Report on Domestic Violence Related Homicides for Calendar Year 2022
Reporting Requirements and Implementation

North Carolina Department of Public Safety

At the request of the Department of Public Safety, the North Carolina State Bureau of Investigation collects this information from other law enforcement agencies, throughout the state. This information is simply collected and forwarded to the SBI voluntarily by those agencies. The SBI has not validated each claim individually.

Reporting Requirements

North Carolina General Statute 143B-901 directs all state and local law enforcement agencies to report specific information regarding domestic violence related homicides, to the NC Department of Public Safety. Pursuant to this statute, the NC State Bureau of Investigation has developed the Domestic Violence Related Homicide Report form, in consultation with the NC Council for Women/Domestic Violence Commission, the NC Sheriffs Association, and the NC Association of Chiefs of Police. Each law enforcement agency in North Carolina must complete a report for each domestic violence related homicide, committed within that agency's jurisdiction. The report is to be completed upon the filing of charges, or when charges would have been filed against the offender if other circumstances, (like the death of the offender) had not intervened. Reporting of domestic violence related homicides is an ongoing requirement for all state and local law enforcement agencies. The State Bureau of Investigation collects this information and reports it to the General Assembly, through the Secretary of the Department of Public Safety.

§ 143B-901. Reporting system and database on certain domestic-violence-related homicides; reports by law enforcement agencies required; annual report to the General Assembly.

The Department of Public Safety, in consultation with the North Carolina Council for Women/Domestic Violence Commission, the North Carolina Sheriffs' Association, and the North Carolina Association of Chiefs of Police, shall develop a reporting system and database that reflects the number of homicides in the State where the offender and the victim had a personal relationship, as defined by G.S. 50B-1(b). The information in the database shall also include the type of personal relationship that existed between the offender and the victim, whether the victim had obtained an order pursuant to G.S. 50B-3, and whether there was a pending charge for which the offender was on pretrial release pursuant to G.S. 15A-534.1. All State and local law enforcement agencies shall report information to the Department of Public Safety upon making a determination that a homicide meets the reporting system's criteria. The report shall be made in the format adopted by the Department of Public Safety. The Department of Public Safety shall report to the Joint Legislative Oversight Committee on Justice and Public Safety, no later than April 1 of each year, with the data collected for the previous calendar year. (2007-14, s. 2; 2014-100, ss. 17.1(g), (rr).)

Relationships Between Victim and Offender, as a Percent of Total Reports in 2022

Relationships Defined in G.S. 50B-1(b)

R1		R2		R3		R4		R5		R6	
Count	% Of Total	Count	% Of Total	Count	% Of Total	Count	% Of Total	Count	% Of Total	Count	% Of Total

Relationship Between Victim and Offender as a Percent of Total Reports in 2022

Percentage of total reports will exceed 100% because a single offense can involve more than one relationship code.

Note that one victim/offender pair could be represented in more than one relationship group.

Relationship 1

Current or former spouses

Relationship 2

Persons of opposite sex who live together, or have lived together

Relationship 3

Related as parents and children, including others acting in loco parentis to a minor child, or as grandparents and grandchildren

Relationship 4

Have a child in common

Relationship 5

Current or former household members
