Re: Reports on Water Resources Development Funds

Dear President Pro Tempore Berger and Speaker Moore:

The North Carolina General Assembly appropriates funds to the Department of Environmental Quality to provide the state share of the cost of water resources development projects being constructed or maintained across the state. The law appropriating these funds requires the Department to make semi-annual reports on expenditures for this purpose. Attached are reports covering the third and fourth quarters of FY 2021-2022.

These reports were prepared by the Division of Water Resources in the Department of Environmental Quality. If you have questions about these reports, please contact Kevin Hart at 919-707-3607.

Sincerely,

A handwritten signature in black ink, appearing to read 'Kevin Hart', is placed over a light blue rectangular background.

Kevin Hart
