State Library of North Carolina
ARPA-IMLS Funds
Quarter Ending 12/31/2023
Final Report

Amount of Funds Awarded to State Library by IMLS: $4,309,771.00

Amount of Funds Used by subrecipients: $3,905,526.00

Amount of Funds Used by State Library for Statewide Library Resources: $233,206.77

Amount of Funds Used by State Library for Administration: $171,038.23

Source of Funds: Institute of Museum and Library Services: LSTA American Rescue Plan Act (ARPA) Grants (2021) [CFDA 45.310]

How the funds were awarded: 108 subawards totaling $4,123,009.37 (though only $3,905,526 were used) and internal costs totaling $405,597.61 (though only $404,245 were used) for a total of $4,528,606.98 awarded (and $4,309,771 used). Underspending of initial awards by subrecipients caused funds to be returned to the State Library and those funds were reallocated to additional awards to fully expend the allotment. This resulted in the total amount awarded being higher than the amount used. The funds that were returned and reallocated were counted in both awards, though only actually used in one of them.

- SLNC Adapts accepted applications that targeted high need communities in two application categories: EZ and Project. EZ grants are small, focused efforts to increase digital access. Project grants are for larger, collaborative initiatives that leverage partnerships in local communities to address the digital divide.
- Adapting Technology will allow for libraries to improve library operations through the purchase of technology that support efforts to enable libraries to reach residents, especially in support of education, health, and workforce development needs; and/or to respond to the pandemic and implement public health protocols.
- The State Library is offering expanded digital literacy tools statewide subscription to all public libraries to use with their patrons for Northstar, a digital literacy training tool along with a new scanner that is housed with the Government & Heritage Library to facilitate increased access to digital materials.
- The State Library is offering statewide expanded digital content for users and library staff with additional perpetual access database for researchers and training for library staff from Library 2.0.
- Administrative costs for postage through Mail Service Center along with Indirect Costs
