SENATE BILL 1057:
Sales Tax Incentives for Certain Plane Parts

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	July 21, 2009
Introduced by:	Sen. Dorsett	**Prepared by:**	Heather Fennell Committee Counsel
Analysis of:	PCS to First Edition S1057-CSRB-53		

SUMMARY: ***The proposed committee substitute for Senate Bill 1057 would expand the sales tax exemption for aircraft simulators.***

[As introduced, this bill was identical to H869, as introduced by Reps. Jeffus, Gibson, Jones, Tillis, which is currently in House Commerce, Small Business, and Entrepreneurship, if favorable, Finance.]

CURRENT LAW: G.S. 164.13(45) provides a sales tax exemption for sales of the following items to an interstate passenger air carrier for use at its hub:

- Aircraft lubricants, aircraft repair parts, and aircraft accessories.
- Aircraft simulators for flight crew training.

BILL ANALYSIS: The proposed committee substitute to Senate Bill 1057 would extend the sales tax exemption to all flight simulators.

EFFECTIVE DATE: This act is effective October 1, 2009, and applies to sales made on or after that date.

BACKGROUND: In 1999, a sales tax reduction from 6% to 1% with an $80 cap was given to passenger air carriers for purchases of aircraft simulators for flight crew training used at the air carrier's hub. The tax reduction also applied to interstate air couriers.

In 2005, the sales tax reduction was repealed and a sales tax exemption was provided for certain items, including aircraft simulators for flight crew training, for sales to an interstate passenger air carrier for use at its hub.

The proposed changes to the sales tax exemption have been requested as part of a development project for the Piedmont Triad International Airport. The Project seeks to promote creation of a flight training hub in the area by extending the credit to all flight simulators.

EFFECTIVE DATE: July 1, 2009

BILL SUMMARY: This legislation expands eligibility for the sales and use tax exemption under G.S. 105-164.13(45). The existing statute allows interstate passenger air carriers to purchase

"aircraft lubricants, aircraft repair parts, and aircraft accessories" as well as "aircraft simulators for flight crew training" for use at their hubs as tax exempt items. SB 1057 removes the language allowing the exemption to only apply to interstate air passengers, which in turn makes all purchasers of the aforementioned aircraft parts eligible for a sales and use tax exemption.

ASSUMPTIONS AND METHODOLOGY: SB 1057 would reduce General Fund availability by $0.129 million during the 2009-10 fiscal year. Expanding the sales and use tax exemption to all purchases of aircraft simulators, represents a $129,000 annual reduction in General Fund availability.

The Proposed Committee Substitute for SB 1057 modifies G.S. 105-164.13 (45), expanding the sales and use tax exemption originally limited to the sales of aircraft simulators for flight crew training occurring at an air courier's hub, to all simulator purchases. In 1998 and 1999, during the enactment and modification of the Bill Lee Act, Fiscal Research assumed that roughly $10 million dollars in aircraft simulator sales occurred in the state annually. The 1998-99 legislation enacted a 12,500 pound weight requirement restricting the sales and use tax exemption to 80%, or $8 million, of the aircraft sales in the state.

Fiscal Research estimated that 79.8% of total flight simulator sales are covered by the existing tax exemption in G.S. 105-164.13 (45). Expanding this exemption to all purchasers would reduce General Fund availability by an additional $95,000 (in 1999 dollars) ($8.0 million in exempt sales divided by 79.8% (those currently exempted) equals $ 10 million in total sales * 20.2% (additional exemption) equals $2 million in currently taxed sales). Multiplying the $2 million in simulator sales by 4.75%, the 2009-10 State sales and use tax rate, and indexing the figure for an average annual inflation rate of 2.73%, equals $129,000 in 2009 dollars. The reduction in local sales and use tax revenue equals roughly 42% of the General Fund reduction (4.75%--the State sales and use tax rate divided by 2%--the local sales and use tax rate). Exempting aircraft simulators will decrease local sales and use tax revenue by $53,800 during the 2009-10 fiscal year.

SOURCES OF DATA: Conversations with pilots and military personnel, and their review of aircraft documents, suggested that the 12,500-pound weight limit effectively excluded most general aviation aircraft from the exemption. According to the Federal Aviation Administration's (FAA) Administrator's March 2004 Fact Book, approximately 79.8% of all licensed aircraft in the state are non-general aviation. Data from November 2008 Fact Book on Aviation Forecasts and FAA facility workloads suggest that the 79.8% non-general aviation ratio still holds true.

[As introduced, this bill was identical to S892, as introduced by Sen. Atwater, which is currently in Senate Ref to Health Care. If fav, re-ref to Finance.]

BILL ANALYSIS:

Section 1: Adds a new Article 39A to Chapter 90 of the General Statutes, the Polysomnography Practice Act.

G.S. 90-677.1 sets forth definitions of terms used in the act, including the definition of "polysomnography," the "Board of Registered Polysomnographic Technologists" (BRPT), and "registered polysomnographic technologist." Polysomnography is defined as an allied health specialty involving the process of attended and unattended monitoring, analysis, and recording of physiological data during sleep and wakefulness to assist in the assessment of sleep and wake disorders and dysfunctions that are sleep related. The BRPT is the credentialing organization for registered polysomnographic technologists. A "registered polysomnographic technologist" is a person credentialed by the Board.

G.S. 90-677.2 defines the practice of polysomnography to include:

- Monitoring and recording physiological data during the evaluation of sleep-related disorders through listed procedures, techniques, and equipment.
- Observing and monitoring physical signs and symptoms, general behavior and physical response to polysonmographic evaluation and determining treatment regimens based on protocols and physician order.
- Analyzing and scoring data collected during monitoring.
- Implementing physician orders that require the practice of polysomnography.
- Patient education regarding sleep disorders and polysomnography.

Except for the scoring of data and patient education, the practice of polysomnography shall take place in a hospital, sleep laboratory or clinic or in the patient's home.

[1] The Board of Registered Polysomnographic Technologists is an independent nonprofit certification Board, it is not a State Board.

G.S. 90-677.3 makes it unlawful, on or after January 1, 2012, to practice polysomnography, or to represent that one is credentialed to practice unless the person is listed with the Medical Board. Complaints and investigations of violations of the Article shall be directed to and conducted by the Board. The practice of polysomnography without listing with the Medical Board is a Class 1 misdemeanor, and a court may issue an injunction or restraining order to prevent further violations.

G.S. 90-677.4 lists the exemptions to the Article. Exemptions include:

- Persons registered, credentialed or licensed to engage in another profession or occupation, or person working under the supervision of such a person, if the person is performing work incidental to or within the scope of practice of that profession or occupation and the person does not represent themselves to be a registered polysomnographic technologist.
- A person employed by the federal government when performing their government duties.
- Research investigations that monitor physiological parameters during sleep/wakefulness provided the research investigations have been approved by an institutional review board, follow conventional safety measures, and are not obtained/used for the practice of clinical medicine.
- A licensed physician, physician's assistant, or nurse practitioner.
- A student in a polysomnographic education program if the activities are part of the student's course of study, are performed under direct supervision, and the student adheres to post training examination guidelines established by the Board.

G.S. 90-677.5 requires a person to file a copy of their Board credentialing document with the Medical Board and pay a $50 fee. This is an annual fee. The Medical Board is to develop a form for applicants seeking to file and may require electronic filing and electronic fee payment.

The Medical Board is to maintain a listing of all current registered polysomnographic technologists. Fees are to used to pay the costs incurred in administering the Article. The Board shall notify the Medical Board when a person's credentials have been revoked or are no longer in effect and the Medical Board shall promptly amend the listing.

Listings automatically expire on September 30 each year. Listings must be renewed annually by filing a new listing form, credential verification and payment of the filing fee.

Section 2: Directs the North Carolina Medical Board, within 6 months of the effective date of the act, to identify the standards of physician supervision of persons registered to practice as registered polysomnographic technologists. The Medical Board shall communicate those standards to all licensed physicians in the State.

EFFECTIVE DATE: The act becomes effective October 1, 2009.

BILL SUMMARY:

Section 1 of House Bill 819 adds a new Article 39A to Chapter 90 of the General Statutes, the Polysomnography Practice Act.

G.S. 90-677.1 sets forth definitions of terms used in the act, including the definition of "polysomnography", the "Board of Registered Polysomnographic Technologists" (BRPT), and "registered polysomnographic technologist". Polysomnography is defined as an allied health specialty involving the process of attended and unattended monitoring, analysis, and recording of physiological data during sleep and wakefulness to assist in the assessment of sleep and wake disorders and dysfunctions that are sleep related. The BRPT is the credentialing organization for registered polysomnographic technologists. A "registered polysomnographic technologist" is a person credentialed by the Board.

G.S. 90-677.2 defines the practice of polysomnography to include:

- Monitoring and recording physiological data during the evaluation of sleep-related disorders through listed procedures, techniques, and equipment.
- Observing and monitoring physical signs and symptoms, general behavior and physical response to polysomnographic evaluation and determining treatment regimens based on protocols and physician order.
- Analyzing and scoring data collected during monitoring.
- Implementing physician orders that require the practice of polysomnography.

- Patient education regarding sleep disorders and polysomnography.

Except for the scoring of data and patient education, the practice of polysomnography shall take place in a hospital, sleep laboratory or clinic or in the patient's home.

G.S. 90-677.3 makes it unlawful, on or after January 1, 2012, to practice polysomnography, or to represent that one is credentialed to practice unless the person is listed with the Secretary of State. Complaints and investigations of violations of the Article shall be directed to and conducted by the Board. The practice of polysomnography without listing with the Secretary is a Class 1 misdemeanor, and a court may issue an injunction or restraining order to prevent further violations.

G.S. 90-677.4 lists the exemptions to the Article. Exemptions include:

- Persons registered, credentialed or licensed to engage in another profession or occupation, or person working under the supervision of such a person, if the person is performing work incidental to or within the scope of practice of that profession or occupation and the person does not represent themselves to be a registered polysomnographic technologist.
- A person employed by the federal government when performing their government duties.
- Research investigations that monitor physiological parameters during sleep/wakefulness provided the research investigations have been approved by an institutional review board, follow conventional safety measures, and are not obtained/used for the practice of clinical medicine.
- A licensed physician, physician's assistant, or nurse practitioner.
- A student in a polysomnographic education program if the activities are part of the student's course of study, are performed under direct supervision, and the student adheres to post training examination guidelines established by the Board.

G.S. 90-677.5 requires a person to file a copy of their Board credentialing document with the Secretary of State and pay a $50 fee. This is an annual fee. The Secretary is to develop a form for applicants seeking to file and may require electronic filing and electronic fee payment.

The Secretary is to maintain a listing of all current registered polysomnographic technologists. Fees are to be used to pay the costs incurred in administering the Article. The Board shall notify the Secretary when a person's credentials have been revoked or are no longer in effect and the Secretary shall promptly amend the listing.

Listings automatically expire on September 30 each year. Listings must be renewed annually by filing a new listing form, credential verification and payment of the filing fee.

Section 2 of House Bill 819 directs the North Carolina Medical Board, within 6 months of the effective date of the act, to identify the standards of physician supervision of persons registered to practice as registered polysomnographic technologists. The Medical Board shall communicate those standards to all licensed physicians in the State.

ASSUMPTIONS AND METHODOLOGY:
House Bill 819 makes it unlawful for a person to practice polysomnography, or to imply that they are credentialed to practice polysomnography, unless the person has filed a copy of their

credentials as a registered polysomnologist from the Board of Registered Polysomnographic Technologists (BRPT) with the Secretary of State and paid an annual $50 filing fee by January 1, 2012. However, the Secretary of State's office will not list an individual as a certified polysomnologist until they have filed their credentials. According to the Board of Registered Polysomnographic Technologists, the Board currently certifies 515 polysomnologists in North Carolina. Individuals practicing polysomnography are not currently required to be certified by the Board. Therefore, this number likely underestimates the number of polysomnologists practicing in the state. According to the NC Respiratory Care Board, approximately 40 new polysomnologists begin practicing each year. House Bill 895 will result in an increase in revenues equal to the number of polysomnologists multiplied by the $50 filing fee. Assuming most individuals will want their names listed with the Secretary of State as soon as possible, this will result in at least a $25,750 revenue increase in FY 2009-10. The expected increase in the number of practicing polysomnologists each year will cause this revenue increase to grow by an additional $2,000 in FY 2010-11 and each of the years following. While the bill makes other changes, they are not expected to generate a significant fiscal impact.

A BILL TO BE ENTITLED

AN ACT TO MAKE CERTAIN MODIFICATIONS TO AND EXTEND THE SUNSET OF THE JOB DEVELOPMENT INVESTMENT GRANT PROGRAM.

The General Assembly of North Carolina enacts:

"**§ 143B-437.52. Job Development Investment Grant Program.**

(a) Program. – There is established the Job Development Investment Grant Program to be administered by the Economic Investment Committee. In order to foster job creation and investment in the economy of this State, the Committee may enter into ~~negotiated~~ agreements with businesses to provide grants in accordance with the provisions of this Part. The Committee, in consultation with the Attorney General, shall develop criteria to be used in determining whether the conditions of this section are satisfied and whether the project described in the application is otherwise consistent with the purposes of this Part. Before entering into an agreement, the Committee must find that all the following conditions are met:

(1) The project proposed by the business will create, during the term of the agreement, a net increase in employment in this State by the business.

(2) The project will benefit the people of this State by increasing opportunities for employment and by strengthening this State's economy by, for example, providing worker training opportunities, constructing and enhancing critical infrastructure, increasing development in strategically important industries, or increasing the State and local tax base.

(3) The project is consistent with economic development goals for the State and for the area where it will be located.

(4) A grant under this Part is necessary for the completion of the project in this State.

(5) The total benefits of the project to the State outweigh its costs and render the grant appropriate for the project.

(b) Cap. – The maximum number of ~~agreements~~ grants the Committee may ~~enter into~~award in each calendar year is 25.

(c) Ceiling. – ~~Except as provided in this section, the~~The maximum amount of total annual liability for grants ~~for agreements entered into~~awarded in any single calendar year, including amounts transferred to the Utility Account pursuant to G.S. 143B-437.61, may not exceed fifteen million dollars ($15,000,000). ~~The maximum amount of total annual liability for grants for agreements entered into in 2006, including amounts transferred to the Utility Account pursuant to G.S. 143B-437.61, may not exceed thirty million dollars ($30,000,000).~~ No agreement may be entered into that, when considered together with other existing agreements ~~entered into~~ governing grants awarded during ~~that~~ a single calendar year, could

cause the State's potential total annual liability for grants ~~entered into~~ awarded in ~~that~~ a single calendar year to exceed this amount.

(d) Measuring Employment. – For the purposes of subdivision (a)(1) of this section and G.S. 143B-437.51(5), 143B-437.51(7), and 143B-437.57(a)(11), the Committee may designate that the increase or maintenance of employment is measured at the level of a division or another operating unit of a business, rather than at the business level, if both of the following conditions are met:

(1) The Committee makes an explicit finding that the designation is necessary to secure the project in this State.

(2) The agreement contains terms to ensure that the business does not create eligible positions by transferring or shifting to the project existing positions from another project of the business or a related member of the business."

(1) If the business is still within the base period established by the Committee, the Committee shall withhold the grant payment for any consecutive year after the second consecutive year remaining in the base period in which the business fails to comply with any condition of the agreement, and the Committee may extend the base period for up to 24 additional months. Under no circumstances may the Committee extend the base period by more than a total of 24 months. HOUSE BILL 1516:
JDIG Technical Modifications

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	July 22, 2009
Introduced by:	Reps. Crawford, Dickson, Gibson	**Prepared by:**	Heather Fennell Committee Counsel
Analysis of:	Second Edition		

SUMMARY: ***House Bill 1516 makes clarifying and technical changes to JDIG and extends the sunset of the program to 2016.***

CURRENT LAW: In 2002, the General Assembly created a new economic development tool for new and expanding businesses in North Carolina, the Job Development Investment Grant (JDIG) Program. JDIG is used to attract businesses to the State by allowing a five-member committee to award grants to businesses. The grants may be awarded over as many as 12 years and the amounts of the grants are based on income tax withholdings from new jobs created by the businesses. The committee may enter into no more than 25 agreements per calendar year and may commit no more than $15 million in any fiscal year under all agreements entered into during a single calendar year.[1] When the General Assembly created the program it imposed a two-year sunset on the authority of the committee to enter into new grant agreements. The General Assembly has voted to extend this sunset three times since its enactment (S.L. 2004-124, S.L. 2005-241, S.L. 2006-168).

BILL ANALYSIS:

Section 1: Makes the following clarifying and technical changes to the program:

- Clarifies that the JDIG program awards grants, and that the Program may entered into agreements with businesses to provide grants.
- Removes language that refers to the cap on annual grants for the year 2006.
- Clarifies that a business may apply for grants that include performance by related members of the business in one consolidated application.

Section 2: Clarifies the annual report of the JDIG program shall include, in addition to the existing requirements, the following:

1. The annual maximum State liability under the grant and the maximum total lifetime State liability under the grant.
2. The wage levels of jobs created by projects that received grants, listed in increments of $10,000. Previously the wage levels were reported in increments of $5,000.
3. Reports subsequent to the first report must identify of any changes in criteria developed to implement the program.
4. Clarifies that report lists the awards given to both new and existing businesses.

Section 3: Clarifies required terms of each grant agreement in the following ways:

1. The grant amount or term must be reduced if a grantee fails to comply with the agreement.

[1] Originally, the committee was limited to 15 agreements per year with a total cost not to exceed $10 million in any fiscal year for agreements entered into in any one year. These amounts were increased to $15 million in 2004. The amount was increased in 2006 to $30 million for that fiscal year only.

2. Agreements are binding unless all amendments as well as the initial agreement, is terminated.
3. Reductions in agreements must be proportional to the failure to comply with the agreements.

Section 4: Clarifies that the grantees must provide annual reports showing withholding as well as identifying positions created during the year that remained filled at the end of the year.

Section 5: Clarifies that grants may be both reduced and terminated for grantees that fail to comply with the agreement. Provides the procedure by which a grant can be reduced.

Section 6: Extends the sunset of the program from 2010 to 2016.

EFFECTIVE DATE: This act is effective when it becomes law.

H1516-SMRB-44(e2) v1

HOUSE BILL 1516
JDIG Technical Modifications/Extension to 2016

Proposed JDIG Technical Changes/Sunset Extension (N.C. Department of Commerce)

- ***Removes reference to "negotiated" agreements*** – The form of the basic agreement must be standard for all grantees. Having the term, "negotiated" in the statute has led grantees to believe they may negotiate the terms required by the State; this language clarifies the General Assembly's original intent.

- ***Changes certain existing references to "agreements" to "grants"*** – "Agreements" reflecting grant terms are typically entered in the year of award or in the following year (particularly when a grant is made at the end of the year), so it would be more accurate to use the term "grants" to reflect what the program does and to conform with the reports of grants made to the General Assembly, which have always been based on grants awarded.

- ***Grants including related members*** – These changes clarify that the Economic Investment Committee considers applications that "include performance by" a grantee's related member (affiliate), rather than "on behalf of" a related member. The purpose is to make it clear that that the grantee is not the legal representative of the related member and that the related member has no legal right to grant payments. Only the grantee has a right to a grant payment.

- ***Method for reducing grants upon default*** – The current method requires EIC approval of a formal amendment to the grant agreement, which then must be executed by multiple parties involved, which can take some time. This change would streamline the process and allow the EIC and its staff to more efficiently to handle default situations. In addition, the change would provide for a reduced payment due to default in the payment for the year in which the default occurred, rather than the following year.

  Clarifying reporting requirements – These changes reflect actual useful wage increments reported; identify changes to criteria in reports; correct grantee annual report requirements to reflect the company's report of jobs that exist on December 31 of a grant year, which were created during the base period *(and not those created the previous calendar year)*, clarify the grant agreement is binding as it may be amended *(rather than existing language that says it is binding unless amended)*; and general clarify language that has been subject to different interpretations.

- ***Extension of JDIG Sunset*** **to Jan. 1, 2016** – This is a valuable program for attracting new businesses and helping existing North Carolina businesses expand, providing good jobs and capital investment here. The State's ability to retain and recruit jobs would be enhanced by demonstrating the State's strong and ongoing commitment to the JDIG program. Over 12 thousand jobs have been created by this program.

TOTAL WITHHOLDINGS OF JDIG PROJECT-RELATED JOBS	$68,220,722	100%
LESS: COMPANY PAYMENTS (Over 12,000 jobs)	$25,013,816	37%

* The State's Industrial Development Fund (IDF) provides grants to local municipal or county government applicants located in the State's 65 most economically distressed counties. When a JDIG is awarded to one of the state's more prosperous counties, a percentage of the grant amount is allocated to IDF/Utility to assist with infrastructure needs in the less prosperous counties.

HOUSE BILL 311:
Continue School Construction Funding

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	July 22, 2009
Introduced by:	Reps. Yongue, Glazier, Johnson, Wainwright	**Prepared by:**	Heather Fennell Committee Counsel
Analysis of:	First Edition		

SUMMARY: ***HB 311 makes permanent the requirement that a certain percentage of revenue from local sales and use taxes remain designated for public school capital outlay purposes or related debt retirement, by eliminating the sunsets on those requirements.***[1]

CURRENT LAW:

First ½ Percent Sales and Use Tax: Article 40 of Chapter 105 provides counties which levy a one percent (1%) sales and use tax the authority to levy an additional one-half percent (1/2%) sales and use tax. G.S. 105-487 provides that a percentage of the revenue of that tax must be used by the county only for public school outlay purposes or to retire indebtedness incurred for that purpose, according to the following schedule:

1st 5 Years of Tax - 40% of revenue for public school capital outlay.

Next 23 Years of Tax - 30% of revenue for public school capital outlay.

Second ½ Percent Sales and Use Tax: Article 42 of Chapter 105 provides counties which levy the one percent (1%) sales tax and the additional first one-half percent (1/2%) sales and use tax the authority to levy a second one-half percent (1/2%) sales and use tax. G.S. 105-502 (effective October 1, 2009) requires that for the first 25 years the tax is levied, a certain amount must be used by the county only for public school outlay purposes or to retire indebtedness incurred for that purpose during the five years before the indebtedness took effect. That amount is sixty percent (60%) of:

- The amount of revenue received from the second one-half percent sales and use tax, or,
- If the amount allocated to the county under the first one-half percent (1/2%) is greater than the amount allocated under the second one-half percent (1/2%) sales tax, the difference between the two amounts.

If a county can demonstrate that it does not need the earmarked revenue to meet its public school capital needs, it may petition the Local Government Commission to authorize it to use the money for any public purposes. In making its decision, the Commission must consider not only the public school capital needs but also the other capital needs of the county.

BILL ANALYSIS: HB 311 would amend G.S. 105-487 to require that after the first 5 years that the first one-half percent (1/2%) sales tax is in effect, 30% of the revenue must always be used for public school capital outlay or indebtedness.

G.S. 105-502 (as effective October 1, 2009) would also be amended to require that sixty percent of the revenue from the second one-half percent (1/2%) sales tax, as designated in that section, must always be used for public school outlay purposes or to retire indebtedness incurred for that purpose during the five years before the indebtedness took effect.

EFFECTIVE DATE: HB 311 would become effective January 1, 2010, and would apply to sales made on or after that date.

Kara McCraw, counsel to House Education, substantially contributed to this summary.

EFFECTIVE DATE: January 1, 2010

BILL SUMMARY: HB 311 removes the requirement that 30% of the revenue received under Article 40 in the first 23 years of the Article's enactment be used only for capital outlay purposes. Removing the 23 year provision, requires an indefinite allocation of 30% of Article 40 revenues toward public school construction. Provisions set forth in GS 105-487(c) allow counties to allocate the earmarked funds elsewhere given approval of the Local Government Commission.

The legislation also amends Article 42, the second additional ½% sales and use tax levy, GS 105-502 (effective October 1, 2009) eliminating the 25 year sunset which earmarks a portion of county revenue for school capital purposes. Sixty percent of the revenue raised under Article 42 is earmarked for public school capital outlay or associated indebtedness. HB 311 removes the 25 year sunset, requiring an indefinite allocation of sales and use tax funds toward public school construction unless otherwise indicated through provisions set forth in GS 105-502 (b).

This bill becomes effective for sales made on or after January 1, 2010.

ASSUMPTIONS AND METHODOLOGY:
HB 311 has no General Fund impact, but extends the requirement that schools allocate a certain proportion of sales and use tax revenue to public school construction. The legislation modifies the language of the first and second ½ cent sales and use tax articles, Articles 40 and 42. At the articles' inception, the legislature also enacted a provisional earmark of the sales and use tax revenue received by counties for school construction.

HB 311 removes the provisional language under Articles 40 and 42 making the revenue allocations towards school construction permanent. As shown in Table 1 below, earmarking 30% of the revenue received under Article 40 and 60% of the revenue received under Article 42 designates approximately $496.2 million in local sales and use tax revenue towards public school capital outlay purposes annually. Table 2 highlights the projected amount of sales and use tax revenue earmarked toward public school capital outlay purposes should HB 311 be enacted.

HOUSE BILL 1103:
Update Seed Law/Increase Seed License Fees

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	July 22, 2009
Introduced by:	Rep. Hill	**Prepared by:**	Heather Fennell
Analysis of:	Second Edition		Committee Counsel

SUMMARY: House Bill 1103 updates the North Carolina Seed Law and increases the license fees for wholesale and retail seed dealers.[1]

CURRENT LAW: Article 31 of Chapter 106 is the North Carolina Seed Law. The law governs the transportation, distribution, testing, labeling, and tagging of agricultural and vegetable seeds. The Commissioner of Agriculture is authorized to register, after field testing for performance and trueness to variety, any variety, blend, or hybrid seed and to prohibit the sale of inferior or misrepresented seed. All seed dealers are required to register with the Department and obtain a license for which they pay a fee. Actions prohibited under the statutes include the transportation, distribution, or sale of seed unless a license has been obtained, a germination test has been completed within a nine-month period immediately prior to sale; and the seed is properly labeled. Sale of seed containing noxious weed seed is also prohibited. Violation of the Seed Law is a Class 3 misdemeanor and punishable by a fine of not more than $500.

BILL ANALYSIS: House Bill 1103 makes several changes to the NC Seed Law.

Section 1 amends G.S. 106-277 to delete regulation of "screenings" from the law. Screenings are seed, inert matter, and other materials removed from seeds by cleaning or processing.

Section 2 of the bill amends the definitions section by replacing the term "processing" with the term "conditioning", meaning the cleaning, scarifying or blending to obtain uniform quality or other operations that would change the seed such that retesting is required to determine the quality of the seed.

Agricultural seeds that are sold, transported for sale, or otherwise distributed must be labeled with certain information. **Section 3** amends the labeling statute by changing the lot identification requirement to "lot number."

Section 4 changes the label requirements for vegetable seeds in containers of one pound or less. The changes include deleting the requirement to include the origin of pepper seed and including a lot identification and information regarding "Packed" or "Sell By" date or germination rate and month and year the test was completed.

Section 5 changes the label requirements for vegetable seeds in containers of more than one pound by deleting a requirement to include origin of pepper seed and by clarifying that labels should contain lot identification.

Section 6 amends G.S. 106-277.9, which sets out prohibited acts with regard to seeds. It changes the time frames in which the germination tests must be conducted on different types of seeds. Germination tests on agricultural seed must be completed within a nine-month period immediately prior to sale or offering for sale. Germination tests on cool season lawn seeds or mixtures of such seeds must be completed within a 15-month period and vegetable seed within a 12-month period. The changes also delete the requirement for public hearing to designate a longer time period and eliminate the treatment requirements for pepper seed.

[1] These fee increases have been included in the Budget estimates.

Sections 7 and 8 amend G.S. 277.10, Exemptions. G.S. 106-277.10(c) is amended by changing the requirements on lot identification for labels for peanuts, cotton and tobacco seed to "lot number." Subsection (d) is amended by deleting the term "processing" and substituting the term "conditioning" as per the change in definitions in Section 2 of the bill.

Section 9 amends G.S. 106-277.23, Notice of violations, and **Section 10** amends G.S. 106-277.25 by deleting the term "screenings" consistent with the changes made in Section 1 of the bill that eliminates screenings from the Seed Law.

Section 11 amends G.S. 106-277.28 to change the license fees for various categories of seed dealers. Wholesale or combined wholesale retail dealers increase from $100 to $125. The license fee structure for retail seed dealers by level of sales is eliminated and replaced by a single license, Retail Seed Dealer, with a license fee of $30. The fees previously ranged from $5 to $25. These fees were last increased in 1988.

EFFECTIVE DATE: The act becomes effective October 1, 2009.

ASSUMPTIONS AND METHODOLOGY:

House Bill 1103 makes several changes to NC Seed Law. As outlined, the bill revises definitions and text in order to bring NC Seed Law in compliance with industry standard language. These changes include increasing the testing period for vegetable seed from nine to 12 months and providing related language to be used by the industry in seed packaging. The bill extends the testing required for cool season lawn seeds from nine to 15 months. According to the NC Department of Agriculture and Consumer Services, these extensions will not have any direct measurable impact on operating expenses.

House Bill 1103 increases licensing fees for wholesale or combines wholesale retail seed dealers from $100 to $125. According to the NC Department of Agriculture and Consumer Services, there are approximately 160 wholesale or combined wholesale retail seed dealers and this number remains fairly constant over time. The number of wholesale dealers multiplied by the $25 fee increase results in the increase in revenues due to this change. This will result $4000 revenue increase for Fiscal Year 2009-10.

House Bill 1103 consolidates the three categories of retail seed dealers into one group that pays a licensing fee of $30. The previous licensing fees ranged between $5 and $25. The NC Department of Agriculture and Consumer Services estimates that this change will impact 4,119 individuals.

This number is expected to remain roughly constant in the future. Based on previous collections from this group, NCDA&CS estimates that this change will result in a $66,039 revenue increase for FY 2009-10. All together, the license fee changes result in a total revenue increase of $70,039.

SENATE BILL 898:
Development Tier Exception Modification

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	July 22, 2009
Introduced by:	Sen. Soles	**Prepared by:**	Heather Fennell Committee Counsel
Analysis of:	First Edition		

SUMMARY: Senate Bill 898[1] would reduce the percentage of a two-county industrial park that must be located in the lower tier county to qualify the park for the lower development tier designation. The bill would become effective when it becomes law.

[As introduced, this bill was identical to H829, as introduced by Reps. Hill, Stiller, which is currently in House Finance.]

CURRENT LAW: The Department of Commerce annually ranks the State's 100 counties based on economic well-being and assigns a tier designation to each county. A development tier designation is effective only for the calendar year following the designation. The 40 most distress counties are designated as Tier 1, the next 40 are designated Tier 2, and the remaining 20 counties are designated Tier 3. This tier system is incorporated into various State incentive programs to encourage economic activity in the less prosperous areas of the State.

The ranking system is based upon a county's development factor[2] and statutorily mandated adjustments. One of the statutorily mandated adjustments[3] is for a two-county industrial park. An eligible two-county industrial park has the lower development tier designation of the two counties in which it is located. An eligible two-county industrial park is one that meets all of the following conditions:

- It is located in two contiguous counties.
- *At least 1/3 of the park is located in the county with the lower tier designation.*
- It is owned by the two counties or a joint agency of the counties, is under contractual control of designated agencies working on behalf of both counties, or is subject to a development agreement between both counties and third-party owners.
- The county with the lower tier designation contributed at least the lesser of one-half of the cost of developing the park or a proportion of the cost of developing the park equal to the proportion of land in the park located in the county with the lower tier designation.

BILL ANALYSIS: Senate Bill 898 would amend the second condition by requiring that 1/5 of the property, rather than 1/3 of the property, be located in the lower tier county.

EFFECTIVE DATE: The bill would become effective when it becomes law.

BACKGROUND: Columbus and Brunswick Counties are building a two-county industrial park and desire to take advantage of the lower tier designation of Columbus County. Columbus County is a development tier 1 county and Brunswick County is a development tier 3 county. The two counties are planning to develop the "International Logistics Park of North Carolina". This industrial park would be

[1] As introduced, this bill was identical to H829, as introduced by Reps. Hill, Stiller, which is currently in House Commerce, Small Business, and Entrepreneurship, if favorable, Finance.

[2] A county's development factor is the sum of the county's rank in the following areas: average rate of unemployment for the most recent 12 month period, median household income for the most recent 12 month period, percentage growth in population for the most recent 36 months, and adjusted assessed property value per capita for the most recent taxable year.

[3] Other statutorily mandated adjustments include those for small counties, development tier 1 areas, and multijurisdictional industrial parks.

the first at-port distribution center in North Carolina. The 1000-acre park will be located along Highway 74 (future I-74) and within 16 miles of the Port of Wilmington. The park would house a series of large distribution centers from which goods coming into the State Port at Wilmington could be distributed to retail outlets or regional distribution centers. The ports located in Charleston, SC, Norfolk, VA, and Savannah, GA all have at-port distribution centers located near them.

The International Logistics Park will straddle the Brunswick and Columbus County line with approximately 200 acres located in Columbus County and the remaining 800 acres or so located in Brunswick County. The counties anticipate that the park will create 4000 new jobs for the area and incur at least $300 million in private investments.

The lower tier designation would allow businesses locating in the International Logistics Park to qualify for the larger tax credits available under Article 3J for tier 1 counties and other incentives available to tier 1 counties:

- Credit for creating jobs. – The job threshold and the credit amount per job is determined by the tier designation of the county in which the jobs are created. For a tier 1 county, the minimum number of jobs that must be created is five and the credit amount per job is $12,500; for a tier 2 county, the minimum number of jobs is 10 and the credit amount per job is $5,000; for a tier 3 county, the minimum is 15 and the credit amount is $500.
- Credit for investing in business property. – The credit percentage and threshold are based on the tier designation of the county where the property is placed in service. For a tier 1 county, there is no threshold and the credit percentage is 7% of the cost of capitalized tangible personal property; for a tier 2 county, the threshold is $1 million and the credit percentage is 5%; for a tier 3 county, the threshold is $2 million and the credit percentage is 3.5%.
- Credit for investing in real property. – This credit is only available for an eligible establishment located in a Tier 1 county. To be eligible, the taxpayer must invest at least $100 million in real property within a 3-year period and create at least 200 new jobs within 2 years.
- Credit for research and development. – The credit for expenses for research performed in a tier 1 county is 3.25% of the expenses, regardless of the amount of expenses incurred. For research performed in a tier 2 or tier 3 county, the percentage varies depending upon the amount of expense occurred.
- Job development investment grant. – This discretionary incentive program provides a limited number of cash grants directly to new and expanding businesses. The grants are based on job creation and investment commitment. The minimum number of jobs that must be created to qualify for a grant varies depending upon the development tier designation of the county where the jobs are created: the minimum number of jobs that must be created in a tier 1 county is 10 and for all other counties the minimum number of jobs that must be created is 20.
- Industrial development fund. – This fund provides grants and loans for infrastructure development in the 66 most distressed counties. There is no local match requirement in the 26 most distress counties.

PRINCIPAL DEPARTMENT(S) & PROGRAM(S) AFFECTED: Department of Commerce; Department of Revenue

EFFECTIVE DATE: Becomes effective when law.

BACKGROUND:
The Department of Commerce annually ranks the State's 100 counties based on economic well-being and assigns a tier designation to each county. A development tier designation is effective only for the calendar year following the designation. The 40 most distressed counties are designated as Tier 1, the next 40 are designated Tier 2, and the remaining 20 counties are designated Tier 3. This tier system is incorporated into various State incentive programs to encourage economic activity in the less prosperous areas of the State.

The ranking system is based upon a county's development factor[1] and statutorily mandated adjustments. One of the statutorily mandated adjustments[2] is for a two-county industrial park. An eligible two-county industrial park has the lower development tier designation of the two counties in which it is located. An eligible two-county industrial park is one that meets all of the following conditions:

- It is located in two contiguous counties.
- *At least 1/3 of the park is located in the county with the lower tier designation.*
- It is owned by the two counties or a joint agency of the counties, is under contractual control of designated agencies working on behalf of both counties, or is subject to a development agreement between both counties and third-party owners.

The county with the lower tier designation contributed at least the lesser of one-half of the cost of developing the park or a proportion of the cost of developing the park equal to the proportion of land in the park located in the county with the lower tier designation.

BILL ANALYSIS:
Senate Bill 898 would amend the second condition by requiring that 1/5 of the property, rather than 1/3 of the property, be located in the lower tier county.

ASSUMPTIONS AND METHODOLOGY:
Columbus and Brunswick Counties are building a two-county industrial park and desire to take advantage of the lower tier designation of Columbus County. Columbus County is a development tier 1 county and Brunswick County is a development tier 3 county. The two counties are planning to develop the International Logistics Park of North Carolina.

The International Logistics Park will straddle the Brunswick and Columbus County line with approximately 200 acres located in Columbus County and the remaining 800 acres or so located in Brunswick County. The counties anticipate that the park will create 4,000 new jobs for the area and incur at least $300 million in private investments.

The lower tier designation would allow businesses locating in the International Logistics Park to qualify for the larger tax credits available under Article 3J for tier 1 counties and other incentives available to tier 1 counties:

Credit for Creating Jobs

For the credit for creating jobs, the minimum number of jobs that must be created in a tier one county is five and the credit amount per job is $12,500; for a tier 2 county, the minimum number of jobs is 10 and the credit amount per job is $5,000; for a tier 3 county, the minimum is 15 and the credit amount is $500. The tier one designation would allow for a credit amount per job of $12,000 more for each job created than would be allowed in a tier three county. Assuming 4,000 new jobs are created and all of the jobs would have otherwise been created in a tier three county, this portion of the bill would have a cost of $48 million to the General Fund ($12,000 per job * 4,000 jobs).

---

[1] A county's development factor is the sum of the county's rank in the following areas: average rate of unemployment for the most recent 12 month period, median household income for the most recent 12 month period, percentage growth in population for the most recent 36 months, and adjusted assessed property value per capita for the most recent taxable year.

[2] Other statutorily mandated adjustments include those for small counties, development tier 1 areas, and multijurisdictional industrial parks.

Credit for Investing in Business Property

For the credit for investing in business property, there is no threshold for a tier one county and the credit percentage is 7% of the cost of capitalized tangible personal property; for a tier 2 county, the threshold is $1 million and the credit percentage is 5%; for a tier 3 county, the threshold is $2 million and the credit percentage is 3.5%. The tier one designation will allow for an additional credit of 3.5%. Assuming that $300 million is invested in the area of the park that would have otherwise been designated as tier 3, this portion of the bill will have a cost of $10.5 million to the General Fund ($300 million investment * 3.5%).

Additional costs would be incurred if other qualifying projects were developed. The cost of the bill could also increase if the proposed project generates other types of credits, including the credit for investing in real property and the credit for research and development. All of these credits vary depending on the tier designation of the county in which the project is located.

The Article 3J credits taken may not exceed 50% of tax liability in any year and must be taken in equal installments over the four years following the taxable year in which the credits are generated. Any unused credits may be carried forward for five years. As a result, the impact of the bill is considered to be spread over a nine-year period, however, the full value of the credits generated may not be taken if the taxpayers have insufficient tax liability.

(a) Each license to operate a cosmetic art shop shall be renewed on or before the first day of February of each year. As provided in G.S. 88B-20, a late fee shall be charged for licenses renewed after February 1. Any license not renewed by March 1 of each year shall expire. A cosmetic art shop whose license has been expired for one year or less shall have the license reinstated immediately upon payment of the reinstatement fee, the late fee, and all unpaid license fees. The licensee shall submit to the Board, as a part of the renewal process, a list of all licensed cosmetologists who practice cosmetic art in the shop and shall identify each as an employee or a booth renter.

(b) Cosmetologist licenses shall be renewed on or before October 1 every three years beginning October 1, 1998. A late fee shall be charged for renewals after that date. Any license not renewed shall expire on October 1 of the year that renewal is required. The Board may develop and implement a plan for staggered license renewal and may prorate license fees to implement such a plan.

(c) Apprentice, esthetician, natural hair care specialist, and manicurist licenses shall be renewed annually on or before October 1 of each year. A late fee shall be charged for the renewal of licenses after that date. Any license not renewed shall expire on October 1 of that year.

(d) Teacher licenses shall be renewed every two years on or before October 1. A late fee shall be charged for the renewal of licenses after that date. Any license not renewed shall expire on October 1 of that year.

(e) Prior to renewal of a license, a teacher, cosmetologist, esthetician, natural hair care specialist, or manicurist shall annually complete eight hours of Board-approved continuing education for each year of the licensing cycle. A cosmetologist may complete up to 24 hours of required continuing education at any time within the cosmetologist's three-year licensing cycle. Licensees shall submit written documentation to the Board showing that they have satisfied the requirements of this subsection. A licensee who is in active practice as a cosmetologist, esthetician, natural hair care specialist, or manicurist, has practiced for at least 10 consecutive years in that ~~profession~~ profession, and is 60 years of age or older does not have to meet the continuing education requirements of this subsection. HOUSE BILL 291:
Natural Hair Care Licensure/Cosmetic Art Act

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	July 23, 2009
Introduced by:	Reps. Parmon, Womble	**Prepared by:**	Heather Fennell Committee Counsel
Analysis of:	PCS to Fourth Edition H291-CSTDf-71		

SUMMARY: ***The proposed committee substitute to House Bill 291 would require that persons engaging in the practice of natural hair care be licensed by the NC Board of Cosmetic Art Examiners, and gives the Board more authority over its employees.***

CURRENT LAW: The North Carolina Cosmetic Art Act sets out the qualifications for licensing cosmetologists, estheticians, and manicurists. The Board of Cosmetic Art Examiners (Board) is responsible for examining and determining the qualifications and fitness of applicants for licensure, and has the power to issue, renew, deny, restrict, suspend, or revoke licenses. The NC Administrative Code sets out the following definition of "natural hair braiding" as it pertains to the Board:

> "'Natural hair braiding' is a service that results in tension on hair strands or roots by twisting, wrapping, weaving, extending, locking, or braiding by hand or mechanical device, is *not subject to regulation pursuant to G.S. 88B*, provided that the service does not include hair cutting or the application of dyes, reactive chemicals, or other preparations to alter the color of the hair or to straighten, curl, or alter the structure of the hair." (21 NCAC 14A.0101)

BILL ANALYSIS: HB 291 would amend the Cosmetic Art Act to require the licensure of persons engaged in the practice of natural hair care.

Definition of natural hair care – HB 291 includes natural hair care within the definition of cosmetic art. This means that the activity of natural hair care would be regulated by the Board, and that natural hair care shops would have to comply with the same requirements that apply to all other cosmetic art shops – including licensing and sanitation requirements. "Natural hair care" is defined as a service that results in tension on hair strands or roots by twisting, wrapping, extending, weaving, or locking hair by hand or mechanical device -- including the use of artificial or natural hair.

Qualifications for licensure as a natural hair care specialist – Licensure requires successful completion of at least 300 hours of a natural hair care specialist curriculum in an approved cosmetic art school, passage of an examination conducted by the Board, and payment of a $10 license fee and other applicable fees.[1] The license must be renewed on or before October 1.

Qualifications for licensure as a natural hair care teacher - A natural hair care teacher must hold a natural hair care license, and must submit proof of either (1) practice as a natural hair care specialist for a period equivalent to two years of full-time work immediately prior to the time of the application, or (2) successful completion of at least 320 hours of a natural hair care teacher curriculum in an approved cosmetic art school. The applicant may pay $10 license fee by October 1 every two years.

Punishment for practicing without a license - As with other professions that must be licensed by the Board, ***practicing natural hair care without a license would be a Class 3 misdemeanor.*** A Class 3 misdemeanor, assuming the person has no prior convictions, is punishable by 1-10 days of community punishment and/or a fine up to $200.

[1] The Board may charge the applicant the actual cost of preparation, administration, and grading of examinations.

Exemptions – The bill provides the following exemptions:

- A person who submits proof to the Board that he or she is actively engaged in the practice of natural hair care on the effective date of the bill is exempt from the education requirement; however, the person must pass an examination and pay the required licensing fee.
- There is a one-year grace period for a natural hair care shop to comply with licensing requirements for cosmetic art shops, if the shop submits proof that it is actively engaged in the practice of natural hair care on the effective date of the bill. All persons who do not apply to the Board within one year of the effective date of the bill would be required to complete all training and examination requirements, and to otherwise comply with the provisions of Chapter 88B of the General Statutes.
- A licensee who is in active practice as a natural hair care specialist, has practiced for at least 10 years in that profession, and is 60 years of age or older does not have to meet the continuing education requirements.[2]

Section 1.2: This section amends the law with regard to the employees of the Board. Currently, the Board must obtain the approval of the Director of the Budget and the Office of State Personnel to employ inspectors, investigators and other staff. In addition, the salaries of its employees are subject to the State Personnel Act. The bill removes the requirement of approval for hiring employees and also removes all references to the State Personnel Act.

EFFECTIVE DATE: Section 1.2 of the bill would become effective when it becomes law. The emainder of the bill would become effective October 1, 2009 and apply to acts occurring on or after hat date.

BACKGROUND: A 2008 report prepared by the Colorado Department of Regulatory Agencies indicates that although all 50 states regulate barbers and cosmetologists, regulation of hair braiders/natural hairstylists in other states is widely divergent. Following are the different ways states address this issue.

Hair braiding/natural hairstyling not addressed in statute. In the most common scenario, evident in 23 states, the law is silent on the issue of hair braiding/natural hairstyling. These practices are neither included in the definitions of cosmetology or hairstyling, nor are they specifically excluded. In practical terms, this means that state cosmetology boards deal with this issue on a case-by-case basis. These states include Alabama, Alaska, Arkansas, Delaware, Hawaii, Idaho, Indiana, Kentucky, Maine, Massachusetts, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, North Dakota, Rhode Island, Utah, Vermont, Washington, West Virginia and Wisconsin.

Cosmetologist/hairstylist license specifically required. In Colorado and six other states, current law requires individuals to obtain a cosmetology or hairstyling license to practice hair braiding/natural hairstyling. These states include Illinois, Iowa, Missouri, Oregon, South Dakota and Wyoming.

Qualified exemption. Three states—Kansas, Minnesota, and Mississippi—essentially exempt natural hair care specialists/natural hairstylists from the barber/cosmetology law on the condition that applicants

[2] This exemption currently applies to cosmetologists, estheticians, and manicurists. All other natural hair care specialists, teachers, cosmetologists, and estheticians must annually complete eight hours of Board-approved continuing education for each year of the licensing cycle.

complete a health and sanitation course or complete a self-test demonstrating an understanding of correct sanitation practices.

Specialized hair braiding/natural hairstyling license required. Eleven jurisdictions have a specialized hair braiding/natural hairstyling license, including the District of Columbia, Florida, Louisiana, New York, Ohio, Oklahoma, Pennsylvania, South Carolina, Tennessee, Texas and Virginia.

Exemption. Arizona, California, Connecticut, Georgia, Maryland, Michigan, and North Carolina exempt hair braiders/natural hairstylists from the barber/cosmetology law. Michigan does issue a natural hair culturist license, but such license is optional, not required.

The Colorado report indicates that the requirements of these licensing programs vary widely. For example, Louisiana requires applicants to complete a total of 1,000 hours in training to qualify for an alternative hair design permit, while Texas requires just 35 hours of training to qualify for a hair braiding specialty certificate of registration. Ohio requires 450 hours of training. The scope of practice permitted by the various specialty licenses also varies. In both Florida and South Carolina, the use of extensions and wefts are excluded from the practice of hair braiders. Because use of extensions and wefts is widespread among hair braiders/natural hairstylists, this limitation effectively compels individuals wishing to provide these services to seek a traditional barber or cosmetologist license.

Brenda Carter, counsel to House Ways and Means/Broadband Connectivity, and Karen Cochrane-Brown, counsel to Senate Commerce, substantially contributed to this summary.

PRINCIPAL DEPARTMENT(S) & PROGRAM(S) AFFECTED: North Carolina Board of Cosmetic Examiners

EFFECTIVE DATE: July 1, 2010

BILL SUMMARY:
House Bill 291 adds hair braiding to the list of cosmetic arts that are regulated by the Board of Cosmetic Art Examiners. The bill would require the licensure of individuals engaged in the practice of hair braiding and sets up qualifications for this licensure. The bill creates a $10 license fee for hair braiders.

ASSUMPTIONS AND METHODOLOGY:
Because the Board of Cosmetic Examiners does not currently license hair braiders, the creation of a new $10 license fee for hair braiders will result in an increase in revenues for the Board. However, it is impossible to estimate exactly how much this increase will be. This is due to the fact that the Board does not currently track the number of hair braiders in North Carolina and that there is not currently an association that tracks these numbers.

SENATE BILL 563:
Pyrotechnics Safety Permitting Act

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	July 23, 2009
Introduced by:	Sen. Davis	**Prepared by:**	Heather Fennell Committee Counsel
Analysis of:	PCS to Second Edition S563-CSRBf-60		

SUMMARY: ***Senate Bill 563 requires pyrotechnics at concerts and public displays must be exhibited under the supervision of a display operator who has a permit issued by the State Fire Marshal. It requires individuals exhibiting pyrotechnics receive training developed by the State Fire Marshal. It also sets minimum insurance requirements that are verified at the local level.***

The PCS moves the permitting requirements to Chapter 58, and removes references to transportation or pyrotechnics. The transportation of pyrotechnics is covered by the commercial drivers license statutes.

CURRENT LAW: Current law generally prohibits the manufacture, transportation (except by a common carrier), sale, or use of pyrotechnics, except in connection with approved concerts and public displays. The law requires that approved public displays of pyrotechnics be under the supervision of experts who have previously been issued permits by cities and counties to discharge pyrotechnics. Pursuant to G.S. 58-80-1, the Commissioner of Insurance is the State Fire Marshal.

BILL ANALYSIS:

"Display Operator" Must Supervise. Section 1 of the bill would amend G.S. 14-410 to provide that pyrotechnics may be exhibited, used, handled, or discharged in connection with an approved concert or public display only if all those acts are done under the personal supervision of a "display operator" who has a permit from the State Fire Marshal. Individuals supervised by the display operator would be required to obtain training or be a current active member in good standing with any local fire or rescue department with experience in pyrotechnics or explosives. The county commissioners or city council would still have to authorize the specific exhibition.

Insurance Requirements. Section 2 of the bill amends G.S. 14-413 to provide that the county commissioners or city council shall not issue a permit unless the display operator provides proof of insurance of $500,000, or the minimum required under the State Building Code, whichever is greater. The city or county may set a greater insurance requirement.

Authority of Fire Marshal. Section 3 of the bill adds a new Article in Chapter 58 (Insurance), including G.S. 58-82A-2 requiring the State Fire Marshal to set minimum training requirements for individuals who will be supervised by a display operator and testing standards for display operators. It also authorizes the Commissioner to set a fee not to exceed $100 for a permit.

State Permit. Section 3 of the bill adds a new G.S. 58-82A-3, providing for the issuance of display-operator permits by the State Fire Marshal. It provides that the permittee must be 21, must have assisted with authorized displays at least 3 times, must have completed minimum training, must have passed an approved examination, and must have paid a fee. There is a reciprocity provision allowing the State Fire Marshal to issue a permit based on the applicant holding a permit in another state. The permit would be valid for 2 years. The Fire Marshal could deny or revoke a permit for certain violations.

EFFECTIVE DATE: The bill is effective July 1, 2010, and applies to offenses committee on or after that date.

Bill Gilkeson, counsel to Senate State and Local Government, substantially contributed to this summary.

EFFECTIVE DATE: This act becomes effective January 2, 2010, and applies to offenses committed on or after that date.

BILL SUMMARY:
This Proposed Committee Substitute for Senate Bill 563 would require that, when pyrotechnics are used at concerts and public displays, they are used under the supervision of a display operator who has a permit issued by the State Fire Marshal. It requires that individuals supervised by a display

operator receive training developed by the State Fire Marshal. It also sets minimum insurance requirements that are verified at the local level.

"Display Operator" Must Supervise. Section 1 of the bill would amend G.S. 14-410 to provide that pyrotechnics may be transported, exhibited, used, handled, or discharged in connection with an approved concert or public display only if all those acts are done under the personal supervision of a "display operator" who has a permit from the State Fire Marshal. Individuals supervised by the display operator would be required to obtain training or be a current active member in good standing with any local fire or rescue department with experience in pyrotechnics or explosives. The county commissioners or city council would still have to authorize the specific exhibition.

State Permit. Section 2 of the bill adds a new G.S. 14-410.1, providing for the issuance of display operator permits by the State Fire Marshal. It provides that the permittee must be 21, must have assisted with authorized displays at least 3 times, must have completed minimum training, must have passed an approved examination, and must have paid a fee. There is a reciprocity provision allowing the State Fire Marshal to issue a permit based on the applicant holding a permit in another state. The permit would be valid for 2 years. The Fire Marshal could deny or revoke a permit for certain violations.

Insurance Requirements. Section 3 of the bill amends G.S. 14-413 to provide that the county commissioners or city council shall not issue a permit unless the display operator provides proof of insurance of $500,000, or the minimum required under the State Building Code, whichever is greater. The city or county may set a greater insurance requirement.

Authority of Fire Marshal. Section 4 of the bill adds a new Article in Chapter 58 (Insurance) requiring the State Fire Marshal to set minimum training requirements for individuals who will be supervised by a display operator and testing standards for display operators. It also authorizes the Commissioner to set a fee not to exceed $100 for a permit. Section 5 of the bill provides that the Commissioner of Insurance shall not charge a fee for display operator permits issued prior to July 1, 2011.

ASSUMPTIONS AND METHODOLOGY:

Expenses

According to the Department of Insurance (DOI), the implementation of the proposed legislation will equate to $141,787 in total recurring expenses in FY 2009-10. This total includes $109,787 for 1.75 additional positions and $32,000 for various operating expenses.

In terms of the additional positions, the Department estimates that it will need an additional engineering position (1.0 FTE) at a total recurring cost of $77,172 and an additional Program Assistant IV (0.75 FTE), a part-time administrative position, at a total recurring cost of $32,615. The total cost for the engineering position includes $62,523 for salary; $4,783 for Social Security at 7.65%; $5,340 for Retirement at 8.54%; and $4,527 for Medical. The total cost for the Program Assistant IV includes $24,174 for salary; $1,849 for Social Security at 7.65%; $2,065 for Retirement at 8.54%; and $4,527 for Medical. The Department of Insurance stated that engineering positions are banded; therefore, the Department's estimate assumes the Journey

market rate. For the Program Assistant IV position, the Department is estimating the salary to be the midpoint of a grade 59 position.

In terms of the various operating expenses, the Department of Insurance also estimates that it will need approximately $12,000 for programming costs for certification tracking, test bank database, and accounting; approximately $1,000 for certificates, such as paper, seals, or permits; approximately $2,000 for notifications and publications including safety and notification of new law; approximately $4,000 for travel accommodations for committee members to create test questions; approximately $1,000 for travel expenses associated with audits, education, and training activities; and approximately $2,000 for mailing, phones, and administrative expenses. This equates to a total of $32,000 in recurring expenses.

In FY 2010-11, the total recurring expenses associated with the implementation of the proposed legislation will equate to $143,517. This total includes $110,938 for 1.75 additional positions and $32,579, accounting for inflation, for various operating expenses. The increase in the total for additional positions compared to FY 2009-10 accounts for the benefits for Retirement increasing from 8.54% to 8.94% and benefits for Medical increasing from $4,527 to $4,929.

Accounting for inflation, the total expenses for salaries would increase to $117,106 in FY 2011-12; $115,106 in FY 2012-13; and $115,576 in FY 2013-14. Accounting for inflation, the total for various operating expenses would increase to $32,592 in FY 2011-12; $32,554 in FY 2012-13; and $32,563 in FY 2013-14.

Revenue

The Department of Insurance anticipates that the first two years of the program will result in approximately 250 permits at $100 a piece for a total of $25,000 in receipts. By the third year, the Department anticipates that the program will result in 400 permits at $100 a piece for a total of $40,000 in receipts. If this estimate is correct, the net of the expenses and revenue equates to $116,787 in FY 2009-10; $117,938 in FY 2010-11; $109,698 in FY 2011-12; $108,197 in FY 2012-13; and $108,139 in FY 2013-14.

PRINCIPAL DEPARTMENT(S) & PROGRAM(S) AFFECTED: Department of Commerce; Department of Revenue; Columbus County; Brunswick County

EFFECTIVE DATE: Becomes effective when law.

BACKGROUND:

The Department of Commerce annually ranks the State's 100 counties based on economic well-being and assigns a tier designation to each county. A development tier designation is effective only for the calendar year following the designation. The 40 most distressed counties are designated as Tier 1, the next 40 are designated Tier 2, and the remaining 20 counties are designated Tier 3. This tier system is incorporated into various State incentive programs to encourage economic activity in the less prosperous areas of the State.

The ranking system is based upon a county's development factor[1] and statutorily mandated adjustments. One of the statutorily mandated adjustments[2] is for a two-county industrial park. An eligible two-county industrial park has the lower development tier designation of the two counties in which it is located. An eligible two-county industrial park is one that meets all of the following conditions:

- It is located in two contiguous counties.
- *At least 1/3 of the park is located in the county with the lower tier designation.*
- It is owned by the two counties or a joint agency of the counties, is under contractual control of designated agencies working on behalf of both counties, or is subject to a development agreement between both counties and third-party owners.
- The county with the lower tier designation contributed at least the lesser of one-half of the cost of developing the park or a proportion of the cost of developing the park equal to the proportion of land in the park located in the county with the lower tier designation.

BILL ANALYSIS:
Senate Bill 898 would amend the second condition by requiring that 1/5 of the property, rather than 1/3 of the property, be located in the lower tier county. The PCS adds a sunset after three years.

ASSUMPTIONS AND METHODOLOGY:
Columbus and Brunswick Counties are building a two-county industrial park and desire to take advantage of the lower tier designation of Columbus County. Columbus County is a development tier 1 county and Brunswick County is a development tier 3 county. The two counties are planning to develop the International Logistics Park of North Carolina.

The International Logistics Park will straddle the Brunswick and Columbus County line with approximately 200 acres located in Columbus County and the remaining 800 acres or so located in Brunswick County. The counties anticipate that the park will create 4,000 new jobs for the area and incur at least $300 million in private investments.

The lower tier designation would allow businesses locating in the International Logistics Park to qualify for the larger tax credits available under Article 3J and other incentives for tier 1 counties. The most significant fiscal impact is related to the credit for creating jobs and the credit for business investments.

Credit for Creating Jobs

For the credit for creating jobs, the minimum number of jobs that must be created in a tier one county is five and the credit amount per job is $12,500; for a tier 2 county, the minimum number of jobs is 10 and the credit amount per job is $5,000; for a tier 3 county, the minimum is 15 and the credit amount is $500. The tier 1 designation would allow for a credit amount per job of $12,000

[1] A county's development factor is the sum of the county's rank in the following areas: average rate of unemployment for the most recent 12 month period, median household income for the most recent 12 month period, percentage growth in population for the most recent 36 months, and adjusted assessed property value per capita for the most recent taxable year.
[2] Other statutorily mandated adjustments include those for small counties, development tier 1 areas, and multijurisdictional industrial parks.

more for each job created than would be allowed in a tier 3 county. The fiscal impact of the job creation credit is determined by the number of jobs created in the proposed industrial park that would have otherwise been created in a tier three area.

Based on information from the Columbus County Economic Development Commission, under current law the project could be developed as a 1,000-acre park consisting of a 600-acre portion that satisfies the current 2-county industrial park eligibility criteria, plus a second 400-acre portion in Brunswick County that would be categorized as tier three. In this scenario, the 600-acre portion would satisfy the current requirement that 1/3 of the property must be situated in a tier one county. Thus, 600 acres, or 60% would be classified as tier one and the remainder, or 40% would be classified as tier 3.

Under S898, all of the proposed industrial park would be considered tier 1, including the 40% portion designated as tier 3 under the current law scenario. Assuming that 4,000 jobs are created evenly throughout the project, the expanded tier one area would contain 40% of the jobs created, or 1,600 jobs, with a cost to the General Fund of $19.2 million (1,600 jobs * $12,000).

Credit for Investing in Business Property

For the credit for investing in business property, there is no threshold for a tier one county and the credit percentage is 7% of the cost of capitalized tangible personal property; for a tier 2 county, the threshold is $1 million and the credit percentage is 5%; for a tier 3 county, the threshold is $2 million and the credit percentage is 3.5%. Thus, the tier 1 designation allows for an additional credit of 3.5% compared to the tier 3 credit.

Assuming that 40% of the park would have been classified as tier three under current law, a commensurate portion of the business investment would equal $120 million ($300 million * 40%). The General Fund cost related of the tier one treatment of this area for purposes of the business investment credit would be $4.2 million ($120 million *3.5%).

The total cost of the jobs and business investment credits is $23.4 million ($19.2 + $4.2). Additional costs would be incurred if other qualifying projects were developed. The cost of the bill could also increase if the proposed project generates other types of credits, including the credit for investing in real property and the credit for research and development. All of these credits vary depending on the tier designation of the county in which the project is located.

The Article 3J credits taken may not exceed 50% of tax liability in any year and must be taken in equal installments over the four years following the taxable year in which the credits are generated. Any unused credits may be carried forward for five years. As a result, the impact of the bill is considered to be spread over a nine-year period, however, the full value of the credits generated may not be taken if the taxpayers have insufficient tax liability.

Institute for Emerging Issues, Business Committee on Financing the Future.

John McNairy, President of Tidewater Transit Company and a Cochair of the Business Committee on Financing the Future, was recognized. He stated the purpose of the committee and the findings. He urged the members to update Revenue Laws.

Jack Cecil, President of Biltmore Farms, Inc. and a Cochair of the Business Committee on Financing the Future, was recognized. He said that current, up-to-date revenue laws would benefit businesses and citizens.

Richard Vinroot, former mayor of Charlotte and a Cochair of the Business Committee on Financing the Future, was recognized. He asked that the members think about what was best for the State of North Carolina, not what was best for re-election. He reiterated that Revenue Laws were outdated and the State would benefit if the Legislative members would pass legislation that modernized tax laws.

2002 Governor's Commission to Modernize State Finances and 2006-2008 State and Local Fiscal Modernization Study Commission

John Medlin, Wachovia former Chief Executive Officer, was recognized. He said that the legislators have been dealing with fiscal urgency, not fiscal importance. Modernizing revenue laws is still important, but now urgent.

Mr. McNairy, Mr. Cecil, Mr. Vinroot and Mr. Medlin then answered questions from committee and legislative members.

Financing the Future

Roby Sawyers, CPA, PhD, College of Management, North Carolina State University, was recognized. He discussed how to provide and create revenue in the State's current fiscal situation. A copy of his power point is attached.

The meeting adjourned at 2:35 PM.

State Tax Reform Ideas for North Carolina

Cindy Avrette, NCGA

Senate Finance Meeting

July 28, 2009

Features of a Sound Tax System

- Promotes equity
- Relatively simple to administer
- Ease of compliance
- Minimizes economic distortions
- Delivers fairly reliable revenue stream during economic downturns
  - *Ad hoc* "fixes"
  - Tax Reform

Recent Revenue Insufficiency

- Business cycles & State revenues
  - 8.1% shortfall in fiscal year 1990-1991
  - 10.8% shortfall in fiscal year 2001-2002
  - 15.2% shortfall in fiscal year 2008-2009
- Legislative action
  - Increase taxes
  - Form a study commission
- Similar study commission charges
  - Review tax structure
  - Adapt tax structure
  - Provide stable revenues

Fiscal Realities for the 90s

- State's revenue structure should be modernized
  - Reflect changes in the economic environment
  - Generate sufficient revenues without repeatedly resorting to *ad hoc* revenue adjustments
- Expand sales tax base to services
- Eliminate corporate tax incentives

Governor's Commission (2001)

- Equalize tax rates on amusements and entertainments
- Include limited liability companies in the franchise tax base
- Conform PIT to federal law on taxation of social security
- Expand sales tax base to include repair and installation of tangible personal property and other services

Modernize State Finances (2002)

- Broad base, low rates
- Expand sales tax base to services
- Use AGI as starting point for PIT
- "No-tax" threshold
- Eliminate CIT credits
- Retain R&D credit
- Combined reporting
- Impose franchise tax on all types of business entities
- Clarify DOR's authority to address inappropriate tax planning strategies

Fiscal Modernization (2006)

- Tax structure out dated and complicated
- Economy has changed
- Revenue is insufficient
- Relative high PIT and CIT rates
- Broaden income and sales tax bases
- Additional revenue should be used to lower rates
- ***"The Commission believes that in order to be effective, tax reform must be comprehensive."***

IEI's Financing the Future (2005-2009)

- Multi-year program of work on tax and finance
- Working groups convened on issue of State tax modernization
- Forum in 2006
- Business Committee on Financing the Future
- Three basic principles
  - Simplicity
  - Fairness
  - Minimal number of exemptions

Guidelines for Successful Reform

- Start with principles
- Apply principles to the whole, not the parts
- Push for broader bases, lower rates
- Strive for revenue neutrality
- Acknowledge reforms involve losers
- Educate
- Listen

The Need for Fiscal Modernization in North Carolina

Roby B. Sawyers, CPA, Ph.D.
College of Management

NC STATE UNIVERSITY

The Argument for Fiscal Modernization

- North Carolina's tax system was largely set in place in the 1920s and 1930s.
- North Carolina is changing - we are growing bigger, growing older, and becoming more diverse.
- Our economy is no longer dominated by tobacco, textiles and furniture
- These demographic changes and changes in the NC economy have resulted in a "structural deficit" - tax revenues are not able to keep up with a growing economy and basic expenditures.

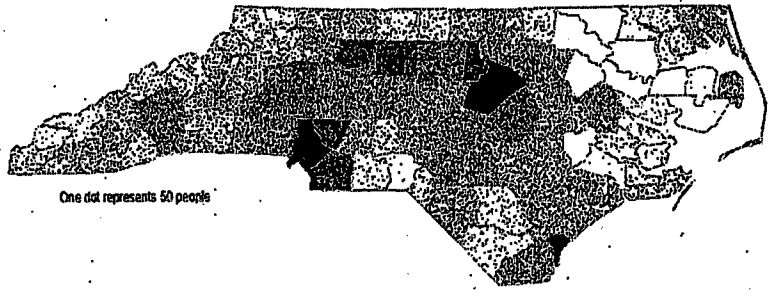
North Carolina in the Year 2030

Population growth will not be evenly distributed across the state.



NC STATE UNIVERSITY

North Carolina in the Year 2030

The population is aging, especially in rural areas.

Total	**32%**	**24%**

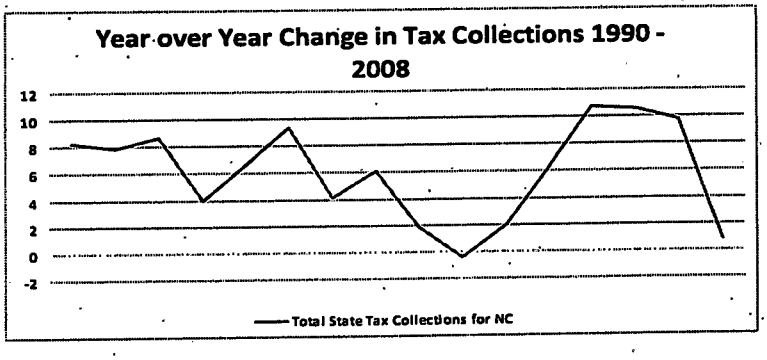
The Argument for Fiscal Modernization

- High statutory rates and narrow tax bases contribute to volatility
- Over the last 50 years, the relative importance of various sources of tax revenue has changed dramatically
- Today, we rely much more on the individual income tax than in the past
- We rely much more on the individual income tax than other states with an income tax.

State Revenues Overall

High rates and narrow bases contribute to volatility:



NC STATE UNIVERSITY

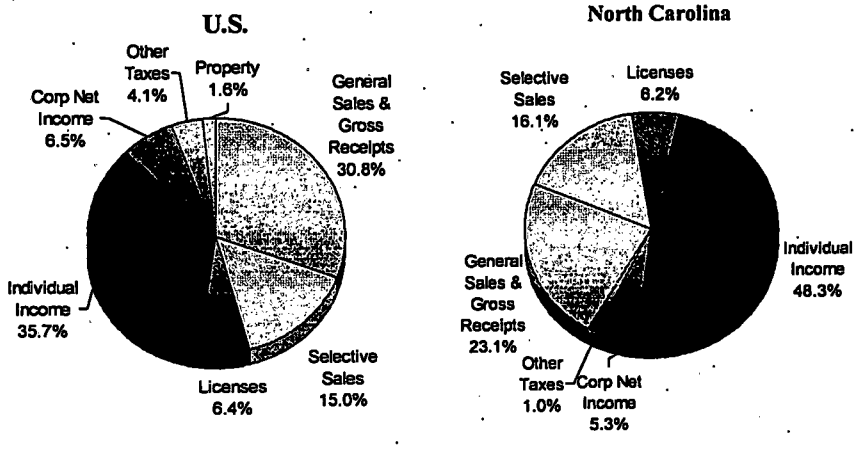
Changes in Sources of Tax Revenue

Percent of Total NC State and Local Tax Revenue from Various Sources

	1957	2006
Sales Taxes	41.4%	34.4%
Property Taxes	26.8%	23.3%
Individual Income Taxes	**10.5%**	**31.5%**
Corporate Income Taxes	9.1%	4.6%
Other Taxes	12.2%	6.2%

NC STATE UNIVERSITY

STATE TAX COLLECTIONS (2008)



Problems with the Corporate Income Tax

- The most volatile of our state taxes – accounts for between 4% and 8% of general fund revenues
- As a separate entity state, provides opportunities for multi-state corporations to shift income out of state
- A variety of tax credits are used to reduce the statutory rate

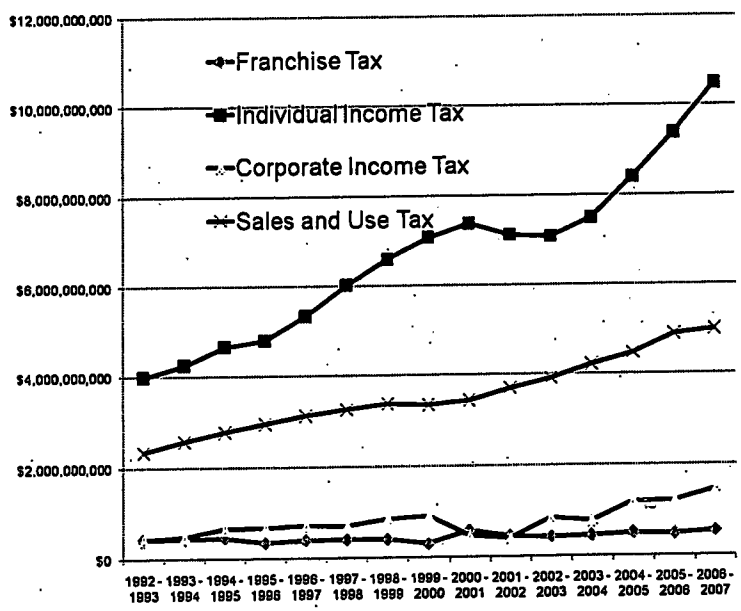
Causes of shrinking base:

- State credits and exemptions
- Tax planning
- Federal policy (depreciation etc.)

NC STATE UNIVERSITY

Problems with the Individual Income Tax

- Volatile
- Depends on "bracket creep"
- Uncompetitive: High rates, paid by small businesses operating as proprietorships and owners of flow through entities as well as individuals



Taxes as % of Income

North Carolina - 10% (Ranked 28th in nation)

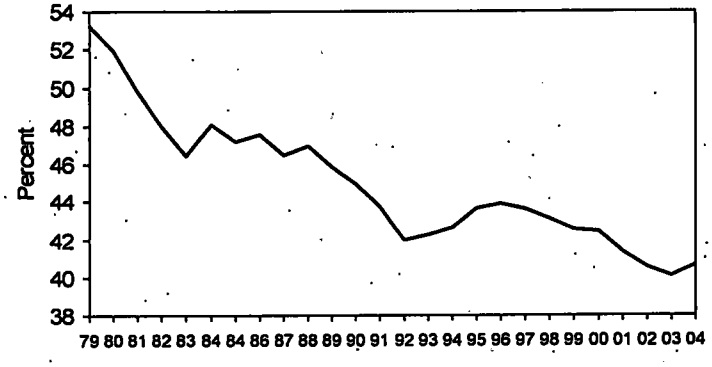
Problems with the Sales Tax

- Discriminates against manufacturing (services are largely not subject to tax)
- Relies on a shrinking and volatile base
- Regressive dependence on tangible goods

Sales Tax

- FTA catalogs 168 separate services
- NC taxes 30 services
- Average services taxed by a state = 56
- 18 states tax fewer services than NC
- 4 states tax over 140 services

The Eroding Sales Tax Base as a Percent of Personal Income

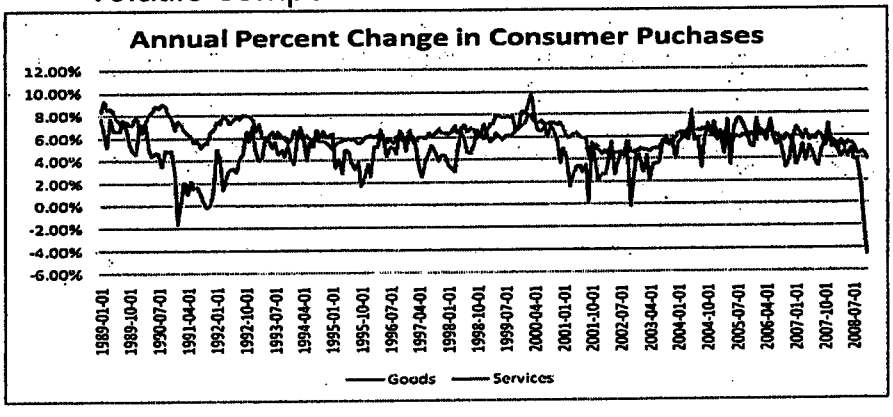


Personal Consumption Expenditures 1979 and 2007

	1979 Percent	2007 Percent
Total Expenditures	100.0	100.0
Durable Goods	13.4	11.1
Nondurable Goods	39.1	29.2
Services	47.4	59.7

Sales Tax

The NC sales tax base rests on the more volatile component.



Sales Tax

As a result sales tax rates are constantly raised.

Yet rate increases do not raise total revenues

GENERAL ASSEMBLY OF NORTH CAROLINA
SESSION 2009

H 4

HOUSE BILL 148*
Committee Substitute Favorable 3/11/09
Committee Substitute #2 Favorable 4/15/09
Fourth Edition Engrossed 4/22/09

Short Title: Congestion Relief/Intermodal Transport Fund. (Public)

Sponsors:

Referred to:

February 12, 2009

A BILL TO BE ENTITLED

AN ACT TO ESTABLISH A CONGESTION RELIEF AND INTERMODAL TRANSPORTATION 21ST CENTURY FUND; TO PROVIDE FOR ALLOCATION OF THOSE FUNDS TO: (1) LOCAL GOVERNMENTS AND TRANSPORTATION AUTHORITIES FOR PUBLIC TRANSPORTATION PURPOSES, (2) SHORT-LINE RAILROADS, FOR ASSISTANCE IN MAINTAINING AND EXPANDING FREIGHT SERVICE STATEWIDE, (3) RAILROADS FOR INTERMODAL FACILITIES, MULTIMODAL FACILITIES, AND INLAND PORTS, (4) MAKE CAPITAL IMPROVEMENTS ON RAIL LINES TO ALLOW IMPROVED FREIGHT SERVICE TO THE PORTS AND MILITARY INSTALLATIONS, (5) EXPAND INTERCITY PASSENGER RAIL SERVICE; TO EXTEND LEVELS OF LOCAL TRANSIT FUNDING AUTHORIZATION TO THREE URBAN REGIONS; AND TO ALLOW OTHER LOCAL GOVERNMENTS OPTIONS FOR LOCAL TRANSIT FUNDING.

The General Assembly of North Carolina enacts:

FUND ESTABLISHED

SECTION 1. Chapter 136 of the General Statutes is amended by adding a new Article to read:

"Article 19.

"Congestion Relief and Intermodal 21st Century Transportation Fund.

"**§ 136-250. Congestion Relief and Intermodal Transportation 21st Century Fund.**

There is established in the State treasury the Congestion Relief and Intermodal Transportation 21st Century Fund, hereinafter referred to as the Fund. The Fund shall consist of all revenues appropriated and allocated to it. Interest on earnings of the Fund shall remain within the Fund.

"**§ 136-251. Findings of fact.**

The General Assembly finds that:

(1) Increased use of rail for transport of freight will reduce highway congestion as well as allow economic expansion in a way that lessens the impact on the State highway system.

(2) Public transportation, in addition to a program of urban loops and toll roads, will enable North Carolina to have a balanced 21st century transportation system.

(3) As part of its initial program of internal improvements, the State capitalized the North Carolina Railroad in the 1840s and invested in other railroads, and those internal improvements led to North Carolina's rapid economic development. The North Carolina Railroad, with a 317-mile corridor from Charlotte to Morehead City, is still owned by the State.

(4) Improved rail facilities and restoration of abandoned rail lines can allow increased access to the North Carolina State ports and military installations located within the State.

(5) Session Law 2005-222 found that expanding and upgrading passenger, freight, commuter, and short-line rail service is important to the economy of North Carolina; and provided that the State would seek to provide matching funds partly so it can leverage the maximum federal and private participation to fund needed rail initiatives, such as the restoration of the rail corridor from Wallace to Castle Hayne and a rail connection between north-south and east-west routes in the vicinity of Pembroke.

(6) Rail freight plays a vital role in economic development throughout the State. Intermodal service depends on partnerships with railroads, trucking companies, seaports, and others in the transportation logistics chain. North Carolina has 3,250 mainline miles of track, with Class I railroads holding seventy-nine percent (79%) of the trackage rights, the remainder controlled by local railroads and switching and terminal railroads. The 2006 Mid-Cycle Update to the North Carolina Statewide Intermodal Transportation Plan identified seven hundred ninety-nine million dollars ($799,000,000) in freight rail needs over the next 25 years, including maintenance and preservation, modernization, and expansion.

(7) North Carolina's short-line railroads play a key role in the State's economic development and transportation service and are needed to provide essential services to other modes of transportation and the North Carolina port system. North Carolina agriculture is dependent upon essential service by short-line railroads. State funds are needed to maintain short-line railroads as viable contributors to economic development, agriculture, and transportation in this State in order to prevent the loss of regional rail service. The Department of Transportation reported that 44,992 rail cars handled by short-lines kept 179,688 trucks off North Carolina highways. Short-line railroads are essential to preserve and develop jobs in rural and small urban areas of North Carolina.

(8) Intermodal facilities and inland ports can greatly reduce freight traffic on North Carolina's highway system, reducing demand, congestion, and damage.

(9) The proposed North Carolina International Terminal will need high-capacity intermodal access.

(10) Most of North Carolina's growth is in its urban regions. According to the State Data Center, during the first decade of the 21st century, sixty-six percent (66%) of the projected 1,270,000 growth in population is in 15 urban counties surrounding Charlotte, Raleigh, and the Triad, while forty percent (40%) is in just six counties: Mecklenburg, Wake, Durham, Orange, Forsyth, and Guilford.

(11) This large urban population growth greatly taxes resources. Despite the visionary creation of the Highway Trust Fund by the 1989 General Assembly and the funding of urban loop highways, congestion continues to worsen. Creation of a special fund to help meet urban transportation needs

with alternatives such as rail transit and buses, coupled with land-use planning, will spur and guide economic development in a more economically and environmentally sound manner. Investment in public transportation facilitates economic opportunity to the State through job creation, access to employment, and residential and commercial development. Public transportation also protects the public health by decreasing air pollution and reducing carbon emissions. It reduces traffic congestion, road expenditures, public and private parking costs, and the number of traffic accidents. Charlotte's recent success in opening the first phase of its light rail system, with ridership significantly over projections, shows that North Carolinians are willing to use transportation alternatives.

(12) Significant local revenues are needed to match State funds so that a major portion of the expenses is borne by the localities receiving the majority of the benefits. A local option sales tax for public transportation was approved by a fifty-eight percent (58%) favorable vote in Mecklenburg County in 1998 and reaffirmed by a seventy percent (70%) favorable vote in 2007. Extending this authority to additional jurisdictions, along with other revenue options, will enable localities to demonstrate local support for additional transit options.

(13) Surveys have indicated broad public support for providing additional public transportation options and for allowing localities to generate revenue to match State grants.

If a referendum in a district fails in all the counties in the district, the transportation authority may abolish the special district.

(b) Resolution. – The board of trustees of the regional public transportation authority may, if all of the conditions listed in this subsection have been met, direct the respective county board or boards of elections to conduct an advisory referendum within the special district on the question of whether a local sales and use tax at the rate of one-half percent (1/2%) may be levied within the district in accordance with this Part. The tax may not be levied without voter

approval. The election shall be held on a date jointly agreed upon by the authority, the county board or boards of commissioners, and the county board or boards of elections and shall be held in accordance with the procedures of G.S. 163-287. An election to authorize the levy of a tax under this Part may be held only on one of the following dates: (i) Tuesday after the first Monday of November in the even-numbered year, the date of the general election under G.S. 163-1, (ii) the date of the primary election in the even-numbered year under G.S. 163-1(b), (iii) Tuesday after the first Monday in November of the odd-numbered year, or (iv) a date in September or October of the odd-numbered year as listed in G.S. 163-279(a)(2), (3), or (4) but only if at least one municipality in the county is holding a primary or election on that date. (d) Expansion. – If a special district created under this Part does not include all the counties in the territorial jurisdiction of a transportation authority, it may be expanded to include an additional whole county or counties by joint action of the board of trustees of the transportation authority and the board of commissioners of the county or boards of commissioners of the counties to be added, with the approval of the voters in the county or counties to be added. The procedure for expansion of a district is the same as for the initial creation of the district, but the referendum shall be held separately within each of the counties to be added.

"§ 105-510.9. Levy and collection of sales and use tax – regional public transportation authority.

If the majority of those voting in a referendum held pursuant to G.S. 105-510.8 vote for the levy of the tax, the transportation authority may, by resolution, levy one-half percent (1/2%) local sales and use taxes within the special district, in addition to any other State and local sales and use taxes levied pursuant to law. In determining the results of the election in a multicounty district, all the counties of the district shall be considered to be one unit but also must receive a majority vote in each county, except that if the referendum is passed in one or more but not all of the counties, the counties in which the referendum was not approved are removed from the special district upon certification of the election result and the county or counties that approved the referendum shall remain in the special district. Except as provided in this Part, the adoption, levy, collection, administration, and repeal of these additional taxes shall be in accordance with Article 39 of this Chapter. In applying the provisions of Article 39 of this Chapter to this Article, references to 'this Article' mean 'Part 3A of Article 43 of Chapter 105 of the General Statutes.' The procedure for expansion of the district is the same as for the initial creation of the district, but the referendum shall be held separately in the county to be added.

"**§ 105-510.11. Levy and collection of sales and use tax – regional transportation authority.**

If the majority of those voting in a referendum held pursuant to G.S. 105-510.10 vote for the levy of the tax, the transportation authority may, by resolution, levy one-half percent (1/2%) local sales and use taxes within the special district, in addition to any other State and local sales and use taxes levied pursuant to law. In determining the results of the election in a multicounty district, all the counties of the district shall be considered to be one unit but also must receive a majority vote in each county, except that if the referendum is passed in one but not both of the counties, the county in which the referendum was not approved is removed from the special district upon certification of the election result and the county that approved the referendum

shall remain in the special district. BILL ANALYSIS:

Part 1. State grant program for intermodal transit)

House Bill 148 creates the Congestion Relief and Intermodal 21st Century Transportation Fund and authorizes the Secretary of Transportation, after consultation with the Board of Transportation, to make grants from the fund to the following:

1) Local governments and transportation authorities for public transportation. The grant requires (i) approval of the application by the Metropolitan Planning Organizations covering the applicant; and (ii)

transit plan covering various planning policies and housing needs. Grant can not exceed 25% of project cost.

2) Short line railroads to assist in economic development and access to ports and military installations. Grant can not exceed 50% of project cost and total annual grants limited to $5 million.

3) Railroads to assist in rail improvements, intermodal or multimodal facilities or restorations to (i) serve ports, military installations, inland ports or (ii) improve rail infrastructure to reduce or mitigate truck traffic on the highway system. Grant can not exceed 50% of project cost and total annual grants limited to $10 million.

4) State ports for terminal railroads and improved access to military facilities and Intermodal or multimodal facilities. Grant can not exceed 50% of project cost and total annual grants limited to $10 million.

5) Expansion of intercity passenger rail service.

Part 2. Sales tax authorization

House Bill 148 authorizes counties to levy additional sales and use tax for public transportation purposes. The rate of tax varies as described below. This part also allows special districts created to levy a sales tax to receive an annual refund of sales and use tax paid by the district.

Mecklenburg

No change from current law (1997 transit tax legislation) except that funds can be used for bicycle and pedestrian infrastructure that supports public transportation.

Triangle and Triad ½% sales tax

1) A 1/2% sales tax may be levied in one or more of Durham, Orange and Wake Counties (Triangle), or one or more of Forsyth and Guilford (Triad), to be used only for public transportation.

2) To authorize tax, the board of Triangle Transit for the Triangle and PART (Piedmont Authority for Regional Transportation) for the Triad, and the county board(s) of commissioners of the counties where the taxes to be levied must jointly agree to establish a special tax district and conduct a referendum. The date of the referendum is to be agreed on jointly by the transit authority board, the county board(s) of elections, and the county board(s) of commissioners.

3) If the tax is approved in all the counties voting, the tax will apply in all those counties. If the tax is approved in less than all the counties voting, the tax may be levied in any county that approves it. If a particular county votes no, the tax can not be levied in that county. After a successful referendum, the transit authority board may levy the tax.

4) Prior to levy of the tax, (which could be before or after the referendum) a financial plan must be approved by (i) the transit authority board (ii) the board of commissioners of each county where the tax is to be levied, and (iii) all Metropolitan Planning Organizations whose jurisdiction includes any of the area of the special district.

5) The financial plan must provide for equitable use of the net proceeds within or to benefit the special district and consider (i) the identified needs of local public transportation systems in the district, (ii) human service transportation systems within the district, and (iii) expansion of public transportation systems to underserved areas of the district. The plan may be revised from time to time. An interlocal agreement between the transportation authority and all the counties in the special district may require periodic review and approval of the financial plan.

6) The transit authority board will be the management agency for any multi-county district. The county board of commissioners is the management agency for any single county district, but may contract with the transit authority as needed for operation of the system.

7) If the district is approved in a referendum and does not consists of all three counties in the Triangle or both Triad counties, it may be expanded to include an additional county or counties by joint action of the transit authority and the board of commissioners of the county or counties to be added, with a favorable referendum in the county or counties to be added.

8) Repeal of the tax requires the approval of the transit authority and the county boards of commissioners of the counties involved, and a referendum. A referendum on repeal can also be forced by a petition of 15% of the registered voters of the district.

Remaining 94 counties

House Bill 148 authorizes the remaining 94 counties to levy a sales tax of ¼% with a referendum called by the county board of commissioners, but only if the county or a municipality within that county operates or contracts for the operation of a public transportation system and only if the county has levied the ¼ cent county sales tax authorized under Article 46 of Chapter 105 of the General Statutes. Funds may be used only for public transportation and are allocated between the county and the city under the same formula as for the increased vehicle registration fee set out in Section 4 of the bill.

Part 3. Increase transit vehicle registration fee

Since 1991 Triangle Transit has been authorized to levy a five dollar vehicle registration fee, collected by DMV, an authorization later extended to the Triad. The three Triangle counties are currently at the maximum. In the Triad, only Randolph County is levying the tax. Since legislative authorization in 1991, inflation brings the value of that $5.00 to $7.85. HB 148 will authorize the fee to be increased to a maximum of $7.00, effective immediately and to $8.00, effective July 1, 2010. In the Triangle, a fee increase would need to be approved by the Triangle Transit Board, the boards of commissioners of all three counties, and by a special tax board consisting of two commissioners from each of the three counties, as provided by current law. In the Triad, the current fee authorization is on a county by county basis with the approval of the PART board and the board of commissioners of the county.

Part 4. Vehicle registration fee

The bill will allow all counties where there is a county or municipal transit system to levy a vehicle registration fee of up to seven dollars. The fee will be collected by DMV as is the current Triangle Transit registration fee. Within the levying county, the tax will be shared by the county and municipalities, with the county receiving funds based on the population in the unincorporated areas and the municipalities based on the population within the corporate limits. If the county does not operate a transit system it does not get a share of the funds, likewise any municipality not operating a transit system does not get a share of the funds. Those funds will be reallocated to those entities within the county that do operate a transit system. The county or city does not have to operate the system directly. It may contract for operation with another county or city, regional transit agency, or private entity. Funding allocation for human services transportation operating countywide can be determined by interlocal agreement.

Part 5. Vehicle registration tax conformed to new registration system deadlines

HB 148 will conform the deadlines for changes to the regional authority registration taxes with the Division of Motor Vehicles combined registration/inspection renewal system by increasing the amount of notice the DMV receives before a change would go into effect.

Part 6. Supplemental property tax

HB 148 will authorize a supplemental property tax in the Research Triangle Park special tax district. Under 1985 legislation, that district can levy a tax up to 10 cents on each $100 value of property for general municipal purposes. The bill authorizes an additional 10 cents on each $100 value of property for public transportation with the RTP or to provide for public transportation from RTP to other public transportation systems or to other places outside RTP such as RDU airport. This language has been agreed to by a special ballot of property owners in RTP over the last several weeks. Each one cent raises approximately $430,000 per year. The actual tax levy has to be agreed upon each year by the special tax district advisory board and the Wake and Durham County Boards of Commissioners.

EFFECTIVE DATE: The act would be effective when it becomes law.

PRINCIPAL DEPARTMENT(S) & PROGRAM(S) AFFECTED: NC local governments; NC Department of Revenue

EFFECTIVE DATE: Effective when it becomes law, Section 3(d) is effective July 1, 2010.

BILL SUMMARY: House Bill 148 establishes a Congestion Relief and Intermodal Transportation 21st Century Fund to be used for:

- Local governments and transportation authorities for public transportation.
- Short line railroads for maintenance and expansion of freight service.
- Railroads for Intermodal and multimodal facilities and inland ports.
- State ports for terminal railroads and improved access to military facilities.
- Expansion of intercity passenger rail service.

The bill also extends the taxing authority of local governments to generate revenue for public transportation:

- It gives transportation authorities the power, with voter approval, to levy a 1/2% local sales tax to be used only for public transportation systems. (Applies to some counties in the Triangle Transit Authority and Piedmont Authority for Regional Transportation)
- It gives counties that operate a public transportation system the power, with voter approval, to adopt a ¼% local sales tax to be used only for public transportation systems.

- It authorizes regional transit authorities to increase the local vehicle registration tax from a maximum of $5.00 to a maximum of $7.00 to adjust for inflation. The authorization is increased to $8.00, effective July 1, 2010.
- It authorizes counties with a county or municipal transit system to levy a maximum local vehicle registration tax of $7.00 per year.
- It authorizes a county to levy an additional property tax within a research and production service district not in excess of ten cents on each $100 of value to be used only for public transportation. This property tax applies to the Research Triangle Park special tax district.
- It adds special districts that levy a local sales tax for public transportation purposes to the list of governmental entities allowed an annual sales tax refund.

ASSUMPTIONS AND METHODOLOGY: HB 148 bill creates a fund financed through an undesignated amount of General Fund appropriations and gives local jurisdictions the authority to levy additional sales and property taxes.

Section 1 of the bill establishes the Congestion Relief and Intermodal Transportation 21st Century Fund. Grants towards public transportation purposes would be made from the fund based on the criteria set forth in the bill. The amount of grant funding would depend on the appropriations authorized for the fund.

The sales tax option in Section 2 allows Wake, Orange, Durham, Guilford and Forsyth counties to levy a half-cent sales tax for public transportation. Other counties with public transit systems would be allowed the option of a quarter-cent sales tax (except for Mecklenburg, which already has a half-cent sales tax for public transportation).

Section 3 of the bill allows counties within the Triangle Transit Authority (TTA) and Piedmont Authority for Regional Transportation (PART) to by resolution increase the current motor vehicle registration fee by three dollars. The fee could be increased by two dollars in FY 09-10 and another dollar in FY 10-11. All counties with a public transit system would be allowed to levy an additional three dollars in vehicle registration taxes towards regional transit funding.

In addition to the regional transit vehicle registration fee increases, Section 4 of the bill allows all counties to enact Article 52, the County Vehicle Registration Fee. The county registration fee cannot exceed seven dollars per vehicle. Revenue from the county sales and vehicle registration taxes would be distributed between the county and municipalities based on population; however, no county or municipality would receive funding unless it operates a public transit system.

Tables 1 and 2 below provide data on the additional revenue that could be generated in the TTA and PART counties by the increases in the current vehicle registration tax, the county vehicle registration tax and the half-cent or quarter-cent sales tax. Because food is exempted from the Article 43 tax option, the sales tax estimates exclude food as a taxable item.

Property Tax
The bill also allows a ten-cent increase in the property tax rate for the Research Triangle Park Special Tax District. Currently, the property tax in the district generates $430,000 per penny. Therefore, a ten-cent increase would generate $4.3 million in additional revenue.

(1) All (i) real property in the district is being used for or is subject to covenants that limit its use to research or scientifically-oriented production or for associated commercial or institutional ~~purposes.~~purposes or (ii) if all the real property in the district is part of a multijurisdictional industrial park that satisfies the criteria of G.S. 143B-437.08(h), all such real property in the district is subject to covenants that limit its use to research or scientifically oriented production, associated commercial or institutional purposes, or other industrial and associated commercial and institutional uses.

(2) The district (i) contains at least 4,000 ~~acres.~~acres or (ii) satisfies the criteria of G.S. 143B-437.08(h).

(3) The district (i) includes research and production facilities that in combination employ at least 5,000 ~~persons.~~persons or (ii) satisfies the criteria of G.S. 143B-437.08(h).

(4) All real property located in the district was at one time or is currently owned by a nonprofit corporation, which developed or is developing the property as a research and production park.

(5) A petition requesting creation of the district signed by at least fifty percent (50%) of the owners of real property in the district who own at least fifty percent (50%) of total area of the real property in the district has been presented to the board of commissioners. In determining the total area of real property in the district and the number of owners of real property, there shall be excluded (1) real property exempted from taxation and real property classified and excluded from taxation and (2) the owners of such exempted or classified and excluded property.

(6) The district has no more than 25 permanent residents.

(7) There exists in the district an association of owners and tenants, to which at least seventy-five percent (75%) of the owners of real property belong, which association can make the recommendations provided for in G.S. 153A-313. This subdivision shall not apply to a research and production service district that satisfies the criteria of G.S. 143B-437.08(h).

(8) There ~~exist~~ exists, or will exist when conveyed by the nonprofit corporation described in subdivision (4) of this subsection, deed-imposed conditions, covenants, restrictions, and reservations that apply to all real property in the district other than property owned by the federal government.

(9) No part of the district lies within the boundaries of any incorporated city or town.

(2) It is impossible or impracticable to provide on a countywide basis the additional or higher levels of services, facilities, or functions proposed for the district; and

(3) It is economically feasible to provide the proposed services, facilities, or functions to the district without unreasonable or burdensome tax levies.

(b) Multi-County Districts. – If an area that meets the standards for creation of a research and production service district lies in more than one county, the boards of commissioners of those counties may adopt concurrent resolutions establishing a service district, even if that portion of the district lying in any one of the counties does not by itself meet the standards. Each of the county boards of commissioners shall follow the procedure set out in this section for creation of a service district.

If a multi-county service district is established, as provided in this subsection, the boards of commissioners of the counties involved shall jointly determine whether the same appraisal and assessment standards apply uniformly throughout the district. This determination shall be set out in concurrent resolutions of the boards. If the same appraisal and assessment standards apply uniformly throughout the district, the boards of commissioners of all the counties shall levy the same rate of tax for the district, so that a uniform rate of tax is levied for district purposes throughout the district. If the boards determine that the same standards do not apply uniformly throughout the district, the boards shall agree on the extent of divergence between the counties and on the resulting adjustments of tax rates that will be necessary in order that an effectively uniform rate of tax is levied for district purposes throughout the district.

The boards of commissioners of the counties establishing a multi-county service district pursuant to this subsection may, by concurrent resolution, provide for the administration of services within the district by one ~~county~~ or more counties on behalf of all the establishing counties.

(c) Report. – Before the public hearing required by subsection (d), the board of commissioners shall cause to be prepared a report containing:

The report shall be available for public inspection in the office of the clerk to the board for at least four weeks before the date of the public hearing.

(d) Hearing and Notice. – The board of commissioners shall hold a public hearing before adopting any resolution defining a service district under this section. Notice of the hearing shall state the date, hour, and place of the hearing and its subject, and shall include a map of the proposed district and a statement that the report required by subsection (c) is available for public inspection in the office of the clerk to the board. The notice shall be published at least once not less than one week before the date of the hearing. In addition, it shall be mailed at least four weeks before the date of the hearing by any class of U.S. mail which is fully prepaid to the owners as shown by the county tax records as of the preceding January 1 (and at the address shown thereon) of all property located within the proposed district. The person designated by the board to mail the notice shall certify to the board that the mailing has been completed and his certificate is conclusive in the absence of fraud.

(e) Effective Date. – The resolution defining a service district shall take effect at the beginning of a fiscal year commencing after its passage, as determined by the board of commissioners."

SECTION 3.(b) G.S. 153A-313 reads as rewritten:

"**§ 153A-313. Advisory committee.**

(a) The board or boards of commissioners, in the resolution establishing a research and production service district, shall also provide for an advisory committee for the district. Such a committee shall have at least 10 members, serving terms as set forth in the resolution; one member shall be the representative of the developer of the research and production park. The resolution shall provide for the appointment or designation of a chairman. The board of commissioners or, in the case of a multi-county service district, the boards of commissioners shall appoint the members of the advisory committee. If a multi-county service district is established, the concurrent resolutions establishing the district shall provide how many members of the advisory committee are to be appointed by each board of commissioners. Before making the appointments, the appropriate board shall request the association of owners and tenants, required by G.S. 153A-312(a), to submit a list of persons to be considered for appointment to the committee; the association shall submit at least two names for each appointment to be made. Except as provided in the next two sentences, the board of commissioners shall make the appointments to the committee from the list of persons submitted. In addition, the developer of the research and production park shall appoint one person to the advisory committee as the developer's representative on the committee. In addition, in a single county service district, the board of commissioners may make two additional appointments of such other persons as the board of commissioners deems appropriate, and in a multi-county service district, each board of county commissioners may make one additional appointment of such other person as that board of commissioners deems appropriate. Whenever a vacancy occurs on the committee in a position filled by appointment by a board of commissioners, the appropriate board, before filling the vacancy, shall request the association to submit the names of at least two persons to be considered for the vacancy; and the board shall fill the vacancy by appointing one of the persons so submitted, except that if the vacancy is in a position appointed by the board of commissioners under the preceding sentence of this section, the board of commissioners making that appointment shall fill the vacancy with such person as that board of commissioners deems appropriate.

Each year, before adopting the budget for the service district and levying the tax for the district, the board or boards of commissioners shall request recommendations from the advisory

committee as to the level of services, facilities, or functions to be provided for the district for the ensuing year. The board or boards of commissioners shall, to the extent permitted by law, expend the proceeds of any tax levied for the district in the manner recommended by the advisory board.

(b) In the event that the research and production service district satisfies the criteria of G.S. 143B-437.08(h), the board of directors for the nonprofit corporation which owns the industrial park shall serve as the advisory committee described in subsection (a) of this section."

SECTION 3.(c) G.S. 153A-317 reads as rewritten:

"**§ 153A-317. Taxes authorized; rate limitation.**

A county may levy property taxes within a research and production service district in addition to those levied throughout the county, in order to finance, provide, or maintain for the district services provided therein in addition to or to a greater extent than those financed, provided, or maintained for the entire county. In addition, a county may allocate to a service district any other revenues whose use is not otherwise restricted by law. The proceeds of taxes only within a service district may be expended only for services provided for the district.

Property subject to taxation in a newly established district or in an area annexed to an existing district is that subject to taxation by the county as of the preceding January 1.

Such additional property taxes may not be levied within any district established pursuant to this Article in excess of a rate of ten cents (10¢) on each one hundred dollars ($100.00) value of property subject to ~~taxation.~~taxation or, in the event that the research and production service district satisfies the criteria of G.S. 143B-437.08(h), such additional property taxes may not be levied within said district in excess of a rate of fifteen cents (15¢) on each one hundred dollars ($100.00) value of property subject to taxation."

SECTION 4. This act is effective when it becomes law. Subsections (b) and (c) of Section 1 of this act expire July 1, 2012.

HOUSE BILL 1514:
IDF Changes/Research & Prod. Serv. Districts

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	August 4, 2009
Introduced by:	Reps. Crawford, Dickson, Gibson	**Prepared by:**	Cindy Avrette Committee Counsel
Analysis of:	Third Edition		

SUMMARY: House Bill 1514 does the following:

- ***Makes changes to the Industrial Development Fund (IDF) as follows:***
  - ***Increases from $5,000 to $10,000 the maximum rate expended per job.***
  - ***Authorizes the use of funds for job retention (in addition to job creation, which is the current law).***
  - ***Expands the definition of "economically distressed county" to include all tier 1 and tier 2 counties.***
- ***Exempts from rulemaking the Customized Training Program within the Community College System.***
- ***Amends the County Service District Act to allow additional county research production service districts.***

CURRENT LAW: The IDF provides funds to assist local governments of the most economically distressed counties in the State in creating jobs in certain industries. Economically distressed county is defined as a county that has one of the 65 highest rankings under the development tier designation. An eligible industry is defined as a company or person engaged in the business of air courier services, information technology and services, manufacturing, or warehousing and wholesale trade. The IDF funds must be used for (i) installation of or purchases of equipment for eligible industries; (ii) structural repairs and renovations of buildings for expansion of eligible industries; or (iii) construction of or improvements to new or existing utility lines or equipment or transportation infrastructure for existing or new building for the eligible industries. Other requirements include that the funds have to be used by the city and county governments for projects that directly result in the creation of new jobs and must be expended at a maximum rate of $5,000 per new job created up to a maximum of $500,000 per project.

Within the IDF there is a special account entitled the Utility Account that provides funds to assist the local government units of the counties that have one of the 65 highest rankings under the development tier designation. The funds in the Utility Account can only be used for construction of or improvements to new or existing water, sewer, gas, telecommunications, high-speed broadband, electrical utility distribution lines or equipment, or transportation infrastructure for existing or new or proposed industrial buildings to be used for eligible industrial operations. There is no maximum funding amount per new job to be created or per project under the Utility Account.

Under the development tier designation, the 40 most distressed counties are designated as tier 1, the next 40 as tier 2 and the 20 least distressed as tier 3.

BILL ANALYSIS: House Bill 1514 makes the following changes related to the IDF:

- Increases the maximum rate by which funds in the IDF are to be expended for jobs from $5,000 to $10,000.
- Authorizes funds from the IDF to be spent for job retention as well as job creation, which is the current law.
- Expands the definition of "economically distressed county" as one that is a tier 1 or tier 2 county under the development tier designation. The current law defines the term as a county that has one of the 65 highest rankings.

- Provides funds from the Utility Account to tier 1 or tier 2 counties instead of just to counties with one of the 65 highest rankings under the development tier designation.

House Bill 1514 exempts from rulemaking the Community Colleges System Office in developing guidelines administering the Customized Training Program. The Program offers programs and training services to assist new and existing businesses to remain productive, profitable, and within the State. Although the Office is exempt from rulemaking, the bill provides that the State Board must publish the guidelines and any substantive change to the guidelines on its web site and it must accept comments on the proposals.

Lastly, House Bill 1514 authorizes additional county research and production service districts. Under current law, the board of commissioners may be resolution establish a research and production district for any area of the county if it meets the standards listed below. A county may levy property taxes within the district in addition to those levied throughout the county with a cap of 10¢ on each $100 value of property. House Bill 1514 modifies those standards to allow for the creation of such a district when all of the real property in the district is part of a multijurisdictional industrial park. The maximum property tax rate for a district meeting those criteria would be 15¢ on each $100 value of taxable property.

The current standards for a research and production service district are:

(1) All real property in the district is being used for or is subject to covenants that limit its use to research or scientifically-oriented production or for associated commercial or institutional purposes.
(2) The district contains at least 4,000 acres.
(3) The district includes research and production facilities that in combination employ at least 5,000 persons.
(4) All real property located in the district was at one time or is currently owned by a nonprofit corporation, which developed or is developing the property as a research and production park.
(5) A petition requesting creation of the district signed by at least fifty percent (50%) of the owners of real property in the district who own at least fifty percent (50%) of total area of the real property in the district has been presented to the board of commissioners. In determining the total area of real property in the district and the number of owners of real property, there shall be excluded (1) real property exempted from taxation and real property classified and excluded from taxation and (2) the owners of such exempted or classified and excluded property.
(6) The district has no more than 25 permanent residents.
(7) There exists in the district an association of owners and tenants, to which at least seventy-five percent (75%) of the owners of real property belong, which association can make the recommendations provided for in G.S. 153A-313.
(8) There exist deed-imposed conditions, covenants, restrictions, and reservations that apply to all real property in the district other than property owned by the federal government.
(9) No part of the district lies within the boundaries of any incorporated city or town.

EFFECTIVE DATE: The bill would become effective when it becomes law. The provisions that modify the qualification of counties for IDF benefits will expire in three years on July 1, 2012.

HOUSE BILL 1514
Industrial Development Fund Modifications

North Carolina's Industrial Development Fund (IDF) provides funds to eligible counties and local governments to help pay for infrastructure improvements such as water, sewer, gas or rail lines in connection to new job creation in the state's most economically distressed counties.

House Bill 1514 PCS makes the following changes to the Industrial Development Fund – G. S. 143B-437.01:

Expands the number of counties to include all Tier 2 counties eligible for IDF assistance, to sunset in 3 years.

Presently, all Tier 1 counties are eligible and only 26 of the 40 Tier 2 counties are eligible. HB 1514 would make all Tier 2 counties eligible during this critical economic climate.

The lower-tiered counties tend to be more rural and thus have a harder time recruiting industry than the more economically prosperous Tier 3 areas. The ability to make infrastructure improvements can help these counties in their recruitment efforts.

Increases the amount available for IDF assistance from the current $5,000 per job created to $10,000 per job created, up to a maximum of $500,000 per project (maximum remains unchanged).

When the first IDF grant was awarded in 1987, $5,000 had greater buying power than it does today. The result is that each mile of sewer, water, electrical (etc.) line run today costs substantially more than it did 20 years ago.

- **Infrastructure cost:** With the rate of inflation today, it would take over $9,000 to purchase the same amount that $5,000 did in 1987, which was the amount when the General Assembly created this program. IDF grantees are local units of government seeking support so that they are able to create an infrastructure (water, sewer, etc.) capable of supporting jobs.

- **Most distressed counties are rural:** The distance from existing water/sewer systems in rural areas is a factor for construction cost.

Between 2005 and 2009: 27 rural counties leveraged $6.27 million in IDF grants, securing commitments for 2,111 jobs and more than $1 billion in investment.

A BILL TO BE ENTITLED

AN ACT TO ADD THE OFFICE OF STATE TREASURER TO THE COUNCIL OF STATE OFFICES SUBJECT TO THE VOTER-OWNED ELECTIONS ACT; TO MAKE TECHNICAL CHANGES TO THE ACT; AND TO PROVIDE FUNDING FOR THE ACT.

The General Assembly of North Carolina enacts:

SECTION 1. Article 22J of Chapter 163 of the General Statutes reads as rewritten:

"Article 22J.

"The Voter-Owned Elections Act.

"§ 163-278.95. Purpose and establishment of Voter-Owned Elections Act.

The purpose of this Article is to ensure the vitality and fairness of democratic elections in North Carolina to the end that any eligible citizen of this State can realistically choose to seek and run for public office. It is also the purpose of this Article to protect the constitutional rights of voters and candidates from the detrimental effects of increasingly large amounts of money being raised and spent in North Carolina to influence the outcome of elections. It is essential to the public interest that the potential for corruption or the appearance of corruption is minimized and that the equal and meaningful participation of all citizens in the democratic process is ensured. Accordingly, this Article establishes the North Carolina Voter-Owned Elections Fund as an alternative source of campaign financing for candidates who obtain a sufficient number of qualifying contributions from registered voters and who voluntarily accept strict fund-raising and spending limits. This Article is available to candidates for the Council of State offices of Auditor, Superintendent of Public Instruction, Treasurer, and Commissioner of Insurance in elections to be held in 2008 and thereafter.

(5) Contested primary and contested general election. – An election in which there are more candidates than the number to be elected.

(6) Contribution. – Defined in G.S. 163-278.6. A distribution from the Fund pursuant to this Article is not a "contribution" and is not subject to the limitations of G.S. 163-278.13 or the prohibitions of G.S. 163-278.15 or G.S. 163-278.19. Instead of being subject to G.S. 163-278.16B, distributions are subject to the guidelines issued by the Board pursuant to G.S. 163-278.98(e)(5).

(6a) Electioneering communication. – As defined in G.S. 163-278.80 and G.S. 163-278.90, except that it is made during the period beginning 30 days before absentee ballots become available for a primary and ending on primary election day and during the period 60 days before absentee ballots become available for a general election and ending on general election day.

If the candidate has a contested primary, ~~200~~ two hundred dollars ($200.00) times the ~~filing fee~~ minimum number of qualifying contributions required by G.S. 163-278.98(b) for the office sought.

(11) Nonparticipating candidate. – A candidate for office who is not seeking to be certified under G.S. 163-278.98(c).

In the case of a contested general election, the trigger equals the base level of funding available under G.S. 163-278.99(b)(4).

"**§ 163-278.97. Voter-Owned Elections Fund established; sources of funding.**

(a) Establishment of Fund. – The North Carolina Voter-Owned Elections Fund is established to finance the election campaigns of certified candidates for office and to pay administrative and enforcement costs of the Board related to this Article. The Fund is a special, dedicated, nonlapsing, nonreverting fund. Any interest generated by the Fund is credited to the Fund. The Board shall administer the Fund.

(b) Sources of Funding. – Money received from all the following sources must be deposited in the Fund:

(1) Unspent Fund revenues distributed for an election that remain unspent or uncommitted at the time the recipient is no longer a certified candidate in the election.

(2) Money ordered returned to the Fund in accordance with G.S. 163-278.99D.

(3) Money paid to the Fund equal to excess contributions as provided in G.S. 163-278.98(e)(1).

(4) Voluntary donations made directly to the Fund.

(5) Appropriations from the General Fund.

(c) Evaluation and Determination of Fund Amount. – By January 1, 2011, and every four years thereafter, the Board, in conjunction with the Advisory Council established under G.S. 163-278.68(b), shall prepare and provide to the Joint Legislative Commission on Governmental Operations of the General Assembly a report documenting, evaluating, and making recommendations relating to the administration, implementation, and enforcement of this Article. In its report, the Board shall set out the funds received to date and the expected needs of the Fund during the next election cycle and make recommendations about the feasibility of expanding its provisions to include other candidates for State office based on the experience of this Article and the experience of similar programs in North Carolina and other states. The Board shall also evaluate and make recommendations regarding how to address activities that could undermine the purpose of this Article, including spending that appears to target candidates but is not reached by regulation.

"**§ 163-278.97A. Limitation on use of the Fund.**

If the amount in the Fund is less than two million two hundred fifty thousand dollars ($2,250,000) on August 1 of the year before an election, then only certified candidates for Auditor, Superintendent of Public Instruction, and Commissioner of Insurance shall be eligible for a distribution of funds in accordance with G.S. 163-278.99. Certified candidates for Treasurer shall be eligible for a distribution of funds if the amount in the Fund is at least four million five hundred thousand dollars ($4,500,000). Based upon documentation of the Fund's projected receipts and other factors, the Board may lower the dollar amounts in this section by a majority vote taken by September 1 of the year before an election.

"**§ 163-278.98. Requirements for participation.**

(a) Declaration of Intent to Participate. – Any individual choosing to receive campaign funds from the Fund shall first file with the Board a declaration of intent to participate in the program established by this Article as a candidate for a stated office. The declaration of intent shall be filed before or during the qualifying period and before collecting any qualifying contributions. In the declaration, the candidate shall swear or affirm that only one political committee, identified with its treasurer, shall handle all contributions, campaign-related expenditures, and obligations for the participating candidate and that the candidate will comply with the contribution and expenditure limits set forth in subsection (e) of this section and all other requirements set forth in this Article or adopted by the Board. Failure to comply is a violation of this Article.

(b) Demonstration of Support of Candidacy. – In order to be certified, participating candidates must obtain qualifying contributions from at least ~~750~~ 900 registered voters in this ~~State.~~ State, and from an additional 100 registered voters in this State for each one hundred

thousand dollars ($100,000) that the grant amount for the office under G.S. 163-278.99(b)(4) exceeds three hundred thousand dollars ($300,000). Multiple contributions from the same individual to the same candidate shall not count as more than one qualifying contribution.

The qualifying contributions shall be equal to at least ~~25~~ twenty dollars ($20.00) times the ~~amount of the filing fee for the office.~~ minimum number of qualifying contributions but shall not exceed the maximum qualifying contributions defined in G.S. 163-278.96(10). No payment, gift, ~~or~~ anything of ~~value~~ value, or the opportunity to win anything of value shall be given in exchange for a qualifying contribution.

(c) Certification of Candidates. – Upon receipt of a submittal of the record of qualifying contributions by a participating candidate, the Board shall determine whether or not the candidate has:

(1) Filed a completed declaration of intent to participate in this Article.

(2) Submitted a report itemizing the appropriate number of qualifying contributions received from registered voters, which the Board shall verify through a random sample or other means it adopts. The report shall include the county of residence of each registered voter listed.

(3) Filed a notice of candidacy with the State Board of Elections as a candidate for the office.

(4) Otherwise met the requirements for participation in this Article.

The Board shall certify candidates complying with the requirements of this section as soon as possible and no later than five business days after receipt of a satisfactory record of qualifying contributions.

(d) Final Report for Qualifying Contributions. – No later than five business days after the end of the qualifying period, all participating candidates shall submit a report to the Board of all previously unreported qualifying contributions, in accordance with procedures developed by the Board. Within seven business days after submittal of the final report, the Board shall determine, through a random audit or other means it adopts, whether the contributions abide by the definition of qualifying contributions, whether they must be returned to the donor, and whether they exceed the maximum amount of qualifying contributions.

(e) Restrictions on Contributions and Expenditures for Participating and Certified Candidates. – The following restrictions shall apply to contributions and expenditures with respect to participating and certified candidates:

(1) Beginning August 1 of the year before the election and before filing a declaration of intent, a candidate shall limit campaign-related expenditures to twenty thousand dollars ($20,000) and shall not accept more than twenty thousand dollars ($20,000) from sources and in amounts permitted by Article 22A of this Chapter. A candidate who exceeds either of these limits shall be ineligible to file a declaration of intent or receive funds from the Fund. However, the acceptance of contributions in excess of that twenty thousand dollar ($20,000) limit does not render the candidate ineligible if the candidate pays to the Board an amount equal to the contributions accepted by the candidate in excess of that limit. The Board shall deposit all such payments into the Fund.

(2) From the filing of a declaration of intent through the end of the qualifying period, a candidate may accept only qualifying contributions, contributions under ten dollars ($10.00) from North Carolina voters, in-kind party contributions as permitted in subdivision (4) of this subsection, and personal and family contributions permitted under subdivision (4a) of this subsection. The total contributions the candidate may accept during this period shall not exceed the maximum qualifying contributions for that candidate. Except for personal and family contributions permitted under subdivision (4a) of this

subsection, multiple contributions from the same contributor to the same candidate shall not exceed two hundred dollars ($200.00). In addition to these contributions, the candidate may only expend during this period the remaining money raised pursuant to subdivision (1) of this subsection and possible matching funds received pursuant to G.S. 163-278.99B. If the candidate has any remaining money that was raised as contributions before August 1 of the year before the election, the candidate may not expend that money after filing the declaration of intent, except for purposes permitted under subdivision (2), (3), (6), (7), or (8) of G.S. 163-278.16B(a).

(3) After the qualifying period and through the date of the general election, the candidate shall cease campaign-related fund-raising ~~activities~~ activities, except as provided in subsection (b1) of this section, and shall expend only the funds the candidate receives from the Fund pursuant to G.S. 163-278.99(b) plus any funds remaining from the qualifying period and possible matching funds.

(4) In addition to the amounts above, a candidate may accept in-kind contributions from political party executive committees, up to an aggregate value of thirty thousand dollars ($30,000) for the election cycle.

(4a) During the qualifying period, the candidate may contribute up to one thousand dollars ($1,000) of that candidate's own money to the campaign. Debt incurred by the candidate for a campaign expenditure shall count toward that limit. The candidate may accept in contributions one thousand dollars ($1,000) from each member of that candidate's family consisting of spouse, parent, child, brother, and sister. Up to two hundred dollars ($200.00) of a contribution from the candidate's family member may be treated as a qualifying contribution if it meets the requirements of G.S. 163-278.96(15)a. and b.

(5) A candidate and the candidate's committee shall limit the use of all revenues permitted by this subsection to expenditures for campaign-related purposes only. The Board shall publish guidelines outlining permissible campaign-related expenditures.

(6) Except as provided in subdivision (1) of this subsection, any contribution received by a participating or certified candidate that falls outside that permitted by this subsection shall be returned to the donor as soon as practicable. Contributions intentionally made, solicited, or accepted in violation of this Article are subject to civil penalties as specified in G.S. 163-278.99D. The funds involved shall be forfeited to the Civil Penalty and Forfeiture Fund.

(7) A candidate shall return to the Fund any amount distributed for an election that is unspent and uncommitted at the date of the election or at the time the individual ceases to be a certified candidate, whichever occurs first. For accounting purposes, all qualifying, personal, and family contributions shall be considered spent before revenue from the Fund is spent or committed.

(f) Revocation. – A candidate may revoke, in writing to the Board, a decision to participate in the Fund at any time. After a revocation, that candidate may accept and expend outside the limits of this Article without violating this Article. Within 10 days after revocation, a candidate shall return to the Board all money received from the Fund.

"§ 163-278.99. Distribution from the Fund.

(a) Timing of Fund Distribution. – The Board shall distribute to a certified candidate revenue from the Fund in an amount determined under subdivision (b)(4) of this section as follows:

(1) One-third of the amount within five business days after the certified candidate's name is approved to appear on the ballot in a contested general election, but no earlier than five business days after the primary.

(2) The remainder of the amount on August 1 before the general election.

(b) Amount of Fund Distribution. ~~By August 1, 2011, and no less frequently than every four years thereafter,~~ No later than August 1 of the second year before an election, the Board shall determine the amount of funds~~, rounded to the nearest one hundred dollars ($100.00),~~ to be distributed to certified candidates as follows:

(1) ~~Uncontested primaries.~~ No primary. – No funds shall be distributed.

(2) Contested primaries. – No funds shall be distributed except as provided in G.S. 163-278.99B.

(3) Uncontested general elections. – No funds shall be distributed.

(4) Contested general elections. – The amount of funds to be distributed to a candidate is the average amount of campaign-related expenditures made in the general election by all candidates who won the immediately preceding three general elections for that office, rounded to the nearest one thousand dollars ($1,000), but not less than three hundred thousand dollars ($300,000). The distribution amount shall be reduced by an amount equal to the amount raised in qualifying contributions after the day of the primary. For purposes of this subsection, "campaign-related expenditures" does not include loan repayments and contributions to a candidate, political committee, or political party. For purposes of this subsection, expenditures are made in the general election if they are required to be reported on the third and fourth quarterly reports of that election year.

(c) Method of Fund Distribution. – The Board, in consultation with the State Treasurer and the State Controller, shall develop a rapid, reliable method of conveying funds to certified candidates. In all cases, the Board shall distribute funds to certified candidates in a manner that is expeditious, ensures accountability, and safeguards the integrity of the Fund. If the money in the Fund is insufficient to fully fund all certified candidates, then the available money shall be distributed proportionally, according to each candidate's eligible funding, and the candidate may raise additional money in the same manner as a nonparticipating candidate for the same office up to the unfunded amount of the candidate's eligible funding.

"**§ 163-278.99A. Reporting requirements.**

(a) Reporting by Noncertified Candidates and Other Entities. – Any nonparticipating candidate with a certified opponent shall report total contributions received to the Board by facsimile machine or electronically within 24 hours after the total amount of contributions received exceeds eighty percent (80%) of the trigger for matching funds as defined in G.S. 163-278.96(17). Any entity making independent expenditures in support of or in opposition to a certified candidate, or in support of a candidate opposing a certified candidate, or paying for electioneering communications referring to one of those candidates, shall report the total funds received, spent, or obligated for those expenditures or payments to the Board by facsimile machine or electronically within 24 hours after the total amount of expenditures or obligations made, or funds raised or borrowed, for the purpose of making the independent expenditures or electioneering communications exceeds five thousand dollars ($5,000). After the initial 24-hour filing, the nonparticipating candidate or other reporting entity shall comply with an expedited reporting schedule. The schedule and forms for reports required by this subsection shall ~~[be]~~ be supplied by the Board.

(b) Reporting by Participating and Certified Candidates. – Notwithstanding other provisions of law, participating and certified candidates shall report any money received and all campaign expenditures, obligations, and related activities to the Board according to procedures developed by the Board. Upon the filing of a final report for any losing primary election,

special election, or general election, each candidate who has revenues from the Fund remaining unspent shall return those revenues to the Board. In developing these procedures, the Board shall utilize existing campaign reporting procedures wherever practicable.

(c) Timely Access to Reports. – The Board shall ensure prompt public access to the reports received in accordance with this Article. The Board may utilize electronic means of reporting and storing information.

"§ 163-278.99B. Matching funds.

(a) When Matching Funds Become Available. – When any report or group of reports shows that "funds in opposition to a certified candidate or in support of an opponent to that candidate" as described in this section exceed the trigger for matching funds as defined in G.S. 163-278.96(17), the Board shall issue immediately to that certified candidate an additional amount equal to the reported excess within the limits set forth in this section. "Funds in opposition to a certified candidate or in support of an opponent to that candidate" shall be equal to the sum of subdivisions (1) and (2) as follows:

(1) The greater of the following:

a. Campaign expenditures or obligations made, or funds raised or borrowed, whichever is greater, reported by any one nonparticipating opponent of a certified candidate. Where a certified candidate has more than one nonparticipating opponent, the measure shall be taken from the nonparticipating candidate showing the highest relevant dollar amount.

b. The funds distributed in accordance with G.S. 163-278.99(b) to a certified opponent of the certified candidate.

(2) The aggregate total of all expenditures and payments reported in accordance with G.S. 163-278.99A(a) of entities making independent expenditures or electioneering communications in opposition to the certified candidate or in support of any opponent of that certified candidate.

(b) Limit on Matching Funds ~~in Contested Primary.~~ Before Date of Primary. – Total matching funds to a certified candidate ~~in a contested~~ before the date of the primary shall be limited to an amount equal to the maximum qualifying contributions for a candidate with a contested primary. Matching funds are available to a certified candidate with an opponent in the primary or to a certified candidate who is clearly referred to in expenditures reportable under G.S. 163-278.99A made in opposition to that candidate.

(c) Limit on Matching Funds in Contested General Election. – Total matching funds to a certified candidate in a contested general election shall be limited to an amount equal to two times the amount described in G.S. 163-278.99(b)(4).

(d) Determinations by Board. – In the case of electioneering communications, the Board shall determine which candidate, if any, is entitled to receive matching funds as a result of the communication. The Board shall issue matching funds based on the communication only if it ascertains that the communication is susceptible of no reasonable interpretation other than as an appeal to vote for or against a specific candidate. In making its determination, the Board shall not consider evidence external to the communication itself of the intent of the sponsor or the effect of the communication. The Board shall notify each candidate it determines is entitled to receive matching funds based on those communications, the sponsor of those communications, and any candidate who is an opponent of the candidate it determines is entitled to the matching funds. The Board shall give the sponsor of the communication and any opposing candidate an adequate opportunity to rebut the determination of the Board. In considering the rebuttal, all candidates in the race and the sponsor shall be given adequate and equal opportunity to be heard. The Board shall adopt procedures for implementing this subsection, balancing in those procedures adequacy of opportunity to rebut and adequacy and equality of opportunity to be heard on the rebuttal with the need to expedite the decision on

awarding matching funds. The Board shall distribute the matching funds, if any, at the conclusion of its process.

(e) Proportional Measuring of Multicandidate Communications. – In calculating the amount of matching funds a certified candidate is eligible to receive under this section, the Board shall include the proportion of expenditures, obligations, or payments for multicandidate communications that pertains to the candidate.

(f) No Matching Funds for Certain Communications Involving All Candidates. – No matching funds are available under this section as a result of an expenditure that supports all candidates for the same office or opposes all candidates for the same office. No matching funds are available under this section as a result of an electioneering communication that the Board ascertains is susceptible of no reasonable interpretation other than as an appeal to vote for all candidates for the same office or to vote against all candidates for the same office.

"**§ 163-278.99C. Unaffiliated and new-party candidates.**

Unaffiliated candidates certified pursuant to G.S. 163-122 and new-party candidates certified pursuant to G.S. 163-98 shall be eligible for revenues from the Fund in the same amounts and at the same time as specified in G.S. 163-278.99. For unaffiliated candidates and new-party candidates not certified to appear on the ballot by noon on the deadline set in G.S. 163-106(c) for candidate filing in the election year, the deadline for seeking certification to receive revenue from the Fund is noon on the first business day of July of the election year.

"**§ 163-278.99D. Enforcement by the Board; civil penalty.**

In addition to any other penalties that may be applicable, any individual, political committee, or other entity that violates any provision of this Article is subject to a civil penalty of up to ten thousand dollars ($10,000) per violation or three times the amount of any financial transactions involved in the violation, whichever is greater. In addition to any fine, for good cause shown, a candidate found in violation of this Article may be required to return to the Fund all amounts distributed to the candidate from the Fund. If the Board makes a determination that a violation of this Article has occurred, the Board shall calculate and assess the amount of the civil penalty and shall notify the entity that is assessed the civil penalty of the amount that has been assessed. The Board shall then proceed in the manner prescribed in G.S. 163-278.34. In determining whether or not a candidate is in violation of this Article, the Board may consider as a mitigating factor any circumstances out of the candidate's control.

"**§ 163-278.99D.1. Enforcement and administration.**

(a) Enforcement by the Board. – The Board, with the advice of the Advisory Council for the Public Campaign Fund established by G.S. 163-278.68, shall administer the provisions of this Article.

(b) Appeals. – The initial decision on an issue concerning qualification, certification, or distribution of funds under this Article shall be made by the Executive Director of the Board. The procedure for challenging that decision is as follows:

(1) An individual or entity aggrieved by a decision by the Executive Director of the Board may appeal to the full Board within three business days of the decision. The appeal shall be in writing and shall set forth the reasons for the appeal.

(2) Within five business days after an appeal is properly made, and after due notice is given to the parties, the Board shall hold a hearing. The appellant has the burden of providing evidence to demonstrate that the decision of the Executive Director was improper. The Board shall rule on the appeal within three business days after the completion of the hearing.

(c) Board to Adopt Procedures and Issue Opinions. – The Board shall adopt procedures and issue opinions to ensure effective administration of this Article. Such procedures and opinions shall include, but not be limited to, procedures for obtaining qualifying contributions, certification of candidates, addressing circumstances involving special elections, vacancies,

recounts, withdrawals, or replacements, collection of revenues for the Fund, distribution of Fund revenue to certified candidates, return of unspent Fund disbursements, and compliance with this Article. The Board shall adopt procedures for the distribution of matching money that further the purpose and avoid the subversion of G.S. 163-278.99B. For races involving special elections, recounts, vacancies, withdrawals, or replacement candidates, the Board shall establish procedures for qualification, certification, disbursement of Fund revenues, and return of unspent Fund revenues. Where applicable, the Board shall adapt the provisions of G.S. 163-278.64A. The Board shall fulfill each of these duties in consultation with the Advisory Council on the Public Campaign Fund.

(d) Report to the Public. – The Advisory Council for the Public Campaign Fund shall issue a report by March 1, 2013, and every two years thereafter that evaluates and makes recommendations about the implementation of this Article and the feasibility of expanding its provisions to include other candidates for State office based on the experience of the Fund and the experience of similar programs in other states. The Advisory Council shall also evaluate and make recommendations regarding how to address activities that could undermine the purpose of this Article, including spending that appears to target candidates receiving money from the Fund but that does not meet the definition of "independent expenditures."

"**§ 163-278.99E. Voter education.**

(a) Voter Guide. – The Board shall publish a Voter Guide that explains the functions of ~~office as defined in G.S. 163-278.96(12) and the laws concerning the election~~ all 10 offices of the Council of State, the purpose and function of the Fund, and the laws concerning voter registration. The Board shall distribute the Guide to as many voting-age individuals in the State as practical, through a mailing to all residences or other means it deems effective. The State Board of Elections shall maintain a list of the addresses from which mailed Voter Guides are returned as undeliverable. That list shall be available for public inspection. The distribution shall occur no more than 28 days nor fewer than seven days before the one-stop voting period provided in G.S. 163-227.2 for the primary and no more than 28 days nor fewer than seven days before the one-stop voting period provided in G.S. 163-227.2 for the general election.

(b) Candidate Information. – The Voter Guide shall include information concerning all candidates for ~~office as defined in G.S. 163-278.96(12),~~ all 10 of the offices of the Council of State, as provided by those candidates according to a format provided to the candidates by the Board. The Board shall request information for the Guide from each candidate according to the following format:

(1) Place of residence.
(2) Education.
(3) Occupation.
(4) Employer.
(5) Previous elective offices held.
(6) ~~Endorsements, limited to 50 words.~~ Endorsements. Concerning endorsements, the Board shall send to the candidates instructions as follows: "In order to have an endorsement published, you must provide written confirmation to the Board from the endorsing person or organization that you received that person's or organization's endorsement."
(7) Candidate ~~statement, limited to 150 words.~~ Statement. Concerning that statement, the Board shall send to the candidates instructions as follows: "Your statement may include information such as your qualifications, your endorsements, why you would make a good elected official, what distinguishes you from your opponent(s), and any other information relevant to your candidacy. The State Board of Elections will reject any portion of any statement which it determines contains obscene, profane, or defamatory

language. The candidate shall have three days to resubmit the candidate statement if the Board rejects a portion of the statement."

The entire entry for a candidate shall be limited to 250 words.

(c) Disclaimer. – The Voter Guide shall contain the following statement: "Statements by candidates do not express or reflect the opinions of the State Board of Elections."

(d) Relationship to the Judicial Voter Guide. ~~The Board may~~ Whenever possible, the Board shall publish the Voter Guide in conjunction with the Judicial Voter Guide described in G.S. 163-278.69."

SECTION 2.(a) Chapter 105 of the General Statutes is amended by adding a new Article to read:

"Article 2E.

"Assessments.

"**§ 105-113.120. Surcharge imposed.**

A surcharge is imposed on a person who pays a regulatory charge listed under G.S. 105-113.121. The agency that collects a charge upon which the surcharge is due must collect the surcharge at the same time and remit the proceeds of the surcharge to the Department of Revenue on a monthly basis. The Department must credit the proceeds of the surcharge collected under this section to the Voter-Owned Election Fund created pursuant to G.S. 163-278.97.

"**§ 105-113.121. Charges subject to surcharge.**

The following surcharges are imposed by this Article:

(1) A one percent (1%) surcharge on the insurance regulatory charges provided in G.S. 58-6-25.

(2) A five dollar ($5.00) surcharge on the license fees as provided in G.S. 58-33-125(a).

"**§ 105-113.122. Assessments on payments from Treasurer.**

An assessment of up to four-fifths of one percent (0.8%) must be applied to payments made to entities the State Treasurer retains in accordance with the Treasurer's authority under Article 6 of Chapter 147 of the General Statutes. Assessments must be made in such a manner that they are broadly applied among various entities and the total amount assessed each fiscal year exceeds seven hundred fifty thousand dollars ($750,000) but is less than one million two hundred fifty thousand dollars ($1,250,000). The Treasurer must credit the assessments to the Department of Revenue on a monthly basis. The Department must promptly credit the assessments collected under this section to the Voter-Owned Election Fund created pursuant to G.S. 163-278.97."

SECTION 2.(b) This section is effective when it becomes law and applies to charges and fees that are due and contracts that are entered into or renewed on or after that date.

SECTION 3. The provisions of this act are severable. If any provision of this act is held invalid by a court of competent jurisdiction, the invalidity does not affect other provisions of the act that can be given effect without the invalid provision.

SENATE BILL 20:
Voter-Owned Election for Treasurer

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	August 4, 2009
Introduced by:	Sen. Berger of Franklin	**Prepared by:**	Heather Fennell
Analysis of:	PCS to First Edition S20-CSTDx-79		Committee Counsel

SUMMARY: The proposed committee substitute to Senate Bill 20 expands the public campaign financing program to cover the office of the Treasurer, and make other changes to the details of the program.

CURRENT LAW: North Carolina has two public campaign financing programs that follow the "Clean Elections" model adopted in Maine, Arizona, and Connecticut. One program covers all elections for State Supreme Court and Court of Appeals, and is commonly referred to as the 'Public Campaign Financing Fund'. That was enacted in 2002 and has been used in the elections of 2004, 2006, and 2008. The second is a pilot program, commonly referred to as the 'Voter-Owned Elections Act,' that covers elections for 3 Council of State offices – Auditor, Commissioner of Insurance, and Superintendent of Public Instruction. That was enacted in 2007 and was used in the 2008 election.

Although both programs cover statewide offices, the judicial program covers only nonpartisan elections, and the Council of State program covers only partisan elections.

In brief, both programs work as follows: Candidates qualify for the program by pledging to abide by contribution and spending limits and by raising a certain amount in "qualifying contributions," small amounts given by individual voters. The basic public grants from the Fund do not come until after the primary, and with some exceptions the candidates are limited in their spending to the amount of those grants and the qualifying contributions. If participating candidates are faced with opponents or independent expenditures or electioneering communications targeted at them, in primary or general election, that go beyond what they can spend, the Fund provides "matching funds" with which those candidates can defend themselves.

The programs also require the State Board of Elections to produce and distribute a Voter Guide to as many voting-age NC residents as possible. The Guide contains information about the affected elections and space for candidates to present themselves without cost.

The judicial program has been financed mainly with taxpayer checkoffs on the NC Income Tax form and by a $50 surcharge on attorney membership fees. The Council of State program has been financed mainly with direct appropriations from the General Fund.

PCS ANALYSIS:

The proposed committee substitute for Senate Bill 20 expands 'Voter-Owned Elections Act' from the three currently covered offices to include the Treasurer. The PCS would also clarify which council of state offices would be eligible to participate if the Fund is not fully funded on August 1 of the year prior to an election.

The PCS also makes the following changes to the workings of the Council of State program:

1. **Write-ins.** The PCS clarifies that a write-in candidate is not eligible to participate.
2. **Qualifying Contributions.** The PCS makes several changes to the provisions on qualifying contributions, which must be raised from registered NC voters in amounts between $10 and $200:

- *Method of Payment*. Currently, qualifying contributions may be accepted only by check or money order.
    - The PCS allows acceptance by any non-cash method otherwise allowed for contributions, notable including credit cards and Pay Pal.
- *Minimums*. Currently, to qualify a candidate must raise qualifying contributions from at least 750 individuals, and those qualifying contributions must reach a dollar amount that is at least 25 times the filing fee for the office sought. For the Council of State offices covered in 2008, this amounted to about $30,000. At least one candidate who got qualifying contributions from plenty of voters nonetheless missed the dollar threshold.
    - The PCS would change that formula to require contributions from at least 900 voters and add 100 voters to that number for every $100,000 over $300,000 that the candidate would be entitled to receive in grants for the office. (See below for the different grant amounts, designed to recognize that some Council of State offices cost more to run for than others.)
    - The PCS changes the threshold dollar amount of qualifying contributions to equal $20 times the minimum number of voters from whom qualifying contributions must be raise. So, a candidate for an office in the lower grant range would have to raise $18,000 from at least 900 voters.
- *Maximums*. Currently, the maximum of qualifying contributions that may be raised is different for a candidate with no primary than for a candidate with a contested primary. For a candidate with no primary, the maximum qualifying contributions equals 100 times the filing fee for the office, and for a candidate with a contested primary it is 200 times the filing fee for the office.
    - The PCS eliminates the filing fee as a measure, as with the minimum. For a candidate with no primary, the maximum would be $100 times the minimum number of voters from whom qualifying contributions must received. If the candidate has a contested primary, the maximum would be $200 times the minimum number of voters from whom qualifying contributions must be received. A candidate for an office in the lower grant range with no primary could raise no more than $90,000 in qualifying contributions.
- *No Raffles*. Currently the law says that "no payment, gift, or anything of value shall be given in exchange for a qualifying contribution." An issue arose over whether a raffle ticket was something of value that could be given in exchange for a qualifying contribution. The State Board of Elections decided that raffle tickets might not be a thing of value, but that the prize would be, so the raffle idea was unworkable.
    - The PCS adds that "the opportunity to win anything of value" shall not be given in exchange for a qualifying contribution.
- *Multiple Contributions from Same Individual*. The PCS clarifies that multiple qualifying contributions from the same person can count as only one qualifying contribution, for purposes meeting the threshold. Also, the PCS provides that multiple contributions from the same non-family member may not exceed $200.
- *Family Contributions*. Currently, the candidates themselves and their family members (spouse, parent, child, brother, sister) may each contribute up to $1,000 to the campaign. The question arose whether such contributions may be used to meet the qualifying contribution threshold.

- The PCS states that up to $200 of a family member's contribution may be treated as a qualifying contribution.

3. **Grants from the Fund.** Currently, no basic grant money is distributed in a primary. In the general election, the basic grant is measured by the average amount of campaign-related expenditures by all candidates who won the immediately preceding 3 general elections for that office, but not less than $300,000.

   - The PCS provides that only expenditures made in the general elections will count toward that measurement. Expenditures are made in the general election if they must be reported in the 3rd or 4th quarterly reports. Also, the PCS says the result of the formula is rounded to the nearest $1,000.

4. **Matching Funds.** Currently, matching funds (once called "rescue funds") are available in a primary if a non-participating opponent outspends a participating candidate. This is the same as the judicial Fund -- no basic grant money for a primary, only matching funds. Matching funds are triggered in a primary by opposition spending that exceeds the maximum amount a participating candidate could raise in qualifying contributions. Matching funds are triggered in the general election by opposition spending that exceeds the participating candidate's basic grant entitlement from the Fund. The opposition spending is subject to special expedited reporting so the matching fund provision could be administered. Matching funds are available in amounts matching the opposition spending, up to twice the trigger amount.

   The PCS makes two changes to the law on matching funds:

   1. *In the Primary.* The PCS provides that matching funds are available in a primary to a certified candidate with a primary opponent or to a certified candidate who has no primary opponent but who is clearly targeted by opposition spending.

   2. *No Matching Funds for All-Candidate Ads.* In 2008 in the judicial program an ad was run supporting both the candidates in one Court of Appeals race. The State Board of Elections felt compelled by the law to give both of them matching funds, which they both turned down. The PCS provides that there will be no matching funds for a communication that supports all the candidates in the race or opposes all the candidates in the race.

5. **Enforcement.** Currently, both the judicial program and the Council of State program are enforced by the State Board of Elections, which has civil penalties available as remedies. For the judicial program, a statute provides for the State Board to be advised in enforcement by an Advisory Council, provides for an appeal procedure, and provides for specific State Board authority to adopt procedures and issue opinions. The Council of State program does not have that same statute.

   The PCS imports that statute into the Council of State program, using the same Advisory Council for both programs.

6. **Voter Guide.** Currently, the Voter Guide is supposed to explain the functions of the offices affected by the programs, and give space to provide information about themselves only to candidates for those offices. Within each candidate's space the candidate is given 50 words to present endorsements and 150 words to make a statement.

   The PCS expands the Voter Guide's coverage to all 10 offices in the Council of State, including Governor and Lieutenant Governor, which are not affected by the programs. The PCS would replace the word limits of 50 for endorsements and 150 for statement with one word cap of 250

words for the candidate's entire entry. That would include biographical information. The PCS would replace permissive language for the State Board to publish the Judicial and Council of State guides together with a mandate to do so whenever possible.

7. **Assessments.** Creates a new Article 2E in Chapter 105 to provide assessments that will be credited to the Voter-Owned Election Fund. The assessments are as follows:
   - A 1% surcharge on the insurance regulatory charge paid by insurance companies on each company's premium tax liability.
   - A $5 surcharge on license fees charged by the Department of Insurance under G.S. 58-33-125.
   - An assessment of up to 0.08% on payments made to entities retained by the State Treasurer. The Treasurer must apply the assessments broadly among various entities and the total amount assessed must be at least $750,000 but less than $1,250,000.

EFFECTIVE DATE: When it becomes law. The first Treasurer race that would be covered would occur in 2012.

BILL SUMMARY:
The Proposed Committee Substitute (PCS) for Senate Bill 20 expands the Voter-Owned Elections Act from the three currently covered offices to include the Treasurer. The PCS also clarifies which Council of State offices would be eligible to participate if the Fund is not fully funded on August 1 of the year prior to an election.

The PCS also makes the following changes to the workings of the Council of State program:

1. **Write-ins.** The PCS clarifies that a write-in candidate is not eligible to participate.

2. **Qualifying Contributions.** The PCS makes several changes to the provisions on qualifying contributions, which must be raised from registered NC voters in amounts between $10 and $200:

- *Method of Payment.* Currently, qualifying contributions may be accepted only by check or money order.
    - o The PCS allows acceptance by any non-cash method otherwise allowed for contributions, notable including credit cards and Pay Pal.
- *Minimums.* Currently, to qualify a candidate must raise qualifying contributions from at least 750 individuals, and those qualifying contributions must reach a dollar amount that is at least 25 times the filing fee for the office sought. For the Council of State offices covered in 2008, this amounted to about $30,000.
    - o The PCS would change the formula to require contributions from at least 900 voters and add 100 voters to that number for every $100,000 over $300,000 that the candidate would be entitled to receive in grants for the office. (See below for the different grant amounts, designed to recognize that some Council of State offices cost more to run for than others.)
    - o The PCS changes the threshold dollar amount of qualifying contributions to equal $20 times the minimum number of voters from whom qualifying contributions must be raise.

    A candidate for an office in the lower grant range would have to raise $18,000 from at least 900 voters.
- *Maximums.* Currently, the maximum of qualifying contributions that may be raised is different for a candidate with no primary than for a candidate with a contested primary. For a candidate with no primary, the maximum qualifying contributions equals 100 times the filing fee for the office, and for a candidate with a contested primary it is 200 times the filing fee for the office.
    - The PCS eliminates the filing fee as a measure, as with the minimum. For a candidate with no primary, the maximum would be $100 times the minimum number of voters from whom qualifying contributions must received. If the candidate has a contested primary, the maximum would be $200 times the minimum number of voters from whom qualifying contributions must be received. A candidate for an office in the lower grant range with no primary could raise no more than $90,000 in qualifying contributions.
- *No Raffles*. Currently the law says that "no payment, gift, or anything of value shall be given in exchange for a qualifying contribution." An issue arose over whether a raffle ticket was something of value that could be given in exchange for a qualifying contribution. The State Board of Elections decided that raffle tickets might not be a thing of value, but that the prize would be, so the raffle idea was unworkable.
    - The PCS adds that "the opportunity to win anything of value" shall not be given in exchange for a qualifying contribution.
- *Multiple Contributions from Same Individual.* The PCS clarifies that multiple qualifying contributions from the same person can count as only one qualifying

contribution, for purposes meeting the threshold. Also, the PCS provides that multiple contributions from the same nonfamily member may not exceed $200.

- *Family Contributions.* Currently, the candidates themselves and their family members (spouse, parent, child, brother, sister) may each contribute up to $1,000 to the campaign. The question arose whether such contributions may be used to meet the qualifying contribution threshold.
    - The PCS states that up to $200 of a family member's contribution may be treated as a qualifying contribution.

3. **Grants from the Fund.** Currently, no basic grant money is distributed in a primary. In the general election, the basic grant is measured by the average amount of campaign-related expenditures by all candidates who won the immediately preceding 3 general elections for that office, but not less than $300,000.

- The PCS provides that only expenditures made in the general elections will count toward that measurement. Expenditures are made in the general election if they must be reported in the 3rd or 4th quarterly reports. The results of the formula are to be rounded to the nearest $1,000.

4. **Matching Funds.** Currently, matching funds (formerly termed "rescue funds") are available in a primary if a non-participating opponent outspends a participating candidate. This is the same as the judicial Fund: no basic grant money for a primary, only matching funds. Matching funds are triggered in a primary by opposition spending that exceeds the maximum amount a participating candidate could raise in qualifying contributions. Matching funds are triggered in the general election by opposition spending that exceeds the participating candidate's basic grant entitlement from the Fund. The opposition spending is subject to special expedited reporting so the matching fund provision could be administered. Matching funds are available in amounts matching the opposition spending, up to twice the trigger amount.

- The PCS makes two changes to the law on matching funds:
    - *In the Primary.* The PCS provides that matching funds are available in a primary to a certified candidate with a primary opponent or to a certified candidate who has no primary opponent but who is clearly targeted by opposition spending.
    - *No Matching Funds for All-Candidate Ads.* In 2008 in the judicial program an ad was run supporting both the candidates in one Court of Appeals race. The State Board of Elections felt compelled by the law to give both of them matching funds, which they both turned down. The PCS provides that there will be no matching funds for a communication that supports all the candidates in the race or opposes all the candidates in the race.

5. **Enforcement.** Currently, both the judicial program and the Council of State program are enforced by the State Board of Elections, which has civil penalties available as remedies. For the judicial program, a statute provides for the State Board to be advised in enforcement by an Advisory Council, provides for an appeal procedure, and provides for specific State Board authority to adopt procedures and issue opinions. The Council of State program does not have that same statute. The PCS imports that statute into the Council of State program, using the same Advisory Council for both programs.

6. **Voter Guide.** Currently, the Voter Guide is intended to explain the functions of the offices affected by the programs and to give space for candidates to provide information about themselves. Within each candidate's space the candidate is given 50 words to present endorsements and 150 words to make a statement.

- The PCS expands the Voter Guide's coverage to all 10 offices in the Council of State, including Governor and Lieutenant Governor, which are not affected by the programs. The PCS would replace the word limits of 50 for endorsements and 150 for statement with one word cap of 250 words for the candidate's entire entry, which would include biographical information. The PCS would replace permissive language for the State Board to publish the Judicial and Council of State guides together with a mandate to do so whenever possible.

7. **Assessments.** Creates a new Article 2E in Chapter 105 to provide assessments that will be credited to the Voter-Owned Election Fund. The assessments are as follows:

- A 1% surcharge on the insurance regulatory charge paid by insurance companies on each company's premium tax liability.
- A $5 surcharge on license fees charged by the Department of Insurance under G.S. 58-33-125.
- An assessment of up to 0.08% on payments made to entities retained by the State Treasurer.
- The Treasurer must apply the assessments broadly among various entities and the total amount assessed must be at least $750,000 but less than $1,250,000.

Source: Heather Fennell, Senate Finance Committee Counsel, 8/4/09

EFFECTIVE DATE: This act is effective when it becomes law. The first Treasurer race that would be covered would occur in 2012.

ASSUMPTIONS AND METHODOLOGY:

According to the 2008-2009 Campaign Finance Manual issued by the Campaign Finance Office of the North Carolina State Board of Elections, there are five sources of revenue for the North Carolina Voter-Owned Elections Fund. In addition to distributions to qualified candidates, all expenses for implementation, including staff, administrative, and enforcement costs, are paid for by the North Carolina Voter-Owned Elections Fund. Revenue for the Fund is provided through the following means:

- The first source is from any voluntary donation made directly to the Voter-Owned Elections Fund. In the past, there have been few donations.
- The second source is from appropriations from the General Fund. The legislature appropriated $1,000,000 for the 2007-2008 fiscal year and $3,580,000 for the 2008-2009 fiscal year for the implementation of the Act. This source provides almost all the funding.
- The third source is from Fund revenues that were distributed to candidates, but were not spent or committed at the time a candidate is no longer considered a certified candidate for that election. This source produces little funding.
- The fourth source is any funds ordered to be returned to the Fund as a result of a violation by a participating or certified candidate in the Program. This source produces little funding.

- The fifth source is from money paid to the Fund as a result of a candidate forfeiting funds in excess of the $20,000 cap on contributions and expenditures between August 1st of the year before the election and the date of declaring a candidate's intent to participate in the Program. This source produces little funding.

The State Board of Elections is responsible for administering the Fund, including the development of procedures for the proper administration of the Program. The Board will make determinations regarding whether electioneering communications will trigger matching funds and will be responsible for making determinations of violations of Article 22J of Chapter 163 of the General Statutes, the provisions creating the Program.

The Board has delegated the daily administration of the Fund to the Campaign Finance Division of the State Board of Elections. Under the direction of the Board, the Campaign Finance Division will audit all reports of both non-participating and participating candidates to ensure compliance with the provisions of the Program. Certification requirements will be verified by Campaign Finance staff prior to the Board certifying a candidate.

G.S. 163-278.99 outlines the method employed by the State Board of Elections, in consultation with the State Treasurer and the State Controller, to determine how the Fund is distributed among certified candidates. In the chart below, the left column provides the name of the particular seat on the Council of State, the average over the last three elections regarding the particular seat as addressed in G.S. 163-278.99(b)(4), and the funding for the certified candidate as mentioned in the same statue under G.S. 163-278.99(c).

Council of State seat	Average over last three elections (rounded per statute)	Amount certified candidate would receive
Secretary of State	$198,000	$300,000
Attorney General	$1,759,000	$1,759,000
Treasurer	$1,064,000	$1,064,000
Commissioner of Agriculture	$365,000	$365,000
Commissioner of Labor	$150,000	$300,000
State Auditor	$135,000	$300,000
Commissioner of Insurance	$280,000	$300,000
Supt. Of Public Instruction	$161,000	$300,000

Due to a number of variables, the State Board of Elections is not able to determine the fiscal impact of Senate Bill 20. In any election, there are unknowns that affect the cost of the particular election. Typically, the work load for the State Board of Election is impacted by the number of candidates who file for a particular vacancy, as well as by the necessary review and auditing of candidates who submit information to qualify to receive distributions from the Voter-Owned Election Fund. Therefore, the Board does anticipate that the proposed legislation will increase their work load, and thus, could require more personnel. However, at this time, the Board is not able to estimate how many positions may be needed.

A BILL TO BE ENTITLED

AN ACT TO EXTEND THE CREDIT FOR INVESTING IN RENEWABLE ENERGY PROPERTY TO GEOTHERMAL HEAT PUMPS AND EQUIPMENT, TO ALLOW THE CREDIT TO BE TAKEN AGAINST THE GROSS PREMIUMS TAX, AND TO EXTEND THE SUNSET FOR THE CREDIT.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 105-129.15(7) reads as rewritten:

"**§ 105-129.15. Definitions.**

The following definitions apply in this Article:

...

(7) Renewable energy property. – Any of the following machinery and equipment or real property:

a. Biomass equipment that uses renewable biomass resources for biofuel production of ethanol, methanol, and biodiesel; anaerobic biogas production of methane utilizing agricultural and animal waste or garbage; or commercial thermal or electrical generation. The term also includes related devices for converting, conditioning, and storing the liquid fuels, gas, and electricity produced with biomass equipment.

b. Hydroelectric generators located at existing dams or in free-flowing waterways, and related devices for water supply and control, and converting, conditioning, and storing the electricity generated.

c. Solar energy equipment that uses solar radiation as a substitute for traditional energy for water heating, active space heating and cooling, passive heating, daylighting, generating electricity, distillation, desalination, detoxification, or the production of industrial or commercial process heat. The term also includes related devices necessary for collecting, storing, exchanging, conditioning, or converting solar energy to other useful forms of energy.

d. Wind equipment required to capture and convert wind energy into electricity or mechanical power, and related devices for converting, conditioning, and storing the electricity produced.

e. Geothermal heat pumps that use the ground or groundwater as a thermal energy source to heat a structure or as a thermal energy sink to cool a structure.

f. Geothermal equipment that uses the internal heat of the earth as a substitute for traditional energy for water heating or active space heating and cooling.

..."

SECTION 2. G.S. 105-129.16A reads as rewritten:

"**§ 105-129.16A. Credit for investing in renewable energy property.**

(a) Credit. – If a taxpayer that has constructed, purchased, or leased renewable energy property places it in service in this State during the taxable year, the taxpayer is allowed a credit equal to thirty-five percent (35%) of the cost of the property. In the case of renewable energy property that serves a single-family dwelling, the credit must be taken for the taxable year in which the property is placed in service. For all other renewable energy property, the entire credit may not be taken for the taxable year in which the property is placed in service but must be taken in five equal installments beginning with the taxable year in which the property is placed in service.

(b) Expiration. – If, in one of the years in which the installment of a credit accrues, the renewable energy property with respect to which the credit was claimed is disposed of, taken out of service, or moved out of State, the credit expires and the taxpayer may not take any remaining installment of the credit. The taxpayer may, however, take the portion of an installment that accrued in a previous year and was carried forward to the extent permitted under G.S. 105-129.17. No credit is allowed under this section to the extent the cost of the renewable energy property was provided by public funds.

(c) Ceilings. – The credit allowed by this section may not exceed the applicable ceilings provided in this subsection.

(1) Nonresidential Property. – A ceiling of two million five hundred thousand dollars ($2,500,000) per installation applies to renewable energy property placed in service for any purpose other than residential.

(2) Residential Property. – The following ceilings apply to renewable energy property placed in service for residential purposes:

a. One thousand four hundred dollars ($1,400) per dwelling unit for solar energy equipment for domestic water heating, including pool heating.

b. Three thousand five hundred dollars ($3,500) per dwelling unit for solar energy equipment for active space heating, combined active space and domestic hot water systems, and passive space heating.

c. Ten thousand five hundred dollars ($10,500) per installation for any other renewable energy property for residential purposes.

d. Eight thousand four hundred dollars ($8,400) per installation for a geothermal heat pump or geothermal equipment.

(d) No Double Credit. – A taxpayer that claims any other credit allowed under this Chapter with respect to renewable energy property may not take the credit allowed in this section with respect to the same property. A taxpayer may not take the credit allowed in this section for renewable energy property the taxpayer leases from another unless the taxpayer obtains the lessor's written certification that the lessor will not claim a credit under this Chapter with respect to the property.

(e) Sunset. – This section is repealed effective for renewable energy property placed into service on or after January 1, ~~2011.~~2016."

SECTION 3. G.S. 105-129.17(a) reads as rewritten:

"(a) Tax Election. – The credit allowed in G.S. 105-129.16A is allowed against the franchise tax levied in Article 3 of this Chapter, the income taxes levied in Article 4 of this Chapter, or the gross premiums tax levied in Article 8B of this Chapter. ~~The~~ All other credits allowed in this Article are allowed against the franchise tax levied in Article 3 of this Chapter or the income taxes levied in Article 4 of this Chapter. The taxpayer must elect the tax against which a credit will be claimed when filing the return on which the first installment of the credit is claimed. This election is binding. Any carryforwards of a credit must be claimed against the same tax."

SECTION 4. This act is effective for taxes imposed for taxable years beginning on or after January 1, 2009.

HOUSE BILL 512:
Incentives for Energy Conservation

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	August 4, 2009
Introduced by:	Reps. Holliman, Harrison, Luebke	**Prepared by:**	Heather Fennell
Analysis of:	PCS to Third Edition H512-CSTD-78		Committee Counsel

SUMMARY: ***The proposed committee substitute to House Bill 512 extends the sunset for the renewable energy property credit to 2016 and clarifies the definition of nonresidential property.***

[As introduced, this bill was identical to S305, as introduced by Sen. Clodfelter, which is currently in Senate Finance.]

CURRENT LAW:

Renewable Energy Property Credit. Under current law, the credit for investing in renewable energy property applies to any of the following machinery and equipment or real property:

- Biomass equipment.
- Hydroelectric generators
- Solar energy equipment
- Wind equipment

The amount of the credit for investing in renewable energy property is 35% of the cost of the property placed in service. In the case of renewable energy property that services a single-family dwelling, the credit must be taken for the taxable year in which the property is placed in service. For all other renewable energy property, the credit must be taken in five equal installments, beginning with the taxable year in which the property is placed in service. The credit may not exceed the following amounts:

TYPE OF PROPERTY	MAXIMUM CREDIT
Non residential property	$2,500,000 per installation
Residential property – Solar energy equipment for domestic water heating.	$1,400 per dwelling unit
Residential property – Solar energy equipment for active space heating, combined active space and domestic hot water systems, and passive space heating.	$3,500 per dwelling unit
Residential property – All other renewable energy property for residential purposes	$10,500 per installation

The renewable energy tax credit has the following limitations and conditions:

The renewable energy tax credit may not exceed 50% of the tax against which it is claimed for the taxable year, reduced by the sum of all other credits allowed against that tax. Any unused portion of the credit may be carried forward for the succeeding five years.

A taxpayer that claims any other credit allowed with respect to renewable energy property may not take the renewable energy tax credit with respect to the same property.

A taxpayer may not take the renewable energy tax credit if the taxpayer leases the property from another person, unless the taxpayer obtains the lessor's written certification that the lessor will not claim a credit with respect to this property.

The Department of Revenue must report each year on the number of taxpayers claiming the credits, the cost of the property for which the credits were claimed, and the total cost to the General Fund of the credits claimed.

The credit will sunset on January 1, 2011.

BILL ANALYSIS: The proposed committee substitute to House Bill 512 makes the following changes to the renewable energy property tax credit:

Adds geothermal: Adds geothermal to the property eligible for the credit. Geothermal is defined as either geothermal heat pumps that use the ground or groundwater as a thermal energy source to heat a structure or as a thermal energy sink to cool a structure, or as geothermal equipment that uses the internal heat of the earth as a substitute for traditional energy for heating water or active space heating or cooling. The credit is capped at $8,400 per installation for residential property.

Extends sunset: Extends the sunset of the credit to renewable energy property placed in service on or after January 1, 2016.

Gross premiums tax: Allows the credit to be taken against the gross premiums tax.

EFFECTIVE DATE: This act is effective for taxable years beginning on or after January 1, 2009.

EFFECTIVE DATE: January 1, 2009

BILL SUMMARY:
Current tax law awards an income tax credit to any taxpayer who constructs, purchases, or leases renewable energy property and places this property in service inside the state. The credit equals 35% of the cost of the property (with ceilings for certain technologies). In the case of renewable energy property that serves a single-family dwelling, the credit must be taken in the taxable year in which the property is placed in service. For all other renewable energy property, the entire credit must be taken in five equal installments, beginning with the taxable year in which the property is placed in service. House Bill 512 extends the sunset of the credit from January 1, 2011 to January

1, 2016 and clarifies the definition of nonresidential property. It also extends the credit to include geothermal heat pumps and creates a cap of $8,400 for geothermal heat pumps installed for residential use. Finally, it enables the credit to be taken against the gross premiums tax.

ASSUMPTIONS AND METHODOLOGY:
Extending the sunset of the credits will increase the length of time that the state awards the existing credits for new projects. The net impact of this will be a decrease in revenues starting in FY 2012-2013, the first year in which the credits would not have been completely active under existing legislation. According to the North Carolina Department of Revenue's Summaries of the Renewable Energy Credits for years 2003 through 2007, the amounts of the credits awarded for renewable energy property have been highly variable for the past five years but have not exceeded $1 million. This report does not have the detail to indicate how much of the credits reflect new activity in recent years versus installments for past projects. Due to this variability and lack of complete information, this report assumes $1 million as a rough estimate of the loss of revenues in FY 2012-13 and FY 2013-14 due to the extension of the sunset. The cost could exceed this amount if there is increased investment in renewable energy property.

According to estimates from the North Carolina Solar Center, 20-30 geothermal heat pumps are currently installed each year. With the addition of an income tax credit, assuming that the recession will not impact purchasing decisions too greatly, this number is estimated to increase to 50 a year. The new bill would award an income tax credit equal to 35% of the cost of the heat pump credit with a ceiling of $8400 of credit per installation. In North Carolina the cost of installation is estimated to range between $17,500 and $27,000. Assuming that the cost of installation is $27,000, the amount of each credit would be the $8400 ceiling. Multiplying the $8,400 credit by the estimated number of installations each year results in a $420,000 loss in revenues for FY 2009-10 due to the inclusion of geothermal heat pumps in the tax credit.

The PCS enables the renewable energy credit to be taken against the gross premiums tax. Unfortunately, there is insufficient data to estimate what the impact of this change will be.

A BILL TO BE ENTITLED

AN ACT TO AUTHORIZE CITIES AND COUNTIES TO ESTABLISH LOAN PROGRAMS TO FINANCE THE INSTALLATION OF DISTRIBUTED GENERATION RENEWABLE ENERGY SOURCES OR ENERGY EFFICIENCY IMPROVEMENTS THAT ARE PERMANENTLY AFFIXED TO REAL PROPERTY.

The General Assembly of North Carolina enacts:

SECTION 1. Chapter 160A of the General Statutes is amended by adding a new section to read:

"**§ 160A-459. 1. Revolving loan program for energy improvements.**

(a) Purpose. – The General Assembly finds it is in the best interest of the citizens of North Carolina to promote and encourage renewable energy and energy efficiency within the State in order to conserve energy, promote economic competitiveness, and expand employment in the State. In furtherance of this purpose, a city may establish a program to finance the purchase and installation of distributed generation renewable energy sources or energy efficiency improvements that are permanently affixed to residential, commercial, or other real property.

(b) Revolving Loan Fund. – A city may establish a revolving loan fund for the purpose of providing loans to finance the purchase and installation of distributed generation renewable energy sources or energy efficiency improvements that are permanently fixed to residential, commercial, or other real property. A city may use Energy Efficiency and Conservation Block Grant Funds and its unrestricted revenue to fund the revolving loan fund. The annual interest rate charged for the use of funds from the revolving fund may not exceed eight percent (8%) per annum, excluding other fees for loan application review and origination. The term of any loan originated under this section may not be greater than 15 years.

(c) Definition. – As used in this Article, 'renewable energy source' has the same meaning as 'renewable energy resource' in G.S. 62-133.8"

SECTION 2. Chapter 153A of the General Statues is amended by adding a new Part 6 of Article 18 to read:

"**§ 153A-455. Revolving loan program for energy improvements.**

(a) Purpose. – The General Assembly finds it is in the best interest of the citizens of North Carolina to promote and encourage renewable energy and energy efficiency within the State in order to conserve energy, promote economic competitiveness, and expand employment in the

SUMMARY: ***The proposed committee substitute to House Bill 1389 authorizes cities and counties to establish revolving loan programs to finance energy efficiency improvements and distributed generation renewable energy sources that are permanently affixed to real property.***

CURRENT LAW: North Carolina cities and counties are eligible to obtain federal grant funds under the American Recovery and Reinvestment Act of 2009, P.L. 111-5 (ARRA), during the 2009-2011 biennium to finance certain energy-related programs. The Energy Efficiency Conservation Block Grants Program (EECBG) seeks to assist eligible entities to reduce fossil fuel emissions, to reduce total energy use, and to improve energy efficiency in transportation, and buildings.

BILL ANALYSIS: The proposed committee substitute to House Bill 1389 would authorize cities and counties to establish loan programs to finance energy efficiency improvements and the installation of distributed renewable energy sources that are permanently affixed to real property. Cities and counties may use EECBG funds and any other restricted funds the entity may have. The term of the loan may not be greater than 15 years, and the annual interest rate charged on the loans may not exceed 8%.

The term renewable energy source has the same meaning as renewable energy resource as defined in G.S. 62-133.8. That definition includes all of the following:

- Solar electric.
- Solar thermal.
- Wind.
- Hydropower.
- Geothermal.
- Ocean current or wave energy resource.
- Biomass resource, including agricultural waste, animal waste, wood waste, spent pulping liquors, combustible residues, combustible liquids, combustible gases, energy crops, or landfill methane.
- Waste heat derived from a renewable energy resource and used to produce electricity or useful, measurable thermal energy at a retail electric customer's facility.
- Hydrogen derived from a renewable energy resource.

The term does not include peat, a fossil fuel, or nuclear energy resource.

EFFECTIVE DATE: This act is effective when it becomes law.

A person who surrenders a registration shall not be eligible for or submit any application for registration during the period the registration is surrendered.

The Board may require any registrant or other person to submit a criminal history record check and a set of that person's fingerprints in connection with any examination or investigation. (1) Applicant. – A person applying for registration as an appraisal management company pursuant to G.S. 93E-2-4.

(2) Criminal history. – A history of conviction of a state or federal crime, whether a misdemeanor or felony, that bears on an applicant's fitness for registration to act as a real estate appraisal management company. The crimes include the criminal offenses set forth in any of the following Articles of Chapter 14 of the General Statutes: Article 5, Counterfeiting and Issuing Monetary Substitutes; Article 5A, Endangering Executive and Legislative Officers; Article 6, Homicide; Article 7A, Rape and Other Sex Offenses; Article 8, Assaults; Article 10, Kidnapping and Abduction; Article 13, Malicious Injury or Damage by Use of Explosive or Incendiary Device or Material; Article 14, Burglary and Other Housebreakings; Article 15, Arson and Other Burnings; Article 16, Larceny; Article 17, Robbery; Article 18, Embezzlement; Article 19, False Pretenses and Cheats; Article 19A, Obtaining Property or Services by False or Fraudulent Use of Credit Device or Other Means; Article 19B, Financial Transaction Card Crime Act; Article

The crimes also include possession or sale of drugs in violation of the North Carolina Controlled Substances Act in Article 5 of Chapter 90 of the General Statutes and alcohol-related offenses, including sale to underage persons in violation of G.S. 18B-302 or driving while impaired in violation of G.S. 20-138.1 through G.S. 20-138.5. In addition to the North Carolina crimes listed in this subdivision, such crimes also include similar crimes under federal law or under the laws of other states.

(b) The Board may require that an applicant for registration as an appraisal management company or a registrant consent to a criminal history record check. Refusal to consent to a criminal history record check may constitute grounds for the Board to deny registration to an applicant or registrant. The Board shall ensure that the State and national criminal history of an applicant or registrant is checked. The Board shall be responsible for providing to the North Carolina Department of Justice the fingerprints of the applicant or registrant to be checked, a form signed by the applicant or registrant consenting to the criminal record check and the use of fingerprints and other identifying information required by the State or National Repositories of Criminal Histories, and any additional information required by the Department of Justice in accordance with G.S. 114-19.26. The Board shall keep all information obtained pursuant to this section confidential. The Board shall collect any fees required by the Department of Justice and shall remit the fees to the Department of Justice for expenses associated with conducting the criminal history record check.

(c) If an applicant's or registrant's criminal history record check reveals one or more convictions listed under subdivision (a)(2) of this section, the conviction shall not automatically bar registration. The Board shall consider all of the following factors regarding the conviction:

(1) The level of seriousness of the crime.
(2) The date of the crime.
(3) The age of the person at the time of the conviction.
(4) The circumstances surrounding the commission of the crime, if known.
(5) The nexus between the criminal conduct of the person and the job duties of the position to be filled.
(6) The person's prison, jail, probation, parole, rehabilitation, and employment records since the date the crime was committed.
(7) The subsequent commission by the person of a crime listed in subdivision (a)(2) of this section.

If, after reviewing these factors, the Board determines that the applicant's or registrant's criminal history disqualifies the applicant or registrant for registration, the Board may deny registration of the applicant or registrant. The Board may disclose to the applicant or registrant information contained in the criminal history record check that is relevant to the denial. The Board shall not provide a copy of the criminal history record check to the applicant or registrant. The applicant or registrant shall have the right to appear before the Board to appeal the Board's decision. However, an appearance before the full Board shall constitute an exhaustion of administrative remedies in accordance with Chapter 150B of the General Statutes.

(d) Limited Immunity. – The Board, its officers, and employees, acting in good faith and in compliance with this section, shall be immune from civil liability for denying

registration to an applicant or registrant based on information provided in the applicant's or registrant's criminal history record check."

SECTION 2. Article 4 of Chapter 114 of the General Statutes is amended by adding a new section to read:

"**§ 114-19.26. Criminal history record checks of applicants or registrants for registration as real estate appraisal management companies.**

The Department of Justice may provide to the North Carolina Appraisal Board from the State and National Repositories of Criminal Histories the criminal history of any applicant or registrant for registration under Article 2 of Chapter 93E of the General Statutes. Along with the request, the Board shall provide to the Department of Justice the fingerprints of the applicant or registrant, a form signed by the applicant or registrant consenting to the criminal history record check and use of fingerprints and other identifying information required by the State and National Repositories, and any additional information required by the Department of Justice. The applicant's or registrant's fingerprints shall be forwarded to the State Bureau of Investigation for a search of the State's criminal history record file, and the State Bureau of Investigation shall forward a set of fingerprints to the Federal Bureau of Investigation for a national criminal history record check. The Board shall keep all information obtained pursuant to this section confidential. The Department of Justice may charge a fee to offset the cost incurred by the Department to conduct a criminal history record check under this section. The fee shall not exceed the actual cost of locating, editing, researching, and retrieving the information."

SECTION 3. Pursuant to G.S. 93E-2-2, as enacted in Section 1 of this act, a real estate appraisal management company established under federal law shall not be required to pay the initial registration fees required by G.S. 93E-2-6, enacted in Section 1 of this act. However, the real estate appraisal management company established under federal law shall be required to pay registration fees associated with subsequent registration renewal.

SECTION 4. This act becomes effective January 1, 2012.

2009-2010 General Assembly

SENATE BILL 829: Regulation of Appraisal Management Companies

Committee:	Senate Finance	**Date:**	August 4, 2009
Introduced by:	Sen. Jenkins	**Prepared by:**	Cindy Avrette
Analysis of:	Second Edition		Committee Counsel

SUMMARY: ***Senate Bill 829 amends the Real Estate Appraisers Act to regulate appraisal management companies.***

BILL ANALYSIS: Senate Bill 829 creates a new Article 2 in Chapter 93E to regulate real estate appraisal management companies. Beginning January 1, 2012, a person or business entity that acts as an appraisal management company must register with the North Carolina Appraisal Board before it may conduct business as an appraisal management company. An appraisal management company is defined as any business entity that:

- Administers a network of independent contractor appraisers;
- Receives requests for appraisals from clients;
- Is paid a fee by the client for the appraisal; and
- Enters into an agreement with one or more appraisers in its network to perform the requested appraisal.

The definition does not include a government agency, a chartered financial institution, a real estate broker performing market analyses, or appraisal businesses that employ appraisers or that occasionally contract with independent appraisers because of the location or type of property.

The Appraisal Board is authorized to determine the qualifications of applicants for registration. The applicant must be of good moral character, submit an application and fee, and make a number of certifications about its operating procedure, including that it will only contract with North Carolina licensed appraisers in good standing.

Each appraisal management company must designate a compliance manager who must be a certified general real estate appraiser under the laws of North Carolina or the comparable laws of another state. Failure to comply with this provision results in registration suspension.

The Appraisal Board is authorized to charge the following fees:

- Application fee $5,000.
- Renewal fee $2,500.
- Late fee $20./month up to $120.
- Replacement fee $50.
- Registration history $100.

No officer, agent, or employee of an appraisal management company shall influence or attempt to influence the development, reporting, result, or review of an appraisal through coercion, extortion, collusion, compensation, inducement, intimidation, bribery, or in any other manner. The bill lists a number of specific prohibited acts. However, this section does not prohibit an appraisal management company from requesting the appraiser to consider additional information, provide further details, or correct errors.

The Board has authority to deny, suspend, revoke, or refuse to issue or renew a registration, or restrict or limit activities of a person who owns or participates in the business if it finds that the company or any of

its principals or employees has violated any of the provisions of the Act. The Board may also impose a civil penalty not to exceed $10,000 for any violation of the Act and to impose a penalty of up to $25,000 for failure to comply with an order to cease from a prohibited action.

Any person violating the act shall be guilty of a Class 1 misdemeanor. The Board may also seek injunctive relief.

The Board may require applicants or registrants to consent to a criminal history record check. Refusal to consent may be grounds for denial of the registration. If the record check reveals one or more convictions, the Board is not required to automatically bar registration, but may consider a number of factors to determine whether the criminal history disqualifies the applicant or registrant. The Board is granted immunity from civil liability for denying registration based on the criminal history record check, provided it acted in good faith.

Section 2 of the bill authorizes the Department of Justice to provide criminal histories to the Appraisal Board and allows the Department to charge a fee to offset the cost of conducting the record check.

Section 3 provides that a real estate appraisal management company established under federal law is not required to pay the initial fee required in this Act, but must pay subsequent registration renewal fees.

EFFECTIVE DATE: This act becomes effective January 1, 2012.

BILL SUMMARY:

Senate Bill 829 creates a new Article 2 in Chapter 93E to regulate real estate appraisal management companies. The bill requires that beginning January 1, 2010, any person or business entity that acts as an appraisal management company must register with the North Carolina Appraisal Board. An appraisal management company is defined as any business entity that:

- Administers a network of independent contractor appraisers;
- Receives requests for appraisals from clients;
- Is paid a fee by the client for the appraisal; and
- Enters into an agreement with one or more appraisers in its network to perform the requested appraisal.

The definition does not include any government agency, any chartered financial institution, a real estate broker performing market analyses, or appraisal businesses that employ appraisers or that occasionally contract with independent appraisers because of the location or type of property.

The Appraisal Board is authorized to determine the qualifications of applicants for registration. The applicant must be of good moral character, submit an application and fee, and make a number of certifications about its operating procedure, including that it will only contract with North Carolina licensed appraisers in good standing.

Each appraisal management company must designate a managing principal who must be a certified general real estate appraiser. Failure to comply with this provision results in registration suspension.

The Appraisal Board is authorized to charge the following fees:

- Application fee $5,000.
- Renewal fee $2,500.
- Late fee $20./month up to $120.
- Replacement fee $50.
- Registration history $100.

No officer, agent, or employee of an appraisal management company shall influence or attempt to influence the development, reporting, result, or review of an appraisal through coercion, extortion, collusion, compensation, inducement, intimidation, bribery, or in any other manner. The bill lists a number of specific prohibited acts. However, this section does not prohibit an appraisal management company from requesting the appraiser to consider additional information, provide further details, or correct errors.

The Board has authority to deny, suspend, revoke, or refuse to issue or renew a registration, or restrict or limit activities of a person who owns or participates in the business if it finds that the company or any of its principals or employees has violated any of the provisions of the Act. The Board may also impose a civil penalty not to exceed $10,000 for any violation of the Act and to impose a penalty of up to $25,000 for failure to comply with an order to cease from a prohibited action.

Any person violating the act shall be guilty of a Class 1 misdemeanor. The Board may also seek injunctive relief.

The Board may require applicants or registrants to consent to a criminal history record check. Refusal to consent may be grounds for denial of the registration. If the record check reveals one or more convictions, the Board is not required to automatically bar registration, but may consider a number of factors to determine whether the criminal history disqualifies the applicant or registrant. The Board is granted immunity from civil liability for denying registration based on the criminal history record check, provided it acted in good faith.

Section 2 of the bill authorizes the Department of Justice to provide criminal histories to the Appraisal Board and allows the Department to charge a fee to offset the cost of conducting the record check.

Section 3 provides that a real estate appraisal management company established under federal law is not required to pay the initial fee required in this Act, but must pay subsequent registration renewal fees.

ASSUMPTIONS AND METHODOLOGY:

Senate Bill 829 requires that any person or business that acts as an appraisal management company must register with the North Carolina Appraisal Board by January 1, 2010. In addition, the bill authorizes the Board to levy various fees. Among these fees is a $5,000 new application fee. The NC Appraisal Board estimates that 30 business entities would be required to register as real estate appraisal management companies under the passage of this bill. The number of appraisal management companies is expected to remain constant in the next few years. Assuming that all of these businesses register by the January 1, 2010 deadline, this will cause a revenue increase equal to the 30 businesses multiplied by the $5,000 new application fee. This results in a $150,000 revenue increase in FY 2009-10.

Senate Bill 829 authorizes the NC Appraisal Board to levy a $2,500 application renewal fee. This fee will cause a revenue increase starting in FY 2010-11 equal to the renewal fee multiplied by the 30 businesses. This results in a $75,000 revenue increase starting in FY 2010-11.

Senate Bill 829 also authorizes the NC Appraisal Board to levy a late fee, license replacement fee, and registration history fee. The Board is not able to predict the behavior of its future members to the extent that they will incur these fees. Therefore, the impact of these fees on future revenues cannot be estimated.

Department of Justice

The Department of Justice (DOJ) charges a fee of $38 to perform each criminal background check. Of this fee, $22 is forward to the Federal Bureau of Investigation (FBI) for a check of federal databases, and the remaining $16 is retained by DOJ. Of this $16, $14 goes to a check of NC databases and $2 is used for the processing cost associated with the request. All individuals registering with the North Carolina Appraisal Board may be required to submit to this background

check. Assuming that the 30 business will each receive a background check by the January 1, 2010 registration deadline, the fiscal impact to DOJ will be the $16 retained multiplied by the 30 businesses. This results in a $480 increase in revenues in FY 2009-10.

Department of Correction – Division of Prisons

Because the proposed bill creates a new offense, there is no historical data from which to estimate the impact of this bill on the prison population. It is not known how many offenders might be convicted and sentenced under the proposed bill. In FY 2007-08, 21% of Class 1 misdemeanor convictions resulted in active sentences. The average estimated time served for Class 1 convictions was 30 days. Offenders serving active sentences of 90 days or less are housed in county jails. Therefore, Class 1 misdemeanor convictions for this proposed offense *would not be expected to have a significant impact on the prison population.* The Department of Correction (DOC) reimburses county jails for misdemeanants, starting on the 31st day at a rate of $18 per day. Because the average active sentences for Class 1 misdemeanors are less than 31 days, the State would incur no costs for convictions under the proposed bill. The impact on local jail populations is not known.

Judicial Branch

Because the proposed bill creates a new offense, there is no historical data from which to estimate the impact of this bill on the court system. It is not known how many offenders might be charged under the proposed bill. In FY 2007-08, a typical misdemeanor case took approximately 87 days to dispose in District Court. Any increase in judicial caseload without accompanying resources could be expected to further delay the disposition of cases.

HOUSE BILL 1570:
Amend Allocation of TVA Payment

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	August 5, 2009
Introduced by:	Rep. Haire	**Prepared by:**	Cindy Avrette
Analysis of:	Third Edition		Committee Counsel

SUMMARY: House Bill 1570 would amend the allocation of payments made by the Tennessee Valley Authority to the State and local governments. The allocation would be made on the basis of each local government's percentage of the total value of the TVA property in the State (instead of on the basis of the percentage of loss of taxes to each local government.) In addition, when calculating the allocation of the TVA's valuation among the local governments, the Department of Revenue would no longer use the tax rate fixed by the local government.

CURRENT LAW: Pursuant to federal law, the Tennessee Valley Authority (TVA) makes annual payments to the State and local governments in lieu of property taxes. These payments are apportioned between the local governments in which the property is owned or an operation is carried on, on the basis of the percentage of loss of taxes to each local government. The minimum annual payment to any local government cannot be less than the local government's annual actual tax loss based upon the two-year average on the property next prior to it being taken over by TVA.

Each year the Department of Revenue must determine the total taxes that would be due to both the State and the local governments in the same manner as if the property were owned and operated by a privately owned utility.[1] The amount is calculated based on the tax rate fixed by the local government.

BILL ANALYSIS: House Bill 1570 would apportion the payments made by TVA between the local governments on the basis of each local government's percentage of the total value of the TVA's property in the State. Each year the Department of Revenue would determine the allocation of the TVA's valuation among the local governments as if the property were owned or operated by a privately owned utility. The tax rate fixed by the local government would no longer be used in making this calculation. In the past, as local governments in the mountains dropped their tax rate as the value of property appreciated, the lower rate resulted in a lower payment from TVA. This was because the lower tax rate was applied to the book value of TVA property.

TVA property is located in the following North Carolina counties: Avery, Buncombe, Cherokee, Clay, Graham, Haywood, Henderson, Jackson, Macon, Madison, Mitchell, Swain, and Watauga.[2] TVA property is also located in the towns of Murphy in Cherokee County and Bryson City in Swain County.

EFFECTIVE DATE: This act becomes effective October 1, 2009.

BACKGROUND: The Tennessee Valley Authority (TVA) was created by Congress in 1933. This federal corporation is the largest public power company in the U.S. and manages the nation's fifth

[1] DOR determines the true value of utilities using the following:
- The market value of the company's capital stock and debt.
- The book value of the company's system property as reflected in the books of account kept under the regulations of the appropriate federal or state regulatory agency and what it would cost to replace or reproduce the system property, less a reasonable allowance for depreciation.
- Gross receipts and operation income of the company.
- Any other information that in the judgment of the Department has a bearing on the true value of the company's system property.

largest river. Beginning in July, 1940, federal law required the TVA to pay a percentage of their gross proceeds to State and local governments annually "in order to render financial assistance to those States and local governments in which the power operations of the Corporation [TVA] are carried on and in which the Corporation [TVA] has acquired properties previously subject to State and local taxation." Since 1948, payment has been 5% of the gross proceeds. These proceeds are derived from the sale of power by TVA for the preceding fiscal year. These payments are in lieu of taxation. The payments are apportioned among the States in the following manner:

One-half of the payment is apportioned by paying to each State the percentage thereof which the gross proceeds of the power sales by the TVA within the state during the preceding fiscal year bear to the total gross proceeds from all power sales by the TVA

The remaining one-half is apportioned by paying to each State the percentage thereof which the book value of the power property held by the TVA within the State at the end of the preceding fiscal year bears to the total book value of all the property held by the TVA.

PRINCIPAL DEPARTMENT(S) & PROGRAM(S) AFFECTED: Avery, Buncombe, Cherokee, Clay, Graham, Haywood, Henderson, Jackson, Macon, Madison, Mitchell, Swain and Watauga Counties; Towns of Murphy and Bryson City; NC Department of Revenue

EFFECTIVE DATE: October 1, 2009

BILL SUMMARY:

House Bill 1570 would amend the allocation of payments made by the Tennessee Valley Authority to the State and local governments. The allocation would be made on the basis of each local government's percentage of the total value of the TVA property in the State (instead of on the basis of the percentage of loss of taxes to each local government.) In addition, when calculating the allocation of the TVA's valuation among the local governments, the Department of Revenue would no longer use the tax rate fixed by the local government.

ASSUMPTIONS AND METHODOLOGY:

The Tennessee Valley Authority (TVA) annually makes payments to the State and local governments in lieu of taxes. These payments are apportioned between the local governments in which TVA property is owned or an operation is carried on, on the basis of the percentage of loss of property taxes to each local government. As a result, the allocation is impacted each time one of the affected counties or municipalities changes its property tax rate.

House Bill 1570 would apportion the payments made by TVA between the local governments on the basis of each local government's percentage of the total value of the TVA's property in the

State. Each year the Department of Revenue will determine the allocation of the TVA's valuation among the local governments as if the property were owned or operated by a privately owned utility. The tax rate fixed by the local government will no longer be used in making this calculation.

As a result, the share of TVA payments received by individual counties and municipalities will change, however the total amount of the payments will not be affected. The chart below is an estimate of local government payments under current law vs. HB1570.

Estimated TVA Payments under Current Law vs. HB 1570 (FY 09-10)

County/Town	Assessed Value of TVA Property	2008-09 Tax Rate	Percentage Of Total Computed Levy	TVA Payment Current Law	Percentage Of Total Property Value	Payment Based on H1570	Difference

A BILL TO BE ENTITLED

AN ACT TO CLARIFY THE VALUATION OF COMMUNITY LAND TRUST PROPERTY.

The General Assembly of North Carolina enacts:

SECTION 1. Article 12 of Subchapter II of Chapter 105 of the General Statutes is amended by adding a new section to read:

"**§ 105-277.17. Taxation of community land trust property.**

(a) Classification. – Community land trust property is designated a special class of property under Section 2(2) of Article V of the North Carolina Constitution and must be appraised, assessed, and taxed in accordance with this section.

(b) Definitions. – The following definitions apply in this section:

(1) Community land trust developer. – A nonprofit housing development entity that is an exempt organization under section 501(c)(3) of the Code and that transfers community land trust property to a qualifying owner.

(2) Community land trust property. – Improvements to real property that meet all of the following conditions:

a. A fee or leasehold interest in the improvements is transferred subject to resale restrictions contained in a long-term ground lease of not less than 99 years.

b. The community land trust developer retains an interest in the property pursuant to the deed of conveyance or the long-term ground lease.

(3) Ground lease. – A lease between the community land trust developer of a dwelling site, as landlord, and the owner or lessee of a permanent residence constructed on the dwelling site, as tenant. The leasehold interest of the tenant in the dwelling site includes an undivided interest and nonexclusive easement for ingress and egress to the dwelling site and for the use and enjoyment of the common areas and community facilities, if any.

(4) Income. – Defined in G.S. 105-277.1(b).

(5) Initial investment basis. – The most recent sales price, excluding any silent mortgage amount, of community land trust property.

(6) Qualifying owner. – A North Carolina resident who (i) occupies, as owner or lessee, community land trust property as a permanent residence and (ii) is part of a household, the annual income of which at the time of transfer and adjusted for family size is not more than one hundred percent (100%) of the local area median family income as defined by the most recent figures published by the U.S. Department of Housing and Urban Development.

(7) Resale restrictions. – Binding restrictions that affect the price at which a qualifying owner's interest in community land trust property can be transferred for value to a subsequent qualifying owner or the community land trust developer.

(8) Silent mortgage amount. – The amount of debt incurred by a qualifying owner that is represented by a deed of trust or leasehold deed of trust on community land trust property and that earns no interest and requires no repayment prior to satisfaction of any interest-earning mortgage or a subsequent transfer of the property, whichever occurs first.

(9) Transfer. – Any method of disposing of an interest in real property.

(c) Valuation. – The initial appraised value of community land trust property in the year the property first qualifies for classification under this section is the initial investment basis. In subsequent general reappraisals, the value of the community land trust property shall not exceed the sum of the restricted capital gain amount and the initial investment basis. The restricted capital gain amount is the market value of the community land trust property that would be established for the current general reappraisal if not for this classification (i) adjusted to the maximum sales price permitted pursuant to the resale restrictions effective for a hypothetical sale occurring on the date of reappraisal, if less, and (ii) subtracting the initial investment basis and any silent mortgage amount."

SECTION 2. G.S. 105-278.6(e) reads as rewritten:

"(e) Real property held by an organization described in subdivision (a)(8) for a charitable purpose under this section as a future site for housing for individuals or families with low or moderate incomes may be classified under this section for no more than five years. The taxes that would otherwise be due on real property exempt under this subsection shall be a lien on the property as provided in G.S. 105-355(a). The taxes shall be carried forward in the records of the taxing unit as deferred taxes. The deferred taxes are due and payable in accordance with G.S. 105-277.1F when the property loses its eligibility for deferral as a result of a disqualifying event. A disqualifying event occurs when the ~~organization fails to construct~~property was not used for low- or moderate-income housing ~~on the site~~ within five years from the first day of the fiscal year the property was classified under this subsection."

SECTION 3. G.S. 105-282.1(a)(2)c. reads as rewritten:

"c. Special classes of property classified for taxation at a reduced valuation under G.S. 105-277(h), 105-277.1, 105-277.1C, 105-277.10, 105-277.13, ~~105-278, or 105-277.15.~~105-277.15, 105-277.17, or 105-278."

SECTION 4. This act is effective for taxes imposed for taxable years beginning on or after July 1, 2010.

HOUSE BILL 1586:
Community Land Trust Property Taxation

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	August 5, 2009
Introduced by:	Reps. Luebke, Hall	**Prepared by:**	Heather Fennell
Analysis of:	Second Edition		Committee Counsel

SUMMARY: House Bill 1586 would classify community land trust (CLT) property as a special class of property and require resale restrictions to be considered in determining the property tax value.

CURRENT LAW: Under G.S. 105-283, real property must be appraised at its true value, or the value a willing, able, and knowledgeable buyer would give to a willing, able, and knowledgeable seller for the property. In appraising true value, the assessor must "consider ... any ... factor that may affect its value." Community land trust property for low- and moderate-income families has restrictions on the sales price, and anecdotal evidence suggests inconsistent treatment of these resale restrictions as a "factor that may affect [a property's] value" for purposes of establishing a property tax value for this type of property.

Under G.S. 105-278.6(e), real property held by a nonprofit organization as a future site for housing for individuals or families with low or moderate incomes qualifies for a deferral of property taxes. Those taxes become due and payable if homes for low or moderate income families are not built on the land within five years.

BILL ANALYSIS: House Bill 1586 classifies community land trust property for special property tax valuation and establishes how resale restrictions should be used by an assessor in establishing property tax values for this type of property. Community land trust property is an improvement to real property that meets all of the following requirements:

- It is developed by a non-profit 501(c)(3) tax-exempt entity, which retains an interest in the property according to one of the following two models[1]:
    - The improvement is conveyed to the qualifying owner and the land on which the improvement is constructed is leased to the qualifying owner under a 99-year lease, renewable for an additional 99-year term.
    - The improvement and the land on which the improvement is constructed are leased to the qualifying owner under a 99-year lease, renewable for an additional 99-year term.
- An interest in the property is conveyed to a North Carolina resident who occupies the improvement, as owner or lessee, as a permanent residence and who is part of a household with an annual income, at the time of transfer and adjusted for family size, of not more than 100% of the local area median income.[2]
- Its resale value is governed by restrictions contained in the ground lease to ensure low-priced housing to subsequent qualifying owners.

[1] The first model is the model used by Durham County. The second model is the model used by Orange County. Wilmington, another community land trust being established, has not designated a model at this time.

[2] The local area median income for Durham and Orange Counties is equal to $49,938 for a family of one; $57,063 for a family of two; $64,188 for a family of three; $71,313 for a family of four; $77,000 for a family of five; $82,750 for a family of six; $88,750 for a family of seven; and $94,125 for a family of eight or more.

The tax value of community land trust property when the property first qualifies for this classification is equal to the actual sales price of the house to the qualifying owner, minus any silent mortgage amount.[3] In subsequent revaluations, the tax value of community land trust property is capped at the original sales price plus the amount of capital gain the qualifying owner could realize from the sale.

The bill also modifies G.S. 105-278.6(e) to provide that eligibility for the tax deferral program does not end in situations such as bankruptcy or foreclosure, where the qualifying owner's interest is re-acquired by the CLT and the CLT owns the property, *in toto*, during the listing period.

EFFECTIVE DATE: This act is effective for taxable years beginning on or after July 1, 2010.

BACKGROUND: S.L. 2008-146 classified certain low-income housing developments as a special class of property for which the value must be assessed by using the income approach to valuation. The tax assessor must take into account any applicable rent restrictions and may not include any federal tax credits for affordable housing in determining income. The property value determination is limited to actual rental income as opposed to the rental income similarly situated property not subject to rent restrictions would be able to generate as income.

This bill specifically applies to Community Land Trusts where the underlying land is owned by a nonprofit and the individual homes are owned by low-income individuals or families. These homes are subject to resale restrictions to ensure the homes are affordable for future families. These homes are currently appraised at market value for tax purposes although due to the restrictions, the homeowners could not sell the homes at market value.

Dan Ettefagh, counsel to House Finance, substantially contributed to this summary.

ASSUMPTIONS AND METHODOLOGY:
House Bill 1586 identifies community land trust property as a special class of property and requires assessors to take the resale restrictions that apply to land trust property into consideration when valuing property for property tax purposes. The bill limits the assessed value of land trust property to what the property could be sold for on the day it is assessed. This will have the effect of lowering the value of land trust property for property tax purposes.

There are currently three qualifying community land trusts active in North Carolina: Durham Community Land Trust, Orange Community Housing and Land Trust, and the Cape Fear Housing Land Trust. The cities and counties in which these land trusts are located will potentially experience a negative fiscal impact.

The Orange Community Housing and Land Trust currently has 135 properties within its trust that are subject to property tax. Of these properties, 127 are located in Chapel Hill and 8 are located in Carrboro. The Orange Community Trust estimates that on average each of the Carrboro properties will drop by $36,449.3 in assessed value and that each of the Chapel Hill properties will drop by $9,970.13 in assessed value. The Orange Country Board of Equalization and Review is currently conducting a hearing regarding land trust property. If the Board rules in favor of the Trust, the ruling would require Orange County local taxing entities to include land trust selling restrictions

[2] The local area median income for Durham and Orange Counties is equal to $49,938 for a family of one; $57,063 for a family of two; $64,188 for a family of three; $71,313 for a family of four; $77,000 for a family of five; $82,750 for a family of six; $88,750 for a family of seven; and $94,125 for a family of eight or more.
[3] A silent mortgage is a mortgage that earns no interest and requires no repayment prior to the satisfaction of any interest- earning mortgage or the transfer of the property, whichever occurs first.

when assessing land trust property. If this scenario occurs, House Bill 1586 will have no fiscal impact. If the Board rules unfavorably to the land trust, House Bill 1586 will result in a revenue decrease for Orange County and its Municipalities. The revenue decrease will be equal to the local property tax rate applied to the average drop in assessed property values multiplied by the number of properties within the taxing jurisdiction. The chart below summarizes the potential fiscal impact to the local governments.

Potential Impact of HB 1586: Orange County

Local Taxing Entity	Tax Rate (per $100)	Total Drop in Value	Total Tax Loss
Orange County	0.998	$ (1,562,181.92)	$ (15,590.58)
City of Carrboro	0.686	$ (295,917.00)	$ (2,030.88)
City of Chapel Hill	0.581	$ (1,266,264.92)	$ (7,357.00)
Carrboro-Chapel Hill School District	0.230	$ (1,562,181.92)	$ (3,593.02)

The Durham Community Land Trust currently has 75 properties in its trust. The properties are located in the City of Durham. Of these, there are 20 properties whose property tax value will lower due to House Bill 1586. The Trust estimates that, on average, each house will decrease in value by $48,617. Multiplying the $48,617 decrease by the number of properties results in a $972,340 loss in taxable property value. Applying the $0.7081 Durham County property tax rate to this number results in the revenue loss to Durham County. This results in a $6,885.15 revenue loss in FY 2009-10. Applying the $0.5400 City of Durham property tax rate to the loss in taxable property value results in the revenue loss to the City of Durham. This results in a $5,250.64 revenue loss in FY 2009-10.

The Cape Fear Housing Land Trust is currently in the process of acquiring properties and does not anticipate any of their properties will be impacted by this legislation within the next ten years. Therefore, House Bill 1586 will have no fiscal impact on New Hanover County and its municipalities within the next five years.

HOUSE BILL 1166:
Insurance Law Changes.-AB

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	August 5, 2009
Introduced by:	Reps. Goforth, Wray	**Prepared by:**	Heather Fennell
Analysis of:	Fifth Edition		Committee Counsel

SUMMARY: ***House Bill 1166 is an agency bill that makes a number of changes to the laws related to licensing property, casualty or personal lines insurance agents, bail bondsmen, surplus lines carriers, collection agencies, insurance premium finance companies, and authorizes the release of life insurance coverage and benefits information to certain persons providing funeral services.***

BILL ANALYSIS:

Section 1 provides that the Financial Industry Regulatory Authority or any successor entity may be referred to as "FINRA" in Article 33 of Chapter 58

Sections 2, 5 and 10 substitute FINRA for the current term "National Association of Securities Dealers" in G.S. 58-33-26(e), G.S. 58-33-32(k), and G.S. 58-33-46(a) (2).

Section 3 clarifies existing law which provides that an individual may not simultaneously hold both a license as an adjuster and a license for property, casualty or personal lines insurance.

Section 4 requires individuals applying for a license as an agent, broker, limited representative, adjuster or motor vehicle damage appraiser to submit to a criminal background check as part of the licensure process. This requirement becomes effective October 1, 2010 and would apply to applications made on or after that date.

Section 6 repeals G.S. 58-33-35 which exempts certain applicants for an agent's license from taking an examination.

Sections 7 and 8 clarify the process by which an insurer may appoint an individual as an agent and requires the insurer to notify the Commissioner within 15 days of that appointment.

Section 9 repeals provisions that are made redundant because of the changes in Sections 7 and 8.

Section 10 allows the Commissioner to suspend, revoke, refuse to renew or put on probation an insurance license if the individual has been convicted a felony involving moral turpitude.

Section 11 requires that nonresident surplus lines licensees are to be licensed under the procedures applicable to agents, brokers, limited representatives, adjuster and motor vehicle damage appraisers.

Section 12 allows the Commissioner to specify the manner by which applicants for a bail bondsman or runner licenses must submit their fingerprints for a criminal background check.

Section 13 requires an applicant for a bail bondsman or runner license who is not able to complete the examination requirement within 30 days after notification of the commissioner to submit to another criminal background check.

Section 14 removes a provision that appears to allow a professional bondsman who ceases to employ a runner to cancel that runner's license.

Section 15 removes a provision that required a bail bondman who discontinues writing bail bonds to notify the clerk of court of that discontinuance

Sections 16, 17, 18 and 19 require owners of collection agencies, motor clubs and insurance premium finance companies to notify the Commission of any criminal conviction involving dishonesty or breach of trust and of any administrative action by another state or another governmental agency. These requirements become effective October 1, 2009.

Section 20 requires applicants for a license under Chapter 58 to provide the Commissioner with an e-mail address as well as a residential address, and to notify the Commissioner of any change in the e-mail address.

Section 21 adds two new subsections to G.S. 58-70-5 "Application to Commissioner for permit" - Subsection (r) allows applicants who are subsidiaries of a parent holding company, and who apply for a permit to "carry on the collection agency business..." to file the parent company's balance sheet accompanied by a guarantee by the parent company of the subsidiary's performance, instead of the current requirement that the subsidiary file its own balance sheet. Subsection (s) provides that the parent company remains responsible for the guarantee of performance provided under (r), unless a new parent company acquires the subsidiary and files a new guarantee of the subsidiary's performance, or the subsidiary files its own balance sheet as provided under current law.

Sections 22 sets forth a definition section for application in Article 70 "Collection Agencies".

Section 23 allows for persons licensed to practice funeral directing or employees of licensed funeral homes to request information from an insurer regarding coverage of a deceased person under a life insurance contract *(was "Any person providing funeral service...")*. Requires that requestor provide insurer with a copy of the notification of death and a written authorization from the deceased person's next of kin or person financially responsible for the services.

The new provision then directs the insurer to inform the requestor of:

- The existence of any contract insuring the life of the deceased.
- Beneficiaries on record.
- The amount of outstanding liens or loans on the policy.
- The amount of benefits payable to the beneficiaries.
- Whether the policy has been reinstated within the last 24 months. *(added in new PCS)*

The new provision allows persons not receiving timely responses from insurers to refer the requests, with accompanying information, to the Department for follow-up as a consumer complaint.

Subsection (c) to the proposed G.S. 58-58-97 directs persons who have received the information to 'make reasonable efforts' to locate the beneficiaries within 100 hours of receiving the information and to provide the beneficiaries with all documentation and information they received from the insurer, in those cases where the beneficiary of record is not the estate of the deceased. This new subsection also requires recipients of this information to inform all beneficiaries, in bold print, that they have no obligation to spend any of the life insurance money on the funeral or other debts or obligations of the deceased, before they may discuss with the beneficiaries financial arrangements for burial of the deceased.

The new subsection (d) deems anyone making a false request for information under the new section or failing to comply with the requirements of subsection (c) to be guilty of fraud or misrepresentation in the practice of funeral service and unfit to practice funeral service. Pursuant to G.S. 90-210.25(e), this would authorize the Board to suspend, revoke or refuse to renew a license, or to accept from the licensee payment of a penalty not to exceed $5,000.

Section 24 adds "...a person providing funeral service to a deceased insured making an inquiry under G.S. 58-58-97." to the list of persons currently authorized under G.S. 58-39-75 to be given personal or privileged information about an individual by an "...insurance institution, agent, or insurance-support organization...".

Section 25 directs the Department to report to the Chairs of the House Insurance and Senate Commerce committees by March 1, 2011 a range of information (including the number of insurance policy beneficiary information inquiries referred to it, the identities of insurers involved, reasons for delays, etc.) relating to requests of insurers referred to the Department for follow-up under the provisions of the new G.S. 58-58-97.

Sections 26 and 27 amend G.S. 58-2-85 and 58-2-90 respectively concerning appeals of the Commissioner's final decisions to the N.C. Court of Appeals. These sections delete language requiring exceptions to the final order to be set forth with the Commissioner and assignments of error for the Court's review. The North Carolina Court of Appeals no longer requires assignments of error.

Section 28 delays the effective date of the changes to the treatment of diminution in value in in autor insurance enacted in Senate Bill 660, which has been enacted by the General Assembly, but not yet signed by the Governor.

EFFECTIVE DATE: Section 4 of this act becomes effective October 1, 2010, and applies to applications made on or after that date. Sections 16, 17, 18 and 19 of this act become effective October 1, 2009. Section 20 of this act becomes effective January 1, 2010. Sections 23, 24, and 25 of this act become effective October 1, 2010. The remainder of this act is effective when it becomes law

The Department of Justice may provide a criminal history record check to the local law enforcement agency for an employee engaged in the precious metals business. The agency shall provide to the Department of Justice, along with the request, the fingerprints of the employee,

CURENT LAW: Article 25 of Chapter 66 of the General Statutes provides for the regulation of persons who engage in the business of purchasing precious metals (gold, silver, and platinum) from the public. "Precious metals" do not include coins, medals, tokens, or art ingots. A dealer must obtain a permit from the local law enforcement agency and is required to keep records of all transactions to be submitted to the law enforcement agency on an ongoing basis. Those requirements do not apply to a merchant whose purchases of precious metals from the public are 10% or less of the merchant's total purchases of secondhand items. Also exempt from regulation under this Article are purchases made directly from manufacturers or wholesalers of precious metals by permanently located retail merchants for their inventories, and pawns or pledges of items made of precious metals made to pawnbrokers under Chapter 91A.

BILL ANALYSIS: House Bill 1637 would amend Article 25 of Chapter 66 of the General Statutes in the following ways:

Eliminate 10% rule. Under current law, a dealer may apply for an exemption from licensure requirements if the dealer's purchases of precious metals from the public are 10% or less of the dealer's total purchases of secondhand items. The dealer is required to apply for the exemption with the law enforcement agency each year. In any month that purchases exceed 10%, the dealer is required to file notice with the law enforcement agency. In practice, there seems to be confusion on the part of dealers and law enforcement about this exemption. The bill would eliminate the exemption, so that all dealers would be subject to licensing requirements.

Clarify exempt transactions. Under the current law, the following transactions are exempt from regulation:

- Purchases made by permanently located retail merchants directly from manufacturers or wholesalers of precious metals for their inventories.
- Pawns or pledges of items made of precious metals under the provisions of Chapter 91A (regulation of pawnbrokers). Purchases by pawnbrokers are not exempt, which causes overlap of the precious metal dealer and pawnbroker statutes, which include similar record keeping and hold provisions.

The bill would reorganize and clarify the statute and specifically list the following as "exempt transactions":

- Purchases made by permanently located retail merchants directly from manufacturers or wholesalers of precious metals for their inventories.
- Pawns, pledges, *and purchases* of items made of precious metals if the transaction is entered into by a licensed pawnbroker and the transaction is regulated under Chapter 91A (this would eliminate the overlap for pawnbrokers and take them out of the precious metals article entirely).
- Trades of precious metals entered into by permanently located retail merchants where money is not paid for the item.

Palladium. Article 25 currently regulates purchases of gold, silver, and platinum. The bill would add palladium as a precious metal regulated under those provisions. Palladium would be defined as any item or article containing 950 parts per thousand or more of palladium which may be in combination with any other metal.

Fee increase. Under current law, the annual fee for a precious metals dealer permit is $10. The bill would increase the annual permit fee for dealers to $180 and provides that the fee includes the cost of the background check of the dealer and special occasion applicant. An employee of a dealer is required to register his or her name and address with the local law enforcement agency within 2 days of being employed and pay a fee of $3. The bill would increase the registration fee to $10 with an annual renewal fee of $3.

Physical address required for special occasion permit. Under current law, a dealer can apply for a special occasion permit, which allows the dealer to make purchases in various locations in the state that are not permanent. This makes it difficult or impossible for the dealer to comply with the required hold period. The bill would require an applicant for a special occasion permit to provide a physical address where the items are purchased for purposes of satisfying the required hold period. The address would have to be the location where the item was purchased or another address within the same law enforcement jurisdiction, if a separate location is approved by the agency issuing the permit. The dealer

would also be required to make the items available for inspection by law enforcement at all reasonable times.

Criminal history checks for employees. Under current law, an applicant for a dealer permit is required to undergo a criminal record check and may not be issued a permit if the applicant has been convicted of a felony involving a crime of moral turpitude, larceny, receiving stolen goods, or similar charges within the previous 5 years. Employees of dealers are required to register with the local law enforcement agency but are not required to undergo criminal background checks. The bill would require employees to consent to criminal background checks. If the person refuses the check or has been convicted of a felony involving a crime of moral turpitude, larceny, receiving stolen goods, or similar charges, and the person's citizenship rights have not been restored for at least 5 years prior to registering, then the person may not be employed by a licensed dealer. The bill would provide that an employee who is only engaged in precious metals purchasing incidentally to other job responsibilities would not be required to register and undergo a background check as long as any transaction the employee is involved with is overseen by a registered employee or licensed dealer. The bill also amends the requirements for licensees with regard to felony convictions, providing that they must also have had citizenship rights restored at least 5 years prior to application.

Records of transactions maintained electronically. Precious metal dealers are required to maintain records of all transactions, including the manufacturer's name, the model, model number, serial number, and engraved numbers or initials on the item; the date of the transaction; the name, sex, residence, phone number, and drivers license number of the seller; and the signatures of the dealer and seller. Under current law, a dealer's records of transactions must be maintained in record books, and a copy of each record book entry must be filed in the office of the local law enforcement agency within 48 hours of a transaction. The bill would allow the dealers to maintain records of transactions electronically in a database that prevents record deletion, tracks modifications, and allows for electronic signatures. It would also provide that the law enforcement agency may determine the manner of reporting required by the dealer (either electronic, by fax, or hand delivery), but the agency must allow the dealer to hand deliver a hard copy if a technological failure prevents reporting electronically or by fax. The dealer would also still be required to provide hard copies of records upon request of the agency.

Time restriction on selling or disposing of purchased items. When a dealer purchases an item, current law prohibits the dealer from selling or otherwise disposing of the item for a period of 5 days following the date of purchase. The bill would amend the law to prohibit the dealer from selling or otherwise disposing of the item for a period of 7 days after the record of the transaction is reported.

EFFECTIVE DATE: The bill would become effective October 1, 2009. However, a dealer that is required by the act to be licensed, and who is not required under the current law to be licensed, would not be guilty of engaging in the precious metals business without a license until January 1, 2010. This grace period is provided because there is a 30-day waiting period for issuance of a permit.

PRINCIPAL DEPARTMENT(S) & PROGRAM(S) AFFECTED: Department of Justice, Local Law Enforcement

EFFECTIVE DATE: Effective October 1, 2009. However, a dealer that is required by the act to be licensed, and who is not required under the current law to be licensed, would not be guilty of engaging in the precious metals business without a license until January 1, 2010. This grace period is provided because there is a 30-day waiting period for issuance of a permit.

BILL SUMMARY:

House Bill 1637 amends the provisions governing the regulation of persons engaged in the business of purchasing precious metals as follows:

- Eliminates the 10% rule (exemption from licensing requirements for dealers whose second hand purchases of precious metals are less than 10% of their total purchases from the public).
- Clarifies transactions that are exempt from regulation.
- Exempts all pawnbroker transactions from regulation under the precious metals article.
- Increases the fee for a permit from $10 to $180 and increases the fee for registration of an employee from $3 to $10 with an annual renewal fee of $3.
- Requires employees of dealers to consent to criminal history checks and provides that the person may not be employed by the dealer if the person refuses to consent or if the person has been convicted of a felony and has not had citizenship rights restored for at least 5 years.
- Exempts employees from registration if they are only involved in precious metals purchases incidentally to other job responsibilities and the transactions are overseen by a registered employee or licensed dealer.
- Requires a dealer who applies for a special occasion permit to provide a physical address in the State where purchased items are to be kept for the required hold period.
- Allows dealers to keep records electronically, but reporting would be in the manner authorized by the law enforcement agency. Provides that purchased items may not be sold or disposed of for a period of 7 days after a transaction is reported.

This differs from previous editions of the bill in that it reduces the permit fee from $250 to $180. It further provides that the permit fee includes the cost of the background check of the dealer. The bill requires a special occasion permittee to identify a physical address in this State where purchased items will be held for the required 7-day period. The bill would require that address to be located in the law enforcement jurisdiction in which the purchase is made. It also makes technical and stylistic changes.

ASSUMPTIONS AND METHODOLOGY:

Under current law, persons engaging in the business of purchasing precious metals from the public must obtain a permit from local law enforcement agencies and keep records of all transactions to be submitted to the law enforcement agencies on an on-going basis. The requirements currently apply to merchants whose purchases of precious metals from the public are 10% or less of his or her total purchases of secondhand items. Pawnbrokers are exempt from these requirements. House Bill 1637 amends these laws by eliminating the 10% rule and increasing the fee for a permit from $10 to $180 and requires that part of this fee be used to pay for the background checks of store owners. It also increases the fee for registration of an employee from $3 to $10 with an annual renewal fee of $3.

According to the North Carolina Jewelers Association, there are around 859 jewelry retail outlets in the state. Each of these outlets engages, to some extent, in the buying precious metals from the public. Although current law requires most of these retail outlets to register with local law enforcement, in the past there has been the misconception in most counties that these outlets are exempt from permitting requirements. The only county that currently regulates jewelry retail outlets is Mecklenburg County. According to the Charlotte-Mecklenburg Police, there are around 54 of these outlets in Mecklenburg County. Therefore, with the exception of outlets in Mecklenburg County, the permit fee increase is the equivalent of a new fee. Due to current economic conditions, the Association expects the number of jewelry outlets to decline by 5% each year. Unfortunately, it cannot be predicted where this decrease will be

concentrated. This analysis assumes that none of the stores in Mecklenburg County will close. The revenue increase to local law enforcement will be equal to true fee increase multiplied by the number of stores paying the fee. This results in a $154,620 revenue increase for FY 2009-10. The chart below summarizes the fiscal impact of increasing the precious metal permitting fee.

HB 1637: Impact of Increasing the Permitting Fee

Fiscal Year	Number of Retail Outlets	Revenue Increase
FY 2009-10	859	$154,620
FY 2010-11	816	$146,880
FY 2011-12	775	$139,500
FY 2012-13	736	$132,480
FY 2013-14	700	$126,000

House Bill 1637 also increases the registration fee for an employee from $3 to $10 with an annual fee of $3. It is not known exactly how many employees work at the retail jewelry outlets. Assuming that there is at least one employee at these outlets excluding the permit holder, there will be at least 859 employees in FY 2009-10. Mecklenburg County is the only county that currently registers these employees and therefore, employees located in this county will be charged the $3 renewal fee in FY 2009-10. The remaining employees in the state will be charged the $10 fee in the first year. The revenue increase to local law enforcement will be equal to the number of employees in the state multiplied by the registration fee. This results in an $8,212 revenue increase for FY 2009-10. The chart below summarizes the fiscal impact of increasing the employee registration fee, assuming the same employees work at the outlets during the next five fiscal years.

HB 1637: Impact of Increasing Employee Registration Fee

Fiscal Year	Number of Employees	Revenue Increase
FY 2009-10	859	$ 8,212
FY 2010-11	816	$ 2,448
FY 2011-12	775	$ 2,325
FY 2012-13	736	$ 2,208
FY 2013-14	700	$ 2,100

Current Law requires the owner of a retail jewelry outlet to have their background checked as part of outlet permit application process. Because only Mecklenburg County has been enforcing this law, background checks will need to be performed for all existing stores outside of this county. House Bill 1637 stipulates that the cost of the background checks must come out of the $180 permit fee. This will manifest as an increase in expenditures for local law enforcement equal to the number of unlicensed stores multiplied by the $38 background check fee. This results in a $30,590 increase in expenditures in FY 2009-10. It is unknown how many new jewelry outlets will open in future years. This analysis assumes that the only stores that will remain open in FY 2010-14 will be existing establishments. Under this assumption, there will be no impact to local law enforcement during FY 2010-14. If new establishments are opened during this time period, there will be an increase in expenditures for local law enforcement.

Department of Justice

The Department of Justice (DOJ) charges a fee of $38 to perform each criminal background check. This bill calls for the background check fee for store owners to be included as part of the $180 permit fee and not as an additional, separate fee. Employees, however, will be required to furnish their own background check fee. Of the $38 fee, $22 is forwarded to the Federal Bureau of Investigation (FBI) for a check of federal databases, and the remaining $16 is retained by DOJ. Of this $16, $14 goes to a check of NC databases and $2 is used for the processing cost associated with the request.

Current Law requires the owner of a retail jewelry outlet to have their background checked as part of outlet permit application process. Because only Mecklenburg County has been enforcing this law, background checks will need to be performed for all existing stores outside of this county. This will cause an increase in revenues for DOJ equal to $16 multiplied by the number of stores currently without a permit. This results in a $12,880 increase in revenues in FY 2009-10. This analysis assumes that the only stores that will remain open in FY 2010-14 will be existing establishments. Under this assumption, there will be no impact to DOJ during FY 2010-14. If new establishments are opened during this time period, there will be an increase in revenues to DOJ during FY 2010-14.

The bill also requires all individuals employed by dealers of precious metals to consent to criminal history checks. The number of applicable employees is not known. Assuming there is at least one employee at each precious metal outlet remain, there will be at least 859 employees subject to criminal history checks under this bill. This number multiplied by the $16 retained by DOJ results in the revenue increase for FY 2009-10. This results in a $13,744 increase in revenues in FY 2009-10. The number of new employees in future fiscal years cannot be predicted. This analysis assumes that the same employees will be retained by retail outlets during the next five fiscal years. Under this assumption, there will be no impact to DOJ during FY 2010-14.. However, DOJ will experience a revenue increase during these years should these outlets choose to hire new employees in this time span.

Department of Correction – Division of Prisons

The North Carolina Sentencing and Policy Advisory Commission prepares prison population projections for each bill containing a criminal penalty. The Commission assumes for such bills that expanding existing, or creating new criminal offenses produces no deterrent or incapacitative effect on crime. Therefore, the Fiscal Research Division does not assume deterrent effects for any criminal penalty bill.

Three sections of the proposed bill contain criminal penalties; the Sentencing Commission's analysis of these sections is shown below.

Section 2: This section amends subsection (b) of G.S. 66-165, Permits required, to provide that the following two types of persons "shall not be employed by" a precious metals dealer required to obtain a permit under G.S. 66-165(a): (1) persons refusing to consent to a criminal history check, or (2) persons convicted within five years prior to the date of application of a felony involving a crime of moral turpitude, larceny, receiving stolen goods, or similar offenses. Under G.S. 66-172, Penalties, a dealer who violates any provision of Article 25 (Regulation of Precious Metal Businesses) is guilty of a Class 2 misdemeanor.[1] However, because the new language is directed at persons who "shall not be employed by a dealer[,]" rather than providing that a dealer "shall not employ" certain persons, it is unclear whether Section 2 creates a new offense for dealers under G.S. 66-172. This analysis assumes that Section 2 creates a new offense.

[1] The Administrative Office of the Courts (AOC) currently does not have a specific offense code for violations of G.S. 66-172. The lack of an AOC offense code is some indication that this offense is infrequently charged and/or infrequently resulted in convictions.

Since the proposed section creates a new offense, the Sentencing Commission does not have any historical data from which to estimate the impact of this section on the prison population. *It is not known how many offenders might be convicted and sentenced under the proposed section.* In FY 2007-08, 20% of Class 2 misdemeanor convictions resulted in active sentenced. The average estimated time served for Class 2 convictions was 10 days. Offenders serving active sentences of 90 days or less are housed in county jails. Therefore, Class 2 misdemeanor convictions for this proposed offense *would not be expected to have a significant impact on the prison population.* The Department of Correction (DOC) reimburses county jails for misdemeanants, starting on the 31st day at a rate of $18 per day. Because the average active sentences for Class 2 misdemeanors are less than 31 days, the *State would incur no costs for convictions under the proposed bill. The impact on local jail populations is not known.*

Section 3: This section expands the recordkeeping obligations of a merchant who purchases precious metals but is exempted from the permit requirement for a "dealer" under G.S. 66-166, Exemption from permits; record keeping under an exemption. Currently, exempted merchants are required to maintain a book with a description of each item of precious metal purchased and the date of transaction. (They must also preserve these records for a period of two years and must allow inspections by law enforcement at any time.) Section 3 would require exempted merchants to record a serially-numbered description of each transaction (in book or electronic form[2]) with the following information: the manufacturer's name; the model number, serial number, and any engraved number or initial found on the purchased item; the date of transaction; the name, sex, race, residence, telephone number and driver's license number of the seller; and the signature of the dealer/merchant and seller. If the seller lacks a valid, unexpired photographic identification card, the merchant would have to require two forms of positive identification to complete the transaction. Under G.S. 66-172, a dealer who violates any provision of Article 25 (Regulation of Precious Metal Businesses) is guilty of a Class 2 misdemeanor.[3] However, it is unclear whether a merchant granted an exemption under G.S. 66-166 is a "dealer" under subsection (1) of G.S. 66-164, Definition, for purposes of G.S. 66-172. To the extent that an exempted merchant is subject to criminal liability under G.S. 66-172 for violations of G.S. 66-166, Section 3 increases the potential for liability through more stringent recordkeeping requirements. This analysis assumes that Section 3 changes the existing offense in this manner.

AOC currently does not have a specific offense code for violations of G.S. 66-172. The lack of an AOC offense code is some indication that this offense is infrequently charged and/or infrequently results in convictions.

It is not known how many additional convictions may result from the proposed broadening of the current statute. In FY 2007-08, 20% of Class 2 misdemeanor convictions resulted in active sentences. The average estimated time served for Class 2 misdemeanor convictions was 10 days. Offenders serving active sentences of 90 days or less are housed in county jails. Therefore, Class 2 misdemeanor convictions for this proposed offense *would not be expected to have a significant impact on the prison population.* The Department of Correction (DOC) reimburses county jails for misdemeanants, starting on the 31st day at a rate of $18 per day. Because the average active sentences for Class 2 misdemeanors are less than 31 days, *the State would incur no costs for convictions under the proposed bill. The impact on local jail populations is not known.*

---

[2] Section 4 amends G.S. 66-169, Records to be kept, to allow licensed precious metals dealers to maintain the required records of their precious metals transactions in either a paginated, bound book or in an electronic database that prevents deletions, tracks all modifications, and allows for electronic signatures. It further allows electronic filing of these records with the local law enforcement agency, as required by G.S. 66-169(d). Currently, the statute does not provide for electronic recordkeeping or filing.

[3] *See* Footnote 1.

Section 5: This section amends G.S. 66-170, Items not to be modified, to provide that an item of precious metal purchased by a licensed dealer may not be disposed of, changed in form, or removed from the licensed premises before the earlier of (1) seven days after the date that the record of the purchase is electronically reported to law enforcement under G.S. 66-169 or (2) 30 days after the transaction. Currently, the waiting period is five days from the purchase date. Section 5 thus increases the potential for violations of G.S. 66-170 by precious metals dealers by lengthening the waiting period before the dealer may engage in certain activities. A dealer who violates this provision is guilty of a Class 2 misdemeanor under G.S. 66-172.[4]

It is not known how many additional convictions may result from the proposed broadening of the current statute. In FY 2007-08, 20% of Class 2 misdemeanor convictions resulted in active sentences. The average estimated time served for Class 2 convictions was 10 days. Offenders serving active sentences of 90 days or less are housed in county jails. Therefore, Class 2 misdemeanor convictions for this proposed offense *would not be expected to have a significant impact on the prison population.* The Department of Correction (DOC) reimburses county jails for misdemeanants, starting on the 31st day at a rate of $18 per day. Because the average active sentences for Class 2 misdemeanors are less than 31 days, *the State would incur no costs for convictions under the proposed bill. The impact on local jail populations is not known.*

Department of Correction – Division of Community Corrections

For felony offense classes E through I and all misdemeanor classes, offenders may be given non-active (intermediate or community) sentences exclusively, or in conjunction with imprisonment (split-sentence). Intermediate sanctions include intensive supervision probation, special probation, house arrest with electronic monitoring, day reporting center, residential treatment facility, and drug treatment court. Community sanctions include supervised probation, unsupervised probation, community service, fines, and restitution. Offenders given intermediate or community sanctions requiring supervision are supervised by the Division of Community Corrections (DCC); DCC also oversees community service.[5]

General supervision of intermediate and community offenders by a probation officer costs DCC $2.37 per offender, per day; no cost is assumed for those receiving unsupervised probation, or who are ordered only to pay fines, fees, or restitution. The daily cost per offender on intermediate sanction ranges from $8.43 to $16.71, depending upon sanction type. Thus, assuming intensive supervision probation – the most frequently used intermediate sanction – the estimated daily cost per intermediate offender is $16.71 for the initial six-month intensive duration, and $2.09 for general supervision each day thereafter. Total costs to DCC are based on average supervision length and the percentage of offenders (per offense class) sentenced to intermediate sanctions and supervised probations.

Because there is no data available upon which to base an estimate of the number of convictions that will be sentenced to intermediate or community punishment, *potential costs to DCC cannot be determined.*

Judicial Branch

The Administrative Office of the Courts (AOC) provides Fiscal Research with a fiscal impact analysis for most criminal penalty bills. For such bills, fiscal impact is typically based on the assumption that court time will increase due to anticipated increases in trials and corresponding increases in workload for judges, clerks, and prosecutors. This increased court time is also expected to result in greater expenditures for jury fees and indigent defense.

---

[4] *See* Footnote 1.

[5] DCC incurs costs of $0.69 per day for each offender sentenced to the Community Service Work Program; however, the total cost for this program cannot be determined.

AOC staff reports that this proposed legislation creates a new offense and therefore they are *unable to predict the number of charges that may result from this bill.* This bill may create a new Class 2 misdemeanor offense due to changes in the language in Section 2 regarding employment by a dealer. This bill expands an existing Class 2 misdemeanor offense by expanding the recordkeeping obligations of a merchant who purchases precious metals but is exempt from the permit requirement for a dealer. It also extends the waiting period for disposing of or otherwise removing precious metal items from five to seven days, thus increasing the potential for violations. Violation of the waiting period is also a Class 2 misdemeanor.

For every new Class 2 misdemeanor charge, the cost to the court ranges from $83 to $161. Indigent defense costs for indigent misdemeanants average $225. In FY 2007-08, a typical misdemeanor case took 87 days to dispose in District Court. Any increase in judicial caseload without accompanying resources can be expected to further delay the disposition of cases.

HOUSE BILL 1151:
Res. Lead-Based Paint Hazards/Renovations

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	August 5, 2009
Introduced by:	Reps. Farmer-Butterfield, Earle, England, Rapp	**Prepared by:**	Cindy Avrette Committee Counsel
Analysis of:	Third Edition		

SUMMARY: ***House Bill 1151 establishes a program in the Department of Health and Human Services for the certification of persons and firms performing lead-based paint renovation work in certain residential housing and child-occupied facilities. The program is regulated by the Commission for Public Health. The bill also requires the accreditation of renovation trainers and training courses and establishes fees; authorizes reciprocity for training courses accredited by the EPA; and establishes the penalty for a violation of Article 19B at up to $750 per day.***

BILL ANALYSIS: House Bill 1151 authorizes the Commission for Public Health to establish a state program to regulate persons and firms that perform lead-based paint renovation work, in accordance with federal EPA requirements. Federal law requires that beginning April 2010, a contractor that renovates at least six square feet of interior painted surface or more than 20 square feet of exterior painted surface in certain housing and child care facilities must be certified and follow certain work practices to prevent lead contamination.

Section 1 creates a new Article 19B in the Public Health Law, entitled "'Certification and Accreditation of Lead-Based Paint Renovation Activities." The new Article requires that renovations performed for compensation in certain residential housing and in child-occupied facilities must be performed by certified renovators or certified renovation firms.

The bill prohibits non-certified renovators or firms from performing renovation activities, conducting dust clearing sampling, or conducting cleaning verification. The Commission is directed to adopt rules governing the qualifications, training, and experience required for certification. Certified renovators, firms, and dust sampling technicians must renew their certification annually.

Training providers and training courses must be accredited annually in accordance with rules adopted by the Commission.

The bill establishes maximum fees to be used for the administration of the Article as follows:

- $150.00 for accreditation or reaccreditation of a training provider.
- $2,000.00 for accreditation or reaccreditation of initial or refresher courses (per course per language).
- $300.00 for certification or recertification of a firm.
- $150.00 for certification or recertification of a dust sampling technician.

The fees do not revert to the General Fund at the end of the fiscal year. Accreditation fees do not apply to local or State governmental agency personnel, Indian tribes, or nonprofit training providers.

The Commission is directed to adopt rules to implement the provisions of the Article.

Section 2 amends the law governing penalties for violation of the Chapter. The amendment provides that an administrative penalty may be imposed for violation of the new Article or any rules adopted

pursuant to it. The penalty for violation of this Article shall not exceed $750 for each day the violation continues.

EFFECTIVE DATE: This act becomes effective January 1, 2010.

Karen Cochrane-Brown, counsel to the Senate Commerce Committee, substantially contributed to this summary.

ASSUMPTIONS AND METHODOLOGY:

This proposed legislation is in response to regulations and proposed rules issued by the federal Environmental Protection Agency. Those federal rules established fees that will be charged to States without authorized programs, for training programs seeking accreditation under 40 CFR 745.225, for firms engaged in renovations seeking certification under 40 CFR 745.89, and for individuals of firms engaged in lead-based paint activities under 40 CFR 745.226.

U.S. Environmental Protection Agency (EPA) began enforcing this lead-based paint regulation in states without authorized programs in April, 2009, with full implementation in April of 2010. If North Carolina does not have a program that can be authorized by EPA in place, then EPA will regulate in North Carolina. If EPA operates the program instead of North Carolina, EPA will

collect and use the fees and EPA will likely reduce funding for the existing lead-based paint abatement program.

HB 1151 seeks to establish such a program in compliance with EPA regulations. If HB 1151 is enacted, the program will establish requirements for training and certification of individuals and firms, work practices standards, educational information distribution, and recordkeeping requirements for renovation, repair and painting of pre-1978 housing and child-occupied facilities. Funding for the program will be completely fee-based.

The intent of the Federal regulation, and the subsequent state program, is to support the goal of eliminating childhood lead poisoning as a major public health concern. Childhood lead poisoning is a preventable disease. Paint that contains lead can pose a health threat through various routes of exposure. House dust is the most common pathway through which children are exposed to lead-based paint hazards. Lead exposure in young children is of concern because children absorb lead more readily than adults. Children's brains and nervous systems are more sensitive to the damaging effects of lead.

This legislation will allow the Division of Public Health, DHHS to:

- provide communication of the risks of lead poisoning
- provide exposure reduction or prevention for these risks through community outreach and
- contractor regulation.

The fees proposed in this legislation will fund a program that is designed to minimize the creation of lead-based paint hazards and to promote the effective clean-up of lead-based paint hazards created during renovation, remodeling, and painting activities.

The fees are to be used to initially establish three new positions in the Division of Public Health. The new staff is to

- offer consultation services to businesses regulated by the federal Toxic Substance Control Act,
- provide outreach and education,
- inspect projects,
- audit the required training courses and
- provide administrative support.

As the program matures its anticipated that up to three additional positions will be needed to maintain an effective program. Fees will also support program operational expenses. The fees proposed in the legislation are in line with the proposed fees that EPA references in the August 21, 2008 proposed rule.

The following are table projects the anticipated fee structure and revenue:

A BILL TO BE ENTITLED

AN ACT TO ALLOW THE CITY OF RALEIGH TO EXTEND AN ECONOMIC DEVELOPMENT DEADLINE FOR THE CONSTRUCTION OF ECONOMIC DEVELOPMENT PROJECTS

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 158-7.1(d2) reads as rewritten:

"(d2) In arriving at the amount of consideration that it receives, the Board may take into account prospective tax revenues from improvements to be constructed on the property, prospective sales tax revenues to be generated in the area, as well as any other prospective tax revenues or income coming to the county or city over the next 10 years as a result of the conveyance or lease provided the following conditions are met:

(1) The governing board of the county or city shall determine that the conveyance of the property will stimulate the local economy, promote business, and result in the creation of a substantial number of jobs in the county or city that pay at or above the median average wage in the county or, for a city, in the county where the city is located. A city that spans more than one county is considered to be located in the county where the greatest population of the city resides. For the purpose of this subdivision, the median average wage in a county is the median average wage for all insured industries in the county as computed by the Employment Security Commission for the most recent period for which data is available.

(2) The governing board of the county or city shall contractually bind the purchaser of the property to construct, within a specified period of time not to exceed five years, improvements on the property that will generate the tax revenue taken into account in arriving at the consideration. A city may extend the five year period for up to an additional two years after holding a public hearing and finding extraordinary economic conditions prevented the completion of the project within the five year period. Upon failure to construct the improvements specified in the contract, the purchaser shall reconvey the property back to the county or city."

SECTION 2. This act applies to the City of Raleigh only.

SECTION 3. This act is effective when it becomes law.

HOUSE BILL 465:
Extend Economic Development Deadline.

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	August 5, 2009
Introduced by:	Reps. Martin, Ross, Harrell, Blue	**Prepared by:**	Heather Fennell Committee Counsel
Analysis of:	PCS to Fourth Edition H465-CSTD-66		

SUMMARY: ***The proposed committee substitute replaces the contents of the original bill[1]. This PCS would allow the City of Raleigh to delay certain development projects for 2 years, after holding a public hearing and determining that extraordinary economic conditions prevented the completion of the project in the original time period.***

CURRENT LAW: The Local Development Act of 1925 authorizes counties and cities to undertake specific economic development activities to be funded by the levy of property taxes and by the allocation of other revenues whose use is not otherwise restricted by law. Counties and cities may lease or sell interests in property. The sale or lease of property must be approved by the governing body of the county or city after a public hearing. In determining the amount of the consideration for the interest in the property, the county or city must consider the fair market value of the interest, any restrictions on the interest, and probably average hourly wage to be paid to workers by the business that will ultimately be located on the property. The county or city may also take in to account prospective tax revenues in determining the consideration for the property if the following two conditions are met:

1. The governing body has determined the conveyance of the interest will stimulate the local economy and result in the create of a substantial number of jobs at or above the median average for the county or city.
2. The purchaser agrees to develop the property within a time period, not to exceed 5 years, in a manner that will generate the anticipated tax revenue. If the improvements are not constructed within the time period, the purchaser must reconvey the property back to the county or city.

BILL ANALYSIS: The proposed committee substitute to House Bill 465 would extend the time period for development of a conveyed property for which property taxes were factored into the amount paid for the property, for an additional two years after holding a public hearing and finding extraordinary economic conditions prevented the completion of the project within the 5 year period. This would apply to the City of Raleigh only.

EFFECTIVE DATE: This act is effective when it becomes law.

BACKGROUND: Part of the old convention center property in downtown Raleigh has been conveyed to develop a mixed-used site called "Site 1." Site 1 will consist of an underground parking deck and 2 high rise towers. Due to the economic uncertainly, and the reconveyance requirement in the statute, the project is having difficulty securing lending.

A BILL TO BE ENTITLED

AN ACT TO PROVIDE FOR AN ALTERNATIVE CREDIT FOR QUALIFYING EXPENSES OF A PRODUCTION COMPANY.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 105-130.47 reads as rewritten:

§ 105-130.47. Credit for qualifying expenses of a production company.

...

(b1) Alternative Credit. – In lieu of the credit allowed under subsection (b) of this section, a taxpayer that is a production company and has qualifying expenses of at least two hundred fifty thousand dollars ($250,000) with respect to a production may elect to take a credit against the taxes imposed by this Part equal to twenty-five percent (25%) of the production company's qualifying expenses less the difference between the amount of tax paid on purchases subject to the tax under G.S. 105-187.51 and the amount of sales or use tax that would have been due had the purchases been subject to the sales or use tax at the combined general rate, as defined in G.S. 105-164.3. The credit is computed based on all of the taxpayer's qualifying expenses incurred with respect to the production, not just the qualifying expenses incurred during the taxable year. The taxpayer shall elect whether to claim the credit allowed under this subsection or the one allowed under subsection (b) of this section at the time the taxpayer files the return on which the credit is claimed. This election is binding.

(c) Pass-Through Entity. – Notwithstanding the provisions of G.S. 105-131.8 and G.S. 105-269.15, a pass-through entity that qualifies for ~~the~~ a credit provided in this section does not distribute the credit among any of its owners. The pass-through entity is considered the taxpayer for purposes of claiming ~~the~~ a credit allowed by this section. If a return filed by a pass-through entity indicates that the entity is paying tax on behalf of the owners of the entity, ~~the~~ a credit allowed under this section does not affect the entity's payment of tax on behalf of its owners.

(d) Return. – A taxpayer may claim ~~the~~ a credit allowed by this section on a return filed for the taxable year in which the production activities are completed. The return must state the name of the production, a description of the production, and a detailed accounting of the qualifying expenses with respect to which a credit is claimed.

(e) Credit Refundable. – If ~~the~~ a credit allowed by this section exceeds the amount of tax imposed by this Part for the taxable year reduced by the sum of all credits allowable, the Secretary must refund the excess to the taxpayer. The refundable excess is governed by the provisions governing a refund of an overpayment by the taxpayer of the tax imposed in this

Part. In computing the amount of tax against which multiple credits are allowed, nonrefundable credits are subtracted before refundable credits.

SECTION 2. G.S. 105-151.29 reads as rewritten:

HOUSE BILL 713:
Env./Nat. Res. Reports Consolidation 2009

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	August 6, 2009
Introduced by:	Reps. Allen, Gibson	**Prepared by:**	Dan Ettefagh and Martha Walston Committee Counsel
Analysis of:	PCS to 1st edition		

SUMMARY: ***The proposed committee substitute for House Bill 713 guts the bill and replaces it with language allowing a taxpayer that is a production company the following alternative credit for qualifying expenses:***

The alternative credit is equal to 25% of the production company's qualifying expenses less the difference between the amount of sales tax paid on purchases subject to the 1%/80% privilege tax and the amount of sales tax that would have been due if these purchases were subject to the combined general rate.

[This proposed committee substitute is identical to the proposed committee substitute for SB 943, which is currently in House Finance]

CURRENT LAW: North Carolina extends favorable tax treatment to a production company in two ways. First, a production company can claim a refundable income tax credit equal to 15% of the qualifying expenses spent in connection with a production. The amount of the credit with respect to a feature film production is capped at $7.5 million. In order to obtain the credit, the taxpayer's qualifying expenses must exceed $250,000. Qualifying expenses are the total amount spent in North Carolina for the following:

- Goods and services leased or purchased by a production company in connection with a production.
- Compensation and wages paid by a production company on which it remitted withholding payments to the Department of Revenue. An amount paid in excess of $1 million to an individual for compensation may not be included as a qualifying expense.
- Cost of production-related insurance coverage obtained on the production. Expenses for insurance and coverage purchased from a related member may not be included as a qualifying expense.

The credit may be claimed for the taxable year in which the production activities are completed. The credit is computed based on all of the taxpayer's qualifying expenses incurred with respect to the production, not just the qualifying expenses incurred during the taxable year. If the credit exceeds the amount of tax imposed for the taxable year reduced by the sum of all credits allowable, the Secretary must refund the excess to the taxpayer. A pass-through entity is considered a taxpayer for purposes of claiming this credit; therefore, it does not distribute the credit among its owners.

Second, in lieu of paying the combined general rate of sales tax on machinery parts and accessories, a production company pays a privilege tax of 1%, capped at $80 per item.

BILL ANALYSIS: The proposed committee substitute for House Bill 713 would create an alternative credit for production companies. Instead of the existing credit, a production company could elect to take as an income tax credit an amount equal to 25% of the company's qualifying expenses less the difference between the amount of privilege tax paid on purchases that are subject to the 1%/$80 privilege tax and

the amount of sales tax that would have been paid had the purchases been subject to the combined general sales tax rate. The election is binding.

The credit percentage has not changed since the General Assembly enacted the credit in 2005. The refundable tax credit replaced the film industry development grant program. The incentive is targeted at feature films, episodic television series, and commercial advertising.[1]

EFFECTIVE DATE: The bill would become effective for taxable years beginning on or after January 1, 2010, and applies to qualifying expenses on or after that date.

BACKGROUND: The North Carolina Film Office commissioned two studies funded in partnership with EUE Screen Gems Studios, IATSE Local 491, Premiere Entertainment Services, Charlotte Regional Film Commission, Piedmont Triad Film Commission, Wilmington Regional Film Commission, Cinelease, and Illumination Dynamics:

- *"Economic and Fiscal Impacts of the North Carolina Film Credit Program"*, June 2009, prepared by Ernest & Young. This study presents estimates of the economic and tax impact of three components: film production activities; tourism related to NC films; and capital expenditures in NC film facilities.
- *"Economic Impact Study of the Production of a 'Mid-Major' Motion Picture on the Economy of Southeastern North Carolina"*, Summer 2009, prepared by Dr. William Hall of the Cameron School of Business at the University of North Carolina at Wilmington. This study is a case study that identifies the spending impacts of a film on Brunswick, New Hanover, and Pender Counties.

The studies are available upon request. Both studies recognize the number of jobs generated by film production in the State, the direct and indirect spending stimulus on the region's economy, the capital investments made by production companies, the resulting film generated tourism, and the contribution of these activities to the State and local government's tax collections.

The Ernest & Young study estimates the State's return on investment (ROI) from the refundable income tax credit. In forming the ROI estimate, the study analyzed the impact of the credit at the rate of 15% in 2007 and, using projections from the NC Film Office, estimates the impact of the credit at the rate of 25% for 2010 and 2011.

The study found that film productions qualifying for the credit in 2007 accrued an estimated net present value of $22 million of refundable tax credit cost to the State and $29 million of State and local tax revenue. In considering State tax ROI, the study estimated the State's ROI was $0.98 for each dollar of tax credit expenditure. This estimate assumes that the film productions qualifying for the credit would not have been produced in the State in absence of the credit.

The study estimates that the total State and local tax impacts from film productions, tourism, and capital expenditures related to film production would be $48 million in 2010 and $57 million in 2011 under a 25% tax credit. Under this scenario, the State tax ROI from each dollar of tax credit expenditure would be $0.69 in 2010 and $0.67 in 2011.

[1] The credit does not apply to the following: political advertising, television production of a news program or live sporting event, material that is obscene, as defined in G.S. 14-190.1, or a radio production.

- Cost of production-related insurance coverage obtained on the production. Expenses for insurance and coverage purchased from a related member may not be included as a qualifying expense.

The credit may be claimed for the taxable year in which the production activities are completed. The credit is computed based on all of the taxpayer's qualifying expenses incurred with respect to the production, not just the qualifying expenses incurred during the taxable year. If the credit exceeds the amount of tax imposed for the taxable year reduced by the sum of all credits allowable, the Secretary must refund the excess to the taxpayer. A pass-through entity is considered a taxpayer for purposes of claiming this credit; therefore, it does not distribute the credit among its owners.

Second, in lieu of paying the combined general rate of sales tax on machinery parts and accessories, a production company pays a privilege tax of 1%, capped at $80 per item.

BILL ANALYSIS: The proposed committee substitute for House Bill 713 would create an alternative credit for production companies. Instead of the existing credit, a production company could elect to take as an income tax credit an amount equal to 25% of the company's qualifying expenses less the difference between the amount of privilege tax paid on purchases that are subject to the 1%/$80 privilege tax and

the amount of sales tax that would have been paid had the purchases been subject to the combined general sales tax rate. The election is binding.

The credit percentage has not changed since the General Assembly enacted the credit in 2005. The refundable tax credit replaced the film industry development grant program. The incentive is targeted at feature films, episodic television series, and commercial advertising.[1]

EFFECTIVE DATE: The bill would become effective for taxable years beginning on or after January 1, 2010, and applies to qualifying expenses on or after that date.

BACKGROUND: The North Carolina Film Office commissioned two studies funded in partnership with EUE Screen Gems Studios, IATSE Local 491, Premiere Entertainment Services, Charlotte Regional Film Commission, Piedmont Triad Film Commission, Wilmington Regional Film Commission, Cinelease, and Illumination Dynamics:

- *"Economic and Fiscal Impacts of the North Carolina Film Credit Program"*, June 2009, prepared by Ernest & Young. This study presents estimates of the economic and tax impact of three components: film production activities; tourism related to NC films; and capital expenditures in NC film facilities.
- *"Economic Impact Study of the Production of a 'Mid-Major' Motion Picture on the Economy of Southeastern North Carolina"*, Summer 2009, prepared by Dr. William Hall of the Cameron School of Business at the University of North Carolina at Wilmington. This study is a case study that identifies the spending impacts of a film on Brunswick, New Hanover, and Pender Counties.

The studies are available upon request. Both studies recognize the number of jobs generated by film production in the State, the direct and indirect spending stimulus on the region's economy, the capital investments made by production companies, the resulting film generated tourism, and the contribution of these activities to the State and local government's tax collections.

The Ernest & Young study estimates the State's return on investment (ROI) from the refundable income tax credit. In forming the ROI estimate, the study analyzed the impact of the credit at the rate of 15% in 2007 and, using projections from the NC Film Office, estimates the impact of the credit at the rate of 25% for 2010 and 2011.

The study found that film productions qualifying for the credit in 2007 accrued an estimated net present value of $22 million of refundable tax credit cost to the State and $29 million of State and local tax revenue. In considering State tax ROI, the study estimated the State's ROI was $0.98 for each dollar of tax credit expenditure. This estimate assumes that the film productions qualifying for the credit would not have been produced in the State in absence of the credit.

The study estimates that the total State and local tax impacts from film productions, tourism, and capital expenditures related to film production would be $48 million in 2010 and $57 million in 2011 under a 25% tax credit. Under this scenario, the State tax ROI from each dollar of tax credit expenditure would be $0.69 in 2010 and $0.67 in 2011.

[1] The credit does not apply to the following: political advertising, television production of a news program or live sporting event, material that is obscene, as defined in G.S. 14-190.1, or a radio production.

b. The Department certifies that the business has invested or intends to invest at least sixty-five million dollars ($65,000,000) of private funds in improvements to real property and additions to tangible personal property in the project within a three-year period beginning with the time the investment commences.

Each grant agreement is binding and constitutes a continuing contractual obligation of the State and the business. The grant agreement shall include the performance criteria, remedies, and other safeguards recommended by the Committee or required by the Department. ~~Each~~

Each grant agreement for a business that is a major employer under subdivision (1) of subsection (d) of this section shall contain a provision prohibiting a business from receiving a payment or other benefit under the agreement at any time when the business has received a notice of an overdue tax debt and the overdue tax debt has not been satisfied or otherwise resolved. The Department shall cooperate with the Attorney General's office in preparing the documentation for the grant agreement. The Attorney General shall review the terms of all proposed agreements to be entered into under this section. To be effective against the State, an agreement entered into under this section shall be signed personally by the Attorney General.

(k) Safeguards. – To ensure that public funds are used only to carry out the public purposes provided in this section, the Department shall require that each business that receives a grant under this section shall agree to meet performance criteria to protect the State's investment and ensure that the projected benefits of the project are secured. The performance criteria to be required shall include maintenance of an appropriate level of employment at specified levels of compensation, maintenance of health insurance for all full-time employees, investment of a specified amount over the term of the agreement, and any other criteria the Department considers appropriate. A BILL TO BE ENTITLED

AN ACT TO CREATE AN INCENTIVE FOR INVESTING IN CAPITAL FACILITIES IN THE LIFE SCIENCES IN THIS STATE.

The General Assembly of North Carolina enacts:

SECTION 1. Article 105 of the General Statutes is amended by adding a new Article to read:

"Article 3M.

"Life Sciences Investments.

"**§ 105-129.105. Findings and purpose.**

The General Assembly finds that life science companies generate employment opportunities for the State, expand local tax bases, and engage in the discovery, development, and commercialization of new pharmaceuticals, biologic products, medical devices, and diagnostic products. The General Assembly finds that there exists in the State a serious shortage of credit for life science companies to finance new and expanded facilities and acquire equipment for the production and delivery of life science products and services. The purpose of this Article is to create a mechanism for delivery of products and services in the life sciences that will build permanent production facilities in North Carolina.

"**§ 105-129.106. Definitions.**

The following definitions apply in this Article:

(1) Designated investor. – A person who purchases an equity interest in a qualified entity and who is issued an equity certificate.

(2) Economic interest. – Matters involving a business with which associated, as defined in G.S. 138A-3.

(3) Equity certificate. – A contract between a qualified entity and a designated investor setting forth the amount of investment, the return on the investment, and the repayment terms of the investment.

(4) Life science company. – A company engaged in any of the following:

a. Biotechnology, including agricultural and industrial uses.

b. Pharmaceuticals.

c. Biologic products.

d. Medical devices.

e. Diagnostic devices.

f. Service laboratories or facilities providing support services to the foregoing companies.

(5) Immediate family. – A parent, child, or sibling or the spouse of one of these relations.

(6) Qualified entity. – A business entity that satisfies all of the conditions of G.S. 105-129.107.

(7) Tax credit certificate. – A certificate issued by the Secretary to a designated investor under which a tax credit is issued to the designated investor.

"**§ 105-129.107. Qualified entities.**

(a) Requirements. – A qualified entity is a business entity that satisfies all of the following conditions:

(1) The entity is established as a for-profit limited liability company pursuant to Chapter 57C of the General Statutes whose sole purpose is to foster economic development in this State by making loans to life science companies to finance any of the following:

a. The acquisition or expansion of capital facilities in this State.

b. The acquisition of capital equipment to be located at facilities in this State.

c. Regulatory, documentation, and other costs required to make the facilities and equipment to be located in North Carolina operational.

(2) The entity does not make loans for any property located outside of this State.

(3) The entity has as its sole managing member a nonprofit 501(c)(3) corporation organized pursuant to Chapter 55A of the General Statutes that satisfies all of the following conditions:

(4) The entity raises funds for making loans to life science companies by issuing equity certificates for investments made by designated investors and by specifying a rate of return on those investments.

(5) Equity certificates issued by the entity reflect all of the following:

a. That the holder of the equity certificate is a nonmanaging member of the entity.

b. The amount of the investment.

c. The date and amount of each return on the investment.

d. The dates and amounts to redeem the equity certificate.

e. That the entity is not obligated to provide the return on investment nor the equity redemption except as funds are available as provided in G.S. 105-129.108.

g. That the Secretary receives a copy of the equity certificate.

(6) The entity provides a copy of each equity certificate to the Secretary.

(7) The total amount payable under equity certificates, including tax certificates that have already been issued and for which the State has not been reimbursed by the entity, does not exceed one hundred million dollars ($100,000,000) at any time. To the extent to which the entity has reimbursed

the State for tax certificates that it has issued, the total amount due may be increased, but not to exceed one hundred million dollars ($100,000,000).

(8) The total amount of outstanding loans from the entity to any one life science company does not exceed thirty million dollars ($30,000,000) at any time.

(9) The entity has adopted conflict of interest policies that include a prohibition on an employee, officer, or director of the entity, or a member of the same household as or the immediate family of an employee, officer, or director of the entity, from having any economic interest in an investor in the entity or a company to which the entity makes loans.

(10) The bylaws of the entity require that upon dissolution all assets of the entity revert to the State.

(11) The bylaws of the entity require the entity to pay reasonable costs and expenses to the nonprofit corporation that serves as the managing member, but do not allow the managing member to receive any other compensation from the entity.

(12) The bylaws provide that other than payments to designated investors, all cash flow or profits of the entity must be used only for the purposes of this Article.

(13) The entity makes loans to life science companies for facilities or equipment to be located in this State based on an evaluation of the following factors:

a. The borrower's written business plan.

b. The borrower's written manufacturing or service plan.

c. The borrower's history of attracting operating capital from investors, grants, or other lenders.

d. The borrower's management team.

e. The borrower's demonstration of engaging in the life science industry in this State.

f. The borrower's job creation potential in this State.

g. The borrower's financial resources.

h. Any other factors deemed by the entity to be relevant to the likelihood of the success of the project and not inconsistent with this Article.

(14) On at least an annual basis, the entity contracts with an independent auditor to perform an audit of all activities of the entity to be completed within three months after the end of the entity's fiscal year and, except for the contract for auditing services, the independent auditor has no business, contractual, or other connection to the entity or its managing member.

(15) The bylaws of the entity require that the audit described under subdivision (14) of this subsection be submitted to the board of directors of the entity's managing member, the Governor, and the Joint Legislative Committee on Governmental Operations.

(16) On at least an annual basis, the entity publishes a report of the activities conducted by the entity that includes a review of the progress of the entity in implementing the purposes stated in G.S. 105-129.105 and the business plan of the entity and a description, including amounts, of the issuance of any tax credit certificates.

(17) The bylaws of the entity require the entity to comply with the requirements of Chapter 132 of the General Statutes and Article 33 of Chapter 143 of the General Statues as if the entity were a State agency.

(b) Certification Statement. – Upon written request from time to time by the entity accompanied by a certification under oath that each of the requirements of subsection (a) of this

section have been met, the Secretary must within 30 days issue a statement of qualification for the entity if the Secretary finds the certification to be satisfactory. The Secretary may obtain from the entity upon request any information as reasonable to determine whether the certification is accurate.

(c) No Pledge. – Neither a qualifying entity nor the corporation that is the sole managing member of a qualifying entity has any power to pledge the credit or taxing power of the State or any political subdivision of the State, or to make its debts payable out of any moneys or resources except those of the qualifying entity or the corporation. The obligations of the qualifying entity and the corporation are not obligations of the State or any political subdivision of the State but are obligations of the qualifying entity or corporation payable solely and only from the qualifying entity's or corporation's resources.

"**§ 105-129.108. Tax credit.**

(a) Notification from Qualifying Entity. – When a qualifying entity determines that it will be unable to make a payment required under an equity certificate, the entity must notify in writing both the designated investor and the Secretary of the entity's inability to make the payment. This notice must be made at least 30 days before the due date of the payment. The entity may consider its cash flow needs, including funding its continuing operations and obligations to other investors or its managing member, in making this determination. The notification to the Secretary required under this subsection must be made under oath and contain the following information:

(1) The amount of the initial equity investment.
(2) The rate of return on the invested capital.
(3) The calculation formula for determining the scheduled aggregate return on the initial equity investment.
(4) The due date of the payment.
(5) The amount of the tax credit that should be issued.
(6) The designated investor to whom the payment is due.

(b) Issuance of Tax Certificate. – Within 30 days after receiving a notification from a qualifying entity under subsection (a) of this section, the Secretary must deliver to the qualifying entity a tax credit certificate for each designated investor in the amount certified by the qualifying entity to be due. The tax credit certificate must be in an amount equal to the amount of the required payment that the qualifying entity certifies it is unable to make.

(c) Credit. – A taxpayer that presents a tax credit certificate is allowed a tax credit equal to one hundred percent (100%) of the amount specified in the certificate. The credit provided in this section is allowed against the franchise tax levied in Article 3 of this Chapter, the income taxes levied in Article 4 of this Chapter, or the gross premiums tax levied in Article 8B of this Chapter.

(d) Credit Refundable. – If the credit allowed by this section exceeds the amount of tax liability against which it is imposed for the taxable year reduced by the sum of all credits allowable, the Secretary must refund the excess to the taxpayer. The refundable excess is governed by the provisions governing a refund of an overpayment by the taxpayer of the tax imposed. In computing the amount of tax against which multiple credits are allowed, nonrefundable credits are subtracted before refundable credits.

(e) Pass-Through Entity. – Notwithstanding the provisions of G.S. 105-131.8 and G.S. 105-269.15, a pass-through entity that qualifies for the credit provided in this Article does not distribute the credit among any of its owners. The pass-through entity is considered the taxpayer for purposes of claiming the credit allowed by this Article. If a return filed by a pass-through entity indicates that the entity is paying tax on behalf of the owners of the equity, the credit allowed under this Article does not affect the entity's payment of tax on behalf of its owners.

"**§ 105-129.109. Substantiation.**

To claim a credit allowed by this Article, the taxpayer must provide any information required by the Secretary. Each taxpayer claiming a credit under this Article must maintain and make available for inspection by the Secretary any records the Secretary considers necessary to determine and verify the amount of the credit to which the taxpayer is entitled. The burden of proving eligibility for a credit and the amount of the credit rests upon the taxpayer, and no credit may be allowed to a taxpayer that fails to maintain adequate records or to make them available for inspection.

"**§ 105-129.110. Reports.**

The Department of Revenue must publish by May 1 of each year the following information, itemized by taxpayer, for the 12-month period ending the preceding December 31:

(1) The number of taxpayers that claimed a credit allowed in this Article.

(2) The amount of each credit claimed and the taxes against which it was applied.

(3) The total cost to the General Fund of the credits claimed."

SECTION 2. This act is effective for taxable years beginning on or after January 1, 2010.

HOUSE BILL 921:
Washington Deannexation/Dare Trapping

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	July 29, 2009
Introduced by:	Rep. Braxton	**Prepared by:**	Judy Collier
Analysis of:	Third Edition		Research Assistant

SUMMARY:

House Bill 921 amends S.L. 1985-178, Section 1, concerning trapping in Dare County as follows:

- ***Prohibits the trapping of any game or furbearing animal except as provided by Wildlife Resources Commission rules.***
- ***Makes it illegal to take by trapping any game or furbearing animal having a jaw spread that exceeds seven and one-half inches until after January 2 of each year or the last day of deer hunting season, whichever is later.***

House Bill 291 also removes Warren Field Airport from the corporate limits of the City of Washington, situated in Beaufort County.

CURRENT LAW:

- S.L. 1985 178 currently regulates the trapping of game or furbearing animals in Dare. County.
- While a city or town has statutory authority to annex property, either voluntarily or involuntarily depending upon certain circumstances, there is no statutory authority to de-annex property. De-annexation requires an act of the General Assembly.

BILL ANALYSIS:

- House Bill 921 amends Section 1 of S.L. 1985-178 concerning trapping in Dare County, to conform to Wildlife Resources Commission rules.
- House Bill 921 also removes Warren Field Airport from the corporate limits of the City of Washington.

EFFECTIVE DATE: House Bill 921 has the following effective dates:

- The section of the bill amending S.L. 1985-178 concerning trappings in Dare County becomes effective October 1, 2009.
- The section of the bill de-annexing Warren Field Airport from the corporate limits of the City of Washington becomes effective January 1, 2010, but does not affect the duty to pay taxes for any prior year or eliminate any tax liens for prior years.

BACKGROUND: On July 8, 2009, the Washington City Council unanimously approved a resolution requesting the introduction of legislation that will allow the city to remove Warren Field Airport from the city limits. The proposed legislation would facilitate the offering of tax-based incentives for airplane owners to base their aircraft at the city-owned airport.

Currently, aircraft based at the airport are subject to personal property taxes levied by the city and county. With an eye toward economic development, City and Beaufort County officials have discussed

the potential of a tax-advantage incentive program for aircraft owners to base their planes at Warren Field Airport.

The City of Washington wants to de-annex Warren Field Airport in an effort to reduce taxes aircraft owners pay for basing their aircraft at the airport. City officials believe the reduced taxes will attract more aircraft to the airport, thereby increasing revenues from fuel sales and hangar rentals. Beaufort County has agreed to share tax revenues with the City of Washington if the City de-annexes Warren Field Airport. The city and county anticipate negotiating an agreement on revenue allocation.

Appropriations Act of 2009

There is no change in the Utilities Commission's regulatory fee.

Kristen Leggett, a fiscal analyst with the Fiscal Research Division, was recognized to explain and answer questions regarding the Justice and Public Safety section of the bill. The bill authorizes $22.4 million in fees. New fees include a fee for filing a motion for summary judgment; for assigned title in; for filing a counterclaim in domestic violence actions; and for resuming a former or maiden name. Melanie Bush, a fiscal analyst with the Fiscal Research Division, was recognized to explain and answer questions regarding the Health and Human Services section of the bill. The bill authorizes $145,000 in fees. New fees cover the Adult Home Care Medication Aide Exam and Adult Home Care exam and renewals.

A copy of the fee provisions summary is attached.

IRC Update

Cindy Avrette, a staff attorney with the Research Division, was recognized to explain the recommendation of the Revenue Laws Study Committee. This section updates the reference to the Internal Revenue Code to conform to the changes made by federal acts. However, the bill does not conform to the five year carryback of net operating losses incurred by large businesses.

Cap Tax Rate on Income from Family-Owned and Other Small Business

Cindy Avrette explained that this section would limit the tax rate that applies to income received by a taxpayer from a small business to the same rate that the State imposes on corporate income. The corporate income tax rate is 6.9%.

Lower Sales Tax Compliance Burden on Small Retailers

Cindy Avrette stated that this section would decrease the number of retailers required to submit a pre-payment of 65% of the amount of sales tax revenue to be remitted for the following month by changing the threshold for this payment schedule from $10,000 to $15,000 effective October 1, 2020, and from $15,000 to $20,000, effective July 1, 2011.

Relieve Annual Report Compliance Burden on Small Business

Ms. Avrette explained that this section stipulates that the first annual report of a LLC is due April 15 following its year of organization.

Modernize Sales Tax on Accommodations

Ms. Avrette explained that this section would establish new sales and use tax reporting and remittance obligations on a person who enters into a contract with a provider of transient accommodations to facilitate the rental of an accommodation. A "facilitator," which would include an online travel company, would be required to report to the provider the final sales price charged to a customer for the rental of an accommodation and to send the provider the tax due on the sales price. A facilitator who fails to send the provider the amount due would become liable for the tax. A provider who receives tax payments from a facilitator would be required to remit the payments to the Department of Revenue. A provider would not become liable for payments due but not received from a facilitator. Likewise, a facilitator would not be liable for payments sent to a provider but not remitted to the Department. The section also clarifies that the rental of a transient accommodation, whether through the provider or a facilitator, is sourced to the location of the accommodation.

Modernize Admissions Tax and Restore Amenities Exclusion

Ms. Avrette stated that this section does three things. First, it extends the admissions tax to the Internet resale of tickets by a person engaged in the business of reselling. The tax would apply to the difference between the face value of the ticket and the price for which the reseller sells the ticket. Second, it restores the Department of Revenue's pre-2009 interpretation of the admissions tax statute to exclude from tax charges for amenities that are bundled with a ticket purchase. Thirdly, it requires the Department of Revenue to provide ample notice to taxpayers when it issues an interpretation that revises a prior interpretation by expanding the scope of a tax or otherwise increasing the amount of tax due.

Improve Tax and Debt Collection Process

Ms. Avrette explained that this section would improve the tax and debt collection process of the Department of Revenue by 1) expanding the use of the Setoff Debt Collection Act as follows: allow debts owed by a business to be set off against a tax refund due the business, allow a setoff against any type of tax refund, and allow a community college to submit for setoff debts owed the college; 2) authorizing the use of electronic process for sending notice of garnishment; 3) providing for a data match between the Department of Revenue

and financial institutions hold accounts of delinquent taxpayers; and 4) expanding the Statewide Accounts Receivable Program to allow for collection of the following accounts receivable by setoff against payments the State owes to individuals and businesses (accounts receivable that are submitted to the Department of Revenue under the Setoff Debt Collection Act and overdue tax debts).

Extend Sunset on Expiring Tax Incentive Income Tax credits and Sales Tax Refunds One Year

Ms. Avrette explained that this section extends the sunset on four incentive provisions from January 1, 2011, to January 1, 2012. The four provisions are 1) the tax credit for mill rehabilitation; 2) the tax credit for qualified business ventures; 3) the sales tax refund for passenger air carriers; and 4) the sales tax refund for motorsports aviation fuel.

Reduce Franchise Tax Burden on Construction Companies

Ms. Avrette said that this section applies the provision enacted last session that excludes from a corporation's franchise tax base all billings in excess of costs retroactively to taxable years beginning on or after January 1, 2007.

Fair Tax Penalties

Ms. Avrette explained that this section provides that a taxpayer may not be assessed a penalty for failure to pay tax when due if the taxpayer pays the tax due within the stated period of time.

Credit for Constructing a Renewable Energy Property Facility

Ms. Avrette explained that this section creates a new tax credit for construction of a facility in North Carolina for the manufacture of renewable energy property. The credit is equal to 25% of the installation and equipment costs of construction paid during the taxable year.

A copy of the Appropriations Act fee provisions summary is attached.

Senator Jenkins moved to adopt the bill as amended in Senate Appropriations and that the Committee give it a favorable report. The motion carried.

SENATE BILL 897:
Appropriations Act of 2010

2009-2010 General Assembly

Committee:	Senate Appropriations/Base Budget	**Date:**	May 17, 2010
Introduced by:	Sen. Dannelly	**Prepared by:**	Cindy Avrette Committee Counsel
Analysis of:	Second Edition, as amended		

SUMMARY: ***Senate Bill 897[1], as amended in the Appropriations Committee, provides tax and administrative relief to small businesses, extends various economic development incentives, incorporates four proposals recommended by the Revenue Laws Study Committee, and clarifies the application of penalties in cases of forced consolidation.***

The bill provides the following tax relief to small businesses:

- ***It extends the 5-year carryback for net operating losses sustained in 2009. (Section 31.1, page 156)***
- ***It caps the individual income tax rate on the net business income received by a taxpayer from a small business at 6.9%, the same tax rate imposed on corporations. (Section 31.2, page 156)***
- ***It reduces the sales tax threshold that determines when a retailer must prepay a portion of the next month's anticipated sales tax collections from $20,000 to $15,000 effective October 1, 2009, and to $10,000 effective July 1, 2011. (Section 31.3, page 157)***

The bill provides administrative relief to small businesses by stipulating that the first annual report of a LLC is due April 15 following its year of organization. (Section 31.4, page 158)

It contains the following provisions to encourage economic development:

- ***It reserves $10,000,000 for commerce business recruitment initiatives. (Page 4, line 39)***
- ***It extends the sunset on the following expiring tax credits and refunds for one year:***
  - ***The tax credit for mill rehabilitation. (Section 31.5(a), page 160)***
  - ***The tax credit for qualified business investments. (Section 31.5(b), page 160)***
  - ***The sales tax refund for air passenger carriers. (Section 31.5(c), page 160)***
  - ***The sales tax refund for motorsports aviation fuel. (Section 31.5(d), page 160)***
- ***It offers a 25% tax credit for the construction of a renewable energy property facility. (Section 31.11, added by amendment in Appropriations on May 18, 2010)***

It contains the following tax proposals recommended by the Revenue Laws Study Commission:

- ***It updates the reference to the Internal Revenue Code used in defining and determining certain State tax provisions from May 1, 2009, to May 1, 2010. By doing so, North Carolina conforms to the changes made by five federal acts. The bill does not conform to***

the 5-year carryback for net operating losses (NOL) available to large businesses. (Section 31.1, page 156)

- ***It establishes new sales and use tax reporting and remittance obligations on a person who enters into a contract with a provider of transient accommodations to facilitate the rental of an accommodation. (Section 31. 6, page 160)***
- ***It extends the admissions tax to the Internet resale of tickets by a person engaged in the business of reselling and restores the Department of Revenue's pre-2009 interpretation of the admissions tax statute to exclude from tax charges for amenities that are bundled with a ticket purchase. It also requires the Department to provide ample notice to taxpayers when it issues an interpretation that revises a prior interpretation by expanding the scope of a tax or otherwise increasing the amount of tax due. (Section 31.7, page 163)***
- ***It improve the tax and debt collection process of the Department of Revenue by expanding the use of the Setoff Debt Collection Act, authorizing the use of electronic process for sending notice of garnishment, providing for a data match between the Department and financial institutions holding accounts of delinquent taxpayers, and expanding the Statewide Accounts Receivable Program. (Section 31.8, page 164)***

It applies retroactively a tax law change enacted last session. S.L. 2009-422 excluded from a corporation's franchise tax base all billings in excess of costs, effective for taxable years beginning on or after January 1, 2010. This provision would apply the change retroactively to 2007. (Section 31.9, page 169)

Lastly, it provides that a taxpayer may not be assessed a penalty for failure to pay tax when due if the taxpayer pays the tax due within the stated period of time. (Section 31.10, page 169)

IRC UPDATE (Section 31.1, page 156; Senate Bill 1183)

Section 31.1 would update the reference to the Internal Revenue Code used in defining and determining certain State tax provisions from May 1, 2009 to May 1, 2010. By doing so, North Carolina would conform to the changes made by five federal acts. However, the bill does not conform to the 5 year carryback of net operating losses incurred by large businesses. This section of the bill would become effective when it became law. The Revenue Laws Study Committee recommended this legislation.

North Carolina's tax law tracks many provisions of the federal Internal Revenue Code by reference to the Code.[2] The General Assembly determines each year whether to update its reference to the Internal Revenue Code.[3] Updating the Internal Revenue Code reference makes recent amendments to the Code applicable to the State to the extent that State law tracks federal law. The General Assembly's decision whether to conform to federal changes is based on the fiscal, practical, and policy implications of the federal changes and is normally enacted in the following year, rather than in the same year the federal

[2] North Carolina first began referencing the Internal Revenue Code in 1967, the year it changed its taxation of corporate income to a percentage of federal taxable income.

[3] The North Carolina Constitution imposes an obstacle to a statute that automatically adopts any changes in federal tax law. Article V, Section 2(1) of the Constitution provides in pertinent part that the "power of taxation ... shall never be surrendered, suspended, or contracted away." Relying on this provision, the North Carolina court decisions on delegation of legislative power to administrative agencies, and an analysis of the few federal cases on this issue, the Attorney General's Office concluded in a memorandum issued in 1977 to the Director of the Tax Research Division of the Department of Revenue that a "statute which adopts by reference future amendments to the Internal Revenue Code would ... be invalidated as an unconstitutional delegation of legislative power."

changes are made. By change the reference date to May 1, 2010, the bill incorporates changes made in the following federal acts:

- Worker, Homeownership, and Business Assistance (WHBA) Act. *(P.L. 111-92)*
- Acceleration of Income Tax Benefits for Haiti Relief. *(P. L. 111-126)*
- The Patient Protection and Affordable Care Act. *(P.L. 111-148)*
- The Health Care and Education Reconciliation Act.[4] *(P.L. 111-152)*
- The Hiring Incentives to Restore Employment (HIRE) Act. *(P.L. 111-147)*

The WHBA made the following tax law changes:

- *Five-year carryback of NOL for small business.* – It extended the five-year carryback of net operating loss (NOL) for small business enacted under the American Recovery and Reinvestment Tax Act of 2009 (ARRTA) for one more year. Taxpayers that sustain a NOL for a tax year generally can take an NOL deduction to reduce income in another tax year. Under ARRTA, taxpayers could elect to carry back 2008 NOLs for three, four or five years, instead of the normal two years. The WHBA provides the same eligible businesses may elect to carry back 2009 NOLs for three, four, or five years. An eligible business is defined as a corporation, partnership or sole proprietorship that had average annual gross receipts of no more than $15 million for the tax year of the NOL and the two immediately preceding tax years. The bill conforms to this provision. Since North Carolina does not allow NOL for corporate taxpayers, conformity to this provision only applies to individual filers.

- *Five-year carryback of NOL for other business.* – It provided a similar election 5-year carryback of NOL for all businesses of any size, with the following limitations:
    - Limits the amount of a NOL carried back to the fifth taxable year to 50% of taxable income.
    - Limits the election to NOLs incurred in either 2008 or 2009, but not both.

  The bill decouples from this provision in a manner similar to what it has done in the past when it has decoupled from the federal accelerated depreciation provisions. A taxpayer will be required to add back the NOL deduction taken under WHBA in the year that it is claimed for federal purposes. Then, for taxable years 2011 through 2013, the taxpayer may deduct from federal taxable income one-third of the NOL absorbed on the taxpayer's 2003, 2004, 2005, and 2006 federal returns.

- *DOD Homeowner's Program.* – Provides that payments made under the Department of Defense Homeowners Assistance Program to certain military and civilian employees in connection with base closures are excluded from taxable income.

P.L. 111-126 provided that an individual who made a monetary donation to a qualified charitable organization for Haiti relief after January 11, 2010, and before March 1, 2010, could claim the contribution as a charitable deduction on the person's tax return for either 2009 or 2010. This bill conforms to this provision.

The Patient Protection and Affordable Care Act, as amended by the Reconciliation Act, made the following changes to the tax law. This bill conforms to these changes:

- *Medical expense deduction.* -- Effective January 1, 2013, the threshold for unreimbursed medical expenses will increase from 7.5% to 10% of adjusted gross income. Individuals age 65 and older are temporarily exempt from the increase; it would apply to seniors effective

January 1, 2017. Approximately 6% to 8% of North Carolina taxpayers claim the medical expense deduction on their income tax return.

- *Flexible spending account limits.* -- Effective January 1, 2011, the definition of 'qualified medical expenses' for purposes of Flexible Spending Accounts, Heath Spending Accounts, and Health Reimbursement Accounts will be modified to conform to the definition of that term for purposes of the medical expense itemized deduction. This modification means that over-the-counter medicines will not be covered unless they are prescribed by a health care professional. Effective January 1, 2013, the amount a person may contribute to a Flexible Spending Account plan will be limited to $2,500, indexed annually after that year. There is no limit under current law, although some employers may limit the amount that may be set aside.
- *Executive compensation.* -- Effective January 1, 2011, a health insurer provider may not deduct the amount paid to an employee to the extent the remuneration exceeds $500,000 unless the premium income paid to the insurer meets minimum essential coverage requirements.

The HIRE Act extended through 2010 the increased section 179 expensing levels[5] authorized under the Emergency Economic Stabilization Act (ESSA) of 2008 and extended through 2009 by ARRTA. In general, a qualifying taxpayer may elect to treat the cost of certain property as an expense and deduct it in the year the property is placed in service instead of depreciating it over several years. This property is frequently referred to as section 179 property, after the relevant section in the Code. To be eligible, the property must be tangible personal property that is actively used in the taxpayer's business for which a depreciation deduction would be allowed. The property must be used more than 50% for business and must be newly purchased property. Generally, taxpayers take the expensing deduction first and claim section 168(k) depreciation on any remaining basis. Prior to the EESA, the deduction was limited to $128,000 of the cost of the property with a phase-out at $510,000 for 2008. The new law temporarily doubles the limitation to $250,000[6] and increases the phase-out to $800,000.

CUT TAX RATE ON INCOME FROM FAMILY-OWNED AND OTHER SMALL BUSINESS (Section 31.2, page 156)

Section 31.2 would limit the tax rate that applies to income received by a taxpayer from a small business to the same rate the State imposes on corporate income. The corporate income tax rate is 6.9%. This section would become effective for taxable years beginning on or after January 1, 2010.

A business may be organized as a corporation, as a sole proprietorship, or as a pass-through entity such as a partnership or LLC. Business income derived from a corporate entity is taxed under the corporate income tax. In North Carolina, the corporate income tax rate is 6.9%. Business income derived from a sole proprietorship or a pass-through entity is taxed under the individual income tax. North Carolina has a graduated income tax rate structure of 6%, 7%, and 7.75%.

Section 31.2 would provide that the individual income tax rates applicable to income derived from a small business could not exceed the tax rate imposed on a corporation. That would effectively tax business income at the rates of 6% and 6.9%. The bill defines a small business as a business whose cumulative gross receipts from all business activity in a taxable year does not exceed $850,000.

---

[5] The Governor's budget included this tax item.

[6] The new law does not alter the section 179 limitation imposed on sport utility vehicles, which have an expense limit of $25,000.

The term 'business income' would not include income that is considered passive income under the Code. Section 469 of the Code, as well as various IRC tax regulations, define passive income. Form 1040, Schedule E, requires reporting of passive and non-passive income. Form 1040, Schedule C, requires the reporting of profit and loss from sole proprietorships. Form 1040, Schedule 4, requires the reporting of farm income and loss.

Although the bill does not change the individual income tax surtax enacted last session, it would reduce the amount of tax to which the surtax applies. The surtax is equal to a percentage of the tax payable by the taxpayer.[7] The percentage amount varies depending upon the taxpayer's North Carolina taxable income[8] and the taxpayer's filing status. For married filing jointly, the surtax percentage is zero for taxable incomes up to $100,000; it is 2% for taxable incomes[9] over $100,000 and up to $250,000; and it is 3% for taxable incomes[10] over $250,000.

LOWER SALES TAX COMPLIANCE BURDEN ON SMALL RETAILERS (Section 31.3, page 157)

Section 31.3 would decrease the number of retailers required to submit a pre-payment of 65% of the amount of sales tax revenue to be remitted for the following month by changing the threshold for this payment schedule from $10,000 to $15,000, effective October 1, 2010, and from $15,000 to $20,000, effective July 1, 2011. This change in the law does not change the amount of sales tax revenue submitted to the State, but it does change by one month the timing of the payment for the year of the transition to the lower threshold.

Retailers must remit sales tax payments to the State on one of three filing schedules:

- A retailer who is consistently liable for less than $100 a month in sales and use taxes must file a return and pay the taxes due on a quarterly basis.
- A retailer who is consistently liable for at least $100 but less than $10,000 a month must file a return and pay the taxes due on a monthly basis.
- A retailer who is consistently liable for at least $10,000 a month must make a monthly prepayment of the next month's tax liability. Prior to 2006, retailers in this category had to pay tax twice a month. At the request of several large retailers in the Streamlined Sales Tax Project, North Carolina adopted the once a month payment schedule.

The threshold limit of $10,000 was enacted in 2001 as a means to accelerate the payment of sales and use tax dollars into the General Fund for fiscal year 2001-02.[11] Prior to this change, the threshold amount for making bimonthly payments was $20,000. Since 2001, the State and local tax rate has increased from 6.5% to 7.75%.[12] The lowering of the threshold amount as well as the increase in the tax rate has subjected more retailers to the most extensive sales tax remittance requirements. Some of the

[9] The graduated NC income tax rates are 6%, 7%, and 7.75%. The effective tax rates in the respective tax brackets for taxpayers subject to the 2% surtax are 6.12%, 7.14%, and 7.91% respectively.
[10] The effective graduated tax rates for taxpayers subject to the 3% surtax are 6.18%, 7.21%, and 7.98%. Only nine states have a higher individual income tax rate than 7.98%: Hawaii, Oregon, California, New Jersey, Vermont, Rhode Island, Iowa, New York, and Maine.

small retailers in this category, especially those whose sales are not consistent from month to month, have expressed a cash flow hardship with the pre-payment requirement.

This provision would restore the sales tax filing thresholds to their pre-2001 level of $10,000 over a two-year period. By reducing the threshold from $20,000 to $15,000, the bill relieves 2,133 retailers from the pre-payment requirement. These retailers would continue to file a monthly return and pay the sales tax due on a monthly basis. The reduction of the threshold from $15,000 to $10,000 would relieve an additional 1000 plus retailers from the pre-payment requirement.

RELIEVE ANNUAL REPORT COMPLIANCE BURDEN ON SMALL BUSINESS (Section 31.4, page 158; Part of Senate Bill 1177)

Section 31.4 stipulates that the first annual report of a LLC is due April 15 following its year of organization. The Revenue Laws Study Committee recommended this provision as part of its Revenue Laws Technical, Clarifying, and Administrative Changes proposal.

In March 2009, the Secretary of State's Office mailed 270,000 notices to businesses stating they were late in filing their annual reports. Failure to file an annual report is grounds for administrative dissolution for both business corporations and LLCs. The Secretary of State found that many businesses thought their first annual reports were due the year after their formation.[13] The Secretary of State informed the businesses that the first annual report is due on April 15th, regardless of when the business is formed. Under this interpretation, a LLC that filed its articles of organization on April 10th and paid the $125 filing fee would also have to file an annual report 5 days later along with a $200 annual report filing fee. The Revenue Laws Study Committee considered the issue at the request of many CPAs.

This section does three things to address the areas of concern:

- It conforms the due date for filing annual reports to the due date for filing corporate income tax returns. In 1997, at the recommendation of the General Statutes Commission, the General Assembly set the due date for corporate annual reports at the due date for filing tax returns.[14] The change was designed to make the filing of annual reports easier: the report could be made to one agency, the Department of Revenue, at a more familiar deadline date with the corporation's tax return. In 2007, the General Assembly changed the date a corporate tax return is due to be filed from the 15th day of the third month following the close of the corporation's fiscal year to the 15th day of the fourth month.[15] However, a conforming change was not made to the annual report filing statute. The lack of uniformity has caused confusion. This subsection makes the necessary conforming change.
- It provides that the first annual report required to be filed by a LLC is due by April 15th of the year *following* the calendar year in which the company files its articles of organization.
- It provides that the annual report must specify the year to which the report applies. The practice of the Secretary of State's Office is to credit an annual report that it receives to the oldest year in which an annual report is due and owing.

[13] Prior to the enactment of S.L. 2007-475, annual reports were filed on the anniversary of the business' incorporation. In an attempt to make the filing of the report easier, S.L. 2007-475 provided that a business would file its report with its income tax return to the Department of Revenue.
[14] S.L. 1997-475, section 6.1.
[15] S.L. 2007-491, section 14.

- It stipulates in the effective date section that the first annual report of a LLC is due April 15 following its year of organization. It provides that a LLC whose articles of organization were filed on or after January 1, 2010, but before April 15, 2010, is not required to file an annual report until April 15, 2011. It also provides that a LLC that was formed before January 1, 2009, and has filed an annual report in each year after the calendar year in which its articles of organization were filed is considered to have met its annual report filing requirements.

EXTEND SUNSET ON EXPIRING TAX INCENTIVE INCOME TAX CREDITS AND SALES TAX REFUNDS ONE YEAR (Section 31.5, page 160)

Section 31.5 extends the sunset on four incentive provisions from January 1, 2011, to January 1, 2012.

This section extends the sunset on the following four incentive provisions:

- *The tax credit for mill rehabilitation.* The credit for rehabilitating vacant historic manufacturing sites was established in 2006. The credit was last extended in 2008, and the sunset was amended to allow the credit where an application for an eligibility certification is submitted on or after the sunset date. The prior sunset did not allow the credit for expenses occurring on or after the sunset date. To be eligible for the credit, a taxpayer must spend at least $3 million to rehabilitate a historic, vacant, former manufacturing facility. The amount of the credit depends upon the development tier in which the site is located and the eligibility of the site for a federal credit

- *The tax credit for qualified business ventures.* The provision does not increase the cap, as recommended in the Governor's budget. The cap remains at $7.5 million a year. This credit was last extended in 2007. The purpose of the credit is to stimulate early stage investments that help move new technologies from universities and other research laboratories to commercialization. The qualified business investment tax credit is allowed for an individual taxpayer who invests in a qualifying small business. Qualifying small businesses include a business that engages primarily in manufacturing, processing, warehousing, wholesaling, research and development, or a service-related industry, a business that has received within the preceding three years funding from a federal agency under the Small Business Innovation Research Programs, a business that has been certified by a research university as currently performing under a licensing agreement with the institution for commercializing technology developed at the institution. The credit is equal to 25% of the amount invested and may not exceed $50,000 per individual in a single taxable year

- *The sales tax refund for passenger air carriers.* This credit was last extended in 2008. In 2005, the General Assembly allowed a sales and use tax refund to an interstate passenger air carrier for the net amount of sales and use tax paid by it on fuel during a calendar year in excess of $2,500,000. The 'net amount of sales and use taxes paid' is the amount of sales tax paid by the interstate passenger air carrier less the refund of that tax allowed to all interstate carriers under subsection (a) of G.S. 105-164.14. The refund for which the sunset provision is being extended is in addition to the refund allowed under G.S. 105-164.14(a).

- *The sales tax refund for motorsports aviation fuel.* This credit was last extended in 2008. In 2005, the General Assembly enacted a refund of sales and use taxes paid on aviation fuel by a motorsports racing team or motorsports sanctioning body. In order to qualify for the

refund, the fuel must have been used to travel to or from a motorsports event in this State, from this State to a motorsports event in another State, or to this State from a motorsports event in another State. For the purposes of the refund, a 'motorsports event' includes a motorsports race, a motorsports sponsor event, and motorsports testing.

MODERNIZE SALES TAX ON ACCOMMODATIONS (Section 31.6, page 160; Senate Bill 1185)

Section 31.6 would establish new sales and use tax reporting and remittance obligations on a person who enters into a contract with a provider of transient accommodations to facilitate the rental of an accommodation. A "facilitator," which would include an online travel company, would be required to report to the provider the final sales price charged to a customer for the rental of an accommodation and to send to the provider the tax due on the sales price. A facilitator who fails to send the provider the amount due would become liable for the tax. A provider who receives tax payments from a facilitator would be required to remit the payments to the Department of Revenue. A provider would not become liable for payments due but not received from a facilitator. Likewise, a facilitator would not be liable for payments sent to a provider but not remitted to the Department. The section also clarifies that the rental of a transient accommodation, whether through the provider or a facilitator, is sourced to the location of the accommodation. The Revenue Laws Study Committee recommended this legislation.

Gross receipts derived from the rental of transient accommodations are subject to State and local sales tax at the general rate, which is currently 7.75% in most counties. Many counties (over 70) and cities (over 85) also levy an occupancy tax on accommodations, with rates ranging from 1% to 6%. The tax does not apply to any private residence or cottage rented for less than 15 days in a calendar year or to any lodging supplied to the same person for 90 or more continuous days.

Deemed "retailers" under the Sales Tax Article, operators of hotels, motels, tourist homes, tourist camps, and similar type businesses and persons who rent private residences and cottages to transients are required to collect and remit the tax due. This includes rental agents or real estate brokers who rent private residences or cottages to transients on behalf of the owners. However, under the plain language of the statute, online intermediaries that list available rooms and collect payment for the rental of those rooms are not retailers required to collect local occupancy tax on accommodations because they are not "operators" of those accommodations. This interpretation was the holding in the Fourth Circuit case of *Pitt County v. Hotels.com*.

Generally speaking, a person who wishes to make a reservation for accommodations may contact the accommodation directly, use the services of a commissioned travel agent, or make reservations through an online "intermediary," such as Expedia or Travelocity. Intermediaries contract with accommodation providers for the right to facilitate the reservation of the provider's rooms through their website. The intermediaries have no ownership interest or legal right to the rooms, nor do they bear any risk of loss if rooms are not booked through their site. Under the contract, the intermediary agrees to pay the provider a discounted room rate and then adds a "facilitation fee" or other similarly-named charge to the discounted room rate and also collects an amount that reflects anticipated taxes plus a nominal service or processing fee. Generally speaking, the facilitation fee is not disclosed to the customer or to the provider, and the amount collected for "taxes and fees" is not itemized.

With regard to payment, a consumer who books with the provider directly or uses a travel agent typically provides the hotel or agent with a credit card number to guarantee the reservation and then pays the hotel directly at the time of check-out. A consumer who books through an intermediary pays up front and prior to occupancy. This business model is known as the "merchant model" or the "prepaid

model." Under this model, once the customer occupies the room, the provider bills the intermediary for the discounted room rate plus State and local sales tax and occupancy tax, if applicable, based on that rate. Since the provider does not know the final room rate paid by the customer, it cannot collect sales and occupancy tax based on that amount.

There is little debate that intermediaries are required to remit sales and occupancy taxes to an accommodations provider based on the discounted room rate that they have negotiated. The central issue is to what extent intermediaries may be required to collect sales tax and occupancy tax based on the marked-up rate that they ultimately charge consumers, which includes their service fees.

This section does the following:

- It provides that the State sales tax on accommodations applies to the *sales price* of the rental and to other gross receipts derived from that rental. "Sales price" is currently defined as the total amount or consideration for which tangible personal property, digital property, or services are sold, leased, or rented, and it includes the retailer's costs as well as charges for any services necessary to complete the sale. For purposes of the sales tax on accommodations, the proposal provides that the sales price will be determined as if the rental of the accommodation is a service.
- It provides that a person, other than a rental agent, who, by written contract, is authorized to facilitate the rental of and collect payment for the rental of accommodations is considered a retailer for purposes of determining the sales price of the accommodation. The rationale for incorporating the term "sales price" and deeming a facilitator to be a retailer for purposes of calculating the sales price is to capture the total cost paid by the consumer for an accommodation regardless of whether it is paid to a hotel directly or to a third party that charges facilitation or other service fees in addition to the room rate.
- It requires a person who enters into a contract with the provider of an accommodation to facilitate the rental of accommodations to report the sales price and to send the tax due based on that sales price to the provider of the accommodation. The provider is required to remit the tax payments received from a facilitator to the Department of Revenue. A facilitator who fails to send the provider the amount due would become liable for the tax, and the provider would not be liable for payments due but not received from a facilitator. Likewise, a facilitator would not be liable for payments sent to a provider but not remitted to the Department. The section further provides that these requirements are considered to be terms of a contract between a provider and a facilitator.
- It codifies the current practice with regard to sourcing transactions for the rental of transient accommodations by stating that they are sourced to the location of the accommodation.
- It makes conforming changes to the statute that sets out the uniform provisions for occupancy taxes. In doing so, it imposes the same responsibility and liability on a person who facilitates the rental of an accommodation with regard to occupancy tax as that person would have for State sales tax on accommodations. It also makes clear that the room occupancy tax applies to the same gross receipts and is calculated in the same manner as the State sales tax on accommodations.

This section would become effective January 1, 2011, and apply to gross receipts derived from accommodations provided on or after that date.

MODERNIZE ADMISSIONS TAX AND RESTORE AMENITIES EXCLUSION (Section 31.7, page 163; Senate Bill 1186)

Section 31.7 does three things:

- ***It extends the admissions tax to the Internet resale of tickets by a person engaged in the business of reselling. The tax would apply to the difference between the face value of the ticket and the price for which the reseller sells the ticket. This provision would become effective January 1, 2011, and apply to admission tickets sold on or after that date.***
- ***It restores the Department of Revenue's pre-2009 interpretation of the admissions tax statute to exclude from tax charges for amenities that are bundled with a ticket purchase. This provision would become effective for charges for admission received on or after August 1, 2010.***
- ***It requires the Department of Revenue to provide ample notice to taxpayers when it issues an interpretation that revises a prior interpretation by expanding the scope of a tax or otherwise increasing the amount of tax due. This provision would be effective when it becomes law.***

Modernize Admissions Tax -- North Carolina imposes a 3% privilege tax on the gross receipts of a person who offers or manages any of the following taxable amusements:

- A dance or athletic contest for which admission fee in excess of 50¢ is charged.
- Amusement or entertainment for which an admission is charged.
- A performance, show, or exhibition, such as a circus or dog show.

G.S. 14-344 limits the total amount a seller or reseller of an admission ticket may charge to "...the combined face value of the ticket, tax and the authorized service fee." The service fee may not exceed $3.00 unless the promoter of the event and the ticket sales agency agree in writing to a different amount and that amount is made known to the public in writing. A violation of this section is punishable as a Class 2 misdemeanor.

In 2008, as part of Senate Bill 1407, the General Assembly enacted G.S. 14-344.1. This statute authorizes a person to resell an admission ticket on the Internet with no cap on price unless the resale is prohibited by the venue. A person who resells an admission ticket under this statute is required to provide a ticket guarantee that must be conspicuously displayed on the person's Website and to direct a prospective purchaser to the ticket guarantee before completion of the resale transaction. The guarantee must provide that a purchaser will be given a full refund if any of the following occurs:

- The event is cancelled.
- The purchaser is denied admission other than due to an act or omission by the purchaser.
- The ticket is not delivered as promised resulting in purchaser's inability to attend event.

Ticket resales are not subject to the admissions tax because the secondary seller is not "giving, offering, managing, or exhibiting" the amusement. The reseller does not fall within the scope of the statute. As a compromise agreement in 2008, the General Assembly required Internet ticket resellers must report their gross receipts for North Carolina events to the Department of Revenue on monthly basis. Since August 2008, there have been 65 reports, reflecting 17 reporting entities.

Subsections (a) through (c) of this section would modernize the tax on admissions as follows:

- Extend the 3% admissions tax to the gross receipts of a person who is engaged in the business of reselling tickets under G.S. 14-344.1. The gross receipts would exclude the price printed on the face of the ticket. Thus, the tax would be imposed on the difference between the price sold and the face value of the ticket. If the price is not printed on the ticket, the tax would apply to the difference between the amount the reseller paid for the ticket and the amount the reseller charges for the ticket. This same tax provision passed the Senate when Senate Bill 1407 was being considered during the

2008 Regular Session, but it was removed when the bill was considered in the House Finance Committee. This provision would modernize the admissions tax by recognizing the current business model for the sale and resale of tickets, which did not exist at the time the admissions tax was originally enacted in the 1930s. It would also equalize the admissions tax by treating the markup in a resale transaction the same as the face value price in the first sale.

- Prohibit cities or counties from imposing a privilege license tax on Internet ticket resellers.
- Repeal the reporting requirement. The reporting requirement was added to Senate Bill 1407 when the tax provision was removed. The act originally included a sunset, which required the General Assembly to revisit the legislation. At the time, the rationale for the reporting requirement was to provide the General Assembly with data for when it reconsidered the legislation. By taxing these transactions, there is no need for a reporting requirement.
- Provide for the repeal of G.S. 14-344.1 if a court finds that the privilege tax violates the Internet Tax Freedom Act (ITFA) or is otherwise invalid. ITFA temporarily prohibits states from imposing multiple or discriminatory taxes on electronic commerce. A discriminatory tax is one that is not generally imposed and legally collectible on transactions involving similar property, goods, services or information accomplished through other means. Arguments have been raised as to whether this legislation might violate ITFA because it taxes only those ticket resales that occur on the Internet. However, face-to-face ticket resales for greater than face value are generally illegal in North Carolina. As such, an argument can be made that Internet ticket resales are, in fact, given preferential treatment to the extent they are authorized, with no cap, whereas face-to-face ticket resales are essentially prohibited. A similar transaction cannot be conducted by a means other than the Internet. However, since the issue has been raised, the proposal provides that if a court finds that the privilege tax violates ITFA, then the authority to resell tickets on the Internet is repealed.

This part of the bill would become effective January 1, 2011, and would apply to admission tickets sold on or after that date.

Restore Amenities Exclusion. -- Entertainment venues frequently offer their patrons certain amenities in conjunction with the sale of admission tickets to performances of live entertainment. Those amenities may include parking privileges, preferential or more luxurious seating, access to special concession stands, access to luxury viewing suites, and access to concierge staff. In some cases, the venue will separately state the "seat price" on the face of a ticket with charges over and above that price reflecting the cost of the amenities. In other cases, a purchaser may buy a package or contract for the lease of a suite where the price includes a seat for an event as well as amenities, but the charges are not separately stated.

The admissions tax statute does not specifically address how these amenities are to be taxed. In 1994, a taxpayer requested a written opinion from the Department of Revenue as to whether the admissions tax applied to amenities, and the Department responded that amenities were excludable from the tax. This interpretation was in place for over 15 years, and during that time, the statute has not changed in any substantive way. However, on January 30, 2009, the Department issued a directive, effective the following day, stating that amenities are subject to the admissions tax. Specifically, the directive reads:

> *"Gross receipts are taxes computed on the admission price of the amusement. An admission price is the price paid to enter an event. Effective for tickets for admission sold on or after February 1, 2009, the gross receipts tax is due on the price paid by the customer for admission into an event regardless of whether that price just covers the seat price or also includes amenities."*

G.S. 105-264 provides that it is the duty of the Secretary of Revenue to interpret all laws administered by the Department. When the Secretary interprets a law by adopting a rule or publishing a bulletin or directive, the interpretation is a protection to the officers and taxpayers affected by the interpretation, and taxpayers are entitled to rely upon the interpretation. If the Secretary changes an interpretation, a taxpayer who relied on it before it was changed is not liable for any penalty or additional assessment on any tax that accrued before the interpretation was changed and was not paid by reason of reliance upon the interpretation. The Secretary is permitted to change an interpretation, and that change may apply on and after the effective date of the change, but there is no statutory requirement that the Department provide a certain amount of notice to taxpayers prior to applying a revised interpretation.

The Revenue Laws Study Committee considered this issue because it is a matter of tax policy on which the statute is silent and because the Department reversed its longstanding interpretation of the statute despite the fact that it has remained the same. The Committee concluded that the decision of whether amenities should be subject to the admissions tax is one for the Legislature and should not be determined by an interpretive ruling.

Subsection (a) of this section would restore the Department's pre-2009 interpretation of the admissions tax statute by excluding amenities from the tax. If the charges for the amenities are not separately stated on the face of the ticket, then the charge for admission would be equal to the charge for a ticket to the same event that does not include amenities and that is for a seat located directly in front of or closest to a seat that includes amenities. This provision would become effective for charges for admission received on or after August 1, 2010.

Subsection (d) of this section would require the Department to provide a certain amount of notice to taxpayers if it revises a prior interpretation by expanding the scope of a tax or otherwise increasing the amount of tax due. Under the bill, a revised interpretation would not become effective until the sooner of the following:

- For a tax that is payable on a monthly or quarterly basis, the first day of a month that is at least 90 days after the date the revised interpretation is issued.
- For a tax that is payable on an annual basis, the first day of a tax year that begins after the date the revised interpretation is issued.

This subsection would become effective when the act becomes law.

IMPROVE TAX AND DEBT COLLECTION PROCESS (Section 31.8, page 164; Senate Bill 1188)

Section 31.8 would improve the tax and debt collection process of the Department of Revenue by:

- ***Expanding the use of the Setoff Debt Collection Act as follows: allow debts owed by a business to be set off against a tax refund due the business, allow a setoff against any type of tax refund, and allow a community college to submit for setoff debts owed the college.***
- ***Authorizing the use of electronic process for sending notice of garnishment.***
- ***Providing for a data match between the Department of Revenue and financial institutions holding accounts of delinquent taxpayers.***
- ***Expanding the Statewide Accounts Receivable Program to allow for collection of the following accounts receivable by setoff against payments the State owes to individuals and businesses: accounts receivable that are submitted to the Department of Revenue under the Setoff Debt Collection Act and overdue tax debts.***

The Revenue Laws Study Committee recommended this legislation. It came to the Committee as a recommendation of the Department of Revenue, developed in collaboration with the Office of State Controller and the North Carolina Bankers Association.

Expansion of Setoff Debt Collection Act. -- The Setoff Debt Collection Act, enacted in 1997, authorizes the Department of Revenue to set off an individual's income tax refund against a debt the individual owes a State agency or local agency.[16] Under the Act, a claimant agency sends the Department notice of the debt and the Department immediately sets off the debt against the tax refund and notifies the taxpayer and the claimant agency.

Subsections (d) through (g) of this section would expand the Setoff Debt Collection Act to allow community colleges to collect debts owed to them through setoff of tax refunds and to allow debts that a business owes a claimant agency to be set off against the entity's tax refund. Currently, the Act only allows debts owed to claimant agencies by individuals to be set off against the individual's income tax refund. The proposal also expands the Act to apply to any type of tax refund, not just income tax refunds.

Notice of Garnishment by Electronic Process. -- The Department of Revenue is authorized by statute to attach and garnish intangible property in payment of taxes owed to the Department. The kinds of property that are subject to attachment and garnishment are wages and salaries, rents, bank deposits, the proceeds of property subject to levy, and property in the Escheat Fund. When the property sought to be attached is the taxpayer's checking account, the garnishee is the bank. When the property is wages, the taxpayer's employer is the garnishee. No more than 10% of a taxpayer's wages or salary per month is subject to attachment and garnishment. Current law requires that the notice of garnishment must be delivered in person or by mail.

Subsection (i) would authorize electronic notice, if the garnishee agrees to this method and the Department and garnishee have an agreement that establishes the protocol for electronic notice. The bill would also streamline the process if the garnishee is a financial institution by reducing the time period for filing a response to the notice of garnishment from 30 days to 20 days and by releasing the notice of garnishment when the institution complies with the notice. All other garnishees will continue to receive a notice of release. Streamlining would be consistent with the current garnishment practice with banks wherein the Department faxes notice of garnishment to a bank and the bank then sends money in the account to the Department within 10 to 15 days.

A "financial institution" is defined as a banking corporation, trust company, savings and loan association, credit union, or other entity principally engaged in the business of lending money or receiving or soliciting money on deposit. (G.S. 53B-2).

Data Match between Financial Institutions and the Department of Revenue. – Subsection (h) further streamlines the attachment and garnishment process with financial institutions. The Department would be authorized to submit information to a financial institution on a quarterly basis, or with the agreement of the financial institution, more frequently. The information would identify any delinquent taxpayer to a financial institution and require the financial institution to notify the Department of the amount the institution may hold that belongs to the taxpayer. The Department will reimburse the financial institution for the cost of providing the information. The cost may not exceed the amount that the Department of

[16] State agency includes a unit of the executive, legislative, or judicial branch of State government and a local agency to the extent it administers a program supervised by DHHS. A local agency includes a county, municipality, water and sewer authority, regional joint agency created by interlocal agreement, public health authority, metropolitan sewerage district, or sanitary district.

Health and Human Services currently pays to financial institutions for conducting a data match in order to attach and garnish the account of an absent noncustodial parent.[17]

The federal government has recently issued a proposed rule to implement statutory restrictions on the garnishment of federal benefit payments. These payments are protected under federal law from garnishment and include Social Security benefits, Supplemental Security Income benefits, and VA benefits. The rule sets forth uniform procedures for financial institutions to follow in order to minimize the hardships encountered by federal benefit payment recipients whose accounts are frozen pursuant to a garnishment order. The rule also assists financial institutions to determine whether exempt funds were directly deposited to the account.

Expansion of Statewide Accounts Receivable. -- The Statewide Accounts Receivable Program, enacted in 1993, requires the State Controller to monitor accounts receivable owed to State agencies, to adopt procedures for the management and collection of accounts receivable, and to establish procedures for writing off accounts receivable.[18] The Program also provides for written-off accounts receivable to be set off against payments the State owes to debtors. A written-off accounts receivable is one that has been removed from a State agency's accounts receivable records.

Subsections (a) through (c) of this section would expand the Statewide Accounts Receivable Program as follows:

- Expand the definition of "accounts receivable" to include taxes.
- Allow debts that have been submitted to the Department of Revenue under the Setoff Debt Collection Act to be set off against payments the State owes to these debtors. The following is an example of how this proposal would work. The Department of Revenue will give the State Controller a list of debtors under the Setoff Debt Collection Act. The State Controller will then check to see if any of these debtors are vendors that are owed money by the State for services or goods received by the State. The State Controller will then deduct the amount of the debt from the amount owed by the State. The State Controller will send this amount to the claimant agency owed the debt.

Subsection (h) of this section becomes effective January 1, 2011. This section streamlines the attachment and garnishment process by providing for a data match between financial institutions and the Department of Revenue. The remainder of the section is effective when it becomes law.

REDUCE FRANCHISE TAX BURDEN ON CONSTRUCTION COMPANIES (Section 31.9, page 169)

Section 31.9 applies the provision enacted last session that excludes from a corporation's franchise tax base all billings in excess of costs retroactively to taxable years beginning on or after January 1, 2007.

The State imposes a franchise tax on C-corporations and S-corporations. The tax rate is $1.50 per $1,000[19] and is applied to a company's capital stock, surplus, and undivided profits.[20] The term "surplus" for

[17] The DHHS and financial institutions have developed a data match system that requires a financial institution to provide DHHS the following information on a quarterly basis in order to secure child support: name, SSN, address, telephone number, account numbers, and other identifying data for any person who maintains an account at the financial institution.
[18] An account receivable is an asset of the State reflecting a debt owed to the State. The term includes claims, damages, fees, fines, forfeitures, loans, overpayments, and tuition as well as penalties, interest and other costs authorized by law. The term does not include court costs or fees.
[19] The minimum tax is $35.

franchise tax purposes has a broader and more inclusive meaning than the generally accepted accounting definition. G.S. 105-122(b) provides that surplus and undivided profits includes all liabilities, reserves, and deferred credits unless those items are specifically exempt. One of the exemptions from surplus and undivided profits is "definite and accrued legal liabilities." The Department of Revenue defines a definite and accrued legal liability as one that meets both of the following conditions:

- The liability is definite in amount, meaning it is exactly determined and not merely accurately estimated.
- The liability will be incurred before the end of the taxable year.

Generally accepted accounting principles require that revenue be recorded in the period it is earned regardless of when it is billed or when cash is received. In long-term construction contracts, there is often a mismatch between actual billed revenue and earned revenue. Sometimes elements of a contract are billed in advance and sometimes they are delayed. The accounting solution to this problem is the percentage of completion method of revenue recognition. Under this method of accounting, where the costs can be reasonably estimated, revenue is recognized as production takes place. This method of accounting may result in "billings in excess of costs" or "cost in excess of billings." Billings in excess of costs is a balance sheet liability because it represents unearned income. Cost in excess of billings is a balance sheet asset. For purposes of the State's franchise tax, the balance sheet liability of "billings in excess of costs" is not considered a definite and accrued legal liability because it is based on estimates; therefore, it is included in a corporation's capital base.

The construction industry sought to change this interpretation because it resulted in contractors having to pay taxes on liabilities and for revenue they had not actually received. S.L. 2009-422 adopted the industry's position by providing that billings in excess of costs that are determinable using the percentage of completion principles are exempted from surplus and divided profits, and therefore, excluded from the franchise tax base. The act became effective for taxable years beginning on or after January 1, 2010.

The Department of Revenue audited some companies and assessed additional tax on them for taxable years prior to 2010 for excluding billings in excess of costs from their capital base. This section applies the 2009 law change retroactively to 2007. It also allows a taxpayer that paid franchise tax in taxable years 2007, 2008, or 2009 and that included billings in excess of costs in its capital base to apply to the Department for a refund of any excess tax paid to the extent the refund is the result of the retroactive application of the billings in excess law change. A request for a refund must be made on or before January 1, 2011. A request for a refund received after that date is barred.

FAIR TAX PENALTIES (Section 31.10, page 169)

Section 31.10 provides that a taxpayer may not be assessed a penalty for failure to pay tax when due if the taxpayer pays the tax due within the stated period of time.

North Carolina is a single entity filing state, meaning that a corporation must determine its State net income as if it filed a separate return for federal income tax purposes. Separate entity filing gives corporations with subsidiaries in multiple states the ability to devise ways to shift income from a high effective tax rate state to a low effective tax rate state, often through the use of passive investment companies and inter-company transactions. The Department of Revenue has been aggressive in using the tools available to it to require a corporation to file a consolidated return when it believes the

[20] A corporation's capital base may not be less than 55% of the appraised value of tangible property in NC, nor less than its actual investment in tangible property in the State.

corporation's net income attributable to this State is not accurately reflected on its separate entity filing return.

A taxpayer must pay the full amount of tax payable as shown on the return within the time for filing a return. If the Department of Revenue makes an assessment against a taxpayer, the taxpayer may request a hearing on the issue before the taxpayer must pay the assessed amount.

This section makes the following provisions regarding the payment of the tax due upon a consolidated return:

- A failure to pay tax when due penalty may not be assessed when the Secretary proposes an assessment for tax due that is not shown on the return and the tax due is paid within 45 days of the date of the proposed assessment if the taxpayer does not file a timely request for a Departmental review of the assessment.
- A failure to pay tax when due penalty may not be assessed when the Secretary proposes an assessment for tax due that is not shown on the return and the tax due is paid within 45 days after the date the proposed assessment becomes collectible under G.S. 105-241.22.
- When the taxpayer files a consolidated return and the tax due is paid within 45 days of the date the consolidated return is filed, if the taxpayer does not file a timely request for a Departmental review of the tax.
- When the taxpayer files a consolidated return and the tax due is paid within 45 days of the date the Departmental review of the tax ends.

It also provides that a negligence penalty may not be assessed against the amount of tax shown due on a consolidated return.

This section is effective when it becomes law and applies to penalties that are assessed and unpaid as of the effective date, penalties that are paid as of the effective date but are based on a tax that is the subject of an administrative or judicial action that is pending on the effective date, and penalties and taxes assessed on or after that date.

CREDIT FOR CONSTRUCTING A RENEWABLE ENERGY PROPERTY FACILITY (Section 31.11, added by amendment in Senate Appropriations)

Section 31.11 creates a new tax credit for construction of a facility in North Carolina for the manufacture of renewable energy property. The credit is equal to 25% of the installation and equipment costs of construction paid during the taxable year. The section becomes effective for taxable years beginning on or after January 1, 2011.

This section creates a new tax credit for construction of a facility in North Carolina for the manufacture of renewable energy property. The credit is equal to 25% of the installation and equipment costs of construction paid during the taxable year. Renewable energy property includes all of the following:

- Biomass equipment that uses renewable biomass resources for biofuel production of ethanol, methanol, and biodiesel; anaerobic biogas production of methane utilizing agricultural and animal waste or garbage; or commercial thermal or electrical generation from renewable energy crops or wood waste materials.
- Hydroelectric generators.
- Solar energy equipment.

- Wind equipment.
- Geothermal heat pumps and equipment.

The credit may be taken against the franchise tax or the income tax. The entire credit must be taken in seven equal installments, beginning with the taxable year the facility is placed in service. If the facility is disposed of, or taken out of service, the taxpayer may not take any remaining installments. The credit is subject to the following limitations:

- The credit may not exceed 50% of the tax against which it is claimed for the taxable year. Any unused portion of the credit may be carried forward for the succeeding five years.
- Any unused portion of the credit may be carried forward for five years.
- A taxpayer that claims any other credit with respect to the construction of a facility to manufacture renewable energy property may not take this credit with respect to the same facility.

The credit will sunset for facilities placed in service on or after January 1, 2014.

(1) Using an outside contractor would be more cost-effective for the State.

(2) The Office of Information Technology Services does not have the technical capabilities required to host the application.

(3) Valid security requirements preclude the use of State infrastructure, and a contractor can provide a more secure environment.

"**SECTION 6.7.(e)** Service level agreements developed with supported State agencies shall include metrics for ITS, as well as the supported agencies. When ITS or an agency fails to meet metrics established by the SLA, a report will be provided to the Office of State Budget and Management and the Fiscal Research Division of the General Assembly within 10 days that details the shortfall and provides a corrective action plan with a time line.

"**SECTION 6.7.(f)** The Office of Information Technology Procurement shall assist State agencies in identifying the least expensive source for the purchase of IT goods and services and shall ensure that agencies receive every available discount when purchasing IT goods and services.

"**SECTION 6.7.(g)** The State CIO shall ensure that the agency bills from ITS for information technology goods and services are easily understood and fully transparent."

COORDINATION OF INFORMATION TECHNOLOGY REQUIREMENTS AND GEOGRAPHICAL INFORMATION SYSTEM EFFORTS

SECTION 6.9.(a) The State Chief Information Officer (SCIO), through the Enterprise Program Management Office (EPMO), shall adopt measures to avoid the duplication of information technology capabilities and resources across State agencies. (3) Upon identifying an existing information technology capability needed by a State agency, assist that agency in determining how best to access existing projects.

(4) Identify all current instances of duplication and work with the affected State agencies to develop and implement a plan to integrate their efforts. These plans shall be reported to the Joint Legislative Oversight Committee on Information Technology and to the Fiscal Research Division by January 1, 2011.

SECTION 6.9.(b) All State agencies shall coordinate any Geographic Information System (GIS) initiatives through the Center for Geographic Information and Analysis (CGIA) to ensure that they are not duplicating an existing function. The CGIA shall monitor and approve all new GIS-related information technology projects and expansion budget requests. By January 1, 2011, the CGIA shall make a written report to the Joint Legislative Oversight Committee on Information Technology and to the Fiscal Research Division on the results of these efforts.

The report shall include (i) details of each public-private contract, (ii) the benefits from each contract, (iii) a comprehensive forecast of the benefits of using public-private agreements to implement TIMS and the additional PDP components, including cost savings and the acceleration of the project timeline, (iv) and any issues associated with the operation of the public-private partnership. (b) If the legislative branch, the judicial branch, The University of North Carolina and its constituent institutions, local school administrative units as defined by G.S. 115C-5, or the North Carolina Community Colleges System develop their own security standards, taking into consideration the mission and functions of that entity, that are comparable to or exceed those set by the State Chief Information Officer under this section, then these entities may elect to be governed by their own respective security standards, and approval of the State Chief Information Officer shall not be required before the purchase of information technology security. The State Chief Information Officer shall consult with the legislative branch, the judicial branch, The University of North Carolina and its constituent institutions, local school administrative units, and the North Carolina Community Colleges System in reviewing the security standards adopted by those entities.

(c) Before a State agency may enter into any contract with another party for an assessment of network ~~vulnerability, including network penetration or any similar procedure,~~ vulnerability, the State agency shall notify the State Chief Information Officer and obtain approval of the request. ~~The State Chief Information Officer shall refer the request to the State Auditor for a determination of whether the Auditor's office can perform the assessment and testing. SECTION 6.15.(b) G.S. 147-64.6(c)(18) is repealed.

INMATE MEDICAL COST CONTAINMENT

SECTION 6.16.(a) Providers and facilities that deliver medically necessary services to inmates in the Department's custody of the Department of Correction shall charge the Department using the same schedule of charges used for other patients, and the Department may reimburse those providers and facilities at up to seventy percent (70%) of the amount charged. The requirements of this subsection shall apply to all medical and facility services provided outside the correctional facility, including hospitalizations, professional services, medical supplies, and other medications provided to any inmate confined in a correctional facility.

SECTION 6.16.(b) The Department of Correction shall make every effort to contain inmate medical costs by making use of its own hospital and health care facilities to provide health care services to inmates. To the extent that the Department of Correction must utilize other facilities and services to provide health care services to inmates, the Department shall make use of hospitals with available capacity or other health care facilities in a region to accomplish that goal. The Department shall work to ensure that care usage is distributed equitably among all hospitals or other appropriate health care facilities, with no one health care facility being required to admit more than five percent (5%) of all patients requiring hospitalization or hospital services, unless doing so would jeopardize the health of an inmate or unless otherwise agreed to by contract. The Department shall also give preference to those hospitals in the same county or an adjoining county to the correctional facility where an inmate requiring hospitalization is incarcerated.

SECTION 6.16.(c) The Department of Correction shall consult with the Division of Medical Assistance in the Department of Health and Human Services to develop protocols for prisoners who would be eligible for Medicaid if they were not incarcerated to access Medicaid while in custody or under extended limits of confinement. The Department shall seek reimbursement from Medicaid for those health care costs incurred by the Department in those instances when an inmate's Medicaid eligibility has been temporarily reinstated due to a hospitalization.

SECTION 6.16.(d) The Department of Correction, in consultation with the Office of State Budget and Management, shall study the impact on inmate medical costs resulting from the measures set forth in subsections (a), (b), and (c) of this section. The Department shall present its findings by March 1, 2011, to the Chairs of the House of Representatives and Senate Appropriations Subcommittees on Justice and Public Safety and to the Joint Legislative Corrections, Crime Control, and Juvenile Justice Oversight Committee.

SECTION 6.16.(e) If the findings of the Department of Correction demonstrate that the Department has been unable to achieve the savings in inmate medical costs called for in the 2010-2011 budget, the Office of State Budget and Management may require that any hospital that provides health care services to Medicaid and Medicare patients shall also provide services to any inmate confined in a correctional facility at the rates applicable under subsection (a) of this section.

SECTION 6.16.(f) The Department of Correction shall make every effort to explore other cost containment methods not expressly outlined in this section. These methods may include the following:

(1) Contracting with a private third party to manage and provide all inmate medical services;

(2) Partnering with the federal government to allow for treatment of State inmates in federal correctional hospitals; and

(3) Purchasing a fixed number of beds at a hospital.

SECTION 6.16.(g) The Department of Correction shall report to the Joint Legislative Corrections, Crime Control, and Juvenile Justice Oversight Committee no later than October 1, 2010, on

(1) The Department's progress with the RFP process initiated pursuant to Section 19.20(b) of S.L. 2009-451, as rewritten by Section 15A of S.L. 2009-575, to contract for claims processing, medical management services, and the development and management of a medical professional and facility provider network.

(2) The anticipated effects on medical care provided to inmates as a result of the new hospital at Central Prison and the updated facilities at the North Carolina Correctional Institute for Women, as well as any other new medical services capacity within the Department. Specifically, the Department shall report on:

a. The types and volumes of services that the new and updated facilities will provide that previously would have been provided by community providers; and

b. The projected types and volumes of services that will still be referred to community providers.

The report shall also address changes in statewide inmate custody that are needed to maximize the utilization of the new facilities and the Department's ability to contract with community providers with the available capacity throughout the State.

SECTION 6.16.(h) The Department of Correction shall report to the Joint Legislative Commission on Governmental Operations no later than October 1, 2010, and quarterly thereafter on:

(1) The volume of services provided by community medical providers that can be scheduled in advance and, of that volume, the percentage of those services that are provided by contracted providers; and

(2) The volume of services provided by community medical providers that cannot be scheduled in advance and, of that volume, the percentage of those services that are provided by contracted providers.

SECTION 6.16.(i) Section 19.20(a) of S.L. 2009-451, as amended by Section 15A of S.L. 2009-575, is repealed.

If associated budget reductions are required within the State Public School Fund, the Office of State Budget and Management shall first adjust the Career Technical Education – Months of Employment allotment prior to adjusting any other allotments within the State Public School Fund.

NORTH CAROLINA VIRTUAL PUBLIC SCHOOLS ALLOTMENT FORMULA

SECTION 7.4.(a) The State Board of Education shall implement an allotment formula for the North Carolina Virtual Public Schools (NCVPS) beginning with the 2010-2011 school year. In accordance with Section 7.16 of S.L. 2006-66, the allotment formula shall create a sustainable source of funding that increases commensurate with student enrollment and recognizes "the extent to which projected enrollment in e-learning courses affects funding required for other allotments that are based on ADM."

SECTION 7.4.(b) The State Board shall use only funds provided through the North Carolina Virtual Public Schools Allotment Formula to fund NCVPS.

SECTION 7.4.(c) The Department of Public Instruction shall take the following steps to implement the North Carolina Virtual Public Schools Allotment Formula:

(1) Project the unduplicated NCVPS enrollment for each local school administrative unit and for each grade level.

(2) Divide the projected unduplicated NCVPS enrollment for each unit by six in order to calculate its ADM-equivalent student enrollment in NCVPS.

(3) Reduce the unit's ADM allotments by seventy-five percent (75%) of its ADM-equivalent student enrollment in NCVPS.

(4) Transfer a dollar amount equal to seventy-five percent (75%) of the unit's ADM-equivalent student enrollment to NCVPS.

NCVPS shall use the funds transferred to it to provide the NCVPS program at no cost to all high school students in North Carolina who are enrolled in North Carolina's public schools, Department of Defense schools, and schools operated by the Bureau of Indian Affairs.

SECTION 7.4.(d) NCVPS shall provide only high school courses.

SECTION 7.4.(e) The Director of NCVPS shall continue to ensure that course quality standards are established and met and that all e-learning opportunities offered by State-funded entities to public school students are consolidated under the North Carolina Virtual Public School program, eliminating course duplication.

MORE AT FOUR PROGRAM

SECTION 7.5.(a) The Department of Public Instruction shall continue the implementation of the More at Four prekindergarten program for four-year-olds who are at risk for school failure in all counties. The State prekindergarten program shall serve children who reach the age of four on or before August 31 of that school year and who meet eligibility criteria that indicate a child's risk for school failure. Prekindergarten classrooms shall be operated in public schools, Head Start programs, and licensed child care facilities that choose to participate under procedures defined by the Office of Early Learning within the Department of Public Instruction. All such classrooms shall be subject to the supervision of the Office of Early Learning and shall be operated in accordance with standards adopted by the State Board of Education.

(3) The expected State prekindergarten expenditures for the programs and the source of the local contributions.
(4) The results of an annual evaluation of the program.

SECTION 7.5.(d) The Office of Early Learning shall establish income eligibility requirements for the program not to exceed seventy-five percent (75%) of the State median income. Up to twenty percent (20%) of children enrolled may have family incomes in excess of seventy-five percent (75%) of median income if they have other designated risk factors. Furthermore, any age-eligible child of (i) an active duty member of the armed forces of the United States, including the North Carolina National Guard, State military forces, or a reserve component of the armed forces who is ordered to active duty by the proper authority within the last 18 months or expected to be ordered within the next 18 months or (ii) a member of the armed forces of the United States, including the North Carolina National Guard, State military forces, or a reserve component of the armed forces, who was injured or killed while serving on active duty, shall be eligible for the program.

SECTION 7.5.(e) The More at Four program funding shall not supplant any funding for classrooms serving four-year-olds as of the 2005-2006 fiscal year. Support of existing four-year-old classrooms with More at Four program funding shall be permitted when current funding is eliminated, reduced, or redirected as required to meet other specified federal or State mandates.

SECTION 7.5.(f) The Office of Early Learning shall develop a new More at Four funding model to be implemented in the 2010-2011 fiscal year. PART IX. UNIVERSITIES

REPEAL ESCHEAT FUND APPROPRIATION FOR MILLENNIUM TEACHING SCHOLARSHIP LOAN PROGRAM

SECTION 9.1. Section 9.1.(c) of S.L. 2009-451 is repealed.

STUDY FINANCIAL AID CONSOLIDATION

SECTION 9.2.(a) The State Education Assistance Authority, The University of North Carolina, the North Carolina Community College System, and the Fiscal Research Division of the General Assembly shall establish a work group to study jointly the simplification and consolidation of State-funded financial aid for students. North Carolina Independent Colleges and Universities, Inc., shall also be included as a joint member of the work group if it chooses to participate in the study. The State Education Assistance Authority shall be the lead agency for the work group and study.

SECTION 9.2.(b) The purpose of the study is to develop recommendations and options for simplifying and consolidating the delivery of, administration of, and access to State-funded financial aid for students. In conducting the study, the work group shall consider the State's current student financial aid programs and how to consolidate those programs into two categories of State-funded student aid programs: one program that consolidates the State's major need-based programs and one program that consolidates many of the State's scholarship and forgivable loan programs currently available to students who plan to earn degrees and pursue careers in certain professional areas. More specifically the work group shall do the following:

(1) Design a unified need-based financial aid program that combines at a minimum the following three programs into a single need-based financial aid program: The University of North Carolina Need-Based Grant program, the North Carolina Community College Grant program, and the North Carolina Education Lottery Scholarship program established under Article 35A of Chapter 115C of the General Statutes. Currently each of these programs has its own award criteria, formulas, target populations, and funding sources (Escheat Fund, General Fund, and Lottery Funds). As part of its study, the work group shall determine what the appropriate parameters may be for such a unified program by using models that take into account income, expected family contribution, college expenses, type of college attended, and any other factors the work group deems relevant. In designing the program, the work group shall address the issue of proportionality of funding and shall take into account all of the following in its consideration of that issue: the proportionality of funding that currently exists among The University of North Carolina, the North Carolina Community College System, and the North Carolina private colleges and universities; funding sources; accounting for student enrollment change; monetary differences between certain categories of students and whether based on those monetary differences student financial aid should be based on cost of attendance or tuition and fees. The work group may also consider whether it is appropriate to redefine "need" for purposes of student financial aid and to develop a

common formula for the distribution of financial aid and the consequences of any proposed modifications if the decision is made to redefine "need" and develop a common formula. The program shall be designed to: (i) distribute funds in a manner that is consistent with legislative intent, but more easily understood by potential students, and (ii) retain the ability to track lottery funds.

(2) Design a "forgivable loans for service" program that combines at a minimum the following existing programs into one consolidated program that focuses on loans for services: the Nurse Educators of Tomorrow; Nurse Scholars Program; Nurse Education Scholarship Loan Program; Board of Governors Medical Scholarship Loans; Board of Governors Dental Scholarship Loans; Health, Science and Mathematics Student Loan Program; Prospective Teacher Scholarship Loan Program; and the Teacher Assistant Scholarship Program. This single consolidated program shall initially focus on two high area needs: teaching and health professions (including nursing, allied health and medical, dental, and pharmacy careers). In designing this program, the work group may consider the current allocation of funds among the various scholarship and forgivable loan programs, whether it would be appropriate to allow the reallocation and award of funds not distributed as forgivable loans in a specific service area to be awarded as forgivable loans in a different service area, and, if so, what procedure and methodology would be appropriate to trigger the reallocation of funds and provide for the distribution of those funds as awards in a different service area.

SECTION 9.2.(c) In addition to the considerations set out in subsection (b) of this section, the work group shall also consider all of the following:

(1) The time period required to phase out student loans from any of the programs affected by the program consolidation.

(2) How federal funding may affect student financial aid services.

(3) How to deal with current recipients of funds from programs affected by the consolidation.

(4) How to deal with recipients who are paying back loans made through programs affected by the consolidation.

(5) Whether the State Education Assistance Authority should be authorized to extend the repayment period for forgivable loans in hardship circumstances when a good faith effort has been made to repay the loan in a timely manner, and if so, what the appropriate procedure may be for making that determination and extending the repayment period.

(6) Whether there are, and if so how to address, any significant abuses of the financial aid system, particularly by persons who intentionally apply for and receive financial aid but who intend to drop out of school after securing financial aid funds.

(7) Any other issues the work group deems relevant to this study.

SECTION 9.2.(d) The work group shall present its proposed program designs and report its findings and recommendations to the Joint Select Committee on State Funded Student Financial Aid by October 1, 2010. In its report the work group shall also identify options that may vary from the proposed program designs but that are alternatives that the work group determines may also be workable and consistent with the legislative intent of this study. The work group shall also include in the report any legislative changes that may be needed to implement the program designs and work group recommendations.

The Department shall provide written notice to the recipient or applicant of the use of telephonic hearings, hearings by video conference, and in-person hearings before the administrative law judge, and how to request a hearing in the recipient's or applicant's county of residence. An administrative law judge assigned to a contested Medicaid case shall make reasonable efforts in a case involving a Medicaid applicant or recipient who is not represented by an attorney to assure a fair hearing and to maintain a complete record of the hearing. The administrative law judge may allow brief extensions of the time limits contained in this section for good cause and to ensure that the record is complete. Good cause includes delays resulting from untimely receipt of documentation needed to render a decision and other unavoidable and unforeseen circumstances. Continuances shall only be granted in accordance with rules adopted by the Office of Administrative Hearings, and shall not be granted on the day of the hearing, except for good cause shown. The agency has the burden of proof when the appeal is from an agency determination to impose a penalty or reduce, terminate, or suspend a benefit previously granted. The party with the burden of proof on any issue has the burden of going forward, and the administrative law judge shall not make any ruling on the preponderance of evidence until the close of all evidence.

(4a) New Evidence.- The petitioner shall be permitted to submit evidence regardless of whether obtained prior to or subsequent to the Department's actions and regardless of whether the Department had an opportunity to consider the evidence in making its determination to deny, reduce, terminate or suspend a benefit. AUTHORIZE THE DIVISION OF MEDICAL ASSISTANCE TO TAKE CERTAIN STEPS TO EFFECTUATE COMPLIANCE WITH BUDGET REDUCTIONS IN THE MEDICAID PROGRAM

SECTION 10.35. Section 10.68A.(a) of S.L. 2009-451, as amended by Section 5A of S.L. 2009-575, reads as rewritten:

"**SECTION 10.68A.(a)** For the purpose of enabling the Department of Health and Human Services, Division of Medical Assistance, to achieve the budget reductions enacted in this act for the Medicaid program, the Department may take the following actions, notwithstanding any other provision of this act or other State law or rule to the contrary and subject to the requirements of subsection (e) of this section:

(1) Electronic transactions. –

a. Within 60 days of notification of its procedures via the DMA Web site, Medicaid providers shall follow the Department's established procedures for securing electronic payments. No later than September 1, 2009, the Department shall cease routine provider payments by check.

b. Effective September 1, 2009, all Medicaid providers shall file claims electronically to the fiscal agent. Nonelectronic claims submission may be required when it is in the best interest of the Department.

c. Effective September 1, 2009, enrolled Medicaid providers shall submit Preadmission Screening and Annual Resident Reviews (PASARR) through the Department's Web-based tool or through a vendor with interface capability to submit data into the Web-based PASARR.

(2) Clinical coverage. – The Department of Health and Human Services, Division of Medical Assistance, shall amend applicable clinical policies and submit applicable State Plan amendments to CMS to implement the budget reductions authorized in the following clinical coverage areas in this act:

a. Consolidate and reduce Targeted Case Management and case management functions bundled within other Medicaid services.

b. Take appropriate action to lower the cost of HIV case management, including tightening service hours and limiting administrative costs. The Department shall maintain HIV case management as a stand-alone service outside of departmental efforts to consolidate case management services.

c. Eliminate coverage of therapeutic camps. The Department shall report on or before October 1, 2009, on the plan to transition children out of mental health residential therapeutic camps. The Department shall submit the report to the Joint Legislative Oversight Committee

on Mental Health, Developmental Disabilities, and Substance Abuse Services.

~~(3) Medicaid Personal Care Service provision. Upon the enactment of this act, the Division of Medical Assistance shall implement the following new criteria for personal care services (PCS):~~

~~a. Independent assessment by an entity that does not provide direct PCS services for evaluation of the recipient prior to initiation of service. The independent assessment will determine the qualifying Activities of Daily Living (ADL), the level of assistance required, and the amount and scope of PCS to be provided, according to policy criteria.~~

~~b. Independent assessment or review from the assigned Community Care of North Carolina (CCNC) physician of the continued qualification for PCS services under the revised PCS policy criteria.~~

~~c. Establishment of time limits on physician service orders and reauthorization in accordance with the recipient's diagnosis and acuity of need.~~

~~d. Add the following items to the list of tasks that are not covered by this service: nonmedical transportation, errands and shopping, money management, cueing, and prompting, guiding, or coaching.~~

~~e. Online physician attestation of medical necessity.~~

~~f. If sufficient reduction in cost is not achieved with the revised policy, the Secretary shall direct the Division of Medical Assistance to further modify the policy to achieve targeted cost savings.~~

~~Recipients currently receiving PCS services shall be reviewed under the above criteria, and those recipients not meeting the new criteria shall be terminated from the service within 30 days of the review. The Department shall review usage of personal care services in adult care homes to determine if overuse is occurring and shall report its findings to the House of Representatives Appropriations Subcommittee on Health and Human Services, the Senate Appropriations Committee on Health and Human Services, and the Fiscal Research Division on or before December 1, 2009.~~

(3) Medicaid Personal Care Service provision. – The Department of Health and Human Services, Division of Medical Assistance, shall reform the Personal Care Services (PCS) and Personal Care Services-Plus (PCS-Plus) programs provided under the State Medicaid plan as follows:

a. Terminate all services provided under these two PCS programs and implement two new PCS programs, PCS-C and PCS-ADE, effective January 1, 2011, or whenever approval is received from CMS.

b. Determine the most effective and efficient means for Medicaid to manage the cost, quality, and utilization of personal care services through one of the available funding options, including revised Medicaid plan optional services, a §1915(c) home and community-based services (HCBS) waiver, or through a §1915(i) option that allows states to establish home- and community-based services that can target specific populations.

c. Submit applications or State plan amendments to CMS as required to obtain approval for two PCS programs, as follows:

1. PCS for Children (PCS-C) – To assist families to meet their needs for personal care assistance for children, including individuals under the age of 21 receiving comprehensive and

preventative child health services through the Early and Periodic Screening, Diagnosis, and Treatment (EPSDT) program.

2. PCS for Disabled and Elderly (PCS-ADE) – To meet the needs of individuals 21 years of age or older who, because of a medical condition, disability, or cognitive impairment, demonstrate extensive or higher levels of unmet needs for assistance in at least three of the five activities of daily living (ADLs) that include eating, dressing, bathing, toileting, and mobility. PCS-ADE shall target individuals at the highest level of need who are able to safely remain in the home and who do not meet the State's criteria for nursing facility placement.

d. Establish program limitations:

1. PCS-C shall be limited to no more than 60 hours of service per month, unless additional services are required to correct or ameliorate defects and physical and mental illnesses and conditions as defined in 42 U.S.C. § 1396d(r)(5) in accordance with a plan of care approved by DMA or its designee.

2. PCS-ADE shall be limited to no more than 80 hours of service per month in accordance with a plan of care approved by DMA or its designee.

e. For both programs, require that:

1. Services are provided in a manner that supplements not supplants family roles and responsibilities and care provided by informal caregivers.

2. Prior to admission to PCS, the recipient be seen by his or her primary or attending physician and that the recipient's physician authorizes referral for PCS in writing and attests to the medical necessity for PCS. The Department of Health and Human Services shall track and analyze from the written referrals to detect and address overutilization of PCS services.

3. Initial assessments and continuing need reassessments be performed by an Independent Assessment Entity (IAE) that is not a PCS service provider.

4. The IAE authorize the amount of service to be provided on a "needs basis," as determined by each recipient's degree of functional disability and level of unmet needs for hands-on personal assistance in the five qualifying ADLs.

5. PCS shall not be used to perform household chores not directly related to the qualifying ADLs, nonmedical transportation, money management, running errands, and shopping, and nonhands-on assistance such as cueing, prompting, guiding, or coaching in accordance with the Medicaid Clinical Coverage Policy for each program.

6. Transition qualified recipients into the programs at such time that all approvals from CMS have been obtained; Medicaid Clinical Coverage Policies have been posted, reviewed, and approved as required; and all appropriate implementation tasks have been completed.

(4) MH/DD/SA Personal Care and Personal Assistance Services Provision. – A denial, reduction, or termination of Medicaid-funded personal care services shall result in a similar denial, reduction, or termination of State-funded MH/DD/SA personal care and personal assistance services.

(5) Community Support and other MH/DD/SA services. – The Department of Health and Human Services shall transition community support child and adult, individual and group services to other defined services on or before June 30, 2010. The Division of Medical Assistance and the Division of MH/DD/SA shall take the steps necessary for the Medicaid and the State-funded community support program to provide for transition and discharge planning to recipients currently receiving community support services. The following shall occur:

a. The Department shall submit to CMS: (i) revised service definitions that separate case management functions from the Community Support definition and (ii) a new service definition for peer support services for adults with mental illness and/or substance abuse ~~disorders.~~ disorders, for implementation no sooner than January 1, 2011.

b. No new admissions for community support individual or group shall be allowed during this transition period unless the Department determines appropriate alternative services are not available, in which case limited community support services may be provided during the transition period. LMEs will be responsible for referring eligible consumers to appropriate alternative services.

c. Authorizations currently in effect as of the date of enactment of this act remain valid. Any new authorization or subsequent reauthorization is subject to the provisions of this act.

d. No community support services shall be provided in conjunction with other enhanced services. Until CMS approves the new case management definition, professional level community support may be provided in conjunction with residential Level III and IV to assist in recipient discharge planning. Up to a maximum of 24 hours of case management (professional level) functions may be provided over a 90-day authorization period as approved by the prior authorization vendor.

e. The current moratorium on community support provider endorsement shall remain in effect.

f. A provider of community support services whose endorsement has been withdrawn or whose Medicaid participation has been terminated is not entitled to payment during the period the appeal is pending, and the Department shall make no payment to the provider during that period. If the final agency decision is in favor of the provider, the Department shall remove the suspension, commence payment for valid claims, and reimburse the provider for payments withheld during the period of appeal.

g. Effective 60 days from the enactment of this act, the paraprofessional level of community support shall be eliminated, and from this date the Department shall not use any Medicaid or State funds to pay for this level of service.

h. Thirty days after the enactment of this act, any concurrent request shall be accompanied with a discharge plan. Submission of the

discharge plan will be a required document for a request to be considered complete. Failure to submit the discharge plan will result in the request being returned as "unable to process." Discharge from the service must occur within 90 days after the submission of the discharge plan.

i. Any community support provider that ceases to function as a provider shall provide written notification to DMA, the Local Management Entity, recipients, and the prior authorization vendor 30 days prior to closing of the business.

j. Medical and financial record retention is the responsibility of the provider and shall be in compliance with the record retention requirements of their Medicaid provider agreement or State-funded services contract. Records shall also be available to State, federal, and local agencies.

k. Failure to comply with notification, recipient transition planning, or record maintenance shall result in suspension of further payment until such failure is corrected. In addition, failure to comply shall result in denial of enrollment as a provider for any Medicaid or State-funded service. A provider (including its officers, directors, agents, or managing employees or individuals or entities having a direct or indirect ownership interest or control interest of five percent (5%) or more as set forth in Title XI of the Social Security Act) that fails to comply with the required record retention may be subject to sanctions, including exclusion from further participation in the Medicaid program, as set forth in Title XI.

(6) Community Support Team. – Authorization for a Community Support Team shall be based upon medical necessity as defined by the Department and shall not exceed 18 hours per week. The Division of Medical Assistance shall do an immediate rate study of the Community Support Team to bring the average cost of service per recipient in line with Assertive Community Treatment Team (ACTT) services. The Division shall also revise provider qualifications and tighten the service definition to contain costs in this line item. Not later than December 1, 2009, the Division of Medical Assistance shall report its findings on the rate study and any actions it has taken to conform with this subdivision to the Joint Legislative Oversight Committee on Mental Health, Developmental Disabilities, and Substance Abuse Services.

(7) MH Residential. – The Department of Health and Human Services shall restructure the Medicaid child mental health, developmental disabilities, and substance abuse residential services to ensure that total expenditures are within budgeted levels. All restructuring activities shall be in compliance with federal and State law or rule. The Divisions of Medical Assistance and Mental Health, Developmental Disabilities, and Substance Abuse Services shall establish a team inclusive of providers, LMEs, and other stakeholders to assure effective transition of recipients to appropriate treatment options. The restructuring shall address all of the following:

a. Submission of the therapeutic family service definition to CMS.

b. The Department shall reexamine the entrance and continued stay criteria for all residential services. The revised criteria shall promote least restrictive services in the home prior to residential placement.

During treatment, there must be inclusion in community activities and parent or legal guardian participation in treatment.

c. Require all existing residential providers or agencies to be nationally accredited within one year of enactment of this act. Any providers enrolled after the enactment of this act shall be subject to existing endorsement and nationally accrediting requirements. In the interim, providers who are nationally accredited will be preferred providers for placement considerations.

d. Before a child can be admitted to Level III or Level IV placement, one or more of the following shall apply:

1. Placement shall be a step down from a higher level placement such as a psychiatric residential treatment facility or inpatient.
2. Multisystemic therapy or intensive in-home therapy services have been unsuccessful.
3. The Child and Family Team has reviewed all other alternatives and recommendations and recommends Level III or IV placement due to maintaining health and safety.
4. Transition or discharge plan shall be submitted as part of the initial or concurrent request.

e. Length of stay is limited to no more than 120 days. Any exceptions granted will require an independent psychiatric assessment, Child and Family Team review of goals and treatment progress, family or discharge placement setting are actively engaged in treatment goals and objectives and active participation of the prior authorization of vendor.

f. Submission of discharge plan is required in order for the request to be considered complete. Failure to submit a complete discharge plan will result in the request being returned as unable to process.

g. Any residential provider that ceases to function as a provider shall provide written notification to DMA, the Local Management Entity, recipients, and the prior authorization vendor 30 days prior to closing of the business.

h. Record maintenance is the responsibility of the provider and must be in compliance with record retention requirements. Records shall also be available to State, federal, and local agencies.

i. Failure to comply with notification, recipient transition planning, or record maintenance shall be grounds for withholding payment until such activity is concluded. In addition, failure to comply shall be conditions that prevent enrollment for any Medicaid or State-funded service. A provider (including its officers, directors, agents, or managing employees or individuals or entities having a direct or indirect ownership interest or control interest of five percent (5%) or more as set forth in Title XI of the Social Security Act) that fails to comply with the required record retention may be subject to sanctions, including exclusion from further participation in the Medicaid program, as set forth in Title XI.

j. On or before October 1, 2009, the Department shall report on its plan for transitioning children out of Level III and Level IV group homes. The Department shall submit the reports to the Joint Legislative Oversight Committee on Mental Health, Developmental Disabilities, and Substance Abuse Services.

(8) Reduce Medicaid rates. – Subject to the prior approval of the Office of State Budget and Management, the Secretary shall reduce Medicaid provider rates to accomplish the reduction in funds for this purpose enacted in this act. The Secretary shall consider the impact on access to care through primary care providers and critical access hospitals and may adjust the rates accordingly. The rate reduction applies to all Medicaid private and public providers with the following exceptions: federally qualified health clinics, rural health centers, State institutions, hospital outpatient, pharmacies, and the noninflationary components of the case-mix reimbursement system for nursing facilities. Medicaid rates predicated upon Medicare fee schedules shall follow Medicare reductions but not Medicare increases unless federally required. Inflationary increases for Medicaid providers paying provider fees (private ICF-MRs and nursing facilities) can occur if the State share of the increases can be funded with provider fees.

(9) Medicaid identification cards. – The Department shall issue Medicaid identification cards to recipients on an annual basis with quarterly updates.

(10) The Department of Health and Human Services shall develop a plan for the consolidation of case management services. The plan shall address the time line and process for implementation, the vendors involved, the identification of savings, and the Medicaid recipients affected by the consolidation. Consolidation under this subdivision does not apply to HIV case management. By December 1, 2009, the Department shall report on the plan to the House of Representatives Appropriations Subcommittee on Health and Human Services, the Senate Appropriations Committee on Health and Human Services, and the Fiscal Research Division.

(11) For the purpose of promoting cost-effective utilization of outpatient mental health services for children, DMA shall require prior authorization for services following the 16th visit.

(12) Provision of Medicaid Private Duty Nursing (PDN) – DMA shall change the Medicaid Private Duty Nursing Program provided under the State Medicaid Plan, as follows:

a. Restructure the current PDN Program to provide services that are:

1. Provided only to qualified recipients under the age of 21;
2. Authorized by the recipient's primary care or attending physician;
3. Limited to 16 hours of service per day, unless additional services are required to correct or ameliorate defects and physical and mental illnesses and conditions as defined in 42 U.S.C. § 1396d(r)(5);
4. Approved based on an initial assessment and continuing need reassessments performed by an Independent Assessment Entity (IAE) that does not provide PDN services and authorized in amounts that are medically necessary based on the recipient's medical condition, amount of family assistance available, and other relevant conditions and circumstances, as defined by the Medicaid Clinical Coverage Policy for this service.
5. Provided in accordance with a plan of care approved by DMA or its designee.

b. Develop and submit to CMS a § 1915(c) Home and Community-Based Services Waiver for individuals dependent on technology to substitute for a vital body function.

c. Once approved by CMS and upon approval of the Medicaid Clinical Coverage Policy, transition all qualified recipients age 21 and older currently receiving PDN to waiver services provided under the Technology Dependent Waiver."

IMPLEMENT INDEPENDENT ASSESSMENTS ON MENTAL HEALTH SERVICES

SECTION 10.36.(a) The Department of Health and Human Services, Division of Medical Assistance, shall require that, prior to the delivery of enhanced mental health services in the Medicaid program, an independent assessment be conducted that meets all of the following criteria:

(1) An initial assessment or a continuing need reassessment is performed by an Independent Assessment Entity (IAE) that is not the provider of the services in question.

(2) The IAE authorizes the type and amount of service to be provided based on the specific health condition and needs of the intended recipient of the service.

SECTION 10.36.(b) The Department of Health and Human Services, Division of Medical Assistance, shall provide a report of savings generated and other findings relating to the implementation of this section to the Senate Appropriations Committee on Health and Human Services, the House of Representatives Appropriations Subcommittee on Health and Human Services, and the Fiscal Research Division on or before April 1, 2011.

GENERAL PROVISIONS

SECTION 10.37.(b) Information to Be Included in Block Grant Plans. – The Department of Health and Human Services shall submit a separate plan for each Block Grant received and administered by the Department, and each plan shall include the following:

(1) A delineation of the proposed allocations by program or activity, including State and federal match requirements.

(2) A delineation of the proposed State and local administrative expenditures.

(3) An identification of all new positions to be established through the Block Grant, including permanent, temporary, and time-limited positions.

(4) A comparison of the proposed allocations by program or activity with two prior years' program and activity budgets and two prior years' actual program or activity expenditures.

(5) A projection of current year expenditures by program or activity.

(6) A projection of federal Block Grant funds available, including unspent federal funds from the current and prior fiscal years.

SECTION 10.37.(c) Changes in Federal Fund Availability. – If the Congress of the United States increases the federal fund availability for any of the Block Grants or contingency funds and other grants related to existing block grants administered by the Department of

Health and Human Services from the amounts appropriated in this section, the Department shall allocate the increase proportionally across the program and activity appropriations identified for that Block Grant in this section. In allocating an increase in federal fund availability, the Office of State Budget and Management shall not approve funding for new programs or activities not appropriated in this section.

If the Congress of the United States decreases the federal fund availability for any of the Block Grants or contingency funds and other grants related to existing block grants administered by the Department of Health and Human Services from the amounts appropriated in this section, the Department shall reduce State administration by at least the percentage of the reduction in federal funds. After determining the State administration, the remaining reductions shall be allocated proportionately across the program and activity appropriations identified for that Block Grant in this section. The Office of State Budget and Management shall report on these changes.

Prior to allocating the change in federal fund availability, the proposed allocation must be approved by the Office of State Budget and Management. If the Department adjusts the allocation of any Block Grant due to changes in federal fund availability, then a report shall be made to the Joint Legislative Commission on Governmental Operations, the House of Representatives Appropriations Subcommittee on Health and Human Services, the Senate Appropriations Committee on Health and Human Services, and the Fiscal Research Division.

SECTION 10.37.(d) Appropriations from federal Block Grant funds are made for the fiscal year ending June 30, 2011, according to the schedule enacted for State fiscal year 2010-2011 or until a new schedule is enacted by the General Assembly.

SECTION 10.37.(e) All changes to the budgeted allocations to the Block Grants or contingency funds and other grants related to existing block grants administered by the Department of Health and Human Services that are not specifically addressed in this section shall be approved by the Office of State Budget and Management, and the Office of State Budget and Management shall consult with the Joint Legislative Commission on Governmental Operations for review prior to implementing the changes. The report shall include an itemized listing of affected programs, including associated changes in budgeted allocations. All changes to the budgeted allocations to the Block Grants shall be reported immediately to the House of Representatives Appropriations Subcommittee on Health and Human Services, the Senate Appropriations Committee on Health and Human Services, and the Fiscal Research Division. This subsection does not apply to Block Grant changes caused by legislative salary increases and benefit adjustments.

(3) Each local school administrative unit is required to reduce its budget and should attempt to protect employees when possible.

(4) The implementation of furloughs may be necessary to balance local school administrative unit budgets for the 2010-2011 fiscal year.

MODERNIZE SALES TAX ON ACCOMMODATIONS

SECTION 31.6.(a) G.S. 105-164.4(a)(3) reads as rewritten:

"**§ 105-164.4. Tax imposed on retailers.**

(a) A privilege tax is imposed on a retailer at the following percentage rates of the retailer's net taxable sales or gross receipts, as appropriate. The general rate of tax is five and three-quarters percent (5.75%).

...

(3) ~~Operators of hotels, motels, tourist homes, tourist camps, and similar type businesses and persons who rent private residences and cottages to transients are considered retailers under this Article. A tax at the general rate of tax is levied on the gross receipts derived by these retailers from the rental of any rooms, lodgings, or accommodations furnished to transients for a consideration. This tax does not apply to any private residence or cottage that is rented for less than 15 days in a calendar year or to any room, lodging, or accommodation supplied to the same person for a period of 90 or more continuous days.~~

~~As used in this subdivision, the term "persons who rent to transients" means (i) owners of private residences and cottages who rent to transients~~

~~and (ii) rental agents, including "real estate brokers" as defined in G.S. 93A-2, who rent private residences and cottages to transients on behalf of the owners. If a rental agent is liable for the tax imposed by this subdivision, the owner is not liable.~~ A tax at the general rate applies to the sales price of the rental of an accommodation to a transient and to other gross receipts derived from the rental of an accommodation to a transient. The sales price of the rental of an accommodation to a transient is determined as if the rental were a service. An "accommodation" is a hotel room, a motel room, a residence, a cottage, or a similar space for occupancy by an individual. The tax does not apply to a residence or a cottage that is rented for less than 15 days in a calendar year or to an accommodation provided to the same person for a period of 90 or more continuous days.

A person who provides an accommodation to a transient is considered a retailer under this Article. A person who, by written contract, agrees to be the rental agent for the provider of an accommodation is considered a retailer under this Article and is liable for the tax imposed by this subdivision. The liability of a rental agent for the tax imposed by this subdivision relieves the provider of the accommodation from liability. A rental agent includes a real estate broker, as defined in G.S. 93A-2.

A person who, by written contract, is not the rental agent of the provider of an accommodation but is authorized by the provider to facilitate the rental of the accommodation and to charge a transient for the rental is considered a retailer under this Article for the purpose of determining the sales price of the accommodation. Accordingly, charges designated as facilitation fees or similar fees are considered charges necessary to complete the rental of the accommodation and are included in the sales price. A person who enters into a contract with the provider of an accommodation to a transient to facilitate the rental of an accommodation must report the sales price to the provider of the accommodation and must send the provider the tax due on the sales price. A facilitator that does not send a provider the tax due on the sales price of an accommodation is liable for the amount of tax the provider fails to send. A facilitator is not liable for tax sent to a provider but not remitted by the provider to the Secretary. Tax payments received by a provider from a facilitator are held in trust by the provider for remittance to the Secretary. A provider that receives a tax payment from a facilitator must remit the amount received to the Secretary. A provider is not liable for tax due but not received from a facilitator. The requirements imposed by this subdivision on a provider and a facilitator are considered terms of the contract between the provider and the facilitator."

SECTION 31.6.(b) G.S. 105-164.4B is amended by adding a new subsection to read:

"(e) Accommodations. – The rental of a transient accommodation is sourced to the location of the accommodation."

SECTION 31.6.(c) G.S. 153A-155(c) reads as rewritten:

"(c) Collection. – ~~Every operator of a business subject to a room occupancy tax shall, on and after the effective date of the levy of the tax, collect the tax. The tax shall be collected as part of the charge for furnishing a taxable accommodation.~~ A person who is required to remit to the Department of Revenue the State sales tax on accommodations imposed by G.S. 105-164.4(a)(3) is required to remit a room occupancy tax to the taxing county on and after the effective date of the levy of the room occupancy tax. The room occupancy tax applies to the same gross receipts as the State sales tax on accommodations and is calculated in the

same manner as that tax. A rental agent or a person who facilitates the rental of an accommodation has the same responsibility and liability under the room occupancy tax as the rental agent or facilitator has under the State sales tax on accommodations.

If a taxable accommodation is furnished as part of a package, the bundled transaction provisions in G.S. 105-164.4D apply in determining the sales price of the taxable accommodation. If those provisions do not address the type of package offered, the ~~operator~~ person offering the package may determine an allocated price for each item in the package based on a reasonable allocation of revenue that is supported by the ~~operator's~~person's business records kept in the ordinary course of business and ~~collect~~ calculate tax on the allocated price of the taxable accommodation.

~~The tax shall be stated and charged separately from the sales records and shall be paid by the purchaser to the operator of the business.~~ The provider of an accommodation must separately state the room occupancy tax. Room occupancy taxes paid to a provider of an accommodation are paid to the provider as trustee for and on account of the taxing county. ~~The tax shall be added to the sales price and shall be passed on to the purchaser instead of being borne by the operator of the business.~~

The taxing county shall ~~design, print,~~ design and furnish to all appropriate businesses and persons in the county the necessary forms for filing returns and instructions to ensure the full collection of the tax. ~~An operator of a business~~ A provider of accommodations who collects a room occupancy tax may deduct from the amount remitted to the taxing county a discount equal to the discount the State allows the ~~operator~~ provider for State sales and use tax."

SECTION 31.6.(d) G.S. 153A-155(g) reads as rewritten:

"(g) Applicability. – Subsection (c) of this section applies to all counties that levy an occupancy tax. A. Technical Adjustments

1 Average Daily Membership ($4,980,046) R

Revises projected increase in ADM for FY 2010-11 to reflect 3,127 fewer students than originally projected. Dollar amount of adjustment includes revisions to all position, dollar, and categorical allotments.

Total funded ADM for FY 2010-11 is 1,475,668, an increase of 10,754 over FY 2009-10. There was a temporary ADM reduction in FY 2009-10 precipitated by a change in the Kindergarten eligibility age.

2 Average Teacher Salary ($44,950,676) R

Revises budgeted funding for certified personnel salaries based on actual salary data from December 2009. Adjustment does not reduce any salary paid to certified personnel.

3 Education Lottery Receipts ($36,638,646) R

Adjusts the receipts budgeted for the Classroom Teachers allotment to reflect half of the projected $73 million growth in Education Lottery revenues over the $368 million budgeted amount.

4 Exceptional Children Headcount ($6,000,000) R

Adjusts funding previously budgeted for the Children With Disabilities allotment to reflect actual student headcount and does not reduce funding per student. The continuation budget includes anticipated growth based on the projected headcount of children with disabilities. This adjustment revises budgeted funding for both preschool and school-age children with special needs to reflect the April 1, 2010 headcount.

	FY 10-11	
5 Small County Supplemental Funding Reduces funding to adjust for the expiration of Currituck County's funding eligibility in FY 2009-10 as well as a surplus of funding needed to fully fund the other eligible counties. The remaining $43.5 million is sufficient to fully fund the 28 eligible counties.	($3,000,000)	R
6 Learn and Earn Early College High Schools Adjusts funding to reflect the delayed opening of one Learn and Earn School scheduled to open in FY 2009-10. S.L. 2009-451 provided funding to open twelve Learn and Earn schools that had been given planning funding in FY 2008-09. Only ten of the twelve planning schools were ready to open in FY 2009-10, but one of them will be ready to open in FY 2010-11. Currently 66 Learn and Earn "Bricks and Mortar" schools are operating in North Carolina.	($310,000)	R
B. Other Public School Funding Adjustments

8 More at Four Reduces program funding by 15% from its $165.5 million combined appropriation of General Fund and Lottery proceeds. The Joint Task Force on Early Childhood Education and Care estimates that $5 million in program savings can be achieved by the capping of administrative costs, as proposed in section 7.x of the Budget Bill. An additional $16.2 million in Federal receipts is anticipated to support More at Four in FY 2010-11.	($10,000,000) ($16,176,036)	R NR
9 Instructional Supplies Reduces the Instructional Supplies allotment by 6%. $89.2 million will remain for this purpose.	($5,000,000)	R

	FY 10-11	
10 Central Office Administration Reduces the dollar allotment to LEAs for the salaries and benefits of central office staff by 9.1%. This staff includes, but is not limited to, superintendents, associate and assistant superintendents, finance officers, athletic trainers, and transportation directors. $99.8 million will remain to support these local staff.	($10,000,000)	R
11 Noninstructional Support Personnel Reduces recurring funding for this allotment, which supports clerical assistants, custodians, and substitute teachers, amongst other items. $15 million in State funds will remain available for this allotment in addition to $373 million in federal Education Stabilization Funding provided to LEAs that may also be used for the same purposes.	($7,100,000)	R
12 Mentoring Eliminates all State funding for LEA mentoring programs on a nonrecurring basis in FY 2010-11 only.	($9,214,190)	NR

Part of this allotment provides funding to hire a School Resource Officer (SRO) based on a specified salary and benefits amount that is greater than the actual average salary and benefits provided to SROs. This reduction adjusts the allotment to reflect actual expenditures. $234.7 million will remain available for this allotment.

18 Disadvantaged Student Supplemental Funding ($1,975,008) R

SENATE BILL 1135:
Red Oak Deannexation

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	May 22, 2010
Introduced by:	Sen. Swindell	**Prepared by:**	Cindy Avrette Committee Counsel
Analysis of:	First Edition		

SUMMARY: Senate Bill 1135[1] is a local bill that would deannex 1.94 acres from the corporate limits of the Town of Red Oak, as requested by the Town and evidenced by a resolution adopted by the Town Council on January 4, 2010.

CURRENT LAW: While a city or town has statutory authority to annex property, either voluntarily or involuntarily depending upon certain circumstances, there is no statutory authority to de-annex property. Deannexation requires an act of the General Assembly.

BILL ANALYSIS: Senate Bill 1135 would remove certain described property from the corporate limits of the Town of Red Oak, as requested by the Town Council of Red Oak.

The property described in the bill is owned by the Sacred Heart Church. The Church owns several contiguous parcels of property. Most of the property is in an unincorporated area of Nash County surrounded by the corporate limits of the Town of Red Oak. The Church owns two parcels that are included in the corporate limits of the Town of Red Oak.

Sacred Heart Church plans to build a fellowship hall and church on the two parcels of property incorporated in the Town of Red Oak. The Church has requested sewer service from the City of Rocky Mount. The City Council of Rocky Mount has agreed to allow the Church to extend the sewer main to its property provided the property is de-annexed from the Town of Red Oak. The City of Rocky Mount provides sewer service to the Town of Red Oak as a wholesale customer and it does not want to infringe in Red Oak's sewer service area. The Town Council of Red Oak adopted a resolution requesting the General Assembly to de-annex the two parcels of land owned by the Church on January 4, 2010.

EFFECTIVE DATE: The act would become effective when it becomes law.

BILL SUMMARY: The PCS to Senate Bill 655 increases the restoration fee for licenses revoked for impaired driving and other offenses by $25, with the increase in the fee distributed to the Forensic Tests for Alcohol Branch of the Chronic Disease and Injury Section of DHHS. (Source: Heather Fennel, Research Division, Bill Summary, May 24, 2010)

ASSUMPTIONS AND METHODOLOGY: The Division of Motor Vehicles (DMV) reports that 129,877 individuals paid the $50 restoration fee and 22,439 individuals paid the $75 restoration fee in FY2008-09, for a total of 152,316. Assuming the number of driver license restorations under these statutes remains the same, the increased collections would be 152,316 multiplied by $25, for an annual total of $3,807,900. Under the bill these funds would be used to fund a statewide chemical alcohol testing program administered by the Forensic Tests for Alcohol Branch of the Chronic Disease and Injury Section of the Department of Health and Human Services.

DMV estimates that the programming to make the fee changes in the bill would take 95 hours at a cost of $65 per hour, for a total of $6,175. DMV would use in-house resources.

SOURCES OF DATA: Division of Motor Vehicles

TECHNICAL CONSIDERATIONS: It is likely that DMV would need additional time beyond July 1, 2010 to implement this change. The result would be reduced revenues in the first fiscal year.

SECTION 3. G.S. 105-164.13(55) reads as rewritten:

"(55) Sales of electricity for use at an eligible Internet ~~data center~~ datacenter and eligible business property to be located and used at an eligible Internet ~~data center.~~ datacenter. As used in this subdivision, "eligible business property" is property that is capitalized for tax purposes under the Code and is used either:

a. For the provision of ~~Internet service or Web search portal services as contemplated by G.S. 105-164.3(8e)a.,~~ a service included in the business of the primary user of the datacenter, including equipment cooling systems for managing the performance of the property.

If the level of investment required by G.S. 105-164.3(8e)d. is timely made but any portion of the electricity is not used at an eligible Internet ~~data center,~~ datacenter, then the exemption provided for such electricity under this subdivision is forfeited. A taxpayer that forfeits an exemption under this subdivision is liable for all past taxes avoided as a result of the forfeited exemption, computed from the date the taxes would have been due if the exemption had not been allowed, plus interest at the rate established under G.S. 105-241.21. If the forfeiture is triggered due to the lack of a timely investment required by G.S. 105-164.3(8e)d., then interest is computed from the date the taxes would have been due if the exemption had not been allowed. For all other forfeitures, interest is computed from the time as of which the eligible business property or electricity was put to a disqualifying use. The past taxes and interest are due 30 days after the date the exemption is forfeited. A taxpayer that fails to pay the past taxes and interest by the due date is subject to the provisions of G.S. 105-236."

SECTION 4. G.S. 105-164.14(j)(3) is amended by adding the following new sub-subdivisions to read:

"(j) Certain Industrial Facilities. – The owner of an eligible facility is allowed an annual refund of sales and use taxes as provided in this subsection.

...

(3) Industries. – This subsection applies to the following industries:

...

p. Turbine manufacturing. – Turbine manufacturing means an industry primarily engaged in manufacturing turbines or complete turbine generator set units, such as steam, hydraulic, gas, and wind. Turbine

manufacturing under this provision does not include the manufacturing of aircraft turbines."

SECTION 5. G.S. 105-187.50 reads as rewritten:

For facilities that are located in a development tier one area at the time of application for the written determination, that at least one hundred fifty million dollars ($150,000,000) in private funds has been or will be invested in improvements to real property or installed datacenter machinery and equipment, or a combination thereof, within five years of the date on which the first qualifying improvement is made, regardless of any subsequent change in county development tier status.~~

~~2. For facilities that are not located in a development tier one area at the time of application for the written determination, that at least three hundred million dollars ($300,000,000) in private funds has been or will be invested in improvements to real property or installed datacenter machinery and equipment, or a combination thereof, within five years of the date on which the first qualifying improvement is made, regardless of any subsequent change in county development tier status.~~

~~c. The facility satisfies the wage standard and health insurance requirements of G.S. 105-129.83.~~"

SECTION 6. G.S. 105-187.51C reads as rewritten:

"**§ 105-187.51C. Tax imposed on datacenter machinery and equipment.**

(a) Tax. – A privilege tax is imposed on ~~an eligible datacenter, other than one as defined in G.S. 105-164.3(8e),~~ the owner of a datacenter that meets the requirements of subsection (a1) of this section and that purchases machinery or equipment to be located and used at the datacenter that is capitalized for tax purposes under the Code and is used either:

(1) For the provision of datacenter services, including equipment cooling systems for managing the performance of the datacenter property; hardware and software for distributed and mainframe computers and servers; data storage devices; network connectivity equipment and peripheral components and systems.

(2) For the generation, transformation, transmission, distribution, or management of electricity, including exterior substations and other business personal property used for these purposes.

(a1) Requirements. – The Secretary of Commerce must certify that the datacenter meets all of the following requirements:

(1) An investment of private funds of at least two hundred twenty-five million dollars ($225,000,000) has been or will be made in real and tangible

personal property for the facility within five years of the date on which the first property investment is made in the facility.

(2) The wage standard requirements of G.S. 105-129.83.

(3) The health insurance requirements of G.S. 105-129.83.

(a2) Second Datacenter. – A privilege tax is imposed on an owner of a datacenter that is subject to tax under subsection (a) of this section, constructs a second datacenter, and purchases machinery or equipment to be located and used at that datacenter. As used in this subsection, the owner of a datacenter includes an entity that is owned by or under common control with the owner of a datacenter subject to tax under subsection (a) of this section. The tax applies only if the second datacenter meets the following requirements and the machinery or equipment that is purchased is capitalized for tax purposes under the Code and is used for one of the purposes listed in subsection (a) of this section:

(1) The Secretary of Commerce certifies that an investment of private funds of at least seventy-five million dollars ($75,000,000) has been or will be made in real and tangible personal property for the facility within five years after the facility subject to tax under subsection (a) of this section is placed into service and that the datacenter meets the requirements in subsection (a1) of this section, other than the minimum investment amount in that subsection.

(2) The two datacenters are linked through a fiber optic connection or a similar connection.

(3) The datacenters are placed in service within five years of each other.

(b) Rate. – The tax is one percent (1%) of the sales price of the eligible equipment and machinery. The maximum tax is eighty dollars ($80.00) per article.

(c) Forfeiture. – If the required level of investment to qualify as an eligible datacenter is not timely made, then the rate provided under this section is forfeited. If the required level of investment is timely made but any eligible machinery and equipment is not located and used at an eligible datacenter, then the rate provided for that machinery and equipment under this section is forfeited. A taxpayer that forfeits a rate under this section is liable for all past sales and use taxes avoided as a result of the forfeiture, computed at the combined general rate from the date the taxes would otherwise have been due, plus interest at the rate established under G.S. 105-241.21. If the forfeiture is triggered due to the lack of a timely investment required by this section, then interest is computed from the date the sales or use tax would otherwise have been due. For all other forfeitures, interest is computed at the combined general rate from the time as of which the machinery or equipment was put to a disqualifying use. A credit is allowed against the sales or use tax owed as a result of the forfeiture provisions of this subsection for privilege taxes paid pursuant to this section. For purposes of applying this credit, the fact that payment of the privilege tax occurred in a period outside the statute of limitations provided under G.S. 105-241.6 is not considered. The credit reduces the amount forfeited, and interest applies only to the reduced amount. The past taxes and interest are due 30 days after the date of forfeiture. A taxpayer that fails to pay the past taxes and interest by the due date is subject to the provisions of G.S. 105-236.

(d) Sunset. – This section expires for sales occurring on or after July 1, ~~2013~~2015."

SECTION 7. This act becomes effective July 1, 2010, and applies to sales made on or after that date.

SENATE BILL 1171:
Keeping NC Competitive Act

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	May 25, 2010
Introduced by:	Sen. Clodfelter	**Prepared by:**	Cindy Avrette
Analysis of:	PCS to First Edition S1171-CSRB-78		Committee Counsel

SUMMARY: ***Senate Bill 1171[1] would provide various tax incentives requested by the Department of Commerce to aid in its recruitment initiatives. The Senate version of the Appropriations Act of 2010, Version 3 of Senate Bill 897, reserved $10,000,000 for these tax incentives. The PCS for Senate Bill 1171 bill would provide the following tax incentives:***

- ***Expand the sales tax exemption available to an Internet datacenter for the electricity and business property used at its facility. The current exemption applies to a facility engaged in Web search portals; the bill would expand the exemption to include a facility engaged in software publishing. The PCS would use NAICS industry classifications to identify the facilities.***
- ***Allow an annual refund of the sales and use tax paid on building materials, supplies, fixtures, and equipment to construct a paper-from-pulp manufacturing facility and a turbine manufacturing facility. The PCS would remove the wage and job requirements related to the paper-from-pulp manufacturing facility to simplify the sales tax exemption and to recognize that the exemption is primarily related to the large investment being made, not to the creation of jobs.[2]***
- ***Modify the requirements for a datacenter to qualify for the 1%, $80 per article cap, excise tax on the machinery and equipment it purchases. The PCS would allow a datacenter to meet its investment threshold through the construction of two facilities, rather than one facility, and it extends the sunset from July 1, 2013, to July 1, 2015.***

SALES TAX EXEMPTIONS: The General Assembly began offering sales tax exemptions to incent companies to locate and expand in North Carolina[3] in 1998 when it granted a sales tax exemption to a major recycling facility[4] for the lubricants and other additives used at its facility for its machinery and equipment, for the electricity used at its facility, and for the materials and supplies consumed in the manufacturing processes at its facility.[5]

In 2006, the General Assembly granted a sale tax exemption to an Internet datacenter[6] for the electricity and business property used at its facility.[7] To be exempted, the business property must be located at the facility, it must be capitalized for tax purposes under the Code, and it must be used for one of the following purposes:

---

[1] As introduced, this bill was identical to H1958, as introduced by Reps. Moore, Burris-Floyd, which is currently in House Commerce, Small Business, and Entrepreneurship, if favorable, Finance.

[2] The refund provision applies to at least nine industries. Only one, the refund for solar electricity generating materials manufacturing, carries a similar requirement.

[3] There are at least seven sales tax exemptions targeted to specific industries: G.S. 105-164.13(10a), (45), (45a), (45b), (45c), (55), and (56).

[4] Nucor.

[5] G.S. 105-164.13(10a); S.L. 1998-55.

[6] Google.

[7] G.S. 105-164.13(55); S.L. 2006-66.

- For the provision of a service provided as part of its primary business.
- For the generation, transformation, transmission, distribution, or management of electricity.
- For the provision of related computer engineering or computer science research.

An Internet datacenter is defined as a facility that meets the following requirements:

- Its primary business must be as a Web search portal included in Industry 51811 of NAICS.
- It is comprised of a structure or series of structures located on contiguous parcels of land owned by the same operator.
- It is located in a development tier one or two county.
- The owner commits at least $250,000,000 of private funds in the facility over a five-year period.

The owner of an Internet datacenter must forfeit the sales tax exemptions it has been allowed if it fails to meet the investment threshold, fails to locate and use the property at the datacenter, or fails to use the electricity at the datacenter. A taxpayer that forfeits an exemption is liable for all past taxes avoided as a result of the exemption, computed from the date the taxes would have been due if the exemption had not been allowed, plus interest. The past taxes and interest are due 30 days after the date the exemption is forfeited.

Section 1 of the PCS would expand the definition of an Internet datacenter to include not only a facility primarily engaged in providing Internet service and web search portals, but also a facility primarily engaged in computer software publishing. The bill identifies the provided services by using the industry classifications developed by the North American Industry Classification System (NAICS). NAICS is the standard used by Federal statistical agencies in classifying business establishments for the purpose of collecting, analyzing, and publishing statistical data related to the U.S. business economy. It was developed under the auspices of the Office of Management and Budget (OMB) and adopted in 1997 to replace the Standard Industrial Classification (SIC) system.

Section 2 of the PCS would update the NAICS reference used in the sales and use tax statutes to the most recent edition of NAICS.[8] OMB updates NAICS every five years. As part of this update, the 2002 NAICS classification for "Internet Service Providers and Web Search Portals," Industry 51811, was changed in the 2007 edition of NAICS to "Internet Publishing and Broadcasting and Web Search Portals," Industry 519130. **Section 1 of the PCS** made this conforming change. **Section 3 of the PCS** also makes a conforming change in language that was based upon the wording used in the 2002 edition of NAICS.

SALES TAX REFUNDS: The General Assembly has allowed various industrial facilities to apply for an annual refund of the sales and use tax paid by them on building materials, supplies, fixtures, and equipment installed during the construction of a facility. Purchases for subsequent repair, renovation or equipment replacement do not qualify for the refund. The list of industrial facilities entitled to this refund has increased over the years:

- Air courier services. (1998).
- Aircraft manufacturing. (2004 and 2007)
- Bioprocessing. (2003)
- Computer manufacturing. (2004)
- Financial services. (2006)
- Motor vehicle manufacturing. (2004)

[8] G.S. 105-164.3 and G.S. 105-187.51B use NAICS references. In those instances, the industry codes did not change with the most recent update. Therefore no conforming changes were necessary.

- Pharmaceutical and medicine manufacturing and distribution of pharmaceuticals and medicines. (2003)
- Semiconductor manufacturing. (2004)
- Solar electricity generating materials manufacturing. (2008)

To be allowed the refund, all of the listed industries must meet an investment threshold.[9] If the facility is located in a development tier one area, the required investment level is $50,000,000. For all other facilities, the investment level is $100,000,000. If the required investment level is not made within five years after the first refund is allowed, the facility loses its eligibility for the refund and must forfeit all refunds already received.[10] Only one of the listed industries must also meet a wage standard;[11] no industry listed must meet a specified employment level. A request for a refund must be made within six months after the end of the State's fiscal year. A refund applied for after the due date is barred. This refund provision expires for sales made on or after January 1, 2013.

Section 4 of the PCS would expand the list of industries allowed the annual sales and use tax refund to include paper-from-pulp manufacturing and turbine manufacturing. It would remove the requirement that the owner of a paper-from-pulp manufacturing facility would need to pay an average weekly wage equal to or greater than the average wage of the county; only one industry currently allowed this refund must meet a wage standard. It would also remove the requirement that the owner of a paper-from-pulp manufacturing facility would need to create at least 200 additional full-time jobs to qualify for the refund; no other industry allowed this refund must meet a job creation requirement.

1% EXCISE TAX, SUBJECT TO $80 CAP, ON CERTAIN MACHINERY & EQUIPMENT

The 2001 General Assembly enacted Article 5F in response to the requirement of the Streamlined Agreement that states must simplify their sales tax rates. The 2001 legislation repealed the 1% sales tax rate and $80 per article cap imposed on mill machinery and replaced it with a privilege excise tax having the same rate. Since that time, the Article has been expanded to tax other machinery and equipment at the lower rate, so long as the machinery and equipment are capitalized by the company for tax purposes under the Code:

- A major recycling facility. (2005)
- A research and development company in the physical, engineering, and life sciences. (2006)
- A software publishing company. (2007)
- An industrial machinery refurbishing company. (2008)

In 2007, the General Assembly substituted the 1%, $80 cap excise tax for the sales and use tax on certain purchases of machinery and equipment located and used at a datacenter. This provision expires for sales occurring on or after January 1, 2013. To be taxed at lower rate, the machinery and equipment must be used to provide datacenter services or for the generation, transformation, transmission, distribution or management of electricity. To qualify for the reduced tax rate, a datacenter must meet the following requirements:

- Provide infrastructure for hosting or data processing services.[12]
- Satisfy the wage standard and health insurance requirements of Article 3J.[13]

[9] The costs of construction may include the cost of acquiring and improving the land for the facility and the costs of the equipment for the facility.
[10] The owner of the facility is liable for past taxes due plus interest.
[11] Solar electricity generating materials manufacturing.
[12] G.S. 105-164.3(5c).
[13] G.S. 105-164.50(2)c.

- Meet a minimum investment threshold.[14] The minimum investment threshold is $150,000,000 within five years for development tier one areas. The investment threshold is $300 million for facilities not located in a development tier one area. A business that fails to meet the minimum investment threshold forfeits the lower tax rate provided by this Article and must pay all sales and use taxes, with interest, that would have been due on ineligible purchases.[15]

Section 6 of the PCS would allow a datacenter to meet its $300,000,000 investment threshold through the construction of two facilities. The **PCS** would require one facility to meet a large investment threshold of $225,000,000. Once a taxpayer qualifies for the lower 1% privilege tax by constructing a facility satisfying this large investment threshold, the taxpayer may also qualify for the lower tax rate on a second datacenter if the owner invests at least $75,000,000 in the second datacenter and the two datacenters are linked through a fiber optic connection or a similar connection and the two datacenters are placed into service within five years of each other. The **PCS** would also extend the sunset of this section from July 1, 2013, to July 1, 2015.

Section 6 of the PCS would make the following stylistic changes to Article 5F to clarify the provisions related to the datacenter tax statute:

- It would remove the different investment thresholds based upon the development tier designation of the county in which the datacenter locates because it is now clear that the incented company will locate in a development tier two or three county. Removing the different thresholds simplifies the statute and reflects the current investment situation.
- It would incorporate the investment threshold, as well as the wage and health insurance requirements, in the statute providing the lower tax rate for a datacenter so that all of the provisions governing the applicability tax may be found in one statute. **Section 5 of the PCS** would remove the investment, wage, and health insurance requirements from the definitional statute for Article 5F.

EFFECTIVE DATE: The act becomes effective July 1, 2010, and applies to purchases made on or after that date.

[15] A credit, in the amount of the privilege tax paid, is allowed against the sales and use taxes due following forfeiture, and interest is not computed against the amount of this offset. The past taxes and interest are due 30 days after the date of forfeiture.

BILL SUMMARY: Senate Bill 1171 provides various tax incentives requested by the Department of Commerce to aid it in its recruitment initiatives. The bill offers these incentives through the following statutory changes:

- Section 1: Amends GS 105-164.3(8e) to provide additional criteria for designating a facility as an eligible internet data center. The change also expands the sales and use tax exemption for

machinery, equipment, and electricity sold to eligible internet data centers under G.S. 105-164.13 (55).

- Section 4: Amends G.S. 105-164.14(j) making a facility eligible for an annual refund of sales and use taxes under the subsection if the facility primarily performs paper-from-pulp manufacturing or manufactures turbine and/or turbine generator set units, creates at least 200 additional jobs, and pays an average weekly wage equal to or greater than the average wage in the county. This refund would apply to taxes paid in purchasing building materials, supplies, fixtures, and equipment.
- Section 6: Amends G.S. 105-187.51C replacing the general sales and use tax rate applicable to property purchased for use in a data center with the 1%, $80 per article cap excise tax under Article 5F. The Article 5F excise tax applies to machinery and equipment purchased by an eligible internet datacenter.
- Provides that a facility owner loses eligibility and must forfeit all refunds if the facility fails to maintain the required number of created jobs.

ASSUMPTIONS AND METHODOLOGY: Using data provided by the North Carolina Department of Commerce (Commerce), Fiscal Research estimates that enacting the tax incentives will reduce General Fund availability by $8.85 million in FY 10-11 and by $ 13.70 million in FY 11-12. The estimate represents the fiscal impact of three types of tax incentives. The paragraphs below describe each incentive in detail.

Section 1: The tax incentive, amending the definition of an eligible internet datacenter, expands the types of companies eligible for a sales tax exemption on machinery and electricity purchases. As shown in Table 1 below, the electricity and machinery tax exemption totals $8.2 million in the 2010-11 fiscal year.

Table 1. Sales and Use Tax Exemption for Machinery and Equipment

Fiscal Year	Qualified Investment (Machinery and Equipment)	Cost Estimate per Fiscal Year (4.75-5.75% Rate)	Qualified Investment (Electricity)	Cost Estimate per Fiscal Year (3% Rate)	Total Cost Estimate per Fiscal Year
2010-11	$148,750,000	$7,864,063	$10,725,000	$321,750	$8,185,813
2011-12	$197,812,500	$10,085,156	$21,450,000	$643,500	$10,728,656
2012-13	$125,000,000	$6,587,500	$26,325,000	$789,750	$7,377,250
2013-14	$65,000,000	$3,737,500	$31,200,000	$936,000	$4,673,500
2014-15	$0	$0	$21,450,000	$643,500	$643,500
Total	**$536,562,500**	**$28,274,219**	**$111,150,000**	**$3,334,500**	**$31,608,719**

By expanding the definition of eligible Internet datacenters, the bill also expands the types of facilities entitled to a sales and use tax exemption on electricity purchases. Commerce estimates that the definition change will reduce General Fund availability by $321,750 during the 2010-11 fiscal year and by $600,000 to $900,000 in subsequent years. Table 1 provides additional detail.

Under current law, these companies are subject to the general sales tax rate on electricity of 3%. Modifying the definition under G.S. 105-164.3 expands the number of facilities eligible for sales and use tax exemptions under G.S. 105-164.13(55).

Section 4: According to Commerce, providing sales and use tax incentives to construct facilities utilized in paper-from-pulp, turbine, or turbine generator set unit manufacturing will generate refunds of $1.1 million during the 2011-10 fiscal year. Table 2 describes the amount of qualified investments and expected sales and use tax refunds per fiscal year. Purchases made during the 2010-11 fiscal year are reflected in the 2011-12 refunds. Companies eligible for sales and use tax incentives under G.S. 105-164.14 (j) apply and receive tax refunds six months after the end of the fiscal year in which the purchases are made. The sales tax refund provided under G.S. 105-164.14 (j) applies to purchases made on or before January 1, 2013. The January 2013 sunset limits the fiscal impact of this statutory change to three fiscal years.

Fiscal Year	Qualified Investment (Construction Materials)	Cost Estimate per Fiscal Year (Refunds Lag Purchases by a Fiscal Year)
2010-11	$19,750,000	$0
2011-12	$15,750,000	$1,135,625
2012-13	$5,500,000	$905,625
2013-14	$0	$316,250
2014-15	$0	$0
Total	**$41,000,000**	**$2,357,500**

Section 6: Amends G.S. 105-187.51C replacing the general sales and use tax rate applicable to property purchased for use in a data center with the 1%, $80 per article cap excise tax under Article 5F. The tax incentive, amending the definition of an eligible datacenter, expands the types of companies eligible for a sales tax exemption on machinery. Machinery purchased by a data center as tax exempt under Article 5 is subject to the 1%/$80 excise tax under Article 5F. For each piece of machinery purchased, companies must remit 1% of the purchase price to the Department of Revenue.

The tax due is capped at $80 per piece of equipment. The sales tax exemption is also set to expire July, 1, 2013. As illustrated in Table 3, Commerce estimates that $12.5 million in equipment purchases will be made during the 2010-11 fiscal year. The fiscal impact of exempting this equipment from the sales tax equals the purchase price of the machinery, multiplied

by 4.75% (the North Carolina State sales and use tax rate less 1%). This number is then multiplied by 1.25. The 25% increase in forgone sales tax revenue represents the fiscal impact of the $80 cap per piece of machinery. For each piece of machinery with a purchase price exceeding $1,391, a cap of $80 per piece of equipment is imposed. Table 1 above also reflects a reduction in the State sales and use tax rate of 1%, which is set to expire July 1, 2011. Purchases made on or after that date will only be subject to a 4.75% sales and use tax rate. The sales and use tax exemption for mill machinery purchased by an eligible data center sunsets on July 1, 2015.

A BILL TO BE ENTITLED

AN ACT TO MAKE TECHNICAL, CLARIFYING, AND ADMINISTRATIVE CHANGES TO THE TAX AND RELATED LAWS.

The General Assembly of North Carolina enacts:

SECTION 1. The introductory language to G.S. 105-113.40A reads as rewritten:

"The Secretary must credit the net proceeds of the tax collected under this ~~Article~~ Part as follows:"

SECTION 2. G.S. 105-129.16D(b1) reads as rewritten:

"(b1) Alternative Production Credit. – In lieu of the credit allowed under subsection (b) of this section, a taxpayer that constructs and places in service in this State three or more commercial facilities for processing renewable fuel and that invests a total amount of at least four hundred million dollars ($400,000,000) in the facilities is allowed a credit equal to thirty-five percent (35%) of the cost to the taxpayer of constructing and equipping the facilities. In order to claim the credit, the taxpayer must obtain a written determination from the Secretary of Commerce that the taxpayer is expected to invest within a five-year period a total amount of at least four hundred million dollars ($400,000,000) in three or more facilities. The credit must be taken in seven equal annual installments beginning with the taxable year in which the first facility is placed in service. If, in one of the years in which the installment of credit accrues, a facility with respect to which the credit was claimed is disposed of or taken out of service and the investment requirements of this subsection are no longer satisfied, the credit expires and the taxpayer may take any remaining installment of the credit only to the extent allowed under subsection (b) of this section. The taxpayer may, however, take the portion of an installment under this subsection that accrued in a previous year and was carried forward to the extent permitted under G.S. 105-129.17. Notwithstanding the provisions of G.S. 105-129.17, a taxpayer may carry forward unused portions of the credit allowed under this subsection for the succeeding 10 years.

If a taxpayer that claimed a credit under this subsection fails to meet the requirements of this subsection but meets the requirements of subsection (b) of this section, the taxpayer forfeits the difference between the alternative credit claimed under this subsection and the credit allowed under subsection (b) of this section. A taxpayer that forfeits part of the alternative credit under this subsection is liable for the additional taxes avoided plus interest at the rate established under ~~G.S. 105-241.1(i),~~ G.S. 105-241.21, computed from the date the additional taxes would have been due if the credit had not been allowed. The additional taxes and interest are due 30 days after the date the credit is forfeited. A taxpayer that fails to pay the additional taxes and interest by the due date is subject to penalties provided in G.S. 105-236."

SECTION 3. G.S. 105-159.1(a) reads as rewritten:

"(a) Every individual whose income tax liability for the taxable year is three dollars ($3.00) or more may designate on his or her income tax return that three dollars ($3.00) of the tax shall be credited to the North Carolina Political Parties Financing Fund for the use of the political party designated by the taxpayer. In the case of a married couple filing a joint return whose income tax liability for the taxable year is six dollars ($6.00) or more, each spouse may designate on the income tax return that three dollars ($3.00) of the tax shall be credited to the North Carolina Political Parties Financing Fund for the use of the political party designated by the taxpayer. Amounts credited to the Fund shall be allocated among the political parties according to the designation of the taxpayer. Where any taxpayer elects to designate but does not specify a particular political party, those funds shall be distributed among the political parties on a pro rata basis according to their respective party voter registrations as determined by the most recent certification of the State Board of Elections. As used in this section, the term "political party" has the same meaning as defined in G.S. 163-96.~~means one of the following that has at least one percent (1%) of the total number of registered voters in the State~~:

~~(1) A political party that at the last preceding general State election received at least ten percent (10%) of the entire vote cast in the State for Governor or for presidential electors.~~

~~(2) A group of voters who by July 1 of the preceding calendar year, by virtue of a petition as a new political party, had duly qualified as a new political party within the meaning of Chapter 163 of the General Statutes.~~"

SECTION 4.(a) G.S. 105-164.14(c) is amended by adding a new subdivision to read:

"(23) A public library created pursuant to an act of the General Assembly."

SECTION 4.(b) This section becomes effective July 1, 2008, and applies to purchases made on or after that date.

SECTION 5. G.S. 105-187.3 reads as rewritten:

"...

(b) Retail Value. – The retail value of a motor vehicle for which a certificate of title is issued because of a sale of the motor vehicle by a retailer is the sales price of the motor vehicle, including all accessories attached to the vehicle when it is delivered to the purchaser, less the amount of any allowance given by the retailer for a motor vehicle taken in trade as a full or partial payment for the purchased motor vehicle. ~~The~~

The retail value of a motor vehicle for which a certificate of title is issued because of a sale of the motor vehicle by a seller who is not a retailer is the market value of the vehicle, less the amount of any allowance given by the seller for a motor vehicle taken in trade as a full or partial payment for the purchased motor vehicle. A transaction in which two parties exchange motor vehicles is considered a sale regardless of whether either party gives additional consideration as part of the transaction. ~~The~~

The retail value of a motor vehicle for which a certificate of title is issued because of a reason other than the sale of the motor vehicle is the market value of the vehicle. The market value of a vehicle is presumed to be the value of the vehicle set in a schedule of values adopted by the Commissioner.

~~(b1) Retail Value of Transferred Department of Defense Vehicles. —~~The retail value of a vehicle for which a certificate of title is issued because of a transfer by a State agency that assists the United States Department of Defense with purchasing, transferring, or titling a vehicle to another State agency, a unit of local government, a volunteer fire department, or a volunteer rescue squad is the sales price paid by the State agency, unit of local government, volunteer fire department, or volunteer rescue squad.

..."

SECTION 6. G.S. 105-187.6(a) is amended by adding a new subdivision to read:

"(a) Full Exemptions. – The tax imposed by this Article does not apply when a certificate of title is issued as the result of a transfer of a motor vehicle:

...

(11) To a revocable trust from an owner who is the sole beneficiary of the trust."

SECTION 7.(a) G.S. 105-236(a)(4) reads as rewritten:

"(4) Failure to Pay Tax When Due. – In the case of failure to pay any tax when due, without intent to evade the tax, the Secretary shall assess a penalty equal to ten percent (10%) of the tax, subject to a minimum of five dollars ($5.00). This penalty does not apply in any of the following circumstances:

a. When the amount of tax shown as due on an amended return is paid when the return is filed.

b. When the Secretary proposes an assessment for tax due but not shown on a return and the tax due is paid within 45 days after the later of the following:

1. The date of the notice of proposed assessment of the ~~tax.~~tax, if the taxpayer does not file a timely request for a Departmental review of the proposed assessment.

2. The date the proposed assessment becomes collectible under G.S. 105-241.22, if the taxpayer files a timely request for a Departmental review of the proposed assessment.

c. When a taxpayer files a consolidated return under G.S. 105-130.6 at the request of the Secretary and the tax due is paid within 45 days after the later of the following:

1. The date the consolidated return is filed, if the taxpayer does not file a timely request for a Departmental review of the tax.

2. The date the Departmental review of the tax ends as a result of the occurrence of one of the actions listed in G.S. 105-241.22(3) through (6), if the taxpayer files a timely request for a Departmental review."

SECTION 7.(b) G.S. 105-236(a)(5) is amended by adding a new sub-subdivision to read:

"(5) Negligence. –

...

f. Consolidated return. – The amount of tax shown as due on a consolidated return requested by the Secretary under G.S. 105-130.6 is not considered a deficiency and is not subject to this subdivision."

SECTION 7.(c) This section is effective when it becomes law and applies to penalties that are assessed and unpaid as of the effective date, penalties that are paid as of the effective date but are based on a tax that is the subject of an administrative or judicial action that is pending on the effective date, and penalties and taxes assessed on or after that date.

SECTION 8.(a) G.S. 105-241.9(c) is amended by adding a new subdivision to read:

"(c) Notice. – The Secretary must give a taxpayer written notice of a proposed assessment. The notice of a proposed assessment must contain the following information:

(1) The basis for the proposed assessment. The statement of the basis for the proposed assessment does not limit the Department from changing the basis.

(2) The amount of tax, interest, and penalties included in the proposed assessment. The amount for each of these must be stated separately.

(2a) The date a failure to pay penalty will apply to the proposed assessment if the proposed assessment is not paid by that date and the amount of the penalty. If the proposed assessment is not paid by the specified date, the failure to

pay penalty is considered to be assessed and applies to the proposed assessment without further notice.

(3) The circumstances under which the proposed assessment will become final and collectible."

SECTION 8.(b) G.S. 105-241.11 is amended by adding a new subsection to read:

"(c) FTP Penalty. – A request for a Departmental review of a proposed assessment is considered a request for a Departmental review of a failure to pay penalty that is based on the assessment. A taxpayer who does not request a Departmental review of a proposed assessment may not request a Departmental review of a failure to pay penalty that is based on the assessment."

SECTION 9. G.S. 105-241.16 reads as rewritten:

"**§ 105-241.16. Judicial review of decision after contested case hearing.**

A taxpayer aggrieved by the final decision in a contested case commenced at the Office of Administrative Hearings may seek judicial review of the decision in accordance with Article 4 of Chapter 150B of the General Statutes. Notwithstanding G.S. 150B-45, a petition for judicial review must be filed in the Superior Court of Wake County and in accordance with the procedures for a mandatory business case set forth in G.S. 7A-45.4(b) through (f). ~~A taxpayer who files~~ Before filing a petition for judicial ~~review~~ review, a taxpayer must pay the amount of tax, penalties, and interest the final decision states is due. A taxpayer may appeal a decision of the Business Court to the appellate division in accordance with G.S. 150B-52."

SECTION 10.(a) G.S. 105-263 reads as rewritten:

"**§ 105-263. ~~Extensions of time for filing a report or return.~~Timely filing of mailed documents and requests for extensions.**

(a) Mailed Document. – Section 7502 of the Code governs when a return, report, payment, or any other document that is mailed to the Department is timely filed.

(b) Extension. – The Secretary may extend the time in which a person must file a report or return with the Secretary. To obtain an extension of time for filing a report or return, a person must comply with any application requirement set by the Secretary. An extension of time for filing a franchise tax return or an income tax return does not extend the time for paying the tax due or the time when a penalty attaches for failure to pay the tax. An extension of time for filing a report or any return other than a franchise tax return or an income tax return extends the time for paying the tax due and the time when a penalty attaches for failure to pay the tax. When an extension of time for filing a report or return extends the time for paying the tax expected to be due with the report or return, interest, at the rate established pursuant to G.S. 105-241.21, accrues on the tax due from the original due date of the report or return to the date the tax is paid."

SECTION 10.(b) G.S. 105-241.11(b) reads as rewritten:

"(b) Filing. – A request for a Departmental review of a proposed denial of a refund or a proposed assessment is considered filed on the following dates:

(1) For a request that is delivered in person, the date it is delivered.

(2) For a request that is mailed, the date determined in accordance with G.S. 105-263.

(3) For a request ~~not delivered in person,~~ delivered by another method, the date the Department receives it."

SECTION 11. G.S. 105-259(b) is amended by adding a new subdivision to read:

"(b) Disclosure Prohibited. – An officer, an employee, or an agent of the State who has access to tax information in the course of service to or employment by the State may not disclose the information to any other person except as provided in this subsection. Standards used or to be used for the selection of returns for examination and data used or to be used for determining the standards may not be disclosed for any purpose. All other tax information may be disclosed only if the disclosure is made for one of the following purposes:

...

(40) To furnish a nonparticipating manufacturer, as defined in G.S. 66-292, the amount of the manufacturer's tobacco products that a taxpayer sells in this State and that the Secretary reports to the Attorney General under G.S. 105-113.4C."

SECTION 12. G.S. 105-466(c) reads as rewritten:

"(c) Collection of the tax, and liability therefor, must begin and continue only on and after the first day of ~~the month of either January or July,~~ a calendar quarter, as set by the board of county commissioners in the resolution levying the tax. In no event may the tax be imposed, or the tax rate changed, earlier than the first day of the second succeeding calendar month after the date of the adoption of the resolution. The county must give the Secretary at least ~~90~~60 days advance notice of a new tax levy or tax rate change. The applicability of a new tax or a tax rate change to purchases from printed catalogs becomes effective on the first day of a calendar quarter after a minimum of 120 days from the date the Secretary notifies the seller that receives orders by means of a catalog or similar publication of the new tax or tax rate change."

SECTION 13. Section 27A.3.(c) of S.L. 2009-451 is repealed.

SECTION 14. Reserved.

PROPERTY TAX CHANGES

SECTION 15. G.S. 105-275(29a) reads as rewritten:

"**§ 105-275. Property classified and excluded from the tax base.**

The following classes of property are designated special classes under Article V, Sec. 2(2), of the North Carolina Constitution and are excluded from tax:

...

(29a) Land that is within an historic district and is held by a nonprofit corporation organized for historic preservation purposes for use as a future site for an historic structure that is to be moved to the site from another location. Property may be classified under this subdivision for no more than five years. The taxes that would otherwise be due on land classified under this subdivision shall be a lien on the real property of the taxpayer as provided in G.S. 105-355(a). The taxes shall be carried forward in the records of the taxing unit or units as deferred taxes. The deferred taxes are due and payable in accordance with G.S. 105-277.1F when the property loses its eligibility for deferral as a result of a disqualifying event. The city and the county may enter into an increment agreement under which the city agrees that city taxes on part or all of the incremental valuation in the district shall be paid into the revenue increment fund for the district. SENATE BILL 1177:
Rev. Laws Technical & Admin. Changes

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	May 26, 2010
Introduced by:	Sen. Clodfelter	**Prepared by:**	Cindy Avrette
Analysis of:	PCS to First Edition S1177-CSRBx-75		Committee Counsel

SUMMARY: ***Senate Bill 1177[1] makes technical, clarifying, and administrative changes to various tax statutes and related laws. The summary below highlights the sections that have been added or changed by this PCS. The PCS also removed the property tax provision relating to property owned by a homeowners association.***

BILL ANALYSIS: Except as otherwise specified, the bill would become effective when it becomes law.

Section	Explanation
VARIOUS TAX LAW CHANGES	
1	Corrects a reference.
2	Corrects a statutory cite.
3	Conforms the definition of "political party" in Chapter 105 with the definition in Chapter 163. When the General Assembly enabled taxpayers to designate part of their tax refund to a political party, the definition of 'political party' in the tax statute conformed to the definition of 'political party' in Chapter 163. The General Assembly changed the definition of 'political party' in Chapter 163 in 2006, but failed to make a conforming change in Chapter 105. The two different definitions have led to confusion because the definition under Chapter 163 recognizes three political parties while the definition in the tax statutes recognizes only two political parties.
4	Allows a public library created by an act of the General Assembly a sales and use tax refund. Unlike other public libraries that are part of a city or county government, the Public Library of Charlotte and Mecklenburg County is a creature of law. The General Assembly chartered the library in 1903 as a body corporate. Other public libraries are allowed an annual sales and use tax refund as part of a unit of local government. This section adds public libraries created pursuant to an act of the General Assembly to the list of governmental entities allowed an annual refund. Prior to 2008, the Public Library applied for semi-annual sales and use tax refunds as a charitable entity under G.S. 105-164.14(b). The General Assembly clarified the charitable refund provision in 2008 as applying to 501(c)(3) organizations to limit the expansion of the provision by a Court of Appeals decision in *The Lynnwood Foundation v. N.C. Department of Revenue.* (S.L. 2008-107). The Public Library of Charlotte and Mecklenburg County is not organized as a 501(c)(3) entity. The section is effective July 1, 2008, and applies to purchases made on or after that date. The retroactive effective date refers to the date that the 2008 clarifying legislation became effective.
5	Consolidates two subsections into one because both subsections define the retail

[1] As introduced, this bill was identical to H1810, as introduced by Rep. Wainwright, which is currently in House Finance.

	value of a motor vehicle for purposes of the highway use tax.
6	Provides that a certificate of title issued as the result of a transfer to a revocable trust from an owner who is the sole beneficiary of the trust is exempt from the highway use tax. This transfer is essentially a transfer to the same owner. The current law currently exempts transfers to the same owner to reflect a name change.
7	Provides that a negligence penalty does not apply to a taxpayer when the taxpayer complies with the Secretary's request and files a consolidated return and that a failure to pay penalty does not apply to a taxpayer who has requested a hearing on the tax liability used as the basis for the penalty.
8	Clarifies that the federal mailbox rule governs when a document that is mailed to the Department of Revenue is timely filed. Under the federal mailbox rule, documents submitted by mail to the IRS are considered to be filed on the date shown on the postmark stamped by the USPS. Under current NC law, a notice of appeal submitted to the Property Tax Commission by mail is considered to be filed on the date shown on the postmark stamped by the USPS. However, in regards to other documents submitted to the Department, the issue is unclear. The statutes typically provide that a return or payment must be filed by a certain date or is due by a certain date. The Department has traditionally abided by the mailbox rule. As part of the Tax Appeals changes in 2007, G.S. 105-241.11 provides that requests for review of a denial of a refund or a proposed assessment are considered timely filed on the date the Department receives it. The Department believes the law is now unclear with regards to other filings. This section clarifies the law with respect to documents submitted by mail to the Department and it makes a conforming change to the Tax Appeals statute to remove any ambiguity.
9	Clarifies a disputed tax amount must be paid before seeking judicial review.
10	Consolidates two separate notices concerning taxes owed into one notice. The two notices are a notice of a proposed assessment of tax and a notice of a failure to pay penalty if the proposed assessment of tax is not paid within 45 days. Section 3(a) requires a notice of a proposed assessment of tax to inform the taxpayer that a failure to pay penalty will apply to the assessed tax if the assessment is not paid or protested within 45 days. This change streamlines the assessment process and eliminates the mailing costs for the current, separate notice of the failure to pay penalty. Section 3(b) clarifies that the protest of a proposed assessment applies to any failure to pay penalty imposed on the underlying assessment.
11	Enables nonparticipating manufacturers to have access to the information that is used to determine their escrow payments. Currently, when there is dispute about the volume of sales in this State, the nonparticipating manufacturers have no way to verify the sales.
12	Provides that a local sales tax rate may be changed on the first day of any calendar quarter so long as the county gives the Department of Revenue at least 60 days notice. The current law requires 90 days notice and provides that a tax rate change may only be made on the first day of either January or July. The General Assembly enacted the current provision in July 2000 as part of the Streamlined Sales Tax Agreement changes. The Agreement, subsequently enacted in January

	2001, provided for the quarterly dates and 60 days notice. This change will conform the local statutes to the SSTA.
13	Corrects an effective date error. Section 27A.3(b) of S.L. 2009-451 eliminated the delayed repeal of G.S. 105-269.14 which means that taxpayers will continue to pay use tax annually on the individual income tax return. Section 27A.3.(c) amended the effective date of the original legislation enacted in 2000. By amending the effective date, the change inadvertently triggered a retroactive application of the way individuals would be required to pay the use tax between July 14, 2000, and August 7, 2009. To correct this interpretation, this section repeals Section 27A.3.(c) of S.L. 2009-451, as suggested by the codifier of the General Statutes.
14	Reserved.
PROPERTY TAX CHANGES	
15	Clarifies that liens are extinguished when property is used for low or moderate income housing within allowed statutory time period.
16	Amends the definition of "disabled veteran" to include a veteran whose death was the result of a service-connected condition.
17	Clarifies that no deferred taxes are due and all liens are extinguished on historic properties when the historical significance of the property is lost or impaired due to fire or other natural causes.
18	Clarifies that liens are also extinguished when an historic structure is located on the sited within allowed statutory time period.
19	Removes the obsolete term "radio common carrier" from the definition of "public service company" in G.S. 105-333.
20	Adds a definition for "terminal facility" to G.S. 105-333.
21	Clarifies that the repeal of the builder's inventory property tax deferral does not affect the eligibility of certain property receiving the benefit.
22	Corrects an incorrect effective date for the combined motor vehicle system.
23-24	Reserved.
MOTOR FUEL TAX CHANGES	
25	Requires taxpayers who must file a return electronically to pay the tax by electronic funds transfer. Current law already requires electronic funds transfer of taxes due by corporations that must pay federal estimated tax by EFT, sales tax prepayments, utilities franchise tax payments, and taxpayers of motor fuel taxes and alternative fuel taxes. This section would expand the requirement to motor carriers and to kerosene suppliers under Article 3 of Chapter 119.
26	Changes the word "report" to "return" to more accurately reflect the type of document described.
27	Updates the reference to the International Fuel Tax Agreement.
28	Provides that a motor carrier who wants to register in North Carolina as its base state under IFTA must be incorporated in this State or authorized to transact business in this State.
29	Repeals some of the purposes for which a distributor may obtain a monthly refund

	for the motor fuel tax the distributor paid on kerosene used for a non-highway purpose. The end-user of the fuel may apply for an annual refund of the motor fuel tax paid on the kerosene under G.S. 105-449.197 if the end-user uses the kerosene for a non-highway purpose. In 1994, the federal government began requiring motor fuel to be dyed if it was non-tax-paid fuel. The dyed fuel indicates that the fuel is used for a nontaxable purpose under federal law and for a non-highway use in North Carolina. Dyed fuel is not subject to either the federal or State excise tax on motor fuel. Effective July 1, 1998, the federal government began requiring diesel fuel to be dyed. Kerosene is defined as diesel fuel. By requiring kerosene to be dyed, the federal government provided a way to purchase kerosene for non-highway uses, such as heating, without having to pay the motor fuel excise tax on the fuel. However, at the time, the public feared that dyed kerosene could not safely be used in kerosene heaters. When North Carolina conformed to the federal law in 1998, it enacted this refund provision.[2] The fear that dyed kerosene would be unsafe for heaters has not materialized and the refund provision at the distributor level is no longer necessary since retailers who wish to sell kerosene for non-highway uses may purchase and sell dyed kerosene. Specifically, this section repeals the refund provided to a distributor who sells kerosene to a retailer and dispenses the kerosene into a dispensing device that is kept locked by the retailer and must be unlocked by the retailer for each sale of kerosene. The distributor is liable for any overpayment of the refund, even if the overpayment is attributable to an act of the retailer. It also repeals the refund provided to a distributor who sells kerosene to an airport to be used only for fueling airplanes because no tax has been refunded for this purpose for at least the past four years. This section becomes effective January 1, 2011, and applies to sales of kerosene made by a distributor on or after that date.
30	Removes a miscellaneous word created by a redlining error.
31(a)	Provides a definition of taxicab that is substantially the same as the one that existed in G.S. 20-87(1), prior to repeal.
31(b)	Clarifies that the quarterly refund of motor fuel tax paid on fuel used to operate special mobile equipment is for the *non-highway* operation of the equipment and for equipment that is registered as SME under Chapter 20. This section becomes effective October 1, 2010, and applies to motor fuel purchased on or after that date.
32	Provides that applications for refunds must be filed in the form required by the Secretary. This change will allow for the electronic filing of refund applications.
33-34	Reserved.
OTHER RELATED LAW CHANGES	
35	Corrects a statutory reference.

[2]S.L. 1994-726 and S.L. 1998-146.

36(a)	Conforms the due date for filing annual reports to the due date for filing corporate income tax returns. In 1997, at the recommendation of the General Statutes Commission, the General Assembly set the due date for corporate annual reports at the due date for filing tax returns.[3] The change was designed to make the filing of annual reports easier: the report could be made to one agency, the Department of Revenue, at a more familiar deadline date with the corporation's tax return. In 2007, the General Assembly changed the date a corporate tax return is due to be filed from the 15th day of the third month following the close of the corporation's fiscal year to the 15th day of the fourth month.[4] However, a conforming change was not made to the annual report filing statute. The lack of uniformity has caused confusion. This subsection makes the necessary conforming change.
36(b)	Provides that the first annual report required to be filed by a LLC is due by April 15th of the year *following* the calendar year in which the company files its articles of organization and that the annual report must specify the year to which the report applies. Prior to 2002, the annual report for a LLC was due by the 15th day of the fourth month following the close of the company's fiscal year. S.L. 2001-387, Section 59A, changed the filing date to April 15th. In March 2009, the Secretary of State's Office mailed 270,000 notices to businesses stating they were late in filing their annual reports. Failure to file an annual report is grounds for administrative dissolution for both business corporations and LLCs. The Secretary of State found that many businesses thought their first annual reports were due the year after their formation.[5] The Secretary of State informed the businesses that the first annual report is due on April 15th, regardless of when the business is formed. Also, the practice of the Secretary of State's Office is to credit an annual report that it receives to the oldest year in which an annual report is due and owing.
36(c)	Responds to the March 2009 mailing from the Secretary of State's Office by eliminating the need for a LLC formed after September 1, 2001, to file an annual report for the calendar year in which it was formed. This subsection provides that a LLC that has filed an annual report for each calendar year after the calendar year in which it was formed is not required to file any additional reports. The subsection also provides that a LLC may not ask for a refund of an annual report filing fee paid for an unnecessary report, but the LLC will also not be required to pay the filing fee for its 2011 annual report.
37	Corrects a drafting error in S.L. 2009-520. This section becomes effective July 1, 2010; the same date S.L. 2009-520 becomes effective.
38	Clarifies reference to tax imposed on manufacturing fuel.
39	Removes a duplicate subsection header.
40	Corrects an incorrect statutory reference.
41	Repeals a redundant statute. S.L. 2009-527 adjusted the local vehicle registration fee that may be imposed by a transit authority. The subsection being repealed not only conflicted with the 2009 law change but also became unnecessary in light of

[3] S.L. 1997-475, section 6.1.
[4] S.L. 2007-491, section 14.
S.L. 2001-387, section 59A.

	the 2009 law change.
42	S.L. 2009-451 repealed the repeal of a statute inadvertently reviving the provision. Clarifies the repeal of the original provision.
43-44	Reserved.
EFFECTIVE DATE	
45	Except as otherwise noted, this act is effective when it becomes law.

SENATE BILL 1212:
Local Gov't. Other Post-Employment Benefits

2009-2010 General Assembly

SUMMARY: Senate Bill 1212 modifies a law enacted in 2007 to allow local governments to invest moneys set aside to fund post-employment benefits in equity securities through the State Treasurer so that the financial disclosure obligations of the fund remain with the local government.

CURRENT LAW: In 2007, the General Assembly established the Local Government Other Post-Employment Benefits (OPEB) Fund to allow local government units access to equity markets as an investment vehicle for moneys set aside to fund post employment benefits provided to their employees. To participate in the Fund, a local government unit must create an irrevocable trust. The local unit may make irrevocable contributions from the trust to the Fund. The State Treasurer may invest monies in the Fund in preferred or common stock to the same extent as is allowed for the State Retirement System.

Recently, upon guidance given to the State Treasurer's Office from the Governmental Auditing Standards Board, it has been determined that the OPED Fund is an OPEB plan operating at the State level. This determination means the Treasurer will have to make financial disclosures concerning the fund. It also means that each local unit participating in the fund must utilize the same actuarial study date cycle and that all units' financial information pertinent to OPED must be compiled by August 31st of each fiscal year.

BILL ANALYSIS: The intent of the 2007 legislation was not to create a state-level OPED plan. As originally envisioned, the irrevocable trust was to exist at the local level and the fund created at the State level was to be only an investment vehicle managed by the Department of the State Treasurer.

Senate Bill 1212 would restructure the OPED fund so that each local government unit will be able to establish a separate OPED irrevocable trust, which will maintain the overall financial disclosure obligations with each local unit participant. The funds from the trust may continue to be invested by the State Treasurer in public equities through a collective or common trust.

EFFECTIVE DATE: The bill becomes July 1, 2010.

Bill Description

This legislation modifies the statute that established the Local Government Other Post-Employment Benefits (OPEB) fund. As modified, the statute will allow each unit of local government to establish a separate OPEB trust fund that may then be invested by the Department of State Treasurer.

Background/Issues

The OPEB irrevocable trust was established to allow local government units access to equity markets as an investment vehicle for moneys set aside to fund post employment benefits provided to their employees. As originally envisioned, the irrevocable trust was to exist at the local level and the fund created at the State level was to be only an investment vehicle managed by the Department of State Treasurer.

Given recently available guidance from the Governmental Auditing Standards Board, it was determined that the OPEB Irrevocable Trust Fund was in fact an OPEB plan operating at the State level. This determination means that the Treasurer will have to make burdensome financial disclosures regarding the fund. It also means that each local unit participating in the fund must utilize the same actuarial study date cycle, and all units' financial information pertinent to OPEB must be compiled by August 31st of each fiscal year. The intent of the enabling legislation was to create an investment vehicle for local units to use as a way to better fund their individual plans. There was never the intent to create a state-level OPEB plan.

Goal

The minimal statutory changes being sought will restructure the OPEB fund so that each local government unit will be able to establish a separate OPEB irrevocable trust, which will maintain the overall financial disclosure obligations with each local unit participant. This would be in accord with the original intent of the program. It would also allow funds to remain invested by the Department of State Treasurer in public equities through a collective or common trust.

A BILL TO BE ENTITLED

AN ACT TO CREATE JOBS AND MAKE NORTH CAROLINA MORE COMPETITIVE GLOBALLY BY FINANCING THE BUILDING OF ENGINEERING EDUCATION FACILITIES, THE ENHANCEMENT AND REPAIR OF STATE ASSETS AND COMMUNITY COLLEGE ASSETS, AND INVESTMENT IN RESEARCH AND JOB TRAINING EQUIPMENT AT UNIVERSITIES AND COMMUNITY COLLEGES.

Whereas, the State of North Carolina has always prioritized higher education, from the founding of the nation's first public university in 1793 until today, when both our public university system and community college system are regarded as among the best in America; and

Whereas, the North Carolina Community College System, one of the largest community college systems in the nation, plays a critical role in training our State's educated workforce and in helping nearly 900,000 North Carolinians enhance their job skills; and

Whereas, employers across the State and country understand the importance of higher education in supporting business workforce needs and in preparing tomorrow's workers, leaders, and innovators for success and achievement; and

Whereas, key achievements in North Carolina's history are based on innovation and science, including the Wright Brothers' historic flight at Kitty Hawk, the establishment of the Research Triangle Park, and the State's first Nobel Prize winner in medicine; and

Whereas, as the economy becomes more global in nature, North Carolina is increasingly competing with other countries for economic success – particularly in the fields of science, health and medicine, engineering, technology, and innovation; and

Whereas, the engineering profession has a notable economic impact on our State, with high-paying jobs that are critical to the growth and future success of North Carolina; and

Whereas, the Colleges of Engineering at North Carolina State University and North Carolina Agricultural and Technical State University both have received significant federal funding and recognition for their research, which has led to additional economic benefits in our State; and

Whereas, investing in new engineering facilities on these campuses will better position North Carolina for the future as the nation's economy moves toward recovery; and

Whereas, investing in new research and training equipment at our universities and community colleges will enhance educational opportunities for students in the fields of health and medicine, science, technology, engineering, and computer science; and

Whereas, North Carolina is able to make these investments while still remaining under the debt affordability guidelines set forth in the Debt Affordability Study due to the

General Assembly's longtime practice of conservative and responsible borrowing, resulting in favorable comparisons to other AAA-rated states in terms of debt ratios and payback; and

Whereas, making these investments now would have short-term benefits by taking advantage of low costs in the current construction market and creating immediate economic activity in construction-related industries, and also would have long-term benefits in strengthening North Carolina's ability to educate, produce, and innovate; Now, therefore,

The General Assembly of North Carolina enacts:

SECTION 1. The State, with the prior approval of the State Treasurer and the Council of State, as provided in Article 9 of Chapter 142 of the General Statutes, is authorized to issue or incur special indebtedness in order to provide funds to the State to be used, together with other available funds, to pay the capital facility costs of the projects described in this section. In accordance with G.S. 142-83, this section authorizes the issuance or incurrence of special indebtedness:

(1) In the maximum aggregate principal amount of one hundred thirty million dollars ($130,000,000) to finance the capital facility costs of repairing and renovating State facilities and related infrastructure, to be allocated by the General Assembly.

(2) In the maximum aggregate principal amount of fifty-five million dollars ($55,000,000) to finance the capital facility costs of acquiring equipment and completing related capital improvements as provided in Subsection 3(b) of this act for use by The University of North Carolina System and the North Carolina Community College System.

(3) In the maximum aggregate principal amount of one hundred four million three hundred seventy-four thousand dollars ($104,374,000) to finance the capital facility costs of completing the College of Engineering building and related site work, land acquisition, and infrastructure at North Carolina Agricultural and Technical State University. No more than a maximum aggregate amount of twenty million dollars ($20,000,000) of special indebtedness may be issued or incurred under this subdivision prior to July 1, 2011.

(4) In the maximum aggregate principal amount of one hundred sixty-one million four hundred sixty-two thousand one hundred seventy-five dollars ($161,462,175) to finance the capital facility costs of completing an Engineering IV building and related site work and infrastructure on the Centennial Campus of North Carolina State University. No more than a maximum aggregate amount of twenty million dollars ($20,000,000) of special indebtedness may be issued or incurred under this subdivision prior to July 1, 2011.

SECTION 2. Unless the Current Operations and Capital Improvements Appropriations Act of 2010, in its allocation of funds in the Reserve for Repairs and Renovations for the 2010-2011 fiscal year, provides for a different allocation of proceeds of special indebtedness issued or incurred pursuant to subdivision (1) of Section 1 of this act, such proceeds shall be allocated fifty-four percent (54%) to the Board of Governors of The University of North Carolina for repairs and renovations pursuant to G.S. 143C-4-3, in accordance with guidelines developed in The University of North Carolina Funding Allocation Model for Reserve for Repairs and Renovations, as approved by the Board of Governors of the University of North Carolina, and forty-six percent (46%) shall be allocated to the Office of State Budget and Management for repairs and renovations pursuant to G.S. 143C-4-3. If the proceeds of special indebtedness are allocated to the Board of Governors and the Office of State Budget and Management for repairs and renovations pursuant to this act, this act constitutes the act of appropriation by the General Assembly for purposes of G.S. 143C-4-3(c).

Notwithstanding G.S. 143C-4-3, the Board of Governors may allocate funds for the repair and renovation of facilities not supported from the General Fund if the Board determines that sufficient funds are not available from other sources and that conditions warrant General Fund assistance. Any such finding shall be included in the Board's submission to the Joint Legislative Commission on Governmental Operations on the proposed allocation of funds.

The Board of Governors and the Office of State Budget and Management shall consult with the Joint Legislative Commission on Governmental Operations prior to the allocation or reallocation of these funds.

SECTION 3.(a) Of the proceeds of special indebtedness issued or incurred pursuant to subdivision (2) of Section 1 of this act, forty percent (40%) shall be allocated to the Board of Governors of The University of North Carolina and sixty percent (60%) shall be allocated to the State Board of Community Colleges. These funds shall be used by those institutions to purchase equipment for constituent institutions of The University of North Carolina and individual community colleges to be used for teaching and research in the fields of health, science, engineering, and technical education.

SECTION 3.(b) Funds allocated to the State Board of Community Colleges pursuant to subsection (a) of this section may also be used to make capital improvements to existing facilities that are necessary in order to use the equipment purchased pursuant to that subsection. Notwithstanding any other provision of law, community colleges are not required to match allocations made pursuant to this section. For purposes of this subsection, it is not sufficient that a capital improvement would facilitate the use of purchased equipment. The only capital improvements authorized by this subsection are those without which purchased equipment could not be effectively utilized.

SECTION 3.(c) The Board of Governors and the State Board of Community Colleges shall report to the Joint Legislative Commission on Governmental Operations on the allocation or reallocation of funds expended pursuant to this section.

SECTION 4. In addition to any other funds in the Reserve for Repairs and Renovations for the 2010-2011 fiscal year, the proceeds of any bonds and notes issued pursuant to subdivision (1) of Section 1 of this act are transferred to that Reserve.

SECTION 5. The Secretary of Administration is directed to develop a price-matching preference for North Carolina bidders on contracts for projects financed by this act so that qualified North Carolina companies whose bid is within five percent (5%) of the lowest bid may be awarded the contract.

SECTION 6. This act is effective when it becomes law.

SENATE BILL 1378:
Build North Carolina's Future Act

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	June 1, 2010
Introduced by:	Sen. Foriest	**Prepared by:**	Cindy Avrette Committee Counsel
Analysis of:	PCS to First Edition S1378-CSRBx-80		

SUMMARY: ***Senate Bill 1378 would authorize the issuance of $450,836,175 of special indebtedness for the following:***

- ***Repair and renovation of State facilities and related infrastructure. Of this amount, 56% is allocated to the Board of Governors of The University of North Carolina and 46% is allocated to the Office of State Budget and Management. ($130,000,000)***
- ***Equipment purchases. Of this amount 40% is allocated to the Board of Governors of The University of North Carolina and 60% is allocated to the State Board of Community Colleges.***
- ***The construction of two engineering facilities, one at NC A&T and one at NCSU. Of the amounts allocated for these facilities, no more than $40,000,000 of special indebtedness may be issued or incurred prior to July 1, 2011.***

The proposed committee substitute makes technical and clarifying changes on page 2, lines 22 and 28. It changes the reporting requirement to a simple report of the expenditure of funds, rather than a consultation prior to the expenditure of funds, for the proceeds allocated for equipment needs. And lastly, it directs the Secretary of Administration to develop a price-matching preference for projects funded by these bond proceeds, similar to Executive Order 50.

CURRENT LAW: Commonly referred to as "certificates of participation," special indebtedness is nonvoted debt that is typically secured only by an interest in State property being acquired or improved. The term "special indebtedness" covers the various forms this type of debt can take: installment purchase (with or without certificates of participation), lease-purchase (with or without certificates of participation), and bonds.

The particular form of special indebtedness to be used for a given project will depend on its size, the nature of the property and the improvement, and other circumstances. Based on these circumstances, one form or another of special indebtedness may be the least expensive and most practical for the State to utilize. Article 9 of Chapter 142 of the General Statutes prohibits the issuance of special indebtedness except for projects specifically authorized by the General Assembly.

Before any type of special indebtedness may be issued or incurred, the State Treasurer must certify that debt financing may be desirable for a specific project presented to it by the Department of Administration. Next, the Council of State must give preliminary approval. If preliminary approval is obtained, the Council of State must give final approval, setting out details such as the maximum amount to be financed, the maximum maturity, and the maximum interest rates. The maximum maturity may not exceed 40 years. The State Treasurer must approve the details of the financing, finding that the amount to be borrowed is adequate and not excessive and will not require an excessive increase in any State revenues to provide for repayment, and that the special indebtedness can be incurred or issued on terms favorable to the State. Finally, the State Treasurer must report to the Joint Legislative Commission on Governmental Operations at least five days before any special indebtedness is issued or incurred.

BILL ANALYSIS: Senate Bill 1378 would authorize the issuance of up to $130,000,000 of special indebtedness to finance the capital facility costs of repairing and renovating State facilities and related infrastructure. The Senate budget did not transfer any funds to the Repairs and Renovations Reserve Account. Of this amount, 54% is allocated to The University of North Carolina and 46% is allocated to the Office of State Budget and Management. The General Assembly has used bond proceeds to fund repairs and renovations on at least two other occasions.[1]

The bill would authorize the issuance of up to $55,000,000 of special indebtedness to finance the capital facility costs of acquiring equipment for use by The University of North Carolina System and the North Carolina Community College System (NCCCS). Of this amount, 40% is allocated to the University System and 60% is allocated to the Community College System. Colleges face two competing pressures when it comes to equipment needs: replacing obsolete equipment and adding new equipment.

The current equipment budget for the NCCCS allows the 58 campuses to replace equipment about once every nine years. The goal of the NCCCS is to replace equipment approximately once every six years. To meet this goal, it would need $65.2 million and a recurring increase of $21.9 million. This provision would also allow the NCCCS to make any necessary building renovations necessary to use the new equipment.

The bill would authorize the issuance of up to $104,374,000 to finance the capital facility costs of completing the college of Engineering building at NC A&T University. No more than $20,000,000 of special indebtedness may be issued or incurred prior to July 1, 2011. This building is the number one priority of NC A&T in its 2009-11 Capital Needs Plan.

Lastly, the bill would authorize the issuance of up to $161,462,175 to finance the capital facility costs of completing an Engineering IV building on the Centennial Campus of NCSU. No more than $20,000,000 of special indebtedness may be issued or incurred prior to July 1, 2011. This project would complete the final phase of the Engineering Complex and provide space for the relocation of the departments of Industrial Engineering, Civil Engineering, Nuclear Engineering, and the College of Engineering Administration to Centennial Campus.

The PCS for Senate Bill 1378 directs the Secretary of Administration to develop a price-matching policy similar to the one authorized by the Governor in Executive Order 50 for the purchase of goods. Under Section 5 of the PCS, a North Carolina bidder on a contract for a project financed by this act whose bid is within five percent (5%) of the lowest bid of an out-of-state bidder would be allowed to match the lower bid and receive the contract.

EFFECTIVE DATE: This bill would become effective when it become law.

BILL SUMMARY: Senate Bill 1378 authorizes $450,836,175 of special indebtedness, pursuant to Article 9, Chapter 142 of the General Statutes. The Bill authorizes the proceeds of the bonds to be allocated to the Reserve for Repairs and Renovations, equipment purchases at the University of North Carolina and the North Carolina Community College System, building the College of Engineering Building at North Carolina Agricultural and Technical State University, and building Engineering Building IV at North Carolina State University.

Section 1.(a): Authorizes the issuance of special indebtedness pursuant to Article 9 of Chapter 142 of the General Statutes (State Capital Facilities Finance Act). The specific projects and special indebtedness authorizations are detailed in the table below:

Table 1: Debt Authorization by Project

Project	FY 2010-11	FY 2011-12	Total Authorization
Reserve for Repairs and Renovation	$130,000,000	$0	$130,000,000
Equipment Purchases	$55,000,000	$0	$55,000,000
North Carolina Agricultural and Technical State University College of Engineering Building	$20,000,000	$84,374,000	$104,374,000
North Carolina State University Engineering Building IV	$20,000,000	$141,462,175	$161,462,175
Total	$225,000,000	$225,836,175	$450,836,175

Section 1.(b): Allocates the funds for the Reserve for Repairs and Renovations to the Board of Governors of the University of North Carolina and the Office of State Budget and Management. Of the total amount authorized, the campuses of the University of North Carolina will receive 54% or $70,200,000 and the Office of State Management and Budget will receive 46% or $59,800,000 to be allocated among state facilities and related infrastructure that is supported by the general fund. The allowable uses of Reserve Funds are delineated in G.S. 143C-4-3.

Section 2.(a). Allocates proceeds authorized for equipment purchases to the Board of Governors of the University of North Carolina and the State Board of the Community College System. Of the

total amount authorized, the University of North Carolina will receive 40% or $22,000,000 and the State Board of the Community College System will receive 60% or $33,000,000. The equipment to be purchased is limited to that which is to be used for teaching and research in the fields of health, science, engineering, and technology. The individual Community College Campuses are not required to match any funds for the purchase of equipment, as required by G.S. 115(D)-31(a)1 or any other provision in law.

Section 2.(b): Allows the State Board of Community Colleges to utilize a portion of the funds authorized for equipment purchases for capital improvements to existing facilities. The only improvements allowed are those, without which the equipment would be inoperable.

Section 3: Transfers funds allocated in Section 1(a) to the Reserve for Repair and Renovations, in addition to any other funds allocated to the Reserve in FY 2011-12.

ASSUMPTIONS AND METHODOLOGY:

Debt Service Impacts: Annual debt service payment impacts of the Bill were provided by the North Carolina Department of State Treasurer. At the beginning of FY 2010-11, $225,000,000 of the authorized special indebtedness is assumed to be issued. At the beginning of FY 2011-12, $225,836,175 of the authorized special indebtedness is assumed to be issued. The assumed interest rate is 6.00%. The following table provides the General Fund impact for debt service payments.

Reserve for Repair and Renovations: No estimate exists for expenditure impacts related to allocations from the Reserve for Repair and Renovations. Currently, the specific projects to be funded from this reserve are unknown, as the Board of Governors at the University of North Carolina and the Office of State Management and Budget will determine the recipients of funding, should the Bill become law. It is possible that some savings could result from repair and renovation projects, as buildings could become more efficient.

Equipment Purchases: No estimate exists for expenditures related for equipment purchases at either the Community College System or the University of North Carolina. It is possible that the acquisition of certain equipment could lead to operating expenditures, such as increased utility expenditures, increased software expenditures, and training expenditures. However, the exact equipment to be purchased is unknown, and will be determined by the Board of Governors at the University of North Carolina and the State Board of the Community College System.

NC Agriculture and Technical State University New College of Engineering: The New College of Engineering Building will replace the McNair Building. The total size of the building will be no more than 240,000 gross square feet. The new building is not expected to come online

until December 2013. NC A&T provided estimated additional General Fund operating budget expenditures as a result the new building.

NC State University Engineering Building IV: Engineering Building IV will create a new engineering building on NC State's Centennial Campus and build related infrastructure to service the building. The building will house NC State's Departments of Industrial and Systems Engineering, College of Engineering Administration, and a Data Center. The building will serve as a replacement to Page Hall. The total building size will be no more than 258,000 gross square feet. The new building is not expected to come online on April 1, 2014. The related infrastructure at the building will be completed a year sooner and will result in increased maintenance costs. NC State provided the estimated additional General Fund expenditures.

Catawba Valley Community College: Equipment Needs 2010

With 5,400 full-time equivalent (FTE) students and enrollment growth of more than 17 percent over this past year, Catawba Valley is stretching every equipment dollar to meet the needs of new educational and training programs, to update technology in high-demand sectors and to fulfill the equipment needs of new students. CVCC has immediate equipment demands of more than twice its current annual equipment allotment of $836,000. When escalating enrollments collide with the high-tech training needs of business and industry, how do our community colleges like CVCC choose?

In-Demand New Programs Demand New Equipment

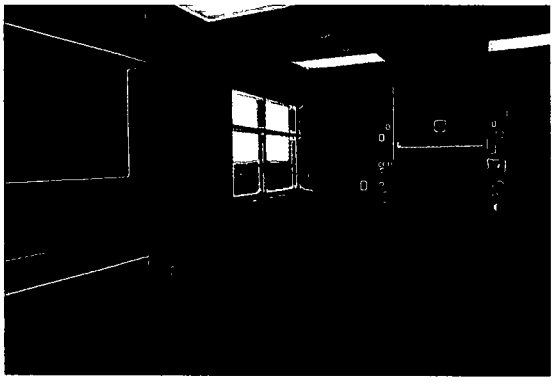
The demand for healthcare education is skyrocketing across the state and nation. CVCC restructured low-demand educational areas to offset the high cost of healthcare programs and built the largest simulated hospital on the East Coast. One problem: it will cost $1.2 million to fully equip the facility which is more than 1.5 times CVCC's annual equipment allotment. CVCC has more than 1,000 students waiting to get into healthcare programs with other area community colleges experiencing similar demand. This simulated hospital could help alleviate the "clinical crunch" that has restricted much of the potential growth in healthcare education for CVCC and other regional community colleges. However, the cost for just one simulated "patient" is at least $60,000.

Replacing Outdated Equipment

With current equipment funding, NC Community Colleges can only replace equipment every nine years and only then if it could be purchased at the original price. CVCC is already two cycles behind on computer replacements meaning students, faculty and staff are learning and working on low-performing, outdated technology. In several critical employment areas such as machining, automotive and welding, the students are being taught on what industry would call antiquated equipment which is difficult to repair when it breaks down. New high-skilled jobs in CVCC's region are calling for robotics and mechatronics training for their future employees. Just one piece of equipment to begin, not sustain, this program costs $35,000.

Growing Enrollments Mean Growing Equipment Needs

Often when people think of growing enrollment, they think of classrooms, seats and desks, but what about the computers, labs and training equipment that these students need daily to fulfill their educational goals? CVCC has increased its student body by 855 FTE students (18.7 percent) in the last two years while their annual equipment funding has decreased by 7.7 percent. **With historic enrollment growth, community colleges are forced to choose between beginning and equipping new programs, replacing outdated equipment in current programs or supplying the needs of new students. Whatever they choose, North Carolina's workforce development loses.**



An ICU room at CVCC's Regional Simulated Hospital is awaiting equipment to replicate an ICU wing of a hospital.

A BILL TO BE ENTITLED

AN ACT TO DIRECT THE REVENUE LAWS STUDY COMMITTEE TO CONTINUE ITS REVIEW OF LOCAL GOVERNMENT OWNED AND OPERATED COMMUNICATION SYSTEMS AND TO TEMPORARILY LIMIT THE FINANCING OPTIONS FOR THESE SYSTEMS.

The General Assembly of North Carolina enacts:

SECTION 1. Communication system. – As used in this act, the term "communication system" means a system that provides high-speed broadband Internet access service or other Internet access service, cable service, telecommunications service, video programming service, or a combination of these services. The terms "cable service," "telecommunications service," and "video programming service" have the same meanings as in G.S. 105-164.3.

SECTION 2.(a) Study. – The Revenue Laws Study Committee is directed to continue its study begun in 2009 of local government owned and operated communication systems and to report its findings and any recommended legislation on this subject to the 2011 General Assembly by March 1, 2011. As part of its study, the Committee shall determine the following:

(1) The extent to which current law authorizes units of local government to offer communication services not traditionally thought of as cable television services.

(2) The requirements and standards that should apply to a unit of local government and to a private provider when the local unit offers a communication service that is offered by a private provider.

(3) Whether varying or different provisions are needed to accommodate communication systems placed in service by cities before the effective date of this act.

(4) Policies and incentives that can be established to facilitate the offering and expansion of communication service by both public and private service providers, including public-private ventures and other opportunities.

SECTION 2.(b) Membership. – In conducting the study described in subsection (a) of this section, the Revenue Laws Study Committee cochairs are authorized to appoint an advisory subcommittee and to ask the Local Government Commission to designate an individual to participate in the subcommittee's deliberations in an ex-officio, nonvoting capacity. The subcommittee may consist of no more than 12 members and may include

individuals who are not members of the Committee or of the General Assembly, eight of whom represent the following interests:

(1) A cable service provider.
(2) A wireless telecommunications service provider.
(3) A local exchange provider that is not a wireless telecommunications service provider.
(4) A local exchange provider that is a wireless telecommunications service provider.
(5) A city that operates a cable system and an electric power system as a public enterprise.
(6) A city that operates a cable system as a public enterprise and does not operate an electric power system as a public enterprise.
(7) A city that is a member of a joint agency established under G.S. 160A-462 for the operation of a cable system as a public enterprise.
(8) The North Carolina League of Municipalities.

SECTION 3.(a) Interim Financing Provisions. – The Local Government Commission may not approve an application for financing under G.S. 160A-20 or G.S. 160A-466 by a unit of local government or a joint agency for a communication system that provides consumer Internet service at retail until the date a bill recommended to the 2011 regular session of the 2011 General Assembly by the Revenue Laws Study Committee as a result of the study directed by Section 2 of this act becomes law or, if a bill is not recommended by that Committee or is not enacted, until the adjournment of the 2011 regular session of the 2011 General Assembly. Consumer Internet service at retail does not include systems and services provided by a unit of local government only for its own use or, pursuant to an interlocal or service agreement, for use by other units or agencies of government.

The prohibition in this section does not apply to an application submitted by any of the following:

(1) A unit of local government or a joint agency that, as of June 1, 2010, had previously entered into a contract under G.S. 160A-20 or G.S. 160A-466 to finance a communication system that provides consumer Internet service at retail.
(2) A unit of local government that meets all of the following requirements:
   a. As of June 1, 2010, has contracted with an outside party for a high-speed broadband Internet feasibility study. A high-speed broadband Internet feasibility study is a study that addresses the potential market for a publicly owned consumer Internet service at retail, explores a system design and deployment strategy for various models and levels of service, or identifies the investments in property and equipment necessary to develop a system under various models and levels of service.
   b. On or before December 1, 2010, has taken formal action, as reflected in the minutes of the city council's meetings, to instruct city staff to file an application with the Local Government Commission to approve a contract by the city to finance a communication system that provides consumer Internet service at retail.
(3) The recipient of a federal grant, if the recipient stated in its grant application that it would provide any matching funds required as a condition of receiving the grant through financing under G.S. 160A-20.
(4) A unit of local government chosen by Google for its Fiber Project, if the financing is needed to qualify as the Fiber Project.

SECTION 3.(b) Interim Notice Requirements. A unit of local government that plans to submit an application to the Local Government Commission during the period the

prohibition in subsection (a) of this section is in effect and whose application is eligible for approval during this period because of the exclusion in subdivision (2) of that subsection must hold a public hearing on the proposed application and must send written notice to each person that provides consumer Internet service at retail within the unit of its intent to submit an application. The notice must be sent at least 15 days before the date of a public hearing held on the proposal. If the unit submits an application to the Local Government Commission after the public hearing, the Local Government Commission must accept written and oral comments from the providers the unit is required to notify under this subsection.

SECTION 3.(c) New Requirements Apply. A unit of local government whose application to the Local Government Commission is approved under subdivision (a)(2) of this section will be fully subject to the requirements of any bill enacted by the 2011 regular session of the 2011 General Assembly upon the recommendation of the Revenue Laws Study Committee as a result of the study directed by Section 2 of this act.

SECTION 4. This act is effective when it becomes law.

SENATE BILL 1209:
Study Competing Systems/Interim Debt.

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	May 25, 2010
Introduced by:	Sen. Hoyle	**Prepared by:**	Heather Fennell
Analysis of:	PCS to First Edition S1209-CSTDx-83		Committee Counsel

SUMMARY: ***The proposed committee substitute to Senate Bill 1209 authorizes the Revenue Laws Study Committee to appoint an advisory subcommittee to study local government owned and operated communication services such as a cable system or a system that provides internet access service, and provides interim financing provisions for these systems.***

CURRENT LAW: Under G.S. 160A-311, cities are authorized to operate and finance a number of public enterprises, including cable television systems. A North Carolina Court of Appeals case, *BellSouth Telecommunications, Inc. v. City of Laurinburg, 168 N.C. App. 75, 606 S.E. 2d 721 (2005),* interprets the statutory authority to operate a cable television system to include operation of a fiber optic network. Morganton (CoMPAS Cable TV), Wilson (Greenlight), and Mooresville and Davidson (MiConnection) currently offer cable and internet service as a public enterprise. Salisbury is currently constructing a system to provide these services.

The cities that currently operate cable and internet systems financed their systems through the installment purchase contract method authorized by G.S. 160A-20. This financing mechanism, commonly known as certificates of participation, was not authorized when cities were given the authority to operate a cable system as a public enterprise. Under this financing method, a city enters into an installment contract secured by a security interest in the system that is constructed. Unlike the issuance of general obligation bonds, installment purchase financing is not subject to a vote of the people. A certificate of participation is a document setting out the share of the city's debt that is owed to the holder of the certificate. In practice, the holder receives interest and principal payments in a manner similar to interest and principal payments on a bond issued by the borrowing unit. The Local Government Commission must approve a local unit's use of certificates of participation and the unit must give notice and hold a public hearing before it can enter into certificates of participation.

BILL ANALYSIS: The PCS to Senate Bill 1209 directs Revenue Laws to study local government owned and operated communication systems including the extent to which current law authorizes local governments to offer communications systems, the requirements and standards that should be applied to a local government offering a communication system, whether varying provisions are need to accommodate communications systems placed in service before the effective date of this act, and policies and incentives to facilitate the offering of communications services. The cochairs of Revenue Laws are authorized to appoint an advisory subcommittee comprised of private communications providers, local government communication providers, members of the General Assembly, and a designee of the Local Government Commission to participate in an ex-officio, nonvoting capacity.

Section 3 of the bill prohibits the Local Government Commission from approving applications to finance communications systems under G.S. 160A-20 or G.S. 160A-466 unless certain exceptions apply. The moratorium expires the later of enactment of a bill recommended by Revenue Laws under the study directed in this bill, or the end of the 2011 regular session if no bill is recommended or enacted. The moratorium does not apply to local governments or joint agencies that currently offer a retail communication system financed under G.S. 160A-20 or G.S. 160A-466, units that are in the process of

conducting a high-speed broadband Internet feasibility study, recipients of federal grants with matching requirements where the grant application specified the match would be involve financing under G.S. 160A-20, or local governments selected by Google for its Fiber Project.

Units eligible to submit applications for financing during this interim period as units that are in the process of conducting a high-speed broadband Internet feasibility study, must hold a public hearing and provide written notice to other providers of consumer Internet service at least 15 days before the public hearing. If the unit submits an application to the Local Government Commission, the LGC must accept written or oral comments from providers the unit is required to notify. Units eligible to submit applications for financing during this interim period as units that are in the process of conducting a high-speed broadband Internet feasibility study will be fully subject to the requirements of any bill enacted upon the recommendation of the Revenue Laws Study Committee as a result of the study in this act.

EFFECTIVE DATE: This bill is effective when it becomes law.

A BILL TO BE ENTITLED

AN ACT TO ENSURE THAT A LOCAL GOVERNMENT THAT COMPETES WITH PRIVATE COMPANIES IN PROVIDING COMMUNICATION SERVICES HAS THE SUPPORT OF ITS CITIZENS IN FINANCING THOSE SERVICES AND TO CONTINUE THE REVENUE LAWS STUDY COMMITTEE'S REVIEW OF THE TAX AND ECONOMIC DEVELOPMENT IMPACTS OF LOCAL GOVERNMENT OWNED AND OPERATED COMMUNICATION SERVICES.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 160A-20 is amended by adding a new subsection to read:

"(e2) Communication System. – This section does not apply to an external communication system. A unit of local government may not enter into a contract under this section to purchase, or finance or refinance the purchase of, property for use in an external communication system or to finance or refinance the construction or repair of fixtures or improvements for use in an external communication system. A communication system is a system that provides broadband service or other Internet access service, cable service, telecommunications service, video programming service, or a combination of these services. The terms "cable service," "telecommunications service," and "video programming service" have the same meanings as in G.S. 105-164.3. A communication system is external if it provides services to a person who is not a unit of local government or a part of that unit."

Sections 7.1 and 7.2 of Chapter 574 of the 2009 Session Laws authorize the Revenue Laws Study Committee to study local government owned and operated communication services and to report its findings to the 2010 Session of the 2009 General Assembly. The Revenue Laws Study Committee may continue the study authorized by those sections and may report its findings and any recommended legislation to the 2011 General Assembly.

SENATE BILL 1298:
Town of Pembroke Occupancy Tax

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	June 1, 2010
Introduced by:	Sen. Walters	**Prepared by:**	Cindy Avrette Committee Counsel
Analysis of:	First Edition		

SUMMARY: ***Senate Bill 1298 would authorize the Town of Pembroke[1] to levy a 3% room occupancy tax. At least two-thirds of the proceeds would be used to promote travel and tourism and the remainder would be used for tourism-related expenditures. The bill is effective when it become law.***

CURRENT LAW: Currently, Pembroke does not have authority to levy a room occupancy tax. Pembroke is located in Robeson County, which does not have authority to levy a 3% occupancy tax. However, the City of Lumberton and the Town of St. Pauls, [2] both located in Robeson County, have authority to levy a 3% room occupancy tax.

BILL ANALYSIS: Senate Bill 1298 would authorize the Town of Pembroke to levy a room occupancy tax of up to 3%. The proceeds must be remitted to a town Tourism Development Authority (TDA), which must use at least two-thirds of the proceeds to promote travel and tourism and the remainder for tourism-related expenditures. These administrative and use provisions conform to the uniform guidelines[3] referenced above and detailed in the chart below:

UNIFORM OCCUPANCY TAX PROVISIONS
Rate – The county tax rate cannot exceed 6% and the city tax rate, when combined with the county rate, cannot exceed 6%.
Use – Two-thirds of the proceeds must be used to promote travel and tourism and the remainder must be used for tourism related expenditures.
Definitions The term "net proceeds", "promote travel and tourism", and "tourism related expenditures" are defined terms.
Administration – The net revenues must be administered by a local tourism development authority that has the authority to determine how the tax proceeds will be used, is created by a local ordinance, and at least ½ of the members must be currently active in the promotion of travel and tourism in the county and 1/3 of the members must be affiliated with organizations that collect the tax.
Costs of Collection – The taxing authority may retain from the revenues its actual costs of collection, not to exceed 3% of the first $500,000 collected each year plus 1% of the remainder collected each year.

BACKGROUND: Since 1983, the General Assembly has authorized many units of local government to levy a room occupancy tax. In several instances, the General Assembly has authorized both a county and a city within that county to impose an occupancy tax. The rate of tax, the use of the tax proceeds, the administration of the tax, and the body with the authority to determine how the tax proceeds will be spent vary considerably. Over the past several years, there has been a greater effort to make the occupancy taxes uniform. In 1997, the General Assembly enacted uniform municipal and county administrative provisions for occupancy tax legislation – G.S. 153A-155 and G.S. 160A-215. These provisions provide uniformity in the areas of levy, administration, collection, repeal, and penalties.

S1298-SMRB-80(e1) v2

[1] As introduced, this bill was identical to H1894, as introduced by Rep. Sutton, which is currently in House Local Government II, if favorable, Finance.

[2] Lumberton received authorization to levy a room occupancy tax in 1983; St. Pauls in 1998.

[3] The North Carolina Travel and Tourism Coalition has a policy statement for legislation authorizing local occupancy taxes. Many of the principles contained in its statement are similar to the ones established by a House Finance subcommittee on Occupancy Taxes in 1993.

PRINCIPAL DEPARTMENT(S) & PROGRAM(S) AFFECTED: Town of Pembroke

EFFECTIVE DATE: This act is effective when it becomes law.

BILL SUMMARY:

Senate Bill 1298 would authorize the Town of Pembroke to levy a room occupancy tax of up to three percent (3%) of the gross receipts collected from the rental of any eligible room. SB1298 would also create the Pembroke Tourism Development Authority. The Authority shall use at least two-thirds of the funds remitted to it under this subsection to promote travel and tourism in the Town of Pembroke and shall use the remainder for tourism-related expenditures.

ASSUMPTIONS AND METHODOLOGY:

The Town of Pembroke is located in Robeson County. According to the NC Department of Commerce, the average daily room rate for hotels located in this economic region is $76.81, with a room occupancy rate of 54.8%. Pembroke has only one existing hotel with 62 rooms. Using these assumptions ($76.81 room * 62 rooms * 54.8% occupancy * 365 days * 3% occupancy tax), the city would collect $28,576 in occupancy taxes in FY10-11. This number was then grown using the Leisure and Hospitality growth rates from Moody's Economy.com.

A BILL TO BE ENTITLED

AN ACT TO ALLOW THE CITY OF FAYETTEVILLE TO USE WHEEL LOCKS TO ENFORCE PARKING REGULATIONS.

The General Assembly of North Carolina enacts:

SECTION 1. Section 3 of S.L. 2003-240, as amended by S.L. 2007-330, reads as rewritten:

"**SECTION 3.** Section 1 of this act applies to the City of Fayetteville and the Towns of Boiling Springs, Carolina Beach, and Wrightsville Beach only."

SECTION 2. This act is effective when it becomes law.

SENATE BILL 1331:
Allow Wheel Locks for City of Fayetteville

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	June 1, 2010
Introduced by:	Sen. Dickson	**Prepared by:**	Cindy Avrette
Analysis of:	First Edition		Committee Counsel

SUMMARY: Senate Bill 1331[1] adds Fayetteville to the list of cities and towns that may use wheel locks on illegally parked vehicles for which there are three or more outstanding, unpaid, and overdue parking tickets.

CURRENT LAW: A number of local bills have been enacted over the past several years authorizing local governments to adopt ordinances allowing the use of wheel locks on illegally parked vehicles that have three or more unpaid parking tickets. For most municipalities, the unpaid tickets must have accumulated over a period of ninety days. However, for Boiling Springs, Carolina Beach, and Wrightsville Beach, the unpaid tickets must have been issued on at least three separate days. In all cases, the ordinance has to provide for notice or warning to be put on the vehicle and immobilization through the wheel locks. In all but two cases, the ordinance may provide for an immobilization fee of not more than $50.00.[2] The ordinance must also provide for towing, impoundment, and an appeal hearing. The cities are not responsible for any damage that may occur to immobilized illegally parked vehicles that results from unauthorized attempts to free or move the vehicle.

BILL ANALYSIS: Senate Bill 1331 would allow the City of Fayetteville to enact an ordinance to allow for the use of wheel locks. Wheel locks could be used on illegally parked vehicles that have three or more unpaid and overdue parking tickets issued on at least three separate days. The City could impose an immobilization fee of not more than $50.

BACKGROUND: Several municipalities throughout North Carolina have authority to use wheel locks: Apex[3], Asheville[4], Boiling Springs[5], Carolina Beach, Chapel Hill[6], Charlotte[7], Durham, Greensboro, Greenville[8], Henderson, Hickory, Lenoir, Monroe, Raleigh, Salisbury[9], Winston-Salem, Wilmington (central business district only), Wrightsville Beach, and the Town of Yadkinville.

EFFECTIVE DATE: This act is effective when it becomes law.

SENATE FINANCE COMMITTEE
Wednesday, June 9, 2010 at 1:00 PM
Room 544, Legislative Office Building

MINUTES

The Senate Finance Committee met at 1:00 PM on June 9, 2010, in Room 544 of the Legislative Office Building. Thirty-one members of the committee were present. Senator Jenkins presided. Carol Browning, Lonnie Goss, Andrew Allen, Michael Wallace, Mitchell Cook, Cindy Kaley and Molly Hurst of Raleigh and Jimmy Andrews of Whitsett served as pages.

S.B. 1172 – Fair Tax Penalties

Senator Clodfelter was recognized to explain the bill and requested that it only be discussed without a vote. Senator Apodaca moved to adopt the proposed committee substitute (PCS) for discussion. The motion carried. The PCS ensures that taxpayers are not subjected to penalties for requesting a hearing or for failing to file a return in a manner that is prohibited by law. A copy of the PCS, the summary, and the bill is attached.

S.B. 1176 – Construction of Wills and Trusts

Senator Clodfelter explained the bill. It would construe certain formula clauses that reference federal estate and generation-skipping transfer tax laws applicable to estates and trusts of decedents dying in calendar year 2010, during which time there is no applicable federal estate or generation-skipping transfer tax, it refers to the applicable laws as they applied with respect to estates and trusts of decedents dying on December 31, 2009. Senator Tillman moved for a favorable report and the motion carried. A copy of the bill and the summary is attached.

S.B. 1154 – UNC Nonappropriated Capital Projects

Senator Stevens was recognized to explain the bill which would authorize the construction of numerous projects by The University of North Carolina. The projects will be financed through revenue bonds and special obligation bones, not appropriations from the General Fund. Senator Tillman moved for a favorable report. The motion carried. A copy of the bill, the fiscal note and the summary is attached.

S.B. 1216 – Extend Emergency Foreclosure Program

Senator Blue was recognized to explain the bill and moved to adopt the PCS for discussion. The motion carried. The PCS would amend and extend the Emergency Program to Reduce Foreclosures Act by making the act applicable to all home loan foreclosures, rather than just certain subprime loans. The PCS also creates the State Home Foreclosure Prevention Trust Fund and extends the expiration date of the program until May 31, 2013. Mark Pierce, Chief Deputy Commissioner of Banks, was recognized to further explain the bill and answer questions. Senator Queen moved for a favorable report and the motion carried. A copy of the PCS, the summary, the fiscal note, and the bill is attached.

S.B. 1362 – Orange/Alamance Boundary

Senator Kinnaird was recognized to explain the bill which enables the transition of properties of the area along the common boundary between Alamance County and Orange

County as a result of the North Carolina Geodetic Survey's assessment. Senator Soles moved to adopt a technical amendment and give the bill as amended a favorable report. The motion carried. A copy of the bill and the summary is attached.

The meeting adjourned at 1:36 PM.

A BILL TO BE ENTITLED

AN ACT TO ENSURE THAT TAXPAYERS ARE NOT SUBJECTED TO PENALTIES FOR REQUESTING A HEARING OR FOR FAILING TO FILE A RETURN IN A MANNER THAT IS PROHIBITED BY LAW.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 105-236(a)(4) reads as rewritten:

"(4) Failure to Pay Tax When Due. – In the case of failure to pay any tax when due, without intent to evade the tax, the Secretary shall assess a penalty equal to ten percent (10%) of the tax, subject to a minimum of five dollars ($5.00). This penalty does not apply in any of the following circumstances:

a. When the amount of tax shown as due on an amended return is paid when the return is filed.

b. When the Secretary proposes an assessment for tax due but not shown on a return and the tax due is paid within 45 days after the later of the following:

1. The date of the notice of proposed assessment of the ~~tax.~~tax, if the taxpayer does not file a timely request for a Departmental review of the proposed assessment.

2. The date the proposed assessment becomes collectible under one of the circumstances listed in G.S. 105-241.22(3) through (6), if the taxpayer files a timely request for a Departmental review of the proposed assessment.

c. When a taxpayer files a consolidated or combined return at the request of the Secretary under Part 1 of Article 4 of this Chapter and the tax due is paid within 45 days after the latest of the following:

1. The date the return is filed.

2. The date of a notice of proposed assessment based on the return, if the taxpayer does not file a timely request for a Departmental review of the proposed assessment.

3. The date the Departmental review of the proposed assessment ends as a result of the occurrence of one of the actions listed in G.S. 105-241.22(3) through (6), if the taxpayer files a timely request for a Departmental review."

SECTION 2. G.S. 105-236(a)(5) is amended by adding a new sub-subdivision to read:

"(5) Negligence. –

...

f. Consolidated or combined return. – The amount of tax shown as due on a consolidated or combined return filed at the request of the Secretary under Part 1 of Article 4 of this Chapter is not considered a deficiency and is not subject to this subdivision."

SECTION 3. G.S. 105-241.22 reads as rewritten:

"**§ 105-241.22. Collection of tax.**

The Department may collect a tax in the following circumstances:

(1) When a taxpayer files a return showing an amount due with the return and does not pay the amount shown due. This subdivision does not apply to a consolidated or combined return filed at the request of the Secretary under Part 1 of Article 4 of this Chapter.

(2) When the Department sends a notice of collection after a taxpayer does not file a timely request for a Departmental review of a proposed assessment of tax.

(3) When a taxpayer and the Department agree on a settlement concerning the amount of tax due.

(4) When the Department sends a notice of final determination concerning an assessment of tax and the taxpayer does not file a timely petition for a contested case hearing on the assessment.

(5) When a final decision is issued on a proposed assessment of tax after a contested case hearing.

(6) When the Office of Administrative Hearings dismisses a petition for a contested case for lack of jurisdiction because the sole issue is the constitutionality of a statute and not the application of a statute."

SECTION 4. This act is effective when it becomes law. Sections 1 and 2 of this act apply to penalties that are assessed and unpaid as of the effective date, penalties that are paid as of the effective date but are based on a tax that is the subject of an administrative or judicial action that is pending on the effective date, and penalties and taxes assessed on or after that date.

SENATE BILL 1172:
Fair Tax Penalties

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	June 8, 2010
Introduced by:	Sen. Clodfelter	**Prepared by:**	Cindy Avrette Committee Counsel
Analysis of:	PCS to First Edition S1172-CSRB-84		

SUMMARY: ***Senate Bill 1172 would provide that a penalty for understatement of tax due does not apply to a taxpayer who complies with the Secretary's request and files a consolidated or combined return and that a failure to pay penalty does not apply to a taxpayer who has requested a hearing on the tax liability used as the basis for the penalty.***

The Senate included the contents of this bill in its version of the 2010 budget, SB 897, Third Edition. The House did not include the provision in its version of the budget, SB 897, Sixth Edition. The proposed committee substitute makes clarifying changes in sections 1 and 2 and adds a new section 3.

CURRENT LAW: North Carolina is a single entity filing state, meaning that a multistate corporation must determine its State net income as if it filed a separate return for federal income tax purposes. G.S. 105-130.14 prohibits a corporation from filing a consolidated or combined return in North Carolina unless specifically directed to do so by the Secretary of Revenue. Under G.S. 105-130.6, the Secretary can require a corporation to file a combined return with other parent, subsidiary, or affiliated corporations when the Department believes the corporation's net income attributable to this State is not accurately reflected on its separate entity filing return.[1] G.S. 105-130.6 states that a corporation has 60 days to file a combined return after being directed to do so by the Secretary before the corporation is subject to penalties under G.S. 105-236. The penalties under G.S. 105-236 include a failure to file penalty of 5% to 25%, a failure to pay penalty of 10%, a negligence penalty of 10%, and a large understatement penalty of 25%. It appears the Department's penalty practice when it requires combined returns is as follows:

Action	**Failure to File** 105-236(a)(3)	**Failure to Pay** 1015-236(a)(4)	**Large Deficiency/ Negligence** 105-236(a)(5)
Return filed within time requested and payment made	No	No	Yes
Return filed within time requested but no payment with return because hearing requested	No	Yes	Yes
Return not filed within time requested but hearing requested	Yes	Yes	Yes

[1] The Department of Revenue has collected millions of dollars in taxes from forced combinations. The Department generated $424 million through Resolution Initiative in 2009. The House and Senate budgets include $110 million in their adjustments to availability attributable to 'Department of Revenue Settlement Initiative'.

BILL ANALYSIS: The proposed committee substitute for Senate Bill 1172 would make two penalty changes and one technical change.

The first penalty change in Section 1 of the bill would make it clear that a taxpayer who disputes the amount of tax owed and requests a hearing on the issue is not subject to a penalty for failure to pay the disputed tax before the hearing is held. As set out in this section, a taxpayer who requests a hearing has 45 days after the conclusion of the administrative process to pay any amount that is determined to be due without incurring a failure to pay penalty. If the amount is not paid within the 45-day period, the penalty applies. This change would be consistent with the tax appeal provisions contained in G.S. 105-241.9 through G.S. 105-241.16, which provide a taxpayer does not need to pay the tax due when an assessment is made against the taxpayer in order to have a hearing on the merits of the taxpayer's defense to the assessment before an independent hearing officer.

The second penalty change in Section 2 of the bill would affect taxpayers that file a combined return at the direction of the Secretary. It would provide that the difference between the taxes due on a combined return filed at the request of the Secretary, as compared to the taxes due on a single entity return, is not considered a deficiency and is not subject to the negligence or understatement penalties under G.S. 105-236(a)(5). Currently, these penalties are being assessed even though the taxpayer could not lawfully file the combined return without receiving the request from the Secretary.

Section 3 of the bill is a technical change that would make it clear that the filing of a combined return at the request of the Secretary does not trigger the automatic collection of the tax. The subdivision is intended to apply when a taxpayer files an original or amended individual income tax return that shows an amount due but does not include payment.

EFFECTIVE DATE: The act would become effective when it becomes law. Sections 1 and 2 of the act would apply to penalties that are assessed and unpaid as of the effective date, penalties that are paid as of the effective date but are based on a tax that is the subject of an administrative or judicial action that is pending on the effective date, and penalties and taxes assessed on or after that date.

A BILL TO BE ENTITLED

AN ACT TO CONSTRUE CERTAIN FORMULA CLAUSES THAT REFER TO FEDERAL ESTATE AND GENERATION-SKIPPING TRANSFER TAX LAWS.

The General Assembly of North Carolina enacts:

SECTION 1. Article 7 of Chapter 31 of the General Statutes is amended by adding a new section to read:

"**§ 31-46.1. Construction of certain formula clauses applicable to estates of decedents dying in calendar year 2010.**

(a) Purpose. – The federal estate tax and generation-skipping transfer tax expired January 1, 2010, for one year. To carry out the intent of decedents in the construction of wills and trusts, and to promote judicial economy in the administration of trusts and estates, this section construes certain formula clauses that reference federal estate and generation-skipping transfer tax laws and that are used in wills of decedents who die in calendar year 2010.

(b) Applicability. – This section applies to a will of a decedent who dies after December 31, 2009, and before the earlier of January 1, 2011, and the effective date of the reinstatement of the federal estate tax and generation-skipping transfer tax. This section does not apply to a will that is executed or amended after December 31, 2009, or to a will that clearly manifests an intent that a contrary rule applies when a decedent dies on a date on which there is no then-applicable federal estate or generation-skipping transfer tax.

(c) Construction. – A will that is subject to this section is considered to refer to the federal estate and generation-skipping transfer tax laws as they applied with respect to estates of decedents dying on December 31, 2009, if the will contains a formula that meets one or more of the following conditions:

(1) The formula refers to any of the following: 'applicable credit amount,' 'applicable exclusion amount,' 'applicable exemption amount,' 'applicable fraction,' 'estate tax exemption,' 'generation-skipping transfer tax exemption,' 'GST exemption,' 'inclusion ratio,' 'marital deduction,' 'maximum marital deduction,' 'unified credit,' or 'unlimited marital deduction.'

(2) The formula measures a share of an estate or trust based on the amount that can pass free of federal estate taxes or the amount that can pass free of federal generation-skipping transfer taxes.

(3) The formula is otherwise based on a provision of federal estate tax or federal generation-skipping transfer tax law similar to the provisions in subdivision (1) or (2) of this subsection.

(d) Judicial Determination. – The personal representative or an affected beneficiary under a will or testamentary trust may bring an action in the superior court division of the

General Court of Justice under Article 26 of Chapter 1 of the General Statutes, and the trustee of a trust created under the will or an affected beneficiary under the trust may bring a proceeding as permitted under Article 2 of Chapter 36C of the General Statutes to determine whether the decedent intended that the references under subsection (c) of this section be construed with respect to the federal law as it existed after December 31, 2009. The action must be commenced within 12 months following the death of the decedent."

SECTION 2. Article 1 of Chapter 36C of the General Statutes is amended by adding a new section to read:

"**§ 36C-1-113. Construction of certain formula clauses applicable to estates of decedents dying in calendar year 2010.**

(a) Purpose. – The federal estate tax and generation-skipping transfer tax expired January 1, 2010, for one year. To carry out the intent of decedents in the construction of wills and trusts, and to promote judicial economy in the administration of trusts and estates, this section construes certain formula clauses that reference federal estate and generation-skipping transfer tax laws and that are used in trusts created by settlors who die in calendar year 2010.

(b) Applicability. – This section applies to a trust created by a settlor who dies after December 31, 2009, and before the earlier of January 1, 2011, and the effective date of the reinstatement of the federal estate tax and generation-skipping transfer tax. This section does not apply to a trust that is executed or amended after December 31, 2009, or to a trust that clearly manifests an intent that a contrary rule applies when a decedent dies on a date on which there is no then-applicable federal estate or generation-skipping transfer tax.

(c) Construction. – A trust subject to this section is considered to refer to the federal estate and generation-skipping transfer tax laws as they applied with respect to estates of decedents dying on December 31, 2009, if the trust contains a formula that meets one or more of the following conditions:

(1) The formula refers to any of the following: 'applicable credit amount,' 'applicable exclusion amount,' 'applicable exemption amount,' 'applicable fraction,' 'estate tax exemption,' 'generation-skipping transfer tax exemption,' 'GST exemption,' 'inclusion ratio,' 'marital deduction,' 'maximum marital deduction,' 'unified credit,' or 'unlimited marital deduction.'

(2) The formula measures a share of a trust based on the amount that can pass free of federal estate taxes or the amount that can pass free of federal generation-skipping transfer taxes.

(3) The formula is otherwise based on a provision of federal estate tax or federal generation-skipping transfer tax law similar to the provisions in subdivision (1) or (2) of this subsection.

(d) Judicial Determination. – The trustee of the trust or an affected beneficiary under the trust may commence a proceeding to determine whether the settlor intended that the references under subsection (c) of this section be construed with respect to the federal law as it existed after December 31, 2009. The proceeding must be commenced within 12 months following the death of the settlor."

SECTION 3. G.S. 36C-2-203(f) is amended by adding a new subdivision to read:

"(f) Without otherwise limiting the jurisdiction of the superior court division of the General Court of Justice, proceedings concerning the internal affairs of trusts shall not include, and, therefore, the clerk of superior court shall not have jurisdiction under subsection (a) of this section of any of the following:

(1) Actions to reform, terminate, or modify a trust as provided by G.S. 36C-4-410 through ~~G.S. 36C-4-416;~~ G.S. 36C-4-416.

(2) Actions by or against creditors or debtors of a ~~trust;~~trust.

(3) Actions involving claims for monetary damages, including claims for breach of fiduciary duty, fraud, and ~~negligence;~~negligence.

(4) Actions to enforce a charitable trust under ~~G.S. 36C-4-405.1;~~ G.S. 36C-4-405.1.

(5) Actions to amend or reform a charitable trust under ~~G.S. 36C-4A-1; and~~ G.S. 36C-4A-1.

(6) Actions involving the exercise of the trustee's special power to appoint to a second trust pursuant to G.S. 36C-8-816.1.

(7) Actions to construe a formula contained in a trust subject to G.S. 36C-1-113."

SECTION 4. This act is effective when it becomes law and applies to the estates of decedents dying after December 31, 2009, and to trusts created by settlors who die after December 31, 2009.

SENATE BILL 1176:
Construction of Wills and Trusts

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	June 8, 2010
Introduced by:	Sen. Clodfelter	**Prepared by:**	Cindy Avrette
Analysis of:	First Edition		Committee Counsel

SUMMARY: Senate Bill 1176[1] would construe certain formula clauses that reference federal estate and generation-skipping transfer tax laws applicable to estates and trusts of decedents dying in calendar year 2010, during which time there is no applicable federal estate or generation-skipping transfer tax, to refer to the applicable laws as they applied with respect to estates and trusts of decedents dying on December 31, 2009. The bill is a recommendation of the Revenue Laws Study Committee.

CURRENT LAW: Effective January 1, 2010, the federal estate tax and generation-skipping transfer tax law is repealed for one year. North Carolina imposes an estate tax on the estate of a decedent when a federal estate tax is imposed on the estate. Consequently, North Carolina's estate tax is also repealed for one year. The Fiscal Research Division estimates an $85 million loss of revenue associated with this repeal to the General Fund for fiscal year 2010-2011.

Many wills and trust agreements include formula provisions to determine what amounts of the estate will pass to different beneficiaries or to trusts for the benefit of different beneficiaries. These formula provisions are usually based upon the estate and generation-skipping transfer tax laws applicable at the time of the decedent's death. With the repeal of the federal estate law for the year 2010, these provisions could result in a devise contrary to the decedent's intent. For example, a will or trust agreement could include a formula provision allocating the largest amount or percentage of the testator's estate that can pass free of estate tax to a "Family Trust" for the benefit of the testator's children and the remainder of the estate to a "Marital Trust" for the benefit of the testator's surviving spouse. Under the current law, it is possible that this kind of provision would result in the entire estate passing to the Family Trust and nothing passing to the Marital Trust.

BILL ANALYSIS: Senate Bill 1176 provides that a will or trust agreement of a decedent that dies in calendar year 2010 that refers to the federal estate and generation-skipping transfer tax laws is deemed to refer to the law as it existed on December 31, 2009, unless the document clearly manifests an intent that a contrary rule apply. At least six other states have adopted similar construction provisions[2] and at least four states are considering similar legislation.[3]

EFFECTIVE DATE: The bill is effective when it becomes law and applies to the estates of decedents who die after December 31, 2009, and to trusts created by settlers who die after December 31, 2009.

BACKGROUND: In 2001, Congress enacted the Economic Growth and Tax Relief Reconciliation Act of 2001 (EGTRRA). That law made significant changes to the federal estate and generation-skipping transfer tax laws. EGTRRA increased permanently the exclusion amount from $675,000 to $1,000,000. It gradually increased the exclusion amount from $1,000,000 in 2002 to $3,500,000 in 2009; it gradually reduced the maximum estate tax rate from 55% in 2001 to 45% in 2009; and it culminated in the repeal of the tax for one year in 2010. The 2001 Act provided that the changes made by EGTRRA would

[3] Florida, Maryland, Nebraska, and New York.

expire on December 31, 2010, and the tax law would be applied as if the provisions and amendments made by the legislation had never been enacted.

Most people did not anticipate that Congress would let the estate tax expire. In April 2009, Congress approved a Fiscal 2010 Budget Resolution which called for extending the federal estate tax into 2010. However, Congress did not enact the necessary legislation to extend the tax. The House of Representatives passed HR 4151 on December 12, 2009. That bill would have made permanent the $3,500,000 estate tax exemption amount and the 45% maximum tax rate. The Senate did not pass the legislation; hence the expiration of the estate tax for 2010. If Congress does not act before the end of the year, the provisions enacted by EGTRRA in 2001 will sunset and the federal estate will be reinstated in 2011 at a rate of 45% and an exclusion amount of $1,000,000.

Not only is the existence of North Carolina's estate tax law tied to the federal estate tax law, but also the amount of the State's estate tax. North Carolina repealed its inheritance tax in 1998, effective for deaths occurring on or after January 1, 1999, and replaced it with an estate tax that is equivalent to the state estate tax credit allowed on a federal estate tax return. This type of state estate tax is known as a "pick up" tax because it picks up for the state the amount of federal estate tax that would otherwise be paid to the federal government. As part of EGTRRA, Congress phased out the state estate tax credit over a four-year period, beginning in 2002. Although North Carolina conformed to the increased exemption amounts enacted in EGTRRA, it did not conform to the phase out of the estate tax credit. The amount of the estate tax in North Carolina is the amount of the state estate tax credit that would have been allowed under the Code as of December 31, 2001[4].

If Congress does not act, the provisions enacted by EGTRRA in 2001 will sunset and the federal estate tax will be reinstated. For North Carolina, the reinstatement means the State's estate tax will become effective again in 2011 and the amount of the tax payable to the State will be the amount of the state estate tax credit under federal tax law. The credit will be based upon a federal tax calculated at 45%, and imposed on estates that exceed the $1,000,000 exemption amount.

SENATE BILL 1154:
UNC Nonappropriated Capital Projects

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	May 22, 2010
Introduced by:	Sen. Stevens	**Prepared by:**	Cindy Avrette
Analysis of:	First Edition		Committee Counsel

SUMMARY: ***Senate Bill 1154 would authorize the construction of numerous projects by The University of North Carolina. The projects will be financed through revenue bonds and special obligation bonds, not appropriations from the General Fund.***

CURRENT LAW: There are two types of self-liquidating bonds that may be issued by the Board of Governors of the University of North Carolina. Article 21 of Chapter 116 of the General Statutes authorizes the Board of Governors to issue revenue bonds for the types of projects enumerated in the article. The types of projects for which revenue bonds may be issued include educational buildings, dormitories, recreational facilities, dining facilities, student centers, health care buildings, parking decks, etc. for the educational institutions, the University of North Carolina Health Care System, the University of North Carolina General Administration, and the University of North Carolina Hospitals at Chapel Hill. The revenue bonds are payable from rentals, charges, fees, and other revenues generated by the facility. The bonds are not payable from tax revenues.

Article 3 of Chapter 116D of the General Statutes authorizes the Board of Governors to issue special obligation bonds payable with any sources of income or receipts of the Board of Governors or a constituent or affiliated institution, but not including tuition payments or appropriations from the General Fund from State revenues. The bond proceeds could be used for construction, improvement, and acquisition of any capital facilities located at UNC constituent and affiliated institutions. The bonds are not payable from tax revenues.

BILL ANALYSIS: Senate Bill 1154 would authorize the construction and financing of the capital improvements projects at various constituent institutions of The University of North Carolina. The projects authorized by the bill would not be financed with funds appropriated from the State's General Fund; but may be financed with gifts, grants, receipts, self-liquidating indebtedness, Medicare reimbursements for education costs, other funds available to the constituent institutions, or a combination of any of those financing methods. The projects include academic, research, clinical and administrative space and improvements to student services, residential living, dining, recreation, and athletics facilities. Once approved, a detailed financial plan will be developed in consultation with financial advisors and bond counsel for each project. The plans must be approved by the Chancellor, the Boards of Trustees, the President, and the Board of Governors before construction contracts may be awarded and bonds issued.

The self-liquidating projects the Board of Governors plans to finance with revenue and/or special obligation bonds are listed in Sections 2 and 3 of the bill. The UNC revenue bond act in Article 21 of Chapter 116 of the General Statutes authorizes the Board of Governors to issue revenue bonds to finance the cost of a variety of capital projects, including facilities for the University of North Carolina Hospitals at Chapel Hill.[1] The UNC special obligation bond act in Article 3 of Chapter 116D of the General Statutes requires that the specific projects and their costs be set forth in legislation approved by the General Assembly and that the maximum amount of special obligation bonds to be issued to finance the specific projects listed be stated.

[1] Projects of the UNC Hospitals have traditionally been financed with self-liquidating indebtedness as part of the list of UNC capital projects. This bill puts those projects in a separate section to recognize that the UNC Hospitals are an affiliated enterprise of the UNC system.

Section 6 of the bill expressly states that the maximum principal amount of special obligation bonds to be issued shall not exceed the amounts listed in Sections 2 and 3 of the act plus 5%. The additional 5% may be used for related additional costs for which bond proceeds are routinely used, such as issuance expenses, funding of reserve funds, and capitalized interest.

This year's bill includes 21 capital projects on nine campuses. The Chancellors and Boards of Trustees for the listed campuses, as well as the President and the Board, have approved these projects. It also authorizes three capital projects for the UNC Hospitals. If authorized, construction on the projects is expected to begin before June 30, 2011.[2] Support from General Fund sources for operating costs will be required only for facilities used for academic programs.

Section 7 authorizes the University of North Carolina at Chapel Hill to construct and finance the Carolina Student Athlete Center for Excellence through lease arrangements to, from, and with the Educational Foundation, Inc. or any other special purpose entity created for that purpose. Once constructed and approved by state reviewing agencies, the improvements would transfer to UNC-CH. The University may contract with the Educational Foundation, Inc. for the operation and management of all or part of the facility.

Section 4 authorizes the Board of Governors to expend non-General Fund money to plan four capital projects on two campuses.

S1154-SMRB-68(e1) v3

[2] Two of the three projects requested by the UNC Hospitals are under construction. UNC Hospitals originally sought to pay for these projects with operating reserves. Due to historically low interest rates, the Board of Directors of the UNC Health Care System determined that it is in the best interest of UNC Hospitals to finance these projects.

The funds shall be held separate from any other funds received by the Office of the Commissioner of Banks in trust for the operation of the State Home Foreclosure Prevention Project.

(c) Upon the filing of the information required under G.S. 45-103, the mortgage servicer shall pay a fee of seventy-five dollars ($75.00) to the State Home Foreclosure Prevention Trust Fund. The fee shall not be charged more than once for a home loan covered by this act. The collection of this fee shall be managed by the Office of the Commissioner of Banks in a manner so as to minimize burdens on mortgage servicers in complying with the requirements of this section.

"§ 45-105. (For expiration date, see note) Extension of foreclosure process.

The Commissioner of Banks shall review information provided in the database created by G.S. 45-103 to determine which ~~subprime~~ home loans are appropriate for efforts to avoid foreclosure. If the Commissioner reasonably believes, based on a full review of the loan information, the mortgage servicer's loss mitigation efforts, the borrower's capacity and interest in staying in the home, and other appropriate factors, that further efforts by the State Home Foreclosure Prevention Project offer a reasonable prospect to avoid foreclosure on primary residences, the Commissioner shall have the authority to extend one time under this Article the allowable filing date for any foreclosure proceeding on a primary residence by up to 30 days beyond the earliest filing date established by the pre-foreclosure notice. If the Commissioner makes the determination that a loan is subject to this section, the Commissioner shall notify the borrower, mortgage servicer, and the Administrative Office of the Courts. If the mortgage servicer is a state or federally chartered credit union, the Commissioner shall also notify the Administrator of the Credit Union Division of the determination.

Any notice provided by the Commissioner to the Administrator of the Credit Union Division under G.S. 45-105 is not a public record. Provision of information to the Administrative Office of the Courts for use by the State Home Foreclosure Prevention Project shall not be considered a violation of G.S. 53B-8. A mortgage servicer shall be held harmless for any alleged breach of privacy rights of the borrower with respect to the information the mortgage servicer provides in accordance with this Article.

"**§ 45-107. (For expiration date, see note) Foreclosure filing.**

(a) For the duration of the program authorized by this Article, foreclosure notices filed on ~~subprime~~ home loans on or after ~~November 15, 2008,~~ November 1, 2010, shall contain a certification by the filing party that the pre-foreclosure notice required by G.S. 45-102 and the pre-foreclosure information required by G.S. 45-103 were provided in accordance with this Article and that the periods of time established by the Article have elapsed.

(b) The clerk of superior court or other judicial officer may have access to the pre-foreclosure database to confirm information provided in subsection (a) of this section. A materially inaccurate statement in the certification shall be cause for dismissal without prejudice of any foreclosure proceeding on a primary residence initiated by the mortgage servicer and for payment by the filing party of costs incurred by the borrower in defending the foreclosure proceeding."

SECTION 2. G.S. 45-21.16(c2) reads as rewritten:

"(c2) **(Expires October 31, 2010)** In any foreclosure filed on or after ~~November 15, 2008,~~ November 1, 2010, where the underlying mortgage debt is a ~~subprime~~ home loan as defined in ~~G.S. 45-101(4),~~ G.S. 45-101(1b), the notice required by subsection (b) of this section shall contain a certification by the filing party that the pre-foreclosure notice and information required by G.S. 45-102 and G.S. 45-103 were provided in all material respects and that the periods of time established by Article 11 of this Chapter have elapsed."

SECTION 3. G.S. 45-21.16(d) reads as rewritten:

"(d) **(Effective until October 31, 2010)** The hearing provided by this section shall be held before the clerk of court in the county where the land, or any portion thereof, is situated. In the event that the property to be sold consists of separate tracts situated in different counties or a single tract in more than one county, only one hearing shall be necessary. However, prior to that hearing, the mortgagee or trustee shall file the notice of hearing in any other county where any portion of the property to be sold is located. Upon such hearing, the clerk shall consider the

evidence of the parties and may consider, in addition to other forms of evidence required or permitted by law, affidavits and certified copies of documents. If the clerk finds the existence of (i) valid debt of which the party seeking to foreclose is the holder, (ii) default, (iii) right to foreclose under the instrument, (iv) notice to those entitled to such under subsection (b), and (v) that the underlying mortgage debt is not a ~~subprime~~ home loan as defined in ~~G.S. 45-101(4),~~ G.S. 45-101(1b), or if the loan is a ~~subprime~~ home loan under ~~G.S. 45-101(4),~~ G.S. 45-101(1b), that the pre-foreclosure notice under G.S. 45-102 was provided in all material respects, and that the periods of time established by Article 11 of this Chapter have elapsed, then the clerk shall authorize the mortgagee or trustee to proceed under the instrument, and the mortgagee or trustee can give notice of and conduct a sale pursuant to the provisions of this Article. A certified copy of any authorization or order by the clerk shall be filed in any other county where any portion of the property to be sold is located before the mortgagee or trustee may proceed to advertise and sell any property located in that county. In the event that sales are to be held in more than one county, the provisions of G.S. 45-21.7 apply."

SECTION 4. Section 6 of S.L. 2008-226 reads as rewritten:

The remainder of this act is effective when it becomes law."

SECTION 5. Sections 1 through 3 of this act become effective November 1, 2010. The remainder of this act becomes effective when it becomes law.

SENATE BILL 1216:
Extend Emergency Foreclosure Program

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	June 9, 2010
Introduced by:	Sen. Blue	**Prepared by:**	Heather Fennell Committee Counsel
Analysis of:	PCS to Second Edition S1216-CSTD-88		

SUMMARY: ***Senate Bill 1216 would amend the Emergency Program to Reduce Home Foreclosures Act by making the act applicable to all home loan foreclosures, rather than just certain subprime loans. The bill would also create the State Home Foreclosure Prevention Trust Fund, and extend the expiration date of the Program until May 31, 2013.***

The Proposed Committee Substitute makes technical changes to the effective date and sunset of the act. The PCS also adds a provision requiring that the pre-foreclosure notice refer complaints about credit union loans to the Credit Union Division, and directing the Commissioner of Banks to notify the Administrator of the Credit Union Division when a foreclosure extension determination is made involving a credit union. The PCS clarifies that the notice to the Administrator is not a public record.

CURRENT LAW:

S.L. 2008-226 created an "Emergency Program to Reduce Home Foreclosures". The program established a system by which mortgage servicers are required to identify certain subprime loans that are in jeopardy of foreclosure and submit information on those loans to a database housed within the Administrative Office of the Courts (AOC). The Commissioner of Banks uses the information from the database to attempt to find solutions for homeowners to avoid foreclosure. The Commissioner is also authorized to extend the foreclosure process for up to 30 days in appropriate cases.

The act directed the Commissioner of Banks to use $600,000 of the funds available to the State Banking Commission for grants to nonprofit counseling agencies, and to use $400,000 from the State Banking Commission to design and operate the foreclosure reduction program. The Office of Commissioner of Banks was directed to report to the General Assembly on the operation of the program by May 1 of each year until the funds were expended. The act became effective November 1, 2008, and will expire on October 31, 2010.

BILL ANALYSIS:

SB 1216 amends the Emergency Program to Reduce Home Foreclosures Act by eliminating the restrictions on the types of loans subject to the act. Currently, the program only applies to subprime home loans that were originated between January 1, 2005 and December 31, 2007. This bill would make the act applicable to all home loans in the State in which the borrower is facing foreclosure.

The bill would also create the State Home Foreclosure Prevention Trust Fund, to be managed and maintained by the Commissioner of Banks. The bill provides that upon filing the information required for the database, the mortgage servicers would be required to pay a fee of $75.00 to the Fund. The fee could only be charged once for a home loan covered by the act. In administering the Fund, the Commissioner must allocate the money as follows:

- No more than the greater of $2,200,000 or 30% of the funds per year may be used for administrative costs to operate the program.

- No more than the greater of $3,400,000 or 40% per year may be used to make grants to or to reimburse non-profit housing counseling agencies that provide foreclosure prevention counseling services to homeowners.
- No more than 30% of the total funds collected each year may be used to make grants to or to reimburse non-profit legal service providers for services rendered on behalf of homeowners facing foreclosure.
- Any funds remaining after the expiration of the program shall be directed to the North Carolina Housing Trust Fund.

The Commissioner is also given discretion to enter agreements with other State and federal programs aimed at foreclosure prevention.

EFFECTIVE DATE: The act would become effective November 1, 2010.

Karen Cochrane-Brown, counsel to Senate Commerce, substantially contributed to this summary.

~~a. The difference between the annual percentage rate for the loan and the yield on U.S. Treasury securities having comparable periods of maturity is either equal to or greater than (i) three percentage points (3%), if the loan is secured by a first lien mortgage or deed of trust, or (ii) five percentage points (5%), if the loan is secured by a subordinate lien mortgage or deed of trust. Without regard to whether the loan is subject to or reportable under the provisions of the Home Mortgage Disclosure Act (12 U.S.C. § 2801, et seq.) (HMDA), the difference between the annual percentage rate and the yield on Treasury securities having comparable periods of maturity shall be determined using the same procedures and calculation methods applicable to loans that are subject to the reporting requirements of HMDA, as those procedures and calculation methods are amended from time to time, provided that the yield on Treasury securities shall be determined as of the fifteenth day of the month prior to the application for the loan.~~

~~b. The difference between the annual percentage rate for the loan and the conventional mortgage rate is either equal to or greater than (i) one and three fourths percentage points (1.75%), if the loan is secured by a first lien mortgage or deed of trust, or (ii) three and three fourths percentage points (3.75%), if the loan is secured by a subordinate lien mortgage or deed of trust. For purposes of this calculation, the "conventional mortgage rate" means the most recent daily contract interest rate on commitments for fixed rate first mortgages published by the Board of Governors of the Federal Reserve System in its Statistical Release H.15, or any publication that may supersede it, during the week preceding the week in which the interest rate for the loan is set.~~

~~(4) Subprime loan. – A loan, originated on or after January 1, 2005, but before December 31, 2007, that meets the definition of a rate spread home loan under this Article. A mortgage servicer may rely on a chart reflecting the appropriate interest rate triggers for rate spread home loans for each day of~~

~~the period covered by this Article provided by the Commissioner of Banks for the purposes of determining if a loan is a subprime loan covered by this Article. The Commissioner shall provide the chart at least 60 days prior to the effective date of this act.~~"

"**§ 45-102. (For expiration date, see note) Pre-foreclosure notice for ~~subprime~~ home loans.**

At least 45 days prior to the filing of a notice of hearing in a foreclosure proceeding on a primary residence, mortgage servicers of ~~subprime~~ home loans shall send written notice by mail to the last known address of the borrower to inform the borrower of the availability of resources to avoid foreclosure, including:

(1) An itemization of all past due amounts causing the loan to be in default.

(2) An itemization of any other charges that must be paid in order to bring the loan current.

(3) A statement that the borrower may have options available other than foreclosure and that the borrower may discuss available options with the mortgage lender, the mortgage servicer, or a counselor approved by the U.S. Department of Housing and Urban Development.

(4) The address, telephone number, and other contact information for the mortgage lender, the mortgage servicer, or the agent for either of them who is authorized to attempt to work with the borrower to avoid foreclosure.

(5) The name, address, telephone number, and other contact information for one or more HUD-approved counseling agencies operating to assist borrowers in North Carolina to avoid foreclosure.

(6) The address, telephone number, and other contact information for the consumer complaint section of the Office of Commissioner of Banks.

"**§ 45-103. (For expiration date, see note) Pre-foreclosure information to be filed with the Administrative Office of the Courts for ~~certain subprime~~ home loans.**

(a) Within three business days of mailing the notice required by G.S. 45-102, the mortgage servicer shall file certain information with the Administrative Office of the Courts. The filing shall be in an electronic format, as designated by the Administrative Office of the Courts, and shall contain the name and address of the ~~borrower~~ borrower, the due date of the last scheduled payment made by the borrower, and the date the notice was mailed to the borrower.

(b) As permitted by applicable State and federal law, optional information may be requested from the mortgage servicer to facilitate further review by the State Home Foreclosure Prevention Project described in G.S. 45-104. The nature of the optional information requested shall be determined in connection with the design of the database established by subsection (c) of this section. This optional information shall be used by the State Home Foreclosure Prevention Project to prioritize efforts to reach borrowers most likely to avoid foreclosure and to prevent delay for defaults where foreclosure is unavoidable.

~~(c) No later than October 1, 2008, the Administrative Office of the Courts shall establish an internal database to track information provided in this section. The Commissioner of Banks shall design and develop this database, in consultation with the Administrative Office of the Courts, in a manner to promote the efforts of the State Home Foreclosure Prevention Project. Only the Administrative Office of the Courts, the Office of Commissioner of Banks, and the clerk of court as provided by G.S. 45-107 shall have access to the database.~~"

"**§ 45-104. (For expiration date, see note) State Home Foreclosure Prevention ~~Project.~~Project and Fund.**

(a) The Commissioner of Banks is authorized to establish the State Home Foreclosure Prevention Project. The purpose of the Project is to seek solutions to avoid foreclosures for ~~certain subprime~~ home loans. In developing the Project, the Commissioner may include input

from HUD-approved housing counselors, community organizations, state agencies, mortgage lenders, mortgage servicers, and other partners.

(b) There is established a State Home Foreclosure Prevention Trust Fund to be managed and maintained by the Office of the Commissioner of Banks. The funds shall be held separate from any other funds received by the Office of the Commissioner of Banks in trust for the operation of the State Home Foreclosure Prevention Project.

(c) Upon the filing of the information required under G.S. 45-103, the mortgage servicer shall pay a fee of seventy-five dollars ($75.00) to the State Home Foreclosure Prevention Trust Fund. The fee shall not be charged more than once for a home loan covered by this act. The collection of this fee shall be managed by the Office of the Commissioner of Banks in a manner so as to minimize burdens on mortgage servicers in complying with the requirements of this section.

(d) The Commissioner of Banks shall allocate funds from the State Home Foreclosure Prevention Trust Fund to implement the purposes of this act in the following manner:

(1) An amount, not to exceed the greater of two million two hundred thousand dollars ($2,200,000) or thirty percent (30%) of the funds per year, to cover the administrative costs of the operation of the program by the Office of the Commissioner of Banks, including managing on behalf of the Administrative Office of the Courts the database identified in G.S. 45-103, expenses associated with informing homeowners of State resources available for foreclosure prevention, expenses associated with connecting homeowners to available resources, and assistance to homeowners and counselors in communicating with mortgage servicers.

(2) An amount, not to exceed the greater of three million four hundred thousand dollars ($3,400,000) or forty percent (40%) per year, to make grants to or reimburse nonprofit housing counseling agencies for providing foreclosure prevention counseling services to homeowners involved in the State Home Foreclosure Prevention Project.

(3) An amount, not to exceed thirty percent (30%) of the total funds collected per year, to make grants to or reimburse nonprofit legal service providers for services rendered on behalf of homeowners in danger of defaulting on a home loan to avoid foreclosure, limited to legal representation such as negotiation of loan modifications or other loan work-out solutions, defending homeowners in foreclosure or representing homeowners in bankruptcy proceedings, and research and counsel to homeowners regarding the status of their home loans.

(4) Any funds remaining upon the expiration of the State Home Foreclosure Prevention Project shall be directed to the North Carolina Housing Trust Fund.

(e) The Commissioner of Banks shall have the discretion to enter into an agreement to administer funds under subsections (d)(2) and (3) of this section in a manner that complements or supplements other State and federal programs directed to prevent foreclosures for homeowners participating in the State Home Foreclosure Prevention Project.

"§ 45-105. (For expiration date, see note) Extension of foreclosure process.

The Commissioner of Banks shall review information provided in the database created by G.S. 45-103 to determine which ~~subprime~~ home loans are appropriate for efforts to avoid foreclosure. If the Commissioner reasonably believes, based on a full review of the loan information, the mortgage servicer's loss mitigation efforts, the borrower's capacity and interest in staying in the home, and other appropriate factors, that further efforts by the State Home Foreclosure Prevention Project offer a reasonable prospect to avoid foreclosure on primary residences, the Commissioner shall have the authority to extend one time under this Article the

allowable filing date for any foreclosure proceeding on a primary residence by up to 30 days beyond the earliest filing date established by the pre-foreclosure notice. If the Commissioner makes the determination that a loan is subject to this section, the Commissioner shall notify the borrower, mortgage servicer, and the Administrative Office of the Courts.

"**§ 45-106. (For expiration date, see note) Use and privacy of records.**

The data provided to the Administrative Office of the Courts pursuant to G.S. 45-103 shall be exclusively for the use and purposes of the State Home Foreclosure Prevention Project developed by the Commissioner of Banks in accordance with G.S. 45-104. The information provided to the database is not a public record, except that a mortgage lender and a mortgage servicer shall have access to the information submitted only with regard to its own loans. Provision of information to the Administrative Office of the Courts for use by the State Home Foreclosure Prevention Project shall not be considered a violation of G.S. 53B-8. A mortgage servicer shall be held harmless for any alleged breach of privacy rights of the borrower with respect to the information the mortgage servicer provides in accordance with this Article.

"**§ 45-107. (For expiration date, see note) Foreclosure filing.**

(a) For the duration of the program authorized by this Article, foreclosure notices filed on ~~subprime~~ home loans on or after ~~November 15, 2008,~~ November 1, 2010, shall contain a certification by the filing party that the pre-foreclosure notice required by G.S. 45-102 and the pre-foreclosure information required by G.S. 45-103 were provided in accordance with this Article and that the periods of time established by the Article have elapsed.

(b) The clerk of superior court or other judicial officer may have access to the pre-foreclosure database to confirm information provided in subsection (a) of this section. A materially inaccurate statement in the certification shall be cause for dismissal without prejudice of any foreclosure proceeding on a primary residence initiated by the mortgage servicer and for payment by the filing party of costs incurred by the borrower in defending the foreclosure proceeding."

SECTION 2. G.S. 45-21.16(c2) reads as rewritten:

"(c2) **(Expires October 31, 2010)** In any foreclosure filed on or after ~~November 15, 2008,~~ November 1, 2010, where the underlying mortgage debt is a ~~subprime~~ home loan as defined in ~~G.S. 45-101(4),~~ G.S. 45-101(1b), the notice required by subsection (b) of this section shall contain a certification by the filing party that the pre-foreclosure notice and information required by G.S. 45-102 and G.S. 45-103 were provided in all material respects and that the periods of time established by Article 11 of this Chapter have elapsed."

SECTION 3. G.S. 45-21.16(d) reads as rewritten:

"(d) **(Effective until October 31, 2010)** The hearing provided by this section shall be held before the clerk of court in the county where the land, or any portion thereof, is situated. In the event that the property to be sold consists of separate tracts situated in different counties or a single tract in more than one county, only one hearing shall be necessary. However, prior to that hearing, the mortgagee or trustee shall file the notice of hearing in any other county where any portion of the property to be sold is located. Upon such hearing, the clerk shall consider the evidence of the parties and may consider, in addition to other forms of evidence required or permitted by law, affidavits and certified copies of documents. If the clerk finds the existence of (i) valid debt of which the party seeking to foreclose is the holder, (ii) default, (iii) right to foreclose under the instrument, (iv) notice to those entitled to such under subsection (b), and (v) that the underlying mortgage debt is not a ~~subprime~~ home loan as defined in ~~G.S. 45-101(4),~~ G.S. 45-101(1b), or if the loan is a ~~subprime~~ home loan under ~~G.S. 45-101(4),~~ G.S. 45-101(1b), that the pre-foreclosure notice under G.S. 45-102 was provided in all material respects, and that the periods of time established by Article 11 of this Chapter have elapsed, then the clerk shall authorize the mortgagee or trustee to proceed under the instrument, and the mortgagee or trustee can give notice of and conduct a sale pursuant to the provisions of this Article. A certified copy of any authorization or order by the clerk shall be filed in any other county where

any portion of the property to be sold is located before the mortgagee or trustee may proceed to advertise and sell any property located in that county. In the event that sales are to be held in more than one county, the provisions of G.S. 45-21.7 apply."

SECTION 4. This act becomes effective November 1, 2010, and expires on May 31, 2013.

PROGRAM(S) AFFECTED: Office of the Commissioner of Banks; Administrative Office of the Courts

EFFECTIVE DATE: November 1, 2010

BILL SUMMARY:
This bill would amend and extend the Emergency Program to Reduce Home Foreclosures Act (the "Act"). Under current law, the Act requires pre-foreclosure notices to be filed with regard to subprime mortgages. This notice must be sent to the homeowner and filed with the Administrative Office of the Courts. The bill would extend the requirement to all home loans. The bill would also require the mortgage servicer to pay a $75 fee when filing a pre-foreclosure notice. Such fee would be deposited with the State Home Foreclosure Prevention Trust Fund.

The State Home Foreclosure Prevention Trust Fund is an account that is established by the bill and managed and maintained by the Office of the Commissioner of Banks (the "NCCOB"). The bill requires that the NCCOB allocate the funds in the State Home Foreclosure Prevention Trust Fund to (i) the administrative costs of operating the program, (ii) grants and reimbursements to non-profit housing counseling agencies for providing foreclosure prevention counseling services, and (iii) grants and reimbursements to non-profit legal service providers for certain services related to foreclosure avoidance. Any funds remaining upon the expiration of the State Home Foreclosure Prevention Project will be directed to the North Carolina Housing Trust Fund.

The Act expires on October 31, 2010. The bill would extend the Act to May 31, 2013.

BACKGROUND:
The Act went into effect on November 1, 2008 in response to a substantial increase in mortgage foreclosures. The purpose of the Act was to bring borrowers and lenders together to avoid foreclosures where possible. The requirements of the Act are limited to subprime loans.

The Act requires mortgage servicers to send a notice to homeowners with certain subprime loans 45 days prior to the filing of a foreclosure proceeding (the "Notice"). In addition, the Act requires the mortgage servicer to file such Notice with the Administrative Office of the Courts. The Notice is entered into a database and allows the NCCOB to contact homeowners and encourage them to take steps to avoid foreclosure including referrals to a non-profit housing counselor who can contact the mortgage servicer. Mortgage servicers and housing counselors report that once they are in contact, two out of three homeowners are able to avoid foreclosure. The NCCOB has also made a series of grants to nonprofit housing counseling agencies to expand the availability of foreclosure prevention counselors.

ASSUMPTIONS AND METHODOLOGY:

I. Revenue

NCCOB has estimated that the following number of pre-foreclosure filings will be made between November 1, 2010, which is the effective date of the bill, and May 31, 2013, which is the

expiration of the bill. Their estimates are based on delinquency data from the Mortgage Bankers Association as well as economic forecasts regarding future delinquencies and foreclosure activity.

	FY 2010-11	FY 2011-12	FY 2012-2013
Number of Pre-Foreclosure Filings	84,000	56,000	51,333

Each mortgage servicer will pay a fee of $75 for each pre-foreclosure notice filed, which will lead to the following revenue:

	FY 2010-11	FY 2011-12	FY 2012-2013
Revenue	$6,300,000	$4,200,000	$3,850,000

II. Administrative Expense

Staff needed for the administration of the bill will include 15 time limited employees in the State Home Foreclosure Prevention Project ("SHFPP") as well as permanent staff from the NCCOB that will be partially allocated to the project. The SHFPP staff sends out an initial letter to each homeowner that receives a Notice. They also act as an intermediary between counselors and mortgage servicers, especially with regard to more difficult workout situations. In addition, they conduct legal reviews of certain loans, including the investigation of fraudulent situations, and respond to homeowner concerns and complaints with regard to the program.

The annual cost for the 15 employees in the SHFPP based on FY 2010-11 expected costs will be as follows:

	Salary	Health Insurance	Retirement	SS & Medicare	Total Per Employee	Number of Employees	Total
Director	$90,000	$4,929	$9,450	$6,885	$111,264	1	$111,264
Foreclosure Prevention Fellows	$78,000	$4,929	$8,190	$5,967	$97,086	5	$485,430
Foreclosure Prevention Paralegals	$42,000	$4,929	$4,410	$3,213	$54,552	8	$436,416
Audit	$50,000	$4,929	$5,250	$3,825	$64,004	1	$64,004
						15	**$1,097,114**

In addition, seven employees from NCCOB will be partially allocated to the foreclosure prevention program. These seven employees earn $220,159 per year inclusive of benefits and will be allocated 70% to the program which will bring about an allocated annual cost of $154,111.

Since the bill will only be in effect for 8 months of FY 2010-11 and 11 month of FY 2012-13, and these amounts will be increased by inflation each year, we expect the following staff expenses:

	FY 2010-11	FY 2011-12	FY 2012-13
SHFPP Staff Expense	$731,409	$1,187,516	$1,197,303
NCCOB Staff Expense	$102,741	$166,810	$168,185
Total Staff Expense	**$834,150**	**$1,354,326**	**$1,365,488**

In addition to the staff mentioned above, NCCOB has contracted with Connectinc. to operate a call center. The initial letter sent to each homeowner instructs them to call a 1-800 number for assistance. Connectinc. receives the initial call and makes the initial referral to a housing counseling agency. NCCOB is also planning an outreach campaign that will include primarily public service radio advertisements, but may also include television advertisements and a door to door campaign to contact especially hard to reach borrowers. We are expecting the following additional annual administrative expenditures which are based on expected FY 2010-11 costs:

IT	$119,028.00
Postage and supplies	$352,961.26
Telephone and call center	$243,516.00
Outreach	$175,000.00
Travel/registrations/training	$25,000.00
Total	**$915,505.26**

Since the bill will only be in effect for 8 months of FY 2010-11 and 11 month of FY 2012-13, and these amounts will be increased by inflation each year, we expect the following other administrative expenses:

	FY 2010-11	FY 2011-12	FY 2012-13
Total other administrative expenses	**$610,337**	**$939,675**	**$883,764**

Based on the above, we expect the following total administrative expenses:

	FY 2010-11	FY 2011-12	FY 2012-13
Total staff expense	$834,150	$1,354,326	$1,365,488
Total other administrative expenses	$610,337	$939,675	$883,764
Total Administrative Expense	**$1,444,487**	**$2,294,001**	**$2,249,252**

III. Counselor Funding Grants

Currently, about 10% of the homeowners that receive a pre-foreclosure notice receive counseling. The cost to counsel each homeowner is estimated at $325. Based on these assumptions, we expect the following grant schedule to counselors:

	FY 2010-11	FY 2011-12	FY 2012-13
Estimated pre-foreclosure filings	84,000	56,000	51,333
Estimated number to counselors (10%)	8,400	5,600	5,133
Cost to counsel ($325)	**$2,730,000**	**$1,820,000**	**$1,668,333**

IV. Legal Services Grants

The SHFPP will also make grants for legal services. After deducting administrative and counseling costs, the program has approximately $2.1 million left to allocate to legal services. This amount will likely be distributed over the three years in proportion to pre-foreclosure filings and we expect grants as follows:

	FY 2010-11	FY 2011-12	FY 2012-2013	Total
Number of pre-foreclosure filings	84,000	56,000	51,333	191,333
Percent of total	44%	29%	27%	100%
Funds for legal service grants	**$941,237.88**	**$627,491.92**	**$575,197.19**	**$2,143,927**

V. Effects on the Administrative Offices of the Courts

The bill would likely also increase the number of pre-foreclosure filings that the Administrative Offices of the Courts would receive since these notices would be required as a part of all home loan foreclosures rather than only subprime loans. The information is, though, received by the Administrative Offices of the Courts in an electronic format that they designate. As a result, we expect that the bill will not have a significant fiscal impact on the Administrative Offices of the Courts.

SENATE BILL 1362

Short Title:	Orange/Alamance Boundary.	(Local)
Sponsors:	Senators Kinnaird and Foriest.	
Referred to:	State and Local Government.	

May 25, 2010

A BILL TO BE ENTITLED

AN ACT TO ENABLE THE TRANSITION OF PROPERTIES OF THE AREA ALONG THEIR COMMON BOUNDARY BETWEEN ALAMANCE COUNTY AND ORANGE COUNTY DUE TO THE 2008 NORTH CAROLINA GEODETIC SURVEY WORK THAT DEPICTED AND MONUMENTED THE HISTORIC ORANGE COUNTY/ALAMANCE COUNTY BOUNDARY LINE AS DESCRIBED IN THE 1849 SURVEY ESTABLISHING ALAMANCE COUNTY.

The General Assembly of North Carolina enacts:

SECTION 1. The historic boundary line forming Alamance County from Orange County was described and surveyed in 1849. Over the years, this line became uncertain, and so pursuant to G.S. 153A-18(c) entitled 'Uncertain or Disputed Boundary,' both county boards of commissioners passed resolutions (Alamance County, December 17, 2007, and Orange County, January 18, 2008) to request that the North Carolina Geodetic Survey (hereinafter "NCGS") perform a preliminary resurvey and present a proposed map for consideration by both counties. During the 160 years since the 1849 survey, the exact location of the surveyed line has become uncertain, resulting in unintentional modifications to the boundary line affecting taxation, school attendance, zoning maps, and elections within and among Alamance County, Orange County, and the Town of Mebane.

SECTION 2. The Alamance County Board of Commissioners agreed by vote on April 21, 2008, and Orange County on May 20, 2008, to approve authorizing NCGS to conduct the preliminary survey and the placing of monuments by the NCGS consistent with their research to form a boundary baseline.

SECTION 3. In the 160 years since the initial survey of the Alamance County/ Orange County boundary line, Alamance and Orange Counties have entered multiple taxing agreements that have resulted in properties being taxed in one county by the adjoining county. Other situations have arisen in which children of one county attend school in the adjoining county and voters in one county have voted in the adjoining county. The General Assembly recognizes the difficulties in addressing these issues and authorizes Alamance County and Orange County to maintain the current taxing, elections, education, and any other recognized government functions in place until July 1, 2011.

SECTION 4.(a) On and after July 1, 2011, all papers, documents, and instruments required or permitted to be filed or registered that involve residents and property located in areas affected by the resurvey of the boundary line that previously may have been recorded in the adjoining counties shall be recorded in the county to which the property has been annexed.

SECTION 4.(b) All public records related to residents and property located in areas affected by the resurvey of the boundary line that were filed or recorded prior to July 1,

2011, in the adjoining counties shall remain in those respective adjoining counties where filed or recorded, and such records shall be valid public records as to the property and persons involved, even though they are recorded in an adjoining county which is a county where the property is no longer located as evidenced by the 2008 North Carolina Geodetic Survey and the subsequent partial resurvey pursuant to Section 7 of this act.

SECTION 4.(c) On and after July 1, 2011, all real and personal property located in areas affected by the resurvey of the boundary line that was subject to ad valorem taxation on January 1, 2011, shall be subject to ad valorem taxes in the county to which the property is annexed for the fiscal year beginning July 1, 2011, to the same extent as it would have been had it been correctly recognized by the tax departments of each county on January 1, 2011, except as hereinafter provided with respect to classified registered motor vehicles. On July 1, 2011, the tax administrators of the adjoining counties shall transfer to the respective county tax assessors the ad valorem tax listings and valuations for all real and personal property subject to ad valorem taxation in areas affected by the resurvey of the boundary line, except classified motor vehicles that were registered in the adjoining counties prior to July 1, 2011. For the fiscal year that begins July 1, 2011, all real and personal property located in areas affected by the resurvey of the boundary line that was subject to ad valorem taxation in that area on January 1, 2011, shall be assessed and taxed as follows:

(1) The ad valorem property taxes assessed on all classified registered motor vehicles registered or listed in adjoining counties between January 1, 2011, and June 30, 2011, shall be collected by the appropriate adjoining county tax collector, and all such taxes shall be retained by that adjoining county. The taxes on all classified registered motor vehicles registered after June 30, 2011, shall be assessed and collected by the county tax department in the county to which the real property wherein the classified registered motor vehicles are situated has been annexed.

(2) The values established by the particular adjoining county tax administrator on all personal property other than classified registered motor vehicles shall be used by the each county tax assessor without adjustment in computing taxes due for the fiscal year beginning July 1, 2011. All such taxes shall be assessed and collected by the appropriate county tax department.

(3) For the interim time period between the annexation of properties into their respective counties and until such time as the next regularly scheduled revaluation period, Alamance County and Orange County may select either of two methods of valuating the property annexed into their respective county by this act. The selection of either method by a county shall not give any individual or entity grounds for challenging such temporary valuation. Such methods are delineated as follows:

a. The values established by the adjoining counties' tax administrators on all real property formerly taxed in their respective county shall be adjusted by the appropriate county tax assessor by applying the difference between one hundred percent (100%) of such values and the appropriate county median ratio, as established by the Sales Assessment Ratio Study compiled by the North Carolina Department of Revenue as of January 1, 2012. The taxes determined by applying this method will be collected and retained by the appropriate county tax collector. The value of such property shall then be revalued according to the regularly scheduled revaluation period for each county.

b. The values established by the adjoining counties' tax administrators on all real property formerly taxed in their respective county shall be

adopted by the appropriate county tax assessor upon the transition of property to the adjoining county. The valuation of such property shall then be revalued according to the regularly scheduled revaluation period for each county.

(4) Beginning January 1, 2012, all property in areas affected by the resurvey of the boundary line that is subject to ad valorem taxation shall be listed, assessed, and taxed by the appropriate county tax administrator in the same manner as is prescribed by law for all other property located within each county.

(5) The final tax values of property subject to ad valorem taxation in areas affected by the resurvey of the boundary line as of January 1, 2011, shall be determined by the adjoining county tax administrator. Appeals to the North Carolina Property Tax Commission or to the courts by property owners of properties affected by the boundary line change shall be defended by both counties, and both counties shall be responsible for their costs and expenses, including attorneys' fees, incurred in connection with such appeals.

(6) Any unpaid taxes or tax liens for the fiscal year ending June 30, 2011, or for prior years on property subject to taxation in areas affected by the resurvey of the boundary line shall continue to be valid and enforceable by the respective adjoining county, including (i) the foreclosure remedies provided for in G.S. 105-374 and G.S. 105-375, and (ii) the remedies of attachment and garnishment provided for in G.S. 105-366 through G.S. 105-368. The Alamance County and Orange County tax administrators shall supply one another with a list of unpaid taxes as of July 1, 2011. Any such taxes collected by either county shall be promptly paid to the appropriate adjoining county, including accrued interest. The provisions of G.S. 105-352 (d) shall not apply to: those areas in an adjoining county previously taxed by either county outside the areas affected by the resurvey of the boundary line that shall forthwith be properly listed and taxed in the county to which they have been annexed; and those areas within each county that were in the past improperly listed and taxed by the adjoining county due to uncertainty as to the exact location of the true historic Alamance County/Orange County boundary line. Under the discovery process, each county may waive any interest and penalties accrued for tax years 2006-2011 in its sole discretion.

SECTION 4.(d) No cause of action, including criminal actions, involving persons or property located in areas affected by the resurvey of the boundary line that is pending on July 1, 2011, shall be abated, and such actions shall continue in the appropriate adjoining county.

SECTION 4.(f) The Jury Commission of each adjoining county shall revise its jury lists to add to or eliminate therefrom those persons subject to jury duty who reside in areas affected by the resurvey of the boundary line, said revised jury lists to be effective July 1, 2011.

SECTION 4.(g) The areas affected by the resurvey of the boundary line and located in each county shall be transferred into the appropriate superior court district, district court district, and prosecutorial district. The areas affected by the resurvey of the boundary line shall remain in the same congressional district, the same State House of Representatives district, and the same State Senate district.

SECTION 4.(h) Any cause of action relating to taxation as it is currently exercised by the counties along or near the Alamance County/Orange County boundary, or any other cause of action related in any way to the Alamance County/Orange County boundary or properties affected by changes in the boundary, is stayed, and no new cause of action relating to these matters shall be commenced until ratification of the official line by the North Carolina General Assembly. Thereafter, causes of action related to the taxation of property shall be defended as described in subdivision (5) of this Section 4(c) of this act.

SECTION 5. The Alamance County Board of Education shall cooperate with the Orange County Board of Education on behalf of residents that have students affected by this act to ensure that a transition is made that provides students and their siblings with a choice to remain in their current school system until graduation from high school for so long as they reside in the residence affected by this act.

SECTION 6. Any child who was a resident county of any area county annexed by this act on its date of ratification and who was a student in the Orange County or Alamance County school system during the 2009-2010 or 2010-2011 school year, and the siblings of any such person, may attend school in the same school system as their siblings without necessity of a release or payment of tuition. Any such student, while attending the Orange County school system, shall be considered a resident of Orange County for all public school purposes, including transportation, athletics, and funding formulas. Any such student, while attending the Alamance County school system, shall be considered a resident of Alamance County for all public school purposes, including transportation, athletics, and funding formulas. Notice must be given to all affected school systems by the parent or guardian in order to exercise the privilege granted by this section.

SECTION 7. Alamance County and Orange County shall establish an administrative method by which owners of property that is annexed or bisected by the North Carolina Geodetic Survey line shall have the opportunity to petition Alamance County and Orange County either to remain in the county to which their property was previously assigned or, in the case of a bisection, to be assigned to one county or the other, save and except that small lot subdivisions shall not be divided on a lot by lot basis. Notice of such opportunity to petition shall be delivered by United States mail to the affected property owners no later than 30 days after the effective date of this act. All administrative reviews on such petitions shall be concluded and final no later than December 15, 2010.

SECTION 8. Alamance County and Orange County shall cause areas of the boundary line to be resurveyed in areas where property owners have met the established administrative criteria to be assigned to a specific county and in areas where for practical or other reasons the North Carolina Geodetic Survey line is not reasonable or is unduly burdensome.

SECTION 9. Upon the conclusion of the survey and petition process established in Section 7 of this act, and no later than May 15, 2011, Alamance County and Orange County shall submit to the North Carolina General Assembly for ratification a completed survey that includes both the North Carolina Geodetic Survey line and all mutually agreed upon modifications thereto.

SECTION 10. The elected and appointed officials and employees of Alamance County and Orange County shall incur no liability under any local or North Carolina statute, law, ordinance, rule, or regulation for any act or failure to act relating to taxation, school attendance, land-use controls, elections, or any other governmental function as it relates to the currently utilized boundary line of Alamance County and Orange County.

SECTION 11. Owners and future owners of properties affected by this act shall be put on notice of the terms and conditions of this act by a written instrument filed in the office of the register of deeds of the county to which the property has been annexed.

SECTION 12. This act becomes effective July 1, 2010.

SENATE BILL 1362: Orange/Alamance Boundary

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	June 9, 2010
Introduced by:	Sen. Kinnaird	**Prepared by:**	Heather Fennell
Analysis of:	First Edition		Committee Counsel

SUMMARY: SB 1362 enables the transition of properties along the common boundary between Alamance County and Orange County as a result of the North Carolina Geodetic Survey's assessment. This act becomes effective July 1, 2010.

BACKGROUND: The historic boundary line between Alamance County and Orange County was described and surveyed in 1849. Over the past 160 years since the 1849 survey, due to the uncertainty of the exact location of the surveyed line, there have been unintentional modifications to the boundary line affecting taxation, school attendance, zoning maps, and elections within and among Alamance County, Orange County, and the Town of Mebane. Consequently, the North Carolina Geodetic Survey performed a preliminary resurvey and presented a proposed map for consideration by both counties.

BILL ANALYSIS:

Sections 1 and 2 of the bill provides background information on the historic boundary line forming Alamance County from Orange County, outlines some of the issues that have arisen as a result of the uncertain location of the boundary line, and states the Counties have authorized by resolution the North Carolina Geodetic Survey to conduct the preliminary survey and the placing of monuments.

Section 3-6 authorizes Alamance County and Orange County to maintain the current taxing, elections, education, and any other recognized government functions in place, until July 1, 2011 and provides the terms and conditions governing the transition of properties along the boundary line regarding real and personal property taxes, legal causes of action, elections/voter registration, jury duty, court districts, and school assignments and attendance.

Sections 7 and 8 require Alamance and Orange counties to establish an administrative method by which property in the affected areas may petition the counties regarding the assignment of their property to one of the counties. This section also requires that the notice of the right to petition be mailed to affected property owners no later than 30 days after the effective date of this act. The aeas of the boundary line must be resurveyed where property owners have met the established criteria or where the survey line is unreasonable or unduly burdensome.

Section 9 requires Alamance and Orange counties to submit a completed survey that includes the North Carolina Geodetic Survey line and all mutually agreed upon modifications to the General Assembly, no later than May 15, 2011.

Section 10 provides that appointed and elected officials and employees of Alamance and Orange counties shall not incur any liability as to the currently utilized boundary line between the two counties.

Section 11 directs that current and future property owners affected by this act be advised as to the terms and conditions by written notice filed in the office of the register of deeds office of the county in which the property has been annexed.

EFFECTIVE DATE: This act becomes effective July 1, 2010.

SECTION 5.(a) The Department of Agriculture and Consumer Services may study the State's role in reducing the number of unwanted dogs and cats and in ensuring the humane treatment of dogs and cats by breeders, shelters, and other facilities that house dogs and cats. As part of this study, the Department may do the following:

(1) Conduct a comprehensive evaluation of the need for revisions of or additions to existing regulatory authority designed to address animal welfare issues in the State including a review of existing State and federal law.

(2) Evaluate the existing needs among county and State agencies for improving responses to animal welfare incidents.

(3) Consider the extent to which the existing infrastructure of the State Animal Response Team may be expanded to handle animal emergencies that involve companion animals and the feasibility and needs for such an expansion.

(4) Survey local government to determine the total fiscal demand for a voluntary Statewide program to foster the spaying and neutering of dogs and cats for the purpose of reducing the population of unwanted animals.

(5) Review data regarding the economic impact of animal sheltering and other animal welfare programs, including the costs of such programs to counties and the State and identify ways that State might reduce the number of animals being sent to animal shelters and whether more cost-effective means exist to control the pet population without compromising animal welfare.

(6) Evaluate the needs of the Animal Welfare program within the Department, specifically with regard to dealing with inquiries from the public, inspection capability and frequency, and staff development and training for Department personnel and others in the State that conduct animal welfare work.

(7) Consult with other organizations and entities it deems appropriate.

(8) Examine any other issues the Department deems pertinent to its charge under this act.

SECTION 5.(b) The Department of Agriculture and Consumer Services shall conduct the study set out in Section 5(a) of this act within funds available for the 2010-2011 fiscal year. The Department may make interim reports as it deems necessary and shall report its findings and recommendations to the Chairs of the House Agriculture Committee, the Senate Agriculture, Environment, and Natural Resources Committee, and the House and Senate Appropriations Subcommittees on Natural and Economic Resources, on or before May 1, 2011.

SECTION 6. This act becomes October 1, 2010.

SENATE BILL 1332:
Spay/Neuter Program Funding

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	June 16, 2010
Introduced by:	Sen. McKissick	**Prepared by:**	Heather Fennell
Analysis of:	PCS to First Edition S1332-CSTDf-92		Committee Counsel

SUMMARY: ***The proposed committee substitute to Senate Bill 1332 would move the Spay/Neuter Program from the Department of Health and Human Services to the Department of Agriculture and Consumer Services and changes the source of funding for the program.***

CURRENT LAW: Dogs and cats are required to be vaccinated against rabies. Issued by a licensed veterinarian or a certified rabies vaccinator, a rabies tag represents proof of vaccination and must be worn at all times by the animal. Veterinarians and other vaccinators may obtain the tags from either the Department of Health and Human Services or the private market. The fee for tags provided by the Department may not exceed the actual cost of the tag, links, and rivets, transportation costs, plus the following:

- 5¢ to fund rabies education and prevention programs.
- 20¢ to fund the Spay/Neuter Program.

The Spay/Neuter Program is operated by the Department of Health and Human Services. The voluntary statewide program fosters the spaying and neutering of dogs and cats in the state. Cities and counties that offer programs to reduce the costs of spaying and neutering for the pets of low income individuals may apply for reimbursement from the Program. The Spay/Neuter Account is also funded by the additional fee charged for the Animal Lovers special license plate and any other funds available from appropriations or from contributions or grants from public or private sources.

The funds in the Account may be used as follows:

- 20% is used to develop and implement the statewide education component of the Spay/Neuter Program.
- Up to 20% may be used to defray costs of administering the Spay/Neuter Program.
- Remaining funds are distributed quarterly to eligible counties and cities seeking reimbursement for the reduced-costs spay/neuter surgeries performed during the previous year.

BILL ANALYSIS:

Administration: The PCS to Senate Bill 1332 moves the Spay/Neuter Program from the Department of Health and Human Services to the Department of Agriculture and Consumer Services. The bill would also make the following administrative changes to the Program:

- Authorizes the Department of Agriculture to develop rules for the distribution of funds between the Counties. Previously, the distribution of funds was based on the proportion of dogs and cats vaccinated against rabies in each counties as compared to other counties in the same development tier.

- Provides that counties or cities that fail to provide required reports on each animal shelter operated under contract by the city or county would be ineligible to receive funding under the Spay/Neuter Program for the calendar year the report is due.
- Requires the Department of Agriculture to notify cities and counties of the amount of funds available for distribution in the Spay/Neuter Account.

Funding: The PCS to Senate Bill 1332 changes the funding for the Spay/Neuter Program and the Rabies Education Program in the following ways:

- Raises the rabies tag fee for rabies education to 15¢ from 5¢.
- Eliminates authority to use funds from the Spay/ Neuter Account for rabies education and prevention programs.
- Eliminates the 20¢ rabies tag fee for the Spay/Neuter Program.
- Increases the fee for the "Animal Lovers" special plate to $30 from $20.

Study: The PCS to Senate Bill 1332 directs the Department of Agriculture to conduct a study of the State's role in reducing the number of unwanted dogs and cats and ensuring the humane treatment of dogs and cats by breeders, shelters, and other facilities that house dogs and cats.

EFFECTIVE DATE: This act is effective October 1, 2010.

PRINCIPAL DEPARTMENT(S) & PROGRAM(S) AFFECTED:

Department of Agriculture & Consumer Services (DACS)

Division of Public Health (DPH), Department of Health & Human Services(DHHS)

BILL SUMMARY:

The PCS for Senate Bill 1332 (SB 1332) transfers the Spay/ Neuter portion of the existing Spay/ Neuter/ Rabies Program from the Division of Public Health (DPH) within the Department of Health and Human Services (DHHS) to the Department of Agriculture and Consumer Services (DACS). S1332 also changes the funding mechanism for the Spay/ Neuter and Rabies programs and authorizes DACS to use up to 20% of spay/ neuter funds for education and another 20% for program administration. SB 1332 allows individuals whose annual household income is under 300% of the federal poverty guideline to be eligible for low cost spay/ neuter programs. Under the current program, an individual must qualify for at least one public assistance program administered by DHHS. To be eligible, SB 1332 requires that each county make rules or publish guidelines to designate what evidence is required to prove eligibility.

Fifty percent of reimbursements for low-cost spay/ neuter is distributed to Tier 1 counties and 50% is distributed to Tier 2 and 3 counties. SB 1332 directs DACS to develop rules to distribute funding within these categories. Presently, funding is distributed by proportion of rabies vaccinations in a given city or county relative to total vaccinations by all eligible applicants. In addition, unlike the existing program, DACS must provide guidance on the amount of funding available (and expected) for reimbursement to each city or county.

Lastly, Section 5(a) requires DACS to study the State's role in reducing the number of unwanted dogs and cats and ensuring the humane treatment of dogs and cats by breeders, shelters, and other facilities. This study must be conducted from funds available to the department; DACS must report the finding of this study on or before May 1, 2011.

ASSUMPTIONS AND METHODOLOGY:

SB 1332 transfers the Spay/ Neuter program to DACS and leaves the Rabies program at DPH. Currently, the Spay/ Neuter/ Rabies program is completely funded by fees and under SB 1332 the programs will remain receipt-supported. However, SB 1332 will result in both new revenue and new operating costs for the Spay/ Neuter program at DACS; the source and amount of revenues for the Rabies program will change but expected operating expenses will not. Reimbursements costs will transfer from DPH to DACS.

Revenue

The Spay/ Neuter/ Rabies program is currently funded both by a fee on the sale of rabies vaccination tags and by the sale of Animal Lovers license plates. SB 1332 changes the funding mechanism for these programs. The bill becomes effective October 1, 2010. Thus, revenues will continue to be collected at their current level for three months of FY 2010-11 and at the new rate for nine months of FY 2011-12. Table 1 provides actual rabies tag and license plate revenue for FY 2008-09 as well as an estimate of program revenues under SB 1332.

* DPH was unable to provide the actual number of tags sold. Revenue received does not tie exactly to number of tags due to budgeting discrepancies such as carry forwards.

Rabies Vaccination Tags

Currently, a 25 cent fee is applied to rabies vaccination tags sold by DHHS; of this, 5 cents goes to the Rabies program and 20 cents to Spay/ Neuter. In calendar year 2009, DHHS sold over 800,000 rabies tags for a total of just over $219,000 in revenue -- $43,500 for Rabies and $175,500 for Spay/ Neuter. SB 1332 eliminates the 20 cent spay/ neuter fee but increases the rabies fee to15 cents per tag with all revenues dedicated to the Rabies Program. DHHS provided historical data on the revenue from rabies tags but was unable to provide the actual number of tags sold. Due to budgeting discrepancies such as carry forwards, revenue received do not tie exactly to actual number of tags sold. Based on the revenue data, Table 2 shows FRD's estimate of the number of tags sold over the last three fiscal years.

Table 2: Approximate Number of Rabies Tags Sold by Fiscal Year

	FY 2006-07	FY 2007-08	FY 2008-09
Number of Rabies Tags Sold	1,056,960	1,044,830	816,400

DPH experienced a significant decline in the purchase of rabies tags due to the addition of the 20 cent spay/ neuter fee in FY 2008-09. Since both DPH and private companies sell rabies tags, sales are sensitive to price changes. SB 1332 lowers the fee on DPH tags by 10 cents, and due to this lower fee, DPH believes that sales of their rabies tags will increase to close to FY 2007-08 levels. Accordingly, DPH recommended that FRD assume that they will sell 1,026,000 rabies tags and that number of rabies tags sold will remain constant over the next five years, resulting in annual revenue of $153,900.

Animal Lovers License Plates

The Animal Lovers license plate costs $20, with $10 deposited in the Special Registration Plate Account and $10 going to the Spay/ Neuter Account. In FY 2008-09, 8,734 license plates were sold for total revenue of $87,340. SB 1332 increases the cost of the license plate to $30, allocating the additional $10 per plate to the Spay/ Neuter Account. DACS estimates that demand for the special licenses plates will decrease slightly to 8,000 plates due to the price increase, resulting in an estimated $160,000 for the Spay/ Neuter account.

Based on historical data showing strong demand for the Animal Lovers license plate (See Table 3), FRD maintains that the sale of Animal Lovers license plates will continue to increase over the next five years. To account for the increase in price, FRD agrees that fewer license plates will be sold in FY 2010-11 but that growth over the next five years will be 3.4% annually, which is the annual growth between December 2008 and 2009.

Year over year growth		15.5%	19.5%	12.8%	3.4%

Under SB 1332, total revenues dedicated to Spay/ Neuter and Rabies programs are expected to be closer to $313,900 -- $153,900 for Rabies and $160,000 for Spay/ Neuter. Table 4 provides expected annual revenue by funding source under SB 1332 and under current law.

Operating Expenses

All operations of both the Spay/ Neuter and Rabies programs are receipt-supported and do not impact the General Fund. However, SB1332 will impact receipt-supported operations at DACS and DPH.

Division of Public Health, DHHS

The current Spay/ Neuter/ Rabies program includes educational efforts for spay/ neuter and rabies as well as the spay/ neuter reimbursement program. Eighty percent of one full-time equivalent (FTE) runs these programs. Program costs, not including reimbursements to cities and counties, are $103,000 per year, leaving approximately $199,000 for reimbursements annually. According to DPH, the majority of this FTE's time is spent on the Rabies portion of the Spay/ Neuter/ Rabies program. SB 1332 does not transfer this position to DACS and Rabies program expenses are expected to remain constant. The position will be entirely dedicated to the Rabies Program. However, Spay/ Neuter funds partially pay for this position and Rabies program operations. To account for this loss of revenue, SB 1332 increases the fee on rabies tags from 5 cents to 15 cents to cover Rabies operating expenses. DPH will no longer be responsible for the reimbursement of cities and counties. This expense will be eliminated from DPH and undertaken by DACS. Over the last four quarters, DPH spent $172,751 in reimbursements.

Department of Agriculture and Consumer Services

SB 1332 allows DACS to use 20% of spay/ neuter revenues for administration and 20% for education. At least 60% of revenues credited to the Spay/ Neuter Account must be used for reimbursement of cities and counties that provide low-cost spay/ neuter programs. In FY 2010-11 $64,000 is expected to be available for administration and education and $96,000 for reimbursements, assuming no other sources of revenue support the spay/ neuter program.

Reimbursements

DACS will distribute funds to cities and counties that have low-cost spay/ neuter programs for eligible residents. Approximately 28% of these funds were distributed to Tier 1, 22% to Tier 2 counties, and 49.5% to Tier 3 counties. Demand for the program is not expected to change significantly due to SB 1332; the changes to the actual spay/ neuter program are minimal and should have little impact on local programs. DACS must develop rules for distributing funding among Tier 1 counties and among Tier 2 and 3 counties. This responsibility is within the scope of duties for existing staff within DACS and will not result in increased operating costs.

Education

According to DACS, currently, there is little outreach or education conducted regarding the Spay/ Neuter program. DACS would like to implement an educational campaign that both advertizes the license plate and increases awareness of the importance of spaying and neutering pets. Advertising the license tag should increase funds available for reimbursement. DACS indicates that they are consistently contacted by individuals and nonprofits asking why the Department does not "push" spay/neuter rather than euthanasia. The Department would like to develop a program that provides materials to these organizations assuming they meet certain criteria (such as having an education/ outreach plan and being able to provide follow-up information on outreach activities). DACS estimates that this materials and supplies for this education program would cost $50,000 annually. SB 1332 authorizes DACS to use up to 20% of spay/ neuter funds for education. Given current revenue assumptions ($160,000), DACS could spend at most $32,000 on an education program.

DACS estimates that they will need one Administrative Officer 1, salary grade 67, to administer the Spay/ Neuter reimbursement and education program. The minimum salary for this pay grade is $34,065. The current Spay/ Neuter/ Rabies program operates with 80% of one FTE. Therefore, FRD assumes that DACS could operate the Spay/ Neuter program with half of one FTE. Table 5 provides FRD's expected personnel and operating costs to administer the Spay/ Neuter program. FRD has assumed that DACS will spend the maximum allowable, up to 20% each, on administration and on education.

TECHNICAL CONSIDERATIONS:
1. SB 1332 requires that each county make rules or publish guidelines to designate what evidence is required to prove eligibility. DACS notes that counties and cities are not required to submit these rules/ guidelines, which could make ensuring compliance with this requirement difficult.
2. Section 4.(b) amends G.S. 20-97.7(b); G.S. 20-97.7(b) does not exist. This section should amend G.S. 20-79.7(b).

SENATE BILL 1210:
Increase Licensure Fees/Athletic Trainers

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	June 16, 2010
Introduced by:	Sen. Hoyle	**Prepared by:**	Heather Fennell Committee Counsel
Analysis of:	First Edition		

SUMMARY: Senate Bill 1210 would authorize the Board of Athletic Trainer Examiners to increase licensure fees.

CURRENT LAW: The North Carolina Board of Athletic Trainer Examiners was established in 1997 to promote the health, safety and welfare of the North Carolina public through the licensure and regulation of Athletic Trainers. The Board consists of 4 certified athletic trainers with at least 5 years experience as a trainer, an orthopedic surgeon, a family practice physician or pediatrician, and one public member. Applicants for licensure must apply to the Board and pass an exam administered by the National Athletic Trainers' Association Board of Certification. Each license must be renewed yearly. The fees charged by the Board are used to pay all expenses incurred by the Board in carrying out its duties.

BILL ANALYSIS: Senate Bill 1210 would authorize the Board to increase the fees it charges as follows:

	Current Fee	Proposed Fee
New License	$100	$200
License Renewal	$50	$75
Reinstatement of Lapsed License	$75	$100

The fees have not been increased since the formation of the Board in 1997.

EFFECTIVE DATE: This act is effective when it becomes law.

BACKGROUND: The Board would like to increase the fees to make up for lost revenues due to a drop in the number of licensees, and to increase funds available for hiring a full-time investigator, disciplinary hearings, management fees, and attorney fees.

BILL SUMMARY:
This bill would authorize the North Carolina Board of Athletic Trainer Examiners (the "Board") to increase licensure fees as follows:

	Current Fee	Proposed Fee
Issuance of a License	$100	$200
License Renewal	$50	$75
Reinstatement of Lapsed License	$75	$100

BACKGROUND:
The Athletic Trainers Licensing Act (the "Act") requires that every athletic trainer in North Carolina must be licensed by the Board. Qualifications for licensure in North Carolina include good moral character and graduation from a 4 year college in a course of study approved by the Board. In addition, a candidate must pass the examination administered by the National Athletics Trainers' Association Board of Certification. Candidates must then file a written application with the Board and pay an application fee to receive licensure. Athletic trainers must then renew their license annually and pay a renewal fee.

The Board determines the standards for both receiving and renewing licenses. In addition, the Board is authorized to take disciplinary action against a licensee. Disciplinary matters often require investigation by the Board.

All fees payable to the Board are deposited in the Board's account and are used to pay for all of the expenses incurred in carrying out the Act. The fees set forth in the Act have not changed since the Act became law in 1997.

ASSUMPTIONS AND METHODOLOGY:

I. Current Situation

In 2009, the Board received approximately $60,000 in revenue from fees. In addition, it currently spends approximately $60,000 per year in administering the Act. In calendar year 2009, it had the following expenditures:

Attorney Fees	$25,143
Management Fees	$25,000
Board Reimbursements and Expenses	$4,719
Accounting Fees	$2,095
Other Expenditures	$4,605
Total	**$61,563**

At the end of calendar year 2009, the Board had approximately $90,000 of assets which were composed primarily of bank deposits and $30,000 of liabilities composed of accounts payable and deferred revenue.

The number of licensees has recently fallen which is expected to result in a $10,000 reduction in fee collection. The number of athletic trainers has fallen statewide primarily due to budget reductions at educational institutions. The Board is currently projecting license fees and associated revenue for 2010 as follows:

	Number	Fee	Total
License Issuance	70	$100	$7,000
License Renewals	840	$50	$42,000
Reinstatements	5	$75	$375
Expected 2010 Revenue			**$49,375**

II. Increase in Revenue.

We expect that the proposed fee increase will increase revenue as follows:

	Number	Fee Increase	Total
License Issuance	70	$100	$7,000
License Renewals	840	$25	$21,000
Reinstatements	5	$25	$125
Total			**$28,125**

III. Expected Use of Additional Revenue

The Board is seeking the fee increase primarily to fund the following items:

Mitigation Due to Reduction in Number of Licensees	$10,000
Management Fees	$7,000
Attorney Fees	$7,000
Board Reimbursements and Expenses	$1,500
Hearings Expenses	$2,000
Total	**$27,500**

Approximately $10,000 of the fee increase will be used to mitigate the reduction in revenue brought about by the reduction in the number of licensees.

The Board would also like to increase the fees paid to its management provider and attorney. Each received a $5,000 reduction in pay last year and did not receive an increase in the two preceding years. The Board is seeking to increase their compensation by $7,000 each next year. The Board is also seeking to increase their face-to-face meetings and is seeking an additional $1,500 of reimbursements and expenses to hold such meetings. In addition, the Board would like to allocate $2,000 to formal hearings related to disciplinary matters.

In addition to the above expenses, the Board would also like to contract with an independent investigator to assist in its investigations of licensees with any funds remaining. Board members currently investigate all disciplinary matters. The cost associated with an independent investigator will vary depending on the caseload, but could run as high as $8,000 per year if the Board becomes involved with especially difficult disciplinary matters. In addition, if funds permit, the Board is seeking to increase their mailings which would lead to an increase in postage, supplies and printing fees.

SENATE BILL 1389: Graham Deannexation

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	June 16, 2010
Introduced by:	Sen. Foriest	**Prepared by:**	Heather Fennell Committee Counsel
Analysis of:	PCS to First Edition S1389-CSTDx-90		

SUMMARY: ***Senate Bill 1389 is a local bill that would deannex 234 acres from the corporate limits of the City of Graham, as requested by the City and evidenced by a resolution adopted by the City Council on May 4, 2010. The proposed committee substitute for the bill changes the effective date.***

[As introduced, this bill was identical to H1960, as introduced by Reps. Bordsen, Ingle, which is currently in House Local Government II, if favorable, Finance.]

CURRENT LAW: While a city or town has statutory authority to annex property, either voluntarily or involuntarily depending upon certain circumstances, there is no statutory authority to de-annex property. Deannexation requires an act of the General Assembly.

BILL ANALYSIS: Senate Bill 1389 would deannex 234 acres from the corporate limits of the City of Graham. The area was annexed in order to provide city sewer and water to a planned large scale development. The Developer of the property responsible for extending city sewer and water lines to the development closed in 2009 before installing the lines. The City estimates the cost of extending the water and sewer lines to this area to be $1.5 million. The large scale development originally planned for the area is not economically feasible at this time. In order to allow the area to be sold in smaller lots for development, the City would like to deannex the area.

EFFECTIVE DATE: This act is effective June 30, 2010.

A BILL TO BE ENTITLED

AN ACT TO AUTHORIZE THE CITIES OF CONCORD AND KANNAPOLIS TO ANNEX CERTAIN PROPERTIES CURRENTLY TOTALLY SURROUNDED BY THE CORPORATE LIMITS.

The General Assembly of North Carolina enacts:

SECTION 1. Notwithstanding the provisions of G.S. 160A-48, a municipality to which that section applies may adopt ordinances annexing property completely enclosed on May 1, 2010, by the corporate limits of the municipality, if the ordinance makes a finding that the total acreage being annexed is less than five percent (5%) of the total acreage within the corporate limits of the municipality prior to the annexation and also either:

(1) Makes a finding based upon circumstances and evidence satisfactory to the municipality that the annexation is necessary for the orderly growth and development of the municipality; or

(2) Makes a finding based upon circumstances and evidence satisfactory to the municipality that the annexation improves the ability to provide public safety services.

SECTION 2. The municipality shall fix a date for a public hearing on the annexation and publish notice of the public hearing at least 10 days before the day of the hearing.

SECTION 3. The procedure for recording any annexation under this act is as provided in G.S. 160A-51.

SECTION 4. Any annexation ordinance adopted under this act shall be adopted before December 31, 2020.

SECTION 5. This act applies only to the Cities of Concord and Kannapolis.

SECTION 6. This act is effective when it becomes law.

SENATE BILL 1444: Kannapolis/Concord Doughnut Hole Annexations

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	June 15, 2010
Introduced by:	Sen. Hartsell	**Prepared by:**	Cindy Avrette Committee Counsel
Analysis of:	PCS to First Edition S1444-CSRBx-89		

SUMMARY: ***Senate Bill 1444[1] would authorize Kannapolis to annex certain properties that are surrounded by its municipal boundaries. The proposed committee substitute would give the City of Concord the same ability to annex 'doughnut holes' within its corporate limits.***

CURRENT LAW: Under G.S. 160A-48, a municipal governing body may annex property that meets statutory requirements. The requirements generally ensure that the property is contiguous or adjacent to the municipality's boundaries, is not located within the corporate limits of another municipality, and is urban in nature.

Sometimes, as a result of a series of annexations, there may be parcels of property surrounded by the boundaries of a municipality but lying outside the municipality's jurisdiction. These so called 'doughnut holes' often fall outside the statutory requirements for annexation because they may be vacant lots or property that is not developed. Also, these parcels may be serviced by the city for police and fire protection even though the property owners do not have to pay city taxes for these services.

BILL ANALYSIS: In the City of Kannapolis, there are several parcels of land that lie outside the municipal boundaries of the town, but are surrounded by property within the municipal limits. The doughnut holes have existed for about 15 years. They were created through a series of annexations over the years. Most of the property is vacant. Senate Bill 1444 would give the City of Kannapolis the authority to annex the property, after notice and public hearing, if the city council adopts an ordinance finding the following:

- The property was completed surrounded by the municipal limits on May 1, 2010.
- The total acreage of the property being annexed is less than 5% of the total acreage within the corporate limits prior to the annexation.
- The annexation is necessary for the orderly growth and development of the municipality or the annexation improves the ability to provide public safety services.

The proposed committee substitute gives the same authority to the City of Concord.

EFFECTIVE DATE: The act becomes effective when it becomes law. An annexation ordinance adopted under this act must be adopted before December 31, 2020.

SENATE BILL 1215:
Economic Incentives Alignment & Changes

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	June 16, 2010
Introduced by:	Sen. Jenkins	**Prepared by:**	Dan Ettefagh Committee Counsel
Analysis of:	PCS to First Edition S1215-CSMC-34		

SUMMARY: ***This bill would (1) harmonize sunset and reporting features and requirements across the State's various economic incentives, (2) create a single, unified economic incentives report that contains the information currently reported separately for each economic incentive, and (3) delete obsolete credits under Articles 3C and 3G. This bill was a recommendation of the Revenue Laws Study Committee.***

[As introduced, this bill was identical to H1880, as introduced by Rep. McComas, which is currently in House Commerce, Small Business, and Entrepreneurship, if favorable, Finance.]

CURRENT LAW: Under current law, many of the economic incentives enacted as the Article 3 credits, the income tax credits, and the sales and use tax benefits have some combination of reporting requirements[1] and sunset provisions; however, those requirements are not uniformly set out in each incentive. Where reporting requirements are set out, there are inconsistencies with respect to itemization by taxpayer,[2] itemization by credit,[3] the reporting entity,[4] and other miscellaneous differences.

Under current law, there are two economic incentives that are not utilized. The first is the credit in Article 3C for large recycling facilities. This credit was intended for Wisconsin Tissue; however, that company never located in North Carolina. The second credit is the credit for major computer manufacturing facilities in Article 3G. Other than the Dell facility for which the credit was enacted, no other taxpayer has utilized that credit.

BILL ANALYSIS: Part I of the bill requires data on each of the State's economic incentives to be reported in a single economic incentives report and establishes sunsets for various economic incentives, as provided in the chart below. Part II of the bill eliminates obsolete economic incentives. Part III of the bill makes conforming changes to various statutory provisions.

Section Number(s)	Effect
1.2	Adds requirement of itemization by taxpayer and by credit to the Art. 3B (business and energy tax credits) report
1.4, 1.6	Adds requirement of itemization by taxpayer to Arts. 3D (historic structure rehab) and 3E (low-income housing) report, respectively

[1] Currently, there is no reporting requirement for Article 3H or for sales and use tax refunds for analytical services, for railroad intermodal facilities, or for vehicle parts for motorsports racing teams.

[2] While itemization by taxpayer for economic incentives credits is generally required, it is not currently required by the reporting requirements of Articles 3B, 3D, or 3E.

[3] Both Articles 3B and 3J contain multiple credits. While Article 3J's reporting provisions require itemization by credit, Article 3C's reporting provisions do not.

[4] Generally speaking, the reporting entity for each economic incentives report required is the Department of Revenue; however, Article 3C (in which Revenue and Commerce jointly report) and for the credit for utilizing State ports to export cigarettes while increasing employment (in which the corporation claiming the credit is the reporting entity) differ.

1.8	Creates reporting requirement for Art. 3H (mill property rehab)
1.13	Transfers reporting requirement for G.S. 105-130.46 (credit for exporting cigarettes and increasing employment) from the corporation claiming the credit to DOR and harmonizes reporting requirements
1.17, 1.18, 1.19, 1.20	Separates and categorizes the current sales and use tax refunds, all of which are currently found in G.S. 105-164.14, into three types of refunds: (1) refunds that were enacted for non-industrial facilities for economic incentives purposes (found in the newly created G.S. 105-164.14A), (2) refunds that were enacted for industrial facilities for economic incentives purposes (found in the newly created G.S. 105-164.14B), and (3) refunds that were not enacted for economic incentives purposes (remaining in G.S. 105-164.14)
1.21	Creates the economic incentives report
1.1, 1.2, 1.3, 1.4, 1.6, 1.7, 1.9, 1.10, 1.11, 1.12, 1.13, 1.14, 1.15, 1.16	Makes conforming and technical changes to the reporting requirement necessary to transfer the current, separate reports into a new, unified annual report.
1.5, 1.18	Proposes sunsets for Art. 3D historic structure rehab (2014), and for the sales and use tax refund for low-tier machinery (aligns sunset to Art. 3J), motorsports racing vehicle parts (2014), analytical services supplies (2013), and railroad intermodal facilities (2038).
2.1	Eliminates credit for large recycling facilities
2.2	Repeals Art. 3G (computer manufacturing)
Part III	Conforming changes

EFFECTIVE DATE: This act would become effective July 1, 2010, and includes effective date language that would ensure that sales and use tax refund eligibility would not be affected.

A BILL TO BE ENTITLED

AN ACT TO STRENGTHEN PUBLIC CONFIDENCE IN THE ELECTION PROCESS FOR COUNCIL OF STATE OFFICES THAT REGULATE INDIVIDUALS AND BUSINESSES IN THIS STATE; TO PROVIDE LIMITS ON THE TRADING OF INFLUENCE OR POSITION FOR GAIN; TO INCREASE THE PUNISHMENT FOR MAKING CAMPAIGN CONTRIBUTIONS IN THE NAME OF ANOTHER; TO INCREASE ACCESSIBILITY TO INFORMATION RELATED TO CANDIDATE CAMPAIGN COMMITTEES; TO STRENGTHEN PUBLIC CONFIDENCE IN GOVERNMENT BY INCREASING THE REVOLVING DOOR PERIOD AND APPLICABILITY; TO STRENGTHEN TRANSPARENCY OF GOVERNMENT THROUGH ADDITIONAL DISCLOSURES BY PUBLIC SERVANTS; TO INCREASE ACCOUNTABILITY OF PUBLIC SERVANTS, APPOINTEES OF THE GOVERNOR, AND STATE EMPLOYEES BY PERMITTING THE GOVERNOR TO ADOPT MINIMUM STANDARDS OF ETHICAL CONDUCT; TO STRENGTHEN TRANSPARENCY OF GOVERNMENT THROUGH INCREASING ACCESSIBILITY TO PUBLIC RECORDS; TO MAKE TECHNICAL CHANGES; AND TO MAKE OTHER CHANGES.

The General Assembly of North Carolina enacts:

SECTION 1.(a) Article 22J of Chapter 163 of the General Statutes reads as rewritten:

"Article 22J.

"The Voter-Owned Elections Act.

"§ 163-278.95. Purpose and establishment of Voter-Owned Elections Act.

The purpose of this Article is to ensure the vitality and fairness of democratic elections for elected offices that implement and provide oversight on the regulation or investigation of individuals, businesses, or government in North Carolina to the end that any eligible citizen of this State can realistically choose to seek and run for that public office. It is also the purpose of this Article to protect the constitutional rights of voters and candidates from the detrimental effects of increasingly large amounts of money being raised and spent in North Carolina to influence the outcome of elections. It is essential to the public interest that the potential for corruption or the appearance of corruption within regulatory or investigatory offices overseen by elected officials is minimized and that the equal and meaningful participation of all citizens in the democratic process is ensured. Accordingly, this Article establishes the North Carolina Voter-Owned Elections Fund as an alternative source of campaign financing for candidates who obtain a sufficient number of qualifying contributions from registered voters and who

voluntarily accept strict fund-raising and spending limits. This Article is available to candidates for the Council of State offices of Auditor, Superintendent of Public Instruction, and Commissioner of Insurance in elections to be held in 2008 and ~~thereafter.~~ thereafter; to candidates for the Council of State office of Secretary of State and Treasurer, and to candidates for the offices of Commissioner of Agriculture and Commissioner of Labor, in elections to be held in 2012 and thereafter; and to candidates for the Council of State office of Attorney General in elections to be held in 2016 and thereafter.

(5) Contested primary and contested general election. – An election in which there are more candidates than the number to be elected.

(6) Contribution. – Defined in G.S. 163-278.6. Instead of being subject to G.S. 163-278.16B, distributions are subject to the guidelines issued by the Board pursuant to G.S. 163-278.98(e)(5).

(6a) Electioneering communication. – As defined in G.S. 163-278.80 and G.S. 163-278.90, except that it is made during the period beginning 30 days before absentee ballots become available for a primary and ending on primary election day and during the period 60 days before absentee ballots become available for a general election and ending on general election day.

"§ 163-278.97. Voter-Owned Elections Fund established; sources of funding.

(a) Establishment of Fund. – The North Carolina Voter-Owned Elections Fund is established to finance the election campaigns of certified candidates for office and to pay administrative and enforcement costs of the Board related to this Article. The Fund is a special, dedicated, nonlapsing, nonreverting fund. Any interest generated by the Fund is credited to the Fund. The Board shall administer the Fund.

(b) Sources of Funding. – Money received from all the following sources must be deposited in the Fund:

(1) Unspent Fund revenues distributed for an election that remain unspent or uncommitted at the time the recipient is no longer a certified candidate in the election.

(2) Money ordered returned to the Fund in accordance with G.S. 163-278.99D.

(c) Evaluation and Determination of Fund Amount. – By January 1, 2011, and every four years thereafter, the Board, in conjunction with the Advisory Council established under G.S. 163-278.68(b), shall prepare and provide to the Joint Legislative Commission on Governmental Operations of the General Assembly a report documenting, evaluating, and making recommendations relating to the administration, implementation, and enforcement of this Article. In its report, the Board shall set out the funds received to date and the expected needs of the Fund during the next election cycle ~~and make recommendations about the feasibility of expanding its provisions to include other candidates for State office~~ based on the experience of this Article and the experience of similar programs in North Carolina and other states. The Board shall also evaluate and make recommendations regarding how to address activities that could undermine the purpose of this Article, including spending that appears to target candidates but is not reached by regulation.

"§ 163-278.98. Requirements for participation.

(a) Declaration of Intent to Participate. – Any individual choosing to receive campaign funds from the Fund shall first file with the Board a declaration of intent to participate in the program established by this Article as a candidate for a stated office. The declaration of intent

shall be filed before or during the qualifying period and before collecting any qualifying contributions. In the declaration, the candidate shall swear or affirm that only one political committee, identified with its treasurer, shall handle all contributions, campaign-related expenditures, and obligations for the participating candidate and that the candidate will comply with the contribution and expenditure limits set forth in subsection (e) of this section and all other requirements set forth in this Article or adopted by the Board. Failure to comply is a violation of this Article.

(b) Demonstration of Support of Candidacy. – In order to be certified, participating candidates must obtain qualifying contributions from at least ~~750~~ 900 registered voters in this ~~State.~~ State, and from an additional 100 registered voters in this State for each one hundred thousand dollars ($100,000) that the grant amount for the office under G.S. 163-278.99(b)(4) exceeds three hundred thousand dollars ($300,000). Multiple contributions from the same individual to the same candidate shall not count as more than one qualifying contribution.

The qualifying contributions shall be equal to at least ~~25~~ twenty dollars ($20.00) times the ~~amount of the filing fee for the office.~~ minimum number of qualifying contributions but shall not exceed the maximum qualifying contributions defined in G.S. 163-278.96(10). No payment, gift, ~~or~~ anything of ~~value~~ value, or the opportunity to win anything of value shall be given in exchange for a qualifying contribution.

(c) Certification of Candidates. – Upon receipt of a submittal of the record of qualifying contributions by a participating candidate, the Board shall determine whether or not the candidate has:

(1) Filed a completed declaration of intent to participate in this Article.
(2) Submitted a report itemizing the appropriate number of qualifying contributions received from registered voters, which the Board shall verify through a random sample or other means it adopts. The report shall include the county of residence of each registered voter listed.
(3) Filed a notice of candidacy with the State Board of Elections as a candidate for the office.
(4) Otherwise met the requirements for participation in this Article.

The Board shall certify candidates complying with the requirements of this section as soon as possible and no later than five business days after receipt of a satisfactory record of qualifying contributions.

(d) Final Report for Qualifying Contributions. – No later than five business days after the end of the qualifying period, all participating candidates shall submit a report to the Board of all previously unreported qualifying contributions, in accordance with procedures developed by the Board. Within seven business days after submittal of the final report, the Board shall determine, through a random audit or other means it adopts, whether the contributions abide by the definition of qualifying contributions, whether they must be returned to the donor, and whether they exceed the maximum amount of qualifying contributions.

(e) Restrictions on Contributions and Expenditures for Participating and Certified Candidates. – The following restrictions shall apply to contributions and expenditures with respect to participating and certified candidates:

(1) Beginning August 1 of the year before the election and before filing a declaration of intent, a candidate shall limit campaign-related expenditures to twenty thousand dollars ($20,000) and shall not accept more than twenty thousand dollars ($20,000) from sources and in amounts permitted by Article 22A of this Chapter. A candidate who exceeds either of these limits shall be ineligible to file a declaration of intent or receive funds from the Fund. However, the acceptance of contributions in excess of that twenty thousand dollar ($20,000) limit does not render the candidate ineligible if the candidate pays to the Board an amount equal to the contributions accepted

by the candidate in excess of that limit. The Board shall deposit all such payments into the Fund.

(2) From the filing of a declaration of intent through the end of the qualifying period, a candidate may accept only qualifying contributions, contributions under ten dollars ($10.00) from North Carolina voters, in-kind party contributions as permitted in subdivision (4) of this subsection, and personal and family contributions permitted under subdivision (4a) of this subsection. The total contributions the candidate may accept during this period shall not exceed the maximum qualifying contributions for that candidate. Except for personal and family contributions permitted under subdivision (4a) of this subsection, multiple contributions from the same contributor to the same candidate shall not exceed two hundred dollars ($200.00). In addition to these contributions, the candidate may only expend during this period the remaining money raised pursuant to subdivision (1) of this subsection and possible matching funds received pursuant to G.S. 163-278.99B. If the candidate has any remaining money that was raised as contributions before August 1 of the year before the election, the candidate may not expend that money after filing the declaration of intent, except for purposes permitted under subdivision (2), (3), (6), (7), or (8) of G.S. 163-278.16B(a).

(3) After the qualifying period and through the date of the general election, the candidate shall cease campaign-related fund-raising activities and shall expend only the funds the candidate receives from the Fund pursuant to G.S. 163-278.99(b) plus any funds remaining from the qualifying period and possible matching funds.

(4) In addition to the amounts above, a candidate may accept in-kind contributions from political party executive committees, up to an aggregate value of thirty thousand dollars ($30,000) for the election cycle.

(4a) During the qualifying period, the candidate may contribute up to one thousand dollars ($1,000) of that candidate's own money to the campaign. Debt incurred by the candidate for a campaign expenditure shall count toward that limit. The candidate may accept in contributions one thousand dollars ($1,000) from each member of that candidate's family consisting of spouse, parent, child, brother, and sister. Up to two hundred dollars ($200.00) of a contribution from the candidate's family member may be treated as a qualifying contribution if it meets the requirements of G.S. 163-278.96(15)a. and b.

(5) A candidate and the candidate's committee shall limit the use of all revenues permitted by this subsection to expenditures for campaign-related purposes only. The Board shall publish guidelines outlining permissible campaign-related expenditures.

(6) Except as provided in subdivision (1) of this subsection, any contribution received by a participating or certified candidate that falls outside that permitted by this subsection shall be returned to the donor as soon as practicable. Contributions intentionally made, solicited, or accepted in violation of this Article are subject to civil penalties as specified in G.S. 163-278.99D. The funds involved shall be forfeited to the Civil Penalty and Forfeiture Fund.

(7) A candidate shall return to the Fund any amount distributed for an election that is unspent and uncommitted at the date of the election or at the time the individual ceases to be a certified candidate, whichever occurs first. For

accounting purposes, all qualifying, personal, and family contributions shall be considered spent before revenue from the Fund is spent or committed.

(f) Revocation. – A candidate may revoke, in writing to the Board, a decision to participate in the Fund at any time. After a revocation, that candidate may accept and expend outside the limits of this Article without violating this Article. Within 10 days after revocation, a candidate shall return to the Board all money received from the Fund.

"§ 163-278.99. Distribution from the Fund.

HOUSE BILL 961:
Gov't Ethics and Campaign Reform Act of 2010

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	June 22, 2010
Introduced by:	Reps. Glazier, Stam, Ross, Goodwin	**Prepared by:**	R. Erika Churchill Committee Co-counsel Denise Huntley Adams Research Staff
Analysis of:	Fourth Edition		

SUMMARY: The proposed committee substitute for House Bill 961 would make various changes to the campaign finance laws, public records laws, ethics laws, and lobbying laws.

CURRENT LAW & BILL ANALYSIS:

North Carolina has two public campaign financing programs:

- A program that covers all nonpartisan elections for State Supreme Court and Court of Appeals, which was enacted in 2002 and used in the elections of 2004, 2006, and 2008.
- A program that covers partisan elections for three Council of State offices – Auditor, Commissioner of Insurance, and Superintendent of Public Instruction, which was used in the 2008 election.

In brief, both programs work as follows: Qualified candidates who agree to limits on private fundraising are eligible to receive public money to fund their camapgins. Candidates qualify for the program by pledging to abide by contribution and spending limits and by raising a certain amount in "qualifying contributions," small amounts given by individual voters. The basic public grants from the Fund do not come until after the primary, and with some exceptions the candidates are limited in their spending to the amount of those grants. If participating candidates are faced with opponents, in primary or general election, who spend more than the participating candidates can match, or independent expenditures or electioneering communications targeted at them beyond what they can spend, the Fund provides "matching funds" which are additional funds to match an opponent's expenditures and can be used by participating candidates to defend themselves. Candidates may opt out at any time, and repay the monies received from the Fund.

Both programs also require the State Board of Elections to produce and distribute a Voter Guide to as many voting-age NC residents as possible. The Voter Guide contains information about the affected elections and space for candidates to present themselves without cost.

Section 1 would add the Offices of Agriculture, Labor, Secretary of State, and State Treasurer to the Council of State offices eligible to participate in the Voter-Owned Elections program, effective 2012 and Section 2 would add the office of Attorney General effective for the 2016 election. Section 1(b) would impose various fees on certain activities of these offices, with the funds collected to be transferred to the Voter-Owned Election Fund. Section 1 becomes effective October 1, 2010 and Section 2 becomes effective July 1, 2015.

Sections 3 and 4. Revisions to criminal provisions

Section 3: Currently, it is unlawful for a State employee or a person appointed to non-elected State office to coerce political contributions or support from a State employee or applicant subject to the State Personnel Act by threatening discipline or promising preferential personnel treatment.

Section 3 would expand this provision by making it unlawful for a member of the Council of State to coerce political contributions or support by threatening discipline or promising preferential treatment to the following groups of people:

- Persons doing or seeking to do business with the Council of State member's department.
- Persons engaged in activities that are regulated or controlled by the Council of State member's department.
- Persons who have financial interests that may be substantially affected by the performance or nonperformance of the Council of State member's official duties.

A violation of this section is a Class 2 misdemeanor. Section 3 becomes effective December 1, 2010, and applies to offenses committed on or after that date.

Section 4: Currently under G.S. 14-234, no public officer or employee involved in making or administering a contract on behalf of a public agency may solicit or receive a gift, reward, or promise of a reward in exchange for recommending, influencing, or attempting to influence the award of the contract. Section 4 would expand this by also prohibiting public officers and employees from soliciting or receiving favors, services, and promises of future employment.

Section 4 becomes effective December 1, 2010 and applies to offenses committed on or after that date.

Section 5. Revolving Door (House Bill 1136, Representatives Ross & Stam)

All agencies and constitutional officers of the State with staff must designate *liaison personnel* to lobby for legislative action. G.S. 120C-500(a). Liaison personnel, by definition, are employees of the State whose principal duties include lobbying legislators or legislative employees. G.S. 120C-100(a)(8). Liaison personnel must register and make reports with the Secretary of State and are subject to the gift ban. G.S. 120C-501.

Currently, the lobbying laws limit when certain people may register as a lobbyist.

- **Legislators-** No legislator or former legislator may register as a lobbyist:
    - While in office
    - Before the later of the close of session in which the legislator served or six months after leaving office. G.S. 120C-304 (a).
- **Constitutional Officers of the State-** Members of the Council of State may not register as a lobbyist while in office or within six months after leaving office. G.S. 120C-304 (b).
- **Heads of Principal State Departments-** Heads of all principal State departments who are appointed by the governor may not register as a lobbyist within six months after separation from employment as a public servant. G.S. 120C-304 (c). The principal departments include: Cultural Resources, Health and Human Services, Revenue, Crime Control and Public Safety, Correction, Environment and Natural Resources, Transportation,

Administration, Commerce, Community Colleges System Office, and Juvenile Justice and Delinquency Prevention. G.S. 143B-6.

Section 5 would increase the revolving door time frame from the current six months to one year for legislators, Council of State members and principal department heads. The bill would limit all State agency employees from registering to lobby the State agency that previously employed the former employee within one year after separation from that State agency.

Section 5 becomes effective October 1, 2010, and applies to individuals leaving office or employment on or after that date.

Sections 6, 7, 8. Campaign Finance

Section 6: The State Board of Elections has the authority to prescribe and furnish certain statements required to be filed by candidates, committees, and county boards. Section 6 would authorize the State Board of Elections to hire or contract with a private investigator to investigate alleged violations of incorrect or unfiled statements filed by candidates, committees, and county boards.

Section 7: It is currently unlawful for an individual, political committee, or other entity to make a contribution anonymously or in the name of another. G.S. 163-278.14(a). It is also unlawful for corporations, business entities, labor unions, professional associations and insurance companies to make campaign contributions to candidates or political committees or to compensate, reimburse or indemnify an individual for money or property for making contributions or expenditures. G.S. 163-278.19(a). A violation of this section is a Class 2 misdemeanor.

Section 7 provides that a person who intentionally violates G.S. 163-278.14(a) or G.S. 163-278.19(a), and the unlawful contributions total more than $10,000 per election, is guilty of a Class I felony. This prohibition shall not apply to contributions by individuals with the lawful authority to act on behalf of another individual. This section becomes effective December 1, 2010 and applies to offenses committed on or after that date.

Section 8: Section 8 mandates that the State Board of Elections create an easily searchable database to provide any member of the public with access to the database to search by geographic location, occupation, employer, contributor, or contributee, within an election cycle and over a period of time as specified by the searcher.

Section 9. NC OpenBook

Section 9 codifies the Governor's Executive Order Number 4 to require the Office of State Budget and Management and Information Technology Services to build and maintain a single, searchable website and database on State spending for grants and contracts awarded in amounts in excess of $10,000. The following information provided for each contract or grant shall include: The name of the entity receiving the award; the amount of the award; the location of the entity receiving the award; expected outcomes of the contract or grant and specific deliverables required; and contact information for the responsible state government officer or administrator of the contract or grant.

Section 10 -14. Ethics Act revisions

Sections 10 and 11: Under current law, public servants include the Council of State, department heads, chief deputies, employees of the Office of the Governor, judicial employees, members of non-advisory boards, members of the Board of Governors, University boards of trustees, State Board of Community

Colleges, and members of the boards of trustees of each community college. Public servants are covered by the State Government Ethics Act and are subject to the gift ban and are required to file an annual statement of economic interest.

Section 10 adds the following as public servants: the Executive Director and Assistant Executive Director of the State Ethics Commission; the director of the Office of State Personnel; the State Controller; the chief information officer, deputy chief information offices, chief financial officers, and general counsel of the Office of Information Technology; the director of the State Museum of Art; the executive director of the Agency for Public Telecommunication; the Commissioner of Motor Vehicles; the Commissioner of Banks, and the chief deputy commissioners of the Banking Commission; the executive director of the North Carolina Housing Finance Agency; and the executive director, chief financial officer, and chief operating officer of the North Carolina Turnpike Authority.

Section 11 adds the Governor's Crime Commission as a covered board, which means its members are public servants under the State Government Ethics Act.

Section 12: Currently, legislators, judicial officers and public servants are required to file a statement of economic interest upon election, appointment, or employment and annually thereafter. Candidates for legislative or constitutional offices are also required to file a statement of economic interest when filing for candidacy. Section 12 would also require a statement of economic interest to be filed on or before April 15th of the year following the year a covered person leaves office or dies in office.

Section 13: Section 13 makes various changes to the annual statement of economic interest required to be filed by covered persons.

- Removes the requirement that statements of economic interest be sworn.
- Adds sole proprietorships to the list of business entities that must be listed on the statement of economic interest.
- Clarifies that the statement of economic interest should include the name of each business with which the filing person or filing person's immediate family is an employee, director, officer, partner, proprietor, or member or manager, and identifies which of these businesses do business with the State.

Section 13 becomes effective January 1, 2011, and applies to statements of economic interest filed on or after that date.

Section 14: Section 14 authorizes the Governor to adopt additional and supplemental ethics standards applicable to any appointee of the Governor to any State board, commission or similar public body. It also authorizes the Governor to adopt minimum ethics standards applicable to any employee of a State agency. The Governor is required to publish the standards in the North Carolina Register and make them available to each appointee or employee subject to the standards.

Section 15 Gift Ban Clarification (Senate Bill 1255, Senator Goss)

Under current law, unless an exception to the gift ban applies, no lobbyist or lobbyist principal may knowingly give a gift to a legislator, legislative employee or public servant or give a gift with the intent that a legislator, legislative employee, or public servant be the ultimate recipient of the gift. Section 15 clarifies that an indirect gift can include gifts where a designated individual is not the sole recipient.

Section 15 becomes effective December 1, 2010, and applies to offenses committed on or after that date.

Section 16 Rule making for SEC (Senate Bill 1380, Senator Clodfelter)

Under current law, the State Ethics Commission is required to follow a truncated rule-making procedure when adopting a rule. At least 30 business days prior to adopting a rule, the Commission shall publish the proposed rule and notice of the hearing in the North Carolina Register, notify interested parties, accept comments, and hold a public hearing.

Section 16 states that a rule adopted by the Commission that does not comply with the above mentioned procedural requirements is null, void, and without effect. It also defines a rule is any Commission regulation, standard, or statement of general applicability that interprets an enactment by the General Assembly or Congress, a regulation adopted by a federal agency, or that describes the procedure or practice requirements of the Commission.

Section 17 Lobbyist Principal Reporting (Senate Bill 1299, Senator Goss)

Currently, the term 'lobbying' is defined as influencing or attempting to influence legislative or executive action, or both, through direct communications and activities with a designated individual or developing goodwill through communications or activities with designated individuals with the intention of influencing current or future legislative or executive action, or both. A lobbyist is currently defined as an individual who is hired to engage in lobbying and meets certain criterion and a lobbyist principal is currently defined as a person or governmental unit on whose behalf a lobbyist lobbies.

Section 17 clarifies the definition of lobbyist so that the relationship between a lobbyist and a lobbyist principal is triggered only when the relationship includes payment. Section 17 changes the definition of a lobbyist to an individual who engages in lobbying **for payment** and meets certain criterion. Section 17 also makes corresponding changes to the definition of lobbyist principal to clarify that a lobbyist principal is a person or governmental unit on whose behalf a lobbyist lobbies **and who makes payment for that lobbying.** Section 17 also sets out what information about the payment is to be reported by the lobbyist principal annually.

Section 17 becomes effective January 1, 2011, and applies to offenses committed on or after that date, and reports filed on or after that date.

Section 18 Personnel Records

Personnel files of State and local government employees are confidential and cannot be released, except for certain items of information which must be maintained as separate public records. Generally, the items that may be released as public records are: name; age; date of original employment or appointment; current position; title; current salary; date and amount of most recent increase or decrease in salary; date of most recent promotion, demotion, transfer, suspension, separation or other change in position classification; and office or station to which the employee is currently assigned. Similar statutes govern the personnel records of: local boards of education, community colleges, area mental health authorities, State employees, public health authorities, counties, cities, and water and sewer authorities.
Section 18 would also require release of the date and amount of each salary change, and the date of each promotion, demotion, transfer, suspension, separation or other change in position classification.

Section 18 becomes effective October 1, 2010.

Section 19 Penalties of SEC and SOS published

Under current law, the Legislative Ethics Committee is required to publish annually statistics on the number of complaints filed, considered, dismissed, resulting in admonishment, referred to the appropriate house for appropriate action, referred for criminal prosecution and the number and age of complaints pending action by the Legislative Ethics Committee.

Section 19 requires the Secretary of State and the State Ethics Commission to publish similar annual statistics for complaints of violations of the lobbying law.

All civil fines, including the amount of the fine and the identity of the person or governmental unit against whom it was levied, shall be public record.

Section 20 Mediation of public records disputes.

Section 20 amends the access to public records law by requiring mediation of public records disputes. Mediation may be initiated prior to suit being filed, or within 30 days from the filing of responsive pleadings with the clerk.

Mediation is initiated by filing a request for mediation with the clerk of court in a county in which the action may be brought. The mediation shall be conducted in accordance with the standards for mediated settlements of civil cases. Mediation may be waived if all parties agree and the mediator is so informed in writing. At the conclusion of mediation, the mediator shall prepare and file a certification stating the date on which the mediation was concluded and the general results of the mediation.

If a party successfully compels the disclosure of public records, the court shall allow a party seeking disclosure of public records who substantially prevails to recover its reasonable attorneys' fees. The court may not assess attorneys' fees against a governmental body or governmental unit if the court finds the governmental body or governmental unit acted in reasonable reliance on a court order, appellate decision, or opinion of the Attorney General. Nothing in this section limits any party's authority to seek, or the timing of seeking, injunctive or other relief pursuant to Chapter 132 of the General Statutes.

Section 20 becomes effective October 1, 2010, and applies to actions filed on or after that date.

Section 21 Technical corrections (Senate Bill 1239, Senator Goss)

Section 21 makes various technical and clarifying changes to the State Government Ethics Act and Lobbying laws.

EFFECTIVE DATE: Except as otherwise provided, this act is effective when it becomes law.

HOUSE BILL 337:
Statesville Deannexation

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	June 23, 2010
Introduced by:	Rep. Howard	**Prepared by:**	Cindy Avrette
Analysis of:	First Edition		Committee Counsel

SUMMARY: House Bill 337 is a local bill that would remove certain described property from the corporate limits of the City of Statesville.

CURRENT LAW: While a city or town has statutory authority to annex property, either voluntarily or involuntarily depending upon certain circumstances, there is no statutory authority to de-annex property. Deannexation requires an act of the General Assembly.

BILL ANALYSIS: House Bill 337 would remove certain property, which is described in the bill by metes and bounds, from the jurisdiction of the City of Statesville. The property described consists of a small public golf course and several small adjacent parcels. The property adjoins the Iredell County landfill. The City voluntarily annexed the property, at the request of a developer, to provide urban services to a housing development. However, the developer subsequently sold the property to Iredell County to use as an addition to its landfill. The necessity for the urban services, which prompted the voluntarily annexation, no longer exist. Both Iredell County and the City of Statesville support the deannexation of the property because it would simplify the County's permitting and operation of the property as part of its landfill and it would remove the City of Statesville from the burden of regulating and permitting a landfill.

EFFECTIVE DATE: House Bill 337 would become effective when it becomes law.

A BILL TO BE ENTITLED

AN ACT TO HELP MUNICIPALITIES COLLECT DELINQUENT PROPERTY TAXES.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 161-31 reads as rewritten:

"**§ 161-31. Tax certification.**

(a) Tax Certification. – The board of commissioners of a county may, by resolution, require the register of deeds not to accept any deed transferring real property for registration unless the county tax collector has certified ~~that no delinquent ad valorem county taxes, ad valorem municipal taxes, or other taxes with which the collector is charged are a lien on the property described in the deed.~~ all of the following:

(1) That no delinquent ad valorem county taxes are a lien on the property described in the deed.

(2) That no delinquent ad valorem municipal taxes are a lien on the property described in the deed. If a county tax collector is not charged with collecting ad valorem municipal taxes for a municipality in the county, then the resolution shall direct how the county tax collector is to receive the certification from the tax collector charged with collecting ad valorem municipal taxes.

(3) That no other taxes with which the collector is charged are a lien on the property described in the deed.

The county commissioners may describe the form the certification must take in its resolution.

(a1) Exception to Tax Certification. – If a board of county commissioners adopts a resolution pursuant to subsection (a) of this section, notwithstanding the resolution, the register of deeds shall accept without certification a deed submitted for registration under the supervision of a closing attorney and containing this statement on the deed: "This instrument prepared by: _____ _____, a licensed North Carolina attorney. Delinquent taxes, if any, to be paid by the closing attorney to the county tax collector upon disbursement of closing proceeds.

(b) Applicability. – This section applies only to Alexander, Anson, Beaufort, Bertie, Burke, Cabarrus, Camden, Carteret, Caswell, Catawba, Cherokee, Chowan, Clay, Cleveland, Currituck, Davidson, Davie, Duplin, Durham, Edgecombe, Forsyth, Gaston, Gates, Graham, Granville, Greene, Halifax, Harnett, Haywood, Henderson, Hertford, Hyde, Iredell, Jackson, Johnston, Jones, Lee, Lenoir, Lincoln, Macon, Madison, Martin, Montgomery, Nash, Northampton, Onslow, Pasquotank, Pender, Perquimans, Person, Pitt, Polk, Robeson, Rockingham, Rowan, Rutherford, Stanly, Surry, Swain, Transylvania, Tyrrell, Vance, Warren, Washington, Wayne, Wilson, and Yadkin Counties."

SECTION 2. This act applies to Duplin County only.

SECTION 3. This act is effective when it becomes law.

HOUSE BILL 1673:
Municipal Tax Certification

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	June 22, 2010
Introduced by:	Rep. Tucker	**Prepared by:**	Cindy Avrette
Analysis of:	Third Edition		Committee Counsel

SUMMARY: House Bill 1673[1] is a local bill that applies to Duplin County only. The bill would modify the current law to address the circumstances where the county tax collector is not charged with collecting ad valorem municipal taxes. In those circumstances, the resolution would need to direct how the county tax collector is to receive certification from the tax collector charged with collecting ad valorem municipal taxes.

CURRENT LAW: G.S. 161-31(a) provides that the board of commissioners of a county may, by resolution, require the register of deeds not to accept any deed transferring real property unless the county tax collector has certified that there are no delinquent ad valorem county taxes, ad valorem municipal taxes, or other taxes with which the collector is charged are a lien on the property described in the deed. In the resolution, the county commissioners may describe the form the certification must take.

G.S. 161-31(a1) provides an exception. It requires that the register of deeds must accept, without certification, a deed that contains the following statement: "This instrument prepared by: _____ _____, a licensed North Carolina attorney. Delinquent taxes, if any, to be paid by the closing attorney to the county tax collector upon disbursement of closing proceeds."

BILL ANALYSIS: House Bill 1673 would clarify that the county tax collector must certify that all three categories of taxes in the current law are not a lien on the property described in the deed. It would also address the situation in Duplin County where the county tax collector is not charged with collecting ad valorem municipal taxes for a municipality in the county. In that instance, the resolution passed by the board of commissioners shall direct how the county tax collector is to receive certification from the tax collector charged with collecting ad valorem municipal taxes.

The act applies to Duplin County only.

EFFECTIVE DATE: This act is effective when it becomes law.

SENATE BILL 1445:
Goldsboro-Wayne Airport Authority/Changes

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	June 22, 2010
Introduced by:	Sen. Davis	**Prepared by:**	Cindy Avrette Committee Counsel
Analysis of:	PCS to First Edition S1445-CSLM-24		

SUMMARY: ***Senate Bill 1445[1] authorizes the City of Goldsboro to convey its interest in the Goldsboro-Wayne Municipal Airport to Wayne County by private negotiation and sale. The proposed committee substitute adds Sections 1(b), 2, 3, 4, and 7 to the bill. These sections would complete the transition of property, leases, liabilities, and financing agreements from the Goldsboro-Wayne Airport Authority to Wayne County. The PCS also changes the effective date from October 1, 2010, to when it becomes law.***

CURRENT LAW: The sale and disposition of municipal property is governed by Article 12 of Chapter 160A of the General Statutes. According to the procedures prescribed in that Article, a city may dispose of real or personal property belonging to the city by:

(1) Private negotiation and sale;
(2) Advertisement for sealed bids;
(3) Negotiated offer, advertisement, and upset bid;
(4) Public auction; or
(5) Exchange.

Real property, of any value, and personal property valued at thirty thousand dollars ($30,000) or more may be exchanged, or may be sold by any method listed above *other than private negotiation and sale.* An exception (G.S. 160A-277) applies for the sale of land to a volunteer fire department or to a volunteer rescue squad for the purpose of constructing or expanding fire department or rescue squad facilities, if the volunteer fire department or volunteer rescue squad provides fire protection or rescue services to the city. Another exception (G.S. 160A-279) applies to the sale of property to entities that carry out a public purpose, provided no property acquired by the exercise of eminent domain may be conveyed under that provision.

BILL ANALYSIS: Senate Bill 1445 authorizes the City of Goldsboro to convey its interest in the Goldsboro-Wayne Municipal Airport to Wayne County by private negotiation and sale. The bill also amends the 1963 Session Law that authorized the City of Goldsboro and the County of Wayne to jointly establish an airport, making the county solely responsible for operation of the airport. The county commissioners will appoint a 6-member board that will constitute the Wayne Airport Authority. The terms of the three representatives currently serving on the joint Goldsboro-Wayne Airport Authority under appointment by the City of Goldsboro will expire on July 15, 2010.

EFFECTIVE DATE: The bill would become effective when it becomes law.

HOUSE BILL 1687:
Caswell Beach Sewer Treatment Fee

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	June 23, 2010
Introduced by:	Rep. Iler	**Prepared by:**	Heather Fennell Committee Counsel
Analysis of:	First Edition		

SUMMARY: ***House Bill 1687 authorizes the Town of Caswell Beach to create a fee-supported sewer treatment district.***

[As introduced, this bill was identical to S1123, as introduced by Sen. Soles, which is currently in Senate Finance.]

CURRENT LAW: Current general law authorizes municipalities to "acquire, construct, establish, enlarge, improve, maintain, own, operate, and contract for the operation of" a "public enterprise"(G.S. 160A-312), which includes "wastewater collection, treatment, and disposal systems of all types, including septic tank systems or other on-site collection or disposal facilities or systems" (G.S. 160A-311). Municipalities are authorized to establish a schedule of rates and fees for "the use of or the services furnished by any public enterprise" (G.S. 160A-314). For unconnected developed properties, a municipality may require payment of a periodic availability charge for water or sewer service. (G.S.160A-317).

BILL ANALYSIS: House Bill 1687, applicable to the Town of Caswell Beach:

- Authorizes the Town to create a fee-supported sewer district for all properties that are or can be served by the sewage collection and treatment plant serving properties within the Town.
- Authorizes the Town to impose annual fees for the availability of the sewer service.
- Provides that fees not exceed the cost of providing the sewer collection facility within the municipality, and the cost of the contract with a county to provide it with facilities to transport, treat, and dispose of the Town's sewage.
- Provides that fees shall be imposed on each dwelling unit or parcel that could or does benefit from the availability of sewage treatment.
- Provides that the fee may be included on the property tax bill, and collected in the same manner as the collection of property taxes.
- Provides that the fee is to be used only for debt service for the sewer system.
- Authorizes abolition of the district, if no longer needed.

The method of financing authorized by this bill would enable the Town to impose fees on the owners of vacant lots and use the fees for capital costs.

EFFECTIVE DATE: This act is effective when it becomes law.

BACKGROUND: Similar authority has been granted to the Towns of Holden Beach (S.L. 2004-96) and Oak Island (S.L. 2006-54). The Town of Caswell Beach has contracted with the City of Oak Island to provide sewer treatment for the town.

SUMMARY: The proposed committee substitute to House Bill 76 would allow a service member to designate the disposition of his or her remains through forms required by military service.

CURRENT LAW: G.S. 130A-420 provides the manner in which an individual may authorize the disposition of his or her body after death. Individuals may authorize the disposition in a health care power of attorney, or may authorize or delegate the authorization to another through a preneed funeral contract, a will, or a written statement witnessed by two individuals. If an individual does not authorize a method of disposal, the statute lists the individuals who may authorize the disposition, including surviving spouse, surviving children that have reached maturity, surviving parents,

Service members may designate individuals to direct the disposition of the service member's body after death on DD Form 93, the Record of Emergency Data. 10 U.S.C.1482 provides that only a surviving spouse, blood relative, adoptive relative, or person standing in loco parentis to the decedent may be designated to direct the disposition of the body. This form is not recognized in this State under G.S. 130A-420 as a legal designation for the disposition of remains.

BILL ANALYSIS: The PCS to House bill 76 would allow a service member's designation on DD Form 93 to be recognized under G.S. 130A-420 as an authorized designation. The delegation on this form is only effective if the individual dies while on duty status as provided in 10 U.S.C. 1481.

SUMMARY: ***The proposed committee substitute to Senate Bill 1184 would tax little cigars as cigarettes.***

CURRENT LAW: Under G.S. 105-113.5 cigarettes are taxed at the rate of 45¢ per pack. Under G.S. 105-113.35 other tobacco products (OTP) are taxed at 12.8% of the cost price of the products. Little cigars are taxed as OTP.

BILL ANALYSIS: The PCS to Senate Bill 1184 would add to the definition of cigarettes the rolls of tobacco that are wrapped in a substance containing tobacco that weighs less than 4.5 pounds per thousand and has an integrated filter.

EFFECTIVE DATE: This bill would be effective October 1, 2010.

BACKGROUND: Little cigars are a fast growing segment of the tobacco industry. Most packages of little cigars cannot be distinguished from cigarettes and are marketed as cigarettes. Currently taxed as OTP in North Carolina, packages of little cigars are less expensive than cigarettes. The average tax on a pack of little cigars is 32¢, where cigarettes are taxed at 45¢ per pack.

Twelve states and the Federal government tax little cigars as cigarettes

BILL SUMMARY: The bill clarifies that if a product fits the revised definition of a cigarette, such product will be treated for purposes of the excise tax law as a cigarette. The new cigarette definition now includes, "a roll of tobacco wrapped in a substance containing tobacco that weighs less than 4.5 pounds per thousand and has an integrated filter." This expanded definition of a cigarette includes products federally defined as little cigars. The SB 1184 definition also includes

a new type of large cigar, which developed as a result of the April 2009 Federal tax increase on cigarettes and little cigars.

Federal law defines little cigars as rolled tobacco products weighing less than three pounds per thousand. In April 2009, the Federal cigarette excise tax rate increased to $0.61 per pack. The new law also began to include little cigars, a product previously taxed as cigars, under the cigarette excise tax. In an effort to avoid the tax increase, producers developed a new cigarette-like product, increasing the product weight but still maintaining the look of a cigarette.

Under North Carolina law, little cigars as well as rolled tobacco products weighing between three pounds per thousand and 4.5 pounds per thousand are classified as Other Tobacco Products (OTP) and taxed at a rate of 12.8% of wholesale price. This proposal modifies the definition of cigarettes adding certain weight and size requirements. The change would also include products federally defined as little cigars and large cigars weighing between three and 4.5 pounds per thousand. The SB 1184 modification increases the tax rate on these products to 45-cents per pack.

ASSUMPTIONS AND METHODOLOGY:
Fiscal Research estimates that SB 1184 will generate roughly $2.67 million dollars in FY 10-11 and roughly $4.0 million in subsequent fiscal years. Fiscal Research used data from the Center for Disease Control, the United States Department of the Treasury: Alcohol and Tobacco Tax and Trade Bureau (TTB), the National Association of Attorneys General, and fiscal estimates in other states to calculate the fiscal impact of expanding the definition of cigarettes.

The fiscal estimate for expanding the definition of cigarettes includes a two-fold analysis: 1) estimating the number of little cigars, and 2) estimating the number of "newly-defined cigarettes," rolled tobacco products weighing between three and 4.5 pounds per thousand. As shown in Table 1, 2.1 billion little cigars were sold in the U.S. in 2009. Table 1, also highlights an emerging trend, a drastic increase in the volume of large cigars sold in the U.S. Industry experts as well as an analysis of similar legislation in Minnesota suggests that the growth in large, Class A-G cigars, reflects the production of cigarette-like products weighing between three and 4.5 pounds per thousand.[1]

Table 2 illustrates the percentage that each tobacco product—cigarettes (small), little cigars (cigars small), and cigars (large, class A-G)—represents of total annual sales between 2004 and 2009. As shown below, large cigars consistently represented between 0.7% and 0.5% of total cigarette and cigar sales for five years. In 2009, when the Federal cigarette and little cigar excise tax increased, large cigars sales increased by 1.7 percentage points. Assuming the increase in large cigars represents the development of a new product, 5.2 billion cigarette-like rolled tobacco products weighing between three and 4.5 pounds were sold in the U.S. in 2009.

Using the SB 1184 revised cigarette definition, 7.4 billion cigarettes were sold in the U.S. in 2009. North Carolina accounts for 3.4% of national cigarette sales according to the CDC. This figure serves as a proxy for the state's little cigar and other tobacco product market share. Multiplying North Carolina's market share for cigarettes (3.4%) by national little cigar sales and new potential cigarettes (7.4 billion packs) and then dividing the result by the number of cigarettes sold in a pack (20), Fiscal estimates that an additional 12.6 million packs would be defined as cigarettes in North Carolina each year.

If the 12.6 million pack sales were classified for purposes of the excise tax as cigarettes, the State would collect $4.8 million in cigarette excise taxes (12.6 million packs * percent change in quantity demanded*excise tax).[2] The $4.8 million in cigarette excise taxes less the $1.3 million in OTP taxes (little cigar wholesale price $0.85 cents per pack * 12.8%) associated with little cigars equals $3.4 million in FY 09-10. This figure earmarked by an annual five percent growth rate (a conservative estimate given the national annual growth in sales as noted by the American Legacy Foundation), equals roughly $4.0 million per full fiscal year.

[2] Percent change in quantity demanded = % change in price * price elasticity. In the case of little cigars the % change in quantity demanded equals (1 +(($0.45 excise tax rate on cigarettes -($1.65 price of little cigars *12.8% tax rate))/$0.45 excise tax rate on cigarettes)*-0.4)

The estimate of current OTP tax collections associated with SB 1184, $2.67 million in FY 10-11, utilizes information from the analysis of a similar bill from the Minnesota Department of Revenue. The Minnesota brief indicates that in 2009 the wholesale price for little cigars equaled $0.84 per pack. To be conservative, Fiscal utilized Minnesota's pricing information for little cigars. Examples from the National Association of Attorneys General assume a $0.72 per pack wholesale cost for little cigars. A lower wholesale price than the assumed $0.84 per pack would create a wider margin between the taxes North Carolina currently collects on little cigars creating a larger net gain for the General Fund than estimated.

SENATE BILL 1197:
Reinstate Cigarette Tax Stamps

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	June 23, 2010
Introduced by:	Sen. Hartsell	**Prepared by:**	Heather Fennell Committee Counsel
Analysis of:	PCS to First Edition S1197-CSTDx-99		

SUMMARY: ***The proposed committee substitute to Senate Bill 1197 would require a tax stamp be attached to packages of cigarettes sold in North Carolina as evidence of payment of the tax on cigarettes and would create a criminal penalty for counterfeiting stamps or stamp impression devices.***

CURRENT LAW: North Carolina first began taxing cigarettes in 1969. Tax stamps were required to be attached to packages of cigarettes as evidence of payment of the tax. In 1993, the tax stamp requirement was repealed and the payment of the cigarette tax was recorded by reports submitted by cigarette distributors. Currently, every state but North Carolina, North Dakota, and South Carolina requires cigarette tax stamps.[1] At the time North Carolina repealed its tax stamp requirement in 1993; four other states did not require tax stamps. Of those four states, three of those states have begun to require cigarette tax stamps: Alaska, Hawaii, and Michigan.

At the time of the original enactment, a discount of 7/24¢ per stamp was given for the expenses associated with the stamps. This discount amount equated to approximately 2.9¢ per carton. When the tax stamp was eliminated, the General Assembly changed the discount amount to 4% of the tax due and provided that the purpose of the iscount is to cover a distributor's expenses associated with preparing the required tax reports. The General ssembly repealed the discount in 2003; then reinstated it in 2004 at its current rate of 2% of the tax due. With the recent increases in the cigarette tax rate, the 2% discount equates to approximately 9¢ per carton.

BILL ANALYSIS: The PCS to Senate Bill 1197 would reinstate cigarette tax stamps by requiring that a package of cigarettes for sale or use in this State must be marked by a tax-paid stamp. A person who forges a stamp or who knowingly places a forged stamp on a package of cigarettes is guilty of a Class H felony.

The Department of Revenue is required to arrange for the manufacture and sale of the stamps. Each stamp has a unique serial number. The Department may sell stamps directly to licensed distributors, or it may allow the manufacturer of the stamps to sell stamps directly to distributors. A distributor must affix the stamp to the package of cigarettes within 48 hours of its receipt, excluding Saturdays, Sundays, and State holidays. The stamps must be affixed to the package of cigarettes in a manner that ensures the stamp cannot be removed without being mutilated or destroyed. The Secretary must set a limit on the number of stamps a distributor may have on hand. The limit is based on the amount of the bond furnished by the distributor under G.S. 105-113.13.

The draft amends the monthly report distributors must file with the Department to require the following additional information:

- The quantity of cigarettes on hand on the first and last days of the preceding calendar month.
- The amount of stamps purchased, used, and on hand during the reporting period.
- The amount of tax due.

The discount is increased to 18¢ per carton of cigarettes with a monthly cap of $8,000, and specifies that the discount covers the distributor's expenses in placing the stamps on the packages of cigarettes and maintaining the records required by the Department.

EFFECTIVE DATE: This bill would be effective January 1, 2011.

EFFECTIVE DATE: January 1, 2011

BILL SUMMARY: This proposal would reinstate cigarette stamps. Under SB 1197, the tax required in G.S. 105-113.5, the cigarette tax, must be evidenced by a stamp placed on the package of cigarettes. The Department of Revenue (Department) must make arrangements for the manufacture and sale of the stamps. The Department may sell stamps directly to distributors, or may allow the manufacturer of the stamps to sell stamps directly to distributors. Full payment is required before stamps are given to distributors.

Effective January 1, 1994, North Carolina discontinued the cigarette stamp program by passing SB 1025 during the 1993-94 session. Prior to 1994, North Carolina law required all manufacturers to affix stamps to each package of cigarettes sold in the state indicating that the cigarette excise tax had been paid. North Carolina switched from the stamping program to a monthly reporting mechanism, eliminating the stamps and requiring manufacturers to report monthly sales. Coinciding with the elimination of the cigarette stamp program, the legislature also increased cigarette taxes by 3-cents per pack, raising the total tax to 5-cents per pack. Despite a three-cent per pack tax increase in 1994, removing the stamps resulted in an increase in cigarette sales. The volume of cigarettes sold increased by 18 percent between the 1993-94 and 1994-95 fiscal years from 721.8 million packs to 850.6 million packs generating an additional $64.4 million in tax revenue.

The national cigarette tax landscape in 1994 looked much like the scene North Carolina faces today. In 1994, the average cigarette per pack state excise tax for all 50 states equaled 30.5-cents, five times greater than North Carolina's cigarette tax of five cents per pack.[1] One of North Carolina's three neighboring states exhibited a lower per pack cigarette tax, South Carolina at seven cents per pack, Virginia at 2.5-cents per pack, and Tennessee at 13-cents per pack. The sales increase that coincided with the stamp removal suggests that out-of state purchases played a significant role in North Carolina cigarette sales. Historical tax rate information suggests that the increase in sales between the 1994 and 1995 fiscal years was influenced more by long distance smuggling than cross-border sales.

Today, six states in the U.S., two of which are in the Southeast, exhibit lower cigarette taxes than North Carolina's 45-cents per pack rate. Furthermore, North Carolina is one of three states that do not require cigarette stamps.

ASSUMPTIONS AND METHODOLOGY:

Tax Revenue

Fiscal Research estimates that an additional $9.0 million in tax revenue will be lost due per fiscal year to a decline in both cross border sales (in-state residents purchasing cigarettes out-of-state) and long distance smuggling (out-of -state residents purchasing cigarettes from in-state vendors).

This estimate assumes the worst fiscal scenario—that all cross-border sales and smuggling will decrease to zero. Fiscal leaned heavily on the Mackinac Center's 2008 study, "Cigarette Taxes and Smuggling," which estimates the lost tax revenue from cigarette smuggling for the contiguous

United States. Mackinac researchers were unable to generate a figure for lost tax revenue in North Carolina because "the state plays a central role in the model as a major source of illicitly trafficked cigarettes."[2] The Mackinac study estimates that 28.6% of Virginia's and 9% of South Carolina's annual cigarette sales can be attributed to smuggling.[3]

The estimate is also based on research from a 2003 RTI study, *The Impact of Cigarette Excise Tax Increases in Low-Tax Southern States on Cigarette Sales, Cigarette Excise Tax Revenue, Tax Evasion, and Economic Activity.* North Carolina gains excise tax revenue from sales associated with smuggling. RTI researchers estimated that North Carolina, in 2003 with a 5-cent per pack cigarette tax, gained roughly 7% of sales or 105 million packs in cigarette packs per fiscal year due to long distance smuggling. The amount of revenue associated with smuggled cigarettes declines as the North Carolina cigarette tax approaches the national average. With recent tax increases across the nation, Fiscal Research estimates that roughly 3.3%, 18.1 million packs, are currently being smuggled from the state.[4] The state gains from smuggling roughly $8.1 million in cigarette tax revenue (18.1 million packs*$0.45 per pack tax) and $4.3 million in sales tax revenue (16.9 million* average price of a pack of cigarettes $4.13*5.75%).

The State also loses revenue from cross-border sales with purchasers in North Carolina seeking lower-tax cigarette options in South Carolina and Virginia. The original RTI report estimated that if North Carolina were to raise its cigarette tax rate to 70-cents per pack, the national average at the time, while rates in the surrounding Southern states remained constant, 29 million packs per fiscal year would be purchased by North Carolina residents seeking lower priced options in neighboring states. Given cigarette tax increases across the South and an annual decline of roughly 2% in cigarette consumption rates, Fiscal Research estimates that if North Carolina raised its cigarette tax to the national average roughly 7.85 million in cigarette packs would be lost due to cross border sales. North Carolina's current cross-border sales equal roughly 4.9 million packs per fiscal year, a loss of $3.4 million that would be reclaimed if stamping were instituted.

If stamping were implemented, the net effect of a decline in smuggling and the gain in revenue from decreased cross border sales would equal a net loss of 13.2 million packs in sales per fiscal year(-18.1 million packs + 4.9 million packs). The reduction in cigarette sales equals a loss of $9.1 million in revenue (45-cents per pack in lost tax revenue *13.2 million packs+ lost sales tax revenue).

The Campaign for Tobacco Free Kids has documented cases where high tax states, such as Michigan and California, have instituted stamping and experienced a gain in cigarette tax revenue. Michigan and California exhibit cigarette tax rates of $2.00 and 87-cents per pack, listed respectively.

[4] This figure assumes that smuggled cigarettes = current cigarette sales*7%-current cigarette sales*(2010 tax rate/2010 U.S. average cigarette tax rate)*7%. From a numerical perspective, the number of smuggled cigarettes equals 544.4mill packs*7%-544.4 million packs*($0.45/$1.35)*7%.

The Department of Revenue (DOR) estimates that reinstatement of the cigarette tax stamp program would require the addition of 17 new positions in DOR. According to DOR, two Processing Assistant V positions in the Cigarette Excise Tax Unit would be needed to process stamp orders, and a Revenue Administrative Officer II would handle administration of the program. Ten Revenue Officer I positions would perform retail inspections, and four Revenue Tax Auditors would be needed to conduct due diligence audits for enforcement purposes.

Based on the number of inspections, audits, and enforcement that would be required by implementation of this program, as well as comparable staffing levels of tobacco tax programs in other states, Fiscal Research generally concurs with DOR's estimate. However, the current supervisor and assistant supervisor of the Cigarette Excise Tax Unit should be able to absorb any additional supervisory duties and thus an additional Revenue Administrative Officer II position would not be required. Furthermore, as DOR currently has three field auditors who conduct due diligence audits, only two additional auditors would be needed to conduct due diligence audits required by this program. Fiscal Research estimates that implementation of this program would require 14 additional positions, rather than 17.

The estimated recurring costs of the salaries and benefits of these 14 positions are shown below:

Position Title	Grade	Salary	Soc Sec	Ret	Health	FTEs	Total
Processing Assistant V	61	$34,732	$2,657	$3,650	$4,929	2	$91,937
Revenue Officer I	71	$52,040	$3,981	$5,469	$4,929	10	$664,195
Revenue Tax Auditors	Journey	$55,202	$4,223	$5,802	$4,929	2	$140,311
					TOTAL	***14***	***$896,443***

Additionally, the following recurring and non-recurring administrative expenses would be needed to support the 10 positions listed above during the next biennium:

ACCOUNT TITLE	FY 2001-11	FY 2011-12	
Maintenance Agreement - PC & Printer	$ 3,346		*NR*
Maintenance Agreement - PC Software	$ 1,610	$ 1,610	*R*
PC & Printer Purchases	$ 14,000		*NR*
PC Software Purchases	$ 8,400		*NR*
Travel - Ground In-State	$ 36,000	$ 36,000	*R*
Telephone Service	$ 4,900	$ 4,900	*R*
General Office Supplies	$ 7,000	$ 7,000	*R*
Furniture - Office	$ 63,000		*NR*
Office Equipment (calculator)	$ 1,400		*NR*
TOTAL	***$ 139,656***	***$ 49,510***	

Currently, DOR is in the preliminary stages of developing and implementing the State's new Tax Information Management System (TIMS). Over the next 36 months, TIMS will replace the State's integrated tax system as well as a host of other miscellaneous tax systems. In order to process the activities of a cigarette tax stamp program, DOR would need to initiate a change order with the TIMS project's contractor. Based on the contractor's estimated hours needed to make these

changes to the TIMS application, the additional nonrecurring costs for FY 2010-11 would be $16,000.

The total estimated impact of personnel costs, associated administrative costs, and technology costs needed to implement a cigarette tax stamp program in DOR would be $1,052,099 in FY 2010-11 and $945,953 in subsequent years.

SENATE BILL 1196
PROPOSED COMMITTEE SUBSTITUTE S1196-CSTD-100 [v.4]

6/22/2010 6:00:00 PM

Short Title: Align Cigarette Discount With Costs. (Public)

Sponsors:

Referred to:

May 18, 2010

A BILL TO BE ENTITLED

AN ACT TO ELIMINATE THE PORTION OF THE DISCOUNT ALLOWED CIGARETTE DISTRIBUTORS FOR THEIR EXPENSES IN STAMPING CIGARETTES IF THE DISTRIBUTORS ARE NO LONGER REQUIRED TO STAMP CIGARETTES.

The General Assembly of North Carolina enacts:

SECTION 1. The General Assembly finds that cigarette distributors were required to stamp cigarettes when the cigarette tax was enacted in 1969 and were allowed a discount of approximately two and nine-tenths cents (2.9¢) per carton of cigarettes to cover their expenses in stamping the cigarettes. The General Assembly further finds that when the stamping requirement was repealed in 1993, the discount allowed distributors was subsequently reduced to approximately two cents (2¢) per carton of cigarettes. Finally, the General Assembly finds that the increase of the cigarette tax from five cents (5¢) per pack to forty-five cents (45¢) per pack with no adjustment in the distributors' discount has resulted in a discount of approximately nine cents (9¢) per carton and that this discount is more than three times the discount allowed when distributors were required to stamp cigarettes. The General Assembly concludes that the discount currently allowed distributors compensates them for costs they are not incurring and should be reduced to reflect the elimination of the stamping requirements and to neutralize the increase in the discount produced by the increase in the tax rate.

SECTION 2. G.S. 105-113.21(a1) reads as rewritten:

"(a1) Discount. – A distributor who files a timely report under G.S. 105-113.18 and who sends a timely payment may deduct from the amount due with the report a discount of ~~two percent (2%).~~ twenty-five hundredths percent (0.25%). This discount covers expenses incurred in preparing the records and reports required by this Part, and the expense of furnishing a bond."

SECTION 3. This act becomes effective January 1, 2011, unless the 2010 Session of the 2009 General Assembly enacts legislation entitled "AN ACT TO IMPROVE THE ENFORCEMENT OF THE CIGARETTE EXCISE TAX AND TO DETER THE UNLAWFUL SALE OF NON-TAX-PAID CIGARETTES BY REINSTATING THE REQUIREMENT THAT CIGARETTES BEAR A STAMP INDICATING PAYMENT OF THE TAX." If the 2010 Session of the 2009 General Assembly enacts the legislation reinstating the tax stamp on cigarettes, then this act does not become effective.

SENATE BILL 1196:
Align Cigarette Discount With Costs

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	June 23, 2010
Introduced by:	Sen. Hartsell	**Prepared by:**	Heather Fennell Committee Counsel
Analysis of:	PCS to First Edition S1196-CSTD-100		

SUMMARY: ***The proposed committee substitute to Senate Bill 1196 would decrease the discount cigarette distributors receive on payments of cigarette excise taxes. The PCS makes technical changes to the historical information in Section 1 of the bill.***

[As introduced, this bill was identical to H1980, as introduced by Reps. Luebke, Insko, which is currently in House Finance.]

CURRENT LAW: North Carolina first began taxing cigarettes in 1969. Tax stamps were required to be attached to packages of cigarettes as evidence of payment of the tax. In 1993, the tax stamp requirement was repealed and the payment of the cigarette tax was recorded by reports submitted by cigarette distributors.

At the time of the original enactment, a discount of 7/24¢ per stamp was given for the expenses associated with the stamps. This discount amount equated to approximately 2.9¢ per carton. When the tax stamp was eliminated, the General Assembly changed the discount amount to 4% of the tax due and provided that the purpose of the discount is to cover a distributor's expenses associated with preparing the required tax reports. The General Assembly repealed the discount in 2003; then reinstated it in 2004 at its current rate of 2% of the tax due. With the recent increases in the cigarette tax rate, the 2% discount equals approximately 9¢ per carton.

BILL ANALYSIS: The PCS to Senate Bill decreases the discount cigarette distributors are allowed when making timely reports of their cigarette excise tax, from 2% to 0.25% of the total amount due. The new discount amount would be 1.125¢ per carton.

EFFECTIVE DATE: This act is effective January 1, 2011. If the General Assembly enacts legislative reinstating the tax stamps on cigarettes, this act does not become effective.

Zach Goldman and Tori Boddie of Cary, Cameron Castleberry of Raleigh, Katherine Selix of Marvin and Lillian Badgett of Statesville served as pages.

H.B. 1695 Repeal Waynesville Fireman's Supplemental Pension

Representative Rapp was recognized to explain the bill. The local bill would repeal the Waynesville Firemen's Supplemental Retirement Fund and transfer the monies in the Fund to the Board of Trustees of the Local Firemen's Relief Fund of the Town of Waynesville. Senator Hoyle moved for a favorable report and the motion carried. A copy of the bill and the summary is attached.

S.B. 1446 – Durham Stormwater Facilities Assessments

Senator McKissick was recognized to explain the bill. The bill would amend the charter for the City of Durham to authorize assessments against private or public properties served by stormwater facilities for the construction and repair of the facilities when such projects remediate a flooding or other public nuisance or enable compliance with State or federal requirements regarding water quality. Senator Tillman moved for a favorable report and the motion carried. A copy of the bill and the summary is attached.

H.B. 710 – Archer Lodge Boundary Correction

Representative Rouzer was recognized to explain the bill which would correct the boundary of the Town of Archer Lodge by removing a parcel of land included in the original description. Senator Tillman moved for a favorable report and the motion carried. A copy of the bill and the summary is attached.

H.B. 1736 – Local Delinquent Sewer Fees

Representative Burr was recognized to explain the bill which authorizes the City of Locust and the Towns of New London and Stanfield, which are located in Stanly County, to collect delinquent fees for sewer services in the same manner that property taxes are collected. Senator Brock moved for a favorable report and the motion carried. A copy of the bill and the summary is attached.

H.B. 1741 – Animal Euthanasia Technicians

Representative Ross was recognized to bill. The bill, which is a recommendation of the General Statutes Commission, would allow animal shelters that are owned, operated, or maintained by a unit of local government or under contract with a unit of local government to register with the North Carolina Department of Health and Human Services in order to obtain euthanasia drugs directly from the manufacturer. Senator Clodfelter offered a technical amendment. Senator Hunt moved to favorably report the bill as amended and the motion carried. A copy of the bill, the summary and the amendment is attached.

H.B. 1754 – Tax Certification – Dare & McDowell

Senator Garrou moved for a favorable report and the motion carried. A copy of the bill and the summary is attached.

H.B. 1829 – Renewable Energy Incentives

Senator Clodfelter was recognized to explain the bill and moved to adopt the proposed committee substitute for discussion. The motion carried. The PCS promotes the use of renewable energy by extending the credit for constructing renewable fuel facilities and the credit for biodiesel producers. It also revises the tax credit for investing in renewable energy property, reinstates and expands the tax credit for constructing a renewable energy property facility, clarifies the authority of local governments to finance energy programs, clarifies that real property donated for a conservation purpose can be used only for that purpose, and ensures that homeowners association restrictions do not prevent the use of solar energy systems. Sabra Faires, the Senate tax counsel, was recognized to answer questions. Senator Atwater moved for a favorable report and the motion carried. A copy of the PCS and the fiscal memo is attached.

In order to explain the next bill, Senator Jenkins turned the chair duties over to Senator Clodfelter.

HOUSE BILL 1695:
Repeal Waynesville Firemen's Supp. Pension

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	June 28, 2010
Introduced by:	Reps. Rapp, Haire	**Prepared by:**	Cindy Avrette
Analysis of:	First Edition		Committee Counsel

SUMMARY: ***House Bill 1695 is a local bill that would repeal the Waynesville Firemen's Supplemental Retirement Fund and transfer the monies in the Fund to the Board of Trustees of the Local Firemen's Relief Fund of the Town of Waynesville.***

HB 1695 has been given a favorable report in House Pensions and Retirement.

CURRENT LAW: The Waynesville Firemen's Supplemental Retirement Fund was created by local act in 1981 by Chapter 288 of the 1981 Session Laws. This act required the Board of Trustees of the Local Fireman's Relief Fund of Waynesville to transfer all funds in the Local Firemen's Relief Fund in excess of $40,000 to the newly created Supplemental Fund before January 1, 1982. After January 1, 1982, each retired fireman of the town, who retires with at least 20 years of service as a Waynesville fireman and is at least 55 years of age, receives $50 per month as long as the Supplemental Retirement Fund exists. The funds in the Supplemental Retirement Fund or the Local Firemen's Relief Fund may be invested in CDs and certain classes of securities. The Supplemental Retirement Fund will cease to exist when all the funds have been disbursed.

BILL ANALYSIS: HB 1695 repeals S.L. 1981-288, which created the Waynesville Firemen's Supplemental Retirement Fund, and directs that the funds remaining in this Fund be transferred to the Board of Trustees of the Local Firemen's Relief Fund of the Town of Waynesville. The transferred funds are to be held and administered as provided in Article 84 of Chapter 58 of the General Statutes.

Article 84 requires each county, town, or city receiving benefits under the Article to appoint a local board of trustees for the firemen's relief fund. Pursuant to G.S. 58-84-30, the board is composed of five members, two of whom are elected by the members of the local fire department or departments who are qualified as beneficiaries, two of whom are elected by the mayor and board of aldermen or other local governing body, and one named by the Commissioner of Insurance. Article 84 also provides for the disbursement of funds by the trustees (G.S. 58-84-35), the requirement to keep account and file certified reports (G.S. 58-84-40), the responsibility to file a certificate of eligibility with the Commissioner of Insurance (G.S. 58-84-46), a prohibition on discrimination (G.S. 58-84-55), and other provisions.

EFFECTIVE DATE: HB 1695 is effective when it becomes law.

BACKGROUND: The General Assembly has repealed supplemental firemen's retirement funds in the following municipalities: Burlington (S.L. 2008-49), Whiteville (S.L. 2007-111), Fayetteville (S.L. 2003-34), Lincolnton (S.L. 2002-41), Monroe (S.L. 2001-70), Cary (S.L. 2001-23), Marion (S.L. 2001-21), Morehead City (S.L. 2001-18), Cherryville (S.L. 2000-21), Forest City (S.L. 1999-63), Laurinburg (S.L. 1998-63), Raleigh (S.L. 1997-460) and Hendersonville (S.L. 1995-343).

SENATE BILL 1446*

Short Title:	Durham Stormwater Facilities Assessments.	(Local)
Sponsors:	Senators McKissick; and Atwater.	
Referred to:	Finance.	

May 27, 2010

A BILL TO BE ENTITLED

AN ACT AMENDING THE CHARTER OF THE CITY OF DURHAM TO AUTHORIZE ASSESSMENTS AGAINST PROPERTIES SERVED BY STORMWATER FACILITIES FOR THE CONSTRUCTION AND REPAIR OF THOSE FACILITIES.

The General Assembly of North Carolina enacts:

SECTION 1. Article 7 of Chapter VI of the Charter of the City of Durham, being Chapter 671 of the 1975 Session Laws, as amended, is amended by adding a new section to read as follows:

"Sec. 82.1. Assessment Authority for Stormwater Facilities.

(a) The City Council is authorized to assess the City's direct and indirect costs for projects that construct, reconstruct, or repair stormwater facilities on private or public property when the projects remediate a flooding or other public nuisance or enable compliance with State or federal requirements regarding water quality. The assessments shall be made against properties the project serves or will serve or against the owner of a failing facility or the property on which the facility is located. The authority granted under this section does not allow the City to enter private property except as otherwise authorized by law or agreement. In the event that work is necessary on an existing facility, unless the project is necessary to remediate a current public nuisance, prior to initiating a project, the City shall give advance written notice to the property owner or owners upon which the facility is located and shall afford the owner or owners a reasonable opportunity to cure any deficiency in the facility. The City Council's assessment authority under this section shall be exercised pursuant to one or more ordinances adopted by the City Council which are consistent with the provisions of this section.

(b) The City shall make a professional engineering determination regarding the properties that are or will be served by the project using drainage basins, subdivision plats, site plans, or other professionally recognized indicators. When costs are to be allocated to more than one property, the City shall allocate the costs using any or a combination of the following criteria: (i) the area of individual properties; (ii) tax valuation; (iii) the number of buildable lots or properties; (iv) zoning; (v) one or more professional appraisals; or (vi) impervious area. Properties owned by the federal government or State government shall not be assessed unless authorized by law, and the assessments that would have been made against federal government or State government properties shall not be charged against the remaining properties.

(c) The City shall prepare an assessment roll showing the cost allocated to each property which shall be filed and available for public review in the office indicated in notices provided pursuant to this subsection. The City Council shall conduct a public hearing regarding the proposed assessment and assessment roll. At least 21 days prior to the public hearing, individual notice by first-class mail shall be sent to each impacted property owner at the

address shown on the most current county tax records. The notice shall include a description of the project, the assessment roll, and the time and date of the council meeting at which the public hearing is scheduled. Notice shall also be published not less than 10 days before the public hearing on the City's Web site and in a daily newspaper that serves the City. Published notice shall include a description and location of the project, the total costs to be assessed, the geographic area subject to the assessment, the public office in which the assessment roll showing individual properties and assessment amounts can be found, and an Internet link where the specifics of the assessment roll can be located. The person who has mailed notice and ensured compliance with the published and Internet postings shall file with the City Council a certificate of compliance with the requirements of this subsection and, in the absence of fraud, the certificate shall be conclusive.

(d) After the public hearing, the City Council may confirm the assessment as proposed, continue the matter, not approve the proposed assessment, or direct that the assessment process begin anew. All documentation regarding the approved assessment shall be retained in the Office of the City Clerk or the Department of Public Works.

(e) The City Council may set aside or reduce a prior assessment made against a property, with individual notice to the affected property owner, if a clerical or factual error has substantially impacted the result of any assessment by more than five percent (5%). For purposes of this subsection, the term "error" includes, but is not limited to, the use of an incorrect tax value, incorrect calculation of buildable lots or area of property, or mistaken identification of a property or lot. In addition, the City Council may set aside the whole of an assessment if there has been a substantial irregularity in the proceedings or process as required under this section. The assessment process shall be considered an in rem proceeding.

(f) A final assessment approved by the City Council shall be a lien against the property assessed of the same nature and to the same extent as a lien for county and city taxes, according to the priorities set forth in G.S. 160A-233(c).

(g) The provisions of subsections (21), (22), (22.1), (23), (26), (27), and (29) of Section 77 of this Charter shall apply to assessments approved pursuant to the provisions of this section. A request for apportionment of an assessment for property that is subdivided as provided under Section 77(26) of this Charter may be approved administratively by the City Manager and the City Manager's approval, and the resulting assessment amounts for subdivided properties shall be filed with the City Clerk with the originally approved assessment amounts. Notwithstanding the provisions of subsections (21), (22), (22.1), (23), (26), (27), and (29) of Section 77 of this Charter, the City Council may, in its discretion, by ordinance, accelerate payment of assessments due for land that at the time of assessment was undeveloped so that payment is required prior to issuance of a building permit or a certificate of compliance.

(h) The authority provided in this section is in addition to and not in limitation of any other authority granted by this Charter or any other provision of general or local law."

SECTION 2. This act is effective when it becomes law.

SENATE BILL 1446:
Durham Stormwater Facilities Assessments

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	June 29, 2010
Introduced by:	Sen. McKissick	**Prepared by:**	Cindy Avrette Committee Counsel
Analysis of:	First Edition		

SUMMARY: ***Senate Bill 1446[1] would amend the charter for the City of Durham to authorize assessments against private or public properties served by stormwater facilities for the construction and repair of the facilities when such projects remediate a flooding or other public nuisance or enable compliance with State or federal requirements regarding water quality.***

BACKGROUND: Cities must meet legal requirements imposed by both State and federal law and regulation to ensure completion of stormwater facilities on private property and their continued upkeep. Over the past 20 years, approximately 500 stormwater detention facilities of various types have been created in the City of Durham to meet water quality requirements in water supply/watershed areas and in the Neuse Basin. These facilities are now required throughout the City and an increasing number will be necessary to meet the Jordan and Falls nutrient management requirements imposed by the State.

Generally, the City requires developers to build the facilities in a development project and the property owners the facilities serve are required to maintain them. The City is experiencing incomplete stormwater facilities as some development projects are halted. In the past, the City would require the next developer that comes to a failed project to complete the infrastructure. However, financing of the construction of these facilities is becoming more problematic. Bonds and similar securities are not always sufficient to cover completion. And requiring a developer who may be taking over 10% of a failed project to complete construction of the entire facility that will serve a larger area may not be fair. Likewise the cost of reconstructing and maintaining these facilities is becoming increasingly difficult. Homeowners' associations often do not have the legal resources to collect the costs of major reconstruction of a stormwater facility from all their members.

CURRENT LAW: Although cities have general statutory authority to make special assessments, the City of Durham has relied upon the authority granted to it by the General Assembly in its Charter for many decades. G.S. 160A-216 allows a city to make special assessments against benefited property for, among other things, constructing, reconstructing, extending, and otherwise building or improving storm sewer and drainage systems. Article 7 of Chapter VI of the Charter of the City of Durham authorizes special assessments to be made for storm sewer improvements upon petition of a majority of the owners of properties subject to assessment, and under certain limited circumstances, without a petition.

BILL ANALYSIS: Senate Bill 1446 would add a new section 82.1 to Article 7 of Chapter VI of the Durham city charter specifically authorizing the City Council to assess the direct and indirect costs for projects for the construction, reconstruction, or repair of stormwater facilities on properties served or to be served by the projects, when the projects remediate flooding or other public nuisance or enable compliance with State or federal water quality requirements. The provision incorporates various assessment procedures that have been used for many decades for water and sewer projects in the City.

The City Council would be required to exercise all of its newly granted assessment authority pursuant to one or more ordinances. The bill would require the City to prepare an assessment roll showing the costs

[1] As introduced, this bill was identical to H2069, as introduced by Representatives Hall, Luebke, Michaux, and Wilkins, which is currently in House Local Government II.

allocated to each property to be assessed, make the roll available for public inspection, and hold a public hearing regarding the proposed assessment and allocation of costs.

The bill would authorize the City Council to reduce or set aside a prior assessment for clerical or factual errors impacting the assessment result by more than 5%, and would make a final assessment a lien against the property of the same nature and to the same extent as a lien for county and city taxes.

EFFECTIVE DATE: This act is effective when it becomes law.

HOUSE BILL 710:
Archer Lodge Boundary Correction

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	June 28, 2010
Introduced by:	Rep. Daughtry	**Prepared by:**	Cindy Avrette
Analysis of:	Second Edition		Committee Counsel

SUMMARY: This Senate Committee Substitute for House Bill 710 would correct the boundary of the Town of Archer Lodge by removing a parcel of land included in the original description.

CURRENT LAW: In 2009, the General Assembly incorporated a new municipality in Johnston County, the Town of Archer Lodge. The incorporation was subject to a referendum to be held on November 3, 2009. When the referendum was held, a majority of the voters of the area described in the act voted in favor of incorporation, and the town was incorporated upon the certification of those referendum results a week later, on November 10, 2009.

BILL ANALYSIS: The Senate Committee Substitute for House Bill 710 would correct the boundary, as described in the Charter of the Town of Archer Lodge, as enacted by the General Assembly in 2009, by removing a parcel of land that was included in the original description.

EFFECTIVE DATE: Retroactively to November 10, 2009, the date of incorporation of the town.

BACKGROUND: As introduced, House Bill 710 would have allowed the Town of Clayton, also in Johnston County, to use electronic means to give notice of certain public hearings.

A BILL TO BE ENTITLED

AN ACT TO AUTHORIZE THE CITY OF LOCUST AND THE TOWNS OF NEW LONDON AND STANFIELD TO ATTACH PERSONAL PROPERTY, GARNISH WAGES, AND PLACE LIENS ON CERTAIN REAL PROPERTY TO COLLECT UNPAID FEES FOR SEWER SERVICES.

The General Assembly of North Carolina enacts:

SECTION 1. A city may adopt an ordinance providing that a fee charged by the city for sewer services and remaining unpaid for a period of 90 days may be collected in any manner by which delinquent personal or real property taxes can be collected. If the ordinance states that delinquent fees may be collected in the same manner as delinquent real property taxes, the delinquent fees are a lien on the real property owned by the person contracting with the city for the service, and the ordinance shall provide for an appeals process. If a lien is placed on real property, the lien shall be valid from the time of filing in the office of the clerk of superior court of the county in which the service was provided and shall include a statement containing the name and address of the person against whom the lien is claimed, the name of the city claiming the lien, the specific service that was provided, the amount of the unpaid charge for that service, and the date and place of furnishing that service. A lien on real property is not effective against an interest in real property conveyed after the fees become delinquent if the interest is recorded in the office of the register of deeds prior to the filing of the lien for delinquent water or sewer services. No lien under this act shall be valid unless filed in accordance with this section after 90 days of the date of the failure to pay for the service or availability fees and within 180 days of the date of the failure to pay for the service or fees. The lien may be discharged as provided in G.S. 44-48.

The city shall adopt an appeals process providing notice and an opportunity to be heard in protest of the imposition of such liens. The county tax office, once notified of the city's lien, shall include the lien amount on any tax bills printed subsequent to the notification. The county tax office shall add or remove liens from the tax bill at the request of the city (such as in the case of an appeal where the city decides to cancel the lien).

SECTION 2. This act applies to the City of Locust and to the Towns of New London and Stanfield.

SECTION 3. This act is effective when it becomes law.

HOUSE BILL 1736:
Local Delinquent Sewer Fees

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	June 28, 2010
Introduced by:	Rep. Burr	**Prepared by:**	Cindy Avrette
Analysis of:	Third Edition		Committee Counsel

SUMMARY: House Bill 1736 authorizes the City of Locust and the Towns of New London and Stanfield, which are located in Stanly County, to collect delinquent fees for sewer services in the same manner that property taxes are collected.

CURRENT LAW: Municipalities are authorized to acquire, construct, establish, maintain, own, operate, and contract for the operation of a "public enterprise," which includes wastewater collection, treatment, and disposal systems of all types, including septic tank systems or other on-site collection or disposal facilities. [G.S. 160A-311-312]. Municipalities are also authorized to establish a schedule of rates and fees for the use of or the services furnished by any pubic enterprise. [G.S. 160A-314]. A city has the authority to collect delinquent accounts by any remedy provided by law for collecting and enforcing private debts. [G.S. 160A-314(b)]. A city may also discontinue service to any customer whose account remains delinquent for more than 10 days. [G.S. 160A-314(b)]. There are also other statutory provisions that address the collection of fees for government services, including:

- *Ambulance Services* – G.S. 44-51.4 allows a local government to collect an account 90 days delinquent through the use of attachment and garnishment proceedings set forth for the collection of property taxes. G.S. 44-55.1 also allows the placement of a lien on real property for unpaid ambulance fees.
- *Solid Waste Fees* – G.S. 153A-293 authorizes a county to enact an ordinance providing that a solid waste fee may be billed and collected as a property tax.

Property taxes may be collected in the following ways:

- Placement of a lien on real and personal property, which is superior to all other liens.
- Sale of real or personal property.
- Attachment and garnishment of wages and bank accounts.

BILL ANALYSIS: House Bill 1736 would authorize the City of Locust and the Towns of New London and Stanfield to adopt an ordinance providing that the city or town may collect any fee for sewer service that is 90 days past due as if it were a property tax. For liens placed on real property, the lien is valid from the time of filing. The lien must be filed with the clerk of superior court in the county in which the service was provided and must provide a statement of the name and address of the person against whom the lien is claimed, the name of the city claiming the lien, the specific service provided for which the fee is delinquent, the amount of the unpaid charge, and the date and place of the service provided. The lien must be filed after the charge is 90 days past due and within 180 days of the failure to pay the charge. The ordinance must include an appeals process. The county tax office must include the lien on any tax bills printed subsequent to its notification, and remove the lien from the bill at the request of the City.

EFFECTIVE DATE: This act is effective when it becomes law.

BACKGROUND: The following local legislation regarding delinquent water and sewer fees has been enacted:

- S.L. 1993-768: Authorizes City of Durham to collect delinquent water and sewer fees resulting from leaking or broken pipes of the real property owner in the same manner as property taxes.
- S.L. 2003-270: Authorizes Columbus[1], Davie, Duplin, and Lenoir Counties, the municipalities in these counties, and water and wastewater authorities in these counties to collect delinquent water and sewer fees in the same manner as delinquent property taxes.
- S.L. 2009-402 Authorizes Montgomery County to collect delinquent water and sewer fees in the same manner as delinquent property taxes.

Giles Perry, counsel to House Local Government I, and Trina Griffin, counsel to House Finance, substantially contributed to this summary.

H1736-SMRB-96(e3) v1

[1] The authority for Columbus County was removed in 2004. However, the municipalities within Columbus County maintain the authority.

MEMORANDUM
June 24, 2010

TO: Senate Finance Committee
FROM: General Statutes Commission
RE: **House Bill 1741 (Animal Euthanasia Technicians)**

General Comments

This bill allows animal shelters that are owned, operated, or maintained by a unit of local government or under contract with a unit of local government to register with the North Carolina Department of Health and Human Services (DHHS) in order to obtain euthanasia drugs directly from the manufacturer. A shelter will also need to register with the federal Drug Enforcement Agency (DEA). In addition, the bill makes related amendments to the Animal Welfare Act.

The General Statutes Commission is informed that the ability to obtain euthanasia drugs directly from the drug manufacturer will reduce their cost to the animal shelter. Because, historically, carbon monoxide chambers have been less expensive for shelters than euthanasia by injection, it is possible that lowering the cost of euthanasia by injection will result in a decrease in the use of carbon monoxide chambers.

Specific Comments

Section 1 amends G.S. 90-101 to add a new subsection (a2) that:

- Allows DHHS to register animal shelters as described in the bill;
- Limits the persons who can order euthanasia drugs for a shelter to the shelter manager or chief operating officer or a veterinarian;
- Requires a shelter that registers with the State to register also with DEA;
- Authorizes properly certified euthanasia technicians to administer euthanasia drugs to dogs and cats lawfully held by the shelter (but only on its premises); and
- Defines "animal shelter" for purposes of the section.

To answer a possible question, the authorization for animal shelters to purchase euthanasia drugs is for "animals" while the authorization for certified euthanasia technicians is for "dogs" and "cats." The reason is that euthanasia technicians are trained and certified for dogs and cats only. Shelters, however, sometimes take in other animals, and a shelter may employ a veterinarian for other kinds of animals who will use the shelter's supplies.

Section 1 also amends G.S. 90-101(a) to add a registration fee for shelters of $150, the same as the fee for clinics, nursing homes, schools, researchers, laboratories, and dog handlers.

Section 2 amends G.S. 19A-24(b) in two respects.

It conforms the introductory language of the subsection to the subsection's actual content. The introductory language of G.S. 19A-24(b) currently refers to adopting rules on the euthanasia of animals, but the subsection actually deals with certifying euthanasia technicians. The authority of the Board of Agriculture (Board) to adopt rules on animal euthanasia is in G.S. 19A-24(a) (please note that "animal" in G.S. 19A-24 means a dog or a cat, see N.C. Gen. Stat. § 19A-23 (2009)).

Section 2's amendment to G.S. 19A-24(b)(7) clarifies the Board's authority to provide by rule for denying, suspending, or revoking a euthanasia technician's certification. Grounds may include violating the Animal Welfare Act or the Board's rules; conviction of any felony or any lesser offense that involves animal cruelty or is related to being a euthanasia technician; falsifying an application; or otherwise becoming ineligible for certification.

Section 3 adds two new subsections to G.S. 19A-24.

New subsection (c) expressly authorizes the North Carolina Department of Agriculture and Consumer Services (Department) to deny, revoke, or suspend a euthanasia technician's certification for conviction of a drug-related felony even if the Board has not included that ground in its rules.

New subsection (d) requires applicants for certification as a euthanasia technician to provide the Department with fingerprints and consent for the Department to obtain a criminal record check from the Department of Justice. Refusal by an applicant is grounds to deny the application. The Department collects the Department of Justice's fee for the criminal records check and then remits it to the Department of Justice.

Section 4 adds a new section, G.S. 114-19.28, to Chapter 114 of the General Statutes to authorize the Department of Justice to provide criminal record checks to the Department of Agriculture and Consumer Services for applicants for certification as a euthanasia technician. The new statute requires the Department of Agriculture and Consumer Services to provide the fingerprints and authorizes the Department of Justice to charge a fee.

Section 5 provides an effective date of October 1, 2010.

HOUSE BILL 1741:
Animal Euthanasia Technicians

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	June 28, 2010
Introduced by:	Rep. Ross	**Prepared by:**	Cindy Avrette
Analysis of:	Second Edition		Committee Counsel

SUMMARY: ***House Bill 1741[1], which is a recommendation of the General Statutes Commission, would allow animal shelters that are owned, operated, or maintained by a unit of local government or under contract with a unit of local government to register with the North Carolina Department of Health and Human Services (DHHS) in order to obtain euthanasia drugs directly from the manufacturer. The bill would make related amendments to the Animal Welfare Act.***

CURRENT LAW: Animal shelters may either use euthanasia drugs or carbon monoxide chambers when they have to euthanize animals. Historically, carbon monoxide chambers have been less expensive for shelters than euthanasia by injection. The ability of animal shelters to obtain euthanasia drugs directly from the manufacturer would reduce their costs and may result in more animal shelters utilizing euthanasia by injection.

To obtain euthanasia drugs directly from the manufacturer, a person must be registered with the Developmental Disabilities and Substance Abuse Services program with the Department of Health and Human Services' (DHHS) Division of Mental Health. Some animal shelters currently register with the program under a memorandum of agreement between the shelter and a veterinarian. Shelters may use the memorandum of agreement to register as a 'clinic'. The program currently licenses 93 facilities that euthanize dogs and cats.

The Animal Welfare Section of the Department of Agriculture and Consumer Services (DACS) Veterinary Division certifies euthanasia technicians and licenses public and private animal shelters. There are currently 122 licensed public animal shelters, 93 of which euthanize animals. There are currently 425 certified euthanasia technicians. A certified euthanasia technician is a person employed by a certified facility who has been instructed in the proper methods of humane euthanasia, security, and record keeping. A certification must be renewed every five years.

BILL ANALYSIS: House Bill 1741 would allow animal shelters that are owned, operated, or maintained by a unit of local government or under contract with a unit of local government to register with DHHS in order to obtain euthanasia drugs directly from the manufacturer. The registration fee could not exceed $150. The current registration fee is $125. The bill would also make related amendments to the Animal Welfare Act.

Section 1 of the bill would do the following:

- Allow DHHS to register animal shelters under the NC Controlled Substances Act for the limited purpose of obtaining, possessing, and using drugs for animal euthanasia.
- Require a shelter that registers with the State to register also with the federal Drug Enforcement Agency.

[1] As introduced, the bill was identical to Senate Bill 1219, introduced by Sen. Hartsell. The Senate Bill is in the Senate Judiciary I Committee.

- Authorize properly certified euthanasia technicians to administer euthanasia drugs to dogs and cats lawfully held by the shelter but only on its premises.[2]
- Limit the persons who can order euthanasia drugs for a shelter to the shelter manager or chief operating officer or a licensed veterinarian.
- Define "animal shelter" for purposes of the section.
- Set the maximum registration for shelters at the same amount applicable for clinics, nursing homes, schools, researchers, laboratories, and dog handlers: $150.00.

Section 2 of the bill would clarify the Board of Agriculture's (Board) authority to provide by rule for denying, suspending, or revoking a euthanasia technician's certification. Grounds may include violating the Animal Welfare Act or the Board's rules; conviction of any felony or any lesser offense that involves animal cruelty or is related to being a euthanasia technician; falsifying an application; or otherwise becoming ineligible for certification. The section would also conform the introductory language of the subsection to the subsection's actual content. The introductory language of G.S. 19A-24(b) currently refers to adopting rules on the euthanasia of animals, but the subsection actually deals with certifying euthanasia technicians. The authority of the Board to adopt rules on animal[3] euthanasia is in G.S. 19A-24(a).

Section 3 of the bill would expressly authorize DACS to deny, revoke, or suspend a euthanasia technician's certification for conviction of a drug-related felony even if the Board has not included that ground in its rules. It would also require applicants for certification as a euthanasia technician to provide the DACS with fingerprints and consent for the DACS to obtain a criminal record check from the Department of Justice. Refusal is grounds to deny the application. The DACS would collect the Department of Justice's fee for the criminal records check from the applicant and remit it to the Department of Justice.

Section 4 of the bill would authorize the Department of Justice to provide criminal record checks to the DACS for applicants for certification as a euthanasia technician and to impose the requisite fee. The current fee for a background check is $38.

EFFECTIVE DATE: This act becomes effective October 1, 2010.

This summary was provided by the General Statutes Commission.

H1741-SMRB-94(e2) v3

[2]The authorization for animal shelters to possess and use euthanasia drugs is for "animals" while the authorization for certified euthanasia technicians to possess and use euthanasia drugs is for "dogs" and "cats." The reason is that euthanasia technicians are trained and certified for dogs and cats only. Shelters, however, sometimes take in other animals, and a shelter may employ a veterinarian for other kinds of animals who will use the shelter's supplies.

[3] The term 'animal' refers to a dog or a cat in this context. [G.S. 19A-23].

SECTION 2. This act is effective when it becomes law.

HOUSE BILL 1754:
Tax Certification - Dare & McDowell

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	June 28, 2010
Introduced by:	Rep. Spear	**Prepared by:**	Cindy Avrette
Analysis of:	Second Edition		Committee Counsel

SUMMARY: ***House Bill 1754 would authorize Dare and McDowell Counties to require the payment of delinquent property taxes before recording deeds conveying property.***

CURRENT LAW: G.S. 161-31(a) provides that the board of commissioners of a county may, by resolution, require the register of deeds not to accept any deed transferring real property unless the county tax collector has certified that there are no delinquent ad valorem county taxes, ad valorem municipal taxes, or other taxes with which the collector is charged are a lien on the property described in the deed. In the resolution, the county commissioners may describe the form the certification must take.

G.S. 161-31(a1) provides an exception. It requires that the register of deeds must accept, without certification, a deed that contains the following statement: "This instrument prepared by: _____ _____, a licensed North Carolina attorney. Delinquent taxes, if any, to be paid by the closing attorney to the county tax collector upon disbursement of closing proceeds."

G.S. 161-31 applies to the following 67 counties: Alexander, Anson, Beaufort, Bertie, Burke, Cabarrus, Camden, Carteret, Caswell, Catawba, Cherokee, Chowan, Clay, Cleveland, Currituck, Davidson, Davie, Duplin, Durham, Edgecombe, Forsyth, Gaston, Gates, Graham, Granville, Greene, Halifax, Harnett, Haywood, Henderson, Hertford, Hyde, Iredell, Jackson, Johnston, Jones, Lee, Lenoir, Lincoln, Macon, Madison, Martin, Montgomery, Nash, Northampton, Onslow, Pasquotank, Pender, Perquimans, Person, Pitt, Polk, Robeson, Rockingham, Rowan, Rutherford, Stanly, Surry, Swain, Transylvania, Tyrrell, Vance, Warren, Washington, Wayne, Wilson, and Yadkin.

The following counties have a similar requirement but under different authorizing legislation:

Ashe County	S.L. 1993-657, as amended by S.L. 1997-410 and S.L. 2005-433[1]
Alleghany County	S.L. 1997-410
Mitchell County	S.L. 1987-537, as amended by S.L. 1997-410 and S.L. 1999-326[2]

These local acts state that the Register of Deeds shall not record any deed unless it is accompanied by a certification that all delinquent taxes have been paid. These local acts are in contrast to G.S. 161-31, which gives certain counties the discretion to pass a resolution to that effect.

BILL ANALYSIS: House Bill 1754 would add Dare and McDowell Counties to the list of counties that would permit the board of commissioners to pass a resolution requiring that the register of deeds not accept any deed transferring real property unless the county tax collector certifies that the taxes listed in the statute are not delinquent and are not a lien on the property described in the deed.

EFFECTIVE DATE: This act is effective when it becomes law.

[1] S.L. 2005-433 provides that in addition to receiving a certification from the county tax collector, the Register of Deeds must also receive a certification from any municipal tax collector, where applicable, verifying that all delinquent taxes on the property have been paid.

[2] This local act also provides that if the property is located in the Town of Spruce Pine or the Town of Bakersville, the deed must also be accompanied by a certification from the town tax collector that all municipal taxes have been paid with respect to the property.

A BILL TO BE ENTITLED

AN ACT TO PROVIDE THAT CURRITUCK COUNTY MAY PROHIBIT THE ISSUANCE OF A LAND-USE PERMIT OR A BUILDING PERMIT TO A DELINQUENT TAXPAYER AND TO ALLOW PASQUOTANK COUNTY TO SET THE TAX PREPAYMENT DISCOUNT BY JUNE 30, 2010.

The General Assembly of North Carolina enacts:

SECTION 1. Section 2 of this act applies to Currituck County only.

SECTION 2. G.S. 153A-340 is amended by adding a new subsection to read:

"**§ 153A-340. Grant of power.**

...

(c2) A county may by ordinance provide that a special use permit or conditional use permit may not be issued under subsection (c1) of this section to a person who owes delinquent property taxes, determined under G.S. 105-360, on property owned by the person. Such ordinance may provide that a special use permit or conditional use permit may be issued to a person protesting the assessment or collection of property taxes."

SECTION 3. G.S. 153A-357(c)(2) reads as rewritten:

"(2) This subsection applies to Alexander, Alleghany, Anson, Bertie, Catawba, Chowan, Currituck, Davie, Gates, Greene, Lenoir, Lincoln, Iredell, Stokes, Surry, Tyrrell, Wayne, and Yadkin Counties only."

SECTION 5. This act is effective when it becomes law. Section 4 of this act applies only to the 2010 process of adopting a resolution to set the discount to be applied to taxes paid prior to the due date.

HOUSE BILL 1953:
Delinquent Tax Deny Permits/Set Tax Discount

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	June 28, 2010
Introduced by:	Rep. Owens	**Prepared by:**	Cindy Avrette
Analysis of:	Third Edition		Committee Counsel

SUMMARY: House Bill 1953 would authorize Currituck County to deny issuance of a land use permit or building permit to any person who owes delinquent property taxes, and would extend Pasquotank County's 2010 deadline for setting the property tax prepayment discount schedule from May 1 to June 30..

DELINQUENT TAX DENY PERMITS: In 2005, the General Assembly authorized Greene, Lenoir, Iredell, Wayne, and Yadkin Counties to deny issuance of a building permit to a person who owes delinquent property taxes on property owned by the person.[1] This authority was granted to Davie and Lincoln Counties in 2006,[2] to Gates County in 2007,[3] and to Alexander, Alleghany, Anson, Bertie, Catawba, Chowan, Stokes, Surry and Tyrell Counties in 2009.[4] Section 3 of the bill would add Currituck County to the list of counties previously authorized to deny issuance of a building permit to a person who owes delinquent property taxes.

G.S. 153A-340(c1) authorizes a county to issue special use permits or conditional use permits pursuant to zoning and development regulation ordinances enacted by the county. Section 2 of the bill would authorize Currituck County to enact an ordinance prohibiting issuance of a special use permit or a conditional use permit to a person who owes delinquent property taxes, and permitting issuance of such permits to a person protesting the assessment or collection of property taxes.

SET TAX DISCOUNT: G.S. 105-360(c)(1) authorizes counties to establish a schedule of discounts applied to property taxes paid before their due date, provided that the schedule is specified by resolution or ordinance adopted no later than May 1 preceding the due date of the taxes to which the schedule first applies. Section 4 of the bill would extend the deadline for Pasquotank County to adopt a revised schedule of discounts for payment of property taxes before they are due from May 1 to June 30 preceding the due date of the taxes to which the discounts first apply. It would also entitle any taxpayer who prepays their taxes to Pasquotank County before the new discount schedule is published to claim the discount in effect at the time payment was made.

EFFECTIVE DATE: The act is effective when it becomes law. Section 4 would only apply to the 2010 process by which Pasquotank County adopts the revised schedule of discounts for prepayment of taxes.

In the case of property the taxpayer leases from another, cost is value as determined pursuant to ~~G.S. 105-130.4(j)(2).~~ G.S. 105-130.4(j)(2), unless the property is renewable energy property for which the taxpayer claims either a federal energy credit under section 48 of the Code or a federal grant in lieu of that credit and makes a lease pass-through election under the Code. In this circumstance, the cost of the leased renewable energy property is the cost determined under the Code.

...

(4b) Installation of renewable energy property. – Renewable energy property that, standing alone or in combination with other machinery, equipment, or real property, is able to produce usable energy on its own.

....

(7) Renewable energy property. – Any of the following machinery and equipment or real property:

a. Biomass equipment that uses renewable biomass resources for biofuel production of ethanol, methanol, and biodiesel; anaerobic biogas production of methane utilizing agricultural and animal waste or garbage; or commercial thermal or electrical generation. The term also includes related devices for converting, conditioning, and storing the liquid fuels, gas, and electricity produced with biomass equipment.

b. Combined heat and power system property. – Defined in section 48 of the Code.

SECTION 2.(b) G.S. 105-129.16A reads as rewritten:

"**§ 105-129.16A. Credit for investing in renewable energy property.**

(a) Credit. – If a taxpayer that has constructed, purchased, or leased renewable energy property places it in service in this State during the taxable year, the taxpayer is allowed a credit equal to thirty-five percent (35%) of the cost of the property. In the case of renewable energy property that serves a ~~single-family dwelling,~~nonbusiness purpose, the credit must be taken for the taxable year in which the property is placed in service. For all other renewable energy property, the entire credit may not be taken for the taxable year in which the property is placed in service but must be taken in five equal installments beginning with the taxable year in which the property is placed in service. Upon request of a taxpayer that leases renewable energy property, the lessor of the property must give the taxpayer a statement that describes the renewable energy property and states the cost of the property.

(b) Expiration. – If, in one of the years in which the installment of a credit accrues, the renewable energy property with respect to which the credit was claimed is disposed of, taken out of service, or moved out of State, the credit expires and the taxpayer may not take any remaining installment of the credit. The taxpayer may, however, take the portion of an installment that accrued in a previous year and was carried forward to the extent permitted under G.S. 105-129.17. No credit is allowed under this section to the extent the cost of the renewable energy property was provided by public funds.

(c) Ceilings. – The credit allowed by this section may not exceed the applicable ceilings provided in this subsection.

(1) ~~Nonresidential Property.~~ Business. – A ceiling of two million five hundred thousand dollars ($2,500,000) ~~per installation~~ applies to each installation of renewable energy property placed in service for ~~any purpose other than residential.~~ a business purpose. Renewable energy property is placed in service for a business purpose if the useful energy generated by the property is offered for sale or is used on-site for a purpose other than providing energy to a residence.

(2) ~~Residential Property.~~Nonbusiness. – The following ceilings apply to each installation of renewable energy property placed in service for ~~residential purposes:~~ a nonbusiness purpose. The ceiling applies to each residence:

a. One thousand four hundred dollars ($1,400) ~~per dwelling unit~~ for solar energy equipment for domestic water heating, including pool heating.

b. Three thousand five hundred dollars ($3,500) ~~per dwelling unit~~ for solar energy equipment for active space heating, combined active space and domestic hot water systems, and passive space heating.

d. ~~Eight thousand four hundred dollars ($8,400) per installation for a geothermal heat pump or geothermal equipment.~~Ten thousand five hundred dollars ($10,500) for any other renewable energy property.

(d) No Double Credit. – A taxpayer that claims any other credit allowed under this Chapter with respect to renewable energy property may not take the credit allowed in this section with respect to the same property. A taxpayer may not take the credit allowed in this section for renewable energy property the taxpayer leases from another unless the taxpayer obtains the lessor's written certification that the lessor will not claim a credit under this Chapter with respect to the property.

(e) Sunset. – This section is repealed effective for renewable energy property placed into service on or after January 1, 2016."

SECTION 2.(c) G.S. 105-259(b) is amended by adding the following new subdivision to read:

"(40) To furnish to a taxpayer claiming a credit under G.S. 105-129.16A information used by the Secretary to adjust the amount of the credit claimed by the taxpayer."

(a) Credit. – A taxpayer that places in service in this State a commercial facility for the manufacture of renewable energy property or a major component subassembly for a solar array or a wind turbine is allowed a credit. A taxpayer places a facility in service if it constructs the facility or converts its existing manufacturing facility to change the product it manufactures. For a taxpayer that constructs a facility, the credit is 25% of the taxpayer's cost to construct and equip the facility. For a taxpayer that converts a facility, the credit is 25% of the taxpayer's cost to convert and equip the existing facility. A taxpayer that claims any other credit allowed under this Chapter with respect to the facility may not take the credit allowed in this section with respect to that facility.

(b) Installments. – The entire credit may not be taken for the taxable year in which the facility is placed in service but must be taken in five equal annual installments beginning with the taxable year in which the facility is placed in service. If, in one of the years in which the installment of a credit accrues, the facility with respect to which the credit was claimed is disposed of or taken out of service, the credit expires and the taxpayer may not take any remaining installment of the credit. The taxpayer may, however, take the portion of an installment that accrued in a previous year and was carried forward to the extent permitted under G.S. 105-129.17.

Lands required to be dedicated pursuant to local governmental regulation or ordinance and dedications made to increase building density levels permitted under a regulation or ordinance are not eligible for this credit.

The credit allowed under this section for one or more qualified donations made in a taxable year may not exceed five hundred thousand dollars ($500,000). To support the credit allowed by this section, the taxpayer must file with the income tax return for the taxable year in which the credit is claimed the following:

(2) A self-contained appraisal report or summary appraisal report as defined in Standards Rule 2-2 in the latest edition of the Uniform Standards of Professional Appraisal Practice as promulgated by the Appraisal Foundation for the property. For fee simple absolute donations of real property, a taxpayer may submit documentation of the county's appraised value of the donated property, as adjusted by the sales assessment ratio, in lieu of an appraisal report."

SECTION 5.(b) G.S. 105-151.12(a) reads as rewritten:

"(a) An individual or pass-through entity that makes a qualified donation of an interest in real property located in North Carolina during the taxable year that is useful for (i) public beach access or use, (ii) public access to public waters or trails, (iii) fish and wildlife conservation, (iv) forestland or farmland conservation, (v) watershed protection, (vi) conservation of natural areas as that term is defined in G.S. 113A-164.3(3), (vii) conservation of natural or scenic river areas as those terms are used in G.S. 113A-34, (viii) conservation of predominantly natural parkland, or (ix) historic landscape conservation is allowed a credit against the tax imposed by this Part equal to twenty-five percent (25%) of the fair market value of the donated property interest. For fee simple absolute donations of real property, a taxpayer may submit documentation of the county's appraised value of the donated property, as adjusted by the sales assessment ratio, in lieu of an appraisal report."

ENSURE THAT HOMEOWNERS ASSOCIATION RESTRICTIONS DO NOT PREVENT THE USE OF SOLAR ENERGY SYSTEMS

SECTION 6.(a) G.S. 22B-20 reads as rewritten:

§ 22B-20. Deed restrictions and other agreements prohibiting solar collectors.

(a) The intent of the General Assembly is to protect the public health, safety, and welfare by encouraging the development and use of solar resources and by prohibiting deed restrictions, covenants, and other similar agreements that could have the ultimate effect of driving the costs of owning and maintaining a residence beyond the financial means of most owners.

(b) ~~Except as provided in subsection (d) of this section, any~~A deed restriction, covenant, or similar binding agreement that runs with the land that would prohibit, or have the effect of prohibiting, the installation of a solar collector that gathers solar radiation as a substitute for traditional energy for water heating, active space heating and cooling, passive heating, or generating electricity for a residential property on land subject to the deed restriction, covenant, or agreement is void and unenforceable. As used in this section, the term "residential property" means property where the predominant use is for residential purposes. The term "residential property" does not include any condominium created under Chapter 47A or 47C of the General Statutes located in a multi-story building containing units having horizontal boundaries described in the declaration. As used in this section, the term "declaration" has the same meaning as in G.S. 47A-3 or G.S. 47C-1-103, depending on the chapter of the General Statutes under which the condominium was created.

(c) ~~This section does not prohibit a~~A deed restriction, covenant, or similar binding agreement that runs with the land ~~that would regulate~~may not place unreasonable restrictions on the location or screening of solar collectors as described in subsection (b) of this ~~section, provided the deed restriction, covenant, or similar binding agreement does not have the effect of preventing the reasonable use of a solar collector for a residential property.~~ section. As used in this subsection "unreasonable restrictions" means any restriction that would increase the installation costs of a solar collector by more than 10% of the total initial installation costs, including labor and equipment. If an owners' association is responsible for exterior maintenance of a structure containing individual residences, a deed restriction, covenant, or similar binding agreement that runs with the land may provide that (i) the title owner of the residence shall be responsible for all damages caused by the installation, existence, or removal

of solar collectors; (ii) the title owner of the residence shall hold harmless and indemnify the owners' association for any damages caused by the installation, existence, or removal of solar collectors; and (iii) the owners' association shall not be responsible for maintenance, repair, replacement, or removal of solar collectors unless expressly agreed in a written agreement that is recorded in the office of the register of deeds in the county or counties in which the property is situated. As used in this section, "owners' association" has the same meaning as in G.S. 47F-1-103.

~~(d) This section does not prohibit a deed restriction, covenant, or similar binding agreement that runs with the land that would prohibit the location of solar collectors as described in subsection (b) of this section that are visible by a person on the ground:~~

~~(1) On the facade of a structure that faces areas open to common or public access;~~

~~(2) On a roof surface that slopes downward toward the same areas open to common or public access that the façade of the structure faces; or~~

~~(3) Within the area set off by a line running across the façade of the structure extending to the property boundaries on either side of the façade, and those areas of common or public access faced by the structure.~~

(e) In any civil action arising under this section, the court may award costs and reasonable attorneys' fees to the prevailing party.".

SECTION 6.(b) This section becomes effective December 1, 2010, and applies to deed restrictions, covenants, or similar binding agreements that run with the land and that are recorded on or after that date.

BILL SUMMARY:

Section 1: Section 1 extends the sunsets for the credit for constructing renewable fuel facilities and the credit for biodiesel producers from January 1, 2011 to January 1, 2013.

Section 2: Section 2 makes the following changes to the credit for investing in renewable energy property:

- Amends the definition of "cost" to follow the federal definition under the Internal Revenue Code. As currently defined, the cost of leased property is determined by multiplying the annual rent by eight. This is the same definition that is used under the Bill Lee Act and Article 3J. In some instances, a developer will structure a project in such a way as to elect for federal purposes to pass through the federal tax credit to an affiliated entity that is leasing the equipment. In these instances, the actual cost of the renewable energy property and installation can be greater than the amount derived by multiplying the annual rent by eight. This change to the definition would allow the person that elects to pass through the federal credit to use the actual cost of the property when calculating the tax credit.

- Creates a definition for the term "installation" that is consistent with the interpretation of the term by the Department of Revenue in private letter rulings. The tax credit is limited to $2.5 million per nonresidential installation. The term "installation" is not defined, and investors routinely seek rulings from the Department of Revenue for clarification of this term and its application to particular projects. The Department has defined installation as "renewable energy property that standing alone or in combination with other machinery, equipment, or real property is able to produce usable renewable energy on its own."

- Adds combined heat and power equipment to the types of property that is eligible for the credit. Combined heat and power equipment produces heat and electricity simultaneously.

- Amends the definition of wind turbine to include equipment used in relaying the electricity produced by a wind turbine by cable to the power grid.

- Makes other technical and conforming changes to the statute.

This section is effective for taxable years beginning on or after January 1, 2010.

Section 3: Section 3 reinstates and expands the credit for constructing a facility for renewable energy property and a major component subassembly for a solar array or a wind turbine. The credit is equal to 25% of the cost to the taxpayer of constructing and equipping the facility. Renewable energy property includes biomass equipment, combined heat and power equipment, hydroelectric generators, geothermal equipment, solar energy equipment, and wind equipment. The credit may be taken against the franchise tax or the income tax. The entire credit must be taken in five equal installments, beginning with the taxable year the facility is placed in service. If the facility is disposed of, or taken out of service, the taxpayer may not take any remaining installments. The credit is subject to the following limitations:

- The credit may not exceed 50% of the tax against which it is claimed for the taxable year.

- Any unused portion of the credit may be carried forward for five years.

- A taxpayer that claims any other credit with respect to the construction of a facility to manufacture renewable energy property may not take this credit with respect to the same facility.

The credit is effective for taxable years beginning on or after January 1, 2010 and would sunset for facilities placed in service on or after January 1, 2014.

Source: Committee Counsel Bill Summary

ASSUMPTIONS AND METHODOLOGY:

Section 1.(a): This subsection extends the sunset for the credit for constructing renewable fuel facilities from January 1, 2011 to January 1, 2013. The Department of Revenue Tax Expenditure Report projects no significant impact for this credit in FY 2009-10. Fiscal Research is aware of an ethanol plant, which opened in 2010 and may qualify for the credit for constructing renewable fuel processing facilities; however, because the plant is being completed before the existing sunset, any fiscal impact would be realized under current law. As a result, the extension of the credit is expected to have no significant impact.

Section 1.(b): This subsection extends the sunset for the tax credit for biodiesel producers from January 1, 2011 to January 1, 2013. The credit is equal to the per gallon excise tax paid under Article 36C of Chapter 105. The credit does not apply to biodiesel blend. According to the Department of Revenue Tax Expenditure Report, there are 8 biodiesel producers in North Carolina and annual production is assumed to be 4 million gallons per year. Based on a projected motor fuels tax rate of 31.7 cents per gallon, the credit is estimated to cost $1.3 million annually.

The bill would sunset the credit in January 2013. This would result in a partial year impact for FY 2012-13, and no impact for FY 2013-14.

Section 2: The change to the definition of cost will make the credit more generous for taxpayers that lease renewable energy property in the majority of cases, but it is estimated to have an insignificant fiscal impact because lessees of renewable energy property have already been following the federal rules under the Internal Revenue Code for determining the cost of leased property used to calculate the tax credit according to the North Carolina Sustainable Energy Association. This practice is consistent with the determination of cost as applied under the change made by House Bill 1829.

Adding a statutory definition of installation will not have an impact because House Bill 1829 codifies the definition as currently interpreted by the Department of Revenue in letter rulings. Additional statutory definitions provide clarity regarding the types of property that qualify and do not have a fiscal impact.

Section 3: The bill creates a tax credit for the construction of a facility used to manufacture renewable energy property. Since there are no known projects that would qualify for the credit, there is no fiscal impact estimated.

SENATE BILL 1214:
Highway Patrol Motor Carrier Fines/ Local Fees.

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	June 29, 2010
Introduced by:	Sen. Jenkins	**Prepared by:**	Heather Fennell Committee Counsel
Analysis of:	PCS to First Edition S1214-CSTDf-104		

SUMMARY: Senate Bill 1214 would clarify the vehicles that are regulated under the Motor Carrier Safety Regulation Unit, would amend various laws pertaining to property hauling vehicles and would allow local governments refund assessments.

BILL ANALYSIS:

Vehicles Regulated under the Motor Carrier Safety Regulation Unit.

The Federal Motor Vehicle Safety Act, 49 C.F.R. 350.331 requires a state that receives funding from the Motor Carrier Safety Assistance Program (MCSAP) to conduct an annual review of its laws for conformity with federal motor safety requirements. The Motor Carrier Safety Assistance Program (MCSAP) is a Federal grant program that provides financial assistance to States to reduce the number and severity of accidents involving commercial motor vehicles. 49 C.F.R. 350.341 permits a state to exempt from its safety laws commercial motor vehicles with a gross vehicle rating (GVWR), gross combination weight rating (GCWR) gross vehicle weight (CVW), or gross combination weight (GCW) of less than 26,001. Under current State law, a vehicle with a GVWR of less than 26,001 pounds and a towed unit with a GVWR of less than 10,001 are not regulated under the Motor Carrier Regulation Unit, although the GCWR, GHVW, or GCW of the vehicle and towed unit combined exceed 26,001 pounds.

Sections 1 and 5: Amend the North Carolina motor vehicle laws to comply with the Federal Motor Vehicle Safety Act, bringing the State in compliance for funding purposes. Section 1 provides definitions for gross combination weight rating (GVWR), gross vehicle weight (GCWR), and gross combined weight (GVW). Section 5 provides that vehicles are regulated under the Motor Carrier Regulation Unit if the vehicle has a GVWR, GCWR, GVW, or GCW of 26,001 pounds or more.

State of Limitations on Seized Vehicles.

Under G. S. 20-96, a law enforcement officer has authority to seize and detain property-hauling vehicles or vehicles regulated by the Motor Carrier Safety Regulation Unit until delinquent fines or penalties and taxes are paid. When necessary, an officer who detains a vehicle may have the vehicle stored, and the owner of the vehicle is responsible for the care of any property being hauled by the vehicle and for any storage charges. G.S. 1-54 provides the statute of limitations on penalties or forfeitures is one year.

Section 2: Provides that the authority of a law enforcement officer to seize a motor vehicle for delinquent fines and penalties pursuant to G.S. 20-96 is not affected by the statutes of limitations set out in Chapter 1 of the General Statutes.

Registration of Property-hauling vehicles.

Under G.S. 20-88, fees are imposed on the annual registration of self-propelled property-hauling vehicles based on the type of vehicle and its weight. For the purpose of licensing, the weight of the vehicle is the empty weight and heaviest load to be transported, as declared by the owner or operator. G.S. 20-118 regulates the weight of vehicles and load for vehicles operating on the highways of the State. Vehicles that violate the weight limitation are subject to a civil penalty in an amount specified in

the statute for each weight violation. Certain vehicles that meet all specified conditions are exempt from the weight limitations and penalties. Exemptions apply for certain vehicles including those hauling agricultural crops from farm to market or hauling aggregates from certain distribution yards or State-permitted production sites in counties contiguous to the State border.

Section 3: Adds as a condition for being eligible from weight limitations and penalties under G.S. 29-118 a requirement that the property hauling vehicle be registered pursuant to G.S. 20-88 for the maximum weight allowed for the vehicle configuration.

Escort Fee.

Under G.S. 20-196.6, an entity that is required or desires to have a law enforcement escort provided by the State Highway Patrol for the transport of any oversized load or hazardous shipment must pay a fee to the Department of Crime Control and Public Safety covering the full cost to administer, plan and carry out the escort within this State. The fees are placed in a special Escort Fee Account, and remain in the account until appropriated by the General Assembly.

Section 4: Allows funds in the Escort Fee Account be used to pay actual expenses for escorting vehicles when required by the Department of Transportation. Any unexpended fees could be used by the Highway Patrol to pay for vehicle or equipment maintenance. The bill would also eliminate a requirement that the Department provide quarterly reports to the legislature on the funds in the special account.

Statute of Limitation of Fees.

G.S. 1-15 provides that civil actions can only be commenced within the periods prescribed in Chapter 1 of the General Statutes, after the cause of action has accrued, except where in special cases a different limitation is prescribed by statute. The periods prescribed for the commencement of actions, other than for the recovery of real property, are as set forth in Article 5 of Chapter 1.

Section 6: Adds a provision to Chapter 1 of the General Statutes to establish a 3-year time limitation for commencement of a legal proceeding to collect a civil penalty, civil assessment, or civil fine imposed pursuant to the State's motor vehicle laws.

Refund of Assessments.

Counties are authorized to impose assessments for certain capital improvements under Article 9 of Chapter 153A. Cities are authorized to impose assessments for certain capital improvements under Article 10 of Chapter 160A. The statutes do not provide a mechanism for refunds of unused assessments.

Section 7: Authorizes local governments to refund assessments imposed prior to 2005 to finance capital projects that have been assumed by another unit of local government.

EFFECTIVE DATE: The bill would become effective July 1, 2010.

NOTE: This bill requires a certification under to G.S. 120-36.8, which requires bills proposing changes that purport to be necessary for the receipt of federal funds to have an analysis of the bill identifying the federal law requiring the bill. A preliminary certification has been provided to the Committee. A final certification will be provided to members when the bill is considered on the floor.

SUMMARY OF BILL PROVISIONS ALLEGEDLY REQUIRED BY FEDERAL LEGISLATION

The Federal Motor Vehicle Safety Act, 49 C.F.R. 350.331 requires a state that receives funding from the Motor Carrier Safety Assistance Program (MCSAP) to conduct an annual review of its laws for conformity with federal motor safety requirements. The Motor Carrier Safety Assistance Program (MCSAP) is a Federal grant program that provides financial assistance to States to reduce the number and severity of accidents involving commercial motor vehicles. 49 C.F.R. 350.341 permits a state to exempt from its safety laws commercial motor vehicles with a gross vehicle rating (GVWR), gross combination weight rating (GCWR), gross vehicle weight (CVW), or gross combination weight (GCW) of less than 26,001. Under current State law, a vehicle with a GVWR of less than 26,001 pounds and a towed unit with a GVWR of less than 10,001 are not regulated under the Motor Carrier Regulation Unit, although the GCWR, GVWW, or GCW of the vehicle and towed unit combined exceed 26,001 pounds.

COMPLIANCE CONSIDERATIONS

The Motor Carrier Safety Assistance Program (MCSAP) is a Federal grant program that provides financial assistance to States to reduce the number and severity of accidents involving commercial motor vehicles. Failure to comply with Federal rules on commercial motor vehicle safety would result in the loss of up to 50% of funds awarded to the State. For the Federal Fiscal Year 2009, the State received $4,961,860.00 in funding from this program. Sections 1 and 5 of the bill would amend the North Carolina motor vehicle laws to comply with the Federal Motor Vehicle Safety Act, bringing the State in compliance for funding purposes. Section 1 provides definitions for gross combination weight rating (GVWR), gross vehicle weight (GCWR), and gross combined weight (GVW). Section 5 provides that vehicles are regulated under the Motor Carrier Regulation Unit if the vehicle has a GVWR, GCWR, GVW, or GCW of 26,001 pounds or more.

TECHNICAL OR MECHANICAL CONSIDERATIONS

Senate Bill 1214 has no apparent technical or mechanical considerations.

BILL SUMMARY:
This bill makes technical and conforming changes to comply with the Federal Motor Carrier Safety regulations. It enacts new G.S. 20-96(c) to allow a law enforcement officer to seize a motor vehicle pursuant to G.S. 20-96(a), regardless of the statutes of limitation provided in G.S. Chapter

1. It amends G.S. 20-118(c) to add vehicles registered pursuant to G.S. 20-88 for the maximum weight allowed for that vehicle configuration to the categories excepted from the weight limitations and penalties applicable to vehicles in the state. The bill makes additional conforming changes to amend G.S. 20-196.4 to designate that oversized and hazardous shipment escort fees collected by the Department of Crime Control and Public Safety (Department) cover the actual escorting expenses when required by the Department of Transportation (DOT) and allows the State Highway Patrol to use any remaining fees on vehicle and equipment maintenance. It removes the Department's reporting requirement and enacts new G.S. 1-52(20) to apply a three-year statute of limitation to civil penalties, assessments, or fines imposed under G.S. Chapter. Section 7 authorizes local governments to refund assessments imposed prior to 2005 to finance capital projects that have been assumed by another unit of local government.
Source: Bill Digest S.B. 1214 (05/18/0201).

ASSUMPTIONS AND METHODOLOGY:
The changes proposed in this bill are technical changes that will not yield any change in tax revenue or require any additional budget appropriations to support these changes.

SOURCES OF DATA: State Highway Patrol

TECHNICAL CONSIDERATIONS
1. G.S. 143C-1-2 of the State Budget Act requires an act of appropriation to withdraw State funds. This statute states that "an enactment by the General Assembly that authorizes, specifies, or otherwise provides that funds may be used for a particular purpose is not an appropriation." Section 4(d) of this bill should be amended to specify funds are appropriated for the purposes identified.

2. There are two Section 7's.

The General Assembly of North Carolina enacts:

SECTION 1. Section 1 of Chapter 305 of the 1963 Session Laws, as rewritten by Section 7 of S.L. 1997-410 and Section 1 of S.L. 1998-73, reads as rewritten:

HOUSE BILL 664:
Avery: Deed Recordation & Delinquent Taxes

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	June 29, 2010
Introduced by:	Rep. Frye	**Prepared by:**	Cindy Avrette
Analysis of:	First Edition		Committee Counsel

SUMMARY: House Bill 664 requires that any deed for property in the Village of Sugar Mountain that is submitted to the Register of Deeds of Avery County for recordation be accompanied by a certificate from the tax collector for the Village indicating all delinquent Village taxes have been paid.

CURRENT LAW: Under current local law, the Register of Deeds of Avery County is prohibited from recording any deed unless it is accompanied by a certificate from the Avery County Tax Collector indicating that all County taxes and municipal taxes collected by the County on the property have been paid.[1] Furthermore, for property in whole or in part in the Towns of Newland[2] and Banner Elk[3], the certificate shall indicate the same, and shall be provided by the tax collector for the respective town.

BILL ANALYSIS: House Bill 664 adds the Village of Sugar Mountain to the list of municipalities in Avery County[4] that would require any deed for property in the Village of Sugar Mountain that is submitted to the Register of Deeds of Avery County for recordation be accompanied by a certificate from the tax collector for the Village indicating all delinquent Village taxes have been paid.

EFFECTIVE DATE: This act is effective when it becomes law.

BACKGROUND: G.S. 161-31(a) provides that the board of commissioners of a county may, by resolution, require the register of deeds not to accept any deed transferring real property unless the county tax collector has certified that there are no delinquent ad valorem county taxes, ad valorem municipal taxes, or other taxes with which the collector is charged are a lien on the property described in the deed. In the resolution, the county commissioners may describe the form the certification must take.

G.S. 161-31(a1) provides an exception. It requires that the register of deeds must accept, without certification, a deed that contains the following statement: "This instrument prepared by: _____ _____, a licensed North Carolina attorney. Delinquent taxes, if any, to be paid by the closing attorney to the county tax collector upon disbursement of closing proceeds."

G.S. 161-31 applies to the following 67 counties: Alexander, Anson, Beaufort, Bertie, Burke, Cabarrus, Camden, Carteret, Caswell, Catawba, Cherokee, Chowan, Clay, Cleveland, Currituck, Davidson, Davie, Duplin, Durham, Edgecombe, Forsyth, Gaston, Gates, Graham, Granville, Greene, Halifax, Harnett, Haywood, Henderson, Hertford, Hyde, Iredell, Jackson, Johnston, Jones, Lee, Lenoir, Lincoln, Macon, Madison, Martin, Montgomery, Nash, Northampton, Onslow, Pasquotank, Pender, Perquimans, Person, Pitt, Polk, Robeson, Rockingham, Rowan, Rutherford, Stanly, Surry, Swain, Transylvania, Tyrrell, Vance, Warren, Washington, Wayne, Wilson, and Yadkin.

S.L. 2010-24 provided similar requirements to the municipalities in Duplin County and the Senate Finance Committee gave a favorable report yesterday, June 29th, to HB 754 which added Dare and McDowell Counties to the list of counties in G.S. 161-31.

---

[1] Chapter 305 of the 1963 Session Laws.
[2] S.L. 1997-410.
[3] S.L. 1998-73.
[4] There are 11 municipalities in Avery County: Banner Elk, Beech Mountain, Crossnore, Elk Park, Grandfather, Linville, Minneapolis, Newland, Pineola, Seven Devils, and Sugar Mountain.

In addition to Avery County, the following counties have a similar requirement to G.S. 161.31, but under different authorizing legislation:

Ashe County	S.L. 1993-657, as amended by S.L. 1997-410 and S.L. 2005-4335
Alleghany County	S.L. 1997-410
Mitchell County	S.L. 1987-537, as amended by S.L. 1997-410 and S.L. 1999-3266

These local acts state that the Register of Deeds shall not record any deed unless it is accompanied by a certification that all delinquent taxes have been paid. These local acts are in contrast to G.S. 161-31, which gives certain counties the discretion to pass a resolution to that effect.

H664-SMRB-102(e1) v1

[5] S.L. 2005-433 provides that in addition to receiving a certification from the county tax collector, the Register of Deeds must also receive a certification from any municipal tax collector, where applicable, verifying that all delinquent taxes on the property have been paid.

[6] This local act also provides that if the property is located in the Town of Spruce Pine or the Town of Bakersville, the deed must also be accompanied by a certification from the town tax collector that all municipal taxes have been paid with respect to the property.

Committee Substitute Favorable 6/24/10

Short Title: Matthews Public-Private Project. (Local)

A BILL TO BE ENTITLED

AN ACT AUTHORIZING THE TOWN OF MATTHEWS TO PARTICIPATE IN A PUBLIC-PRIVATE DEVELOPMENT PROJECT OUTSIDE THE DOWNTOWN AREA.

The General Assembly of North Carolina enacts:

SECTION 1.(a) Definition. – For purposes of this act, a "public-private development project" is defined as a capital project that is: (i) located in either the Town's central business district, as defined by the Town's Board of Commissioners, located in or along a major transportation corridor, or located in a development zone designated pursuant to G.S. 105-129.3A; (ii) comprised of one or more buildings or other improvements; and (iii) includes both public and private facilities. By way of illustration but not limitation, such a project might include a single building comprising a publicly owned parking structure and publicly owned convention center and a privately owned hotel or office building or publicly or privately owned sports complex facility.

SECTION 1.(b) Authorization. – If the Town Board of Commissioners finds that it is likely to be of significant economic benefit to the area of the Town where the project is to be located, the Town may acquire, construct, own, and operate or participate in the acquisition, construction, ownership, and operation of a public-private development project or of specific facilities within the project. The Town may enter into binding contracts with one or more private developers with respect to acquiring, constructing, owning, or operating the project. The contract may, among other provisions, specify the following:

(1) The property interests of both the Town and the developer or developers in the project.

(2) The responsibilities of the Town and the developer or developers for construction of the project.

(3) The responsibilities of the Town and the developer or developers with respect to financing the project.

(4) The responsibilities of the Town and the developer or developers with respect to the operation of the project.

The contract may be entered into before the acquisition of any real property necessary to the project.

SECTION 1.(c) Project Acquisition. – A public-private development project may be constructed on property acquired by the developer or developers or on property directly acquired by the Town by purchase.

SECTION 1.(d) Property Disposition. – In connection with a public-private development project, the Town may lease or convey interests in property owned by it, including air rights over public facilities, by private negotiation or sale, and Article 12 of Chapter 160A of the General Statutes shall not apply to the dispositions.

SECTION 1.(e) Construction of the Project. – The contract between the Town and the developer or developers may provide that the developer or developers shall be responsible for construction of the entire public-private development project. If so, the contract shall include such provisions as the Town Board of Commissioners deems sufficient to assure that the public facility or facilities included in the project meet the needs of the Town and are constructed at a reasonable price. A project constructed pursuant to this subsection is not subject to Article 8 of Chapter 143 of the General Statutes, provided that Town funds constitute no more than fifty percent (50%) of the total costs of the project. Notwithstanding the foregoing, payment bonds pursuant to G.S. 143-129 and Article 3 of Chapter 44A shall be provided for the contract or contracts for the construction of the entire public-private development project, regardless of whether the property upon which the project is developed is public or private lands or whether the funds used to construct the project are public or private funds.

SECTION 1.(f) Operation. – The Town may contract for the operation of any public facility or facilities included in a public-private development project by a person, partnership, firm, or corporation, public or private. The contract shall include provisions sufficient to assure that any such facility or facilities are operated for the benefit of the citizens of the Town.

SECTION 1.(g) Grant Funds. – To assist in the financing of its share of a public-private development project, the Town may apply for, accept, and expend grant funds from the federal or State government.

SECTION 2. This act only applies to one project within the corporate limits of the Town of Matthews that includes a sports facility and a family entertainment complex and the extension of Greylock Ridge Road.

SECTION 3. This act applies to the Town of Matthews only.

SECTION 4. This act is effective when it becomes law.

HOUSE BILL 1919:
Matthews Public-Private Project

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	June 29, 2010
Introduced by:	Reps. Gulley, Cotham	**Prepared by:**	Cindy Avrette
Analysis of:	Second Edition		Committee Counsel

SUMMARY: House Bill 1919[1] authorizes the Town of Matthews to participate in a public-private development project outside the downtown area consisting of a sports facility and family entertainment complex.

CURRENT LAW: G.S. 160A-458.3 authorizes cities to acquire, construct, own, and operate or participate in the acquisition, construction, ownership, and operation of downtown development projects. A 'downtown development project' is a capital project that is located in a city's central business district, is comprised of one or more buildings, and includes both public and private facilities. An example would be a publicly owned convention center and parking deck alongside a privately owned hotel or office building. Cities may enter into contracts with private developers for the acquisition, construction, operation, and financing of these projects. A project constructed under this statute is not subject to the requirements of Article 8 of Chapter 143[2] of the General Statutes, provided that city funds constitute no more than 50% of the total costs of the development project.

The City of Charlotte and Durham County have legislation similar to House Bill 1919 authorizing those local governments to enter into public-private partnerships anywhere within the district. Yancey County and the City of Greenville have similar project-specific local acts as well.

BILL ANALYSIS: House Bill 1919 would authorize the Town of Matthews to enter into a public-private partnership for the development of one specific project that includes a sports facility, a family entertainment complex, and the extension of Greylock Ridge Road, which is outside the downtown area. With regard to this project, the Town would be authorized to do all of the following:

- Acquire, construct, own, and operate or participate in the acquisition, construction, ownership, and operation of the public-private development project if the Town Board finds the project to be of significant economic benefit. A 'public-private development project' is defined as a capital project that meets all of the following conditions:
  - It is located in the Town's central business district, in or along a major transportation corridor, or located in a development zone.
  - It is comprised of one or more buildings.
  - It includes both public and private facilities.
- Enter into contracts with private developers with respect to the acquisition, construction, financing, and operation of the project. The project would not be subject to Article 8 of Chapter 143 of the General Statutes if the Town funds constitute no more than 50% of the total cost of the project. However, payment bonds must be provided for the contracts for the construction of the project regardless of whether the project is developed on public or private land or whether public or private funds are used for the project.

[1] As introduced, this bill was identical to S1295, as introduced by Sen. Rucho, which is currently in Senate Finance.

[2] Article 8 of Chapter 143 governs public contracts, including bidding, minority business participation, and payment bond requirements.

- Lease or convey property interests it owns by private negotiation or sale and Article 12 of Chapter 160A of the General Statutes would not apply.[3]
- Contract for the operation of any public facility included in the development by any public or private entity.
- Apply for and accept grant funds from the federal or State government to assist with the financing of the project.

EFFECTIVE DATE: This act is effective when it becomes law.

BACKGROUND: The Town of Matthews intends to build a 12-acre sports complex that will include 12 fields, a stadium complex, and other amenities such as trails and picnic shelters. The Town seeks to partner with a private developer to facilitate the building of the complex. According to a recent newspaper article[4], Matthews would be responsible for 25% of the total cost to finance the regional sportsplex in addition to the $2 million that officials have committed to the project. Matthews would pay about $5.5 million over 10 years to help finance the estimated $28 million project. The Town would also pay 25% of the maintenance expenses. The county would pay for 50% of the financing over ten years, plus $5 million earmarked for the project. Under this proposal, the private developer would pay the remainder and 25% of the maintenance costs.

Trina Griffin, counsel to House Finance, substantially contributed to this summary.

A BILL TO BE ENTITLED

AN ACT AUTHORIZING THE CITY COUNCIL OF THE CITY OF WINSTON-SALEM TO ESTABLISH AN EXEMPTION FROM ASSESSMENTS FOR LOTS OR PARCELS OF LAND ENCUMBERED BY A CITY OR COUNTY GREENWAY EASEMENT.

The General Assembly of North Carolina enacts:

SECTION 1. Section 14(c) of Chapter 224 of the Private Laws of 1927, as amended by Chapter 144 of the 1965 Session Laws, reads as rewritten:

"~~(c)~~ (c1) *Water mains and sewers.* In the case of water mains and storm and sanitary sewers, the cost of not exceeding an eight-inch water or sanitary sewer main and of not exceeding a thirty inch storm sewer main and of such portion of said mains as lie within the limits of the street or streets, or part thereof, to be improved as provided in the petition or resolution ordering the same, shall be assessed against the abutting property. Such costs shall be assessed against the lots and parcels of land abutting on said street or streets, or parts thereof, according to their respective frontages thereon (i.e. the entire frontage benefited by the water or sanitary sewer project) by an equal rate per foot of such frontage: *Provided,* that in case of a corner lot, used as a single lot, where there is a water main or sewer already laid on the intersecting street on which such lot abuts and by which such lot is or can be served, no assessment shall be made against said lot for the second water main or sewer for any part of the frontage of said lot except that portion in excess of one hundred and fifty feet if said lot is in a residential section of the municipality, or in excess of one hundred feet if said lot is in a business section of the municipality, and in such case such portion of said cost as would otherwise be assessed against said lot shall be borne by the municipality: *Provided further,* that if a water or sanitary sewer main in excess of eight inches in size or a storm sewer main in excess of thirty inches in size is laid in said portion of said street or streets, then the cost of such water or sanitary sewer main in excess of the cost of an eight-inch main and the cost of such storm sewer main in excess of a thirty-inch main shall be borne by the municipality: *Provided further,* that if the resolution ordered by the construction of any pumping station, outfall, septic tank or disposal plant, no part of the cost of the same shall be specially assessed. Nothing contained herein shall be construed to limit the right of any municipality to contract with any property owner or owners for the construction of any pumping station, outfall, septic tank or disposal plant or for the construction of water mains or storm or sanitary sewers and for the assessment of the cost thereof according to the terms of such contract.

(c2) Notwithstanding the provisions of subsection (c1) of this section, in the case of water mains and storm and sanitary sewers, the city council or a board or commission designated by the city council shall have the authority to establish an exemption from assessments for a lot or parcel of land that is encumbered by a city or county greenway easement or easements, according to the length of frontage so encumbered, provided that the

exemption shall not exceed seventy-five percent (75%) of the total frontage of the lot or parcel of land."

SECTION 2. This act applies to the City of Winston-Salem only.

SECTION 3. This act is effective when it becomes law.

HOUSE BILL 2052:
Winston-Salem/Assessments Exemption

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	June 29, 2010
Introduced by:	Rep. Brown	**Prepared by:**	Cindy Avrette
Analysis of:	First Edition		Committee Counsel

SUMMARY: ***House Bill 2052 is a local bill that would authorize the City of Winston-Salem to exempt properties that are encumbered by city or county greenway easements from water main and storm and sanitary sewer assessments. The exemption shall not exceed 75% of the total frontage of the lot or parcel of land.***

BILL ANALYSIS: House Bill 2052 is a local bill that would give the City of Winston-Salem the authority to establish an exemption from assessments for water-main and storm and sanitary sewer mains that benefit any lot or parcel of land that is encumbered by a city or county greenway easement or easements. The exemption may not exceed 75% of the total frontage of the lot or parcel of land. For example, if the system runs along a total of 100 feet of frontage and 80 feet of this frontage is encumbered by a greenway easement, then no more than 75 feet of frontage could be exempt from assessment. If there is 50 feet of frontage encumbered by a greenway easement, then the entire frontage encumbered by the greenway easement is exempt.

In S.L. 1987-712, similar legislation was enacted in Brunswick County to exempt private lands used exclusively for greenways.

A BILL TO BE ENTITLED

AN ACT TO REMOVE THE SUNSET ON THE AUTHORIZATION TO SELL, THROUGH A PRIVATE SALE, LOCAL GOVERNMENT BONDS THAT ARE EITHER NOT RATED OR RATED BELOW "AA," SO AS TO CONTINUE TO TAKE ADVANTAGE OF THE FEDERAL "BUILD AMERICA BONDS" PROGRAM.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 159-123(b)(8) reads as rewritten:

"**§ 159-123. Sale of bonds by sealed bids; private sales.**

...

(b) The following classes of bonds may be sold at private sale:

...

(8) General obligation bonds issued pursuant to the Local Government Bond Act that have been rated by a nationally recognized credit rating agency at a credit rating below "AA" (or comparable category if stated differently) or that are unrated and that are not described in subdivisions (1) through (7) of this ~~subsection that are sold prior to December 31, 2010.~~subsection."

SECTION 2. This act is effective when it becomes law.

HOUSE BILL 1936:
Remove Sunset/ Priv. Sale Local Gov't Bonds

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	June 29, 2010
Introduced by:	Rep. Owens	**Prepared by:**	Cindy Avrette Committee Counsel
Analysis of:	First Edition		

SUMMARY: House Bill 1936 would remove the sunset on the authorization to sell local bonds that are either not rated or rated below "AA" through a private sale.

CURRENT LAW: Bonds issued by units of local government must be sold by the Local Government Commission after advertisement and upon sealed bids, unless it meets one of 9 statutory exceptions. Under current law, the following types of bonds may be sold at private sale:

- Bonds that a State or federal agency has previously agreed to purchase.
- Bonds for which no legal bid is received within the time allowed for submission of bids.
- Revenue bonds and special obligations bonds issued under G.S. 159-84.
- Refunding bonds issued under G.S. 159-78.
- Refunding bonds issued under G.S. 159-72 if the Local Government Commission determines that a private sale is in the best interest of the issuing unit.
- Bonds that result in a tax credit to the owners under federal income tax laws if the Local Government Commission determines that a private sale is in the best interest of the issuing unit.
- Project development financing debt instruments.
- **General obligation bonds issued under the Local Government Bond Act that have been rated by a nationally recognized credit rating agency at a credit rating below "AA" or are unrated if they are sold before December 31, 2010.**
- Bonds that are part of an issue in which the interest payment on some or all of the bonds is intended to be subsidized by payments from the federal government if the Local Government Commission determines that a private sale is in the best interest of the issuing unit.

BILL ANALYSIS: House Bill 1936 would remove the December 31, 2010 sunset on the private sale of obligation bonds issued under the Local Government Bond Act that have been rated by a nationally recognized credit rating agency at a credit rating below "AA" or are unrated.

EFFECTIVE DATE: The bill would become effective when it becomes law.

BACKGROUND: Last year in S.L. 2009-140 (SB 754), the General Assembly added the type bond described above in bold to the classes of bonds that may be sold at private sale. As part of the 2009 American Recovery and Reinvestment Act, Congress expanded the ability of banks to buy bonds issued by small local governmental units and certain nonprofit entities because those entities were facing considerable challenges in borrowing during the economic downturn. According to the State and Local Government Finance Division of the Department of State Treasurer, allowing the private sale of general obligation bonds with no rating or rated below AA would enable local governments to take advantage of the debt issuance relief afforded under ARRTA. The provisions are scheduled to expire December 31, 2010. There is movement at the federal level to extend the relief given the continued uncertainty in the bond market. Lifting the current sunset date, in anticipation of the extension of the federal provisions, would allow local governments to continue to take advantage of these instruments.

A BILL TO BE ENTITLED

AN ACT TO MAKE VARIOUS CHANGES TO THE STATUTES GOVERNING COLLECTION AND ENFORCEMENT OF TOLLS BY THE NORTH CAROLINA TURNPIKE AUTHORITY.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 136-82.2 is repealed.

SECTION 2. G.S. 136-89.211 reads as rewritten:

"**§ 136-89.211. Tolls for use of Turnpike project.**

In exercising its authority under G.S. 136-89.183 to set tolls for the use of a Turnpike project, the Authority may not do any of the following:

(1) Set open road tolls that vary for the same class of motor vehicle depending on the method by which the Authority identifies a motor vehicle that drives on the Turnpike project. This does not preclude the Authority from allowing a discount ~~of up to thirty-five percent (35%) of the amount of a toll~~ for a motor vehicle equipped with an electronic toll collection ~~transponder.~~transponder or a motor vehicle that has prepaid its toll.

(2) Exempt a motor vehicle that is not a law enforcement vehicle, an emergency fire or rescue vehicle, or an emergency medical services vehicle from the requirement of paying a toll for the use of a Turnpike project."

SECTION 3. G.S. 136-89.214(a) reads as rewritten:

"(a) Bill. – If a motor vehicle travels on a Turnpike project that uses an open road tolling system and a toll for traveling on the project is not paid ~~within 15 days after the travel occurs,~~ prior to travel or at the time of travel, the Authority must send a bill by first-class mail to the registered owner of the motor vehicle for the amount of the unpaid toll. The Authority must send the bill within 90 days after the travel occurs. If a bill is not sent within the required time, the Authority waives collection of the toll. The Authority must establish a billing period for unpaid open road tolls that is no shorter than 15 days. A bill for a billing period must include all unpaid tolls incurred by the same person during the billing period."

SECTION 4. G.S. 136-89.215 reads as rewritten:

"**§ 136-89.215. Required action upon receiving bill for open road toll and processing fee for unpaid toll.**

(a) Action Required. – A person who receives a bill from the Authority for an unpaid open road toll must take one of the following actions within 30 days ~~after receiving the bill:~~of the date of the bill:

(1) Pay the bill.

(2) Send a written request to the Authority for a review of the toll.

(b) Fee. – If a person does not take one of the actions required under subsection (a) of this section within the required time, the Authority may add a processing fee to the amount the person owes. The processing fee may not exceed six dollars ($6.00). A person may not be charged more than forty-eight dollars ($48.00) in processing fees in a ~~calendar year.~~ 12-month period.

The Authority must set the processing fee at an amount that does not exceed the costs of identifying the owner of a motor vehicle that is subject to an unpaid toll and billing the owner for the unpaid toll. The fee is a receipt of the Authority and must be applied to these costs."

SECTION 5. G.S. 136-89.216 reads as rewritten:

"**§ 136-89.216. Civil penalty for failure to pay open road toll.**

(a) Penalty. – A person who receives ~~one~~ two or more bills for unpaid open road tolls ~~during the first or second six-month period in a year~~ and who has not paid the amount due on those bills within 30 days ~~after the end of the six-month period~~ is subject to a civil penalty of twenty-five dollars ($25.00). ~~The period from January 1 through June 30 of a year is the first six-month period in a year, and the period from July 1 through December 31 is the second six-month period in a year.~~ Only one penalty may be assessed ~~for~~ in a six-month period.

(b) Payment. – The Authority must send a notice by first-class mail to a person who is assessed a civil penalty under this section. A person who is assessed a civil penalty must pay the unpaid toll for which the civil penalty was imposed, the amount of any processing fee due, and the civil penalty within 30 days ~~after receiving the notice.~~of the date of the notice.

(c) Penalty Proceeds. – A civil penalty imposed under this section is payable to the ~~Authority or, if collected when a vehicle registration is renewed, to the Division of Motor Vehicles of the Department of Transportation.~~ Authority. The clear proceeds of a civil penalty imposed under this section must be credited to the Civil Penalty and Forfeiture Fund established in G.S. 115C-457.1. The guidelines used by the Office of State Budget and Management to determine an agency's actual costs of collecting a civil penalty and the clear proceeds of the civil penalty apply to the determination of the clear proceeds of a civil penalty imposed under this section."

SECTION 6. G.S. 136-89.217 reads as rewritten:

"**§ 136-89.217. Vehicle registration renewal blocked for unpaid open road toll.**

(a) Registration Block. – Failure of a person to pay an open road toll billed to the person under G.S. 136-89.214, any processing fee added under G.S. 136-89.215, and any civil penalty imposed under G.S. 136-89.216 is grounds under G.S. 20-54 to withhold the registration renewal of a motor vehicle registered in that person's name. The Authority must notify the Commissioner of Motor Vehicles of a person who owes a toll, a processing fee, or a civil penalty. When notified, the Commissioner of Motor Vehicles must withhold the registration renewal of any motor vehicle registered in that person's name.

~~(b) Collection by DMV. – A person whose motor vehicle registration renewal is blocked under this section may pay to the Division of Motor Vehicles of the Department of Transportation the amount owed for unpaid tolls, processing fees, and civil penalties due under this Part when renewing the vehicle registration. The Division must remit to the Authority the amount of tolls, fees, and civil penalties collected. The Division's costs of collecting tolls, fees, and civil penalties are considered a necessary expense of the operation of the Authority, and the Authority must reimburse the Division for these costs.~~"

SECTION 7. G.S. 136-89.218 reads as rewritten:

"**§ 136-89.218. Procedures for contesting liability for unpaid open road toll.**

(a) Informal Review. – A person who receives a bill for an unpaid open road toll and who disputes liability for the toll may contest the toll by sending to the Authority a request for review of the toll. The person may include a sworn affidavit described in G.S. 136-89.212 that establishes that someone else had the care, custody, and control of the motor vehicle subject to the toll when the toll was incurred. The person must send the request for review to the Authority within 30 days ~~after receiving the bill for the toll.~~ of the date of the bill sent by the Authority. A person who does not send a request for review to the Authority within this time limit waives the right to a review. If a person sends a timely request for review to the Authority, the Authority may not collect the disputed toll and any processing fee added to the bill for the toll until the conclusion of the review process in this section.

(b) Administrative Hearing. – If the Authority conducts an informal review under subsection (a) of this section and determines that the person who requested the review is liable for the toll, the Authority must send the person a notice informing the person of the Authority's determination. The person may contest this determination by filing a petition for a contested case hearing at the Office of Administrative Hearings in accordance with Article 3 of Chapter 150B of the General Statutes.

(c) Judicial Review. – Article 4 of Chapter 150B of the General Statutes governs judicial review of a final decision made in a contested case authorized under subsection (b) of this section."

SECTION 8. This act becomes effective December 1, 2010.

HOUSE BILL 1685:
Turnpike Authority Toll Enforcement Changes

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	July 1, 2010
Introduced by:	Reps. Cole, Carney	**Prepared by:**	Heather Fennell Committee Counsel
Analysis of:	PCS to Second Edition H1685-CSTDx-110		

SUMMARY: ***House Bill 1685 makes various changes to the statutes governing collection and enforcement of tolls by the Turnpike Authority. The bill was given a favorable report in House Transportation.***

[As introduced, this bill was identical to S1131, as introduced by Sen. Goss, which is currently in Senate Finance.]

CURRENT LAW: Part 2 of Article 6H of Chapter 136 of the General Statutes sets out the procedures for collection of tolls for Turnpike Authority projects.

BILL ANALYSIS:

Section 1 of the bill repeals G.S. 136-82.2, which authorizes DOT to charge a toll for a bridge of at least three and one-half miles in length, set toll rates, authorizes employment of toll personnel, specifies use of the toll revenue, and requires an annual report.

text of repealed G.S. 136-82.2

§ 136-82.2. State toll bridges.

(a) Toll. – The Department of Transportation may charge a toll for the use of a bridge that is included in the Highway Trust Fund Intrastate System Projects, which are listed in G.S. 136-179, and is at least three and one-half miles in length. The toll may not exceed ten dollars ($10.00) for a round trip or five hundred dollars ($500.00) for an annual pass for a vehicle. The Department may set different rates of fees for passenger motor vehicles and for property-carrying vehicles. The Department may employ personnel to collect the toll and may construct and operate a toll plaza for collection of the toll. Toll revenue that exceeds the cost of collecting the toll shall be credited to the Highway Trust Fund.

(b) Report. – The Department of Transportation shall report annually to the Joint Legislative Transportation Oversight Committee on a toll imposed under this section. The report shall state the amount of toll revenue collected, the number of users paying the toll, the cost of collecting the toll, and any other information requested by the Committee. (1993 (Reg. Sess., 1994), c. 765, s. 1.)

Section 2 of the bill removes a limitation on the size of the discount the NC Turnpike Authority may offer to a motor vehicle with a transponder, or that has prepaid its toll.

Section 3 of the bill provides that the Authority bills for open-road tolls must be sent for tolls that are not prepaid *prior to or at the time of* travel.

Section 4 of the bill provides that a person who receives a bill for an unpaid open road NC Turnpike Authority toll must pay or respond within 30 days *of the date of the bill from the Authority*, and clarifies that a person may not be charged more than $48 in processing fees *in a 12-month period.*

Section 5 of the bill changes the circumstances in which a person may be subject to a civil penalty for unpaid open road tolls for travel on an Authority facility. The section provides that a person who receives two or more bills for unpaid open road tolls and who has not paid within 30 days is subject to a civil penalty of $25. The section provides that one civil penalty may be assessed in a six-month period from the date the toll was incurred. The section provides that the civil penalty must be paid within 30 days of the date of the notice, and is payable to the Authority.

Section 6 of the bill removes a provision authorizing DMV collection of Authority tolls, processing fees, and civil penalties

Section 7 of the bill provides that a request for review of a bill for an unpaid toll must be sent within 30 days of the date of the bill sent by the Authority.

EFFECTIVE DATE: This act becomes effective December 1, 2010, and applies to offenses committed on or after that date.

Giles Perry, counsel to House Transportation, substantially contributed to this summary.

SECTION 4. G.S. 62A-43(d) reads as rewritten:

"(d) Adjustment of Charge. – The 911 Board must monitor the revenues generated by the service charge. If the 911 Board determines that the rate produces revenue that exceeds or is less than ~~in excess of~~ the amount needed, the 911 Board ~~must reduce~~may adjust the rate. The ~~reduced~~ rate must ensure full cost recovery for voice communications service providers and for primary PSAPs over a reasonable period of time. A change in the amount of the rate becomes effective only on ~~July 1~~July 1, ~~of an even-numbered year.~~ The 911 Board must notify providers of a change in the rate at least 90 days before the change becomes effective."

SECTION 5. G.S. 62A-44(b) reads as rewritten:

"(b) Allocation of Revenues. – The 911 Board may deduct and retain for its administrative expenses ~~up to one percent (1%)~~ a percentage of the total service charges remitted to it under G.S. 62A-43 for deposit in the 911 Fund. The percentage may not exceed two percent (2%). The percentage is one percent (1%) unless the 911 Board sets the percentage at a different amount. The 911 Board must monitor the amount of funds required to meet its financial commitment to provide technical assistance to primary PSAPs and set the rate at an amount that enables the 911 Board to meet this commitment. The remaining revenues remitted to the 911 Board for deposit in the 911 Fund are allocated as follows:

(1) A percentage of the funds remitted by CMRS providers to the 911 Fund are allocated for reimbursements to CMRS providers pursuant to G.S. 62A-45.

(2) A percentage of the funds remitted by CMRS providers and all funds remitted by all other voice communications service providers are allocated for monthly distributions to primary PSAPs pursuant to G.S. 62A-46 and grants to PSAPs pursuant to G.S. 62A-47.

(3) The percentage of the funds remitted by CMRS providers allocated to CMRS providers and PSAPs shall be set by the 911 Board and may be adjusted by the 911 Board as necessary to ensure full cost recovery for CMRS providers and, to the extent there are excess funds, for distributions to primary PSAPs."

SECTION 6. G.S. 62A-45(c) reads as rewritten:

"(c) Grant Reallocation. – If the amount of reimbursements to CMRS providers by the 911 Board for a fiscal year is less than the amount of funds allocated for reimbursements to CMRS providers for that fiscal year, the 911 Board may reallocate part ~~or all~~ of the excess

amount to the PSAP Grant and Statewide 911 Projects Account established under G.S. 62A-47. The 911 Board may reallocate funds under this subsection only once each calendar year and may do so only within the three-month period that follows the end of the fiscal year. If the 911 Board reallocates more than a total of three million dollars ($3,000,000) to the PSAP Grant and Statewide 911 Projects Account in a calendar year, it must consider reducing the amount of the service charge in G.S. 62A-44 to reflect more accurately the underlying costs of providing 911 system services.

The 911 Board must make the following findings before it reallocates funds to the PSAP Grant and Statewide 911 Projects Account:

(1) There is a critical need for additional funding for PSAPs in rural or high-cost areas to ensure that enhanced 911 service is deployed throughout the State.

(2) The reallocation will not impair cost recovery by CMRS providers.

(3) The reallocation will not result in the insolvency of the 911 Fund."

SECTION 7.(a) G.S. 62A-46(a) reads as rewritten:

"(a) Monthly Distribution. – The 911 Board must make monthly distributions to primary PSAPs from the amount allocated to the 911 Fund for PSAPs. A PSAP is not eligible for a distribution under this section unless it provides enhanced 911 service and received distributions from the 911 Board in the 2008-2009 fiscal year. The Board must comply with all of the following:

(1) Administration. – The Board must notify PSAPs of the estimated distributions no later than December 31 of each year. The Board must determine actual distributions no later than June 1 of each year. The Board must determine a method for establishing distributions that is equitable and sustainable and that ensures distributions for eligible operating costs and anticipated increases for all funded PSAPs. The Board must establish a formula to determine each PSAP's base amount. The formula must be determined and published to PSAPs in the first quarter of the fiscal year preceding the fiscal year in which the formula is used. The Board may not change the funding formula for the base amount more than once every year.

(2) Reports. – The Board must report to the Joint Legislative Commission on Governmental Operations, the Revenue Laws Study Committee, and the Joint Legislative Utility Review Committee within 45 days of a change in the funding formula. The report must contain a description of the differences in the old and new formulas and the projected distributions to each PSAP from the new formula.

(3) Formula. – The funding formula established by the Board must consider all of the following:

a. The population of the area served by a PSAP.

b. PSAP reports and budgets, disbursement histories, and historical costs.

c. PSAP operations, 911 technologies used by the PSAP, compliance with operating standards of the 911 Board, level of service a PSAP delivers dispatching fire, emergency medical services, law enforcement, and Emergency Medical Dispatch.

d. The tier designation of the county in which the PSAP is located as designated in G.S. 143B-437.08.

e. Any interlocal government funding agreement between a primary PSAP and a secondary PSAP, if the secondary PSAP was in existence as of June 1, 2010, receives funding under the agreement, and is within the service area of the primary PSAP.

f. Any other information the Board considers relevant.

(4) Additional distributions. – In the first quarter of the Board's fiscal year, the Board must determine whether payments to PSAPs during the preceding fiscal year exceeded or were less than the eligible costs incurred by each PSAP during the fiscal year. If a PSAP receives less than its eligible costs in any fiscal year, the Board may increase a PSAP's distribution in the following fiscal year above the base amount as determined by the formula to meet the estimated eligible costs of the PSAP as determined by the Board. The Board may not distribute less than the base amount to each PSAP except as provided in subsection (b1) of this section. The Board must provide a procedure for a PSAP to request a reconsideration of its distribution or eligible expenses.

~~The amount to be distributed to each primary PSAP is the sum of the following:~~

~~(1) The PSAP's base amount. The PSAP's base amount is the amount the PSAP received in the fiscal year ending June 30, 2007, and deposited in the Emergency Telephone System Fund of its local governing entity, as reported to the State Treasurer's Office, Local Government Division.~~

~~(2) The PSAP's per capita amount. The PSAP's per capita amount is the PSAP's per capita share of the amount designated by the Board under subsection (b) of this section for the per capita distribution. The 911 Board must use the most recent population estimates certified by the State Budget Officer in making the per capita distribution under this subdivision. A PSAP is not eligible for a distribution under this subdivision unless it provides enhanced 911 service.~~"

SECTION 7.(b) G.S. 62A-46 is amended by adding a new subsection to read:

"(b1) Carryforward. – A PSAP may carry forward distributions for eligible expenditures for capital outlay, capital improvements, or equipment replacement. Amounts carried forward to the next fiscal year from distributions made by the 911 Board may not be used to lower the distributions in subsection (a) of this section unless the amount is greater than twenty percent (20%) of the average yearly amount distributed to the PSAP in the prior two years. The 911 Board may allow a PSAP to carry forward a greater amount without changing the PSAP's distribution."

SECTION 7.(c) G.S. 62A-46(c) reads as rewritten:

"(c) Use of Funds. – A PSAP that receives a distribution from the 911 Fund may not use the amount received to pay for the lease or purchase of real estate, cosmetic remodeling of emergency dispatch centers, hiring or compensating telecommunicators, or the purchase of mobile communications vehicles, ambulances, fire engines, or other emergency vehicles. Distributions received by a PSAP may be used only to pay for the following:

(1) The lease, purchase, or maintenance ~~of emergency telephone equipment, including necessary computer hardware, software, and database provisioning, addressing, and nonrecurring costs of establishing a 911 system.~~of:

a. Emergency telephone equipment, including necessary computer hardware, software, and database provisioning.

b. Addressing.

c. Telecommunicator furniture.

d. Dispatch equipment located exclusively within a building where a PSAP is located excluding the costs of base station transmitters, towers, microwave links, and antennae used to dispatch emergency call information from the PSAP.

(1a) The nonrecurring costs of establishing a 911 system.

(2) Expenditures for in-State training of 911 personnel regarding the maintenance and operation of the 911 system. Allowable training expenses include the cost of transportation, lodging, instructors, certifications, improvement programs, quality assurance training, ~~and~~ training associated with call taking, and emergency medical, fire, or law enforcement ~~procedures.~~procedures, and training specific to managing a PSAP or supervising PSAP staff. Training outside the State is not an eligible expenditure unless the training is unavailable in the State or the PSAP documents that the training costs are less if received out-of-state. Training specific to the receipt of 911 calls is allowed only for intake and related call taking quality assurance and improvement. Instructor certification costs and course required prerequisites, including physicals, psychological exams, and drug testing, are not allowable expenditures.

...."

SECTION 7.(d) G.S. 62A-46(e) is amended by adding a new subdivision to read:

"(5) A primary PSAP must comply with the rules, policies, procedures, and operating standards for primary PSAPs adopted by the 911 Board."

SECTION 7.(e) Subsection (a) of this section becomes effective July 1, 2010, and applies to distributions by the Board in fiscal years beginning in 2011. Subsection (b) of this section becomes effective July 1, 2011, and applies to distributions made on or after that date. Subsection (d) of this section becomes effective July 1, 2011.

(b) Grant Application. – A PSAP may apply to the 911 Board for a grant from the ~~PSAP Grant~~ Account. An application must be submitted in the manner prescribed by the 911 Board. The 911 Board may approve a grant application and enter into a grant agreement with a PSAP if it determines all of the following:

(1) The costs estimated in the application are reasonable and have been or will be incurred for the purpose of promoting a cost-effective and efficient 911 system.

(2) The expenses to be incurred by the applicant are consistent with the 911 State Plan.

(3) There are sufficient funds available in the fiscal year in which the grant funds will be distributed.

(4) The costs are authorized PSAP costs under ~~G.S. 62A-46(c).~~ G.S. 62A-46(c), or the costs are for consolidating one or more PSAPs with a primary PSAP, or the relocation costs of primary PSAPs, including costs not authorized under G.S. 62A-46(c) and construction costs.

(c) Grant Agreement. – A grant agreement between the 911 Board and a PSAP must include the purpose of the grant, the time frame for implementing the project or program funded by the grant, the amount of the grant, and a provision for repaying grant funds if the PSAP fails to comply with any of the terms of the grant. The amount of the grant may vary among grantees. The 911 Board must publish one or more notices each fiscal year advertising the availability of grants from the PSAP Grant and Statewide 911 Projects Account and detailing

the application process, including the deadline for submitting applications, any required documents specifying costs, either incurred or anticipated, and evidence demonstrating the need for the grant. Any grant funds awarded to PSAPs under this section are in addition to any funds reimbursed under G.S. 62A-46.

(2) The project is cost-effective and efficient when compared to the aggregated costs incurred by primary PSAPs for implementing individual projects.

(3) The project is an eligible expense under G.S. 62A-46(c).

(4) The project will have statewide benefit for 911 service."

SECTION 9. Fifty percent (50%) of funds in the Emergency Telephone System Fund on the effective date of this act may be used by the local government entity to provide for public safety needs, including costs that are not eligible expenses under G.S. 62A-46. The expenditures must be made in fiscal years 2010-2011 and 2011-2012. A local governing entity is not relieved of any prior obligation incurred for uses authorized by G.S. 62A-46. All other funds in the Emergency Telephone System Fund must be used for eligible expenses under Article 3 of Chapter 62A of the General Statutes.

SECTION 10. The House Select Committee on the Use of 911 Funds shall study the funding of secondary PSAPs and whether secondary PSAPs should be eligible to receive distributions from the 911 Board.

The Secretary must include the applicable amount of supplemental PEG channel support in each quarterly distribution to a county or city. The amount to include is one fourth of the share of each qualifying PEG channel certified by the city or county under G.S. 105-164.44J. The share of each certified PEG channel is the sum of four million dollars ($4,000,000) and the amount of any funds returned to the Secretary in the prior fiscal year under G.S. 105-164.44J(d) divided by the number of PEG channels certified under G.S. 105-164.44J.~~one-fourth of twenty-five thousand dollars ($25,000) for each qualifying PEG channel certified by the county or city under G.S. 105-164.44J.~~ A county or city may not receive PEG channel support under this subsection for more than three qualifying PEG channels.

~~The amount of money distributed under this subsection may not exceed two million dollars ($2,000,000) in a fiscal year, plus the amount of any funds returned to the Secretary in the prior fiscal year under G.S. 105-164.44J(d). If the amount to be distributed for qualifying PEG channels in a fiscal year would otherwise exceed this maximum amount, the Secretary must proportionately reduce the applicable amount distributable for each PEG channel. If the amount to be distributed for qualifying PEG channels in a fiscal year is less than this maximum amount, the Secretary must credit the excess amount to the PEG Channel Fund established in G.S. 66-359.~~ For purposes of this subsection, the term "qualifying PEG channel" has the same meaning as in G.S. 105-164.44J."

SECTION 11.(c) G.S. 105-164.44J(b) reads as rewritten:

"(b) Certification. – A county or city must certify to the Secretary by July 15 of each year all of the qualifying PEG channels provided for its use during the preceding fiscal year by a cable service provider under either G.S. 66-357 or an existing agreement. (1) An identification of each channel as a public, an education, or a government channel.

(2) The name and signature of the PEG channel operator for each channel. If a qualifying PEG channel has more than one PEG channel operator, the county or city must include the name of each operator of the PEG channel. A PEG channel operator may be included on the certification of only one county or city for each type of PEG channel that it operates.

(3) Any other information required by the Secretary."

SECTION 11.(d) Subsection (b) of this section becomes effective July 1, 2011 and applies to distributions made on or after July 1, 2011, for quarters starting on or after April 1, 2011.

SECTION 12. Unless otherwise provided, this act becomes effective July 1, 2010.

HOUSE BILL 1691: Use of 911 Funds

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	July 1, 2010
Introduced by:	Reps. Bryant, Faison, Sager, West	**Prepared by:**	Heather Fennell Committee Counsel
Analysis of:	PCS to Fourth Edition H1691-CSTDf-107		

SUMMARY: ***The proposed committee substitute to House Bill 1691 makes various changes to the statutes governing Emergency Telephone Service, and increases the funding available for supplemental PEG channel support.***

911 Emergency Telephone Service

CURRENT LAW: Prior to 2007, local government entities collected a 911 service charge from subscribers of local telephone providers, and the Wireless 911 Board collected a monthly service charge on each subscriber of wireless providers. The local 911 service varied from 50¢ per subscriber line to almost $3.00 per subscriber line. The statewide wireless fee was 70¢ per subscriber line. The entire fee collected by local governments, and a portion of the fees collected by the Wireless 911 Board was distributed to "public safety answering points" (PSAP). Each PSAP is the public safety agency that receives incoming 911 calls and dispatches public safety agencies in response. Funds from the Wireless 911 Board not distributed to PSAPs were used to reimburse wireless providers for the costs updating equipment necessary for PSAPs to geographically locate individuals who call 911 from wireless phones.

In 2007, the local 911 service charge was eliminated, and a new statewide administrative system was adopted for collecting the 911 service charge and distributing the funds to PSAPs. The 911 Board oversees the distribution of funds to PSAPs and wireless providers. The amount of the distributions to each eligible PSAP is based on the prior distribution to the PSAP from both the local service charge and the Wireless 911 service charge. The distributions may only be used for certain eligible purchases by the PSAP including:

- The lease, purchase, or maintenance of emergency telephone equipment, including necessary computer hardware, software and database provisioning, addressing, and nonrecurring costs of establishing a 911 system.
- Reasonable expenditures for training of 911 personnel.

BILL ANALYSIS: The PCS to House Bill 1691 makes the following changes to the statutes governing Emergency Telephone Service:

The Board:

- Provides that PSAPs receiving distributions from the Fund and telecommunications service providers may not have more than 1 position on the Board.
- Removes one CMRS provider, and one NENA position from the Board.
- Requires the individuals representing cities and counties to be from a locality that has a primary PSAP.
- Adds two positions to the Board - a fire chief upon the recommendation of the NC Firemen's Association, and a Rescue or Emergency Medical Services Chief upon the recommendation of the NC Association of Rescue and EMS. The individuals representing fire chiefs and Rescue or EMS chiefs must have experience managing or supervising a PSAP.
- Prohibits Board members from serving more than two terms.

Board Authority: Authorizes the Board to establish operating standards for PSAPs that receive distributions from the Fund. Authorizes the Board to create, design, or acquire public education materials regarding the proper use of 911. Authorizes the 911 Board to pay a private vendor for the provisioning of a network for the purpose of providing 911 service.

Board Administrative Fee: Authorizes the 911 Board to increase the percentage of funds it retains for administrative expenses to 2% from 1%,

PSAP Distributions: Authorizes the 911 Board to determine the monthly distributions to eligible PSAPs. The new distribution amount will be based on a formula adopted by the Board. The new distribution formula will be effective for distributions made in the fiscal year 2011. The Board must notify each PSAP of the estimated distributions by December 31st of each year, and notify each PSAP of the actual amount of distributions by June 1 of each year.

- **Base amount formula:** The Board must establish a formula to determine each PSAP's base amount. The formula must consider certain information including population, area served, and cost history.
- **Additional distributions:** The Board may increase the distribution to a PSAP above its base amount if the PSAP receives less than its eligible costs in any fiscal year. The Board may not distribute less than the base amount.
- **Reconsideration:** The Board must provide a procedure for a PSAP to request a reconsideration of its distribution or eligible expenses.
- **Carry forward:** A PSAP may carry forward up to twenty percent (20%) of the total funds disbursed by the Board during a fiscal year for eligible expenditures for capital outlay, capital improvements, or equipment replacement. If more than 20% is carried forward, the Board may use the amount to lower the PSAPs annual distributions.

Fund Uses: Expands the use of the 911 Fund to dispatch equipment located within the building where the PSAP is located excluding the costs of base station transmitters, towers, microwave links and antennae used to dispatch emergency call information from the PSAP. The use is also expanded to include training specific for supervising and training a primary PSAP.

Operating Standards: Effective July 1, 2011, a PSAP must comply with the operating standards to be eligible for distributions under the Act.

Statewide Projects: Authorizes the 911 Board to implement statewide projects for the benefit of 911 service. Surplus funds designated to be used for reimbursement for CMRS providers may be reallocated to the PSAP Grant Account. The Grant Account is redesignated the PSAP Grant and Statewide Projects Account. In order for the Board to use funds for a statewide project, the Board must determine the project is consistent with the 911 Plan, is cost effective and efficient when compared to the aggregated costs of similar projects if implemented by primary PSAPs, the expenses are eligible under the Fund, and the project has a statewide benefit. Also authorizes the Board to raise or lower the service charge each year.

Consolidation Grants: Authorizes the 911 Board to provide grants for the voluntary consolidations of PSAPs into primary PSAPs.

Fund Balances: Authorizes a PSAP to use 50% of its fund balance on July 1, 2010 for public safety needs, including costs that are not eligible expenses under G.S. 62A-46.

Supplemental PEG Channel Support

CURRENT LAW: S.L. 2007-151, the Video Service Competition Act, equalized the taxation of video programming services regardless of how the service is delivered and replaced locally negotiated franchises of cable service with a State-issued franchise. The Act increased the amount of the sales tax revenue derived from telecommunication services distributed to cities and counties. The distributions are made quarterly.

G.S. 105-164.44I(b) designates $2,000,000 of the video programming sales tax revenue distributed to cities and counties for Supplemental PEG channel support. To receive a distribution of the Supplemental PEG channel support funds, a city or county must certify the PEG channels provided to the city or county for its use. Up to $6,250, per quarter ($25,000 per year) may be distributed for each certified channel. A city or county may not receive funding for more than three PEG channels. The amount distributed per PEG channel depends on the total number of PEG channels certified. For the first quarter of 2010, there were 107 certified PEG channels. Each certified channel eligible to receive funding received $4,672.90 for that quarter. Revenues that are not expended for Supplemental PEG support are transferred to the PEG Grant Fund. The PEG Grant Fund is administered by e-NC Authority. A grant may only be used for capital expenditures necessary to provide PEG channels. The size of a grant may not exceed $25,000 and an applicant may receive no more than one grant per fiscal year. The applicant must match the grant on a dollar-for-dollar basis. The Authority must publish an annual report on the grants awarded from the Fund.

The revenues cities and counties receive from the video programming tax have exceeded the anticipated revenue. However, the amount distributed per PEG channels has been less than anticipated due to a greater number of PEG channels certified than expected. With the higher number of PEG channels, there are not excess Supplemental PEG support revenues to transfer to the PEG Grant Fund.

BILL ANALYSIS: The PCS to House Bill 1691 repeals the PEG Grant Fund and increases the revenues available for Supplemental PEG Channel support to $4,000,000 per year. The yearly cap on funding is removed. Each PEG channel will receive a proportional share of the total revenues available. Based on the most recent number of certified PEG Channels, each PEG channel would receive approximately $9,300 per quarter. Each city and county is may certify up to 3 PEG channels.

EFFECTIVE DATE: Unless otherwise provided, this act is effective July 1, 2010.

EFFECTIVE DATE: July 1, 2010 unless otherwise noted.

BILL SUMMARY: The PCS to House Bill 1691 makes the following changes to the statutes governing Emergency Telephone Service:

- Provides that "public safety answering points" (PSAP)—the public safety agency that receives incoming 911 calls and dispatches public safety agencies in response—receiving distributions from the Fund and telecommunications service providers may not have more than one position on the Board.
- Removes one CMRS provider, and one NENA position from the Board.
- Requires the individuals representing cities and counties on the Board to be from a locality that has a primary PSAP.
- Adds two positions to the Board - a fire chief and a Rescue or Emergency Medical Services Chief.
- Prohibits Board members from serving more than two terms.
- Expands Board authority over 911 operational standards and responsibilities.
- Allows each Board to increase the percentage of funds retained for administrative expenses to 2% from 1%.
- Authorizes the 911 Board to determine the monthly distributions to eligible PSAPs.
- Expands the use of the 911 Fund to dispatch equipment located within the building where the PSAP is located.
- Authorizes the 911 Board to implement statewide projects for the benefit of 911 service.

Section 11 of the bill reallocates the local portion of the taxes received under G.S. 105-164.44 I, a subsection defining the city and county portion of video programming and telecommunication service taxes.

ASSUMPTIONS AND METHODOLOGY:

This bill does not have any immediate fiscal impact for the State, as it simply redistributes and expands the use of the 911 Board's current revenue. Section 4 does allow the Board to adjust rates in the future, if the current rate produces revenue in excess of or insufficient for the amount needed to cover costs. However, it is impossible to determine when and what adjustments might occur. Individual Public Safety Answering Points (PSAPs) may see changes in funding, depending on the distribution formula that the 911 Board develops.

Section 11 of the PCS has no General Fund impact. This proposal reallocates two million dollars in local taxes originally designated as discretionary funds under G.S. 105-164.44I towards funding for public, educational, and government (PEG) channels. Original local revenue projections under G.S. 105-164.44 I equaled $75.3 million in FY 08-09. Actual local revenue for the 2008-09 fiscal year equaled $80.3 million, five million dollars above the projected amount. In that vein, Section 11 redirects an additional two million towards funding PEG channels. If the 107 channels certified by the North Carolina Department of Revenue in March 2010 remains constant, the per PEG channel funding amount will increase by roughly $18, 691 for a total of $37,383 annually.

SECTION 4. G.S. 20-64.2 is repealed.

SECTION 5. G.S. 20-79 reads as rewritten:

"**§ 20-79. Dealer license plates.**

(a) How to Get a Dealer Plate. – The Division may issue a person licensed under Article 12 of this Chapter the appropriate classification of dealer license plate. A person eligible for a dealer license plate may obtain one by filing an application with the Division and paying the required fee. An application must be filed on a form provided by the Division. The required fee is the amount set by G.S. 20-87(7).

(b) Number of Plates. – A dealer who was licensed under Article 12 of this Chapter for the previous 12-month period ending December 31 may obtain the number of dealer license plates allowed by the following table; the number allowed is based on the number of motor vehicles the dealer sold during the relevant 12-month period and the average number of qualifying sales representatives the dealer employed during that same 12-month period:

Vehicles Sold In Relevant 12-Month Period	Maximum Number of Plates
Fewer than 12	~~1~~ 3
At least 12 but less than 25	~~4~~ 6
At least 25 but less than 37	~~5~~ 7
At least 37 but less than 49	~~6~~ 8
49 or more	At least ~~6~~ 8, but no more than ~~4~~ 5 times the average number of qualifying sales representatives employed by the dealer during the relevant 12-month period.

A dealer who was not licensed under Article 12 of this Chapter for part or all of the previous 12-month period ending December 31 may obtain the number of dealer license plates that equals four times the number of qualifying sales representatives employed by the dealer on the date the dealer files the application. A "qualifying sales representative" is a sales representative who works for the dealer at least 25 hours a week on a regular basis and is compensated by the dealer for this work.

A dealer who sold fewer than 49 motor vehicles the previous 12-month period ending December 31 but has sold at least that number since January 1 may apply for additional dealer license plates at any time. The maximum number of dealer license plates the dealer may obtain is the number the dealer could have obtained if the dealer had sold at least 49 motor vehicles in the previous 12-month period ending December 31.

A dealer who applies for a dealer license plate must certify to the Division the number of motor vehicles the dealer sold in the relevant period. Making a material misstatement in an application for a dealer license plate is grounds for the denial, suspension, or revocation of a dealer's license under G.S. 20-294.

A dealer engaged in the alteration and sale of specialty vehicles may apply for up to two dealer plates in addition to the number of dealer plates that the dealer would otherwise be entitled to under this section.

This subsection does not apply to manufacturers licensed under Article 12 of this Chapter.

(c) Form and Duration. – A dealer license plate is subject to G.S. 20-63, except for the requirement that the plate display the registration number of a motor vehicle and the requirement that the plate be a "First in Flight" plate. A dealer license plate must have a distinguishing symbol identifying the plate as a dealer license plate. The symbol may vary depending upon the classification of dealer license plate issued. The Division must provide suitably reduced sized license plates for motorcycle dealers and manufacturers.

A dealer license plate is issued for a period of one year. The Division shall vary the expiration dates of dealer registration renewals so that an approximately equal number expires at the end of each month, quarter, or other period consisting of one or more months. A dealer license plate may be transferred from one vehicle to another. When the Division issues a dealer plate, it may issue a registration that expires at the end of any monthly interval. When one of the following occurs, a dealer must surrender to the Division all dealer license plates issued to the dealer:

(1) The dealer surrenders the license issued to the dealer under Article 12 of this Chapter.
(2) The Division suspends or revokes the license issued to the dealer under Article 12 of this Chapter.
(3) The Division rescinds the dealer license plates because of a violation of the restrictions on the use of a dealer license plate.

To obtain a dealer license plate after it has been surrendered, the dealer must file a new application for a dealer license plate and pay the required fee for the plate.

e. Is an employee of the dealer or of a contractor of the dealer and is transporting the vehicle to or from a vehicle auction or to the dealer's established salesroom

(6) A copy of the registration card for the dealer plate issued to the dealer is carried by the person operating the motor vehicle or, if the person is operating the motor vehicle in this State, the registration card is maintained on file at the dealer's address listed on the registration card, and the registration card must be able to be produced within 24 hours upon request of any law enforcement officer.

A dealer may issue a demonstration permit for a motor vehicle to a person licensed to drive that type of motor vehicle. A demonstration permit authorizes each person named in the permit to drive the motor vehicle described in the permit for up to 96 hours after the time the permit is issued. A dealer may, for good cause, renew a demonstration permit for one additional 96-hour period.

A dealer may not lend, rent, lease, or otherwise place a dealer license plate at the disposal of a person except as authorized by this subsection.

(e) Sanctions. – The following sanctions apply when a motor vehicle displaying a dealer license plate is driven in violation of the restrictions on the use of the plate:

(1) The individual driving the motor vehicle is responsible for an infraction and is subject to a penalty of ~~fifty dollars ($50.00).~~one hundred dollars ($100.00).

(f) Transfer of Dealer Registration. – No change in the name of a firm, partnership or corporation, nor the taking in of a new partner, nor the withdrawal of one or more of the firm, shall be considered a new business; but if any one or more of the partners remain in the firm, or if there is change in ownership of less than a majority of the stock, if a corporation, the business shall be regarded as continuing and the dealers' plates originally issued may continue to be used.

(g) Penalties. – The clear proceeds of all civil penalties, civil forfeitures, and civil fines that are collected by the Department of Transportation pursuant to this section shall be remitted to the Civil Penalty and Forfeiture Fund in accordance with G.S. 115C-457.2.

(h) Definition. – For purposes of this section, the term "dealer" means a person who is licensed under Article 12 of this Chapter."

BILL ANALYSIS:

5-year CDL expiration date

Section 1 of the bill changes the expiration date of a commercial drivers license (CDL) to the birth date of the licensee in the fifth year after issuance.

Special registration plates on certain property-hauling vehicles

ection 2 of the bill specifies that special registration plates issued to vehicles 7,000 lbs. to 26,000 lbs. e not required to include the word "weighted".

License plate covers

Section 3 of the bill provides that any operator of a motor vehicle who covers any registration number, registration letter, or the State name on a registration plate, number on a year sticker, or number on a month sticker with any frame or transparent clear or color-tinted cover that makes the registration numbers, registration letters, the State name, or the numbers on the stickers illegible commits an infraction.

Repeal emergency use of registration plates

Section 4 of the bill repeals G.S. 20-64.2, which authorizes the DMV Commissioner to allow emergency use of a registration plate on another vehicle when the vehicle for which it was originally issued is being repaired.

Text of repealed G.S 20-64.2:

§ 20-64.2. Permit for emergency use of registration plate.

The Commissioner may, if in his opinion it is equitable, grant to the licensee a special permit for the use of a registration plate on a vehicle other than the vehicle for which the plate was issued, when the vehicle for which such plate was issued is undergoing repairs in a regular repair shop or garage.

Application for such permit shall be made on forms provided by the Division and must show, in addition to such other information as may be required by the Commissioner, that an emergency exists which would warrant the issuance of such permit.

Such permit shall be evidenced by a certificate issued by the Commissioner and which shall show the time of issuance, the person to whom issued, the motor number, serial number or identification number of the vehicle on which such plate is to be used and shall be in the immediate possession of the person operating such vehicle at all times while operating the same. And such certificate shall be valid only so ıg as the vehicle for which the registration plate has been issued shall remain in the repair shop or garage but not to exceed a period of 20 ys from its issuance. The person to whom the permit provided in this section is issued shall be liable for any additional license fees or nalties that might accrue by reason of the provisions of G.S. 20-86 and 20-96 of the General Statutes. (1957, c. 402; 1975, c. 716, s. 5.)

Dealer plate changes

Section 5 of the bill makes the following changes to State law governing dealer plates:

- increases the number of plates that may be issued to most dealers by 2, and increases the cap for larger dealers to no more than 5 times the average number of qualifying sales representatives employed by the dealer. The current fee for a dealer license plate is $28 for each of the first five plates issued to the same dealer and $14 for each additional dealer license plate issued to the same dealer.
- authorizes specified employees to operate vehicles with dealer plates and dealer transporter plates.
- Increases the dealer license plate sanctions as follows: increases the penalty imposed on individual driving a vehicle from $50 to $100, increases the penalty imposed on the dealer from $200 to $250.

Transporter plate changes

Section 6 of the bill makes the following changes to State law governing issuance of transporter plates:

- clarifies who can obtain a transporter plate: a business or dealer licensed under the Motor Vehicle Dealers and Manufacturers Licensing Law requiring the limited operation of a motor vehicle for the listed purposes.
- requires a business using a transporter plate for repossession to have proof of garage liability insurance, and limits issuance to a financial institution that is the recorded lien holder.
- authorizes transporter plate in order to pick up and deliver a vehicle that is to be repaired, is to undergo a safety or emissions inspection, or is to be prepared for sale, to road-test the vehicle, if it is repaired or inspected within a 20-mile radius of the place it is repaired or inspected, and to deliver the vehicle to the dealer. Also limits who may perform the road test. Transporter plates issued to a repair facility are limited to two transporter plates for each business.
- limits issuance of transporter plate to move a motor vehicle that is owned by the business and is a replaced vehicle offered for sale, to a business that has 10 or more registered vehicles.
- limits issuance of transporter plates to move vehicles to and from an auction, to licensed dealers or to a business contracted by the dealer to deliver vehicles to or from an auction. Any business contracted by the dealer must have a privilege license & financial responsibility.
- requires applicants for a transporter plate for use in road testing a repaired truck to show proof of garage liability insurance.
- authorizes use of transporter plate to move a newly manufactured travel trailer, fifth-wheel trailer, or camping trailer between a manufacturer and a dealer, but the transporter plate may not be used on the power unit. (Current law authorizes use of a transporter plate to move a mobile office, a mobile classroom, or a mobile or manufactured home.)
- authorizes use of a transporter plate to transport a vehicle at least 35 years old to and from a parade or another public event, if the vehicle is titled in this State, and has proof of insurance. (Current law requires a transporter plate to transport a vehicle at least 25 years old.)
- Restricts the authorized use of transporter plates to move a vehicle that is part of dealer inventory to and from a vehicle trade show or parade in which it is used. Issuance of the plate is limited to licensed dealers.

- provides that the total number of dealer transporter or dealer plates issued to a dealer may not exceed the total number of plates that can be issued under G.S. 20-79(b).
- amends the transporter plate sanctions to provide that they apply to violations of the section's requirements for financial responsibility; increases the infraction penalties imposed on individual driving a vehicle from $50 to $100; increases the infraction penalty imposed on the person, dealer, or business to whom plate is issued from $200 per occurrence to $250 per occurrence; requires DMV to rescind dealer or transporter plates for violations, and makes unlawful sale or rental of a transporter plate a Class I Felony.
- authorizes a law enforcement officer having probable cause to believe that a transporter plate is being used in violation of this section to seize the plate.
- authorizes staggered issuance of transporter plates.
- requires DMV to rescind a transporter plate or dealer transporter plate that is displayed on a motor vehicle for a purpose that is not authorized.
- requires any vehicle being operated on the highways of the State using a transporter plate to have liability insurance.

Free special plate clarification/Fee for special plate on property-hauling vehicle

Section 7 of the bill clarifies that recipients of the Legion of Valor, 100% Disabled Veteran, and Ex-Prisoner of War may receive one *special* registration plate free of charge. The bill, however, requires ecipients of the above plates for use on a vehicle with a registered weight of greater than 6, 000 pounds,) pay the registration fees assessed in G.S. 20-88. Currently, DMV is not charging a registration fee for the initial plate for a vehicle with a registered weight of 6,000 pounds or less.

Repeal $1 mail-in registration renewal fee

Section 8 of the bill repeals the postage and handling fee of $1 for mail-in registration renewal.

Amend separate registration for logging trucks

Section 9 of the bill amends the DMV's requirement for separately registering logging vehicles to help the IRS identify these vehicles as logging vehicles and, therefore, subject to a reduced federal highway use tax. The IRS imposes a highway use tax on motor vehicles over a certain weight. The tax rate for vehicles weighing at least 55,000 pounds, but not over 75,000 pounds is $100 per year plus $22 for each 1,000 pounds in excess of 55,000 pounds. The tax rate for vehicles over 75,000 pounds is $550. The tax rate is reduced by 25% if the motor vehicle is used exclusively for logging. The term "logging" is defined as the harvesting of timber and transportation from a forested site to places of sale. (Added in House Finance, earlier version of HB 1729 repealed the statute)

Light-traffic road limitations

Section 10 of the bill amends the light-traffic road limitations to state that a vehicle's point of origin will be treated as a light-traffic road if the point of origin is a non light-traffic road and that road is blocked by light-traffic roads from all directions and is not contiguous with other non light-traffic roads. Exempts from the weight and penalty limitations the following: vehicles hauling animal waste products from the animal waste storage site to a farm or field. Adds clarifying language to the exemption for ivestock or poultry transported from their point of origins to a processing plant.)

ncident Management Assistance Patrol use of red lights

Section 11 of the bill authorizes use of red lights on Incident Management Assistance Patrol vehicles operated by DOT.

Extend move-over law to electric utility restoration vehicles

Section 12 of the bill extends the "move-over" when passing a parked emergency vehicle law so that it applies to vehicles being used to restore electric utility service due to an unplanned event.

Parking on highway and highway shoulder changes

Section 13 of the bill changes the current prohibition on parking on the *paved or main traveled* portion of a highway or highway bridge *outside municipalities* to a prohibition on parking on the *main traveled* portion of *all* highways with a *speed limit posted less than 45 miles per hour*.

Section 14 of the bill prohibits parking upon the *paved or main-traveled* portion of any highway or highway bridge *with the speed limit posted 45 miles per hour or greater.*

Section 15 of the bill expands the current prohibition on parking on the *shoulder* of a highway *outside municipalities* to *all* highways, both in and outside of municipalities.

Transporter plate misuse grounds for revoking motor vehicle dealer license.

Section 16 of the bill specifies that misuse of transporter plates is grounds for revoking a motor vehicle dealer license.

Yellow light duration at red light camera intersections

Sections 17, 18, and 19 of the bill amend the red light camera laws to change the standard to be used to determine the duration of a yellow light at red light camera intersections from the yellow light duration specified in the DOT Signals and Geometrics Section Design Manual to the duration in the traffic signal plan of record signed and sealed by a licensed professional engineer, and in compliance with the Manual on Uniform Traffic Control Devices.

Removal of abandoned vehicles on streets

Section 20 of the bill changes the statute that authorizes municipalities to prohibit the abandonment of motor vehicles on public streets and on private property. This section would allow the removal and disposal of abandoned vehicles left on a public street at any time, if the motor vehicle is determined to be a hazard to the motoring public. Current law requires removal only if the vehicles has been left for longer than seven days.

Inspection Program Call Center

Section 21 of the bill amends the language in S.L. 2009-451, as added by S.L. 2009-575 concerning the replacement of out-of-state contractors with State employees at an existing call center in Bladen County.

EFFECTIVE DATE: Sections 21 and 22 of this act are effective when the act becomes law. The remainder of the act becomes effective December 1, 2010, and applies to offenses committed on or after that date.

BILL SUMMARY: Two sections of the bill have a fiscal impact.

Section 1 (5-year CDL expiration date) of the bill changes the expiration date of a commercial drivers license (CDL) to the birth date of the licensee in the fifth year after issuance.

Section 8 (Repeal $1 mail-in registration renewal fee) of the bill repeals the postage and handling fee of $1 for mail-in registration renewal.

Summary written by Martha Walston. Giles Perry, counsel to House Transportation, substantially contributed to this summary.

ASSUMPTIONS AND METHODOLOGY:

Section 1: The Transportation Security Administration Security Clearance/Threat Assessment requires a "Hazmat Endorsement" be valid for no more than five years. In addition, federal regulations require that hazardous material endorsements be renewed every five years. Currently, commercial driver licenses are renewed every eight years if the applicant is less than 54 years old. The amount paid to renew the license is based on the number of years in which the license will be in effect. Therefore, revenues will decrease for the first five years after implementation because DMV will collect for a five-year, not eight-year license. In year 6, revenues are expected to increase and then stabilize by year 10.

Section 8: Currently, a customer is charged a $1 postage and handling fee if the annual vehicle registration fee is sent by mail. If a customer does not include the fee, DMV returns the renewal and the payment to the customer and the customer must then remit the annual renewal fee again, including the $1 fee if paying by mail. DMV estimates it returns 72,000 renewals per year due to the extra dollar not being included. By stopping the rejection of annual renewals for the omission of the $1 fee, the Division expects to produce savings in mailing costs of $15,820 in FY 2010-11 and $27,120 annually thereafter. Savings are based on the cost of postage and envelopes totaling $2,260 per month. The fiscal impact to revenues is based on the amount of renewals processed by mail in 2009 (totaling 975,489) plus a one percent increase in mailings per fiscal year.

service during the taxable year. If the taxpayer places business property in service in an urban progress zone or an agrarian growth zone, the applicable threshold is the one for a development tier one area. If the taxpayer places eligible business property in service at establishments in different counties, the threshold applies separately to the aggregate amount of eligible business property placed in service in each county. If the taxpayer places eligible business property in service at an establishment over the course of a two-year period, the applicable threshold for the second taxable year is reduced by the eligible investment amount for the previous taxable year.

PART II: EXPAND TAX CREDITS FOR PRODUCTION COMPANIES

SECTION 2.1. G.S. 105-130.47 reads as rewritten:

"**§ 105-130.47. Credit for qualifying expenses of a production company.**

(a) Definitions. – The following definitions apply in this section:

(1) Highly compensated individual. – An individual who directly or indirectly receives compensation in excess of one million dollars ($1,000,000) for personal services with respect to a single production. An individual receives compensation indirectly when a production company pays a personal service company or an employee leasing company that pays the individual.

(2) Live sporting event. – A scheduled sporting competition, game, or race that is not originated by a production company, but originated solely by an amateur, collegiate, or professional organization, institution, or association for live or tape-delayed television or satellite broadcast. A live sporting event does not include commercial advertising, an episodic television series, a television pilot, a music video, a motion picture, or a documentary production in which sporting events are presented through archived historical footage or similar footage taken at least 30 days before it is used.

(3) Production company. – Defined in G.S. 105-164.3.

(4) Qualifying expenses. – The sum of the following amounts spent in this State by a production company in connection with a production, less the amount in excess of one million dollars ($1,000,000) paid to a highly compensated individual:

a. Goods and services leased or purchased. For goods with a purchase price of twenty-five thousand dollars ($25,000) or more, the amount included in qualifying expenses is the purchase price less the fair market value of the good at the time the production is completed.

b. Compensation and wages on which withholding payments are remitted to the Department of Revenue under Article 4A of this Chapter.

c. The cost of production-related insurance coverage obtained on the production. Expenses for insurance coverage purchased from a related member are not qualifying expenses.

d. Employee fringe contributions, including health, pension, and welfare contributions.

e. Per diems, stipends, and living allowances paid for work being performed in this State.

(5) Related member. – Defined in G.S. 105-130.7A.

(b) Credit. – A taxpayer that is a production company and has qualifying expenses of at least two hundred fifty thousand dollars ($250,000) with respect to a production is allowed a credit against the taxes imposed by this Part equal to ~~fifteen percent (15%)~~ twenty-five percent (25%) of the production company's qualifying expenses. For the purposes of this section, in the case of an episodic television series, an entire season of episodes is one production. The credit is computed based on all of the taxpayer's qualifying expenses incurred with respect to the production, not just the qualifying expenses incurred during the taxable year.

~~(b1) Alternative Credit. – In lieu of the credit allowed under subsection (b) of this section, a taxpayer that is a production company and has qualifying expenses of at least two hundred fifty thousand dollars ($250,000) with respect to a production may elect to take a credit against the taxes imposed by this Part equal to twenty-five percent (25%) of the production company's qualifying expenses less the difference between the amount of tax paid on purchases subject to the tax under G.S. 105-187.51 and the amount of sales or use tax that would have been due had the purchases been subject to the sales or use tax at the combined general rate, as defined in G.S. 105-164.3. The credit is computed based on all of the taxpayer's qualifying expenses incurred with respect to the production, not just the qualifying expenses incurred during the taxable year. The taxpayer shall elect whether to claim the credit allowed under this subsection or the one allowed under subsection (b) of this section at the time the taxpayer files the return on which the credit is claimed. (c) Pass-Through Entity. – Notwithstanding the provisions of G.S. 105-131.8 and G.S. 105-269.15, a pass-through entity that qualifies for a credit provided in this section does not distribute the credit among any of its owners. The pass-through entity is considered the taxpayer for purposes of claiming a credit allowed by this section. If a return filed by a pass-through entity indicates that the entity is paying tax on behalf of the owners of the entity, a credit allowed under this section does not affect the entity's payment of tax on behalf of its owners.

(d) Return. – A taxpayer may claim a credit allowed by this section on a return filed for the taxable year in which the production activities are completed. The return must state the name of the production, a description of the production, and a detailed accounting of the qualifying expenses with respect to which a credit is claimed. The qualifying expenses are subject to audit by the Secretary before the credit is allowed.

(e) Credit Refundable. – If a credit allowed by this section exceeds the amount of tax imposed by this Part for the taxable year reduced by the sum of all credits allowable, the Secretary must refund the excess to the taxpayer. The refundable excess is governed by the provisions governing a refund of an overpayment by the taxpayer of the tax imposed in this Part. In computing the amount of tax against which multiple credits are allowed, nonrefundable credits are subtracted before refundable credits.

(f) Limitations. – The amount of credit allowed under this section with respect to a production that is a feature film may not exceed ~~seven~~ twenty million ~~five hundred thousand~~

dollars ~~($7,500,000).~~($20,000,000). No credit is allowed under this section for any production that satisfies one of the following conditions:

The Secretary may consult with the North Carolina Film Office of the Department of Commerce and the regional film commissions in order to determine the amount of qualifying expenses.

(h) Report. – The Department of Revenue must publish by May 1 of each year the following information, itemized by taxpayer for the 12-month period ending the preceding December 31:

(1) The location of sites used in a production for which a credit was taken.

(4) The total cost to the General Fund of the credits taken.

(i) Repealed by Session Laws 2006-220, s. 2, effective for taxable years beginning on or after January 1, 2007.

(j) NC Film Office. – To claim a credit under this section, a taxpayer must notify the Division of Tourism, Film, and Sports Development in the Department of Commerce of the taxpayer's intent to claim the production tax credit. If more than one subdivision of this ~~subsection~~ section applies to the same expenses, then the credit is equal to the higher percentage, not both percentages combined. If part of the taxpayer's qualified North Carolina research expenses qualifies under more than one subdivision ~~(2)~~ of this ~~subsection and the remainder qualifies under subdivision (3) of this subsection,~~ section, the applicable percentages apply separately to each part of the expenses.

(1) Small business. – If the taxpayer was a small business as of the last day of the taxable year, the applicable percentage is three and one-quarter percent (3.25%).

(2) Low-tier research. – For expenses with respect to research performed in a development tier one area, the applicable percentage is three and one-quarter percent (3.25%).

(2a) University research. – For North Carolina university research expenses, the applicable percentage is twenty percent (20%).

(2b) Eco-Industrial Park. – For expenses with respect to research performed in an Eco-Industrial Park certified under G.S. 143B-437.08, the applicable percentage is thirty-five percent (35%).

(3) Other research. – For expenses not covered under another subdivision ~~(1) or (2)~~ of this ~~subsection,~~section, the percentages provided in the table below apply to the taxpayer's qualified North Carolina research expenses during the taxable year at the following levels:

Expenses Over	Up To	Rate
-0-	$50 million	1.25%
$50 million	$200 million	2.25%
$200 million	–	3.25%

~~(b) North Carolina University Research Expenses. A taxpayer that has North Carolina university research expenses for the taxable year is allowed a credit equal to twenty percent (20%) of the expenses.~~"

SECTION 5.6. Sections 5.1, 5.4 and 5.5 of this Part are effective for taxable years beginning on or after January 1, 2011. The remainder of this Part is effective when it becomes law. Sections5.2 and 5.3 of this Part apply to grant applications submitted on or after July 1, 2010.

PART VIII: ESTABLISH THE YADKIN RIVER TRUST TO DEVELOP THE RESOURCES OF THE YADKIN RIVER IN DAVIDSON, MONTGOMERY, ROWAN, AND STANLY COUNTIES

SECTION 8.1. Chapter 77 of the General Statutes is amended by adding a new Article to read as follows:

"Article 10.
"Yadkin River Trust.

"**§ 77-140. Yadkin River Trust.**

There is established the Yadkin River Trust as a public agency and instrumentality of the State to develop the Yadkin River in Davidson, Montgomery, Rowan, and Stanly Counties as an instrumentality of intrastate, interstate, and foreign commerce and navigation, to ensure the equitable distribution of water for public purposes, to investigate and address issues of environmental damage in that area, and to fulfill the purpose and intent of S.L. 1885-212.

(b) Terms. – The term of office of directors of the Board is four years. A director may be reappointed to one successive four-year term. (f) Compensation of the Board. – The members of the Board shall receive no salary for their services but shall be entitled to receive per diem and allowances in accordance with the provisions of G.S. 138-5.

"**§ 77-142. Powers of the Trust.**

(10) To fulfill the purpose and intent of S.L. 1885-212, which set forth certain requirements to erect and maintain dams and other obstructions in the Yadkin River.

"**§ 77-143 through § 77-160: Reserved for future codification purposes.**"

SECTION 8.2. The Yadkin River Trust shall monitor the proceedings before the Federal Energy Regulatory Commission concerning the license for the Yadkin Project No. 2197 and report to the Joint Legislative Commission on Governmental Operations, the Joint Legislative Utility Review Committee, and the Environmental Review Commission on or before January 15, 2011, on the status of the matter. Upon reporting, the Trust may also provide an update on issues required to be studied pursuant to S.L. 2008-137, as deemed appropriate.

SECTION 8.3. This Part is effective when it becomes law. If the Federal Energy Regulatory Commission issues a new multiyear license to Alcoa Power Generating, Inc., for the Yadkin Project No. 2197, the provisions of this Part shall expire upon issuance of that license.

PART IX: FUNDING FOR THE DNA DATABASE AND DATABANK

SECTION 9.1. If Senate Bill 1383 or House Bill 1403, 2010 Regular Session, 2009 General Assembly, become law, then G.S. 7A-304(a) reads as rewritten:

"(a) In every criminal case in the superior or district court, wherein the defendant is convicted, or enters a plea of guilty or nolo contendere, or when costs are assessed against the prosecuting witness, the following costs shall be assessed and collected, except that when the judgment imposes an active prison sentence, costs shall be assessed and collected only when the judgment specifically so provides, and that no costs may be assessed when a case is dismissed.

...

(9) For the support and services of the State Bureau of Investigation DNA Database and DNA Databank, the sum of three dollars ($3.00), to be remitted to the Department of Justice. This cost shall be assessed and collected only if the defendant has been convicted of a felony or misdemeanor."

PART I: EXTEND AND MODIFY ARTICLE 3J TAX CREDITS

Under current law, Article 3J for growing businesses is repealed for business activities that occur on or after 1/1/11. In order to qualify for a number of economic incentives[1] offered by the State, including Article 3J, a taxpayer must meet an environmental impact test. In addition, under Article 3J, a taxpayer may receive a credit for investing in business property if the investment meets a specified threshold. The amount of the credit varies, depending upon the tier designation. Activities that occur in an agrarian growth zone may receive enhanced economic incentives.

Sunset Extension: Section 1.1 would extend the sunset for the Article 3J tax credits from 1/1/11 to 1/1/13.

Agrarian Growth Zone: An agrarian growth zone is a zone that meets each of the following conditions: (i) it is comprised of one or more contiguous census tracts, census block groups, or both, in the most recent federal decennial census, (ii) all of the area is located in whole within a county that has

[1] These incentives include site infrastructure development, JMAC (Job Maintenance and Capital Development Fund), and any tax incentive that incorporates, by reference, the environmental test set forth in Art. 3J.

to municipality with a population in excess of 10,000, and (iii) every census tract and census block group that comprises the area has more than 20% of its population below the poverty level according to the most recent federal census. Section 1.2 of the bill would make a technical change to what meets the definition of an agrarian zone by modifying the third requirement by allowing every census tract to either have more than 20% of its population below the poverty level or to be adjacent to another census tract or census block group in the zone that has more than 20% of its population below the poverty level according to the most recent federal census and by requiring that the zone, as a whole, have more than 20% of its population below the poverty level according to the most recent federal census. This section is effective for taxable years beginning on or after January 1, 2011.

Environmental Impact: Under various provisions, a taxpayer qualifies for certain economic incentives only if the taxpayer certifies that it has no pending administrative, civil, or criminal enforcement actions based on alleged significant violations of any DENR-implemented programs and has had no final determination of responsibility for any significant administrative, civil, or criminal violation of any DENR-implemented program within the last five years. These are civil and criminal violations with associated penalties. While Article 3J has a definition for what constitutes a "significant" violation, some confusion has arisen as to whether violations should be considered "significant" or "non-significant," and Revenue has interpreted the current language to make no distinction between civil and criminal violations or on the basis of whether the violation was knowing or knowing and willful. Sections 1.3 through 1.6 of the bill would clarify that an environmental disqualifying event occurs when (i) a civil penalty is assessed by DENR for failure to comply with an order to abate or remediate a violation of any DENR program, (ii) a criminal penalty was imposed in connection with any DENR-implemented program, or (iii) DENR finds a taxpayer knowingly and willfully committed a violation of a DENR-implemented program or an assessment for damages to fish or wildlife is made or a judicial order for injunctive relief was issued in connection with a violation of any DENR-implemented program.[2] This is designed to ensure that minor violations do not inadvertently disqualify a taxpayer that would otherwise be eligible for a tax incentive and has been vetted with the Departments of Commerce and Revenue. Sections 1.3 and 1.4 would become effective for credits claimed for taxable years beginning on or after January 1, 2007. Sections 1.5 and 1.6 become effective when they become law and apply all agreements in effect on or entered into on or after that date.

Credit for Investing in Business Property: Section 1.7 would modify the tax credit for investing in business property by both increasing the threshold level of investment that must be met to qualify for the credit in a tier 3 development area and by reducing the credit amount for an area development tier 2 and 3 as shown in the table below: This section is effective for taxable years beginning on or after January 1, 2011.

Area Development Tier	Applicable Credit Percentage	Applicable Threshold Amount
Tier One	7%	-0-
Tier Two	Reduce from 5% to 4%	$1,000,000
Tier Three	Reduce from 3.5% to 2%	Increase from $2,000,000 to $3,000,000

[2] The first two apply only for the tax year in which the activity occurred; the last includes the current tax year as well as the prior two tax years.

Part II: Expand Tax Credits for Production Companies

In 2005, the General Assembly replaced the film industry development grant program with a refundable income tax credit calculated based on the qualifying expenses spent by a production company in connection with a production. In 2009, the credit was modified to provide a production company with the choice of two different credit amounts: either a credit equal to 15% of qualifying expenses[3] or an alternative credit equal to 25% of qualifying expenses, less the difference between the amount of tax paid on purchases subject to the privilege tax on mill machinery under G.S. 105-187.51, which has historically been applied to cameras, film, props, building materials used in construction of sets, and chemicals/equipment used to develop and edit film, and the amount of tax the company would have paid on those purchases if they had been subject to the combined general rate of sales tax under G.S. 105-164.4.

The refundable film credit is capped at $7.5 million. In order to obtain the credit, the taxpayer's qualifying expenses must exceed $250,000, which cannot include any amount in excess of $1,000,000 paid in compensation to an individual. The credit is claimed for the taxable year in which the production activities are completed. The credit is computed based on all of the taxpayer's qualifying expenses incurred with respect to the production, not just the qualifying expenses incurred during the taxable year. If the credit exceeds the amount of tax imposed for the taxable year reduced by the sum of all credits allowable, the Secretary must refund the excess to the taxpayer. A pass-through entity is considered a taxpayer for purposes of claiming this credit.

Sections 2.1 and 2.2 would do the following, effective for taxable years beginning on or after January 1, 2011:

- Increase the applicable percentage used to calculate the credit from 15% of the amount of qualifying expenses to 25% of the amount of qualifying expenses and eliminate the alternative credit.
- Allow a taxpayer to include as qualifying expenses both employee fringe contributions (including health, pension, and welfare contributions) and per diems, stipends, and living allowances paid for work being performed in the State.
- Increase the cap of the film credit from $7.5 million to $20 million.

Section 2.3 would clarify that the scope of mill machinery for privilege tax purposes does not include purchases of cameras, film, props, building materials used in construction of sets, and chemicals/equipment used to develop and edit film. This would result in these purchases being subject to the general rate of sales tax.

Part III: Economic Incentives for Interactive Digital Media

North Carolina does not provide any statutory incentives programs for companies that produce virtual world, flight, or training simulations or engines, platforms or other programmed components of such simulations. Effective for taxable years beginning on or after 1/1/11 Section 3.2 would create an economic incentive to help to recruit those producers of interactive digital media to North Carolina. The term "interactive digital media" would be defined as products that meet all of the following requirements:

---

[3] Qualifying expenses are the total amount spent in North Carolina on (i) goods and services leased or purchased by a production company in connection with a production, (ii) compensation and wages paid by a production company on which it remitted withholding payments to the Department of Revenue. An amount paid in excess of $1 million to an individual for compensation may not be included as a qualifying expense, and (iii) the cost of production-related insurance coverage obtained on the production. Expenses for insurance and coverage purchased from a related member may not be included as a qualifying expense.

- Produced for distribution on electronic media, including distirubiton by file download over the Internet.
- Contains a computer-controlled virtual universe with which an individual wo uses the program may interact in order to achieve a goal.
- Contains a significant amount of at least three of the following: text, sound, fixed images, animated, images, and 3D geometry

The credit would be equal to a percentage of the taxpayer's expenses paid during the taxable year in developing the media, platform, or engine that exceed $50,000. The percentage amount would vary as follows:

- For expenses paid to a research university, 20%.
- For expenses incurred to develop training and educational applications, 15%.
- For all other allowable expenses, 10%.

The credit is available only if the taxpayer meets the wage standard, health insurance, environmental impact, safety and health programs, and no-tax-delinquencies requirements of Article 3J. IDM credits may be taken against either franchise or income tax liability. The taxpayer must elect when filing the return which tax the credit will be claimed against, and that election is binding (including with respect to carryfowards). IDM credits may not exceed 50% of the amount of tax against which the credit is claimed, and unused portions of a credit may be carried forward for eight years. If a producer claims or has claimed an IDM credit with respect to a facility, that taxpayer is ineligible for One NC Fund and JDIG grants. This credit would 1/1/14.

'art IV. Extend Tax Credit for Recycling Oyster Shells

Section 5.1 would extend the sunset on the tax credit for recycling oyster shells fro 1/1/11 to 1/1/13.

Part V: Eco-Industrial Parks

This Part of the bill provides that any Eco-Industrial Park has a development tier one designation for purposes of economic development programs. An Eco-Industrial Park meets the following requirements (i) it has at least 100 developable acres, (ii) it is located in a county that is not subject to motor vehicles emissions inspections, (iii) each building in the park meets the energy-efficiency and water usage standards established in G.S. 143-135.37, and (iv) each business in the park is in a clean industry. If these requirements are met, the Eco-Industrial Park enjoys certain other favorable treatment with existing economic incentives. First, for purposes of the Job Development Investment Grant Program and the NC Green Business Fund, in selecting between applicants (JDIG) and projects in a priorty area (Fund), an applicant or a project in an Eco-Industrial Park has priority over comparable projects not in an Eco-Industrial Park. Also, with respect to the NC Green Business Fund and unlike with other projects, Commerce may neither set a cap on a grant nor require matching funds for a grant from the Fund for projects in an Eco-Industrial Park. Second, under current law, the tax credit available against income, franchise, or gross premiums tax liability for taxpayers investing in renewable energy property for nonresidential property has a ceiling of $2.5 million per installation. The bill would increase that limitation for renewable energy property for nonresidential property located in an Eco-Industrial Park to $5 million per installation. Third, under current law, a taxpayer that has qualified research expenses is allowed a credit equal to the percentage of the expenses ranging from 1.25% to 3.25% (North Carolina ··niversity research expenses get a credit equal to 20% of the expenses). The applicable percentage for ĸpenses with respect to research performed in an Eco-Industrial Park would be 35% of the expenses.

Part VI: Sales Tax Exemption for Wood Chippers

Under current law, companies that produce wood chippers that are for use by out-of-state customers and that are immediately removed from North Carolina and are delivered to the customer's out-of-state location are required to collect sales tax for certain sales. This practice has, in practical effect, put these companies at a competitive disadvantage with similarly situated companies located in other States. These taxable sales included, *inter alia*, (i) where a customer's employee picks up the chipper at the company location using the customer's vehicle, (ii) where the customer pays a drive-away service driver to pick up the chipper at the company, and (iii) where the customer pays a drive-away service driver to pick up the chipper at the company using the customer's vehicle. These chippers are commercial units that are towed behind another vehicle and are assigned a vehicle identification number.

Section 7.1 would exempt from sales tax a wood chipper that meets all of the following requirements:

- Is designed to be towed by a motor vehicle.
- Is assigned a 17-digit vehicle identification number by the National Highway Transportation Safety Association.
- Is sold to a person who purchases a motor vehicle in this State that is to be registered in another state and who uses the purchased motor vehicle to tow the wood chipper to the state in which the purchased motor vehicle is to be registered.

This Part would become effective July 1, 2009, and apply to sales made on or after that date.

Part VII. Low Profit Limited Liability Company

Chapter 57C provides for the formation of a limited liability company (LLC). A low-profit limited liability company is a LLC that is formed for both a business purpose and a charitable purpose that requires operation of the company in accordance with these three requirements:

- To accomplish one or more charitable or educational purposes within the meaning of section 170(c)(2)(B) of the Code.
- To operate so that no significant purpose of the company is the production of income or the appreciation of property.
- To operate so that no purpose of the company is to accomplish one or more political or legislative purposes within the meaning of section 170(c)(2)(D) of the Code.

Under current law, a LLC could choose to put these conditions on its operations by including them in its articles of organization and by operating in accordance with them. However, current North Carolina law does not provide a designation specific to a company that does so. Part VIII would recognize the formation of a low-profit limited liability company and allow that company to use the designation "L3C". Like a LLC, a L3C is subject to federal and State tax and investments in a L3C are not tax deductible. This Part would become effective when it becomes law. The Senate passed this provision last year, 2009, in Senate Bill 308. Senate Bill 308 is in House Finance.

Vermont became the first state to recognize the L3C as an official legal structure in April 2008 and Michigan become the second state in January 2009. The formation of a L3C is designed to facilitate program-related investments (PRI) by private foundations. Private foundations must distribute at least 5% of their capital for charitable purposes to maintain their nonprofit status. Although foundations often expend these funds through grants, they may also meet the expenditure requirement with IRS-sanctioned PRIs. A PRI is an investment that supports charitable activities but may involve the potential return of capital. An example of a PRI is a loan, a loan guarantee, and an equity investment in a charitable organization.

Foundations do not usually make PRIs without an IRS private letter ruling that the investment meets the IRS requirements as an acceptable PRI. The expense of obtaining a private letter ruling deters foundations from this form of investment. The founders of the L3C designation hope that the IRS or Congress will choose to treat an investment in a L3C as a PRI without the need for a private letter ruling because the three requirements to form as a L3C mirror the IRS requirements for a PRI. Neither the IRS nor Congress has evidenced any movement on this issue.

Part VIII. Establish the Yadkin River Trust to Develop the Resources of the Yadkin River in Davidson, Montgomery, Rowan, and Stanley Counties

Part IX would authorize creation of the Yadkin River Trust (Trust) as a public agency and instrumentality of the State. The Trust would have a Board of Directors and be authorized to do the following:

- Develop the Yadkin River in Davidson, Montgomery, Rowan, and Stanly Counties as an instrumentality of intrastate, interstate, and foreign commerce and navigation.
- Pursue efforts directed at the equitable distribution of water for public purposes.
- Seek enforcement of environmental laws and contribution to environmental cleanup costs, consistent with the purposes for which the Trust was created.
- Fulfill the purpose and intent of S.L. 1885-212, which set forth certain requirements to erect and maintain dams and other obstructions in the Yadkin River.
- Monitor the proceedings before the Federal Energy Regulatory Commission concerning the license for the Yadkin Project No. 2197 and report on the status of those proceedings, as well as other relevant issues, to several legislative oversight commissions.

This Part would become effective when it becomes law, and would expire if the Federal Energy Regulatory Commission issues a new multiyear license to Alcoa Power Generating, Inc., for the Yadkin Project No. 2197.

Part IX. Funding for the DNA Database and Databank

Senate Bill 1383 and House Bill 1403 would make two significant changes to the State's laws on DNA sampling: DNA samples would be taken from persons upon arrest for specified offenses, and the general method of sampling would be changed from blood sample to cheek swab for all DNA sampling. This Part provides for a three dollar ($3.00) criminal court cost, to be assessed in every criminal case in Superior or District Court where the defendant is convicted, enters a guilty or nolo contendere plea, or when costs are assessed against the prosecuting witness. The cost does not apply to infractions. The funds would be remitted to the State Treasurer, for the support and services of the SBI's DNA Database and DNA Databank.

IF THIS PART BECOMES EFFECTIVE, the increased court cost would become effective October 1, 2010, and applies to court costs imposed or collected on or after that date, except that in misdemeanor cases disposed of on or after that date by written appearance, waiver of trial or hearing, and plea of guilt or admission of responsibility pursuant to G.S. 7A-180(4) or G.S. 7A-273(2) in which the citation or other criminal process was issued before that date, the cost shall be the lesser of the cost specified in G.S. 7A-304(a), as amended by this act, or the cost specified in the notice portion of the defendant's or respondent's copy of the citation or other criminal process, if any costs are specified in that notice.

The changes proposed by this Part would only become effective if the 2010 Session of the 2009 General Assembly enacts either Senate Bill 1383 or House Bill 1403.

BILL SUMMARY:
Part I extends the sunset for the Article 3J Credits for Growing Businesses from January 1, 2011 to January 1, 2013. It also lowers the credit rate percentage from 5% to 4% for Tier II business investments and from 3.5% to 2.0% for Tier III business investments. The minimum investment threshold for Tier III investment is increased from $2 million to $3 million.

Part II of the bill makes the following changes to the film production credit:

- Increases the applicable percentage used to calculate the credit from 15% of the amount of qualifying expenses to 25% and eliminates the alternate credit;
- Increases the cap on the amount of credit per feature film from $7.5 million to $20 million;
- Allows employee fringe contributions and per diems to be included as eligible expenses.

Part III of the bill establishes a tax credit for digital interactive media productions. The credit is equal to 10% of eligible expenses, or 20% if the production is in collaboration with a university. The credit is 15% for certain eligible applications. Taxpayers may take annual credits of up to 50% of tax liability and unused credits can be carried forward for eight years. The minimum cost of an eligible production is $50,000.

Part IV of the bill adds to the types of joint governmental agencies eligible for a sales tax refund under G.S.105-164.14(c). The agency must be an agency created by an interlocal agreement pursuant to G.S. 160A-462. The agency must also operate a public broadcast station or "communication system that provides high-speed broadband Internet access service or other Internet access service" or provide other video programming services.

Part V of the bill would extend the tax credit for recycling oyster shells to 2013. The credit amount is $1 per bushel of oyster shells donated to the Division of Marine Fisheries of the NC Department of Environment and Natural Resources.

Part VI would create economic development incentives and favorable tax treatment for Eco-Industrial Parks.

Part VII of the PCS to HB 1973 is formative in nature. The goal of this legislation is to clarify that companies are not liable for erroneous sales and use tax assessments on wood-chipping equipment. The legislation would apply if said equipment has an assigned seventeen-digit vehicle identification number (VIN) from the National Highway Transportation Safety Association.

Part VIII would recognize a new type of corporate designation known as a low-profit limited liability company (L3C). The PCS removes the provisions from the bill that would have provided enhanced tax incentives to an endangered manufacturer.

Section IX of the PCS creates the Yadkin River Trust as a public agency and instrumentality of the State with a three-member board of directors. The Trust is given several powers and directed to report to three legislative commissions by January 15, 2011 regarding the Federal Energy Regulatory Commission's license renewal for the Yadkin Project No. 2197.

ASSUMPTIONS AND METHODOLOGY:

Part I extends the Article 3J credits from January 1, 2011 to January 1, 2013. The Article 3J Credits for Growing Businesses replaced the William S. Lee Act credits effective January 1, 2007 and includes credits for creating jobs, investing in business property and investing in real property. The credits can be used to offset up to 50 percent of the taxpayer's state income and/or franchise tax liability and must be taken in four (jobs and business property) or seven (real property) annual installments. Unused credits can be carried forward for five years for the jobs and business investment credits. The real property investment credits can be carried forward for fifteen years.

The annual impact of Article 3J is based on the two annual reports available from the Department of Revenue. The 2009 report provides credits generated and taken for the first year of Article 3J. The amount of activity for the first year is assumed to be relatively low because taxpayers were allowed for that year only to elect to take either Bill Lee or Article 3J credits. Therefore, the credits generated from the 2010 report are considered to be more reflective of future activity.

For purposes of this analysis, a simulation was developed to estimate the potential impact of the Article 3J extension. The simulation assumes that credits continue to be generated each year at the same level as in the 2010 report. The assumption for the percentage of credits taken each year is based on the percentage taken in the 2009 report (data for credits taken in the 2010 report is not yet available). Credits taken represented 10.7% of credits generated for that year; thus, the installments for each tax year are calculated by multiplying the credits generated (based on the 2010 report) by the percentage taken ($112,579,981 * 10.7% = $12,082,452). The annual impacts for each fiscal year of the credit extension are calculated by adding the credit installments that would be taken each year as shown in Table 1.

The Article 3J extension would have no impact on revenues in FY 2010-11 because taxpayers cannot take any credits until the tax year following the year they are generated. Credits would be generated beginning in calendar year 2011 and would be taken for tax year 2012. FY 2011-12 revenues would be impacted by taxpayers who reduce April and June estimated payments in 2012. This impact is estimated to be 45% of the full-year impact of the credit extension.

Table 1. Fiscal Impact of Art. 3J Credit Extension by Fiscal Year ($millions)

	FY 2010-11	FY 2011-12	FY 2012-13	FY 2013-14	FY 2014-15
Tax Year					
2012	$0.0	$5.4	$12.1	$12.1	$12.1
2013	$0.0	$0.0	$0.0	$12.1	$12.1
Total Impact	**$0.0**	**$5.4**	**$12.1**	**$24.2**	**$24.2**

Finally, the fiscal impacts are adjusted to reflect the change in credit percentage for Tier II and III business investments and the threshold for Tier III investments. Department of Revenue Article 3J reports were used to determine the impact of the threshold adjustment. Any projects less than $3 million were removed from the list of eligible projects. Furthermore, because the amount of the threshold is not included as an eligible expense, each remaining project was reduced by $1 million to reflect the $1 million increase in the amount of the threshold ($2 million to $3 million). When the new credit rate percentage of 2% is applied to the Tier III investments meeting the $3 million

threshold and the 4% rate is applied to Tier II investments, the result is a 15% reduction in Article 3J costs. The final step in the fiscal analysis of the Article 3J extension is to apply this percentage reduction to the impacts in Table 1. The results are shown in Table 2 below:

Table 2. Fiscal Impact of Credit Rate Reduction and Threshold Increase on Article 3J Impacts ($millions)

	FY 2010-11	FY 2011-12	FY 2012-13	FY 2013-14	FY 2014-15
Current Law w/ Sunset Extension	$0.0	-$5.4	-$12.1	-$24.2	-$24.2
4% Credit Rate for Tier II; 2% Credit Rate and $3 million Threshold for Tier III	$0.0	-$4.6	-$10.3	-$20.6	-$20.6

Part II: Currently, the film production credit is 15% of eligible expenses, with an alternate credit equal to 25% of eligible expenses, less the difference between the amount of tax paid on purchases subject to the privilege tax on mill machinery and the amount of tax that would be paid if the purchases had been subject to the combined general rate of sales tax. The bill eliminates this alternate credit and increases the credit from 15% to 25%. This portion of the bill has an insignificant impact because eligible expenses are already subject to the 25% rate under the alternate credit, and the add-back of the sales tax differential has a minimal effect.

The fiscal impact of the remaining changes in the bill was determined using an analysis provided by the Department of Commerce. The Department used actual studio budgets to estimate the impact of projected changes based on the number and size of additional film productions resulting from the bill. The analysis assumes that without the proposed expansion, baseline film production activity would include one episodic television production with $22 million in-state spending and five $10-million film productions with $6 million in-state spending.

The estimates for film production activity under the proposed expansion assume the same current film activity, plus two $40-million productions and one $100-million production. Based on the studio budget information, the Department was able to determine the amount of eligible spending attributable to each film, including the spending on fringe benefits and per diems, which are included as eligible expenses under the bill. Fiscal Research agrees with the Department's analysis.

Based on the expected production cycles of the films, and the amount of eligible expenses incurred for each, there is no expected fiscal impact in FY 10-11, a revenue loss of $14.4 million in FY 11-12 and $4.9 million in FY 12-13.

Part III: This section would provide a 10% to 20% tax credit for eligible expenses related to the production of digital interactive media productions. The credit is taken against the income or franchise tax; the maximum credit for a single production is $7.5 million. IDM credits may not exceed 50% of tax liability and unused credit can be carried forward for 8 years.

Based on discussions with industry representatives, there are approximately thirty companies in North Carolina that would potentially qualify for the credit. Production cycles average from one to three years and expenses range from $200,000 to several million per production.

A simulation was developed to explore the potential fiscal impact of the credit. Because of the duration of the production cycle, it is unexpected that any productions would qualify for the credit in FY 2010-11. The simulation assumes a total of $30 million annually (an average of $1 million per company) in qualified expenditures beginning in FY 2011-12 with credits taken evenly over a period of nine years (initial tax year, plus eight carryforward years). The average credit rate percentage is assumed to be 15%

Based on these assumptions, the following fiscal impacts result:

Interactive Digital Media Fiscal Impacts Based on Simulation				
FY 2010-11	FY 2011-12	FY 2012-13	FY 2013-14	FY 2014-15
$0.0	-$0.5	-$1.0	-$1.5	-$2.0

Part IV: Reduces General Fund availability by roughly $25,000 per fiscal year. In addition to the state impact, expanding the definition of agencies eligible for a sales and use tax refund under G.S. 105-164.14(c) would reduce local sales and use tax revenue by roughly $5,000 each year.

Part V: The estimate for extending the credit for recycling oyster shells is based on estimates in the 2009 Department of Revenue Tax Expenditure Report. Based on past experience, the credit costs less than $100,000 per year.

Part VI: Section 6.1 would designate certain Eco-Industrial Parks as Tier One economic development projects. If such a Park were located in a Tier Two or Three County, this new designation would change their status and requirements for grants from the Job Development Investment Grant (JDIG), the Industrial Fund, the Utility Fund, and the Article 3J Tax Credits for Growing Businesses. At this point, it is not known how many parks exist or where they are located, so Fiscal Research cannot provide an estimate as to the potential impact. It is expected that there would be no impact in FY 2010-11 and FY 2011-12.

Section 6.2 requires that the Green Business Fund give priority to projects in an Eco-Industrial Park. Additionally, it allows Commerce to create a cap on the grant size and allows Commerce to require matching funds for the grant, except for those grants given to Eco-Industrial Parks. This section would change the way Green Business Fund grants are prioritized; however the Fund did not receive an appropriation for FY 2010-11 or future years. This section will have no impact until such time as the Green Business Fund receives an appropriation.

Section 6.3 gives priority for JDIG awards to projects that are Eco-Industrial Parks. This section would change the way JDIG grants are prioritized but will not have an impact on appropriations.

Section 6.4 would give Eco-Industrial Parks a ceiling of $5 million for renewable energy tax credits per installation for renewable energy property that is placed in service in a certified Eco-

Industrial Park for non-residential purposes. Fiscal Research does not have an estimate as to how many Eco-Industrial Parks might qualify and for what amount of credit.

Section 6.5 adds language to G.S. 105-129.16D(d) to repeal the credit for constructing renewable fuel facilities for facilities in a certified Eco-Industrial Park in service after January 1, 2012. Fiscal Research does not have an estimate for this section but anticipates the impact to be minimal.

Part VII: Although some fiscal impact would result if assessments for wood-chipping equipment are pending, the amount is expected to be minimal.

Part VIII: Low-Profit Limited Liability Company

The proposed committee substitute provides that a low-profit limited liability (L3C) company is a limited liability company (LLC) under North Carolina law. Low-profit limited liability companies (L3Cs) have been proposed as a means for encouraging investment in struggling business enterprises. Under this theory, non-profit organizations that are required to spend a certain percentage of their assets each year to maintain their non-profit status would invest in L3Cs that have some social purpose. If structured correctly, it is possible that the IRS could treat this investment as a program-related investment that would count towards the percentage that must be spent in order to maintain non-profit status. Because non-profits do not face the same pressures as for-profit investors, the theory states that non-profits would be willing to accept a lower rate of return than would be required for a for-profit investor. Struggling businesses might then be able to stay in business, providing jobs to employees and other community benefits, because the pressure to produce market-rate profit levels had been removed. One of the benefits of L3Cs is that no special legal structure, other than the LLC structure, is needed to establish an L3C.

Low Profit Limit Liability Companies will be a new category of business entity in North Carolina. The agency estimates that it will incur $30,000 in one-time start-up costs for programming. This programming will require a month of work and include the following technical changes that are necessary to include this category in the agency's system: 1) amend the LLC profile to include the low profit corporate ending (L3C) that will be able to be queried; 2) write a document to include certification statement that the entity's purpose satisfies the requirements of 57C-1-03(12a); 3) create a document to be available within agency's Knowledge Base, with all examination/rejection parameters; 4) create a document for placement on the schedule of fees/documents for LLC's online; and 5) provide documents that will be searchable and viewable online under the profile. Additionally, two weeks are required for text development of document at a cost of $50. The agency estimates total one time costs of $30,050 and no additional personnel or recurring funding is required.

As with the Limited Liability Companies (LLC), revenue is anticipated from fees charged to the L3Cs in the amount of $125 per entity upon organization, and $200 per entity for the annual reporting fee. However, these fees will be deposited into the General Fund and not into the agency's budget as a receipt. Therefore, an appropriation would be required to provide the $30,050 in one time costs. However, as this is a new category of business entity, neither the Department of the Secretary of State nor the Fiscal Research Division (FRD) has been able to determine the number of business entities that may be established.

Part IX: DNA Database

The Administrative Office of the Courts (AOC) reports that based on the current number and rate of offender compliance in criminal judgments, the new $3.00 fee on criminal cases upon conviction for all felonies and misdemeanors could be expected to yield approximately $1.24 million in the first year and $1.65 million in subsequent years. A majority of this revenue would be generated by Chapter 20 (traffic) misdemeanors. The revenue from felony convictions would be minimal in the first year due to the priority order of costs due the State and the number of probationers who take more than one year to pay all fees owed or who are revoked prior to paying all fees. Revenue from felony convictions would increase slightly in the second and subsequent years.

Room 544, Legislative Office Building

MINUTES

The Senate Finance Committee met at 1:00 PM on July 7, 2010, in Room 544 of the Legislative Office Building. Thirty-four members of the committee were present. Senator Clodfelter presided as chair.

Senator Clodfelter thanked Senators Albertson, Soles, Shaw and Boseman for their service to the Senate Finance Committee.

H.B. 1905 – Fire Safe Cigarettes

Representative Insko was recognized to bill which amends the Fire-Safety Standard and Firefighter Protection Act to codify that the $250 fee paid by cigarette manufacturers to the Commissioner of Insurance will be paid for each "brand style" and not for each certification form. The bill also requires that the form describe the brand style and defines the term "brand style". Senator Purcell moved for a favorable report and the motion carried. A copy of the bill, the summary and the fiscal note is attached.

H.B. 1944 – Bermuda Run Debt Collection/Gates & Fences

Representative Howard was recognized to explain the bill. It authorizes the Town of Bermuda Run to assess gate operation and maintenance fees and to place liens on real property for unpaid fees that may be collected as delinquent property taxes. Senator Tillman moved for a favorable report and the motion carried. A copy of the bill and the summary is attached.

H.B. 1717 – Modernization of the State ABC System

Representative Warren and Senator Vaughan were recognized to explain the bill. Senator Jenkins moved to adopt the proposed committee substitute (PCS) for discussion and the motion carried. The PCS would make a number of changes to the State's ABC laws, many of which were recommended by a joint legislative study committee on Alcoholic Beverage Control issues. It does not change any ABC permit fees or taxes. The PCS would reinsert into the bill changes to G.S. 18B-1213 concerning the obligations of the purchaser of a winery. It also amends the definition of winery in Section 26. These two sections would become effective September 15, 2010 and apply to all existing wine distribution agreements. The changes would not apply to an administrative action pending before the ABC Commission or to pending litigation or claims that accrued before the effective date of the act. Cindy Avrette, a staff attorney with the Research Division, was recognized to explain the PCS's change in bonding. Tina Hall, a Rowan County Commissioner, spoke in opposition to Section 28 which limits the Rowan ABC Board appointments and the county's authority. Jon Williams, the ABC Commission Chair, was recognized to answer questions. Senator Hartsell moved for a favorable report and the motion carried. A copy of the PCS, the summary and the fiscal memo is attached.

The meeting adjourned at 2:29 PM.

HOUSE BILL 1905:
Fire Safe Cigarettes

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	July 7, 2010
Introduced by:	Reps. Insko, England	**Prepared by:**	Cindy Avrette Committee Counsel
Analysis of:	First Edition		

SUMMARY: ***House Bill 1905 amends the Fire-Safety Standard and Firefighter Protection Act to codify that the $250 fee paid by cigarette manufacturers to the Commissioner of Insurance will be paid for each "brand style" and not for each certification form. HB 1905 requires that the form describe the brand style and defines the term "brand style".***

House Bill 1905 is a recommendation of the Public Health Study Commission. The companion bill, Senate Bill 1338, introduced by Sen. Purcell, was given a favorable report in Senate Commerce and is currently in Senate Finance.

CURRENT LAW: The Fire-Safety Standard and Firefighter Protection Act was enacted by the General Assembly in 2007, and became effective January 1, 2010.[1] The Act requires all cigarettes sold in North Carolina to be made with a special type of paper that slows the rate at which the cigarette burns to lessen the risk of a cigarette igniting bedding or other surfaces.

Each manufacturer must submit to the Commissioner of Insurance a written certification that the cigarette has been tested and meets the performance standards required by the Act. The certification must include the cigarette's brand name; style; length and circumference; flavor; filter or non-filter; package description; marking under the Act; name, address, and telephone number of the laboratory; and date of testing. The fee for each certification form is $250. Each cigarette must be recertified every three years. The fees are deposited into a nonreverting fund established in the State treasury. The fund is available to the Commissioner solely to support processing, testing, enforcement and oversight activities. The Commissioner is given the authority to annually adjust the fee to ensure that it defrays the actual costs to support the above activities.

BILL ANALYSIS: House Bill 1905 requires that each cigarette listed in the certification be described with the brand style and defines the term "brand style". House Bill 1905 also requires that a manufacturer pay the $250 fee for each brand style listed in a certification. Current law requires that the fee be paid for each certification form, and that each cigarette that is certified be recertified every three years. According to the Department of Insurance, it has been collecting the fee for each brand style. House Bill 1905 codifies this practice.

"Brand style" is defined as a variety of cigarettes distinguished by the tobacco used, tar and nicotine content, flavoring used, size of the cigarette, filtration on the cigarette, or packaging.

EFFECTIVE DATE: July 1, 2010.

Tim Hovis, counsel to Senate Commerce, and Martha Walston, counsel to House Finance, substantially contributed to this summary.

BILL SUMMARY:

House Bill 1905 amends the Fire-Safety Standard and Firefighter Protection Act to codify that the $250 fee paid by cigarette manufacturers to the Commissioner of Insurance will be paid for each "brand style" and not for each certification form. Under current law, manufacturers must submit a certification form describing the cigarette, including the style of the cigarette.

The bill also adds a definition of "brand style" to define the term as "a variety of cigarettes distinguished by the tobacco used, tar and nicotine content, flavoring used, size of the cigarette, filtration of the cigarette, or packaging." The bill makes other conforming changes.

BACKGROUND INFORMATION:

The Fire-Safety Standard and Firefighter Protection Act was enacted by the General Assembly in 2007, and became effective January 1, 2010. The Act requires all cigarettes sold in North Carolina

to be made with a special type of paper that slows the rate at which the cigarette burns to lessen the risk of a cigarette igniting bedding or other surfaces.

Each manufacturer must submit to the Commissioner of Insurance a written certification that the cigarette has been tested and meets the performance standards required by the Act. The certification must include the cigarette's brand name; style; length and circumference; flavor; filter or non-filter; package description; marking under the Act; name, address, and telephone number of the laboratory; and date of testing.

The fee for each certification form is $250 and each cigarette must be recertified every three years. The fees are deposited into a nonreverting fund established in the State treasury. The fund is available to the Commissioner solely to support processing, testing, enforcement and oversight activities. The Commissioner is given the authority to annually adjust the fee to ensure that it defrays the actual costs to support the above activities.

ASSUMPTIONS AND METHODOLOGY:

Revenue
HB 1905 clarifies that the $250 fee paid by cigarette manufacturers to the Commissioner of Insurance will be paid for each "brand style" and not for each certification form. Since the cigarette manufacturers are already paying the $250 fee per "brand style," Fiscal Research does not anticipate that the bill will generate any additional revenue.

Administrative Costs
The Department of Insurance anticipates that HB 1905 will have no fiscal impact on its current operations since the bill clarifies and simplifies paperwork for certification by cigarette manufacturers.

A BILL TO BE ENTITLED

AN ACT TO AUTHORIZE THE TOWN OF BERMUDA RUN TO ASSESS GATE OPERATION AND MAINTENANCE FEES AND TO PLACE LIENS ON REAL PROPERTY FOR UNPAID FEES THAT MAY BE COLLECTED AS DELINQUENT PROPERTY TAXES.

The General Assembly of North Carolina enacts:

SECTION 1. The Town of Bermuda Run shall have the authority to assess a fee for the costs of gate operations and fence maintenance on all real property situated in the area of the town which is zoned Club Residential. The fee shall be established annually and incorporated into the local budget ordinance.

SECTION 3. This act is effective when it becomes law. Any unpaid fees previously billed by the Town of Bermuda Run for gate operations and fence maintenance shall be a lien on the real property on which the fees were assessed as of the effective date of this act and may be enforced under the provisions of this act no sooner than 30 days after the date this act becomes law.

HOUSE BILL 1944:
Bermuda Run Debt Collection/Gates & Fences

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	July 7, 2010
Introduced by:	Rep. Howard	**Prepared by:**	Cindy Avrette
Analysis of:	First Edition		Committee Counsel

SUMMARY: House Bill 1944 is a local act that would authorize the Town of Bermuda Run to assess gate operation and maintenance fees and to place liens on real property for unpaid fees that may be collected as delinquent property taxes.

BILL ANALYSIS: House Bill 1944 would permit the Town of Bermuda Run to assess a fee for the costs of gate operations and fence maintenance on all real property situated in the area that is zoned Club Residential. The fee would have to be established annually and incorporated into the local budget ordinance. The fee would be a lien on the real property on which it has been assessed as of the date of the billing of the fee and would be collectable as delinquent property taxes. The lien could not be enforced under collection methods until the fee remains unpaid for 30 days from the date of its initial billing.

Tax collectors may collect delinquent property taxes using the remedies provided in G.S. 105-366 through G.S. 105-375:

- Levy upon and sell or attach personal property.
- Attachment and garnishment of wages and other compensation[1], rents, bank deposits, the proceeds of property subject to levy, or any other intangible property.
- Foreclosure of real property.

EFFECTIVE DATE: This act is effective when it becomes law. Any unpaid fees previously billed by the Town of Bermuda Run for gate operations and fence maintenance would be a lien on the real property on which the fees were assessed as of the effective date of this act and could be enforced under the provisions of this act no sooner than 30 days after the date this act becomes law.

BACKGROUND: Town of Bermuda Run was incorporated July 1, 1999, as a fully gated residential community. (S.L. 1999-94). Bermuda Run is located in Davie County and has a population of 1,470 with an area of 1,094 acres. It currently collects a monthly fee from property owners who either reside in or own property within gated residential neighborhoods in the Town. The fee is applied toward the cost of gate operations and fence maintenance. Some people who are required to pay the fee have not done so. This local act would place a lien on the properties of individuals who refuse to pay the assessment and enable the Town to collect the unpaid assessments using the remedies available to a tax collector for delinquent property taxes. On March 9, 2010, the Town of Bermuda Run passed a resolution requesting that the General Assembly pass this local act.

The General Statutes authorize wages to be garnished by the following governmental entities for the stated purposes[2]:

- Department of Revenue for overdue tax debts. G.S. 105-242.
- DHHS for fraudulent public assistance payments. G.S. 108A-25.3.
- DHHS for child support payments. G.S. 110-136.
- Public hospitals for past due amounts. G.S. 131E-49

[1] The tax collector may not garnish more than 10% of wages and other compensation.

[2] The list may not be exhaustive.

- Counties and cities for delinquent tax debts and solid waste disposal fees: G.S. 153A-147; 153A-293; 160A-207; 160A-314.1.

The General Assembly has passed many local acts[3] granting various local entities the ability to collect past due amounts in the same manner as delinquent property taxes:

- S.L. 1993-768: Durham for delinquent water and sewer fees resulting from leaking pipes or fixtures.
- S.L. 2003-270: Columbus, Davie, Duplin, and Lenoir Counties for unpaid fees for water and sewer service.
- S.L. 2005-441: Clemmons and Kernersville for delinquent stormwater utility fees.
- S.L. 2009-402: Montgomery County for unpaid fees for water and sewer services.
- House Bill 1736 (passed 2nd and 3rd reading in the Senate 7/6/10): Locust, New London, and Stanfield for unpaid fees for sewer services.

Brad Krehely and Martha Walston substantially contributed to this summary.

SECTION 2. G.S. 18B-201 reads as rewritten:

"**§ 18B-201. Conflict of ~~interest.~~interest; gifts.**

(a) Financial Interests Restricted. – No person shall be appointed to or employed by the Commission, a local board, or the ALE Division if that person or a member of that person's family related to that person by blood or marriage to the first degree has or controls, directly or indirectly, a financial interest in any commercial alcoholic beverage enterprise, including any business required to have an ABC permit. The Commission may exempt from this provision any person, other than a Commission member, when the financial interest in question is so insignificant or remote that it is unlikely to affect the person's official actions in any way. Exemptions may be granted only to individuals, not to groups or classes of people, and each exemption shall be in writing, be available for public inspection, and contain a statement of the financial interest in question.

(b) Self-dealing. – The provisions of G.S. 14-234 shall apply to the Commission and local boards.

(c) Dealing for Family Members. – Neither the Commission nor any local board shall contract or otherwise deal in any business matter so that a member, member's spouse or any person related to ~~him~~ the member by blood to a degree of first cousin or closer in any way financially benefits, directly or indirectly, from the transaction unless:

(3) The next annual audit of the Commission or local board specifically notes the member and the amount involved in each transaction occurring during the year covered by the audit; and

(4) If the transaction is by a local board, the Commission is notified at least two weeks before final board approval of the transaction.

(d) Gifts Generally. – The provisions of G.S. 133-32 shall apply to the Commission and local boards.

(e) Conflicts of Interest for the Commission. – The provisions of Article 4 of Chapter 138A of the General Statutes shall apply to the Commission.

(f) Conflicts of Interest for Local Boards. – Except as permitted under subsection (h) of this section, a local ABC board member shall not knowingly use the local ABC board member's position on the board in any way that will result in financial benefit to the local ABC board member, the local ABC board member's spouse, any person related to the local ABC board

member by blood to a degree of first cousin or closer, or any business with which the local ABC board member is associated.

(g) For purposes of subsection (f) of this section, 'business with which associated' shall have the same meaning as in G.S. 138A-3(3). For purposes of this section, 'financial benefit' shall mean a direct pecuniary gain or loss, or a direct pecuniary loss to a business competitor.

(h) Notwithstanding subsection (f) of this section, a local ABC board member may participate in an action of the local ABC board under any of the following circumstances except as specifically limited:

(1) The financial benefit that accrues to the local ABC board member, the local ABC board member's spouse or any person related to the local ABC board member by blood to a degree of first cousin or closer, or a business with which the local ABC board member is associated is one that is accrued as a member of a profession, occupation, or general class and is no greater than that which could reasonably be foreseen to accrue to all members of that profession, occupation, or general class.

(2) The financial benefit derived by a local ABC board member, the local ABC board member's spouse or any person related to the local ABC board member by blood to a degree of first cousin or closer, or a business with which the local ABC board member is associated is one that would be enjoyed to an extent no greater than that which other citizens of the State would or could enjoy.

(3) The financial benefit derived by a local ABC board member, the local ABC board member's spouse or any person related to the local ABC board member by blood to a degree of first cousin or closer, or a business with which the local ABC board member is so remote, tenuous, insignificant, or speculative that a reasonable person would conclude under the circumstances that the local ABC board member's ability to protect the public interest and perform the local ABC board member's duties would not be compromised.

(4) When an action affects or would affect the local ABC board member's compensation as a local ABC board member.

(5) Before the local ABC board member participated in the action, the board member requested and received from the ABC Commission a written advisory opinion that authorized the participation. In authorizing the participation under this subdivision, the ABC Commission shall consider the need for the local ABC board member's particular contribution, such as special knowledge of the subject matter and the effective functioning of the local ABC board.

(6) When action is ministerial only and does not require the exercise of discretion.

(7) When the local ABC board records in its minutes that it cannot obtain a quorum in order to take the action because the local ABC board member is disqualified from acting, the local ABC board member may be counted for purposes of a quorum but shall otherwise abstain from taking any further action.

(i) Nothing in this section shall allow participation in an action prohibited by G.S. 14-234 or G.S. 133-32.

(j) A local board member shall not improperly use or improperly disclose any confidential information.

(k) A local board member shall have an affirmative duty to promptly disclose in writing to the local board any conflict of interest or potential conflict of interest."

SECTION 3. G.S. 18B-202 reads as rewritten:

In addition to imposing any other penalty authorized by law, a judge may remove from office or discharge from employment any Commission or local board member or employee, or any ALE agent, who is convicted of a violation of any provision of this Chapter or of any felony and may declare that person ineligible for membership or employment with the Commission, any local board, or the ALE Division, for a period of not longer than three years. Conviction of a crime under this Chapter or of any felony shall also be grounds for the Commission to remove from office or discharge from employment any local board member or employee. In addition to imposing any other penalty authorized by law, a judge may prohibit an individual convicted of a violation of this Chapter, or of any felony, from participating in any contract to enforce the ABC laws for a local board if that individual is a designated officer of an agency which holds a contract to enforce the ABC laws for a local board. A judge may also prohibit an individual convicted of a violation of this Chapter, or of any felony, from being designated as an officer that enforces the ABC law under a contract with any local board for a period of not longer than three years."

SECTION 4. G.S. 18B-203(a) is amended by adding new subdivisions to read:

If personal attendance is required, the Commission shall not require more than four hours of training and shall provide up to two hours of training at convenient locations around the State in conjunction with ethics training.

(22) Provide for the purchase of spirituous liquor from another ABC board by mixed beverage permittees when an ABC system becomes insolvent, closes, or is closed by the Commission and the county or municipality in which the system is located has approved the sale of mixed beverages."

SECTION 5. G.S. 18B-501(f) reads as rewritten:

"(f) Contracts with Other Agencies. – Instead of hiring local ABC officers, a local board may contract to pay its enforcement funds to a sheriff's department, city police department, or other local law-enforcement agency for enforcement of the ABC laws within the law-enforcement agency's territorial jurisdiction. Enforcement agreements may be made with more than one agency at the same time. When such a contract for enforcement exists, the designated officers of the contracting law-enforcement agency shall have the same authority to inspect under G.S. 18B-502 that an ABC officer employed by that local board would have. An agency contracted to provide ABC law enforcement shall designate no more than five officers to conduct inspections pursuant to this section and G.S. 18B-502. If a city located in two or more counties approves the sale of some type of alcoholic beverage pursuant to the provisions of G.S. 18B-600(e4), and there are no local ABC boards established in the city and one of the counties in which the city is located, the local ABC board of any county in which the city is located may enter into an enforcement agreement with the city's police department for enforcement of the ABC laws within the entire city, including that portion of the city located in the county of the ABC board entering into the enforcement agreement."

SECTION 6. G.S. 18B-501 is amended by adding a new subsection to read:

"(f1) Accountability; Enforcement Reports. – To ensure accountability to the appointing authority and the Commission, every local board's ABC officers and those law enforcement agencies subject to an enforcement agreement entered into pursuant to subsection (f) of this section shall report to the local board, by the fifth business day of each month, on a form developed by the Commission, the following:

(1) The number of arrests made for ABC law, Controlled Substance Act, or other violations, by category, at ABC permitted outlets.

(2) The number of arrests made for ABC law, Controlled Substance Act, or other violations, by category, at other locations.

(3) The number of agencies assisted with ABC law or controlled substance related matters.

(4) The number of alcohol education and responsible server programs presented.

The local board shall submit a copy of the enforcement report to the appointing authority and the Commission not later than five business days after receipt of the enforcement report by the local board. The Commission shall publish this information, by local board and enforcement agency, on a public Internet Web site maintained by the Commission."

SECTION 7. G.S. 18B-501(g) reads as rewritten:

"(g) Discharge. – Local ABC officers and the designated officers of agencies which contract with local boards for enforcement of the ABC laws are subject to the discharge and ineligibility provisions of G.S. 18B-202."

SECTION 7.1. G.S. 18B-600(d) reads as rewritten:

"(d) City ABC Store Elections. – A city may hold an ABC store election only if:

(1) The city has at least ~~500~~ 1,000 registered voters; and

(2) The county in which the city is located does not operate ABC stores."

SECTION 8. G.S. 18B-600(e) reads as rewritten:

"(e) City Mixed Beverage Elections. – A city may hold a mixed beverage election ~~only if:~~if the city has at least 500 registered voters. Provided, that if a city that qualifies for an election under this subsection approves the sale of mixed beverages, mixed beverages permittees in the city may purchase liquor from the ABC store designated by the local ABC board that has been approved by the Commission for this purpose.

~~(1) The city has at least 500 registered voters; and~~

~~(2) Either:~~

~~a. The city already operates a city ABC store; or~~

~~b. A city ABC store election is to be held at the same time as the mixed beverage election; or~~

~~c. The city does not operate a city ABC store but:~~

~~1. The county operates an ABC store;~~

~~2. The county has already held a mixed beverage election; and~~

~~3. The vote in the last county election was against the sale of mixed beverages.~~"

SECTION 9. G.S. 18B-700(a) reads as rewritten:

"(a) Membership. – A local ABC board shall consist of three or five members appointed for three-year ~~terms, unless a different membership or term is provided by a local act enacted before the effective date of this Chapter, or~~ terms unless the board is a board for a merged ABC system under G.S. 18B-703 and a different size membership has been provided for as part of the negotiated merger. ~~One~~ If the board is a three-member board, one member of the initial board of a newly created ABC system shall be appointed for a three-year term, one member for a two-year term, and one member for a one-year term. If the board is a five-member board, one member of the initial board of a newly created ABC system shall be appointed for a three-year term, two members for two-year terms, and two members for one-year terms. As the terms of initial board members expire, their successors shall each be appointed for three-year terms. If a

SECTION 11. G.S. 18B-700(g) reads as rewritten:

"(g) ~~Salary.~~Compensation of Board Members. – A local board member ~~may be compensated as determined by the appointing authority.~~shall receive compensation in an amount not to exceed one hundred fifty dollars ($150.00) per board meeting unless a different level of monetary compensation is approved by the appointing authority. If a different level is approved by the appointing authority, the appointing authority shall notify the Commission of the approved level of compensation in writing. Any change in compensation approved by the appointing authority shall be reported to the Commission in writing within 30 days of the effective date of the change. No local board member shall receive any nonmonetary compensation or benefits unless specifically authorized by this section."

SECTION 12. G.S. 18B-700 is amended by adding a new subsection to read:

(a) Generally. – A local board may transact business as a corporate body, except as limited by this section. A local board shall not be considered a public authority under G.S. 159-7(b)(10).

(b) Budget Officer. – The general manager of the local board shall be the budget officer for the local board. In the absence of a general manager, a local board may impose the duties of

budget officer on the chairman or any member of the local board or any other employee of the board.

(c) Annual Balanced Budget. – Each local board shall operate under an annual balanced budget administered in accordance with this section. A budget is balanced when the sum of estimated gross revenues and both restricted and unrestricted funds are equal to appropriations. Expenditures shall not exceed the amount of funds received or in reserve for the purpose to which the funds are appropriated. It is the intent of this section that all monies received and expended by a local board should be included in the budget. Therefore, notwithstanding any other provision of law, no local board may expend any monies, regardless of their source, except in accordance with a budget adopted under this section. The budget of a local board shall cover a fiscal year beginning July 1 and ending June 30.

(d) Preparation and Submission of Budget and Budget Message. – Upon receipt of the budget requests and revenue estimates and the financial information supplied by the finance officer, the budget officer shall prepare a budget for consideration by the local board in such form and detail as may have been prescribed by the budget officer or the local board. The budget, together with a budget message, shall be submitted to the local board, the appointing authority, and the Commission not later than June 1. The budget and budget message should, but need not, be submitted at a formal meeting of the board. The budget message should contain a concise explanation of the goals fixed by the budget for the budget year, explain important features of the activities anticipated in the budget, set forth the reasons for stated changes from the previous year in appropriation levels, and explain any major changes in fiscal policy.

(e) Filing and Publication of the Budget. – On the same day the budget officer submits the budget to the local board, the budget officer shall make a copy for public inspection, and it shall remain available for public inspection until the budget is adopted. The budget officer shall make a copy of the budget available to all news media in the county. The budget officer shall also publish a statement that the budget has been submitted to the local board and is available for public inspection in the office of the general manager of the local board. The statement shall also give notice of the time and place of the budget hearing required by subsection (f) of this section.

(f) Budget Hearings. – Before adopting the budget, the board shall hold a public hearing at which time any persons who wish to be heard on the budget may appear.

The budget shall authorize all financial transactions of the local board. The budget may be in any form that the board considers most efficient in enabling it to make the fiscal policy decisions embodied therein, but it shall make appropriations by department, function, or project and show revenues by major source. The following directions and limitations shall bind the local board in adopting the budget:

(1) The full amount estimated by the finance officer to be required for debt service during the budget year shall be appropriated.

Gross sales means gross receipts from the sale of alcoholic beverages less distributions as defined in G.S. 18B-805(b)(2), (3), (4), and (5). Any expenditure to be charged against working capital funds shall be authorized by resolution of the local board, which resolution shall be deemed an amendment to the

budget setting up an appropriation for the object of expenditure authorized. The local board may authorize the budget officer to authorize expenditures from working capital funds subject to such limitations and procedures as it may prescribe. Any such expenditure shall be deemed an amendment and reported to the board at its next regular meeting and recorded in the minutes.

(4) Estimated revenues shall include only those revenues reasonably expected to be realized in the budget year.

(5) Sufficient funds to meet the amounts to be paid during the fiscal year under continuing contracts previously entered into shall be appropriated unless such contract reserves to the local board the right to limit or not to make such appropriation.

(6) The sum of estimated net revenues and appropriated fund balance in each fund shall be equal to appropriations in that fund. Appropriated fund balance in a fund shall not exceed the sum of cash and investments minus the sum of liabilities, encumbrances, and deferred revenues arising from cash receipts, as those figures stand at the close of the fiscal year next preceding the budget year.

The budget shall be entered in the minutes of the local board and within five days after adoption, and copies thereof shall be filed with the finance officer, the budget officer, the appointing authority, and the Commission.

(h) Amendments to the Budget. – Except as otherwise restricted by law, the local board may amend the budget at any time after adoption, in any manner, so long as the budget, as amended, continues to satisfy the requirements of this section. The local board by appropriate resolution may authorize the budget officer to transfer monies from one appropriation to another within the same fund subject to such limitations and procedures as it may prescribe. Any such transfers shall be reported to the local board at its next regular meeting and shall be entered in the minutes. Amendments to the adopted budget shall also be provided to the appointing authority and the Commission.

(i) Interim Budget. – In case the adoption of the budget is delayed until after July 1, the local board shall make interim appropriations for the purpose of paying salaries, debt service payments, and the usual ordinary expenses of the local board for the interval between the beginning of the budget year and the adoption of the budget. Interim appropriations so made shall be charged to the proper appropriations in the adopted budget.

(j) Finance Officer. – Except as otherwise provided, the local board shall designate (i) a part-time or full-time employee of the board other than the general manager or (ii) the finance officer of the appointing authority with consent of the appointing authority to be the finance officer for the local board. The Commission, for good cause shown, may allow the general manager of a board also to be the finance officer. Good cause includes, but is not limited to, the fact that the board operates no more than two stores, and any approval for the general manager also to be the finance officer shall apply until the board operates more than two stores; in any event, the approval shall be effective for 36 months.

The system shall also be designed to show appropriations and estimated revenues as established in the budget originally adopted and subsequently amended.

(m) Incurring Obligations. – No obligation may be incurred in a program, function, or activity accounted for in a fund included in the budget unless the budget includes an appropriation authorizing the obligation and an unencumbered balance remains in the appropriation sufficient to pay in the current fiscal year the sums obligated by the transaction for the current fiscal year. No obligation may be incurred for a capital project unless the budget authorizes the obligation and an unencumbered balance remains in the appropriation sufficient to pay the sums obligated by the transaction. If an obligation is evidenced by a contract or agreement requiring the payment of money or by a purchase order for supplies and materials, the contract, agreement, or purchase order shall include on its face a certificate stating that the instrument has been preaudited to assure compliance with this subsection. The certificate, which shall be signed by the finance officer or any deputy finance officer approved for this purpose by the local board, shall take substantially the following form:

"This instrument has been preaudited in the manner required by G.S. 18B-702.

An obligation incurred in violation of this subsection is invalid and may not be enforced. The finance officer shall establish procedures to assure compliance with this subsection.

(n) Disbursements. – When a bill, invoice, or other claim against a local board is presented, the finance officer shall either approve or disapprove the necessary disbursement. If the claim involves a program, function, or activity accounted for in a fund included in the budget or a capital project or a grant project authorized by the budget, the finance officer may approve the claim only if:

(1) The finance officer determines the amount to be payable; and

(2) The budget includes an appropriation authorizing the expenditure and either (i) an encumbrance has been previously created for the transaction or (ii) an unencumbered balance remains in the appropriation sufficient to pay the amount to be disbursed.

A bill, invoice, or other claim may not be paid unless it has been approved by the finance officer or, under subsection (o) of this section, by the local board. The finance officer shall establish procedures to assure compliance with this subsection.

(o) Local Board Approval of Bills, Invoices, or Claims. – The local board may, as permitted by this subsection, approve a bill, invoice, or other claim against the local board that has been disapproved by the finance officer. It may not approve a claim for which no appropriation appears in the budget, or for which the appropriation contains no encumbrance

and the unencumbered balance is less than the amount to be paid. The local board shall approve payment by formal resolution stating the board's reasons for allowing the bill, invoice, or other claim. The resolution shall be entered in the minutes together with the names of those voting in the affirmative. The chairman of the board or some other member designated for this purpose shall sign the certificate on the check or draft given in payment of the bill, invoice, or other claim. If payment results in a violation of law, each member of the board voting to allow payment is jointly and severally liable for the full amount of the check or draft given in payment.

(p) Checks or Drafts Signed by Finance Officer. – Except as otherwise provided by law, all checks or drafts on an official depository shall be signed by the finance officer or a properly designated deputy finance officer. The chairman of the local board or general manager of the local board shall countersign these checks and drafts. The Commission may waive the requirements of this subsection if the board determines that the internal control procedures of the unit or authority will be satisfactory in the absence of dual signatures.

(q) Payment of a Bill, Invoice, Salary, or Claim. – A local board may not pay a bill, invoice, salary, or other claim except by a check or draft on an official depository or by a bank wire transfer from an official depository. Except as provided in this subsection, each check or draft on an official depository shall bear on its face a certificate signed by the finance officer or a deputy finance officer approved for this purpose by the local board (or signed by the chairman or some other member of the board pursuant to subsection (o) of this section). The certificate shall take substantially the following form:

"This disbursement has been approved in the manner required by G.S. 18B-702.

No certificate is required on payroll checks or drafts on an imprest account in an official depository if the check or draft depositing the funds in the imprest account carried a signed certificate. No certificate is required for expenditures of fifty dollars ($50.00) or less from a petty cash fund, provided the expenditure is accounted for by a receipt for the expended item.

The Commission may vary these rules and regulations according to any other criteria reasonably related to the purpose or complexity of the financial operations involved. The Commission has the authority to inquire into and investigate the internal control procedures of a local board and may require any modifications in internal control procedures which, in the opinion of the Commission, are necessary or desirable to prevent embezzlements or mishandling of public monies.

HOUSE BILL 1717:
Modernization of the State ABC System

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	July 7, 2010
Introduced by:	Reps. R. Warren, Bell, Lucas	**Prepared by:**	Cindy Avrette
Analysis of:	PCS to Fifth Edition H1717-CSMA-39		Committee Counsel

SUMMARY: House Bill 1717[1] makes a number of changes to the State's ABC laws, many of which were recommended by a joint legislative study committee on Alcoholic Beverage Control issues. The bill does not change any ABC permit fees or taxes.

The proposed committee substitute would reinsert into the bill changes to G.S. 18B-1213 concerning the obligations of the purchaser of a winery, in Section 25 of the PCS. It also amends the definition of winery in Section 26. These two sections would become effective September 15, 2010, and apply to all existing wine distribution agreements. The changes would not apply to an administrative action pending before the ABC Commission or to pending litigation or claims that accrued before the effective date of the act.

BILL ANALYSIS: **Section 1** of the bill would provide definitions for the finance officer and the general manager of local ABC boards. The finance officer is the person responsible for keeping the accounts of the local board, including receiving and depositing receipts and disbursing funds. The general manager is the person responsible for the oversight of daily operations of the ABC system. *(Note: Section 18 of the bill requires the local board to designate an employee other than the general manager to be the finance officer of the local board. For good cause, the Commission may allow the board's general manager to also be the finance officer.)*

Section 2 of the bill would amend the law pertaining to conflicts of interest and gifts. Current law prohibits a person who has a financial interest in a commercial ABC enterprise from being appointed to or employed by the State ABC Commission, a local board, or the Alcohol Law Enforcement (ALE) Division, and current criminal prohibitions against public officers or employees benefiting from public contracts apply to the ABC Commission and local ABC boards. The bill would apply the provisions of G.S. 133-32 to the ABC Commission and local ABC boards, making it unlawful for contractors or suppliers who have or seek to have a contract with the Commission or local board to make gifts or to give favors to any Commission or local board officers or employees; it would also be unlawful for an officer or employee to accept such gifts. The bill would make the ABC Commission subject to the Ethical Standards of the State Ethics Acts, which prohibits the use of public position for private gain, prohibits certain gifts and other compensation, prohibits the use of information for private gain, and sets other rules of conduct for public servants. The bill would provide specific guidelines pertaining to conflicts of interest for local ABC boards, prohibiting a local board member from knowingly using his or her position in a manner that would result in financial benefit to the local board member, to his or her spouse or near relative, or to any business with which the local board member is associated. The bill would prohibit a local board member from improperly using or disclosing any confidential information, and would impose an affirmative duty on every local board member to promptly disclose in writing to the local board any actual or potential conflict of interest.

Section 3 of the bill would amend the law concerning judicial authority to remove from office or discharge from employment any Commission or local board member or employee, or any ALE agent

[1] As introduced, this bill was identical to S1112, as introduced by Sen. Vaughan, which is currently in Senate Judiciary II.

who violates the State's alcohol laws or commits any felony. The bill would make the discharge provision applicable to local law enforcement officers who serve as the designated officer of an agency which holds a contract to enforce the ABC laws for a local board, giving the judge authority to prohibit the officer from being designated as an officer that enforces the ABC law, for a period up to 3 years.

Section 4 of the bill would give the ABC Commission authority to adopt rules to establish performance standards for local boards, including standards that address enforcement of ABC laws, store appearance, operating efficiency, solvency, and customer service. The Commission would also have authority to adopt rules setting mandatory training requirements for local board members, finance officers, and general managers and to provide for the purchase of liquor from another ABC board by mixed beverage permittees when an ABC system becomes insolvent or closes.

Section 5 of the bill would limit the number of officers that a contracting law enforcement agency may designate to conduct inspections of ABC-licensed premises. Under current law, instead of hiring local ABC officers a local board may contract to pay its enforcement funds to a local law enforcement agency for enforcement of the ABC laws within the agency's territorial jurisdiction. Officers of contracting law enforcement agencies have the same authority to inspect that an ABC officer employed by that local board would have, including viewing the entire premises and examining the books and records of the permittee. The bill would require that a contracting law enforcement agency designate not more than five officers to conduct ABC inspections. The effective date clause of the PCS would preserve local acts applicable to Greensboro and Charlotte.

Section 6 of the bill would require local board ABC officers and law enforcement agencies subject to enforcement agreements with a local board to provide monthly reports to the local board, including information on the number of arrests made for ABC law and controlled substance violations and other violations at ABC-permitted outlets and other locations, the number of agencies assisted with ABC law or controlled substance related matters, and the number of alcohol education and responsible server programs presented. The local board would be required to submit a copy of the report to its appointing authority and to the ABC Commission; and the ABC Commission would be required to publish the information on a public Internet website. This section would become effective January 1, 2011.

Section 7 of the bill would make a conforming change to the statute pertaining to local ABC officers, making it clear that designated officers of agencies that contract with local boards for enforcement of the ABC laws are subject to statutory provisions concerning discharge from those duties.

Section 7.1 of the bill would require that a city have at least 1,000 registered voters to hold an ABC store election. The current threshold is 500 registered voters.

Section 8 of the bill would allow any city that has at least 500 registered voters to hold a mixed beverage election. It would eliminate the current requirement that the city already operate a city ABC store in order to hold the mixed beverage election or if not, the county either operates an ABC store or has already held a mixed beverage election and the vote was against the sale of mixed beverages.

Section 9 of the bill would amend the law concerning the membership of local ABC boards. The bill provides that a local ABC board may consist of 3 or 5 members and provides for staggered terms.

Section 10 of the bill would define the mission of local ABC boards and their employees: controlling the sale of spirituous liquor and promoting customer-friendly, modern, and efficient stores.

Section 11 of the bill would limit the compensation of local ABC board members to not more than $150 per meeting, unless a different level of monetary compensation is approved by the board's appointing authority. If a different level of compensation is approved, the appointing authority would be required to provide written notice to the ABC Commission.

Section 12 of the bill would limit the compensation of general managers of local ABC boards. The salary authorized for the board's general manager could not exceed the salary authorized by the General Assembly for the clerk of superior court of the county in which the appointing authority was originally incorporated. Under G.S. 7A-101, the salaries of clerks of superior court are based on the population of the county, according to the following schedule:

Population	Annual Salary
Less than 100,000	$ 82,401
100,000 to 149,999	92,468
150,000 to 249,999	102,536
250,000 and above	112,607

The bill provides that a different level of monetary compensation may be approved by the board's appointing authority. If a different level of compensation is approved, the appointing authority would be required to provide written notice to the ABC Commission. The bill provides that no employee of a local board may receive a salary in excess of the amount authorized for the salary of the general manager. This section would become effective October 1, 2010 and apply to general managers and employees hired on or after that date.

Section 13 of the bill provides for members and employees of local ABC boards to be reimbursed for travel on official business in accordance with the statutory travel allowances of State officers and employees. With approval of the appointing authority, a local board may adopt a travel policy that conforms to the travel policy of the appointing authority. The local board would be required to annually provide to the Commission a copy of its travel policy along with the appointing authority's written confirmation of its approval. Excess expenses not covered by the local board's travel policy would be paid only with written authorization of the appointing authority's finance officer, and the local board would be required to submit a copy of the authorization to the ABC Commission within 30 days of approval.

Section 14 of the bill would increase the minimum amount of the bond required for local ABC board members and for the employees designated as the general manager or finance officer of the local board, raising it from $5,000 to $50,000. No board member would be exempt from the requirement, and the appointing authority could require a higher bond amount for any board member or employee who handles board funds

Section 15 of the bill would prohibit members of an immediate family or members of the same household from being employed within a local board if the employment would result in one family or household member supervising another, or if one family or household member would occupy a position that has influence over the employment, promotion, or salary administration of another. The provision would apply to local board members and employees. This section would become effective October 1, 2010 and apply to employees hired on or after that date.

Section 16 of the bill would make the provisions of G.S. 18B-700 regarding the appointment and organization of local ABC boards applicable to all local ABC boards, notwithstanding any local acts that may provide otherwise. This section would become effective October 1, 2011.

Section 17 of the bill would require a local ABC board to comply with all rules adopted by the ABC Commission pursuant to its authority under the State's ABC laws, and to meet all standards set by the Commission for performance and training. Failure to comply with Commission rules would be grounds for removal.

Section 18 of the bill would amend the statute pertaining to the financial operations of local boards. A local board would be required to operate under an annual balanced budget in accordance with provisions in the bill. All monies received and expended by a local board would be included in the budget, and no local board could expend any monies except in accordance with the budget. The general manager of the local board, as budget officer, would prepare a budget for consideration by the local board. The proposed budget would be submitted to the local board, its appointing authority, and the ABC Commission by June 1; and a copy would be made available for public inspection. Before adopting the budget, the board would be required to hold a public hearing. This section of the bill would establish specific directions and limitations that a local board must comply with in adopting its budget. Once the budget is adopted, it must be filed with the board's finance officer and budget officer, the board's appointing authority, and the ABC Commission. The bill provides for amendments to an adopted budget and for an interim budget in case adoption of the budget is delayed until after the start of the fiscal year. The bill requires the local board to designate an employee other than the general manager to be the finance officer of the local board, and sets out the duties and powers of the finance officer. For good cause, the Commission may allow the board's general manager to also be the finance officer. Each local board would be required to establish and maintain an accounting system designed to show in detail its assets, liabilities, revenues, and expenditures. The bill contains specific provisions relative to incurring obligations, disbursements, and local board approval of bills, invoices, or claims. All checks or drafts must be signed by the finance officer or a properly designated deputy finance officer, and countersigned by the chair of the local board or the general manager, except where the requirement for dual signatures is waived by the Commission. Audits and reports currently required to be submitted to the ABC Commission must also be submitted to the local board's appointing authority. The bill would give the ABC Commission specific authority to inquire into and investigate the internal control procedures of a local board, and to require any modifications necessary or desirable to prevent the embezzlement or mishandling of public monies. The finance officer and sureties on the official bond would be liable for any sums committed or disbursed in violation of the law. The provisions pertaining to financial operations of local boards would apply to all local boards, notwithstanding any local acts. This section would become effective May 1, 2011 and apply to local board fiscal years beginning July 1, 2011. The ABC Commission would be required to offer training and education to assist local boards in complying with this section.

Section 19 of the bill would prohibit the ABC Commission or its individual members from attempting to coerce any appointing authority to appoint a particular person as a member of a local board, or attempting to coerce a local board to employ a particular applicant. It would give the ABC Commission authority to remove any member or employee of a local board for disqualification under the law, violation of the ABC laws, failure to complete required training, or engaging in conduct constituting moral turpitude or which brings the local board of the ABC system into disrepute. The bill sets out a removal process that requires written findings of fact upon which the decision for removal is based, and provides for an informal removal hearing before the ABC Commission. The Commission would have authority to discharge the board member or employee if two-thirds of the Commission's members vote for removal. The Commission would have the sole power, in its discretion, to determine if cause exists for removal of a local board member or employee who has requested a hearing before the Commission, and the Commission's decision would be final. The local board member or employee could appeal the Commission's final decision to the Court of Appeals. The standard of review is abuse of discretion, and the sole remedy would be reinstatement with back pay. Awards for back pay would be paid by the local board from which the board member or employee was removed. These provisions would apply to all local boards.

Section 20 of the bill would require the ABC Commission to establish performance standards, and to ensure that all local boards comply with those standards by conducting regular or special audits, performance evaluations, monitoring ABC law enforcement efforts, or taking other measures including inspections by Commission auditors or alcohol law enforcement agents. When a local board fails to meet established performance standards, the Commission would be required to meet with the chair of the local board and the appointing authority and issue a statement of findings. The appointing authority would, in consultation with the Commission, develop and deliver a performance improvement plan to the local board. The plan would include recommendations for improved performance, and state a period of time in which improvements are to occur and what actions will be taken by the Commission if performance standards are not met within the prescribed time limits. The appointing authority may allow no more than 12 months for the local board to implement and show improvement under the plan; however, upon a showing of good cause and in consultation with the ABC Commission, the appointing authority may allow up to an additional 6 month period of time for the local board to meet all requirements in the improvement plan and to establish that performance standards are met. If the Commission determines that the established performance standards cannot be met after a performance improvement plan has been implemented and adequate time has been given, the Commission would be required to take appropriate action to avoid insolvency. The Commission would have authority to close the local board or one or more of its stores, or to merge the local board with another local board in order to maintain solvency. The Commission would also have authority to seize the assets of the local board and liquidate assets necessary to satisfy debt and maintain solvency of the local board.

Section 21 of the bill would require each local ABC board to adopt a policy containing a code of ethics consistent with statutory provisions concerning conflicts of interests and gifts. *(See Section 2 of the bill.)*

Each member of a local board would be required to receive a minimum of 2 hours of ethics education within 12 months after initial appointment to the board, and again within 12 months after each subsequent appointment to the office. The education may be provided by the ABC Commission or by some other qualified source approved by the Commission. A local board may require appropriate ethics training and education for its employees. The ABC Commission is required to develop a model ethic polity that local ABC boards may adopt in compliance with the requirements of the bill.

Section 22 of the bill would authorize the ABC Commission to consider the proximity of a new ABC store location to existing ABC stores when making its decision regarding approval of the new location.

Section 23 of the bill would amend the law with regard to the closing of ABC stores, eliminating specific authority of a local ABC board or the ABC Commission to close a store when the Commission determines that the store is not sufficiently profitable to justify its continuation.

Section 24 of the bill would increase the minimum amount of the bond required for ABC store managers, raising it from $5,000 to $50,000. An appointing authority may require a bond that exceeds the minimum amount.

Section 25 of the bill would amend G.S. 18B-1213 concerning the obligations of the purchaser of a winery, making it clear that the purchaser as well as *any successor to the rights of a winery* is obligated to all the terms and conditions of an agreement in effect on the date of the purchase *or other acquisition of the right to distribute a brand.* This section would become effective September 15, 2010, and apply to all existing franchise agreements. A supplier's shipment of wine to a wholesaler in this State following the effective date would constitute acceptance by the supplier of the terms of the bill and be incorporated into the agreement between the supplier and wholesaler. The section would not apply to any administrative action pending before the ABC Commission or to pending litigation or claims that accrued before the effective date of this act.

Section 26 of the bill would change the definition of winery. Under current law, a winery means the holder of an unfortified winery permit, fortified winery permit, limited winery permit, or nonresident wine vendor permit who sells at least 1,000 cases of wine in North Carolina each year. The PCS would change the number of cases of wine that must be sold in this State each year to be considered a nonresident wine vendor from 1,000 cases annually to 1,250 cases annually. This section would become effective September 15, 2010.

Section 27of the bill would create an exception to the law that prohibits occupational licensing boards from requiring that an individual be more than 18 years of age as a requirement for receiving a license. The exception would apply to certifications issued by the Criminal Justice Education and Training Standards Commission and the North Carolina Sheriff's Education and Training Standards Commission. This section would be effective when it becomes law.

Section 28of the bill would provide for the appointment of 3 members to the Rowan Kannapolis ABC Board. The Rowan County Board of Commissioners, the Kannapolis City Council, and the Salisbury City Council would each appoint one member of the ABC board. This provision would be effective when it becomes law and apply to appointments and vacancies occurring on or after that date.

EFFECTIVE DATE: Except as otherwise specified, the bill would become effective October 1, 2010.

BILL SUMMARY

The proposed committee substitute for House Bill 1717 (HB 1717) modernizes the North Carolina Alcoholic Beverage Control System. The changes proposed in HB 1717 include, but are not limited to: applying ethics requirements to ABC Boards; expanding certain power and duties of the ABC Commission; changing contracting and reporting requirements for contracts with local law enforcement; changing requirements related to city ABC elections and mix beverage permits; altering Board membership terms and compensation; increasing bonding requirements from $5,000 to $50,000; requiring a balanced budget and transparent budget process; providing a uniform system for the removal of board members and employees; and renaming the Rowan County ABC Board the Rowan/ Kannapolis ABC Board.

ASSUMPTIONS AND METHODOLOGY:

The changes proposed in the HB 1717 should have no fiscal impact on the General Fund or ABC Commission but may impact local ABC boards.

State ABC Commission

The ABC Commission is an enterprise fund and thus wholly receipt-supported. Its expenditures and revenue collections do not impact North Carolina's General Fund. However, H1717 will impact the ABC Commission's operations. Specifically, Section 20 of HB 1717, which requires the Commission to establish performance standards and to ensure local board compliance, could impact the operating budget of the Commission. This section requires that the Commission ensure compliance by conducting regular or special audits, conducting performance evaluations, or taking other measures such as inspections. These are new duties for the Commission.

The ABC Commission already provides some performance and management oversight of local boards. It compiles local annual audited financial reports, monitors local board sales data, and performs investigative audits of local board issues on an ad hoc basis. These steps allow the Commission to monitor key metrics like overhead costs and inventory turnover. The ABC Commission has staff capable of conducting the required performance audits. By reorganizing existing staff and filling vacancies, the Commission expects to be able to perform the new duties within its existing budget. This is possible in part because of the recent relaxation in alcohol to food ratios. This makes it easier to meet current standards and has reduced the workload for current Commission auditors.

In addition, H1717 authorizes the Commission to develop training requirements and specifies that failure to comply with training requirements is grounds for the removal of a local board member or employee (Section 19). The Commission notes that it has the flexibility to use its training staff "to address the changing priorities in education program needs under the bill. This includes both developing rules that establish mandatory training requirement and providing training at convenient locations around the State, if necessary. Therefore, the Commission expects to perform these duties within existing budget.

Local ABC Boards

In addition, certain provisions of the bill could impact the operating expenses of local ABC Boards. Three issues appear to impact local board budgets:

1) Bonding: The requirement that the General Manager, the Finance Officer, and Store Managers be bonded in an amount not less than $50,000 (up from $5,000) could increase operating expenses for local boards that currently bond these employees at a level below $50,000. The Fiscal Research Division does not have data on the number of local boards that currently bond these employees below the $50,000 level or data regarding the cost of bonding an employee at the $50,000 level.

2) Performance, Training, and Other ABC Commission Rules: The requirement to comply with all rules adopted by the ABC Commission and meet standards for performance and training could impact local board budgets. However, without information on ABC Commission performance and training requirements and current local board performance and training requirements, it is impossible to determine the fiscal impact of this change to G.S. 18B-701.

3) Budgeting: HB 1717 requires each board to: (a) operate under an annual balanced budget; (b) submit that proposed budget to the local board along with a budget message; (c) provide a copy of the budget for public inspection; (d) hold a public hearing to take public comment on the proposed budget; and (e) adopt a budget no earlier than 10 days after the budget is originally presented to the board and not later than July 1. Depending on a local board's current budget process, the requirement to hold a public hearing and, potentially, have additional board meetings could increase costs by the amount of the public hearing and the amount of the compensation per board member per additional meeting. Without specific data on the budget process for each local board, fiscal impact of these requirements cannot be determined.

Other requirements that appear to impact the operating budgets of local boards, such as the compensation, travel, and per diem requirements defined in Sections 11, 12, and 13, each have language that allows the local appointing authority to approve deviations from the recommended levels; the local board must provide the ABC Commission with the appointing authority's written confirmation of approval of any deviations.

SENATE BILL 354:
Continuing Care Retire. Community/Home Care

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	July 7, 2010
Introduced by:	Sen. Kinnaird	**Prepared by:**	Cindy Avrette
Analysis of:	Sixth Edition		Committee Counsel

SUMMARY: Senate Bill 354 is back in the Senate for concurrence in the House changes. The House replaced the contents of the original bill with the contents of the House Committee Substitute.

The House Committee Substitute for Senate Bill 354 would also allow continuing care retirement communities (CCRCs) to provide or arrange for home care services for an individual who has entered into a continuing care contract, but who is not receiving lodging. It would also increase the application fee for a continuing care license from $500 to $1,000. The fee is a one-time fee paid at the time an application is submitted.

S.L. 2010-31, The Current Operations and Capital Improvements Appropriations Act of 2010, transferred an existing position within the DOI to the Financial Evaluation Division to carry out the requirements of this bill.

CURRENT LAW: G.S. 58-64-1 (1) defines "continuing care" as the "furnishing to an individual other than an individual related by blood, marriage, or adoption to the person furnishing the care, of lodging together with nursing services, medical services, or other health related services, under an agreement effective for the life of the individual or for a period longer than one year." G.S. 58-64-5 requires a provider offering or providing continuing care to obtain a license from the Commissioner of Insurance. G.S. 58-64-25 specifies the continuing care contract requirements.

G.S. 131E-136 (3) defines "Home care services" as any of the following services and directly related medical supplies and appliances, which are provided to an individual in a place of temporary or permanent residence used as an individual's home:

a. Nursing care provided by or under the supervision of a registered nurse.
b. Physical, occupational, or speech therapy, when provided to an individual who also is receiving nursing services, or any other of these therapy services, in a place of temporary or permanent residence used as the individual's home.
c. Medical social services.
d. In-home aide services that involve hands-on care to an individual.
e. Infusion nursing services.
f. Assistance with pulmonary care, pulmonary rehabilitation or ventilation.
g. In-home companion, sitter, and respite care services provided to an individual.
h. Homemaker services provided in combination with in-home companion, sitter, respite, or other home care services.

BILL ANALYSIS: Section 1 of the bill amends G.S. 58-64-5(b) to increase the application fee for a continuing care license from $500 to $1,000. **Section 2** amends the definitions contained in G.S. 58-64-1 as follows:

- "*Continuing care*" is amended to include the provision or arrangement of home care services by a provider of lodging at a facility to an individual who has entered into a continuing care contract with the provider, but is not yet receiving lodging.
- "*Home care services*" -- as defined in G.S. 131E-136 (see above).
- "*Lodging*" -- a living unit and meals as set forth in a contract approved by DOI.

ection 3 amends G.S. 58-64-25(b) regarding the provisions that must be contained in a continuing care contract to require that when a contract provides for the provision or arrangement of continuing care without lodging, the contract must specify the procedures for determining when the individual will transition to receiving both lodging and health related services.

Section 4 amends Article 64 of Chapter 58 by adding a new section to specify the information a continuing care retirement community (CCRC) that wishes to provide continuing care services without lodging must submit to the Department of Insurance:

- An application to offer continuing care services without lodging
- An amended disclosure statement (currently required for regular CCRC operation under G.S. 58-64-20 and G.S. 58-64-30) with a description of the proposed continuing care services that will be provided without lodging, including the target market, the types of services to be provided, and the fees to be charged.
- A copy of the written service agreement which must contain those provisions as prescribed in current law.
- A summary of an actuarial report that presents the impact of providing continuing care services without lodging on the overall operation of the continuing care retirement community.
- A financial feasibility study prepared by a certified public accountant showing the financial impact of providing continuing care services without lodging on the applicant and the continuing care retirement facility or facilities. The study must include a statement of activities reporting the revenue and expense details for providing continuing care services without lodging, as well as, any impact the provision of these services will have on operating reserves.

  Evidence of license required under Part 3, Article 6, of Chapter 131E (Home Care Agency Licensure Act) to provide home care services, or a contract with a licensed home care agency for the provision of home care services to the individuals under the continuing care services without lodging program.

Section 5 requires DOI and the Department of Health and Human Services to identify any statutory, regulatory, or practical barriers that prevent or discourage individuals who contract with continuing care retirement communities from receiving home care services for as long they need home care services and are able to be safely cared for in their homes. The Departments are required to provide an interim status report on or before November 1, 2010, and a final report on or before September 1, 2011, to the NC Study Commission on Aging and the Joint Legislative Health Care Oversight Committee.

EFFECTIVE DATE: The bill would become effective when it becomes law.

EFFECTIVE DATE: See Bill Summary below.

BILL SUMMARY:

SB 354 increases the application fee for a continuing care license. It would also allow Continuing Care Retirement Communities (CCRCs) to provide or arrange for home care services for an individual who has entered into a continuing care contract, but who is not receiving lodging.

Section 1 of the bill amends G.S. 58-64-5(b) to increase the application fee for a continuing care license from $500 to $1,000.

Section 2 amends the definitions contained in G.S. 58-64-1 as follows:

- "*Continuing care*" is amended to include the provision or arrangement of home care services by a provider of lodging at a facility to an individual who has entered into a continuing care contract with the provider, but is not yet receiving lodging.

- "*Home care services*" -- as defined in G.S. 131E-136.
- "*Lodging*" -- a living unit and meals as set forth in a contract approved by DOI.

Section 3 amends G.S. 58-64-25(b) regarding the provisions that must be contained in a continuing care contract to require that when a contract provides for the provision or arrangement of continuing care without lodging, the contract must specify the procedures for determining when the individual will transition to receiving both lodging and health related services.

Section 4 amends Article 64 of Chapter 58 by adding a new section to specify the information a continuing care retirement community (CCRC) that wishes to provide continuing care services without lodging must submit to the Department of Insurance:

- An application to offer continuing care services without lodging.
- An amended disclosure statement (currently required for regular CCRC operation under G.S. 58-64-20 and G.S. 58-64-30) with a description of the proposed continuing care services that will be provided without lodging, including the target market, the types of services to be provided, and the fees to be charged.
- A copy of the written service agreement which must contain those provisions as prescribed in current law.
- A summary of an actuarial report that presents the impact of providing continuing care services without lodging on the overall operation of the continuing care retirement community.
- A financial feasibility study prepared by a certified public accountant showing the financial impact of providing continuing care services without lodging on the applicant and the continuing care retirement facility or facilities. The study must include a statement of activities reporting the revenue and expense details for providing continuing care services without lodging, as well as, any impact the provision of these services will have on operating reserves.
- Evidence of the license required under Part 3, Article 6, of Chapter 131E (Home Care Agency Licensure Act) to provide home care services, or a contract with a licensed home care agency for the provision of home care services to the individuals under the continuing care services without lodging program.

Section 5 requires DOI and the Department of Health and Human Services to identify any statutory, regulatory, or practical barriers that prevent or discourage individuals that contract with continuing care retirement communities from receiving home care services for as long they need home care services and are able to be safely cared for in their homes. The Departments are required to provide an interim status report on or before November 1, 2010, and a final report on or before September 1, 2011, to the NC Study Commission on Aging and the Joint Legislative Health Care Oversight Committee.

The fee increase would become effective July 1, 2010, and apply to applications filed on or after that date. Sections 2, 3, 4, and 5 would become effective when the act becomes law. If funding is not provided in the 2010 budget for a specified position within DOI to oversee the new services, Sections 2, 3, and 4 would expire July 1, 2012. In that event, CCRCs would not be permitted to continue to enter into contracts for the provision or arrangement of continuing care without

lodging, but existing contracts executed prior to the sunset date would remain in effect, and CCRCs would be permitted to provide home care service without lodging after July 1, 2012, pursuant to the terms of such contracts.

BACKGROUND INFORMATION:

G.S. 58-64-1 (1) defines continuing care as the "furnishing to an individual other than an individual related by blood, marriage, or adoption to the person furnishing the care, of lodging together with nursing services, medical services, or other health related services, under an agreement effective for the life of the individual or for a period longer than one year." G.S. 58-64-5 requires a provider offering or providing continuing care to obtain a license from the Commissioner of Insurance. G.S. 58-64-25 specifies the continuing care contract requirements.

G.S. 131E-136 (3) defines "Home care services" as any of the following services and directly related medical supplies and appliances, which are provided to an individual in a place of temporary or permanent residence used as an individual's home:

a. Nursing care provided by or under the supervision of a registered nurse.
b. Physical, occupational, or speech therapy, when provided to an individual who also is receiving nursing services, or any other of these therapy services, in a place of temporary or permanent residence used as the individual's home.
c. Medical social services.
d. In-home aide services that involve hands-on care to an individual.
e. Infusion nursing services.
f. Assistance with pulmonary care, pulmonary rehabilitation or ventilation.
g. In-home companion, sitter, and respite care services provided to an individual.
h. Homemaker services provided in combination with in-home companion, sitter, respite, or other home care services.

ASSUMPTIONS AND METHODOLOGY:

Revenue

Section 1 of the bill amends G.S. 58-64-5(b) to increase the application fee for a continuing care license from $500 to $1,000. Over the last five years, the Department of Insurance reports that there have been on average 2.6 applications submitted per year. Assuming that there will be 3 applications submitted per year, Fiscal Research estimates that there will be $3,000 of revenue generated each fiscal year (3 applications multiplied by the $1,000 application fee). Since there is already a $500 fee in place, the additional amount of revenue generated as a result of this bill is $1,500 per fiscal year ($3,000 of revenue generated multiplied by one-half).

Administrative Costs

The Department of Insurance (DOI) indicates that its current staff will not be able to absorb the additional workload required in order to administer SB 354. DOI anticipates that it will need one Insurance Company Examiner Manager position to fulfill the requirements of this legislation. The

Insurance Company Examiner Manager would be placed in charge of the Continuing Care Retirement Community Unit of the Financial Evaluations Division of DOI.

The Financial Evaluation Division has regulatory oversight for Continuing Care Retirement Communities (CCRCs), which serves approximately 13,000 elderly residents in North Carolina. Presently, there are 57 CCRCs in operation and 13 in various stages of development. This bill will require that CCRCs providing these additional off-site services be reviewed for compliance relative to certain disclosure standards that must be met initially for both prospective at home residents initially, and facility (on campus) residents, thereafter, on an annual basis.

DOI reports that this bill would significantly impact the operations of the Financial Evaluation Division. Presently, the Financial Evaluation Division does not have financial analysis staff dedicated to the financial oversight of CCRCs. The Insurance Company Examiner Manager would administer CCRC laws of North Carolina by evaluating the financial condition and operations of the CCRCs during the licensing process and on a continuing basis, thereafter. The Insurance Company Examiner Manager would conduct a review of annual and interim financial statements, audited reports and other financial data filed or requested by DOI to carry out these tasks.

In total, DOI estimates that it will need $111,623 for the Insurance Company Examiner Manager in FY 2010-11 (a breakdown of these expenses is provided in the chart below). Fiscal Research concurs with this estimate.

Description		Associated Cost FY 2010-11
Insurance Company Examiner Manager		
	Salary	$83,000
	Social Security	$6,388
	Retirement	$8,776
	Medical Insurance	$4,929

A BILL TO BE ENTITLED

AN ACT EXEMPTING CATAWBA COUNTY FROM COMPETITIVE BIDDING REQUIREMENTS WHEN LETTING CONTRACTS AUTHORIZED BY ITS BOARD OF COMMISSIONERS TO INCREASE ENERGY EFFICIENCY, AND TO AUTHORIZE THAT COUNTY TO ENTER INTO LEASES FOR THE SITING AND OPERATION OF RENEWABLE ENERGY FACILITIES FOR TWENTY YEARS WITHOUT TREATING IT AS A SALE AND WITHOUT GIVING NOTICE BY PUBLICATION.

The General Assembly of North Carolina enacts:

SECTION 1. Catawba County may contract for apparatus, supplies, materials, or equipment that will be used as part of any program authorized by its Board of Commissioners aimed at increasing energy efficiency without being subject to the requirements of G.S. 143-129, 143-131, and 143-132. Notwithstanding any provision of law, the county may award a contract under this section in its sole discretion.

"**SECTION 3.** Section 2 of this act applies to the ~~City~~ Cities of Raleigh and ~~the City of~~ Winston-Salem and Catawba County only."

SECTION 2.(b) If Senate Bill 1114, 2009 Regular Session becomes law, then Section 3 of S.L. 2009-149 as rewritten by that act reads as rewritten:

"**SECTION 3.** Section 2 of this act applies to the Cities of Asheville, Raleigh and Winston-Salem and the Towns of Chapel Hill and Carrboro. This act also applies to Catawba County."

SECTION 3. This act is effective when it becomes law.

HOUSE BILL 1814:
Catawba Energy Efficiency/Renewable

2009-2010 General Assembly

Committee:	Senate Finance	**Date:**	July 7, 2010
Introduced by:	Rep. R. Warren	**Prepared by:**	Heather Fennell Committee Counsel
Analysis of:	Second Edition		

SUMMARY: House Bill 1814 exempts Catawba County from competitive bidding requirements for apparatus, supplies, and equipment used in pilot programs aimed at improving energy efficiency and from certain requirements for entering into a long-term lease for a renewable energy facility.

CURRENT LAW: The competitive bidding requirements for construction contracts and contracts for the purchase of apparatus, supplies, equipment and materials are set out in G.S. 143-129, 143-131, and 143-132 of the General Statutes.

G.S. 160A-272 requires a lease in excess of ten years to be treated as sale of real property, usually requiring competitive bidding and public notice of the decision to lease the property.

BILL ANALYSIS: The bill:

- Exempts Catawba County from certain competitive bidding requirements set forth in Article 8 of Chapter 143 in contracting for apparatus, supplies, materials, or equipment to be used in any program aimed at increasing energy efficiency.
- Exempts the county from the requirements of G.S. 160A-272 for the purpose of entering into a long-term lease of up to 20 years for the siting of a renewable energy facility as defined in G.S. 62-133.8(a)(7). A "renewable energy facility" is a facility "other than a hydroelectric power facility with a generation capacity of more than 10 megawatts, that either:
    a. Generates electric power by the use of a renewable energy resource.
    b. Generates useful, measurable combined heat and power derived from a renewable energy resource.
    c. Is a solar thermal energy facility."

EFFECTIVE DATE: Effective when it becomes law.

BACKGROUND: The City of Raleigh was given the same exemption from the competitive bidding statutes for its pilot programs for energy efficiency in 2007. (S.L. 2007-133) That exemption was made permanent in 2009. (S.L. 2009-147).

The Cities of Raleigh and Winston-Salem both obtained a similar exemption from G.S. 160A-272 for long-term leases on the siting and operation of a renewable energy facility in S.L. 2009-149.

Bills have been introduced to grant both exceptions to the Towns of Carrboro (SB 1113/HB 1887) and Chapel Hill (SB 1114/ HB 1888), and the Mecklenburg County (SB 1335/ HB 2040).

A BILL TO BE ENTITLED

AN ACT TO AUTHORIZE THE CREATION OF SPECIAL RETIREMENT ALLOWANCES FOR RETIREES OF THE TEACHERS' AND STATE EMPLOYEES' RETIREMENT SYSTEM AND THE LOCAL GOVERNMENTAL EMPLOYEES' RETIREMENT SYSTEM.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 135-5(m1) reads as rewritten:

"(m1) Special Retirement Allowance for Law Enforcement Officers. – Upon retirement, a member who is a law enforcement officer vested as of June 30, 2010, may elect to transfer any portion of his eligible accumulated contributions, not including any Roth after-tax contributions and the earnings thereon, from the Supplemental Retirement Income Plan of North Carolina to this Retirement System and receive, in addition to his basic service, early or disability retirement allowance, a special retirement allowance which shall be based upon his eligible accumulated account balance at the date of the transfer of the assets to this System. For the purpose of determining the special retirement allowance, the Board of Trustees shall adopt straight life annuity factors on the basis of mortality tables, such other tables as may be necessary and the interest assumption rate recommended by the actuary based upon actual experience including an assumed annual post-retirement allowance increase of four percent (4%). The Board of Trustees shall modify such factors every five years, as shall be deemed necessary, based upon the five year experience study as required by G.S. 135-6(n). Provided, however, a member, who transfers his eligible accumulated contributions from the Supplemental Retirement Income Plan of North Carolina, shall be taxed for North Carolina State Income tax purposes on the special retirement allowance the same as if that special retirement allowance had been paid directly by the Supplemental Retirement Income Plan of North Carolina. The Teachers' and State Employees' Retirement System shall be responsible to determine the taxable amount, if any, and report accordingly."

SECTION 2. G.S. 135-5 is amended by adding a new subsection to read:

"(m2) Special Retirement Allowance. – At any time coincident with or following retirement, a member may make a one-time election to transfer any portion of the member's eligible accumulated contributions, not including any Roth after-tax contributions and the earnings thereon, from the Supplemental Retirement Income Plan of North Carolina or the North Carolina Public Employee Deferred Compensation Plan to this Retirement System and receive, in addition to the member's basic service, early or disability retirement allowance, a special retirement allowance which shall be based upon the member's transferred balance. Notwithstanding anything to the contrary, a member may not transfer such amounts as will cause the member's retirement allowance under the System to exceed the amount allowable

under G.S. 135-18.7(b). The Board of Trustees may establish a minimum amount that must be transferred if a transfer is elected. The member may elect a special retirement allowance with no postretirement increases or a special retirement allowance with annual postretirement increases equal to the annual increase in the U.S. Consumer Price Index. Postretirement increases on any other allowance will not apply to the special retirement allowance. The Board of Trustees shall provide educational materials to the members who apply for the transfer authorized by this section. Those materials shall describe the special retirement allowance and shall explain (i) the relationship between the transferred balance and the monthly benefit; and (ii) how the member's heirs may be impacted by the election to make this transfer and any costs and fees involved.

For the purpose of determining the special retirement allowance, the Board of Trustees shall adopt straight life annuity factors on the basis of yields on U.S. Treasury Bonds and mortality and such other tables as may be necessary based upon actual experience. A single set of mortality and such other tables will be used for all members, with factors differing only based on the age of the member and the election of postretirement increases. The Board of Trustees shall modify the mortality and such other tables every five years, as shall be deemed necessary, based upon the five-year experience study as required by G.S. 135-6(n). Provided, however, a member who transfers the member's eligible accumulated contributions from the Supplemental Retirement Income Plan of North Carolina or the North Carolina Public Employee Deferred Compensation Plan to this Retirement System shall be taxed for North Carolina State Income Tax purposes on the special retirement allowance the same as if that special retirement allowance had been paid directly by the Supplemental Retirement Income Plan of North Carolina or the North Carolina Public Employee Deferred Compensation Plan. The Teachers' and State Employees' Retirement System shall be responsible to determine the taxable amount, if any, and report accordingly.

The Supplemental Retirement Board of Trustees established under G.S. 135-96 may assess a one-time flat administrative fee not to exceed the actual cost of the administrative expenses relating to these transfers.

The special retirement allowance shall continue for the life of the member and the beneficiary designated to receive a monthly survivorship benefit under Option 2, 3 or 6 as provided in G.S. 135-5(g), if any. The Board of Trustees, however, shall establish two payment options that guarantee payments as follows:

(1) A member may elect to receive the special retirement allowance for life but with payments guaranteed for a number of months to be specified by the Board of Trustees. Under this plan, if the member dies before the expiration of the specified number of months, the special retirement allowance will continue to be paid to the member's designated beneficiary for the life of the beneficiary, if Option 2, 3 or 6 is selected. If Option 2, 3 or 6 is not selected, the member's designated beneficiary will receive the benefit only for the remainder of the specified number of months. If the member's designated beneficiary dies before receiving payments for the specified number of months, any remaining payments will be paid to the member's estate.

(2) A member may elect to receive the special retirement allowance for life but is guaranteed that the sum of the special allowance payments will equal the total of the transferred amount. Under this payment option, if the member dies before receiving the total transferred amount, the special retirement allowance will continue to be paid to the member's designated beneficiary for the life of the beneficiary, if Option 2, 3 or 6 is selected. If Option 2, 3 or 6 is not selected, the member's designated beneficiary or the member's estate shall be paid any remaining balance of the transferred amount.

The Board of Trustees shall report annually to the Joint Legislative Commission on Governmental Operations on the number of persons who made an election in the previous calendar year, with any recommendations it might make on amendment or repeal based on any identified problems.

The General Assembly reserves the right to repeal or amend this subsection, but such repeal or amendment shall not affect any person who has already made the one-time election provided in this subsection."

SECTION 3. G.S. 135-5(g1) reads as rewritten:

"(g1) In the event of the death of a retired member while in receipt of a retirement allowance under the provisions of this Article, there shall be paid to such person or persons as the retiree shall have nominated by electronic submission in a form approved by the Board of Trustees or by written designation duly acknowledged and filed with the Board of Trustees, if such person or persons are living at the time of the retiree's death, otherwise to the retiree's legal representatives, a death benefit equal to the excess, if any, of the accumulated contributions of the retiree at the date of retirement over the total of the retirement allowances paid prior to the death of the retiree. ~~For purposes of this paragraph, the term "accumulated contributions" includes amounts of employee voluntary contributions that were transferred from the Supplemental Retirement Income Plan of North Carolina to this Retirement System at retirement by eligible law enforcement officers.~~ In the event that a retiree is receiving a Special Retirement Allowance under subsection (m1) of this section, there shall be paid to such person or persons as the retiree shall have nominated by electronic submission in a form approved by the Board of Trustees or by written designation duly acknowledged and filed with the Board of Trustees, if such person or persons are living at the time of the retiree's death, otherwise to the retiree's legal representatives, an additional death benefit equal to the excess, if any, of the employee's voluntary contributions that were transferred from the Supplemental Retirement Income Plan of North Carolina or the North Carolina Public Employee Deferred Compensation Plan to this Retirement System over the total of the Special Retirement Allowances paid prior to the death of the retiree. For purposes of this paragraph, the term "accumulated contributions" excludes any amount transferred under subsection (m2) of this section.

In the event that a retirement allowance becomes payable to the designated survivor of a retired member under the provisions above and such retirement allowance to the survivor shall terminate upon the death of the survivor before the total of the retirement allowances paid to the retiree and the designated survivor combined equals the amount of the accumulated contributions of the retiree at the date of retirement, the excess, if any, of such accumulated contributions over the total of the retirement allowances paid to the retiree and the survivor combined shall be paid in a lump sum to such person or persons as the retiree shall have nominated by electronic submission in a form approved by the Board of Trustees or by written designation duly acknowledged and filed with the Board of Trustees, if such person or persons are living at the time such payment falls due, otherwise to the retiree's legal representative. For purposes of this paragraph, the term "accumulated contributions" includes amounts of employee voluntary contributions that were transferred from the Supplemental Retirement Income Plan of North Carolina to this Retirement System at retirement by eligible law enforcement officers.

In the event that a retirement allowance becomes payable to the principal beneficiary designated to receive a return of accumulated contributions pursuant to subsection (m) of this section and that beneficiary dies before the total of the retirement allowances paid equals the amount of the accumulated contributions of the member at the date of the member's death, the excess of those accumulated contributions over the total of the retirement allowances paid to the beneficiary shall be paid in a lump sum to the person or persons the member has designated as the contingent beneficiary for return of accumulated contributions, if the person or persons are living at the time the payment falls due, otherwise to the principal beneficiary's legal

representative. For purposes of this paragraph, the term "accumulated contributions" includes amounts of employee voluntary contributions that were transferred from the Supplemental Retirement Income Plan of North Carolina to this Retirement System at retirement by eligible law enforcement officers.

In the event a retiree purchases creditable service as provided in G.S. 135-4, there shall be paid to such person or persons as the retiree shall have nominated by electronic submission in a form approved by the Board of Trustees or by written designation duly acknowledged and filed with the Board of Trustees, if such person or persons are living at the time of the retiree's death, otherwise to the retiree's legal representatives, an additional death benefit equal to the excess, if any, of the cost of the creditable service purchased less the administrative fee, if any, over the total of the increase in the retirement allowance attributable to the additional creditable service, paid from the month following the month in which payment was received to the death of the retiree.

In the event that a retirement allowance becomes payable to the designated survivor of a retired member under the provisions above and such retirement allowance to the survivor shall terminate upon the death of the survivor before the total of the increase in the retirement allowance attributable to the additional creditable service paid to the retiree and the designated survivor combined equals the cost of the creditable service purchased less the administrative fee, the excess, if any, shall be paid in a lump sum to such person or persons as the retiree shall have nominated by electronic submission in a form approved by the Board of Trustees or by written designation duly acknowledged and filed with the Board of Trustees, if such person or persons are living at the time such payment falls due, otherwise to the retiree's legal representative.

In the event that a retiree dies without having designated a beneficiary to receive a benefit under the provisions of this subsection, any such benefit that becomes payable shall be paid to the member's estate."

SECTION 4. G.S. 128-27(m1) reads as rewritten:

"(m1) Special Retirement Allowance for Law Enforcement Officers. – Upon retirement, a member who is a law enforcement officer vested as of June 30, 2010, may elect to transfer any portion of his eligible accumulated contributions, not including any Roth after-tax contributions and the earnings thereon, from the Supplemental Retirement Income Plan of North Carolina to this Retirement System and receive, in addition to his basic service, early or disability retirement allowance, a special retirement allowance which shall be based upon his eligible accumulated account balance at the date of the transfer of the assets to this System. For the purpose of determining the special retirement allowance, the Board of Trustees shall adopt straight life annuity factors on the basis of mortality tables, such other tables as may be necessary and the interest assumption rate recommended by the actuary based upon actual experience including an assumed annual post-retirement allowance increase of four percent (4%). The Board of Trustees shall modify such factors every five years, as shall be deemed necessary, based upon the five year experience study as required by ~~G.S. 128-29(o).~~ G.S. 128-28(o). Provided, however, a member who transfers his eligible accumulated contributions from the Supplemental Retirement Income Plan of North Carolina shall be taxed for North Carolina State Income tax purposes on the special retirement allowance the same as if that special retirement allowance had been paid directly by the Supplemental Retirement Income Plan of North Carolina. The Local Governmental Employees' Retirement System shall be responsible to determine the taxable amount, if any, and report accordingly."

SECTION 5. G.S. 128-27 is amended by adding a new subsection to read:

"(m2) Special Retirement Allowance. – At any time coincident with or following retirement, a member may make a one-time election to transfer any portion of the member's eligible accumulated contributions, not including any Roth after-tax contributions and the earnings thereon, from the Supplemental Retirement Income Plan of North Carolina or the

North Carolina Public Employee Deferred Compensation Plan to this Retirement System and receive, in addition to the member's basic service, early or disability retirement allowance, a special retirement allowance which shall be based upon the member's transferred balance. Notwithstanding anything to the contrary, a member may not transfer such amounts as will cause the member's retirement allowance under the System to exceed the amount allowable under G.S. 128-38.2(b). The Board of Trustees may establish a minimum amount that must be transferred if a transfer is elected. The member may elect a special retirement allowance with no postretirement increases or a special retirement allowance with annual postretirement increases equal to the annual increase in the U.S. Consumer Price Index. Postretirement increases on any other allowance will not apply to the special retirement allowance. The Board of Trustees shall provide educational materials to the members who apply for the transfer authorized by this section. Those materials shall describe the special retirement allowance and shall explain (i) the relationship between the transferred balance and the monthly benefit; and (ii) how the member's heirs may be impacted by the election to make this transfer and any costs and fees involved.

For the purpose of determining the special retirement allowance, the Board of Trustees shall adopt straight life annuity factors on the basis of yields on U.S. Treasury Bonds and mortality and such other tables as may be necessary based upon actual experience. A single set of mortality and such other tables will be used for all members, with factors differing only based on the age of the member and the election of postretirement increases. The Board of Trustees shall modify the mortality and such other tables every five years, as shall be deemed necessary, based upon the five-year experience study as required by G.S. 128-28(o). Provided, however, a member who transfers the member's eligible accumulated contributions from the Supplemental Retirement Income Plan of North Carolina or the North Carolina Public Employee Deferred Compensation Plan to this Retirement System shall be taxed for North Carolina State Income Tax purposes on the special retirement allowance the same as if that special retirement allowance had been paid directly by the Supplemental Retirement Income Plan of North Carolina. The Local Governmental Employees' Retirement System shall be responsible to determine the taxable amount, if any, and report accordingly.

The special retirement allowance shall continue for the life of the member and the beneficiary designated to receive a monthly survivorship benefit under Option 2, 3 or 6 as provided in G.S. 128-27(g), if any. The Board of Trustees, however, shall establish two payment options that guarantee payments as follows:

(1) A member may elect to receive the special retirement allowance for life but with payments guaranteed for a number of months to be specified by the Board of Trustees. Under this plan, if the member dies before the expiration of the specified number of months, the special retirement allowance will continue to be paid to the member's designated beneficiary for the life of the beneficiary, if Option 2, 3 or 6 is selected. If Option 2, 3 or 6 is not selected, the member's designated beneficiary will receive the benefit only for the remainder of the specified number of months. If the member's designated beneficiary dies before receiving payments for the specified number of months, any remaining payments will be paid to the member's estate.

(2) A member may elect to receive the special retirement allowance for life but is guaranteed that the sum of the special allowance payments will equal the total of the transferred amount. Under this payment option, if the member dies before receiving the total transferred amount, the special retirement allowance will continue to be paid to the member's designated beneficiary for the life of the beneficiary, if Option 2, 3 or 6 is selected. If Option 2, 3 or 6 is not selected, the member's designated beneficiary or the member's estate shall be paid any remaining balance of the transferred amount.

The Supplemental Retirement Board of Trustees established under G.S. 135-96 may assess a one-time flat administrative fee not to exceed the actual cost of the administrative expenses relating to these transfers.

The Board of Trustees shall report annually to the Joint Legislative Commission on Governmental Operations on the number of persons who made an election in the previous calendar year, with any recommendations it might make on amendment or repeal based on any identified problems.

The General Assembly reserves the right to repeal or amend this subsection, but such repeal or amendment shall not affect any person who has already made the one-time election provided in this subsection."

SECTION 6. G.S. 128-27(g1) reads as rewritten:

"(g1) In the event of the death of a retired member while in receipt of a retirement allowance under the provisions of this Article, there shall be paid to such person or persons as the retiree shall have nominated by electronic submission in a form approved by the Board of Trustees or by written designation duly acknowledged and filed with the Board of Trustees, if such person or persons are living at the time of the retiree's death, otherwise to the retiree's legal representatives, a death benefit equal to the excess, if any, of the accumulated contributions of the retiree at the date of retirement over the total of the retirement allowances paid prior to the death of the retiree. ~~For purposes of this paragraph, the term "accumulated contributions" includes amounts of employee voluntary contributions that were transferred from the Supplemental Retirement Income Plan of North Carolina to this Retirement System at retirement by eligible law enforcement officers.~~In the event that a retiree is receiving a Special Retirement Allowance under subsection (m1) of this section, there shall be paid to such person or persons as the retiree shall have nominated by electronic submission in a form approved by the Board of Trustees or by written designation duly acknowledged and filed with the Board of Trustees, if such person or persons are living at the time of the retiree's death, otherwise to the retiree's legal representatives, an additional death benefit equal to the excess, if any, of the employee voluntary contributions that were transferred from the Supplemental Retirement Income Plan of North Carolina or the North Carolina Public Employee Deferred Compensation Plan to this Retirement System over the total of the Special Retirement Allowances paid prior to the death of the retiree. For purposes of this paragraph, the term "accumulated contributions" excludes any amount transferred under subsection (m2) of this section.

In the event that a retirement allowance becomes payable to the designated survivor of a retired member under the provisions above and such retirement allowance to the survivor shall terminate upon the death of the survivor before the total of the retirement allowances paid to the retiree and the designated survivor combined equals the amount of the accumulated contributions of the retiree at the date of retirement, the excess, if any, of such accumulated contributions over the total of the retirement allowances paid to the retiree and the survivor combined shall be paid in a lump sum to such person or persons as the retiree shall have nominated by electronic submission in a form approved by the Board of Trustees or by written designation duly acknowledged and filed with the Board of Trustees, if such person or persons are living at the time such payment falls due, otherwise to the retiree's legal representative. For purposes of this paragraph, the term "accumulated contributions" includes amounts of employee voluntary contributions that were transferred from the Supplemental Retirement Income Plan of North Carolina to this Retirement System at retirement by eligible law enforcement officers.

In the event that a retirement allowance becomes payable to the principal beneficiary designated to receive a return of accumulated contributions pursuant to subsection (m) of this section and that beneficiary dies before the total of the retirement allowances paid equals the amount of the accumulated contributions of the member at the date of the member's death, the excess of those accumulated contributions over the total of the retirement allowances paid to

the beneficiary shall be paid in a lump sum to the person or persons the member has designated as the contingent beneficiary for return of accumulated contributions, if the person or persons are living at the time the payment falls due, otherwise to the principal beneficiary's legal representative. For purposes of this paragraph, the term "accumulated contributions" includes amounts of employee voluntary contributions that were transferred from the Supplemental Retirement Income Plan of North Carolina to this Retirement System at retirement by eligible law enforcement officers.

In the event a retiree purchases creditable service as provided in G.S. 128-26, there shall be paid to such person or persons as the retiree shall have nominated by electronic submission in a form approved by the Board of Trustees or by written designation duly acknowledged and filed with the Board of Trustees, if such person or persons are living at the time of the retiree's death, otherwise to the retiree's legal representatives, an additional death benefit equal to the excess, if any, of the cost of the creditable service purchased less the administrative fee, if any, over the total of the increase in the retirement allowance attributable to the additional creditable service, paid from the month following the month in which payment was received to the death of the retiree.

In the event that a retirement allowance becomes payable to the designated survivor of a retired member under the provisions above, and such retirement allowance to the survivor shall terminate upon the death of the survivor before the total of the increase in the retirement allowance attributable to the additional creditable service paid to the retiree and the designated survivor combined equals the cost of the creditable service purchased less the administrative fee, the excess, if any, shall be paid in a lump sum to such person or persons as the retiree shall have nominated by electronic submission in a form approved by the Board of Trustees or by written designation duly acknowledged and filed with the Board of Trustees, if such person or persons are living at the time such payment falls due, otherwise to the retiree's legal representative.

In the event that a retiree dies without having designated a beneficiary to receive a benefit under the provisions of this subsection, any such benefit that becomes payable shall be paid to the member's estate."

SECTION 7. This act becomes effective January 1, 2011. Any beneficiary who retired prior to January 1, 2011, will not be allowed to make the one-time election until July 1, 2011. Any administrative fees accessed by the Boards of Trustees may be used to hire additional personnel to administer this act.

HOUSE BILL 2066:
Special Retirement Allowances

2009-2010 General Assembly

Committee:	Senate Pensions & Retirement & Aging	**Date:**	July 7, 2010
Introduced by:	Rep. Bryant	**Prepared by:**	Karen Cochrane-Brown
Analysis of:	Fourth Edition		Committee Counsel

SUMMARY: House Bill 2066 would amend the laws governing the Teachers' and State Employees' Retirement System and the Local Governmental Employees' Retirement System to authorize the creation of special retirement allowances derived from the transfer of a member's eligible accumulated contributions to the Supplemental Retirement Income Plan. The bill also authorizes the Supplemental Retirement Board of Trustees to assess a one-time administrative fee for expenses related to the transfer.

CURRENT LAW:

Under existing law, State and local law enforcement officers are allowed to transfer the entire balance of their accumulated contribution, excluding Roth after-tax contributions, from the Supplemental Retirement Income Plan (401(k) Plan) to the Teachers' and State Employees' Retirement System or the Local Governmental Employees' Retirement System. The member is then eligible to receive a special retirement allowance, in addition to the member's basic service allowance, in the form of an annuity based on the transferred account balance and the member's age at the time of the transfer.

BILL ANALYSIS:

Sections 1 and 4 of House Bill 2066 would authorize law enforcement officers who are vested on June 30, 2010, to transfer a portion of their accumulated contributions rather than the entire balance.

The remaining sections of the bill authorize the creation of special retirement allowances for all members of both retirement systems. The members would be allowed to make a one-time transfer of any portion of a member's eligible accumulated contributions (excluding Roth after-tax contributions) from the Supplemental Retirement Income Plan or the Public Employees Deferred Compensation Plan to the appropriate retirement system. However, the Board of Trustees is authorized to establish a minimum amount that must be transferred. The member could make the election at or at any time following retirement. The member would then be eligible to receive a special retirement allowance similar to what is currently available to law enforcement officers. The special retirement allowance shall receive the same tax treatment as if paid by the Supplemental Retirement Income Plan.

The special retirement allowance would be paid for the life of the member and also for the life of a beneficiary if the member elected to provide a survivorship benefit under Option 2, 3, or 6 at retirement. The Board of Trustees is directed to establish two payment options that guarantee payments. One option would guarantee payments for a specified number of months to be determined by the Board, and another option would guarantee that the sum of payments would equal the total of the amount transferred. In both cases, the member would receive the special retirement allowance for life with the provision that if the member dies prior to the guaranteed event, the special retirement allowance would continue to be paid to a beneficiary or to the member's estate.

The bill also authorizes the Supplemental Retirement Board of Trustees to assess a one-time administrative fee, not to exceed the actual cost of the administrative expenses related to the transfer.

EFFECTIVE DATE: This act becomes effective January 1, 2011. Any beneficiary who retired prior to January 1, 2011, will not be allowed to make the one-time election until July 1, 2011. any administrative fees assessed by the Board of Trustees may be used to hire additional personnel to administer the act.

GENERAL ASSEMBLY OF NORTH CAROLINA

Session 2009

Legislative Actuarial Note

RETIREMENT

BILL NUMBER: House Bill 2066 (Third Edition)

SHORT TITLE: Special Retirement Allowances.

SPONSOR(S): Representative Bryant

FUNDS AFFECTED: Any State or local employee who has funds in the Supplemental Retirement Income Plan and the Public Employee Deferred Compensation Plan.

SYSTEM OR PROGRAM AFFECTED: Teachers' & State Employees' Retirement System, Local Governmental Employees' Retirement System, the Supplemental Retirement Income Plan and the Public Employee Deferred Compensation Plan.

EFFECTIVE DATE: January 1, 2011 for retirees on or after that date and July 1, 2011 for retirees as of December 31, 2010.

BILL SUMMARY:
Sections 1 and 4. Presently all State and local law enforcement officers are eligible to transfer the entire balance of the Supplemental Retirement Income Plan {401(k) Plan}to either the Teachers' and State Employees' Retirement System or the Local Governmental Employees' Retirement System and receive a life annuity based on their age. This bill allows for the transfer of any portion of the fund balance rather than the entire fund balance. Any State or local officer with five or more years of service as of June 30, 2010 will continue to have this benefit.

Sections 2,3, 5 and 6: Creates a Special Retirement Allowance. This will allow all members of the Teachers' and State Employees' Retirement System or the Local Governmental Employees' Retirement System to transfer any portion of their fund balances in either the Supplemental Retirement Income Plan or the Public Employee Deferred Compensation Plan on a onetime election at any time at or after retirement and receive a special retirement allowance which will be based on the amount of funds and age of the member.

The Board of Trustees may establish a minimum amount that must be transferred. The Board shall adopt straight life annuity factors on the basis of yields on U.S. Treasury Bonds and mortality and other tables as may be necessary based upon actual experience. A single set of mortality and other tables will be used for all members based on the age of the member and the election of post-retirement allowance. The Board shall modify the mortality and such other tables every five years based upon the five-year experience study as required. A member shall be taxed for North Carolina State Income Tax purposes on the special retirement allowance the same as if that special retirement allowance had been paid directly by the Supplemental Retirement Income Plan of North Carolina.

Requires the Board of Trustees to provide educational materials to members who apply for the one-time contributions transfer under the section that describe the special retirement allowance, and explain the relationship between the transferred balance and the monthly benefit, and explain how the member's heirs may be impacted by the member's election, including any costs or fees. The bill also allows the Supplemental Retirement Board of Trustees to assess a one-time flat administrative fee not to exceed the actual cost required to administer the transfers.

The special retirement allowance shall be paid to the member for life. The Board of Trustees shall allow a member two payment plan options. The first to be for life with a guaranteed number of months and the second for life with a guaranteed return of the amount transferred.

ESTIMATED IMPACT ON STATE: Both, Buck Consultants, the Retirement Systems' actuary, and Hartman & Associates, the General Assembly's actuary, agree that the changes would not be expected to produce a significant financial impact to the retirement systems.

ASSUMPTIONS AND METHODOLOGY:

Teachers' & State Employees' Retirement System

The cost estimates of the System's Actuary are based on the employee data, actuarial assumptions and actuarial methods used to prepare the December 31, 2008 actuarial valuation of the fund. The data included 325,618 active members with an annual payroll of $13.3 billion, 151,353 retired members in receipt of annual pensions totaling $3.1 billion and actuarial value of assets equal to $55.1 billion. Significant actuarial assumptions used include (a) an investment return rate of 7.25%, (b) average salary increase rate of 6.25%, (c) the 1994 Group Annuity Mortality Tables (tables are not adjusted for male teachers, set forward one year for female teachers, set forward two years for general employees and law enforcement officers and set forward two years for the beneficiaries of deceased member), and (d) rates of separation from active service based on System experience. The actuarial cost method used was the entry age normal cost method and a frozen liquidation period of nine years. Detailed information concerning these assumptions and methods is shown in the actuary's report, which is available upon request from Stanley Moore.

Local Governmental Employees' Retirement System

The cost estimates of the System's Actuary are based on the employee data, actuarial assumptions and actuarial methods used to prepare the December 31, 2008 actuarial valuation of the fund. The data included 123,524 active members with an annual payroll of $4.97 billion, 44,311 retired members in receipt of annual pensions totaling $744.7 million and actuarial value of assets equal to $17.1 billion. Significant actuarial assumptions used include (a) an investment return rate of 7.25%, (b) salary increase rate of 6.25%, (c) the 1994 Group Annuity Mortality Tables, (tables are forward three years for males, set forward two years for females and set forward two years for the beneficiaries of deceased members and special mortality tables are used for period after disability retirement), and (d) rates of separation from active service based on System experience. The actuarial cost method used was the projected benefit method with aggregate level normal cost and frozen accrued liability. Gains and losses are reflected in the normal rate. Detailed information concerning these assumptions and methods is shown in the actuary's report, which is available upon request from Stanley Moore.

A BILL TO BE ENTITLED

AN ACT TO ALLOW A SALES TAX REFUND TO A JOINT GOVERNMENTAL AGENCY CREATED TO OPERATE A CABLE TELEVISION SYSTEM; TO DIRECT THE REVENUE LAWS STUDY COMMITTEE TO CONTINUE ITS REVIEW OF LOCAL GOVERNMENT OWNED AND OPERATED COMMUNICATION SYSTEMS, AND TO CLARIFY A SELLER'S OBLIGATION WITH REGARD TO THE OVERCOLLECTION OF SALES AND USE TAX.

The General Assembly of North Carolina enacts:

SECTION 1. A joint agency created by an interlocal agreement pursuant to G.S. 160A-462 to operate a cable system that provides video programming services is allowed a refund of sales and use tax paid by it on purchases made on or after July 1, 2007, and before June 30, 2010, to the same extent allowed to a city under G.S. 105-164.14(c). Notwithstanding G.S. 105-164.14, the joint agency must make a request for a refund in writing before January 1, 2011.

SECTION 2.(a) Continue Study of Local Government Owned and Operated Communication Systems – The Revenue Laws Study Committee may continue its study begun in 2009 of local government owned and operated communication systems and to report its findings and any recommended legislation on this subject to the 2011 General Assembly by March 1, 2011. As part of its study, the Committee shall determine the following:

(1) The extent to which current law authorizes units of local government to offer communication services not traditionally thought of as cable television services.

(2) The requirements and standards that should apply to a unit of local government and to a private provider when the local unit offers a communication service that is offered by a private provider.

(3) Whether varying or different provisions are needed to accommodate communication systems placed in service or financed under G.S. 160A-20 by cities before the effective date of this act.

(4) Policies and incentives that can be established to facilitate the offering and expansion of communication service by both public and private service providers, including public-private ventures and other opportunities.

SECTION 2.(b) In conducting the study described in subsection (a) of this section, the Revenue Laws Study Committee cochairs are authorized to appoint an advisory subcommittee and to ask the Local Government Commission to designate an individual to

participate in the subcommittee's deliberations in an exofficio, nonvoting capacity. The subcommittee may consist of no more than 14 members and may include individuals who are not members of the Committee or of the General Assembly, 10 of whom represent the following interests:

(1) A cable service provider.
(2) A wireless telecommunications service provider.
(3) A local exchange provider that is not a wireless telecommunications service provider.
(4) A local exchange provider that is a wireless telecommunications service provider.
(5) A telephone membership corporation.
(6) A city that operates a cable system and an electric power system as a public enterprise.
(7) A city that operates a cable system as a public enterprise and does not operate an electric power system as a public enterprise.
(8) A city that is a member of a joint agency established under G.S. 160A-462 for the operation of a cable system as a public enterprise.
(9) The North Carolina League of Municipalities.
(10) The North Carolina Association of County Commissioners.

SECTION 3. G.S. 105-164.11(a) reads as rewritten:

"(a) Remittance of ~~Over-Collections~~ Overcollections to Secretary. – When ~~the~~ tax is collected for any period ~~is~~ on a taxable sale in excess of the total amount that should have been ~~collected,~~ collected or is collected on an exempt or nontaxable sale, the total amount collected must be ~~paid over~~ remitted to the Secretary. ~~When tax is collected for any period on exempt or nontaxable sales the tax erroneously collected shall be remitted to the Secretary and no refund shall be made to a taxpayer unless the purchaser has received credit for or has been refunded the amount of tax erroneously charged.~~ The seller who overcollected the tax is not allowed a refund of the overcollected tax unless the seller gives the purchaser credit for or a refund of the overcollected tax. If the Secretary determines that a seller who overcollected tax on a transaction is liable for use tax on the transaction rather than sales tax or is liable for sales tax on the transaction rather than use tax, the seller may apply the overcollected tax to the seller's liability for use tax or sales tax on the transaction. This ~~provision~~ subsection shall be construed with other provisions of this Article and given effect so as to result in the payment to the Secretary of the total amount collected as tax if it is in excess of the amount that should have been ~~collected.~~collected and to preclude collection of both a sales tax and a use tax on the same transaction."

SECTION 4. This act is effective when it becomes law. Section 3 of this act applies to liabilities that accrue on or after that date, are not collectible as of that date, or are the subject of a final agency decision made on or after January 1, 2010.

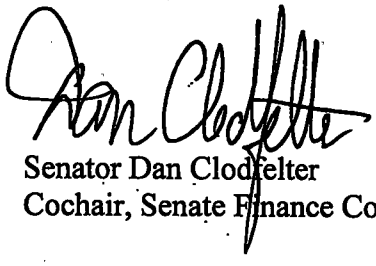
Dear Mr. Secretary,

When the Revenue Laws Study Committee heard earlier this spring the Department's presentation about the results of the Resolution Initiative and about plans for a second round of that initiative, the Committee requested some additional detail and explanation of the elements of the projected $110 million recovery from round two, such as the number of taxpayers expected to be involved, a description of the types of tax questions that were expected to dominate the second round of the initiative, and how many of the taxpayers involved in the second round were expected to choose litigation over settlement. The Senate budget's availability statement included the Department's projection of the recovery from round two, although we did this before we had yet received the supplemental information requested by the Revenue Laws Study committee.

Because questions have now been raised about the impact of Section 31.10 of the Senate budget on the projected recovery from round two of the resolution initiative, we believe it is even more important to obtain the additional information requested earlier. As you and Senator Clodfelter discussed, we are planning to take up SB 1172 in the Senate Finance Committee next week, even though the same provision was included in the Senate budget, so that the Department and members can have a chance to review the questions that have recently surfaced about that provision. We offer you an opportunity to speak to the Committee when the bill is taken up and very much hope you can do so. We would ask that in addition to any other thoughts and comments you may have about the bill that you also address in your remarks the information items requested at the Revenue Laws meeting from April. In addition, we would be interested in knowing what portion of the projected $110 million from round two of the initiative is expected to come from penalties, as distinguished from principal and interest.

Thank you for attention to our request.

Very truly yours,



Senator Dan Clodfelter

Dear Senator Hoyle:

The Enhanced Cigarette Exportation Tax (Part 1 of Article 4 of Chapter 105 of the General Statutes) requires:

> "Any corporation that takes a credit under this section must submit an annual report by May 1 of each year to the Senate Finance Committee, the House of Representatives Finance Committee, the Senate Appropriations Committee, the House of Representatives Appropriations Committee and the Fiscal Research Division of the General Assembly. The report must state the amount of credit earned by the corporation during the previous year, the amount of credit including carryforwards claimed by the corporation during the previous year, and the percentage of domestic leaf content in cigarettes produced by the corporation during the previous year. The first reports required under this section are due by May 1, 2006."

R. J. Reynolds Tobacco Company is claiming approximately $6.0 million during the 2009 tax year. This amount does not include any carry-forwards from previous years.

The percentage of domestic tobacco used in R. J. Reynolds Tobacco Company's cigarette production is 40.4 percent.

If you need additional information or more details, please do not hesitate to contact me directly.

Sincerely yours,

Brennan Dawson
