PROGRAM ACTIVITIES AND ACCOMPLISHMENTS REPORT
Report Template D: Please use this reporting template for the END OF YEAR report

Recipient Name:	Greater High Point Food Alliance
Recipient Tax ID #	83-3310391
Project/Activity Title:	Directed Grant
Recipient's Fiscal Year End:	June 30, 2022
Report Completion Date:	July 14, 2022
Preparer of This Report:	Rebekah Dobbins, Community Liaison
<p>1. What were the original goals and expectations for the activity supported by this grant?</p> <p>The Greater High Point Food Alliance will utilize this grant funding to support our staff's day to day operations, local food pantries, and to provide support to the seniors within our community via the delivery of fresh produce boxes, provide support to young mothers through baby formula assistance within our community in collaboration with our local YWCA's Women's Resource Center, provide education to our youth via our library's Power of Produce (POP Club), and increase leadership capacity within our local food pantries through a Growing Towards Leadership Program which focuses on themes such as succession planning, organizational assessment, and trauma informed patron relations.</p>	
<p>2. If applicable, how have those goals and expectations been revised or refined during the course of the project?</p> <p>Currently, our overall goals remain the same. Our biggest obstacle is the extreme shortage of baby formula. The YWCA of High Point has not had access to purchase baby formula during this shortage as estimated, but we know the need is great. If national supplies return to normal levels, we expect this program to remain on track.</p>	

3. What has the activity accomplished with these grant funds? Please include specific information including facts and statistics to support conclusions and judgments about the activity's impact.

Through this funding the Greater High Point Food Alliance supplied 10 of our local food pantries with over 31,000 grocery bags needed to prepare their food for distribution, supplied 90 boxes of produce to 18 senior led families for four weeks, and provided education to 76 youth via our library's Power of Produce (POP Club). These children are between the ages of 4-12. Of the surveyed participants of the POP Club, over 65% report living in food deserts and over 69% participate in either SNAP, WIC or Free or Reduced lunch programs. Over 89% responded that they are attending the Farmers Market because of the POP Club. This Club introduces, engages, and excites its participants as they learn the value of healthy, nutritious foods, and financial literacy. We were also able to provide pens with the logo of the Food Alliance for presentation purposes to the library's new POP Club participants as well as other community partners. We are working to increase the awareness of our role within our community. Our staff continue to work within our community through meetings with partner agencies and community leaders. We have met with local food providers and leaders to work to disseminate information regarding the current food shortages within our pantries that is exacerbated by the increase in patrons due to the rising costs in everyday living. In June, we updated and distributed 550 summer Community Resource Guide that lists local food pantries and summer food sites for Guilford County School students. Most of our works impacts community members that live in food deserts. A food desert is defined as regions where people have limited access to healthful and affordable food. "A considerable amount of research demonstrates that people living in or near poverty have disproportionately worse health outcomes and less access to health care than those who do not.^{10, 11, 12, 13} In addition, neighborhoods with many poor or low-income residents often have fewer resources that promote health (e.g., full-service grocery stores offering affordable and nutritious foods, parks and recreational facilities that encourage physical activity) and have more environmental threats that harm health (e.g., poor air and water quality, poor housing conditions) compared to higher-income neighborhoods.^{14, 15, 16, 17}" from: [Food Research & Action Center](#)

4. If the activity is a continuing one, briefly summarize future plans and funding prospects.

Although this is the end of the current fiscal year, we just received this funding in March of this year, therefore our funding goes through June of 2023. We will continue to work on our goals as defined in this grant through the next fiscal year.

If there are any questions, please contact the Contract Administrator.
