Making Number Talks Work in the K-5 Classroom - Online

Now more than ever we know the importance of routines for students in math instruction. Building students' number sense should still be an integral part of the math block, even if it has to look a little different. Whether you are new to number talks or looking for resources to refresh your number talks, join NCCAT virtually from 4:00-5:30pm to learn this about this strategy and explore resources. This program is intended for math teachers and instructional coaches in grades K-5.

Join us for Making Number Talks Work in the K-5 Classroom on Oct. 19th. This is a virtual course starting at 4 p.m.!
