

Report to the North Carolina General Assembly

Study Status and Cost of Carbon Monoxide Alarms and Radon Testing in Schools

SL 2023-134, Section 7.78.

This survey remains active and data collection is ongoing. The required survey parameters necessitate a large data collection effort, in order to generate a meaningful report.

As of the date of this DRAFT REPORT, survey responses received have been minimal.

The anticipated date for a FINAL REPORT is March 15, 2024.

STATE BOARD OF EDUCATION

STATE BOARD OF EDUCATION VISION: Every public school student in North Carolina will be empowered to accept academic challenges, prepared to pursue their chosen path after graduating high school, and encouraged to become lifelong learners with the capacity to engage in a globally-collaborative society.

STATE BOARD OF EDUCATION MISSION: The mission of the North Carolina State Board of Education is to use its constitutional authority to guard and maintain the right of a sound, basic education for every child in North Carolina Public Schools.

EXECUTIVE SUMMARY

This survey remains active and data collection is ongoing. The required survey parameters necessitate a large data collection effort, in order to generate a meaningful report.

As of the date of this DRAFT REPORT, survey responses received have been minimal.

The anticipated date for a FINAL REPORT is March 15, 2024.

North Carolina SL 2023-134, Section 7.78, requires the State Board of Education to survey certain public schools to determine the status and cost of carbon monoxide alarms and radon gas testing in existing school buildings, and report their findings to the Joint Legislative Education Oversight Committee.

The survey involves “identified public schools” as defined in the governing legislation. These schools include: certain PSU Schools, State Agency Schools, Laboratory Schools, Regional Schools, and other Statewide Schools.

Legislative Provision (SL 2023-134)

STUDY STATUS AND COST OF CARBON MONOXIDE ALARMS AND RADON TESTING IN SCHOOLS

SECTION 7.78. The State Board of Education shall survey all identified public schools to determine the number of existing school buildings that are currently not equipped with carbon monoxide alarm and detection systems but would have to install those systems if required to be in compliance with the requirements for new buildings in Section 915 of the North Carolina State Building Code, Fire Prevention Code (non-equipped buildings). The State Board of Education shall also survey all identified public schools to determine the need and implementation of radon gas testing. The State Board of Education shall report to the Joint Legislative Education Oversight Committee the following information no later than December 15, 2023:

- (1) The number of non-equipped buildings statewide, and by identified public school.
- (2) The estimated cost statewide, and by the identified public school, to permit, install, and inspect all non-equipped buildings with carbon monoxide alarm and detection systems and radon gas testing.

For purposes of this section, "identified public schools" shall refer to (i) schools in a public school unit, as defined in G.S. 115C-5(7a), except charter schools, (ii) the North Carolina School of Science and Mathematics, (iii) the University of North Carolina School of the Arts, (iv) schools operated by the Department of Health and Human Services, and (v) schools operated by the Division of Juvenile Justice of the Department of Public Safety.
