NORTH CAROLINA
State Board of Education
Department of Public Instruction

Report to the North Carolina General Assembly

Low-Performing Districts and Schools, Improvement Planning, and Statewide Support

HB 2436 (Sec.7.3a-7.3b)

SL 2007-323.Sec.7.18(b)

HB 1473, 2007

Budget Act G.S. 115C-12(25)

NC DEPARTMENT OF PUBLIC INSTRUCTION

Catherine Truitt, State Superintendent :: 301 N. Wilmington Street :: Raleigh, North Carolina 27601-2825

In compliance with federal law, the NC Department of Public Instruction administers all state-operated educational programs, employment activities and admissions without discrimination because of race, religion, national or ethnic origin, color, age, military service, disability, or gender, except where exemption is appropriate and allowed by law.

Inquiries or complaints regarding discrimination issues should be directed to:
Thomas Tomberlin, Director of Educator Recruitment and Support, NCDPI
6301 Mail Service Center, Raleigh, NC 27699-6301 / Phone: (984) 236-2114 / Fax: (984) 236-2099

Committee on Low-Performing Districts and Schools, Improvement Planning, and Statewide Support

---

Executive Summary

G. S. §115C-12(25) requires the State Board of Education to submit a report to the Joint Legislative Education Oversight Committee (JLEOC) annually regarding districts and schools identified as low-performing, effective improvement planning, and recommendations for additional legislation to improve student performance and increase local flexibility.

This report contains information regarding the implementation of new and/or amended statute in G. S. §115C-105.37. Identification of low-performing schools; G. S. §115C-105.37B. Reform of continually low performing schools; and G. S. §115C-105.39A. Identification of low-performing local school administrative units. Specifically, the report provides a summary about the results of the steps and process developed and implemented by the North Carolina Department of Public Instruction to support those districts and schools identified as low performing based on the 2021-2022 performance results. Additionally, the report includes the plans for reviewing and providing feedback on the improvement plans based on the results and appendices with the resources, documents, and calendar of events to be provided to districts and schools across the state with low-performing schools.

Table of Contents

Table of Contents

Overview of Legislation and District/School Data

The following report provides a brief summary of legislation about the definition of low-performing schools and low-performing local school administrative units. In addition, the report provides a general analysis of trends and patterns identified in the plans submitted to the Department of Public Instruction for feedback. Also included in the report are the final results of performance and growth data for low-performing districts and schools based on the analysis of School Performance Grades (SPG) from the 2021-2022 year. The report specifically presents the following information and data:

1. Summary of the legislation concerning low-performing districts and schools,
2. Summary of findings based on the submitted Low-Performing Local School Administrative Units' and Schools' improvement plans,
3. Summary analysis of 2021-2022 Accountability results, and
4. Overview of the projected timeline and process for the 2021-2022 improvement plans based on low-performing results.

Legislation

In September 2015, Session Law 2015-241 House Bill 97, provided amended definitions for low-performing schools and a new designation for low-performing districts. Included in both the amended and new designations were specifically defined processes, procedures, and requirements for low-performing schools and districts. The following tables provide summary information regarding the requirements based on current legislation:

Table 1: September 2015 Statute for Low-Performing Schools and Local School Administrative Units

General Statute	Explanation
§ 115C-105.37. **Identification of low-performing schools**	Defines low-performing schools as those that receive a school performance grade of **D** or **F** *and* a school growth score of "**met expected growth**" or "**not met expected growth**"
§ 115C-105.39A. **Identification of low-performing local school administrative units**	Defines a low-performing school administrative unit as a unit in which the **majority** of the schools in that unit that earned an overall school performance grade and school growth score identified as **low-performing schools**

Table 2: Low-Performing Legislative Requirements

Requirement According to Legislation	Explanation	Timeline/Deadline
Identification	State Board of Education identifies low-performing schools and low performing districts	Annually
Low-Performing Schools		
Principal Decision	Superintendent determines from 4 options employment of the principal of each low-performing school	Within 30 days of low-performing designation
School Plan for Improvement	A preliminary plan (with public input) for improving both the school performance grade and school growth score submitted to the local board	Within 30 days of low-performing designation
Written Notification to Parents	Written notice should contain school's performance grade and growth score earned, and plan for improvement	Within 30 days of low-performing designation
Local Board Approval	Local Board approves, modifies, or rejects preliminary plan	Within 30 days of receiving the plan
Submit plan to State Board	The plan is submitted to the State Board for recommendations	Within 5 days of local board approval
Feedback regarding the plan	The State Board reads and provides recommendations about the plan	Expeditiously
Consider feedback	Local board amends the plan as needed and submits final plan to the State Board	After local board final approval
Access to the final plan	The final plan is accessible through local school administrative unit website and the NC Department of Public Instruction's website	Upon final submission
Low-Performing Local School Administrative Unit		
Principal Decision	Superintendent determines from 4 options employment of the principal of each low-performing school	Within 30 days of low-performing designation
District Plan for Improvement	A preliminary plan (with public input) for improving each schools' performance grade and school growth score, monitoring each schools' progress, and administrative unit's possible policy changes is submitted to the local board	Within 30 days of low-performing designation
Written Notification to Parents	Written notice should be sent to parents of all students attending any school deemed low-performing in the local administrative unit. Notification should define low-performing local school administrative unit, percentage of schools identified, information about individual low-performing school, and plan for improvement	Within 30 days of low-performing designation
Local Board Approval	Local Board approves, modifies, or rejects preliminary plan	Within 30 days of receiving the plan
Submit plan to State Board	The plan is submitted to the State Board for Recommendations (December 2019)	Within 5 days of local board approval

Feedback regarding the plan	The State Board reads and provides recommendations about the plan	Expeditiously
Consider feedback	Local board amends the plan as needed and submits final plan to the State Board	After local board final approval
Access to the final plan	The final plan is accessible through local school administrative unit website and NC Department of Public Instruction's website	Upon final submission

Execution of Legislation

The Department of Public Instruction provides a series of support services to guide districts and schools through the statutory requirements of the low performing designation. In the month of September 2021, the Department's Office of District & Regional Support provided multiple communications streams to districts about S.B. 654 which continued designations from the 2018-2019 year, continued availability of School Improvement Plans on the Department's website, eliminated parental notification, and continued assistance and intervention levels provided for the 2019-2020 school year. Districts/schools were given until December 4, 2021 to update/submit the 2020-2021 improvement plan and archive the previous year's plan with a deadline of January 31, 2021, for receiving feedback from the Office of District & Regional Support. After reminder emails, 98% of the schools designated as Low Performing submitted an improvement plan via the NCStar platform. These schools were offered support with school improvement planning and NCStar from School Leadership Coaches and other members of District & Regional Support specially trained to offer support. Formal letters were not sent to those out of compliance due to the continuation of the designation in S.B. 654.

Trends and Patterns from Low-Performing Plans

The Office of District & Regional Support and the Office of Charter Schools provided feedback to Low-Performing districts, schools, and charters within each region through NCStar. NCStar is a web-based tool that guides a district or school team in charting its improvement and managing the continuous improvement process. The plans for improvement submitted by low-performing districts and schools focused on practices that would help achieve yearly goals and were submitted to the North Carolina Department of Public Instruction for feedback through NCStar. Many of the plans contained similar strategies for addressing the needs in low-performing schools and the data summarized in Table 3 also suggests implications for ongoing professional development to continue to build the capacity of district and school personnel. Identifying these trends has been an integral aspect of developing and continuing effective practices of support for classroom, building level, and district level personnel.

In addition to the themes found in Table 3, one common finding is the limited coaching statewide that is occurring from district to schools regarding school improvement. Many districts lack the human capital and resources to devote time to assist school administrators and/or school improvement teams. A recent study by the SERVE Center at UNC-G also found the need for constructive communication between districts and schools around school improvement planning[1]. Respondents in the SERVE study indicated that the support and guidance provided by district coaches when available were of great help. Unfortunately, a number of respondents to the study shared that no district coach was assigned to their school.

[1]SERVE Center at UNCG. (August 2019). NCStar: A pilot study of fidelity of implementation.

Table 3: Common Themes in Low-Performing Plans

Plan is a compliance artifact that helps meet statutory requirements instead of a guiding, living document that drives improvement
No performance measures that help the school keep track of progress towards goals and allow for data-driven decisions to be made throughout the school year
Lack of understanding of a tiered-instructional model that contains interventions that help all students achieve success
Attempting to address all areas of need instead of focusing on a limited number of effective practices - a concentrated approach to school improvement
Stagnant plan instead of it being continuously revised and adjusted as student needs are addressed
Overall necessity to develop action steps that help sustain effective practices even with yearly human capital changes
Limited distribution of leadership which assists in growing leaders and building internal capacity

Strategic Reform Services: School Reform Models

In addition to the themes identified through these plans, the State Board of Education sought to identify practices that nationally supported school and district improvement. Successful implementation with fidelity of the components of the school reform models Transformation, Turnaround, Restart, and Closure showed promise in improving chronically under-performing schools nationally. Aligning with North Carolina's law for reform of low-performing schools (G.S. 115C-105.37B) the State Board of Education adopted a policy (DSTR-040) in May of 2016, allowing recurring low-performing schools an opportunity to apply for approval to implement components of these reform initiatives.

A summary of each reform initiative can be found in Table 4. Recurring low-performing schools are those schools that have been low-performing for two of the previous three consecutive years. The list of recurring low-performing schools can be found in the Appendix.

In March of 2020, the State Board of Education approved updates to the DSTR-040 policy, which provided clarification on the criteria for Academic Gain, the monitoring cycle, and the continued authorization for Restart schools. Due to the impact of COVID19, the policy was updated again in May of 2020 and November 2021, to account for the lack of performance data to extend the monitoring cycle. In December of 2020, the policy was updated to include an express commitment to Restart model during the full monitoring cycle. In September of 2022, revisions to the policy included clarification concerning Continued Authorization, support, and Removing Authority for the Model.

Table 4: School Reform Models

Transformation	In order to qualify for implementation of the transformation model, the LEA must demonstrate that a school has created a plan for developing and improving teacher and school leader effectiveness; for implementing comprehensive instructional reform strategies; for increasing learning time; for creating community-oriented schools; and for providing operational flexibility and sustain support. The LEA shall submit specific goals for academic

	achievement and shall submit a budget showing the revenues and expenditures needed to reach the goals.
Turnaround	In order to qualify for implementation of the turnaround model, the LEA submits specific grounds supporting the implementation of this model; specifies the academic goals expected from implementation of this model; specifies the procedures to be utilized in removing staff, including procedures consistent with Due Process; describes with specificity the new governance structure and the budget to be implemented; sets forth specific academic achievement expected to be realized from use of this model.
Restart	In order to qualify for implementation of the restart model, the LEA submits a detailed plan outlining the goals to be achieved, including how to provide each student with the opportunity for a sound basic education; a statement as to how operating the school with the same exemptions from statutes and rules as a charter school authorized under N.C.G.S. 115C-218 et seq. will facilitate accomplishing these goals; how these exemptions will increase student achievement; whether the LEA will employ an educational management organization and, if so, the name and credentials of that organization and a budget setting out anticipated revenue and expenditures necessary to achieve the goal. A school operated under this subdivision remains under the control of the local board of education, and employees assigned to the school are employees of the local school administrative unit.
Closure	In order to qualify for implementation of the closure model, the LEA submits the specific grounds recommending closure of a particular school; the procedures it intends to follow in closing the school, including opportunities for public hearing; the procedures for ensuring a smooth transition for employee and students affected by the closure; how the resources realized from closure will continue to support student achievement, and the specific academic gains expected to be realized by the closure.

As of July 2022, twenty-eight school districts have been approved to implement a reform model, all of which selected the Restart Model. Table 4.1 summarizes the current information of authorization for reform model implementation.

Table 4.1: School Reform Model Totals

Reform Model Selected	Number of Participating Schools
Transformation	0
Turnaround	0
Restart	151
Closure	0

All Reform Models are required by GS 115C-105.37B and State Board Policy DSTR-040 to submit an Annual Report documenting academic gains. Schools complete the report all subsequent years after completing the first year of implementation of the approved Reform Model. Table 4.2 summarizes the number of schools submitting an annual report after their initial year of implementation. The 58 schools in Cohort 1 have implemented the Restart Model since either 2016-2017 or 2017-2018. There are 49 schools from Cohort 2 who have implemented the model since 2018-2019. Cohort 3 included an additional 13 schools implementing the model since 2019-2020. Finally, Cohort 4 included an additional 16 schools implementing the Restart Model since 2020-2021.

Table 4.2: Annual Report Summary – Number of Schools Reporting

Annual Report Restart Schools	Number of Participating Schools	Cohort
Submitted March 2019*	58	Cohort 1
Submitted December 2019	107	Cohort 1-2
Submitted December 2020	120**	Cohort 1-3
Submitted December 2021	135	Cohort 1-4

*Submission deadline delaying due to Hurricane Florence. Original submission date would have been December 2018.

**One school in Cohort 1 has since rescinded their Restart application adjusting the current total to 119 Restart schools in Cohort 1, 2, & 3.

Restart Model schools are monitored for their progress in demonstrating Academic Gain. There are five criteria for Academic Gain including: Recurring Low-Performing designation, School Growth Status, Achievement Score, Subgroup Growth Status, and school defined Flexibility Outcomes.

Yearly progress monitoring is conducted to inform the school if they are above, meeting, or not meeting the expectations for Academic Gain and based on a comparison between the year before implementation and the most recent year of implementation.

For the 2020–21 school year, the United States Department of Education and the North Carolina General Assembly granted North Carolina waivers from school accountability (School Performance Grades). Therefore, Academic Gain Results for the 135 Restart schools who submitted *December 2021 Restart Annual Report* were not calculated for Continued Authorization.

The *December 2021 Restart Annual Report* only required reporting on the Restart flexibilities utilized in the 2020-2021 school year. Of the 135 schools implementing the Restart Model and required to report, the following Table 4.5 represents a summary of the flexibilities reported as being employed in the Annual Report. Flexibilities are self-reported in the annual report.

Table 4.3: Restart Model Summary on Utilized Flexibilities During 2020-2021

(Based on December 2021 Annual Report)

Flexibility/Exemption from law	Percentage of Schools Utilizing Flexibility	Number of Schools Utilizing Flexibility
Budget	95%	128 / 135 schools
Calendar	17%	23 / 135 schools
Employment Requirement	39%	52 / 135 schools
Standard Course of Study/Curriculum	7%	10 / 135 schools
Assessment	12%	12 / 135 schools

The Restart Annual Report is due on December 1st of each year as outlined in SBE DSTR-040 policy. The deadline for the upcoming *December 2022 Restart Annual Report* is December 1st, 2022, and thus, Academic Gain results will be calculated after this time. Preliminary data released to the SBE in September 2022 indicate the following changes based on 2021-2022 performance data:

Percentage of Restart Schools by Growth Status
Table 4.4 Percentage of Restart Schools by Growth Status

Growth Status	2018-2019*	2018-2019 %	2021-2022	2021-2022 %
Not Met	39	37%	38	26%
Met	47	44%	72	48%
Exceeded	20	19%	39	26%
Total Schools Operating	106		149	
*Growth Status was not available for 2020-2021 due to the USED and the NCGA waiver granted to North Carolina from school accountability (School Performance Grades).				

Percentage of Low Performing Designations in Restart Model Schools
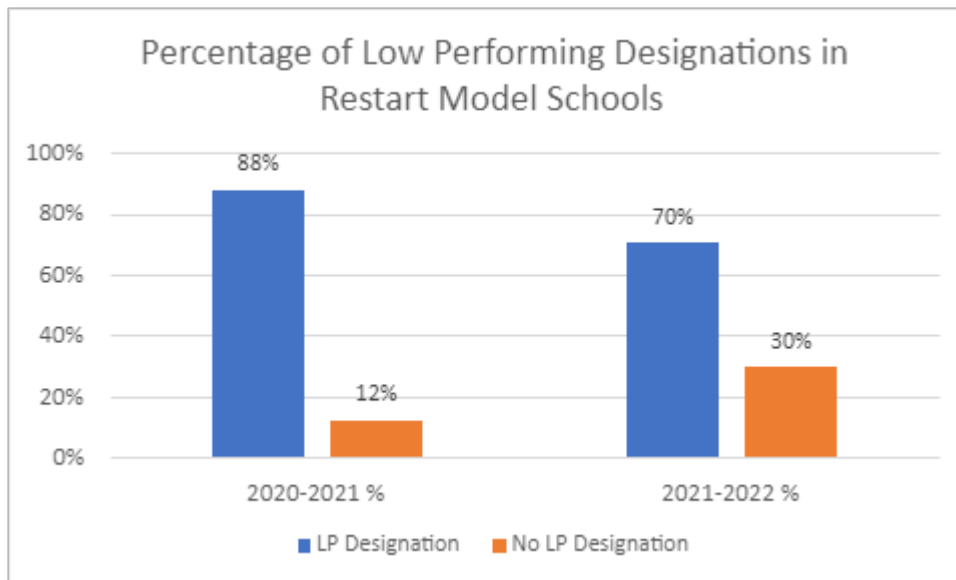

Table 4.5 Percentage of Low Performing Designations in Restart Model Schools

Low Performing Designation	2020-2021*	2020-2021 %	2021-2022	2021-2022 %
LP Designation	116	88%	105	70%
No LP Designation	16	12%	44	30%
Total Schools Operating	132		149	
*2020-2021 designations continued from 2018-2019 based on North Carolina General Assembly Session Law 2021–130.				

Low-Performing Districts and Schools

In September of 2022, the State Board of Education approved the lists of 2021-2022 low-performing schools, traditional and charter, and low-performing districts and recurring low-performing schools. The full list of schools and districts can be found in the Appendix beginning on page 24.

Accountability Data Sets and Reports

The 2021–22 school year was the third school year with impacts from the COVID-19 Pandemic. Schools resumed face-to-face instruction, and virtual programs continued to be available for students. Students and the education community continued to be affected by COVID, particularly when COVID exposures required students to be absent from school or revert to remote learning. This report must be reviewed within that context, meaning, though instructional delivery was not as varied as in the 2020–21 school year, it continued to be an anomaly in comparison to the 2018–2019 school year, which was prior to the onset of the pandemic. The table below provides a summary of the low-performing schools and districts by NC State Board Region.

Table 5: Summary of the 2021-22 Low-Performing Traditional Schools, Charter Schools and Districts

Designation	Total	Southeast Region	Northeast Region	North Central Region	Sandhills Region	Piedmont-Triad Region	Northwest Region	Southwest Region	Western Region
Low-Performing Traditional Schools	793	84	67	138	84	173	45	165	37
Low-Performing Public Charter Schools	67*	9	2	17	6	9	0	22	0
Low-Performing Lab School	4	1	1	0	0	2	0	0	0
Low-Performing District	29	2	10	6	2	5	0	3	1

*The 2 Virtual Charter Schools are not assigned to a region

Table 6 below provides the summary of schools and districts removed (No Longer Designated), newly identified (Newly Designated), the net change from the 2020-2021 (based on 2018-19 data) and the new total for 2021-2022. When comparing the results from 2020-2021 to 2021-2022, there is an overall increase of 376 low-performing schools, from 488 to 864. Although, it should be noted that even with the recovery from the pandemic, 146 schools were no longer designated as Low Performing. When comparing the low-performing districts in 2020-2021 to 2021-2022, there was an increase of 20 low-performing districts, from 9 to 29. Further analysis of the data shows a breakdown of schools and districts that remain on the list, the

totals that are no longer low-performing and those schools and districts newly identified in the recent release of Accountability results.

Table 6: Comparison Data for 2020-2021 to 2021-2022

	Total 2020-2021	No Longer Designated	Newly Designated	Net Change	Total 2021-2022
All Schools	488	146	522	**(+376)**	864
Traditional Public	441	131	483	**(+352)**	793
Public Charter	42	14	39	**(+25)**	67
Lab School	5	1	0	**(-1)**	4
Districts	9*	3*	23	**(+20)**	29
Recurring Traditional LP Schools	423	52	93	**(+41)**	464
Continually LP Charters	38	10	7	**(-3)**	35

* This count includes ISD as a district which transferred ownership of Southside Ashepole ES back to Public Schools of Robeson County in June 2022.

Tables 7.1-7.4 show a breakdown of the 2021-2022 school performance grade and growth status for the 864 low-performing schools by the definition criteria established in Session Law 2015-241 House Bill 97.

Table 7.1: 2021-2022 **Low-Performing Schools Total by Grade and Growth**

ALL LP SCHOOLS	**Letter Grade D Growth MET**	**Letter Grade D Growth NOT MET**	**Letter Grade F Growth MET**	**Letter Grade F Growth NOT MET**
Low-Performing Traditional Schools	292	280	95	126
Low-Performing Charter Schools	28	22	10	7
Low-Performing Lab Schools	1	0	3	0

Overview of North Carolina Department of Public Instruction Support

The Department of Public Instruction provides a series of support services to districts and schools designated as low performing. Webinars were held in September to guide districts/schools through the statutory requirements of the low performing designation including the timeline to submit improvement plans, samples of parental notification, and guidance for the super observation process. Once all plans are submitted to the State Board of Education through NCStar, feedback will be given to each school and district based on best practices related to school improvement planning. Professional Development is held every fall and spring to provide technical assistance on NCStar and to share best practices for continuous improvement. Additional services are provided to designated schools through the Office of District & Regional Support.

Office of District & Regional Support

The statewide unit of District and Regional Support (DRS) within the Division of District & School Support Services provides support for Low Performing and Recurring Low Performing Schools across the state. The division includes the following sections: Educator Advancement, School/District Improvement Plan Support, Diagnostic Services, Strategic Reform, and the currently piloted, intensive intervention known as Transformation (CARES). The mission of DRS is to provide support to identified districts and schools through partnerships that result in every child having equitable access to a meaningful, sound basic education. DRS works on the development and implementation of processes, procedures, and structures that will lead to higher student achievement and sustainable change. As the needs of the district or school increase, the level of services provided also increases.

Diagnostic Services: Comprehensive Needs Assessments and Follow-Up Support

Diagnostic Services provide evidence-based frameworks to assist identified districts/schools in analyzing and determining the impact of practices on student learning. Diagnostic Services result in a diagnosis of strengths and weaknesses to support districts and schools in improving outcomes. These steps are essential in supporting low performing schools. NC DPI's Comprehensive Needs Assessment process is a systematic assessment of instructional practices, processes, and systems within a school district that assists district and school leadership in determining needs, examining their nature and causes, and setting priorities for future action led by the Diagnostic Services team. The assessment consequently guides meaningful strategic/improvement planning at both the district and/or school level and suggests benchmarks to guide improvement evaluation. Research suggests that school districts that undergo a careful analysis of data and information from a third-make better decisions about what to change and how to institutionalize systemic change. The district/school Comprehensive Needs Assessment provides a framework for conducting this analysis in a process-driven, evidence-based way.

Prior to the assessment, professional development is provided to principals and central office staff that explains the following:
- the Comprehensive Needs Assessment process;
- the NC DPI Comprehensive Needs Assessment rubric (which has been revised to include Early Learning indicators) utilized during the district/school assessment;
- personnel's role in the assessment; and
- preparation of a Self-Evaluation that begins the review process.

The site visit conducted as part of the process consists of the following:

- collaborative discussions with district and school leadership;
- classroom visits; and
- focus group sessions with teachers, students, and parents.

All of which are underpinned by the NC DPI Comprehensive Needs Assessment rubric.

The District Comprehensive Needs Assessment site visit consists of the following:
- collaborative discussions with the superintendent;
- collaborative discussions with district-level staff;
- focus group sessions with school board members and principals; and
- observation of a school board meeting.

All of which are underpinned by the NC DPI Comprehensive Needs Assessment rubric.

The assessment culminates with a report that:
- triangulates the evidence found during the assessment process and reports findings for all six dimensions of the NC DPI Comprehensive Needs Assessment rubric in terms of evidence and resulting impact on students and improvement efforts;
- is written in draft form and sent to district or school leadership for a check of factual accuracy; and
- is finalized and provided to district, school, and Department of Public Instruction leaders so that they may use this information to drive, revise, and support improvement efforts.

After the completion of the Comprehensive Needs Assessment Process, the Diagnostic Services team provides follow-up support by way of a Virtual Bridge Support session with the school's administrative team and a two-day professional development session referred to as the "CNA Unpacking." Over the course of the two-day "CNA Unpacking" session an assigned Instructional Review Coach or Diagnostic Liaision works the school principal and the School Improvement Team to accomplish the following:
- deepening the staff's understanding of the NC DPI Comprehensive Needs Assessment process and rubric;
- reading the report in its entirety and identifying and analyzing the evidence reported with a focus on noting and discussing IMPACT of the work on students and improvement efforts;
- engaging in and completing a root cause analysis exercise around one of the identified areas for improvement;
- engaging in a detailed strategic planning activity to address one of the resulting root causes; and
- connecting resulting actions to existing improvement indicators and incorporating changes and revisions based on the work over the course of the two-day session into the school's improvement plan.

Work started during the Unpacking training is continued by the Diagnostic Liaisons (DL) who works alongside school leaders and engages in the subsequent Unpacking training to:
- build capacity for effective self-assessment using tools from the CNA process;
- Work with schools in building processes to support a cycle of continuous improvement;
- develop tools and training aligned with identified needs resulting from the CNA process;
- collaborate with regional team members in order to leverage diagnostic findings and cross-agency support; and
- support School Improvement Teams in both strategic planning and progress analysis using results from the CNA process.

Follow-up support for districts that have engaged in a Comprehensive Needs Assessment includes engaging with the Superintendent, district-level staff, and some board members in the same professional

development work as described above to support district leadership in improving the districts strategic plan and support for schools.

In response to House Bill 1050, the Comprehensive Needs Assessment rubrics have been amended to include a high-level review of early childhood learning opportunities in low-performing administrative units, highlighting any areas for improvement that may arise related to (1) training levels of early childhood teachers and support staff (2) the ratio of students to teachers (3) alignment of preschool curricula to curricula for kindergarten through third grade (4) kindergarten transition supports, including collaboration with preschool educators and (5) kindergarten preparedness within the context of the Comprehensive Needs Assessment process. The amended rubric will be in place beginning with the 2021-22 school year.

Transformation (CARES): An Intensive Intervention Pilot

Transformation (CARES) Support is the highest level of intervention within the Department of Public Instruction. It requires a formal partnership to identify and remedy root cause(s) and develop highly focused incremental action steps with performance measures and clearly monitored plans for improved governance.

The purpose of this initiative is to assist those in need of the greatest intervention in managing obstacles to achieving student success during the pandemic. Support was targeted and continues, based on schools with chronic performance issues (low performing status since 2015-2016 designation), high poverty status (defined in WestEd report), and percentage of students affected in the district. In September 2015, Session Law 2015-241 House Bill 97, provided amended definitions for low-performing schools and a new designation for low-performing districts. Trend analysis revealed that 181 traditional schools had been on the list for low performance since this 2015 law change. These schools and districts were categorized internally as *chronically low performing*. These schools were also then analyzed according to high poverty status (>70%) and percentage of students affected. Districts and schools were approached, and a partnership was formed with those who were receptive to participating.

With the federal funding that has been provided to assist with the impact of COVID-19, DRS developed additional support to extend the current services offered to low performing schools. In this model, staff were assigned to districts and/or schools to provide daily coaching and support with the goal of improving daily practices that lead to improved student achievement. The Office of DRS developed partnerships with 24 districts to support 81 schools statewide. The supports for these schools have been customized depending on identified needs (see Appendix A for list of CARES schools).

THE MODEL

DISTRICT & REGIONAL SUPPORT TRANSFORMATION MODEL

The Transformation Model within District & Regional Support is the highest level of intervention within DPI. It requires a formal partnership to identify and remedy root cause(s), develop highly focused incremental action steps with performance measures and clear monitored plans for improved governance.
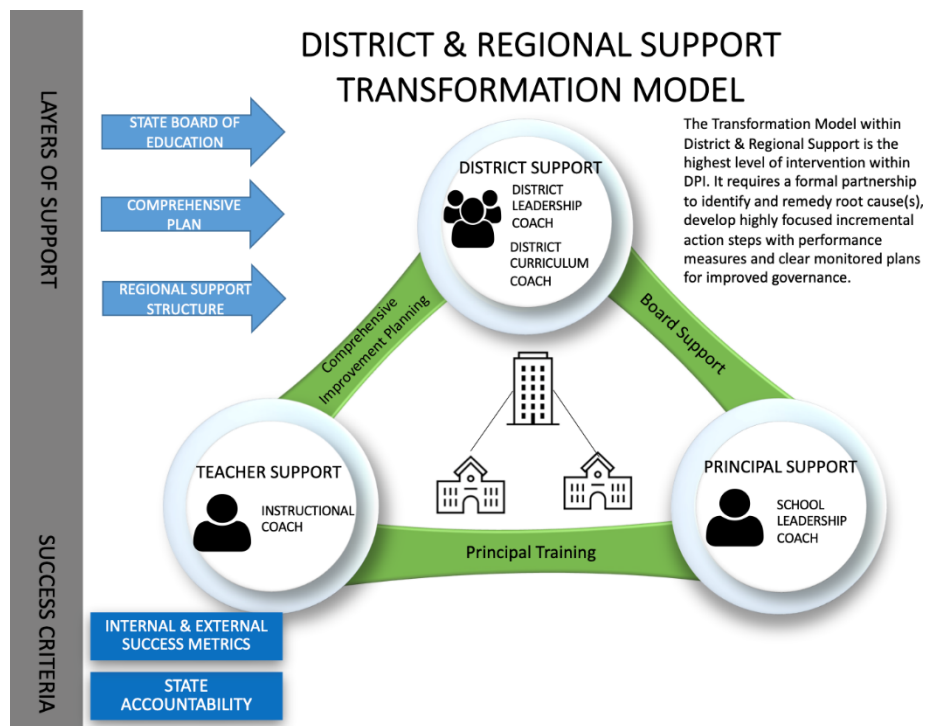

SUPPORT ROLES

- District Leadership Coach (DLC) – District Leadership Coaches work onsite at the district level to build leadership capacity by developing and implementing reformative and innovative processes, procedures, and structures that will lead to improved student achievement. This role leads the Assistance Team that is outlined in Part 3 of Chapter 115C of the General Statutes.
- District Curriculum Coach (DCC) – District Curriculum Coaches provide onsite support to the six CARES districts by assisting district leadership in the development and implementation of strategic methods to improve curriculum alignment, the use of evidence-based instructional practices, and the effective implementation of the North Carolina Standard Course of Study.
- School Leadership Coach (SLC) – School Leadership Coaches work at the school site to build the capacity of the principal and school leadership team with an emphasis on instructional leadership and the development of continuous improvement processes that result in strong systems and structures.
- Instructional Coach (IC) – Instructional Coaches will provide high leverage targeted on school site instructional support to identified low-performing districts/schools. The ICs will work in collaboration with the DLCs, DCCs, and SLCs.

Because of the temporary federal funding, DRS has established a prototype for the highest level of intensive support known as the CARES initiative. This enables DRS to enter a formal partnership with and provide resources to chronically low-performing schools and districts. The support has been established to align to the permanent work of the division and directly connects to both well-established, research-based support levels, Diagnostic Services and School/District Improvement Planning. All 24 districts and 81 schools agreed to participate in the CARES initiative through a Memorandum of Agreement.

NC ILA PILOT

The NC Instructional Leadership Academy (NC ILA) Pilot provided principals and principal managers the unique opportunity to deepen their skills in instructional leadership levers as identified in Leverage Leadership (Bambrick-Santoyo, 2012) and Leverage Leadership 2.0 (Bambrick-Santoyo, 2018). The curriculum is rooted in pedagogical theory and grounded in evidence of what works best in schools. The program incorporates skills and mindsets that have the greatest impact on student learning and character development. The faculty are experienced PK-12 school leaders with track records of helping students achieve exceptional academic growth. They observe, coach, and develop leaders onsite and virtually to support growth and continuous improvement. In 2021, DRS initiated a pilot program within one of the CARES districts with 50 participants formed by principal supervisors and 12 school teams, which consisted of a principal and two additional school leaders. In 2022, the pilot has expanded to work with an additional 100 participants and the remaining 24 school teams in the district. The work will help build instructional capacity of all teachers, academic coaches, school administrators, and central office leaders in the district which should result in all schools meeting or exceeding growth. Starting in the Fall of 2022, NCDPI will launch their first statewide cohort of North Carolina Instructional Leadership Academy where approximately 1500 educators that help build instructional capacity in schools will participate in a two-year professional development program designe to improve their instructional leadership skills at both district and school level.

SUCCESS METRICS

Based on the work of the CARES team in 24 districts across the state, external metrics were selected that quantify efforts for school improvement. These metrics include: Student Proficiency, Chronic Absenteeism, Behavior/Discipline Data, and Culture & Climate Data (as evidenced by TWC). These data will be tracked and used to determine progress for external stakeholders. Even though the majority of these data points are not available for analysis until November, below is a chart that shows the impact of the CARES team of coaches after working in these 81 schools during the first year. Schools that previously did not meet growth decreased from 53.1% to 32.9% and schools that exceeded growth increased from 1.2% to 24.1%. Districts have also seen the impact of the NCDPI coaching and have requested for more schools to be served. Unfortunately, with limited human capital we are unable to fulfill all requests for job-embedded daily coaching support.

CARES INTENSIVE INTERVENTION PILOT
Growth at 81 Schools

	Not Met Growth	Met Growth	Exceeded Growth
2018-2019	53.1%	45.7%	1.2%
2021-2022	32.9%	43.0%	24.1%
Internal metrics of success will be used to show a progression of improvement in seven piloted areas: Governance, Instructional Excellence & Alignment, Leadership Capacity; Human Capital; Planning & Operational Effectiveness; Culture; and Family & Community. These areas were correlated with foundational documents already in use by the Department to gauge effectiveness (Professional Teaching Standards; Principal Evaluation Standards, Comprehensive Needs Assessment dimensions, NCStar indicators, etc.) DRS Leadership Team and District Leadership Coaches are piloting improvement areas in current districts being served.

TRANSFORMATION (CARES): AN INTENSIVE INTERVENTION FUNDING*

ESSER/CARES FEDERAL FUNDING (TO DATE)

2020-2022	Positions: School Leadership Coach (14) Contracts: District Leadership Coach (3) Instructional Leadership Pilot (NC ILA)	$ 4,528,800
2022-2023	Positions: School Leadership Coach (14) Contracts: District Leadership Coach (3)	$ 2,993,290

2022-2024	Positions: School Leadership Coach (14)
	Contracts: District Leadership Coach (4)
	          Instructional Leadership (NC ILA) Pilot Yr 2
	          Instructional Leadership (NC ILA) Pilot Yr 3
	            NC ILA Statewide Yr 1
	            NC ILA Statewide Yr 2
	            Flexible Improvement/Intervention Grants
	
	Positions: DLC, SLC, IC (6)
	Positions: School Instructional Coach (8)
		$18,993,290
		
		$ 2,639,311
		$ 2,535,776

*As of the date of this report, funding for the initial fourteen time-limited positions have been secured until September 2024. Session Law 2021-180 Senate Bill 105 stipulated 20 positions to be created with $2,000,000 dollars for funding. The Department has covered deficits for all 20 positions by using administrative ESSER II funds. To complete the model as designed, the Department has used additional ESSER III funds to secure positions needed for classroom level support.

Recommendations for Additional School Improvement Legislation

- Fully fund the Transformation (CARES) Intensive Intervention Pilot. The CARES pilot is based on a coaching model at each level of school governance. Currently, there are 28 coaches assigned to 81 schools in 24 districts. The model is based on the evidence-based TALAS model deployed by the Department from 2010-2015. The Transformation Model within District & Regional Support is the highest level of intervention within DPI. It requires a formal partnership to identify and remedy root cause(s), develop highly focused incremental action steps with performance measures and clearly monitored plans for improved governance.

- The Office of District & Regional Support would like to add 4 Comprehensive Support Specialists to assist schools in strengthening their continuous improvement processes. Our work with executing §115C-105.37 has shown a great need as the 2021-2022 low preforming school count has almost doubled. Adding 4 of these consultants will give all schools the support they need.

- Change date requirement for this report. The data needed for this report is more readily available after the December submission of School Improvement Plans. A date change will allow a more accurate picture of the progress of schools and districts designated low performing.

- Principal Recruitment Supplement--§115C-285.1 is managed by District & Regional Support. The program provides recruitment supplements to highly effective principals who move to high-needs schools. We recommend alignment to § 115C-105.39 which outlines removal of school principals for two years of non-performance. Our recommendation is to shift from a fixed number of principals bonuses (40) to a fluid availability of the funds that can match the needs presented in the state. This bonus could be a recruitment tool for superintendents to use when executing § 115C-105.39.

- Increase local board accountability. While the requirements in Part 3 of Chapter 115C of the General Statutes mention local school boards, there are no accountability measures or improvement steps for this integral part of school governance. Recommendation: Local school boards would be strengthened by: (1) Board Chair, Vice Chair, and Superintendent participating in mandatory training about the legalities of being a chronically low performing district/school; (2) Implementing a continual monitoring process that describes local board action after the assignment of an assistance team to ensure continued progress; (3) Incorporate local school board training series, coaching, support, and self-evaluation into model of support for chronically low performing districts/schools; (4) Noncompliance in training and continual monitoring process could result in suspension of duties as a local board member and loss of funding for district

- Allow Assistance Teams the ability to recommend to State Board of Education the suspension of any powers and duties of the local board of education that the State Board considers are necessary or appropriate to improve student performance in the local school administrative unit while leaving the superintendent employment intact.

- Allow Assistance Teams to create a support "clustering" network for districts that allow for the regional hiring of highly qualified individuals in the areas of human resources and finance. This would allow the pooling of human capital in hard-to-staff areas of the state.

- As a result of noncompliance with the State Assistance Team, an interim superintendent can be appointed. Based on the CARES initiative pilot, we would strengthen legislation by:
  - Extending autonomy of interim superintendent to hire, fire, and enter into agreements to improve student achievement
  - Defining interim appointment as not more than 3 years

- o Requiring transition plan crafted by local board, interim superintendent, and Assistance Team Lead approved by State Board of Education
- o Defining role of local board of education, interim superintendent, Assistance Team in hiring of new superintendent

Appendix

2021-2022 Low-Performing Schools List

A low-performing school has a School Performance Grade of 'D' or 'F', and a growth status of 'Met' or 'Not Met.' Schools are sorted by public school unit with charter schools at the end of the list.

Beginning with the 2022–23 school year, Southside Ashpole has been transferred back to Public Schools of Robeson County from the Innovative School District. Therefore, Southside Ashpole is reported under the Public Schools of Robeson County using school code 295300. Questions regarding Southside Ashpole should be directed to Public Schools of Robeson County.

2021-2022 Low-Performing Districts

Low-performing districts are defined as districts that had greater than 50% of schools identified as low-performing. Beginning with the 2022–23 school year, Southside Ashpole has been transferred back to Public Schools of Robeson County from the Innovative School District. Therefore, Southside Ashpole is reported under the Public Schools of Robeson County using school code 295300. Questions regarding Southside Ashpole should be directed to Public Schools of Robeson County.

District Code	District Name	Number of Low-Performing Schools	Number of Schools with a School Performance Grade and Growth	Percent of Low-Performing Schools in District
460	Hertford County Schools	5	6	83.3
291	Lexington City Schools	4	5	80.0
660	Northampton County Schools	4	5	80.0
132	Kannapolis City Schools	6	8	75.0
292	Thomasville City Schools	3	4	75.0
580	Martin County Schools	6	8	75.0
761	Asheboro City Schools	6	8	75.0
800	Rowan-Salisbury Schools	24	32	75.0
940	Washington County Schools	3	4	75.0
240	Columbus County Schools	10	14	71.4
330	Edgecombe County Public School	10	14	71.4
930	Warren County Schools	5	7	71.4
040	Anson County Schools	6	9	66.7
170	Caswell County Schools	4	6	66.7
380	Graham County Schools	2	3	66.7
700	Pasquotank County Schools	8	12	66.7
890	Tyrrell County Schools	2	3	66.7
420	Halifax County Schools	7	11	63.6
640	Nash County Public Schools	15	24	62.5
400	Greene County Schools	3	5	60.0
421	Roanoke Rapids City Schools	3	5	60.0
520	Jones County Schools	3	5	60.0
070	Beaufort County Schools	7	12	58.3
080	Bertie County Schools	4	7	57.1
780	Robeson County Schools	20	35	57.1
390	Granville County Schools	9	16	56.3
910	Vance County Schools	8	15	53.3
430	Harnett County Schools	13	25	52.0
410	Guilford County Schools	59	116	50.9

2021-2022 Recurring Low Performing Schools List

A recurring low-performing school is identified as low-performing in any two of the last three years. The years used for this list are the 2017–18, 2018–19 and 2021–22 school years, as 2019–20 and 2020–21 do not have data. A low-performing school has a school performance grade of 'D' or 'F', and a growth status of 'Met' or 'Not Met'. For the purposes of this list, charter schools are not identified as recurring low-performing schools.

2021-2022 Continually Low Performing Charter Schools List

A continually low-performing charter school is identified as low-performing in any two of the last three years. The years used for this list are the 2017–18, 2018–19 and 2021–22 school years, as 2019–20 and 2020–21 do not have data. A low-performing charter has a school performance grade of 'D' or 'F', and a growth status of 'Met' or 'Not Met'.
