**Report to the North Carolina General Assembly:
Consolidated Teacher Bonus Program Study and Report for 2022-2023
House Bill 259, 2023
Section 7A.3 (j)**

This report responds to the requirements of the legislation which establishes that “the State Board of Education shall study the effect of the bonus program on teacher performance and retention. The State Board shall report the results of its findings and the amount of bonuses awarded to the President Pro Tempore of the Senate, the Speaker of the House of Representatives, the Joint Legislative Education Oversight Committee, and the Fiscal Research Division by March 15 of each year of the 2023-2025 fiscal biennium.”

This report includes information from the Office of Advanced Learning and Gifted Education, the Office of Career and Technical Education, and the Office of Licensure and Educator Preparation with data analysis provided from the Office of Learning Recovery. ***The data presented in this report are descriptive in nature. Any analyses conducted by NCDPI staff are correlational and do not indicate a causal relationship between the bonus monies and any measure of teacher effectiveness, retention, or other outcomes of interest. Any statements in this report that give the impression of a causal relationship are unintended and are not supported by the methodology used to determine these relationships.***

The following table reviews the report requirements and indicates where the information is addressed:

**Report Requirement 1 and 2 for Advanced Coursework and CTE Bonus Programs:
Number of students enrolled and taking examinations in 2022-2023**

Table 1

Category	Student enrollment	Student exam takers	Number of students with at least one qualifying exam score
Advanced Placement (AP)	80,593	75,249	45,510
International Baccalaureate (IB)	4,336	2,793	2,009
Cambridge International Education (CIE)	608	427	316
Courses needed to attain industry certification or credential (CTE)	151,154	Unable to determine*	40,265

Data sources: NC SIS, College Board, International Baccalaureate, Cambridge International, NCDPI Testing and Accountability

*All students enrolled in courses with aligned credentials are encouraged to attempt to meet the credentials requirements. In some cases, students have multiple attempts. Student attempts are not tracked within NC CTE data collection processes.

**Report Requirement 3 and 4 for Advanced Coursework and CTE Bonus Programs:
Number of teachers receiving a bonus in each category of courses, Bonus amounts awarded,
and Average bonus amount awarded**

In January 2024, 3,145 teachers received a bonus for qualifying exams in Advanced Placement, International Baccalaureate, and Cambridge International Programs totaling \$3,307,292 awarded. On average, \$1,055 is awarded in bonuses to teachers with qualifying scores. Since 2022, the number of teachers receiving the bonus has remained about the same, yet the total amount of bonuses awarded increased each year from 2022 to 2024. Financial records do not distinguish between the Advanced Placement, International Baccalaureate, and Cambridge International programs. All content areas are included in the same budget code.

In January 2024, 1,499 Career and Technical Education (CTE) teachers received a bonus for credentials earned by students with a total of \$1,359,535 awarded. On average in January 2024, \$907 was awarded in bonuses to teachers whose students earn credentials through the CTE program. The

number of teachers receiving the bonus and the total amount of bonuses awarded increased from 2022 to 2024.

Table 2

Program	Year	Number of teachers receiving a bonus	Bonus amount awarded to teachers	Average

**Report Requirement 5 for CTE Bonus Program:
Overview of industry-recognized credentials and the tiering process
Number and total amount of bonuses earned for each certification or credential**

The Department of Public Instruction collaborated with the Department of Commerce's Labor and Economic Analysis Division (LEAD) to identify the academic rigor and employment value of the industry recognized credentials earned by secondary students in Career and Technical Education (CTE) programs during the 2015-16 school year. Based on the data gathered, in December 2016, the State Board of Education approved a bonus program based on three tiers of credentials. Those credentials with both high academic rigor and employment value were designated as Tier 3 and eligible for a bonus of \$50 each. Tier 2 credentials have either high academic rigor or high employment value and will receive a \$25 bonus. Tier 1 credentials, while still valuable to students, did not have either high academic rigor or high employment value and therefore, are not eligible for teacher bonus pay.

Employment value was calculated based on the entry wages, employment growth rate and the projected number of job openings for the primary occupation of each credential earned. The process was similar to the methodology used by LEAD in the Star Job Ratings reporting. DPI and LEAD used

several data sources to match occupations with credentials. However, the alignment process is not a perfect science. Many credentials earned can be aligned with more than one occupation or group of occupations. The CTE Credential Tier Designation is re-evaluated annually. Tables 3, 4, and 5 detail the 2022-2023 assignment of each credential type to a Tier based on the methodology used by DPI and LEAD. Table 6 details the number of bonuses earned for each industry certification or credential, and the total bonus amount awarded for each certification or credential.

Report requirement 7 for Advanced Coursework and CTE Bonus Programs:
Percentage of teachers who received a bonus in 2024 and were eligible at least one previous year, 2022 and/or 2023

Table 7. Percentage of teachers receiving a bonus in 2024 who were eligible in previous years.

Eligible to receive a bonus in	AP/IB/CIE	CTE
2022	88%	46%
2023	87%	54%
2022 and 2023	89%	59%
2022 or 2023	81%	38%

Data were disaggregated based on the definitions provided in the legislation.

(1) Eligible advanced course teacher. – A teacher of Advanced Placement courses, International Baccalaureate Diploma Programme courses, or the Cambridge Advanced International Certificate of Education (AICE) program who meets the following criteria:

- a. Is employed by, or retired having last held a position at, one or more of the following:
 1. A qualifying public school unit.
 2. The North Carolina Virtual Public School program.
- b. Taught one or more students who received a score listed in subsection (c) of this section.

(2) Eligible career and technical education (CTE) teacher. – A teacher who meets the following criteria:

- a. Is employed by, or retired having last held a position at, a qualifying public school unit.

- b. Taught one or more students who attained approved industry certifications or credentials consistent with G.S. 115C-156.2.

There are limitations to the data regarding a teacher of advanced courses or CTE courses. From year to year, there may be a limit on the number of course offerings or credentials in a school or new courses or credentials are introduced. A teacher could be retained in the same district or charter school yet decide to teach a different course the following year. These limitations will impact a teacher's eligibility to earn a bonus.

**Report requirement 8 and 9 for Advanced Coursework and CTE Bonus Programs:
Percentage of teachers who received a bonus in 2024 and at least one previous year, 2022
and/or 2023**

Based on the data available, the percentages displayed in Table 8 represent the minimum values in each category.

- ***At least 86% of all advanced coursework teachers who received a bonus in 2024, also received a bonus in either 2022 or 2023. At least 90% of all AP/IB/CIE teachers who received a bonus in 2024 also received a bonus in both 2022 and 2023.***
- ***At least 46% of all CTE teachers who received a bonus in 2024, also received one in either 2022 or 2023. At least 66% of all CTE teachers who received a bonus in 2024 also received a bonus in both 2022 and 2023.***

The highest probability for an AP/IB/CIE or CTE teacher to receive a bonus in 2024 was if the teacher also received a bonus in 2022 and 2023. Based on these data below, the bonus program may have had a positive impact on teacher retention; however, the causal relationship cannot be determined.

There are limitations to these data as the districts and charter schools distribute the funds directly to the teachers. NCDPI does not directly provide bonuses to each teacher, therefore the data is not as complete as possible; the percentages are likely higher.

Table 8. The percentage of teachers who received a bonus pursuant to this section and the previous years.

	AP/IB/CIE	CTE
Bonus in 2024 and 2022	90%	52%
Bonus in 2024 and 2023	89%	63%
Bonus in 2022, 2023, and 2024	90%	66%
Bonus in 2024 and either 2022 or 2023	86%	46%

Report requirements 6-10: Growth-based Teacher Bonus Program

1. Average bonus amount awarded to each qualifying teacher who is an eligible teacher in the three bonus categories for both the state and local bonuses.

Table 1. Average bonus amounts per teacher receiving bonus by category

	Local Bonuses			State Bonuses			All Bonuses	
	Count	Avg		Count	Avg		Count	Avg
Reading G3	1,301	\$3,494		1,377	\$3,500		1,570	\$5,965
Reading G4-5	1,489	\$2,011		1,551	\$2,010		1,798	\$3,384
Math G4-8	2,539	\$2,022		2,742	\$2,023		3,169	\$3,340

Note: Counts reflect every bonus received by teachers. Some teachers received more than one local or state bonus in a given category. Some teachers received one or more local bonuses but no state bonuses, and vice versa. To compute the average bonus amount, NCDPI totaled all bonuses received for each teacher in that category and caps the total bonus amount at \$7,000 (\$3,500 state, \$3,500 local) for third grade reading, and \$4,000 (\$2,000 state, \$2,000 local) for reading in grades 4-5, and math grades 4-8. The table reports the average teacher-level bonus amount (accounting for caps on the maximum total bonus amount) for those receiving bonuses.

2. The percentage of teachers who received a bonus in January 2024 and were eligible to receive a bonus in the same grade level or course in January 2020 or January 2023.

Table 2. Bonus receipt by prior eligibility in same grade or subject

Notes: Every teacher with an EVAAS rating in 3rd-5th grade reading or 4th-8th grade mathematics for the 2020, 2023, or 2024 bonus years is counted once in the table. The rows group these teachers into four categories based on their eligibility in 2020 and/or 2023. The subtotal row groups the previous two rows, i.e., those eligible in 2020 **and/or** 2023. The columns group the teachers further by their bonus receipt in 2024. The table reports the count of teachers in each cell, as well as the row percentage.

Supplemental tables in the appendix disaggregate Table 2 by bonus category.

3. The percentage of teachers who received a bonus in January 2024 and received a bonus for teaching in the same grade level or course in January 2020 or January 2023, or both.

Supplemental tables in the appendix disaggregate Table 3 by bonus category.

4. The percentage of teachers who received a bonus in January 2024 and received a bonus for teaching in the same grade level or course in January 2020 or January 2023.

This item is intentionally blank as it is answered in the table under question #3 above.

A Note about Requirements 5-7

For purposes of requirements 5-7, NCDPI defined statistical relationship as the difference in probabilities of receiving a bonus in 2024 for those who did, and did not, receive a bonus in 2023. NCDPI limited the sample to those who had EVAAS ratings in 3rd grade reading in 2023 and 2024.

As with the other questions in this report, the findings here are descriptive, not causal. The findings below do not necessarily provide evidence that participating in the bonus program in 2023 led to the results in 2024. The relationships reported here do not necessarily indicate that the bonus motivated teachers to achieve high growth with their students in the following year or that teachers decided to remain in the district the following year due to an anticipated bonus. A causal relationship between the bonus and teacher motivation/retention cannot be determined from these correlational analyses. Given

these caveats, the data indicate that there is a statistically significant relationship between earning a bonus in the prior year and qualifying for the bonus in the following year. Teachers who earned a bonus in the 2022-2023 school year were approximately twice (or, in some cases, greater) as likely to earn the bonus in the following year as compared to teachers who did not earn a bonus in the prior year.

5. The statistical relationship between a teacher receiving a bonus in 3rd grade reading (State or local, analyzed separately) in January 2024 and receiving a bonus in 3rd grade reading in January 2023.

Notes: Table includes teachers with EVAAS ratings in 4th-8th grade math for the 2023 and 2024 bonus years. The columns report the predicted probability that a teacher receives a state bonus in 2024 if the person received any bonus in 2023 (I), received no bonus in 2023 but had a 3rd grade reading EVAAS score (II), or did not have 4th-8th grade math EVAAS score (III). Column IV shows the percentage point difference in probability of receiving the bonus in 2024 of those who did and did not receive the bonus in the prior year (Column I minus Column 2). Differences with an * are statistically significant at p.<05. Charter school teachers, not eligible for local bonuses, are excluded.

Supplemental tables in the appendix show report counts of teachers by bonus status in 2023 and 2024.
