye, Jones	**Summary by:**	Cindy Avrette
Version:	PCS to Second Edition H1526-CSST-81		Committee Counsel

SUMMARY: ***The proposed committee substitute for House Bill 1526 would allow the Avery County Board of Commissioners to create an authority that could acquire the property known as "Heritage Park" and operate and maintain the facilities on that property. The bill would become effective when it becomes law. The original bill, sponsored by Rep. Frye, would have eliminated the automobile insurance comprehensive deductible on motor vehicle windshield glass.***

BILL ANALYSIS: There is approximately 52 acres of property in Avery County known as "Heritage Park". The property has some facilities on it and is used by the county for certain purposes, including its Agricultural and Horticultural Fair. This bill would establish an authority that would have the ability to acquire the property and to improve, maintain, operate, and regulate the facilities on that property. The Authority would have the ability to charge and collect fees and rents for the use of the facilities as well as borrow money for use in improving the facilities. The Authority may make regulations concerning Heritage Park and law enforcement officers with jurisdiction of the Park may enforce those regulations. A violation of a regulation of the Authority would be a Class 3 misdemeanor. The Avery County Board of Commissioners may appropriate funds to the Authority and the Authority is entitled to the same exemptions in respect to payment of taxes as municipal incorporations.

The Authority may be created by ordinance of the Board of Commissioners of Avery County after notice and public hearing. Upon creation of the Authority, the Board must appoint a nine-member governing body for the Authority. To be eligible to serve on the governing body, a person must maintain a permanent residence in Avery County. A majority of the Authority shall control its decisions. The members of the governing body would serve four-year staggered terms. A member could not serve more than two consecutive terms. The members would not receive compensation or per diem, but they may be allowed their actual traveling expenses. The members of the governing body of the Authority must be appointed as follows:

- One member upon the recommendation of the Avery County Agricultural and Horticultural Fair, Inc. (If the Avery County Agricultural and Horticultural Fair, Inc. becomes nonexistent, then the governing body of the Authority shall have only eight members.)
- One member must be appointed from the Avery County Recreational Advisory Commission.
- One member from the southern portion of Avery County upon the recommendation of the Frank and Green Valley Fire Departments.
- Six members representing the municipalities in Avery County. The Board must appoint the members upon the recommendation of each of the following Board of Commissioners: Banner Elk, Beech Mountain, Crossnore, Elk Park, Newland, and Sugar Mountain.

EFFECTIVE DATE: The bill would become effective when it becomes law.

Minutes

~

July 27, 2005

The House Committee on Finance met on Wednesday, July 27, 2005 at 8:30 am in Room 544 of the Legislative Office Building. The following members were present: Chairpersons Alexander, Howard, Luebke, McComas and Wainwright; Vice-Chairs Daughtridge, Hill, Ross, Weiss, and Womble; and Representatives B. Allen, Blackwood, Bordsen, Capps, Carney, Dockham, England, Faison, Fisher, Folwell, Glazier, Goforth, Hackney, Harrell, Holliman, Insko, Jones, Lewis, McGee, Underhill, Vinson, Walend and Wiley. Ex-Officio member Representative Culpepper was present. Also present were Sergeant-at-Arms Bill Freeman, Fred Hines, Dusty Rhodes, and Walter Spell. Staff persons present included Cindy Avrette, Rodney Bizzell, Erika Churchill, Gerry Cohen, Brenna Erford, Ashley Huffstetler, Linda Millsaps, and Martha Walston. The Agenda and Visitor Registration Sheet are attached and incorporated into these minutes as **attachments 1 and 2**.

Chairwoman Alexander called the meeting to order at 8:35 am and recognized the seven (7) pages present: (1) Reeva Sawhney of Gastonia County, sponsored by Representative Rayfield; (2) David Hopkins of Rockingham County, sponsored by Representative Cole; (3) Amanda Williams of Wilkes County, sponsored by Representative Walker; (4) Elizabeth Alford of Wake County, sponsored by Representative Morgan; (5) Adam Moore of Gates County, sponsored by Representative Culpepper; (6) Nancy Warren of Person County, sponsored by Representative Wilkins; and (7) Tyler White of Catawba County, sponsored by Representative Kiser.

Chairman Alexander first recognized Representative Howard for continued discussion on SB 612 – AMEND LOBBYING LAWS (see **attachment 3**) from the Committee meeting on Tuesday, July 26. Representative Howard then withdrew her pending amendment (see **attachment 4**) and sent forth a new amendment (see **attachment 5**) and moved for its adoption. She explained that this amendment does not prevent members from introducing legislation based upon their past experiences, but would prohibit a legislator from sponsoring legislation for an entity and leaving the legislature to work for that particular entity. Chairwoman Alexander then recognized Representative Hackney who stated that he understands Representative Howard's goal, but the amendment is too broad and would prevent a legislator from working for an entity they sponsored legislation for an indefinite period. In response, Representative Howard was recognized and explained that the intent of the amendment was not to make it so a former legislator could never accept employment or work for an entity they sponsored legislation for. She then sent forth a perfecting amendment (see **attachment 5**) specifying a one-year restriction for legislators seeking employment at an entity that the legislator sponsored legislation for. Chairwoman Alexander then recognized Representative Dockham who stated that public perception is extremely important. He continued by stating that if the General Assembly is going to shut the door on dinner and gifts to the legislature, then a restriction should also be made on accepting employment based on previously sponsored legislation.

Representative Faison was then recognized and expressed that the problem addressed by Representative Howard's amendment was even more important than the "revolving door" provision.

Chairwoman Alexander then recognized Representative Wainwright who asked about the enforcement of the content of the amendment. In response, Representative Howard was recognized and said that this amendment is a matter of public perception and conscience. Erika Churchill of Research was then recognized and added that if a willful violation of the law occurs, then it would be a Class I misdemeanor enforced by the Secretary of State and the Attorney General. Chairwoman Alexander then recognized Representative Hackney who stated that the amendment does not do what Representative Howard intends. Representative Ross was then recognized and agreed with Representative Howard's intentions but believed the amendment was not worded correctly as further work was needed to properly address Representative Howard's concern. Representative Howard was then recognized and moved for the adoption of the amendment as perfected, requesting the ayes and nays, and called for the previous question. As the motion for the previous question is non-debatable, Chairwoman Alexander called the motion for the previous question to a vote and the motion carried. Chairwoman Alexander then immediately called the motion to adopt the Howard amendment to a vote and directed the Committee Clerk to call the roll (see **attachment 6**). By a vote of 12 ayes to 21 nays, the amendment failed.

Chairwoman Alexander then recognized Representative Hackney who sent forth a technical amendment (see **attachment 7**) and moved for its adoption. He explained that the amendment simply clarified some language in the bill as recommended by the legal staff. Seeing no further discussion, Chairwoman Alexander then called the motion to a vote, and it carried by consent. Representative Lewis was recognized next and asked if a legislator would be required to report their attendance at a legislative conference. In response, Representative Hackney was recognized and stated that reporting is required for the lobbyists if the event is held in North Carolina. If the event is held outside North Carolina, then the legislator would be required to report the event. Questions remained on this topic and Representative Hackney concluded the discussion saying, "If in doubt, report it." Representative Luebke was then recognized and claimed that this bill is the best lobbying reform bill he has seen thus far at the General Assembly. He then moved for a favorable report to the proposed committee substitute, incorporating the adopted amendments, and an unfavorable report as to the original bill. His motion also included a recommendation that the proposed committee substitute be re-referred to the Committee on Appropriations. As there was no further debate, Chairwoman Alexander called the motion to a vote, and it carried without objection.

The next bill under consideration by the Committee was **HB 237 – REVISE MORTGAGE LENDING ACT** (see **attachment 8**). Chairwoman Alexander then recognized Representative Saunders, the bill sponsor, who explained that the bill authorizes the licensure of limited loan officers that are employed by affiliated mortgage bankers and authorizes the Commissioner of Banks to allow certain loan officer applicants to act as a loan officer during the loan officer application process. The bill also provides that the Commissioner may discipline a licensee or applicant for falsely certifying attendance or completion of a continuing education course. Following the explanation, Representative Jones moved that House Bill 237 be given a favorable report by the Committee.

Chairwoman Alexander then recognized individuals from the public who spoke in support of the bill. Joseph Smith, from the NC Commission of Banks, was first recognized and stated that the bill is very limited and is intended to only apply to large firms and language in the bill requires them to be held accountable. Larry Hackner from the NC Financial Services Association was then recognized and said that his organization supports this bill as it attempts to bring uniformity to the

laws governing mortgage licensing. Also speaking in support of the bill was Dick Carlton also from the NC Financial Services Association who stated that this bill would send a good message that North Carolina is a good state for financial institutions.

Speaking in opposition to the bill, Stella Adams from NC Fair Housing Coalition was recognized and stated that the bill contains inconsistencies in the language that could possibly harm consumers. Chris Kubla from the Self-Help Organization was then recognized and claimed that under the bill, loan officers would not be required to have enough training in certain circumstances. Chairwoman Alexander then recognized Al Ripley from the NC Justice Center who stated that some of the companies benefiting from this legislation have had a bad track record with customer service. Steve Roberts, representing the Association for the Advancement of Retired Persons, was recognized and said that this bill is a step backward for North Carolina and would allow some companies to employ loan officers who have very little experience. He then stated that North Carolina consumers need loan officers that have more training. Representative Saunders was then recognized and said that he believes some of the people speaking in opposition to the bill had it confused with House Bill 621, which was also on the Committee's agenda but not discussed.

At that time, Chairwoman Alexander then recognized the attendance of former House Representative Bobby Ray Hall.

Chairwoman Alexander then recognized Representative Luebke who asked why the General Assembly would want to reduce training and testing requirements for loan officers. Mr. Hackner from the NC Financial Services Association was then recognized and said that nothing in the bill has language that provides for less than adequate training for loan officers. Ms. Adams from the NC Fair Housing Coalition stated that she believed that this bill would weaken the requirements for loan officers due to inconsistency of the language found in the bill. Representative Saunders was then recognized and emphasized that the bill is nothing more than a tweaking of the Mortgage Lending Act of 2001. Chairwoman Alexander then recognized Representative Wainwright who asked Mr. Smith from the Commission of Banks if this bill is in any way weakening the Mortgage Lending Act of 2001. Mr. Smith was recognized and answered in the negative.

Chairwoman Alexander then announced that discussion on the bill would be continued until the next meeting, to be held on Thursday, July 28, at 8:30 am. She then adjourned the meeting at 9:53 am.

Respectfully submitted,

Representative Martha Alexander

SENATE BILL 612: Amend Lobbying Laws

BILL ANALYSIS

Committee:	House Finance	**Date:**	July 25, 2005
Introduced by:	Sen. Rand	**Summary by:**	R. Erika Churchill
Version:	PCS to Fifth Edition S612-CSSTf-82 v6		Committee Counsel

SUMMARY: ***The Proposed Committee Substitute for Senate Bill 612 would amend the lobbying laws by including goodwill lobbying, increasing the frequency and details of legislative lobbyists' and lobbyist's principals' reports, and prohibiting a legislator from lobbying during one year following a legislative session to which the legislator was elected or appointed. The bill also creates lobbying laws governing executive branch lobbying.***

CURRENT LAW:

Under current law, a person who is paid to try to influence legislative action (action on a specific bill, resolution, amendment, etc.) is required to register as a lobbyist with the Secretary of State and report at the end of each regular session, expenditures in excess of $25 spent on lobbying legislators. Expenditures spent for the general goodwill of legislators not tied to specific legislative action do not need to be reported, nor do expenditures spent on legislative staff or legislators' family members. There is no limitation on the types or amount of expenditures that at lobbyist can spend on a legislator for lobbying purposes. Every principal who hires the services of a lobbyist also has to file reports on expenditures they made for lobbying, including the amount of compensation paid to lobbyists. Exempt from the lobbying laws are persons who lobby on their own behalf, persons appearing before the General Assembly at the General Assembly's request, elected and appointed local government officials and employees lobbying on behalf of their local governments, State agency legislative liaison personnel, and members of the General Assembly. Violation of this law is punished as a Class 1 misdemeanor.

Currently executive branch lobbying is not regulated.

BILL ANALYSIS:

Section 1 amends the legislative lobbying law in the following ways:

- Includes lobbying the Governor in relation to the Governor's veto.
- Includes developing goodwill as part of the definition of lobbying.
- Permits gifts from lobbyists to their family members who are legislators or legislative employees. Also exempts lawful campaign contributions.
- Defines "expenditure" to include anything of value over $10.
- Expenditures by legislative liaison personnel and State agencies are subject to the same reporting requirements as expenditures by other lobbyists.
- The registration period for a lobbyist is one year, rather than the current two years.
- Increases the frequency of expenditure reports to monthly when the General Assembly is in session, quarterly thereafter.
- Increases the details of lobbying expenditure reports to include the amount, date, a description of the expenditure, name and address of the payee, name of any covered person benefiting from the expenditure (or legislative employee or those person's immediate family members) in each of the following categories:
    - Transportation and lodging
    - Entertainment, food, and beverages
    - Meetings and events
    - Gifts
    - Solicitation of others to lobby
    - Other expenditures

If more than 15 covered persons benefit from the expenditure, the lobbyist may elect to report the approximate number of covered persons benefiting and, with particularity, the basis for their selection. The approximate number of legislative employees and immediate family members shall be reported separately.

The Secretary of State is granted rulemaking authority to facilitate disclosure of expenditures, including the format of the report and additional categories. The rules are also to protect the address of payees under a Chapter 50B protective order or participating in the Address Confidentiality Program.

- The lobbyist's principal must also report, in addition to the expenditures reported by the lobbyist, the compensation paid or agreed to be paid to each lobbyist.
- Prohibits a legislator or former legislator from being employed as a legislative or executive branch lobbyist within 1 year after the expiration of the term for which the legislator was elected or appointed to serve.
- Prohibits the Governor or Council of State member or head of a cabinet department from being employed as a legislative or executive branch lobbyist within 1 year after separation from employment or leaving office, whichever is later.
- Prohibits a lobbyist from serving as a campaign manager or campaign treasurer for a legislative campaign.
- Prohibits a lobbyist from being appointed to body created under State law with regulatory authority over the activities of a person that the lobbyist represented within one year of end of that representation.
- Prohibits a lobbyist from allowing a covered person, legislative employee, or that person's immediate family member to use the lobbyist's cash or credit for the purpose of lobbying without the lobbyist being present at the time of the expenditure.
- An additional exception to the registration and reporting law is made for an employee who represents an employer's interest before the General Assembly for no more than 3 hours in a quarter, and who does not spend money on a legislator, legislative employee or an immediate family member that would otherwise be required to be reported by a registered lobbyist.
- Requires expenditures of $200 made for the purpose of lobbying from persons not required to register and report as lobbyists or lobbyist's principals or more to be reported. If the person giving the gift is in North Carolina, that person shall make the report. If the person giving the gift is outside North Carolina, the person accepting the gift shall make the report. Certain exceptions apply.
- Requires scholarships valued over $200 to be reported.
- Allows for a civil fine up to $5,000 per violation in addition to any criminal penalties.

Section 2 creates a new article to regulate executive branch lobbying much the same as legislative lobbying is regulated with the following differences:

- Lobbying is defined as the influencing of "executive action" which is defined as being the consideration of a rule, regulation, executive order, policy, resolution, contract, request for proposal, nomination or appointment by the Governor, member of the Council of State, heads of the cabinet, and the Board of Governors and university presidents.
- Executive branch lobbying does not include action by an attorney.
- Lobbyist and lobbyist's principals' reports are due every 6 months.
- Prohibits the Governor or a member of the Council of State from acting as a legislative or executive branch lobbyist during the time of the biennial legislative session in which the person served in office.

Section 3 requires the Secretary of State to create a "No Gifts" registry.

Section 4 appropriates $200,000 for the '05-'06 fiscal year to the Secretary of State for personnel and expenses to implement the act.

Section 5 appropriates $112,000 for the '05-'06 fiscal year to the Secretary of State for the implementation of electronic filing of reports required by the act.

EFFECTIVE DATE: The appropriations are effective July 1, 2005. The remainder of the act is effective January 1, 2007.

BILL SUMMARY: (in pertinent part):

This bill amends the lobbying laws that currently govern legislative lobbying to reduce the registration period from two years to one year and to reduce the fee from $200 per registration to $100 per registration. Under this bill, each lobbyist would be required to file a registration statement for each of its principals. However, the bill would eliminate the requirement that the principal file a separate registration statement for each of its lobbyists. The bill would add new Article 4C to Chapter 147 of the General Statutes to govern executive branch lobbying. The new Article would impose the same registration requirement and fee structure for executive lobbyists and principal registrations as would be provided for the legislative lobbying. The bill, however, would reduce the registration fee to $75 each if a lobbyist registers as a legislative lobbyist and executive lobbyist for the same principal. The bill would require all fees to go to a Lobbyist Registration Fund to be used to offset the cost of administering the Lobbyist Registration Laws.

The bill increases the frequency with which expenditure reports must be filed and it would require the Department of the Secretary of State to perform systematic reviews of the expenditure reports. The Department would also be required to implement a system that allows for electronic filings.

The bill also provides that any willful violation of Articles 9A or 4C of Chapters 120 and 147, respectively, would constitute a Class 1 misdemeanor. Among the activities prohibited in relation to executive or legislative lobbying would be failure to abide by expense and other reporting requirements.

ASSUMPTIONS AND METHODOLOGY:

Fees:

The bill would amend the registration period and registration fees for lobbyists who engage in legislative lobbying. It would also create lobbying laws that govern executive branch lobbying.

Under current law a lobbyist is required to file a separate registration statement with the Secretary of State for each lobbyist's principal before engaging in legislative lobbying. A fee of $200 per registration statement is due at the time of registration. The registration is effective from the date of filing until January 1 of the following ***odd numbered*** year. Thus, it essentially covers a legislative session, which is two years. This bill would make the registration effective from the date of filing until January 1 of the following year, thereby reducing the registration period for a legislative lobbyist from two years to one year. This bill would also require an executive lobbyist to file a registration statement with the Secretary of State for each lobbyist's principal before engaging in executive branch lobbying. The registration period for an executive lobbyist would also be for one year-effective from the date of filing until January 1 of the following year. Under this bill, a $100 fee per registration statement is due at the time of each legislative lobbyist registration, except that if the legislative lobbyist is also registering as an executive lobbyist for the same lobbyist's principal, the registration fee is $75. Similarly, a $100 fee per registration statement is due at the time of each executive lobbyist registration except that if the executive lobbyist is also registering as a legislative lobbyist for the same lobbyist's principal, the registration fee is $75.

Also, under current law, a separate registration, together with a separate registration fee of $200 is required for each lobbyist's principal for which a person acts as a legislative lobbyist. The bill would amend the existing law to require a lobbyist's principal to register only one time rather than once for each lobbyist that works for the principal. The registration fee for the lobbyist's principal is $100 annually.

The bill would also require all fees to be deposited into a Lobbyist Registration Fund to be used by the Secretary of State to pay the cost incurred in administering and enforcing Article 9A of Chapter 120 and Article 4C of Chapter 147. This requirement of the bill would redirect the fees from the General Fund where lobbyists' registration fees are currently deposited.

Based on information provided by the Secretary of State, for the 2004-05 fiscal year, there were approximately 1,255 lobbyist's registrations for the 2005 Session of the General Assembly. In addition to the lobbyist's registrations, there were approximately 673 individual lobbyist's principals. Combining the two groups, Fiscal Research estimates that there would be 1,928 registrations annually. Please note that under current law, a registration can cover both the odd year (Long Session) and the even year (Short Session) of a two-year Legislative Session. Changing the registration from two years to one year, as this bill would, may result in fewer registrations for the even years. However, we have no data upon which to determine the number, if any, of lobbyists and principals that may not register for the even years. Also, there is some data that indicates that there are lobbyists and principals that register for the second year only. Therefore, considering that, under this bill, some registrations will only be for one year of the two-year Legislative Session, our estimate will assume that the number of registrations will remain constant.

This bill would also require executive lobbyists and principals to register. Presently, there is no data upon which to estimate the number of executive lobbyists and principals that may be required to register with the Secretary of State. Fiscal Research, however, believes that it is reasonable to assume that the executive lobbyists and principals will be a subset of the lobbyists and principals that register as legislative lobbyists. Therefore, the 1,928 lobbyists and principals would pay a $100 fee to register as legislative lobbyists/principals ***or*** as executive lobbyists/principals or they would pay $75 to register as a legislative lobbyist/principal ***and*** another $75 to register an executive lobbyist/principal. Fiscal Research therefore estimates that the annual revenue would range from $192,800 (1,928 registrations * $100 -- assuming all 1,928 lobbyists and principals registered for legislative or executive lobbying) to $289,200 (1,928 registrations * $150 -- assuming all 1,928 lobbyists and principals registered for both legislative lobbying and executive lobbying).

Because the bill requires the fees to be deposited to the Lobbyist Registration Fund, there would be a loss of revenue to the General Fund. Currently, there are 2,33 registration relationships for the odd years and another 480 for the even years. Based on these numbers the projected revenue loss to the General Fund is $466,000 in the odd years and $96,000 in the even years.

Operating Expenses – Secretary of State

Under current law, each lobbyist and principal must file two expense reports each year during the Legislative Session for which they have registered. The first report is due within 60 days after the last day of the regular session. The second is a supplemental report that captures expenditures

made after the last day of the regular session but during the calendar year. This bill would require each lobbyist to file monthly expenditure reports with respect to each of its principals while the General Assembly was in regular session and quarterly thereafter. It would also require each principal to file monthly expenditure reports while the General Assembly was in regular session and quarterly thereafter. Executive lobbyists and principals and well as legislative liaisons would be subject to the same reporting requirement.

Under this bill, nine reports would be required in each odd year and six in each even year for each of the 1,928 legislative lobbyist and principal registrations. Four additional reports would be required annually for those who were also registered as executive lobbyists and/or principals. Currently there are approximately 89 legislative liaisons for 52 State entities. This bill would require the 89 liaisons and the 52 State entities that they represent to file nine reports in each odd year and six reports in the even years. Based on this data, Fiscal Research estimates that the Secretary of State will receive between 12,414 and 20,126 reports in each even year and between 18,621 and 26,333 reports in each odd year. Under the bill, the reports could be filed manually or electronically.

The Department of the Secretary of State estimates that it would need 18 additional positions to fulfill the requirements of this bill. This estimates includes funding for the salaries, benefits and operating costs for a Lobbyist Director (grade 78), an Assistant Director/Auditor Supervisor (grade 73), 7 Investigator/Auditors (grade 71), an Assistant Registrar (grade 68), and 8 Administrative Assistant Is (grade 63). The Department believes that this staffing level would allow it to properly oversee and administer the Lobbyist Section, to register and index the legislative and executive registrations and expenditure reports, to respond to public inquiries, to post lobbyist records for public inspection, to publish the lobbyist directories, to perform systematic audits at a rate of 25% of the reports filed each year, and to perform investigatory audits as warranted by complaints and the results of the systematic audits.

The Department also provided an alternative estimate that would require 9 additional positions (instead of 18). The alternative estimate includes funding for the salaries, benefits, and operating costs for a Lobbyist Director (grade 78), an Assistant Director/Auditor Supervisor (grade 73), 1 Investigator/Auditors (grade 71) instead of 7 as included in the Departments preferred estimated,

an Assistant Registrar (grade 68), and 5 Administrative Assistant Is (grade 63) instead of 8 as included in the preferred estimate. With this staffing level, the Department estimates that it could only perform audits as driven by complaints and other indications of possible lobbying misconduct versus performing systematic audits.

The bill would require the Department to perform systematic reviews of the expenditure reports to ensure complete and timely disclosure of expenditures. The Fiscal Research Division believes that the requirements imposed upon the Secretary of State by this bill to review expenditures reports, and make them available for public inspection are very similar to the requirements imposed upon the Campaign Reporting Office of the State Board of Elections by the campaign finance laws prescribed in Articles 22A, 22B, 22C and 22D of Chapter 163 of the North Carolina General Statutes. The Campaign Reporting Office is responsible for the manual auditing of the campaign finance reports filed by over 2,000 political committees, providing public access to the reports, providing assistance to the committees and the county elections staff on the application of the campaign finance laws, maintaining a campaign finance disclosure system, and corresponding with the political committees and county elections staff to ensure timely and accurate compliance with the laws. The Campaign Reporting Office receives at least 2 reports from each political committee in an off-election year and at least 4 reports from each during an election years. In addition, it also receives reports of independent expenditures and 48-hour reports as required by statute. There is 100% auditing of these reports that include adjusting accounting discrepancies, cross-checking data, information validity assurance, and correspondence with the committees based on the audit results. The Office has a staff of 5 permanent full-time positions and 3.25 temporary positions. The 5 permanent staff include a Deputy Director for Campaign Reporting (grade 75), 3 grade 65 level Administrative Assistant IIs who are primarily responsible for the auditing and education responsibilities of the office, and a grade 57 level Office Assistant III position who provides support to the professional staff. The temporary staff employees assist with scanning reports for public inspection and data entry of reports that are filed manually.

Because of the similarities between the requirements imposed upon the Secretary of State by this bill and the existing requirements imposed upon the State Board of Elections' Campaign Reporting Office, Fiscal Research believes that the staffing level and structure that is in place for the Campaign Reporting Office is a reasonable one for the Secretary of State's Lobbyist Section. We therefore estimate that the Secretary of State would need 9 additional positions to fulfill the requirements of this bill. We believe, however, that the 9 positions should include 5 grade level 65 Administrative Assistant II, and 3 grade level 61 Processing Assistant IVs, and 1 grade level 75 Lobbyist Director. The estimated cost for the salaries, benefits, and operating cost for the 9 positions is estimated to be $504,701 for fiscal year 2006-07 and $391,875 for subsequent fiscal years. Se the summary that follows.

Summary of FRD's Estimate of Additional Staffing Needs

	FY 2006-07	FY 2007-08
SPA - Reg Salaries (9 positions)	$245,109	$245,109
Social Security Contributions	$18,751	$18,751

Transportation	$6,000	$6,000
Employee Education & Training	$7,200	$7,200
Telephone Service	$9,000	$1,674
Office Supplies	$9,000	$9,000
Postage	$2,500	$5,000
Rent/Lease-Building/Offices	$54,000	$54,000
Total Recurring	$396,701	$391,875
Office Furniture	$31,100	$0
Office Equipment	$56,200	$0
Personal Computers & Printers	$20,700	$0
Total Non-recurring	$108,000	

The bill also requires the Secretary of State to implement a system that would allow for the electronic filing of all lobbyists' and lobbyists' principals' reports and to provide public access via the Internet to all of the filings. The Secretary of State believes that a more advanced computer program than the one that currently is in place for electronic access to the filings and for the searchable database would be required. To meet the requirements of the bill, the Department would develop a Knowledge Base System for Lobbyist that parallels in-house systems that it has developed for its Uniform Commercial Code and Notary systems. The Departments estimates that the initial cost of developing the system would be $150,045. Recurring maintenance cost would be approximately $12,785 each year thereafter. Fiscal Research believes this approach to developing the system is reasonable.

Civil Penalties

As with existing law, the bill would allow the Secretary of State to impose a late filing fee for each day that a required report is late. The late filing fee is equivalent to the fee set forth in G.S. 163-278.34(a)(2), which is currently $50 per day up to a maximum of $500. Fiscal Research believe that the frequency of untimely filed reports will increase as a result of the increase in the frequency with which the reports must be filed. However, we have no data upon which to estimate the amount of late filing fees that may be imposed.

The bill would also allow the Secretary of State to levy civil penalties in addition to the criminal penalties discussed below for willful false or incomplete reporting up to $5,000. Again, Fiscal Research has no data upon which to estimate the extent to which civil penalties might be levied. We note, however, that any late filing fees or civil penalties would be deposited to the Civil Penalties Fund for the benefit of the public education system.

Criminal Penalties:

This bill would expand the scope of an existing Class 1 misdemeanor for violations related to legislative lobbying and create a new Class 1 misdemeanor for violations related to executive lobbying and would therefore be expected to result in additional charges and convictions. Due to the lack of an Administrative Office of the Courts (AOC) offense code for violations of Chapter 120, no historical data is available with respect to the numbers of charges and convictions for the existing offenses. However, the lack of an offense code is some indication that the existing offenses are infrequently charged and rarely result in convictions. As such, few additional charges and convictions would be expected due to this bill, and no substantial impact is anticipated to result from the criminal penalties in this legislation.

Department of Correction

The Sentencing and Policy Advisory Commission prepares inmate population projections annually. The projections used for incarceration fiscal notes are based on January 2005 projections. These projections are based on historical information on incarceration and release rates under Structured Sentencing, crime rate forecasts by a technical advisory group, probation and revocation rates, and the decline (parole and maxouts) of the stock prison population sentenced under previous sentencing acts. Based on the most recent population projections and estimated available prison bed capacity, *there are no surplus prison beds available for the five-year fiscal note horizon and beyond.*

- In FY 2003-04, 81 percent of Class 1 misdemeanants received non-active sentences. For those offenders sentenced to supervised probation, the Division of Community Corrections (DCC) would incur costs of $1.87 per offender per day. Offenders sentenced to community service would cost $0.67 per offender per day, and offenders given unsupervised probation would not impact DCC.

- The remaining 19 percent of Class 1 misdemeanors resulted in active sentences and the average estimated time served was 31 days.

- Offenders with active sentences of less than ninety days are housed in county jails, and DOC reimburses counties for housing offenders sentenced to between thirty and ninety days at a rate of $18 per day per offender.

- Because most Class 1 misdemeanants serving active time as a result of this bill would be housed in county jails, this legislation is not expected to significantly impact prison population.

Judicial Branch

For most criminal penalty bills, the Administrative Office of the Courts provides Fiscal Research with an analysis of the fiscal impact of the specific bill. For these bills, fiscal impact is typically based on the assumption that court time will increase due to an expected increase in trials and a corresponding increase in the hours of work for judges, clerks and prosecutors. This increased court time is also expected to result in greater expenditures for jury fees and indigent defense.

Due to the lack of an offense code for current violations of Chapter 120—an indication that there are presently few charges for violations related to legislative lobbying—AOC does not anticipate a

substantial number of new charges to result from this bill. Based on the costs of time in court, attorney preparation time, and indigent defense, the average estimated cost to process one Class 1 misdemeanor via trial is $3,224 per trial and $284 per guilty plea. The trial cost includes an estimated $2,627 in jury fees, costs of time in court, and attorney costs and an additional $2,373 in indigent defense. Based on prior-year data, the majority of any new Class 1 misdemeanor charges are likely to be settled by plea.

HOUSE BILL 237:
Revise Mortgage Lending Act

BILL ANALYSIS

Committee:	House Finance	**Date:**	July 25, 2005
Introduced by:	Reps. Coates, Saunders	**Summary by:**	Karen Cochrane-Brown
Version:	Second Edition		Staff Attorney

SUMMARY: House Bill 237 amends the Mortgage Lending Act to authorize the licensure of limited loan officers that are employed by affiliated mortgage bankers. The bill also authorizes the Commissioner of Banks to allow certain loan officer applicants to act as a loan officer during the pendency of their application and provides that exclusive mortgage brokers shall have branch managers to the same extent as other mortgage brokers or bankers. Finally, the bill provides that the Commissioner may discipline a licensee or applicant for falsely certifying attendance or completion of a continuing education course.

CURRENT LAW:

The Mortgage Lending Act, which was enacted in 2001, is a licensing and regulatory statute for the mortgage lending industry. It replaced a registration law, which did not provide for uniform standards, education or experience, and gave the Commissioner only limited authority to enforce the prohibitions.

Under the current law, mortgage bankers, mortgage brokers, and loan officers are required to be licensed by the Commissioner of Banks before engaging in the business of mortgage lending or mortgage brokering, unless exempt. The law exempts from licensing depository institutions (banks, wholly owned subsidiaries of banks, savings and loans, credit unions), life insurance companies, governmental lenders, nonprofits that make mortgage loans, persons that make no more than five loans a year, and real estate brokers who do not receive compensation for making loans.

A loan officer, under current law, is a compensated employee who accepts or offers to accept applications for mortgage loans. To be licensed, a loan officer must be 18 years of age and have completed within the previous three years an approved mortgage lending fundamentals course. The application and renewal fee for loan officers is $50.00.

The Commissioner of Banks has broad enforcement powers, including the power to revoke licenses and impose civil fines for violations of the law. Engaging in the mortgage banking or brokering business without a license is a Class I felony.

BILL ANALYSIS:

House Bill 237 makes several changes to the Mortgage Lending Act.

Section 1 creates several new definitions, including:

- Affiliate, means any company that controls or is controlled by another person. For purposes of the definition, the term control means ownership of all of the voting stock or comparable interest of the controlled person.
- Affiliated mortgage banker, means a licensed mortgage banker that meets one of two sets of criteria. The first set of criteria relate to (1) licensure or supervision by other jurisdictions or under a compact or agreement authorized by the Commissioner, (2) the number of licensed

employees, and (3) the licensee's net worth. The second set of criteria relate to (1) whether the licensee is a subsidiary of a company regulated by the Federal Reserve Board or the Office of Thrift Supervision, and (2) the licensee's net worth.

- Limited loan officer, means an employee of an affiliated mortgage banker that directly solicits, negotiates, offers or makes commitments for mortgage loans.
- Parent, means the person that controls an affiliated mortgage banker, as control is defined under the term affiliate.

Section 2 amends the law related to required licenses under the Mortgage Lending Act to include a requirement that limited loan officers be licensed.

This section also adds new language allowing certain loan officer applicants to act as a loan officer while their application for licensure is pending. In order to qualify for this treatment, the applicant must (1) have had no negative action taken on an application or license in the preceding five years, (2) be employed by a licensed mortgage broker or lender that certifies that the applicant is qualified and that undertakes to be responsible for the acts of the applicant, and (3) currently be or have been employed as a loan officer within the previous six months by an exempt depository institution. The Commissioner can deny or suspend this treatment if the Commissioner finds that the certification and undertaking have not been made in good faith.

Section 3 excludes experience as a limited loan officer from the kinds of experience required to qualify for licensure as a mortgage broker or mortgage banker.

Section 4 subjects limited loan officers to the same $50.00 fee requirement as currently applies to loan officers.

Section 5 establishes licensing requirements for limited loan officers and the affiliated mortgage bankers that employ them. A limited loan officer must be at least 18 and must work exclusively for an affiliated mortgage banker. An affiliated mortgage banker must notify the Commissioner when it hires a limited loan officer and provide any required information. It must also certify that the limited loan officer is qualified and agree to be liable for any claims and damages, including punitive damages arising from the limited loan officer's lending activities. The limited loan officer may act provisionally during the pendency of an application if the employer makes a written undertaking to be responsible for the applicant's activities. The Commissioner must approve the employer's systems, programs and procedures for checking, training and testing a limited loan officer. Except as provided in this section, a limited loan officer is subject to all of the other requirements applied to loan officers under the Act. Any person whose license is revoked, suspended or barred under this section is prohibited from participating in the mortgage lending business in this State.

Section 6 allows affiliated mortgage bankers to designate a branch manager who does not meet the experience requirement if it certifies that the person is competent to perform the duties of a branch manager.

HOUSE BILL 621:
Small Installment Consumer Loans

BILL ANALYSIS

Committee:	House Finance	**Date:**	July 26, 2005
Introduced by:	Rep. Wright	**Summary by:**	Karen Cochrane-Brown
Version:	PCS to First Edition H621-CSRUf-79[v.3]		Staff Attorney

SUMMARY: House Bill 621 adds a new Article to Chapter 53 (the Banking Law) that authorizes a new loan business. The Commissioner of Banks, who will issue licenses to qualified applicant lenders, will regulate the businesses. The lenders will be able to make loans of up to $1200.00 at graduated rates. The terms of the loans will be between three and eighteen months.

The bill also authorizes Consumer Finance lenders to collect delinquent payment charges of the greater of $10.00 or 5% of the amount due ten days after the due date for the payment.

[The Proposed Committee Substitute reduces the acquisition fee that may be charged on a renewed loan from 10% to 5%. It also increases the period after which a loan can be renewed from 61 days to at least one-third of the initial loan term has expired, but not less than 91 days.]

CURRENT LAW:

Currently, the North Carolina Consumer Finance Act (Article 15, Chap. 53) is the only State law that specifically authorizes nonbank lenders to make small unsecured loans. This Act authorizes the Commissioner of Banks to license and to supervise loan companies, which make direct consumer loans of $10,000 or less. A licensee must meet several statutory requirements including, maintaining loanable assets of not less than $50,000. Lenders that do not charge interest rates higher than those permitted by Chapter 24 are exempt for this Act. Also exempted are banks, trust companies, savings and loan associations, cooperative credit unions, agricultural credit corporations, production credit associations, pawnbrokers, and installment paper dealers.

The statute creates two tiers of lenders. G.S. 53-173 allows interest charges of 36% per year on that part of the unpaid principal balance, which does not exceed $600.00, and 15% per year on that portion which is more than $600 but not more than $3,000.

G.S. 53-176 authorizes optional rates for those lenders who elect to make loans of $10,000 or less and who so notify the Commissioner. These lenders may charge interest at the rate of 30% per year on that part of the unpaid principal balance, which does not exceed $1,000, and 18% per year on the remainder, which does not exceed $7,500. If the principal balance is more than $7,500, the maximum rate is 18% per year on the entire loan. Optional rate lenders may also charge a reasonable credit investigation fee, which cannot exceed the actual cost of the credit investigation.

Both categories of lenders use a blended interest rate for most loans made under this Article.

BILL ANALYSIS:

This bill would authorize a new category of small loans. The bill requires prospective lenders to be licensed by the Commissioner of Banks under similar terms as Consumer Finance lenders. Applicants would be required to pay a nonrefundable application investigation fee to the Commissioner of Banks in

the amount of $250.00. This bill would apply to loans of up to $1200.00. Lenders could charge an acquisition fee of 10% of the amount of the loan. However, on a renewed loan, the lender could only charge an acquisition fee of 5%. The rate of the "installment account handling charge" would be determined by the amount of the cash advance.

- On loans of $300.00 or less the rate would be 4.5% per month.
- On loans between $300.00 and $500.00 the rate would be 4% per month.
- On loans between $500.00 and $700.00 the rate would be 3% per month.
- On loans between $700.00 and $1000.00 the rate would be 2.5% per month.
- On loans between $1000.00 and $1200.00 the rate would be 2% per month.

The minimum term for any loan would be three months and the maximum term would be 18 months.

Lenders could not charge for insurance but could charge $10.00 for payments not made within ten days of the due date.

A borrower could not have more than one outstanding loan with the same lender; however, a lender could make a loan to payoff the balance of an outstanding loan to the borrower so long as the aggregate amount of the loans does not exceed $1200.00. The lender may charge a new acquisition fee to a borrower who has a loan from a lender that is acquired in a bulk transaction of loans.

Loans made under this section must provide for payments in substantially equal installments. Loans may not be prepaid by another loan from the same lender until at least 91 days after the initial loan, nor may the lender make a new loan to the same borrower unless the borrower receives at least 10% of the net payoff amount of the prior loan.

This Article does not apply to banks, trust companies, savings and loan associations cooperative credit unions, and other financial institutions organized under North Carolina or federal law.

The provisions of the Consumer Finance Act relating to application for license, locations and change of ownership, revocation, suspension or surrender of license, and conduct of other business in the same office are made applicable to persons or entities covered by this Act. In addition, the provisions of the Consumer Finance Act relating to certain consumer notices and protections and the Commissioners powers are also made applicable to this Act.

Finally, the bill also amends the Consumer Finance Act to authorize the collection of delinquent payment charges of the greater of $10.00 or 5% of the amount due if the payment is not made within 10 days of the due date.

This act would become effective October 1, 2005.

The clear proceeds of all civil penalties, fines, and forfeitures that are collected by the Department and payable to the counties for the support of public schools pursuant to Article IX, Section 7 of the Constitution of North Carolina shall be remitted to the Office of State Budget and Management by the officer having custody of the funds within 10 days after the close of the calendar month in which the funds were received or collected. During this pilot program, the clear proceeds of all civil penalties, fines, and forfeitures collected by the Department shall be diminished only by the actual costs of collecting the civil penalties, fines, and forfeitures. The Department shall report the total amount of civil penalties, fines, and forfeitures

PRINCIPAL DEPARTMENT(S) & PROGRAM(S) AFFECTED: Department of Environment and Natural Resources, Sedimentation Control Commission, Coastal Resources Commission

EFFECTIVE DATE: All provisions except pilot program are effective for violations and offenses committed on or after December 1, 2005.

BILL SUMMARY:

Makes changes regarding environmental penalties that may be assessed for violations of the Sedimentation Pollution Control Act, the Coastal Area Management Act, Solid Waste Management law, and Wastewater Systems law. Authorizes the Secretary of the Department of Environment and Natural Resources (DENR) to issue administrative orders directing

environmental violators to participate in certain remedial activities. Directs DENR to create a pilot program focused on determining and retaining actual costs of collecting civil penalties, fines, and forfeitures. DENR is required to report on the pilot program by March 1, 2007, and April 1, 2008.

ASSUMPTIONS AND METHODOLOGY:

This bill includes several changes to the civil penalties that may be assessed for environmental violations. The proceeds of all civil penalty proceeds are deposited into the Civil Penalty and Forfeiture Fund for use by North Carolina public schools.

Section 1 allows, for the purpose of deterrence, the Secretary to assess a penalty of up to $10,000 for the first day of a violation of the Sedimentation Pollution Control Act. Currently, the maximum fine is set at $5,000. In a typical year, there are 270 violations, and approximately 56 cases of those are assessed civil penalties. Since this power is discretionary, no estimate can be made at this time.

Section 2 amends the civil penalties for Coastal Area Management Act (CAMA) violations by increasing the minor development violation maximum from $250 to $1,000 and the major development violation maximum from $2,500 to $10,000. In a typical year, 171 CAMA violations occur, and the Coastal Resources Commission (CRC) assesses 135 of those cases penalties. In 2004 the Coastal Resources Commission collected $30,500 in civil penalty revenue. No estimate of additional penalty revenue is possible since Section 2 only increases the maximum penalty but does not require the Commission to assess the higher penalty.

Section 2 also authorizes the Coastal Resource Commission to assess the violator the costs of investigation, inspection, and monitoring. The amount of the assessments of investigative costs shall not exceed one-half of the amount of the civil penalty assessed or $1,000 for minor development violations or $2,500 for a major development violations, whichever is less. Any investigative costs collected would be deposited into the General Fund. Since this power is discretionary and investigative costs vary, no estimate can be made at this time.

Section 4 amends increases administrative penalties for violation of the Solid Waste Management law from a maximum of $5,000 to $10,000 a day for nonhazardous waste and a maximum of $25,000 to $32,500 for other violations (but not more than $25,000 for the first day). Table A summarizes the number of violations and civil penalties assessed in a typical year by violation type. In 2004 the Division of Waste Management deposited $457,132 in fines into the Civil Penalty and Forfeiture Fund. No estimate of additional penalty revenue is possible since Section 4 only increases the maximum penalty but does not require DENR to assess the higher penalty.

Table A: Typical Number of Waste Violations

Violation Type	# of Violations	# Assessed Civil Penalties
Hazardous Waste	99	20
Solid Waste	22	11
Underground Storage Tank	216	72

Section 5 increases administrative penalties for violation of the Wastewater Systems law from a maximum of $50 to $100 per day for smaller violations and a maximum of $400 to $5,000 per day for larger violations. In a typical year, the Division of Water Quality (DWQ) issues 923 Notices of

Violation and assesses 722 civil penalties. In 2004 DWQ deposited $5,376,143 into the Civil Penalty and Forfeiture Fund. No estimate of additional penalty revenue is possible since Section 5 only increases the maximum penalty but does not require DENR to assess the higher penalty.

Section 6 extends the penalty for false reporting under the Solid Waste law to include false reporting under the Drinking Water Act. The maximum fine that may be imposed for such an offense is $10,000. Currently, there is not sufficient data to estimate the number of false reports expected.

Under Section 7, the Secretary of DENR, in addition to other remedies, may require an environmental violator to attend environmental education courses and may charge a fee, not to exceed $100, to compensate for the reasonable cost of attending such courses. Such course fees would be deposited in the General Fund. Since this power is discretionary, there is no estimate currently available.

Section 8 directs DENR to create a pilot program during the period of October 1, 2005 through April 1, 2008, focused on determining and retaining the actual costs of collecting civil penalties, fines, and forfeitures as well as improving assessment and collection. DENR believes that it can implement this pilot program using existing staff. Currently DENR may retain up to 10% of civil penalty assessments to cover collection costs. This section would allow DENR to retain the actual cost of collection up to 20% of the total civil penalty. The net impact on the Fines and Forfeitures Fund is unclear. If actual collection costs are more than 10%, the Fund would receive a smaller percentage of civil penalty collections. If collection rates remain steady or decline, a net decrease to the Fund would result. However, if collection rates increase as a result of this provision, the net amount deposited in the Fund could actually increase.

SECTION 7.(d) The Authority may acquire from the Board, and the Board may grant and convey, either by gift or for such consideration as the Board may deem appropriate, any real or personal property which it now owns or may hereafter acquire, which may be necessary for the construction, operation, and maintenance of Heritage Park facilities.

SECTION 7.(e) Any lands acquired, owned, controlled, or occupied by the Authority shall be, and are hereby declared to be acquired, owned, controlled, and occupied for a public purpose.

SECTION 8.(a) A copy of the ordinance creating the Authority and of any ordinance amending or repealing the joint resolution creating the Authority shall be filed with the following:

(1) The Secretary of State.
(2) The clerk to the Board.
(3) The clerk of superior court of Avery County.
(4) A newspaper of general circulation in Avery County.

SECTION 8.(b) Unless a ordinance specifies a later date, it shall take effect when the ordinance has been submitted to the Secretary of State for filing. Certifications by the clerk of superior court of the text of any ordinance filed with that clerk are admissible in evidence.

SECTION 9.(a) Except as limited by restrictions in any ordinance and by other supervening provisions of law, the Authority may make regulations applicable to Heritage Park concerning all matters relating to or affecting the use of Heritage Park. These regulations may not conflict with or supersede provisions of general or special acts or of regulations of State agencies promulgated under the authority of general law. No regulations adopted under the provisions of this section may be adopted by the Authority except after public hearing, with publication of notice of the hearing in a newspaper of general circulation in the county at least 10 days before the hearing.

SECTION 9.(b) Violation of any regulation of the Authority commanding or prohibiting an act shall be a Class 3 misdemeanor.

SECTION 9.(c) The regulations promulgated under this section take effect upon passage or upon such dates as may be stipulated in the regulations except that no regulation may be enforced unless adequate notice of the regulation has been posted in Heritage Park. Ordinances providing regulations for specific areas shall clearly establish

the boundaries of the affected area by including a map of the regulated area, with the boundaries clearly drawn, or by setting out the boundaries in a written description, or by a combination of these techniques. Adequate notice as to a regulation affecting only a particular location shall be given in the following manner. When a regulation applies generally as to Heritage Park, there must be a posting of notices, signs, or markers communicating the essential provisions in at least three different places throughout the area, and it shall be printed in a newspaper of general circulation in the county.

SECTION 9.(d) A copy of each regulation promulgated under this section must be filed by the Authority with the following persons:

(1) The Secretary of State;

(2) The clerks of superior court of Avery County.

(3) The clerk to the Board.

SECTION 9.(e) Any official designated in subsection (d) above may issue certified copies of regulations filed with the official under the seal of the official's office. Such certified copies may be received in evidence in any proceeding.

SECTION 9.(f) Publication and filing of regulations promulgated under this section as required above are for informational purposes and is not a prerequisite to their validity if they in fact have been duly promulgated, the public has been notified as to the substance of the regulations, a copy of the text of all regulations is in fact available to any person who may be affected, and no party to any proceeding has been prejudiced by any defect that may exist with respect to publication and filing. Rules and regulations promulgated by the Authority under the provisions of other sections of this Article relating to internal governance of the Authority need not be filed or published. Where posting of any sign, notice, or marker, or the making of other communication is essential to the validity of a regulation duly promulgated, it is presumed in any proceeding that prior notice was given and maintained and the burden lies upon the party asserting to the contrary to prove lack of adequate notice of any regulation.

SECTION 10.(a) Where an ordinance so provides, all law enforcement officers, or those officers as may be designated in the ordinance, with territorial jurisdiction as to any part of Heritage Park within the limitations of their subject matter jurisdiction, have the authority of peace officers in enforcing the laws over all of Heritage Park. A certificate of training issued by the North Carolina Criminal Justice Education and Training Standards Commission or the North Carolina Sheriffs' Education and Training Standards Commission will suffice for certification for the purposes of this Article.

SECTION 10.(b) Where a law enforcement officer with jurisdiction over any part of Heritage Park is performing duties relating to the enforcement of the laws, the officer shall have such extraterritorial jurisdiction as may be necessary to perform the officer's duties. These duties include investigations of crimes an officer reasonably believes have been, or are about to be, committed within the area in question. This includes traversing by reasonable routes from one portion of this area to another although across territory not within the boundaries of Heritage Park; conducting prisoners in custody to a court or to detention facilities as may be authorized by law, although this may involve going outside the area in question; execution of process

connected with any criminal offense alleged to have been committed within the boundaries in question, except that this process may not be executed by virtue of this provision beyond the boundaries of the two counties. This also includes continuing pursuit of and arresting any violator or suspected violator as to which grounds for arrest arose within the area in question.

SECTION 10.(c) Where law enforcement officers are given additional territorial jurisdiction under the provisions of this section, this shall be considered an extension of the duties of the office held and no officer shall take any additional oath or title of office.

SECTION 11. The Authority shall report annually to the Board regarding its operations and activities during the previous year and on any other matter requested by the Board.

SECTION 12. If one or more sections, clauses, sentences, or parts of this act shall be adjudged invalid, such judgment shall not affect, impair, or invalidate the remaining provisions thereof, but shall be confined in its operation to the specific provision held invalid, and the inapplicability or invalidity of any section, clause, sentence, or part of this act in one or more instances or circumstances shall not be taken in affect or prejudice in any way its applicability or validity in any other instance.

SECTION 13. This act is effective when it becomes law.

Referred to:

April 21, 2005

A BILL TO BE ENTITLED

AN ACT TO ENABLE THE COUNTY OF AVERY TO ESTABLISH THE HERITAGE PARK AUTHORITY FOR THE MAINTENANCE AND DEVELOPMENT OF THE HERITAGE PARK FACILITIES IN AVERY COUNTY.

The General Assembly of North Carolina enacts:

SECTION 1. There is hereby created the Heritage Park Authority ("Park Authority"). The Park Authority is a body politic and corporate having the powers and jurisdiction hereinafter enumerated and any other additional powers as shall be conferred upon it by general law and the future acts of the General Assembly.

SECTION 2. The Park Authority shall consist of nine members who shall be appointed to staggered terms of four years by the Avery County Board of Commissioners. All of the members shall be permanent residents of Avery County. Of the initial nine members, five shall be appointed to a term of four years and four shall be appointed to a term of two years. Thereafter, all terms shall be for four years, thus creating the staggered positions. Each member shall take and subscribe before the Clerk of the Superior Court of Avery County an oath of office and file the same with the Avery County Board of Commissioners. Upon the occurrence of any vacancy on the Park Authority, the vacancy shall be filled within 60 days after the vacancy occurs by the recommending entity upon approval of the Board of Commissioners. If the Authority fails to recommend a replacement to fill the vacancy within 60 days, the Board of Commissioners shall fill the vacancy at their next regular meeting.

SECTION 3.(a) The members of the Park Authority shall be appointed by the Avery County Board of Commissioners, as follows:

(1) One member shall be appointed upon the recommendation of the Avery County Agricultural and Horticultural Fair, Inc., a nonprofit corporation.

(2) One member shall be appointed from the Avery County Recreational Advisory Commission.

(3) The Towns of Banner Elk, Beech Mountain, Crossnore, Elk Park, Newland, and Sugar Mountain shall each nominate one member.

(4) The southern portion of Avery County shall recommend one member, with that nomination to be determined by the Frank and Green Valley Fire Departments.

No member of the Avery County Board of Commissioners may serve on the Park Authority Board. In the event that the Avery County Agricultural and Horticultural Fair, Inc., becomes nonexistent, then the Park Authority Board will have only eight members.

SECTION 3.(b) The Park Authority shall elect from among its members a Chair, a Secretary, and a Treasurer at its initial meeting and then annually thereafter. A majority of the Park Authority shall control its decisions. Each member of the Park Authority, including the Chair, shall have one vote. The Park Authority shall meet at the places and times designated by the Chair and shall be subject to the Open Meetings Law.

SECTION 3.(c) The Park Authority may adopt suitable bylaws for its management, subject to approval of the Avery County Board of Commissioners. The members of the Park Authority shall receive no compensation or per diem, but shall be allowed and paid their actual traveling expenses incurred in transacting the official business of the Park Authority.

SECTION 4. The Park Authority shall have the following powers and authority:

(1) To purchase, acquire, establish, construct, own, control, lease, equip, improve, maintain, operate, and regulate Heritage Park facilities for the use of the general public within Avery County for the purpose to purchase, improve, own, hold, lease, or operate real or personal property.

(2) To sue and to be sued in the name of the Park Authority, to make contracts and hold any personal property necessary for the exercise of the powers of the Park Authority, and to acquire by purchase, lease, or otherwise any existing lease or leasehold right.

(3) To charge and collect reasonable and adequate fees and rents for the use of the Heritage Park facilities or for services rendered in the operation of the facilities. Revenues from fees and rents shall be used only for upkeep and operation of Heritage Park.

(4) To make all reasonable rules and regulations it deems necessary for the proper maintenance, use, operation, and control of Heritage Park facilities and to provide and enforce penalties for the violation of these rules and regulations; provided, however, that the rules and regulations and schedules of fees shall not be in conflict with the laws of the State of North Carolina.

(5) To sell, lease, or otherwise dispose of any property, real or personal, belonging to the Park Authority, according to the procedures described in Article 12 of Chapter 160A of the General Statutes, but no sale of

real property shall be made without the express approval of the Avery County Board of Commissioners.

(6) To deposit or invest and reinvest any of its funds as provided by the Local Government Finance Act, as it may be amended from time to time.

(7) To purchase any of its own outstanding bonds or notes.

(8) To operate, own, lease, control, regulate, or grant to others, for a period not to exceed five years, with an option to renew the right to operate on the Heritage Park facilities any snack bars, vending machines, food and beverages dispensing outlets, advertising media, automobile parking facilities, and other types of facilities as may be directly related to the maintenance and furnishing of a complete parks and recreational facility to the public.

(9) To erect and construct buildings and other improvements and facilities not inconsistent with or in violation of the agreements applicable to and the grants under which real property of the Park Authority is held.

(10) To lease their improvements and facilities for a term or terms not to exceed five years, with an option to renew at the termination of the lease.

(11) To borrow money for use in the making and paying of these improvements and facilities, secured by and on the credit only of any lease agreements in respect to these improvements and facilities, and to pledge and assign leases and lease agreements as security for the authorized loans.

(12) To procure grants to allow for the installation of improvements upon real property.

(13) To have a corporate seal which may be altered at will.

SECTION 5. The Park Authority shall possess the same exemptions in respect to payment of taxes and license fees and shall be eligible for sales and use tax refunds to the same extent as provided for municipal corporations by the laws of the State of North Carolina.

SECTION 6. The Park Authority may acquire from Avery County, by agreement with the County, and the County may grant and convey, either by gift or for such consideration as the County may deem appropriate, any real or personal property which it now owns or may hereafter acquire, which may be necessary for the construction, operation, and maintenance of Heritage Park facilities.

SECTION 7. Any lands acquired, owned, controlled, or occupied by the Park Authority shall be, and are hereby declared to be acquired, owned, controlled, and occupied for a public purpose.

SECTION 8. Subject to the limitations as set out in this act, all rights and powers given and granted to counties and municipalities by general law, which may now be in effect, or enacted in the future relating to the development, regulation, and control of Heritage Park facilities, are vested in the Park Authority. The Avery County Board of Commissioners may delegate its powers under these acts of the Park

Authority, and the Park Authority shall have concurrent rights with Avery County to control, regulate, and provide for the development of Heritage Park in Avery County.

SECTION 9. The Park Authority may contract with and accept grants from the State of North Carolina, the federal government, or any of the agencies or representatives of either said governmental bodies relating to the purchase of land and to the grading, constructing, equipping, improving, maintaining, or operating of Heritage Park.

SECTION 10. The Park Authority may employ any agents or professionals whose services may be deemed by the Park Authority to be necessary and useful in carrying out the provisions of this act.

SECTION 11. The Avery County Board of Commissioners may appropriate funds as the Board of Commissioners deems necessary to carry out the provisions of this act in any proportion or upon any basis as may be determined by the Avery County Board of Commissioners. The Park Authority may make recommendations to the Avery County Board of Commissioners with respect to such appropriations.

SECTION 12. The Park Authority may expend the funds that are appropriated by the County and may pledge the credit of the Park Authority only to the extent of the appropriate funds.

SECTION 13. The Park Authority shall not have the power to pledge the credit of Avery County, or any subdivision thereof, or to impose any obligation upon Avery County or any of its subdivisions except when the power is expressly granted by statute.

SECTION 14. The Park Authority shall make an annual report to the Avery County Board of Commissioners in July of each year setting forth in detail the operations and transactions conducted by it pursuant to this act.

SECTION 15. The powers granted to the Park Authority shall not be effective until the members of the Park Authority have been appointed by the Avery County Board of Commissioners, and nothing in this act shall require the Board of Commissioners to make the initial appointments. It is the intent of this act to enable, but not require, the formation of the Avery County Parks and Recreational Authority.

SECTION 16. If one or more sections, clauses, sentences, or parts of this act shall be adjudged invalid, such judgment shall not affect, impair, or invalidate the remaining provisions thereof, but shall be confined in its operation to the specific provision held invalid, and the inapplicability or invalidity of any section, clause, sentence, or part of this act in one or more instances or circumstances shall not be taken in affect or prejudice in any way its applicability or validity in any other instance.

SECTION 17. This act is effective when it becomes law.

HOUSE BILL 1526:
Avery County/Heritage Park Authority

BILL ANALYSIS

Committee:	House Finance	**Date:**	July 25, 2005
Introduced by:	Reps. Frye, Jones	**Summary by:**	Cindy Avrette
Version:	PCS to Second Edition H1526-CSST-81		Committee Counsel

SUMMARY: ***The proposed committee substitute for House Bill 1526 would allow the Avery County Board of Commissioners to create an authority that could acquire the property known as "Heritage Park" and operate and maintain the facilities on that property. The bill would become effective when it becomes law. The original bill, sponsored by Rep. Frye, would have eliminated the automobile insurance comprehensive deductible on motor vehicle windshield glass.***

BILL ANALYSIS: There is approximately 52 acres of property in Avery County known as "Heritage Park". The property has some facilities on it and is used by the county for certain purposes, including its Agricultural and Horticultural Fair. This bill would establish an authority that would have the ability to acquire the property and to improve, maintain, operate, and regulate the facilities on that property. The Authority would have the ability to charge and collect fees and rents for the use of the facilities as well as borrow money for use in improving the facilities. The Authority may make regulations concerning Heritage Park and law enforcement officers with jurisdiction of the Park may enforce those regulations. A violation of a regulation of the Authority would be a Class 3 misdemeanor. The Avery County Board of Commissioners may appropriate funds to the Authority and the Authority is entitled to the same exemptions in respect to payment of taxes as municipal incorporations.

The Authority may be created by ordinance of the Board of Commissioners of Avery County after notice and public hearing. Upon creation of the Authority, the Board must appoint a nine-member governing body for the Authority. To be eligible to serve on the governing body, a person must maintain a permanent residence in Avery County. A majority of the Authority shall control its decisions. The members of the governing body would serve four-year staggered terms. A member could not serve more than two consecutive terms. The members would not receive compensation or per diem, but they may be allowed their actual traveling expenses. The members of the governing body of the Authority must be appointed as follows:

- One member upon the recommendation of the Avery County Agricultural and Horticultural Fair, Inc. (If the Avery County Agricultural and Horticultural Fair, Inc. becomes nonexistent, then the governing body of the Authority shall have only eight members.)
- One member must be appointed from the Avery County Recreational Advisory Commission.
- One member from the southern portion of Avery County upon the recommendation of the Frank and Green Valley Fire Departments.
- Six members representing the municipalities in Avery County. The Board must appoint the members upon the recommendation of each of the following Board of Commissioners: Banner Elk, Beech Mountain, Crossnore, Elk Park, Newland, and Sugar Mountain.

EFFECTIVE DATE: The bill would become effective when it becomes law.

House Committee on Finance

Minutes

~

July 28, 2005

The House Committee on Finance met on Thursday, July 28, 2005 at 8:30 am in Room 544 of the Legislative Office Building. The following members were present: Chairpersons Alexander, Gibson, Howard, Luebke, McComas and Wainwright; Vice-Chairs Hill, Ross, Weiss, and Womble; and Representatives B. Allen, Blackwood, Blust, Bordsen, Capps, Carney, Dockham, England, Faison, Fisher, Folwell, Glazier, Goforth, Harrell, Holliman, Insko, Jones, Lewis, Lucas, McGee, Underhill, Vinson, Walend and Wiley. Ex-Officio member Representative Culpepper was present. Also present were Sergeant-at-Arms Bill Freeman, Fred Hines, Dusty Rhodes, and Walter Spell. Staff persons present included Cindy Avrette, Rodney Bizzell, Brenna Erford, Ashley Huffstetler, Canaan Huie, Linda Millsaps, and Martha Walston. The Agenda and Visitor Registration Sheet are attached and incorporated into these minutes as **attachments 1 and 2**.

Chairman Gibson called the meeting to order at 8:33 am and recognized the nine (9) pages present: (1) Chris Archer of Wake County, sponsored by Representative Lucy Allen; (2) Lejeana Black of Mecklenburg County, sponsored by Representative Carney; (3) Holt Broadhurst of Wake County, sponsored by Representative McComas; (4) Marketa Floyd of Mecklenburg County, sponsored by Representative Carney; (5) Emily Harper of Vance County, sponsored by Representative Wray; (6) David Hopkins of Rockingham County, sponsored by Representative Cole; (7) Reeva Sawhney of Gaston County, sponsored by Representative Rayfield; (8) Robert Story of Guilford County, sponsored by Representative Jeffus; and (9) Nancy Warren of Person County, sponsored by Representative Wilkins.

Chairman Gibson first recognized Representative Saunders for continued discussion on **HB 237 – REVISE MORTGAGE LENDING ACT** (see **attachment 3**) from the Committee meeting on Wednesday, July 27. Representative Hill moved for the adoption of the proposed committee substitute for HB 237 for the purposes of discussion. The motion carried. Karen Cochrane-Brown with Research staff was then recognized to explain the changes made to the bill in the proposed committee substitute. Details of her statements can be found in the attached bill summary. Following this explanation, Representative Hill was recognized and moved that the proposed committee substitute for HB 237 be given a favorable report with an unfavorable report as to the original bill. Chairman Gibson then recognized Representative Saunders who further stated that all of the concerns expressed by the stakeholders at the Committee's July 27, 2005 meeting had been addressed in the proposed committee substitute before the Committee. Seeing no further discussion, Chairman Gibson then called Representative Hill's motion to a vote, and the motion carried with no known opposition.

The next bill under consideration by the Committee was **SB 339 - TOWN OF AHOSKIE OCCUPANCY TAX** (see **attachment 4**). Chairman Gibson recognized Representative Culpepper who moved that the proposed committee substitute be before the committee for consideration. The motion carried. Rep. Warren was then recognized to explain the bill. She, with the assistance of staff person Ashley Huffstetler, stated that the PCS served as an omnibus bill for several localities requesting either changes to or issuance of an occupancy tax. (Further detail is provided in the bill summary.) Representative Womble, Chairman of the Occupancy Tax Subcommittee, was recognized next and informed the committee that the Subcommittee had considered the bill and recommended its approval to the full Committee. Representative Womble then moved that the PCS for SB 339 be given a favorable report with an unfavorable report as to the original bill. Seeing no further discussion, Chairman Gibson then called the motion to a vote, and it carried by consent.

HB 1283 – IMPROVE ENVIRONMENTAL ENFORCEMENT (see **attachment 5**) was the next bill considered by the Committee. Representative Alexander moved for the adoption of the PCS for the purposes of discussion, and the motion carried. Representative Culpepper, the bill sponsor, was then recognized to explain the proposed committee substitute. He began by stating that most of the provisions of the bill were included in a similar bill passed by the House in 2003. However, that bill was not considered in the Senate prior to the adjournment of the 2003 session, which necessitated the current bill before the Committee. Representative Culpepper then provided a detailed description of the bill (see bill summary).

Following this explanation, Chairman Gibson proceeded to recognize a number of individuals who spoke in opposition to the bill. Paul Wilms with the North Carolina Home Builders Association noted his concerns with the doubling of the penalties for violation to the Sedimentation Act contained in the bill. However, he also noted that many of these concerns had been addressed in the PCS of the bill before the Committee and expressed his thanks to the bill sponsor for his consideration of those concerns. Mac Boxley, General Counsel for the North Carolina Aggregates Association, was recognized next and informed the Committee that his organization, as a stakeholder to the bill, had never been contacted for input. He further stated that no consensus on the bill had been made and that more time for stakeholder discussion should be allowed. John Long, spokesman for Martin Marrieta Materials was then recognized and spoke of the long working relationship between Martin Marietta Materials and the Department of Environment and Natural Resources. He further stated his discontent that his organization had not been contacted for input and also expressed his opposition to the large fine increases contained in the bill. The last speaker recognized to speak in opposition was Leanne Winner, representing the North Carolina School Board Association. She stated her opposition to Sections 10 and 11 of the bill pertaining to the fines and forfeiture provisions. She informed the Committee members that these provisions could place in jeopardy the monies from fines and forfeitures that the school boards have traditionally enjoyed under the provisions of the state constitution. She then requested that the Committee members amend the bill by deleting Sections 10 and 11.

Chairman Gibson next recognized Robin Smith, Assistant Secretary of the Department of Environment and Natural Resources, who spoke in support of the bill. Speaking specifically to concerns on Sections 10 and 11 of the bill, she stated that the intent of the pilot program in those sections was actually to increase the amount of funds available to the school boards.

The Chair then opened the floor to questions and comments from the Committee members. Representative Goforth was recognized and asked how many violations of the Sedimentation Act

contained in the bill had occurred within the last year. To respond, Chairman Gibson recognized Jim Simons, Director of the Division of Land Resources in DENR. Mr. Simons estimated that approximately 20 violations had occurred in the past year. Representative Goforth then stated that the drastic increases in fines in the bill were unnecessary given the few violations that had occurred. He further stated that the bill seemed to be a method to bankrupt small businesses affected by the legislation. Representative Blackwood was then recognized and stated his concern that none of the stakeholders were involved with the formulation of the bill. He also noted his concern of the high fine increases. Representative Culpepper was recognized to respond and stated that concessions on the bill to address stakeholders concerns had been made, referring to the changes made to the bill at the request of the Home Builders Association. Representative Capps was recognized next and stated that the bill was entirely too radical of a change. He stated that the bill giving judicial authority to the Secretary of DENR was inappropriate and that the Chairman was not allowing sufficient time for proper discussion of the bill.

Chair Gibson then recognized Representative Dockham who asked if "major" and "minor" violations to the Sedimentation Act were clearly defined in the statutes. Robins Smith with DENR responded in the affirmative. Representative Underhill spoke next and thanked the bill sponsor for bringing the bill before the Committee. Representative Weiss was then recognized for her comments and a motion. She stated that the provisions contained in the bill were not new and that the bill had been available to all parties, including those most affected, for an ample amount of time. She further stated that violations of the state's Sedimentation Act were the number one cause of water pollution in North Carolina. She also asserted that the bill gives the Department the flexibility that is needed to properly address each violation. She then moved that the PCS for HB 1283 be given a favorable report with an unfavorable report as to the original bill. Seeing no further discussion, Chairman Gibson then called the motion to a vote, and the motion carried by a majority.

The final bill considered by the Committee was **HB 621 – SMALL INSTALLMENT CONSUMER LOANS** (see **attachment 6**). Representative Hill moved the adoption of the PCS, and the motion carried. Chairman Gibson then recognized Representative Wright, the bill sponsor, to explain the bill to the Committee (see attached bill summary).

The following individuals were recognized to speak in opposition of the bill. Each noted their concerns of the high interest rates allowed under the bill (from 65% to 150%) and the fact that the population most utilizing these type loans would not understand the associated financial impacts:

- Chris Kukla, Self-Help
- Al Ripley, NC Justice Center
- Steve Roberts, AARP
- Elizabeth Ouzts, NC Public Interest Research Group
- Octavia Rainey, Concerned Advocate
- Josh Stein, Director of Consumer Protection Division, NC Attorney General's Office
- Antowanna Blount, Triangle Family Services

The Chair then recognized those individuals who wished to speak in support of the bill. Each of these individuals stated that these loans were a needed service to those persons who cannot otherwise secure a loan at a traditional bank due to poor credit:

- Ed Renfrow, Chief Financial Officer, Coastal Financial Association & Former State Senator and State Auditor
- Charles Walters, Chairman, World Acceptance Corporation
- Dick Carlton, North Carolina Independent Finance Association

- Roger Bone, Advocate for Resident Lenders

Following these speakers, the Chair then recognized Representative Wright who, addressing the concerns expressed about the high fees associated with these types of loans, stated that there were also exorbitant fees associated with the writing of a bad check. Representative Allen was recognized next and stated that this piece of legislation was simply a "bad bill" and needed "a lot of work" before he could support it. Representative Capps concurred stating that the bill was nothing more than the State endorsing a "scam". Representative McGee stated that while a lot of work had been done in the PCS to address some of his concerns, he still could not support the bill. Representative Hill was recognized and stated that while he was aware of the strong opposition to the bill, as a retailer, he was supportive of it and felt that it was a needed service in many communities. He then moved that the PCS for HB 621 be given a favorable report, with an unfavorable report as to the original bill.

Chairman Gibson then recognized Representative Faison who stated he had heard from the Caswell County Chapter of the NAACP on the bill and, therefore, could not support it. Representative Wright responded by asking the members to focus on the need for the bill and not on emotion. He stated that every member of the Committee had constituents who would benefit from the creation of these loans, especially in times of emergency when extra money was needed. Representative Jones then made a final comment stating that while many oppose this bill, no one presents an alternative to those who need such services to be available to them. Then, seeing no further discussion or debate, Chairman Gibson then called the Hill motion to a vote. Division being called, the votes were tallied. By a vote of 9 ayes to 17 nays, the motion failed.

As the Committee's time had then expired, Chairman Gibson then adjourned the meeting at 9:59 am.

Respectfully submitted,

HOUSE BILL 237:
Revise Mortgage Lending Act

BILL ANALYSIS

Committee:	House Finance	**Date:**	July 27, 2005
Introduced by:	Reps. Coates, Saunders	**Summary by:**	Karen Cochrane-Brown
Version:	PCS to Second Edition H237-CSRO-43 [v.1]		Staff Attorney

SUMMARY: ***House Bill 237 amends the Mortgage Lending Act to authorize the licensure of limited loan officers that are employed by affiliated mortgage bankers. The bill also authorizes the Commissioner of Banks to allow certain loan officer applicants to act as a loan officer during the pendency of their application and provides that affiliated mortgage bankers shall have branch managers to the same extent as other mortgage brokers or bankers. Finally, the bill provides that the Commissioner may discipline a licensee or applicant for falsely certifying attendance or completion of a continuing education course.***

The Proposed Committee Substitute makes several technical changes to include the term "affiliated mortgage banker" and to substitute the term "mortgage banker" for "mortgage lender" in section 2 of the bill. The PCS also adds language to limit the period during which a limited loan officer can act provisionally to no more than 60 days, pending approval of his or her license application in section 5 of the bill. Finally, the PCS adds a requirement that a branch manager for an affiliated mortgage banker must have been employed by the affiliated mortgage banker for at least a year as a loan officer, limited loan officer, or in a similar capacity in another state.

CURRENT LAW:

The Mortgage Lending Act, which was enacted in 2001, is a licensing and regulatory statute for the mortgage lending industry. It replaced a registration law, which did not provide for uniform standards, education or experience, and gave the Commissioner only limited authority to enforce the prohibitions.

Under the current law, mortgage bankers, mortgage brokers, and loan officers are required to be licensed by the Commissioner of Banks before engaging in the business of mortgage lending or mortgage brokering, unless exempt. The law exempts from licensing depository institutions (banks, wholly owned subsidiaries of banks, savings and loans, credit unions), life insurance companies, governmental lenders, nonprofits that make mortgage loans, persons that make no more than five loans a year, and real estate brokers who do not receive compensation for making loans.

A loan officer, under current law, is a compensated employee who accepts or offers to accept applications for mortgage loans. To be licensed, a loan officer must be 18 years of age and have completed within the previous three years an approved mortgage lending fundamentals course. The application and renewal fee for loan officers is $50.00.

The Commissioner of Banks has broad enforcement powers, including the power to revoke licenses and impose civil fines for violations of the law. Engaging in the mortgage banking or brokering business without a license is a Class I felony.

BILL ANALYSIS:

House Bill 237 makes several changes to the Mortgage Lending Act.

Section 1 creates several new definitions, including:

- Affiliate, means any company that controls or is controlled by another person. For purposes of the definition, the term control means ownership of all of the voting stock or comparable interest of the controlled person.
- Affiliated mortgage banker, means a licensed mortgage banker that meets one of two sets of criteria. The first set of criteria relate to (1) licensure or supervision by other jurisdictions or under a compact or agreement authorized by the Commissioner, (2) the number of licensed employees, and (3) the licensee's net worth. The second set of criteria relate to (1) whether the licensee is a subsidiary of a company regulated by the Federal Reserve Board or the Office of Thrift Supervision, and (2) the licensee's net worth.
- Limited loan officer, means an employee of an affiliated mortgage banker that directly solicits, negotiates, offers or makes commitments for mortgage loans.
- Parent, means the person that controls an affiliated mortgage banker, as control is defined under the term affiliate.

Section 2 amends the law related to required licenses under the Mortgage Lending Act to include a requirement that limited loan officers be licensed.

This section also adds new language allowing certain loan officer applicants to act as a loan officer while their application for licensure is pending. In order to qualify for this treatment, the applicant must (1) have had no negative action taken on an application or license in the preceding five years, (2) be employed by a licensed mortgage broker or lender that certifies that the applicant is qualified and that undertakes to be responsible for the acts of the applicant, and (3) currently be or have been employed as a loan officer within the previous six months by an exempt depository institution. The Commissioner can deny or suspend this treatment if the Commissioner finds that the certification and undertaking have not been made in good faith.

Section 3 excludes experience as a limited loan officer from the kinds of experience required to qualify for licensure as a mortgage broker or mortgage banker.

Section 4 subjects limited loan officers to the same $50.00 fee requirement as currently applies to loan officers.

Section 5 establishes licensing requirements for limited loan officers and the affiliated mortgage bankers that employ them. A limited loan officer must be at least 18 and must work exclusively for an affiliated mortgage banker. An affiliated mortgage banker must notify the Commissioner when it hires a limited loan officer and provide any required information. It must also certify that the limited loan officer is qualified and agree to be liable for any claims and damages, including punitive damages arising from the limited loan officer's lending activities. The limited loan officer may act provisionally for up to 60 days during the pendency of an application if the employer makes a written undertaking to be responsible for the applicant's activities. The Commissioner must approve the employer's systems, programs and procedures for background checking, training and testing a limited loan officer. Except as provided in this section, a limited loan officer is subject to all of the other requirements applied to loan officers under the Act. Any person whose license is revoked, suspended or barred under this section is prohibited from participating in the mortgage lending business in this State.

Section 6 allows affiliated mortgage bankers to designate a branch manager who does not meet the experience requirement if it certifies that the person has been employed by the affiliated mortgage banker for at least one year as a loan officer, limited loan officer, or in a similar capacity in another state.

Section 7 adds a new item to the list of actions that the Commissioner may use as the basis for disciplining a licensee or applicant. The Commissioner may take action against a licensee or applicant who has falsely certified attendance or completion of hours at a continuing education course.

EFFECTIVE DATE: The act is effective when it becomes law.

BILL ANALYSIS

Committee: House Finance
Date: July 28, 2005
Version: PCS S339-CSMBx-35

Sponsor: Senator Holloman
Analysis by: Ashley Huffstetler

SUMMARY: The PCS to Senate Bill 339 authorizes the towns of Ahoskie and Elkin to levy room occupancy taxes, creates a special taxing district in Ocracoke Township for the purposes of levying an occupancy tax, amends the occupancy taxes in Chowan and Martin counties, and reenacts the Carteret occupancy tax amendments that passed earlier this session. All taxes fully conform to the House Finance committee's occupancy tax guidelines.

BILL ANALYSIS: The PCS for Senate Bill 339 does the following:

- Authorizes the Town of Ahoskie to levy a room occupancy tax at a rate of 3%. Ahoskie is located in Hertford County, which has authority to levy a 3% occupancy tax in the county. The total rate of tax levied in the Town of Ahoskie will be 6%.
- Authorizes the Town of Elkin to levy a room occupancy tax at a rate of 6%. Elkin is located in Surrey County, which does not have authority to levy an occupancy tax.
- Creates a special taxing district in the existing Ocracoke Township and authorizes the district to levy a room occupancy tax at a rate of 2%. Ocracoke Township is an unincorporated area located in Hyde County, which has authority to levy a 3% tax. The total rate of tax levied in Ocracoke will be 5%, and the Hyde County Board of Commissioners will act as the governing body of the district and levy and administer the tax.
- Authorizes Chowan County to levy an additional room occupancy tax at a rate of 2% and amends the existing Chowan County legislation to bring it into conformity with the House occupancy tax guidelines. Currently, Chowan has authority to levy a 3% tax, and no city in the county levies an occupancy tax. The total rate of tax in Chowan will be 5%.
- Authorizes Martin County to levy an additional room occupancy tax at a rate of 3% and amends the existing Martin County legislation to bring it into conformity with the House occupancy tax guidelines. Currently, Martin has authority to levy a 3% tax, and no city in the county levies an occupancy tax. The total rate of tax in Martin will be 6%.
- Reenacts Session Law 2005-120, which was not properly roll-called when it passed in the House of Representatives earlier this session. The original legislation, House Bill 1056, sponsored by Representative Preston, amended the Carteret Occupancy Tax to extend the sunset of a 1% tax to allow the county more time to develop a convention center plan.

Each new tax or amended legislation contains the following uniform provisions:

UNIFORM OCCUPANCY TAX PROVISIONS
Rate – The county tax rate cannot exceed 6%, and the city tax rate, when combined with the county rate, cannot exceed 6%.
Use – Two-thirds of the proceeds must be used to promote travel and tourism, and the remainder must

be used for tourism-related expenditures.
Definitions – The terms "net proceeds," "promote travel and tourism," and "tourism related expenditures" are defined terms.
Administration – The net revenues must be administered by a local tourism development authority (TDA), which determines how the tax proceeds will be used and is created by a local ordinance. At least ½ of the members must be currently active in the promotion of travel and tourism in the city or county, and 1/3 of the members must be affiliated with organizations that collect the tax.
Costs of Collection – The taxing authority may retain from the revenues its actual costs of collection, not to exceed 3% of the first $500,000 collected each year plus 1% of the remainder collected each year.

PCS CHANGES: The original Senate Bill 339 was a blank bill. The second edition included the Ahoskie Occupancy Tax. The PCS to the 2nd edition adds all the additional occupancy taxes.

BILL SUMMARY:
The PCS to Senate Bill 339 authorizes the towns of Ahoskie and Elkin to levy room occupancy taxes, creates a special taxing district in Ocracoke Township for the purposes of levying an occupancy tax, amends the occupancy taxes in Chowan and Martin counties, and reenacts the

Carteret occupancy tax amendments that passed earlier this session. All taxes fully conform to the House Finance committee's occupancy tax guidelines.

ASSUMPTIONS AND METHODOLOGY:

Town of Ahoskie

According to the Ahoskie Chamber of Commerce, there are 3 motels in Ahoskie and 1 bed and breakfast. Assuming an average of 20 rooms each for the motels and 3 rooms for the bed and breakfast, an average room rate of $45 per night and a 60% rate of room occupancy, FRD estimates the 3% occupancy tax would generate $18,626 per year. Because no historic data is available, the General Consumer Price Index estimated rate of increase is used to estimate future growth in occupancy tax receipts. No development of additional motels or other accommodations is assumed in the estimates of subsequent year revenues.

Fiscal Year	Proposed 3% Tax	Each 1%
2006	$15,522*	$5,174
2007	$19,054	$6,351
2008	$19,474	$6,491
2009	$19,863	$6,621
2010	$20,260	$6,753

* First-year revenue assumes September 1, 2006 effective date.

Town of Elkin

According to the Town of Elkin, there is currently 1 bed and breakfast with 3 rooms, and 1 motel with 25-30 rooms in the town limits of Elkin. Assuming an average room rate of $50 per night and a room occupancy rate of 60%, the 6% tax would generate approximately $22,158. Because no historic data is available, the General Consumer Price Index estimated rate of increase is used to estimate future growth in occupancy tax receipts. No development of additional motels or other accommodations is assumed in the estimates of subsequent year revenues.

Fiscal Year	Proposed 6% Tax	Each 1%
2006	$15,387*	$2,564
2007	$22,668	$3,778
2008	$23,166	$3,861
2009	$23,630	$3,938
2010	$24,102	$4,017

* First-year revenue assumes September 1, 2006 effective date.

Ocracoke Township

The 3% occupancy tax currently levied in Hyde County generated $316,080 in 2004. Of this amount, the county manager estimates that approximately $300,000 was generated within the boundaries of the proposed Ocracoke special district. Based on this estimate and the General Consumer Price Index rate of increase, the following revenue stream is projected for the proposed 2% occupancy tax:

Fiscal Year	Proposed 2% Tax	Each 1%
2006	$166,666*	$83,333
2007	$204,600	$102,300
2008	$209,201	$104,551
2009	$213,283	$106,642
2010	$217,549	$108,774

* First-year revenue assumes September 1, 2006 effective date.

Chowan County

Chowan County currently levies a 3% occupancy tax, and no city in the county levies an occupancy tax. The table below provides collections data for the current tax for the last three years.

Fiscal Year	Chowan County 3% (Existing)	Each 1%
2002	$63,757	$21,252
2003	$62,581	$20,860
2004	$74,512	$24,837

Extending this trend for the proposed 2% tax suggests the following revenue stream:

Fiscal Year	Proposed 2% Tax	Each 1%
2006	$49,182*	$24,591
2007	$64,330	$32,165
2008	$70,119	$35,059
2009	$76,430	$38,215
2010	$83,309	$41,654

* First-year revenue assumes September 1, 2006 effective date.

Martin County

Martin County currently levies a 3% occupancy tax, and no city in the county levies an occupancy tax. The table below provides collections data for the current tax for the last five years.

Fiscal Year	Martin County 3% (Existing)	Each 1%
2000	$93,095	$31,032
2001	$88,631	$29,544
2002	$88,222	$29,407
2003	$90,575	$30,192
2004	$118,740	$39,580

Extending this trend for the proposed 3% tax suggests the following revenue stream:

Fiscal Year	Proposed 3% Tax	Each 1%
2006	$113,288*	$37,762
2007	$145,462	$48,487
2008	$155,644	$51,881
2009	$166,539	$55,513
2010	$178,197	$59,399

* First-year revenue assumes September 1, 2006 effective date.

(e) The Department may charge a fee, not to exceed one hundred dollars ($100.00), to compensate for the reasonable cost of attending any environmental education course or community service program offered by the Department.

(f) The Secretary may assess a civil penalty for failure to comply with an order issued pursuant to this section as provided in G.S. 143-215.6A."

SECTION 8. The Department of Environment and Natural Resources, in consultation with the North Carolina School Boards Association, shall develop and implement a pilot program to begin no later than October 1, 2005, and to expire April 1, 2008, to determine the amount and retain the actual costs of collecting civil penalties, fines, and forfeitures assessed by the Department and by commissions organized under the Department to improve the assessment and collection of civil penalties, fines, and forfeitures. The clear proceeds of all civil penalties, fines, and forfeitures that are collected by the Department and payable to the counties for the support of public schools pursuant to Article IX, Section 7 of the Constitution of North Carolina shall be remitted to the Office of State Budget and Management by the officer having custody of the funds within 10 days after the close of the calendar month in which the funds were received or collected. During this pilot program, the clear proceeds of all civil penalties, fines, and forfeitures collected by the Department shall be diminished only by the actual costs of collecting the civil penalties, fines, and forfeitures. Actual costs may include time spent on collection-related matters by personnel of the Department, legal services related to collection provided by the Department of Justice, collection agency fees, and court costs. The Department shall not enter into a contract that would require the Department to pay more than twenty percent (20%) of the civil penalty, fine, or forfeiture amount to a collection agency as a fee for collection of civil penalties, fines, and forfeitures. Additional items may be included in costs by agreement of the Department and the School Boards Association. Costs shall be itemized in an accounting to be provided when the funds are remitted by the Department.

The Department shall report the total amount of civil penalties, fines, and forfeitures

collected, the amount paid to the counties in support of public schools, and the effect of the pilot program on collection of civil penalties, fines, and forfeitures by the Department.

SECTION 10. Sections 1 through 7 of this act become effective December 1, 2005, and apply to violations and offenses committed on or after that date. Sections 8 through 10 of this act are effective when it becomes law.

BILL ANALYSIS

Committee:	House Finance	**Date:**	July 28, 2005
Introduced by:	Rep. Culpepper	**Summary by:**	Tim Dodge
Version:	PCS to First Edition		Legislative Analyst
	H1283-PCS30351-RTf-47		

SUMMARY: ***The Proposed Committee Substitute (PCS) for House Bill 1283 would make the following changes to statutes and programs related to environmental enforcement:***

(1) Increase the amount of civil penalties that may be assessed for violations of the Sedimentation Pollution Control Act of 1973, minor and major development violations under the Coastal Area Management Act of 1974 (CAMA), and violations of other environmental statutes.

(2) Authorize the assessment of reasonable costs of any investigation, inspection, or monitoring that results in the imposition of a civil penalty for major and minor development violations under CAMA.

(3) Add a penalty for false reporting under the North Carolina Drinking Water Act.

(4) Increase the maximum amounts of certain administrative penalties that may be assessed for violations of Articles 9 (Solid Waste Management) and 11 (Wastewater Systems) of Chapter 130A of the General Statutes.

(5) Authorize the Secretary of Environment and Natural Resources (Secretary) to issue an administrative order directing any person who has committed certain violations to do any of the following: (i) attend an environmental education course, (ii) publish notice of the violation, or (iii) perform community service related to protection or restoration of the environment and natural resources.

The PCS would also direct the Department of Environment and Natural Resources (Department) to implement a pilot program to determine the actual cost of collecting civil penalties, civil forfeitures and civil fines assessed by the Department and payable to the County School Fund or authorized to be placed in a State fund pursuant to Article IX of the Constitution of North Carolina and G.S. 115C-457.2. During the pilot program, the clear proceeds of all civil penalties, civil forfeitures, and civil fines remitted by the Department to the Office of State Budget and Management would be diminished only by the actual costs of collection.

The PCS would become effective 1 December 2005 and apply to violations and offenses committed on or after that date.

BILL ANALYSIS:

Section 1 adds a civil penalty of up to $10,000 for the first day of a violation of the Sedimentation Pollution Control Act of 1973 or ordinance, rule, or order adopted pursuant to the Act, upon a finding of one or more of the following factors:

- The violation was knowing and willful.

- Off-site sedimentation has eliminated or severely degraded a use in a lake or natural watercourse or that such degradation is imminent.
- Off-site sedimentation has caused severe damage to adjacent land or such damage is imminent.
- The land-disturbing activity is being conducted without an approved plan.

Section 2 provides that an action that results in a violation of both the Article 4 of Chapter 113A of the General Statutes (Sedimentation Control) and the provisions of Article 21 of Chapter 143 of the General Statutes (Water and Air Resources) may be enforced under the provisions of either Article. An enforcement action may not be taken under both articles for the same violation, but separate violations at the same site may be enforced as provided by either applicable Article.

Section 3 increases the civil penalty that may be assessed for a minor development violation under CAMA from $250 to $1,000, and increase the civil penalty that may be assessed for a major development violation under the Act from $2,500 to $10,000.

In addition, the section adds an authorization to assess reasonable costs of any investigation, inspection, or monitoring that results in the assessment of a civil penalty for minor and major development violations under CAMA. The amount of investigative costs assessed for a minor development violation shall not exceed one-half of the amount of civil penalty assessed for the violation or $1,000, whichever is less. The amount of investigative costs assessed for a major development violation shall not exceed one-half of the amount of civil penalty assessed for the violation or $2,500, whichever is less.

Section 4 provides that the Secretary or a local health director may institute an action for injunctive relief against a person who violates an order issued pursuant to Chapter 130A of the General Statutes, in addition to existing authority under the Statute to institute actions for injunctive relief for violations of the Chapter, or any rule adopted by the Commission for Health Services or a local board of health.

Section 5 increases the maximum amounts of certain administrative penalties that may be assessed for violations of Article 9 of Chapter 130A of the General Statutes (Solid Waste Management). The maximum penalty for a violation involving nonhazardous waste is increased from $5,000 to $10,000 per day. The PCS would increase the maximum penalty for a violation involving hazardous waste from $25,000 to $32,500 per day. The penalty is also made applicable to failure to make a determination whether a solid waste is a hazardous waste.

Section 6 increases maximum amounts of certain administrative penalties that may be assessed for violations of Article 11 of Chapter 130A of the General Statutes (Wastewater Systems). The maximum penalty for a violation involving a wastewater collection, treatment, and disposal system with a design daily flow of no more than 480 gallons or in the case of any system serving a single one-family dwelling is increased from $50 to $100 per day per violation, and is increased from $300 to $5,000 per day per violation for systems with a design daily flow of more than 480 gallons which does not serve a single one-family dwelling.

Section 7 authorizes the Secretary to assess reasonable costs of any investigation, inspection, or monitoring that results in the assessment of a civil penalty for violations of Article 11 of Chapter 130A of the General Statutes (Wastewater Systems).

Section 8 adds a penalty for false reporting under Article 10 of Chapter 130A of the General Statutes (North Carolina Drinking Water Act), in addition to existing authority under the statute to impose a penalty for false reporting under Article 9 of the Chapter. A person who violates this provision would be guilty of a Class 2 misdemeanor and may be assessed a fine not to $10,000. A Class 2 misdemeanor is punishable by a minimum of 1 day of community punishment up to a maximum of 60 days active punishment, depending on the misdemeanant's record for prior convictions.

Section 9 authorizes the Secretary to issue an administrative order directing any person who has committed certain violations to do any of the following:

- Attend an environmental education course.
- Publish notice of the violation.
- Perform community service related to protection or restoration of the environment and natural resources.

The Department may charge a fee, not to exceed $100, to compensate for the reasonable cost of attending any environmental education course or community service program offered by the Department.

Section 10 directs the Department to implement a pilot program to begin no later than 1 October 2005 and terminate on 1 April 2008 to determine the actual cost of collecting civil penalties, civil forfeitures, and civil fines assessed by the Department and payable to the County School Fund or authorized to be placed in a State fund pursuant to Article IX of the Constitution of North Carolina and G.S. 115C-457.2. The purpose of the pilot is to determine the extent to which the actual cost of collection should be retained by the Department in order to efficiently collect civil penalties, civil forfeitures, and civil fines. During the pilot program, the clear proceeds of all civil penalties, civil forfeitures, and civil fines remitted by the Department to the Office of State Budget and Management would be diminished only by the actual costs of collection. The actual cost of collection may include time spent on collection-related matters by Department personnel, legal services provided by the Department of Justice related to collection, collection agency fees, and any additional costs that may be included by agreement between the Department and the North Carolina School Boards Association.

Section 11 directs the Department to make an interim report on its findings and recommendations from the pilot on or before 1 March 2007 and make a final report on or before 1 April 2008 to the Environmental Review Commission, the Fiscal Research Division of the General Assembly, and the North Carolina School Boards Association.

Section 12 provides that, with the exception of the pilot program established in sections 10 and 11, the PCS would become effective 1 December 2005 and apply to violations and offenses committed on or after that date. The pilot program established in sections 10 and 11 would become effective when the PCS becomes law.

PRINCIPAL DEPARTMENT(S) & PROGRAM(S) AFFECTED: Department of Environment and Natural Resources, Sedimentation Control Commission, Coastal Resources Commission

EFFECTIVE DATE: All provisions except pilot program are effective for violations and offenses committed on or after December 1, 2005.

BILL SUMMARY:

Makes changes regarding environmental penalties that may be assessed for violations of the Sedimentation Pollution Control Act, the Coastal Area Management Act, Solid Waste Management law, and Wastewater Systems law. Authorizes the Secretary of the Department of Environment and Natural Resources (DENR) to issue administrative orders directing

environmental violators to participate in certain remedial activities. Directs DENR to create a pilot program focused on determining and retaining actual costs of collecting civil penalties, fines, and forfeitures. DENR is required to report on the pilot program by March 1, 2007, and April 1, 2008.

ASSUMPTIONS AND METHODOLOGY:
This bill includes several changes to the civil penalties that may be assessed for environmental violations. The proceeds of all civil penalty proceeds are deposited into the Civil Penalty and Forfeiture Fund for use by North Carolina public schools.

Section 1 allows, for the purpose of deterrence, the Secretary to assess a penalty of up to $10,000 for the first day of a violation of the Sedimentation Pollution Control Act. Currently, the maximum fine is set at $5,000. In a typical year, there are 270 violations, and approximately 56 cases of those are assessed civil penalties. Since this power is discretionary, no estimate can be made at this time.

Section 2 amends the civil penalties for Coastal Area Management Act (CAMA) violations by increasing the minor development violation maximum from $250 to $1,000 and the major development violation maximum from $2,500 to $10,000. In a typical year, 171 CAMA violations occur, and the Coastal Resources Commission (CRC) assesses 135 of those cases penalties. In 2004 the Coastal Resources Commission collected $30,500 in civil penalty revenue. No estimate of additional penalty revenue is possible since Section 2 only increases the maximum penalty but does not require the Commission to assess the higher penalty.

Section 2 also authorizes the Coastal Resource Commission to assess the violator the costs of investigation, inspection, and monitoring. The amount of the assessments of investigative costs shall not exceed one-half of the amount of the civil penalty assessed or $1,000 for minor development violations or $2,500 for a major development violations, whichever is less. Any investigative costs collected would be deposited into the General Fund. Since this power is discretionary and investigative costs vary, no estimate can be made at this time.

Section 4 amends increases administrative penalties for violation of the Solid Waste Management law from a maximum of $5,000 to $10,000 a day for nonhazardous waste and a maximum of $25,000 to $32,500 for other violations (but not more than $25,000 for the first day). Table A summarizes the number of violations and civil penalties assessed in a typical year by violation type. In 2004 the Division of Waste Management deposited $457,132 in fines into the Civil Penalty and Forfeiture Fund. No estimate of additional penalty revenue is possible since Section 4 only increases the maximum penalty but does not require DENR to assess the higher penalty.

Table A: Typical Number of Waste Violations

Violation Type	# of Violations	# Assessed Civil Penalties
Hazardous Waste	99	20
Solid Waste	22	11
Underground Storage Tank	216	72

Section 5 increases administrative penalties for violation of the Wastewater Systems law from a maximum of $50 to $100 per day for smaller violations and a maximum of $400 to $5,000 per day for larger violations. In a typical year, the Division of Water Quality (DWQ) issues 923 Notices of

Violation and assesses 722 civil penalties. In 2004 DWQ deposited $5,376,143 into the Civil Penalty and Forfeiture Fund. No estimate of additional penalty revenue is possible since Section 5 only increases the maximum penalty but does not require DENR to assess the higher penalty.

Section 6 extends the penalty for false reporting under the Solid Waste law to include false reporting under the Drinking Water Act. The maximum fine that may be imposed for such an offense is $10,000. Currently, there is not sufficient data to estimate the number of false reports expected.

Under Section 7, the Secretary of DENR, in addition to other remedies, may require an environmental violator to attend environmental education courses and may charge a fee, not to exceed $100, to compensate for the reasonable cost of attending such courses. Such course fees would be deposited in the General Fund. Since this power is discretionary, there is no estimate currently available.

Section 8 directs DENR to create a pilot program during the period of October 1, 2005 through April 1, 2008, focused on determining and retaining the actual costs of collecting civil penalties, fines, and forfeitures as well as improving assessment and collection. DENR believes that it can implement this pilot program using existing staff. Currently DENR may retain up to 10% of civil penalty assessments to cover collection costs. This section would allow DENR to retain the actual cost of collection up to 20% of the total civil penalty. The net impact on the Fines and Forfeitures Fund is unclear. If actual collection costs are more than 10%, the Fund would receive a smaller percentage of civil penalty collections. If collection rates remain steady or decline, a net decrease to the Fund would result. However, if collection rates increase as a result of this provision, the net amount deposited in the Fund could actually increase.

(e) Any loan made under this section must provide for repayment in substantially equal monthly installments. No loan made under this section may be prepaid by a loan from the same licensee or an affiliate of the same licensee who made the initial loan until at least one-third of the initial loan term has expired, but in no event less than 91 days after the initial loan date. In addition, no loan made under this section may be prepaid by a loan from the same licensee or an affiliate of the same licensee who made the initial loan unless the borrower receives cash proceeds from the new loan in an amount equal to not less than ten percent (10%) of the net payoff amount of the prior loan.

HOUSE BILL 621:
Small Installment Consumer Loans

BILL ANALYSIS

Committee:	House Finance	**Date:**	July 26, 2005
Introduced by:	Rep. Wright	**Summary by:**	Karen Cochrane-Brown
Version:	PCS to First Edition H621-CSRUf-79[v.3]		Staff Attorney

SUMMARY: ***House Bill 621 adds a new Article to Chapter 53 (the Banking Law) that authorizes a new loan business. The Commissioner of Banks, who will issue licenses to qualified applicant lenders, will regulate the businesses. The lenders will be able to make loans of up to $1200.00 at graduated rates. The terms of the loans will be between three and eighteen months.***

The bill also authorizes Consumer Finance lenders to collect delinquent payment charges of the greater of $10.00 or 5% of the amount due ten days after the due date for the payment.

[The Proposed Committee Substitute reduces the acquisition fee that may be charged on a renewed loan from 10% to 5%. It also increases the period after which a loan can be renewed from 61 days to at least one-third of the initial loan term has expired, but not less than 91 days.]

CURRENT LAW:

Currently, the North Carolina Consumer Finance Act (Article 15, Chap. 53) is the only State law that specifically authorizes nonbank lenders to make small unsecured loans. This Act authorizes the Commissioner of Banks to license and to supervise loan companies, which make direct consumer loans of $10,000 or less. A licensee must meet several statutory requirements including, maintaining loanable assets of not less than $50,000. Lenders that do not charge interest rates higher than those permitted by Chapter 24 are exempt for this Act. Also exempted are banks, trust companies, savings and loan associations, cooperative credit unions, agricultural credit corporations, production credit associations, pawnbrokers, and installment paper dealers.

The statute creates two tiers of lenders. G.S. 53-173 allows interest charges of 36% per year on that part of the unpaid principal balance, which does not exceed $600.00, and 15% per year on that portion which is more than $600 but not more than $3,000.

G.S. 53-176 authorizes optional rates for those lenders who elect to make loans of $10,000 or less and who so notify the Commissioner. These lenders may charge interest at the rate of 30% per year on that part of the unpaid principal balance, which does not exceed $1,000, and 18% per year on the remainder, which does not exceed $7,500. If the principal balance is more than $7,500, the maximum rate is 18% per year on the entire loan. Optional rate lenders may also charge a reasonable credit investigation fee, which cannot exceed the actual cost of the credit investigation.

Both categories of lenders use a blended interest rate for most loans made under this Article.

BILL ANALYSIS:

This bill would authorize a new category of small loans. The bill requires prospective lenders to be licensed by the Commissioner of Banks under similar terms as Consumer Finance lenders. Applicants would be required to pay a nonrefundable application investigation fee to the Commissioner of Banks in

the amount of $250.00. This bill would apply to loans of up to $1200.00. Lenders could charge an acquisition fee of 10% of the amount of the loan. However, on a renewed loan, the lender could only charge an acquisition fee of 5%. The rate of the "installment account handling charge" would be determined by the amount of the cash advance.

- On loans of $300.00 or less the rate would be 4.5% per month.
- On loans between $300.00 and $500.00 the rate would be 4% per month.
- On loans between $500.00 and $700.00 the rate would be 3% per month.
- On loans between $700.00 and $1000.00 the rate would be 2.5% per month.
- On loans between $1000.00 and $1200.00 the rate would be 2% per month.

The minimum term for any loan would be three months and the maximum term would be 18 months.

Lenders could not charge for insurance but could charge $10.00 for payments not made within ten days of the due date.

A borrower could not have more than one outstanding loan with the same lender; however, a lender could make a loan to payoff the balance of an outstanding loan to the borrower so long as the aggregate amount of the loans does not exceed $1200.00. The lender may charge a new acquisition fee to a borrower who has a loan from a lender that is acquired in a bulk transaction of loans.

Loans made under this section must provide for payments in substantially equal installments. Loans may not be prepaid by another loan from the same lender until at least 91 days after the initial loan, nor may the lender make a new loan to the same borrower unless the borrower receives at least 10% of the net payoff amount of the prior loan.

This Article does not apply to banks, trust companies, savings and loan associations cooperative credit unions, and other financial institutions organized under North Carolina or federal law.

The provisions of the Consumer Finance Act relating to application for license, locations and change of ownership, revocation, suspension or surrender of license, and conduct of other business in the same office are made applicable to persons or entities covered by this Act. In addition, the provisions of the Consumer Finance Act relating to certain consumer notices and protections and the Commissioners powers are also made applicable to this Act.

Finally, the bill also amends the Consumer Finance Act to authorize the collection of delinquent payment charges of the greater of $10.00 or 5% of the amount due if the payment is not made within 10 days of the due date.

This act would become effective October 1, 2005.

SUMMARY: The proposed committee substitute for House Bill 20 does two things:

- ***It would provide a tax credit to a small business that provides health benefits to all of its full-time employees, effective for taxable years beginning on or after January 1, 2006, and expiring for taxable years beginning on or after January 1, 2010.***

BILL ANALYSIS: Small Business Health Insurance Tax Credit. – Part I creates a new tax credit for a small business that provides health benefits to its eligible employees.

- A *small business* is a taxpayer that employs no more than 25 full-time employees.
- An *eligible employee* is one that works a normal workweek of 30 or more hours.
- *Providing health benefits* means one or more of the following:
    - The taxpayer pays at least 50% of the premiums for health insurance coverage that equals or exceeds the minimum provisions of the basic health care plan of coverage recommended by the Small Employer Carrier Committee.
    - The employee has existing coverage under one or more of the following: Medicare; Medicaid; a government funded program; a health insurance or benefit arrangement that provides benefits similar to or in excess of benefits provided under the basic health care plan.

The credit amount is equal to $400 per employee for whom the taxpayer pays the health insurance premium, not to exceed the taxpayer's cost of providing the health insurance benefit. The taxpayer may use the credit against either its income tax or its franchise tax liability. The credit may not exceed 50% of the taxpayer's tax liability. Any unused portions of the credit may be carried forward for five years. The credit would be in lieu of any expense deduction the small business claimed on its federal income tax return for the health insurance costs. The credit is effective for taxable years beginning on or after January 1, 2006, and it expires for taxable years beginning on or after January 1, 2010.

This part of the bill is similar to the small business health insurance tax credit the House included in its House Committee Substitute for Senate Bill 622, the 2005 Appropriations Act. This credit differs from the credit in Senate Bill 622 by expanding the meaning of 'providing health benefits' to include employees that are covered under a plan other than the one offered by the small business.

Raise the State Minimum Wage. – Part II would increase the State minimum wage from $5.15 an hour to $6.00 an hour, effective January 1, 2006. Currently the State minimum wage is set at the same rate as the federal minimum wage. Section 2 would amend the State minimum wage by deleting the provision that sets the State minimum wage at the same level as the federal minimum wage and substitute a minimum wage of $6.00. The General Assembly linked the State minimum wage to the federal minimum wage in 1997. The federal minimum wage amount has not changed since 1997.

BACKGROUND: The General Assembly has enacted legislation over the past several years to encourage small businesses to provide health insurance benefits to their employees. In 1991, the General Assembly enacted the 'Small Employer Group Health Insurance Reform Act' to promote the availability of accident and health insurance coverage, to prevent abusive rating practices, and to develop standard and basic health care plan coverage. The General Assembly also made the provision of health insurance a requirement of eligibility for both the Bill Lee Act credits and grants awarded under the Job Development Investment Grant Program. In 2003, the General Assembly established the North Carolina Health Insurance Innovations Commission to address the availability and affordability of adequate health insurance coverage for small business owners and employees.

Under the Internal Revenue Code, an employer may deduct premiums paid for health insurance cost of its employees as a business expense. According to data from the 2001 Medical Expenditure Panel Survey from the Agency for Healthcare Research and Quality, U.S. Department of Health and Human Services, 31% of employees employed by firms with 25 or fewer employees are covered by employer-sponsored plans. For 2001, the average employer's costs of providing this coverage ranged from $3,024 to $4,971 per year, depending on the number of family members covered. Data for 1998-2002 from the Department of Insurance indicates that the average annual cost is rising at double-digit rates.

A BILL TO BE ENTITLED

AN ACT TO PROVIDE A TAX CREDIT FOR SMALL BUSINESSES THAT PROVIDE EMPLOYEE HEALTH INSURANCE.

The General Assembly of North Carolina enacts:

SECTION 1. Article 3B of Chapter 105 of the General Statutes is amended by adding a new section to read:

"**§ 105-129.16D. Credit for small business employee health benefits.**

(a) Credit. – A small business that provides health benefits for all of its eligible employees during the taxable year is allowed a credit to offset its costs in providing health benefits for its eligible employees. For the purposes of this subsection, a taxpayer provides health benefits if it pays at least fifty percent (50%) of the premiums for health care coverage that equals or exceeds the minimum provisions of the basic health care plan of coverage recommended by the Small Employer Carrier Committee pursuant to G.S. 58-50-125.

The credit is equal to a dollar amount per eligible employee, not to exceed the taxpayer's costs of providing health benefits for its eligible employees during the taxable year. For each eligible employee for whom the taxpayer provides health benefits, the amount is four hundred dollars ($400.00).

(b) Allocation. – If the taxpayer is an individual who is a nonresident or a part-year resident, the taxpayer must reduce the amount of the credit by multiplying it by the fraction calculated under G.S. 105-134.5(b) or (c), as appropriate. If the taxpayer is not an individual and is required to apportion its multistate business income to this State, the taxpayer must reduce the amount of the credit by multiplying it by the apportionment fraction used to apportion its business income to this State.

(c) Definitions. – The following definitions apply in this section:

(1) Eligible employee. – Defined in G.S. 58-50-110.

(2) Small business. – A taxpayer that employs no more than 25 employees throughout the taxable year."

SECTION 2. This act becomes effective for taxable years beginning on or after January 1, 2006.

HOUSE BILL 20:
Health Insurance Credit/Minimum Wage

Introduced by:	Reps. Holliman, Bordsen, Goforth, Ross	**Summary by:**	Cindy Avrette
Version:	PCS to First Edition H20-CSLY-32		Committee Counsel

SUMMARY: The proposed committee substitute for House Bill 20 does two things:

- ***It would provide a tax credit to a small business that provides health benefits to all of its full-time employees, effective for taxable years beginning on or after January 1, 2006, and expiring for taxable years beginning on or after January 1, 2010.***
- ***It would increase the State's minimum wage from $5.15 an hour to $6.00 an hour, effective January 1, 2006.***

BILL ANALYSIS: **Small Business Health Insurance Tax Credit.** – Part I creates a new tax credit for a small business that provides health benefits to its eligible employees.

- A *small business* is a taxpayer that employs no more than 25 full-time employees.
- An *eligible employee* is one that works a normal workweek of 30 or more hours.
- *Providing health benefits* means one or more of the following:
    - The taxpayer pays at least 50% of the premiums for health insurance coverage that equals or exceeds the minimum provisions of the basic health care plan of coverage recommended by the Small Employer Carrier Committee.
    - The employee has existing coverage under one or more of the following: Medicare; Medicaid; a government funded program; a health insurance or benefit arrangement that provides benefits similar to or in excess of benefits provided under the basic health care plan.

The credit amount is equal to $400 per employee for whom the taxpayer pays the health insurance premium, not to exceed the taxpayer's cost of providing the health insurance benefit. The taxpayer may use the credit against either its income tax or its franchise tax liability. The credit may not exceed 50% of the taxpayer's tax liability. COVER)

BILL SUMMARY: Small Business Health Insurance Tax Credit. Allows an employer who provides health benefits for all employees to take a state tax credit for the employer's costs in providing the benefits. The credit can be taken against the income or franchise tax. To be eligible, the employer must pay at least 50% of the premiums for health coverage that meets or exceeds the minimum provisions of a basic health care plan of coverage recommended by the Small Employer Carrier Committee. In addition, the employer must have no more than 25 employees.

The credit is equal to 100% of the employer's cost of providing the benefits, up to a maximum of $400 for each employee covered. The credit is limited to 50% of tax liability, with a five-year carry forward. Finally, a taxpayer who takes the credit may not take the normal business expense deduction for the same health insurance costs.

The credit is effective for tax years beginning on or after January 1, 2006.

State Minimum Wage. Section 2 of the bill increases the state minimum wage from $5.15 per hour to $6.00 per hour.

ASSUMPTIONS AND METHODOLOGY: Small Business Health Insurance Tax Credit
The first step in the analysis was to review the detailed employer health insurance data from the 2001 Medical Expenditure Panel Survey from the Agency for Healthcare Research and Quality, U.S. Department of Health and Human Services. The data included a tabulation of the number of firms in North Carolina who offered health coverage for employees, by size of firm. One of the breakpoints in the distribution data was for firms of 25 or less employees. The data indicated that 31% of employees are presently covered by employer-sponsored plans in this category.

The survey data included a tabulation of the cost of various types of coverage. For 2001 the average employer's costs ranged from $3,024-$4,971 per year, depending on the number of family members covered. Data for 1998-2002 from the Department of Insurance indicates that the average annual cost is rising at double-digit rates. Since the credit limit will be far less than 100% of a typical employer's cost, the actual amount of the average costs do not affect the calculation.

There is no way to make a reliable prediction of the proportion of uncovered employees who would receive coverage as a result of the $400 tax credit. For the purpose of this analysis, it was assumed that 10% of the uncovered employees would begin to be covered.

The credit is limited to 50% of the taxpayer's income tax liability for the tax year. In this analysis, we are assuming that the limitation leads to a credit utilization rate of 66 2/3% in the year of credit eligibility.

The credit cost was calculated using the 2001 survey data. The number was used also for 2005 under the assumption that the sharp rise in the employer's cost for health insurance coverage has reduced the proportion of employers who choose to provide coverage. Thus, the number of covered workers would not rise even though the number of small business establishments would go up.

For years following 2005, annual growth based on projected nonagricultural employment in North Carolina was used. This estimate was made by the nationally recognized forecasting firm of Economy.com (July 2005).

Under the bill taxpayers claiming the credit may not also claim the normal business expense deduction for the same costs. To determine the net impact of the tax portion of the bill, the credit cost was offset by a reduction in the estimated business expense deduction. This adjustment was determined by multiplying the credit cost by the 6.9% marginal corporate income tax rate.

The tax year costs were then split into fiscal years using the assumption that 45% of the cost of a credit would occur during the January-June period and the remainder during the second half of the tax year. The 45% assumption reflects April and June estimated tax payments and the fact that taxpayers can avoid an underpayment penalty for estimated taxes by sending in at least 90% of the annual liability during the tax year.

A review of similar incentives in a handful of other states did not provide any useful information due to the differences in types of incentives.

State Minimum Wage. Currently no permanent state employee is paid at or below the minimum wage. The State's temporary employment agency – Temporary Solutions – reports that their lowest hourly wage is for an intern, who earns approximately $8.00 per hour. For all others, the hourly wage is $8.63 or more. As such, this change will have no direct impact on the state budget. No data is available on the wages paid by local governments, but the effect on these units is expected to be small.

The Employment Security Commission reports that approximately 2.6% of North Carolina hourly workers make at our below the minimum wage (some food service workers can be paid below minimum wages if they can earn tips). This suggests that approximately 1.4% of all state workers, hourly and salaried, make at or below the minimum wage.

Minutes

~

August 4, 2005

The House Committee on Finance met on Thursday, August 4, 2005 at 8:30 am in Room 544 of the Legislative Office Building. The following members were present: Chairpersons Alexander, Gibson, McComas and Wainwright; Vice-Chairs Daughtridge, Hill, Ross, Weiss, and Womble; and Representatives B. Allen, Blackwood, Bordsen, Capps, Carney, Dockham, England, Faison, Fisher, Folwell, Glazier, Goforth, Hackney, Harrell, Holliman, Insko, Jones, Lucas, McGee, Underhill, Vinson, and Wiley. Ex-Officio member Representative Culpepper was present. Also present were Sergeant-at-Arms Bill Freeman, Fred Hines, Dusty Rhodes, and Walter Spell. Staff persons present included Cindy Avrette, Rodney Bizzell, Erika Churchill, David Crotts, Brenna Erford, Ashley Huffstetler, Canaan Huie, Brad Krehely, and Linda Millsaps. The Agenda and Visitor Registration Sheet are attached and incorporated into these minutes as **attachments 1 and 2**.

Chairman Wainwright called the meeting to order at 8:31 am and recognized the thirteen (13) pages present:

(1) Kelley Brackett of Rutherford County, sponsored by Representative England;
(2) Candice Clark of Hoke County, sponsored by Representative Pierce;
(3) Kevin Eure of Gates County, sponsored by Representative Culpepper;
(4) Grant Fitzgerald of Wake County, sponsored by Speaker Black;
(5) Kimmy Halsey of Halifax County, sponsored by Representative Ed Jones;
(6) Deion Hurst of Wake County, sponsored by Representative Stam;
(7) David Parham of Catawba County, sponsored by Representative Hilton;

(11) April Vang of Montgomery County, sponsored by Representative Goodwin;
(12) Amanda Wujcik of Wake County, sponsored by Representative Harrell; and
(13) Ivy Ziccarelli of Montgomery County, sponsored by Representative Goodwin.

The first bill considered by the Committee was **HB 1098 – FINANCE NC MUSEUM OF ART EXPANSION** (see **attachment 3**). Representative Womble moved that the Proposed Committee Substitute (PCS) for HB 1098 be adopted by the Committee for discussion purposes. The motion carried. Chairman Wainwright then recognized Representative Gibson to explain the bill. Representative Gibson briefly explained that the bill authorizes the State Treasurer to issue up to $50 million of special indebtedness to finance the expansion of the North Carolina Museum of Art. He stated that the PCS specifically states that the authorization for indebtedness includes real estate certificates of participation (COPs). In closing, Representative Gibson expressed his excitement for potential passing of the bill. Following this explanation, Chairman Wainwright then

opened the floor to questions from the committee members. Representative Womble was recognized and asked if everyone was "on board" with the bill. Representative Gibson responded in the affirmative, stating that the State Treasurer was not opposed to the measure and the bill was an opportunity for the State not to be missed. Representative Faison was recognized next and asked how the COPs would be repaid. Representative Gibson responded by stating that COPs are traditionally repaid through the General Fund and noted that there was adequate bond capacity for the issuance of this debt.

Chairman Wainwright then recognized Mr. Larry Wheeler, Director of the North Carolina Museum of Art. Mr. Wheeler provided a brief history of the Museum and reiterated the Museum's commitment to the expansion project. He stated that the project would begin as soon as all of the funds were gathered and would be completed within approximately 2 years.

Representative Faison was then recognized by the Chair and commented that the State had other, more important needs than the expansion of the Museum of Art. He stated that the State already has insufficient funds to provide adequate state employee raises and funding for low-wealth schools. Representative Blackwood was next recognized and asked at what percentage interest rate the money would be borrowed. Representative Gibson responded by stating that the State held the highest possible bond rating, and, as a result, the interest rate would be the lowest available on the market. Representative Ross was then recognized for comment and stated that the $50 million in this bill was only about half of the funds that were being raised for the Museum's expansion. She informed the committee members that Wake County and the City of Raleigh had already pledged $15 million toward the total project costs and that the Museum's Foundation was committed the soliciting the remaining funds. She then moved that the PCS for HB 1098 be given a favorable report, with an unfavorable report as to the original bill.

Before acting on the motion, however, Chairman Wainwright recognized Representatives Capps and Weiss for final questions and comments. Representative Capps asked if any of the COPs would be spent prior to the Museum securing the remainder of the funding needed for the project. Representative Gibson was recognized and responded in the negative. Representative Weiss then urged the members' support, commenting that the bill benefited the entire State and was especially beneficial to the school children of North Carolina who will have the expanded facility to enjoy. Seeing no further discussion, Chairman Wainwright then called Representative Ross' motion to a vote and the motion carried.

Chairman Wainwright then acted to place **SB 327 – NC STATE BAR CHANGES/FEES** (see **attachment 4**) on the calendar for immediate consideration. The bill sponsor, Senator Rand, was recognized to explain the bill. The Senator explained that the bill authorizes the imposition of a $15 late fee for district bar dues and increases from $100 to $125 the fee for out-of-state attorneys practicing in North Carolina. He stated that it also gives explicit authority to the State Bar to impose several other charges that it now collects under the assumption its general authority empowers it to collect. Following this explanation, the Chair recognized Representative Harrell who moved, seconded by Representative Hill, that SB 327 be given a favorable report. Seeing no discussion, Chairman Wainwright then called the motion to a vote, and the motion carried.

The next bill under consideration by the Committee was **HB 20 – SMALL BUSINESS HEALTH INSURANCE CREDIT** (see **attachment 5**). Chairman Wainwright first recognized Representative Alexander who moved for the adoption of the PCS for discussion purposes. Representative Holliman was then recognized to explain Part I of the bill. He stated that the bill provided a tax credit to small businesses that opt to provide health insurance benefits to all of its full-time employees. He noted that the amount of the credit was $400 per employee per year, would

be effective January 1, 2006, and sunset January 1, 2010. Representative Holliman then deferred to Representative Adams to explain the second portion of the bill. She explained that the second part of the bill increased the State's minimum wage from $5.15 an hour to $6.00 an hour. She noted that this part of the bill would be effective January 1, 2006. Representative Adams further stated that there were some 400,000 North Carolina families who were currently living in poverty and that this increase was essential to help those that work everyday but still cannot make ends meet.

Following this explanation, Representative Blackwood was recognized and asked how many jobs would be lost as a result of increasing the minimum wage. Representative Adams responded by stating that extensive research had been done on this question and that there was no evidence to support the claim that jobs would be lost as a result of an 85-cent increase. Chairman Wainwright then recognized Representative Jones who, citing the need for the increase to help the working poor, moved that the PCS for HB 20 be given a favorable report, with an unfavorable report as to the original bill.

The Chair then recognized Greg Thompson with the National Federation of Independent Businesses (NFIB) to comment on the bill. Mr. Thompson stated that the NFIB was in support of the tax credit portion of the bill but was adamantly opposed to the proposed increase in the minimum wage. He further stated that most of individuals working for the minimum wage were those just entering the labor market (i.e. teenagers). He urged the members to oppose the bill or amend it removing the minimum wage portion. John Quinterno with the North Carolina Budget and Tax Center was also recognized to address the Committee. Mr. Quinterno simply reiterated Representative Adams comments that there is no evidence available to support the claim that an increase in the minimum wage results in job losses.

Chairman Wainwright then recognized the members for additional questions. Representative Ross asked Mr. Quinterno who would most benefit from the bill. Mr. Quinterno stated that not just teenagers, as the NFIB suggested, would benefit from a minimum wage increase, but rather the increase would have a widespread effect among those workers. Representative Goforth asked how many people in North Carolina were currently working for the minimum wage. Mr. Quinterno responded by stating approximately 101,000.

Representative Dockham was then recognized by the Chairman. He moved, pursuant to the Rules of the House, when a bill contains two unrelated issues, the issues can be split into two separate bills. Chairman Wainwright, however, ruled the motion out of order.

Representative Hackney was recognized next and stated that the bill both helps the small businesses in the State and increases the number of individuals who will be covered by health insurance. He additionally stated that the bill offers relief for the working poor by increasing the minimum wage to a living wage. In closing, he noted that the PCS was the marriage of two good bills. Chairman Wainwright then recognized Representative Vinson who asked of the 101,000 working for minimum wage, what sort of jobs were these? Mr. Quinterno was again recognized to respond and stated that the majority of these minimum wage jobs were in the retail, leisure, and hospitality sectors. Representative Womble was then recognized to comment on the bill. He stated that the increase in the minimum wage was long overdue and it will help the working poor – people who want to work and work everyday but can never get ahead. He further stated that if North Carolina is the compassionate State it claims to be, then everyone should support the bill. Representative Allen echoed Representative Womble stating that if the committee members could support the expansion of the State Art Museum, then it should also act to support the working poor.

Fran Preston with the North Carolina Retail Merchants Association was recognized for a brief comment and stated her association's opposition to the bill due to the fact that raising the minimum wage has a rippling effect on all other wage levels. She stated that an increase in the minimum wage often required an increase in the level of many other wages.

Representative Daughtridge was next recognized to comment on the bill. He informed the committee members that the credit proposed in the bill sounded better than it actually was. He stated that since the bill prohibits small businesses from taking both the state credit and the current federal deduction, the credit would often only benefit employers in the amount of approximately $50 above the current deduction. He stated that the credit represents only 8 to 10 percent of the actual health insurance costs incurred. Representative Insko was then recognized and reminded the members that with the increase in the minimum wage, there would be increased economic activity and state revenues due to greater spending. Representative Vinson then asked what the total cost of increasing the minimum wage would be in the State. Connie Wilson with the Employers Coalition of North Carolina was recognized and stated that the total cost to businesses associated with the bill had been estimated at $81.3 million.

Seeing no further discussion, Chairman Wainwright then recalled the earlier made motion by Representative Jones to a vote. Announcing that the ayes and nays would be recorded on the bill, the Chair then instructed the Clerk to call the roll (see **attachment 6**). By a vote of 22 ayes and 10 nays, the motion carried.

HB 1349 – RAISE CEILING ON FEES/BOARD OF PHARMACY (see **attachment 7**) was the next bill considered by the Committee. Representative Hill moved for the adoption of the PCS for the purposes of discussion, and the motion carried. Representative Wilkins, the bill sponsor, was then recognized to explain the proposed committee substitute. He first stated that the bill had been filed at the request of the North Carolina Board of Pharmacy. He further explained that the bill authorizes the Board to raise its licensure and registration fees, establishes new fees, and changes the conditions of license renewal under the Pharmacy Practice Act. He stated that the PCS also clarifies that the Director of the Board is not required to investigate minor violations of the Act. (For further detail of the bill, please refer to the attached bill summary and fiscal note.)

Following the explanation, Representative Alexander was recognized to send forth an amendment (see **attachment 8**). She explained that the amendment required the Board of Pharmacy to commit at least $100,000 per year to a Pharmacy Recovery Network (PRN), which provides resources to pharmacists suffering from substance abuse problems. She stated that the Board already contributes $99,000 to a PRN voluntarily and that the amendment simply acts to require it in the law. She then moved the adoption of the amendment. The bill sponsor, Representative Wilkins, was then recognized to comment on the amendment and expressed his and the Board of Pharmacy's support. Seeing no further discussion, Chairman Wainwright then called the amendment to a vote, and it was adopted. Representative Alexander then moved that HB 1349 be given a favorable report as to a new PCS, incorporating the adopted amendment, with an unfavorable report as to the original bill. Seeing no discussion, Chairman Wainwright then called the motion to a vote, it carried by consent.

The next bill considered by the Committee was **SB 757 – ESC OMNIBUS ACT** (see **attachment 9**). Representative Faison moved the adoption of the PCS, and the motion carried. Chairman Wainwright then recognized Senator Nesbitt, the bill sponsor, to explain the bill to the Committee. He briefly explained that the PCS makes changes to the law relating to the Employment Security laws affecting unemployment benefits. He then referred the committee members to the attached bill summary for further detail. In closing, he noted that the bill had been

well "vetted," having been approved in three separate Senate committees. Following this, Chairman Wainwright recognized Representative Glazier who expressed his concern on the verbiage in Section 4 of the bill. He stated that the language used to define "willfully and knowingly" was different and somewhat contrary to the definition of the words in other contexts, such as the criminal code. Harry Payne, Chairman of the Employment Security Commission, was present to address the concern and stated that these changes were being made pursuant to federal law. Chairman Wainwright then accepted a motion from Representative Alexander to give the PCS for SB 757 a favorable report with an unfavorable report as to the original bill. Seeing no further discussion, Chairman Wainwright called the motion to a vote, and it carried with no known opposition.

The final bill considered by the Committee was **SB 796 – CRIMINAL RECORD CHECKS/ARCHAEOLOGICAL OPS.** (see **attachment 10**). Representative Haire, on behalf of the bill sponsor Senator Thomas, was recognized to explain the bill. He explained to the members that the bill requires all persons applying to the Department of Cultural Resources for a permit to conduct underwater archeological activities and archeological activities on State land to submit to a criminal background check. The Department of Justice would be required to conduct the criminal background checks and a fee, up to the cost of the check, would be charged to the permit applicant. Following this explanation, Representative Lucas was recognized and moved that SB 796 be given a favorable report. Seeing no discussion, Chairman Wainwright then called the motion to a vote, and it carried without objection.

As there was no further business before the Committee and the Committee's time had then expired, Chairman Wainwright then adjourned the meeting at 9:55 am.

Finance NC Museum of Art Expansion

BILL ANALYSIS

Committee:	House Appropriations	**Date:**	August 4, 2005
Introduced by:	Reps. Daughtridge, Ross, Gibson, Weiss	**Summary by:**	Cindy Avrette
Version:	PCS to First Edition H1098-CSLYx-53		Committee Counsel

SUMMARY: House Bill 1098 authorizes the State to use up to $50 million of special indebtedness to finance the expansion of the North Carolina Museum of Art. As introduced, this bill was identical to S836, as introduced by Sen. Kerr, which is currently in Senate Finance. The Proposed Committee Substitute differs from the original bill in that it specifically states the authorization includes real estate certificates of participation indebtedness. The bill becomes effective when it becomes law.

BILL ANALYSIS: House Bill 1098 authorizes the State to issue or incur special indebtedness of $50 million to finance the costs of constructing new buildings and pavilions and renovating existing buildings at the North Carolina Museum of Art. Over the last five years, the North Carolina Museum of Art has developed a plan for a museum campus. The plan preserves and reuses the existing museum building as a center for education, arts services, and administration, and as a venue for large-scale exhibitions of international stature. The projected total cost of building the new gallery pavilions and renovating the existing building is $75 million. To date, the State has allocated $6 million from Repair and Renovation funds toward the renovation of the existing building and the City of Raleigh and Wake County recently approved $15 million in interlocal funds for the art museum expansion project. The Art Museum Boards have agreed to raise $50 million to endow operations as their part in the public-private effort to build and sustain an institution of international stature.

Commonly referred to as "certificates of participation," special indebtedness is nonvoted debt that is typically secured only by an interest in State property being acquired or improved. The term "special indebtedness" covers the various forms this type of debt can take: installment purchase (with or without certificates of participation), lease-purchase (with or without certificates of participation), and bonds.

Last session, in S.L. 2004-179, the General Assembly established the statutory framework for a new type of special indebtedness to be called Real Estate Certificates of Participation (RECOP) indebtedness.[1] RECOP indebtedness is a form of special indebtedness that is intended to be structured so that the principal and a portion of the interest is not paid in installments over the term of the debt. That portion of the interest compounds and is payable, along with the principal, only at maturity or earlier redemption. This structure is intended to reduce ongoing debt service payments and provide for payment of the remaining obligation at a time when the property securing the debt will most likely have appreciated substantially in value. RECOP indebtedness differs from traditional special indebtedness in several ways:

- Special indebtedness may be secured only by the capital facilities being constructed, renovated, or repaired with the proceeds of the debt. RECOP indebtedness may be secured by

[1] As part of the 2004 legislation, the General Assembly directed the State Treasurer to study the effects of refunding State indebtedness or financing new State facilities with RECOP indebtedness, to evaluate the feasibility of incurring RECOP indebtedness, and to report its findings to the Joint Legislative Commission on Governmental Operations. The Treasurer had the financial advisory firm of Davenport & Co. produce the report and the report was remitted to the Commission members on February 1, 2005.

these projects but may also be secured by any other State property. The property to serve as collateral would be selected by the Governor after first consulting with the Joint Governmental Commission on Governmental Operations. The choice of collateral must also be approved by the Council of State.

- State property law does not apply to a transfer of an interest in State property to secure special indebtedness or, in the case of default, to repay special indebtedness. With RECOP indebtedness, there is an additional exemption from State property law for transfers when the proceeds are used first to pay RECOP indebtedness, even if there is no default.
- A major difference between RECOP indebtedness and the types of debt the State and local governments normally incur involves the payment of principal and interest. The usual practice is for the governmental entity to pay off the principal during the term of the debt while also paying interest. Normally, the outstanding principal balance declines relatively steadily during the term of the debt. With RECOP indebtedness, it is intended that no principal would be paid off during the term of the debt. In addition, it is intended that only part of the interest would be paid during the term of the debt. Postponing these payments until maturity makes the debt service payments during the life of the debt much lower than with traditional debt. The entire principal becomes due at maturity along with that portion of the interest that was not paid in installments.

The particular form of special indebtedness to be used for a given project will depend on its size, the nature of the property and the improvement, and other circumstances. Based on these circumstances, one form or another of special indebtedness may be the least expensive and most practical for the State to utilize. Article 9 of Chapter 142 of the General Statutes prohibits the issuance of special indebtedness except for projects specifically authorized by the General Assembly.

Before any type of special indebtedness may be issued or incurred, the State Treasurer must certify that debt financing may be desirable for a specific project presented to it by the Department of Administration. Next, the Council of State must give preliminary approval. If preliminary approval is obtained, the Council of State must give final approval, setting out details such as the maximum amount to be financed, the maximum maturity, and the maximum interest rates. The maximum maturity may not exceed 40 years. The State Treasurer must approve the details of the financing, finding that the amount to be borrowed is adequate and not excessive and will not require an excessive increase in any State revenues to provide for repayment, and that the special indebtedness can be incurred or issued on terms favorable to the State. Finally, the State Treasurer must report to the Joint Legislative Commission on Governmental Operations at least five days before any special indebtedness is issued or incurred.

The district bar may also charge a late fee, which shall not exceed fifteen dollars ($15.00), for the failure to pay judicial district bar dues on time. The district bar shall mail a written notice to every active member of the district bar at least 30 days before any meeting at which an election is held to impose or increase mandatory district bar dues. SENATE BILL 327:
NC State Bar Changes/Fees

BILL ANALYSIS

Committee:	Senate Finance	**Date:**	June 29, 2005
Introduced by:	Sen. Rand	**Summary by:**	Trina Griffin
Version:	PCS to Second Edition S327-CSSVf-50		Committee Counsel

SUMMARY: Senate Bill 327 would authorize the imposition of a $15 late fee for district bar dues and would increase from $100 to $125 the fee for out-of-state attorneys practicing in NC. It would also give explicit authority to the State Bar to impose several other charges that it now collects under the assumption its general authority empowers it to collect. It also makes some other changes to the statutes concerning attorneys.

The Proposed Committee Substitute would change the effective date from July 1, 2005 to when it becomes law.

Section 1 – Out of State Attorneys. This section would increase from $100 to $125 the fee for out-of-state attorneys who seek to represent a client in a proceeding in NC. Currently, the $100 fee is remitted to the State Treasurer for support of the General Court of Justice. The additional $25 would be remitted to the State Bar for its regulation of out-of-state attorneys.

Section 2 – Late Fees for District Bar Dues. Currently, a judicial district bar may assess an annual membership fee if a majority of the members present at the annual meeting vote to do so. The district bar fee may not be in addition to the membership fee the lawyer must pay to the State Bar, but it cannot be higher. This section would authorize the district bar to charge a late fee, not to exceed $15. Late fees are not now being collected.

Section 3 – Costs for Disciplinary Hearing Commission. This section authorizes the Bar's disciplinary hearing commission, or one of its committees, to tax costs to an attorney who is disciplined or is found to be incapacitated or disabled.

Section 4 – Registry of Interstate and International Law Firms. This section authorizes the State Bar Council to maintain an annual registry of interstate and international law firms doing business in NC. The State Bar already does this under the assumption it has general authority to do so.

Section 5 – Annual Renewal of Registration by Prepaid Legal Services Plans. Current law requires a prepaid legal services plan to register with the State Bar Council. This section would require the plan to renew its registration annually.

Section 6 – Fee for Prepaid Legal Services Plans. This section requires every prepaid legal services plan to pay an administrative fee to the State Bar Council for its initial registration and for each annual renewal. The Council is given the authority to set the amount.

Section 7 –Explicit Authority for Other Fees. This gives explicit statutory authority to the State Bar to charge 5 kinds of fees beyond basic membership fee. The Bar is already collecting the fees under the assumption it has general authority to do so. The fees are as follows:

1. Reinstatement fee for any attorney seeking to be reinstated from inactive status, administrative suspension, or suspension for failure to meet the continuing legal education (CLE) requirement.
2. Registration fee and annual renewal fee for an interstate or international law firm.

3. Attendance fee for CLE, including a fee to support the Commission on Professionalism.
4. Late fee for filing the CLE report form late, or failure to complete CLE requirements.
5. Administrative fee for any attorney against whom discipline has been imposed.

EFFECTIVE DATE: The Proposed Committee Substitute for SB 327 would become effective when it becomes law, and apply to fees assessed on or after that date.

EFFECTIVE DATE: When law.

BILL SUMMARY: Senate Bill 327 would authorize the imposition of a $15 late fee for district bar dues and would increase from $100 to $125 the fee for out-of-state attorneys practicing in NC. It would also give explicit authority to the State Bar to impose several other charges that it now collects under the assumption its general authority empowers it to collect. The PCS to version 2 changed the effective date from July 1, 2005 to when it becomes law, but did not change the fiscal impact.

ASSUMPTIONS AND METHODOLOGY: **Out of State Attorneys.** The State Bar does not currently regulate out-of-state attorneys practicing in North Carolina. The $25 fee increase in Section 1 of Senate Bill 327 is intended to defray the administrative cost of regulating the practice of out-of-state attorneys. Because the exact number of out-of-state attorneys practicing in North Carolina is not known, a revenue estimate cannot be made at this time. This fee increase does not affect the amount of funding for the General Court of Justice administered by the State Treasurer.

Late Fees for District Bar Dues. There are 39 district bars in North Carolina, none of which assess late fees for nonpayment of dues at the present time. This change would allow the district bars to assess a late fee at their individual discretion. The State Bar expects that only the larger district bars may pursue this option. Because the exact number of district bars that will choose to assess late fees is unknown, an estimate is unavailable.

Costs for Disciplinary Hearing Commission. An estimate for this change is unavailable since the number of future cases to which this change would apply is unknown and the taxable costs may vary from case to case.

Other fees. Senate Bill 327 adds a number of fees currently collected by the State Bar to statute. All the following fees have been approved by order of the Supreme Court. None constitute a new source of revenue for the State Bar.

Section 6. Prepaid legal service plan providers currently pay the State Bar an annual $100 registration fee. There are currently 54 registered providers in North Carolina. The State Bar intends to assess a $100 initial registration fee to these providers and an annual $100 renewal, which will have no positive or negative effect on overall State Bar revenue.

Section 7. The fees listed in this section are currently assessed by the State Bar at the amounts shown below. Since they are currently in use, none constitute a new source of State Bar revenue.

Section 7 fees	
Reinstatement fee for attorneys seeking reinstatement from inactive status, administrative suspension, or suspension for failure to comply with annual CLE requirements.	$125
Registration & annual renewal for interstate or international law firm	$500
Attendance fee for CLE program (may include fee to support Chief Justice's Commission on Professionalism)	$2.50 per credit hour
Late fee for filing CLE report, failure to pay attendance fees, or failure to complete annual CLEs	$75
Administrative fee for attorneys against whom discipline has been imposed	$50

A BILL TO BE ENTITLED

AN ACT TO PROVIDE A TAX CREDIT FOR SMALL BUSINESSES THAT PROVIDE EMPLOYEE HEALTH INSURANCE AND TO AMEND THE WAGE AND HOUR ACT TO RAISE THE STATE MINIMUM WAGE TO A LIVABLE WAGE.

The General Assembly of North Carolina enacts:

PART I. SMALL BUSINESS HEALTH INSURANCE TAX CREDIT

SECTION 1.1 Article 3B of Chapter 105 of the General Statutes is amended by adding a new section to read:

"**§ 105-129.16E. Credit for small business employee health benefits.**

(a) Credit. – A small business that provides health benefits for all of its eligible employees during the taxable year is allowed a credit to offset its costs in providing health benefits for its eligible employees. For the purposes of this subsection, a taxpayer provides health benefits if it pays at least fifty percent (50%) of the premiums for health care coverage that equals or exceeds the minimum provisions of the basic health care plan of coverage recommended by the Small Employer Carrier Committee pursuant to G.S. 58-50-125 or if its employees have qualifying existing coverage.

The credit is equal to a dollar amount per eligible employee, not to exceed the taxpayer's costs of providing health benefits for its eligible employees during the taxable year. For each eligible employee for whom the taxpayer pays premiums for health care coverage, the amount is four hundred dollars ($400.00).

(b) Allocation. – If the taxpayer is an individual who is a nonresident or a part-year resident, the taxpayer must reduce the amount of the credit by multiplying it by the fraction calculated under G.S. 105-134.5(b) or (c), as appropriate. If the taxpayer is not an individual and is required to apportion its multistate business income to this State, the taxpayer must reduce the amount of the credit by multiplying it by the apportionment fraction used to apportion its business income to this State.

(c) Definitions. – The following definitions apply in this section:
(1) Eligible employee. – Defined in G.S. 58-50-110.
(2) Qualifying existing coverage. – Defined in G.S. 58-50-130(a)(4a).

A BILL TO BE ENTITLED

AN ACT TO PROVIDE A TAX CREDIT FOR SMALL BUSINESSES THAT PROVIDE EMPLOYEE HEALTH INSURANCE.

The General Assembly of North Carolina enacts:

SECTION 1. Article 3B of Chapter 105 of the General Statutes is amended by adding a new section to read:

"**§ 105-129.16D. Credit for small business employee health benefits.**

(a) Credit. – A small business that provides health benefits for all of its eligible employees during the taxable year is allowed a credit to offset its costs in providing health benefits for its eligible employees. For the purposes of this subsection, a taxpayer provides health benefits if it pays at least fifty percent (50%) of the premiums for health care coverage that equals or exceeds the minimum provisions of the basic health care plan of coverage recommended by the Small Employer Carrier Committee pursuant to G.S. 58-50-125.

The credit is equal to a dollar amount per eligible employee, not to exceed the taxpayer's costs of providing health benefits for its eligible employees during the taxable year. For each eligible employee for whom the taxpayer provides health benefits, the amount is four hundred dollars ($400.00).

(b) Allocation. – If the taxpayer is an individual who is a nonresident or a part-year resident, the taxpayer must reduce the amount of the credit by multiplying it by the fraction calculated under G.S. 105-134.5(b) or (c), as appropriate. If the taxpayer is not an individual and is required to apportion its multistate business income to this State, the taxpayer must reduce the amount of the credit by multiplying it by the apportionment fraction used to apportion its business income to this State.

(c) Definitions. – The following definitions apply in this section:

(1) Eligible employee. – Defined in G.S. 58-50-110.

(2) Small business. – A taxpayer that employs no more than 25 employees throughout the taxable year."

SECTION 2. This act becomes effective for taxable years beginning on or after January 1, 2006.

HOUSE BILL 20:
Health Insurance Credit/Minimum Wage

BILL ANALYSIS

Committee:	House Finance	**Date:**	July 27, 2005
Introduced by:	Reps. Holliman, Bordsen, Goforth, Ross	**Summary by:**	Cindy Avrette
Version:	PCS to First Edition H20-CSLY-32		Committee Counsel

SUMMARY: The proposed committee substitute for House Bill 20 does two things:

- ***It would provide a tax credit to a small business that provides health benefits to all of its full-time employees, effective for taxable years beginning on or after January 1, 2006, and expiring for taxable years beginning on or after January 1, 2010.***
- ***It would increase the State's minimum wage from $5.15 an hour to $6.00 an hour, effective January 1, 2006.***

BILL ANALYSIS: Small Business Health Insurance Tax Credit. – Part I creates a new tax credit for a small business that provides health benefits to its eligible employees.

- A *small business* is a taxpayer that employs no more than 25 full-time employees.
- An *eligible employee* is one that works a normal workweek of 30 or more hours.
- *Providing health benefits* means one or more of the following:
    - The taxpayer pays at least 50% of the premiums for health insurance coverage that equals or exceeds the minimum provisions of the basic health care plan of coverage recommended by the Small Employer Carrier Committee.
    - The employee has existing coverage under one or more of the following: Medicare; Medicaid; a government funded program; a health insurance or benefit arrangement that provides benefits similar to or in excess of benefits provided under the basic health care plan.

The credit amount is equal to $400 per employee for whom the taxpayer pays the health insurance premium, not to exceed the taxpayer's cost of providing the health insurance benefit. The taxpayer may use the credit against either its income tax or its franchise tax liability. The credit may not exceed 50% of the taxpayer's tax liability. Any unused portions of the credit may be carried forward for five years. The credit would be in lieu of any expense deduction the small business claimed on its federal income tax return for the health insurance costs. The credit is effective for taxable years beginning on or after January 1, 2006, and it expires for taxable years beginning on or after January 1, 2010.

This part of the bill is similar to the small business health insurance tax credit the House included in its House Committee Substitute for Senate Bill 622, the 2005 Appropriations Act. This credit differs from the credit in Senate Bill 622 by expanding the meaning of 'providing health benefits' to include employees that are covered under a plan other than the one offered by the small business.

Raise the State Minimum Wage. – Part II would increase the State minimum wage from $5.15 an hour to $6.00 an hour, effective January 1, 2006. Currently the State minimum wage is set at the same rate as the federal minimum wage. Section 2 would amend the State minimum wage by deleting the provision that sets the State minimum wage at the same level as the federal minimum wage and substitute a minimum wage of $6.00. The General Assembly linked the State minimum wage to the federal minimum wage in 1997. The federal minimum wage amount has not changed since 1997.

BACKGROUND: The General Assembly has enacted legislation over the past several years to encourage small businesses to provide health insurance benefits to their employees. In 1991, the General Assembly enacted the 'Small Employer Group Health Insurance Reform Act' to promote the availability of accident and health insurance coverage, to prevent abusive rating practices, and to develop standard and basic health care plan coverage. The General Assembly also made the provision of health insurance a requirement of eligibility for both the Bill Lee Act credits and grants awarded under the Job Development Investment Grant Program. In 2003, the General Assembly established the North Carolina Health Insurance Innovations Commission to address the availability and affordability of adequate health insurance coverage for small business owners and employees.

Under the Internal Revenue Code, an employer may deduct premiums paid for health insurance cost of its employees as a business expense. According to data from the 2001 Medical Expenditure Panel Survey from the Agency for Healthcare Research and Quality, U.S. Department of Health and Human Services, 31% of employees employed by firms with 25 or fewer employees are covered by employer-sponsored plans. For 2001, the average employer's costs of providing this coverage ranged from $3,024 to $4,971 per year, depending on the number of family members covered. Data for 1998-2002 from the Department of Insurance indicates that the average annual cost is rising at double-digit rates.

BILL SUMMARY: Small Business Health Insurance Tax Credit. Allows an employer who provides health benefits for all employees to take a state tax credit for the employer's costs in providing the benefits. The credit can be taken against the income or franchise tax. To be eligible, the employer must pay at least 50% of the premiums for health coverage that meets or exceeds the minimum provisions of a basic health care plan of coverage recommended by the Small Employer Carrier Committee, or the employees have qualifying existing coverage (Medicare, Medicaid, a government sponsored program, or a health insurance or benefits arrangement that provides sufficient benefits). In addition, the employer must have no more than 25 employees.

The credit is equal to 100% of the employer's cost of providing the benefits, up to a maximum of $400 for each employee covered. The credit is limited to 50% of tax liability, with a five-year carry forward. Finally, a taxpayer who takes the credit must add back to taxable income the amount of the credit.

The credit is effective for tax years beginning on or after January 1, 2006 and expires for tax years beginning on or after January 1, 2010.

State Minimum Wage. Section 2 of the bill increases the state minimum wage from $5.15 per hour to $6.00 per hour.

ASSUMPTIONS AND METHODOLOGY: Small Business Health Insurance Tax Credit
The first step in the analysis was to review the detailed employer health insurance data from the 2001 Medical Expenditure Panel Survey from the Agency for Healthcare Research and Quality, U.S. Department of Health and Human Services. The data included a tabulation of the number of firms in North Carolina who offered health coverage for employees, by size of firm. One of the breakpoints in the distribution data was for firms of 25 or less employees. The data indicated that 31% of employees are presently covered by employer-sponsored plans in this category.

The survey data included a tabulation of the cost of various types of coverage. For 2001 the average employer's costs ranged from $3,024-$4,971 per year, depending on the number of family members covered. Data for 1998-2002 from the Department of Insurance indicates that the average annual cost is rising at double-digit rates. Since the credit limit is far less than 100% of a typical employer's cost, the actual amount of the average costs do not affect the calculation.

There is no way to make a reliable prediction of the proportion of uncovered employees who would receive coverage as a result of the $400 tax credit. For the purpose of this analysis, it was assumed that 10% of the uncovered employees would begin to be covered.

The credit is limited to 50% of the taxpayer's income tax liability for the tax year. In this analysis, we are assuming that the limitation leads to a credit utilization rate of 66 2/3% in the year of credit eligibility.

The credit cost was calculated using the 2001 survey data. The number was used also for 2005 under the assumption that the sharp rise in the employer's cost for health insurance coverage has reduced the proportion of employers who choose to provide coverage. Thus, the number of

covered workers would not rise even though the number of small business establishments would go up.

For years following 2005, annual growth based on projected nonagricultural employment in North Carolina was used. This estimate was made by the nationally recognized forecasting firm of Economy.com (July 2005).

Under the bill taxpayers claiming the credit must add back to income the amount of the credit. The impact of this offset is calculated by multiplying the assumed credit level by the corporate tax rate of 6.9%.

The tax year costs were then split into fiscal years using the assumption that 45% of the cost of a credit would occur during the January-June period and the remainder during the second half of the tax year. The 45% assumption reflects April and June estimated tax payments and the fact that taxpayers can avoid an underpayment penalty for estimated taxes by sending in at least 90% of the annual liability during the tax year.

A review of similar incentives in a handful of other states did not provide any useful information due to the differences in types of incentives.

State Minimum Wage. Currently no permanent state employee is paid at or below the minimum wage. The State's temporary employment agency – Temporary Solutions – reports that their lowest hourly wage is for an intern, who earns approximately $8.00 per hour. For all others, the hourly wage is $8.63 or more. As such, this change will have no direct impact on the state budget. No data is available on the wages paid by local governments, but the effect on these units is expected to be small.

The Employment Security Commission reports that approximately 2.6% of North Carolina hourly workers make at our below the minimum wage (some food service workers can be paid below minimum wages if they can earn tips). This suggests that approximately 1.4% of all state workers, hourly and salaried, make at or below the minimum wage.

Facts About A Minimum Wage Increase

- The congressional budget office estimated in 2004 that a $1.85 increase in the minimum wage would have a direct impact on private sector of $6,100,000,000. **Using the CBO's fiscal impact and adjusting for an 85 cent increase and North Carolina's 2.9% of the US population shows a cost of $81,300,000 for the businesses of North Carolina**. (S.A. 2945 Fair Minimum Wage Act of 2004 Impact on Private Sector Prepared by Ralph Smith)

- An employer who is forced to raise the payroll expenses for minimum wage workers, must also increase FICA taxes and worker's compensation insurance expense since theses expenses are a percentage of payroll. This would be on top of the 15% to 20% health insurance premium increases many small businesses are experiencing.

- Most employees in North Carolina being paid minimum wage are part-time and/or students.

- Nearly two-thirds of minimum wage workers move above the minimum wage within one year. Most minimum-wage jobs are entry-level jobs that are not lifelong dead-end jobs. These jobs allow Americans to establish a track record of work that creates opportunities for better paying jobs. (source: NFIB, March 2005)

- Minimum-wage earners typically receive raises and promotions or find more lucrative work without any governmental help. According to economists William Even and David Macpherson, in a report for the Employment Policy Institute, between 1998 and 2002 typical minimum-wage workers saw their wages climb by 10.4 percent within a year of beginning work -- and this during a period in which the minimum wage didn't change.

NCRA
NORTH CAROLINA
RESTAURANT ASSOCIATION

NCRA TESTIMONY – HOUSE FINANCE COMMITTEE, August 4, 2005

Thank you chairman and the other members of the house finance committee for allowing me to speak to you today. I am Paul Stone, President & CEO of the North Carolina Restaurant Association. The North Carolina Restaurant Association opposes minimum wage increases above the federal level. We believe the North Carolina minimum wage should continue to mirror the federal wage as well as that in our surrounding states. The higher labor costs associated with a state minimum wage increase will mean fewer jobs for entry level workers. Such a rise in the minimum wage now, with the economy just coming out of the doldrums, would be poor timing indeed.

Allow me to elaborate on several key points.

A minimum wage hike hurts the least skilled employees most

The layoffs that result from mandated wage increases are concentrated on the least skilled employees who must now compete with higher skilled applicants attracted to the new wage. A 2004 study by economists at Duke University found that minimum wage employees are displaced by teens from wealthy families who are attracted to the higher wage.

Wage hikes have a negative impact on labor intensive industries. After the last wage hike, those industries offering the most entry-level jobs suffered significant negative impacts. Restaurants, grocery stores and department stores had major reductions in job growth.

A majority of the poorest families end up losing money after a minimum wage increase

Research from Stanford University shows that minimum wages are so poorly targeted that only one in four of the poorest families benefit, while the remaining families lost income and spending power as the minimum wage benefit is offset by higher prices.

Although a small percentage of North Carolina's workforce earns the minimum wage, the ripple effect it creates by forcing restaurant owners to increase wages to their highest paid employees would result in higher prices for consumers and job reduction.

The members of the North Carolina Restaurant Association strongly urge the committee to vote against any wage increases above the federal minimum wage of $5.15 an hour.

Thank you again chairman and committee members for your time this morning.

In order to satisfy the registration requirements of this subsection, a pharmacy shall certify that the pharmacy employs a pharmacist who is responsible for dispensing, shipping, mailing, or delivering dispensed legend drugs into this State or in a state approved by the Board and has met requirements for licensure equivalent to the requirements for licensure in this State. In order for the pharmacy's certification of the pharmacists to be valid, a pharmacist shall agree in writing, on a form approved by the Board, to be subject to the jurisdiction of the Board, the provisions of this Article, and the rules adopted by the Board. If the Board revokes this certification, the pharmacy shall no longer have authority to dispense, ship, mail, or deliver in any manner a dispensed legend drug into this State.

HOUSE BILL 1349:
Raise Ceiling On Fees/Board of Pharmacy

8/3/2005

BILL ANALYSIS

Committee:	House Finance	**Date:**	August 3, 2005
Introduced by:	Rep. Wilkins	**Summary by:**	Ashley Huffstetler Committee Counsel
Version:	PCS to First Edition H1349-CSMBf-38		

SUMMARY: The PCS to the 1st edition of House Bill 1349 authorizes the North Carolina Board of Pharmacy ("Board") to raise its licensure and registration fees, establishes new fees, and changes the conditions of license renewal under the Pharmacy Practice Act ("Act"). The PCS also clarifies that the director of the Board is not required to investigate minor violations of the Act.

CURRENT LAW: The NC Pharmacy Practice Act has mandatory licensure requirements for all who engage in the practice of pharmacy in the State. An in-state applicant for licensure must complete various requirements and pay a fee. Each license expires on December 31st and must be renewed annually. Any pharmacist who operates outside the State and ships, mails, or delivers drugs into the State must register with the Board and pay an original registration fee and registration renewal fees.

The Board is fully funded by the fees it collects. The last fee increase was in 1997.

BILL ANALYSIS: Section 1.1. of the PCS to House Bill 1349 distinguishes between minor violations of the Act and violations that threaten public safety, health, or welfare. Under existing law, the director must investigate any violation of the Act, no matter how minor. This change clarifies that the director is required to investigate any threat to public safety, health, or welfare, but it is within the discretion of the director to investigate minor violations of the Act.

The PCS also authorizes the Board to raise its licensure and registration fees, effective October 1, 2005. The fees are amended as follows:

Type of Fee	Old Fee	New Fee
Initial pharmacist application/license	$160.00	$200.00
Renew pharmacist license	$110.00	$135.00
Reinstate pharmacist license	No existing fee	$135.00
Pharmacy technician registration	$25.00	$30.00
Reinstate registration for pharmacy technician	No existing fee	$30.00
License without exam (when already licensed in another jurisdiction)	$400.00	$600.00
Original pharmacy registration	$350.00	$500.00
Renew pharmacy registration	$175.00	$200.00
Reinstate pharmacy registration	No existing fee	$200.00
Registration as a dispensing physician	$50.00	$75.00

Reinstate dispensing physician registration	No existing fee	$75.00
Registration as a dispensing physician *assistant*	$50.00	$75.00
Reinstate dispensing physician assistant registration	No existing fee	$75.00
Register as a dispensing nurse practitioner	$50.00	$75.00
Reinstate dispensing nurse practitioner	No existing fee	$75.00
Register change in pharmacy personnel	$25.00	$35.00
Register to dispense devices, deliver medical equipment or both	$300.00	$500.00
Renewal of registration to dispense devices/deliver medical equipment	No existing fee	$200.00
Reinstate registration to dispense devices/deliver medical equipment	No existing fee	$200.00

In addition to the fees above, the bill also increases registration fees for *out-of-state operations* that ship, mail, deliver, or dispense drugs in this State. The pharmacy must register annually with the State. These fees are effective October 1, 2005. The fees are amended as follows:

Type of Fee	Old Fee	New Fee
Original registration of a pharmacy	$250.00	$500.00
Renewal of a pharmacy	$125.00	$200.00
Reinstate registration of pharmacy	No existing fee	$200.00

Finally, effective January 1, 2008, the bill authorizes the Board to require up to 30 hours of continuing education every two years, with a minimum of ten (10) hours required per year. Previously, the requirement was ten (10) hours per year as a condition of license renewal.

EFFECTIVE DATE: When it becomes law.

PCS CHANGES: The PCS makes the following changes to the 1st edition: (1) inserts a new Section 1, setting out the goal that the Board establish routine inspection of pharmacies, (2) inserts a new Section 1.1, which clarifies under what circumstances the director must investigate alleged violations of the Act, (3) changes the format of G.S. 90-85.24, and (4) changes many of the fees.

EFFECTIVE DATE: When law.

BILL SUMMARY: The PCS to the 1st edition of House Bill 1349 authorizes the North Carolina Board of Pharmacy to raise its licensure and registration fees, establishes new fees, and changes the conditions of license renewal under the Pharmacy Practice Act. It also clarifies that the director of the Board is not required to investigate minor violations of the Act.

ASSUMPTIONS AND METHODOLOGY: The Board of Pharmacy is fully funded by fee revenue and does not receive state appropriations. The Board last requested a fee increase in 1997. Since that time, the Board has commenced registering and regulating more than 9,000 pharmacy

technicians throughout the state, registering and regulating out-of-state medical device and equipment dealers, and jointly regulating clinical pharmacy practitioners in cooperation with the Medical Board. The Board of Pharmacy has also obtained injunctions against Canadian storefront pharmacies operating illegally within the state, enacted rules enabling pharmacists to administer vaccinations, and experienced significant increases in both the number of licensed pharmacists and pharmacies operating in the state. The volume of complaints handled by the Board has increased from 217 in 1997 to 510 in 2004. Although Board staff has increased since 1997, there are currently five vacancies for staff investigators that will not be filled without obtaining additional funding from a fee increase. The Board has been operating at a loss since FY 2003. The chart below shows the number of pharmacy professionals licensed or registered by the Board from 2000 to 2004.

Licensed & registered pharmacy professionals					
Type	**Historic Total**				
	2000	2001	2002	2003	2004
# of licensed pharmacists	9,238	9,397	9,669	9,864	10,136

# of dispensing physicians	348	281	376	406	472
Total # dispensing physician's assistants and dispensing nurse practitioners	145	162	169	188	191
# of technicians*	X	X	7,547	7,992	9,048

**The Board began registering pharmacy technicians in 2002.*

Based on the average increase in type of professional by year, the following table estimates the number of pharmacy professionals practicing in North Carolina in future years. Since historic data on the number of dispensing nurse practitioners and physician's assistants is combined, the data for this projection was extrapolated from the totals provided by the Board. The projection assumes an increase of 9 dispensing nurse practitioners and 3 dispensing physician's assistants per year.

Type	**Projected Totals**				
	2005-06	2006-07	2007-08	2008-09	2009-10

# of out-of-state pharmacies	337	363	389	415	441
# of dispensing physicians	503	534	565	596	627

# of technicians	9,548	10,048	10,548	11,048	11,548

The fee increases in House Bill 1349 are detailed in the table below. Most are flat increases effective when the bill becomes law with two exceptions. The renewal fee increase for licensed pharmacists and in-state pharmacies are graduated over a three-year period with each incremental

increase effective Sept. 1 of each year. *Each fee increase is expressed as the net increase over the current fee level in order to most accurately reflect the actual increase in fee revenue.*

**Graduated fee increases are effective Sept. 1 of each year starting in 2005*
*** An 'x' in the current fee column denotes a newly created fee.*

Estimated new fee revenues for the Board of Pharmacy are detailed in the chart below. The number of reinstatements per year for dispensing physicians, physician's assistants, nurse practitioners, and businesses dispensing medical equipment are derived from historical data. The projection assumes 4 reinstatements per year for dispensing physicians and one reinstatement per

year for dispensing physician's assistants, nurse practitioners, and businesses dispensing medical equipment.

A BILL TO BE ENTITLED

AN ACT MAKING OMNIBUS CHANGES TO THE EMPLOYMENT SECURITY LAWS OF NORTH CAROLINA.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 96-13(a) reads as rewritten:

"(a) An unemployed individual shall be eligible to receive benefits with respect to any week only if the Commission finds that -

(1) The individual has registered for work at and thereafter has continued to report at an employment office as directed by the Commission ~~at regular intervals of not less than three weeks and not more than six weeks apart and~~ in accordance with such regulations as the Commission may prescribe;

(2) ~~He~~ The individual has made a claim for benefits in accordance with the provisions of G.S. 96-15(a);

(3) The individual is able to work, and is available for work: Provided that, unless temporarily excused by Commission regulations, no individual shall be deemed available for work unless he establishes to the satisfaction of the Commission that he is actively seeking work: Provided further, that an individual customarily employed in seasonal employment shall, during the period of nonseasonal operations, show to the satisfaction of the Commission that such individual is actively seeking employment which such individual is qualified to perform by past experience or training during such nonseasonal period: Provided further, however, that no individual shall be considered available for work for any week not to exceed two in any calendar year in which the Commission finds that his unemployment is due to a vacation. In

administering this proviso, benefits shall be paid or denied on a payroll-week basis as established by the employing unit. A week of unemployment due to a vacation as provided herein means any payroll week within which the equivalent of three customary full-time working days consist of a vacation period. For the purpose of this subdivision, any unemployment which is caused by a vacation period and which occurs in the calendar year following that within which the vacation period begins shall be deemed to have occurred in the calendar year within which such vacation period begins. For purposes of this subdivision, no individual shall be deemed available for work during any week that the individual tests positive for a controlled substance if (i) the test is a controlled substance examination administered under Article 20 of Chapter 95 of the General Statutes, (ii) the test is required as a condition of hire for a job, and (iii) the job would be suitable work for the claimant. The employer shall report to the Commission, in accordance with regulations adopted by the Commission, each claimant that tests positive for a controlled substance under this subdivision. ~~For the purposes of this subdivision, no individual shall be deemed available for work during any week in which he is registered at and attending an established school, or is on vacation during or between successive quarters or semesters of such school attendance, or on vacation between yearly terms of such school attendance. Except: (i) Any person who was engaged in full-time employment concurrent with his school attendance, who is otherwise eligible, shall not be denied benefits because of school enrollment and attendance. Except: (ii) Any otherwise qualified unemployed individual who is attending a vocational school or training program which has been approved by the Commission for such individual shall be deemed available for work. However, any unemployment insurance benefits payable with respect to any week for which a training allowance is payable pursuant to the provisions of a federal or State law, shall be reduced by the amount of such allowance which weekly benefit amount shall be rounded to the nearest lower full dollar amount (if not a full dollar amount). The Commission may approve such training course for an individual only if:~~

~~a. 1. Reasonable employment opportunities for which the individual is fitted by training and experience do not exist in the locality or are severely curtailed;~~

~~2. The training course relates to an occupation or skill for which there are expected to be reasonable opportunities for employment; and~~

~~3. The individual, within the judgment of the Commission, has the required qualifications and the aptitude to complete the course successfully; or,~~

~~b. Such approval is required for the Commission to receive the benefits of federal law.~~

a. An unemployed individual shall not be disqualified for eligibility for unemployment compensation solely on the basis that the individual is in school.

(4) No individual shall be deemed able to work under this subsection during any week for which that person is receiving or is applying for benefits under any other State or federal law based on his temporary total or permanent total disability. Provided that if compensation is denied to any individual for any week under the foregoing sentence and such individual is later determined not to be totally disabled, such individual shall be entitled to a retroactive payment of the compensation for each week for which the individual filed a timely claim for compensation and for which the compensation was denied solely by reason of the foregoing sentence.

(5) The individual has participated in reemployment services, if the Division referred the individual to these services after determining, through use of a worker profiling system, that the individual would likely exhaust regular benefits and would need reemployment services to make a successful transition to new employment, unless the individual establishes justifiable cause for failing to participate in the services.

(6) An unemployed individual shall not be disqualified for eligibility for unemployment compensation benefits solely on the basis that the individual is only available for part-time work. If an individual restricts his or her eligibility to part-time work, the individual may be considered able and available to work if it is determined that all the following conditions exist:

a. The claimant's monetary eligibility is based predominately on wages from part-time work.

b. The claimant is actively seeking and is willing to accept work under essentially the same conditions as existed while the claimant's reported wages were accrued.

c. The claimant imposes no other restriction and is in a labor market in which a reasonable demand exists for part-time service.

This subdivision shall not be construed to amend subdivision (3) of this subsection as it applies to students or G.S. 96-16 as it applies to seasonal workers."

SECTION 2. G.S. 96-9(b)(3)d3. reads as rewritten:

"d3. The standard contribution rate set by subdivision (b)(1) of this section applies to an employer unless the employer's account has a credit balance. Beginning January 1, 1999, for any calendar year that the training and reemployment contribution

in G.S. 96-6.1 does apply, not the contribution rate of an employer whose account has a credit balance is determined in accordance with the rate set in the following Experience Rating Formula table for the applicable rate schedule. The contribution rate of an employer whose contribution rate is determined by this Experience Rating Formula table shall be reduced by fifty percent (50%) for any year in which the balance in the Unemployment Insurance Fund on computation date equals or exceeds ~~eight hundred million dollars ($800,000,000) on the computation date~~ one and ninety-five hundredths percent (1.95%) of the gross taxable wages reported to the Commission in the previous calendar year, and the fund ratio determined on that date is less than five percent (5%) and shall be reduced by sixty percent (60%) for any year in which the balance in the Unemployment Insurance Fund on computation date equals or exceeds ~~eight hundred million dollars ($800,000,000) on the computation date,~~ one and ninety-five hundredths percent (1.95%) of the gross taxable wages as reported to the Commission in the previous calendar year, and the fund ratio determined on that date is five percent (5%) or more.

SECTION 4. G.S. 96-8 is amended by adding a new subdivision to read:

"(28) Willfully. – For the purposes of this Chapter, the terms 'willfully' and 'knowingly' shall have the same meaning."

SECTION 5. G.S. 96-9(c)(4)a. reads as rewritten:

"(c) ...

(4) Transfer of account. –

a. Whenever any individual, group of individuals, or employing unit, who or which, in any manner succeeds to or acquires substantially all or a distinct and severable portion of the organization, trade, or business of another employing unit as provided in G.S. 96-8, subdivision (5), paragraph b, the account or that part of the account of the predecessor which relates to the acquired portion of the business shall, upon the mutual consent of the parties concerned and approval of the Commission in conformity with the regulations as prescribed therefor, be transferred as of the date of acquisition of the business to the successor employer for use in the determination of his rate of contributions, provided application for transfer is made within 60 days after the Commission notifies the successor of his right to request such transfer, otherwise the effective date of the transfer shall be the first day of the calendar quarter in which such application is filed, and that after

the transfer the successor employing unit continues to operate the transferred portion of such organization, trade or business. Provided, however, that the transfer of an account for the purpose of computation of rates shall be deemed to have been made prior to the computation date falling within the calendar year within which the effective date of such transfer occurs and the account shall thereafter be used in the computation of the rate of the successor employer for succeeding years, subject, however, to the provisions of paragraph b of this subdivision. Provided there shall be no transfer of account when (i) a person or entity is not an employer at the time of the acquisition and (ii) the person or entity acquired the business or account primarily for the purpose of obtaining a reduced rate of contribution.

On or after August 1, 1988, whenever any individual, group of individuals, or employing unit, who or which, in any manner succeeds to or acquires all of the organization, trade, or business of another employing unit as provided in G.S. 96-8, subdivision (5), paragraph b, the account of the predecessor shall be transferred as of the date of the acquisition of the business to the successor employer for use in the determination of his rate of contributions. Whenever any individual, group of individuals, or employing unit, who or which, in any manner succeeds to or acquires a distinct and severable portion of the organization, trade, or business of another employing unit as provided in G.S. 96-8, subdivision (5), paragraph b, that part of the account of the predecessor which relates to the acquired portion of the business shall, upon the mutual consent of the parties concerned and approval of the Commission in conformity with the regulations as prescribed therefor, be transferred as of the date of acquisition of the business to the successor employer for use in the determination of his rate of contributions, provided application for transfer is made within 60 days after the Commission notifies the successor of his right to request such transfer, otherwise the effective date of the transfer shall be the first day of the calendar quarter in which such application is filed, and that after the transfer the successor employing unit continues to operate the transferred portion of such organization, trade or business. On or after January 1, 2006, whenever part of an organization, trade, or business is transferred between entities subject to substantially common ownership, management, or control, the tax account shall be transferred in accordance with regulations. However, employing units transferring entities with any common

ownership, management, or control are not entitled to separate and distinct employer status under this Chapter. Provided, however, that the transfer of an account for the purpose of computation of rates shall be deemed to have been made prior to the computation date falling within the calendar year within which the effective date of such transfer occurs and the account shall thereafter be used in the computation of the rate of the successor employer for succeeding years, subject, however, to the provisions of paragraph b of this subdivision. No request for a transfer of the account will be accepted and no transfer of the account will be made if the request for the transfer of the account is not received within two years of the date of acquisition or notification by the Commission of the right to request such transfer, whichever occurs later. However, in no event will a request for a transfer be allowed if an account has been terminated because an employer ceases to be an employer pursuant to G.S. 96-9(c)(5) and G.S. 96-11(d) regardless of the date of notification."

SECTION 6. G.S. 96-18(b1) reads as rewritten:

"(b1) Except as provided in this subsection, the penalties and other provisions in subdivisions (6), (7), (9a), and (11) of G.S. 105-236 apply to unemployment insurance contributions under this Chapter to the same extent that they apply to taxes as defined in G.S. 105-228.90(b)(7). The Commission has the same powers under those subdivisions with respect to unemployment insurance contributions as does the Secretary of Revenue with respect to taxes as defined in G.S. 105-228.90(b)(7).

G.S. 105-236(9a) applies to a "contribution tax return preparer" to the same extent as it applies to an income tax preparer. As used in this subsection, a "contribution tax return preparer" is a person who prepares for compensation, or who employs one or more persons to prepare for compensation, any return of tax imposed by this Chapter or any claim for refund of tax imposed by this Chapter. For purposes of this definition, the completion of a substantial portion of a return or claim for refund is treated as the preparation of the return or claim for refund. The term does not include a person merely because the person (i) furnishes typing, reproducing, or other mechanical assistance, (ii) prepares a return or claim for refund of the employer, or an officer or employee of the employer, by whom the person is regularly and continuously employed, (iii) prepares as a fiduciary a return or claim for refund for any person, or (iv) represents a taxpayer in a hearing regarding a proposed assessment.

The penalty in G.S. 105-236(7) applies with respect to unemployment insurance contributions under this Chapter only when one of the following circumstances exist in connection with the violation:

(1) Any employing units employing more than 10 employees.

(2) A contribution of more than two thousand dollars ($2,000) has not been paid.

(3) An experience rating account balance is more than five thousand dollars ($5,000) overdrawn.

If none of the circumstances set forth in subdivision (1), (2), or (3) of this subsection exist in connection with a violation of G.S. 105-236(7) applied under this Chapter, the offender is guilty of a Class 1 misdemeanor and each day the violation continues constitutes a separate offense.

If the Commission finds that any person violated G.S. 105-236(9a) and is not subject to a fraud penalty, the person shall pay a civil penalty of five hundred dollars ($500.00) per violation for each day the violations continue, plus the reasonable costs of investigation and enforcement."

SECTION 7. Sections 2 and 3 of this act become effective July 1, 2005. Section 6 of this act becomes effective December 1, 2005. The remainder of this act is effective when it becomes law.

A BILL TO BE ENTITLED

AN ACT MAKING OMNIBUS CHANGES TO THE EMPLOYMENT SECURITY LAWS OF NORTH CAROLINA.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 96-13(a) reads as rewritten:

"(a) An unemployed individual shall be eligible to receive benefits with respect to any week only if the Commission finds that -

(1) The individual has registered for work at and thereafter has continued to report at an employment office as directed by the Commission ~~at regular intervals of not less than three weeks and not more than six weeks apart and~~ in accordance with such regulations as the Commission may prescribe;

(2) ~~He~~ The individual has made a claim for benefits in accordance with the provisions of G.S. 96-15(a);

(3) The individual is able to work, and is available for work: Provided that, unless temporarily excused by Commission regulations, no individual shall be deemed available for work unless he establishes to the satisfaction of the Commission that he is actively seeking work: Provided further, that an individual customarily employed in seasonal employment shall, during the period of nonseasonal operations, show to the satisfaction of the Commission that such individual is actively seeking employment which such individual is qualified to perform by past experience or training during such nonseasonal period: Provided further, however, that no individual shall be considered available for work for any week not to exceed two in any calendar year in which the Commission finds that his unemployment is due to a vacation. In administering this proviso, benefits shall be paid or denied on a payroll-week basis as established by the employing unit. A week of

unemployment due to a vacation as provided herein means any payroll week within which the equivalent of three customary full-time working days consist of a vacation period. For the purpose of this subdivision, any unemployment which is caused by a vacation period and which occurs in the calendar year following that within which the vacation period begins shall be deemed to have occurred in the calendar year within which such vacation period begins. For purposes of this subdivision, no individual shall be deemed available for work during any week that the individual tests positive for a controlled substance if (i) the test is a controlled substance examination administered under Article 20 of Chapter 95 of the General Statutes, (ii) the test is required as a condition of hire for a job, and (iii) the job would be suitable work for the claimant. The employer shall report to the Commission, in accordance with regulations adopted by the Commission, each claimant that tests positive for a controlled substance under this subdivision. ~~For the purposes of this subdivision, no individual shall be deemed available for work during any week in which he is registered at and attending an established school, or is on vacation during or between successive quarters or semesters of such school attendance, or on vacation between yearly terms of such school attendance. Except: (i) Any person who was engaged in full-time employment concurrent with his school attendance, who is otherwise eligible, shall not be denied benefits because of school enrollment and attendance. Except: (ii) Any otherwise qualified unemployed individual who is attending a vocational school or training program which has been approved by the Commission for such individual shall be deemed available for work. However, any unemployment insurance benefits payable with respect to any week for which a training allowance is payable pursuant to the provisions of a federal or State law, shall be reduced by the amount of such allowance which weekly benefit amount shall be rounded to the nearest lower full dollar amount (if not a full dollar amount). The Commission may approve such training course for an individual only if:~~

~~a. 1. Reasonable employment opportunities for which the individual is fitted by training and experience do not exist in the locality or are severely curtailed;~~

~~2. The training course relates to an occupation or skill for which there are expected to be reasonable opportunities for employment; and~~

~~3. The individual, within the judgment of the Commission, has the required qualifications and the aptitude to complete the course successfully; or,~~

~~b. Such approval is required for the Commission to receive the benefits of federal law.~~

a. An unemployed individual shall not be disqualified for eligibility for unemployment compensation solely on the basis that the individual is in school.

(4) No individual shall be deemed able to work under this subsection during any week for which that person is receiving or is applying for benefits under any other State or federal law based on his temporary total or permanent total disability. Provided that if compensation is denied to any individual for any week under the foregoing sentence and such individual is later determined not to be totally disabled, such individual shall be entitled to a retroactive payment of the compensation for each week for which the individual filed a timely claim for compensation and for which the compensation was denied solely by reason of the foregoing sentence.

(5) The individual has participated in reemployment services, if the Division referred the individual to these services after determining, through use of a worker profiling system, that the individual would likely exhaust regular benefits and would need reemployment services to make a successful transition to new employment, unless the individual establishes justifiable cause for failing to participate in the services.

(6) An unemployed individual shall not be disqualified for eligibility for unemployment compensation benefits solely on the basis that the individual is only available for part-time work. If an individual restricts his or her eligibility to part-time work, the individual may be considered able and available to work if it is determined that all the following conditions exist:

a. The claimant's monetary eligibility is based predominately on wages from part-time work.

b. The claimant is actively seeking and is willing to accept work under essentially the same conditions as existed while the claimant's reported wages were accrued.

c. The claimant imposes no other restriction and is in a labor market in which a reasonable demand exists for part-time service.

This subdivision shall not be construed to amend subdivision (3) of this subsection as it applies to students or G.S. 96-16 as it applies to seasonal workers."

SECTION 2. G.S. 96-9(b)(3)d3. reads as rewritten:

"d3. The standard contribution rate set by subdivision (b)(1) of this section applies to an employer unless the employer's account has a credit balance. Beginning January 1, 1999, for any calendar year that the training and reemployment contribution in G.S. 96-6.1 does apply, not the contribution rate of an employer whose account has a credit balance is determined in

accordance with the rate set in the following Experience Rating Formula table for the applicable rate schedule. The contribution rate of an employer whose contribution rate is determined by this Experience Rating Formula table shall be reduced by fifty percent (50%) for any year in which the balance in the Unemployment Insurance Fund on computation date equals or exceeds ~~eight hundred million dollars ($800,000,000) on the computation date~~ one and ninety-five hundredths percent (1.95%) of the gross taxable wages reported to the Commission in the previous calendar year, and the fund ratio determined on that date is less than five percent (5%) and shall be reduced by sixty percent (60%) for any year in which the balance in the Unemployment Insurance Fund on computation date equals or exceeds ~~eight hundred million dollars ($800,000,000) on the computation date,~~ one and ninety-five hundredths percent (1.95%) of the gross taxable wages as reported to the Commission in the previous calendar year, and the fund ratio determined on that date is five percent (5%) or more.

SECTION 4. G.S. 96-8 is amended by adding a new subdivision to read:

"(28) Willfully. – For the purposes of this Chapter, the terms 'willfully' and 'knowingly' shall have the same meaning."

SECTION 5. G.S. 96-9(c)(4)a. reads as rewritten:

"(c) ...

(4) Transfer of account. –

a. Whenever any individual, group of individuals, or employing unit, who or which, in any manner succeeds to or acquires substantially all or a distinct and severable portion of the organization, trade, or business of another employing unit as provided in G.S. 96-8, subdivision (5), paragraph b, the account or that part of the account of the predecessor which relates to the acquired portion of the business shall, upon the mutual consent of the parties concerned and approval of the Commission in conformity with the regulations as prescribed therefor, be transferred as of the date of acquisition of the business to the successor employer for use in the determination of his rate of contributions, provided application for transfer is made within 60 days after the Commission notifies the successor of his right to request such transfer, otherwise the effective date of the transfer shall be the first day of the calendar quarter in which such application is filed, and that after the transfer the successor employing unit continues to operate the transferred portion of such organization, trade or business.

Provided, however, that the transfer of an account for the purpose of computation of rates shall be deemed to have been made prior to the computation date falling within the calendar year within which the effective date of such transfer occurs and the account shall thereafter be used in the computation of the rate of the successor employer for succeeding years, subject, however, to the provisions of paragraph b of this subdivision. Provided there shall be no transfer of account when (i) a person or entity is not an employer at the time of the acquisition and (ii) the Commissioner finds that the person or entity acquired the business or account solely or primarily for the purpose of obtaining a reduced rate of contribution.

On or after August 1, 1988, whenever any individual, group of individuals, or employing unit, who or which, in any manner succeeds to or acquires all of the organization, trade, or business of another employing unit as provided in G.S. 96-8, subdivision (5), paragraph b, the account of the predecessor shall be transferred as of the date of the acquisition of the business to the successor employer for use in the determination of his rate of contributions. Whenever any individual, group of individuals, or employing unit, who or which, in any manner succeeds to or acquires a distinct and severable portion of the organization, trade, or business of another employing unit as provided in G.S. 96-8, subdivision (5), paragraph b, that part of the account of the predecessor which relates to the acquired portion of the business shall, upon the mutual consent of the parties concerned and approval of the Commission in conformity with the regulations as prescribed therefor, be transferred as of the date of acquisition of the business to the successor employer for use in the determination of his rate of contributions, provided application for transfer is made within 60 days after the Commission notifies the successor of his right to request such transfer, otherwise the effective date of the transfer shall be the first day of the calendar quarter in which such application is filed, and that after the transfer the successor employing unit continues to operate the transferred portion of such organization, trade or business. On or after January 1, 2006, whenever part of an organization, trade, or business is transferred between entities subject to substantially common ownership, management, or control, the tax account shall be transferred in accordance with regulations. However, employing units transferring entities with any common ownership, management, or control are not entitled to separate and distinct employer status under this Chapter. Provided,

however, that the transfer of an account for the purpose of computation of rates shall be deemed to have been made prior to the computation date falling within the calendar year within which the effective date of such transfer occurs and the account shall thereafter be used in the computation of the rate of the successor employer for succeeding years, subject, however, to the provisions of paragraph b of this subdivision. No request for a transfer of the account will be accepted and no transfer of the account will be made if the request for the transfer of the account is not received within two years of the date of acquisition or notification by the Commission of the right to request such transfer, whichever occurs later. However, in no event will a request for a transfer be allowed if an account has been terminated because an employer ceases to be an employer pursuant to G.S. 96-9(c)(5) and G.S. 96-11(d) regardless of the date of notification."

SECTION 6. G.S. 96-18(b1) reads as rewritten:

"(b1) Except as provided in this subsection, the penalties and other provisions in subdivisions (6), (7), (9a), and (11) of G.S. 105-236 apply to unemployment insurance contributions under this Chapter to the same extent that they apply to taxes as defined in G.S. 105-228.90(b)(7). The Commission has the same powers under those subdivisions with respect to unemployment insurance contributions as does the Secretary of Revenue with respect to taxes as defined in G.S. 105-228.90(b)(7).

G.S. 105-236(9a) applies to a "contribution tax return preparer" to the same extent as it applies to an income tax preparer. As used in this subsection, a "contribution tax return preparer" is a person who prepares for compensation, or who employs one or more persons to prepare for compensation, any return of tax imposed by this Chapter or any claim for refund of tax imposed by this Chapter. For purposes of this definition, the completion of a substantial portion of a return or claim for refund is treated as the preparation of the return or claim for refund. The term does not include a person merely because the person (i) furnishes typing, reproducing, or other mechanical assistance, (ii) prepares a return or claim for refund of the employer, or an officer or employee of the employer, by whom the person is regularly and continuously employed, (iii) prepares as a fiduciary a return or claim for refund for any person, or (iv) represents a taxpayer in a hearing regarding a proposed assessment.

The penalty in G.S. 105-236(7) applies with respect to unemployment insurance contributions under this Chapter only when one of the following circumstances exist in connection with the violation:

(1) Any employing units employing more than 10 employees.

(2) A contribution of more than two thousand dollars ($2,000) has not been paid.

(3) An experience rating account balance is more than five thousand dollars ($5,000) overdrawn.

If none of the circumstances set forth in subdivision (1), (2), or (3) of this subsection exist in connection with a violation of G.S. 105-236(7) applied under this Chapter, the offender is guilty of a Class 1 misdemeanor and each day the violation continues constitutes a separate offense.

If the Commission finds that any person violated G.S. 105-236(9a) and is not subject to a fraud penalty, the person shall pay a civil penalty of five hundred dollars ($500.00) per violation for each day the violations continue, plus the reasonable costs of investigation and enforcement."

SECTION 7. Sections 2 and 3 of this act become effective July 1, 2005. Section 6 of this act becomes effective December 1, 2005. The remainder of this act is effective when it becomes law.

SENATE BILL 757: ESC Omnibus Act

BILL ANALYSIS

Committee:	House Finance	**Date:**	August 1, 2005
Introduced by:	Sen. Nesbitt	**Summary by:**	R. Erika Churchill
Version:	PCS to Third Edition S757-CSST-85		Committee Counsel

SUMMARY: The proposed committee substitute for Senate Bill 757 would make changes to the law relating to the Employment Security laws affecting unemployment benefits.

BILL ANALYSIS: Senate Bill 757 would amend Chapter 96 (Employment Security) in the following ways:

Section 1. G.S. 96-13(a) sets out when an unemployed individual is eligible to receive benefits and requires that the individual be able to work and available for work. The current law provides that a person is not available for work if he is registered at and attending school, but then provides detailed exceptions from that provision. The bill would simplify the current law by providing that a person would not be disqualified for eligibility solely on the basis that he or she is in school.

Sections 2 and 3. G.S. 96-9(b) sets out contribution rates for employers. Under the current law, there is a standard rate, but a different rate is used if the employer has an account with a credit balance, and the contribution rate is reduced for any year in which the balance in the Unemployment Insurance Fund equals or exceeds $800,000,000. The bill would amend the law so the contribution rate would be reduced for any year in which the balance in the Unemployment Insurance Fund equals or exceeds 1.95% of the wages reported in the previous calendar year (rather than the flat $800,000,000 benchmark).

Section 4. This section would add a definition for "willfully" to Chapter 96 to clarify that "willfully" and "knowingly" have the same meaning as used in the Chapter.

Section 5. G.S. 96-9(c)(4) deals with the transfer of an employer's account when the employer's business, or part of the business, is acquired by another individual or employing unit. The bill would provide that an account shall not transfer when the individual is not an employer at the time of the acquisition, or when the individual acquired the business for the purpose of getting a reduced contribution rate. The bill would also provide that, whenever part of a business is transferred between entities with substantially common ownership, the tax account would be transferred in accordance with regulations, but employing units transferring entities with common ownership would not be entitled to separate employer status.

Section 6. G.S. 96-18(b1) provides that the penalty for attempting to evade or defeat a tax (Class H felony), as set out in G.S. 105-236(7), applies to unemployment insurance contributions under Chapter 96 only when one of the following circumstances exist:

- Employing unit employs more than 10 employees.
- A contribution of more than $2000 has not been paid.
- An experience rating account balance is more than $5000 overdrawn.

The bill would provide that, if none of those circumstances exist, attempting to evade or defeat a tax would be a Class 1 misdemeanor. It would also provide that a person who violates G.S. 105-236(9a)

(assisting in preparing fraudulent tax information), and is not subject to a fraud penalty, must pay a civil penalty of $500 per violation for each day the violations continue, plus the reasonable costs of investigation and enforcement.

EFFECTIVE DATE: Sections 2 and 3 of the bill would become effective July 1, 2005. Section 6 of the bill would become effective December 1, 2005. The remainder of the bill would be effective when it becomes law.

§ 105-236. Penalties.

Penalties assessed by the Secretary under this Subchapter are assessed as an additional tax. Except as otherwise provided by law, and subject to the provisions of G.S. 105-237, the following penalties shall be applicable:

...

(7) Attempt to Evade or Defeat Tax. – Any person who willfully attempts, or any person who aids or abets any person to attempt in any manner to evade or defeat a tax or its payment, shall, in addition to other penalties provided by law, be guilty of a Class H felony.

...

(9a) Aid or Assistance. – Any person, pursuant to or in connection with the revenue laws, who willfully aids, assists in, procures, counsels, or advises the preparation, presentation, or filing of a return, affidavit, claim, or any other document that the person knows is fraudulent or false as to any material matter, whether or not the falsity or fraud is with the knowledge or consent of the person authorized or required to present or file the return, affidavit, claim, or other document, is guilty of a felony as follows:

a. If the person who commits an offense under this subdivision is an income tax return preparer and the amount of all taxes fraudulently evaded on returns filed in one taxable year is one hundred thousand dollars ($100,000) or more, the person is guilty of a Class C felony.

b. If the person who commits an offense under this subdivision is an income tax return preparer and the amount of all taxes fraudulently evaded on returns filed in one taxable year is less than one hundred thousand dollars ($100,000), the person is guilty of a Class F felony.

c. If the person who commits an offense under this subdivision is not covered under sub-subdivision a. or b. of this subdivision, the person is guilty of a Class H felony.

AN ACT TO PROVIDE FOR CRIMINAL RECORD CHECKS OF APPLICANTS FOR PERMITS AND LICENSES TO CONDUCT ARCHAEOLOGICAL OPERATIONS AND INVESTIGATIONS.

The General Assembly of North Carolina enacts:

SECTION 1. Part 2 of Article 4 of Chapter 114 of the General Statutes is amended by adding a new section to read:

"**§ 114-19.16. Criminal record checks of applicants for permit or license to conduct exploration, recovery, or salvage operations and archaeological investigations.**

The Department of Justice may provide to the Department of Cultural Resources from the State and National Repositories of Criminal Histories the criminal history of any applicant for a permit or license under Article 3 of Chapter 121 of the General Statutes or Article 2 of Chapter 70 of the General Statutes. Along with the request, the Department of Cultural Resources shall provide to the Department of Justice the fingerprints of the applicant, a form signed by the applicant consenting to the criminal history record check and use of fingerprints and other identifying information required by the State and National Repositories, and any additional information required by the Department of Justice. The applicant's fingerprints shall be forwarded to the State Bureau of Investigation for a search of the State's criminal history record file, and the State Bureau of Investigation shall forward a set of fingerprints to the Federal Bureau of Investigation for a national criminal history record check. The Department of Cultural Resources shall keep all information obtained under this section confidential. The Department of Justice may charge a fee to offset the cost incurred by it to conduct a criminal record check under this section. The fee shall not exceed the actual cost of locating, editing, researching, and retrieving the information."

SECTION 2. G.S. 121-25 reads as rewritten:

"**§ 121-25. License to conduct exploration, recovery or salvage operations.**

Any qualified person, firm or corporation desiring to conduct any type of exploration, recovery or salvage operations, in the course of which any part of a derelict vessel or its contents or other archaeological site may be removed, displaced or destroyed, shall first make application to the Department of Cultural Resources ~~for~~ and obtain a permit or license to conduct such operations. If the Department of Cultural Resources shall find that the granting of such permit or license is in the best interest of the State, it may grant such applicant a permit or license for such a period of time and under such conditions as the Department may deem to be in the best interest of the State. Such permit or license may include but need not be limited to the following:

(1) Payment of monetary fee to be set by the Department;

(2) That a portion or all of the historic material or artifacts be delivered to custody and possession of the Department;

(3) That a portion of all of such relics or artifacts may be sold or retained by the licensee;

(4) That a portion or all of such relics or artifacts may be sold or traded by the Department.

Permits or licenses may be renewed upon or prior to expiration upon such terms as the applicant and the Department may mutually agree. Holders of permits or licenses shall be responsible for obtaining permission of any federal agencies having jurisdiction, including the United States Coast Guard, the United States Department of the Navy and the United States Army Corps of Engineers prior to conducting any salvaging operations."

SECTION 3. Article 3 of Chapter 121 of the General Statutes is amended by adding a new section to read:

"**§ 121-25.1. Criminal record checks of applicants for permit or license.**

(a) The following definitions apply to this section:

The crimes include the criminal offenses set forth in any of the following Articles of Chapter 14 of the General Statutes: Article 5, Counterfeiting and Issuing Monetary Substitutes; Article 5A, Endangering Executive and Legislative Officers and Court Officers; Article 6, Homicide; Article 7A, Rape and Other Sex Offenses; Article 8, Assaults; Article 10, Kidnapping and Abduction; Article 13, Malicious Injury or Damage by Use of Explosive or Incendiary Device or Material; Article 14, Burglary and Other Housebreakings; Article 15, Arson and Other Burnings; Article 16, Larceny; Article 17,

Refusal to consent to a criminal history record check or to the use of fingerprints or other identifying information may constitute grounds for the Department of Cultural Resources to deny a permit or a license to an applicant. The Department of Cultural Resources shall be responsible for providing to the North Carolina Department of Justice the fingerprints of the applicant to be checked, a form signed by the applicant consenting to the criminal record check and the use of fingerprints and other identifying information required by the State or National Repositories of Criminal Histories, and any additional information required by the Department of Justice. It would also allow the Department of Justice to conduct those State and National checks upon the request of the Department of Cultural Resources.***

CURRENT LAW:

Salvage and recovery of shipwrecks. G.S. 121-25 requires any person who wants to engage in salvage operations to obtain a permit from the Department of Cultural Resources. The Department may grant the permit or license if it finds it is in the best interest of the State. The permit may be for a period of time and under conditions specified by the Department. The permit may require the payment of a fee to the Department, that a portion of the artifacts are delivered to the Department, that a portion of the artifacts are sold or retained by the licensee, or that a portion of the artifacts may be sold or traded by the Department.

Archaeological investigations on State land. G.S. 70-13 requires that persons who want to conduct archaeological investigations on State lands must first obtain a permit from the Department of Cultural Resources. An "archaeological investigation" means any surface collection, subsurface test, excavation, or other activity that results in the disturbance or removal of archaeological resources. The term "archaeological resource" means any material remains of past human life or activities which are at least 50 years old and which are of archaeological interest. These include pieces of pottery, basketry, bottles, weapons, weapon projectiles, tools, structures or portions of structures, rock paintings, rock carvings, graves or human skeletal materials. The term does not include fossils unless found in an archaeological context.

The Department shall issue a permit if it finds that the applicant is qualified to undertake the activity, the activity is undertaken to further archaeological knowledge, the applicant has the funds and technology to retrieve the archaeological resource, the resources will remain the property of the State and attendant data will be preserved by a university or museum, the permit is not inconsistent with a management plan for the State land, and the applicant will bear the cost of reinterment of any human remains. The Department must also notify and consult with the appropriate local religious or cultural group prior to issuing the permit.

BILL ANALYSIS:

Section 1 authorizes the North Carolina Department of Justice (DOJ) to conduct State and national criminal background checks on applicants for permits or licenses from the Department of Cultural Resources to conduct salvage operations or archeological investigations. DOJ may charge a fee to cover the actual cost of locating, editing, researching and retrieving the information.

Section 2 makes technical changes to an existing statute. The word "vessel" was inadvertently omitted from the statute as originally drafted, and the words "and obtain" are simply to clarify that an applicant for a license must not only apply for the license, but must actually obtain the license as well in order to conduct certain recovery or salvage operations.

Sections 3 and 4 are identical, but apply to different permitting processes (Article 3 of Chapter 121 and Article 2 of Chapter 70 respectively). They both require an applicant for a permit or license to conduct salvage operations or archaeological investigations to submit to a criminal background check. The applicant must provide a written consent to the background check, a set of fingerprints, and any other identifying information required by the State or National Repositories of Criminal Histories. The Department of Cultural Resources must keep the information confidential. Evidence of a conviction will not necessarily disqualify an applicant from receiving a permit or license. The Department must consider a number of factors, such as the seriousness of the crime, the age of the person at the time of conviction, the nexus between the nature of the crime and the purpose of the permit, the period of punishment, and whether the person has committed any subsequent offenses.

EFFECTIVE DATE: The act becomes effective October 1, 2005 and would apply to applications for permits submitted to the Department of Cultural Resources on or after that date.

BACKGROUND: The Federal Bureau of Investigation (FBI) has certain criteria that must be met before it will comply with a statute authorizing criminal background checks for employment or licensure. Those criteria include that the statute must: specify who is subject to the statute, require the applicant to provide a fingerprint card, specify the agency responsible for the licensure/employment decision, and clearly indicate that the criminal history access is authorized and identify the criteria by which a person would be denied employment or licensure. In addition, the FBI has a process for providing preliminary approval of proposed legislation and final approval for enacted legislation.

EFFECTIVE DATE: October 1, 2005

BILL SUMMARY: The 2nd Edition of Senate Bill 796 would require all persons who apply to the Department of Cultural Resources for a permit to conduct underwater archeological activities and archeological activities on State land to submit to a criminal background check. It would also allow the Department of Justice to conduct those State and National checks upon the request of the Department of Cultural Resources. The 3rd Edition adds Section 2 which makes technical changes only to an existing statute, which appeared in the original bill and was inadvertently omitted from the PCS considered in Senate Judiciary II.

ASSUMPTIONS AND METHODOLOGY:
The State Bureau of Investigation (SBI) in the Department of Justice conducts background checks for criminal justice and non-criminal justice agencies. For the latter group, the Department charges fees that are used to support the positions required to conduct the checks. The following fees are charged:

NC Fingerprint Check:	$14
National Fingerprint Check:	$24 ($2 to DOJ, $22 remitted to the FBI)
Total:	$38

In addition to the $22 remitted to the Federal Bureau of Investigation for national checks, costs to the SBI per state and national check average $16.33,[1] not including overhead or equipment.

The Department of Cultural Resources estimates that it issues 10 licenses per year that would require background checks. If each applicant is a single individual, the cost to the SBI would be $383, and $380 would be collected in revenue. However, some licenses may be issued to corporations or other entities, rather than individuals. In these cases, one license application would require multiple criminal history checks of the principals, officers, directors, and controlling persons of the entity. Each person in the SBI fingerprint identification section can perform, on average, 10,000 checks per year. Therefore, even with multiple criminal histories per application, this PCS is not anticipated to increase the number of receipt-supported positions required to process background checks.

The background check fees will be paid by the permit applicants.

House Committee on Finance

Minutes

~

August 23, 2005 – 8:30 a.m.

The House Committee on Finance met on Tuesday, August 23, 2005 at 8:30 am in Room 544 of the Legislative Office Building. The following members were present: Chairpersons Alexander, Gibson, Howard, Luebke, McComas, and Wainwright; Vice-Chairs Daughtridge, Hill, Ross, Weiss, and Womble; and Representatives B. Allen, Blackwood, Bordsen, Carney, England, Faison, Fisher, Folwell, Glazier, Goforth, Hackney, Harrell, Holliman, Insko, Jones, Lewis, McGee, Rayfield, Underhill, and Wiley. Also present were Sergeant-at-Arms Bill Freeman, Fred Hines, Dusty Rhodes, and Walter Spell. Staff persons present included Cindy Avrette, Rodney Bizzell, David Crotts, Brenna Erford, Bill Gilkeson, Ashley Huffstetler, Canaan Huie, Linda Millsaps, and Martha Walston. The Agenda and Visitor Registration Sheet are attached and incorporated into these minutes as **attachments 1 and 2**.

Chairwoman Howard called the meeting to order at 8:30 am and recognized the three (3) pages present: (1) James Gwyn of Guilford County, (2) Candice Clark of Cumberland County, and (3) Michael Ransom of Robeson County, all of which were sponsored by Speaker Black.

The first bill considered by the Committee was **HB 143 – EXEMPT AGRI-TOURISM FROM PRIVILEGE TAX** (see **attachment 3**). Representative Coates, the bill sponsor, was recognized to explain the bill. She stated that the following activities would be exempt from the 3 percent gross receipts privilege tax on amusements: all farm-related exhibitions, shows, attractions, or amusements offered on land for farm purposes, including hayrides, animal exhibitions, and farm pond fishing. Following this explanation, the Chair recognized Representative Hill, who moved that HB 143 be given a favorable report. Seeing no further discussion, Chairwoman Howard then called the motion to a vote, and it carried without objection.

The next bill under consideration by the Committee was **HB 1526 – AVERY COUNTY/HERITAGE PARK AUTHORITY** (see **attachment 4**). Chairwoman Howard first recognized Representative Hill who moved for the adoption of the Proposed Committee Substitute (PCS) for discussion purposes, and the motion carried. The bill sponsor, Representative Frye, was then recognized to explain the bill. He explained to the Committee that the bill would allow the Avery County Board of Commissioners to create an authority that could acquire the property known as "Heritage Park" and to operate and maintain the facilities on that property. He noted that the bill was before the Finance Committee because it allowed this Authority to charge and collect fees and rents for use of the facilities as well as borrow money for use in improving the facilities. Representative McGee was recognized following the explanation and moved that the PCS for HB 1526 be given a favorable report, with an unfavorable report as to the original bill. As there was no

discussion, Chairwoman Howard then called the motion to a vote, and it carried with no known opposition.

HB 1610 – INCORPORATE ROUGEMONT (see **attachment 5**) was the next bill considered by the Committee. Representative Hill moved for the adoption of the PCS for the purposes of discussion, and the motion carried. Representative Wilkins, the bill sponsor, was then recognized to explain the proposed committee substitute. He stated that the bill provided for the incorporation on the Town of Rougemont. The Chair then recognized Representative Hill, who moved that the PCS for HB 1610 be given a favorable report, with an unfavorable report as to the original bill. Seeing no discussion, Chairwoman Howard then called the motion to a vote and motion carried by consent.

The next bill considered by the Committee was **SB 505 – MEDICAL EXAMINER FEE INCREASE** (see **attachment 6**). The Chair recognized Senator Purcell to explain the bill. The Senator noted that the bill had been requested by the Department of Public Health and acted to increase the fees charged by medical examiners from $75 to $100. He also noted that the last increase to this fee dated back to 1991. Following this explanation, Representative Womble was recognized and asked the bill sponsor if there was any opposition to the bill. Senator Purcell responded that he was aware of no opposition. Representative Womble then moved that SB 505 be given a favorable report. Seeing no further discussion, Chairwoman Howard then called the motion to a vote, and the motion carried without objection.

Representative Womble was then again recognized and moved the adoption of the PCS for **HB 990 – DEFINITION OF FARMER FOR SALES AND USE TAX** (see **attachment 7**). The motion carried. Chairwoman Howard then recognized Representative Starnes to explain the bill. He explained that the bill clarifies the definition of "farmer" for purposes of applying the sales and use tax exemption to items sold to farmers. He also noted that the bill expands the exemption to include items sold to lessors of farmland. Representative Hill was recognized following this explanation and moved that the PCS for HB 990 be given a favorable report, with an unfavorable report as to the original bill. As there was no further discussion, Chairwoman Howard called the motion to a vote, and the motion carried.

HB 1050 – PITT COUNTY LOCAL OPTION SALES TAX (see **attachment 8**) was the next bill considered by the Committee. Representative Womble moved for the adoption of the PCS, and the motion carried. The Chair then recognized Representatives Warren and McLawhorn to explain the bill. Each stated that the County of Pitt had enormous capital needs in the public schools and community college arenas totaling some $300 million. They explained that the PCS provides Pitt County, as well as several other counties, the option of instituting a half-cent sales tax increase, so long as the tax was approved by a local referendum, to help in funding these needs. Following this explanation, Representative Faison, stating Pitt County's need for this additional resource, moved that the PCS for HB 1050 be given a favorable report, with an unfavorable report as to the original bill. The Chair accepted the motion but no action due to a number of pending amendments.

Representative Hill was then recognized and sent forth an amendment (see **attachment 9**). He explained that the amendment acted to add Vance County to the list of counties included in the PCS, and then moved its adoption. Seeing no discussion, Chairwoman Howard then called the Hill motion to a vote, and the amendment was adopted. Representative Gibson was recognized next. He acted to send forth an amendment (see **attachment 10**) and then moved its adoption. He explained that, similar to Representative Hill's motion, his amendment simply added Duplin County

to the list of counties included in the PCS. As there was no discussion on the amendment, Chairwoman Howard called the matter to a vote, and the amendment was adopted.

The Chair then recognized Representative Luebke to send forth an amendment (see **attachment 11**). Representative Luebke explained that his amendment would place a 6-year sunset on the bill, which would require counties who institute the additional half-cent sales tax to revisit the issue in 2011. He then moved the adoption of the amendment. Representative Warren spoke in general opposition to the amendment, citing that 6 years was insufficient time for Pitt County to address even its current needs, irrespective of the County's future needs. Representative Gibson also spoke in opposition, citing that such a decision was one that should be left up to the local Boards of Commissioners. Seeing no further discussion, Chairwoman Howard then called the Luebke amendment to a vote, and the amendment failed.

Representative Holliman was then recognized to send forth another amendment (see **attachment 12**). He explained that his amendment added the Counties of Surry, Cumberland, and Davidson to the list of counties included in the PCS. This amendment brought the total number of counties included in the bill to 12. He then moved the adoption of the amendment. As there was no discussion on the amendment, Chairwoman Howard then called the amendment to a vote, and it was adopted.

Chairwoman Howard then recognized Representative Luebke for general comment on the bill. He stated his concern that the Committee was taking hasty action in increasing the sales tax, which is highly regressive and will hurt those who can least afford it.

Representative Gibson was then recognized to send forth a final amendment on the bill (see **attachment 13**). He explained that the amendment simply changed the title of the bill to authorize "certain counties" to levy a one-half cent local option sales tax to allow for additional counties to be added to the bill when debated on the House floor, without the need to continually change the title. Chairwoman Howard called the amendment to a vote, and it was adopted.

Seeing no further debate on the bill, the Chair then acted on Representative Faison's motion, giving a new PCS to HB 1050, incorporating the adopted amendments, a favorable report. She called the matter to a vote, and the motion carried by a majority.

The next bill under consideration was **SB 1149 – ENERGY CREDIT BANKING/SELLING PROGRAM/FUND** (see **attachment 14**). Representative Luebke, on behalf of the bill sponsor Senator Jenkins, was recognized to explain the bill. He stated that the bill establishes a banking and selling program for credits issued under the Federal Energy Policy Act in order to generate funds for the use of alternative fuels and alternative fueled vehicles. He stated that the bill also expands the credit for investment in renewable energy property. As there was no discussion, Chairwoman Howard then recognized Representative Ross, who moved that SB 1149 be given a favorable report. The motion carried with no known opposition.

Representative Alexander then moved that the PCS for **HB 876 – HAYWOOD COUNTY SALES TAX** (see **attachment 15**) be adopted by the Committee for the purposes of discussion. The motion carried. The Chair then recognized Representative Rapp to explain the bill. He explained that the bill authorizes Haywood County, upon approval by a referendum, to levy a one-half cent sales tax for community college capital outlay purposes. He also noted that the bill contained a six-year sunset. Following this explanation, Chairwoman Howard recognized Representative Glazier, who moved that the PCS for HB 876 be given a favorable report, with an unfavorable report as to the original bill. Representative Womble was then recognized and asked

the bill sponsor if there was any opposition to the bill. Rep. Rapp responded in the negative, stating that the bill had bi-partisan support. Seeing no further discussion, Chairwoman Howard then called Representative Glazier's motion to a vote, and the motion carried.

The next bill considered by the Committee was **HB 756 – LEE LOCAL SALES TAX** (see **attachment 16**). Representative Hill moved for the adoption of the PCS, and the motion carried. The Chair then recognized the bill sponsor, Representative Sauls, to explain the bill. Representative Sauls stated that the bill allows Franklin, Lee, and Vance Counties to levy a one-half cent local sales and use tax for public school capital outlay purposes. He cited Lee County's current capital needs in the area of public school construction at $51 million. He also reminded the members that the bill was by referendum of the local voters in each county. Following this explanation, Representative Hackney sent forth an amendment (see **attachment 17**) adding Chatham County to the list of counties that would be allowed to levy the one-half cent sales tax under the bill. He then moved the adoption of the amendment. As there was no discussion, Chairwoman Howard then called the Hackney amendment to a vote, and it was adopted. Representative Daughtridge was then recognized and, noting his support of the bill, moved that the PCS for HB 756 be given a favorable report with an unfavorable report as to the original bill. As there was no further discussion, the Chair then called the matter to a vote, it carried with no known objection.

HB 88 – ELECTORAL FAIRNESS ACT (see **attachment 18**) was the next bill considered. Representative Alexander moved for the adoption of the PCS, and it carried. The Chair then recognized Representative Miller to briefly explain the bill. Representative Miller explained that the PCS for HB 88 equalizes and reduce the number of signatures required of a new political party and of a statewide unaffiliated candidate to achieve ballot access. Further, it would reduce the number of votes a new party must generate for its nominee for President or Governor for the party to maintain ballot eligibility. Finally, he stated that it would move back the deadlines for new parties to submit their petitions and to nominate candidates from dates after the party primaries to dates before the party primaries. Representative closed by stating that the bill is one that should have support from both parties, both Democrat and Republican. Chairwoman Howard then opened the floor to discussion by the members. Representative Womble stated his support of the bill, reminding the members that the issue is one of fairness. Representative Ross echoed his sentiments, stating that the founding fathers of the nation encouraged numerous political parties. However, Representative Blackwood expressed concerns on the principles of the bill. Representative Wainwright asked the bill sponsor if there was anything retroactive in the bill. Representative Miller responded in the negative. Following this debate, Representative Weiss was recognized and moved that the PCS for HB 88 be given a favorable report, with an unfavorable report as to the original bill. Seeing no further discussion, Chairwoman Howard then called the motion to a vote, and it carried by a majority.

The Chair then acted to place **SB 671 – REAL PROP. ELECTRONIC RECORDING/NOTARY ACT** (see **attachment 19**) on the Committee's calendar for immediate consideration. Representative Weiss, on behalf of the bill sponsor Senator Hartsell, was recognized to explain the bill. She informed the members that the House Judiciary IV Committee had approved the bill only the day before. She stated that it enacts the Uniform Real Property Electronic Recording Act, as recommended by the General Statutes Commission, repeals Chapter 10A of the General Statutes regarding the regulation of Notaries Public, and enacts Chapter 10B relating to Notaries. Following this explanation, Representative Weiss also sent forth a clarifying amendment (see **attachment 20**) and moved its adoption. As there was no discussion, Chairwoman Howard called the amendment to a vote, and it was adopted. Representative Wainwright was then recognized for a question and asked why the increased fees for electronic recording were needed. Secretary of State Elaine Marshall was recognized and stated that training for the conduct of

electronic recording by the Secretary of State's office necessitated the fee, as there was no appropriation for the bill included in the budget. Seeing no further debate on the bill, Chairwoman Howard then recognized Representative Weiss, who moved that a new PCS for SB 671, incorporating the adopted clarifying amendment, be given a favorable report, with an unfavorable report as to the original bill. The matter was called to a vote, and the motion carried.

SB 868 – BILL LEE – MULTI-JURISDICTION INDUS. PARK (see **attachment 21**) was considered next by the Committee. Senator Doug Berger was recognized to explain the bill. He informed the members that the bill provides an exception to the tier designation formula under the Bill Lee Act by allowing certain industrial parks located in higher-tiered counties to be treated as if they were located in an enterprise tier one area. Following the explanation, Representative Carney acted to send forth a clarifying amendment (see **attachment 22**) and moved for its adoption. Seeing no discussion on the amendment, Chairwoman Howard called the matter to a vote, and the amendment was adopted. Representative Holliman was next recognized and moved that a new PCS, incorporating the Carney amendment, for SB 868 be given a favorable report, with an unfavorable report as to the original bill. Seeing no further discussion on the bill, Chairwoman Howard called the motion to a vote, and it carried with no known opposition.

Chairwoman Howard then placed SB 290 – SECURITIES TRANSFER ON DEATH (see **attachment 23**) on the calendar for immediate consideration by the Committee. Representatives Glazier and Moore, on behalf of Senator Hoyle, were recognized to explain the bill. Representative Moore stated that the House had passed a nearly identical bill during the 2004 Session. Representative Glazier explained that the bill would allow the transfer of securities, including stocks, bonds, mutual funds, and security accounts, to a beneficiary upon death based on a prior beneficiary designation. Representative Alexander was recognized following this explanation and moved that SB 290 be given a favorable report. As there was no discussion, the motion was brought to a vote, and it carried without objection.

HB 474 – MILL REHABILITATION TAX CREDIT (see **attachment 24**) was then placed on the calendar for the Committee's immediate consideration. Representative Hill moved for the adoption of the PCS for the purposes of discussion. The motion carried. Chairwoman Howard then recognized Representative Ross to explain the bill. Representative Ross stated that North Carolina had lost some 250,000 manufacturing jobs in the last decade, leaving behind numerous empty industrial buildings. Yet, she stated, many of these buildings are excellent candidates for adaptive use. She further stated that this bill would provide tax credits to encourage the renovation and rehabilitation of these vacant properties into other uses. Following this explanation, Representative Ross acted to send forth an amendment (see **attachment 25**). She stated that the amendment simply set a six-year sunset on the tax credits and moved its adoption. Seeing no discussion, the Chair called the amendment to a vote and it was adopted. Representative Holliman was then recognized and, citing his support of the bill, moved that a new PCS for HB 474, incorporating the Ross amendment, be given a favorable report.

The Chair then opened the floor to questions from the Committee members. Representative Hackney asked the bill sponsor who would own these buildings once the state had provided significant credits in their rehabilitation. Representative Ross stated that the ownership would rest with the developer of a rehabilitation project, but also noted that without the credits provided in the bill, these mills would remain vacant liabilities to the local communities across the state. Representative Bordsen remarked on her support of the bill, citing the positive impact the bill could have on the travel and tourism industry. Seeing no further discussion, Chairwoman Howard then called the Holliman motion to a vote, and the motion carried without objection.

The final bill considered by the Committee was **SB 528 – TAX INCREMENT FINANCING CHANGES** (see **attachment 26**). Representative Alexander moved for the adoption of the PCS for discussion purposes, and the motion carried. Chairwoman Howard then recognized Representative Lucy Allen, on behalf of the bill sponsor Senator Clodfelter, to explain the bill. She explained that the bill allows a municipality to use project development financing for a tourism-related development project located outside of its central business district if the project is located in an enterprise tier one area. Following this explanation, Representative Womble was recognized and moved that the PCS for SB 528 be given a favorable report, with an unfavorable report as to the original bill. Seeing no discussion or debate, Chairwoman Howard then called the motion to a vote and the motion carried.

As the Committee's time had then expired, Chairwoman Howard then adjourned the meeting at 10:04 am.

Respectfully submitted,

Representative Julia Howard

A BILL TO BE ENTITLED

AN ACT TO EXEMPT AGRI-TOURISM ACTIVITIES FROM THE PRIVILEGE TAX ON AMUSEMENTS.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 105-40 is amended by adding a new subdivision to read:

"(12) All farm-related exhibitions, shows, attractions, or amusements offered on land used for bona fide farm purposes as defined in G.S. 153A-340, including hayrides, animal exhibitions, and farm pond fishing."

SECTION 2. This act becomes effective January 1, 2001, and applies to activities occurring on or after that date.

HOUSE BILL 143:
Exempt Agri-Tourism From Privilege Tax

BILL ANALYSIS

Committee:	House Finance	**Date:**	August 22, 2005
Introduced by:	Rep. Coates	**Summary by:**	Martha Walston
Version:	First Edition		Committee Counsel

SUMMARY: House Bill 143 would exempt the following activities from the 3% gross receipts privilege tax on amusements: all farm-related exhibitions, shows, attractions, or amusements offered on land used for farm purposes, including hayrides, animal exhibitions, and farm pond fishing.

House Bill 143 was given a favorable report in House Agriculture.

CURRENT LAW: Article 2 of Chapter 105 imposes a 3% gross receipts tax on anyone engaged in the business of giving, offering, or managing any form of amusements, athletic events, dances, and entertainment for which an admission is charged. A privilege tax of 1% is imposed on the gross receipts from operating motion picture shows. G.S. 105-40 sets out a number of exemptions to the privilege tax on amusements.

BILL ANALYSIS: House Bill 143 would add the following to the list of exemptions from the privilege tax on amusements: "all farm-related exhibitions, shows, attractions, or amusements offered on land used for bona fide farm purposes as defined in G.S. 153A-340, including hayrides, animal exhibitions, and farm pond fishing. The exemption would also apply to attractions such as corn mazes. The term "bona fide farm purposes", as defined in G.S. 153A-340, includes the production and activities relating or incidental to the production of crops, fruits, vegetables, ornamental and flowering plants, dairy, livestock, poultry, and all other forms of agricultural products having a domestic or foreign market.

Under current law, all exhibitions, shows, attractions, and amusements operated by a society or association organized under Chapter 106 (Agriculture) of the General Statutes are exempt from the payment of State, county, and city license taxes if the society or association has obtained a permit from the Secretary of Revenue to operate without the payment of the taxes. Specifically, G.S. 106-507 requires the society or organization to file an application with the Secretary of Revenue for a permit to operate without the payment of any State, county or city license tax not later than 60 days prior to the opening date of its fair. The Secretary of Revenue must refer the application to the Commissioner of Agriculture for approval or rejection. If the application is approved by the Commissioner, then the Secretary of Revenue must issue a permit to the society or association authorizing it to exhibit within its fairgrounds and during the period of its fair, all exhibits, shows, attractions, and amusements as approved without payment of taxes.

EFFECTIVE DATE: House bill 143 is retroactive to January 1, 2001. This would allow persons who have engaged in the business of providing farm-related entertainment and paid the tax to apply for a refund of the taxes paid.

PRINCIPAL DEPARTMENT(S) & PROGRAM(S) AFFECTED: NC Department of Revenue

EFFECTIVE DATE: January 1, 2001

BILL SUMMARY:
This bill would exempt the following activities from the 3% gross receipts privilege tax: all farm-related exhibitions, shows, attractions, or amusements offered on land used for farm purposes, including hayrides, animal exhibitions, and farm pond fishing.

ASSUMPTIONS AND METHODOLOGY:
According to the NC Department of Revenue, the privilege tax is not collected for activities such as hayrides and farm pond fishing because of the participatory nature of the entertainment. Animal exhibitions are considered to be taxable under current law, however, the Department is aware of only two instances in which current taxpayers would be affected by the proposed bill. Because it is unclear whether additional businesses may qualify, this estimate assumes a total of four businesses would be exempted under the bill.

The first step of the fiscal impact analysis is to calculate the annual privilege tax that would be lost from the exemption. For the purposes of this estimate, an average privilege tax revenue per business is calculated based on the average for the two businesses cited by the Department of Revenue. The average is then multiplied by four businesses for a total annual revenue loss of $119,200. Because the effective date for this bill is January 1, 2001, the annual revenue loss is multiplied by 5.5 to calculate the total first-year impact. The impact of each subsequent year is calculated based on the annual privilege tax revenue plus an inflation factor of 2-2.3%.

AN ACT TO ESTABLISH THE HERITAGE PARK AUTHORITY.

The General Assembly of North Carolina enacts:

SECTION 1. There is created the "Heritage Park Authority" which, when duly established as provided for in this act, shall be both a body politic and corporate, having all of the following enumerated powers and jurisdiction as well as any other additional powers that may be conferred upon it by the general law and by act of the General Assembly.

SECTION 2. For purposes of this act:

(1) "Authority" means the Heritage Park Authority or its governing board, as the case may be.

(2) "Board" means the Board of Commissioners of Avery County.

(3) "Heritage Park" means the 52 acres of land known as "Heritage Park" and all facilities located on that land.

(4) "Member" means a member of the Authority.

SECTION 3. The Board may by ordinance create the Authority. The Board shall hold a public hearing on the ordinance to create the Authority. The location of the public hearing shall be determined by the Board and established by resolution. The Board shall cause notice of the hearing to be published once a week for two successive calendar weeks in a newspaper of general circulation in each county. The notice shall be published the first time not less than 10 days nor more than 25 days before the date fixed for the hearing. Upon its creation, the Authority shall enjoy the powers and have the duties and responsibilities conferred upon it by ordinance, subject to the provisions of this Article and the laws of the State of North Carolina. The provisions of any ordinance may be modified, amended, or rescinded by a subsequent ordinance.

SECTION 4.(a) Upon its creation, the Authority shall have a governing board of nine. Except as otherwise provided for the initial appointees, each

commissioner shall serve a four-year staggered term. Upon creation of the Authority, the members of the Authority shall be appointed by the Board as follows:

(1) One member shall be appointed upon the recommendation of the Avery County Agricultural and Horticultural Fair, Inc., a nonprofit corporation.

(2) One member shall be appointed from the Avery County Recreational Advisory Commission.

(3) The southern portion of Avery County shall recommend one member, with that nomination to be determined by the Frank and Green Valley Fire Departments.

(4) One member each recommended by the Board of Commissioners of Banner Elk, Beech Mountain, Crossnore, Elk Park, Newland, and Sugar Mountain.

SECTION 4.(b) All members must maintain a permanent residence within the County of Avery. No member of the Board may serve on the Authority. In the event that the Avery County Agricultural and Horticultural Fair, Inc., becomes nonexistent, then the Authority shall have only eight members.

SECTION 4.(c) Any member who has served two consecutive terms, including any initial term of less than four years, may not be reappointed to a third consecutive term. Such a member may, however, be appointed to serve again after the expiration of the term of the member's successor.

SECTION 4.(d) On the death of a commissioner, resignation, incapacity, or inability to serve, as determined by the board appointing that commissioner, or removal of the commissioner for cause, as determined by the board appointing that commissioner, the board affected may appoint another commissioner to fill the unexpired term.

SECTION 5. The members of the Authority shall receive no compensation or per diem, but shall be allowed and paid their actual traveling expenses incurred in transacting the official business of the Authority.

SECTION 6. Upon creation of the Authority, its governing board shall meet at a time and place set by the Board. The Authority shall elect from among its members a chair, a secretary, and a treasurer at its initial meeting and then annually thereafter. In order to conduct business, a quorum must be present. A majority of the Authority shall control its decisions. Each member of the Authority, including the chair, shall have one vote. The Authority shall meet at the places and times designated by the chair. The provisions of the Open Meetings Law, Article 33C of Chapter 143 of the General Statutes, shall apply.

SECTION 7.(a) Within the limits of the funds available to it, and subject to the provisions of this Article and the ordinance, the Authority may:

(1) Purchase, acquire, establish, construct, own, control, lease, equip, improve, maintain, operate, and regulate Heritage Park facilities for the use of the general public within Avery County for the purpose to purchase, improve, own, hold, lease, or operate real or personal property.

(2) Sue and be sued in the name of the Authority, to make contracts and hold any personal property necessary for the exercise of the powers of the Authority, and to acquire by purchase, lease, or otherwise any existing lease or leasehold right.

(3) Charge and collect reasonable and adequate fees and rents for the use of Heritage Park or for services rendered in the operation of the facilities. Revenues from fees and rents shall be used only for upkeep and operation of Heritage Park.

(4) Make reasonable regulations it deems necessary for the proper maintenance, use, operation, and control of Heritage Park facilities and to provide and enforce penalties for the violation of these rules and regulations; provided, however, that the regulations and schedules of fees shall not be in conflict with the laws of the State of North Carolina.

(5) Sell, lease, or otherwise dispose of any property, real or personal, belonging to the Authority, according to the procedures described in Article 12 of Chapter 160A of the General Statutes, but no sale of real property shall be made without the express approval of the Board.

(6) Deposit or invest and reinvest any of its funds as provided in Chapter 159 of the General Statutes, as it may be amended from time to time.

(7) Purchase any of its own outstanding bonds or notes.

(8) Operate, own, lease, control, regulate, or grant to others, for a period not to exceed five years, with an option to renew the right to operate on Heritage Park any snack bars, vending machines, food and beverages dispensing outlets, advertising media, automobile parking facilities, and other types of facilities as may be directly related to the maintenance and furnishing of a complete parks and recreational facility to the public.

(9) Erect and construct buildings and other improvements and facilities not inconsistent with or in violation of the agreements applicable to and the grants under which real property of the Authority is held.

(10) Borrow money for use in the making and paying of these improvements and facilities, secured by and on the credit only of any lease agreements in respect to these improvements and facilities, and to pledge and assign leases and lease agreements as security for the authorized loans.

(11) Employ any agents or professionals whose services may be deemed by the Authority to be necessary and useful.

(12) Procure grants to allow for the installation of improvements upon real property.

(13) Have a corporate seal that may be altered at will.

(14) Contract with and accept grants from the State of North Carolina, the federal government, or any of the agencies or representatives of either said governmental bodies relating to the purchase of land and to the

grading, constructing, equipping, improving, maintaining, or operating of Heritage Park facilities.

SECTION 7.(b) The Avery County Board of Commissioners may appropriate funds as the Board of Commissioners deems necessary to carry out the provisions of this act in any proportion or upon any basis as may be determined by the Avery County Board of Commissioners. The Authority may make recommendations to the Avery County Board of Commissioners with respect to such appropriations.

SECTION 7.(c) The Authority shall possess the same exemptions in respect to payment of taxes and license fees and shall be eligible for sales and use tax refunds to the same extent as provided for municipal corporations by the laws of the State of North Carolina.

SECTION 7.(d) The Authority may acquire from the Board, and the Board may grant and convey, either by gift or for such consideration as the Board may deem appropriate, any real or personal property which it now owns or may hereafter acquire, which may be necessary for the construction, operation, and maintenance of Heritage Park facilities.

SECTION 7.(e) Any lands acquired, owned, controlled, or occupied by the Authority shall be, and are hereby declared to be acquired, owned, controlled, and occupied for a public purpose.

SECTION 8.(a) A copy of the ordinance creating the Authority and of any ordinance amending or repealing the joint resolution creating the Authority shall be filed with the following:

(1) The Secretary of State.
(2) The clerk to the Board.
(3) The Clerk of Superior Court of Avery County.
(4) A newspaper of general circulation in Avery County.

SECTION 8.(b) Unless an ordinance specifies a later date, it shall take effect when the ordinance has been submitted to the Secretary of State for filing. Certifications by the clerk of superior court of the text of any ordinance filed with that clerk are admissible in evidence.

SECTION 9.(a) Except as limited by restrictions in any ordinance and by other supervening provisions of law, the Authority may make regulations applicable to Heritage Park concerning all matters relating to or affecting the use of Heritage Park. These regulations may not conflict with or supersede provisions of general or special acts or of regulations of State agencies promulgated under the authority of general law. No regulations adopted under the provisions of this section may be adopted by the Authority except after public hearing, with publication of notice of the hearing in a newspaper of general circulation in the county at least 10 days before the hearing.

SECTION 9.(b) Violation of any regulation of the Authority commanding or prohibiting an act shall be a Class 3 misdemeanor.

SECTION 9.(c) The regulations promulgated under this section take effect upon passage or upon such dates as may be stipulated in the regulations except that no regulation may be enforced unless adequate notice of the regulation has been posted in Heritage Park. Ordinances providing regulations for specific areas shall clearly establish

the boundaries of the affected area by including a map of the regulated area, with the boundaries clearly drawn, by setting out the boundaries in a written description, or by a combination of these techniques. Adequate notice as to a regulation affecting only a particular location shall be given in the following manner. When a regulation applies generally as to Heritage Park, there must be a posting of notices, signs, or markers communicating the essential provisions in at least three different places throughout the area, and it shall be printed in a newspaper of general circulation in the county.

SECTION 9.(d) A copy of each regulation promulgated under this section must be filed by the Authority with the following persons:

(1) The Secretary of State.

(2) The Clerk of Superior Court of Avery County.

(3) The clerk to the Board.

SECTION 9.(e) Any official designated in subsection (d) of the section may issue certified copies of regulations filed with the official under the seal of the official's office. Such certified copies may be received in evidence in any proceeding.

SECTION 9.(f) Publication and filing of regulations promulgated under this section as required above are for informational purposes and is not a prerequisite to their validity if they in fact have been duly promulgated, the public has been notified as to the substance of the regulations, a copy of the text of all regulations is in fact available to any person who may be affected, and no party to any proceeding has been prejudiced by any defect that may exist with respect to publication and filing. Rules and regulations promulgated by the Authority under the provisions of other sections of this Article relating to internal governance of the Authority need not be filed or published. Where posting of any sign, notice, or marker, or the making of other communication is essential to the validity of a regulation duly promulgated, it is presumed in any proceeding that prior notice was given and maintained and the burden lies upon the party asserting to the contrary to prove lack of adequate notice of any regulation.

SECTION 10.(a) Where an ordinance so provides, all law enforcement officers, or those officers as may be designated in the ordinance, with territorial jurisdiction as to any part of Heritage Park within the limitations of their subject matter jurisdiction, have the authority of peace officers in enforcing the laws over all of Heritage Park. A certificate of training issued by the North Carolina Criminal Justice Education and Training Standards Commission or the North Carolina Sheriffs' Education and Training Standards Commission will suffice for certification for the purposes of this Article.

SECTION 10.(b) Where a law enforcement officer with jurisdiction over any part of Heritage Park is performing duties relating to the enforcement of the laws, the officer shall have such extraterritorial jurisdiction as may be necessary to perform the officer's duties. These duties include investigations of crimes an officer reasonably believes have been, or are about to be, committed within the area in question. This includes traversing by reasonable routes from one portion of this area to another although across territory not within the boundaries of Heritage Park; conducting prisoners in custody to a court or to detention facilities as may be authorized by law, although this may involve going outside the area in question; and execution of process

connected with any criminal offense alleged to have been committed within the boundaries in question, except that this process may not be executed by virtue of this provision beyond the boundaries of the two counties. This also includes continuing pursuit of and arresting any violator or suspected violator as to which grounds for arrest arose within the area in question.

SECTION 10.(c) Where law enforcement officers are given additional territorial jurisdiction under the provisions of this section, this shall be considered an extension of the duties of the office held and no officer shall take any additional oath or title of office.

SECTION 11. The Authority shall report annually to the Board regarding its operations and activities during the previous year and on any other matter requested by the Board.

SECTION 12. If one or more sections, clauses, sentences, or parts of this act shall be adjudged invalid, such judgment shall not affect, impair, or invalidate the remaining provisions thereof, but shall be confined in its operation to the specific provision held invalid, and the inapplicability or invalidity of any section, clause, sentence, or part of this act in one or more instances or circumstances shall not be taken in affect or prejudice in any way its applicability or validity in any other instance.

SECTION 13. This act is effective when it becomes law.

A BILL TO BE ENTITLED

AN ACT TO ENABLE THE COUNTY OF AVERY TO ESTABLISH THE HERITAGE PARK AUTHORITY FOR THE MAINTENANCE AND DEVELOPMENT OF THE HERITAGE PARK FACILITIES IN AVERY COUNTY.

The General Assembly of North Carolina enacts:

SECTION 1. There is hereby created the Heritage Park Authority ("Park Authority"). The Park Authority is a body politic and corporate having the powers and jurisdiction hereinafter enumerated and any other additional powers as shall be conferred upon it by general law and the future acts of the General Assembly.

SECTION 2. The Park Authority shall consist of nine members who shall be appointed to staggered terms of four years by the Avery County Board of Commissioners. All of the members shall be permanent residents of Avery County. Of the initial nine members, five shall be appointed to a term of four years and four shall be appointed to a term of two years. Thereafter, all terms shall be for four years, thus creating the staggered positions. Each member shall take and subscribe before the Clerk of the Superior Court of Avery County an oath of office and file the same with the Avery County Board of Commissioners. Upon the occurrence of any vacancy on the Park Authority, the vacancy shall be filled within 60 days after the vacancy occurs by the recommending entity upon approval of the Board of Commissioners. If the Authority fails to recommend a replacement to fill the vacancy within 60 days, the Board of Commissioners shall fill the vacancy at their next regular meeting.

SECTION 3.(a) The members of the Park Authority shall be appointed by the Avery County Board of Commissioners, as follows:

(1) One member shall be appointed upon the recommendation of the Avery County Agricultural and Horticultural Fair, Inc., a nonprofit corporation.

(2) One member shall be appointed from the Avery County Recreational Advisory Commission.

(3) The Towns of Banner Elk, Beech Mountain, Crossnore, Elk Park, Newland, and Sugar Mountain shall each nominate one member.

(4) The southern portion of Avery County shall recommend one member, with that nomination to be determined by the Frank and Green Valley Fire Departments.

HOUSE BILL 1526:
Avery County/Heritage Park Authority

BILL ANALYSIS

Committee:	House Finance	**Date:**	August 22, 2005
Introduced by:	Reps. Frye, Jones	**Summary by:**	Cindy Avrette
Version:	PCS to Second Edition H1526-CSST-81		Committee Counsel

SUMMARY: ***The proposed committee substitute for House Bill 1526 would allow the Avery County Board of Commissioners to create an authority that could acquire the property known as "Heritage Park" and operate and maintain the facilities on that property. The bill would become effective when it becomes law. The original bill, sponsored by Rep. Frye, would have eliminated the automobile insurance comprehensive deductible on motor vehicle windshield glass.***

BILL ANALYSIS: There is approximately 52 acres of property in Avery County known as "Heritage Park". The property has some facilities on it and is used by the county for certain purposes, including its Agricultural and Horticultural Fair. This bill would establish an authority that would have the ability to acquire the property and to improve, maintain, operate, and regulate the facilities on that property. The Authority would have the ability to charge and collect fees and rents for the use of the facilities as well as borrow money for use in improving the facilities. The Authority may make regulations concerning Heritage Park and law enforcement officers with jurisdiction of the Park may enforce those regulations. A violation of a regulation of the Authority would be a Class 3 misdemeanor. The Avery County Board of Commissioners may appropriate funds to the Authority and the Authority is entitled to the same exemptions in respect to payment of taxes as municipal incorporations.

The Authority may be created by ordinance of the Board of Commissioners of Avery County after notice and public hearing. Upon creation of the Authority, the Board must appoint a nine-member governing body for the Authority. To be eligible to serve on the governing body, a person must maintain a permanent residence in Avery County. A majority of the Authority shall control its decisions. The members of the governing body would serve four-year staggered terms. A member could not serve more than two consecutive terms. The members would not receive compensation or per diem, but they may be allowed their actual traveling expenses. The members of the governing body of the Authority must be appointed as follows:

- One member upon the recommendation of the Avery County Agricultural and Horticultural Fair, Inc. (If the Avery County Agricultural and Horticultural Fair, Inc. becomes nonexistent, then the governing body of the Authority shall have only eight members.)
- One member must be appointed from the Avery County Recreational Advisory Commission.
- One member from the southern portion of Avery County upon the recommendation of the Frank and Green Valley Fire Departments.
- Six members representing the municipalities in Avery County. The Board must appoint the members upon the recommendation of each of the following Board of Commissioners: Banner Elk, Beech Mountain, Crossnore, Elk Park, Newland, and Sugar Mountain.

EFFECTIVE DATE: The bill would become effective when it becomes law.

SENATE BILL 505:
Medical Examiner Fee Increase.-AB

BILL ANALYSIS

Committee:	House Finance	**Date:**	August 23, 2005
Introduced by:	Sen. Purcell	**Summary by:**	Ashley Huffstetler
Version:	Second Edition		Bill Drafting

SUMMARY: Senate Bill 505 increases from $75 to $100 the fee paid to medical examiners for each investigation and report.

CURRENT LAW: The North Carolina Medical Examiner System is a network of over 600 medical doctors throughout North Carolina who investigate deaths of a suspicious, unusual or unnatural nature.

The Office of the Chief Medical Examiner of the State of North Carolina (OCME) is a division of the NC Department of Health and Human Services. The OCME also functions as the Division of Forensic Pathology of the UNC School of Medicine Department of Pathology. The Chief Medical Examiner appoints one or more county medical examiners for each county for a three-year term.

Upon the death of any person resulting from violence, poisoning, accident, suicide or homicide; occurring suddenly when the deceased had been in apparent good health; occurring in jail or prison; occurring by State execution, or occurring under any suspicious, unusual or unnatural circumstance, the medical examiner must be notified. Upon being notified, the medical examiner must take charge of the body, make inquiries regarding the cause and manner of death, and promptly report his findings in writing to the Chief Medical Examiner. The completed report must be mailed by the local medical examiner to the state Office of the Chief Medical Examiner within 14 days of the time the local medical examiner assumes jurisdiction of a dead body.

A medical examiner receives a fee of $75.00 for each investigation and filing of the required report. The fee is paid by the State, unless the deceased is a resident of the county in which the death or fatal injury occurred, in which case the county pays the fee.

BILL ANALYSIS: Senate Bill 505 would increase the fee from $75 to $100.

EFFECTIVE DATE: The act would become effective when it becomes law, and apply to fees paid for deaths investigated on or after that date.

BACKGROUND: This fee was last increased in 1991 from $50.00 to $75.00.

BILL SUMMARY: Senate Bill 505 raises the fee paid to medical examiners for a postmortem investigation and report from $75 to $100.

ASSUMPTIONS AND METHODOLOGY: The Office of the Chief Medical Examiner (OCME) is a division of the Department of Health and Human Services. The OCME maintains a network of 600 medical doctors throughout North Carolina who voluntarily devote their time to investigate deaths of a suspicious, unusual or unnatural nature. Under current law, the medical examiner receives a $75 fee paid by the State unless the deceased is a resident of the county in which the death or fatal injury occurred. If the deceased is a resident of the county in which they are found, the county pays the fee. No fee is paid to the Mecklenburg County medical examiner

who examines the death of a Mecklenburg County resident, and no fee is paid to the OCME or the Mecklenburg County Medical Examiner when the state, not the county, is liable for the $75 fee.

Based on historical data, the projected number of medical examiner cases is shown below, followed by the estimated increase in total revenue from the $25 increase over the current $75 fee.

HOUSE BILL 990:
Definition of Farmer for Sales and Use Tax

BILL ANALYSIS

Committee:	House Finance	**Date:**	August 20, 2005
Introduced by:	Rep. Starnes	**Summary by:**	Martha Walston
Version:	PCS to First Edition H990-CSLA		Committee Counsel

SUMMARY: The proposed committee substitute for House Bill 990 does two things:

- *It clarifies the definition of farmer for sales and use tax purposes so that the definition mirrors the definition in the sales and use tax technical bulletin.*
- *It expands the sales and use tax exemption for items sold to farmers to include items sold to a lessor of farmland who is responsible for the upkeep and maintenance of farmland for use by a lessor of farmland or the lessor's lessee.*

The 1st edition made the above changes to the statute that imposes a preferential tax rate of 1% with an $80 maximum per article on items sold to farmers. Since S.L. 2005-236 repeals the preferential sales and use tax rate and replaces it with a sales and use tax exemption, effective January 1, 2006, the PCS makes the changes to conform to this exemption.

CURRENT LAW: Under G.S. 105-164.4A, sales to a farmer of machines and machinery, and parts and accessories for these machines and machinery, for use by the farmer in the planting, cultivating, harvesting, or curing of farm crops in the production of dairy products, eggs, or animals are taxed at the preferential rate of 1% with a maximum of $80 per article. Under G.S. 105-164.4(a)(1c), sales of fuel, other than electricity, to farmers to be used for any farm purposes are taxed at 1%. A 'farmer' includes a dairy operator, a poultry farmer, an egg producer, a livestock farmer, a farmer of crops, and a farmer of an aquatic species, as defined in G.S. 106-758.[1]

The following items are exempt from sales and use tax:

1. commercial fertilizer, lime, land plaster, plastic mulch, plant bed covers, and seeds purchased by farmers for agricultural purposes.
2. packaging materials purchased by farmers and producers.
3. remedies, vaccines, medications, litter materials, and feeds for animals; rodenticides, insecticides, herbicides, fungicides, and pesticides; defoliants for use on crops; and plant growth inhibitors, regulators, or stimulators when purchased for animals or plants held or produced for commercial purposes.
4. tangible personal property purchased for commercial animal farmers or contractors or subcontractors for a commercial animal farmer.

To receive the above preferential sales and use tax rate or exemption, a person must apply for and obtain an exemption certificate from the Department of Revenue. An exemption certificate authorizes a retailer to sell tangible personal property to the holder of the certificate and either collect tax at a preferential

[1] G.S. 106-758 defines "aquatic species" as any species of finfish, mollusk, crustacean, or other aquatic invertebrate, amphibian, reptile, or aquatic plant, and including, but not limited to, "fish' and "fishes" "Fish" and "fishes" are defined as all marine mammals; all shellfish; all crustaceans; and all other fishes.

rate or not collect tax on the sale. A person who purchases property under an exemption certificate is liable for any tax due on the sale if the Department determines that the person is not eligible for the certificate or the property was not used as intended.

BILL ANALYSIS: Section 1 of House Bill 990 clarifies the definition of farmer for sales and use tax purposes so that it is identical to the definition in the Department's sales and use tax technical bulletin.

Section 2 of House Bill 990 expands the sales and use tax exemption for items sold to a farmer to include items sold to a lessor of farmland who is responsible for the upkeep and maintenance of farmland for use by a lessor of farmland or the lessor's lessee. S.L. 2005-276 repeals the preferential sales and use tax rate for items sold to farmers and replaces it with a sales and use tax exemption, effective January 1, 2006

EFFECTIVE DATE: The bill becomes effective January 1, 2006.

Sales Tax	* Small Revenue Loss – See Assumptions *				

PRINCIPAL DEPARTMENT(S) & PROGRAM(S) AFFECTED: NC Department of Revenue, Sales Tax Division.

EFFECTIVE DATE: January 1, 2006.

BILL SUMMARY: The legislation clarifies the definition of a farmer for sales and use tax purposes to mirror the current Department interpretation. It also expands who is eligible for special sales tax treatment for farmers to include items sold to a lessor of farmland or the lessor's lessee.

ASSUMPTIONS AND METHODOLOGY: Currently farmers purchasing most farm equipment are charged a sales tax of 1%, or a tax of 1% with an $80 cap, depending on the item. Recently approved SB 622 (2005 Appropriations Act) moved farmers from this type of taxation to a complete exemption from sales tax.

The legislation makes two changes to existing law. First, it alters the definition of a farmer to reflect the definition in the sales and use tax technical bulletins. Because this mirrors current Department practice, no fiscal impact is expected as a result of this portion of the bill. Second, the bill expands that definition of a farmer to include lessors and lessor's lesses. In the past the Department has denied issuing exemption numbers for farm exemptions to some applicants because they were not the landowners. As a result, it is assumed that the change will result in additional taxpayers being eligible for the exemption. However, no estimate is available on the number of individuals that would likely qualify under the bill, or the amount of tax they would have paid under existing law. However, given the limited number of times this issue has been highlighted in an audit leads the Department to believe the amount of purchases attributable to this class of taxpayers would not be very large. Thus a small but negative revenue impact is expected.

SECTION 2. Subchapter VIII of Chapter 105 of the General Statutes is amended by adding a new Article to read:

"Article 46.

"Fourth One-Half Cent (1/2¢) Local Government Sales and Use Tax.

This Article is the Fourth One-Half Cent (1/2¢) Local Government Sales and Use Tax Act.

"**§ 105-537. Levy.**

(a) Authority. – If the majority of those voting in a referendum held pursuant to this Article vote for the levy of the taxes, the board of commissioners of the county

may, by resolution, levy one-half percent (1/2%) local sales and use taxes in addition to any other State and local sales and use taxes levied pursuant to law.

(b) Vote. – The board of commissioners of a county may direct the county board of elections to conduct an advisory referendum on the question of whether to levy local one-half percent (1/2%) sales and use taxes in the county as provided in this Article. The election shall be held on a date jointly agreed upon by the two boards and shall be held in accordance with the procedures of G.S. 163-287.

(c) Ballot Question. – The form of the question to be presented on a ballot for a special election concerning the levy of the taxes authorized by this Article shall be:

Except as provided in this Article, the adoption, levy, collection, administration, and repeal of the additional taxes authorized by this Article shall be in accordance with Article 39 of this Chapter. A tax levied under this Article does not apply to the sales price of food that is exempt from tax pursuant to G.S. 105-164.13B.

"**§ 105-539. Distribution and use.**

(a) Distribution. – The Secretary shall, on a monthly basis, distribute to each taxing county the net proceeds of the tax collected in that county under this Article. If the Secretary collects taxes under this Article in a month and the taxes cannot be identified as being attributable to a particular taxing county, the Secretary shall allocate these taxes among the taxing counties in proportion to the amount of taxes collected in each county under this Article in that month and shall include them in the monthly distribution.

(b) Use. – Counties may use the proceeds of a tax levied under this Article only for public school capital outlay purposes as defined in G.S. 115C-426(f) or for community college plant fund purposes as defined in G.S. 115D-32 and to retire indebtedness incurred by the counties for these purposes.

(c) Nonsupplant Restriction. – It is the purpose of this Article for counties to appropriate funds generated under this Article to increase the level of county spending for public school capital outlay purposes and community college plant fund purposes above the level of spending before the levy of the tax authorized in this Article. A county that levies a tax under this Article must continue to spend for public school capital outlay and community college plant fund purposes the same amount of money it would have spent for those purposes if it had not levied the tax."

SECTION 3. A BILL TO BE ENTITLED

AN ACT TO AUTHORIZE PITT COUNTY TO LEVY A ONE-CENT LOCAL SALES AND USE TAX FOR PUBLIC SCHOOL CAPITAL OUTLAY PURPOSES OR COMMUNITY COLLEGE PLANT FUND PURPOSES, IF APPROVED BY THE VOTERS OF THE COUNTY.

The General Assembly of North Carolina enacts:

SECTION 1. This act applies to Pitt County only.

SECTION 2. Subchapter VIII of Chapter 105 of the General Statutes is amended by adding a new Article to read:

"Article 46.

"Second One-Cent (1¢) Local Government Sales and Use Tax.

"**§ 105-535. Short title.**

This Article is the Second One-Cent (1¢) Local Government Sales and Use Tax Act.

"**§ 105-536. Limitations.**

This Article applies only to counties that levy the first one-cent (1¢) local sales and use tax under Article 39 of this Chapter or under Chapter 1096 of the 1967 Session Laws, the first one-half cent (1/2¢) local sales and use tax under Article 40 of this Chapter, the second one-half cent (1/2¢) local sales and use tax under Article 42 of this Chapter, and the third one-half cent (1/2¢) local sales and use tax under Article 44 of this Chapter.

"**§ 105-537. Levy.**

(a) Authority. – If the majority of those voting in a referendum held pursuant to this Article vote for the levy of the taxes, the board of commissioners of the county may, by resolution, levy one percent (1%) local sales and use taxes in addition to any other State and local sales and use taxes levied pursuant to law.

(b) Vote. – The board of commissioners of a county may direct the county board of elections to conduct an advisory referendum on the question of whether to levy local one percent (1%) sales and use taxes in the county as provided in this Article. The

election shall be held on a date jointly agreed upon by the two boards and shall be held in accordance with the procedures of G.S. 163-287.

(c) Ballot Question. – The form of the question to be presented on a ballot for a special election concerning the levy of the taxes authorized by this Article shall be:

'[ ] FOR [ ] AGAINST

One percent (1%) local sales and use taxes, in addition to the current local sales and use taxes, to be used only for public school capital outlay purposes or community college plant fund purposes.'

"**§ 105-538. Administration.**

Except as provided in this Article, the adoption, levy, collection, administration, and repeal of the additional taxes authorized by this Article shall be in accordance with Article 39 of this Chapter. A tax levied under this Article does not apply to the sales price of food that is exempt from tax pursuant to G.S. 105-164.13B.

"**§ 105-539. Distribution and use.**

(a) Distribution. – The Secretary shall, on a monthly basis, distribute to each taxing county the net proceeds of the tax collected in that county under this Article. If the Secretary collects taxes under this Article in a month and the taxes cannot be identified as being attributable to a particular taxing county, the Secretary shall allocate these taxes among the taxing counties in proportion to the amount of taxes collected in each county under this Article in that month and shall include them in the monthly distribution.

(b) Use. – Counties may use the proceeds of a tax levied under this Article only for public school capital outlay purposes as defined in G.S. 115C-426(f) or for community college plant fund purposes as defined in G.S. 115D-32 and to retire indebtedness incurred by the county for these purposes.

(c) Nonsupplant Restriction. – It is the purpose of this Article for counties to appropriate funds generated under this Article to increase the level of county spending for public school capital outlay purposes and community college plant fund purposes above the level of spending before the levy of the tax authorized in this Article. A county that levies a tax under this Article must continue to spend for public school capital outlay and community college plant fund purposes the same amount of money it would have spent for those purposes if it had not levied the tax."

SECTION 3. A tax levied under Article 46 of Chapter 105 of the General Statutes, as enacted by this act, does not apply to construction materials purchased to fulfill a lump-sum or unit-price contract entered into or awarded before the effective date of the levy or entered into or awarded pursuant to a bid made before the effective date of the levy when the construction materials would otherwise be subject to the tax levied under Article 46 of Chapter 105 of the General Statutes.

SECTION 4. This act is effective when it becomes law.

HOUSE BILL 1050:
Local Taxes for Public Schools & Comm Colleges

BILL ANALYSIS

Committee:	House Finance	**Date:**	August 23, 2005
Introduced by:	Reps. Warren, McLawhorn, and Williams	**Summary by:**	Ashley Huffstetler
Version:	PCS to First Edition H1050-CSMBx-15		Committee Counsel

SUMMARY: ***The PCS to House Bill 1050 authorizes Pitt, Martin, Davie, Chatham, Anson, and Union counties to levy one-half cent local sales and use taxes, if approved by a referendum of the voters of the county. The proceeds of the tax are to be used only for public school capital outlay purposes and for community college plant fund purposes.***

CURRENT LAW: The General Assembly has previously authorized the levy of three one-half cent local sales and use taxes, in addition to a one-cent local sales and use tax authorized in 1971. Previous local sales taxes have given the local governments two options for levying the tax: (1) by vote of the people in a special election, and (2) by vote of the county commissioners, by resolution and after ten days' public notice and a public hearing.

All counties in North Carolina currently levy local sales taxes at a rate of at least 2.5% (the maximum allowed under current law for all counties other than Mecklenburg and Dare).

BILL ANALYSIS: The PCS to House Bill 1050 authorizes Pitt, Martin, Davie, Chatham, Anson and Union counties to hold referendums on the issue of whether to levy additional one-half cent local sales taxes to be used only for public school capital outlay and community college plant fund purposes. The taxes will be administered as is the current first one-half cent local sales tax in Article 39 of the General Statutes. The fourth one-half cent local sales tax does not apply to the sales price of food that is currently exempt from tax.

EFFECTIVE DATE: This act is effective when it becomes law.

Comments Before the House Finance Committee Meeting

Speaker One: Mr. Mark Owens, Jr., Chairman, Pitt County Board of Commissioners

PRIMARY POINTS: 1) Stress unity of county/community around this initiative, 2) Legislation will require voter referendum and 3) Tax base differential

* We are here before you today for something that is very important to Pitt County - a means to us assist in the financing of facilities for our Public Schools and Community College.

* We are here for something that is widely supported in our County and would have the ultimate test of democracy - a citizen referendum on this measure.

* The Pitt County Board Commissioners has unanimously asked for the legislation before you today.

* Our citizens are fully aware of it and we believe they support it.

* We have nineteen (19) organizations (municipalities, university, hospital, farm bureau, etc.) that have endorsed it by adopting a two page resolution of support on the matter.

* Every municipality (10) in Pitt County has formally endorsed it.

* Our Legislative Delegation on both sides has introduced legislation supporting the additional sales tax.

* Of course what I am talking about is the additional sales tax authorization in Pitt County for public school and community college facilities.

*As a county we have been responsible and done what we could within the ad valorem funding structure for both the schools and community college.

* In the past two years, we funded capital construction in the amount of $40 million dollars (total for PCS & PCC). (This included a $30 million dollar COPS financing package that resulted in a property tax increase to retire this debt.)

* Thus, we are committed at the local level, but it is not enough.

* This request is caused by a unique confluence of three items - First we are growing rapidly – 24% in the last decade. You will hear more about our population growth pressures from one of the other speakers.

* Second- we are a low wealth area. We are moving from a rural/agriculture community to a more suburban environment and are feeling the pressures of rapid growth. Additionally, there are a great number of non-property owners in Pitt County, including ECU students and others who drive into our area, who are using our services.

* Third- many of our largest employers are tax exempt entities. This is the primary reason for the low wealth in the tax base.

* These three factors produce a unique situation that is not readily replicated in other areas of North Carolina.

* Because of the county's traditional reliance on agriculture vs. industry and the lack of major corporations, this has limited our tax base.

* At all levels - national, state and local, economic development is discussed and is vitally important.

* We, like you, believe that education is important for economic development, but we can not educate when we do not have adequate facilities.

* We ask you for the same authority that others in unique situations in the state already have - the additional sales tax authorization.

* We ask you to let our citizens decide through a democratic referendum.

Our next two speakers will be Mr. Michael Dixon, Chairman of the Pitt County Board of Education and Henry Hinton of the Greenville-Pitt County Chamber of Commerce.

Speaker Two: Mr. Michael Dixon, Chairman, Pitt Board of Education

PRIMARY POINTS: 1) Speak on behalf of PCS &PCC, 2) Create visual understanding of the enrollment growth, special needs classrooms and available space for class size reductions and 3) Space crisis even with new schools and classrooms over past several years.

*Recognize Mr. Raymond Reddrick, Chairman of the Pitt Community College Board of Trustees.

* Speaking for both Public Schools and Community College in the interest of time.

* Currently Pitt County Schools has a total enrollment of 22,500 students. Pitt Community College has a total enrollment of 11,500 students each semester in credit and non-credit programs. Approximately one-third of credit students are not Pitt County residents.

* We have had professional outside analysis of our space needs - these needs are real: Pitt County Schools documented $217 million in needs in 2003 and Pitt Community College has developed a Master Plan whose cost is $70 million in today's dollars. Thus, our need totals almost $300 million dollars! (Would require a property tax increase of 25-27 cents for debt service – does not include additional operating costs!!)

* The community college is the sixth largest, but most crowded of any community college in the state! It ranks 58 out of 58 in space per student.

* Enrollment for Pitt County Schools has increased 20% over the past five (5) years.

* Enrollment at Pitt Community College increased 5.3% annually over the past the past 5 years.

* In the public school system, our students are presently housed in 140 modular classrooms.

* Our public school system is growing at a rate of 400+ students per year which is equivalent to the construction of one new elementary school each year (avg. cost $10 million).

* We have teachers who work out of grocery carts and move from place to place. We cannot get additional trailers permitted at most schools. Even new schools are opening at or beyond capacity.

* Introduce Mr. Henry Hinton, immediate past Chairman of the Greenville-Pitt County Chamber of Commerce.

Speaker Three: Mr. Henry Hinton, Immediate Past Chairman, Greenville-Pitt County Chamber of Commerce

PRIMARY POINTS: 1) Business community at-large endorses additional sales tax, 2) Growth aspects of county – population at large as well as school aged children and 3) Make formal request to act on this bill!

* State that the Greenville-Pitt County Chamber of Commerce has formally endorsed this request.

* We believe that it is good business to invest in educational facilities that will in turn produce productive future citizens and leaders.

* Sound and basic educational facilities are the root of every county's ability to succeed and prosper in today's highly competitive economic development environment.

* Pitt County has grown tremendously over the past three decades and will duplicate this same growth over the next 30 years. In 1970 the population was 74,000 – thirty years later it practically doubled to 133,000. Current projections in 2030 place the population doubling again to 242,000!

* In comparison, the ad valorem property tax base will also grow – however – with many of the county's top employers being tax exempt, the growth of this tax base has not, is not, and will not be anywhere sufficient to meet our capital facility needs of the public school and community college systems.

* We are not running from our responsibility to pay and provide for educational facilities. And we are not asking for outright approval for this increase in sales tax, just the permission to go to our voters in a referendum election

* We are not asking the state for a handout – we would like to leverage an additional sales tax and use these revenues along with local tax dollars to meet the needs of our public education system.

* We are asking for a means to better our County which will also benefit Eastern North Carolina.

***REQUEST**: We are asking that you as the House Finance Committee vote favorably on this bill today so that it can then be read "into the calendar" on the floor of the House today for consideration and action tomorrow. (Time is of the essence.)

* THANK YOU for you consideration of this request. Questions.....?

Re: H1050

"Pitt County's *'Article 46'* Sales Tax Initiative"

Information Sheet

- Initiative has been endorsed by every municipality (10 total) in Pitt County along with all other primary organizations (i.e. Greenville-Pitt County Chamber of Commerce, Pitt County Memorial Hospital, Pitt County Development Commission, East Carolina University, Farm Bureau).

- Legislative authorization for the additional sales tax revenues would be restricted to education related capital construction debt service payments and pay as you go financing.

- Purpose is to provide a dedicated revenue source to supplement existing revenue sources to pay off debt service costs on public schools and community college building needs. Identification of new local revenues will still be needed to pay for increased operational expenses related to any new construction (i.e. utilities, insurance, custodial, etc.)!

- Pitt County Board of Education has identified, through their Long Range Educational Plan, *$217 million* in building requests for the public K-12 system.

- Pitt Community College, through its Master Plan process, has documented *$70 million* in building construction needs.

- If the sales tax measure is not approved, the county's property owners could have to shoulder a 25-27 cent increase in property tax to cover debt service costs – this excludes operational costs (i.e. utilities, insurance, custodial, etc.)!

- "Tax payer equity" is created through this additional sales tax; all citizens would contribute to the construction of classroom space, not just property owners.

- Many of Pitt County's largest employers do not pay property taxes, thus contributing to the property tax burden on residential properties.

- Sales tax collections will be enhanced by the fact that Greenville/Pitt County serves eastern North Carolina as a "regional hub" for retail, food, health care entertainment and education.

- Once approved by the General Assembly and then by the citizens of Pitt County through a referendum, funds will address close to $300 million in severe building needs.

RESOLUTION IN SUPPORT OF 1% LOCAL OPTION SALES TAX EXCLUSIVELY FOR EDUCATION CAPITAL NEEDS IN PITT COUNTY

WHEREAS, the quality of educational facilities within Pitt County is vital to create strong learning environments that will have a direct bearing on the present and future educational achievements of our students; and

WHEREAS, the quality of facilities as well, as school curriculum, is a primary factor in economic development recruitment efforts; and

WHEREAS, the continued economic future of Pitt County is predicated on strong public school and community college systems; and

WHEREAS, the Pitt County School System currently has greater than 21,500 students and is experiencing a trend of significant growth in student enrollment with the last 5 years growth rate being greater than 1,500 students and with this level of growth projected to continue; and

WHEREAS, the Pitt Community College system has greater than 15,000 students between degree seeking and continuing education programs and is also experiencing a trend of significant annual growth in student enrollment with last year's growth rate being 5% and this growth is projected to continue; and

WHEREAS, because the Pitt County School System cannot adequately accommodate the current student population, space shortages require the use of over 140 mobile classrooms and a portion of the FY 04-05 teaching positions were not allocated due to the lack of classroom space; and

WHEREAS, Pitt Community College ranks last (58 out of 58) as compared to other community college campuses when calculating square footage per student. This is indicative of a severe space shortage at the community college; and

WHEREAS, both present and future student population growth has exceeded each institution's ability to provide for adequate classroom space; and

WHEREAS, Pitt County Schools has identified $217 million in capital needs over the next twelve to fifteen years; and

WHEREAS, Pitt Community College had identified $80 million in capital needs over the next ten to fifteen years; and

WHEREAS, if both the $217 million and $80 million in capital needs ($297 million) were implemented all at once, this would result in a twenty-five to twenty-seven cent (25-27) ad valorem tax increase for debt service in Pitt County. This being equivalent to a 38% tax increase; and

WHEREAS, in addition to debt service considerations, Pitt County will also be responsible for the "new operating costs" associated with the proposed capital construction (i.e. utilities, insurance & janitorial service); and

WHEREAS, based upon current data, a 1% sales tax in Pitt County would yield an estimated $16 million per year and would be dedicated exclusively for debt retirement on capital projects for Pitt County Schools and Pitt Community College; and

WHEREAS, relying solely on the ad valorem property tax base to leverage funding for debt service does not create "tax payer equity", but with a sales tax all citizens will contribute to this revenue stream, not just property owners; and

WHEREAS, most counties in North Carolina have a 50-50 split in their tax base between residential and commercial/industrial value; and

WHEREAS, Pitt County has a 70-30 split in its tax base, in which residential properties carry a disproportionate share of the ad valorem tax burden compared to other counties; and

WHEREAS, the three largest employers in Pitt County do not pay ad valorem property taxes; and

WHEREAS, Pitt County has been designated a "Low Wealth" county by the State of North Carolina; and

WHEREAS, in order to adequately address both the immediate and future facility needs of both PreK-12 and community college students, it is necessary that a new dedicated revenue stream be created.

NOW, THEREFORE, BE IT RESOLVED by the Pitt County Board of Commissioners that it does hereby express its support to the Pitt County Legislative Delegation and North Carolina General Assembly to allow Pitt County the ability to implement a 1% local option sales tax to be dedicated exclusively for education related capital needs.

Agriculture/Environment/Natural Resources Committee Substitute Adopted 8/11/05

Third Edition Engrossed 8/12/05

Short Title: Energy Credit Banking/Selling Program/Fund. (Public)

Referred to:

March 24, 2005

A BILL TO BE ENTITLED

AN ACT TO ESTABLISH A BANKING AND SELLING PROGRAM FOR CREDITS ISSUED UNDER THE FEDERAL ENERGY POLICY ACT IN ORDER TO GENERATE FUNDS FOR THE USE OF ALTERNATIVE FUELS AND ALTERNATIVE FUELED VEHICLES BY STATE DEPARTMENTS, INSTITUTIONS, AND AGENCIES AND TO EXTEND AND EXPAND THE CREDIT FOR INVESTMENT IN RENEWABLE ENERGY PROPERTY.

The General Assembly of North Carolina enacts:

SECTION 1. Article 3 of Chapter 143 of the General Statutes is amended by adding two new sections to read:

"**§ 143-58.4. Energy credit banking and selling program.**

(a) As used in this section:

(1) 'AFV' means a hybrid electric vehicle that derives its transportation energy from gasoline and electricity. AFV also means an original equipment manufactured vehicle that operates on compressed natural gas, propane, or electricity.

(2) 'Alternative fuel' means biodiesel, ethanol, compressed natural gas, propane, and electricity used as a transportation fuel in blends or in a manner as defined by the Energy Policy Act.

(3) 'B-20' means a blend of twenty percent (20%) by volume biodiesel fuel and eighty percent (80%) by volume petroleum-based diesel fuel.

(4) 'Department' means the Department of Administration.

(5) 'Energy Policy Act' means the federal Energy Policy Act of 1992, Pub. L. No. 102-486, 106 Stat. 2782, 42 U.S.C. § 13201, et seq.

(6) 'EPAct credit' means a credit issued pursuant to the Energy Policy Act.

(7) 'E-85' means a blend of eighty-five percent (85%) by volume ethanol and fifteen percent (15%) by volume gasoline.

(8) 'Incremental fuel cost' means the difference in cost between an alternative fuel and conventional petroleum fuel at the time the fuel is purchased.

(9) 'Incremental vehicle cost' means the difference in cost between an AFV and conventional vehicle of the same make and model. For vehicles with no comparable conventional model, incremental vehicle cost means the generally accepted difference in cost between an AFV and a similar conventional model.

(b) Establish Program. – The State Energy Office of the Department, in cooperation with State departments, institutions, and agencies, shall establish and administer an energy credit banking and selling program to allow State departments, institutions, and agencies to use moneys generated by the sale of EPAct credits to purchase alternative fuel, develop alternative fuel refueling infrastructure, and purchase AFVs for use by State departments, institutions, and agencies. Each State department, institution, and agency shall provide the State Energy Office with all vehicle fleet information necessary to determine the number of EPAct credits generated annually by the State. The State Energy Office may sell credits in any manner that is in accordance with the provisions of the Energy Policy Act.

(c) Adopt Rules. – The Secretary of Administration shall adopt rules as necessary to implement this section.

"**§ 143-58.5. Alternative Fuel Revolving Fund.**

(a) The definitions set out in G.S. 143-58.4 apply to this section.

(b) The Alternative Fuel Revolving Fund is created and shall be held by the State Treasurer. The Fund shall consist of moneys received from the sale of EPAct credits under G.S. 143-58.4, any moneys appropriated to the Fund by the General Assembly, and any moneys obtained or accepted by the Department for deposit into the Fund. The Fund shall be managed to maximize benefits to the State for the purchase of alternative fuel, related refueling infrastructure, and AFV purchases. To the extent possible, benefits from the sale of EPAct credit shall be distributed to State departments, institutions, and agencies in proportion to the number of EPAct credits generated by each. No portion of the Fund shall be transferred to the General Fund, and any appropriation made to the Fund shall not revert. The State Treasurer shall invest moneys in the Fund in the same manner as other funds are invested. Interest and moneys earned on such investments shall be credited to the Fund.

(c) The Fund shall be used to offset the incremental fuel cost of biodiesel fuel with a minimum biodiesel concentration of B-20 for use in State vehicles, for the purchase of ethanol fuel with a minimum ethanol concentration of E-85 for use in State vehicles, the incremental vehicle cost of purchasing AFVs, for the development of related refueling infrastructure, for the costs of administering the Fund, and for projects approved by the Energy Policy Council.

(d) The Secretary of Administration shall adopt rules as necessary to implement this section.

(e) The Department shall submit to the Joint Legislative Commission on Governmental Operations and the Fiscal Research Division no later than 1 October of each year a report on the expenditures from the Fund during the preceding fiscal year."

SECTION 2. Article 2 of Chapter 136 of the General Statutes is amended by adding a new section to read:

"**§ 136-28.13. Participation in the energy credit banking and selling program.**

The Department of Transportation shall participate in the energy credit banking and selling program under G.S. 143-58.4 and is eligible to receive proceeds from the Alternative Fuel Revolving Fund under G.S. 143-58.5 to purchase alternative fuel, develop alternative fuel refueling infrastructure, or purchase AFVs as defined in G.S. 143-58.4."

In the case of renewable energy property that serves a single-family dwelling, the credit must be taken for the taxable year in which the property is placed in service. SENATE BILL 1149:
Energy Credit Banking/Selling Program/Fund

BILL ANALYSIS

Committee:	House Finance	**Date:**	August 20, 2005
Introduced by:	Sen. Jenkins	**Summary by:**	Martha Walston
Version:	Third Edition		Committee Counsel

SUMMARY: Senate Bill 1149 does the following:

- ***Directs the State Energy Office of the Department of Administration to establish and administer an energy credit banking and selling program. Energy credits are earned by State agency purchases of alternative fueled vehicles (AFVs) that exceed federal requirements. Revenues generated from the sale of credits would be used to purchase alternative fuel, to develop alternative fuel refueling infrastructure, and to purchase AFVs for use by State departments, institutions, and agencies.***
- ***Increases the ceiling on the credit for investing in renewable energy property from $250,000 for nonresidential property to $2.5 million and includes pool heating in the residential property ceiling for solar energy equipment.***
- ***Expands the definition of renewable energy property in G.S. 105-129.15 to include any biomass equipment that uses renewable biomass resources for commercial thermal or electrical generation (was, for commercial thermal or electrical generation from renewable energy crops or wood waste materials)***
- ***Expands the definition of biomass resources to include spent pulping liquor.***
- ***Extends the sunset on the credit for investing in renewable energy property from January 1, 2006, to January 1, 2011.***

Sections 1 through 3 of Senate Bill 1149 apply to the new energy credit banking and selling program and Alternative Fuel Revolving Fund.

BACKGROUND: The federal Energy Policy Act of 1992 (P.L. No. 102-486, commonly referred to as EPAct) requires fleets operated by state governments and alternative fuel providers (primarily utilities) to acquire a certain percentage of AFVs each year. Current requirements are that 75% of a State's fleet new light-duty vehicle acquisitions must run on AFVs. EPAct also provides that fleets can participate in a credit program that allows them to bank credits for future use or to sell excess credits to other covered fleets. Covered fleets earn one vehicle credit for every light-duty AFV they acquired beyond their base vehicle acquisition requirements. State and fuel provider fleets must annually report compliance with EPAct to the U.S. Department of Energy.

BILL ANALYSIS: The State Energy Office is directed to establish and administer a banking and selling program for energy credits earned under EPAct. Revenues generated from the sale of credits would be deposited in the newly established Alternative Revolving Fund held by the State Treasurer and would be used to pay for the incremental fuel costs of biodiesel fuel, to purchase ethanol with a minimum octane of E-85, to pay for the incremental vehicle cost of purchasing AFVs, to develop alternative fuel refueling infrastructure, and to administer the program. To the extent possible, credits would be distributed to State institutions, departments, and agencies in proportion to the number of credits generated by the institution, department, or agency. The Secretary of Administration is directed to adopt rules to implement the program.

The Department of Administration must report on expenditures from the Fund to the Joint Legislative Commission on Governmental Operations and the Fiscal Research Division no later than October 1 of each year.

The Department of Transportation and the Division of Motor Fleet Management of the Department of Administration must participate in the energy credit and banking and selling program

Sections 4 through 8 of Senate Bill 1149 apply to the renewable energy tax credits

BILL ANALYSIS: The credit for investing in renewable energy property applies to any of the following machinery and equipment or real property:

- Biomass equipment that uses renewable biomass resources for biofuel production of ethanol, methanol, and biodiesel. Renewable biomass resources are organic matters produced by terrestrial and aquatic plants and animals, such as standing vegetation, forestry and agricultural residues, landfill wastes, and animal wastes. **The bill adds spent pulping liquor to the definition of renewable biomass resources, and expands the definition of renewable energy property to include any biomass equipment that uses renewable biomass resources from commercial thermal or electrical generation (was, for commercial thermal or electrical generation from renewable energy crops or wood waste materials).**
- Hydroelectric generators
- Solar energy equipment
- Wind equipment

The amount of the credit is 35% of the cost of the property placed in service. In the case of renewable energy property that services a single-family dwelling, the credit must be taken for the taxable year in which the property is placed in service. For all other renewable energy property, the credit must be taken in five equal installments, beginning with the taxable year in which the property is placed in service. The credit may not exceed the following amounts:

TYPE OF PROPERTY	*MAXIMUM CREDIT*
Nonresidential Property	$250,000 per installation **The bill would increase the credit to $2,500,000 per installation**
Residential Property - Solar energy equipment for domestic water heating **The bill would include pool heating**	$1,400 per dwelling unit
Residential Property - Solar energy equipment for active space heating, combined active space and domestic hot water systems, and passive space heating	$3,500 per dwelling unit
Residential Property - All other renewable energy property for residential purposes	$10,500 per installation

The renewable energy tax credit has the following limitations and conditions:

- The renewable energy tax credit may not exceed 50% of the tax against which it is claimed for the taxable year. Any unused portion of the credit may be carried forward for the succeeding five years.

- A taxpayer that claims any other credit allowed with respect to renewable energy property may not take the renewable energy tax credit with respect to the same property.
- A taxpayer may not take the renewable energy tax credit if the taxpayer leases the property from another person, unless the taxpayer obtains the lessor's written certification that the lessor will not claim a credit with respect to this property.
- The Department of Revenue must report each year on the number of taxpayers claiming the credits, the cost of the property for which the credits were claimed, and the total cost to the General Fund of the credits claimed.

The bill extends the sunset on the renewable energy tax credit from January 1, 2006 to January 1, 2011, and maintains the existing sunsets on the other credits in Article 3B of Chapter 105 of the General Statutes.

Committee:	House Finance	**Date:**	August 23, 2005
Introduced by:	Reps. Rapp, Haire	**Summary by:**	Ashley Huffstetler
Version:	PCS to First Edition H876-CCSMB		Committee Counsel

SUMMARY: ***The PCS to House Bill 876 authorizes Haywood County to levy a one-half cent local sales and use tax, if approved by a referendum. The proceeds of the tax are to be used only for community college capital outlay and infrastructure improvements or to retire indebtedness incurred for these purposes.***

CURRENT LAW: The General Assembly has previously authorized the levy of three one-half cent local sales and use taxes, in addition to a one-cent local sales and use tax authorized in 1971. Previous local sales taxes have given the local governments two options for levying the tax: (1) by vote of the people in a special election, and (2) by vote of the county commissioners, by resolution and after ten days' public notice and a public hearing.

All counties in North Carolina currently levy local sales taxes at a rate of at least 2.5% (the maximum allowed under current law for all counties other than Mecklenburg and Dare).

BILL ANALYSIS: The PCS to House Bill 876 authorizes Haywood County to hold a referendum on the issue of whether to levy an additional one-half cent sales tax to be used only for community college capital outlay and infrastructure improvements. The tax will be administered as is the current first one-half cent local sales tax in Article 39 of the General Statutes. The fourth one-half cent local sales tax does not apply to the sales price of food that is currently exempt from tax.

EFFECTIVE DATE: This act is effective when it becomes law.

A BILL TO BE ENTITLED

AN ACT TO AUTHORIZE LEE COUNTY TO LEVY A ONE-HALF CENT LOCAL SALES AND USE TAX FOR PUBLIC SCHOOL CAPITAL OUTLAY PURPOSES.

The General Assembly of North Carolina enacts:

SECTION 1. This act applies to Lee County only.

SECTION 2. Subchapter VIII of Chapter 105 of the General Statutes is amended by adding a new Article to read:

"Article 46.

"Fourth One-Half Cent (1/2¢) Local Government Sales and Use Tax.

"**§ 105-535. Short title.**

This Article is the Fourth One-Half Cent (1/2¢) Local Government Sales and Use Tax Act.

"**§ 105-536. Limitations.**

This Article applies only to counties that levy the first one-cent (1¢) local sales and use tax under Article 39 of this Chapter or under Chapter 1096 of the 1967 Session Laws, the first one-half cent (1/2¢) local sales and use tax under Article 40 of this Chapter, the second one-half cent (1/2¢) local sales and use tax under Article 42 of this Chapter, and the third one-half cent (1/2¢) local sales and use tax under Article 44 of this Chapter.

"**§ 105-537. Levy.**

(a) After Vote. – If a majority of those voting in a special election held pursuant to this Article vote for the levy of the taxes in a county, the board of commissioners of a county may, by resolution, levy one-half percent (1/2%) local sales and use taxes in addition to any other State and local sales and use taxes levied pursuant to law.

(b) Without Vote. – If the question of whether to levy taxes under this Article has not been defeated in a special election held in the county within two years, the board of commissioners of a county may, by resolution, levy one-half percent (1/2%) local sales and use taxes in addition to any other State and local sales and use taxes levied pursuant

to law. Before adopting a resolution under this subsection, the board of commissioners must give at least 10 days' public notice of its intent to adopt the resolution and must hold a public hearing on the issue of adopting the resolution.

"**§ 105-538. County election on adoption of tax.**

(a) Resolution. – The board of commissioners of a county may direct the county board of elections to conduct a special election on the question of whether to levy local one-half percent (1/2%) sales and use taxes in the county as provided in this Article. The election must be held on a date jointly agreed upon by the two boards and must be held in accordance with the procedures of G.S. 163-287.

(b) Ballot Question. – The question to be presented on a ballot for a special election concerning the levy of the taxes authorized by this Article must be in the following form:

'[ ] FOR [ ] AGAINST

One-half percent (1/2%) local sales and use taxes, in addition to all current State and local sales and use taxes.'

"**§ 105-539. Administration.**

Except as provided in this Article, the adoption, levy, collection, administration, and repeal of the additional taxes authorized by this Article shall be in accordance with Article 39 of this Chapter. A tax levied under this Article does not apply to the sales price of food that is exempt from tax pursuant to G.S. 105-164.13B.

"**§ 105-540. Distribution and use.**

(a) Distribution. – The Secretary shall, on a monthly basis, distribute to each taxing county the net proceeds of the tax collected in that county under this Article. If the Secretary collects taxes under this Article in a month and the taxes cannot be identified as being attributable to a particular taxing county, the Secretary shall allocate these taxes among the taxing counties in proportion to the amount of taxes collected in each county under this Article in that month and shall include them in the monthly distribution.

(b) Use. – Counties may use the proceeds of a tax levied under this Article only for public school capital outlay purposes as defined in G.S. 115C-426(f) and to retire indebtedness incurred by the county for these purposes.

(c) Nonsupplant Restriction. – It is the purpose of this Article for counties to appropriate funds generated under this Article to increase the level of county spending for public school capital outlay purposes above the level of spending before the levy of the tax authorized in this Article. A county that levies a tax under this Article must continue to spend for public school capital outlay purposes the same amount of money it would have spent for those purposes if it had not levied the tax."

SECTION 3. A tax levied under Article 46 of Chapter 105 of the General Statutes, as enacted by this act, does not apply to construction materials purchased to fulfill a lump-sum or unit-price contract entered into or awarded before the effective date of the levy or entered into or awarded pursuant to a bid made before the effective date of the levy when the construction materials would otherwise be subject to the tax levied under Article 46 of Chapter 105 of the General Statutes.

SECTION 4. This act is effective when it becomes law.

HOUSE BILL 756:
Lee, Franklin, and Vance County Sales Tax

BILL ANALYSIS

Committee:	House Finance	**Date:**	August 23, 2005
Introduced by:	Reps. Sauls	**Summary by:**	Ashley Huffstetler
Version:	PCS to First Edition H756-CSMBx-47		Committee Counsel

SUMMARY: ***The PCS to House Bill 756 authorizes Franklin, Lee, and Vance counties to levy one-half cent local sales and use taxes, if approved by a referendum of the voters of the county. The proceeds of the tax are to be used only for public school capital outlay purposes.***

CURRENT LAW: The General Assembly has previously authorized the levy of three one-half cent local sales and use taxes, in addition to a one-cent local sales and use tax authorized in 1971. Previous local sales taxes have given the local governments two options for levying the tax: (1) by vote of the people in a special election, and (2) by vote of the county commissioners, by resolution and after ten days' public notice and a public hearing.

All counties in North Carolina currently levy local sales taxes at a rate of at least 2.5% (the maximum allowed under current law for all counties other than Mecklenburg and Dare).

BILL ANALYSIS: The PCS to House Bill 756 authorizes Franklin, Lee, and Vance counties to hold referendums on the issue of whether to levy additional one-half cent local sales taxes to be used only for public school capital outlay purposes. The taxes will be administered as is the current first one-half cent local sales tax in Article 39 of the General Statutes. The fourth one-half cent local sales tax does not apply to the sales price of food that is currently exempt from tax.

EFFECTIVE DATE: This act is effective when it becomes law.

HOUSE BILL 88:
Electoral Fairness Act

BILL ANALYSIS

Committee:	House Finance	**Date:**	August 21, 2005
Introduced by:	Rep. Miller	**Summary by:**	William R. Gilkeson
Version:	PCS to Second Edition H88-CSRRf-61		Committee Counsel

SUMMARY: This Proposed Committee Substitute for House Bill 88 would equalize and reduce the number of signatures required of a new political party and of a statewide unaffiliated candidate to achieve ballot access. It would reduce the number of votes a new party must generate for its nominee for President or Governor for the party to maintain ballot eligibility. And it would move backward the deadlines for new parties to submit their petitions and to nominate candidates from dates after the party primaries to dates before the party primaries.

CURRENT LAW:

New Parties. A new party, In order to qualify to nominate candidates who will appear on the North Carolina ballot under its party label, a new party must first collect signatures of registered NC voters on petitions equal to 2% of the votes cast in the last general election for Governor. In the 2004 election for Governor, the number of votes cast was **3,486,688**. Two percent of that is **69,734**. So, to nominate candidates to be on the ballot under its label in 2006, a new party must collect 69,734 signatures and get them to the State Board of Elections by June 1, 2006.

(For a party to qualify to be on the ballot anywhere in North Carolina, it must qualify statewide. This State has no regional or local new party qualification. The petition signatures must include at least 200 voters from each of 4 congressional districts.)

Once on the ballot, a new party may stay on the ballot only if its nominee for President, or its nominee for Governor, receives in the next election at least 10% of the vote. If neither party nominee gets that much of the vote, the party loses its ballot status and may only regain it by again collecting signatures equal to 2% of the vote in the last Governor's race. In 2004 in NC:

- **3,501,007** voted for President and 10% of that is **350,101.**
- **3,486,688** voted for Governor and 10% of that is **348,669**.

The closest any new party candidate came in 2004 to that ballot-access-maintenance threshold was Barbara Howe, the Libertarian candidate for Governor, who received 52,513 votes.

In its first election after gaining – or regaining – ballot access, a new party nominates its candidates in a convention rather than in a primary. The new party must complete the nominations and certify them to the State Board of Elections by July 1.

Unaffiliated Candidates. To qualify as an unaffiliated candidate for statewide office, a person must collect signatures equal to 2% of all the registered voters in the State. That number of registered voters is measured at the beginning of the election year in which the candidate seeks to be on the ballot. That precise number cannot be known now, but the total voter registration in NC in February 2005 was **5,388,094**. Two percent of that is **107,762**. So, to be on the ballot as an unaffiliated candidate for a statewide office, a person must collect 107,762 names on petitions and submit them to the State Board of Elections by the last Friday in June of the election year.

Delaney v. Bartlett. In the lawsuit of *Delaney v. Bartlett*, U.S. District Judge Frank Bullock of Greensboro looked at the difference between the threshold for new parties and the threshold for statewide unaffiliated candidates and said he saw no reasonable basis for the wide disparity. He concluded that the disparity between the two paths for getting on the ballot infringed on constitutional rights under the First and Fourteenth Amendments to the US Constitution. The judge noted that the percentages NC used for both the new party threshold and the unaffiliated threshold had been upheld in court, either in NC or elsewhere. But the disparity between the two, he said, was constitutionally indefensible. Paul Delaney, the plaintiff, was challenging the unaffiliated threshold. IN July 2004

Judge Bullock held subsection (a) of G.S. 163-122, which contains the procedure for statewide unaffiliated candidates, unconstitutional. The State did not appeal.

BILL ANALYSIS: House Bill 88 would close the disparity between the signature thresholds for a new party and for an unaffiliated candidate for statewide office, satisfying the *Delaney* decision. Going beyond that, it would drop the thresholds to a level well below where either is now. Following the formula now used for new parties, the bill would set the signature threshold for both a new party and a statewide unaffiliated candidate at 0.05% of the turnout in the most recent Governor's race.

The bill would also lower the percentage the new party's nominee for either President or Governor in order for the party to remain on the ballot. That maintenance threshold would drop from 10% to 2%.

And the bill would set two months earlier both the new party's deadline for filing its signature petitions to qualify and its deadline for nominating candidates. The signature petition filing deadline would go from June 1 to April 1. The candidate nomination deadline would go from July 1 to May 1. In both cases, the deadlines would be before the major party primaries. Now they come after the primaries.

As amended in the House Election Law Committee, the bill would impose the same filing fee requirements on new party candidates and unaffiliated candidates as is imposed on candidates in party primaries.

BACKGROUND: In 2003, HB 867, a bill almost identical to HB 88 was approved by the House Committee on Election Law and Campaign Finance Reform in 2003. The bill was never taken up on the House floor.

In 2001 the Senate passed SB 10, a bill to equalize the statewide unaffiliated signature requirement with that for new parties at 2% of the Governor's race turnout. The bill was defeated 45-71 in the House.

In 2005 the House passed HB 1115, which contained a provision responding to the Delaney decision by dropping the statewide unaffiliated signature threshold to the new-party level at 2% of the Governor's race turnout. But the Senate deleted that provision before passing the House bill.

POSITIONS (cumulative):					

PRINCIPAL DEPARTMENT(S) & PROGRAM(S) AFFECTED: State Board of Elections, County Boards of Elections

EFFECTIVE DATE: January 1, 2006 and applies to all primaries and elections held after that date.

BILL SUMMARY:
This bill amends G.S. §§ 163-96(a) and 163-97 by (1) reducing the number of votes required to qualify as a political party and to maintain that status to 2% of the votes cast in any statewide election (current requirement is 10% of the votes cast for Governor and presidential electors) and

(2) by reducing the number of signatures required to achieve political party status to 0.5% (current requirement is 2%) of the total number of voters. The bill also amends G.S. § 163-98 to provide that a new political party must certify its candidates to the State Board of Elections no later than May 1 (now July 1) preceding the general election. It amends G.S. § 163-122(a)(1) to require that, to be placed on the ballot, an unaffiliated candidate must present a petition with signatures of 0.5% of voters who voted in the most recent election for Governor and at least 200 voters from each of four congressional districts.

This bill would also impose the same filing fee requirement that is imposed on candidates in party primaries on new party candidates and unaffiliated candidates who are seeking to have their names printed on a general election ballot.

The bill applies to elections held after January 1, 2006.

ASSUMPTIONS AND METHODOLOGY:
The Fiscal Research Division estimates that this bill will have little to no fiscal impact on the State Board of Elections or the county boards of elections. Currently, county boards of elections must verify the validity of petition signatures obtained by groups seeking political party status and by unaffiliated candidates seeking ballot access. This bill would reduce the number of signatures required for a group of voters to achieve political party status and for an unaffiliated candidate to achieve ballot access. The reduction in the number of signatures required for ballot access may result in an increase in the number of petitions that are submitted. However, the State Board of Elections has automated the petition process such that petitions can be checked through the Statewide Election Information Management System (SEIMS - a suite of applications that automates voter registration and greatly simplifies the administration of voter records). Thus, the cost of processing any additional petitions that may be submitted is expected to be insignificant to the county boards as well as to the State Board. Further, the cost of adding names to ballots is expected to be insignificant as well.

Fiscal Research cannot estimate the impact that the new filing fee requirement for new party and unaffiliated candidates will have without data on the offices that those candidates will seek or without knowing whether those candidates will pay the filing fee or will choose the alternative available by statute of collecting the requisite number of signatures in lieu of paying the filing fee. However, the State Board of Elections expects that the fiscal impact of the new filing fee will be insignificant.

TECHNICAL CONSIDERATIONS: None

House Bill 88: The Electoral Fairness Act

Intent: *To reform North Carolina's regressive ballot access laws.*

- North Carolina currently boasts the 2nd WORST ballot access laws in the country for independents and third parties seeking to run for office.

- In 2004 a federal judge ruled that North Carolina imposes an unconstitutional burden on unaffiliated political candidates who want a spot on the ballot in a suit brought by NC resident Paul Delaney against the NC Board of Elections

- Independent candidates and newly forming parties must gather petition signatures equal to 2% of the number of people who voted in the last gubernatorial election – in effect newly forming parties must spend in excess of $100,000 and hundreds of hours of labor simply to get an opportunity to run for office

A Comparison of Southern States' Ballot Access Requirements:

Virginia	10,000
South Carolina	10,000
Kentucky	5,000
Tennessee	60
North Carolina	**70,000**

(this number is closer to **109,000** as many signatures are disqualified by county BOEs)

Third parties have played a critical role in the political and social development of our country; from the abolition movement to the civil rights movement, third parties have played critical roles in raising consciousness and moving our society forward.

An ideal ballot access system encourages participation and competition by treating candidates of all political parties equally and fairly without overly-burdensome fees, restrictive deadlines or excessive petition requirements.

Please **support House Bill 88, The Electoral Fairness Act** and give North Carolinians the right to exercise their political right to choose.

(2) At least two of the counties in which the industrial park is located are enterprise tier one areas.

(5) The total population of all of the counties in which the industrial park is located is less than 200,000.

SENATE BILL 868:
Bill Lee – Multi-Jurisdiction Indus. Park

BILL ANALYSIS

Committee:	House Finance	**Date:**	August 22, 2005
Introduced by:	Sen. Berger of Franklin	**Summary by:**	Canaan Huie
Version:	Second Edition		Staff Attorney

SUMMARY: This act would provide an exception to the tier designation formula under Article 3A of the Chapter 105 of the General Statutes (the Bill Lee Act). It would allow certain industrial parks located in higher-tiered counties to be treated as if they were located in an enterprise tier one area.

CURRENT LAW: The William S. Lee Quality Jobs and Business Expansion Act (hereinafter Bill Lee Act) was enacted in 1996, effective beginning with the 1996 tax year with a 2002 sunset. The Act is a package of State tax incentives and has been modified in each subsequent year. The incentives are primarily in the form of tax credits for investment in machinery and equipment and real property, for job creation, for worker training, and for research and development. Counties are divided into five economic distress tiers based on the unemployment rate, per capita income, and population growth of the county. For many of the credits, the lower the tier of a county, the more favorable the incentive. The Act requires the Department of Commerce and the Department of Revenue to report periodically on the credits allowed by the Act.

Before 1996, North Carolina had made little use of tax incentives to lure businesses to the State. Even without incentives, North Carolina was consistently one of the top states in attracting industry. The array of credits authorized by the Bill Lee Act was viewed as an experiment, to be evaluated in five years to determine whether the incentives were cost effective and actually affected behavior, or merely provided tax reductions to businesses that would have located or expanded in any case. In 2000, the General Assembly extended the sunset on the Act until January 1, 2006. In 2005, the General Assembly again voted to extend the sunset on the Act until January 1, 2008,[1] but stated that its intent was to revamp the act before the beginning of 2007.

By December 31 of each year, the Department of Commerce is required to assign a tier designation to each of the 100 counties in the State. In order to make these assignments, the Department of Commerce must rank all 100 counties based on the following three factors: the rank of the county in a ranking of counties by average rate of unemployment over the preceding 12 months from lowest to highest, the rank of the county in a ranking of counties by average per capita income over the proceeding 12 months from highest to lowest, and the rank of the county in a ranking of counties by percentage growth in

[1] There are several exceptions to the 2008 sunset date. Interstate air couriers are eligible to claim the credits for business activity that occurs on or before January 1, 2010, provided that the interstate air courier entered into a real estate lease on or before January 1, 2006 with an airport authority that provides for the lease of at least 100 acres of land for a term of at least 15 years. "Eligible major industries" that qualify as such before January 1, 2006, are also allowed to claim credits for business activity that occurs on or before January 1, 2010. A taxpayer is an eligible major industry if it will invest at least $100 million in acquiring, constructing, and equipping a facility and it is engaged in bioprocessing, the manufacture or distribution of pharmaceuticals or medicines, aircraft manufacturing, computer manufacturing, motor vehicle manufacturing, and semiconductor manufacturing. Finally, for certain projects that locate in development zones before January 1, 2006, the Act does not expire until January 1, 2010. In order to qualify for this extension, the taxpayer must (a) sign a letter of commitment with the Department of Commerce promising to create at least 300 new jobs and to invest at least $10 million in real property and machinery and equipment over a three year period and (b) create at least 20 new jobs and invest at least $4 million before January 1, 2006.

population over the preceding 12 months from highest to lowest.[2] Each of these factors is given equal weight. The Secretary of Commerce is required to use the latest data available in making these calculations. Counties with one of the 10 highest rankings are designated enterprise tier one, the next 15 counties are enterprise tier two, the next 25 counties are enterprise tier 3, the next 25 counties are enterprise tier 4, and the remaining counties are enterprise tier 5. There are numerous exceptions to this formula. A county designated as enterprise tier one or two may not be designated a higher tier until it has been at its current tier for at least two consecutive years. Certain lower-population counties also enjoy exceptions that could result in those counties receiving a lower tier designation. Finally, certain industrial parks that are located at one site in two are more counties receive the tier designation of the lower-ranked county.

BILL ANALYSIS: This bill would create an additional exception to the Bill Lee Act tier designation formula. Under this bill, sites within certain industrial parks would be able to qualify for enterprise tier one are status. In order to take advantage of this exception, all the following conditions would have to be satisfied:

- The site is located in an industrial park created by interlocal agreement pursuant to G.S. 158-7.4.
- The industrial park is located, at one or more site, in at least four contiguous counties.
- At least two of the counties in which the industrial park is located are designated as enterprise tier one areas.
- Four or more units of local government, or a nonprofit corporation owned and controlled by four or more units of local government, own the industrial park.
- In each county in which the industrial park is located, the park has at least 300 developable acres.
- The total population of all the counties in which the industrial park is located is less than 200,000.
- In each county in which the industrial park is located, at least 16% of the population was Medicaid eligible as of January 1, 2005.

EFFECTIVE DATE: This bill would become effective for taxable years beginning on or after January 1, 2005.

BACKGROUND: At the present time, the only industrial park that meets the criteria specified in this bill is an industrial park in the Kerr-Tar region. It is possible that other counties could enter into similar agreements in order to take advantage of this exception in the future, but the restrictions are so stringent as to make it unlikely that a significant number of high-tiered counties could qualify under this provision. The four counties involved in the Kerr-Tar industrial park project are Franklin, Granville, Vance, and Warren. In 2005, Franklin County was an enterprise tier five area; Granville County was an enterprise tier three area; and Vance and Warren Counties were enterprise tier one areas.

S0868e2-SMLY

[2] Prior to the designations for the 2005 calendar year, these rankings were based on longer time periods. Unemployment and per capita income were averaged over three years rather than 12 months. There was no time period specified for measuring population growth, but it was the practice of the Department of Commerce to measure population growth by comparing the most recent estimates of population in the county with the figures derived from the last decennial federal census.

Short Title: Securities Transfer on Death. (Public)

March 2, 2005

A BILL TO BE ENTITLED

AN ACT TO ENACT THE UNIFORM TRANSFER ON DEATH (TOD) SECURITY REGISTRATION ACT.

The General Assembly of North Carolina enacts:

SECTION 1. The General Statutes are amended by rewriting the title of Chapter 41 of the General Statutes to read "Estates and Interests in Property", and Chapter 41 of the General Statutes is amended by adding a new Article to read:

"Article 4.

"The Uniform Transfer on Death (TOD) Security Registration Act.

"**§ 41-40. Definitions.**

In this Article, unless the context otherwise requires:

(1) 'Beneficiary form' means a registration of a security that indicates the present owner of the security and the intention of the owner regarding the person who will become the owner of the security upon the death of the owner.

(2) 'Devisee' means any person designated in a will to receive a disposition of real or personal property.

(3) 'Heirs' means those persons, including the surviving spouse, who are entitled under Chapter 29 of the General Statutes or the statutes of intestate succession of other states to take the property of a decedent by intestate succession.

(4) 'Person' means an individual, a corporation, an organization, or other legal entity.

(5) 'Personal representative' includes executor, administrator, collector, successor personal representative, special administrator, and persons who perform substantially the same function under the law governing their status.

(6) 'Property' includes both real and personal property or any interest in real or personal property and means anything that may be the subject of ownership.

(7) 'Register', including its derivatives, means to issue a certificate showing the ownership of a certificated security or, in the case of an uncertificated security, to initiate or transfer an account showing ownership of securities.

(8) 'Registering entity' means a person who originates or transfers a security title by registration and includes a broker maintaining security accounts for customers and a transfer agent or other person acting for or as an issuer of securities.

(9) 'Security' means a share, participation, or other interest in property, a business, or an obligation of an enterprise or other issuer, and includes a certificated security, an uncertificated security, a security account, and a security entitlement as defined in G.S. 25-8-102.

(10) 'Security account' means (i) a reinvestment account associated with a security, a securities account with a broker, a cash balance in a brokerage account, cash, interest, earnings, or dividends earned or declared on a security in an account, a reinvestment account, or a brokerage account, whether or not credited to the account before the owner's death, or (ii) a cash balance or other property held for or due to the owner of a security as a replacement for or product of an account security, whether or not credited to the account before the owner's death.

(11) 'State' includes any state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, and any territory or possession subject to the legislative authority of the United States.

"**§ 41-41. Registration in beneficiary form; sole or joint tenancy ownership.**

Only individuals whose registration of a security shows sole ownership by one individual or multiple ownership by two or more individuals with right of survivorship, rather than as tenants in common, may obtain registration in beneficiary form. Multiple owners of a security registered in beneficiary form hold as joint tenants with right of survivorship, as tenants by the entireties, or as owners of community property held in survivorship form, and not as tenants in common.

"**§ 41-42. Registration in beneficiary form; applicable law.**

A security may be registered in beneficiary form if the form is authorized by this or a similar statute of the state of organization of the issuer or registering entity, the location of the registering entity's principal office, the office of its transfer agent or its office making the registration, or by this or a similar statute of the law of the state listed as the owner's address at the time of registration. A registration governed by the law of a jurisdiction in which this or similar legislation is not in force or was not in force when a registration in beneficiary form was made is nevertheless presumed to be valid and authorized as a matter of contract law.

"**§ 41-43. Origination of registration in beneficiary form.**

A security, whether evidenced by certificate or account, is registered in beneficiary form when the registration includes a designation of a beneficiary to take the ownership at the death of the owner or the deaths of all multiple owners.

"**§ 41-44. Form of registration in beneficiary form.**

Registration in beneficiary form may be shown by the words 'transfer on death' or the abbreviation 'TOD', or by the words 'pay on death' or the abbreviation 'POD', after the name of the registered owner or owners and before the name of a beneficiary.

"**§ 41-45. Effect of registration in beneficiary form.**

The designation of a TOD beneficiary on a registration in beneficiary form has no effect on ownership of the security until the owner's death. A registration of a security in beneficiary form may be cancelled or changed at any time by the sole owner or all then-surviving owners, without the consent of the beneficiary.

"**§ 41-46. Ownership on death of owner.**

On death of a sole owner or the last to die of all multiple owners, ownership of securities registered in beneficiary form passes to the beneficiary or beneficiaries who survive all owners. On proof of death of all owners and compliance with any applicable requirements of the registering entity, a security registered in beneficiary form may be reregistered in the name of the beneficiary or beneficiaries who survive the death of all owners. Until division of the security after the death of all owners, multiple beneficiaries surviving the death of all owners hold their interests as tenants in common. If no beneficiary survives the death of all owners, the security belongs to the estate of the deceased sole owner or the estate of the last to die of all multiple owners.

"**§ 41-47. Protection of registering entity.**

(a) A registering entity is not required to offer or to accept a request for security registration in beneficiary form. If a registration in beneficiary form is offered by a registering entity, the owner requesting registration in beneficiary form assents to the protections given to the registering entity by this Article.

(b) By accepting a request for registration of a security in beneficiary form, the registering entity agrees that the registration will be implemented on death of the deceased owner as provided in this Article.

(c) A registering entity is discharged from all claims to a security by the estate, creditors, heirs, or devisees of a deceased owner if it registers a transfer of a security in accordance with G.S. 41-46 and does so in good faith reliance (i) on the registration, (ii) on this Article, and (iii) on information provided to it by affidavit of the personal representative of the deceased owner, or by the surviving beneficiary or by the surviving beneficiary's representatives, or other information available to the registering entity. The protections of this Article do not extend to a reregistration or payment made after a registering entity has received written notice from any claimant to any interest in the security objecting to implementation of a registration in beneficiary form. No other notice or other information available to the registering entity affects its right to protection under this Article.

(d) The protection provided by this Article to the registering entity of a security does not affect the rights of beneficiaries in disputes between themselves and other claimants to ownership of the security transferred or its value or proceeds.

"**§ 41-48. Nontestamentary transfer on death.**

(a) A transfer on death resulting from a registration in beneficiary form is effective by reason of the contract regarding the registration between the owner and the registering entity and this Article and is not testamentary.

(b) The interest of a deceased owner when there are one or more surviving owners remains liable for the debts of the decedent in the same manner as the personal property included in the decedent's estate, and recovery of that interest shall be made from the surviving owner or owners when the decedent's estate is insufficient to satisfy the debts. The interest of a deceased sole owner, or the last to die of several owners, remains liable for the debts of the decedent in the same manner as the personal property included in the decedent's estate, and recovery of that interest shall be made from the TOD beneficiary when the decedent's estate is insufficient to satisfy the debts.

(c) This Article does not repeal or modify any provision of law relating to estate taxes.

"**§ 41-49. Terms, conditions, and forms for registration.**

(a) A registering entity offering to accept registrations in beneficiary form may establish the terms and conditions under which it will receive requests (i) for registrations in beneficiary form, and (ii) for implementation of registrations in beneficiary form, including requests for cancellation of previously registered TOD beneficiary designations and requests for reregistration to effect a change of beneficiary. The terms and conditions established may provide for proving death, avoiding or resolving any problems concerning fractional shares, and designating primary or contingent beneficiaries. Forms of identifying beneficiaries who are to take on one or more contingencies, and rules for providing proofs and assurances needed to satisfy reasonable concerns by registering entities regarding conditions and identities relevant to accurate implementation of registrations in beneficiary form, may be contained in a registering entity's terms and conditions.

(b) The following are illustrations of registrations in beneficiary form that a registering entity may authorize:

(1) Sole owner-sole beneficiary: 'John S. Brown TOD (or POD) John S. Brown, Jr.'

(2) Multiple owners-sole beneficiary: 'John S. Brown, Mary B. Brown JT TEN WROS TOD John S. Brown, Jr.'

(3) Multiple owners-primary and secondary (substituted) beneficiaries: 'John S. Brown, Mary B. Brown JT TEN WROS TOD John S. Brown, Jr. SUB BENE Peter O. Brown'.

"**§ 41-50. Short title; rules of construction.**

(a) This Article shall be known as and may be cited as the 'Uniform TOD Security Registration Act'.

(b) This Article shall be applied and construed to effectuate its general purposes and to make uniform the laws with respect to the subject of this Article among states enacting it.

(c) This Article does not repeal G.S. 41-2.2. G.S. 41-2.2 applies in determining whether a right of survivorship exists among multiple owners of a security.

"§ 41-51. Application of Article.

This Article applies to registrations of securities in beneficiary form made before, on, or after the effective date of this Article, by decedents dying on or after the effective date of this Article."

SECTION 2. G.S. 28A-15-10(a) reads as rewritten:

"(a) When needed to satisfy claims against a decedent's estate, assets may be acquired by a personal representative or collector from the following sources:

(1) Tentative trusts created by the decedent in savings accounts for other ~~persons;~~ persons.

(2) Gifts causa mortis made by the ~~decedent;~~decedent.

(3) Joint deposit accounts with right of survivorship created by decedent pursuant to the provisions of G.S. 41-2.1 or otherwise; and joint tenancies with right of survivorship created by decedent in corporate stocks or other investment securities.

(4) An interest in a security passing to a beneficiary pursuant to the provisions of Article 4 of Chapter 41 of the General Statutes.

Such assets shall be acquired solely for the purpose of satisfying such claims, however, and shall not be available for distribution to heirs or devisees."

SECTION 3. G.S. 41-2.2 reads as rewritten:

"**§ 41-2.2. Joint ownership of ~~corporate stock and investment~~ securities.**

(a) In addition to other forms of ownership, ~~shares of corporate stock or investment~~ securities may be owned by any parties as joint tenants with rights of survivorship, and not as tenants in common, in the manner provided in this section.

(b) (1) A joint tenancy in ~~shares of corporate stock or investment~~ securities as provided by this section shall exist when such ~~shares or~~ securities indicate that they are owned with the right of survivorship, or otherwise clearly indicate an intention that upon the death of either party the interest of the decedent shall pass to the surviving party.

(2) Such a joint tenancy may also exist when a broker or custodian holds the ~~shares or~~ securities for the joint tenants and by book entry or otherwise indicates (i) that the ~~shares or~~ securities are owned with the right of survivorship, or (ii) otherwise clearly indicates that upon the death of either party, the interest of the decedent shall pass to the surviving party. Money in the hands of such broker or custodian derived from the sale of, or held for the purpose of, such ~~shares or~~ securities shall be treated in the same manner as such ~~shares or~~ securities.

(c) Upon the death of a joint tenant his interest shall pass to the surviving joint tenant. The interest of the deceased joint tenant, even though it has passed to the surviving joint tenant, remains liable for the debts of the decedent in the same manner as the personal property included in his estate, and recovery thereof shall be made from the surviving joint tenant when the decedent's estate is insufficient to satisfy such debts.

(d) This section does not repeal or modify any provisions of the law relating to estate or inheritance taxes.

(e) As used in this section, "securities" has the same meaning as in G.S. 41-40(9) and includes "security account" as that term is defined in G.S. 41-40(10)."

SECTION 4. The Revisor of Statutes shall cause to be printed along with this act all relevant portions of the Official Commentary to the Uniform TOD Security Registration Act and all explanatory comments of the drafters of this act as the Revisor may deem appropriate.

SECTION 5. This act becomes effective October 1, 2005.

SENATE BILL 290:
Securities Transfer on Death

BILL ANALYSIS

Committee:	House Finance	**Date:**	August 23, 2005
Introduced by:	Sen. Hoyle	**Summary by:**	Cindy Avrette
Version:	Second Edition		Committee Counsel

SUMMARY: Senate Bill 290 would amend Chapter 41 (Estates), to allow owners of securities to register their title in transfer-on-death (TOD) form. This would allow the transfer of securities, including stocks, bonds, mutual funds, and security accounts, to a beneficiary upon death based on a prior beneficiary designation by registration. The bill previously came to the General Assembly as a recommendation of the General Statutes Commission and is modeled after the Uniform Transfer on Death (TOD) Securities Registration Act. The Uniform Act has been adopted in 46 states and the District of Columbia.

CURRENT LAW: Under current law securities can only be passed upon death by probate or by joint tenancy with right of survivorship.

BILL ANALYSIS: Senate Bill 290 would rename Chapter 41 of the General Statutes as "Estates and Interests in Property" and would add a new Article 4 to that Chapter, entitled "The Uniform Transfer on Death (TOD) Security Registration Act". This act would allow the owner of securities to designate a beneficiary of the securities to be received upon the death of the owner. The owner may revoke or modify this designation at any time up until death. Also, this designation does not convey any right or interest in the beneficiary until the time of death. Title to the securities would be transferred as a matter of contract (like life insurance policies or individual retirement accounts), not as a testamentary bequest, and as such would not be part of the probate estate.

Some of the advantages provided by the bill appear to be: 1) provides an alternative to joint ownership with right of survivorship, avoiding the complications and restrictions of dealing with a co-owner but effecting the same transfer upon death; 2) avoids probate and probate fees; and 3) simplifies the process of changing names on securities after death. The bill would not affect claims creditors, who would still be able to claim these securities if necessary to satisfy claims against the decedent's estate in the same ways as with joint bank accounts with right of survivorship. This form of ownership would not affect estate tax collection, and these securities would be counted as part of the taxable estate.

One change that would result from this bill would be a reduction in the collection of probate fees by the clerks of court. Probate fees are collected on all personal property that passes through the probate estate. Because these changes would transfer these securities outside the probate estate, probate fees would not be collected on the value of the securities transferred by this method.

Section 2 of this bill would make a conforming change to the statute governing the rights of creditors to collect estate debts from assets passing outside the estate. This statute is only triggered when other assets of the estate are insufficient to satisfy all claims.

Section 3 amends G.S. 41-2.2 (Joint Ownership of corporate stock and investment securities) by adding a new subsection. The new subsection clarifies that "securities" is as defined in the Uniform Act.

Section 4 would authorize the Revisor of Statutes to include the Official Comments to the Uniform Act from the Uniform Commissioners with the published statutes.

EFFECTIVE DATE: The bill would take effect October 1, 2005.

BACKGROUND: Similar bills were introduced in the 1997, 1999, 2001 and the 2003 Sessions of the General Assembly. In 2003, House Bill 798, which was virtually identical to this bill, passed the House and was given a favorable report by the Senate Judiciary II Committee.

BILL SUMMARY:

Enacts new GS Ch. 41, Art. 4. Provides for registration of securities in "beneficiary form" to transfer on death or be paid on death. Defines registration as issuance of a certificate showing ownership of a certificated security, or in the case of an uncertificated security, initiation or transfer of an account showing ownership of securities. Beneficiary form is defined as registration that indicates the present owner of the security and his or her intention regarding the person to become the owner when the present owner dies. Upon death of a sole owner or last to die of multiple owners, ownership of securities registered in beneficiary form passes to the beneficiaries who survive all owners. Provides that transfer resulting from registration in beneficiary form is effective by reason of the contract for registration and is not testamentary. The law does not affect estate tax laws and has no effect on ownership of the securities until the owner's death. Registration is allowed only for securities held by a sole owner or by joint tenants with right of survivorship, not for securities owned by tenants in common. Registration may be made when authorized by this law or by a similar statute in the state of the registering entity or owner at the time of registration. Contains protections for registering entities and sets out acceptable language for registration. Clarifies that act does not repeal GS 41-2.2, which applies in making right of survivorship determinations. Amends GS 41-2.2 (joint ownership of corporate stock and

investment securities) to provide that term "securities" used in that statute has same meaning as in GS 41-40(9) and includes "security account" as defined in GS 41-40(10). Makes conforming changes. Effective October 1, 2005.

ASSUMPTIONS AND METHODOLOGY: A change in the handling of securities transfers upon death could affect General Fund revenues either through its impact on estate taxes or through its impact on court fees collected related to estates.

According to the Department of Revenue, the addition of a new article to Chapter 41 to allow a change in ownership of a security resulting from a "transfer on death" will **not** affect inheritance or estate taxes. The provisions of G. S. 105-2 (taxation of assets) and G. S. 105-24 (tax waiver requirements) are clear, and the new section G. S. 41-48 (c) preserves the requirements of the two provisions.

However, this legislation would change the way some securities and security accounts are handled during the administration of estates. Specifically, it would allow the owner of a security or account to pass the security or account directly to the named beneficiary without passing under the owner's will or under the laws of intestacy. As a result, the value of the securities or accounts would not be included as part of the estate for probate.

This would result in some cases in a reduction in revenues to the General Fund from the General Court of Justice Fees dealing with estates [G. S. 7A-307(a)(2)]. Currently, the clerk collects a flat $30 fee, other fees pursuant to G. S. 7A-307, and forty cents per $100 of the gross value of personal property in the estate (referred to as ad valorem fee), up to $3,000. To the extent that securities currently owned by a single individual are subsequently registered in accordance with this bill, they would not be included in the value of the estate, and the forty cents per $100 in value that is collected under current law would not be collected. If the security is already owned by multiple individuals with rights of survivorship, their value is already excluded from the ad valorem fee.

There are several reasons why it is difficult to precisely estimate the fiscal impact of the bill. Fiscal Year 2001-2002 data shows that a total of 59,136 estate cases were filed statewide and $12.34 million was collected in estate costs. However, it is not known how much of this is from the ad valorem fee.

Data is not collected on the amount derived from each type of property in the estate so it cannot be determined how much of the $10.14 million is fees paid on securities. Because the ad valorem fee is capped at $3,000, if other assets exceed $750,000, the removal of securities from the base would have no impact on the fees due. Thus, estimating the impact of the bill requires detailed information on each estate.

Even if it were possible to estimate the amount in court costs being collected from the ad valorem fee on securities, it would be difficult to estimate the extent to which the owners of the securities would take advantage of the provisions of the bill and avoid those costs. Since these court fees are only one factor in the many issues involved in estate planning, it is not possible to project how many people will choose this option.

Study of Estate Fees; the Sample

The Administrative Office of the Courts (AOC) conducted a study in July 2001 to estimate the impact of the bill. They sampled 400 estates settled throughout Calendar Year 1999 in five counties (200 cases in Wake and 50 each in Guilford, Polk, Wayne and Johnston). These counties together represent 12.5% of estate files docketed that year and 16.2% of the state's population but 19.3% of intangible wealth (based on reimbursement amounts), so this sample was somewhat biased towards higher wealth populations. The total value of property itemized in these files included $59.9 million subject to the ad valorem levy. A total of $160,413 was collected from the ad valorem fee.

The sample included $41.6 million in securities with 10.4% of those jointly owned and not subject to the ad valorem fee. In addition, there was $22.6 million of property other than securities (e.g. bank accounts, personal property) subject to the 40 cents/$100.

Of the 400 cases in the sample, there were 93 estates including solely owned securities totaling $37,325,091. The total value of property subject to the ad valorem fee in these 93 cases was $47,331,088; securities represented 79% of the assets.

If the bill had been law, and securities owners in each case had taken advantage of the securities transfer on death option, court fees collected on these 400 cases would have been decreased by $71,850. Of the sample, 23.25% of the cases would be potentially affected. The amount of lost fees per estate varied from $1 to $2,947.

The sample also indicated a substantial impact from the $3,000 cap on the ad valorem fee. In 16 of the cases, the total value of property subject to probate exceeded $750,000 so that the $3,000 cap was effective, lowering ad valorem fees by $78,091. In Polk County alone, 7 of the 50 cases sampled had estates exceeding $750,000, reducing the ad valorem fee by $29,189.

Projecting Annualized Loss Statewide

In Calendar Year 1999, there were 59,290 estate files docketed. However, not all of these files involved settling of an estate or payment of probate fees. (e.g. this number includes appointments of guardian, inventory of lock boxes, etc). In that same year, AOC data indicates 23,904 cases where there was an itemization of assets for the purpose of assessing fees. Using this number as a base, the sample of 400 cases represents 1.67% (400/23904) of the annual number of estates potentially paying ad valorem fees. Extrapolating from the $71,850 loss found in the sample, the estimated annual loss statewide would be $4,328,313. *This is a conservative estimate (e.g. higher potential revenue loss) because it assumes all affected individuals would choose to register their securities to allow security transfer on death. It is not possible to project the percentage of people who will choose to do this.*

An alternative method to estimate the impact is to note that in the sample, the potential loss in court fees ($71,850) was 44.8% of fees collected ($160,431) in those 400 estates. Applying this 44.8% figure to the estimated $12,332,647 in ad valorem fees in 2003-04, the potential loss is $5,525,026. This is the higher estimate in the box on page 1.

Because of the difficulty of extrapolating from this sample and of predicting how many people would take advantage of securities transfer on death, Fiscal Research cannot assign a specific dollar amount to the fiscal impact of this bill. However, based on the analysis above, there will be a significant fiscal impact because of lost court fees.

SOURCES OF DATA: Department of Revenue; Administrative Office of the Courts

TECHNICAL CONSIDERATIONS: Senate Bill 622, the 2005 Appropriations Act, raises the cap on probate fees from $3,000 to $6,000. This change generates $1.6 million in additional revenues, which can offset some of the revenues lost due to allowing the transfer of securities.

A BILL TO BE ENTITLED

AN ACT TO PROVIDE A TAX CREDIT FOR REVITALIZATION OF HISTORIC MILL FACILITIES.

Whereas, the State of North Carolina has lost more than 164,000 jobs in the textile industry during the past decade; and

Whereas, the State of North Carolina has also lost a large number of manufacturing jobs in other industries such as tobacco and furniture; and

Whereas, the losses of these manufacturing jobs have resulted in the vacancy of numerous mill buildings, many of which are historic; and

Whereas, a large vacant mill can be a cancer in a community, if it remains vacant and unused, resulting in the deterioration of surrounding neighborhoods and commercial districts, crime, vandalism, vagrancy, arson, and a loss of community spirit; and

Whereas, renovated for new adaptive uses or for new industrial or business uses, a large old factory or mill can have significant environmental, economic development, cultural, tourism, tax base, and affordable housing benefits for a community; and

Whereas, the Historic Rehabilitation Tax Credits created by the North Carolina General Assembly in 1997 have proved to be successful in the revitalization of numerous major historic buildings; and

Whereas, additional incentives would help encourage the rehabilitation of the numerous industrial buildings that have been vacated in recent years, especially those in smaller towns and counties that have been hardest hit by the loss of manufacturing jobs; and

Whereas, the rehabilitation of historic buildings has been proven to be a successful economic development strategy for creating jobs and stimulating new investment; and

Whereas, Virginia and South Carolina have each adopted generous incentives for the rehabilitation of similar buildings that are resulting in new investment in their communities; Now, therefore,

The General Assembly of North Carolina enacts:

SECTION 1. Chapter 105 of the General Statutes is amended by adding a new Article to read:

"Article 3H.

"Mill Rehabilitation Tax Credit.

"**§ 105-129.70. Definitions.**

The following definitions apply in this Article:

(1) Certified historic structure. – Defined in G.S. 105-129.35.

(2) Certified rehabilitation. – Defined in G.S. 105-129.36.

(3) Cost certification. – The certification obtained by the State Historic Preservation Officer from the taxpayer of the amount of the qualified rehabilitation expenditures or the rehabilitation expenses incurred with respect to an eligible site.

(4) Eligibility certification. – The certification obtained from the State Historic Preservation Officer that the applicable facility comprises an eligible site and that the rehabilitation is a certified rehabilitation.

(5) Eligible site. – A site located in this State that satisfies all of the following conditions:

a. It was designed for use or was used as a manufacturing facility or for purposes ancillary to manufacturing or as a facility for providing utility services.

b. It is a certified historic structure or a State-certified historic structure.

c. It has been at least eighty percent (80%) vacant for a period of at least two years immediately preceding the time at which the eligibility certification is made.

d. The cost certification documents that the qualified rehabilitation expenditures for a site for which a taxpayer is allowed a credit under section 47 of the Code or the rehabilitation expenses for a site for which the taxpayer is not allowed a credit under section 47 of the Code exceed two million dollars ($2,000,000) for the site as a whole.

(6) Enterprise tier area. – Defined in G.S. 105-129.3.

(7) Pass-through entity. – Defined in G.S. 105-228.90.

(8) Qualified rehabilitation expenditures. – Defined in section 47 of the Code.

(9) Rehabilitation expenses. – Defined in G.S. 105-129.36.

(10) State-certified historic structure. – Defined in G.S. 105-129.36.

(11) State Historic Preservation Officer. – Defined in G.S. 105-129.36.

"**§ 105-129.71. Credit for income-producing rehabilitated mill property.**

(a) Credit. – A taxpayer who is allowed a credit under section 47 of the Code for making qualified rehabilitation expenditures with respect to an eligible site is allowed a credit equal to a percentage of the expenditures that qualify for the federal credit. The credit may be claimed in the year in which the eligible site is placed into service. When the eligible site is placed into service in two or more phases in different years, the amount of credit that may be claimed in a year is the amount based on the qualified rehabilitation expenditures associated with the phase placed into service during that year. In order to be eligible for a credit allowed by this Article, the taxpayer must provide to the Secretary a copy of the eligibility certification and the cost certification. The amount of the credit is as follows:

(1) For eligible sites located in an enterprise tier one, two, or three area, determined as of the time the eligibility certification is obtained, the amount of the credit is equal to forty percent (40%) of the qualified rehabilitation expenditures.

(2) For eligible sites located in an enterprise tier four or five area, determined as of the time the eligibility certification is obtained, the amount of the credit is equal to thirty percent (30%) of the qualified rehabilitation expenditures.

(b) Allocation. – Notwithstanding the provisions of G.S. 105-131.8 and G.S. 105-269.15, a pass-through entity that qualifies for the credit provided in this Article may allocate the credit among any of its owners in its discretion as long as an owner's adjusted basis in the pass-through entity, as determined under the Code, at the end of the taxable year in which the eligible site is placed in service, is at least forty percent (40%) of the amount of credit allocated to that owner. Owners to whom a credit is allocated are allowed the credit as if they had qualified for the credit directly. A pass-through entity and its owners must include with their tax returns for every taxable year in which an allocated credit is claimed a statement of the allocation made by the pass-through entity and the allocation that would have been required under G.S. 105-131.8 or G.S. 105-269.15.

(c) Forfeiture for Change in Ownership. – If an owner of a pass-through entity that has qualified for the credit allowed under this section disposes of all or a portion of the owner's interest in the pass-through entity within five years from the date the eligible site is placed in service and the owner's interest in the pass-through entity is reduced to less than two-thirds of the owner's interest in the pass-through entity at the time the eligible site was placed in service, the owner forfeits a portion of the credit. The amount forfeited is determined by multiplying the amount of credit by the percentage reduction in ownership and then multiplying that product by the forfeiture percentage. The forfeiture percentage equals the recapture percentage found in the table in section 50(a)(1)(B) of the Code.

(d) Exceptions to Forfeiture. – Forfeiture as provided in subsection (c) of this section is not required if the change in ownership is the result of any of the following:

(1) The death of the owner.

(2) A merger, consolidation, or similar transaction requiring approval by the shareholders, partners, or members of the taxpayer under

applicable State law, to the extent the taxpayer does not receive cash or tangible property in the merger, consolidation, or other similar transaction.

(e) Liability From Forfeiture. – A taxpayer or an owner of a pass-through entity that forfeits a credit under this section is liable for all past taxes avoided as a result of the credit plus interest at the rate established under G.S. 105-241.1(i), computed from the date the taxes would have been due if the credit had not been allowed. The past taxes and interest are due 30 days after the date the credit is forfeited. A taxpayer or owner of a pass-through entity that fails to pay the taxes and interest by the due date is subject to the penalties provided in G.S. 105-236.

"**§ 105-129.72. Credit for non-income-producing rehabilitated mill property.**

(a) Credit. – A taxpayer who is not allowed a federal income tax credit under section 47 of the Code and who makes rehabilitation expenses with respect to an eligible site is allowed a credit equal to a percentage of the rehabilitation expenses. The entire credit may not be taken for the taxable year in which the property is placed in service, but must be taken in five equal installments beginning with the taxable year in which the property is placed in service. When the eligible site is placed into service in two or more phases in different years, the amount of credit that may be claimed in a year is the amount based on the rehabilitation expenses associated with the phase placed into service during that year. In order to be eligible for a credit allowed by this Article, the taxpayer must provide to the Secretary a copy of the eligibility certification and the cost certification. The amount of the credit is as follows:

(1) For eligible sites located in an enterprise tier one, two, or three area, determined as of the time the eligibility certification is obtained, the amount of the credit is equal to fifty percent (50%) of the rehabilitation expenses.

(2) For eligible sites located in an enterprise tier four or five area, determined as of the time the eligibility certification is obtained, the amount of the credit is equal to forty percent (40%) of the rehabilitation expenses.

(b) Allocation. – Notwithstanding the provisions of G.S. 105-131.8 and G.S. 105-269.15, a pass-through entity that qualifies for the credit provided in this Article may allocate the credit among any of its owners in its discretion as long as an owner's adjusted basis in the pass-through entity, as determined under the Code, at the end of the taxable year in which the eligible site is placed in service, is at least forty percent (40%) of the amount of credit allocated to that owner. Owners to whom a credit is allocated are allowed the credit as if they had qualified for the credit directly. A pass-through entity and its owners must include with their tax returns for every taxable year in which an allocated credit is claimed a statement of the allocation made by the pass-through entity and the allocation that would have been required under G.S. 105-131.8 or G.S. 105-269.15.

(c) Forfeiture for Change in Ownership. – If an owner of a pass-through entity that has qualified for the credit allowed under this section disposes of all or a portion of the owner's interest in the pass-through entity within five years from the date the

eligible site is placed in service and the owner's interest in the pass-through entity is reduced to less than two-thirds of the owner's interest in the pass-through entity at the time the eligible site was placed in service, the owner forfeits a portion of the credit. The amount forfeited is determined by multiplying the amount of credit by the percentage reduction in ownership and then multiplying that product by the forfeiture percentage. The forfeiture percentage equals the recapture percentage found in the table in section 50(a)(1)(B) of the Code. The remaining allocable credit is allocated equally among the five years in which the credit is claimed.

(d) Exceptions to Forfeiture. – Forfeiture as provided in subsection (c) of this section is not required if the change in ownership is the result of any of the following:

(1) The death of the owner.

(2) A merger, consolidation, or similar transaction requiring approval by the shareholders, partners, or members of the taxpayer under applicable State law, to the extent the taxpayer does not receive cash or tangible property in the merger, consolidation, or other similar transaction.

(e) Liability From Forfeiture. – A taxpayer or an owner of a pass-through entity that forfeits a credit under this section is liable for all past taxes avoided as a result of the credit plus interest at the rate established under G.S. 105-241.1(i), computed from the date the taxes would have been due if the credit had not been allowed. The past taxes and interest are due 30 days after the date the credit is forfeited. A taxpayer or owner of a pass-through entity that fails to pay the taxes and interest by the due date is subject to the penalties provided in G.S. 105-236.

"**§ 105-129.73. Tax credited; cap.**

(a) Taxes Credited. – The credits allowed by this Article may be claimed against the franchise tax imposed under Article 3 of this Chapter, the income taxes imposed under Article 4 of this Chapter, or the gross premiums tax imposed under Article 8B of this Chapter. The taxpayer may take the credits allowed by this Article against only one of the taxes against which it is allowed. The taxpayer shall elect the tax against which a credit will be claimed when filing the return on which it is claimed. This election is binding. Any carryforwards of the credit must be claimed against the same tax.

(b) Cap. – A credit allowed under this Article may not exceed the amount of the tax against which it is claimed for the taxable year reduced by the sum of all credits allowed, except payment of tax made by or on behalf of the taxpayer. Any unused portion of the credit may be carried forward for the succeeding nine years.

"**§ 105-129.74. Coordination with Article 3D of this Chapter.**

A taxpayer that claims a credit under this Article may not also claim a credit under Article 3D of this Chapter with respect to the same activity. The rules and fee schedule adopted under G.S. 105-129.36A apply to this Article."

SECTION 2. This act is effective for taxable years beginning on or after January 1, 2006, and applies to eligible sites placed into service on or after that date.

SECTION 3. This act is effective for taxable years beginning on or after January 1, 2006, and applies to eligible sites placed into service on or after that date.

Mill Rehabilitation Tax Credit

Senate Bill 352 and House Bill 474

Need: North Carolina has lost more than 250,000 manufacturing jobs in the last decade, leaving behind numerous empty industrial buildings. Many are historic and fine candidates for adaptive use. The existing North Carolina historic rehabilitation tax credits have successfully stimulated the rehabilitation of a number of vacant mill buildings since 1998, especially in urban areas. Those projects have had major impacts on their adjacent downtowns and/or neighborhoods. However, the credits have been less effective in encouraging the renovation of vacant mills in smaller cities and towns or in more distressed urban areas. The cost of rehabilitating a historic mill is similar for urban and rural locations, but the low rents and purchase prices in many of North Carolina's smaller cities and towns are too low to justify the projects. This tax credit would increase the incentive for rehabilitating those mills.

Eligible buildings: Historic industrial and utility buildings that have been vacant for two years or more, and whose rehabilitation costs exceed $2 million.

Estimated Cost to State and Fiscal Impact

	FY 2005-06	FY2006-07	FY2007-08	FY2008-09	FY2009-10
Cost to General Fund per Fiscal Research	$0	$3.5 mil	$9.9 mil	$15.6 mil	$10.9 mil
Number of Mill Rehabs per Fiscal Research	0	4	6	6	7
Amount of Rehab	$0	$32.3 mil	$61.4 mil	$72.2 mil	$76.8 mil

Total Cost to General Fund from 2005 through 2010: $39.9 million
[Cost may be overstated since the estimate assumes that 100% of credit users will take full credit in one (for income-producing projects) or five years (for non-income producing projects). Especially with the latter, that is very unlikely.]

Total Rehabilitation Expenditures from 2005 through 2010: $242.7 million
[Exclusive of purchase, additions, site improvements, environmental cleanup, and other non-rehab expenditures]

$242.7 million in historic rehabilitation will produce:

- Direct income and sales taxes for the State of North Carolina (estimated at $21 million during the five year period – the State will receive the benefit of these taxes 18-30 months prior to paying out the tax credit)
- Indirect income and sales taxes (from expenditures of construction workers, suppliers, etc.)
- Construction jobs (estimated 2,000 per year)
- Permanent jobs (jobs created by businesses that occupy the rehabilitated buildings)
- Revitalization of historic mills, surrounding neighborhoods and downtowns
- Attraction of new businesses
- Significant increases in local property tax revenue
- Reuse of existing infrastructure (roads, water, sewer, etc.)
- Increased Federal investment in NC due to the increased use of Federal tax credits
- Utility revenues for local governments
- Cleanup of environmental contamination at private expense

For income-producing projects (such as offices, commercial, apartments, lodging, etc.)

	Amount of Credit	*Number of Tax Years*	*Sources of Equity*
Federal rehabilitation tax credit	20%	1 year	All
Existing NC rehabilitation tax credit	20%	5 years	Not premium tax Not franchise tax
Proposed NC Mills Rehab Credit Tiers 1, 2, and 3	40%	1 year	All
Proposed NC Mills Rehab Credit Tiers 4 and 5	30%	1 year	All

For non-income-producing projects (such as owner-occupied residential units)

	Amount of Credit	*Number of Tax Years*	*Sources of Equity*
Federal rehabilitation tax credit	0%		
Existing NC rehabilitation tax credit	30%	5-10 years	Purchasers, developer
Proposed NC Mills Rehab Credit Tiers 1, 2, and 3	50%	5-10 years	Purchasers, developer
Proposed NC Mills Rehab Credit Tiers 4 and 5	40%	5-10 years	Purchasers, developer

Limits on rehabilitation: Since these projects would piggyback on the Federal tax credits program, projects must follow the Secretary of the Interior's Standards for Rehabilitation. These standards have been in place for more than 25 years and have governed many large adaptive use projects nationally.

Administration: Review and approval would be by the National Park Service, with preliminary review and technical support from the NC Historic Preservation Office (Department of Cultural Resources). An existing fee structure exists for the administration of tax credit projects by the NC Historic Preservation Office, so fees from developers will pay for the administration of the program.

Neighboring States: In 2004 South Carolina enacted a 25% tax credit for the rehabilitation of vacant textile mills, which may be used in addition to the existing historic tax credits (modeled after NC). All of Virginia's 25% historic tax credits may be taken in one year and allow every type of equity investor, thereby making them substantially more attractive for development than North Carolina's. Georgia allows a significant property tax abatement, which is not permitted in North Carolina.

A BILL TO BE ENTITLED

AN ACT TO ALLOW A MUNICIPALITY TO USE PROJECT DEVELOPMENT FINANCING FOR TOURISM-RELATED DEVELOPMENT PROJECTS LOCATED IN AN ENTERPRISE TIER ONE AREA.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 158-7.3(a)(1) reads as rewritten:

"(a) Definitions. – The following definitions apply in this section:

(1) Development project. – A capital project that includes capital expenditures by both private persons and one or more units of local government and that increases net employment opportunities for residents of the development district or within a two-mile radius of the project, whichever is larger, and increases the local government tax base.

If the district in which such a project will occur is outside a city's central business district (as that district is defined by resolution of the city council, which definition is binding and conclusive), then, of the private development forecast for a development project by the development financing plan for the district in which the project will occur, a maximum of twenty percent (20%) of the plan's estimated square footage of floor space may be proposed for use in retail sales, hotels, banking, and financial services offered directly to consumers, and other commercial uses other than office space. The twenty percent (20%) limitation in the preceding sentence does not apply to development financing districts located in an enterprise tier one area, as defined in G.S. 105-129.3, and created primarily for tourism-related economic development, such as developments featuring facilities for exhibitions, athletic and cultural events, show and public gatherings,

racing facilities, parks and recreation facilities, art galleries, museums, and art centers."

SENATE BILL 528:
Tax Increment Financing Changes

BILL ANALYSIS

Committee:	House Finance	**Date:**	August 22, 2005
Introduced by:	Sen. Clodfelter	**Summary by:**	Cindy Avrette
Version:	Second Edition		Committee Counsel
	S528-CSLA-29		

SUMMARY: Senate Bill 528[1] would allow a municipality to use project development financing for a tourism-related development project located outside of its central business district if the project is located in an enterprise tier one area. The bill becomes effective when it becomes law.

CURRENT LAW: In November 2004, the voters approved a constitutional amendment that has enabled counties, cities, and towns to use project development financing for the public portion of certain economic development projects within a defined territorial area. Project development financing, also known as tax increment financing, allows a local government to issue bonds secured by the incremental property tax increase generated by the development financed. This financing mechanism can be used for airports, auditoriums and arenas, hospitals, museums, parking facilities, sewer systems, storm sewers and flood control facilities, water systems, street improvements, public transportation facilities, railroads, affordable housing, land development for industrial or commercial purposes, utilities, and redevelopment.

Current law restricts the amount of retail development that may be considered as a 'development project' if the project is located outside of a municipality's central business district. Under that restriction, no more than 20% of a project's square footage may be proposed for use in retail sales, hotels, and other commercial uses other than office space.

BACKGROUND: The City of Roanoke Rapids has the opportunity to develop a music theater and entertainment district that could become a nationally recognized travel destination in North Carolina. The district would encompass over 700 acres, represent an investment of an estimated $129,000,000, and create over 2,595 new jobs. The district would consist of music theatres, shopping, hotels, motels, restaurants, and family recreational activities. The City believes project development financing would be a desirable vehicle for it to use to finance certain improvements in the district it has agreed to provide for the development. However, because the project will be located on I-95, outside of the City's central business district, the 20% limitation on commercial prevents the City from using this financing tool.

BILL ANALYSIS: Senate Bill 528 would enable the City of Roanoke Rapids, as well as other municipalities, to use project development financing for tourism related development in an enterprise tier one area. The bill accomplishes this change by eliminating the 20% limitation on commercial uses for tourism-related economic development featuring facilities for exhibitions, athletic and cultural events, show and public gatherings, racing facilities, parks and recreation facilities, art galleries, museums, and art centers.

S0528e2-SMLA

[1] The original change proposed by Senate Bill 528 was included in the public financing changes made by House Bill 1117, S.L. 2005-238.

House Committee on Finance

Minutes

~

August 23, 2005 – 1:00 p.m.

The House Committee on Finance met on Tuesday, August 23, 2005 at 1:00 pm in Room 1228 of the Legislative Building. The following members were present: Chairpersons Alexander, Gibson, Howard, Luebke, McComas, and Wainwright; Vice-Chairs Daughtridge, Hill, Ross, Weiss, and Womble; and Representatives B. Allen, Blackwood, Bordsen, Carney, Dockham, Fisher, Folwell, Hackney, Holliman, Jones, Lewis, Lucas, McGee, Rayfield, Underhill, Vinson, Walend, and Wiley. Also present were Sergeant-at-Arms Bill Freeman, Fred Hines, Dusty Rhodes, and Walter Spell. Staff persons present included Cindy Avrette, Rodney Bizzell, David Crotts, Canaan Huie, Linda Millsaps, and Martha Walston. The Visitor Registration Sheets are attached and incorporated into these minutes as **attachment 1**.

Chairwoman Howard called the meeting to order at 1:01 pm and recognized the two (2) pages present: (1) Justin Ward of Richmond County and (2) Daniel Alonzo of Sampson County, both of which were sponsored by Speaker Black.

The first bill considered by the Committee was **HB 1281 – SHP RETIREE PLATE MODIFICATIONS** (see **attachment 2**). Representative Gibson moved for the adoption of the Proposed Committee Substitute (PCS) for discussion purposes, and the motion carried. Representative Steen, the bill sponsor, was then recognized by the Chair to explain the bill. He stated that the bill came at the request of the Retired State Highway Patrolmen's Association and permits unmarried spouses of deceased retired highway patrolmen to obtain Retired Highway Patrol Special Registration Plates. Following this explanation, Representative Holliman moved that the PCS for HB 1231 be given a favorable report, with an unfavorable report as to the original bill. Seeing no further discussion on the bill, Chairwoman Howard then called the motion to a vote, and it carried with no known objection.

The next bill under consideration by the Committee was **SB 1013 – GEN. CONTRACTORS/FEES/COST RECOVERY** (see **attachment 3**). Representative Gibson, on behalf of the bill sponsor Senator Hoyle, was then recognized to explain the bill. He explained that the bill would authorize the State Licensing Board for General Contractors to increase its licensing fees and to recover its reasonable administrative costs associated with the investigation and prosecution of certain violations of the general contractors' licensing laws. Following this explanation, Chairwoman Howard recognized Representative Rayfield who asked if there were any contractors who were not licensed by the Board. Representative Gibson responded in the negative. Representative Jones was then recognized and moved that SB 1013 be given a favorable report. As there was no further discussion, the Chair then called the motion to a vote. The motion carried without objection.

SB 356 – FUEL TAX REFUND FOR PUMPERS AND SWEEPERS (see **attachment** 4) was the next bill considered by the Committee. Representative Lucy Allen, on behalf of the bill sponsor Senator Hoyle, was then recognized to explain the bill. She stated that the bill allows an annual motor fuel tax refund for a commercial vehicle that uses a power takeoff to remove and dispose of septage. She also noted that the 2nd edition of the bill incorporates SB 101, sponsored by Senator Albertson, which authorizes a similar refund for sweepers. Chairwoman Howard then recognized Representative Underhill, who moved that SB 356 be given a favorable report. Seeing no further discussion on the bill, the Chair the called the motion to a vote, and it carried without objection.

The final bill considered by the Committee was **HB 1413 – ENHANCE LOCAL GOVT. ADM. OF ENV. PRGMS.** (see **attachment 5**). Chairwoman Howard again recognized Representative Lucy Allen to explain the bill. She explained that the bill simply enhances local government's administration of environmental programs and referred the members to the bill summary (see attachment 5) for further detail. She further stated that the bill had been negotiated for some time but was now one of consensus for all concerned parties. Seeing no discussion, the Chair recognized Representative Weiss who moved that HB 1413 be given a favorable report. The motion was then called to a vote, and it carried with no known opposition.

As there was no further business before the Committee at that time, Chairwoman Howard then adjourned the meeting at 1:22 pm.

Respectfully submitted,

Representative Julia Howard

Referred to:

A BILL TO BE ENTITLED

AN ACT TO ALLOW A FUEL TAX REFUND FOR OFF-ROAD FUEL USE BY PUMPER TRUCKS AND SWEEPERS.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 105-449.107(b) reads as rewritten:

"(b) Certain Vehicles. – A person who purchases and uses motor fuel in one of the vehicles listed below may receive an annual refund for the amount of fuel consumed by the vehicle:

(1) A concrete mixing vehicle.
(2) A solid waste compacting vehicle.
(3) A bulk feed vehicle that delivers feed to poultry or livestock and uses a power takeoff to unload the feed.
(4) A vehicle that delivers lime or fertilizer in bulk to farms and uses a power takeoff to unload the lime or fertilizer.
(5) A tank wagon that delivers alternative fuel, as defined in G.S. 105-449.130, or motor fuel or another type of liquid fuel into storage tanks and uses a power takeoff to make the delivery.
(6) A commercial vehicle that delivers and spreads mulch, soils, composts, sand, sawdust, and similar materials and that uses a power takeoff to unload, blow, and spread the materials.
(7) A commercial vehicle that uses a power takeoff to remove and dispose of septage and for which an annual fee is required to be paid to the Department of Environment and Natural Resources under G.S. 130A-291.1.
(8) A sweeper.

The amount of refund allowed is thirty-three and one-third percent (33 1/3%) of the following: the sum of the flat cents-per-gallon rate in effect during the year for which the refund is claimed and the average of the two variable cents-per-gallon rates in effect during that year, less the amount of sales and use tax due on the fuel under this Chapter.

An application for a refund allowed under this section must be made in accordance with this Part. This refund is allowed for the amount of fuel consumed by the vehicle in its mixing, compacting, or unloading operations, as distinguished from propelling the vehicle, which amount is considered to be one-third of the amount of fuel consumed by the vehicle."

SECTION 2. This act is effective when it becomes law and applies to motor fuel and alternative fuel consumed on or after January 1, 2006.

SENATE BILL 356:
Fuel Tax Refund for Pumpers and Sweepers

BILL ANALYSIS

Committee:	House Finance	**Date:**	August 22, 2005
Introduced by:	Sen. Hoyle	**Summary by:**	Martha Walston
Version:	Second Edition		Committee Counsel

SUMMARY: Senate Bill 356 would allow an annual motor fuel tax refund for a commercial vehicle that uses a power takeoff to remove and dispose of septage. The 2nd edition incorporates SB 101, sponsored by Sen. Albertson, which authorizes a similar refund for sweepers. It also changes the effective date from January 1, 2005 to January 1, 2006.

As introduced, this bill was identical to HB 504, sponsored by Rep. Wainwright, L. Allen, and Barnhart.

CURRENT LAW: G.S. 105-449.107 of the Revenue Laws allows annual refunds of motor fuel and alternative fuel taxes for off-highway use and for certain vehicles with power attachments. Subsection (b) of this statute lists the following vehicles that are allowed an annual refund of the motor fuel and alternative fuel taxes paid on fuel consumed by the vehicles:

1. A concrete mixing vehicle.
2. A solid waste compacting vehicle.
3. A bulk feed vehicle that delivers feed to poultry or livestock and uses a power takeoff to unload the lime or fertilizer.
4. A vehicle that delivers lime or fertilizer in bulk to farms and uses a power takeoff to unload the lime or fertilizers.
5. A tank wagon that delivers alternative fuel or motor fuel or another type of liquid fuel into storage tanks and uses a power takeoff to make the delivery.
6. A commercial vehicle that delivers and spreads mulch, soils, composts, sand, sawdust, and similar materials and that uses a power takeoff to unload, blow, and spread the materials.

The annual refund of the fuel taxes is based on 33 1/3% of fuel consumed by the vehicle. This is the amount of fuel that is considered to be consumed by the vehicle in its mixing, compacting, or unloading operations, as distinguished from propelling the vehicle on the roads. The amount of sales tax due on the fuel is deducted from the tax refund.

BILL ANALYSIS: Senate Bill 356 would add the following to the list of vehicles eligible for a motor fuel tax refund:

- commercial vehicles that use a power takeoff to remove and dispose of septage and for which an annual fee is required to be paid to the Department of Environment and Natural Resources (DENR) under G.S. 130A-291.1. DENR is responsible for administering a septage management program, including establishing standards for the transportation, storage, treatment, and disposal of septage; operator registration and training; the issuance, suspension, and revocation of permits, and procedures for the payment of annual fees. A septage management firm that operates one pumper truck pays an annual fee of $550.00 and a firm that operates two or more pumper trucks pays an annual fee of $800.00. In order to issue the refund, the Department of Revenue is not required to verify the payment of the permit fee required by G.S. 130A-291.1. However, if the Department discovers through its auditing or investigatory procedures that those permit fees have not been paid, it may refuse to issue a refund or seek a return of the refund.

- sweepers. Sweepers are vehicles that vacuum up and haul away litter in parking lots. A sweeper vehicle has an auxiliary engine that runs only when the vehicle is performing its sweeping function, and a factory-installed meter gauges how much fuel is being used for that function.

The 2nd edition of the bill also changes the effective date from January 1, 2005 to January 1, 2006 so as to avoid the administrative burden associated with making the refund retroactive.

A BILL TO BE ENTITLED

AN ACT TO PROVIDE ADDITIONAL AUTHORITY FOR LOCAL GOVERNMENTS THAT ADMINISTER APPROVED LOCAL ENVIRONMENTAL PROGRAMS AND TO PROVIDE ADDITIONAL INCENTIVES FOR LOCAL GOVERNMENTS TO REQUEST THE AUTHORITY TO ADMINISTER ALL OR A PORTION OF CERTAIN ENVIRONMENTAL PROGRAMS.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 113A-54.1 is amended by adding a new subsection to read:

"(e) An approved erosion and sedimentation control plan shall contain a schedule for the inspection of the area covered by the plan after each phase of the plan has been completed and after establishment of temporary ground cover in accordance with G.S. 113A-57(2). The landowner, the financially responsible party, or their agent shall perform each inspection. The person who performs each inspection shall maintain and make available a record of the inspection at the site of the land-disturbing activity. The record shall indicate whether the erosion control measures required by the plan have been installed in the correct sequence and whether the measures are being maintained in substantial accordance with the plan. The record shall set out any significant deviation from the approved erosion control plan, identify any measures that may be required to correct the deviation, and document the completion of those measures. The record shall be maintained until permanent ground cover has been established as required by the approved erosion and sedimentation control plan. The inspections required by this subsection shall be in addition to inspections required by G.S. 113A-61.1."

SECTION 2. G.S. 113A-56 reads as rewritten:

"**§ 113A-56. Jurisdiction of the Commission.**

(a) The Commission shall have jurisdiction, to the exclusion of local governments, to adopt rules concerning land-disturbing activities that are:

(1) Conducted by the ~~State;~~State.

(2) Conducted by the United ~~States;~~States.
(3) Conducted by persons having the power of eminent ~~domain;~~domain other than a local government.
(4) Conducted by ~~local governments; or~~a local government.
(5) Funded in whole or in part by the State or the United States.

(b) The Commission may delegate the jurisdiction conferred by G.S. 113A-56(a), in whole or in part, to any other State agency that has submitted an erosion and sedimentation control program to be administered by it, if the program has been approved by the Commission as being in conformity with the general State program.

(c) The Commission shall have concurrent jurisdiction with local governments that administer a delegated erosion and sedimentation control program over all other land-disturbing activities. In addition to the authority granted to the Commission in G.S. 113A-60(c), the Commission has the following authority with respect to a delegated erosion and sedimentation control program:

(1) To review erosion and sedimentation control plan approvals made by a delegated erosion and sedimentation control program and to require a revised plan if the Commission determines that a plan does not comply with the requirements of this Article or the rules adopted pursuant to this Article.
(2) To review the compliance activities of a delegated erosion and sedimentation control program and to take appropriate compliance action if the Commission determines that the local government has failed to take appropriate compliance action."

SECTION 3. G.S. 113A-60 reads as rewritten:

"**§ 113A-60. Local erosion and sedimentation control programs.**

(a) A local government may submit to the Commission for its approval an erosion and sedimentation control program for its jurisdiction, and to this end local governments are authorized to adopt ordinances and regulations necessary to establish and enforce erosion and sedimentation control programs. An ordinance adopted by a local government may establish a fee for the review of an erosion and sedimentation control plan and related activities. Local governments are authorized to create or designate agencies or subdivisions of local government to administer and enforce the programs. An ordinance adopted by a local government shall at least meet and may exceed the minimum requirements of this Article and the rules adopted pursuant to this Article. Two or more units of local government are authorized to establish a joint program and to enter into any agreements that are necessary for the proper administration and enforcement of the program. The resolutions establishing any joint program must be duly recorded in the minutes of the governing body of each unit of local government participating in the program, and a certified copy of each resolution must be filed with the Commission.

(b) The Commission shall review each program submitted and within 90 days of receipt thereof shall notify the local government submitting the program that it has been approved, approved with modifications, or disapproved. The Commission shall only

approve a program upon determining that its standards equal or exceed those of this Article and rules adopted pursuant to this Article.

(c) If the Commission determines that any local government is failing to administer or enforce an approved erosion and sedimentation control program, it shall notify the local government in writing and shall specify the deficiencies of administration and enforcement. If the local government has not taken corrective action within 30 days of receipt of notification from the Commission, the Commission shall assume administration and enforcement of the program until such time as the local government indicates its willingness and ability to resume administration and enforcement of the program.

(d) A local government may submit to the Commission for its approval a limited erosion and sedimentation control program for its jurisdiction that grants the local government the responsibility only for the assessment and collection of fees and for the inspection of land-disturbing activities within the jurisdiction of the local government. The Commission shall be responsible for the administration and enforcement of all other components of the erosion and sedimentation control program and the requirements of this Article. The local government may adopt ordinances and regulations necessary to establish a limited erosion and sedimentation control program. An ordinance adopted by a local government that establishes a limited program shall conform to the minimum requirements regarding the inspection of land-disturbing activities of this Article and the rules adopted pursuant to this Article regarding the inspection of land-disturbing activities. The local government shall establish and collect a fee to be paid by each person who submits an erosion and sedimentation control plan to the local government. The amount of the fee shall be an amount equal to eighty percent (80%) of the amount established by the Commission pursuant to G.S. 113A-54.2(a) plus any amount that the local government requires to cover the cost of inspection and program administration activities by the local government. The total fee shall not exceed one hundred dollars ($100.00) per acre. A local government that administers a limited erosion and sedimentation control program shall pay to the Commission the portion of the fee that equals eighty percent (80%) of the fee established pursuant to G.S. 113A-54.2(a) to cover the cost to the Commission for the administration and enforcement of other components of the erosion and sedimentation control program. Fees paid to the Commission by a local government shall be deposited in the Sedimentation Account established by G.S. 113A-54.2(b). A local government that administers a limited erosion and sedimentation control program and that receives an erosion control plan and fee under this subsection shall immediately transmit the plan to the Commission for review. A local government may create or designate agencies or subdivisions of the local government to administer the limited program. Two or more units of local government may establish a joint limited program and enter into any agreements necessary for the proper administration of the limited program. The resolutions establishing any joint limited program must be duly recorded in the minutes of the governing body of each unit of local government participating in the limited program, and a certified copy of each resolution must be filed with the Commission.

Subsections (b) and (c) of this section apply to the approval and oversight of limited programs.

(e) Notwithstanding G.S. 113A-61.1, a local government with a limited erosion and sedimentation control program shall not issue a notice of violation if inspection indicates that the person engaged in land-disturbing activity has failed to comply with this Article, rules adopted pursuant to this Article, or an approved erosion and sedimentation control plan. The local government shall notify the Commission if any person has initiated land-disturbing activity for which an erosion and sedimentation control plan is required in the absence of an approved plan. If a local government with a limited program determines that a person engaged in a land-disturbing activity has failed to comply with an approved erosion and sedimentation control plan, the local government shall refer the matter to the Commission for inspection and enforcement pursuant to G.S. 113A-61.1."

SECTION 4. G.S. 143-215.3D is amended by adding a new subsection to read:

"(f) Local Government Fee Authority Not Impaired. – This section shall not be construed to limit any authority that a unit of local government may have pursuant to any other provision of law to assess or collect a fee for the review of an application for a permit, the review of a mitigation plan, or the inspection of a site or a facility under any local program that is approved by the Commission under this Article."

SECTION 5. G.S. 143-215.1(f) reads as rewritten:

"(f) Local Permit Programs for Sewer ~~Extension.~~Extension and Reclaimed Water Utilization. – Municipalities, counties, local boards or commissions, water and sewer authorities, or groups of municipalities and counties may establish and administer within their utility service areas their own general permit programs in lieu of State permit required in G.S. 143-215.1(a)(2), (3), and (8) above, for construction, operation, alteration, extension, change of proposed or existing sewer system, subject to the prior certification of the Commission. For purposes of this subsection, the service area of a municipality shall include only that area within the corporate limits of the municipality and that area outside a municipality in its extraterritorial jurisdiction where sewer service or a reclaimed water utilization system is already being provided by the municipality to the permit applicant or connection to the municipal sewer system or a reclaimed water utilization system is immediately available to the applicant; the service areas of counties and the other entities or groups shall include only those areas where sewer service or a reclaimed water utilization system is already being provided to the applicant by the permitting authority or connection to the permitting authority's system is immediately available. No later than the 180th day after the receipt of a program and statement submitted by any local government, commission, authority, or board the Commission shall certify any local program ~~that:~~does all of the following:

(1) Provides by ordinance or local law for requirements compatible with those imposed by this Part and the rules implementing this ~~Part;~~Part.

(2) Provides that the Department receives notice and a copy of each application for a permit and that it receives copies of approved permits and plans upon request by the ~~Commission;~~Commission.

(3) Provides that plans and specifications for all construction, extensions, alterations, and changes be prepared by or under the direct supervision of an engineer licensed to practice in this ~~State;~~State.

(4) Provides for the adequate enforcement of the program requirements by appropriate administrative and judicial ~~process;~~process.

(5) Provides for the adequate administrative organization, engineering staff, financial and other resources necessary to effectively carry out its plan review ~~program;~~program.

(6) Provides that the system is capable of interconnection at an appropriate time with an expanding municipal, county, or regional ~~system;~~system.

(7) Provides for the adequate arrangement for the continued operation, service, and maintenance of the sewer ~~system; and~~system or a reclaimed water utilization system.

(8) Is approved by the Commission as adequate to meet the requirements of this Part and the rules implementing this Part.

(f1) The Commission may deny, suspend, or revoke certification of a local program upon a finding that a violation of the provisions in subsection (f) of this section has occurred. A denial, suspension, or revocation of a certification of a local program shall be made only after notice and a public hearing. If the failure of a local program to carry out this subsection creates an imminent hazard, the Commission may summarily revoke the certification of the local program. Chapter 150B of the General Statutes does not apply to proceedings under this subsection.

(f2) Notwithstanding any other provision of ~~this subsection,~~ subsections (f) and (f1) of this section, if the Commission determines that a sewer system, treatment works, or disposal system is operating in violation of the provisions of this Article and that the appropriate local authorities have not acted to enforce those provisions, the Commission may, after written notice to the appropriate local government, take enforcement action in accordance with the provisions of this Article."

SECTION 6. G.S. 143-215.6A(j) reads as rewritten:

"(j) Local governments certified and approved by the Commission to administer and enforce pretreatment programs ~~by the Commission~~ pursuant to ~~G.S. 143-215.3(a)(14)~~ G.S. 143-215.3(a)(14), stormwater programs pursuant to G.S. 143-214.7, or riparian buffer protection programs pursuant to G.S. 143-214.23 may assess civil penalties for violations of their respective programs in accordance with the powers conferred upon the Commission and the Secretary in this section, except that actions for collection of unpaid civil penalties shall be referred to the attorney representing the assessing local government. The total of the civil penalty assessed by a local government and the civil penalty assessed by the Secretary for any violation may not exceed the maximum civil penalty for such violation under this section."

SECTION 7. This act becomes effective 1 September 2005.

HOUSE BILL 1413:
Enhance Local Govt. Adm. of Env. Prgms

BILL ANALYSIS

Committee:	House Finance	**Date:**	August 23, 2005
Introduced by:	Reps. L. Allen, Hackney, Justice, Weiss	**Summary by:**	Tim Dodge
Version:	Second Edition		Legislative Analyst

SUMMARY: House Bill 1413 would: require the self-inspection of an area covered by an approved erosion and sedimentation control plan; clarify the jurisdiction of the North Carolina Sedimentation Control Commission over local erosion and sedimentation control programs; authorize a local government to establish an erosion and sedimentation control program that is limited to the inspection of land-disturbing activities within the jurisdiction; clarify that the statute which provides the fee structure for water quality permits should not be construed to limit local government fee authority for certain activities; authorize local permit programs for reclaimed water utilization systems; and provide that local governments certified and approved by the Environmental Management Commission (EMC) to enforce stormwater or riparian buffer protection programs may assess civil penalties for violations of the respective programs.

As introduced, this bill was identical to S1114, as introduced by Sen. Albertson, which is currently in Senate Finance.

CURRENT LAW: The General Assembly enacted the Sedimentation Pollution Control Act of 1973 (Act) to establish a program to allow development while minimizing the detrimental effects from pollution by sedimentation. The Act provides that certain land-disturbing activity is subject to mandatory requirements and the Act is enforceable by means of civil penalties, criminal penalties, stop-work orders, injunctive relief, and civil relief. The Act requires a person conducting a land-disturbing activity involving the uncovering of more than one acre to have an erosion and sedimentation control plan (plan) approved by the North Carolina Sedimentation Control Commission (Commission), which has delegated this authority to the Division of Land Resources in the Department of Environment and Natural Resources, prior to initiating the activity. In addition, the Act requires the utilization of sedimentation and erosion control devices and practices that are sufficient to retain the sediment generated by the construction within the boundaries of the tract during construction and provides for permanent ground cover after completion of construction. A local government may establish its own erosion and sedimentation control program (program) to approve plans and enforce the Act upon a determination by the Commission that the local program has standards that equal or exceed those of the Act. A local government that establishes its own program may also set its own fees.

BILL ANALYSIS:

Self-Inspection: The bill would require that a plan include a schedule for the self-inspection of the area covered by the plan after each phase of the plan has been completed and after establishment of temporary groundcover. The landowner, financially responsible party, or their agent would be required to perform each inspection and maintain and make available a record of the inspection at the site. The record must indicate whether the erosion control measures required by the plan were installed in the correct sequence and whether the measures are being maintained in accordance with the plan. The report must also indicate if there was any deviation from the approved plan, measures required to correct the deviation, and document the completion of those measures.

Jurisdiction of Commission: The bill would clarify that the Commission has concurrent jurisdiction with local governments that administer a delegated program. In addition, the Commission would be given the authority to: (i) review plan approvals made by a delegated program and to require a revised plan if the Commission determines that the plan does not comply with the Act and the associated rules; and (ii) review the compliance activities of a delegated program and take appropriate action upon determination that the delegated program has failed to take appropriate compliance action.

Authorization of Limited Local Programs: The bill would authorize a local government to request that the Commission approve and delegate a limited program that allows the local government to only inspect land-disturbing activities, and assess and collect appropriate fees. Local governments would be authorized to adopt ordinances and regulations necessary to establish a limited program, which shall at least meet and may exceed the minimum requirements regarding the inspection of land-disturbing activities under the Act and the associated rules. If the Commission approves a limited local program, the Commission would retain responsibility for administering all components of the program, other than the inspection of land-disturbing activities. The local government would be required to establish a fee for the review of a plan and related compliance activities, not to exceed $100.00, and submit a portion of the fee to the Commission to compensate the Commission for the costs associated with the administration and enforcement of other parts of the program.

Local Government Fee Authority Not Impaired: The bill would clarify that G.S. 143-215.3D, which provides the fee schedule for water quality permits, would not be construed to limit the authority of a local government to collect a fee for the review of a permit application or mitigation plan, or inspection of a site.

Local Permit Programs for Reclaimed Water Utilization Systems: The bill would authorize local governments to establish and administer their own permit program, in lieu of required State permits, for construction, operation, alteration extension, or change of a reclaimed water utilization system. The statute already authorizes local government permit programs for these activities with regard to sewer systems.

Civil Penalties for Violations: The bill would provide that local governments certified and approved by the EMC to enforce stormwater or riparian buffer protection programs may assess civil penalties for violations of the respective programs.

EFFECTIVE DATE: The bill would become effective September 1, 2005.

Jennifer McGinnis, counsel to the House Committee on Environment and Natural Resources, substantially contributed to this summary.

**This fiscal analysis is independent of the impact of other criminal penalty bills being considered by the General Assembly, which could also increase the projected prison population and thus the availability of prison beds in future years. The Fiscal Research Division is tracking the cumulative effect of all criminal penalty bills on the prison system as well as the Judicial Department.*

BILL SUMMARY:

The second edition of House Bill 1413 would: require the self-inspection of an area covered by an approved erosion and sedimentation control plan; clarify the jurisdiction of the North Carolina Sedimentation Control Commission ("the Commission") over local erosion and sedimentation control programs; authorize a local government to establish an erosion and sedimentation control

program that is limited to the inspection of land-disturbing activities within the jurisdiction; clarify that the statute which provides the fee structure for water quality permits should not be construed to limit local government fee authority for certain activities; authorize local permit programs for reclaimed water utilization systems; and provide that local governments certified and approved by the Environmental Management Commission (EMC) to enforce stormwater or riparian buffer protection programs may assess civil penalties for violations of the respective programs. The penalties in this case are paid to the local government. As such, it has no impact on state revenues.

ASSUMPTIONS AND METHODOLOGY:

Revenues: This bill allows a local government to submit to the Commission for its approval a limited erosion and sedimentation control program for its jurisdiction that grants the local government the responsibility only for the assessment and collection of fees and for the inspection of land-disturbing activities within the jurisdiction of the local government. The Commission would still be responsible for the administration and enforcement of all other components of the program, including review and approval of the plans. Local governments operating a limited local program shall charge a fee made up of two components: 1) an amount equal to 80% of the amount established by the Commission pursuant to G.S. 113A-54.2(a) plus 2) any amount that the local government requires to cover the cost of inspection and administration activities by the local government. The total fee shall not exceed $100/acre.

The bill directs the local government operating a limited local program to pay the first component of the fee to the Commission for the administration and enforcement of other components of the program. These payments shall be deposited into the Sedimentation Account established by G.S. 113A-54.2(b). ***Under this bill, the Sedimentation Account will receive 20% less in fee revenue for each sedimentation and erosion control plan submitted under a limited local program.*** Currently, the sedimentation fee is set at $50/acre; therefore under a limited local program, the Sedimentation Account would receive only 80% of that or $40/acre. Currently, there is no estimate of how many plans would be submitted under a limited local program. Consequently, no estimate is available regarding the exact impact on the Sedimentation Account.

The second component of the fee will result in a revenue gain by local governments operating limited local programs. At this time, there is no estimate available regarding the number of local governments that would choose this option. Also the amount of this component of the fee will likely vary by local government. For these reasons, a specific estimate of the impact on local government revenues is not available.

Expenditures: Under a limited local program, inspection of land-disturbing activities is delegated to the participating local government. ***Consequently, the expenditures related to these inspections will be shifted from the Department of Environment and Natural Resources (DENR) to the participating local government.*** Because the extent to which local governments will choose the limited local program option is unknown, no estimate is available regarding the resources saved by DENR and expended by the local governments. Note that inspections conducted by local rather than state inspectors, especially in rural areas, will likely require less in travel expenditures.

Criminal Penalties: General

The Sentencing and Policy Advisory Commission prepares prison population projections for each criminal penalty bill. The Commission assumes for each bill that increasing criminal penalties does not have a deterrent or incapacitate effect on crime. Therefore, the Fiscal Research Division does not assume savings due to deterrent effects for this bill or any criminal penalty bill.

This second edition makes various changes to Article 4 (Sedimentation Pollution Control Act of 1973), Chapter 113A of the General Statutes, including self-inspections by landowners and authorization for local governments to establish and administer their own permit program. Current G.S. 113A-64(b) states that any person who knowingly or willfully violates any provision of Article 4 or any ordinance, rule, regulation, or order duly adopted or issued by the Commission or a local government shall be guilty of a Class 2 misdemeanor that may include a fine not to exceed five thousand dollars ($5,000). Because this second edition would expand an existing offense, the number of charges and convictions cannot be projected.

Department of Correction & County Jails

The Sentencing and Policy Advisory Commission prepares inmate population projections annually. The projections used for incarceration fiscal notes are based on January 2005 projections. These projections are based on historical information on incarceration and release rates under Structured Sentencing, crime rate forecasts by a technical advisory group, probation and revocation rates, and the decline (parole and maxouts) of the stock prison population sentenced under previous sentencing acts. Based on the most recent population projections and estimated available prison bed capacity, *there are no surplus prison beds available for the five-year fiscal note horizon and beyond.*

- In FY 2003-04, 15 percent of Class 2 misdemeanors resulted in active sentences and the average active sentence length was 23 days. Offenders with active sentences of less than thirty days are housed in county jails at county expense.
- The remaining 85 percent of Class 2 misdemeanants received non-active sentences. For those offenders sentenced to supervised probation, the Division of Community Correction (DCC) would incur costs of $1.87 per offender per day. Offenders sentenced to community service would cost $0.67 per offender per day, and offenders given unsupervised probation would not impact DCC.

Because Class 2 misdemeanants serving active time as a result of this bill would be housed in county jails, this legislation would not impact prison population.

Judicial Branch

For most criminal penalty bills, the Administrative Office of the Courts provides Fiscal Research with an analysis of the fiscal impact of the specific bill. For these bills, fiscal impact is typically based on the assumption that court time will increase due to an expected increase in trials and a corresponding increase in the hours of work for judges, clerks and prosecutors. This increased court time is also expected to result in greater expenditures for jury fees and indigent defense.

Based on the costs of time in court, attorney preparation time, and indigent defense, the average estimated cost to process one Class 2 misdemeanor is $2,314 per trial and $271 per guilty plea. The trial cost includes an estimated $1,365 in jury fees, costs of time in court, and attorney costs

and an additional $949 in indigent defense. Based on prior-year data, the majority of any new Class 2 misdemeanor charges that are not dismissed are likely to be settled by plea.

House Committee on Finance

Minutes

~

August 23, 2005 – 6:45 p.m.

The House Committee on Finance met on Tuesday, August 23, 2005 at 6:45 p.m. around the desk of Chairwoman Howard on the floor of the House Chamber. The following members were present: Chairpersons Alexander, Gibson, Howard, Luebke, McComas, and Wainwright; Vice-Chair Ross; and Representatives Blackwood, Bordsen, Carney, England, Faison, Folwell, Glazier, Hackney, Holliman, Insko, Jones, Lewis, Lucas, McGee, Rayfield, and Underhill. Staff persons present included Cindy Avrette, Brenna Erford, and Martha Walston.

Chairwoman Howard called the meeting to order at 6:48 pm.

The first bill considered by the Committee was **HB 1330 – AMEND ELECTROLYSIS PRACTICE ACT/FEES** (see **attachment 1**). Representative Jeffus was recognized to explain the bill. She informed the members that the bill authorizes the North Carolina Board of Electrolyisis Examiners to license laser clinicians and laser clinician instructors, and to certify Board-approved schools of laser, light source, or pulsed-light treatments that meet requirements established by the Board. She noted that the bill had been heard successfully in the House Health Committee earlier in the day but was before the Finance Committee because it authorized fees for these new licensures.

The Chair recognized Representative Faison following this explanation and he stated his concern over the language in the bill on page 1, lines 23-25. He then sent forth an amendment clarifying the language in this section (see **attachment 2**) and moved its adoption. Representative Luebke, however, was recognized and stated his belief that the amendment did not help clarify the bill as intended and was unneeded. Representative England and Jeffus agreed with Representative Luebke and voiced their opposition to the amendment as well. As there was no further discussion on the amendment, Chairwoman Howard called it to a vote, and the amendment failed.

Representative Wainwright was then recognized by the Chair and stated his concern that insufficient time was being allowed to properly debate the bill. Representative Holliman then moved that HB 1330 be given a favorable report. Representative Insko inquired as to who was charged with establishing the rules for the profession. Representative Jeffus responded that the North Carolina Board of Electrolysis Examiners was responsible for rulemaking. Seeing no further discussion, Chairwoman Howard then called the Holliman motion to a vote, and it carried by a majority.

SB 208 – AMEND OCCUPATIONAL THERAPY LAWS/FEE (see **attachment 3**) was the next bill considered by the Committee. Representative Nye, on behalf of the bill sponsor Senator Lucas, was recognized to explain the bill. He stated that the bill amends the North Carolina

Occupational Therapy Practice Act by creating statutory revisions and modifications to the provisions regulating the practice of occupational therapy. He further stated that the bill raises the ceiling on the fee for a limited permit from $35 to $50, with the fee expiring October 1, 2007. Seeing no debate, Chairwoman Howard recognized Representative Luebke for a motion. He moved that SB 208 be given a favorable report. The Chair called the motion to a vote, and it carried without objection.

As there was no further business before the Committee at that time, Chairwoman Howard then adjourned the meeting at 7:15 pm.

Respectfully submitted,

Representative Julia Howard
Presiding Chair

Jason A. Cannon
Clerk, House Committee on Finance

HOUSE BILL 1330:
Amend Electrolysis Practice Act/Fees

BILL ANALYSIS

Committee:	House Finance	**Date:**	August 23, 2005
Introduced by:	Rep. Jeffus	**Summary by:**	Sara Kamprath
Version:	PCS to First Edition		Analyst

SUMMARY: The Proposed Committee Substitute for House Bill 1330 authorizes the North Carolina Board of Electrolysis Examiners to license laser clinicians and laser clinician instructors, and to certify Board-approved schools of laser, light source, or pulsed-light treatments that meet requirements established by the Board. House Bill 1330 also establishes the following new fees:

Application for licensure as laser clinician	*$150 (same for electrologist)*
Renewal (annual)	*$200 (same for electrologist)*
Application for licensure as laser clinician instructor	*$150 (same for electrology instructor)*
Renewal (annual)	*$ 75 (same for electrology instructor)*
Application for certification as Board-approved school of laser, light source, or pulsed-light treatment	*$500 (same for school of electrology)*
Renewal (annual)	*$250 (same for school of electrology)*

The Proposed Committee Substitute also provides that any person practicing laser, light source, or pulsed-light treatments without a license by the Board shall be guilty of a Class I felony and may be assessed a civil penalty of $5,000 per violation.

CURRENT LAW: Chapter 88A of the General Statutes creates the North Carolina Board of Electrolysis Examiners and requires the mandatory licensing of electrologists. A violation of practicing electrolysis without a license is a Class 2 misdemeanor. Electrolysis is defined as the permanent removal of hair by the application of an electric current to the dermal papilla by a filament to cause decomposition, coagulation, or dehydration within the hair follicle as approved by the Food and Drug Administration of the United States Government.

The Board is composed of five members:

- three electrologists who have practiced for at least five years. One is appointed by the Speaker of the House of Representatives, one is appointed by the President Pro Tem of the Senate, and one is appointed by the Governor.
- a physician licensed in North Carolina, who is nominated by the North Carolina Medical Board and appointed by the Governor.
- a public member, appointed by the Governor.

Chapter 88A sets out the requirements for licensure as an electrologist, certification as an electrology instructor, and certification as a Board-approved school of electrology.

BILL ANALYSIS: The proposed Committee Substitute for House Bill 1330 authorizes the licensure of a laser clinician and laser clinician instructor. A laser clinician is defined as a person who engages in laser, light source, or pulsed light treatments of skin or hair. "Laser, light source, or pulsed-light treatments" are defined as the use of laser or pulsed-light devices for nonablative procedures for the removal of hair.

To be licensed as a laser clinician, a person must first meet the following requirements:

- be a licensed electrologist.
- complete a 30-hour laser, light source, or pulsed-light treatment course approved by the Board.
- currently using or anticipate using laser, light source, or pulsed-light devices.
- Submit the $150 licensure application fee.

A laser clinician is also required to complete 10 hours of continuing education annually to maintain licensure.

To be licensed as a laser clinician instructor, a person must meet the following requirements:

- Submit a Board-approved application
- Be a licensed electrologist
- Be a licensed electrology instructor
- Have practiced laser and light-based treatments actively for at least one year immediately before the application
- Have at least 100 hours of training in laser and light-based treatments.
- Submit the $150 licensure application fee.

Any person practicing laser, light source, or pulsed-light treatments without a license by the Board shall be guilty of a Class I felony and may be assessed a civil penalty of $5,000 per violation. The bill does not limit or prevent any licensed physician from performing or delegating to a qualified person any acts that are otherwise permitted by law or established by custom.

To be certified as a Board-approved school of laser, light source, or pulsed-light treatments, the school must submit the following:

- Board-approved application
- Detailed floor plan that demonstrates adequate school facilities
- Detailed list of equipment to be used by students
- Copy of the curriculum consisting of the number of hours and subject matter determined by the Board. The number of required hours shall not be less than 30 and not more than 600.
- Certified copy of the school manual of instruction
- Names and qualifications of the licensed instructors
- $500 certification fee.

A school's certification is only valid for the location named in the application. If a school desires to change location, it must apply to the Board and pay a certificate renewal fee of $250. A school's certification is not transferable, and the school must notify the Board in writing of any sale, transfer, or change in ownership or management.

EFFECTIVE DATE: The act is effective when it becomes law.

**This fiscal analysis is independent of the impact of other criminal penalty bills being considered by the General Assembly, which could also increase the projected prison population and thus the availability of prison beds in future years. The Fiscal Research Division is tracking the cumulative effect of all criminal penalty bills on the prison system as well as the Judicial Department.*

BILL SUMMARY: House Bill 1330 authorizes the North Carolina Board of Electrolysis Examiners to license laser clinicians, electrology instructors and laser clinician instructors and to certify Board-approved schools of laser, light source, or pulsed-light treatments that meet requirements established by the Board. The bill contains new fees for the application, licensure, and renewal of licensure for laser clinicians, electrology instructors and laser clinician instructors as well as application and certification fees for Board-approved schools of laser, light source, and pulsed-light treatments.

The second addition makes the practice of electrology or pulsed-light treatment without a license punishable as a Class I felony, with all other violations of the act punishable as Class 2 misdemeanors.

ASSUMPTIONS AND METHODOLOGY: The North Carolina Board of Electrolysis Examiners has licensed 30 laser clinicians currently practicing in the state and one laser clinician instructor. There will be one Board-approved school of laser treatments opening in North Carolina pending the passage of this legislation.

The new fees created in this bill for laser clinicians, laser clinician instructors, and Board-approved schools of laser treatments will not initially be set at the statutory maximum, but instead at the levels indicated in the "actual fee" column of the chart below.

Schedule of Proposed Fees		
Application for licensure:	Maximum fee	Actual fee
Laser clinician	$150	$50
Laser clinician instructor	$150	$50
Electrology instructor	$150	$50
Board-approved school of laser, light-source, or pulsed-light treatments	$500	$50
Certificate		
Board-approved school of laser, light-source, or pulsed-light treatments	$250	$100
Renewal		
Laser clinician	$200	$50
Laser clinician instructor	$75	$75
Electrology instructor	$75	$75

The following chart shows projected fee revenues for the Board of Electrolysis Examiners based on the actual fee amounts listed above. The projection assumes 6 new laser clinicians will come to work in North Carolina each year, and that one new laser clinician instructor will come to the state every other year. These growth rates are based on discussions with members of the Board of Electrolysis Examiners.

Projected Fee Revenues					
Application for licensure	2005-06	2006-07	2007-08	2008-09	2009-10

Incarceration Note

This bill expands Article 88A of the General Statutes (Electrolysis Practices Act) to include laser clinicians, instructors, and schools. G.S. 88A-4 currently makes it a Class 2 misdemeanor to practice electrolysis in North Carolina without a license. The Administrative Office of the Courts (AOC) currently does not have a specific offense code for violations of Article 88A. The lack of an AOC offense code is some indication that this offense is infrequently charged and/or infrequently results in convictions. This bill also makes it a Class I felony to practice laser, light source, or pulsed-light treatments in North Carolina without a license.

Department of Corrections

The Sentencing and Policy Advisory Commission prepares inmate population projections annually. The projections used for incarceration fiscal notes are based on January 2005 projections. These projections are based on historical information on incarceration and release rates under Structured Sentencing, crime rate forecasts by a technical advisory group, probation and revocation rates, and the decline (parole and maxouts) of the stock prison population sentenced under previous sentencing acts. Based on the most recent population projections and estimated available prison bed capacity, *there are no surplus prison beds available for the five-year fiscal note horizon and beyond.*

Since the proposed bill creates a new offense, the Sentencing Commission does not have any historical data from which to estimate the impact of this bill on the prison population. It is not known how many offenders might be sentenced under this bill. If, for example, there were ten Class I convictions under this proposed bill per year, the combination of active sentences and probation revocations would result in the need for one additional prison bed the first year and three additional prison beds the second year. The average annual operating cost for one prison bed in FY 2006-07 will be an estimated $24,740.

In FY 2003-04, 81 percent of Class 2 misdemeanants received non-active sentences. For those offenders sentenced to supervised probation, the Division of Community Corrections (DCC) would incur costs of $1.87 per offender per day. Offenders sentenced to community service would cost $0.67 per offender per day, and offenders given unsupervised probation would not impact DCC.

Judicial Department

For most criminal penalty bills, the Administrative Office of the Courts (AOC) provides Fiscal Research with an analysis of the fiscal impact of the specific bill. For these bills, fiscal impact is typically based on the assumption that court time will increase due to an expected increase in trials and a corresponding increase in the hours of work for judges, clerks, and prosecutors. This increased court time is also expected to result in greater expenditures for jury fees and indigent defense.

Because the bill provides for new Class 2 misdemeanor and Class I felony offenses, AOC is unable to estimate the number of new charges that may result from this bill. For any misdemeanor charge due to this bill, there would be additional court and preparation time needed to process the charge, thus increasing superior court workload. AOC estimates the cost per charge based on offense class as shown in the table below.

Data regarding the number of charges for practicing electrology or pulsed-light treatments without a license is unavailable because AOC does not maintain a specific offense code for this violation. As a result, they cannot estimate the number of additional charges that the Court system would handle due to this bill. Based on the costs of time in court, attorney preparation time, and indigent defense, the average estimated cost to process one Class 2 misdemeanor via trial is $2,322. This cost includes an estimated $1,373 in jury fees, costs of time in court, and attorney costs and an additional $949 in indigent defense. However, based on prior-year data, the majority of any new Class 2 charges that are not dismissed are likely to be settled by guilty plea at an estimated cost of $272.

Offense Class	Settled via Trial			Settled via Guilty Plea
	Court/Attorney Costs	*Indigent Defense*	*Total*	-
Class I Felony	$3,904	$1,931	**$5,835**	**$330**
Class 2 Misdemeanor	$1,373	$939	**$2,322**	**$272**

SENATE BILL 208:
Amend Occupational Therapy Laws/Fee

BILL ANALYSIS

Committee:	House Finance	**Date:**	August 23, 2005
Introduced by:	Sen. Lucas	**Summary by:**	Cindy Avrette
Version:	Third Edition		Committee Counsel

SUMMARY: ***Senate Bill 208 amends the North Carolina Occupational Therapy Practice Act by creating statutory revisions and modifications to the provisions regulating the practice of occupational therapy. The bill would raise the ceiling on the fee for a limited permit from $35 to $50; the bill provides that this fee will expire October 1, 2007.***

CURRENT LAW: Article 18D of Chapter 90 of the General Statutes regulates the practice of occupational therapy. Under current law, "occupational therapy" is defined as a health care profession providing evaluation, treatment, and consultation to help individuals achieve a maximum level of independence by developing skills and activities interfered with by disease, emotional disorder, physical injury, the aging process, or impaired development. Occupational therapists use purposeful activities and specially designed orthotic and prosthetic devices to reduce specific impairments and to help individuals achieve independence at home and in the work place.

BILL ANALYSIS:

Section 1 makes changes to the declaration of purpose by substituting the term "services" for "care" and substituting the term "licensure requirements" for "standards of education."

Section 2 makes definitional changes. It adds two new definitions: (1) the "Accrediting Council for Occupational Therapy Education" as the accrediting body used in the Article, and (2) the "National Board of Certification in Occupational Therapy" as the examining body used in the Article.[1]

Section 3 increases the number of members on the North Carolina Board of Occupational Therapy from six to seven, establishes staggered terms of four years for members, and requires one member to be a counselor, educator, or school-based professional certified or licensed under North Carolina law employed in a public school system and is not an occupational therapy assistant or an occupational therapist. The section makes additional changes to the requirements for other board positions, and concerning removal of board members.[2]

Section 4 provides that the Board must communicate disciplinary actions to relevant government authorities including State, federal and other state occupational therapy licensing authorities. The section also directs the Board to conduct a training program to familiarize new board members with their duties.

Section 5 provides that the licensure examination must be approved by the Board, instead of created by the board, substitutes the licensure requirement of the successful completion of at least six months supervised field work with the completion of supervised field work for a duration as determined by the Board, and establishes education and examination requirements for occupational therapist trained outside the United States.

---

[1] The 3rd edition of the bill maintains the current law definition of 'occupational therapy'. Earlier versions of the bill modified this definition.

[2] In earlier versions of the bill, Section 3 set out in detail the scope of practice of occupational therapy. These provisions were removed from the bill in Senate Finance.

Section 6 repeals G.S. 90-270.71, which is the provision on licensure examination. This provision is addressed in Section 2 and Section 6 of this bill.

Section 7 allows exemption from certain licensure requirements for applicants who are currently licensed as occupational therapist or occupational therapy assistants in other states or the District of Columbia and includes the United States territories of Guam and Puerto Rico.

Sections 8 and 9 create a limited permit that allows an individual to practice as an occupational therapist or occupational therapy assistant for up to 120 days or until notification of a failed examination. The provisions of this section will expire October 1, 2007.

Section 10 adds competency requirements to the renewal provisions of the Article.

Section 11 adds the following as grounds for suspension, revocation, or refusal to renew a license:

- Obtaining a license by means of fraud, misrepresentation, or concealment of material fact.
- Engaging in unprofessional conduct pursuant to rules established by the Board or violating the Code of Ethics adopted and published by the Board.
- Conviction of, or entering a plea of no contest to any crime that indicates the occupational therapist or assistant is unfit or incompetent to practice or has deceived or defrauded the public.
- Having an occupational therapy license revoked or suspended or other disciplinary action taken in North Carolina or another jurisdiction.
- Being unfit or incompetent to practice occupational therapy because of deliberate or negligent acts or omissions regardless of whether actual injury to a patient is established.

Section 12 increases the ceiling on the fee for limited permits from $35 to $50. This fee will expire on October 1, 2007.

Section 13 provides that any person who resides in another state or country, is unlicensed in North Carolina, and is performing any act described as the practice of occupational therapy pursuant to the provisions of this Article is regarded as practicing without a license.

Section 14 authorizes the Board to assess a civil penalty not to exceed $1000 for a violation of any provision of the act after considering the following:

- The nature, gravity and persistence of the particular violation.
- The appropriateness of the imposition of a civil penalty.
- Whether the violation was willful and malicious.
- Other factors that would mitigate or aggravate the violations found to exist.

Section 15 provides that the practice of occupational therapy by an occupational therapist or assistant licensed in another jurisdiction who comes to North Carolina on an irregular basis to consult about education and training with a North Carolina licensed therapist, occupational therapy assistant, or faculty at an academic facility is not restricted by the provisions of this Article.

Section 16 provides in uncodified language exceptions to term limits for current Board members in order to establish staggered terms.

Section 17 makes the act effective when it becomes law.

EFFECTIVE DATE: The bill is effective when it becomes law.

BACKGROUND: The North Carolina Board of Occupational Therapy created a task force with representatives from the North Carolina Occupational Therapy Association, universities, community colleges, rehabilitation facilities, hospital-based practice, home health, school based practice, and independent practice to review the North Carolina Occupational Therapy Practice Act established in 1983. The task force made efforts to achieve consistency with the model standard established by the American Occupational Therapy Association.

EFFECTIVE DATE: When law.

BILL SUMMARY: Senate Bill 208 amends the North Carolina Occupational Therapy Practice Act by creating statutory revisions and modifications to the provisions regulating the practice of occupational therapy. It also amends the NC Board of Occupational Therapy's fee schedule.

ASSUMPTIONS AND METHODOLOGY:

North Carolina Board of Occupational Therapy

The North Carolina Board of Occupational Therapy was created in 1985. Since its inception, the Board has licensed more than 6,000 occupational therapists to practice in North Carolina. There are currently about 2,200 occupational therapists working in North Carolina.

Currently a recent graduate can obtain a provisional license from the board. This provisional license applies after an applicant has completed the required course of study and necessary fieldwork, but before they take the examination. The provisional license can remain in effect for up to nine months. Sections 8 and 9 of the bill creates a new type of permit – a limited permit –

that allows an individual to practice as an occupational therapist assistant for up to 120 days or until notified of a failed examination. This replaces the provisional license.

University officials indicate that approximately 150 students each year graduate from the UNC system with a degree in occupational therapy. Some smaller portion of this amount, approximately 50-75 individuals, applies for a provisional license. The legislation sets a new fee of $50, which will replace the old provisional license fee of $35. Applying the $15 increase to 75 graduates suggests potential increased revenue to the Board of $1,125 annually.

Judicial Branch, Department of Correction, & County Jails

Practice of occupational therapy in North Carolina without a license, or in violation of Article 18D, Chapter 90 of the General Statutes, is a Class 1 misdemeanor. Because this bill changes the acts for which someone could be considered to be practicing without a license, it has the potential to increase Class 1 misdemeanor charges and convictions. However, we cannot determine whether any offenses would actually occur as a result of the changes. This bill:

(1) Makes changes to the reasons for which a license can be revoked or refused, and
(2) Expands the definition of practicing in North Carolina without a license to include, with certain exemptions, persons who reside in another state or foreign country and who, by use of electronic or other medium, perform any of the acts described as the practice of occupational therapy.

For any new charges and convictions under this bill, the courts, the Department of Correction (DOC), and county jails could incur additional costs. Each new Class 1 misdemeanor charge will cost the court system $3,224 if settled by trial or $284 if settled by plea. The majority of Class 1 misdemeanants (81 percent in FY 2003-04) receive non-active sentences; many of these offenders are supervised by the Division of Community Corrections (DCC) in the Department of Correction. On average, for each Class 1 conviction, DCC will incur annual costs of $164. Offenders sentenced to less than 90 days of active time serve that time in county jails; DOC reimburses counties for offenders who serve 30 to 90 days at a rate of $18 per day. (In 2003-04, 19 percent of Class 1 misdemeanants served active time, with an average sentence of 43 days.)

SB 208 – Amend Occupational Therapy Statutes

August 22, 2005

NC Occupational Therapy Association Briefing Points

- **SB 208** makes primarily technical changes to the Occupational Therapy Statutes as they relate to the operations of the Licensure Board. You will see changes in nomenclature – for example, references to the Accrediting Council for Occupational Therapy Education and National Board of Certification in Occupational Therapy, which did not exist in those forms 20 years ago when the current statute was enacted. Also, NC Board of Occupational Therapy's enforcement tools would be strengthened and certain sections that have become obsolete would be removed.

- **SB 208** would reestablish staggering of terms and term limits for the NC Board of Occupational Therapy members.

- **Key to this bill is the addition of a school systems representative to the Licensure Board.** Children frequently are receiving such therapy services – like speech, hearing and physical therapies -- through the school systems. The NC Board of Occupational Therapy wanted to be certain to have the interests of the fastest growing population served by practitioners – that is, children -- reflected on the licensure board.

- **SB 208 would rename and eventually phase out one type of temporary license.** Sections 8 and 9 deal with limited permits – currently, temporary licenses -- which enable recent graduates of OT programs to practice temporarily while they wait to take their licensure exams and report those results to the licensure board. Those exams are given more frequently and the results are available almost immediately. Consequently, the NC Board of Occupational Therapy would like to eliminate them by 2007. **The fee for these types of permits is raised from $35 to $50 until this type of permit expires in 2007**. This is to encourage OT graduates in the next couple of years to simply wait to enter the field until they take their exams and obtain the results.

- **Please support SB 208 with your "yes" votes.**

Minutes

~

August 23, 2005 – 11:45 p.m.

The House Committee on Finance met on Tuesday, August 23, 2005 at 11:45 p.m. around the desk of Chairwoman Howard on the floor of the House Chamber. The following members were present: Chairpersons Alexander, Howard, Luebke, and Wainwright; Vice-Chairs Daughtridge and Hill; and Representatives Bordsen, Carney, Dockham, Faison, Folwell, Holliman, Lewis, Rayfield, Underhill, and Wiley. Staff persons present included Cindy Avrette, Canaan Huie, and Martha Walston.

Chairwoman Howard called the meeting to order at 11:46 pm.

The sole bill considered by the Committee was **SB 868 – BILL LEE – MULTI-JURISDICTION INDUS. PARK** (see **attachment 1**). Representative Hill moved that the PCS for SB 868 be before the Committee for the purposes of discussion. The motion carried. Representative Brubaker was then recognized to explain the bill. He stated that the bill had been heard at the 8:30 am meeting of the Committee, however, an addition to the bill was needed, and, therefore, it was referred back to Committee for another hearing. He stated that the addition to the bill allows for a refund of excise tax on unsalable cigars, such as those that are stale or defective. He further stated that this refund was already provided for unsalable cigarettes, but cigars were inadvertently excluded in a bill passed during the 2004 session. Representative Luebke was then recognized and asked if there was a fiscal note on the bill. Representative Brubaker stated that he had requested a note from the fiscal staff, but that he was informed that the revenue loss was so small a note was not needed. Seeing no further discussion, the Chair recognized Representative Hill who moved that the PCS for SB 868 be given a favorable report, with an unfavorable report to the original committee substitute passed earlier in the day. The motion was then called to a vote, and it carried with no known objection.

As there was no further business before the Committee, Chairwoman Howard then adjourned the meeting at 11:49 pm.

Respectfully submitted,

Representative Julia Howard

House Committee on Finance

Minutes

~

August 24, 2005

The House Committee on Finance met on Wednesday, August 24, 2005, 10 minutes after the adjournment of the House in Room 544 of the Legislative Office Building. The following members were present: Chairpersons Gibson, Howard, Luebke, McComas, and Wainwright; Vice-Chairs Daughtridge, Hill, Ross, Weiss, and Womble; and Representatives B. Allen, Blust, Bordsen, Carney, Dockham, England, Faison, Folwell, Glazier, Goforth, Hackney, Holliman, Jones, Lewis, McGee, Underhill, Walend, and Wiley. Also present were Sergeant-at-Arms Bill Freeman, Fred Hines, Dusty Rhodes, and Walter Spell. Staff persons present included Cindy Avrette, Rodney Bizzell, Ashley Huffstetler, Canaan Huie, and Martha Walston. The Visitor Registration Sheets are attached and incorporated into these minutes as **attachment 1**.

Chairman Luebke called the meeting to order at 5:45 pm.

The first bill considered by the Committee was SB 774 – SEAT BELT USE ENHANCEMENTS (see **attachment 2**). Martha Walston from staff was recognized to explain the bill. She informed the members that the bill was part of a federal regulation requiring all occupants of a motor vehicle manufactured with seat belts to wear a seat belt when the vehicle is in forward motion. She noted that the bill would extend to commercial vehicle drivers and back seat passengers 16 years or older, who are currently not required to wear a seat belt, but not for drivers of property-carrying vehicles licensed for agricultural use. She also noted that failure of the State to enact the bill before October 1, 2007 could result in an annual loss of $5 million in federal transportation funding. Following this explanation, the Chair recognized Representative Howard who moved that SB 774 be given a favorable report.

Representative Lewis was then recognized and commented that the federal regulation required seat belts for commercial vehicle drivers but not back seat passengers as SB 774 does. He also stated that since the State did not have to be in compliance with the federal regulation prior to October 1, 2007, he did not understand the sense of urgency in passing the bill. Seeing no further discussion, Chairman Luebke then called Representative Howard's motion for a favorable report to a vote, and the motion carried.

The next bill under consideration by the Committee was HB 918 – FILM INDUSTRY JOBS INCENTIVES (see **attachment 3**). However, Representative Gibson was immediately recognized and moved that the Proposed Committee Substitute for HB 918 be before the Committee for discussion purposes. The motion carried. The PCS for HB 918 changed the title to: **STATE PORTS OPERATIONS**. Chairman Luebke then announced that the bill was before the Committee for discussion only and that no votes on the bill would be taken. Representative

McComas, the bill sponsor, was then recognized to explain the PCS. He explained that the bill provides that the State Ports Authority should avoid competition with private enterprise or the duplication of services available through private enterprise. He further stated that the bill provides that acquisitions and dispositions of real property by the State Ports Authority shall be subject to the provisions of Chapter 146 of the General Statutes. Representative McComas stated that the bill was one he would likely pursue in the 2006 short session and wanted to bring it to the members' attention. Following some general discussion on the PCS, Representative McComas thanked the members for their attention to the bill

HB 947 – LOCAL TAX FOR PUBLIC SCHOOLS/COMMUNITY COLLEGES-II (see **attachment** 4) was the last bill considered by the Committee. Representative Hill moved for the adoption of the PCS for the purposes of discussion, and the motion carried. The Chair then recognized Representatives Gibson and Daughtridge to explain the bill. Representative Daughtridge noted that the PCS for HB 947 was another bill allowing counties to enact an additional half-cent sales tax, if approved by referendum, to be used for public school capital outlay and community college plant fund purposes. Following this explanation, Representative Gibson was recognized to send forth an amendment (see **attachment 5**) removing Macon and Brunswick Counties from the bill and adding the following counties: Bladen, Carteret, Edgecombe, Wayne, and Wilson. Representative Gibson moved for the adoption of the amendment. Seeing no further discussion, Chairman Luebke then called the Gibson amendment to a vote, and it was adopted.

The Chair then recognized Representative Jones to send forth and move the adoption of an amendment adding the County of Guilford to the bill (see **attachment 6**). Prior to acting on the motion, however, the Chair recognized Representative Blust who asked Representative Jones what support from local Guilford County officials he had received on the bill. Representative Jones replied that he had spoken with the Chairman of the Guilford County Board of Commissioners immediately before the meeting and received a request that Guilford County be added to the bill. He also noted that a majority of the Guilford County delegation supported the addition of Guilford to the bill. Representative Blust then stated that the Committee should not be considering this large of a policy issue this late in the session.

Representative Underhill was then recognized and reminded the members that just because this bill allows counties to consider raising the sales tax an additional half-cent, does not mean that they necessarily will. Seeing no further discussion on the Jones amendment, Chairman Luebke then called it to a vote, and the amendment was adopted.

Representative Folwell was then recognized by the Chair to send forth an amendment (see **attachment** 7). He explained that the amendment removed Forsyth County from the list of counties in the bill. He informed the members that a majority of the Forsyth County delegation opposed Forsyth County being listed in the bill. He also stated that he had conferred with the Forsyth County Board of Commissioners who stated that they did not request and do not wish to be included in the bill. He then moved adoption of the amendment. Representative Womble, however, was recognized to speak against the amendment. He stated that he had spoken with the County Manager in Forsyth County as well as School Board members and a County Commissioner who all expressed the need for the additional half-cent tax for Forsyth County's schools and community colleges. The Chair recognized Representative McGee next who supported the amendment echoing Representative Folwell's earlier comments. As there was no further discussion, Chairman Luebke then called the Folwell motion to a vote. Division having been requested, the amendment failed by a vote of 9 ayes to 11 nays.

Chairman Luebke then recognized Representative Daughtridge who offered another amendment (see **attachment 8**). He explained that the amendment added the Counties of Alexander and Catawba to the bill and stated that the amendment came at the request of the members for those counties, Representatives Setzer and Hilton. As there was no discussion, the Chair called the amendment to a vote, and it was adopted.

Representative Womble then moved that a new PCS for HB 947 , incorporating the adopted amendments, be given a favorable report, with an unfavorable report as to the original bill. Before acting on the motion however, the Chairman Luebke recognized Representative Stam to speak on the bill. Representative Stam, although not a Committee member, expressed his concern with the inclusion of Wake County in the bill. He stated that the Wake delegation had been split on this issue, the first division among the delegation in a number of years. Representatives Ross and Allen, however, countered Representative Stam's comments by informing the Committee that the School Board and County Commissioners of Wake County were in support of this issue.

Following this discussion, Representative Wainwright was recognized to send forth a final amendment (see **attachment 9**). He stated simply that the amendment added Jones County to the list counties contained in the bill, and then moved for its adoption. Seeing no debate, the Chair then brought the amendment to a vote, and it was adopted.

Representative Womble then reiterated his earlier motion for a favorable report as to a new PCS incorporating all of the adopted amendments. Seeing no further discussion, Chairman Luebke then called the motion to a vote, and it carried by a majority.

Having no further business before the Committee, Chairman Luebke then adjourned the meeting at 6:30 pm.

Respectfully submitted,

Paul Luebke

SECTION 2. This act becomes effective December 1, 2005, and applies to offenses committed on or after that date.

SENATE BILL 774:
Seat Belt Use Enhancements

BILL ANALYSIS

Committee:	Rules, Calendar, and Operations of the House	**Date:**	August 24, 2005
Introduced by:	Sen. Purcell	**Summary by:**	Martha Walston
Version:	Third Edition		Committee Counsel

SUMMARY: Senate Bill 774, a recommendation of the Executive Committee for Highway Safety, would require all vehicle occupants to wear a seatbelt while the vehicle is in forward motion.

CURRENT LAW: G.S. 20-135.2A requires front seat passengers who are at least 16 years old and drivers of passenger motor vehicles to wear a seat belt when the vehicle is moving forward on a street or highway. Certain vehicles, including commercial vehicles and licensed property-carrying vehicles being used for farm or agricultural purposes, are exempt from this requirement. Violation is an infraction, punishable by a penalty of $25.00 plus court costs of $50.00.[1] No insurance surcharges or drivers license points may be assessed.

In addition, G.S. 20-137.1 requires drivers who are transporting passengers under 16 years old to have those passengers secured in a child restraint system or seat belt that meets federal standards. This law does not apply (i) to emergency vehicles, (ii) when attending to a child's personal needs, (iii) if all seating positions equipped with restraint systems or seat belts are occupied, or (iv) to vehicles that are not required by federal law or regulation to be equipped with seat belts. A driver who violates this law may be fined up to $25.00. Two drivers license points and no insurance points will be assessed.

The Division of Motor Vehicles may suspend a drivers license when a person accumulates 12 or more drivers license points within a three-year period or 8 or more of these points during a three-year period immediately following the reinstatement of a license that has been suspended or revoked.

BILL ANALYSIS: Senate Bill 774 would require all occupants of a motor vehicle manufactured with seat belts to wear a seat belt when the vehicle is in forward motion. This would extend to commercial vehicle drivers and back seat passengers 16 years or older, who are currently not required to wear a seat belt, but not to drivers of property-carrying vehicles licensed for agricultural use.

EFFECTIVE DATE: This act would become effective December 1, 2005, and would apply to offenses occurring on or after that date.

BACKGROUND: Federal regulations require that drivers of commercial motor vehicles wear seat belts. States with incompatible laws or regulations are not eligible for Basic Program Funds or Incentive Funds. Therefore, if North Carolina does not change its law to comply with this federal regulation by October 1, 2007, it stands to lose approximately $5 million in federal motor carrier funds.

S0774e3-SMLA

[1] Effective September 1, 2005, the court costs for failure to wear a seat belt will be $75.00. (Section 43.1(g) of S.L. 2005-276)

This would extend to commercial vehicle drivers and to back seat passengers 16 years or older, who are currently not required to wear a seat belt, but not to drivers of property-carrying vehicles licensed for agricultural use.

ASSUMPTIONS AND METHODOLOGY: The major fiscal impact of SB 774 is the potential loss of an estimated $5 million per year in federal Motor Carrier Safety Administration funding if the State does not require the use of seat belts by the driver in commercial vehicles. The loss of funding would begin in fiscal year 2007-08.

There may also be an increase in the number of seat belt infractions as the seat belt requirement is expanded, but no estimate is available on the size of the increase. The Administrative Office of the Courts reports that in 2004 there were approximately 160,000 defendant-drivers and 2,600 defendant-passengers charged under G.S. 20-135.2A with infractions for failure to wear a seat belt.

Relevant Federal Law:	*49 CFR §392.16 and 49 CFR §350.331*
☐ Required by or Necessary for Compliance with Federal Law	☐ Exceeds Federal Law
☒ Federal Funds Conditioned upon Passage of Law	☒ Implements Federal Law

SUMMARY OF BILL PROVISIONS ALLEGEDLY REQUIRED BY FEDERAL LEGISLATION

Section 1 of Senate Bill 774 require all vehicle occupants to wear a seat belt while the vehicle is in forward motion. Under current North Carolina law, drivers of commercial vehicles are exempt from the mandatory seat belt law. (G.S. 20-135.2A(c)). In October 2004, the State was notified by the federal Motor Carrier Safety Division Administrator that it was not in compliance with the federal regulation regarding seat belts for commercial drivers. If the State is not in compliance with this federal regulation by September 31, 2007, it will lose approximately five million dollars ($5,000,000) in federal motor carrier funds, which provide about 80% of the funding for the State Highway Patrol Division of Crime Control and Public Safety.

COMPLIANCE CONSIDERATIONS

49 CFR §392.16 states the following:

"A commercial motor vehicle which has a seat belt assembly installed at the driver's seat shall not be driven unless the driver has properly restrained himself/herself/ with the seat belt assembly."

49 CFR §350.331(d) requires that as soon as practical after the effective date of any newly enacted regulation or amendment to the federal motor carrier safety regulation, but no later than three years after that date, the State must amend it s laws or regulations to make them compatible with the FMCSRs. 49 CFR §350.335(b) states that fails to adopt any new regulation or amendment to comply with the FMCSRs within three years of its effective date will be deemed to have incompatible regulations and will not be eligible for Basic Program Funds or Incentive Funds.

A BILL TO BE ENTITLED

AN ACT TO AUTHORIZE CERTAIN COUNTIES TO LEVY ONE-HALF CENT LOCAL SALES AND USE TAXES FOR PUBLIC SCHOOL CAPITAL OUTLAY PURPOSES AND COMMUNITY COLLEGE PLANT FUND PURPOSES, IF APPROVED BY THE VOTERS OF THE COUNTIES.

The General Assembly of North Carolina enacts:

SECTION 1. This act applies to Beaufort, Brunswick, Camden, Columbus, Craven, Currituck, Forsyth, Granville, Halifax, Jackson, Johnston, Lenoir, Macon, Mecklenburg, Montgomery, Nash, Pamlico, Pasquotank, Pender, Richmond, Sampson, Stanley, Swain, Tyrell and Wake counties only.

SECTION 2. Subchapter VIII of Chapter 105 of the General Statutes is amended by adding a new Article to read:

"Article 46.

"Fourth One-Half Cent (1/2¢) Local Government Sales and Use Tax.

"**§ 105-535. Short title.**

This Article is the Fourth One-Half Cent (1/2¢) Local Government Sales and Use Tax Act.

"**§ 105-536. Limitations.**

This Article applies only to counties that levy the first one-cent (1¢) local sales and use tax under Article 39 of this Chapter or under Chapter 1096 of the 1967 Session Laws, the first one-half cent (1/2¢) local sales and use tax under Article 40 of this Chapter, the second one-half cent (1/2¢) local sales and use tax under Article 42 of this Chapter, and the third one-half cent (1/2¢) local sales and use tax under Article 44 of this Chapter.

"**§ 105-537. Levy.**

(a) Authority. – If the majority of those voting in a referendum held pursuant to this Article vote for the levy of the taxes, the board of commissioners of the county

may, by resolution, levy one-half percent (1/2%) local sales and use taxes in addition to any other State and local sales and use taxes levied pursuant to law.

(b) Vote. – The board of commissioners of a county may direct the county board of elections to conduct an advisory referendum on the question of whether to levy local one-half percent (1/2%) sales and use taxes in the county as provided in this Article. The election shall be held on a date jointly agreed upon by the two boards and shall be held in accordance with the procedures of G.S. 163-287.

(c) Ballot Question. – The form of the question to be presented on a ballot for a special election concerning the levy of the taxes authorized by this Article shall be:

'[ ] FOR [ ] AGAINST

One-half percent (1/2%) local sales and use taxes, in addition to the current local sales and use taxes, to be used only for public school capital outlay purposes or community college plant fund purposes.'

"**§ 105-538. Administration.**

Except as provided in this Article, the adoption, levy, collection, administration, and repeal of the additional taxes authorized by this Article shall be in accordance with Article 39 of this Chapter. A tax levied under this Article does not apply to the sales price of food that is exempt from tax pursuant to G.S. 105-164.13B.

"**§ 105-539. Distribution and use.**

(a) Distribution. – The Secretary shall, on a monthly basis, distribute to each taxing county the net proceeds of the tax collected in that county under this Article. If the Secretary collects taxes under this Article in a month and the taxes cannot be identified as being attributable to a particular taxing county, the Secretary shall allocate these taxes among the taxing counties in proportion to the amount of taxes collected in each county under this Article in that month and shall include them in the monthly distribution.

(b) Use. – Counties may use the proceeds of a tax levied under this Article only for public school capital outlay purposes as defined in G.S. 115C-426(f) or for community college plant fund purposes as defined in G.S. 115D-32 and to retire indebtedness incurred by the counties for these purposes.

(c) Nonsupplant Restriction. – It is the purpose of this Article for counties to appropriate funds generated under this Article to increase the level of county spending for public school capital outlay purposes and community college plant fund purposes above the level of spending before the levy of the tax authorized in this Article. A county that levies a tax under this Article must continue to spend for public school capital outlay and community college plant fund purposes the same amount of money it would have spent for those purposes if it had not levied the tax."

SECTION 3. A tax levied under Article 46 of Chapter 105 of the General Statutes, as enacted by this act, does not apply to construction materials purchased to fulfill a lump-sum or unit-price contract entered into or awarded before the effective date of the levy or entered into or awarded pursuant to a bid made before the effective date of the levy when the construction materials would otherwise be subject to the tax levied under Article 46 of Chapter 105 of the General Statutes.

SECTION 4. This act is effective when it becomes law.

HOUSE BILL 947:
Local Taxes for Public Schools/Comm Colleges-II

BILL ANALYSIS

Committee:	House Finance	**Date:**	August 24, 2005
Introduced by:	Reps. Owens, Gibson, and Daughtridge	**Summary by:**	Ashley Huffstetler
Version:	PCS to 2nd edition		Committee Counsel

SUMMARY: ***The PCS to House Bill 1050 authorizes Beaufort, Brunswick, Camden, Columbus, Craven, Currituck, Forsyth, Granville, Halifax, Jackson, Johnston, Lenoir, Macon, Mecklenburg, Montgomery, Nash, Pamlico, Pasquotank, Pender, Richmond, Sampson, Stanley, Swain, Tyrell and Wake counties to levy one-half cent local sales and use taxes, if approved by a referendum of the voters of the counties. The proceeds of the tax are to be used only for public school capital outlay purposes and for community college plant fund purposes.***

CURRENT LAW: The General Assembly has previously authorized the levy of three one-half cent local sales and use taxes, in addition to a one-cent local sales and use tax authorized in 1971. Previous local sales taxes have given the local governments two options for levying the tax: (1) by vote of the people in a special election, and (2) by vote of the county commissioners, by resolution and after ten days' public notice and a public hearing.

All counties in North Carolina currently levy local sales taxes at a rate of at least 2.5% (the maximum allowed under current law for all counties other than Mecklenburg and Dare).

BILL ANALYSIS: The PCS to House Bill 947 authorizes Beaufort, Brunswick, Camden, Columbus, Craven, Currituck, Forsyth, Granville, Halifax, Jackson, Johnston, Lenoir, Macon, Mecklenburg, Montgomery, Nash, Pamlico, Pasquotank, Pender, Richmond, Sampson, Stanley, Swain, Tyrell and Wake counties to hold referendums on the issue of whether to levy additional one-half cent local sales taxes to be used only for public school capital outlay and community college plant fund purposes. The taxes will be administered as is the current first one-half cent local sales tax in Article 39 of the General Statutes. The fourth one-half cent local sales tax does not apply to the sales price of food that is currently exempt from tax.

EFFECTIVE DATE: This act is effective when it becomes law.
