expense appropriations and adjusted property tax valuations are available. If real property in a county has been revalued one year prior to the most recent sales assessment ratio study, a weighted average of the two most recent sales assessment ratios shall be used. If property has been revalued the year of the most recent sales assessment ratio study, the sales assessment ratio for the year of revaluation shall be used.

**SECTION 7.3.(c)** Eligibility for Funds. – Except as provided in subsection (g) of this section, the State Board of Education shall allocate these funds to local school administrative units located in whole or in part in counties in which the county wealth as a percentage of the State average wealth is less than one hundred percent (100%).

1 2

SECTION 7.3.(d) Allocation of Funds. – Except as provided in subsection (f) of this section, the amount received per average daily membership for a county shall be the difference between the State average current expense appropriations per student and the current expense appropriations per student that the county could provide given the county's wealth and an average effort to fund public schools. To derive the current expense appropriations per student that the county could be able to provide given the county's wealth and an average effort to fund public schools, multiply the county's wealth as a percentage of State average wealth by the State average current expense appropriations per student. The funds for the local school administrative units located in whole or in part in the county shall be allocated to each local school administrative unit located in whole or in part in the county based on the average daily membership of the county's students in the school units. If the funds appropriated for supplemental funding are not adequate to fund the formula fully, each local school administrative unit shall receive a pro rata share of the funds appropriated for supplemental funding.

**SECTION 7.3.(e)** Formula for Distribution of Supplemental Funding Pursuant to This Section Only. – The formula in this section is solely a basis for distribution of supplemental funding for low-wealth counties and is not intended to reflect any measure of the adequacy of the educational program or funding for public schools. The formula is also not intended to reflect any commitment by the General Assembly to appropriate any additional supplemental funds for low-wealth counties.

SECTION 7.3.(f) Minimum Effort Required. – A county shall receive full funding under this section if the county (i) maintains an effective county tax rate that is at least one hundred percent (100%) of the effective State average tax rate in the most recent year for which data are available or (ii) maintains a county appropriation per student to the school local current expense fund of at least one hundred percent (100%) of the current expense appropriations per student to the school local current expense fund that the county could provide given the county's wealth and an average effort to fund public schools. A county that maintains a county appropriation per student to the school local current expense fund of less than one hundred percent (100%) of the current expense appropriations per student to the school local current expense fund that the county could provide given the county's wealth and an average effort to fund public schools shall receive funding under this section at the same percentage that the county's appropriations per student to the school local current expense fund is of the current expense appropriations per student to the school local current expense fund that the county could provide given the county's wealth and an average effort to fund public schools.

SECTION 7.3.(g) Nonsupplant Requirement. – A county in which a local school administrative unit receives funds under this section shall use the funds to supplement local current expense funds and shall not supplant local current expense funds. For the 2017-2019 fiscal biennium, the State Board of Education shall not allocate funds under this section to a county found to have used these funds to supplant local per student current expense funds. The State Board of Education shall make a finding that a county has used these funds to supplant

local current expense funds in the prior year, or the year for which the most recent data are available, if all of the following criteria apply:

14× 

- (1) The current expense appropriations per student of the county for the current year is less than ninety-five percent (95%) of the average of local current expense appropriations per student for the three prior fiscal years.
- (2) The county cannot show (i) that it has remedied the deficiency in funding or (ii) that extraordinary circumstances caused the county to supplant local current expense funds with funds allocated under this section.

The State Board of Education shall adopt rules to implement the requirements of this subsection.

SECTION 7.3.(h) Counties Containing a Base of the Armed Forces. – Notwithstanding any other provision of this section, for the 2017-2019 fiscal biennium, counties containing a base of the Armed Forces of the United States that have an average daily membership of more than 23,000 students shall receive the same amount of supplemental funding for low-wealth counties as received in the 2012-2013 fiscal year.

**SECTION 7.3.(i)** Funds for EVAAS Data. – Notwithstanding the requirements of subsection (a) of this section, local school administrative units may utilize funds allocated under this section to purchase services that allow for extraction of data from the Education Value-Added Assessment System (EVAAS).

**SECTION 7.3.(j)** Reports. – For the 2017-2019 fiscal biennium, the State Board of Education shall report to the Fiscal Research Division prior to May 15 of each year if it determines that counties have supplanted funds.

**SECTION 7.3.(k)** Department of Revenue Reports. – The Department of Revenue shall provide to the Department of Public Instruction a preliminary report for the current fiscal year of the assessed value of the property tax base for each county prior to March 1 of each year and a final report prior to May 1 of each year. The reports shall include for each county the annual sales assessment ratio and the taxable values of (i) total real property, (ii) the portion of total real property represented by the present-use value of agricultural land, horticultural land, and forestland, as defined in G.S. 105-277.2, (iii) property of public service companies determined in accordance with Article 23 of Chapter 105 of the General Statutes, and (iv) personal property.

#### COOPERATIVE INNOVATIVE HIGH SCHOOL FUNDING CHANGES

**SECTION 7.22.(a)** Legislative Findings. – The General Assembly finds the following in regard to the State's long-term, ongoing investment in providing high school students with opportunities to obtain postsecondary credit and career credentials at no cost to the student in order to maximize cost savings to students in obtaining a postsecondary education:

- (1) Dual enrollment opportunities for high school students have been available in the State for many years but began to significantly grow in the early- to mid-2000s as a result of the General Assembly's enactment of the Innovative Education Initiatives Act and the establishment of the cooperative innovative high school program pursuant to Part 9 of Article 16 of Chapter 115C of the General Statutes. This act demonstrated the State's commitment in prioritizing cooperative efforts between secondary schools and institutions of higher education so as to reduce the high school dropout rate, increase high school and college graduation rates, decrease the need for remediation in institutions of higher education, and raise certificate, associate, and bachelor degree completion rates.
- (2) To ensure continued efficiency in the investment of State funds to provide postsecondary dual enrollment programs for high school students, the General Assembly directed the State Board of Education and the State Board of Community Colleges to jointly establish the Career and College Promise Program pursuant to Section 7.1A of S.L. 2011-145, effective January 1, 2012, to consolidate existing cooperative efforts between secondary schools and institutions of higher education by providing (i) for specific pathways for obtaining college credit that is transferable to community colleges and institutions of higher education, (ii) for college credit leading to a subject-area certificate, diploma, or degree, and (iii) through enrollment at a cooperative innovative high school, enabling students to concurrently obtain a high school diploma and to begin or complete an associate degree program, master a certificate or vocational program, or earn up to two years of college credit within five years.
- (3) The recent growth in the establishment of cooperative innovative high school programs has resulted in a steady increase in full-time equivalent (FTE) student enrollment at community colleges due to the maturation of those programs, including an increase of one hundred forty percent (140%) in FTE enrollment for these students between 2008-2009 and 2013-2014.
- (4) The implementation of other Career and College Promise pathways enabling certain traditional high school students to concurrently enroll in postsecondary courses leading to a defined academic goal has also resulted in a recent rise in student enrollment at community colleges with a thirty percent (30%) increase in the College Transfer pathway and a twenty-one

- percent (21%) increase in the Career and Technical Education pathway between 2012-2013 and 2013-2014.
- (5) For the 2013-2014 academic year, the General Assembly appropriated fifty-seven million dollars (\$57,000,000) in State funds to cover community college FTE for 11,389 students during the first year of full implementation of the Career and College Promise Program.
- (6) For the 2015-2016 fiscal year, the General Assembly appropriated the following amounts to cover the cost of cooperative innovative high schools and other Career and College Promise programs as follows:
  - a. For the cooperative innovative high school allotment, the sum of twenty-five million four hundred eighty-eight thousand seven hundred twenty-five dollars (\$25,488,725).
  - b. For community college FTE for the following:
    - 1. For students enrolled in cooperative innovative high schools, the sum of forty-two million two hundred ninety-one thousand three hundred eighty-six dollars (\$42,291,386).
    - 2. For students enrolled in courses that count toward the College Transfer pathway, the sum of twenty-one million three hundred forty-three thousand five hundred seven dollars (\$21,343,507).
    - 3. For students enrolled in courses that count toward the Career and Technical Education pathway, the sum of twenty-one million seven hundred eight thousand nine hundred thirty-two dollars (\$21,708,932).
  - c. For the reimbursement of tuition for constituent institutions of the University of North Carolina as a partner institution of higher education to a cooperative innovative high school, the sum of one million nine hundred forty-five thousand two hundred one dollars (\$1,945,201).
  - d. For the reimbursement of tuition for private colleges located in North Carolina that are a partner institution of higher education to a cooperative innovative high school, the sum of four hundred fifty-seven thousand six hundred thirty-nine dollars (\$457,639).
- (7) Since considerable State funds have been appropriated on an ongoing basis to cover the cost of high school student enrollment at community colleges, constituent institutions, and approved private colleges pursuant to G.S. 115C-238.54 and G.S. 115D-5(b)(12) as part of the Career and College Promise programs, it is necessary to examine the total cost of these programs and prioritize the appropriation of State funds to achieve the General Assembly's goal of maximizing cost savings to students in obtaining a postsecondary education. This shall include reducing the amount of funds allocated to local school administrative units for the cooperative innovative high school allotment.

**SECTION 7.22.(b)** Study. – In accordance with the legislative finding set forth in subdivision (7) of subsection (a) of this section, by February 15, 2018, the State Board of Community Colleges, the Board of Governors of The University of North Carolina, and the State Board of Education shall study and report to the Senate Appropriations Committee on Education/Higher Education, the House Appropriations Committee on Education, the Fiscal Research Division, and the Joint Legislative Education Oversight Committee on the costs associated with the Career and College Promise Program, including operation of cooperative innovative high schools and the cost of concurrent enrollment in the high school and the

institution of higher education, student outcomes related to the Program, and any legislative recommendations on modifications to the administration and funding for the Program. Legislative recommendations shall also specifically address the use of the funds for the cooperative innovative high school allotment, whether the allotment is necessary for the operation of the schools, and how modification or discontinuation of the allotment would impact the programs.

7 8

SECTION 7.22.(c) Cooperative Innovative High School Allotment Amount. – Of the funds appropriated to the Department of Public Instruction by this act for the 2017-2019 fiscal biennium, the Department of Public Instruction shall allocate from the cooperative innovative high school supplemental allotment the sum of two hundred thousand dollars (\$200,000) in recurring funds each fiscal year to a local school administrative unit for the operation of each authorized cooperative innovative high school located in the unit that was approved by the State Board of Education pursuant to G.S. 115C-238.51A(c), except for a cooperative innovative high school operated by a regional school board of directors pursuant to G.S. 115C-238.50A(3a).

**SECTION 7.22.(d)** Reporting Requirement on the Career and College Promise Programs. – G.S. 115D-5 is amended by adding a new subsection to read:

"(x) In addition to the evaluation of cooperative innovative high schools by the State Board of Education pursuant to G.S. 115C-238.55, the State Board of Community Colleges, in conjunction with the State Board of Education and the Board of Governors of The University of North Carolina, shall evaluate the success of students participating in the Career and College Promise Program, including the College Transfer pathway and the Career and Technical Education pathway. Success shall be measured by high school retention rates, high school completion rates, high school dropout rates, certification and associate degree completion, admission to four-year institutions, postgraduation employment in career or study-related fields, and employer satisfaction of employees who participated in the programs. The Boards shall jointly report by January 15 of each year to the Joint Legislative Education Oversight Committee."

In calculating the overall-school achievement score earned by schools, the State Board of Education shall (i) use a composite approach to weigh the achievement elements based on the number of students measured by any given achievement element and (ii) proportionally adjust the scale to account for the absence of a school achievement elementelement, except for subject-area course offerings under sub-subdivision g. of subdivision (1) of this subsection and sub-subdivision i. of subdivision (2) of this subsection, for award of scores to a school that does not have a measure of one of the school achievement elements annually assessed for the grades taught at that school. The overall-school achievement score shall be translated to a 100-point scale and used for school reporting purposes as provided in G.S. 115C-12(9)c1., 115C-218.65, 115C-238.66, and 116-239.8.

- (c) Calculation of the School Growth Score. Using EVAAS, the State Board shall calculate the <u>overall\_school</u> growth score earned by schools. In calculating the <u>total\_school</u> growth score earned by schools, score, the State Board of Education shall weight student growth on the achievement <u>indicators\_elements</u> as provided in subsection (b) of this section that have available growth values. The numerical values used to determine whether a school has met, exceeded, or has not met expected growth shall be translated to a 100-point scale and used for school reporting purposes as provided in G.S. 115C-12(9)c1., 115C-218.65, 115C-238.66, and 116-239.8.
- (d) Calculation of the School Performance Scores and Grades. The State Board of Education shall use EVAAS to calculate the school performance score by adding the school achievement score, as provided in subsection (b) of this section, and the school growth score, as provided in subsection (c) of this section, earned by a school. The school achievement score shall account for eighty percent (80%), and the school growth score shall account for twenty percent (20%) of the total sum. If a school has met expected growth and inclusion of the school's growth score reduces the school's performance score and grade, a school may choose to use the school achievement score solely to calculate the performance score and grade. Grades for School Achievement and School Growth. For all schools, the total school performance score school achievement score, as provided in subsection (b) of this section, and the school growth score, as provided in subsection (c) of this section, shall each be converted by the State Board of Education to a 100-point scale and used to determine a school performance grade two separate grades, one for school achievement and one for school growth, based on the following scale:
  - (1) A school performance score of at least 90-85 is equivalent to an overall school performance an achievement or growth grade of A.
  - (2) A school performance score of at least 80-70 is equivalent to an overall school performance an achievement or growth grade of B.
  - (3) A school performance score of at least 70-55 is equivalent to an overall school performance an achievement or growth grade of C.
  - (4) A school performance score of at least 60 40 is equivalent to an overall school performance an achievement or growth grade of D.
  - (5) A school performance score of less than 60 points 40 is equivalent to an overall school performance an achievement or growth grade of F.
- (d1) Calculation of Subgroup Scores and Grades. In addition to the school achievement and growth scores and grades awarded under this section, for each school that serves a minimum number of students in a subgroup of students listed in this subsection, the State Board

of Education shall use EVAAS to calculate subgroup achievement and growth scores and shall determine corresponding subgroup achievement and growth grades for each subgroup using the same method as set forth in subsection (d) of this section. Subgroup achievement and growth scores shall not be included in the calculation of the school scores and grades under subsection (d) of this section.

The State Board shall establish the minimum number of students in a subgroup served by a school that is necessary to disaggregate information on student performance and to determine subgroup achievement and growth grades for that subgroup. The subgroup achievement and growth scores and grades shall be reported separately on the annual school report card provided under G.S. 115C-12(9)c1., 115C-218.65, 115C-238.66, and 116-239.8 for the following subgroups of students as required by the Elementary and Secondary Education Act of 1965, as amended by the Every Student Succeeds Act:

- (1) Economically disadvantaged students.
- (2) Students from major racial and ethnic groups.
- (3) Children with disabilities.
- (4) English learners.

- (e) Elementary and Middle School Reading and Math Achievement Scores. For schools serving students in kindergarten through eighth grade, the school achievement scores in reading and mathematics, respectively, shall be reported separately on the annual school report card provided under G.S. 115C-12(9)c1., 115C-218.65, 115C-238.66, and 116-239.8.
- (f) Indication of Growth. In addition to awarding the overall-school achievement and growth scores for achievement, growth, and performance and the performance grade, and grades, using EVAAS, the State Board shall designate that a school has met, exceeded, or has not met expected growth. The designation of student growth shall be clearly displayed in the annual school report card provided under G.S. 115C-12(9)c1., 115C-218.65, 115C-238.66, and 116-239.8.
- (g) Access to Annual Report Card Information on the Department's Web Site. Beginning with data collected in the 2017-2018 school year, the State Board of Education shall provide user-friendly access to the public on the annual report cards issued for local school administrative units and individual schools pursuant to G.S. 115C-12(9)c1. through the Department of Public Instruction's Web site. The information provided for the annual report card shall be designed and organized to provide at least the following:
  - (1) A summary for each local school administrative unit and for each individual school of the school achievement and growth grades, whether the school has met, exceeded, or has not met expected growth, and any other information required to be provided as part of the annual report card.
  - (2) The percentage of schools receiving a school achievement or growth grade of A, B, C, D, or F earned by each school located within a local school administrative unit and statewide.
  - (3) The number of schools that have met, exceeded, or have not met expected growth by each school located within a local school administrative unit and statewide.

  - (5) The ability to easily compare annual report card information, including school achievement and growth grades and whether schools have met, exceeded, or have not met expected growth, for local school administrative units and for individual schools for a time span of at least three years."

**SECTION 7.26.(d)** Part 1B of Article 8 of Chapter 115C of the General Statutes is amended by adding new sections to read:

Findings. - The General Assembly finds that, in today's economy, opportunities for North Carolina's citizens to reach the middle class with a high school level education or even less have significantly decreased. To be competitive and obtain better paying jobs that lead to a better quality of life in the State's current and future economy, most citizens will need some type of postsecondary education that qualifies them for employment. The General Assembly recognizes the importance of bringing together potential employers and providers of postsecondary education for the purpose of identifying workforce skills and training needs and developing courses of study and vocational training that meet the standards expected and required by industries, corporations, and other employers. The General Assembly further finds that the establishment of a permanent board with members who are knowledgeable about postsecondary education and workforce training needs will enable providers of postsecondary education to prepare and design training programs that are responsive to workforce needs and that will assist the State's citizens in securing the credentials required to obtain better paying jobs.

The General Assembly recognizes that postsecondary education opportunities should be easily available and accessible to all citizens. Therefore, the General Assembly encourages State educators, when designing the method and manner for delivering postsecondary educational programs, to take into account the varying income levels and economic circumstances of the State's citizens, transportation needs, and other unique challenges in both urban and rural areas of the State that affect accessibility to postsecondary education opportunities and to make genuine efforts to accommodate and address those factors.

The General Assembly also finds that most employers consider postsecondary credentials such as academic degrees and high-quality, nondegree certifications awarded by institutions of higher education when determining whether a person has the expertise and skills required for a job. However, high-quality credentials may also be obtained through other alternative models such as open-source online programs, on-the-job training, and military experience. Therefore, it is essential that a system also be devised in which the meaning and validity of postsecondary credentials is clear and understandable to educators, employers, and students and that accurately conveys the knowledge, skills, and training obtained by an individual however and wherever it is obtained.

(b) Board Established. - There is established the Board of Postsecondary Education Credentials to be located administratively under the Community Colleges System Office; however, the Board shall exercise all its prescribed powers independently of the Community Colleges System Office. The Board shall consist of the following members:

- (1) The President of The University of North Carolina.
- (2) The President of the State Board of Community Colleges.
- (3) The Superintendent of Public Instruction.
- (4) The Commissioner of Labor.
- (5) The Secretary of Commerce.
- (6) The President of North Carolina Independent Colleges and Universities.
- (7) The Chair of the State Board of Proprietary Schools.
- (c) Purpose. The purpose of the Board is to review and make recommendations for the development of a statewide system of postsecondary education that links industry, corporations, and businesses in this State with educators, government, and community organizations to identify workforce skills and training needs and to ensure that appropriate courses of study and vocational training are available to North Carolinians, including those preparing to pursue postsecondary education, entering the workforce, or seeking to update skills and training for purposes of retaining employment and advancing in the workforce.

In addition, the Board shall identify alternative ways in which people gain valuable workforce skills and experience, such as on-the-job training, that are not represented by four-year or two-year degrees and the types of credentials used to signify competence of a certain level upon successful completion of the alternative training experience. The Board shall review and make recommendations on those criteria to be used to determine the value of a nondegree credential, the competencies that it represents, and how it should be compared and valued with regard to other types of postsecondary credentials.

- (d) Duties. The duties of the Board include the following:
  - Recommend State goals and a framework for achieving those goals among educators to ensure that by 2025, the appropriate percentage, as decided by the Board, of the State's adult citizens will hold degrees, certificates, or other high-quality postsecondary credentials. The Board shall divide the responsibility among The University of North Carolina System and the State's Community College System for achieving the goals adopted by the Board. The Board shall periodically review the progress made toward the goals, evaluate the strategies developed and used toward to attain those goals, and may make additional recommendations.
  - (2) Identify the credentials that are acceptable for meeting those goals and determine how the responsibility for providing the courses of study and training for those credentials shall be assigned among the State's educators and others. In making these determinations, consideration shall be given to the fact that the individuals who need these courses of study and training are of various economic levels and are also located in rural areas and metropolitan areas across the State. These factors shall be taken into account with regard to the location and delivery of the courses of study and training programs.
  - Address the issue of postsecondary credentials, the various levels of skill and knowledge those credentials signify, and how to accurately convey that information to employers, students and trainees, and providers of postsecondary education. The Board shall consider procedures and methods for recognizing skills and training needed in the workforce that an individual may have obtained through military experience, through on-the-job and employee-proved training, or through other life experiences.
- (e) Chair. The Board shall elect from the members a chair and a vice-chair for terms of two years. A chair or vice-chair may serve no more than two consecutive terms in that role.

(f) Hire Staff and Consultants. – To the extent of funds available, the Chair of the Board may, with the approval of the Board, hire staff or consultants to assist the Board in carrying out its purpose and duties.

2 3

- (g) Travel and Subsistence. Members, staff, and consultants of the Board shall receive travel and subsistence expenses in accordance with the provisions of G.S. 138-5 or G.S. 138-6, as appropriate.
- (h) Meeting Space. With the approval of the Legislative Services Commission, space in the Legislative Building and the Legislative Office Building may be made available to the Board.
- (i) Frequency of Meetings and Quorum. The Board shall meet upon the call of the Chair and shall have its first meeting no later than October 1, 2017. The Board shall meet at least quarterly. A majority of the members of the Board shall constitute a quorum for the transaction of business.
- (j) Reporting Requirement. The Board shall report initially no later than March 1, 2018, to the Joint Legislative Education Oversight Committee regarding the goals established by the Board pursuant to this section and the progress in meeting those goals and shall report annually thereafter. The report shall include any recommendations by the Board regarding legislation needed to implement this section."
- **SECTION #.(b)** Of the funds appropriated by this act for the 2017-2019 fiscal biennium to the Community Colleges System Office, the sum of three hundred fifty thousand dollars (\$350,000) for the 2017-2018 fiscal year and the sum of three hundred fifty thousand dollars (\$350,000) for the 2018-2019 fiscal year shall be allocated to the Board of Postsecondary Education Credentials to be used to cover operating expenses of the Board, including expenses for staff and consultants to assist the Board in carrying out its purpose and duties.
